763. No bank or trust company shall deposit any of its funds in any other bank except a Federal Reserve bank, unless such other bank has been designated as a depositary for its funds by the vote of a majority of the directors of the bank making the deposit, and unless such other bank has been approved by the superintendent as a depositary for the purposes of this section. The superintendent may in his discretion revoke his approval of any such depositary and may in his discretion limit the amount of funds that may be deposited by any bank or trust company with any other bank. A deposit by one bank or trust company with another bank shall not be regarded as a loan.

Same

Any court having jurisdiction of any estate in process of administration or of any other proceeding on application of any person interested therein and after a hearing on such notice as the court may direct or without notice if all parties in interest consent thereto, may order any executor, administrator, guardian, assignee, receiver, depositary, or trustee, whether such officer or trustee has qualified as such or not, to deposit with any bank or trust company any money then in his hands or under his control or which may thereafter come into his hands until the further order of the court. Upon such deposit being made and while such moneys remain on deposit with such bank or trust company, the officer or trustee making the deposit shall be relieved of all responsibility therefor, and the court by order shall reduce the bond to be given or theretofore given by such officer or trustee so as to cover only the estate remaining in his hands. The money so deposited shall be held by the bank or trust company under the direction of the court and shall be repaid only on order of the court. If the amount sought to be deposited in any one bank does not exceed the amount which will be covered by insurance of the Federal Deposit Insurance Corporation an order for deposit hereunder may be made ex parte without notice or hearing.

The acceptance of such money or assets by the bank or trust company named to receive the same shall relieve the bank which has been in possession thereof from all further responsibility therefor.

Liens

766. For the purpose of determining whether any loan or investment is secured by a first lien on real property as required by any provision of this division, none of the following shall be

deemed a prior encumbrance unless any installment or payment thereunder other than a rental or royalty under a lease, is due and delinquent:

(a) The lien of any tax, assessment, or bond levied or issued by the State of California or by any district, political subdivision, or municipal corporation thereof, except the lien of an assessment levied against a particular parcel of real property and of any bond given or issued pursuant to law in lieu of the payment of such assessment.

(b) A lien created by a contract and given to secure the payment for water to be furnished under such contract for the irrigation of the real property or any part thereof.

(c) A lease of the real property under which all rents or royalties are reserved to the owner.

(d) The lien of a bond given or issued pursuant to law in lieu of the payment of an assessment levied against a particular parcel of real property and the lien of any assessment levied to pay such bond, if the unpaid balance of such bond and the amount of such loan or investment combined do not exceed 60 percent of the sound market value of the real property.

(e) A lien given to secure the payment of any assessment or subscription to meet the requirements of any law of the United States in respect to any irrigation project of the United States in California which may be levied, made, or received by any corporation or association formed to carry out the provisions of any such law, if the unpaid balance of such assessment or subscription and the amount of such loan or investment combined do not exceed 60 percent of the sound market value of the real property.

Same

767. Whenever in this division it is required that loans or investments shall be secured by a first lien on real property, any lien given to secure the payment of assessments or subscriptions to meet the requirements of any law of the United States in respect to any irrigation project of the United States outside of California which may be levied, made, or received by any corporation or association formed to carry out the objects and requirements of any such law of the United States, or the lien of any tax, assessment, or bond levied, or issued by any state in the United States other than the State of California, or by any county, city and county, city, town, municipality, school district, or any other political or governmental subdivision of such state, and the lien of any assessment levied to pay such bonds shall be deemed to be a prior encumbrance or lien on such real property. With the previous written consent of the superintendent any bank may make loans or investments upon the security of real property so encumbered if the total of all such liens taken with the loan or investment so secured shall amount to not more than 50 percent of the sound market value of the real property securing the same, and if no installment or call of any such tax, assessment, bond, or other governmental lien is past due and delinquent.

Excess loans

768. No loan made by any bank in excess of any limitations contained in this division or which is made in violation of any of the provisions of this division shall be invalid or illegal as to the lender for that reason, nor shall any loan made to any bank in excess of the amounts permitted by this division be invalid or illegal as to the lender for that reason.

Borrowing from Reconstruction Finance Corporation

769. With the approval of the superintendent, a bank in need of funds for capital purposes in connection with the organization or reorganization of such bank or otherwise, may issue preferred stock to the Reconstruction Finance Corporation or borrow money from the Reconstruction Finance Corporation and issue such stock to it as collateral security.

The statement shall show the amount in the account, the depositor's last known place of business or post-office address, and the fact of death, if known. The bank shall give notice of these deposits by publication in one or more newspapers of general circulation published in the city in which the bank has its principal place of business, unless no newspaper is published in that city, and then in a newspaper published in the county in which the bank has its principal place of business, at least once a week for four consecutive weeks. Article 1. General

Checks, etc

950. If a check or other instrument payable on demand, drawn by a depositor on a bank, other than a certified check, is presented for payment more than six months from its date, such bank may refuse payment thereof unless expressly instructed by the drawer or maker to pay it. Such bank shall incur no liability by refusing payment of the check or other instrument so presented.

Refusal to pay check etc

951. A bank may refuse to pay a check, draft, or other order for the withdrawal of money from an account, whether commercial or savings, if it believes that the person drawing, endorsing, or presenting the instrument is or was at the time of signing, endorsing, or presenting it so under the influence of liquor or drug as to raise doubt whether such person is or was competent to transact business. No damages shall be awarded in any action against the bank or its officers or other employees for refusing in good faith to pay any such instrument for that reason.

Notice of adverse claim

"Adverse claimant"

952. Notice to any bank of an adverse claim (the person making such adverse claim being hereinafter in this section called "adverse claimant") to a deposit standing on its books to the credit of or to personal property held for the account of any person may be disregarded until and unless the adverse claimant shall (a) procure and serve upon the bank at the office at which the deposit is carried or the property held a restraining order, injunction, or other appropriate order against the bank from a court of competent jurisdiction in an action in which the adverse claimant and all persons in whose name such credit stands or for whose account such property is held are parties; or (b) execute and deliver to the bank at the office at which the deposit is carried or the property held a bond in form and with surety acceptable to it and in an amount fixed by the bank, but which amount in no event need be more than twice the amount claimed if the adverse claim is made against a deposit, nor more than twice the market value of the entire property against which the adverse claim is made if the claim is made against property, indemnifying it and also all persons in whose name such credit stands or for whose account such property is held, against all liability, loss, damage, costs, and expenses arising out of the refusal to permit withdrawal from such account or to deliver such property or arising out of the dishonor of checks, notes, or other instruments requiring payment of money by or for the account of the person to whose credit the account stands on the bank's books. Unless such restraining order, injunction, or other appropriate order is obtained, or such bond is given, the bank, notwithstanding such notice, may honor the checks, notes, or other instruments requiring payment of money by or for the account of the person to whose credit the account stands or may deliver such property to, or on the order of the person for whose account such property is held, without any liability on the part of the bank. If an adverse claimant delivers to the bank at the office at which the account is carried or the property held his affidavit stating that of his own knowledge the person to whose credit the account stands or for whose account the property is held is a fiduciary for the adverse claimant and that such fiduciary is about to misappropriate the deposit or the property and stating the facts upon which the claim of a fiduciary relationship is based, the bank may refuse payment of the deposit or may refuse to deliver such property until the adverse claim is finally adjudicated or

Restraining order

The provisions of this section shall be applicable even though the name of the person appearing on the bank's books to whose credit the deposit stands or for whose account the property is held is modified by a qualifying or descriptive term such as "agent," "trustee," or other word or phrase indicating that such person may not be the owner in his own right of the deposit or property.

Authorized withdrawals

953. When the depositor of a commercial or savings account has authorized any person to make withdrawals from the account, the bank, in the absence of written notice otherwise, may assume that any check, receipt, or order of withdrawal drawn by such person in the authorized form or manner, including checks drawn to his personal order and withdrawal orders payable to him personally, was drawn for a purpose authorized by the depositor and within the scope of the authority conferred upon such person.

Deposits of persons in occupied territory

954. A bank need not recognize or give any effect to (1) any claim to a deposit of cash or securities standing on its books to the credit of, or held by it for the account of, any corporation, firm or association in occupied territory or (2) any advice, statute, rule or regulation purporting to cancel or to give notice of the cancellation of the authority of any person at the time appearing on the books of such bank as authorized to withdraw or otherwise dispose of cash or securities of such corporation, firm or association, unless such bank is required so to do by appropriate process procured against it in a court of competent jurisdiction in the United States in a cause therein instituted by or in the name of such corporation, firm or association, or unless the person making such claim or giving such advice or invoking such statute, rule or regulation, as the case may be, shall execute to such bank, in form and with sureties acceptable to it, a bond indemnifying it from any and all liability, loss, damage, costs and expenses for and on account of recognizing or giving any effect to such claim, advice, statute, rule or regulation.

For the purposes of this section (1) the term "occupied territory" shall mean territory occupied by a dominant authority asserting governmental, military or police powers of any kind in such territory, but not recognized by the United States as the de jure government of such territory, and (2) the term "corporation, firm or association in occupied territory" shall mean a corporation, firm or association which has, or at any time has had, a place of business in territory which has at any time been occupied territory.

The provisions of this section shall be effective only in cases where (1) such claim or advice purports or appears to have been sent from or is reasonably believed to have been sent pursuant to orders originating in, such occupied territory during the period of occupation, or (2) such statute, rule or regulation appears to have emanated from such dominant authority

and purports to be or to have been in force in such occupied territory during the period of occupation.

A bank may disregard an order stopping payment of a check unless the order is in writing, is signed by the drawer, describes with certainty the check payment of which is to be stopped, and is delivered to the particular office or branch office of the bank on which the check is drawn before the check is certified or paid. Stop payment order

991. The receipt of an order to stop payment of a check at one office of a bank shall not constitute notice, actual or constructive, to any other office of the same bank and shall not impair the right of any office of such bank, other than the office receiving such order, to be a holder in due course of such check. As notice

992. If after receipt of an order to stop payment of a check conforming to and delivered as required by Section 990 and while such order is still effective a bank pays such check, it is liable to the drawer for the actual loss incurred by him resulting from the payment of such check, not exceeding, however, unless the bank is guilty of negligence, the amount of the check. Liability

993. A bank which pays or certifies a check in good faith and without actual knowledge of any defect in the title of the holder thereof prior to the receipt of an order stopping the payment thereof conforming to Section 990 is not liable to the person ordering the payment thereof stopped, even though such payment or certification may be made before or after its regular banking hours. Same

994. If more than six months after receipt of an order to stop payment of a check the bank mails a notice to the drawer stating that the order must be renewed to remain effective and Duration

For the purpose of determining when notice of dishonor must be given or protest made under the law relative to negotiable instruments, an item duly presented, credit for which is revoked as authorized by this article, shall be deemed dishonored on the day the item or notice is dispatched. 1017. Until the bank allowing provisional credit for an item forwarded for collection has received the proceeds in full in money or by final credit on the books of either a Federal Reserve bank or a bank designated as a depositary by the forwarding bank, such bank may charge the item back to the party from whom it was received, or may collect the amount of the item from such party, regardless of whether the item itself can be returned.

Item drawn on other office

1018. An item drawn on, by, or through, or payable at one office of a bank, and received for deposit or collection or for any other purpose at any other office of the same bank, shall be deemed for all the purposes of this article as drawn on, by, or through, or payable at another bank.

CHAPTER 9. DEPARTMENTAL BANKING

Separate departments

The application shall show the apportionment of the capital and surplus of such bank or trust company to each of the proposed departments, and shall be accompanied by a fee of fifty dollars ($50) for each new department. The superintendent, when he is satisfied that the bank has complied with all of the applicable provisions of this division and that the depositors and creditors of the bank will not be adversely affected thereby, shall issue his certificate authorizing the bank to add the department or departments for which application was made.

Apportioned surplus

1103. The capital and surplus apportioned to a particular department, when approved by the superintendent, shall be segregated to such department and considered and treated as the separate capital and surplus of such department as if such department were a separate bank.

Every bank having departments shall keep the cash, securities, and property belonging to each department entirely separate and apart from the cash, securities, and property belonging to its other departments. Interdepartmental deposits

1107. No department of a bank shall receive deposits from any other department of the same bank, except that the savings department or the commercial department of a bank may receive deposits from the trust department of the same bank and may set aside as security for such deposits securities pursuant to Section 1562 of this code.

Interdepartmental transfers or sales

such investments or loans, under the provisions of this division, are eligible for investment by the department purchasing them.

Reserves

1109. Every bank having departments shall maintain for each department reserves equal in amount to the reserves required by this division for the particular department and shall keep the total reserves of each department separate and apart from the reserves of any other department.

Place of business

1110. Every bank and branch shall conduct the business of all its departments in one building or in adjoining buildings except that, under special circumstances and with the written consent of the superintendent, a bank or branch may conduct a portion of its business elsewhere in the same vicinity.

Investment in real property

1111. The investment of any departmental bank in real property for any of the purposes authorized by subdivision (a) of Section 750 of this code or in the stock of a corporation transacting a safe deposit or a trust business may be carried in either the commercial, savings, or trust departments, or may be apportioned to any two or all three such departments.

Deposits with other banks

1112. Deposits made by a department of a departmental bank with other banks, whether temporary or otherwise, shall constitute assets of the respective departments by which they were made, and shall be so carried on the books of such other banks, and shall be repaid only upon the order of the department to whose credit they stand.

Article 3. Reserves

Reserves

1250. The remainder of such total reserves shall consist of, (a) gold bullion or any form of money or currency authorized by the laws of the United States kept as above provided, (b) deposits subject to call with a Federal Reserve bank in the district in which the bank is located, or (c) deposits subject to call with reserve depositaries of such bank designated as such pursuant to Section 1255 of this code.

Same

1254. If the total reserves of any commercial bank fall below the amount required to be maintained by this article it shall not make any new loans or discounts, except by discount of bills of exchange on sight, nor pay any dividends until its reserves have been restored to the full amount herein required. If any commercial bank fails to maintain its reserves as required by this article, the superintendent may notify such bank to restore its reserves and if it fails to do so within 30 days thereafter it may be deemed insolvent and may be proceeded against

as provided in this division. A deposit by one bank with another bank shall not be regarded as a loan.

Reserve depositaries

1255. A bank or trust company, by a majority vote of all its directors, may nominate another bank or other banks which meet the qualifications hereinafter set forth as its reserve depositary or depositaries. The superintendent, in his discretion, may approve or disapprove such nomination. If he approves the same he shall designate the bank so nominated as a reserve depositary of the nominating bank.

A reserve depositary may be a banking corporation located in any city in the United States and having a paid-up capital and surplus of one million dollars ($1,000,000) or more, or it may be a bank organized under the laws of this State or a national banking association located in this State having a combined paid-up capital and surplus conforming with the following schedule:

"Deposits"

1256. The term "deposits" wherever used in this article shall be the aggregate deposits of a commercial bank exclusive of the deposits of public moneys referred to in Section 1250.

Reserves

1257. Whenever he determines that the maintenance of sound banking practices or the prevention of injurious credit expansions or contractions makes such action advisable, the superintendent by general regulation and without submitting such regulation to any other state agency or authority, may change, from time to time, the nature and amount of reserves required to be maintained by commercial banks doing business in this State which are not members of a Federal Reserve Bank. The reserves so specified shall not be less than those provided in this chapter nor greater than those required, at the time, of commercial banks doing business in this State which are members of a Federal Reserve Bank.

Reserves: Total

1430. Every savings bank at all times shall maintain total reserves in an amount equal to 5 percent of the aggregate amount of its deposits, exclusive of deposits of the United States, postal savings funds, and state, county, municipal, and other deposits of public moneys which are secured as required by law.

1431. Of the reserves required to be maintained by a savings bank an amount equal to at least 1 percent of the amount of its deposits shall be maintained as reserves on hand and shall consist of, (a) gold bullion or any form of money or currency authorized by the laws of the United States, or (b) deposits subject to call with a Federal Reserve bank in the district in which the bank is located. The remainder of such reserves required to be maintained equal in amount to 4 percent of the amount of the bank's deposits shall consist of, (a) gold bullion or any form of money or currency authorized by the laws of the United States, (b) deposits subject to call with a Federal Reserve bank in the district in which such bank is located or with reserve depositaries designated for it pursuant to Section 1255 of this code, or (c) unpledged negotiable direct obligations of the United States.

Maximum on hand

1432. No savings bank shall be required to maintain reserves on hand in excess of four hundred thousand dollars ($400,000) and when such reserves on hand reach that amount, the balance of total reserves necessary to make up the 5 percent may be kept on deposit with a reserve depositary designated for it pursuant to Section 1255 of this code.

Compliance with Federal Reserve Act

1433. If any savings bank is a member of a Federal Reserve bank, it shall comply with the reserve requirements of the Federal Reserve Act and its amendments, and its compliance therewith shall be in lieu of and shall relieve such savings bank from compliance with the provisions of this article.

Failure to maintain

1434. If the total reserves of any savings bank fall below the amount required to be maintained by this article, it shall not make any new loans or pay any dividends until its total reserves have been restored to the full amount required, and the superintendent may impose the same penalties as he is authorized to impose on commercial banks under Section 1253 of this code. If any savings bank fails to maintain its reserves as required by this article, the superintendent may notify such bank to restore its reserves and if it fails to do so within 30 days thereafter it may be deemed insolvent and may be proceeded against as provided in this division.

Deposits in commercial bank

1435. A savings bank may deposit funds on open account with a commercial bank except the commercial department of a bank of which it is the savings department. Not more than 10 percent of the deposits of a savings bank or more than twenty-five thousand dollars ($25,000), whichever is greater, shall be deposited by a savings bank with any one commercial bank, without the permission of the superintendent. A savings bank shall not deposit an amount in excess of 30 percent of its deposits with all commercial banks, except with the consent of the superintendent.

Savings deposits

1436. A savings bank may accept savings deposits from other banks but the sum so deposited shall not exceed 30 percent of the capital and surplus of the depositing bank nor more than 15 percent of the capital and surplus of the depositary bank.

Changes in reserves

1437. Whenever he determines that the maintenance of sound banking practices or the prevention of injurious credit expansions or contractions makes such action advisable, the superintendent by general regulation and without the necessity of submitting such regulation to any other state agency or authority, may change, from time to time, the nature and amount of reserves required to be maintained by savings banks doing business in this State which are not members of a Federal Reserve Bank. The reserves so specified shall not be less than those provided in this chapter nor greater than those required, at the time, of savings banks doing business in this State which are members of a Federal Reserve Bank.

The superintendent shall have access to reports of examination made by the Comptroller of the Currency insofar as they relate to the trust department of such association. "Trust"

(a) If the principal place of business of such trust company or bank is situated in a city the population of which does not exceed 100,000 persons, fifty thousand dollars ($50,000) shall be apportioned and set aside to secure the faithful performance of court trusts and fifty thousand dollars ($50,000) shall be apportioned and set aside to secure the faithful performance of private trusts.

Whenever any such trust company or bank is required to make the first additional deposit of securities with the State Treasurer pursuant to Section 1540, it shall forthwith apportion and set aside an additional fifty thousand dollars ($50,000) of its capital and surplus as security for the faithful performance of court trusts and an additional fifty thousand dollars ($50,000) of its capital and surplus as security for the faithful performance of private trusts.

(b) If its principal place of business is situated in a city the population of which exceeds 100,000 persons, one hundred thousand dollars ($100,000) shall be apportioned and set aside to secure the faithful performance of court trusts and one hundred thousand dollars ($100,000) shall be apportioned and set aside to secure the faithful performance of private trusts.

Same

1521. Article 3. Deposits with State Treasurer

Deposits with State Treasurer

1540. Every trust company shall deposit with the State Treasurer money or securities of the character described in Section 1542 as security for its court and private trusts as follows:

(a) If the trust company's principal place of business is situated in a city the population of which does not exceed 100,000 persons, it shall deposit with the State Treasurer money or securities having a market value of at least fifty thousand dollars ($50,000) as security for the faithful performance and execution of all court trusts accepted by it, and money or securities having a market value of at least fifty thousand dollars ($50,000) as security for the faithful performance and execution of all private trusts accepted by it.

Whenever any such trust company receives trust funds or property, other than real property, from court trusts accepted by it to the amount of five hundred thousand dollars ($500,000), it shall forthwith give the superintendent written notice thereof, and within 30 days thereafter shall make an additional deposit with the State Treasurer of money or securities having

a market value of fifty thousand dollars ($50,000) as security for its court trusts, and money or securities having a market value of fifty thousand dollars ($50,000) as additional security for its private trusts.

(b) If the trust company's principal place of business is situated in a city the population of which exceeds 100,000 persons, it shall deposit with the State Treasurer money or securities having a market value of at least one hundred thousand dollars ($100,000) as security for the faithful performance and execution of all court trusts accepted by it, and money or securities having a market value of at least one hundred thousand dollars ($100,000) as security for the faithful performance and execution of all private trusts accepted by it.

Same

1541. Whenever any trust company receives trust funds or property, other than real property, from court trusts accepted by it to the amount of one million dollars ($1,000,000), it shall forthwith give the superintendent written notice thereof, and within 30 days thereafter shall make an additional deposit with the State Treasurer of money or securities having a market value of fifty thousand dollars ($50,000). For each additional five hundred thousand dollars ($500,000) of such trust funds thereafter received by any trust company from court trusts a similar notification in writing shall forthwith be given to the superintendent and a further deposit of money or securities having a market value of twenty-five thousand dollars ($25,000) shall be made within 30 days thereafter by such trust company with the State Treasurer until money or securities having a market value of five hundred thousand dollars ($500,000) have been so deposited.

Types of security

1542. Security deposited with the State Treasurer by trust companies pursuant to Sections 1540 or 1541 shall consist of the following:

(a) Bonds or other interest bearing notes or obligations of the United States or those for which the faith and credit of the United States are pledged for the payment of principal and interest.

(e) Loans secured by a first lien on real property and otherwise complying with the provisions of subdivision (a) of Section 1413 of this code.

Approval of securities

1543. Such money or securities shall be approved by the superintendent and be deposited with the State Treasurer upon the written order of the superintendent. Upon receiving any such deposit the State Treasurer shall give his receipt therefor and thereafter subject to the provisions of this chapter shall hold such deposits for the sole benefit of the beneficiaries of the class of trust business for the security and protection of which the same were deposited. The State is responsible for the custody and safe return of any money or securities so deposited. The State Treasurer shall deposit any such moneys under the provisions of Sections 16370 to 16375 of the Government Code.

Exchange of securities

1544. Securities deposited pursuant to this article may be exchanged from time to time, with the approval of the superintendent, for other like securities of equal market value. Upon written request to the superintendent, any trust company shall be entitled to withdraw from the State Treasurer, from time to time, any amount of its securities so deposited in excess of the amount it is required to maintain on deposit in order to conform with the requirements of this article. Upon receiving a written request for such withdrawal or exchange, and satisfactory proof of the facts warranting the same, the superintendent shall forthwith deliver to the State Treasurer a written order directing the withdrawal or exchange of such securities so as to conform with the provisions of this section. The State Treasurer shall comply with such written order. So long as the trust company so depositing such securities shall continue solvent, it shall have the right and shall be permitted by the State Treasurer to receive the interest and dividends on any securities deposited by it.

Depreciation of security

1545. Should any security deposited pursuant to this article so depreciate in value as to reduce the deposit below the amount required by this article, additional money or securities shall be deposited promptly in amount sufficient to meet such requirements. The superintendent may make an investigation of the value of any security deposited pursuant to this article, at the time such security is presented for deposit or at any time thereafter, whenever in his judgment such investigation is necessary. The superintendent may make such charge as may be reasonable and proper for such investigation

Sale of securities

1546. The money and securities deposited pursuant to this article shall be subject to sale and the same or the proceeds thereof shall be subject to disposal by the State Treasurer only on the order of a court of competent jurisdiction and for the benefit respectively of the beneficiaries of that class of trust business for the security and protection of which the securities were deposited.

Penalties

1547. Any trust company which fails to comply with this article shall be liable to the people of the State in the sum of one hundred dollars ($100) a day for each day during which such failure or default continues.

Article 4. Investments

Investments

1560. A trust company may invest its capital and surplus only in the securities and properties in which a savings bank is permitted to invest its funds pursuant to Sections 1350 to 1366, inclusive, of Chapter 11 of this division and in loans on real property which savings banks are permitted to make pursuant to Article 3 of Chapter 11 of this division.

Same

1561. Trust funds received by any trust company in connection with its trust business, if invested, shall be invested as provided in the Civil Code, subject to such provisions as may be contained in any trust instrument.

Deposit of funds

1562. Any trust company holding funds awaiting investment or distribution may deposit or leave on deposit such funds with the savings department or the commercial department of any state or national bank. The trust department of any bank doing a departmental business may deposit such funds so held by it with the savings department or the commercial department of the same corporation or association, but no such funds shall be deposited by any trust department of a departmental bank with the savings department or the commercial department of the same corporation or association or of any bank or corporation holding or owning a majority of the capital stock of the trust company making such deposit, unless such bank or corporation shall first pledge, as security for such deposit, securities eligible for investment by savings banks having a market value of not less than the funds so deposited. No security shall be required with respect to any part of such deposits which is insured under the provisions of any law of the United States.

Stock holdings as fiduciary

1563. Any trust company when acting in any capacity under a court or private trust as defined in this chapter, or when acting in any such capacity with one or more persons as cofiduciary or cofiduciaries, unless the instrument creating such trust contains a provision to the contrary, may with the consent of such cofiduciary or cofiduciaries cause any stock or other securities held in any such capacity to be registered in the name of a nominee or nominees of such trust company. Any such trust company shall be liable for any loss occasioned by the acts of any nominee of such trust company with respect to such stock or other securities so registered. The records of such trust company shall at all times show the ownership of any such stock or other securities. Such stock or other securities shall at all times be kept by such trust company separate and apart from its other assets. No domestic or foreign corporation or the registrar or transfer agent of any such corporation shall be liable for registering or causing to be registered on the books of such corporation any share or shares or other securities in the name of any nominee of such trust company or for transferring or causing to be transferred on the books of any such corporation any share or shares or other securities theretofore registered by such corporation in the name of any nominee of such trust

company as herein provided when the transfer is made upon the authorization of such nominee.

Common trust funds

1564. Any trust company may establish and administer common trust funds composed of property permitted by law for the investment of trust funds, for the purpose of furnishing investments to itself as fiduciary, or to itself and others, as cofiduciaries; and may as such fiduciary or cofiduciary invest funds which it lawfully holds for investment in interests in such common trust funds, if such investment is not prohibited by the instrument, judgment, decree, order, or statute creating or governing such fiduciary relationship, and if, in the case of cofiduciaries, the trust company procures the consent of its cofiduciaries to such investment.

Each common trust fund established hereunder shall be treated as an entity separate and distinct from the fiduciary relationships participating therein. No fiduciary in administering a participating fiduciary relationship shall be required to make any apportionment or allocation between the principal and income of such relationship different from that made for such common trust fund. No such participating fiduciary relationship, nor any person having an interest in such relationship, shall have or be deemed to have any ownership in any particular property of such common trust fund, but each such participating fiduciary relationship shall have a proportionate undivided interest in such fund and its income; and the ownership of all property of such common trust fund shall be in the trustee of such fund.

This section shall apply to fiduciary relationships now in existence or hereafter established, whether the same be revocable or irrevocable. The superintendent, at his direction, may make an examination of any common trust fund established hereunder at such times and to such extent as he may deem advisable. The provisions of the Corporate Securities Law shall not apply to the creation, administration, or termination of common trust funds, nor to participation therein.

Participation certificates

1565. With regard to any participation certificates heretofore issued by any trust company, secured by a trust deed or mortgage, the full legal title in the deed or mortgage and debt (referred to in this section as "security") shall be held by the trust company issuing the certificates as trustee of an express trust, with all powers necessary to extend, renew, enforce, collect, and liquidate the same, acquire title to the property covered thereby either through foreclosure or by voluntary conveyance; manage, lease, sell (either for cash or upon deferred payments), exchange, or otherwise realize upon the security or property and distribute the net proceeds thereof. All sums so realized shall, as and when received by such trustee, after payment of its compensation and all costs, charges, and expenses, including brokers' commissions and advances for taxes and assessments, incurred or made in connection with the protection, administration, and liquidation of the security or property, be distributed to the trusts or persons who are beneficiaries

of the trust, as their interests may appear therein. The rights and interests therein of any such beneficiary failing to contribute on demand its or his pro rata of sums advanced, expended, or required by the trust company in the protection, administration, or liquidation of the trust shall be subject to a lien for all sums, with legal interest thereon advanced, expended, or required for any of such purposes by the trustee or by any other beneficiary of the trust.

The trust in such security or property shall continue in the trust company so long as any of the certificates are outstanding, irrespective of any distribution of the certificates from the trust in which the same are held.

The purpose of this section is to define and clarify the rights and obligations of trust companies and of all persons and trusts interested in participation certificates issued under any authority of law.

Article 5. General

Powers

1580. A trust company has the following powers:

(a) It may act, or may be appointed by any court to act, in like manner as an individual, as executor, administrator, guardian of estates, assignee, receiver, despositary, trustee, custodian, or in any other fiduciary or representative capacity for any purpose permitted by law, may act as transfer agent or registrar of corporate stocks and bonds, may buy and sell securities for the account of customers, and may accept and execute any trust business permitted by any law of this or any other state or of the United States to be taken, accepted, or executed by an individual; and

(b) A trust company, upon becoming a member of the Federal Reserve System, shall continue to have such powers as may then or thereafter be conferred upon it by the laws of this State, subject to such federal rules, regulations, and laws as may govern state banks exercising trust powers or trust companies which become members of the Federal Reserve System.

1581. For the purposes of this chapter, all trusts and other business permitted to be accepted or executed by a trust company are hereby classified and defined as either court trusts or private trusts.

"Court trust"

A "court trust" is one in which a trust company acts under appointment, order, or decree of any court, as executor, administrator, guardian, assignee, receiver, depositary, or trustee, or in which it receives on deposit money or property from a public administrator, under any provision of this code, or from any executor, administrator, guardian, assignee, receiver, depositary, or trustee, under any order or decree of any court.

"Private trust"

A "private trust" is every other trust, agency, fiduciary relationship, or representative capacity.

Disclosure of information

1582. A trust company, its officers and employees, shall not disclose any information to any person concerning the existence, condition, management, and administration of any private trust confided to it, except:

(a) Where such disclosure is specifically authorized by the terms of the trust;

(b) Where such disclosure is determined by an officer of the trust company to be necessary in the administration of such trust;

(c) Where such disclosure is required by a court of competent jurisdiction;

(d) Where such disclosure is made to, or upon the instructions of, any party executing the trust instrument; or

(e) Where such disclosure refers to an irrevocable trust, to, or upon the instructions of, any beneficiary thereunder whether or not presently entitled to receive benefits therefrom.

(f) Where such disclosure is made to the superintendent in the course of his examination.

Examinations

1583. The superintendent shall examine the court trust business of a trust company at least once each year and shall examine the private trust business at such times and to such extent as he may deem necessary or advisable.

Reports

1584. In making the reports to the superintendent required by this division, every trust company shall report, in addition to the other facts called for, separately, the amount of real property and the amount of personal property held by such trust company in both its court trusts and in its private trusts.

Title insurance companies

1585. Any corporation doing a departmental business as a title insurance company and as a trust company shall, as to its trust department, be subject to the requirements and have the benefit of the following provisions:

(a) It shall be subject to supervision and examination by the superintendent. The charges for such supervision and examination shall be determined in accordance with Section 270 of this code.

(b) It shall make all reports required by the superintendent of trust companies under this division.

(c) It shall be subject to and have the benefit of all provisions and requirements of this division and of all rules and regulations of the superintendent applicable to trust companies.

Court supervision

1586. Any court having jurisdiction of any executor, administrator, guardian, assignee, receiver, depositary, or trustee, upon the application of any such officer or trustee or upon the application of any person having an interest in the estate or property administered by such officer or trustee, after such notice to the other parties in interest as the court may direct, or without notice if all parties in interest consent thereto, and after a hearing upon such application, may authorize or direct such officer or trustee, whether such person has duly qualified or not, to deposit any moneys then in his hands or which may come into his hands thereafter, and such portion or all of the personal assets of such estate as the court shall deem proper for safekeeping, with any such trust company. Upon such deposit being made the court shall by an order of record reduce the bond to be given, or theretofore given, by such officer

or trustee so as to cover only the estate remaining in the hands of such officer or trustee. The money and property so deposited shall thereupon and thereafter be held by such trust company under the order and direction of the court.

Such trust company shall not be required to give any bond or security, except as provided in this division, in case of any deposit of moneys or other personal assets with it under this section. Its responsibility for the safekeeping of personal assets so deposited with it shall be that of a bailee for hire.

Oaths, etc

1587. Whenever an executor, administrator, guardian of estates, assignee, receiver, depositary, or trustee is required to qualify by taking and subscribing an oath or to make an affidavit, any trust company acting in any such capacity may satisfy such requirement by the oath or affidavit of its president, vice president, secretary, assistant secretary, manager, trust officer, or assistant trust officer. Any such trust company shall be liable for its failure to perform any of the duties required by law to be performed by an individual acting in like capacity and shall be subject to the same penalties for such failure as would be applicable to an individual.

Discontinuing trust business

1588. Whenever any corporation desires to withdraw from and discontinue doing a trust business, it shall furnish to the superintendent satisfactory evidence of its release and discharge from all the obligations and trusts which it has assumed or which have been imposed on it by law. Thereupon the superintendent shall revoke his certificate of authority to do a trust business, and the State Treasurer shall return to it all of the securities deposited by it. Thereafter such corporation shall not be permitted to use and shall not use the word "trust" in its corporate name, or in connection with its business.

Validity of acts

1589. The validity or legality of any act or proceeding done or taken by any trust company, relating to or in connection with the administration of its court and private trusts, shall not be affected or impaired by the neglect or failure of such trust company, or of any officer or employee thereof, to comply with any of the provisions of this division. All such acts and proceedings done or taken prior to the revocation of its certificate of authority to do a trust business by the superintendent, under the provisions of this division, or the revocation by any court or judge thereof of the appointment, order, or decree theretofore entered in such trust matter, shall be as valid and effective for all purposes as if any such neglect or failure had not occurred.

Scope of chapter

1590. Nothing in this chapter shall make it unlawful for any person or corporation not subject to the supervision of the superintendent to engage in the business of receiving and holding money in escrow or of acting as trustee under deeds of trust given solely for the purpose of securing obligations for the repayment of money other than corporate bonds.

Mingling of funds and assets

1591. A bank or trust company shall not mingle trust funds received by it with other assets of the corporation or association and such funds shall not be used in the conduct of

its business except to the extent that such funds are deposited with the savings department or the commercial department of the same corporation or association in accordance with the provisions of this division. Any officer of any bank or association who knowingly violates or consents to the violation of this section is guilty of a felony.

CHAPTER 13. SAFE DEPOSIT

Article 1. General

Notice of adverse claim

1650. Notice to a bank operating a safe deposit department or to a company conducting a safe deposit business of an adverse claim (the person making the adverse claim being hereinafter in this section called "adverse claimant") to any personal property in a safe deposit box maintained by a bank or company and rented to any person, or to any personal property held by the bank or company in safekeeping or storage for any person may be disregarded until and unless the adverse claimant does one of the following:

"Adverse claimant"

(a) Procures and serves upon the bank or company at the office at which such safe deposit box is maintained or such personal property is held a restraining order, injunction, or other appropriate order against the bank or company from a court of competent jurisdiction in an action in which the adverse claimant and all persons in whose name the box is rented or the property is held are parties.

(b) Executes and delivers to the bank or company at the office at which the safe-deposit box is maintained or the property is held a bond in form and with surety acceptable to the bank or company and in an amount fixed by the bank or company, but which amount in no event need be more than twice the market value of the entire property against which the adverse claim is made, indemnifying the bank or company and also all persons in whose names the box is rented or the property is held against all liability, loss, damage, costs, and expenses arising out of the refusal to permit access to the safe-deposit box or withdrawal of the property or any part thereof held in safekeeping or storage.

Restraining order

Unless the restraining order, injunction, or other appropriate order is obtained or a bond is given, the bank or company, notwithstanding the notice, may permit access to the box to the person to whom it is rented or may deliver the contents thereof to or on the order of the person or may deliver the property held in storage or safekeeping to or on the order of the person for whom it is held without any liability on the part of the bank or company.

If an adverse claimant delivers to the bank or company at the office at which the safe-deposit box is maintained or the property is held his affidavit stating that of his own knowledge the person in whose name the box stands or for whom the property is held is a fiduciary for the adverse claimant and that the

fiduciary is about to misappropriate the contents of the box or the property and stating the facts upon which the claim of fiduciary relationship is based, the bank may refuse access to the safe-deposit box or refuse to deliver the personal property until the adverse claim is finally adjudicated or released without liability on its part and without liability for the sufficiency or truth of the facts alleged in the affidavit.

The provisions of this section shall be applicable even though the name of the person appearing on the bank's or company's books as the renter of the box or as the depositor of the property held in storage or safekeeping is modified by a qualifying or descriptive term such as "agent," "trustee," or other word or phrase indicating that the person may not be the owner in his own right of the contents of the box or of the property held in storage or safekeeping.

Article 2. Remedies for Nonpayment of Rent

Liabilities of renters

1660. Every bank operating a safe-deposit department shall be entitled to the special remedies set forth in this article in enforcing the liabilities of safe-deposit box renters and of safekeeping and storage depositors.

Notice

1661. If the rental of any safe-deposit box is not paid within six months from the day it is due, the bank, or at any time thereafter and while such rental remains unpaid, may mail a notice to the person in whose name such box stands on its records stating that if the amount due for such rental is not paid on or before a specified day, which must be at least 30 days after the date of mailing such notice, the bank will cause such box to be forced open.

Removal of contents

1662. At any time after the date specified in such notice, if the rental for such safe-deposit box to the date of payment and the cost of giving such notice have not been paid, the bank, in the presence of two of its employees, one of whom shall be an officer of the bank, may cause such box to be opened and the contents thereof to be removed and inventoried. The inventory shall be signed by such persons and a copy thereof shall be filed with the county treasurer.

Disposition of contents

1663. All contents removed from a safe-deposit box pursuant to Section 1662 shall be retained by the bank for at least two years unless sooner delivered to or on the order of the person in whose name such box stood on the records of the bank. The bank shall deliver the contents of such box to or on the order of the person in whose name such box stood on its records, upon payment to it before such contents are sold or destroyed, of all rental due at the time of opening the box, the cost of giving notice, the charges for opening the box and for custody of the contents, and any other proper charges. The bank may deliver such contents on the order of the person in whose name such box stood on its records, irrespective of any information disclosed by the contents indicating ownership thereof by any other person.

Sale of contents

1664. At any time after two years from the day when a safe-deposit box has been opened pursuant to this article, the bank may mail a notice to the person in whose name such box stood on its records, stating that unless the amounts due to the bank for rental, for the cost of mailing and publishing notice of sale, and for its charges for opening the box and for custody of its contents, and any other proper charges, giving the total amount thereof, are paid, the bank will offer for sale the contents thereof at a time and place named in such notice, which time shall be at least 30 days after the mailing thereof. If the amounts specified in such notice are not paid before the time of sale designated therein, the bank may sell all or any portion of the contents of such box, other than contents of the character described in Section 1668 and other than bonds and other securities which at the time of sale are listed on an established stock exchange in the United States, at public sale at the time and place given in such notice. Notice of the time and place of sale shall be published in a newspaper of general circulation in the county in which the sale is to be held once at least five days before the date of sale, or if no such newspaper is published in the county such notice shall be posted in three public places in the county at least five days before the date of sale. Such notice need describe the property only in general terms and as the unclaimed contents of a safe-deposit box. Such sale may be postponed from time to time by public pronouncement at the time and place of sale.

Same

1665. Notwithstanding any of the provisions of this article, no stocks, bonds, or other securities which, at the time of sale pursuant to Section 1664, are listed on any established stock exchange in the United States may be sold at public sale but may be sold at any time thereafter through an established stock exchange.

Same

1666. Upon the making of a sale of any securities, an officer of the bank shall execute and attach to the securities so sold an affidavit reciting facts showing that such securities were sold pursuant to this article and that the provisions of this article governing such sale have been complied with. The affidavit shall be and constitute sufficient authority to any corporation whose stock is so sold or to any registrar or transfer agent of such corporation to cancel the certificates of stock so sold and to issue a new certificate or certificates representing such stock to the purchaser thereof, and to any registrar, trustee, or transfer agent of registered bonds or other securities, to register any such bonds or other securities in the name of the purchaser thereof.

Proceeds of sales

1667. From the proceeds of any sale the bank shall deduct the amount set forth in such notice and any further charges which may have accrued since the mailing of the notice and shall credit the balance of such proceeds, if any, to an account in the name of the delinquent renter. Such account is a deposit within the meaning of Article 2 of Chapter 7 of this division as of the date of such sale.

Documents, letters, etc

1668. Any documents, letters, or other articles found in a safe-deposit box opened pursuant to Section 1662, which in the judgment of at least two officers of the bank have no intrinsic or marketable value, need not be offered for sale. Such documents, letters, and articles and any other contents which have been offered for sale and for which no purchaser has been found, shall be retained by the bank for not less than five years from the date when such box was opened. At any time thereafter, unless sooner delivered to or on the order of the person in whose name such box stood on the records of the bank, such documents, letters, and articles and also those contents which have been offered for sale and for which no purchaser has been found, may be destroyed in the presence of an officer of the bank, but if no notice of intended sale of the contents of the box has been given pursuant to Section 1664, the bank shall mail a notice of its intention to destroy such documents, letters, and articles at least 30 days before the destruction of the same to the person in whose name such box stood on the records of the bank.

Effect of prior actions

1669. If, before the effective date of this section, a bank or its predecessor in interest, has caused a safe-deposit box to be opened for nonpayment of rental, and the contents of such box or any part thereof remain in its custody, it shall be entitled to the special remedies in enforcing the liability of the former renter of such box as set forth in Sections 1663 to 1668, inclusive, whether or not such box was rented prior to October 1, 1949.

Enforcement of liens

1670. Whenever a bank receives personal property for safekeeping or storage as bailee and issues a receipt therefor, the bank may enforce its lien as warehouseman in accordance with the provisions of the Warehouse Receipts Act or at its option in the manner provided in Sections 1671 to 1673, inclusive, of this article.

Notice

1671. If the amount charged by a bank for the safekeeping or storage of personal property is not paid within six months from the day it is due, the bank, at any time thereafter and while such charges remain unpaid, may mail a notice to the person in whose name the receipt was issued, giving the amount then due for such safekeeping or storage and stating that unless such amount and any other charges accruing to the date of payment are paid, the bank will sell such personal property at a time and place named therein, which time shall be at least 30 days after the mailing of such notice. If the amount specified in such notice and all other charges of the bank and expenses of mailing and publishing notice of sale accruing to time of payment are not paid, the bank may sell all or any portion of such personal property at public sale at the time and place given in such notice. Notice of the time and place of sale shall be published once at least five days before the date of sale in a newspaper of general circulation published in the county in which the sale is to be held, or if no such newspaper is published in the county such notice shall be posted in three public places in the county at least five days before the date of sale.

Such sale may be postponed from time to time by public pronouncement at the time and place of sale. The bank may include in the notice required to be mailed a statement to the effect that if the amount due at that time is not paid at least 10 days before the date set for the sale, it may cause any container in which any of such personal property may be, to be opened and the contents thereof to be sold at the time and place fixed for the sale with or without such container, or the container may be sold without the contents. If such statement is included in the notice, the bank, at any time within 10 days before the date fixed for the sale, may open any such container and remove the contents in the presence of two employees of the bank, one of whom shall be an officer thereof, both of whom shall make and sign an inventory of the contents. Thereafter, on the day fixed for the sale, the contents may be sold as a whole or separately and with or without the container, or the container may be sold without the contents.

Deduction of charges

1672. From the proceeds of the sale, the bank shall deduct all charges as stated in the final notice, together with any further charges that have accrued since the mailing thereof, and reasonable expenses for notices, advertising, and sale, and shall credit the balance of the proceeds, if any, to an account in the name of the person in whose name the receipt for such personal property was issued.

Documents, letters, etc

1673. Any documents, letters, or other articles which, in the judgment of an officer of the bank, have no apparent intrinsic or marketable value, need not be offered for sale. Such documents, letters, and articles and any other articles which have been offered for sale and for which no purchaser has been found, shall be retained by the bank for not less than five years from the date when notice of sale was mailed. At any time thereafter, unless sooner delivered to or on the order of the person in whose name the receipt was issued, such documents, letters and articles may be destroyed in the presence of an officer of the bank and of a notary public.

Sale of contents

1674. The power conferred on a bank to sell the contents of a safe-deposit box or personal property received for safekeeping or storage for nonpayment of rental or other charges, includes power to sell any bonds, stock certificates, promissory notes, choses in action, or other securities, and any other tangible or intangible property found in such box or in the container in which such personal property was received for safekeeping or storage, regardless of whether it appears from such securities or property that the person in whose name the box stood or to whom the safekeeping or storage receipt was issued, possesses title to any interest in such securities or other property or power to transfer such title or interest.

Remedies

1675. A bank holding a safe-deposit box originally rented from, or personal property against which a safekeeping or storage receipt was issued by, a predecessor in interest, or a bank holding the contents of such box, shall be entitled to the remedies as to such box or the contents thereof or as to the safe-

keeping or storage of such property in like manner and to the same extent as if such box had been rented from or such safekeeping or storage of personal property had been received by such bank in the first instance.

Same

1676. The provisions of this article do not preclude any other remedy by action or otherwise now or hereafter existing for the enforcement of the claims of a bank against the person in whose name the safe-deposit box stood or stands, or in whose name the safekeeping or storage receipt was issued, nor bar the right of a bank to so recover, at its option, either the entire amount of the debt due to it without recourse to sale of the property, if any, or so much of the debt due to it as shall not have been paid by the proceeds of the sale of all or any portion of the property deposited with it.

Moneys due

1677. If the principal of, or interest or dividends on, any securities that have come into the possession of any bank by reason of action taken pursuant to this article, is due and payable at the time such securities come into the bank's possession, or thereafter while such securities remain in the possession of the bank, shall become due and payable, the bank at its election may collect such principal, interest, or dividends and from the proceeds thereof may deduct all sums then due to it from the person to whom such safe-deposit box was rented or to whom such safekeeping or storage receipt was issued. The remainder of the money so collected, if any, shall be credited by the bank to the account of the delinquent boxholder or of the person in whose name the safekeeping or storage receipt was issued.

Notice

1678. (a) Whenever this article requires that notice be sent to a person, and the box stood or stands on the records of the bank or the safekeeping or storage receipt was issued in the names of two or more persons, notice addressed to either or to any one of such two or more persons shall be binding upon and effective as to the remaining person or all remaining persons, and notice addressed to the name of any deceased individual shall be binding upon his legal representatives and on his heirs and legatees.

(b) Whenever this article requires that notice be published prior to a sale, the notice shall include the name and address of the person in whose name the safe-deposit box stood on the records of the bank or the safekeeping or storage receipt was issued. The names and addresses of all such persons whose property is to be sold at the same time and place may be included in a single published notice.

(c) Whenever this article requires that an amount be credited to the account of a person in whose name a safe-deposit box stood on the records of the bank or a safekeeping or storage receipt was issued, and the box stood or the receipt was issued in two or more names, such account shall be in both or all such names, subject to withdrawal by or upon the written order of any one or more of such persons, or by their successors or legal representatives.

(d) Whenever this article requires that a notice shall be mailed to the person in whose name the safe-deposit box stood on the records of the bank or a safekeeping or storage receipt was issued, such notice shall be deemed to have been so mailed if it is enclosed in a sealed envelope addressed to the person in whose name the safe-deposit box stood in the office of the bank at which the records of such safe-deposit box rentals are kept, or to the person in whose name such receipt was issued, as the case may be, addressed to such person at the address or place appearing on the safe-deposit or storage records of such office, and such envelope with postage prepaid has been deposited by registered mail in the United States mail.

Tax deduction

1679. Whenever an amount of safe-deposit rental, custody, safekeeping, or other charge is to be paid or deducted pursuant to this article, there shall be added to and paid or deducted with said amount, the amount of any tax imposed by laws and regulations.

United States bonds

1680. Any bank or trust company may receive bonds issued by the United States Government for safekeeping, collection, or storage, and shall receipt therefor to the depositor and shall maintain adequate records of all transactions therewith. In every case of such deposit the depositary bank shall have the right to return to the depositor either the identical bonds deposited by him or other bonds of the same issue, par value, and character.

CHAPTER 14. FOREIGN BANKING CORPORATIONS

Article 1. Banking Business

Foreign corporations Licenses

1750. A foreign corporation shall not engage in the banking or trust business in this State unless it is licensed to do so and unless it first complies with all of the provisions of this chapter and then only to the extent expressly permitted in this chapter. In transacting such business a foreign corporation shall comply with all applicable provisions of this division and of the laws of this State.

Requirements

1751. A foreign banking corporation shall not after October 1, 1949, commence to do business in this State until it has met the following requirements:

(a) It is authorized by its charter to transact the character of business described in Section 1756 and has complied with the laws of the state or country under which it is incorporated.

(b) It has filed with the superintendent a certified copy of its charter or articles of incorporation and of its by-laws and an application in such form and containing such information as the superintendent may require, accompanied by a fee of two hundred fifty dollars ($250).

(c) It has furnished to the superintendent such proof of the nature and character of its business and its financial condition, stock ownership, and management as he may require.

(d) It has designated the superintendent and his successor in office by a duly executed instrument in writing, its agent, upon whom process directed to the corporation may be served. The superintendent shall forward by mail, postage prepaid, a copy of every process served upon him under the provisions of this subdivision, addressed to the manager or agent of such corporation at its principal place of business in this State. For each copy of process the superintendent shall collect the sum of five dollars ($5) which shall be paid by the plaintiff or moving party at the time of service, to be recovered by him as a part of his costs.

(e) It has complied with all applicable requirements of the Corporations Code of California relating to foreign corporations except matters specifically otherwise provided for in this code.

(f) Its manager or agent residing in this State has taken an oath that he will, as far as the duty devolves upon him, diligently and honestly administer the affairs of the corporation and will not knowingly violate or wilfully permit to be violated any of the provisions of law applicable to the corporation and the oath, subscribed by the manager or agent taking it, has been transmitted to the superintendent and filed in his office.

(g) It has allocated and assigned to its California business a portion of its capital and surplus equal in amount to the amount of capital required by this division of a bank commencing to do business in the city in which the foreign corporation proposes to do business. One-half of the required minimum allocated capital and surplus, or one hundred thousand dollars ($100,000), whichever is greater, shall be kept in cash or in securities of the kind which may be deposited by trust companies to secure court and private trusts under Section 1542 and shall be deposited with the State Treasurer for the faithful performance of all obligations entered into in California.

(h) It has received from the superintendent his certificate licensing it to do business.

Money or securities deposited

1752. Money or securities deposited with the State Treasurer by a foreign banking corporation pursuant to Section 1751 shall first be approved by the superintendent and upon his order shall be deposited with the State Treasurer.

Upon receiving any such deposit the State Treasurer shall give his receipt therefor and shall hold such deposit for the sole benefit of the creditors of such corporation's California business. The State is responsible for the custody and safe return of any such deposits excepting only money or securities applied for the benefit of such creditors pursuant to an order of court. The State Treasurer shall deposit any such moneys under the provisions of Sections 16370 to 16375 of the Government Code.

Securities deposited pursuant to this section may be exchanged from time to time, with the approval of the superintendent, for other like securities of equal market value. Upon written request to the superintendent, any such corporation shall

be entitled to withdraw from the State Treasurer, from time to time, any amount of its securities so deposited in excess of the amount it is required to maintain on deposit in order to conform with the requirements of this chapter. Upon receiving a written request for such withdrawal or exchange, and satisfactory proof of the facts warranting the same, the superintendent shall forthwith deliver to the State Treasurer a written order directing the withdrawal or exchange of such securities so as to conform with the provisions of this chapter. The State Treasurer shall comply with such written order. So long as the corporation so depositing such securities shall continue solvent and shall discharge its California obligations promptly, it shall have the right and shall be permitted by the State Treasurer to receive the interest and dividends on any securities deposited by it.

Should any security so depreciate in value as to reduce the deposit below the amount required, additional money or securities shall be deposited promptly in amount sufficient to meet such requirements. The superintendent may make an investigation of the value of any security deposited at the time such security is presented for deposit or at any time thereafter. The superintendent may make such charge as may be reasonable and proper for such investigation.

The State Treasurer may sell and transfer any securities deposited pursuant to this chapter and may dispose of the proceeds only on the order of a court of competent jurisdiction and for the benefit of the creditors of such corporation's business in California.

Separate assets

1753. Every foreign banking corporation doing business in this State shall keep the assets of its California business entirely separate and apart from the assets of its business outside California as though the California business was conducted by a separate and distinct corporation. Every such corporation shall keep separate books of account and separate records for its California business and shall observe with respect to such business the applicable requirements of this division and the rules and regulations of the superintendent. The creditors of such corporation's California business shall be entitled to priority with respect to the assets of its California business before such assets may be used or applied for the benefit of its other creditors or transferred to its general business.

Approval of application

1754. The superintendent may give or withhold his approval of the application of a foreign banking corporation in his discretion. If he approves the application, he shall issue a license to such corporation when it has satisfied all the requirements of this chapter authorizing it to transact the business permitted by Section 1756 at the location specified in such license. Such license shall be for one year and may be renewed from year to year upon payment of an annual license fee of two hundred fifty dollars ($250). No such license shall be transferable or assignable. Each such license shall be conspicuously displayed at all times in the place of business specified therein.

Suspension and revocation

1755. If the superintendent finds that any foreign corporation to which he has issued a license has violated any law or has conducted its affairs in an unauthorized manner, or is in an unsound or unsafe condition, or cannot with safety and expediency continue business, the superintendent may suspend or revoke the license of such foreign corporation and notify it of such suspension or revocation.

Deposits

1756. A foreign corporation which is authorized by license under Section 1754 may transact in this State the business of buying, selling, paying, or collecting bills of exchange, of issuing letters of credit, of receiving money for transmission by draft, check, cable, or otherwise, and of making loans. A foreign corporation shall not accept deposits in this State.

Loans

1757. Nothing in this chapter shall be deemed to prohibit a foreign banking corporation which does not maintain an office in this State for the transaction of business from making loans in this State secured by mortgages on real property or from accepting assignments of mortgages covering real property situated in this State.

Privileges

1758. A foreign corporation, subject to compliance with any applicable laws of this State pertaining to foreign corporations, and which is not engaged in the banking business may lend money or buy or sell bonds in this State and for that purpose may maintain offices in this State and sue and be sued in this State under its corporate name, notwithstanding anything in this division restricting the use of any words in the name, signs, or advertising matter of corporations not under the supervision of the superintendent.

Use of corporate title

1759. Notwithstanding anything in this division, a foreign corporation which is authorized by its articles of incorporation to transact a trust business, which has complied with the laws of this State affecting the transaction in this State of life insurance by a foreign corporation, and which on August 10, 1913, was engaged in transacting such business in this State may continue to make use of its corporate title in its life insurance business in this State.

Report

1760. Every foreign banking corporation licensed by the superintendent to transact business in this State, whenever required by the superintendent, shall make a written report to him, in such form as he shall prescribe, in words and figures of the English language, verified by one of its officers, managers, or agents residing in this State. Such report shall show the actual financial condition of the corporation's business in this State at the close of any past day designated by the superintendent, and shall set forth such other information as the superintendent may require. The verification of such report shall state that the person making it has a personal knowledge of the matters therein contained, and that he believes that every allegation, statement, and matter contained therein is true. If required by the superintendent such corporation shall also furnish complete financial information, in such form and detail as the super-

intendent may prescribe, verified by its proper officers, covering all the corporation's business not only in this State but elsewhere.

Penalties

1761. If any foreign banking corporation fails to make any report required by the superintendent, or refuses to furnish the required information in the form prescribed, it shall be liable to the people of this State in the sum of one hundred dollars ($100) per day for each day that such omission continues. Any wilful false statement contained in any such report or in any other sworn statement made to the superintendent by such corporation shall constitute perjury.

Same

1762. Any foreign corporation which is required to comply with the provisions of this chapter and fails to do so is guilty of a misdemeanor and in addition thereto shall be liable to the people of this State in the sum of one hundred dollars ($100) per day for each day that such offense continues.

Same

1763. Any person who transacts business in this State on behalf of a foreign corporation which is subject to the provisions of this chapter but which is not authorized to transact such business in this State is guilty of a misdemeanor and in addition thereto shall be liable to the people of this State in the sum of one hundred dollars ($100) per day for each day that such offense continues.

1764. The term "foreign corporation" as used in this division does not include national banking associations whose principal place of business is in this State.

The application for such license shall be in such form and shall set forth such information as the superintendent may require. The superintendent may grant or refuse the application in his discretion and may at any time in his discretion revoke any such license. Such representative shall pay an annual license fee of two hundred fifty dollars ($250) for each such office. If more than one individual representative of the same foreign banking corporation uses the same office the annual license fee for such office shall be two hundred fifty dollars ($250) plus twenty-five dollars ($25) for each individual representative over one using the same office.

The provisions of this article shall not apply to the receipt of money by an agent of an incorporated telegraph company at any regular office of such company for immediate transmission by telegraph. Transmission of money abroad

1801. Every railroad, steamship, or express company, and every partnership or corporation engaging in the business described in Section 1800 shall first obtain a license from the superintendent and shall pay annually on or before July 1st a license fee of two hundred fifty dollars ($250). The superintendent in his discretion may grant or refuse such license and may at any time revoke any such license. For the purposes of this article, "qualified company" means any company, partnership, or corporation licensed pursuant to this section. License "Qualified company"

1802. Each qualified company shall file with the superintendent on or before January 1st and on or before July 1st each year a report in form satisfactory to the superintendent listing (a) its offices in this State at which money is received for transmission to foreign countries, (b) its employees at such offices authorized to receive money for such purpose, and (c) the name and business address of each person not regularly employed by it at one of its offices who is authorized to receive money for transmission by the company to foreign countries. Each such person shall be an agent of the company for all purposes in connection with or incidental to the receipt and transmission of money or its equivalent to foreign countries. Whenever the appointment of any such agent is terminated and another person is appointed by the company in his place and whenever the company appoints any additional person as such agent, the company shall promptly notify the superintendent of such appointment giving the name and business address of each person so designated. Report

1803. Each qualified company shall file with the superintendent annually on or before July 1st a verified report, in Verified report

such form as the superintendent may prescribe, showing in such detail as he may require its business and transactions during the preceding calendar year relative to the receipt and transmission of money to foreign countries.

Examination

1804. The superintendent may at any time and from time to time examine the business of any agent in order to ascertain whether such business is being conducted in a lawful manner and whether all moneys received for transmission to foreign countries are properly accounted for. Each agent shall keep his books, records, and accounts in such form and manner as the superintendent may prescribe. The expense of the superintendent in making any such examination of an agent shall be paid to the superintendent on his demand by the company represented by such agent.

Copy of forms

1805. Each qualified company shall file with the superintendent a certified copy of every receipt form used by it or by its agents for money received for transmission to foreign countries. No such company or its agents shall use any receipt a certified copy of which has not first been filed with the superintendent. Any company violating the requirements of this section shall be subject to a fine of fifty dollars ($50) for each violation. If any such company or its agent uses a receipt form a certified copy of which has not first been filed with the superintendent, such company shall be liable for the acts of its agents whether or not the company authorized the agent to use such form.

Forwarding money

1806. Every qualified company shall forward all moneys received for transmission to a foreign country to the person designated by the depositor within 10 days after receiving such money.

Such deposit shall be made in the manner specified in and shall be subject to the provisions of Section 1752.

Same

1808. In lieu of the deposit of money and securities pursuant to Section 1807, a qualified company may deliver to the superintendent the bond of a surety company, in form and written by a company satisfactory to the superintendent, in the principal sum of fifty thousand dollars ($50,000), conditioned upon the faithful holding and transmission of all moneys received by such company or its agents for such purpose. The superintendent shall deposit such bond with the State Treasurer.

Same

1809. The money and securities deposited with the State Treasurer pursuant to Section 1807 and the proceeds of any

bond held by the State Treasurer pursuant to Section 1808 shall constitute a trust fund for the benefit of such persons as shall deliver to any such qualified company or its agent money for transmission to foreign countries. The service of summons on any agent of such company shall constitute service upon such company.

Any person, other than an authorized officer or employee of a bank or trust company or of a foreign banking corporation licensed to do business in this State or an agent of a qualified company, who represents that he is authorized to receive, or who solicits or receives, money or the equivalent thereof for transmission to foreign countries is guilty of a misdemeanor.

Chapter 15. Examinations and Reports

Article 1. Examinations

Examinations Annual

1900. The superintendent shall cause every bank, every foreign banking corporation doing business in this State, every trust company, and the trust department of every title insurance company doing a trust business to be examined at least once in each fiscal year and whenever and as often as he shall deem it advisable. On each annual examination the superintendent shall inquire as to the condition and resources of the bank or foreign banking corporation, the mode of managing its affairs, the actions of its board of directors, the investment and disposition of its funds, the safety and prudence of its management, the security afforded its depositors and creditors, and whether its articles of incorporation and all applicable provisions thereof are being complied with and into such other matters as the superintendent may determine. The officers and employees of every bank, trust company, title company's trust department, and foreign banking corporation being examined shall exhibit to the examiners, on request, any or all of its securities, books, records, and accounts and shall otherwise facilitate the examination so far as it may be in their power.

Extra examinations

1901. Whenever, in the judgment of the superintendent, the condition of any bank, trust company, or foreign banking corporation renders it necessary or expedient to make an extra examination or to devote any extraordinary attention to its affairs, he has authority to make any necessary extra examinations and to devote any necessary extra attention to the conduct of its affairs and to charge for such extra services an amount not exceeding thirty-five dollars ($35) a day for each examiner engaged in the examination of such bank.

Annual directors' examination

1902. The board of directors of every bank and of every trust company, or a committee thereof composed of at least three directors, none of whom is an officer of such bank or trust company, shall examine such bank or trust company at least

once in each fiscal year. No such examination shall be commenced within three months of the completion of the examination for the preceding year. Such examination shall show the actual financial condition of the bank or trust company and shall set forth such matters and shall be in such form as the superintendent may require. Such examination shall include an examination of the books, papers, and affairs of the bank and particularly of its loans and discounts and of the security given therefor. The board of directors may employ such assistance in making any examination as it deems necessary. Within 30 days after the examination is completed, a report thereof, verified by the directors who made it, shall be filed with the board of directors and thereafter shall be kept available for inspection by the superintendent.

Report

Extra examination

1903. If the board of directors of any bank or trust company fails to make such examination or to cause it to be made or to file copies of the report in the manner and within the time required by Section 1902, the superintendent may cause an extra examination of such bank or trust company to be made at its expense.

Optional special examination

1904. In lieu of an examination pursuant to Section 1902, the board of directors of any bank or trust company may request the superintendent to cause a special examination or audit to be made. Within 60 days after the receipt of a certified copy of the board's resolution requesting such examination, the superintendent shall cause a special examination or audit to be made either by the department or by certified public accountants at the expense of such bank or trust company. Within 30 days after the completion of the examination or audit, the superintendent shall deliver to the board of directors a true copy of the report of the examination or audit.

Other examinations acceptable

1905 In lieu of a directors' examination for any year, the superintendent may accept any examination of a bank or trust company made during such year by the Federal Reserve Bank if such bank or trust company is a member thereof, by the Federal Deposit Insurance Corporation or any equivalent federal corporation or agency insuring deposits if such bank or trust company is a member thereof, or by a clearing house association of which such bank or trust company is a member.

Special audits

1906. The superintendent, whenever in his opinion the condition of the bank, trust company, or foreign banking corporation is such as to require such audit, may require any bank, trust company, or foreign banking corporation to employ a certified public accountant to make a special audit of the affairs of such bank or trust company at its expense.

Appraisals

1907. The superintendent, for good cause, at any time and from time to time may employ appraisers to appraise the value of any investment, asset, or property held or upon which a lien is held as security for a loan. The bank, trust company, or foreign banking corporation shall pay to the superintendent on demand the cost of such appraisal.

Oaths

1908. The superintendent, a deputy superintendent, and every examiner assigned to an examination may administer an oath to any person whose testimony is required for the purposes of any examination authorized by this division and may by issuance of subpena compel the appearance of any person and the production of any evidence for the purposes of the examination.

Disclosure of information

1909. The superintendent in his discretion at any time may furnish to the Comptroller of the Currency or to any of his examiners, to the Federal Reserve Bank or any of its examiners, to the Federal Deposit Insurance Corporation or to any equivalent federal corporation or agency insuring deposits or any examiners thereof, or, if the bank is a member of a Federal Home Loan Bank, to such Federal Home Loan Bank or to the Federal Home Loan Bank Board or its examiners copies of any examination made pursuant to this chapter, and may disclose to any such corporation or examiner any information with reference to the condition or affairs of any bank or trust company.

Insolvency report of

1910. If a deputy superintendent or any examiner has knowledge of the insolvency or unsafe condition of any bank, trust company, or foreign banking corporation and fails or neglects to forthwith report such fact to the superintendent in writing over his signature, he is guilty of a felony.

National banking associations

1911. A national banking association doing business in this State and receiving deposits of any bank organized under the laws of this State, at the request of the superintendent, shall submit to an examination by him, at the expense of such association, should he deem it necessary or desirable that such examination be made. If any such association refuses to permit such an examination to be made, the superintendent shall notify every bank depositing its funds with such association to withdraw its deposits therefrom and the banks so notified shall comply with his order.

Violations

1912. If it appears to the superintendent that a bank, trust company, or foreign banking corporation is violating or failing to comply with its articles of incorporation or with any law of this State, he may direct such bank, trust company, or foreign banking corporation to comply with its articles or with the law by an order issued over his official seal, or if it appears to the superintendent that any bank, trust company, or foreign banking corporation is conducting its business in an unsafe or injurious manner he may in like manner direct it to discontinue the unsafe or injurious practices. The order shall require the bank, trust company, or foreign banking corporation to show cause before the superintendent at a time and place to be fixed by him why the order should not be observed.

Hearings

1913. If upon any hearing held pursuant to Section 1912 it appears to the superintendent that the bank, trust company, or foreign banking corporation is violating or failing to comply with its articles or with any law of this State or is conducting its business in an unsafe or injurious manner he may make a

final order directing it to comply with its articles or with the law or to discontinue the unsafe or injurious practices. Unless within 10 days after the issuance of such final order its enforcement is restrained in a proceeding brought by the bank, trust company, or foreign banking corporation, it shall forthwith comply therewith.

Meetings

1914. Whenever he deems it expedient, the superintendent may call a meeting of the stockholders of any bank or trust company. Notice of the time and place of the meeting shall be given to each stockholder by a notice mailed to him by registered mail at his last known address at least 15 days before the date of the meeting. Any expenses of such meeting shall be borne by the bank or trust company.

Emergencies

1915. During any emergency period declared by the President of the United States, each bank shall conform to any order of the superintendent directed to it, relating to and conforming with regulations, limitations, or restrictions which are applicable thereto prescribed by the Secretary of the Treasury, the Comptroller of the Currency, or the Board of Governors of the Federal Reserve System regulating or governing the operations of banks which are members of the Federal Reserve System.

Same

1916. During any emergency period declared by the Governor no bank shall transact any banking business except to such extent and subject to such regulations, limitations, or restrictions as may be prescribed by the superintendent, which, as to member banks, shall be as consistent as the exigencies of the situation permit with the provisions of the Federal Reserve Act and regulations issued thereunder or, as to insured banks, shall be as consistent as the exigencies of the situation permit with the rules and regulations governing banks whose deposits are insured by the Federal Deposit Insurance Corporation.

(h) Any bank neglects or refuses to observe any order of the superintendent made pursuant to Section 1913 of this code unless the enforcement of such order is restrained in a proceeding brought by the bank;

the superintendent may forthwith take possession of the property and business of such bank and retain possession until such bank resumes business or its affairs be finally liquidated as herein provided. Such bank, with the consent of the superintendent, may resume business upon such conditions as he may prescribe. The term "bank" wherever used in this chapter includes trust companies and foreign banking corporations licensed to do and doing a banking business in this State.

"Bank"

Suit to enjoin commissioner

3101. Whenever the superintendent has taken possession of the property and business of any bank, such bank, within 10

days after such taking, if it deems itself aggrieved thereby, may apply to the superior court in the county in which the head office of such bank is located to enjoin further proceedings. The court, after citing the superintendent to show cause why further proceedings should not be enjoined and after a hearing and a determination of the facts upon the merits may dismiss such application or enjoin the superintendent from further proceedings and direct him to surrender the property and business to such bank.

Appeal

3102. An appeal may be taken from the judgment of the court by the superintendent or by the bank in the manner provided by law for appeals from the judgment of a superior court. An appeal from the judgment of the court operates as a stay of the judgment. No bond need be given if the appeal be taken by the superintendent but if the appeal be taken by the bank a bond shall be given as required by Section 943 of the Code of Civil Procedure.

Notice

3103. Upon taking possession of the property and business of any bank, the superintendent shall forthwith give notice of such fact to all persons holding or having in their possession any assets of such bank. No person knowing of such taking or who has been notified thereof shall have a lien or charge upon any assets of the bank for any payment, advance, or clearance thereafter made or for any liability thereafter incurred.

Conserving assets, etc

3104. Upon taking possession of the property and business of any bank, the superintendent has authority and it is his duty to collect all moneys due to such bank and to do such other acts as are necessary or expedient to collect, conserve, or protect its assets, property, and business and he shall proceed to conserve or liquidate the affairs thereof as herein provided.

Attachments

3105. No attachment or execution shall be issued against the property of any bank or trust company before final judgment in any action or proceeding in any court.

Assistants

3106. The superintendent, from time to time, under his official seal, may appoint one or more special deputy superintendents as his agent or agents with the powers specified in the certificate of appointment to assist him in the duty of conservation or of liquidation and distribution. The certificate of appointment shall be filed in the office of the superintendent and a certified copy in the office of the clerk of the county in which the head office of the bank is located. The superintendent may employ such counsel and procure such expert assistance and advice as may be necessary in the liquidation and distribution of the assets of the bank and for that purpose may retain such of the officers or employees of the bank as he may deem necessary. The superintendent shall require from each special deputy superintendent and from each assistant such security for the faithful performance of their duties as he may deem proper.

Compensation

3107. The compensation of special deputies, counsel, and other employees and assistants appointed to assist in the liquidation of any bank and the distribution of its assets and all

expenses of supervision and liquidation shall be fixed by the superintendent and shall be paid out of the funds of such bank in the hands of the superintendent. Such expenses of liquidation must be reported to the court upon each application for payment of a dividend.

Judicial jurisdiction

3108. Upon the superintendent taking possession of the business and property of any bank the superior court of the State of California for the county in which the head office of such bank is located shall have exclusive original jurisdiction of all proceedings relating thereto and of any action or other proceedings brought under the provisions of this chapter. All papers relating to such proceeding, including copies of the certificate of appointment of any special deputy and the inventories required to be filed, shall be filed and be made a part of the record of such proceeding without the payment of any additional fees therefor. No damages may be awarded in such proceeding but, if sought, may only be recovered in a separate action.

Compromising of claims

3109. The superintendent may sell, compromise, or compound any bad or doubtful debt owing the bank, which is for a principal sum not exceeding five hundred dollars ($500), upon such terms as he may deem proper, and, if the principal sum thereof exceeds five hundred dollars ($500), he may compromise, compound, or sell the same upon such terms as the court may approve. If it appears improbable that a recovery on any debt can be had and that the costs of an action to collect would be lost and the principal sum thereof does not exceed five hundred dollars ($500), the superintendent may determine that no suit thereon shall be brought, and if the principal sum thereof exceeds five hundred dollars ($500), he may determine that no suit thereon be brought after obtaining approval of the court.

Selling of property, etc

3110. The superintendent may sell any real or personal property of the bank for cash or on credit and on such other terms and conditions as he may deem proper, subject to the approval of the court.

Contracts

3111. Within six months after taking possession of the property and business of any bank the superintendent may terminate or adopt any executory contract to which the bank may be a party including leases of real or personal property. Claims for damages resulting from the termination of any such contract or lease may be filed and allowed, but no claim of a landlord for damages resulting from the rejection of an unexpired lease of real property or under any covenant of such lease shall be allowed in an amount exceeding the rent reserved by the lease, without acceleration, for the year succeeding the date of the surrender of the premises plus the amount of any unpaid accrued rent without acceleration. Any such claim must be filed within 30 days of the date of such termination or within the time that claims must be filed under Section 3118, whichever is longer.

Conveyances, etc

3112. The superintendent in his own name or in the name of the bank may execute, acknowledge, and deliver any and all

conveyances and other instruments necessary or appropriate to effectuate the sale of any real or personal property or to effectuate any other transaction in connection with the liquidation of the bank or the distribution of its assets. Any conveyance or other instrument executed by the superintendent pursuant to this authority shall be valid and effectual for all purposes as though the same had been executed by the officers of the bank by authority of its board of directors. Whenever the superintendent sells any real property of the bank a certified copy of the order of the court approving the same shall be recorded in the county in which any part of such real property is located.

Legal proceedings

3113. The superintendent in the name of the delinquent bank or in his own name may prosecute and defend any and all actions and other legal proceedings appropriate or necessary to the liquidation of such bank.

Depositing money

3114. The superintendent from time to time shall deposit all moneys coming into his hands in the course of the liquidation of the bank in one or more state banks and in the event of the suspension or insolvency of the depositary they shall be preferred before all other deposits.

Inventory

3115. The superintendent shall make an inventory of the assets of the bank in duplicate and file one in the office of the superintendent and one with the clerk of the county in which the head office of the bank is located to be filed with the papers in the liquidation proceedings. Such inventory shall be open for inspection at all reasonable times.

Claims

3116. When the time fixed for the presentation of claims has expired the superintendent shall make in duplicate a full and complete list of all claims presented, including and specifying such claims as have been rejected by him, and a list of all claims of depositors as shown by the books or records of said bank for which claims have not yet been presented, and shall file one copy of said list in his office and one with the clerk of the county in which the head office of the bank is located to be filed with the papers in the liquidation proceedings. Before each application to the court for leave to declare a dividend the superintendent shall file a supplemental list of claims presented since the last preceding list was filed, including and specifying such claims as have been rejected by him. Such list of claims and of claims of depositors as shown by the books or records of the bank shall be open for inspection at all reasonable times.

Notice

3117. The superintendent shall cause notice to be given by advertisement in such newspapers of general circulation as he may select weekly for three consecutive months, calling on all persons who have claims against the bank to present the same to the superintendent and make legal proof thereof at a place to be specified therein and within four months of the date of the first publication of such notice, which date shall be specified in the notice. Such notice shall also state that all claims other than those of depositors appearing upon the books or records of the bank shall be forever barred if not filed within said four months' period and that all claims of depositors appearing upon the

books or records of the bank will be forever barred, except as herein provided, if not filed prior to the filing of a petition for a final dividend. The superintendent shall also mail a similar notice to all persons, including depositors, whose names appear as creditors upon the books of the bank and whose addresses appear upon the books or records of the bank and shall enclose therewith a printed form of notice of claim.

Verification

3118. All claims of every kind against the bank or against any property owned or held by such bank shall be presented to the superintendent in writing verified by the claimant or someone in his behalf within four months of the date of the first publication of the notice to creditors. Any claim, other than the claim of a depositor whose claim appears upon the books or records of the bank, not so presented within said four months' period shall be forever barred and any claim of a depositor whose claim appears upon the books or records of the bank which is not so presented prior to the date of the filing of the petition of the superintendent with the court for approval of the payment of the final dividend shall be forever barred except as to any moneys remaining after all debts for which claims were duly filed have been paid in full with interest. If the superintendent doubts the validity of any claim he may reject the same and serve notice of such rejection upon the claimant either by mail or personally. An affidavit of the mailing or personal service of such notice shall be prima facie evidence of the receipt thereof and shall be filed with the superintendent. Any action upon a claim so rejected must be brought within three months after the date of mailing or personal service of the notice of rejection.

Dividends

3119. At any time and from time to time after the expiration of the time fixed for the presentation of claims, the superintendent, after obtaining approval of the court, may declare and pay one or more dividends upon all approved claims out of the funds remaining in his hands after the payment of expenses and after setting aside an amount sufficient to pay to all depositors, who have not yet filed claims but whose claims appear upon the books or records of the bank, their pro rata share of the funds then available for the payment of a dividend. At any time after the expiration of one year from the date of the first publication of notice to creditors and after obtaining the approval of the court the superintendent may declare and pay a final dividend.

Objections

3120. Objections to any claim not rejected by the superintendent may be made by any person interested by filing a copy of such objections with the superintendent, who shall present the same to the court at the time of the next application for approval of the declaration of a dividend. The court shall thereupon dispose of said objections or may order a reference for that purpose, and should the objections to any claim be sustained by the court or by the referee, such claim shall not be allowed by the superintendent until the claimant has established his claim by judgment.

Unpaid dividends

3121. Dividends remaining unpaid and any sums available for payment of deposits for which no claim was filed, which remain in the hands of the superintendent six months after the order for the payment of a final dividend, shall be deposited by him in the State Treasury under the provisions of Article 7 of Chapter 6 of Title 10 of Part 3 of the Code of Civil Procedure, and shall be subject to claim or other disposition as provided in said Title 10. The superintendent may pay over the moneys so held by him to the persons respectively entitled thereto at any time prior to such deposit, upon being furnished satisfactory evidence of their right to the same.

(Amended by Stats. 1951, Ch. 1708.)

[ORIGINAL SECTION]

3121. Dividends remaining unpaid and any sums available for payment of deposits for which no claim was filed which remain in the hands of the superintendent six months after the order for the payment of a final dividend shall be deposited by him with the State Treasurer in the same manner and subject to the same disposition as provided for unclaimed trust funds by Article 3 of this chapter. The superintendent may pay over the moneys so held by him to the persons respectively entitled thereto at any time prior to such deposit upon being furnished satisfactory evidence of their right to the same.

Interest rate

3122. All approved claims of depositors and other creditors shall bear interest at the rate provided by law on judgments from the date that the superintendent takes possession of the property and business of the bank.

Property

3123. Should the bank have in its possession for safekeeping or storage any jewelry, plate, money, specie, bullion, stocks, bonds, securities, valuable papers, or other valuable personal property or should it have rented any vaults, safes, or safe-deposit boxes, the superintendent shall cause to be mailed by registered mail, postage prepaid, to any known person claiming to be or appearing on the books of the bank to be the owner of such property or to the person in whose name the safe, vault, or box stands a notice notifying such person to remove all such personal property within a specified fixed period of not less than 60 days.

Prepaid rent, etc

3124. On the last day fixed in said notice for the removal of such property or on the date when such property is removed or the box surrendered any contract between the person owning such property or holding said box and the bank shall cease and the amount of the unearned prepaid rent or charges, if any, shall become a debt of the bank to said person.

Disposition of property

3125. If any property be not removed within the time fixed by notice mailed by the superintendent, the superintendent may make such disposition of the property as the court on application thereto shall direct. The superintendent may cause any safe, vault, or box to be opened in his presence or in the presence of one of the special deputy superintendents and of a notary public not an officer or employee of the bank or of the superintendent. The contents thereof, if any, shall be sealed up by such notary public in a package upon which such notary public shall distinctly mark the name and address of the person

in whose name such safe or box stands upon the books of the bank and shall attach thereto a list and a description of the property therein. The package so sealed and addressed, together with the list and description may be kept by the superintendent in one or more of the safes or boxes of the bank or elsewhere until delivered to the person whose name it bears or until otherwise disposed of as directed by the court.

Meeting of stockholders

3126. Whenever the superintendent has paid to every depositor and creditor whose claim has been duly proved and allowed the full amount thereof with interest and has made proper provision for unclaimed dividends and made provision for unclaimed deposits if any sums remain for the payment thereof and shall have paid all expenses of liquidation, he shall call a meeting of the stockholders of the bank. He shall give notice of such meeting by mailing a notice thereof to each of the stockholders at the address appearing upon the books of the bank and by publishing a notice thereof in a newspaper of general circulation published in the county in which the head office of the bank is located at least 30 days prior to the date of the meeting.

Winding up

3127. At the meeting the stockholders shall determine whether the superintendent shall be continued as liquidator and wind up the affairs of the bank or whether an agent or agents shall be elected for that purpose. In so determining the stockholders shall vote by ballot in person or by proxy, each share of stock entitling the holder to one vote and a majority of the stock issued and outstanding being necessary for the making of such determination.

Same

3128. In case it is determined to continue the liquidation under the superintendent, he shall complete the liquidation of the affairs of the bank and after paying the expenses thereof shall distribute the proceeds among the stockholders in proportion to their several holdings of stock in such manner as may be approved by the court.

Same

3129. In case it is determined to appoint an agent or agents to liquidate, the stockholders thereupon shall select such agent or agents by ballot and by a majority vote of the stock present and voting in person or by proxy. The agent or agents so selected shall execute and file with the superintendent a bond to the people of the State in such amount, with such sureties and in such form as may be approved by the superintendent, conditioned for the faithful performance of all of their duties. The superintendent shall then transfer and deliver to such agent or agents all the assets of the bank then remaining in his hands after making provision for unpaid dividends and unclaimed deposits, and upon such transfer and delivery the superintendent shall be discharged from all further liability to such bank, its creditors, and its stockholders.

Assets

3130. Such agent or agents shall convert the assets coming into his or their possession into cash and shall account therefor and make distribution of the property of the bank as herein provided in the case of distribution by the superintendent,

except that the expenses thereof shall be subject to the approval of the court. In the event of the death, removal, or refusal to act of the agent or of one or more of the agents selected, the superintendent shall call a meeting of the stockholders upon the same notice as is provided for the initial meeting and at such meeting the stockholders by the same vote as is required for the initial selection of such agent or agents may elect a successor to the agent or agents who have died, been removed, or refused to act.

Court approval

3131. Whenever pursuant to the provisions of this chapter the approval of the court is required of any step in the liquidation proceedings such approval shall be given after a hearing had upon such notice as the court may direct. At any such hearing the court may by order approve the actions of the superintendent for which he has petitioned the court's approval or it may, by appropriate order, otherwise direct the superintendent in the matter in connection with which the petition was filed.

Borrowing of money

3132. Whenever in the opinion of the superintendent the liquidation or reorganization of any bank taken in charge by him would be facilitated thereby, or the public interests and the interests of depositors or stockholders would be served thereby, the superintendent shall have power to borrow money in behalf of such bank from the Reconstruction Finance Corporation, or from any other federal agency authorized to lend money to receivers, trustees, liquidating agents, or other agents or supervisory authorities in charge of banks which are closed or in process of liquidation, and with approval of the court, the superintendent may secure such borrowings by the pledge of the assets of any such bank in such manner and amount as may to the superintendent seem necessary, proper, or expedient.

Article 1.5. Stockholders Liability
(Article 1.5 added by Stats. 1951, Ch. 378.)

Stockholder's liability

3135. The stockholders of every banking corporation organized under the laws of the State of California shall be held individually liable, equally and ratably, and not one for another, for all contracts, debts and engagements of such corporation, to the extent of the amount of their stock therein, at the par value thereof, in addition to the amount invested in such shares, except that such liability shall not apply with respect to shares issued on and after October 25, 1933, in any such corporation whose deposits are insured by the Federal Deposit Insurance Corporation pursuant to the Federal Reserve Act as amended.

(Added by Stats. 1951, Ch. 378.)

31 U. S. C., §409 Transferor's liability

3136. The stockholders in any banking corporation organized under the laws of the State of California who shall have transferred their shares or registered the transfer thereof within 60 days next preceding the date upon which the superintendent shall have taken possession of the property, business

and assets, of such banking corporation, or who shall have so transferred or registered their shares with knowledge of impending failure, shall be liable to the same extent as if they had made no such transfer, to the extent that the subsequent transferee fails to meet such liability. This section shall not be construed to affect in any way any recourse which such stockholders might otherwise have against those in whose names such shares are registered at the time of the closing or failure of said banking corporation.

(Added by Stats. 1951, Ch. 378.)

Same Executors, etc.

3137. Persons holding stock as executors, administrators, guardians, or trustees, shall not be personally subject to any liabilities as stockholders, but the estates and funds in their hands shall be liable in like manner and to the same extent as the testator, intestate, ward, or person interested in such trust funds, would be if living and competent to act and hold the stock in his own name.

(Added by Stats. 1951, Ch. 378.)

Termination of liability

3138. Any such corporation whose deposits are insured by the Federal Deposit Insurance Corporation pursuant to the Federal Reserve Act, as amended, may, at any time while engaged in conducting the business of banking, terminate the liability imposed upon its stockholders by this article. Such termination of liability shall be effective six months after the corporation complies with all of the following requirements:

(a) Have caused notice in writing of such prospective termination to be served upon the superintendent.

(b) Have caused a copy of such notice to be published in a newspaper of general circulation published in the city or town in which the corporation has its principal place of business, or, if no newspaper of general circulation is published in such city, the notice shall be published in a newspaper of general circulation published in the county in which such principal place of business is located.

(Added by Stats. 1951, Ch. 378.)

Enforcement of liability

3139. Whenever the superintendent shall hereafter take possession of the business and property of any bank doing business in this State, for the purpose of liquidating its affairs, as provided by law, he may at any time during the process of such liquidation, if necessary to pay the debts of such corporation, enforce the individual liability of the stockholders set forth in Sections 3133 to 3137 inclusive. For the purpose of enforcing such liability, the superintendent may call for a ratable assessment upon the stockholders of the bank without previous judicial ascertainment of the necessity for such action, and the action of the superintendent in calling for such assessment shall be conclusive on the stockholders of the necessity for such assessment.

(Added by Stats. 1951, Ch. 378.)

Same Procedure

3140. Any such assessment shall be levied by order of the superintendent under his official seal, which order shall be executed in duplicate, one to be filed in the office of the superin-

tendent and one with the papers in the liquidation proceedings in the county in which said bank shall have been located.

(Added by Stats 1951, Ch. 378)

Levying assessment

3141. The order of the superintendent levying the assessment shall specify the amount of the assessment and shall fix a date on which the assessment shall be due and payable. The date shall not be less than 30, nor more than 60 days from the time of making the order levying the assessment. The assessment shall be payable to the superintendent at his office or at such other places as may be specified in the order levying the assessment.

(Added by Stats. 1951, Ch. 378.)

Notice of assessment

3142. Notice of the assessment shall be given by causing a copy of the order to be personally served on each stockholder, or in lieu of personal service, sent through the mail, postage prepaid, addressed to such stockholder at his place of residence or business, as shown upon the books of the bank, and if not shown, where the principal office of the bank was situated. The copies of the order shall be personally served or placed in the mail within 15 days after the making of the order levying the assessment.

(Added by Stats 1951, Ch. 378.)

Right of action

3143. If any stockholder of the bank fails to pay the assessment in full upon the date specified in the order as the date upon which the assessment shall be due and payable, a right of action shall immediately accrue to the superintendent to recover the amount of the assessment or the amount remaining unpaid thereon from the stockholder or stockholders failing to pay the assessment in full.

(Added by Stats 1951, Ch. 378.)

Same Procedure

3144. The superintendent may maintain actions in this State, or in any other state or country to enforce and collect any sums or amounts due and payable and remaining unpaid upon any assessments from any stockholder or stockholders failing to pay the assessment in full. In any such action the superintendent may join as defendants one or more stockholders. In any such action the superintendent shall have the right of attachment as in other actions upon unsecured debts but the superintendent shall not be required to give bond on attachment or pay filing fees or other court costs.

(Added by Stats 1951, Ch. 378)

Use of funds

3145. All sums collected from any assessment, less the expenses of collection, shall be used by the superintendent against the liquidation of claims in the same manner as the assets of the bank are so used. If the ratable assessment, first made, proves inadequate to pay all of the creditors of the bank in full, the superintendent may levy further assessments, and proceed to collect them in like manner so long as the total of such assessments does not exceed the liability set forth in Section 3135.

Further assessments

(Added by Stats. 1951, Ch. 378.)

3146. If, after the payment of all liabilities against the bank, and the costs and expenses of liquidation, any surplus shall remain, the court in the liquidation proceedings shall determine and provide for any equities as between the respective stockholders, including proportions belonging to each stockholder and of any surplus of any of the assets remaining after payment of all liabilities and the costs and expenses of liquidation by reason of full or partial payment of any such assessment or assessments, and shall direct the payment thereof by the superintendent accordingly. Surplus

(Added by Stats 1951, Ch. 378.)

Article 2. Voluntary Liquidation

3150. Any bank which voluntarily has ceased to do a banking business shall immediately notify the superintendent thereof and shall then proceed to liquidate its affairs. Any deposit or other sum which has not been paid to the person entitled thereto within six months after the bank ceased to conduct a banking business shall be paid into the State Treasury under the provisions of Article 7 of Chapter 6 of Title 10 of Part 3 of the Code of Civil Procedure, and shall be subject to claim or other disposition as provided in said Title 10. If the superintendent has reason to conclude that the liquidation of such bank is not being safely or expeditiously conducted, he may take possession of the business and property of such bank in the same manner and with the same effect and subject to the same rights accorded the bank as if he had taken possession pursuant to the provisions of Article 1 of this chapter, and he may proceed to liquidate its affairs in the same manner as provided in said Article 1. When such bank has been completely liquidated, its corporate existence shall be dissolved in the manner provided by law. Ceasing to do business

Cession of rights

6514. without interest, upon the same notice and subject to the same conditions as a withdrawing shareholder.

Cancellation

6516. Holders of free shares upon the presentation of such shares for cancellation and upon giving a receipt for payment, are entitled to the payment of the matured value of such shares with interest or earnings thereon at the rate last paid or apportioned upon the same class of shares from the time the board of directors declared such shares to have matured until paid. Subject to the provisions of this article regarding redemption of investment certificates, interest on installment investment certificates and prepaid investment certificates issued after August 14, 1931, shall continue to accrue after the maturity of such certificates until such certificates are withdrawn.

Full paid certificate

6555. A full paid investment certificate is an investment certificate, without an expressed date of maturity, for which the association has received the principal amount thereof at or prior to the time of the issuance of the certificate.

Installment certificate

6556. An installment investment certificate is an investment certificate not full paid, upon which the holder is obligated to make payments at the times and in the amounts specified in the certificate.

Accumulative certificate

6557. An accumulative investment certificate is an investment certificate, not full paid and without an expressed date of

maturity, upon which the holder has the option of making payments at such times and in such amounts as the holder elects and as the association permits.

Minimum term certificate

6558. A minimum term investment certificate is an investment certificate, for which the association has received a single payment equal to the principal amount thereof and which has a date expressed therein before which notice of intention to withdraw cannot be given, or which requires written notice from the holder to the association for a period specified therein before the expiration of which period notice of intention to withdraw cannot be given. On and after such date, or upon and after the expiration of the specified period following such written notice, each such certificate ceases to be a minimum term investment certificate and becomes a full paid investment certificate, subject to the same withdrawal rights and restrictions as a full paid investment certificate.

Prepaid investment certificate

6559. A prepaid investment certificate is an investment certificate not full paid, upon which the holder has made a single payment and which is to reach its principal amount through crediting on such certificate interest thereon not withdrawn.

Withdrawals

6560. Upon the withdrawal of any sum evidenced by any investment certificate issued after August 14, 1931, other than an investment certificate issued to a bank, no interest shall be paid upon any sum which is received by the association on account of such certificate within six months prior to such withdrawal, except that interest may be paid in respect of sums received on installment investment certificates within six months prior to the date of the final payment which the holder is obligated to make thereon. All investment certificates issued after August 14, 1931, shall expressly state the limitation upon the holder's right to interest, as provided by this section.

Partial withdrawal

6561. If only a part of the sum evidenced by an investment certificate is withdrawn, the sum withdrawn is deemed to be that first received by the association unless otherwise agreed. Sums received by an association within the first 10 days of any calendar month may, at the option of the association, be deemed for the purpose of Section 6560 to have been received by such association on the first day of such month.

Waiver contracts

6562. No association shall make any contract with any of its certificate holders waiving in any manner the provisions of Section 6560, and any such contract so made is void.

Redemption

6563. All investment certificates issued after August 14, 1933, are subject to redemption, in whole or in part at the option of the association, by giving the holder at least 30 days' notice of such intended redemption. The notice of redemption shall expressly state that interest on such investment certificates ceases on the date fixed for redemption.

Same. Notice

6565. All investment certificates issued after August 14, 1931, shall expressly state that such certificates are subject to redemption, and shall state the period of notice which is required for redemption. If there is an initial period in which the certificate may not be redeemed, the investment certificate shall also state that fact and the length of such initial period.

Redemption price

6566. The redemption price of all investment certificates is the value of the certificate at the date fixed for redemption. If the date fixed for redemption of investment certificates is not a date on which interest is to be paid or credited, interest accrued from the last date interest was paid or credited shall be prorated and shall be based on the rate of return for the current period if such rate has been determined. If the rate has not been determined for the current period, the amount shall be based on the rate of return determined for the latest previous period for which such rate was determined.

Surrender of certificate

6567. On or after the date fixed for redemption as stated in the notice of redemption, each holder of an investment certificate called for redemption shall surrender his certificate properly endorsed to the association and shall then be entitled to receive payment of the redemption price of such certificate, or of the portion thereof to be redeemed, and if a certificate is redeemed in part, the holders shall receive a new certificate representing the unredeemed part thereof.

Holder's rights

6568. Interest, and all rights of the holder of investment certificates with respect to the amount called for redemption, except the right to receive the redemption price, cease after the date fixed for redemption if the notice of intended redemption is given as required by this article and if funds are available for the redemption on or after such date.

Loans, secured

7102. For each loan made by an association a note or other obligation expressing a rate of interest must be executed by the borrower and must be secured, except as provided by Article 3 of this chapter, by any of the following:

(a) A first mortgage or first trust deed upon real property.

Upon or after exercising such option, the withdrawal value of all shares pledged as collateral security shall be applied to the payment of the loan. Pledged shares which are applied to the payment of a loan pursuant to this section are deemed surrendered to the association and canceled.

Article 2. Loan Limitations

Amortized loans.

7150. An amortized loan is a loan which provides for payments to be made on the principal in installments at regular intervals at least semiannually commencing not later than one year after the date of the loan. The installments may include interest and either as to principal alone or as to combined principal and interest shall be at least of a sufficient amount so that the smallest installment provided in the note evidencing the loan, other than the last installment, if continued at such regular intervals would result in paying the entire principal in not more than 20 years or, in the case of loans pursuant to Article 3 of this chapter, within 25 years from the due date of the first installment.

Provisions

7151. Amortized loans may provide for payment of interest or principal or both, in addition to regular installments and if such regular installments are not sufficient to pay the entire principal within the term thereof, such loans shall provide that the entire amount unpaid is due and payable within six months after the due date of the last regular installment. The commissioner may by rule prescribe a longer maximum term within which such unpaid amount is due and payable with respect to amortized loans upon particular classes of securities.

Unamortized loans

7152. An association may make unamortized loans upon the security of improved real property in an amount not in excess of 60 percent of the appraised value of such real property.

Amortized loans, maximum

7153. An association may make amortized loans upon the security of improved real property in an amount not in excess of 70 percent of the appraised value of such real property.

(a) The principal improvement on such real property consists of a single family dwelling.

(b) The note or other obligation evidencing such loan provides for reduction of principal by monthly installments commencing in the case of construction loans not later than nine months after the date of such loan, and in case of any other loan not later than three months after the date of such loan.

Loans on unimproved real property

7155. An association may make loans upon the security of unimproved real property in an amount not in excess of 33⅓ percent of the appraised value of such real property.

Loans on property to be improved

7156. If any loan is made upon the security of real property where it is agreed or contemplated that improvements will be made to the property which shall become a part of such security, the real property shall be deemed improved real property and the value of the proposed improvements shall be included in the appraised value of such real property. At no time shall the amount advanced by the association on such loan exceed the ratio of loan to value authorized by this article. For the purpose of this computation the association shall include the value of such building or buildings at the time the amount is advanced.

Loans secured by pledging shares

7157. An association may make loans secured by the pledge of its shares or investment certificates to the extent of not more than 90 percent of the value of such shares or investment certificates at the time of making the loan. Any loans, which are wholly secured by the pledge of such shares or investment certificates, and the interest and arrearages due or accrued on such loans, may be repaid at any time without the payment of any premium or bonus interest, and upon such payment of the loan the security pledged therefor shall be surrendered.

Loans secured by pledging notes, etc

7158. An association may make loans secured by the pledge of notes or other obligations evidencing loans which are secured by property or securities upon which the association might make a direct loan, if such collateral loans do not exceed 90 percent of whichever of the following is the lesser:

(a) The unpaid principal of the notes or other obligations pledged as collateral security.

(b) The amount which the association would be permitted to make as a direct loan on the same property or securities.

Maximum amounts

(e), (f), (g), (h), (i), and (j) of Section 6702 to the extent of not more than 90 percent of the unpaid principal amount or market value thereof, whichever is less, if at the time of such loans the association would be authorized to invest in such bonds, treasury certificates, notes, mortgage participation certificates, or other securities in an amount at least equal to such unpaid principal amount or market value, whichever is less.

"Mutual plan," "definite contract plan"

7160. An association may make loans upon the "mutual plan" or upon the "definite contract plan."

Same

7161. Loans made upon the mutual plan are loans accompanied by a pledge of shares having a matured or par value equal to the expressed principal of the loan.

Same

7162. Loans upon the definite contract plan are repayable at a designated time or in installments specified in the notes or other obligations evidencing such loans.

Mutual plan Application of installments to principal

7163. If the installments on loans made on the mutual plan are applied in payment of the association's membership shares pledged therewith, such installments together with accumulated earnings thereon shall be construed as applied to the principal of such loans but only for the purposes of Sections 7150, 7151, 7168, and 7170.

Transfer of obligations

7164. If a loan is made on the mutual plan, the note or other obligation of the borrower shall expressly provide that if the association sells, exchanges, transfers, or otherwise disposes of such note or obligation, or if the association is liquidated, voluntarily or involuntarily, the value of the shares pledged, plus the accrued earnings thereon to the date of such sale or disposition or to the date of the commencement of liquidation, shall be applied first to advances on account of such loans, second to the interest accrued and unpaid thereon, and third to the principal.

Same

7165. If a loan is made on the mutual plan, the note or other obligation of the borrower shall expressly provide that if the association pledges, hypothecates, or otherwise encumbers such note or obligation, the value of the shares pledged, plus the accrued earnings thereon to the date of such pledge, hypothecation, or encumbrance may at the option of such association be applied as provided in Section 7164. The note or obligation shall also expressly provide that if the association does not exercise its option at the time of such pledge, hypothecation, or other encumbrance and the note or obligation is sold pursuant to such pledge, hypothecation, or other encumbrance, the value of such shares, plus the accrued earnings thereon to the date of sale, shall be applied as provided in Section 7164.

Shares applied as loan payment

7166. If an association applies the value of shares to the payment of the loan as provided in Sections 7164 or 7165 such shares are deemed surrendered to the association and canceled as of the date of such application.

Accrued earnings

CHAPTER 11. INTEREST, DIVIDENDS

7400. The rates of return on shares or investment certificates which do not provide for a definite rate of return thereon shall be determined by the board of directors of the association during, or within 30 days before the beginning of, or within 30 days after the end of, each quarterly or semiannual period. The rate of return is subject to the approval of the commissioner except where the association does not issue investment certificates or stock, or when an association has no matured withdrawal claims.

Approval

7401. The commissioner shall approve the rates of return on shares and investment certificates unless he finds them unfair, unjust, or inequitable, having due regard to the earnings of the association, the nature and amount of its assets and liabilities, and the amount of its undivided profits, reserves, surplus, and capital.

Approval presumed

7402. If, within 10 days after the commissioner is advised in writing of the rates of return on shares and investment certificates as determined by the board of directors of the association, the commissioner has not notified the association in writing that he disapproves of such rates, the approval of the commissioner is conclusively presumed.

Determination of rates

7403. If within 30 days after the commissioner is advised in writing of the rates of returns on shares and investment certificates as determined by the board of directors of an association, the commissioner and the board of directors have not agreed upon such rates or upon other rates, then the commissioner shall determine the rates. Apportionment

7405. Profits and losses shall be apportioned at least annually. In computing earnings or dividends on shares, the rate shall be applied to the value of the shares, subject to regulations prescribed by the by-laws or the directors in respect to payments on such shares since the last prior apportionment.

If no beneficiary or ward has been designated in writing to the association, the withdrawal or other value or any part thereof may be paid to the trustee's or guardian's executor or administrator. Unless such restraining order, injunction or other appropriate order is obtained, or such bond is given, the association, notwithstanding such notice, may honor notices of intention to withdraw and may pay withdrawals, dividends and interest to the person or persons to whose credit the account stands or may deliver such property to or upon the order of the person for whose account such property is held, without any liability on the part of the association.

withdrawals, dividends or interest on the account or may refuse to deliver such property until the adverse claim is finally adjudicated or released, without liability on its part and without liability for the sufficiency or truth of the facts alleged in the affidavit.

(Added by Stats. 1951, Ch. 451.)

Qualifying terms

7614. The provisions of Sections 7612 and 7613 are applicable even though the name of the person appearing on the association's books to whose credit the account stands or for whose account the property is held is modified by a qualifying or descriptive term such as "agent," "trustee" or other word or phrase indicating that such person may not be the owner in his own right of the account or property.

(Added by Stats. 1951, Ch. 451.)

Article 2. Voting Rights

Voting rights

7650. Except as otherwise provided in the articles of incorporation or by-laws pursuant to this article, each stockholder shall have one vote for each share of stock held by him and each shareholder shall have such number of votes as bears the same ratio to one as the par value of all shares held by him bears to the par value of one share of stock issued by such association.

Directors

7651. Associations authorized by their articles of incorporation or by-laws to issue both shares and stock may provide in their articles of incorporation or by-laws that a majority of the board of directors shall be elected by the stockholders.

Different voting rights

7652. Associations authorized to issue shares may provide in their articles of incorporation or by-laws that the holders of installment, accumulative, or prepaid shares shall have lesser voting rights than holders of full paid shares. The difference in the voting rights may vary according to the value of the installment, accumulative, or prepaid shares.

By-law provisions

7653. Certificate holders have no voting rights except those expressly provided in the by-laws.

Borrowers as members

7654. Borrowers who qualify as members under Chapter 13 of this part are entitled to cast one vote each in person or by proxy, as follows:

(b) At all meetings where the members of the association and other persons who are not members are entitled to vote.

(c) On all matters of the association requiring the vote of shareholders, stockholders, or other persons entitled to vote.

Same Two members

7655. In associations whose by-laws authorize borrowing memberships, if a loan is made to, or property securing a loan is owned by two or more persons each of them is a member, but such persons in the aggregate shall hold one certificate and have one vote, and such vote shall be cast by the majority of such persons present in person or by proxy at such meeting, or if only one of such persons is present in person or by proxy then by that one.

Article 3. Transfers

Transfers Written notice

7700. No transfer or encumbrance of investment certificates or shares issued by an association is effective as to such association until written notice of the transfer or encumbrance is given to the office of the association at which such investment certificates or shares were issued, or at which the account of the association as to such shares or investment certificates is kept, or to the principal office of the association.

Presumption

7701. Until notice of transfers or encumbrance of shares or investment certificates is given as provided in this article, the association may conclusively presume that investment certificates and shares have not been transferred or encumbered, and may make all payments or issue new investment certificates or shares to or in the name of the person in whose name its certificates or shares are issued. This section applies whether or not the investment certificates or shares are presented at the time of payment or issuance, and the association has no responsibility to a transferee or lienholder with respect to any investment certificates or shares, or parts thereof, so paid or reissued.

Fee

7702. If the by-laws of an association so provide, an association may charge and collect a transfer fee not exceeding ten cents ($0.10) on each share or investment certificate. Such fees shall be accounted for by the association like other funds of the association.

Chapter 13. Membership of Borrowers

Membership of borrowers

7900. Any association may provide in its by-laws that every person holding a certificate of membership as a borrower from such association shall be a member of the association. Any applicant for a loan from any association having by-laws containing such provision, who is not a member of such association, may be permitted to become a member without purchasing or subscribing for shares of such association, by filing an application with the association before or at the time of the filing of his loan application. A certificate of membership shall be issued to every such applicant accepted by such association as a member.

Termination

7901. Any person who is a member of an association solely by reason of holding a borrower's membership ceases to be a member upon any of the following:

(a) The full repayment of the loan including all advances.

(b) The sale, exchange, transfer, or other disposition of such loan by the association.

(c) The transfer of the property securing the loan to another person.

Transfer of security

7902. When the property securing a loan of a borrowing member is transferred, the person acquiring such property becomes a member upon being issued a certificate of membership as a borrower, in lieu of the person making the transfer, but the association, until it has notice of such transfer, is entitled for all purposes to treat the transferor as a member of the association.

CHAPTER 14. WITHDRAWALS

Article 1. Notice of Intention

Notice

8100. Each association shall prescribe by its by-laws, or by contract with its shareholders or certificate holders the period of notice of intention to withdraw. The period shall be six months in the case of all shares or investment certificates issued after September 15, 1945. The association may pay withdrawal claims before the expiration of the period in accordance with the provisions of this chapter.

Shares or certificates outstanding on Sept 15, 1945

8101. Nothing in this chapter prohibits an association from doing the following:

(a) Issuing shares or investment certificates prescribing the same period of notice of intention to withdraw as prescribed in shares or certificates outstanding before September 15, 1945, if such new shares or investment certificates are issued in lieu of the shares or certificates outstanding on that date.

Terms of withdrawal

8103. Each association may prescribe by its by-laws, or by contract with its shareholders or certificate holders the terms and conditions of withdrawal if such terms and conditions are not contrary to the provisions of this chapter.

Void agreements

8104. No association shall agree in advance to pay withdrawals without requiring notice of intention to withdraw or before the maturity of a notice of intention to withdraw, nor agree in advance to pay minimum term investment certificates before the expiration of the minimum term. Any agreement by an association contrary to the provisions of this section is void.

Invalid notice

8105. Any notice of intention to withdraw is invalid unless it is given in writing to the office of the association at which the shares or investment certificates in question were issued, or at which the account of the association as to such shares or investment certificates is kept, or to the principal office of such association, signed by a holder entitled to make a withdrawal, or by his attorney or agent.

Notice Revocation

8106. A shareholder or certificate holder may at any time revoke or waive, either in whole or in part, a notice of intention to withdraw and thereupon such notice is invalid either in whole or as to such part.

Minimum term certificates

8107. No valid notice of intention to withdraw may be given for minimum term investment certificates during their minimum term. The holders of minimum term investment certificates may not withdraw during the minimum term except at the option of the association issuing such certificates.

Pledged certificates

8108. Except as provided in Section 8109 no shareholder or certificate holder whose shares or investment certificates are pledged as security for a loan from the association issuing such shares or investment certificates may make a withdrawal or give any valid notice of intention to withdraw such shares or investment certificates until the indebtedness for which the shares or investment certificates are security is fully paid.

Withdrawals

8109. Withdrawals may be made at any time without notice from pledged shares and investment certificates, whether or not the association is on notice if the full amounts of such withdrawals are used to pay the indebtedness for which the shares or investment certificates are pledged, or any part thereof. If the loan for which the shares or certificates are pledged is made upon the mutual plan, such withdrawals without notice shall be permitted only at the option of the association unless the entire indebtedness is paid.

Filed in order received

8110. All notices of intention to withdraw shall be filed when received by each association or by the several branches thereof in the order in which they are received, and each shall be kept on file with the exact time of the receipt noted thereon or recorded, until it is paid or becomes invalid.

"Matured notice"

8111. When any notice of intention to withdraw has been on file for the period prescribed, or for the period stated in such notice as the period to elapse previous to making the withdrawal, whichever is longer, such notice is a "matured notice" for all the purposes of this division.

"Initial installment," "successive installments"

8112. Withdrawal claims of any one investor in an association or of two or more investors in an association holding shares or investment certificates in common or in joint tenancy mature in installments if such claims are for any sum greater than two hundred fifty dollars ($250). The first of the installments is denominated the "initial installment" and the remaining installments are denominated the "successive installments."

Same Maturity

8113. The initial installment matures in the case of withdrawal claims filed pursuant to Section 6515, or the provisions of this article, when the notice of intention of withdrawal matures. The initial installment matures in the case of maturity of shares pursuant to Section 6516, upon the declaration of such maturity by the board of directors of the association.

Successive installments

8114. The first successive installment matures 30 days after the payment of the initial installment, and the other successive installments mature respectively 30 days after the payment of the next preceding successive installment.

Amount of installment

8115. If withdrawal claims represent investment certificates or shares having a value in excess of two hundred fifty dollars ($250), but not greater than one thousand two hundred fifty dollars ($1,250), each installment shall be two hundred fifty dollars ($250), or the portion of the claim remaining unpaid at the time such installment matures, whichever is less.

Same

8116. If withdrawal claims represent investment certificates or shares having a value in excess of one thousand two hundred fifty dollars ($1,250), but not greater than twenty thousand dollars ($20,000), each installment shall be one-fifth of the value of the shares or investment certificates at the time the initial installment matures or the portion of such claim remaining unpaid at the time such installment falls due, whichever is less.

Same

8117. If withdrawal claims represent investment certificates or shares having a value greater than twenty thousand dollars ($20,000), each installment shall be four thousand dollars ($4,000), or the portion of the claim remaining unpaid at the time such installment matures, whichever is less.

Surrender of certificates

8118. If the notice from the association that funds are available for the payment of withdrawals so provides, shareholders or certificate holders who fail to tender their certificates for surrender within 10 days after the notice from the association, have no right to withdraw except after giving new notice of intention to withdraw.

Article 2. Associations on Notice

"Association on notice"

8150. If the sum of the matured withdrawal claims of any association exceeds 5 percent of the value of all outstanding shares and investment certificates of the association, then such association is an "association on notice." An association which is on notice continues on notice until either of the following occurs:

(a) All of the matured withdrawal claims are paid or funds are set aside for the payment thereof and notice is given to the holders that the funds are set aside.

(b) The sum of the matured withdrawal claims becomes less than 3 percent of the value of all outstanding shares and investment certificates of such association either by payment or by setting aside funds for payment and giving notice of such fact to the holders, and with the approval of the commissioner, the board of directors declares that such association is no longer on notice.

Payment of dividends

8151. An association on notice shall not pay any dividends on its stock or make any loans or investments, except loans or investments pursuant to its obligations incurred before it became an association on notice and loans expressly permitted by Sections 6701 and 8203.

Statement

8152. Each association on notice shall mail to the commissioner within 24 hours after becoming an association on notice, a statement that such association is on notice. As long as such

association is on notice it shall mail to the commissioner daily or as often as the commissioner directs a statement showing the following:

(a) The amount of its cash on hand and in banks.

(b) The amount of its United States Government bonds and treasury certificates.

(c) The amount and description of all its other bonds.

(d) The amount of all unpaid notices of withdrawal filed with such association.

(e) The amount of all borrowing other than through the issuance of investment certificates.

(f) The amount of all matured shares of such association.

(g) The amount of its incomplete loans.

(h) Any other data required by the commissioner.

Article 3. Payment

Payment

8200. If the shareholder or certificate holder tenders his certificate for surrender, duly endorsed, within 10 days after any valid notice of intention to withdraw matures, he is entitled, subject to the provisions of this article, to receive the withdrawal value of his shares or investment certificates or of that part thereof referred to in such notice. The withdrawal value is the full amount paid in upon the shares or investment certificates surrendered except transfer and entrance fees, together with the dividends, profits, or interest applicable to the shares or certificates withdrawn, subject to such adjustment of earnings or interest as is provided by by-law or contract.

"Matured withdrawal claims"

8201. "Matured withdrawal claims," includes the following:

(a) The value of all shares or investment certificates or parts thereof for which valid notices of intention to withdraw are on file, matured, and unpaid.

(b) Notices of intention to withdraw by defaulting shareholders pursuant to Section 6515.

(c) The value of all shares which have matured pursuant to Section 6516 and which are unpaid.

Priorities

8202. Whether or not an association is on notice, its obligation to pay matured withdrawal claims, and the right of shareholders and certificate holders to receive payment of matured withdrawal claims, is secondary and subsequent to the right of such association to pay, and to provide a reasonable fund for the payment of the following:

(a) Taxes, assessments, insurance, repairs, alterations, and other sums necessary to protect and preserve or to furnish or equip its properties and its interest in properties including property held for security.

(b) Principal and interest on borrowings by the association.

(c) Interest on investment certificates and dividends on shares.

(d) Rent, compensation of officers, agents, salesmen, and other employees, and other usual and ordinary operating expenses of such association.

(e) Commitments on its incomplete loans or investments.

Investments, etc

8203. An association on notice with the consent of the commissioner, and an association not on notice without the consent of the commissioner, in lieu of paying matured withdrawal claims may:

(a) Make or purchase loans or investments not exceeding the principal amount of money borrowed and not repaid by such association from a federal home loan bank, or other similar federal agency.

(b) Invest in stock issued by any federal home loan bank or other similar federal agency of which such association is eligible to be a member.

"Available funds"

8204. Whether or not an association is on notice, the right of shareholders and certificate holders to receive payment of matured withdrawal claims, is limited to payments from an association's cash on hand or in banks, proceeds from sale of investments and loans, and other cash receipts of such association. The cash, proceeds and other receipts which remain after deducting therefrom all payments, reserves, loans, and investments mentioned in Sections 8202 and 8203 are denominated "available funds."

"Unrestricted funds"

8205. "Unrestricted funds," is that part of the available funds which may be used by the association for the following:

(a) To pay withdrawals without requiring notice of intention to withdraw or before the maturity of a notice of intention to withdraw regardless of the nonpayment of any or all matured withdrawal claims.

(b) To pay minimum term investment certificates before the end of their minimum term subject to such adjustment of interest as is provided in such certificates.

(c) The making of loans or investments, or for any other purpose not prohibited by law.

Same

8206. If there are no matured withdrawal claims except claims for the payment of which funds have been set aside by the association, then all of the available funds are unrestricted funds.

Same

8207. If there are matured withdrawal claims for which funds for payment have not been set aside by the association then, whether or not the association is on notice, not to exceed one-third of the available funds are unrestricted funds, and at least two-thirds of the available funds shall be applied to the payment of withdrawals.

Withdrawals

8208. In applying the portion of available funds to the payment of withdrawals as provided in Section 8207, an amount equal to one-third of the available funds may be applied to pay a sum not to exceed one hundred dollars ($100) per person in each month to any one or more of its shareholders or certificate holders, with or without requiring notice of intention to withdraw. The association may pay this sum regardless of the non-

payment of any or all matured withdrawal claims and in addition to any unrestricted funds so applied. The balance of the portion for withdrawals shall be applied to the payment of matured withdrawal claims in the following order:

(a) The payment of withdrawals in respect of investment certificates pursuant to Section 8200 according to the priority in time of the maturity of the claims for such withdrawals. As between the holders of certificates upon which the claim for withdrawal matures at the same time, payment shall be made in the order of demand for or notice of such withdrawal.

(b) The payment of withdrawals in respect of shares pursuant to Sections 6515 and 8200 and withdrawals through payment of matured shares pursuant to Section 6516 without preference of one type of such withdrawal over the other, according to the priority in time of the maturity of the claims for withdrawals. The time of maturity of withdrawals pursuant to Sections 6515 and 8200 is the time notice of intention to withdraw matures. The time of maturity of withdrawals through payment of matured shares pursuant to Section 6502 is the time such shares are declared by the board of directors to be matured. If shares are declared to be matured at the same time, then payment shall be made in the order provided in the by-laws, or in the absence of such provision in the numerical order of issuance.

Unused unrestricted funds

8209. If in any month an association has not used as unrestricted funds or for payments of not more than one hundred dollars ($100) per month per person the full amounts which such association is permitted by Sections 8207 and 8208 to use for such purposes, then the amounts not used are available to the association in any subsequent month for such purposes until such amounts are so used, in addition to the amounts which would otherwise be available for such purposes in the subsequent month.

Void agreements

8210. An association having matured withdrawal claims for which funds have not been set aside for payment by the association shall not pay any withdrawals except upon matured notice of intention to withdraw, nor allow the withdrawal of any minimum term investment certificates before the expiration of its minimum term except claims where the shares or investment certificates are pledged to the association and except as provided in Sections 8205 and 8208. Any agreement contrary to the provisions of this section is void.

Liquidation

8211. If the whole or any part of any matured withdrawal claim against an association remains unpaid for a period of three years after such claim matures, then, unless such association sets aside funds for the payment thereof which remain available for such payment, the commissioner may at any time thereafter take possession of the property, business, and assets of such association and retain possession until its affairs are finally liquidated in the manner provided by this part for the liquidation of associations by him, or until such association is allowed to resume business upon such conditions as are approved by the commissioner. The right of the commissioner to take pos-

session under this section is not exclusive, but is additional to his right to take possession under other provisions of this part.

Void contracts

8212. No association shall make any contract waiving in any manner the provisions of this article, and any such contract so made is void. This section shall not apply to Sections 8210 and 8211.

Article 4. Associations Not Issuing Stock or Investment Certificates

Scope

8250. The provisions of this article are not applicable to any association which issues stock or investment certificates.

Same
By-law provision

8251. The provisions of this article are applicable to any association which does not issue stock or investment certificates if the association's by-laws expressly provide that this article is applicable to such association.

Same

8252. All the provisions of this chapter are applicable to associations subject to this article, to the extent that they are not inconsistent with the provisions of this article.

Withdrawals

8253. In all associations subject to this article, holders of free shares therein desiring to withdraw in whole or in part may do so by giving notice thereof in writing of the amount desired to be withdrawn. At all times the right of the shareholders to receive payment of withdrawals is secondary and subsequent to the right of such association to pay and to provide a reasonable fund for the payment of the items mentioned in Section 8202.

Withdrawals on notice

8254. While an association subject to this article is on notice not more than one-half of the net monthly receipts from assets then owned, in any one month, shall be applied to withdrawals for that month without the consent of the board of directors, and such payment shall continue until the value of all shares for which notices of withdrawal are on file has been reduced to an amount less than 3 percent of the value of all outstanding shares.

Same

8255. The remaining one-half of net receipts of such association may be used for payment of withdrawals for which notice has not been filed, subject to such limitations as the board of directors may fix, and for the operating expenses of the business and the making of loans to members, or applied, in the discretion of the board of directors, to payment of withdrawals on notice.

Withdrawal of pledged shares

8256. No shareholders of an association subject to this article shall be permitted to withdraw whose shares are pledged to the association as security for a loan until such loan is fully paid.

Notice

8257. Whenever the demands of withdrawing shareholders of an association subject to this article exceed the money applicable to their payment, the notices of intention to withdraw must be registered in the order of filing and while such association is on notice payments thereon must be made in succession in the order that such notices were filed and registered.

Prior right of withdrawal

8258. All new investments by shareholders after an association subject to this article is on notice, whether made upon shares already issued or upon new shares issued, have a prior right of withdrawal as against all other shareholders.

Liquidation

8259. Whenever an application for withdrawal of free shares of an association subject to this article has been on file, or the payment of matured shares demanded, and either remains unpaid for a period of one year, all the receipts of such association from dues, interest, premium, loans repaid, and the proceeds of all other investments shall be applied toward the payment of withdrawals and maturities after the payment of expenses and general indebtedness. Whenever such application or demands have been on file and remain unpaid in whole or in part for more than two years the commissioner may take immediate possession of the property and business of such association, and retain such possession until its affairs are finally liquidated in the manner provided by this part for the liquidation of associations by him, or until such association is allowed to resume business upon such conditions as are approved by the commissioner.

CHAPTER 15. LIABILITY OF STOCKHOLDERS

Article 1. General

Stockholders Liability

8400. Stockholders, after their stock has been fully paid, are not liable to creditors nor for assessments upon their stock except as provided by this section and by Articles 2 and 3 of this chapter. If the articles of incorporation of an association expressly confer upon the directors such authority, and subject to any limitations therein contained, the directors may levy and collect assessments upon stock. Assessments on stock shall be levied, collected, and enforced in the manner and subject to the provisions set forth in Chapter 3 of Part 5, Division 1, Title 1, of the Corporations Code in respect to assessments upon stockholders of corporations generally.

Shareholders and certificate holders

8401. Shareholders and certificate holders are not liable to creditors nor for assessments.

Void contracts

8402. No association shall make any contract whereby the stockholders' liability provided for by this part is in any manner waived. Any contract in violation of this section is void.

Applicability

8403. Article 2 of this chapter and Section 8509 of Article 3 of this chapter do not apply to any association, or to any of its stockholders, six months after the association has met all of the following requirements:

(a) The association is an "insured institution" as defined in Title IV of the National Housing Act, as amended.

(b) The association has caused notice in writing of prospective termination of stockholders' liability to be served upon the commissioner.

(c) The association has caused a copy of notice of termination of stockholders' liability to be published at least once in a newspaper of general circulation published in the city in this

State in which such association has its principal office or, if no newspaper of general circulation is published in such city, in a newspaper of general circulation published in the county in which such principal office is located.

Exceptions

8404. Article 2 of this chapter and Section 8509 of Article 3 of this chapter are not applicable with respect to any stock of an association which is an "insured institution" as defined in Title IV of the National Housing Act, as amended, if the stock was issued on and after the date when such association became an "insured institution."

Article 2. Liability to Creditors

Stockholders individually liable

8450. The stockholders of each association are individually liable, equally and ratably, and not one for another, for all contracts, debts, and engagements of such association, including investment certificates and shares, to the extent of the par value of their stock therein, in addition to the amount invested in the stock.

Transfer of stock

8451. The stockholders of an association who transfer or register the transfer of their stock within 60 days preceding the date on which the commissioner, or a receiver or trustee of any association appointed by any court, takes possession of the property, business and assets of such association, or stockholders who transfer or register the transfer of their stock with knowledge of impending failure, are liable as if they had made no such transfer, to the extent that the subsequent transferee fails to meet the stockholders' liability. This section does not affect any recourse which such stockholders might otherwise have against those in whose names the stock is registered at the time of such failure or taking possession.

Liability of executors, etc

8452. Persons holding stock as executors, administrators, guardians, or trustees are not personally subject to any liabilities as stockholders, but the estates and funds in their hands are liable to the same extent as the testator, intestate, ward, or person interested in such trust funds would be if living and competent to act and hold such stock in his own name.

Exclusive liability

8453. The liability of stockholders pursuant to this article shall be enforced exclusively as set forth in this article.

Levy by commissioner

8454. If the commissioner, or a receiver or trustee of an association appointed by any court, is in lawful possession of the property, business, and assets of such association and determines that it is necessary for the purpose of paying the contracts, debts, and engagements of such association, he may enforce the liability of the stockholders, by levying a ratable assessment upon the stockholders of the association without previous judicial ascertainment of the necessity for such action. The action of such officer in levying such assessment is conclusive on the stockholders as to the necessity for such assessment.

Order

8455. The order levying the assessment on stockholders shall specify the amount thereof and shall fix a date on which the assessment is due and payable. The date shall not be less

than 30 nor more than 60 days from the time of making the order levying the assessment. The order shall fix the place for the payment of the assessment.

Notice

8456. Notice of the assessment on stockholders shall be given by causing a copy of the order to be personally served on each stockholder, or in lieu of personal service the copy shall be mailed to each stockholder at his place of residence or business, as shown on the books of such association. If such books show no such address then the copy shall be mailed to the stockholder at the city in this State where the principal office of such association is situated. The copies of the order shall be personally served or placed in the mail within 15 days after the making of the order levying the assessment.

Right of action

8457. If any stockholder of such association fails to pay the assessment in full upon the date specified in the order a right of action accrues to the commissioner, receiver, or trustee in possession of the property, business, and assets of such association to recover the amount of the assessment or the amount remaining unpaid thereon from the stockholders failing to pay the assessment in full.

Same

8458. The commissioner, receiver, or trustee in possession of the property, business, and assets of the association may maintain an action in this State, or in any other state or country, to enforce and collect any sum or amount due and remaining unpaid on any such assessment from any stockholder failing to pay the assessment in full. In any such action the officer may join as defendants one or more stockholders.

Right of attachment

8459. In any action to collect an assessment from stockholders the commissioner, receiver, or trustee in possession of the property, business, and assets of the association has the right of attachment as in other actions upon unsecured debts but such officer is not required to give bond on attachment or pay filing fees or other court costs in actions brought in this State.

Sums collected

8460. All sums collected from an assessment of stockholders, less the expenses of collection, shall be used in the liquidation of claims in the same manner as the assets of the association are used.

Further assessments

8461. If any assessment of stockholders proves inadequate to pay all of the claims in full, the commissioner, receiver, or trustee in possession of the property, business, and assets of the association may levy further assessments and collect the assessments as provided in this article for original assessments as long as the total of such assessments does not exceed the liability set forth in Section 8450

Disposition of surplus

8462. If, after the payment of all claims against an association and the costs and expenses of liquidation, any surplus remains, the court having jurisdiction shall determine and provide for any equities as between the respective stockholders, including the proportions belonging to each stockholder and of any surplus of any of the assets remaining after payment of all liabilities and the costs and expenses of liquidation by reason of full or partial payment of any assessments of stockholders, and

shall direct the payment thereof by the commissioner, receiver, or trustee accordingly.

Successor in possession

8463. If the commissioner, or a receiver or trustee of any association appointed by any court, after having been in possession of the property, business, and assets of such association, and after having instituted or taken any steps in relation to any assessments or the collection thereof, is succeeded in possession by another of such officers, then such officer at the time in possession of the property, business, and assets of such association may carry forward and complete such assessments and all actions and proceedings relative thereto, as fully as if such officer had instituted the same and had previously taken all steps theretofore taken by his predecessor. The commissioner, receiver, or trustee upon succeeding to possession of the property, business, and assets of the association previously held by any other officers, shall have the benefit of, and shall be bound by all assessments, actions, proceedings and transactions instituted, taken, or conducted by the predecessor officer relative to assessments of stockholders.

Article 3. Liability for Impaired Capital

Impaired capital

8500. If the value of the assets of an association after deducting the amount of liabilities of the association, including the value of its outstanding investment certificates and shares, is less than the aggregate par value of the association's outstanding stock the capital of the association shall be deemed to be impaired for the purposes of this article.

(Amended by Stats. 1951, Ch. 451.)

[ORIGINAL SECTION]

8500. If the value of the assets of an association after deducting the amount of liabilities of the association, including the value of its outstanding investment certificates and shares, is less than the aggregate par value of the association's outstanding stock or the investment certificate and withdrawable share reserve required for such association by Article 1 of Chapter 9 of this part which reserve shall be computed without giving effect to Section 6903, whichever is greater, the capital of the association shall be deemed to be impaired for the purposes of this article.

Making deficiency good

8501. If it appears from the report of an association, or the commissioner has reason to believe that the capital of an association is impaired, the commissioner may examine the association and ascertain the facts, and if he finds that such deficiency exists he shall require the association to make good such deficiency within 60 days after the date of requisition.

Assessment

8502. The directors of every association upon which a request to make good a deficiency is made, shall levy an assessment upon the guarantee stock to repair the deficiency. The directors shall cause notice of such request to be given to each stockholder of such association showing the amount of the assessment which the stockholder must pay for the purpose of making good such deficiency.

Sale of stock

8503. If any stockholder refuses or neglects to pay the assessment specified in the notice given pursuant to Section 8502,

within 30 days from the date of mailing or serving such notice, the directors of the association may sell to the highest bidder at public auction the stock of such stockholder. Before such sale the directors shall publish notice of the sale for 10 days in a newspaper of general circulation published in the county of this State where the principal office of the association is located, and serve a copy of such notice of sale on the stockholder personally or by mailing it to his last known address 10 days before the day fixed for such sale.

Refusal to pay

8504. If any stockholder refuses or neglects to pay the assessment specified in the notice given pursuant to Section 8502, within 30 days from the date of mailing or serving such notice, the directors of the association may sell such stock at a private sale and without public notice. Before making such private sale an offer in writing shall be obtained and a copy thereof served upon the owner of record of the stock to be sold, either personally or by mailing a copy of the offer to his last known address. If after service of the offer, the owner still refuses or neglects to pay the assessment within two weeks from the time of the service of the offer, the directors may accept such offer and sell the stock to the person making the offer, or to any other person or persons making a larger offer than the amount named in the offer submitted to the stockholders.

Cost of sale

8505. The directors shall pay from the proceeds of the stock sale the amount of assessment and the necessary cost of sale. The balance shall be paid to the person whose stock has been sold.

Limitations on sale

8506. Stock shall not be sold for delinquent assessments for less than the amount of such assessment and the expense of sale.

Inadequate bid

8507. If no bid or offer is received equal to or more than the amount of the assessment and the expense of sale, then the association may declare such stock forfeited to the association in satisfaction of the assessment and expenses, and the stock shall have the status of authorized but unissued stock. Such stock shall not be reissued except in accordance with a permit obtained from the commissioner pursuant to Article 2 of Chapter 7 of this part.

Sale of stock

8508. A sale of stock as provided in this article effects an absolute cancellation of the outstanding certificate or certificates evidencing the stock sold, and makes the certificate null and void. A new certificate shall be issued by the association to the purchaser of the stock.

Forfeited stock

8509. If any stock is declared forfeited to the association as provided in this article the holders of such stock are subject to the stockholders' liability provided in Article 2 of this chapter if within 60 days thereafter the commissioner or a receiver or trustee of the association appointed by any court, takes possession of the property, business and assets of such association, or if at the time of such forfeiture the stockholders had knowledge of the impending failure of such association.

CHAPTER 16. REPORTS AND EXAMINATIONS

Article 1. Accounting and Reports

Fiscal year

8700. The commissioner may establish a uniform fiscal year for all associations.

Classifications of accounts

8701. The commissioner may establish a uniform classification of accounts for associations, or classify associations and establish a uniform classification of accounts for each class, and prescribe the manner in which such accounts are kept. The commissioner may, after notice and hearing, prescribe by order the accounts in which particular outlays and receipts shall be entered, charged or credited. If the commissioner establishes a uniform classification of accounts each association shall keep its accounts in accordance therewith, excepting such accounts as are explanatory of and supplemental to the accounts prescribed by the commissioner.

Books, etc

8702. Each association shall keep its books in such form as to show accurately in detail its assets, liabilities, receipts, and expenditures.

Records

8703. Each association shall keep records written in ink or typewriting showing the appraised values of the real estate security, held in connection with each loan. Each record shall be signed by the appraiser, officer, or committee charged with making such estimated valuations. Every association shall file in writing with the commissioner the names of the appraisers, officers, and members of any committee charged with making such estimated valuations for the association.

"Withdrawable capital"

8704. Each association issuing shares shall designate the capital attributable to such shares as "withdrawable capital," in any statement or advertisement which it publishes in which any reference is made to capital. No association shall include in such capital the value of any shares pledged in connection with loans made on the mutual plan. If any such association also issues stock, then in any statement or advertisement the capital attributable to shares shall be stated separately from the capital attributable to stock, and shall not be combined. No association shall publish any statement or advertisement of its capital authorized or subscribed, unless it also publishes in connection therewith the amount of its capital actually paid up.

"Original loans"

8705. "Original loans," as used in this section, includes all loans other than loans made by an association for the purpose of facilitating the sale of property owned by such association. Each association, subject to rules and regulations prescribed by the commissioner, shall segregate the following in any statement of its financial condition:

(a) (1) Loans legally made or purchased before August 14, 1931, and (2) loans made or purchased after August 14, 1931, which comply as of the date of such statement with the requirements of this part for original loans.

(b) (1) Contracts by an association for the sale of real property to any person other than an affiliated person and

(2) loans made by an association for the purpose of facilitating the sale of property owned by such association to a person other than an affiliated person until such loans comply with the requirements of this part for original loans.

(c) (1) Contracts by an association for the sale of real property to any affiliated person, and (2) loans made by an association for the purpose of facilitating the sale of real property by an association to any affiliated person until such loans comply with the requirements of this part for original loans.

Reserve for absorbing losses

8706. Any association by resolution of its board of directors may irrevocably establish all or any part of any reserve or surplus account for the sole purpose of absorbing losses. In the case of reserve or surplus accounts which were available prior to the adoption of such resolution for the purpose, either solely or among other things, of absorbing losses, the written consent of the commissioner shall first be obtained. If prior to the adoption of such resolution the reserve or surplus account so established for the sole purpose of absorbing losses was available for the purpose, either solely or among other things, of absorbing losses, and such reserve or surplus account constituted all or a part of, or counted toward, the investment certificate and withdrawable share reserve, the loan reserve, the stock surplus, or any other reserve or surplus account required by or referred to in this part, then such reserve or surplus account excepting such part as is absorbed by losses, shall continue to constitute all or a part of, or to be counted toward, such reserve or surplus account required by or referred to in this part.

Annual report

8707. Each association shall make a full report in writing to the commissioner annually within 30 days after the close of its fiscal year. The report shall be verified by its president or vice president and secretary or treasurer, showing accurately the financial condition of such association at the end of the preceding fiscal year and the income and expenses of such association during such preceding fiscal year, together with such statistical and other information as the commissioner may require. The report shall be in such form and detail as the commissioner prescribes. The commissioner may require such reports for any or all associations quarterly or semiannually in lieu of annually.

Other reports

8708. Each association shall make any further reports which the commissioner requires, in such form and as to such matters relating to the conduct of the business of the association as the commissioner may designate.

Copy of annual report

8709. A copy of each annual report made to the commissioner shall be kept at each office of the commissioner, and shall be open to examination by any investor of the reporting association, subject to such reasonable regulations as the commissioner prescribes.

Public document

8710. The copy of the annual report filed in the commissioner's office is a public document and open to inspection by the

public. If in the judgment of the commissioner, the public welfare or the welfare of any association demand that any report or any information in a report should not be made public the commissioner may withhold such report or information from inspection by the public or any investor for such time as in his judgment is necessary.

False statements

8711. A false statement wilfully made in any report required by the commissioner constitutes perjury.

Forfeiture

8712. Any association which fails to furnish the commissioner any report required by this article within 30 days after demand shall forfeit the sum of ten dollars ($10) per day for every day such report is delayed or withheld. This sum may be recovered in an action brought by the commissioner in the name of the people of this State.

Failure to report

8713. If an association fails to make any report required from it pursuant to this article, the commissioner may immediately cause the books, papers, and affairs of such association to be examined at the expense of such association.

Financial statement

8714. The commissioner may require each association to mail once in each year within 60 days after the close of its fiscal year to each of the investors of the association a copy of a financial statement showing in such form and detail as the commissioner requires, the amount and character of the assets and liabilities of the association at the end of its preceding fiscal year. Any association in lieu of mailing such financial statements to its investors may publish a copy of such financial statement in any newspaper of general circulation published in the city in this State in which its principal office is located and in like newspapers published in each city in this State in which a branch of the association is located.

Reports to investors

8715. The commissioner may mail at any time to any of the investors of an association a report concerning the association or any of its business or affairs or a statement or analysis of its financial condition. The cost of preparing, printing, and mailing such report, statement, or analysis shall be paid by such association.

Article 2. Audits

Audits Annual

8750. Each association shall at least once in each year cause its books and accounts to be audited at its own expense by a certified or other public accountant or firm of certified or other public accountants selected by the association and approved by the commissioner. The annual audit shall cover the fiscal year unless the commissioner fixes a different period for any association.

Copy to commissioner

8751. Each association shall furnish the commissioner annually, within 90 days after the end of the period covered by the audit, two signed copies of the report of the public accountant showing the result of the audit and including a balance sheet of the association at the date of the audit and a statement of the income and expenses of the association during the year

ending with the date of the audit. The balance sheet and statement of income and expenses shall be certified by the public accountant making the audit.

Scope

8752. The commissioner may prescribe the scope of the annual audit, and require the accountant to furnish him with information additional to that contained in the audit report.

Copy

8753. A copy of each report furnished to the commissioner pursuant to this article shall be kept at each office of the commissioner, and shall be open to examination by any investor of the association, subject to Section 8754 and to such reasonable regulations as the commissioner prescribes.

Same Public document

8754. The copy of the audit filed in the commissioner's office is a public document and open to inspection by the public. If in the judgment of the commissioner, the public welfare or the welfare of any association demand that any audit, or any information in an audit should not be made public, the commissioner may withhold such audit or information from inspection by the public or any investor for such time as in his judgment is necessary.

Not exclusive

8755. The audit required by this article is additional to the examination of associations by the commissioner or his deputies or examiners required by Article 3 of this chapter. In lieu of the audit required by this article, or as a portion of such audit, the commissioner may accept any audit, or that portion of any audit, made exclusively by the examiners for the Federal Home Loan Bank Administration, Federal Home Loan Bank or Federal Savings and Loan Insurance Corporation, or by such examiners in conjunction with the deputies and examiners of the commissioner.

Article 3. Examinations

Examinations Annual

8800. The commissioner at least once in each year without previous notice, shall visit and examine into the affairs of every domestic association and of every foreign association doing business in this State.

Procedure

8801. During the annual examination the commissioner and his deputies or examiners shall have full access to all the books, records, securities, and papers of the association. The examiner shall first count the cash and check the bank balances of the association with the proper amount of funds as shown by the books to be on hand at the date and hour of such examination. The examiner shall then examine and verify the personal accounts of each officer, director, and employee of such association on its books. The examiner may thereafter examine and verify the books, accounts, and securities of such association, and the amount of its shares, stock, and investment certificates outstanding, and ascertain the values of all property and investments owned and of all property held as security for money loaned, and otherwise use reasonable diligence to ascertain the financial condition and solvency of such association.

Written authority

8802. Any deputy, examiner, or other appointee or employee of the commissioner shall produce written authority

from the commissioner before he is entitled to make the annual examination.

Oaths

8803. The commissioner and his deputies and examiners may administer oaths and examine under oath any director, officer, employee, or agent of any association concerning the business and affairs of the association examined or of any other association.

Extra examinations, etc

8804. Whenever in the judgment of the commissioner the condition of any association renders it necessary or expedient to make an extra examination or to devote any extraordinary attention to its affairs, the commissioner may make any and all necessary extra examinations and devote any necessary extra attention to the conduct of the association's affairs and may cause a certified public accountant appointed by the commissioner to make an audit of the association's business and affairs. The association specially examined shall pay a reasonable price to be fixed by the commissioner for all such extra services rendered by the commissioner or by such accountant.

Foreign associations

8805. The commissioner shall examine or cause to be examined the books and affairs of any foreign association prior to the granting of a license and at least annually thereafter. For every such examination made outside this State, a reasonable fee and the actual traveling expenses incurred shall be paid by the association so examined. The result of any similar examination made and certified by the duly constituted authorities of any state having similar laws of supervision may be accepted by the commissioner in his discretion.

Use of federal examination

8806. In lieu of making any annual examination, the commissioner may accept the examination of any association made by the Federal Home Loan Bank Board, a federal home loan bank, or the Federal Savings and Loan Insurance Corporation, or may examine any such institution in conjunction with the Federal Home Loan Bank Board, a federal home loan bank, or the Federal Savings and Loan Insurance Corporation.

Furnishing information

8807. The commissioner may make available to any regulatory or other public authority or officer, or to the Federal Home Loan Bank Board, any federal home loan bank, the Federal Savings and Loan Insurance Corporation, or the Home Owners' Loan Corporation any information furnished to or obtained by, and all or any part of any report of any examination of any such association made by him.

Chapter 17. Liquidation, Conservatorship

Article 1. Possession by the Commissioner

Cease and desist orders

9000. If the commissioner finds as the result of any examination or from any report made to him or to any association doing business in this State or from any report made to any of its investors that the association is violating the provisions of its articles of incorporation, charter, by-laws, or any law of this State, or is conducting its business in an unsafe or injurious manner, he may by an order addressed to

such association direct a discontinuance of such violations or unsafe or injurious practices and a conformity with all the requirements of law.

Seizure

9001. The commissioner may demand and take possession of the property, business and assets of an association if any of the following occur:

(a) The association does not comply with the order given pursuant to Section 9000, within the time specified therein.

(b) It appears to the commissioner that the association is in an unsafe condition or is conducting its business in an unsafe or injurious manner such as to render its further proceeding hazardous to the public or to any or all of its investors.

(c) The commissioner finds that the association's assets are impaired to such an extent that, after deducting all liabilities other than to its investors they do not equal or exceed the sum of the value of its outstanding shares and investment certificates and the par value of its outstanding stock.

(d) The association refuses to submit its books, papers, and accounts to the inspection of the commissioner or any of his examiners, deputies, or assistants.

(e) Any officer of the association refuses to be examined upon oath concerning the affairs of the association.

Retaining possession

9002. The commissioner may retain possession of the property, business and assets of an association until the association resumes business with the consent of and subject to the conditions imposed by the commissioner, or until its affairs are liquidated.

Right of appeal

9003. Whenever the commissioner takes possession of an association's property, business, and assets pursuant to this article, the association may within 30 days after the taking of possession commence an action in the superior court of the county in which the principal office of the association is located, to enjoin further proceedings. The court after citing the commissioner to show cause why further proceedings should not be enjoined, hearing the allegations and proofs of the parties, and determining the facts, may upon the merits dismiss such action, or enjoin the commissioner from further proceedings and direct him to surrender the business, property, and assets to the association.

Stay of judgment

9004. An appeal from a judgment enjoining the commissioner from further proceedings and directing him to surrender the business, property, and assets to the association does not operate as a stay of the judgment, unless the trial court in its discretion so orders. If an appeal from the judgment is taken by the commissioner no bond need be given. If the judgment dismisses the action an appeal therefrom does not operate as a stay of the judgment but the court rendering such judgment may, in its discretion enjoin the commissioner pending the appeal, from further proceedings and direct him, pending the appeal, to surrender such business, property, and assets to the association, if a bond is given as required by Section 943 of the Code of Civil Procedure.

Offenses

9005. Whenever the commissioner demands possession of the property, business, and assets of any association, pursuant to this part, the refusal of any officer, agent, employee, or director of such association to comply with the demand is a misdemeanor, punishable by a fine of not more than five hundred dollars ($500), or by imprisonment in the county jail for not more than 90 days, or by both such fine and imprisonment.

Enforcing commissioner's demands

9006. If the commissioner's demand for the possession of the property, business, and assets is not complied with within 24 hours after service of the demand, the commissioner may call to his assistance the sheriff of the county in which the principal place of business of such association is located, by giving the sheriff written demand. The sheriff shall enforce the demands of the commissioner.

Schedule of property, etc

9007. When the commissioner takes possession of the property, business, and assets of any association, the president and secretary of such association shall make a schedule of all its property, assets, and collateral held by it as security for loans and make an oath that such schedule sets forth all such property, assets, and collateral. The president and secretary shall deliver the schedule, and the possession of all property, assets, and collateral not previously delivered to the commissioner. The commissioner may at any time examine under oath any president, secretary, officer, director, agent, or employee of the association, to determine whether or not all such property, assets, or collateral have been transferred and delivered into his possession.

Subpenas

9008. The commissioner may issue subpenas and require the attendance of parties for examination under this article as provided for in Sections 5253 and 5254 of this code.

Custodian

9009. When the commissioner takes possession of the business, property, and assets of an association, he may appoint a custodian. The commissioner may require a good and sufficient bond from the custodian and place him in charge as his representative.

Collection of money

9010. When the commissioner takes possession of the property, business, and assets of an association, he may collect all money due to such association and give receipt therefor. The commissioner may do such other acts as are necessary or expedient to collect, conserve, or protect the association's business, property, and assets.

Liquidation

9011. Unless the commissioner is enjoined from further proceedings and directed to surrender the business, property, and assets of an association, or unless such association shall with the consent of the commissioner resume business, the commissioner shall proceed to liquidate the affairs of the association as provided in Article 2 of this chapter.

Powers while in possession

9012. If the commissioner is in possession of the business, property, and assets of an association, whether or not he is liquidating the affairs of such association, the commissioner may:

(a) Apply to the superior court of the county in this State in which the principal office of the association is located for an order confirming any action taken by the commissioner, or authorizing the commissioner to do any act or execute any instrument not expressly authorized by this part. The order shall be given after a hearing on such notice as the court prescribes.

(b) Pay and discharge any secured claims against the association, whether or not such claims have been presented for payment or have become barred from presentation by the expiration of the time limit specified in Article 2 of this chapter. No secured claim shall be paid in an amount larger than the value of the security at the time of payment.

(c) Pay administrative or current expenses incurred prior to the taking of possession which are necessary or convenient to the orderly or economic liquidation or preservation of the assets, and pay all wages or salaries, not exceeding two hundred fifty dollars ($250) per month to any one person, earned within six months prior to the taking of possession, whether or not claims for such expenses, wages, or salaries have been presented for payment, or shall have become barred from presentation by the expiration of the time limit specified in Article 2 of this chapter.

(d) Disaffirm any executory contracts, including leases, to which the association is a party, and disaffirm any partially executed contracts, including leases, to the extent that they remain executory. The disaffirmance shall be made within six months after obtaining knowledge of the existence of the contract or lease.

Damages from disaffirmance

9013. Claims for damages resulting from the disaffirmance of an executory contract or lease by the commissioner may be filed and allowed. No claim of a landlord for damages resulting from the disaffirmance of an unexpired lease of real property or under any covenant of such lease shall be allowed in an amount exceeding the rent reserved by the lease, without acceleration, for the year succeeding the date of the surrender of the premises plus the amount of any unpaid accrued rent without acceleration. Any such claim must be filed within 30 days of the date of such disaffirmance or within the time that claims must be filed under Sections 9051 and 9052, whichever is longer.

(Added by Stats. 1951, Ch. 451.)

Article 2. Liquidation by the Commissioner

Inventory

9050. When the commissioner determines to liquidate an association, he shall cause an inventory of all the assets of the association to be made in duplicate, file the original with the court, and file the duplicate in his office.

Notice

9051. When the commissioner determines to liquidate an association he shall cause notice to be given by publication once a week for four successive weeks in some newspaper of general circulation published at or near the principal place of business in this State of such association, to all persons having claims

against the association as creditors, investors, or otherwise, requiring them to present and file their claims and make legal proof thereof at a place and within a time designated in such publication. The time shall be not less than six months after the first publication. Within 10 days after the first publication the commissioner shall cause a copy of such notice to be mailed to all persons whose names appear of record upon the association's books as creditors or investors.

Claims

9052. All claims, demands, or causes of action of creditors, and persons other than investors against the association or against any property owned or held by it in trust or otherwise, must be presented to the commissioner in writing, verified by the claimant, or someone in his behalf, within the period specified in the notice for the presentation of claims, whether or not an action is pending to enforce any such claim or demand. The commissioner shall not approve any claim not so presented, and any such claim, demand or cause of action not so presented is forever barred.

Schedule

9053. Upon the expiration of the time fixed for the presentation of claims, the commissioner shall prepare in duplicate a full and complete schedule of all claims presented, specifying by classes those that have been approved and those that have been disapproved and shall file the original with the court and the duplicate in his office.

Notice to claimants

9054. Not later than five days after the time of filing the schedule of claims with the court, written notice shall be mailed to all claimants whose claims have been rejected. Action to enforce the payment of or to establish any rejected claim must be brought and service had within four months from and after the date of filing of the schedule of claims with the proper court or all such actions are forever barred.

Investors' rights

9055. Any investor, without presenting a claim, is entitled to any dividends declared, to the extent and in the proper relative order of priority, of any claim shown by the books of the association to exist in his favor against the association.

Interest on claims

9055.5. Claims of holders of investment certificates and of shares shall bear interest, from the date when interest or dividends were last paid or credited on such certificates or shares, at the rate or rates of return on investment certificates and shares determined from time to time by the commissioner to be the rate or rates of return on investment certificates or shares paid or credited for the period or periods in question by the largest number of associations in this State. Claims of other creditors shall bear interest at the rate provided by law on judgments from the date the commissioner takes possession of the business, property and assets of the association.

(Added by Stats. 1951, Ch. 451.)

Attachments, etc

9056. The determination by the commissioner to liquidate any association, evidenced by filing written notice of such determination with the court, operates to stay or dissolve all actions or attachments instituted or levied within 30 days next preceding the taking of possession of such association by the

commissioner, and pending the process of liquidation, no attachment or execution shall be levied or lien created upon any of the property of the association.

Special deputies

9057. The commissioner may appoint one or more special deputies to assist in the duties of liquidation and distribution under his direction and may also employ such special legal counsel, accountants, and assistants as may be needed and required and fix their salaries and compensation. All such salaries and compensation with other reasonable and necessary expenses as may be incurred in the liquidation shall be paid by the commissioner from the funds of the association in his hands. Such expenses shall include, among other things, that part of the salary of the commissioner and of his deputies, examiners, accountants, appraisers, and other assistants, and that part of the general expenses of the commissioner's office, as fairly represent, in the opinion of the commissioner, the proportion properly attributable to such liquidation.

Powers

9058. In liquidating the affairs of an association the commissioner may:

(a) Collect all money due to, and claims of, the association and give receipt therefor.

(b) Release or reconvey all real or personal property pledged, hypothecated, or transferred in trust as security for loans.

(c) Approve and pay all just and equitable claims.

(d) Commence and prosecute all actions and proceedings necessary to enforce liquidation.

(e) Compound bad or doubtful debts or claims, borrow money, sell, convey, or transfer real or personal property, on order of the superior court of the county in this State in which the principal office of the association is located. The order shall be made after hearing and on such notice as the court prescribes.

Hearings

9059. Regardless of Sections 73 and 142 of the Code of Civil Procedure, or any other law of this State, the judge of the superior court of the county in this State in which the principal office of an association is located, may whenever he deems it necessary or advisable, hold hearings relating to the sale, exchange, or other disposition of any real property or any personal property of the association regardless of the location of such property. The hearings shall be held at the county seat of any county in this State or at such places in the home county of such superior court at which sessions are held as provided in the Code of Civil Procedure.

Same Expenses

9060. When it is necessary for a judge, clerk, deputy clerk, court reporter, or bailiff of a superior court to travel to another county for hearings relating to the sale, exchange or other disposition of real or personal property of an association, each such judge, clerk, deputy clerk, court reporter, or bailiff shall be allowed his necessary expenses in going to, returning from, and attending upon the business of the court. The expenses shall upon order of the court, be a charge against the

funds of the association and paid out of such funds by the commissioner.

Doubtful debts

9061. If a purchaser for any property or any bad or doubtful debt or claim of an association cannot be obtained and it appears improbable that recovery thereon can be had, and that the cost of action to enforce collection of the same would probably be lost, the superior court may direct that suit on the debt or claim need not be brought.

Abandonment of property

9062. If it appears improbable that anything can be realized from any property of the association and that the cost of maintaining, preserving, or protecting the property would probably be lost, the court may direct the commissioner to abandon the property.

Powers of commissioner

9063. For the purpose of executing and performing any of the powers and duties conferred upon him by this article, the commissioner may in the name of the association or in his own name prosecute and defend any suit or other legal proceeding and may in the name of the association or in his own name as commissioner execute, acknowledge, and deliver any and all deeds, assignments, releases, requests for reconveyance, and other instruments necessary and proper to effectuate any sale of real or personal property or other transaction in connection with the liquidation of the association. Any deed, assignment, release, request for reconveyance, or other instrument executed pursuant to this section is valid and effectual for all purposes as though it was executed by the officers of such association with the authority of its board of directors.

Sale of real property

9064. If any real property of the association sold by the commissioner is located in a county other than the county in which the application to the court for permission to sell the property was made, the commissioner shall cause a certified copy of the order authorizing or ratifying such sale to be recorded in the office of the recorder of the county in which the real property is located.

Approved claims

9065. The commissioner with the approval of the court after a hearing on such notice as the court prescribes, may accept approved claims against an association in his possession for liquidation in partial or full payment for real property of the association, where the approved claims are based on any of the following:

(a) Investment certificates.

(b) Shares, if the association had prior to August 21, 1933, granted the shareholders the right and option to exchange their shares for investment certificates of equal value, issued by the association.

(c) General creditors' claims.

Canceled

9066. Claims received in payment pursuant to Section 9065 shall be accepted at their respective surrender values as estimated by the commissioner and as fixed and determined by the court. All such claims shall be canceled.

Rate of interest

9067. The commissioner may reduce the rate of interest to be paid on any loan held by an association in liquidation, to a rate not less than 7.2 percent a year. The commissioner may renew, extend the time of payment of, reduce the amount of the monthly payments of, or rewrite any such loan. The commissioner may make additional advances for the purpose of preserving the security of any such loan.

Claims Less than $10

9068. In liquidating the affairs of an association the commissioner shall first pay from the net realization of assets in excess of salaries, compensation, and expenses of the commission and his appointees, all claims approved by him in the sum of less than ten dollars ($10), other than the claims of shareholders or stockholders, and other than the claims of certificate holders or other creditors who object in writing to such payment. The claims of less than ten dollars ($10) shall be paid at their surrender value as estimated by the commissioner and as fixed and determined by the court on the same basis as claims are received in payment of real property as provided for by Section 9066. All such claims shall be canceled.

$10 or more

9069. After complying with Section 9068 the commissioner shall pay all claims approved in the sum of ten dollars ($10) or more, other than the claims of shareholders and stockholders, without distinction or preference as between the claims of certificate holders and other creditors except as provided in Section 9055.5 as to the respective rates of interest thereon. Thereafter the commissioner shall distribute and pay dividends in liquidation first to the shareholders until their claims are fully paid or such assets or funds are exhausted, and second, if any such assets or funds remain, to the stockholders until such assets or funds are exhausted. In the case of any association in which shareholders were prior to August 29, 1933, granted the right and option by the association to exchange their shares for investment certificates of equal value the commissioner shall distribute and pay dividends in liquidation to such shareholders without distinction or preference as between the claims of such shareholders and the claims of certificate holders and other creditors.

(Amended by Stats 1951, Ch. 451.)

[ORIGINAL SECTION]

9069 After complying with Section 9068 the commissioner shall pay all claims approved in the sum of ten dollars ($10) or more, other than the *claims of shareholders and stockholders, without distinction or preference* as between the claims of certificate holders and other creditors Thereafter the commissioner shall distribute and pay dividends in liquidation first to the shareholders until their claims are fully paid or such assets or funds are exhausted, and second, if any such assets or funds remain, to the stockholders until such assets or funds are exhausted. In the case of any association in which shareholders were prior to August 29, 1933, granted the right and option by the association to exchange their shares for investment certificates of equal value the commissioner shall distribute and pay dividends *in liquidation to such shareholders without distinction or preference as* between the claims of such shareholders and the claims of certificate holders and other creditors.

When authorized

9070. The distributions in Sections 9068 and 9069 shall be made when funds are available therefor to the extent of 10 percent or more of the approved claims of the class of claimants then entitled to distribution, and shall continue until all the assets have been realized upon and a final dividend in liquidation is declared and paid.

Surplus

9071. When the commissioner has (a) fully liquidated all claims other than claims of stockholders, and (b) made due provision for any and all known but unclaimed liabilities, excepting claims of stockholders, and (c) paid all expenses of liquidation, then upon the written request of the holders of a majority of the stock of such association he shall deliver to the association or its trustees any surplus that then remains in his hands, together with all the records and effects. The association or its trustees shall have title to such surplus, records, and effects free from any claim of the commissioner.

Statement of liquidation

9072. Upon the payment of a final dividend in liquidation, the commissioner shall prepare and file with the court a full and final statement of the liquidation, including a summary of the receipts and disbursements, and a duplicate of such statement shall be filed in the office of the commissioner. After hearing and approval by the court, the liquidation shall be closed.

Court approval

9073. In making its order approving the commissioner's final statement of the liquidation of an association, the court shall determine the amounts of the liquidating dividends to which claimants and investors are entitled but which then remain unpaid or unclaimed in the hands of the commissioner. The order of the court shall direct the commissioner to deposit such amounts with the State Treasurer. All amounts so deposited shall be deemed to be deposited in the State Treasury under the provisions of Article 9 of Chapter 6 of Title 10 of Part 3 of the Code of Civil Procedure, and shall be subject to claim or other disposition as provided in said Title 10.

(Amended by Stats. 1951, Ch. 1708.)

[ORIGINAL SECTION]

9073. In making its order approving the commissioner's final statement of the liquidation of an association the court shall determine the amounts of the liquidating dividends to which claimants and investors are entitled but which then remain unpaid or unclaimed in the hands of the commissioner. The order of the court shall direct the commissioner to deposit such amounts with the State Treasurer, and shall provide that such amounts shall escheat to the State five years after such deposit is made. Such amounts shall be received, invested, accounted for, and paid out in the same manner and by the same officers as is provided in the case of escheated estates of deceased persons. Before the termination of the five-year period, the persons entitled thereto may claim such amounts in the manner provided in Section 1272a of the Code of Civil Procedure.

Destruction of books, etc

9074. The order of the court approving the final statement on liquidation shall provide for the destruction or other disposition of the books and records of the association or pertaining to the liquidation of the association, and the court may declare the association dissolved as a corporation.

Article 3. Liquidation by Federal Savings and Loan Insurance Corporation

"Insured association"

9100. "Insured association" as used in this article means any association which has insurance protection provided by Title IV of the National Housing Act as now or hereafter amended.

Federal Savings and Loan Insurance Corporation

9101. The Federal Savings and Loan Insurance Corporation may act without bond as sole or joint custodian, receiver, or liquidator of any insured association which has been taken over for liquidation pursuant to the provisions of this chapter.

As receiver, etc

9102. The commissioner in the event of the taking over of any insured association for liquidation, may tender to the Federal Savings and Loan Insurance Corporation the appointment as sole custodian, receiver, or liquidator thereof or may tender to the corporation the appointment as cocustodian, coreceiver, or coliquidator thereof jointly with the commissioner.

Powers

9103. If the Federal Savings and Loan Insurance Corporation accepts the appointment mentioned in Section 9102, the corporation shall equally have and possess all the powers and privileges provided by the laws of this State with respect to the commissioner upon his taking possession of an association, and shall be subject to all the duties of the commissioner, and in addition shall have all the rights, privileges and powers conferred upon it by federal statutes now or hereafter enacted. The corporation may make loans on the security of, or may bid for or purchase at public or private sale, or at any custodian's, receiver's, or liquidator's sale, or may liquidate or sell, any part of the assets of the association of which it is the sole or joint custodian, receiver, or liquidator. If the corporation purchases any such assets, it shall bid and pay a fair and reasonable price.

Subrogation

9104. Whether or not the Federal Savings and Loan Insurance Corporation serves as sole or joint custodian, receiver, or liquidator, of any insured association, whenever it pays or makes provision for payment of the liabilities of any insured association in liquidation, it is subrogated, upon the surrender and transfer to it of any investment certificate, share, or account insured by it, to all rights of the holder with respect to such investment certificate, share, or account. The surrender and transfer of such investment certificate, share, or account does not affect any right which the transferor thereof may have in any portion of such investment certificate, share, or account which is uninsured, or any right to participate in the distribution of the net proceeds remaining from the distribution of the assets of such insured association. The rights of the investors in, and creditors of, such insured association shall be determined in accordance with the applicable provisions of the laws of this State.

9203. Article 2. Conversion Into Federal Association

Converts on into federal association

9250. An association may convert itself into a federal savings and loan association by following the procedure outlined in this article.

Procedure

9251. At any regular or special meeting called to consider such action, the investors entitled to vote by an affirmative majority of the votes cast in person or by proxy may resolve to convert such association into a federal savings and loan association.

Approval by certificate holders

9252. If an association has investment certificates outstanding, the determination to convert into a federal savings and loan association shall be approved, either before or after the adoption of such resolution, by certificate holders holding not less than two-thirds in value of such outstanding investment certificates.

Rights of trustees, etc

9253. Any executor, administrator, guardian or receiver, and any trustee of any kind or nature, and any insurance company or cemetery association may, without the necessity of obtaining court approval:

(a) Vote in person or by proxy in favor of converting an association into a federal savings and loan association, or may approve the determination to so convert.

(b) Exchange any shares, stock, investment certificates, or other rights or claims, for shares issued by such federal savings and loan association, and hold such shares as legal investments.

Certificate

9254. Within 10 days after the meeting at which the investors determine to convert into a federal savings and loan association, or if such association has outstanding investment certificates, within 10 days after the meeting or within 10 days after the requisite approvals of its certificate holders have been given, whichever is later, the association shall file in the office of the commissioner a certificate verified by the affidavit of the president or vice president and the secretary or assistant secretary of such association. The certificate shall contain a copy of the minutes of the meeting and a statement as to whether or not such association has outstanding investment certificates, and if it has, that certificate holders holding not less than two-thirds in value of such outstanding investment certificates have approved the determination to convert such association into a federal savings and loan association. A like certificate shall be filed in the office of the Secretary of State.

Same Presumption

9255. A certified copy of the certificate required by Section 9254 filed in the office of the Secretary of State is presumptive evidence of the holding of the meeting, the action taken at such meeting, and of the approvals of certificate holders.

Other necessary action

9256. After the meeting of the investors, the association shall take such action as is necessary to make it a federal savings and loan association, and within 10 days after receipt of

the federal charter the association shall file in the office of the commissioner and in the office of the Secretary of State, a copy of said charter issued to such association by the Federal Home Loan Bank Board or a certificate showing the organization of such association as a federal savings and loan association certified by or on behalf of the Federal Home Loan Bank Board. Upon the filing of such instrument in the office of the Secretary of State the association ceases to be a state association and is a federal savings and loan association.

Federal jurisdiction

9257. At the time the conversion into a federal savings and loan association becomes effective the association ceases to be supervised by this State and all of the property of the association, including all of its right, title, and interest in and to all property of every kind and character immediately, by operation of law and without any conveyance, or transfer and without any further act or deed, is vested in the association under its new name and style as a federal savings and loan association and under its new jurisdiction.

Rights of federal association

9258. The converted federal savings and loan association shall have, hold, and enjoy the property mentioned in Section 9257 in its own right as fully and to the same extent as the property was possessed, held, and enjoyed by it as a state association and the federal savings and loan association shall continue responsible for all of the obligations of said state association to the same extent as though the conversion had not taken place. The federal savings and loan association shall be merely a continuation of the state association under a new name and new jurisdiction and such revision of its corporate structure as is considered necessary for its proper operation under the new jurisdiction.

Validation provision

9259. Where a copy of a charter of a federal savings and loan association, issued by the Federal Home Loan Bank Board pursuant to the laws of the United States was filed with the Secretary of State prior to September 13, 1941, with the intent of converting a building and loan association organized and existing under the laws of this State into a federal savings and loan association, such conversions are validated, legalized, ratified and confirmed.

Article 3. Conversion of Federal Association

Conversion to state association Vote necessary

9300. Any federal savings and loan association may convert itself into a building and loan association under the laws of this State upon a vote of 51 percent or more of the votes of members of such federal savings and loan association cast at any regular or special meeting called to consider such action.

Directors

9301. At the meeting of the members in which they vote to convert into an association, the members shall also elect the directors who shall be the directors of the association after conversion takes effect, to hold office until the next annual meeting and until their successors are elected and qualified.

Copies of minutes

9302. Copies of the minutes of the proceedings of the meeting of the members in which they vote to convert into an association, verified by the affidavit of the president or vice president and the secretary or an assistant secretary, shall be filed within 10 days after the meeting in the office of the commissioner, and, in duplicate, with the Federal Home Loan Bank of which the association is a member.

Same Presumption

9303. The verified copies of the minutes of the meeting, when filed as required by Section 9302, are presumptive evidence of the holding and action of such meeting.

Action required

9304. After a meeting as provided for in Section 9300, the federal association shall take or cause to be taken such action in the manner prescribed and authorized by this division as shall make it a building and loan association of this State. The directors elected at such meeting shall file the documents and take such proceedings as are required by this division in the case of the original incorporation of a building and loan association. No building and loan association incorporated by conversion from a federal savings and loan association is required to comply with any of the provisions of law or any regulations promulgated by the commissioner relating to the minimum amounts of capital required to be subscribed in connection with the original incorporation of a building and loan association under this division.

Incorporation statement

9305. The directors of an association converted from a federal savings and loan association may insert in the articles of incorporation the following statement: "This association is incorporated by conversion from a federal savings and loan association."

Copies of articles

9306. Within 10 days after the filing of the articles of incorporation with the Secretary of State, there shall be filed with the Federal Home Loan Bank of which such association is a member, two copies of the articles of incorporation, certified by the Secretary of State.

State jurisdiction

9307. Upon the filing of the articles of incorporation with the Secretary of State, the association ceases to be a federal savings and loan association and is a building and loan association. All of the property of such association, including all of its right, title, and interest in and to all property of every kind and character immediately, by operation of law and without any conveyance or transfer, and without any further act or deed, is vested in the association under its new name and style as a building and loan association and under its new jurisdiction.

Rights of association

9308. The converted building and loan association shall have, hold, and enjoy the property mentioned in Section 9307 in its own right as fully and to the same extent as the property was possessed, held, and enjoyed by it as a federal savings and loan association and the building and loan association continues responsible for all of the obligations of the federal savings and loan association to the same extent as though conversion had not taken place. The building and loan association is merely a continuation of the federal savings and loan association under

a new name and new jurisdiction and such revision of its corporate structure as is considered necessary for its proper operation under the new jurisdiction.

Rights of trustees, etc

9309. Every executor, administrator, trustee, guardian, receiver, fiduciary, public corporation, political subdivision, public instrumentality, charitable institution, educational, and eleemosynary institution, bank, savings bank, trust company, financial institution, insurance company, or cemetery association, without the necessity of obtaining court approval may:

(a) Vote in person or by proxy in favor of converting a federal savings and loan association into a building and loan association, or may approve the determination to so convert.

The form and amount of such bond and the sureties thereon shall be approved by the superior court.

9554. An association may issue, pursuant to a plan approved under this chapter, and for any consideration specified in such plan, any one or more kinds of securities, regardless of any other provisions of this part.

9555. Except as provided in Section 9556 and Section 9557, in any plan proposed pursuant to Articles 3 or 4 of this chapter due consideration shall be given to the rights and interests of all persons affected thereby with due regard to the feasibility of such plan and the condition of such association, in the following order of priorities:

9556. Any plan may provide for the payment in full of all taxes, assessments, insurance, alterations, repairs and other operating expenses, expenses of the commissioner in connection with such association or its property, business, or assets, in connection with any action of such association under Section 9003, and for the payment of expenses in connection with a plan as authorized by this chapter.

Same Cash payment

9557. Any plan may provide for the payment in cash in full of all certificate holders, shareholders, and creditors each of whose investment certificates, shares, or claims is of such value, not to exceed twenty-five dollars ($25) as is specified in the plan.

Required provision

9558. A plan providing for the issuance of securities to holders of stock shall not be approved unless such securities contain express provision that no interest, dividends, or other distribution shall be paid until all securities issued in exchange for claims of investment certificate holders, claims of unsecured creditors, and claims of shareholders are retired. Under such plan each investment certificate holder and unsecured creditor except those who sell or otherwise dispose of their new securities shall receive the full amount of their original investment, with interest, dividends, or other return thereon before any interest, dividends, or other distribution is paid or made on securities issued to shareholders or stockholders.

Stockholders' securities

9559. A plan may provide for the issuance of securities to the stockholders that evidence in the stockholders or their assigns their ownership of the assets remaining after all creditors, certificate holders, and shareholders, except those who sell or otherwise dispose of their new securities, receive the full amount of their original investments or claims, with interest, dividends, or other return thereon.

Voting power shareholders

9560. Unless the court finds that the shareholders have an existing equity in the assets of the association, the securities issued to the shareholders shall contain an express provision that the securities shall have no voting power until the corporation has retired all securities issued in exchange for claims of certificate holders and unsecured creditors.

Same Stockholders

9561. Unless the court finds that the stockholders have an existing equity in the assets, the securities issued to the stockholders shall contain an express provision that the securities shall have no voting power until the corporation has retired all securities issued in exchange for claims of shareholders, certificate holders, and unsecured creditors.

Valuation of assets

9562. For the purposes of this chapter all assets shall be valued at fair market value, and any assets subject to encumbrance shall be valued with due allowance for the amount of such encumbrance. In determining the fair market value, the

court or the commissioner shall give due consideration to the earning power of the property, past, present, and prospective.

Article 3. Reorganization by Commissioner

Reorganization Required plan

9600. As a condition to restoration of possession and resumption of business pursuant to Section 9002 of this division, the commissioner may require an association to adopt and agree to carry out a plan of reorganization proposed by the commissioner.

Filing

9601. The commissioner, upon proposing a plan of reorganization pursuant to this article, shall file such plan in each of his offices and shall fix a time and place for a hearing before him on such plan. The commissioner shall give at least 30 days' notice to investors and creditors of such hearing, which notice shall include a copy or summary of such plan. The hearing shall be held in the county in which the association maintains its principal office.

Hearing

9602. At the time and place fixed for the hearing required by this article, or at the time and place to which such hearing is continued by the commissioner, the commissioner shall hear the parties interested in the plan and he may take testimony or receive depositions, or both, relative to the plan.

Dissents

9603. If at the time fixed for the hearing required by this article, written dissents from such plan, other than dissents withdrawn after the filing thereof and dissents specified in Sections 9605 and 9606, have been filed by holders of more than one-third in value of the investment certificates of such association then outstanding, or by holders of more than one-third in value of the shares of such association then outstanding, or by holders of more than one-half of the stock of such association then outstanding, such hearing shall not be held. The plan shall not be approved by the commissioner, and no further proceedings shall be taken in respect of such plan.

Commissioner's approval

9604. After the completion of the hearing required by this article the commissioner shall approve or disapprove the plan. If the commissioner disapproves the plan he may modify the plan and propose it as modified or propose a different plan. If the commissioner proposes a modified or different plan he shall follow the same procedure as required for the proposal of the original plan.

Dissents, shareholders

9605. Dissents of shareholders to the commissioner's plan of reorganization have no effect if the value of the assets of the association is less than the liabilities of the association, including the value of its investment certificates but not including the value of its shares.

Same Stockholders

9606. Dissents of stockholders to the commissioner's plan of reorganization have no effect if the value of the assets of the association is less than the liabilities of the association, including the value of all outstanding shares and investment certificates.

Plan Fair and equitable

9607. No plan shall be approved by the commissioner unless the commissioner is satisfied that the plan is fair and equitable, and feasible.

When binding

9608. When any plan under this article is approved by the commissioner, the plan is binding upon the commissioner, the association, and all of the investors and creditors of such association, other than investors and creditors who have filed with the commissioner written dissents from such plan before the hearing on the plan and have not withdrawn such dissents.

Consummation

9609. When any plan under this article is approved, the commissioner shall supervise and direct the consummation of the plan, and all persons affected by the plan shall do the necessary acts and take the necessary or desirable steps to put the plan into operation.

Withdrawal of dissents

9610. No investor or creditor who has filed with the commissioner a written dissent from a plan before the hearing on the plan is entitled to receive any securities or other participation under such plan except as provided in Section 9612 unless such dissent is withdrawn.

Liquidation for dissenters

9611. The commissioner shall set apart and liquidate for dissenters that part of the assets of the association which in value bears the same proportion to all of the assets of the association, due provision being made for any liens, charges, liabilities, and expenses entitled to payment in preference to certificate holders and unsecured creditors, as the value of investment certificates in respect of which dissents have been filed plus the amount of claims of unsecured creditors in respect of which dissents have been filed bears to the total sum of the value of all investment certificates of such association plus the amount of all unsecured creditors' claims against such association. This proportion is denominated the "proportion of dissenting certificate holders and unsecured creditors." In all cases the assets so set apart for liquidation shall be of such amount and value that the probable result of the liquidation of the assets for the benefit of the dissenting investors and creditors and of any payments to the commissioner pursuant to the provisions of the plan referred to in Section 9612 shall be not less favorable to the dissenting investors and creditors than the probable result of a liquidation, in the absence of a plan, of all of the assets for the benefit of all investors and creditors.

"Proportion of dissenting certificate holders and unsecured creditors"

"Proportion of dissenting shareholders"

9612. If the proportion of dissenting certificate holders and unsecured creditors is not the same as the proportion which the value of shares in respect of which dissents have been filed bears to the total value of all shares of such association, hereinafter denominated the "proportion of dissenting shareholders," or as the proportion which the value of stock in respect of which dissents have been filed bears to the total stock of such association, hereinafter denominated the "proportion of dissenting stockholders," any plan approved under this article shall provide that if the liquidation of assets set apart pursuant to Section 9611 results in the distribution to dissenting certificate holders and unsecured creditors of the full amounts to which they are

entitled and leave additional amounts available for distribution to shareholders or stockholders, such additional amounts shall be either:

(a) Increased if the proportion of dissenting shareholders or the proportion of dissenting stockholders is greater than the proportion of dissenting certificate holders and unsecured creditors, by payments from the association, or from a corporation or trustee to whom assets of the association are transferred pursuant to such plan, to the commissioner for distribution to dissenting shareholders or dissenting stockholders.

(b) Decreased if the proportion of dissenting shareholders or the proportion of dissenting stockholders is less than the proportion of dissenting certificate holders and unsecured creditors, by payments from the commissioner to the association, or to a corporation or trustee to whom assets of such association are to be transferred pursuant to such plan.

Payments

9613. The amounts to be paid pursuant to subdivisions (a) or (b) of Section 9612, shall be determined by the amounts available for distribution to shareholders or stockholders respectively, as the result of liquidation by the commissioner of the assets set apart pursuant to Section 9611 and shall be such as to overcome any inequity which would exist in the absence of such payment by reason of the differences between the proportion of dissenting certificate holders and unsecured creditors, the proportion of dissenting shareholders, and the proportion of dissenting stockholders.

Properties set apart

9614. Upon approving a plan of reorganization the commissioner shall determine what assets shall be set apart pursuant to Section 9611 and shall file a written statement of such determination, including a description of the properties set apart, in each of his offices The commissioner shall publish a notice that he has made such determination which shall include in general terms a statement of the properties set apart. The notice shall be posted in three public places in the county in which such association maintains its office, shall be published at least once in a newspaper of general circulation in that county, and shall be mailed to all investors and creditors whose addresses appear on the books of the association.

Court hearing

9615. Within 30 days after the notice required by Section 9614 has been posted, published, and mailed any investor or creditor may apply to the superior court of the county in which the association maintains its office for a determination as to whether the assets set apart pursuant to Section 9611 are sufficient in amount and value to conform to the requirements of that section. The court shall set a date for a hearing. At least 30 days' notice of such hearing shall be given by posting in three public places in the county, and if the court requires, notice shall also be given by publication or mailing at such time and in such manner as the court prescribes.

Presumption as to statement

9616. At the hearing provided for in Section 9615 the written statement of the commissioner of his determination as to the assets set apart shall be received and is prima facie evidence

of the correctness of such determination. The commissioner, the association, and any investor or creditor may introduce evidence in support of or in opposition to the commissioner's determination.

Court order

9617. After the conclusion of the hearing provided for in Section 9615 the court shall make its order either approving or disapproving the determination by the commissioner. If the court disapproves the determination, the court shall determine and specify in such order the assets to be set apart pursuant to Section 9611.

Appeal not stay of proceedings

9618. No appeal from an order of the court under Section 9617 shall stay or postpone the consummation of the plan, unless the court deems it necessary to delay the consummation for the proper protection of the appellant. In lieu of delaying the plan the court may restrain the sale, transfer, or other disposition by the commissioner, the association, or a corporation or trustee to whom assets are to be transferred, of any assets specified by the court if the retention of such assets is found by the court necessary or advisable to protect the rights of the appellant.

Article 4. Reorganization by the Court

9650. A plan of reorganization may be proposed in court pursuant to this article for an association whose property, business, and assets are in the possession of the commissioner. A plan of reorganization of such association may be proposed pursuant to this article, by the commissioner, by the holders of 25 percent in value of the outstanding investment certificates of the association, or if there are no investment certificates outstanding, by the holders of 25 percent in value of the outstanding free shares of the association.

Notice

9651. Upon the petition of the holders of 15 percent in value of the investment certificates of an association, or if there are no certificates outstanding, of the holders of 15 percent in value of the free shares of an association, the court shall order the commissioner to send to all certificate holders, or if there are no certificates outstanding, to all holders of free shares, an invitation to join in proposing to the court a plan of reorganization. The invitation shall be accompanied by any arguments in favor of such proposal prepared by the petitioners. The form and contents of the invitation and arguments are subject to approval by the court as fair and reasonable and the expense of preparation and distribution shall be borne by the petitioners.

Requisite time

9652. No plan may be presented to the court by certificate holders or holders of free shares unless it is presented within nine months after the commissioner has taken possession of the property, business, and assets of the association.

Petition

9653. The plan provided for by this article shall be presented by the proposers to the superior court of the county in which the association maintains its principal office, with a petition that the court determine the fairness of the plan and what consents are requisite to the plan becoming operative. The

petition shall set forth the plan and the fact that it is proposed by persons authorized under this article to propose it, and any other facts which the proposers deem material to a consideration of the fairness of the plan.

Referral to commissioner

9654. If the commissioner is not the proposer of the plan, the court shall refer the plan to the commissioner and direct him to analyze the plan and the condition of the association. Within 30 days or within such additional time as the court grants, the commissioner shall return the plan to the court with his findings and recommendations, and may propose to the court his own plan.

Hearing

9655. After the commissioner has presented his findings and recommendations on a proposed plan the court shall fix the time and place for hearing on the plan and on any plan presented by the commissioner. The court shall direct that notice of such hearing be given and shall direct the commissioner to, and the commissioner shall, deliver to the clerk of the court a list of the names and addresses of the investors and creditors of the association as shown by the records of the association, and such other information as the court deems necessary or proper. The list of names and addresses of investors shall be impounded by the clerk of the court and are not subject to inspection except on order of the court and upon such conditions as the court prescribes.

Modification of plan, no adverse effect

9663. If any plan is modified with the approval of the court and the court finds that such modification does not materially and adversely affect the interests of any particular class or classes of persons whose consent to the plan is required, then the consent of such particular class or classes of persons is not required to the modification and all persons of such class or classes who have consented to the plan prior to the court's approval of its modification are deemed to have consented to the modification and to the plan as modified.

Same. Adverse effect

9664. If any plan is modified with the approval of the court and the court finds that the modification materially and adversely affects the interests of any particular class of persons whose consent to the plan is required, notice of the modification shall be given to such class of persons in such manner as the court prescribes and any person who has consented to the plan prior to the court's approval of its modification and who does not file a written dissent to such modification within the time

Court order

9667. At the time and place fixed for a hearing as provided in Section 9666, or any continuance thereof ordered by the court, the court shall take evidence relating to consents and upon satisfactory proof of the fact that the requisite number of consents have been given, a further order may be entered providing that the plan shall become operative. This order is binding upon the commissioner, the association, and all its investors and creditors.

In fixing the allowance the court shall give consideration only to the services which contributed to the plan approved by the court, or to the refusal of the court's approval of different plans, or which were beneficial in the proceedings under this article, and to the proper costs and expenses incidental to the proceedings.

Expenses of clerk, etc

No plan presented pursuant to this article under which all or any part of the business, properties, or assets of an association is to be retained by, returned to, or transferred to any association, other than a federal savings and loan association or an association which, pursuant to the plan, is to cease being an association, shall be approved by the court unless it has been first consented to by the commissioner.

Participation of commissioner in hearing

9675. In any proceeding under this article the commissioner shall if requested by the court, and may upon his own motion, file a notice of his appearance in the proceeding. Upon the filing of such a notice the commissioner becomes a party in interest, with the right to be heard on all matters arising in the proceeding, and is deemed to have intervened in respect of all matters in the proceeding with the same force and effect as if a petition for that purpose was allowed by the court.

9676. When any plan under this article is approved by the court and consented to by the required investors and creditors, the plan is binding upon the commissioner, the association, and all of the investors and creditors of the association. The association, the commissioner, or such person as the court appoints, shall supervise and direct the consummation of the plan subject to the orders of the court, and all persons affected by the plan shall do the necessary acts and take the necessary or desirable steps to put the plan into operation.

Article 5. Withdrawal of Assets

Petition for withdrawal of assets

9700. Unless the commissioner is enjoined from proceeding with liquidation, the holders of at least 25 percent in value of the aggregate outstanding investment certificates of an association, whose business, property, and assets are in the possession of the commissioner, and any unsecured creditors of the association desiring to join with them, may themselves, or through a corporation nominated by and representing them, petition the superior court of the county in which the principal office of the association is situated to exchange their investment certificates and unsecured creditors' claims for their proportionate share of the assets of the association.

Contents

9701. The petition for the withdrawal of assets, among other things, shall set forth, in general terms the method by which the withdrawal of assets is to be accomplished, the interests to be acquired by investors and unsecured creditors if the petition is granted, and whether or not a corporation is to acquire the assets. If a corporation is to acquire the assets the petition shall also set forth the kinds of securities to be issued by the corporation and the classes of persons to whom the securities are proposed to be issued. A copy of said petition shall be served upon the commissioner or one of his deputies prior to the filing with the court or within three days after the filing.

Hearing

9702. Upon the filing of the petition to withdraw assets the court shall fix the time and place for the hearing of such petition and shall direct the commissioner to give at least 30 days' notice of the hearing to investors and creditors of the association. The court may approve the form of the notice by an order made without notice.

Request of joinder

9703. The petitioners or their nominee may request other investors and unsecured creditors of the association to join in the petition to withdraw assets.

Joinder

9704. At any time prior to the hearing on a petition to withdraw assets, investors and unsecured creditors of the association not represented by the petitioners at the time of the filing of the petition may join with and be represented by the petitioners by filing with the court, either directly or through the petitioners a written consent to join in the petition.

Appraisal of assets

9705. At least 10 days before the hearing on a petition to withdraw assets the commissioner shall serve upon the petitioners and shall file with the court an appraisal of each asset of the association or of each group of assets which are operated as a unit. The appraisal may be made by the commissioner or by appraisers employed by him. The appraisal shall be received in evidence at the hearing and shall be deemed prima facie correct. In the appraisal the various assets shall be classified by the commissioner according to the character of the assets and their operation.

Determination of claims, etc., represented by petitioners

9706. At the hearing on the petition to withdraw assets, the court shall determine the total amount of investment certificates and unsecured creditors' claims represented by the

petitioners, and what ratio the total bears to the total amount of investment certificates and unsecured creditors' claims outstanding.

Segregation of assets

9707. At the hearing on the petition to withdraw assets, the commissioner, the petitioners, or any other certificate holder or unsecured creditor, may recommend to the court the assets to be segregated, and the court shall determine the segregation and allot to the withdrawing certificate holders and unsecured creditors their proportionate share of the assets. The commissioner shall retain the remainder of the assets for liquidation for the benefit of the nonwithdrawing investors and unsecured creditors. The segregation of the assets shall be made so far as practicable by designating for withdrawal approximately the same proportion of each class of assets, to secure for the withdrawing certificate holders and unsecured creditors a fair and equitable cross section of the assets, and to retain for the nonwithdrawing certificate holders and unsecured creditors a fair and equitable cross section of the assets.

Fairness of withdrawal

9708. The court shall determine whether the proposed withdrawal of assets is fair both to the withdrawing and to the nonwithdrawing certificate holders and creditors, and if the court determines that the withdrawal is fair it shall grant the petition.

Granting of petition

9709. The court shall not grant a petition for the withdrawal of assets unless the court is satisfied that the proposed withdrawal of assets in exchange for investment certificates and unsecured creditors' claims is fair both to the withdrawing and nonwithdrawing certificate holders and creditors, nor unless the court determines that the ratio which the value of the assets to be withdrawn bears to the value of all of the assets is substantially the same as the ratio which the value of the investment certificates and the amount of unsecured creditors' claims owned by the petitioners bears to the total of the value of all investment certificates and the amount of all unsecured creditors' claims. In making this determination the court shall give due consideration to liabilities and encumbrances affecting particular assets or groups of assets.

Same: Majority shares

9710. If an association has shares outstanding, no petition for withdrawal of assets shall be granted by the court unless either the withdrawal is consented to by the holders of the majority in amount of the shares of the association or the value of the assets of such association is less than the liabilities of the association, including the value of its investment certificates but not including the value of its shares.

Same: Majority stock

9711. If the association has stock outstanding, no petition for withdrawal of assets shall be granted by the court unless either the petition is consented to by the holders of the majority in amount of the stock of the association or the value of the assets of such association is less than the liabilities of the association, including the value of all outstanding shares and investment certificates.

Issuance of securities

9712. Any corporation which is to acquire any assets of an association under this article may, subject to the provisions of this section, issue securities to the shareholders or stockholders, or both, of the association in exchange for their outstanding shares, stock, claims, or property interests, or partly in such exchange and partly for cash if the following requirements are met:

(a) The issuance of the securities is approved by the court and by the petitioners.

(b) The securities contain the express provision that no interest, dividends, or other distribution shall be paid thereon until the corporation has retired all securities issued in exchange for claims of investment certificate holders and claims of unsecured creditors.

(c) The securities issued to the shareholders contain an express provision that the securities shall have no voting power until the corporation has retired all securities issued in exchange for claims of certificate holders and unsecured creditors. This subdivision does not apply where the court finds that the shareholders have an existing equity in the assets of the association.

(d) The securities issued to the stockholders contain an express provision that the securities have no voting power until the corporation has retired all securities issued in exchange for claims of shareholders, certificate holders and unsecured creditors. This subdivision does not apply where the court finds that the shareholders have an existing equity in the assets of the association.

Approval

9713. After the completion of the hearing on the petition to withdraw assets the court has jurisdiction to approve or to disapprove the petition, or may approve the petition as amended. The court may approve or disapprove the terms and conditions of the issuance of securities in exchange for outstanding securities, claims, or property interests, or partly in such exchange and partly for cash.

Termination of liability

9714. If the petition or amended petition to withdraw assets is approved, the court shall order the commissioner to transfer and deliver to the petitioners or to the corporation nominated by them, the assets selected by the petitioners and approved by the court. Upon the transfer and delivery of the assets to the petitioners or to the corporation in exchange for investment certificates and unsecured creditors' claims in compliance with the order of court, the powers of the commissioner with respect to the assets transferred terminates and the association and the State are released from all further liability with respect to the assets withdrawn.

Rights not affected

9715. The order of court approving a petition, amended petition, or supplemental petition, to withdraw assets is binding upon the commissioner, the association, and all investors and creditors of the association The powers and duties of the commissioner and the rights of all investors and unsecured creditors as to the assets of the association not withdrawn are not affected by this article.

Supplemental petitions

9716. After the approval of the petition and the withdrawal of assets, the petitioners or the corporation to which the assets are withdrawn may file supplemental petitions in the court for the withdrawal of additional assets in exchange for additional investment certificates or unsecured creditors' claims, or both, aggregating not less than 10 percent of the total investment certificates and unsecured creditors' claims outstanding at the time of the first withdrawal of assets.

Hearings

9717. A supplemental petition to withdraw assets shall be set for hearing and notice of the hearing shall be given as provided in this article for an original petition. At the hearing on the supplemental petition the court shall order additional assets withdrawn if it determines that the withdrawal is fair both to the petitioners or the corporation, and to the nonwithdrawing certificate holders and creditors.

Unless such restraining order, injunction or other appropriate order is obtained, or such bond is given, the association, notwithstanding such notice, may honor notices of intention to withdraw and may pay withdrawals and dividends to the person or persons to whose credit the account stands or may deliver such property to or upon the order of the person for whose account such property is held, without any liability on the part of the association. If an adverse claimant delivers to the association at the office at which the account is carried or the property held his affidavit stating that of his own knowledge the person to whose credit the account stands or for whose account the property is held is a fiduciary for the adverse claimant and that such fiduciary is about to misappropriate the account or the property and stating the facts upon which the claim of a fiduciary relationship is based, the association may refuse to pay withdrawals or dividends on the account or may refuse to deliver such property until the adverse claim is finally adjudicated or released, without liability on its part and without liability for the sufficiency or truth of the facts alleged in the affidavit. The provisions of this section shall be applicable even though the name of the person appearing on the association's books to whose credit the account stands or for whose account the property is held is modified by a qualifying or descriptive term such as "agent," "trustee" or other word or phrase indicating that such person may not be the owner in his own right of the account or property.

The statement shall show the date, amount, and maturity of the loan contract, how and when repayable, the nature of the security for the loan, and the agreed rate of charge.

(b) Obtain from the borrower a signed statement as to whether any person has performed any act as a broker in con-

nection with the making of the loan. If such statement discloses that a broker or other person has participated, then the personal property broker shall obtain a full statement of all sums paid or payable to the broker or other person. The personal property broker shall keep such statements for a period of two years from and after the date the loan has been paid in full, or has matured according to its terms, or has been charged off.

(c) Permit payment to be made in advance in any amount on any contract of loan at any time. The licensee may apply such payment first to all charges due at the agreed rate up to the date of payment, not to exceed the maximum rate permitted by this article.

(d) Deliver or cause to be delivered to the person making any payment, at the time each payment is made on account of any loan, a plain and complete receipt showing the total amount received, identifying the loan contract upon which the payment is applied, and stating the unpaid principal balance of the loan.

(e) Upon repayment of any loan in full, release all security for the loan, endorse and return any certificate of ownership, cancel or plainly mark "paid" and return to the borrower or person making final payment, any note, chattel mortgage, assignment, or order signed by the borrower, except such as are a part of the court record in any action, or such as have been delivered to a third person for the purpose of carrying out their terms.

advanced to, or expenditures that may be made at the direction of, the borrower subsequent to the execution of such mortgage and prior to the satisfaction thereof up to a maximum to be expressed in said mortgage.

Article 3. Charges on Scheduled Balances

Equal and consecutive monthly installments

22480. This article applies only to loan contracts payable in substantially equal and consecutive monthly installments, the first of which is due not less than 15 days nor more than 45 days from the date the loan is made. In lieu of computing charges and applying payments as provided in Section 22454, a licensee may precompute charges and apply payments as follows:

Alternate computation

(a) The total charges which would be earned if the contract were repaid exactly according to its terms, at the monthly rate stated in the contract not exceeding the maximum provided in Article 2 of this chapter, may be precomputed when the loan is made by applying each payment first to charges and then to principal.

(b) If the contract is prepaid in full either by cash, renewal, or refinancing, on or after the third installment date or more than 15 days before final maturity, the portion of the precomputed charges which applies to the period of the contract and principal balances scheduled to follow the installment date nearest the date of prepayment in full shall be refunded or credited to the borrower.

(c) If prepayment in full occurs before the third installment date, or if on the installment date immediately preceding prepayment in full the total amount which has been paid on the contract exceeds by more than three scheduled payments the total of the payments scheduled to be made by that date, the charges shall be recomputed and collected as provided in Article 2 of this chapter, and any excess shall be refunded or credited to the borrower.

(d) The number and amount of installments required to pay the principal and precomputed charges shall be stated in the contract and all payments received thereon may be applied to the aggregate amount contracted to be repaid. The statement to be given to the borrower as provided in subdivision (a) of Section 22473 and the contract shall disclose in addition to other required information the principal amount of the loan exclusive of charges and the basis for computing the refund of precomputed charges in case of prepayment in full or acceleration of maturity. The delivery of a receipt for each payment showing the total amount of each payment is compliance with subdivision (d) of Section 22473.

(e) If the maturity of the contract is accelerated for any reason, the licensee shall make the same refund or credit as would be required for prepayment in full.

(f) If the contract so provides, the licensee may recompute and collect the charges, at the rate agreed for due performance,

on the basis provided in Article 2 of this chapter in lieu of all charges under this section.

(g) Notwithstanding any other provision of this article, the charges by a personal property broker, broker, and all other persons on any loan, forbearance of money, credit, goods or things in action under this article shall not exceed in the aggregate the maximum charges permitted by Article 2 of this chapter.

An act to amend Section 18004 of, and to add Section 18004.1 to, the Education Code, relating to improvement of public streets and places by school boards, the construction of sewers, water pipes, pedestrian walks and tunnels, the acquisition of easements and rights of way for such purposes and appropriating money for such purposes, declaring the urgency of this act and providing that it shall take effect immediately.

[Approved by Governor May 9, 1951. Filed with Secretary of State May 9, 1951.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 18004 of the Education Code is amended to read as follows:

18004. The governing board of any school district may grade, pave, construct sewers, or otherwise improve streets and other public places in front of real property owned or controlled by it, and also may construct in immediate proximity to any school of the district, pedestrian tunnels, sewers and water pipes when required for school purposes, and may appropriate money to pay the cost and expense of the improvements, whether made by the board under contract executed by the board, or under contracts made in pursuance of any of the general laws of the State respecting street improvements, or under other contracts made in pursuance of the charter of any county or municipality. School district board's powers

SEC. 2. Section 18004.1 is added to said code, to read:

18004.1. Any provision to the contrary notwithstanding, the governing board of any school district, other than a city school district, may construct pedestrian walks, foot bridges, and pedestrian tunnels when required for the safety of pupils attending the schools of the district, may acquire easements and rights of way for such purposes, and may appropriate money to acquire such easements and rights of way and to pay the cost and expense of the improvements, whether made by the board under contract executed by the board, or under contracts made in pursuance of any of the general laws of the State respecting street improvements, or under other contracts made in pursuance of the charter of any county or municipality. SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and shall take effect immediately. A statement of the facts constituting such necessity is as follows: Urgency

Many of the school districts of the State have had tremendous population increases with the resulting increase in the

number of children of school age. This tremendous increase in the number of children eligible and required to attend the schools of the State, requires the immediate acquisition of suitable sites and the construction thereon of suitable buildings and facilities for school purposes. In the acquisition of such sites and the construction of said buildings and facilities, the health and safety of the school children require that the school districts have the authority to cause the construction of sewers, water pipes and pedestrian walks and tunnels, and to acquire easements and rights of way for such purposes where public streets or roads are not available or suitable therefor. The acquisition of suitable sites and the construction of such school buildings and facilities is and will be seriously impeded by the lack of power in school districts to acquire such easements and rights of way and to construct such improvements therein.

In order that the benefits arising from this measure may inure to the benefit of the children of the State at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 366

PART 9. ASSESSMENTS

CHAPTER 1. PRELIMINARY ASSESSMENTS

Preliminary assessment

46000. A preliminary assessment is an assessment levied by the board of an equal amount upon each acre of land in the district sufficient to pay all warrants issued by the department in accordance with the provisions of this division, and to defray all other expenses as estimated by the board incurred and to be incurred for the general benefit of the district up to the time of the levy of assessments provided for in Chapter 2 of this part, including expenses incurred prior to the organization of the district but in the judgment of the board properly incurred for the general benefit of the district.

Resolution

Resolution of intent

46006. Before levying any additional preliminary assessment the board shall pass a resolution declaring its intention so to do, and in the resolution appoint a time not less than two weeks nor more than four weeks from the date of the resolution when the matter of levying the additional preliminary assessment will be considered in open meeting.

At or after the meeting, the board may, upon approval of the department, levy the additional assessment, if in its judgment the levy is in the best interests of the district.

Assessment as lien

46009. Every preliminary assessment is a lien upon the land affected until the full amount of the assessment is paid. The lien is prior to all other liens, except state, county, and municipal taxes and assessments, or taxes levied or assessed by or under statutory authority. The preliminary assessments shall be collected in the same manner as other assessments provided for in this division.

The assessment shall be payable in lawful money of the United States.

Costs of electric generation

46177. Identification of tracts

46178. Where any tract of land consists of more than one section, the apportionment to that tract of land shall be made according to legal subdivisions or to other boundaries sufficient to identify the land in subdivisions not greater than one section in area. Notice of increased assessment

46232. No assessment shall be increased if the holder of title to land affected is known except after personal notice or notice by registered mail given to the holder of title by depositing the notice at least two weeks before the hearing in the post-office at the place in which the office of the district is located, in a sealed postpaid envelope addressed to each of the holders of title at his last known place of residence or business. Lien created

46280. When the board of directors files with the county treasurer of an affected county the assessment roll as finally approved by the assessment board, the charges assessed thereby upon the several tracts of land in the county shall constitute a lien thereon which is prior to all other liens except state, county,

and municipal taxes, and assessments or taxes levied or assessed by or under statutory authority. The filing imparts notice to all persons.

46329. After the supplementary assessment rolls have been filed the assessment is an assessment upon each of the smaller parcels in accordance with the reapportionment and not an assessment upon the tract as a whole.

Same

46330. The supplementary assessment rolls are a part of and amendatory of the assessment rolls theretofore filed for all purposes.

Reapportionment

46331. The reapportionment shall in nowise affect the assessment except as to the land included in the supplementary assessment rolls.

Suit for delinquent charge

47184. The board may, at any time after any toll or charge provided for in this division has become delinquent, direct that

Any bond or coupon received in payment for property sold by the county treasurer shall be canceled and filed by the county treasurer in the office of the treasurer of the district. If the entire amount of the bond or coupon tendered in payment is not required to complete payment of the purchase money, the county treasurer shall endorse thereon as paid the amount of the purchase money credited thereon.

Sale to county treasurer

47353. If no bid is made for any parcel at the sale equal to the amount of the installment delinquent thereon, with interest and penalty, the county treasurer shall bid in and sell the parcel to himself and his successors in office, as trustee of the bond fund of the district, as purchaser, for the amount of the installment, interest, and penalty.

(b) Land appears in the assessment roll but is neither assessed nor stated not to be assessed.

(c) A final judgment of a court of competent jurisdiction has held that any assessment is invalid as to any part of the land assessed.

This amendatory assessment shall be based upon a determination, as nearly as may be, of the amount the original assessment upon the land would have been except for the omission or invalidity.

Same Basis and procedure

47401. In case the assessment to be amended was not one made under Chapter 2 of this part, the board shall cause an amendatory assessment as to such land to be made upon the basis and in the manner in which the assessment to be amended was made. The proceedings for making, levying, and collecting such amendatory assessment shall be the same as those provided in this division for the making, levying, and collecting the assessment of which such assessment is amendatory. This assessment shall be made within two years after the making of the original assessment.

Upon the inclusion of any land within a district pursuant to Chapter 2 of Part 10 of this division an assessment shall be levied upon the land, the amount of the assessment against each tract or parcel to be the amount, as nearly as can be determined, of all assessments, other than those levied under the authority of Chapter 7 of this part, which would have been levied against the tract or parcel if it had been included in the district from its organization.

Commissioners

47551. The department shall appoint commissioners to make the assessment in the number and manner provided by Article 1 of Chapter 2 of this part.

Manner of making assessments

47552. The assessment shall be made in the same manner and with the same incidents as an original assessment under Chapter 2 of this part, and all of the provisions of this division as to assessments shall, so far as they are applicable, apply to such assessment.

47701. From the assessment called upon each tract of land which has been assessed for the costs of the properties comprising the portion of the project to be used for the generation of electric energy, there shall be deducted by the county treasurer of each affected county an amount equal to such proportion of the total net revenue ascertained to have been derived

from the generation of electric energy as the portion of costs assessed under Chapter 2 of this part against the tract bears to the total of such costs. In making the deduction, fractions of cents upon each tract shall be disregarded and no error in the computation of the deduction shall invalidate any such call.

PART 10. CHANGES IN ORGANIZATION

CHAPTER 1. EXCLUSION

Article 1. Petition and Notice

Exclusion petition

48000. The holder or holders of title to one or more tracts of land which constitute a portion of a district may jointly or severally file with the department a petition, praying that the tract or tracts, and any other tracts contiguous thereto, may be excluded from the district.

Contents

48001. The petition shall state the grounds and reasons upon which it is claimed that the land should be excluded and shall describe the boundaries thereof, and also the land of such petitioner or petitioners which is included within the boundaries. 48026. The failure of any person interested in the district, other than the holders of bonds thereof outstanding at the time of the filing of the petition with the board, to show cause, in writing, why the land mentioned in the petition should not be excluded from the district constitutes an assent by him to the exclusion of such land, or any part thereof, from the district.

Petition as assent to exclusion

48027. The filing of the petition with the department constitutes an assent by each and all of the petitioners to the exclusion from the district of the land mentioned in the petition, or any part thereof.

Expenses

48028. The expenses of giving the notice provided for in Article 1 of this chapter and of the hearing on the exclusion petition shall be paid by the persons filing the petition.

(a) Entirely when no evidence in support of the petition is introduced.

(b) As to any land described in the petition as to which the evidence introduced fails to sustain the petition.

(c) As to any land described in the petition which the department deems it not for the best interests of the district to exclude, except when the department judges that the land will not be benefited by the operations of the district.

Exclusion ordered

48030. The department, after the hearing of any exclusion petition, shall order the exclusion of all or any part of the land described in it when as to the land to be excluded either:

Article 3. Bondholders' Assent to Exclusion

Assent by bondholders

48055. If there are outstanding bonds of the district at the time of the filing of the exclusion petition, the holders of the outstanding bonds may give their assent, in writing, to the

effect that they severally consent that the land mentioned in the petition, or such portion thereof as may be excluded from the district by order of the department, may be excluded from the district. If the land or any portion thereof is thereafter excluded from the district, the land so excluded is released from the lien of such outstanding bonds.

Acknowledgment

48056. The assent shall be acknowledged by the several holders of the bonds, and the acknowledgment shall have the same force and effect as evidence as the acknowledgment of a conveyance of real property.

Filing assent

48057. The assent shall be filed with the department and be recorded in its minutes. Change of boundaries

48080. In the event the department excludes any land from the district upon petition therefor, the department shall make an entry in its minutes describing the boundaries of the district, should the exclusion of the land change its boundaries. For that purpose the department may cause a survey to be made of such portions of the district as it deems necessary.

Recordation

48081. A certified copy of the entry in the minutes of the department excluding any land shall be filed for record in the recorder's office of each affected county.

Effect of exclusion

48082. Notwithstanding the exclusion of land, the district remains a district as fully to every intent and purpose as it would be had no change been made in its boundaries, or had the land excluded therefrom never constituted a portion of the district.

Re-establishing district boundaries

48083. In case land is excluded from any district, the department may, not less than 60 days before any election in the district, re-establish the boundaries of the divisions within the district.

Effect on lien or obligation

48084. Nothing in this division shall operate to release any of the land excluded from the district from any obligation to pay, or any lien thereon of any valid outstanding bonds or other indebtedness of the district at the time of the filing of the petition for the exclusion of the land. The excluded land shall be subject to any lien, and answerable and chargeable for and with the payment and discharge of all outstanding obligations of the district at the time of the filing of the petition for the exclusion, as fully as though the petition for such exclusion were never filed and the order of exclusion never made.

Procedure to compel payment

48085. All provisions which might be resorted to to compel the payment by the land of its quota or portion of outstanding district obligations, had the exclusion never been accomplished, may, notwithstanding the exclusion, be resorted to to compel and enforce the payment on the part of the land of its

quota and portion of outstanding district obligations for which it is liable as provided in this division.

Subsequent obligations

48086. The land excluded shall not be held answerable or chargeable for any obligation incurred after the exclusion of the land from the district.

Bondholders' assent

48227. The department shall order the boundaries of the district changed so as to include the land described in the inclusion petition, or such portion thereof as the department has found it feasible to irrigate by the system of works of the district and for the best interests of the district to include, only if:

Article 3. Inclusion Elections

Finding favoring inclusion

48250. If upon the inclusion hearing the department concludes that it is feasible to irrigate the land, or a portion thereof, described in the inclusion petition, and that it is for the best interest of the district to include the land, or a portion thereof, within the district, it shall make a finding in writing describing the boundaries of the land which it proposes to include, if any of the following have occurred:

(a) The board has protested in writing against the inclusion of the land, and not withdrawn the protest.

A copy of the finding shall be transmitted to the board.

Change of boundaries

48257. If a majority of the votes are in favor of the change of boundaries, the department shall make its order, as provided in Article 2 of this chapter, that the boundaries of the district are changed so as to include the land therein.

Recording inclusion order

48258. A certified copy of the inclusion order shall be recorded in the office of the county recorder of each county wherein land to be included is situated. Thereupon the land becomes a part of the district.

Re-establishing boundaries

48259. In case land is included within any district as provided in this chapter, the board shall re-establish the boundaries of the divisions within the district so as to include the land therein, and so as to segregate into separate divisions land possessing the same general character of water rights or interests in and to the waters of the common source of supply of the district.

48260. The board shall also re-establish the boundaries of the election precincts within the district, except that in the case of the inclusion of any land within less than 30 days before an election within the district, the election precincts shall not be re-established until after the election, and the holders of title to the newly included land shall not be entitled to vote at such election.

The people of the State of California do enact as follows:

SECTION 1. Section 51 of the Public Utilities Act is amended to read:

Authorization to merge, etc

Sec. 51. (a) No public utility shall henceforth sell, lease, assign, mortgage, or otherwise dispose of or encumber the whole or any part of its railroad, street railroad, line, plant, system, or other property necessary or useful in the performance of its duties to the public, or any franchise or permit or any right thereunder, nor by any means whatsoever, directly or indirectly, merge or consolidate its railroad, street railroad, line, plant, system, or other property, or franchises or permits or any part thereof, with any other public utility, without first having secured from the Railroad Commission an order authorizing it so to do. Every such sale, lease, assignment, mortgage, disposition, encumbrance, merger or consolidation made other than in accordance with the order of the commission authorizing the same shall be void. The permission and approval of the commission to the exercise of a franchise or permit under Section 50 of this act, or the sale, lease, assignment, mortgage or other disposition or encumbrance of a franchise or permit under this section shall not be construed to revive or validate any lapsed or invalid franchise or permit, or to enlarge or add to the powers or privileges contained in the grant of any franchise or permit, or to waive any forfeiture. Nothing in this subsection contained shall be construed to prevent the sale, lease, encumbrance, or other disposition by any public utility of property which is not necessary or useful in the performance of its duties to the public, and any such disposition of its property by such public utility shall be conclusively presumed to have been of property which is not useful or necessary in the performance of its duties to the public, as to any purchaser, lessee or encumbrancer, dealing with such property in good faith for value.

Authorization to acquire corporate stock

(b) No public utility shall hereafter purchase or acquire, take or hold, any part of the capital stock of any other public utility, organized or existing under or by virtue of the laws of this State, without having been first authorized to do so by the commission. Every assignment, transfer, contract or agreement

or assignment or transfer of any stock by or through any person or corporation to any corporation or otherwise in violation of any of the provisions of this section shall be void and of no effect, and no such transfer shall be made on the books of any public utility. Nothing herein contained shall be construed to prevent the holding of stock heretofore lawfully acquired.

(c) The provisions of this section shall not apply to any person or corporation which transacts no business subject to regulation under this act, except performing services or delivering commodities for or to public utilities or municipal or other public corporations primarily for resale or use in serving the public or any portion thereof; provided, that this section shall nevertheless apply to any public utility if the commission shall find, in a proceeding to which the public utility is or may become a party, that the application of this section is required by the public interest. The commission may from time to time by order, rule or regulation, and subject to such terms and conditions as may be prescribed therein, exempt any public utility or class of public utility from the provisions of this section if it finds that the application of this section with respect to such public utility or class of public utility is not necessary in the public interest. Application of provisions

NOTE: The section of the Public Utilities Code affected by this chapter appears in its proper place in that code, Ch 764 of Statutes of 1951, as required by Sec. 9762 of the Government Code.

SEC. 3. It is hereby declared that the amendments to the Public Utilities Act made by this act are intended as a clarification of the meaning thereof rather than a substantive change therein and the provisions thereof should be construed for all purposes as though they had heretofore read as set forth in this act. Any sale, lease, encumbrance or other disposition heretofore made by any public utility of its property to a purchaser, lessee or encumbrancer dealing with such property in good faith for value shall be conclusively presumed to have been of property which is not useful or necessary in the performance of such public utility's duty to the public and such past transactions are hereby confirmed, validated and declared legally effective as having been made and effected in conformity with the provisions of subsection (a) of Section 51 of the Public Utilities Act and Section 851 of the Public Utilities Code. Intent of amendments

SEC. 4 Section 2 of this act becomes operative only if Division 1 of the Public Utilities Code is enacted by the Legislature at its 1951 Regular Session, and in such case at the same time as said Division 1 takes effect, at which time Section 51 of the Public Utilities Act is repealed. Stats 1927, p 51, amended

An act to amend Section 14852 of the Financial Code and Section 4 of an act entitled "An act defining credit unions, providing for their incorporation, powers, management and supervision," approved March 31, 1927, relating to the corporate powers of credit unions.

In effect September 22 1951

[Approved by Governor May 11, 1951. Filed with Secretary of State May 11, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 4 of the act cited in the title is amended to read:

Credit unions Restrictions

Sec. 4. No credit union shall:

1. Pay any commission or compensation for securing members or for the sale of its shares.

2. Make any loan in excess of five hundred dollars ($500) unless security therefor is taken; nor in any event make a loan to any member in excess of three thousand dollars ($3,000) or 10 percent of its paid-in and unimpaired capital, whichever is greater, but not to exceed ten thousand dollars ($10,000). The term "security" within the meaning of this subdivision shall include, but is not limited to, a note which is endorsed by any member or members of the said credit union or by any other person or persons who is a nonmember (provided, however, for any loan in excess of three thousand dollars ($3,000) such excess shall be secured by real and/or personal property) and any obligation, the payment of interest and principal of which is guaranteed by any municipal, or state government, by the Government of the United States or by any instrumentality of the United States. Comaker or comakers, other than the borrower or borrowers, shall be deemed to be an endorser within the provisions of this section.

In the event a credit union shall make a loan or loans to any of its members and the said member or members shall have invested therein, either in the form of shares or in funds received, an amount equal to the said loan or loans, said investment shall be deemed as security within the provisions of this section and said borrower or borrowers shall not be required to give further or additional security. Subject to the limitations as in this section provided nothing contained herein shall prohibit a credit union from simultaneously making different classes of loans, either secured or unsecured to any member.

3. Impose fines in case of failure of members to make payments on shares, loans or other accounts when due, in excess of 1 percent per month or fraction of a month on amounts due, except that no fine shall be less than five cents ($0.05).

4. Make loans to any director, officer or member of the credit committee or supervisory committee directly or indirectly which will result in such director, officer or committee member owing an amount greater than the amount invested by

him in the credit union, or become surety for any loan or advance made by the credit union. In the event that any person elected to the office of director, officer or committee member is at the time of his election so obligated, in order to be eligible to hold such office, he must reduce such indebtedness according to the tenor of his obligation without default or delay. Failure of such director, officer or committee member so to do shall render the office to which he was elected vacant.

5. Issue shares or accept funds in trust, except in the name of the trustee, as such, for a specified beneficiary whose residence shall be disclosed to the credit union by such trustee.

6. Issue any shares except to those qualified for membership under its by-laws; provided, however, that said credit union shall have the right to issue shares to any person designated by those eligible to membership in the credit union in joint tenancy and further provided that upon any shares issued by any credit union to those qualified for membership under its by-laws and to any person designated by those eligible to membership in the credit union in joint tenancy, there shall be printed upon the certificate or other evidence of such shares the words "transferable only to qualified members" as herein set forth.

CHAPTER 421

Stats 1917, p 658, amended

An act to amend Sections 1, 2, and 4 of the Industrial Loan Act and Sections 18003, 18401, 18405, 18663, 18664 and 18665 of the Financial Code, relating to penalties and powers applicable to industrial loan companies.

In effect September 22, 1951

[Approved by Governor May 11, 1951 Filed with Secretary of State May 11, 1951]

The people of the State of California do enact as follows:

SECTION 1. Section 1 of the Industrial Loan Act is amended to read:

"Industrial loan company"

Section 1. The term "industrial loan company" as used in this act means any corporation which in the regular course of its business loans money and issues its own choses in action under the provisions of this act.

SEC. 2. Section 2 of the Industrial Loan Act is amended to read:

Incorporation

Sec. 2. Corporations may be incorporated under and by virtue of this act in the same manner as corporations under and by virtue of Division 1 of Title 1 of the Corporations Code, except as otherwise herein provided, but there shall be set forth in the articles of incorporation a statement that such corporation is incorporated under and by virtue of this act.

SEC. 3. Section 4 of the Industrial Loan Act is amended to read:

Powers of corporation

Sec. 4. Every corporation under the provisions of this act shall have power: subject to the supervision and control of the Corporation Commissioner of the State of California:

First—To loan money, secured or unsecured, with or without the pledge of its installment investment certificates, and to collect and receive charges therefor in advance or otherwise. The loan contracts of three hundred dollars ($300) or less or certificates of investment issued in connection with such loans shall require substantially uniform weekly, semimonthly, or monthly payments over the period of the loan, with the final

payment not payable until the maturity date of the loan. The borrower may purchase certificates of investment issued in connection with loans of a face value not exceeding the face amount of the loan simultaneously with each loan transaction and shall pledge the certificate with the corporation as security for the loan.

Second—To sell or negotiate investment certificates either in certificates, or in receipt book form, in addition to the sale of installment investment certificates with loans, for the payment of money at any time, either fixed or uncertain, and to receive payments therefor in installments or otherwise, with or without an allowance of interest upon such installments. Nothing herein contained shall be construed to authorize corporations hereunder to receive deposits or to issue certificates of deposit. The investment certificates herein authorized shall bear the endorsement on the face of the instrument, "this is not a certificate of deposit."

Third—The term "charges" as used in this act, includes "Charges" the aggregate interest, fees, bonuses, commissions, brokerage, discounts, expenses, and other forms of costs charged, contracted for, or received by an industrial loan company or any other person in connection with the investigating, arranging, negotiating, procuring, guaranteeing, making, servicing, collecting and enforcing of a loan or forbearance of money, credit, goods or things in action, or any other service or services rendered.

However, it is hereby provided that the charges by an industrial loan company, broker and all other persons on any loan, forbearance of money, credit, goods or things in action under this act, shall not exceed in the aggregate 2½ percent per month on that portion of the unpaid principal balance up to, including but not in excess of one hundred dollars ($100), 2 percent per month on that portion of the unpaid principal balance in excess of one hundred dollars ($100) up to, including but not in excess of three hundred dollars ($300), and 10 percent per annum on that portion of the unpaid principal balance in excess of three hundred dollars ($300). If, however, in connection with any loan, insurance is taken in favor of the industrial loan company, the total amount which may be contracted for and received for interest, brokerage and all other charges shall not exceed in the aggregate 2 percent per month on that portion of the unpaid principal balance up to, including but not in excess of three hundred dollars ($300) and 10 percent per annum on that portion of the unpaid principal balance in excess of three hundred dollars ($300). For the purpose of computing the charges set forth in this paragraph, a month shall be any period of 30 consecutive days. All payments made by the borrower on the installment investment certificates purchased by the borrower in connection with the making of the loan shall be regarded as payments on the loan and shall be applicable, first, to interest and all other charges within the maximum statutory rate provided in this paragraph and, secondly, to reduction of the unpaid principal

of the loan advanced to the borrower in determining the "unpaid principal balance" as hereinabove referred to.

However, it is provided that nothing in this section denies the right to the industrial loan company in addition to interest, brokerage and all other charges herein provided to contract for, collect and receive at the time of making the loan or at any time thereafter, the statutory fee paid by it to any public officer for acknowledging, filing, recording or releasing in any public office any instrument securing the loan or executed in connection therewith. Also, nothing in this section prohibits the lender from collecting in addition to the interest, brokerage and all other charges herein provided the costs for insurance, of tangible personal or real property offered as security for a loan, reasonably insured against loss for a reasonable term considering the circumstances of the loan; provided, such insurance is sold at standard rates through a duly licensed insurance agent

"Unpaid principal balance"

The term "unpaid principal balance" as used in this act shall mean the net amount of money, credit, goods or things in action received by the borrower at the time of entering into the transaction and the decreasing balances thereof after application in accordance with the provisions of this act of each payment made on the obligation.

Nothing in this section shall deny the right to any industrial loan company, in addition to all other charges herein provided, in the enforcing and collecting of a delinquent loan of an unpaid principal balance in excess of three hundred dollars ($300):

(a) To collect and receive the court costs and reasonable attorneys' fees allowed by a court in a judgment against a defaulting debtor;

(b) To contract for, collect and receive the bona fide expenses actually incurred and paid by the industrial loan company, not exceeding 10 percent of the unpaid principal balance of the loan where no judgment at law is sought.

No charge shall be collected unless a loan shall have been made. Whenever the interest and/or charges deducted in advance shall exceed the maximum provided by this section, by reason of subsequent repayment of the loan or any portion thereof prior to maturity or prepayment of installments on the investment certificate purchased with the loan, such excess shall be refunded to the borrower or credited on any balance owing by the borrower to the company.

Fourth—To establish offices or places of business within the State of California.

Fifth—To purchase, sell or discount bona fide trust receipts, choses in action, secured or unsecured, chattel mortgages or conditional sales contracts, which shall have a maturity within three years from the date of said purchase.

Sixth—To make loans, purchase or discount notes, mortgages, contracts or other commercial paper, which loans or commercial paper are insured by the Federal Housing Administrator, Veterans' Administration, or other federal agency. Loans

so insured may be made for a term up to but not to exceed 20 years.

In addition to the powers herein enumerated, every corporation under the provisions of this act shall have the general powers conferred upon corporations by the General Corporation Law except as herein otherwise provided.

NOTE The sections of the Financial Code affected by this chapter appear in their proper place in that code, Chapter 364 of Statutes of 1951, as required by Section 9762 of the Government Code.

SEC. 10. Sections 4 to 9, inclusive, of this act become operative only if Division 7 of the Financial Code is enacted by the Legislature at its 1951 Regular Session and in such case at the same time as said Division 7 takes effect, at which time Sections 1, 2 and 4 of the Industrial Loan Act, as amended by this act, are repealed. [Approved by Governor May 12, 1951. Filed with Secretary of State May 12, 1951.]

In effect September 22, 1951

The people of the State of California do enact as follows:

SECTION 1. Section 736.3 of the Agricultural Code is amended to read:

Stabilization and marketing plan

736.3. Any stabilization and marketing plan shall contain the following provisions:

Unfair practices

(a) Provisions for prohibiting distributors and retail stores from engaging in the unfair practices hereinafter set forth:

(1) The payment, allowance or acceptance of secret rebates, secret refunds, or unearned discounts by any person, whether in the form of money or otherwise.

Same

(2) The giving of any milk, cream, dairy products, services or articles of any kind, except to bona fide charities, for the purpose of securing or retaining the fluid milk or fluid cream business of any customer.

(3) The extension to certain customers of special prices or services not made available to all customers who purchase fluid milk or fluid cream of like quantity under like terms and conditions.

(4) The false or misleading advertising of fluid milk or fluid cream as defined in Sections 17500, 17501, and 17502 of the Business and Professions Code.

(5) The purchase of any fluid milk in excess of two hundred gallons monthly from any producer or association of producers unless a written contract has been entered into with such producer or association of producers stating the amount of fluid milk to be purchased for any period. The quantity of such milk to be paid for as Class 1 in pounds of milk or pounds of milk fat or gallons of milk, and the price to be paid for all milk received, but in any marketing area where an equalization pool is a part of a stabilization and marketing plan, such contract need not specify the quantity of milk in any one class. The contract shall also state the date and method of payment for such fluid milk, which shall be that payment shall be made for approximately one-half of the milk delivered in any calendar month not later than the first day of the next following month and the remainder not later than the fifteenth day of said month, the charges for transportation if hauled by the distributor, and may contain such other provisions as are not in conflict with this chapter, and shall contain a proviso to the effect that the producer shall not be obligated to deliver in any calendar month fluid milk to be paid for at the minimum price for fluid milk that is used for Class 3, as said class is defined in Section 735.3 of this code. A signed copy of such contract shall be filed by the distributor with the director within five days from the date of its execution.

(6) The purchasing, processing, bottling, transporting, delivering or otherwise handling in any marketing area of any fluid milk or fluid cream which is to be or is sold or otherwise disposed of by such distributor at any place in the geographical area within the outer, outside and external boundaries or limits of such marketing area, whether such place is a part of the marketing area or not, at less than the minimum wholesale and minimum retail prices effective in such marketing area.

(7) The payment of a lesser price by a distributor to any producer for fluid milk or fluid cream which is distributed to any person, including agencies of the federal, state or local government, located upon property within the geographical limits of any marketing area for less than the minimum prices established by the director to be paid by distributors to producers for fluid milk or fluid cream for said marketing area.

(b) Provisions whereby the director designates and prescribes or provides methods for designating or prescribing minimum prices to be paid by distributors to producers, for fluid milk in one or more of the various classes; provided, however, that the prices so designated or prescribed shall be based upon the economic relationship of the price of fluid milk for the marketing area involved to the price of manufacturing milk, taking into consideration the additional costs incurred in producing and marketing fluid milk over and above costs incurred in producing and marketing manufacturing milk; and provided further, the director finds that such prices will tend to effectuate the purposes and policy of this chapter and will insure consumers a sufficient quantity of pure and wholesome milk. Minimum milk prices to producers

Any stabilization and marketing plan may contain the following provisions: Permissive provisions

(c) Provisions whereby distributors shall report to each producer from whom fluid milk is secured, the volume of fluid milk received from such producer in pounds of milk, the milk-fat test of such milk and the amount of fluid milk in milk-fat pounds paid for in the several classes and the prices paid for the various classes for each month. Report of milk received

(d) Provisions whereby the director designates and prescribes or provides methods for designating or prescribing minimum prices to be paid by distributors to producers for fluid cream; provided, that the prices so designated or prescribed shall be based upon the economic relationship of the price of fluid cream for the marketing area involved to the price of manufacturing cream, taking into consideration the additional costs incurred in producing and marketing fluid cream over and above costs incurred in producing and marketing manufacturing milk; and provided further, that the director finds that such prices will tend to effectuate the purposes and policy of this chapter and will insure consumers a sufficient quantity of pure and wholesome cream. Minimum cream price

(e) Provisions whereby the director may provide methods for the establishment of minimum prices for fluid milk or fluid milk for fluid cream received within a marketing area regardless of whether such fluid milk or fluid milk for fluid cream is subsequently sold or distributed within or without such marketing area or within or without the jurisdiction of the State of California. Such stabilization and marketing plans may provide for the establishment of prices for fluid milk or fluid milk for fluid cream whether or not such fluid milk or fluid milk for fluid cream is subsequently sold or distributed in another marketing area within the State of California where a stabilization and marketing plan is in effect. The stabilization and marketing plan may provide that producers shall be paid not less than the minimum prices established for the marketing area wherein such fluid milk or fluid milk for fluid cream is ultimately sold or distributed, and may further provide that in the event such fluid milk or fluid milk for fluid cream is subsequently sold or distributed in any place within the jurisdiction Minimum prices for milk or cream

of the State of California where no stabilization and marketing plan is in effect, then such fluid milk or fluid milk for fluid cream may be paid by the distributor to the producer thereof at not less than the average price paid by distributors to producers for fluid milk or fluid milk for fluid cream of similar grade and quality at the plants in the vicinity where such fluid milk or fluid milk for fluid cream is so sold or distributed, as such prices are determined by the director from contracts required to be filed with him pursuant to this section.

The director may issue and make effective provisions establishing minimum prices to be paid by distributors to producer-distributors for milk which is not used by the purchasing distributor as Class 1 milk and which provisions may provide that such milk if used in classes other than Class 1 by the purchasing distributor may be paid for at the minimum prices established by the director for such other usage but which shall not be less than the prices as found by the director to be paid by manufacturing milk plants in or adjacent to the area using milk for similar purposes. Such prices shall remain in effect only for the period during which, as determined by the director, there is a surplus of producer-distributor milk.

Equalization pools

(f) Provisions whereby the director designates or prescribes methods to provide uniform prices to be paid to all producers supplying fluid milk to distributors for pasteurization purposes in the marketing area involved by pooling the returns of all such fluid milk; provided, that no equalization pool shall be established unless the director, after hearing, determines that producers who supply distributors with not less than sixty-five (65) percent of the total volume of fluid milk used for pasteurization purposes and who represent not less than sixty-five (65) percent of the total number of such producers desire the establishment of such pool, but no hearing shall be necessary if said sixty-five (65) percent, by volume and production, of such producers petition the director in writing to establish such equalization pool as a part of the plan. If the director finds that an equalization pool is necessary to carry out the provisions of this chapter he shall make provision therefor. The director may designate the local control board for the marketing area as his agency to operate the equalization pool and may permit such local board to employ a pool manager and such other necessary personnel and to incur such expenses incidental to the operation of the pool as the director finds are necessary. The director is hereby empowered to require distributors to make reports to the pool manager at such intervals and in such detail as he finds is necessary for the operation of the pool which reports shall be kept confidential as to any individual distributor but shall be available to the director or his agents and the pool manager, and such employees of the pool as are necessary to the operation of the equalization pool.

No provision of any pooling program shall prevent any distributor from paying premiums for quality; provided, all producers supplying fluid milk of like quality to such distributor

are paid similar premiums, nor shall any provision prohibit the paying of different prices to producers based on differentials in transportation, adjustments or deductions made by a cooperative association of producers to its members, including the blending of proceeds received from the sale of fluid milk by such cooperative in other markets. Distributors who purchase fluid milk from producers for pasteurization purposes shall deduct from payments due such producers at such time and in such manner such sums as the director determines are sufficient to insure uniform prices to all producers subject to the provisions of the equalization pool, irrespective of the usage of such fluid milk by the distributors. Distributors shall make, in addition to the deductions herein prescribed, such additional deductions per pound milk fat as the director finds necessary to pay all expenses incidental to the operation of the equalization pool, including the establishment of a reserve account to insure prompt payments to producers. 5770.13. A district shall not incur an indebtedness pursuant to this article for a sewage system which in the aggregate exceeds 15 percent of the assessed value of all the real and personal property of the district.

Same

5770.14. If any indebtedness has been incurred pursuant to this article for the construction of a sewage system, and the

revenue from that system for three years or more next preceding has been sufficient to pay the interest and principal due on any bonds issued for its construction, in addition to the cost of operation and maintenance, it shall not be included in ascertaining the limit of indebtedness.

Tax to meet bond obligations

5770.15. Annually at the time and in the manner for fixing the general tax levy, the district board shall levy and collect a tax sufficient to pay the annual interest on the bonds and that part of the principal coming due before the next general tax levy, until the bonds are paid or a sufficient sum is set apart for that purpose in the district treasury.

Same

5770.16. If the maturity of the indebtedness created by the issue of bonds begins more than one year after the date of their issuance, a tax shall be levied and collected pursuant to this article, sufficient to pay the interest as it falls due, and to constitute a sinking fund for the payment of the principal indebtedness on or before maturity.

procedure for calling and holding a district election shall be complied with.

Same

5770.25. If the district election is consolidated with another, the ordinance calling the district election need not set forth the election precincts, polling places and officers of election, but may provide that they shall be the same as those set forth in the ordinance, notice, or other proceedings calling the other election with which the district election is consolidated, and shall refer to such ordinance, notice, or other proceeding by number and title, or by other definite description.

Same

5770.42. After inclusion of the interest sum in the estimate the district board may use as much of the proceeds from the sale of the bonds as necessary for the payment of the interest until the receipt of revenues from the operation of the sewage

Manner of collection

5780.09. Taxes so levied shall be collected at the same time and in the same manner as county taxes. CHAPTER 442

An act to amend Section 1593 of, and to add Section 1593.1 to, the Education Code, relating to the formation and changes in territory and status of school districts, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor May 12, 1951. Filed with Secretary of State May 12, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 1593 of the Education Code is amended to read:

Effective date of action

1593. In the case of every other action referred to in this article, the action shall be effective on the date the action is completed for the following purposes:

(a) The determination of the assessed valuation of any district or districts affected by the action.

(b) The appointment or election of members of the governing boards of the school districts affected.

(c) The preparation and submission of school district budgets.

(d) The election or appointment of employees for the ensuing school year.

(e) The calling and conducting of elections for and the issuance and sale of school district bonds.

(f) The exercise by the governing boards of the school districts affected of other powers and duties vested in governing boards of school districts of the same type or class and not inconsistent with other provisions of this code.

(g) The holding of an election to determine whether a newly formed elementary school district, or a district comprised within a newly formed union or joint union elementary school district shall become a part of a high school district.

(h) The calling and conducting of elections to increase the maximum rates of tax for district or districts affected.

(i) The calling and conducting of elections for the assumption of bonded indebtedness.

SEC. 2. Section 1593.1 is added to said code, to read:

1593.1. The formation of a unified school district under Chapter 14 of this division shall be effective for the purposes set forth in Section 1593 upon the date upon which the boundaries of the component districts thereof became or become coterminous. Date of unified school district formation

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows: Urgency

During the current school year the electors of many school districts have voted for annexation, unification, or unionization, to become effective for all purposes July 1, 1951. Some of the districts resulting from such annexation or other change will be eligible for state school building aid after the bonds of the component districts or parts of districts have been leveled. The authority to hold such an election in any such district prior to July 1, 1951, does not now exist. This act grants such authority and it is necessary that it take effect immediately in order to prevent delay in the school construction program

Furthermore, under existing law, the provisions of Education Code Section 1593 are inapplicable only to a unified school district formed under Chapter 14 of Division 2 of the Education Code and so the residents of such a district alone are precluded from exercising the privilege of increasing, through an election held pursuant to Education Code Section 6358, the maximum statutory district tax rate (prescribed by Education Code Section 6357) for such district effective for the first school year of the district's existence. The result is that a unified school district formed during the school year 1950-1951 under said chapter will be unable, if the maximum statutory district tax rate will not provide the necessary revenue, to provide during the school year 1951-1952 adequate instructional and other facilities for the education of the children residing in the district. In order to remove at the earliest possible moment, the discrimination which now exists against such unified school districts to the detriment of the welfare of the children of such districts, it is necessary that this act take effect immediately.

CHAPTER 446

An act to add Section 14074.5 to, and amend Section 14075 of, the Health and Safety Code, relating to fire protection districts, declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 14, 1951. Filed with Secretary of State May 14, 1951.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 14074.5 is added to the Health and Safety Code, to read:

14074.5. If the area included in any district is contiguous with the area of another district, the district boards may contract for the furnishing of services by one such district to the other. Contracts for services

SEC. 2. Section 14075 of said code is amended to read:

14075. The district board shall purchase and maintain all necessary and convenient engines, hose, hose carts, or carriages, and other appliances and supplies for the full equipment of a fire company or department, may purchase and maintain ambulances, and shall appoint fire company officers and employees sufficient to maintain and operate equipment purchased for such district. Purchase, etc., of supplies, etc

The board is authorized, but not required, by resolution thereof, to provide for payment to each officer and employee of such fire department.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

That the public health, welfare, and safety demand that exchange of services by contiguous fire protection districts not be delayed. Undue delay in authorizing exchange of services by fire protection districts may be expected to cause the destruction of valuable property in this State and needlessly endanger human life and health. Also, in order to facilitate the exchange of services of fire officers and employees it is necessary that districts be allowed to pay greater compensation than one dollar per fire. This is made necessary by the increased population of areas served by fire protection districts, the consequent increased fire hazards, and the general transition from volunteer to professional fire departments.

CHAPTER 447

Branches Licenses

Sec. 2.07. Branches. No association shall open, maintain or conduct a branch without first applying for and obtaining from the commissioner a license for such branch. The commissioner shall not execute such license until he has given written notice by mail to each association then existing in this State, directed to it with postage thereon prepaid at its principal office in this State, that an application for the issuance by him of such license has been made, together with the name of the association applying for such license and the name of the city or town in which such branch is proposed, and that a hearing will be held by him at a time and place to be therein specified which shall not be less than 10 days after the mailing thereof; and the commissioner shall give such notices,

and at the time and place specified in such notices shall hold a hearing at which any person, firm or corporation may appear in person or by agent or attorney, and orally or in writing show cause why such license should not be issued upon any relevant ground. The applicant shall pay for such license a fee of fifty dollars ($50) and such license shall continue in force and effect until canceled by the commissioner for cause. No association issuing either stock or investment certificates or both stock and investment certificates shall open any branch if its investment certificate and withdrawable share reserve is less than the amount specified for such association in Section 2.10 of this act. No association issuing neither stock nor investment certificates shall open, maintain or conduct any branch unless such association shall thereafter, while maintaining such branch or branches, at each apportionment of profits, set aside to its loan reserve 1 percent of its net profits since the last prior apportionment in addition to the amount required to be so set aside by Section 10.03 of this act, until said loan reserve shall exceed the maximum amount required by said Section 10.03 for such association by the amount of fifty thousand dollars ($50,000) for each branch so maintained or conducted. Any and all business which may be transacted at the principal office of a duly licensed association may be transacted at any duly licensed branch thereof. If the proposed change is from one city to another the commissioner shall, and in any other case the commissioner may, hold a hearing upon the proposed change. If a hearing is held, the commissioner shall mail notice of such hearing to each association in this State as least 10 days before such hearing, and the association requesting the commissioner's approval shall pay him a fee of one hundred dollars ($100) before such notices are mailed.

SEC. 6. Section 7.06 of said act is amended to read:

Capital deficiency

Sec. 7.06. Assessments to Restore Impaired Capital Whenever it shall appear from the report of any association, or the commissioner shall have reason to believe, that the value of the assets of any association after first deducting therefrom the amount of liabilities of such association, including its outstanding investment certificates and shares at the value thereof, is less than the aggregate par value of its outstanding stock, it shall be the duty of the commissioner and he shall have the power to examine such association and ascertain the facts, and in case he finds that such deficiency exists he shall require such association to make good such deficiency within 60 days after

the date of such requisition. The directors of every such association upon which such request shall have been made, shall levy an assessment upon the stock thereof to repair such deficiency, and shall cause notice of such request to be given to each stockholder of such association and of the amount of the assessment which he must pay for the purpose of making good such deficiency. If any stockholder shall refuse or neglect to pay the assessment specified in such notice within 30 days from the date of mailing or serving such notice, the directors of such association shall have the right to sell to the highest bidder at public auction the stock of such stockholder, after giving a previous notice of such sale for 10 days in a newspaper of general circulation published in the county where the principal office in this State of such association is located, and a copy of such notice of sale shall also be served on such stockholder by being served personally on him or by mailing to his last known address 10 days before the day fixed for such sale, or such stock may be sold at a private sale and without such public notice; provided, however, that before making such private sale thereof an offer in writing shall first be obtained and a copy thereof served upon the owner of record of the stock to be sold, either personally or by mailing a copy of such offer to his last known address, and if, after service of such offer, such owner shall still refuse or neglect to pay such assessment within two weeks from the time of the service of such offer, the said directors may accept such offer and sell such stock to the person making such offer, or to any other person or persons making a larger offer than the amount named in the offer submitted to the stockholders; but such stock shall in no event be sold for less than the amount of such assessment so called for and the expense of sale. Out of the avails of the stock so sold, the directors shall pay the amount of assessment levied thereon, and the necessary cost of sale, and the balance, if any, shall be paid to the person or persons whose stock has thus been sold. A sale of stock as herein provided shall effect an absolute cancellation of the outstanding certificate or certificates evidencing the stock so sold, and shall make the same null and void and a new certificate shall be issued by the association to the purchaser thereof. In the event no bid or offer shall be received equal to or more than the amount of such assessment and the expense of sale, then at the option of such association, such stock shall be declared forfeited to the association in satisfaction of such assessment and such expense, and shall have the status of authorized but unissued stock. Such stock shall not be reissued except in accordance with permit thereafter obtained from the commissioner pursuant to Section 4.02 of this act. Such minor shall be entitled to withdraw, transfer or pledge any such shares or certificates owned by him and to receive from such association any and all dividends, interest or other moneys at any time becoming due thereon in the same manner and subject to the same conditions as an adult, and his receipt or acquittance therefor shall constitute a valid release and discharge to the association for the payment of such money. Every association shall have power to issue shares and investment certificates to or in the name of a married woman and to receive payments thereon by or for such person. Such shares or certificates shall be held by such married woman for the exclusive right and benefit of such person free from the control or lien of all other persons except creditors. Such shares or investment certificates, together with all dividends and interest thereon, shall be held for the exclusive use of such joint tenants and may be paid to either or any of them during their lifetime or to the survivor or any one of the survivors of them after the death of one or more of them. By written instructions of all such joint tenants given to the association, they may require the signatures of more than one of such persons during their lifetimes or of more than one of the survivors after the death of any one of them on any notice of withdrawal, request for withdrawal, check endorsement or receipt, in which case the association shall pay withdrawals, dividends and interest only in accordance with such instructions, but no such instructions shall limit the right of the sole survivor or of all of the survivors to receive withdrawal payments, dividends and interest.

Payment as provided in the preceding paragraph and the receipt or acquittance of the person or persons to whom such

payment is made shall be a valid and sufficient release and discharge to such association for all payments made on account of such shares or certificates prior to the receipt by such association of notice in writing from any one of them not to make payments in accordance with the terms of such shares or certificates or of such instructions. After receipt of such notice an association may refuse, without liability, to pay withdrawals, dividends or interest pending determination of the rights of the parties. The purchase or acceptance of shares or investment certificates in such form shall, in the absence of fraud or undue influence, be conclusive evidence, in any action or proceeding to which either the association or the surviving share or certificate holder or holders may be a party, of the intention of such share or certificate holders to vest title to such shares or certificates and dues paid on account thereof and dividends and interest thereon in such survivor or survivors.

SEC. 9. Section 8.05 of said act is amended to read:

The provisions of this section shall be applicable even though the name of the person appearing on the association's books to whose credit the account stands or for whose account the property is held is modified by a qualifying or descriptive term such as "agent," "trustee" or other word or phrase indicating that such person may not be the owner in his own right of the account or property.

Unless the commissioner shall be enjoined from further proceedings and directed to surrender such business, property and assets or unless such association shall with the consent of the commissioner resume business, then the commissioner shall proceed to liquidate the affairs of such association as hereinafter provided. Whenever the commissioner shall be in possession of the business, property and assets of any association, and regardless of whether or not he shall be liquidating the affairs of such association, the commissioner may in his discretion (1) apply to the superior court of the county in which the principal office in this State of such association is located for an order confirming any action theretofore taken by the commissioner, or authorizing the commissioner to do any act or to execute any instrument not expressly authorized by this act, which order shall

SEC. 18. Section 13.16 of said act is amended to read:

Sec. 13.16. Powers Upon Liquidation. In liquidating the affairs of an association, the commissioner shall have power to collect all moneys due to, and claims of, such association and to give full receipt therefor; to release or reconvey all real or personal property pledged, hypothecated or transferred in trust as security for loans; to approve and pay all just and equitable claims; provided, that shares shall participate ratably with investment certificates in the case of any association in which shareholders shall have heretofore been granted the right and option by the association to exchange their shares for investment certificates of equal value; to commence and prosecute all actions and proceedings necessary to enforce liquidation; and on the order of the superior court of the county in which the principal office in this State of such association is located, given and made after a hearing on such notice as the court shall prescribe, to compound bad or doubtful debts or claims, or to borrow money, or to sell, convey or transfer real or personal property. Notwithstanding anything to the contrary contained Powers upon liquidation

Court supervision

in Sections 73 and 142 of the Code of Civil Procedure, or contained in any other law of this State, the judge or judges of such superior court, may, in his or their discretion, whenever such judge or judges deem it necessary or advisable, hold hearings relating to the sale, exchange or other disposition of any parcel of real property or any item of personal property of such association regardless of the location of such property, at the county seat of any county in this State or at such places in the home county of such superior court at which sessions shall be held as provided in the Code of Civil Procedure. Whenever it becomes necessary for a judge, clerk, deputy clerk, court reporter or bailiff of or sitting in such superior court, to travel to another county, there to attend hearings relating to the sale, exchange or other disposition of real or personal property of such association, each such judge, clerk, deputy clerk, court reporter or bailiff shall be allowed his necessary expenses in going to, returning from and attending upon the business of such court. Such expenses shall upon order of such court, be a charge against the funds of such association and paid out of such funds by the commissioner. If a purchaser for any property or any bad or doubtful debt or claim cannot be obtained and it appears improbable in the case of any such bad or doubtful debt or claim that recovery thereon can be had, and that the cost of action to enforce collection of the same would probably be lost, the court may direct that suit thereon need not be brought, and if in the case of any such property it appears improbable that anything can be realized therefrom and that the cost of maintaining, preserving or protecting said property would probably be lost, the court may direct the commissioner to abandon the same. For the purpose of executing and performing any of the powers and duties hereby conferred upon him, the commissioner may in the name of such association or in his own name prosecute and defend any and all suits and other legal proceedings and may in the name of such association or in his own name as commissioner execute, acknowledge and deliver any and all deeds, assignments, releases, requests for reconveyance, and other instruments necessary and proper to effectuate any sale of real or personal property or other transaction in connection with the liquidation of such association; and any deed, assignment, release, request for reconveyance or other instrument executed pursuant to the authority hereby given shall be valid and effectual for all purposes as though the same had been executed by the officers of such association by authority of its board of directors. In case any of the real property so sold is located in a county other than the county in which the application to the court for leave to sell the same is made, the commissioner shall cause a certified copy of the order authorizing or ratifying such sale to be recorded in the office of the recorder of the county in which such real property is located.

Inventory of assets

Upon determining to liquidate an association, the commissioner shall cause an inventory of all the assets of such

association to be made in duplicate, the original to be filed with the court and the duplicate in the office of the commissioner. He shall cause notice to be given by publication once a week for four successive weeks in some newspaper of general circulation published at or near the principal place of business in this State of such association, to all persons having claims against it as creditors or investors or otherwise, to present and file same and make legal proof thereof at a place and within a time to be designated in such publication, which time shall be not less than six months after such first publication; and within 10 days after such first publication he shall cause a copy of such notice to be mailed to all persons whose names appear of record upon its books as creditors or investors; and upon the expiration of the time fixed for the presentation of claims, the commissioner shall prepare or cause to be prepared in duplicate a full and complete schedule of all claims presented, specifying by classes those that have been approved and those that have been disapproved and shall file the original with the court and the duplicate in the office of the commissioner. Not later than five days after the time of filing such schedule with the court, written notice shall be mailed to all claimants whose claims have been rejected. Action to enforce the payment of or to establish any rejected claim must be brought and service had within four months from and after the date of filing of the schedule of claims with the proper court; otherwise all such actions shall be forever barred. All claims, demands or causes of action of whatever nature, and regardless of whether or not a suit shall be pending to enforce the same at the time of the taking possession of the assets of the association by the commissioner, of creditors, and persons other than investors against the association or against any property owned or held by it in trust or otherwise, must be presented to the commissioner in writing, verified by the claimant, or someone in his behalf, within the period limited in the above mentioned notice for the presentation of claims; and the commissioner shall have no power to approve any claim not so presented, and any such claim, demand or cause of action not so presented shall be forever barred. Any investor, without presenting a claim, shall be entitled, as to any dividends hereafter declared, to share in such dividends to the extent, and in the proper relative order of priority, of any claim shown by the books of the association to exist in his favor against the association. Claims of holders of investment certificates and of shares shall bear interest, from the date when interest or dividends were last paid or credited on such certificates or shares, at the rate or rates of return on investment certificates and shares determined from time to time by the commissioner to be the rate or rates of return on investment certificates or shares paid or credited for the period or periods in question by the largest number of associations in this State. Claims of other creditors shall bear interest at the rate provided by law on judgments from the date the commissioner takes

Limitation

possession of the business, property and assets of the association.

Order of priority of claims

The commissioner may under his hand and official seal appoint one or more special deputies to assist in the duties of liquidation and distribution under his direction and may also employ such special legal counsel, accountants and assistants as may be needful and requisite and fix the salaries and compensation to be allowed and paid to each. All such salaries and compensation with such other reasonable and necessary expenses as may be incurred in the liquidation shall be paid by the commissioner from the funds of such association in his hands. Such expenses shall include, among other things, that part of the salary of the commissioner and of his deputies, examiners, accountants, appraisers and other assistants, and that part of the general expenses of the commissioner's office, as shall fairly represent, in the opinion of the commissioner, the proportion thereof properly attributable to such liquidation. From the net realization of assets in excess of such salaries, compensation and expenses, the commissioner shall first pay all claims heretofore or hereafter approved by him in the sum of less than ten dollars ($10), other than the claims of shareholders or stockholders, and other than the claims of certificate holders or other creditors who shall object in writing to such payment. Such claims of less than ten dollars ($10) shall be paid at their surrender value as estimated by the commissioner and fixed and determined by the court on the same basis as claims are received in payment of real property as provided for by Section 13.16a, and all such claims shall thereupon be canceled. The commissioner shall then pay all claims approved in the sum of ten dollars ($10) or more, other than the claims of shareholders and stockholders, without distinction or preference as between the claims of certificate holders and other creditors except as hereinabove provided as to the respective rates of interest thereon; and thereafter he shall distribute and pay dividends in liquidation first to the shareholders until their claims are fully paid or such assets or funds are exhausted, and second, if any such assets or funds remain, to the stockholders until such assets or funds are exhausted; provided, however, notwithstanding anything to the contrary herein contained, in the case of any association in which shareholders shall have heretofore been granted the right and option by the association to exchange their shares for investment certificates of equal value

Dividends

he shall distribute and pay dividends in liquidation to such shareholders without distinction or preference as between the claims of such shareholders and the claims of certificate holders and other creditors. Such distributions shall be made as funds are available therefor to the extent of 10 percent or more of the approved claims of the class of claimants then entitled to distribution, and shall continue until all the assets have been realized upon and a final dividend in liquidation shall be declared and paid. Where the commissioner shall have taken possession of an association and commenced paying dividends

in liquidation prior to the effective date of this section, as amended, he shall nevertheless pay the claims of certificate holders or other creditors approved in the original sum of less than ten dollars ($10), as hereinabove provided for, before paying other dividends in liquidation to those claimants whose claims were originally approved in the sum of ten dollars ($10) or more. Upon the payment of a final dividend in liquidation, the commissioner shall prepare and file with the court a full and final statement of the liquidation, including a summary of the receipts and disbursements, and a duplicate thereof shall be filed in the office of the commissioner and after due hearing and approval by the court, the liquidation shall be deemed to be closed.

Stay of process, etc.

The determination by the commissioner to liquidate any association, evidenced by filing written notice of such determination with the court, shall operate to stay or dissolve any or all actions or attachments instituted or levied within 30 days next preceding the taking of possession of such association by the commissioner, and pending the process of liquidation as herein provided no attachment or execution shall be levied or lien created upon any of the property of such association.

Disposition of balance

Whenever in the case of any association which shall have issued stock, the commissioner shall have fully liquidated all claims other than claims of stockholders, and shall have made due provision for any and all known but unclaimed liabilities, excepting claims of stockholders, and shall have paid all expenses of liquidation, then upon the written request of the holders of a majority of the stock of such association any surplus that may then remain in his hands, together with all the records and effects, shall be delivered to the association or its trustees, and thereafter such association or its trustees shall have title thereto free from any claim of the commissioner.

Statement

(a) The total principal amount of the outstanding bonds of the issue to be refunded.

(c) The amounts of the due and unpaid interest coupons of the bonds.

(d) The several assessments remaining unpaid and the time in which they become due, together with the interest and penalties on any unpaid installments thereof.

(e) The amount of each reassessment and description of the property upon which such reassessment is proposed to be levied.

Computation of assessment

9101. The amount of the reassessment upon any parcel of land shall be computed by the auditor in the following manner:

(a) Subtract from the total amount of unpaid assessments including interest and penalties thereon, if any, on all lands to be reassessed, the amount of the total proposed reassessment.

(b) Prorate the amount of the remainder so ascertained by subtraction, among the respective parcels to be reassessed in accordance with the amounts assessed against each of the parcels in the original assessment.

(c) Subtract the amount so prorated upon any parcel from the total amount of the unpaid assessment, with interest and penalties thereon, if any, on that parcel and the remainder shall constitute the proposed reassessment on such parcel.

Alternative method of apportionment

9102. As an alternative method of apportioning the reassessments, the legislative body, if it determines that it appears that the assessments upon some of the lands to be reassessed seem excessive and not in proportion to benefits, may by resolution direct that the superintendent of streets spread the proposed reassessment upon the parcels of land to be reassessed in accordance with the benefits derived from the acquisition or improvement, or acquisition and improvement, to pay for which the outstanding bonds were issued. If the alternative method of apportioning is used the superintendent of streets shall estimate for each parcel to be reassessed the benefits derived from the acquisition or improvement, or acquisition and improvement, to pay for which the outstanding bonds were issued, and shall credit to each parcel all amounts paid upon the assessment (excluding penalties and interest), and the balance remaining after these amounts have been credited shall be the amount of the reassessment upon the parcel.

Same Audit

9107. When an appropriation or contribution of taxes has been made under this article, the county auditor shall compute the amount of the unpaid taxes, penalties, and interest canceled and shall notify the State Controller thereof, and such amount shall be deducted from the amount necessary for a redemption of the property or from the amount for which the property shall be sold when sold by the State.

Upon default in payment of any installment of a reassessment, or interest or penalties thereon, the lands securing the reassessments shall be sold in the same manner in which real property in the city is sold for the nonpayment of general taxes, and shall be subject to redemption within one year from date of sale in the same manner as such real property is redeemed from such delinquent sale, and upon failure of such redemption shall in like manner pass to the purchaser.

Same

9301. In the event of default in the payment of any installment of any reassessment upon tax-deeded land or default in the payment of interest thereon, the land may be sold under this division as in the case of other lands.

City as purchaser

9302. The city shall be the purchaser at any delinquent sale in like manner in which it becomes or may become the purchaser of property sold for nonpayment of the general property tax, and shall pay and transfer into the redemption fund the amount of the delinquent reassessment and of the delinquent interest thereon.

State as purchaser

9303. If the municipal property tax is collected by county officials and sales for nonpayment of such taxes are made to the State, the State shall be the purchaser at any delinquency sale held pursuant to this division. However, the State shall hold the title acquired at such sale upon behalf of the city and shall account to the city for any money received upon redemption or from the sale of such property. The city, for the purposes of this division, shall be deemed the real purchaser.

Rights etc., of purchaser

9304. As to all lands of which any city is deemed the real purchaser under the provisions of this article, such city and all of the officials thereof shall have all of the rights, powers, duties, and obligations granted, authorized, or imposed by this division.

Redemption

9305. If any succeeding installment of the reassessment on property purchased by a city at a delinquency sale or interest thereon is not paid in any future year, the property shall not be sold unless there has previously been a redemption from such sale or unless under the law it is then being sold for delinquent taxes.

Future delinquent reassessments

9306. The city shall, unless a resale has been made by it, from time to time, when due pay and transfer into the redemption fund the amount of any future delinquent reassessment and interest pending redemption. No redemption shall be made until any such subsequent payments, with interest and penalties, shall also be paid.

Deed, etc., as evidence

9307. In the event of sale by the tax collector of any lot or parcel of land for nonpayment of taxes and of any installment of the reassessment thereon, or of the penalties, interest, or costs thereon, or for nonpayment of any installment, penalties, interest, or costs, then any certificate of sale or any deed issued is primary evidence of the regularity of all proceedings theretofore had, and shall be conclusive evidence of all things of which bonds issued upon the security thereof are conclusive evidence, and prima facie evidence of the regularity of all proceedings subsequent to the issuance of the bonds.

Effect of deed

9308. A deed issued under this chapter conveys to the grantee the absolute title to the lands described therein, free of all encumbrances, except unpaid installments, interest, and penalties under the same proceeding and except taxes and public improvement assessments which by law are equal or prior to the reassessment on which sale is made.

Article 2. Procedure When Funds Not Available For Payment

Funds not available for payment

9315. If there are no available funds in the treasury of the city or county with which to pay sums due on property bought at delinquency sales, the tax collector shall delay the entry of the certificate of sale until such funds are available, making demand in the meantime upon the legislative body that a suitable amount be included in the next tax levy for the purpose of providing funds with which to make such payment.

Delay in execution of certificate of sale

9316. The delay in execution of a certificate of sale to a city or to the State referred to in the next preceding section shall not extend the period of redemption from the tax sale; nor shall the rights or privileges of the property owner be thereby affected.

Special tax

9317. The legislative body may, and in the event of demand by the tax collector therefor as provided in Section 9315 shall, at the time of fixing the annual tax rate and levying the taxes to be collected for general municipal purposes, levy

a special tax upon the taxable property in the city for the purpose of paying for the lands purchased or to be purchased at delinquency sales held pursuant to this division, or for the purpose of paying installments of the reassessment or of interest which the city is required to pay, but not to exceed for each district, the bonds of which are refunded, ten cents ($0.10) on each one hundred dollars ($100) of assessable property.

Same

9318. The special tax provided for in this chapter shall be in addition to all other taxes and shall be computed, entered, and collected in the same manner and by the same persons and at the same time and with the same penalties and interest as are other taxes of the city.

(f) That on a date stated a certain sum came due on the property on the reassessment and had not been paid and that the legislative body had directed the action to foreclose.

Costs

9354. The costs of the action shall be fixed and allowed by the court and shall include a reasonable attorney's fee, interest,

penalties, and other charges and advances as provided in this division, and when so fixed and allowed by the court shall be included in the judgment.

Same

9355. The amount of penalties, costs and interest due shall be calculated up to the date of judgment.

Court decree

9356. The court may adjudge and decree a lien against the lot or parcel of land covered by the reassessment for the amount of the judgment and may order the premises to be sold on execution as in other cases of the sale of real estate by the process of the court, with the same rights of redemption.

Appeal

9357. On appeal, the appellate courts shall have the same power to adjudge and decree a lien and order such premises to be sold on execution as is provided in this chapter for the superior court.

Application of provisions

9358. The foreclosure action shall be governed and regulated by the provisions of this chapter, and also where not in conflict herewith by the codes of this State.

Credit

9359. Upon the ordering of any of the foreclosure actions the tax collector shall be credited upon the assessment roll then in his hands with the amount charged against him on account of reassessments ordered to suit and shall be relieved of further duty in regard thereto.

Refunding bond as evidence

9360. In any action to foreclose the lien of a reassessment, any refunding bond shall be conclusive evidence of the regularity and validity of the reassessment proceedings and of the reassessment and of the refunding bond.

Payment of other taxes by city

9361. A city shall have the right to advance and pay county or other taxes wherever necessary to protect its interest in property against which there is a delinquent reassessment.

Effect of foreclosure

9362. Any foreclosure of a reassessment lien shall convey the property to the purchaser free and clear of all encumbrances except such taxes and special assessment liens as are by law equal or superior to said reassessment lien.
