The following message from the Governor was received and read:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, June 12, 1935.

The Honorable Members of the Assembly,
State of California, Sacramento, California.

GREETINGS: I am herewith returning Assembly Bill No. 1771, without my approval, the same being—An act to repeal section 109a of "The California Irrigation District Act," approved March 31, 1897, relating to name of irrigation districts.

This bill proposes to repeal section 109a of the "California Irrigation District Act", which section provides that any district organized under the act shall contain the words "Irrigation district" or "Water conservation district".

As explained to me, the intention of the author was only to delete the words "Water conservation district" while the bill as passed would also delete "Irrigation district".

It seems to me very necessary to retain in the name of the district the words "Irrigation district" as such districts have heretofore been designated and identified both in law and in finances.

Since the words "Water conservation district" have been used little, if at all, in designating such districts, there could be no objection to the repeal of that particular term.

Respectfully submitted.

FRANK F. MERRIAM, Governor of California.

WHEREAS, The counties of the State of California have heretofore participated to their utmost ability in the relief of destitution due to unemployment; and

STATE OF CALIFORNIA GOVERNOR'S OFFICE,
SACRAMENTO, June 12, 1935

To the Honorable Members of the Assembly,
State of California, Sacramento, California.

GREETINGS: Assembly Bill No. 1885—An act to amend section 91.5 of the Agricultural Code, relating to the Sixth Agricultural Association fund.

In my opinion said Assembly Bill No 1885 constitutes such a bill within the meaning of that term as used in section 34, Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

Communications.

The following communications were received, and ordered printed in the Journal:

By Messrs. Redwine, Nielsen and Fields:

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL,
SACRAMENTO, CALIFORNIA, June 13, 1935.

Honorables Kent H. Redwine, Roy Nielsen and Don Fields,
Assembly Chamber, State Capitol, Sacramento, California.

Subject: Senate Bill No. 1119.

DEAR MR. REDWINE: You ask as to the legal effect of a suggested amendment to this bill as amended June 8, 1935, to insert therein a section reading as follows:

"Vehicles to the value of $1,000 owned by a person of the classes mentioned in section 1¼ of Article XIII of the Constitution of this State are exempt from the license fee imposed by this act. Any such person desiring such exemption shall file with the department such documentary evidence in proof of eligibility as the department may require."

If the charge imposed by this bill is a property tax then in our opinion the $1,000 property tax exemption accorded to veterans under the provisions of section 1¼ of Article XIII of the State Constitution will be available to the veteran in respect to this charge equally as it is to the county property tax and the Legislature can

not by this bill or any other bill deprive him of his right to claim his exemption in regard thereto. That is, he would get his exemption under the Constitution with the bill silent on the subject. Mention in the bill of such an exemption would add nothing to the legal effect and availability of the exemption.

However, it is our opinion that this bill in fact and in law imposes a license or privilege fee and not a property tax even though the measure of the fee is based upon the value of the vehicle.

Section 2 declares that the fee is imposed for the "privilege" of operating the vehicle.

Section 5 exempts from all property taxes according to value (State, county or municipal) any vehicle in respect to which this bill imposes a license fee.

To insert in a license fee measure an exemption in the nature of a property tax exemption (based on section 1¼ of Article XIII) in our opinion would be legally inappropriate and would import into the bill a serious element of confusion both as to its interpretation and application.

If we are correct in viewing this as a license or privilege fee and if the proposed exemption were valid, then the exemption would be separate from and in addition to the exemption allowed under the Constitution; i.e., the veteran would have a vehicle license fee exemption up to $1,000 under the bill, in addition to his $1,000 property tax exemption under the Constitution.

But we do not see upon what legal theory such an exemption in respect to a license or privilege fee could be upheld. It bears no direct relation to the use of the highways nor to the situation presented by the bill. The principle enunciated in Bacon Service Corporation vs. Huss, 199 Cal. 21, seems applicable. In that case the court held invalid a license fee exemption running in favor of operators of sightseeing motor vehicles carrying passengers for hire; likewise as to operators deriving up to 15 per cent of their gross receipts from U. S. mail contracts. The court was of the view that neither of such exemptions rested upon a natural or intrinsic basis.

Very truly yours,

FRED B. WOOD, Legislative Counsel.

By Mr. Utt:

June 13, 1935.

Assemblyman James B. Utt, Assembly Chamber,
State Capitol, Sacramento, California.

Subject: Assembly Bill No. 1300—(Chapter 163, Statutes 1935)

MY DEAR MR UTT: At the request of the Assembly Committee to Investigate the Building and Loan Association situation, I was assigned as counsel to the committee and acted as such counsel during the constitutional recess of this session.

You have asked that I state whether in my opinion, as such counsel, Assembly Bill No. 1300 (now chaptered as Chapter 163 of the Statutes of 1935) appears to be calculated to improve the conditions which I observed existed in the building and loan field while in the course of that investigation.

You have requested that this opinion be based upon my observations in the course of the investigation made by the committee and my study of Assembly Bill No. 1300.

Some of the practices most complained of which came to light during the investigation appeared to be the following:

(a) Relatively unregulated certificate trading, that is, the exchange of property of the associations for investment certificates or shares in the association under conditions which the investors appeared to feel were inequitable and worked unreasonably to the advantage of the association at the expense of its investors.

(b) The rigid operation of the emergency period requirements as to withdrawals, which investors appeared to feel allowed the associations to avoid the payments on their investment certificates without proper adjustment in cases of distress.

(c) The inability of the investor to get information which he considered satisfactory or reliable in relation to the association in which he had invested.

Assembly Bill No. 1300, in my opinion, should improve the situation existing in each of these cases by reason of the increased control given to the commissioner over certificate trading and over the use of the moratory provisions relating to withdrawals of moneys and distress payments, and by authorizing the commissioner at the expense of an association to inform its investors of the association's condition when he felt it advisable.

Another condition which the associations were facing was the possibility of procuring insurance to the investor by the Federal Government of the value of his investment in the association, that is, so far as investment certificates and shares were concerned. To procure such insurance it was necessary that the association produce sound assets equal to the amount of investment insured. The provisions of Assembly Bill No. 1300, by permitting "federalization" of associations and by permitting reorganization of such associations under the control of the commissioner, should make it possible for many associations to secure this insurance at least as to a portion of their investors' accounts and as to new accounts. This should result in greater public confidence in the associations securing such insurance and a consequent increase in the availability of mortgage money, assuming other factors remained unchanged.

In my opinion, therefore, based upon my observations of the building and loan situation (so far as the intensive but necessarily brief investigation made by the Assembly committee permitted of accurate observation) Assembly Bill No. 1300 (Chapter 163 of the Statutes of 1935), represents a considerable improvement in the law governing building and loan associations, both from the standpoint of the investor and from the standpoint of the association.

Yours very truly,

HAROLD B. HAAS,
Counsel for the Select Committee of the Assembly for Investigating Building and Loan Situation in the State of California.

Senate Concurrent Resolution No. 46.

A resolution relative to the Relief Commission and Relief Administrator and requesting the same to provide employment for persons over 60 years of age and others only partially disabled in order to save the counties the expense of caring for and supporting such persons

WHEREAS, The Legislature did in and by Senate Bill No. 940 appropriate the sum of $48,000,000 to aid and relieve hardship and destitution resulting from unemployment upon the assumption that every able-bodied adult person, irrespective of age, would be given employment and that no age discrimination would be made; and

WHEREAS, The Legislature has reduced the age limit of those entitled to participate under the State Old Age Pension Act (so-called) from 70 years to 65 years, thereby making aid under such act available to more than 20,000 additional persons within this State; and

WHEREAS, Such addition will add additional burdens to the counties and to the taxpayers thereof in that the counties will be required to cooperate in the care of such aged persons; and

WHEREAS, In addition thereto, counties are required to provide and care for all indigent persons unable to work and the combined costs of all such obligations so imposed upon the counties will be such that the taxpayers of said counties will be taxed to their maximum ability to pay; and

WHEREAS, It is reported to this Legislature that the Relief Commission and Relief Director are considering the adoption of a rule whereby persons over the age of 60 years and others only partially disabled will be refused employment and, as a result thereof, all such persons will likewise be forced onto the counties for care and support; and

WHEREAS, Such burden can not be borne by the taxpayers of the respective counties without the imposition of unjust and unfair additional tax burdens; now, therefore, be it

Resolved, by the Senate of the State of California, the Assembly concurring, That the Relief Commission and Relief Administrator be and each is hereby requested not to adopt or enforce any rule or regulation which would deprive or prevent any person over the age of 60 years or who may be only partially disabled from being employed and obtaining relief under the appropriation heretofore made from hardships and destitution due to unemployment; and be it further

Resolved, That said Relief Commission and Relief Administrator be and each is hereby requested to make provision and provide work for all such persons herein referred to so that they will not become an additional burden and charge upon the respective counties of the State but will be cared and provided for under the act appropriating said $48,000,000; and be it further

Resolved, That the Secretary of the Senate is directed to immediately forward copies of this resolution to such Relief Commission and Relief Administrator.

Explanation of Vote.

MR SPEAKER: I am supporting this Severence Tax Bill because I believe the natural resources should pay a just share of the State tax, but I believe this bill is a discriminatory measure as it, in my opinion, fixes too much tax upon the small producing wells and not sufficient upon natural gas and gasoline.

S. L. HEISINGER.

Senate Bill No. 959 ordered transmitted to the Senate.

Statement of Vote in Not Receding from Amendments to Senate Bill No. 959.

My reason in not receding from amendments to Senate Bill No. 959 is for the reason that if this bill is referred to a Conference Committee I would offer the following amendments which would meet the objections raised by the opponents of this bill:

Amendment No. 1.

On page 2, line 48, of the printed bill, as amended, strike out "to the Gilmore Exploration Company", and insert in lieu thereof, "to the highest bidder who furnishes and files with his bid a surety bond in the amount of one hundred thousand dollars in favor of the State of California guaranteeing faithful performance,".

Amendment No. 2.

On page 3, line 25, of the printed bill, as amended, strike out all of the amended bill to and including line 32, and insert in lieu thereof the following: "It shall be provided that no bid shall be accepted which does not provide a royalty to the State of twenty per centum (20%) in value or amount of all oil, gas or other hydrocarbons produced and saved, until the lessee shall have received from the proceeds all such costs, as shall be approved by the director, and thereafter a royalty of not less than forty per centum (40%)".

Amendment No. 3.

On page 3, line 47, of the printed bill, as amended, begin line 48 as follows: "f. All offers and bids shall be duly noticed and filed with the director pursuant to the rules, regulations and laws made and provided for competitive bidding on State contracts as are now in force and effect in the Department of Finance."

WILLIAM B. HORNBLOWER.

Motion to Print in Journal.

Mr. Lyon moved that the following statement be printed in the Journal.

Motion carried.

I asked you to recede from the Assembly amendment to Senate Bill No. 959 and concur in the Senate's action in amending our amendment from the bill. My reasons for this recommendation are as follows:

First, that I supported the amendment and supported it because I believed that by means of a lease to the Gilmore Exploration Company the State would be getting the largest possible revenue from its Huntington Beach tidelands pool. I recognize that offset drilling is customary and practical and that, since the Legislature had passed a measure allowing slant drilling into this pool from the uplands with a royalty of 16⅔ per cent, this opportunity to secure a tremendous revenue to the State by a 30 per cent royalty was desirable.

I had also been led to believe that the administration wanted such a bill passed.

I learn now that the representations to me that the Governor favored 959 were apparently not well founded or at least that he had not said he would approve the bill. I am familiar with the ocean front at Huntington Beach and I know that the city is not a summer resort but that the chief activity is the production of oil.

In making this motion I have also become convinced that an overwhelming number of the citizens of southern California are opposed to tideland drilling and have not accepted the contention that "island" drilling can be made safe, with reliable protection against pollution of the beaches. There is possibly a danger because of the existence of what appears to be a live earthquake fault beneath the submerged area off Huntington Beach that at some time an earthquake might occur that would cause the loss of control of these oil wells and that might cause incalculable damage to the beaches.

I realize the tremendous sentiment of our people against ocean drilling and for the reasons stated above I am asking you to recede and permit this bill to go to the Governor without any reference to tideland drilling as set forth in the amendment. Although I believe the State would lose a large amount of revenue, it is probably a better course to pursue under all the circumstances and will do away with any possible danger to other sections of the coast line where the people now enjoy themselves in this chain of playgrounds. CHARLES W. LYON.

The following message from the Governor was received and read:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, June 12, 1935.

To the Honorable Members of the Assembly,
State of California, Sacramento, California.

GREETINGS: Assembly Bill No. 2474—An act relating to fees and taxes for and upon certain vehicles, providing for the collection thereof and the enforcement of this act, and providing for the repeal of an act entitled "An act imposing a license fee or tax for the transportation of persons or property for hire or compensation upon the public streets, roads and highways in the State of California by motor vehicle and providing that this act shall take effect immediately," approved May 15, 1933.

In my opinion said Assembly Bill No. 2474 constitutes such a bill within the meaning of that term as used in section 34, Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

I therefore authorize the consideration of this bill as such a measure.

Respectfully submitted

FRANK F. MERRIAM, Governor of California.

Notice of Reconsideration of Senate Bill No. 1119.

Mr Patterson gave notice that on the next legislative day he would move to reconsider the vote whereby Senate Bill No. 1119 was this day passed.

Explanation of Vote.

During the call of the House I received a call from the representative of the Los Angeles police and fire department, who has informed me that the bill, as amended, is now satisfactory to his organizations and so far as he knows to the city and county of Los Angeles. The members of his organization are the only ones who have ever openly opposed this bill. To me, now that their opposition has been withdrawn, I feel that I have no further reason for opposing same. Councilman Davis, president of the Los Angeles city council, and the members of the city council have also withdrawn their objection to this legislation.

I feel that if this bill fails to pass it will place the Old Age Security Act and the unemployment relief funds in jeopardy.

CHARLES A. HUNT,
Assemblyman, Forty-fifth District.

Explanation of Vote.

I consider Senate Bill No. 1119, which transfers the taxes of automobiles and trucks from the counties to the State, to be an indirect ad valorem tax upon the homes and farms of the people of California. I consider it to be a deception, and unjustifiable and unworthy of the dignity of the Governor and the Legislature to foist it upon the common people who are already overtaxed.

I believe the forced passage of this bill will delay for a year, if not permanently, the passage of a just and equitable severance tax upon the rich who are well able to pay their fair share of State taxes. Therefore in justice to the common people, I feel more than justified in voting "No" on this bill.

S. L. HEISINGER.

Explanation of Vote.

June 13, 1935.

TO WHOM IT MAY CONCERN: I desire to explain my attitude and vote on the in lieu tax, Senate Bill No. 1119. The Progressive group helped secure a 12½ per cent to the counties and one-eighth per cent to the cities, total $7,500,000.

My change to a "No" vote was for the reason that the severance tax failure of passing in the Senate would jeopardize the old age pension.

Sincerely submitted.

CHARLES J. WAGNER.

Reconsideration of Senate Bill No. 1119 Waived.

Mr. Patterson waived his notice to reconsider the vote whereby Senate Bill No. 1119 was passed.

Samples in duplicate of materials, tagged with complete description of the same, shall be submitted if requested by the State. No work affected by any article shall be proceeded with until the same shall have been approved in writing by the State.

9. DESCRIPTION OF REQUIRED FUNCTIONS:

The electrical roll call system and the Page call system shall be energized from the same power source and may in part be connected physically in regard to the assembly of operating switches, etc., of both systems, in a unit assembly; however, functionally, these two systems shall be distinct.

The roll call system shall consist of the following major equipment:

a—A terminal frame or distributing panel.
b—Two wall indicator boards.
c—81 voting stations.
d—One motor generator set sufficient to furnish necessary electrical current to the roll call and Page call systems.
e—A recording machine.
f—A miniature indicator board for Speaker's desk.
g—One visual vote register.
h—One vote register keyboard.
i—One Veeder counter.
j—One starting button.
k—One starting gong.

The roll call system shall function as follows:

Until the Speaker of the Assembly calls for a vote and sets the system in operation by the operation of a push button installed at his desk for the purpose, no votes can be recorded by the operation of buttons at the voting stations. When the Speaker operates the start button, a starting gong immediately sounds and the roll call system is cleared electrically for the recording of votes. Each individual voting station may then be operated, either singly or simultaneously, and the indication of the operation of each and every voting station shall be shown by appropriate lights on the two indicator boards and also upon the miniature indicator board. The recorder shall be such a piece of equipment as will set up the votes cast from each and every voting station. A Veeder counter or equal, shall indicate the total number of votes cast whenever operated during the period of voting.

This indication shall give the number of "Nays," the number of "Ayes" and likewise the number of voting stations not voting. A vote register transmitter shall be of such character that by the operation of keys thereon, the vote indicated on the Veeder counter may be transmitted and shown in light on the vote register.

The operation of the voting stations must be as follows:

Should a "Nay" vote be indicated by the operation of the "Nay" button on the voting station and it thereafter during the voting period be desired to change the vote to "Aye" then it must be possible that the "Nay" vote be eliminated on the indicator boards and in the recorder by the operation of a release button at the voting station, and it must then be possible to operate the "Aye" button on the voting station to record the "Aye" vote on the indicator boards and the recorder. The voting station must be equipped with a key lock so arranged that when the vote has been accurately made, the station can be locked so that no change can be made in the vote indication from that station.

When the period of voting is terminated, the operation of a switch must lock the system electrically so that no changes in records or indications can be made after the voting period is ended.

The recorder shall be capable of recording the vote as indicated upon the indicator boards, showing the name of the member and his vote, whether "Aye" or "Nay" or "Not voting," and shall give on the record roll call sheet, the total of the votes cast, "Nays," "Ayes," and "Not voting."

The system must remain electrically locked until the release for the next vote by the Speaker as above mentioned.

The Page call system shall consist of an annunciator arranged identical with the arrangement of the desks, and call buttons installed at each voting station and also at the Chief Clerk's and Reading Clerk's desks. The operation of the Page call button at any station shall give the indication of the particular station on the Page call annunciator.

The distributing panel and terminal frame shall be installed as a free standing unit where indicated on the drawing. This panel shall contain all switches, relays, protective equipment and panel lighting necessary for the complete and satisfactory operation of the roll call system. The terminal frame shall be arranged in such a manner that all voting circuits from the individual voting stations be terminated at permanent plugs; also that all circuits from indicator boards be terminated at permanent plugs and so arranged that by plugs and cords, the various voting stations may be connected to appropriate positions on the indicator boards. This is important in that the members' names will appear on the indicator boards in alphabetical order.

The seating arrangement will change during various legislative sessions and the personnel of the members will also vary; therefore, it is important that the transfer plug cord arrangement specified above be infinitely flexible

The distributing panel and terminal frame shall be installed in a No. 10 gauge sheet metal cabinet. The finish of the cabinet shall meet with approval of the State.

11. WALL INDICATOR BOARDS:

Two wall indicator boards shall be furnished and installed. These indicator boards shall be flush mounted into the wall in locations as shown on the plan. The indicator boards shall be arranged with white letters on black background, the letters to be 2 inches high and with vertical spacing approximately 1¼ inches.

The fronts of the boards shall be arranged as hinged doors in order that the rear wiring may be made accessible by the operation of the front hinged sections.

After each name on the board there shall be two indicator lights one for "Ayes" and one for "Nays." The "Aye" indicators shall be equipped with green lights and the "Nay" indicators with red lights.

The recording machine shall be housed in a hardwood case finished to meet the approval of the State and shall be installed as indicated on the plan, on the reading

clerk's desk. This machine shall be so arranged as to set up the votes as they are cast by the individual voting stations. At the end of the voting period, by the operation of the necessary electrical switch, this machine will lock the voting system and record the vote, indicating on the record the vote of each member as it appears on the indicator board; also indicating the members not voting and indicating also the total vote cast, segregating the total into total "Ayes," total "Nays" and total "Not voting."

15. VEEDER COUNTER:

There shall be installed adjacent to the recorder on the reading clerk's desk, as shown on the plan, a Veeder counter, or equal. This counter shall be flushed into the surface of the reading clerk's desk. This counter shall be arranged in such manner and connected by wiring to the roll call electrical system in such a manner, that the total votes cast and the number of stations not voting, shall show on the counter whenever said counter is operated. The indicators on this counter shall be for "Ayes", "Nays" and "Not voting."

The finish of this equipment and the exact position of its installation shall be at the approval of the State.

16. VOTE REGISTER SET:

There shall be installed flushed in the wall to the rear of the Speaker's desk in a position approved by the State and as indicated on the plan, a visual vote register. This equipment shall be arranged so that wiring can be made accessible by removing the front plate and shall be finished to meet the approval of the State. The register shall indicate by red and white lights flashed in rectangular openings, the total vote in "Ayes" and "Nays" whenever operated.

Working in conjunction with the vote register and for the purpose of transmitting the total count to the register, a vote register key-board shall be installed adjacent to the Veeder counter on the reading clerk's desk as indicated on the plan. This key-board shall be flushed into the top of the desk. It shall be arranged with keys and switches in such a manner that the count indicated on the Veeder counter may be transmitted to the visual vote register by the operation of appropriate buttons and switches on the vote register key-board.

17. STARTING BUTTON AND GONG:

There shall be installed flushed into the top of the Speaker's desk, a starting button the operation of which will simultaneously sound the starting gong and release the electrical roll call system.

The starting gong shall be for 110 volts, D C operation, single stroke, and of such size as to sound an adequate starting signal throughout the Assembly Chamber and the foyer. This gong shall be mounted at the distributing panel cabinet.

18 MOTOR GENERATOR SET:

The motor generator set shall be furnished and installed in the attic space above the Assembly Chamber. This set shall consist of a 5 horsepower, 220 volt, 3 phase, 60 cycle motor and a 3 kilowatt, 110 volt, D. C. generator. The motor and generator shall be mounted upon a common bed plate and the equipment shall be furnished and installed complete with all necessary control equipment.

Agreement—Division of Architecture of the Department of Public Works of the State of California with American Signal Corporation for Electrical Roll Call and Page Call Systems—Assembly Chamber, California State Capitol, Sacramento, California.

ARTICLES OF AGREEMENT made the sixth day of June in the year 1935

By and between the Department of Public Works of the State of California, party of the first part, and American Signal Corporation, a corporation existing under and by virtue of the laws of the State of Delaware, party of the second part (hereinafter designated the contractor):

That the contractor, in consideration of the covenants and agreements herein contained on the part of the party of the first part, covenants, promises and agrees with the said party of the first part as follows:

1. That the contractor, within five days after receipt of written notice from the party of the first part and at a point to be designated by said first party, shall and will, for the consideration hereinafter mentioned, commence electrical roll call and page call systems, Assembly Chamber, California State Capitol, Sacramento, California, conformable to the plans and specifications hereto annexed and made a part hereof, and shall and will continuously and with all possible dispatch, prosecute the said work until the same shall have been completed, and said contractor shall and will well and sufficiently carry on and finish said work as aforesaid, conformable to the said plans and specifications hereunto annexed, in a good, workmanlike and substantial manner, to the satisfaction of the Department of Public Works, and as provided in said plans, descriptions, bills, and specifications, and also shall and will find, furnish and provide such good, proper and sufficient materials of all kinds whatsoever as shall be needful, proper and sufficient for the completing of the whole and every part of the said work herein contracted for, comformable in all respects

to said plans and specifications, and said work shall be performed and completed at such time and in such manner as to create no hindrance to or interference with other work to be done on said Assembly Chamber, California State Capitol, Sacramento, California, and so that said work shall be completed as fast as possible and as other work thereon progresses. And said contractor shall receive therefor the sum of nineteen thousand eight hundred and no/100 ($19,800.00) dollars, gold coin of the United States, to be paid as hereinafter provided.

2. And it is hereby further stipulated and agreed by and between the said parties: The specifications and plans are intended to cooperate, so that any works exhibited in the plans and not mentioned in the specifications, or vice versa, are to be executed the same as if mentioned in the specifications and set forth in the drawings to the true meaning and intention of said drawings and specifications, and in case of conflict between any of the provisions of this agreement, including drawings and specifications, the contractor shall submit the question to the Department of Public Works for decision as provided hereinafter in Article 4.

3. That said contractor at his or its own proper costs and charges is to provide all manner of materials and labor, scaffolding, implements, tools, molds and cartage, and all things necessary to the due and proper completion of the work; and also shall and will save harmless the said party of the first part from or on account of any claim, demand or action for damages against said party of the first part by reason of any negligence of said contractor, or his or its agents or servants, in or about said construction of the work herein contracted for.

4. Should it appear that the work hereby intended to be done, or any of the matters relative thereto, are not sufficiently detailed or explained on the said drawings or in the said specifications, the contractor shall apply to the Department of Public Works for such further drawings or explanations as may be necessary, and shall conform to the same as part of this contract, so far as may be consistent with the original drawings, and in the event of any conflict, doubt or question arising respecting the true meaning of the drawings or specifications, reference shall be made to the Department of Public Works, whose decision thereon shall be final and conclusive.

5. The contractor shall permit the party of the first part, and all persons appointed by it, to visit and inspect the said work, or any part thereof, at all times and places during the progress of the same, and shall provide sufficient, safe and proper facilities for such inspection.

6. The contractor shall, within 24 hours after receiving written notice from the Department of Public Works to that effect, proceed to remove from the grounds, building or structure all materials condemned by said Department of Public Works, whether worked or unworked, and remove all portions of the work which the said Department of Public Works shall condemn as unsound or improper, or as in any way failing to conform to the drawings and specifications, and shall cover, protect and exercise due diligence to secure the work from injury, and all damage happening to the same shall be made good by the contractor.

7. Should said party of the first part, at any time during the progress of said construction, request any alterations or deviations, additions, or omissions, from the said specifications, plans, descriptions or bills of materials, said party shall be at liberty to do so and the same shall in no way affect or make void this contract, but will be added to or deducted from the amount of the said contract price, as the case may be, by a fair and reasonable valuation.

Provided, that the amount of such change in the contract, plans, estimate, bills of materials, or specifications shall not in the aggregate increase or decrease the cost of construction of said electrical roll call and page call systems more than the sum of $500.00; and provided, further, that any change that increases or decreases the cost in excess of $500.00 after said plans, estimate, bills of materials and specifications shall have been filed with the Department of Public Works as provided in the act entitled, "An act to regulate contracts on behalf of the State in relation to the erection, construction, alteration, repair or improvement of any State structure, building, road, or other State improvement of any kind," approved March 22, 1909, and all acts amendatory thereof, and until such proposed change shall have received the approval of the Director of Public Works, and when so approved the plan or plans of such change, with the description thereof, and the specifications of the work and bills of materials and estimate, shall be filed with the Department of Public Works in the same manner as required before such change was made; and no allowance whatever shall be made for the work performed or materials furnished under such change of plan or plans, or descriptions or specifications or bills of materials, unless before such labor is performed and materials furnished, a contract or contracts therefor be made in writing, which contract or contracts shall show distinctly the nature of such change and shall be subject to the approval of the Attorney General as in the said act provided, and all changes in the contract in excess of $500.00 shall be by contracts in writing, with full specifications and estimates and shall become a part of the original contract, and shall be filed with the original contract in the Department of Public Works.

8 Whenever in the opinion of the said party of the first part the said work is neglected by the said contractor or the same is not prosecuted with the diligence and force specified, meant and intended in and by the terms of this contract, said party of the first part may make a requisition upon such contractor for said additional specific force or such additional specific material to be brought into the work under this contract, or to remove improper material from the grounds, as in the judgment of said party of the first part this contract and its due and faithful fulfillment require, of which action of said party of the first part due notice in writing of not less than five days shall be served upon said contractor or his or its agent having charge of the work personally, or by mail in the manner prescribed by law, and if said contractor fails to comply with such requisition within five days, it shall be lawful for the party of the first part to employ upon such work the additional force or supply of materials as specifically required as aforesaid, and such party of the first part shall be paid by the State Controller. And the amount paid for such additional force or material shall be charged against the contractor and be deducted from his or its next subsequent estimate and payment, or the same or any part thereof not so deducted may be recovered from the said contractor or his or its sureties.

9 The contractor shall not cause any unnecessary delay or hindrance to other contractors on said work, and shall bear all damages done to the work of such other contractors by his or its employees.

Should the contractor be obstructed or delayed in the prosecution or completion of the work by the neglect, delay or default of any other contractor, or by alterations which may be required in said work, or by any damage which may happen thereto by fire, or by the unusual action of the elements, or by the abandonment of the work by the employees, through no fault of the contractor, then there shall be an allowance of additional time beyond the date set for the completion of the said work, but no such allowance shall be made unless a claim is presented in writing at the time of such obstruction or delay. The Department of Public Works shall award and certify the amount of additional time to be allowed, in which case the contractor shall be released from the payment of stipulated damages for the additional time so certified and no more.

10 It is further stipulated and agreed between the respective parties that the contractor shall complete this contract at the expiration of two hundred sixty (260) working days from date of the commencement of the work, as directed by the party of the first part, and said work involved in the construction of said electrical roll call and page call systems shall be fully completed and in first-class working order within two hundred sixty (260) working days from the date thereof, and ready for acceptance by the party of the first part

Time is expressly made the essence of this contract, and should the contractor not finish or complete this contract and said work involved in the construction of said Assembly Chamber, California State Capitol, Sacramento, California, at the expiration of said period of two hundred sixty (260) working days as last provided, he or it shall forfeit the sum of fifty and no/100 ($50.00) dollars per day for each and every day during which said completion is delayed or retarded, and the sum or sums hereby forfeited shall not be considered as a penalty, but as liquidated damages due by said contractor for such delay or retardation in the completion of said work and loss of the use of said completed work by the party of the first part.

11. The party of the first part will not, in any manner, be answerable or accountable for any loss or damage that shall or may happen to the said work or any part thereof, respectively, or for any of the materials or other things used or employed in finishing and completing the said work; or for injury to any person or persons, either workmen or the public, or for damage to adjoining property, from any cause which might have been prevented by the contractor, or his workmen, or by any one employed by him, against all of which injuries or damages to persons and property the contractor having control over such work must properly guard, and must make good all damage from whatever cause, being strictly responsible for the same Where there are different contractors employed on the work, each shall be responsible to the other for all damage to work, person, or property, or for loss caused by neglect or failure to finish work at proper time, thus preventing each portion of the work being finished by the several contractors at the date named herein for completion, or from any other cause.

12 The contractor will insure the work to cover his or its interest in the same from time to time as required; and for any loss to the contractor by fire or earthquake the party of the first part will not under any circumstances be answerable or accountable.

13 Contractor shall not let, assign or transfer this contract, or any interest therein, without the written consent of the Department of Public Works.

14 It is hereby stipulated and agreed, that after the execution of this contract and during and after the construction of the work hereunder according to the terms hereof, the party of the first part will well and truly cause to be drawn, in the manner provided by law, warrants upon the State treasury for the payment of said contractor or his or its legal representatives, or assigns, in sums aggregating in

amount the sum of nineteen thousand eight hundred and no/100 ($19,800.00) dollars, at the time and in the manner following, to wit:

On the fifteenth day of each month hereafter during the progress of said work, payments shall be made to said contractor on account of said contract, which payments shall be for work done and materials furnished up to and including the last Saturday of the preceding month At the times herein named for said payments to be made to said contractor, said party of the first part shall make or cause to be made full estimates of labor performed and materials furnished under this contract, and the amount due in the aggregate, which estimate shall be based upon actual measurement of the labor so performed and the materials so furnished, which estimate shall in all cases give the amounts of the preceding estimate or estimates, provided that upon all estimates of acceptable materials furnished and delivered, and not actually having entered into and become part of said work, there shall not be paid, until the same shall be incorporated into and become a part of said work, an amount exceeding 45 per centum of such estimated value; and provided, further, that 10 per centum of the estimated value of the work done and construction accomplished shall be retained for 35 days after final completion and acceptance of the work as an additional security for the faithful performance of this contract by said contractor and shall be forfeited to the State of California, in the event of the failure of said contractor to conform in good faith to the terms and conditions of this contract; provided, however, that when the labor to be performed and materials to be furnished under this contract shall have been fully performed and furnished, and said work under this contract shall have been fully completed, the Department of Public Works of the State of California shall, after the receipt of all guarantees required by the specifications to be furnished by the contractor, make an estimate covering the total payment due the contractor, less than 10 per centum retained for the faithful performance of the contract and previous payments made to the contractor.

It is further understood and agreed that this contract, before the same shall become effective, is subject to the approval of the Attorney General of the State of California, and this contract shall be of force only in the event that the same shall have been approved by the said Attorney General and after such approval shall actually be had

15. This contract is made under and is subject to an act of the Legislature of the State of California, approved June 10, 1933, entitled, "An act to regulate contracts on behalf of the State in relation to the erection, construction, alteration, repair or improvement of any State structure, building, road, or other State improvement of any kind"; also, an act entitled, "An act to provide for the payment of not less than the general prevailing rate of wages on public work," approved May 29, 1931; also an act entitled, "An act to secure the payment of the claims of persons employed by contractors upon public works, and the claims of persons who furnish materials, supplies, teams, implements or machinery used or consumed by such contractors in the performance of such works, and prescribing the duties of certain public officers with respect thereto," approved May 10, 1919; also an act entitled, "An act to prohibit the employment of aliens by contractors and subcontractors on public works," approved May 25, 1931; also the provisions of sections 653c, 653c-1 and 653d of the Penal Code of the State of California; also an act entitled, "An act to create for the State of California a Department of Engineering," etc., approved March 11, 1907; also an act entitled, "An act * * * relating to a Department of Public Works," etc., approved June 1, 1921, and all acts and sections amendatory to any of the foregoing acts or sections.

16 It is further agreed that the said contractor, shall, before entering on the performance of the work herein provided, furnish a bond as required by the terms of an act entitled, "An act to secure the payment of the claims of persons employed by contractors upon public works, and the claims of persons who furnish materials, supplies, teams, implements or machinery used or consumed by such contractors in the performance of such works and prescribing the duties of certain public officers with respect thereto," approved May 10, 1919, and any amendment or amendments thereof

17 It is further stipulated and agreed between the respective parties hereto that the said contractor shall not employ or cause or allow to be employed any alien upon work under this contract

18. It is further stipulated and agreed between the respective parties hereto that the said contractor shall pay and cause all subcontractors under it to pay to each laborer, workman or mechanic employed on work under this contract not less than the general prevailing rate of per diem wages, as set forth in the schedule of wages, marked Exhibit "C" and annexed hereto

19 It is further stipulated and agreed between the respective parties hereto that no laborer workman or mechanic employed by the contractor or by any subcontractor under it, in the execution of this contract, shall be caused or permitted to labor more than eight hours in one calendar day, or more than 30 hours in one calendar week.

20. It is further stipulated and agreed between the respective parties hereto that the contractor shall forfeit as a penalty to the State of California $10 per day for each laborer, workman, or mechanic who is caused or permitted to labor more

than eight hours in one calendar day, or more than 30 hours in one calendar week, or for each laborer, workman, or mechanic who shall be compensated at less than the general prevailing wage rate per day, or for each laborer, workman, or mechanic employed who is not a born or fully naturalized citizen of the United States of America.

21. It is further expressly agreed by and between the parties hereto, that should there be any conflict between the terms of this instrument and the bid or proposal of said contractor, marked Exhibit "B" and annexed hereto, then this instrument shall control and nothing herein shall be considered as an acceptance of the said terms of said proposal conflicting herewith

22 It is mutually agreed between the parties hereto, that no certificate given or payment made under this contract, except the final certificate or final payment, shall be conclusive evidence of the performance of this contract, either wholly or in part, against any claim of the party of the first part, and then not until the lapse of 35 days after acceptance of the work by the party of the first part, and no payment shall be construed to be an acceptance of any defective work or improper materials.

23. The said party of the first part hereby promises and agrees with the said contractor to employ, and does hereby employ, the said contractor to provide the materials and to do the work according to the terms and conditions herein contained and referred to, for the price aforesaid, and hereby contracts to pay the same at the time, in the manner and upon the conditions above set forth; and the said parties for themselves, their heirs, executors, administrators, successors and assigns, do hereby agree to the full performance of the covenants herein contained.

24 Should the contractor become insolvent or refuse or neglect to supply a sufficiency of properly skilled workmen, or of materials of the proper qualities, except in case of strikes or lockouts, or when prevented by the unusual action of the elements, or fail in the performance of any of his obligations under this contract, or formally notify the party of the first part of his intention to abandon said contract, then the party of the first part may, in addition to the proceeding outlined in paragraph 8 hereof, notify said contractor by written notice served personally upon the contractor, or his agent, upon the premises where the work is being done, or delivered at his last known address, that unless the terms of said contract are complied with and the work transacted in the manner in said contract required, within five days after receipt of said notice, then the party of the first part will terminate the employment of said contractor for such work, and for the purpose of completing the work the said party of the first part may enter upon the premises and take possession thereof, and of all materials, tools, appliances and other things upon the premises employed in said work, and may employ any other person or persons to finish the work by day labor, and may provide materials therefor, or may relet the said work by contract. In case of such discontinuance of the employment of the contractor, he shall not be entitled to receive any further payment until the said work shall be wholly finished, unless the Department of Public Works determines that such payments can be made without injury to the rights of the subcontractors, repairers or materialmen performing labor or furnishing materials for said contractor When said contract is completed (or at an earlier date as hereinabove specified), there shall then be paid to said contractor any unpaid balance of the contract price in excess of the expenses incurred by the party of the first part in finishing the work, but if such expenses shall exceed such unpaid balance the contractor and his or its sureties shall pay the difference to the party of the first part.

WHEREAS, The Assembly and Senate have passed Assembly Bill No. 1684, which permits the taking of oil from such oil and gas pools located at Huntington Beach, without competitive bidding and at a price far below a reasonable price for such oil; and

WHEREAS, There will undoubtedly be many bills presented at the next session of the Legislature relating to this general subject, just as there were at this session, and

WHEREAS, The Legislature should have before it all of the facts relating to the State's interest in this great oil and gas reserve and its right to the oil and gas, and the proceeds thereof, and full information in regard to any pending proceedings and proposed settlements with reference thereto; now, therefore, be it

Resolved by the Assembly of the State of California That a "Special Assembly Interim Committee on Tideland Oil Drilling" of five Assemblymen be appointed by the Speaker of the Assembly to make a full and complete investigation of all operations and proceedings, past and present, of any and all persons, firms, associations or corporations in connection with the abstraction of oil and gas from tidelands belonging to the State and all actions of the Department of Finance and of the Attorney General with respect thereto, and all and singular the facts, information and data as to the amount of oil and gas, if any, taken from tidelands belonging to the State in the vicinity of the city of Huntington Beach, county of Orange, State of California, and the market value of such oil and gas as of the time of its production, and of any and all proceedings taken in respect thereto by the Department of Finance and the Attorney General, and the circumstances, terms and conditions of any proposed settlement by the Department of Finance, or any division thereof, of the claims of the State of California with reference thereto, and into such additional facts and circumstances as said committee may deem proper to enable the Legislature to fully protect the rights of the State in the premises and in the oil and gas underlying tidelands and other lands belonging to the State; and be it further

Motion to Print in Journal.

Mr. Field moved that the following report be printed in the Journal: Motion carried.

The Report of a Special Committee.

To the Honorable Edward Craig, Speaker of the Assembly, and to the Assembly of the State of California:

Pursuant to the authority conferred by Assembly resolution as printed in the Journal on page 6 of March 26, 1935, directing an investigation of the activities of one Nathan J. Elliott, which charges involved alleged unethical conduct of said Nathan J. Elliott in regard to certain truck regulatory legislation pending before the Senate and the Assembly and particularly with respect to certain charges of alleged influence said Elliott claimed to have and exerted over certain members of the Assembly, your committee met in the State Capitol Building on March 29th, April 1st, April 3rd and April 8th in the year 1935, for the purpose of hearing and taking testimony in reference to said charges.

The investigation was limited and restricted to the specific charges hereinbefore referred to and did not intend to and did not involve in any way the merits or demerits of any truck regulatory bills pending before either house of the Legislature.

This report has been purposely delayed by your committee until final disposal of the truck regulatory legislation mentioned herein in order that this report could not be used to influence that legislation one way or the other.

At the times and places above stated, all available witnesses were called and heard, and in addition, the sworn testimony before the Senate committee of this Legislature was introduced and read into the record of this Assembly investigation and the substance of the testimony and records introduced in this hearing leads your committee to the following findings and conclusions:

1. That the said Nathan J. Elliott was charged with making various statements to the effect that "I control the votes of 27 or 28 legislators" (referring to members of the Assembly) and that "I hold the votes of 27 members of the Southern California delegation in the palm of my hand" and that "I have already gone to the expense of paying the railroad fare of many members of the Assembly."

The witnesses called before your committee were Harvey H. Sanborn, Harold Frasher, Al Meyers, Howard Lang, Rowe Sanderson, O. H. Scott, W. D. Burnett, C. R. Boyer and Nathan J. Elliott. The testimony produced before your committee concerned certain alleged conversations had with the said Nathan J. Elliott by various members testifying before your committee upon five different occasions, to wit:

1. At Pier Five on the water front at Sacramento at which Mr. Elliott was present.

2. At the Senator Hotel on or shortly after the first day of March, 1935, in the Elliott suite in which Mr. Sanborn, Mr. Elliott, Chas. R. Boyer and Mr. W. D. Burnett were present.

3. Meeting number three was at the Athletic Club in Los Angeles on the third day of January, 1935.

4. Meeting number four was at the Jonathan Club in Los Angeles, January 5, 1935.

5. The fifth meeting was an informal meeting on the State highway between Los Angeles and Fresno, following the January 5th meeting at Los Angeles.

At the meeting referred to herein as meeting number 1, which was in the office of W. P. Dwyer, president of the River Lines, on January 14, 1935, there were present, Mr. Dwyer, Mr. Burke and Nathan J. Elliott. The conclusion of the testimony with respect to the conversations at the meeting was that the said Nathan J. Elliott demanded that the sum of $35,000 be raised by those interests favoring a bill that would give the Railroad Commission power to regulate the trucking industry, or he would kill the bill.

At the meeting in the Elliott suite in the Hotel Senator on or shortly after the first day of March, 1935, it is charged that Nathan J. Elliott made the boast that he had a large number of votes (referring to votes in the Assembly) in his vest pocket and further that he controlled 27 or 28 votes from southern California. The witness, W. D Burnett, testified before your committee on behalf of Mr. Elliott and denied that any such conversation took place in the meeting in the Hotel Senator.

The third meeting discussed before your committee, took place in the Athletic Club in Los Angeles on the third day of January, 1935, in which Mr. Elliott, Mr. Meyers, Mr. Duntley, Howard Lang, Dick Cantlay, Frank Daugharty, Milo Bekins and E. J. Anthony, among others were present. The testimony was overwhelming to the effect that Mr. Elliott suggested that those interested in passing the truck regulatory bill giving the Railroad Commission power to regulate the trucking interests, should raise $33,000 for his use with his association and for

legislative purposes It was our conclusion that Nathan J. Elliott, in this meeting made the statement that he controlled 27 or 28 Assemblymen of the southern California delegation. It must be our conclusion that the sum of $33,000 was frequently mentioned as the sum to be raised for the use of Mr Elliott for the Truck Regulatory Bill and that no adequate explanation was made by Mr. Elliott as to why such a large sum of money was needed or how it was to be spent.

The next meeting between those interested in truck regulatory legislation was at the Jonathan Club in Los Angeles, January 5, 1935, in which meeting there was present, in addition to Mr Elliott, Al Meyers, Ben Morris, Gus Lynn, Harold Frasher, C. G. Anthony, Floyd Bekins, Rowe Sanderson, Mr Halvorsen, Mr. Cassanay, George Coburn, Dick Cantlay and George Duntley, among others. At this meeting, it is our conclusion that the question of raising the sum of $33,000 was again suggested by Nathan J. Elliott for the purpose of influencing legislation as well as for the purpose of changing the attitude of the Independent Truck Owners' Association with respect to control by the Railroad Commission. It is also our conclusion at the same meeting Mr Elliott again made the statement that he controlled a bloc of 27 Assemblymen and that he was in a position to pass or defeat *any truck regulation at this session of the Legislature.*

The fifth meeting took place on the State highway between Fresno and Los Angeles subsequent to the two Los Angeles meetings, when the automobile that Mr. Elliott was driving overtook the automobile containing some of the same individuals who had attended the meetings in Los Angeles. At this meeting on the highway, it is our finding that substantially similar statements and threats were made by said Nathan J Elliott, claiming that he controlled a bloc of approximately 27 votes in the Assembly. It is the unanimous opinion of this committee that the said Nathan J. Elliott did upon the occasions mentioned, make the claim and make the boast that he controlled 27 or 28 votes of the southern California delegation in the Assembly and that he would swing this bloc of votes whichever way he desired, and it is further our unanimous finding that he demanded the sum of $33,000 for use in connection with the Independent Truck Owners' Association and for his use in the Legislature for the purpose of passing certain truck regulatory bills.

It is our unanimous finding and conclusion that although said Nathan J. Elliott made such statements, that they were figments of his own imagination, created by ideas of grandeur that he holds with respect to his own power and influence, and it is our unanimous conclusion and finding, that the said Nathan J. Elliott does not control a single vote or a single member of the Assembly, north or south, but that he did make such boasts, brags and statements for the purpose of promoting financial contributions to the Independent Truck Owners' Association of which he was the head.

Only one witness of all those who testified, defended Mr. Elliott in any particular. That witness was W. D. Burnett, an attorney for the Monolith Portland Cement Company. Mr. Burnett was present at the meeting, to wit: At the Elliott suite in the Hotel Senator, Sacramento, California. He denied that Mr. Elliott had made any statement at that meeting to the effect that he controlled any votes and also added that he never at any time heard Mr. Elliott make any such claims or statements.

Mr. Burnett voluntarily criticised the Investigating Committee as being unfair and biased against Mr. Elliott and claimed that the appointment of the committee was solely for the purpose of discrediting Mr Elliott and for the purpose of obtaining passage of truck regulatory legislation that would place the control of trucks in the hands of the Railroad Commission. Mr. Burnett admitted the payment of $2,000 *to Mr. Elliott and/or to the Independent Truck Owners' Association for* the purpose of defeating regulation by the Railroad Commission.

Mr. Burnett was asked to introduce proof of his charges that the committee was prejudiced against Mr. Elliott, but wholly failed to substantiate any of his charges *and admitted that he did not have any proof and that his charges* were based entirely upon his personal belief. The committee calls your attention to the fact that Mr. Burnett is an attorney-at-law, well able to protect himself and that his testimony was so weak and so prejudiced as to cause your committee to attach no weight whatsoever to it.

It is our further conclusion that the statements of influence and control alleged to have been made by Nathan J. Elliott, were not so much a reflection upon the Legislature and particularly upon the members of the Assembly, as it is a reflection upon the gullibility of business that seems ready to believe and assume that votes can be controlled at Sacramento by the use of money. If business was as willing to pay its taxes to the State of California as it is to contribute to funds for lobbyists, the State's financial problems could be easily solved. It is this gullibility of business that permits leeches such as Mr. Elliott, to hang on to the backs of industry and business and obtain for themselves a very lucrative livelihood without the contribution of mental or physical effort.

It is our conclusion that Nathan J. Elliott made the boasts that he controlled 27 or 28 votes of the Assembly, and attempted by this control to badger the sum of $33,000 from the trucking and allied industries.

In view of this unethical conduct, it is our recommendation that said Nathan J. Elliott be barred from attendance at all regular sessions of the Assembly during this legislative session and at any recessed or special session thereof and that he be barred from appearing before any and all interim committees authorized by this Legislature. It is our further recommendation that the continuance of this committee with power to act and investigate similar charges and accusations during the balance of this legislative biennium, will have a beneficial effect.

Respectfully submitted.

Assembly Bill No. 106 ordered to enrollment.

Statement of Wm. B. Hornblower on Assembly Bill No. 106.

I voted to concur in the Senate amendments to Assembly Bill No. 106 because I believed that I had been mistaken in voting against Assembly Bill No. 106 on previous occasions.

My reason for voting against this bill originally was because it permitted public schools to be used for political purposes. This bill only prohibited schoolhouses from being used by people who advocated the overthrow of our government by force and violence. It permits them to use school buildings to advocate a change in government by other means which I believe should be advocated in other places than our public school buildings. However, after learning that the real purpose of Assembly Bill No 106 was to prohibit communists from using our school buildings to advocate their cause, I supported the Senate amendments and would have supported the bill.

Our God and Father, we come to Thee in this closing hour of our work together in this Assembly to thank Thee for the opportunities which Thou hast brought to us during these days of labor for the welfare of the people of our beloved State.

We pray that Thou wilt prosper that which is right and good, and bring to naught any evil that has crept into our deliberations.

We thank Thee for the friendships which we have formed and pray that the sweet memories they bring throughout the years may serve to give inspiration and courage in the difficult and lonely situations of life.

May we go from here with renewed resolutions to live more useful lives, lives that will redound to Thy Name's honor and glory.

And now we pray the prayer which Thou hast taught us—"Our Father, Which art in heaven, hallowed be Thy name. Thy kingdom come, Thy will be done in earth, as it is in heaven. Give us this day our daily bread, and forgive us our trespasses, as we forgive those who trespass against us. And lead us not into temptation, but deliver us from evil, for Thine is the kingdom, and the power, and the glory forever. Amen.

An employee is a "casual" employee if, (a) in the usual and normal course of his employer's trade, business, profession, or occupation, the particular work to which said employee is assigned is begun and concluded within nine successive calendar days; or (b) his employment is not in the course of the trade, business, profession, occupation, or domestic establishment of his employer. The phrase "course of trade, business, profession or occupation of his employer" shall be taken to include all services tending toward the preservation, maintenance or operation of the business, business premises or business property of the employer. The words "trade, business, profession or occupation of his employer," shall be taken to include any undertaking actually engaged in by the employer with some degree of regularity, the trade name, articles of incorporation or principal business of the employer to the contrary notwithstanding.

Subject to the condition of constitutionality expressed in this section the following persons shall be deemed to be excluded from the meaning of "employee":

(a) A member of a qualified health service insurance association which elects to obtain directly from its members the means of conferring benefits upon its members;

(b) Any person engaged in vending, selling, offering for sale, or delivering directly to the public, any newspaper, magazine or periodical if the title to such newspaper, magazine or periodical has passed to the person so engaged;

(c) Any person holding an appointment as a deputy clerk, deputy sheriff or deputy constable, or other deputy, appointed for the convenience of such appointee, who receives no compensation from the county, township or municipal corporation or from the citizens thereof for services as such deputy;

(d) An independent contractor. The term "independent contractor" shall be taken to mean, for the purposes of this act, any person who renders service, other than manual labor, for a specified recompense for a specified result, under the control of his principal as to the result of his work only and not as to the means by which such result is accomplished.

Each of the provisions herein relating to exclusions from the meaning of "employee" is hereby declared to be separable and distinct from all other portions or provisions of this section or of this act. If any such provision be, for any reason, declared invalid, the remainder of this act shall remain in full force and effect and shall be as completely operative as though such provision had not been included herein; and the Legislature hereby declares that no such provision was a consideration or inducement for the enactment of the whole or any portion of this act but that it would have passed this act, and every portion thereof, irrespective of the presence or absence in the act of any such provision declared unconstitutional."

"SEC. 206. As a guide to the interpretation and application of this act the basis of this act and the public policy of this State are hereby declared to be as follows:

(a) Individual illnesses and injuries are unpredictable both as to character, time of occurrence, duration, and cost of treatment. By reason of this individually unbudgetable character of these costs many people die prematurely or become gravely impaired in health and vitality for want of ability to pay the irreducible costs of timely, proper, and adequate services. Many others become impoverished by reason of prolonged illnesses. Experience has shown, beyond all possibility of informed doubt, that these conditions prevail even in the most prosperous times. In times of depression, when those thus harmed become much more numerous and their suffering is augmented by the increased incidence of illness due to privation, many lose confidence in our social and political institutions and become resentful against them. There is a basis of fact for this resentment; for other populations with lesser resources have long since proved that agencies of the kinds provided in this act are efficient remedies to these conditions.

The present numbers, proficiency, and geographical distribution of those licensed to practice medicine; surgery and dentistry, are all adequate for the needful care of all illnesses and injuries at all times for the present population. The service capacity of existing hospitals, laboratories and other facilities is greater than any past or present utilization of them. Many such licensed practitioners and many of those who operate hospitals are either wholly unemployed, or partially or inadequately employed by reason of their patients' inability to pay currently the amounts necessary to bear the irreducible costs of rendering the services. Many fully occupied practitioners, even in prosperous times, are unable to obtain incomes which, in view of the costly and prolonged period of training, will serve as an inducement to attract sufficient numbers of able young men and women to enter these indispensable professions.

Both common experience and scientific investigation have shown beyond the possibility of informed doubt that the health, vitality and the life itself of every member of the population of California are dependent upon many variable conditions. These conditions include: the standards and practices of agencies of the State, its political subdivisions and its instrumentalities in administering the laws relating to health and sanitation; the conditions under which gainful occupations are carried on; the economic conditions that affect the stability of incomes available for maintenance of households; and those conditions of living imposed by the increasing complexity of our industrial and social organization. No agency less powerful than the State is competent to deal effectively in the public interest with such conditions.

Experience has shown that the aggregate of needed health service does not greatly change from year to year in relation to the total numbers of the population in the lower ranges of income. Current, regular contributions which persons of small and moderate income can afford to pay will, if pooled and budgeted, suffice to defray the costs of all or nearly all needful sevices of the kind in question Such funds equitably distributed among those practicing under this act will suffice both to enable these indispensable public servants to maintain themselves and render their services and to assure appropriate recruitments to their ranks. Experience has shown that only by common pooling of the risks by large numbers and by common, current budgeting of the cost can the continuity and the adequacy of these services be assured.

Experience has shown that in times of depression the increase of cost burden of these benefits upon the general funds of political subdivisions and instrumentalities of this State overburdens those general funds at a time at which revenues are most needed for emergency requirements and at which taxpayers are least able to increase their contributions The reserve principle of this act tends to eliminate this improper fluctuation of general revenue burden by making the health services self-financing.

(b) The following severally declared statements of public policy are hereby declared, for the purposes of this act, to be the public policy of the State of California They shall be given precedence in the order of the following enumeration:

(1) The preventable death, disability or impairment either of health or vitality of any member of its population is an irreparable damage to all persons in the State of California.

(2) The loss of confidence in self and resultant impairment of morale because of the preventable death, disability or impairment of health or vitality of an immediate dependent of any person in California is an irreparable damage to all persons in California.

(3) The loss of confidence in our social and political institutions by those unable by themselves to prevent avoidable impairment of health or vitality of themselves and of their families is a damage to the stability of the social and political institutions of the State of California.

(4) The determination by the medical profession of the standards of and the necessity for the treatment and care of the sick person, and the preservation of the relation of utmost mutual good faith between physician and patient, and of the responsibility of the physician for his treatment of the patient, are necessary to the most effective conservation of the life and health of the people of California.

(5) Insufficient and inequitably distributed compensation of those licensed to render medical, surgical and dental services tends toward intolerable lowering of the standards of practice in these indispensable public services in the State of California.

(6) The reserve principle is a necessary adjunct to the rendering of adequate health services and is an important means of protecting the credit of the State of California and of its political subdivisions and instrumentalities."

Provided, that in any criminal case where a judgment has been pronounced by a District Court of Appeal after this section has been adopted by the people by amendment such criminal cause shall not be transferred for hearing to the Supreme Court but the court of criminal appeals shall have power, in such instances, to order such cause to be transferred to the Court of Criminal Appeals for hearing and determination within thirty days after such judgment shall have become final in such District Court of Appeal.

The Supreme Court shall have power to order causes pending before a District Court of Appeal for one district to be transferred to the District Court of Appeal for another district, or from one division thereof to another, for hearing and decision.

Fifth. A new section to be numbered 4d of Article VI is hereby added to said Constitution to read as follows:

Sec 4d. The Court of Criminal Appeals shall consist of a chief justice and four associate justices. The court shall always be open for the transaction of business. The presence of three justices shall be necessary to transact any business, except such as may be done at chambers and the concurrence of three justices shall be necessary to pronounce a judgment The chief justice may convene the court at any time and shall be the presiding justice of the court when so convened. The concurrence of three justices present at the argument shall be necessary to pronounce a judgment; but if three justices so present do not concur in a judgment then all

the justices qualified to sit in the cause shall hear the argument; but to render a judgment a concurrence of three justices shall be necessary, provided, however, that if less than the five justices shall sit at the argument of any cause and it be stipulated that the absent justices may participate in the decision then and in that event the concurrence of three justices shall be sufficient to render a judgment irrespective of whether any one or more of such justices was not present at the argument. In the determination of causes all decisions of the court shall be given in writing and grounds of decision shall be stated In case of the absence of the chief justice from the place at which the court is held, or his inability to act, the associate justices shall select one of their own number to perform the duties and exercise the powers of the chief justice during such absence or inability to act Upon the adoption by the people of this section the Governor shall forthwith appoint one person to act as chief justice and four persons to act as associate justices of the Court of Criminal Appeals.

The term of office of each justice of the Court of Criminal Appeals shall be twelve years from and after the first Monday after the first day of January next succeeding their election or selection; provided, that the term of office of the chief justice of said court first appointed by the Governor hereunder shall be and shall continue *until the first Monday after the first day of January following the sixth general* election next after his appointment and the term of office of two of said associate justices first appointed by the Governor hereunder shall be and continue until the first Monday after the first day of January following the second general election next after their appointment and the term of office of the remaining two associate justices hereunder shall be and continue until the first Monday after the first day of January following the fourth general election next after their appointment After *the appointment of the first chief justice and the first four associate justices of the* Court of Criminal Appeals by the Governor and the qualifying of such appointees, vacancies thereafter occurring in the office of justice of the Court of Criminal Appeals shall be filled and successors to such justices so first appointed shall be selected and elected, including the right of any justice to succeed himself, in the manner now provided by section 26 of Article VI of this Constitution for the selection and election of justices of the Supreme Court and filling of vacancies in *the office of justice of the Supreme Court.*

The salary of the chief justice of the Court of Criminal Appeals and the salaries of the associate justices of the Court of Criminal Appeals shall at all times be the same as the respective salaries of the chief justice and associate justices of the Supreme Court. Whenever any justice of the Court of Criminal Appeals is for any reason disqualified or unable to act in a cause pending before it, the remaining justices may select one of the justices of a District Court of Appeal to act pro *tempore in the place of the justice so disqualified or unable to act*

Sixth. A new section to be numbered 4e of Article VI is hereby added to said Constitution to read as follows:

Sec. 4e. The Court of Criminal Appeals shall have appellate jurisdiction on appeal from the superior courts, on questions of law alone, in all criminal cases prosecuted by indictment or information, wherein an appeal has been taken on or after the forty-fifth day from the adoption by the people of this section. The *said court shall also have power to issue, in aid of its appellate jurisdiction,* writs of mandamus, certiorari, prohibition and habeas corpus and all other writs necessary or proper to the complete exercise of its appellate jurisdiction Each of the justices shall have power to issue writs of habeas corpus to any part of the State, upon petition by or on behalf of any person held in actual custody pursuant to any writ, warrant, or process in a criminal case or action or for a violation of a criminal statute of this State and may make such writs returnable before himself or the Court of Criminal Appeals or before any District Court of Appeal or before any judge thereof or before any superior court in the State or before any judge thereof. Said court shall have the power to adopt rules for the regulation of the procedure before said court and for the manner in which appeals may be taken and perfected to said court, provided that until the adoption of such rules appeals may be taken to said court in the same manner that appeals in criminal cases are now taken to the Supreme Court. In all matters arising under the provisions of section 1506 of the Penal Code where an appeal in habeas corpus proceedings is allowed to the Supreme Court or an application for hearing in the Supreme Court is allowed such appeal shall be taken to and such application for hearing shall be made in the Court of Criminal Appeals instead of said Supreme Court. The Court of Criminal Appeals shall hold regular sessions for the hearing of causes at the Capitol of the State, at the City and County of San Francisco, at the city of Los Angeles, and at the city of Fresno, the times to be fixed by an order of said court and special sessions at either of the above named places or at any other place in the State of California as the interest of justice may require at such times as may be prescribed by the justices thereof. The Court of Criminal Appeals shall be a court of record.

The Court of Criminal Appeals shall have appellate jurisdiction on appeal from the judgments of appellate departments of the superior courts in criminal cases where the validity of any law or statute of the State, or any municipal, county or

city and county ordinance is directly involved and for a violation of which the case was originally instituted; provided, the validity of such law, statute or ordinance was raised before the appellate department of the superior court and further provided that on such appeal the Court of Criminal Appeals shall not determine any other question except the validity of such law, statute or ordinance.

It shall be the duty of the justices of the Court of Criminal Appeals to report to the Legislature at the opening of each regular session any conflicts between or inconsistencies in the laws relating to crimes, the punishment of crimes, procedure or evidence in criminal cases, that has come to their attention, and also any proposed changes in such laws which, in their opinion, should be made in the interests of justice.

In any case where the defendant has been convicted of a crime which by law is divided into degrees or which has necessarily included within such crime one or more lesser or other crimes of which the defendant could have been convicted upon his trial the Court of Criminal Appeals, if no other reversible error appears in the record, and if it determines that the evidence was insufficient to justify the conviction and further determines that the evidence was sufficient to justify a conviction of said crime in a lesser degree or to justify a conviction of a lesser or other crime necessarily included within the one the defendant was convicted of committing and for which he could have been convicted upon his trial, may modify the judgment by reducing the conviction to such crime in a lesser degree or to such lesser or other crime. In such event, the judgment shall be affirmed as modified and no new trial shall be had of the cause.

Seventh. A new section to be numbered 4f of Article VI is hereby added to said Constitution to read as follows:

Sec. 4f. The salaries of the justices of the Court of Criminal Appeals shall be paid by the State at the times and in the manner that the salaries of the justices of the Supreme Court are paid.

The clerk of the Supreme Court, the chief deputy clerk of the Supreme Court, and the deputy clerks of the Supreme Court shall respectively be the clerk of the Court of Criminal Appeals, the chief deputy clerk of the Court of Criminal Appeals and the deputy clerks of the Court of Criminal Appeals. The clerk of the Court of Criminal Appeals must perform such duties as are now prescribed by law to be performed by the clerk of the Supreme Court and such additional duties as may be required of him by the rules and practice of the Court of Criminal Appeals. The Legislature shall provide for the speedy publication of such opinions of the Court of Criminal Appeals as such court may deem expedient, and all opinions shall be free for publication by any person. The reporter and assistant reporters of the decisions of the Supreme Court shall be the reporter and assistant reporters of the decisions of the Court of Criminal Appeals. All reports of decisions of the Court of Criminal Appeals shall be published in the same manner and under the same conditions as the reports of the decisions of the Supreme Court, and all provisions of law relative to the publication of the reports of the Supreme Court now in effect or hereinafter adopted shall apply to the publication of the reports of the Court of Criminal Appeals. The Court of Criminal Appeals shall have power and authority to appoint and employ during its pleasure such phonographic reporters, assistants, secretaries, and other employees as it may deem necessary for the performance of the duties and exercise of the powers conferred by law upon said court and the members thereof and to determine the duties and fix and pay the compensation of all such officers and employees. All salaries and expenses incurred under the provisions of this section shall be paid from the funds appropriated for the use of said court when approved by the order or orders of said court and audited by the Board of Control. The State shall supply proper rooms in which to hold the court and for the accommodation of the officers thereof together with furniture, fuel, lights, and stationery suitable and sufficient for the transaction of business and if such things are not provided by the State the court, or any three justices thereof, may direct the clerk of the Court of Criminal Appeals to provide such rooms, furniture, fuel, lights, and stationery and the expenses thereof certified by any three justices to be correct shall be paid out of the State treasury for which expenses a sufficient sum shall be annually appropriated out of any funds in the State treasury not otherwise appropriated.

Sec. 10. Justices of the Supreme Court, and justices of the Court of Criminal Appeals, and of the District Courts of Appeal, and judges of the superior courts may be removed by concurrent resolution of both houses of the Legislature adopted by a two-thirds vote of each house. All other judicial officers, except justices of the peace, may be removed by the Senate on the recommendation of the Governor; but no removal shall be made by virtue of this section unless the cause thereof be entered on the Journal, nor unless the party complained of has been served with a copy of the complaint against him and shall have had an opportunity of being heard in his defense. On the question of removal the ayes and noes shall be entered on the Journal.

Tenth. Section 19 of Article IV is hereby amended to read as follows:

Sec. 19. No Senator or member of Assembly shall, during the term for which he shall have been elected, hold or accept any office, trust, or employment under this State; provided, that this provision shall not apply to any elective office nor to any office which may be filled by election by the people.

The minimum contribution thus payable to the fund by the employer in his own behalf shall in no case amount to less than one per cent.

SEC. 40. The commission shall keep separate records of the amounts paid into the fund by each employer in his own behalf, or chargeable to him as benefits; but nothing in this chapter shall be construed to grant any employer or his employees prior claims or rights to the amount contributed by him to the fund, either on his own account or on behalf of his employees. The amount of employer contributions together with the employee contributions shall be pooled and available to pay benefits to any employee entitled to benefits under the provisions of this chapter regardless of the source of such contributions.

SEC. 41. For the purpose of determining which employer shall be debited with the amount of benefits paid to an employee who, during the period of the effective operation of this act, prior to the receipt of benefits, has worked for more than one employer, the liability of the two or more accounts shall be in inverse order to the succession of the several employments of the employee.

SEC. 42. No employer shall have the advantage of a merit rating unless the reserve computed remains at a level justifying the lower rate of contributions, except that the commission may, for purposes of convenience, fix quarterly, half yearly, or other reasonable periods during which the lower contributions based on merit ratings shall remain unchanged.

SEC. 43. The commission shall investigate and report upon the degree of unemployment hazard in various industries and occupations and their cost to the unemployment fund. It shall recommend to employers in industries or occupations showing an excessive cost to the fund means for stabilizing employment. It shall also, if necessary, recommend to the Legislature a higher rate of contribution for any classification of industries or occupations in which unemployment is excessive or chronic.

SEC. 44. Beginning on January 1, 1936, each employee shall contribute to the fund one half of one per cent of his wages; and beginning on January 1, 1937, and thereafter he shall contribute one per cent; except that the rate of contributions required of employees shall not in any year exceed fifty per cent of the general rate required of employers. Each employer shall withhold such contribution from the

wages of his employees, shall show such deduction on his pay roll records, and shall transmit all such contributions to the fund, pursuant to general rules of the commission.

Amendment No. 11.

On page 10 of the printed bill, as amended, between lines 14 and 15, insert the following:

"SEC 47. The commission may exempt from the provisions of this act requiring contributions to the fund, and from such other provisions as the commission finds clearly inapplicable to guaranteed employment plans, any employer (and his employees) who guarantees, under a plan approved by the commission, to all employees in his employ at the time of putting such plan into effect (and to each employee who is thereafter employed and continued in employment after a total of eight weeks of employment), in advance for stated one-year periods, at least that number of weeks of work or wages, for at least that corresponding number of hours in each week set forth in the following table, provided the commission is satisfied that the employer can and will make good such promise under all circumstances.

Minimum number of weeks per year	Minimum hours in each such week
42	36
43	34
44	32
45	30
46	28
47	26
48	24
49	22
50	20

The employer's guaranty to an employee under such a plan shall specify the one-year period applicable to such employee, the total wage rate guaranteed the employee for all work done by him for the employer during such year period and guaranteed him as a deficiency wage for each hour short of the number of guaranteed hours in a guaranteed week, the manner of extending or removing such guaranty, and such other matters as the commission finds necessary to safeguard and carry out guaranteed employment plans submitted under this act. But an employer shall not be required to make good such guaranty in the case of any individual employee who loses his employment under any of the conditions enumerated in section 56 of this act.

SEC. 48. The commission may exempt from paying to an account in the fund, the contributions provided for in sections 38, 39, 40, 41, 42, 43 and 44, any employer and employee or group of employers or employees submitting a plan for unemployment benefits which the commission finds: (1) makes eligible for benefits at least the employees who would be eligible for benefits under the compulsory features of this act; (2) provides that the proportion of the benefits to be financed by the employer or employers will on the whole be equal to or greater than the benefits which would be provided under the compulsory features of this act; and (3) is on the whole as beneficial in all other respects to such employees as the compulsory plan provided in this act. If under such a plan any contributions are made by employees, the accounts of the plan shall be so kept as to make clear what proportion of the benefits is financed by the employer or employers, and what proportion by the employees If under such a plan any contributions are made by employees, the commission shall require that such employees be represented, by representatives of their own choosing, in the direct administration of such plan, and the commission may take any steps necessary and appropriate to assure such representation to contributing employees.

SEC. 49. As a condition of granting exemption, the commission may require the employer or group to furnish such security as the commission may deem sufficient to assure payment of all promised benefits or wages, including the setting up of proper reserves. Such reserves and other security and also the manner in which an exempted employer carries out his promises of benefits or employment shall be subject to inspection and investigation by the division at any reasonable time If the commission shall deem it necessary it may require an exempted employer to furnish additional security to assure fulfillment of his promises to his employees.

SEC. 50. If an exempted employer or groups of employers fails to furnish security satisfactory to the commission, or fails to fulfill the promises made to employees, or wilfully fails to furnish any reports that the commission may require under this act, or otherwise to comply with the applicable portions of this act and the rules, regulations and orders of the commission pertaining to the administration thereof, the commission may, upon ten days' notice and the opportunity to be heard, revoke the exemption of such employer or group. In such case or in case any exempted employer or group voluntarily terminates exemption, such employer and each of such group of employers shall at once pay into the fund an amount equal to the balance which would have been standing to his account had he been

making the contributions to the fund and paying out the benefits provided in this act; provided that, in any case where such balance can not reasonably and definitely be determined, and specifically in the case of an employer exempted under subsection (a) of this section, the commission may require such employer to meet his liability under the present subsection by paying into the fund a lump sum amount equal to the contributions he would, if not exempted, have paid into the fund under section 38 during the twelve months preceding termination of his exemption. The account of any employer whose exemption has been terminated shall thenceforth be liable to pay to his employees the benefits which may remain or thereafter become due them, as if such employer had not been exempted under this section; and such employer shall thenceforth pay all contributions regularly required under this act from nonexempted employers.

SEC. 51. (a) Each employer exempted under this article shall be liable to make all contributions, to pay directly to employees all benefits, to pay all penalties, and otherwise to comply with all the provisions of this act, except as specifically provided in this section and in suitable rules to be formulated by the commission consistent with the purposes and provisions of this act.

(b) Such plan for exemption shall provide that upon the going out of business in this State by any employer, or the legal abandonment of the plan, the funds which shall have been contributed under such plan shall be retained for a sufficient period to meet all liability for benefits which may thereafter accrue, and that at the end of such period the proportion then remaining of employer contributions shall be released to the employer or his assigns, and the proportion then remaining of employee contributions shall be distributed in such equitable manner as the commission may approve.

(c) The rules and regulations for the government of such plan must be submitted to and approved by the commission. A plan, so approved, shall when put into effect, constitute a contract between each employer and every other employer participating in that plan, and between the employer or employers on the one hand, and, on the other hand all employees who came under it; and shall not thereafter be abandoned or modified without the approval of the commission, but it is a condition of such contract that it may be so abandoned or modified with such approval."

Assembly Bill No. 86 ordered to enrollment.

Explanation of Vote.

MR. SPEAKER: I can not permit to go unexplained my vote against concurrence in the Senate's amendments to Assembly Bill No. 86 That unemployment insurance measure as it passed the Assembly was largely the result of an entire session's work of drafting and redrafting under my supervision. It provided the barest minimum of what was required to establish sufficient cash reserves to pay reasonable benefits to unemployed persons beginning in 1938. It further provided a common pooling of payments from industry and labor, recognizing that unemployment is a necessary concomitant of our entire industrial enterprise, and that its hazards must be overcome by a common acceptance of the burden.

The Senate saw fit to reduce the payments from industry to the bare minimums provided in the Federal act, which will make our State fund woefully insufficient to meet the needs of the unemployed That Federal plan is offered not for the guidance of a prosperous State such as ours, but as the minimum permitted to such poverty stricken States as Georgia. The amended bill is little more than a pretense, an idle gesture. Both political parties committed themselves to enacting at this session an adequate system of unemployment As a progressive Republican, I fully supported such a party plank. In its repudiation by the Senate, and the sustaining of that repudiation by the Assembly, I can not conscientiously have any part. Consequently, I can not concur in the Senate's amendments

Resolution.

The following resolution was offered:

By Messrs. Morgan, Garibaldi, O'Donnell, Turner and Flint:

Assembly Resolution.

WHEREAS, There has developed in the State of California a serious gasoline price war which will inevitably result in great and irreparable financial loss of both capital and labor in the oil industry; and

WHEREAS, The price of crude oil on the one hand and of gasoline on the other are at such great variance as will inevitably spell ruin to oil interests in California to the great financial detriment of the people of this State; and

WHEREAS, A Federal receiver has publicly stated in a Federal court in this State that his company is losing approximately $10,000 per day, because of the difference in the price of crude oil and gasoline and that action must be immediately taken by the court to relieve his receivership; and

WHEREAS, These products are now recognized as a public necessity; and

WHEREAS, The determining factor in the price of crude oil and of gasoline should be the economic relationship that a barrel of crude oil bears to the price the public pays for the products thereof, and not a fictitious price posted at will by any purchaser or purchasers thereof; and

WHEREAS, These price wars have the appearance of deliberate manipulation; and

WHEREAS, The public has the right to look to this Legislature for a guarantee of protection from monopoly and monopolistic control, and for a guarantee that they shall at all times now and in the future be free from the certain result of exorbitant prices for gasoline which the present manipulation of the prices of this industry is certain to bring about; now therefore,

This Assembly does herewith go on record, That the public welfare of this State necessitates its publicly asserting that the maintaining of the price of crude oil and the products thereof economically out of balance is inimical to the general good of this State. The welfare of our people, and the subsequent monopoly thus created is contrary to the expressed will of our citizens; be it therefore

Resolved, That any future continuance of such gasoline wars and such manipulations of crude oil prices be declared as opposed to the very fundamentals of good government of our people; also, be it further

Resolved, That this resolution be printed in the Journal and that copies of this resolution be printed and mailed to each and every oil company posting prices for crude oil within this State; likewise, that a copy be forwarded to every producer of crude oil in this State and to every refinery doing business in this State; that a copy be delivered to the Governor and to each and every State official and department head, so they may know of this expression of policy of this legislative body.
