Amendment No. 3

On page 1 of said bill, strike out lines 9 to 19, inclusive, and insert "Water so acquired shall be conserved by the district in a manner beneficial to the zone. Expenditures for the purpose of conserving water so acquired may be made from funds derived from taxes levied pursuant to Section 14 of this act but such expenditures therefrom shall not exceed an amount equal to the amounts levied within the zone under the provisions of said Section 14. Such zone shall be accurately described and shall be designated by a zone number by said resolution, and shall include all territory which will be specially benefited by the conservation of the water so acquired and conserved

As used in Sections 3.1 to 3.6 of this act, the term "public district" shall not include metropolitan water districts, but shall include all other public districts; the term "imported water" shall mean water imported from a source which is not tributary to the ground water supply in the zone; and the term "reclaimed water" shall include water reclaimed from sewage or other wastes, but shall not include waters recaptured or re-used by the owners or producers thereof.

SEC. 2. Section 3.2 of said act is amended to read:

Sec. 3.2. *Prior to the hearing on the proposal to establish any zone, as hereinafter provided, the board of supervisors shall by resolution direct the chief engineer of the district to make and file a report with said board of supervisors which shall show:*

(1) A general description of the work to be done by the district in conserving water acquired.

(2) A general description of the lands, rights of way, easements and property to be taken, acquired or injured in carrying out such work.

(3) An estimate of the cost of such work, including an estimate of the cost of lands, rights of way, easements and property proposed to be taken, acquired or injured in carrying out said work, and also of all incidental expenses and of all operating, maintenance and other costs likely to be incurred in connection therewith.

(4) The proposed boundaries of the zone. For the purposes of the notice of hearing, the proposed boundaries shall be described to include all properties which may be benefited by the proposed zone without regard to the current or proposed use of imported or reclaimed waters on said properties, other than as a result of the work proposed to be done by the district.

The report shall be considered by the board of supervisors which may by resolution either adopt the same as filed or refer the report back to the chief engineer of the district for modification or change. When a report satisfactory to said board of supervisors has been filed with such board as aforesaid, the board by resolution shall adopt the report and shall estimate the amounts of all capital expenditures and of all operating, maintenance and other costs necessary to conserve water within the proposed zone.

Before establishing any zone under Section 3.1 of this act, the board of supervisors shall hold a public hearing upon the proposal. Notice of the hearing shall be published once a week for two consecutive weeks, *the date of the second publication to be at least 30 days* prior to said hearing, in a newspaper of general circulation *published* within the proposed zone, if there be such newspaper, and if there be no such newspaper then by posting notice of the hearing [for two consecutive weeks] *at least 40 days* prior thereto in five public places, within said *proposed* zone, as designated by the board. *Notice shall be given to all cities and to all public districts formed for the purpose of supplying water within the proposed zone by mailing a copy of the notice to the chairman of the governing bodies thereof at least thirty days prior to said hearing.* Said notice shall describe the boundaries of the proposed zone, *shall state whether it is proposed to acquire imported or reclaimed water or both, shall refer to the report of the chief engineer as adopted by the board, shall* [and] contain a general statement of the [nature of the activity] proposed *method of conservation as described in said report, and shall set forth the amounts of all capital expenditures and of all operating, maintenance and other costs necessary to conserve water within such proposed zone as so estimated by the board.* [At the hearing, any person owning real property within the proposed zone may appear and protest the establishment of the zone or the proposed project or system.] *Said notice also shall contain a statement that written and oral protests against the formation of the zone or the inclusion of property therein will be considered at the time of the hearing, and that if sufficient written protests against the establishment of the zone are filed with the clerk of the board at least 15 days before the date set for the hearing, the proceeding shall be abandoned.*

If sufficient written protests against the establishment of the proposed zone are filed with the clerk of the board at least 15 days prior to the date set in the notice for the hearing, the proceedings shall be abandoned as hereinafter provided.

Written protests by property owners shall give the name and address of the protestant and shall describe the taxable real property within the proposed zone assessed to such protestant. The clerk shall transmit such protests, or a list of such properties showing the protestant as to each such property, to the assessor, who shall certify to the board of supervisors whether such properties assessed to such protestants, as shown by the last equalized county assessment roll, have an assessed value in excess of 10 percent of the assessed value of all of the taxable real property within the proposed zone. If the protest is in excess of the said 10 percent the proceedings shall be abandoned and no further proceeding relating to the creation of a zone affecting such property may be had for at least six months after the date set in the notice for the hearing.

Protests by cities and by public districts formed for the purpose of supplying water shall be in the form of certified copies of resolutions of their governing bodies. If protests are filed which have been adopted by a majority vote of the governing bodies of cities or of public districts formed for the purpose of supplying water, within which cities or public districts or both, there is taxable real property situated within the proposed zone as described in the notice of hearing, having an assessed value equal to not less than 60 percent of the assessed value of all of the taxable real property within the proposed zone as described in said notice of hearing, as shown on the last equalized assessment roll, then the proceedings shall be abandoned and no further proceedings relating to the creation of a zone affecting such property may be had for at least six months after the date set in the notice of hearing.

If the proceedings are not terminated by the protests of property owners or by the protests of cities or of public districts formed for the purpose of supplying water, as above provided, the board of supervisors may proceed with the hearing and shall consider such protests and any additional written or oral protests which may be made either against the establishment of the proposed zone or the inclusion therein of any property, or both. The hearing may be continued from time to time but not to exceed 60 days in the aggregate Upon the conclusion of the hearing [,] the board may abandon the proposal [, or proceed therewith unless prior to the conclusion of the hearing a written

protest against the proposal, signed by a majority in number of the owners of real property within the proposed zone, be filed with the board, in which case no further proceedings relating to such proposal may be had for at least six months after the conclusion of the hearing.] *may adopt a resolution establishing the zone for the purpose specified in the notice, including therein all properties within the described boundaries of the proposed zone which the board finds will be specially benefited thereby.*

In determining the properties which will be specially benefited by inclusion in the proposed zone the board shall consider the availability to such properties, other than as a result of said work so proposed to be done by the district, of imported or reclaimed water and the present and contemplated use of such water, thereon.

A statement regarding the zone boundaries, or any change thereof, shall be filed as provided in Chapter 8, Part 1, Division 2, Title 5, of the Government Code

SEC. 3. Section 3.3 of said act is amended, to read:

Sec. 3.3. Whenever any zone is established pursuant to Section 3 1 of this act, a special tax may be levied *each year thereafter* by the board of supervisors upon the taxable real property within said zone to defray the cost of [any of the activities] *acquiring the water* for which the zone is established Said tax in any one fiscal year shall not exceed [two cents ($0.02)] *five cents ($0.05)* on each one hundred dollars ($100) of assessed valuation. It shall be in addition to any other taxes provided for by this act, and shall be levied and collected at the same time and in the same manner as such other taxes. All funds collected by reason of said tax shall be expended only on behalf of the zone and only for the purpose [s] *of acquiring water or for the purpose of conserving such acquired water, as* set forth in the notice of hearing upon the proposal to establish the zone.

Expenditures for the purpose [s] *of acquiring imported or reclaimed water, or both, as* set out in Section 3.1 [,] of this act, may be made *by the district* from funds derived from the special tax or taxes levied pursuant to this section [,] upon the taxable real property within such zone established under said Section 3.1, but not from any other funds. *No contract for the acquisition of imported or reclaimed water, or both, shall be entered into by the district which does not provide, that, unless sooner terminated, all obligations thereunder shall terminate at the end of any fiscal year during or at the end of which the zone within which the water is to be conserved, is terminated.*

SEC. 4. Section 3 5 is added to said act, to read:

Sec. 3.5. Any part of the land included within an established zone may be excluded therefrom by the board of supervisors if at a hearing on the matter it determines that the exclusion would be for the best interests of the zone, or that the land would no longer be specially benefited by its continued inclusion in the zone and that the land remaining in the zone would continue to be specially benefited by remaining as a zone. The board may order such hearing on its own motion and shall do so upon a petition for exclusion being filed with the clerk of the board, signed by the owners of ten per cent in assessed value of the real property within the area described in the petition or upon receipt by the clerk of a resolution requesting exclusion, adopted by the majority vote of the governing body of any city, or of any public district formed for the purpose of supplying water, all or any part of which is included in the zone. Petitions of property owners must contain a description of the property in which each signer claims ownership, sufficient to identify the same. The clerk shall transmit such petition to the assessor who shall certify to the board of supervisors whether such properties assessed to such petitioners, as shown on the last equalized assessment roll, have an assessed value of ten per cent or more of the assessed value of all taxable real property within the area sought to be excluded.

Notice of such hearing shall be given in the manner described in Section 3.2 and shall contain a description of the land sought to be excluded and a statement of the purpose of the hearing.

At the hearing, evidence may be presented concerning either or both of the elements to be determined by the board as a prerequisite to the exclusion of the land described. The hearing may be continued from time to time not to exceed sixty days in the aggregate. If the board so determines, it shall thereupon by resolution declare such land excluded from the zone.

SEC. 5 Section 3.6 is added to said act, to read:

Sec 3 6. Any zone established pursuant to Section 3 1 of this act may be terminated by the board of supervisors after a public hearing on the matter Such hearing may be ordered upon motion of the board, and shall be ordered upon a petition for termination being filed with the clerk of the board, signed by the owners of 10 percent of the taxable real property within the zone as ascertained by reference to the last equalized county assessment roll, or upon the filing with the clerk of a resolution requesting termination adopted by a majority vote of the governing body of any city, or of any public district formed for the purpose of supplying water, all or any part of which is included within the zone. The determination of the percentage of owners of real property signing the petition for termination shall be made and certified to by the assessor in the manner described in Section 3.5.

Notice of such hearing shall be given in the manner described in Section 3 2. The notice shall contain a description of the zone, a general statement of its activities, and the purpose of the hearing.

At the hearing, evidence may be presented concerning the necessity, or lack thereof, for continuing the zone. The hearing may be continued from time to time not to exceed 60 days in the aggregate. If the board determines that such necessity no longer exists, or that the public interest otherwise requires the termination of the zone, or that the real property is no longer benefited, the board shall thereupon by resolution declare the zone terminated for all purposes except those necessary to finance outstanding contracts. When such contracts have been satisfied the zone will terminate for all purposes, effective at the close of the then current fiscal year.

Such a zone shall terminate without hearing at the end of the third or fourth fiscal year during which taxes were, or could have been, levied for zone purposes if certified copies of resolutions requesting such termination are filed with the board of supervisors, as hereinafter provided, on or before 60 days prior to the date of the requested termination. Such resolutions shall be sufficient if adopted by a majority vote of the governing bodies of cities or of public districts formed for the purpose of supplying water within which cities or public districts or both, there is taxable real property situated within the zone having an assessed value equal to not less than 35 percent of the assessed value of all of the taxable real property within the zone, as shown by the equalized assessment roll of such fiscal year.

If not sooner terminated, such zone shall terminate without hearing at the end of the fifth fiscal year during which taxes were, or could have been, levied for zone purposes. A new zone comprising or including all or any part of an original zone which has been terminated pursuant to the provisions of this section, shall not be established if protests are filed with the clerk of the board, at least fifteen (15) days prior to the date set for hearing thereon, which protests have been adopted by a majority vote of the governing bodies of cities or of public districts formed for the purpose of supplying water, within which cities or public districts or both, there is taxable real property situated within the proposed zone as described in the notice of hearing, having an assessed value equal to not less than 35 percent of the assessed value of all of the taxable real property within the proposed zone as described in said notice of hearing, as shown on the last equalized assessment roll.

Any remaining funds of a terminated zone shall be added to the general funds of the district and shall be expended by the district for water conservation in a manner beneficial to the area within the terminated zone in addition to that normally performed."

"The rapid growth of the population of the State during and since World War II has resulted in increased congestion of people in unincorporated areas which are wholly without adequate sewerage facilities. The State Board of Public Health has found it necessary to require the treatment of sewage before it is deposited in the streams and waters and in the Pacific Ocean. This has resulted in greatly increased numbers and activities of sanitary districts. In order to adequately provide and administer sanitation in such areas, and to cooperate with the State Board of Public Health in carrying out its orders, it is necessary that the laws of sanitary districts be more complete, comprehensive and adequate for such purposes. The provisions of this bill has as its purpose making such laws more comprehensive and it is necessary and urgent that the provisions thereof become law at once."

"SEC. 8. Section 2 of said act is amended to read:

Sec. 2. It is hereby found and declared that there exist in many communities in this State blighted areas which constitute either social or economic liabilities, or both, requiring redevelopment in the interest of the health, safety and general welfare of the people of the communities in which they exist and of the people of this State generally. These blighted areas are characterized by one or more of the following conditions:

(a) The existence of buildings and structures, either used or intended to be used for living, commercial, industrial or other purposes, or any combination of such uses, which by reason of defective design and character of physical construction, faulty interior arrangement and exterior spacing, high density of population and overcrowding, inadequate provision for ventilation, light, sanitation, open spaces and recreation facilities, age, obsolescence, deterioration, dilapidation, mixed character or shifting of uses to which they are put, or any combination of such factors and characteristics, are unfit or unsafe to occupy for residential, commercial, industrial or other purposes and are conducive to ill health, transmission of disease, infant mortality, juvenile delinquency and crime.

(b) An economic dislocation, deterioration or disuse, as a result of faulty planning, the subdividing and the sale of lots of irregular form and shape and inadequate size for proper usefulness and development, the laying out of lots in disregard of the contours and other physical characteristics of the ground and surrounding conditions, or the existence of inadequate streets, open spaces and utilities, or of lots or other areas which are subject to being submerged by water.

(c) A prevalence of depreciated values, impaired investments and social and economic maladjustment to such an extent that there exists a reduced capacity to pay taxes and consequent inadequacy of tax receipts in relation to the cost of public services rendered.

(d) A growing and in some instances a total lack of proper utilization of areas, resulting in a stagnant and unproductive condition of land potentially useful and valuable for contributing to and serving the public health, safety and welfare; and in other areas a loss of population and reduction of useful utilization of the area, resulting in the further deterioration thereof and in added costs to the taxpayer supporting governmental entities for the creation of new public facilities and services elsewhere.

It is further found and declared that the existence of blighted areas characterized by any or all of such conditions, separately or collectively, constitutes a serious and growing menace which is hereby condemned as injurious and inimical to the public health, safety and welfare of the people of the communities in which they exist and of the people of the State generally; that such areas present difficulties and handicaps which are beyond remedy and control solely by regulatory processes in the exercise of the police power; that they contribute substantially and increasingly to the problems of, and necessitate excessive and disproportionate expenditures for, crime prevention, correction, prosecution and punishment, the treatment of juvenile delinquency, the preservation of the public health and safety and the maintaining of adequate police, fire and accident protection and other public services and facilities; that this menace is becomingly increasingly direct and substantial in its significance and effect; that the benefits which will result from the remedying of these conditions and the redevelopment of these areas of blight will accrue to all the inhabitants and property owners of the communities in which they exist.

It is further found and declared that such conditions of blight tend to further obsolescence, deterioration and disuse because of the lack of incentive to the individual landowner and his inability to improve, modernize or rehabilitate his own particular property while the condition of the neighboring properties remains unchanged; that as a consequence the process of deterioration of a blighted area frequently can not be halted or corrected except by redeveloping the entire area, or substantial portions thereof; that such conditions of blight are chiefly found in areas which have been subdivided into small parcels, that in most instances the lands are held in divided and widely scattered ownerships, frequently under defective titles, that in many such instances the private assembly of the lands in blighted areas for purposes of redevelopment is so difficult and costly that it is uneconomic and as a practical matter impossible for individual owners independently or collectively to undertake to remedy such conditions because of lack of the legal power necessary for, and the excessive costs involved in, the private acquisition of the real property of the area; that the remedying of such conditions may require the public acquisition at fair prices of adequate areas, the clearance of the areas through demolition of existing obsolete, inadequate, unsafe and insanitary buildings and the redevelopment of the areas suffering from such conditions under proper supervision, with appropriate planning, and continuing land use and construction policies.

For these reasons it is hereby declared to be the policy of this State to protect and promote the sound development and redevelopment of blighted areas within this State and the general welfare of the inhabitants of the communities in which they exist by remedying such injurious conditions through the employment of all means appropriate for that purpose; that whenever the redevelopment of blighted areas can not be accomplished by private enterprise alone, without public participation and assistance in the acquisition of land, in planning and in the financing of land assembly, in the work of clearance and in the making of improvements necessary therefor, it is in the public interest to employ the power of eminent domain, to advance or expend public funds for these purposes and to provide a means whereby the blighted areas within this State may be redeveloped or rehabilitated; that the redevelopment of such blighted areas and the provision for appropriate continuing land use and construction policies therein, constitute public uses and purposes for which public money may be advanced or expended and private property acquired, and are governmental functions of State concern in the interest of the health, safety and welfare of the people of the State generally and particularly of the people of the communities of the State in which such areas exist; [that it is in the public interest that work on such projects be commenced as soon as possible in order to create postwar employment;] and that the necessity in the public interest for the provisions hereinafter enacted is hereby declared to be a matter of legislative determination.

SEC. 9. Section 2.1 of said act is amended to read:

Sec. 2.1. It is hereby found and declared that blighted areas [shall] *may* include housing areas constructed as *temporary government-owned* wartime housing

projects, and it is further found and declared that such areas [are] *may be* characterized by one or more of the conditions enumerated in Section 2 of this act.

All moneys received by the agency from the sale, lease or encumbering of property acquired with moneys from the Redevelopment Revolving Fund in excess of the money required to replay the loans and interest thereon authorized by this act shall be redeposited in the fund. All other provisions of this act that relate to financing shall be subject to the provisions of this section. Nothing contained in this section shall authorize a redevelopment agency to construct any buildings, but such redevelopment agency shall be subject to the limitations imposed by the provisions of Section 29 of this act. If any property acquired in whole or in part from the Redevelopment Revolving Fund is to be sold or leased by the redevelopment agency, the sale or lease must first be approved by the legislative body. Such approval by the legislative body shall be by resolution adopted after public hearing Notice of the time and place of such hearing shall be published once in the official newspaper of the community at least one week prior to such time. Such resolution shall be adopted by a majority vote unless the legislative body shall have provided by ordinance for a two-thirds vote for such purpose.

SEC. 11. Section 33003 of the Health and Safety Code is amended to read:

33003. ["Redevelopment] *Project* area" means an area of a community which the [legislative body finds to be] *is* a blighted area whose redevelopment is necessary to effectuate the public purposes declared in this part.

SEC. 12. Section 33004 of said code is amended to read:

33004. A [redevelopment] *project* area need not be restricted to buildings, improvements, or lands which are detrimental or inimical to the public health, safety, or welfare, but may consist of an area in which such conditions predominate and injuriously affect the entire area. A [redevelopment] *project* area may include lands, buildings, or improvements which are not detrimental to the public health, safety or welfare, but whose inclusion is found necessary for the effective redevelopment of the area of which they are a part.

SEC. 13. Section 33004.5 is hereby added to said code to read:

33004.5. A project area shall comprise either (1) at least one block bounded on all sides by public highways as shown on the official map of the community or (2) where no official map exists, an area of not less than 90,000 square feet, including any highways, streets, or alleys

SEC. 14. Section 33011 of said code is hereby repealed

SEC. 15. Section 33013 of said act is amended to read:

33013. "Redevelopment" means the planning, development, replanning, redesign, clearance, reconstruction, or rehabilitation, or any combination of these, of all or part of a [redevelopment] *project* area, and the provision of such residential, commercial, industrial, public, or other structures or spaces as may be appropriate or necessary in the interest of the general welfare, including recreational and other facilities incidental or appurtenant to them.

It does not exclude the continuance of existing buildings or uses whose demolition and rebuilding or change of use are not deemed essential to the redevelopment and rehabilitation of the area. It includes:

(a) The alteration, improvement, modernization, reconstruction, or rehabilitation, or any combination of these, of existing structures in a project area

(b) Provisions for open space types of use, such as streets and other public grounds and space around buildings, and public or private buildings, structures and improvements, and improvements of public or private recreation areas and other public grounds.

(c) The replanning or redesign or original development of undeveloped areas as to which either of the following conditions exist:

(1) The areas are stagnant or improperly utilized because of defective or inadequate street layout, faulty lot layout in relation to size, shape, accessibility, or usefulness, or for other causes.

(2) The areas require replanning and land assembly for reclamation or development in the interest of the general welfare because of widely scattered ownership, tax delinquency, or other reasons

SEC. 16. Section 33267 of said act is amended to read:

33267. Within the [redevelopment] *project* area or for purposes of redevelopment an agency may:

Bill ordered transmitted to the Senate.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Senate Bill No. 676:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 3, 1951

To the Honorable Members of the Assembly
Sacramento, California

GENTLEMEN:

Senate Bill No. 676, "An act to amend Sections 9765, 9769, and 9770 of the Business and Professions Code, relating to cemeteries,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

The funds which would be made available by Section 9 of this bill are necessary to provide for the continued operation of the Cemetery Board during the balance of the present fiscal year.

I therefore recommend consideration of Senate Bill No. 676 as an emergency measure.

Respectfully submitted.

Parker, Porter, Rumford, Shaw, Silliman, Stanley, Thomas, and Waters:

House Resolution No. 135

Extending felicitous greetings to the Republic of Mexico upon the occasion of its national holiday, Cinco de Mayo

Cinco de Mayo has been a date revered in Mexico since that day in 1862 when Ignacio Zarogoza and his men, greatly outnumbered, defeated the French in the Battle of Guadalupe, near Puebla, to set a valiant example for the people of Mexico through the hard struggle which was to follow, that the flaming love for freedom in the hearts of the people should never dim, nor courage falter, until the spirit that won the Battle of Guadalupe should emerge eternally triumphant in the establishment of national independence and freedom

As the people of Mexico celebrate the national holiday of Cinco de Mayo, the people of the State of California join in spirit with our good friends and nearest neighbors in homage to the courage and love of freedom of those who fought the battles against foreign domination and whose vigilance and wisdom guarded and guided the infant nation so well that today Mexico shares with the rest of this hemisphere a common heritage of freedom and independence, and speaks with a firm voice in world councils for the maintenance of freedom and peace for all the peoples of the earth; now, therefore, be it.

Resolved by the Assembly of the State of California, That the Members of this Assembly, on behalf of the people of the State of California, extend to the people of Mexico felicitous greetings upon the occasion of the celebration of their great national holiday, Cinco de Mayo, conveying to them expressions of warm friendship and good will; and be it further

Resolved, That the Chief Clerk of the Assembly send a suitably engrossed copy of this resolution to His Excellency, the President of the Republic of Mexico.

Resolution read, and adopted unanimously.

Mr. Doyle seconded the motion.

Substitute motion carried.

REMARKS BY MR. GEDDES RELATIVE TO HOUSE RESOLUTION NO. 135

Mr. Speaker and Members: Joining with Mr. Rosenthal in presenting this resolution in observance of the Cinco De Mayo, I do so because of an obligation which I feel that I should discharge at every opportunity to show my gratitude to the people of our sister Republic for the manifold kindnesses and courtesies which they have extended me during the years that I lived in the Republic of Mexico. For 16 years as a boy and afterwards for two years as a grown man I learned that our Mexican brothers are people unfailing in their courtesy and understanding. There are those perhaps who may regard Mexico as a backward nation but I declare to you that it is not so. In many ways we may measure Mexico as having been before the people of this Country in establishing and using things that are modern. May I call to your attention that Mexico was already established as a Crown Colony of Spain when the Pilgrims were still on their way to settle on the New England shores from England. May I remind you that the first Lodge of Freemasons was established in Mexico before there was a corresponding Lodge in the English Colony. It is a known fact that the first air mail service between regular designated termini was established in Mexico before this Country had established air mail routes, and also that that great mark of civilization, the printing press, functioned in Mexico before it did in the northern colonies which later became part of the United States.

The Cinco De Mayo as is explained in the resolution is a date of significance to a people who have not only fought their own battle for freedom and thereby won our admiration, but have continued to utilize that freedom and today are a friendly neighbor and one which will aid us in our undertakings whereby we seek to establish a better world in which free people may dwell.

MOTION BY MR. SHAW ORDERED REFERRED TO THE COMMITTEE ON RULES

By unanimous consent, the motion by Mr. Shaw, that House Resolution No. 135 be translated into Spanish, be printed as a separate document, and that 1,000 copies be printed, was ordered referred to the Committee on Rules for consideration, with instructions to Mr. Hollibaugh to present the motion.

Strong minds, great hearts, true faith and ready hands;
Men whom the lust of office does not kill;
Men whom the spoils of office can not buy;
Men who have honor; men who will not lie;
Men who can stand before a demagogue
And damn his treacherous flatteries without winking!
Tall men, sun-crowned, who live above the fog
In public duty, and in private thinking."

In Jesus' name we pray.—AMEN.

On page 1 of said bill, strike out lines 1 to 25, inclusive; and strike out pages 2 and 3, and insert

"SECTION 1. The Legislature hereby finds and declares that unprecedented growth in California, particularly since 1940, has created many new and difficult problems of government. One such problem has arisen in the unincorporated areas of many counties where, as a result of large population growth and extensive residential, commercial and industrial development, these areas require governmental services commonly provided by cities. Many of these areas do not now choose to incorporate or annex to cities.

At the present there is no adequate method of providing efficient and economical performance of multiple urban services in such areas. Boards of supervisors throughout the state, faced with the demand for services from these areas and recognizing the need, have been obliged either to require such areas to create numerous overlapping special purpose districts or to provide the services directly through the county departments. In these circumstances the tendency of many boards of supervisors has been, and increasingly is, to provide these services directly. The law, however, makes no provision for assessment of the cost of such direct county services against the benefited persons and property. Such expenditures are made from the county general fund to which both city and rural property owners contribute through general county taxes. Thus a serious tax inequity has arisen.

The residents and property owners of such unincorporated urban areas of the county are entitled to have made available to them reasonable alternative methods of providing or securing the urban services they require and to choose among the alternatives the method best suited to their local circumstances. Equity requires, in addition, that the inhabitants and property owners of such areas pay for such urban

services rather than to continue to receive them as a result of taxes paid largely by others.

It is, therefore, the purpose of this act to provide additional alternative methods for the provision of such urban services in urban unincorporated areas; to require the payment of such costs by the benefited persons and property; and to establish procedures for the determination and payment of such costs.

SEC. 2. Chapter 3.3 is added to Part 2, Division 2 of the Government Code, to read:

CHAPTER 3.3. URBAN UNINCORPORATED AREAS

25260. On or before March 31, 1953, the board of supervisors of each county shall classify all real property located in the unincorporated area of the county as: (1) urban; or (2) rural.

25261. Real property shall be classified as urban:

(a) If the established or rapidly developing type of land use in the area represents such a degree of residential, commercial or industrial development, or a combination of such uses, as to establish the urban character of the area, as distinguished from those unincorporated areas of the county where the nature of land use and the degree and density of development are such as clearly to retain a rural agricultural character; and

(b) If the nature and extent of such development requires urban services commonly provided within cities, because of population and land use density, which services are not commonly provided or provided to such an extent in the rural agricultural areas of the county.

25262. All unincorporated areas of the county not classified as urban shall be classified as rural.

25263. In classifying any parcel of real property as urban or rural, the board of supervisors shall be guided by the predominant character of land use in the area; provided, however, that as to unimproved property lying along the exterior boundaries of an urban unincorporated area, the board of supervisors shall take into account whether the present or immediately intended use of the land is urban or rural and shall be guided in the classification by such use or intention.

25264. 'Urban Services', as distinguished from 'county standards of service", mean those governmental functions or facilities provided in the unincorporated area of the county which are made necessary as to kind, quality, extent, standard or degree by the urban nature of land use in the area. In determining services which are urban, each board of supervisors first shall identify the services and activities of county government which are performed only in the unincorporated areas of the county. Determination shall then be made of the standards of such services and activities provided in the rural agricultural areas. These are the standards or degrees of service which would be provided throughout the unincorporated area of the county except for the factor of urban development. The board shall then take into account in connection with its determination of each urban service provided in the urban unincorporated areas, the extent to which the county actually provides at county expense or makes direct financial contributions to the support of the same service within all the cities of the county. Services provided or supported in the urban unincorporated area of the county and not provided or supported in the rural area or within cities, and standards or degrees of service provided in the urban unincorporated areas of the county higher than the standards of service provided in the rural agricultural areas and not provided or supported to a like extent within the cities, are hereby defined as and declared to be special urban services by the county to unincorporated urban areas.

25265. On and after July 1, 1953, unincorporated urban areas shall be required to pay all costs, direct and indirect, of urban services provided by the county. Between March 31, 1953, and July 1, 1953, the board of supervisors of each county, after public hearing, shall determine in the manner above provided the extent and cost of urban services being provided urban unincorporated areas and shall cause notice to be given to the inhabitants and property owners of such areas in order that steps may be taken by the inhabitants and property owners of such areas to select and arrange for the method by which they choose to provide and pay for such services.

SEC. 3. Chapter 3 5 is added to Part 2, Division 2 of said code, to read:

CHAPTER 3.5. URBAN SERVICE ZONES

25270. As a method of assessing such costs upon persons and property within the urban unincorporated areas served, the board of supervisors may establish an urban service zone or zones in the urban unincorporated area of the county in the manner provided in this chapter and levy taxes upon taxable property within any such zone or zones as hereinafter provided.

25271 The board of supervisors may commence proceedings for the establishment of an urban service zone or zones within the urban unincorporated area of a county by the adoption of a resolution of its intention to establish such a zone or zones, and setting a time and place for public hearing on the creation of such zones. The hearing shall be not less than 30 days nor more than 60 days after publication of the resolution.

25272. Notice of such hearing shall be given by the clerk of the board of supervisors by publication of a notice of hearing and the resolution of intention at least once in a newspaper of general circulation published in the county.

25273. In addition to the resolution of intention the notice of hearing shall:

(a) State that the proceedings are conducted pursuant to this chapter.

(b) State the time and place for the hearing.

(c) State that at the hearing the testimony of all interested persons will be heard.

(d) State that the purpose of the hearing is to create and establish urban service zones within which taxes will be levied to pay the costs of urban services provided such zones by the county.

(e) Include a tentative map or maps of proposed urban unincorporated areas and a list of urban services and approximate tax rates applicable thereto.

(f) State that at said hearing protests will be considered by the board of supervisors.

(g) State that at said hearing requests in writing for the exclusion from or inclusion in any of the proposed zones will be considered by the board of supervisors.

25274. At the hearing the board of supervisors shall hear all testimony and consider documents, maps or exhibits introduced by any interested person. The board may continue the hearing from time to time not exceeding 60 days.

25275. At the hearing protests may be made orally or in writing by any interested person. Any protest pertaining to the regularity or sufficiency of the proceeding must be in writing and must clearly set forth the irregularities and defects to which objection is made. All written protests must be filed with the clerk of the board of supervisors on or before the time fixed for the final hearing. Written protests may be withdrawn in writing at any time before the hearing.

25276. If the board determines that all urban services rendered by the county are uniformly provided to one or more urban unincorporated areas of the county it may establish such urban unincorporated area or areas of the county as a single urban service zone.

25277. If the board determines that only certain urban services rendered by the county, but not all such services, are uniformly provided to all urban unincorporated areas of the county, it may establish all such urban unincorporated areas of the county as a single urban service zone with respect to such services. In such case the board shall establish other zones defining the areas which receive the balance of the urban services rendered by the county in urban unincorporated areas.

25278. The board of supervisors shall not be deprived of jurisdiction to proceed with the hearing, nor shall the proceeding be invalidated by any clerical error in the published notice.

25279. At the conclusion of the hearing the board shall deny or allow all protests and requests for exclusion from or inclusion in urban service zones, and shall by resolution finally determine and establish the boundaries of such zones within the county. A map showing the boundaries of the urban service zone or zones as finally established in substantially the same form as the tentative map shall be published at least once in a newspaper of general circulation published in the county within two weeks after the adoption of the resolution of final determination. From the date of the adoption of the resolution finally determining and establishing the urban service zone or zones within the county, the zone or zones thereby established shall be and constitute the official urban service zone or zones of the county, until modified by proceedings taken pursuant to Section 25280, or inclusion within an incorporated city, urban district or district.

25280. Proceedings for modifications of the boundaries of urban service zones to meet changed conditions may be undertaken by the board of supervisors in the same manner as proceedings for the original establishment of zones; provided that no change in boundaries shall be effective for purposes of taxation for the fiscal year following the change in boundaries unless completed prior to the first Monday in February.

25281. After the establishment of an urban service zone or zones within a county the board of supervisors shall annually levy and collect, at the same time and in the same manner as other county taxes are levied and collected, a tax upon all taxable property within each urban service zone in the county in an amount sufficient to pay all costs, direct and indirect, of urban services furnished by the county within such zone. If more than one zone is established in a county, the zones may be given consecutive numbers for convenience of reference.

25282. Whenever any portion of an urban service zone is included with a city by reason of incorporation, annexation or otherwise such portion shall be withdrawn. All urban service zone taxes collected by the county after the date of withdrawal on property so withdrawn shall be paid over to the city.

25283. Whenever any portion of an urban service zone is included within an urban district by formation, annexation or otherwise, such portion shall be withdrawn. All urban service zone taxes collected by the county after the date of withdrawal on property so withdrawn shall be credited by the county to the urban district.

25284. Whenever any portion of an urban service zone is included within a district by incorporation, formation, annexation or otherwise, authorized by law to

perform any of the special services for which the county has levied an urban service zone tax, the county shall immediately undertake proceedings for the modification of the boundaries of such zone pursuant to Section 25280. That portion of urban service zone taxes collected on property so included which is deemed by the board to represent the saving, if any, to the county resulting from such inclusion shall be paid over to the district as the case may be.

SEC. 4. Chapter 7 is added to Title 6 of said code, to read:

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 5, 1951

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 2318, entitled: "An act to add Article 3 to Chapter 1, Part 1, Division 4 of the Fish and Game Code, relating to a means of providing reciprocity in the issuance of sport fishing licenses."

My objections to this bill are as follows:

This measure deals with reciprocal fishing licenses between the State of California and the States of Nevada and Arizona. I am today approving Assembly Bill No. 1908 authored by Assemblymen Erwin and Hinckley and the late Assemblyman Butters, which deals with both reciprocal fishing licenses and reciprocal hunting licenses between

this State and the State of Arizona. I am also signing Assembly Bill No. 2321 authored by Assemblyman McCollister, dealing with the subject of reciprocal fishing licenses between the State of California and any adjoining state By approving these two bills the broadest scope is given to this subject. No necessity remains for the approval of this measure, which would not provide anything that is not provided by the approval of the two bills which I have mentioned.

For the above reasons I am returning this bill without my approval.

Respectfully submitted.

EARL WARREN, Governor

May 5, 1951

I acknowledge receipt this fifth day of May, 1951, at 6 40 o'clock p m, of Assembly Bill No 2318 without the Governor's signature, together with a statement of his objections thereto signed by the Governor, delivered to me personally by Beach Vasey, Legislative Secretary to the Governor.

CARLEY V. PORTER

CONSIDERATION OF GOVERNOR'S VETO

Assembly Bill No. 2318—An act to add Article 3 to Chapter 1, Part 1, Division 4 of the Fish and Game Code, relating to a means of providing reciprocity in the issuance of sport fishing licenses.

Governor's message stating his objections read.

The question being: Shall Assembly Bill No. 2318 become a law notwithstanding the objections of the Governor?

The roll was called, and the Assembly sustained the objections of the Governor by the following vote:

AYES—None.

NOES—Babbage, Belotti, Berry, Burke, Burkhalter, Caldecott, Chapel, Clarke, Coats, Collier, Connolly, Cooke, Crowley, Davis, Dickey, Dills, Dolwig, Doyle, Dunn, Elliott, Erwin, Evans, Gaffney, Geddes, Grant, Grunsky, Gubser, Hahn, Hawkins, Henderson, Hollibaugh, Kelly, Kirkwood, Klocksiem, Lanterman, Levering, Lindsay, Lipscomb, Lyon, Maloney, McCarthy, McCollister, McFall, McGee, Morris, Moss, Niehouse, Parker, Porter, Rumford, Shaw, Sillman, Smith, Stanley, Thomas, and Mr. Speaker—56.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 5, 1951

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 1890, entitled: "An act to repeal Section 232 of the Banking Code and to repeal Section 232 of the Financial Code, relating to the taking of the constitutional oath of office by deputies and examiners."

My objections to this bill are as follows:

This bill repeals the present requirement of the Banking Code that certain employees in the office of the Superintendent of Banks take the constitutional oath. This repeal has been suggested for the reason that the same employees are required to take the oath which the Legislature adopted as a measure connected with civil defense The constitutionality of this last requirement has been attacked in our courts and it would be a mistake to repeal the present law until the constitutionality of the second oath has been determined.

Furthermore, the second oath was required by the Legislature upon recommendation of the President of the United States as a measure connected with civil defense. When the present crisis is past and the civil defense effort is abandoned, it may be deemed wise to repeal the present temporary oath provision. In such case there would be no reason for the repeal of the oath sought to be effected by this bill.

For these reasons I am returning this bill without my approval.

Respectfully submitted.

ARTHUR A. OHNIMUS

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 5, 1951

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 291, entitled: "An act to amend Section 19437 of the Education Code, relating to civic centers."

My objections to this bill are as follows:

The Civic Center Act has been in existence in California since 1913 and has been integrated into the civic life of our State. The people of California have come to depend upon the use of these school properties for educational, cultural and recreational purposes I believe the act has filled a real need in the life of our State and has not as presently written done an injustice to the taxpayers of the school districts. I believe it would be a mistake to discourage the use of our schools for the purposes of the Civic Center Act. This bill is subject also to the objection that it could be used to freeze organizations which might not be particularly in the favor of the school boards, out of the use of our schools. This can be accomplished under Assembly Bill No. 291 because no uniformity for charging is provided for. The school board could charge those organizations that it chose to charge, and could permit free use of school properties by organizations that it chose to favor. Even among those that it would charge, no uniformity is required. It could charge a large fee to one and a nominal fee to another group, although the use might be identical.

I do not believe that it was ever intended that the Civic Center Act should be on such a narrow or preferential basis. It was, on the contrary, designed to encourage people, both minors and adults, to make use of school properties for wholesome civic purposes

when they were not required for purposes of instruction. We have expended many hundreds of millions of dollars in the construction of public schools and it would seem that in order for the public to receive the maximum benefit from them that they should be made available as much as possible for the advancement of civic interests.

I have received objections to the signing of the bill from the California Congress of Parents and Teachers, the Superintendent of Recreation of the City and County of San Francisco, the County of San Mateo, the City of San Mateo and the City of Turlock, the Boy Scouts of America, the Welfare Council of Metropolitan Los Angeles and other civic organizations.

For the above reasons I am returning this bill without my approval.

Respectfully submitted.

EARL WARREN, Governor

RESOLUTIONS

The following resolution was offered:

By Messrs. Grant, Porter, Maloney, Chapel, Rosenthal, Thomas Berry, Klocksiem, Condon, Cooke, Burkhalter, Doyle, Geddes, Erwin, Hinckley, Clarke, McCollister, and Conrad:

House Resolution No. 136

Relating to wishing former Governor Merriam a rapid recovery from his illness

WHEREAS, News has reached us of the illness of former Governor Frank F. Merriam, much to the individual and sincere disquiet of the Members of the Legislature, who recall his contributions to adapting government to meet human needs; and

WHEREAS, Frank F. Merriam began his career as a public servant in the Iowa Legislature, in which he served two terms, and then four years as the auditor of that State; and

WHEREAS, He was a modern pioneer of the West from the days he operated a newspaper in the Territory of Oklahoma, to the days of his civic leadership in Long Beach, California, when for the second time a popular demand arose for his entrance into state service. He became a Member of the Assembly in 1917, where he was to serve for the 10 years following. As Chief of the Republican Party in California he successfully directed the election of a fellow Californian to the Presidency of the United States; and

WHEREAS, Such experience in journalism, pioneering and civic development, and his ability in working with all people's problems cried for broader fields to cultivate and harvest, in the tradition of his farming forbears, the people elected him Lieutenant Governor in 1930; and

WHEREAS, It would seem that by Providence a man of his solid and certain character was to be the State's Chief Executive after the collapse of national finance and distribution and during the State's struggle for economic rehabilitation, Governor Frank Merriam fulfilled the highest demands of the day in relief emergencies and kindred problems. A man of conservative views, he successfully met the challenges of the hour with liberal administration; and

WHEREAS, The State will ever be grateful for the willingness of his abundant heart and his distinguished personal presence in all forms of public endeavor; and

WHEREAS, He has been basking in the sunshine of a California he helped build and guide; now, therefore, be it

Resolved by the Assembly of the State of California, That there be wished for him a rapid recovery and the best of health; and be it further

REQUEST FOR UNANIMOUS CONSENT THAT OPINION OF LEGISLATIVE COUNSEL BE PRINTED IN JOURNAL

Mr. Grunsky asked for, and was granted, unanimous consent that an opinion of the Legislative Counsel, relative to judicial salaries, be ordered printed in the Journal, in 10 point type, as follows:

Opinion of Legislative Counsel

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO 2, CALIFORNIA, May 7, 1951

Honorable Donald L. Grunsky
Assembly Chamber

ASSEMBLY BILLS 2624, 2625, AND 2626 RE JUDICIAL SALARIES—No. 7950

DEAR MR. GRUNSKY: You have asked our opinion whether the above bills can be enacted prior to the Budget Bill in view of the provision in Section 34 of Article IV that until the Budget Bill has been finally enacted neither house shall place upon final passage any other appropriation bill, except emergency bills recommended by the Governor, or appropriations for the salaries, mileage, and expenses of the Senate and Assembly. The bills in question increase the salaries of the judges of the superior and appellate courts and also increase the amount paid by the State as its share of the salaries of the superior court judges.

It is our opinion that none of these bills contains an appropriation and hence they may be properly enacted prior to the Budget Bill.

The sections affected by these bills are contained in Chapter 5 of Title 1 of Part 3 of the Political Code. Section 737 of that chapter provides that the provisions thereof prescribing salaries do not effect an appropriation of money and shall not be construed as making an appropriation or appropriations therefore, and that such salaries shall be payable only from such funds as may be made available under other provisions of law. The provisions of this chapter would be transferred to the Code of Civil Procedure by A. B. 2626, now pending before the Legislature, and the bills in question are addressed both to the Political Code and to the proposed new provisions of the Code of Civil Procedure.

We believe that the provisions of Section 737 are controlling as to the legislative intent regarding these bills and that the section negatives any possibility that the bills make appropriations. The section appears also to be applicable to the provision in Assembly Bill No. 2626 that increases the State's share of the salaries of the judges of the superior court. So far as we are aware, this provision has never been considered to be an appropriation. The appropriation to pay the State's share of the salaries of judges of the superior court has always been contained in the Budget Bill or in some other bill making a specific appropriation for that purpose. The current appropriation is contained in Item 379 of the pending Budget Bill.

Since the only limitation upon the enactment of bills prior to the Budget Bill is the one regarding appropriation bills, we know of no

reason passage of these bills should await the enactment of the Budget Bill.

Very truly yours,

RALPH N. KLEPS
Legislative Counsel
By LAWRENCE G. ALLYN, Deputy

Two copies to Honorable Thomas Caldecott pursuant to Joint Rule 34.

COMMUNICATIONS

By Speaker Sam L. Collins:

The following communication and resolution were received, read, and ordered printed in the Journal:

STATE OF CALIFORNIA
SACRAMENTO 14
INTER-DEPARTMENTAL COMMUNICATION

Date: May 7, 1951

To: Honorable Sam L. Collins
Speaker of the Assembly
State Capitol
Sacramento, California

SUBJECT: TRANSFER OF LIQUOR CONTROL

From: State Board of Equalization
Dixwell L. Pierce, Secretary

At its meeting in Los Angeles on May 4, 1951, the State Board of Equalization, upon motion of Honorable Jerrold L. Seawell, adopted the enclosed resolution regarding the transfer of the administrative responsibility for alcoholic beverage control from the board to a separate agency of the State Government.

This resolution was adopted by the unanimous vote of all five members of the board By their direction, I am sending you this copy in order that the Assembly may be informed of the action of the board. A similar communication and enclosure are being sent to the President of the Senate, so that that legislative body may also be informed of the views of the board members on this subject.

DIXWELL L. PIERCE

STATE BOARD OF EQUALIZATION

Resolution Regarding Transfer of Liquor Control
Introduced by Jerrold L. Seawell
Unanimously Adopted, May 4, 1951

WHEREAS, Proposed constitutional amendments are now pending before the California State Legislature proposing to separate the administration of alcoholic beverages from the tax administration functions of the State Board of Equalization; and

WHEREAS, There are many people and organizations who believe a separate alcoholic beverage control authority, protected in every possible way from political influences and having wide authority over liquor law administration, will promote public welfare; and

WHEREAS, Those who believe in the separation of liquor law administration from tax administration base their contention that the rapidly increasing population of California, with the attendant increase in permits, revenues, valuations, and hearings and litigation in connection therewith, merit the full attention of the State Board of Equalization; and that such separation of control will improve the administration of both state services from social, political and economic standpoints; and

WHEREAS, Since the Board of Equalization believes that over a period of 17 years it has performed its constitutional duties to the best of its ability with the facilities made available to it to perform this function, it has no objection to the transfer of the enforcement of the provisions of the Alcoholic Beverage Control Act to another state agency if it is believed such action would better the public welfare; now, therefore, be it

Resolved by the Members of the Board of Equalization, That if the Legislature believes the separation of liquor control enforcement from the Board of Equalization would be conducive to better government they respectfully recommend to the Legislature that it take action at the 1951 Session appropriate to achieve the objectives contained in this resolution; and be it further

Resolved, That if a constitutional amendment is submitted by the Legislature to the people that it should contain the following objectives:

1. The creation of an Alcoholic Beverage Commission consisting of members whose responsibility it shall be to administer the laws of California pertaining to the regulation of the manufacture and sale of such beverages;

2. Inclusion in the proposed amendment of provision that the commissioners, to be appointed by the Governor with the confirmation of the Senate, shall serve for

six-year terms, expiring at two-year intervals, to assure their independence of action, continuity of service, and freedom from disruptive political influences;

3. Inclusion in the proposal of provision for judicial review of the acts of the Alcoholic Beverage Commission, thus assuring that there may be speedy access to the courts to determine the lawfulness of its orders, and insuring against the possibility of arbitrary exercise of its powers; and

4. Enactment of legislation to effectuate the purpose of the constitutional amendment by providing, upon its adoption, for the transfer of regulatory responsibility under the Alcoholic Beverage Control Act from the State Board of Equalization to the Alcoholic Beverage Commission, together with the removal from the act of its excise tax provisions to the end that they may be administered thereafter as a part of the Revenue and Taxation Code by the State Board of Equalization.

Above subject matter ordered referred to the Committee on Constitutional Amendments.

Referred to Committee on Rules.

RECONSIDERATION OF ASSEMBLY CONCURRENT RESOLUTION NO. 59

In compliance with a notice given on a previous day, Mr. McGee moved that the vote whereby Assembly Concurrent Resolution No. 59 was adopted be reconsidered.

Point of Order

Mr. Cooke arose to the following point of order: That Mr. McGee did not vote on the adoption of Assembly Concurrent Resolution No. 59 yesterday, and, pursuant to the provisions of the Rules, was not in order in giving notice of motion to reconsider the vote whereby Assembly Concurrent Resolution No. 59 was yesterday adopted.

Ruling by Speaker

Speaker Sam L. Collins ruled the point of order well taken, and ruled the notice of motion to reconsider the vote whereby Assembly Concurrent Resolution No. 59 was yesterday adopted the property of the House, at this time.

Motion to Reconsider Assembly Concurrent Resolution No. 59

The notice of motion to reconsider Assembly Concurrent Resolution No. 59 being the property of the House, Mr. Collier moved that the vote whereby Assembly Concurrent Resolution No. 59 was adopted yesterday be reconsidered.

Point of Order

Mr. Doyle arose to the following point of order: That, as Mr. McGee did not vote on the adoption of Assembly Concurrent Resolution No. 59, the motion to reconsider is not in order.

Ruling by Speaker

Speaker Sam L. Collins ruled the point of order not well taken as this point has been previously ruled upon.

Point of Order

Mr. Moss arose to the following point of order: That Mr. Collier is not speaking to the motion.

Ruling by Speaker

Speaker Sam L. Collins ruled the point of order not well taken.

Point of Order

Mr. Coats arose to the following point of order: That Mr. Collier did not vote upon the adoption of Assembly Concurrent Resolution No. 59 yesterday, and is not in order in moving reconsideration or in speaking to the motion.

Ruling by Speaker

Speaker Sam L. Collins ruled the point of order not well taken, as the motion is the property of the House; and that such an objection as Mr. Coats is now raising is not well taken because not made yesterday, as was proper.

Point of Order

Mr. George D. Collins arose to the following point of order: That Mr. Collier is not in order because he did not vote upon the adoption of Assembly Concurrent Resolution No. 59.

Ruling by Speaker

Speaker Sam L. Collins ruled the point of order not well taken.

Point of Order

Mr. Cooke arose to the following point of order: That Mr. Collier is not speaking to the motion.

Ruling by Speaker

Speaker Sam L. Collins ruled the point of order not well taken.

Point of Inquiry

Mr. Hahn arose to the following point of inquiry: Can or cannot Mr. McGee speak to this motion?

Ruling by Speaker

Speaker Sam L. Collins ruled that Mr. McGee had no right to author the original motion so it was not in order for him to speak first, but that, when his turn arrives and he is recognized, he may speak to the motion.

Point of Order

Mr. Gaffney arose to the following point of order: That Mr. Collier is not speaking to the motion.

Ruling by Speaker

Speaker Sam L. Collins ruled the point of order not well taken.

Points of Order

Mr. Condon arose to the following points of order: That, pursuant to the Rules, a definite reason for reconsideration must be stated, and that, as none has been stated, Mr. Collier is not in order; and that, further, he is reading from printed material and is not in order.

Ruling by Speaker

Speaker Sam L. Collins ruled the points of order well taken.

Point of Order

Mr. McMillan arose to the following point of order: That Mr. Collier is not speaking to the motion.

Ruling by Speaker

Speaker Sam L. Collins ruled the point of order not well taken.

Point of Order

Mr. Lowrey arose to the following point of order: That Mr. Collier did not vote upon the adoption of Assembly Concurrent Resolution No. 59, and is out of order in speaking on the motion.

Ruling by Speaker

Speaker Sam L. Collins repeated his ruling which was that such an objection should have been raised yesterday, and that, as the notice of motion to reconsider the vote whereby Assembly Concurrent Resolution No. 59 was yesterday adopted became the property of the House, the point of order is not well taken.

Point of Inquiry

Mr. Coats arose to the following point of inquiry: Why was Mr. Collier in order when he moved to reconsider Assembly Concurrent Resolution No. 59?

Ruling by Speaker

Speaker Sam L. Collins ruled that, pursuant to the provisions of Rule No. 84, Mr. Collier was in order.

Motion to Lay Motion on Table

Mr. Condon moved that the motion to reconsider, by Mr. Collier, be laid upon the table.

Speaker Sam L. Collins ruled the point of order well taken.

Point of Order

Mr. Hagen arose to the following point of order: That Mr. Collier has exceeded his time.

Ruling by Speaker

Speaker Sam L. Collins ruled that so many interruptions have consumed the time of Mr. Collier that the point of order is not well taken.

Point of Order

Mr. McMillan arose to the following point of order: That Mr. Collier has exceeded his time.

Ruling by Speaker

Speaker Sam L. Collins ruled the point of order not well taken.

Motion to Lay Motion to Reconsider on Table

Mr. Condon moved that the motion by Mr. Collier to reconsider the vote whereby Assembly Concurrent Resolution No. 59 was adopted be laid upon the table.

Mr. Hagen seconded the motion.

Point of Inquiry

Mr. Crowley arose to the following point of inquiry: Does this coming roll call carry with it the question of the adoption of the resolution, or just the question of reconsideration?

Ruling by Speaker

Speaker Sam L. Collins ruled that only the motion to reconsider is presently before the House, and that the roll call does not pertain to any other issue.

REQUEST FOR UNANIMOUS CONSENT THAT OPINION OF LEGISLATIVE COUNSEL BE PRINTED IN JOURNAL

Mr. Hinckley asked for, and was granted, unanimous consent that an opinion of the Legislative Counsel relative to railroads be ordered printed in the Journal in 10 point type, as follows:

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, April 4, 1951

Honorable Edwin J. Regan
Senate Chamber

RAILROADS—No. 6483

DEAR SENATOR REGAN: Senate Bill No. 616, if enacted, would add Section 485b to the Civil Code, or, in the event the Public Utilities Act is enacted by the Legislature at this session, Section 7659 to the Public Utilities Code. The two sections are identical and read as follows:

> "Notwithstanding any city ordinance to the contrary, no railroad conductor or engineer, who, while operating a train, obstructs a railroad crossing, shall be subject to any criminal penalty, where he has no physical control over the situation causing the obstruction, or where the train cannot be moved without endangering the safety of the passengers or freight."

You have asked our opinion as to the validity of Senate Bill No. 616. With respect to the effect of Senate Bill No. 616, you have asked:

(1) Could a municipality enact an ordinance to subject a railroad corporation to criminal penalties for obstructing a railroad crossing, even though the engineer or conductor operating the train would not be subject to criminal penalties by reason of the provisions of Senate Bill No. 616?

(2) In the event a railroad engineer or conductor is liable because his acts are not excused by Senate Bill No. 616, could a railroad corporation also be made liable?

Opinion

It is our opinion that:

(1) The bill is valid.

(2) The answers to your two questions are in the affirmative.

Analysis

(1) Validity of Senate Bill No. 616

Section 11, Article XI of the State Constitution provides:

> "Sec. 11. Any county, city, town or township may make and enforce within its limits all such local, police, sanitary and other regulations are are not in conflict with general laws."

The power so conferred is as broad as that possessed by the Legislature itself, subject, however, to this exception: its exercise by any city must be confined to the municipality and must not conflict with the general law of the State (*Pasadena School District* vs. *Pasadena* (1913), 166 Cal. 7).

Since Senate Bill No. 616 purports merely to limit the power of cities to enact ordinances imposing criminal penalties upon railroad conductors or engineers for the obstruction of a railroad crossing while operating a train, we need not consider the extent of the power of the municipality to enact such legislation.

The power of the Legislature to enact such legislation limiting the power of the cities depends upon whether this is a matter of statewide concern or a "municipal affair." Where a particular matter is outside the limited group of "municipal affairs," it is clear that local regulations upon the subject may be enforced only if they "are not in conflict with general laws." (*Pipoly* vs. *Benson* (1942), 20 Cal. 2d 366.)

The regulation of traffic upon the streets of a city was held not to be one of those municipal affairs over which the local authorities are given power superior to that of the Legislature in *Ex Parte Daniels* (1920), 183 Cal. 636.

In a recent case, *Northwestern Pacific R. R. Co.* vs. *Superior Court* (1949), 34 Cal. 2d 454, the California Supreme Court, in deciding whether the condemnation of a right of way for a street across a railroad within a city was a matter of statewide concern or a municipal affair, said:

> "In other words, although the city may have control over municipal affairs under its charter and thereby have the right to bring a condemnation action to obtain a crossing of a railroad, it is only entitled to such relief where the crossing may be constructed without disturbing the public use and enjoyment of the utility. If the proposed crossing, whether lateral or longitudinal, would substantially interfere with the use of the facilities of the utility, then

the matter becomes one of statewide concern, rather than a 'municipal affair' * * * ." (p. 458).

The regulation by municipalities of the movement of trains within its limits, in our opinion, would substantially interfere with the use of the facilities of the railroad, and, hence, is a matter of statewide concern, rather than a "municipal affair." Being a matter of statewide concern, it follows that the power of the local authorities to enact such ordinances must yield to the superior power of the Legislature to enact general laws upon the subject.

(2) Liability of a Railroad Corporation Where Senate Bill No. 616 Exempts the Employee From Liability

It is to be noted that Senate Bill No. 616 purports to limit the power of municipalities only with respect to the imposition of criminal penalties upon railroad conductors and engineers in certain instances. It does not purport to limit the power of a municipality with respect to the imposition of criminal penalties upon the railroad corporation. Thus it appears that a municipal ordinance to impose such liability upon the corporation would not be subject to attack on the ground that it conflicted with the general law of the State.

The liability of the corporation can be based upon the general rule that a corporation may be criminally liable for the acts of an officer or agent, assumed to be done by him when exercising authorized powers, and without proof that his act was expressly authorized or approved by the corporation (*New York C. & H. R. R. Co.* vs. *United States* (1909), 212 U.S. 481).

(3) Liability of a Railroad Corporation When Senate Bill No. 616 Does Not Exempt the Employee From Liability

Senate Bill No. 616 purports to exempt a railroad engineer or conductor from criminal liability for the obstruction of a railroad crossing only under certain specified circumstances, namely, "where he has no physical control over the situation causing the obstruction, or where the train cannot be moved without endangering the safety of the pasesngers or freight." It does not purport to exempt such persons from criminal liability for acts not so specified. Hence it appears that a municipal ordinance to impose criminal liability upon such persons for acts not covered by Senate Bill No. 616 would not be subject to attack on the ground that it conflicted with the general law of the State.

The fact that a municipal ordinance makes the railroad engineer or conductor liable for acts not within the scope of Senate Bill No. 616 does not preclude the municipality from also passing ordinances making the corporation liable. The acts of a railroad engineer or conductor, acting within the scope of his employment, can be imputed to the employing corporation, thus subjecting the corporation to criminal penalties also (*New York C. & H. R. R. Co.* vs. *United States*, supra).

Very truly yours,

RALPH N. KLEPS
Legislative Counsel

REQUEST FOR UNANIMOUS CONSENT THAT OPINION OF LEGISLATIVE COUNSEL BE PRINTED IN JOURNAL

Mr. Dolwig asked for, and was granted, unanimous consent that an opinion of the Legislative Counsel, relative to registration of legislative representatives, be ordered printed in the Journal, in 10 point type, as follows:

Opinion of Legislative Counsel

(COPY)

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, April 23, 1951

Honorable Frank Lanterman
Assembly Chamber

REGISTRATION OF LEGISLATIVE REPRESENTATIVES—No. 6651

DEAR MR. LANTERMAN: You ask whether a general counsel, executive, or employee of a corporation would be required to register as a legislative representative under Section 9906 of the Government Code if on behalf of the corporation, and as a part of his duties as such counsel, executive, or employee, he writes letters to, or telephones, or telegraphs a Member of the Legislature in an attempt to influence the passage or defeat of legislation.

Section 9906 of the Government Code reads in part:

> "9906. (a) Any person who shall engage himself for pay or for any consideration for the purpose of attempting to influence the passage or defeat of any legislation * * * shall, before doing anything in furtherance of such object, register * * *."

"Engage" is defined by Webster's New International Dictionary (Second Edition) as:

> "1. To promise or pledge oneself; to enter into an obligation; to become bound; to warrant * * *.
> **Syn.** See PROMISE."

> "*Syn.* PROMISE, ENGAGE, PLEDGE. PROMISE is the general term; ENGAGE adds the implication of a binding agreement * * *."

Under this definition of the word "engage," it appears to us that if a person is employed as general counsel, executive, or employee of a corporation, and a part of his duties include the writing a letter to, telephoning to, or telegraphing to a Member of the Legislature in an attempt to influence the passage or defeat of legislation, such person would have engaged "himself for pay" within the meaning of Section 9906.

On the other hand, if such person on his own behalf, and not as a part of his duties for which he receives pay or any consideration from the corporation or any other person, were to write, telephone or telegraph a Member of the Legislature in an attempt to influence the passage or

defeat of legislation, he clearly would not be required to register as he has not engaged himself for pay or for any consideration for the purpose of attempting to influence the passage or defeat of any legislation within the meaning of Section 9906.

Whether a person acting as a general counsel, executive, or employee of a corporation has engaged himself for pay or for any consideration for the purpose of influencing legislation is a question of fact which will need be determined as to each particular person, considering the terms of his employment and the duties which are assigned to such person within the scope of his employment.

When it is concluded that such person has so engaged himself, the statute then requires such person to register "before doing *anything* in furtherance of such object." We see no reason why the phrase "before doing anything" would be given a restrictive interpretation. As we interpret "anything" it would include the making of phone calls, writing letters, or sending telegrams for the purpose of attempting to influence the passage or defeat of legislation.

Very truly yours,

RALPH N. KLEPS
Legislative Counsel
By LOUIS A. BOLI III, Deputy

REQUEST FOR UNANIMOUS CONSENT THAT A THIRD REPORT OF THE ASSEMBLY COMMITTEE ON LEGISLATIVE REPRESENTATION BE PRINTED IN JOURNAL

May the example of Jesus, who gave always tender concern for His dear mother, rise up within our hearts, that we, too, may call her "blessed".

MR. SPEAKER: We cordially extend an invitation to the Members of the Assembly to attend the Kern Crossroads Celebration, Sunday, May 13, 1951, in Delano, commemorating the arrival of Friant Kern Canal water at its terminus in Kern County.

The occasion of this celebration is the culmination of the dream of many thousands of Californians for the delivery of water for the lands of the South San Joaquin Valley.

It was initially with the help of the California Legislature that the Central Valley Project was given a childhood, and at this date the efforts of the Legislature have resulted in a manful deployment of California surplus waters to areas less supplied with the lifeblood of an agricultural community.

The celebration from 9 30 a.m until 4 p.m will provide entertainment and a source of pride to all attending The County of Kern extends an individual invitation to each Member of the Assembly and its attaches to attend with their families and friends

Very truly yours,

H. W. KELLY
Member of the Assembly

[Upon approval of the county committee on school district organization, after following the procedure prescribed by Chapter 16 of this division, one] *One* or more contiguous elementary or high school districts, [or portions thereof,] one of which is contiguous to a unified school district, may be annexed to the unified school district not later than the first day of February in any school year by the board of supervisors of the county having jurisdiction over the unified school district whenever a majority

of the qualified electors in each of the elementary or high school districts voting at an election held for that purpose vote in favor of the annexation and the governing board of the unified school district has filed its approval of the annexation, in writing, with the board of supervisors. [The annexation of such elementary or high school district or districts, or portions thereof, to a unified school district may be effected without such elementary or high school districts or portions thereof first withdrawing from an elementary or high school district of which it is a part.] The election shall be called by the county superintendent of schools having jurisdiction over the unified school district *whenever a majority of the electors residing in each of the elementary or high school districts petition the county superintendent of schools to call the election .*

No petition shall be accepted by the county superintendent of schools after December 15th in any fiscal year.

SEC. 5. Section 4663.1 is added to said code to read:

4663.1. When an election is called for the annexation of one or more contiguous elementary or high school districts, one of which is contiguous to a unified school district, after the approval by the State Board of Education of plans and recommendations of a county committee for the reorganization of school districts, the election shall be held and conducted in accordance with the provisions of this article and the annexation of such elementary or high school districts to a unified school district may be effected without such elementary or high school districts first withdrawing from any school district.

SEC. 6. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Under the existing law, there is no method by which an elementary school district which is a part of a city high school district may be annexed to a contiguous unified school district, nor is there any procedure prescribed whereby an elementary or high school district which is a part of another district may be annexed to a contiguous unified school district without first withdrawing from the district of which it is a part. This act would eliminate delay in annexations to a unified school district by allowing annexations in all such cases without the initiation of withdrawal proceedings.

It is therefore necessary that this act take effect immediately in order for unified school districts to make plans for necessary new sites and buildings, based on the new boundaries, rather than the present boundaries, of the district, so that the schools built in the unified district through the state school building aid program will be situated so as to serve the needs of the reorganized district."

House Resolution No. 144

Relative to requesting the Assembly Interim Committee On Interstate Cooperation to ascertain facts relating to motor vehicle registration

WHEREAS, The Assembly Interim Committee On Interstate Cooperation created by House Resolution No. 216, 1949 Regular Session, was directed to and did study and investigate facts relating to the development of a System of Registration of Motor Vehicles on a monthly basis; and

WHEREAS, It appears that certain additional facts are necessary in order that the Assembly may intelligently legislate upon this complicated subject, particularly facts relating to the operation of the so-called "staggered system" of vehicle registration now in use in the States of Oregon, Missouri, and Wisconsin, and the problems which may have arisen in connection therewith; and

WHEREAS, A new committee on Interstate Cooperation has been created by House Resolution No. 105 of this 1951 General Session of the Legislature and it appears that the experience gained by the members thereof qualify this committee for the task of ascertaining such additional facts, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Interim Committee On Interstate Cooperation, (created by House Resolution No. 105, 1951 General Session) be and it hereby is authorized and directed to ascertain, study and analyze all facts relating to the development of a System of Registration of Motor Vehicles on a monthly basis so as to permit, as far as possible, uniform distribution of the work of registration throughout each month of the calendar year and the establishment of 12 registration periods of 12 months duration, and particularly all facts relating to the systems of this nature now in use in the States of Oregon, Missouri, and Wisconsin, including but not limited to the operation, effect, administration, and enforcement and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution, and to report thereon to the Assembly, including in its report its recommendations for appropriate legislation; and be it further

Resolved, That in carrying out the duties imposed upon it by this resolution the committee shall have all the powers and duties prescribed in said House Resolution No. 105 (1951 General Session) and particularly shall be authorized to make this study in conjunction with the Department of Motor Vehicles and to contract with the Department of Motor Vehicles for the rendition and affording of such services, facilities, studies and reports to the committee as will best assist it to carry out the purposes of this resolution; and be it further

Resolved, That in addition to any money heretofore made available the sum of two thousand five hundred dollars ($2,500) or so much thereof as may be necessary is hereby made available to the committee from the unallocated balance of the money previously made available to the Committee On Interstate Cooperation by House Resolution No. 216 of the 1949 Regular Session, for the expenses of the Assembly Committee on Interstate Cooperation (created by House Resolution No. 105, 1951 General Session) and its members, and for any charges, expenses, or claims it may incur under

this resolution, to be paid from the Contingent Fund of the Assembly and disbursed after certification by the chairman of the committee, upon warrants drawn by the State Controller on the State Treasurer.

Resolution read, and ordered referred to the Committee on Rules.

By Mr. Brown:

House Resolution No. 145

Relating to studies of the feasibility of location of a state college at Modesto

WHEREAS, There is before the Legislature Assembly Bill 4 which proposes to establish a four-year state college in or near Modesto; and

WHEREAS, Senate Concurrent Resolution 40 has been introduced proposing to create a Joint Legislative Committee to Study the Building Program Problems at Presently Established State Colleges; and

WHEREAS, It would seem more efficient to begin dispersal of college locations throughout the State in certain cases, rather than only expanding facilities at the present 10 locations; and

WHEREAS, The location of a four-year state college at Modesto would be readily accessible to the increasing number of present and potential students in that area and relieve pressure on colleges in the Bay area and Central Valley; now, therefore, be it

Resolved by the Assembly of the State of California, That the State Council of Educational Planning and Coordination, the Regents of the University of California, the Department of Education, and the joint legislative committee when created, are requested and authorized to cooperate in the formulation of a study or studies of the feasibility of location of a four-year state college at Modesto, and be it further

Resolved, That a report of these studies be made to the Legislature not later than 10 days after convening of the 1952 Session, and be it further

Resolved, That copies of this resolution be transmitted by the Chief Clerk of the Assembly to each of the participants in the studies.

Resolution read, and ordered referred to the Committee on Rules.

Upon the basis of this estimate the board shall compute and determine the amount required to be paid to the State, adding to the sum thus arrived at a penalty of an amount equal to the total tax computed, and interest on the amount of the tax at the rate of 1 percent for each 30 days or fraction thereof from the date the tax should have been paid until the date of payment.

(c) If the failure of the employing unit to file a return within the time required by this act and authorized regulations or if any part of the deficiency for which an assessment is made is due to fraud or an intent to evade this act or the authorized rules and regulations, a penalty of 25 percent of the amount of contributions assessed shall be added thereto.

(d) The amount of each assessment exclusive of penalty shall bear interest at the rate of one-half percent (½%) per month or fraction thereof from and after the last day of the month following the close of the calendar quarter for which the contributions should have been returned until the date of payment.

An employing unit, however, may waive the limitation period herein prescribed or may consent to its extension.

(g) Any employing unit against whom an assessment is made under this section or any person directly interested may petition for reassessment within 30 days after service of notice of the assessment; provided, that an additional 30 days for the filing of a petition may for good cause be granted by the commission. If a petition for reassessment is not filed within the thirty-day period, or within the additional period granted by the commission, the assessment becomes final at the expiration of the period. If a petition is filed within the time herein prescribed, the appeals board shall review the assessment and if requested by the petitioner shall, unless a hearing has previously been afforded petitioner on the same grounds as set forth in the petition for reassessment, grant a hearing before the appeals board or its duly authorized representatives, giving 10 days' notice of the time and place of the hearing. The appeals board may decrease or increase the amount of the assessment but the amount may be increased only if a 10-day notice of the increase is given by the appeals board with opportunity for hearing before the appeals board with respect to such increase. MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 15, 1951

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS: I am returning without my signature

Assembly Bill No. 3386 entitled: "An act to add Section 6516 to the Revenue and Taxation Code, relating to assessments for sales and use taxes."

My objections to this bill are as follows:

This bill provides that in the event of any failure to file a return under the Sales or Use Tax Law for any reason other than fraud or an intent to evade, any determination pursuant to the article shall be mailed within three years of the time for which the determination is made This in effect establishes a statute of limitations on claims by the State for taxes where the taxpayer has failed to file a return, except in those cases where the failure is due to a fraudulent intent to evade the payment of the tax.

I have received serious objections to this bill from the Attorney General, the Board of Equalization, and the Department of Finance. Its provisions interpreted in connection with existing law establish a premium on not filing a return and make the position of the taxpayer who has not filed better than the position of a taxpayer who files his return late. Existing law provides a statute of limitations of three years from and after the time of the filing of the return. Thus, if a taxpayer should file his return two years late, the statute of limitations would not run until five years after the accrual of the tax; whereas, if he did not file a return at all, the statute of limitations would run three years after the date that the tax became due. This would result in a longer period of limitations for the taxpayer who filed a return than for the taxpayer who did not; thus placing a premium on not filing returns.

It is pointed out by the Attorney General that this result would introduce an absurdity into our law. The Board of Equalization calls attention to the fact that this would give an advantage to the person who fails to file a return over a person who complies with his obligation, even though belatedly, and that this seems to be an utterly unreasonable and unsound provision and tends toward placing a premium on the avoidance of a statutory duty.

It is pointed out by the Director of Finance that this encourages failure to file a return, inasmuch as the person who fails to file a return merely risks a penalty and interest charge against the chance that his books will not be audited within the period of limitations.

In the second place, this measure introduces a change into our existing law, although it recites that it does not do so. Both the Attorney General and the Board of Equalization point out clearly that the measure, despite its recital, introduces a decided change into our existing law The existing law does not provide any period of limitations to protect the taxpayer who fails to file any return at all. The Board of Equalization reports that the period of limitations prescribed by this bill is new and not contained in existing law, despite the recital of the bill to the contrary

In the third place, the measure would result in a loss of revenue to the State The Director of Finance reports that he estimates that if this bill becomes law, the General Fund will lose at least $500,000 annually Between $500,000 and $600,000 of audit assessments are now being made, which would be outlawed under this bill. He further points out that if this bill can be validly applied retroactively to assessments already made, it would be necessary to vacate assessments totalling approximately $333,000.

In the fourth place, this bill is objectionable in that it provides a protection to non-filing taxpayers that is not extended in the case of any other self-assessed tax imposed by the State The Attorney General states that there is no similar provision in the federal income tax statute. He also points out that in none of the other self-assessed taxes imposed by the State is there any statute of limitations in the case of

failure to file a return. This is true of the motor vehicle fuel license tax, the use fuel tax, the motor vehicle transportation license tax, the gift tax, the personal income tax, the bank and corporation franchise tax, the corporation income tax, and the tax imposed in the Alcoholic Beverage Control Act.

It should also be noted, as has been pointed out by the Board of Equalization, that that board has sponsored a measure establishing a statute of limitations in the cases outlined by this law, but without the objectionable features which have been designated. The measure which has been introduced by the Board of Equalization establishes a period of limitations of eight years in the case of failure to make a return.

A measure similar to this reached me in 1949. I refer to Assembly Bill No. 2308. This measure was introduced with the sponsorship of the Board of Equalization for the purpose of providing a statute of limitations of eight years for sales and use taxes under the circumstances described by this bill. Assembly Bill No. 2308 was amended in the course of its passing two years ago, to provide a five year period of limitation. When the objections similar to those to which I have referred in this message were called to the attention of the author of that measure, he concurred in a request that the bill should be vetoed.

For the reasons that I have stated, I am returning the bill without my signature.

Respectfully submitted.

EARL WARREN, Governor

CONSIDERATION OF ASSEMBLY BILL NO. 16

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Assembly Bill No. 16:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 12, 1951

To the Honorable Members of the Assembly
State of California

GENTLEMEN:

Assembly Bill No. 16, "An act relating to research in air pollution problems, making an appropriation therefor, declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill appropriates $150,000 for research concerning the effect of air pollution on public health. This is a serious problem confronting our State and the beginning of such research should not be delayed.

I therefore recommend consideration of Assembly Bill No. 16 as an emergency measure.

Respectfully submitted.

Explanation of Vote on Senate Bill No. 509 by Francis Dunn, Jr.

I voted for Senate Bill No 509 with some misgivings and only because of the great need for shortage of school housing and because I know that a very thorough study of the subject has been made between March 14th and May 9th, 1951 by a Subcommittee of the Assembly Committee on Education

It is my hope that if and when the governing board of any school district submits to the electors of the district a proposal to use a school building which otherwise would be abandoned as unsafe, that the best possible information as to the actual structural strength of the building be made available to the voters, and that every effort within the financial ability of the district be taken to make the building safe.

Opinion of Legislative Counsel Requested by Chief Clerk as Instructed by Motion

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 17, 1951

Honorable Arthur A Ohnimus
Chief Clerk of the Assembly
Assembly Chamber

MOTION TO RECONSIDER REFUSAL OF ADOPTION OF AMENDMENTS
—No. 8484

DEAR MR. OHNIMUS: You have called our attention to the action of the Assembly on May 14, 1951, with reference to certain amendments

to Assembly Bill No. 2665, as appearing in the Assembly Journal for that day commencing at page 4264. Certain amendments were offered and adopted. Adoption of these amendments was reconsidered. Upon reconsideration, the amendments were refused adoption. Notice was then given that on the next legislative day a motion would be made to reconsider the vote whereby the amendments were refused adoption. Upon a question being raised the Speaker ruled that the notice was not in order, following which the bill was passed.

You have asked our opinion as to the correctness of the ruling on the point of order.

It is our opinion that the ruling of the Speaker was correct.

Section 85 of Mason's Manual of Legislative Procedure provides in part that no question may be reconsidered a second time unless it was so materially amended after the first reconsideration that it in fact presents a new question.

In this instance the amendments were considered and adopted. Reconsideration was granted and the amendments were then refused adoption—in each instance by a roll-call vote. There were, in effect, three votes expressing the will of the House upon these amendments. The second motion for reconsideration of the Assembly action on the amendments would merely have delayed the ultimate expression of the will of the Assembly with reference to the bill before it. We believe, therefore, that the Speaker correctly interpreted the rule of procedure, as set forth in Mason's Manual, that the notice of motion to reconsider was not in order.

Very truly yours,

RALPH N. KLEPS
Legislative Counsel
By LAWRENCE G. ALLYN, Deputy

House Resolution No. 148

Relating to memorializing the Federal Government to locate Regional Mobilization Offices at Los Angeles

WHEREAS, Optimum efficiency of any agency in constant contact with the population of several localities is attained only by location in the most populous locality, whether or not other areas are in that same jurisdiction; and

WHEREAS, The highest degree of autonomy for finality of decision consistent with national direction, furnished by a regional office, must exist at that location; and

WHEREAS, In the Western States, Los Angeles is the most populous area; the Southern California area contains 42 percent of the population, 46 percent of industrial production, and is performing 70 percent of the present war contracts of the three coastal states; and

WHEREAS, In World War II Los Angeles was the second largest war industry center in the Nation; its rate of increase has been the most phenomenal in the Nation; its retail demand is third nationally; and

WHEREAS, For Los Angeles the closest regional office administering the Defense Mobilization Program is 400 miles away; and

WHEREAS, Unnecessary expenditure of time and funds in travel and phone calls by private citizens and by the government, as in the last war, threatens to result again, unless such a regional office is located in Los Angeles; and

WHEREAS, Such inefficient extension of transportation and communication creates military vulnerability; and

WHEREAS, Regional offices could be established in Los Angeles at the present district offices with a modicum of expense to be saved by the elimination of a step in administration of the program for the most important area in the Western States; now, therefore, be it

Resolved by the Assembly of the State of California, That the President and Administrators of the Defense Mobilization Program be respectfully memorialized to establish a regional office in Los Angeles for the Southern California-Arizona region; and be it further

"SEC. 7. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act is primarily designed to more strictly regulate the annexation of territory to a city. While such legislation has long been considered desirable, the need for it has become a matter of immediate urgency in connection with the programs for the reorganization of the inferior court system and for state school building aid, both of which programs were initiated as amendments to the California Constitution and which are of primary importance to all of the State.

Both of such programs are adversely affected by annexations effected by means which this act will prevent or discourage. In the case of the inferior court reorganization the designation of the judicial districts into which the State will be divided is made more difficult when the territory of a city is connected by narrow strips of land. It is essential to the orderly functioning of the judicial system that changes in territory of judicial districts be reduced to a minimum.

When territory is annexed to a city the boundaries of school districts which include such territory may also be affected, since in certain cases territory annexed to a city becomes part of the city school district.

Under certain circumstances, since October, 1950, a conditional apportionment to a school district for state school building aid becomes void, and the district receives no state money under such apportionment if part of the district is annexed to another school district In many cases this works great hardship on the district which has complied with all the requirements for state school building aid In order to forestall this hardship on other school districts it is essential that changes in the territory of school districts be reduced to a minimum. It is therefore necessary that this act take effect immediately."

Amendments read, and adopted.
