Statement of Vote.

On this day, Monday, April 26, 1937, I voted to amend Assembly Bill No. 500 for the sole purpose of restoring in the Budget Bill, approximately $8,000,000, that in my opinion should be allocated to direct relief instead of major construction work.

The budget as originally introduced provided for the sum of $48,000,000, to be used for direct relief, but the Ways and Means Committee cut the appropriation approximately $8,000,000.

I am of the firm belief that the unemployment problem is still with us, and will be for some time to come, and it is my desire with my vote to try and provide food and shelter for those who may need it.

Explanation of Vote on Assembly Bill No. 500.

Pursuant to Mr. Lyon's motion of April 27, 1937, the following explanations of vote were ordered printed in the Journal

Statement of Vote by Republican Members.

The undersigned members of the Assembly offer the following as explanatory of the votes cast by them on April 26, 1937, on the passage of Assembly Bill No. 500, called the "Budget Bill":

The Assembly Committee on Ways and Means, by vote of the Democratic majority members, made certain amendments to the bill which were objected to by the signers hereof as inimical to the interests of the citizens of California. Items amounting to $6,201,000, originally incorporated in the budget for major and minor construction in various State mental and corrective institutions and hospitals, were deleted from the bill and set up under the relief provisions of the measure.

There being no likelihood of Federal assignment of funds for unemployment aid to cover the purchase of equipment needed for these institutions, the inclusion of these amounts under relief provisions is abortive.

We also protest the item of $497,500 appropriated for the Santa Barbara State College at the instigation of the Chairman of the Committee on Ways and Means as discriminatory and unfair when compared to the paltry allowances granted other State colleges

We have voted for the Budget Bill as amended by the committee only because a negative vote would mean a substantial reduction in general fund appropriations by the amount of $65,139,220, all of which would seriously cripple the functions of our State Government.

While this amended budget purports to reduce the amount of the submitted budget, as a matter of fact it increases the budget, as the Democratic members propose to carry certain capital investments contemplated in the original budget in separate bills. The total of the final State expenditures will, therefore, be in excess of the budget by over $4,000,000.

Statement of Vote by Democratic Members.

In view of the misstatements inserted in the Journal by the Republican members in explanation of their vote on Assembly Bill No. 500—the Budget Bill—the undersigned Democratic members hereby submit the following explanation of their vote in connection with the said bill:

The Federal Government has followed the consistent policy of subsidizing States on work relief projects. The Governor and Republican majority have consistently refused to take advantage of this policy of the Federal Government. They propose to make the California taxpayers bear the whole burden of construction and improvement work on State institutions. The Democratic majority did not change the proposed appropriations—they only placed them in the Unemployment Relief Budget in order that the State of California might gain from $1,000,000 to $4,000,000 in Federal subsidies.

With reference to the Santa Barbara State College, the Federal Government is likewise matching this appropriation and the citizens of Santa Barbara are donating approximately $2,000,000 in buildings to the institution and the Democratic members are only being consistent in their steadfast policy of supporting public education when they voted for this appropriation.

The Republican members have desperately endeavored to contend that the Democratic majority are spendthrifts and have increased the budget. The fact of the matter is, by the simple process of addition of the appropriation items the sum total difference between the budget proposed by the Governor and the budget enacted by the Democratic majority saves the taxpayers of California $4,000,000, provides adequately for all the proper functions of government and enables the State to obtain funds from the Federal Government that would not otherwise be forthcoming.

The Republican members of the Committee on Ways and Means and on the floor have been almost without exception in favor of increasing beyond all reason State expenditures, both in the budget and in separate appropriation bills. Their action is dictated by nothing more than petty political strategy, their intention being to label the Democratic majority as spendthrifts. Now that their strategy has failed they are desperately seeking to justify their actions.

For the reasons above set forth, we voted for Assembly Bill No. 500.

Such notice need not be in any particular form, but shall be sufficient if the date, number and series of the street improve-

Amendment No. 2.

On page 1 of the printed bill, strike out lines 1 to 20, inclusive, and on page 2 strike out lines 1 to 4, inclusive, and insert in lieu thereof the following:

"SECTION 1. Section 1 of the act designated in the title hereof is hereby amended to read as follows:

Section 1. All bonded indebtedness consisting of outstanding unpaid bonds and outstanding unpaid interest coupons of bonds issued by or for any special improvement district, the bonds of which are payable from taxes or special assessments levied wholly or partly in accordance with the assessed value of lands, may be funded or refunded under and pursuant to the provisions of this act. At least two of the interest coupons on the refunding bonds must be at a rate of interest less than the interest rate on the bonds to be refunded, and the rate of interest on the refunding bonds shall not exceed the rate of interest on the bonds to be refunded. The legislative body of the city or county or city and county which conducts the refunding

proceedings may negotiate and contract with the holders of bonds for such refunding and to aid in such refunding may appropriate moneys from any available fund of the city or county or city and county. Any county in which the district lies, whether the district be entirely or partly within a city or cities, or entirely or partially within unincorporated territory of the county, is hereby authorized to appropriate moneys from any available fund to assist in such refunding. Any city in which the district or any portion thereof lies is also authorized to appropriate moneys from any available fund to assist in such refunding. To assist in refunding the indebtedness of any district the county in which the district lies and any city in which any portion of a district lies are hereby authorized to contribute moneys to be received from the collection of delinquent county or city taxes, as the case may be, upon property within the district. In refunding such indebtedness under this act, the total amount of the reassessments to be levied under this act plus contributions, if any, of public money to aid in such refunding, except contributions for the payment of interest maturing or accruing subsequent to the date the resolution of intention in the refunding proceeding is adopted and moneys used for the payment of incidental expenses of the refunding proceeding, shall be less than the total amount of the outstanding unpaid bonds and the outstanding due and unpaid interest coupons which are to be refunded.

The legislative body making any contribution of public funds to aid or assist in the refunding must determine that the public interest, convenience or necessity requires such contribution.

SEC. 2. Section 2 of said act is hereby amended to read as follows:

Sec. 2. Whenever the legislative body of any city or county or city and county of this State determines by resolution that the public interest, convenience or necessity require the refunding of the indebtedness of any special improvement district which it is given jurisdiction to refund under the provisions of this act, said legislative body shall by resolution declare its intention to refund such indebtedness and shall determine the total maximum principal amount for which a reassessment shall be levied in the refunding proceedings, and shall determine the term of any refunding bonds to be issued to represent unpaid reassessments as herein provided and the rate or rates of interest of such bonds. The rate of interest during the entire term of such bonds need not be the same but different rates may be stated for one or more interest payments of such bonds. If such different rates of interest are proposed, each rate and the time during which such rate shall be paid shall be designated in such resolution. The amount of any proposed contribution of public funds to be made to assist in such refunding, except contributions for the payment of interest maturing or accruing subsequent to the date the resolution of intention is adopted and prior to the date the reassessment is recorded and money used for the payment of incidental expenses of the refunding proceeding, shall be stated in such resolution, but this shall not prevent said legislative body making additional contributions thereto at any time. In said resolution said legislative body shall state the total amount of the outstanding indebtedness to be refunded (which shall be deemed to be the principal amount of outstanding unpaid bonds and the amount of due and unpaid interest coupons), the amount of the principal of bonds included therein, and the amount of due and unpaid interest coupons included therein, all as of the date said resolution is adopted. No error or mistake in the computation of the amount of unpaid principal or unpaid interest shall affect the validity of the refunding proceedings, and no error or mistake in any statement of the amount of such principal or interest in any notice, resolution or order in the course of the proceedings shall invalidate in any way the reassessment or the refunding bonds or the refunding proceedings; provided that the total sum of the reassessment levied in the refunding proceeding, plus any contribution or contributions of public funds made to aid in such refunding, except contributions for the payment of interest maturing or accruing subsequent to the date the resolution of intention is adopted and prior to the date the reassessment is recorded and moneys used for the payment of incidental expenses of the refunding proceedings, shall not exceed the sum of the principal amount of the bonds to be refunded and the amount of the due and unpaid interest coupons to be refunded. If interest maturing or accruing subsequent to the date the resolution of intention is adopted and prior to the date the reassessment is recorded is to be paid, the resolution shall so state. Said resolution shall contain a statement that for any reassessment not paid within thirty days from the date of recordation thereof a bond will issue in the manner and form provided in this act (designating the act by title or other suitable reference).

Said resolution shall also contain a date, hour, and place for the hearing of objections to said refunding, and the date fixed for said hearing shall not be less than twenty days nor more than sixty days subsequent to the date of adoption of said resolution. Said resolution shall also contain a statement that the refunding shall not be authorized unless the written consent of the owners of a majority in area of the land in the district subject to assessment to pay the principal and interest of the outstanding bonds is filed with the clerk of the legislative body, and that any owner of land in said district may file his written consent to such refunding at any time prior to the adoption of the resolution ordering the refunding.

SEC. 3. Section 4 of said act is hereby amended to read as follows:

Sec. 4. (1) Jurisdiction, power, and authority to conduct proceedings for the refunding of indebtedness under this act and the levy of a reassessment therefor is conferred upon the legislative bodies of cities or counties, or cities and counties, as set forth herein. The legislative body, which ordered the bonds of any district which are to be refunded issued, shall have complete jurisdiction, power, and authority to conduct proceedings to refund the indebtedness of said district under this act and to levy a reassessment therefor

(2) If the district, the indebtedness of which is to be refunded, lies entirely within a municipality, the legislative body of said municipality shall have complete jurisdiction, power, and authority to conduct proceedings to refund such indebtedness under this act and to levy a reassessment therefor, and if the district, the indebtedness of which is to be refunded, lies entirely within unincorporated territory of a county, the legislative body of such county shall have complete jurisdiction, power, and authority to conduct proceedings to refund such indebtedness under this act and to levy a reassessment therefor It is the intent of this section that, in all cases of incorporation of municipalities, or annexation of territory to municipalities, or consolidation of municipalities, or exclusion of territory from municipalities, or the dissolution of municipalities, the jurisdiction, power, and authority which, under paragraph numbered (1) of this section, would have been vested in the legislative body which conducted the proceedings for the issuance of the bonds to be refunded, shall be vested in and may be exercised by the legislative body which, by reason of such incorporation, annexation, consolidation, exclusion, or dissolution, has jurisdiction at the time such refunding is begun over the territory of the assessment district; provided, however, that, in the event all of the territory of the district lies entirely within a municipality but the tax or assessment for the payment of principal and interest of the bonds which are to be refunded is levied by the legislative body of the county, the consent of the legislative body of such county to the refunding of the indebtedness of said district under this act and the levy of a reassessment therefor shall be obtained as hereinafter provided.

(3) In case an assessment district lies entirely within two or more municipalities, the legislative body of any municipality in which any part of the district lies may conduct the proceedings to refund the indebtedness of said district and to levy a reassessment therefor, and, in case the assessment district lies partly within unincorporated territory of a county and partly within one or more municipalities, the legislative body of the county, or of any municipality in which any portion of the district lies, may conduct proceedings to refund the indebtedness of said district and to levy a reassessment therefor; provided, however, that in any case in which the assessment district lies entirely within two or more municipalities, or partly within unincorporated territory of a county and partly within one or more municipalities, or in any case in which the legislative body proposing to conduct the refunding proceeding is not the legislative body which levies the tax or assessment for the payment of principal and interest of the bonds to be refunded, the legislative body which proposed to conduct the refunding proceeding shall obtain the consent of the legislative body of each municipality in which any part of the district lies, of the legislative body of the county in case a part of the district lies in unincorporated territory of the county, and of the legislative body which levies the said tax or assessment for the payment of principal and interest of the bonds to be refunded, to the refunding of the indebtedness of such district under this act and the levying of a reassessment therefor. Such consent shall be obtained prior to the adoption of the resolution of intention in the refunding proceeding and shall be expressed by resolution, a certified copy of which shall be filed with the clerk of the legislative body which proposes to conduct the refunding proceedings on or before the date the resolution of intention in the refunding proceedings is adopted. When such consent has been given, the legislative body to which the consent has been granted shall have complete jurisdiction, power, and authority to refund the bonds of such district under this act and to levy a reassessment therefor under the provisions hereof.

SEC. 4. Section 6 of said act is hereby amended to read as follows:

Sec. 6. The total amount for which said reassessment shall be levied shall not exceed the total principal amount of such reassessment as stated in the resolution of intention, but may be for a smaller amount Said reassessment shall be made upon all such lots, pieces or parcels of land within the assessment district as are subject to tax or assessment to pay the principal and interest of the outstanding bonds to be refunded. The total amount to be reassessed shall be apportioned upon said lots, pieces and parcels of land in the manner hereinafter set forth, to wit: to the total principal amount of the reassessment proposed to be levied shall be added the total sum of all of the amounts (including such interest and penalties as go into such fund) paid into the interest and sinking fund of such district on or prior to the date the resolution of intention in the refunding proceedings was adopted, upon taxes or assessments levied upon any lot, piece or parcel of land subject to reassessment in the refunding proceeding to raise funds to pay the principal or interest or both of bonds of said district the bonds of which are to be refunded The total amount of the two sums shall be apportioned as an assessment upon all such lots,

pieces or parcels of land within the assessment district as are subject to tax or assessment to pay the principal and interest of the bonds to be refunded. The person making the reassessment shall proceed to estimate upon the lots, pieces or parcels of land within the assessment district and, subject to reassessment under the terms of this act, the benefits arising from the acquisition or improvement, or acquisition and improvement, for which the bonds to be refunded were issued and to be received by each such lot, piece or parcel of land, and shall thereupon assess upon and against the said lands the total amount of the two sums hereinbefore in this section mentioned and in so doing shall assess the said total amount upon the several lots, pieces or parcels of land in said assessment district subject to reassessment in the manner following, to wit:

Upon each lot, piece or parcel of land, respectively, in proportion to the estimated benefits received by each such lot, piece or parcel of land from the acquisition or improvement, or the acquisition and improvement, for which the bonds to be refunded were issued.

When said total amount has been assessed upon each of the lots, pieces or parcels of land to be reassessed there shall be deducted from the amount so assessed upon any lot, piece or parcel of land any sum (including interest and penalties, if any) paid into the interest and sinking fund of the district on or prior to the date of adoption of the resolution of intention in the refunding proceeding upon a tax or assessment levied upon any such lot, piece or parcel of land to pay the principal and interest on bonds of said district. In case any such lot, piece or parcel of land was a portion of a larger parcel of land for which a payment was made, the portion of such payment to be deducted from the amount assessed against such smaller lot, piece or parcel of land shall be that proportion of such payment which the amount assessed against said smaller lot, piece or parcel of land bears to the total amount assessed against all of the parcels which comprised said larger parcel of land. After all of the amounts of taxes and assessments, including any penalties and interest paid into the interest and sinking fund, have been deducted from the amount assessed to each such lot, piece or parcel of land, the amounts remaining assessed against each such lot, piece or parcel of land shall be deemed reassessments and shall comprise the total reassessment to be levied and shall in total amount be the sum stated in said resolution of intention or a smaller sum. If in any case the amount paid as ad valorem taxes or assessments upon any parcel of land should exceed the amount assessed as benefits against said parcel, no refund shall be made to any property owner.

SEC. 5. Section 9 of said act is hereby amended to read as follows:

Sec. 9. SEC. 9. Section 31 of said act is hereby amended to read as follows:

Sec. 31. When all or any part of the lands in any district, the indebtedness of which could be refunded under the provisions of this act, lie in any other district or districts, the indebtedness of which could be refunded under the provisions of this act, all or any number of such districts which wholly or partially overlap may be included in one refunding proceeding and the total indebtedness of all of the districts so included in one proceeding may be refunded in such proceeding and one issue of refunding bonds issued and one reassessment levied therefor. It is the intent of this section to permit, but not to require, the refunding in one proceeding of the indebtedness of all districts which wholly or partially overlap, and to authorize the refunding in one proceeding of the indebtedness of any number of districts where some part of the area of each of the districts lies wholly or partially within the boundaries of one or more of the other districts included in the same refunding proceedings, and such refunding in one proceeding of the indebtedness of two or more districts may be called "multiple district refunding"

A multiple district refunding proceeding may be conducted by the legislative body of the county if any portion of any of the districts to be included in the proceeding lies in unincorporated territory of the county, or by the legislative body of any municipality in which any portion of any of the districts proposed to be included in the proceeding lies, upon obtaining consent of other legislative bodies as herein required.

If the legislative body of a city is conducting the multiple district refunding proceeding, the refunding may include a district or districts lying entirely outside the boundaries of such city upon obtaining consent as herein provided and, if the legislative body of a county is conducting the proceeding, the refunding may include

a district or districts lying entirely within the boundaries of one or more incorporated cities upon obtaining consent as herein provided. The provisions of this section are to be liberally construed, to the end that jurisdiction to refund in one proceeding the indebtedness of any and every combination of districts now existing shall be full and complete.

In the event that all or any part of any district included in any multiple district refunding proceeding lies outside of the boundaries of the city, the legislative body of which proposes to conduct the proceeding, the consent of each municipal corporation in which any part of the district lies, the consent of the county, if any part of the district lies in unincorporated territory of the county, and the consent of the legislative body which levies the taxes or assessments for the payment of principal and interest of the outstanding bonds of such district, shall be obtained to the refunding of the indebtedness of such district in the multiple district refunding proceeding, and to the levy of a reassessment therefor. In the event the legislative body of a county proposes to conduct the multiple district refunding proceeding and all or any part of any of the districts to be included in such proceeding lies within any incorporated city or cities, the consent of each municipal corporation in which any part of said districts lies, and the consent of the legislative body which levies the taxes or assessments for the payment of principal and interest of the outstanding bonds of such district, shall be obtained to the refunding of the indebtedness of such district in the multiple district refunding proceeding and to the levy of a reassessment therefor. Such consent shall be obtained prior to the adoption of the resolution of intention in the multiple district refunding proceeding and shall be expressed by resolution, a certified copy of which shall be filed with the clerk of the legislative body which proposes to conduct the multiple district refunding proceedings on or before the date the resolution of intention in such proceedings is adopted. When such consent has been given by the legislative bodies of each of the cities, the consent of which is required, and by the legislative body of the county, if the consent of such body is required, the legislative body to which the consent has been granted shall have complete jurisdiction, power, and authority to refund the indebtedness of the districts included within such multiple district refunding proceedings, and to levy a reassessment therefor under the provisions of this act.

The districts included in any multiple district refunding proceeding need not be formed under the same act, but, if formed under any act under which taxes or assessments are levied wholly or partly in accordance with the assessed value of lands, the indebtedness thereof may be refunded in one refunding proceeding hereunder. Such multiple district refunding proceeding shall be had and the reassessment levied under the provisions of this act as modified in this section, and under the same general procedure provided for refunding the indebtedness of a single district, so far as applicable, and the legislative body conducting the proceeding is authorized and empowered to adapt or modify any and all resolutions, orders, notices, summons, records, bonds, and all other proceedings provided for under this act so as to fully provide for such multiple district refunding hereunder.

If the legislative body which proposes to conduct the multiple district refunding proceeding determines by resolution that the public interest, convenience or necessity requires the refunding of the indebtedness of all of the districts to be included therein in one refunding proceeding, it may proceed to conduct such refunding proceeding under the terms of this act. The consent of the city or cities or of the county, hereinbefore required under the provisions of this section, shall be obtained prior to the adoption of the resolution of intention in the multiple district refunding proceedings.

The total amount of the proposed reassessment shall be fixed by the legislative body conducting the multiple district refunding proceeding in the resolution of intention.

The resolution of intention and the notice of hearing on the proposed reassessment shall describe the exterior boundaries of the area comprising the districts included in the multiple district refunding proceeding by stating the exterior boundaries thereof, or by giving a description thereof according to any official recorded map or maps, or by referring to a plat or map approved by the legislative body conducting the proceeding which shall be on file in the office of the clerk of the legislative body of the city or county conducting the proceeding at the time the resolution of intention is adopted, which said plat or map shall indicate by a boundary line the extent of the total territory comprising all of the said districts, and said plat or map shall govern for all details as to the extent thereof. The total area comprising the said districts need not be described in any notice, resolution, or order other than the resolution of intention and the notice of hearing on the proposed reassessment.

The resolution of intention and all posted or published notices shall name or otherwise designate the districts included in the multiple district refunding proceeding, but need not describe the boundaries thereof, and the resolution of intention shall state separately the amount of the outstanding indebtedness of each such district, and that it is proposed to refund the indebtedness of all of the districts named or otherwise designated therein in one refunding proceeding and to levy one

reassessment therefor and to issue one issue of refunding bonds therefor, and shall state that the refunding shall not be authorized unless the consent of the owners of a majority in area of the lands included within each of the districts, who shall likewise be the owners of a majority in area of the lands included within the exterior boundaries of the total area which comprises the districts, is filed with the clerk of the legislative body conducting the proceeding, and that any owner of land in any of the districts may file his written consent to such refunding at any time prior to the adoption of the resolution ordering the refunding. If, at the hearing provided in section 3 hereof, the legislative body determines that the written consent of the owners of a majority in area of the lands in each of the districts, who are likewise the owners of a majority in area of the lands included within the exterior boundaries of the total area comprising the districts, has been filed, it shall be authorized to proceed with such multiple district refunding and to make a reassessment and issue refunding bonds therefor as in this act provided. The reassessment shall be spread over all of the lands in the total area comprising the districts and subject to tax or assessment for the payment of principal and interest of any of the bonds of the districts to be refunded in the proceeding. To the total sum of the reassessment shall be added the total sum of all taxes upon land and all assessments, including interest and penalties, paid into the interest and sinking fund of any of the districts for the payment of principal or interest or both of any bonds of the said districts, the indebtedness of which is to be refunded The total amount of the two sums thus ascertained shall be assessed upon and against all of the lands within the total area comprised by the districts and upon each lot, piece or parcel thereof in proportion to the estimated benefits received by each such lot, piece or parcel of land from the acquisitions or improvements or acquisitions and improvements to pay for which the indebtedness proposed to be refunded was incurred. From the assessment thus made upon each lot, piece or parcel of land shall be deducted the amount of such taxes upon land and such assessments (including interest and penalties, if any) paid into the interest and sinking fund of any of said districts on or prior to the date of adoption of the resolution of intention in the multiple district refunding proceeding upon a tax or assessment levied upon any such lot, piece or parcel of land to pay principal or interest or both of bonds of any of the districts included in the multiple district refunding proceeding. The amounts remaining after such deductions have been made shall be and constitute the reassessments and shall comprise the total reassessment to be levied and the total amount of such reassessments shall be the total sum of the reassessment stated in the resolution of intention or a smaller sum.

In the event that the holders of one or more of the outstanding bonds of any of the districts included in the multiple district refunding proceeding do not enter any contract with the legislative body to refund the same, nevertheless, if the holders of seventy-five per cent or more of the total amount of the outstanding bonds of all of said districts do contract with the legislative body which conducts the refunding proceedings for the refunding of the bonds owned or held by them, said legislative body shall have authority to refund all of the indebtedness of the districts included in such multiple district refunding proceeding under the provisions of this act, but, in such event, prior to recording the reassessment levied under this act, sufficient moneys to adequately provide for the retirement or payment of the bonds of the nonconsenting holders must be provided and set aside in the proper fund or funds for that purpose. The word "bonds" as used in this paragraph shall be deemed to include due and unpaid interest coupons.

This act is remedial in nature and shall be liberally construed. No proceeding taken, reassessment levied, or refunding bond issued hereunder shall be held invalid for failure to comply with the provisions of this act; provided that the acts done and proceedings taken are not invalid under the provisions of the State and Federal Constitutions. To effectively and speedily accomplish the refunding of the indebtedness of these districts the legislative body conducting any refunding proceeding hereunder and all other officials taking any part therein, or upon whom is imposed any duty under this act, are hereby authorized and empowered to take any and all steps and proceedings and perform any and all acts, within the limitations of the State and Federal Constitutions, necessary or convenient for the refunding of the indebtedness of any district or districts under this act, and the levy and enforcement of reassessments therefor. The remedies provided for the enforcement of any reassessment levied under the provisions of this act are not exclusive and additional remedies may be provided at any time The curative clauses of this act are cumulative and each of them is to be given full force and effect.

SEC. 10. Section 33 of said act is hereby amended to read as follows

Sec. 33 The word "improvement" where used in the phrase "special improvement district" in this act shall mean any public improvement of any nature whatsoever, including any acquisition of lands, rights of way or easements for public use, any acquisition or construction of buildings, structures or public works of any kind or nature, or a combination of any or all of the foregoing, and the word shall be given its broadest and most liberal construction as including all acquisitions of land and all acquisition and construction of public works authorized under any law

of the State of California, including particularly the Acquisition and Improvement Act of 1925, the Road District Improvement Act of 1907 and the Municipal Improvement District Acts of 1915 and 1927.

This act shall be known as and whenever mentioned, cited, referred to or amended may be designated as the "Assessment Bond Refunding Act of 1933" and by such designation shall be sufficiently identified in any proceeding hereunder or in any court action or proceeding, and whenever under the procedure set forth in this act the title of the act is to be stated in any resolution, notice or order, it shall be sufficient to designate the act as provided in this paragraph.

The legislative body which conducts the refunding proceedings is authorized to pay any incidental expenses of such proceedings from any available funds of the city or county, or city and county, but no such incidental expenses of such proceedings shall be assessed upon lands in the district. Payment of the incidental expenses shall not be deemed a contribution within the meaning of section 2 of this act.

Whenever any resolution, order, notice, or determination is required to be published or posted and the duty of the posting, or procuring the publication or posting, of the same is not specifically enjoined upon any officer of the city or county, as the case may be, it shall be the duty of the clerk of the legislative body to post, or to procure the publication or posting thereof, as the case may be. No proceeding or step herein shall be invalidated or affected by any error or mistake or departure therefrom as to the officer or person posting, or procuring the publication or posting of, any resolution, notice, order, or determination hereunder when the same is actually published or posted for the time herein required

This act shall in no wise affect any other act or acts now existing or which may hereafter be passed covering the same subject matter, or apply to any proceedings thereunder, but is intended to and does provide an alternative system for the refunding of bonds, and, when in the discretion of any legislative body proceedings are commenced under this act the provisions of this act only shall apply thereto.

This act and all of its provisions shall be liberally construed to the end that the purposes hereof may be made effective. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portion of this act. The Legislature hereby declares that it would have passed this act irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases thereof be declared unconstitutional.

SEC. 11. A new section is hereby added to said act, to be numbered section 34 and to read as follows:

Sec. 34. Any lot, piece or parcel of land which has been deeded to the State for delinquent taxes, or for delinquent taxes and assessments, (which may be called herein for brevity, tax deeded lands) shall be subject to reassessment in any refunding proceeding hereunder, and in any such proceeding the Controller of the State of California is authorized and empowered to sign any consent or consents to the refunding and reassessment for the State of California and the board of supervisors of the county in which the property lies is authorized and empowered to consent to the refunding and reassessment by resolution.

Anything to the contrary in this act notwithstanding, if any reassessment levied upon any lot, piece or parcel of said tax deeded land is not paid within the thirty day period provided for cash payments of reassessments, the list of unpaid reassessments filed with the Treasurer shall include the reassessment upon any such lot, piece or parcel of tax deeded land and a refunding bond shall be issued to represent such unpaid reassessment. In the event of default in the payment of any installment of interest or principal of any bond issued to represent any reassessment upon tax deeded land, the land may be sold or a foreclosure suit brought under this act as in the case of other land. In any such suit to foreclose, or in any suit to quiet title brought by the purchaser at the Treasurer's sale, or by his successor in interest, the State of California may be made a party defendant and in that event it shall be sufficient service of process to serve the same upon the Attorney General of the State of California.

When a reassessment has been levied upon any parcel of tax deeded land, upon the recordation of the reassessment, notice that the bonds of the district have been refunded and that the unpaid taxes and special assessment taxes levied to pay principal and interest of the bonds refunded are canceled shall be sent by the clerk of the legislative body which conducted the refunding proceeding to the auditor of the county in which the land lies, and he shall compute the amount of the unpaid taxes or special assessment taxes, penalties and interest so canceled and shall notify the State Controller thereof, and such amount shall be deducted from the sum for which the property was sold to the State, in computing the amount necessary for a redemption of the property or in any sale of the property by the State.

The refunding of the indebtedness of overburdened ad valorem special improvement districts so as to eliminate pyramiding of assessments and taxes, thus making the property available for development and restoring it to the tax rolls, is declared to be an important policy of this State and all necessary authority, power and jurisdiction to impose a valid reassessment upon lands deeded to the State for delinquent taxes or for delinquent taxes and assessments and to enforce the lien of such reassessment is hereby granted, and any and all acts and proceedings of every kind and

nature necessary for the levy of a valid reassessment and for the enforcement of the lien of such reassessment are hereby authorized.

SEC. 12 This act is hereby declared to be an urgency measure, necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of Article IV of the Constitution of the State of California, and shall take effect immediately The following is a statement of the facts constituting such necessity:

The indebtedness of special improvement districts payable from ad valorem assessments or from general taxes is, in many instances, greater than the property within the district can bear. Pyramiding of the taxes and assessments has resulted in districts becoming almost entirely delinquent and in preventing the upbuilding and development of the lands in such districts In many of such districts general taxes and the special assessments have been delinquent for several years In many of such districts large blocks of land have been sold to the State for delinquency in the payment of taxes and assessments and deeds to the State have been issued thereon Property in these districts which comprise substantial areas is almost entirely unproductive of revenue for school, city and county purposes In some districts this lack of revenue has hampered and prevented the city from providing adequate police and fire protection, sanitation and other health facilities By refunding the obligations of such districts under this act, delinquent general taxes will be paid speedily, the properties will be restored to the tax roll and tax revenues will be provided to meet the urgent needs of the cities, school districts and counties Unless this relief is immediately given, many thousands of property owners will lose their property, millions of dollars in taxes will be uncollectible, and funds necessary to provide for the safety and health of the inhabitants of many districts will not be supplied The immediate refinancing of the indebtedness of these districts as provided in this act will save property owners from loss of their property, restore property to the tax rolls, provide funds needed for public safety, sanitation and health purposes, and permit building and development now stopped by fear of pyramiding"

Assembly Bill No. 1753—An act to repeal section 10880 of the Insurance Code, and to add a new section to be known as section 10880, relating to the conversion of mutual companies to legal reserve companies.

Committee Amendments to Assembly Bill No. 1753.

The following amendments were submitted by the committee:

Amendment No. 1.

On page 1, lines 1 and 2 of the title of the printed bill, strike out "repeal section 10880 of the Insurance Code and to add a new section to be known as section 10880", and insert in lieu thereof the following: "add Article 11.5 to Chapter 9, Part 2, Division 3 of the Insurance Code".

Amendment No. 2.

On page 1, line 3 of the title of the printed bill, strike out "companies", and insert in lieu thereof the following: "insurers".

Amendment No. 3.

On page 1 of the printed bill, strike out lines 1 to 26, inclusive, and insert in lieu thereof the following:

"SECTION 1. Article 11.5, comprising sections 10883.11 to 10883.27, inclusive, is hereby added to Chapter 9, Part 2, Division 2 of the Insurance Code, to read as follows.

Article 11 5. Transformation to Stock Company.

10883.11. Any domestic insurer now in existence, which shall now or hereafter be subject to the provisions of this chapter, possessed of admitted assets in excess of all liabilities, and having completed its statutory deposit, may transform to a legal reserve stock company on the stipulated premium plan with a paid-in capital stock of not less than $25,000. Until the paid-in capital stock of such insurer is $250.000, no new policies shall be issued by such insurer which would result in its paid-in capital falling below $5 for each $1,000 of life insurance in force.

10883.12. For the purpose of transforming to a stock company, as herein provided, a quorum of the policyholders shall be not less than 15 per cent of all its policyholders.

10883 13. Such insurer shall not transform to a stock company without the affirmative vote of a majority of such quorum of its policyholders voting at a special meeting called for such purpose. At such meeting, the policyholders shall vote in person or by special proxy given for the purpose of voting on such transformation.

10883.14. The application for the permit to issue such stock shall be made pursuant to Article 8, Chapter 1, part 2, Division 1 of this code and shall set forth the purpose of and the need for the sale of such stock.

10883.15. The capital stock issued at the time of transformation shall be first offered to each policyholder of the insurer in the ratio that the total number of shares authorized for such issue bears to the total number of policyholders at the date of transformation. Any such stock not subscribed by any policyholder within 30 days from the date of offering may be offered to the public.

10883.16. All capital stock shall be sold for cash or securities legal for investment of all assets of insurers, subject to approval by the commissioner, at not less than 150 per cent of its par value. The total expense of the sale of such stock shall not exceed 10 per cent of the selling price. The stock certificates shall provide that at any time after the expiration of 20 years after the date of transformation, the commissioner may require the insurer to submit to its policyholders a plan of mutualization. The commissioner shall formulate such plan and submit it to the insurer In the event such plan of mutualization is not acceptable to such insurer, a satisfactory plan shall be arrived at by arbitration, as follows:

10883.17. The commissioner shall appoint one arbitrator, the insurer shall appoint one arbitrator, and the two so appointed may appoint a third. Any plan adopted by any two of said arbitrators shall be final and binding upon the insurer and said commissioner upon the approval of the plan by a majority of not less than 15 per cent of the policyholders voting at a meeting called for that purpose. In the event of rejection of such plan by the policyholders, the commissioner shall not again require the submission of a plan of mutualization until the expiration of at least five years thereafter.

10883.18. Stock in such insurer shall not acquire any right of ownership or participation in unassigned reserves or surpluses belonging to such insurer at the time of transformation.

10883.19. All life insurance written by such transformed insurer shall be upon a reserve basis not less than as required at the date of transformation in Article 9, Chapter 9, Part 2, Division 2 of this code but the transformation of such insurer shall not affect the rights or obligations of the insurer or its policyholders on any contract theretofore made.

10883 21. The contracts of such insurer may provide for not more than one year preliminary term insurance by incorporating therein a clause plainly showing that the first year's insurance under such contracts is term insurance, purchased by the whole or a part of the premiums to be received during the first contract year. The reserve according to the standard prescribed by said Article 9 shall be without the modifications therein permitted, but, after such preliminary term, may be modified by being reduced for the first and second policy years by the following percentages: first year, 50 per cent; second year, 50 per cent.

10883 22. If, by reason of excessive mortality, the life insurance reserves of such insurer shall become impaired, the commissioner shall require the officers of such insurer to notify all life insurance policyholders, by mail addressed to the last known address of each policyholder, on or before the first day of the next succeeding month to pay, within 30 days of the mailing of such notice, an extra premium, sufficient to correct such impairment of reserves. If any policyholder fails to pay such extra premium within the time named, such premium shall be charged as an indebtedness, to bear interest at 6 per cent per annum, not exceeding the tabular reserves on the policy, and such policy shall terminate whenever the total indebtedness thereon equals such tabular reserves.

10883.24. If, by reason of excessive claims, the assets of any health and accident department of the insurer shall be insufficient for the payment of claims due and the maintenance of required reserves, the commissioner shall require the officers of such insurer to notify all health and accident policyholders, by mail addressed to the last known address of each policyholder, on or before the first day of the next succeeding month to pay, within 30 days of the mailing of such notice, an extra premium, sufficient to pay all unpaid claims and to maintain the required reserves. If any policyholder fails to pay such premium within the time named, his policy shall automatically terminate at the expiration of the time named.

10883.25. A person shall not incur any personal liability for the losses or liabilities of any insurer transacting business under the provisions of this article by reason of being a policyholder in such insurer.

10883.26. Except as otherwise provided in this article, such transformed insurer shall be subject to and governed by all provisions and privileges of Chapter 9, Part 2, Division 2 of this code, excluding Article 10 of said Chapter 9, Part 2, Division 2 of this code.

10883.27. The transforming insurer shall amend its articles of incorporation and by-laws to meet the requirements of this section, and shall be a continuation of the original insurer. Its officers elected before or during the transformation serve through their respective terms, as provided in the articles and by-laws under which they were elected. Their successors shall be elected and serve as its articles and by-laws provide after transformation. Such transformation shall not affect existing suits, rights or contracts."

Amendments adopted.

Bill read second time, ordered to reprint and engrossment.

Message from the Governor.

The following message from the Governor was received and read.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE.
SACRAMENTO, April 27, 1937.

To the Honorable Members of the Assembly,
Sacramento, California.

I am returning herewith, without my approval, **Assembly Bill No. 892**, the same being

"An act to validate all proceedings for the issuance of bonds and all bonds heretofore issued or sold or to be issued or sold by any county water district, providing for the application of the proceeds of sale of such bonds and authorizing and directing the levy and collection of a tax sufficient to pay the principal and interest thereof",

relating to the validating of county water district bonds.

This bill, in addition to validating proceedings for the issuance and sale of bonds of county water districts organized under Deering Act, 1924, contains a provision in section 2 of the bill which would allow the directors of the district to apply the proceeds from the sale of bonds to any of the general purposes for which the district was organized. This provision is contrary and in conflict with section 15 of the original act, which provides that the directors before such bond indebtedness is created must pass a resolution stating the purposes for which the proposed debt is to be incurred.

I am of the opinion that the original provisions relating to the question of the purposes for which the money obtained from the sale of bonds may be used, should not be changed as proposed in this bill.

I am, therefore, returning Assembly Bill No. 892 without my approval.

Respectfully submitted.

FRANK F. MERRIAM, Governor of California.

Amendment No. 1.

On page 1, line 6 of the title of the printed bill, after "therewith", insert a comma and the following: "declaring the urgency thereof, and providing that this act shall take effect immediately".

Amendment No. 2.

On page 11 of the printed bill, as amended, between lines 32 and 33, insert the following:

"SEC. 28. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of section 1, Article IV of the Constitution of the State of California, and as such shall take effect immediately. The following is a statement of the facts constituting such necessity:

That portion of tide and submerged lands of the State described in sections 1 and 6 of this act contains oil and gas and other hydrocarbon substances of great value. Many oil wells are now drilled, operating and producing oil and gas upon privately owned lands that are constantly draining said oil, gas and other hydrocarbons from said State lands for the sole benefit of the operators of said wells and the owners of said privately owned land. Other wells drilled on privately owned lands are extended into said State lands and are producing oil and gas therefrom. This condition results in the daily depletion of this valuable resource of the State, making it imperative, if the interests of the State therein are to be preserved and the revenues available to the State therefrom are to be saved, that immediate action be taken to drill for, extract, produce and remove the oil and gas so known to exist in said lands and to dispose of the same for the benefit of the State as in this act provided. Unless said emergency is thus met, the State will suffer great and irreparable loss and be deprived of revenues needed to preserve the public peace, public health and public safety. The development of said State lands in the manner herein provided is also necessary for the immediate preservation of public health and public safety in the use of the ocean beaches upon and in the vicinity of said tide and submerged lands."

Amendments read, and adopted by the following vote:

AYES—Andreas, Baynham, Beene, Breed, Burns, Hugh M., Burns, Michael J., Cassidy, Clark, Cottrell, Cronin, Cunningham, Daley, Dawson, Desmond, Dilworth, Donihue, Donnelly, Flint, Fulcher, Gannon, Garland, Gilbert, Glick, Hawkins, Heisinger, Hornblower, Hunt, Johnson, Kepple, King, Kuchel, Laughlin, Leonard, Lore, Lyon, Maloney, Martin, Mayo, Miller, Eleanor, Miller, George P., Morgan, Muldoon, O'Donnell, Patterson, Peek, Pelletier, Peyser, Reaves, Redwine Richie, Robertson, Rosenthal, Sawallisch, Sheehan, Stream, Tenney, Thorp, Turner, Voigt, Walker, Watson, Weber, Yorty, and Mr Speaker—64.

(b) Each eligible and qualified individual who is totally unemployed in any week shall be paid with respect to such week the weekly benefit amount so determined.

(c) Each eligible and qualified individual who is partially unemployed in any week shall be paid with respect to such week a partial benefit. Such partial benefit shall be an amount equal to the difference between his weekly benefit amount for total unemployment and the wages paid to him with respect to such week. If such partial benefit for any week is less than one dollar it shall not be payable unless and until the accumulated total of such partial benefits with respect to weeks occurring within the thirteen preceding weeks equals one dollar or more.

(d) Every partially unemployed person making a claim for partial benefits shall certify that he has not received wages or compensation for any work, whether subject to this act or not, otherwise than as specified in his claim. If partial benefits in excess of the amount to which any claimant is entitled are paid as a result of the claimant's failure to accurately state in his claim the correct amount of wages so received, the amount of such excess shall be deducted from any benefits to which the claimant may subsequently become entitled. If such excess can not be so deducted from the claimant's subsequent benefits no employer's account shall be charged therewith. Any wilful misstatement of the correct amount of the wages so received shall disqualify the individual making such inaccurate statement from receiving any partial benefits for 52 consecutive weeks from the date of such statement, provided that the commission may cancel such disqualification in whole or in part if it determines that the circumstances make the application of such disqualification inequitable. In all cases of such diqualification the claimant shall be given notice and an opportunity for a fair hearing with respect to such disqualification, as provided for in this act.

(e) The maximum total amount of benefits for either partial or total unemployment paid to any individual during any one benefit year shall not exceed the maximum total amount of benefits determined as provided in subsection (a) hereof or $300, whichever is the lesser.

(f) The commission shall credit each individual receiving benefits hereunder with the wages earned by him in employment for employers during each quarter of his base period. Benefits paid to such individual shall be charged in the same chronological order as such wages were earned, against the wages earned in employment for employers during his base period which have not been previously charged hereunder, in the proportion that the total of such wages bears to the maximum total amount of benefits payable to him during the benefit year."

House Resolution No. 154 read, and unanimously adopted.

By Mr. Voigt:

House Resolution No. 155.

WHEREAS, The citizens of this State are staggering under the load of a steadily increasing mass of revenue statutes, and are being constantly harassed, by the large assortment of agencies, boards, and commissions that have been set up for the assessment and collection of the taxes, licenses and fees imposed thereby; and

WHEREAS, In view of the above circumstances, the public is demanding a revision of the entire revenue system, and a reduction of the number of agencies, boards and commissions which are charged with the administration of the Revenue Laws; and

WHEREAS, The present revenue system is the child of experimentation, and results in wasteful, costly and unnecessary duplication and overlapping of administrative effort; and

WHEREAS, The complexity of the present revenue structure renders it inherently inept to accomplish the purposes for which it has been set up, with a resulting loss in muchly needed public revenues; and

WHEREAS, Unless a reasonable, planned and economically sound system of raising revenue is formulated and put into effect in this State, the State Government may soon find itself unable to operate efficiently because of a lack of necessary funds; and

WHEREAS, For the reasons aforementioned, it is highly desirable that a comprehensive study of the present system of securing public revenue be made in order that a more simplified economic and efficient system may be devised and put into operation; now, therefore, be it

Resolved by the Assembly of the State of California, That there is hereby created an Assembly committee, to be known as the Assembly Committee on Revenue, consisting of five members of the Assembly to be appointed by the Speaker of the Assembly; and be it further

Resolved, That the committee, upon the appointment of its members, shall organize by electing a chairman from its membership, and may appoint a secretary and such other clerical and technical assistance as it may deem necessary; and be it further

Message from the Governor.

The following message from the Governor was received and read:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, May 3, 1937.

To the Honorable Members of the Assembly,
Sacramento, California.

I am returning herewith, without my approval, **Assembly Bill No. 1063,** the same being:

"An act authorizing the removal of the Stephen M. White statue from the city of Los Angeles to the city of San Pedro."

This bill would authorize the removal of the statue of Stephen M. White, erected by certain patriotic citizens of Los Angeles and placed on the courthouse grounds. Of the citizens who patriotically and voluntarily subscribed and paid some $30,000 to provide this statue, only three remain, and these three, Hon. Isadore Dockweiler, Hon. Joseph Scott, and Hon. Reginaldo F. Del Valle, oppose the approval of Assembly Bill No. 1063.

In addition, no evidence has been submitted to establish any ownership or control of this statue by the State of California. I am told that the minutes of the board of supervisors, and other references at various times tend to establish county ownership, or, at least, county control of this statue.

Retention in its present location, or to what place it may be removed is not a matter for State determination. While appreciating that one of his great successes or great victories was the establishment and recognition secured for the harbor at San Pedro, for the reasons above set forth I am withholding my approval of Assembly Bill No. 1063.

Respectfully submitted

FRANK F. MERRIAM, Governor of California.

Assembly Bill No. 1063 ordered on unfinished business calendar.

The following amendment was submitted by the committee:

Amendment No. 1.

Strike out the entire resolution, and insert in lieu thereof the following.

"House Resolution No. 131, as Amended.

WHEREAS, Harold Pomeroy, State Relief Administrator, has issued a verbal order prohibiting employees of the S R A from pursuing legislative activities in the California Legislature on their own time and in their capacity as private citizens; and

WHEREAS, Said order specifically forbids any meetings with legislators for the purpose of discussing any and all legislation, and

WHEREAS, Said order further prohibits the sending of communications or petitions to legislators concerning pending legislation; and

WHEREAS, Said order arbitrarily limits the exercise of fundamental political rights and liberties; and

WHEREAS, Said order is un-American and undemocratic in that it abridges the fundamental liberties of free speech, free press and free assemblage and the right of petition; and

WHEREAS, Our democratic form of government can only survive so long as the citizens engage in free discussion on public questions; and

WHEREAS, Said Harold Pomeroy has threatened to dismiss any S R A employee who disobeys said order; and

WHEREAS, The said Harold E. Pomeroy in the issue of said order has acted contrary to the Constitutions and laws of the United States and of this State; and

WHEREAS, In connection with the question of what constitutes an improper activity on the part of an employee of the State Relief Commission, the Attorney General of this State has ruled as follows

> "* * * In reply, the term 'Improper Activity' is not susceptible of a definition which could be applied in determining in each particular instance whether an activity of a political character were proper or improper. The propriety of political activity must in a large degree depend upon the circumstances of the particular instances

"It is generally admitted to be not only the privilege but the duty of an American citizen to be politically active, and it has not been supposed that employment in State or municipal service, either civil service or otherwise, would prevent or prohibit an employee from the exercise of political right, including a reasonable and well ordered activity in behalf of those political principles which he favored, or in the support of those candidates whose success he believed would best contribute to the general welfare. Whether an employee *in a particular instance* exceeds the limits indicated must be determined as above indicated by a consideration of the facts and circumstances bearing upon the particular activity.

"The propriety of political activity in a given instance does not depend upon the question whether such activity of the employee accords with the views of the principal, or even with the views of the political party represented by all or a majority of the office incumbents. * * *", and,

WHEREAS, It is inconsistent that said Harold E. Pomeroy has himself lobbied on State time both on the floor of this Assembly and elsewhere; and

WHEREAS, Lobbying or any other activity either advocating or opposing legislation by employees or officers of the State during business hours and on State time is a practice not to be condoned; and

WHEREAS, Some employees and officers of the S R A and other departments of the State Government have appeared in the Assembly Chamber from time to time urging the adoption or defeat of legislation; now, therefore, be it

Resolved, That said Harold E. Pomeroy is hereby requested to reverse any and all orders and directions made by him relative to the exercise of the rights of any citizen, whether employed by the State or not, and that he refrain from dismissing any employee for petitioning the State Legislature in person or otherwise; and be it further

Resolved, That the Governor be and he hereby is requested to relieve said Harold E. Pomeroy of his duties as State Relief Administrator, if the practices condemned by this resolution are continued; and be it further

Resolved, That the Assembly express the sentiment of this body that any lobbying activity by State officers or employees during business hours and on State time is a reprehensible practice not to be condoned or continued."

House Resolution No. 32, as Amended.

WHEREAS, The fish and game within this State constitutes one of its greatest resources, and this resource is gradually being depleted through the depredations of predatory birds and animals, through the depredations of man, and by other means, the nature and extent of which are not definitely known; and

WHEREAS, The fishermen and hunters of California have millions of dollars of investments in fishing and hunting equipment and the merchants of California each season sell vast quantities of supplies to the fishermen and the hunters, all of which assists in the general prosperity of the people of this State; and

WHEREAS, Everything possible should be done to encourage and preserve these investments and nothing should be done to destroy the vast resources of fish and game nor the investment of the fishers or hunters but rather that all things possible should be done to encourage and promote these great resources; and

WHEREAS, The conservation and preservation of fish and game are matters of vital interest to the people of this State, and it is necessary and desirable that the Assembly be informed as to all pertinent facts in relation to fish and game and the effect, operation, administration and enforcement of the laws relating thereto; now, therefore, be it

Resolved by the Assembly of the State of California, That a committee of five members shall be appointed by the Speaker from the membership of the Assembly to make an investigation concerning all phases of the fish and game resources of the State of California and the administration of the laws in relation thereto; and be it further

Resolved, That said committee is hereby authorized and empowered to do any and all things necessary to make a full and complete investigation of the matters herein referred to, and is hereby authorized and empowered to require the production of books, documents, and papers of every kind and description; to issue subpenas and to compel the attendance of witnesses and to procure testimony. Resolved, That the sum of $3,000 is hereby appropriated from the contingent fund of the Assembly, said fund to be expended for the expenses of the committee. Messages from the Governor.

The following messages from the Governor were received and read:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, May 4, 1937

To the Assembly of the State of California:

Assembly Bill No. 500, known as the Budget Bill, is approved except for certain items hereinafter specifically set forth,

1. I object to and eliminate the item on pages 6 and 7, under the heading 'Administrative" reading as follows

> "of which the amount of thirty-four thousand one hundred sixty dollars shall be expended for support of the Safety Section of the Railroad Commission of the State of California"

for the reason that I consider the Railroad Commission of the State of California and the Department of Finance better equipped to make such allocations, and vested with ample authority to provide through fiscal year budgets, for the needs, when known, of such functions.

2. I object to and eliminate the items on pages 10 and 11, under the heading "Industrial Relations," reading as follows

> "of which three hundred twenty-eight thousand dollars shall be used for additional safety inspectors; provided, that out of the moneys hereby appropriated the sum of twenty thousand dollars ($20,000) shall be used and spent for the salaries of agents in the Division of Industrial Welfare and for no other purposes, whether in said division of the Department of Industrial Relations or for any other purpose of the State"

for the reason that I consider the Department of Industrial Relations and the Department of Finance better equipped to make such allocations, and vested with ample authority to provide through fiscal year budgets, for the needs, when known, of such functions.

3 I object to the item on pages 10 and 11, under the heading "Industrial Relations" reading as follows·

> "one million six hundred twenty-five thousand one hundred eighty-five dollars ($1,625,185) * * *----------$1,625,185 00"

and reduce the same to

> "one million three hundred ninety-seven thousand one hundred eighty-five dollars ($1,397,185)----------$1,397,185 00"

for the reason that $1,397,185 is considered sufficient to permit an expanded program of activities of this department for the next biennium This amended item is $141,804 65 more than the appropriation of two years ago, and $100,000 more than originally recommended in this budget.

Increasing this item $100,000 more than originally recommended is justified·

> (a) By the rehabilitation of the Minimum Wage Law for Women and Minors, by decision of the United States Supreme Court rendered on March 29, 1937. The decision upholding this law permits the department to function to the full extent of the authority delegated by the laws of California. The activities under the Minimum Wage Law for Women and Minors were greatly curtailed pending the decision above mentioned

(b) By reason of the increase in business and industrial activities in the State, more inspectors and an expansion of activities are necessary in the Department of Industrial Relations.

4. I object to and eliminate the items on pages 21 and 22, under the heading "Unemployment Relief," reading as follows

"provided, however, that of the amount appropriated in this item the following amounts, and in addition thereto such sums as may be made available therefor by the Federal Government, shall be expended for a program of unemployment work relief consisting of construction and improvements at the following State institutions, schools, colleges and other State agencies: Department of Agriculture, $2,700.00, Chico State College, $11,500.00; Fresno State College, $11,500.00; Humboldt State College, $11,500.00; San Diego State College, $11,500.00; San Francisco State College, $12,800.00; San Jose State College, $12,000.00; Santa Barbara State College, $497,500.00, California School for Blind, $4,750.00; Department of Finance, $35,000.00; Agnews State Hospital, $182,990.00; Camarillo State Hospital, $2,765,000.00, Mendocino State Hospital, $30,400.00; Napa State Hospital, $1,016,700.00; Norwalk State Hospital $18,500.00; Patton State Hospital, $18,000.00, Stockton State Hospital, $98,500.00; Pacific Colony-State Narcotic Hospital, $990,500.00; Sonoma State Home, $1,053,260.00; Preston School of Industry, $7,750.00; Ventura School for Girls, $7,650.00; Whittier State School, $3,750.00; Industrial Home for Adult Blind, $8,000.00; Adjutant General and California National Guard, $25,000.00; Veterans' Home of California, $324,000.00; Woman's Relief Corps Home, $11,000.00; Folsom State Prison, $42,300.00, San Quentin State Prison $45,000.00; and California Institution for Women $7,500.00, provided further that if no money is made available for this purpose by the Federal Government then the amounts above shown for construction and improvements at State institutions, schools, colleges and other State agencies shall be expended in accordance with the law"

for the reason that such allocations would in practical effect reduce by such amounts the item of $48,000,000 which I recommended in the Budget Bill as necessary during the coming biennium for the relief of hardship and destitution due to and caused by unemployment. The effort to apparently reduce the budget total by removing the appropriations recommended for construction and improvements for prisons, hospitals and institutions of learning, and requiring that such construction and improvements be made from the fund appropriated for relief would work to the detriment both of relief and the State institutions

The effect of such amendment in removing from capital outlay the construction of new and the repair of present buildings at the various State institutions, not only reduces in effect the amount provided for relief, but cripples the construction and repair program provided in the budget and would turn over to the Relief Administrator and the commission the building program of the State, which organization is not prepared to economically carry on construction activities of such magnitude.

The expenditures for public institutions, their improvement and construction, should be made in the regular course of business so that the labor necessary for such purposes can be made available to all the citizens of the State at prevailing wage scales and through the regular channels of employment.

The relief of human misery should not be placed in jeopardy by juggling funds so as to apparently provide $48,000,000 for relief, but in effect reducing that amount by "earmarking" $7,266,550 for other activities.

Respectfully submitted.

FRANK F. MERRIAM, Governor of California.

The consideration of the Governor's reductions to Assembly Bill No. 500 ordered on unfinished calendar.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, May 4, 1937.

To the Honorable Members of the Assembly,
Sacramento, California

I am returning herewith, without my approval, **Assembly Bill No. 1925**, the same being:

"An act to amend section 4264 of the Political Code, relating to salaries of county officers in counties of the thirty-fifth class"

Assembly Bill No. 1925 is returned without my approval, there being nothing in the file to sustain its enactment. The author of the bill and other members of the Legislature representing the counties of the thirty-fifth class have filed no statement in support of the approval of the measure, nor does it appear from the record in this office that the board of supervisors or the grand jury approve of the increased salaries

In order to give my approval to county government bills, the members of the Legislature from the counties affected, and the grand jury and the board of supervisors must file requests asking enactment.

Respectfully submitted.

FRANK F. MERRIAM, Governor of California.

Assembly Bill No. 1925 ordered on unfinished business calendar.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE.
SACRAMENTO, May 4, 1937.

To the Honorable Members of the Assembly,
Sacramento, California.

I am returning herewith, without my approval, **Assembly Bill No. 8,** the same being

"An act to amend and renumber sections 6 and 7, to renumber section 8, and to add new sections numbered 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, and 16 to 'An act authorizing the establishment, maintenance, and operation of recreation districts,' approved June 19, 1931, relating to recreation districts, declaring the urgency hereof and providing that this act shall take effect immediately."

Assembly Bill No. 8 is being returned without my approval for the reason that I object to that portion of section 13 of the bill which provides that these bonds "are legal investments for savings banks, may lawfully be purchased or received in pledge for loans by banks and trust companies, and whenever any money or funds may be invested in bonds of any county, city and county, city or other municipal or corporate body, such money or funds may be invested in bonds of such districts which are such legal investments for savings banks"

Provision is made under the General Laws of the State for the proper certification of bonds for such purpose by the Superintendent of Banks after investigation as to the value of such bonds and securities. The bonds it is proposed to issue under Assembly Bill No. 8, if enacted into law, should be submitted for certification as are other bonds and securities.

I am therefore returning the bill without my approval for the above-mentioned reasons.

Respectfully submitted.

FRANK F. MERRIAM, Governor of California.

"SEC 3 Section 811 of said code is hereby amended to read as follows:

811. Cantaloupes shall be mature but not overripe, not poorly netted, and free from mold, decay, and insect injury which has penetrated or damaged the edible portion of the cantaloupe, and free from serious damage, due to bruises, sunburn, growth cracks, cuts, sponginess, flabbiness, wilting, or other causes Damage to any one cantaloupe is not serious unless it affects the edible portion of the individual cantaloupe.

Not more than 10 per cent, by count, of the cantaloupes in any one container or bulk lot may be below these requirements, but not to exceed one-half of this tolerance shall be allowed for any one cause

Cantaloupes when packed shall be virtually uniform in size and there shall be the same numerical count of uniformly sized cantaloupes in each layer throughout the container.

"Mature" in the case of cantaloupes means that the appearance of the outside indicates maturity and the arils which surround the seed during the development of maturity have been absorbed and in addition, that the juice of the edible portion shall contain not less than 8 per cent soluble solids as determined by the Balling or Brix scale hydrometer. In view of the differences in climatic and other natural conditions prevailing south and east of San Gorgonio Pass, which result in the cantaloupes grown in that area having, at maturity, a higher percentage of soluble solids than the mature cantaloupes grown in the area north and west of San Gorgonio Pass, mature in the case of cantaloupes produced in the area south and east of San Gorgonio Pass, means, in addition to the maturity requirements herein specified, that the juice of the edible portion shall contain not less than 10 per cent soluble solids, as determined by the Balling or Brix scale hydrometer or that the cantaloupes have been separated from the vine by a "full slip" which indicates full maturity on the vine.

All closed containers of packed cantaloupes shall bear upon them in plain sight and in plain letters on one outside end, the name of the person who first packed or authorized the packing of the cantaloupes, or the name under which such packer is engaged in business, together with a sufficiently explicit address to permit ready location of such packer All containers of cantaloupes in which the pack does not conform to the standard pack provisions for cantaloupes in section 829 shall be conspicuously marked in letters not less than one-half inch in height "irregular pack."

SEC. 4 This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of Article IV of the Constitution of the State, and shall therefore take effect immediately. A statement of the facts constituting such necessity is as follows:

The changes in quality standards made by this act are necessary in order to raise the standards and conform to existing conditions of production and marketing In order to insure the consumer of proper quality and to protect the producer during the present growing season it is necessary that this act take effect immediately."

SEC 2 This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of section 1 of Article IV of the Constitution of the State of California and shall therefore go into effect immediately. A statement of the facts constituting such necessity is as follows:

The facilities of existing buildings and equipment at State county and agricultural district fairs and at State educational institutions devoted to agricultural and vocational training in animal husbandry are inadequate, due to influx of visitors to the State of California by reason of state-wide celebrations planned during the coming years and increased enrollments in such educational institutions, and it is necessary to provide facilities for the safety and convenience of persons attending such fairs or persons enrolled in such educational institutions"

Any bonded indebtedness consisting of outstanding unpaid bonds and outstanding unpaid interest coupons of bonds issued by or for any special improvement district the bonds of which are payable from special taxes or special assessments levied wholly or partly in accordance with the assessed value of lands may be funded or refunded under and pursuant to the provisions of this act. At least two of the interest coupons on the refunding bonds must be at a rate of interest less than the interest rate on the bonds to be refunded, and the rate of interest on the refunding bonds shall not exceed the rate of interest on the bonds to be refunded. The legislative body of the city or county or city and county which conducts the refunding proceeding may negotiate and contract with the holders of bonds for such refunding and to aid in such refunding may appropriate moneys from the general fund or from any available fund of the city or county or city and county. Also, any county in which the district lies whether the district be entirely or partly within a city or cities, or entirely or partially within unincorporated territory of the county, is hereby authorized to appropriate moneys from its general fund, road fund or any available fund to assist in such refunding. Amendment No. 3.

On page 2, line 8, of the printed bill, strike out all of the words and figures following the figure "2.", and strike out all of lines 9 and 10, and insert in lieu thereof the following language: "Section 2 of said act is hereby amended to read as follows:

Sec. 2. Whenever the legislative body of any city or county or city and county of this State determines by resolution that the public interest, convenience or necessity require the refunding of the indebtedness of any special improvement district which it is given jurisdiction to refund under the provisions of this act, said legislative body shall by resolution declare its intention to refund such indebtedness and shall determine the total maximum principal amount for which an assessment shall be levied in the refunding proceedings and shall determine the term of any refunding bonds to be issued to represent unpaid assessments as herein provided and the rate of interest of such bonds. The rate of interest during the entire term of such bonds need not be the same but different rates may be stated for one or more interest payments of such bonds. If such different rates of interest are proposed, each rate and the time during which such rate shall be paid shall be designated in such resolution. The amount of any proposed contribution of public funds to be made to assist in such refunding, except contributions for the payment of interest maturing or accruing subsequent to the date the resolution of intention is adopted and prior to the date the assessment is recorded and money used for the payment of incidental expenses of the refunding proceeding, shall be stated in such resolution, but this shall not prevent said legislative body making additional contributions thereto at any time. In said resolution said legislative body shall state the total amount of the outstanding indebtedness to be refunded (which shall be deemed to be the principal amount of outstanding unpaid bonds and the amount of due and unpaid interest coupons), and shall state the amount of the principal of bonds included therein, and the amount of due and unpaid interest coupons included therein, all as of the date said resolution is adopted. No error or mistake in the computation of the amount of unpaid principal or unpaid interest shall affect the validity of the refunding proceedings, and no error or mistake in any statement of the amount of such principal or interest in any notice, resolution or order in the course of the proceedings shall invalidate in any way the assessment or the refunding bonds or the refunding proceedings, provided, that the total sum of the assessment levied in the refunding proceedings, plus any contribution or contributions of public funds made to aid in such refunding, except contributions for the payment of interest maturing or accruing subsequent to the date the resolution of intention is adopted and prior to the date the assessment is recorded and moneys used for the payment of incidental expenses of the refunding proceedings, shall not exceed the sum of the principal amount of the bonds to be refunded and the amount of the due and unpaid interest coupons to be refunded. If interest maturing or accruing subsequent to the date the resolution of intention is adopted and prior to the date the assessment is recorded is to be paid, the resolution shall so state.

Said resolution shall also contain a date, hour and place for the hearing of objections to said refunding, and the date fixed for said hearing shall not be less than twenty (20) days nor more than sixty (60) days subsequent to the date of adoption of said resolution. Said resolution shall also contain a statement that the refunding shall not be authorized unless the written consent of the owners of a majority in area of the land in the district subject to tax or assessment to pay the principal and interest of the outstanding bonds is filed with the clerk of the legislative body, and that any owner of land in said district may file his written consent to such refunding at any time prior to the adoption of the resolution ordering the refunding.

SEC. 3. Section 5 of said act is hereby amended to read as follows:

"Sec. 5. (1) Jurisdiction, power, and authority to conduct proceedings for the refunding of indebtedness under this act and the levy of an assessment therefor is conferred upon the legislative bodies of cities or counties, or cities and counties, as set forth herein. The legislative body, which ordered the bonds of any district which are to be refunded issued, shall have complete jurisdiction, power, and authority to conduct proceedings to refund the indebtedness of said district under this act and to levy an assessment therefor.

(2) If the district, the indebtedness of which is to be refunded, lies entirely within a municipality, the legislative body of said municipality shall have complete jurisdiction, power, and authority to conduct proceedings to refund such indebtedness

under this act and to levy an assessment therefor, and if the district, the indebtedness of which is to be refunded, lies entirely within unincorporated territory of a county, the legislative body of such county shall have complete jurisdiction, power, and authority to conduct proceedings to refund such indebtedness under this act and to levy an assessment therefor. It is the intent of this section that, in all cases of incorporation of municipalities, or annexation of territory to municipalities, or consolidation of municipalities, or exclusion of territory from municipalities, or the dissolution of municipalities, the jurisdiction, power, and authority which, under paragraph numbered (1) of this section, would have been vested in the legislative body which conducted the proceedings for the issuance of the bonds to be refunded, shall be vested in and may be exercised by the legislative body which, by reason of such incorporation, annexation, consolidation, exclusion, or dissolution, has jurisdiction at the time such refunding is begun over the territory of the assessment district; provided, however, that, in the event all of the territory of the district lies entirely within a municipality but the tax or assessment for the payment of principal and interest of the bonds which are to be refunded is levied by the legislative body of the county, the consent of the legislative body of such county to the refunding of the indebtedness of said district under this act and the levy of an assessment therefor shall be obtained as hereinafter provided.

(3) In case an assessment district lies entirely within two or more municipalities, the legislative body of any municipality in which any part of the district lies may conduct the proceedings to refund the indebtedness of said district and to levy an assessment therefor, and, in case the assessment district lies partly within unincorporated territory of a county and partly within one or more municipalities, the legislative body of the county, or of any municipality in which any portion of the district lies, may conduct proceedings to refund the indebtedness of said district, and to levy an assessment therefor; provided, however, that in any case in which the assessment district lies entirely within two or more municipalities, or partly within unincorporated territory of a county and partly within one or more municipalities, or in any case in which the legislative body proposing to conduct the refunding proceeding is not the legislative body which levies the tax or assessment for the payment of principal and interest of the bonds to be refunded, the legislative body which proposes to conduct the refunding proceeding shall obtain the consent of the legislative body of each municipality in which any part of the district lies, of the legislative body of the county in case a part of the district lies in unincorporated territory of the county, and of the legislative body which levies the said tax or assessment for the payment of principal and interest of the bonds to be refunded, to the refunding of the indebtedness of such district under this act and the levying of an assessment therefor. Such consent shall be obtained prior to the adoption of the resolution of intention in the refunding proceeding and shall be expressed by resolution, a certified copy of which shall be filed with the clerk of the legislative body which proposes to conduct the refunding proceedings on or before the date the resolution of intention in the refunding proceedings is adopted When such consent has been given, the legislative body to which the consent has been granted shall have complete jurisdiction, power, and authority to refund the bonds of such district under this act and to levy an assessment therefor under the provisions hereof.

SEC. 4. Section 7 of said act is hereby amended to read as follows:

Sec. 7 The total amount for which said assessment shall be levied shall not exceed the total principal amount of such assessment as stated in the resolution ordering same but may be for a smaller amount. Said assessment shall be made upon all such lots, pieces or parcels of land within the assessment district as are subject to be assessed or taxed to pay the principal and interest of the outstanding bonds. The total amount to be assessed shall be apportioned upon the said lots, pieces and parcels of land in the manner hereinafter set forth, to wit: To the total principal sum of the assessment proposed to be levied shall be added the total sum of all of the amounts (including such interest and penalties as go into such fund) paid into the interest and sinking fund of such district on or prior to the date the resolution of intention in the refunding proceeding was adopted, upon taxes or assessments levied upon any lot, piece or parcel of land subject to assessment in the refunding proceeding to raise funds to pay the principal and/or interest of bonds of said district, the bonds of which are to be refunded. The total amount of the two sums shall be apportioned as an assessment upon all such lots, pieces or parcels of land within the assessment district as are subject to be assessed or taxed to pay the principal and interest of the bonds to be refunded. The person making the assessment shall proceed to estimate upon the lots, pieces or parcels of land within the assessment district, and, subject to assessment under the terms of this act, the benefits arising from the acquisition or improvement or acquisition and improvement for which the bonds to be refunded were issued and to be received by each lot, piece or parcel of land, and shall thereupon assess upon and against the said lands the total amount of the two sums hereinbefore in this section mentioned and in so doing

shall assess the said total amount upon the said several lots, pieces or parcels of land in said district subject to said assessment in the manner following to wit: Upon each lot, piece or parcel of land, respectively, in proportion to the estimated benefits received by each such lot, piece or parcel of land from the acquisition or improvement or the acquisition and improvement for which the bonds to be refunded were issued.

When said total amount has been assessed upon each of the lots, pieces or parcels of land to be assessed there shall be deducted from the amount so assessed upon any lot, piece or parcel of land any sum (including interest and penalties, if any) paid into the interest and sinking fund of the district on or prior to the date of adoption of the resolution of intention in the refunding proceeding, upon an assessment or special tax levied upon any such lot, piece or parcel of land to pay the principal and interest on bonds of said district. In case any such lot, piece or parcel of land was a portion of a larger parcel of land for which a payment of an assessment or special tax was made, the portion of such payment to be deducted from the amount assessed against such smaller lot, piece or parcel of land shall be that proportion of such payment which the amount assessed against said smaller lot, piece or parcel of land bears to the total amount assessed against all of the parcels which comprised the said larger parcel of land. After all of the amounts of assessments and special taxes (including any penalties and interest) paid into the interest and sinking fund have been deducted from the amounts assessed to each such lot, piece or parcel of land the amounts remaining assessed against each such lot, piece or parcel of land shall be deemed assessments and shall comprise the total assessment to be levied and shall in total amount be the sum stated in said resolution of intention, or a smaller sum. Should the amount paid as ad valorem assessments upon any parcel exceed the amount assessed as benefits against said parcel no refund shall be made to any property owner.

SEC. 5. Section 9 of said act is hereby amended to read as follows.

SEC 10. Section 29 of said act is hereby amended to read as follows

Sec. 29. When all or any part of the lands in any district, the indebtedness of which could be refunded under the provisions of this act, lie in any other district or districts, the indebtedness of which could be refunded under the provisions of this act, all or any number of such districts which wholly or partially overlap may be included in one refunding proceeding and the total indebtedness of all of the districts so included in one proceeding may be refunded in such proceeding and one issue of refunding bonds issued and one assessment levied therefor It is the intent of this section to permit, but not to require, the refunding in one proceeding of the indebtedness of all districts which wholly or partially overlap, and to authorize the refunding in one proceeding of the indebtedness of any number of districts where some part of the area of each of the districts lies wholly or partially within the boundaries of one or more of the other districts included in the same refunding proceedings, and such refunding in one proceeding of the indebtedness of two or more districts may be called "multiple district refunding"

A multiple district refunding proceeding may be conducted by the legislative body of the county if any portion of any of the districts to be including in the proceeding lies in unincorporated territory of the county, or by the legislative body of any municipality in which any portion of any of the districts proposed to be includ d in the proceeding lies, upon obtaining consent of other legislative bodies as herein required.

If the legislative body of a city is conducting the multiple district refunding proceeding, the refunding may include a district or districts lying entirely outside the boundaries of such city upon obtaining consent as herein provided and, if the legislative body of a county is conducting the proceeding, the refunding may include a district or districts lying entirely within the boundaries of one or more incorporated cities upon obtaining consent as herein provided The provisions of this section are to be liberally construed, to the end that jurisdiction to refund in one proceeding the indebtedness of any and every combination of districts now existing shall be full and complete.

In the event that all or any part of any district included in any multiple district refunding proceeding lies outside of the boundaries of the city, the legislative body of which proposes to conduct the proceeding, the consent of each municipal corporation in which any part of the district lies, the consent of the county, if any part of the district lies in unincorporated territory of the county, and the consent of the legislative body which levies the taxes or assessments for the payment of principal and interest of the outstanding bonds of such district, shall be obtained to the refunding of the indebtedness of such district in the multiple district refunding proceeding, and to the levy of an assessment therefor In the event the legislative body of a county proposes to conduct the multiple district refunding proceeding and all or any part of any of the districts to be included in such proceeding lies within any incorporated city or cities, the consent of each municipal corporation in which any part of any of said districts lies, and the consent of the legislative body which levies the taxes or assessments for the payment of principal and interest of the outstanding bonds of such district, shall be obtained to the refunding of the indebtedness of such district in the multiple district refunding proceeding and to the levy of an assessment therefor Such consent shall be obtained prior to the adoption of the resolution of intention in the multiple district refunding proceeding and shall be expressed by resolution, a certified copy of which shall be filed with the clerk of the legislative body which proposes to conduct the multiple district refunding proceedings on or before the date the resolution of intention in such proceedings is adopted. When such consent has been given by the legislative bodies of each of the cities, the consent of which is required, and by the legislative body of the county, if the consent of such body is required, the legislative body to which the consent has been granted shall have complete jurisdiction, power, and authority to refund the indebtedness of the districts included within such multiple district refunding proceedings, and to levy an assessment therefor under the provisions of this act

The districts included in any multiple district refunding proceeding need not be formed under the same act, but, if formed under any act under which taxes or assessments are levied wholly or partly in accordance with the assessed value of

lands, the indebtedness thereof may be refunded in one refunding proceeding hereunder. Such multiple district refunding proceeding shall be had and the assessment levied under the provisions of this act as modified in this section, and under the same general procedure provided for refunding the indebtedness of a single district, so far as applicable, and the legislative body conducting the proceeding is authorized and empowered to adapt or modify any and all resolutions, orders, notices, summons, records, bonds, and all other proceedings provided for under this act so as to fully provide for such multiple district refunding hereunder

If the legislative body which proposes to conduct the multiple district refunding proceeding determines by resolution that the public interest, convenience or necessity requires the refunding of the indebtedness of all of the districts to be included therein in one refunding proceeding, it may proceed to conduct such refunding proceeding under the terms of this act. The consent of the city or cities or of the county, hereinbefore required under the provisions of this section, shall be obtained prior to the adoption of the resolution of intention in the multiple district refunding proceedings.

The total amount of the proposed assessment shall be fixed by the legislative body conducting the multiple district refunding proceeding in the resolution of intention.

The resolution of intention and the notice of hearing on the proposed assessment shall describe the exterior boundaries of the area comprising the districts included in the multiple district refunding proceeding by stating the exterior boundaries thereof, or by giving a description thereof according to any official recorded map or maps, or by referring to a plat or map approved by the legislative body conducting the proceeding which shall be on file in the office of the clerk of the legislative body of the city or county conducting the proceeding at the time the resolution of intention is adopted, which said plat or map shall indicate by a boundary line the extent of the total territory comprising all of the said districts, and said plat or map shall govern for all details as to the extent thereof The total area comprising the said districts need not be described in any notice, resolution, or order other than the resolution of intention and the notice of hearing on the proposed assessment.

The resolution of intention and all posted or published notices shall name or otherwise designate the districts included in the multiple district refunding proceeding, but need not describe the boundaries thereof, and the resolution of intention shall state separately the amount of the outstanding indebtedness of each such district, and that it is proposed to refund the indebtedness of all of the districts named or otherwise designated therein in one refunding proceeding and to levy one assessment therefor and to issue one issue of refunding bonds therefor, and shall state that the refunding shall not be authorized unless the consent of the owners of a majority in area of the lands included within each of the districts, who shall likewise be the owners of a majority in area of the lands included within the exterior boundaries of the total area which comprises the districts, is filed with the clerk of the legislative body conducting the proceeding, and that any owner of land in any of the districts may file his written consent to such refunding at any time prior to the adoption of the resolution ordering the refunding. If, at the hearing provided in section 4 hereof, the legislative body determines that the written consent of the owners of a majority in area of the lands in each of the districts, who are likewise the owners of a majority in area of the lands included within the exterior boundaries of the total area comprising the districts, has been filed, it shall be authorized to proceed with such multiple district refunding and to make an assessment and issue refunding bonds therefor as in this act provided The assessment shall be spread over all of the lands in the total area comprising the districts and subject to tax or assessment for the payment of principal and interest of any of the bonds of the districts to be refunded in the proceeding To the total sum of the assessment shall be added the total sum of all taxes upon land and all assessments, including interest and penalties, paid into the interest and sinking fund of any of the districts for the payment of principal or interest or both of any bonds of the said districts, the indebtedness of which is to be refunded The total amount of the two sums thus ascertained shall be assessed upon and against all of the lands within the total area comprised by the districts and upon each lot, piece or parcel thereof in proportion to the estimated benefits received by each such lot, piece or parcel of land from the acquisitions or improvements or acquisitions and improvements to pay for which the indebtedness proposed to be refunded was incurred From the assessment thus made upon each lot, piece or parcel of land shall be deducted the amount of such taxes upon land and such assessments (including interest and penalties, if any) paid into the interest and sinking fund of any of said districts on or prior to the date of adoption of the resolution of intention in the multiple district refunding proceeding upon a tax or assessment levied upon any such lot, piece or parcel of land to pay principal or interest or both of bonds of any of the districts included in the multiple district refunding proceeding. The amounts remaining after such deductions have been made shall be and constitute the assessments and shall comprise the total assess-

ment to be levied and the total amount of such assessments shall be the total sum of the assessment stated in the resolution of intention or a smaller sum.

In the event that the holders of one or more of the outstanding bonds of any of the districts included in the multiple district refunding proceeding do not enter any contract with the legislative body to refund the same, nevertheless, if the holders of seventy-five per cent or more of the total amount of the outstanding bonds of all of said districts do contract with the legislative body which conducts the refunding proceedings for the refunding of the bonds owned or held by them, said legislative body shall have authority to refund all of the indebtedness of the districts included in such multiple district refunding proceeding under the provisions of this act, but, in such event, prior to recording the assessment levied under this act, sufficient moneys to adequately provide for the retirement or payment of the bonds of the nonconsenting holders must be provided and set aside in the proper fund or funds for that purpose. The word "bonds" as used in this paragraph shall be deemed to include due and unpaid interest coupons.

This act is remedial in nature and shall be liberally construed. No proceeding taken, assessment levied, or refunding bond issued hereunder shall be held invalid for failure to comply with the provisions of this act; provided that the acts done and proceedings taken are not invalid under the provisions of the State and Federal Constitutions. To effectively and speedily accomplish the refunding of the indebtedness of these districts the legislative body conducting any refunding proceeding hereunder and all other officials taking any part therein, or upon whom is imposed any duty under this act, are hereby authorized and empowered to take any and all steps and proceedings and perform any and all acts, within the limitations of the State and Federal Constitutions, necessary or convenient for the refunding of the indebtedness of any district or districts under this act, and the levy and enforcement of assessments therefor. The remedies provided for the enforcement of any assessment levied under the provisions of this act are not exclusive and additional remedies may be provided at any time. The curative clauses of this act are cumulative and each of them is to be given full force and effect

Special improvement district bonded indebtedness which is payable from taxes levied upon all property or upon all taxable property in the improvement district may be refunded under this act The proceeding for refunding such indebtedness shall be the same as for refunding other indebtedness under this act and in making the assessment hereunder to the total sum of the proposed assessment shall be added the total sum of all of the amounts (including such penalties and interest as go into such fund) paid into the interest and sinking fund of the district on or prior to the date the resolution of intention in the refunding proceeding is adopted upon taxes levied upon any lot, piece or parcel of land subject to assessment in the refunding proceeding to raise funds to pay principal or interest of any bonds of the same issue as the bonds to be refunded, and the total of the two sums shall be apportioned upon the lands subject to assessment according to benefits as hereinbefore provided in this act, and from the amounts so apportioned to any lot, piece or parcel of land shall be deducted any such sum paid into the interest and sinking fund of the district on or prior to the date said resolution of intention is adopted upon any tax levied upon such lot, piece or parcel of land to pay principal or interest or both of bonds of the same issue as the bonds to be refunded.

In any such suit to foreclose, or in any suit to quiet title brought by the purchaser at the sale for delinquency, or by his successor in interest, the State of California may be made a party defendant and in that event it shall be sufficient service of process to serve the same upon the Attorney General of the State of California

When an assessment has been levied upon any parcel of tax deeded land, upon the recordation of the assessment, notice that the bonds of the district have been refunded and that the unpaid taxes and special assessment taxes levied to pay principal and interest of the bonds refunded are canceled shall be sent by the clerk of the legislative body which conducted the refunding proceeding to the auditor of the county in which the land lies, and he shall compute the amount of the unpaid taxes or special assessment taxes, penalties and interest so canceled and shall notify the State Controller thereof, and such amount shall be deducted from the sum for which the property was sold to the State, in computing the amount necessary for a redemption of the property or in any sale of the property by the State

The refunding of the indebtedness of overburdened ad valorem special improvement districts so as to eliminate pyramiding of assessments and taxes, thus making the property available for development and restoring it to the tax rolls, is declared to be an important policy of this State and all necessary authority, power and jurisdiction to impose a valid assessment upon lands deeded to the State for delinquent taxes or for delinquent taxes and assessments and to enforce the lien of such assessment is hereby granted, and any and all acts and proceedings of every kind and nature necessary for the levy of a valid assessment and for the enforcement of the lien of such assessment are hereby authorized

SEC. 13 This act is hereby declared to be an urgency measure, necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of Article IV of the Constitution of the State of California, and shall take effect immediately. The following is a statement of the facts constituting such necessity:

The indebtedness of special improvement districts payable from ad valorem assessments or from general taxes is, in many instances, greater than the property within the district can bear Pyramiding of the taxes and assessments has resulted in districts becoming almost entirely delinquent and in preventing the upbuilding and development of the lands in such districts In many of such districts general taxes and the special assessments have been delinquent for several years. In many of such districts large blocks of land have been sold to the State for delinquency in the payment of taxes and assessments and deeds to the State have been issued thereon. Property in these districts which comprise substantial areas is almost entirely unproductive of revenue for school, city and county purposes. In some districts this lack of revenue has hampered and prevented the city from providing adequate police and fire protection, sanitation and other health facilities. By refunding the obligations of such districts under this act, delinquent general taxes will be paid speedily, the properties will be restored to the tax roll and tax revenues will be provided to meet the urgent needs of the cities, school districts and counties. Unless this relief is immediately given, many thousands of property owners will lose their property, millions of dollars in taxes will be uncollectible, and funds necessary to provide for the safety and health of the inhabitants of many districts will not be supplied. The immediate refinancing of the indebtedness of these districts as provided in this act will save property owners from loss of their property, restore

property to the tax rolls, provide funds needed for public safety, sanitation and health purposes, and permit building and development now stopped by fear of pyramiding"

The ballots must have a different tint or color for each of the political parties participating in the primary election. There shall also be printed and provided a nonpartisan ballot of a different tint and color from all the others (or white, if all the others are colored), which shall contain only, but in like manner, all the candidates for judicial, school, county, and township offices to be voted for at the primary election; and one of the nonpartisan ballots shall, at the primary election, be furnished to each registered qualified elector who is not registered as intending to affiliate with any one of the political parties participating in said primary election; but to any elector registered as intending to affiliate with any political party participating in the primary there shall be furnished, not a nonpartisan ballot, but a ballot of the political party with which said elector is registered as intending to affiliate.

It shall be the duty of the city clerk or secretary of the legislative body of any municipality to provide such printed official ballots for any primary election other than the August primary election or the May presidential primary election. Such official ballots to be used at any primary election shall be printed on official paper, furnished by the Secretary of State, in the manner provided by section 1196 of the Political Code, and in the form hereinafter provided. Immediately under the name of each candidate and not separated therefrom by any line may appear, at the option of the candidate, one of the following designations:

a. Words designating the city, county, district or State office which the candidate then holds.

b. If the candidate be a candidate for the same office which he then holds, the word "incumbent."

c. The word designating the profession, vocation or occupation of the candidate. The profession, vocation or occupation so designated shall be the same as appears in the affidavit of registration of such candidate; provided, however, the word "incumbent" shall be used only under subsection (b) herein. Such designation shall remain the same for all purposes of both primary and general election, unless canceled by the candidate.

In all cases words so used shall be printed in eight point roman boldface capitals and lower case type.

2. Official primary election ballots used at any primary election for the nomination of candidates to be voted for at any Presidential or general State election, except as provided in subdivision 5 of this section, shall be as long as the herein prescribed captions, headings, party designations, directions to voters and lists of names of candidates, properly subdivided according to the several offices to be nominated for, may require; and no official primary election ballots shall be less than six and one-half inches wide.

black-faced type, as large as the width of the ballot shall make possible. In the case of official primary election ballots to be used at any primary election held for the nomination of candidates other than those to be voted for at a Presidential or a general State election, and on which, in accordance with the provisions of this act, the names of candidates may be printed in a single column or in two parallel columns, as the case may be, the words "Official primary election ballot" shall be printed thereon in heavy-faced gothic capital type, not smaller than twenty-four point. The party or nonpartisan designation shall be printed in heavy-faced gothic capital type, not smaller than eighteen point. The instructions to voters shall be printed in ten point gothic type.

4. At least three-eighths of an inch below the district designation shall be printed in ten point gothic type, double leaded, the following instructions to voters: "To vote for a person whose name appears on the ballot, stamp a cross (+) in the square at the right of the name of the person for whom you desire to vote. To vote for a person whose name is not printed on the ballot, write his name in the blank space provided for that purpose."

5. The instructions to voters shall be separated from the lists of candidates and the designation of the several officers to be nominated for by one light and one heavy line of rule. The names of the candidates and the respective offices shall, except as may be hereinafter otherwise provided, be printed on the ballot in four or more parallel columns, each two and one-half inches wide. The number of such parallel columns shall be exactly divisible by two, and such parallel columns shall be equally divided on the ballot for party and nonpartisan tickets by a solid black line, extending down from the printed lines separating the instructions to voters from the list of names of candidates to the bottom margin of the ballot. In the case of a primary election for the nomination of candidates to be voted for at a presidential or general State election, the order of precedence shall be as follows, that is to say: In the column to the left, under the heading State shall be printed the groups of names of candidates for State offices, except judicial and school offices, and for members of the State Board of Equalization. Next, under the heading Legislative shall be printed the groups of names for State Senator, if any, for member of Assembly. In the case of primary elections where State officers are not to be nominated, at the left of the solid black dividing line there may be only one column. In the parallel columns to the right of the solid black dividing line shall be printed the groups of names of candidates for nomination to judicial, school, county, and township offices in the following order: Under the heading Judicial shall be printed all the names of candidates for judicial offices, in the order of Chief Justice Supreme Court, Associate Justices Supreme Court, Judge of District Court of Appeal, Judge of superior court and justice of the peace. Next, under the heading School shall be printed all the names of candidates for school offices in the order of State Superintendent of Instruction, superintendent of schools, and school district officers, if any. Next, under the heading County and Township shall be printed the groups of candidates for all county and township offices except judicial or school offices. In the case of primary elections where county officers are not to be nominated at the right of the solid black dividing line there may be only one column. The nonpartisan ballot provided for in subdivision one of this section shall be identical as to offices and names of candidates with that portion of the party ballot which is printed to the right of the solid black dividing line hereinabove described. The tally sheets furnished to election officers shall have the names of offices and candidates arranged in the order in which said names of offices and candidates are printed on the ballots according to the provisions of this section and subdivision. In the case of primary elections for the nomination of candidates for city, city and county or municipal offices only, the groups of names of candidates may be printed in two parallel columns and the order of precedence shall be determined by the legislative body of such city or municipality or by the board of election commissioners of any such city and county.

6. The group of names of candidates for nomination to any judicial office, school office, county office, or township office shall include all the names receiving the requisite number of signatures on a nomination paper for such office, and shall be identical for each such office on the primary election ballots of each political party participating at the primary election; but the groups of names of candidates for all other offices on the ballots of each political party shall comprise only the names of the candidates for nomination by such party.

7. The order in which the list of candidates for any office shall appear upon the primary election ballot shall be determined as follows:

(a) If the office is an office the candidates for which are to be voted on throughout the entire State, including United States Senator in Congress, the Secretary of State shall arrange the names of all candidates for such office in alphabetical order for the First Assembly District, and thereafter for each succeeding Assembly District, the name appearing first for each office in the last preceding district shall be placed last, the order of the other names remaining unchanged. If the office is that

of Representative in Congress, or is an office the candidates for nomination to which are to be voted on in more than one county or city and county, but not throughout the entire State, except the office of State Senator or Assemblyman, the Secretary of State shall arrange the names of all candidates for such office in alphabetical order for that Assembly District which is lowest in numerical order of any Assembly District in which such candidates are to be voted on; and thereafter for such succeeding Assembly District in which such candidates are to be voted on, the name appearing first for such office in the last preceding district shall be placed last, the order of the other names remaining unchanged. Messages from the Governor.

The following messages from the Governor were received and read:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, May 5, 1937

To the Honorable Members of the Assembly.

I am returning herewith, without my approval, **Assembly Bill No. 1620,** the same being:

"An act to amend section 439 of the Political Code, relating to employees in the Controller's office."

This bill would delete the statutory salaries of the deputy controllers, for which the present section provides. It also designates titles for the various deputies in the office of the Controller.

There seems to be little reason for the enactment of such a measure. It will also permit increases in certain salaries. I am, therefore, returning it without my approval.

Respectfully submitted.

FRANK F. MERRIAM, Governor of California

Assembly Bill No. 1620 ordered on unfinished business calendar.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, May 5, 1937.

To the Honorable Members of the Assembly.

I am returning herewith, without my approval, **Assembly Bill No. 197,** the same being:

"An act to amend section 1011 of the Code of Civil Procedure, relating to service of notices and papers in civil actions"

This bill would add to section 1011 of the Code of Civil Procedure, a provision that notices and other legal papers can be served upon the attorney by mail if the attorney has his office within the same county and in a city other than that in which the person making the service has his office.

I am unable to determine the purpose of this bill, since section 1012 of the Code of Civil Procedure now provides that service may be made by mail in cases where the person desiring to serve the notice resides or has his office "in a different place" than that in which the party to be served resides or has his office

It has been the universal practice to serve by mail in cases where the two parties reside in different cities within the same county, and Assembly Bill No 197 seems to add nothing to the present code section I know of no decision to the effect that service can not be made between cities within the same county, by mail.

For the above reasons, I am returning Assembly Bill No 197 without my approval.

Respectfully submitted.

FRANK F. MERRIAM, Governor of California

Assembly Bill No. 197 ordered on unfinished business calendar.

Point of Order.

Mr Field arose to the following point of order That the Committee on Public Utilities had not failed to hold a meeting on two consecutive times, therefore Assembly Bill No. 2401 was not eligible to be signed out of the Committee on Public Utilities, and placed on the calendar.

Ruling on Point of Order.

The Speaker ruled that the point of order was well taken, and ordered Assembly Bill No 2401 withdrawn from the calendar, and re-referred to Committee on Public Utilities

Notice of Motion to Withdraw Assembly Bill No. 2401 from Committee.

Mr Garland gave notice, in compliance with Rule 58, that he would move to withdraw Assembly Bill No. 2401 from the Committee on Public Utilities, and have it placed upon the calendar.

WHEREAS, The California Code Commission, as a part of its work, has in the course of preparation a draft of the balance of the proposed Streets and Highways Code; and

WHEREAS, Much of this draft in mimeographed form was submitted to many interested persons and groups prior to the present session of the Legislature, but has not yet been printed and thus has not received the wide circulation and exhaustive scrutiny which such a measure should receive before submission for legislative enactment; and

WHEREAS, The laws included in this proposed code, embodying various Street Improvement Acts, which authorize and prescribe the procedure for financing

street improvements by means of special assessments, are of vital concern to every property owner and to every city and county officer engaged in the construction or maintenance of streets, and therefore should be widely distributed and carefully examined for as long a period and by as many interested persons and groups as possible before submission to the Legislature for enactment into law; now therefore, be it

Resolved by the Assembly of the State of California, That the California Code Commission is hereby directed to prepare the balance of the proposed Streets and Highways Code for printing as soon after the adjournment of the 1937 session of the Legislature as possible, including therein all laws relating to streets and street improvement which are enacted by this session of the Legislature, and immediately to distribute the same to interested persons and groups as herein indicated; and be it further

Resolved, That the Chief Clerk is hereby instructed to have not to exceed 1,500 copies of the remainder of the proposed Streets and Highways Code printed, the cost thereof to be payable from the legislative printing appropriation.

Explanation of Vote on Napa State Hospital.

Regardless of any controversy as to whether funds for construction in our State institutions should be from relief funds or from a regular budget, I feel that it is a prime necessity that they must be provided. Accordingly, I feel that I can not vote to eliminate the only funds now in the budgets for the institutions.

It is my intention to introduce a separate bill to provide for the construction required if these are not retained in the budget, but I feel that I can not vote to eliminate these items while no other funds are assured.

MOTHER'S DAY OBSERVANCE.

California State Legislature.

Fifty-second Session.

Proclamation.

Mother's Day is recognized as one of the most impressive days of the year because it is observed in honor of that unselfish and sympathetic personality whose patience and counsel was invaluable to each of us during the experiences of childhood, youth and the later years.

The emblem of Mother's Day, through the universal language and beauty of a flower, a carnation, is expressive of an ideal and is associated throughout the world with the name, "Mother."

On this day, some of us will be fortunate enough to wear a red carnation and by so doing will have an opportunity to express our appreciation in a tangible manner Others of us will be privileged only to wear a white carnation and have the pleasant memories of that kind and understanding personality to whom we refer as "The Best Mother Who Ever Lived."

In an effort to emphasize the significance of this day and as a reminder of the many features included in the Mother's Day program such as The Letter, The Carnation, The Memory Tree and The Home Pilgrimage; now, therefore, I, Frank F. Merriam, Governor of California, do hereby proclaim Sunday, the ninth day of May, as "Mother's Day" within the limits of our Commonwealth.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this twenty-eighth day of April, A.D. nineteen hundred and thirty-seven.

Governor of California.

Whenever the bonds authorized, issued and sold pursuant to and under the authority of the acts known and cited as the "San Francisco Seawall Act," the "San Francisco Harbor Improvement Act of 1909," the "India Basin Act," and the "San Francisco Harbor Improvement Act of 1913" or the "San Francisco Harbor Improvement Act of 1929," (the titles whereof are fully set forth in section 5 of this act, together with the dates of their approval, respectively) shall have been fully redeemed by the employment and use of the sinking funds created by section 5 of this act, the Treasurer shall advise and inform the Governor that the same have been fully redeemed and the Governor shall thereupon issue his proclamation to the effect that all of said bonds have been redeemed and upon informing himself that such is the fact shall issue his proclamation to the effect that all of the terms of this act have been fulfilled, and upon the issuance of said proclamation, the Treasurer shall proceed to close and shall close all accounts created by section 5 of this act, and shall transfer the funds therein to the treasurer of the City and County of San Francisco, who shall issue his receipt therefor. Upon the issuance of the proclamation by the Governor as herein provided all powers of audit and examination of accounts by the State of California shall cease and determine.

SEC. 13. All persons actually employed in the operating service of the Board of State Harbor Commissioners and heads of departments and bureaus in such operating service at the time the City and County of San Francisco shall take over and assume the management and control of said harbor and the properties used in connection therewith and who at said date shall be entitled to the benefits of the civil service provisions of the State of California, in so far as the same may be applicable to the employees of the Board of State Harbor Commissioners, shall be continued in their respective positions and shall continue to hold their said positions pursuant to the civil service provisions of the charter of the City and County of San Francisco and they shall be entitled to all of the rights, benefits and privileges which said persons might have or might have had, had said persons been originally appointed to their respective positions under certification from the civil service commission of the City and County of San Francisco, and in the matter of seniority in service of said employees entitled to the benefits of said civil service provisions as herein provided, the seniority of each employee shall be reckoned from his first permanent appointment to employment under said Board of State Harbor Commissioners, and as to their respective positions said employees shall have preference over all other employees of the City and County of San Francisco.

SEC. 14. All persons who are in the employ of the State Harbor Commission on the date of the actual transfer to the City and County of San Francisco of the properties now under the control of said commission, and who are continued in accordance with this act in the employ of the board vested by the City and County of San Francisco with the management and control of said harbor, shall become members of the San Francisco city and county employees' retirement system on said date. The contributions standing to the credit of said persons in the State Employees' Retirement System at the close of the day immediately preceding said date, shall be transferred to the said San Francisco city and county employees' retirement system, plus interest on said contributions at the rate of four per cent per annum from the first of the month following that for which the contribution was made, to said date of actual transfer, plus such rate of interest as shall have been earned on such contributions in excess of four per cent, while in the State Employees' Retirement Fund, through the June 30th next preceding the said date of actual transfer, all interest to be compounded at each June 30th. Contributions, with interest as described in the next preceding sentence, which shall have been made from the harbor fund to the State Employees' Retirement System to provide service and disability retirement allowances to be based on service rendered by said persons after becoming members of the said State Retirement System, shall be transferred to the San Francisco city and county employees' retirement system at the time contributions are transferred as set forth herein, an amount equal to the difference between the contributions, with interest, of employees referred to in the first sentence of this section and the contributions referred to in the next preceding sentence, shall be paid from the harbor fund to the San Francisco city and county employees retirement system, all for the purpose of meeting the requirement in that system that the employer's contributions shall be equal to contributions of the employees. Said persons shall receive credit as prior service under said San Francisco city and county employees' retirement system, for all service rendered prior to January 1, 1932, as employees of the said commission, in exactly the same manner as said credit would have been granted had such service been rendered as employees of an office or department of the City and County of San Francisco, the cost of benefits allowed on the basis of such service to be met by contributions from the harbor fund.

Any person who shall have been retired under the State Employees' Retirement System from employment by the harbor commission, and shall be receiving a retirement allowance from such system, on said date of actual transfer, shall thereafter receive the retirement allowance from said San Francisco system. An amount equal to the actuarial value, at said date and according to the tables adopted by the Board of Administration of said State system, of the portion of said retirement allowance, as defined in Chapter 700, Statutes of 1931, which was calculated on the basis of service rendered by said person after December 31, 1931, shall be transferred from said State Retirement System to said San Francisco system. The portion of said retirement allowance, which was calculated on the basis of service rendered prior to January 1, 1932, shall be paid, beginning with said date of actual transfer, by said San Francisco retirement system and charged against the harbor revenues. The status of said retired person under the San Francisco system shall be the same in all respects, except as to amount of retirement allowance and death benefit, as if he had been originally retired under that system.

Since it is the intent of this section that the memberships in the San Francisco city and county employees' retirement system of the persons herein referred to shall be the same, as far as practical, as if contributions made by them to the State Employees' Retirement System had been made instead to the said San Francisco system, the transfer of funds from the State Employees' Retirement System to the San Francisco city and county employees' retirement system, shall be accomplished by the transfer of bonds owned by the former, with a book value as shown on the records of said State Retirement System, equal to the amount of contributions, with interest, to be transferred, provided that if it shall be impractical to select bonds with such book value, cash equal to the difference, which shall not exceed $1,000, by which said amount shall exceed said book value of bonds selected for transfer, shall be transferred in addition to said bonds. Such bonds shall be of issues approved by the retirement board of the said San Francisco system for the investment of funds of said system, and shall have an average effective interest yield to the maturity of such bonds at a rate, based on the said book value, at least equal to the average rate of interest realized, during the fiscal year ending on the June 30th next preceding said date of actual transfer, by the said State Employees' Retirement System on the book value of bonds owned by it.

The records held in the office of the State Employees' Retirement System in connection with the memberships therein of persons referred to in the first and second paragraphs of this section, shall be transferred to the said San Francisco system in accordance with and to the extent of an agreement to be entered into between the governing boards of the two systems.

The cost of the additional pension and second additional pension provided by sections 83 and 84 of said act shall be a charge upon and be paid by the City and County of San Francisco, out of said San Francisco Harbor fund, in all such cases.

All persons employed in the operating service of the Board of State Harbor Commissioners at the time this act goes into effect, and who on the date this act takes effect reside outside the City and County of San Francisco shall not thereafter be required to reside within the City and County of San Francisco, nor shall they otherwise have their residence restricted.

The provisions of this act in respect to persons employed in the operating service of the Board of State Harbor Commissioners at the time this act takes effect shall also apply to heads of departments and bureaus in such operating service in the same manner as to the other employees, provided, however, that no person who is not a citizen of the United States shall be continued in or appointed to his position.

SEC. 15. When the management and control of the properties now under the jurisdiction of the Board of State Harbor Commissioners, and hereinbefore referred to, is transferred to the City and County of San Francisco, all control over the said properties and over the revenue and income therefrom shall cease and determine, provided, however, that nothing herein contained shall curtail or abridge the powers of said Board of State Harbor Commissioners over said properties if the said properties or the management or control thereof should revert to the State of California.

SEC. 16. This act may be known, referred to and cited as the "San Francisco Harbor Act."

SEC. 17. If any section, subsection, clause, sentence or phrase of this act which is reasonably separable from the remaining portions of this act is for any reason held to be unconstitutional, such decision shall not affect the remaining portions of this act. The Legislature hereby declares that it would have passed the remaining portions of this act irrespective of the fact that any such section, subsection, clause, sentence or phrase of this act be declared unconstitutional."

On page 1 of the printed bill, between lines 7 and 8, insert the following paragraph:

"Such value shall be determined by an action filed in the superior court pursuant to the provisions of the Code of Civil Procedure relating to eminent domain. In such action it shall be sufficient to name and obtain service of process upon the municipal corporation and the members of the board of park commissioners thereof, if any, as parties defendant. Owners of property within the assessment district shall not be necessary or proper parties to any such action."

Amendment No. 6.

On page 1 of the printed bill, strike out lines 8 to 24, inclusive, and insert in lieu thereof the following:

"SEC. 2. The amount determined by the court shall be paid to the property owners within the assessment district as hereinafter provided. The city council shall order the street superintendent to proceed to make a reassessment in the original proceedings for the acquisition of such property for park purposes in the following manner: The said street superintendent shall prepare and file with the reassessment a diagram showing the lots, pieces or parcels of land deemed by him to have been benefited by the work of improvement; the reassessment shall assess upon and against each of the lots, pieces or parcels of land within the assessment district the amount of the original assessment less a pro rata of the sum so appropriated, prorated in the same proportion that the said original assessment against such lot, piece or parcel of land bears to the total of such original assessment for the improvement. Such reassessment need not be in any prescribed form but shall refer to the original assessment filed, giving the date of filing of said original assessment, and shall state that it is made pursuant to the order of the legislative body of the municipality and shall be accompanied by a diagram showing the lots to be reassessed and their relation to the work. Such dia-

gram may be the original assessment diagram if it otherwise conforms to the provisions of this section. It shall then be presented to the legislative body, which shall fix a time and place of hearing before it. Such time must be at least twenty (20) days after the reassessment is so presented. The city clerk shall then advertise the time and place of such hearing before the legislative body by publishing a notice in the newspaper in which the ordinance of intention for the improvement was published unless the legislative body directs publication in some other paper. The notice shall contain a reference to the original assessment and diagram and reference shall also be made to the reassessment and diagram of the street superintendent for full particulars as to the extent of the district affected by these proceedings and for all other particulars.

At the time fixed for the said hearing or at such time or times to which the same may be continued the legislative body shall consider any objections to the said reassessment and may correct inequalities or mistakes therein. When the city council is satisfied with the correctness of the reassessment it shall confirm the same The street superintendent shall thereupon record the reassessment and diagram, in his office, with a certificate at the end thereof executed by the city clerk that it is the reassessment approved by the legislative body of the city. He shall also note opposite the several assessments in the original assessment that have been displaced by the reassessment the fact that the reassessment has been made, giving its date, and shall credit upon such reassessment all payments theretofore made upon the original assessment or upon the bonds issued to represent the same Such reassessment shall be collectible by and payable to the city treasurer or such other officer as the city council may designate so far as practicable in the same manner as an original assessment and shall be enforceable by suit in the same manner provided in this act for enforcing an original assessment and shall have the same weight in evidence. In the event that bonds issued under or upon the security of the original assessment, no reassessment made pursuant to this section shall change the security or lien of any such bond in any manner whatsoever or the method of the enforcement thereof. The lien of such reassessment shall hold its relative rank as to other special assessment liens as of the date of filing of the original assessment. Upon confirming the said reassessment the city shall transfer into the bond and assessment redemption fund the amount so apportioned among the several assessments.

Whenever prior to the confirmation of said reassessment any principal payments shall have been made on any assessment, or on any bond issued to represent any such assessment, the owner of record of the property against which such assessment was levied, at the time such payment was made, or where a purchaser under a contract of purchase or a lessee under a lease pursuant to the terms of which contract of purchase or lease, is required to and has made such payment or payments upon the original assessment or bonds, then such purchaser or lessee shall be entitled to receive a refund of an amount of the difference between the original assessment and the reassessment in the proportion that such payment or payments made by him bears to the original assessment, with respect to the lot, piece or parcel of land for which such payment or payments were made The balance of any such appropriation, as determined by the reassessment, shall be credited pro rata to the bonds in payment thereof, applying such payment first to the interest due and then upon the principal. Thereafter the city treasurer shall pay to the holder of each bond the payment so credited from said bond and assessment redemption fund. The city treasurer is hereby authorized and directed to make all payments of refunds as authorized by this section Whenever it shall appear to the legislative body that payments shall have been made on any such assessments or bonds prior to the said reassessment, it shall be its duty to cause to be published in the newspaper in which the ordinance or resolution of intention for the improvement was published, unless the legislative body directs publication in some other paper, a notice stating the fact of such reassessment and calling upon all property owners affected by the said improvement to make claim for refund within two years from the date of the first publication of the said notice. Reference shall be made to said reassessment and diagram for all particulars Such notice shall be published once a week for two (2) weeks. In case claim for such refund shall not be made within said period, then all claims therefor shall be barred and the said amount remaining unclaimed shall revert to the fund from which said supplemental appropriation was made by the city council. No such suit shall be brought to contest, modify annul, review or in any way attack the validity of such reassessment and the proceedings had under this section unless the same shall have been commenced within thirty (30) days after the recording of the diagram and reassessment, and thereafter persons shall be barred from any such action or any defense of invalidity of the reassessment and all bonds issued thereon.

In making any such reassessment the street superintendent shall first deduct from the amount appropriated by the city council the estimated cost of the reassessment proceedings. In case such estimate should for any reason exceed the actual cost thereof, then the excess of such fund reserved for the payment of the said costs shall revert to the fund from which the appropriation was made. In the event that the said estimate shall prove to be insufficient to meet the costs of the said reassessment, then the said city council shall appropriate such additional sums as may be necessary to meet the excess costs and expenses thereof."

On page 1 of the printed bill, as amended, strike out lines 1 to 20, inclusive, and strike out all of pages 2 to 7, inclusive, and insert in lieu thereof the following

'SECTION 1. The State of California is the owner in its sovereign and proprietary capacity of certain tide and submerged lands, some of which lands contain valuable deposits of oil, gas and other hydrocarbon substances

SEC. 2. The oil and gas deposits in said State lands are being constantly drained by oil wells drilled in and operating on privately owned lands adjacent thereto. The protection of the public interest requires the development, production, removal and disposition of the oil, gas and other hydrocarbon substances from said State lands for the benefit of the State.

SEC. 3. There is hereby created the State Oil Development Board, which board shall consist of the Director of Finance, the Director of the Department of Natural Resources and the State Controller.

SEC. 4. The State Oil Development Board is hereby authorized and directed to secure the development, extraction, removal and sale of oil, gas and other hydrocarbon substances from said lands for the benefit of the State in the manner hereinafter provided.

SEC. 5. The term "person" as herein used, means an individual, a corporation a partnership, an association, a joint stock company, a trust, or any unincorporated organization or association.

SEC. 6. The State Oil Development Board, for and in behalf of the State, is authorized and empowered to condemn, acquire and possess, for and in the name of the State, any real property, and any right-of-way, easement or other interest therein that may be necessary or desirable for convenient access by the public to said State lands or for the development and production of oil, gas and other hydrocarbon substances therefrom in the manner as herein provided, and for their removal, transportation, storage and sale, and for such purposes shall, in the name of the people of the State of California, institute condemnation proceedings pursuant to section 14 of Article I of the Constitution and the Code of Civil Procedure, relating to eminent domain. The acquisition of such property is hereby declared a public use.

Any property or interest so acquired shall be made available to any person to whom an oil and gas lease may be awarded under this act; provided that the cost and expense of such acquisition shall be first paid by such person.

SEC. 7. Whenever the State Oil Development Board shall determine that the protection of the interest of the State of California in and to any oil, gas or other hydrocarbons lying within any of the tide or submerged lands of the State requires the development of said lands, then said lands shall be offered for lease in the manner as hereinafter provided to that qualified bidder offering by bid to pay to the State the highest percentum in amount and value of oil, gas and other hydrocarbon substances produced from wells drilled under such lease. Whenever the State Oil Development Board offers to lease any of such lands, the board, in its discretion, may offer such lands to be leased in their entirety or make such subdivision of such lands as the board deems desirable.

SEC. 8. The State Oil Development Board shall, within thirty (30) days after the determination to lease any of said lands, cause to be published once a week for three (3) consecutive weeks, in a newspaper of daily and general circulation, in the county in which said lands to be leased are located, and in two (2) other newspapers of daily and general circulation, one published in the city of Los Angeles and one published in the city of San Francisco, notice that the said lands will be leased and that persons desiring to bid for said leases shall fill out and file, within thirty (30) days from the last date of publication of said notice, a questionnaire with the State Oil Development Board. Said notice shall specify the minimum royalty requirements herein established. Said questionnaire shall be on a standard form prescribed by the State Oil Development Board and shall contain questions calling for the following information:

1. The exact name in which the person filing the questionnaire intends to bid

2. Whether the person filing the questionnaire is an individual, partnership unincorporated association, business trust, corporation, or joint stock company. In

case of a person filing a questionnaire as an individual he shall give his residence and business address for five years last past. Like information as to managing officers or trustees and beneficiaries shall be filed in the case of business trusts and joint stock associations.

3. In the case of business trusts, corporations, joint stock associations, or partnerships, the name of the State or other sovereign power under which the filer is organized or incorporated and the period of time that said filer has been qualified to do and has done business in the State of California.

4. The period of time the filer has engaged in the oil business in this State and in what branch thereof

5. Such other information as the State Oil Development Board may require

SEC. 9. Such statement of information shall be verified under oath as pleadings in a civil action. All statements shall be accompanied by a certified or cashier's check payable to the order of the State Treasurer in the sum of $100 as an examination fee, which in no case shall be returned. Statements so filed shall be public records and shall be open to inspection by any person or his duly authorized agent filing statements hereunder. Immediately upon receipt of said statements the State Oil Development Board shall proceed to examine the same for the purpose of carrying out the provisions of this act. If such questionnaire be deemed insufficient by the State Oil Development Board it shall, within fifteen (15) days from receipt of said questionnaire, notify in writing the person filing the same of his objections, and such person shall, within fifteen (15) days thereafter, file an amended statement setting forth the information requested.

Said board shall complete the examination of all such questionnaires within one hundred twenty (120) days after the board's determination to lease said lands; provided, however, that said board shall be authorized to extend said time of one hundred twenty (120) days an additional thirty (30) days.

SEC. 10. Within one hundred twenty (120) days after the determination by the board to lease any of said lands, unless said time be extended by the State Oil Development Board, as hereinbefore provided, the said State Oil Development Board shall cause to be prepared a list of persons qualified and entitled to bid for a lease of said lands.

SEC. 11. Within twenty (20) days after the preparation of said list of qualified bidders, the State Oil Development Board shall send out to each person qualified and entitled to bid a form of lease, said lease to contain the description of the lands offered for lease.

SEC. 12. No bid shall be accepted and no lease shall be made unless the same provides for payment to the State of not less than thirty per cent (30%) of the amount or value of the production of oil and gas from any and all wells drilled thereunder.

SEC. 13. Any lease made under authority of this act shall be for a term of twenty (20) years and as long thereafter as wells drilled thereon are producing oil and gas in commercial quantities, provided said lease may be terminated at any time after the expiration of a period of twenty-five (25) years from said date by act of the Legislature.

SEC. 14. Any lease made under authority of this act shall provide that the lessee shall, within ninety (90) days from the execution of said lease commence drilling operations and shall prosecute the same with reasonable diligence until oil and gas is found in paying quantities or to a depth at which further drilling would, in the judgment of the lessee, be unprofitable. In the event that the lessee shall not, within ninety (90) days from the execution of said lease commence drilling operations, then said lease may be declared forfeited by the State Oil Development Board, and thereupon said lease shall be null and void, and all of the rights of the lessee under said lease be at an end. If oil is found in paying quantities in any wells so drilled by the lessee, said lessee shall continue to drill additional wells, working with reasonable diligence, until a total number of wells, including offset wells, shall have been drilled equal to one (1) well for each three hundred feet (300) or major fraction thereof of the direct distance along the ordinary high-water mark of the lands embraced in the lease. The lessee may drill as many additional wells as he may desire.

The first wells drilled thereunder shall be so spaced as to properly offset wells operating on littoral lands that may be drawing oil and gas from the leased area. Any well or wells drilled so that the producing intervals thereof are within three hundred (300) feet of any exterior boundary line of the State lands embraced by the lease and which are producing oil, gas or other hydrocarbon substances in commercially paying quantities shall be deemed to be a well drawing oil and gas from the leased areas.

At any time after drilling of the first well required to be drilled under such lease, the lessee may quitclaim to the State said leased premises, except that portion on which any well shall have been drilled and is producing oil and gas in commercial quantities, and a space of three hundred thirty (330) feet square evenly surrounding the same; provided, that said lessee shall also grant to any subsequent lessee of such quitclaimed area, on such terms and conditions as the State Oil Development Board

may prescribe, a right to the joint use with said original lessee of rights of way, easements, or other interests in real property acquired in connection with the operation of said original lease as may be necessary or convenient in connection with operations on said quitclaimed area under a subsequent lease. On the quitclaiming of any area the area so quitclaimed may be again leased by the State Oil Development Board in the same manner as herein provided for making the original lease.

SEC. 15. In addition to other provisions required by this act, such lease shall also include provisions:

(a) That piers or groins shall be so constructed as not to prevent public access to and from the beach for bathing, fishing or other recreational purposes, and that drilling and production operations shall be conducted and the equipment therefor shall be constructed with precaution to prevent any pollution of the waters of the ocean and any unnecessary interference with public use of the beaches for such purposes.

(b) Such terms, conditions and provisions as shall protect the interests of the State with reference to securing the payment to the State of the proper amount or value of production; the proper spacing of wells for the purpose of securing maximum production; diligence on the part of the lessee in drilling the same to the oil sands; methods of operations and standard requirements for carrying on operations in proper and workmanlike manner; prevention of waste; protection of safety and health of workmen; liability of lessee for personal or property damage; prohibiting assignment of the lease or subletting without written consent of the State Oil Development Board; security for faithful performance by the lessee, and such other covenants, conditions, requirements and reservations as may be deemed advisable by the State Oil Development Board, in executing the purposes of this act, and not inconsistent with any of its provisions.

(c) A portion of the lands subject to the provisions of this act are located within the boundaries of an incorporated city or cities. Operations under this act will require additional expense to said city or cities in the administration and enforcement of its ordinances relating to police and fire protection. Use by the State or its lessees of the streets of said city or cities will be incidental to the development of said lands in the production, removal, storage and marketing of oil, gas and other hydrocarbon substances produced from said State lands, as provided for in this act, and easements and rights of way over, across, through and on lands owned by, under the control of, or in which said city or cities have an interest, may be required therefor. As full consideration to said city or cities for all such uses of the property of said city and for all easements, franchises, rights of way over, across, through and on lands owned by, under the control of or in which said city or cities have an interest, required in connection with the operations of the State or any of its lessees under this act, the State Oil Development Board is authorized and directed to contract and agree that there shall be paid to the respective city or cities not to exceed two-thousandths of the proceeds of the production of oil, gas and other hydrocarbon substances produced from said lands and received by the State as royalties under leases made pursuant to the provisions of this act from lands included within the corporate limits of said city or cities, provided, that all moneys paid to said city or cities under this provision shall be exclusively used by said city or cities for police and fire protection and for acquiring, constructing, repairing or maintaining public parks, playgrounds, piers and streets, such use being hereby declared to be for the public interest, welfare and convenience of the State.

SEC. 16. Every qualified bidder desiring to bid on any of said State lands offered for lease shall fill out the blank space indicated in said lease for fixing the percentage of amount or value of production of oil, and the percentage of amount or value of production of gas and casinghead gasoline proposed to be paid or to be delivered to the State as royalty, and sign and execute the lease as lessee and return it to the State Oil Development Board, State Capitol, Sacramento, California, at a date specified not later than thirty (30) days from the date of the mailing of the same by the State Oil Development Board. All bids shall, in this form, be presented under sealed cover and shall be accompanied by a certified or cashier's check of a responsible bank in California made payable to the State Treasurer in the sum of $10,000. The amount thereof shall be deposited as security for the faithful performance by the bidder of the terms and covenants of and compliance with the conditions of said lease in the event the bid offered by him is accepted. Upon his furnishing good and sufficient bond to the State in the sum of $50,000 for such faithful performance, as shall be provided for in the lease, said cash deposit shall be returned to the lessee. If his bid is not accepted, said deposit shall be returned to the bidder with notice of its rejection. No bid shall be considered unless such certified or cashier's check is inclosed therewith.

SEC. 17. On the date specified for the return of said bids at the hour of twelve o'clock m. the State Oil Development Board shall proceed to open publicly sealed bids and list the name of the bidder and the percentages of the amount or value of production bid for said State lands to be leased.

SEC. 18. Any person bidding on any of said State lands to be leased may be in attendance at the time said bids are opened, either in person or through an agent.

SEC. 19. In the event two or more persons offer bids on said State lands at the same percentage and have duplicate bids thereon, said persons shall immediately

determine by lots cast under the direction of the State Oil Development Board which one of said persons shall receive said lease

SEC. 20. Any bid may be withdrawn at any time prior to the hour for the opening of said bids, said withdrawal to be as follows and not otherwise. A request in writing for the withdrawal of such bid must be filed with the State Oil Development Board, which request must be executed by the bidder or his duly authorized representative. The withdrawal of a bid shall not prejudice the right of the bidder to file a new bid. Nothing in this section contained shall authorize the withdrawal of any bid at the hour fixed herein for the opening of such bid and no bid shall be received at or after such hour, regardless of whether or not such bids are opened exactly at the hour set or thereafter

SEC. 21. On the opening of said bids, and after determination of the highest qualified bidder entitled to the same, the Director of Finance, at the direction of the State Oil Development Board, after such bid is accepted, shall execute in the name of the State of California the lease executed and used as a bid by said successful bidder, and thereafter a duplicate of said lease shall be executed, both by the successful bidder and the Director of Finance. One copy of an accepted bid or lease, after its execution by the Director of Finance for and on behalf of the State, shall be recorded in the county in which said State lands to be leased are located and shall be filed with the Secretary of State.

SEC. 22. The State Oil Development Board shall have the power

(a) To make and enforce reasonable rules and regulations not inconsistent with this act for the purposes of carrying out the provisions hereof and it may do all things reasonably necessary for such purpose

(b) To lease any tidelands or submerged lands of the State of California for the development, extraction, recovery, storage and sale of oil, gas and other hydrocarbon substances within and from the subsurface of said State lands, whether or not said lands be within the geological structure of a producing oil or gas field, and whether or not they front on an incorporated city or be within any given distance on either side thereof

(c) To modify any of the provisions of any lease issued under the provisions of this act upon application for such modification be made by the lessee and determination by the said board that the interest of the State of California may be protected by such modification

(d) At its discretion, to enter into a lease with any person who can qualify as a bidder as in this act provided with reference to lands within a known productive oil area without the necessity of calling for bids as in this act set out when said board determines that the delay attendant upon the procedure for the award of a lease under the provisions of this act would result in a detriment and loss to the State of California and where the terms of said lease entered into under the provisions of this subsection provide for payment of a royalty to the State of California in an amount greater than the minimum royalty specified under the provisions of this act

(e) To determine the manner of development and to determine whether the best interest of the State will be served by drilling from the surface of said tidelands or from and by means of piers, groins or islands located thereon or from sites located on the littoral lands, and all offers to lease, pursuant to the provisions of this act, shall clearly specify whether or not the lessee will be required to drill from the surface of said lands offered for lease or from and by means of piers, groins or islands located thereon or from the surface of littoral lands adjoining said lands offered for lease.

SEC. 23. The State Oil Development Board is hereby prohibited from

(a) Leasing or offering to lease any lands not within the limits of a proven oil field for the production of oil by drilling from the surface of said lands or from and by means of piers, groins or islands located thereon;

(b) Leasing or offering to lease any State lands pursuant to the provisions of this act for the production of oil therefrom by means of wells located upon the surface of said lands or from and by means of piers, groins or islands located thereon, unless and until the qualified electors of the county in which said lands to be leased are located have, by affirmative vote at an election called for that purpose, ratified the proposal of the State Oil Development Board to lease the said lands for the development and production of oil by means of wells located on the surface of said lands to be leased or from or by means of piers, groins or islands located thereon

The board of supervisors of any county or city and county in which are located any of the lands subject to the provisions of this act which are proposed to be leased by the State Oil Development Board, in pursuance to the provisions of this act, shall, upon request therefor by the State Oil Development Board, submit to the qualified electors of said county or city and county, said proposal to lease said lands for the purpose of the development and production of oil therefrom either at any regular election or at a special election called for that purpose

SEC. 24. In the event no bids for leases of any State lands offered for lease are received by the State Oil Development Board in accordance with the foregoing requirements, the State Oil Development Board may and it is hereby authorized to again call for bids for leases thereof in the manner provided for in this

act, or the State Oil Development Board may proceed immediately with the drilling of wells on said State lands offered for lease and for which no bids were received for and on behalf of the State for the production, removal and disposal of oil, gas and other hydrocarbon substances therefrom. The work of drilling and construction in connection therewith, if done by the State may be performed under contract or award to the lowest responsible bidder or by day labor, provided that if done by contract, the State Oil Development Board may reject any and all bids and call for new bids for such work. The right of the State Oil Development Board to commence drilling from the surface of said State lands, or from and by means of piers, groins or islands located thereon, and for on behalf of the State shall not be exercised unless and until the qualified electors of the county in which said lands are located have first ratified and approved the proposed operations in accordance with the provisions of this act.

All necessary equipment and materials for the prosecution of said work, construction of piers, groins or islands, drilling, production and other operations shall be purchased by the State Oil Development Board from any funds made available for that purpose. All oil, gas and other hydrocarbon substances produced shall be sold by the State Oil Development Board at best obtainable prices and at such times as it shall deem proper for securing maximum cash returns to the State therefor. All funds received from operations under this act shall be immediately reported to the Controller and paid into the general fund, except as otherwise provided by law.

SEC. 26. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions thereof. The Legislature hereby declares that it would have passed this act, and each and every section, subsection, sentence, clause and phrase thereof irrespective of the fact that any one or more other sections, subsections, sentenced, clauses or phrases be declared unconstitutional.

Message from the Governor.

The following message from the Governor was received and read:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, May 7, 1937.

To the Honorable Members of the Assembly

I am returning herewith, without my approval, Assembly Bill No. 69, the same being:

"An act to amend section 1307 of the Penal Code, relating to forfeiture of bail."

This bill proposed to amend section 1307 of the Penal Code, relating to forfeiture of bail. The present section now provides for payment by the clerk of the county treasurer of forfeited bail at the end of 30 days instead of 90 days, as is proposed in this bill.

Believing it poor public policy to extend this time to permit the holding of money deposited for bail, for the longer period, I am returning the bill without my approval.

Respectfully submitted.

FRANK F. MERRIAM, Governor of California.

Explanations of Vote on House Resolution No. 161.

I request the following statement to be printed in the Journal in reference to vote on House Resolution No. 161:

I did not vote on House Resolution No. 161 for the reason that I was a member of the committee and was extremely reluctant to request a further appropriation. At the time of hearings of the committee I vehemently opposed further meetings if such would result in a deficit in the original appropriation and amended a motion, for additional hearings, to be contingent on sufficient funds for that purpose, the information to be supplied by Assemblyman Yorty, secretary of the committee. On receipt of such information Assemblyman Jack Tenney called the additional hearings of the committee in San Francisco, which resulted in the deficit. I want to state positively that I am against the principle of interim committees incurring expenses in excess of the original appropriations and to state further that the present deficit of the committee was incurred over my definite and vigorous protest.

Signed,

KENT H. REDWINE.

I voted for the above bill to prevent innocent persons from suffering loss, but otherwise subscribe to everything stated above by Mr. Redwine.

SETH MILLINGTON.

Messages from the Governor.

The following messages from the Governor were received and read

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, May 8, 1937

To the Honorable Members of the Assembly.

I am returning herewith, without my approval, **Assembly Bill No. 694**, the same being

> "An act to amend section 737hh of the Political Code, relating to compensation of the judges of the superior court in and for the county of Sacramento"

Nothing has been filed in support of this bill which indicates any unusual reason or situation justifying the proposed increases in salaries. In harmony with my policy of economy in every branch of the government, and that there shall be no approval of expenditures necessitating increased taxes, as announced some days ago when taking action on other bills, I am withholding my approval of Assembly Bill No. 694.

Respectfully submitted

FRANK F. MERRIAM, Governor of California.

Assembly Bill No. 694 ordered on unfinished business calendar

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, May 8, 1937

To the Honorable Members of the Assembly.

I am returning herewith, without my approval **Assembly Bill No. 425**, the same being,

> "An act to amend an act entitled "Los Angeles County Flood Control Act," approved June 12, 1915, as amended, by amending section 12 thereof, relating to flood control bonds"

Assembly Bill No. 425 undertakes to extend to the Los Angeles County Flood Control District special privileges relative to making certain bonds legal investment for all trust funds and for funds of all insurance companies, banks and trust companies, etc., in fact removing them entirely from the supervision of the Banking Department as provided under the Banking Laws of the State of California

Section 12 of the Act of 1915, creating the Los Angeles County Flood Control District, provides that bonds issued by the district are legal investment for all trust funds and for funds of all insurance companies, banks and trust companies, etc. The above provision of section 12, making the bonds legal investment for all trust funds and for funds of all insurance companies, banks and trust companies, etc, does not remove them from the supervision, investigation and certification of the banking department

The evident intention of paragraph 2 of Assembly Bill No. 425, is to declare the Los Angeles County Flood Control District a separate political entity and to make it absolutely exempt from the Banking Laws of the State of California as respects the investigation and certification of bonds available for legal investment of all trust companies and for funds of all insurance companies, banks and trust companies etc This paragraph of the act declares, viz.

> "This act is special and is intended to control over all other acts which authorize or otherwise provide for the investment of funds of the classes herein enumerated or which authorize the use of bonds as security for the performance of an act; and any act now existing or hereafter adopted which provides for the investment of funds of any of the classes, kind or type of public corporation" etc.

I am opposed to placing the Los Angeles County Flood Control District or any similar unit of government of the State above all supervision of the Banking Laws

of the State of California, and am, therefore, returning Assembly Bill No. 425 without my approval.

Respectfully submitted.

FRANK F. MERRIAM, Governor of California.

Assembly Bill No 425 ordered on unfinished business calendar.

Hunt in migrating to Reno, Nevada, during the past week-end and there taking the marriage vows with the lady of his heart, the former Blanche E. Message from the Governor.

The following message from the Governor was received and read:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, May 10, 1937.

To the Honorable Members of the Assembly

I am returning herewith without my approval **Assembly Bill No. 1406,** the same being

"An act to amend sections 1 and 2 of an act entitled "An act establishing and standardizing the weight of loaves of bread and regulating the sale thereof," approved June 2, 1921, relating to weights of bread"

No reason has been filed with me in favor of the approval of this measure, and I am at a loss to understand the reason for its presentation. The present law

requires the taking of certain weights of bread six hours after baking, and the weight of the bread shall be secured by averaging the weight of not less than 20 loaves.

Assembly Bill No. 1406 would change this to require the certain weights of bread 12 hours after baking and of averaging the weight of not less than ten loaves.

Since no reason has been advanced for the change, I am returning the bill without my approval.

Respectfully submitted.

FRANK F. MERRIAM, Governor of California.

The following amendments were submitted by the committee:

Amendment No. 1.

On page 1, line 1 of the title of the printed bill, strike out "84a and 108", and insert in lieu thereof the following: "28a, 65a, 65d, 83a, and 109 of, to add section 8a to, and to repeal section 84a".

Amendment No. 2.

On page 1 of the printed bill, strike out lines 1 to 24, inclusive, and on page 2, strike out lines 1 to 37, inclusive, and insert in lieu thereof the following:

"SECTION 1. Section 8a is hereby added to the act cited in the title hereof to read as follows:

Sec 8a. "Highway Patrol Service" shall mean service rendered as a member of the California Highway Patrol, or as a member, on or after September 1, 1923, of the highway patrol of the county of Los Angeles in California, or as a member of

the highway patrol of any other county in the State on and after the effective date of the contract entered into by said county with the State in connection with its highway patrol, as provided for in Chapter 266, Statutes of 1923. For the purpose of this act, a member shall be considered as being in the "Highway Patrol Service" only while he is receiving compensation from the State or county for such service, except as provided in section 47 hereof.

SEC. 2. Section 28a of the act cited in the title hereof is hereby amended to read as follows:

Sec. 28a. Persons who are members of the California Highway Patrol become and remain members of the retirement system in the same manner as in the case of other eligible State officers or employees, except that when any such person is disabled or killed by injury or illness arising out of and in the course of such duties, such person, in respect to such disability or death, is deemed a member of the retirement system while in State service prior to the completion of the six months of service referred to in section 27, to the same extent as if such six months of service was completed prior to such disability or death.

"Member of the California Highway Patrol," and "Member of the highway patrol of a county," for the purpose of the retirement system, includes persons employed in the Motor Vehicle Department or by a county in connection with its highway patrol function, respectively, whose principal duties consist of active law enforcement service and excludes such persons whose principal duties are those of a telephone operator, clerk, stenographer, machinist, mechanic, or otherwise clearly not falling within the scope of active law enforcement service, even though such person is subject to occasional call, or is occasionally called upon, to perform duties within the scope of active law enforcement service.

SEC. 3. Section 65a of the act cited in the title hereof is hereby amended to read as follows:

Sec. 65a. The normal rates of contribution of each member, who is also a member of the California Highway Patrol, shall be based on his age at July 1, 1935, or at his later entrance into the retirement system, and his age when he entered highway patrol service, both ages being taken to the next lower completed quarter year. The age at entrance into the highway patrol service, if said entrance was prior to July 1, 1935, shall be determined by deducting the total of such service credited to the member at July 1, 1935, from his age at that date. The normal rates of contribution of each such member who entered highway patrol service at or below age forty-five shall be such as, on the average for such member, if his service on full salary be uninterrupted and when accumulated with regular interest, added to the equal accumulated contributions of the State and applied according to the tables adopted by the board will provide a retirement allowance upon retirement for service at the age of sixty years, or upon completion of twenty years of service at an age higher than sixty years, equal to one-half of his final compensation, less that part of the retirement allowance set forth in section 83a, which is to be provided by contributions of the State on account of service rendered prior to January 1, 1932, if such member affirmatively exercises the option in section 65d; otherwise, less a pension calculated in the same manner as the pension in section 83a, but on the basis of highway patrol service rendered by him prior to July 1, 1935. If such member entered highway patrol service at an age greater than forty-five years, then his normal rate of contribution shall be such as will provide an average annuity at age sixty-five equal to one-eightieth of his final compensation, according to tables adopted by the board, for each year of service after July 1, 1935, or after entrance into the retirement system if he affirmatively exercises the option in section 65d. The normal rate of contribution of any member who received credit for service rendered as a member of the highway patrol of a county in California, shall be adjusted in such manner as may be necessary to comply with this section.

SEC. 4. Section 65d of the act cited in the title hereof is hereby amended to read as follows:

Sec. 65d. The rates of contribution provided for in section 65c for members of the California Highway Patrol shall apply on and after July 1, 1935. Each of such members, however, shall have the option, to be exercised on or before December 31, 1937, of contributing a sum sufficient to make the amount of the accumulated contributions standing to his credit on that date the same as such amount would have been had he been contributing at the rate, from and after the effective date of his membership in the retirement system, which would have applied to him at such effective date if said rates for the highway patrol had been then in effect. If such option is affirmatively exercised, then the rate of contribution for such member on and after July 1, 1935, shall be based on his age at such effective date and his age at the date of entrance into highway patrol service.

SEC. 5. Section 83a of the act cited in the title hereof is hereby amended to read as follows:

Sec. 83a. An additional pension for members who are also members of the California Highway Patrol, purchased by contributions of the State. Such additional pension shall be the same percentage of his final compensation, regardless of his age at retirement, for each year of highway patrol service rendered by him

prior to January 1, 1932, as the contributions of the member and the State are calculated to provide upon retirement for service at sixty years of age or upon completion of twenty years of service at an age higher than sixty years or upon retirement with less than twenty years of service at age sixty-five, for each year of such service after said date.

SEC. 6. Section 84a of the act cited in the title hereof is hereby repealed.

SEC. 7. Section 109 of the act cited in the title hereof is hereby amended to read as follows.

Sec. 109 In addition to such payments from the general fund, there shall be paid monthly, from and after the date this act takes effect, into the State employees' retirement fund out of the motor vehicle fund a sum equal to nine and twenty one-hundredths per centum of the total compensation paid from said fund to members of the retirement system who also are members of the California Highway Patrol and out of said motor vehicle fund and every other fund directly controlled by the State, out of which the compensation of members is paid, a sum equal to three and seventy-five one-hundredths per centum of the total compensation paid members, other than members of the said highway patrol, of the retirement system from the said fund All such payments, whether heretofore or hereafter made are hereby validated and confirmed The board of administration shall certify to the State Controller at the end of each month the total amount of compensation paid such members of the retirement system from each such fund and the State Controller shall thereupon transfer the percentages as specified in this section, of said total amount from each such fund, respectively, to the "State employees' retirement fund" If any member of the said highway patrol shall affirmatively exercise the option in section 65d, the Controller shall transfer into the said retirement fund from the motor vehicle fund upon certification by the board of administration of the total compensation received by said member for service as a member of the retirement system rendered prior to July 1, 1935, three and ninety one-hundredths per centum of said total compensation. The appropriation made by Chapter 865, Statutes of 1933, shall no longer be held solely for the benefit of the persons designated therein, but shall be applied on the State's liability for benefits based on prior service of all members of the California Highway Patrol."

(b) A live stock producer or dairyman from slaughtering upon his own premises calves under the age of eight months which are the actual increase of his own herd, if the calves are accompanied by a certificate of ownership, offered for inspection at any point where inspection is maintained in accordance with regulations issued by the director, and are marketed by whole carcass with hide on.

(c) Any butcher located in a remote section, when in the opinion of the director it is impractical or impossible to assign any inspector, may, upon written application, be granted an exemption certificate to be used in accordance with the regulations of the director; provided, that the meat of animals slaughtered in accordance with such exemption shall be offered for sale only in the immediate locality where the animals were slaughtered.

The certificate must be renewed the first day of January of each year.

Should facilities for inspection become available at any time, the director is empowered to withdraw such exemption certificate. To the Honorable Members of the Assembly

I am returning herewith, without my approval, **Assembly Bill No. 2817**, the same being:

"An act to amend section 737vv of the Political Code, relating to the compensation of the judge of the superior court in and for the county of Solano."

This action is prompted by the same considerations as set forth in previous messages, and in harmony with a policy of economy in every branch of the government.

That there shall be no approval of expenditures necessitating increased taxes seems to justify withholding my approval of Assembly Bill No. 2817.

Messages from the Governor.

The following messages from the Governor were received and read:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, May 11, 1937.

To the Honorable Members of the Assembly.

I am returning herewith, without my approval, **Assembly Bill No. 1912**, the same being:

"An act to authorize counties to convey and transfer to flood control districts within such counties drainage systems and works constructed in drainage improvement districts organized pursuant to an act entitled the Drainage District Improvement Act of 1919 prior to January 1, 1937, and prescribing the terms and conditions and the effect of such conveyance and transfer and fixing liabilities with respect to obligations of such drainage districts"

This bill affects more especially Los Angeles County Flood Control District, and its taxpayers. Under the terms of this measure nine or more local drainage districts within the flood control boundaries could, upon approval of the board of supervisors, transfer approximately $5,000,000 of drainage district bonds and interest to the larger district. The taxpayers in the drainage district which have already discharged their obligations would thus be assessed by the flood control district to pay bonds of the drainage districts so transferred.

It hardly seems fair to make taxpayers join in paying the bonds of other districts after having paid their own obligations for similar undertakings.

Assembly Bill No. 1913, a companion measure relating to the same subject, provides for an additional levy by a special tax "sufficient to pay the cost and expense of maintaining, repairing, making changes in, additions to or extension of the drainage systems and works so conveyed and transferred," and this bill must necessarily be considered in connection with Assembly Bill No. 1912.

A question has arisen as to whether under Assembly Bill No. 1912 and Assembly Bill No. 1913, drainage districts against which no bonds existed may be transferred to the flood control district. If districts without bond obligations can be transferred, and such districts must continue with their "maintenance, repairing, making changes

in, additions to or extensions," etc., this law would work an injustice, and should not be enacted.

I regret these measures are not more specific in regard to the matters above mentioned, and further that they do not provide for the adoption of such a course by vote of the people of the district. There could be no serious opposition to the bill if all drainage districts are to be transferred, and the voters were permitted to express themselves on the question of such transfers and maintenance.

For the above reasons, I am returning Assembly Bill No. 1912, without my approval.

Respectfully submitted.

FRANK F. MERRIAM, Governor of California.

Assembly Bill No. 1912 ordered on unfinished business calendar.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, May 11, 1937.

To the Honorable Members of the Assembly.

I am returning herewith, without my approval, **Assembly Bill No. 1913**, the same being:

"An act to amend the 'Los Angeles County Flood Control Act,' by adding thereto a new section, to be numbered 13½, relating to the conveyance and transfer to such district of drainage systems and works of drainage improvement districts and for the assumption of liability for the payment of bonds of drainage districts issued for the construction of the drainage systems and works so conveyed and transferred and for the maintenance of such drainage system and works."

My reasons for withholding approval of Assembly Bill No. 1913 have been fully set forth and discussed in connection with the message on Assembly Bill No. 1912.

Approval is withheld in accordance with the statement above mentioned.

Respectfully submitted.

FRANK F. MERRIAM, Governor of California.

Assembly Bill No. 1913 ordered on unfinished business calendar.

In any city or city and county which is governed under a charter framed and adopted under the authority of this Constitution containing a population of more than forty thousand inhabitants, as ascertained by the last preceding census taken under the authority of the Congress of the United States, a municipal court may be established as in this article provided, anything in this Constitution to the contrary notwithstanding. For each such municipal court at least one judge with such additional judges as may be determined by the Legislature, shall be elected by the qualified electors of the city or city and county at the general municipal election. In any city, or city and county, in which such municipal court shall be established for which there shall be more than one judge the judges of such court may hold as many sessions thereof at the same time as there are judges thereof, and the business thereof shall be apportioned among such judges in the manner prescribed by law

The Legislature shall provide by general law for the establishment of such municipal courts in cities or cities and counties in this section specified, and for the constitution, regulation, government, procedure and jurisdiction thereof.

The manner in which, the time at which, the term for which the judges, clerks and other attaches of municipal courts shall be elected or appointed, the number and qualifications of said judges and of the clerks and other attaches, except as such matters are otherwise provided in this article, shall be prescribed by the Legislature.

Pending actions, trials, and all pending business of inferior courts within a city or city and county or township, upon the establishment of any such municipal court therein, shall, unless otherwise provided by law, be transferred to and become pending in such municipal court, and all records of such inferior courts shall be transferred to, and thereafter be and become records of, such municipal court.

Upon the establishment of any such municipal court, and until the first election and the qualification of the judge or judges thereof, and the first appointment and the qualification of the clerks and other attaches thereof, the judges or justices, and the clerks and other attaches, of any existing inferior courts in such city, city and county, or township shall become and act as the judges, clerks and attaches respectively of such municipal court. Whenever any city having a municipal court is formed into a consolidated city and county with the combined powers of a city and county, under proceedings therefor as elsewhere in this Constitution provided such municipal court shall thereupon and thereby be and become the municipal court of such city and county.

The compensation of justices of the supreme court and of the district court of appeal shall be fixed, and the payment thereof prescribed, by the Legislature.

The compensation of judges of the superior court and judges of the municipal courts shall be fixed by the boards of supervisors of the respective counties in which the courts are situated to which such judges were elected or appointed.

Fifth Section 5 of Article XI is hereby amended to read as follows:

SEC 5. The Legislature, by general and uniform laws, shall provide for the election or appointment, in the several counties, of boards of supervisors, sheriffs, county clerks, district attorneys, and such other county, township, and municipal officers as public convenience may require, and shall prescribe their duties and fix their terms of office. It shall regulate the compensation of boards of supervisors in the respective counties and for this purpose may classify the counties by population. It may regulate the compensation of grand and trial jurors in all courts within the classes of counties herein permitted to be made. The boards of supervisors in the respective counties shall regulate the compensation of all officers in said counties other than boards of supervisors, shall regulate the compensation of judges of the superior court and judges of any municipal courts in such county, and shall regulate the number, method of appointment, terms of office or employment, and compensation of all deputies, assistants, and employees of the counties and of all employees and attaches of the superior court and municipal courts in such counties.

The provisions of this section shall not be construed to abridge, modify or otherwise affect the provisions of sections 7½, 7¾a and 8½ of this article, relating to county or city and county charters. That certain act entitled "An act to add a new section to the Political Code to be numbered 4056d, relating to powers and duties of boards of supervisors with respect to county and township officers, deputies, assistants and employees," as enacted by the Legislature at its fiftieth session, is hereby validated in all respects except as it conflicts with this section, and made fully and completely effective.

The compensation of any county, township or municipal officer shall not be increased after his election or during his term of office, nor shall the term of any such officer be extended beyond the period for which he was elected or appointed. The provisions of this section shall not prevent the allowance of any new or additional deputy or assistant to the principal in any county office during his term, nor shall they prevent any increase in the compensation of any deputy or assistant to such principal at any time.

The provisions of this section shall not abridge, modify or otherwise limit the power of the Legislature by general and uniform laws to prescribe the qualifications of any county officer or of any deputy or assistant, or to prescribe the method of appointment of any person so qualified."

Motion to Print Explanation of Vote in Journal.

On motion of Mr. Robertson, the following explanation of vote on Governor's objections to Assembly Bill No. 500 on May 6, 1937, was ordered printed in the Journal:

Explanation of Vote on Governor's Objections to Assembly Bill No. 500.

The undersigned members voted to override the objections of the Governor to Assembly Bill No. 500 for the following reasons:

Generally speaking with reference to all of the items deleted by executive action, we feel that such action was taken without due consideration to the best interests of the State of California.

More specifically the deletions from the budget were as follows:

First.—The provision for $34,160 to be expended for the safety section of the Railroad Commission of the State of California.

The investigations and findings of the Committee on Ways and Means indicate without question this item, though relatively small in amount, was a most important provision of the budget, in that its expenditure might have saved many lives in the coming biennium, through proper inspection of dangerous railroad conditions and the elimination thereof. This item was particularly desired by labor. We feel that the Railroad Commission has been definitely handicapped by the failure of the administration to provide funds for necessary inspection and resulting safety orders.

Second.—By the elimination of $40,000, ear-marked for salaries of agents of the Division of Industrial Welfare, there has been prevented the proper supervision of the mines, oil industries and industrial plants, which will lead to numerous accidents and deaths, as has been shown in the last few years when sufficient appropriations for this department have not been made, the result being there has been a tremendous percentage increase in industrial accidents. The committee which went into this felt this to be very essential to the welfare of the people of this State. This was one of the most vital requests of labor for its own protection.

There was also cut from the budget $228,000 allocated to this Department of Industrial Relations, all of which money should have been used and expended for the protection of labor and the decrease of accidents throughout the State.

Third.—The most sweeping and unexplainable action by the Governor, however, was in removing from the budget all appropriations for capital additions and improvements to the institutions of this State in the sum of $7,266,550. It is hard

to realize that the budget, as approved and signed by the Governor, has in it absolutely no items to cover needed construction in our State institutions, such as the

California School for the Blind.
Agnews State Hospital,
Camarillo State Hospital,
Mendocino State Hospital,
Napa State Hospital,
Norwalk State Hospital,
Patton State Hospital,
Stockton State Hospital,
Pacific Colony State Narcotic Hospital,
Sonoma State Home,
Preston School of Industry,
Ventura School for Girls,
Whittier State School,
Industrial Home for Adult Blind,
Veterans' Home of California at Yountville

These institutions for a long time have been overcrowded to a most deplorable extent. The inmates are sleeping on floors, in basements and attics. Many of these buildings are fire traps of the worst kind. Unless something is done it is only a question of time until there will be a major tragedy in some one of these places Six million dollars of the $7,200,000 stricken from the budget, was provided for improvements and construction in these institutions We believe this sum an absolute minimum. To leave them without any provision whatsoever is inconceivable and in any view of the case inhumane.

The reason given for this action is that the Legislature provided that the improvements and work on these institutions should be done in cooperation with the PWA work program and that this would reduce the appropriation made for direct relief.

Competent authorities appearing before the Legislature unanimously testified the amount provided in the Budget Bill as originally enacted was more than ample to take care of this function of the Government. No authority has testified that a sum in excess of $40,000,000 was in any way necessary. We can not see why there should be any objection toward cooperating with Federal agencies when you consider that under Federal regulations of the PWA the State of California would receive back 115 per cent of the money expended by it in the construction and improvement of these institutions to the extent of labor taken off of the State employment service rolls, and that under these regulations contracts would be let by the State at prevailing hours and wages.

By adhering to this policy there has been lost to the State of California from $3,000,000 to $4,000,000 in Federal grants which would be automatically forthcoming, and which would have added that much to needed construction at these institutions. We can not look on this as an "economy" measure. We, the undersigned members, were fully aware of the fact that in voting to overide the Governor's veto we could not hope to succeed, but, nevertheless, we felt that by voting our convictions we would at least bring to the attention of the people of the State of California the soundness of our position.

Assembly Bill No. 2057—An act to amend sections 794, 804, 823, 827, 828 and 829 of, and to add section 829.5 to the Agricultural Code, relating to the standardization of containers for fruit.

The question being put: Shall the Assembly concur in the following Senate amendments to Assembly Bill No. 2057?

Amendment No. 1.

On page 1, line 1 of the title of the printed bill, after "794," insert the following: "804, 823, 827,".

Amendment No. 2.

On page 1, line 3 of the title of the printed bill, strike out "cherries", and insert in lieu thereof the following: "fruit".

Amendment No. 3.

On page 2 of the printed bill, between lines 14 and 15, insert the following:

"SEC. 2. Section 804 of the Agricultural Code is hereby amended to read as follows:

804. Fresh pears shall be mature but not overripe, free from codlin moth larvae, mold, decay, black end, unsealed cuts, and skin breaks; and free from serious damage, due to hail, scab or other diseases, hard end, bruises, limb rubs, frost, codlin moth larvae or other insects

Damage to any one pear is not serious when it is caused by:

(a) Scab, unless the spots cover an aggregate area of more than one-half of an inch in diameter;

(b) Hail damage, unless it affects an aggregate area of more than one-half inch in diameter or is more than one-fourth of an inch in depth;

(c) Codlin moth larvae, unless it causes unhealed stings or holes, however superficial, well healed codlin moth stings are not serious;

(d) Thrip mark, blister mite or other superficial blemishes caused by insects, unless more than ten per cent of the surface of the fruit is affected or they cause a depression of more than one-fourth of an inch in depth;

(e) Other diseases, limb rubs, frost, bruises, or hard end, unless such defects cause a waste of more than ten per cent, by weight, of the individual pear.

Not more than ten per cent, by count, of the pears in any one container or bulk lot may be below these requirements, but not to exceed one-half this tolerance shall be allowed for any one cause. Pears which fail to meet these requirements only because of serious damage caused by hail, shall be considered as complying with this standard, if the container in which they are packed or placed is plainly marked, on the outside of one end thereof, in letters not less than one-half inch in height, with the words "hail marked."

Packed pears in any container shall be uniform in size which means in the case of pears which are two and three-fourths inches in diameter or larger, a variation of not more than one-half of one inch in diameter, when measured through the widest portion of the cross-section, between the fruits in any one container and in the case of pears which are smaller than two and three-fourths inches in diameter, a variation of not more than three-eighths of one inch when so measured.

Bartlett pears shall not be considered mature unless at the time of picking the average pressure test of not less than ten representative pears of the lot does not exceed twenty-three pounds. However, pears which at the time of picking show a yellowish green color, as indicated by the color chart prepared by the department, shall be considered mature regardless of the pressure test. The pressure test shall be determined by means of a fruit pressure tester measuring in pounds the force required to push a rounded plunger five-sixteenths of an inch in diameter into the flesh of the fruit to a depth of five-sixteenths of an inch, after the skin from the areas tested, but little of the underlying flesh, has been removed. Two such determinations are to be made on each specimen selected as a sample and the average of all individual readings from the sample shall be considered as the pressure test of the lot. Pressure test readings shall be made on opposite sides, and approximately at the widest portion of the cross-section of the fruit at right angles to the core. Sunburned or very highly colored areas shall be avoided in making pressure tests.

All containers of pears shall bear upon them in plain sight and in plain letters on one outside end the name of the person who first authorized the packing of the pears, or the name under which such packer is engaged in business, together with a sufficiently explicit address to permit ready location of such packer; the name of the variety, if known, and when not known the words "unknown variety"; the size description when the pears are packed in the four basket crate, or the count when wrapped and packed throughout, in straight side containers in uniform layers and rows.

In the case of the four basket crate the numerical description of the pack in the top layer of the baskets shall be used to designate size. When the count is used

to designate the contents of the container a variation of four pears more or less than the number stated shall be allowed.

Pears, when packed, shall be in standard containers numbers 1A, 5, 6, 7, 8, 9, 16, 17, 18, 19, 20, 26, 27 or 29A. Other size containers may be used if conspicuously marked on the outside of the end which bears any marks intended to describe the contents of such container, in letters not less than one-half inch in height, "irregular container."

SEC. 3. Section 823 of the Agricultural Code is hereby amended to read as follows:

823. All wrapped apples shall be in one of the following containers: Standard wooden apple box, depth inside, ten and one-half inches; width inside, eleven and one-half inches; length inside, eighteen inches. Standard fibreboard apple box, depth inside, eleven and three-eighth inches; width inside, eleven and one-half inches; length inside, eighteen inches, with a tolerance of one-fourth inch in all dimensions. Half wooden apple box, depth inside, five and one-fourth inches; width inside, eleven and one-half inches; length inside, eighteen inches. Half fibreboard apple box, depth inside, five and eleven-sixteenth inches; width inside, eleven and one-half inches; length inside, eighteen inches, with a tolerance of one-fourth inch in all dimensions. Packed or loose unwrapped apples may be in other size containers, and wrapped apples may be in containers smaller than the half apple box, if these are conspicuously marked, in letters not less than one-half inch in height, "irregular container." Such marking is not required on open containers of apples which are not packed.

SEC. 4. Section 827 of the Agricultural Code is hereby amended to read as follows:

827. As used with reference to apples in this chapter:

(a) "Hand picked" means apples which do not show evidence of having been on the ground.

(b) "Clean" means free from dust or dirt and free from visible spray residue.

(c) "Well packed" means packed in regular, compact, diagonal arrangement of all of the fruit in any container, the fruit being compacted, at the time of packing, with sufficient solidity so that it will not move in the container when lidded, the top and bottom of the standard wooden box, when lidded, having a bulge of not less than one-half inch, and, where wrappers are used, all of the apples in the box being properly wrapped, with the exception of the bottom layer, which may be flagged.

(d) "Flagged" means incompletely covered by the use of wrappers which are not closed.

(e) "Uniform in size" means in boxes containing one hundred twenty-five apples, or less, a variation of not more than one-half of one inch in diameter, when measured through the widest portion of the cross section between the fruits in any one container; in boxes containing one hundred thirty-eight apples, or more, a variation of not more than three-eighths of one inch when so measured.

(f) "Cross section" means that section of the apple taken at a right angle to a straight line drawn from the stem end to the blossom end thereof.

(g) "Properly matured" means that the apples to which it refers, at the time they were taken or fell from the tree, had reached that stage of development necessary to insure the proper completion of the ripening process. Apples of the varieties Alexander, Red Astrachan, White Astrachan, Beitigheimer, White Winter Pearmain, Gleening, and Fall Pippin need not be properly matured in order to meet the requirements of any grade except extra fancy. Apples of the Gravenstein variety, which are of a size that will not pass through a ring two and three-fourths inches in diameter, need not be properly matured to meet the requirements of C grade loose. Apples of the Gravenstein variety shall be properly matured to meet the requirements of the C grade loose when in the combination fancy and C grade loose grade.

(h) "Insect pests" include San Jose scale, codlin moth and other insects or the larvae, nymphs or pupae thereof, and any apple which has been infested with codlin moth and bears evidence of such infestation, with the exception of superficial, well healed codlin moth stings."
