813.5 Celery shall be free from pink rot and free from serious damage caused by blackheart, insects, and seed stem.

Serious damage means injury to:

(a) Blackheart, which is decayed or wet, and which affects one or more branches composing the heart of the stalk.

(b) Insects, when more than four branches are each affected by more than an aggregate area of one square inch.

(c) Seed stem, the length of which is more than four times the diameter of the stalk measured at a point two inches above the point of attachment of the outer branches to the root.

When containers of celery are marked as containing less than 36 stalks, the actual number of stalks in 95 per cent of the containers in any lot, shall not vary more than two under or two over the count as marked and when marked as containing 36 or more stalks the actual number of stalks in 95 per cent of the containers in any lot, shall not vary more than three under or three over the count as marked.

Amendment No. 1.

On page 1, line 1, of the printed bill, after the word and figure "Section 1", insert the following. "Section 3466a of the Political Code is hereby amended to read as follows:

Sec. 3466a. After the lapse of one year from and after the expiration of the period of redemption of any land sold to the district, or county treasurer as trustee for the district, either pursuant to the provisions of section 3466, 3480 or section 3480a of this code, the county treasurer of the main county, when and as directed by the board of trustees of the district, may in their discretion then sell any land remaining unsold, to the highest bidder for cash at the front door of the courthouse of the main county of the district after giving previous notice of such sale, and the time and place of holding the same, by publication thereof in some newspaper published in the county in which the land to be sold or some portion thereof is situated for two times, to wit: once a week for two successive weeks. It shall be sufficient to describe said land in said notice by reference number as set forth in the assessment lists to which reference shall be made in said notice, and to the date and time of filing same, for further particulars. Such lands may at the option of the district be sold without notice to any person paying therefor an amount equal to the amount required to be paid respectively upon such sales under the provisions of sections 3466 and 3480 of this code. The trustees of the district shall have the right to reject any and all bids and no bid shall be accepted for an amount less than such price as shall be approved by them. No parcel shall be sold for an amount less than the fair market value thereof as such value shall be ascertained by the board of trustees. One or more parcels of such land may be included in the same notice and sold severally at the time and place set forth in said notice. Upon such last mentioned sale being made as herein provided the said county treasurer shall execute a deed to the purchaser conveying the land sold, upon payment of the price bid, which deed shall have the effect of conveying title to the land sold to the purchaser free of encumbrance, except district assessments (including the unpaid balance of said assessment for the delinquency of which said property was sold) which upon the date of the sale herein provided had not been called, and except as may be otherwise provided by law, and such deed duly executed and acknowledged shall be *prima facie evidence that all the proceedings for the levy and collection of the delinquent* assessment for which said land was sold, and all of the proceedings for the sale of said land have been duly and regularly taken, and all notices required to be given or published have been so duly given and published for the time and manner as required by law.

Where any land has been sold for a delinquent assessment, pursuant to the provisions of sections 3466, 3480 or 3480a of the Political Code for a delinquent assessment or installment of the same and no redemption has been made and the time for redemption has expired, the district shall have the right to the possession of the land so sold and unredeemed and the board of trustees shall have the right to bring and maintain any and all actions in equity or law in connection with said land and the protection of the district's rights therein to the same extent as any other owner; and the costs and expenses of such action or actions shall be a charge against the district. The board of trustees shall also have the right to expend funds of the district in such amounts that may from time to time be necessary for the purpose of retiring any and all liens against such land superior to the title of the county treasurer therein. The trustees of the district shall have the management and control of, and right to lease out to a tenant or tenants for such reasonable rental and upon such terms as such trustees may deem advisable, any and all lands in the district which have been sold to the county treasurer, as trustee, for delinquent assessments, where the time for redemption has expired and said lands remain unsold

and to receive and collect the rental for the same. All rentals collected or moneys received by the trustees of the district from such lease of land or for the use or occupation of such land may be applied by them to the payment of the incidental expenses of holding and leasing said lands and to the payment of any other incidental expenses of, or legal charge against the district or for the purpose of purchasing any outstanding bonds of the district matured or unmatured together with the coupons thereunto appertaining at not more than the face value of such bonds plus the accrued interest thereon; which said bonds and/or coupons when so purchased shall be forthwith delivered to the county treasurer and canceled, and to the payment of any call of any maintenance assessment on any tract of land theretofore bought in by county treasurer as trustee of the district for a delinquent installment of any assessment theretofore levied on any such tract of land and then remaining unsold by said county treasurer; provided, however, that after the period of redemption has expired all rentals collected or moneys received from lease of land sold to the county treasurer as trustee of the district pursuant to the provisions of section 3480 or 3480a of this code or for the use or occupation of such land, less the incidental expenses of leasing or holding the same and less the amount required to pay any called or delinquent installment of any maintenance assessment on any tract of land which has been theretofore bought in by the said county treasurer for the payment of any delinquent installment of any assessment theretofore levied on any such tract of land, and then remaining unsold by such county treasurer, shall, in the event said district shall be in default for interest or principal payments on any of said bonds issued by said district, be deposited in said county treasury of the main county, to the credit of the bond fund of the district. An amount equal to the revenues derived from each tract by reason of the leasing, use or occupation thereof, less the incidental expenses of leasing and holding same, shall be credited by the county treasurer on the assessment lists against the delinquent charges on said tract. The provisions hereof shall apply to all lands heretofore sold for delinquency to a district or to the county treasurer, as trustee as well as to future sales under assessments whether heretofore, or hereafter to be, levied."

Amendment No. 1.

On page 1 of the printed bill, strike out all of lines 3 to 18, inclusive, and insert in lieu thereof the following:

"376. The parents of a legitimate unmarried minor child, acting jointly, may maintain an action for the injury of such child caused by the wrongful act or neglect of another. If either parent shall fail on demand to join as plaintiff in such action or is dead or can not be found, then the other parent may maintain such action and the parent, if living, who does not join as plaintiff must be joined as a defendant and, before trial or hearing of any question of fact, must be served with summons either personally or in a proper case by publication. The respective rights of the parents to any award shall be determined in the trial of the case and declared in the judgment.

A mother may maintain an action for such an injury to her illegitimate unmarried minor child. A guardian may maintain an action for such an injury to the ward.

All such actions may be maintained against the person causing the injury, or if such person be dead, then against his personal representative, or if such person be employed by another person who is responsible for his conduct, then also against such employer or his personal representative. The death of the child shall not abate the parent's cause of action for his injury as to damages accruing to the parents or either of them before his death.

If an action may be maintained pursuant to section 377 of this code for wrongful death of any such child, the action authorized by this section shall be consolidated therewith for trial on motion of any interested party."

Amendment No. 2.

On page 1 of the printed bill, strike out lines 21 to 27, inclusive, and lines 1 to 24, inclusive, on page 2, and insert in lieu thereof the following:

"377. When the death of a person is caused by the wrongful act or neglect of another, an action for damages may be maintained by or for the benefit of the persons named herein against the person causing the death or his personal representative, whether or not the wrongdoer dies before or after the death of the injured party. If the wrongdoer is employed by another person, natural or corporate, who is responsible for such acts, the action may also be maintained against such employer

or his personal representative in case of his death, whether or not the employer dies before or after the death of the injured party.

The action shall be maintained for the benefit of the following persons as beneficiaries.

(a) The deceased's spouse, minor children, including acknowledged and adopted children, parents including mothers of illegitimate children, and illegitimate children in case of the death of the mother thereof, or in case of the death of the father if such child is actually dependent upon said father.

(b) If there be no such persons or if such persons die before recovering damages, then the action may be maintained for the benefit of such other persons as were dependent in whole or in part upon the deceased for support at the time of the wrongful act or neglect and who at that time were relatives not further removed than the third degree of consanguinity or were members of the deceased's household other than employees.

If any beneficiary specified herein shall die prior to judgment, his claim or interest shall cease, but this shall not affect the rights of other beneficiaries or abate any pending action in which the deceased is not the sole beneficiary. A defense or bar against one beneficiary shall not affect the rights of other beneficiaries.

The action shall be brought by the personal representative of the deceased, or if he has not been appointed or if he shall fail to bring action on demand, then any beneficiary specified herein may bring such action. Such action shall be brought for the benefit of all persons who may be beneficiaries entitled under this section.

All persons who may be entitled to claim benefits under this section may intervene or be joined as parties plaintiff, or if they shall fail or refuse on demand to join as plaintiffs in the action or can not be found or ascertained, they may be joined as defendants, but non-joinder of a beneficiary shall not defeat or abate the action. Before the trial of any question of fact, all defendants must be served with summons either personally or in a proper case by publication.

The elements of damage to be considered by the jury or the trier of facts shall include the following:

(1) Support, maintenance or other loss of pecuniary benefits which might reasonably have been expected from the deceased if he had lived.

(2) Reasonable funeral and all other expenses incidental to the death, if incurred or paid.

(3) In the case of a spouse, parent or child, the pecuniary worth of the comfort, society, nurture and protection of the deceased.

The respective rights of the beneficiaries in any award of damages shall be determined in the trial of the case and the jury or the court shall find the damages, if any, suffered by each party for whose benefit the action is maintained, whether plaintiff or defendant, as well as for the plaintiff or plaintiffs bringing the suit. If any such actions be separately brought, or if an action be brought by the personal representative for the benefit of the estate of the deceased for damages which accrued prior to his death, the same shall be consolidated on motion of any uninterested party.

The judge before whom the action was tried, or in the event of his inability to act, any judge of the court in which the action was pending, may allow reasonable attorneys' fees and expenses to the personal representative of the deceased, or to one or more of the beneficiaries, or both, to such extent as may be equitable. Any amount so allowed shall be a lien upon the judgment. Nothing herein contained shall preclude the personal representative from contracting to pay attorneys' fees, with the approval of the probate court; or preclude any other person from contracting to pay attorneys' fees if such person is legally capable of entering into such contract.

The personal representative may compromise any action to which he is a party with the approval of the court in which the action is pending. If no action is pending such approval shall be obtained from the probate court. Prior to any such approval, the personal representative shall petition such court in writing for such approval and the petition shall state the terms of the proposed compromise and the reasons therefor. Notice of hearing such petition shall be given to all parties to the action or if no action is pending, to the beneficiaries entitled to recover under the provisions of this section. Such notice shall be given in the manner provided by Part 2, Title V of this code. Upon the hearing, the court shall first determine whether notice has been given as provided herein and a recital of due notice in the court's order shall be conclusive thereon. The court shall then determine whether to approve or disapprove such proposed compromise. In the event of approval the court shall also equitably determine the extent of the respective interests of the beneficiaries in the amount to be paid in compromise."

SEC. 3. Section 3 of said act is hereby amended to read as follows:

Sec. 3 The period of time within which any proceeding or action must be taken or commenced to foreclose or enforce the lien of any such special assessment bond pursuant to any law or laws is hereby extended for such period of time as such foreclosure or enforcement is prohibited by law. On and after January 15, 1938, one member of the board shall be a person who is a licensed embalmer without any financial interest in any funeral establishment. Such board is a continuation of the Board of Embalmers and Funeral Directors for all purposes. Except as herein provided, the term of office of the members of the board shall be four years and they shall hold office until the appointment and qualification of their successors. The terms of the members

of the board in office when this amendment takes effect shall expire as follows: One member January 15, 1934; one member January 15, 1935, one member January 15, 1936; two members January 15, 1937. Vacancies occurring under the provisions of this section shall be filled by appointment for the unexpired term.

SEC. 2. Section 3 of said act is hereby amended to read as follows:

Sec 3. The term "funeral director," as herein used, is a person, partnership, corporation, association, or other organization engaged in or conducting, or holding himself or itself out as engaged in (a) preparing, for the burial or disposal and directing and supervising for burial or disposal of dead human bodies, (b) maintaining a funeral establishment for the preparation for the disposition or for the care of dead human bodies, and (c) who shall, in connection with his or its name or funeral establishment, use the words "funeral director," or "undertaker," or "mortician," or any other title implying that he or it is engaged as a "funeral director," as herein defined. Every person who is not a licensed funeral director and who buries or disposes of dead human bodies, is guilty of a misdemeanor. A "funeral establishment" as the term is used herein, shall be understood to mean a place of business conducted at a specific street address or location devoted exclusively to the care and preparation for burial or transportation of human dead bodies and consisting of (a) a chapel wherein funeral services may be conducted, (b) a preparation room equipped with tile or cement floor, necessary drainage and ventilation, and containing necessary instruments and supplies for the preparation and embalming of human dead bodies for burial or transportation, and (c) a display room containing a stock of funeral caskets and shipping cases. The said board may adopt such rules as may be reasonable and proper to define what shall be deemed to be necessary drainage and ventilation, and what instruments, supplies and merchandise shall be deemed to be necessary and suitable in such funeral establishment.

The term "embalmer," as herein used, is a person engaged, or holding himself out as engaged, in the practice of disinfecting or preserving dead human bodies, or preparing for the transportation by railroad express company or common carrier of human bodies dead of contagious or infectious disease.

The term "apprentice" as herein used is a person engaged in the study of the art of embalming under the instruction and supervision of a regularly licensed embalmer of and practicing in the State of California.

The regular course of apprenticeship shall be two years, provided that the apprentice shall be entitled to two weeks' vacation each year, without leave of absence from the board.

The person desiring to engage as an apprentice shall make application for registration as an embalmer's apprentice, to said board upon a form provided by the board, which application shall state that the applicant is over eighteen years of age, holds a high school certificate, or possesses the equivalent of a high school education, and is of good moral character. On and after the first day of January, 1935, an applicant for registration as apprentice must hold a junior college diploma or must have completed a full two years' college course. Said application must be verified by the oath of applicant and be accompanied by a fee of one dollar. The secretary of the board shall whenever it appears to him that no reason exists for the denial of such application and that such application is regular upon its face, have the power to issue to the applicant, a certificate of apprenticeship, without submitting said application to the board. If, however, any doubt exists as to the qualifications of the applicant, said application shall be submitted to the board and may be accepted or rejected by a majority vote of the board.

A certificate of apprenticeship issued as herein provided shall be signed by the apprentice and shall be renewable annually upon the payment by the holder on the first day of January of each year of an annual renewal fee of one dollar. Failure to pay said renewal fee during the month of January of any year shall cause said certificate to become delinquent, in which case it shall be renewed only upon the payment of a penalty of five dollars, in addition to said renewal fee. The board shall mail on or before the first day of January of each year to each registered apprentice at his last known address a notice that his renewal fee is due and payable and that, if not paid by the first of February, the penalty for renewal will be five dollars, in addition to said renewal fee.

All apprentices registered as provided herein shall be under the supervision and control of said board and shall be required to report to said board semiannually on January 15 and July 15 upon forms provided by the board, showing the work which such apprentices have performed during the semiannual period preceding the first of the month on which such report is made, including the number of hours served and the number of bodies the apprentice has assisted in embalming or otherwise preparing for disposition during said period. The information contained in said report shall be certified to as correct by the funeral director in whose establishment said apprentice has been employed during said period and by the embalmer under whom he has served during said period.

Said board shall have power to grant leaves of absence and to grant extensions thereof to apprentices registered under the provisions of this act, provided that no credit shall be given to an apprentice upon his apprenticeship for the period during which he is absent from duty on leave, and provided further that no more than an aggregate of twelve months' leave of absence shall be granted to any apprentice during the term of his apprenticeship. Application for leave of absence and for extension thereof shall be made by the apprentice upon a form provided by and addressed to said board. Upon the termination of a leave of absence or any extension thereof, the apprentice shall report to the board the fact that he has resumed his duties as an apprentice and shall submit to the board affidavits subscribed by the funeral director in whose establishment he has resumed his duties and by the embalmer under whom he is apprenticed, confirming this fact. Failure to so report within ten days after the expiration date of any leave of absence or extension thereof shall automatically cancel the registration of such apprentice

The board shall have power to suspend or revoke a certificate of apprenticeship, after notice and upon complaint and hearing, where the said apprentice is guilty of any of the following acts or omissions:

1. Failure to devote not less than an average of eight hours per day, six days per week, to the duties of his apprenticeship;

8. Soliciting business for a funeral director or for an embalmer;
9. Failure to complete his two year course of apprenticeship within three years after registration;
10. Fraud or misrepresentation in obtaining a certificate of registration as an apprentice;

An apprentice who has allowed his certificate of apprenticeship to lapse or who has had his certificate of apprenticeship suspended or revoked may within one year after such suspension or revocation make application for reregistration, but not more than two such reregistrations shall be allowed by the board. The board may, when the circumstances warrant, allow an apprentice credit under a reregistration for time actually served under a previous registration, provided that if the previous registration has been suspended or revoked upon any of the grounds set forth in this section not more than 75 per cent of the time previously served shall be credited on the reregistration.

"SEC. 5.5. Section 13 of said act is hereby amended to read as follows.

Sec. 13. The proceeds from the sale of all bonds authorized under the provisions of this act shall be paid to the State Treasurer for the credit of the California Toll Bridge Authority and be deposited as demand deposits forthwith in such depositary or depositaries as may be authorized by law to receive deposits of State funds to the credit of a fund to be designated as the acquisition and construction fund of the particular toll bridge or bridges or other highway crossing for which such bonds were issued and sold, which fund shall at all times be kept segregated

and set apart from all other funds Such proceeds shall be paid out or disbursed solely for the acquisition or construction of such toll bridge or bridges or other highway crossing, the acquisition of the necessary lands and easements therefor and the payment of interest on such bonds during the period of actual construction and for a period of six months thereafter, only as the need therefor shall arise and the California Toll Bridge Authority may agree with the purchaser of said bonds upon any conditions or limitations restricting the disbursement of such funds that may be deemed advisable, for the purpose of assuring the proper application of such funds. All moneys in such fund and not required to meet current acquisition or construction costs of the toll bridge or bridges or other highway crossing for which such bonds were issued and sold, and all funds constituting surplus revenues which are not immediately needed for the particular object or purpose to which they must be applied or are pledged shall be invested in bonds and obligations eligible for investment of surplus State moneys; provided the California Toll Bridge Authority may provide in the proceedings authorizing the issuance of said bonds that the investment of such moneys shall be made only in particular bonds and obligations within the classifications eligible for such investment and such provisions shall thereupon be binding upon the said authority and all officials having anything to do with such investment. Any surplus which may exist in said acquisition and construction fund shall be applied to the retirement of bonds issued for the acquisition or construction of such toll bridge or bridges or other highway crossing by purchase or call and in the event such bonds can not be purchased at a price satisfactory to the California Toll Bridge Authority and are not by their terms callable prior to maturity such surplus shall be paid into the fund applicable to the payment of principal and interest of said bonds and shall be used for that purpose. The proceedings authorizing the issuance of bonds may provide limitations and conditions upon the time and manner of applying such surplus to the purchase and call of outstanding bonds and the terms upon which they shall be purchased or called and such limitations and conditions shall be followed and observed in the application and use of such surplus All bonds so retired by purchase or call shall be immediately canceled

All tolls or other revenues received from the operation of any toll bridge or bridges or other highway crossing acquired or constructed with the proceeds of bonds issued and sold hereunder shall be paid over by the Department of Public Works at least monthly to the State Treasurer who shall deposit the same forthwith in such depositary or depositaries as may be authorized by law to receive deposits of State funds to the credit of a special fund to be designated as the toll revenue fund of the particular toll bridge or bridges or other highway crossing producing such tolls or revenue, which fund shall at all times be kept segregated and set apart from all other funds.

From the money so deposited in each separate acquisition and construction fund as hereinabove provided, the State Treasurer shall transfer to the place or places of payment named in said bonds such sums as may be required to pay the interest as it becomes due on all bonds sold and outstanding for the construction of such particular toll bridge or bridges or other highway crossing during the period of actual construction and during the period of six months immediately thereafter. The Treasurer shall thereafter transfer from each separate toll revenue fund to the place or places of payment named in said bonds such sums as may be required to pay the interest on said bonds and redeem the principal thereof as such interest payments and bond redemptions fall due for all bonds issued and sold for the construction or acquisition of the particular toll bridge or bridges or other highway crossing producing the tolls or revenues so deposited in said toll revenue fund. All funds so transferred for the payment of principal or interest on bonds issued for any particular toll bridge or other highway crossing shall be segregated and applied solely for the payment of such principal and interest. The proceedings authorizing the issuance of bonds may provide for the setting up of a reserve fund or funds out of the tolls and other revenues not needed for the payment of principal and interest, as the same currently mature and for the preservation and continuance of such reserve fund in a manner to be provided therein, and such proceedings may also require the immediate application of all surplus moneys in such toll revenue fund to the retirement of such bonds prior to maturity, by call or purchase, in such manner and upon such terms and the payment of such premiums as may be deemed advisable in the judgment of said California Toll Bridge Authority.

The moneys remaining in each separate toll revenue fund after providing the amount required for interest and redemption of bonds as hereinabove provided, shall be held and applied as provided in the proceedings authorizing the issuance of said bonds. In the event the proceedings authorizing the issuance of said bonds do not require surplus revenues to be held or applied in any particular manner, they shall be allocated and used for such other purposes incidental to the acquisition, construction, operation and maintenance of such toll bridge or bridges or other highway crossing as the California Toll Bridge Authority may determine.

Warrants for payments to be made on account of such bonds shall be duly drawn by the State Controller upon request of the State Treasurer whenever the drawing of such warrants shall be required in order to make such payments.

Moneys required to meet the costs of acquisition or construction and all expenses and costs incidental to the acquisition or construction of any particular toll bridge or bridges or other highway crossing, or to meet the costs of operating, maintaining and repairing the same, shall be paid from the proper fund therefor upon demand of the Department of Public Works and after audit thereof in the manner provided by law and upon warrants drawn by the Controller.

All interest received or earned on money deposited in each and every fund herein provided for shall be credited to and become a part of the particular fund upon which said interest accrues.

The California Toll Bridge Authority may provide in the proceedings authorizing the issuance of bonds or may otherwise agree with the purchasers of bonds regarding the deposit of all moneys constituting the acquisition and construction fund and the toll revenue fund and provide for the deposit of such moneys at such times and with such depositaries or paying agents and upon the furnishing of such security as may meet with the approval of the purchasers of such bonds; provided, however, that the depositaries and security so provided for or agreed upon shall be qualified and eligible in accordance with the requirements of law.

Notwithstanding anything contained in this act the proceeds received from the sale of bonds and the tolls or other revenues received from the operation of any toll bridge or bridges or other highway crossings may be used to defray any expenses incurred by the California Toll Bridge Authority in connection with and incidental to the issuance and sale of bonds for the acquisition or construction of such toll bridge or bridges or other highway crossings, including expenses for the preparation of surveys and estimates and the making of inspections and examinations as may be required by the purchasers of such bonds; provided, however, that the proceedings authorizing the issuance of such bonds may contain appropriate provisions governing the use and application of said bond proceeds and toll or other revenues for the purposes herein specified."

(b) 'Person' shall mean and include any individual, firm, copartnership, joint adventure, association corporation, estate, trust, business trust, receiver, syndicate

or any other group or combination acting as a unit, and the plural as well as the singular in number.

(d) "In this State" or "in the State" means within the exterior limits of the State of California and includes all territory within such limits owned by or ceded to the United States of America.

SEC. 3. Private cars operated upon railroads, into, out of or through this State, shall be assessed by the board and taxed in the manner hereinafter prescribed.

SEC. 4. Each person whose private cars are operated upon the railroads in this State at any time during the calendar year 1937 must file with the board on or before the fifteenth day of April, 1938, a report under oath setting forth specifically the information prescribed by the board to enable it to make the assessment required herein. Each such person must file with the board a similar report with respect to the operation of his private cars for each calendar year thereafter on or before the fifteenth day of April following the close of the calendar year covered by the report.

SEC. 5. The board for good cause may extend for not to exceed 15 days the time for making any report required under the provisions of this act.

SEC. 6. If any person neglects or refuses to make a report required to be made by this act, the board shall make an estimate, based upon any information available to it, for the year in respect to which such person failed to make such report, of the matters required to enable the board to complete the assessment required herein, adding to the assessed value thus fixed a penalty equal to 10 per cent thereof. Thereupon the board shall give to such person written notice of such estimate and determination, the notice to be served personally or by mail; if by mail, service shall be made in the manner prescribed by section 1013 of the Code of Civil Procedure and addressed to the person at his address as the same appears in the records of the board.

SEC. 7. If the board is dissatisfied with the report filed hereunder by any person, it is hereby authorized and empowered to compute and determine the assessment based upon any information available to it.

SEC. 8. The value of private cars assessed hereunder by the board shall include all materials and supplies held, stored or used in this State by the person owning such private cars or the receiver or trustee in control thereof, for the purpose of repairing, improving, servicing and operating such cars, but the value thereof so assessed shall not include tools, shop equipment and other like items of personal property customarily kept or maintained at fixed locations for use in repairing, improving, servicing or operating such cars.

SEC. 9. In determining the value of private cars for the purposes of this act, the board shall equalize the value so determined with the average assessed value of tangible property throughout the State as fixed for the purposes of county taxation.

SEC. 10. In making assessments under this act, the board shall determine the average amount of private cars habitually in the State upon the basis of car mileage, track mileage or such other factors or combination thereof as may be reasonably calculated to establish the situs of such private cars, using the average amount so determined as the basis for the assessment of the property.

SEC. 11. The board shall complete the assessment of all property required to be assessed under the terms of this act on or before the third Monday in August of each year. Between the first Monday in August and the third Monday in August of each year, the assessments made hereunder by the board shall be open for inspection by all persons interested. At any time prior to the third Monday in August, the owner of any property assessed hereunder, or the one to whom it may be assessed, may be heard by the board upon a petition for reassessment.

SEC. 12. The board shall levy and extend against private cars assessed hereunder, for each year, a tax computed at the next preceding year's average rate of taxation in the State and enter such tax upon a record maintained by the board for that purpose. Such levy and extension shall be completed on or before the third Monday in August of each year.

SEC. 13. The average rate of taxation in the State shall be computed by adding the county, city, school district or other general or special taxes, not including special assessments, and dividing the amount so obtained by the total assessed valuation in the State as shown by the county tax rolls for the same year, provided that there shall not be included in such computation any amount levied solely against real estate or real estate and improvements.

SEC. 14. In the event that any property required to be assessed hereunder escapes assessment for any year, such property when discovered shall be assessed immediately by the board and the assessment so made shall be included among those to be completed on or before the third Monday in August following such discovery. Thereafter the assessment so included shall be treated as though made for the same year as such other assessments.

SEC. 15. On or before the fifteenth day of October, 1938, and the fifteenth day of October in each year thereafter, the board shall cause to be mailed to each person against whom a tax is levied hereunder a notice stating the amount of the

assessment, the rate and amount of tax and a demand that the tax be paid to the board not later than December 5th following.

SEC. 16. Failure to pay any tax levied hereunder on or before the fifth day of December following such levy shall result in the addition thereto of a penalty of 10 per cent of the amount thereof. Such failure shall not be excused nor shall any assessment or levy be invalidated because of the failure of the board to send the notice prescribed by section 15 hereof or of the person whose property is assessed to receive such notice.

SEC. 17. In the event that any person is delinquent in the payment of any obligation imposed hereunder the board may give notice of the amount of such delinquency by registered mail to all persons having in their possession or under their control any credits or other personal property belonging to such delinquent or owing any debts to such delinquent. Thereafter any person so notified shall neither transfer nor make other disposition of such credits, personal property or debts until the board shall have consented to a transfer or disposition thereof or until 30 days shall have elapsed from and after receipt of such notice. All persons so notified must advise the board within five days after receipt of such notice of any and all such credits, personal property or debts, in their possession, under their control or owing by them, as the case may be.

SEC. 18. Whenever any person shall be delinquent in the payment of the obligation imposed hereunder, the board may transmit notice of such delinquency to the Attorney General, who shall at once proceed to collect all sums due the State from any such person by appropriate legal action. In any suit brought to enforce the rights of the State hereunder, a certificate by the board showing the delinquency shall be prima facie evidence of the levy of the tax, of the delinquency and of compliance by the board with all provisions of this act in relation to the assessment of the property and computation and levy of the tax. In such action a writ of attachment may issue, and no bond or affidavit previous to the issuing of said attachment shall be required.

SEC. 19. All moneys received by the board in pursuance of the provisions of this act shall be transmitted to the State Treasurer and deposited in the State Treasury to the credit of the general fund. Copies of the schedules covering such transmittals shall be furnished at the same time to the State Controller.

SEC. 20. The tax imposed hereunder shall constitute a lien upon, and shall have the effect of an execution duly levied against, any and all property, real, personal or mixed belonging to or owned by the person against whom such tax is levied. This lien shall attach on the first Monday in March of 1938 with respect to the taxes to be levied during that year and shall likewise attach on the first Monday in March of each year thereafter with respect to taxes to be levied during each such year. The lien shall not be removed until the tax is paid and the property subject to the lien thereof is sold in payment of the tax. The lien shall be paramount to all private liens or encumbrances of whatever character, and to the rights of any conditional vendor or other holder of the legal title, in or to any private car assessed hereunder.

SEC. 21. The tax imposed hereunder shall be in lieu of all other taxes, according to value, State, county, municipal and district, upon the private cars and property incidental to their operations, the value of which is included in their assessment hereunder.

SEC. 22. Every person whose property is subject to tax hereunder shall keep such records and other pertinent data with respect to the operation of his private cars in this State as the board may require, and the board, or its authorized representative, is hereby empowered to examine such records and data.

SEC. 23. Every railroad company with lines in this State shall keep such records and other data with respect to the operation of private cars over such lines as the board may require and shall make such records and data available to the board or its authorized representative on demand.

SEC. 24. The board is hereby charged with the enforcement of the provisions of this act and is hereby authorized and empowered to prescribe, adopt and enforce rules and regulations relating to the administration and enforcement thereof.

SEC. 25. If the board determines that any amount has been paid hereunder contrary to law, the board shall set forth that fact in its records and shall certify to the State Board of Control the amount collected in excess of what was legally due, from whom it was collected, or by whom paid to the board, and if the State Board of Control approves, such excess shall be credited on any amounts then due from such person under this act and the balance shall be refunded to such person, or his successors, administrators, executors or assigns.

SEC. 26. In the event that an amount has been illegally determined to be due from any person hereunder, the board shall certify such fact to the State Board of Control, and if the State Board of Control approves, it shall authorize the cancellation of the amounts upon the records of the board.

SEC. 27. No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action or proceeding in any court against this State or against any officer thereof to prevent or enjoin under this act the assessment of property or the collection of any tax or other amounts herein required to be collected; but after payment

of any such tax or any such amount under protest, duly verified and setting forth the grounds of objection to the legality thereof, the person making the payment may bring an action against the State Treasurer in a court of competent jurisdiction in the county of Sacramento for the recovery of the amount paid under protest. No such action may be instituted more than 90 days after the tax or the amount herein required to be paid to the State has been paid and failure to bring suit within said 90 days shall constitute a waiver of any and all demands against the State on account of alleged overpayments. No grounds of illegality shall be considered by the court other than those set forth in the protest filed at the time of the payment of the tax or the amount herein required to be paid to the State.

SEC. 28. If in any such action judgment is rendered for the plaintiff, the amount of the judgment shall first be credited on any taxes or amounts due from the plaintiff under this act, and the balance of the judgment shall be refunded to the plaintiff. In any such judgment, interest shall be allowed at the rate of 6 per cent per annum upon the amount found to have been illegally collected from the date of payment of such amount to the date of allowance of credit on account of such judgment or to a date preceding the date of the refund warrant by not more than 30 days, such date to be determined by the State Controller.

SEC. 29. In no case shall any judgment be rendered in favor of the plaintiff in any action brought against the State Treasurer to recover any amount paid hereunder, when such action is brought by or in the name of an assignee of the person who had paid the amount sought to be recovered.

SEC. 30. Any violations of the provisions of this act shall be a misdemeanor and be punished by a fine not exceeding $1,000, or by imprisonment not exceeding one year, or both, at the discretion of the court, except that any person required to make, render, sign or verify any report hereunder or to furnish data or information to the board hereunder, who makes any false or fraudulent report or furnishes false or fraudulent data or information with intent to defeat or evade the assessment or levy required by law, shall be guilty of a misdemeanor and shall for each such offense be fined not less than three hundred dollars ($300) and not more than five thousand dollars ($5,000) or be imprisoned not exceeding one year in the county jail or be subject to both fine and imprisonment in the discretion of the court

SEC. 31. Nothing herein contained shall be construed as excusing the payment of any tax levied against property subject to taxation hereunder prior to the first day of January, 1938, and all laws imposing any such taxes shall remain in full force and effect, anything to the contrary in this act notwithstanding.

SEC. 32. If any section, subsection, clause, sentence or phrase of this act which is reasonably separable from the remaining portions of this act is for any reason held to be unconstitutional, such decision shall not affect the remaining portions of this act. The Legislature hereby declares that it would have passed the remaining portions of this act irrespective of the fact that any such section, subsection, clause, sentence or phrase of this act be declared unconstitutional."

Resolutions.

The following resolutions were offered:

By Mr. Rosenthal:

House Resolution No. 114.

WHEREAS, The manufacture and distribution of munitions is an enterprise exclusively concerned with war and armed conflict, and one, which, in the event of war, becomes a major factor in its outcome, and which, in time of peace, contributes that which destroys mutual harmony and accord among Nations and makes for war, and

WHEREAS, The influence afforded private and often selfish interests by their control of munition manufacture and distribution is an improper exercise of power threatening the very authority of the Nation, and

WHEREAS The very essence of war is personal sacrifice and loss rather than the personal profit and gain which is the inevitable product of war for munition manufacturers, and

WHEREAS, Munitions constitute the most dangerous instrumentalities of destruction which the cunning and ingenuity of mankind has been able to devise, and

WHEREAS, Private control of these agencies of destruction and of the means for their production constitute a menace to the sovereignty and independence of the United States and to the peace of the world: now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly of the State of California do petition that the Congress of the United States of America consider and do pass appropriate legislation for the acquisition, and for the administration as a public enterprise, and for the exclusive ownership and control by the people of the United States of munition factories and of agencies for the distribution of munitions; and be it further

Resolved, That a copy of this resolution be sent to the President and Vice President of the United States, the Speaker of the House of Representatives, and each of the members from California of the Senate and House of Representatives of the United States

Request for Unanimous Consent.

Mr Rosenthal asked for, and was granted, unanimous consent to have House Resolution No. 114 placed on the unfinished business calendar without reference to committee.

By Mr. Rosenthal:

House Resolution No. 115.

WHEREAS, War is the last, terrible resort of a people wherein the sovereign power demands of each citizen a full measure of sacrifice and loyalty, even unto the gift of life, and

WHEREAS, The successful conduct of war requires the rapid marshaling and the effective application of all National resources to the common purpose, and

WHEREAS, The free use of wealth and property is a lesser individual privilege and right than is the enjoyment of the freedom of person, and

WHEREAS, Historical experience in the United States provides precedence for the conscription of manpower, which practice shall doubtless be used in event of future war, and

WHEREAS, War inevitably provides opportunity for inordinate profit and gain to those possessed of wealth, and

WHEREAS, The misery and sacrifice of the Nation, and the urgent, emergency character of the situation produced by war can not justly be considered as appropriate occasion for extraordinary personal enrichment and private gain; now, therefore, be it

Resolved by the Assembly of the State of California, That the Congress of the United States of America consider and do adopt appropriate legislation for the conscription of wealth and the natural resources within these United States in the event of war; and be it further

Resolved, That a copy of this resolution be sent to the President and Vice President of the United States, the Speaker of the House of Representatives, and each of the members from California of the Senate and House of Representatives of the United States.

Request for Unanimous Consent.

Mr. Rosenthal asked for, and was granted, unanimous consent to have House Resolution No. 115 placed on the unfinished business calendar without reference to committee.

It is intended by the provisions of this act to enable any city within this State to adopt such a retirement system as may be adaptable to the size and type of city involved.

SEC. 2. In said ordinance creating such system, there shall be designated the officers and employees who shall be included in such retirement system, and such city may by ordinance, from time to time add additional officers and employees to the list originally designated in the ordinance creating the system and membership of all officers and employees included in the retirement system shall be compulsory.

The legislative body of any city may maintain its own retirement fund or provide for the payment of benefits to eligible officers and employees, or their beneficiaries, by means of insurance, or may contract with the legislative body or governing board of any other city or county within the State, or with any State department or other competent agency for the performance of any service in connection with the establishment or administration of such retirement system or for the investment, care or administration of retirement funds or for any other service relating thereto.

SEC. 3. The ordinance establishing such pension or retirement system shall, among other things, provide for the following:

(a) The amount of benefits to be paid to any officers or employees, or their beneficiaries, and the terms and conditions upon which such benefits shall be paid.

(b) The contribution to be paid by such officer or employee to the pension and retirement fund, which shall be not less than 2½ per cent and not more than 8 per cent of such officer's or employee's monthly salary.

(c) The contribution to be paid by the city to the pension and retirement fund which shall not be less than 2½ per cent and not more than 8 per cent of the total amount of compensation paid to all officers and employees under said system.

(d) The personnel of the retirement board, which shall consist of not less than five members, at least two members of which shall be elected by the officers and employees who have been included in such retirement system.

(e) The adoption of rules and regulations for the administration of such retirement or pension system by the retirement board.

(f) The refunding to any officer or employee who withdraws from the retirement system, prior to retirement, of the amount of such officer's or employee's contribution, with such interest as may be credited to his contribution.

SEC. 4. The ordinance establishing said retirement system may provide that the amount of the retirement, compensation, or pension, may be predicated, in part, upon services rendered the city by an officer or employee prior to the establishment of the retirement system, and may provide that the contribution of officers and employees included in such retirement system, may be collected by deducting the amounts thereof from the salary or wages due such officers and employees.

SEC. 5. Nothing herein shall prohibit the enhancement of such fund by private or voluntary contributions nor the transfer to said pension and retirement fund of any surplus funds of said municipality which in the sound discretion of said legislative body may properly be used for such purpose.

SEC. 6. The legislative body of any city may levy and collect annually a special tax upon the assessable property within the city in the number of cents per $100 of assessable property as will be sufficient to raise the amount estimated by the said legislative body to be required to provide sufficient revenue to meet the obligation of the city to the said pension and retirement fund as defined and limited by subdivision (c) of section 3 hereof; which said rate of taxation may be in addition to the annual rate of taxation allowed by law to be levied in said city.

SEC. 7. No officer or employee who is retired under the provisions of this act, shall be entitled to receive any pension or retirement payment while engaged in any other remunerative employment whatsoever for any city, county, State, district or political subdivision, or for any publicly owned utility or service, or the Federal Government, and any pension or retirement payment so made shall be recoverable by said city for the benefit of said pension or retirement fund.

SEC. 8. The retirement board shall require competent medical proof before retiring any officer or employee for physical disability, and where, following retirement of a person for such reason, it subsequently appears that said disability has diminished or ceased, the retirement board shall reduce the retirement payment to correspond with the degree of disability and the retirement payment shall cease where the said disability has fully ceased. The determination of said retirement board shall be final and conclusive and shall not be modified or set aside except for fraud or abuse of discretion.

SEC. 9. This act shall not be deemed to repeal any existing acts under which pension or retirement systems may have been heretofore adopted, but is intended to be and is an enabling act providing an alternative procedure for the establishment of pension and retirement systems. Any regularly established fire or police

protection district is hereby authorized to adopt a pension or retirement system for its employees under the provisions of this enabling act."

"SECTION 1. Section 2 of the act cited in the title hereof is hereby amended to read as follows:

SEC. 2. The legislative body of any municipal corporation, upon receiving a written petition therefor signed as hereinafter provided, containing a description of the new territory proposed to be annexed thereto, must, without delay, pass a resolution of intention to call a special election giving at least 50 days notice thereof, and submit to the electors residing in the territory proposed by such petition to be annexed to such municipal corporation the question, whether such territory shall be annexed to, incorporated in and made a part of such municipal corporation. The resolution shall specifically describe the boundaries of the territory so proposed to be annexed to such municipal corporation, and shall designate such territory by some appropriate name or other words of identification by which such territory may be referred to and indicated upon the ballots to be used at an election at which the question of such annexation is submitted. The resolution shall contain a notice of the day, hour, and place when and where any person owning real property within such territory so proposed to be annexed and having any objections to the proposed annexation, may appear before the legislative body and show cause why such territory should not be so annexed. Such hearing shall not be less than 15 nor more than 40 days from the date of the passage of said resolution.

The city clerk of the municipal corporation to which it is proposed to annex such territory shall cause a copy of the resolution to be published at least once a week for two successive weeks prior to the hearing, in a newspaper of general circulation published in the territory proposed to be annexed; if there be no such newspaper published in such territory then in a newspaper of general circulation published in the municipal corporation to which it is proposed to annex such territory; and if there be no such newspaper published in the municipal corporation a copy of the resolution shall be posted not less than 10 days before the hearing in at least three public places within the territory proposed to be annexed.

At any time not later than the hour set for hearing objections to the proposed election, any owner of property within the territory proposed to be annexed may make written protest against the proposed election. Such protest must be in writing and shall state the name or names of the owner or owners of the property affected thereby and the location and area of such property in general terms. At the time set for hearing protests the legislative body of such municipal corporation shall proceed to hear and pass upon all protests so made and if it be found that protest is made by the owners of a majority of separate parcels of property within the territory proposed to be annexed no further proceedings shall be taken in connection with the petition.

If it be found that protest is not made by owners of a majority of the separate parcels of property within the territory proposed to be annexed, the legislative body of such municipal corporation must without delay call a special election and submit to the electors, residing in the territory proposed to be annexed, the question whether such territory shall be annexed to, incorporated in, and made a part of such municipal corporation.

The petition hereinabove mentioned shall be signed by the owners of not less than one-fourth of the area of land in such territory representing not less than one-fourth of the assessed value of such territory according to the last preceding equalized assessment roll of the county or counties in which such territory is situated. The legislative body of the municipal corporation is hereby empowered to, and it shall be its duty to cause notice to be given of such election by the publication of a notice thereof in a newspaper of general circulation, if any such there be, printed and published outside of such municipal corporation, but in the county in which the territory so proposed to be annexed is situated, at least once a week for a period of four successive weeks next preceding the date of such election. If there be no such newspaper, then such legislative body shall cause notice of such election to be given by the posting thereof in three public places within the territory so proposed to be annexed at least four weeks next preceding the date of such election.

Such notice shall distinctly state the date of such election, and the proposition to be submitted, to wit, that it is proposed to annex to, incorporate in, and make a part of such municipal corporation the territory sought to be annexed, specifically describing the boundaries thereof. In addition to said description, such territory shall also be designated in such notice by some appropriate name or other words of identification, by which such territory may be referred to and indicated upon the ballots to be used at any election at which the question of such annexation is submitted as in this act provided. The electors in such territory shall be directed by such notice to vote upon such question in the manner hereinafter set forth in this section.

Such legislative body is hereby empowered, and it shall be its duty to establish, and in such notice of election to designate, the voting precinct or precincts and the place or places at which the polls will be open for such election in such territory so proposed to be annexed, which said place or places shall be that or those commonly used as voting places within such territory, if any such there be. The legislative body of such municipal corporation is empowered to, and it shall, appoint the officers of such election, who shall be, for each voting place in such territory, two judges and one inspector, each of whom shall be a qualified elector of the voting precinct in which he is appointed to act as an officer of such election.

Upon the ballots to be used at such election, there shall be printed the words "Shall (giving the name or other designation of the territory proposed to be annexed, as stated in the notice of election) be annexed to the city of (stating name of city). Opposite these words there shall be printed the words "Yes," and "No," and to the right of each of these last words there shall be a voting square. If an elector shall stamp a cross (x) in the voting square after the printed word "Yes," the vote of such elector shall be counted in favor of the annexation of the territory referred to in such proposition to the municipal corporation named therein; and if an elector shall stamp a cross (x) in the voting square after the printed word "No," the vote of such elector shall be counted against such annexation. The ballots used at such election, the opening and closing of the polls and the holding and conducting of such election, shall be

in conformity, as near as may be, with the laws of this State concerning general elections, except as herein otherwise provided.

The judges and inspector of such election for each polling place shall immediately on the closing of the polls, count the ballots, make up, certify and seal the ballots and tally sheets of the ballots cast at their respective polling places, doing so, as nearly as practicable, in the manner provided in the laws of this State relating to general elections, and they shall thereupon deliver the ballots, tally sheets and returns to and deposit the same with the clerk of the legislative body of such municipal corporation. Such legislative body shall, at the time provided for its regular meeting next after the expiration of three days from and after the date of said election, meet and proceed to canvass said returns, and such canvass shall be completed at such meeting, if practicable, and in any event, as soon as practicable, avoiding adjournment or adjournments, until said canvass is completed. Immediately upon the completion of such canvass, said legislative body shall cause a record thereof to be made and entered upon its minutes, stating the proposition submitted and showing the whole number of votes cast thereon in the territory proposed to be annexed, the number of votes cast therein in favor of annexation, and the number of votes cast therein against annexation."

2283 There is hereby appropriated out of any money in the State Treasury not otherwise appropriated to each and every institution in this State conducted for the support and maintenance of needy minor orphans, half-orphans, abandoned children, or the child or children of a father who is incapacitated for gainful work by permanent physical disability, or is suffering from tuberculosis in such a stage that he can not pursue a gainful occupation, and to each and every county, city and county, city, or town maintaining such orphans, half-orphans, abandoned children, or the child or children of a father who is incapacitated for gainful work by

permanent physical disability, or is suffering from tuberculosis in such a stage that he can not pursue a gainful occupation, or any or all of such classes of persons, and not in excess of the sum of $120 per annum for each such orphan, half-orphan, abandoned child, or child of a father who is incapacitated for gainful work by permanent physical disability, or is suffering from tuberculosis in such a stage that he can not pursue a gainful occupation, supported and maintained in such institution or by such county, city and county, city, or town; but each abandoned child maintained by an institution must have been an inmate thereof for one year prior to such institution receiving aid therefor, as provided in this chapter, provided, however, that upon receiving such aid such institution shall also be entitled to reimbursement from the State for said year in a sum not in excess of $120 per annum for each such abandoned child where proof of abandonment sufficient to demonstrate the genuineness of the claim is presented to the State Board of Control; provided further, that in addition to the amount paid by the State for each orphan, half-orphan, abandoned child, or child of a father who is incapacitated for gainful work by permanent physical disability or is suffering from tuberculosis in such a stage that he can not pursue a gainful occupation, maintained in a private home or in an institution, the county, city and county, city, or town may pay for the support of such orphan, half-orphan, abandoned child, or child of a father who is incapacitated for gainful work by permanent physical disability or is suffering from tuberculosis in such a stage that he can not pursue a gainful occupation, an amount equal to the sum paid by the State, provided that in any case where any such orphan, half-orphan, abandoned child, or child of a father who is incapacitated for gainful work by permanent physical disability or is suffering from tuberculosis in such a stage that he can not pursue a gainful occupation, is denied aid by the county or city and county, upon a petition setting forth the facts in full as to the necessity of aid, verified by five reputable citizens of the county, city and county, city, or town, the applicant in any such case shall have the right of appeal direct to the State Board of Control for aid for such child and should this appeal be sustained by said board, payment must be made for the child as above provided

SEC. 2. *Sections 2284, 2287 and 2288 of the Political Code are hereby repealed*

SEC. 3. A new section to be numbered 2284 is hereby added to the Political Code to read as follows:

2284. 1. When and during such time as grants in aid are provided or made available by the United States Government for aid to dependent children in this State, the State Treasurer shall, from the sums so granted pay to each county and city and county (a) an amount which shall be used exclusively as aid to dependent children who come within the definition of dependent children under Title IV of the Federal Social Security Act, equal to one-third of the total sums expended as aid to such dependent children under this chapter, not counting so much of such expenditure with respect to any child for any month as exceeds the maximum provided in said Title IV, and (b) an additional amount equal to one-third of the total of the sums expended as administrative costs for aid to such dependent children

2. From the sums appropriated therefor by the State of California in section 2283 of this code, the State Treasurer shall pay to each county or city and county an additional amount which shall be used exclusively as aid to needy children eligible under this code equal to the amount provided to be paid by the State as aid for each child under said section after deducting therefrom that portion of the amount, if any, allowed under section 2284.1 (a) of this code which such State aid bears to the total amount of aid granted under this code to each child

3. From the sums appropriated therefor by the State of California in section 2283 of this code, the State Treasurer shall pay to each institution entitled thereto under this chapter aid in the amount provided in section 2283.

SEC. 4. A new section to be numbered 2284a is hereby added to the Political Code to read as follows:

2284a. The method of computing and paying the amount provided for in section 2283 and section 2284 of this code for each quarter, beginning with the quarter commencing April 1, 1937, shall be as follows

1. The State Department of Social Welfare shall, prior to the beginning of each quarter, estimate the amount to be paid for such quarter to each county or city and county under the provisions of section 2283 and 2284 of this code, such estimate to be based on a report filed by each county or city and county containing (a) its estimate of the total sum to be expended in such quarter in accordance with the provisions of this chapter, and stating the amount appropriated or made available by the county or city and county for such expenditure in such quarter, (b) records showing the number of needy children receiving aid under the authority of this chapter in the county, and (c) such other information and investigation as the State Department of Social Welfare may find necessary.

2. The State Department of Social Welfare shall then certify to the State Controller the amount so estimated by it, reduced or increased as the case may be, by any sum by which it finds that its estimate for any prior quarter was greater or

less than the amount which should have been paid to the county and city and county under this chapter for such quarter, except to the extent that such sum has been applied to make the amount certified for any prior quarter greater or less than the amount estimated by the State Department of Social Welfare for such prior quarter

3. The State Controller shall thereupon draw the necessary warrants, and prior to the audit or settlement by the State Department of Social Welfare, and the State Controller, the State Treasurer shall pay to the treasurer of each county and city and county the amount so certified.

4. Reports of aid to needy children paid out under this chapter shall be presented by the respective counties and cities and counties at times and in the form prescribed by the State Department of Social Welfare. Such reports shall be audited by the State Department of Social Welfare and the State Controller and, when and in the amount approved, shall be allowed to said county or city and county as a credit to apply against advances made under subsection 1 of this section.

5. Claims for aid to needy children in institutions eligible under section 2283 of this code shall be presented by the institutions at times and in the form prescribed by the State Department of Social Welfare. Such claims shall be audited by the State Department of Social Welfare and the State Controller and, when and in the amount approved, the State Controller shall draw the necessary warrant for the amount allowed in favor of the institution, and the State Treasurer shall pay the same on presentation.

SEC. 5. Claims for State aid granted under this act for the quarter ending March 31, 1937, shall be presented by the respective counties and cities and counties in the month of April, 1937. Upon receipt of each such claim the State Department of Social Welfare shall deduct from the amount thereof a sum equal to that portion of the amount, if any, theretofore claimed by or paid to such county or city and county from funds granted by the United States Government to the State of California for aid to dependent children which represents reimbursement of the amounts paid for such period as State aid under this act. The State Department of Social Welfare shall thereupon certify to the Controller the amount of the balance of said claim. The State Controller shall thereupon draw the necessary warrants and, prior to audit or settlement by the State Department of Social Welfare and the State Controller, the State Treasurer shall pay to the treasurer of such county the amount so certified.

Any deductions or additions determined upon audit of such claims by the State Department of Social Welfare and the State Controller shall be applied to reduce or increase the amount certified for any subsequent quarter as provided in section 2284a of this act.

SEC. 6. This act is hereby declared to be an urgency measure necessary for the immediate preservation of public peace, health or safety within the meaning of section 1 of Article IV of the Constitution and shall take effect immediately.

The following is a statement constituting such necessity:

Under present law actual payment to the counties in reimbursement of the aid granted under this act is not possible until from three to twelve months after said aid has been paid out by such counties. The financial burden imposed by this waiting period has forced many counties to register warrants or borrow from banks in order to obtain the necessary funds. It is necessary that this measure, providing for payment of State and Federal reimbursement to the counties quarterly in advance, go into immediate effect so as to relieve the counties from the necessity and the cost of such borrowing."

1263. No person shall act as a commission merchant, dealer, broker or agent without having obtained a license as provided in this chapter. Every person, acting as a commission merchant, dealer, broker or agent as herein defined shall file an application with the director for a license to transact the business of commission merchant, dealer, broker, and/or agent, and such application shall be accompanied by the license fee herein provided for each specified class of business. Separate application shall be filed for each class of business

Such application shall in each case state the class or classes of farm products applicant proposes to handle, the full name of the person applying for such license, and if the applicant be a firm, exchange, association or corporation, the full name of each member of the firm, or the names of the officers of the exchange, association or corporation shall be given in the application. Such application shall further state the principal business address of the applicant in the State of California and elsewhere and the name or names of the person or persons authorized to receive and accept service of summons and legal notices of all kinds for the applicant. Such applicant shall further satisfy the director of his or its character, responsibility and good faith in seeking to carry on the business stated in the application.

In addition to the general requirements applicable to all classes of applications as in this section set forth, the following requirements shall apply to the class of application noted:

(a) Commission merchants: Each application shall include a schedule of commissions and charges for services, and such designated commissions and charges shall not be changed or varied for the license period except by written contract between the parties.

(b) Agents. Each application shall include such information as the director may consider proper or necessary, and shall include the name and address of applicant, and the name and address of each commission merchant, dealer or broker represented or sought to be represented by said agent, and the written indorsement or nomination of such commission merchant, dealer or broker.

The director shall thereupon issue to such applicant, a license entitling the applicant to conduct the business described in the application at the place named in the application for a year from the date thereof or until the same shall have been revoked for cause. Provided, however, that licenses of agents shall expire upon the date of expiration of the license of the principal for whom the agent acts. The director may also issue to each agent a card or cards, which shall bear the signature of said agent, separate cards being required for each principal. Any agent shall show said card or cards upon the request of any interested person.

Fraud or misrepresentation in making any application shall ipso facto work a revocation of any license granted thereunder. All indicia of the possession of a license shall be at all times the property of the State of California and each licensee shall be entitled to the possession thereof only for the duration of said license.

For filing the application herein described, each applicant must pay a fee as follows:

(a) Commission merchants: Twenty-five dollars for each year; provided, that a person licensed as a slaughterer under the provisions of Article 3 of Chapter 1 of Division III of this code shall be entitled to be licensed as a commission merchant without payment of further fees.

(b) Dealers: Twenty-five dollars for each year.

(c) Brokers: Twenty-five dollars for each year.

(d) Agents. One dollar for each year.

Should any commission merchant, dealer or broker fail, refuse, or neglect to apply for the renewal of a pre-existing license within thirty days after the expiration thereof, a penalty of forty per cent shall apply to and be added to the original fee of twenty-five dollars, and shall be paid by the applicant before the renewal license may be issued.

Any person who shall have been licensed as a commission merchant shall, upon application, be licensed also as a dealer and as a broker as defined herein, without payment of further fees, and shall thereupon conform to the parts of this chapter regulating the business of a dealer and/or broker. Any person who has applied for and received a license as a dealer or broker in the manner and upon payment of the fee herein set forth may apply for and secure a license as a commission merchant in addition to the license issued to him as such dealer or broker, without payment of further fee and upon further complying with those parts of this chapter regulating the licensing of a commission merchant. All licenses held by any licensee shall automatically expire on the expiration date of the particular license for which the license fee was paid.

SEC. 3. Section 1265 of said code is hereby amended to read as follows:

1265. Before any license is issued to any commission merchant, the applicant shall execute and deliver to the director a surety bond in the sum of five thousand dollars executed by the applicant as principal and by a surety company qualified and authorized to do business in this State as surety. Said bond shall be conditioned upon compliance with the provisions of the chapter and upon the faithful and honest handling of farm products in accordance with the terms of this chapter. Said bond shall be to the State in favor of every producer-consignor of farm products. Any producer-consignor of farm products claiming to be injured by the fraud, deceit or wilful negligence of any commission merchant may bring action upon said bond against both principal and surety in any court of competent jurisdiction to recover the damages caused by such fraud, deceit or wilful negligence, or the failure to comply with the provisions of this chapter. In case of failure by a commission merchant to pay producer-consignor creditors for farm products received from said consignors to be sold, the director shall proceed forthwith to ascertain the names and addresses of all consignor creditors of such commission merchant, together with the amounts due and owing to them and each of them by such commission merchant, and shall request all such consignor creditors to file a verified statement of their respective claims with the director. Such request shall be addressed to each known consignor creditor at his last known address. If a consignor creditor so addressed fails, refuses or neglects to file in the office of the director his verified claim as requested by the director within ninety days from the date of such request, the director shall thereupon be relieved of further duty or action hereunder on behalf of said consignor creditor. Upon ascertaining all claims and statements in the manner herein set forth, the director may then make demand upon the bond on behalf of those claimants whose statements have been filed, and shall have the power to settle or compromise said claims with the surety company on the bond, and is empowered in such cases to execute and deliver a release and discharge of the bond involved. Upon the refusal of the surety company to pay the demand, the director shall thereupon bring an action on the bond in behalf of said consignor creditors. Upon any action being commenced on said bond, the

director may require the filing of a new bond and immediately upon the recovery in any action on such bond such commission merchant shall file a new bond and upon failure to file the same within ten days in either case, such failure shall constitute grounds for the suspension or revocation of his license.

SEC. 4. Section 1268 of said code is hereby amended to read as follows:

1268. The director on his own motion may or upon the verified complaint of any interested party shall investigate, examine or inspect any transaction involving solicitation, receipt, sale or attempted sale of farm products by any person or persons acting or assuming to act as a commission merchant, dealer, broker or agent; failure to make proper and true account of sales and settlement thereof as in this chapter required, the intentional making of false statements as to condition, and quantity of any farm products received or in storage; the intentional making of false statements as to market conditions; the failure to make payment for farm products within the time required by this chapter; or investigate, examine or inspect any and all other injurious transactions, and in furtherance of any such investigation, examination or inspection, the director or any authorized representative may examine that portion of the ledgers, books, accounts, memoranda and other documents, farm products, scales, measures, and other articles and things used in connection with the business of such person relating to the transactions involved. When a producer-consignor, or seller, of farm products fails to obtain settlement satisfactory to him in any transaction after having notified the consignee, or buyer, a verified complaint may be filed with the director who shall undertake to effect a settlement, and in the event that he shall fail to effect such settlement, he shall cause a copy of such complaint, together with a notice of the time and place of hearing of such complaint, to be served personally or by mail upon such person. Such service shall be made at least ten days before the hearing, which shall be held at the place in which the transaction complained of is said to have occurred, or at the nearest office of the State Department of Agriculture, or in such other convenient place as the director in his discretion may determine. At the time and place appointed for such hearing the director or his agents, shall hear the parties to such complaint, and shall enter in the office of the director at Sacramento a decision either dismissing such complaint or specifying the facts established on such hearing. If upon such hearing the director determines from the facts specified that the licensee has violated any provision of section 1269 of this chapter, he shall, unless the offender has already made reparation to the person complaining, determine the amount of damage, if any, to which such person is entitled as a result of such violation, and shall make an order directing the offender to pay to such person complaining such amount on or before the date fixed in the order. A copy of such decision shall be furnished to each, every and all the respective parties thereto.

Should the licensee or respondent fail, refuse or neglect to attend such hearing after due and proper notice, the director is thereupon empowered to hear the complainant and, if the facts warrant, to enter the default of the licensee and to make such order as the facts may warrant.

SEC. 5. Section 1269 of said code is hereby amended to read as follows:

1269. The director may refuse to grant a license and may revoke or suspend any license, as the case may require, when he is satisfied of the existence of any of the following facts, the existence of which is hereby declared to be a violation of this chapter:

(a) That fraudulent charges or returns have been made by the applicant, or licensee, for the handling, sale or storage of, or for rendering of any service in connection with the handling, sale or storage of any farm products

(b) That the applicant, or licensee, has failed or refused to render a true account of sales, or to make a settlement thereon, or to pay for farm products received, within the time and in the manner required by this chapter.

(c) That the applicant, or licensee, has made any false statement as to the condition, quality or quantity of farm products received, handled, sold or stored by him.

(d) That the applicant, or licensee, directly or indirectly, has purchased for his or its own account farm products received by him upon consignment without prior authority from consignor together with price fixed by consignor or without promptly notifying the consignor of such purchase This shall not prevent any commission merchant from taking to account of sales, in order to close the day's business, miscellaneous lots or parcels of farm products remaining unsold, if such commission merchant shall forthwith enter such transaction on his account of sales.

(e) That the applicant, or licensee, has intentionally made any false or misleading statement as to the conditions of the market for any farm products.

(f) That the applicant, or licensee, has made fictitious sales or has been guilty of collusion to defraud the producer.

(g) That a commission merchant to whom any consignment is made has reconsigned such consignment to another commission merchant for the purpose of receiving, collecting, or charging by such means more than one commission for making the sale therefor for the consignor, unless by consent of such consignor.

(h) That the licensee was intentionally guilty of fraud or deception in the procurement of such license.

(i) That the licensee or applicant has failed or refused to file with the director a schedule of his charges for services in connection with produce handled on account of or as an agent of another; that the applicant, or licensee has indulged in any unfair practice.

(j) That the licensee has rejected, without reasonable cause, or has refused to accept, without reasonable cause, any farm product bought or contracted to be bought from a producer by such licensee.

(k) That the licensee has otherwise violated any provision of this chapter.

Previous violation by the applicant or by any person connected with him or it of any of the provisions of this chapter shall be good and sufficient ground for denial of a license.

SEC. 6. Section 1273 of said code is hereby amended to read as follows

1273. (1) Any person is guilty of a misdemeanor and is punishable by a fine of not more than one thousand dollars, or by imprisonment in the county jail for not more than one year or by both who assumes or attempts to act as a commission merchant, dealer, broker or agent without a license, or who:

(a) Imposes false charges for handling or services in connection with farm products.

(b) Fails to account promptly, correctly, fully and properly and to make settlement therefor as herein provided.

(c) Intentionally makes false or misleading statement or statements as to market conditions.

(d) Makes fictitious sales or is guilty of collusion to defraud the producer.

(e) Directly or indirectly purchases for his own account, goods received by him upon consignment without prior authority from the consignor, or fails promptly to notify the consignor of such purchases, if any, on his own account. This clause does not prevent any commission merchant from taking to account of sales, in order to close the day's business, miscellaneous lots or parcels of farm products remaining unsold, if such commission merchant forthwith enters such transaction on his account of sales.

(f) Intentionally makes false statement or statements as to the grade, condition markings, quality or quantity of goods shipped or packed in any manner.

(g) Fails to comply in every respect with the provisions of this chapter.

(2) Civil suits and criminal prosecutions arising by virtue of any of the provisions of this chapter may be commenced and tried in either the county where the products were received by the commission merchant, dealer, broker or agent, or within the county in which the principal place of business of such commission merchant, dealer, broker or agent is located, or within the county in which the violation of this chapter occurred.

SEC. 7. Section 1272 5 of said code, as added by Chapter 715, Statutes of 1935, is hereby repealed."

Amendment No. 2.

On page 1 of the printed bill, strike out all of lines 1 to 23, both inclusive, and strike out all of pages 2, 3, 4 and 5, and insert in lieu thereof the following

"SECTION 1 The act cited in the title hereof is hereby repealed.

SEC. 2. A new part is hereby added to Division V of the School Code to be known as Part V, and to read as follows:

Part V—Retirement of Employees by School Districts

5.1100. In any school district in which employees of the district are not entitled to the benefits of a pension or retirement system maintained by a city, city and county, or county in which said district, or a part thereof, is located, the governing board of such district shall have power, in its discretion, to submit to the qualified electors of such district, and upon petition signed by not less than ten per cent (10%) of such qualified electors, such governing board shall submit, to said qualified electors of the district, the proposition of establishing a plan for a district retirement salary under the provisions of this article, to be paid by the district to all teachers fulfilling the requirements of said plan in the public schools of such district, and to such other employees of the district as the said governing board may determine, or, in the case of a petition, such other employees as may be specified in such petition, who may be retired under such plan as provided in this part, and to provide, out of funds of the district, a portion of the cost thereunder, including expenses incident to the administration of the plan, subject, however, to the provisions of this Part V. The word "teachers" as used in this Part V shall mean and be construed to mean all employees of school districts in positions requiring certification qualifications.

5.1101. The proposition of establishing such plan may be submitted to the electors of the district at any general or special election called and held in such district, and governing bodies of school districts desiring to submit such proposition to the electors of their respective districts are authorized to call and hold such elections.

If the governing board calling such an election is the governing board of more than one school district and calls elections in two or more districts to submit to the electors of the respective districts, on the same day, in the same territory, or in territory which is in part the same, the question whether a district retirement plan shall be established in such respective districts, such elections may be consolidated by order of such governing board. Within the territory affected by such order of consolidation, the election precinct polling places, and voting booths, shall, in every case, be the same; there shall be only one set of election officers in each such precinct; the propositions to be voted upon within the respective districts may be set forth on one ticket or ballot; all proceedings had in the premises shall be recorded in one set of election papers; and such election shall be held in all respects as though there were only one election.

Such election or elections may be consolidated with any other election under the provisions of an act entitled, "An act to permit the consolidation of elections and to provide a procedure therefor," approved June 11, 1913, as amended.

The election shall be called by posting notices, signed by a majority of the governing board of the district, in at least three public places in the district, or, if more than one district is affected, then in at least three public places in each of the districts affected, not less than ten days before the election. If there is a newspaper of general circulation published in the district, or districts, notice must be published in such a newspaper at least once, and at least ten days prior to the election.

In all respects not otherwise specified herein, the election shall be called and held, the returns thereof canvassed and the result announced in the manner provided by law for the holding of elections for the purpose of authorizing bonds of such school district or districts, so far as the provisions of such laws are applicable.

There shall be printed on the ballots to be used at such election the proposition: "Shall the governing board of (here insert the name of the district or districts under the control of the board submitting the proposition) school district (or districts) be authorized to establish a plan for a district retirement salary for the teachers and such other employees of such district (or districts) as such governing board may determine." To the right of such proposition shall be printed the words "Yes" and "No" with voting squares.

If, at such election, a majority of the voters voting on such proposition cast their ballots in favor of the proposition, such governing board shall have the power, and it shall be its duty, to establish a district retirement salary for the teachers and for such other employees of the district as such board may determine.

If a majority of such voters on the proposition cast their votes in the negative, such governing board shall not submit such proposition again within a period of six months after the date of such election.

5.1102. Every teacher and every other employee of any school district for which such plan for district retirement shall be adopted as herein provided, who is employed by such district at the time of the adoption of such plan, and who signs an agreement to be subject to the burdens of such district retirement plan, shall be entitled

to the benefits and subject to the burdens of such plan and of this Part V. Every teacher employed in the public schools of the districts after the adoption of the provisions of this part by the governing boards of the districts, and such other employees as the boards may determine, shall be bound by the benefits and burdens of this part.

5 1103. That such plan shall not be adopted or established until the governing board, after such inquiry and hearing as it may direct, shall find that the respective contributions of said teachers and other employees and the district provided for in said plan, are substantially in accordance with the more recent generally prevailing rates of such contributions in public institutions which have established retirement systems, and that such plan is in accordance with sound business practice and with recognized actuarial methods.

That such plan may provide that the retirement salary shall be a stipulated monthly sum, or that all benefits under the retirement feature of said plan shall be based upon the monthly salary for each year of future active service in the district earned by said employee up to the date of retirement and upon the average monthly salary earned by the teacher or other eligible employee during the year immediately preceding the adoption of said plan and the number of years of past active service of said employee in the district, and subject to such provisions as may be made in said plan for minimum benefits, but no employee with less than ten years' service in the district prior to normal retirement age shall receive the benefit of any such minimum, provided, however, that in no instance shall such retirement benefits be based upon or allowed for any amount of salary in excess of the sum of $500 per month.

That such governing board, after the adoption of such plan, shall at regular intervals, each not exceeding a period of five years, secure a general survey and actuarial report of said plan, and said board shall from time to time amend said plan in such manner as may be found to be advisable to meet changed conditions, or as, in the light of experience, may be considered necessary.

A plan under which, as a part thereof, the district establishing the plan agrees to pay to employees who may become entitled to retirement salaries within a specified period, not exceeding fifteen years after the establishment of such plan, a specified sum or sums, which, during the life expectancy of such employees, will be approximately equal in the aggregate, to the aggregate difference during such life expectancy, between the maximum salary paid to employees in the respective class or classes of the retiring employees, and the salaries paid to beginning employees in such class or classes, shall be construed to comply with the requirements of this section.

For the purpose of providing funds which may be necessary to make the payments required by any such district retirement plan, district taxes shall be levied and collected annually by such respective districts at the same time and in the same manner as other district taxes are levied and collected. Such tax shall be in addition to any other district tax now or hereafter authorized by law, and shall not be considered in fixing maximum rates of tax for school district purposes.

5 1104. Every district retirement plan adopted pursuant to the provisions hereof, shall provide that only those teachers and other employees who have served as teachers or employees of the district for at least 20 years of full time service immediately preceding such retirement, including all years so served prior to July 1, 1937, and who shall have reached a minimum age specified in such district retirement plan, which age shall be not less than 60 years, shall be entitled to a district retirement salary, provided that such plan may provide for the retirement of teachers or other employees on account of disability after 15 years of service immediately prior to the retirement, the proportion of the disability retirement salary to the full retirement salary to be specified in the plan. Anything herein contained to the contrary notwithstanding, absence from service by reason of a leave of absence granted by the governing board of the district shall not be construed to interrupt the years of continuous service required by this section or by any district retirement plan adopted pursuant to the provisions hereof. Provided, that time of service may be counted in the aggregate and fractions of years amounting to whole years may be counted as whole years when payments by the teacher or other employee have been made for all of the time so counted.

5 1105. The governing boards of the districts shall in all cases determine the teachers and other employees who are entitled to retirement salaries, as provided in this part, and make and keep a list, which said list of such teachers and other employees shall be known as the retired list. For the purpose of making such retired list the boards may take testimony and examine witnesses under oath which said oath may be administered by any member of the board.

5 1106. The governing boards of the school districts shall have power to make all necessary and proper rules and regulations in aid or furtherance of the provisions of this part and in order to carry out and administer such provisions. A majority of the governing board of the district shall constitute a quorum for the transaction of all business under this part.

5 1107. All incidental expenses, including actual and necessary clerical or other help, incurred in carrying out the provisions of this part shall be paid out of the

said fund at the same time and in the same manner as other expenditures are paid from district funds, but the members of the said governing boards shall discharge the powers, duties, purposes, responsibilities and jurisdiction conferred or imposed upon said governing board under this part without extra or additional compensation

5.1108 The governing board of a district establishing such retirement plan, shall, as part of the plan, provide for the administration of the funds and the payment of retirement salaries by a "District Retirement Board" to be composed of not less than three nor more than seven members, who shall serve without compensation, and upon which retirement board the governing board of the district shall be represented and the teachers and other employees of the district subject to the plan shall be represented in proportion to the respective numbers of such teachers and other employees covered by the plan, by representatives chosen by such teachers and other employees by secret ballot All members of such retirement board shall serve for such terms as may be specified by the governing board in establishing the plan.

5.1109 The governing board of any district establishing such a plan must transfer, at least once each year, to the district retirement board established in such plan all sums in the district retirement fund, after paying incidental expenses, and thereafter said district retirement board shall have charge and control of such funds and of the payment of all retirement salaries and annuities payable therefrom. Said district retirement board shall have power to invest such funds in the manner in which funds under the control of the public school teacher's retirement salary fund board, established by Part IV of this code, or any successor to said board, may be invested.

5.1110. The retirement salaries provided for in this act shall be in addition to any other retirement salaries received by any teacher under Part IV of this division or as may be otherwise provided by law.

5.1111. The retirement salaries provided for in this act, for all employees other than teachers, shall be in addition to any other retirement salaries that may be provided by law.

SEC. 3. This act is hereby declared to be an urgency measure within the meaning of section 1, Article IV of the Constitution of the State of California, and it is deemed necessary for the immediate preservation of the public peace, health, and safety that this law shall go into immediate effect, and therefore this act shall become effective immediately.

The following is a statement of the facts constituting such necessity: The School Code was amended by the Legislature at its 1935 session to permit governing boards of school districts to discharge teachers who have reached the age of 65 years, which amendment will become effective September 1, 1937 Many boards of education desire to take advantage of the provisions of said amendment, and to avoid the hardships which will follow the discharge of many teachers aged 65 years or more and to avoid the possibility of placing such teachers and their families and dependents on relief rolls of their respective counties, such boards desire to establish district retirement plans for their employees, as authorized herein. This act requires that the establishment of such plan be submitted to the vote of the people of the school district, and many municipal and school district elections are to be held during the months of April and May, 1937, at which such propositions can be submitted to the voters of the respective districts, at a large saving to the taxpayers of the respective districts"

Help us in whatever we do or say.

Eternal Father here within this Assembly Chamber one of our number is indeed burdened and heavy-hadened. Destruction of property, loss of possessions and now she whom this one loves dearest his beloved wife, is stricken and yonder in another city fights courageously for her life and against the possible loss of sight

Thou art our refuge and our strength, O God, an ever present help in time of need, we need Thee at this moment and ask that Thou wilt richly bless Assemblyman Corwin and his family. Grant, O Lord, that the one afflicted be relieved from any intense bodily pain and that her sight be not destroyed Give unto this family a newness of life which shall be to them a joy beyond any joy they have ever known

Said notice shall state that it is made in pursuance of this section. All objections to any act or proceeding occurring prior to the time within which such objections are permitted to be filed in relation to said improvement, not made in writing and in the manner and at the time aforesaid, shall be waived, provided the resolution of intention to do the work has been actually published, as provided in this act. At any time after bids have been received and prior to the date fixed for the beginning of work, the legislative body conducting the proceedings may bring an action in the superior court of the county in which the city lies to determine the validity or invalidity of such proceedings and the validity or invalidity of any contract entered or to be entered pursuant thereto. Any contractor to whom a contract has been awarded may, if he believes that the proceedings are in any respect defective, erroneous or faulty and that a contract entered pursuant thereto would be invalid, bring such an action to determine the validity or invalidity of such proceedings and of such contract. Such action shall be in the nature of a proceeding *in rem*, and jurisdiction of all parties interested may be had by publication of summons for at least once a week for three (3) weeks in some newspaper of general circulation published in the county where the action is pending, such paper to be designated by the court having jurisdiction of the action. Said summons shall contain a general description of the boundaries of the assessment district. Anyone interested may, at any time before the expiration of said ten (10) days, appear and by proper proceedings contest the validity of such proceedings and contract or uphold the same. Such action shall be speedily tried and judgment rendered declaring the matter so contested either valid or invalid. Either party shall have the right to appeal to the Supreme Court at any time within thirty (30) days after the rendition of such judgment, which appeal must be heard and determined within three (3) months from the time of taking such appeal. The motion for a new trial of any such action must be heard and determined within ten (10) days from the filing of the notice of intention.

The court hearing the said action, in inquiring into the regularity, legality or correctness of the proceedings and of the contract made or proposed to be made, must disregard any error, irregularity or omission which does not affect the substantial rights of the parties to said action or proceeding. Any rules of pleadings and practice provided by the Code of Civil Procedure which are not inconsistent with the provisions of this act are applicable to the action herein provided for. All costs of the action provided for in this section may be allowed and apportioned between the parties or taxed to the losing party in the discretion of the court. If the validity of the proceedings and of the contract or proposed contract is sustained, the validity of such proceedings or contract shall not thereafter be contested in any action, suit or proceeding, and the judgment entered in the action herein provided for shall be conclusive evidence of the validity of such contract

and of all proceedings prior thereto. In the action herein provided, all findings, conclusions and determinations of the legislative body which conducted the proceedings shall be conclusive in the absence of actual fraud.

In the event an action is commenced under the provisions of this section to determine the validity of any contract or proposed contract, if the contract has not been signed, the contractor shall not be obligated to sign the same until a judgment sustaining the validity of the proceedings and the proposed contract has become final, and if the contractor has signed and executed the contract, he shall not be obligated to begin work until a judgment sustaining the validity of the proceedings and contract has become final. No action, suit or proceeding to set aside, cancel or in any manner attack or question the validity of any sale for delinquency, or any proceedings prior thereto, or to quiet title to the lands sold, or any portion thereof, against the purchaser at such sale shall be commenced or maintained by any person unless the same shall be commenced within one (1) year after the date of the certificate of sale, and after said year has expired all persons shall be barred from commencing or prosecuting any such action, suit or proceeding, and after said year has expired, any and all persons shall likewise be barred in any action, suit or proceeding from asserting or maintaining that the said sale, or any proceedings prior thereto, was invalid.

3.10. There is hereby created in the county treasury of each county receiving Federal funds for the education and care of Indian children in accordance with contracts between the State Department of Education and the United States Government a special fund to be known as the county Indian school reimbursement fund.

The county superintendent of schools of each county shall on or before June 30, 1937, transfer to the county Indian school reimbursement fund any balances to the credit of any school district of said county of funds derived from the Federal Government for the education and care of Indian children, together with any balances of moneys to the credit of any county fund derived from the same source.

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of Article IV of the Constitution, and shall take effect immediately. The facts constituting such necessity are as follows:

The Superintendent of Public Instruction is responsible under the terms of an agreement entered into by him with the Secretary of the Interior of the United States Government for the expenditure of approximately $200,000 a year allotted to California for the care and education of Indian children enrolled in the public schools of the State. It has not been possible to administer this money as efficiently as is desired because of the lack of legislation establishing a uniform procedure for the expenditure of these funds in the various counties of the State. This measure establishes such a procedure, and its enactment will promote and facilitate the health and welfare of the Indian children who are the beneficiaries of the aid provided by the Federal Government through the Superintendent of Public Instruction"

Motion to Print Report in Journal.

On motion of Mr. Maloney, the following report of the committee appointed to investigate the silicosis problem in California was ordered printed in the Journal:

REPORT OF COMMITTEE TO INVESTIGATE SILICOSIS.

Mr. Speaker and Members of the Assembly:

We, your committee appointed to investigate the silicosis problem in California, respectfully beg leave to report that we have made an extensive study of silicosis, its causes, and methods of minimizing and of preventing the conditions responsible for the occurrence of this disease in industry.

Your committee held its first public meeting in Los Angeles on the twenty-fifth day of October, 1935. At that time the testimony of experts and interested parties was taken. Thereafter we gathered such reports, data, opinions and decisions bearing on the subject as were available. This included American and foreign literature dealing with the subject. A careful study was made of this information.

The final public meeting of your committee was held at the State Building, San Francisco, on November 10, 1936, at which time your committee took the testimony of representatives of employers, employees, the insurance carriers, and the Industrial Accident Commission.

We find that the preponderance of opinion of all interested parties is that there is no need for any amendment to our splendid Workmen's Compensation, Insurance and Safety Laws in order to meet and successfully deal with silicosis and its attendant problems.

We find that subsequent to the adjournment of the 1935 Legislature the Industrial Accident Commissioners have, with the assistance of the employers and employees, adopted a comprehensive set of safety orders dealing with "Dusts, Fumes, Vapors and Gases," in industry.

We find that large numbers of outstanding California employers have inaugurated dust-eliminating programs, including installation of effective ventilating sys-

tems, changes in methods of production, and in some cases the remodeling of their plants in order to effectively eliminate unnecessary exposure of employees to dust hazards.

We find that there has been a splendid and most commendable spirit of cooperation between employers, insurance carriers, and the Industrial Accident Commissioners in endeavoring to solve the dust problems in various California industries.

We find that the safety inspection force of the Industrial Accident Commission is utterly inadequate to cope with the situation. It should be remembered that there are over 250,000 places of employment in California; that in a large number of these employments disease-producing dusts are generated; that effective and scientific methods of eliminating these dust menaces can only be arrived at after careful study by competent experts; that the testimony of Industrial Accident Commission representatives shows that they have in their employ but 29 safety inspectors, only six of whom are inspecting mills, mines and factories for the purpose of having dust menaces eliminated

We find that the Industrial Accident Commission has petitioned for an increase in its budget of 35 additional safety experts, 15 of whom are to devote their efforts to eliminating, where possible, and in all other cases minimizing the dust hazards *in California's mills, mines and factories.*

As a result of this study your committee is convinced that there is not a need of amendment to the Workmen's Compensation, Insurance and Safety Laws for the purpose of dealing with the silicosis problem, but that there is an imperative need for an immediate increase in the number of safety inspectors in the Industrial Accident Commission. We are convinced that splendid dividends in safeguarding health and, in fact, in saving the lives of working men and women will result from enforcement of the safety laws adopted by the Industrial Accident Commission.

Your committee is also convinced that enforcement of these laws will increase the efficiency in the mills, mines and factories in California, and that a substantial reduction in insurance costs will be effected by the enforcement of safety regulations. Obviously, the safety rules of the Industrial Accident Commission can not be enforced unless an adequate crew of safety inspectors is furnished to the commission.

Your committee therefore recommends that the request of the Industrial Accident Commission for 15 additional safety inspectors whose particular duty will be to deal with the problems of silicosis be approved by the Assembly, and that such steps as are necessary be taken to make sure that the Industrial Accident Commission is furnished with these additional safety inspectors at the earliest possible date.

In conclusion, your committee desires to express its thanks to the officials of the Federal Government and of the various State Governments who furnished us with much valuable data. We also desire to express our thanks to the employers' and employees' organizations and to the Industrial Accident Commissioners and the several insurance companies who rendered such valuable assistance to your committee.

Respectfully submitted

Sec. 52. (a) Any peace officer of this State upon seizing any alcoholic beverages or other property, not subject to summary destruction as provided in subdivision (e) of section 51, shall hold the same as evidence until a forfeiture has been declared or a release ordered as provided in this section. All forfeitures under this act are hereby declared to be statutory forfeitures.

(b) Notice of the seizure and of the intended forfeiture proceeding shall be filed with the county clerk and shall be served on all persons, firms or corporations having any right, title or interest in the alcoholic beverages or other property seized; and when the owner or owners are unknown or can not be found then notice of the seizure and intended forfeiture proceedings shall be made upon such owners by one publication in a newspaper of general circulation in the county where such seizure was made.

(c) Within 20 days after service of the notice of seizure and intended forfeiture proceedings, or within 20 days after the date of publication, the owner or owners of the alcoholic beverages or other property so seized may file a verified answer to the fact of the alleged unlawful use of the alcoholic beverages or other property; provided, however, that the claimant of any right, title or interest in said alcoholic beverages or other property so seized may make a verified answer to establish his claim as provided in subdivision (f) of this section. No extensions of time shall be granted for the purpose of making the verified answer above required.

(d) If at the end of 20 days after the notice has been mailed or published there is no verified answer on file, the court shall hear evidence upon the fact of unlawful use and shall, upon proof thereof, order the alcoholic beverages or other property forfeited to the State of California.

(e) If a verified answer has been filed, then the forfeiture proceeding may be set for hearing on a day within 20 days therefrom, and notice of this proceeding shall be given to the owner or owners filing verified answers.

(f) At the time set for the hearing any of the owners who have verified answers on file may show by competent evidence that the alcoholic beverages or other property were not in fact used contrary to the provisions of this act. The claimant of any right, title or interest in said alcoholic beverages or other property may prove that such right, title or interest is bona fide and was created after a reasonable investigation of the moral responsibility, character and reputation of the lienor, mortgagor or vendee and without any knowledge that such alcoholic beverages or other property was being, or was to be, used contrary to the provisions of this act.

(g) In the event of such proof, the court shall order said alcoholic beverages or other property released to such bona fide or innocent owner, lienholder, mortgagee or vendor if the amount due to such person shall be equal to, or in excess of, the value of the alcoholic beverages or other property. If the amount due to such person shall be less than the value of said alcoholic beverages or other property then such alcoholic beverages or other property shall be sold at public auction by the board and the remainder of the proceeds of such sale, after payment of the balance due on the purchase price, mortgage, or lien, shall be deposited in the State Treasury.

Should the fact be determined that the alcoholic beverages or other property were not used contrary to the provisions of this act, the court shall order the alcoholic beverages or other property released to the owner or owners thereof.

(h) In any case the State Department of Finance shall have the right, within 30 days after judgment, to pay the balance due to such bona fide or innocent purchaser, lienholder, mortgagee or vendor and to purchase the alcoholic beverages or other property for the State.

(i) Nothing contained herein shall apply to common carriers or to an employee acting within the scope of his employment under this act."

The board of supervisors may execute agreements subordinating the effect of such lien to other liens theretofore or thereafter placed upon the property by the person owning the same. The recordation of such a release duly executed by the board of supervisors shall release and discharge any lien heretofore or hereafter created under the provisions of this section as against the property described in the release and the recordation of any agreement of subordination duly executed by the board of supervisors shall render the lien provided for in this act subordinate and subject to the private lien or deed of trust mentioned within such subordination agreement.

Such districts may be entirely within unincorporated territory or partly within unincorporated and partly within incorporated territory, and within one or more counties of this State. Whenever either 500, or 25 per cent or more, owners of any body or bodies of land, situate within, and comprising the whole or a part or parts of one or more watersheds of any stream or streams of water or unnavigable river or rivers, or territory adjacent to such watershed or watersheds or deriving such district's water supply, in whole or in part, from such stream or streams, or river or rivers, or the subterranean supply of waters therefrom, shall desire to conserve the waters of such stream or streams or unnavigable river, or rivers, they may propose the organization of a water conservation district under the provisions of this act, and, when so organized, such district shall have the powers, rights and duties conferred, or which may be conferred, by law, upon such water conservation districts. The equalized county assessment roll next preceding the presentation of a petition for the organization of a water conservation district under the provisions of this act, shall be sufficient evidence of ownership for the purposes of this act, provided, that no person who has received or acquired title to lands within such proposed district for the purpose of enabling him or her to join in such petition, or to become an elector of said district, shall be allowed to sign such petition or to vote at any election to be held in such district under the provisions of this act. Such petition may consist of any number of separate instruments, and, when contained upon more than one instrument, one copy only of such petition need be published, but the names of all petitioners shall be published the same as if appended to the original petition. All such copies of petition, filed prior to the hearing of said petition, shall be considered by the board of supervisors the same as though filed with the petition first placed on file.

SEC. 3. Section 6 of the act cited in the title hereof is hereby amended to read as follows:

Sec. 6. Said election shall be conducted in accordance with the General Election Laws of this State so far as applicable, and except as herein otherwise provided. Amendment No. 1.

On page 1, line 1, of the printed bill, after the words, "Section 1", insert the following: "Section 3 of the act cited in the title hereof is hereby amended to read as follows:

Sec. 3 Before any board of supervisors shall call an election to determine whether a district shall be established as outlined in section 2 hereof, a petition shall be filed in the office of the clerk of said board of supervisors signed by not less than 25 per cent or 500 or more owners of land within the limits of the territory proposed to be organized into a conservancy district under this act.

The equalized county assessment roll next preceding the presentation of a petition for the organization of a water conservation district under the provisions of this act, shall be sufficient evidence of ownership for the purposes of this act; provided, that no person who has received or acquired title to lands within such proposed district for the purpose of enabling him or her to join in such petition, or to become an elector of said district, shall be allowed to sign such petition or to vote at any election to be held in such district under the provisions of this act. Such illegal signing, however, shall not invalidate such petition when there shall be found a sufficient number of other legal petitioners.

SEC. 2 Section 6 of the act cited in the title hereof is hereby amended to read as follows:

Sec. 6 Said board or joint board of supervisors, unless said petition be denied, must, if said lands of said district lie wholly within the county, within ten days after the determination of a hearing upon said petition, otherwise within 30 days after the determination of a hearing upon said petition, call an election with the proposed district for the determination of the question, whether such proposed district shall or shall not be organized and also to elect five persons who shall act as directors of the district for a term of four years in case such district be organized, and shall divide said district into convenient precincts and fix the polling place in each, and shall appoint three qualified electors in each precinct of said district to conduct said election; which election must be held within 40 days from the date of said order.

Notice of said election shall be given by posting notice thereof in three public places in each portion of said proposed district located in a separate county, and by publication in a daily or weekly newspaper in each county in which any portion of said district is located. Said publication shall be at least once a week for not less than 15 days before the said election, and said notices shall be posted at least 15 days before the day of said election. Said notices must specify the time, place or places and purposes of said election, give the boundaries of the said proposed conservancy district as determined at the hearing of the petition, designate the respective election precincts and the polling place in each and the election officers and the hours during which the polls will be kept open; provided, that the polls must be opened not later than eight o'clock a.m., and kept open until seven o'clock p.m.

It shall be the duty of the board of supervisors to order placed upon the ballot the names of candidates for the position of director of the district who shall have been endorsed by a petition of said board of supervisors containing the names of ten or more electors of the district, petitioning that the names of candidates designated in the petition be placed upon the ballot to be voted on at such election; provided, however, that such petitions be filed with the board of supervisors calling said election within 15 days after the date of the order calling the election.

Said election shall be conducted in accordance with the General Election Laws of this State so far as applicable, and except as herein otherwise provided, without reference to the form of the ballot or manner of voting, except that no sample ballots need be mailed to electors; the ballots shall contain the words "for the formation of a conservancy district," and "against the formation of a conservancy district," and the voter shall write or print or stamp a cross after the words that indicate his choice, and that said ballots shall also contain the names of all candidates for the position of director of the district, with instructions to the voter to vote for five of the candidates for said petition whose names appear upon such ballot. No person shall be entitled to vote at any election held under the provisions of this act, unless he is the owner of land situate within the district.

It shall be the duty of the election officers to publicly canvass the votes immediately after the close of the election, and to make a report of the result of said election to the board of supervisors within five days subsequent to the holding thereof who shall as soon as practicable proceed to canvass said returns.

If a majority of the votes cast at said election shall be in favor of a conservancy district, the said board of supervisors shall, by resolution, establish said conservancy district and proceed as herein otherwise stated.

If a majority of the votes cast shall be against the conservancy district, the board of supervisors shall by order so declare, and shall thereafter dismiss said proceedings by order and proceed to adjudge the cost against the signers of the petition or their bondsmen; no other proceedings shall be taken for the formation of a similar district until the expiration of one year from said election.

If a majority of votes cast at such election shall be in favor of a conservancy district, the board of supervisors shall canvass the returns of said election for the position of directors for the district and having determined upon the five candidates duly elected as directors shall by resolution declare them to be so duly elected and declare them to be the directors of the district for the ensuing term of four years and certificates of election shall be issued to them.

The fact of the presentation of the petition and the order establishing the conservancy district and the order declaring the five directors elected, shall be entered in the minutes of the board of supervisors of the main county, and shall be conclusive evidence of the due presentation of a proper petition, and that each of the petitioners was at the time of the signing the same and presentation of the petition an assessed freeholder in the proposed district, and of the fact and regularity of all prior proceedings of every kind and nature provided for by this act, and of the existence and validity of the district. Should the office of any of said directors elected become vacant before his term of office expires, the same shall be filled by the board of directors for the unexpired term On the expiration of the terms of said directors elected as herein specified, the supervisors shall again call an election in accordance with the provisions of this section to fill the offices so becoming vacant.

In said resolution establishing the district the board shall give said district a corporate name, which may or may not be the name designated in said petition, by which in all proceedings it shall thereafter be known, and thereupon the district shall be a political subdivision of the State of California, a body corporate with all the powers of a corporation, and shall have power

1. To have perpetual succession and existence.

2. To sue and to be sued in the name of said district in all actions and proceedings in all courts and tribunals of competent jurisdiction.

3. To adopt a seal and alter it at pleasure.

4. To take by grant, purchase, gift, devise or lease, to hold, use, enjoy, and to lease or dispose of real or personal property of every kind within or without such district necessary to the full exercise of its powers.

After an order is entered by the board of supervisors establishing the district, such order shall be deemed final and binding upon the property within the district and shall finally and conclusively establish the regular organization of the said district against all persons except the State of California upon suit commenced by the Attorney General. Any such suit must be commenced within three months after said decree declaring such district organized as herein provided and not otherwise.

Upon the election and qualification of a board of directors as herein provided said board of directors shall designate the place where the office or principal place of business of the district shall be located, which shall be within the corporate limits of the district if practicable, and which may be changed by order of said board of directors from time to time The regular meetings of the board of directors shall be held at such office or place of business, but for cause entered of record may be adjourned to any other convenient place. "SECTION 1. Section 9 of the act cited in the title hereof is hereby amended to read as follows:

Sec. 9. (A) When and during such time as grants in aid are provided or made available by the United States Government for aid to the needy blind in this State, the State Treasurer shall pay to each county and city and county from the sums granted by the United States Government to the State of California an amount which shall be used exclusively as aid to the blind equal to one-half of the total of the sums expended as aid to the blind under this act, not counting so much of such expenditure with respect to any individual for any month as exceeds $30.

(B) From the sums appropriated therefor by the State of California in section 1 of this act, the State Treasurer shall pay to each county and city and county an additional amount which shall be used exclusively for aid to the blind equal to one-half of the amount paid by each county and city and county after deducting the amount paid to said county or city and county under section 9 (A) of this act, except that the State shall pay the county and city and county the full amount of aid granted any person otherwise qualified who has resided in the State for the

required period and who has no county residence, after deducting the amount paid under subdivision (A) of this section

(C) The method of computing and paying such amounts for each quarter, beginning with the quarter commencing April 1, 1937, shall be as follows:

(1) The State Department of Social Welfare shall, prior to the beginning of each quarer, estimate the amount to be paid for such quarter to each county and city and county under the provisions of subdivision (A) and (B), of this section such estimate to be based on a report filed by each county and city and county containing (a) its estimate of the total sum to be expended in such quarter in accordance with the provisions of this act, and stating the amount appropriated or made available by the county and city and county for such expenditures in such quarter, and if such amount is less than that portion of the total sum of such estimated expenditures which is required under this act to be paid each such county or city and county, the source or sources from which the difference is expected to be derived, (b) records showing the number of blind individuals receiving aid under authority of this act in the county, and (c) such other information and investigation as the State Department of Social Welfare may find necessary.

(2) The State Department of Social Welfare shall then certify to the State Controller the amounts so estimated by it for each county and city and county, reduced or increased as the case may be, by any sum by which it finds that its estimate for any prior quarter was greater or less than the amount which should have been paid to the county and city and county under this act for such quarter, except to the extent that such sum has been applied to make the amount certified for any prior quarter greater than the amount estimated by the State Department of Social Welfare for such prior quarter.

(3) The State Controller shall thereupon draw the necessary warrants, and prior to audit or settlement by the State Department of Social Welfare, and the State Controller, the State Treasurer shall pay to the treasurer of each county and city and county the amount so certified

(D) Reports of aid to blind paid out under this act shall be presented by the respective counties and cities and counties at times and in the form prescribed by the State Department of Social Welfare Such reports shall be audited by the State Department of Social Welfare and the State Controller and, when and in the amount approved, shall be allowed to said county or city and county as a credit to apply against advances made under terms of subdivision (C) of this section.

SEC. 2. Claims for State aid granted under this act for the quarter ending March 31, 1937, shall be presented by the respective counties and cities and counties in the month of April, 1937. Upon receipt of each such claim the State Department of Social Welfare shall deduct from the amount thereof a sum equal to that portion of the amount, if any, theretofore claimed by, or paid to, such county or city and county from funds granted by the United States Government to the State of California for aid to blind which represents reimbursement of the amounts paid for such period as State aid under this act The State Department of Social Welfare shall thereupon certify to the Controller the amount of the balance of said claim. The State Controller shall thereupon draw the necessary warrants and, prior to audit or settlement by the State Department of Social Welfare and the State Controller, the State Treasurer shall pay to the treasurer of such county the amount so certified.

Any deductions or additions determined upon audit of such claims by the State Department of Social Welfare and the State Controller shall be applied to reduce or increase the amount certified for any subsequent quarter as provided in subdivision (C) of section 9 of the act cited in the title hereof, as amended by this act.

SEC. 2. Claims for State aid granted under this act for the quarter ending March 31, 1937, shall be presented by the respective counties and cities and counties in the month of April, 1937. Upon receipt of each such claim the State Department of Social Welfare shall deduct from the amount thereof a sum equal to that portion of the amount, if any, theretofore claimed by, or paid to, such county or city and county from funds granted by the United States Government to the State of California for aid to blind which represents reimbursement of the amounts paid for such period as State aid under this act. The State Department of Social Welfare shall thereupon certify to the Controller the amount of the balance of said claim. The State Controller shall thereupon draw the necessary warrants and, prior to audit or settlement by the State Department of Social Welfare and the State Controller, the State Treasurer shall pay to the treasurer of such county the amount so certified.

Any deductions or additions determined upon audit of such claims by the State Department of Social Welfare and the State Controller shall be applied to reduce or increase the amount certified for any subsequent quarter as provided in section 9 (C) of this act.

SEC. 3 This act is hereby declared to be an urgency measure necessary for the immediate preservation of public peace, health, or safety within the meaning of section 1 of Article IV of the Constitution and shall take effect immediately

The following is a statement of facts constituting such necessity:
Under present law actual payment to the counties in reimbursement of the aid granted under this act is not possible until from three to twelve months after said aid has been paid out by such counties The financial burden imposed by *this waiting period has forced many counties to register warrants or borrow from* banks in order to obtain the necessary funds It is necessary that this measure, providing for payment of State and Federal reimbursement to the counties quarterly in advance, go into immediate effect so as to relieve the counties from the necessity and the cost of such borrowing."

That all orders made pursuant to the provisions of this section, shall state the amounts to be so paid from the county treasury, which shall not in the case of any one ward or minor person concerning whom such a petition has been filed exceed $35 in any one month, except that in the case of any physically sick, epileptic, insane or feeble-minded ward an amount not to exceed $40 per month may be ordered paid.

At the time of making any order providing for the support and maintenance of a ward of the juvenile court or said other minor person, said court shall inquire

into the earnings, property or estate of said ward or other minor person, and into the ability of the parent, parents, guardian of said ward or said other minor person, or other person liable for the support and maintenance of said ward or said other minor person to pay for the expense of support and maintenance of said ward or said other minor person.

If it is found that $35 a month is insufficient to pay the whole expense of support and maintenance of said ward or said other minor person, or in the case of the physically sick, epileptic, insane or feeble-minded ward it is found that $40 a month is insufficient to pay the whole support and maintenance of said ward, the court may order and direct that such additional amount as may be necessary shall be paid out of the earnings, property or estate of said ward or said other minor person, or by the parent, parents, guardian of said ward or said other minor person, or other person liable for the support and maintenance of said ward or said other minor person, to said probation officer, who shall in turn pay the same to the person, association or institution that under court order is caring for and maintaining said ward or said other minor person.

Said court shall further order, and direct that the county for its expense of support and maintenance of any such ward or said other minor person shall be reimbursed, either in whole or in part, from the earnings, property or estate of said ward or said other minor person, or by the parent, parents, guardian of said ward or said other minor person, or other person liable for the support of said ward or said other minor person, if it is found that there are earnings, property or estate of said ward or said other minor person, sufficient therefor, or that said parent, parents, guardian of said ward or said other minor person, or other person liable for the support of said ward, or said other minor person is able to pay, either in whole or in part, for such expense of support and maintenance of said ward, or said other minor person, and for the purpose of said reimbursement may order and direct payments to be made to the probation officer from the earnings, property or estate of said ward or said other minor person, or by the parent, parents, guardian of said ward or said other minor person, or other person liable for the support of said ward or said other minor person, the amount of which payments shall be determined by said court and which said payments shall be paid by said probation officer in turn to the county treasurer of said county on account of said reimbursement.

No order for payment shall be made in a sum in excess of the actual cost of supporting and maintaining said ward or said other minor person.

No order for the payment from the county treasury of the expense of support and maintenance of a ward of the juvenile court shall be effective for more than 12 months, and no order for the payment from the county treasury of the expense of support and maintenance of a minor person concerning whom a verified petition has been filed in accordance with the provisions of section 3 of this act, other than a ward of the court shall be effective for more than one month, and upon all said original and all subsequent hearings of the case of any ward of the juvenile court the case shall be continued on the calendar, but in no instance to exceed 12 months; provided, however, that in the case of each person committed to any State school there shall be paid monthly to the State Treasurer the sum of $20 by the county from which such person is committed for and during each month or part of month such person so committed remains in such State school or in any other State school within this State to which such person may be transferred.

Each county auditor must include in his State settlement report, rendered to the Controller in the months of May and December, the amount due under this act and the county treasurer, at the time of the settlement with the State in such months, must pay to the State Treasurer, upon order of the Controller, the amounts found to be due by reason of the commitments herein referred to.

For the purpose of handling the reimbursement and other payments provided for herein said probation officer shall keep suitable books and accounts and shall give and keep suitable receipts and vouchers, and if such funds shall be by said probation officer kept in a bank, said bank shall be designated by the judge of said court. The auditor of said county annually in the month of January shall audit such books and accounts and shall make a report thereon to the judge of said court and to the supervisors of such county prior to the thirty-first day of said month of January.

In all cases the court may determine whether or not the parent, parents, or guardian shall exercise any control of said ward or said other minor person and define the extent thereof.

Any disobedience or interference with any order of the juvenile court or of the judge thereof shall constitute a contempt of court.

It shall be the duty of the probation officer to see that such parent, parents, guardian of said ward or other minor person, or other person liable therefor, comply with such orders, or upon failure to make any payment directed in such orders to report such failure to such court. The court may at any time set aside, change or modify any order herein provided for.

Where said juvenile court has ordered payment of money to be made as reimbursements to the county for the expense of support and maintenance of any ward or said other minor person as herein provided for or as additional for the expense of support and maintenance of said ward or said other minor person, for said person, association or institution that under court order is caring for and maintaining said ward or said other minor person, either from the earnings, property or estate of said ward or said other minor person, or by the parent, parents, guardian of said ward or said other minor person, or other person liable for the support of said ward or said other minor person, execution may issue for such payment or payments upon the order and at the discretion of said court, upon affidavit of said probation officer showing that any payment or payments are due and have not been made.

In any case where the county has expended money for the support and maintenance of any ward or other minor person and where the court has made no order of reimbursement to the county, in whole or in part, as herein provided, or where such order of reimbursement may have been made and subsequently revoked, and where at any time subsequent to the date the juvenile court assumed jurisdiction over such ward or such other minor person or subsequent to the date that such order of reimbursement may have been revoked, such ward or such other minor person, or the parent or guardian of such ward or such other minor person or other person liable for the support of such ward or such other minor person acquires property, money or estate, such county shall have a claim against such ward or such other minor person or such parent or guardian or such other person liable for the support of such ward or such other minor person to the amount of a reasonable charge for moneys so expended and such claim shall be enforced by action of the district attorney on request of the board of supervisors."

Motion to Print Speech in Journal.

On motion of Mr. Latham, the following speech by Hon. Paul V. McNutt was ordered printed in the Journal:

SPEECH BY HON. PAUL V. McNUTT.

Your Excellency, Mr. President, Mr. Speaker, Members of the California General Assembly:

I am here this morning to express my deep appreciation of, and to offer a small token of payment for the generous hospitality extended by the people of California to me and the members of my family on numerous occasions in the past. This is the "promised land" and you reflect the bounty with which nature has endowed this State. It is a joy to see these dear friends and to have once more the inspiration of contact with them. Their expressions of good will strengthen and hearten me as I leave for my new post.

I enter upon the performance of my duties as High Commissioner to the Philippine Islands with great enthusiasm and deep interest, conscious of an opportunity to render public service of the highest order to the people of the United States and of the Philippine Islands.

The independence program for the Islands has passed through its initial stages, but there yet remain problems which await solution and questions in regard to which decisions must be reached. A large measure of autonomy in the administration of domestic affairs has been intrusted by the Independence Act to the people of the Philippines through the Commonwealth Government inaugurated under that act. This was a wise provision of our Congress because the people of the Islands are thus enabled, through the medium of their own officials and in their own way, to work out a program of adjustment in preparation for independence in 1946.

Although the United States still exercises sovereignty over the Islands, it is our policy not only to avoid unnecessary interference with this autonomous authority so long as it is exercised in accordance with the purposes and provisions of the Independence Act and of the Constitution of the Commonwealth Government but also to give helpful encouragement to the new government in a spirit of sincere cooperation.

Among the important matters to be considered in the immediate future are:

1. Provisions in regard to a neutralization pact for the Islands;
2. The status of our future trade relations with the Islands;
3. The economic adjustments which must take place in the Islands before economic, as well as political, independence is achieved.

The interested departments and agencies of the United States Government have been giving earnest consideration to the problems involved in future trade relations between the United States and the Philippine Islands as well as to the various economic and related adjustments which may be called for in connection with the independence program. There is to be a joint committee of American and Philippine experts appointed for the purpose of preparing specific recommendations in regard to these matters after careful study. This will not be a joint committee in the work of which one side will seek to obtain concessions and favors from the other. All efforts will be directed toward the formulation of a constructive program, which will then be referred to the two governments.

In view of the capacity for self-government and the adherence to democratic and constitutional principles heretofore demonstrated by the people of the Philippine Islands, all of us hope and expect that they will continue to justify their faith in the principles of liberty and self-government.

In the swirl of rapidly changing standards and economic stress responsible readjustments of governmental policy and functions are clearly indicated. Years ago Mill and Morley, two wise men of the English-speaking world, made these pertinent observations:

> History shows that great economic and social forces flow like a tide over communities only half conscious of that which is befalling them. Wise statesmen foresee what time is thus bringing and try to shape institutions and mould men's thoughts and purposes in accordance with the change that is silently coming on. The unwise are those who bring nothing constructive to the process and who greatly imperil the future of mankind by leaving great questions to be fought out between ignorant change on the one hand and ignorant opposition to change on the other.

As the circumstances of the people change, the functions of government change. Government is not in itself something. It is for something. Just now it is for the economic rehabilitation of our people and for the preservation of our fundamental institutions.

The change carries with it tremendous responsibilities and the possibility of far-reaching consequenses. It offers an opportunity to prove that government may be a great instrument of human progress. It was the ray of hope that heartened us when we followed a path which was dark with ominous shadows.

This is not a static world. Many of our so-called captains of industry and many who had claimed leadership in other activities thought it was. They held fast to old theories and were at a loss when they found that the old theories did not meet the demands of the new day. The situation demanded courage, intelligence, determination and hope. It called for a constructive program on the part of responsible officers of government.

The program had to bring forth a new, a greater, a continuous patriotism on the part of all citizens. Some look upon patriotism as a thing reserved for periods of armed conflict. They wait for the blare of martial music, the sound of marching feet, and the rumble of the caisson to quicken the pulse and inspire supreme devotion to the common cause. They are sustained by the excitement of the moment and lose all interest in public matters when hostilities cease. Such intermittent attention to the general welfare does not satisfy present needs.

The struggle to restore economic equilibrium is as grim and as real as any war. It calls for the same unselfish service, energy, intelligence and solidarity. It requires the same willingness to give all that we are and all that we hope to be without thought of reward save the accomplishment of high purposes. It demands something more,—a critical and searching examination of all governmental agencies to see which, if any, have outlived their usefulness This is the time for perfect candor. No bragging. No pretence that things are better than they are. *No tolerance of what should not be tolerated.*

It is possible to know the truth without fear, to meet a crisis with indomitable courage. Yet, there are those among us who are afraid, who listen to prophets of evil. They profess to see the end of representative government, now rudely challenged by Communism, by Fascism, and many other "isms." They say that democracy in theory is not democracy in practice, that popular sovereignty is an elusive concept, that the right to have a voice in government is not a prized possession.

In the lives of all men and women there come times of travail. The system of life which they have inherited inevitably develops a new series of problems which must be solved. Those who are strong look upon the necessary changes as a challenge to their ingenuity, their prowess, their integrity.

In the years that have gone the pioneers grew fields of produce where primeval forests and raw desert once stood. They made farms out of the hunting grounds of the fur trappers. When the early settlers heard the echoes of America's first revolution, they organized under George Rogers Clark and drove the British back into Canada. There were men in those days who became discouraged. Confronted with the obstacles of nature, and with bitter foes in the soldier from England and his Indian allies, they refused to lend their support to the plan of their leaders But a minority, strong in character, assumed the burden of battle and privation. Their endurance and tenacity created our territory out of a wilderness.

When the second revolution became unavoidable and civil war loomed on the horizon, the timid predicted the fall of the Union. There were those who ignored the achievements of the pioneer and saw no hope for the future. Yet the war came, emergencies were met, the second revolution took place and this United States emerged from the strife aware of a destiny of wider scope. Decades passed and there came the great era of inventions. Time was conquered by speed. Distance was bridged by electricity. Man left the earth to invade the sky. States were no longer populated by groups of lonely and far-flung communities. Isolation vanished almost over night. We looked out upon world problems with a scope and swiftness of vision given by the radio, the telephone, the aeroplane, the newspaper, the camera, the automobile and the cinema.

Within recent years the pleasure in these new media of civilization wore away. Doubt and fear crept into our thoughts because we suddenly found ourselves in contact with economic conditions which we thought were solved or far removed. We discovered that new inventions were not toys, but violent weapons which might destroy us if put to ill use, or which might create anew for us if properly controlled. We learned that the days of pioneering were not over; that the struggle for the preservation of the ideals of those who founded the Nation and the State continued; that dangers to American unity as great as British conquest or civil conflict, still existed. We were confronted once again by battles which we thought long ago were lost or won and which had to be refought on vastly larger fields.

In history there have been no days more critical or calling for more tenacious will power than those in which we are now living.

The other day I heard a man say that there is in many quarters fear of worse to come. He said that in spite of our science and invention—or because of them—we were approaching a period such as that which followed the decline of the Roman Empire and he pointed out the fact that Ferrero, eminent historian of Rome, thought that, and that Spangler, in a book counted one of the weightiest of the century, said we were approaching our swift-coming doom. Even such a man as Henry Adams, descendant of presidents, student of affairs, economic and political, saw upon the scroll of destiny for the United States of America four frightful choices. First, the pessimism of Europe's dying civilization; second, the tyranny of capital or of labor, third, a return to mysticism; fourth, a ceaseless reiteration of the old processes under new guises at a monotonous level. They do not belong upon our scroll of destiny.

Who are these prophets of evil and where have they been? To use the words of Carlyle, "They have been nowhere but where we also have been, and they have seen at most a few hand-breadths deeper than we now see into the ocean which is without bottom and without shore."

I wish to be counted among those who deny such a doctrine. I believe in the destiny of democracy as a system of government, believe in it more profoundly than in anything else human It is true that science and the machines born of science have greatly altered the ways of men and women and have created manifestly serious problems. But the problems of the present are not more difficult than some for which satisfactory solutions were found in the past

This is another testing time for representative government. Our high enterprise is to prove it sufficient in every circumstance and for every task which can come to free people.

These are the responsibilities to be met by any program: To provide food, clothing and shelter for the destitute, the aged, and the infirm; to provide gainful employment for the unemployed; to revivify industry through cooperative action; to keep agriculture on a profitable basis; to stabilize and retain confidence in our financial institutions; to remove the fear of debt and foreclosure on the part of the farm and small home owners; to maintain an adequate system of public education; to promote the efficient administration of justice; to strengthen necessary social agencies; to offer every assistance in restoring economic equilibrium; and, lastly, to restore the confidence of the people in themselves and in their institutions.

Important as all of these matters are, I wish to emphasize the first, without which the others are of little consequence. When the Saviour said, "After this manner therefore pray ye", His first petition was, "Give us this day our daily bread." It is not that man lives by bread alone. Things of the spirit are likewise necessary. But it is significant that, through the ages, hungry people have been in the vanguard of every revolt against the established order. A hungry man is never rational in his attitude toward the life of the community or toward his own life. Therefore, it is the business of government to make those adjustments which guarantee to every man the right to live as a normal human being

Does all this mean a destruction of our liberty?

In the closing pages of Plato's Republic is found the story of the prophet who said to the souls of men given a chance to come back to this world and choose the lives they should lead: "Hear the word of Lachesis, daughter of Necessity. Mortal souls, behold a new cycle of life and mortality! Let him who draws the first lot have the first choice, and the life that he chooses shall be his destiny. Virtue is free, and as a man honors her he will have more or less of her. The responsibility is with the loser. God is justified!" (Are we free to choose?)

Life in a democracy is and must be something more than mere existence. It means growth, development, security, and sharing responsibility for the common good. Live and let live No man can claim a right for himself and refuse to recognize the same right in others The same thing is true of liberty. No freedom can long exist which feeds upon the oppression of others Only the unwise would attempt to define liberty when they view it against the background of the ages from ancient Athens to the present. Aristotle pointed out that the good man, the educated man and the free man are one and the same; that the aim of education is the training of the free man; that the "good life" of this man is possible with the exercise of "right reason"; that virtue itself is just intelligent behavior; and

that there can be no liberty without virtue. Men are of two kinds, he said: First, those who govern themselves by reasoned virtue (these are the free); and second, those vast numbers who are moved by mere desire, by prejudice or unreasoned belief (these must always be restrained by force and can never be free). This is the classical understanding of liberty.

We have been accustomed to thinking that this became a free country once and for all as a result of the heroic efforts of our ancestors, that liberty and popular government are the same thing. They are, as long as men understand themselves and master themselves in new ways in order to retain their inherited freedom. It is necessary to adjust self-government to the changing circumstances of the age in which we live. As Everett Dean Martin put it: "Would you be free? Then first become civilized."

Liberty is not to be found in mere words. It must be found in action, in choosing.

Do we know what we want? One great pessimist thinks not. A few days ago I re-read an amazing volume appropriately entitled Words to the Deaf, by Ferrero, eminent historian of Rome. In it he wrote "There have been epochs more uncouth, poorer, and more ignorant than our own, but they knew what they wanted."

"What do we want?" he asked. And then went on to say "That is the essential question. Every man and every epoch should keep this question constantly before them, just as a lamp is kept burning day and night in dark places."

Ferrero is right. This is the essential question. To know what we want and need and to want what we need are the beginnings of statesmanship.

Do we know what we want and need? Do we want what we need? Ferrero thinks not.

"On the contrary," he wrote, "our will is in a state of complete confusion Sometimes it is split in twain, at once desirous of good and evil, or of benefits that are mutually exclusive. Sometimes it cloaks itself in agreeable falsehoods, persuading itself that it desires one thing, while all the time it desires something different or even antithetical. Sometimes it entirely strays away from reason and *reality, lured on by a chimerical mirage.*"

I do not share Ferrero's pessimism. I believe that we do know some of the things we want and need.

We want to revise the procedures, but remain unreservedly loyal to the democratic principles of self-government.

We want to defend at whatever cost in government and in enterprise the utmost freedom consistent with the complex interdependence of modern society.

We want to call upon every resource of ingenuity to lower the cost and lift and secure the standard of living for the masses.

We want to bring our economic policy into harmony with the technological process in order that no treason to human need shall ever again inform our National policy.

We want to deal liberally with our enterprises of research and education, demanding from their directors in return a conscious consideration of the practical problems that give to this particular phase of our national evolution both its distinction and its difficulty.

And, with the statesmanship that goes beyond opportunism, we want to keep this a land of opportunity and orderly liberty.

Our people live in the storm and stress of immense and incalculable events and anxiously speculate on the possibility of profound changes in our political, social and economic life. Under such circumstances all public officials should undertake their important tasks with clear minds and courageous hearts and consecrate themselves exclusively to the high calling of good government.

Two things in this world are both certain and unpopular, death and taxes. Most people spend their lives attempting to postpone the one and avoid the other. The popular philosophy seems to be that taxes for the support of necessary functions of government are perfectly proper provided some one else pays them. All thinking citizens are agreed that every effort must be made to reduce the cost of government, to improve the quality of the service rendered, and to make a more equitable distribution of the necessary tax burden.

If representative government is to meet the test, then we must have the wisdom and the courage to consider the facts and make the necessary changes.

The major part of the cost of government is created by local units. Reforms in local governments are, therefore, clearly indicated in order to reduce the cost. In dealing with such reforms certain principles must be considered. One principle is that of coordination and integration in dealing with the structure of State and county government. Another principle is that of executive responsibility for governmental action apart from the judicial and legislative fields.

The only effective check on bad government is public opinion. Therefore, responsibility for governmental success or failure should be fixed and not diffused, so that the electors may deal intelligently with a clear-cut issue. An executive should not be given the opportunity to hide behind a "board" or "commission." In democratic government we necessarily run the risk of unwittingly, or even wilfully, select-

ing poor public officials. There is inherent in that risk a resulting inefficiency and unnecessary cost. But it is no part of the democratic ideal of government that government be disorganized or that it consciously and intentionally be placed in the hands of those who are incompetent. There is every advantage in a structure which will permit and encourage efficient and economical government under competent hands. Ultimately control rests with the electors. Under a proper structure if they wish they may make the test of office holding efficient and economical service.

It is therefore essential that governmental structure make possible that test. It can be done only by a definite assignment of authority to a specific individual. In fairness to him he should and must be given an opportunity to succeed. (With that opportunity goes responsibility. The wise executive will select the most competent personnel available.)

In order to fix executive and administrative responsibility under existing forms of local government it will be necessary to abolish some elective officers, to curtail the activities of others and to give a considerable power of appointment as to subordinate officers. It seems no part of the democratic ideal of government to require the election of officers other than the principal executive ones and the Legislature. Attention is called to the fact that in the Federal Government only the President, the Vice President and the members of the Congress are elected.

A county unit for local government is indicated. Under modern transportation and communication systems a county unit of government is much more local, much closer to its constituency than was the township in the beginning or in the "Fifty's". It is therefore no violation of the principle of local self-government to change the local unit to conform to modern facts as to what constitutes a locality for governmental purposes. One of the most obvious savings in governmental costs is the integration of the present township government into the county unit.

Given a decent structure the essential problem of good government is almost entirely one of personnel. Government must be run by men and women, and it is therefore subject to all of the ignorance and frailties of human nature. As to elected personnel we must run that risk. We must put greater emphasis on the problem of appointed personnel. Through a competent personnel will come the largest and best economies, for the most serious losses are those accruing through the ignorance and inefficiency of public servants. Practically all functions of government require of governmental personnel special knowledge and training even scientific or professional attainment, and no improvement in government can effectively be made until that fact is given recognition. Economy may often be served by the employment at a necessary figure of a thoroughly competent official.

It may be well to point out, as a word of warning, that in government as elsewhere there is such a thing as false economy. Some governmental services and problems are of such nature that their temporary neglect creates a permanent and increasing loss which multiplies the difficulties for the immediate future. There is no reason why we should not adequately support every essential governmental service. We can not afford to abolish government under the guise of economy.

In Indiana we have been collecting and studying all pertinent data relative to the functions and organization of State, county, township, city and town governments, school corporations and other municipal corporations with a view to formulating such laws as will insure economy, proper integration of functions among the various governmental units, efficiency in organization and proper financial support of such governmental units. Because of the position I have held I refer to my own State with reluctance. Indiana is a typical State, however, and many of its problems are the same as those of other States. The work which we have done and are doing may be of value to those who are seriously studying local governmental organization.

Here are the results. Four years ago the citizens of Indiana labored under intolerable burdens. There had been such an accumulation of misery and fear, that their morale, their confidence in their leaders and their faith in once accepted policies had been destroyed. Thousands were in want of the bare necessities of life. The public poor relief system was not equal to the occasion. The State budget was unbalanced Appropriations for the year exceeded anticipated revenues by $7,000,000. The credit of the State and its political subdivisions was seriously threatened. Taxes were oppressive Our system of public education was imperiled. Financial institutions were unable to continue normal operations. Public utilities had their hands on the throats of consumers. Small investors and borrowers were at the mercy of finance companies and consumer credit agencies. Patience had been exhausted and panic had seized the people. We were on the brink of a major catastrophe.

Today we can say that the needy have been fed, clothed and sheltered and that the State has carried its full share of the necessary cost. Indiana was the first State to reassume direct relief, after reforming and improving the system. Pensions for the aged and the blind have been established. Laws have been passed to promote stability and a decent American standard of living. The State's estimated deficit has been met and the budget balanced, not only for the last three fiscal years but for the present fiscal year as well. The State has no debts, bonded or current, and on June 30th will have in the general fund an unincumbered bal-

ance of at least $17,800,000. The credit of the State is better than at any time in its history. Taxes on tangible property have been reduced more than one-third and the tax burdens more equitably distributed. The total bonded indebtedness of political subdivisions has been materially lessened. The total cost of government has been lowered. No school door has been closed. No term has been less than eight months. No school district has been without salary funds to pay its teachers. The soundness of our financial institutions has been restored by proper administration of a carefully drawn financial institutions act. The rates of public utilities have been revised for the benefit of consumers without injury to the investing public. Small investors and borrowers have been given adequate protection against the nefarious practices of unscrupulous finance companies and other consumer credit agencies.

Property taxes levied for the last four years were $172,000,000 less than for the four-year period immediately preceding, a decrease of over 30 per cent. Property taxes paid were $180,000,000 less, a decrease of 33 per cent. During the last four years new sources of revenue have produced less than $64,000,000. Deducting this sum from the amount by which property taxes have been reduced gives a net reduction of the cost of government of $108,000,000 on a basis of taxes levied and $116,000,000 on a basis of taxes paid during this administration.

The State Government has produced its share of these savings. The cost of the operation of State Government for the last four years has been $22,400,000 less than the cost of the previous four years. This saving was brought about by the reorganization of the State Government reducing the number of units from 179 to 8. It was necessary also in 1933 to meet the existing deficit and be able to undertake the additional burdens caused by increased support of schools and the enactment of the Social Security Program. We considered all manner of taxes, sales taxes, net income taxes, cigarette taxes, and a host of other nuisance taxes. The final decision was to adopt the Indiana gross income tax which is now operating.

Distribution of State revenues to local political subdivisions during the period have amounted to $99,599,559.81, a sum exceeding that distributed in any previous period by over $62,500,000. These grants of State aid have made it possible for local units to meet their obligations and at the same time materially reduce property taxes The one grave danger arising from such a plan is the increasingly apparent desire of local units to shift responsibility for raising revenue while retaining control of expenditures. The two must not be separated. There can be no proper control without the sobering and restraining influence of responsibility.

Aside from minor changes in existing laws to correct any inequalities which may arise in practical operation, our real tax problem is that of reducing the cost of government. The most important and effective step in this direction will be the reorganization and integration of local units of government

The tax accomplished every purpose designed for it: namely, kept every school open, every teacher paid, the State's credit good, the budget balanced, reduced property taxes and enabled Indiana to adopt the Federal Social Security Program in toto without the addition of any new taxes.

The Gross Income Tax Act taxes all receipts of money or property in lieu of money over $1000 per year received by every legal entity in the State with a few exceptions such as benevolent institutions, etc. Today, approximately 500,000 different taxpayers are under this law in the State. The tax last year produced slightly in excess of $16,000,000. Collection costs were slightly over 3 per cent, or an average of approximately $1 per account The average rate paid by these 500,000 taxpayers is three-fourths of one per cent. It has been said by tax experts who have looked into our accounting and cost problem that this is the lowest collection cost of any tax of any similar nature in the United States Obviously, if our rates were 2 or 3 per cent, we would collect more money without one penny additional cost and the percentage would go down in proportion. It also may be of interest to you to know that our delinquent section, our auditing department and proving section have collected more money from those who would atempt to escape paying than has been the entire collection cost. This is in addition to the amount of money secured by adjusting honest errors made by the taxpayers who were making an honest effort to comply with the law From the legal standpoint, the Indiana gross income tax has been declared constitutional in every respect by the Indiana Supreme Court. When an attempt was made to take the question of its constitutionality before the United States Supreme Court, that court refused jurisdiction For administrative purposes, there are roughly two types of income from sales under the gross income tax; income from wholesale sales and income from retail sales. We have defined wholesale sales as sales made for resale and retail sales as those made to the final consumer. This test has been applied straight down the line to manufacturers, farmers, wholesalers, retailers, etc., in respect to their receipts from sales. Utility incomes are 1 per cent straight. Salaries, wages, interest dividends and rents pay 1 per cent.

Under the Gross Income Tax Act, we have been able to get more than $2,000,000 per year taxes from residents of other States, but who still own property, particularly rental property or businesses within the State of Indiana. Our law specifically states that the tax is levied upon all sources of income within the State of Indiana.

Like all States, we have had many citizens who own business blocks, rental properties and other types of businesses in the State, leave Indiana for California, Florida, etc., or the parents of the children might have left years ago and this property fell to them as heirs This $2,000,000 that we are collecting from this source alone, incidentally, is about equal to the State's share from the entire property tax of the State of Indiana.

Naturally the gross income tax is a political issue within the State of Indiana. This is a very healthy situation. All direct taxes are always political issues. Any issue of this nature that awakens the people to more intelligent discussion of their tax problems and of the things that they are demanding that their government do for them is in the long run very helpful toward the desired aim of efficient administration, good government and public expenditures only for those things that are for the public good.

You can readily imagine what the main objections are and what the opposing politicians have built up in Indiana. Among the merchants, it is claimed that it is a hardship on them because they can not pass the tax on. The other side says it is no hardship because every merchant, large, small, independent, or mail order, must pay the same rate. There is no discrimination; consequently, no unfairness or unreasonable burden. Some say it is unfair to tax a loss. If you did not tax regardless of profit or loss, you would not have a gross income tax—but a net income tax. Why should those who operate at a loss be exempt from this tax when they are not exempt from any other State tax and only one Federal tax? The man who loses money in his business is not exempt from property tax, or from gasoline tax. He can't tell the girl at the cigar counter that he didn't make a profit last year—and thereby be entitled to buy his cigarettes 6 cents a package cheaper.

In this new economic era of bitter, often unintelligent competition—in this era of too many people trying to be in every kind of business—successful businesses should be the first to question the right of government to exempt their unsuccessful competition from paying its share of governmental costs. Certainly if the unsuccessful are exempted, the successful business must pay not only its own share—but its unsuccessful competitor's share also.

The professional men and salaried men are being told that it is unfair to them. They are told that it reduces their salary just so much and unlike the merchant they have no chance to pass it on, concealed in their cost of doing business. Down the line of various groups is the usual list of selfish and more or less politically inspired objections.

The Gross Income Tax Act in Indiana is solidly supported by organized labor, by the organized farmers, by the tax students in general and particularly by Indiana industry. Labor is especially for the gross income tax, realizing that we must have in Indiana either much higher property taxes, the gross income tax, or a sales tax. Under the Gross Income Tax Act, a man making $100 per month pays the State $2 per year. Under a sales tax, obviously he would pay many times this amount.

A tax on gross income of course is not new in this country. There have been gross income taxes on specific commodities for many years but Indiana has made the first attempt to make the rate very low and spread the base over practically every type of income. I believe that this is a sound method of taxation. It means the very minimum of requirements on the part of the taxpayer as far as bookkeeping and accounting records are concerned. He merely has to keep a record on how much cash or receipts in lieu of cash he received during the taxpaying period. The matter of profit and loss and exemption (other than the flat $1,000 annual exemption for each taxpayer) does not enter into the picture. From the administrative standpoint it means that audits and inspections can be made quickly without delving into the intimate affairs of the taxpayers. It assures a fairly steady income to the State. In Indiana, although this income is not earmarked by law, it has been for all practical purposes, revenue for the payment of teachers' salaries and the balance for the social security program.

There is a justified complaint of the taxpayers, business people in particular, about the large number of tax reports and different kinds of taxes on which they must keep informed. The gross income tax idea properly developed offers splendid possibilities to reduce the number of nuisance taxes in every State by imposing a gross income tax designed to meet the needs of the State and eliminate many nuisance taxes. Properly applied the rate can be very low. Properly administered the collection cost is insignificant. It gets something directly or indirectly from thousands who heretofore escaped their just share of governmental costs. Like any tax measure it needs constant revision to meet ever changing conditions.

The one serious objection to a gross income tax—and this is solely from the "political" viewpoint—is that it is an easy political target for the outs who want in. There are periodic screams from the public about hidden taxes, but they scream twice as loud and often when an honest effort is made to have a tax law that they can see and must know all about and that touches all and they know they are touched. Personally, I am not ready to admit that ignorance is bliss in governmental tax affairs. I believe that the sooner more taxes are "openly" col-

lected and fewer are hidden—the sooner will our people come to a more intelligent understanding of the multitude of expensive jobs we have transferred from individual shoulders to the broad shoulders of Uncle Sam and his 48 children, the States, and to the weak shoulders of his grandchildren, the almost countless small units of government.

The advocates of the gross income tax in Indiana feel that the law is a step in the right direction toward spreading the tax base, preventing tax evasion and playing fair with the public in having a major State tax law with rates falling on all alike—and no mysteries about how it is collected or how it is spent.

Through such a program we have sought, as all democracies must seek, to preserve a way of life congenial to our people and to adjust self government to the changing circumstances of the age in which we live. May God grant that we be equal to such a task and worthy of the high enterprise of good government for which we are bound by solemn oath.

SENATE CHAMBER, SACRAMENTO, April 1, 1937

MR. SPEAKER: I am directed to inform your honorable body that the Senate on this day passed the following:

Motion to Amend Assembly Bill No. 8.

Mr. Scudder moved to amend Assembly Bill No. 8 as follows:

Amendment No. 1.

On page 1, line 6 of the title of the printed bill, after "districts", add the following: ", declaring the urgency hereof and providing that this act shall take effect immediately".

Amendment No. 2.

On page 4 of the printed bill, after line 42, add the following:

"SEC. 15. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of section 1 of Article IV of the Constitution of the State of California, and shall therefore go into effect immediately.

The facts constituting the necessity are as follows:

In Sonoma County and in other portions of the State many persons are eager to form recreation districts under the act amended by this bill but under the act as at present are unable to undertake any work thereunder because of lack of authority to issue bonds. If this act is passed and takes immediate effect then work will start upon the various structures authorized by this act immediately, thus relieving in part the unemployment which despite improved economic conditions still exists.

If this act does not take effect until 90 days after the adjournment of the session it will not be possible to construct swimming pools or other structures in time for the summer season of 1937 and the work may be delayed for over a year to the great detriment both to the people in the proposed recreation districts themselves and to the economic well being of the State of California as a whole."

By Mr. Speaker:

FEDERAL HOME LOAN BANK BOARD,
WASHINGTON, April 2, 1937.

Hon. William Moseley Jones, Speaker of the Assembly,
State of California, Sacramento, California.

IN RE: ASSEMBLY JOINT RESOLUTION NO 33.

DEAR MR. SPEAKER. I have for attention and reply a letter dated March 24, 1937, from The Honorable James G. Smyth, Chief Clerk of the California Legislature, transmitting Assembly Joint Resolution No. 33, which requests us to advise the Legislature in the State of California whether or not, in our opinion, the adoption of legislation in the State abolishing deficiency judgments would have a tendency to hamper, curtail, make difficult or prevent the granting of loans to citizens of the State. I am directed by the board to make this reply.

The Federal Home Loan Bank Board supervises the operation of the 12 Federal home loan banks, whose members provide a very substantial proportion of the money for the financing of urban homes in California and throughout the United States, holding at present more than $3,000,000,000 invested in such mortgages. These members are currently lending several hundred million dollars a year to home

owners, chiefly in the form of long-term, monthly-amortized mortgages. Home Owners' Loan Corporation, under the direction of the board, holds approximately $3,000,000,000 in small home mortgages, amortized over a 15-year period. This board was established by Federal statute not only for the specific purposes referred to above and others, but also for the broad purpose of encouraging sound and economical home financing. It is therefore very much interested in the question which you submit.

In our opinion, no mortgagees in the collection of the mortgage debt, should receive, by any means, more than the amount of the mortgage debt, with legitimate accumulations, advances and costs. We are advised that the laws of the State of California provide for the sale of property in the event of foreclosure of a mortgage at not less than its fair value as found by the court, and it follows that a deficiency judgment can not be introduced for more than any balance of the debt after crediting the amount of such fair value on the debt. We believe that this basis, adopted by your State about two years ago, is fair and reasonable to all concerned.

Any law which arbitrarily prohibits any deficiency judgment on any mortgage foreclosure case we believe to be unsound. We believe it to be good public policy to encourage lending institutions to assist bona fide home seekers by lending them up to a very high percentage of the current value at the time of the making of the loan and to make such loans repayable over a long period of years so that monthly or other periodical payments may be within the family budget. It is important that no law be passed which will discourage bona fide lending on this basis, as it is important to encourage and assist families of small means to acquire home ownership. Such loans are very frequently made in very large reliance upon the good character of the family engaging in home purchase. To prohibit absolutely any deficiency judgment has the effect of minimizing the value of good character because it compels the lending institution to look solely to the security and its value. This results in the lending institution's offering to lend a smaller percentage of value in the first place, and, in the second place, insisting upon repayment terms so that if property values change over the years it will be sure to be protected.

To encourage high percentage lending, especially on small homes, and to encourage long-term, amortized loans requiring small periodical payments is to assist the small home owners and to encourage home ownership. To do anything which restricts the amount of loan which the lender can afford to provide or which tends to suggest short-term loans, which small families can not meet from their family budgets, tends to make it impossible for families of small means to enter into home purchase or to carry through their contracts for home purchase.

We therefore believe that such deficiency judgment legislation as you refer to is unwise public policy, puts obstacles in the way of the family desiring to acquire a home, and should be avoided. We believe that legislation such as you passed two years ago, which prohibits a deficiency judgment for more than the difference between the debt and the value of the property foreclosed upon, largely, if not completely, eliminates the evil from which we have suffered in years past of inequitable and unconscionable excess judgments.

We might point out further that frequently banks and others holding open note debts or debts in the form of accounts, take a mortgage or deed of trust as partial security only but are thus enabled to continue an extension of credit which they otherwise would not be able to do. In such cases, if such creditors cut themselves off from their claim against the debtor in personam by taking a mortgage, the creditor would frequently be compelled to sue his claim to judgment and take an execution in the first instance, which would be a lien upon all real estate and other property of the debtor.

The deficiency judgment evil consisted of the wrong which resulted from auction block sales on a bid representing not fair value at all but a mere nominal amount and the taking of a deficiency judgment for the remainder of the debt after the mortgagee had taken the property for such nominal value. This situation is avoided by the law now on the books in California requiring that full credit for the full, fair value of the property be given at the foreclosure sale and the deficiency judgment be taken only for the remainder. Under your present law, Federal agencies, State agencies and private lenders may continue to lend high percentage of value in California and make their loans over long terms on the most favorable basis, and we hope that this situation will not be disturbed.

Assuring you of our desire to cooperate with you at all times, I am

Very truly yours,

HORACE RUSSELL, General Counsel.

The application shall contain a statement of the facts upon which the order is sought, and the defendant shall have the right to be present and be heard at the hearing of such application If, at such hearing, it shall appear that such a special proceeding is pending against the defendant, and that the specimens designated in the affidavit might reasonably tend to show the presence or absence of venereal disease in the defendant, and that the specimens can be taken from the defendant without materially injuring his or her health, the court shall issue an order requiring the defendant to permit the person designated in the affidavit or application, at the time and place stated in the application, to take the specimens of blood or bodily discharge named in the affidavit; provided, that such specimens shall, unless the defendant otherwise consents, be taken in the county of the defendant's residence, and provided, further, that the defendant shall have the right to have a licensed physician or surgeon of his or her choice present at the time and place where such specimens shall be taken. Motion to Print Report in Journal.

On motion of Mr. Turner, the following report of the Special Assembly Committee on Rules and Regulations of Horse Racing was ordered printed in the Journal:

REPORT OF SPECIAL ASSEMBLY COMMITTEE ON RULES AND REGULATIONS OF HORSE RACING.

To the Speaker and Members of the Assembly

The above mentioned committee was appointed pursuant to a resolution of your honorable body, adopted January 22, 1937, for the purpose of investigating and studying the rules, regulations, customs and practices of horse racing in the State of California, a copy of said resolution being annexed hereto and made a part of this report.

The committee held an open hearing in Los Angeles beginning on February 1st, and ending on February 6th, 1937. Due to the inability of one of the stewards at the Santa Anita Track to attend the hearing on account of illness, his testimony was taken by the chairman of this committee on February 19th and February 20th, at Los Angeles. In all, the testimony of the following 34 witnesses was taken before your committee:

J. K Macomber, William A Quigley, Roy Carruthers and Edmond Soule, all members of the board of stewards at the Santa Anita Track; Carleton F. Burke, John A. McNaughton and William P. Roth, all members of the California Horse Racing Board; W. C. Buchanan, secretary of the board; Miss Lorraine Repperger, stenographer for the Racing Board; Dr. Harry O McKim, veterinarian at Santa Anita; Arthur A. Maas and S W. Green, chemists for the Racing Board; Dr. A O.

Beckman, head of the Department of Chemistry at the California Institute of Technology; Dr. C. H. Strub, general manager of the Santa Anita Track; Miss Mary Tunny, stenographer in Dr. Strub's office; Norman W. Church and Charles E. Cooper, prominent California horse breeders; Harry T. Palmer and J. D. Shyrock, horsemen; E. J. Fitzgerald and T. J. Carroll, trainers for the Northway Stables; E. J. Brown, president of the National Association of Racing Commissioners; Preston M. Burch, president of the American Trainers' Association; Trainers A. H. Stotler, Vanderbilt Stables; R. McGarvey, Milky Way Stables; John A. Healey, Whitney Stables; B. A. Jones, Woolford Farms; Anthony Pelleteri, M. L. Emerich Stables; J. J. Flanigan, Valdina Farms; D. A. Gannon, Major Austin Taylor Stables; B. B. Williams, W. H. Furst Stables; E. L. Snyder, Tranquility Farms; Grace Wickham, stenographer in Dr. Strub's office; and Douglas Wilks, of the Western Union, Los Angeles.

The California Horse Racing Law authorized the Horse Racing Board, which under the law is appointed by the Governor, to prescribe rules, regulations and conditions under which all horse races, upon the result of which there shall be wagering, shall be conducted within the State of California.

The resolution under which your committee was appointed, provided for the investigation and the study of the rules, regulations, customs and practices of horse racing in the State of California.

The California Horse Racing Board had, in 1934, adopted and promulgated the "Rules of Racing" in which the board states:

> "Anyone who enters or causes a horse to run, or who owns a share of any horse which takes part in any race held at a meeting conducted under permit from the California Horse Racing Board, or anyone participating in any such meeting in any capacity, is expected to be conversant with the present rules governing racing. Such persons thereby agree to submit, without any reservation, to all the rulings and consequences resulting therefrom."

The Formation of the Board of Stewards.

The Racing Rules of the California Horse Racing Board provides for the appointment of a board of stewards who exercise general supervision of the conduct of the racing meet. Rule 19 designates the officials of the racing meet and Rule 20 provides the procedure of the selection of the board of stewards. In view of the fact that the testimony before the committee was uniform to the effect that Rule 20 had not been followed in the selection of the stewards, we quote the rule in full:

> "One (1) of the stewards for each race meeting shall be named by the California Horse Racing Board. The association holding the meeting shall name a third. All stewards shall be named at least ten (10) days before meeting commences. If the third steward is not named before that time, or the association fails to nominate a steward, the board may name steward or stewards not so selected. All other officials herein designated, including the stewards, shall be employed by the association holding the meeting, and shall be subject to the approval of the board which reserves the right to demand a change of personnel for what it deems good and sufficient reasons, the successor to official so replaced to be subject to the approval of the board. The associations are hereby directed to submit to the California Horse Racing Board the names of the officials, together with the salaries to be paid to them, ten (10) days prior to the date fixed for any race meeting."

J. K. Macomber testified that he was the steward representing the California Horse Racing Board at the Santa Anita meeting, and that he had been appointed by the California Horse Racing Board, but that the Santa Anita Racing Association paid his salary of $75 a day. Mr. William A. Quigley, Mr. Roy Carruthers, and Mr. Edmond Soule are also members of the board of stewards. We call your attention to the fact that the rules provide the appointment of three stewards for the conduct of a racing meet and Rule 20 provides that one of the stewards shall be named by the California Horse Racing Board; that the association holding the meet shall name the second and that the two together shall name a third. In the case of the Santa Anita meeting, four stewards were actually appointed, and three of them, Messrs. Quigley, Carruthers and Soule, were all appointed by Dr. Chas. H. Strub, general manager of the Santa Anita Racing Association. The appointment being confirmed by the California Horse Racing Board. In the appointment of the stewards, the rules were not complied with, and in view of the fact that the salary of all of the stewards is paid by the racing association, we believe that an improper procedure was followed in this respect, and that the best results for the benefit of the proper operation and supervision of the track could not be obtained where three of the stewards were actually appointed by the track and the salaries of all four stewards were paid by the racing association.

The rule referred to does not say how the stewards, once selected according to the rule, shall be removed from office except that it does give the State board the right to require a change of personnel in any track position. Since, however, the entire purpose of the rule is to set up an independent board of stewards for the protection of the public, the State, and the track, it would seem that the track

would have no right, even under the rule as written, to discharge any of the stewards selected in accordance with the terms of that rule. Viewing the matter in the light most favorable to the track, it would seem that the track could not, under the rule, discharge any of the stewards other than the first one it appointed, because the selection of the other two theoretically was made independent of the track. Therefore, under the rule as written, were it enforced the track could at the very most discharge only one of the stewards, leaving a majority of two undisturbed.

With reference to this particular point, Dr. Strub's testimony indicated that he considered that he had the power to discharge the stewards, as he testified:

> "If I thought there was anything wrong in that stewards' stand, I would fire them tomorrow."

Which might bring about the unfortunate circumstance that he could influence their judgment

In another part of Dr Strub's testimony, he testified:

> "My business is the operation of a plant from a business angle—the racing at Santa Anita is in the hands of the stewards in its entirety. As a matter of fact as I said to you before—and I think it is in the law that they are supposed to be there at 8:30 and if they walk up into my office and ask me to get off the track I would have to get off."

From this conflict in testimony, your committee is led to the conclusion that even Dr. Strub was doubtful as to the extent of the power of the stewards and the extent of the power of the association with regard to the operation of the racing meet

In addition to the failure to select a third member of the board of stewards in accordance with the rule referred to, the committee found, as already indicated, that the board of stewards at Santa Anita consisted of four members, one representing the State and three selected by the track The reason for the fourth member of the board of stewards, as given by several witnesses before the committee, was that the track was rendering better service by employing an extra steward so that one could watch the start of the races. Your committee appreciates the advantage of having a capable official watch the start, but can not see why it should follow from this that there should be a fourth member on the board of stewards contrary to the rule. Certainly it would be entirely possible to employ a capable person of integrity to watch the start without giving him the right to a vote on the board of stewards on the many matters that come before it, thus preventing the proper operation of Rules 24 and 25 providing for a majority vote of the stewards in deciding an issue.

Your committee considers Rule 20 a very good one in so far as it provides for the creation of the board of stewards It would further suggest, however, an amendment that would make it clear that the track has no right to discharge a steward during the course of meeting without the consent of the State Racing Board. Your committee was unable to find any excuse or reason for the flagrant violation of this rule by the State board and by the track. Why should the rule be ignored? The very question leaves the track open to the suspicion of deliberately retaining some control over the board of stewards and leaves the State Racing Board open to the suspicion that it has been influenced by the track to the extent of acquiescing in such improper control. In any matter as important as "The Proclivity Case," this violation of the rule opens the door to the argument that the ruling would never have been made had the board of stewards been properly selected.

Personnel of the California Horse Racing Board.

In the enactment of the California Horse Racing Law, the Legislature provided for a racing board or commission, to consist of three members. It was undoubtedly the legislative intent that the personnel of this board should consist of men who had some knowledge, training and experience, that could be applied in the administering of the provisions of the act. It was also the legislative intent that any official acts of the board should consist of the independent thought and action of its three constituents.

To intrust the enforcement of the provisions of this or any other act to men who have no knowledge of the subject involved, is to defeat the purposes of the law. To allow a commission to delegate to one of its members, the ultimate "say" in the making of decisions, is to violate the legislative intent in creating such commission.

With these self-evident truths in mind, the committee was, to put it mildly, surprised to ascertain that in many instances what probably appeared to be the official action of the three members of the board was in effect the conclusion of its chairman, and that of the three acting members, at least one thereof, freely and frankly admitted that he had neither knowledge, training, or experience that qualified him to sit upon the board, and that his interest in the subject of the breeding of horses was practically nil

When Mr. William P. Roth was examined by this committee, he testified in part as follows:

> "I might tell you how I became a member of the commission. It was the last day of the Legislature in 1933 at about four o'clock in the afternoon, and

Governor Rolph rang me up and said, 'How would you like to go on the Racing Commission.'

And I said, 'No thank you I know nothing about horses or horse racing, and besides I can't give very much time to it.'

And he said, 'Well, you don't need to worry about that end of it, as I have appointed two men who are horse-minded and they will take care of it. I want you to sit in on questions of policy and see that there is clean racing.'

And I said, 'I would like to think this over.'

He said, 'Impossible I have got to name you right now.' And he said, 'Please come on and I will discuss it with you later, what we will do about it.'

Well, the last time I saw him was when we went up there to take our oath, and that was the last time I ever saw him."

"Q. Are you a member of the California Horse Racing Commission?

A. I am

Q Are you very active in the affairs of that commission?

A Not very.

Q. Since August of 1933 how many meetings of the commission have you attended?

A Why, I would say about 20

Q Do you know how many meetings have been held during that time?

A. I think it is 41

Q. What is the general procedure with regard to the decisions of the Horse Racing Commission when you are not present at a meeting and your approval of their action is required?

A. Well, Mr. Burke generally gets me on the phone and confers with me

Q. And what does he say in a general way?

A. Well, as a rule he says that Mr McNaughton and he have decided on certain things, and do I approve.

Q. Does he give you all of the facts and circumstances upon which they based their decision?

A. Why, I wouldn't say he gave me them all

Q I didn't get that.

A I doubt very much if he gave them all

Q. Upon occasions when your approval or disapproval has been requested, have you had the opportunity to hear witnesses or advocates or testimony upon which you could base your decision?

A. Yes, sir.

Q. In all cases?

A. In all cases.

Q. Well, did I misunderstand you when you said that you didn't think Mr Burke gave you all of it?

A. Of course, I would get it if I were present; I meant when I wasn't present

Q. I meant on the occasions when you weren't present?

A. No, I didn't get all then

Q. Then would you say your decision was made largely upon the suggestion or opinion of Mr Burke?

A. And Mr McNaughton And Mr McNaughton, I would say so.

Q. Are you pretty familiar with the operation of race tracks generally?

A. I am not.

Q. Have you had any considerable experience in the business of racing horses?

A. None whatever

Q. None whatever?

A. No.

Q. Have you had any experience at all with regard to the breeding of horses?

A No, sir

Q None whatever?

A No.

Q Are you not at all familiar with the way race tracks are operated?

A. No, sir

Q. And you are not familiar with the various breeds of horses, are you?

A. No.

Q Are you familiar with the pari mutuel system of betting?

A. I have an idea.

Q. Like myself, you try to win?

A. No, I can't bet; I would go to jail

Q. Do you casually attend the racing meetings?

A. Casually.

Q. I know you are a resident near Tanforan and Bay Meadows, and what would you say the average number of times was that you attended the race meeting at those two tracks during the season?

A. Two or three during the season.

Q. In other words, is the committee to assume, Mr Roth, that you are not particularly interested in the matter of racing thoroughbreds?

A. I am not."

The Saliva Test and the Proclivity Case.

In view of the powers vested in your committee by the resolution appointing said committee, and in view of the above statement of the application of the rules promulgated by the California Horse Racing Board, your committee investigated the rules of the board with particular reference to their application in the handling of the so-called "Proclivity Case", which case was referred to in the resolution creating this committee.

The rules of racing provide in Rule 146D, Paragraph 4, thereof, for the administration of a saliva test, which rule we quote:

> "Equipment as prescribed by the California Horse Racing Board for the administration of saliva test will be required at all meetings All horses will be subject to this, or any other test, ordered by the stewards, either before or after the race, or both, as prescribed in Rule 38. Should the examination prove positive, and the test show the presence of a prohibited drug or chemical, owner and trainer of the horse shall be ruled off for life."

On January 1, 1937, the horse "Proclivity", owned by Mr. Norman W. Church, ran in and won the fourth race of the day. After the race a saliva specimen was taken from "Proclivity", and on January 8th, Mr. W C. Buchanan, secretary of the board, received the chemist's report and on January 9, 1937, Mr. Carleton F. Burke, the Chairman of the State Racing Board, and Mr. Buchanan presented it to the board of stewards of the Santa Anita Track

At that time, Mr. Burke told the stewards that he was leaving the matter in their hands The chemist s report showed that the saliva test reacted positively to the presence of an alkaloid and that the alkaloid *"resembled strychnine"*.

The committee questioned the stewards, Mr. J. K. Macomber, William A Quigley and Roy Carruthers, all of whom testified that they accepted and acted upon the chemist's report. Apparently the stewards acted under Rule 146D, Paragraph 4, which rule is quoted above, although in testifying, none of the stewards would definitely state under what rule they had acted However, they did state that they recognized Mr. E L Fitzgerald as the official trainer of Mr. Church's Stables, and on January 15, 1937, issued an order of suspension against Mr Fitzgerald A letter from the board of stewards to the California Horse Racing Board reporting on the suspension stated that they had followed this particular rule, therefore, they must have acted under the last paragraph of Rule 146D.

During the questioning of the stewards, there was considerable difference of opinion among them as to what rule they followed in this suspension of Mr. Fitzgerald, the trainer for Mr. Church, and they sought to justify their act of suspension by reference to other rules providing for the punishment for the use of prohibited drugs, but Rule 146D is the only rule providing for the punishment after a positive saliva test.

Your committee would like to call your attention to the fact that Rule 146D states very definitely that should a saliva test be positive *"and the test show the presence of a prohibitive drug or chemical, owner and trainer of the horse shall be ruled off for life"*.

In hearings held before the board of stewards on January 15th and January 16th, at which hearings Mr Fitzgerald, Mr Church, Mr. Greene, the chemist who made the test, and Dr. Beckman were present, the chemist testified that his test had not definitely identified the drug, and therefore the test was not sufficient, under the rule, to convict At these hearings and also in his testimony given before the committee, we find the chemist, Mr. Greene, refused to swear that a "prohibited drug" was present and upon the witness stand, under oath, he could not identify the drug any more than that the alkaloid "resembled strychnine" He based his finding upon the fact that the alkaloid bore certain characteristics of strychnine such as a "bitter taste", and that the "color resembled strychnine" but none of the confirming tests could definitely identify the alkaloid, and no crystals were developed.

Mr. E. J. Brown, the president of the National Association of Racing Commissioners and the chairman of the Washington Horse Racing Commission, testified on this particular subject as follows:

> "Well, as Mr. Burch testified yesterday, and as Dr. Wallamer, the chief chemist for the Federal Bureau of Narcotics has testified before us, and also Dr. Morgan and also our own chemist, the color reaction may come from a narcotic or from an alkaloid, or it may not. It is not conclusive proof that the horse has been stimulated Each of these alkaloids, heroin, cocaine, caffeine, under a microscope and on a slide, give you a definite crystal, just like

the pictures you have seen of snow crystals, each one is definite and each one can be recognized Strychnine is one of the easiest drugs to identify by crystal."

Question. "And if the chemist should tell you that he got a positive reaction as to the presence of alkaloid but did not find any crystals, and the color resembled strychnine, would that be under your rules a finding sufficient to meet the requirements of the rule?"

Answer "It is not so considered in my State It may be and it may not be. The chemist simply will not testify that a horse has been stimulated on a color reaction."

We would like to call your attention to the fact that Rule 146D, quoted above, also provides as a punishment for the violation of the rule "that owner and trainer shall be ruled off for life"

The meeting on January 16th, ostensibly adjourned at ten minutes to twelve with a definite understanding between the stewards and Mr. Church and Mr. Fitzgerald that nothing further would be done with the case and that the entire matter would be kept quiet until the following Tuesday. Directly contrary to this understanding, when Mr. Church returned to the races that afternoon to watch one of his horses run, he was informed that his trainer, Mr. Fitzgerald, had been suspended and he would not be permitted to run his horses unless he saw fit to appoint another trainer. There is much conflict in the testimony of each member of the board of stewards, and the typist who drew the order of suspension, as to what took place between the time when Mr Church and Mr. Fitzgerald left the board of stewards meeting at ten minutes to twelve with the assurance that nothing would be done until the following Tuesday, and the time that Mr. Church was told that he could not run his horse that afternoon unless he appointed another trainer The stewards themselves do not agree upon when their decision was arrived at, and when the order of suspension was prepared and signed. The fact that the board of stewards by midafternoon took a course entirely different from the one they had adopted at noon, very strongly suggests an intervening factor which this committee was unable to discover.

On the twenty-first day of January, just four days later, Mr. Church appeared before a meeting of the board of stewards with his counsel, Mr. T. B. Cosgrove of Cosgrove and O'Neill, and Dr. A. O. Beckman, head of the Chemistry Department of the California Institute of Technology. Dr. Beckman informed the board of stewards, that, according to the best authorities in the world in the field of chemistry, a positive reaction showing a presence of alkaloids could be produced by a horse eating any number of weeds common to the State of California, the presence of which weed is not unusual in California hay; also that some of these weeds show the same color reaction as strychnine. Mr Church, at this meeting, offered to produce at his own expense, the head of the Chemistry Department of the University of California, and the head of the Chemistry Department of the University of Stanford, and offered to donate $25,000 to the Community Chest if these other outstanding chemists did not corroborate Dr. Beckman's statements. He was unable to get a response to Dr. Beckman's testimony or to his offer.

In view of the foregoing, your committee finds that the board of stewards did not properly interpret Rule 146D since the evidence was not conclusive as to the existence or presence of "a prohibited drug". Furthermore, if a prohibited drug had been found after the positive saliva test, then, in addition to suspending Mr. Fitzgerald, the trainer, the board of stewards should have suspended Mr. Church, the owner.

We would like also to call your attention to Rule 26 of the Rules of Racing

> "The stewards may suspend for no greater period than the duration of the meeting, anyone whom they have authority to supervise, or they may fine, not exceeding $200. All such suspensions and fines must be reported to the California Horse Racing Board If the punishment so imposed is not in the opinion of the stewards sufficient, they shall so report to the board, but under no circumstances is a punishment inflicted on any one track to be extended to another without specific sanction from the board. The board may independently punish any misconduct of any person connected with racing."

In addition to our findings under Rule 146D, it seems apparent from Rule 26 that the board of stewards had no authority to rule anyone off for lite, and since that is the only penalty specified where a positive saliva test was found, and the test showed the existence of a prohibited drug, it would follow that the board of stewards had no jurisdiction in this case and that the matter from the time of the delivery of the chemist's report to the board secretary, should have been handled by the State Racing Board. Our finding in this matter is based upon Rule 25 which provides that if the board of stewards can not determine the matter within three days, the matter shall be referred to the California Horse Racing Board and certainly their action did not take place within this limited time, since the order

of suspension for an offense alleged to have been committed on January 1st, was not reported to the State Racing Board until January 22d.

On January 26th, Mr. Carroll, another trainer for Mr. Church, was called before the board of stewards, and testified that he was actually in charge of the Church Stables on January 1st, and that Mr. Fitzgerald was away on account of illness; following which, on the twenty-seventh day of January, the stewards signed an order finding Mr. Fitzgerald blameless in the matter and reinstating him. Subsequently, Mr. Carroll was indefinitely suspended pending further investigation. Again your committee calls your attention to the fact that a period of 27 days had elapsed between the alleged offense and final action by the board of stewards, and your committee finds that since the board of stewards could not make their decision within the limited time specified in Rule 25, the matter should have been immediately referred to the California Horse Racing Board.

In view of the testimony presented before your commitee, it would seem that the board of stewards being advised of Mr. Fitzgerald's illness, which apparently some of the stewards knew of on January 1st, and which they must have determined from their own investigation since they reinstated him, your committee feels that Mr. Fitzgerald should at no time have been held responsible, and that this order of reinstatement should really have been an order of cancellation and recision of the order of suspension.

We feel that the unwarranted suspension of Mr. Fitzgerald was a very serious error and under the circumstance a blot on his record, as section 146E reads as follows:

> "Every person ruled off the course of a recognized association is ruled off wherever these rules have force"

Therefore, the suspension of Mr. Fitzgerald would be considered as a first offense upon every race track in the United States, and upon the conviction of a second offense, he can be ruled off for life unless the first suspension is canceled and rescinded.

Your committee also finds that the board of stewards, for the reasons heretofore given, had no authority or power to suspend Trainer Carroll.

Testimony of Nationally Known Horse Trainers.

Your committee called the following witnesses to testify upon a comparison of the rules of racing as adopted by the California Horse Racing Board, as applied to horse racing in California, and some rules in effect in other States:

E. J. Fitzgerald and T. J. Carroll, trainers for the Northway Stables; E. J. Brown, president of the National Association of Racing Commissioners; Preston M. Burch, president of the American Trainers' Association; Trainers A. H. Stotler, Vanderbilt Stables; R. McGarvey, Milky Way Stables; John A. Healey, Whitney Stables; B. A. Jones, Woolford Farms; Anthony Pelleteri, M. L. Emerich Stables; J. J. Flanigan, Valdina Farms; D. A. Gannon, Major Austin Taylor Stables; B. B. Williams, W. H. Furst Stables; and E. L. Snyder, Tranquility Farms.

This comparison was confined almost exclusively to a comparison of rules governing saliva tests. The conclusion was general among all trainers that no other State had a similar rule and that no other State had a rule which provided for the ruling off of owner and trainer without any alternative. These trainers all represent the leading stables of the United States and all agreed that had they known of the system of the saliva test rule in California and of its severe punishment, without any alternative punishment, that they would not have raced their horses in California. All of these trainers have been engaged in the profession of training race horses and racing them for a period of from 20 to 35 years, both in the North American Continent and in parts of foreign countries. These trainers all recommended to your committee that changes should be made in the saliva test rule, and also recommended that the owner or trainer should be protected by being permitted to have a specimen of the saliva with which to conduct his own chemical analysis.

Receiving Barn.

The trainers referred to above and other witnesses were questioned as to the use of the receiving barn and the effect of its use for the purpose of preventing the doping of horses. It developed that the receiving barn is an innovation in racing which is used only in California.

The horses are delivered by their trainer or handler to the receiving barn one hour prior to post time where they are in charge of the trainer or handler representing the racing stable. Horses are examined as to the condition of their shoes and plates, and the handler is permitted to exercise them during the wait between the time when they are delivered to the receiving barn and when they are taken to the paddock. The witnesses who represented the racing authorities in California felt that the use of the receiving barn was for the benefit of racing, whereas, the trainers felt that a horse was placed at a disadvantage in that he was removed from natural surroundings and was allowed to become nervous and fretful.

There was considerable conflict of opinion as to whether or not the use of the receiving barn prevented doping of horses and some trainers testified that even with

the receiving barn, a horse might be doped and through the regulation of the dose, the drug would not become effective until the actual running of the race.

In view of the fact that there was so much difference of opinion in this particular subject, your committee does not desire at this time to make any recommendation.

Complaint of California Horse Breeders.

While your committee was engaged upon its work in Los Angeles, numerous breeders of thoroughbred racing horses in California approached the committee and insisted upon testifying as to their experiences in the management of the Santa Anita Track and the interpretation of the California Horse Racing Law by the California Horse Racing Board, as such interpretations affected their business of breeding thoroughbred horses. The following witnesses appeared before the committee to register complaints:

Charles E Cooper, Harry T. Palmer and J D. Shyrock. Mr Palmer and Mr. Shyrock were particularly incensed against the Horse Racing Board because of its failure to take steps favorable to the encouragement of breeding of thoroughbred horses in California. They testified that it was impossible to obtain stable room at the race tracks in this State and that the manager of the Santa Anita Track definitely informed them that they would not be provided with stable room because their horses were not of sufficient high quality to be raced upon the Santa Anita course. Mr. Palmer testified that he had made numerous efforts to secure the assistance of Chairman Carleton F. Burke of the Horse Racing Board, for the purpose of racing his stable, but that he had received no cooperation, and in fact was discouraged in every way

Mr. Cooper testified that he felt the California Horse Racing Board and the various racing associations were not providing a sufficient number of races in the various meets for California horse breeders, and that the effect of this situation was to discourage the breeding of horses of better quality to compete with eastern horse breeders.

All of these owners and breeders were uniform in their opinion that more consideration should be given to this particular problem by the Racing Board and by the management of the various tracks. Mr. Shyrock has asked your committee to hold a further hearing upon this question so that he could present evidence against the board In this respect, Mr. Desmond announced that numerous breeders in northern California had expressed to him a desire to be heard before the committee and expressed the opinion that apparently the smaller California breeders are not in sympathy with the way the Horse Racing Board is conducting racing from the standpoint of the breeders of our State

We feel that in view of the fact that the people of California passed the Horse Racing Act primarily for the purpose of encouraging breeding and the stimulation of agricultural pursuits, that the Racing Board and everyone connected with horse racing in this State should do everything possible to encourage the California breeder so that he may improve the quality of his horses and be able to compete for the better purses thereby furnishing him sufficient income to meet the expense of improved breeding Some of the greatest thoroughbreds of history have been bred in California, and your committee feels that with proper encouragement, California, because of its climatic and favorable breeding conditions, can become the leading State for breeding of thoroughbred horses.

This opinion was verified by the trainers who appeared before your committee, and particularly Mr Walter Brown the president of the National Racing Board and chairman of the Horse Racing Commission of the State of Washington, who spoke in glowing terms of the advantage of California as a breeding State

With reference to the above matter, your committee has received the following communication from the California Horse Racing Board, which communication we quote in part, in which the board reports upon the progress made in the breeding of thoroughbred horses in the State of California, and shows the success of California-bred horses in the winning of purses at racing meets:

"*Hon. Rodney L Turner, Chairman,*
Public Morals Committee on Rules of Racing,
Sacramento, California.

DEAR MR TURNER: Complying with your request for a statement from this board concerning what has been done to encourage breeding in this State, I will first quote from our Second Biennial Report covering the two-year period to December 1st, 1936:

> The board feels that racing in California has been firmly established on a plane second to no other State. In addition to the direct revenue derived, the benefits to the breeding industry and agriculture have been great, as evidenced by the ready market at greatly increased prices for the produce of our breeding establishments and farms. The provisions of the Racing Act that 3 per cent of the first money of every purse won by a horse bred in the State of California shall be paid to the breeder of such animal, and that there shall be at least one race

each day limited to horses foaled in California, are being strictly complied with, and in addition there has been established at Tanforan a $5000 added stake for California-breds, and a similar stake at Bay Meadows, and two $10,000 stakes for California-breds at Santa Anita. These stakes have created unusual interest and have developed a good market for California-bred horses eligible to participate. They will continue to grow in value from year to year and will undoubtedly develop into outstanding events in California racing. It should be borne in mind that California-bred and California-owned horses are eligible to enter any race run on a California track in addition to these special events limited to California-breds. It is felt that the racing program of this State offers inducements to California breeders greater than any other State in the country. The records show that for the fiscal year ending June 30, 1936, 490 of the races run were won by California-bred horses on California tracks, and for the first six months of the present fiscal year California-bred horses have won 320 races."

A further statement shows purse and stakes distribution for the period covered by that report as follows:

Bay Meadows	$ 643,505 00
Santa Anita	1,250,600 00
Tanforan	515,408 48
Fairs	274,608 62
Total	$2,684,122 10"

During that period over 1,000 races were won by California-bred horses on California tracks, and a major part of all the money distributed went to western owners.

The magnitude upon which the sport is being conducted in this State really offers the greatest incentive and encouragement to California breeders—creating new converts to the sport and a desire on the part of established breeders to improve the class of their stock. Many high-class proven stallions and mares are being brought into the State, some by breeders who realize they must improve their produce and others who are engaging in the industry purely as a sport. The records of the New York Jockey Club show that in 1933, the year racing was legalized in this State, 59 California breeders registered foals, while in 1936 there were 210.

Before racing was legalized there was actually no cash market for thoroughbred horses, the best bred horses selling for a few hundred dollars—to be paid out of possible winnings. At the present time there is a ready cash market for good yearlings, reports indicating that prices from $2,000 to $10,000 are not uncommon. This applies especially to eligibles for the large California-bred stakes. Additional stakes for California-breds are planned for the future.

I will add in closing that the great progress made in racing in this State was under the rules of racing adopted by this board, which were under discussion at your recent committee hearing, and that since racing was legalized and conducted under this board's administration and supervision there has been no scandal connected with the sport as conducted in California.

All of which is respectfully submitted.

Very truly yours,

W. C. BUCHANAN, Secretary."

Changes Made in the Rules of Racing as the Result of the Hearings of Your Committee.

When the committee opened its hearings, the rules of the Racing Board, relative to the taking of saliva tests, was neither definite nor certain. In other words, it was left entirely to the official at the racing meet to determine as to how many races, or from what horses, they were to make the saliva tests. Under this system, out of a total number of races per day, various horses were selected from two, three, or four races, from which saliva specimens were taken. As a result of the evidence produced before this committee, a new rule was adopted by the California Horse Racing Board providing that "a saliva sample shall be taken from the winner of each race, except races exclusively for two year olds".

It has come to the attention of this committee that since the adjournment of its hearings, and as a result of the testimony relative to the administering of prohibited drugs to horses, that the racing board has amended its Rule 146D, and released the stringency of its provisions. This rule, as set forth above, provided that any person administering a drug, etc., to a horse, shall be ruled off, thus leaving no alternative as to what punishment had to be meted out to one violating its provisions.

The amendment to this rule now provides that "every person so offending, may be suspended or ruled off".

The committee has no official information from the Racing Board that this amendment has in fact been adopted, but publicity to that effect has appeared in the papers.

Conclusion.

Your committee has indulged in the foregoing detail believing that the Legislature should be fully informed as to the conditions that were disclosed by the various witnesses that appeared before it. However, the committee does not feel that it should make any recommendation at this time relative to any changes in the law under which the Racing Board functions, with the exception that the committee feels that it should be made mandatory that where saliva tests are taken, the owner of the horse, or his representative, should be furnished with a part of the specimen, both for the protection of the owner and trainer, and the racing public.

There are now pending before the Governor proceedings in which the removal of two members of the board is sought. No one can foretell the result of this hearing. The racing board has informed your committee of its willingness to at least consult with its members as to changes to be made in the board's Rules of Racing. If the personnel of the board is not changed, or if the board does not change its rules and regulations to eliminate the objectionable features herein mentioned within a reasonable length of time, your committee will introduce bills drawn to supply the deficiencies now existing at the present time in the present rules

Since the completion of the foregoing part of this report, the board, on March 6, 1937, issued and there was published in the Los Angeles newspapers of Sunday, March 7th, a statement by the board, in part, as follows:

> "After reviewing all the reports and records in connection with the positive saliva test on the horse "Proclivity," winner of the fourth race at Santa Anita, January 1, 1937, the California Horse Racing Board has approved the action taken by the stewards of the meeting and has continued in force the suspension of Thomas J Carroll, trainer, pending completion of the investigation being conducted by this board."

The race was run January 1st. The board received its chemist's report January 8th. The board took no action on the case until March 6th, on which date the above quoted was taken

Your committee believes that this case should have been determined finally by the board long before March 6th, and that unless the board has diligently pursued its investigation of this case and has some additional material evidence justifying the delay, its seeming inaction until March 6th and its action on that date appear to your committee to be entirely unwarranted.

Your committee suggests to the California Horse Racing Board that the rules of racing be amended so as to require action in such cases within a specified, reasonable time.

Your committee held hearings in Los Angeles only and in view of the fact that only those portions of the rules as outlined herein were studied, your committee does not feel that a thorough investigation of the purposes for which it was appointed has been made. No study has been made of the general rules, regulations, customs and practices of horse racing in the State of California Your committee, informed as it is on the subject matter of our investigation, feels that if the Assembly will make a reasonable appropriation so that the committee can continue its investigation, the results therefrom would inure to the benefit of the State of California.

As a matter of fact, considerable pressure has been brought to bear upon the committee by horse breeders of this State who did not have an opportunity to appear before the committee, and we respectfully recommend to the Assembly of the State of California that necessary provisions be made in this session to continue the effective operation of your committee.

While at Santa Anita a brief study was made of the pari-mutuel wagering system, and we would like additional information upon this subject so that recommendations could be made in the matter of the handling of the finances of the various racing associations of the State.

In view of the fact that the California Horse Racing Board has seen fit to make certain changes in their rules when defects in the rules were called to their attention, we feel that a thorough study of these rules by your committee would result in additional changes which would be beneficial to everyone interested and to the welfare of horse racing in the State of California.

Dated: April 6, 1937.

RODNEY L. TURNER, Chairman.
EARL D. DESMOND.

Assembly Resolution.

WHEREAS, Great publicity has been given in the press and over the radio to a story involving the alleged doping of a horse named Proclivity belonging to the Northway Stables owned by Norman W Church, and

WHEREAS, The alleged doping and race which has been questioned took place at the Santa Anita Track on January 1, 1937; and

1. That the use to which it is to be applied is a use authorized by law;

2. 3. If already appropriated to some public use, that the public use to which it is to be applied is a more necessary public use; provided, that where such property has been so appropriated by any individual, firm or private corporation the use thereof for a public street or highway of the State, a county, city and county, or any incorporated city or town, or joint highway district, or the use thereof by the State, a county, city and county, or any incorporated city or town, or joint highway district, or a municipal water district or an irrigation district, a public utility district, metropolitan water district, municipal utility district or a water district for the same purposes to which it has been appropriated or for any public purpose, shall be deemed a more necessary use than the public use to which such property has been already appropriated; and provided, further, that property of any character, whether already appropriated to public use or not, including all rights of any nature in water, owned by any person, firm or private corporation may be taken by a county, city and county, or any incorporated city or town or by a municipal water district, or an irrigation district, a public utility district, metropolitan water district, municipal utility district or a water district, for the purpose of supplying water, or electricity for power, lighting or heating purposes to such county, city and county, or incorporated city or town, or municipal water district, or an irrigation district, a public utility district, metropolitan water district, municipal utility district or a water district, or the inhabitants thereof, or for the purpose of supplying any other public utility, or for any other public use. And such taking may be made, either to furnish a separate and distinct supply of such water, and such electricity for power, lighting or heating purposes, or to provide for any such separate and distinct other public utility or other public use; to furnish such a supply or provide for any such other public utility or other public use in conjunction with any other supply or with any other public utility or other public use that may have been theretofore provided for or that may thereafter be provided for in so supplying or providing for such county, city and county, or incorporated city or town, or municipal water district or an irrigation district, a public utility district, metropolitan water district, municipal utility district, or a water district, or the inhabitants thereof; or in conjunction with any other supply or with any other public utility or other public use that may have been theretofore determined upon or that may thereafter be determined upon in accordance with law by the people of any such county, city and county, incorporated city or town or municipal water district or an irrigation district, a public utility district, metropolitan water district, municipal utility district or a water district. Nothing herein contained shall be construed as in any way limiting such rights as may be given by any other law of this State to counties, cities and counties, incorporated cities or towns or municipal water districts or irrigation districts, public utility districts, metropolitan water districts, municipal utility districts or water districts.

But private property appropriated to the use of any county, city and county, incorporated city or town, or municipal water district, or irrigation district, or public utility district, metropolitan water district, municipal utility district or water district, may not be taken by any other county, city and county, incorporated city or town, or municipal district, or irrigation district, or public utility district, metropolitan water district, municipal utility district, or water district, while such property is so appropriated and used for the public purposes for which it has been so appropriated."

The commissioner shall without previous notice make an examination, audit or investigation of the affairs, business, and records of each licensee at least once each year, and may make such an examination, audit or investigation oftener if the commissioner has received any complaint or complaints against the licensee to be examined, or if the commissioner has reason to believe that such licensee is violating any of the provisions of this act or the rules and regulations established thereunder by the commissioner.

If any such examination, audit or investigation discloses that the licensee examined has violated any of the provisions of this act or the rules and regulations established thereunder by the commissioner, the commissioner may charge and collect for any such examination, audit or investigation, the actual amount of salary or other compensation paid to the person or persons making such examination, audit or investigation, plus the actual amount of expense reasonably incurred in connection therewith. If the cost of any such examination, audit or investigation is not paid by the licensee within 30 days after receipt from the commissioner of a statement of such cost, together with a statement showing the violation or violations disclosed by such examination, audit or investigation, the commissioner may maintain an action for the recovery thereof in any court of competent jurisdiction.

SEC. 15. Section 18 of said act is hereby amended to read as follows:

Sec. 18. Any personal property broker licensed under this act may charge, contract for, collect and receive on any loan of $500 or less, or on the first $500 of any loan in excess of that amount, such charges as may be agreed upon in writing between the parties as compensation for the use of the amount borrowed and as compensation for services rendered and expenses incurred by the personal property broker or any other person in connection with the loan and incident to transacting the business of arranging, negotiating, procuring, making and collecting loans, and for losses on loans not collected. Such charges may be included in the face amount of the note, and a schedule of approximately equal installment payments may be agreed upon, but the maximum charges agreed upon shall not exceed the following:

1. A charge as full compensation for services rendered in taking the application, in ascertaining and establishing the identity of the applicant, investigating the character, reputation, employment, financial responsibility, credit rating and other circumstances of the applicant any co-makers or indorsers, in inspecting, listing and appraising any security offered, in examining the title thereto and searching public records for liens and encumbrances thereon, in preparing the note and the other instruments in connection therewith, and in arranging, negotiating, procuring, closing, and making the loan. Such charge which shall not exceed 10 per cent of the amount loaned and/or advanced to or for the borrower, shall be considered as fully earned when the loan is made, but shall not be received or collected on any renewal loan made within 12 months from the date of any existing loan to the same borrower, unless such renewal loan is for an amount in excess of the unpaid balance on the existing loan, in which event such charge may be received and collected on such excess amount at the same rate.

2. A monthly charge for interest, and as full compensation for services rendered and expenses incurred in receiving, receipting for, crediting, allocating and recording payments on the loan, for keeping records pertaining thereto, and for overhead incident to transacting the business of a personal property broker, and for losses on loans not collected. Such combined monthly charge shall not exceed 1 per cent of the amount loaned and/or advanced to or for the borrower for each month during which approximately equal installments are contracted to be paid, and at the same rate on any sum not paid when due, but such charge shall not be deducted from the amount loaned and/or advanced to or for the borrower. If the loan is paid in full at any time before maturity, the borrower shall receive a refund or rebate of the unearned portion of such monthly charge computed for each full month from date of such full payment to date of maturity.

No charge of any kind shall be collected or received unless a loan is made. No husband and wife or any other borrower or borrowers shall be induced or permitted to split up or divide any loan or loans or to become obligated under more than one contract of loan at the same time, if the effect of so doing will result in higher charges than would otherwise be permitted under this section. No broker shall collect or receive at any time from or at the expense of any borrower as brokerage or otherwise on or in connection with any loan of $500 or less, any amount or consideration which when combined with that paid or to be paid to the lender by or at the expense of the borrower, will make the total cost of the loan to the borrower more than the maximum charges permitted under this section. If any licensee shall collect or receive any charges in excess of those permitted by this section, the contract of loan shall be void and no person shall have any right to collect or receive any principal or charges whatsoever thereon. Nothing herein shall be construed to deny any licensee the right to charge the statutory fees of any public officer for acknowledging, filing, recording and releasing in any public

office any instrument, securing the loan or in connection therewith, insurance premiums on agreed hazards in connection with the loan, and expenses (including attorney's fees and costs) incurred after default in the payment of any amount due or after the breach of any agreement between the borrower and the licensee.

SEC. 16. Section 20 of said act is hereby amended to read as follows:

SEC. 20. The commissioner shall charge and collect the following fees:

1. For investigating an original application for license as a personal property broker or broker, $100.

2. For any license as a personal property broker, $100.

3. For any license as a broker, $50, except in cities with a population of 25,000 or less, in which the license shall be, $25

4 For a duplicate of any license lost, stolen or destroyed, $10.

SEC. 17. Section 21 of said act is hereby amended to read as follows:

Sec. 21. Any person who, either directly as principal or indirectly as agent, employee, manager, fiduciary, representative, or in any other capacity, shall violate any of the provisions of either section 5 or 18, shall be guilty of a misdemeanor, punishable by imprisonment in a county jail for not less than three months and not exceeding twelve months, or by a fine of not less than $250 and not exceeding $1,000, or by both.

SEC 18. Section 23 of said act is hereby amended to read as follows:

Sec 23 (a) Any personal property broker or broker, as herein defined, having a license in effect under Chapter 634, Statutes of 1909, as amended, shall notwithstanding this amendment thereto be deemed to have a license as a personal property broker or broker for the calendar year 1937 only to operate as such personal property broker or broker at the particular location specified in such license; provided that such license may be suspended or revoked for cause in the manner and on the grounds specified herein. Such licensees, however, shall be required forthwith to apply for and secure licenses for additional locations, if any are being operated, in accordance with this act as amended.

(b) All acts and parts of acts, whether general, special or local, which in whole or in part relate to the same subject matter as this act, are hereby repealed in so far as inconsistent with the provisions of this act."

The tax shall be paid at the time and in the manner hereinafter provided and shall be in addition to any and all other taxes.

SEC. 4. In any case where tangible personal property is sold at wholesale under a contract made prior to the effective date of this act, which specifies and fixes the sale price and such sale is taxable under this act, the seller may add the tax imposed by this act to the sale price and collect it from the buyer.

SEC. 5. There are hereby specifically exempted from the provisions of this act and from the computation of the amount of tax levied, assessed or payable under this act the following:

The tax by this act imposed upon those sales of motor vehicle fuel which are subject to tax and refund under the "Motor Vehicle Fuel License Act" shall be collected by the State Controller by way of deduction from refunds otherwise allowable under said act. The amount of such deductions, he shall transfer from the motor vehicle fuel fund to the wholesale sales tax fund.

This section is hereby declared to be separable and distinct from all other portions of this act, and shall not be deemed a consideration or inducement for the enactment of the whole or any portion of this act. If this section be for any reason declared invalid, the remainder of this act shall remain in full force and effect and shall be as completely operative as though this section had not been included herein.

SEC. 7. It shall be unlawful for any wholesaler to advertise or hold out or state to the public or to any customer, directly or indirectly, that the tax or any part thereof imposed by this act will be assumed or absorbed by him or that it will

not be added to the selling price of the property sold, or if added that it or any part thereof will be refunded. Any person violating any of the provisions of this section shall be guilty of a misdemeanor.

SEC. 8. The tax hereby imposed shall be collected by the wholesaler from the purchaser in so far as the same can be done. This section is hereby declared to be separable and distinct from all other portions of this act, and shall not be deemed a consideration or inducement for the enactment of the whole or any portion of this act. If this section be for any reason declared invalid, the remainder of this act shall remain in full force and effect and shall be as completely operative as though this section had not been included herein.

SEC. 9. The tax levied hereunder shall be a direct obligation of the wholesaler and shall be due and payable in monthly installments on or before the tenth day of the month next succeeding each monthly period, the first of such monthly periods being the period commencing with August 1, 1937, and ending on August 31, 1937. The wholesaler shall on or before the tenth day of the month following the close of the first monthly period as above defined, and on or before the tenth day of the month following each subsequent monthly period, make out a return for the preceding monthly period in such form as may be prescribed by the board showing the gross receipts of the wholesaler, the amount of the tax for the period covered by such return and such information as the board may deem necessary for the proper administration of this act. The wholesaler shall deliver the return together with a remittance of the amount of the tax due to the office of the board. The board, if it deems it necessary in order to insure the payment of the tax imposed by this act, may require returns and payment of the tax to be made for other than monthly periods. Returns shall be signed by the wholesaler or his duly authorized agent but need not be verified by oath. Any wholesaler having cash and credit sales may report the same separately and upon making application therefor may obtain from the board an extension of time for the payment of taxes due on such credit sales. Any such extension shall be granted by the board pursuant to such rules and regulations as the board may from time to time prescribe. When any such extension is granted the wholesaler shall thereafter include in each monthly return as a separate item all collections made during the monthly period covered by the return from sales made on credit prior to said monthly period and shall pay the tax due on such collections in the same manner as though said collections resulted from a sale made in said monthly period. A sale on credit is deemed to include any and all conditional sales, lease contracts, and other deferred payment transactions.

SEC. 10. The board for good cause may extend for not to exceed 30 days the time for making any return required under the provisions of this act.

SEC. 11. The board, whenever it deems it necessary to insure compliance with the provisions of this act, may require any person subject to the tax imposed hereunder to deposit with it such security as the board may determine. The same may be sold by the board at public sale if it becomes necessary so to do in order to recover any tax, interest or penalty due. Notice of such sale may be served upon the person who deposited such securities personally or by mail; if by mail, service shall be made in the manner prescribed by section 1013 of the Code of Civil Procedure and addressed to the person at his address as the same appears in the records of the board. Upon any such sale, the surplus, if any, above the amounts due under this act shall be returned to the person who deposited the security.

SEC. 12. Thirty days after the effective date of this act, it shall be unlawful for any person to engage in or transact business as a wholesaler within this State, unless a permit or permits shall have been issued to him as hereinafter prescribed. Every person desiring to engage in or conduct business as a wholesaler within this State shall file with the board an application for a permit or permits. Every application for such a permit shall be made upon a form prescribed by the board and shall set forth the name under which the applicant transacts or intends to transact business, the location of the place or places of business, and such other information as the board may require. The application shall be signed by the owner if a natural person; in the case of an association or partnership, by a member or partner thereof; in the case of a corporation, by an executive officer thereof or some person specifically authorized by the corporation to sign the application, to which shall be attached the written evidence of his authority. Any person who engages in the business of selling tangible personal property at wholesale in this State without a permit or permits or after a permit has been suspended, and the officers of any corporation which shall so sell, shall be guilty of a misdemeanor.

SEC. 13. At the time of making such application, the applicant shall pay to the board a permit fee of one dollar for each permit, and the applicant must have a permit for each place of business.

SEC. 14. Upon the payment of the permit fee or fees herein required, the board shall grant and issue to each applicant a permit for each place of business within the State. A permit is not assignable and shall be valid only for the person in whose name it is issued and for the transaction of business at the place designated therein. It shall at all times be conspicuously displayed at the place for which issued.

SEC. 15. Permits issued under the provisions of this act shall be valid and effective without further payment of fees until suspended or revoked by the board.

The board shall charge a fee of one dollar for the renewal or issuance of a permit to a wholesaler whose permit has been previously suspended or revoked

SEC. 16. Whenever the holder of a permit fails to comply with any of the provisions of this act or any rules or regulations of the board prescribed and adopted under this act, the board upon hearing after giving ten days notice in writing of the time and place of the hearing to show cause why his permit should not be revoked, may revoke or suspend the permit.

SEC. 17. The burden of proving that a sale of tangible personal property was not a sale at wholesale shall be upon the person who made it. For the purpose of the proper administration of this act and to prevent evasion of the tax hereby imposed it shall be presumed that all gross receipts are subject to the tax hereby imposed until the contrary is established. If the board is not satisfied with the return and payment of tax made by any wholesaler, it is hereby authorized and empowered to make an additional assessment of tax due from such wholesaler based upon the facts contained in the return or upon any information within its possession or that shall come into its possession. The board shall give to the wholesaler written notice of such additional assessment, together with written notice of the time and place where the wholesaler may be heard on a petition by him for reassessment. Such notice may be served upon the wholesaler personally or by mail; if by mail, service shall be made in the manner prescribed by section 1013 of the Code of Civil Procedure and addressed to the wholesaler at his address as the same appears in the records of the board.

SEC. 18. If a wholesaler neglects or refuses to make a return and payment as required by this act, the board shall make an estimate based upon any information in its possession or that may come into its possession, of the amount of the gross receipts of the delinquent for the period in respect to which he failed to make return and payment, and upon the basis of said estimated amount compute and assess the tax payable by the delinquent, adding to the sum thus arrived at a penalty equal to 10 per cent thereof. Promptly thereafter the board shall give to the delinquent written notice of such estimate, tax and penalty, the notice to be served personally or by mail in the same manner as prescribed for service of notice by the provisions of section 17 hereof. But the delinquent shall have the right to petition for reassessment of any such tax found, determined and declared by the board pursuant to and in accordance with the provisions of this section.

SEC. 19 Any tax assessed by the board under the provisions of sections 17 and 18 hereof, together with the penalty if any there be, shall be due and payable from the wholesaler to the board 15 days after the service upon the wholesaler of notice of the assessment of such tax.

SEC 20. Any wholesaler against whom an additional assessment is made by the board under the provisions of section 17 hereof, may petition for a reassessment thereof. Notice of intention to file such a petition or to appear and be heard shall be given by the wholesaler to the board prior to the time the additional assessment becomes due and payable. A petition for such a reassessment may be filed with the board on or before the date designated in the notice of such additional assessment as the time when the wholesaler may be heard on a petition by him for reassessment. Each such hearing shall be held at the time and place designated in such notice to the wholesaler, but the board shall have power to continue the same from time to time as may be necessary. Each such petition filed with the board shall set forth specifically and in detail the grounds upon which it is claimed the assessment is erroneous. If no petition for reassessment is filed with the board the wholesaler may nevertheless appear at the hearing and present his objections orally.

None of the provisions of this section shall be construed to accord to any wholesaler the right to petition for reassessment in a case of neglect or refusal upon his part to make a return within the time prescribed by this act or by the board under authority of this act.

SEC. 21. Except in the case of a fraudulent return, or neglect or refusal to make a return, every notice of additional tax proposed to be assessed hereunder shall be mailed to the wholesaler within two years after the return was filed.

SEC. 22. All taxes not paid to the board by the wholesaler on the date when the same become due and payable, shall bear interest in the rate of 12 per cent per annum from and after such date until paid.

SEC 23. If, in the opinion of the board, a tax has been computed in a manner contrary to law or has been erroneously computed by reason of a clerical mistake on the part of the board, such fact shall be set forth in the records of the board and the amount of the overpayment shall be credited on any taxes then due from the wholesaler under this act and the balance shall be refunded to the wholesaler or his successors, administrators, executors or assigns.

If any tax, penalty or interest has been paid more than once, or has been erroneously or illegally collected, or has been erroneously or illegally computed, the board shall certify to the State Board of Control the amount collected in excess

of what was legally due, from whom it was collected, or by whom paid, and if approved by that board the same shall be credited on any taxes then due from the wholesaler under this act and the balance shall be refunded to the wholesaler, but no such credit or refund shall be allowed unless duplicate copies of a claim for refund are filed within six months from the date of overpayment

Every claim for refund must be in writing under oath and must state the specific grounds upon which the claim is founded

Any refund or any portion thereof which is erroneously made and any credit or any portion thereof which is erroneously allowed, may be recovered in an action brought by the Controller of the State in a court of competent jurisdiction in the county of Sacramento in the name of the people of the State of California and such action shall be tried in the county of Sacramento unless the court with the consent of the Attorney General, orders a change of place of trial. The Attorney General must prosecute such action, and the provisions of the Code of Civil Procedure relating to service of summons, pleadings, proofs, trials and appeals are applicable to the proceedings herein provided for

In the event that a tax has been illegally levied against a wholesaler the board shall certify such fact to the State Board of Control and said board shall authorize the cancellation of the tax upon the records of the board.

SEC. 24. If fraud or evasion on the part of a wholesaler is discovered by the board, it shall determine the amount by which the State has been defrauded, shall add to the amount so determined a penalty equal to 25 per cent thereof, and shall assess the same against the wholesaler. The amount so assessed shall be immediately due and payable.

SEC 25. The board shall report to the Controller every assessment made under this act, and he shall keep a record thereof.

SEC 26 In any case in which any tax, interest or penalty imposed under this act is not paid when due the board may file for record in the recorder's office of any county a notice of lien specifying the amount of the tax, interest or penalty due and the name of the wholesaler liable for the same. From the time of filing any such notice the amount of the tax specified in such notice shall have the force and effect of the lien of a judgment against the wholesaler named in said notice of lien for the amount specified in such notice. Such lien may be released by filing for record in the office of the county recorder of a release thereof executed by the board upon payment of the tax, interest and penalties or upon receipt by the board of security sufficient to secure payment thereof, but no such release shall be deemed a waiver of any tax, interest or penalty levied or assessed under this act and due and payable or to become due and payable by such wholesaler

If any wholesaler liable for a tax levied hereunder shall sell out his business or stock of goods or shall quit the business, he shall make a final return within 15 days after the date of selling or quitting business. His successor, if any, shall be required to withhold sufficient of the purchase money to cover the amount of such taxes and interest or penalties due and unpaid until such time as the former owner shall produce a receipt from the board showing that they have been paid, or a certificate stating that no taxes are due. If the purchaser of a business or stock of goods shall fail to withhold purchase money as above provided, he shall be personally liable for the payment of the taxes, interest and penalties accrued and unpaid on account of the operation of the business by the former owner.

In the event that any wholesaler is delinquent in the payment of the tax herein provided for the board may give notice of the amount of such delinquency by registered mail to all persons having in their possession, or under their control, any credits or other personal property belonging to such wholesaler or owing any debts to which such wholesaler at the time of receipt by them of such notice and thereafter any person not notified shall neither transfer nor make any other disposition of such credits, other personal property, or debts until the board shall have consented to a transfer or disposition, or until 20 days shall have elapsed from and after the receipt of such notice. All persons so notified must, within five days after receipt of such notice, advise the board of any and all such credits, other personal property or debts, in their possession, under their control or owing by them, as the case may be

At any time within three years after any wholesaler is delinquent in the payment of the tax herein provided for, the board may proceed forthwith to collect the tax due from the wholesaler in the following manner: The board shall seize any property, real or personal, of the wholesaler not exempt from execution under the provisions of section 690 of the Code of Civil Procedure, and thereafter sell at public auction such property so seized, or a sufficient portion thereof, to pay the tax due hereunder, together with any interest or penalties imposed hereby for such delinquency, and any and all costs that may have been incurred on account of such seizure and sale. Notice of such intended sale and the time and place thereof, shall be given to such delinquent wholesaler in writing at least ten days before the date set for such sale by inclosing such notice in an envelope addressed to such wholesaler at his last known residence or place of business in this State, if any, and depositing the same in the United States mail, postage prepaid, and by publi-

cation for at least ten days before the date set for such sale in a newspaper of general circulation published in the county or city and county in which the property seized is to be sold; provided, that if there be no newspaper of general circulation in such county or city and county, then by the posting of such notice in three public places in such county or city and county ten days prior to the date set for such sale. The said notice shall contain a description of the property to be sold, together with a statement of the amount of taxes, interest, penalties and costs, the name of the retailer, and the further statement that unless such taxes, interest and penalties and costs are paid on or before the time fixed in said notice for such sale, said property, or so much thereof as may be necessary, will be sold in accordance with law and said notice.

At any such sale, the property shall be sold by the board in accordance with law and said notice, and the board shall deliver to the purchaser a bill of sale for the personal property, and a deed for any real property so sold, and such bill of sale or deed shall vest the interest or title of the wholesaler in the purchaser. The unsold portion of any property so seized may be left at the place of sale at the risk of the retailer. If upon any such sale, the moneys so received shall exceed the amount of all taxes, interest, penalties and costs due to the State from such wholesaler, any such excess shall be returned to the wholesaler, and his receipt therefor obtained; provided, however, that if any person having an interest or lien upon the property has filed with the board prior to any such sale notice of such interest or lien the board shall withhold any such excess pending a determination of the rights of the respective parties thereto by a court of competent jurisdiction. If, for any reason, the receipt of such wholesaler shall not be available, the board shall deposit such excess moneys with the State Treasurer, as trustee for such owner, subject to the order of such wholesaler, his heirs, successors or assigns.

It is expressly provided that the foregoing remedies of the State shall be cumulative and that no action taken by the board or Attorney General shall be construed to be an election on the part of the State or any of its officers to pursue any remedy hereunder to the exclusion of any other remedy for which provision is made in this act.

SEC. 27. Every wholesaler shall keep such records, receipts, invoices and other pertinent papers in such form as the board may require.

The board or any person authorized in writing by it is hereby authorized to examine the books, papers, records and equipment and to investigate the character of the business of any wholesaler in order to verify the accuracy of any return made, or if no return was made by such wholesaler, to ascertain and assess the tax imposed by this act. The board is hereby charged with the enforcement of the provisions of this act and is hereby authorized and empowered to prescribe, adopt and enforce rules and regulations relating to the administration and enforcement of the provisions of this act in the collection of taxes, penalties and interest imposed by this act, and to that end may appoint, exempt from the provisions of the Civil Service Act, such accountants, auditors, investigators and assistants as it may deem necessary to enforce its powers and perform its duties under this act.

SEC. 28 It shall be unlawful for the board, or any person having an administrative duty under this act to divulge or to make known in any manner whatever, the business affairs, operations, or information obtained by an investigation of records and equipment of any wholesaler visited or examined in the discharge of official duty, or the amount or source of income, profits, losses, expenditures or any particular thereof, set forth or disclosed in any return, or to permit any return or copy thereof or any book containing any abstract or particulars thereof to be seen or examined by any person except as provided by law provided, however, that the Governor may authorize examination of such returns by other State officers, by tax officers of another State, or the Federal Government, if a reciprocal arrangement exists, and any other persons the Governor may so authorize.

Any violations of the provisions of this section shall be a misdemeanor and be punished by a fine not exceeding $1,000, or by imprisonment not exceeding one year, or both, at the discretion of the court.

SEC. 29. All fees, taxes, interest and penalties imposed under this act must be paid to the board in the form of remittances payable to the Treasurer of the State of California, and said board shall transmit such payments daily to the State Treasurer to be deposited in the State treasury to the credit of the "Wholesale sales tax fund," which fund is hereby created.

For expenditure by the board in carrying out the provisions of this act there is hereby appropriated a sum of money equal to $100,000 plus the amount of permit fees paid hereunder and 2 per cent, or so much thereof as may be necessary, of all other moneys deposited in the wholesale sales tax fund; said $100,000 being payable out of moneys in the general fund not otherwise appropriated, the remainder of the moneys hereby appropriated being payable out of the wholesale sales tax fund; provided, that, out of said 2 per cent of said other moneys deposited in the wholesale sales tax fund and on or before June 30, 1939, the sum of $100,000 shall be returned into the general fund. For expenditure by the Controller in carrying

The balance of the moneys in the wholesale sales tax fund shall, upon order of the State Controller, be drawn therefrom for the purpose of refunding to the wholesalers hereunder or be transferred to the general fund of the State.

SEC. 30. At any time within two years after the delinquency of any tax, the board may bring an action in a court of competent jurisdiction in the name of the people of the State of California to collect the amount delinquent, together with penalties. The Attorney General must prosecute such action, and the provisions of the Code of Civil Procedure relating to service of summons, pleadings, proofs, trials, and appeals are applicable to the proceedings herein provided for. In such action a writ of attachment may issue, and no bond or affidavit previous to the issuing of said attachment is required. In such action a certificate by the board showing the delinquency shall be prima facie evidence of the levy of the tax, of the delinquency and of compliance by the board with all the provisions of this act in relation to the computation and levy of the tax.

SEC. 31. No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action or proceeding in any court against this State or against any officer thereof to prevent or enjoin under this act the collection of any tax sought to be collected; but after payment of any such tax under protest, duly verified and setting forth the grounds of objection to the legality of such tax, the wholesaler paying such tax may bring an action against the State Treasurer in a court of competent jurisdiction in the county of Sacramento for the recovery of tax so paid under protest. No such action may be instituted more than 60 days after the tax becomes due and payable, and failure to bring suit within said 60 days shall constitute waiver of any and all demands against this State on account of alleged overpayment of taxes hereunder. No grounds of illegality of the tax shall be considered by the court other than those set forth in the protest filed at the time of the payment of the tax.

If in any such action judgment is rendered for the plaintiff, the amount of the judgment shall first be credited on any taxes due from the plaintiff under this act, and the balance of the judgment shall be refunded to the plaintiff. In any such judgment, interest shall be allowed at the rate of 6 per cent per annum upon the amount of tax found to have been illegally collected from the date of payment of such tax to the date of allowance of credit on account of such judgment or to a date preceding the date of the refund warrant by not more than 30 days, such date to be determined by the Controller.

In no case shall any judgment be rendered in favor of the plaintiff in any action brought against the State Treasurer to recover any tax paid hereunder, when such action is brought by or in the name of an assignee of the wholesaler paying said tax, or by any person other than the person who has paid such tax.

SEC. 32. Any wholesaler failing or refusing to furnish any return hereby required to be made, or failing or refusing to furnish a supplemental return or other data required by the board, or rendering a false or fraudulent return, shall be guilty of a misdemeanor and subject to a fine of not exceeding $500 for each such offense.

Any person required to make, render, sign or verify any report as aforesaid, who makes any false or fraudulent return, with intent to defeat or evade the assessment required by law to be made, shall be guilty of a misdemeanor, and shall for each such offense be fined not less than $300 and not more than $5,000 or be imprisoned not exceeding one year in the county jail or be subject to both said fine and imprisonment in the discretion of the court.

He may also investigate and ascertain for what period of time, and upon what conditions, any franchise granted to or held by any corporation issuing any such bonds or securities will remain in force, and any other facts or conditions bearing upon the value or sufficiency of such bonds. The Superintendent of Banks may accept and act upon the opinions and appraisements of any attorneys, engineers or appraisers which may be presented by such person or corporation, so applying, and the reports of any of the executive officers of the corporation issuing such bonds or securities, on any question of fact concerning or affecting such bonds or securities, the security thereof, the franchise conditions herein mentioned, or the financial condition of the corporation issuing the same. At the time when any person, district, or corporation presents for investigation or certification any issue of bonds or securities, such person, district or corporation shall pay to the Superintendent of Banks a fee in such amount as may be fixed by the Superintendent of Banks, which fee shall be delivered to the Treasurer of the State, who shall deposit the same to the credit of the State banking fund. The Superintendent of Banks shall keep an official list of all bonds and securities certified by him.

No provision of this act, and no act or deed, done or performed under or in connection therewith, and no finding made or certificate issued under any provision thereof, shall be held or construed to obligate the State of California to pay, or be liable for the payment of, or to guarantee in any manner whatsoever, the regularity or the validity of the issuance of any stock or bond certificate, or bond, note, or other evidence of indebtedness certified under any provision of this act, by the Superintendent of Banks.

Any individual, firm, association, bank, trust company, stock company, copartnership or corporation who shall advertise any securities in violation of the provisions of this paragraph shall be guilty of a misdemeanor and shall be punishable by a fine not exceeding $1,000 or by imprisonment in a county jail not exceeding one year or by both such fine and imprisonment."
