MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 6, 1941

To the Honorable Members of the Assembly,
Sacramento, California

GREETINGS: I am returning herewith without my signature Assembly Bill No. 75, entitled "An act to amend Section 4255 of the Political Code, relating to compensation of officers of counties of the twenty-sixth class."

My objections to this bill are as follows:

This bill reduces the salary of the district attorney of Merced County from $4,000 to $3,000 per annum, and deletes from the present law a provision that neither he nor his deputy shall engage in private practice.

I believe that it is sound public policy that judges, justices of the peace, and district attorneys should devote their full time to the duties of the offices which they fill, and that exceptions to this policy which would permit them to hold their offices and also engage in the private practice of the law be made only when it is very clear that it is extremely impractical to have full time officers.

Those who come into contact with the courts or law enforcement problems can cite innumerable reasons why this policy is sound, but, by and large they can be summarized into several general reasons:

1. According to the old proverb a man cannot serve two masters. If he must make a choice as to whether he will perform some of the duties of his office or serve a private client, it is possible that the officer will neglect the duties of the office. Also, his official decisions may be affected by his private practice.

2. An official's position may be used, consciously or unconsciously, to his advantage in his private dealings.

In all instances the public good may suffer.

As to the application of this policy to the County of Merced, many representative citizens and organizations of that county have stated their views that the duties of the offices in question require the full time of the office holders. The population of that county would appear to bear that out amply, and there appears to be no justification for a deviation from the said policy set forth herein.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

Assembly Bill No. 75 ordered to unfinished business.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 7, 1941

To the Honorable Members of the Assembly
State Capitol, Sacramento, California

GREETINGS. I have this day delivered to the Secretary of State Assembly Bill No. 638. I objected to the appropriation made by such bill, and reduced the amount of such appropriation by appending to the bill, at the time of signing it, a statement of the items to which I objected and the reasons therefor.

In accordance with the provisions of Section 16 of Article IV of the Constitution, I am transmitting herewith a copy of such statement.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

I object to the appropriation of $50,000 and hereby reduce the sum to $25,000. With this reduction I approve the bill.

My reasons for reducing the amount of said appropriation are as follows:

The total of the appropriation proposed to be made by this bill, together with the $45,000 already appropriated to the Assembly Contingent Fund, far exceeds the total amount appropriated to the Assembly Contingent Fund of previous regular sessions. This total even exceeds the unusually large appropriations made for the previous regular legislative session to cover extremely large sums spent by numerous special Assembly and Joint Legislative Investigating Committees. This additional amount of $25,000 which I have approved together with the amount remaining from previous appropriations, I know is ample to cover all necessary expenditures from the Assembly Contingent Fund. It is inconceivable that the normal contingent expenses that could be incurred by the Assembly during the remainder of this regular session could possibly exceed the sum of $25,000 more than the amount now in the fund, even though the session were to last another 60 days. If at a later date a still further appropriation to this fund should become necessary, I will willingly approve the same.

CULBERT L. OLSON, Governor of California

Dated May 6, 1941

MOTION TO EXPUNGE RECORD AND RESCIND ACTION

Mr. Tenney moved to expunge the record and rescind the action whereby Assembly Bill No. 2616 was introduced.

Mr. John B. Knight seconded the motion.

The roll was called, and the motion carried by the following vote:

N., Kepple, Kilpatrick, King, Knight, John B., Leonard, Lowrey, Maloney, Massion, McCollister, Meehan, Middough, Miller, Millington, O'Day, Pelletier, Pfaff, Phillips, Poole, Potter, Poulson, Richie, Robertson, Russell, Salsman, Sawallisch, Sheridan, Stream, Tenney, Thomas, Thurman, Turner, Voigt, Waters, Watson, Weber, Welch, and Wollenberg—66.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 8, 1941

To the Honorable Members of the Assembly
State Capitol, Sacramento, California

GREETINGS. Pursuant to the provisions of Section 312 of the Political Code of California, you are hereby notified that on the seventh day of May, 1941, at 11.15 p.m. Assembly Bill No 1583 was returned without my signature and, together with

a statement of my objections thereto, was delivered to Honorable Arthur A. Ohnimus, Chief Clerk of the Assembly.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 7, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Assembly Bill No. 1583, entitled: "An act to amend Section 155 of the State Civil Service Act, relating to reinstatements."

My objections to this bill are as follows:

Section 155 of the State Civil Service Act now provides that the Personnel Board, on the request of an appointing power, may approve the reinstatement within three years of any person having probationary or permanent status who is separated from his position through resignation without fault or delinquency on his part, if within that time there is need for his services in a position in the class from which the employee was separated or in a position in another class having substantially similar duties, responsibilities, and qualifications, and substantially the same salary range. The amendment made by this bill is that the board may also approve the reinstatement of any person who has applied therefor within three years subsequent to the adoption of Article XXIV of the Constitution of this State, if such person makes reapplication therefor and if at the time of reinstatement there is need for his services in a position in the class from which the employee was separated or in a position in another class having substantially similar duties, responsibilities and qualifications, and substantially the same salary range, but the amendment does not provide that the reinstatement may be made only on the request of the appointing power, nor does it provide that the applicant must have been separated from his position through resignation "without fault or delinquency on his part." I see no reason why these same provisions in the existing law should not be included in the amendment. The same rule should apply to all applicants for reinstatement.

Respectfully submitted

CULBERT L. OLSON, Governor of California

Upon the termination of any program, if there are any obligations arising thereunder, the final accrual or ascertainment of which requires further acts by any producer or distributor or by the persons appointed to administer the program or by the director, the power or duty to perform such further acts shall continue, notwithstanding such termination.

All moneys received by the director pursuant to this section shall be deposited in the Department of Agriculture Fund in the State Treasury allocated to each separate marketing area from which they are allocated and disbursed only for the purposes specified subject to the approval of the director.

"SEC. 3. Section 3669c of the Political Code is hereby amended to read as follows.

3669c. [The corporate rights, privileges and powers of any domestic insurance company heretofore suspended pursuant to the provisions of this code shall be incapable of being exercised for any purpose or in any manner, except to defend any action brought in any court against said company, until such corporate rights, privileges and powers are restored as hereinafter provided. A foreign insurance company whose right and privilege to transact intrastate business in this State have been forfeited may be relieved from such forfeiture and its right and privilege to transact intrastate business in this State restored as hereinafter provided.

The certified copies of lists of corporations which have failed to pay the taxes imposed upon insurance companies heretofore transmitted by the State Controller to

county clerks and county recorders for filing in their respective offices, or any copy of such lists certified by the Controller shall be received in evidence in any court in lieu of the original record of suspension or forfeiture on file with the Controller and shall be prima facie evidence of the truth of all statements contained therein.

Every person who attempts or purports to exercise any of the rights, privileges or powers of any suspended domestic corporation or attempts to transact any intrastate business in this State in behalf of any forfeited foreign corporation shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than two hundred fifty dollars and not exceeding one thousand dollars, or by imprisonment in the county jail not less than fifty days nor more than five hundred days, or by both such fine and imprisonment. The jurisdiction of such offense shall be held to be in the county in which any part of such attempted exercise of such powers or any part of such transaction of business was had or occurred. Every contract made in violation of this section is hereby declared to be void.]

Upon payment of all such taxes and penalties the State Controller shall issue a certificate under his seal evidencing such payment and restoration, which certificate when recorded in the office of any county recorder shall constitute a release of all existing liens for such taxes upon the property of such corporation. Each county recorder shall keep an index of all such Controller's certificates recorded by him. Upon presentation of such Controller's certificate of revivor to any county clerk said officer shall make a record thereof in his office in a book kept for such purpose. The record so made by said county clerk shall be prima facie evidence of the restoration to such corporation of all previously suspended or forfeited rights, powers and privileges unless it appears from the records in the office of such county clerk or of the Secretary of State that subsequent to the date of such certificate of revivor the powers of said corporation have been suspended or its right to do intrastate business forfeited.

In the case of corporations whose powers have been suspended, the persons constituting the board of directors thereof shall have the power and right to defend such action Payment of the amount of the judgment recovered in such action must be made to the State Controller

In such actions the Record of Assessments of Insurance Companies, or a copy of so much thereof as is applicable in said action, duly certified by the Controller, or by the secretary of the State Board of Equalization showing unpaid taxes against any company, person or association assessed by the State Board of Equalization, is prima facie evidence of the assessment of such taxes, the delinquency thereof, the

amount of the taxes and penalties due and unpaid to the State, and that the company, person, or association is indebted to the people of the State of California in the amount of taxes and penalties therein appearing unpaid, and that there has been compliance with all the requirements of law in relation to the assessment and levy of such taxes.]

PROCEEDINGS UNDER CALL OF THE ASSEMBLY BY UNANIMOUS CONSENT

COMMUNICATIONS

The following communication was received and read, and on motion of Mr Doyle, ordered printed in the Journal:

MEMORANDUM

IN RE: Enactment of 1941-43 Budget Bill With Less Than Two-thirds Vote

Section 34a of Article IV of the Constitution requires that appropriations from the General Fund in excess of an amount determined by a formula specified therein must be passed by a two-thirds vote of the members of both houses of the Legislature The section specifically provides:

> "Should the appropriations in the Budget Act for any biennium exceed the limitations herein prescribed, and such Budget Act be not passed by such two-thirds vote, the several items of appropriation therein shall be deemed reduced by that percentage which the excess amount of the appropriation bears to the total appropriation"

An analysis of Assembly Bill No. 1800, as amended April 9, 1941, indicates that if the Budget Bill is passed by less than a two-thirds vote the items of appropriation therein from the General Fund that are subject to reduction will each be reduced approximately 77 per cent.

The exact percentage could be determined only by litigation of the question since the meaning of the provisions of Section 34a of Article IV has never been passed upon by the courts However, we believe that 77 per cent is substantially correct and that, regardless of interpretations the variation therefrom would not amount to more than a very few percentage points

Even if it is assumed that the reduction applies not only to the General Fund *items in the Budget but to all continuing appropriations from the General Fund* for the coming biennium that might be included in the Budget such as for payment of interest and bond redemption, aid to the blind, aid to the aged, etc., the percentage of reduction of each item would total 37.849 per cent. We do not subscribe to the correctness of this interpretation of Section 34a of Article IV but cite it here merely for the purpose of showing the minimum amount of reduction of the items of appropriation under any possible interpretation of the Constitution

Attached hereto is a statement showing the figures used in determining that passage of the Budget Bill by less than a two-thirds vote will result in a reduction *in the General Fund items of approximately 77 per cent.*

Explanations of Vote

We, as loyal Americans, are willing to bow to a majority vote upon any main question. However, when the majority provides nothing for support of the Central Valley Project, which has had financial support from the State for many years, and when we propose amendments to continue such financial support for the project, and when said amendments are tabled without reading and thereby prevents us from presenting our cause, we believe it is a moral wrong to the people of California.

J. EDWARD CAIN
HUGH M. BURNS
LLOYD W. LOWREY

We, the undersigned, have voted against the Budget Bill, Assembly Bill No. 1800, for the reason that it is clearly and grossly insufficient in amount in many respects, but above all because it is a financial strait jacket in that it is a line item or so-called group item budget.

We can not and will not vote for Assembly Bill No. 1800 with the existing arbitrary and unjustifiable reductions and with appropriations frozen to prevent transfers for economy and efficiency. Our attempts to properly amend it were prevented by parliamentary maneuvering. Passing it with less than 54 votes is the responsibility of those voting for it.

RESOLUTIONS

The following resolution was offered:

By Mr. Garland:

House Resolution No. 186

Relative to the creation of a Legislative Committee, to be assisted by leaders in labor, agriculture, business and industry, to make a thorough study of economic conditions in the State of California, and to formulate a Legislative Program designed to protect this State from the economic and social effect of those depressions which ordinarily follow a period of artificial prosperity created by defense spending and the participation of other nations in war.

WHEREAS, This State and the Nation as a whole are now experiencing a period of rapidly expanding business activity with corresponding increases in employment due to the National Defense Program and the purchase in this country of the materials of war by belligerent nations; and

WHEREAS, The maladjustment of economic conditions and the severe business depression with its consequent unemployment which followed the cessation of hostilities in the last World War provides a grim reminder of the necessity for the formulation of long-range plans which will cushion the economic shock of the termination of the present war and the spending of billions of dollars for National defense, and

WHEREAS, History has demonstrated that it is the laborer and his family and the farmer and his family who first feel the effects of business recession, and if employment and business activity are to be maintained at the highest possible level after the defense program ends, plans must be made to:

(a) Absorb defense industry workers in peacetime enterprises and to that end the development of new industries and new uses for agricultural products must be stimulated and encouraged; and

(b) Develop new markets for the products of California industries and farms; and

(c) Provide adequate vocational training for the youth of today in peacetime pursuits; and

(d) Provide permanent housing and educational facilities to accommodate the population shifts caused by the migration of workers to those industrial centers where defense industries are located; and

(e) Provide for a constructive program of industrial and agricultural development which will assure the gainful employment of all able-bodied persons; and

(f) Provide an economical and efficient, yet adequate program for the care of all needy persons including the physically handicapped; and

(g) Make adequate provision for the aged in order that workers may be assured of security for themselves and their families in old age; now, therefore, be it

Resolved by the Assembly of the State of California, That a committee, designated "The Legislative Committee on Economic Security," consisting of 15 members of the Assembly appointed by the Speaker of the Assembly, is hereby created, which committee shall, and it is hereby authorized to, gather, assemble, study and analyze all facts relating to any and every phase of the matters specified in this resolution and of the economic and social conditions in the State of California, both as those conditions exist during periods of intense activity in agriculture, business and industry and as those conditions exist in periods of severe business depressions, all with a view to formulating a plan and preparing and submitting such legislative measures as will enable the State to bring about and assure the least possible maladjustment of economic and social conditions following the cessation of defense activities after the present European War, to which end the committee shall, except when inconsistent with this resolution, have and exercise all the powers, duties, and privileges conferred upon committees by Rule No. 35 of the Joint Rules of the Senate and Assembly for the Fifty-fourth Session (and the provisions of said Rule No. 35 as they exist on the adoption of this resolution are, to the extent not inconsistent with this resolution, hereby incorporated herein and made a part hereof as though set forth in full in this resolution), and shall also have and exercise the duty and power:

(1) To create subcommittees from its membership, assigning to the subcommittee any study, inquiry, investigation or hearing which the committee itself has authority to undertake or hold, and the subcommittee for the purpose of this assignment shall have and exercise all of the powers conferred upon the committee limited by the express terms of the resolution or resolutions of the latter defining the powers and duties of the subcommittee, which powers may be withdrawn or terminated at any time by the committee;

(2) To contract with such other agencies, public or private, as it deems necessary for the rendition and affording of such services, facilities, studies and reports to the committee as will best assist it to carry out the purposes for which it is created;

(3) To make a complete study, survey and investigation of every phase of the subject of this resolution, including but not limited to the operation, effect, administration, and enforcement of any and all laws in any wise bearing upon or relating to the subject of this resolution;

(4) To act during this session of the Legislature, including any recess hereof, and after final adjournment hereof, and to report its findings and recommendations to the Assembly and to the people from time to time and at any time and to make its final report to the Assembly at the Fifty-fifth Session of the Legislature on or before March 15, 1943; and be it further

Resolved, That every department, commission, board, agency, officer and employee of the State Government and of any political subdivision, county, city, or public district of or in this State shall furnish the committee and any subcommittee, upon request, any and all such assistance, and information, records and documents as the committee or subcommittee deems proper for the accomplishment of the purposes for which the committee is created; and be it further

Resolved, That the members of the committee shall serve without compensation but shall be allowed mileage at the rate of five and one-half cents ($0.055) per mile each way incurred in connection with their services upon the committee and other actual and necessary expenses for living accommodations and meals, incurred in connection with their services upon the committee, or in lieu of such expenses for accommodations and meals an allowance of eight dollars ($8) per day; and be it further

Resolved, That the sum of fifteen thousand dollars ($15,000) or so much thereof as may be necessary is hereby made available from the Contingent Fund of the Assembly for the expenses of the committee and its members and for any charges, expenses or claims it may incur under this resolution, to be paid from the Contingent Fund of the Assembly and disbursed, after certification by the chairman of the committee, upon warrants drawn by the State Controller upon the State Treasurer; and be it further

Resolved, That an Advisory Committee to the Legislative Committee is hereby created, to consist of _____ nonlegislator members, appointed by the Speaker of the Assembly, the appointees to include industrial, Military, Naval, aeronautical, transportation, employment, vocational training and scientific experts, and representatives of labor and of agriculture to advise, aid, and counsel the Legislative Committee in the studies conducted by the latter in carrying out the purposes of this resolution, the Advisory Committee to have and exercise such powers and duties as shall be defined from time to time by the Legislative Committee, within the scope of the powers and duties committed to the latter by this resolution.

Resolution read, and referred to Committee on Rules.

Remarks by Mr. Kellems

MOTHERS OF CALIFORNIA AND THE NATION

The spring sun hesitated half an hour above the city as I climbed to the summit of a little skull-shaped hill outside the north wall of Jerusalem. On the road which paralleled the wall in front of me, a flock of fat-tailed sheep scurried along in a cloud of dust behind their shepherd, a tall Bedouin from beyond the Jordan.

Over near the Damascus gate a long camel-train swayed into view. It had come down from Galilee and Samaria and sweat-covered beasts and men were terribly weary. The lead camel grumbled wrathfully in his throat at the indignity of his long day of burden-bearing. Over to the left Mt. Scopus reared his historic head; the new buildings of the Hebrew University standing out sharply on the higher slopes. On the lower reaches of the mountain hundreds of white crosses gleamed in the failing light. Here rest the brave sons of Mother Britain and her grandsons from the lovely lands of the Southern Cross who, in order that Palestine might be free from the Turk, had gone to their Calvary. Beyond Scopus, and but a continuation of it, smiled that hill beloved around the world, the Mount of Olives, while from its feet tumbled down in successive waves the tawny hills of the wilderness of Judea to the green ribbon of Jordan and the sea of death—dreadful region of desolation shunned by man and beast. No fish swims in these cobalt waters; no bird flies across this sheet of burnished steel. Only cliffs of marl gloom over its desolate shores, while high above all, Mt. Nebo lords the world.

"On yon side of Jordan's wave, in a vale in the land of Moab
Where lies a lonely grave.
And no man built that sepulchre, and no man saw it
Ere an angel of God upturned the sod and laid the dead man there."

At the foot of Nebo now, the sea was stained with reflected red from the last rays of the dying sun. From the tall tower on the English Church the clock chimed the hour. The sun had set and I had come to Calvary.

It was very quiet on this little hill and the hum of the oriental city beyond the grey wall seemed far away. Scores of crude Mohammedan tombs sprawled over the bald skull of Golgotha—an alien race who knew not the man who died here upon a Roman cross 2,000 years ago.

As I read again the records of that crucifixion as they are preserved for us in our Christian Gospels, there came to me a picture infinitely divine; tenderly human. The fever-blurred eyes of the tortured man upon the cross looked down upon the kneeling form of the weeping woman at his blood-stained feet. Gentle were his words, "Woman, behold thy son." Turning to John, his beloved Disciple, "Son, behold thy mother" "From that day," continues the inspired writer, "John took her to his own house."

My own mother was far away awaiting the return of her son in her safe and quiet home beside the laughing waters of our warm Pacific sea; and in that moment of holy experience there came to me a vision of a million mothers in our California, and of the millions of others in our proud land stretching far to where the long Atlantic rollers "lash a stern and rock-bound coast." Millions of American mothers blest by the experience of Calvary; for in the highest moment of human history, the very son of God bowed his dying head to the glory of motherhood. Ineffable glory! For woman became the mother of God. St. Paul marveled at the miracle when he wrote of the Christ, "born of woman and made under the law that he

might redeem them that were under the law, that we might receive the adoption of sons."

Mothers know the meaning of Calvary, for Calvary is sacrificial love even unto death. Calvary is the giving of self because of pure and holy love. The nearest synonym we have for divine love is the word "Mother."

We know not, today, how soon our Nation may be called to tread its way through the dreadful valley of the shadow of death. With each passing hour the storm gathers fury and ever nearer to our devoted shores comes the clash and clangor of arms. Evil forces stride through the nations in seven league boots and freedom's holy light has become dust and ashes on many a sacred altar. These are days when strong men shall become stronger as they remember the unassailable courage and the unswerving devotion of mother.

Once again our beloved America has been called upon to turn from the pleasant paths of peace to the iron ways of war. And once again have our California mothers, as have the mothers of our unconquerable Nation, arisen in their might and offered their sons, their wealth and their sacred honor upon the holy altar of American freedom. Brave daughters of brave pioneer mothers, they will not falter though the road lead up the hill of Calvary.

"Son, behold thy mother"—remember this word from the cross. Remember your mother today while I reverently utter a tribute to mine. She is a pioneer mother, for Oregon was young when, as a little girl, she crossed the towering Siskiyous in a covered wagon to make the lovely Willamette Valley her home. Six sons and one beautiful daughter gladdened that home. For 42 years she has taught in a fine Christian College and thousands of students all over the world tenderly call her "Mother." She climbed the hill of her Calvary when Kenneth went down with his ship, the first man in his State to make the supreme sacrifice in the World War. When his broken body was brought home it was buried on the little green hill overlooking the ivy-clad buildings of the university, where the fir trees sigh in the winds from off old Pacific's bosom. When the salute had been fired over the newly-heaped mound and the mournful notes of taps had died away among the firs, she made one statement and quietly returned to her work: "My son has died as a soldier should die. My heart is proud and my prayer for all my sons shall be that they will never hesitate when our Country calls them but will follow the example of their brave brother in peace and war. I would rather see them all lying here beside him than that their honor should be tarnished or that Freedom should call them in vain." Thus speaks the pioneer mother. Thus will speak the California mother. Thus will speak the mothers of the Nation. "Son, behold thy mother."

Remarks by Mr. Pfaff

THE MEANING OF MEMORIES

Do you remember that poet of a bygone day who expressed the secret yearning of every heart when he plaintively prayed:

"Backward, turn backward, oh, time in your flight—
Make me a boy again, just for tonight"

We all enjoy to revive and relive again in memory the days of our childhood. We remember that sturdy, brave little lad, who feels very much a man and who resents any well-meaning adult calling him "little boy," quickly cry for his mother when he suddenly experiences severe gastronomical pains after eating green apples in defiance of mother's warnings. We remember the little girl in pigtails who tearfully seeks solace in mother's arms when that wicked neighbor boy slyly dipped the tip of her blonde pigtail in the school inkwell.

As we travel along life's pathway, we encounter experiences that are the threads with which we weave the pattern of our personality and character. Some of these experiences leave memories that are bitter—some that are sweet. And as the years pass by many memories grow dim and fade away. But memories of mother seem to grow more green with each passing year. We are constantly reminded that these ever-present memories have a meaning that influences our every thought and action, for every mother leaves the imprint of her personality upon her child. And the memories of mother become the meaning of our lives.

We remember today that lonely frontier boy, Abe Lincoln, whose mother died when he was only nine years old. Yet throughout the years he carried the memory of her ways and teachings with him and later, when he received the highest honor the people of the United States can bestow upon one of its citizens, Abraham Lincoln declared, "All that I am, or hope to be, I owe to my angel mother."

There is an old saying that, "Treat a man as a thief and he will steal; treat him as a hero and he will do great deeds." Our mother is one person who never loses confidence in us, whose loyalty never wavers, to whom no sacrifice is too great, whose son is always a hero in her eyes. And it is our mother who will follow us down the tragic road of despair and defeat and ruin to the last cruel gate when all others have turned aside.

We remember today the little songs mother taught us and how beautiful they sounded when she softly sang them in her low voice. We remember all the little gems of wisdom and philosophy she imparted which became a part of our code of

behavior. And we also remember that our successes and failures were always first told to mother, because we knew no one would be so sincerely overjoyed at our success, and none who would so sympathetically understand our failure.

When we hear the leaders of our State and Nation relating unforgettable experiences in their lives, they invariably recount some simple story about their mother. I recall a beautiful and touching story told by our Governor Olson. His mother was devoted to her many children. She was deeply religious and was ever ready to help the less fortunate in the community.

"Among the unforgettable incidents in my life," said Governor Olson, "was one in connection with my mother's many admonitions on righteous conduct which made a deep and lasting impression on me. I recall the scene as though it were yesterday. My mother stood at the gate of our village home with sad misgivings and tears streaming down her cheeks. At the tender age of 11, I was leaving home and mother for the first time to go to a large city, many miles away, where I was to be employed. Her last words to me at that parting were, 'Always do what is right, Culbert, no matter what others may do, and God will protect you from harm.'"

How many of us remember a similar scene as we set forth into a new world to make our way in life. We all had a strange emptiness in our heart, yet we also felt strengthened to face the future because of our mother's confidence and faith.

And when that fateful hour approaches when our mother quietly slips away to endless sleep, leaving to us a legacy of a thousand and one sweet meaningful memories—when that time of parting comes—she calls out for her son and when he comes, her face lights up with happiness and looking up at him, as did the mother of Oliver Cromwell, she says, "My dear son, I leave my heart with thee; good night."

This Mother's Day we here celebrate assumes a greater significance to us—a deeper meaning in these dark days of Western civilization. Mother signifies and represents to us those finer virtues of charity, justice, humanity, and peace which we strive to exemplify as characteristic of our American way of life

Let us take note that—in those foreign countries where human rights have been abrogated, racial minorities persecuted, and all democratic processes destroyed—the State has supplanted the influence and guidance of mother

Let us here today rededicate our lives to those spiritual principles learned at our mother's knee, for, so long as America exalts its mothers, we need have no fear of the permanence and perpetuation of our democratic institutions.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 9, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Assembly Bill No. 2049 entitled "An act to add Section 65 of the Alcoholic Beverage Control Act, relating to the age of whiskey sold at retail."

My objections to this bill are as follows.

The theory of the bill seems to be that blended whiskey containing less than 20 or more per cent of four-year old straight whiskey is so deleterious that the stomachs of California consumers should be protected against it. The bill would prohibit the sale of such blends in California but not the sale of corn whiskey, when so labeled, or other liquor products or blends thereof with other materials or Scotch whiskies.

Whether, and to what extent, this bill might reduce the injurious effect of drinking whiskey, blended or otherwise, is not at all clear to me. I have no recommendation in favor of the bill by the Department of Public Health or any other competent authority from the standpoint of health protection. It may be that straight, unblended whiskey that has been aged in charred oak containers for four years or more after distillation would be more palatable and possibly less injurious for steady use than the blend of raw spirits and prune juice with a percentage of straight whiskey; but since 80 per cent of the whiskies to which this bill applies may be made up of other materials, and in view of the exceptions contained in the bill, I do not feel that it would result in any general improvement of the qualities of liquor consumed in California. If we are prepared to fix the qualities and standards of whiskies and other liquors that may be lawfully sold in California, then I think we

should do so on the basis of scientific analysis, and effectively prevent the sale of any liquor which, upon such analysis, is found to be so deleterious as to be seriously injurious or dangerous to health

I have received protests against this bill from the Governors of several States, on the ground that it is in effect a trade barrier bill, and that if it becomes a law, *retaliatory measures against California products sold in those States may follow.* Attention is called to the fact that no other State has such requirements as are contained in this bill; that the Federal Government authorizes the use of the term "straight whiskey" at the age of two years, and that while the Governments of the several States are endeavoring to eliminate any and all State legislation that would, in its operation, result in discrimination and therefore be classed as trade barriers, further progress in that direction would be hampered by legislation of this kind

I have also received numerous telegrams from California producers of agricultural products, protesting against this bill and advising me that retaliatory measures are being considered in other States should this bill become a law. I feel that these protests are not without reason and that we should respect them.

Furthermore, it seems to me that any immature spirits acts should be Federal legislation and thus be uniform throughout the country

Respectfully submitted

CULBERT L. OLSON, Governor of California

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 9, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith without my signature Assembly Bill No. 860, entitled "An act to amend Section 3090 of the Civil Code, relating to negotiable instruments payable to bearer".

My objections to this bill are as follows:

The bill would amend Section 3090 of the Civil Code to broaden the definition of "bearer paper", in connection with the law of negotiable instruments. Under this bill a check would become "bearer paper" even though the named payee was a living person, if it could be shown that an employee who was responsible for the naming of the payee, even though he did not sign the check, knew that the named payee had no interest therein. Thus, if an employee furnished the name of a living person to his employer, representing that such person was on the payroll of the employer when in fact he was not, and succeeded in having a check drawn to such person, *a bank could cash such check for the dishonest employee, and the employer* would have no recourse against the bank. In my opinion a bank should be responsible in such a case.

While, under the present law, a bank is protected where the named employee is fictitious or nonexisting, and such fact is known to the person making the check so payable, this bill would extend such nonresponsibility to the case of a check made payable to an existing person where such person had no interest therein It would also extend the nonresponsibility to cases where the name of the payee was supplied by the employee or other agent even though such employee or other agent did not sign the check. In my opinion this is undesirable I see no reason why a bank can not protect itself by requiring an indorsement of a responsible person to whom it can look in the event the check can not be charged against the account of the depositor, in the same manner that it protects itself when the payee of the check is a living person beneficially interested therein.

This bill contains all of the objectionable provisions of Assembly Bill No 1235 of the 1939 Session, which was returned without my signature, and in addition goes further than the 1939 bill as above pointed out.

Respectfully submitted

CULBERT L OLSON, Governor of California

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 10, 1941

To the Honorable Members of the Assembly
State Capitol, Sacramento, California

GREETINGS: Pursuant to the provisions of Section 312 of the Political Code of California, you are hereby notified that on the tenth day of May, 1941, at 6.20 p.m., Assembly Bill No. 41 was returned without my signature and, together with a statement of my objections thereto, was delivered to Honorable John D. Welch, Member of the Assembly.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 10, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Assembly Bill No. 41, entitled "An act to add Section 7.3 to the Alcoholic Beverage Control Act, relating to licenses for sale of alcoholic beverages."

My objections to this bill are as follows.

This bill provides that nothing in the act amended shall be construed as prohibiting the holder of a license to sell intoxicating liquors for consumption on the premises from subleasing the restaurant, or other food-purveying facilities in the premises covered by his license, or from otherwise contracting with another person for the operation and maintenance of such facilities. Applications for permission to so sublet or contract must be made to and approved by the Board of Equalization, and the board is given power to deny any such application upon any ground for which an application for license may be denied.

Section 22 of Article XX of the State Constitution relating to intoxicating liquors, reads in part as follows:

> "Intoxicating liquors, other than beers, shall not be consumed, bought, sold or otherwise disposed of for consumption on the premises, in any public saloon, public bar or public bar room within the State; provided, however, *that subject to the aforesaid restriction*, all intoxicating liquors may be kept and may be bought, sold, served, consumed, and otherwise disposed of in any *bona fide* hotel, restaurant, cafe, cafeteria, * * *" (Emphasis supplied.)

Section 18 of the Alcoholic Beverage Control Act provides that on-sale licenses shall be issued only

"to bona fide hotels, restaurants, cafes," etc

It is apparent that the people of the State, in approving the constitutional provision above quoted, intended that on-sale liquor licenses should be issued to bona fide hotels, restaurants, etc

In my opinion, this bill would attempt to avoid that intention by permitting the food-purveying facilities to be run independently of the on-sale liquor business, although within the same premises. The use of the words "bona fide" in the above constitutional provision, in my opinion, contemplates the existence of a business which would operate even though liquor were not to be sold in connection therewith. This bill would tend to encourage the operation of on-premises liquor dispensing businesses with a small eating business sublet or run by a sublessee, as a side line.

Furthermore, the bill contains no specific provision as to the responsibility of the licensee, in the event the sublessee fails to maintain a bona fide food-purveying business; nor does it specifically vest in the Board of Equalization any authority to require the cancellation of any sublease, in the event the sublessee does not maintain a bona fide eating place.

While this bill may not come literally within the prohibition of the constitutional provision, I believe it violates the intent thereof. I further believe that the full responsibility to insure that a bona fide hotel or eating place is conducted on the premises in which on-sale liquor business is exercised, should be upon the licensee, as is apparently now provided in Section 18 of the act above quoted, and that legislation of this nature that might enable the licensee to shift or possibly escape that responsibility, should not be enacted.

There is an additional consideration which may have been overlooked by the Legislature. This bill will permit the division of what is ordinarily a single business in such a manner that the Unemployment Insurance Act may be avoided, and the employees of such establishments be denied the benefits thereof.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 13, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Assembly Bill No. 310 entitled "An act to amend Sections 3931, 3933, 3934 and 3935 of, and to add Sections 3930.5 and 3935.5 to, the Elections Code, relating to the order of names of candidates on primary ballots."

My objections to this bill are as follows:

This bill provides that the names of the incumbent shall appear first upon the list of all candidates for nomination to any office on the primary election ballot, while the names of other candidates shall be listed alphabetically in the first and rotated in each succeeding Assembly district after the first in State-wide primary elections.

The purpose of that part of this bill would seem to be to give an advantage to an incumbent who is a candidate for reelection by having his name placed first on the list of all candidates on all ballots in all districts. I see no reason why an incumbent should be given any greater advantage on a primary election ballot than the advantage he already has of having the fact that he is an incumbent set opposite his name wherever it appears on the ballot, if that be an advantage. I realize that under the present law an incumbent in the general election has the advantage of first place on the ballot, but this criticism goes to that provision of the general law as well as this bill.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

Assembly Bill No. 310 ordered to unfinished business file

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 13, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Assembly Bill No. 1114, entitled "An act to amend Section 384a of the Penal Code, relating to the unauthorized removal of plants and other substances from public or private lands or rights of way."

My objections are to the following provision of this bill.

> "Upon any sale of Christmas trees, whether at wholesale or retail, a bill of sale shall be delivered to the purchaser which bill of sale shall show the number of trees involved and contain an appropriate and accurate reference to the permit by which the cutting of the trees was authorized, with names, dates, and description of the land involved in such permit."

I believe this provision is impractical in view of the manner in which retail sales of Christmas trees is necessarily carried on, and that this provision should be deleted from the bill before it becomes a law.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

Assembly Bill No. 1114 ordered to unfinished business file.

Assembly Bill No. 959

And respectfully requests your honorable body to concur in said amendments.

J. A. BEEK, Secretary of the Senate
By JOHN F. LEA, Assistant Secretary

CONSIDERATION OF SENATE AMENDMENTS

Assembly Bill No. 959—An act to add Section 845.2 to the Fish and Game Code, relating to nets seized or violations of law.

The question being: Shall the Assembly concur in the following Senate amendment to Assembly Bill No. 959?

Amendment No. 1

In line 2 of the title of the printed bill, as amended, strike out "or violations of law", and insert "for violations of law, declaring the urgency of this act, to take effect immediately".

Amendment No. 2

On page 1 of the printed bill, as amended, after line 15, insert

"SEC 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health, and safety within the meaning of Section 1 of Article IV of the Constitution and therefore shall take effect immediately. The facts constituting such necessity are as follows:

Under the present provisions of law applicable thereto when nets of fishermen are seized on a charge of violating the laws relating to fish and game the nets must be held until the final disposition of the charge against the fisherman. The result of this is to deprive the accused of the use of the nets for an indefinite period regardless of his ultimate guilt or innocence, and, in all cases, prevents the use of the net by anyone during such period. The provisions of this act will permit the continued use of the nets and will serve the public purpose of keeping valuable nets in operation and thereby increasing the available supply of fish for human

consumption, thus materially adding to the food resources of the people of this State, and will further serve to prevent the impairment of earning power of the fishermen involved."

Said contract shall include the printing and publishing of all such legal notices during the ensuing fiscal year. COMMUNICATIONS

The following communication was received, and on motion of Mr. Lyon, ordered printed in the Journal:

SAN FRANCISCO EXAMINER—May 15, 1941

M. S. Rukeyser—Long Range Plan for Avoiding Post War Economic Crackup

International News Service Economic Commentator

NEW YORK, May 14—Speaker Gordon H. Garland, of the California Assembly, a dirt farmer, has initiated a movement on the west coast to look beyond the armament boom to postwar readjustment.

The objective, he points out, should be to maintain employment and economic activity "at the highest possible level" after the defense program ends.

Without regard to any pet panaceas, Speaker Garland proposed a broad fact-finding effort as a preliminary move from which a plan can be evolved for California and for the Nation for averting the slump which normally follows periods of "abnormal prosperity."

Referring to experience after the last war, in a letter to the assembly rules committee, Mr. Garland observed: "I am certain that each and every member of the committee on rules, as well as the members of the legislature clearly recall the maladjustment of economic conditions following the cessation of activities after the last World War. Not only did labor suffer untold hardship and privation due to lack of employment, but industry and business as well suffered one of the most devasting reversals of the history of our Nation These conditions undoubtedly resulted in part from a lack of foresight and planning at that time"

Thus, Mr. Garland's thinking parallels that of Frank Altschul, New York investment banker, who has written a book urging the appointment by President Roosevelt of a nonpartisan supreme economic council to cushion the shock of postwar conditions, and of William L Batt, Philadelphia industrialist and member of the Office of Production Management at Washington.

I am thoroughly in sympathy with these essays at intelligent foresight, and think that, if properly set up, they can be genuinely constructive

In order to be of any value, however, they must start out with a recognition of the fact that postwar effects are in large measure the inevitable sequel to war time causes. Thus, the way to mitigate postwar troubles is to proceed at this time wisely and deliberately. The basic point is that we are now setting the stage for the postwar drama. We cannot make current blunders without inviting the consequences later.

And, from a practical standpoint, a great economic mobilization in war time necessarily disturbs equilibrium, and the only sensible objective is to seek to minimize the unnecessary interference with a healthy economic life. Rash melodramatic war time economic decisions by inefficient amateurs only serve to pile up additional and unnecessary troubles for the future

Yet, even with expert fact finding and supremely competent economic management of national affairs, we can not hope to escape the cost of the broad effort for National defense and aid to the democracies, the sensible course is to seek to delimit the adverse consequences to our economy of the temporary abnormal diversion of part of the productive power of the Nation.

And it takes a delicately adjusted intelligence to reconcile a current "all out" effort with a decent regard for the longterm future economic welfare of the Nation

Setting up State-wide and Nation-wide agencies to study the subject can have beneficial results The minimum result will be to disseminate a consciousness of the desirability of thinking beyond the emergency to the ultimate "outbreak of peace."

Research can be helpful in piling up new peace time projects and products to take up the slack. It will help employers in the postwar period to shift men rapidly from making "lethal weapons" to producing more and better civilian goods.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 8, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS

ASSEMBLY BILL NO. 74

"An act making an appropriation for the eradication of Dourine, a communicable disease of horses, mules, and asses; amending Section 182 of, and adding Section 207.7 to, the Agricultural Code, relating to animals affected with Dourine; and declaring the urgency thereof."

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await final enactment of the Budget Bill.

Respectfully submitted,

COMMUNICATIONS

The following communication was received, and on motion of Mr. Hugh M. Burns, ordered printed in the Journal:

CALIFORNIA CODE COMMISSION
Sacramento, California, May 10, 1941

Hon. Hugh M. Burns, Assembly Chambers
State Capitol, Sacramento, California

SUBJECT: Senate Bill No. 360

DEAR MR. BURNS: This bill, among other things, codifies the Cartwright Anti-Trust Act. As indicated in the Code Commission's report of January 11, 1941, at pages 10 and 11, a special problem is presented because of a possible invalidity of the 1909 amendments, or of a portion thereof, to the Cartwright Act, a question not yet determined by our courts.

Accordingly, the commission included in the article which codifies this act a certain declaration as to separability (the first two sentences of Section 16701) calculated to preserve this question for determination by the courts, as explained in said report of the commission.

Subsequent to introduction of Senate Bill No. 360, it developed that this clause could be strengthened by amplification. This was done upon recommendation of the commission by the amendment of April 2, 1941, adding a sentence to said section, the last sentence of Section 16701 in its present form. In addition, upon recommendation of the commission and in furtherance of the same purpose, the express repeal of the Cartwright Act has been deleted from the bill. This was done on April 18, 1941.

Through this means, the Cartwright Act can be codified with assurance that the question as to the constitutionality of the 1909 amendments to that act can be considered and determined by the courts with the same effect in law after codification as prior to codification.

Very truly yours,

CALIFORNIA CODE COMMISSION
By FRED B. WOOD, Secretary

Committee on Rules

ASSEMBLY CHAMBER, SACRAMENTO, May 15, 1941

MR. SPEAKER Your Committee on Rules, to which was referred

House Resolution No. 186

Has had the same under consideration and reports the same back with the recommendation. Be adopted

LYON, Chairman

CONSIDERATION OF HOUSE RESOLUTION NO. 186

By Mr. Garland:

House Resolution No. 186

Relative to the creation of a Legislative Committee, to be assisted by leaders in labor, agriculture, business and industry, to make a thorough study of economic conditions in the State of California, and to formulate a legislative program designed to protect this State from the economic and social effect of those depressions which ordinarily follow a period of artificial prosperity created by defense spending and the participation of other nations in war.

WHEREAS, This State and the Nation as a whole are now experiencing a period of rapidly expanding business activity with corresponding increases in employment due to the National Defense Program and the purchase in this country of the materials of war by belligerent nations; and

WHEREAS, The maladjustment of economic conditions and the severe business depression with its consequent unemployment which followed the cessation of hostilities in the last World War provides a grim reminder of the necessity for the formulation of long-range plans which will cushion the economic shock of the termination of the present war and the spending of billions of dollars for National defense; and

WHEREAS, History has demonstrated that it is the laborer and his family and the farmer and his family who first feel the effects of business recession, and if employment and business activity are to be maintained at the highest possible level after the defense program ends, plans must be made to

(a) Absorb defense industry workers in peacetime enterprises and to that end the development of new industries and new uses for agricultural products must be stimulated and encouraged; and

(b) Develop new markets for the products of California industries and farms; and

(c) Provide adequate vocational training for the youth of today in peacetime pursuits; and

(d) Provide housing and educational facilities to accommodate the population shifts caused by the migration of workers to those industrial centers where defense industries are located; and

(e) Provide for a constructive program of industrial and agricultural development which will assure the gainful employment of all able-bodied persons; and

(f) Provide an economical and efficient, yet adequate program for the care of all needy persons including the physically handicapped; and

(g) Make adequate provision for the aged in order that workers may be assured of security for themselves and their families in old age; now, therefore, be it

Resolved by the Assembly of the State of California, That a committee, designated "The Legislative Committee on Economic Security," consisting of 15 members of the Assembly appointed by the Speaker of the Assembly, is hereby created, which committee shall, and it is hereby authorized to, gather, assemble, study and analyze all facts relating to any and every phase of the matters specified in this resolution and of the economic and social conditions in the State of California, both as those conditions exist during periods of intense activity in agriculture, business and industry and as those conditions exist in periods of severe business depressions, all with a view to formulating a plan and preparing and submitting such legislative measures as will enable the State to bring about and assure the least possible maladjustment of economic and social conditions following the cessation of defense activities after the present European War, to which end the committee shall, except when inconsistent with this resolution, have and exercise all the powers, duties, and privileges conferred upon committees by Rule 35 of the Joint Rules of the Senate and Assembly for the Fifty-fourth Session (and the provisions of said Rule 35 as they exist on the adoption of this resolution are, to the extent not inconsistent with this resolution, hereby incorporated herein and made a part hereof as though set forth in full in this resolution), and shall also have and exercise the duty and power

(1) To create subcommittees from its membership, assigning to the subcommittee any study, inquiry, investigation or hearing which the committee itself has authority to undertake or hold, and the subcommittee for the purpose of this assignment shall have and exercise all of the powers conferred upon the committee limited by the express terms of the resolution or resolutions of the latter defining the powers and duties of the subcommittee, which powers may be withdrawn or terminated at any time by the committee;

(2) To contract with such other agencies, public or private, as it deems necessary for the rendition and affording of such services, facilities, studies and reports to the committee as will best assist it to carry out the purposes for which it is created;

(3) To make a complete study, survey and investigation of every phase of the subject of this resolution, including but not limited to the operation, effect, administration, and enforcement of any and all laws in anywise bearing upon or relating to the subject of this resolution;

(4) To act during this session of the Legislature, including any recess hereof, and after final adjournment hereof, and to report its findings and recommendations to the Assembly and to the people from time to time and at any time and to make its final report to the Assembly at the Fifty-fifth Session of the Legislature on or before March 15, 1943; and be it further

Resolved, That every department, commission, board, agency, officer and employee of the State Government and of any political subdivision, county, city, or public district of or in this State shall furnish the committee and any subcommittee, upon request, any and all such assistance, and information, records and documents as the committee or subcommittee deems proper for the accomplishment of the purposes for which the committee is created; and be it further

Resolved, That the members of the committee shall serve without compensation but shall be allowed mileage at the rate of five and one-half cents ($0.05½) per mile each way incurred in connection with their services upon the committee and other actual and necessary expenses for living accommodations and meals, incurred in connection with their services upon the committee, or in lieu of such expenses for accommodations and meals an allowance eight dollars ($8) per day; and be it further

Resolved, That the sum of fifteen thousand dollars ($15,000) or so much thereof as may be necessary is hereby made available from the Contingent Fund of the Assembly for the expenses of the committee and its members and for any charges, expenses or claims it may incur under this resolution, to be paid from the Contingent Fund of the Assembly and disbursed, after certification by the chairman of the committee, upon warrants drawn by the State Controller upon the State Treasurer; and be it further

Resolved, That an Advisory Committee to the Legislative Committee is hereby created, to consist of nonlegislator members, appointed by the Speaker of the Assembly, the appointees to include industrial, Military, Naval, aeronautical, transportation, employment, vocational training and scientific experts, and representatives of labor and of agriculture to advise, aid, and counsel the Legislative Committee in the studies conducted by the latter in carrying out the purposes of this resolution, the Advisory Committee to have and exercise such powers and duties as shall be defined from time to time by the Legislative Committee, within the scope of the powers and duties committed to the latter by this resolution.

MOTION TO PRINT SPEECH IN THE JOURNAL

On motion of Mr. Turner, the following remarks by Mr. Pelletier, relative to House Resolution No. 186 were ordered printed in the Journal:

Remarks by Mr. Pelletier

MR. SPEAKER, MEMBERS OF THE ASSEMBLY. The world is passing through a titanic struggle for existence. A war of destruction goes on all about us today. Sooner or later every country of the world, including the United States, will be involved. What the end will be, no one can say.

We, as members of this Legislature, can do but very little to govern the destiny of mankind and prevent this destruction of life and property. We, on the Pacific Coast, can do very little to organize a new social order and guide the destiny of this great Nation without the help of all of America and all Americans. But we CAN do much to reorganize the social structure of the State of California, not only industrially, but socially and politically, and thereby maintain, in California, at least, a democratic and normal social order which is so important and vital in these times of stress and war overseas.

NOW is the time and CALIFORNIA is the place in which to program a workable plan of economy AT THE CONCLUSION OF THE PRESENT WAR. We must be brought to realize, and at once, the financial condition in which we have become involved, and the condition in which we inevitably will find ourselves, our economic condition, when the war in Europe comes to an end.

We now are spending over two billions of dollars for National defense in California alone. What are we going to do when this Nation-wide spending stops? Forty-seven other States likewise are participating in the great American orgy of spending good American dollars that are not yet even EARNED. What will be the outcome? What will be the condition of the National bookkeeping? What are we going to do when the National defense contracts are cancelled, when the National Defense Program is no longer necessary?

What are we going to do when our soldiers and sailors come home to take their rightful places in civilian life?

These questions, and many others, must be answered now, and there must be no waiting, no procrastination on our part—America must find the answers and find them NOW.

These problems must be solved before the conclusion of the present war in Europe if we are to escape the experience which was Spain's for 33 months—the destruction of life and property that would put our country back hundreds of years in progress, in prosperity, in health and population, and in the general welfare which the people of America have every right to expect as Americans.

We in California are very fortunate to be living in the richest State in the world. We have more diversified resources than has any other State in the Union, or any

other country in the world. God has not only blessed the great Commonwealth of California with beautiful scenery, but HE also has blessed us with brains and intelligence to develop the resources at hand that they may be applied to the best human needs in order that we may produce a beautiful land and a powerful people to inhabit that land. Let us live not only for the present, but for the FUTURE—a future to which our sailors and soldiers are to return—a future they are fighting now to insure and protect.

If Speaker Gordon Garland does nothing else during this Fifty-fourth Session of the Legislature than to start this program of postwar preparedness, a plan for economy and common sense at the conclusion of the present war, he will have won the respect and confidence of every man, woman and child in the State of California, as well as in the Nation.

Mr. Speaker, the members of the committee you are to appoint to serve in an effort to carry on a program of preparedness and prosperity following the war should be men who have a broad view of the problems of agriculture, of industry, and of labor. Only by appointing such men, capable and far-visioned, is such a program possible if it is to be a success.

Agriculture must be taken into consideration in this Plan-for-Economy Program, for *industry can not be divorced from agriculture.* The progress of industrial centers depends on the success of their agricultural districts Agriculture and industry can not be separated from labor and its problems, for in the last analysis the success of agriculture and industry depends in a large measure on labor. Labor is the large consuming power of the products of both, industry and agriculture, therefore, the higher the wage scale of labor the greater labor's power to buy back its own products This is a theory that has been greatly misunderstood by both agriculturalists and industrialists, but it is the only theory that will maintain our social structure if we are to survive during the critical postwar era that inevitably faces us as Americans whether or not we become embroiled in the European war or not.

In conclusion, let me say that the appropriation requested in this resolution is the best investment the Legislature of the State of California can make at this time. We are the only body of people in the State empowered to make an impartial investigation of conditions and to formulate an economical plan that will be of benefit not only to agriculture, to industry, and to labor, but to the entire State of California.

This work can not be accomplished without expenditure of money. This committee of loyal citizens may function willingly and gladly without compensation, but they must receive their expenses if this work is to be done, and this work MUST be done if we are to avoid economic catastrophe at the conclusion of this war.

2639 The department and every county is authorized to make grants to, and to receive and expend funds made available to both or either from, the Federal Government or any agency or department or board thereof for relief, work relief, rehabilitation or cooperation with the Federal Government for the relief of persons in need, and in this connection the department and every county shall cooperate with the Federal Government

Every county grant under this section constitutes a direct relief expenditure for which the State shall be responsible to the same extent as it is responsible for the direct relief costs in that county under subdivision (b) of Section 2652.

2640 Except as otherwise provided in this section, until budgets and standards are prepared by the department under Section 2559 and approved by the board of supervisors for the county, the board of supervisors may determine its own policies with reference to the resources and amount of relief a person may be permitted to have

When budgets and standards under Section 2559 are prepared by the department for the county, they shall be submitted to the board of supervisors and, within 30 days after the date of submission, the board of supervisors shall approve or reject in whole or in part such budgets and standards Those budgets and standards approved by the board of supervisors shall take effect upon the date of approval. All budgets and standards not approved within 30 days shall be deemed rejected.

Neither the representative of the department nor the county shall receive any compensation for his services as a member of the relief standards board but he shall be entitled to his expenses if otherwise entitled thereto by law The chairman of the relief standards board shall be paid twenty-five dollars ($25) per day with a minimum of one hundred dollars ($100), from the day the relief standards board convenes until the disputed budget and standards are taken under submission. While the budgets and standards are under submission, the chairman shall receive no compensation. He shall receive his actual and necessary expenses in an amount not to exceed eight dollars ($8) per day. All expenses of the relief standards board shall be borne 50 per cent by the State from the money available for expenditure under this chapter and 50 per cent by the county from county funds. Expenses incurred by a county for a relief standards board shall not be a county relief expenditure for which reimbursement may be had from the State.

The disputed budgets and standards shall be submitted to the relief standards board for hearing and decision. The relief standards board may approve, reject or modify the disputed budgets and standards. It may make its decisions by a majority vote and its decision shall take effect immediately, shall be final and shall be binding upon the department and the county

If the budgets and standards rejected by the board of supervisors are not agreed upon by negotiation or settled by the relief standards board within 60 days after submission to the board of supervisors, the department may put them into effect in the form submitted or modified by the department at any time after the expiration of 60 days from the date upon which the budgets and standards were submitted to the board of supervisors, and, if put into effect, shall be binding upon the county. If the department does put into effect any budgets and standards without the approval of the board of supervisors and it subsequently appears when the budgets and standards are finally determined, either by negotiation or by decision of the relief standards board, that higher direct relief costs have been imposed upon the county than would have been imposed had such budgets and standards as finally determined been in effect from the date upon which the budgets and standards determined by the department were imposed, the State shall reimburse the county for the full amount of the difference borne by county funds

2641. The provisions of Sections 114, 115 and 116 of this code do not apply to relief activities or to appropriations for expenditure under this chapter. The department and the counties may enforce the rights and obligations and powers and duties granted or imposed upon one or the other under this chapter and this code by appropriate actions at law or suits in equity.

Motion carried

Remarks by Mr. Dilworth

A life is a long time.

The journey of a man from the cradle to mature age is fraught with hardship, disappointment and adventure.

It is not surprising that those who start this life in the lap of luxury with every advantage, may arrive at the years of maturity in comfortable competence.

The pride of American history is the familiar story of distinguished American citizens who began life in the humble homes of rural life, men and women who have turned their difficulties into stepping stones, their hardships into sterling qualities of character and their adventure into wise and mature judgment.

Gordon Garland saw the first light of day in a log cabin on the Ozark farm of his parents. Step by step he made his way by diligent work and faithful service to achieve an honored place of esteem in his home community of Woodlake and in the entire State of California.

No small part of this esteem in which our Speaker is held is due to those qualities of kindliness and patience so evident in his daily life

In appreciation of the service and character of Gordon Garland it is fitting and appropriate that this evidence of our esteem and regard for him be presented to his devoted mother whose affection and guidance have been a daily blessing in his life.

MESSAGES FROM THE SENATE

SENATE CHAMBER, SACRAMENTO, May 16, 1941

MR. SPEAKER: I am directed to inform your honorable body that the Senate on this day passed:

Senate Bill No. 875
Senate Bill No. 1165

J. A. BEEK, Secretary of the Senate
By CHARLES W. BRANDT, Assistant Secretary

FIRST READING AND REFERENCE OF SENATE BILLS

The following bills were read the first time:

Senate Bill No. 875—An act to amend Sections 9 and 36 of the California Water Storage District Act, relating to voting in California water storage districts.

Referred to Committee on Irrigation.

Senate Bill No. 1165—An act to add Section 2.5 to the California Unemployment Relief Act of 1935, establishing a revolving fund for use in the operation of the Federal Stamp Plan, making an appropriation therefor, abolishing the revolving fund created by the Unemployment Relief Appropriation Act of 1940, declaring the urgency thereof, to take effect immediately.

Temporary Suspension of Assembly Rule No. 33

On motion of Mrs. Daley, Assembly Rule No. 33 was temporarily suspended by unanimous consent to allow the placing of a call of the Assembly on Senate Bill No. 1165.

Request for Unanimous Consent

Mrs. Daley asked for, and was granted, unanimous consent to take up Senate Bill No. 1165, at this time, without reference to committee or file.

CONSIDERATION OF SENATE BILL NO. 1165

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Senate Bill No. 1165:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 5, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS On March 18th I advised you that the appropriation contained in Assembly Bill No 253 was insufficient to cover unemployment relief needs for the fourth quarter of the current fiscal year and that the amount should have been $4,617,000 instead of $2,042,000, a difference of $2,575,000 (page 1031 of the Assembly Journal) You did not see fit to heed my recommendation and enacted this bill at the lower figure.

The present relief load of approximately 39,000 cases is 3,000 cases in excess of the best estimates of the Relief Administration and the Department of Finance, despite all efforts by the Administration and the Department of Employment to return persons on the rolls to private employment This is due to the facts that farm employment has been delayed by stormy weather and that the Work Projects Administration quotas have been drastically curtailed, reducing the number of cases closed by the SRA to the WPA and returning many of the cases eliminated by the WPA to the SRA rolls The WPA rolls have been reduced in excess of 14,000 cases in the past two months

Expenditures for the month of April total approximately $2,057,000 as against an original estimate of $2,044,000 Although expenditures for direct relief total $125,000 in excess of estimates, strict economy in administration and increased collections of board from WPA workers in single men's camps have held the net increase in total expenditures to approximately $13,000 The number of employees of the State Relief Administration has been reduced to 2,595 as of April 30th, (including approximately 200 separated as of the termination of their vacations), and the total administrative costs have been reduced to a much lower figure than at any previous date in the history of this agency

After reservation for April expenditures unpaid on May 1st, a balance of approximately $560,000 remains which is estimated to last until May 10th This does not include the amount of $650,000 set aside as a Federal Stamp Revolving Fund which the Attorney General has just advised is not available for expenditure or encumbrance for any other purpose

I therefore recommend again that an additional appropriation of $2,575,000 be granted immediately for the balance of the fourth quarter and that a separate revolving fund be appropriated to release the $650,000 mentioned above It appears that the first item can be best accomplished by Assembly Bill No. 1910 and the second by Senate Bill No 1165 One or both of these bills must be enacted into law by May 7th to prevent the stoppage of relief disbursements

You are therefore advised that ASSEMBLY BILL No 1910—

"An act making an appropriation for the relief of hardship and destitution due to and caused by unemployment, and to provide that this act shall take effect immediately"

and SENATE BILL No 1165—

"An act to add Section 2 5 to the California Unemployment Relief Act of 1935, establishing a revolving fund for use in the operation of the Federal Stamp Plan, making an appropriation therefor, declaring the urgency thereof, to take effect immediately,"

in my opinion constitute emergency bills within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await final enactment of the Budget Bill

Respectfully submitted

CULBERT L OLSON, Governor of California

COMMUNICATIONS

The following communication was received, and on motion of Mr. Pelletier, ordered printed in the Journal:

SACRAMENTO, CALIFORNIA, May 16, 1941

Honorable John B. Pelletier, Assemblyman, Fourty-fourth District
Assembly Chamber, State Capitol, Sacramento, California

DEAR SIR: In answer to your request with respect to the position of the commercial fishing interests in regard to Assembly Bill No. 1229, as amended, we desire to inform you they are in favor of the bill as it contains a compromise arrived at by the sportsmen, Fish and Game Department, and the commercial fishing interests operating on the Sacramento River

We, however, desire to state their position on Section 1 of the bill, as amended, which amends Section 697.5 of the Fish and Game Code, so that there will be no misunderstanding regarding their views.

The Attorney General has ruled, under the present law (Section 697.5), the fishermen must deliver striped bass, incidentally taken with shad and salmon, to State institutions at their own expense and without remuneration for the fish.

All the interested parties agree it would be unfair to expect the commercial fishermen to comply with this ruling. It was, therefore suggested to the commercial fishermen that they liberate all striped bass taken incidentally with shad and salmon. They agreed to this proposal under the circumstances, but only after they had exhausted every attempt to convince the sportsmen that it was very unwise to waste a valuable food fish which could be utilized for human consumption, especially in view of the fact there is an abundance of striped bass in the Sacramento River.

The commercial interests feel satisfied that within the next two years the advocates of Section 1 of Assembly Bill No. 1229 will be dissatisfied with the results which they intended to accomplish, and will themselves recommend the adoption of amendments, to utilize this valuable food fish, as suggested by the commercial interests.

We will appreciate very much if you will enter this letter into the legislative record so that the Legislature may know of our views regarding this matter.

Respectfully yours,

MATT BATINOVICH
Legislative Representative for I. F. A. W. A.
LLOYD TURNACLIFF
Legislative Representative for Wholesale Fish Dealers on Sacramento River

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO May 16, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS I am returning herewith, without my signature, Assembly Bill No. 1016, entitled "An act to amend Section 2931a of the Civil Code, relating to certain actions pertaining to real property"

My objections to this bill are as follows

This bill proposes to amend Civil Code Section 2931a At present Section 2931a provides that in the limited cases of actions to "foreclose a mortgage or other lien upon real property" the State may be made a party in order to determine the "priority" of all State tax liens, except the lien of real property taxes on the property affected This bill proposes, however, to authorize the State to be made a party to all actions brought *to determine conflicting claims to, or partition of, real property*, as well as actions to foreclose mortgage or other liens and deeds of trust, hence the State can be made party to all quiet title actions Further, the bill enlarges the scope of the action from one to determine the "priority" of State liens to one to determine the "*priority and effect*" of State liens

Under this bill there is no way that either the Attorney General or the Chairman of the Board of Equalization could determine what liens or other obligations held by the State of California would be affected by the action It might be a lien for franchise, inheritance, sales, or other taxes, or it might be a lien of a judgment obtained for the destruction of State property, such as a bridge, or the lien or other obligation might assume many other forms The lien for taxes or the judgment might have been obtained against some person other than the plaintiff in a quiet title action, and no search of State records would show the State's interest in the property covered by a quiet title action brought under the provisions of this bill It is possible that a title search might in some instances reveal the interest but this bill makes no provisions whereby the Attorney General or the Chairman of the Board of Equalization could pay for such a search by the title companies.

If this bill should become law, I have no doubt but that in the majority of quiet title actions the State would be made a party in order to clear up any question that might arise as to whether the State had a lien against the property affected by the actions and if it should be advisable to enact a law to permit quiet title actions against the State concerning liens or other obligations, provisions should also be enacted whereby the liens or other obligations affected would be specifically described so that the proper State officials could protect the interests of the State.

The wording of this bill which enlarges the scope of the action so that the court may determine the effect of State liens is so broad that under this bill it might be possible to collaterally attack the tax assessments which gave rise to the lien Ample provisions now exist in relation to State taxes so that their validity amount and like questions should not be adjudicated in quiet title actions

Respectfully submitted

CULBERT L. OLSON, Governor of California

Assembly Bill No 1016 ordered to unfinished business.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 16, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS I am returning herewith without my signature, Assembly Bill No 679, entitled "An act to amend the title of the act establishing a Probate Code, approved May 11, 1931, and to add new sections numbered 1435, 1435 1, 1435 2, 1435 3, 1435 4, 1435 5, 1435.6, 1435 7, 1435 8, 1435 9 and 1435 10 to Division 4, Chapter 11 thereof, relating to the management, control and disposition of the community real property and the homestead property of insane or incompetent persons, and to repeal Sections 172b, 172c, 172d 1269a, 1269b and 1269c of the Civil Code."

My objections to this bill are as follows

Sections 172b, 172c, and 172d, of the Civil Code now provide a procedure whereby where one spouse has been adjudicated insane or incompetent, the other spouse may petition the court for an order permitting the sale or encumbrance of community real property. Sections 1269a, 1269b, and 1269c, of the Civil Code, provide a means whereby a spouse may petition a court for an order permitting the sale or encumbrance of homestead property where the other spouse is insane or incompetent This bill repeals these sections of the Civil Code and reenacts some of their provisions into the Probate Code setting up a procedure which is uniform as to both community property and homestead property However, this procedure does not follow either the present law as to community property or the present law as to homestead property but borrows some provisions from the one and some from the other, and adds some provisions not now contained in the law relating to either homestead or community property.

In relation to the filing of the petition and the hearing of the petition, the provisions follow the procedure now set up in relation to homestead rather than the procedure relating to community property, that is, at present a petition may only be filed relating to community property if the spouse has been adjudicated insane or incompetent; whereas, this bill and the present procedure in regard to homestead permit the proceedings to be instituted where there is no adjudication and in the proceedings the court makes a determination as to the insanity or incompetence of the spouse.

I find no objection to the form of the petition, the setting of the case for hearing, and the notification given to the alleged incompetent and his relatives, but there is no requirement that the provisions of Section 1461 of the Probate Code must be complied with Section 1461 provides that the incompetent person must be brought into court, if able to attend; if not able to attend, there must be an affidavit and certificate of a physician and surgeon that he is unable to attend.

The new provisions do provide that wherever applicable, Section 5752 of the Welfare and Institutions Code must be complied with That section provides that no court proceeding shall be held in relation to the mental condition of a patient in a private institution, etc., unless the patient is either present or represented by an attorney and the judge in such case must appoint two medical examiners to make a personal examination of the patient and testify before the judge However, this only applies where the patient is confined in a *private* mental hospital, etc, so that if he is in a home or at a State institution, or wandering at large, his presence in court is not required nor is it required that it be shown that he is unable to attend.

I believe that provisions similar to the requirements of Section 1461 of the Probate Code should be included in the new procedure relating to community property and homestead property. Certainly, if they should be required where he is to be adjudicated insane or incompetent and a guardian appointed to take care of his property, they should also be required in a proceeding where he is to be likewise adjudicated insane or incompetent although the purpose is merely to allow the sale or encumbrance of his community property or his homestead property, and I believe this protection should be placed in the law, notwithstanding the fact that in the present proceedings regarding homesteads, it is not so included

Section 1435.8 under this bill provides that "Any money realized upon such sale, transfer, exchange, mortgage, lease, deed of trust, compromise, settlement, or composition, shall be paid to the spouse not insane nor incompetent." In this respect, the new provisions apparently follow the present procedure now applicable to the community property. Section 172d of the Civil Code is not specific as to what happens to the money received upon a sale ordered by the court, but I am informed that the money is paid to the sane spouse, even in those instances where the incompetent spouse has a guardian However, this procedure is distinctly at variance with the present provisions relating to homestead property, which provide that before the execution of the conveyance the husband or wife must give a bond in double the amount of the mortgage to the effect that he or she will apply the proceeds only under the direction of the court.

I believe that here, likewise, in consolidating the two procedures, we should retain the one most likely to protect the insane or incompetent person, and that in the new procedure set up relating to both homestead and community property, provisions similar to the last sentence of the present Section 1269c of the Civil Code should be included. Said sentence reads as follows: "Such husband or wife must, before executing any conveyance, mortgage, or deed of trust, give a bond to be approved by the judge of the court, in double the amount of the mortgage or deed of trust, or double the value of the property to be sold, or exchanged conditioned to account for the proceeds of the mortgage, deed of trust, exchange, or sale and to apply such proceeds only as the court may direct"

I note that on pages 184 to 187 in Part 2 of the August 1940 State Bar Journal, the Report of a Committee to Study Community Property Law discusses the present provisions of Sections 172b, 172c, and 172d, and 1269a, 1269b, and 1269c, of the Civil Code, and recommends the adoption of a bill similar to this bill, but it will be noted that in the original report of such committee, the draft of a bill which was approved contained substantially the same provisions as are contained in the above noted provisions of Section 1269c of the Civil Code.

Respectfully submitted.

Sec. 2 The following words, terms and phrases when used in this act have the meaning ascribed to them in this section, except where the context clearly indicates a different meaning:

(a) "Person" includes any individual, firm, copartnership, joint adventure, association, social club, fraternal organization, corporation, estate, trust, business trust, receiver, syndicate, this State, any county, city and county, municipality, district or other political subdivision thereof, or any other group or combination acting as a unit, and the plural as well as the singular number.

(b) "Sale" means any transfer of title or possession, or both, exchange, barter, lease or rental, conditional or otherwise, in any manner or by any means whatsoever, of tangible personal property, for a consideration, or any withdrawal, except a withdrawal pursuant to a transaction in foreign or interstate commerce, of tangible personal property from the place at which such property is located for delivery to a point in this State for the purpose of the transfer of title or possession, or both, exchange, barter, lease or rental, conditional or otherwise, in any manner or by any means whatsoever, of such tangible personal property for a consideration, and includes the producing, fabricating, processing, printing or imprinting of tangible personal property for consumers who furnish either directly or indirectly the materials used in such producing, fabricating, processing, printing or imprinting, the furnishing and distributing of tangible personal property for a consideration by social clubs and fraternal organizations to their members or others, and the furnishing, preparing or serving for a consideration of food, meals or drinks. A transaction whereby the possession of property is transferred but the seller retains the title as security for the payment of the price shall be deemed a sale. A transfer for a consideration of the title or possession of tangible personal property which has been produced, fabricated or printed to the special order of the customer, or of any publication, shall likewise be deemed a sale.

(c) A "retail sale" or "sale at retail" means a sale to a consumer or to any person for any purpose other than for resale in the regular course of business in the form of tangible personal property, except that the expressions "transfer of possession," "lease," and "rental" as used in subdivision (b) of this section shall mean and include only such transactions as the board, upon investigation, finds to be in lieu of sales as defined in subdivision (b) of this section without the words "lease or rental."

The delivery in this State of tangible personal property by an owner or former owner thereof or by a factor if such delivery is to a consumer pursuant to a retail sale made by a retailer not engaged in business in this State, is a retail sale in this State by the person making such delivery and such person shall include the retail selling price of such property in his gross receipts.

(d) "Business" includes any activity engaged in by any person or caused to be engaged in by him with the object of gain, benefit or advantage, either direct or indirect.

(e) "Seller" includes every person engaged in the business of selling tangible personal property the gross receipts from the retail sale of which are required to be included in the measure of the tax imposed hereunder.

"Retailer" includes:

(1) Every person engaged in the business of selling tangible personal property at retail;

(2) Every person who has custody or possession of the tangible personal property of another person or persons and who, for a consideration received either from the owner of the property or the purchaser thereof, negotiates a sale at retail of the property; provided, however, that the owner, if holding a seller's permit hereunder, may elect to regard himself as the retailer of such property and may pay the tax with respect to the sale thereof;

Public or private schools, school districts, student organizations and parent-teacher associations serving meals exclusively to students and teachers, and employers or employee organizations serving meals exclusively to employees shall not be regarded as retailers of the meals served by them When in the opinion of the board it is necessary for the efficient administration of this act to regard any salesmen, representatives, peddlers, or canvassers as the agents of the dealers, distributors, supervisors or employers under whom they operate or from whom they obtain the tangible personal property sold by them, irrespective of whether they are making sales on their own behalf or on behalf of such dealers, distributors, supervisors or employers, the board may so regard them and may regard the dealers, distributors, supervisors or employers as retailers for purposes of this act.

(f) "Gross receipts" means the total amount of the sale or lease or rental price, as the case may be, of the retail sales of retailers, including any services that are

a part of such sales, valued in money, whether received in money or otherwise, including all receipts, cash, credits and property of any kind or nature, and also any amount for which credit is allowed by the seller to the purchaser, without any deduction therefrom on account of the cost of the property sold, except that in accordance with such rules and regulations as the board may prescribe, a deduction may be taken if the retailer has purchased property for some other purpose than resale, has reimbursed his vendor for tax which the vendor must pay to the State, or has paid the use tax with respect to such property, and has resold the property prior to making any use of such property other than retention, demonstration, or display while holding it for sale in the regular course of business, and without any deduction on account of the cost of the materials used, labor or service cost, interest paid, losses or any other expense whatsoever; provided, however, that cash discounts allowed and taken on sales shall not be included, and "gross receipts" shall not include the sale price of property returned by customers upon rescission of the contract of sale, when the full sale price thereof is refunded either in cash or by credit, nor shall "gross receipts" include the price received for labor or services used in installing or applying the property sold.

For the purpose of this act the total amount of the sale price above mentioned shall be deemed to be the amount received exclusive of the tax hereby imposed; provided, that the retailers shall establish to the satisfaction of the board that the tax imposed hereunder had been added to the sale price and not absorbed by the retailer.

(g) "Board" means the State Board of Equalization.

(h) "Tangible personal property" means personal property which may be seen, weighed, measured, felt, touched, or is in any other manner perceptible to the senses

(i) "Business" includes any activity engaged in by any person or caused to be engaged in by him with the object of gain, benefit or advantage, either direct or indirect

(j) "In this State" or "in the State" means within the exterior limits of the State of California, and includes all territory within such limits owned by or ceded to the United States of America."

(c) Any person conducting a race meeting under the provisions of Chapter 769, Statutes of 1933, as amended, with respect to horses which are claimed during such meeting;

(d) Every auctioneer selling or negotiating a sale at retail or for storage, use, or other consumption of tangible personal property owned by him or owned by others

Public or private schools, school districts, student organizations, and parent-teacher associations serving meals exclusively to students and teachers, and employers or employee organizations serving meals exclusively to employees are not retailers of the meals served by them.

When the board determines that it is necessary for the efficient administration of this part to regard any salesmen, representatives, peddlers, or canvassers as the agents of the dealers, distributors, supervisors, or employers under whom they operate or from whom they obtain the tangible personal property sold by them, irrespective of whether they are making sales on their own behalf or on behalf of such dealers, distributors, supervisors, or employers the board may so regard them and may regard the dealers, distributors, supervisors, or employers as retailers for purposes of this part."

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 19, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS. I am returning herewith without my signature, Assembly Bill No 1475, entitled "An act to amend Section 2193 of the Business and Professions Code, relating to applications for a physician's and surgeon's certificate by graduates of foreign medical schools."

My objections to this bill are as follows.

This bill adds to Section 2193 of the Business and Professions Code, which sets forth the evidence which an applicant to take an examination for a license as a physician and surgeon must furnish if his application is based on a diploma issued to him by a foreign medical school approved by the Board of Medical Examiners, except a Canadian school, the requirement that he must furnish evidence that

> "If the applicant is not a citizen of the United States, the country in which he has been licensed to practice medicine and surgery will admit to practice therein citizens of the United States upon proof of prior admission to practice medicine and surgery in some State of the United States or upon proof of matters similar to those required in this section for graduates of foreign medical schools."

The bill also provides that this requirement shall not apply to any person who, on March 31, 1941, was registered as an interne under Chapter 5 of Division 2 of the Business and Professions Code.

Only a very few, if any, foreign countries admit citizens of the United States to practice medicine, and so the practical effect of this bill would be that it would exclude any person from taking an examination for a license to practice medicine in this State who was not a citizen of the United States, unless he was registered as an interne before March 31, 1941. The bill, therefore, is in effect identical with Assembly Bill No 449 of the 1939 Session of the Legislature, which was refused executive approval

Practically all of the physicians who, within the next few years, may wish to qualify for licenses to practice medicine under the existing provisions of California laws, will be men or women forced to flee from their homes because of their race or because their political beliefs differ from those of the persons who now control most of Europe. They will be persons who are lawfully admitted to the United States and who will wish to earn their livings by practicing the profession for which they spent years of preparation and in many cases in which they spent years of practice. Some of them may be persons renowned in the practice of medicine. Under existing laws, before such persons can take the examination which the graduates of American, Canadian or foreign schools must take in order to receive a license in this State, each such person must show that.

> (a) He has completed a resident course of professional instruction in an approved medical school or schools equivalent to that required for a physician and surgeon applicant who is a citizen
>
> (b) Subsequent thereto, he has had issued to him by an approved medical school, a medical diploma, as evidence of the completion of the course of medical instruction required of a citizen applicant.
>
> (c) He has been admitted or licensed to practice medicine and surgery in the country wherein is located the institution in which he has completed the resident courses of professional instruction required under (a) and (b).
>
> (d) He has completed either the senior or fourth or final year in an approved medical school in the United States, or in lieu of this, that he has served at least one year in residence in a hospital located in the United States and approved by the board for training of internes.

Several days ago, I approved Assembly Bill No 503, which became Chapter 220 of the Statutes of 1941, which amended our laws so that a foreign physician or surgeon will not hereafter be given the credit of 1 per cent upon his general average in the California examination for each year of actual licensed practice since his graduation, which credit is granted to physicians who have practiced in other States of the United States or in Canada who wish to practice in California In other words, a foreign physician must have the equivalent of all the educational requirements of the graduates of United States approved medical schools, he must take the same examination, and pass with the same required grades, after having served a year as an interne in a United States hospital or completed either the senior or fourth or final year in an approved medical school of the United States There seems no good reason at this time why, in addition to these requirements, he must be a citizen of the United States.

As I have said, most of the foreign physicians who will apply for licenses will be persons who have been forced to flee from their own countries, that is, refugees.

They obviously will not have the five-year residence in the United States which is required before they can become citizens. It was doubtful if any of them have been or will be allowed to escape to America with any money or other possessions. Why shouldn't they be allowed to earn their livings by practicing medicine, if by our own standards we believe they are competent to do so? It would seem to be a needless waste of human knowledge and experience to require them to wait five years during which they would have to forego the practice of their profession. It is possible that a trained physician who would be obliged to enter into other occupations for five years could never resume the practice of his profession, and this would be a still greater waste of human services. I do not think that we should thus deal with human beings, especially those who have just undergone the pain of being driven from their homes, the association of their friends, and being stripped of their possessions.

I am told by some that we must put up this bar in order to protect California physicians, that is, they state that the profession is now overcrowded in California. Yet, on the other hand, I hear reports of the dearth of medical services for those who need them and of an impending scarcity of physicians because of National defense needs and I have lately been requested to do all I could to help secure an exemption of medical students from the Selective Service program on the ground that there will soon be a scarcity of physicians and that we must hasten the training of students to fill the defense needs for physicians. Between these conflicting claims of a shortage of physicians and the possibility of an overcrowding of the profession, if we must err, it should be on the side of making the services of these additional physicians available. I have no sympathy for the alien who comes to America and partakes of the benefits of our country and way of living and who refuses to become a citizen and share in the duties and responsibilities of citizenship, but I do not think that at this time we should add the requirements of citizenship to the other requirements of a physician.

If one looks at this bill as simply a reciprocity statute, aimed to force other countries to open their doors to American physicians, it takes little consideration to reach the conclusion that at this time under the present condition of world affairs such a statute would be absolutely fruitless. In the first place, very few American physicians at this time wish to go abroad to practice their profession. Assuming, however, that they should wish to do so, can any one imagine that the rulers of Europe will permit American physicians to practice there, because unless they do so, the refugee physicians cannot practice in the State of California until they have stayed here five years and become citizens? In a peaceful world, it is conceivable that a reciprocity statute as to foreign countries might work in the same manner that the reciprocity statutes work among the States of the United States, so that a physician, as long as he was competent, might use his services wherever there was need for them, but it is doubtful if such reciprocity statutes will work internationally. Therefore, even if the laws of some countries do not permit American physicians to practice in such countries, should we model our laws after theirs; do we have to retaliate? It surely is not within our American traditions to accept the rulings of other nations as models of our own, and no purpose would be served at this time by enacting a reciprocity statute such as this is assumed to be.

Lastly, if it is believed that a reciprocity statute is necessary in order to open up to American physicians the way to practice in other countries, then such a reciprocity statute should be drafted so that the physicians from other countries will be admitted in California on exactly the same basis that California physicians are admitted in those countries. A plain reading of this bill shows that it does not do this. Instead, it places a higher standard for the foreign physicians than we would have the foreign country establish for California physicians. Section 2193 of the Business and Professions Code sets forth the requirements an applicant must have before he will be allowed *to take the examination* in California. Under the bill the applicant must show that "the country in which he has been licensed to practice medicine *will admit to practice* therein citizens of the United States upon proof of"

(1) Prior admission to practice in some State of the United States, or
(2) Matters similar to the requirements *of Section 2193.*

California does not *admit to practice* an applicant from a foreign State upon proof of matters required in Section 2193, it only permits him *to take an examination*, so this bill would result in a statute which would not be truly reciprocal. Such may not have been the intention of the proponents of this bill, but this interpretation follows from the wording of the bill.

Respectfully submitted

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Assembly Bill No. 1393:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 2, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS:

ASSEMBLY BILL NO. 1393

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await final enactment of the Budget Bill.

COMMUNICATIONS

The following communication was received, and ordered printed in the Journal:

BALBOA BUILDING, SAN FRANCISCO, May 19, 1941

To the Honorable Speaker of the House of Representatives
of the State of California
Capitol, Sacramento, California

DEAR SIR: I beg leave to submit herewith an analysis of the facts bearing upon the passage by Congress of Senate Bill No 860, and by the House of Representatives of a companion bill.

It is just a pretense for prohibition

This Senate Bill No 860 is another entering wedge of the "Drys" to again put over prohibition, from the effects of which this State as well as all the rest of our country has been suffering for more than 20 years.

California voted 76 per cent against prohibition.

The State of California should not favor a provision to share its sovereign powers with the Federal Government.

When our liberty is centralized at Washington there will be none left.

We trust your Honorable Body will receive and file this analysis and resolve to inform our representatives at Washington that California is against these bills.

Yours very respectfully,

W. H. METSON

To the Speaker of the House of Representatives
The Legislature of California, Sacramento, California

Within recent weeks the Legislatures of certain States have seen fit to memorialize Congress, urging passage of Senate Bill No. 860 which, if enacted, would extend a measure of Federal control over civilian citizens of such States living in certain areas, with corresponding curtailment of legislative and executive power of the respective States.

Because Senate Bill No 860, as drawn, proposes to impair the sovereign powers of the several States, thus violating the constitutional rights of citizens, the following statement is respectfully addressed to you and your legislative body, in the hope that the facts presented will be given serious consideration.

For more than a decade great numbers of responsible American citizens were engaged in helping to bring about the legal and orderly repeal of an amendment to the Constitution of the United States, knowing that the principle involved in that amendment was wrong and that it established an unwise and dangerous precedent for yielding up by the several States those powers which pertain to local self-government.

It is well known that while that amendment (the Eighteenth Amendment) was in effect, many evil conditions developed throughout the country, including an unprecedented growth of lawlessness, crime, and official corruption; and that these evils have remained to harass and menace us to this day. This malignant growth was rooted in the violation of the right of the people to be governed in local affairs by representatives chosen by them for that purpose, and in the delegation to the National legislature and a Federal bureaucracy, functioning remotely from the people they sought to rule, of power and responsibility which of right belonged to the States.

The intense interest aroused by the effort to remedy this disastrous condition awakened the American public to the realization that the evils collateral to the failure of National prohibition were caused by the upsetting of the judicious balancing of power between the Federal and State Governments—the dual system of government upon which our Republic is based.

With this public awakening came the repeal of the offending amendment, coupled with an unmistakable mandate from the people of the United States directing the States to reassume the responsibility for making local government forceful and efficient—the responsibility that they had reserved to themselves when forming the United States, or had assumed when changing their status from Territories to States.

Since the issuance of that mandate, the people of our Country have taken no action to relieve the States of their due responsibility for maintaining local self-government, nor have they authorized the subordination of local self-government to centralized authority.

Nevertheless, in this time of National emergency, when the chief concern of the Federal Government is, and ought to be, the defense of the Nation as a whole, the Legislators of certain States are seeking to divert to the Federal Government responsibility for solving troublesome and diversified local problems.

Specifically, reference is made to the Legislators of those States—Colorado, Iowa, Maine and Minnesota—which have memorialized Congress, urging the passage of

Senate Bill No. 860 (with enlarged scope) which would authorize Federal control, in certain respects, over residents living in territory not belonging to the United States or being used for Federal purposes.

The Constitution definitely reserves to the respective States the power to legislate for all territory within their borders except those places purchased (for the use of the United States) with the consent of the Legislature of the State in which the same shall be. This reservation includes legislative power over all matters applying to the health, morals, safety, peace, comfort and convenience of the public residing within the limits of the respective States. The fact that territory within a State is contiguous to a Federal establishment and accessible to persons in the Military or other service of the United States does not give to Congress the power to regulate intrastate business or social behavior of civilian residents situated therein. Nor does the fact that the Federal legislation under discussion pertains to the highly controversial question of the control or prohibition of alcoholic beverages change the constitutional principle involved

Efforts on the part of officials of any State to evade the duty, with which they are charged, to formulate and administer control laws for the suppression of vice in localities under their jurisdiction is indication of a readiness to surrender the sovereign powers of their State, when the exercise of those powers threatens to become inconvenient or troublesome Unwillingness to meet responsibility reflects a dire lack of ability to uphold the dignity and sovereignty of their State and to preserve the rights of the people they were chosen (and sworn) to represent.

In petitioning for the passage of Senate Bill No. 860 or bills similar in character, the petitioners, in effect, ask Congress to assume responsibility for giving to a Federal bureau the unprecedented power to enforce Federal Martial Law in nonmilitary areas, where neither enemy invasion nor domestic violence threatens.

Of equal concern to citizens desirous of upholding American traditions is the fact that such petitioners are—unwittingly, it is assumed—striving to undermine a vital factor in the defense of the Nation against totalitarian governments.

Professor Felix Morley, president of Haverford College, has explained in the following paragraph the essential need for preserving efficient, forceful and dynamic local government:

> "Both Nazi-Fascism and Communism are dependent for success on the complete subordination of local government to centralized authority. It follows that a most effective check to the growth of any form of dictatorship in the United States lies in the preservation of States' rights They form an insurmountable barrier to the insidious growth of the totalitarian idea which has made headway among many Americans. And this bulwark of our democracy should be supported by all who believe in American traditions. * * * It is not in Washington; it is not by military preparedness; it is not through anti-Fascist mass meetings that the fight to preserve American democracy will be lost or won. Nothing can save democracy if local self-government breaks down on any extensive scale" (State Government magazine, February, 1939)

It is probable that certain organized political minorities—impatient to gain their own ends, and ignorant of, or indifferent to, the vital function of local government—will seek to influence State Legislators to join in petitioning Congress to enact legislation which would establish prohibition of the sale of alcoholic beverages in the vicinity of Military Training Posts and projects now or hereafter erected and maintained by the Federal Government in the development of National defense.

Because of this probability, Repeal Associates, speaking in behalf of its membership in California and of the millions of Americans who are concerned in the preservation of local government as the fundamental basis of our Federal system, addresses the foregoing statement to the Legislators and other public officials of the State of California, and urges them to refrain from abdicating proper power in controlling alcoholic beverages in all sections of California now under their jurisdiction; and to be vigilant in upholding the dignity and sovereignty of the State whose people they have been chosen to represent.

REPEAL ASSOCIATES, Washington, D C
W. H STAYTON, Executive Director.
E LIVINGSTON, President.

COMMUNICATIONS

The following communication was received, and ordered printed in the Journal:

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL,
SACRAMENTO, May 19, 1941

Honorable Norris Poulson, Assembly Chamber
State Capitol, Sacramento, California

SUBJECT: Assembly Bill No. 1129, creating a Legislative Audit Bureau

DEAR MR. POULSON: We have prepared and are delivering to you amendments to this bill (as amended May 17th) to make certain that it contains no item of appropriation.

This is done by further amending the text of Section 19 of the bill to read as follows:

> "Sec. 19. The Director of Finance and the Legislative Auditor shall determine and certify to the Controller what amount appropriated by the Budget Act of 1941 is available for the performance of the post-auditing functions which are by this act transferred to the Legislative Audit Bureau."

If this amendment is adopted, the bill will not appropriate any money at all. The amended text of Section 19 will merely cast a duty upon two State officers to ascertain the amount of money by *other* provisions of law (not by Assembly Bill No. 1129) appropriated and made available for the performance of the post-auditing functions of the Legislative Audit Bureau, a finding that will be of aid and guidance to the State Controller in making the proper entry upon the books of account which he keeps.

The "appropriation," it is contemplated, would be made by the Budget Bill. At the present time the Budget Bill, Assembly Bill No. 1800, contains an item which includes moneys intended for use in the performance of the post-auditing function by the Department of Finance. That bill also provides that when functions are by law transferred from one State agency to another, the money appropriated in

the Budget Bill for the performance of those functions shall be transferred to and become a part of the support appropriation of the State agency to which the functions are transferred. In such a case, therefore, the appropriation is made by the Budget Bill.

This is well within the principle enunciated by the Supreme Court in *Vandegrift* vs. *Riley* (1934), 220 Cal. 340. The court had before it the "Emergency Fund" item of the 1933 Budget Act. There was some question whether or not an appropriation of a lump sum (as in the case of the Emergency Fund), coupled with an authority in the Director of Finance to allocate it for expenditure for this, that or the other purpose as and when he might decide and declare an "emergency" to exist, was tantamount to an unwarranted delegation of legislative power, was an attempted delegation to him of the legislative function of making the appropriation.

The court held this was not a delegation of legislative power, saying:

> "That the amount set aside 'for emergency fund' during the successive sessions * * * is an appropriation * * * can not be doubted. When so appropriated it becomes part of the funds set aside for the proper functioning of the State Government and its several State departments * * *.
>
> "* * * the executive officer of that department (Finance) appears to be the sole State official to whom the Legislature has delegated the power to administer the fund." (P. 349.)

Accordingly, when the Director of Finance finds and declares that an emergency has arisen in that no appropriation or an insufficient specific appropriation has been made for a particular State purpose, he is merely ascertaining the existence of a particular state of facts. He is not legislating.

Similarly, when the Director of Finance and the Legislative Auditor make the inquiry called for by the proposed amendment to Assembly Bill No. 1129 they will merely be finding and recording as a fact the amount of money which the Budget act has appropriated and made available to the Legislative Audit Bureau, in view of the further fact that Assembly Bill No. 1129 has transferred the post-auditing function from the Department of Finance to the Legislative Audit Bureau.

Accordingly, if the above described amendment to Assembly Bill No. 1129 is adopted and this bill becomes law in that form, no appropriation will be effected thereby.

Very truly yours,

FRED B. WOOD, Legislative Counsel
