By Mr. Speaker:

BOARD OF SUPERVISORS, COUNTY OF TRINITY.

Resolution of the board of supervisors of Trinity County, California, in opposition to Senate Bill No. 286 and Assembly Bill No. 502.

WHEREAS, Senate Bill No. 286 and Assembly Bill No. 502 which seek to prohibit the roiling of the waters of the Trinity and Klamath rivers are now pending; and

WHEREAS, The passage of these bills would seriously injure farming, mining and all other industries in Trinity County and so reduce the assessable values of said county as to make its future existence as a county almost impossible; and

WHEREAS, Said bills have been introduced without a proper factual and scientific study to determine the form, character and consequence of such legislation, and many technical problems are involved in finding a permanent and satisfactory solution of said problem; now, therefore, be it unanimously

Resolved, By the board of supervisors of Trinity County, California, in regular session assembled, this fifth day of March, 1931, that said bills and all amendments thereto and all similar legislation be defeated at this time and that before any such legislation be considered, now or in the future, a scientific study should be made by men qualified to determine the technical questions involved as to mining, conservation of fish, and constitutional law.

Resolved, That a copy of this resolution be sent by the clerk of this board to each member of the Legislature and to the board of supervisors of each county of the State.

By Mr. Kline:

Hon. Chester M. Kline,
Assemblyman, San Jacinto, California.

DEAR SIR: We, the undersigned representatives of the W. T. Rawleigh Company and the J. R. Watkins Company, retailing their products direct to homes of people, petition your honor to give careful consideration to Senate Bill No. 587 and House Bills Nos. 75 and 1221 if amended to read one hundred dollars every twelve months instead of six months.

And 15 others.

By Mr. Kline:

RIVERSIDE CITY SCHOOLS,
RIVERSIDE, CALIFORNIA, March 5, 1931.

Hon. Chester Kline,
Member of State Assembly.
Sacramento, California.

DEAR SIR: We, the teachers of Bryant School, wish to heartily endorse Senate Bill No. 200 (Rochester), known as the Teachers' Retirement Bill.

We feel that his bill corrects defects in the present retirement plan, is actuarily sound, and will promote the welfare of the schools in that it insures security in old age for the teachers, and thus establishes peace of mind in the teaching personnel. It is a fairer measure than the present plan in that it provides for withdrawal of deposits by those leaving the profession. All its provisions seem to be meritorious.

Respectfully yours,

GRACE MURRAY, Principal.
And 10 others.

PATTERSON, Chairman.

MESSAGE FROM THE GOVERNOR.

The following report of standing committee was received and read:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, March 10, 1931.

To the Honorable Members of the Senate and Assembly.

In accordance with the provisions of section 34, article IV, of the State constitution, I propose at this time certain amendments to the budget and the Budget Bill as originally presented to you on January 12, 1931. With the exception of one item the changes, which are few in number, are only of a minor nature.

The Budget Bill as introduced in the Legislature provides in section 5 that when prisoners or insane persons are transferred from one institution to another institution, the money, included in the support appropriation of the institution from which such inmates were transferred, could also be transferred to the institution receiving the prisoners or insane persons. I have been informed by the Attorney General that there is some question as to the constitutionality of this provision and I am therefore recommending that section 5 of the Budget Bill be stricken out and that an

amount of $500,000 be added to the emergency fund to provide funds for the institution to which prisoners or inmates are transferred. The institutions from which these prisoners or inmates are transferred will be required to set aside the amount of money which was included in their respective budgets and allow this amount to revert to the general fund at the close of the biennial period

The United States government has just set aside an amount of $50,000 per year for the completion of topographical surveying and mapping of the State of California, with a provision that this sum shall be available if matched by the State. The budget already contains an item of $40,000 for this purpose and I believe that it is a good business policy to provide an additional $60,000 in order that this important work may be speedily completed.

Through an oversight no request was made by the Thirty-second District Agricultural Association and the Forty-sixth District Agricultural Association for appropriations of the same amount which were provided in the budget for this biennium. Since the budget was presented a request has come from these associations that similar amounts be provided during the ensuing biennium as they would again hold their annual district fairs. I am therefore recommending $20,000 for the Thirty-second District Agricultural Association and $25,000 for the Forty-sixth District Agricultural Association.

The State Board of Equalization has requested that an amount of $25,186 be added to their budget provision for checking evasions of the Gas Tax Law. I am of the opinion that this amount of money will bring in many thousands of dollars over and above this appropriation in the way of added revenue to the State from the tax on gasoline.

In addition to the items above mentioned there are nine other minor items which are shown in the detailed list below. There are several other amendments to the Budget Bill which do not change the amounts appropriated but merely modify the language of the bill to clarify its meaning.

The amendments as proposed and the budget page upon which the original recommendation can be found are shown below:

RIVERSIDE, CALIFORNIA, March 5, 1931.

Hon. Chester Kline,
Member of State Assembly,
Sacramento, California.

DEAR SIR: We, the teachers of Lowell School, wish to heartily endorse Senate Bill No. 200 (Rochester), known as the Teachers' Retirement Bill.

We feel that this bill corrects defects in the present retirement plan, is actuarily sound, and will promote the welfare of the schools in that it insures security in old age for the teacher, and thus establishes a peace of mind in the teaching personnel. It is a fairer measure than the present plan in that it provides for withdrawal of deposits by those leaving the profession. All its provisions seem to be meritorious.

Respectfully yours,

RUTH P. JOHNSON, Principal,
And nine others.

Sec. 2 (*a*) Unless specifically stated otherwise, the term "milk" as used in this act shall be construed to mean the milk of cows or goats as defined in the general dairy law of California and as distinguished from the milk of sheep or other animals.

Market milk.

(*b*) Market milk is milk which is supplied to the consumer in the natural fluid state or prepared for human consumption without being converted into any other form or product, as distinguished from manufacturing milk. Except as provided in section 3 (*c*) of this act, market milk shall contain not less than three and three-tenths per cent of milkfat as a minimum.

Market cream.

(*c*) Market cream is a product of milk resulting from the natural or mechanical separation of the constituents thereof and containing not less than twenty per cent of milkfat.

Goat's milk.

(*d*) All of the provisions of the pure milk law shall apply to goats and goat's milk. It shall be unlawful for any person, firm, corporation or association to sell or exchange, offer or expose for sale or exchange for human consumption as and for cow's milk any cow's milk to which goat's milk has been added or as and for goat's milk any goat's milk to which cow's milk has been added.

Raw market milk to be sold from tuberculin-tested animals only.

(*e*) It shall be unlawful for any person, firm, corporation or association to sell or exchange or offer for sale or exchange for human consumption except in bulk to the wholesale trade any raw market milk or raw market cream from cows, and/or raw market goat's milk from goats that have not passed a tuberculin test applied annually by a qualified veterinarian in the full-time employ of the department of agriculture of the State of California, or a veterinarian acceptable to and designated by said department. If reacting animals are found they must be removed from the herd immediately by the owner, must thereafter be kept separate and apart from any and all animals whose milk is produced for human consumption in the raw state, and the non-reacting animals remaining in the herd must be again tested in six months by the department; *provided*, that in counties declared "tuberculosis control areas" by the department of agriculture of the State of California, the application of tuberculin test and disposition of reactors shall be in accordance with the provisions of the bovine tuberculosis law.

Pasteurization temperature requirements

If pasteurized, all portions of such market milk shall be uniformly heated to a temperature of at least one hundred forty degrees, but not higher than one hundred forty-five degrees Fahrenheit, and held at such temperature for at least thirty minutes and immediately thereafter cooled to a temperature of fifty degrees Fahrenheit or below and so maintained until delivery to the consumer: *provided*, that exceptions to this required process for pasteurization may be made upon receipt of a special written permit from the department of agriculture of the State of California. Every pasteurization plant shall be equipped with a sufficient number of self-registering devices to accurately record the temperature to which and the length of time for which the pasteurized product has been heated. Such records shall be kept for two months and shall be available for inspection by any authorized inspector, agent or other employee of any health department, any approved milk inspection service or the department of agriculture of the State of California. Repasteurized milk shall not be sold for market milk.

Bottling raw and pasteurized market milk.

(*f*) Pasteurized market milk shall be bottled only in the plant where it is pasteurized. Raw market milk and pasteurized market milk shall not be bottled in the same plant, except in those plants where milk is received exclusively from cows that have passed an official tuberculin test as required for raw market milk by the provisions of section 2 (*e*) of this act, or except in those plants where an official representative of any approved milk inspection service is maintained during the period of handling, processing or bottling any such market milk.

Pasteurizing operator's license.

(*g*) All persons engaged in operating a pasteurizer where market milk and/or market cream is pasteurized shall first obtain and hold a license to do so from the department of agriculture, said license to be known as a pasteurizer's license. Upon receipt of an application for such license, the department of agriculture shall examine into the qualifications of the applicant and every applicant shall satisfy said department of his qualifications, and shall have a thorough knowledge of the provisions

of the law with which he must comply, and shall pay a fee of five dollars before any such license shall be issued; *provided*, that in cases where the applicant already holds a "tester's license" and/or a "technician's license" the initial fee for the pasteurizer's license shall be two dollars and fifty cents. All pasteurizer's licenses shall expire with the thirty-first day of December of each year and may be renewed within thirty days prior to expiration upon filing application for such renewal and payment of a renewal fee of one dollar; *provided*, all requirements of the law and regulations pertaining to the work of the licensee have been observed. Any pasteurizer's license may be suspended or revoked by the department of agriculture for violation, by the holder thereof, of any of the provisions of this act, or any of the rules and regulations promulgated by the department of agriculture for its enforcement.

By Mr. Kline:

RIVERSIDE, CALIFORNIA, February 27, 1931.

Hon. Chester M. Kline, Sacramento, California.

DEAR SIR: We write to urge you to support Senate Bill No. 260 (by Senator George W. Rochester), because we feel that it provides for a retirement payment large enough to be of value, because it is based upon years of service—not merely upon age, and because it permits the return of payments (with interest) to teachers who leave the service.

Such a law as this would offer real security to teachers; therefore we trust that you will give it your favorable consideration.

Very respectfully,

THE FACULTY OF UNIVERSITY HEIGHTS JUNIOR HIGH SCHOOL.

EMILIE YELTON,
And 15 others.

MOTION.

Mr. McGuinness moved that a Committee of Three be appointed by the Speaker of the Assembly to cooperate with the Committee of the Senate in arranging for a joint session of the Legislature and a proper reception, to hear and receive Senator Hiram Johnson, who in accordance with an invitation from the Senate, has accepted an invitation to address it on March 25th.

Motion carried.

SEC. 3. It shall be unlawful for any person, firm, association or corporation, or any member, officer, agent or employee thereof, to sell, attempt to sell, offer for sale or assist in the sale of, any gasoline, distillate or other motor fuel, or lubricating or motor oil for use in internal combustion engines, and wilfully and falsely represent such gasoline, distillate or other motor fuel or lubricating or motor oil to be the product of any manufacturer, refiner or producer other than the true manufacturer, refiner or producer thereof; and it shall be unlawful for any individual or any member of a firm or association, or any officer of a corporation knowingly to permit any employee of such individual, firm, association or corporation, to sell, offer for sale or assist in the sale of, any gasoline, distillate or other motor fuel, or lubricating or motor oil for use in internal combustion engines, and falsely represent such gasoline, distillate, or other motor fuel, or lubricating or motor oil to be the product of any manufacturer, refiner or producer, other than the true manufacturer, refiner or producer thereof;

Provided further, that as to any bottles used for dispensing lubricating or motor oil, if such bottles are kept in baskets, stands or racks, for holding same, it shall be sufficient to label such basket, stand or rack in lieu of labeling the bottle itself; and

PRESENTATION OF PETITIONS.

The following petitions were presented, and ordered printed in the Journal:

By Mr. Speaker:

WHEREAS, For many years past the superior court of this county has been classed with the superior courts of the City and County of San Francisco, and the county of Los Angeles, as courts of metropolitan counties; and

WHEREAS, The judges of Alameda County have always functioned with the utmost efficiency and have always had a reputation for industry, integrity and ability; and

WHEREAS, There is a movement on foot in the State Legislature to raise the salaries of the superior court judges in other metropolitan counties; and

WHEREAS, The conditions in Alameda County are in all respects comparable with the conditions in the other metropolitan counties and the requirements for the judges of Alameda County are identical with those of the other counties mentioned; now therefore, be it

Resolved, That this grand jury recommends to the State Legislature that if it raises the salaries of the superior judges in the City and County of San Francisco and Los Angeles, or in either of said counties, that the salaries of the judges of Alameda County be likewise raised in order that Alameda County may continue to be on a parity with the City and County of San Francisco and the county of Los Angeles in so far as its judiciary is concerned; and be it further

RESOLUTION.

WHEREAS, There is now pending in the Legislature of the State of California, a bill creating a new Colorado River Commission of the State of California and/or extending the term of the present Colorado River Commission; and

WHEREAS, The Colorado River Commission of the State of California, has made concessions adverse to the rights of the State of California in the Colorado River, and which have curtailed the water rights in the State of California; and

WHEREAS, Any further negotiations by such a commission without they are in a position to make further concessions relative to water, would be useless; and

WHEREAS, The making by the State of California of any further concession as to the water or water rights in said Colorado River, would cause a serious shortage of water and great loss in the State of California and jeopardize already perfected and vested water rights in said Colorado River; and

WHEREAS, The Attorney General of the State of California is fully empowered by law to protect the interests of the State of California, irrespective of the authority proposed to be vested in said commission by said proposed bill now pending before the Legislature; and

WHEREAS, The Imperial Irrigation District is the most vitally interested single political body of the State of California in the Colorado River; and

WHEREAS, It is the opinion of the board of directors of the Imperial Irrigation District that the continuation of the present Colorado River Commission and/or the creation of a new Colorado River Commission, can accomplish no good and we believe will jeopardize the interests of the State of California; now, therefore, be it

Resolved, By the board of directors of Imperial Irrigation District in meeting regularly assembled, that the Legislature of the State of California, be requested to refuse enactment of any legislation creating a new Colorado River Commission and/or extending the term of the present Colorado River Commission; and be it further

Resolved, That a copy of this resolution be forwarded to the Governor and to both branches of the Legislature of the State of California.

SACRAMENTO, CALIFORNIA, March 12, 1931.

Assemblyman Percy G. West,
Sacramento, California.

DEAR MR. WEST: Inclosed you will find copies of letters, the subject matter of which was passed by the California State Grange at their annual session held in Napa, October 21–24, 1930.

This matter was again brought before Sacramento Grange on March 7, 1931. We, therefore, urge that you use your best efforts and influence toward the passage of these measures.

Very truly yours,

SACRAMENTO GRANGE, No. 12.
F. H. COOPER, Master pro tempore.
ELLA C. BRAUGHLER, Secretary.

COPY OF STATE MASTER'S LETTER OF THE CALIFORNIA STATE GRANGE TO SUBORDINATE GRANGE MASTERS.

WORTHY MASTER: At the last session of the State Grange held at Napa, a personal income tax for California was approved, and according to this action a bill has been introduced in the Legislature providing for such a tax. This bill, Assembly Bill No. 436, was introduced by Percy G. West of Sacramento. The bill provides for a tax on incomes of $1,000 for single persons, and $2,000 for married people, with a further exemption of $400 for each child or other dependent in the family.

The tax ranges upward to 5 per cent for net incomes of $50,000 or over. There are no exemptions as to the source of income or nature of business or employment.

The bill provides that the tax shall be levied by the State Franchise Tax Department, which is already equipped to handle income taxes, and shall be collected by the State Controller's office. This will make it unnecessary to set up any additional governmental machinery to put this tax in operation. The funds are placed in a State Equalization Fund to be used for school purposes, this fund to be allocated to school districts; with a further provision in the bill, that in no instance shall such funds be used as additional money but only to reduce budgets as prepared for actual school needs.

Another resolution adopted by the State Grange provides for dried fruit inspection by the State Department of Agriculture. This bill was introduced by Senator Herbert C. Jones of Santa Clara, and is Senate Bill No. 563. All fruits grown in California, with the exception of dried fruits, are inspected and certified by the State department. It seems, therefore, only reasonable that the dried fruit industry should have this same service. The bill, as written, however, does not make such inspection and certification mandatory, but it is optional with the growers. Any grower or group of growers or packers may apply to the State Department of Agriculture, in writing, and the department must then certify and inspect the grower's or packer's fruit.

The information coming to this office, indicates that before the dried fruit industry can get the best marketing results in continental Europe, we must have government inspection and certification. With such service by the State Department of Agriculture, we believe that the present surpluses can be greatly reduced if not entirely removed by new markets which can be opened.

This office is therefore requesting that your Grange send either a letter or a resolution to your representatives in the Legislature, requesting that they support these two measures. Both are of vital importance to California farmers.

Fraternally yours,

GEO. SEHLMEYER,
Master California State Grange.

By Mr. West:

RESOLUTION.

WHEREAS, It has been brought to our notice that substitutes for butter are used to a great extent in our State institutions, and as this tends to work a hardship on the dairy industry of this State which is now laboring under adverse conditions; therefore, be it

Resolved, By Sacramento Grange in meeting assembled on March 7, 1931, that we go on record requesting our representatives in the State Legislature to vote for the best measure or bill, that may be presented toward abolishing the use of substitutes for butter, and in the above named State institutions; and, be it further

Resolved, That real butter be used in their stead.

SACRAMENTO GRANGE No. 12.

By Mr. West:

RESOLUTION.

WHEREAS, There is a movement on foot to establish a proposed four-year California State College in Sacramento; and

WHEREAS, Sacramento being the logical, geographical, commercial and educational center of Northern California; and

WHEREAS, Sacramento being the only large city in California with a population of 100,000 and outlying districts, whose residents do not have convenient access to a four-year teaching institution of college grade; and

WHEREAS, The territory which would finally be served by the Sacramento four-year college represents a population of something over one-half million people; and

WHEREAS, Sacramento being the center of railway, steamboat, aeronautical and highway transportation and other great advantages including the Crocker Art Gallery, and State Library, which is the second largest in the State; therefore, be it

Resolved, By Sacramento Grange No. 12, in regular meeting assembled on March 7, 1931, that we go on record favoring the establishing of a four-year State college for Sacramento; and, be it further

Resolved, That a copy of these resolutions, under the seal of the Grange, be sent to our representatives in the Legislature.

SACRAMENTO GRANGE No. 12.

By Mr. West:

RESOLUTION.

WHEREAS, The State Legislature of California has now under consideration a series of bills which we believe are intended to undermine the compensation laws of the State of California, to the loss and detriment of injured employees, and to the general loss of the citizens of the State; and

WHEREAS, We are convinced that bills introduced by Assemblyman Patterson, whom, we understand, is an insurance agent, have for their purpose the granting of an increased volume of business to private insurance companies to the detriment of the State Compensation Insurance Fund, now under the direction of the Industrial Accident Commission; and

WHEREAS, We are firmly convinced that the adoption of these bills would be an invitation for graft and corruption among the public officials of the political subdivisions of the State; and

WHEREAS, Because of our fear of undesirable consequences, we have requested, and, in fact, demanded of the Industrial Accident Commission of the State of California, that it send competent attorneys to the State Legislature to explain the menace and danger of these bills, as well as the grave injury that they will do to the injured working men and women of this State; and

WHEREAS, The public press now announces that Assemblyman Patterson, insurance agent, has threatened dismissal from office of the representatives of the State who have appeared before legislative committees and there explained the injustice and the danger of these bills; therefore, be it

Resolved, By the Building Trades Council of Sacramento, in regular session assembled, that we hereby denounce this unwarranted and unjustifiable interference by Assemblyman Patterson, insurance agent, as an attempted coercion of American citizens and also an attempt to suppress free speech and the right of American citizens to, in accordance with the constitution, petition public officials for redress of grievances; be it further

Resolved, That copies of these resolutions be forwarded to the Senate and the Assembly of the State of California, and to His Excellency, Governor James Rolph, Jr.

I am attaching hereto copy of a letter received from the Honorable Don L. Bass of Roseville, California, in which an invitation is extended to the members of the Senate and Assembly to be present at the above mentioned presentation.

The Governor has asked that I forward the copy of this letter to you for the information of yourself and the members of the Assembly for such action as is deemed advisable in the premises.

HEADQUARTERS, GEO. A. MARSHALL CAMP, NO. 89,

ROSEVILLE, CALIFORNIA, March 11, 1931.

Sacramento, California.

DEAR SIR: You are cordially and respectfully invited to attend the presentation of a Distinguished Service Medal to Comrade John E. Boyington, at Mather Field, California, at 9:00 a.m., Thursday, March 19, 1931. We believe that it is just and fitting that all honor should be shown to one of our comrades who has distinguished himself in action, far beyond the line of duty, and we know of no greater honor than having you present at this ceremony. Would it be possible to have the Senate and the Assembly also present? It is hardly probable that any of us will ever live to see a like honor again rendered.

Thanking you in advance for your thoughtfulness in this matter,

I am very sincerely,

JUDGE DON L. BASS, Roseville, California.

AMENDMENT NUMBER ONE.

Strike out the entire title of the printed bill, and insert in lieu thereof the following:

"An act to equalize educational costs in this state, to provide other revenue for educational purposes from the levy and collection of a tax upon the incomes of individuals, estates and trusts, to create and maintain an educational equalization fund and to provide for the distribution of such fund to the counties and cities and counties of this state for educational purposes."

AMENDMENT NUMBER TWO.

Strike out line 1 of the printed bill, and the entire act thereafter, and insert in lieu thereof the following:

"SECTION 1. Short title. This act shall be known and may be cited as "income and educational equalization tax act of 1931."

SEC. 2. Definitions. For the purposes of this act and unless otherwise required by the context:

a. The words "state board" mean the state board of equalization.

b. The word "taxpayer" includes any individual or fiduciary whose income is in whole or in part subject to the tax imposed by this act.

c. The word "individual" means a natural person.

d. The word "fiduciary" means a guardian, trustee, executor, administrator, receiver, conservator, or any person, whether individual or corporate, acting in any fiduciary capacity for any person, estate or trust

e. The word "commissioner" means the franchise tax commissioner as provided for in chapter 13, statutes of 1929.

f. The word "resident" applies only to individuals and includes for the purpose of determining liability to the tax imposed by this act, with reference to the income for any income year, any individual domiciled in the state, and any other individual who maintains a permanent place of abode within the state or spends in the aggregate more than six months of the income year within the state.

SEC. 3. Creation of fund. The educational equalization fund is hereby created, into which all of the proceeds accruing from the tax hereinafter provided for shall be paid. Distribution of said fund shall be made for educational purposes in the manner hereinafter provided.

SEC. 4. Tax on individuals. To provide for the creation and maintenance of said fund, there shall be levied and collected by the State of California a tax on the net income of every resident of the state, after making such deductions from gross income as are allowed by the laws of the United States in the system by them adopted for determining net income and after making such increases and deductions as are hereinafter provided for in determining a proper taxable income. Said tax shall be similar to that of the United States but shall be returned, calculated, ascertained and paid according to the system and rules hereinafter provided.

SEC. 5. Tax return. Whenever any individual residing in this state makes an income tax return to the United States, or is legally bound so to do, such individual being hereinafter briefly referred to, for convenience, as a taxpayer, it shall be his duty to make at the same time a like return to the State of California and file the same with the commissioner for the purpose of a state tax on income. Such duplicate return shall furnish the same information as is contained in the return to the United States, shall be made on a blank form to be furnished by the commissioner, and shall ascertain the taxable net income in the same way as in the return to the United States; but before ascertaining the net income taxable by the state, the following changes shall be made:

a. To the amount ascertained under the laws of the United States as the net income taxable by the United States, there shall be added in said return the gross amount of any salary received by the taxpayer during the tax year, or accrued to him during said period as a public officer or employee of the state, or of any county, municipal corporation, or other political division thereof, and the net amount of any fees, perquisites, or other emolument from said sources or any of them, paid to him during the same period for official compensation; *provided*, that such public officer and employee shall not be required to include their salaries paid or accruing for the term for which, at the time of passage of this act, they shall have been elected.

b. From the amount so ascertained as the taxable net income shall be excluded any compensation received by the taxpayer during the tax year from the United States as an officer or employee thereof and any or all interest paid to the taxpayer on any tax exempt bond or other obligation on the United States, which are tax exempt under the provisions thereof.

If neither of the changes indicated by subparagraphs *a* and *b* above is made, the net income taxable by the State of California shall be the same as that taxable by the United States, and the tax payable thereon to the State of California shall be one-third of that payable to the United States. But in case the net taxable income be changed as the result of complying with subparagraphs *a* or *b* above, the tax payable to the state shall be increased or reduced so as to be one-third of what would have been payable to the United States under their laws upon such increased or reduced taxable net income.

SEC. 6. Return by public officer or employee. Any individual who makes no income tax return to the United States because of having no sufficient income taxable by the United States to call for such return under the laws of the United States, but who would have such sufficient income if his salary, fees or perquisites from the state or subdivision thereof were taxable by the United States, shall be liable and is hereby required to make the State of California an original return on the same or similar form as would be used in making a duplicate return as required in section 4 of this act, indicating in some appropriate way whether the same is an original return. In such case the tax liability to the state shall be one-third of what it would be to the United States if said income were by them taxable.

SEC. 7. Tax on estates and trusts. The net income of estates and trusts in California taxable by the United States is taxable under this act in the same manner and to the same extent as the income of an individual, and the fiduciary of such estate or trust shall make a return to the state in the same manner as hereinbefore required of an individual.

SEC. 8. Claims of exemption. It shall be the right of any taxpayer making return of income for taxation by the state, to attach or add to such return any claim such taxpayer may choose to make as to any item or items included in his return to the United States which he conceives to be exempt from taxation by the State of California. In such case it shall be the duty of the taxpayer so making return to make a clear and distinct statement of all relevant facts connected with such claim, and to make a clear statement of the reasons why he conceives such item to be not taxable by the state. And there shall be deducted any amount that may be derived from incomes of any such taxpayers as the State of California is prohibited from taxing under the constitution of the United States.

SEC. 9. Payments. When such return is made and filed with the commissioner as hereinbefore required, the taxpayer shall, on or before the last day for making return, pay to the commissioner at least one-third of the state income tax as fixed by the provisions hereinbefore made, the balance being due and payable at intervals

of three and six months thereafter. A tax imposed by this or any installment thereof may be paid at the election of the taxpayer, prior to the date prescribed for its payment.

a. All taxes and interest imposed under this act must be paid to the commissioner at Sacramento or to his deputies throughout the state in the form of remittances payable to the treasurer of the State of California, and the commissioner or his deputies shall transmit said payments daily to the state treasurer.

b. Refunds payable from revolving fund. The sum of fifty thousand dollars is hereby appropriated out of the first receipts of taxes paid under the provisions of this act to provide a permanent revolving fund for the purpose of making refunds to taxpayers If in the opinion of the commissioner, a tax has been computed in a manner contrary to law or has been erroneously computed, such fact shall be set forth in the records of the commissioner, and the amount of the illegal levy shall be refunded to the taxpayer from the permanent revolving fund herein created. Said fund shall be replenished quarterly to the sum of fifty thousand dollars from receipts from said tax.

c Fund designated. All moneys received by the state treasurer accruing from said tax, except those referred to above, shall be deposited by him in a special fund in the state treasury, to be designated the educational equalization fund, which is hereby created. Such fund shall be apportioned by the superintendent of public instruction to the several counties of the state, as hereinbefore provided, for the purpose of equalizing educational opportunities and the burdens of local school taxes therein.

SEC. 10. Computation of amount to be allocated. The total amount to be allocated to the counties, and cities and counties, from the state public school equalization fund shall be computed by the superintendent of public instruction as follows:

a. He shall compute the amount which each county shall be entitled to receive from the educational equalization fund for the purpose of equalizing among the several counties the burden of county taxation for elementary schools by subtracting from the estimated apportionment to such county during the current school year from the state school fund, or, if this amount is less than thirty dollars for each unit of average daily attendance in the elementary school districts of the county during the preceding school year, then by subtracting from the latter amount the estimated proceeds of a county elementary school tax rate equal to ten cents on each one hundred dollars of assessed valuation of property in the county taxable for school purposes.

b. He shall compute the amount which each county shall be entitled to receive from the educational equalization fund for the purpose of equalizing among the several counties the burden of county taxation for high schools, by subtracting from twice the amount of the estimated apportionment to such county during the current school year, from the state high school fund, or, if this amount is less than sixty dollars for each unit of average daily attendance in the high school districts of the county during the preceding school year, then by subtracting from the latter amount, the estimated proceeds of a county high school tax rate equal to three cents on each one hundred dollars of assessed valuation of property in the county taxable for school purposes.

c. He shall add the amounts which each county shall be entitled to receive from the educational equalization fund for the purpose of equalizing among the several counties the burden of county taxation for elementary schools and for high schools, and the total of such amounts shall constitute the total amount to be allocated to the counties from the education equalization fund for that school year.

SEC. 11. Report to controller. On or before the first day of August in each year, the superintendent of public instruction shall report to the state controller, an estimate of the amount required as provided in this act for allocation from the educational equalization fund to the counties, and cities and counties of the state for the ensuing school year.

SEC 12 Transfer of funds to the educational equalization fund. Immediately upon the receipt of such estimate the state controller and the state treasurer shall determine the amount in the educational equalization fund and if such amount is less than the amount of the estimate submitted by the superintendent of public instruction the state controller and the state treasurer shall transfer from other revenues of the state to the educational equalization fund an amount sufficient to provide in such fund an amount equal to the estimate of the superintendent of public instruction

SEC. 19. Refunds. The right granted the taxpayer in section 7 of this act to file a claim of exemption or denial of liability for tax, as to any item included in the return, shall not be construed to relieve the taxpayer from liability to make immediate payment of the tax, nor shall there be any judicial interference with the payment or collection of the tax upon any other ground but all persons making return as herein provided for, or required so to do, shall pay as hereinbefore provided and make his complaint for or seek a refund as hereinafter provided

In all returns the taxpayer shall be required to give his post-office address. Upon receiving such reference the state board shall, by letter duly stamped and deposited in the mails, give notice to the taxpayer of the time and place where such claim shall be heard and passed on. The matter shall be heard at the time and place stated in the notice, unless continued by the state board to another time or place, or unless the number of such instances to be heard, or other good cause, makes it necessary to continue from day to day. At the hearing the state board shall summarily consider and pass on the claimed exemption, and either allow it or disallow it according as in their judgment the same is or is not so required by the constitution or law of this state or of the United States.

SEC 23. Review of determination of the state board. The determination of the state board upon the claimed exemption may be reviewed in any court of competent jurisdiction by a complaint filed by the taxpayer against the state board in the county in which the taxpayer resides within sixty days after notice by the state board of its determination. Thereupon appropriate proceedings shall be had and the relief, if any, to which the taxpayer may be found entitled may be granted. An appeal may be taken by the taxpayer or the state board to the supreme court in the manner that appeals are taken in suits in equity, irrespective of the amounts involved.

SEC. 24. Refunds. The said sheriff shall thereupon proceed upon the same in all respects, with like effect and in the same manner prescribed by law in respect to executions issued against property upon judgments of a court of record, and shall be entitled to the same fees for his services in executing the warrant, to be collected in the same manner. If a warrant be returned not satisfied in full, the state board shall have the same remedies to enforce the claim for taxes against the taxpayer as if the people of the state had recovered judgment against the taxpayer for the amount of the tax.

By Mr. Speaker:

LOS ANGELES, CALIFORNIA, March 14, 1931.

Assembly, State Capitol,
Sacramento, California.

GENTLEMEN: At a recent meeting of the Ninth District Chamber of Commerce, Senate Bill No. 386, permitting State highways to be built in municipalities of more than 2500 population, was discussed, and unanimously endorsed, and I was instructed to mail to the Senate and Assembly notice of such endorsement.

We, as an organization, urge our representatives in the Legislature to work for the enactment of this bill, and hope to see it passed in the near future.

Very respectfully yours,

MRS. MAUD FRAZIER, Corresponding Secretary.

By Mr. Speaker:

SAN FRANCISCO, March 17, 1931.

Mr Edgar C Levey,
Speaker of the Assembly,
Sacramento, California.

Subject: Assembly Bill No. 1217.

DEAR MR LEVEY: The board of directors of the California State Chamber of Commerce at their meeting on March 13th unanimously approved the above Assembly Bill, which provides for an appropriation of $75,000 for the next biennium to be devoted to the economic and geologic survey of California.

This is in direct accord with the recommendation of the board which was made two years ago on this same subject in recommending adequate appropriations to complete the economic and geologic survey of California within a period of 10 years This survey work is basic to future industrial and commercial expansion in California.

We, therefore, most respectfully ask for your favorable consideration of this legislation.

Very sincerely yours,

N. H. SLOANE, General Manager.

By Mr. Speaker:

SAN FRANCISCO, March 17, 1931.

Hon. Edgar C. Levey,
Speaker of the Assembly,
Sacramento, California

DEAR MR LEVEY: The board of directors of the California State Chamber of Commerce at their meeting in San Francisco on March 13th unanimously opposed Assembly Bill No 502 and companion Senate Bill No 286 creating a river fish and game district along the entire course of the Klamath and Trinity rivers, on the grounds that legislation in this connection should not be enacted until a thorough investigation has been made to determine the extent to which fish and game, agriculture, and mining will be affected

The California State Chamber of Commerce has agreed to conduct such an investigation if it is requested to do so

We, therefore, ask that consideration be given to this request of the California State Chamber of Commerce before final action is taken on these bills. We will be grateful to you for this consideration.

Very truly yours,

N. H. SLOANE, General Manager.

By Mr. Little:

LOS ANGELES, CALIFORNIA, March 17, 1931.

(Following Lead Editorial Printed Wednesday. For Just Reapportionment)

The Craig bill reported out by the Assembly Committee on Reapportionment obviously is the result of an effort to compromise the differences between northern and southern California as to the manner in which this State's delegation to the lower house in Washington shall be divided. Of the 20 congressmen to which California is entitled under the 1930 census, the bill provides that ten shall be chosen from the north and ten from the south.

To accomplish this, the committee has divided the north, along county lines, into ten districts, of which the average population is 257,615 and the south similarly, except that here the population of the average district is 310,112 The three districts comprising San Francisco and San Mateo counties have an average population of 237,138 each, and the two formed of Alameda county, 237,191, while the seven formed from Los Angeles County have an average population each of 315,498. Further, the total population of the ten northern districts, aggregated, is 2,576,143, and that of the southern ten, 3,101,118

The inequity of the division and its failure to observe the constitutional provision that reapportionment shall be made in proportion to population is too obvious to require comment Inspection of the totals shows further that the excess of population in the ten southern districts over those of the north is 524,975, or nearly twice the number established as the population basis per congressman, which is 283,862

In other words, reapportionment according to the law would give to southern California at least 11 congressmen and to northern California no more than nine

If there is anything which is thoroughly established as a result of southern California's ten-year fight for just representation in the State and national Legislatures, it is that reapportionment shall and must conform to the law and the constitution. The California State Chamber of Commerce, representing every part of the State, on December 5, last, officially declared through the unanimous action of its direc-

torate for reapportionment of congressional representation "In accordance with the provisions of the constitution of the United States" and "At the earliest possible moment" Governor Rolph is pledged to constitutional reapportionment and the leaders of both houses at Sacramento have agreed to it, at least in principle. By no significant element of any part of the State, save perhaps a few northern politicians long held balance of power, is its justice and pressing importance denied.

Why then should southern California consent to accept less than its due?

It is true that, in defense of the ten-ten division, it is argued that the law provides that congressional districts must follow county lines and that, under this restriction, it is impossible to form them in such a way that the population of each shall be exactly or even closely approximating the official base number of 283,862. But this explanation falls far short of making clear why such necessary differentials should be so greatly to the advantage of the north and to the disadvantage of the south The former's average district is 26,247 below the base number; the latter's 26,250 above it. The average San Francisco Bay district under the proposed bill, is 46,724 persons short of the number required for each congressman. The average Los Angeles County district has 31,636 more persons each than the required number.

The plea is further made that, in order to give southern California the 11 congressmen to which, as a minimum, she is entitled, it would be necessary to assign eight congressmen to Los Angeles County and that, on the 283,862-per-congressman basis, this county is entitled to only 7 78. As a matter of fact, making eight Congress districts from Los Angeles County would give each district an average population of 276,061 persons, which average is 38,923 more than the average of each San Francisco district as allocated under the Craig bill.

It is declared that the ten-ten basis is the least which northern members of the Legislature will accept and that, if this is refused, they will block any reapportionment bill at all and will force the election of California's nine new congressmen at large; that is, from the State as a whole and from no particular districts. Votes enough to do this are claimed; whether they can be delivered in the face of the plain and just facts remains to be seen.

There is little to recommend the at-large system of electing congressmen and some affect to fear that, under this system, southern California might get even fewer congressmen than the north is now willing to concede her. This also remains to be seen, at least, it will be time enough to cross that bridge when we get to it. The many inequities from which this area has suffered in the past are gradually teaching us political solidarity and when southern California does learn to vote as a unit she has the ballots to get her dues.

Her rights are all southern California seeks. She wants no more; she should not be content with less

Hon. Lucius Powers,
Elks' Club Sacramento, California.

Can not understand why district should be composed of San Joaquin, Stanislaus, Merced, Madera, Fresno and Kings counties. Inclusion of San Joaquin would give district too large population, far in excess of average and sacrifice unity of interest which is most important factor. Other districts would have much less population, which would be decidedly unfair. Other plans suggested are far preferable to this and hope you can defeat this plan District as large as this cannot, in my opinion, be justified. Appreciate your efforts. Please keep me advised.

ECONOMIC COUNCIL OF SOUTHERN CALIFORNIA,
March 16, 1931.

Southern California Legislators.

GENTLEMEN: May I not on behalf of the Economic Council of Southern California call your attention to the attached copy of resolution passed by the council at its meeting March 14th with regard to the representatives in the State Legislature from southern California cooperating with representatives from other agricultural counties in the State, with regard to reapportionment both Assembly and congressional on the basis of population

Not only does southern California desire this to be brought about, but we know that problem is pertinent to other agricultural sections of the State and it is important, in our estimation, that southern California work with the other agricultural counties and see that justice is done them also in this important matter.

You have no doubt been informed that the Republican Central Committee of Los Angeles County is on record favoring reapportionment not only of the State Assembly, but congressional reapportionment strictly on a population basis.

The Economic Council of Southern California consists of a representative group of business men from all over southern California, five from each county, and is dealing with this situation not as a matter of politics, but as a matter affecting very seriously the economic development of this section of the State.

The interests of southern California are similar to the interests of the agricultural counties of all of southern California We will greatly appreciate your cooperation in this most important matter

Very truly yours,

ECONOMIC COUNCIL OF SOUTHERN CALIFORNIA.
JOHN C. AUSTIN, Chairman

By Mr. Houser:

ECONOMIC COUNCIL OF SOUTHERN CALIFORNIA,

Resolution by the Economic Council of Southern California.

WHEREAS, The Economic Council of Southern California recognizes the justice of reapportionment of the Assembly of the State of California strictly on a population basis; and

WHEREAS, In the opinion of the Economic Council it is the duty of the present Legislature to do so; and

WHEREAS, The Economic Council is informed through public statements and otherwise, that the representatives of the agricultural counties of California are desirous of bringing about said reapportionment of the Assembly of the State of California on a population basis; now, therefore, be it

Resolved, By the Economic Council of Southern California that it does pledge itself to assist to the end that this be accomplished and that it request every member of the Legislature of the State of California from southern California to diligently proceed to this end and to lend every assistance and cooperation to the representatives from the agricultural counties both Assemblymen and Senators

I hereby certify that the above is a true and correct copy of resolution adopted by the Economic Council of Southern California at its meeting held at Los Angeles, March 14, 1931.

SAN DIEGO CHAMBER OF COMMERCE,
SAN DIEGO, CALIFORNIA, March 17, 1931.

Hon. Ed. L. Head,
State Capitol,
Sacramento, California.

DEAR MR. HEAD: Mr. George Burnham and Mr. Levi Kincaid are leaving tomorrow, and will be in Sacramento Thursday morning to assist in every way possible on the matter of reapportionment. We feel very strongly that the Assembly bill reported out of committee, giving ten Congressmen to the north and ten to the south, is very unfair and this organization desires to lend a hand in any way possible to combatting sectional legislation of this type. Both Mr. Burnham and Mr. Kincaid are members from San Diego County of the Southern California Economic Council. We have every confidence in their judgment and in their ability to represent the sentiment of that organization and ours in a very excellent manner. We know that they will cooperate with you in any way in their power and feel that in any questions that may arise they can represent very clearly the sentiments of this organization.

With all good wishes.

Very sincerely yours,

SAN DIEGO CHAMBER OF COMMERCE,

CALIFORNIA STATE CHAMBER OF COMMERCE.
LOS ANGELES, March 6, 1931.

Assemblyman Willis M. Baum,
State Capitol,
Sacramento, California.

DEAR ASSEMBLYMAN BAUM: At the last meeting the highway committee of the Southern California Council of the State Chamber of Commerce, careful consideration was given to the program of adding roads to the secondary highway system.

The committee unanimously approved Senate Bill No. 46 by Senator Edwards. Assembly Bill No. 7, by Assemblyman Kline, was approved in principle but with the suggestion that the highway mileage figures be deleted from the bill.

Following the approval of these two measures, the committee considered all secondary highway measures pending before the present Legislature and adopted the following resolution covering suggested additions and changes:

Resolved, That this committee recommend that the Highway Commission be authorized and instructed by the Legislature to undertake during the 1931-33 biennium a further survey of suggested or necessary additions to or changes in the State highway system to be included in the 1933-35 budget, and that the already established ratio of three or four miles in the south to one in the north be maintained as a governing factor, and

That this committee further recommend that no bills be passed at this session of the Legislature which provide for additions to or changes in the authorized highway system other than those included in the report and recommendations of the Highway Commission for the 1931-33 budget; and, be it further

Resolved, That all other proposed additions or changes and other suggested additions or changes be included in the further survey to be conducted by the Highway Commission; and, be it further

Resolved, That the actual additions of roads to the secondary system be based upon highway expenditures being limited to highway incomes so that the plan of "pay as you go from motor vehicle revenues" shall not be jeopardized.

We urge that you give serious consideration to the action of our highway committee.

Sincerely yours,

WALLACE S. WOODWORTH, Chairman, Highway Committee.

The following sections of this article shall not affect, control or apply to any building and loan associations except borrowers' mutual building and loan associations.

Sec. 15.03. Powers-purposes for which formed. Borrowers' mutual building and loan associations shall have power to receive money and accumulate funds to be loaned, and to loan the same to their shareholders, to permit shareholders and investors to withdraw part or all of their payments or investments, and to prescribe the terms

and conditions of such withdrawal; to cancel shares, the payments on which have been withdrawn; to borrow money for the purpose of making loans and of paying withdrawals and maturities; and shall have such further powers as may be specifically set forth under this article; *provided, however*, that no such association shall, at any time, have or carry upon its books, for any member or investor, any demand, commercial or checking account or any credit to be withdrawn upon the presentation of any negotiable check or draft.

Every such corporation hereafter formed, setting forth the purposes for which it is formed, shall state, in its articles of incorporation, that it is formed to encourage industry, frugality, home building and savings among its shareholders and members; the accumulation of savings, the loaning to its shareholders and members of the moneys or funds so accumulated, with the profits and earnings thereon, and the repayment to each of his savings and profits, whenever they have accumulated to the full par value of the shares, or at any time when he shall desire the same or when the corporation shall desire to repay the same, as it may be provided in the by-laws; and shall also state that it is formed for all the purposes specified in this article, and nothing in the statutes of this state, to the contrary notwithstanding, shall preclude any such association in any of its advertising from setting forth any of the foregoing purposes.

All such payments shall be called dues. Certificates shall be issued to each shareholder on the first payment of dues by him. Shares pledged as security for the payment of a loan shall be called pledged shares, and all others free shares. All shares matured and surrendered or canceled, shall become the property of the corporation and may be reissued. The capital shall consist of the accumulated dues, together with the apportioned profits of the corporation, and shall be accumulated by the issuance of "installment shares", "prepaid shares" or "full paid shares", as defined in section 3.02 of this act.

Sec. 15.05. Entrance and transfer fees. Every borrowers' mutual building and loan association shall also have power, by its by-laws, to charge and collect an entrance fee for each share it may issue, not exceeding ten cents or each share, and also to charge and collect a transfer fee, not exceeding ten cents on each share, all of which fees shall be accounted for by the corporation like other funds of the association. No other fee, charge or deduction shall ever be made, or permitted to be made against any shareholder, or against any of his shares, hereafter issued, or the dues paid in thereon for the purpose of creating a fund to be used in the payment of current or running expenses.

Sec. 15.06. Retiring free shares. The directors may in their discretion, under the regulations prescribed by the by-laws, retire any free shares by enforcing the withdrawal thereof, but whenever the withdrawal of any shares is to be enforced, the holders thereof must be paid the amount actually paid in, and the full amount of earnings at the date of retirement; *provided*, the installment shares shall not be forced out until after they shall have become four years old.

Sec. 15.07. Maturity of shares and payment. When any share shall have reached its matured value, payment of dues thereon shall cease. Borrowing shareholders whose loans are fully paid shall have their securities released and returned to them. Holders of free shares shall be paid the matured value thereof out of the funds of the corporation with interest at such rate as the by-laws shall provide, from the time the board of directors shall declare such shares to have been matured, until paid; but at no time shall more than one-half of the receipts of the corporation be applicable to the payment of matured shares without the consent of said board. The order of the payment of matured shares, if not otherwise determined by the by-laws, shall be in the numerical order of issuance.

Sec. 15.08. Officers and directors may not borrow. Loans shall be made upon the mutual plan only, accompanied by a pledge of shares having a matured or par value equal to the face of the loan. It shall be unlawful for any director or officer of any corporation governed by this article directly or indirectly, for himself, or as a partner or agent for others, to borrow any of the funds of such corporation, and any officer or director violating the provisions of this section shall be guilty of a felony. Any officer of director of any such corporation who consents on behalf of such corporation to make a loan to any officer or director of such corporation shall be guilty of felony and shall also be personally liable to the corporation for the full amount thereof. Any officer, or director or employee of such corporation who asks or receives or consents or agrees to receive any commission, emolument, gratuity or reward, or any money, property or thing of value, for his own personal benefit or of personal advantage, for procuring or endeavoring to procure for any person, firm or corporation any loan from such corporation, is guilty of a felony. It shall be unlawful for any borrowers' mutual building and loan association, corporation or society, operated under the provisions of this article, to loan any of its funds upon the security of, or to invest any of its funds in mining shares or mining stocks, or in the stocks or bonds of any corporation, other than in this article

provided; and any officer or director who, on behalf of any such corporation, shall make any such loan or investment, or who shall consent thereto, shall be personally liable to the corporation for the whole amount of any such loan or investment, and shall also be guilty of a felony.

Sec. 15.09. Security for loans, interest rate to appear. For every loan made a note or obligation, expressing and setting forth the exact rate of interest, must be executed by the borrower secured by a first mortgage or deed of trust upon real estate having an appraised value of not less than twenty-five per cent in excess of the face of the loan, or in lieu of a mortgage or deed of trust, loans to the extent of not exceeding ninety per cent of the then withdrawable value, may be made upon the pledge of free shares as security for their repayment. The board of directors may from time to time fix the rate of interest to be charged on loans. A borrower may at any time repay his loan together with interest or arrears due thereon and upon the surrender of the shares pledged as security therefor.

Sec. 15.10. Arrears in payment; default, forfeitures. Whenever any nonborrowing member shall be six months in arrears in the payment of his dues upon free shares, the secretary may give him notice thereof in writing, and a statement of his arrearages, by mailing the same to him at his last post-office address given by him to the association; and if he shall not pay all arrearages within two months thereafter, the board of directors may, at their option, declare his shares forfeited, and at the time of such forfeiture, the withdrawal value thereof shall be determined and stated, and the defaulting member shall be entitled to withdraw the same without interest, upon such notice as shall be required of a withdrawing shareholder. Whenever a borrower shall be three months in arrears in the payment of his dues or interest, the whole loan shall become due at the option of the board of directors, and they may proceed to enforce collection upon the securities held by the association. Upon or after exercising such option, the withdrawal value of all shares pledged as collateral security shall be applied to the payment of the loan, and said shares from the time of such application shall be deemed surrendered to the association and cancelled.

Sec. 15.11. May purchase real estate on foreclosure sale. Any such association may purchase at any sale, public or private, any real estate upon which it may have a mortgage, judgment, lien, or other encumbrance, or in which it may have an interest, and may sell, lease or mortgage the same, at pleasure, to any person or persons.

Sec. 15.12. Apportionment of profits; and reserve. Profits and losses shall be apportioned at least annually, and shall be apportioned to all shares in each class at the time of such apportionment, according to the actual or book value thereof. If the reserve fund shall not equal five per cent of the outstanding loans at the time of each apportionment of profits, the directors shall set aside, as a reserve fund, not less than five per cent of the net profits accruing since the last prior apportionment, and shall continue so to do until said fund shall amount to at least five per cent of the loans in force, at which figure said fund shall thereafter be maintained. Said reserve fund shall at all times be available to meet losses arising from any source.

Sec. 15.13. Withdrawals, conditions and limitations. A shareholder desiring to withdraw from any such corporation or to surrender a part or all of his shares, may do so by giving thirty days' notice, in writing, of his intention or desire so to do. On the expiration of such notice he is entitled to receive the full amount paid in upon the shares surrendered, exclusive of the entrance fee, together with such proportion of the earnings thereon as the by-laws may provide, or as may be fixed by the board of directors; but not more than one-half of the monthly receipts in any one month must be applied to withdrawals for that month, without the consent of the board of directors, and no shareholder shall be permitted to withdraw whose stock is pledged to the corporation as security for a loan, until such loan is fully paid. All withdrawals must be paid in succession in the order that the notices of intention are given. Whenever the demands of withdrawing shareholders exceed the money applicable to their payments, the notices of intention to withdraw must be registered in the order of filing and payments thereon must be made in succession, in the order that such notices were filed and registered.

Sec. 15.14. Demands unpaid for two years, business may be taken over. Whenever an application for withdrawal of free shares shall have been on file, or the payment of matured shares demanded and either shall have remained unpaid for a period of one year, all the receipts of the association from dues, interest, premium, loans repaid, and the proceeds of all other investments, shall, after the payment of expenses and general indebtedness, be applied toward the payment of withdrawals and maturities; and the board of directors or the building and loan commissioner may direct that such payments shall be made upon a ratable and proportionate basis. Whenever such applications or demands, whether heretofore or hereafter made, have been on file and remain unpaid in whole or in part for more than two years, the building and loan commissioner may in his discretion forthwith take possession of the property and business of such association and retain such possession until its affairs be finally liquidated in the manner provided by article thirteen of this act.

Sec. 15.15. Who may become members. Any person of full age and sound mind may become a member of a borrowers' mutual building and loan association by

taking one or more shares therein and subscribing to the by-laws, and annexing to his signature his post-office address. A minor may hold shares in the name of a parent, guardian, or next friend, as trustee. The shares in any such corporation held by any person, to the extent of one thousand dollars, shall be exempt from execution.

Sec. 15 16. State supervision and control. Borrowers' mutual building and loan associations as in this article defined, doing business in this state, shall be under the supervision and control of the building and loan commissioner and each section of article thirteen of this act is hereby incorporated into and made a part of this article for the purpose of examination, reports on, regulation, control and liquidation of borrowers' mutual building and loan associations.

Sec. 15 17. Investments permitted. Any borrowers' mutual building and loan association may invest in or loan upon bonds of the United States, of the State of California, or of any county, municipality or school district of said state, or of any public utility corporation, or notes or bonds secured by mortgage or deed of trust, payment of which is guaranteed by a policy of mortgage insurance, or mortgage participation certificates, issued by a mortgage insurance company, in accordance with the provisions of chapter eight of article two of part four of division one of the Civil Code, and may also invest in bonds or securities certified by the superintendent of banks to be legal as investments for savings banks in accordance with the provisions of an act entitled "An act to define and regulate the business of banking," approved March 1, 1909, and acts amendatory thereof and supplemental thereto."

PRESENTATION OF PETITIONS.

The following petitions were presented, and ordered printed in the Journal:

By Mr. Speaker:

SAN FRANCISCO, CALIFORNIA, March 17, 1931.

Mr. E. C. Levey, Speaker of State Assembly,
State Capitol, Sacramento.

DEAR MR LEVEY: Knowing your interest in all educational matters, the faculty of the Noe Valley Junior High School should like to ask your favorable consideration

of the following measures: Assembly Bill No. 366—Tenure Bill, Assembly Bill No. 446—Leaves-of-absence Bill, Assembly Bill No. 447—Governs salary deductions in case of absence, Assembly Bill No. 448—Provides for sick leave, Senate Bill No. 260 (as amended), Retirement measure.

We disapprove of a number of bills but will not write of them at this time, pending further legislative action. However, we do wish to express our strong disapproval of two particularly bad measures, namely, those of Senator Inman, Senate Bill No. 495, and Assemblyman Nielsen's bill, Assembly Bill No. 1168 (State printing of text books).

We know that you are always glad to know the wishes of those most concerned with the various measures, and we can assure you that we shall appreciate your interest in these measures.

Cordially yours,

NOE VALLEY JUNIOR HIGH SCHOOL,
GLADYS MCLEOD,
And 18 other members of the faculty.

By Mr. Speaker:

PASADENA, CALIFORNIA, March 20, 1931.

Hon. Edgar C. Levey,
Speaker of the Assembly, Sacramento, California.

The Cactus and Succulent Society of America respectfully protests against the passage of Assembly Bill No. 11 in its present form. This society is composed of between eight and nine hundred members, the majority of whom are citizens of California. We favor the conservation of the native plant life of our State but feel that the bill was hastily drawn and without mature consideration. It brands as a criminal every man, woman and child who takes from the public land a plant or a portion of a plant without the consent of some public officer. It is our feeling that the law should be directed against the commercial man and the vandal who remove and destroy for private gain. We trust that you will give your consideration to our protest.

BOYD L. SLOANE,
President of the Cactus and Succulent Society of America.

By Mr. Kline:

RIVERSIDE REALTY BOARD,
RIVERSIDE, CALIFORNIA, February 10, 1931.

Assemblyman Chester M. Kline,
San Jacinto, California.

DEAR SIR: The following resolution was unanimously adopted by the board of directors of the Riverside Realty Board:

"Moved that the directors of the Riverside Realty Board, pursuant to the vigorous and outstanding objective of the California Real Estate Association and the National Association of Real Estate Boards, which objective is to work energetically to relieve real estate of the unjust, disproportionate burdens of taxation levied upon it—does hereby urge upon the Honorable Chester M Kline, who represents the city of Riverside and the county of Riverside in the California State Assembly, to take cognizance of the facts pertaining to excessive and inequitable burdens of taxation levied upon real estate in this state:

Furthermore, that the directors of the Riverside Realty Board strongly urge him, as our direct representative in the lower house of the Legislature, to take up this subject, so very important to all owners of real estate, and either prepare measures for relief or support any acceptable measure or measures introduced into the Legislature. Directors of the Riverside Realty Board especially recommend and appeal to Assemblyman Chester M Kline to study the suggestions and recommendations of the California Real Estate Association on this relief problem and support such suggestions and recommendations as embodying the best judgment of the realty interests of California.

Moved that the secretary be requested to transmit this motion at once to Assemblyman Chester M. Kline."

Our board of directors feel this is one of the most important matters to come before the Legislature and will appreciate your hearty support of those measures referred to in the above resolution.

Respectfully,

RIVERSIDE REALTY BOARD.
By P. C. POWSLAND, Secretary.

"The state engineer is hereby authorized and instructed, upon application by the board of supervisors of the county within which such proposed harbor district is situate, or upon application of the legislative body of any city assuming jurisdiction to act hereunder to render a report, approving or disapproving the location of the proposed recreational harbor, and to determine whether the segregation of the tidelands and submerged lands and coastal waters thereby intended to be devoted to recreational use by the people, under the provisions of this act, will result in undue interference with commerce or commercial navigation or commercial fisheries

Upon the filing of said application for report in the office of the state engineer, he shall cause to be prepared and issued over his signature a notice which shall state the fact of the filing of the application, shall generally describe the tidelands, submerged lands and coastal waters to which same relate and the fact that it is intended to create or improve thereon and in connection therewith a recreational harbor within the meaning of this act and fixing a time and place for a public hearing thereon to aid the state engineer in making his recommendation upon the application so filed. Such notice shall be filed in the office of the secretary of state of the State of California and thereupon said secretary of state shall cause true copies of said notice to be published once in a newspaper of general circulation within the proposed harbor district and at least twenty full days prior to the date fixed for the public hearing which may be held in a public place either in the city of Sacramento or at some designated place within the proposed harbor district as fixed by the state engineer.

Said hearing shall be noticed by the state engineer to be held not sooner than thirty days after receipt of the application for hearing by him nor later than sixty days thereafter. Accompanying said application shall be the sum of one hundred dollars which may be paid out of the general fund of the county or city making such application, or which may be contributed by any person. The payment of said sum shall be a prerequisite to the filing of such application and same shall be received by the State of California for the purpose of defraying the costs of publishing the aforesaid notice and of conducting said hearing, for which purpose the state engineer and secretary of state may respectively requisition such fund and authorize the expenditure thereof.

At the time and place specified in the said notice, the state engineer shall be present and hear all protests which may be made against a favorable report by him upon the application. At such hearing, the public, including shippers, commercial fishermen and littoral and other property owners shall be heard Said hearing may be continued from day to day until all protestants who before the date of the hearing have filed protests in writing in the office of the state engineer, have had an opportunity to be heard.

If, after said hearing, the state engineer shall, in the exercise of his discretion, find that the application should be granted and that the segregation of the described tidelands, submerged lands and coastal waters for recreational purposes so defined by this act, will not unduly interfere with commerce or commercial navigation or commercial fisheries and that the exclusion of commerce, commercial navigation and commercial fisheries from said lands and waters will best serve the needs and conveniences of the people of the state to accommodate their recreational use of such lands and waters, he shall promptly transmit such report and finding to the governor of the State of California. If the state engineer's report upon such application be unfavorable, same shall be promptly filed in the office of the secretary of state of the State of California.

Upon the receipt by him of a favorable report of the state engineer, the governor of the State of California shall promptly consider same and either approve or disapprove the application and report, and such action witnessed over his signature in a certificate along with the state engineer's report, shall be filed in the office of the secretary of state of the State of California

The secretary of state shall thereupon transmit a certified copy of said report and governor's certificate approving or disapproving same to the clerk of the board of supervisors or clerk of the city which originally filed the application

If the governor shall have approved the state engineer's report recommending the granting of the application, thereafter, subject to the completion of proceedings under the act to form a recreational harbor district, the tidelands submerged lands, coastal waters and harbor areas in said application described shall be deemed

impressed, by due process of law, with the consent of the state, with a recreational character, as herein defined.

The foregoing procedure is hereby prescribed for the purpose of providing for the people of the state, tidelands, submerged lands, coastal waters and portions of the coast which may be set aside under the provisions of this act, for their recreational use, free from the dangers and inconveniences incident to harbors used for commercial navigation and commercial fisheries.

The present and rapidly increasing population of the state and particularly that portion thereof upon the coastal plains makes it necessary for the state to provide, as is here done, for the preservation and conservation of the right of the people to safely and conveniently resort to the coast and coastal waters for recreation

The board of supervisors shall not act to fix a time and place for hearing the petition until resolutions, and the certified copies of the report and finding of the state engineer and the certificate of the governor, as provided above, are filed in the office of the county clerk and ex officio clerk of the board"

AMENDMENT NUMBER ONE.

On page 1, line 4, of the title of the printed bill, as amended in Senate March 6, 1931, strike out the period and insert in lieu thereof the following: "and declaring the urgency thereof"

AMENDMENT NUMBER TWO.

On page 2 of the printed bill, as amended in Senate March 6, 1931, after line 9, insert the following:

"SEC. 3 This act is hereby declared to be an urgency measure, deemed necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of article four of the constitution of the State of California, and as such it shall take effect immediately.

The following is a statement of the facts constituting such urgency:

Under the continuance of the conditions brought on by the agricultural depression many irrigation districts in this state have experienced an increased delinquency in the payment of assessments, which has brought about the necessity for an eventual refunding of their bonded obligations Under the law as it at present exists a bond fund of an irrigation district may be exhausted by the presentation of maturing bonds, whereas the fund was created by the assessment for paying both principal and interest. This situation has brought about a condition in some of these districts where the land owner, unable to meet the full obligation of principal and interest and seeing himself in a complete default with danger of losing his home and lands, refuses to pay any of the assessment levied upon his land. This brings about a condition of breakdown in the functioning of the district, with the failure to supply water for domestic, irrigation and other purposes, detrimental in the extreme to the peace, health and safety of the communities involved. It is believed that through the passage of this bill before the semi-annual period for payment of interest, on July 1st,

districts will be enabled to continue their efforts toward refinancing without a breakdown of their functions as irrigation districts."

Amendments adopted.

Bill ordered to reprint, and on file for third reading.

PRESENTATION OF PETITIONS.

The following petitions were presented, and ordered printed in the Journal:

By Mr. Speaker:

SAN FRANCISCO, CALIFORNIA, March 21, 1931.

E. C. Levey, Speaker, Assembly,
State Legislature, Sacramento, California.

San Jose Pacific Building and Loan Association, with assets over $17,000,000, urges the adoption of the new Building and Loan Act as now presented and is particularly in favor of the present provisions of sections 504 and 607.

R. G. HAMILTON, JR., Senior Vice President.

By Mr. Speaker:

SAN FRANCISCO, CALIFORNIA, March 21, 1931.

Assemblyman E. C. Levey,
State Legislature, Sacramento, California.

Pacific States Savings and Loan Company, with resources of $72,000,000, which is 12 per cent of the State's entire building and loan resources, and serving 95,000 customers, urges the passage of the new Building and Loan Act now before your body. Our institution strongly feels that the investing public is not only entitled to protection which this law would provide, but is confident that the proposed act would ultimately prove of outstanding benefit to all building and loan associations as well. We particularly urge favorable action on section 504 setting up a liquid reserve. Although Pacific States Savings originally endorsed and still favors a minimum 5 per cent reserve we acceded to a compromise as proposed by a minority group of protesting associations headed by Mr. O. C. Parkinson so that the section now stands before you amended to provide a flat 4 per cent reserve with a further provision increasing from 50 per cent to 75 per cent the amount of bonds in which this reserve may be invested. We feel that this section would place the building and loan association in a healthful and thrifty condition, such as is incumbent upon any sound financial institution. We also favor section 607 applying to withdrawals, which we believe will help to confine building and loan associations to building and loan business and will, in large measure, correct many evils which have characterized the institutions of our field in the past. We also urge, especially, the inclusion of a provision in section 204, making it necessary for a new association or new branch to show that it will serve public advantage. We consider this provision essential to the proper supervision and welfare of the building and loan business, and would point out that, in specifying public advantage, it is far more lenient than the corresponding section of the California Bank Act, which provides that public necessity and convenience must be shown by a newly organizing unit. Pacific States Savings has its head office and three branches in San Francisco whose aggregate resources are more than $22,000,000 and serving from these offices over 30,000 customers in San Francisco. For the protection and fullest service to these customers we respectfully urge your cooperation in adoption of these measures.

ROBERT S. ODELL, President.

By Mr. Speaker:

NORTHERN SAN DIEGO COUNTY CHAMBER OF COMMERCE.
JULIAN, CALIFORNIA, BOX 85, February 28, 1931.

Mr. Edgar C. Levey,
166 Nineteenth Avenue, San Francisco, California,
Speaker of the House.

HONORABLE SIR: The following resolution was adopted by Northern San Diego Chamber of Commerce on February 13, 1931, and copies sent to Senator and Assemblymen of San Diego County:

WHEREAS, Assemblyman Bowers has submitted a bill to the Legislature, proposing to reapportion the supervisorial districts of San Diego County, making it obligatory on the board of supervisors of San Diego County to change the boundaries of their districts on a population basis; and,

WHEREAS, The result of such a change would give a preponderance of the votes to a small fraction of the territory of the county centered in the city of San Diego, and,

WHEREAS, This would, in our opinion, practically disenfranchise the citizens of the rural communities, and would not be to the best interests of the county as a whole; be it therefore

Resolved, That this Northern San Diego County Chamber of Commerce go on record as opposing such change and urge the rejection of Assembly Bill No. 317 relating to supervisorial districts.

MARY E. GEMMELL, Secretary.

By Mr. Kline:

March 19, 1931.

WHEREAS, The first requirement of a penal institution is reform; and
WHEREAS, Idleness is a prime factor of crime; and
WHEREAS, It is the opinion of the undersigned that proper provisions should be made:

First, To provide employment for prisoners in occupations, the products of which can be used only in institutions and departments of the State and its political subdivisions, and not for private use;

Second, To aid in defraying, through such occupations, a portion of the cost to the taxpayer of prisoners' maintenance and support of their dependents;

Third, To aid in the mental, physical and financial rehabilitation of prisoners through vocational training; be it therefore

Resolved, That the board of directors of the Lynwood Chamber of Commerce do hereby endorse Assembly Bills Nos. 805 and 806, introduced in the California State Legislature by Assemblyman Kline, referring to payments and credits to prisoners employed in State prisons and reformatories, and referring to the management of prison industries and the manufacture of prison-made goods.

PRESENTATION OF PETITION.

The following petition was presented, and ordered printed in the Journal:

By Mr. Speaker:

SAN FRANCISCO, CALIFORNIA, March 24, 1931.

Hon. Edgar C. Levey,
Speaker of the Assembly,
State Capitol, Sacramento, California

The California State Chamber of Commerce by resolution of its board of directors at its December meeting urged "Early reapportionment of the State's representation in Congress according to the provisions of the constitution of the United States." This resolution was transmitted to the Governor and individual members of the Legislature. The State Chamber, in its effort to promote and maintain State unity, urges a reapportionment as nearly on a population basis as is practical and possible. Immediate action on the part of the State government is urged in the hope that no deadlock will result whereby all additional Congressmen would be elected at large, which situation would be likely to cause dissatisfaction to those sections of California entitled to increased representation.

FREDERICK J. KOSTER, President,
California State Chamber of Commerce.

In such case, the provisions of the preceding sections of this article shall also be applicable to such associations, but only if and to the extent that they are not inconsistent with the provisions of this section. In all such associations, holders of free shares therein desiring to withdraw in whole or in part may do so by giving notice thereof in writing of the amount desired to be withdrawn. At all times the right of shareholders to receive payment of withdrawals shall be secondary and subsequent to the right of such association to pay and to provide reasonable reserves for the payment of the following: Dividends on shares, taxes, assessments, insurance, amounts necessary to fulfill previous loan commitments, and other sums necessary to protect and preserve its properties and its interests in properties (including those on the security of which it holds loans), principal and interest on borrowings by such association; rent, compensation of officers, agents, salesmen and other employees, and other usual and ordinary operating expenses of such association.

No shareholders shall be permitted to withdraw whose shares are pledged to the association as security for a loan until such loan is fully paid. Whenever the demands of

withdrawing shareholders exceed the money applicable to their payment, the notices of intention to withdraw must be registered in the order of filing and while such association is on notice payments thereon must be made in succession in the order that such notices were filed and registered. The remaining one-half of net receipts of such association may be used, in the discretion of the board of directors, for payment of withdrawals not noticed, subject to such limitations as the board of directors may fix, and for the operating expenses of the business and for making loans to members, or applied, in the discretion of the board of directors, to payment of withdrawals on notice. Such association shall at no time be on a pro rata basis, except as hereinafter provided.

All new investments by shareholders after such association is on notice, whether made upon shares already issued or upon new shares issued, shall have priority and shall have a prior right of withdrawal as against all other shareholders.

Whenever an application for withdrawal of free shares shall have been on file, or the payment of matured shares demanded, and either shall have remained unpaid for a period of one year, all the receipts of such association from dues, interest, premium, loans repaid, and the proceeds of all other investments, shall, after the payment of expenses and general indebtedness, be applied toward the payment of withdrawals and maturities, and the board of directors or the commissioner may direct that such payments shall be made upon a ratable and proportionate basis. Whenever such application or demands, whether heretofore or hereafter made, have been on file and remain unpaid in whole or in part for more than two years the commissioner may in his discretion forthwith take possession of the property and business of such association, and retain such possession until its affairs be finally liquidated in the manner provided by law for the liquidation of associations by him, or until such association may be allowed to resume business upon such conditions as may be approved by the commissioner."
