It is the intent of this act to provide relief for taxing and assessment districts by permitting the refunding of bonds thereof and, through an extension of the maturities of such bonds, to decrease the annual tax or assessment burden

This act and all of its provisions shall be liberally construed to the end that the purposes hereof may be made effective. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portion of this act. (b) Any person or exchange dealing in live stock and operating at a public live stock market and subject to and operating under a bond required by the United States to secure the performance of their obligations.

1300.1. No person shall act as a processor or agent without having obtained a license as provided in this chapter. Every person, acting as a processor, or intending to so act, shall file an application with the director for a license to so act, and such application shall be accompanied by a license fee of twenty-five dollars.

Every person acting as an agent, or intending to so act, shall file an application with the director for a license to so act, and such application shall be accompanied by a license fee of one dollar.

Fraud or misrepresentation in making any application shall ipso facto work a revocation or refusal of any license granted or to be granted thereunder. Previous violation by the applicant of any of the provisions of this chapter shall be good and sufficient ground for denial of a license.

1300.2. The director may publish in pamphlet form as often as he thinks necessary a list of all licensed processors, together with all necessary rules and regulations concerning the enforcement of this chapter. Each licensed processor shall post his license, or a copy thereof, in his office or salesroom in plain view of the public. Each agent shall show his license upon the request of any interested person. shall have no jurisdiction to act upon any such complaint if the substance of such complaint is included in any dispute that has been submitted to, or settled by, arbitration in accordance with the provisions of a written contract or if such processor within ten (10) days after notice by the director of the filing of such verified complaint has submitted such dispute to arbitration in accordance with the terms of such written contract; provided however that the director shall have jurisdiction over any such complaint or dispute if the processor has failed to perform in accordance with any arbitration award made in accordance with the terms of such written contract. If the director has jurisdiction to entertain the complaint and is unable to effect a settlement satisfactory to him and to both parties to the controversy, he shall cause a copy of such complaint, together with a notice of the time and place of hearing of such complaint to be served personally or by mail upon the processor against whom the complaint is filed. Such service shall be made at least ten (10) days before the hearing, which hearing shall be held in the city or town which, in the judgment of the director, shall be most convenient to the producer and the processor. At the time and place appointed for such hearing the director, or his agent, shall hear the parties to such complaint and shall enter in the office of the director at Sacramento an order either dismissing such complaint or ordering the processor to make payment in accordance with the provisions of the contract, specifying the fact established on such hearing. A copy of such order shall be furnished to the respective parties to the controversy. At such hearing the director or his duly appointed agent shall have full authority to administer oaths, and take testimony; to issue subpenas requiring the attendance of witnesses before him, together with such books, memoranda, papers, and other documents, articles or instruments as may be pertinent to the controversy as set forth in the complaint, to compel the disclosure by such witnesses of all facts known to them relative to the controversy, and all parties disobeying the orders or subpenas of said director or his duly authorized agent shall be guilty of contempt and shall be certified to the superior court of the State for punishment for such contempt.

The provisions of the Code of Civil Procedure of this State referring to writs of certiorari or review shall, so far as applicable and not in conflict with this act, apply to the proceedings under the provisions of this section. Pending final determination of such review, in the case of the revocation or suspension of the license of any person licensed hereunder such license shall be deemed in full force and effect until the expiration of the license period, and in the case of the refusal to grant or renew any license such processor shall be entitled to conduct his business as if such license had been granted or renewed

Any city or town authorized to refund its indebtedness under the provisions of this act is authorized to file a petition under any bankruptcy law of the United States now or hereafter enacted, and, if in such bankruptcy proceeding the refunding of the city or town indebtedness is authorized, to proceed under the provisions of this act to refund the indebtedness of such city or town.

If such bond or bonds, warrant or warrants, judgment or judgments, note or notes or other evidence or evidences of indebtedness are not presented within the time specified in such notice, the interest thereon shall then cease and the amount due be set aside for the payment of the sum whenever presented. Provided, however, that if any bonds are authorized for the purpose of funding or refunding before maturity any obligations which by their terms are subject to call and payment before maturity, and which specify the manner in which the same shall be so called and paid, then, in lieu of following the provisions of this section, such call and payment of such obligations shall be in accordance with such provisions thereof.

Whenever such outstanding bonds, warrants, judgments, notes or other evidences of indebtedness are surrendered and paid, the treasurer shall proceed to cancel the same by indorsing on the face thereof the amount for which they are received, the word "canceled" and the date of cancellation. He shall also keep a record of such bonds, warrants, judgments, notes or other evidences of indebtedness, so redeemed, and shall make a report of the same to the council or other governing body of such city or town, or if any of such obligations were issued by, or on account of, or against, any department, board or special fund, then he shall make such report to the department, board, commission or officer by which or by whom the same may have been issued, or against which or whom the same may have been rendered, at least once a month, accompanying the same with the bonds, warrants, judgments or other evidences of indebtedness, which have been taken up and canceled.

Work may be required of any able-bodied indigent as a condition of relief. Such work shall be created for the purpose of keeping the indigent from idleness and assisting in his rehabilitation and the preservation of his self-respect.

"If any indigent has living within this State a spouse, parent or adult child, and such kindred or any of them, or any group of them have sufficient financial ability to support said indigent, such indigent shall not be eligible for aid under this act, except such emergency aid as may be extended hereunder pending a determination of responsibility for his support. The provisions of Titles I to IX, inclusive, of Part II of the Code of Civil Procedure shall apply to the proceedings in such action and the court shall therein determine the liability, if any, of each of the kindred for such support. The court shall, in such action, ascertain the financial ability of the defendants and each of them, and unless it finds that a defendant is unable to pay any sum for support, either because of lack of sufficient financial ability or because such payment would result in the probability of said defendant becoming at some

future time a public charge, the court shall order each defenant to pay to the county or city and county a proper proportion, if any, of his liability for the support of the indigent. In no case where any one or more of the kindred has or have sufficient financial ability to support the indigent shall a relative beyond him or them in the order named in section 2 be ordered to pay any portion of the support. The order of the court shall specify that a given sum shall be payable monthly in advance to the board of supervisors or its designated social agency for the entire or partial maintenance of the defendant's indigent relative in accordance with the defendant's financial ability. The county shall have the right to collect the entire sum or sums ordered to be paid, but if it subsequently develops that the sum or sums so ordered paid and collected exceed the sum or sums fixed by the board of supervisors as reimbursement in the event the indigent is cared for in county institutions or the actual amount of aid in the event other aid or relief is extended, the county shall refund to said person or kindred such excess so collected or paid, or his or their proportionate share of such overpayment."

SEC. 6. Section 5 of the act cited in the title hereof is hereby amended to read as follows.

"In any case where a person ordered by it to make such payments fails so to do, the court may by order require him to show cause for such failure and may otherwise enforce its order to make such payments by such order or orders as in its discretion it from time to time deems necessary, and such order or orders may be modified, altered or revoked at the discretion of the court. Execution may issue for such payment or payments upon the order and at the discretion of said court, upon affidavit proving to the satisfaction of the court that any such payment or payments are due and have not been made and the county may purchase at any sale held pursuant to such execution by bidding an amount not in excess of the amount due it thereunder.

"Upon such affidavit heretofore mentioned being made, an abstract of said order, showing the items and the total amount then due and unpaid, may be issued by the clerk upon the order and at the discretion of the court.

"Said abstract of such order may be filed with the recorder of any county and from such filing the order becomes a lien in the amount stated as due and unpaid therein, upon all the real property of the person so ordered to pay, located within the county where filed and owned by him at the time or which said person so ordered to pay may afterwards and before the lien expires, acquire.

"Such lien shall continue for five years from the due date of each of the respective monthly amounts or items so ordered to be paid and which collectively make up the total amount stated in the abstract and the amount of such lien shall automatically diminish as to each such monthly amount or item at the termination of five years from the due date of each said monthly amount or item; provided, however, that said lien shall cease if previously satisfied or otherwise discharged.

"The order may be satisfied by satisfaction executed and recorded by the board of supervisors, the superintendent or other chief executive officer of the department of the county administering this act or the attorney for the county. An order may be satisfied in part and in such case the lien continues as to the portion unsatisfied.

"The abstract above mentioned shall contain the following: Title of the court and cause and number of the proceeding; date of rendition of the order and date of entry thereof, if entered; names of the debtor and creditor under such order; the monthly amounts or items and total amount due and unpaid therein; and where entered in the judgment book, minutes or other records, if entered."

"In any case where a person for the support of whom public moneys have been expended has or thereafter acquires property, the county shall have a claim against such person or his estate if he be deceased, for the recovery of the amount of the aid and relief so extended. The fact that such person was not eligible to receive such aid shall not constitute a defense to any action upon such a claim, and in any complaint filed therein it shall not be necessary to allege facts showing such eligibility. In case of care in county institutions the amount of such claim shall be determined in accordance with the charge therefor fixed by the board of supervisors and in other cases it shall be the amount of aid or relief extended. The itemized account or accounts of such aid or relief kept by the county or an itemized statement of such account or accounts certified to be true and correct by the accountant, auditor or bookkeeper in charge of or actually assisting in keeping the same, shall be prima facie evidence of the truth and correctness of the amount or amounts thereof, and such certified statement shall be admissible in evidence without preliminary or introductory proof. In a proper case therefor the district attorney shall apply to the proper court for the appointment of a guardian of the person or estate, or both, of the indigent. The support out of public funds of such indigent shall be deemed a ground for sale or encumbering of his property under the provisions of section 1530 of the Probate Code.

"Where a county officer or employee is appointed and acts as such a guardian, the board of supervisors may by resolution order that expenses necessary in the conduct of the guardianship and any necessary premiums on the bond of the guardian shall be advanced by the county to such guardian, and such expenses shall be a charge against the county, but the county shall be reimbursed out of any funds or property of the estate of the ward. The county may file claims in the estates of deceased indigents or estates of their deceased responsible kindred for aid given and such claims shall be paid prior to the payment of any other debts or charges against the estate except expenses of administration, funeral expenses, and expenses of last illness. Where aid is given by the county during the last illness, the claim of the county therefor shall be paid in the same order of priority as other expenses of last illness are paid. Actions upon any claims of the county so filed may be maintained against executors and administrators in all cases in which the same might have been maintained against their respective testators or intestates. Such claims of the county need not be filed within the time limited in the notice to creditors of the estate, but may be filed at any time prior to distribution thereof; provided, however, that, if any such claim is not filed within the time limited in the notice to creditors and the executor or administrator has prior to such filing and without knowledge of the county's claim, already paid claims of a lower class in the order of preference, the said executor or administrator, or the sureties on his bond or the creditors so paid, shall not be liable to the county for any damage arising from the payment or receipt of such funds."

"(b) The board of supervisors may require, as a condition to the grant or continuation of aid to an indigent, that such indigent grant or transfer to the county in payment of aid previously given, such property or interest in property as the indigent may have, or such portion thereof or estate therein as the board may specify, and such grant or transfer shall vest title in the county as county property and not as security.

"(c) As a condition to the grant or continuation of aid to an indigent, the board of supervisors may also require security for the repayment of aid previously extended and for future advancements of aid, and may do all things and expend all sums necessary for the protection and preservation of such security and the collection of the payment or payments secured thereby. Any sums expended for the protection or preservation of the property upon which said security exists shall automatically be added to and become a portion of the amount secured."

SEC. 4. Whenever the formation of a library district is desired, a petition which may consist of any number of instruments, may be presented at a regular meeting of the board of supervisors of the county in which is located the largest proportionate value of the lands within the proposed district as shown by the last equalized county assessment roll. That board of supervisors is hereinafter referred to as the supervising board of supervisors. Such petition shall be signed by registered voters residing within the proposed library district equal in number to at least five per cent of the number of votes cast in the territory comprising the proposed district at the last preceding general State election at which a Governor was elected.

SEC. 5. The provisions of sections 103, 104, 105, 106, and 107 of Chapter 1, Division I of the District Organization Act shall govern and control the proceedings for the filing and hearing of the petition.

SEC. 8. Within thirty days after the filing with the Secretary of State of the resolution declaring the organization of the district, a board of three library trustees shall be appointed for the district. The board shall consist of one trustee to be appointed from each unit, in the case of any unincorporated territory by the board of supervisors and in the case of a city by the governing body thereof

If a board thus appointed would consist of more than three members then the supervising board of supervisors shall appoint three library trustees from the district at large.

If the board thus appointed consists of less than three members, then the supervising board of supervisors shall appoint from the district at large enough additional members to make a board of three trustees.

As used in this section, "unit" means all unincorporated territory in the district which lies in a single county and also means each city in the district.

SEC 9. A vacancy in the board of library trustees shall be filled for the unexpired term by appointment of the supervising board of supervisors. Each library trustee shall hold office until his successor is elected and qualified

SEC. 11 An election must be held annually in each library district for the election of one library trustee who shall hold office for three years beginning on the second day of the calendar year next succeeding his election This election shall be known as the general district election and shall be held in the district on the same day as the State general election in the even-numbered years and in the odd-numbered years on the first Tuesday after the first Monday in November.

SEC 13 At its first meeting called after the original appointment of the board, and annually thereafter at its first meeting called after the second day of the calendar year, the board shall organize by electing one of its number president, and

another one of its number secretary. They shall serve as such for one year or until their successors are elected and qualified. The board shall cause a proper record of its proceedings to be kept, and at the first meeting of the board of trustees of any library district, formed under the provisions of this act, it must immediately cause to be made out and filed with the State Librarian at Sacramento a certificate showing that such library district has been established, with the date thereof, the names of the trustees, and the officers of the board chosen for the current fiscal year.

SEC. 14. The board of library trustees shall meet at least once a month, at such time and place as it may fix by resolution. Special meetings may be called at any time by two trustees, by written notices served upon each member at least twelve hours before the time specified for the meeting. Thereupon it shall be the duty of each board of supervisors in which any part of the district is situated to levy a special tax upon all taxable property of the county lying within the district sufficient in amount to maintain the district. The tax shall in no case exceed the rate of fifteen cents on each one hundred dollars of the assessed valuation of all taxable property within the district, but it may be in addition to all other taxes allowed by law to be levied upon such property. The tax shall be computed, entered upon the tax rolls and collected in the same manner as county taxes are computed, entered and collected. All moneys so collected shall be paid into the county treasury to the credit of the particular library district fund and shall be paid out on the order of the district board, signed by the president and secretary thereof.

SEC. 17. SEC 18 All money acquired by gift, devise, bequest, or otherwise, for the purposes of the library, shall be paid into the county treasury to the credit of the

library fund of the district, subject only to the order of the library trustees of said district. If payment into the treasury is inconsistent with the terms or conditions of any such gift, devise, or bequest, the board of library trustees shall provide for the safety and preservation of the same, and the application thereof to the use of the library, in accordance with the terms and conditions of such gift, devise or bequest.

SEC. 19. Upon the receipt by the county auditor of an order of the library trustees of the district, he shall issue his warrant upon the county treasurer for the amount stated in such order When any such warrant is presented to the treasurer for payment and the same is not paid for want of funds, the treasurer must endorse thereon "Not paid for want of funds" with the date of presentation and sign his name thereto, and from that time the warrant shall bear interest at the rate of six per cent per annum until the warrant is paid or until funds are available for the payment of the same and the county treasurer gives notice to the warrant holder that funds are available for such payment. The giving of such notice shall be deemed complete upon the deposit thereof in the United States mail in a sealed envelope addressed to the warrant holder at the address of the latter given by him at the time of presentation of the warrant to the treasurer, with postage thereon fully prepaid and registered.

SEC. 20. Every library established under the provisions of this act shall be forever free to the inhabitants and nonresident taxpayers of the library district, subject always to such rules, regulations, and by-laws as may be made by the board of library trustees, and for violation of them a person may be fined or excluded from the privileges of the library

SEC. 21. The board of library trustees and the boards of trustees of neighboring library districts, or the governing bodies of neighboring cities, or boards of supervisors of counties in which public libraries are situated, may contract to lend the books of libraries created under this act to residents of such counties or neighboring cities or library districts, upon a reasonable compensation to be paid by such counties, neighboring cities, or library districts

SEC. 22. The title to all property acquired for the purposes of such libraries, when not inconsistent with the terms of its acquisition, or not otherwise designated, shall vest in the district in which such libraries are or are to be situated. Every library district must be designated by the name and style of _____ library district (using the name of the district) of _____ county (using the name of the county or counties in which said district is situated). In that name the trustees may sue and be sued, and may hold and convey property for the use and benefit of such district. A number must not be used as a part of the designation of any library district.

SEC 23. The provisions of Chapters I and II of Division II of the District Organization Act relating to notices and elections shall govern and control this act.

SEC 24 The board of trustees of any library district may, when in their judgment it is deemed advisable, and must, upon a petition of fifty or more taxpayers and residents of said library district, call an election and submit to the electors of the district, the proposition of whether the bonds of the district will be issued and sold for the purpose of raising money for the purchase of suitable lots, of procuring plans and specifications and of erecting a suitable building, of furnishing and equipping the same and of fencing and ornamenting the grounds, for the accommodation of the public library, or for any or all of the said purposes, or for any or all of the purposes of this act, for liquidating any indebtedness incurred for said purposes, and for refunding any outstanding valid indebtedness, evidenced by bonds or warrants of the district

In addition to the information required in section 232 of the District Organization Act, in the resolution calling a bond election the board of trustees shall set forth the amount and denomination of the bonds, the rate of interest and the number of years the whole or any part of the bonds are to run.

SEC. 27. SEC. 28. Upon the canvass of the returns, if it appears that two-thirds of the votes cast at the election were cast in favor of issuing such bonds, then the board of library trustees shall cause an entry of such fact to be made upon its minutes and shall certify to the supervising board of supervisors all the proceedings had in the premises. Thereupon said board of supervisors shall issue the bonds of said district, to the number and amount provided in such proceedings, payable out of the building fund of said district, naming the same. The money for the redemption

of said bonds and the payment of interest thereon shall be raised by taxation upon the taxable property in said district.

The total amount of bonds so issued shall not exceed five per cent of the taxable property of the district, as shown by the last equalized assessment roll of the county or counties in which the district is situated.

SEC. 29. The supervising board of supervisors by an order entered upon its minutes shall prescribe the form of said bonds and of the interest coupons attached thereto, and must fix the time when the whole or any part of the principal of said bonds shall be payable, which shall not be more than forty years from the date thereof.

SEC. 30. The bonds must not bear a greater amount of interest than six per cent, to be payable annually or semiannually. SEC 31. The board of supervisors of each county in which any part of the district is situated, at the time of making the levy of taxes for county purposes, must levy a tax for that year upon the taxable property in such district, at the equalized assessed value thereof for that year, for the interest and redemption of said bonds. Such tax must not be less than sufficient to pay the interest of said bonds for that year, and such portion of the principal as is to become due during such year In any event such tax must be high enough to raise, annually, for the first half of the term said bonds are to run, a sufficient sum to pay the interest thereon, and during the balance of the term, high enough to pay such annual interest and to pay, annually, a proportion of the principal of said bonds equal to a sum produced by taking the whole amount of the bonds outstanding and dividing it by the number of years said bonds then have to run.

SEC. 32. All moneys so levied, when collected, shall be paid into the county treasury to the credit of the said library district, and be used for the payment of principal and interest on said bonds, and for no other purpose. The principal and interest on the bonds shall be paid by the county treasurer, upon the warrant of the county auditor, out of the fund provided therefor. It shall be the duty of the county auditor to cancel and file with the county treasurer the bonds and coupons as rapidly as they are paid.

SEC. 33. Whenever any bonds issued under the provisions of this act remain unsold for the period of six months after having been offered for sale in the manner prescribed by the supervising board of supervisors, the board of trustees of the library district for or on account of which the bonds were issued, or of any library district composed wholly or partly of territory which, at the time of holding the election authorizing the issuance of such bonds, was embraced within the district for or on account of which such bonds were issued, may petition the supervising board of supervisors to cause such unsold bonds to be withdrawn from the market and canceled

SEC. 34. Upon receiving such petition, signed by a majority of the members of the board of trustees, the supervising board of supervisors shall fix a time for hearing the same, which shall be not more than thirty days thereafter, and shall cause a notice, stating the time and place of hearing, and the object of the petition in general terms, to be published as provided in this act.

SEC. 35. At the time and place designated in the notice for hearing said petition, or at any subsequent time to which the hearing may be postponed, the supervising board of supervisors shall hear any reasons that may be submitted for or against the granting of the petition, and if they shall deem it for the best interests of the library district named in the petition that such unsold bonds be canceled, they shall make and enter an order in the minutes of their proceedings that said unsold bonds be canceled, and thereupon said bonds, and the vote by which they were authorized to be issued, shall cease to be of any validity whatever.

SEC. 36. Territory may be annexed to or excluded from a library district organized under this act in the manner provided in Division III of the District Organization Act, upon petition signed by the same number of qualified petitioners required for signature on the petition for organization of the district under this act.

SEC. 37. Two or more districts organized under this act may be consolidated in the manner provided in Chapter I of Division IV of the District Organization Act.

Explanation of Vote.

The proponent of this bill tells you that the proposed Turner amendment soaks the poor as well as the rich, and pleads for a lesser tax. This amendment provides

if I had a net income of $3,500, because of an exemption of $2,500, would tax me $20 It also does not touch my tax-exempt securities.

This proposed tax is only a little over one-half of 1 per cent of the net income on this first item.

Let us examine the consistency of those who will go on record against this amendment. The other day some of them voted to retain a sales tax of 1 cent on the purchase of a 15-cent meal which amounts to over 6 per cent on a purchaser who had no property or other exemptions. Surely those who vote for a small income tax and a high sales tax are the ones who soak the poor.

I believe the income tax is the fairest tax ever proposed. Therefore, I will vote for it.

S. L. HEISINGER.

(b) The following items shall not be included in gross income and shall be exempt from taxation under this act:

(1) Items excluded from gross income under subdivisions (1), (2), (3), (5), and (6) of subsection (b) of section 22 of the Federal Revenue Act of 1934, which subdivisions are hereby referred to and incorporated with the same force and effect as though fully set forth herein.

(2) Income which this State is prohibited from taxing under the Constitution or laws of the United States of America or under the Constitution of this State.

(c) Whenever in the opinion of the board the use of inventories is necessary in order clearly to determine the income of any taxpayer, inventories shall be taken by such taxpayer upon such basis as the board may prescribe as conforming as nearly as may be to the best accounting practice in the trade or business and as most clearly reflecting the income.

(d) In the case of a sale or other disposition of property, the gain or loss shall be computed as provided in sections 111, 112 and 113 of said Revenue Act of 1934 which sections are hereby referred to and incorporated with the same force and effect as though fully set forth herein; provided, however, that for the purposes of this act, the word "commissioner" in said sections shall be deemed to mean "board" and the words "with the approval of the secretary" in said sections shall be deemed omitted.

(b) That portion of the total interest paid or accrued within the taxable year on indebtedness that the total taxable income of the taxpayer bears to the total

(c) Taxes or licenses paid or accrued during the taxable year, other than taxes paid to the State under this act, and other than taxes on or according to or measured by income or profits paid or accrued within the taxable year imposed by the authority of (1) the government of the United States or any foreign country, (2) any State, Territory, county, city and county, school district, municipality or other taxing subdivision of any State or Territory, and other than taxes assessed against local benefits of a kind tending to increase the value of the property assessed, but this shall not exclude the allowance as a deduction of so much of said taxes assessed against local benefits as is properly allocable to maintenance or interest charges.

(d) Losses sustained during the taxable year and not compensated for by insurance or otherwise;

1 If incurred in trade or business; or

2. If incurred in any transaction entered into for profit, though not connected with the trade or business; or

If the amount of stock or securities acquired (or covered by the contract or option to acquire) is less than the amount of stock or securities sold or otherwise disposed of, then the particular shares of stock or securities the loss from the sale or other disposition of which is not deductible shall be determined under rules and regulations prescribed by the board.

If the amount of stock or securities acquired (or covered by the contract or option to acquire) is not less than the amount of stock or securities sold or otherwise disposed of, then the particular shares of stock or securities the acquisition of which (or the contract or option to acquire which) resulted in the nondeductibility of the loss shall be determined under the rules and regulations prescribed by the board

(h) In the case of mines, oil and gas wells, other natural deposits, and timber, a reasonable allowance for depletion and for depreciation of improvements, according to the peculiar conditions in each case; such reasonable allowance in all cases to be made under rules and regulations to be prescribed by the board. In any case in which it is ascertained as a result of operations or of development work that the recoverable units are greater or less than the prior estimate thereof, then such prior estimate (but not the basis for depletion) shall be revised and the allowance under this subsection for subsequent taxable years shall be based upon such revised estimate. In the case of leases the deductions shall be equitably apportioned between the lessor and the lessee. In the case of property held by one person for life with remainder to another person, the deduction shall be computed as if the life tenant were the absolute owner of the property and shall be allowed to the life tenant. In the case of property held in trust the allowable deduction shall be apportioned between the income beneficiaries and the trustee in accordance with the pertinent provisions of the instrument creating the trust, or, in the absence of such provisions, on the basis of the trust income allocable to each. The percentage of depletion allowable under this subsection shall be computed in accordance with the provisions of subdivisions (3) and (4) of subsection (b) of section 114 of said Revenue Act of 1934 which subdivisions and the sections of said Revenue Act referred to therein are hereby referred to and incorporated with the same force and effect as though fully set forth herein.

(i) The basis upon which depletion, exhaustion, wear and tear, and obsolescence are to be allowed in respect of any property shall be as provided in section 114 of said Revenue Act of 1934 which section and all sections of said Revenue Act referred to therein are hereby referred to and incorporated with the same force and

effect as though fully set forth herein; provided, however, that the word "commissioner" in said sections shall be deemed to mean "board" and the words "with the approval of the secretary" shall be deemed omitted

(5) A fraternal society, order, or association; operating under the lodge system, but only if such contributions or gifts are to be used exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals; to an amount which in all the above cases combined does not exceed fifteen per centum of the taxpayer's net income as computed without the benefit of this subsection. Such contributions or gifts shall be allowed as deductions only if verified under rules and regulations prescribed by the board. In the case of an individual if in the taxable year and in each of the ten preceding taxable years the amount of the above contributions or gifts plus the amount of income, war profits, or excess profits taxes paid during such year in respect of preceding taxable years, exceeds ninety per centum of the taxpayer's net income for each such year, as computed without the benefit of this subsection then the fifteen per centum limit imposed herein shall not be applicable. In the case of a taxpayer other than a resident the deductions under this subsection shall be allowed only as to contributions or gifts made to corporations or associations incorporated by or organized under the laws of this State or to the vocational rehabilitation fund above mentioned or to this State or any political subdivision thereof for exclusively public purposes.

(k) In the case of any taxpayer the deductions permitted by subsection (a) of section 23 of said Revenue Act of 1934 and referred to and incorporated by subsection (a) of this section of this act, shall not be allowed if, and to the extent that they are connected with the production of income not taxable under this act, and proper apportionment and allocation of such deductions with respect to taxable and nontaxable income shall be determined under rules and regulations to be prescribed by the board.

For the

purpose of such apportionment a fractional part of a month shall be disregarded unless it amounts to more than half a month in which case it shall be considered as a month

SEC 8 The net income shall be computed upon the basis of the taxpayer's annual accounting period (fiscal year or calendar year, as the case may be) in accordance with the method of accounting regularly employed in keeping the books of such taxpayer; but if no such method of accounting has been so employed, or if the method employed does not clearly reflect the income, the computation shall be made in accordance with such method as in the opinion of the board does clearly reflect the income If the taxpayer's annual accounting period is other than a fiscal year as defined in section 1 or if the taxpayer has no annual accounting period or does not keep books, the net income shall be computed on the basis of the calendar year

SEC. 9 The amount of all items of gross income shall be included in the gross income for the taxable year in which received by the taxpayer, unless, under the methods of accounting permitted under section 8 of this act, any such amounts are to be properly accounted for as of a different period. (c) If a taxpayer entitled to the benefits of subsection (a) of this section elects for any taxable year to report his net income on the installment basis, then in computing his income for the year of change or any subsequent year, amounts actually received during any such year on account of sales or other dispositions of property made in any prior year shall not be excluded.

(d) If any installment obligation is satisfied at other than its face value or distributed, transmitted, sold or otherwise disposed of, gain or loss shall result to the extent of the difference between the basis of the obligation and (1) in the case of satisfaction at other than face value or a sale or exchange—the amount realized, or (2) in case of a distribution, transmission, or disposition otherwise than by sale or exchange—the fair market value of the obligation at the time of such distribution, transmission or disposition. Any gain or loss so resulting shall be considered as resulting from the sale or exchange of the property in respect of which the installment obligation was received The basis of the obligation shall be the excess of the face value of the obligation over an amount equal to the income which would be returnable were the obligation satisfied in full This subsection shall not apply to the transmission at death of installment obligations if there is filed with the board, at such time as it may by regulation prescribe, a bond in such amount and with such sureties as it may deem necessary conditioned upon the return as income, by the person receiving any payment on such obligations, of the same proportion of such payment as would be returnable as income by the decedent if he had lived and had received such payment.

(c) If a separate return is made under subsection (a) of this section, on account of a change in the accounting period, the net income, computed on the basis of the period for which separate return is made, shall be placed on an annual basis by multiplying the amount thereof by twelve and dividing by the number of months included in the period for which the separate return is made The tax shall be such part of the tax computed on such annual basis as the number of months in such period is of twelve months

(e) In the case of a return made for a fractional part of a year, except a return made under subsection (a), on account of a change in the accounting period, the personal exemption and the credit for dependents shall be reduced respectively to amounts which bear the same ratio to the full credits provided as the number of months in the period for which return is made bears to twelve months.

SEC. 29. If the board shall be of the opinion that any taxpayer has failed to file a return, or to include in a return filed, either intentionally or through error, items

of taxable income, it may require from such taxpayer a return, or a supplementary return, under oath, in such form as it shall prescribe, of all the items of income which the taxpayer received during the year for which the return is made, whether or not taxable under the provisions of this act. If from a supplementary return, or otherwise, the board finds that any items of income, taxable under this act, have been omitted from the original return it may require the items so omitted to be disclosed to it, under oath of the taxpayer, and to be added to the original return. If the understatement is due to negligence on the part of the taxpayer, but without intent to defraud, there shall be added to the amount of the deficiency five per cent thereof, and in addition, interest at the rate of one per cent per month or fraction of a month.

If the understatement is fraudulent, with intent to evade the tax, the tax on the additional income discovered to be taxable shall be increased by fifty per cent and an additional one per cent per month or fraction of a month shall be added

The interest provided for in this section shall in all cases be computed from the date the tax was originally due to the date of payment

The unsold portion of any property so seized may be left at the place of sale at the risk of said taxpayer. If, upon any such sale, the moneys so received shall exceed the amount of all taxes, interest, penalties and costs, due the State from such taxpayer, any such excess shall be returned to the taxpayer and a receipt therefor obtained, *provided, however, that if any person having an interest in or lien upon the property* has filed with the Controller prior to any such sale notice of such interest or lien the Controller shall withhold any such excess pending the determination of the rights of the respective parties thereto by a court of competent jurisdiction. If, for any reason, the receipt of such taxpayer shall not be available, the Controller shall deposit such excess moneys with the State Treasurer, as trustee for such owner, subject to the order of such taxpayer, or its successor through reorganization, merger, or consolidation, or its stockholders upon dissolution.

It is expressly provided that the foregoing remedies of the State shall be cumulative *and that no action taken by the Controller shall be or be construed to be an* election on the part of the State or any of its officers to pursue any remedy hereunder to the exclusion of any other remedy for which provision is made in this act.

From the time of filing any such notice the amount of the tax specified in such notice together with any penalties for delinquency in the payment thereof thereafter attaching, shall have the force and effect of a judgment lien against the taxpayer named in such notice of lien. Such lien may be released by filing for record in the office of the county recorder of a release thereof executed by the board upon payment of the tax, interest, and penalties or upon receipt by the board of security sufficient to secure payment thereof, but no such release shall be deemed a waiver of any tax, interest or penalty levied or assessed under this act and due and payable or to become due and payable by such taxpayer.

All vacancies in said commission shall be filled by appointment of the Governor. Said commission shall have the powers and duties hereinafter provided, and for the purpose of carrying out the provisions of this act, the State of California shall incur an indebtedness in the manner provided by this act, in the sum of five million dollars. Three members of said commission shall constitute a quorum for the transaction of business. Said commission shall adopt a seal having thereon the words "San Francisco Bay Exposition Commission of the State of California," and shall file with the State Controller and State Treasurer a certificate of the imprint of such seal and all signatures of persons authorized by said commission to sign contracts, claims and other documents on behalf of said commission. For convenience, the said commission hereinabove created may, in this act, be referred to as "the commission."

SEC. 2. Immediately upon the taking effect of this act the State Treasurer shall prepare five thousand suitable bonds of the State of California negotiable in form and payable to the bearer and expressing on their face the obligation of the State of California to pay in lawful money of the United States the principal amount thereof at the respective dates of maturity hereinafter specified or at the time fixed for the retirement thereof, as hereinafter provided, together with interest as hereinafter provided for, in the denomination of one thousand dollars each. Said bonds shall be known and designated as "California San Francisco Bay Exposition bonds" and shall be numbered consecutively from one to five thousand, inclusive, and shall

bear date the second day of January, 1936. Said bonds, as originally prepared, shall not contain a statement of the interest to be paid, but appropriate blanks shall be left upon the face of each of said bonds for the insertion of the rate of interest to be paid as hereinafter provided for. The total issue of such bonds shall not exceed the principal sum of five million dollars. Said bonds, and interest thereon, shall be payable in lawful money of the United States at the office of the State Treasurer at the time and in the manner following, to wit: The first one hundred twenty-five of said bonds shall be due and payable on the second day of January, 1939, and one hundred twenty-five of said bonds in consecutive numerical order shall be due and payable on the second day of January of each and every year thereafter until and including the second day of January, 1978, provided, however, that said bonds may be paid and redeemed prior to the said dates of maturity upon call by the State Treasurer in the manner hereinafter more particularly set forth.

Interest accruing on all of said bonds that shall be sold shall be payable at the office of the State Treasurer on the second of January and on the second day of July of each and every year after the sale of the same. The interest on all bonds issued and sold shall cease on the day of their maturity or retirement and the said bonds so issued and sold shall, on or after the day of their maturity or retirement, be paid, as herein provided, and shall thereupon be canceled by the State Treasurer. All bonds remaining unsold shall, at the date of the maturity thereof, be canceled and destroyed by the State Treasurer. All bonds issued pursuant to the provisions of this act shall be issued by the Governor of the State, countersigned by the State Controller and indorsed by the State Treasurer. Each of said bonds shall have the seal of this State impressed thereon. The said bonds signed, countersigned, indorsed and sealed as herein provided when sold, shall be and constitute a valid and binding obligation upon the State of California, though the rate of interest shall be inserted upon the face of said bonds, or any of them, as hereinafter authorized and provided, at a date or dates after said bonds shall be so signed, countersigned, indorsed and sealed; and in case any officer whose signature or countersignature or indorsement appears on any such bonds or coupons thereof issued hereunder, shall cease to be such officer before the delivery of such bonds to the purchaser thereof, such signature or countersignature or indorsement appearing either on the bonds or the coupons, or on both, shall, nevertheless, be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery of such bonds, and the lithographed signature upon the coupons of the person who is State Treasurer at the date of such bonds shall be valid, although the bonds themselves may be indorsed by a different person who is Treasurer at the time of the delivery of such bonds.

SEC. 3. Attached to each of said bonds, there shall be an interest coupon for each semiannual payment of interest thereon, negotiable in form and payable to bearer, and expressing the obligation of the State of California to pay the amount of the semiannual payment of interest in lawful money of the United States at the time of maturity thereof, but subject, however, to cancellation upon the retirement of the bond to which it is attached prior to maturity as hereinafter provided. Said interest coupons shall be consecutively numbered in the chronological order of their time of payment and shall bear the lithographed signature of the State Treasurer. No interest shall be paid on any of said bonds for such time as may intervene between the date of said bond and the day of sale thereof, except to the extent to which accrued interest shall have been paid to the State at the time of such sale by the purchaser of said bond.

SEC. 4. Said San Francisco Bay Exposition Commission shall from time to time, so long as the bonds herein authorized, or any of them, remain unsold, determine when the same, or any part thereof, shall be sold, the number to be sold, and the interest rate thereon, which rate shall be fixed by the said commission according to the then prevailing market conditions, but shall at no time exceed six per cent per annum, and the determination of said commission as to the rate of interest, shall be conclusive as to the then prevailing market condition. When requested by said commission the State Treasurer shall prepare such number of bonds as may be requested, inserting upon the face of each of said bonds such interest rate as said commission has determined and authorized and when so prepared, said bonds shall be sold and delivered as in this act provided. In the event that any bonds prepared as herein provided can not in the judgment of said commission be sold at the time fixed for the sale thereof or thereafter, said commission may withdraw said bonds from sale and direct the State Treasurer to cancel and destroy the same and may at said time or thereafter at its option direct the preparation and sale, as herein provided, of the same or a different number of bonds, but not to exceed in all the amount herein authorized, and at the same or a different rate of interest, but not to exceed six per cent per annum, and it shall be the duty of the State Treasurer to obey any and all directions of said commission as herein authorized to cancel and destroy bonds and prepare and sell new bonds. In the event that bonds in addition to those directed in section 2 of this act originally to be prepared must be prepared in order to fulfill the provisions of the sentence immediately preceding this, such bonds and the coupons thereof shall be signed, countersigned, and indorsed in the same manner as provided for the original bonds in section 2 hereof.

SEC. 5. When the bonds authorized by this act to be issued shall have been signed, countersigned, indorsed and sealed, as in this act provided, the State

Treasurer shall from time to time sell such number thereof as the said commission may direct, to the highest bidder for cash. The commission shall from time to time issue such direction to sell such bonds as in the opinion of a majority of said commission shall be deemed necessary or expedient; and the proceeds from the sale of any and all such bonds shall be deposited in the State treasury to the credit of the California San Francisco Bay Exposition fund.

The State Treasurer shall not accept any bid which is less than the par value of the bond or bonds bid for and to the amount of the accepted bid there shall be added in each case as a part of the purchase price to be paid by the bidder the amount of interest which shall have accrued on the bond or bonds bid for between the date of purchaser's payment for said bond or bonds and the last preceding interest maturity date. Each bid shall be in writing and signed by the bidder and sealed and shall be deposited with the State Treasurer not later than the last business day preceding the date of sale. Each bid shall be accompanied by a deposit with the State Treasurer either in cash or by certified check on a responsible bank within the State of California to the order of the State of California of a sum equal to one-tenth of the amount of the par value of the bond or lot of bonds bid for. Such deposit of each unsuccessful bidder shall be returned to him immediately upon the rejection of his bid and such deposit of the successful bidder shall immediately upon acceptance of his bid become and be the property of the State of California and be placed in the State treasury to the credit of said California San Francisco Bay Exposition fund, and shall be credited to the successful bidder upon the purchase price of the bond or bonds paid for in case such price is paid in full by him within the time hereinafter prescribed. At the time of sale the State Treasurer shall open said bids and accept the bid of the highest bidder for cash, save and except that no bid shall be accepted which shall be lower in amount than the par value of the bonds bid for and that the State Treasurer shall reject all bids if instructed so to do by the said commission. The purchase price of the bonds sold shall be payable within ten days after the acceptance of the bid therefor, and if not so paid, the successful bidder shall have no right in or to said bonds or by reason of said bid or to the recovery of said deposit accompanying said bid or to any allowance or credit by reason of such deposit unless it shall appear that the bonds would not be validly issued if delivered to the purchaser in the form and manner proposed. In case the purchase price is not so paid, the bonds so sold but not paid for shall be resold by the State Treasurer upon notice as herein provided in case of original sale. Bonds sold shall be delivered to the purchaser immediately upon and not before the payment of the purchase price therefor. Before delivering any of said bonds, the State Treasurer shall detach therefrom all interest coupons which have matured before the date of the payment of the purchase price therefor. The State Treasurer may by public announcement at the time and place fixed by him for said sale continue such sale to such time and place as he may at the time of said continuance designate. When a sale is continued no notice thereof need be given other than the public announcement of such continuance by the State Treasurer as just hereinbefore provided. The State Treasurer shall give notice of the time and place of sale by publication in one newspaper published in the City and County of San Francisco, and in one newspaper published in the city of Los Angeles, once a week for two weeks next preceding the date fixed for said sale.

Immediately upon the receipt of the purchase price from each sale of said bonds, the State Treasurer shall pay in to the State treasury to the credit of the California San Francisco Bay Exposition fund the amount received as such purchase price, except such amount as may have been paid as accrued interest on said bonds.

Each and every amount that shall have been paid in any sale of the bonds herein authorized as accrued interest on the bonds sold shall be, by the State Treasurer, immediately after such sale, paid into the treasury of the State and placed in the fund hereinafter mentioned, to be known as the "interest and sinking fund of the California San Francisco Bay Exposition bonds".

SEC. 6. There is hereby appropriated from the general fund in the State treasury such sum annually as will provide in said interest and sinking fund of the California San Francisco Bay Exposition bonds, the amount necessary to pay the principal of and interest on bonds issued and sold pursuant to provisions of this act as said principal and interest become due and payable. There shall be collected each year and in the same manner and at the same time as other State revenue is collected such sum in addition to the ordinary revenues of the State as shall provide in said interest and sinking fund of the California San Francisco Bay Exposition bonds, the amount required to pay the principal and interest on said bonds maturing in said year, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue to do and perform each and every act which shall be necessary to collect such additional sum. There is hereby created in the State treasury a fund to be known and designated as the "Interest and sinking fund of the California San Francisco Bay Exposition bonds". The State Treasurer shall on the first day of July, 1936, and on the first day of each January and the first day of each July thereafter transfer from the general fund of the State treasury to said interest and sinking fund of the California San Francisco Bay Exposition bonds such an amount of money as shall provide in said interest and sinking fund of the California San Francisco Bay Exposition bonds the amount required to pay the

interest maturing at the next interest payment date on the amount of said bonds sold and outstanding, and shall likewise on the first day of January of the year 1939 and the first day of January of each year thereafter in which any of said bonds sold and outstanding mature, transfer from the general fund of the State treasury to said interest and sinking fund of the California San Francisco Bay Exposition bonds such an amount of money as will provide in said interest and sinking fund of the California San Francisco Bay Exposition bonds the amount required to pay the principal of such bonds sold and outstanding as mature in such year.

SEC. 7. The principal and interest of all of said bonds which may be sold shall be paid at the time the same become due from said interest and sinking fund of the California San Francisco Bay Exposition bonds, and the faith of the State of California is hereby pledged for the payment in full of the principal and interest of said bonds so sold as the same mature. Both principal and interest of the bonds or coupons so maturing shall be so paid upon presentation thereof to the State Treasurer on or after the day of the maturity or retirement of the same, and the State Treasurer is hereby authorized and required to make such payment. Warrants for such payment shall be duly drawn by the State Controller upon the request of the State Treasurer.

SEC. 8. All moneys remaining on hand in the California San Francisco Bay Exposition fund after the accomplishment of the purposes of this act, shall be transferred and paid into the interest and sinking fund of the California San Francisco Bay Exposition bonds. All moneys accruing to the State of California under and by virtue of any contracts, agreements or arrangements made by said San Francisco Bay Exposition Commission, or under the provisions of this act, shall be paid into said interest and sinking fund of the California San Francisco Bay Exposition bonds. Whenever there shall be in the interest and sinking fund of the California San Francisco Bay Exposition bonds a sum of money amounting to one hundred thousand dollars or more over and above the amount required for the payment of the annual interest accruing prior to or on the second day of January next ensuing and for the payment of principal upon bonds maturing prior to or on the second day of January next ensuing, the State Treasurer shall advertise in one newspaper published in the City and County of San Francisco, and in one newspaper published in the city of Los Angeles, once a week for two weeks for sealed proposals for the redemption of said bonds, and ten days from the time of the expiration of the period of such publication, the said State Treasurer shall open said sealed proposals and the said Treasurer shall pay and liquidate, so far as the funds then on hand and not needed for the payment of interest or required for the payment of principal on bonds maturing as aforesaid, shall extend, such bonds presented under said proposals as shall have the lowest value proposed; provided, however, that in the event proposals made for the redemption of bonds at the same price exceed the number of bonds which may be redeemed with the funds on hand as above provided, then the payment of said funds on hand shall be made on the bonds according to the number of their issue and the bid or bids accepted accordingly; provided further, however, that said State Treasurer shall reject all bids for the redemption of said bonds for more than the par value thereof and accrued interest thereon.

In the event that bids for the redemption of said bonds are not received or accepted sufficient for the expenditure of said funds on hand, as hereinabove provided, in the liquidation thereof, then the said State Treasurer shall retire and call said bonds at the par value thereof and accrued interest thereon, by lot, the number of said bonds to be so retired and called shall be the number which said fund then on hand may liquidate at par value and accrued interest. After selecting said bonds to be so retired by lot as aforesaid, the said Treasurer shall give notice thereof, listing the bonds so called by number, by publication in one newspaper published in the City and County of San Francisco and in one newspaper published in the city of Los Angeles once a week for two weeks. After the expiration of said period of publication said bonds so called by said State Treasurer shall no longer bear interest and shall be redeemable and paid upon presentation thereof to the State Treasurer, together with the interest accruing to said termination of said period of publication.

Owners and holders of bonds may register the same with the said State Treasurer, giving the name and address of such owner or holder and in the event that such bonds are so registered, then upon the call of said bonds as hereinabove provided by said State Treasurer, he shall notify such registered owners or holders of the fact of such call by mailing a copy of the notice to such owner or holder at least one week prior to the termination of said period of publication.

SEC. 9. The sum of two thousand dollars is hereby appropriate to pay the expenses that may be incurred by the State Treasurer in the printing, lithographing and selling of said bonds. Said amount shall be paid out of the general fund of the State treasury on the State Controller's warrants duly drawn for that purpose.

SEC. 10. The purpose of this act is to provide funds for use in connection with the holding and staging of the San Francisco Bay Exposition to commemorate the completion of the San Francisco-Oakland, and the Golden Gate bridges over San Francisco Bay in the years 1937-1938 and thereafter during each year or years or parts thereof, as the commission may determine; to provide facilities for the same; to encourage and assist the participation therein by governments, persons, corporations and agencies from all parts of the world; to establish a commission to repre-

sent the State of California in the carrying out of this purpose and to cooperate to the fullest extent therein with such governments, persons, corporations and agencies, and to engage in such activities as may be necessary or desirable to make the holding of said San Francisco Bay Exposition a success. The commission is hereby authorized and empowered to expend the moneys deposited in the California San Francisco Bay Exposition fund for the purpose of carrying out any and all of the above purposes.

SEC. 11. For the purpose of performing the duties imposed by law upon the commission it shall have the power and authority to elect its own officers and to appoint and employ a secretary, executive officers, and such other assistants or persons as it may deem necessary, and fix their compensations. All of the officers and employees so appointed shall hold office at the pleasure of the commission, and all salaries of employees shall be payable out of the California San Francisco Bay Exposition fund, upon proper warrants drawn therefor as hereinafter specified. The said commission shall serve without compensation but shall receive their actual traveling expenses. The commission shall have full and complete power and authority to carry out the provisions of this act, and the particular enumeration herein of the powers and duties of said commission shall not be construed to be a limitation or restriction of the full and complete power and authority of the commission.

SEC. 12. Said commission shall have power to make and execute all contracts and agreements necessary to the business of said commission or to carry out the purposes of this act. All contracts, made by said commission, shall be executed in triplicate, signed by the president thereof and executed under the seal of said commission, and one copy thereof shall be immediately filed with the State Controller. No contract or agreement shall be made by said commission unless the parties thereto shall waive therein all claims and recourse against the State of California for loss or damage of person or property arising from, growing out of, or in any way connected with or incident to such contract or agreement, and all contracts or agreements made by said commission in violation of this provision for waiver, shall be void.

SEC. 13. The said commission, through the president or such other officer as it shall authorize, shall audit all claims or demands for moneys expended by it, or for the expenditures of money which they have authorized in writing, and shall certify such claims and demands to the State Controller who shall thereupon draw his warrants therefor upon the State treasury payable out of said California San Francisco Bay Exposition fund, and the State Treasurer shall pay the same.

SEC. 14. For the purpose of carrying into effect the provisions and purposes of this act, the commission shall have power to make and enter into such contracts and agreements with the corporation hereinafter in this section referred to as it shall deem necessary or advisable, and shall by contract with said corporation provide for the payment to the State of California out of the net revenues arising from the holding of such exposition, until there shall have been paid to the State of California an amount sufficient to pay and retire all bonds issued under the provisions of this act, an amount bearing the same proportion to the total amount of said net revenues as the total contributions of the State of California to the exposition shall bear to the sum total of all contributions from all sources to said exposition, including as contributions, all funds secured by said corporation by the issuance of stock or bonds thereof. The corporation above referred to and contemplated by this act is San Francisco Bay Exposition, a nonprofit corporation organized under the laws of this State on the twenty-fourth day of July, 1934, for the purpose of conducting, managing, supervising and assuming responsibility for the holding of said San Francisco Bay Exposition and all activities in connection therewith. "740. For the purposes of this chapter, "dairy products" includes dairy products enumerated in this code, and excludes market milk and market cream.

741 The adequate and orderly production and distribution of manufactured dairy products is a matter impressed with a public interest and the provisions of this chapter are designed and intended to effectuate the policy of providing for such orderly production and distribution at prices equitable to producers, processors, manufacturers, retailers and consumers, in order to promote the welfare of the people of the State.

743. In order to carry out the policy of this chapter, the director is empowered to enter into marketing agreements with manufacturers, processors, producers, associations of producers, distributors, and retailers of manufactured dairy products for any dairy product.

744. Sixty-five per cent of the persons engaged in, and such persons as represent sixty-five per cent of the volume of, production, manufacture or distribution of a dairy product, in any marketing area, may make application to formulate a marketing agreement.

If the director determines that the application is properly made and that the area involved is such that a control plan is feasible, the director shall authorize such applicants to formulate a marketing agreement.

745. Such marketing agreement shall contain such provisions as may be necessary to carry out the policy of this chapter, and may include provisions:

1. For the appointment of local control boards with such powers as are specified in the agreement.

2. For the raising of funds, derived equitably from all producers, distributors and manufacturers participating in any marketing agreement, for the purposes of and to be used to the extent specified in the marketing agreement. From such assessments, there shall be paid to the director such sum, as may be necessary to defray the expenses incurred by the director in carrying out the provisions of this article.

3. For the establishment of price levels and margins, and the fixing of prices to be paid producers, and the fixing of resale prices, in such manner as the agreement may provide.

4 For the establishment of a code of fair practices.

5. For sales stimulation and educational activities

746 Upon the signing of such marketing agreement by such persons as is provided for in section 744, the agreement shall be forwarded to the director. Upon receipt of such agreement, the director shall determine if the agreement has been signed by the proper number of persons and is in accordance with the provisions and purposes of this article If it is determined that it is in such accordance, the director shall make an order establishing the marketing agreement, whereupon such an agreement shall become effective. If the director determines that the agreement is not in such accordance, he shall reject it without prejudice to the formulation of a new agreement. Such agreement, when effective, may be modified in such manner as may be provided in such marketing agreement. After taking effect, the provisions of such agreement shall establish the standard of conduct for all persons engaged in any occupation or business regulated by such agreement.

747. The director shall license all persons subject to the terms of a marketing agreement. No person shall engage in any occupation or business regulated by a marketing agreement unless he holds a license. Any license so issued may be revoked by the director, after notice and opportunity to be heard, for a violation of any provision of such agreement. In addition to any other penalty, every person violating any provision of a marketing agreement is liable for a civil penalty of one hundred dollars for each day's violation.

748 All money received by the director pursuant to the provisions of this chapter shall be placed in State treasury to the credit of the Department of Agriculture fund.

749. Any marketing agreement entered into pursuant to this chapter shall be revoked upon the application of fifty-one per cent or more of persons and production eligible to participate in the initiation of such agreement pursuant to section 744.

750 In any civil or criminal action or proceeding for violation of any of the following statutes, proof that the act complained of was done in compliance with the provisions of a marketing agreement to which the defendant was a party shall be a complete defense to such action or proceeding. Such statutes are "An act to define trust and to provide for criminal penalties and civil damages, and punishment of corporations, persons, firms, and associations, a person connected with them and to promote free competition in commerce and all classes of business in this State," approved March 23, 1907.

(c) Whenever in the opinion of the commissioner the use of inventories is necessary in order clearly to determine the income of any taxpayer, inventories shall be taken by such taxpayer upon such basis as the commissioner may prescribe as conforming as nearly as may be to the best accounting practice in the trade or business and as most clearly reflecting the income.

(d) In the case of a sale or other disposition of property, the gain or loss shall be computed as provided in sections 111, 112, and 113 of the Revenue Act of 1934, which sections and the sections referred to therein are hereby referred to and incorporated with the same force and effect as though fully set forth herein; provided, however, that the words "with the approval of the Secretary" in said sections shall be deemed omitted.

(e) In the case of sales or exchanges of capital assets, the gain or loss shall be taken into account in computing net income in the manner provided in section 117 of the Revenue Act of 1934 which section and the sections of the Reveue Act of 1934 referred to therein are hereby referred to and incorporated with the same force and effect as though fully set forth herein.

(f) In the case of taxpayers other than residents the gross income includes only the gross income from sources within this State. Gross income from sources within and without this State shall be allocated and apportioned under rules and regulations to be prescribed by the commissioner.

SEC. 8. Deductions from Gross Income. In computing net income there shall be allowed as deductions:

(a) All the ordinary and necessary expenses paid or incurred during the taxable year in carrying on any trade or business, including a reasonable allowance for salaries or other compensation for personal services actually rendered; traveling expenses (including the entire amount expended for meals and lodging) while away from home in the pursuit of a trade or business; and rentals or other payments required to be made as a condition to the continued use or possession, for purposes of the trade or business, of property to which the taxpayer has not taken or is not taking title or in which he has no equity.

In the case of any taxpayer the deductions permitted by this subsection shall not be allowed or taken for interest if, and to the extent tha they are connected with the production of income not taxable under this act, and proper apportionment and allocation of such deductions with respect to taxable and nontaxable income shall be determined under rules and regulations to be prescribed by the commissioner.

(b) That portion of the total interest paid or accrued within the taxable year on indebtedness that the total taxable income of the taxpayer bears to the total income of the taxpayer from all sources; provided, however, that no deduction shall be allowed or taken for interest paid or accrued within the taxable year on indebtedness incurred or continued to purchase or carry obligations, the interest upon which is wholly exempt from taxes imposed by this act.

(c) Taxes or licenses paid or accrued during the taxable year, other than taxes paid to the State under this act, and other than taxes on or according to or measured by income or profits paid or accrued within the taxable year imposed by the authority of (1) the Government of the United States or any foreign country, (2) any State, Territory, county, city and county, school district, municipality or other taxing subdivision of any State or Territory, and other than taxes assessed against local benefits of a kind tending to increase the value of the property assessed, but this shall not exclude the allowance as a deduction of so much of said taxes assessed against local benefits as is properly allocable to maintenance or interest charges.

(d) Losses sustained during the taxable year and not compensated for by insurance or otherwise:

1. If incurred in trade or business; or

2. If incurred in any transaction entered into for profit, though not connected with the trade or business, or

3. Of property not connected with the trade or business, if the loss arises from fires, storms, shipwreck, or other casualty, or from theft.

The basis for determining the amount of deduction for losses sustained, to be allowed under this subsection shall be the adjusted basis provided in section 7 of this act for determining the loss from the sale or other disposition of property.

(e) Losses from wagering transactions shall be allowed only to the extent of the gains from such transactions.

(f) Debts ascertained to be worthless and charged off within the taxable year (or in the discretion of the commissioner a reasonable addition to a reserve for bad debts) and when satisfied that a debt is recoverable only in part, the commissioner may allow such debt, in an amount not in excess of the part charged off within the taxable year, as a deduction.

(g) In the case of any loss claimed to have been sustained from any sale or other disposition of shares of stock or securities where it appears that, within a period beginning thirty days before the date of such sale or disposition and ending thirty days after such date, the taxpayer has acquired (by purchase or by an exchange upon which the entire amount of gain or loss was recognized by law) or has entered into a contract or option so to acquire, substantially identical stock or securities, then no deduction for the loss shall be allowed. If the amount of stock or securities acquired (or covered by the contract or option to acquire) is less than the amount of stock or securities sold or otherwise disposed of, then the particular shares of stock or securities the loss from the sale or other disposition of which is not deductible shall be determined under rules and regulations prescribed by the commissioner.

If the amount of stock or securities acquired (or covered by the contract or option to acquire) is not less than the amount of stock or securities sold or otherwise disposed of, then the particular shares of stock or securities the acquisition of which (or the contract or option to acquire which) resulted in the nondeductibility of the loss shall be determined under the rules and regulations prescribed by the commissioner.

(h) Losses from sales or exchanges of capital assets shall be allowed only to the extent provided in subsection (d) of section 117 of the Revenue Act of 1934 which subsection is hereby referred to and incorporated with the same force and effect as though fully set forth herein.

(i) A reasonable allowance for the exhaustion, wear and tear of property used in the trade or business, including a reasonable allowance for obsolescence. In the case of property held by one person for life with remainder to another person, the deduction shall be computed as if the life tenant were the absolute owner of the property and shall be allowed to the life tenant. In the case of property held in trust the allowable deduction shall be apportioned between the income beneficiaries and the trustee in accordance with the pertinent provisions of the instrument creating the trust, or, in the absence of such provisions, on the basis of the trust income allocable to each.

(j) In the case of mines, oil and gas wells, other natural deposits, and timber, a reasonable allowance for depletion and for depreciation of improvements, according to the peculiar conditions in each case; such reasonable allowance in all cases to be made under rules and regulations to be prescribed by the commissioner. In any case in which it is ascertained as a result of operations or of development work that the recoverable units are greater or less than the prior estimate thereof, then such prior estimate (but not the basis for depletion) shall be revised and the allowance under this subsection for subsequent taxable years shall be based upon such revised estimate. In the case of leases the deductions shall be equitably apportioned between the lessor and the lessee. In the case of property held by one person for life with remainder to another person, the deduction shall be computed as if the life tenant were the absolute owner of the property and shall be allowed to the life tenant. In the case of property held in trust the allowable deduction shall be apportioned between the income beneficiaries and the trustee in accordance with the pertinent provisions of the instrument creating the trust or, in the absence of such provisions, on the basis of the trust income allocable to each. The percentage of depletion allowable under this subsection shall be computed in accordance with the provisions of subdivisions (3) and (4) of subsection (b) of section 114 of

the Revenue Act of 1934 which subdivisions and the sections of said Revenue Act referred to therein are hereby referred to and incorporated with the same force and effect as though fully set forth herein.

(k) The basis upon which depletion, exhaustion, wear and tear, and obsolescence are to be allowed in respect of any property shall be as provided in section 114 of the Revenue Act of 1934 which section and all sections of said revenue act referred to therein are hereby referred to and incorporated with the same force and effect as though fully set forth herein, provided, however, that the words "with the approval of the secretary" shall be deemed omitted

(l) In the case of an individual, contributions or gifts made within the taxable year to or for the use of:

(1) The United States, any State, Territory or any political subdivision thereof, or the District of Columbia, for exclusively public purposes;

(2) A corporation, or trust, or community chest, fund, or foundation, organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals, no part of the net earnings of which inures to the benefit of any private shareholder or individual, and no substantial part of the activities of which is carrying on propaganda, or otherwise attempting to influence legislation;

(3) The special fund for vocation rehabilitation authorized by section 12 of the World War Veterans' Act, 1924;

(4) Posts or organizations of war veterans, or auxiliary units or societies of any such posts or organizations, if such posts, organizations, units, or societies are organized in the United States or any of its possessions, and if no part of their net earnings inures to the benefit of any private shareholder or individual; or

(5) A fraternal society, order, or association; operating under the lodge system, but only if such contributions or gifts are to be used exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals; to an amount which in all the above cases combined does not exceed fifteen per centum of the taxpayer's net income as computed without the benefit of this subsection. Such contributions or gifts shall be allowed as deductions only if verified under rules and regulations prescribed by the commissioner. In the case of an individual if in the taxable year and in each of the ten preceding taxable years the amount of the contributions or gifts described in subsection 8 (l) plus the amount of income, war profits, or excess profits taxes paid during such year in respect of preceding taxable years, exceeds ninety per centum of the taxpayer's net income for each such year, as computed without the benefit of subsection 8 (l) then the fifteen per centum limit imposed herein shall not be applicable.

In the case of a taxpayer other than a resident the deductions under this subdivision shall be allowed only as to contributions or gifts made to corporations or associations incorporated by or organized under the laws of this State or to the vocational rehabilitation fund above mentioned or to this State or any political subdivision thereof for exclusively public purposes

(m) An employer establishing or maintaining a pension trust to provide for the payment of reasonable pensions to his employees (if such trust is exempt from tax under subdivision (f) of section 12, relating to trusts created for the exclusive benefit of employees) shall be allowed as a deduction (in addition to the contributions to such trust during the taxable year to cover the pension liability accruing during the year, allowed as a deduction under subsection (a) of this section) a reasonable amount transferred or paid into such trust during the taxable year in excess of such contributions, but only if such amount (1) has not theretofore been allowable as a deduction, and (2) is apportioned in equal parts over a period of ten consecutive years beginning with the year in which the transfer or payment is made.

(n) In the case of a taxpayer other than a resident the deductions allowed by this section shall unless otherwise provided in this section be allowed only if and to the extent that they are connected with the income arising from sources within this State and taxable under this act to a nonresident taxpayer, and the proper apportionment and allocation of the deductions with respect to sources of income within and without the State shall be determined under rules and regulations to be prescribed by the commissioner.

SEC. 9 Items Not Deductible.

(3) Any amount expended in restoring property or in making good the exhaustion thereof for which an allowance is or has been made;

(4) Premiums paid on any life insurance policy covering the life of any officer or employee, or of any person financially interested in any trade or business carried on by the taxpayer, when the taxpayer is directly or indirectly a beneficiary under such policy;

For the purpose of this paragraph— (C) an individual shall be considered as owning the stock owned, directly or indirectly, by his family; and (D) the family of an individual shall include only his brothers and sisters (whether by the whole or half blood), spouse, ancestors, and lineal descendants

(b) Amounts paid under the laws of any State, Territory, District of Columbia, possession of the United States, or foreign country as income to the holder of a life or terminable interest acquired by gift, bequest, or inheritance shall not be reduced or diminished by any deduction for shrinkage (by whatever name called) in the value of such interest due to the lapse of time, nor by any deduction allowed by this act (except the deductions provided for in subsections (i) and (j) of section 8) for the purpose of computing the net income of an estate or trust but not allowed under the laws of such State, Territory, District of Columbia, possession of the United States, or foreign country for the purpose of computing the income to which such holder is entitled.

(c) The obligor of a covenant bond shall not be allowed a deduction for the payment of the tax imposed by this act, or any other tax paid pursuant to the tax-free covenant clause, nor shall such tax be included in the gross income of the obligee."

(a) Under regulations prescribed by the commissioner a person who regularly sells or otherwise disposes of personal property on the installment plan may return as income therefrom in any taxable year that proportion of the installment payments actually received in that year which the gross profit realized or to be realized when payment is completed, bears to the total contract price

(b) In the case (1) of a casual sale or other casual disposition of personal property (other than property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year), for a price exceeding one thousand dollars, or (2) of a sale or other disposition of real property, if in either case the initial payments do not exceed thirty per centum of the selling price, the income may, under regulations prescribed by the commissioner be returned on the basis and in the manner prescribed by this section. As used in this section the term "initial payment" means the payments received in cash or property other than evidence of indebtedness of the purchaser during the taxable period in which the sale or other disposition is made

(c) If a taxpayer entitled to the benefits of subsection (a) of this section elects for any taxable year to report his net income on the installment basis, then in computing his income for the year of change or any subsequent year, amounts actually received during any such year on account of sales or other dispositions of property made in any prior year shall not be excluded.

(d) If an installment obligation is satisfied at other than its face value or distributed, transmitted, sold or otherwise disposed of, gain or loss shall result to the extent of the difference between the basis of the obligation and (1) in the case of satisfaction at other than face value or a sale or exchange—the amount realized, or (2) in case of a distribution, transmission, or disposition otherwise than by sale or exchange—the fair market value of the obligation at the time of such distribution, transmission or disposition. Any gain or loss so resulting shall be considered as resulting from the sale or exchange of the property in respect of which the installment obligation was received. The basis of the obligation shall be the excess of the face value of the obligation over an amount equal to the income which would be returnable were the obligation satisfied in full. This subsection shall not apply to the transmission at death of installment obligations if there is filed with the commissioner at such time as he may by regulation prescribe, a bond in such amount and with such sureties as he may deem necessary, conditioned upon the return as income, by the person receiving any payment on such obligations, of the same proportion of such payment as would be returnable as income by the decedent if he had lived and had received such payment."

Bill ordered transmitted to the Senate.

Explanation of Vote.

At the time of the roll call on the final passage of Assembly Bill No. 1182, it was necessary for me to be present in the Senate Chamber

Had I been present in the Assembly I would have voted "Aye" on the final passage of Assembly Bill No. 1182.

EARL D. DESMOND.

Explanation of Vote.

MR. SPEAKER: Mr. Chatters yesterday, during the discussion of this bill, Assembly Bill No. 1182, and without provocation, took occasion to personally assail my legislative work and to question my record as being for the interests of the common people.

The record that I have made and am making and his record, I think should be the determining factors.

On this bill his record shows three votes as being what the rich people desire, and only one that the poor people desire.

On the other hand, I claim four votes for the interests of the common people, from the fact that I have voted for three amendments which would have raised more money from those who are able to bear their just share of the burden of government, and by finally voting for the bill.

S. L. HEISINGER.

Explanation of Vote.

My vote against Assembly Bill No. 1182 was a protest, against a refusal to increase the rates. I believe a larger percentage of the budget should be raised by income tax.

A. FRANKLIN GLOVER

Explanation of Vote.

I voted for the passage of Assembly Bill No 1182, there being no other alternative, after having made a vigorous attempt to amend the same to increase the returns of an income tax that would be more equitable and in line with the theory that "Taxes from new sources should be distributed so that all shall bear some portion of the burden, but those best able to pay should carry a greater portion of the load"

BEN ROSENTHAL

Explanation of Vote.

I believe in an income tax and I voted for Assembly Bill No. 1182 because I had no alternative. Taxes should be placed upon those best able to pay.

JOHN B. PELLETIER

Explanation of Vote.

SACRAMENTO, CALIFORNIA, April 11, 1935.

Hon Edward Craig,
Speaker, State Assembly,
Capitol, Sacramento, California

DEAR MR. SPEAKER: I respectfully request permission to print the following in the Assembly Journal in explanation of my vote on Assembly Bill No. 1182:

I voted against Assembly Bill No. 1182 because: It is unduly burdensome; duplicates Federal tax; bears heaviest, relatively, on small incomes; many rich will evade it; tends to drive productive capital out of California, prevent investments, at time when State needs more productive enterprises, heavier pay rolls; will lose the State more than it produces.

FRANK G. MARTIN.

Explanation of Vote.

I voted for the passage of Assembly Bill No. 1182, there being no other alternative, after having made a vigorous attempt to amend the same to increase the returns of an income tax that would be more equitable and in line with the theory that, to quote the Governor, "Taxes from new sources should be distributed so that all shall bear some portion of the burden, but those best able to pay should carry a greater portion of the load."

H DEWEY ANDERSON

Explanation of Vote.

Although I have repeatedly stated my objections to a State income tax, and that, in my opinion, such a tax would be detrimental to the interests of this State, I voted for Assembly Bill No. 1182 for the reason that, due to the present financial condition of the State, such a tax was necessary to raise sufficient revenue for the operation of the various departments of our government and care of our unemployed.

KENT H. REDWINE.

Explanation of Vote.

I am opposed to all of Governor Merriam's tax program, and do not consider the present bill, as presented, a fair income tax program.

GENE FLINT.

Explanation of Vote.

I voted in favor of this bill only after all efforts to pass a higher income tax had failed. I personally have fought for and favor an income tax imposing higher rates upon those best able to bear the cost of government.

AUGUSTUS F. HAWKINS.

Explanation of Vote.

I voted for Assembly Bill No. 1182 by the control voting button, but my vote failed to record.

CHARLES J. WAGNER.

Further excerpts from his letter are as follows:

1. "The bill will not compel the Toll Bridge Authority to grant franchises or privileges to all railroads that enter Oakland or San Francisco under the same conditions and rights."

"The power to grant the privilege is thus given, but the power to refuse the privilege is not denied."

2. "It seems clear that the Railroad Commission will have full jurisdiction to fix the rates for transportation by the carrier of persons or property over the toll bridge, and such carriers will be subject to the rules and regulations prescribed by the commission. The rates referred to, however, must not be confused with toll charges. The Toll Bridge Authority will be required to fix the toll charges for carriage of passengers by rail or bus; likewise, the Toll Bridge Authority will prescribe the toll charges for trucks and passenger vehicles. The toll charges applied to the carriage of persons or property by common carrier, whether bus or railroad, will be in addition to the rates fixed by the Railroad Commission."

3. "The bill does not assume to prescribe that the rates shall be the same and a definite answer can not be given"——

The letter from the Attorney General indicates that the bill is so drawn that it is even hard for him to actually inform us what will happen should it be enacted.

However, he does say that the Toll Bridge Authority will fix the tolls, and that those tolls may not be the same. We may assume that such tolls may be discriminatory, or in other words, the Southern Pacific may pay a toll of 2½ cents each for its passengers while the auto passengers may be ten times as much.

He says that rates shall be fixed by the Railroad Commission. Therefore, we may assume that even though the people may build the trackage and rolling stock for the Southern Pacific Company, the rates may be so high as to rob the people while the company might be making millions and the auto public would be paying for the bridge.

It seems strange to me that such a complicated bill should be here on the floor for final passage when even the Attorney General of this State can not tell us what might happen in case of its enactment.

The materials will have to be transported for the purpose of doing such work and in many cases the common carriers of this State are willing to transport such materials free or at reduced rates but under the present law are prohibited from doing so. It is imperative that as much of the money allocated to this State by the Federal Government be used for the employment of citizens as possible, and this act will permit additional sums thereof to be made available for the relief of unemployment. It is therefore imperative that this act take effect immediately."

"This act shall not be deemed to authorize any such proceeding in any case where such proceeding would not be authorized if this act had not been adopted After the expiration of thirty days from the date this act takes effect, this act shall not prohibit the commencement of any proceeding in any case where any interest upon the amount secured by such lien, or assessment, or upon such bond, is delinquent at the time such proceeding is commenced

SEC. 2. Except as provided in this section, the provisions of section 1 of this act shall apply to all special assessments, special assessment taxes, special assessment bonds, ad valorem district bonds, or direct assessment district bonds, issued or levied to pay the cost of the construction of any public improvement or the acquisition of any property for public use, where the cost of such construction is payable in whole or in part by special assessments; or through special assessment taxes upon lands, or through taxes upon all property in a specified district, regardless of the particular statute under which any proceedings are taken and regardless of whether the assessment or tax is upon specific land or upon land wholly or partially according to the assessed value of such land, or upon all the land in a specified district, and shall apply to all liens arising out of such assessment, taxes, or bonds.

The provisions of section 1 of this act shall not apply to:

(a) Any flood control, irrigation, reclamation, sanitary, sanitation or other district organized or incorporated under the laws of the State of California, where *such district constitutes a State agency* or a public or municipal corporation.

(b) Any bond issued or to be issued to provide money with which to construct or acquire any public utility, or for the acquisition, construction, or completion or extension of such public utility.

(c) Any assessment levied for the maintenance or operation of any improvement.

SEC. 3. The period of time within which any proceeding or action shall be taken or filed to foreclose or enforce such lien, assessment, tax, or bond, or to enforce a guaranty specified in section 6 of this act, is hereby extended for such period of time as such foreclosure or enforcement is prohibited according to the provisions of this act. The periods of time prescribed by sections 581, 581a, 581b, and 583 of the Code of Civil Procedure are hereby extended in the case of any such proceeding affected by this act, for the period of time during which the foreclosure or enforcement is prohibited by this act

SEC. 4. This act shall not prohibit the continuation of any proceedings taken or instituted prior to the date this act takes effect, if the commencement of any such proceeding after the date this act takes effect would not be prohibited pursuant to the provisions of section 1 of this act, or if the property prior to the date this act takes effect, is sold for the delinquency on, or a judgment is entered foreclosing the lien of, such bond, assessment, or tax.

SEC. 5. Anything to the contrary in any other statute notwithstanding, during the period of the economic emergency defined herein, the officer charged with the duty of receiving payment on account of any such bond or assessment is, until the end of that period, authorized to accept the payment of any interest, and penalties for delinquencies in the payment thereof, on such bond or assessment without the payment of any installment of principal due or past due thereon, unless he receives notice, pursuant to any statute, that an action or proceeding has been commenced to enforce such lien.

SEC. 6. No suit or action shall be brought against the guarantor upon any guaranty of payment of all or a portion of any such assessment, tax, or bond, or of any instrument issued and secured by any such assessment, tax, or bond, during the economic emergency defined herein in any case where a proceeding to enforce the lien of the assessment, tax, or bond, is prohibited by this act.

SEC 7. The period from the date this act takes effect until _____ is hereby found by the Legislature to be a period of great economic emergency, necessitating the extension of the special relief and protection contained in this act

SEC. 8. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of section 1, of Article IV of the Constitution, and shall therefore take effect immediately. The following is a statement of the facts constituting such urgency

The peace, safety and welfare of citizens of this State are dependent upon immediate relief from the payment of principal or installments thereof due upon such assessments, taxes, and bonds, by reason of the fact that the present economic crisis has made the owners of property upon which such lien falls unable to pay the principal due thereon The property, as a result of the depression, has neither a reasonable existing sale value, nor does it at present furnish satisfactory or realizable security for raising funds for the payment of these bonds. If these persons lose their homes as a result of proceedings arising out of the nonpayment of these sums, the burden of their support and maintenance will have to be assumed by the State or by local taxation, to the great injury of the State or local government of this State It is therefore necessary that the temporary relief given by this act be immediately extended and this act should therefore take effect immediately."

Bill read second time, ordered to reprint, engrossment, and third reading.

Amendment No. 1.

On page 1, lines 1 and 2 of the title of the printed bill, strike out "the "Sewer Revenue Bond Act," approved May 15, 1933," and insert in lieu thereof the following: "section 8 of and to add section 8a to the Sewer Revenue Bond Act,"

Amendment No. 2.

On page 1, line 1, of the printed bill, insert after 'SECTION 1.", the following: "Section 8 of the Sewer Revenue Bond Act is hereby amended to read as follows:

Sec. 8. The governing body of the city, county or district, as the case may be, shall have power, and it shall be its duty, to establish just and equitable rates or

charges for the use and maintenance of such works, to be paid by the person, firm or corporation leasing or occupying the building or premises served thereby or that in any way uses or is served by such works, and may change and readjust such rates or charges from time to time. Such rates or charges shall be sufficient in each year for the payment of the proper and reasonable expenses of operation, repair, replacements and maintenance of the works, and for payment of the sums required to be paid into the sinking fund as hereinafter mentioned No such rates or charges shall be established until after a public hearing, at which all the users of the works and owners of property served or to be served thereby and others interested shall have opportunity to be heard concerning the proposed rates or charges. After introduction of the ordinance, resolution or order fixing such rate or charges, and before the same is finally enacted, notice of such hearing, setting forth the proposed schedule of such rates or charges shall be given by one publication in a newspaper published in such city, county or district, if there be such a newspaper, but otherwise in a newspaper having general circulation therein, at least ten days before the date fixed in such notice for the hearing, which may be adjourned from time to time. After such hearing the ordinance, resolution or order establishing rates or charges, either as originally introduced or as modified and amended, shall be passed and put into effect A copy of the schedule of such rates and charges so established shall be kept on file in the office of the clerk or secretary of such city, county or district, and shall be open to inspection by all persons interested. The rates or charges so established for any class of users or property served may be extended to cover any additional premises thereafter served which fall within the same class, without the necessity of any hearing or notice Any change or readjustment of such rates or charges may be made in the same manner as such rates or charges were originally established as hereinabove provided. All such rates or charges if not paid when due shall constitute a lien upon the premises served by such works. (If any service rate or charge so established shall not be paid within thirty days after the same is due, the amount thereof, together with a penalty of ten per cent may be recovered by a civil action brought in the name of the city, county or district, as the case may be)

The governing body may establish variable rates and charges for different classes of users, or for different parts of the city, county, or district, where sewage works or portions thereof have been previously installed and financed under other laws or methods, so that such variable rates or charges may be most equitable and just to all concerned: provided such rates or charges may only be imposed and collected from the users of such works or portion thereof as are actually constructed with money derived from the sale of such revenue bonds; provided further, however, that if the users of any works or portion thereof previously acquired and financed by other methods, receive any additional benefits from the construction or operation of the works or portion thereof subsequently constructed or acquired from the proceeds of revenue bonds, then and in that case, the governing body shall be empowered to impose reasonable rates or charges on the works previously acquired, but only sufficient to cover the value of such additional benefits.

SEC. 2. Section 8a is hereby added to the Sewer Revenue Bond Act to read as follows:

Sec 8a. All rates and charges for service from such sewage system, work or improvement and all penalties thereon shall constitute a lien upon the premises served by such sewage system, work or improvement (except that no such lien shall be created against any publicly owned property) and such lien shall continue until the rate or charge and all penalties thereon are fully paid or the property sold therefor. Such lien shall attach on the date the rate or charge is due, but no purchaser or encumbrancer for value shall be deemed to have notice or knowledge thereof until the treasurer or other officer whose duty it is to collect the rate or charge files a list of unpaid rates or charges with the county recorder, stating the amount of each rate or charge, a description of the property upon which the same is a lien and the name of the county, city and county or municipality to which the same is payable If the rate or charge is not paid when due, on the first day of each calendar month thereafter a penalty of twenty-five per cent of the amount of the delinquent rate or charge shall be added thereto. The following remedies are established for the collection of said rates or charges and the penalties thereon: First, an action may be brought in the name of the county, city and county or municipality in any court which has jurisdiction, against the person or persons who occupied the property when the service was rendered, for the collection of the amount of the delinquent rate or charge and all penalties thereon. In such action a reasonable attorney's fee shall be awarded the plaintiff Second, an action may be brought in the name of the county, city and county or municipality in any court of competent jurisdiction to foreclose the lien of the rate or charge and all penalties thereon. In such action a reasonable attorney's fee shall be awarded plaintiff. Third, on June 2d and December 2d of each year (or if said date falls upon a Sunday or a holiday, then on the next business day thereafter), the county, city and county or municipality treasurer may sell all parcels of property on which the rates or charges have been delinquent for a period of sixty days, at public sale to the person who offers to purchase the least quantity thereof and pay therefor all due and unpaid rates or charges and penalties thereon and fifty cents for the cost of publishing notice of sale. Notice of such sale shall be given by two publications thereof, stating the time and place of

sale, description of property to be sold and the amount which will be required to purchase same. If no person offers to purchase a parcel it shall be struck off to the county, city and county or municipality. The treasurer shall make and keep in his office a record of all parcels sold, showing date of sale, name of purchaser, description of property sold, and sale price. Redemption from the treasurer's sale or from foreclosure sale may be made within one year from date thereof. In case of redemption the purchaser shall be entitled to interest at the rate of two per cent a month. After the expiration of the period of redemption from the treasurer's sale the treasurer shall make a deed of the property sold to the purchaser. Such deed shall be conclusive evidence of the regularity of the sale and shall vest title in the purchaser free and clear of all encumbrances except taxes and assessments. Any action, suit or proceeding asserting the invalidity of the sale must be begun before the expiration of the period of redemption, and after the deed issues no defense that the sale is invalid may be asserted. Fourth, the legislative body may provide that the rate or charge for sewage service shall be collected with the charge or charges for any other utility service rendered by the county, city and county or municipality and all such charges shall be itemized, billed upon the same bill and collected as one item, and in case of nonpayment of the sewage rate or charge, within thirty days after delinquency thereof the city official or officials shall cut off the water, electric or other utility service billed on the same bill as the sewage charge, and said service shall not be restored until all delinquent sewage charges and all penalties thereon are fully paid. Fifth, the legislative body of the county, city and county or municipality may establish additional remedies for collecting and enforcing rates or charges for sewage service and may change the remedies established by it from time to time in order to facilitate the collection of such rates.

The remedies for collecting and enforcing rates and charges herein set out are cumulative and may be pursued alternately or any thereof may be used consecutively when the legislative body so determines. If any one of said remedies is or may be invalid, all valid remedies shall remain effectual. Until the principal and interest of the bonds are fully paid any holder of any bond outstanding at any time may compel the use of any or all of the remedies herein provided. The Legislature may prescribe additional remedies for the prompt and efficient collection of said rates."

Explanation of Vote.

We believe a shorter day would bring about more employment and I favor any *legitimate method to accomplish such a purpose, but this bill without similar Federal* action, would put our factories and industries at a disadvantage with other States, which might work a misfortune on our workers as well as our industries.

Therefore, we shall vote "No."

S. L. HEISINGER
HENRY P. MEEHAN.
ERNEST C. CROWLEY.

Explanation of Vote.

The fact that Congress has not enacted legislation establishing the 30-hour week would mean that if Assembly Bill No. 574 is enacted into law, labor and business in California will be very definitely penalized by its discriminatory provisions California industry can not compete with industry in other States which would not be so penalized Such a measure as this will defeat its own purpose and will increase unemployment in California. I favor a 30-hour week law, National in its scope and objective.

KENNETT B. DAWSON,
Assemblyman, Twenty-second District.

Assembly Constitutional Amendment No. 3.

A resolution to propose to the people of the State of California an amendment to section 7½a of Article XI of the Constitution of the State of California, relating to local government

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its fifty-first regular session commencing on the seventh day of January, 1935, two-thirds of the members elected to each of the two houses voting in favor thereof, hereby proposes to the people of the State of California that section 7½a of Article XI of the Constitution of the State of California be amended to read as follows.

Sec. 7½a. Any county having within its territorial boundaries one or more incorporated cities or towns, may frame a charter for a consolidated city and county government, by causing a board of fifteen freeholders, who have been for at least five years qualified electors of the county, to be elected by the qualified electors of said county, at a special election. Said board of freeholders may be so elected in pursuance of an ordinance adopted by the vote of three-fifths of all of the members of the board of supervisors of such county, declaring that public interest requires the election of such board of freeholders for the purpose of preparing and proposing a charter for a consolidated city and county, with or without a system of boroughs, with combined powers of a city and a county, as in this Constitution provided for city and county government, or in pursuance of a petition of qualified electors of said county as hereinafter provided; which said petition must state the name and address of a person or persons to whom notice of the insufficiency of the petition shall be sent in the event that the petition shall not have the required number of signatures of the qualified electors signed thereto. Such petition, signed by 15 per centum of the qualified electors of said county, computed upon the total number of votes cast therein for all candidates for Governor at the last preceding general election at which a Governor was elected, praying for the election of a board of 15 freeholders to prepare and propose a charter for a consolidated city and county government, with or without a system of boroughs, with combined powers of a city and a county, as in this Constitution provided, may be filed in the office of the county clerk It shall be the duty of the said county clerk, within 20 days after the filing of said petition, to examine the same, and to ascertain from the record of the registration of the electors of the

county, whether said petition is signed by the requisite number of qualified electors If required by said clerk, the board of supervisors shall authorize him to employ persons to assist him in the work of examining such petition, and the board shall provide for their compensation Upon the completion of such examination, said clerk shall forthwith attach to said petition his certificate, properly dated, showing the results of his examination, and if, by said certificate, it shall appear that said petition is signed by the requisite number of qualified electors said clerk shall immediately present said petition to the board of supervisors, if it be in session, otherwise at its next regular meeting after the date of such certificate If it appear by said certificate that said petition has not the required number of signatures of the qualified electors signed thereto, the said clerk shall so notify the person or persons whose name or names are mentioned therein, to whom the notification of the insufficiency of the petition shall be sent Whereupon the petitioners shall have 30 days from and after the date of receiving the notice of insufficiency from the clerk, to present and file additional signatures. Upon the receipt of the additional signatures, the clerk shall proceed forthwith to examine the petition of additional signatures, so that such examination shall be completed within 10 days from the date of his receiving same If it appear that the number of additional signatures added to those who have not been legally rejected upon the original petition, shall total the requisite number of qualified electors necessary as provided in this section, the clerk shall forthwith attach to said petition his certificate, properly dated, showing that said petition has been signed by the requisite number of qualified electors, and said clerk shall immediately present said petition to the board of supervisors if it be in session, otherwise at the next regular meeting after the date of such certificate. Upon the adoption of such ordinance, or the presentation of such petition, said board of supervisors shall order the holding of a special election for the purpose of electing such board of freeholders, which said special election shall be held not less than 40 days nor more than 90 days after the adoption of the ordinance aforesaid or the presentation of said petition to said board of supervisors Candidates for election as members of said board of freeholders shall be nominated by petition, substantially in the same manner as may be provided by general law for the nomination, by petition of electors, of candidates for county offices, to be voted at general elections. The election shall be conducted and the ballots canvassed and result declared substantially as are other elections for county officers, except that there shall be only one election and the 15 persons receiving the highest vote shall be declared the duly elected board of freeholders All ties shall be broken by lot

It shall be the duty of said board of freeholders within 180 days after the result of such election shall have been declared by the board of supervisors, to prepare and propose a charter for a consolidated city and county government, and it may prescribe the existing boundary lines of the county as the territorial limits of said proposed city and county, and propose the formation of all of the incorporated cities and towns and all of the unincorporated territory within the county into a consolidated city and county government to be governed by said charter, and to have combined powers of a city and a county, as provided in this Constitution for consolidated city and county government Or said board of freeholders may propose, in the alternative, that a lesser area than that of the whole county, to consist of those incorporated cities and towns hereinafter required to be designated and named by the board of freeholders as necessary and essential to effect consolidation, also those incorporated cities and towns, which as hereinafter provided, may by a majority vote of the qualified electors voting thereon separately, vote in favor of such consolidation, together with any unincorporated territory within the county proposed to be added, may be formed into a consolidated city and county government, to be governed by said charter, and to have combined powers of a city and a county as provided in this Constitution for consolidated city and county government.

When such proposal is submitted in the alternative, the board of freeholders must designate and name as necessary and essential to effect city and county consolidation, all of the incorporated cities within the county having a population of 150,000 inhabitants or over, as ascertained by the last preceding census taken under the authority of the Congress of the United States, and no consolidation shall be effected unless, as hereinafter provided, a majority of the qualified electors, voting separately thereon in each of said designated and named incorporated cities vote in favor of such proposal.

The charter proposed shall be signed by the members of the board of freeholders, or a majority of them, and be filed, one copy in the office of the county recorder, one in the office of the county clerk, and certified copies thereof duly attested by the president and secretary of the board of freeholders shall be filed in the clerk's office of each incorporated city and town in the county. The board of freeholders shall thereupon take a recess until called together by the board of supervisors as hereinafter provided Thereupon the board of supervisors shall cause said proposed charter to be published in at least two daily newspapers of general circulation published, printed and circulated in the county, for at least six consecutive times, and shall also cause said proposed charter to be published for at least three con-

secutive times in a daily newspaper of general circulation, printed, published and circulated in each of the incorporated cities and towns within the county, and if there be no daily newspaper printed, published and circulated in any of such incorporated cities and towns then, once in a weekly newspaper published, printed and circulated therein; provided, however, if there be no daily or weekly newspaper published, printed and circulated in any of such incorporated cities or towns, then said publication shall be made by posting in three public places in each of said incorporated cities or towns having no such newspaper, for at least three days. All of such publication shall be completed within fifty days of the filing of the proposed charter with the county clerk. The board of supervisors shall cause to be printed in pamphlet form, at least as many copies of such proposed charter, plus an additional 15 per cent, as there are registered electors in the county. The county clerk shall forthwith deliver to the clerk of the legislative body of each and every incorporated city or town within the county, a number of the printed copies of the proposed charter, equal at least to the number of registered electors residing in any such incorporated city or town. The county clerk shall thereupon give notice, by advertising in one and not more than two daily newspapers of general circulation published, printed and circulated in the county, and if there be a newspaper published, printed and circulated in any of such incorporated cities and towns, in one such newspaper of each said city or town, that copies of the proposed charter can be had at his office or at the office of the several city or town clerks, designating them, upon application. Upon the completion of the publication of the proposed charter as above required, and not later than 15 days thereafter, the board of supervisors must pass an ordinance or resolution calling a separate election in each of the incorporated cities and towns within the county, for submitting the proposal for consolidation to the electors thereof Each incorporated city or town shall be considered one separate district, and the proposal for such consolidation shall be submitted separately to the electors thereof, as hereinafter provided. The date of such election shall be fixed in the resolution or ordinance adopted by the board of supervisors, which date shall not be less than 40 days nor more than 90 days from the date of the passage of such resolution or ordinance calling the election for the submission of said proposal. The separate elections held in the several cities and towns must all be held on the same day. The resolution or ordinance calling such elections shall be published for five successive days in one daily newspaper of general circulation published, printed and circulated in the county, so that the last publication shall have been completed at least five days before the date of the election. The resolution or ordinance calling such elections, shall also be published for three successive days in one daily newspaper of general circulation, published, printed and circulated in each of the incorporated cities and towns, and if there be no daily newspaper published, printed and circulated in any of such incorporated cities and towns, then twice in a weekly newspaper; provided, however, that if there be no daily or weekly newspaper published, printed and circulated in any such incorporated city or town, such publication may be made by posting in three public places in said incorporated city or town for at least three days before the date of election.

The board of supervisors must appoint election officers in the same manner and give notice of such appointment by publication, as provided by the general law for the appointment of election officers at general elections; provided, however, that the board of supervisors shall not appoint more than four election officers to each election precinct; and provided further, that the number of precincts in each city or town comprising an election district shall not be less than the number of precincts used at the last general election. In all other respects, every such election shall be held and conducted, the returns canvassed and the result thereof declared by the board of supervisors in the same manner as provided by law for general elections.

The proposal to be submitted to the electors of each of said incorporated cities and towns shall be substantially as follows: "Shall the (herein designate by name the incorporated city or town) join with the other incorporated cities and towns within the county of (herein insert name of county) together with the unincorporated territory within the said county, and form and establish a consolidated city and county (herein insert whether it is proposed to have a system of boroughs) to be known as the city and county of (herein insert the name proposed) to be governed by the charter proposed by the board of freeholders, which charter has been filed in the office of the county clerk and duly published, said charter to take effect on (herein insert date mentioned in charter when city and county consolidation shall take effect)?" If the board of freeholders have proposed an alternative proposition, the ballot shall, in addition to the above proposal, state substantially that if said principal proposal does not receive a majority vote of the electors, voting thereon, in all of the incorporated cities and towns within the county, but receives a majority vote of the electors, voting thereon in each of the incorporated cities within the county (naming them) which have been designated and named as the cities necessary and essential in which a favorable vote must be had to effect consolidation of an area less than the whole of the county, then the proposition of the formation and establishment of a district into a consolidated city and county, which district shall

include said named incorporated cities, also other contiguous incorporated cities and towns in which a favorable vote was had upon the proposition, and certain unincorporated territory (which district shall be the area described in the proposed amended charter), shall be thereafter submitted to the qualified electors of such district for their approval. Also there must be stated in such proposal such reference to taxation and bonded indebtedness and the liability therefor as is provided in the proposed charter.

If after the canvass of the votes and the declaration of the result by the board of supervisors, it appear that a majority of the electors in each of the incorporated cities and towns in the county, voting separately thereon at said election, have voted in favor of said proposal, the board of supervisors shall so certify such fact to the board of freeholders and set a day for the reconvening of said board of freeholders which day shall not be later than ten days after the certification by the board of supervisors. The board of freeholders shall enter the certificate of the board of supervisors in its minutes and shall have no power to change or alter in any manner any of the provisions of the charter as heretofore prepared and published. It shall thereupon adjourn.

Whereupon the said proposed charter shall be submitted by said board of supervisors to the qualified electors of the whole of said county at a special election to be held not less than 30 nor more than 60 days after the adjournment of the board of freeholders, or if there be a general election held within 90 days after the adjournment of the said board of freeholders then at such general election.

If a majority of the qualified electors voting thereon in the county, at such special or general election, shall vote in favor of such proposed charter, it shall be deemed to be ratified, and shall be forthwith submitted to the Legislature, if it be in session otherwise at its next regular or special session, for its approval or rejection as a whole, without power of alteration or amendment. Such approval may be by concurrent resolution, and if approved by a majority vote of the members elected to each house, such charter shall become the charter of such consolidated city and county and shall become the organic law thereof relative to matters therein provided, and shall supersede any existing municipal charter of the cities within the county and all amendments thereof, and shall supersede all laws inconsistent with such charter relative to matters provided in such charter.

If it appear, after a canvass of the votes by the board of supervisors, that the proposal has not received a favorable vote in all of the incorporated cities and towns within the county, and the proposal submitted shall have provided in the alternative that a lesser territory than that of the whole not less than the incorporated cities designated and set forth in the proposal as necessary and essential to effect consolidation, may form and establish a consolidated city and county government, and a majority of the electors in each of the said incorporated cities designated as necessary and essential to effect consolidation have voted in favor of such proposal, the board of supervisors shall so certify the fact to the board of freeholders, and also certify all other incorporated cities or towns in which a majority of the electors have voted in favor of such proposal. The board of freeholders shall, within fifteen days thereafter, reconvene and meet upon a day to be fixed by the board of supervisors and shall proceed to rearrange and define the boundaries for the proposed new city and county, including therein all of the incorporated cities certified by the board of supervisors, in which a majority of the electors have voted in favor thereof, and which by the terms of the proposal were designated as necessary and essential to effect consolidation. The board of freeholders must also include in the boundaries for the new proposed city and county any incorporated city or town having a population of less than ten thousand inhabitants, as ascertained by the last preceding census taken under the authority of the Congress of the United States, which if such new proposed city and county is formed, would be surrounded by such area proposed to be formed into a city and county, or which is contiguous thereto and not contiguous to the largest area of the remainder of the original county from which the proposed city and county proposes to separate, notwithstanding that the result of the election in any such incorporated city or town as shown by the canvass of the votes of the board of supervisors, was unfavorable thereto. The board of freeholders may also include in the boundaries of the proposed new city and county, other incorporated cities or towns, not designated and named as necessary and essential to effect consolidation, but in each of which a majority of the electors have voted in favor of such proposal, together with such unincorporated territory within the county as it may desire, the whole to form one compact area, no part of which shall be disconnected from the remainder thereof.

No amendment or changes in the provisions or sections of the proposed charter as originally prepared, published and filed in the office of the county clerk, shall be made by the board of freeholders at its second session, except as herein provided. The board of freeholders at its second session shall have power to change the territorial limits or boundaries in such charter as hereinbefore provided. It shall also have power to change the number, by reduction thereof, of boroughs and of the councilmanic or supervisorial districts and the number of councilmen or supervisors to be elected, and to rearrange and number said districts to conform to the area

to be formed into a city and county, except that boroughs previously established by the charter, if their territory is within the area of the proposed city and county shall not be changed. It may also provide a lesser salary to be paid to any officer of the proposed city and county, if such salary is stated and fixed by the original proposed charter, and it may correct any mistake or clerical or typographical errors.

The board of freeholders shall complete its labors, as above required, within 10 days after the date fixed by the board of supervisors for its second meeting unless given an additional 10 days' time by said board of supervisors. Within said 10 days and not later than 20 days, if such time has been extended, the members of the board of freeholders, or a majority thereof, shall sign the proposed charter as amended, and file one copy thereof in the county recorder's office and two copies in the county clerk's office, one of which copies shall thereafter be filed by the county clerk, in the archives of the new city and county government, when the charter shall have been approved by the Legislature.

The provisions of section 2 of this article, and also those provisions of section 3 of this article which refer to the passing of any county line within five miles of the exterior boundary of a city or town in which a county seat of any county proposed to be divided is situated, shall not apply to the formation of such consolidated cities and counties, nor to the formation of new counties or of any city and county as herein specified under any of the provisions of this section.

Within 10 days after the filing of the proposed charter, as amended by the board of freeholders, with the county clerk, the whole area of the proposed new city and county shall, by resolution of the board of supervisors, be created into a district, for the purpose of submitting the proposed charter, as amended, to the electors thereof, for their approval. The question of the adoption of the proposed charter as amended, shall be submitted to the electors of the whole of the area proposed to be formed into a consolidated city and county as one proposal.

The board of supervisors shall forthwith, and not later than 20 days from the date of the resolution creating said district, pass an ordinance or resolution calling an election in the whole county, for the purpose of submitting the question of the consent of the electors of the whole county to the separation, of the district proposed in the charter, from the original county, and for the purpose of submitting the question of the adoption of the proposed charter to the electors residing within the district created, or the proposed territory described in the charter as amended, as the territorial boundaries of the proposed new city and county.

Both propositions or proposals shall be submitted at one election, as hereinafter provided. The date of such election shall be fixed in the resolution or ordinance calling such election, which date shall not be less than 20 days nor more than 60 days from the date of the passage of the resolution or ordinance calling such election.

The resolution or ordinance calling such election shall be published for five consecutive days in not less than two daily newspapers, if there be two, if not, in one daily newspaper of general circulation published, printed and circulated in the county; or if there be no such daily newspapers, then twice in at least one weekly newspaper published, printed and circulated in the county. Such resolution or ordinance shall also be published for a like time in at least one daily newspaper of general circulation published, printed and circulated within the area or territory proposed to be formed into a consolidated city and county.

The amended sections of the charter shall also be published for three consecutive days in at least one daily newspaper published, printed and circulated in the county, and if there be no daily newspaper published, printed and circulated in the county, then twice in a weekly newspaper published, printed and circulated in the county. Such amended sections of the charter shall likewise be published in at least one daily newspaper published, printed and circulated within the area or district proposed to be formed into a city and county, and if there be no such daily newspaper thence twice in a weekly newspaper published, printed and circulated in such area.

The board of supervisors must appoint election officers in the same manner, and give notice of such appointment by publication, as provided by the general law for the appointment of election officers at general elections, except that no more than four election officers shall be appointed to each election precinct. In all other respects, every such election shall be conducted, the returns canvassed and the result declared by the board of supervisors in the same manner as provided by law for general elections.

The proposal to be submitted to the electors of the whole of the county and the proposals to be submitted to the electors of the district or area described in the charter as the territorial boundaries of the proposed new city and county, shall be as follows:

In the county outside of the district or area described in the charter as the territorial boundaries of the new consolidated city and county, the only proposal to be submitted to the electors thereof shall be substantially as follows:

"Shall the incorporated cities and towns (herein name them) and the unincorporated territory (if any) (herein describe the unincorporated territory) be permitted to separate from (herein name the county) and establish a consolidated city and county to be known as (herein insert name of new county) the separation to take

effect on (herein name date fixed in the proposed charter for the taking effect of the new city and county government)?"

In the district created by the resolution of the board of supervisors, which shall be the area described in the amended proposed charter, the same proposal as above shall be submitted to the electors, and also shall be submitted separately the question of the establishing of the area into a new consolidated city and county and the approval and ratification of such charter, substantially in the following form: "Shall the (herein describe the territory as described in the proposed amended charter) consolidate and be formed and established into a city and county government to be known as (herein state name of city and county) (herein state whether there shall be a system of boroughs) and shall the charter prepared, published and filed in the office of the county clerk on (herein state the date upon which the amended charter as to boundaries was filed) be adopted as the charter of the consolidated city and county, to take effect (herein state date mentioned in the charter when the consolidation shall take effect)?" Also may be stated in this proposal such reference to taxation and bonded indebtedness and the liability therefor as provided in the proposed charter.

Upon consent to the separation of such district being given by a majority of the qualified electors, voting thereon, at such election, in the whole of the county, and upon the approval and ratification of such charter by a majority of the qualified electors voting thereon in the district or area which is to be formed into a consolidated city and county, and by the approval of said charter by the Legislature, as hereinbefore provided in this section for the submission of the charter to the Legislature when the whole of the county is to be formed into a consolidated city and county, said charter shall be deemed adopted, and upon the date fixed in said charter such district shall be and become one consolidated city and county, and the charter shall become the organic law thereof relative to matters therein provided, and shall supersede any existing municipal charter of the cities consolidated by it, and shall likewise supersede all laws inconsistent with such charter relative to matters provided in such charter.

It shall be competent, in any charter, or amendment thereof, framed under the authority given by this section to provide in addition to those provisions allowable by the Constitution and laws of the State as follows:

1. For the merging and consolidating the cities and county into one municipal government with one set of officers; for the establishment of a borough system of government for the whole or any part of the territory of said city and county, by which one or more districts may be created therein, which districts may be known as boroughs and shall exercise such municipal powers as may be granted by such charter, and for the organization, constitution, regulation, government and jurisdiction of such boroughs, which organization, constitution, regulation, government and jurisdiction may provide for rural districts, with different powers and organization, constitution, regulation, government and jurisdiction from other boroughs; provided, that in the event of such establishment or creation of a borough or boroughs, as hereinabove permitted, the boundaries thereof shall never afterwards be changed or altered, nor shall the governmental rights, powers or jurisdiction of any such borough or boroughs be thereafter limited, extended, modified or taken away, unless and until the borough or boroughs affected by such proposed change or alteration of boundaries, or by the proposed limitation, extension, modification or taking away of governmental rights, powers or jurisdiction, as the case may be, shall each have consented thereto, by the vote of a majority of the electors in each and every such borough voting at an election or elections called and held for such purpose in each of the boroughs so affected.

2. For the consolidation and merging of school and high school and union high school districts into one or more school, high school and union high school district within the city and county, to be governed by one board of education and one school superintendent, and may provide separate organization, constitution, regulation, government and jurisdiction and powers for rural school districts, if any are established.

3. For the constitution, regulation, government and jurisdiction of police courts, and for the manner in which, the times at which, and the terms for which the judges of such courts shall be elected or appointed, and for the qualifications and compensation of said judges and of their clerks and attaches; and for the establishment, constitution, regulation, government and jurisdiction of municipal courts with such civil and criminal jurisdiction as by law may be conferred upon inferior courts; and for the manner in which, the time at which, and the terms for which the judges of such courts shall be elected or appointed, and for the qualifications and compensation of said judges and of their clerks and attaches; provided, such municipal courts shall never be deprived of the jurisdiction given inferior courts created by general law; provided, that in any city and county, when such municipal court has been established, there shall be no other court inferior to the superior court; and pending actions, trials, and all pending business of inferior courts within the territory of such city or city and county, upon the establishment of any such municipal court, shall be and become pending in such municipal court, and all records of such inferior court shall thereupon be and become the records of such municipal court

4. For the manner in which, the times at which, and the terms for which the members of the board of education or boards shall be elected or appointed, for the qualifications, compensation and removal, and for the number which shall constitute any one of such boards.

5. For the manner in which, the times at which, and the terms for which the members of the board or boards of police commissioners shall be elected or appointed; and for the constitution, regulation, compensation, and government of such boards and of the municipal police force.

6. For the manner in which and the times at which any municipal election, or borough election shall be held and the result thereof determined; and for manner in which, the times at which, and the terms for which the members of all boards of election shall be elected or appointed, and for the constitution, regulation, compensation and government of such boards, and of their clerks and attaches, and for all expenses incident to the holding of any election.

It shall be competent in any charter framed in accordance with the provisions of this section, for any consolidated city and county, and plenary authority is hereby granted, subject only to the restrictions of this article, to provide therein or by amendment thereto, for the powers and duties of all county, city and county, municipal and borough officers; for the manner in which, the method by which, and the terms for which the several county, city and county, municipal and borough officers, except judges of the superior court, shall be elected or appointed, and for their recall and removal, and for their compensation, and for the number of deputies, clerks and other employees that each shall have, and for the powers and duties, compensation, method of appointment, qualifications, tenure of office and removal of such deputies, clerks and other employees.

7. It shall be competent in any charter, or amendment thereto, framed in accordance with the provisions of this section, to provide that the city and county may make and enforce all laws and regulations, and exercise all rights and powers in respect to municipal affairs and municipal officers, and shall have all powers and rights appropriate to a county, city, and city and county subject only to the restrictions and limitations provided in such charter.

Any charter framed under the provisions of this section, which charter provides for the formation of the whole territory of the county into a consolidated city and county, may provide for the termination of the tenure of office of all county officers elected after the adoption of such charter by the electors of such county and prior to the approval of such charter by the Legislature.

8. No property in any city or town or territory hereinafter consolidated into a city and county shall be taxed for the payment of any indebtedness outstanding at the time the charter takes effect and for the payment of which indebtedness the property in such city or town or territory was not, prior to the taking effect of such charter, subject to such taxation, unless there shall have been submitted to the qualified electors of such city or town or territory, at the separate election submitting the proposal in the first instance to join, the proposition regarding the assumption of such indebtedness as hereinbefore set forth and the same shall have been approved by a majority of such electors voting thereon.

In all cases of consolidation of two or more incorporated cities and towns, or of one or more incorporated cities or towns with unincorporated territory, into a city and county, assumption of existing bonded indebtedness by such city or town or by such unincorporated territory or by either of the cities and towns so consolidating may be made by a majority of the qualified electors voting thereon in the territory or city or town which shall assume an existing bonded indebtedness, and the provisions of section 18 of this article shall not be a prohibition thereof.

Every city and county which shall be formed, under the provisions of this section, of territory which shall have been taken from the original county, shall be liable for a just proportion of the debts and liabilities and be entitled to a just proportion of the property and assets of such county existing at the time of such separation.

If the population in the territory formed into a city and county, by separation from the original county, is equal to or greater in number than two-thirds of the population of the whole of the original county at the time of the formation of such city and county, the city and county so formed and separating itself from the original county, shall be entitled to the original records and books of the original county, upon supplying to the original county certified copies of all records, documents and books properly bound and indexed, which affects or may affect the property of the remaining portion of the original county, or which it may in the future have occasion to refer to; and such certified copies so furnished and certified by the county clerk if the copies are issued from his office, and by the recorder if issued from his office, or by any other officer of the county if they be copies of records in his office, shall be competent evidence in any court proceeding or action which may thereafter be commenced.

The Legislature of the State may enact such general laws as may be necessary to carry out the provisions of subdivision 8 of this section

If by the formation of a city and county, under the provisions of this section, any territory whether incorporated or unincorporated is separated from the original county, and by such separation, any of the elective officers of the original county, have by reason of such separation ceased to be residents or electors of the original

county, such elective officers shall continue to serve, and be charged with all of the powers and duties of the office to which they were elected, until the expiration of the term for which they were elected, and their salaries shall be paid, by both the new city and county and the remaining portion of the original county, in proportion and in the ratio as the population of each bears to the whole population of the original county.

If under the provisions of this section, any city and county is formed which does not include the whole of the original county, and by reason of the separation of the territory comprising the new city and county, any incorporated city or town or any unincorporated territory is separated from the largest area of the remainder of the county, by reason of its exterior boundary not being contiguous thereto, the Legislature shall provide for the transfer of such portion or portions to an adjoining county or counties whose exterior boundary or boundaries may be contiguous thereto, or it may transfer such portion or portions to the new consolidated city and county; provided, however, if there be formed and established under the provisions of this section, a consolidated city and county government of a lesser area than that of the whole county, and there be any incorporated city having a population of 40,000 inhabitants or over, within the county, as ascertained by the last preceding census taken under the authority of the Congress of the United States, which is not included therein, or if by the formation and establishment of any lesser area than that of the whole county into a consolidated city and county, any such incorporated city having such population is separated and detached from the largest area of the remainder of the original county, by reason of its exterior boundaries not being contiguous thereto, then such incorporated city, together with all other incorporated cities or towns or unincorporated territory in such original county, which if said new city and county is formed and established would likewise be so separated and detached, and which are contiguous to each other and form one compact area, may organize and establish a consolidated city and county government for the whole of such detached territory under the provisions of section 8 of this article, by adopting a freeholders' charter in accordance with the provisions of said section, and to have all of the powers conferred by said section; except, that for the purpose of the election of the members of the board of freeholders, and the organization and establishment of such consolidated city and county government, the whole of such detached area proposed to be formed into such consolidated city and county, shall be treated and considered as a city, within the meaning of section 8 of this article; and except that all elections thereunder and all proceedings for the adoption of such charter shall be initiated and conducted by the governing body of the incorporated city having the largest population in such detached area. Such charter may be submitted to the electors within the area of the detached territory, for their approval, at any time subsequent to the adoption of the charter prepared by the freeholders elected by the electors of the whole of the original county, but the same shall not be ratified by the Legislature of this State, until after the ratification by the Legislature of the charter adopted in the first instance, which provided for the formation of a lesser territory than that of the whole county into a consolidated city and county government.

If under the provisions of this section any city and county is formed, which does not include the whole of the area of the original county from which it is permitted to separate, and any remainder of the county is not transferred to another county as in this section provided, but is to continue as a county, the Governor of the State shall designate and assign, from among the judges of the superior court of the original county in office at the time of the taking effect of the new city and county government, as many judges as the ratio of the population contained in the area formed by the new city and county bears to the population of the whole of the original county at the time of the approval of the charter by the Legislature, and the judges so assigned shall be and become the judges of the superior court of the new city and county, to hold office during the term for which each of them shall have been elected.

Upon the approval by the Legislature of any charter framed under the provisions of this section, which charter provides for the separation of any new city and county from the original county, the board of supervisors of the original county, shall, at the time and in the manner set forth in such charter so approved, pass an ordinance calling an election in the area which is consolidated into a city and county, for the purpose of nominating and electing the first officers thereunder. Said board of supervisors shall canvass the votes and declare the result of such election. The county clerk or other officer having charge of registration of electors shall furnish to the district or city and county so consolidated, the voting list and precinct registers of all the electors residing in the area of the territory wherein the election is to be held.

The provisions of this Constitution applicable to cities, and cities and counties, and also applicable to counties, so far as not inconsistent or prohibited to cities or cities and counties, except in the method of procedure of calling elections for the election of freeholders and the submission of the question of the formation of a consolidated city and county, shall be applicable to such consolidated city and county.

Any charter framed under the provisions of this section may be amended as provided in section 8 of Article XI of this Constitution.

Nothing in this section shall be construed to repeal or alter in any way the provisions of section 8½ of Article XI of this Constitution, providing a different method and procedure for the formation of cities and counties, wherein the initiative is taken by a city or city and county. Nor shall the provisions of this section apply to any consolidated city and county, organized as such at the time this section takes effect; nor shall the provisions of this section apply to any county, which at the time this section takes effect, had adopted a freeholders' charter, and was organized and operating under such freeholders' charter. The Legislature shall enact such general or special laws as may be necessary to carry out the provisions of this section, and such general or special laws as may be necessary to effect city and county consolidation hereunder, or as may be necessary to provide for any period after such consolidation, by reason of the separation from the original county of such consolidated city and county, or to provide for the government of the remainder of the original county from which separation was had.

SEC 23. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of Article IV of the Constitution of the State of California and shall go into effect immediately

The following is a statement of the facts constituting such necessity: Unemployment has produced an alarming economic condition in the State of California. The adoption of a series of acts, of which this is one, for the promotion of rural electrification and the furnishing of energy at low cost will enable the construction of extensive works, plants and systems throughout the State for the generation, transmission and distribution of energy to be readily and easily financed, which otherwise cannot be financed at this time. The development and construction of such works, plants and systems will furnish employment to many persons now idle, make them self-supporting, and bring about a greater utilization of the resources of the State. It is advisable in the interests of the public welfare that the program contemplated by these acts be initiated forthwith."

The members of such Program Committee shall not be entitled to compensation but may be reimbursed their actual and necessary traveling expenses.

SEC. 20. Section 19 of said act is hereby amended to read as follows:

Sec. 19. In the event that a Program Committee shall fail within a reasonable time to present to the commission a prorating program or shall present a program which is not consistent with the conditions specified in paragraph ten of this act, the commission shall initiate a proper program or shall modify the program presented, as the case may be, in conformity with the provisions of section 10. Proration may be periodic or seasonal in character and may be based upon actual production, whether in storage or otherwise, or upon estimated production. In estimating production a Program Committee shall give consideration, among other factors, to the normal production of the various producing units. The Program Committee, for the purpose of minimizing the effect of existing surpluses upon market conditions, shall be empowered in any or all of the following particulars:

(a) To establish and maintain surplus pools which shall be authorized to receive from each producer from time to time his surplus of the prorated commodity and market the same for the account of the producer when it can be advantageously disposed of either in its original or some converted state. In operating any such surplus pool, a Program Committee may fix grading, packing, and servicing charges to be assessed against such commodities received by the pool and requiring such handling. The Program Committee shall handle all commodities received by a surplus pool and account for the same on a pooled basis. Each producer delivering his surplus to a pool shall be credited for his proportionate share of the surplus to a pool shall be credited for his proportionate share of the surplus so delivered.

Each producer shall be entitled to one primary certificate which shall indicate the quantities of the commodity, for which the program has been instituted which the producer named in such certificate shall be entitled to harvest or otherwise prepare for market and delivery into the primary channels of trade. Said primary certificates shall also indicate from time to time the number of secondary certificates theretofore issued under it. Secondary certificates shall be numbered consecutively and shall be used to control the time and volume of harvesting or other preparation for disposal. Such secondary certificates shall accompany all deliveries of the prorated commodity by producers into a primary trade channel, provided that in the case of commodities which are normally concentrated for preparation for market, secondary certificates may authorize harvesting of the entire crop for the purpose of delivery to a concentration point and subsequent marketing control. Such certificates shall be negotiable between producers.

In the operation of any program, cooperative and other market agencies entitled to the possession of agricultural commodities for marketing purposes may be authorized to receive certificates for producers represented by them and to represent their respective producers when proration is applied to the commodity while in the possession of such agencies.

All such fees shall be remitted weekly by the agent of the zone to the commission and shall be paid monthly by the commission into the State treasury to the credit of the "Agricultural Prorate Commission fund" which fund is hereby created. All

moneys credited to such fund shall be used only for the purpose of defraying the expenses of the organization, administering and enforcing the program under which they were collected and to the extent herein prescribed for the support of the commission.

Such petition shall be accompanied by a good and sufficient undertaking in an amount equal to the probable cost of conducting said hearing. A hearing must be held upon the petition to determine the sufficiency of the signatures thereto, which hearing must be held within thirty days after the presentation of the petition. If upon such hearing, it shall be established that the petition to terminate is sufficiently signed, the commission shall terminate the program

The commission may at any time initiate an investigation on its own motion to determine whether or not the facts specified in section 10 hereof continue to exist Upon a finding that any one or more of the prerequisite facts no longer exist, the commission shall terminate said program. In no case shall any program on a seasonal crop be terminated except at the end of its marketing season

SEC. 2. Section 13 of said act is hereby amended to read as follows:

Sec. 13. "Compensation earnable" by a member shall mean the average monthly compensation as determined by the board upon the basis of the average time put in by members in the same group or class of employment and at the same rate of pay, it being assumed that during any absence said member was in the position held by him at the beginning of the absence and that prior to entering State service he was in the position first held by him in such service, but such "compensation earnable" shall not exceed four hundred sixteen dollars and sixty-six cents per month.

SEC. 3. A new section is hereby added to said act to be numbered section 28a and to read as follows:

Sec. 28a. Persons who are members of the California Highway Patrol become and remain members of the retirement system in the same manner as in the case of other eligible State officers or employees, except that when any such person is disabled or killed by injury or illness arising out of and in the course of such duties, such person, in respect to such disability or death, is deemed a member of the retirement system while in State service prior to the completion of the six months of service referred to in section 27, to the same extent as if such six months of service was completed prior to such disability or death.

"Member of the California Highway Patrol," for the purpose of the retirement system includes persons employed in the Motor Vehicle Department whose principal duties consist of active law enforcement service and excludes such persons whose principal duties are those of a telephone operator, clerk, stenographer, machinist, mechanic, or otherwise clearly not falling within the scope of active law enforcement service, even though such person is subject to occasional call, or is occasionally called upon, to perform duties within the scope of active law enforcement service.

SEC. 4. Section 65 of said act is hereby amended to read as follows

Sec. 65. The normal rates of contribution of members, other than members of the California Highway Patrol, shall be based on sex and age at the nearest birthday at the time of entrance into the retirement system. The normal rates of contribution shall be such as will provide an average annuity at age sixty-five equal to one one-hundred-fortieth of the final compensation of members, according to the tables adopted by the board, for each year of service rendered after entering the system.

SEC. 5. A new section to be numbered section 65a is hereby added to said act to read as follows:

Sec. 65a. The normal rates of contribution of each member, who is also a member of the California Highway Patrol, shall be based on his age at July 1, 1935, or at his later entrance into the retirement system, and his age when he became a member of the said patrol, both ages being taken to the next lower completed quarter year. The age at entrance into the California Highway Patrol shall be determined by deducting the total State service in said patrol credited to the member at July 1, 1935, from his age at that date. The normal rates of contribution of each such member who became a member of the said patrol at or below age forty-five shall be such as, on the average for such member, if his service on full salary be uninterrupted and when accumulated with regular interest, added to the equal accumulated contributions of the State and applied according to the tables adopted by the board, will provide a retirement allowance upon retirement for service at the age of sixty years, or upon completion of twenty years of service at an age higher than sixty years, equal to one-half of his final compensation, less that part of the retirement allowance set forth in section 83a, which is to be provided by contributions of the State on account of service rendered prior to January 1, 1932, if such member affirmatively exercises the option in section 65d; otherwise, less a pension calculated in the same manner as the pension in section 83a, but on the basis of service rendered by him in the California Highway Patrol prior to July 1, 1935. If such member entered the said patrol at an age greater than forty-five years, then his normal rate of contribution shall be such as will provide an average annuity at age sixty-five equal to one-eightieth of his final compensation, according to tables adopted by the board, for each year of service after July 1, 1935, or after entrance into the retirement system if he affirmatively exercises the option in section 65d.

SEC 6. A new section is hereby added to said act to be numbered section 65b and to read as follows.

Sec. 65b. If a member ceases to be a member of the California Highway Patrol and continues to be a member of the retirement system in a different employment status, or if the reverse be true, then the accumulated contributions standing to his credit or redeposited by him shall remain in his individual account, and the rate of his contribution thereafter shall be the normal rate provided in section 65c for persons in his new group or class of employment and at his age when he first became a member, subject to section 76 hereof in the event he did not redeposit accumulated contributions withdrawn from the system.

SEC 8. A new section to be numbered 65c is hereby added to said act to read as follows:

Sec 65c The actual amount of annuity receivable by any member upon retirement shall be the actuarial equivalent of his accumulated contributions, as provided in section 81. Until revised as a result of the actuarial valuation provided for in section 51, the rate of contribution of each member shall be that percentage of his compensation shown in the following tables according to age and sex at the time of entry into the retirement system.

SEC. 8. A new section is hereby added to said act to be numbered section 65d and to read as follows:

Sec 65d. The rates of contribution shown in the section 65c for members of the California Highway Patrol shall apply on and after July 1, 1935. Each of such members, however, shall have the option of contributing a sum sufficient to make the amount of the accumulated contributions standing to his credit on that date the same as such amount would have been had he been contributing at the rate, from and after the effective date of his membership in the retirement system, which would have applied to him at such effective date if said rates for the Highway Patrol had been then in effect. If such option is affirmatively exercised, then the rate of contribution for such member on and after July 1, 1935, shall be based on his age at such effective date and his age at the date of entrance into the Highway Patrol

SEC. 9. Section 78 of said act is hereby amended to read as follows:

This gavel along with the beautiful desk set and clock was presented to me at a banquet given in my honor, during the recess, at Brea. I want to assure you that these tokens of esteem instill in me the feeling that our people really are interested in we who are in public office and I hope this gavel shall be used only in the passage of progressive, intelligent and fair legislation.

SECTION 1. The act cited in the title hereof is hereby revised to read as follows:

Section 1. The Director of the Department of Public Works is hereby authorized and directed to create a Bureau of Schoolhouse Engineering within the Division of Architecture of the said department, the said bureau to succeed to that work heretofore delegated to the Division of Architecture under this original act, and to the personnel at present or heretofore employed by the said division exclusively for or because of such work. The State Architect, with the written approval of the said director, shall immediately appoint a Chief Engineer of the said bureau, who shall be the executive officer thereof, and who shall select, organize, and direct the necessary personnel of the bureau, all subject to the State civil service provisions; provided, that the said Chief Engineer shall be a duly qualified structural engineer in and of the State of California.

SEC. 2. The Bureau of Schoolhouse Engineering of the Division of Architecture is hereby vested with full power and authority to carry out the provisions of this act, under the police power of the State to protect life and property, and shall make from time to time such rules and regulations as may be proper and necessary thereto, subject to the provisions of sections 4 and 5 hereof. The bureau shall review, and approve or disapprove the plans and specifications for, and shall supervise to its satisfaction the construction of, all new school buildings, or if the estimated cost exceed one thousand dollars, the alteration of or addition to any existing school building, and no such new construction, reconstruction, or additional construction shall be begun or continued without the approval and consent of the said bureau Provided, that the authority herein conveyed shall be with respect to the structural features only of such work, and shall not be applicable to repairs not altering or affecting the structural elements of the building; provided also, that the bureau shall approve plans and specifications for any reconstruction of, or addition to any existing building, when such plans and specifications, considered alone, comply with the basic requirements fixed by the said bureau, and when such reconstruction or addition does not diminish or impair the structural safety of the existing building or portion thereof, but such approval shall be understood to apply solely to the described reconstruction or addition, unless specifically stated otherwise

SEC. 3. The term "school building" as used herein means and includes any building used or designed to be used for elementary, secondary school, or junior college purposes, or owned by the State, or by any county, city and county, or other political subdivision, or by any school or junior college district of any kind within the State.

SEC. 4. There is hereby created a Board of Review of the Bureau of Schoolhouse Engineering, which board shall possess all necessary power, and whose duty it shall be, to determine all matters of reasonable fact not otherwise established or accepted by the art and science of structural engineering as such may relate to the technical or structural requirements and rulings of the said bureau. The said board shall consist of five members, one of whom shall be the president of the Structural Engineer's Association of California, one shall be alternately the president of the Northern or Southern California Chapter of the American Institute of Architects, one shall be the Chief of the Division of Schoolhouse Planning, one shall be an architect who is also a structural engineer, and one shall be a structural engineer, both in and of the State of California The two last-mentioned members, with the written approval of the Director of the Department of Public Works, shall be appointed by the State Architect, who shall also notify the ex officio members of their appointment; provided, that if any such ex officio member is unavailable to serve on the board, the appointment shall go to the next officer in line in that organization who is available and otherwise qualified for such service The two members to be appointed by the said State Architect shall be appointed for a period of not to exceed two years, and such as to provide that the continuity of the board personnel will at all times be the maximum obtainable The State Architect shall make the necessary appointments and notifications to the board membership within thirty days of the date of passage of this act, and the board shall convene within fifteen days after such notification, and upon a date to be set by the State Architect. At such first meeting the board shall elect its officers, adopt rules of procedure, and transact any

proper business presented for its consideration. Thereafter the board shall convene upon the call of the State Architect, as may in his judgment be necessary; provided, that the board or any member thereof may request of the State Architect that it be convened to perform its obligations under this act. At any called meeting of the board, which shall be not less than four days after notice thereof is given, any two members shall constitute a quorum for the transaction of routine business, but the affirmative vote of three members present shall be required for the passage of any ruling or resolution. The board members shall be reimbursed for their reasonable actual expenses in attending any called meeting of the board, from the fund hereafter defined in section 7 hereof, but shall receive no compensation for their services.

SEC. 5. It shall be the duty of the Bureau of Schoolhouse Engineering promptly to prepare such rulings, not previously established or adopted, as may be necessary to express definitely the position and requirements of the said bureau with respect to any established or new forms of construction or construction materials, and to submit such rulings, through the State Architect, to the Board of Review for its comment or approval, without which last no such ruling shall be valid or of any effect. It shall also be the duty of the bureau, upon receipt of a formal application, accompanied by supporting data or arguments, for a new ruling or an amendment of an existing ruling regarding any construction material or type of construction, to transmit promptly such application and exhibits, together with the bureau's proposed ruling or arguments, if any, to the State Architect for submission to the Board of Review for its decision thereon. Provided, however, that the said board shall have the power to initiate rulings and hearings in connection therewith at any called meeting of the board, as may in its judgment be necessary. All decisions of the board, within the limits of the jurisdiction herein set forth, shall be binding upon the Bureau of Schoolhouse Engineering and any other parties at interest, except as recourse may be had to competent courts of law.

SEC. 6. The Bureau of Schoolhouse Engineering is hereby directed to cooperate and coordinate its activities with those of the Division of Schoolhouse Planning, as may promote the public interest and convenience without undue expense to the said bureau. If and when the legally authorized activities of the Division of Schoolhouse Planning require or may advantageously employ a structural engineer, the duly qualified officers or employees of the Bureau of Schoolhouse Engineering may, by mutual agreement of these two offices, act in such capacity.

SEC. 7. All district boards of trustees, city boards of education, and all other appropriate school authorities, before proceeding with any applicable work under section 3 hereof, shall submit the plans and specifications therefor to the Bureau of Schoolhouse Engineering for approval, and are hereby authorized and directed to pay the fees hereinafter prescribed, to the said bureau.
