COMMUNICATIONS

By Mr. Meyers:

The following communication was received, read, and ordered printed in the Journal:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 17, 1951

Honorable Charles W. Meyers
Member of the Assembly
State Capitol, Sacramento, California

MY DEAR ASSEMBLYMAN: Confirming our conversation regarding Assembly Bill No. 1890, I wish to express my appreciation of the manner in which you have handled this matter. I appreciate your willingness to introduce this measure at the request of the Superintendent of Banks.

The veto of this measure was the result of a series of errors commencing with the Superintendent and culminating in this office. The unfortunate result was that the message was inaccurate in stating my reason for returning the bill.

It was most courteous of you to hold the matter on the unfinished business file until we had an opportunity to discuss it. Following our conversation and as indicated to you, you are at liberty to take such further action as you deem most appropriate. It is most regrettable that you have been caused any embarrassment as the result of a series of misunderstandings and mistakes.

I wish to assure you of my feeling of appreciation to you in view of the unfortunate results attending your willingness to handle this measure for one of our state departments.

Sincerely,

EARL WARREN, Governor

REQUEST FOR UNANIMOUS CONSENT TO TAKE UP CONSIDERATION OF GOVERNOR'S VETO TO ASSEMBLY BILL NO. 1890

Mr. Meyers asked for, and was granted, unanimous consent that he be permitted to take up consideration of the Governor's veto to Assembly Bill No. 1890, temporarily passed on the unfinished business file, out of order, at this time.

CONSIDERATION OF GOVERNOR'S VETO

Assembly Bill No. 1890—An act to repeal Section 232 of the Banking Code and to repeal Section 232 of the Financial Code, relating to the taking of the constitutional oath of office by deputies and examiners.

Governor's message stating his objections read previously.

The question being: Shall Assembly Bill No. 1890 become a law notwithstanding the objections of the Governor?

The roll was called, and the Assembly sustained the objections of the Governor by the following vote:

AYES—Stewart—1.

NOES—Babbage, Belotti, Berry, Brown, Burke, Caldecott, Chapel, Clarke, Cloyed Coats, Collier, Condon, Connolly, Conrad, Cooke, Crowley, Dickey, Dills, Dolwig, Dunn, Erwin, Evans, Fleury, Gaffney, Grunsky, Hagen, Hahn, Hansen, Henderson, Hinckley, Kelly, Kirkwood, Klocksiem, Lanterman, Lincoln, Lindsay, Lipscomb, Luckel, Lyon, Maloney, McCarthy, McCollister, McFall, McGee, McMillan, Meyers, Morris, Moss, Niehouse, Porter, Shaw, Sherwin, Silliman, Smith, Stanley, Waters, and Mr Speaker—57.

REQUEST FOR UNANIMOUS CONSENT THAT OPINION OF LEGISLATIVE COUNSEL BE PRINTED IN JOURNAL

Mr Meyers asked for, and was granted, unanimous consent that an opinion of the Legislative Counsel, relative to oaths of deputies and examiners of the Banking Department, be ordered printed in the Journal, in 10 point type, as follows:

Opinion of Legislative Counsel

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO 2, CALIFORNIA, May 15, 1951

Honorable Charles W. Meyers
Assembly Chamber

OATHS OF DEPUTIES AND EXAMINERS OF
BANKING DEPARTMENT—No. 8436

DEAR MR. MEYERS:

Question

You have asked us to advise whether the repeal of Section 232 of the Banking Code, which is the purpose of Assembly Bill No. 1890, would eliminate the requirement for the taking of oaths of office by deputies and examiners of the Superintendent of Banks in the event of a future repeal of the 1950 loyalty oath statute (Stats. 1950, 3rd Extra Sess., Chap. 7).

Opinion

In our opinion the repeal of Section 232 of the Banking Code would not have such an effect.

Analysis

The Government Code already contains a requirement for the taking of an oath of office by officers (Section 1360) and employees (Section 18150). These sections were not repealed by the enactment of the 1950 loyalty oath statute (Stats. 1950, 3rd Extra Sess., Chap. 7), although that act does provide that compliance with its provisions will also constitute compliance with the general oath required of state employees generally (Government Code, Sec. 3106). The 1950 loyalty oath statute did not make a similar provision with respect to the oaths of officers since

its provisions are not applicable to officers required to take the constitutional oath.

Section 232 of the Banking Code (Section 232 of the Financial Code effective on the ninety-first day after final adjournment; Chapter 364 of 1951 Statutes) requires the taking of the oath of office by deputies and examiners of the Superintendent of Banks. In our opinion this requirement merely duplicates the existing provisions in Sections 1360 and 18150 of the Government Code, which sections would continue to require the oath of office for such persons in the event that the 1950 loyalty oath statute should cease to be operative at some future date.

Very truly yours,

RALPH N. KLEPS
Legislative Counsel
By J. D. STRAUSS, Principal Deputy

Opinion of Legislative Counsel

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO 2, CALIFORNIA, May 18, 1951

Honorable Julian Beck
Assembly Chamber

COMMUNIST REGISTRATION ACT—NO. 8531

DEAR MR. BECK:

Question

You have requested a brief opinion as to the constitutionality of Assembly Bill No. 1573, relating to the registration of members of Communist organizations and regulating the activities of registrants.

Opinion

It is our opinion that the statute, if enacted, would be held unconstitutional by the courts.

Analysis

Assembly Bill No. 1573 would require the registration of every person who resides in, is employed in, has a regular place of business in, or who regularly enters or travels in this State, and who is, or becomes a member of any Communist organization. The act would also prohibit such registrants from acquiring or carrying certain dangerous weapons or explosives, and excludes them from appointment to positions in civil defense organizations. Persons violating the provisions of the act would be subject to criminal penalties.

Assembly Bill No. 1573 is the counterpart of Ordinance No. 5579 of the County of Los Angeles which was held unconstitutional in the recent cases of *People* vs. *McCormick* and *People* vs. *Steinberg* (1951), 102 A.C.A. Supp. 854.

The *Steinberg* case was commenced in the Justices Court of Belvedere Township, County of Los Angeles Judge Myer B. Marion on a ruling on demurrer (No. 35,072) held Ordinance No. 5579 unconstitutional on the following grounds:

(1) Abridgement of freedom of speech and peaceable assembly guaranteed by the First and Fourteenth Amendments of the United States Constitution.

(2) Denial of due process of law because of such vague, indefinite, and unascertainable standards.

(3) Impairment of the privilege against self incrimination guaranteed by Section 13, Article I of the State Constitution.

(4) Invasion of the field of foreign affairs which is reserved to the national sovereignty.

The *Steinberg* case and its companion case, the *McCormick* case, were appealed to the Appellate Department of the Superior Court for Los Angeles County, which affirmed the judgments of the lower courts on the ground that the ordinance was unconstitutional as a violation of the prohibition against self incrimination (102 A.C.A. Supp. 854).

In addition to the provisions contained in Ordinance No. 5579, Assembly Bill No. 1573 contains the following provision:

> "Any information obtained through such registration may not be used by any public official in relation to prosecutions for violation of any other state statute as such use would be against the public interest." (Par. 2, Sec. 7).

The two statutes, in our opinion, cannot be distinguished because of this additional provision since such provision would not furnish a registrant with a protection equal to his constitutional privilege against self-incrimination which the courts have required. (*Ex parte Cohen* (1894), 104 Cal. 524; *In Re Williams* (1932), 127 Cal. App. 424; *Counselmen* vs. *Hitchcock* (1892), 142 U.S. 547.)

Very truly yours,

RALPH N. KLEPS
Legislative Counsel

REQUEST FOR UNANIMOUS CONSENT THAT COMMUNICATION BE PRINTED IN JOURNAL

Mr. Lowrey asked for, and was granted, unanimous consent that a communication be printed in the Journal, as follows:

STATE OF CALIFORNIA, DIVISION OF BEACHES AND PARKS
DEPARTMENT OF NATURAL RESOURCES
SACRAMENTO 14, May 16, 1951

Hon. Lloyd W. Lowrey
Member, State Assembly
State Capitol, Sacramento, California

DEAR ASSEMBLYMAN LOWREY: I am taking the liberty of replying to your letter of May 14, 1951, in the absence of Chief Newton B. Drury of this division.

The State Park Commission at its meeting in San Francisco on May 4, 1951, rescinded the action it took in December, 1950, not to renew the grazing concession of Mrs. Miriam Rudisill in Del Norte Coast Redwoods State Park in Del Norte County. It has now granted Mrs. Rudisill an extension, on a year-to-year basis, of her grazing concession in that park.

This concession, as is true of all grazing concessions in the State Park System, may be granted only for park protection purposes, namely: fire protection. The State Park Commission is not authorized to grant grazing concessions solely upon the need

for grazing in the area of the park involved. Grazing activities must not in any way interfere with the recreational use of the areas involved. Further, when grazing appears to be changing the native character of the park lands involved, the commission may defer grazing on the area until reasonable recovery of the vegetation has occurred.

At the present time, more than 80,000 acres are being grazed by private concessioners in state park areas. In the last three years, approximately 6 percent has had to be withdrawn from grazing for one reason or another The largest portion of this 6 percent was withdrawn in Anza Desert State Park which supports a minimum number of animals per acre and which we could not get anyone interested in

The entire matter of grazing policy was discussed at the May meeting of the State Park Commission and representatives of the Wool Growers Association and the State Farm Federation appeared before the State Park Commission and were assured that it shall be the continuing policy of the Park Commission to permit grazing where such grazing does not interfere with the recreational use of the area, the general wildlife associations, and will definitely reduce the fire hazards

Sincerely yours,

NEWTON B DRURY, Chief
Division of Beaches and Parks
By EARL P HANSON, Deputy Chief

cc: Supt. E. P. French (2)

LETTER OF TRANSMITTAL

ASSEMBLY, CALIFORNIA LEGISLATURE
INTERIM COMMITTEE ON FAIRS AND EXPOSITIONS, May 22, 1951

Hon. Sam L. Collins, Speaker of the Assembly
California State Legislature
Sacramento, California

MR. SPEAKER: Your Committee on Fairs and Expositions, created pursuant to House Resolution No. 285, 1949 Session, herewith submits its final report and recommendations.

This report is based on a two-year study, by committee members, of fairs and expositions and their relationship to education and economy.

The committee is grateful to the many individuals and organizations which have cooperated in the gathering of material and information for this report.

The undersigned committee has the honor to submit its report on fairs and expositions.

In submitting this report on the work of the Interim Committee on Fairs and Expositions, the chairman and committee members desire to state that their primary purpose is to give a fairly complete current picture of how district and county fairs are actually operating in California. The attempt has been made to present objectively the problems which exist and which must be solved, to inform the Members of the Legislature and the public generally of the State's investment in fairs, to set forth the educational and cultural contributions which fairs make, to indicate in a general way the economic and commercial importance state-supported district and county fairs have attained in the business life of California, and finally to present certain constructive suggestions concerning the operation of county and district fairs. The committee does not make recommendations on every problem which perplex fair managers and fair directors. But we do hope that the recommendations which are presented and that the general information here made available will make easier the solution of problems to which we here propose no specific answers.

Respectfully,

LESTER T. DAVIS, Chairman
JOHN W. EVANS
JOHN E. MOSS, JR.
CHARLES S. GUBSER
L. STEWART HINCKLEY

Let this great Nation, which Thou hast wonderfully blest, take its place among the peoples of the earth as one that serveth.

"O, Ruler of the Universal sphere,

ANNOUNCEMENT

Speaker Sam L Collins announced that he has received a communication from Earl W. Chapman, Executive Officer of the Board of Administration, State Employees' Retirement System, Sacramento, and read one paragraph from the letter as follows:

"In that connection may I suggest that the Law be amended to provide that the member has the right of election until ninety days after the receipt of notice from this office concerning his right. That provision is in the State Employees' Retirement Law and prevents the unfortunate situation which arises when ninety days have elapsed and no notice has come. I think it would improve the situation if an amendment such as I have suggested were placed in the Legislators' Law."

Speaker Sam L. Collins further announced that if any member has a remaining spot for the introductoin of a bill, and is interested in full information, to come to his office, and read said letter in full.

REPORT ON OVERLAPPING IN BUILDING REGULATIONS BY ASSEMBLY INTERIM COMMITTEE ON GOVERNMENTAL EFFICIENCY AND ECONOMY

House Resolution No. 183, 1949

A. I. STEWART, Chairman

To the Honorable Sam L. Collins, Speaker, and to the Members of the Assembly:

House Resolution No. 183, 1949, directed that this committee investigate overlapping in state and local building regulations, and propose corrective legislation, if appropriate, to relieve the burden that these conflicts now impose on builders.

To study a problem of this scope and complexity requires painstaking attention to a mass of detailed law and regulations. Near the end of 1949, we engaged Louis J. Kroeger and Associates, management consultants, of San Francisco and Los Angeles, to undertake the necessary staff work of compiling and analyzing the data on which this report is based.

The committee met in Sacramento in March, 1950, at which time the staff outlined proposed procedures for the study, and reported certain preliminary facts concerning the scope of the problem.

Thereafter the staff amassed and reviewed about 4,400 pages of California state and local building regulations; and almost as much again from other states and localities. The analysis of this material was contained in a second staff report, released in August, 1950, and circulated widely among public officials and the industries and professions engaged in building.

The committee held hearings in San Francisco and Los Angeles in October, 1950, to give all concerned an opportunity to comment on the tentative findings and recommendations in the second staff report. A full transcript of those hearings is available as part of the records of this committee.

In addition to committee hearings, the staff has had further conferences with a committee of the League of Cities and with industry and profession representatives, to the end that this report of your committee may reflect as accurately as possible the best available thinking as to what should be done about this troublesome problem.

Finally, the staff has, through correspondence with the governors and building officials of other principal states, sought to find precedent elsewhere by which California might benefit. Apparently, however, this is a common problem to which no state has yet provided a satisfactory answer.

That it is essential to the economy of the State that an answer be found is illustrated by the mounting value of building construction. The following figures show total value of public and private, residential and non-residential construction in California in recent years:

1945	$ 373,500,000
1946	$1,262,700,000
1947	$1,613,400,000
1948	$2,275,200,000
1949	$1,817,700,000
1950	Estimated to be over $2,000,000,000

If overlapping building regulations add only 1 percent to costs in this 20 billion dollar activity, the unjustified cost to builders is $20,000,000! A waste of 20 million dollars deserves prompt and decisive action by this Legislature.

SCOPE OF THE STUDY

By the terms of House Resolution No. 183, this is a study of overlapping in building regulations.

There is a host of other problems affecting the construction industry and allied activities, which interested parties would like to see investigated as a part of this study; but we have kept within the strict limits of the resolution.

This report, therefore, does not consider such matters as the adequacy of building codes; any aspect of zoning to regulate where buildings may be erected; claims of excessive or restrictive requirements as to conditions or materials; alleged restrictive practices of building trades labor unions; the adequacy or social implications of housing; or the policies and practices of state and local administrative and licensing agencies, except as they are directly concerned in promulgating and enforcing building regulations.

If basic conflicts can first be resolved, then many of these other problems can more readily be solved.

FINDINGS

The results of detailed study can be summarized in a few general findings, with which we believe there will be general agreement:

1. There are too many overlapping building regulations to make it feasible or desirable to attempt to recite them in full.

2. There are too many conflicts, and in such a variety of types of regulations, to make it feasible or desirable to try to resolve the conflicts by detailed legislative action.

3. The real problem is to find a proper definition of the relative authority and responsibility in this field among state agencies, among local agencies, and between state and local agencies.

4. Although the Uniform Building Code is in use by most cities in the State, it is frequently amended in some respects before local adoption.

5. The authority to make laws and rules governing building construction is widely scattered among state and local agencies.

6. The rule-making authority is frequently mingled with enforcement authority.

7. Regulations governing the construction industry have a variety of purposes, of which the principal ones are: (a) assuring adequate structural soundness, (b) protecting surrounding economic values, and (c) assuring the safety of persons where they live, where they work and where they assemble.

8. Neither those making rules nor those enforcing them recognize clearly or observe carefully these different purposes.

9. Many of the regulations are not readily available in understandable form to those who must be governed by them.

10. A local permit to build is no guarantee whatsoever against later intervention by other authorities, with the possible requirement of alterations in work already completed.

11. A citizen proposing to build (or his architect or contractor) must literally become a coordinator of a variety of public agencies to be assured of proper clearance of every official detail.

12. Building construction is slower and costlier as a consequence of all the foregoing conditions.

NATURE OF EXISTING OVERLAPPING

Overlapping Among State Agencies

The State has no one agency concerned principally with building regulations. There are at least 10 state agencies having some degree of authority in this field; and no one of them is responsible for taking the lead in coordinating the activity of all of them. This produces two kinds of confusion—conflict between state agencies themselves; and too many kinds of relationships between state and local agencies.

There is no consistent pattern for defining the relative responsibility of the State and of local agencies in enforcing state regulations. In some instances, such as many of the regulations of the State Fire Marshal, the regulations are published by the State, but generally left to local fire departments for enforcement In other instances, such as checking the structural detail on school buildings, the work is done directly by the state.

Even though the State Fire Marshal's regulations are enforced locally, there is some local resentment against them because their enforcement is required to be through the local fire department, rather than leaving the city free to assign it to the building safety department if locally it seems like a better idea

Some state agency actions would seem less confusing and conflicting if they were better understood. They are not understood partly because the regulations are too long and involved for the average reader, and partly because they are not published in such a way as to be widely distributed before they are effective. Printing a regulation and having it available for those who ask for it may create the legal presumption that all concerned are properly notified, but it is not a very practical way of really being sure that those regulated know what is expected of them.

Overlapping Among City Agencies

The cities tend to lay all blame for conflict and confusion on the State. But few cities have put their own administrative house in order. Most cities have a building official who is the principal officer responsible for enforcing building regulations. In addition, the fire department, the health department, and sometimes as many as a dozen other local agencies are involved in some phase of building regulation. Even though most of these agencies have a legitimate concern in some aspect of building regulation, local organization should be such that the applicant for a building permit would have to go only to one place and could expect a single answer from the city, embodying all the considerations that any city department is authorized to apply.

A health department naturally and properly views a proposed building solely from the standpoint of sanitary and other health features; a fire department is concerned with preventing fire and being able to fight it effectively if necessary; a planning department wants to be sure that

the building conforms to zoning regulations If each pursues its own interests without central direction and coordination, each set of features gets undue attention. The builder who goes to 10 city offices and gets a favorable decision in nine of them and a rejection in the tenth, can hardly be blamed for feeling that he is unfairly treated and that he should get a permit anyway, since the vast majority of the offices approve.

Overlapping Between Cities and Counties

Most of the counties in California do not have building regulations. Opposition has generally come from agricultural interests, who argue against the need for regulation on farm buildings.

The lack of county regulation in many places has created a serious situation for the cities having heavily populated "fringe areas" The substandard buildings permitted in unregulated county territory tend to depreciate property values in nearby city areas; and the city faces a serious future enforcement problem whenever the fringe area comes into the city by annexation.

In those cases where the county has adopted a building code, the conflict between city and county is generally the same as that between cities, described in the following section.

Overlapping Between Cities

The "Uniform Building Code" is a compilation of regulations by building official members of the Pacific Coast Building Officials Conference working with other groups, including state departments. Most California cities have adopted the Uniform Code, but in doing so they frequently adopt local modifications which impair uniformity, or fail to enact late editions of the code.

From studying the variations in the Uniform Building Code, it is not apparent why these variations are important. They frequently consist of minor variations in standards, probably adopted to satisfy local pressure groups, but not essential to building safety.

The fact that most of the cities adopt the Uniform Building Code almost in its entirety does not minimize the confusion that results from minor local exceptions. For instance, when 45 cities in Los Angeles County, and the county itself, may indulge in any combination of variations of the Uniform Building Code, a builder operating throughout the county faces a bewildering situation.

If local conflicts are to be resolved, the means for reducing variation in local building codes must be found. It will always be desirable to leave to each city the discretion to set its own schedule of fees and to establish its own local form of administration; but such details do not concern the builder in the same way as do such things as varying requirements for the height of ceilings.

Overlapping Between Cities and the State

Here is the most serious point of overlapping, and the one about which the Legislature can take the most conclusive action. Inherent in this particular conflict is not only a matter of convenience to an important industry and to the citizenry; but there is also a matter of the nature of the fundamental relations between cities and the State.

Building regulation has traditionally been a field of local concern. Cities have adopted their own standards and regulations and have been responsible for their own enforcement.

The State has more recently begun to occupy the field of building regulation, and has usually come into it to meet some special requirement, or to carry out some other function of the State, or to protect the local investment of state funds. Thus, the State Division of Architecture was precipitated into the business of checking the structural plans of school houses because a serious earthquake revealed deficiencies in existing standards; and state housing regulations stem from the State's general concern in the field of industrial relations and welfare.

The principal examples of state regulations and/or enforcement in this field are as follows:

1. *Agriculture.* The Department of Agriculture regulates the construction and extensive alteration of dairy buildings by establishing rules, providing plans and specifications and approving plans.

2. *Corporations.* The commissioner approves plans for housing projects undertaken by land chest corporations, and may enforce improvements for the health and safety of occupants.

3. *Education.* The Department of Education may establish rules and standards and must review plans for construction or alteration of school buildings where the contract cost will exceed $5,000.

4. *Fire.* The State Fire Marshal has broad rule-making power with respect to fire protection, the protection of life and property against fire and panic, and the design of state institutions. In these matters he may and does delegate authority to local fire departments. He also has rule-making and enforcement responsibilities for fire safety in clothes-cleaning and spotting, sponging and pressing establishments.

5. *Industrial Relations.* The divisions of the Department of Industrial Relations make and enforce building rules on a wide range of subjects, including apartment houses, other dwellings, auto courts and resorts, labor camps, and places of employment. These are designed primarily to protect the safety of individuals, but in doing so necessarily become involved in the construction and equipment of buildings. Certain of these regulations, particularly those affecting dwellings, are enforced by local officials, except that the state agency may intervene where local agencies fail. Most of the regulations of the department are enforced directly by state officials.

6. *Public Health.* The Department of Public Health enforces laws and regulations governing bakeries, restaurants and food processing establishments. Certain of these laws are enforced both by the State and by local health officials, and others by state officers. The department also sets and enforces standards for the construction and equipment of hospitals and clinics.

7. *Public Works.* The Department of Public Works checks the construction and alteration of dams, school buildings, certain other public buildings, and the State's own buildings There are also general provisions of law which specify certain conditions to be met by all contractors on public construction.

8. *Public Utilities.* The Public Utilities Commission makes regulations governing the construction of utility facilities.

9. *Social Welfare.* The Department of Social Welfare checks the plans for a wide variety of welfare institutions.

10. *Veterans.* Plans and specifications must be approved by the Department of Veterans Affairs as a condition of aid under the Veterans Farm and Home Purchase Act.

There are two significant points about the foregoing summary: (1) it is a greatly simplified statement about regulations which occupy hundreds upon hundreds of pages of law and regulations; and (2) much of the same subject matter is covered by local regulations and is subject to local inspections as well.

Under present arrangements, the difficulties of the builder are particularly trying in those cases in which state enforcement applies only when local officials have failed. In such instances the builder may in good faith have completed work according to local standards (and according to his information, the only standards), only to find later that stricter state standards were not properly enforced locally, and that he must tear out the job and do it over according to those standards. Differences between state and local officials would not be so serious if they were the only ones concerned, but they become a matter of general concern when innocent bystanders are injured.

Equally serious, and equally a matter of general concern, are those instances in which the State must rely on local enforcement, but is without the power to require a satisfactory standard of local enforcement.

Underlying all these problems is the basic fact that the State lacks any single point at which responsibility is lodged to see that state law, regulations and enforcements standards and practices are kept consistent and well coordinated. If the building industry or the local building officials or any state agency seeks assistance in the solution of a problem of general concern, there is no one state officer responsible for bringing together all pertinent facts and all interested parties. To a considerable degree, this lack has undoubtedly accounted for much of the existing chaos.

PROBLEMS OF THE BUILDERS

The hostile attitude of so many builders toward building regulations and building officials can be easily understood in light of some of the builders' problems.

1. Most building regulations are too detailed and written in too difficult language to be readily read and applied on the job.

2. Many of the regulations are out of print. It is annoying to be held subject to a rule which cannot be readily ascertained.

3. Many of the local regulations are out-of-date. A city adopts the Uniform Building Code, with modifications. Later the Uniform Building Code is revised, but the city fails to adopt the revised edition. The harassed builder must not only know what modifications each city has adopted, but must also remember which edition they approved.

4. There are conflicts in the detail of regulations, already discussed.

5. There is a multiplicity of regulating agencies, some with outlets for appeals from decisions, and others without such recourse—and each

operating alone, so that the builder must move among them as the coordinating force which finally gets agreement on the standards to govern a given job

6. Because of the multiplicity of agencies there is also added costs for a multiplicity of inspections and approvals

THE PROBLEMS OF OCCUPANCY

Not all of the difficulty complained of is caused by conflicts in regulations Some of it is caused by the changing uses to which buildings are put.

The conflicts which beset the builder of a new building are serious; and in the course of time many of them can be resolved by the actions which this report will recommend. But there will still remain the problem of the owner of a building who wishes to change its occupancy after it has been built. For him the imposition of an unexpected set of regulations is just as serious, but more often justified.

If a building originally intended for storage purposes is converted to a dwelling, it clearly becomes subject to a different set of standards If a building housing a manufacturer of machinery is later to be used by a processor of foods, new regulations properly apply.

As to those complaints that a building must be altered to fit different standards in those circumstances, we have no concern. Even in these change of occupancy cases, however, we find instances in which there are conflicts and lack of adequate information as to just what change must be made—and those conflicts must be resolved.

SOME ALTERNATIVE SOLUTIONS

There are a number of alternative ways of treating this problem:

1. It can be left as it is, on the grounds that construction progresses in spite of it; it is familiar; and any attempt to change it will encounter opposition from one source or another This is an unsound, defeatist attitude, not yet openly expressed by anyone, but several times implied as the probable ultimate fate of this investigation.

2 The State might adopt a Minimum Uniform Code, with authority vested in the local governments to adopt necessary local modifications, and with local enforcement. This would perpetuate the present condition of confusion and conflict, since local units would tend to modify the state standard just enough to make every local situation different.

3. Some advocate complete state regulation and enforcement. In a state of this size and variety of conditions, such a plan is not practicable; and it would be an unwarranted invasion of the rights of home rule enjoyed by California cities.

4. Regulations might be established voluntarily through some such organization as now develops the Uniform Building Code, but with the requirement of actual uniformity; and with local enforcement. This plan has much to commend it, except that (1) it might be difficult to enforce the uniform adoption of regulations informally developed, and (2) it is doubtful whether such an arrangement recognizes adequately the general public interest, as represented by the State.

5. The entire matter could be returned to local jurisdiction. This would eliminate conflict with the State by removing the State from

the field entirely. The cure, however, is a little too drastic In the days of widely separated self-contained communities, such an arrangement was logical. Under present conditions, when cities in a metropolitan area are separated only by an imaginary line; when people live, work and congregate in different political jurisdicitions; and when food is processed, shipped and served over a wide area, the considerable interest of the State in this field cannot be denied

6. There might be a clear division of responsibility by vesting all law and rule making authority in the State, and reserving all enforcement to the local governments. As stated, the principal objection to this plan is that uniform state regulation would be too rigid to apply equitably in all parts of the State, and the subsequent strain on local enforcement agencies, coupled with a lack of supervision over local enforcement, would soon bring chaos back in but a different form.

7. The State might adopt and enforce uniform regulations, with the provision that any city could exempt itself from state regulations by adopting equivalent standards.

8. A plan which has been offered to reconcile most of the difficulties and objections would be one providing for a coordinated authority to make regulations, probably at the state level, with local boards of appeal authorized to make local exceptions within limits, and with enforcement at the local level, subject to standards set by the rule-making authority.

We believe that a complete clear-cut solution of all the problems is not possible at this time. The point that needs clarification first—and the one most directly a proper field of action by this Legislation—is to clarify the state regulations in this field In our hearings we raised repeatedly the question of whether a new state agency should be established to codify and coordinate state regulations in this field; and whether the State should regulate by law or by administrative regulation The consensus of opinion given us is that codification of state regulations should be under legislative supervision, but that resulting regulations should be promulgated administratively. The Committee concurs in those views, and therefore offers the following recommendations:

RECOMMENDATIONS

Your committee recommends:

1. That the first step in resolving conflicts in building regulations be the codification of state regulations on this subject.

2. That the task of codification be carried on under the jurisdiction of the Interim Committee on Governmental Efficiency and Economy.

3. That the committee be authorized to engage staff and utilize advisory committees representing the public officials and industries and professions engaged in building.

4. That the committee be instructed to do these things:

a. Recommend a codification of all existing state regulations governing building.

b. Propose changes in legislation or regulation needed to eliminate conflicts which become apparent as codification proceeds.

c. Prepare a definition of the proper extent of the State's interest in this field.

d. Propose changes in state organization necessary to provide better direction and coordination of the State's proper interests in this field.

5. That the Legislature endorse the Uniform Building Code and encourage local governments to adopt it with a minimum of variations, and to keep current with revisions in the Code.

Your committee will sponsor resolutions to give effect to these recommendations.

APPENDIX B

House Resolution No. 000

A resolution encouraging the adoption of uniform local building regulations

WHEREAS, The Assembly Interim Committee on Governmental Efficiency and Economy has reported serious conflicts in state and local building regulations; and

WHEREAS, It appears that part of this conflict results from lack of uniformity caused by failure to adopt a Uniform Building Code, or from variations included at the time of adoption of the code, or from failure to adopt subsequent revisions; and

WHEREAS, This Legislature respects the autonomy of local government on this subject, yet sees the advantages of uniform building regulation; and

WHEREAS, Representatives of local governments, through the Pacific Coast Conference of Building Officials, have developed a Uniform Building Code; now, therefore, be it

Resolved,

1. That this Legislature urges upon each local government the importance of adopting as nearly uniform building regulations as possible, as a measure of public convenience and economy.

2. That this Legislature recommends to the governing body of each local government that the Uniform Building Code be adopted with a minimum of local modification; and that revision of the code be enacted as published.

3. That copies of this resolution be sent to the clerk of each local government.

Explanation of Vote on Assembly Bill No. 1144

Had I had in my binder the correctly amended bill, as amended May 17, 1951, I should have voted "AYE." The bill in my binder was the one as amended May 3, 1951, which contained in my estimation a very improper provision. This latter was amended out by the latest amendment.

CONSIDERATION OF SENATE BILL NO. 987

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Senate Bill No. 987:

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, March 22, 1951

To the Honorable Members of the Assembly
Sacramento, California

GENTLEMEN:

Senate Bill No. 987, "An act to establish a Public Utilities Code, thereby consolidating and revising the law relating to and regulating public utilities and other regulated businesses and matters incidental thereto, the powers and duties of the Public Utilities Commission, local utility franchises, and publicly owned utilities, and repealing certain acts and parts of acts specified herein,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill is a codification by the California Code Commission As such it does not purport to change existing law. However, the Legislative Counsel advises me that it contains a technical appropriation. To facilitate the consideration of bills amending portions of the code as added by this bill it is important that it be acted on early in the session.

I therefore recommend consideration of Senate Bill No 987 as an emergency measure.

Respectfully submitted.

EARL WARREN, Governor

Senate Bill No. 987—An act to establish a Public Utilities Code, thereby consolidating and revising the law relating to and regulating public utilities and other regulated businesses and matters incidental thereto, the powers and duties of the Pubile Utilities Commission, local

Opinion of Legislative Counsel

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 21, 1951

Honorable Arthur W. Coats, Jr.
Assembly Chamber

TREATIES—No. 8652

DEAR MR. COATS:

Question

You have asked the following questions:

1. Could the President and the Senate of the United States through the exercise of the treaty-making power make a fundamental change in the constitutional structure of the Government of the United States; i.e. could they abolish the House of Representatives or suspend the "due process" clause of the 14th Amendment of the Federal Constitution?

2. What is the jurisdiction of the United States Supreme Court with regard to the validity of treaties? Could the Supreme Court, for instance, rule that a treaty directed at the abolition of the House of

Representatives or the suspension of the "due process" clause was unconstitutional and should not be respected either by the Federal or State Governments?

Opinion

It is our opinion that:

1. The President and Senate of the United States could not by treaty make a fundamental change in the constitutional structure of the Government of the United States.

2. The Supreme Court has the power to rule such treaties invalid. However, it is possible that the Supreme Court would refuse to entertain jurisdiction on the ground that the question of the validity of a treaty was political in nature.

Analysis

With respect to the treaty-making powers, the Constitution of the United States declares that the President "shall have Power, by and with the Advice and Consent of the Senate, to make Treaties, provided two thirds of the Senators present concur;"[1] also, that "no State shall enter into any Treaty, Alliance, or Confederation;"[2] and that "no State shall, without the Consent of Congress * * * enter into any Agreement or Compact with another State, or with a foreign Power."[3] It is announced that "This Constitution, and the Laws of the United States which shall be made in Pursuance thereof; and all Treaties made, or which shall be made, under the Authority of the United States, shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any Thing in the Constitution or Laws of any State to the Contrary notwithstanding."[4]

The extent of the treaty-making power in the United States has never been clearly defined. As the language of the Constitution in this respect is general, any limitations now existing in the treaty-making power have developed by means of judicial interpretation.

In *Doe, ex. dem Clark* vs. *Braden* (1853), 16 How, 635, the United States Supreme Court held that no court may annul or disregard any of the provisions of a treaty unless they violate the Constitution of the United States.

In *De Geofroy* vs. *Riggs* (1890), 133 U.S. 258, 267, Justice Field defined the power as follows:

> "The treaty power, as expressed in the Constitution, is in terms unlimited except by those restraints which are found in that instrument against the actions of the government or of its departments, and those arising from the nature of the government itself and that of the States. It would not be contended that it extends so far as to authorize what the Constitution forbids, or a change in the character of the government or in that of one of the States, or a cession of any portion of the territory of the latter, without its consent . . . But with these exceptions, it is not perceived that there is any limit to the questions which can be adjusted touching any matter which is properly the subject of negotiation with a foreign country."

[1] Art II, Section 2, paragraph 2
[2] Art I, Section 10, paragraph 1.
[3] Art. I, Section 10, paragraph 3.
[4] Art. VI, paragraph 2

(See also *Cherokee Tobacco* vs *United States* (1870), 11 Wall. 616, 620; *Holden* vs. *Joy* (1871), 17 Wall. 211, 243; *Asakura* vs. *Seattle* (1924), 265 U S. 332, 341.)

In view of the above cases, we are of the opinion that a treaty to make a fundamental change in the constitutional structure of the government would be invalid.

Whether the Supreme Court of the United States would entertain jurisdiction to hold such a treaty invalid is a more difficult question.

In this connection, it is interesting to note that the Supreme Court has never expressly declared a treaty invalid, although a lower Federal court has stated:

> "While this court is of the opinion that the power to declare treaties void, if clearly violative of some provision of the Constitution or for reason mentioned in *Geofroy* vs. *Riggs* exists, it should, in the language of Mr. Justice Chase, in *Ware* vs. *Hylton*, 'never be exercised but in a very clear case indeed.'" (*United States* vs. *Thompson* (1919), 258 Fed. 257, 268.)

Nevertheless, the United States Supreme Court has recently cast some doubt on its ability to declare a treaty invalid, and it is possible that it may now refuse to do so on the ground that such a decision would involve a political question beyond its jurisdiction to decide. (*United States* vs. *Curtiss-Wright Export Corp.* (1936), 299 U. S. 304 See also *United States* vs. *Reid* (1934), 73 F. (2d) 153.)

Very truly yours,

RALPH N KLEPS, Legislative Counsel
By DELBERT E. WONG, Deputy

On page 1 of said bill, strike out lines 1 to 10, inclusive, and insert

"SECTION 1. Section 20345.5 is added to said code, to read:

20345.5. A student body organization may be established at any state college under the supervision of the college officials for the purpose of providing essential activities closely related to, but not normally included as a part of, the regular instructional program of the college. The activities conducted by such an organization shall be designed to contribute to the development of skill and facility in human relations, the development of leadership ability, and the recreational and social needs of students. The activities may include but shall not be limited to the operation of campus publications, musical organizations, speech and dramatics activities, student government activities, intramural and intercollegiate sports, and the sponsorship of clubs and organizations which are designed for students specializing in various major subject matter areas offered by the college. Such an organization may also operate a campus store, a cafeteria, and other projects not inconsistent with the purposes of the college.

Notwithstanding any provisions of law to the contrary, if a student body organization is established at any state college and upon the favorable vote of two-thirds of the students voting in an election held for this purpose, in such manner as the Director of Education shall prescribe, and open to all regular students enrolled in such college, the State Director of Education shall fix a membership fee which shall be required of all regular students attending such college. This required fee may be subject to referendum at any time upon the presentation of a petition to the president of the college containing the signatures of 35 percent of the regularly enrolled students at such college. A successful referendum shall take effect with the beginning of the academic year following that in which the election was held. The director may also fix student body organization membership fees for limited and summer session students attending such college. Such fees shall not be charged to students registering solely in extension classes offered by the college. Each state college student shall pay the required membership fee as a prerequisite to enrollment in the college. No student shall be required to pay student body membership fees in an aggregate amount exceeding twenty dollars ($20) annually. The provisions of this section shall apply to any vote held during the spring semester of the 1950-51 school year.

SEC. 2. Section 20345.6 is added to said code, to read:

20345.6. Notwithstanding any provision of law to the contrary, student body organization membership fees authorized under the provisions of Section 20345.5 hereof shall be collected by the officials of the college, together with all tuition and material and service fees, at the time of registration. Moneys collected on behalf of student body organizations shall be transmitted by the business manager to the student body treasurer and such moneys may be deposited by said treasurer in local bank accounts under the jurisdiction of the student body organization.

All moneys received by a state college from any agency of the State or Federal Government for the payment of student body organizations membership fees of students attending the college shall be in a like manner transmitted by the business manager to the treasurer of the student body organization and deposited in local bank accounts as provided above.

SEC. 3. Section 20345.7 is added to said code, to read:

20345.7. All moneys collected by a state college on behalf of a student body organization under the provisions of this article shall be available for such purposes of the student body organization as are approved by the State Director of Education. These funds may be drawn against by the appropriate officers of the student body organization for expenditures necessary to carry out the purpose of the organization.

SEC. 4. Section 20345.8 is added to said code, to read:

20345.8. Any student whose financial need is reasonably demonstrated to the dean of student personnel of such college shall either be refunded the amount of the membership fee from the student welfare fund or, at the discretion of such dean, shall be given the opportunity to work off this sum at the prevailing student rate of such college.

SEC. 5. This act shall be in operation on September 1, 1951.

SEC. 6. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Unless student body organization fees are required by a college, the veteran student does not receive the amount of the fees in the education aid which the Federal Government extends to veterans. There are many veterans enrolled in state colleges who are financially unable to pay such fees unless the amount is included in the federal aid; if this act is adopted the Federal Government will pay the fees for such student veterans. Under the existing law, many state colleges will find it necessary to discontinue the student activities which are supported by student body organization fees and which are a necessary and integral part of an adequate program for college education. In order to enable the state colleges to continue the offering of student activities at the commencement of the fall term, it is therefore necessary that this act take effect immediately."

(b) Any person holding a valid, unrevoked, properly registered certificate or license to practice chiropractic in this State, issued prior to the effective date of this act, who upon submission of satisfactory evidence of having completed a course in minor surgery of not less than 160 hours, and a course in pharmacology including materia medica and toxicology of not less than 160 hours, taken in an approved school, shall be permitted to apply for examination in said subjects upon enactment of this measure, and if successful in passing examinations, shall be issued a chiropractic physician's certificate immediately without being examined in any other subjects.

(e) The practice of chiropractic includes the study and use of any and all means, methods, preparations and substances, physical, chemical, including pharmaceutical, biological, minor surgical or ambulant surgical, mental or other in or upon human beings in the analysis, correction, and care, which terms, for the purposes of this act, shall encompass such terms as "diagnosis," and "treatment," of those disorders of body structure and function commonly referred to as "diseases," "ailments," "deformities," "blemishes," "disfigurements," and all other physical and mental conditions resulting from any and all causes including trauma.

The record of such revocation so made by said county clerk shall be prima facie evidence of the fact thereof, and of the regularity of all proceedings of said board in the matter of said revocation.

(b) At any time after two years following the revocation or cancellation of a license or registration under this section, the board may, by a majority vote, reissue said license to the person affected, restoring him to, or conferring on him all the rights and privileges granted by his original license or certificate. "SEC. 2. Section 29.1 is added to said act to read:

Sec. 29.1. The agency may in any year during which it owns property in a redevelopment project pay to any city, county, city and county, district or other public corporation which would have levied a tax upon such property had it not been exempt, an amount of money in lieu of taxes.

SEC. 3. Section 29.2 is added to said act to read:

Sec. 29.2. Any redevelopment plan may contain a provision that taxes, if any, levied upon taxable property in a redevelopment project each year by or for the benefit of the State of California, any city, county, city and county, district, or other public corporation (hereinafter sometimes called "taxing agencies") after the effective date of the ordinance approving the redevelopment plan, shall be divided as follows:

(1) that portion of the taxes which would be produced by the rate upon which the tax is levied each year by or for each of said taxing agencies upon the total sum of the assessed value of the taxable property in the redevelopment project as shown upon the assessment roll used in connection with the taxation of such property by such taxing agency, last equalized prior to the effective date of such ordinance, shall be allocated to and when collected shall be paid into the funds of the respective taxing agencies as taxes by or for said taxing agencies on all other property are paid (for the purpose of allocating taxes levied by or for any taxing agency or agencies which did not include the territory in a redevelopment project on the effective date of such ordinance but to which such territory has been annexed or otherwise included after such effective date, the assessment roll of the county last equalized on the effective date of said ordinance shall be used in determining the assessed valuation of the taxable property in the project on said effective date); and

(2) that portion of said levied taxes each year in excess of such amount shall be allocated to and when collected shall be paid into a special fund of the redevelopment agency to pay the principal of and interest on loans, moneys advanced to, or indebtedness (whether funded, refunded, assumed, or otherwise) incurred by such redevelopment agency to finance or refinance, in whole or in part, such redevelopment project.

Unless and until the total assessed valuation of the taxable property in a redevelopment project exceeds the total assessed value of the taxable property in such project as shown by the last equalized assessment roll referred to in paragraph numbered (1) hereof, all of the taxes levied and collected upon the taxable property in such redevelopment project shall be paid into the funds of the respective taxing agencies. When said loans, advances, and indebtedness, if any, and interest thereon, have been paid, all moneys thereafter received from taxes upon the taxable property in such redevelopment project shall be paid into the funds of the respective taxing agencies as taxes on all other property are paid.

In any redevelopment plan or in the proceedings for the advance of moneys, or making of loans, or the incurring of any indebtedness (whether funded, refunded, assumed, or otherwise) by the redevelopment agency to finance or refinance, in whole or in part, the redevelopment project, the portion of taxes mentioned in paragraph numbered (2) hereof may be irrevocably pledged for the payment of the principal of and interest on said loans, advances, or indebtedness.

As used in this section the word "taxes" shall include, but without limitation, all levies on an ad valorem basis upon land or real property.

Whenever property in any redevelopment project has been redeveloped and thereafter is leased by the redevelopment agency to any person or persons or whenever the agency leases real property in any redevelopment project to any person or persons for redevelopment, the property shall be assessed and taxed in the same manner as privately owned property, and the lease or contract shall provide that the lessee shall pay taxes upon the assessed value of the entire property and not merely upon the assessed value of his or its leasehold interest.

This section shall become operative only if the people approve the constitutional amendment of the 1951 Regular Session of the Legislature adding Section 19 to Article XIII of the Constitution of the State and in such case at the same time as such constitutional amendment takes effect.

SEC. 4. Section 78 of said act is amended to read:

SEC. 78. An agency shall have power to issue bonds from time to time in its discretion, for any of its corporate purposes. An agency shall also have power to issue refunding bonds for the purpose of paying or retiring bonds previously issued by it. An agency may issue such types of bonds as it may determine, including bonds on which the principal and interest are payable: (a) exclusively from the income and revenues of the redevelopment projects financed with the proceeds of such bonds, or with such proceeds together with financial assistance from the State or Federal Governments in aid of such projects; (b) exclusively from the income and revenues of certain designated redevelopment projects whether or not they were financed in whole or in part with the proceeds of such bonds; *(c) in whole or in part from taxes allocated to, and paid into a special fund of, the agency pursuant to the provisions of Section 29.2 hereof.* [(c)] *(d)* from its revenues generally; [(d)] *(e)* from any contributions or other financial assistance from the State or Federal Governments; or [(e)] *(f)* by any combination of these methods. Any of such bonds may be additionally secured by a pledge of any revenues or by an encumbrance (whether by mortgage, deed of trust or otherwise) of any redevelopment project, projects or other property of the agency *or by a pledge of the taxes referred to in (c) above, or by any combination thereof.*

Neither the members of an agency nor any person executing the bonds shall be liable personally on the bonds by reason of the issuance thereof. The bonds and other obligations of any agency (and such bonds and obligations shall so state on their face) shall not be a debt of the community, the State or any political subdivision thereof and neither the community, nor the State or any political subdivision thereof shall be liable thereon, nor in any event shall such bonds or obligations be payable out of any funds or properties other than those of said agency. The bonds shall not constitute an indebtedness within the meaning of any constitutional or statutory debt limitation or restriction.

SEC. 5. Section 33279 is added to the Health and Safety Code to read:

33279. The agency may in any year during which it owns property in a redevelopment project pay to any city, county, city and county, district or other public corporation which would have levied a tax upon such property had it not been exempt, an amount of money in lieu of taxes.

SEC. 6. Section 33882 of said code is amended to read:

33882. Except as otherwise provided in this part, any general obligation bonds issued by any community pursuant to this article shall be authorized and issued in the manner and within the limitations prescribed by law or the charter of the community for the issuance and authorization of such bonds for public purposes generally. Irrespective of any limitation as to the amount of general obligation bonds which may be issued, a community may issue such bonds for the purposes prescribed in this article, in excess of the limitation, in such amount as may be authorized [by an ordinance submitted to and approved] by the voters of the community at any general or special election.

SEC. 7. Section 33911 of said code is amended to read:

33911. An agency may issue such types of bonds as it may determine, including bonds on which the principal and interest are payable.

(a) Exclusively from the income and revenues of the redevelopment projects financed with the proceeds of the bonds, or with such proceeds together with financial assistance from the State or Federal Government in aid of the projects.

(b) Exclusively from the income and revenues of certain designated redevelopment projects whether or not they were financed in whole or in part with the proceeds of the bonds

(c) In whole or in part from taxes allocated to, and paid into a special fund of, the agency pursuant to the provisions of Article 4 of this chapter.

[(c)] *(d)* From its revenues generally.

[(d)] *(e)* From any contributions or other financial assistance from the State or Federal Government.

[(e)] *(f)* By any combination of these methods.

SEC. 8. Section 33912 of said code is amended to read:

33912. Any of such bonds may be additionally secured by a pledge of any revenues or by an encumbrance by mortgage, deed of trust, or otherwise of any redevelopment project or other property of the agency *or by a pledge of the taxes referred to in subdivision (C) of Section 33911, or by any combination thereof.*

ANNOUNCEMENT

Speaker Sam L Collins announced that a new sex crime has stressed the necessity for every legislative safeguard and for a further full investigation of sex crime problems by the Legislature. He also announced

that he recently requested an opinion from every district attorney in the State of how best to approach this serious problem; and asked for, and was granted, unanimous consent that the following telegrams and letter be ordered printed in the Journal, in 10 point type, as follows:

WEAVERVILLE, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker
California Assembly, Sacramento

Longer sentences with less chances for parole.

STENNETT M. SHEPPARD, District Attorney

SACRAMENTO, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker
California Assembly
State Capitol, Sacramento, California

Present laws for punishment of sex offender are adequate if strictly applied and enforced.

J. FRANCIS O'SHEA, District Attorney

SAN RAFAEL, CALIFORNIA, May 24, 1951

Sam L Collins, Speaker
California Assembly
State Capitol, Sacramento, California

No particular recommendation to strengthen laws for punishment for sex offenders. Commend Legislature for action in securing further medical data concerning prevention and treatment.

R. M. SIMS, JR., District Attorney

EL CENTRO, CALIFORNIA, May 24, 1951

Hon. Sam L. Collins
Speaker of California
Assembly, Sacramento, California

I believe sex offenders are rarely rehabilitated either by jail or prison sentences or probation or parole because such persons are either subnormal mentally or senile or abnormal sexually, and it seems more of a medical problem with possible surgical operations indicated as a solution. We have several times committed men of varying ages to jail or prison and, after either short or long terms, they returned and performed same or similar sexual offenses. My recommendations for penalties are much tighter restrictions on probation and parole with surgical operations where recommended by a medical board. Also death penalty for second offenders when minors under 14 are victims. Senile defendants should get life without parole. These suggestions based on long experience as prosecutor and our belief that sex offenders should be permanently removed from society. I would be glad to furnish you digests of some of our recent cases in support of the ideas set forth.

DON C. BITLER, District Attorney
Imperial County

INDEPENDENCE, CALIFORNIA, May 24, 1951

Hon. Sam L. Collins, Speaker
California Assembly, State Capitol Building
Sacramento, California

Re your telegram, I believe as to sex offenders that enforcement of present law is all that is necessary.

JOHN P. McMURRAY
District Attorney, Inyo County

BRIDGEPORT, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker of the Assembly
State Capitol, Sacramento, California

Believe committee comprised of law enforcement and science should analyze sex offenses. Seriousness and complexity of problem defy hasty and unscientific solution.

VERNE SUMMERS
District Attorney, Mono County

UKIAH, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker California Assembly
State Capitol, Sacramento, California

Believe that present laws regarding sex offenders are adequate, excepting Section 5501, Welfare and Institutions Code should be amended to permit charge of sexual psychopathy before adjudication on other criminal charge.

JAMES E. BUSCH
District Attorney
Mendocino County

SALINAS, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker
California Assembly

Believe present laws regarding sex offenders adequate as to punishment if judicious use of kidnapping statutes is made.

BURR SCOTT, District Attorney
Monterey County, Salinas

SANTA ANA, CALIFORNIA, May 24, 1951

Hon. Sam L. Collins
Speaker, California Assembly
State Capitol, Sacramento, California

Telegram May 23rd received. My belief laws for punishment of sex offenders are now sufficient. Under Section 288 Penal Code, sex offenders may be given life imprisonment. What California needs is jurors with sufficient courage and backbone to enforce our present sex laws when violations are presented to them.

JAMES L. DAVIS
District Attorney of Orange County

AUBURN, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker
California Assembly
State Capitol, Sacramento, California

Re telegram 23-5-51 sex offenders. It has been the experience of this office in the prosecution of sex crimes that by far the greater majority involved are second or more offenders, and it is strictly believed that the minimum sentences should be sufficiently increased so that first offenders are not released on society until it is absolutely assured that they are either cured or will no longer be a menace thereto. In addition, after release on a parole or otherwise, they should be placed on absolute and strict supervision for such an additional period as to assure their adjustment to society, and assure that any propensities toward the commission of sex offenses are not revived.

AL B. BROYER
District Attorney, Placer County

YREKA, CALIFORNIA, May 24, 1951

Sam L. Collins
Speaker of California Assembly
State Capitol, Sacramento, California

Suggest serious sex offenders be punished as other criminals. Separate confinement, no benefit of parole.

FLOYD MERRILL
District Attorney, Siskiyou County

SAN FRANCISCO, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker
California Assembly

I am in favor of strengthening laws for punishment of sex offenders in some instances. RAYMOND A. LEONARD
District Attorney, Butte County

HANFORD, CALIFORNIA, May 24, 1951

Honorable Sam L. Collins, Speaker

Recommend violation Penal Code Section 290 (registration of sex offenders) be made felony; add Section 311a to Penal Code to provide:

Every person who wilfully and lewdly exposes his person or private parts thereof to a child under the age of 14 years shall be guilty of a felony

A. HUGO PEARSON
District Attorney, Kings County

VENTURA, CALIFORNIA, May 24, 1951

Sam L. Collins
State Capitol, Sacramento, California

I believe that there would be less concern about punishment of sex offenders if persons with such tendencies were confined in institutions and treated as medical and psychological cases upon first detection of symptoms regardless of how minor or insignificant first act may seem. Legislature should recognize that persons who are mentally ill, mentally deficient, alcoholics, narcotic victims, and sex offenders, should be isolated and treated for physical and mental condition rather than for some particular act committed by them. Commitment and length of confinement should not depend on severity of act which brought the condition to attention. Institutionalization of all such persons should be by court on expert testimony with no jury trial allowed. Confinement should be indefinite with power of discharge or parole in hands of competent medical authorities. That plan would remove a potentially dangerous sex offender before his condition gets so bad that he commits a violent crime arousing public opinion. Even maximum punishment then comes too late.

ROY A. GUSTAFSON
District Attorney, Ventura County

MODESTO, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker
California Assembly
State Capitol, Sacramento, California

Re your telegram re sex offenders. Believe present punishment adequate if laws enforced. Biggest problem in this type of offense is to overcome reluctance of victims and parents of victims to prosecute. This due

to publicity and possibility of public trial. Realize serious constitutional questions involved in any law or procedure remedying this, but would have extremely beneficial results.

T. W. MARTZ
District Attorney, Stanislaus County

RIVERSIDE, CALIFORNIA, May 24, 1951

Sam L. Collins
State Capitol, Sacramento, California

Replying to your wire re sex offenders, punishment should be one year to life. Probation and suspended sentences prohibited. Failure on part of any peace officer or any other person to file charge involving sex offense made a crime, as well as filing reduced charge. No person should be released on parole after conviction of a sex crime offense without proof from three physchiatrists all concurring that prisoner no longer inclined toward sex offenses. Another method is to provide for separate institutions for sex offenders staffed with trained psychiatrists who would not be authorized to grant releases or paroles unless cure effected, and a requirement that all sex offenders either misdemeanants or felons be committed thereto. Do away with present red tape on court procedure.

WILLIAM O. MACKEY
District Attorney, Riverside County

SAN LUIS OBISPO, CALIFORNIA, May 24, 1951

Received your wire May 23d. Suggest eliminate parole for sex offenders.

Recommendations strengthening law re sex offenders. Amend Section 209, Penal Code, to include forcible rape and violation of Section 288 P.C. Also recommend amending Section 5047 Welfare and Institutions Code so as to permit a verified petition to be filed against sexual psychopathics as defined by Section 5500 same code, and thus subject these individuals to commitment to appropriate institution and treatment as in mental cases Recommend amending 5501 same code so as to eliminate condition that a sexual psychopath must first be convicted of a criminal offense before proceedings can be initiated. Provide foregoing suggested amendment should not be made available to the sexual psychopath as a substitute for or a means of avoiding any prosecution on any applicable criminal statute Air mail letter follows.

S. ERNEST ROLL, District Attorney

COUNTY OF LOS ANGELES
OFFICE OF THE DISTRICT ATTORNEY
HALL OF JUSTICE, LOS ANGELES, May 24, 1951

Hon. Sam L. Collins, Speaker
California Assembly
State Capitol, Sacramento, California

DEAR SAM: Further answering your telegram as of today concerning proposed legislation for the strengthening of sex laws, may I suggest the following for your consideration:

1. Amend Section 209 of the Penal Code to include in addition to the matters therein contained, kidnapping for the purpose of forcible rape and kidnapping for the purpose of violation of Section 288 of the Penal Code.

I have discussed these proposals with other men in our office and with Superior Court Judge Charles Fricke, and they all concur in these suggestions.

2. Amend Section 5047, Welfare and Institutions Code, and other applicable sections, so as to permit a verified petition to be filed against sexual psychopaths as defined by Section 5500 of the same code, and thus subject these individuals to commitment to appropriate institutions and treatment as in mental cases.

3. Amend Section 5501 of the Welfare and Institutions Code so as to eliminate the condition that a sexual psychopath must first be convicted of a criminal offense before proceedings can be initiated to have the individual adjudicated a sexual psychopath.

4. Provide that the foregoing suggested amendments should not be made available to the sexual psychopath as a substitute for or a means of avoiding any prosecution on any applicable criminal statute, but the procedure should be used only in those cases where either no criminal offense or only minor criminal offenses have been committed. The purpose of these amendments should be limited to procedure against sexual psychopaths and their commitment as such before they become involved in serious sexual offenses, the idea being to treat these individuals as mentally ill persons and prevent them from injuring themselves or others because of their tendencies.

There are several reasons for the suggested amendments as mentioned in 2, 3, and 4, and among them you may consider the following:

When a man is insane to the extent that he is a menace to the safety of others, there are procedures to remove him from society until he is determined to be no longer a menace. Certainly we should have a law whereby a person who is perpetually a menace to little children could be removed from society for so long a time as he is a danger to them. The present sexual psychopath act cannot be invoked until an offender has been convicted of a moral offense. That can be too late. In quite a few cases a child-molester can appear to be non-violent for many years, and then suddenly turn into a killer when his victim offers resistance.

5. Recommend amending 647a subsection 1 of the Penal Code to increase the age limit to 18. 647a seriously limits the child molestation cases. Insofar as molestation is concerned, it is now an offense to molest youngsters only under the age of 14, and provides no protection at all

under this provision for youngsters 14 and over Serious consideration should be given to raising the age limit to 18 under this section.

Sincerely yours,

S. ERNEST ROLL
District Attorney

CONSIDERATION OF HOUSE RESOLUTION NO. 148

By Messrs. Beck, Hollibaugh, Rosenthal, Hinckley, Cooke, Shaw, Stanley, Babbage, Tomlinson, Luckel, and Kelly:

House Resolution No. 148

Relating to memorializing the Federal Government to locate regional mobilization offices at Los Angeles

WHEREAS, Optimum efficiency of any agency in constant contact with the population of several localities is attained only by location in the most populous locality, whether or not other areas are in that same jurisdiction; and

WHEREAS, The highest degree of autonomy for finality of decision consistent with national direction, furnished by a regional office, must exist at that location, and

WHEREAS, In the Western States, Los Angeles is the most populous area; the Southern California area contains 42 percent of the population, 46 percent of industrial production, and is performing 70 percent of the present war contracts of the three coastal states; and

WHEREAS, In World War II Los Angeles was the second largest war industry center in the Nation; its rate of increase has been the most phenomenal in the Nation; its retail demand is third nationally; and

WHEREAS, For Los Angeles the closest regional office administering the Defense Mobilization Program is 400 miles away; and

WHEREAS, Unnecessary expenditure of time and funds in travel and phone calls by private citizens and by the government, as in the last war, threatens to result again, unless such a regional office is located in Los Angeles; and

WHEREAS, Such inefficient extension of transportation and communication creates military vulnerability; and

WHEREAS, Regional offices could be established in Los Angeles at the present district offices with a modicum of expense to be saved by the elimination of a step in administration of the program for the most important area in the Western States; now, therefore, be it

Resolved by the Assembly of the State of California, That the President and Administrators of the Defense Mobilization Program be respectfully memorialized to establish a regional office in Los Angeles for the Southern California-Arizona region, and be it further

CONSIDERATION OF DAILY FILE (RESUMED)
THIRD READING OF ASSEMBLY BILLS (RESUMED)

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Assembly Bill No. 3410:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 24, 1951

To the Honorable Members of the Assembly
State of California

GENTLEMEN:

Assembly Bill No. 3410, "An act to amend Sections 19601, 19601.5, 19601.6, 19608, 19611, 19613, and 19613.7 of, to add Sections 19601.7 and 19607.1 to, and to repeal Section 19617 of the Education Code, relating to child care centers, making an appropriation and declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

This bill provides for the continuance of child care centers and makes an appropriation to assist in their operation. It is important that those charged with the responsibility of maintaining these centers should know at the earliest possible moment whether such centers are to be continued in order that they may make the necessary plans for their operation.

I, therefore recommend consideration of Assembly Bill No. 3410 as an emergency measure.

Respectfully submitted.

EARL WARREN, Governor

Assembly Bill No. 3410—An act to amend Sections 19601, 19601.5, 19601.6, 19608, 19611, 19613, and 19613.7 of, to add Sections 19601.7 and 19607.1 to, and to repeal Section 19617 of, the Education Code, relating to child care centers, making an appropriation and declaring the urgency thereof, to take effect immediately.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 25, 1951

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS. I am returning herewith, without my signature,

Assembly Bill No. 1742, entitled "An act to validate the organization, boundaries, acts, proceedings and bonds of public bodies, as herein defined."

My objections to this bill are as follows:

For some years it has been customary for the Legislature to enact at least two validating measures which are identical except that one carries an urgency clause. Such action was taken this year. However, this measure, which is the validating act without the urgency clause, was amended in the Senate. By the amendment to Section 8 it is made to speak as of the time of signing rather than as of its effective date

I am advised by attorneys specializing in the field that this amendment gives this bill the same effect as Assembly Bill No. 1743 carrying the urgency clause. There is no necessity of approving both bills as they accomplish the same thing.

At the request of attorneys interested in the matter, and with the consent of the author, I am approving Assembly Bill No. 1743 and returning this bill without my approval.

Respectfully submitted.

EARL WARREN, Governor

Acknowledgment of Receipt of Assembly Bill No. 1742

May 25, 1951

I acknowledge receipt this twenty-fifth day of May, 1951, at 12 25 o'clock p m, of Assembly Bill No 1742, without the Governor's signature, together with a statement of his objections thereto signed by the Governor, delivered to me personally by Beach Vasey, Legislative Secretary to the Governor.

CONSIDERATION OF GOVERNOR'S VETO

Assembly Bill No. 1742—An act to validate the organization, boundaries, acts, proceedings and bonds of public bodies, as herein defined.

Governor's message stating his objections read.

The question being: Shall Assembly Bill No. 1742 become a law notwithstanding the objections of the Governor?

The roll was called, and the Assembly sustained the objections of the Governor by the following vote:

AYES—None.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 25, 1951

To the Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 479, entitled: "An act to repeal Section 170.5 of and to add Section 170.5 to the Code of Civil Procedure, relating to disqualification of judges."

My objections to the bill are as follows:

I cannot believe that this bill is either essential or desirable for the administration of justice. There is a proceeding now available to any litigant who believes that a judge is prejudiced against his client. In that proceeding the judge has an opportunity to answer the charge, and the fact is determined by a disinterested judge. This bill provides that "No judge of any superior, municipal, justice or other inferior court of the State of California shall hear or try any action or proceeding when it shall be established as hereinafter provided that such judge is prejudiced against any party or attorney or the interest of any party or attorney appearing in such action or proceeding."

It then provides that the fact of prejudice will be established merely by the written or oral motion of counsel without notice supported by "affidavit that the judge before whom the action or proceeding is pending * * * is prejudiced * * * so that such party or attorney cannot or believes that he cannot have a fair and impartial trial before such judge."

There is no opportunity provided for the judge to disprove or even controvert the affidavit regardless of how scurrilous or libelous it may be concerning him. He would be automatically adjudged by law to be guilty of the facts charged and therefore unfit to discharge his judicial duty in the case.

This, it seems to me, can be used and I have no doubt would be used in instances to discredit a judge where no reasonable grounds exist. In such cases it would result in disgrace to the judge and discredit to the court. The bill provides that the motion of prejudice can be made at any time before the first juror is drawn in a jury case or before the first witness is sworn in, in a non-jury case which would make it a powerful instrument for delay in the trial of cases.

In counties that have one judge, the bill would give any recalcitrant lawyer the right to permanently disqualify from service, in any case in which such lawyer appears, the judge who had been elected by the people because of their confidence in him. I believe that it would be extremely detrimental to the orderly administration of justice.

The Chief Justice has expressed the view that the bill is undesirable in the following language:

"In my opinion, a procedure permitting peremptory disqualification of any judge upon the mere filing of an affidavit is undesirable. Section 170 of the Code of Civil Procedure establishes an adequate and fair method for disqualifying any justice, judge or justice of the peace on the grounds of bias and prejudice, among others, and provides that the hearing of such charge shall be before another judge."

Other judges have also pointed out to me the undesirability of the bill.

Respectfully submitted.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 25, 1951

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS. I am returning herewith, without my signature,

Assembly Bill No. 1317, entitled "An act to amend Sections 16430 and 16434 of the Education Code, relating to school safety patrols."

My reasons for objecting to this bill are as follows.

This bill provides that school pupils who are members of school safety patrols may assist pupils in crossing streets at school bus stops and may for that purpose ride school busses to such stops I have been asked to veto this bill by the Superintendent of Public Instruction, the Commissioner of the State Highway Patrol, the California Teachers Association and the California Congress of Parents and Teachers.

The Superintendent of Public Instruction points out that under the sections of the California Administrative Code on the subject, adopted by the State Board of Education, it is provided that when a school bus stops at a point where the traffic is not controlled and is discharging pupils who must cross a street or highway the bus shall not be moved until all the pupils have crossed the street or highway. The driver of the bus must not permit the pupils to cross the street or highway until they may safely do so and shall, if necessary, escort such pupils across the street or highway He reports that experience has shown that school bus drivers while performing their obligation under this section are often seriously injured. The task of directing traffic and protecting lives of pupils while they cross busy streets and highways requires the attention of adults rather than that of pupils.

The Commissioner of the State Highway Patrol reports that it is not good practice to place the control of high-speed traffic on children.

The California Teachers Association in objecting to the bill states that the use of children in traffic control in the areas immediately adjacent to schools is reasonably safe, because speed limits are posted and maintained in school zones and supervisory personnel is available. Such is not the case at points along the highway, where traffic travels at extremely high speeds and no warning signs exist. The presence of safety patrol members at such locations would serve only to give children traveling on school busses a false sense of security and protection which the facts would not warrant

The California Congress of Parents and Teachers recommends that the bill be not signed because of the hazards and liabilities that would be involved in permitting members of school traffic patrols to ride busses and direct traffic as children get off the busses The Congress has reluctantly approved any school traffic patrol control of traffic near schools and adjoining schoolgrounds. They believe the responsibility for traffic patrol belongs to the police and highway patrol and not to school districts or school pupils

This session of the Legislature has made one provision which will be of great assistance in connection with this problem. I refer to Assembly Bill No 1701, which is now Chapter 414, Statutes of 1951, and which provides for flashing red lights on school busses to be operated when the busses are receiving or discharging passengers. All motorists are required to stop when busses are receiving or discharging passengers and are flashing the warning red light required by this bill

Because of the hazard to the pupils involved, as pointed out by the officers and organizations to which I have referred, I am returning this bill without my signature.

Respectfully submitted.

RESOLUTIONS

The following resolution was offered:

By Mr. Kilpatrick:

House Resolution No. 160

Relative to authorizing an investigation as to the background of State Senator Jack B Tenney by the Assembly Judiciary Committee

WHEREAS, Information has been disclosed which raises questions as to the loyalty and the background of Senator Jack B Tenney who has recently raised questions regarding the author of this resolution and other Members of the Assembly and Senate; and

WHEREAS, It appears that there are several references to Jack Tenney in the published records of the hearings of the Un-American Activities Committee of the United States Congress for the years 1938-1941, of which the Honorable Martin Dies was chairman, including an affidavit signed by Arthur James Kent, a self-admitted Communist, who declared that Jack Tenney was a card-carrying member of the Communist Party, the naming of Jack Tenney as a member of the American League for Peace and Democracy, a Communist front organization, and the listing of Jack Tenney as a sponsor on the letterhead of the Friends of the Abraham Lincoln Brigade, another Communist front organization (pages 2084, 6278, and 7728-9); and

WHEREAS, In the Communist newspaper, the *People's World*, of February 2, 1939, a two-column cut picture of Jack Tenney and another person is printed, and the caption below the picture states "Two men in Sacramento who appreciate the *People's World's* efforts in behalf of progressive legislation. Said Tenney, '*The People's World* is the only paper in California that reports labor news unvarnished, untarnished and undiluted.'"; and

WHEREAS, It would appear from the foregoing that Senator Jack Tenney may not be properly qualified to make charges questioning the degree of Americanism of his fellows until these activities of his be clarified; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Judiciary Committee is authorized and directed to investigate and report to the Assembly regarding these alleged subversive activities of Senator Jack B Tenney

Opinion of Legislative Counsel

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 21, 1951

Honorable Stanford C. Shaw
Assembly Chamber

ASSEMBLY BILL 2366—No. 8328

DEAR MR. SHAW:

Question

You have asked for our opinion as to the constitutionality of Assembly Bill No. 2366, as amended in Assembly May 18, 1951.

Opinion

While any opinion in the field covered by this bill is, to a certain extent, speculative, we are inclined to believe that the bill, if enacted, would be upheld.

Analysis

The bill contains certain legislative findings and declarations which in effect set out that recent history shows there is a world-wide movement to establish a totalitarian dictatorship which has resulted in the overthrow of legally constituted governments aided by the treachery of totalitarian organizations within the country involved. The bill declares that such totalitarian organizations exist in this State and through treachery and specified activities, including infiltration into key positions in government and defense industries, will interfere with the military and civil defense of the Nation and of this State.

In order to meet this evil the bill would create a commission charged with the duty of ascertaining whether any member of a totalitarian organization, as defined in the act, "knowingly acts to bring about the establishment of a totalitarian government as defined in the act." The commission is charged with the duty of requiring "registration by such persons at such time and place and on such forms as the commission may determine."

The bill provides for notice to the person affected by the commission's initial determination that he should register, and affords him a hearing before the commission and a judicial review of the commission's final determination that as a person you should be required to register. It is not until the person affected has failed to seek judicial review, or until such determination of the commission is affirmed by the court, that any penalty attaches for failure to register.

It would appear that any attack upon the bill would be grounded upon the following arguments:

1. That the bill constitutes an attempt for state regulation in the field of foreign affairs, which is exclusively reserved to the Federal Government (*United States* vs. *Pink*, (1942) 315 U. S. 203).

2. That the bill constitutes state legislation in a field completely occupied by federal legislation, and therefore violates Section 2 of Article VI of the United States Constitution.

3. That, as a criminal statute, the bill is too uncertain to meet the requirements of the due process clause of the Fourteenth Amendment to the Federal Constitution.

4. That the bill violates the equal protection clause of the Fourteenth Amendment to the United States Constitution.

5. That the bill infringes on the right of free speech or assembly guaranteed by the First Amendment and made applicable to the states by the Fourteenth Amendment of the United States Constitution.

We do not believe that the first ground of attack set forth above is valid The obvious purpose of the bill is to prevent sabotage and similar acts within the State of California and the bill would appear to have no impact upon foreign or international affairs. Unlike the statute declared void upon this ground in *Hines* vs. *Davidowitz* (1941) 312 U S. 52, the bill does not single out aliens for registration but applies with equal force to all persons within the State In the *Davidowitz* case (supra) the court pointed out for example that: "Experience has shown that international controversies of the gravest moment, sometimes even leading to war, may

arise from real or imagined wrongs to anothers subjects inflicted, or permitted, by a government." A state requirement that aliens be registered and carry registration cards might cause such trouble and affect foreign affairs, but it is difficult to see how a state statute requiring registration of subversive organizations can be open to the same comment.

With respect to the second ground set forth above, there is no question but that the bill operates in the same field as that covered by the Federal Subversive Activities Control Act of 1950. That act provides for the registration of Communist-action and Communist-front organizations and it further provides for the registration of certain members of such organizations.

Both the federal statute cited and the bill in question would result in the registration of certain individuals, but we can see no basis for a conclusion that registration by the State would interfere with the operation of the federal statute. There is nothing in the text of the federal statute which would clearly indicate an intent on the part of Congress to exclude the states from regulating in the same field. In the absence of such an intent nonconflicting regulations adopted by the states under their police powers are not invalid. (*Allen-Bradley Local* vs. *Wisconsin Employment Relations Board*, 315 U.S. 740)

With respect to the third ground of attack set forth above, it should be noted that the only crime defined is for a person to refuse to register after he has been found by the commission to be a member of a totalitarian organization who has knowingly acted to bring about the establishment of a totalitarian dictatorship. In other words, the crime constitutes failure to register after notification that the person affected should register. We do not believe therefore that the statute could be invalidated on this ground.

As to the fourth ground mentioned above, it is well established that the equal protection clause of the Fourteenth Amendment does not prevent the states from enacting class legislation provided there is a reasonable basis for the classification. (*Thompson* vs. *Kentucky*, 209 U. S. 340) It is true that the bill singles out only those persons who are members of totalitarian organizations *and* who have knowingly acted to bring about the establishment of a totalitarian dictatorship for registration, thereby leaving unaffected other persons who seek to bring about a totalitarian dictatorship but do not belong to such organizations. However, the legislative findings set forth in Section 1 of the bill provide a reasonable basis for this classification by showing that the danger is presented primarily by the activities of members of totalitarian organizations.

As to the fifth ground of attack mentioned above, it should be noted that the effect of the bill upon the right to free speech or assembly is remote and indirect. Assuming that a person has registered pursuant to the act, nothing in the act would prevent him from making any utterance in favor of the establishment of a totalitarian government or on any other subject, nor would anything in the act prevent him from remaining a member of any totalitarian organization.

We believe that the effect of the registration requirement of the bill upon rights protected by the first amendment to the United States Constitution is as indirect and remote as was the effect of the Communist oath requirement of the Taft-Hartley Act upon those rights. We further believe the registration requirement of the bill is as reasonable a means

to meet an evil subject to regulation under the State's police power as that oath requirement was to meet an evil which Congress could regulate through its power over interstate commerce. The Communist oath provision referred to was upheld in *American Communications Ass'n.* vs. *Douds*, 339 U. S. 382, and in our opinion, under the reasoning of that case, the bill in question would be upheld as against the contention that it unconstitutionally infringed rights protected by the First Amendment.

We are aware that a county ordinance requiring registration of substantially the same persons who would be affected by Assembly Bill No. 2366 was recently declared invalid. (See *People* vs. *McCormick,* 102 A. C. A. (Supp.) 854.) However, the basis of the decision in that case was that the registration requirement would violate the constitutional provision against self-incrimination. We do not believe that objection is applicable to the bill under consideration.

No person is required to register until the commission has investigated and secured facts sufficient to convince itself and a reviewing court that: (1) A specified organization is a totalitarian organization, as defined; (2) The person affected is a member of that organization; and (3) The person affected "knowingly acts to bring about the establishment of a totalitarian dictatorship."

It should be noted that neither the definition of "totalitarian dictatorship" nor the definition of "totalitarian organization" mentions the use of force, violence or unlawful means. A totalitarian dictatorship could be lawfully accomplished by a revision of the Constitution through lawful processes, and an organization which exists for the purpose of establishing and maintaining such a government by such constitutional means would fall within the definition of "totalitarian organization."

Similarly a member of such organization who secured signatures on a petition asking Congress to call a convention for the purpose of amending the Constitution to provide for a totalitarian dictatorship would be acting knowingly to bring about such a dictatorship.

Neither the organization nor the member would, of course, be guilty of any criminal conduct in the examples just given for such conduct is not proscribed, nor could it be proscribed, by the California Criminal Syndicalism Act or by any federal statute.

It is clear, therefore, that unlike the situation presented by the county ordinance in the *McCormick* case (above), the fact of registration under the bill would not be evidence of the violation of any criminal statute. In view of this, and the fact that the bill specifically provides that the fact of registration shall not be received in evidence in any criminal prosecution, we do not believe the registration requirement violates the constitutional provision against self-incrimination.

Based upon the above, we believe that the bill, if enacted, would be valid.

Very truly yours,

RALPH N. KLEPS

RESOLUTIONS

The following resolution was offered:

By Mr. Dolwig:

House Resolution No. 162

Relative to the creation of the Assembly Fact-Finding Committee on Regional Problems of the San Francisco Bay Area

WHEREAS, Critical regional problems of common concern to the several counties bordering the San Francisco Bay, and to the cities and districts in those counties, remain unsolved because of lack of means for coordinated planning and final initiation of projects; and

WHEREAS, These problems involve: (a) *water conservation*, including plans for supplemental water supplies, reclamation and recovery of drainage and flood waters, and prevention of intrusion of sea water into underground waterbasins; (b) *vehicular traffic planning*, including the pressing need for additional bay crossings and freeway planning; (c) *transportation planning*, including future railroad crossings of the bay, provision of rapid transit facilities for the region, coordination of port and harbor operation and related navigation problems, parking and terminal facilities, and planning for future air traffic facilities; (d) *reclamation of tidelands*, including plans and projects for recreational areas, marine facilities for small craft, development of beaches, shoreline parks and parkways, and related planning for orderly development of the tidelands for urban, industrial and agricultural uses, (e) *drainage and flood control*, including provision of drainage critically needed in presently developed tideland areas, drainage and flood control in future reclaimed areas, proper disposal or reclamation of municipal and industrial liquid wastes, and related waste disposal problems affecting the water and air within the region, particularly those problems of disposal of garbage, refuse and other solid wastes in tideland areas; and

WHEREAS, These problems are inseparably inter-related and their solution requires practical coordination of numerous local, state and federal governmental agencies, and many private interests and voluntary public groups, in order to reach final decisions on regional planning; and

WHEREAS, Solutions of some of these problems are closely related to existing development and future plans in the Central Valley region particularly in the Delta area; and

WHEREAS, Projects for final solution of these problems are vital to military and civilian defense, and are necessary for orderly planning and development for ultimate urban, industrial and agricultural growth in the region; and

WHEREAS, Initial studies of the separate problems have failed to develop acceptable projects, largely because of failure to properly relate the various problems, and also to absence of legislative means to adopt final plans and implement projects; and

WHEREAS, It has been the conclusion of all of these separate studies that final solutions can come about only through some type of regional authority with sufficient power to adopt definite plans and initiate and finance projects for their completion; and

WHEREAS, The regional problems relating to railroad crossings and grade separations and to the reclamation of tidelands are so closely related to the state-wide problems relating to these subjects that the study of such problems must be undertaken on a state-wide basis; now, therefore, be it

Resolved by the Assembly of the State of California, As follows:

(c) The needs of industry and commerce for expansion and location of sites in Northern California and particularly in the San Francisco Bay region upon land easily accessible by highway, rail, and water;

(d) Specific tideland areas in Northern California and particularly in the San Francisco Bay region that are available for reclamation and development, the methods by which any such area may be reclaimed, developed, and made available for industrial or commercial use, and the estimated costs of any or all such projects;

PRAYER

The following prayer was offered by the Chaplain, Dr. Clarence A. Kircher:

Our Father, Which Art in Heaven, Hallowed be Thy name. Thou has taught us by the death of Thy Son, our Saviour, that without the shedding of blood, there is no remission of sins. Thou dost bring to our remembrance, the blood of saints and martyrs, heroes and warriors. We memorialize the lives that teach us the lesson of sacrifice that leads to redemption. May our Nation's destiny be so ordered that they shall not have died in vain.

"O thus be it ever when free men shall stand
Between their loved homes and the war's desolation;
Blest with victory and peace, may the Heaven-rescued land
Praise the Power that has made and preserved us a Nation!
Then conquer we must, when our cause it is just;
And this be our motto: "In God is our trust!"
And the Star-Spangled Banner in triumph shall wave
O'er the land of the free and the home of the brave"

In Jesus' name.—AMEN.

We, the undersigned members of the Charter Revision Committee of the City of Burbank, have been advised by the City Attorney if Charter Amendment No. 11, voted on by the people on April 3, 1951, is approved by the Legislature, legal proceedings would be required to determine finally whether earnings and accumulations of the Public Service Department could legally be used for construction, expansion and additions to the electric and water facilities of the Department.

We, therefore, petition the Legislature not to approve the said Charter Amendment No. 11.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 28, 1951

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill 3279, entitled: "An act to amend Section 207 of the Welfare and Institutions Code, relating to bodies of deceased persons."

My objections to this bill are as follows:

If the sole purpose of the bill is to authorize boards of supervisors to contract with approved colleges of mortuary science that are licensed as funeral directors by the State Board of Funeral Directors and Embalmers I seriously doubt the necessity of the bill. Under present law boards of supervisors may contract for this purpose with any duly licensed funeral director or embalmer.

However, if this is the sole purpose of the bill and it were so written I would have no objection to signing it if the Legislature was of the opinion that this right should be made more clear

My main objection to the bill is the following language: "Bodies of the unclaimed dead shall be made available to the State Department of Public Health in accordance with the provisions of Sections 7200 to 7208 of the Health and Safety Code"

If the sole purpose of the bill is to provide for the contracts as previously mentioned, this provision is entirely unnecessary and should be eliminated. If on the other hand it attempts to change the law concerning unclaimed bodies it is of sufficient gravity to warrant a full and public consideration by the Legislature which it may not have had when it is considered that this language appears to be incidental to the main change made by this bill There are many elderly people in our State both in institutions and without who will always believe that this language was inserted for the purpose of authorizing the disposal of their bodies for dissection. I do not believe that this inference should be permitted to disturb these unfortunate citizens during their terminal illnesses or their final days of life

If the Legislature, upon reflection, believes the remainder of the act without this language is essential to permit boards of supervisors to contract with colleges of mortuary science, I would have no objection to signing such a bill.

Respectfully submitted

EARL WARREN, Governor

No fees or court costs shall be taxed against the person so applying for such benefits.

SEC. 8. It is hereby declared that this act except for the provisions of subdivision (c) of 395.02 of the Military and Veterans Code as amended hereby, is not a change in the present law but is a declaration of existing law as it has existed since the effective date of Chapter 1396, Statutes of 1949.

(e) "Recognized military service" means service as defined in Section 18540.3 of the Government Code.

SEC. 10. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such urgency is as follows:

Due to the Korean crisis and the unsettled world conditions many thousands of public employees, including more than 1,000 state employees, are now on military leaves of absence and serving with the Armed Forces. The rights of such persons under existing provisions of the Military and Veterans Code are uncertain due to ambiguities in the existing law. This uncertainty has and will continue to result in delayed actions on the claims of such employees and has further resulted in hardship to the employees involved and to their families. These conditions may well affect the morale of those employees who are now in the Armed Forces and render them less able to perform their military duties. It is therefore necessary that this act take effect immediately."

REQUEST FOR UNANIMOUS CONSENT THAT LETTER OF TRANSMITTAL BE PRINTED IN JOURNAL

Mr. Dolwig asked for, and was granted, unanimous consent that a letter of transmittal from the Interim Fact-finding Committee on Tideland Reclamation and Development in Northern California, Related Traffic Problems and Relief of Congestion on Transbay Crossings be ordered printed in the Journal, in 10 point type, as follows:

LETTER OF TRANSMITTAL

ASSEMBLY, CALIFORNIA LEGISLATURE

Honorable Sam L. Collins
Speaker of the Assembly
State Capitol, Sacramento, California

MR. SPEAKER: Your committee presents the following Report on the Grade Crossings Separation problem prepared by the staff of the Institute of Transportation and Traffic Engineering, University of California at Berkeley.

At the 1949 Session of the Legislature the Assembly pursuant to House Resolution No. 44, created the Interim Fact-finding Committee on Tideland Reclamation and Development in Northern California, Related Traffic Problems and Relief of Congestion on Transbay Crossings. The resolution directed the committee as follows:

WHEREAS, The problem of tideland reclamation and development in Northern California, and particularly in the San Francisco Bay region, is a subject of vital concern to the entire State of California; and

WHEREAS, It is a problem requiring exhaustive analysis, intelligent treatment and widespread education of all concerned; and

WHEREAS, It is manifestly clear that, with the rapid growth of industry and commerce within the borders of the State of California, and which is easily accessible to highways, rail and water is being used to capacity; and

WHEREAS, Industry and commerce seeking to establish itself within the borders of the State desire land easily accessible to highways, rail and water; and

WHEREAS, The economy and economic welfare of the State of California is closely related and interwoven with the development of a broad industrial and commercial program; and

WHEREAS, There presently exists several methods for reclaiming tidelands, and each method being useful for different purposes; and

WHEREAS, An essential part of such a development program involves consideration of providing adequate highway facilities and integrating plans for state highway facilities with the plans for such reclamation and development of industrial sites; and

WHEREAS, There presently exists a serious condition wherein the people of the State living in the valleys of Northern California are greatly harassed by traffic congestion in and about the San Francisco Bay area and the people of the State living on the San Francisco-San Mateo Peninsula are not being adequately served by the present means of ingress and egress from the northern and central portions of the State; and

WHEREAS, The State now has under consideration plans for the construction of additional San Francisco Bay crossings and there is pending before this legislature a proposal for an appropriation for surveys, plans, estimates, preliminary engineering and other preliminary expenses for the construction of such crossing; and

WHEREAS, There are differences of opinion as to which location and type of crossing would be most advantageous to the people of the State; and

WHEREAS, The construction of such crossing and the location thereof is a material factor in the development of a program for tideland reclamation and development of the San Francisco Bay area; and

WHEREAS, There is urgent need for the Legislature to be fully advised as to all facts relating to the foregoing; now, therefore, be it

Resolved by the Assembly of the State of California, As follows:

1. The Assembly Fact-Finding Committee on Tideland Reclamation and Development in Northern California, Related Traffic Problems, and Relief of Congestion on Transbay Crossings is hereby created and authorized and directed to ascertain, study, and analyze all facts relating to

(a) The scarcity of industrial sites within the borders of the State of California and particularly in the San Francisco Bay region;

(b) The needs of industry and commerce for expansion and location of sites in Northern California and particularly in the San Francisco Bay region upon land easily accessible by highway, rail, and water;

(c) Specific tideland areas in Northern California and particularly in the San Francisco Bay region that are available for reclamation and development, the methods by which any such area may be reclaimed, developed, and made available for industrial or commercial use, and the estimated cost of any or all such projects;

(d) Providing adequate access by highways from such areas and the San Francisco-San Mateo Peninsula to the northern and central portions of California, including all matters pertaining to the construction of additional San Francisco Bay crossings, the location thereof, and the type of structure; including but not limited to the operation, effect, administration, enforcement and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution, and to report thereon to the Assembly, including in the reports its recommendations for appropriate legislation.

The scope of the committee's activities has been broad, consequently it has been necessary to divide the studies into three distinct subjects and treat them as individual units of a bay area regional problem. They are:

1. Transbay crossings.
2. Tideland reclamation and development.
3. The San Francisco Bay project—the Reber Plan.

It is readily perceivable that the traffic problem is the integral factor in each of these studies and that it is impossible to reach any

definite conclusions or recommendations relative to these subjects until we have first formulated a plan of action to remedy the existing traffic situation.

In its studies of the many problems involved in present highway facilities as the means of ingress and egress from the northern and central portions of the State, the committee was ever mindful of the mounting public interest and pressure for increased grade crossing separations. In answer to these demands hearings were held in San Mateo and San Francisco. While the purpose for which this Committee was created is limited to the consideration of problems within a specified geographical area, the Committee sought information pertinent to the solution of these problems from other relevant sources where similar problems exist.

The study embraced in this report is considered to be one of the "principal factors" involved in the proper solution to this problem.

From the testimony presented at the hearings it would appear that the pressure for increased grade crossing separations is out of proportion to the accident hazard but that it derives more from irritation of an increasing driving public over delay factors.

For a realistic approach to the problem, information of a new kind may be necessary if a true evaluation of needs for the basis of a sound program is to be developed.

Based upon this report and the evidence of testimony presented at the hearings, the committee makes the following recommendations:

1. That legislation should be introduced to establish a procedural basis for assigning costs for the purposes of classifying current cases, and to establish a procedural basis for a state-wide railroad-highway crossing program which may be provided by future legislation.

2. If a statewide railroad-highway crossing program is undertaken, that the benefit-cost ratio be seriously considered as the basis for determining (a) justification for separations (b) priorities.

3. That a statewide railroad-highway crossing program requires further intensified study of the problem by this Committee, including the gathering of needed background data concerning (a) knowledge of delay factors, (b) coordination of state and local planning to avoid wastage of funds in any crossing separation program.

Respectfully submitted.

By Messrs. Doyle, Hollibaugh, Geddes, and Porter:

House Resolution No. 166

Relative to a comprehensive study of the laws relating to sex crimes.

WHEREAS, There is an obvious need for more stringent enforcement, imposition of full sentences, increased punishments for such offenses, and a re-vamping of the entire system of regulation of sex-offenders, and

WHEREAS, Such a program can be accomplished only after a full and comprehensive study of all the problems relating to the subject of this resolution; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Interim Committee on Judicial System and Judicial Process, or the corresponding investigating committee created at this session, is hereby authorized and directed to make a full and comprehensive study of the subject matter of this resolution and of all matters relating to the punishment of sex offenders and the applicability to such persons of the laws relating to the indeterminate sentence, probation, and the screening and surveillance of such persons, including but not limited to the operation, effect, administration, enforcement and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution, and to report thereon to the Assembly at the 1952 Regular Session, including in the reports its recommendations for appropriate legislation; and be it further

BURBANK CHAMBER OF COMMERCE
BURBANK, CALIFORNIA

Petition to the State Legislature to Reject Charter Amendment No. 11 as Adopted at April 3d Burbank Municipal Election

WHEREAS, The Burbank Chamber of Commerce has been advised that the recently approved Charter Amendment No. 11 has an error which would seriously restrict the normal operation of the Public Service Department, in that it could not use its own revenues for "construction and expansion" without first having its right to do so determined by court litigation; and,

WHEREAS, The Burbank Chamber of Commerce is informed that a delay, caused by such litigation, would prove disastrous to the present construction and expansion program now being carried on by the Burbank Public Service Department; and,

WHEREAS, The Burbank Chamber of Commerce was one of the sponsors of several charter amendments, including No. 11 at the April 3d municipal election; and,

WHEREAS, The Burbank Chamber of Commerce, like other groups, endorsed Charter Amendment No. 11 without knowledge that the legal uncertainty arising from the omission of the words "construction and/or alterations" would prove to be of such serious nature; now therefore be it

Resolved, That the Burbank Chamber of Commerce does hereby petition the Legislature of the State of California not to approve Charter Amendment No. 11 for the reasons stated above and that a copy of this resolution be sent to the City Council of the City of Burbank.

Adopted this fourteenth day of May, 1951.

Resolution No. 6863

A RESOLUTION OF THE COUNCIL OF THE CITY OF BURBANK PERTAINING TO THE SUBMISSION AND ADOPTION OF CHARTER AMENDMENTS BY THE LEGISLATURE OF THE STATE OF CALIFORNIA

Recital:

The Legislature of the State of California approved a charter for the City of Burbank in the year 1927. In 1947 the City Council appointed a committee of fifteen distinguished citizens to study and report on needed changes in this basic law of the City. The Charter Revision Committee, so appointed, recommended to the City Council twenty-three (23) amendments to the City Charter. Of these amendments eighteen (18) were submitted to the people at the General Municipal Election held on April 3, 1951. Sixteen (16) of these proposed amendments were approved by the voters. Among these last mentioned sixteen amendments is Charter Amendment No. 11, which would amend Section 33 of the City Charter relating to the Public Service Department. By its terms, after providing for certain specified payments by the Public Service Department, the funds of the Department are to be deposited in the City Treasury to the credit of the department to be used *"only for the operation and maintenance of said Department"*. The question has arisen whether the aforequoted language is broad enough to permit the Public Service Department to *continue* to use any of its earnings for new construction or additions to, and expansion of, its electric and water facilities.

The City Council after extensive study firmly believes the amendment should be rejected by the Legislature for the following reasons:

Opinion of the City Attorney and O'Melveny and Myers, expert bond and finance counsel, that if the amendment is approved by the legislature, court proceedings would be required to determine whether funds of the Public Service Department could legally be

used to pay for expansion of and additions to the water and power facilities of the Department.

Such legal proceedings or adoption of this proposed charter amendment would result in costly litigation to the city, cause serious delay and, in the event of a decision of the court holding that construction is not included within operation and maintenance would prevent the completion of the expansion program of the Public Service Department started four years ago and upon which approximately $6,000,000.00 has already been paid out of earnings and accumulated funds in the Department without the necessity of any tax levy.

In order to meet the requirements of homes, industries and defense plants for water and electric energy, it is imperative that this construction program be continued and completed without delay. It is estimated that an additional $5,000,000.00 will be required in the next three years to continue and complete the necessary expansion of the water and power facilities of the City.

The people of Burbank approved a bond issue in 1950 for $2,500,000.00 to assist in the continuation of this expansion of the productive capacity of the Department and the principal and interest on the bond issue, it was understood, would be paid out of earnings of the Department. The balance of the cost of such expansion was, likewise, to be paid from the earnings and accumulations of the Department and without the necessity of any tax levy.

The Public Service Department will be able to continue and complete these necessary additions to its water and electric power facilities from its earnings and accumulations unless restricted by the proposed charter amendment or litigation since the present charter provisions permit this.

The present charter provision will remain in effect if the legislature fails to approve the proposed amendment.

The City will suffer no material injury if the proposed amendment No. 11 is not approved by the legislature but homes, business and industry will experience a shortage or total lack of water and electrical power if the current plans for expansion are delayed or stopped by approval of this proposed amendment.

The City and National Defense will be adversely affected by inadequate water and electrical power within the time scheduled by current plans if this amendment is approved Applications for water and electric power are now pending from defense industries requiring capital construction by the Public Service Department which would be delayed or prevented by adoption of this amendment.

NOW, THEREFORE, in pursuance of the foregoing, the City Council does hereby resolve as follows:

First: That the Mayor and City Clerk be and they hereby are directed to prepare and execute a certificate or certificates of ratification by the electors of the City of Burbank of the sixteen charter amendments approved by the voters on April 3, 1951, for delivery to the Legislature of the State of California.

Second: That the Legislature of the State of California be petitioned and requested not to approve and adopt Charter Amendment No. 11 amending Section 33 of the Charter of the City of Burbank.

PASSED and ADOPTED this twenty-fourth day of May, 1951.

We thank Thee for a Day of Memory when our grateful Nation turns aside to pay a well-deserved tribute to those who have made a supreme sacrifice paying with their lives, the purchase price of liberty and freedom.

REQUEST FOR UNANIMOUS CONSENT THAT LETTER OF TRANSMITTAL BE PRINTED IN THE JOURNAL

Mr. Silliman asked for, and was granted, unanimous consent that a letter of transmittal to the Report of the Assembly Interim Committee on Conservation, Planning, and Public Works be ordered printed in the Journal, in 10 point type, as follows:

LETTER OF TRANSMITTAL

HONORABLE SAM L. COLLINS,
Speaker of the Assembly,
California Legislature, Sacramento, California.

DEAR SIR. Pursuant to House Resolution 212 of the 1949 Regular Session of the Legislature, House Resolution 27, 1950 Regular Session, House Resolution 31, 1950 First Extraordinary Session and House Resolution 28, 1950 Third Extra Session, your standing committee submits herewith a report which summarizes the voluminous material which was presented to this committee by Charles M. Weber, retired Chairman of the Interim Committee on Conservation, Planning, and Public Works.

As the funds of the interim committee had been depleted it was the unanimous feeling of the standing committee that House Resolution 139 be introduced requesting the Legislature to augment previous appropriations of the interim committee in the sum of $1,500. This augmentation to provide funds for the printing of 3,000 copies of this summary report and provide for liquidation of other incurred obligations of the interim committee. This resolution was passed May 10, 1951.

This committee is fully aware that the data submitted by the former chairman of the interim committee represents a considerable amount of work and that much valuable information is contained therein. To have the full report printed, at this time, would, however, cost over $7,000. As no recommendations were made in the report, nor specific

legislation recommended it was the unanimous feeling of this committee that the interim committee report to the Legislature be limited to this summary report.

Respectfully submitted.

GEORGE A. CLARKE
WILLIAM W. HANSEN
LLOYD W. LOWREY
LESTER A. MCMILLAN
HARLAN HAGEN
L. H. LINCOLN
FRANK LUCKEL
FRANCIS C. LINDSAY
JAMES W. SILLIMAN, Chairman

REQUEST FOR UNANIMOUS CONSENT THAT 3,000 COPIES OF REPORT BE DISTRIBUTED

20607.5. For each local safety member who became such a member of this system, or, if entitled to credit for prior service, who entered fire, police, or county peace officer service at or below age 45 the normal rate of contribution shall be such as will provide, on the average, a service retirement annuity *(excluding continuance thereof under Section 21264 to the member's surviving wife, children, or dependent parents)* at age 55, or upon completion of 20 years of service at an age higher than 55 years, equal to one-fourth of his final compensation less one-half of his prior service pension (assumed for this purpose to be based on the full prior service formula applicable to his classification), it being the intention that the retirement allowances of such members, upon retirement at age 55 or such higher age, shall be, on the average, one-half of their final compensations, respectively.

Said election or revocation or change thereof, with respect to patrol members *and local safety members to whom Section 21264 applies*, shall apply to all of the retirement allowance, if, at the effective date of retirement for service or for industrial disability, said member has no wife, children or dependent parents who would qualify for continuance of the allowance after the death of said member; or, if at retirement said member has a wife, children or dependent parents who would so qualify, then said election, or revocation, or change thereof shall apply only to the portion of the allowance which would not be continued after the member's death regardless of dependents."

Opinion of Legislative Counsel

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 29, 1951

Honorable Robert L. Condon
Assembly Chamber

UNEMPLOYMENT INSURANCE—No. 9073

DEAR MR CONDON: With respect to Assembly Bill No. 1715, as amended in Assembly May 23, 1951, you have asked the following questions:

Questions

1. What is the extent of the term "marital or domestic duties" as it appears in the bill?

2. Are disability insurance benefits included within the provisions of the bill?

Opinion

1. The term "marital or domestic duties" would cover any duty growing out of a marital or family relationship. It is impossible to predict in advance all situations the term would cover.

2. It is probable that disability insurance benefits would fall within the provisions of the bill.

Analysis

Assembly Bill No. 1715, as amended in Assembly May 23, 1951, would add Section 58.1 to the Unemployment Insurance Act to read as follows:

> "Sec. 58.1. Notwithstanding any other provision of this act, a female employee who leaves her employment to be married or to accompany her husband to or join him at a place from which it is impractical to commute to such employment or whose marital or domestic duties cause her to resign from her employment shall not be eligible for unemployment insurance benefits until she has earned wages of one hundred dollars ($100) in an employment occurring subsequent to employment which she left for such reason; provided that, the foregoing provision of this section shall not apply after a change in conditions whereby she has become the main support of herself or her immediate family."

While the term "marital or domestic duties" does not lend itself to exact definition it is a term which has been frequently used by the Department of Employment in administering the act and by the Unemployment Insurance Appeals Board in its decisions on appeals arising under the act.

Thus, in the C C H Unemployment Insurance Service (Volume 2, page 8152) a summary of the Appeals Board's interpretation of benefit provisions of the act reads as follows:

> "Where a claimant, because of domestic responsibilities, household duies, care of children, parents, relatives, or illness in the family, is presently prevented from accepting suitable employment, the claimant is not available for work."

Similarly, in discussing what constitutes good cause for voluntary quitting of work, it is stated (C C H Volume 2, page 8185):

> "A claimant has good cause for voluntarily leaving his work in order to meet family responsibilities.
>
> It is well established in California and other jurisdictions that the voluntary leaving provision is not to be construed so as to penalize a claimant who is trying to meet important family responsibilities. It therefore becomes necessary to examine cases on this issue to ascertain whether such responsibility could have been satisfactorily met if the person had remained at work. When leaving occurs to care for children, for illness in the family, for lack of housing or for other family duties, investigation must determine what efforts were made to discharge family responsibility without the necessity of leaving work."

The above quotations are, we believe, illustrative of the situations which would fall within the scope of the phrase "marital or domestic duties."

With respect to your second question, it should be noted that the bill uses the phrase "shall not be eligible for unemployment insurance benefits." That phrase is sufficiently broad, we believe, to cover any benefit provided for under the Unemployment Insurance Act, which would include disability benefits.

Further, Section 151 of the act specifically provides that the provisions and definitions of Articles 1 to 9, inclusive, (i. e., the provisions dealing with unemployment insurance generally) are applicable to the article on disability benefits, with certain exceptions. None of the provisions disqualifying persons from receipt of unemployment compensation benefits are listed among these exceptions and all of such disqualification provisions apply equally to claims for unemployment compensation benefits and claims for unemployment compensation disability benefits.

Section 151 will operate, therefore, to make the provisions of the bill in question applicable to both unemployment compensation benefits and unemployment compensation disability benefits.

Very truly yours,

RALPH N. KLEPS
Legislative Counsel

Notice is hereby given, pursuant to Standing Rule No. 5, that on the following legislative day, to wit, on May 31, 1951, I will make a motion with respect to Rules No. 8 and 10 of the Standing Rules of the Assembly as follows:

I hereby move that Rules 8 and 10 of the Standing Rules be amended to read:

8. ~~For their convenient functioning and in furtherance of the thorough consideration of all bills on a given subject, the several standing committees of the Assembly are respectively grouped into the following categories:~~

~~A. Legislature:~~

(a) Two committees to consider legislative organization, functions and procedure *are hereby created*.

(1) Committee on Rules

There is a Committee on Rules, No. 1, which shall act as ~~an~~ *the* executive committee of the House ~~having the following powers:~~. *The committee shall consist of the Speaker, who shall be the chairman and six other members, three of whom shall be members of the Democratic Party and three of whom shall be members of the Republican Party. The chairman of each party caucus shall within twenty-four (24) hours after the operative date of this rule, as amended, file with the Chief Clerk a list of three nominees for membership on the Committee on Rules. Upon the filing of each such list, the Speaker shall immediately present the name of each nominee to the Assembly for its approval or rejection in the order filed. If approved by a majority of the elected membership of the Assembly, the nominee shall be declared elected as a member of the committee. If a nominee shall fail to receive such approval, the committee membership to which he would have been elected shall remain vacant until the chairman of his party caucus shall have filed the name of another nominee for the position who shall be thereafter approved by a majority of the elected membership of the Assembly. Vacancies in the Committee on Rules occurring during any session of the Legislature shall be filled by election as herein provided, and vacancies occurring after final adjournment and before the convening of the next session of the Legislature shall be filled temporarily, and until such convening, by the remaining committee members who are members of the same party as that of the member causing the vacancy. Four duly qualified members of the committee shall constitute a quorum. No member of the Committee on Rules is eligible to*

serve as the chairman of a standing committee. The Committee on Rules, as constituted prior to the operative date of this amendment, is hereby abolished.

The Committee on Rules provided herein shall have the following powers:

To recommend the appointment of all attaches and employees of the Assembly not otherwise provided for by statute It shall have authority to suspend, with or without pay, any such attache or employee for incompetency or dereliction of duty, pending final action by the Assembly.

To appoint the membership, except that of the Committee on Rules, of all standing, special and interim committees, and their respective chairmen and vice chairmen.

To propose a schedule of meetings of standing committees.

To check all Assembly bills and House resolutions prior to introduction and all Senate bills before reference to committee and to designate the committees to which they shall be referred.

To make studies and recommendations designed to promote, improve, and expedite the business and procedure of the Assembly and of the committees thereof, and to propose any amendments to the Rules deemed necessary to accomplish such purposes.

Wherever in Assembly Standing Rules authority is conferred upon the Speaker to appoint committee members or to refer matters to a committee, the word "Speaker" shall hereafter mean "Committee on Rules."

The Committee on Rules shall continue in existence during any recess of the Legislature and after final adjournment and until the convening of the next regular general session and shall have the same powers and duties as while the Assembly is in session. The committee shall have authority to fill vacancies in any Assembly committee, except those in the Committee on Rules, or to fill vacancies in the Assembly membership of any joint committee. In dealing with any matter within its jurisdiction the committee and its members shall have and exercise all of the rights, duties and powers conferred upon investigating committees and their members by the Joint Rules of the Senate and Assembly as they are adopted and amended from time to time, which provisions are incorporated herein and made applicable to the Committee on Rules and its members.

The Committee on Rules shall for the purpose of Joint Rule No. 2 be deemed to be the Rules Committee of the Assembly.

(2) Committee on Legislative Procedure

There is a Committee on Legislative Procedure, No. 2, which shall have and exercise the following powers:

To be the Committee on Engrossment and Enrollment within the meaning of the Joint Rules. It shall be the duty of the Committee on Legislative Procedure to compare all bills, ordered or considered engrossed by the Assembly, with the engrossed copies thereof; and, before they pass out of the possession of the Assembly, see that the engrossed bill is a true copy of the original, with such amendments as may have been made thereto; and said committee shall see that all engrossed bills are reported back in the order in which they were ordered engrossed. Upon publication in the Journal of the number of members on each standing committee, no further change in the number of members of the committee shall be made otherwise than by a majority vote of the elected membership of the Assembly.

LETTER OF TRANSMITTAL

ASSEMBLY, CALIFORNIA LEGISLATURE, May 31, 1951

Honorable Sam L. Collins
Speaker of the Assembly
State Capitol, Sacramento, California

MR SPEAKER: Your Fact-finding Committee on Tideland Reclamation and Development in Northern California, Related Traffic Problems and Relief of Congestion on Transbay Crossings herewith files its Fourth Report dealing with tideland reclamation and development in Northern California.

At its hearings, the committee particularly noted the wide divergence of opinion relative to the future needs for the reclamation and development of tide and submerged lands. Because of this difference of opinion the committee feels that the State, as the only governmental unit of which the Bay area communities are a part, must assist in creating some authority which would be representative of these communities in all matters affecting future long-range planning in the reclamation and development of the tidelands for industrial and commercial use.

Respectfully submitted.

Thou art the fountain of life, and without Thee we can do nothing Thy grace is sufficient for us and our weakness is made perfect in Thy strength

"Build thee more stately mansions, O my soul,
As the swift seasons roll!
Leave thy low-vaulted past!
Let each new temple, nobler than the last
Shut thee from heaven with a dome more vast,
Till thou at length art free,
Leaving thine outgrown shell by life's unresting sea."

In Thy Eternal Name —AMEN

The statement of the amount of city contribution in the petition or in the resolution of intention shall not prevent the city from making additional contributions to the project before or after the issuance of bonds therefor and shall not prevent the city from paying all or any part of the incidental expenses in connection with the proceedings hereunder. If the petition proposes that the city install and maintain, or continue to maintain, parking meters on public ways within the district, the legislative body either shall reject the petition or shall, prior to the adoption of the resolution of intention, agree to install and maintain, or continue to maintain, parking meters as proposed in the petition, provided that the legislative body shall not so agree unless it finds and determines that the public interest, convenience and necessity require that such meters be installed and maintained, or be continued to be maintained, as proposed in the petition

At the hearing the clerk of the legislative body shall present to it all protests filed with him and the legislative body shall hear and determine the same. Its decision thereon shall be final and conclusive; provided, however, that if the owners of taxable real property in said district having an assessed valuation of more than one-half of the assessed valuation of all taxable real property in said district at the conclusion of the hearing have on file and not withdrawn their written protests objecting to the formation of said district, the legislative body shall make a finding that such majority protest has been filed, and upon such finding being made the proceeding shall be deemed abandoned and no further proceedings shall be had or taken pursuant to said petition. Any protest filed may be abandoned and withdrawn by written notice of such abandonment or withdrawal signed by the person who signed the protest and filed with the clerk of the legislative body at any time prior to the conclusion of the hearing. If a proceeding is terminated by the filing of a majority protest no new petition for the same purpose may be filed until the expiration of one year from the date of the finding of the legislative body that such majority protest was filed However, a new petition for a modified project may be filed at any time Said hearing may be continued from time to time at the discretion of the legislative body. At the conclusion of said hearing the legislative body may make such changes in the boundaries of the proposed district as it shall find to be proper and advisable and shall define and establish such boundaries, but said legislative body shall not modify such boundaries so as to include any territory which will not in its judgment be benefited by the proposed project, and no territory shall be excluded from the proposed district which will in the judgment of said legislative body be benefited by the proposed project.

At said hearing, the legislative body may also increase, decrease, change, or otherwise modify the acquisitions or improvements to be made, but the legislative body shall not increase, decrease, change or otherwise modify said acquisitions or improvements without first procuring from the city engineer or other competent person a supplemental report showing the effect thereof upon the estimates and other data given in the original report.

SEC 12 The legislative body shall not make any change in the boundaries of the proposed district or in the acquisitions and improvements, except after notice of its intention so to do given by two insertions in the newspaper in which the resolution of intention was published and specifying a time for hearing objections to any such proposed change, which time shall be not less than twenty (20) days after the first publication of said notice. Written objections to any proposed change may be filed with the clerk of said legislative body by any interested person at any time prior to the hour set for hearing the same Said legislative body shall hear and pass upon such objections at the time appointed or at any time to which the hearing thereof may be adjourned and its decision thereon shall be final and conclusive; provided, however, that if a majority protest is on file, as hereinbefore in this act provided, at the conclusion of the hearing, then upon the determination of said legislative body that such majority protest is on file the proceeding shall be forthwith abandoned.

At the expiration of the time within which protests may be filed, if none be filed or if protests constituting less than a majority protest are filed and after hearing are denied, or at the expiration of the time within which objections to changes, in case any

change be proposed as hereinbefore provided, may be filed, if none be filed or if such objections constituting less than a majority protest are filed and after hearing are denied as above provided, then said legislative body shall be deemed to have acquired jurisdiction to proceed further with the provisions of this act.

When the legislative body has so acquired jurisdiction to proceed further, it may adopt an ordinance declaring that said parking district is formed and describing the acquisitions and improvements to be made

SEC 13 Before issuing any bonds the legislative body shall contract for the purchase of the land, property and rights of way to be acquired, or, if all or any portion thereof cannot be acquired by contract at a price which the legislative body deems satisfactory, the legislative body shall cause an action or actions to be brought in the name of the city for the condemnation thereof and, before issuing any bonds, shall obtain an interlocutory judgment in such action or actions If after the amount to be paid for the land, property and rights of way to be acquired has been fixed by contract or by an interlocutory judgment or judgments, the legislative body finds and determines that it will not be feasible to issue bonds in an amount necessary to make the acquisitions and improvements described in the ordinance declaring the district formed and the incidental expenses in connection therewith and the proceedings therefor, after deducting any amount to be contributed by the city for such purposes, the legislative body may eliminate, change or otherwise modify any of the proposed acquisitions or improvements, after notice and hearing as provided in Section 12 hereof, and the majority protest provisions of said Section 12 shall apply.

SEC. 14 When the amount to be paid for the land, property and rights of way finally determined to be acquired has been fixed by contract or by an interlocutory judgment or judgments, the legislative body may by ordinance, resolution or indenture provide for the issuance of bonds of the district in an amount not exceeding the amount necessary to make the proposed acquisitions and improvements and to pay the incidental expenses in connection therewith and the proceedings therefor, less any amount to be contributed by the city for such purposes

The legislative body shall describe the form of bonds and of the interest coupons to be attached thereto Not less than one-twentieth part of the whole amount of such bonds shall be payable each and every year on a day and date and at a place to be fixed by the legislative body and designated in such bonds, together with interest on all sums unpaid on such date until the whole of said bonds shall have been paid; provided, however, that said legislative body may in its discretion determine and fix a date for the earliest maturity of the principal of said bonds not more than three years from the date of issue such bonds shall bear. The legislative body may make such bonds or any portion thereof callable for redemption before maturity at such time or times, at such price or prices and upon such other terms and conditions as it may determine. Any bond callable before maturity shall contain a recital to that effect The bonds shall be issued in the denomination of one thousand dollars ($1,000) each, shall be payable on the day and at the place fixed in such bonds, with interest at the rate specified in such bonds, which rate shall not be in excess of the maximum rate stated in the resolution of intention, and shall be paid semiannually except the interest for the first year may be paid at the end of said year. Said bonds shall be signed by the chief executive of the city or by such other officer thereof as the legislative body shall in said ordinance authorize and designate for that purpose and also signed by the treasurer thereof and countersigned by the clerk. The interest coupons on said bonds shall be numbered consecutively and signed by the treasurer All of the signatures on said bonds and on the interest coupons thereof may be made by printed, lithographed or engraved facsimile except the countersignature of the clerk which shall be manually affixed. In case any such officer whose signature or countersignature appears on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such signature or countersignature shall nevertheless be valid and sufficient for all purposes, the same as if such officer had remained in office until the delivery of the bonds.

Each of said bonds shall state in substance that the bond together with the interest thereon is payable solely from the net revenues from the operation of the parking place or places acquired and improved with the proceeds thereof, the net revenues (or a portion thereof) from parking meters on certain public ways within the district (if such be the case), and from a limited (stating the limits) ad valorem assessment to be levied upon taxable real property in the district (if such be the case), and that neither the city nor any officer thereof is to be held otherwise liable for its principal or interest

SEC. 15 The ordinance, resolution or indenture providing for the issuance of said bonds may also provide:

(1) For the maintenance and operation of the parking facilities, for the establishment of a special fund or funds into which all revenues derived from the operation of the parking facilities shall be placed, for the payment from said fund or funds of the expenses of operating and maintaining said parking places, and for the allocation and pledge of the remaining revenues to the payment of said bonds and the interest thereon.

(2) For the installation of parking meters on the public ways within the district as provided in the resolution of intention, to the extent such meters have not already been installed, for the maintenance of meters on such public ways for the period of time specified in the resolution of intention, for the establishment of a special fund or funds into which the net revenues (or portion thereof as specified in the resolution of intention) shall be paid, and for the allocation and pledge of said net revenues, or said portion thereof, to the payment of said bonds and the interest thereon

(3) For the levy each year of an ad valorem assessment on all taxable real property in the district, to the extent to which revenues from the parking lots and from parking meters pledged to the payment of principal and interest of said bonds have been or are expected to be insufficient in any year to pay such principal and interest Such ad valorem assessment shall not exceed the limits stated in the resolution of intention Such assessment shall be levied, collected and enforced in the same manner, at the same times, and with the same penalties and interest, as in the case of taxes levied for the city

(4) For interest and redemption funds, sinking funds, reserve funds, and any other funds necessary or convenient for use in the payment of said bonds and the interest thereon

Said ordinance, resolution or indenture may also contain any other provisions necessary or desirable to carry out the intent and purpose of, not inconsistent with the provisions of, this act

The provisions of said ordinance, resolution, or indenture shall constitute covenants for the benefit and protection of the holders of said bonds, and any such holder may enforce the same by mandamus or other appropriate remedy Any provision of said ordinance, resolution or indenture, except a provision as to the amount or time of payment of principal or interest on the bonds, may be later eliminated or modified by the legislative body, if the holders of not less than sixty percent (60%) of the outstanding bonds have agreed in writing to such elimination or modification

SEC 16 The legislative body may issue and sell the bonds of said district at not less than the par value thereof plus accrued interest Before selling the bonds, or any part thereof, the legislative body shall give notice inviting sealed bids in such manner as the legislative body may prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if the legislative body determines that the bids received are not satisfactory as to price or responsibility of the bidders, the legislative body may reject all bids received, if any, and either readvertise or sell the bonds at private sale The proceeds of the sale of such bonds shall be placed in the treasury of the city to the credit of the proper district fund and shall be applied exclusively to the objects and purposes mentioned in the ordinance establishing the district (or to said objects and purposes as the same may be modified as provided in Section 13 hereof) and the payment of the incidental expenses in connection therewith Said proceeds may be used to pay the interest on said bonds during the period of construction of any parking place and for a period of six months thereafter, provided that the total period during which interest is paid from such proceeds shall not exceed three years from the date of said bonds Said bonds and the interest coupons thereof shall be negotiable instruments.

SEC 17. With the proceeds from the sale of said bonds and with any moneys which the city has agreed to contribute for the purpose, the city by and through its proper officers shall make the acquisitions and improvements finally determined upon All contracts for the construction of any improvements shall be let and entered into as other contracts are let and entered into by the city When said acquisitions and improvements have been accomplished any unexpended bond proceeds shall be placed in the fund for the payment of principal and interest of the outstanding bonds and shall be used for no other purpose

SEC 18. After the bonds and all interest thereon have been fully paid, or prior thereto to the extent permitted by express provision of the ordinance, resolution or indenture providing for the issuance of said bonds, all revenues derived from the operation of the parking facilities and not required for the operation and maintenance of such facilities, may be used for the further improvement of such facilities or for the acquisition and improvement of other parking facilities for the benefit of the district, as the parking place commission of the district may decide.

SEC 19 Whenever a district is created under this act, immediately upon the acquisition of the parking places, a parking place commission shall be appointed which shall have the powers, jurisdiction and authority granted in this act In the discretion of the legislative body, such commission may be appointed at any time prior to such acquisition and after the adoption of the ordinance declaring the district formed The commission shall consist of three members. Each commissioner shall be a resident and qualified elector of the city Members of the commission shall serve without compensation, unless the legislative body shall determine that compensation shall be paid and shall fix such compensation to be paid from funds of the city. The compensation of a commissioner shall not be increased or diminished during his term of office. Members of the commission shall be appointed by the chief executive officer of the city, subject to confirmation by the legislative body thereof.

The commissioners shall hold office for the term of three years from the date of their appointment and qualification and until their successors are appointed and qualified, except that members of the first commission appointed shall classify themselves by lot so that one member holds office for one year, one for two years, and one for three years, and, in each instance, until a successor has been appointed and qualified, provided, however, that by a four-fifths vote a commissioner may be removed by the legislative body at any time

Commissioners shall be persons of business experience and ability to the end that the affairs of the district shall be administered in the interests of the district. Whenever there is filed with the legislative body, a petition signed by the owners owning real property in the district of an assessed value of more than fifty percent (50%) of the total assessed value of the taxable real property in said district, as shown by the last equalized assessment roll, requesting the removal of a commissioner, the legislative body shall immediately remove such commissioner, and a new commissioner shall be appointed in the same manner as for other appointments. The commissioner so removed shall be ineligible to hold office as a commissioner of the district for a period of one year following his removal.

SEC. 20. All property acquired under the provisions of this act shall be condemned or acquired in the name of the city and title to such property shall be in the city but shall be held by the city subject to the provisions of the act, and the parking places acquired shall be under the possession, jurisdiction and control of the commission of the district for which the same were acquired. The commission shall operate, manage and control said parking places and shall make and enforce all necessary rules and regulations for the use thereof. It shall fix, regulate and collect rentals, fees or other charges for the parking of vehicles therein and may provide different rates for different classes of customers or users.

The providing of adequate public parking places in cities largely depends upon the formation of parking districts. Such districts will be created and will be successful only if so operated as to serve the property within the district adequately. It is the intent of this act that the owners of real property in a parking district which is created hereunder to provide parking places to solve the parking problems of the district may receive preferential rates, charges, or rentals for themselves, their tenants and the classes of persons who call upon or do business with them, all to the end that the property which bears the burden and provides a solution for the parking problem shall receive a special benefit

All parking places acquired and constructed under this act shall be public parking places; but nevertheless the commission having jurisdiction over the parking places for any district may restrict or partially restrict the use of such parking places to owners and tenants, and classes of persons designated by such owners or tenants of real property in the parking district and may establish rates or charges or rentals for the owners and tenants of such properties and classes of persons designated by such owners or tenants which differ from and are less than the rates, charges, or rentals charged other persons.

Such rentals, fees and charges shall be fixed after public hearing following such notice as the commission may prescribe It shall appoint such employees, said employees to be selected as other city employees are selected, as it deems necessary and shall have complete charge, supervision and control of all parking places acquired for the district

So far as feasible, the commission shall fix such rentals, fees or charges as will produce sufficient revenue, when added to the expected revenues from parking meters pledged to the payment of the bonds of the district, to pay the principal and interest of said bonds as the same fall due.

SEC. 21. The commission in the exercise of its power to operate, manage and control parking places as provided in Section 20 hereof, shall have the power to lease any or all of said parking places, or grant a franchise therein, to any person firm, or corporation for the sole purpose of the operation by said person, firm, or corporation of public parking facilities thereon, or may make a contract with any person, firm, or corporation for such purpose The consideration to be paid for any such lease or franchise or under any such contract by the operator may be a fixed sum or a percentage of gross rentals, fees or charges collected by the operator, or any other consideration. The maximum rentals, fees and charges to be collected by the operator shall be fixed by the board after public hearing as provided in Section 20 hereof and shall be recited in the lease or franchise, and no higher rentals, fees or charges shall be collected by the operator without amendment of said lease or franchise agreed to by the board after like public hearing Neither the commission nor any such operator shall conduct on any parking place any business other than that of the operation of public parking facilities. Any such lease or franchise may provide that the use of the parking places shall be restricted or partially restricted to owners and tenants, and classes of persons designated by such owners or tenants, of real property in the district, and may provide for maximum rates or charges or rentals for such owners or tenants and classes of persons designated by such owners or tenants which differ from and are less than the maximum rates, charges or rentals charged other persons, all as provided in Section 20 hereof.

To provide revenues for the district, the legislative body conducting the proceeding for the formation of the district, at any time prior to the formation of the district, or after the formation of the district and prior to the appointment of a commission therefor, may enter into a contract or lease with any owner or tenant of property in the district under which said owner or tenant, for a specified rental or other consideration and for a specified period not exceeding ten years, reserves a reasonable proportion or number of parking spaces in a parking place of the district, for the use of the owner of such property, the tenant or tenants thereof, the employees of any such owner or tenant performing services on such property, and the customers of, or other classes of persons designated by, such owner or tenant and entering said property as invitees or otherwise. After the appointment of a commission for the district such commission shall have the power to make such contracts or leases

SEC. 22. Notwithstanding any agreement made pursuant to the provisions of this act, as a covenant to bondholders or otherwise, to maintain parking meters on specified public ways in the district, parking meters need not be maintained:

(1) On any public way which has become a "freeway" or a "state highway" as said terms are defined in Sections 23.5 and 24 of the Streets and Highways Code.

(2) At any time and so long as (a) the net revenues from the parking places of the district during each of the two next previous fiscal years and available for the payment of principal and interest on the bonds of the district equaled or exceeded one and one-half times the principal and interest which has or will come due during the current fiscal year, and (b) the money in the fund to pay principal and interest on said bonds equals or exceeds all amounts coming due on principal and interest during the next following 12 months.

(3) At any time and so long as the money in the fund to pay principal and interest on the bonds of the district equals the total of the outstanding bonds and interest thereon to maturity.

(4) At any time after the bonds of said district and the interest thereon have been fully paid.

(5) On a public way or portion thereof, if the holders of not less than sixty percent (60%) of the outstanding bonds have agreed in writing that the maintenance of parking meters on said public way or portion thereof may be discontinued.

Any agreement to maintain parking meters on a public way shall not affect the right of a city, acting by virtue of its police power, to control, regulate or prohibit the parking of vehicles on any public way or portion thereof to the extent necessary to protect the public safety.

SEC. 23. This act shall not affect any other act or law relating to the same or a similar subject but is intended to provide an alternative method of procedure governing the subject to which it relates. When proceeding under the provisions of this act, its provisions and none other shall apply. The provisions of this act shall be liberally construed to effect the purposes thereof. No territory included within a parking district formed under the provisions of this act shall be included within any other such parking district or any vehicle parking district formed under any law of this State.

SEC. 24. No proceedings taken or bond issued under this act shall be held invalid for failure to comply with the provisions hereof; provided, the acts done and proceedings taken are not invalid under the provisions of the State or Federal Constitutions. Any procedure not herein expressly set forth but deemed necessary or convenient to carry out any of the purposes of this act is hereby authorized. This act shall be liberally construed. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portion of this act. The Legislature declares that it would have passed this act irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases thereof be declared unconstitutional.

SEC. 25. Any charter city using the provisions of this act may by ordinance modify the procedure specified by this act, provided that such modified procedure is not invalid under the State or Federal Constitutions or the charter of said city."

God of Our Fathers, Who didst lead Thine ancient people through desert wanderings into the promised land, and who didst guide our Pilgrim sires across the stormy seas to lay here the foundation of this Great Republic, we implore Thy blessing and guidance as we seek our place among the nations of the earth.

As we look upon the Flag, remind us of our duties and privileges as citizens of a land especially favored by our Creator

We bless Thee for the inspired souls who saw afar this shining city of God and by faith followed their vision.

"O beautiful for pilgrim feet,
Whose stern impassioned stress
A thoroughfare for freedom beat
Across the wilderness.
America! America!
God mend thine every flaw,
Confirm thy soul in self-control,
Thy liberty in law!"

In Jesus' name we pray.—AMEN.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 1, 1951

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 2309, entitled: "An act to amend Section 7372 of the Business and Professions Code, relating to the licensing of hairdressers, cosmeticians or cosmetologists."

My objections to this bill are as follows:

Apparently the purpose of this bill is to prohibit the use of the wall plate and therapeutic lights in the practice of cosmetology. The bill does not accomplish such a purpose. It merely provides that no questions may be asked in the examination for a cosmetology license concerning these instruments and processes.

If the bill were to become law it would leave these instruments in use by cosmetologists, but the board which determines vocational standards would be prohibited from asking questions concerning them in the qualifying examinations. To permit their use without any determination of the qualification of the applicant in their use would deprive the public of the protection which the act is intended to give.

I have given no consideration to the question of whether or not cosmetologists should be permitted to use wall plates and therapeutic lights, as that question is not involved in this bill.

Respectfully submitted.

EARL WARREN, Governor

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 4, 1951

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS. I am returning herewith, without my signature,

Assembly Bill 1647, entitled. "An act to amend Section 206 of the Revenue and Taxation Code, relating to property taxes and the exemption of personal property of churches."

My objections to this bill are as follows:

The purpose of the bill is not to grant exemption to churches, but to change the procedure for claiming such exemption. There is a difference in the procedure for claiming exemption under the welfare exemption provisions now exempting all church property and the church exemption applicable solely to real property. In an attempt to secure uniformity of procedure in claiming the exemption, this bill attempts to provide a second exemption for such personal property analogous to the real property exemption

In adopting this bill, however, there has been a failure to comply with a constitutional requirement. The Constitution in Section 14 of Article XIII authorizes the Legislature to exempt personal property from taxation "two-thirds of all the members elected to each of the two houses voting in favor thereof." The Senate Journal of May 18th shows that this measure was adopted by the Senate by a vote of 21 to 0. Thus the required two-thirds vote was not had in the Senate

This difficulty and the difficulty of having an undesirable duplicating exemption in the Revenue and Taxation Code could have been avoided had this bill been differently phrased The bill could have been in the form of an amendment to Section 255 of the Revenue and Taxation Code changing the procedure for the claiming of this exemption Had it been worded to do directly what it attempted to do by indirection, this difficulty could have been avoided

The failure of this bill will not affect the right of churches to this exemption. It will only affect the procedure for claiming it.

The veto of this bill has been suggested to the author and is agreeable to him.

For these reasons I am returning the bill without my approval.

Respectfully submitted.

LETTER OF TRANSMITTAL

ASSEMBLY CHAMBER
SACRAMENTO, CALIFORNIA, May 25, 1951

Hon. Sam L. Collins
Speaker of the Assembly
State Capitol, Sacramento, California

MR. SPEAKER: Your Fact-Finding Committee on Tideland Reclamation and Development in Northern California, Related Traffic Problems and Relief of Congestion on Transbay Crossings herewith presents its Fifth Report, dealing with the investigation and study of the San Francisco Bay Project—the Reber Plan.

The first hearings by this committee on the Reber Plan were held in Sacramento on May 16 and 20, 1949, in conjunction with the hearings on a second Bay crossing. At that time the committee recommended that: "The magnitude of the Reber Plan is almost beyond the scope of human imagination. It embraces many fields and the services of a number of specialists will be needed to complete a study of all its ramifications. This study should be undertaken and every possibility of the plan explored from all levels of government that would be affected by its acceptance."

Further hearings and conferences were held on:

Oct. 14, 1949—Public Hearing.
(Dec. 8-16, 1949—Hearings of Subcommittee on Committee on Public Works, U. S. Senate, on Transbay Crossings, Water Problems, and the Reber Plan. Attended by members of this committee.)
Feb. 22, 1950—Committee Conference.
Mar. 8, 1950—Committee Conference.
April 5, 1950—Committee Conference.
Dec 18, 1950—Public Hearing.
Mar. 7, 1951—Public Hearing.
Mar. 31, 1951—Public Hearing.
Apr. 6, 1951—Committee Consultants and Reber Plan Engineers Conference.

The voluminous reports and testimony presented at these hearings have been studied and analyzed by the committee and its consultants and it is significant to note here that the Reber Plan is the only approach to a master-plan for the San Francisco Bay Region so far submitted.

Because of this fact and extensive areas of agreement by all parties concerned with the Reber Plan, your committee submits the following report and recommendations

Respectfully submitted.

ARTHUR H CONNOLLY, JR.
RANDAL F. DICKEY
FRANCIS DUNN, JR.

House Resolution No. 174

Relative to the creation of the Assembly Interim Committee to Investigate Economic Discrimination Because of Race, Religion, or National Origin

WHEREAS, Many people of the State of California have voiced a belief that discrimination exists in employment opportunities because of race, religion or national origin; and

WHEREAS, Leading figures in all segments of political life in California have advocated an investigation and study of the problems of such discrimination; and

WHEREAS, Most Californians would disapprove of such economic discrimination because of race, religion or national origin, if such is found to exist within the State, and if such discrimination could be eliminated without undue restriction upon the employers and trade unions of California; and

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 5, 1951

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 2730, entitled: "An act to add Section 20631 to the Government Code, relating to the State Employees' Retirement System in respect to withdrawal of additional contributions."

My objections to this bill are as follows:

This bill applies to the State Employees' Retirement System. It would provide a means for the withdrawal of additional contributions heretofore made by members. Such right could be exercised either within 90 days after the member receives written notice of his right, or it could be exercised at the time of retirement.

Two objectionable features of this bill have been called to my attention by the staff of the Retirement System. First, it permits the system to be used as a savings bank, contrary to the established purpose of the Retirement System. Second, it would almost certainly result in bad actuarial practice in permitting "adverse selection" against the system. This might necessitate a more conservative mortality table to protect the system, to the detriment of those employees who leave their additional contributions with the system.

The second of these objections is the more serious. The adverse selection against the system would result from the tendency of persons below average health to withdraw

their contributions. Those in better health would tend to allow their contributions to remain in the system and provide life annuities. Thus, the system would remain obligated to pay annuities to persons with comparatively long remaining life expectancies, and be deprived of the shorter life expectancies which would ordinarily balance the situation.

The Retirement System advises me that the annuity rates used at retirement are lower than annuity rates generally used by insurance companies. One of the reasons for this difference is that the state system is not subject to adverse selection to the same extent as life insurance companies. In the case of life insurance companies, the purchase of annuities is optional and persons above average health tend to allow their annuity policies to go on to maturity, which corresponds to allowing the accumulated additional contributions to remain with the Retirement System. If the withdrawal privilege is permitted, it will almost certainly follow that a more conservative mortality table will have to be adopted to protect the system against the adverse selection. The result would be that those persons who do allow their contributions to remain would receive a correspondingly lower retirement allowance.

The Director of Finance objects to this bill, pointing out that this element of adverse selection affects the actuarial soundness of the Retirement System.

Because of these reasons I am returning the bill without my approval.

Respectfully submitted.

ASSEMBLY INTERIM COMMITTEE
ON GOVERNMENTAL EFFICIENCY AND ECONOMY

To the Honorable Sam L. Collins, Speaker, and to the Members of the Assembly:

Your Interim Committee on Governmental Efficiency and Economy has had referred to it a number of resolutions and the subject matter of several bills which were considered at the last regular session and the 1950 First Extraordinary Session of the Legislature.

House Resolution Number 183, dealing with the problem of possible conflicts in building regulations, has been under intensive study, and has been a subject of considerable interest to public agencies and to the professions and industries engaged in building. Because of this widespread interest, we have filed with the Assembly a separate report on that resolution.

This report is concerned with all other matters referred to this committee for investigation.

Respectfully submitted.

SATURDAY CLOSING OF OFFICES

The need for studying the question of permitting the closing of state offices on Saturday can best be stated by repeating House Resolution No. 300:

"House Resolution No. 300

"Relative to directing the Assembly Interim Committee on Governmental Efficiency and Economy to study the feasibility of closing state offices on Saturday

"WHEREAS, State offices are required by law to remain open on Saturday mornings, which unnecessarily increases the cost of State Government in those instances where there is not sufficient use of the office to justify it; and

"WHEREAS, Some state offices have their heaviest work load on Saturday and a study should be made of those offices to determine if, in the interests of the public and the employees, there are ways of distributing the work more evenly over the other days in the week and of better scheduling the working days and hours of the employees involved; and

"WHEREAS, There was legislation introduced and considered in this session of the Legislature dealing with the closing of state offices on Saturday; and

"WHEREAS, Action was deferred on such legislation because of insufficient information on the various problems involved in closing some or all state offices on Saturdays and of the general effect of such legislation upon the public and the state employees; and

"WHEREAS, The Legislature should consider the matter at the next regular session and therefor have full and complete information on the subject by that time; now, therefore, be it

"*Resolved by the Assembly of the State of California*, That the Assembly Interim Committee on Governmental Efficiency and Economy created at this session of the Legislature is hereby authorized and directed to ascertain, study and analyze all facts and data relating to or in any way bearing upon the subjects expressed in the recitals of this resolution, including but not limited to the operation, effect, administration, enforcement and needed revision of any and all laws and departmental policies in any way bearing thereon or relating thereto and to report thereon to the Assembly, including in its reports its recommendations for appropriate legislation or other action.

"Resolution read, and adopted."

The committee has considered this subject on several occasions, and held a public hearing in Sacramento on August 4, 1950, at which representatives of state departments testified concerning the effect on their operations of legislation which might permit Saturday closing of offices.

We find the facts to be as follows:

1. The Legislature has already authorized the closing of city and county offices; and many local jurisdictions have already exercised this authority. Almost without exception, the larger cities and counties have converted to a regular 5-day week, with little, if any, evidence of public dissatisfaction or impairment of public service. In all such cases, of course, necessary protective services, such as those provided by the police, fire and health departments are continued throughout the week

2. With exceptions mentioned below, it is the general belief of representatives of state departments that there is no benefit in the present arrangement under which offices are kept open with skeleton crews on Saturday morning.

3. With only skeleton crews on duty, there is little transaction of business between the departments of the State, because there is not enough staff or ready enough availability of records to permit such business to be carried on.

4. With the exceptions noted below, there is very little business with the general public in offices kept open on Saturday morning.

5. It is difficult to maintain skeleton crews made up of those who are familiar enough with all details of the work to render satisfactory service to those who do come to an office on Saturday morning. The result is that the people seeking assistance on Saturday morning must return at some other time of the week, anyway; and a generally unfavorable impression is left.

6 Operating skeleton crews creates management problems because of the necessity for arranging for compensating time off at another time in the week. This reduces efficiency throughout the week.

7. There would be savings, the exact amount of which are difficult to calculate, through the fact that staffs could be better organized on a straight 5-day week Morale would be higher, resulting in closer attention to duty.

8. The staff assisting this committee in its detailed study of the State Personnel Board, on which we reported at the last regular session of the Legislature, recommended that the board be authorized to close its office on Saturday, because of the obvious lack of any benefit in keeping the office open. The reasons for making that proposal at that time generally extend to all other departments.

9. There are obvious instances in which some offices would need to remain open. The Department of Agriculture has crop inspection activities which must be carried on at some times of the year without respect to time of day or week. The Department of Employment has a closely related problem of furnishing farm labor at certain seasons of the year. All law enforcement agencies and all institutions must obviously continue their work through all the days of the week. The State Department of Motor Vehicles, in its Division of Drivers' License Examining, has a particularly heavy demand on Saturday morning, and must therefore be permitted to remain open.

10. Any legislation permitting the closing of offices on Saturday must at the same time leave authority vested in someone to determine circumstances in which offices may remain open, and in any event such legislation should not prohibit the performance of work on days when the offices are not open.

Your committee recommends the following action:

1. That the appropriate laws be amended to permit offices to close on Saturday, provided that no office is closed where there will be substantial injury to public interests, and provided that the remaining schedule of each department is so maintained that the employees will be engaged for a minimum of 40 hours.

2. That departments wishing to keep offices open on Saturday morning do so only after a finding by the department head that such action is necessary to prevent serious impairment to the public interest, and after such finding has been approved by the Governor. Our purpose in proposing this approval by the Governor is simply to provide some degree of uniformity in the interpretation and application of this policy by the department heads. Not all departments of the State are directly subject to control by the Governor, but we believe that in this one instance of general public policy, the concurrence of the Governor will not constitute an interference with the independent agencies, and at the same time will insure uniformity of practice.

3. That in departments finding it necessary to keep offices open on Saturday, either with a skeleton crew or full crew, the department head make arrangements for providing compensating time off at other times of the week, preferably under arrangements by which the employees may take compensating time off in an equal amount of related time; that is to say, if employees must work three hours on Saturday morning they should be permitted three hours off at some other one time as true compensation for the inconvenience to them.

In conclusion, we wish to take special note of the serious problem of the Division of Drivers' License Examining in meeting an unusually heavy load each Saturday morning. The attitude expressed during the committee's hearings was that solving the scheduling problems of this division is the responsibility of the Legislature. In our opinion, it is entirely a matter of administrative discretion, and one with which the Legislature should not attempt to contend. Our only concern as a matter of public policy is, first, that in those cases where there is no gain in keeping offices open, they should be closed; second, that where the public would be greatly inconvenienced by closing the offices, they should remain open; third, that the State maintain a basic 40-hour week; and fourth, that compensating time off provided for employees who must work on Saturday be provided under as nearly compensating conditions as possible.
