Speech by Speaker William Moseley Jones.

January 4, 1937.

Members of the Assembly:

Upon taking the gavel for the first time as your Speaker, I do so with a deep feeling of gratitude in my heart. I am grateful, indeed, for the honor that has been bestowed upon me. More than that, I am grateful for your confidence in me.

I am deeply sensitive to the fact that there are many of you present with greater legislative experience than I; many of you of more mature years and judgment than I; many of you more competent to fill this office. The fact that men and women, such as you, have seen fit to place me in this position, leaves me not only grateful to the highest degree, but also with the deepest humility in my heart. I shall at all times feel that I am but your chosen servant, appointed in an administrative capacity to discharge faithfully a sacred trust.

I take this occasion to pledge you an administration of utmost fairness and impartiality, unrestricted by petty passions or prejudices. I pledge you further, my most diligent and unrelenting effort toward the end that this legislative session go down in the history of California as one of constructive and efficient accomplishment, made possible through the spirit of true statesmanship and political integrity.

The eyes of California are upon us. Our task is difficult. Our pathway will at times be obscure. Our problems trying to nerve and temper, but I have faith that out of it all will come great accomplishment, and that when we finally adjourn *sine die*, we may all look back upon this session as one in which we were proud to serve.

Our system of government vests ultimate sovereignty in all the people. We are their representatives. Political parties are the medium through which the popular will is expressed. To that extent political parties are important.

We Democrats are indeed proud that the people of California have seen fit to give us, for the first time in 43 years, a majority in this house. We are deeply sensitive to the responsibility devolving upon us. At the same time, we know that you members on the Republican side of the house are just as intent as are we, upon making effective, as legislation, those things which the people of California, by their vote, have impliedly or expressly authorized.

It seems fitting that I, at this time, briefly give you a personal interpretation of some matters of general policy which confront us.

From the standpoint of State expenditures, I am sure that all of us are keen to create an efficient State Government, but none the less—an economical government. In California for many years there has been a tendency to create duplicating, overlapping and often times, useless commissions and agencies This process has, to a more or less degree, been going on for many years. Conscientious study of this problem by all of us will, I am sure, result in many economies without impairment of the obligations we owe to our constituents.

It is gratifying, indeed, that our State, like every other State, now finds itself upon the golden highway to a prosperity such as has never been equalled, even in the balmy days of 1929. We all have confidence that this recovery is built upon a firm and lasting foundation.

Our tax revenues are increasing by leaps and bounds. It appears inconceivable that any new or additional taxes for revenue purposes will be either necessary or advisable. With proper economies, I think we may indeed look forward to the possibility of tax reduction With this as one of our aims, we can at least steer a pathway which will meet the approval of all the people of California.

I feel sure that with "Economy" as one of our aims, we shall none-the-less continue, without abeyance, the great forward progress of California and the whole United States in the field of social security and humanitarian legislation I am certain that we will all lend our best efforts toward liberalizing to the greatest degree possible, pensions to the aged, the widows, and the blind of California. Further than that, I know that we will seek to do away with any stigma of public charity in this connection, placing the whole matter upon the basis of right and responsibility. Nor will we, I am sure, seek to sacrifice upon the altar of economy, those unfortunates who are even yet victims of economic disaster We can, I am sure we will, improve upon our present system of unemployment relief.

During the economic crisis of the past few years, we have, on several occasions, found it necessary to protect the home owner from immediate foreclosure by mortgagees and lien holders. This protection, under the present law, expires on February 1st of this year. All of us, I am sure, will be deeply concerned with legislation designed to prevent wholesale foreclosures upon the expiration of the existing moratorium.

In the field of humanitarian legislation, our institutions are of utmost importance During financial stringency, we have, of necessity, fallen behind the standard which a progressive government should maintain. Let us repair this situation. I am sure we will.

Public education has always been the foundation of good government. Our schools and universities rank high among those of the Nation. They will continue to be of prime importance to every member.

Without placing blame, we nevertheless look with regret upon the labor disputes now existing in California. Let us endeavor in every appropriate way to help solve and settle these problems and to take such steps as will prevent any future recurrence. In this connection, I am not unmindful of the duty placed upon us by the Constitution to maintain inviolate the civil liberties of all our citizens. The protection of these liberties is of fundamental and paramount importance.

The proper development of our great natural resources is a reservoir of untold wealth and prosperity. Our Central Valley Project has long been dear to us. We hope for complete realization of our dreams in this regard. Our State is possessed of vast oil deposits in its tidelands. Development of these resources in such a manner as will provide the most advantageous return to the State is of vital concern.

In times of prosperity, we are often prone to forget the lessons we learned in times of stress Let us dedicate ourselves to the accomplishment of every safeguard against any repetition of the past economic tragedy. Proper regulation of business, in this connection, we know to be essential. Prevention of corporate and financial racketeering is also essential if our recovery be permanent.

Our Federal Governmet has already done much along those lines There is much we can do to supplement national legislation In all matters, I am sure that this Legislature and the Federal Administration, under the leadership of our great President, will work in harmony and accord.

I could not close this speech without a compliment to our great Bay District, upon the completion of one of its famous bridges. It is my hope that they may soon

be as free to use as our marvelous network of public highways, and that the collection of tolls will no longer be necessary.

This day, we have all been joined in a fraternity of responsibility. I know that this spirit of fraternity will exist throughout the session.

I know also, that though we may disagree, we will do so with understanding for one another's viewpoints. Out of it all I know that strong and lasting friendships will be formed during the months that are to come.

Again, I thank you all, and wish you success and happiness.

Resolved, That for the purpose of paying the expenses of such committee, in connection with the powers granted and the duties imposed by this resolution, and for the paying of the expenses of the necessary assistants of such committee, there is hereby appropriated from the contingent fund of the Assembly the sum of

REPORT OF THE ASSEMBLY INTERIM COMMITTEE ON LEGISLATIVE RULES, PROCEDURE AND PRINTING.

Submitted to 1937 Assembly of the California Legislature.

1935 ASSEMBLY INTERIM COMMITTEE ON LEGISLATIVE RULES, PROCEDURE AND PRINTING

Hon. Charles W. Lyon, Chairman, Los Angeles
Hon. Roy J. Nielsen, Sacramento
Hon. Joseph P. Gilmore, San Francisco

Resolution Authorizing Assembly Interim Committee on Legislative Rules, Procedure and Printing.

The following resolution was offered

By Mr. Lyon:

Assembly Resolution.

WHEREAS, This has been the longest session in the history of the California Legislature, the members thereof having worked twenty-five (25) days without compensation, and

WHEREAS, The extraordinary length of this session may be in part attributed to the antiquated and obsolete rules and procedure, and unsatisfactory procedure regarding the handling of legislative printing, and

WHEREAS, The time of this Legislature could be materially conserved and the cost of printing be reduced by the adoption of a better method of procedure, and

WHEREAS, It is estimated that the cost of legislative printing for the session will exceed the cost of printing of previous legislative sessions by over one hundred thousand dollars ($100,000) which might have been saved by better methods of procedure, and

WHEREAS, A proper and scientific study of the rules and procedure would result in large savings in this, the largest single item of legislative expense, therefore, be it

Resolved, by the Assembly, That a committee of three members be appointed by the Speaker to study and report on this matter to assist the next Legislature to consider the changes proposed, and be it further

Resolved, That the sum of two thousand five hundred dollars ($2,500) is hereby appropriated out of the contingent expense fund of the Assembly for the purpose of paying the necessary expenses of this committee and the members thereof and such assistance as they may deem necessary to carry out the provisions of this resolution

The resolution authorizing the foregoing Assembly Interim Committee appears in the final approved Assembly Journal on page 4965 The members of the committee, namely: Hon. Charles W. Lyon, Chairman, Roy J. Nielsen, and Joseph P Gilmore were appointed by Speaker Edward Craig, the appointment appearing on page 5120 of the approved Assembly Journal

Acknowledgment.

The Assembly Interim Committee on Legislative Rules, Procedure and Printing desires to extend its thanks to all State departments who have so willingly and cheerfully cooperated with them in working toward a more expeditious legislative procedure.

The committee is particularly indebted to Fred B. Wood, Legislative Counsel, John J. Hamlyn, Deputy Legislative Counsel, and to the other members of their staff, for many hours of consultation with the committee members.

While much of the work of the committee has dealt with future or proposed printing changes, naturally a large portion of the committee's time has been in collaboration with the State Printer and his staff. The committee desires to express its sincere thanks to George H. Moore, State Printer, and to the entire printing office; to Robert A. Gardiner, Supervisor of Documents, who with the State Printer has given his whole-hearted assistance in laboring with the committee through many months, all striving for a uniform, coordinated and orderly procedure.

Although space will not permit mention of all persons who have offered helpful and valuable suggestions, this committee feels, however, that the following persons have contributed much toward the preparation of this report, and to the following the committee is very grateful: Clarence H. Smith, Deputy State Controller; Charles J. Hagerty, Deputy Secretary of State; Jess Hession, Deputy Attorney General; Arlin E. Stockburger, Director of Finance; Fred W. Links, Superintendent of Accounts, Department of Finance, Frank Killam, Superintendent of Capitol Grounds and Buildings; Hon. George J. Hatfield, Lieutenant Governor, Hon. William P. Rich, President pro tempore of the Senate, Hon. Joseph A. Beek, Secretary of the Senate; to the members of the press, and to many members of the Assembly, both of the last and former sessions, who have attended hearings of the committee.

Members of the committee owe a deep debt of gratitude to Arthur A. Ohnimus, Chief Clerk, and to Fred J. Desch, Assistant Chief Clerk of the Assembly for their untiring efforts in working with the committee, without compensation. Their intimate knowledge of Assembly rules and parliamentary procedure, covering a long period of time, has been of invaluable assistance to this committee.

CHARLES W. LYON, Chairman.
ROY J. NIELSEN
JOSEPH P. GILMORE.

Statement of Transmittal.

To the Honorable Members of the Assembly,
1937 California Legislature.

GENTLEMEN: The 1935 Assembly of the California Legislature authorized the appointment of this committee. The resolution will be found on page 4965 of the final approved Assembly Journal. Appointment of committee members by Speaker Edward Craig will be found on page 5120 of the final approved Assembly Journal.

The resolution seeks a remedy for the lengthy session of 1935; it also seeks a remedy for the old and obsolete rules of procedure, which necessarily tend to delay and increase the cost of legislative printing.

The committee has worked hard and diligently, holding 15 meetings in Sacramento, San Francisco and Los Angeles. It has invited to its meetings all departments of State, and every member of the past session and members of previous sessions have received special invitations to attend the meetings in the various cities. Many valuable suggestions from these members are incorporated in this report.

It is the sincere belief of the committee members, that if the recommendations suggested herein are adopted, that the duration of the next legislative session will be shortened, and the cost of the session greatly reduced.

Respectfully submitted.

CHARLES W. LYON, Chairman.
ROY J. NIELSEN.
JOSEPH P. GILMORE.

Proposed Permanent Standing Rules for the Assembly for the 1937–1939 Session.

In submitting the following Proposed Standing Rules for the Assembly for the 1937 session, the committee believes that it is recommending a complete set of rules under which the Assembly may be expeditiously operated.

The committee, before proceeding upon its labors, wrote to every State in the Union, including the Federal Government, for complete information and rules under which the other States of the United States operate. The committee carefully digested these rules, adopting such ideas as seemed to simplify our own procedure, and has re-written many rules, which heretofore have had ambiguous meanings.

In addition to much time spent in an analysis of the rules of foreign States, the committee also made a thorough study of both Assembly and Joint Rules of the Senate and the Assembly under which these respective houses have operated since 1913.

The committee has sought, wherever possible, to simplify the language of all rules; to eliminate all so-called "jokers" or "trick motions", such as a motion to lay an amendment on the table, which, under the present rules carries the main question with it, and is not subject to debate, but will, under the proposed rules, merely result in laying the amendment on the table and not the main question. This will eliminate much confusion, and allow a vote on the merits of the main question.

A very important change recommended is proposed Assembly Special Rule No. 1. This rule provides that following the constitutional recess, the Assembly shall meet at two o'clock p.m. instead of ten o'clock in the morning, subject, of course, to the right of the Assembly to change this rule to conform to the necessities of the body.

This change will allow committee meetings in the morning and make unnecessary many of the night committee hearings, and immediately upon reconvening after the constitutional recess, give the Assembly a large number of bills ready for consideration, which undoubtedly will result in saving considerable time to the Assembly, and assist in eliminating the "jam" at the end of the session.

It is the belief of the committee that holding committee meetings in the morning will insure more complete hearings, and avoid inconvenience to those who come long distances, expecting to be heard, only to find that a call of the Assembly or adjournment of the committee for other reasons makes necessary their return to future committee hearings in connection with the matters in which they are interested. The adoption of this rule will allow committee chairmen to definitely set dates for hearings on controversial measures.

The committee feel that in addition to the comments and notes made following each of the proposed rules, indicating changes, that the more important rules and changes should have additional explanations. Following are such rules:

PROPOSED ASSEMBLY RULE NO. 4.

Order of Business.

The committee has rearranged Items Nos. 9 and 10 under daily "Order of Business" so that Item No. 9, "Business on the Daily Calendar" will precede Item No. 10, "Motions and Resolutions." This transposition will insure the immediate consideration of the routine business of the Assembly, and the consideration of its own bills, particularly bills calling for amendments, to be taken up before "Motions and Resolutions," many of which are highly controversial, and once debated, delay the consideration of bills until a late hour, and quite often, until the next day. We believe this change to be advantageous to every member, particularly in the early days of the session, and will work a hardship on no member.

PROPOSED ASSEMBLY RULE NO. 16.

Daily Calendar.

After careful study and consultations with many of the members of the Assembly, the order of business on the Daily Calendar was further rearranged, allowing the second reading of Assembly bills, and the second reading of Senate bills to precede the order of "Unfinished Business." The adoption of this rule will allow the printing of the sometimes voluminous amendments to reach the Printing Plant hours in advance of the present order of business, thereby insuring the return of the printed bill as amended for consideration upon the next day. This change will be particularly helpful to members during the latter days of the session when they have important bills up for consideration, and which should reach the Senate as quickly as possible. This order is soon disposed of, and will not interfere with the "Unfinished Business File." During the closing days, the "Unfinished Business File" becomes congested with bills returned from the Senate, in which numerous amendments have been inserted, and which often result in long debate as to concurrence or nonconcurrence in the Senate amendments.

PROPOSED ASSEMBLY RULE NO. 18.

Adjournment.

The resolution for adjournment sine die originally provided for a 28-day notice That rule was in existence when sessions of the Legislature did not exceed 80 days in length, and when the number of bills introduced and considered were approximately one-half the number acted upon by recent Legislatures. The rule was found to be unworkable as sessions lengthened, and the number of bills introduced and considered doubled. The rule, consequently, was changed to 14 days notice.

This time limit the committee now feels is likewise unworkable, due to the tremendous amount of business transacted by the last three Legislatures.

The committee believes that a resolution providing for a 7-day notice of adjournment sine die will stop the unwieldy and rather foolish custom of stopping the clock in order to beat the "dead-line" of time set for final adjournment, and then remaining in session for days after.

The advantage of this change in the rule, the committee feels, lies in the fact that when the resolution for adjournment sine die is adopted, each house of the Legislature will have completed consideration of its own bills, and will from then on consider only bills of the other house, subject of course to the provisions of

Proposed Joint Rule No. 24, which allows consideration of a bill in the house of origin when recommended by the presiding officer of that house and confirmed by a recorded vote of three-fourths of the members of that house.

The committee is of opinion the adoption of this change will aid in preventing the confusion always attendant upon the closing days of the session.

PROPOSED ASSEMBLY RULE NO 40.

Appeal From the Decision of the Speaker.

The change in this rule provides for greater security in the main question, whatever it may be. The one change in the rule states that if an appeal be laid on the table, such action shall have no effect on the pending main question.

PROPOSED ASSEMBLY RULE NO 43

To Lay on the Table.

The committee has endeavored, as stated in its "Foreword", to eliminate all so-called "jokers" from the rules. In past sessions, many new members, unaware of the provisions of this rule, had their bills killed. This was done by another member moving that an amendment under consideration be laid on the table. Under the old rule this meant that not only the amendment but the main question and everything that adhered to it was laid on the table. This committee has deleted this provision so that in the future, when an amendment is laid on the table, it will not carry with it a bill, constitutional amendment, concurrent, joint or house resolution.

PROPOSED ASSEMBLY RULE NO. 47.

Motion to Postpone Indefinitely.

Since the purpose of this motion is to kill whatever may be before the Assembly for consideration, the committee feels that a majority of the elected membership, rather than a majority of the members present, should be required to carry such a motion.

PROPOSED ASSEMBLY RULE NO 58.

Motion to Withdraw and Recall Bills.

Past experience indicates to the members of this committee that all bills receive fair hearings in committee meetings. It is the belief therefore that inasmuch as a recorded majority vote of the entire elected membership is necessary to withdraw a bill from committee and place it upon file, that the same vote should be required to withdraw a bill from a committee and re-refer it to another committee.

PROPOSED ASSEMBLY RULE NO. 60.

Motion To Rescind Action and Expunge Record.

In line with our idea of shortening and simplifying the rules, the committee has deleted a portion of old Rule No. 55, eliminating what was considered ambiguous matter. The major change to the rule is that no motion to rescind the action and expunge the record shall be made twice on the same proposition. We believe this amendment to the rule is self-explanatory.

PROPOSED ASSEMBLY RULE NO 66.

Amendments from the Floor.

Your committee feels that the adoption of this rule, as amended, will save considerable money without working inconvenience upon any member or subscriber. Many bills are amended with but technical changes, such as the correcting of misspelled words, punctuation marks, or the addition or deletion of a word or two. Many of these bills are amended four and five times before they finally go to the Senate, where these bills may again be amended.

Many bills that are frequently amended are also quite lengthy, often being from 10 to 20 pages in length. The cost of this printing of amended bills amounts to a large proportion of the legislative printing expense. The committee agrees that 750 copies of all amended bills are ample to take care of all ordinary needs. In many instances, these bills are amended two or three different days in succession, and so their value to anyone, other than a member of the legislature is naught, and in many cases great confusion and annoyance result to the members of the Legislature, especially in having the public obtain and refer to a copy of an earlier amended bill that has subsequently become amended.

PROPOSED ASSEMBLY RULE NO 82

Committee on Ways and Means.

In past sessions, many bills have been referred for consideration to the Committee on Ways and Means which were not strictly appropriation bills. The committee is endeavoring to relieve the Committee on Ways and Means of such bills by excluding from their consideration such departmental bills of State Government which do not increase or decrease the salaries or expenses of such departments.

PROPOSED ASSEMBLY RULE NO. 84.

Reconsideration of Vote.

In the minor amendment to this rule, the committee has clarified its provisions, so that it is no longer felt that its meaning is ambiguous, or that further delay may

be occasioned in considering its provisions. The rule now provides a specific definition of what may be reconsidered at the time a motion is made for so reconsidering, and what must lie over until the following day.

PROPOSED ASSEMBLY RULE NO. 85.

Authority for Printing.

The amendment to this rule provides that the State Printer submit invoices to the Assembly for all work performed within 30 days after such work has been completed. The Hon. George H. Moore, State Printer, states that this can easily and readily be done. It will greatly assist the clerical officers of the Assembly and the Chairman of the Committee on Rules in more intelligently auditing these bills in the future.

PROPOSED ASSEMBLY RULE NO. 86.

Printing Style, Form, and Amount To Be Printed.

The committee feels that requests by members for additional copies of bills shall be referred to the Committee on Rules. In past sessions, through no fault of individual members, many duplications of bills were needlessly ordered printed, and a larger number of bills printed than in many instances necessary. No harm can come from submitting these requests to the Committee on Rules, and we believe that a considerable saving of money will result thereby.

PROPOSED ASSEMBLY RULE NO. 99

Persons Admitted to Floor of the Assembly

To the provisions of this rule, the committee has given a great deal of thought. The committee has consulted with many members, representatives of the press and numerous state officers. After considerable deliberation, the committee is agreed that to expeditiously handle the tremendous amount of legislative work with which they will be confronted at the next session, that the floor of the Assembly should be entirely free from visitors, with the exception of guests of members who shall be seated only at the members' desks.

The committee is convinced that the adoption of this rule will create an orderly Assembly; will eliminate the confusion now existent, thereby allowing members to follow debate and be ready for roll calls without the necessity of the Speaker being forced to rap constantly for order. Much time can be saved. The rule further provides that a portion of the gallery shall be reserved for those guests of members holding cards.

The following is a complete set of proposed rules for the 1937 Assembly of the California Legislature. Following each rule will be a note indicating whether or not a change is suggested from the 1935 Standing Rules of the Assembly.

Proposed Permanent Standing Rules of the Assembly for the Fifty-second Session—1937-1939.

An appeal can not be debated when relating to indecorum, transgression of rules, or priority of business. A majority vote of the members present shall decide any appeal.

NOTE.—Was 1935 Rule No. 33. The third paragraph has been changed so that laying the appeal on the table will not carry with it the main question.

Motion to Amend.

48. A motion to amend may itself be amended, but no "amendment to an amendment" can be amended. A motion to amend is debatable, except where the main question to be amended is not debatable. Any motion to amend may be adopted by a majority vote of the members present.

A motion to amend having been decided in the negative, shall not again be in order on the same day, or at the same stage of proceeding. A motion to amend by striking out certain words having been decided in the negative, shall not preclude a motion to amend by adding words, or a motion to amend by striking out and inserting words; but in no case shall a further amendment be substantially the same as the one rejected.

Proposed Joint Rules for the Senate and the Assembly for the 1937-1939 Session.

In submitting the following proposed Joint Rules for the Senate and the Assembly for the 1937 session the committee has endeavored to clarify those provisions in the Joint Rules which during the past session seemed to cause some confusion

While the committee suggests numerous amendments to the Joint Rules, those considered of most importance are the rules dealing with the form and manner of amending bills; the distribution of bills to the general public; the time set for adjournment sine die, and clarifying the provisions of bills carrying urgency clauses. These will all be taken up and discussed quite fully in numerical order.

PROPOSED JOINT RULE NO 9.

Restrictions as to Amendments

This rule as amended deletes the provision of the Legislative Counsel examining all amended bills to see whether or not the amended material is germane to the title of the bill. This former provision in the rule has been unworkable and impossible of performance. With the deluge of work in the drafting of bills, the Counsel Bureau has more work than it can perform during the rush days of the session, and with their limited staff, can not possibly perform this additional work. The members of the bureau do everything possible to note errors and make corrections. During past sessions, committee chairmen have been extremely careful in seeing that amendments are germane, and an additional check has been made by Assembly desk officers when amendments have been before the house for adoption. The committee feels that this provision should not be a rule, when its provisions can not be enforced.

PROPOSED JOINT RULE NO. 10.

Changes in Existing Law To Be Marked by Author.

PROPOSED JOINT RULE NO. 12.

Printing of Amendments.

The committee has considered the provisions of these two proposed joint rules together, inasmuch as their context is somewhat similar. Both deal primarily with the substitution of brackets for the expensive strike-out type now used to indicate material to be deleted

In an original bill as it is now prepared by the Legislative Counsel for a member who desires to introduce the same when the Assembly has convened, the typewritten copy is set up as follows: Material which is to be deleted is set with strike-out type; that is, ordinary type with a line drawn through the center, illustrated as follows (~~This is strike-out type~~). New material which the author desires to incorporate into the bill is set up with a line underscoring the same, as follows. (This material is to be new matter.) After the bill has been introduced, it goes to the State Printer for printing. The printed bill will show all new matter in an italic type and all material to be deleted will be in the above indicated strike-out type. The composition of the strike-out type is slow and expensive, and its "proof reading" is extremely difficult.

In the original preparation of the bill by the Legislative Counsel much time is consumed, for as everyone knows, typewriters are not equipped with strike-out type and a great amount of time is naturally consumed by the stenographic service, who in reality must write the original typed copy and then again go over all matter to be deleted and strike a small dash through each letter to be deleted With the small staff available to the Legislative Counsel, and with the major portion of all bills introduced each session coming just a few days prior to adjournment for the constitutional recess, the committee believes that much time can be saved by the substitution of the brackets for the strike-out type.

When the original bill has been printed with the strike-out type, and is now to be amended, the following procedure must take place. The strike-out type of the original bill is removed, and new strike-out type inserted to indicate what material is to be deleted by the amendment In many instances this means almost the printing of an entire new bill The committee feel that the use of brackets will in no way destroy the simplicity or clarity of the changes proposed by the author of the amendments

The committee after numerous consultations with State Printer George H. Moore, earnestly advocate the adoption of this proposed change, as the State Printer estimates a saving of $50,000 (fifty thousand dollars) in legislative printing next session by this one change alone

PROPOSED JOINT RULE NO 13.

Distribution of Legislative Publications.

The change proposed by the committee in this rule is to eliminate the free distribution of all bills and legislative publications, except to members of the Legislature, the requirements of the Secretary of the Senate and the Chief Clerk of the Assembly for the proper functioning of their respective houses, the Legislative Counsel Bureau, Attorney General's Office, Office of the Secretary of State, Controller's Office, Treasurer's Office, Governor's Office and members of the press.

The committee has given more time, thought and deliberation to this rule than possibly all other rules. The committee recognizes the interest of the public in proposed and pending legislation, and their right to be informed However, the committee strongly feels that while the enactment of bills is a legislative function,

the supplying to the public of this State and many foreign States with copies of bills and other legislative publications is a charge that should rightfully be made against the State general fund. The California Legislature is commended or condemned by the public on the amount of money which it spends during a session

Past Legislatures realizing the increased public demand and the unwarranted charge against the Legislature for this printing bill, provided for a complete bill service to the public by the payment of $35 per session. Mr. Robert A. Gardiner, Supervisor of Documents, informs the committee that this service has grown each session since inaugurated. The members of the committee feel that very few persons can be interested in every bill introduced, and that those persons who are interested in all legislation should be and are in most instances willing and capable of paying for such service.

The committee makes no change in the rule existent for many sessions relative to the number of persons, organizations, libraries, etc., on a member's mailing list. The committee feels that every member of the Legislature is entitled to all legitimate requests for copies of bills and other legislative publications Libraries and chambers of commence can be taken care of by members without charge, these places usually being open to the public for inspection of all legislative publications

A check-up of the Chief Clerk's correspondence of the Assembly for several sessions past indicates that approximately 75 per cent of all requests for bills and other legislative publications, express a willingness to pay the cost of supplying the bills or publications so desired.

Careful perusal of the rules of the other States in the United States show that very few States have a State-owned printing plant. Legislative and all other State printing is contracted, and only minimum legislative needs are provided for. All requests for copies of bills in those States are referred to the private printer, who makes a charge, and naturally profits thereby. While this committee does not specifically recommend the Printing Plant being in business for profit, it does feel that a charge should be made to help cover the cost of printing, inasmuch as our records verify the willingness of 75 per cent of all inquiries to pay for the same.

This committee is proud of California legislative publications, which we consider on a par with and better than any other State publications we have examined. If the high excellence of this work is to be continued, a charge will be necessary and justified.

The number of bills introduced in each house since 1924 has been constantly on the increase, as well as the length of sessions. Prior to 1923, a 100-day session was little heard of, except for five or six sessions during early California history, when a then all-time lengthy session of 110 days was recorded in 1854.

The next 100-day session or over occurred in 1923 In 1933 a high record was made of 111 days and last session, that is for 1935, the session broke all records and lasted 125 days. That meant that the members worked for 25 days without pay The number of bills introduced each session has naturally grown, showing a steady increase each session until last session when the Assembly made another all-time record of introducing 2,719 measures.

While this tremendous increase in the number of bills introduced more than triples technical and clerical work in preparation, handling and amending the bills during the past ten years, the constitutional allowance for the employment of this service was reduced from $500 per day to $300 per day during the legislative session. This reduction has seriously impaired the handling of the legislative business.

The committee refers to the following extract from The Saturday Evening Post of February 29 1936 Taken from an article entitled "Washingtonia."

> "The Seventy-third Congress—which, in the number of its laws, as well as the character of its enactments, set a record—during its 266 days of sitting passed nearly 500 acts, almost two a day. Some 434 private bills were passed in addition. These were boiled down from 3806 Senate bills and 9968 House bills
>
> Copies of public bills and resolutions are kept in the document room at the Capitol, and there are bound volumes of them on the shelves of the House Library and the Congressional Library. One session which brought forth 6414 bills for both houses required 8310 additional printings, making a total of 14,724 bill printings.
>
> The various printings have names: Committee Print, from 25 to 100 copies, and often with repeated Confidential Committee Prints; Introduced Print, 1100 copies; Reported Print, 1100 copies, Engrossed Print, 25 to 100 copies; Referred Print—when sent by the Senate to the House or by the House to the Senate—1100 copies; Conference Print with Amendments, 20 to 50 copies, and often in series; Enrolled Print, one copy to be signed by the Speaker of the House and the President of the Senate, and Law Print, which varies, the average for the last session being 4299 copies
>
> The title of each bill, often excerpts, and all the amendments with the floor discussions are printed in the Congressional Record, which closed the last session with a circulation of 37,500 copies per issue, the largest in its existence, indicating the extent to which the general public is now watching

Congress. It costs between fifty-three and fifty-four dollars a page to print, which, for the first session of this Congress ran about 15,204 pages, or in monthly outlay, around $800,000."

The committee believed that the above quotation might be of interest, inasmuch as the National Government has felt that it no longer can supply the public free of charge with copies of bills and governmental publications, but has for some time past, made a charge to cover the cost of all such requests.

PROPOSED JOINT RULE No. 14.

Printing of the Daily Journal.

The amendment to this rule reduces the number of printed daily Journals from 1000 copies to 750 copies and also leaves to the discretion of the Secretary of the Senate and the Chief Clerk of the Assembly the number of bound volumes to be printed of the final, approved indexed Journal. The committee feels that the above number 750 copies is sufficient to supply all needs. When a public demands exceeds this quantity, it can readily be reprinted The committee is agreed that if a small price is placed upon this publication that the above number will be ample to supply all needs. A substantial saving will result in this printing item, if adopted. The preparation, editing and printing of the daily Journal is a rush job. The printed copy is available the following morning for the preceding day. Naturally errors creep into the carefully prepared copy. Members are oftentimes incorrectly recorded in their voting. Subsequent corrected and approved Journals must be printed. There has been a great waste in this publication in the past, and the committee feels quite certain that the above number of copies with a small price to cover its cost of printing will satisfy all needs.

PROPOSED JOINT RULE No. 15.

What Shall Be Printed in the Journal.

The committee proposes that the text of concurrent and joint resolutions be not printed in full in the Journal. These resolutions are printed in full the same as all other bills, and available in the Bill Room. While bills are not printed in full in the Journal upon their passage, this committee sees no reason for special treatment of resolutions, particularly since many are quite lengthy. The committee further recommends that House resolutions be so called, and for convenience, of the members, be numbered, printed and become a part of the Daily Calendar and History.

PROPOSED JOINT RULE No. 22.

Messages to Be in Writing Under Proper Signatures

This amended rule combines former Joint Rules Nos. 26, 27, 28, 29 and 30. Heretofore five rules indicated how messages were to be delivered and received from one house to the other. The committee believe the amended rule covers quite fully the context which formerly was contained in the five rules enumerated above.

PROPOSED JOINT RULE No. 23.

Passage of Urgency Provisions in Bills.

Much confusion has existed in the past on the passage of urgency provisions in bills. It was formerly a joint rule that where the urgency clause in a bill was refused adoption, the bill was then considered dead. This committee is of the opinion that the more fair way is to consider the bill on its merits without the accelerating feature of the urgency clause, in the event the urgency clause is refused adoption, and allowing the members to vote on the bill, to be effective, if passed and signed by the Governor on the regular 90-day period after the session has adjourned sine die.

PROPOSED JOINT RULE No. 30.

Report of Committee on Free Conference.

Formerly there was no limit to the number of times a Committee on Free Conference could be appointed and report on a particular bill. This committee feels that when three conference committees have been appointed and fail to agree, that it is useless to continue further deliberations, and that the bill be declared dead

PROPOSED JOINT RULE No. 32.

Press Rules.

The only amendment to this rule requires press representatives file a credential signed by their editor or publisher requesting legislative press privileges.

PROPOSED JOINT RULE No. 33.

Adjournment.

The argument given for the adoption of Proposed Assembly Rule No. 18 is equally applicable to this proposed joint rule. It is the purpose of each house to have all of its work finished 7 days prior to the day such resolution of intended adjournment is adopted. The number of days has been changed from 14 to 7 days and the resolution will provide for "intended," and not adjournment sine die.

PROPOSED JOINT RULE NO 34.

Dispensing with Joint Rules.

This committee recommends that the last four lines of old Joint Rule No. 46 be deleted. Formerly when it was discovered that in the passage of a bill by either house, some infraction of a joint rule had been violated, it was the custom to return the bill to the house of origin, and no further action allowed thereon. This committee believes that when such an infraction of the Joint Rules is observed, that the bill be returned to the house of origin for correction, or when desirable that a committee, to function with the same powers as a Committee on Free Conference be appointed to cure or remedy the defects as noted by the house returning the bill. The committee feels that this recourse will prevent a member from losing an important bill.

NOTE.—This committee has endeavored at all times in the re-writing of these rules to eliminate as many rules as possible and simplify every proposed rule so there will be no difficulty in interpretation.

3. Wherever the word "bill" is used in these rules, it shall include constitutional amendments, concurrent and joint resolutions.

NOTE.—Was 1935 Rule No. 4. Reworded. No change.

Joint Meeting of Committees.

4. Whenever any bill has been referred by the Senate to one of its committees, and the same or a like bill has been referred by the Assembly to one of its committees, the chairmen of the respective committees, when in their judgment the interests of legislation or the expedition of business will be better served thereby, shall arrange for a joint meeting of their committees for the consideration of such bill.

NOTE.—Was 1935 Rule No. 3. No change.

Concurrent and Joint Resolutions.

5. Concurrent resolutions relate to matters to be treated by both houses of the Legislature

Joint resolutions are those which relate to matters connected with the Federal Government.

NOTE.—Was 1935 Rule No. 5. Reworded. No change in substance.

Resolutions Treated as Bills.

6. Constitutional amendments, concurrent and joint resolutions shall be treated in all respects as bills; except that they shall be read but one time in each house and that they shall not be deemed bills within the meaning of section 2 of Article IV of the Constitution, and shall not be referred to the Committee on Introduction of Bills, and shall not require a vote to authorize their introduction. As in the case of bills, they shall be engrossed in the house in which they originate before being voted upon.

NOTE.—Was 1935 Rule No. 6. A word transposed. No change.

8. Bills amending more than one section of existing laws shall contain a separate section for each section amended.

PRINTING AND DISTRIBUTION OF BILLS

Manner of Printing Bills, etc.

11. The State Printer shall observe the following directions in printing all bills, constitutional amendments, concurrent and joint resolutions.

(a) The body of such bills shall be printed in solid unspaced form so that the same type shall be used both before and after enrollment.

(b) All titles of bills shall be set in italics, statute form, and the length of the lines used in the titles shall not exceed that of the body of the bill.

(c) The lines of all printed bills shall be numbered by page and not by sections, and amendments shall be identified by reference to title, page and line only; provided, however, that concurrent resolutions approving city or county charters or amendments thereto may be set in smaller type.

NOTE.—Was 1935 Rule No. 12. Sec. (d) of former rule deleted.

Printing of Amendments.

12. All bills amended by either house shall be reprinted; in the case new matter is added by the amendment such new matter shall be printed in italics in the printed bill, and in the case of matter being omitted, the matter to be omitted shall be enclosed in brackets. When a bill is amended in either house, the first or previous markings shall be omitted. When a bill amendatory of a code section or general law is engrossed, all figures or symbols shall be removed.

In the case of an amendment to a skeleton bill, which amendment actually sets up, for the first time, the wording of the bill, this rule shall not apply, but the use of italics and brackets shall be as in an original bill.

NOTE.—Was 1935 Rule No. 13. Brackets have been substituted in lieu of strikeout type.

Distribution of Legislative Publications.

13. All requests for mailing or distribution of bills and legislative publications shall be filed with the Secretary of the Senate or the Chief Clerk of the Assembly. Each member of the Senate and Assembly shall be permitted to submit a list of ten libraries, chambers of commerce or individuals. Except as hereinabove provided, no complete list of bills shall be delivered except upon payment therefor of the sum of $35, nor shall single copies of bills or other legislative publications be distributed free except to members of the Legislature, the requirements of the Secretary of the Senate and the Chief Clerk of the Assembly for the proper functioning of their respective houses; the Legislative Counsel Bureau; Attorney General's Office; Secretary of State's Office; Controller's Office; Governor's Office and accredited members of the press. The State Printer shall fix the cost of such bills and publications, and such monies as may be received by him, shall after deducting the cost of handling and mailing, be remitted on the first day of each month, one-half each to the Secretary of the Senate and the Chief Clerk of the Assembly for credit to legislative printing. Unless otherwise provided for, the total number of each bill to be printed shall be not more than 2,500.

(b) Every vote taken in the house, and a statement of the contents of each petition, memorial or paper presented to the house.

(c) A true and accurate account of the proceedings of the house, when not acting as a Committee of the Whole.

NOTE.—Was 1935 Rule No. 17. No change.

NOTE.—Was 1935 Rule No 18. Sentence deleted providing distribution, which is otherwise provided for.

Printing of History.

17. Each house shall cause to be printed on Monday of each week, during the session, a complete History of all bills, constitutional amendments, concurrent, joint and house resolutions originating in or acted upon by the respective houses. A regular form shall be prescribed by the Secretary of the Senate and the Chief Clerk of the Assembly. Such History shall show the action taken upon each measure up to and including the legislative day preceding its issuance. For each legislative day intervening there shall be printed a Supplementary History showing the action taken upon any measure since the issuance of the complete History.

Immediately following the adjournment for the constitutional recess, the History shall be compiled and printed to date of recess by the Secretary of the Senate and the Chief Clerk of the Assembly.

NOTE.—Was 1935 Rule No. 19. Rephrased. No change in context.

The Secretary of the Senate and the Chief Clerk of the Assembly are hereby authorized and directed between sessions to order and distribute for the members stationery and legislative publications for which there is a demand, and, subject to the rules of their respective houses, to approve the bills covering such orders. All bills for printing must be presented by the State Printer within 30 days after the completion of said printing.

PASSAGE AND ENROLLING OF BILLS

Passage of Urgency Provisions in Bills.

23. Upon the third reading of a bill which is an urgency measure within the meaning of section 1, Article IV of the State Constitution, the presiding officer shall direct that the section of said bill setting forth the facts constituting the necessity for such urgency (which shall be known as the urgency section) be then read and put to vote. The question shall be thus stated: "Shall this section, setting forth the urgency features of this bill, be passed?" If upon such final vote two-thirds of all the members elected to the house in which the vote is being taken shall not vote in the affirmative, no further action shall be taken on the bill; but, in case an identical bill without such an emergency clause be again introduced into such house, such bill shall be placed on file without reference to any committee.

NOTE.—Was 1935 Rule No. 32 No change.

Passage of Bills Preceding Final Adjournment.

24. No Senate bill shall be passed by the Senate, and no Assembly bill shall be passed by the Assembly within seven days of the intended time set for adjournment sine die of the two houses of the Legislature in the resolution of notice of intention to adjourn, unless permission to vote on such bill shall be granted by a three-fourths vote of the house of its origin after being recommended by the presiding officer thereof.

NOTE.—Was 1935 Rule No. 33. No change.

Enrollment of Bill After Passage.

25. the house in which it originated, and such disputed matter be considered in like manner as in Committee on Free Conference. The presiding officers of each house shall appoint committees in like manner and with like power of Committees on Free Conference.

NOTE.—Was 1935 Rule No. 46. Deletes last 4 lines of old rule. Adds Free Conference provisions.

Legislative Procedure.

While the Proposed Rules as rewritten for the Assembly in reality cover the procedure of the Assembly, the committee, in addition to a thorough study of the rules of all other State Legislatures in the United States, including the National Congress, has also, for the first time, undertaken to make a complete and exhaustive survey of all code sections which affect the operation of the Legislature.

Many code sections are old and obsolete. Many should be amended to make them conform to legislative rules under which both houses have been operating. This the committee has done. The Legislative Counsel Bureau have been furnished with a list of all suggested amendments and will have these bills prepared for introduction during the 1937 session.

The committee examined the following sections of the Political Code:

Sections 78, 225, 226, 227, 228, 229, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 252, 253, 254, 255, 256, 259, 260, 261, 266, 267, 268, 269, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 300, 301, 302, 303, 304, 309, 310, 311, 312, 313, 318, 323, 324, 325, 326, 327, 328, 329, 330, 332, 333, 334, 381, 396, 397, 398, 407, 408, 409, 410, 470, 526, 527, 528, 528a, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 539d, 540, 541, 542, 543, 889, 890, 891, 905, 906, 907, 920, 995, 996, 997, 998, 1000, 1067, 1068, 2295a, 2296 and 2297.

The committee examined the following sections of the Penal Code:

81, 82, 83, 84, 85, 86, 87, 88, 89, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753 and 1419.

The committee examined the following sections of the Code of Civil Procedure: 595 and 1054.

The committee examined the following Statutes:

1852:49:112, 1859:304:333 and 1931:123:169.

The following are the proposed changes which the committee recommends:

Political Code Section 241 "Form for statement of money required by State departments." The State Controller says this section is obsolete and can be repealed.

Political Code Section 242 "Form for members of Legislature." The State Controller says this section is obsolete and can be repealed.

Political Code. Section 243. "Claims against the State, statements to be filed." The State Controller says this section is obsolete and can be repealed.

Political Code. Section 244. "Controller to report amounts requested." The State Controller says this section is obsolete and can be repealed.

Political Code Section 247 "Elections and appointments" The committee recommends amending this section, taking out obsolete matter, so that the amended section will read "All officers and employees of the Legislature, except the President of the Senate, must be elected by the house to which such officers and employees are attached."

Political Code Section 249 "Duties of Judiciary Committee." This section calls upon the Committee on Judiciary to codify all laws. It is a function which the committee can not perform. The committee recommends repeal of the section.

Political Code. Section 250. "Judiciary Committee to codify laws when." This section likewise places upon the Committee on Judiciary a function of which it is impossible to perform. This work is carried on at the present time by the California Code Commission. Repeal section.

Political Code. Section 256. "Daily Journal of each house to be printed." The committee recommends that this section be amended so that the number of daily Journals printed and the number printed at the end of the session after it has been properly indexed by the Secretary of the Senate and the Chief Clerk of the Assembly, be determined by the Secretary of the Senate and the Chief Clerk of the Assembly.

Political Code. Section 259. "Duties of Sergeant-at-Arms." The committee recommend that this section be amended by deleting in the last line of the section the words, "and prepare checks for the same."

Political Code. Section 261. "Duties of officers of Legislature at close of session." The committee recommend no change in this section.

Political Code. Section 267. "Per diem and mileage of Speaker of the Assembly." The committee recommend that this section be repealed. This section is obsolete referring to the days when the members of the Legislature received only $1,000 for a 2-year term

Political Code. Section 268. "Salaries of Senate employees. Salaries of Assembly employees" The committee recommend that such classifications

as are obsolete, in so far as they pertain to the Assembly be deleted from the provisions of this section The committee refers to such classifications as mail carrier, gatekeepers, doorkeepers, janitress to ladies cloakroom, etc Those were days when the Assembly and the Senate operated with a daily allowance of $500.

Political Code Section 273 "Who may contest." This section, as do also the following sections to and including section 283 all deal with contesting elections for Members of the Legislature. The committee believe that this is all provided for in the Code of Civil Procedure, and recommend repeal of the sections. The Legislative Counsel Bureau has been requested to make a thorough check to see that no rights may be jeopardized by repeal.

Political Code. Section 274. "Statement of cause of contest to be filed" Obsolete. Committee recommends repeal. Provided for in the Code of Civil Procedure.

Political Code. Section 275. "Commission to take testimony." Obsolete. Repeal. Provided for in the Code of Civil Procedure.

Political Code. Section 276. "Notice to person interested, by whom served." Obsolete. Repeal. Provided for in the Code of Civil Procedure.

Political Code. Section 277. "Compelling attendance of witnesses." Obsolete. Repeal. Provided for in the Code of Civil Procedure.

Political Code. Section 278. "Testimony, how taken." Obsolete. Repeal. Provided for in the Code of Civil Procedure.

Political Code. Section 279. "Vacancy in commission, how filled." Obsolete Repeal. Provided for in the Code of Civil Procedure.

Political Code. Section 280. "Fees of officers" Obsolete. Repeal. Provided for in the Code of Civil Procedure.

Political Code. Section 281. "Testimony to be transmitted to Secretary of State. Duties of secretary." Obsolete. Repeal. Provided for in the Code of Civil Procedure.

Political Code. Section 282. "Depositions." Obsolete. Repeal. Provided for in the Code of Civil Procedure.

Political Code. Section 283 "Further evidence may be taken." Obsolete. Repeal. Provided for in the Code of Civil Procedure.

Political Code. Section 301 "Service of subpenas." The committee believe that this section should be amended to delete that portion of the second line of the section which now reads, "who might be a witness in the matter."

Political Code Section 302. "Failure of witness to appear, contempt" The committee feel that this section should harmonize with the section as provides for contempt in the Code of Civil Procedure. If a witness fails to appear when subpenaed, they should be cited into the superior court in the county where the contempt is committed.

Political Code. Section 324. "When joint resolutions take effect." The code provides no reference to concurrent resolutions. The committee recommends that they be included in this section, and are effective when delivered by the Legislature to the Secretary of State and properly chaptered.

Political Code. Section 333. "Reports, printing of." The committee believe that the provisions of Political Code section 354 fully cover the provisions here contained, and recommend the repeal of this section.

Political Code. Section 334. "Duty of Superintendent of State Printing." The committee feel that this section is fully covered by section 354, and that this section therefore being obsolete, should be repealed .

Political Code. Section 335 "To be printed in English." This section states that all reports are to be printed in the English language. The committee feel this section to be obsolete and recommend its repeal.

Political Code. Section 337. "Reports of Insurance Commissioner, distribution of." While the committee does not attempt to invade the field of other departments in its recommendations, this section is a part of the same article, and since this section has become obsolete through the adoption of a new Insurance Code, recommend its repeal.

Political Code. Section 527. "Number of documents to be printed" This section provides in addition to messages, documents, etc., printed in book form, there shall be struck off at the same time, 480 copies to be later bound with the journals of both houses as an appendix. The 1933 sessions limited this quantity to 100 copies, nearly all of which are still reposing in the archives of the Secretary of State. This quantity is ample in the opinion of this committee. The committee also recommends deleting the last two lines of this section which reads, "Of bills ordered printed, when the number is not fixed in the order, there must be printed two hundred and forty copies" The Secretary of the Senate and the Chief Clerk of the Assembly are given authority both in the Standing Rules of their respective houses and in the Joint Rules, and also in several code sections, to order such quantities as in their opinions will meet the needs of their respective houses.

Political Code. Section 528 "Distribution of laws. Fixing price. Enrolled bills." Lines 8, 9 and 10 of this section give authority to the State Board of Control to direct the State Printer to print any additional amount of the statutes, sell the same and credit the monies to the State Treasury. The Legislature is now charged, together with the Legislative Counsel Bureau with the cost of composition and printing, and any monies received from the sale of these laws should be credited to the Legislature. The committee recommends this amendment. Part 2 of this section directs the State Printer to print 240 copies of chaptered bills for the use of both houses. The committee recommends that this be amended so that the quantity will be fixed by the Secretary of the Senate and the Chief Clerk of the Assembly.

The last paragraph of this section dealing with Journals and appendices, shall be amended so as to clarify its provisions. The committee recommend that the section shall read that the State Printer shall have the laws, Journals of the Senate and Assembly and the appendices thereto, after they have been properly indexed by the Secretary of the Senate and the Chief Clerk of the Assembly, bound in such binding as the Secretary of the Senate and the Chief Clerk of the Assembly shall direct.

Political Code. Section 530. "Appointment of Superintendent of State Printing." As previously stated the committee does not desire to invade other departments. However, as this section follows in sequence, the committee believe that this section has now become obsolete, since the State Printer's office has become one of civil service, and therefore, recommend its repeal.

Political Code. Section 531. "Duties of Superintendent of State Printing." In the first paragraph the committee recommend an amendment authorizing the Secretary of the Senate and the Chief Clerk of the Assembly to receipt for all printing in lieu of the Sergeant-at-Arms. As all printing is ordered by these respective officers, receipt should also be made by them. In the second paragraph, exclude the Legislature from authority of the State Printer to revise, reduce or decline to execute any printing orders.

Political Code. Section 532. "Letting of contracts for paper." This refers to the State Printer. Again the committee makes apology for perhaps assuming responsibility not strictly in accord with legislative authority. However, the committee feel this section is obsolete, after consulting with the State Printer, and recommend its repeal. Its provisions are absolutely impossible of performance.

Political Code. Section 533 "Ruling, folding, stitching, and binding, contracts for." The committee recommend the repeal of this section, since its provisions refer to work to be performed prior to the time that the State of California established its own State Printing Plant.

Political Code. Section 537. "Warrants for wages" The committee after consultation with the State Controller and the State Printer believe this section obsolete and recommend its repeal. It deals with the manner of paying Printing Plant wages when monies in the general fund are exhausted Its provisions have been superseded

Political Code. Section 539. "Printing bills." The committee recommend the deletion of several lines in the middle of the paragraph reading. "Such bills or other documents shall have a separate order of comparison from the engrossed bill." That is not the procedure at the present time, nor desired

Political Code. Section 906. "Oath of members of the Legislature" While the committee feel that section 904 fully covers taking of oaths, however recommend that this section be amended to read that a member of the Legislature must take the oath before taking his seat in either house, and amend from the section that portion which now reads that he may take the oath of office at any time during the term for which he has been elected.

Political Code Section 2205a. "Publications furnished State Library." This section the committee feel, in line with the limitations placed upon all other State departments, should be amended as to that portion of the section which reads that of publications issued by the Legislature, there shall be furnished to the library as many as they may desire. This is to be amended, so that the quantity delivered will be as may be directed by the Secretary of the Senate and the Chief Clerk of the Assembly

Penal Code Section 737. "Officers liable to impeachment." The committee recommend, in line with constitutional provisions that this section be amended to include judges of the Appellate Court

THE CONSTITUTION

Although the members of this committee are in accord that the less tampering with the Constitution, the better, nevertheless it undertook, again for the first time a complete study of all sections which effect or deal primarily with the operation of the Legislature. The following articles with their respective sections were

Article XXIV, sections 1, 2, 3, 4, 5 and 6.

The following are the suggested changes in the Constitution of the State of California:

Article IV. Section 1a. "Effective Dates of Statutes of 1933." This section should be repealed as its purpose was to make bills effective as passed by the fiftieth regular session 90 days after May 22, 1933 and not 90 days after the recessed period or on or before July 16, 1933, the adjournment of the regular session sine die. It should also be repealed as another section bearing the same number was subsequently passed dealing with "Claims and Budgets" now in effect. Sections in the Constitution bearing identical numbers are very confusing, and become more so as time passes.

Article IV. Section 22. "Public Money to be Drawn Only on Warrant. No State Aid for Private Institutions, State Aid for Aged Persons, Needy Blind, Orphans, Abandoned Children, etc., and Panama-Pacific International Exposition." Another section in the same article bearing the same section number 22 reads as follows, "Public Money to Be Drawn Only on Warrant. No State Aid for Private Institutions. State Aid for Orphans, Abandoned Children, etc., and Physically Handicapped Persons" Both sections were adopted November 6, 1928. The context of both sections should be harmonized or renumbered The Legislative Counsel will examine and prepare whatever amendment is necessary to avoid confusion in interpretation.

Article IV. Section 23a "Legislature Expenses of Limitation." This amendment should be of interest to every member of the Legislature, for it vitally affects the work of each house and thereby affects the services performed for the members by the officers and attaches of each house.

Perhaps, a brief history of this section may clarify the proposed change recommended by the committee and explain the reason for the change.

The original text of section 23 (Constitution of 1849) provided that members of the Legislature shall receive a per diem not to exceed $8, a mileage not to exceed 10 cents per mile, and for contingent expenses not to exceed $25 for each session.

Although this section was revised in 1879, no further amendment was adopted until November, 1908. The section as amended then provided as follows: "The members of the Legislature shall receive for their services, the sum of one thousand dollars each for each regular session, to be paid at such times during the session as may be provided by law, and the sum of ten dollars each, for each day while in attendance at a special or extraordinary session, for a number of days not exceeding thirty; and mileage to be fixed by law, such mileage not to exceed ten cents per mile; and each member shall be allowed contingent expenses not exceeding twenty-five dollars per member for each regular biennial session

The Legislature may also provide for additional help; but in no case shall the total expense for officers, employees and attaches exceed the sum of $500 per day for either house, at any regular or biennial session, nor the sum of $200 per day for either house, at any special or extraordinary session

On November 4, 1924, this section was further amended, increasing the compensation of members to $100 each for each month of the term for which they were elected, to be paid monthly in the even numbered years and to be paid during the regular legislative session in the odd numbered years at such times as may be provided by law and mileage to be fixed by law, such mileage not to exceed 5 cents per mile.

This amendment in effect reduced mileage by one-half and eliminated the $25 contingent expense allowance for each member. The basis of pay for

members during a session was fixed at $12 per day until such time as the $1200 was exhausted. If the Legislature adjourns before the $1200 has been consumed, then whatever balance is remaining shall be paid in a lump sum to the member upon adjournment sine die.

At the time this amendment was adopted, a new section 23a was written into the Constitution reducing the appropriation for legislative officers, employees and attaches from $500 per day to $300 per day for any regular or biennial session and also reducing the amount from $200 per day to $100 per day for any special or extraordinary session. It would appear, therefore, as if the people reduced the amount of the allowance for help while raising the pay of members.

This committee believes that the reduction in the daily legislative allowance of 1924 was not justified and uncalled for, and has directly resulted in the Legislature being seriously handicapped, and in some measure responsible for the growing length of each session.

It was soon found that this great reduction in the daily allowance for help worked a hardship on the members, and that in order to satisfactorily perform legislative work, the services of additional help must be borrowed from other State departments. This has been done. Formerly the Legislature with its $500 daily allowance hired all of the people engaged in the reading of amended, engrossed and enrolled bills. This work is now largely performed by the State Printing Plant employees, at double the cost, and paid for by the Legislature. Other State departments have been called upon for borrowed help to perform needed legislative services. These "borrowings" have been properly charged to legislative expense. Therefore, the Legislature has been denied the hiring of its own employees, although properly charged for the same, and with no consequent saving to the people, in fact an additional expense.

While the daily allowance now available barely meets daily operating expenses, despite the fact that a portion of the excess over $300 per day is absorbed by other State departments, it is necessary to save from this $300 per day allowance, to provide for the necessary legislative work during the constitutional recess period of 30 days, and for the vast amount of detail work following adjournment of the Legislature sine die.

Members of the Assembly who have served three and four sessions state that correspondence from their constituents has increased 500 per cent over their first session. In order to satisfactorily handle this vast amount of necessary correspondence, adequate stenographic service should be available to the members. With the limited amount of money now available, this can not be done.

We believe it only proper and fair to mention that there has been no increase in the pay of officers and attaches of the Legislature since 1915. Every other State and private office or employment has given its employees an increase in salary or per diem allowance save the Legislature, and with the work of this body showing an increase of 300 per cent, these faithful employees have performed their services year after year and session after session without any increase whatsoever.

As the population of the State increased, so did the number of bills introduced and considered by the Legislature increase. Since 1923 when 833 Senate bills and 1489 Assembly bills were introduced, or a total of 2322 bills for both houses, we find a steady increase until the year 1933 when all records were broken with the introduction of 1358 Senate bills and 2668 Assembly bills, or a total for both houses of 4026 bills. During the last or 1935 session, all records were broken for the Assembly with the introduction of 2719 measures, while the Senate introduced 1232 bills. It may also be noted that last session was the longest on record with 125 days, while the 1933 session lasted 111 days.

So great has been the need for an additional appropriation to successfully operate the Legislature due to the tremendous increase in bills introduced, amendments to bills and other detail work, and the consequent increase in work placed upon the members by this volume of business, that amendments have been proposed to this section, asking for this needed additional appropriation.

The Legislatures of 1929, 1931 and 1935 each voted to place an amendment upon the ballot requesting the people to vote for the increased allowance.

Proposition No. 12 on the November 4, 1930, ballot termed "Legislative Help. Limitation upon Expenses Therefor" was defeated by the narrow margin of 9000 votes, the vote being YES—449,280 and NO—458,225, or a total vote cast of over 900,000. This amendment provided that each legislative house be authorized, by resolution to employ help, prescribe duties and fix compensation thereof; total daily expense for officers, employees and attaches not to exceed, at any regular session, $400 for the Senate and $450 for the Assembly, exclusive of salaries of the Secretary of the Senate and Chief Clerk of the Assembly, and, at any special or extraordinary session, $150 for each house, exclusive of salaries of such Secretary and Chief Clerk.

The amendment placed upon the November general election ballot of 1932

asked the people of the State for a small increase in the daily allowance. This too was beaten by but a small majority. At the last election, that is the November, 1936, general election, an amendment to this section 23a requested an allowance of $5,000 for each house to perform the necessary legislative work following adjournment sine die of the Legislature, as required by statute. This too has been beaten by but a small majority.

This committee feels that this section should be amended in order that the Legislature may properly carry on its own work. It is peculiar in that the Assembly can, from its contingent fund, appropriate money for almost every conceivable cause, yet it can not appropriate any money therefrom to complete a record of its own session, as prescribed by statute it must do.

In view of the amendments which have been placed upon the ballot and which have been unsuccessful, due to a lack of campaigning for their adoption, for it is apparent that there is no interest save from members of the Legislature, who have neither the time nor the money to expend in their behalf, this committee is of the opinion that the best way to place this amendment before the people is to exclude the per diem allowance of the Secretary of the Senate and the Chief Clerk of the Assembly. If necessary, the appropriation asked for may be reduced by the amount received by these two officers. Therefore, it could be advocated that only the smallest increase was being asked, and the Legislature could then expend the greater part of its constitutional allowance for help, as originally intended by the Constitution.

It is essential that certain officers of both houses be present during the constitutional recess and following adjournment sine die to sign enrolled bills, and in many instances cause corrections to be made in these enrolled bills where through some error, important provisions of original bills may have been omitted through hasty printing. Further, these officers are the only ones directly answerable to the Legislature to perform services for the members and the public, that no other State office could so satisfactorily perform.

Article IV. Section 31b. "Tax Liens. Presumption of Payment of Taxes after Thirty Years." Another section bearing the same section number 31b entitled—"Escondido Authorized to Hold Stock in Mutual Water Company" were both adopted November 8, 1932. These sections, in order to insure against future misunderstandings, should be renumbered.

Article XIII. Section 8a. "Reassessment of Property Damaged by Earthquake." The committee believe that the objective of this amendment to the Constitution has been served, and that it can therefore be repealed. The amendment provided for reassessment of property damaged in Orange and Los Angeles counties by the earthquakes occurring between March 10, 1933, and the first Monday in July, 1933. The Legislative Counsel has been requested to study this provision and ascertain if any substantial rights might be jeopardized by the repeal of this amendment.

Article XIII. Section 12. "Poll Tax. Levy of." This amendment adopted November 4, 1924, provides for the Legislature to levy and collect an annual educational poll tax of not less than $5 on every male inhabitant of this State over 21 and under 50 years of age, with certain exceptions. The tax so collected shall be paid into the State school fund. The provision has never been enforced. The committee has no recommendation to make.

Article XX. Section 22 "Intoxicating Liquors" Another section bearing the same number 22 and titled "Interest Rates" were both adopted November 6, 1934. Since both sections are important, and apt to be confusing due to identical numbers, the committee suggest renumbering

Application for a Writ of Mandate.

Assemblyman John Phillips, Chairman of the Assembly Interim Committee on Agricultural Marketing, instituted this suit after consultation with the members of this committee. It was first the intention of this committee to itself undertake clarifying the provisions of this section (23a) but after consultation with and the consent of the State Controller, the Hon. Ray L. Riley, the Chairman of the Agricultural Committee kindly consented to have the matter presented, and inasmuch as the cause of action of the suit to be brought by Mr. Phillips embodied all of the issues of this committee wanted adjudicated, it was thought best that the Phillips suit be filed and that the Committee on Rules assist in every way possible in getting a judicial determination to this vexing and heretofore confusing problem.

The suit as filed in the Supreme Court of the State of California is known as:

"John Phillips, as Chairman of the Interim Committee appointed to investigate problems connected with the marketing of agricultural products, known as the "Assembly Committeee on Agricultural Marketing," Zella Jones and Myron J. Bonham,

Petitioners,

vs

Ray L. Riley, as Controller of the State of California,

Respondent.

THE ISSUES.

I. Does section 23a of Article IV of the State Constitution, where its "Session" expense maximum has been reached, prevent the payment of compensation, by salary or per diem, of stenographers, clerks and others, necessarily employed by an interim committee of the Legislature in the performance of duties enjoined upon such committee by the resolution creating it?

II. Does said section 23a in such circumstances prevent said interim committee from making expenditures, other than by way of compensation for services of its employees, such, for instance, as the reasonable purchase price of transcripts, reports, exhibits, and other documents necessary in the efficient performance of its duties?"

Legislative interim committees in the past have found themselves utterly unable to function because of their inability to utilize the comparatively small amounts appropriated in the respective resolutions creating said committees, for the reason that they were unable to procure the necessary stenographic and clerical assistance, and/or purchase transcripts and reports, and acquire information indispensable to the proper performance of their duties.

This proceeding was also invited by the State Director of Finance and the Attorney General, who were equally desirous of seeing the above questions promptly determined.

The members of this committee and the chairman in particular have for a long time been of the opinion that when either house of the Legislature created a committee and authorized the expenditure of money allotted to them, that it was not the intent of that body to hinder or place any restrictions upon the committee to secure the information which the house desired.

The following is the opinion of the Supreme Court in re the application for a writ of mandate prayed to be directed to respondent Controller to compel the issuance of warrants in payment of claims for services incurred by a special committee of the State Legislature.

"WRIT GRANTED."

"The petitioner John Phillips, as Chairman of the interim committee appointed to investigate problems connected with the marketing of agricultural products, known as the 'Assembly Committee on Agricultural Marketing,' and others are here seeking a writ of mandate to compel the respondent Controller of State to draw, execute and deliver warrants for the payment of claims for services incurred by the special committee of the State Legislature appointed to investigate the problems connected with the proper marketing of agricultural products of the State. The due appointment of the committee by joint action of both houses of the Legislature is not challenged, nor is it charged that the committee has not full power and sufficient authority to carry out the letter and spirit of the resolutions creating it. In the interim between the close of the legislative session of 1935 and the convening of the session of 1937, the committee is pursuing the required investigations and studies necessary for the proper discharge of its duties. In the performance of these duties, the committee has incurred certain expenses deemed by it necessary and proper, and reasonable in amount. The respondent refuses to draw warrants for the amount of the claims for the sole reason, that in his view, to do so would violate the provisions of section 23a of Article IV of the State Constitution.

That section does not, in our opinion, apply to these claims. So far as here material, it reads as follows: 'The Legislature may provide for additional help; but in no case shall the total expense for officers, employees and attaches exceed the sum of three hundred dollars per day for either house, at any regular or biennial session, nor the sum of two hundred dollars per day for both houses at any special or extraordinary session, nor shall the pay of any officer, employee or attache be increased after he is elected or appointed.'

(1) We concur in an opinion but recently rendered by the Attorney General in advising a member of the State Senate on the precise question raised by this petition for the writ of mandate. We quote: 'Section 23a of Article IV, in our opinion, relates only to officers, employees or attaches of the Legislature engaged in work in connection with the legislative session proper, including post-session services, but does not prohibit the employment by interim committees of such additional help as may be found necessary, provided that the entire expense of such committee does not exceed the amount of money set apart to it by the resolution creating it. Any other construction of that section it seems to us, would, as a practical matter, render the work and studies of any such committee inadequate. In extensive investigations and studies phonographic reporters' services, for example, might be indispensable if the committee is to function with a proper degree of usefulness and efficiency.' Any attempt to erect the section as a bar to recovery on the claims now before the court, or similar demands reasonable in amount, and shown to be necessary, is to apply a forced and unnecessary construction on plain and unambiguous language. We are not unmindful of the language

used by the District Court of Appeal in *Hilborn* vs. *Nye*, 15 Cal. App. 298, 114 Pac. 801, and relied on with some assurance by respondent. The factual setup there and here are vitally different. The claims there considered were for services rendered by the duly appointed 'officers, employees and attaches' of the Legislature in closing up the work of the regular session. Further than to hold that such claims fall within the constitutional limit, the holding in the decision is mere dicta.

Let a writ of mandate issue as prayed for.

Signed (WASTE, C. J.)

We concur:

SHENK, J.
CURTIS, J.
LANGDON, J.
THOMPSON, J.

S. F. No. 15657. In Bank. May 21, 1936."

The committee is of the opinion that the above decision of the California Supreme Court will allow future legislative interim committees to function with a greater degree of efficiency, and be productive of more valuable information in the enactment of future statutes.

Conclusion.

The unprecedented change in economic conditions within the past decade call for simplification of rules and procedure to cope with these new conditions.

Each session brings new problems which are time consuming in their solution. Where no suitable remedy is found for these new problems, greater and more complex situations arise from the unsolved original problem, with the natural and attendant confusion. If a continued study of the rules and procedure could be made, cures for these unsolved problems could be submitted to the next Legislature and time and money saved.

Our study convinces this committee that rules and procedure must keep pace with the progress of the time. A daily session of the Legislature may easily be computed to cost in excess of $5,000 per day; therefore, we believe that the saving of time is the saving of actual money to the State; to individuals who are compelled to come to Sacramento to sponsor or oppose pending legislation and to the members. Be it remembered that the members are paid for a session of 100 days, and every day over that number is a service performed by them without compensation.

We further believe that a session of the Legislature should be as short as consistent with the transaction of such business as rightfully should be considered.

We believe that it is an imposition upon the members and the public to unduly prolong a session, and we feel that the adoption of these rules will materially assist in eliminating many of the time-wasting causes resulting in an unduly long session.

A tremendous amount of time is consumed each session in the interpretations of obscure rules. We believe that we have simplified these obscure rules, removing the highly controversial features, which heretofore have caused delay and argument.

This committee working with the State Printer has suggested numerous changes in the style of printing the Journal, which in our opinion will make it easier for a member and the public to obtain the ultimate action on a bill and obtain a clearer and quicker knowledge of the action on any measure printed in the Journal. We have suggested that the Printer make no change in form, but have advised the use of the boldface type in these actions. The printing of House Resolutions, recommended by this committee, will in our opinion save considerable money in fewer copies of the Journal being printed, for in the past, many of the members have found it necessary to have numerous copies of the Journal supplied them in order to obtain the House Resolution only therein contained. We believe this will simplify the procedure and save the house many hours in time during the session in looking up these House Resolutions, in many instances printed in Journals of days, and even weeks previous to the original action by the house.

We have omitted much of the detail work performed by this committee along this same line, feeling that space did not permit the full detailed report of the activity of the committee in its study of the rules and procedure of this and other State Legislatures.

We realize that this committee has not performed a complete study of all legislative detail work, for of necessity the members of this committee could not give their entire time to this work.

Every member and anyone interested has been invited to offer suggestions and advise this committee in its work, and if error may be found, it is only the committee, like all humans, is fallible.

We submit these proposed rules with the hope that the months of study and work may be the means of saving the Legislature a great amount of time and the people of this State considerable money.

We feel that if any of the major recommendations submitted by this committee are adopted, the expense incurred by it will be more than justified.

Respectfully submitted.

The point of order shall be decided by the Speaker without debate. If the decision of the Speaker be in favor of the member called to order, he shall be at liberty to proceed; if otherwise, he shall be required to keep his seat. Every such decision by the Speaker shall be subject to an appeal to the Assembly.

Members Called to Order for Offensive Words.

26. If any member be called to order for offensive words spoken in debate, the person calling him to order shall state to the Assembly the words to which exception is taken. No member shall be held to answer, or be subject to censure by the Assembly, for language used in debate, if other business shall have been transacted by the Assembly prior to exception being taken to the words spoken.

Members Voting.

27. Every member at his desk when a roll call is required, shall record his vote openly and without debate, unless the Assembly shall excuse him. All motions to excuse a member shall be made before the Assembly divides, or before the recording of ayes and noes is commenced. Any member requesting to be excused from voting may make a brief oral statement of the reasons for such request, and the question shall then be decided without debate by a majority vote of the members present.

A member may submit a written explanation of his vote on any bill or house resolution, and have such explanation printed on the Journal immediately following such vote, provided no such explanation shall exceed 50 words in length.

Thereupon no member shall be permitted to leave the Assembly Chamber except by written permission of the Speaker and no person shall be permitted to enter except such member as is taken into custody as herein provided, or Senators, officers, attaches or employees of the Legislature in the official performance of their duties.

Those members who are found to be absent and for whom no leaves of absence have been granted, shall be forthwith taken into custody wherever found by the Sergeant-at-Arms or his assistants, and brought to the Assembly Chamber. No recess or adjournment shall be taken during a call of the Assembly. During such call the Assembly may consider and transact any matter or business by unanimous consent. No call of the Assembly shall be ordered on any matter while the Assembly is already under call. A call of the Assembly may be dispensed with at any time upon a majority vote of members present, at which time the completion of the roll call pending when the call of the Assembly was ordered, shall become the immediate order of business before the Assembly.

Leave of Absence.

Sixth—To postpone indefinitely;
Seventh—To refer or re-refer;
Eighth—To amend.

40. Any member may appeal from a decision of the Speaker without waiting for recognition by the Speaker, even though another member has the floor. No appeal is in order when another is pending, or when other business has been transacted by the Assembly prior to the appeal being taken.

Upon the appeal being seconded, the Speaker may give his reasons for the decision, and shall forthwith put this question to the Assembly: "Shall the decision of the Speaker be sustained?"

An appeal can not be amended and yields only to a motion to recess or adjourn, to lay on the table, or a question of personal privilege. If an appeal be laid on the table, such action shall have no effect on the pending question.

An appeal can not be debated when relating to indecorum, transgression of rules, or priority of business A majority vote of the members present shall decide any appeal.

To Adjourn.

41. A motion to adjourn is not debatable and can not be amended, and is always in order, except (a) when another member has the floor; (b) when the Assembly is voting; (c) during a call of the Assembly. The name of any member moving an adjournment and also the hour at which the motion was made and adjournment taken, shall be entered on the Journal. Such a motion to adjourn must be adopted by a majority vote of the members present.

When such a motion to adjourn is made and seconded, it shall be in order for the Speaker, before putting the question, to permit any member to state to the Assembly any fact relating to the condition of the business of the Assembly which would seem to render it improper or inadvisable to adjourn. Such statement shall not occupy more than two minutes and shall not be debatable.

To Recess to a Time Certain.

42. A motion to recess to a time certain shall be treated the same as a motion to adjourn, except that such motion is debatable when no business is before the Assembly, and can be amended as to the time and duration of the recess. It yields only to a motion to adjourn.

To Lay on the Table.

43. A motion to lay on the table is not debatable and can not be amended. If carried by a majority vote of the entire elected membership, it carries with it the main question and everything that adheres to it; provided however, that a motion to lay an amendment on the table, if adopted, does not carry with it a bill, constitutional amendment, concurrent, joint or house resolution

A motion to lay on the table having been decided in the negative shall not again be allowed on the same day or at the same stage of the bill or question.

The Previous Question.

44. The previous question shall be put only when demanded by five members, and in this form: "Shall the main question be now put?" Motion to Postpone to a Time Certain

46. A motion to postpone to a time certain shall be deemed and treated as a motion to set as a special order.

Motion to Postpone Indefinitely.

47. When a motion is made to postpone indefinitely any bill, motion or amendment, it opens the main question to debate. Should the motion to postpone indefinitely prevail by a majority vote of the entire membership, the main question shall not be acted upon again during the session.

Motion to Amend.

48. A motion to amend may itself be amended, but no "amendment to an amendment" can be amended. A motion to amend is debatable, except where the main question to be amended is not debatable. Any motion to amend may be adopted by a majority vote of the members present.

A motion to amend having been decided in the negative, shall not again be in order on the same day, or at the same stage of proceeding. A motion to amend by striking out certain words having been decided in the negative, shall not preclude a motion to amend by adding words, or a motion to amend by striking out and inserting words; but in no case shall a further amendment be substantially the same as the one rejected.

Subject to the above provisions of this rule, a motion to amend is in order during the second or third reading of any bill.

Amendment to Be Germane.

57. All committees shall act upon bills referred to them as soon as practicable, and when acted upon each bill shall be reported back to the Assembly forthwith, and the chairman of each committee is charged with the observance of this rule.

Motion to Withdraw or Re-Refer Bills and Resolutions.

58 A motion to withdraw a bill or resolution from committee, or to re-refer a bill or resolution from one committee to another committee may be made during the regular order of business A motion to re-refer shall only be debatable as to the propriety of such reference.

No motion to rescind the action and expunge the record shall be made twice on the same proposition.

In re Liquor Investigation Pursuant to Assembly Resolution Adopted June 16, 1935.

To the Assembly of the State of California:

Your Committee on Liquor Investigation and Study begs leave to report:

In recognition of the necessity for a careful study of the problems involved in the sale and use of alcoholic beverages within this State, the Speaker was authorized by appropriate resolution of the Assembly to appoint a committee for that purpose. During the same session the Senate authorized a similar committee and these committees have held joint meetings and have conducted their study jointly.

Because of the nature of the subject involved, your committee determined at its first session that it would confine itself to investigations and studies strictly within the scope of the purposes as outlined in the resolution authorizing its appointment. If the committee's work was to be effective, it was necessary to avoid spectacular hearings and to steer clear of entanglements which might in anywise stamp the committee as one seeking the limelight of front page publicity.

We are not unmindful that California is a large State and that it comprises people of many minds and with many and varied ideas as to the proper method of solving not only this but all other public problems. We also realize that there are communities that demand strict enforcement and others so constituted that they are agreeable to any reasonable laxity which enforcement officers may extend. The committee, therefore, has endeavored at all times to adhere strictly to the problem from a State-wide standpoint rather than engage in or become involved in local questions or in personalities. In this report where we have referred to particular classes of businesses our remarks are not to be deemed a reflection upon the general business conducted by any particular firm or class of firms, but only to discuss the method of business of such firms in so far as it affects the solution of the problem here being considered. We have not attempted to minimize the seriousness of certain situations and tendencies developing from the return of the legalized use of alcoholic beverages nor to magnify the benefits, nor has the committee been influenced in its report by any political effect upon the committee which a free and frank discussion of the problem involved requires. We trust, therefore, that those who read this report will bear in mind that we are dealing with the subject from a state-wide standpoint and not from the viewpoint of any particular local community, except as such viewpoint may affect the State problem, nor have we attempted to weigh the evils or benefits flowing from the legalized use of intoxicating liquor against the evils and benefits of prohibition. Our hearings were open, impartial and uninfluenced. All persons were invited, and given an opportunity to express their views. Public hearings were held in Los Angeles, San Francisco and Sacramento, at which all interested parties and organizations were invited and did participate. Much valuable material was assembled and many valuable suggestions made to the committee.

When initiative petitions were filed submitting proposed constitutional changes relating to this subject, the committee found it necessary to delay further study until after the result of the election was known. The measures referred to were defeated at the November election.

Since that time the members of the committee have not been able to continue their studies and therefore are unable to submit in detailed form the recommendations which it believes necessary if our laws are to provide for an effective and proper administration of the sale and use of alcoholic beverages. We do feel, however, that it will be helpful to the members of the Legislature and to the public generally to be advised as to some of the suggested changes, as well as some of the complications which might interfere with the enactment of desirable regulation.

The Situation Upon Return from Prohibition.

While legalizing the use of alcoholic beverages was anticipated for some time before it became a realization, the return from prohibition found this State poorly and inadequately equipped to meet the many complications and situations which developed when the return became effective. Not only was the State poorly equipped in regulatory measures but the drinking public was in no frame of mind to immediately submit to strict enforcement and strict regulation. This was due to the fact that during prohibition many people felt that they were being deprived of their constitutional liberties by the prohibition of the use of alcoholic liquor as a beverage and, as a result thereof, there grew up among a great number of our people a general disregard for law and order and constituted authority in so far as alcoholic liquor was concerned, and it was difficult to reestablish in the minds of these people a belief that strict regulation and control was necessary if the use of alcoholic liquor as a beverage was to continue. The legalization of the use of such beverage was accomplished by initiative measures which did not have the benefit of open discussion, constructive criticism and argument which similar measures usually have when they emanate from the Legislature. The drafters of such measure were controlled, more or less, by the dominant demand for legalization of the use of such beverages, rather than with the idea of providing proper enforcement machinery. No doubt, such drafters thought, and perhaps rightly, that the peace officers of the various communities were adequate to and would see that no abuses grew from the use of such liquors.

In casting about for a proper agency upon which to confer the duty of licensing the sale of alcoholic beverages, the drafters of such proposal selected the State Board of Equalization. The fact that revenues were to be derived from licenses and taxes imposed upon the privilege of selling intoxicating beverages prompted the selection of this board.

At that time, the Board of Equalization had little or no experience in matters other than those pertaining to taxation and no experience in enforcing police regulations and were unequipped with an organization for such purpose. But by the return measure this board was endowed not only with the duty of licensing and collecting taxes, but also authorized and directed to enforce all laws, rules and regulations which might be adopted or provided for a proper regulation of the sale and use of such beverages.

Perhaps in the first instance it would have been far wiser to have created a special department to handle all matters pertaining to the use of alcoholic beverages, but however that may be, the Board of Equalization having been selected for such purpose, and the people by their vote having imposed these duties upon it, the members rose to the occasion and undertook the job, perhaps without enthusiasm, but at least with as much vigor as could be expected from any commission or board.

The constitutional amendment so imposing these duties upon the board was indefinite and uncertain in many respects and the board, in attempting to function, found itself in a realm of uncertainty not only as to its powers, but likewise as to its authority to impose and enforce proper rules and regulations.

The board likewise was without any organization and without qualified or experienced enforcement officers to aid in the performance of the many duties which necessarily developed when it took on these new functions. Not only was the Board of Equalization surrounded by uncertainty as to the meaning and effect of the repeal amendment, but the public generally was confused as to the power and authority of the board and not infrequently assumed that the board was endowed with power that it never in fact possessed. Because of this situation much unjust criticism has been made of the board and of its various members.

After four years of experience, and of "trial and error", to use our President's expression, we find that the board has built up an organization well equipped to meet any contingency if and when the laws are amended in some of the particulars which we will hereinafter mention. But complete and satisfactory enforcement and regulation can come only through cooperation of local police and of local peace officers. The entire enforcement of all police regulations was never intended to be and is not in fact vested in the Board of Equalization. All regulations looking to the general welfare must still be enforced by local police and not by the Board of Equalization.

One of the frequent criticisms directed against the Board of Equalization is that there are too many licensees as well as that many of them do not possess a sufficiently good moral character to justify their engaging in the liquor business. Perhaps there is some truth to the charges, but when one stops to consider that upon the repeal of prohibition many of the applications for on-sale licenses were made by persons theretofore engaged in the illicit sale or the illicit purchase and consumption of alcoholic liquor, it is not surprising that some of the licensees are subject to the accusations made. These are being weeded out as rapidly as possible. Not only have many licenses been revoked, but a reissue of many of the original ones has been denied. It is hoped that eventually all licensees will appreciate that strict adherence to laws and strict regulation and enforcement is in the interest of their own businesses.

In studying the matters referred to it, the committee gave consideration to the constitutional provisions and the present statutory enactments, and some report should be made concerning these matters and the recommended changes.

The Constitution.

Considerable time was devoted by the Senate and Assembly committees in attempting to bring the various interests together on what we deemed to be a desirable constitutional amendment. After considerable effort we found it necessary to abandon all hope in that direction. This did not deter others from causing other proposals to be circulated and placed upon the ballot. The recent defeat of these proposals makes it necessary for us to rely upon the present constitutional provisions for authority to legislate, for the power of the Legislature is, of course, circumscribed by the provisions of the Constitution, for that is the organic law of the State and legislative acts must not conflict therewith.

The present constitutional provision reserves to the State the exclusive "right and power" to license and regulate the manufacture, sale, purchase, possession and transportation of alcoholic liquor within the State. Therefore, the legislative bodies of municipalities and political subdivisions have no power to legislate upon such matters as are so reserved for exclusive control by the State.

The Constitution further provides that intoxicating liquors, other than beer, shall not be sold or consumed in any public saloon or bar, excepting, however, that such liquor notwithstanding such provision, may be sold and consumed in a hotel, restaurant or other public eating house, or in clubs, even though such place have all the outward appearance of the old-time saloon. It readily will be noted that the Constitution does not prohibit the sale of liquor without a meal nor does it require the serving of meals when liquor is served, but it only requires that provision be made for the serving of meals to such customers as may desire to eat, and only in such quantities as the customer may wish.

This explanation is made because of the common belief that saloons are prohibited by the Constitution, while in fact the Constitution expressly provides for sale and consumption of intoxicating liquor under the same conditions as existed prior to prohibition, except that such place must be equipped for and be prepared to serve meals to the public.

A careful consideration of the constitutional provision above mentioned would seem to authorize the Legislature to impose any needful or reasonable regulation,

not prohibitory in its effect, as may be necessary to properly regulate the liquor business in the interest of society and the general welfare of the State

By the Constitution, the Board of Equalization is given the exclusive right and power to license the manufacture, importation and sale of intoxicating liquors in the State and to collect license tax and occupational taxes from those engaged in such business, and perhaps have power to fix the amount of such license and occupational tax. Perhaps also such license fee and tax may be regulated and fixed by the Legislature, at least, the power is in either the board or the Legislature, and perhaps in both.

From what we have said concerning the present Constitution, it is apparent, except in two important particulars, which will be mentioned, that the power of the Legislature to properly regulate the business is not materially restricted.

The two exceptions are (a) the Legislature can not prohibit the sale and use of liquor, and (b) the Legislature can not delegate the power to license and regulate the sale and use of intoxicating liquor to the legislative boards of cities and political subdivisions of the State. Not only the power, but the duty of enacting proper legislation is reposed in the State Legislature, and the power and duty of enforcing and carrying out proper legislation is by the Constitution vested in the Board of Equalization, aided, of course, by the police. The duty of enforcing all police regulations and all laws affecting the general welfare is still in the police.

These preliminary observations are desirable in order that the suggestions hereinafter made may be understood and appreciated.

Local Control.

The committee encountered considerable sentiment in favor of local control. However, an effort to make local option effective in this State was defeated in the recent election. Just how far local option would be helpful in removing some of the objectionable conditions is somewhat uncertain In the recently published volume entitled "After Repeal", the authors at page 70 say:

> "We have discussed the number of ways in which restrictions have been placed on private trade in the license systems. It remains to consider local option as a special kind of restriction which has been widely adopted. Local option is in reality a form of prohibition which exempts a county, city or community from the general State liquor law. Technically, this privilege might be utilized to exempt certain areas from a dry statute, but in practice local option is employed to enact a local prohibition law in an otherwise wet State. Consequently the Local Option Law as administered is welcomed as a weapon by the militant drys, who, defeated in nearly every State of the Union, are seeking opportunities to check liquor selling town by town, city by city, and county by county, with the view of reaching ultimately nation-wide prohibition Every victory on the question of local liquor sale brings them nearer their goal, and every defeat is to them merely a lull until the next vote. Local option thus serves to keep alive agitation and uncertainty in regard to the status and legitimacy of liquor in a particular community. This is especially true of localities where wet and dry sentiment is nearly even. Thus, where a vote is necessary to resolve the issue, it becomes, on the contrary, a vital factor in prolonging the strife Communities are constantly torn apart over a social issue in regard to which some element of certainty and continuity would seem to be desirable"

Mr Archer Bowden, City Attorney of San Jose, and Chairman of the Public Relations Committee of the League of Municipalities, when before the committee at its hearing at San Francisco, suggested that certain licenses be designated "local license" and that certain local control over the issuance thereof be extended to local authorities He said:

> "The things we are primarily interested in are:
>
> "'Limitations on Issuance of Local Licenses The following types of licenses are designated as local licenses:
>
> On-sale beer, on-sale beer and wine, off-sale beer and wine, off-sale liquor, and hotel and restaurant.
>
> The board shall not issue any local licenses until thirty (30) days after written notice to the chief of police and the city clerk in the city in which the premises of the applicant are located, or the sheriff and the county clerk of the county in which said premises are located (if outside of incorporated territory) of the making of said application, and the furnishing to said respective officers of a copy of the application for said license'"

Mr Bowden further said:

> "I do not think it (the license) should issue for a longer period than three years, and provide that after a license was issued it could not be revoked unless you found the men guilty of a violation of a law or conduct against the public interest, or it was felt that the number of licenses should be reduced. In other words, give the licensee a measure of protection against a revocation which was, you might say, arbitrary. In other words, you could not have an arbitrary revocation, at least during the life of the license; and one draft put in provides for automatic renewal of a license, but the wisdom

of that, I do not feel. But, after all, the industry is entitled to some measure of protection in that, if the man's license is taken away from him during the period, or if they do not renew it, if it is a short license, that that should be done only in the event that there has been some violation or the board feels that the number of licenses should be reduced."

In speaking in favor of local option, such as was presented at the last election, Senator E. E. Grant, representing the Local Option League, appeared before our committee at Los Angeles and in support of his contention that local option was desirable, said:

"There was a clamor for 13 years for the right of the people to determine whether or not they wanted prohibition. That clamor finally took effect and resulted in the repeal of the Eighteenth Amendment.

Now, it is just as logical, conceding that the opinion of the country at least was that prohibition after 13 years was a failure, that State control has failed too, and in presenting our amendment (the local option amendment) to you today, we are presenting it on the basis that State control has proven a positive failure, in attempting to handle the liquor problem in the State of California, and merely shifting the control from the State Board of Equalization, as has been suggested by City Attorney Bowden of San Jose, will by no means solve the problem, but merely complicate it by giving a little more red tape to work with when your municipalities go up before the State board asking for revocation of certain licenses, or asking that certain licenses that are sought be denied.

In saying that State control has failed and in saying that the administration of the State Board of Equalization also has failed, does not necessarily mean an indictment of the State Board of Equalization as such, because I think the stress under which they are working has absolutely proven that you can not handle the subject of liquor administration by remote control, and the vice of that situation is a body meeting in Sacramento, or possibly, as has been suggested, having local branches attempting to handle a local problem, which they can not handle nearly as well as can local officials, and under that particular plan you will merely find the local officials, the police departments, the mayors and city councilmen going up before that body in Sacramento, presenting their case before them, why a saloon should be denied here or a saloon license revoked there,—by merely presenting that before a body, when they know in their hearts that they know more about the local situation than the ones who are going to pass judgment on it.

I do not attempt to compete with the experts on city government, who have addressed you today. They have studied the question of municipal administration over a period of years, and it would take me a good many years to be even in a position to speak on common grounds with them."

But whatever benefits may flow from local option, it is apparent that it can not be resorted to in the full sense of the word under our present constitutional provision. As we view the Constitution, however, it does not deprive the Legislature from providing for some supervision by municipal authorities. The extent of local supervision believed by municipal students to be desirable, was well stated by Mr. E. H. Spoor, a councilman from Redlands, and president of the citrus belt division of the California League of Municipalities to the committee at its meeting in Los Angeles on December 4, 1936, at which time Mr. Spoor said:

"Among the numerous proposals the committee has received from constituents was that on-sale liquor establishments, to which my entire reference is made, be limited according to the population. There has not been any particular crystalization of that sort. There has been a very definite preponderance of sentiment in favor of higher on-sale licenses, possibly not less than $1000 a year, which would eliminate so many little places springing up, and often as Mr. Stout well knows, cause a little festering point. As Mayor Dodge of Indio just stated, perhaps 85 per cent of their difficulties in Indio, which, while it is a small town of course, but they have that entire metropolitan acqueduct group, comes from transients and whores by droves coming in there to take care of these boys. They have quite a problem there, probably far in excess the size of the town would indicate. Mayor Dodge said that some 85 per cent of their difficulties locally are caused by 15 per cent of the on-sale liquor places. There seems to be a very definite opinion that the high license would be desirable towards keeping out a lot of these smaller and less desirable places, and keep the on-sale liquor in the hands of more responsible people.

"The committee's one point, which it feels very strongly, and the one point which will be stressed in its recommendations to the exclusion of all others, is that all Board of Equalization licensees should be approved by the local division of government, in the case of county areas by the respective boards of supervisors. Note that we say the councils and the boards of supervisors. We do not say the police departments or the sheriffs' departments. I need not go into detail on that. There is no reflection on any police or sheriff department. But the elected constitutional authority in the cities

is the city councils. In our sixth class cities, which of course predominate in California, our police departments are all appointive, not elected by the people, and they are consequently not accountable to the people as an elected officer. Therefore, we feel it should be handled directly by the city council. I presume that in a large metropolitan area, such as Los Angeles, the council would have to have a committee which would act on those things. The modus operandi we are not concerned with. We do not care to suggest details. We would feel it a little presumptuous on our part to do it. That is the important point, that the licenses, all licenses, be approved by either the council or the board of supervisors.

Now as pertains to existing licensees, we find that we are in a very difficult position when we have trouble. All of the gentlemen present have had trouble in their towns, the selling of liquor to drunks, the selling of liquor to minors particularly is coming to the fore. There is a great deal of it, and while the people as a whole perhaps do not give a damn what is done to the drunks, whether he buys another drink or gets dead drunk or not, they do care what happens to minors and they feel very strongly on that point. It is not possible for the local authorities to really accomplish much. They can go out and make a pinch, but you know what happens. The committee proposes as far as existing licenses are concerned, that in the event there is cause to take action in a case that the local city council or the local board of supervisors be given authority to close the place of business, not to suspend the license or to revoke the license, but to close the place of business pending a hearing before the Board of Equalization, or its representative of course"

During the discussion, Mr. Bowden suggested an amendment as follows:

"The board may refuse a license or permit if, in its opinion, the premises on which the applicant proposes to conduct his business do not meet the requirements of this amendment, or the statutes adopted pursuant thereto, or if, in its opinion, the character of the applicant, or its officers, partners, members or directors is such that violations of said amendment or statutes would be likely to result if a license or permit were granted; or if, in its opinion, licenses or permits already granted for the particular locality are adequate for the reasonable needs of the community. Upon written demand by an applicant who has been refused a license or permit, the board shall, in writing, state its reasons for such refusal."

concerning which he said:

"We felt that giving the board discretion to say there are enough liquor places in a given area at a given time is better than to put a population limit on, for the reason that it is hard to get a limit which would fit both moist and dry territory, and that the tendency of the board would probably be to go up to a limit if you should have a fixed limit."

These suggestions are worthy of consideration and are probably as far as we can go in that direction.

We are requesting an opinion from the Attorney General upon the power of the Legislature to provide regulations along the line suggested by Mr. Spoor, and upon receipt of such opinion this committee will give further consideration to such suggestions and will thereupon make its recommendations concerning the same.

We have made some investigation as to provisions enacted by other States covering local control of the issuing and revoking of licenses and we find a number of States have provided for some local supervision somewhat similar to that suggested by Mr. Spoor.

The provisions made by some of the other States relative to the issuance of licenses are as follows:

The Nevada Act provides:

"Application for any of the licenses hereinabove described shall be made to the county commissioners of the county in which the applicant resides or maintains his principal place of business. (Sec. 5—Par. 7061 CCH.) The county commissioners shall approve or disapprove such applications, and in the event an application is disapproved by the county commissioners, the county commissioners shall forthwith return to the applicant the license fee accompanying such application. If the county commissioners approve an application they shall forward it to the State Tax Commission of the State of Nevada together with their written approval thereof and the license fee accompanying the same. Upon receipt thereof the State Tax Commission * * * shall forthwith issue the appropriate license to such applicant. (Sec. 6—Par. 7065 CCH.)"

The New Mexico Act provides:

"The Board of Liquor Control is vested with exclusive control over the issuance of licenses to and collection of license fees from distillers * * * (Sec. 1001—Par. 7245 CCH.) In addition to retailer's * * * licenses herein required to be secured from and provided to be issued by the State Board of Liquor Control, municipal corporations within local option districts are hereby vested with power and authority to * * * prescribe the terms under which

Indiana also has a law which might very well be adopted as a model for California.

Limitation in Number of Licenses.

In Mr. Spoor's statement to the committee, hereinbefore referred to, he emphasized the desirability of reducing the number of licenses. Many others also took the same view. It is generally felt that there is no real necessity for so many such places and that a restriction in number would facilitate enforcement and promote the general welfare without any inconvenience to the consuming public. It has also been suggested that the number of licenses issued to one person or one corporation likewise be limited. Some go so far as to suggest that the sale of alcoholic beverages should be conducted in an establishment maintained for that purpose alone, thereby eliminating drugstores, grocery stores and similar places.

One of the suggestions concerning limitation was that licenses be issued upon a population basis. It was, therefore, desirable to know not only the number of licenses now issued but also the ratio they bear to population.

Mr. George Stout, the present Liquor Administrator under the Board of Equalization, furnishes the following information:

"RATIO OF "ON-SALE" LIQUOR LICENSES IN CALIFORNIA TO POPULATION.

NOTE: An "on-sale" license authorizes the sale of the alcoholic beverage specified in the license for consumption on the premises where sold, and to be eligible for an "on-sale" license, the premises must be a public eating place.* An "on-sale" beer and an "on-sale beer" and wine license also authorizes the exercise, with respect to the particular beverage or beverages mentioned in such license, of the rights and privileges granted by an "off-sale" beer and wine license. On trains and boats under such licenses, alcoholic beverages may be sold only to passengers or employees

In connection with the matter of reducing the number of licenses, it was also suggested to the committee that there should be a limit in the number which could be held by any one individual or concern. This, of course, brings into the picture the chain organization and the number of licenses held by such organizations and the effect of the merchandising plan of such organizations.

According to the information furnished us by Mr. Stout, there are 249 multiple license holders, of which at least 145 are properly denominated chain organizations. Of these organizations the Safeway Stores top the list, holding 1142 retail licenses within the State of California. Owl Drug Company comes next with 200; Modern Food Company, 175; Great Atlantic and Pacific Tea Company, 101; Sontag's, 92; United Cigar Stores, 82; Thrifty, 56, and the other being limited in their number of licenses only by the number of places which they maintain. The total of such multiple retail licenses being 3338.

It has been represented to the committee that many of the chain organizations openly disregard the fair trade practice rules and that the parent organization purchases liquor in large quantities, frequently in carload lots from out-of-State distilleries and distributes it to the various retail establishments within the State. That by so doing they profit as a wholesaler as well as a retailer, which enables them to market at profit many of the popular brands of liquor below the market price. It is contended that by so doing they unfairly compete with the independent liquor dealers.

One of the suggestions made to the committee is that a chain organization should be restricted in the number of licenses which the organization could have in any one community, leaving it to the organization to designate which of its stores would handle liquor, and that all such organizations be required to respect the fair trade practice rules.

Mr. Tonkin of the Wholesale Liquor Distributors Association, said at the Sacramento meeting:

> "We believe that the incorporation of certain fair trade practice rules in the relation between producers, wholesalers and retailers, would be desirable in the interest of social control."

Other States have been confronted with similar situations and have met them not only by enforcing fair trade practice rules but also by limiting chain organizations in the number of retail licenses which they may hold in any one community. The industry itself, with the assistance of proper legislation, can easily do away with unfair competition, and we believe should do so. The United States Supreme Court in *Old Dearborn Dist. Co.* vs. *Seagram Dist. Corp.*, 81 U. S. Adv. 130, pointed the way to a very satisfactory solution of this problem, and the same court at the same term sustained the California Fair Trade Act in *Pep Boys* vs. *Pyroil Sales Co.*, 81 U S Adv. 138. Perhaps our Fair Trade Practice Act should be amended so as to take advantage of all the suggestions contained in the decision last above referred to.

Some of the States where limitation of licenses held by chain organizations has been imposed are New York, Texas and Indiana. Perhaps other States also have limitations, but these three were brought directly to the attention of the committee. In Texas a chain organization may hold three retail licenses; in Indiana, one; and in New York, one.

What we have said concerning chain organizations is not to be construed as an indictment against such organizations as such, nor is it an indication that this committee, or any member thereof, is opposed to chain organizations. Our remarks are directed solely to the manner in which such organizations display and sell intoxicating liquor and the effect the method pursued by such organizations has upon the use and sale of liquor within this State.

Many persons have suggested a material reduction in licenses and have frequently advocated that the basis for issuing licenses should be predicated on public necessity and convenience and in no instance exceed one to each 1000 in population in the metropolitan areas. Some exception, however, should be made in the sparsely settled districts. This entire matter requires further consideration by the committee before making a final recommendation.

Advertising and Indiscriminate Display of Liquor with Food Products.

Considerable objection was voiced to the display advertisements of the various brands of liquor, the contention being that the character of the advertisement tended to mislead the youth as to the dangers which might follow the use of intoxicating liquor It is a conceded fact that if intoxicating liquor is to be used as a beverage it then becomes necessary to properly inform all children that the use of such liquor is detrimental both to the mind and body of the growing child and that the use even by an adult must be with moderation.

When considering this suggestion we found the distillers very cooperative and many of the objectionable advertisements then being circulated were immediately withdrawn Further restrictions in advertising, no doubt, will be effected by the distillers themselves It not, then this subject will require legislation

Probably the most persuasive argument against the display of alcoholic beverages in food stores along with food and food products is that such a display disarms the youth as to the lurking dangers in the use of intoxicating liquor as a beverage The places most frequently referred to in connection with this criticism are the chain organizations frequented by women and children when conducting household marketing and presents an additional and perhaps the most forceful argument in favor of limiting the number of licenses which should be issued to such organizations

The argument is very persuasive that the liquor business should be conducted independently and that persons engaged in general business, other than restaurants and hotels, should not be permitted to handle or sell intoxicating liquor at retail

Perhaps the most effective indictment against the indiscriminate mixing of the liquor business with general merchandising of food and other similar products was made by Mr. George Young Hammond State Superintendent of the Anti-Saloon League, to the committee at Sacramento at which time he said:

> "If we can do something to decrease the consumption of liquor, crimes and tragedies will decrease proportionately Now the question is as to what can be done under the present set-up in California as long as the policy of having liquor sold under the law is permitted I believe there is something very definitely that can be done by the Board of Equalization I get it that what this committee wants to do is make recommendations that will eliminate some objectionable features To me the most objectionable feature in the present set-up is the widespread advertising and display of intoxicating liquors When I came to Los Angeles, I went to a store to get a bottle of milk. There was whiskey along with the milk on the counter * * * To me, the display of liquor has a greater effect upon the minds of getting people to drink than advertising * * * This committee could do nothing better than to recommend legislation that would prohibit the advertising and display of intoxicating liquor There is no other purpose of advertising than to increase the consumption of the thing advertised As you increase the consumption of liquor you get more money but you get these other things along with it deaths on the highway, etc There is no net profit in regard to liquor when you subtract these other things * * * The State of California should not permit a program that is counteracting what is taught in the schools against the use of alcohol California has one of the best laws in the country providing for the teaching of scientific truths about alcohol to children in the schools, and outside of the schools you have one of the biggest programs for advertising liquor on billboards, in magazines and newspapers, liquor displays in store windows, and even alongside of milk in food stores * * * I think that my two boys are in far greater danger today than in the saloon days My father could warn me against going to a saloon but now where can my boys go and not find it, even where they buy candy They got people to vote for repeal on the grounds that the saloon could not come back; thinking the saloon is the root of the evil We say liquor should be sold in saloons where it can be watched But we don't advocate sale of liquor anywhere We would not have any part in selling liquor in any way; but would rather have it sold in saloons than in drug stores and milk counters as we have it today."

The committee feels constrained to acquiesce in the contention that many persons now licensed are wholly unfitted to carry on the liquor business and that these persons, because of their disregard for all rules and regulations, have brought more or less discredit upon all engaged in the retail business. A satisfactory plan to eliminate these unscrupulous persons from further participating in the liquor business is absolutely necessary. Strict regulations and strict enforcement is but one of the means by which this can be accomplished Perhaps a more effective means would be to make the procuring of a license far more difficult and the revocation more certain to follow violation, so that when once acquired a license would have a real and substantial value. The owner would then not wish to jeopardize his license by infractions of the law.

Importation to Avoid Tax.

A practice has been developed in the matter of importation of liquor for use by Federal officers and employees on Government Reserves, such as March Field, Mare Island and other similar places, which would seem to be a fraud upon the State. This liquor is not imported for the use of the Federal Government but for the individual. The practice now followed is for the negotiations for the sale to be made in this State but the actual shipment to be made from some other State, frequently from Phoenix, Arizona. Occasionally, liquor is shipped from California to Phoenix and then from Phoenix back to its destination in California, to avoid the tax. Originally, it was believed that all inter-State shipments were protected by the inter-State commerce clause, but in the recent case of *State Board of Equalization* vs. *Young's Market*, the United States Supreme Court held otherwise, and pointed out that the repeal provision of the Federal Constitution prohibits the transportation or importation of intoxicating liquor into any State in "violation of the laws thereof." It therefore would seem that under this decision the State would have authority to impose a tax upon all such liquor, especially where it is not for the direct use of the Federal Government itself. There can be no justification for a Federal officer, whether in the Army, Navy or other branch of the government, evading the payment of the tax imposed by California upon liquor used within the State. Under this practice, a Federal employee, when on a Federal Reserve, escapes the payment of the tax by resorting to the subterfuge of having the liquor shipped to the Federal Reserve. Not only does the consuming individual escape his fair share of the tax so imposed, but it results in an unfair discrimination against such of our local wholesalers who refuse to resort to the practice. Under the present scheme the local wholesaler has his choice of paying the tax himself or losing the sale, or becoming a party to the fraud of shipping out of the State and reshipping to the Federal Reserve. Not only is the practice to be condemned but it should be made impossible. The highest penalties should be imposed upon any one who is either a party to or who conspires to either directly or indirectly evade the provisions of the Liquor Control Act, or who conspires to evade the payment of any tax imposed upon the use of liquor within this State.

Complications Resulting from Changing Social Status.

In pre-prohibition days the public use of hard liquor was very largely restricted to men. Women and children were prohibited from saloons. The bars themselves were conducted behind closed doors. During those days more advocates of temperance insisted that such regulations were desirable, in fact necessary, as a warning to the oncoming generation and to the protection of womanhood.

Without suggestion as to the reason for the change, it it a known fact that during and since the war there was a noticeable relaxation in the moral and social structure in so far as the use of alcoholic beverages is concerned.

While our Supreme Court has frequently upheld legislation which discriminated against women in the use of alcoholic beverages and in the frequenting of places where such liquor is dispensed, legislation of such character would no doubt now result in a storm of protest by a large class of people who believe in equal rights and equal privileges irrespective of the effect according such equal privileges might have.

The present trend of thought seems to be that all bars should be open to all people, irrespective of sex, and that they should be permitted to partake of alcoholic beverages in such bars, with the doors wide open and in full view of the passing school girls and school boys. We hesitate to predict the effect on the oncoming generation of a continuation of this situation or to suggest a remedy. We think there is a remedy and that there should be a change. As already pointed out, there is nothing in our present law which prohibits minors from entering places where intoxicating liquor is sold, although the sale to persons under 21 is prohibited. Because minors may lawfully enter, bartenders as well as enforcement officers are confronted with a difficult problem. So long as minors may enter places of this character, there will be a probability of their procuring liquor even though no sale is made to them. The most difficult part of the problem is the inability of the average person to determine the age of either a boy or a girl when they are approaching their majority. Many girls are mature and frequently married long before they arrive at the age of 21 years. They have all the appearance of a girl of 25 and if inclined to the use of intoxicating liquor do not hesitate to falsify their age. Perhaps the Constitution may prevent the enactment of legislation which we deem proper to meet this situation, but in the meantime, we should afford additional protection not only for the children but for the licensee honestly endeavoring to obey the law. Such licensee is entitled to some protection from being imposed on by a person who possesses the looks but lacks the age.

The whole problem here being considered deals with the social and economic welfare of our people and perhaps, therefore, the remedy should start in the home rather than at the bar. A complete answer can not be found in enforcement alone and experience shows that it can not be found in prohibition. Home training, proper instructions at school and moderation in the use of intoxicating liquor by the par-

ents, would at least be helpful. In suggesting home training and school instruction we are not depreciating the present instructions given at school nor the training now given at home, but the changed social conditions and the relaxation of our people toward enforcement of rules and regulations designed for their own welfare, justifies our emphasizing the necessity for bringing home to the youth, during his formative period, the effect of the excessive use of alcoholic liquor upon his mental and physical development.

General Conclusion.

From what has been said it is apparent that there are a number of very important questions of policy which must be determined before recommending the form of legislation as to the particular matters hereinbefore referred to.

Before passing the general discussions we desire to call attention to the fact that the many important duties now imposed upon the State Board of Equalization would seem to justify the active participation of a board of five elective members Under the present Constitution the Board of Equalization is made up of four elective members and one ex officio member. By the Constitution the State Controller is made ex officio member. Since that provision was written into the Constitution the duties of not only the Board of Equalization but also of the Controller have so materially increased that the Controller is pretty much occupied by his primary duties, whereas the demands on the Board of Equalization should require one actively engaged in the performance of such duties continuously.

Under the present set-up the southern part of the State represents more than one-half the voting population and more than one-half of the wealth of the State, yet it has but one elective member on the board. This condition should be changed and an additional elective member given the southern part of the State. We say this without any disrespect to the present State Controller, for he has rendered as efficient service as his other duties permit.

Additional Suggested Amendments.

At the last legislative session, Senate Bill No. 919, introduced by Senator Pierovich, was adopted as the measure regulating the sale and handling of intoxicating liquor within this State. While this measure was carefully drawn and contains many helpful regulations, there are some particulars wherein it could be amended which would be helpful in enforcement and in aid of the general welfare of society and of the State. The following are some suggested amendments which we submit for your consideration:

(a) A provision should be incorporated prohibiting the sale by any licensee of any preparation, except liquors, containing more than 60 per cent of alcohol by volume. Alcohol as such has no legitimate use as a beverage and if alcohol is to be purchased it should be purchased at a drug store upon prescription, yet many unscrupulous persons sell alcohol knowing it is to be used for beverage purposes.

(b) In the interest of promoting fair trade practices, retail licensees should be prohibited from giving premiums or free goods in connection with the sale of alcoholic beverages. Not infrequently, some organizations within the State selling well advertised and well-known national brands of alcoholic beverages, as an inducement give a premium, such as a lemon squeezer, a quantity of limes or other merchandise. At first blush this provision perhaps does not seem to be important, but in view of the fact that the United States Supreme Court has recently upheld the Fair Trade Practice Act in California, it would seem desirable to prevent its violation both directly and indirectly.

(c) No manufacturer, rectifier, distiller, importer or wholesaler, licensed under the California Act, should be permitted to have or to be interested in more than one off-sale license or conduct more than one off-sale business for the selling of alcoholic beverages at retail, nor be permitted to be a director or stockholder in any corporation holding such license, nor be permitted to hold any mortgage or lien upon any personal or real property used in the conducting of a retail business. The purpose of this provision is to prevent a retailer from procuring a wholesale license when he is not really engaged in the wholesale business, but only secures the wholesale license for the purpose of enabling him to purchase from the distiller or rectifier liquor at wholesale for the use in his retail establishments. In connection with this subject one of the retailers made the following observation:

> "We have very fine high-class places that have both a retail and wholesale department and it is a very legitimate business; but there has been and is a lot of abuse particularly by the chain outlets in the holding of both wholesale and retail licenses. We do not want to restrict anybody that is legitimately operating. On the other hand, take for instance firms like Thrifty and Sontag. They obtain a wholesale license which enables them to go direct to the manufacturer and distiller and get merchandise at prices comparable to those paid by the wholesaler and yet they have none of the expense or overhead of the wholesaler; the only expense they have is for the distribution of their

merchandise to their retail stores, which is very small in comparison to what the wholesaler's overhead is. In other words, they are enabled to take double profit on all their liquor sales and the chains have been hard to control on the retail price for that reason. They are in great competition with your independent liquor store, grocery store and drug store and also that ties in with what we will discuss with reference to limitation of licenses. It is difficult to compel them to maintain retail prices as they can afford by virtue of their wholesale buying to undersell the larger types of retailer and consequently obtain a far larger volume than they are entitled to. In other words, chains like Thrifty Drug and Sontag should be compelled by law to make a choice between the wholesale and retail business"

(d) Re-define and re-classify manufacturers so as to prohibit the distiller from selling direct to the retail licensee, and add an amendment that an importer's license can be held only by wholesaler, rectifier or manufacturer. The purpose of this is to correct another abuse and prevent the distiller from selling direct to the retailer. It is said that some distillers come into the market and sell to the wholesalers and then compete with the wholesalers by selling in large quantities to the retailer at a price comparable to that charged the wholesaler;

(e) License all brokers engaged in the alcoholic beverage business at a rate comparable to that paid by the wholesaler. The present practice is for the broker to sell warehouse receipts. They are not engaged strictly in the sale of alcoholic liquor but indirectly they are and they compete in this manner with the wholesaler. Such a license would put them on the same basis as wholesalers.

(f) Provide for uniform opening and closing of all retail places and businesses. The provision now for closing at two o'clock a.m. is not in the Liquor Control Bill. Hours for opening and closing should be directly provided for in the bill itself.

(g) The provision relating to delivery of alcoholic beverage during closing hours should be changed. Wholesalers should be prohibited from making any deliveries to the retailer on Sundays or on election days or during closed periods;

(h) In keeping with our suggestion that a license be made a thing of value so as to be a deterrent against violation by the licensee, we believe that the provision for automatic expiration of licenses in the present law should perhaps be changed so that a license when once issued should continue until revoked. In connection with this there should also be a provision for the transfer of the license from one person to another with the consent of the Board of Equalization. There are a number of laws now relative to transfer of business. In some instances notice must be given as a protection to creditors. The present act should be so amended that these provisions of the general law can be complied with and the business and license transferred without the necessity of closing the place of business during the transfer.

(i) The license fee should be graduated. There is no good reason for requiring a person in a sparsely settled community doing only a small business, to pay the same license fee as one engaged in a similar business in the center of a metropolitan area. Perhaps a minimum fee could be established, plus a certain percentage on the gross sales. This would remedy one of the objections now made against large hotels conducting a number of bars in their premises all under one license.

(j) Bond should be required from all persons engaged in the business, both retail or wholesale, not only to insure adherence to law but also as a guarantee for the payment of all tax.

(k) A stiff penalty should be provided for any unlicensed person selling alcoholic beverage upon which the State and Federal tax has not been paid In this connection it might be well to incorporate a conspiracy provision in the present act, to make all persons who conspire to evade the payment of any tax or who conspire to evade any of the provisions of the act, guilty of a conspiracy. This would have a very wholesome effect, upon persons not directly engaged in the business, and would cause a more wholesome respect for the law.

(l) Provide for confiscation by the State officers of all liquor found in the possession of a licensee upon which no tax has been paid. Also, authorize the confiscation of automobiles and paraphernalia used in connection with processing, manufacturing or delivering of alcoholic beverages on which no tax has been paid. At the present time it becomes necessary for the State officials to call in Federal officers in order to confiscate bootlegging paraphernalia. If we could broaden the provisions of the act, the State officers could take action directly without waiting for the Federal officers to show up. In connection with this the State officers should be given the same power which the Federal officers now have for confiscation of illicit liquors and for the disposal of the same.

(m) Directly impose upon the local police the duty of enforcing all police regulations as well as the provisions of the act in so far as they relate to the general welfare.

(n) The license imposed upon fraternal organizations and bona fide clubs, serving only their members or special guests, should be less than regular bars, for such organizations are not engaged in the business of selling intoxicating liquors in the strict sense of the word but provide such liquor solely for the use of their members and their convenience.

Summary.

When considering the public welfare, in connection with the use of intoxicating liquors we are forced to the conclusion that the sale and use of such liquor for beverage purposes must be restricted and confined to times, places and conditions which will afford the greatest protection against the abuse of the privilege consistent with the individual's rights as guaranteed by the Constitution. Not only must the individual be restricted to a moderate use but it must be made certain that he shall not indulge to such an extent that he becomes a menace to society. Experience extending back over many years, both before, during and since prohibition, shows that a proper regulation of the premises used, times when and conditions under which sales may be made, is absolutely essential and that the more strict such regulations are the better it will be for all concerned. But strict regulation with strict enforcement will avail nothing, and strict enforcement can not be had without the cooperation of the public itself. Strict regulations, with willing and efficient enforcement officers, together with public cooperation, will do more than anything else to continue the use of liquor as a beverage with the least detrimental effect. Wise and thoughtful liquor men realizing this to be so are anxious that the use of intoxicating liquor be brought under complete control by limiting regulations and strict enforcement.

While we have arrived at certain general conclusions and made a number of specific recommendations, we have not attempted to place these in the form necessary for adoption. We are, however, having the Legislative Counsel Bureau prepare measures covering the suggestions made in this report which will be introduced, not with the idea that they will be adopted in the form originally presented, but as a basis for discussion and further consideration, not only by the members of the Legislature, but by the public generally

From the foregoing report it can be seen that the work assigned us has not been fully completed This, however, was through no fault of our own. The delay in our work was inevitable under the circumstances.

In view of the investigations thus far conducted, we believe it would be helpful to the Assembly and beneficial to the State if this committee were permitted to continue until after the constitutional recess, and that it be permitted to hold further meetings and hearings at various times and places until it shall have completed the matters heretofore assigned it. We will at a proper time submit a resolution so continuing the committee

Resolutions.

The following resolutions were offered:

By Mr. Patterson:

House Resolution No. 24.

Relative to memorializing the President and the Congress of the United States to enact legislation providing for a maximum working day and week and minimum wages.

WHEREAS, The severe financial and economic depression for several years past has resulted in widespread unemployment among persons residing in the United States, and a vast increase in the number of persons required to be maintained through public relief agencies, which, by reason of the depression are unable to bear the financial burden thereby imposed, with the result that large numbers of persons are in distress and want, and

WHEREAS, The number of persons unemployed can be reduced and their condition of want and distress ameliorated by spreading the existing amount of work available among a greater number of individuals by limiting the hours of service in public and private employment; and

WHEREAS, The spreading of employment among a greater number of individuals through limitation of hours of service will be economically useless and socially harmful if wages are at the same time lowered to a point where a decent and appropriate standard of living for the American people can not be maintained, and

WHEREAS, The problem of working hours and wages is not confined to any one State, but exists in a greater or lesser degree in all of the States of the Union, and it is apparent that the legislative bodies of the various States feel a varying degree of responsibility for the improvement of the condition of the working people of their State, so that it is improbable that the various States will enact legislation with uniformly high standards; now, therefore, be it

Resolved by the Assembly of the State of California, That this body respectfully requests and memorializes the President and the Congress of the United States to enact appropriate legislation to shorten the work day and the work week sufficiently to absorb the greater number of the unemployed, and to provide for wages at a level sufficient to enable the people to live in appropriate comfort and decency, and if it be found impossible to do this under the present form and interpretation of the Constitution of the United States, that the President and the Congress of the United States take appropriate steps leading to the necessary amendments to the Constitution, and be it further

Resolved, That copies of this resolution be transmitted to the President of the United States, the President of the Senate, the Speaker of the House of Representatives, and the members of the house of the Senate of the State of California

House Resolution No. 26.

Relative to unfair and sub-standard wages paid to heavy truck drivers and highway equipment operators-laborers employed in the civil service of the State of California.

WHEREAS, There are many heavy truck drivers and highway equipment operators-laborers, members of the Civil Service system of the State of California, working for the Department of Public Works, Division of Highways, receiving only 62 cents per hour for a so-called eight-hour day, which in many instances stretches into nine, or nine and one-half hours, without pay for extra time; and in Monterey County, in particular, where such employees are employed at that wage the recognized unions of employees of a similar degree of skill, and doing similar work, receive a minimum wage for truck drivers and equipment operators of 75 cents per hour for an eight-hour day, with time and a half for overtime, and double time on Sundays and holidays; and

WHEREAS, While 62 cents per hour might be a proper wage for the probationary period in the Civil Service, most of the employees here concerned are far past their probationary periods, and some of them have worked at this minimum wage for many years; and

WHEREAS, The cost of living has continued to rise during the period of service of these employees, and many of them are under the necessity of maintaining homes for their families elsewhere than at the construction camps where they are employed; and

To the Honorable Members of the Assembly,
Sacramento, California.

Assembly Bill No. 236—An act to amend an act entitled "An act relating to licensing and taxing of vehicles, providing for license fees for the privilege of operating certain vehicles, providing for the exemption of such vehicles from all taxes according to value for State, county or municipal purposes, providing for the administration and enforcement of this act, creating a fund to be known as the motor vehicle license fee fund, and making an appropriation of the moneys therein," approved June 25, 1935, by amending sections 2, 3, 4, 5, 6 and first section 9 thereof, by adding section 7a thereto, by repealing second section 9 thereof, and by renumbering third section 9 thereof to be section 10; and to repeal an act entitled "An act to require tax clearance by assessors and the State Controller as a prerequisite for the registration of vehicles by the Motor Vehicle Department," approved May 15, 1933, relating to licensing and taxing of vehicles, declaring the urgency hereof, and providing that this act shall go into immediate effect.

In my opinion said Assembly Bill No. 236 constitutes an urgency bill within the meaning of that term as used in section 4 of Article IV of the Constitution of the State of California, the consideration of which should not await final enactment of the Budget Bill.

COMPLAINT AND LETTER OF TRANSMITTAL.

SAN FRANCISCO, January 4, 1937.

Hon. Wm. Moseley Jones, Spcaker of Assembly.
State Building, Sacramento, California.

DEAR MR. JONES: On November 20, 1936, the Board of Governors of the State Bar of California unanimously adopted a resolution urging that appropriate action be taken by the fifty-second session of the Legislature of the State of California to remove Gavin W. Craig from his office as Associate Justice of the District Court of Appeal of this State under the provisions of section 10 of Article VI of the Constitution.

Accordingly I am presenting herewith a complaint on behalf of the State Bar against Judge Craig which prays for his removal from this office

Respectfully yours,

CLAUDE MINARD,
Secretary of State Bar of California

Before the Legislature of the State of California, Fifty-second Session.

IN THE MATTER OF THE PROCEEDING FOR THE REMOVAL OF GAVIN W. CRAIG AS AN ASSOCIATE JUSTICE OF THE DISTRICT COURT OF APPEAL OF THE STATE OF CALIFORNIA, UNDER AND PURSUANT TO THE PROVISIONS OF SECTION 10, ARTICLE VI OF THE CONSTITUTION OF THE STATE OF CALIFORNIA.

Complaint.

Comes now the State Bar of California, and complains against Gavin W. Craig, and for cause of complaint respectfully represents and alleges as follows.

I.

That the State Bar of California is a public corporation having power to aid in the advance of the science of jurisprudence and in the improvement of the administration of justice.

II.

That at the primary election held on the twenty-eighth day of August, 1928, Gavin W. Craig was elected an Associate Justice of Division Two of the Second Appellate District of the District Court of Appeal of the State of California.

III.

That thereafter said Gavin W. Craig took the oath and assumed the office of said Associate Justice of said court, and now is, and at all times herein mentioned has been a judge of said court.

IV.

That on or about the fourteenth day of March, 1935, an indictment was returned by the Grand Jurors for the United States of America, impanelled and sworn, in the Central Division of the Southern District of California, and inquiring for the Southern District of California, to the District Court of the United States, in and for the Southern District of California, Central Division, charging Gavin W. Craig with a violation of section 88, Title 18, of the United States Code, charging specifically that said Gavin W. Craig, together with others, with full knowledge and notice that an indictment and criminal prosecution was pending and undetermined in the United States District Court for the Central Division of the Southern District of California, did, wilfully, unlawfully, corruptly and feloniously conspire, combine, confederate, arrange and agree together and with each other, and with divers other persons, to corruptly endeavor to influence, obstruct, impede, hinder and to corruptly influence, obstruct, impede, hinder and embarrass the due administration of justice in said criminal proceeding pending in said court and district aforesaid.

That thereafter and on the eighth day of May, 1935, after the trial of Gavin W. Craig in the District Court of the United States, in and for the Central Division of the Southern District of California, under said indictment, the same being

Criminal No 12337-H, the jury impanelled therein returned a verdict finding the defendant Gavin W. Craig guilty, as charged in the first count of the indictment, the same being a violation of section 88, Title 18, of the United States Code, as hereinbefore described. Thereafter, and on the tenth day of May, 1935, a motion for a new trial was made and argued on behalf of the defendant Gavin W. Craig and was denied by the court, thereafter, and on the same day a motion in arrest of judgment was made on behalf of said defendant and denied, and the judgment of the court was pronounced that the said Gavin W. Craig be assessed a fine of $1,000 and committed to the custody of the Attorney General of the United States for confinement in a jail for a period of one year Thereafter, a notice of appeal was given on behalf of said defendant and an appeal taken to the United States Circuit Court of Appeals for the Ninth Circuit.

That on the tenth day of February, 1936, the judgment of the District Court of the United States, in and for the Southern District of California, Central Division, was affirmed by the United States Circuit Court of Appeals for the Ninth Circuit.

Thereafter, an appeal was taken on behalf of said defendant to the Supreme Court of the United States, and on the twelfth day of November, 1936, the Mandate of the Supreme Court of the United States was issued, affirming the judgment of the District Court of the United States for the Southern District of California, Central Division.

V.

That the said judgment of conviction conclusively establishes that said Gavin W. Craig has been and is guilty of an offense involving moral turpitude, to wit, conspiracy to obstruct justice.

That the said Gavin W. Craig will be unable during the period of his confinement in the said jail to exercise the powers and duties of his office.

That the said Gavin W. Craig, as a result of the matters herein set forth, has completely lost his usefulness as a judicial officer; that his continuance in judicial office serves to seriously affect the administration of justice, detracts from the respect due courts and judicial officers, and constitutes a serious reflection upon the judiciary as a whole.

WHEREFORE, The said State Bar of California respectfully requests the Legislature of the State of California to remove Gavin W. Craig from office as a Justice of the District Court of Appeal of the State of California in accordance with the procedure provided in section 10 of Article VI of the Constitution of the State of California.

Dated, January 5, 1937. THE STATE BAR OF CALIFORNIA,
By CLAUDE MINARD, Secretary.

The Governor then delivered the following Budget Message:

BUDGET MESSAGE OF GOVERNOR FRANK F. MERRIAM AS DELIVERED TO THE SENATE AND ASSEMBLY OF CALIFORNIA IN JOINT CONVENTION AT SACRAMENTO, THURSDAY, JANUARY 14, 1937.

To the Members of the California Senate and Assembly.

It is my pleasant duty again to welcome the Legislature to Sacramento, and again to extend with hearty good wishes the full cooperation of my office in your service to the people of California

Two years have passed since the State Legislature convened here in regular session; two years of progress and constructive accomplishment; two years that have witnessed a steady advance from conditions of deep economic depression.

When the Legislature met here two years ago our main purpose not only was to provide for the ordinary and regular needs of the State, but was to discover and apply workable methods for meeting an economic emergency.

At this time, our common endeavors should principally be directed to the preservation and extension of benefits derived from the administrative program submitted and approved two years ago.

As a result of the operation of that program to date I am happy to report the following outstanding facts

First. The State Government of California is operating on a balanced budget that includes all items for the regular functions of State Government, and also embraces an appropriation of $48,000,000 for unemployment relief. The expenditures of all State agencies have been maintained within the limits of State income.

Second. The 1935-37 deficit, which was estimated as high as $77,000,000 when the Legislature adjourned two years ago, and which included such items as $19,000,000 inherited from the preceding biennium, and $48,000,000 for unemployment relief, has been reduced to a total approximating $18,000,000. In other words, this administration has avoided a deficit on its own account and has reduced by about $1,000,000 the carry-over deficit.

Third. My budget recommendations for the biennium of 1937-1939 are based on the needs of the State and the prospective revenues for the two-year period, and they contemplate the wiping out of the present deficit within two years.

Fourth. If the Legislature does not approve expenditures and appropriations in excess of budgeted items, the people of California two years hence not only will have a State Government operating well within governmental income, but will have a substantial surplus which we now estimate will exceed $21,000,000.

Fifth. When the existing tax schedules and revenue measures were laid before the Legislature during the session of 1935, it was assumed, on the basis of information then available, that the program recommended would be adequate to meet all ordinary and necessary expenses of government. Experience has shown that our estimates of probable revenue were, in most cases, conservative, and that such estimates have been under actual returns occasioned by a general and consistent recovery of agricultural, business and industrial operations in California and elsewhere in the Nation.

No New Taxes.

Sixth. That this fortunate trend will continue without undue abatement we have strong reason to believe and I, therefore, recommend that no new taxes be assessed, and that the existing tax program and schedules be retained unchanged for another two years. To abandon a program that has, on the whole, proven equitable, sound and satisfactory, and adopt a new plan at this time might completely reverse the excellent situation now existing and again precipitate State finances into a perplexing and costly muddle.

All groups in our population will welcome a guarantee that no new taxes will be levied by the State It is a guarantee which could not be made two years ago.

Its ratification by the Legislature at this session will constitute definite and positive evidence both of the progress of economic recovery and of the economical management of State affairs.

Accomplishment of the excellent condition of the State's finances has been made possible by two fundamental factors, the first being the rapid improvement in business, and the second to constant exercise of rigid economy in every branch of the government to which the administration's policies could be extended. Needless to explain, except for the loyal and self-sacrificing cooperation of State officers and employees, this policy could not have been carried out with any degree of success

Economy, during the last two years, has been an ever-present necessity—a necessity which continues, despite improving prospects. Furthermore, should our improving economic situation encourage us to even greater optimism with regard to expanding business conditions and a subsequent increase in revenue beyond present estimates, I regard governmental economy as a virtue to be practiced at all times in order that the taxpayer may be saved any and all unnecessary burdens and costs

By spending less than we collect, by saving all that we can, by increasing efficiency without unnecessarily adding to expenses, we shall eventually take the next great step in a return to the normal functions of good government—a reduction in taxation.

Budget Kept to Minimum.

Examination of budgeted items recommended for the next biennium will show that with very few exceptions the recommended appropriations subject to the Governor's authority do not exceed amounts appropriated for the present biennium. Such increases as do appear are for the most part determined by fixed charges and by recurring outlays of public moneys.

The tasks which the Legislature and the Governor are required jointly to perform afford no occasion for the injection of political partisanship, or for any objective other than the advancement of general public welfare.

It is upon such a premise that I submit this budget and ask your consideration of the recommendations contained therein. You may rely upon my ready assistance in any matter which members individually, or the legislative bodies themselves, may bring to my attention.

Appropriations for the various State institutions have proved adequate for minimum requirements in most instances But it should be borne in mind that while the State has not neglected its charges, the need for additional housing facilities, and for other accommodations, remains a vital and pressing problem.

It has been necessary to provide additional support for some institutions, notably for State hospitals, where the inmate population has increased. It is estimated that this increase for the ensuing biennium will be not less than 7½ per cent

State Building Program.

At the Veteran's Home the increase in population will bring the membership to a maximum capacity of 1500 An appropriation of $449,000 for major construction at the Veteran's Home is recommended This building program, among other things, will permit the replacement of one of the old and unsafe barracks building

The construction program proposed for all institutions in this biennium is embodied in recommendations for a total appropriation of $6,201,000 for major construction For such construction during the current biennium an appropriation of $4,095,750 was made available

In 1935 there was presented to the people a bond issue for the construction of State hospital buildings and additions to State Capitol and State office buildings Refusal of the voters to approve this bond issue despite the imperative need for new buildings and betterments, and in the face of extremely deplorable conditions in many of our institutions, may be interpreted for the time, at least, as indicating that the people prefer a "pay-as-you-go" plan in the construction of needed State buildings.

Construction of two steel and concrete, four-story buildings on sites at the intersection of Twelfth and N Streets Sacramento, has been made possible from funds of the Department of Public Works and the Department of Motor Vehicles The cost of each building will be amortized over a period of years through rentals which each department would have been required to pay to private owners to meet present and expanding needs At the end of five years both structures will have returned to the respective fund the moneys advanced for construction purposes In each case the rental is computed at a lower rate per square foot than is otherwise available.

New State Prison.

In keeping with the Legislature's authorization for purchase of a site for construction of a prison in southern California for certain types of offenders, condemnation proceedings for the acquisition of a tract of land near Chino, in San Bernardino County, have been instituted by the Attorney General.

The site selected was chosen after a careful survey of many locations. It was not offered for sale by the owners, and in subsequent negotiations looking to purchase of the property it was decided that the best interests of the State would be served by condemnation proceedings.

The Federal Government has been asked to contribute funds for the construction of this new prison, and it is probable that a Federal grant will be given the State of California. If such Federal funds are granted during the present session of the Legislature I shall ask for the appropriation of a necessary sum from State revenues.

Budget recommendations for maintenance of existing prisons are not increased over appropriations for the present biennium.

Unemployment Relief.

The unemployment relief program adopted by the State of California and carried out in harmonious cooperation with the Federal Government has demonstrated its sound value. There are indications that assimilation of unemployed men and women by private business will progressively increase during the coming biennium, but the necessity for providing against a slowing down in this gradual return to normal conditions impels me to recommend an appropriation of $48,000,000 to meet the unemployment situation in California for the period ending June 30, 1939. It is hoped that conditions will be such that the expenditure of this entire sum will not be required.

Because it is evident that the movement of unemployed and indigent transients into this State will not materially decrease during the next two years, and as it is likewise evident that the interstate migrations of such persons is essentially a national and not a State problem, the Legislature of California has been requested to ask the President and the Congress to make provision for reimbursing the States for the care of such transients. It is desirable from the standpoint of efficient administration that the National Government take over this problem and administer it exclusively as a Federal responsibility.

Briefly, the history of unemployment relief in California began with a work program provided by the counties and operated with funds supplied both from local sources and from the Reconstruction Finance Corporation

In June, 1933, the people approved a bond issue of $20,000,000 as submitted by the Legislature. This money was loaned to the several counties under supervision of the State Emergency Relief Administration.

During a period of months extending from November, 1933, to March, 1934, the Federal Civil Works Administration provided employment for 160,000 persons in California, and the State Relief Administration confined its activites to residue and special functions.

Between March and December, 1934, the State Emergency Relief Administration developed a work relief program as an operating responsibility and activity of the State. During this time, only a portion of the unemployed could be provided with work relief, and the balance was given direct relief by the counties with the aid of Federal grants made through the State of California from the Federal Emergency Relief Administration upon application by the Governor.

The $20,000,000 bond issue was exhausted during 1934, and at a special session of the Legislature in September, 1934, a $24,000,000 bond issue, to be a direct charge against State revenues, was submitted to and approved by the electorate in November, 1934. By December 1, 1934, the State Emergency Relief Administration had assumed the full responsibility for care of all of the employable unemployed. From this point on, the cost of this activity was borne directly by the State with the assistance of Federal grants and without any financial participation by county or other local governments.

General Description of Activities.

From December 1, 1934, to December 31, 1935, the Relief Administration received substantial grants of Federal funds and operated under Federal policy and regulation. Although the Federal grants were made to the Governor and mixed with State funds in the State Treasury, the State of California cooperated fully with the Federal Government and wholeheartedly followed the policies and procedures of the Federal Emergency Relief Administration.

The number of persons working out their relief on projects sponsored by various governmental agencies reached a total of approximately 185,000 in March, 1935. The portion of the caseload which could not be provided with work received direct relief and during the time of the operation of the work program an average of approximately half of the relief recipients was provided with project employment.

At the end of February, 1935, the number of families and single persons receiving relief reached a peak of 275,000, or a total of approximately 875,000 persons.

The organization of the Federal Works Progress Administration as a separate Federal employment activity was commenced in July, 1935. Employment under this program began in the latter part of August and by the end of February, 1936, WPA and other special security wage employment activities of the Federal Government reached a peak employment of 160,000 persons. Since then, the number employed has been gradually reduced and on December 1, 1936, approximately

130,000 former relief recipients were employed on all of the Federal work programs. The WPA quota had been reduced to 104,450 and the number employed under this major security wage activity was approximately 101,000.

Federal grants to the State of California for unemployment relief were discontinued effective December 31, 1935, by reason of the direct operation of the Federal work program. An original WPA quota of between 170,000 and 180,000 was expected. The program was reduced, however, without the anticipated number being employed and for this reason, a direct relief caseload remained as the responsibility of the State through the Relief Administration.

Since the discontinuance of the work program of the Relief Administration in August, 1935, because of the inauguration of the employment program of the Works Progress Administration, the principal activity of the administration has been the disbursing of direct relief to needy employable families and single persons. An effort has been made to extend the most adequate relief possible compatible with the resources of the State and at the same time to perfect methods of operation which would insure the extension of relief only on the basis of absolute need and unquestioned eligibility.

In 1933, eighteen states provided more liberal relief budgets than California. In 1935 only New York State provided a higher family budget than California.

Total relief administration expenditures of both the Federal and State funds for the most recent 24 months ending November 30, 1936, are as follows:

	12 mos. ending Nov. 30, 1935	*12 mos. ending Nov. 30, 1936*	*Total*
Relief	$108,315,028	$22,022,799	$130,337,827
Project supervision, materials and supplies	8,100,354	111,346	8,211,700
Administration	15,547,180	4,719,844	20,267,024
Total cost	$131,962,562	$26,853,989	$158,816.551

At the present time, the average expenditure for relief and administration per case per month is between $39 and $40. The administrative expense of this activity including certification work for the Works Progress Administration and the handling of relief applications was 16 per cent for November. Even though the active caseload under care by the relief administration on November 30th was 39,053, intake and service responsibilities of various kinds extended to the entire employable unemployed load of approximately 160,000 under public care.

In a number of counties a few of those receiving relief are employed to earn their budgets on useful work carried on by the counties. Such activities are without additional cost to the relief administration. A general work program, if operated on a sound basis, costs from $6,000 to $9,000 per month per thousand persons employed for administration and supervision, exclusive of materials. Although work in return for relief is desirable and rehabilitation types of employment are sound, the State does not have the funds with which to go beyond reasonably adequate direct relief.

The Federal Government is diminishing its security wage program and the Works Progress Administration quota has been reduced to 100,000 effective January 1st and there is some doubt as to whether there will be sufficient money available to employ this number until Congress has acted to provide additional funds. If the Works Progress Administration employs 100,000 persons during January, February and March, the estimated Relief Administration caseload is 65,000 on January 31st, 65,000 on February 28th and 53,000 on March 31st. If the Works Progress Administration maintains 100,000 persons in employment to June 30th, the $14,000,000 available to the State Relief Administration on January 1st will be sufficient.

Aid for the Aged, Blind, Children.

Detailed figures setting forth the State's payments to the needy aged, the blind, and for the support of needy children, show that California is well towards the top in all of these divisions of public support.

Including contributions by the State of California, the Federal Government, and the 58 counties of this State, more than $71,000,000 will be disbursed in this State under the Old Age Security Act during the biennium of 1937–1939. This sum, when compared with the total of $9,100,000 paid under the act by the State and counties during the period from July 1, 1933, to June 30, 1935, indicates the tremendous increase in such aid to men and women of advancing years in California.

Liberalization of the California Old Age Security Act has increased the State's payments for aid to the needy aged by roughly $15,000,000 in three biennial periods. This amount is entirely exclusive of old age payments which the State will disburse as an agent of the Federal Government under Title I of the Social Security Act. During the 1933–1935 biennium the State contributed $4,550,000 to the support of an average of 18,000 persons who were 70 years of age or over and who had resided in this State at least 15 years. During the 1937–1939 biennium the State Government alone will pay approximately $19,700,000 to an estimated average of 100,000 needy aged who have reached the age of 65 and have been in California at least five years. A similar contribution will be made by California's 58 counties, while

$31,960,000 will be added by the Federal Government on the basis of present legislation

The latest available report from the Federal Social Security Board, corrected to November 25, 1936, relative to old age assistance in the various States, reveals that California heads the list of all the States in its payments for aid to the needy aged. The average payment per recipient for California is $31.45 per month, while the average for the Nation is $18 50

While the State Government will pay more in aid to aged during the coming biennium than during the present period, the contributions in support of needy blind and children will drop $220.000 as a result of Federal participation in this field of governmental activity During 1937–1939 the State will assist an average of 5000 needy blind persons with an estimated total of $1,275,000. It will provide further assistance for over 26,000 orphans and other needy children with an expenditure of $4,618,000 In each case an additional payment will be made by the counties, and Federal Government. California's needy blind will receive a total of $4,260 000 in assistance from the Government during the next biennium, as compared with $3,485,000 in 1935–37, and $2,400,000 in the 1933–1935 biennium Similarly, needy children will be supported with governmental assistance of approximately $9,000,000 during the coming biennium, as compared with $8,000,000 this biennial period, and $7,200,000 in 1933–1935

Department of Employment.

The 1935 session of the Legislature enacted the California Unemployment Reserves Act and created the State Department of Employment. The primary objective of the law is to make California "a part of a National plan of unemployment reserves and social security, and for the purpose of assisting in the stabilization of unemployment conditions"

Beginning January 1, 1936, the statute requires employers and employees within specified brackets to pay a percentage of all subject wages into a trust fund for creation of a reserve out of which unemployment benefits will be paid to qualified employees who may become unemployed after January 1, 1938 The contribution rates are as follows:

	Employee		*Employer*	
1936	.45		.90	
1937	.90	on wages received	1 80	on wages paid
1938 (and thereafter)	1.00		2.70	

During 1936, 17,000 employers have been registered subject to the California law, having in their employ 1,200,000 wage earners. The combined contributions of these employers and employees during 1936 will approximate $15,000,000 Already $11,000,000 has been received by the department, $8,000,000 of which has been deposited with the unemployment trust fund in the United States Treasury It is expected that $30,000,000 will accrue to the fund during 1937 and $50,000,000 during 1938.

The payment of benefits to employees out of the fund is predicated on a ratio of one week of benefit for each four weeks of wage contributions into the reserve trust fund The scale of benefits to be paid ranges from $7 to $15 per week

NOT ONE CENT OF MONEYS ACCRUING TO THE FUND IN CALIFORNIA CAN BE USED FOR ANY PURPOSE EXCEPT THE PAYMENT OF BENEFITS IN CALIFORNIA.

The department is divided into two field functional divisions—

1 Unemployment Compensation.

2. Employment Placement Service.

The Employment Placement Service is financed from two sources: Legislative appropriation made available by the State, and by Federal moneys provided through terms of the Wagner-Peyser Act This law passed by the Congress of the United States, is entitled, "An act to provide for the establishment of a National employment system and for cooperation with the States in the promotion of such system * * *" Accordingly the United States Employment Service matches each dollar California provides for this purpose. The budget proposed for this function during the ensuing biennium contemplates a service in keeping with the National standards. The achievement record of the service clearly indicates that it has paid substantial dividends to our State during the current biennium

During the calendar year of 1936 alone, 249,593 persons have been placed in employment in this State as a direct result of the activities of this service This figure does not include placements on relief work projects which amounted to more than 80,000. The placements during 1936 exceeded those of 1935 by 89.4 per cent. Registration of applicants for 1936 reached a total of 281,466. The current active file, representing qualified persons who have been vocationally classified, embraces 170,741 applicants as of December 31, 1936. The placements of our service in California have consistently led the Nation.

All other administrative expenses of the Department of Employment are borne by the Federal Government through direct grants from the Social Security Board. In this respect the department is a self-supporting agency. The budget submitted by the commission in this connection can only be approximate as no precedent exists for comparison in its making.

The Social Security Board grants administrative allotments on a quarterly basis in accordance with approved operating needs and subject to the control procedure and constitutional provisions of California.

After one year of careful observation and study of procedure, the California Unemployment Reserves Commission, the administrative authority for the State Department of Employment, has prepared amendments to the act having for their purpose simplicity and economy of operations.

Highways.

The development of the highway transportation system of the State in which are included all public roads and particularly the State highways, because they constitute the major portion of the main traffic arteries, has contributed immensely to the welfare and progress of the State. Since the beginning in 1912 of active improvement, the State highway system has grown and has been developed into a vast network of improved highways covering all parts of the State, giving access to the communities and to the developed agricultural and recreational areas.

This has required large expenditures. It has meant the undertaking of large projects costing millions of dollars; such projects as the Feather River Highway, the Carmel-San Simeon Highway, the Coast Road from Santa Monica to Oxnard, the Ridge Route from Los Angeles to Bakersfield and many others.

However, we are still faced with a serious problem in highway construction Hundreds of miles of our main trunk lines must be modernized, expanded in capacity and further improved to meet the requirements of the ever increasing traffic volume.

The secondary roads leading to recreational areas, serving many smaller communities and providing more adequate means of access to areas devoted to agriculture and development of natural resources, should be improved.

Additional safety should be built into our highways to reduce the mounting number of accidents. Divided roadways, separation of railroads and important road intersections, lighting and wider pavement lanes are means of achieving additional protection against hazard to the road user.

The improvement of our primary and secondary State highways and the construction of safety measures requires all of the funds which are contributed by the road user. It means a continued conservation of the gas tax funds for highway purposes.

The Bay Bridges.

The San Francisco-Oakland Bay Bridge has been completed, opened for traffic and is in successful operation, thus bringing to conclusion one of the greatest engineering and construction projects in history. The approaches to this structure have been financed at a cost of $6,600,000 from funds derived from gasoline taxes.

The Golden Gate Bridge, now nearing completion, will be opened to traffic within a few months. Construction of approaches to this structure are likewise being financed from gasoline tax funds.

Central Valley Water Project.

The Central Valley Water Project is the most important single enterprise under way at the present time. It is a vital necessity not only to the great Sacramento and San Joaquin valleys and the upper San Francisco Bay area, but to the entire State and to the Nation as well. Through this project the waters of the Sacramento and San Joaquin rivers will be regulated and controlled and made useful for many purposes Flood waters now wasting unused into the ocean and causing ruinous destruction to the fertile valley lands enroute will be controlled and utilized so that our present developed lands facing destruction through water shortage can continue to produce bounteous crops of high value, so that the fertile delta lands will be no longer menaced by the incursion of salt water from the bay. Industrial and urban centers and agricultural lands as well will no longer be faced with loss and retrogression due to water shortage. The area to be directly benefited by the project is some 500 miles long by 40 miles wide, stretching from Redding on the north to Bakersfield on the south. Nearly a million population and a highly developed civilization with cities and towns are directly related to and dependent upon the continuation of agricultural and industrial production and prosperity.

The furtherance of this project has received earnest attention and endeavors throughout my administration. My efforts and those of the State officials—particularly the Water Project Authority of the State of California which is the administrative agency in charge of the Central Valley Water Project—have been directed chiefly to obtaining the cooperation and financial assistance of the Federal Government with the result that it has assumed the entire responsibility for the project. It is gratifying to report that initial allocations and appropriations of sufficient funds to start construction have been made. Efforts will be continued for the purpose of securing additional appropriations and authorizations by Congress at the present session so that the construction of the project can be consummated at the earliest possible date.

San Francisco Harbor.

With respect to the administrative operations by the State Board of Harbor Commissioners, it has been possible, in addition to the payment of all other expenses, including bond interest, and despite the loss occasioned by the strike, amounting to $2,000 a day, to deposit $660,000 in the sinking fund account for the purpose of retiring the funded debt.

Operating economies instituted by the board resulted in a decrease of $305,000 in expenditures for the fiscal year ending June 30, 1936, as compared with the previous fiscal year.

The average number of employees on the pay roll of the Board of State Harbor Commissioners for the fiscal year ending June 30, 1936, was 459, which was 106 less than the number on the pay roll for the previous fiscal year. This resulted in a reduction of $165,000 in the annual pay roll.

The cash balance in the San Francisco Harbor improvement fund available for the replacement and rehabilitation of the facilities of the port, amounted to $1,576,000 on June 30, 1936, or an increase of $295,000 over the amount in this fund on June 30, 1935.

Architecture.

The Division of Architecture, functioning since 1907, cares for all construction work at the various State institutions; also regulates, inspects and supervises the construction of public buildings in the State.

During this biennium the division will have completed or have under contract building construction amounting to approximately $6,875,000, the major portion of which is for State hospitalization.

The division during the last four years also has approved plans and specifications for 1887 school construction projects, having an estimated construction cost of $84,000,000. In addition, examination and reports have been made and completed on 969 existing school projects.

Civil Service.

The State Personnel Board was created two years ago by an initiative constitutional amendment which strengthened the merit system and extended it to include under Civil Service some 5000 positions previously exempt. The total number of persons under Civil Service is approximately 20,000. This enlarged scope of activity and increased opportunities for Civil Service employment have combined to increase the work of the State Personnel Board. Additional responsibilities incidental to the classification of positions, the holding of examinations, and more recently meeting problems of turnover due to improved economic conditions, have caused expansion in the staff.

Since the Constitution limits to six months the time during which positions may be filled by non-Civil Service employees, it is imperative that eligible lists be maintained for all classes to prevent the stoppage of essential public functions.

Even if it were not necessary that the personnel agency be adequately financed as a matter of legal necessity, I would still recommend such support because I am convinced that a proper personnel program based upon the merit principle is an effective force for economy and efficiency.

The personnel agency, through cooperation with budget authorities, may do much to eliminate useless expenditures. The examination process measures the qualifications of the candidates for employment and affords a method of selection that has proved more effective than other methods. As a result, we have better morale, which in itself is valuable.

The task of the personnel agency can be measured by the fact that in the last biennium about 200,000 applicants have been examined, and the certifying of eligibles to vacancies has increased to the point where former peak loads are now regarded as normal. This condition will continue and be magnified because the salary advantages offered by private employment have begun to draw many workers from the service.

Much administrative confusion and expensive litigation has resulted from the inadequacies and ambiguities of the Civil Service Act. I recommend a revision of the law to correct this condition.

We note that in the record of public administration, the California State personnel agency is regarded as one of the three outstanding in the Nation.

Salary Increases for State Personnel.

Attention has been given to the general subject of salary ratings for all personnel in the State service, resulting in adjustments which have brought more 1000 State workers into the minimum salary brackets. In some departments not having revenues sufficient to justify increases, approximately 100 workers continue to receive less than the minimum salary provided in their classifications.

Adjustments also have been made in most cases where inequities exist, and further studies are being made for the purpose of determining the need for additional increases, particular attention being given to those in the lower salary brackets

Audit of State Agencies.

For more than a decade, due to a number of causes, principally insufficient revenues, appropriations have not been sufficient for an auditing staff adequate to carry out requirements of the law providing for annual audit of every State agency. The general fund deficit in 1935 was such that funds necessary to proper auditing of State departments were not provided.

I am happy to report, however, that we found it possible to make funds available to the Department of Finance from the emergency fund and that as a result o the increased auditing work thus undertaken the requirements of the law have been more nearly met during the last year than at any time during the last 20 years. An amount sufficient to provide complete annual audits for 1937 and 1938 has been included in the budget.

In addition, when the Assembly Interim Committee on Auditing discovered that lack of funds threatened to handicap or terminate the committee's investigations, $20,000 was made available to the committee from the Governor's secret service fund.

Constitutional Convention.

By concurrent resolution in 1933, the Legislature submitted to the people a proposal calling for a convention to revise the California State Constitution. The question appeared on the ballot at the general election held November 6, 1934, and was approved by the electorate. The vote was, "Yes," 705,915, and "NO," 668,080.

Carrying out provisions of the measure as approved by the people, I issued on January 14, 1935, a proclamation announcing that such convention had been authorized.

Bills providing machinery for calling and holding the convention were introduced at the 1935 session both in the Assembly, where a proposed measure by Assemblyman Latham failed of passage, and in the Senate, where a companion measure sponsored by Senators Deuel, Slater, Snyder, Stow, Pierovich, Sharkey, Parkman, and Reindollar, was not acted upon

This matter is again called to the attention of the Legislature for consideration and disposition

Interstate Cooperation

Growing out of mutual problems and needs, some of the States in the Union have entered into compacts between themselves, and for this purpose have created Commissions on Interstate Cooperation.

Such State agencies have been established principally to aid the States in the prevention, control and punishment of crime. An interstate compact has been entered into, subject to approval by the several Legislatures, by the States of Kansas, New Mexico, Wyoming, and Colorado, and I shall make available to the Legislature of California a copy of the compact under which such cooperative action is proposed, together with a copy of an act of Congress granting consent to the States to enter into common agreements

It is my conviction that public welfare would be greatly served through the adoption of an interstate compact between California and neighboring States, particularly between this State and Washington, Oregon, Idaho, Wyoming, Utah, Colorado, Nevada, and Arizona, such compact to govern certain activities relating to the application of criminal law

Through such reciprocity between the States, criminal activity may be definitely curtailed, and the apprehension, prosecution and punishment of criminals can be made more expeditious and certain.

In Lieu Tax.

Experience having proven the greater efficiency of collection by the State of the in lieu tax on motor vehicles over the previous method of local assessment and collection, reenactment of this law is recommended.

The record shows not only that a greater amount has been paid under the registration system maintained by the State, but that motor vehicle owners have benefited by a reduction in taxation on this type of property.

State Oil Drilling Leases.

Favorable action by the Senate and Assembly is recommended in the matter of proposed legislation to enable the people of California to protect their state-owned oil deposits.

Under adequate safeguards that will permit the Director of Finance to adopt a program assuring the highest returns to the State, it is proposed that the State of California grant oil-drilling leases to private companies under a system of competitive bidding, or, if such bids prove unsatisfactory, that the State itself may proceed to drill wells. Estimates of the value of oil deposits off Huntington Beach vary, but the Huntington Field is a proven one and the income to be derived by the State from proposed operations probably would amount to many millions of dollars for a period of years.

The people themselves rejected at the 1936 general election a proposal for private drilling in the state-owned oil pool in the Huntington Beach area. This action by the voters undoubtedly was caused by the small royalties that would have accrued to the State Treasury. Under the terms of the program submitted for your consideration, returns to the State will be on a basis commensurate with the value of the oil deposits involved.

Special Messages.

There are many other questions and problems affecting the State Government and the people of California which are not discussed in this Budget Message. As occasion arises I shall send additional messages to the Legislature with such recommendations or comments as may be deemed advisable.

Department of Finance.

It is appropriate in this message particularly to call attention to the exceptional efficiency of the Department of Finance under Director Arlin E. Stockburger, whose outstanding accomplishments in budgetary administration has won National recognition and commendation. The budget herewith presented is the most comprehensive ever submitted to a California Legislature. It shows a more detailed analysis of departmental finances than heretofore submitted and is more readily interpreted through the introduction of a large number of charts and graphs.

Budget In Two Volumes.

The budget for the ensuing biennium is presented in two volumes; the State budget is not alone a program of expenditures for State purposes. It also includes disbursements for, or payments to, local municipal and county governments.

More than 52 per cent of the budget submitted herewith, a total sum in excess of $233,000,000, is allocated to counties, cities and other local districts. Hence, expenditures for essentially State purposes are presented in one volume, and payments to local governments in a second volume.

Volume I of the budget contains the detailed expenditure program of all State departments, commissions, and other State governmental activities. It also contains tables and statements summarizing all revenues and expenses of the State

Volume II contains summaries and detailed statements of payments and grants to local governments.

Respectfully submitted.

FRANK F. MERRIAM, Governor of California.

Honorable William Moseley Jones, Speaker of the Assembly,
Speaker's Office, State Capitol, Sacramento, California

MR SPEAKER Pursuant to your request of today as to the number of legislative measures which we now have in this office in course of preparation, we wish to report the following.

The only guide we have as to the number of legislative measures in course of preparation is the number of "requests" for the preparation of legislation which we have on hand, the measures requested not having been delivered.

As of twelve o'clock noon today, we have 447 such requests.

Of these, 209 are requests which we have received since eight o'clock a m Monday morning, January 11, 1937

We intend and expect to have ready for delivery to the members of the Legislature at eight o'clock a m. Monday morning next, all requests received by this office to and including twelve o'clock noon of Friday, January 15, 1937, so that as of eight o'clock a.m., Monday morning next, we will have on hand and unfinished only those requests which have been received by this office between noon on Friday of this week and eight o'clock a m next Monday.

If this does not give you all of the information you desire, we will appreciate an opportunity to supplement it.

Resolved by the Assembly of the California Legislature, That the President and the Congress of the United States are hereby respectfully urged to enact as quickly as possible such suitable legislation as will provide such a national system of old age pensions and old age security as will accomplish the purposes above set forth and which will be adequate for a respectable existence; and be it further

Resolved, That the Speaker of the Assembly is hereby instructed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives and to each Senator and member of the House of Representatives from California in the Congress of the United States, and that such Senators and Representatives from California are hereby respectfully urged to support such legislation.

Motion to Print Report in Journal.

On motion of Mr. Donihue, the Report on the Administration of the California Horse Racing Act of 1935 by the Special Interim Committee on State Auditing and Finance was ordered printed in the Journal.

REPORT OF SPECIAL ASSEMBLY INTERIM COMMITTEE ON STATE AUDITING AND FINANCE ON THE ADMINISTRATION OF THE CALIFORNIA HORSE RACING ACT OF 1933.

To the Speaker and Members of the Assembly:

The above mentioned committee was appointed pursuant to a resolution of your honorable body adopted June 12, 1935, copy of said resolution being annexed hereto and made part of this report, for the purpose of investigating and studying matters pertaining to State auditing and State finances and then reporting its findings and recommendations to your Honorable Body

Among the various matters given attention by your committee was the administration of the California Horse Racing Act of 1933. Those engaged in the operation of horse race tracks were handling millions of dollars of the public's money in which the State had a direct interest through the provision of the law levying a tax of 4 per cent on said money. It seemed to your committee that enough time and experience had been provided to test the operation of the law and that to a business of such magnitude and of such great public interest the committee might well give attention It further appeared to your committee that your Honorable Body would undoubtedly be called upon to deal with some phases of the subject in this session of the Legislature and therefore your committee would be rendering a service of value in making this investigation and report.

Your committee feels that in view of the possibility that emergency legislation effective immediately may be called for in the horse racing situation, it should make its report on that subject at once and not wait until the committee can make a complete report on all its activities during the interim.

At the date hereof, there is in progress at the Santa Anita Track a 52-day racing meet extending into the month of March this year Last year during a 58-day meet at this track, $25,251,933 was bet through the pari mutuel machines and it is conservatively estimated that during the present meet a total sum substantially larger will be wagered. If the Legislature should see fit to change either the "take" of the track or the "take" of the State, it might deem it advisable to make the change effective immediately so as to apply to the present meet.

No doubt the illegal operations of handbookmakers as reported herein will present to the minds of many a situation calling for emergency treatment

In addition to the foregoing the following matters are pending: The issue which has developed in Los Angeles County over whether or not a second track should be permitted there; the question of whether or not the board membership should be increased from three to five; and charges on file with His Excellency, Governor Frank F. Merriam seeking the removal of certain members of the Racing Board. The committee anticipates that its report is being awaited by many interested in any one or more of these matters.

Mention should here be made of the fact that this particular investigation and much of the other work of the committee would have been impossible had not His Excellency, the Governor, provided the necessary finances out of his secret service fund

After the necessary preliminary investigation work had been done, the committee held an open hearing in Los Angeles beginning on December 9th and ending on December 18, 1936. Twenty-nine witnesses testified before your committee. They were the following:

Carleton W. Burke, Chairman of the California Horse Racing Board; John A. McNaughton, member of the board, and W C. Buchanan, secretary of the board. Hal E. Roach, President of the Los Angeles Turf Club (Santa Anita); Dr. Charles W. Strub, Vice President and General Manager, Los Angeles Turf Club; Hugh Blue, secretary, and Robert E. King, comptroller, same club.

Norman W Church and Charles E. Cooper, prominent California horse breeders; J B. Patterson Past President of the Western Thoroughbred Horsemen's Association; A T. Jergens and Robert Muckler, former applicants for a track permit in Los Angeles County; John S Berger, former applicant for a track permit in Orange County; Stephen W. Cunningham, member Los Angeles City Council; Charles W. Ostrum and Ray Kleinberger, members Los Angeles City Police Commission.

Gene Normile, Southern California Manager Nation-Wide News Service; V. A. Le Sieur, of the Southern California Telephone Company; Dr. John R. Lechner, minister and Chairman of the Inglewood Forward Committee; Nathan Newby and Dr. Robert P. Shuler, representing the Church Brotherhood and Church Federation of Los Angeles; William R Elam, city attorney of Arcadia.

Claud B. Andrews, attorney; Maurice E. McLaughlin, secretary; Jack L. Maddux, official; and Maury I. Diggs, architect, all of the Hollywood Turf Club; Neil S. McCarthy, California horse breeder; O. Nicholas Gabriel, land agent; S. W. Blankenship, former censor at Santa Anita.

Full transcript of their testimony is being filed herewith.

The "Outs" Money.

The "outs" money is that money won by those who bet and then fail to present their winning tickets and receive what they have won. The "outs" money for the two meets that have been held at Santa Anita amounts to $47,501. The figures for the other tracks in the State have not been obtained. How long should the track be required to hold this money for its rightful owners and what disposition should be made of the balance unclaimed? Santa Anita has adopted a policy of considering this money as its own, recognizing a liability for it, however, and setting up on its books a reserve fund to cover that liability. To cover the liability of $47,501 a $4,000 reserve fund is carried.

Your committee believes it extremely unlikely that any winning tickets, not presented for payment within a year after the race, will ever be presented, and that under the circumstances requiring detailed bookkeeping it is unreasonable to continue the liability for longer than that period of time. Your committee accordingly recommends that the Statute of Limitations be amended to specifically bar the filing of a complaint for the recovery of such money after one year from the day the race is run.

Your committee recommends that the Horse Racing Act be amended so as to require that the "outs" money be paid over to the State within one year and 30 days after the close of every racing meet along with a detailed report, showing the races and sums unclaimed on each, to completely account for the total remitted.

After collection is barred, this "outs" money rightfully belongs to people who will never receive it. It seems fairer to the committee that the State use this money which, in fact, will redound to the benefit of the people at large, than that it go to the profits of private enterprise. Viewing the matter from a strictly legislative standpoint and without imputing wrongdoing to anyone, your committee believes that system unwise which permits the track to keep what it should make every reasonable effort to pay to others. This system certainly offers no incentive to the track to be helpful to a winning but misguided bettor. In fact this system tends to encourage a track to bring about as many failures in the presentation of winning tickets as possible. It is wrong in principle and the foregoing change is therefore recommended.

Along with testimony concerning the "outs" money, the committee heard testimony to the effect that the Santa Anita Track had donated forty-five thousand dollars ($45,000) two years ago and sixty thousand dollars ($60,000) last year, to charity. The payments were made in equal amounts to five Los Angeles daily newspapers each year with the understanding that the newspapers would apply the funds to such charities as they might select. The inference was that the track was not keeping the "outs" money for itself but was donating it to charity. Assuming the inference to be true, the committee still does not believe that the track should be free to dispose of the money as it may please in charitable channels or otherwise. But, the committee, in fact, sees no reasonable connection between the "outs" money and the charitable donations. It could be said with equal truthfulness that the track does not keep all the money it receives from its several other sources because of these donations. The committee does not wish to appear unmindful of the generosity of these donations. Neither does the committee wish to appear unmindful of the business judgment used in the manner of their distribution. The committee, however, has been so impressed by the enormous profits in the business that it is clearly of the opinion that the giving has not yet reached the point where it hurts.

"Breakage."

The Horse Racing Act provides in substance that the track operator may deduct for itself not more than 8 per cent of all the money bet in the pari mutuel system plus that excess remaining after distributing the pool to the winning betters, and further provides that in distributing the pool to the winning betters the track operator need not pay out to the penny but may pay to each winner the sum next lowest to the amount otherwise due him which is a multiple of ten. The practice is this: If a division of the pool showed $1.87 for each $1 bet, the payment would be $1.80 and the operator would get the 7 cents. This is commonly called the "breakage." Under this practice if the bet were $10 the payment would figure $18 70, but the payment actually made would be only $18. The present wording of the law on this point would indicate that the payment in this example should be $18.70 since that figure is a multiple of ten. To eliminate any question on this point, your committee recommends that the law be amended so as to clearly authorize the practice now in effect i.e., to figure what is due to each $1 bet—reduce that

figure to the next lowest multiple of ten and then multiply that figure by the number of dollars in each separate bet to ascertain the various amounts to be paid.

The "breakage" at the Santa Anita Track for the meet a year ago amounted to $409,747.40. There was testimony that it amounted to 1.68 per cent of the total bet at one Santa Anita meeting and 1.62 at another. There was also testimony that the practice of breaking to a dime is generally accepted as a taking of 1¾ per cent out of the pool. The difference between 1.68 or 1.62 per cent and 1.75 per cent is so small as to be of no importance in the committee's treatment of the subject and for convenience the committee will use the figure 1.75 per cent. At first impression it may seem to some that the breakage is too high and that the tracks should be required to break to a nickel as they do at a few tracks in some other States in the Union. It will be seen, however, that the breakage is just part of the total taken out of the pool by the track—the total being, 8 per cent of 1.75 per cent, or 9.75 per cent. Now then, if the breakage is too high, the simple remedy would be to reduce the 8 per cent figure by the desired amount, and not complicate the method of distribution by changing the breakage practice now in effect. For this reason only, your committee recommends clear authorization of the present breakage practice

The "Take" of the Track and the "Take" of the State.

In addition to the total "take" of 9¾ per cent by the track, the State takes 4 per cent out of the same pool which results in $13.75 being taken out of every $100 bet in the pari-mutuel system.

If a person starts out with a betting capital of, say $10, and he is fortunate enough to continue winning so that he can bet $10 on each of the eight races in an afternoon of racing, the track and State together take 8 x 13.75 per cent or 110 per cent of his original betting capital. Those who pay attention to the "take" and bet in large amounts prefer to place their bets with a hand bookmaker who exacts no such toll. The innocent member of the public comes in and donates even if he wins.

How much should these "takes" be? The "take" of the track should be sufficient to pay not only fair but handsome dividends commensurate with the hazard involved in the nature of the investment.

No doubt 8 per cent plus breakage for the track seemed necessary when the law was enacted but with the experience now before us, that appears entirely too high. That it is too high was conceded at the hearing by all those connected with horse racing. Santa Anita voluntarily reduced the 8 per cent to 6 per cent about the last two weeks of its first meet in 1935. The reduction in the "take", was more than offset by an increase in the volume of betting thereafter so that the track's profits were not lessened.

For the fiscal year ending June 30, 1935, the net profit realized by Santa Anita was $847,088.53 and for the fiscal year ending June 30, 1936, the net profit figure was $1,077,562.90. The total of both years was $1,924,571 43 or 192 45 per cent return on the capitalization of $1,000,000. These net profit figures are the balances remaining after payment of all expenses and the setting up of the usual reserves for taxes, etc. One of the items deducted as an administrative expense is the payment to Dr. Strub, the general manager, of a bonus equal to 10 per cent of the net income in accordance with a contract he secured in the promotional stages of the venture. In addition to his salary of $12,000 a year he has been paid a total of $231,430 51 on this contract. If we add this payment to the net profits for the two years we have a total for the two years well over $2,000,000 which in turn means that Santa Anita operations show a net profit of over 100 per cent annually for the two racing meets they have completed in the past two fiscal years. Dividends actually paid to stockholders have totaled 135 per cent.

Mr. Hal E. Roach, President of the Los Angeles Turf Club (the Santa Anita Track) testified that in his opinion a fair return would be 10 per cent per annum if continued for ten years. The track has already earned 200 per cent which is the equivalent of 10 per cent for 20 years or 20 per cent for ten years. The stockholders in this venture have therefore already received a fair return on their investment for the next ten to 20 years.

The "take" is not the only source of revenue for the track. There is income from the auto parking, the gate receipts, the various concessions, etc. It is interesting to note that on the day of the $100,000 handicap last year at Santa Anita, the gate receipts alone exceeded the amount of the purse. Gross income from other than pari-mutuel operations for the year ended June 30, 1935, was $919,806.10—for the year ended June 30, 1936—$1,203,972 35.

A reduction in the "take" would, of course, have no effect directly upon these other sources of income. Therefore, in considering a reduction in the "take" that will still leave a fair return to the track, it is important to bear in mind the total earnings and dividends paid, and not merely the amount of the "take."

We have seen in the case of Santa Anita that a reduction in the "take" from 8 to 6 per cent did not reduce the earnings at all. A further reduction appears to be in order there, but in amending the law for that purpose, a reduction should not be made that will be disastrous to the other two tracks in the north at which the volume of betting done is less than one-third of that done at Santa Anita.

It seems to your committee that a graduated scale of rates is the best solution to the problem and the committee therefore recommends the following:

"Take" for the Track in addition to breakage:

Six per cent on first $7,500,000 00 bet in pari-mutuel system during each fiscal year of a track's operation

Three per cent on next $2,500,000 bet in pari-mutuel system during each fiscal year of a track's operation.

Two per cent on all over $10,000,000 bet in pari-mutuel system during each fiscal year of a track's operation.

Your committee believes that a "take" of not more than the above schedule will assure all tracks of a fair and ample return. While the same schedule applies to all tracks, as a practical matter Santa Anita is the only track where the business done at present is of a volume that will be materially affected by the higher bracket. The Horse Racing Act was never intended to set up a gigantic gambling machine which would make millions of dollars for a comparatively few individuals. Your committee therefore feels that the higher bracket is justified but wishes to point out also that the schedule is so generous that if the annual racing meet at Santa Anita was shared by a second track in Los Angeles County, still the "take" for both tracks would be ample, assuming the original capitalization of each to be $1,000.000 as it was at Santa Anita.

We now come to the question of what the State's "take" should be. Your committee does not take the view that the Horse Racing Act put the State into the gambling business for it to derive therefrom all possible revenue. To the contrary your committee is mindful of the purpose expressed in the law itself, namely, to promote horse breeding and thereby benefit agriculture. The "take" of the State is purely incidental to that primary purpose and is probably based on the premise that those who can afford to bet on the horses are more able to pay taxes than others and therefore should be required to pay a special tax.

It seems clear that this special tax should be fixed in conjunction with the "take" of the track, and be limited so that the total cost of betting does not become unreasonable or prohibitive. What is reasonable under these circumstances is something over which the committee recognizes different minds may reasonably differ, but in the opinion of the committee 13.75 per cent is too much to extract from each bet made. It is prohibitive to the informed gambler and unfair to the average unsuspecting better.

At the present time under the law the percentage "take" of the track is 8 and the State 4, making 12 together. The committee recommends a reduction of this total to 9 per cent and further recommends that the State's "take" be adjusted to the take of the track as follows:

Take of Track	*Take of State*	
6%	3%	on first $7,500,000 bet in pari-mutuel system during each fiscal year of a track's operation.
3%	6%	on next $2,500,000 bet in pari-mutuel system during each fiscal year of a track's operation.
2%	7%	on all over $10,000,000 bet in pari-mutuel system during each fiscal year of a track's operation.

Although the percentages vary with the size of the accumulated "handle", from the better's standpoint all pools will be subject to the same deduction of 9 per cent plus breakage. With breakage of 1¾ per cent the total take will be 10¾ per cent invariably.

Your committee does not recommend any changes for the racing at State and county fairs, but, to the contrary, excepts such racing from its discussion here and recommends that the present basis be continued for State and county fair racing.

For its last fiscal year the "handle" at Santa Anita was $25,251,933, at Bay Meadows $7,902,064, at Tanforan $7,464,019. Applying the above schedule to these figures, it will be seen that the State's "take" will be larger to a very great extent than it is at the present straight 4 per cent rate. The fact that it is so much larger under this schedule is due to the concentration of volume at Santa Anita. This schedule has been prepared and is recommended with the possibility in mind that a second track in Los Angeles County may cut the volume at Santa Anita approximately in half. Assuming two tracks in Los Angeles County sharing the present volume at Santa Anita equally, it will be seen that under this schedule the "take" for the State would be approximately the same as it is at present, and, with the increase in volume now taking place, it would be substantially larger than at present and all that conditions call for in the opinion of this committee.

The committee has used figures of the past records at the various tracks to be conservative. For the first 11 days of the present meet at Santa Anita the volume has been $4,015,275 or $1,010,764 more than it was for the first 11 days of the meet a year ago. The committee is of the opinion that a reduction in the total "take" as above recommended will result in a further increase in volume at all tracks and provide more income for the State than the figures used herein indicate.

In dealing with this problem the committee does not wish to appear unmindful of the views of those who believe that gambling is wrong and that the State should

take no revenue from it, and of the views of those others who believe that gambling is wrong and, therefore, should be taxed to the unbearable point.

The Horse Racing Act was ratified by a vote of the people of this State. The will of the people is supreme when so expressed, and the committee has therefore deemed itself precluded from considering the moral issue involved. Whether right or wrong, good or bad, the people may have it if they want it. In the provision in the act permitting amendment by the Legislature we see an intention to have the Legislature make such corrections as time and experience indicate are necessary or proper, but we see no intention to have the Legislature destroy the entire plan and purpose of the act.

Illegal Betting.

No investigation and study of the horse racing business would be complete without some attention being given the handbookmakers, commonly called "bookies."

The committee was fortunate in securing the testimony of Gene Normile who is probably as well qualified to testify on the subject as any man in the State of California. In addition to having a life long experience in horse racing and betting matters, he is now the manager of the Nation Wide News Service for the district south of Bakersfield. The Nation Wide News Service supplies the racing information to the "bookie joints" which is necessary to their operation and existence. From Mr. Normile and a representative of the telephone company, this picture is pieced together. From some high point near the Santa Anita Track, presumably a sheltered observation platform in a tree, the races are observed through powerful glasses and as they are run off the observer "calls" the race somewhat in the manner of a radio broadcast. The "call" however goes over a wire to the office of the News Service in Los Angeles and into a switchboard there where it is hooked up to a wire leading to the place of business of each subscriber for the service. At the "bookie joint" the end of the wire may be fitted with a loud speaker equipment or just a telephone. Teletype service is sold and rendered in the same manner. Wires from each track in the United States bring the information on each race as it is run.

Mr. Normile estimated that there were about 400 "bookie" establishments so hooked up in the State of California and that a great many of them had branches, agents and runners so that it was impossible to estimate the number of places or people taking bets. He further estimated that each of the 400 handled bets totaling approximately $10,000 weekly, making a weekly total of $4,000,000 and an annual sum of approximately $200,000,000.

Mr. Normile's testimony was supplemented by that of an official of the telephone company who produced records showing 250 extensions from Mr. Normile's switchboard to points in the city of Los Angeles and 29 more in the county outside of the city of Los Angeles and some teletype installations. The records produced also showed the names and addresses and type of equipment installed in connection with each extension.

Mr. Normile pointed out that if horse racing were stopped in California still illegal betting would continue because of the information coming from other tracks. In his opinion the "bookie" can not be eliminated and he advises licensing them for $1500 a year plus 5 per cent of their "handle".

Mr. Nathan Newby and Dr. Robert P. Shuler representing the Church Brotherhood expressed their opposition to the licensing plan and to gambling in any form, any place.

The two Los Angeles City police commissioners who appeared before the committee testified that they had not been informed of the prevailing "bookie" condition and that the commission had not considered the problem. Previous to the publicity given to the testimony before the committee on this subject, your committee believes the condition prevailing in the city and county of Los Angeles was typical of that throughout the State. The lack of law enforcement is due to the personnel of local law enforcement agencies, control over which lies with the people themselves through their voting power. Due to the fact that in some quarters there seemed to be the impression that this committee should enforce the law, the committee makes the statement that the Legislature of which this committee is part, is only a law enacting body and neither this committee nor the Legislature itself has any power to enforce the law. The committee interested itself in ascertaining the facts primarily. If arrests and prosecutions followed, they were incidental to the committee's main purpose.

There was some testimony to the effect that it is difficult to secure evidence that will convict under the present law. If the Legislature in its own wisdom should wish to eliminate the "bookies" the committee points out that the law would be much easier of enforcement if it were amended to prohibit the conducting of the business of accepting bets outside the enclosure for transmittal to the enclosure or otherwise. This provision would still permit a person to send a bet along to the track with a friend who would take it as a favor and not as part of his business.

Your committee believes that the question of whether or not the "bookies" should be recognized as a legitimate business should be left to the people themselves. To legalize numerous betting establishments throughout the State would be a decided and momentous change in the policy of this State. The question to a large extent involves the citizen's private morals and there is no better way to ascertain his wishes than to give him an opportunity to vote on the proposition. The issue was

not presented in the campaign of any of the members of the Legislature—they are uninstructed and even uninformed by their electorate. So far as your committee has observed, there are many good and sincere citizens whose opinions and judgment are entitled to weight, on both sides of the question. The question of horse racing and betting at the track was submitted to the people and your committee believes it the duty of the Legislature to leave the disposition of this related problem to the vote of the people themselves.

The Santa Anita Monopoly.

In the San Francisco Bay region are located two horse race tracks. In Los Angeles County where the population is much greater, there is only one. There have been many applicants for a license to build and operate a second track in Los Angeles County, some for winter racing and some for summer racing. All have been denied.

Many of these applicants testified before this committee and complained of unfair treatment at the hands of the California Horse Racing Board and particularly did they each complain that Mr. Carleton F Burke, chairman of that board, had encouraged and misled them into believing they would receive a permit, only to have their application denied after spending substantial sums of money in preliminary work.

The latest applicant to experience this treatment was the Hollywood Turf Club. This organization was granted a permit to build a track for summer racing in Inglewood, a growing, modern, enterprising city of the best standards, which adjoins Los Angeles City on the southwest. The permit called for the club to fulfill a list of conditions. The club undertook to perform, and spent substantial sums of money in so doing. A Corporation Commissioner's permit was issued authorizing the sale of stock, following which approximately $750,000 worth of stock was subscribed or purchased so that the club received approximately $350,000. A large part of this money was spent in acquiring land, starting improvements thereon, etc. About 87 days after issuing the racing permit, the Racing Board rescinded its action in granting the permit, Mr. Burke and Mr. Roth voting for rescision and Mr. McNaughton against rescision. At that time, Mr. Burke and Mr. Roth refused to point out to the club any matter in the permit which they deemed not performed satisfactorily by the club At the hearing of your committee, it developed that Mr. Burke had changed his mind about the second track in Los Angeles County because he came to the conclusion, after the permit had been issued, that public sentiment was against a second track, and he therefore felt impelled to find such defect in the performance of the conditions as would give him legal grounds to rescind and cancel the permit. Although the committee realizes that there was some opposition to a second track, the committee does not agree with Mr. Burke's opinion of his ability to gage public sentiment. A plebescite of the registered voters of the city of Inglewood showed a vote of approximately four to one in favor of the second track. As to the nonperformance of the conditions of the permit, it appears that the Hollywood Turf Club would have willingly complied with all Mr Burke could have reasonably demanded had he given voice to his objections. Mr. Burke's position obviously was that he had predetermined not to grant the final permit and did not propose to give the club an opportunity to correct any matter which might conceivably furnish an excuse for his action.

Mr. Burke testified that he is now opposed to a second track being built in Los Angeles County either for summer or winter racing. He is opposed to any racing plant being built there inferior to the Santa Anita Track and he does not believe that any plant can be built as good as the Santa Anita Track.

Asked the direct question why he thought racing in Los Angeles County should be confined to one institution, Santa Anita, Mr. Burke said: "If we could have something better than Santa Anita, then I would say that sounds pretty good. I just can't picture anything else as good."

"How about another plant that would be as good?" he was asked

"That's an impractical question to me because I can't see any," was his reply

"Your personal vision of the thing is that nothing could be as good as Santa Anita?"

"Not in this county, no, sir. In the first place, there is the old Lucky Baldwin Ranch, with all the tradition and romance of horse racing and breeding behind it. It is a beautiful setting."

In view of the purpose and plan of the law itself, these reasons for maintaining a monopoly appear to the committee to be so absurd that they require no discussion.

The Horse Racing Law is intended to promote horse breeding in this State and, at the same time, furnish to the public which supplies the finances facilities for its entertainment In Los Angeles County the public is spending enough money at Santa Anita to generously support two tracks. The winter race meet in Los Angeles County could be divided between two tracks and still Santa Anita could earn 50 per cent annually on its capitalization, based on its own figures for the past two meets, and after making effective the "take" hereinbefore recom-

mended. Another race track would not necessarily mean more days of racing It would mean, however, more facilities for both the horse breeders and the public, and competition which would tend to give all interests the most for the money received by the tracks In the opinion of your committee, it is a perversion of the purpose of the law, and an injustice to all the interests involved, to aim the administration of the law at making millions of dollars for one group of individuals.

The remedy for this condition is, however, already provided in the Horse Racing Act itself. The act provides: "The Governor may remove any board member for cause, giving him a copy of the charges against him and an opportunity to be heard."

This committee has been informed that, while its hearing was in progress, charges were filed with the Governor seeking the removal from the Racing Board of Mr. Burke and Mr. Roth. This committee would like it clearly understood that those charges were not considered by this committee at all, and it makes no findings concerning them. Neither the accusers nor the accused appeared before the committee in connection with the charges. As a matter of fact, Mr Roth did not appear before the committee at all The hearing on those charges is a matter for the Governor and the committee assumes that he will conduct a full hearing thereon independently of this investigation.

Your committee has gone into the Santa Anita monopoly as part of its investigation into the general administration of the horse racing law to report the facts and make such recommendations to the Legislature as may seem proper. The facts are here reported, and for the present the committee recommends no change in the law on this subject.

The Number of Commissioners on the Racing Board.

At present the number of commissioners on the California Horse Racing Board is three. Your committee recommends that it be changed to five. There may be those who will see in this change merely a device to over rule Mr. Burke and Mr. Roth. Your committee does not recommend it as such. If, upon the hearing of the charges on file with the Governor, it is shown that just cause exists why Mr. Burke and Mr. Roth should be removed, then they should not continue on the Board even though the number be changed to five.

Your committee believes that a membership of five will tend to give an administration of this important law that is more representative of the people of the State. A board of five may be more evenly balanced as to representation of the interests involved. It is not so likely to place the domination of this enormous enterprise in one or two people. It would tend to operate more efficiently as a board.

In 1935, Mr. Roth attended one of nine meetings. In 1936, up to May 26th, he attended two of six meetings. From the time of his appointment to May 26, 1936, he attended 14 of 33 meetings. While it should not be presumed that a member will be absent so often, certainly a larger board will not feel an absence as severely as it does with a three-member board.

On the whole your committee feels that a business of such importance, handling 25 to 50 millions of dollars of the public's money each year, deserves the supervision of more than three men.

Respectfully submitted.

that character, that nevertheless circumventions, evasions and violations have been reported against the chain store interests during and since the conclusion of the campaign referred to, and

WHEREAS, There is no greater menace in the government or political life of California than the influencing of legislation through the hidden, secret and concealed expenditures of large sums of money, and

WHEREAS, It is the desire and right of the citizens of the State to know what associations, organizations, persons and agencies influence the passage or defeat of direct legislation by means of the expenditure of money, and

WHEREAS, It is reported that large sums were so expended by said groups as campaign expenses, which are not returned, reported or accounted for to the Secretary of State, and

WHEREAS, Reports have been circulated that large sums were issued to unduly influence the endorsement of the chain stores' attitude on Proposition 22 by certain farm groups, certain community and civic organizations, certain chambers of commerce, certain labor leaders and other associations and individuals in positions of leadership in their respective localities and organizations, and

WHEREAS, Such practices are inimical to public interest and designed to mislead the voters in voting intelligently, and legislation should be adopted to curtail the same and supplement the requirements of the existing law; now, therefore, be it

Resolved by the Assembly of the State of California, That there is hereby created an Assembly committee to consist of five members to be appointed by the Speaker of the Assembly, to immediately make a special study and investigation of the campaign expenses made and campaign methods used by the opponents of Proposition No. 22 on the ballot of the general election of November 3, 1936, and to report thereon together with its recommendations as to needed changes in the law as soon as possible after the Legislature is convened for the second half of the current session thereof, and be it further

Resolved, That the committee as soon as it is appointed shall organize and select a chairman from its membership and appoint a secretary; and be it further

Resolved, That the committee is hereby authorized to hold public hearings at any place in the State of California, and be it further

Resolved, That the committee is authorized to do any and all things necessary to make a full and complete investigation of the matters herein referred to, and to require the production of books, agreements, documents, reports, accounts, and papers of every kind, to make its own rules of procedure, and to issue subpenas to compel the attendance of witnesses and to procure testimony. Each member of the committee is hereby authorized to administer oaths and all the provisions of Article VIII of Chapter II of Title I of Part III of the Political Code, relating to the attendance and assemblage of witnesses before the Legislature and committees thereof, shall apply to the committee created by this resolution, and said committee is hereby given leave to sit during the session of the Legislature and during the constitutional recess of the Legislature and to report back to the Assembly with recommendations at the reconvening thereof or as soon thereafter as possible; and be it further

Resolved, That the sum of $2,500 or so much thereof as may be necessary and the same is hereby appropriated for the purpose of defraying the expenses of the committee and of said investigation and for the employment of such clerical and other assistance as may be necessary fully to carry out its functions, said sum to be paid from the contingent fund of the Assembly and the State Controller is hereby authorized and directed to draw his warrant in favor of the person entitled thereto for such expenditures as may be certified from time to time by the chairman of said committee, and the State Treasurer is hereby authorized and directed to pay the claim.

Message from the Governor.

The following message from the Governor was received and read:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, January 18, 1937.

To the Honorable Members of the Assembly.
Sacramento, California.

Assembly Bill No. 457—An act to add section 13.6 to an act entitled "An act to provide for the regulation and licensing of horse racing, horse race meetings, and the wagering on the results thereof; to create the California Horse Racing Board for the regulation, licensing and supervision of said horse racing and wagering thereon; to provide penalties for the violation of the provisions of this act, and to provide that this act shall take effect upon the adoption of a constitutional amendment ratifying its provisions" approved June 5, 1933, relating to horse racing, declaring the urgency hereof, to take effect immediately.

In my opinion said Assembly Bill No. 457 constitutes an urgency bill within the meaning of that term as used in section 4 of Article IV of the Constitution of the State of California, the consideration of which should not await final enactment of the Budget Bill.

By Mr. Speaker:

WORKS PROGRESS ADMINISTRATION, CALIFORNIA,
FEDERAL MUSIC PROJECT NO. 4676-1, SACRAMENTO, CALIFORNIA, January 14, 1937.

Hon. William Mosely Jones, Speaker of the Assembly,
Capitol Building, Sacramento, California.

HON. MR. JONES: We cordially extend to you and the members of the Assembly an invitation to attend a concert by the symphony orchestra of the Federal Music Project, District 2 in Sacramento, under the direction of Leslie Hodge, to be held from twelve o'clock to 12 o'clock and thirty minutes p.m. on Thursday, January 21, 1937, in the rotunda of the Capitol Building.

Yours truly, PHYLLIS ASHMUN, Acting Supervisor.

Hon. Wm. Moseley Jones, Speaker of the Assembly of the State of California,
Assembly Chambers, Sacramento, California.

DEAR SIR: I attach hereto an affidavit setting forth certain facts in re the hearing of the charge against me contained in the joint resolution to remove me from my office.

I am confident that no member of the Legislature can wish to be compelled to vote on this resolution and the charge contained in it with an entire lack of knowledge of facts vitally material to the issues involved.

Based upon that belief and the facts stated in my affidavit I make the following request:

That a sufficient sum of money be appropriated to provide for the preparation of my defense, including a fair sum for the fees of attorneys to act in preparing, and in presenting such defense at the hearing before the Legislature;

That such provision be made for the expenditure of said money as the Legislature may deem right, to the end that it be not improperly spent, and, also, that the use thereof may not be hampered and the purpose of its appropriation be destroyed by unnecessary red tape, since its use is, obviously an immediate need

If attorneys in charge of the preparation of my defense are provided with funds for investigation purposes at once the number of witnesses will surely be much reduced, because it is believed that certain relevant, competent and material facts are within the knowledge of a number of persons, and it is not my purpose to unnecessarily produce cumulative evidence or to improvidently expend the State's money. Again, some persons whom there is reason to believe have knowledge of such facts may be found not to have such knowledge.

The State has no public defender; and as far as I know, there is no public officer charged with the duty of defending a citizen, who is without funds, against charges preferred under the circumstances here present.

Being in jail, it is apparent that I can not possibly prepare my own defense. Able counsel have been appointed to prepare and present the case against me. In spite of the verdict of the jury in my case in the Federal Court, it would seem that my unblemished record of 25 years in judicial office should suggest that my averment that I have a substantial defense is worthy of provision being made for a reasonable investigation of the merit of that claim before any judicial body should be willing to penalize me by removal from office. It would seem that the accused should be permitted to select his attorneys, and that they should use the money appropriated, subject to a rigid accounting for the same.

Respectfully,

GAVIN W. CRAIG.

STATE OF CALIFORNIA, } ss.
COUNTY OF VENTURA }

Affidavit.

GAVIN W. CRAIG, being duly sworn, deposes and says: That he is the Gavin W. Craig who is a Justice of the District Court of Appeal of the State of California and who is named in a joint resolution of the Senate and Assembly of the State of California, which said joint resolution sets forth a certain charge as a reason for the removal of affiant from his said office; and that the hearing of said charge, as affiant has been notified, is set for the eighth day of March, 1937;

That affiant is confined as a prisoner in the county jail at Ventura, California, for a term of one year, which does not expire until November 15, 1937;

That affiant has no funds, or any means of securing funds, with which to prepare his defense to the charge set forth in said resolutions for his removal from office, or to employ counsel to conduct such preparation for him, or to present his defense at said hearing;

That because of being confined in jail affiant can do little toward the preparation of his defense;

That affiant has been informed by competent lawyers, that he has a good and sufficient defense to said charges, and that he verily believes that he has such good defense;

That affiant is informed by said lawyers, and that he believes, that the facts which he desires to, and if permitted, will prove at said hearing, are relevant, competent and material to the issues presented by said charge;

That affiant has reason to believe, and does believe, that there are 70, or more, persons now in California, each one of whom has personal knowledge of one or more of the aforesaid facts;

That in addition to the said witnesses, several documents, of which some are voluminous, are, so affiant is informed by said lawyers, and so affiant believes, competent, relevant and material evidence in defense of said charges;

That it will be necessary to the proper presentation of affiant's said defense, to be made at said hearing, that each of said documents be copied and the copies certified, and the necessary expense of making said copies and the certification thereof will be approximately $1000, unless said expense is reduced by possible stipulation;

That if all of said witnesses are subpenaed and transported from their respective residences to Sacramento, and maintained near the place of said hearing until the testimony of such witnesses has been given, affiant is informed and believes and therefore states that the entire expense thereof will amount to several thousands of dollars; however, the exact amount of such expense is unknown to affiant;

That affiant is informed that the Legislature of California has appointed and will employ three, perhaps six, lawyers to prepare and present the case against the affiant at said hearing; and affiant says that to properly prepare and present affiant's said defense, affiant is informed and believes and therefore states that the services of three attorneys will be needed for much of the time from this date until the conclusion of said hearing,—for all of the time during said hearing, and that the duration of said hearing may be as long as four weeks.

GAVIN W. CRAIG

Subscribed and sworn to before me this nineteenth day of January, 1937.

Motion to Print Report in Journal.

On motion of Mr. Field, the Minority Report of the Special Assembly Interim Committee on State Auditing and Finance on the Administration of the California Horse Racing Act of 1933 was ordered printed in the Journal.

MINORITY REPORT OF SPECIAL ASSEMBLY INTERIM COMMITTEE ON STATE AUDITING AND FINANCE ON THE ADMINISTRATION OF THE CALIFORNIA HORSE RACING ACT OF 1933.

Mr. Speaker and Members of the Assembly.

Herewith is submitted a minority view of the subjects covered in a report signed by three members of the above-mentioned committee, which was submitted and printed in the Assembly Journal, Monday, January 18, 1937.

This minority report is in agreement with the majority view with respect to disposition of the so-called "outs money," to wit: That this money, representing sums won by bettors who fail to collect their winnings, be paid to the State within a period of one year, and 30 days instead of being retained by the track.

Agreement is also expressed on the subject of "breakage" as defined and provided for in the Horse Racing Act, and outlined in the majority report.

While agreeing with the majority conclusion that illegal betting conditions in the State of California are deplorable and should be corrected, the minority of the committee feels that so-called "bookies" and "bookmaking" should not be legalized, and that proper legislation should be enacted which will require local law enforcement officers to arrest and prosecute any person or persons guilty of illegal betting.

It is recommended that the Legislature adopt laws which will prohibit any person or persons from making or accepting a bet outside of the enclosure of a race track. The minority feels that bookmaking, as such, should be opposed in principle and not supported as a dubious revenue-producing source.

On the subject of the "take" of the State and the "take" of the track, the minority feels that the view of the majority is fundamentally wrong, as, under no circumstances, should the returns to the State be reduced.

On the contrary, it is the minority view that the "take" of the State should be increased, and that the "take" of the track should be decreased.

The minority of the committee believes that this entire subject should be fully considered by the Legislature, and that the law be amended in accordance with the facts as they be brought out in hearings by legislative committees.

As an instance of the need for more careful consideration of this phase of the subject, it should be pointed out that in the report submitted by the majority members of the committee, and the schedule contained therein, the revenue to the State based upon the last fiscal year in so far as Tanforan is concerned, would be reduced 25 per cent, or approximately $75,000 per year, and in so far as Bay Meadows is concerned the schedule submitted by the majority report would reduce the Bay Meadows payment to the State approximately $67,000 for that year.

Primarily, it is the conviction of the minority that the question of whether there should be one, two or more racing tracks located within one county, or within any particular geographical area in the State, is a subject wholly within the jurisdiction of the California Horse Racing Board.

In going into this matter the majority went beyond the scope of the committee's authorization, and to some extent made itself party to one side of a controversy now raging in southern California concerning the advisability of constructing a second race track in Los Angeles County.

The minority feels that this question is one not to be determined either by the committee or by legislative action, but should be left to the discretion of the properly constituted administrative body as provided for in the California Horse Racing Act.

Upon the assumption of the majority that construction of a second track in Los Angeles County is a virtual certainty that the volume at Santa Anita would be cut approximately in half, it is evident that such a development would, according to the majority's own figures, result in a decrease in revenue to the State of California of approximately $34,000 a year.

Furthermore, and wholly aside from a question of so-called monopoly or of potential revenue, the question of constructing additional race tracks must be regarded by the Racing Board itself from the broader standpoint of public welfare and opinion.

On this point, as having a direct bearing on this particular subject and its handling by the Racing Board, the following list of persons and organizations protesting a second track in Los Angeles County is presented:

On the question of enlarging the present three-man board to a board of five members, the minority recommends that this matter be more fully explored by the Legislature.

On the basis of the facts thus touched upon and submitted, the minority sees no reason for rushing through emergency legislation without due consideration being given the subject matters contained both herein and in the majority report.

Respectfully submitted.

The following resolution was offered.

By Mr. Yorty:

WHEREAS, The Railroad Commission has in its possession, or has the power and facilities to secure, information of great value to the Legislature in determining its policies and enacting laws concerning these public utilities, and,

Resolution.

The following resolution was offered:

By Mr. Yorty:

House Resolution No. 54.

WHEREAS, The problem of adequate regulation of private utilities enjoying assured profits under monopolistic powers granted them by State franchises is of primary concern to the citizens of this State and to their elected representatives in the Assembly of the California Legislature, and,

WHEREAS, There is widespread dissemination of information from publicity departments of these private utilities concerning the alleged ownership of their stock and bond holdings, said information being designed to induce the citizens to believe that such corporations are owned primarily by Californians who benefit by their business profits, and,

WHEREAS, The paid insertion appearing in the Pasadena Independent, a public newspaper, in its issue of May 9, 1935, over the signature of the president of the Southern California Edison Company, Ltd. reads as follows:

"WHO OWNS THE EDISON COMPANY?"

"Who owns the California Edison Company?

This is a fair question to ask and a simple one to answer.

Southern California Edison Company was founded 42 years ago by southern California citizens. Ever since then it has remained a home company, managed and largely owned by southern California residents. It has no affiliation with any holding company.

There are today more than 121,000 stockholders, the majority of whom live in southern California. More than 88,000 of them have an average investment of less than $500, the modest savings of people of moderate means In a very real sense this company is a publicly owned utility. It is a community enterprise It has grown as the community has grown, and as always, will meet and anticipate the assured growth which lies ahead for southern California.

Signed. HARRIS J BAUER, President,
Southern California Edison Company, Ltd."

While the Southern California Edison Company's annual report delivered under oath to the California Railroad Commission covering the fiscal year 1934 shows the 20 leading owners of common stock to be 16 foreign or out of State institutions and four institutions with headquarters in California, and, of these 20 heaviest stockholders, three were holding companies, 14 were financial institutions, three were estates, and not one was an individual, and,

WHEREAS, These conditions are not isolated, as evidenced by the following facts concerning the ownership of the voting stock of the Pacific Gas and Electric Company, delivered under oath to the California Railroad Commission for the year 1934, to wit:

Twenty corporations hold 3,067,267 shares of the 6,278,847 shares of the company's common stock, which control the voting power and therefore shape the utility's public policy. Of the first 20 owners of common voting stock, all but three are resident outside California; nine are holding companies, nine are investment companies, one is an estate, and one is an individual resident in New York.

And,

WHEREAS, The ownership of the majority stock of these public utilities which enjoy monopoly advantages under State law should be known by the general public and the representatives of the people, now therefore, be it

Resolved by the Assembly of the State of California. That the California Railroad Commission be respectfully requested to collect and deliver to the Assembly immediately following the constitutional recess, itemized statements concerning the names, residences, and number of voting shares owned by the heaviest stockholders which in total amount to over 50 per cent of the voting stock of each corporation

House Resolution No. 54 read, and referred to Committee on Public Utilities.

Report of Special Committee.

The following report of Special Committee was received:

ASSEMBLY CHAMBER, SACRAMENTO, January 22, 1937.

MR SPEAKER: Your Special Committee created by Assembly Concurrent Resolution No 6, to which was referred the following communication, to wit:

Hon. Wm. Moseley Jones, Speaker of the Assembly of the State of California, Assembly Chambers, Sacramento, California.

DEAR SIR: I attach hereto an affidavit setting forth certain facts in re the hearing of the charge against me contained in the joint resolution to remove me from my office.

I am confident that no member of the Legislature can wish to be compelled to vote on this resolution and the charge contained in it with an entire lack of knowledge of facts vitally material to the issues involved.

Based upon that belief and the facts stated in my affidavit I make the following request:

That a sufficient sum of money be appropriated to provide for the preparation of my defense, including a fair sum for the fees of attorneys to act in preparing and in presenting such defense at the hearing before the Legislature;

That such provision be made for the expenditure of said money as the Legislature may deem right, to the end that it be not improperly spent, and, also, that the use thereof may not be hampered and the purpose of its appropriation be destroyed by unnecesary red tape, since its use is, obviously an immediate need.

If attorneys in charge of the preparation of my defense are provided with funds for investigation purposes at once the number of witnesses will surely be much reduced, because it is believed that certain relevant, competent and material facts are within the knowledge of a number of persons, and it is not my purpose to unnecessarily produce cumulative evidence or to improvidently expend the State's money. Again, some persons whom there is reason to believe have knowledge of such facts may be found not to have such knowledge.

The State has no public defender; and as far as I know, there is no public officer charged with the duty of defending a citizen, who is without funds, against charges preferred under the circumstances here present.

Being in jail, it is apparent that I can not possibly prepare my own defense. Able counsel have been appointed to prepare and present the case against me. In spite of the verdict of the jury in my case in the Federal Court, it would seem that my unblemished record of 25 years in judicial office should suggest that my averment that I have a substantial defense is worthy of provision being made for a reasonable investigation of the merit of that claim before any judicial body should be willing to penalize me by removal from office. It would seem that the accused should be permitted to select his attorneys, and that they should use the money appropriated, subject to a rigid accounting for the same.

Respectfully,

GAVIN W. CRAIG.

STATE OF CALIFORNIA, } ss.
COUNTY OF VENTURA }

Affidavit.

GAVIN W CRAIG, being duly sworn, deposes and says: That he is the Gavin W. Craig who is a Justice of the District Court of Appeal of the State of California and who is named in a joint resolution of the Senate and Assembly of the State of California, which said joint resolution sets forth a certain charge as a reason for the removal of affiant from his said office; and that the hearing of said charge, as affiant has been notified, is set for the eighth day of March, 1937;

That affiant is confined as a prisoner in the county jail at Ventura, California, for a term of one year, which does not expire until November 15, 1937.

That affiant has no funds, or any means of securing funds, with which to prepare his defense to the charge set forth in said resolutions for his removal from office, or to employ counsel to conduct such preparation for him, or to present his defense at said hearing;

That because of being confined in jail affiant can do little toward the preparation of his defense;

That affiant has been informed by competent lawyers, that he has a good and sufficient defense to said charges, and that he verily believes that he has such good defense,

That affiant is informed by said lawyers, and that he believes, that the facts which he desires to, and if permitted, will prove at said hearing, are relevant, competent and material to the issues presented by said charge;

That affiant has reason to believe, and does believe, that there are 70, or more, persons now in California, each one of whom has personal knowledge of one or more of the aforesaid facts;

That in addition to the said witnesses, several documents, of which some are voluminous, are, so affiant is informed by said lawyers, and so affiant believes, competent, relevant and material evidence in defense of said charges;

That it will be necessary to the proper presentation of affiant's said defense, to be made at said hearing, that each of said documents be copied and the copies certified, and the necessary expense of making said copies and the certification thereof will be approximately $1,000, unless said expense is reduced by possible stipulation;

That if all of said witnesses are subpenaed and transported from their respective residences to Sacramento, and maintained near the place of said hearing until the testimony of such witnesses has been given, affiant is informed and believes and therefore states that the entire expense thereof will amount to several thousands of dollars; however, the exact amount of such expense is unknown to affiant;

That affiant is informed that the Legislature of California has appointed and will employ three, perhaps six, lawyers to prepare and present the case against the affiant at said hearing; and affiant says that to properly prepare and present affiant's said defense, affiant is informed and believes and therefore states that the services of three attorneys will be needed for much of the time from this date until the conclusion of said hearing,—for all of the time during said hearing, and that the duration of said hearing may be as long as four weeks.

GAVIN W. CRAIG

Subscribed and sworn to before me this nineteenth day of January, 1937.

J. C. P. MOORE, Notary Public.

My Commission Expires October 30, 1938.

[SEAL]

Receipt reports that the same has been considered by the Joint Committee created by said resolution, and such Joint Committee recommended and this committee recommends as follows, to wit:

1. That the said Gavin W. Craig be informed that he must make preparation for his own defense to the charges set forth in the complaint on file with the Legislature and that the Legislature will make no appropriations to assist the said Gavin W. Craig either in preparing his defense or hiring lawyers to represent him at the time of the hearing or in copying of documents or for any other purpose.

2. That the said Gavin W. Craig be further informed that the hearing of said complaint will be in pursuant to rules governing such hearing, as presented by the report of the Joint Committee and adopted by Assembly Concurrent Resolution No. 20.

3. That the Chief Clerk of the Assembly be and is hereby instructed to send a copy of this report and a copy of the rules hereinabove referred to to the said Gavin W. Craig.

House Resolution No. 62.

WHEREAS, Great publicity has been given in the press and over the radio to a story involving the alleged doping of a horse named Prochivity belonging to the Northway Stables owned by Norman W. Church; and

WHEREAS, The alleged doping and race which has been questioned took place at the Santa Anita Track on January 1, 1937; and

WHEREAS, The stewards of said track have had a number of hearings concerning that matter at one or more of which hearings the chemist whose report formed the basis for such charges refused to testify under oath that his examination showed that the horse had been stimulated; and

WHEREAS, The said stewards have nevertheless at different and various times said the evidence accumulated would be forwarded to the Racing Commission for its action and disposition of the case; and

WHEREAS, The Racing Commission has not yet taken jurisdiction of the case nor received the accumulated evidence; and

WHEREAS, There appears to be nothing in the rules of the said Racing Commission or the laws of this State requiring the stewards to act within a given length of time, or nothing in said rules or laws requiring the Racing Commission of this State to dispose of such matters in any given length of time; and

WHEREAS, It is obviously highly damaging, detrimental and expensive to the name and reputation of one in the position of Norman W. Church in these circumstances, and to the name and reputation of the stable which has been so reflected upon, and to the name and reputation of the trainer whose integrity has been called into question; and

WHEREAS, The Legislature will undoubtedly be called upon to pass legislation in this field that will afford protection to the track, to the public, to the owners of racing horses, and to the trainer of said horses; and

WHEREAS, It would be very desirable that the Legislature have detailed and accurate information as to the practices, customs, rules and regulations and laws concerning such matters; now, therefore, be it

Resolved, That a Special Assembly Committee on Horse Racing Rules and Regulations consisting of three members of the Assembly be appointed by the Speaker to investigate and study the rules and regulations, customs and practices of horse racing and the procedure for disqualifying or suspending horses, trainers, stables, or owners from the use and privileges of the tracks of this State, said committee to report to the Legislature as soon as possible after the constitutional recess of this session; and be it further

Resolved, That the committee upon appointment shall elect a secretary and appoint such other clerical and technical assistants as it may deem necessary; and be it further

Resolved, That all officers and employees of the State shall furnish to the committee such assistance, information and access to records as the committee request; and be it further

Resolved, That the committee is authorized to do all things necessary to make a complete investigation of the matters herein referred to and to require the production of, and access to, books, documents, reports, accounts, and papers of every kind, to issue subpenas to compel the attendance of witnesses and to procure testimony. Each member of the committee is hereby authorized to administer oaths and all the provisions of Article XIII of Chapter II of Title I of Part III of the Political Code, relating to the attendance and assemblage of witnesses before the Legislature and committees thereof shall apply to the committee created by this resolution, and the committee is hereby authorized to sit during the session of the Legislature and during the interval between session, at such places in the State as the committee shall from time to time determine, and be it further

Resolved, That for the purpose of paying the expenses of the committee and the members thereof, the sum of $250, or so much thereof as may be necessary is hereby set apart, reserved and appropriated out of the contingent fund of the Assembly, payments to be made by warrants of the State Controller drawn against the contingent fund upon written order of the chairman of the committee.

The following resolution was offered.

By Mr. O'Donnell:

House Resolution No. 63.

Relative to memorializing the Congress of the United States on the tariff laws relating to quarantine of live stock and meats

WHEREAS, During the years 1924 and 1929, serious outbreaks of foot and mouth disease occurred in California; and

WHEREAS, The outbreak of 1929 was traced to meat brought to the United States from Argentina; and

WHEREAS, Such foot and mouth disease outbreaks have caused serious injury to both industry and agriculture in California; and

WHEREAS, The Argentine Sanitary Convention, now pending before the Senate Foreign Relations Committee, is designed to alter the provisions of section 306-a of the Smoot-Hawley Tariff Act (effective June 17, 1930), so that, instead of forbidding importation of meat products from any country where rinderpest or foot and mouth disease exists, it would permit zoning of the Argentine and admission of such products from zones declared to be free from those plagues; and

WHEREAS, The proposed Sanitary Convention would encourage efforts to bring animals from affected areas via free zones; and

WHEREAS, The fact that so many of the outbreaks of foot and mouth disease in the United States have been traced to violation of laws of the Bureau of Animal Industry, governing the importation of meats from infected countries is sufficient reason for the tightening up of restrictions, rather than lessening such restrictions; now, therefore, be it

Resolved by the Assembly of the State of California, That it is opposed to any change or modification in the present tariff laws relating to quarantine of live stock and meats and to any plan whereby countries such as Argentina will be zoned to permit shipment of live stock or meats to the United States, and be it further

Report of Interim Committee.

The following report of the Assembly Interim Committee on the Investigation of Health and Health Insurance was received, ordered printed in the Journal, and referred to Committee on Public Health and Quarantine.

REPORT OF THE ASSEMBLY INTERIM COMMITTEE ON INVESTIGATION OF HEALTH AND HEALTH INSURANCE IN THE STATE OF CALIFORNIA.

To the Assembly of the State of California at its Fifty-second Session, January 1937.

Introduction.

Under the authority of the Assembly of the State of California and pursuant to a resolution passed by the Assembly at the fifty-first session of the California Legislature, the Assembly Interim Committee on Investigation of Health and Health Insurance in the State of California appointed by Hon. Edward Craig, Speaker of the Assembly, (See A. D. J., page 18, May 18, 1935) respectfully submits the following report

The committee was required

"to make a comprehensive investigation of the problem," and

"fact-finding studies—to promote the health and general welfare of the people of California."

In undertaking the study and investigation of health insurance your committee found a wealth of material upon the subject We found that in 1934–1935 an extensive survey was conducted in California at an approximate cost of $95,000 The California Medical Association contributed approximately $35,000, and the balance came from Federal and State funds In 1933 a Senate Interim Committee was appointed to study this subject. The committee submitted a voluminous report, based upon which Senate Bill No. 454 was introduced at the 1935 session of the California Legislature, proposing a form of compulsory health insurance The bill met with many amendments, and, after extended hearings, died in committee

Subsequent to the appointment of your committee, a question was raised by the State Controller as to the purpose for which legislative funds could be spent, which

handicapped the committee very seriously Prior to the Phillips decision this committee was unable to retain a secretary and prepare transcripts and compile memoranda and findings.

Since the committee found available much literature upon the subject, we early decided that our investigation should best turn to the practical side of health insurance.

Prior to conducting the public hearing Hon. Thomas J. Cunningham, chairman of the committee, prepared a questionnaire covering the entire phase of health insurance, which was mailed to more than 100 representative groups and individuals throughout the State The mailing list was compiled to include all groups within the State known by the committee to be interested in health insurance. It was the intent of the committee to overlook no group interested in the subject matter studied

The following is the invitation and list of questions which were sent to various medical, dental, chiropractic, osteopathic, and optometry groups; hospital and health service organizations; chambers of commerce; religious bodies; public and private utilities; merchants and manufacturers associations; life insurance companies, civic, taxpayers, fraternal, educational, civil service, teachers and employee groups, and farm bureaus:

"DEAR SIR:
AND/OR GENTLEMEN

Enclosed please find questionnaire of Assembly Interim Committee of the State Legislature, appointed to study and report on Health Insurance in the State of California.

This questionnaire has been sent to you either because of the interest you have shown in this problem, and/or the fact that the committee desires to obtain your views Please answer *all* questions applicable to you or the organization you represent

A public hearing will be held in the State Building in San Francisco, April 23d, 24th and 25th, beginning at 9:30 a.m., and in Los Angeles on May 8th and 9th You are invited to attend.

The committee will appreciate your answers to the questionnaire, typewritten on separate stationery, to be turned in at the committee hearings if possible, and not later than May 31, 1936

Answers, if mailed, should be forwarded to Hon. Ralph W. Wallace, secretary of the committee, 710 San Diego Trust & Savings Building, San Diego. Copies of questionnaire for all interested may be obtained from the secretary or chairman of the Assembly Committee

Very truly yours,
THOMAS J CUNNINGHAM,
Chairman, Assembly Health Insurance Committee"

26. Assuming that a system of compulsory health insurance should be adopted, do you believe the State of California should enact such a law in advance of Federal legislation?"

In the preparation and sending of the questionnaire it was the committee's intent that those who received it would comply with the committee's request for an answer. There was no desire on the part of the committee to invoke its power of subpena, but merely to acquire an expression of facts from those primarily concerned with this all-important problem of health insurance.

Ready and full responses were received from medical, dental, osteopathic, chiropractic groups; and certain religious bodies; hospitals; health insurance and health benefit societies; credit unions; fraternal orders; women's clubs; employee and civil service organizations; and certain interested individuals.

Considering the importance and far-reaching aspects of this problem, and the agitation aroused when legislation is introduced on any phase of this subject, your committee was greatly disappointed at the lack of interest and poor response to the questionnaire on the part of insurance companies, organized labor, private utilities, pharmaceutical groups, and certain private-profit health insurance associations.

Hearings.

The committee held, in addition to executive sessions, two public hearings, one in the city of San Francisco and one in the city of Los Angeles.

SAN FRANCISCO

At the San Francisco meeting, held April 23 and 24, 1936, the committee had the pleasure of being addressed by Dr. T. Henshaw Kelly, M. D., representing the California Medical Association. The committee was greatly interested in his remarks and his ability in presenting the problem in behalf of the medical profession of this State. His remarks are later referred to in the body of this report. Dr. John B. Canning, Professor of Economics at Stanford University also appeared before the committee.

Dr. Canning, discussing the public health need in California stated: "There can be no informed doubt that a serious problem exists in the field of your investigation. Many premature deaths, many avoidable total disabilities and many lesser cases of preventable damage to persons occur every year by reason of inadequate preventive measures and by reason of failure to obtain timely and adequate curative services.

One need only to cite the fact that rabies is present in the coyote population; bubonic plague is at large among our rats and ground squirrels; anopheles mosquitoes bearing malaria swarm in swampy sinks of the upper San Joaquin Valley; hoof and mouth disease is carried by the deer population—one need only cite these to suggest how inadequate our facilities are, as now organized to defend the population against irreparable damage.

No one needs to argue that the actual members of the population are the fundamental resource of a State. No one will assert that any other resource has any importance at all *except as* its use aids in maintaining and securing the comfort, health, vigor, and morale of members of the population.

In the absence of intelligently concerted effort we shall fall further short of effective defense both because of the rapidity of advance in medical knowledge and because of the inevitable increase in need by those unable to defend themselves. The resumption of full time employment of all persons willing and able to work at the pace of industry will not end the human wrecking incident to the great depression. Many have become so impaired in health, morale and habits that they

can never earn money incomes sufficient to maintain them and their dependents at that level of health and decency necessary both to economic efficiency and to social and political stability. Many of these persons, though losing the status of indigents (or being too proud to claim that status), will remain unable to pay for needed services at rates which will sustain the services at an efficient level."

Professor Canning made the following recommendation to our Committee:

"I suggest, for your consideration, the desirability of the Legislature's taking a major part in such a study It would be wholly appropriate to create a study commission consisting, say, of the Insurance Commissioner, and the Director of Public Health, ex officio and of appointees by the Legislature from panels nominated by the Medical Association, the Dental Association, the State Chamber of Commerce, the California Federation of Labor, etc. Such a commission should have funds for employing a few research assistants, for travel expense, clerical expense and the like. It should be entitled to have the assistance of the Attorney General or the Legislative Counsel It should have full powers of investigation. It should be authorized to accept gifts for the furtherance of its objects and to collaborate with interested private groups in reaching its conclusions.

The type of commission I suggest, you will recognize, is analogous to the Code Commission now at work The admirable work of that body is supported by appropriations It enlists the aid of the ablest men of bench and bar and of specialists in the leading law schools The deputies of the Office of the Legislative Counsel are available as skilled draftsmen. In working out the Insurance Code, for example, some two years was taken. In addition to the staff work referred to, advice was taken from counsel representing all types of organization interested in insurance All major conflicts of interest between insurers, brokers, and insured persons were ironed out before the code was presented to the Legislature There can be do doubt that money thus spent on study before enactment results in true economy. This is true even though the whole range of legislation is old and familiar subject matter

The same Legislature that passed the Insurance Code also enacted the Unemployment Reserves Act—a piece of legislation creating an institution wholly new in this State and with but the most limited of American legislative experience to serve as a guide. To be sure, an interim committee did make some investigation For the time devoted to it, the able members of that committee did remarkably well But the time and money and personnel available, starting too late, was not enough to do a good job. The wavering of Congress over the Social Security Act hindered the Legislature also. But whatever the *cause* of the insufficient study, the *result* of the insufficiency is extremely bad. Both the Unemployment Reserves Commission and employers and employees are encountering hardships, annoyances, excessive clerical costs, insufficient definitions, etc., that could have been avoided if all interested parties had taken time to join in a thorough study of the problem and to examine critically several successive drafts of the bill before it was presented to the Legislature. The results of that fuller study, if put before the Legislature, could have saved its 120 members much effort and confusion. I venture to predict that the cost to employers, employees and the State attributable to avoidable error and badly chosen options in that bill will be a thousand times as great as the cost of avoiding them would have been

One who is fully informed of present activities throughout the State can not entertain a doubt that some form or forms of health insurance will increase rapidly. These may be local or general, private or public, compulsory or voluntary Whatever form or forms they do take, some legislation will be necessary if only to prevent serious abuses, frauds, and malpractice. I think it will prove a mistake for the Legislature to put off serious prolonged study until legislation is forced by popular uninformed demand. I think, too, that to await the sporadic development of a wide variety of ill considered schemes will only make it more difficult to reach a good result when any general legislation is proposed It is always a mistake to delay study and action until special interests become vested and intrenched."

Dr. Ernest G. Sloman, representing the California State Dental Association, also addressed the committee

He advised the committee that the Dental Association had not taken a definite stand as to whether they favored or opposed voluntary or compulsory health insurance, but, in the event any form of health insurance should be enacted that there should be included a provision for dental service.

Dr. Sloman stated "The oral health of the people of America—by all means the most important consideration in the problem of dentistry and health insurance. In America there is little enough appreciation of the manifest values of prevention

as it relates to dentistry and ultimately to medicine." He stressed the fact that in any health insurance legislation, in order for it to be adequate, preventive service must be provided.

LOS ANGELES

Following the San Francisco meeting the committee met in Los Angeles on May 8 and 9, 1936.

Of particular interest to your committee were the findings of a survey conducted under the auspices of the California Medical-Economic Survey of which Dr. Paul A. Dodd, Assistant Professor of Economics at the University of California at Los Angeles, acted as director.

This survey, at a cost of $95,000, contacted 20,000 representative homes, including approximately 65,000 persons, throughout the State, almost 3,500 doctors of medicine; 2,200 dentists, 600 osteopaths, many hospitals, clinics and public health agencies in the State were interviewed.

Dr. Dodd appearing before the committee said:

"Recent studies show that the United States has a larger proportion of licensed physicians than any other Nation in the world. In 1929 it was estimated that there were approximately 121,000 physicians in private practice and 21,000 additional in medical institutions, an average of one physician for approximately every 865 people At that time England had one doctor per 1,490 persons, France one per 1,690, and Sweden one per 2,890.

California compares favorably with this National average. Upon the basis of an estimated 1934 population of 6,151,280 people and a licensed registration of 9,083 doctors of medicine and 1,380 doctors of osteopathy, this State has approximately one licensed physician and surgeon for every 568 persons. Distribution within the counties of the State, as within the States of the Union, is quite unequal; El Dorado and Imperial counties, large and sparsely populated, have populations per physician of 2,112 and 1,924 respectively; in Los Angeles and San Francisco counties the like respective ratios are 610 and 424.

Even a wider inequality occurs in the county distribution of the dentists of California. The average population per dentist for the State is 1,085, but the ratios of individual counties range from 593 to over 5,000 population per dentist, with half of the counties each having over 1,800 persons per dentist.

When compared with the National averages, this State possesses slightly more than its proportionate share of hospitals, and other health facilities California has 6 per cent of the Nation's hospital beds with only 4.6 per cent of the Nation's population. A more detailed analysis, however, discloses the fact that these institutions are usually scattered throughout the counties and communities of the State with little recognition of comparative needs. At the present time governmental hospitals are taxed almost without exception to capacity while private institutions are staggering under financial burdens coincident with half-occupied bed facilities Add to these conditions the fact that doctors and dentists tend to locate in densely populated areas, and but little imagination is needed to envisage the nature and seriousness of some of the State's health problems

The per capita income of the people of California is fourth highest among all the States of the Union. Yet half of its population lived within families whose net incomes in 1933 were less than $1,200; three-fourths of its population during this year were in families receiving less than $2,000 net family incomes. Only four out of 100 families had incomes of more than $5,000.

Many people unfamiliar with detailed facts are under the impression that these low income figures are chiefly the result of the depression To the contrary, however, it is true that there were within the State only 5 per cent more white families with net incomes ranging between $500 and $2,500 in 1933 (the year of the depression-low) than in 1929

Approximately 4 per cent of the average family income (below $5,000) is spent for medical and dental care, one of the few absolute necessities of life. While this may appear to be a small and unimportant sum, still the people of California spend for this item approximately $150,000,000 annually. Viewed in this light the purchase and sale of medical and dental care represents a large going business in which every citizen has a vital interest and upon which each is definitely dependent

The need for both medical and dental care is greatest among low income groups and least among the high income groups Again the need for care is greatest in rural districts and the largest cities of the State, and least relatively speaking, in the medium-sized communities. That this need represents a most serious problem is suggested in the figures setting forth the estimates of those needing medical and dental care at any given time. Upon a basis of this survey, approximately 758,000 white persons report a need at any given time for some form of medical care, and another 533,000 report such a need for dental care. Of these esti-

mated numbers 658,000 have received a medical diagnosis, and 340,000 have received a dental diagnosis. But the tragic part of the story is found in these facts—that out of the 658,000 who report the receipt of a medical diagnosis which has shown the need for treatment only 440,000 are receiving medical treatment, thus leaving an estimated 218,000 persons at any given time within our State who have received a diagnosis which disclosed the need for medical treatment *but who are not receiving the treatment needed*. Similarly out of the 340,000 persons who at any given time have received a dental diagnosis which has shown a need for treatment, only 166,000 are receiving treatment, thus leaving over half—174,000 who have been told of a need for treatment by their dentists *but who are not receiving the treatment needed*. Can we talk of "too many doctors and dentists"; can we boast of our "high health standards," or can we stand by with complacence satified with our present system of private practice in full view of these conditions? Without searching further into the problem, here alone can be found some 20 or more prospective new patients for every licensed physician and surgeon, and some 35 or more new patients for every licensed dentist in the State

Why is it that these thousands of people are not receiving adequate medical and dental care? Average charges and payments are not excessive. During the year preceding September 1, 1934, average charges, including all charges for medical care, dentistry, hospitalization drugs, nursing, the fitting of glasses, etc., was only $24.33 per white person or $79.25 per white family. Actual payments during the same period were only $21.04 and $68.50 respectively.

The problem of the costs of sickness is not one of average charges or payments. The major reason (aside from indifference and the feeling that time can not be spent in gaining treatment) why these thousands go without the care which they need is due to the uncertainty and the wide variations in charges and payments. The fundamental nature of this problem is well illustrated in several significant sets of figures emphasizing the extent of the variations in charges experienced by representative families in California during the year preceding September 1, 1934. During this period 25 per cent of the people experienced no charges while the other 75 per cent experienced all the charges incurred. Again 65 per cent of the people had only 10 per cent of the charges thrust upon them; 80 per cent experienced 25 per cent of the charges, 90 per cent experienced 43 per cent of the charges while 10 per cent of the people experienced 57 per cent of the charges. *Herein is found the real problem of medical costs.*

It would be unfair to the members of the professions serving the health needs of the public if their financial plight were not properly recognized in the process of this summary. Many doctors have borne a heavy burden themselves in attempting to see that *everyone* receives the proper care which should be administered regardless of ability to pay. In spite of the noble efforts of such practitioners, the above facts have indicated that there is still a real and serious problem with which to be dealt.

Professional incomes have dropped precipitously during the depression period. The average net professional income of doctors of medicine in California was $6,657 in 1929; it was $3,572 in 1933. In the former year only 25.5 per cent of the doctors had net professional incomes of less than $3,000; in the latter year 53.6 per cent had incomes of this amount or less. In 1929 the doctor of medicine collected all but 20 per cent of his charges (many times scaling down these charges before entering them against the patient); in 1933, 26 per cent of his charges were uncollectible.

The dentist's and osteopath's average incomes have dropped during the same period. In 1929 the average net professional income of dentists was $5,095; in 1933 it was only $2,769. In the former year the dentist collected approximately 90 per cent of book charges; during the latter year he collected 88 per cent of them. In 1929 the dentist's average net professional income was $4,418; in 1933 it was $2,129. During the former year the dentist collected all but 16 per cent of his charges; during the latter year he collected all but 26 per cent of them.

Thus it is seen that a considerable financial contribution has been made by the practitioners of the State during the past few years. With the problem of reducing overhead expenses in view of declining gross revenue, the doctor has doubtless been forced to drop many practices that experience has demonstrated to be invaluable in the conduct of preventive medicine. But far more important, however, is the thought presented by the major picture—that of thousands upon thousands of needy would-be patients shut out from the empty offices of needy but *competent* practitioners by the *barrier of finances*. This is not a current problem that will pass with the depression; rather it is an old one which promises to remain to haunt economic and social progress of our State and Nation until it has been adequately and intelligently met."

Mr J R. Maloney, representing the California Manufacturers Association, presented the views of that organization to the committee

Quoting from Mr. Moloney:

"The manufacturing interests of this State feel they have a very decided interest both as citizens and employers in the subject of health insurance. They feel in the event any compulsory or voluntary system, State-wide in its application, is created by law, that they should receive due consideration in the preparation of those laws and should have a voice in the creation of them.

Industry feels that if it is to be faced with unlimited increases in this type of expenditures, a substantial part of which must come from the pay envelope, it ought to have a fair opportunity to state its position—I think industry should properly be credited with an honest desire to find a solution to this question.—Industry has expended more money and effort to find its solution, or partial solution than any other group in America.—The endorsement and purchase of group life and disability insurance, the voluntary medical care and hospitalization plans of those same industries and other welfare work undertaken by them clearly shows a constructive attitude for which industry need not apologize.

Industry does, however, want to see a solution found that will accomplish the least injury to business institutions. There is a limit to taxes that can be laid on the pay roll.

We do not feel that compulsory State-wide health insurance will furnish a cure claimed for it—compulsory health insurance as proposed must of necessity be limited to people who can pay premiums or to people for whom somebody else can pay. Of necessity this brings you down to the employed group as beneficiaries.

A vast number of persons will be unaffected by such legislation whose position will remain unchanged."

Mr. Moloney also advised the committee that any plan of health insurance must consider not only the employed class, but also the following group of unemployed:

(a) Aged and infirm.
(b) Able-bodied individuals.
(c) Criminal class.

He also warned the committee of the possibility of the plan becoming a political football of either local or State Government and its improper use by employed or employing groups for political purposes.

Von T. Ellsworth, representing the California Farm Bureau in addressing the committee in part said:

"I speak for the California farmer—those living in rural areas"

In a sense he also discussed the urgent need of preventive work and pointed out that the medical needs of the farmer not only involved his relations with his physician and hospital but also his relations with health problems in general, and went so far as to urge that the committee or any group studying the problem take the entire problem of public health on a broad and all inclusive scale. He stated "My suggestion would be that there should be a broader committee appointed coordinating the volume of work of various health offices * * *."

The committee also gave due consideration to the views of many others who appeared before us. We wish to express our appreciation to all those appearing at both hearings, including Mrs. Lutie Gray, Chairman of the Welfare and Health Committee of the Affiliated Teachers of Los Angeles; Dr. A. C. Loos of the Ross-Loos Medical Group, Dr. Edmund F. Richardson, Vice President of the California Association of Optometrists; J. Robbin French, M. D., representing all hospitals in 11 western States; Hon. Rodney Turner; Marshton A. Kimball, Chairman, Health Committee of the Los Angeles County Employees Association; Gordon Francis, Assistant Chairman, Hospitalization and General Insurance Committee of Los Angeles Water and Power Department; Dr. E. H. Crane; Dr. E. Vincent Askey, Secretary, Los Angeles County Medical Association; J. Franklin Cook, representing dentists of southern California; Dr. Glenn D. Cayler, representing California Osteopathic Association; Dr. T. F. Rattledge, California Chiropractors Association; C. G. Dauphine of Los Angeles Firemen's Relief Association; Blynn Stout, Chairman of California Credit Union League; Mrs. Harry Gebalie, Chairman of the San Francisco Public Welfare Commission for Crippled Children; Mr. Murphy, Manager of the Order of Foresters of California.

In considering the problem of health insurance your committee was presented with the many various features of health insurance. Health insurance involves hospitalization costs and professional fees; voluntary or compulsory insurance; with or without cash benefits; distribution of hospital facilities and professional services; payment of health services; class of health service; inclusion and exclusion of various groups; and administration.

It was also recommended that action by this State await the outcome of future legislation by the Federal Government or other States. This was based on the natural assumption that many mistakes and errors would occur, and that this State should base its legislation on the experience of others.

In view of the many controversial and vital features that the complex problem of health insurance presents, your committee feels that due consideration must be

given to two phases of the health insurance problem that was continuously brought to our attention:

(First) The Problem of Hospitalization. Dr. T. Henshaw Kelly, speaking in behalf of California Medical Association, at our committee hearing in San Francisco on April 23, 1936, made the following statements regarding hospitalization:

"This problem can be divided into two parts, namely: How to pay for hospital care, and how to pay for medical care. Invariably, the doctors must wait, sometimes for years, for payment Hospital bills must be paid, on account of numerous expenses, salaries, etc Practically every hospital demands payment before the patient leaves the institution

Faced with this situation, it would seem a hospital insurance plan is necessary It should be a nonprofit, mutual organization to furnish hospital care at a nominal fee A large percentage of the people in the State will avail themselves of hospital insurance.

During the meeting of the Association of Western Hospitals in the Civic Auditorium, Mr. Brisbane stated: 'Our membership has doubled in the Inter-Coast Hospitalization Insurance Association. They are receiving approximately 600 new members per month'

Sickness is capable of actuarial study. It is possible for any health insurance to fail without proper study and adequate measures taken to prevent any slip up in whatever procedure this committee might adopt"

Others appearing before our committee also pointed out that hospital costs was one of the paramount problems, and that once this was properly provided there might be cast an entirely new light on health needs of the people of this State.

The committee is also conversant with the nonprofit community service of hospitals of the East Bay District of California, and the statements to the effect that legislation will be introduced in the fifty-second session of the California Legislature proposing a hospitalization act in this State.

Such being the facts, your committee is of the opinion that any extensive legislation proposed on health insurance proper at this session of the Legislature would be premature and unwise.

(Second) Your committee was enlightened with the information presented to it at its Los Angeles hearing by Dr. H. C Loos, representing the Ross-Loos Medical Group, which is a partnership operating only in the county of Los Angeles.

The Ross-Loos services were highly recommended to the committee by various groups appearing before us that were participants of its services The committee learned that there is no legislation in California which legalizes such contract medical services. It was the recommendation of Dr. Loos, Dr. J. Rollin French and others appearing before the committee that an enabling act be enacted by the California Legislature to clarify the present Insurance Laws and officially establish rules and regulations governing and limiting contractual medical and hospital practice.

It also appearing to the committee and the committee now being informed that such an enabling act has already been introduced in the fifty-second session of the California Legislature, we feel that this serves as a second reason why any health insurance plan, other than heretofore mentioned, would be premature and unwise at this time.

Therefore, your committee recommends that the Honorable Speaker of the Assembly of the fifty-second session of the Legislature appoint three members of the Assembly; one member thereof to be designated as chairman of said committee by the Speaker, together with representatives of the healing arts, labor, industry, agriculture, fraternal and insurance groups, religious bodies, and any other interested organizations the committee deems necessary to aid in the study of the health problem and health services in the State of California, with the purpose of crystalizing the thought on this problem and submitting its conclusions and recommendations to the fifty-fourth session of the California State Legislature A secretary shall be appointed from the membership of the committee by the chairman thereof

It is further recommended that the Assembly of the fifty-second session appropriate the necessary moneys for the expenses of the Assembly members of the committee, together with whatever other sums are deemed necessary to carry out the work of the committee. It is further recommended that such committee shall be authorized to accept contributions and/or endowments from all philanthropic organizations and foundations that might desire to contribute to further and advance the studies for which the committee is created
