REPORT OF SELECT COMMITTEE.

The following report was received and read:

MR SPEAKER: Your Select Committee appointed to prepare a suitable tribute in honor of the late Henry Meade Bland, Poet Laureate of California, respectfully presents the following report and acknowledges with gratitude the assistance of Mr. Roland Fred Eberhart, a close friend of Dr. Bland, in the preparation of the tribute.

WRIGHT, Committee.

A TRIBUTE TO THE MEMORY OF THE POET LAUREATE.
HENRY MEADE BLAND

(April 21, 1863—April 29, 1931)

A worshiper at Nature's shrine was he;
The name of "Friend of Man" he carried well;
No dismal thoughts his poet soul could quell.
He loved the tender flower, the wind-blown tree,
The quiet-singing stream, the sounding sea;
The rugged mountain peak, the hidden dell;
The haunts of shade, where Souls of Silence dwell,—
Calm places where the lives of men are free!

He listened to the still, small voice of God,
His poet-heart was filled with symphonies of rhyme,
And tho' his foot was treading on the clod,
He sang sweet lyrics of our sunny clime.
The paths of Duty he has bravely trod,
And kept his gaze upon the stars sublime!

Henry Meade Bland, quiet-voiced and gentle friend of man, patient and sympathetic instructor of youth, and the inspired Poet Laureate of California, has

passed from mortality into immortality. His life was simple, sincere, and upright, and these characteristics were reflected in his poetry. In his mission as a teacher, he aroused the love of the beautiful, and an appreciation of our wonderful West. His love for his native State was voiced in his "California, A Song of the Ultimate West," when he sang·

Long had you waited by the sun-down sea,
O fields beloved! As with a fair design,
You waited for my coming; and, in glee,
I walked by streams, and saw them foam and shine.

I saw your slopes afire, a mystery
Of poppies wild, heard your coyote whine,
And cry disconsolate; a devotee
Of song, I heard your honker croon his line:

You gave the Mother-Lode to hold in fee,
And tossed your nuggets as a joyous sign.
Your hills were stormed for gold. Unto my plea,
The rugged vales you gave, fields rimmed with pine,
Where lark and lyric quail in strains engage
Sweeter than e'er sung in sylvan oread-age.

Not only was Doctor Bland one of California's great poets; he was internationally representative of the poetic art. He was ranked in "The Poetry Review" of London, with the leading contemporary poets In a critical comment, the "Review" said his poetry contained "true beauty and mystic music," and that our poet was "steeped in poetry, with an instinctive love and wise understanding of humanity and nature, which he was able to express in beautiful, tender verse." Such was the poetry he wrote when he penned:

THE DIVINE IN NATURE.

On Shasta's brow the thunder sleeps;
But, with the lightning's burning rod
That burns o'er Lassen's piny steeps,
A voice comes from the mountain deeps
"Be still and know that I am God!"

O'er Yuba's plain the Northwind raves,
And withers herb and blackens sod;
But, in the wild lake's roaring waves,
Is heard as from a thousand caves:
"Be still and know that I am God!"

By nature he was a potential poet. He never lost sight of this literary ideal. He claimed personal friendship, not only with every important California *man of* letters, but with writers and poets in other states, and in England For thirty-two years he taught Creative English at the State Normal School, and the State College at San Jose, and always poetry was a hand-helper in his classroom.

The poet was a true Californian, and as such, he painted vivid pictures of his State, from the snowy crests of the Sierras, past old ranchos, down through the orchards and meadows, to the sands of the Pacific. In "Hills and Sea," we find charm and description in these lines·

"Saint Francis Bay is calm and deep
And to the east the foot hills sleep—
Hills that are wrapped in starry mist,
Which folds away when faintly kissed
By roseate red of morning sun;
And when the Shepherd's task is done,
And flocks lie sheltered beneath the trees,
He turns to scan the bay, and sees
The gleaming prow, the whitened sail,
And far away all gray and pale
The Mission towers looming high
Into the realm of cloud and sky."

His love for our State was not circumscribed by any narrow sectional feeling for north or south, as is shown in his "San Diego-By-The Sea":

"Serene within thy sun-girt glory,
In truth thou art supreme;
For, as thy naiad airs recount thy story,
I pause; and dream, and dream!

Here by this murmuring purple sea,
Truly I could, I deem,
With all the gracious lilt of melody
Sing the Immortal Theme!"

In bronze should be graven these words to:

THE PIONEER.

With a sigh for the unknown land fevering his brain,
With a pulse as strong as the engine beat on the rail;
With muscle like blue steel hewn for a ship of the main,
He crossed the Divide, he mastered the wild trail.
No flood of the dark Missouri, no white-hot plain,
Could stay the soul of his yearning, could wreck his dream.
No mountain storm in its fury, no savage train
Could daunt or defeat! he followed the flying Gleam

He conquered Men knew his glory, and followed his sign.
They swarmed, and followed till Earth was full of the tale.
He rose as a hero looms on a battle line.
When the roads are ruts and the whistling balls a gale.
So was he hardened, heightened, and given his might
To build the State and lift the law for light.

In closing, it is especially fitting that we should quote the words of the Laureate-Poet's friend of many years, the distinguished Edwin Markham:

"With the passing of Henry Meade Bland, I mourn a tried and true friend of over forty years. California loses an ardent son and lover who has long celebrated her history and beauty, an ever zealous citizen, eager for her honor and happiness.

Her schools especially will miss an efficient and inspiring worker and leader. Doctor Bland, a lover and exponent of poetry, has been tireless in his efforts to awaken in the far west a true appreciation of this ancient and honorable art, a nobly critical and creative activity. His fine spirit is felt in hundreds of schools and communities. Our love and thanks follow him into this next chamber of life's mystery."

The laurel wreath, literally bestowed by loving friends and an appreciative people, rests no longer upon his head. Can any words be more appropriate than his beautiful

"FAREWELL.

If in the flow of after years
Your heart should chance revert to me,
Let not your dear eyes fill with tears.
But smile or hum a melody,
And say: 'He strove with all his might
Unto the task he had to do;
And, failing, took the next in sight:
Unfalt'ring lived a long life through.'"

EXPLANATION OF VOTE.

The following explanation of vote was received and ordered printed in the Journal:

I voted to withdraw Assembly Bill No. 351 from committee, because there is a great division of opinion among the people of the State of California, as to the effect of the operation of the eighteenth amendment, and because the people are entitled to have submitted to them, the question of whether or not they favor the repeal, or the modification, of the eighteenth amendment.

I believe the question is of such vital State and national importance, that I have no moral right, as a member of the Legislature, to prevent the people from exercising their constitutional right of expressing their opinions at the polls.

MESSAGE FROM THE GOVERNOR.

The following message from the Governor was taken up and read:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, April 24, 1931.

Hon. Edgar C. Levey,
Assembly Office, Sacramento, California.

DEAR SPEAKER LEVEY: Attached hereto is a letter dated April 18, 1931, received from his excellency, Wm. H. Murray, governor of Oklahoma, relative to a report of the Oil States Advisory Committee, which is self explanatory.

I request that this be referred to the Committee on Oil.

With best wishes,

Very sincerely yours,

JAMES ROLPH, JR., Governor.

STATE OF OKLAHOMA, EXECUTIVE CHAMBER,
OKLAHOMA CITY, April 18, 1931.

Hon. James Rolph, Jr.,
Sacramento, California.

DEAR GOVERNOR: I have received the report of the Oil States Advisory Committee as drafted in St. Louis on April 15th. It meets with my approval, and I believe the public officers of Oklahoma will see that this recommendation relative to allowable production is observed in this state, provided, it is likewise observed in Texas and the other oil producing areas.

There is no doubt that the independent producers are now in a distressed condition. Among the causes of this distress are the following:

(*a*) Excessive accumulations of crude oil in storage above the ground,

(*b*) Potential production far in excess of demand, and over

(*c*) The assured continuance of this excess potential over a long period of time.

The report of the Oil States Advisory Committee recommends an allowable in Texas of approximately 714,000 barrels, in Oklahoma 550,000 barrels, in California 500,000 barrels and corresponding figures in the other states.

This report in my opinion should be approved by the governors and made effective by the conservation agencies for the following reasons:

(*a*) It recognizes the evils arising out of excessive storage and contemplates removal of those evils.

(*b*) It provides a practical method for dealing with the problem of excessive potential production and of keeping this excess in its natural ground storage until the demand justifies its withdrawal.

(*c*) It recognizes the intimate relation betweeen domestic and foreign production and prescribes a reasonable formula which will doubtless appeal to importers.

(*d*) If strictly complied with it will insure a ready market for all the allowable production and will remove the menace of distress crude.

(*e*) It involves a correlation of the activities of the conservation bodies of the various states, contemplates harmonious action in oil producing areas; recognizes that control of the situation rests with the producing states and that the potential is one to be settled by them in the interest of their natural resources, their taxable revenues and their entire citizenship.

(*f*) If this program is made effective by the several states it will in my opinion create stability of production and will insure a fair price for the independent producer.

We may anticipate opposition to this program from some of the small producers who have not thought the problem through, and likewise from some of the major companies who wish to fill up their empty storage with cheap crude at the expense of the oil producing states. This opposition can only be met by the states acting in their sovereign capacities, and it is my earnest hope that the report referred to will be accepted by the several states and vigorously enforced.

Your truly,

WM. H. MURRAY, Governor.

Referred to Committee on Oil Industries.

By Mr. Speaker:

RIVERSIDE COUNTY FARM BUREAU,
RIVERSIDE, CALIFORNIA, May 5, 1931.

Clerk of the Assembly, State Legislature,
Sacramento, California.

DEAR SIR: I am enclosing herewith a copy of a resolution which was adopted at the regular monthly meeting of the board of directors of the Riverside County Farm Bureau today.

Very truly yours,

JOAN COMPERE.

RESOLUTION.

WHEREAS, Section 2653 of the Political Code of the State of California provides that the board of supervisors of the various counties of the State must annually levy a property highway tax not to exceed 40 cents on each $100 of assessable property, the proceeds of such tax to go into the various road funds; and

WHEREAS, This tax must be paid entirely by the owners of farming land, and not by the owners of property located in cities, it is manifestly unfair and unjust to the rural population, especially so when the roads thus provided for are used more by city people, than by the farmers; and it is also unjust for other reasons, namely:

That the city communities are more benefited financially by reason of good highways than the farmers, because without good roads leading into the cities they would not grow and prosper;

That city and county property are taxed just the same for all other county purposes and the additional 40 cents upon country property is an antiquated system, adopted in pioneer days of the country, but now no longer necessary;

That the government of this nation recognizes the tax burden that is now upon the rural districts and is endeavoring in every way to bring about some relief;

That many of the states have abolished all special road taxes and in place of such direct taxation are diverting the money received from the so-called gasoline taxes for the road funds;

That Riverside County received from the State for the year of 1929, from the so-called gasoline taxes, the sum of $246,896.35. The farmers, as well as every other tax payer, contributed to this fund. That fund, which is rapidly increasing each year, augmented by withdrawals from the general fund of the county, can and will take care of all county road building and the cost will be borne by every taxpayer;

If the county roads are built out of the gasoline tax, and the road tax is eliminated in every county in the State, each county would only have about 25 per cent less money to spend on roads at the present returns from the gasoline tax. At the rate it has increased in the past, within a very short time the revenue will be as great as it is now;

That it is imperative that some relief from the present excessive taxation upon the farmers be obtained and this can be helped materially by a repeal of the section of the State law hereinbefore referred to providing for said road tax; therefore, be it

Resolved, That the members of the Riverside County Farm Bureau do most respectfully petition the members of the California State Legislature to repeal section 2653 of the Political Code of the State of California and to pass all necessary legislation that will hereafter prevent the farmers from being taxed in excess of any other class of taxpayers; and be it further

Resolved, That copies of this resolution be forwarded to the Clerk of the Senate and of the Assembly at Sacramento, to State Senator Nelson T. Edwards, and Assemblyman Chester M. Kline.

PETER T. CARTER, President,
Riverside County Farm Bureau.

The foregoing resolution was duly and regularly adopted at a meeting of the Riverside County Farm Bureau board of directors held on the fifth day of May, 1931.

JOAN COMPERE, Secretary,
Riverside County Farm Bureau.

Assembly Concurrent Resolution No. 41 ordered transmitted to the Senate.

ASSEMBLY CONCURRENT RESOLUTION No 41.

Relative to expressing an intention on the part of the State Legislature against the reduction of salaries of employees.

WHEREAS, The world is now in the throes of an economic depression which has resulted in the unemployment of millions and the infliction of dire hardships upon many more millions of their dependents; and

WHEREAS, California, in company with others of the United States, has suffered from the effects of this economic crisis, although to a lesser extent; and

WHEREAS, The country as a whole and California in particular is now beginning to emerge from the chaos caused by the crash in economic values and the cessation of production in many lines of business; and

WHEREAS, Many business organizations have sought to adjust their circumstances to the depressed conditions by reducing the salaries of their employees; and

WHEREAS, Such practices have augmented, rather than aided, these depressed conditions, by decreasing the purchasing power of these countless employees with a consequent lowering of their standards of living, and thus created a vicious circle; and

WHEREAS, The members of the Legislature of the State of California believe that only through the maintenance of present wage levels and standards of living can the consuming power of the citizens of this State be maintained and production and business, in consequence thereof, return to a normal basis; now, therefore, be it

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California go on record as being firmly opposed to any such reductions in the wages and salaries of State employees, and be it further

Resolved, That the Legislature of the State of California recommends that present compensation levels among all State employees be maintained or adjusted without reduction until this body again convenes in 1933, and be it further

Resolved, That copies of this resolution be sent to the executive heads of all State departments, bureaus and commissions.

MOTION.

Mr. Patterson moved that the Sergeant-at-Arms be authorized to furnish luncheon for the members of the Committee on Ways and Means, who will be in session during noon hour, and that expense for same be drawn from the Contingent Expense Fund of the Assembly.

Motion carried.

PRESENTATION OF PETITIONS.

The following petition was presented, and ordered printed in the Journal:

By Mr. Kline:

RESOLUTION.

WHEREAS, Section 2653 of the Political Code of the State of California provides that the board of supervisors of the various counties of the State must annually levy a property highway tax not to exceed 40 cents on each $100 of assessable property, the proceeds of such tax to go into the various road funds; and

WHEREAS, This tax must be paid entirely by the owners of farming land, and not by the owners of property located in cities, it is manifestly unfair and unjust to the

rural population, especially so when the roads thus provided for are used more by city people, than by the farmers; and it is also unjust for other reasons, namely:

That the city communities are more benefited financially by reason of good highways than the farmers, because without good roads leading into the cities they would not grow and prosper;

That city and county property are taxed just the same for all other county purposes and the additional 40 cents upon country property is an antiquated system, adopted in pioneer days of the country, but now no longer necessary;

That the government of this nation recognizes the tax burden that is now upon the rural districts and is endeavoring in every way to bring about some relief;

That many of the states have abolished all special road taxes and in place of such direct taxation are diverting the money received from the so-called gasoline taxes for the road funds;

That Riverside County received from the State for the year of 1929, from the so-called gasoline taxes the sum of $246,896 35. The farmers, as well as every other taxpayer, contributed to this fund. That fund which is rapidly increasing each year, augmented by withdrawals from the general fund of the county, can and will take care of all county road building and the cost will be borne by every taxpayer;

If the county roads are built out of the gasoline tax, and the road tax is eliminated, in every county in the State, each county would only have about 25 per cent less money to spend on roads at the present returns from the gasoline tax. At the rate it has increased in the past, within a very short time the revenue will be as great as it is now;

That it is imperative that some relief from the present excessive taxation upon the farmers be obtained and this can be helped materially by a repeal of the section of the State law hereinbefore referred to providing for said road tax; therefore, be it

Resolved, That the members of the Riverside County Farm Bureau do most respectfully petition the members of the California State Legislature to repeal section No. 2653 of the Political Code of the State of California and to pass all necessary legislation that will hereafter prevent the farmers from being taxed in excess of any other class of taxpayers; and be it further

Resolved, That copies of this resolution be forwarded to the Clerk of the Senate and of the Assembly at Sacramento, to State Senator Nelson T Edwards, and Assemblyman Chester M. Kline.

PETER T. CARTER, President,
Riverside County Farm Bureau.

The foregoing resolution was duly and regularly adopted at a meeting of the Riverside County Farm Bureau board of directors held on the fifth day of May, 1931.

JOAN COMPERE, Secretary.
Riverside County Farm Bureau.

By Mr. Speaker:

SAN FRANCISCO CHAMBER OF COMMERCE,
May 8th, 1931.

Hon. Edgar C. Levey,
Speaker of the Assembly, State of California.
Sacramento, California.

MY DEAR MR. LEVEY: Pursuant to instructions of the board of directors of the San Francisco Chamber of Commerce at its meeting yesterday, I am enclosing herewith certified copy of resolution on Senate Constitutional Amendment No. 26. Copies of this resolution are being forwarded today to Governor Rolph and to the Lieutenant Governor.

With my kind regards, I am

Very sincerely yours,

GEORGE J. PRESLEY, Executive Vice President.

RESOLUTION

WHEREAS, Senate Constitutional Amendment No 26 has been offered in an effort to determine the policy of the State on water conservation and to provide for carrying out various projects in connection therewith; and

WHEREAS, This amendment deals with a subject matter which demands a wise and early solution; and

WHEREAS, Constitutional Amendment No. 26 has many objectionable features incorporated therein which would doubtless lead to its defeat if submitted to popular vote, and thus cause a delay in the settlement of the serious water problems of the State; and

WHEREAS, The Legislature is apparently without sufficient information to revise this amendment and to shape it into a form which would be satisfactory to the people of the State within the limited life remaining to the present legislative session; now, therefore, be it

Resolved, That it be suggested to the Legislature of the State of California that the Legislature authorize and provide for the appointment of a legislative committee to give this matter further study and consideration, with the definite objective of recommending such a constitutional amendment and such legislative acts as may be designed to afford a satisfactory solution of these water problems; and be it further

Resolved, That if such a legislative committee be appointed it is also suggested that a special session of the Legislature be called for the single purpose of considering the report of such a legislative committee and of submitting such constitutional amendments and passing such laws concerned with water conservation at such a

special session as may seem desirable and necessary and likely to receive the support of the people of the State of California; and be it further

Resolved, That this legislative committee, in connection with its further consideration of this problem, be empowered to make appropriate enquiries as to the support which may be expected from the federal government for any projects which may be proposed relating to water conservation and to enquire further as to the possibilities of securing contracts for the sale of water or power in connection with such projects; and be it further

Resolved, That it is our judgment such an extra session should be called only after such a report from such a legislative committee has been prepared, but that it should be called in proper time to insure the submission to the people of the State of California at the next general election of any constitutional amendment which may be so proposed.

Let copies herewith be forwarded to the Governor and Lieutenant Governor of the State of California and to the Speaker of the Assembly.

State of California, }
City and County of San Francisco } ss.

I, M. A. Hogan, the duly elected and acting secretary of the San Francisco Chamber of Commerce, do hereby certify that the foregoing is a true and correct copy of a resolution adopted by the board of directors of the San Francisco Chamber of Commerce at its regular meeting held Thursday, May 7, 1931.

[SEAL] M. A. HOGAN, Secretary.

If additional territory including unincorporated territory and one or more incorporated cities, cities and counties, or towns, or including more than one incorporated city, city and county, or town, is proposed to be annexed to any consolidated city and county now existing or which shall hereafter be organized, the consent of each such incorporated city, city and county, or town, shall be obtained by a majority vote of the qualified electors of any such incorporated city, city and county, or town, voting upon a proposal substantially as follows:

"Shall (herein insert name of the city, city and county, or town, to be included in such annexed territory) be included in a district to be hereafter defined by the city and county of (herein insert the name of the city and county initiating the

annexation proposal) which district shall within two years from the date of this election vote upon a proposal submitted as one indivisible question, that such district to be then described and set forth shall consolidate with (herein insert name of the city and county initiating the annexation proposal) in a consolidated city and county government, and that such district become subject to taxation, along with the entire territory of the proposed city and county in accordance with the assessable valuation of the property of said district for the following indebtedness of said city and county of (herein insert name of the city and county initiating the annexation proposal) to wit: (herein insert in general terms, reference to any debts to be assumed and if none insert 'none')?"

Any and all incorporated cities, cities and counties, or towns, to which the foregoing proposal shall have been submitted, and a majority of whose qualified electors voting thereon shall have voted in favor thereof, together with such unincorporated territory as the city and county initiating such annexation proposal may desire to have included, the whole to form an area contiguous to said city and county, shall be created into a district by said city and county, and the proposal substantially in the form above set forth to be used when the territory proposed to be added consists wholly of only one incorporated city, city and county, or town, or wholly of unincorporated territory, shall, within said two years, be submitted to the voters of said entire district as one indivisible question.

Upon consent to any such annexation being given by a majority of the qualified electors voting thereon in any county or counties in which any such territory proposed to be annexed to said city and county is located, and upon the approval of any such annexation proposal by a majority of the qualified electors voting thereon in such city and county proposing such annexation, and also upon the approval of the proposal hereinbefore set forth by a majority of the qualified electors voting thereon in the whole of the district so proposed to be annexed, then, the said indebtedness referred to in said proposal shall be deemed to have been assumed, and upon the date stated in such annexation proposal such district and such city and county shall be and become one consolidated city and county, to be governed by the charter of the city and county proposing such annexation, and any subsequent amendment thereto.

Whenever any proposal is submitted to the electors of any county, territory, district, city, city and county, or town, as above provided, there shall be published, for at least five successive publications, in a newspaper of general circulation printed and published in any such county, territory, district, city, city and county, or town, the last publication to be not less than 20 days prior to any such election, a particular description of any territory or district to be separated, added, or annexed together with a particular description of any debts to be assumed, as above referred to, unless such particular description is contained in the said proposal so submitted In addition to said description, such territory shall also be designated in such notice by some appropriate name or other words of identifications, by which such territory may be referred to and indicated upon the ballots to be used at any election at which the question of annexation or consolidation of additional territory is submitted as herein provided. If there be no such newspaper so printed and published in any such county, territory, district, city, city and county, or town, then such publication may be made in any newspaper of general circulation printed and published in the nearest county, city, city and county, or town where there may be such a newspaper so printed and published

If, by the adoption of any charter, or by annexation, any incorporated municipality becomes a portion of a city and county, its property, debts and liabilities of every description shall be and become the property, debts and liabilities of such city and county.

Every city and county which shall be formed, or the territory of which shall be enlarged as herein provided from territory taken from any county or counties, shall be liable for a just proportion of the debts and liabilities and be entitled to a just proportion of the property and assets of such county or counties, existing at the time such territory is so taken.

The provisions of this constitution applicable to cities, and cities and counties, and also those applicable to counties, so far as not inconsistent or prohibited to cities, or cities and counties, shall be applicable to such consolidated city and county government; and no provision of subdivision V or VI of this section shall be construed as a restriction upon the plenary authority of any city or city and county having a freeholders' charter, as provided for in this constitution, to determine in said charter any and all matters elsewhere in this constitution authorized and not inconsistent herewith

The Legislature shall provide for the formation of one or more counties from the portion or portions of a county or counties remaining after the formation of or annexation to a consolidated city and county, or for the transfer of such portion or portions of such original county or counties to adjoining counties. But such transfer to an adjoining county shall only be made after approval by a majority vote of the qualified electors voting thereon in such territory proposed to be so transferred.

The provisions of section 2 of this article, and also those provisions of section 3 of this article which refer to the passing of any county line within five miles of the exterior boundary of a city or town in which a county seat of any county proposed to be divided is situated, and to the reducing of the population of any county upon the establishment of a new county, and to the minimum population on the forming of a new county, shall not apply to the formation of, nor to the extension of the territory of such consolidated cities and counties, nor to the formation of new counties, nor to the annexation of existing counties, as herein specified.

Any city and county formed under this section shall have the right, if it so desires, to be designated by the official name of the city initiating the consolidation as it existed immediately prior to its adoption of a charter providing for a consolidated city and county government, except that such city and county shall be known under the style of a city and county.

It shall be competent in any charter framed for a consolidated city and county, or by amendment thereof, to provide for the establishment of a borough system of government for the whole or any part of the territory of said city and county, by which one or more districts may be created therein, which districts shall be known as boroughs and which shall exercise such municipal powers as may be granted thereto by such charter, and for the organization, regulation, government and jurisdiction of such boroughs; *provided*, that in the event of such establishment or creation of a borough or boroughs, as hereinabove permitted, the boundaries thereof shall never afterwards be changed or altered, nor shall the governmental rights, powers or jurisdiction of any such borough or boroughs be thereafter limited, extended, modified or taken away, unless and until the borough or boroughs affected by such proposed change or alteration of boundaries, or by the proposed limitation, extension, modification or taking away of governmental rights, powers or jurisdiction, as the case may be, shall each have consented thereto, by the vote of a majority of the voters in each and every such borough, voting at an election or elections called and held for such purpose in each of the boroughs so affected.

No property in any territory hereafter consolidated with or annexed to any city or city and county shall be taxed for the payment of any indebtedness of such city or city and county outstanding at the date of such consolidation or annexation and for the payment of which the property in such territory was not, prior to such consolidation or annexation, subject to such taxation, unless there shall have been submitted to the qualified electors of such territory the proposition regarding the assumption of indebtedness as hereinbefore set forth and the same shall have been approved by a majority of such electors voting thereon.

7. In all cases of annexation of unincorporated territory to an incorporated city, or the consolidation of two or more incorporated cities, assumption of existing bonded indebtedness by such unincorporated territory or by either of the cities so consolidating may be made by a majority vote of the qualified electors voting thereon in the territory or city which shall assume an existing bonded indebtedness. This provision shall apply whether annexation or consolidation is effected under this section or any other section of this constitution, and the provisions of section 18 of this article shall not be a prohibition thereof.

The Legislature shall enact such general laws as may be necessary to carry out the provisions of this section and such general or special laws as may be necessary to carry out the provisions of subdivisions V and VI of this section, including any such general or special act as may be necessary to permit a consolidated city and county to submit a new charter or charter amendment to take effect at the time that any consolidation, by reason of annexation to such consolidated city and county, takes effect, and, also, any such general law or special act as may be necessary to provide for any period after such consolidation, by reason of such annexation, takes effect, and prior to the adoption and approval of any such new charter or charter amendment.

LONG BEACH, CALIFORNIA, May 11, 1931.

Capitol Building, Sacramento, California.

The city of Long Beach, as the largest single land, oil and gas royalty owner in the Signal Hill oil field, respectfully urges your support on Senate Bills Nos. 362 and 363. These bills important to stabilization of oil industry and employment.

By Mr. Jespersen:

Interview on the Oil Situation as Requested by Mr. Robert Smith, Executive Director of the Independent Petroleum Association of California.

Uncertainty as to potential laws regarding the production and control of crude petroleum is the biggest problem now confronting the oil industry and leaves that industry in doubt as to the best methods to pursue to adjust the present chaotic conditions, it was declared today by A T. Jergins, president of the Independent Petroleum Association of California.

"The national situation in Congress is at a standstill until the next session," said Mr. Jergins; "however, there is hope that remedial legislation will be passed then We worked for such legislation before Congress adjourned and we will renew the fight when it convenes in December. In the meantime we will not be idle, but will try to muster enough support to win a protective tariff.

At present every man and woman of even ordinary intelligence can visualize the situation. Practically without warning the price of crude oil, which is fixed solely by the major companies through their control of refineries, pipe lines and distribution, has been arbitrarily slashed in half. This is in spite of the fact that every assurance had been given California producers that there would be no such cut if proration were observed.

We in California who represent the independents and who are endeavoring to improve the oil industry as a whole, have faithfully followed this proration program. Every business man knows that 50-cent crude oil means bankruptcy if continued indefinitely. Everyone knows that the drastic cut in the price of gasoline means ruin for the refiners if continued for long. Neither crude oil nor gasoline can be produced at the present prices without depleting the capital stocks of the companies involved.

The only remedies for relief, as I see them, are further cooperation, coordination, proration and mutual understanding upon the part of the independents. They must unite in a common cause for a common good and insist through their vast weight of employee voting power, that both the State and the nation shall pass whatever legislation is needed to stabilize the oil industry. Legislation, however, unless intelligently thought out, honestly directed and enforced, will prove a curse instead of a blessing.

Legislation is the main avenue upon which we independents must put our sentries. There is legislation now pending in California which is extremely pernicious. We must oppose that. There is other suggested legislation which seems to have real value We must support that. We must arouse public

opinion and let the voting public see that they are partners in this business tragedy so that they will crack the whip by means of their votes and recall those legislators who prove unworthy of their trust. We are endeavoring to do these things through the Independent Petroleum Association of California and through other similar business bodies.

We must, of course, have a tariff or restriction against foreign oil imports. It is the height of folly for Congress to deny us this when the ruling party is pledged to a high tariff for the protection of all vital American industries. The average man does not realize that unless such a tariff is put into effect the independents in the industry in this country will perish within a very few years.

The Venezuela fields alone, by means of low labor costs and lack of high standards of living soon will be in a position to flood this country with millions of barrels of oil a year. Russia also is rapidly assuming a place of vast significance in the oil industry.

I have before me a scientific digest of just what Soviet Russia is doing in relation to petroleum. They have hired the best engineering brains to develop and scout their prolific fields. While we in the United States were curtailing to the extent of 50 per cent, Russia increased its production 26 per cent. According to their five-year oil program, Russia will be producing 90,000,000 tons of crude oil in 1933. In addition they are planning to build large refineries and to develop hydroelectric power to run their machinery in the various fields.

Unless our government puts up a barrier against cheap labor and against the influx of foreign oil, there will be further disorganization in the oil industry. These facts are supported by shipments already made from Russia to this country.

We can defeat the Russian oil threat by enacting a tariff to prevent this slave-labor oil from soaking into our American life structure.

The law of supply and demand will of course regulate the future of the oil industry; that is an inescapable fact which we must all face. We must continue to curtail; we must regulate drilling and follow all of the other laws of good business as they have been learned by bitter experience. These things the independents, through their organization, are doing every day. Whether they will survive or not is another question, and one which causes grave concern to every man who has the welfare of his country at heart."

(Senate Bill No. 362).

United States Senator William E. Borah, of Idaho, learned in constitutional law and unchallenged in his advocacy of the interests of the people, recently issued a statement in Washington with relation to proposed measures affecting the oil industry. Senator Borah's statement has a direct bearing on proposed legislation in California, as embodied in Senate Bill No. 362, soon to be considered on the floor of the Senate. Senate Bill No. 362, proposed by the major corporations, sets up control of the oil industry and a price-fixing structure, but leaves the price-fixing in private hands. There is no public demand for such legislation and if enacted, as pointed out by Senator Borah, it will be distinctly inimical to the public interest. Senator Borah's statement in full was as follows:

"If imports of oil are to be restricted upon the initiative and under the protection of the government, and if domestic production is to be restricted upon the initiative and by authority of the states with the approval of the government, then the government and the states will certainly be constrained to protect the public in the price it must pay for oil and the products of oil. So far as the plans have been made public, there seems to be no purpose in any program yet presented to protect the users of oil and its products. The state umpire of Oklahoma is quoted as testifying before the state commission: 'We leave the consumer out. We do not take him into consideration. That part doesn't enter into it at all.'

The supplying of the public with oil and the products of oil may well be regarded as a public utility and subject to government regulation. The Supreme Court of the United States has said that 'property becomes clothed with a public interest when used in a manner to make it of public consequence and affect the community at large,' and that such property 'must submit to be controlled by the public for the common good.' Oil is indispensable to our national defense and to modern industrial life. We will certainly not consent to production being controlled without controlling the price the public must pay. If the oil industry is to appeal to the states and government for a regulation in part, I see no reason why the regulation should not extend so as to protect the public.

It is contended by the independents that to increase the price of crude oil would not necessarily increase the price of the products of oil, gasoline, and so forth. On the other hand, it is contended by the importers specifically

that the people 'will have to pay more for their gasoline and fuel oil if imports are restricted.' It may be true that it would not necessarily increase the price But the control of the prices of petroleum products is so thoroughly within the power of a few companies that no one could doubt that the price of the products could be, and likely would be, raised.

In February, 1926, the price of Mid-Continent oil averaged $2 04 In February, 1929, the price was $1.20 per barrel. But the price of gasoline averaged about 18.09 cents per gallon in February, 1926, and 18.39 cents in February 1929, notwithstanding the fact that in 1929 the refineries were recovering 44 per cent gasoline from the average barrel of crude oil as compared with 36 per cent in 1926. The fall of the price of crude oil had no effect upon gasoline except to raise the price of it. It seems perfectly clear that these prices were controlled. And if they are to be controlled, they ought to be controlled by public authority.

According to figures submitted to a committee of Congress, the assets of the oil industry amount to about $12,000,000,000 According to what seems to be entirely reliable figures, 20 companies have of this entire amount $9,600,000,000, or 80 per cent of the total These companies produce annually about 50 per cent of the crude oil produced in the United States.

It also appears that the 10 standard companies which, after the dissolution in 1911, started with assets of probably $600,000,000, have since that time paid $1,918,000,000 in cash dividends, $1,544,000,000 in stock dividends and plowed back into assets something like $4,000,000,000 of earned profits

It also appears that the 10 other companies, making up the 20 companies which hold 80 per cent of the assets of the oil industry, have been enjoying similar profits.

It would appear, therefore, that if the government is going to limit production and thereby augment both the tendency and the power to increase prices, any fair scheme would have to include protection to the consumers. In other words, any scheme would be difficult, it seems to me, in getting public or congressional approval which deals with the interests of the producers alone. Furthermore, I do not believe that the present plan, limited as it is, will save the independent producers. The oil interests are appealing to the states and the government for aid, but the plan is hardly broad enough After all, there are consumers in the United States and their interests are entitled to be considered along with the producers in case the government is going to take hold of this matter.

In my judgment, it is just as practicable, and quite as lawful, to treat the supplying of oil to the public as a public utility as it is the supplying of electric power."

By Mr. Jespersen:

(Copy of letter dated May 1, 1931, from one of the most prominent Oklahoma oil operators to one of California's independent operators)

"Since your call the other day, I have been thinking a lot about the situation as we discussed it and have been thinking over the difference between conditions as they exist now and as they did exist in 1923, which I am sure you will remember, one important difference being that while the oil business was as bad or about as bad as now, other business was normal then, while now there seems to be an unfavorable feeling or lack of confidence in all lines of business, not only in this country but in other countries, so that all in all it seems to me the wise course for the present is to avoid any additional commitments tending to create or increase indebtedness

In regard to the oil business particularly, I have felt for the last several weeks that I could see sunshine down the road ahead for the reason that drilling has ceased almost entirely everywhere except in east Texas and that territory will, of course, be circumscribed in the amount that may reach the market from there, not only by proration but by physical conditions as well It should take only a few months, with drilling stopped everywhere except there, to give us a very different picture and should have the same effect as a substantial decrease in the amount of cotton or wheat planted would have on the cotton or wheat market. For this reason, I look upon this present oil situation as temporary; but notwithstanding such belief, I do not recommend the purchase of stocks because of general bad business conditions, of which the oil business is only a part

The heads of the half dozen or so large oil companies are, of course, handling the situation very badly, especially when we remember that all of the stock of all of the important oil companies is owned by the public It would almost seem as if they are deliberately trying to wreck the business, which of course they are not; but they are rendering very poor stewardship to the stockholders

they represent in the present effort to eliminate small refiners and marketers, in which effort they remind me of people shadow boxing. They have no more chance to eliminate independent refiners and marketers than the boxer has of eliminating the shadows. You may remember the very striking circular sent out by Holland Revis in 1923, entitled 'Faulty Leadership in Oil'. He might well reprint this.

If there is any apparent change that might be of interest to you so far as this part of the country or the east is concerned, I will be glad to advise you either by phone or telegram."

By Mr. Jespersen:

(Important Facts Concerning the Oil Industry in California!)

To the Honorable Members of the California Legislature,
Sacramento, California.

The following facts, obtained from the United States Department of Commerce and the State Department of Mines and Oils, should be carefully considered in connection with certain proposed bills before the Legislature of California, particularly those introduced by Senator Sharkey (Senate Bills Nos. 362, 363 and 364) which relate to the production and marketing of petroleum and petroleum products in California:

Of the total production of crude petroleum in California, approximately 50.4 per cent is produced by six great producing and marketing organizations (commonly known as major oil companies) and 49.6 per cent by approximately 422 smaller companies (known as independents), a relatively small percentage of which have refinery and marketing facilities.

Practically 85 per cent of California's refinery capacity is owned and controlled by these six major oil companies. They also own and control practically 85 per cent of the marketing outlets, both domestic and foreign. The oil pipe lines are practically all under their control.

The Standard Oil Company of California fixes the price of crude petroleum in California and the retail price of gasoline to the consuming public. Under this arrangement there is no opportunity for competitive prices for crude oil in California.

Since the advent of oil curtailment, early in 1929, which was accepted by the oil companies as an emergency measure to conserve the State's oil and natural gas resources and to stabilize marketing conditions, California's normal oil production has been severely curtailed. The State's daily potential production of crude for 1929 was estimated at approximately 1,080,000 barrels. By a succession of cuts in the allowable fixed by the State oil umpires, the daily production had been reduced in early February, 1931, to approximately 531,000 barrels. On February 24, 1931, the State oil umpires gave as the potential production 1,138,459 barrels, and on that day the actual production was 518,983 barrels. This indicated a shut-in production of 619,517 barrels.

This oil curtailment program, which extends to all the oil producing counties of the State, naturally has resulted in unavoidable widespread economic losses and much human distress. This distress, affecting thousands of wage earners in the oil industry and thousands of others directly and indirectly dependent upon the oil industry for their incomes, has been particularly manifest in the oil communities of the San Joaquin Valley and the Los Angeles Basin.

It is estimated that of the total of approximately 60,000 wage earners in the oil industry in California alone, nearly 30,000 have either been deprived of full-time employment, are in part-time idleness or have been forced into other temporary and less remunerative employments. The loss in wages alone, therefore, has been enormous; and the financial loss to landowners and oil royalty holders correspondingly great.

These losses naturally affect adversely the State as a whole, and are reflected in greatly reduced spending, decreased sales by merchants, the withdrawal of savings accounts, lessened building activities, increased mercantile bankruptcies, depressed prices for farm and manufactured food products, decreased land values, and a train of evils both economic and physical. Oil companies, supply houses, automobile dealers, wage earners, farmers, landowners, artisans and investors all have been compelled to bear their part and make heavy sacrifices because of this oil curtailment.

California has been one of the oil producing states most severely penalized by oil curtailment. Therefore, further forced curtailment through legislative enactment should be carefully avoided, if the best interests of the State are to be held paramount and the dangers of increased unemployment avoided.

While California's oil producers have suffered heavy losses in maintaining a curtailment program to conform to the wishes of the Federal Oil Conservation Board, and the State's unemployment has been greatly aggravated (to a point where private and public resources are heavily burdened), California's Atlantic seaboard markets for gasoline and fuel oil have been seriously menaced by immense importations of foreign oil, largely from South America.

This is clearly illustrated by United States Department of Commerce figures, showing how an enormous quantity of this foreign petroleum and petroleum products has been permitted to flood the American markets, in competition with California's

oil products, and at a time when California's oil curtailment was severest and the State's economic burdens were heaviest

Crude oil imports into the United States for 1930 (largely from Venezuela and Colombia) totaled 62,129,419 barrels, and in 1929 they totaled 78,932,572 barrels. The 1930 imports in refined products (again largely from these two countries) amounted to 43,380,000 barrels, as compared with 29,632,000 barrels in 1929. This makes a total of both crude and refined oils in 1930 of 105,509,419 barrels, and in 1929 a total of 108,564,000 barrels These figures are significant also in showing the steady increase in the importation of refined petroleum products to replace the American petroleum products during a period when the United States was the only country in the world under severe oil curtailment.

That this competition is unfair and has been continued to the great detriment of the American oil industry, is generally conceded by unprejudiced industrialists. It is explained by the fact that the importing companies have erected immense refineries on the coast of South America (with a daily capacity exceeding 375,000 barrels and where they operate with the cheapest peon labor, under wage and living standards far below those of our American workmen), and the deduction is made that these importing companies were primarily interested in building up their great South American holding, so as to improve their position in the world markets, notwithstanding the adverse effect that such activity might have on the American oil industry. It is unquestionably true that these South American refineries do supplant American refinery operations, and in so doing have increased unemployment in the American oil industry, while at the same time their products are sold in the American markets in competition with the domestic production

The oil production of Venezuela and Columbia and the refinery and transportation facilities are owned and controlled by four great oil organizations—Royal Dutch Shell, Standard Oil of New Jersey, Standard Oil of Indiana and subsidiaries and Gulf Oil These companies are the principal oil importers into the United States, the markets of which consume approximately 68 per cent of the world's oil production.

During the entire period of curtailment in California and the other oil producing states, these importing companies have made no serious attempt to curtail their foreign production, and, as United States customs figures show, have steadily increased their imports. Meantime, as their financial reports indicate, they have been the largest beneficiaries under American curtailment.

Every right-thinking Californian deeply regrets the economic and unemployment disasters growing out of oil curtailment—the evil results of which can not be relieved by restrictive legislation This seems too obvious to support denial. The problem which presses most is how to enlarge our domestic and foreign markets and thus put men back to work.

At a recent hearing before the Senate Committee on Commerce at Washington, D C., when the question of restricting oil imports into the United States was being discussed, Edward F McGrady, representing the American Federation of Labor, said: "The condition of the oil-well workers is deplorable"

This statement of facts, of course, gives only a brief glimpse into the situation in this great industry—California's largest; from which California has enjoyed so much of its prosperity and through which it naturally expects to achieve so much more in material advancement Nor is it intended here to deny or question the right of any individual or company to import petroleum products into the United States, but rather to show how manifestly unfair it will be to impose further and possibly more drastic curtailment on the oil industry of California, through unwise legislative enactment, with the grave probability of causing the loss of millions to the industry and its thousands of stockholders, as well as to the people of the State, an increase in the already large army of unemployed (with the peril that such increased unemployment threatens), a still greater disturbance to the State's financial structure and the inevitable economic disaster which follows the stoppage of productive activities.

It seems reasonable to assume that the Legislature of California, mindful of its obligation to the welfare of the State, will view with suspicion any proposed legislation which, after full and careful inquiry, may be shown as restrictive and injurious to the State's largest industry, which represents billions of invested capital, disburses millions in dividends wages, taxes and in moneys to related industries, and upon the success of which our early return to prosperous conditions so largely depends Especially does it seem necessary to a full and fair hearing to such proposed legislation when we consider that it may strike at the integrity of the present State Oil and Gas Conservation Law and may be found to lack the constitutional authority required to pass the test of our courts.

Thoughtful men in the oil industry fully appreciate that serious economic problems confront them, and they have voluntarily entered upon a severe curtailment program in a sincere belief that they are serving the cause of the industry and the general public, and that in due time, unless hampered by restrictive and burdensome legislation, their combined efforts will return the industry to its former prosperous condition. But they believe the industry's problems are economic and not political, and that within the industry itself there are leaders entirely competent to solve present and future problems. Hence they urge this Legislature to reject any and

all measures—even though offered in the name of "conservation"—which are likely to produce confusion and discord as well as force further enormous losses in needed revenue as well as heart-breaking unemployment on the people of California.

WASHINGTON, D. C., April 12, 1931.

Hon. James Rolph, Jr., Governor,
State Capitol, Sacramento, California.

Stabilization of production of crude oil necessary to stability of public supply and elimination of waste of irreplaceable natural resource Prevention of threatened forced abandonment of 300,000 small wells through producing areas of United States Preservation of independent operator as competitive force thereby avoiding monopoly and preventing loss of many millions of dollars in labor hire and tax revenues to the various states and the nation. No individual state by its own laws can adequately protect the national interest against such conditions of overproduction and attendant waste with resultant demoralization of great industry as now exists unless conservation efforts of large producing states shall be coordinated. Otherwise curtailment efforts within one state may at any time be automatically offset and nullified by increased flush production in fields of another state or by unjustified increases in importation to great damage to areas to old and settled production throughout country Federal Conservation Board has given its approval to our committee's plan. We now proceed St Louis to meet representatives of marketing companies and construct permanent working structure. Arrange for financing by industry. Adoption code ethics. Arrange proration based on the market demand. Arrange definite commitment on part of purchasing companies to absorb the allowable at the posted price Also allow only fixed and reasonable amount be withdrawn from storage during present emergencies Present prices destroying competition with result very near future will see business in control of comparative few major companies. Finally proration must be rewarded by remunerative price Believe can accomplish this in interim pending preparation and adoption interstate compact Kindly consider release for information of industry

SENATE CONSTITUTIONAL AMENDMENT No. 3.

A resolution to propose to the people of the State of California an amendment to section 1 of article IV of the constitution of said State, relating to the submission of drafts of initiative and referendum measures to the Attorney General, and to the filing of initiative or referendum petition.

Resolved by the Senate, the Assembly concurring, That the Legislature of the State of California, at its forty-ninth regular session commencing on the fifth day of January, 1931, two-thirds of all the members elected to each of the two houses of said Legislature voting in favor thereof, hereby proposes to the people of the State of California that section 1 of article IV of the constitution of said State be amended to read as follows:

SECTION 1. The legislative power of this State shall be vested in a Senate and Assembly which shall be designated "The Legislature of the State of California," but the people reserve to themselves the power to propose laws and amendments to the constitution, and to adopt or reject the same, at the polls independent of the Legislature, and also reserve the power, at their own option, to so adopt or reject any act, or section or part of any act, passed by the Legislature. The enacting clause of every law shall be "The people of the State of California do enact as follows:"

The first power reserved to the people shall be known as the initiative. Upon the presentation to the Secretary of State of a petition certified as herein provided to have been signed by qualified electors, equal in number to 8 per cent of all the votes cast for all candidates for Governor at the last preceding general election, at which a Governor was elected, proposing a law or amendment to the constitution, set forth in full in said petition, the Secretary of State shall submit the said proposed law or amendment to the constitution to the electors at the next succeeding general election occurring subsequent to 90 days after the presentation aforesaid of said petition, or at any special election called by the Governor in his discretion prior to such general election. All such initiative petitions shall have printed across the top thereof in 12-point black-face type the following: "Initiative measure to be submitted directly to the electors."

Upon the presentation to the Secretary of State, at any time not less than ten days before the commencement of any regular session of the Legislature, of a petition certified as herein provided to have been signed by qualified electors of the State equal in number to five per cent of all the votes cast for all candidates for Governor at the last preceding general election, at which a Governor was elected, proposing a

law set forth in full in said petition, the Secretary of State shall transmit the same to the Legislature as soon as it convenes and organizes. The law proposed by such petition shall be either enacted or rejected without change or amendment by the Legislature, within 40 days from the time it is received by the Legislature. If any law proposed by such petition shall be enacted by the Legislature it shall be subject to referendum, as hereinafter provided. If any law so petitioned for be rejected, or if no action is taken upon it by the Legislature, within said 40 days, the Secretary of State shall submit it to the people for approval or rejection at the next ensuing general election. The Legislature may reject any measure so proposed by initiative petition and propose a different one on the same subject by a yea and nay vote upon separate roll call, and in such event both measures shall be submitted by the Secretary of State to the electors for approval or rejection at the next ensuing general election or at a prior special election called by the Governor, in his discretion, for such purpose. All said initiative petitions last above described shall have printed in 12-point black-face type the following: "Initiative measure to be presented to the Legislature."

The second power reserved to the people shall be known as the referendum. No act passed by the Legislature shall go into effect until 90 days after the final adjournment of the session of the Legislature which passed such act, except acts calling elections, acts providing for tax levies or appropriations for the usual current expenses of the State, and urgency measures necessary for the immediate preservation of the public peace, health or safety, passed by a two-thirds vote of all the members elected to each house. Whenever it is deemed necessary for the immediate preservation of the public peace, health or safety that a law shall go into immediate effect, a statement of the facts constituting such necessity shall be set forth in one section of the act, which section shall be passed only upon a yea and nay vote, upon a separate roll call thereon; *provided, however*, that no measure creating or abolishing any office or changing the salary, term or duties of any officer, or granting any franchise or special privilege, or creating any vested right or interest, shall be construed to be an urgency measure. Any law so passed by the Legislature and declared to be an urgency measure shall go into immediate effect.

Upon the presentation to the Secretary of State within 90 days after the final adjournment of the Legislature of a petition certified as herein provided, to have been signed by qualified electors equal in number to 5 per cent of all the votes cast for all candidates for Governor at the last preceding general election at which a Governor was elected, asking that any act or section or part of any act of the Legislature be submitted to the electors for their approval or rejection, the Secretary of State shall submit to the electors for their approval or rejection, such act, or section or part of such act, at the next succeeding general election occurring at any time subsequent to 30 days after the filing of said petition or at any special election which may be called by the Governor, in his discretion, prior to such regular election, and no such act or section or part of such act shall go into effect until and unless approved by a majority of the qualified electors voting thereon; but if a referendum petition is filed against any section or part of any act the remainder of such act shall not be delayed from going into effect.

Any act, law or amendment to the constitution submitted to the people by either initiative or referendum petition and approved by a majority of the votes cast thereon, at any election, shall take effect five days after the date of the official declaration of the vote by the Secretary of State. No act, law or amendment to the constitution, initiated or adopted by the people, shall be subject to the veto power of the Governor, and no act, law or amendment to the constitution, adopted by the people at the polls under the initiative provisions of this section, shall be amended or repealed except by a vote of the electors, unless otherwise provided in said initiative measure; but acts and laws adopted by the people under the referendum provisions of this section may be amended by the Legislature at any subsequent session thereof. If any provision or provisions of two or more measures, approved by the electors at the same election, conflict, the provision or provisions of the measure receiving the highest affirmative vote shall prevail. Until otherwise provided by law, all measures submitted to a vote of the electors, under the provisions of this section, shall be printed, and together with arguments for and against each such measure by those in favor of, and those opposed to, it shall be mailed to each elector in the same manner as now provided by law as to amendments to the constitution, proposed by the Legislature; and the persons to prepare and present such arguments shall, until otherwise provided by law, be selected by the presiding officer of the Senate.

If for any reason any initiative or referendum measure, proposed by petition as herein provided, be not submitted at the election specified in this section, such failure shall not prevent its submission at a succeeding general election, and no law or amendment to the constitution, proposed by the Legislature, shall be submitted at any election unless at the same election there shall be submitted all measures proposed by petition of the electors, if any be so proposed, as herein provided.

Prior to circulation of any initiative or referendum petition for signatures thereof, a draft of the said petition shall be submitted to the Attorney General with a written request that he prepare a title, and summary of the chief purpose and points of said proposed measure, said title and summary not to exceed 100 words in all. The persons presenting such request to the Attorney General shall be known as "pro-

ponents" of said proposed measure. The Attorney General shall preserve said written request until after the next general election.

Any initiative or referendum petition may be presented in sections, but each section shall contain a full and correct copy of the title and text of the proposed measure. Each signer shall add to his signature his place of residence, giving the street and number if such exist. His election precinct shall also appear on the paper after his name. The number of signatures attached to each section shall be at the pleasure of the person soliciting signatures to the same. Any qualified elector of the State shall be competent to solicit said signatures within the county or city and county of which he is an elector. Each section of the petition shall bear the name of the county or city and county in which it is circulated, and only qualified electors of such county or city and county shall be competent to sign such section. Each section shall have attached thereto the affidavit of the person soliciting signatures to the same, stating his own qualifications and that all the signatures to the attached section were made in his presence and that to the best of his knowledge and belief each signature to the section is the genuine signature of the person whose name it purports to be, and no other affidavit thereto shall be required. The affidavit of any person soliciting signatures hereunder shall be verified free of charge by any officer authorized to administer oaths. Such petitions so verified shall be prima facie evidence that the signatures thereon are genuine and that the persons signing the same are qualified electors. Unless and until it be otherwise proven upon official investigation, it shall be presumed that the petition presented contains the signatures of the requisite number of qualified electors.

Each section of the petition shall be filed with the clerk or registrar of voters of the county or city and county in which it was circulated, but all said sections circulated in any county or city and county shall be filed at the same time. Within 20 days after the filing of such petition in his office the said clerk, or registrar of voters, shall determine from the records of registration what number of qualified electors have signed the same, and if necessary the board of supervisors shall allow said clerk or registrar additional assistance for the purpose of examining such petition and provide for their compensation. The said clerk or registrar, upon the completion of such examination, shall forthwith attach to said petition, except the signatures thereto appended, his certificate, properly dated, showing the result of said examination and shall forthwith transmit said petition, together with his said certificate, to the Secretary of State and also file a copy of said certificate in his office. Within 40 days from the transmission of the said petition and certificate by the clerk or registrar to the Secretary of State, a supplemental petition identical with the original as to the body of the petition but containing supplemental names, may be filed with the clerk or registrar of voters, as aforesaid.

The right to file the original petition shall be reserved to its proponents, as defined herein and any section thereof or supplement thereto presented for filing by any person or persons other than the proponents of a measure or by persons duly authorized in writing by such proponents shall be disregarded by the county clerk or registrar of voters.

The clerk or registrar of voters shall within ten days after the filing of such supplemental petition make like examination thereof, as of the original petition, and upon the completion of such examination shall forthwith attach to said petition his certificate, properly dated, showing the result of said examination, and shall forthwith transmit a copy of said supplemental petition, except the signatures thereto appended, together with his certificate, to the Secretary of State.

When the Secretary of State shall have received from one or more county clerks or registrars of voters a petition certified as herein provided to have been signed by the requisite number of qualified electors, he shall forthwith transmit to the county clerk or registrar of voters of every county or city and county in the State his certificate showing such fact. A petition shall be deemed to be filed with the Secretary of State upon the date of the receipt by him of a certificate or certificates showing said petition to be signed by the requisite number of electors of the State. Any county clerk or registrar of voters shall, upon receipt of such copy, file the same for record in his office. The duties herein imposed upon the clerk or registrar of voters shall be performed by such registrar of voters in all cases where the office of registrar of voters exists.

The initiative and referendum powers of the people are hereby further reserved to the electors of each county, city and county, city and town of the State to be exercised under such procedure as may be provided by law. Until otherwise provided by law, the legislative body of any such county, city and county, city or town may provide for the manner of exercising the initiative and referendum powers herein reserved to such counties, cities and counties, cities and towns, but shall not require more than 15 per cent of the electors thereof to propose any initiative measure nor more than 10 per cent of the electors thereof to order the referendum. Nothing contained in this section shall be construed as affecting or limiting the present or future powers of cities or cities and counties having charters adopted under the provisions of section 8 of article XI of this constitution. In the submission to the electors of any measure under this section, all officers shall be guided by the general laws of this State, except as is herein otherwise provided. This section is self-executing, but legislation may be enacted to facilitate its operation,

but in no way limiting or restricting either the provisions of this section or the powers herein reserved.

Senate Joint Resolution No. 14 ordered transmitted to the Senate

SENATE JOINT RESOLUTION No. 14.

Relative to memorializing and petitioning Congress to enact legislation to eliminate the restrictions which now attach to the taxation of national banking associations, and creating a committee to further such purpose

WHEREAS, The Joint Legislative Committee on Taxation of the forty-eighth session of the California Legislature has filed its report with the Senate and Assembly and sets forth the necessity of an amendment to section 5219 of the Revised Statutes of the United States, which statute is the sole authority for states to tax national banking associations and has recommended that the Legislature of the State take appropriate action designed to secure an amendment to section 5219 so that the State will be permitted greater latitude in the taxation of national banks, and

WHEREAS, It appears from such report that the present provisions of the said section 5219 so restrict the power of the states that this State is unable to enact a measure for the taxation of national banks that is capable of producing adequate

revenues from such associations, and the State is required, in order to tax such associations, to adjust a large portion of its tax system to conform to the method selected for the taxation of national banking associations; and

WHEREAS, The forty-ninth session of the Legislature of the State of California approves recommendation No. 6 of the said Joint Legislative Committee on Taxation as expressed in its report, and believes that such an amendment is essential before any revision of the State's tax system to distribute more equitably the tax burden can be achieved, now, therefore, be it

Resolved, That the Legislature of the State of California petitions the seventy-second session of the Congress of the United States to enact legislation to so amend section 5219 of the Revised Statutes of the United States that the states will be permitted greater latitude in the taxation of national banks; and be it further

Resolved, That the Legislature of the State of California requests the Honorable Senators and Representatives in the national Congress representing this State in the Senate and the House of Representatives of the United States to use every honorable means to secure such an amendment to section 5219; and be it further

Resolved, That a committee of four members, consisting of two members of the Assembly, one of whom shall be the Speaker of the Assembly and the other shall be appointed by the Speaker of the Assembly, and two members of the Senate, to be appointed by the President of the Senate, be appointed to attend the hearings of the Senate and the House committees on banking and currency, or such other hearings and take such other action as said committee hereby authorized may deem necessary, to urge the national Congress to adopt such an amendment to section 5219 as is herein advocated; and be it further

Resolved, That the sum of $4,000, or so much thereof as may be necessary, is hereby set apart, reserved and appropriated out of the legislative Contingent Funds of the Senate and Assembly which may have heretofore or may hereafter be apportioned for the contingent expenses of the Senate and Assembly by this session of the Legislature, said sum to be payable one-half from the Contingent Fund of the Senate and one-half from the Contingent Fund of the Assembly but not exceeding the sum of $4,000 in all, for the purpose of paying the expenses incurred by the committee herein designated under the authority hereof, and for the purposes herein set forth, and said payments shall be disbursed from time to time by Controller's warrants to be drawn against such contingent funds upon the written orders of the members of said committee herein provided for; and be it further

Resolved, That the Secretary of the Senate be, and he is hereby directed to send copies of this resolution to each member of the Senate and the House of Representatives committees on Banking and Currency of the seventy-second Congress, and to each member of the Senate and House of Representatives from the State of California

EXPLANATION OF VOTE.

MR. SPEAKER: I desire to explain my vote wherein I voted "no" on the passage, this day, of Senate Bill No. 26, providing for the payment of general prevailing rate of wages on public works. I have the highest regard for labor and I feel that labor will be a loser under this bill and municipalities will be handicapped. Public work will be retarded. Under the act the prevailing rate of wages is that fixed by the political subdivision, regardless of any wage scale, and such rate is final. I do not believe either labor or the municipalities will profit by this act. I believe the proposed legislation is ill advised.

HONNOLD.

MESSAGE FROM THE GOVERNOR.

The following message from the Governor was received, and read:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE.
SACRAMENTO, May 12, 1931.

To the Members of the Assembly,
State of California.

I herewith return without my approval Assembly Bill No. 896.

I have received a communication from the Deputy Attorney General calling my attention to this bill and upon this opinion I present the following objections to the bill

This act requires uniform fire alarm code signals in all public, private, or parochial schools to be known as the California uniform code signal, to be sounded in the particular manner prescribed by the statute. The bill prescribes no penalty for violating the provisions of the act and, therefore, would be unenforceable.

This bill would also probably require little country schoolhouses consisting of one room (and there are 1650 of these little one-room schoolhouses in remote places throughout the State) to install the fire alarm signal systems; and there would be a question of the liability of schools for negligence in the event that injuries were sustained when the precise alarm required by the statute was not sounded, although a sufficient alarm had been given.

I trust the author of this bill, in view of the legal opinion presented to me, will concur in my necessary disapproval.

(This the author concurs in.)

Sincerely,

JAMES ROLPH, JR., Governor.

EXPLANATION OF VOTE.

The following explanation was received, and ordered printed in the Journal:

ASSEMBLY CHAMBER, SACRAMENTO, May 13, 1931.

MR. SPEAKER: I desire to explain my vote wherein I voted "aye" on the final passage of Senate Bill No. 362 by Senator Sharkey, being "An act to prohibit and prevent the waste of crude petroleum oil in the State of California and defining such waste," etc

During the debate prior to the passage of the bill the proponents stated emphatically that it was not the intention that the act should create an oppression upon any producer and not create a monopoly;

That it was not intended by the sponsors of the bill to give any advantage to the large companies over the small independent producer. For that reason I voted "aye"

Sec 4. The legislative body desiring to initiate proceedings for the making of any acquisition or improvement, or both an acquisition and improvement, under the provisions of this act, may, by an order to be entered upon its minutes, designate some county officer, if the legislative body be that of a county, or some municipal officer, if it be that of a municipality, or some other competent person, in either case, and direct him to prepare and furnish specifications for the proposed acquisition or improvement, or both The said specifications, in the case of an improvement, shall include all plans, profiles, cross-sections and specifications necessary therefor, together with a statement of the estimated cost of the improvement (inclusive of incidental expenses and costs of the proceeding), a description of the district to be benefited by the proposed improvement and a map or plat showing the same and also the different zones within said district (if any are necessary because of varying benefits) containing the lands to be benefited in like measure but in a different measure from those in other zones therein, with a statement as to what percentage of the sum to be raised each year for the payments on the principal and interest of the bonds should be raised from each zone, and shall show the grades to which the contemplated improvements are to be constructed. In the case of an acquisition, the said specifications shall include descriptions of all property to be acquired, together with a map or plat showing the same, the total sum of the estimated expense of said acquisition (which expenses shall include the estimated amount of just compensation and damages, the estimated expenses chargeable to the plaintiff in the condemnation action, and the estimated incidental expenses of the proceeding) and a description of the district to be benefited by the proposed acquisition and a map or plat thereof; and the other matters relating to zones and percentages as above required in the case of improvements. In the event that the contemplated proceeding includes both an acquisition and improvement, all of the above requirements shall be included in the specifications; the district, zones and percentages set forth to comprehend both the contemplated acquisition and improvement. Said specifications shall be signed by the person designated and directed to prepare them and be presented to the legislative body ordering them. Said legislative body shall examine the said specifications and may approve them or order modifications or changes to be made therein. When approved by the legislative body they shall be filed with the clerk of said body. At any time before the adoption of a resolution of intention the specifications may be corrected or modified by the order of said body.

Such legislative body shall not have jurisdiction to adopt a resolution of intention in any case unless the specifications as finally corrected or modified shall show that the estimated cost of any acquisition or improvement, or both, less any amount proposed to be paid toward such cost from a source other than special assessments upon the lands proposed to be specially assessed, will not exceed one-half the aggregate assessed value of such lands, and that the net amount to be paid by special assessment in any zone in the proposed district will not exceed the aggregate assessed value of the lands in such zone, unless said legislative body shall find by the unanimous vote of all the members thereof entered upon its minutes that the proposed project is feasible, and that the lands to be assessed will be able to carry the burden of such proposed assessment. The assessed value shall be the value shown upon the last

equalized assessment roll of the county or municipality, the legislative body of which is conducting the proceeding, except that where the proposed district lies partly in incorporated and partly in unincorporated territory or within the territory of two municipalities, the last equalized county assessment roll shall be used. If the assessed value of any parcel of land is not separately shown upon said assessment roll, an estimated assessed value of such parcel shall be made by the city or county assessor and such estimate shall be considered the assessed value of such parcel for the purposes of this act.

If a statute known as special assessment investigation and limitation act of 1931 shall become law, the provisions of such statute shall apply to all proceedings under this act, except that such statute shall not operate to permit any proceeding which this section would require to be abandoned, and in no proceeding under this act may the limitations provided in this section or by said statute be exceeded except by such unanimous vote of the legislative body.

The limitations hereby imposed shall not apply to any proceeding in which an ordinance or resolution of intention has been finally adopted before the date when this section as amended in 1931 shall become effective.

Any error or informality in the appointment of any officer or other person to prepare specifications, or the omission of a formal order of appointment altogether, shall not invalidate or in any way affect the proceedings.

In case the consent of any legislative body other than the one conducting the proceeding is required, as provided in section 2 of this act, then after the specifications shall have been approved and filed, the legislative body conducting the proceeding shall, by resolution, request such consent (or consents, if more than one is necessary), and a copy of the resolution requesting such consent, together with a copy of the specifications, shall be filed with the legislative body, or bodies, whose consent is requested. Such legislative body, or bodies, may consent by resolution."

"SEC. 5 Section 9 of said acquisition and improvement act of 1925, as amended, is hereby amended to read as follows.

Sec. 9. At any time not later than the hour set for hearing objections as provided in the preceding section, any owner of land within the boundaries of the assessment district as set forth in said resolution may, severally, or with other such owners, file with the clerk of the legislative body conducting the proceedings written objection to the thing or things proposed to be done, whether it be an improvement or acquisition, or both, or to the grade or grades to which the improvement is proposed to be constructed, or to the extent of the assessment district, or to the zones, if any, into which the said district is divided, or to the percentages proposed to be raised from each of said zones, or to any or all of the foregoing. Upon such hearing all objections and protests to the doing of the thing or things proposed to be done shall be heard and considered If upon said hearing it appears that the owners of more than one-half of the area of the property included within the entire assessment district, as proposed, have in writing made objection to the doing of the thing or things proposed to be done, i. e., the improvement or acquisition, or both, as the case may be, in their entirety, and to the ordering of the same, the legislative body shall, by a resolution to be entered upon its minutes, so find and thereupon such legislative body shall have no power to proceed further under said resolution of intention nor to adopt any resolution for doing the same thing or things during a period of one year next succeeding the time of such finding In order that such objections operate as a bar, as aforesaid, they must specifically state that the objections are to the doing of the thing or things proposed in their entirety and not merely to some item, class, kind or part of the thing or things proposed to be done It the fact be that the owners of more than one-half of the area of the property included within the entire district as proposed have not so in writing made objection going to the ordering of the thing or things proposed to be done as an entirety, the legislative body shall so find, and may thereupon proceed with the hearing, but such finding need not be in writing and may, for the purpose of proceeding with the hearing, be a mere announcement of the body. Next shall be heard, in any order desired by such body, such objections as shall be made to the extent of the district and to the zones, if any, into which said district is divided and to the percentages to be raised therefrom as set forth in the resolution of intention, and objections to the grade or grades to which the improvement is proposed to be constructed.

The hearing may be continued from time to time by the legislative body by an order to be entered upon its minutes.

Owners of land within the meaning of this section are those, and those only, who appear to be such upon the records in the recorder's office of the county in which the district is situated on the day before the day set for said hearing, and an executor or administrator shall be deemed representative of his decedent, and a trustee of an express trust in land, other than as security for the payment of money, of the land held in such trust, and a trustee in bankruptcy of the bankrupt, and a guardian of his ward. Owners of land within the meaning of this section shall also include any person who holds a valid contract to purchase land, which fact must either be shown to be such upon the records in said recorder's office or the owner signing the protest must exhibit his contract to purchase; *provided, however*, that if both the owner of record and the contract purchaser shall present protests for the same land, only one protest shall be counted. The objection of any owner may be made by the signature of his agent: *provided*, that there must be attached to the objection the affidavit of the agent that he is duly authorized to sign said objection. Every written objection must contain a description of the property in which each signer thereof is interested sufficient to identify it, and must set forth the nature of his interest therein and, if signed by more than one objector, must be accompanied by the affidavit of one of the signers thereto that each signature thereto is the genuine signature of the person whose name is thereto subscribed. No informality or technical insufficiency in the form of any protest shall invalidate such protest if such protest shall be sufficient to identify the property in which the signer is interested, to show that such protest is based upon a ground or grounds authorized hereby and to show that such signer is entitled to file such protest.

SEC. 6 Section 10 of said acquisition and improvement act of 1925, as amended, is hereby amended to read as follows:

Sec. 10. Unless the power to proceed shall have ceased, as hereinbefore provided, the legislative body shall in conclusion of the aforementioned hearing and as a determination of all questions arising thereat, by resolution to be entered upon its minutes, declare its finding that the owners of more than one-half of the area of the property included in the assessment district have not made written objection going to the entirety of the thing or things proposed to be done. Said legislative body may at the conclusion of the hearing thereon and in said resolution determine the extent and boundaries of the assessment district and may exclude from the district described in the resolution of intention any parcels of land which it may find will not be benefited by the doing of the thing or things proposed to be done. It may also change or modify the zones, if any, into which said district is divided, so that each zone shall be composed of the lands within said district which will be benefited in like measure; and it may also change the percentage of the amount to be raised in each such zone, so that such zoning and the raising of the special assessment taxes therefrom shall best, in its judgment, reflect the benefits to be derived by the parcels of land included therein If no changes be made in the boundaries of the assessment district, as the same are set forth in the resolution of intention, or no changes are made in the zones or the percentages to be raised therefrom as set forth in said resolution, it shall be sufficient to state that the boundaries of the district, the zones and the percentages to be raised therefrom, are those set forth in the resolution of intention; but if any changes be made in the boundaries of the assessment district, the boundaries as finally determined shall be fully set forth in said resolution, and the plat or map of the assessment district on file in the office of the clerk of said legislative body and referred to in the resolution of intention shall be made to show said boundaries as finally determined, and if any changes be made in the zones referred to in the resolution of intention, the description of the boundaries of said zones, as finally determined, shall be fully set forth, and said plat or map on file in the office of the clerk of the legislative body shall be changed to show the boundaries of said zones as finally determined, and, if any changes be made in the percentages to be raised from the several zones, the resolution shall so state, giving the percentage to be raised from each zone, as finally determined The boundaries of the district, as the same are set forth in the resolution of intention, shall not be so changed as to include within the district any territory not within its boundaries as set forth in said resolution.

Said legislative body may also change or modify the grades as set forth in the plans and specifications and referred to in the resolution of intention. If no change or modification be made as to the grades, as the same are set forth in the plans and specifications and referred to in the resolution of intention, it shall be sufficient to state in the resolution adopted at the conclusion of said hearing, that the grades as finally determined, are those set forth in such plans and specifications, but if any changes are made in the grades, as set forth in the plans and specifications and referred to in the resolution of intention, such changes shall be set forth in said resolution adopted at the conclusion of said hearing.

If any changes or modifications be made in the boundaries of the assessment district, the zones, the percentages to be raised from the several zones, the grades, or any or all of the foregoing, such changes or modifications shall be made by a four-fifths vote of the legislative body.

The boundaries of the assessment district, the location and extent of the zones, if any, and the percentages to be raised therefrom, so determined, shall then be

established and prevail for all purposes of the proceeding and until any bonds to be issued for the expenses of the thing or things to be done shall have been fully paid and discharged, and the grades so determined shall be the grades for all the purposes of the proceeding and the improvement to be done thereunder. The findings and determination of said legislative body upon the matters of the extent and boundaries of the assessment district, the zones, if any, into which said district is divided, the percentage of the expenses to be raised from each of said zones, the grades to which the improvement is to be constructed, and the necessity for the acquisition, or improvement, or both, comprehended by the proceeding, shall be final and conclusive"

AMENDMENT NUMBER TWENTY-FOUR

On page 12 of the printed bill, as amended in Assembly March 5, 1931, following line 25, insert the following:

"Such special assessment taxes shall be collected and enforced together with, and not separately from, taxes for county purposes or for municipal purposes, as the case may be.

(3) The holder of any matured bond or interest coupon, remaining unpaid for lack of sufficient moneys in the interest and sinking fund of any district created under the provisions of this act, is authorized to apply the credit represented by such unpaid bond or coupon as a medium of exchange in the purchase of lands sold by the state for delinquency in the payment of special assessment taxes of the same district, in the manner hereinafter provided. Upon presentation and surrender to the treasurer of the county or municipality (as the case may be), whose legislative body has conducted the proceedings, of such matured bonds or interest coupons, or both, the treasurer shall issue to the holder a memorandum in writing, in duplicate, indicating the amount of credit represented by such bonds or coupons to which such holder is entitled to apply upon such tax sale. In the event that such sale is conducted by the county tax collector in accordance with the provisions of the Political Code of the State of California, and the holder of such credit memorandum becomes the purchaser, the tax collector shall accept the credit memorandum in lieu of lawful money for that portion of the total price for which any parcel of land is sold, equivalent to the special assessment taxes of such district, together with penalties, on account of which such sale is made; the balance of the price for which such parcel is sold shall be payable in money. The tax collector shall endorse upon said credit memorandum, and the duplicate thereof, the amount of credit applied on such tax sale and the balance, if any, not so applied.

The county treasurer shall accept, and the county auditor, in all settlements with the county tax collector, shall treat such credit memoranda, to the extent that the same have been applied upon such sales, as the equivalent of money. The treasurer shall accept the unused credit, represented by duplicate credit memoranda, as the equivalent of lawful money upon redemption by the purchaser, to the extent of the delinquent special assessment taxes of such district, together with penalties and interest, in the same manner as the tax collector is herein authorized to accept the same upon a sale. The treasurer of the county or municipality (as the case may be), whose legislative body conducted the proceedings, shall thereupon cancel the bonds and coupons, upon the credit of which sales or redemptions have been made, if the entire amount of the credit memoranda has been applied thereto, and in the event that only a portion of the credit represented thereby has been applied upon sale or redemption, or both, then the treasurer shall endorse upon the face of such bond or coupon the fact that the same has been paid in part, to the extent of the credit so applied, and shall return the bond or coupon, so endorsed, to the holder. If no part of the credit represented by such memoranda is applied to sale or redemption, as herein provided, the treasurer shall, upon surrender of the credit memoranda, cancel the same and deliver the bond or coupon to the owner.

In the event that such sale is conducted by a municipal officer the holder of unpaid matured bonds or interest coupons shall be entitled to apply the same to the purchase of lands sold for delinquency in the payment of special assessment taxes in substantially the same manner, as herein provided for the application of such credit upon sales conducted by the county tax collector. In the event that the procedure prescribed for such municipality contemplates a sale for the full amount of all special

assessments, delinquency penalties, interest and costs accruing to the time of sale and involves no redemption, then an original credit memorandum only shall be issued by the treasurer."

REPORT OF COMMITTEE ON OIL INDUSTRIES

The following report of the Joint Committee on Oil Industries was received, and ordered printed in the Journal:

Report of the Joint Committee on Oil Industries of the Senate and Assembly in Reference to the Investigation of the Oil Industry.

The Joint Committee on Oil Industries of the Senate and Assembly has concluded the investigation of the oil industry in California and after consideration of the statements of the various representatives of the companies who appeared before it submits herewith its findings and recommendations

The hearing was held in the Senate chamber on the eighteenth day of March, 1931, beginning at the hour of eight o'clock and ten minutes p m., pursuant to the following resolution:

WHEREAS, This committee has received reports of violent fluctuations in the sale price of gasoline, evidencing a disturbed condition in the gasoline market.

WHEREAS, The records of the State of California indicate large delinquencies by many distributors in the payment of the gasoline tax imposed by the State of California upon distributors; now, therefore, be it

Resolved, That this committee do and it hereby does institute an investigation of the matters hereinabove set forth with a view of determining the connection between the same, if any, or other causes, so far as they may be determined, and of recommending such legislation as may seem desirable; be it further

Resolved, That the chairman of this committee summon such officials of the various gasoline distributing companies in the State of California as may in his judgment seem desirable, and fix the time and place of meeting, be it further

Resolved, That this committee request the Oil Industries Committee of the Assembly of the State of California to sit with this committee in all proceedings hereunder.

Your chairmen had sent notices to the various oil companies operating in California and had requested that they appear before the joint committee and give testimony. Members of the joint committee present at the hearing were as follows:

Senate Committee on Oil Industries: Senator Sharkey, chairman; Senators Clock, Duval, Edwards, Harper, Maloney, Moran, Wagy.

Assembly Committee on Oil Industries: Assemblyman Oliva, chairman; Assemblymen Craig, Easley, Emmett, Morrison, Parkman, Patterson, Scudder, Wilber.

The following persons named in the order of their appearance made statements and were interrogated by members of the joint committee:

A. L Weil, chairman of the Public Relations Committee of the California Oil and Gas Association, attorney for the General Petroleum Corporation of California, and other companies.

L. P St. Clair, president, Union Oil Company of California.

J. A. Brown, president, General Petroleum Corporation of California.

C. E Olmstead, vice president and general manager of the Texas Company.

G. E. Kennedy, director of sales of the Standard Oil Company of California.

L. D. Jurs, vice president of the Associated Oil Company.

A. R. Bradley, of the Shell Oil Company.

George M. Spicer, attorney for the Ramsey Petroleum Corporation, and other oil companies.

George Macris, representing the Wilshire Oil Company, Incorporated, the Ambassador Petroleum Company, the Bandini Petroleum Company, the Commodore Petroleum Company, the Wilshire Annex Oil Company, and the Reliance Oil Company.

C. R. McColum, representing the receiver of the Richfield Oil Company and the Pacific Western Oil Company.

Assemblyman Jespersen.

John R. Elliott, representing the Thompson Petroleum Company and affiliated companies, and vice president of the Independent Petroleum Association of California.

Robert M. Pease, representing the Independent Petroleum Association.

Daniel W. Pauley, the Petrol Corporation.

H. L Donegan, representing the Rio Grande Oil Company

A stenographic report of the proceedings is appended for your information.

This committee makes the following findings of fact:

(1) That price wars in the oil industry, particularly in relation to the price of gasoline, have been sporadically recurrent for several years past.

(2) That these price wars are injurious to all elements in the industry and are detrimental to the State and to the public.

(3) That these price wars are brought about principally by the overproduction of oil, and in part by the unnecessary duplication of marketing facilities particularly service stations

(4) That the representatives of both the large and the small companies agree that it is necessary that the production of oil in California should be curtailed

(5) That not less than 90 per cent of the oil producers in California have repeatedly attempted to curtail production by voluntary agreements, but that their efforts have been hindered by the refusal of a small minority to cooperate, and that this small minority can only be reached through coercive statutes

(6) That the failure to pay gasoline taxes probably had an important bearing on the present price war A large number of refiners have returned the amount of the tax due, but have been unable to pay the same, and an additional and unknown number of refiners have fraudulently evaded reporting the gasoline taxes due from them The gas tax law has been amended by the Legislature and signed by the Governor, and if vigorously enforced, should go far in curing this situation

(7) That the California market for oil on the east coast of the United States has been seriously limited through the importation of cheaper oil from South American fields.

(8) That there was no evidence produced and no claim made at the hearing by anyone that the present price war is the result of any combination of the larger units in the oil industry, or that its purpose is to drive the financially weak refiners out of business

The conclusions of the committee are as follows:

(1) That the authorities of the various counties, cities, towns and other political subdivisions of the State having jurisdiction over the subject matter, take such action as may be necessary to prevent the further increase of unnecessary service stations in their respective areas

(2) That the collection of gas taxes be strictly enforced and fraudulent evasion thereof be vigorously prosecuted.

(3) That laws controlling town-lot drilling and providing for coercive curtailment of production and an equitable allocation of the allowable production among the various fields in the State and the several properties in these fields be promptly enacted

(4) That the Governor of the State of California be requested to address a communication to the new Congress when it convenes calling attention to the injurious results to American producers resulting from the dumping of cheap foreign oil, and that the continuance of this practice be stopped by appropriate legislation by Congress.

A resolution to propose to the people of the State of California an amendment of the constitution of said State by amending section 15 of article XIII thereof, relating to revenue and taxation.

Resolved by the Senate, the Assembly concurring, That the Legislature of the State of California at its regular session commencing on the fifth day of January, 1931, two-thirds of all the members elected to each of the two Houses of said Legislature voting in favor thereof, hereby proposes to the people of the State of California that section 15 of article XIII of the constitution of the State of California be amended to read as follows:

SEC. 15 Taxes levied, assessed and collected as hereinafter provided upon companies owning, operating or managing any automobile, truck or auto truck, jitney bus, stage or auto stage used in the business of transportation of persons or property as a common carrier for compensation over any public highway in this State between fixed termini or over a regular route, other than buses used exclusively for the transportation of pupils to or from any public school, when owned or operated by the school or school district, shall be entirely and exclusively for State purposes, and shall be levied, assessed and collected in the manner hereinafter provided. The word "companies," as used in this section, shall include persons, partnerships, joint stock associations, companies and corporations

(*a*) All such companies engaged in the business of transportation of persons, or persons and baggage, or persons and express, or persons, baggage and express where the same is transported on the same automobile, jitney bus, stage or auto stage transporting said persons shall annually pay to the state a tax upon their franchises, cars, equipment, and other property, or any part thereof, used exclusively in the operation of their business in this State, equal to four and one-quarter per cent of the gross receipts from operations of such companies, and each thereof, within this State.

All such companies operating trucks or auto trucks engaged in the business of transporting property shall annually pay to the State a tax upon their franchises, trucks or auto trucks, equipment, and other property, or any part thereof, used exclusively in the operation of their business in this State, equal to five per cent of the gross receipts from operations of such companies, and each thereof, within this State.

When such companies are operating partly within and partly without this State, the gross receipts within this State shall be deemed to be all receipts on business beginning and ending within this State, and a proportion, based upon the proportion of the mileage within this State to the entire mileage over which such business is done, of receipts on all business passing through, into, or out of this State

Such taxes shall be in lieu of all other taxes and licenses, State, county and municipal, upon the property above enumerated of such companies; *provided*, that nothing herein shall be construed to release any such company from the payment of any amount to be paid or required by law to be paid for any special privilege or franchise heretofore granted by any of the municipal authorities of this State

One-half of the revenues from the taxes provided for in this section shall be deposited in the General Fund, and the remaining one-half shall be apportioned among the respective counties of this State, in the proportion that the number of motor vehicles registered within such county for the preceding calendar year bears to the total number of motor vehicles registered in the State of California under the Motor Vehicle Act of such State for the preceding year, and such sums so paid to said repair of public highways within such county. In the event that all other State revenues are at any time deemed insufficient to meet the annual expenditures of the State, there may be levied in the manner to be provided by law, a tax, for State purposes, on all the property in the State, including the classes of property enumerated in this section, sufficient to meet the deficiency. All property enumerated in this section shall be subject to taxation, in the manner provided by law, to pay the principal and interest of any bonded indebtedness created and outstanding by any

city, city and county, county, town, township, or district on the first day of October, 1925. The taxes so paid for principal and interest on such bonded indebtedness shall be deducted from the total amount paid in taxes hereunder

(*b*) All the provisions of this section shall be self-executing, and the Legislature shall pass all laws necessary to carry this section into effect, and shall provide for the valuation and assessment of the property enumerated in this section, and shall prescribe the duties of the State Board of Equalization and any other officers in connection with the administration thereof.

The rates of taxation fixed in this section shall remain in force until changed by the Legislature, two-thirds of all the members elected to each of the two houses voting in favor thereof. The taxes herein provided for shall become a lien on the first Monday in March of each year after the adoption of this section and shall become due and payable on the first Monday in July thereafter. The gross receipts herein mentioned shall be computed for the year ending the thirty-first day of December prior to the levy of such taxes and the value of any property mentioned herein shall be fixed as of the first Monday in March. Nothing herein contained shall affect any tax levied or assessed prior to the adoption of this section.

(*c*) No injunction shall ever issue in any suit, action or proceeding in any court against this State or against any officer thereof to prevent or enjoin the collection of any tax levied under the provisions of this section; but after payment action may be maintained to recover any tax illegally collected in such a manner and at such time as may now or hereafter be provided by law.

MY DEAR MR. BADHAM: May we take this occasion to inform your good self, and request you to pass the information on to the Los Angeles County delegation, that we are interested in the passage of the bill to take care of the deficit in the expense of holding the first Pan American Reciprocal Trade Conference in Sacramento last August.

Under the leadership of Simon J. Lubin of Sacramento, we feel that this conference accomplished great results for the State of California and that through the organization of the Pan American Institute of Reciprocal Trade these results will continue for years to come.

Preliminary to the conference a large number of delegates representing about 18 countries of Latin America were taken on a tour of the State and in the three days which they spent in and around Los Angeles, we understand they placed orders for many thousand dollars of Los Angeles County-made goods and we believe that the advertising resulting therefrom will lead to a large amount of future business.

For example, under the direction of the Foreign Trade Department, a brief demonstration was given of agricultural machinery and this alone resulted in the immediate sale of approximately $50,000 worth of such machinery—and this is only one item.

Since the conference, we have had a call from one of the delegates who stated he was here to invest $100,000 in southern California orange groves.

We understand the statement has been made that this conference was largely for the benefit of northern California but we wish to assure you that southern California participated very largely in its benefits and we believe that the project is one that the State as a whole can very profitably aid in financing.

Very truly yours,

LOS ANGELES CHAMBER OF COMMERCE.
A. G. ARNOLL, Secretary and General Manager.

WHEREAS, It appears that there is much dissatisfaction with conditions as they now exist in relation to boxing matches, and further legislation would appear necessary and desirable effectually to prevent monopolistic tendencies and unfair practices; and

WHEREAS, Many who are interested in the sport of wrestling have declared that professional wrestling activities in California have fallen into the hands of one individual; and

STATE OF CALIFORNIA, DEPARTMENT OF FINANCE,
SACRAMENTO, May 15, 1931.

Hon. Robert Lincoln Patterson, Chairman.
Ways and Means Committee of the Assembly,
Sacramento, California.

MY DEAR MR. PATTERSON: I am transmitting to you herewith copy of a letter of today's date received from His Excellency, Governor Rolph, in which he suggests that since this is the closing day of the State Legislature, I should advise the Legislature concerning the expressions of the State Treasurer, made in public, with regard to the financial condition of the State of California. Accordingly, I am attaching a copy of my reply to the Governor, setting forth briefly an analysis of the above-referred to statement, and my estimate of the actual condition of the State's finances.

Trusting that this may be useful to you in your closing deliberations affecting the finances of the State of California, and for your consideration during the interim between this and the succeeding session of the Legislature, I am

Very sincerely yours.

ROLLAND A VANDEGRIFT, Director of Finance.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, May 15, 1931.

Hon. Rolland A Vandegrift,
Director of Finance, State Capitol,
Sacramento, California.

DEAR MR. VANDEGRIFT: My attention has been called to an article appearing in the morning press regarding State finances, and I transmit the article to you for reply to me.

I attach clipping from the *Sacramento Union*, dated Vallejo, May 14th, under the caption "Johnson Sees $10,000,000 State Deficit."

"[*Sacramento Union*]

JOHNSON SEES $10,000,000 STATE DEFICIT

VALLEJO, May 14 (AP).

Charles G. Johnson, State Treasurer, predicted here today there would be a deficit of between $5,000,000 and $10,000,000 in State finances at the end of the fiscal year. He spoke before a luncheon club.

'Our State government is now in the hands of inexperienced men,' Johnson said. 'Of course, we must be patient.'

'State government this year,' Johnson said, 'will cost $11,000,000 more than last year.' He called the present Legislature the 'most disorganized' the State has ever known.

'When it adjourns it will have accomplished less than any of the Legislatures in my 20 years of experience at the Capitol,' the Treasurer asserted."

Today is the closing day of the State Legislature, and I think they should be advised by you of the comments of the State Treasurer expressed to the public, in order that if any further financial consideration is needed by the State Legislature to the State's finances it should be acted upon today.

Will you please give this matter your immediate attention.

Very sincerely yours,

JAMES ROLPH, JR., Governor of California.

Sacramento, California

MY DEAR GOVERNOR In reply to your letter of May 15th regarding the statement attributed to Treasurer Charles G. Johnson that the State will have a deficit of between five and ten million dollars at the end of the fiscal year, I wish to transmit to you the following information

Either the Treasurer has been misquoted or he demonstrates a complete lack of information concerning the financial condition of the State of California. This fiscal year will end June 30, 1931. At that date we have conservatively estimated that there will be more than $30,000,000 surplus in the treasury. The estimate of the Department of Finance is concurred in by the State Controller. This means that the Department of Finance, which has as one function the estimating of revenues of the State, and also, through the Division of Budgets and Accounts, functions the Budget and checks expenditures, as well as the Controller, who, in turn, under the law is responsible for seeing that expenditures are made according to appropriations, both agree that this large surplus will be present.

It is inconceivable that the Treasurer, who has no access to detailed information other than that of his office, could safely make such a statement, unless we might presume there is an error in quoting him and that in place of the fiscal year he meant to say at the end of the next biennium. Such may be the case, for the present fiscal year referred to in the newspaper item is covered by the Budget prepared by the prior administration, and the responsibility for it rests on that administration. Should there be a deficit, which is utterly impossible, the responsibility would not rest on your administration.

Moreover, further along in the item, the Treasurer is quoted as saying, "Our State government is now in the hands of inexperienced men." This would infer that he refers to the present administration, although it is difficult to say how it can refer to Your Excellency, with your long public administrative service, as being inexperienced, or for that matter, many other administrators serving at the present time.

Presuming, however, that reference is made to the coming biennium rather than to the present fiscal year, the following facts clearly demonstrate that the statement that a deficit of between five and ten million dollars will result is far-fetched, to state it mildly.

The General Fund surplus, as of June 30, 1931, before enactment of any appropriations by the present Legislature, was conservatively estimated at more than $30,000,000. The Budget Bill, as passed by the Legislature, reduced this surplus to approximately $21,250,000 Special appropriation bills and deficiency bills already passed and signed by you total $1,250,000. This reduced the General Fund surplus to $20,000,000. In addition, there are special appropriation bills, which have passed at least one house, now before the Legislature, totaling approximately $6,000,000. If all of these bills are enacted into law, the General Fund surplus (estimated as of June 30, 1933) will be approximately $14,000,000. It is obvious from these figures that the State is not facing a deficit for the ensuing biennium. Should the present business depression be more severe and of greater duration than was estimated in the Budget, the effect upon revenues at the utmost could not produce a further reduction in the surplus of more than $5,000,000. The best information at the present time indicates an early improvement in business conditions. The

statement that the State is faced with a deficit of $10,000,000 is utterly without foundation.

As Director of Finance, I would be remiss if I did not point out to you, at this time, that the special appropriation bills which have passed both houses or are awaiting final passage are in excess of $6,000,000, and if all of these bills become law, it will reduce the estimated General Fund surplus, as of June 30, 1933, at least $1,500,000 below the $15,000,000 which I consider the minimum amount which must be maintained as a surplus to adequately carry on the business of the State of California. In this time of financial depression, it is even more essential that we should make sure that at least $15,000,000 is maintained as a continuous surplus. It is apparent, therefore, that all of these special appropriation bills cannot be approved.

In your budget recommendations to the Legislature you provided for a reduction of the General Fund surplus of approximately $9,000,000. This largely carried out your promise, made to the people, that you would reduce the General Fund surplus to carry on the ordinary functions of government, in this period when revenues are decreasing; you likewise, in your inaugural address, promised the people a reduction in the per capita cost of government. You will not be able to reduce the cost of State government, nor preserve the safety of the finances of the State, unless appropriation bills in sufficient amount are disapproved so as to maintain the General Fund surplus at not less than $15,000,000.

It should be further pointed out that the Budget submitted by you called for an increase of only $10,186,121.10 over expenditures for the prior biennium, which is 3.9 per cent increase as compared with an average increase of 21 per cent in expenditures for previous bienniums during the effective date of the executive Budget. This Budget cut into the surplus only $9,000,000 and would have left approximately $21,250,000 in the surplus at the end of the biennium. Therefore, if the surplus is entirely wiped out and a deficit does result, the responsibility lies largely with the Legislature.

The Treasurer is quoted as paying his compliments to this Legislature by calling it the most disorganized the State has ever known and further states that when it adjourns it will have accomplished less than any of the Legislatures in the last 20 years.

As Director of Finance, I would like to state to you that I believe all agree that the Finance Committees of this Legislature gave more consideration to the Budget and to appropriation bills than any Legislature since the adoption of the executive Budget. The members are well aware of the fact that we are having a financial depression, but this Legislature appears to be more willing to place its trust and its faith in the Department of Finance and the State Controller, who have access to the general records of the State and direct information affecting its finances, than in the less comprehensive information available to the State Treasurer.

The State Treasurer is responsible, on the revenue side, for so loaning the funds of the State of California that the largest interest earning will be available to help prevent any falling off in the General Fund surplus. It is expected that he will do his part in seeing that the largest revenue is secured from this source. There is no doubt that the other responsible departments of the administration will do their utmost to secure all of the legitimate revenue it is possible to secure, and likewise to economize to the fullest extent to see that expenditures are held to the minimum and that the taxpayers secure the largest possible return for the money expended.

The present Budget, with the smallest percentage of increase in years, makes possible the arresting of the upward curve of per capita cost of the State government in California, for the first time since the World War. This, in itself, should be sufficient manifestation that this administration is well aware of the economic depression and the necessity to economize and has met it squarely.

Respectfully yours,

ROLLAND A. VANDEGRIFT, Director of Finance.

REQUEST BY MR. HONNOLD.

The following request by Mr. Honnold was read, and the request granted:

SACRAMENTO, CALIFORNIA, May 16, 1931.

Hon. Edgar C. Levey, Speaker,
Assembly, Sacramento, California.

MR. SPEAKER. I request that the attached memorandum be printed in the Journal, and

Further request that permission be granted to print one thousand (1000) copies of this communication to which is also printed, as a part thereof, Assembly Constitutional Amendment No. 43 as introduced.

These are for general circulation in the water conservation question, and it is desirable to have them printed as a supplement to the Journal rather than included in the last edition of the Journal which will be lengthy.

Very truly yours,

A. R. HONNOLD.

May 14, 1931.

MR. SPEAKER Many members of the Legislature and parties interested in conservation have asked for a short general statement regarding the provisions of Assembly Constitutional Amendment No. 43, introduced by me on May 5, 1931, and which remained in committee.

Numerous legislative committees have made investigations and reports to the Legislature of the State during the past decade. In addition to this, a vast amount of research work and investigation has been made at a cost of a very large sum of money and is available in the State Engineer's office and in the records of the water resources branches of the United States.

Among the outstanding recent reports is that of the Hoover-Young Commission submitted last December, and the more recent report of Governor Rolph's Committee, made February 24, 1931, and the last report, being a joint committee of the Senate and Assembly, which report bears the date of March 23, 1931.

The Rolph Committee in conclusion stated that it was the belief of that committee that the recommendations of the Federal-State Commission (the Hoover-Young Commission) have been carried out as far as possible at this time; that with the information and assurances now at hand from the executive and legislative departments of the United States, the way is open for the State of California, through its Legislature, to proceed further by preparing and submitting to the vote of the people of the State the constitutional amendments necessary before the State can act. The joint committee report generally accords to the same view.

Numerous projects were considered and mentioned in the Hoover-Young Commission's report which may become component parts of the whole of a coordinated conservation system of the State That committee recommended that a commission be appointed to confer with the federal officials in Washington, which was done in the selection and by the report of the Rolph Commission above referred to.

The *Hoover-Young Commission recommended, secondly, that bills be introduced* at this session of the Legislature for necessary constitutional amendments and legislation, and recommended that these measures be generally formed so that they may be amended in the future. One of the constitutional amendments suggested was to give the State authority to guarantee to the federal government the reimbursement of its portion of the cost of the Kennett-San Joaquin project and giving the Legislature rather wide authority to determine the district which would be benefited and which would bear the cost, and to provide for its assumption of such obligation. Another proposed amendment was to authorize the State to guarantee the bonds of the district having in charge the Colorado River Water Project with appropriate provisions for reimbursement, and a third creating a special tribunal to appraise for condemnation purposes the value of water rights and other properties that must be acquired.

The commission further recommended the distinct importance of the work of collecting data as to stream-flow and underground water records, of investigating the value of watershed cover in the conservation of water, and of forest fire protection No engineering details were gone into by the commission as these are covered by reports of the State Department of Public Works and by federal representatives.

The Rolph Committee recommended immediate action by the Legislature as recommended above and, second, the informing of Congress of the water problems of the State and a proposed plan by congressional inspection trips of furnishing data and information and in all other possible ways of assistance, and that a close and continuous contact be kept with federal agencies who are interested.

In the hope of giving something constructive upon which to base a consideration of the very important question at hand, Assembly Constitutional Amendment No. 43 was introduced by me. I believe that a comprehensive amendment to the constitution can be drafted that will give ample authority to carry out not only the recommendations of the two commissions, but which may be found elastic enough to carry on the work of conservation on a coordinated water plan for many years; one that would be adopted by the people and which may be satisfactory to all concerned. It will be difficult to secure a favorable vote of the people on an amendment wherein specific projects are directed to be constructed.

The plan in general embodied in Assembly Constitutional Amendment No. 43 is patterned after the Federal Reclamation Act of 1902, an act which has been in operation for 29 years and under which the government has operated in all the western states in constructing irrigation, drainage, and reclamation projects costing into the hundred millions.

The writer has confidence and faith in the plan embodied in Assembly Constitutional Amendment No 43. As a district counsel for eight years in the United States Reclamation Service and for part of the time a special assistant to the Attorney General of the United States in connection with such works, I had responsible charge of the legal work in the field and from a time early in the development under that service was active in the preparation of legislation and amendments and interpretation of the laws of the several states operating under the project and closely identified with those large developments. I feel my experience of many years in that service of development, from recognizance to completion, may be of material benefit to California.

Under the plan proposed, the Conservation Bureau becomes a permanent body through whom and by whom all activities are to be performed. Data and works thus become of permanent use and available from year to year. The bureau through its activities and investigations can outline and carry to conclusion a comprehensive coordinated scheme throughout the entire State. It can investigate projects and report upon their practicability, feasibility, cost, the approximate returns, and what portion of the cost the land to be reclaimed can stand. It would have authority to negotiate with the federal government and ascertain what portion of the cost and upon what terms the government would advance a part of the cost. It would make its findings known to the Legislature from time to time and, the Legislature then having all the data as to any specific project, would act thereon and authorize or reject its construction. If the State should do any of the work this bureau becomes the contracting and executing agent under the direction of the Legislature.

The amendment provides for the acquisition of property and rights. No liability or expense will be created except by consent of the people expressed through the Legislature.

The proposed constitutional amendment has the advantage of being short and compact, yet sufficient. The entire Reclamation Act of the United States above referred to consisted only of ten sections in the beginning and there is no reason why the constitutional amendment to be adopted by California should explicitly state the projects to be constructed. It should rather be general in its terms, clothe the Legislature with certain authorities, and should not set out therein certain definite projects to be constructed. In the development of an irrigation or reclamation enterprise many changes may occur from year to year and there should be flexibility by which adjustment may be made as conditions require.

Respectfully submitted.

A. R. HONNOLD,
Assemblyman Eightieth District, Escondido, California.

MR. SPEAKER: Your Committee on Revenue and Taxation, to which was referred:

STATE OF WISCONSIN.

[Jt. Res. No. 38, A.] No. ——, 1931.

Joint Resolution.

Memorializing Congress to enact a law making income from royalties on patents and copyrights taxable under state income tax laws.

WHEREAS, In Long *vs* Rockwood, 277 U. S. 142, decided two years ago, the United States Supreme Court in a five to four decision held unconstitutional, as violation of section 8 of article I of the United States constitution the attempt of the state of Massachusetts to tax income from royalties on patents and copyrights; and

WHEREAS, In Educational Film Corporation of America *vs.* Hamilton Ward, a case decided January 12, 1931, the United States Supreme Court held valid an excise tax imposed by the state of New York on the income from royalties received from patents and copyrights; and

WHEREAS, Many cases are now pending in the courts of this state involving the question whether the attempt of this state to tax the income from royalties on patents and copyrights violates the federal constitution; and

WHEREAS, The decisions of the United States Supreme Court herein mentioned leave uncertain whether income from royalties can now be taxed under a state income tax law; and

WHEREAS, Congress can remove this doubt by specifically providing that royalties on patents and copyrights may be taxed under the state income tax laws; now, therefore, be it

Resolved by the Assembly, the Senate concurring, That this legislature hereby respectfully memorializes the Congress of the United States to enact legislation to specifically authorize the states to tax royalties on patents and copyrights to the same extent and in the same manner as they tax other income, be it further

Resolved, That properly attested copies of this resolution be transmitted to both houses of the Congress of the United States and to each Wisconsin member thereof, and also to both houses of the legislatures of all states having state income tax laws whose legislatures are now in session.
