(b) If both the refunding bonds and the bonds to be refunded remain outstanding for any period of time following the date of the issuance, sale and delivery of the refunding bonds, then until the date on which the bonds to be refunded are no longer outstanding,

(1) If the local agency has met the test of subdivision (a) of Section 53558 the refunding bonds shall constitute indebtedness of the local agency issuing such bonds and shall be included in any computation of general obligation indebtedness of such local agency for purposes of any debt limitation applicable to bonds of such local agency under the principal act or for any other lawful purpose, but the bonds to be refunded shall no longer be considered outstanding in any computation of the general obligation indebtedness of such local agency,

It is hereby declared that it is a public purpose for a local agency to issue refunding bonds for the purposes set forth in this article and to invest and reinvest the proceeds thereof, and any other funds legally available therefor, for the purposes set forth herein, provided, however, that it is the intent of this article, and this article shall be so construed, that in no single fiscal year shall a tax be levied or shall funds of a local agency other than those expressly permitted herein be used to pay the principal of and interest and redemption premium, if any, on both the refunding bonds and on the bonds to be refunded

SEC 14 Section 53562 is added to the Government Code, to read.

53562 The powers conferred by this article are in addition and supplemental to, and not in substitution for, and the limitations imposed by this article shall not affect the powers conferred by, any other law

SEC 15 Article 10 (commencing with Section 53570), is added to Chapter 3, Part 1, Division 2, Title 5, of the Government Code, to read·

Article 10 Refunding of Revenue Bonds of Local Agencies

53570 The following terms shall have the following meanings·

(a) The term "local agency" means public district, public corporation, authority, agency, board, commission, county, city and county, city, school district, or other public entity or any improvement district or zone thereof

(b) The term "revenue bonds" means bonds, warrants, notes or other evidence of indebtedness of a local agency denominated revenue

bonds under any law of this state and payable from funds other than the proceeds of ad valorem taxes or the proceeds of assessments levied upon property in the local agency.

53571 It is hereby declared that it is a public purpose for a local agency to issue bonds for the purpose of refunding any revenue bonds of the local agency, whether due or not due, or which have or which may hereinafter become payable at the option of such local agency, or by consent of the bondholders, or by any lawful means whether the indebtedness evidenced by such revenue bonds be now existing or may hereafter be created

Any such refunding bonds may be outstanding at the same time as the revenue bonds to refund which such refunding bonds are issued (subject to any contractual limitations created in the proceedings for the issuance of such revenue bonds) and may be on a parity with or subordinate to such revenue bonds

Such refunding bonds may be issued under any applicable revenue bond law, including but not limited to, the Revenue Bond Law of 1941 (Chapter 6 of this part), the Parking Law of 1949 (Part 2 of Division 18 of the Streets and Highways Code), the Parking District Law of 1951 (Part 4 of Division 18 of the Streets and Highways Code), and the Joint Exercise of Powers Act (Articles 1 and 2, Chapter 5, Division 7, Title 1), and shall be deemed issued for a valid public purpose and a proper bond purpose under such applicable revenue bond law

53572 In connection with the issuance of bonds under any law permitting the issuance of refunding bonds, a local agency may declare the proceeds of such refunding bonds to be a revenue producing public facility, including an enterprise under the Revenue Bond Law of 1941, or may declare such proceeds to be part of such revenue producing public facility or enterprise or may otherwise declare such proceeds to be held, in whole or in part, and for such time as the local agency may deem advisable, in trust for the protection of holders of the bonds or of the refunding bonds

53573 Before selling any bonds, any issuer shall advertise such bonds for sale at public sale and shall invite sealed bids therefor by publication of a notice once at least 10 days before the date of such public sale in a newspaper of general circulation circulated within the boundaries of each public body to be aided by the public project to be financed by the issuance of such bonds If one or more satisfactory bids are received pursuant to such notice, such bonds shall be awarded to the highest responsible bidder If no bids are received or if the issuer determines that the bids received are not satisfactory as to price or responsibility of the bidders, the issuer may reject all bids received, if any, and either readvertise or sell such bonds at private sale

SEC 16 It is hereby declared it is the intent of the Legislature in enacting this act that all public bodies in the State of California be authorized to the fullest extent possible to issue refunding bonds whenever such issuance would result in a savings to the public body or the taxpayers thereof, and that to the extent permitted by the Constitution

of the State of California, public bodies, including cities, counties and school districts, may issue refunding bonds in a principal amount in excess of the principal amount authorized at an election, so long as, in accordance with the provisions of this act, the total net interest cost to maturity on the refunding bonds plus the principal amount of the refunding bonds does not exceed the total net interest cost to maturity on the bonds to be refunded plus the principal amount of the bonds to be refunded

SEC 17. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are.

Many local agencies throughout the state have outstanding bonds for which payment of principal and interest during the fiscal year 1972–73 and thereafter will be required to be made It will be necessary for these local agencies to budget for the collection of taxes and revenues in fiscal year 1972–1973 of amounts sufficient to pay such principal and interest In many cases, it would be possible to refund some or all of such outstanding bonds so as to effect substantial savings in the amounts needed to pay such principal and interest Such savings would permit the lowering of property tax rates and charges for revenue-producing facilities within such local agencies However, unless this act is passed as an urgency statute it will not be possible for such local agencies to refund such bonds and effect such savings prior to the time when budgets must be prepared and tax rates and charges fixed for fiscal year 1972–1973. For this reason, it is necessary that this act take effect immediately."

Amendment No. 5

On page 1, strike out lines 3 to 17, inclusive; and strike out pages 2 and 3.

Bill ordered reprinted, and to be re-referred to the Committee on Local Government.

MESSAGES FROM THE GOVERNOR

The following messages from the Governor were received, and by unanimous consent, ordered printed in the Journal

Veto Message—Assembly Bill No. 574

Governor's Office, Sacramento
June 26, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 574 entitled, "An act to add Section 390.1 to the Streets and Highways Code, relating to state highways."

This bill would delete a portion of Route 90 in and about the City of Los Angeles from the California Freeway and Expressway System.

I am taking this action because, for more than a year, the Department of Public Works has been cooperating with local governments and meeting with local citizens groups along the Route 90 corridor to study a transportation plan through this heavily developed industrial and residential area. The study involves a consultant (the Massachusetts Institute of Technology) and staffs of the City and County of Los Angeles, and is multimodal in scope The purpose of the study, in addition to identifying which mode or combination of modes can provide the greatest service, is to develop a systematic means of citizen participation in the planning and decision-making processes

The Southern California Association of Governments is also completing a comprehensive regional transportation study scheduled for adoption in 1973.

Because of the obvious impact on other elements of the transportation system, I believe no action should be taken now which would impose constraints on the conduct of these studies.

Accordingly, I am returning the bill unsigned.

Respectfully,

RONALD REAGAN, Governor

Recommendation of the Governor

In accordance with Article IV, Section 12(c), of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No 9:

Governor's Office, Sacramento

To the Honorable Members of the Senate and Assembly:

PRAYER

The following prayer was offered by the Chaplain, Father Leo McAllister:

We become aware of God's glory and man's dignity in Psalm 8.

"Lord, our Lord,
Your greatness is seen in all the world
Your praise reaches up to the heavens; it is sung by children and babies
You have built a fortress against Your foes to stop Your enemies and adversaries
When I look at the sky, which You have made, at the moon and the stars which You set in their places—
What is man that You think of him; mere man that You care for him?

Yet You made him inferior only to Yourself; You crowned him with glory and honor. You made him ruler over all You have made; You placed him over all things· sheep and cattle and wild animals too; the birds and the fish and all the creatures in the seas.

Lord, our Lord, Your greatness is seen in all the world."—AMEN.

402 4 (a) The provisions of this section shall apply only to rental property which is owned by a nonprofit corporation or by a corporation, partnership (including a limited partnership), or other entity which is subject to enforceable limitations on profit when such rental property is federally assisted and insured or otherwise subsidized to provide housing for persons with low or moderate incomes

(b) For purposes of this section, "low or moderate incomes" are those incomes which are within the income limits required for applicants for assisted occupancy in the housing described in subdivision (a).

(c) All assessments of properties described in subdivision (a) shall be based solely on the income approach to value pursuant to rules prescribed by the board. In determining income, effect shall be given to recorded contractual provisions giving any governmental agency control over the rents which may be charged There shall be excluded from the income to be capitalized the amount of any subsidy payments made to the lender with respect to the property The capitalization rate shall be determined by relating prices to net incomes for comparable nonsubsidized multifamily residential properties Income and expenses shall be measured by the performance of the property, with adjustments of gross income to reflect authorized rent increases and with adjustments of expenses to reflect reasonable amounts annually reserved for payment of expenses of a periodic nature, such as exterior painting When there is no prior experience, income and expenses shall be determined by reference to the latest estimates of the Department of Housing and Urban Development While the improvements are under construction, the property shall be assessed at a proportion of its estimated value upon completion equal to the proportion of the total cost that has been incurred as of the lien date

(d) It is hereby declared that the purpose and intent of the Legislature in enacting this section is to clarify the meaning of the term "full cash value" as used in Section 37 of Article XIII of the California Constitution as applied to the valuation for assessment purposes of subsidized housing for persons with low and moderate incomes, in order to ensure uniform and equal property tax treatment of such housing throughout the state, and to prevent the denial of decent housing to persons with low and moderate incomes because of disproportionate and unequal assessments

SEC 2 The provisions of this act shall become operative on the lien date in 1973."

Amendment No. 3

Mr. Murphy moved the adoption of the following amendment:

Amendment No. 1

On page 6 of the printed bill, as amended in Assembly June 8, 1972, after line 12, insert

"SEC. 4 Section 1825 of the Welfare and Institutions Code is amended to read:

1825. (a) No county shall be entitled to receive any state funds provided by this article until its application is approved and unless and until the minimum standards prescribed by the Department of the Youth Authority are complied with and then only on such terms as are set forth hereafter in this section

(b) A commitment rate for each county and for the state as a whole shall be calculated by the Department of the Youth Authority by computing the ratio of new commitments to state and county population, expressed in a rate per 100,000 population, for each of the calendar years 1959 through 1963. The average of these rates for a county for the five-year period or the average of the last two years of the period, whichever is higher, shall be the base rate for that county, however, if the base rate *for those counties not utilizing Section 1825.7* is lower than 40 commitments per 100,000 population, the rate shall be estab-

lished at 40, and if the rate is higher than 100, the rate shall be established at 100 The number of commitments shall be the total of the new commitments to the custody of the Director of the Youth Authority and the new criminal commitments to the custody of the Director of Corrections, as certified by the respective departments. The county and state population shall be that certified by the Department of Finance to the Controller as of July 1 of each year Persons committed to the Department of Corrections and subsequently discharged under Section 1168 of the Penal Code and persons committed to the Department of Corrections or the Department of the Youth Authority for diagnostic study only pursuant to Section 1203.03 of the Penal Code or Section 704 or 1752 1 of the Welfare and Institutions Code, shall not be counted as having been committed for purposes of determining commitment rates under this subdivision or subdivision (c)

(c) An annual commitment rate shall be calculated at the end of each fiscal year for each participating county and for the state as a whole in a like manner to that described in subdivision (b) using the population figure of the July 1 included in the year.

(d) The maximum amount that may be paid to a county pursuant to this article is determined by obtaining the interpolated dollar amount in the table in this subdivision for such county's base commitment rate and its percentage decrease, interpolated to the nearest one-tenth of 1 percent, in rate of commitment and multiplying the appropriate dollar amount by the "commitment reduction number" The "commitment reduction number" is obtained by subtracting (1) the most recent annual commitment number from (2) the product of the base commitment rate and population of the county for the same year employed in (1). The Director of the Youth Authority, with approval of the Director of Finance may annually adjust the dollar amounts in the ensuing table to reflect changes in cost to the state of maintaining persons committed to the custody of the Director of Corrections and the Director of the Youth Authority, and if such adjustments are made, the adjusted amounts shall be employed in making the computation prescribed by this subdivision

(e) The state will reimburse the county upon presentation of a valid claim based on actual performance in reducing the commitment rate from its base rate. Whenever a claim made by a county, pursuant to this article, covering a prior fiscal year is found to be in error, adjustment may be made on a current claim without the necessity of applying the adjustment to the allocation for the prior year.

(f) If the amount received by a county in reimbursement of its expenditures in a fiscal year is less than the maximum amount computed under subdivision (d), the difference may be used in the next two succeeding fiscal years and may be paid to the county in quarterly installments during such fiscal years upon preparation of valid claims for reimbursement of its quarterly expenses.

(g) In the event a participating county earns less than the sum paid in the previous year because of extremely unusual circumstances claimed by the county and verified by the Director of the Youth Authority with the approval of the Director of Finance, the Director of the Youth Authority may pay to the county a sum equal to the prior year's payment, provided, however, that in subsequent years the county will be paid only the amount earned.

(h) Funds obtained under this article shall not be used to support existing programs or develop or expand new programs in juvenile homes, ranches or camps established under Article 15 (commencing with Section 880) of Chapter 2 of Part 1 of Division 2 of this code, *except that funds obtained under this article may be used by a county that has not established a juvenile home, ranch or camp to pay for its juvenile home, ranch or camp placements in other counties.*

(i) Counties where the average number of commitments in the base period as established by subdivision (b) is less than 30 may elect either to comply with the procedure set out above or, as an alternative, to receive from the state 90 percent of the salary of one full-time additional probation officer or, in the event there are fewer than 20 persons placed on probation annually otherwise eligible for commitment to state institutions, the county would be entitled to 90 percent of the salary of a half-time officer. In the event a county chooses the alternative proposal, it will be eligible for reimbursement only so long as the officer devotes all of his time in the performance of probation services to supervision of persons eligible for state commitment and persons participating in special supervision programs and (1) if its base rate is below the state average, it does not on an annual basis exceed the base state rate, or (2) if its base rate is above the state average, it does not in the year exceed by 5 percent its own base rate.

SEC 5 Section 1825 of the Welfare and Institutions Code is amended to read:

1825 (a) No county shall be entitled to receive any state funds provided by this article until its application is approved and unless and until the minimum standards prescribed by the Department of the Youth Authority are complied with and then only on such terms as are set forth hereafter in this section

(b) A commitment rate for each county and for the state as a whole shall be calculated by the Department of the Youth Authority by computing the ratio of new commitments to state and county population, expressed in a rate per 100,000 population, for each of the calendar years 1959 through 1963 The average of these rates for a county for the five-year period or the average of the last two years of the period, whichever is higher, shall be the base rate for that county, however, if the base rate is lower than 40 commitments per 100,000 population, the rate shall be established at 40, and if the rate is higher than 100, the rate shall be established at 100 The number of commitments shall be the total of the new commitments to the custody of the Director of the Youth Authority and the new criminal commitments to the custody of the Director of Corrections, as certified by the respective departments. (c) An annual commitment rate shall be calculated at the end of each fiscal year for each participating county and for the state as a whole in a like manner to that described in subdivision (b) using the population figure of the July 1 included in the year.

(d) The maximum amount that may be paid to a county pursuant to this article is determined by obtaining the interpolated dollar amount in the table in this subdivision for such county's base commitment rate and its percentage decrease, interpolated to the nearest one-tenth of 1 percent, in rate of commitment and multiplying the appropriate dollar amount by the "commitment reduction number." The "commitment reduction number" is obtained by subtracting (1) the most recent annual commitment number from (2) the product of the base commitment rate and population of the county for the same year employed in (1). 1825. (a) No county shall be entitled to receive any state funds provided by this article until its application is approved and unless and until the minimum standards prescribed by the Department of the Youth Authority are complied with and then only on such terms as are set forth hereafter in this section.

(b) A commitment rate for each county and for the state as a whole shall be calculated by the Department of the Youth Authority by computing the ratio of new commitments to state and county population, expressed in a rate per 100,000 population, for each of the calendar years 1959 through 1963 The average of these rates for a county for the five-year period or the average of the last two years

of the period, whichever is higher, shall be the base rate for that county, however, if the base rate *for those counties not utilizing Section 1825 7* is lower than 40 commitments per 100,000 population, the rate shall be established at 40, and if the rate is higher than 100, the rate shall be established at 100 The number of commitments shall be the total of the new commitments to the custody of the Director of the Youth Authority and the new criminal commitments to the custody of the Director of Corrections, as certified by the respective departments The county and state population shall be that certified by the Department of Finance to the Controller as of July 1 of each year. Persons committed to the Department of Corrections and subsequently discharged under Section 1168 of the Penal Code and persons committed to the Department of Corrections or the Department of the Youth Authority for diagnostic study only pursuant to Section 1203 03 of the Penal Code or Section 704 or 1752 1 of the Welfare and Institutions Code, shall not be counted as having been committed for purposes of determining commitment rates under this subdivision or subdivision (c).

(c) An annual commitment rate shall be calculated at the end of each fiscal year for each participating county and for the state as a whole in a like manner to that described in subdivision (b) using the population figure of the July 1 included in the year.

(d) The maximum amount that may be paid to a county pursuant to this article is determined by obtaining the interpolated dollar amount in the table in this subdivision for such county's base commitment rate and its percentage decrease, interpolated to the nearest one-tenth of 1 percent, in rate of commitment and multiplying the appropriate dollar amount by the "commitment reduction number" The "commitment reduction number" is obtained by subtracting (1) the most recent annual commitment number from (2) the product of the base commitment rate and population of the county for the same year employed in (1) The Director of the Youth Authority, with approval of the Director of Finance may annually adjust the dollar amounts in the ensuing table to reflect changes in cost to the state of maintaining persons committed to the custody of the Director of Corrections and the Director of the Youth Authority, and if such adjustments are made, the adjusted amounts shall be employed in making the computation prescribed by this subdivision.

(e) The state will reimburse the county upon presentation of a valid claim based on actual performance in reducing the commitment rate from its base rate Whenever a claim made by a county, pursuant to this article, covering a prior fiscal year, is found to be in error, adjustment may be made on a current claim without the necessity of applying the adjustment to the allocation for the prior year

(f) If the amount received by a county in reimbursement of its expenditures in a fiscal year is less than the maximum amount computed under subdivision (d), the difference may be used in the next two succeeding fiscal years and may be paid to the county in quarterly installments during such fiscal years upon preparation of valid claims for reimbursement of its quarterly expenses

(g) In the event a participating county earns less than the sum paid in the previous year because of extremely unusual circumstances claimed by the county and verified by the Director of the Youth Authority with the approval of the Director of Finance, the Director of the Youth Authority may pay to the county a sum equal to the prior year's payment, provided, however, that in subsequent years the county will be paid only the amount earned.

(h) Funds obtained under this article shall not be used to support existing programs or develop or expand new programs in juvenile homes, ranches, or camps established under Article 15 (commencing with Section 880) of Chapter 2 of Part 1 of Division 2 of this code, *except that funds obtained under this article may be used by a county that has not established a juvenile home, ranch or camp to pay for its juvenile home, ranch or camp placements in other counties.*

(i) Counties where the average number of commitments in the base period as established by subdivision (b) is less than 30 may elect either to comply with the procedure set out above or, as an alternative, to receive from the state 90 percent of the salary of one full-time additional probation officer or, in the event there are fewer than 20 persons placed on probation annually otherwise eligible for commitment to state institutions, the county would be entitled to 90 percent of the salary of a half-time officer In the event a county chooses the alternative proposal, it will be eligible for reimbursement only so long as the officer devotes all of his time in the performance of probation services to supervision of persons eligible for state commitment and persons participating in special supervision programs and (1) if its base rate is below the state average, it does not on an annual basis exceed the base state rate, or (2) if its base rate is above the state average, it does not in the year exceed by 5 percent its own base rate

(j) In addition to earnings received by counties from commitment reductions through the payment table in subdivision (d) of this section, a sum of two million dollars ($2,000,000) is hereby appropriated for the 1972–73 fiscal year to be distributed pursuant to the table below To determine a county's share, refer to Table 1 of the Fifth Annual Progress Report of the Probation Subsidy Program (Department of Youth Authority, September 23, 1971) for the county's actual commitment rate and the number of actual commitments.

In addition, two hundred fifty thousand dollars ($250,000) is hereby appropriated for the 1972–73 fiscal year to reimburse each participating county for the cost of collection and transmission of data to the state for program evaluation as prescribed by the Director of the Youth

Authority and the Director of Finance Each county shall be required to enter into a contractual agreement with the state to provide the prescribed data Such agreement shall aso specify the maximum amount each county shall be reimbursed for the collection and transmission of the required data.

But, Father, we know that each of us has at times been the cause of another's pain.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Cory was granted unanimous consent that the following Opinion of Legislative Counsel be printed in the Journal.

Opinion of Legislative Counsel

Sacramento, June 30, 1972

Honorable Kenneth Cory
Assembly Chamber

Right of Privacy—Public Records
(A C A. 51)—#13370

Dear Mr. Cory. You have asked us two questions with regard to automobile registration records of the Department of Motor Vehicles, which we have separately stated and considered below

Question No. 1

Are records of the Department of Motor Vehicles relating to automobile registration public records?

Opinion No. 1

It is our opinion that the records of the Department of Motor Vehicles relating to automobile registration are public records.

Analysis No. 1

The provisions of the California Public Records Act (Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1 of the Government Code*) relate generally to the public's right of access to information concerning the people's business.

Sections 6252, 6253, 6254, 6255, 6256, and 6257 of the act provide, in pertinent part, as follows:

"6252. As used in this chapter:

"(a) *'State agency' means every state* office, officer, *department*, division, bureau, board, and commission or other state agency, except those agencies provided for in Article IV (except Section 20 thereof) or Article VI of the California Constitution.

* * *

"(e) 'Person' includes any natural person, corporation, partnership, firm, or association

"(d) *'Public records' includes all papers, maps, magnetic or paper tapes, photographic films and prints, magnetic or punched cards, discs, drums, and other documents containing information relating to the conduct of the public's business prepared, owned, used, or retained by any state or local agency regardless of physical form or characteristics."* (Emphasis added)

"6253. *Public records are open to inspection at all times during the office hours of the state or local agency and every citizen has a right to inspect any public record, except as hereafter provided* Every agency may adopt regulations stating the procedures to be followed when making its records available in accordance with this section." (Emphasis added)

"6254. Nothing in this chapter shall be construed to require disclosure of records that are.

"(a) Preliminary drafts, notes, or interagency or intra-agency memoranda which are not retained by the public agency in the ordinary course of business, provided that the public interest in withholding such records clearly outweighs the public interest in disclosure;

"(b) Records pertaining to pending litigation to which the public agency is a party, or to claims made pursuant to Division 3 6 (commencing with Section 810) of Title 1 of the Government Code, until such litigation or claim has been finally adjudicated or otherwise settled:

* All section references are to the Government Code, unless otherwise indicated

"(c) Personnel, medical, or similar files, the disclosure of which would constitute an unwarranted invasion of personal privacy;

"(d) Trade secrets;

"(e) Geological and geophysical data, plant production data and similar information relating to utility systems development, or market or crop reports, which are obtained in confidence from any person;

"(f) Records of complaints to or investigations conducted by or records of intelligence information or security procedures of the office of the Attorney General and Department of Justice, and any state or local police agency, or any such investigatory or security files compiled by any other state or local agency for correctional, law enforcement or licensing purposes,

"(g) Test questions, scoring keys, and other examination data used to administer a licensing examination, examination for employment, or academic examination;

* * *

"(k) *Records the disclosure of which is exempted or prohibited pursuant to provisions of* federal or *state law,* including, but not limited to, provisions of the Evidence Code relating to privilege.

* * *

"Nothing in this section is to be construed as preventing any agency from opening its records concerning the administration of the agency to public inspection, unless disclosure is otherwise prohibited by law." (Emphasis added.)

"6255. The agency shall justify withholding any record by demonstrating that the record in question is exempt under express provisions of this chapter or that on the facts of the particular case the public interest served by not making the record public clearly outweighs the public interest served by disclosure of the record.

"6256 *Any person may receive a copy of any identifiable public record or shall be provided with a copy of all information contained therein* Computer data shall be provided in a form determined by the agency " (Emphasis added)

"6257 A request for a copy of an identifiable public record or information produced therefrom, or a certified copy of such record, shall be accompanied by payment of a reasonable fee or deposit established by the state or local agency, or the prescribed statutory fee, where applicable "

We think that it is clear that the above provisions of the California Public Records Act are applicable to the records of the Department of Motor Vehicles, relating to automobile registration and that such records come within the definition of the term "public records" as contained in Section 6252

Question No 2

Would Assembly Constitutional Amendment No. 51, as amended in Assembly June 8, 1972, if adopted by the people, affect the "public records" status of records relating to automobile registration?

Opinion and Analysis No. 2

A.C A. 51 as amended in Senate June 8, 1972, would, if adopted, amend Section 1 of Article I of the California Constitution to provide as follows:

"Section 1. All ~~men~~ *people* are by nature free and independent, and have certain inalienable rights, among which are those of enjoying and defending life and liberty; acquiring, possessing, and protecting property; and pursuing and obtaining safety, ~~and~~ happiness, *and privacy*."

Thus, the proposal would include pursuing and obtaining privacy among the inalienable rights guaranteed by the California Constitution

Initially, we point out that the rights presently guaranteed by Section 1 of Article 1 have been defined and restricted by the Legislature (see for example Sec. 1000 et seq, Civ C; Sec 447 et seq, Pen C). In this connection inasmuch as courts will give great weight to legislative interpretation of constitutional provisions (*Woodcock* v *Dick*, 36 Cal 2d 146, 148) we think that the effect of the proposal in question would be substantially influenced by any such legislative action.

The right of privacy is recognized under present California case law, and has been defined as the right to live one's life in seclusion, without being subjected to unwarranted and undesired publicity (*Gill* v *Curtis Publishing Co.*, 38 Cal 2d 273, 276) In short it is the right to be let alone (*Kerby* v. *Roach Studios, Inc*, 53 Cal App 2d 207) It has also been held, however, that such right is not absolute (see *Metter* v. *Los Angeles Examiner*, 35 Cal App. 2d 304, 312; *Voneye* v *Turner*, 240 S W 2d 588, 590)

The court in the case of *Melvin* v *Reid*, 112 Cal App. 285, at page 290 summarized the law in this regard, as follows·

"A few general principles, founded on authority or reason, seem to run through most of the better considered decisions from the jurisdictions which recognize the doctrine as well as those which do not. We may summarize them as follows:

"1. The right of privacy was unknown to the ancient common law.

"2 It is an incident of the person and not of property—a tort for which a right of recovery is given in some jurisdictions

"3. It is a purely personal action and does not survive, but dies with the person

"4 It does not exist where the person has published the matter complained of, or consented thereto

"5 It does not exist where a person has become so prominent that by his very prominence he has dedicated his life to the public and thereby waives his right to privacy. There can be no privacy in that which is already public

"6 It does not exist in the dissemination of news and news events, nor in the discussion of events of the life of a person in whom the public has a rightful interest, nor where the information would be of public benefit as in the case of a candidate for public office.

"7. The right of privacy can only be violated by printings, writings, pictures or other permanent publications or reproductions, and not by word of mouth.

"8. The right of action accrues when the publication is made for gain or profit. (This however is questioned in some cases)"

While we do not think it possible to predict with absolute certainty the effect with regard to any given situation of the amendment of Section 1 of Article I of the California Constitution to expressly state that the pursuit and obtainance of privacy is among the inalienable rights guaranteed thereby, we think the existing case law on the subject is persuasive.

In this connection, with respect to the right of privacy recognized under existing law, that in order for there to be a violation of the right of privacy the thing into which there is prying or intrusion must be entitled to be private (see *People* v. *Blair,* 2 Cal. App. 3d 249; *Vollker* v. *Tyndall,* 75 N.E. 2d 548).

Accordingly, in light of this principle, we do not think that A.C.A. 51, if adopted by the people, would be held to circumscribe the disclosure of material, such as information relating to automobile registration that by law becomes a part of public records where such disclosure is regulated by statute.

Very truly yours,

GEORGE H. MURPHY

MESSAGES FROM THE GOVERNOR

The following Message from the Governor was received, and by unanimous consent, ordered printed in the Journal:

Veto Message—Assembly Bill No. 812

Governor's Office, Sacramento
June 30, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 812 entitled, "An act to amend Section 3505 of the Agricultural Code, relating to fairs."

This measure provides that the Chairman of the California State Exposition and Fair Executive Committee will be elected annually from the membership of the Committee, rather than appointed by the Governor.

The present method of selecting the Chairman has worked effectively for many years and there does not appear to be a compelling reason to change the system at this time.

Accordingly, I am returning the bill unsigned.

Respectfully,

RONALD REAGAN, Governor

Governor's Office, Sacramento
June 30, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: This is to advise that today, June 30, 1972, I returned Assembly Bill No. 812 unsigned, together with a statement of my reasons therefor.

Delivery was made to R. Brian Kidney, Assistant Chief Clerk, at 3:30 P.M.

Respectfully,

RONALD REAGAN, Governor

RECEIPT

I acknowledge receipt this 30th day of June, 1972, at 3:30 p.m. of Assembly Bill No. 812, without the Governor's signature, together with a statement of his objections thereto, signed by the Governor, delivered to me personally by Marian E Fort.

R. BRIAN KIDNEY
Assistant Chief Clerk

Above bill ordered to the unfinished business file.

BILL REMOVED FROM CONSENT CALENDAR

On request of Mr Brown, Assembly Bill No 2029 was removed from the Consent Calendar.

Above bill ordered replaced on the second reading file, pursuant to Joint Rule No. 22.2.

The following resolution was offered:

Assembly Concurrent Resolution No. 116: By Assemblyman Hayden (Senator Gregorio, coauthor)—Relative to a new Dumbarton Bridge.

Held at Desk by order of the Acting Speaker.

RESOLUTIONS

The following resolutions were offered:

By Assemblyman Hayden:

House Resolution No. 76

Relative to a new Dumbarton Bridge

Resolved by the Assembly of the State of California, That the Metropolitan Transportation Commission is hereby requested to submit to the Assembly, not later than February 1, 1973, its findings and recommendations with respect to the design and location of, and the approach connections to, a new Dumbarton Bridge; and be it further

Resolved, That the Division of Bay Toll Crossings consider such findings and recommendations in the design and construction of a new Dumbarton Bridge; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Metropolitan Transportation Commission and to the Chief Engineer of the Division of Bay Toll Crossings

Resolution read, and referred by the Acting Speaker to the Committee on Rules.

By Assemblyman Dent:

House Resolution No. 77

Relative to community colleges

WHEREAS, The California Community Colleges are responsible for making educational programs and services available to every person who is 18 years of age or older in this state and to many high school students, and

WHEREAS, They provide "open door" opportunities for transfer, occupational, general education, continuing education, and community services, as well as counseling and student personnel services to persons from all economic and social levels of each of the communities in which they are located; and

WHEREAS, Numerous students with substantial potential for success in college and for future leadership in the community are unable to pursue a higher education and attain their full educational potential because of financial and home and community environmental conditions, and

WHEREAS, A financial assistance program known as the "College Opportunity Grant Program" has been created by the State of California to provide assistance for undergraduate study to disadvantaged students who are not necessarily able to avail themselves of present state competitive scholarships by the use of conventional selection methods, and

WHEREAS, The Legislature has recognized that the role of the community colleges, as the least expensive level of California higher education, is a crucial role in increasing the higher education opportunities for disadvantaged students; and

WHEREAS, In keeping with such recognition it is the stated intent of the Legislature that the additional opportunities for higher education provided in the College Opportunity Grant Program be initiated primarily at the community college level; and

WHEREAS, Enactment of the College Opportunity Grant Program resulted in community college student participation in initial grants of 94 percent in 1969–1970; and

WHEREAS, Legislative amendments in 1970, not intended to affect the legislative intent of the College Opportunity Grant, has resulted in a significant percentage decrease in community college participation from 94 percent in 1969–1970 to 53 percent in 1971–1972; and

WHEREAS, Such reduction in community college percentage participation in receipt of grants is not in keeping with the stated intent of the College Opportunity Grant Program; and

WHEREAS, The possibility exists that further percentage decrease of community college student participation may occur; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members request the Assembly Rules Committee to assign to the appropriate committee for study the matter of current funding needs and practices of the College Opportunity Grants Program and further, to suggest guidelines and procedures to meet the individual needs of students within higher education as intended in legislation creating said program, and be it further

Resolved, That such committee report its findings and recommendations to the Legislature on the date specified by the Rules Committee upon assignment of this resolution

Resolution read, and referred by the Acting Speaker to the Committee on Rules.

"SECTION 1. Article 7.7 (commencing with Section 19699.50) is added to Chapter 10 of Division 14 of the Education Code, to read:

Article 7.7. Children's Center Loan Construction Act of 1972

19699 50. This article shall be known as the Children's Center Loan Construction Act of 1972

19699.51. The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to provide assistance to county boards of supervisors for the construction of children's center facilities. Children's centers are of general concern and interest to all the people of the state, and the education and care of children of working parents are a joint obligation of both the state and local agencies operating children's centers.

It is the intent of the Legislature to provide a system of low interest loans to county boards of supervisors for the purpose of providing funds for the construction of children's center facilities. Such loans are to be repaid over a period of time to be established by the State Allocation Board, and the repayment proceeds and accrued interest are to be placed into a revolving account which shall provide a continuing source of revenue for the construction of children's center facilities.

In enacting this article, the Legislature considers that the greatest need is to provide children's center facilities for the education and care of children in accordance with Section 16604 during the time the sole parent is at work making the family economically self-sufficient, or is in school or in training to gain economic self-responsibility. The Legislature recognizes the need to encourage the provision of additional children's center facilities to permit more families to become economically self-sufficient.

19699 52. The following terms, whether used or referred to in this article, have the following meanings, unless a different meaning clearly appears from the context:

(a) "Local agency" means a duly elected county board of supervisors.

(b) "Board" means the State Allocation Board

(c) "Project" means the purposes for which a local agency has applied for assistance. A project may include, but is not limited to the acquisition and improvement of sites, the planning and construction of permanent facilities, which may include portable buildings, and the acquisition of equipment for children's centers.

19699 53. This article shall be administered by the board The board shall adopt such rules and regulations as it deems necessary to carry out the purposes of this article The rules and regulations of the board shall establish a system of priorities to determine the relative necessity to establish children's center facilities by a local agency, which shall contain, among other factors, the needs for facilities evidenced by existing waiting lists for service, the availability to the local agency of adequate alternate facilities in the area to be served, the extent of local participation in providing children's center facilities, and the number of current, former, and potential recipients of public assistance who live within the area to be served by the proposed children's center In establishing priorities with regard to the outlay of capital funds for the construction of new children's centers, or with regard to the rental or leasing of facilities for new centers, the board shall give special consideration to proposed children centers located in school districts as described under subdivision (a) of Section 6461 which are also certified by the Department of Social Welfare as containing substantial numbers of families who are recipients of aid to families with dependent children or who are former or potential recipients of such aid and who might reasonably be expected to improve their ability to be self-supporting if child care services are made available.

19699.54. The board shall make every reasonable effort to distribute the funds available under this article among geographic areas of the state based upon the need for children's centers throughout the state, however, no county shall receive in excess of 200 percent of its proportional per capita entitlement as determined by the population of such county compared to the entire population of the state.

19699 55. Any local agency may apply for assistance in the form of a loan under the provisions of this article to undertake one or more projects.

Any amounts allocated and disbursed to the local agency pursuant to this article shall be a loan by the state to the local agency and the loan amount shall be fully repaid on a schedule of time from the date of disbursement of funds to be established by the board A standard per annum simple interest rate shall be charged for each loan Any such loan shall be repaid by the local agency from proceeds of rent paid by the lessees of the children's centers which are established pursuant to the provisions of Section 16601

Default by the local agency in repayment of the loan shall be defined in criteria to be provided to loan applicants by the board Title to all property purchased or otherwise acquired with moneys provided to local agencies by provisions of this article shall be with the local agency but shall revert to the state in the event that the local agency fails to repay the loan in accordance with reimbursement procedures established and published by the board Upon full repayment of the principal and interest amounts of the loan, ownership of the children's center facility constructed under provisions of this article shall be vested in the local agency

19699 56 Applications for assistance under this article shall be made on forms prescribed and furnished by the board Such applications shall include, but not be limited to, the following data and information:

(a) An outline and general description of the project to be undertaken;

(b) An estimate of the cost of the project to be undertaken and the anticipated source of funds to complete the project;

(c) The estimated number of children to be served by the project,

(d) The waiting list of the local agency for children's centers; and

(e) The amount expended by the local agency or other local governmental agencies from local sources during the past five years for the provision of children's center facilities.

19699 60. The board shall establish a revolving account and place in deposit an initial amount of five million dollars ($5,000,000), which shall become available for loans to local agencies for the construction of children's center facilities Proceeds, including interest, from the repayment of loans shall be placed in the revolving account and shall likewise be made available as loans to local agencies The total amount in the revolving fund shall be available for allocation during 1972–1973 fiscal year and in succeeding years

SECOND READING OF BILLS—AUTHOR'S AMENDMENTS

Senate Bill No. 549—An act to amend Section 1825 of, and to add Section 1825 7 to, the Welfare and Institutions Code, relating to probation services.

Bill read second time.

Consideration of Author's Amendments

The following amendments, pursuant to the Assembly Rules, were read, and adopted:

Amendment No. 1

On page 5 of the printed bill, as amended in Assembly June 14, 1972, between lines 18 and 19, insert

"SEC. 2. Section 1825 of the Welfare and Institutions Code is amended to read:

1825. (a) No county shall be entitled to receive any state funds provided by this article until its application is approved and unless and until the minimum standards prescribed by the Department of the Youth Authority are complied with and then only on such terms as are set forth hereafter in this section

(b) A commitment rate for each county and for the state as a whole shall be calculated by the Department of the Youth Authority by computing the ratio of new commitments to state and county population, expressed in a rate per 100,000 population, for each of the calendar years 1959 through 1963. The average of these rates for a county for the five-year period or the average of the last two years of the period, whichever is higher, shall be the base rate for that county, however, if the base rate *for those counties not utilizing Section 1825.7* is lower than 40 commitments per 100,000 population, the rate shall be established at 40, and if the rate is higher than 100, the rate shall be established at 100 The number of commitments shall be the total of the new commitments to the custody of the Director of the Youth Authority and the new criminal commitments to the custody of the Director of Corrections, as certified by the respective departments The county and state population shall be that certified by the Department of Finance to the Controller as of July 1 of each year. Persons committed to the Department of Corrections and subsequently discharged under Section 1168 of the Penal Code and persons committed to the Department of Corrections or the Department of the Youth Authority for diagnostic study only pursuant to Section 1203.03 of the Penal Code

or Section 704 or 1752.1 of the Welfare and Institutions Code, shall not be counted as having been committed for purposes of determining commitment rates under this subdivision or subdivision (c).

(c) An annual commitment rate shall be calculated at the end of each fiscal year for each participating county and for the state as a whole in a like manner to that described in subdivision (b) using the population figure of the July 1 included in the year.

(d) The maximum amount that may be paid to a county pursuant to this article is determined by obtaining the interpolated dollar amount in the table in this subdivision for such county's base commitment rate and its percentage decrease, interpolated to the nearest one-tenth of 1 percent, in rate of commitment and multiplying the appropriate dollar amount by the "commitment reduction number." The "commitment reduction number" is obtained by subtracting (1) the most recent annual commitment number from (2) the product of the base commitment rate and population of the county for the same year employed in (1). The Director of the Youth Authority, with approval of the Director of Finance may annually adjust the dollar amounts in the ensuing table to reflect changes in cost to the state of maintaining persons committed to the custody of the Director of Corrections and the Director of the Youth Authority, and if such adjustments are made, the adjusted amounts shall be employed in making the computation prescribed by this subdivision.

(e) The state will reimburse the county upon presentation of a valid claim based on actual performance in reducing the commitment rate from its base rate. Whenever a claim made by a county, pursuant to this article, covering a prior fiscal year, is found to be in error, adjustment may be made on a current claim without the necessity of applying the adjustment to the allocation for the prior year.

(f) If the amount received by a county in reimbursement of its expenditures in a fiscal year is less than the maximum amount computed under subdivision (d), the difference may be used in the next two succeeding fiscal years and may be paid to the county in quarterly installments during such fiscal years upon preparation of valid claims for reimbursement of its quarterly expenses.

(g) In the event a participating county earns less than the sum paid in the previous year because of extremely unusual circumstances claimed by the county and verified by the Director of the Youth Authority with the approval of the Director of Finance, the Director of the Youth Authority may pay to the county a sum equal to the prior year's payment, provided, however, that in subsequent years the county will be paid only the amount earned

(h) Funds obtained under this article shall not be used to support existing programs or develop or expand new programs in juvenile homes, ranches, or camps established under Article 15 (commencing with Section 880) of Chapter 2 of Part 1 of Division 2 of this code.

(i) Counties where the average number of commitments in the base period as established by subdivision (b) is less than 30 may elect either to comply with the procedure set out above or, as an alternative, to receive from the state 90 percent of the salary of one full-time additional probation officer or, in the event there are fewer than 20 persons placed on probation annually otherwise eligible for commitment to state institutions, the county would be entitled to 90 percent of the salary of a half-time officer In the event a county chooses the alternative proposal, it will be eligible for reimbursement only so long as the officer devotes all of his time in the performance of probation services to supervision of persons eligible for state commitment and persons participating in special supervision programs and (1) if its base rate is below the state average, it does not on an annual basis exceed the base state rate, or (2) if its base rate is above the state average, it does not in the year exceed by 5 percent its own base rate.

(j) In addition to earnings received by counties from commitment reductions through the payment table in subdivision (d) of this section, a sum of two million dollars ($2,000,000) is hereby appropriated for the 1972–73 fiscal year to be distributed pursuant to the table below. To determine a county's share, refer to Table 1 of the Fifth Annual

Progress Report of the Probation Subsidy Program (Department of Youth Authority, September 23, 1971) for the county's actual commitment rate and the number of actual commitments.

Each county's share of the additional funds described above may be used for purposes of law enforcement as determined by individual county boards of supervisors.

In addition, two hundred fifty thousand dollars ($250,000) is hereby appropriated for the 1972–73 fiscal year to reimburse each participating county for the cost of collection and transmission of data to the state for program evaluation as prescribed by the Director of the Youth Authority and the Director of Finance. Each county shall be required to enter into a contractual agreement with the state to provide the prescribed data Such agreement shall also specify the maximum amount each county shall be reimbursed for the collection and transmission of the required data.

No county shall share in any additional funds appropriated in this subdivision unless it enters into an agreement with the state to provide the data discussed above

The provisions of this subdivision shall be terminated on June 30, 1974.

SEC 3. Section 1825 of the Welfare and Institutions Code is amended to read:

1825. (a) No county shall be entitled to receive any state funds provided by this article until its application is approved and unless and until the minimum standards prescribed by the Department of the Youth Authority are complied with and then only on such terms as are set forth hereafter in this section.

(b) A commitment rate for each county and for the state as a whole shall be calculated by the Department of the Youth Authority by computing the ratio of new commitments to state and county population, expressed in a rate per 100,000 population, for each of the calendar

(c) An annual commitment rate shall be calculated at the end of each fiscal year for each participating county and for the state as a whole in a like manner to that described in subdivision (b) using the population figure of the July 1 included in the year.

(d) The maximum amount that may be paid to a county pursuant to this article is determined by obtaining the interpolated dollar amount in the table in this subdivision for such county's base commitment rate and its percentage decrease, interpolated to the nearest one-tenth of 1 percent, in rate of commitment and multiplying the appropriate dollar amount by the "commitment reduction number." The "commitment reduction number" is obtained by subtracting (1) the most recent annual commitment number from (2) the product of the base commitment rate and population of the county for the same year employed in (1) The Director of the Youth Authority, with approval of the Director of Finance may annually adjust the dollar amounts in the ensuing table to reflect changes in cost to the state of maintaining persons committed to the custody of the Director of Corrections and the Director of the Youth Authority, and if such adjustments are made, the adjusted amounts shall be employed in making the computation prescribed by this subdivision

(b) A commitment rate for each county and for the state as a whole shall be calculated by the Department of the Youth Authority by computing the ratio of new commitments to state and county population, expressed in a rate per 100,000 population, for each of the calendar years 1959 through 1963. The average of these rates for a county for the five-year period or the average of the last two years of the period, whichever is higher, shall be the base rate for that county, however, if the base rate *for those counties not utilizing Section 1825.7* is lower than 40 commitments per 100,000 population, the rate shall be established at 40, and if the rate is higher than 100, the rate shall be established at 100. The number of commitments shall be the total of the new commitments to the custody of the Director of the Youth Authority and the new criminal commitments to the custody of the Director of Corrections, as certified by the respective departments. The county and state population shall be that certified by the Department of Finance to the Controller as of July 1 of each year. Persons committed to the Department of Corrections and subsequently discharged under Section 1168 of the Penal Code and persons committed to the Department of Corrections or the Department of the Youth Authority for diagnostic study only pursuant to Section 1203.03 of the Penal Code or Section 704 or 1752.1 of the Welfare and Institutions Code, shall not be counted as having been committed for purposes of determining commitment rates under this subdivision or subdivision (c).

(c) An annual commitment rate shall be calculated at the end of each fiscal year for each participating county and for the state as a whole in a like manner to that described in subdivision (b) using the population figure of the July 1 included in the year.

(d) The maximum amount that may be paid to a county pursuant to this article is determined by obtaining the interpolated dollar amount in the table in this subdivision for such county's base commitment rate and its percentage decrease, interpolated to the nearest one-tenth of 1 percent, in rate of commitment and multiplying the appropriate dollar amount by the "commitment reduction number." The "commitment reduction number" is obtained by subtracting (1) the most recent annual commitment number from (2) the product of the base commitment rate and population of the county for the same year employed in (1). The Director of the Youth Authority, with approval of the Director of Finance may annually adjust the dollar amounts in the ensuing table to reflect changes in cost to the state of maintaining persons committed to the custody of the Director of Corrections and the Director of the Youth Authority, and if such adjustments are made, the adjusted amounts shall be employed in making the computation prescribed by this subdivision.

(e) The state will reimburse the county upon presentation of a valid claim based on actual performance in reducing the commitment rate from its base rate. Whenever a claim made by a county, pursuant to this article, covering a prior fiscal year, is found to be in error, adjustment may be made on a current claim without the necessity of applying the adjustment to the allocation for the prior year.

(f) If the amount received by a county in reimbursement of its expenditures in a fiscal year is less than the maximum amount computed under subdivision (d), the difference may be used in the next two succeeding fiscal years and may be paid to the county in quarterly installments during such fiscal years upon preparation of valid claims for reimbursement of its quarterly expenses.

(g) In the event a participating county earns less than the sum paid in the previous year because of extremely unusual circumstances claimed by the county and verified by the Director of the Youth Authority with the approval of the Director of Finance, the Director of the Youth Authority may pay to the county a sum equal to the prior year's payment, provided, however, that in subsequent years the county will be paid only the amount earned.

(h) Funds obtained under this article shall not be used to support existing programs or develop or expand new programs in juvenile homes, ranches, or camps established under Article 15 (commencing with Section 880) of Chapter 2 of Part 1 of Division 2 of this code, *except that funds obtained under this article may be used by a county that has not established a juvenile home, ranch or camp to pay for its juvenile home, ranch or camp placements in other counties.*

(i) Counties where the average number of commitments in the base period as established by subdivision (b) is less than 30 may elect either to comply with the procedure set out above or, as an alternative, to receive from the state 90 percent of the salary of one full-time additional probation officer or, in the event there are fewer than 20 persons placed on probation annually otherwise eligible for commitment to state institutions, the county would be entitled to 90 percent of the salary of a half-time officer In the event a county chooses the alternative proposal, it will be eligible for reimbursement only so long as the officer devotes all of his time in the performance of probation services to supervision of persons eligible for state commitment and persons participating in special supervision programs and (1) if its base rate is below the state average, it does not on an annual basis exceed the base state rate, or (2) if its base rate is above the state average, it does not in the year exceed by 5 percent its own base rate

(j) In addition to earnings received by counties from commitment reductions through the payment table in subdivision (d) of this section, a sum of two million dollars ($2,000,000) is hereby appropriated for the 1972–73 fiscal year to be distributed pursuant to the table below. To determine a county's share, refer to Table 1 of the Fifth Annual Progress Report of the Probation Subsidy Program (Department of Youth Authority, September 23, 1971) for the county's actual commitment rate and the number of actual commitments.

Each county's share of the additional funds described above may be used for purposes of law enforcement as determined by individual county boards of supervisors

In addition, two hundred fifty thousand dollars ($250,000) is hereby appropriated for the 1972–73 fiscal year to reimburse each participating county for the cost of collection and transmission of data to the state for program evaluation as prescribed by the Director of the Youth Authority and the Director of Finance. Each county shall be required to enter into a contractual agreement with the state to provide the prescribed data. Such agreement shall also specify the maximum amount each county shall be reimbursed for the collection and transmission of the required data.

No county shall share in any additional funds appropriated in this subdivision unless it enters into an agreement with the state to provide the data discussed above.

The provisions of this subdivision shall be terminated on June 30, 1974.''

Bill read second time.

Consideration of Author's Amendments

The following amendments, pursuant to the Assembly Rules, were read, and adopted:

Amendment No. 1

On page 1 of the printed bill, as amended in Senate April 13, 1972, strike out lines 3 to 7, inclusive; strike out pages 2 to 5, inclusive, and on page 6, strike out lines 1 to 33, inclusive, and insert

"SEC. 2 Section 1028 is added to the Penal Code, to read.

1028. (a) (1) Prior to the trial of any action in the municipal or superior court, the court shall conduct a pretrial hearing to consider and determine all motions, issues and other matters which may be disposed of prior to the trial of the case, including, but not limited to, those matters set forth in Section 1028. This hearing shall be known as an "omnibus pretrial hearing"

(2) In addition to the remedies available at a preliminary hearing, the provisions of this section, and Sections 1238 and 1466 shall constitute the sole and exclusive remedies prior to conviction for litigating any issues which were or could have been litigated at the omnibus pretrial hearing Such issues may not be raised during the trial of the case or at any other time in the trial court unless the court finds that the moving party has made a showing by clear and convincing evidence that the issues were not, and in the exercise of due diligence, could not have been known to him at the time of the omnibus pretrial hearing

or unless the court finds by clear and convincing evidence that the evidence in support of the motion was not known and, in the exercise of due diligence, could not have been known to the moving party at the time of the omnibus pretrial hearing.

(3) A defendant shall not have the right of appellate review from the findings and orders of the omnibus pretrial hearing court except by means of an appeal from a conviction or by the means set forth in this section The term conviction shall include a plea of guilty or nolo contendere The defendant, however, shall have no right to appeal a conviction if the grounds stated were not originally raised at an omnibus pretrial hearing or permitted to be litigated during the trial of the case or at any other time in the trial court

(b) Not less than five days prior to the omnibus pretrial hearing the people and each defendant shall by written notice, on a form prescribed by the Judicial Council, which shall include a requirement that it be accompanied by statements of the points relied upon and citations of authorities, advise the court and all other parties of the motions, issues and other matters to be considered and determined at the omnibus pretrial hearing, including, but not limited to, the following:

(1) Motions for the return of property or the suppression of evidence, pursuant to Section 1538 5;

(2) Motions to set aside the indictment or information, pursuant to Section 995;

(3) Motions to determine the admissibility of admissions or confessions, pursuant to Section 402 of the Evidence Code,

(4) Motions to determine the admissibility of evidence of a pretrial identification of the defendant,

(5) Motions for discovery by the defendant of matters in the possession of the people;

(6) Motions for discovery by the people of matters in the possession of the defendant;

(7) Motions for separate trials of the defendants if there be more than one;

(8) Motions for separate trials of the charges set forth in the accusatory pleading;

(9) Motions to remove the action from the court in which it is pending, pursuant to Sections 1033 and 1034;

(10) Motions to consolidate;

(11) All issues relating to preliminary facts, as defined in Section 400 of the Evidence Code;

(12) Such other motions as the court by rule may require to be made and determined at the pretrial hearing

(c) Only one omnibus pretrial hearing shall be had in any action, and all motions, issues and other matters which may properly be determined prior to trial shall be heard and determined at the hearing If during the course of the pretrial hearing additional investigation, discovery, preparation or presentation of evidence appears necessary to the proper determination of any issue, the hearing may be continued from time to time as the interest of justice may require.

(d) If there is more than one defendant in the criminal case, one hearing shall be held as to all defendants and, if 10 days notice of an omnibus pretrial hearing, pursuant to paragraph (1) of subdivision (f), or five days notice of a hearing, pursuant to paragraph (2) of subdivision (f), is given to a defendant, his failure to participate therein shall be deemed a waiver of a right to have an omnibus pretrial hearing, unless for good cause shown the court grants an extension of time.

(e) By stipulation of all the parties and with the consent of the court, any issue which could be raised at the omnibus pretrial hearing may be reserved and litigated during trial

(f) (1) If the information or indictment alleges a felony or a felony and misdemeanor, the omnibus pretrial hearing shall be held within 10 to 20 days after the arraignment of the defendant on the indictment or information, unless the court determines that the motions, issues and other matters cannot be resolved at that time, in which case the court may set the hearing for a later date, not more than 30 days from the time of the arraignment, except that, upon stipulation of the parties and with the consent of the court, a later date may be set For the purpose of the omnibus pretrial hearing, a misdemeanor count joined with a felony count shall be treated procedurally as a felony. However, no motion to sever the misdemeanor count from the felony count shall be granted until all other pretrial issues have been resolved

If a motion to remove the action from the court in which it is pending is made pursuant to Sections 1033 or 1034, the omnibus pretrial hearing shall not be held until after such motion has been determined

(2) If the complaint alleges a misdemeanor only, including those considered misdemeanors pursuant to paragraphs (4) and (5) of subdivision (6) of Section 17, then the omnibus pretrial hearing shall be held within five to 10 days after the arraignment of the defendant on the complaint, except that upon stipulation of the parties and with the consent of the court a later date may be set

(g) (1) Within 10 days after notice of the determination of the motions and issues at the pretrial hearing, the people, if the case is not dismissed pursuant to subdivision (g)(5) of this section, or any defendant may file with the clerk of the court in which the hearing was held a notice of intention to petition for a writ of prohibition or a writ of mandate to review any one or more of the orders, rulings and determinations made at the pretrial hearing, together with a request for preparation of the transcript of the proceedings at the pretrial hearing The reporter shall within 15 days thereof prepare and deliver the transcript to the clerk, and the clerk shall file and distribute the transcript, in the manner provided by Section 869

Within 30 days of receipt of the transcript of the pretrial hearing the people or any defendant may petition for a writ of prohibition or or a writ of mandate to review any one or more of the orders, rulings and determinations made at the pretrial hearing

In a case in which the complaint charges only misdemeanor offenses, the people or any defendant shall have the right to appeal a decision of that court relating to the omnibus pretrial motion to the superior

court of the county in which such inferior court is located, in accordance with the California Rules of Court provisions governing appeals from municipal and justice courts in criminal cases

(2) In a misdemeanor case, if a determination is made at the omnibus pretrial hearing which is adverse to the people, and the people seek review pursuant to paragraph (1) of subdivision (g), the defendant shall be released pursuant to Section 1318 if he is in custody and not returned to custody unless the proceedings are resumed in the trial court and he is lawfully ordered by the court to be returned to custody.

(3) In a felony case, if a determination is made at the omnibus pretrial hearing which is adverse to the people and the case is not dismissed, and the people seek review pursuant to paragraph (1) of subdivision (g), the defendant shall be released pursuant to Section 1318 unless (i) he is charged with a capital offense in a case where the proof is evident and the presumption great, or (ii) he is charged with a noncapital offense defined in Chapter 1 (commencing with Section 187) of Title 8 of Part 1, and the court orders that the defendant be discharged from actual custody upon bail

(4) If an order, ruling or determination is made at the pretrial hearing which is adverse to the people and the case is not dismissed, the trial of a criminal case shall be stayed to a specified date pending the termination in the appellate courts of this state of the proceedings provided for in this section, Section 1238, or Section 1466, and, except upon stipulation of the parties, pending the time for the initiation of such proceedings Upon the termination of such proceedings, the defendant shall be brought to trial as provided by Section 1382, and, subject to the provisions of Section 1382, whenever the people have sought and have been denied appellate review pursuant to paragraph (1) of subdivision (g), the defendant shall be entitled to have the action dismissed if he is not brought to trial within 30 days of the date of the order which is the last denial of the petition.

(5) Nothing contained in this section shall prohibit a court, at the same time as it rules upon any motion or issue litigated at the omnibus pretrial hearing, from dismissing a case pursuant to Section 1385 when such dismissal is upon the court's own motion and is based upon a ruling or order made at the omnibus pretrial hearing, or from dismissing a case pursuant to Section 1382 when such dismissal is based upon a ruling or order made at the omnibus pretrial hearing, or from setting aside an indictment or information when such setting aside is based upon a ruling or order made at the omnibus pretrial hearing.

(6) In addition to the right to appeal pursuant to Section 1238 from the dismissal of a case or the setting aside of an indictment, information, or complaint, the people, if they have not prosecuted an appeal to decision, shall have the right to refile a case in which a felony was charged and which was dismissed if it was dismissed, pursuant to Section 1382, or if it was dismissed for failure to disclose the identity of an informant, or to refile when the indictment or information was

set aside. If the people prosecute review by appeal or writ to decision, or any review thereof, in a felony or misdemeanor case, it shall be binding upon them.

(h) If a motion by a defendant to return property or suppress evidence on the basis that such property or evidence was obtained in violation of federal or state constitutional standards is granted at the omnibus pretrial hearing, the property or evidence shall be returned upon the order of the court only if, after the conclusion of any proceeding authorized by this section or Sections 1466 and 1238, the property is not subject to lawful detention or if the time for initiating such proceedings has expired, whichever occurs last If the people petition for a writ of mandate or prohibition, or file notice of intention to file a petition, the court upon receipt of such notice shall keep all such property or evidence within its custody and control until final determination is made by the appellate court whether to grant or deny relief

(i) The Judicial Council may adopt rules of practice and procedure for the pretrial hearings described in this chapter."

By Assemblyman Russell:

House Resolution No. 80

Relative to a study of the taxation of mobilehomes

WHEREAS, The number of persons who live in mobilehomes in California has increased significantly in recent years; and

WHEREAS, California laws presently require owners of mobilehomes to pay a tax to the State Department of Motor Vehicles, which is in lieu of paying a property tax to local government, and

WHEREAS, Recently, some county assessors have been attempting to subject mobilehomes to property taxation, even though an in-lieu tax has already been paid on these vehicles, and

WHEREAS, Many taxpayers argue that mobilehome owners do not pay an equivalent share of taxes for services rendered by city and county governments, and school districts, and other local governmental entities; and

WHEREAS, The distribution of in-lieu taxes on mobilehomes by the Department of Motor Vehicles to local governmental bodies frequently is not the same as the distribution of locally collected property taxes; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members consider the taxation of mobilehomes to be a matter of statewide

concern and of sufficient importance to warrant an investigation and examination to determine how an equitable property tax structure may be developed and applied to the taxation of mobilehomes; and be it further

Resolved, That the Assembly Committee on Rules is hereby requested to assign to an appropriate committee for study the subject of the taxation of mobilehomes; and be it further

MESSAGES FROM THE GOVERNOR

The following Message from the Governor was received, and by unanimous consent, ordered printed in the Journal:

Veto Message—Assembly Bill No. 688

Governor's Office, Sacramento
July 11, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No 688 entitled, "An act to add Section 25274 to the Vehicle Code, relating to flashing and colored lights"

This measure would authorize the display of flashing amber warning lights to the rear by any publicly owned vehicle operated by a marshal or deputy marshal of a municipal court while stopped upon a roadway

The present practice of restricting the use of amber warning lights to those types of vehicles, which by their construction or necessary operation would, themselves, constitute a traffic hazard, has maintained the integrity of this type of warning device In light of recent studies which have shown that indiscriminate use of flashing lights adds to congestion and confusion, and in consideration of the duties performed by municipal court marshals, the need for such devices does not appear justified

Accordingly, I am returning the bill unsigned

Respectfully,

ED REINECKE
Acting Governor

CHAPTER 10 5. STATE EMPLOYEE ORGANIZATIONS

3550 It is the purpose of this chapter to promote the improvement of personnel management and employer-employee relations between the State of California and its employees by providing a uniform basis for recognizing the right of public employees to join organizations of their own choice and be represented by such organizations in their employment relationships with the state Nothing contained herein shall be

deemed to supersede the provisions of existing state law which establish and regulate a merit or civil service system or which provide for other methods of administering employer-employee relations This chapter is intended, instead, to strengthen merit, civil service and other methods of administering employer-employee relations through the establishment of uniform and orderly methods of communication between employees and the state.

3551 As used in this chapter·

(a) "Employee organization" means any organization which includes employees of the state and which has as one of its primary purposes representing its members in employer-employee relations

(b) The provisions of this chapter apply only to the State of California The "State of California" as used in this chapter means such state agencies, boards, commissions, administrative officers, or other representatives as may be designated by law

(c) "Public employee" means any person employed by the state, including employees of fire departments or fire services of the state, excepting those persons elected by popular vote or appointed to office by the Governor of this state

3552 Except as otherwise provided by the Legislature, state employees shall have the right to form, join, and participate in the activities of employee organizations of their own choosing for the purpose of representation on all matters of employer-employee relations State employees also shall have the right to refuse to join or participate in the activities of employee organizations and shall have the right to represent themselves individually in their employment relations with the state.

3553. Employee organizations shall have the right to represent their members in their employment relations with the state Employee organizations may establish reasonable restrictions regarding who may join and may make reasonable provisions for the dismissal of individuals from membership Nothing in this section shall prohibit any employee from appearing in his own behalf in his employment relations with the state

3554 The scope of representation shall include all matters relating to employment conditions and employer-employee relations, including, but not limited to, wages, hours, and other terms and conditions of employment

3555 The state by means of such boards, commissions, administrative officers or other representatives as may be properly designated by law, shall meet and confer with representatives of employee organizations upon request, and shall consider as fully as such representatives deem reasonable such presentations as are made by the employee organization on behalf of its members prior to arriving at a determination of policy or course of action

3556 The state and employee organizations shall not interfere with, intimidate, restrain, coerce, or discriminate against state employees because of their exercise of their rights under Section 3552

3557 The state may adopt reasonable rules and regulations for the administration of employer-employee relations under this chapter.

Such rules and regulations may include provisions for (a) verifying that an organization does in fact represent employees of the state (b) verifying the official status of employee organization officers and representatives (c) access of employee organization officers and representatives to work locations (d) use of official bulletin boards and other means of communication by employee organizations (e) furnishing nonconfidential information pertaining to employment relations to employee organizations (f) such other matters as are necessary to carry out the purposes of this chapter

For employees in the state civil service, rules and regulations in accordance with this section may be adopted by the State Personnel Board.

3558. Professional employees shall not be denied the right to be represented separately from nonprofessional employees by a professional employee organization consisting of such professional employees.

"Professional employees," for the purposes of this section, means employees engaged in work requiring specialized knowledge and skills attained through completion of a recognized course of instruction, including, but not limited to, attorneys, physicians, registered nurses, engineers, architects, teachers, and the various types of physical, chemical, and biological scientists.

3559. In addition to those rules and regulations the state may adopt pursuant to and in the same manner as in Section 3557, the state may adopt reasonable rules and regulations providing for designation of the management and confidential employees of the state and restricting such employees from representing any employee organization, which represents other employees of the state, on matters within the scope of representation Except as specifically provided otherwise in this chapter, this section does not otherwise limit the right of employees to be members of and to hold office in an employee organization

Dear Jim: Pursuant to the provisions of Section 8920 (b) (5) of the Government Code, I declare that I have a personal interest in Assembly Bill No 718 My interest consists of minor stockholdings in savings and loan institutions none of which are in the Downey Savings and Loan Association for whom I am carrying the bill. However, notwithstanding such interest I believe that I can cast a fair and objective vote on A B 718 and do so, pursuant to the provisions of Section 8920 (b) (5) of the Government Code.

INTRODUCTION, FIRST READING, AND REFERENCE OF ASSEMBLY BILLS

The following resolution was offered

Assembly Joint Resolution No. 38: By Assemblyman Chappie—Relative to through traffic at Yosemite National Park

Held at Desk by order of the Acting Speaker.

RESOLUTIONS

The following resolutions were offered:

By Assemblyman Duffy:

House Resolution No. 83

Relative to adoption of emergency regulations by the State Department of Social Welfare

WHEREAS, It has come to the attention of the Members of the Assembly that the State Department of Social Welfare has during the past two years increasingly pursued the policy of adopting administrative regulations under a finding of emergency; and

WHEREAS, The counties, which are mandated by law to carry out the regulations of the State Department of Social Welfare, are continually faced with the critical problem of implementing regulations which have been adopted on an emergency basis and therefore are not subject to public hearings on appropriateness and clarity, and which do not afford adequate lead time for error-free implementation; and

WHEREAS, The appropriateness of the almost routine use of emergency procedures for the adoption of administrative regulations by the State Department of Social Welfare is questionable in light of statutes governing administrative rule-making powers which specify limited circumstances for the adoption of emergency regulations, now, therefore, be it

Resolved by the Assembly of the State of California, That the Joint Legislative Budget Committee, in cooperation with the Assembly Wel-

fare Committee and the Legislative Counsel, is hereby requested to study the subject of the adoption, amendment or repeal of the Department of Social Welfare's regulations concerning welfare as emergency regulations during the past two years in light of the use and purpose for which the adoption of emergency regulations was intended by the Legislature, and to report its findings and recommendations to the Legislature by the fifth calendar day of the 1973 Regular Session; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Director of the State Department of Social Welfare, the Chairmen of the Joint Budget Committee, the Assembly Welfare Committee, and the Legislative Counsel.

Resolution read, and referred by the Acting Speaker to the Committee on Rules.

By Assemblyman Chappie:

House Resolution No. 84

Relative to the Emigrant Trail

WHEREAS, The westward migration over the Emigrant Trail in the 19th century was the greatest single factor in the settlement of California; and

WHEREAS, The ill-fated Donner party and their bitter suffering and losses during their journey over the Emigrant Trail is famous in the annals of California history; and

WHEREAS, The California Department of Parks and Recreation is authorized to identify, designate, and mark significant historic sites in this state; now, therefore, be it

Resolved by the Assembly of the State of California, That the California Historical Landmarks Advisory Committee of the Department of Parks and Recreation cooperate with historical advisory committees in the Counties of Nevada, Placer, and Yuba to identify and suitably designate those portions of the Emigrant Trail associated with the Donner Party, and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Parks and Recreation and to the Chairmen of the Boards of Supervisors of the Counties of Nevada, Placer, and Yuba.

Resolution read, and referred by the Acting Speaker to the Committee on Rules.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Thomas was granted unanimous consent that the following letters of transmittal be printed in the Journal

Joint Legislative Audit Committee

The Honorable Speaker of the Assembly—
The Honorable Members of the Assembly of the Legislature of California

Sirs We herewith transmit a report on the audit of the consulting contract to design and implement a Hospital Cost Reporting System for the Department of Mental Hygiene The audit was performed by the Office of the Auditor General The objective of this audit was to review and evaluate the work performed under the contract including end results

The consultant performing the work under this contract was paid $390,000, including supplements and amendments None of the supplements and amendments were subject to the competitive bidding procedure The amount paid was more than 300 percent greater than the successful bid of $127,000 and $14,600 more than the highest bid of $375,400. The primary reason for the large increase in price was due to the supplements and amendments for programming the system Programming costs were greatly underestimated in the original contract.

The completion date for the project in the original contract was near the end of 1967 or early 1968 The consultant did not withdraw from the project until May 1970, over two years after the scheduled completion date

Some of the deliverable items, as specified in the contract, were not provided Also, the system had many operational problems as implemented by the consultant. As a result the department has had to expend considerable effort and money to complete the development and implementation of the system since departure of the consultant The additional expenditure is estimated to be in excess of $100,000 annually

The Department of Mental Hygiene was responsible for the administration of this contract The department permitted the large increase in time and cost and paid the consultant for an incomplete system with many operational problems The report points out that the department did not provide adequate supervision or protect the state's interest

The control agency, the Office of Management Services, that had authority to review the contract and exercise control over the EDP budget of the department merely voiced concern that the contract was becoming expensive. The audit indicates that a stronger position should have been taken by the control agency concerning the performance of the consultant

This audit is one of several being performed on specific consulting contracts At the time these audits are completed, it is expected that recommendations will be made for the improvement of existing procedures and practices for entering into and controlling the execution of consulting contracts.

Respectfully submitted,

VINCENT THOMAS, Chairman
Joint Legislative Audit Committee

Above report referred to the Committee on Efficiency and Cost Control.

Joint Legislative Audit Committee

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly of the Legislature of California

Sirs We herewith transmit a report by the Auditor General on his review of departmental operations of the Department of Industrial Relations This is one of several reports to be issued by the Auditor General on the performance audit of this department

The Department of Industrial Relations is a conglomerate of eight semi-independent divisions that have as a common goal the promotion and development of the welfare of California workers

By statute the department is under the control of a director, however, the authority of the director is severely limited by various conflicting sections of the Labor Code which reserve many of the powers and jurisdictions to the various divisions, boards, and commissions

Each division maintains an air of almost complete autonomy from the other divisions and from the department as a whole This autonomy

is exemplified by the number of Governor's appointees that share in the policymaking and management of the department In all, there are 51 Governor's appointees, including the director, seven division chiefs, and 43 members of boards and commissions other than the director.

The report discusses the extensive costs associated with the current organizational structure Departmental guidance for the planning and directing of programs is lacking because the director does not have the jurisdictional power or the available staff for this function As a consequence, there are many inefficiencies and duplications These problems were reported in 1967 in a report on the Governor's Survey on Efficiency and Cost Control

The department needs to develop better lines of communication between the divisions; and the department clerical staffs, at least in the field offices, need to be consolidated A consolidation of field office clerical staffs would more evenly distribute the workload and could result in immediate salary savings estimated at $70,000 a year. These savings could be used to finance other needed positions to improve service to the public

The director needs to increase his staff of management analysts, also internal auditors and legal advisors need to be employed The report also stresses the need for the department to develop units of measurement to provide the means to determine the accomplishments of the respective divisions.

In all, the report makes 14 recommendations which need to be implemented by the department to improve its operations Three of these recommendations require legislation. They are as follows·

1 Allow the director and the department to assume complete jurisdictional control over the operations of the various divisions with the exception of the State Compensation Insurance Fund
2. Eliminate the appointing power of the Governor to name the division chiefs, and assign the responsibility of making these appointments to the director
3 Eliminate the Division of Labor Statistics and Research and assign the duties of this division to other divisions in the department

Respectfully submitted,

VINCENT THOMAS, Chairman
Joint Legislative Audit Committee

Above report referred to the Select Committee on Industrial Safety.

House Resolution No. 87

WHEREAS, California's educational institutions have the primary responsibility in providing conventional loan information to students, who face important financial decisions involving years of loan repayment and credit rating hardships, now, therefore, be it

student loan field, and the State Scholarship and Loan Commission, report its findings and recommendations to the Legislature on or before the 180th day following the adoption of this resolution, regarding conventional loan information that educational institutions should make available to students, on a confidential basis, to help them in their assessment of earning capability and educational program in relation to debt level to be undertaken, and be it further

Resolved, That the report include, but not be limited to, the following

CONSIDERATION OF SENATE AMENDMENTS

Assembly Bill No. 802—An act to amend Section 11476 of, and to add Section 10851.5 to, the Welfare and Institutions Code, relating to public assistance.

The question being: Shall the Assembly concur in the following Senate amendment to Assembly Bill No. 802 (presented by Mr. Pierson)?

Amendment No. 1

On page 4, after line 33, of the printed bill, as amended in Assembly April 25, 1972, insert

"SEC 3 Section 11476 of the Welfare and Institutions Code as amended by Chapter 578 of the Statutes of 1971, is amended to read:

11476 In all cases in which the whereabouts of the parent is unknown, the county department shall refer the applicant to the district attorney at the time the application for assistance is signed

In all cases in which the whereabouts of the absent parent is known, the county department, immediately upon receipt of the application for assistance, shall notify the absent parent of the filing of the application and of his responsibility to complete and return the written statement required by Section 11353. Such notification shall be by ~~registered~~ *certified* mail, return receipt requested, and an appropriate form and a stamped envelope shall be provided for its return If the notice is not delivered within seven days, the county department shall cause prompt personal service to be made. If the written statement is not completed and returned within 15 days after service, the county department shall refer the matter to the district attorney for prosecution for violation of Section 11353.

When the county department has obtained sufficient information concerning the absent parent it shall immediately determine his ability to support his children, make contractual arrangements for his complying with his obligation to support, discuss his parental responsibilities, and explore the possibility of a reconciliation and the resumption of a parental relationship with his children If the county department has not obtained a satisfactory support agreement with the absent parent within 30 days after the application for assistance is signed, the county department shall refer the case to the district attorney unless it has definitely determined that the parent is financially incapable of supporting the child. The department shall develop and furnish to the counties guidelines and forms for support agreements, such agreements shall provide every safeguard available under the law for effective enforcement of support and collection through enforcement of a legal judgment, including the imposition of liens upon real and personal property where appropriate If the absent parent is residing out of the county and his whereabouts is known, the county department may arrange for the personal contacts and interviews with the absent parent to be conducted by the county department of the county where the parent is located The department shall provide by regulation for a plan of cooperation between the respective counties, and it shall be the duty of each county upon receiving a request from another

county to cooperate and assist promptly in contacting, interviewing, and obtaining support agreements where appropriate from absent parents located within its boundaries.

Anything in this section to the contrary notwithstanding, it shall be the duty of the county department to refer to the district attorney immediately any case in which one or more of the following factors appear:

1. The absent parent refuses to be interviewed, to provide necessary information, or to discuss his parental responsibilities.

2 The absent parent refuses to make a contribution in accordance with his financial ability.

3. There is reason to believe that the parent may flee or hide if contacted by the county department

4. The absent parent's previous history indicates that although he is capable of a support contribution, efforts by the county department to obtain support would be fruitless.

5 Legal action is necessary to establish paternity.

6. The absent parent has entered into an agreement with the county department to support his child and has defaulted upon that agreement without showing good cause for such default.

7. The district attorney has requested that all cases involving parents absent from the home be referred to him immediately upon receipt of the application for assistance.

The county department shall cooperate with the district attorney and shall report to him all information contained in the case record which concerns the question of nonsupport and the suitability of prosecution as a method of obtaining support for the child in each case

Upon referral, the district attorney shall immediately investigate the question of nonsupport and shall take all steps necessary to obtain support for the needy child However, upon the advice of the county department that a child is being considered for adoption, the district attorney shall delay his investigation and other actions with respect to the case until advised that the adoption is no longer under consideration.

The granting of aid to the applicant shall not be delayed or contingent upon investigation by the district attorney

Where a court order has been obtained in the case by the district attorney, any contractual agreement for support between the county welfare department and the absent parent shall be deemed null and void to the extent that it is not consistent with the court order.

In every case which has not been referred to the district attorney, it shall be the duty of the county department to contact the absent parent and to carry out the provisions of this section at the earliest possible date, and to refer the case to the district attorney at once in the event of a refusal to cooperate or an unexplained default as provided above Upon referral, it shall be the duty of the district attorney to take all appropriate action, civil and criminal, to promptly and effectively enforce the obligation of parents to support their children

SEC 4 It is the intent of the Legislature, if this bill and Senate Bill No 184 are both chaptered and amend Section 11476 of the Welfare and Institutions Code, and this bill is chaptered after Senate Bill No 184, that the amendments to Section 11476 proposed by both bills

be given effect and incorporated in Section 11476 in the form set forth in Section 3 of this act. Therefore, Section 3 of this act shall become operative only if this bill and Senate Bill No. 184 are both chaptered, both amend Section 11476, and Senate Bill No 184 is chaptered before this bill, in which case Section 2 of this act shall not become operative "

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Priolo was granted unanimous consent that the following communication be printed in the Journal:

Report of Subcommittee on San Francisco Primary Vote

July 19, 1972

The Honorable Bob Moretti
Speaker of the Assembly
State Capitol

Dear Speaker Moretti: Pursuant to your request, I convened the Subcommittee on the San Francisco Primary Vote at the Board of Education Hearing Room in San Francisco on June 20, 1972

Assemblyman Robert Crown and I heard testimony from the following witnesses:

Mr. Emmery Mihaly
Registrar of Voters, San Francisco

Mr Virgil Elliott
Director of Finance and Records, San Francisco
Mr Frederick Furth
Attorney for Plaintiffs, San Francisco
Mr Agar Jaicks
Chairman, County Democratic Central Committee of San Francisco
Mrs Mary Louise Lovett
Plaintiff in law suit which kept the polls open until 11:00 p.m
Mr. Albert Hooy
Inspector, Precincts 255 and 256
Mr. Ed Charbonneau
Marketing Manager—Western Area
Computer Elections System
Mr James Whitworth
The Ballotmaster Company
Mr Gordon Soltau
Diamond International Corporation
Evylin Evelyn

From their testimony, the subcommittee makes the following findings:

1. The San Francisco vote mix-up could have been avoided at any one of several stages and can be attributed to poor planning and failure to adapt to the circumstances.

Comment: The special election to create the two new school boards should not have been consolidated with the primary election This election should have been held separately or consolidated with the general election where there would have been adequate room on the machines.

2 San Francisco's machines are the oldest in the state. They are out-dated and are not suited to today's lengthy ballot.

3 It was known in late April that the machines were not equipped to handle the primary election.

4 Several voting machine companies offered to furnish machines if the city would pay the cost of transportation.

5 The Registrar of Voters turned down the request because he felt he could not afford the transportation costs, had no place to store the machines, could not train his personnel, and did not want to confuse the voters

Comment: The committee strongly rejects Mr Mihaly's reasons for turning down the use of the offered voting machines. The cost of these machines was negligible compared to the cost to the rest of the state and the inconvenience to San Francisco's voters caused by the Election Day mess

6 The Registrar of Voters considered using paper ballots but decided against their use because the voters would be confused and because he did not have adequate curtains or booths.

Comment: The confusion on Election Day because paper ballots were not used was far greater than the possible confusion that could have been created by paper ballots Paper ballots would have enabled San Francisco to use existing precincts The committee believes that, under the circumstances, San Francisco should have used paper ballots.

7. The Registrar of Voters reduced precincts from over 1100 to less than 800. In a substantial number of precincts, the number of voters totaled over 600, which is the maximum allowed by the Elections Code

Comment: There was inadequate notice given to the voters that there would be delays Absentee ballot applications were sent out so late that many voters were denied the right to vote absentee.

8. There were long lines at all times on Election Day.

Comment: Given the circumstances, the U S Federal Court decision to hold the polls open three extra hours to 11:00 p m. was correct

9. Although some San Francisco precincts did not hear the court order to stay open until 11:00 p m , most complied with the order The Registrar of Voters permitted voters to vote at his office until 11:00 p m if their precincts had already closed

Comment: The turnout for the election was 63%, 7% less than the state average and well below the usual San Francisco turnout The committee believes that had the Registrar of Voters accepted the proffered voting machines or used paper ballots or prepared the voters for the delay the turnout could have been substantially higher.

10. Since the election there has been much discussion about replacing the machines, but San Francisco has taken no official action as of this date.

RECOMMENDATIONS:

1. The Legislature should request the State Commission on Voting Machines to review San Francisco's voting machines and consider withdrawing approval of those machines.

2. San Francisco should be urged to replace their machines with other voting devices as soon as possible.

3. The state, through its Commission on Voting Machines, should continually review all voting systems, disapproving those which become obsolete and encouraging the production of new systems

Sincerely,

PAUL PRIOLO
