There is herewith also submitted to you a statement addressed to me by Miss Martha A. Chickering, Director, State Department of Social Welfare, concerning the department's estimate as to aged aid and needy blind aid.

Very truly yours,

VERNON KILPATRICK

SACRAMENTO, May 14, 1941

Mr. Vernon Kilpatrick, Member of the Assembly
State Capitol, Sacramento, California

MY DEAR MR. KILPATRICK: This department has received a request to answer the following questions for you concerning old age security and aid to the needy blind.

1. What sum of Federal money would be lost to the State if Federal participation were withdrawn?

Following are the estimated amounts of Federal funds which would be lost to the State during the next two years if Federal participation were withdrawn for aid to the aged and blind.

Aid to the Needy Aged	
For assistance	$75,884,000
For administration, to be divided among the State and the counties	3,794,000
Total	$79,678,000
Aid to the Needy Blind	
For assistance	$3,873,000
For administration, State and county	297,000
Total	$4,170,000
Grand total, aged and blind	$83,848,000

2 What would be the increase in cost if the programs for assistance to the aged and blind were to continue under their present scope, but if Federal participation were withdrawn?

Program	*Increase to the State*	*Increase to the Counties*	*Total Increase*
Aid to the Needy Aged			
For assistance	$37,942,000	$37,942,000	$75,884,000
For administration	1,198,000	2,596,000	3,794,000
Total	$39,140,000	$40,538,000	$79,678,000
Aid to the Needy Blind			
For assistance	$1,936,500	$1,936,500	$3,873,000
For administration	109,000	188,000	297,000
Total	$2,045,500	$2,124,500	$4,170,000
Grand total	$41,185,500	$42,662,500	$83,848,000

3. What would be the increased cost if the programs for assistance to the aged and blind were to remain subject to the present legal provisions under the condition of no Federal participation?

Aid to the needy Aged

No good estimates are yet available upon this point. Withdrawal of Federal participation under the present law would raise the residence requirement to 15 years and reduce the maximum grant to $35, resulting in an average monthly payment of about $32 80. The minimum reduction in case load because of the reverting to the 15 years residence clause is estimated at about 22 per cent, or about 36,000 of the average 167,000 cases estimated for the next two years.

Item	*Comparative Estimated Costs for Assistance for the Next Two Years*		*Change in Cost*
	Present condition with Federal participation	*Federal participation withdrawn; 22% decrease in case load and average grant at $32 80*	
Total cost	$151,767,000	$105,215,000	—$46,552,000
Federal	$75,884,000		—$75,884,000
State	38,042,000	52,746,000	+ 14,704,000
County	37,841,000	52,469,000	+ 14,628,000

Since these hypothetical costs are based upon a *minimum* decrease in case load because of the application of the 15 years residence rule, the increases noted under State and county are the *maximum* increase in cost to the State and county governments for assistance. No estimate can be made for the increases to the State and county governments for administration under the conditions of a reduced old age security case load and the loss of Federal participation The amounts of such increases in administrative cost would probably be slightly less than the increases for administration noted under question 2; i e., $1,198,000 for the State and $2,596,000 for the counties.

Aid to the Needy Blind

Data are not available to answer this question for aid to the needy blind.

There is enclosed a copy of a radio address which should provide additional information for you.

Very sincerely yours,

MARTHA A. CHICKERING, Director
State Department of Social Welfare

MOTION TO PRINT REMARKS IN JOURNAL

Mr. Lyon moved that the following remarks by Mr. Garland be ordered printed in the Journal:

Motion carried.

Remarks by Mr. Garland

Mr. Speaker and Members of the Assembly

I fully and sincerely appreciate the honor conferred upon me by the Members of the Assembly as expressed in the resolution which you have just adopted; and may I say here publicly, that a like honor which has been conferred upon me by a similar resolution just adopted in the Senate and read over the desk, is sincerely appreciated.

I fully realize the importance of the mission which is to be performed by the committee to be selected pursuant to Senate Concurrent Resolution No. 16 by Senator Kenny. It is unnecessary for me to point out to the members of the Assembly that we have in California the best old age pension and the most liberal program of aid to the needy blind and orphans, not only in the United States, but in the whole world. The people of California can well be proud of the progressive steps they have taken in providing this program of social welfare, and the Legislature of this State can point with great pride to its legislative accomplishments in this field. California must not—and will not—move backward in the field of social legislation, and it is to this end that this committee is to work in Washington.

I am mindful, however, that in my present position, I am obligated to fulfill the duties of my office to the best of my ability for all of the people of the State—and not for any one group. With this in mind, and with the realization that much of the most important legislation of this session—particularly the Budget, which will shortly be before us for consideration—is yet to be considered and acted upon, I feel that I can not, at this time, leave the Legislature to go to Washington as has been so kindly suggested by both the Senate and the Assembly. I further feel that we

have many other Members who are just as well qualified to perform the important task in Washington as I am, and I feel that for the good of all of the people in the State that I should remain here at my desk to perform my duties, and send someone else in my stead.

By Messrs. Burns, Michael J., Bashore and Dickey:

House Resolution No. 223

WHEREAS, Experience has shown that proper and effective motor vehicle legislation can best be based on a thorough and intensive study and investigation of the subject by a competent and active Legislative Committee; now, therefore, be it

Resolved by the Assembly of the State of California, That an Assembly investigating committee, to be known as the Assembly Committee on Motor Vehicle Legislation, is hereby created, to consist of five members appointed by the Speaker of the Assembly, which committee shall study, investigate and survey, accurately and in detail, either independently or in cooperation with interested persons or organizations, all matters within the scope of legislative control relating to motor vehicles and the safe operation thereof upon the public highways, with a view to discovering and recommending to the Legislature such legislation as may appear necessary and desirable at the Fifty-fifth Regular Session of the Legislature.

For the purposes of this resolution, and in addition to the other powers conferred by this resolution, the committee shall have all the powers granted to investigating committees by the Joint Rules of the Senate and Assembly, as they now exist or as they may be hereafter amended, and the provisions of those Rules, in so far as they relate to investigating committees, are hereby made applicable to the committee hereby created the same as though they were incorporated in this resolution.

In addition to the powers conferred upon the committee by the Rules, it may create subcommittees from its membership, assigning to the subcommittee any study, inquiry, investigation or hearing which the committee itself has authority to undertake or hold, and the subcommittee for the purpose of this assignment shall have and exercise all of the powers conferred upon the committee limited by the express terms of the resolution or resolutions of the latter defining the powers and duties of the subcommittee, which powers may be withdrawn or terminated at any time by the committee.

The Sergeant-at-Arms of the Assembly or other officers designated by him are hereby directed to serve any and all subpenas, orders and other process issued by the committee, when directed so to do by the chairman or by a majority of the membership of the committee.

The members of the committee shall serve without compensation but shall be allowed mileage at the rate of five and one-half cents ($0 05½) per mile each way incurred in connection with their services upon the committee and other actual and necessary expenses for living accommodations and meals, incurred in connection with their services upon the committee, or in lieu of such expenses for accommodations and meals an allowance of eight dollars ($8) per day.

The sum of one thousand five hundred dollars ($1,500), or so much thereof as may be necessary, is hereby made available from the Contingent Fund of the Assembly for expenses of the committee and its members, and for any charges, expenses or claims it may incur under this resolution to be disbursed, after certification by the chairman of the committee upon warrants drawn by the Controller upon the Treasurer.

GENTLEMEN: We hand you herewith the letter of transmittal and report of the above committee. On March 19th, last, a copy was presented to the Governor and has now been requested by certain members of the Legislature.

(2) The names and addresses of the owners of the ground.

(3) The names and addresses of the operators of the mine.

(4) The proposed means or method of placer mining operation.

(5) The means which the operator proposes to use to prevent the pollution of any stream by the effluent from such operations.

In the event an owner or operator changes his address, or of a transfer of ownership or change of operator of any such mining property, then within 10 days after any such transfer or change, a notice setting forth the names and addresses of the new owners or operators shall be filed in the office of the county recorder.

SEC. 2. No placer mining operator who does not hold a permit to operate from the California Debris Commission shall mine by placer process on any stream or on the watershed of any stream tributary directly or indirectly to the Sacramento or San Joaquin Rivers without taking the following precautions to prevent pollution of the stream by the effluent from operations:

(1) Constructing a settling pond or ponds of sufficient size to permit the clarification of water used in the mining processes before the water is discharged into the stream.

(2) Mixing with the effluent from mining operations aluminum sulphate and lime, or an equivalent clarifying substance which will cause the solid material in the effluent to coagulate and thus avoid rendering the water in the stream unfit for domestic water supply purposes.

(3) Notwithstanding the provisions of Subdivision 2 of this section, any placer miner who is operating by dredging process and who desires to transport his dredger across a stream where the expense of constructing settling ponds in the stream itself would, in the opinion of the operator, be unduly heavy, shall have the right to conduct the dredger across the stream without constructing a settling pond under the following procedure. The operator shall give to the clerk or secretary, as the case may be, of each city or district owning or operating a domestic water supply the clarity of which is likely to be affected by the crossing operation, notice of the intent of the operator to cross the stream. Such notice shall be given at least seven days in advance of the date that the operator expects to cross the stream with his dredger. Upon the expiration of the notice the operator may during the following 48 hours conduct his dredger across the stream even though some turbidity may be caused by the crossing operation. Having crossed the stream the operator shall thereupon and thereafter in its further operations observe the provisions of Subdivision 2 of this section.

SEC. 3. Any person, firm or corporation who fails to record the notice provided for in Section 1, or to install the protective devices or to give the notice provided

for in Section 2, or both, shall be guilty of a misdemeanor. The operation of any placer mine on ground not covered by a permit to the operator from the California Debris Commission, without compliance with the provisions of both Sections 1 and 2 hereof, is hereby declared to be a public nuisance which may be enjoined upon suit brought by the district attorney of the county in which the operation has been conducted, or by any city or district whose domestic water supply is rendered unfit or dangerous for human consumption by the acts, or failure to act, of the operator. The superior court of the county in which the operation is conducted shall have jurisdiction to hear and determine the action and to award such relief as may be proper therein. Nothing in this act contained, however, shall be deemed or construed to deprive the State, any city, city and county, county, district, person, firm or corporation of any right to bring and maintain any action or proceeding, in any jurisdiction, which it was entitled to bring or maintain prior to the enactment of this act, or to receive or obtain in any such action any remedy accorded to it under existing law.

SEC. 4. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Assembly Bill No 2595:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 15, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS.

ASSEMBLY BILL No 2595

"An act to amend Section 1 of 'An act making an appropriation for the reconstruction, replacement and repair of buildings and physical facilities of

elementary and secondary schools damaged or destroyed by earthquakes, to take effect immediately', approved December 7, 1940, relative to reconstruction, replacement and repair of school buildings, making an appropriation, to take effect immediately",

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await final enactment of the Budget Bill.

I, therefore, recommend consideration of Assembly Bill No 2595 as an emergency measure.

Respectfully submitted.

CULBERT L OLSON, Governor of California

Explanations of Vote

I am opposed to local option as impracticable, but voted against motion to table as I favored giving everyone a chance to be heard.

ERNEST O. VOIGT

My "No" vote on tabling Assembly Constitutional Amendment No. 54 was for the reason that the maker of the motion overstepped the bounds of good sportsmanship and parliamentary procedure, by speaking on the subject and then making the motion, thereby preventing others from speaking.

VINCENT THOMAS

Regardless of my personal views, on the question of local option, I voted "No" on Mr. Call's motion to table it. My reason for so doing was that I felt that the matter should have been debated thoroughly, and both the opponents and proponents should be given a fair and just hearing

Notice of Motion to Reconsider Assembly Bill No. 2620

Mr. Bennett gave notice that on the next legislative day he would move to reconsider the vote whereby Assembly Bill No. 2620 was this day passed.

Explanations of Vote

In voting against Assembly Bill No. 2620, I opposed this measure because I think that if a surplus exists at the end of the next biennium, it should be placed in a reserve fund to take care of any emergency after the defense program ends. Balance the Budget first, reduce taxes after.

T. A. MALONEY, Twentieth District

Although we advocate a reduction in taxes, especially of the sales and use taxes, we voted "No" on Assembly Bill No. 2620 because we feel the colossal deficit should first be abolished.

EDWARD M. GAFFNEY
JOHN EDWARD CAIN
WM. I. GUNLOCK

I voted "No" on Assembly Bill No. 2620 because while I believe that the sales tax should be reduced, I feel that the $48,000,000 State deficit should be paid first.

UNITED STATES DEPARTMENT OF THE INTERIOR
OFFICE OF THE SECRETARY, WASHINGTON, May 21, 1941

Mr. Arthur A. Ohnimus, Chief Clerk
California Legislature, Sacramento, California

MY DEAR MR. OHNIMUS: I have received your letter of May 1st submitting a copy of Assembly Joint Resolution No. 42, adopted by the California Legislature on April 28, 1941.

The resolution urges that regulations be adopted to permit the feeding of migratory waterfowl on hunting clubs in California and requests that the Department either raise or purchase grain for feeding such birds on the National wild life refuges in the State.

You are assured that the recommendations to amend the Migratory Bird Treaty Act regulations relating to the hunting of waterfowl by means of feed will receive consideration when proposed changes in the regulations are under discussion.

Large quantities of rice and other grains are now being raised on the Sacramento National Wild Life Refuge and on other National wild life refuges in California by cooperating individuals, and specified percentages of the crops accrue to the Government. These are mostly allowed to remain unharvested in the fields as feed for wild life. In view of this program the department would not be justified in purchasing grain to feed the wildfowl on the refuges. An especial effort will continue to be made to raise as much grain as possible on the National wild life refuges for feeding the wildfowl.

Sincerely yours,

OSCAR L. CHAPMAN, Acting Under Secretary

UNITED STATES DEPARTMENT OF THE INTERIOR
FISH AND WILDLIFE SERVICE, WASHINGTON, May 21, 1941

Mr. Arthur A. Ohnimus, Chief Clerk, The Assembly
California Legislature, Sacramento, California

DEAR MR. OHNIMUS: Your letter of May 14th, addressed to the Secretary of Agriculture transmitting Assembly Joint Resolution No. 1 urging that two waterfowl hunting zones be established in California, has been referred to this department.

The Biological Survey, Department of Agriculture, was transferred to the Department of Interior effective July 1, 1939, and the functions of the Secretary of Agriculture relating to the protection of wild life were vested in the Secretary of the Interior. The Biological Survey and the Bureau of Fisheries were consolidated effective June 30, 1940, into one agency known as the Fish and Wildlife Service.

I wish to assure you, however, that careful consideration will be given to this resolution when we take up for discussion proposed changes in the present Migratory Bird Treaty Act regulations.

Sincerely yours,

IRA U. GABRIELSON, Director

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 26, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS I am returning herewith, without my signature, Assembly Bill No. 533 entitled "An act to amend Section 1007 of, and to add Section 1008 to, the Civil Code, relating to prescription, exemption"

My objections to this bill are as follows

It provides that water and water rights, owned by any mutual water company or public utility water company, can not, like other property privately owned, be acquired by prescription. Under it no water or water right once acquired by a private agency in the form of a mutual water company or a company engaged in the sale of water to the public, although that right is not exercised, could be acquired by prescription covering any number of years of the waters' appropriation to beneficial use The policy of the provisions of the present law, which this bill would amend, that the public's governmental agencies can not lose title to any property by prescription, should not be broadened to give the same protection to any privately owned property rights from being acquired by prescription, and no compelling reason exists therefor. If such an agency owns a water right which is not being used, I can see no reason for providing that its title shall remain inviolate forever against a prescriptive right acquired by its appropriation to beneficial use throughout the period when such appropriation ripens into title. Such a provision would encourage rather than discourage the acquisition of unneeded water and water rights not devoted to beneficial use. The present statute which for sound and obvious reasons

of established public policy provides that no publicly owned property shall be acquired by prescription should not be amended to extend the same exemption to any class of privately owned property as this bill would do.

Your attention is also directed to the last sentence of Section 1007 to the effect that other public rights not specifically mentioned in that section are not to be deemed subject to prescription by reason of the failure to mention them. This provision in the present section is applicable to water and water rights, but under the bill it would not be applicable thereto.

There is a constitutional problem presented. While the present law makes different rules applicable to private agencies than to public agencies, this bill would discriminate between privately owned public utilities. For instance, why should a water company be permitted to obtain a prescriptive water right against a power company when the reverse would not be true? I can see no reasonable basis of classification in this regard from a constitutional point of view.

Respectfully submitted.

CULBERT L. OLSON, *Governor of California*

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 27, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Assembly Bill No. 901 entitled: "An act to add Section 681.5 to the Code of Civil Procedure, relating to execution of judgments"

My objections to this bill are as follows:

This bill adds Section 681.5 to the Code of Civil Procedure, to provide:

(a) Execution on a judgment for support of a minor child may issue as a matter of right at any time until one year after the minor attains majority;

(b) Execution on a judgment for alimony or for support and maintenance may issue as a matter of right at any time within five years after the date of the last payment.

Section 681 of the Code of Civil Procedure now provides for execution as a matter of right until five years after entry of judgment. Section 685 of said code provides that execution may issue after five years by order of court, application being made to the court, with notice to the judgment debtor. A showing must be made by the judgment creditor, by affidavit, of the reason for failure to proceed by execution within five years under Section 681 Section 681 and Section 685 both apply to judgments ordering monthly payments in domestic relations cases—that is to say, the time within which an execution may be taken out as a matter of right in any such case runs from the date of the entry of judgment, and not from the date on which the right to a particular payment accrues

While the bill deals with judgments based upon the highest of personal obligations, I believe that our courts fully appreciate the character of such obligations as that of a parent to support his minor child, and that it can safely be left to the discretion of the courts to determine, upon the equities of the different cases which arise, whether execution should issue on such judgments after five years. One or two suppositional instances may illustrate the point·

Suppose the ordinary dissolution of a family, in which the wife takes the children and secures a judgment by default for alimony and support, the husband, as usual, failing to appear to protect his financial interests. Thereafter the wife inherits a large sum of money. She no longer needs alimony or support money for the children, and, accordingly, makes no claim against the husband for years. After a number of years the husband remarries. The wife, who has never remarried, proceeds to levy a writ of execution out of vindictiveness

Suppose that the wife never intended to make any claim on her husband for alimony or for support of the children under the default judgment. After her death, her executor or administrator, under Section 686 of the Code of Civil Procedure, may take out an execution. Under this bill the executor or administrator could levy on the husband for a large sum of money accumulated over the years, without submitting the matter to the discretion of the court, and without making any showing why the wife, during her lifetime, had never taken out execution or made any claim. Such execution would be a matter of right.

Suppose a judgment awards a lump sum per month for alimony and for support of minor children, without segregation. If the wife remarries, the right to alimony ceases, but the right to the award for the support of minor children is not affected

by such remarriage. If the wife desires to levy under such a judgment for amounts accrued after her remarriage, certainly the matter should be presented to the court so that execution will not issue for an amount greater than the husband is, in justice, obligated to pay.

The facts in *Shields* vs. *Superior Court*, 138 Cal. App. 151, illustrate the point. There a petition for a writ of mandate was sought, to compel a court to issue execution on a judgment for $250 per month alimony and for $150 per month for support of minor children. The judgment was over 10 years old. It was shown that since the judgment was entered the husband's financial situation had greatly changed and that he no longer had the ability to pay. The accrued arrears on the $400 per month amounted to about $12,000 The husband had been regularly paying the wife $100 per month The court found that he had no further ability to pay. Subsequent to the judgment the minor children had received estates by inheritance from the husband's father, and had been adequately supported for more than two years prior to the petition out of such inheritances. The trial court denied the application for execution after five years The district court of appeal affirmed that order

Under this bill, the wife in the *Shields* case could have taken out execution for $12,000, and could have tied up the husband's business, notwithstanding that he was paying up to the best of his ability on the alimony, and notwithstanding the fact that the children had been taken care of by inheritance from the husband's side of the family.

I think that the ends of justice will be better served by leaving the determination of the issuance of execution after five years to the discretion of our courts.

Respectfully submitted

CULBERT L. OLSON, Governor of California

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 27, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Assembly Bill No 387, entitled: "An act to add Section 590 to the Probate Code, relating to the employment of attorneys for estates."

My objections to this bill are as follows

The bill provides, first, that an executor or an administrator is entitled to employ an attorney for the probate of an estate. This provision makes no change in the existing law.

The second sentence of the bill provides that when an attorney has been employed, additional attorneys for the performance of extraordinary services for an estate can not be employed without prior authorization of the court. I see no objection to this provision, although it seems unnecessary, for the reason that the compensation for extraordinary services is entirely within the control of the court under the present law The court undoubtedly has, under the present law, the authority to refuse any compensation for extraordinary services if such services are not necessary or properly performed.

The last provision in the bill reads as follows:

> "An attorney employed by an executor or administrator for the probate of an estate may not represent such executor or administrator or any other person or persons in any controversy upon a matter concerning such estate if the executor or administrator or other person or persons have any interest in the controversy adverse to the estate"

This provision is ambiguous and uncertain, in that there are two terms therein which are not defined. What constitutes an "interest in the controversy adverse to the estate"? What constitutes a "controversy upon a matter concerning such estate"?

I assume that a claim filed by an executor or administrator against the estate would be adverse The bill, however, is entirely unnecessary in so far as that situation is concerned, since Section 703 of the Probate Code provides that, if the executor files a claim, the clerk shall deliver the same, for allowance or rejection, to the judge If the judge rejects the claim, an action may be brought, but summons must be served upon the judge, who shall appoint an attorney at the expense of the estate to defend the action.

Where the executor or administrator seeks to enforce a contract to convey real estate, made by the decedent in his lifetime, I assume that the interest is adverse. It is settled law, however, that the executor or administrator in such situation has the right to petition the court for an order directing him to convey to himself, in performance of the decedent's contract, and that, in such case, the probate court may appoint an attorney to represent the estate

Estate of Garnier (1905), 147 Cal. 457

Where the executor or administrator is a legatee or heir, will opposition to his petition for a decree of final distribution constitute a controversy within the meaning of this bill, so as to disqualify his attorney? It is settled law that the administrator, as such, has no interest in a controversy to determine the persons to whom the estate should be distributed, but it is likewise settled that he may come in by petition in his individual capacity to ask distribution to himself, or to himself and others.

Estate of Walker (1917), 176 Cal. 402

It is also clear that, if the attorney represents the executor or administrator so petitioning in his individual capacity, compensation for such services is not chargeable against the estate.

In re Jessup, 80 Cal. 625

The following are other instances in which it might be claimed under this bill that the attorney was disqualified by reason of the adverse interest of the personal representative:

(1) Application to set aside exempt property or a probate homestead to the widow or minor children. In these cases, the creditor's interests are affected, and so are those of the heirs or devisees, since even property specifically devised may be set aside as a probate homestead.

Estate of Huelsman (1899), 127 Cal. 275

(2) Petition for family allowance.

(3) Petition to set aside an estate of less than $2,500.

(4) Petition for allowance for extraordinary services to the executor or administrator, or to his attorney.

The probate court is the guardian of the estates of deceased persons, *Estate of Garnier, supra*, and the personal representative is an officer of the court, subject to its control and direction. (11A Cal. Jur. 78.)

Since it is the law that the executor or administrator is not disqualified by reason of personal interest, and may appear in a proceeding in his individual capacity, I see no reason why his attorney should be disqualified as a matter of law in such cases.

In addition, the uncertainty and ambiguity, and the resulting confusion in the administration of estates of decedents, will be indicated, I think, by the different situations above discussed.

I have one further and fundamental objection to the bill, which is that it will impose additional and unnecessary cost. The administrator or administratrix is usually a near relative (Probate Code 422) and entitled to share in the estate (Probate Code 201 et seq.). The executor or executrix is usually a member of the immediate family, and a beneficiary under the will.

Under this bill, if any controversy arises, the widow or other close relative acting as personal representative, will be compelled to employ another attorney to protect his or her interests. This other attorney will have to familiarize himself with the facts and issues, and to make a charge therefor, which will be greater than the charge, if any, which the regular attorney would have made.

I think that these matters should be left to the discretion of the court, and that it is both unwise and unnecessary to require, as a matter of law, that other counsel be employed in every case of a controversy coming within the broad and uncertain terms of this measure.

Respectfully submitted.

GULBERT L. OLSON, Governor of California

GRAND COUNCIL OF CABRILLO CIVIC CLUBS
SAN FRANCISCO, May 23, 1941

Mr. Earl Desmond, Assembly Chamber
State Capitol, Sacramento, California

DEAR EARL: From what observation I have been able to make and other information that I have, it appears that Senate Bill No. 269, providing for the teaching of the Portuguese language in the public schools, was brought up before the Assembly and has been tabled for reasons unknown to me.

However, I know that you are terribly pressed with great volumes of legislation still to be passed before the Legislature adjourns, and fear for that reason that our bill may be overlooked. I am therefore writing to ask you to do me the personal favor of attempting at your first possible convenience to have it presented for passage.

This bill is of very vital importance owing to the world conditions, which you are fully aware of, and it will certainly be appreciated by our club and the Portuguese people of California should it be made a law.

I will greatly appreciate anything that you can do to get the bill through. With many thanks for your consideration and efforts, I am

Sincerely yours,

JOSEPH W. MENTO, Grand President
Cabrillo Civic Clubs

By Mr. T. Fenton Knight:

House Resolution No. 233

Relating to the Fiftieth Anniversary of the admission of Arthur P Will to the Bar

WHEREAS, On this twenty-ninth day of May, 1941, Arthur P. Will has completed 50 years of practice of the law during which time he has distinguished himself by his outstanding ability, his unimpeachable integrity and by his diligent and faithful devotion to the public service.

Arthur P Will was the first Legislative Counsel of California, having been appointed to that office in 1914 and continuing therein until 1920. His impartiality and devotion to duty in that office has contributed in a large measure to the success of what was then a novel experiment and early established standards and conditions which that office still strives to maintain Since 1935 Mr. Will has ably served during sessions of the Legislature as Consultant in the Legislative Counsel Bureau.

In addition to his activities with the Legislative Counsel Bureau, Arthur P. Will has been a law text writer and editor, served in the judicial field, and engaged in private practice; and

WHEREAS, This half century of public and private service by Arthur P Will is marked with outstanding achievements and high standards of conduct that all lawyers and public servants may well seek to emulate; now, therefore, be it

Resolved by the Assembly of the State of California, That the members thereof extend to Arthur P. Will their sincere congratulations on this fiftieth anniversary of his admission to practice law and heartily wish him many more years of success in the profession he has served so faithfully and well; and be it further

Resolved, That the Chief Clerk of the Assembly transmit to Arthur P Will an engrossed copy of this resolution

Request for Unanimous Consent

Consideration of Committee Amendments

The following amendments were proposed by the Committee on Insurance:

PRINTER'S NOTE—There being no 7-point strikeout type available, the material which should appear in strikeout type in the following amendments is indicated by being inclosed within brackets

---

Amendment No. 1

Strike out lines 1 to 3 of the title of the printed bill, and insert

"An act to amend Section 1679 of the Insurance Code, relating to insurance and insurance agents, brokers, and solicitors, declaring the urgency thereof, to take effect immediately."

Amendment No. 2

On page 1 of the printed bill, strike out lines 1 to 25, inclusive; and on page 2, strike out lines 1 to 19, inclusive, and insert

"SECTION 1. Section 1679 of the Insurance Code is hereby amended to read as follows

1679. (a) Unless sooner suspended, revoked, or terminated, the license of every insurance agent, broker, or solicitor expires July 1st of each year unless application for renewal is filed as provided in subdivision (b).

(b) Application for renewal of such license may be filed [at any time prior to] *on or before* June [1st,] *3rd*, upon payment of the renewal fee.

(c) Such license may be renewed upon application filed between June [1st] *3d* and July 31st upon payment of the renewal fee plus an additional fee equal to the renewal fee.

(d) The commissioner shall mail notice for forfeiture of renewal rights not later than July 20th, to:

(1) The licensee

(2) The employing agent or broker, if any.

(3) The appointing insurers, if any.

Failure to mail such notice shall not continue the right of renewal.

(e) Such license shall not be renewed after July 31st, but the person may make application for a new license as provided in this code, and shall take and pass the qualifying examination.

SEC 2. This act is hereby declared to be an urgency measure within the meaning of Section 1 of Article IV of the Constitution of the State of California and shall take effect immediately. The following is the statement of the facts constituting such necessity.

Chapter 23 of the Statutes of 1941 requires applications for renewal of licenses to be filed prior to June 1, 1941. Due to Memorial Day holiday, and the proclamation of the Governor proclaiming May 31, 1941, a holiday, it is undecided as to whether the last day to file applications for renewal of licenses is May 29 or June 2, 1941. Due to this uncertainty, and a misunderstanding on the part of many agents, brokers, and solicitors that it was possible to file prior to June 3, 1941, many of such agents, brokers, and solicitors have failed to file their applications for renewal of their licenses, and will be unable to do so until June 2, 1941. It is therefore essential that this bill go into effect immediately in order that the last day for filing applications for the renewal of licenses may be clarified and the imposition of penalties prevented."

Amendments read and adopted.

Bill ordered printed, and engrossed.

MESSAGES FROM THE SENATE

SENATE CHAMBER, SACRAMENTO, May 29, 1941

MR. SPEAKER: I am directed to inform your honorable body that the Senate refused to sustain the Governor's veto to

Senate Bill No. 877—An act to add Chapter 8, comprising Sections 1131, 1132, 1133, 1134, 1135 and 1136 to Part 3, Division 2 of the Labor Code, relating to hot cargo and secondary boycotts.

Herewith is a copy of Governor's message relating to said bill

J. A. BEEK, Secretary of the Senate
By JOHN F. LEA, Assistant Secretary

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, MAY 27, 1941

To the Honorable Members of the Senate
Sacramento, California

GREETINGS:

I am returning herewith, without my signature, Senate Bill No. 877, entitled: "An act to add Chapter 8, comprising Sections 1131, 1132, 1133, 1134, 1135 and 1136 to Part 3, Division 2 of the Labor Code relating to hot cargo and secondary boycotts."

My objections to this bill are found in the provisions of the Constitution of the United States and of the State of California, and in my oath of office to support them.

According to my understanding of those provisions and their interpretation by the Supreme Court of the United States and the Supreme Court of this State, I could not approve this bill without violating that oath.

"Hot Cargo" declared by this bill to be unlawful is defined to mean "any combination or agreement resulting in a refusal by employees to handle goods or to perform any services for their employer because of a dispute between some other employer and his employees or a labor organization or any combination or agreement resulting in a refusal by employers to handle goods or perform any services for another employer because of an agreement between such other employer and his employees or a labor organization."

"Secondary Boycott" also declared by this bill to be unlawful is defined to mean "Any combination or agreement *to cease performing any services for any employer* or to cause any loss or injury to such employer, or to his employees, *for the purpose of inducing* or compelling *such employer to refrain* from doing business with, or handling the products of any other employer, because of a dispute between the latter and his employees or a labor organization, or any combination or agreement *to cease performing* or to cause any employer to cease performing *any services* for another employer, or to cause any loss or injury to such other employer, or to his employees, for the purpose of inducing or compelling such other employer to refrain from doing business with, or handling the products of any other employer, because of an agreement between the latter and his employees or a labor organization."

In other words, this bill declares it unlawful for employees by agreement among them to cease work for an employer if that refusal is because of a dispute between another employer and his employees, and declares it unlawful for employees to cease work for any employer for the purpose of inducing such employer to refrain from doing business with or handling the products of any other employer because of a dispute or an agreement between the latter and his employees, regardless of their interest in or what may be the effect of any such circumstance upon their rights and the rights of other employees to accomplish effective collective bargaining, and as stated by the Legislative Counsel in his report, the language of the bill defining "secondary boycott" clearly includes peaceful picketing as being unlawful unless narrowly limited to a place where there is a direct employer-employee relationship.

The Supreme Court of the United States has held such laws unconstitutional in that they violate rights guaranteed by the First and Fourteenth Amendments to the Constitution of the United States; rights which are also guaranteed by Sections 9 and 10 of Article I of the Constitution of California. The Legislative Counsel's opinion says:

> "The action of the United States Supreme Court in these two cases is persuasive to the effect that freedom of speech is not to be limited by a State's declaration of whether its purpose is lawful. It seems to be the court's view that peaceful picketing is identified with the constitutional guaranty of free speech and is to be judged according to the principles governing the exercise of that right. It can not be narrowly restricted by a State's declaration of what it deems to be the proper field for its exercise. It seems to us that in broadly outlawing secondary picketing, whether peaceful or not, Senate Bill No. 877 goes too far and is unconstitutional in that respect." (Citing *American Federation of Labor v. Swing* (1941), 61 Supreme Court 568; *Journeymen etc. v. Miller's Inc.* (1941), 61 Supreme Court 732.)

I am keenly and sympathetically aware of the feelings of individual employers who feel that instances in the operation of the secondary boycott or "hot cargo" pressure of organized employees of another employer unjustly affect and injure their own normal operations, because they are not directly parties to that other employer's dispute with his employees.

But the answer to this complaint is found in the following language of the Supreme Court of California, 100 Cal. Dec., p. 407:

> "although the respondent argues that a person secondarily boycotted is an innocent third party caught between the upper and lower millstones of an industrial dispute in which he has no interest, this is clearly not correct. One who sells a product of a merchant or manufacturer who is engaged in a labor dispute with his employees, inescapably becomes an ally of the employer. He

has a direct unity of interest with the one being struck. By providing an outlet for that product, he enables the employer to maintain the working conditions against which labor is protesting. And unless the union is allowed to follow the product to the place where it is sold and to ask the public by peaceful representations to refrain from purchasing it, the workers have no real opportunity to tell their story to those whose interest or lack of interest will, in large measure, determine the issues in dispute. (*Goldfinger* v. *Feinbach*, 276 N. Y. 281, 11 N. E. (2d) 910.)"

It is inevitable, in the maintenance of the civil liberties of our democracy involved in the economic struggle in the field of industry and commerce where workers and employers exercise their collective economic power for the attainment of what they consider to be their just rights, that incidental hardship may be suffered by individuals only indirectly involved and which they are powerless to prevent. But fundamental Constitutional rights and civil liberties which our country is now preparing to defend against the enemies of democracy can not be set aside in order to avoid those incidental hardships. The way must and undoubtedly will be found in adjustments which will necessarily evolve from the preservation of those rights.

Everyone, even the proponents of this bill, will agree that the rights of employees to unionize and to strike and to peacefully picket in the enforcement of their rights to bargain collectively are just and fundamental rights of our American system; yet this bill would destroy the effective, peaceful and orderly exercise of those rights. In fact, it goes further and denies the right of employees to quit work for any of the reasons mentioned in the bill. It says continuance at work under such circumstances is compulsory. I have not found any statute or ordinance of any State or municipality which has ever gone so far in attempts to defeat or circumscribe the rights of organized workers. This bill says to a union of workers engaged in an economic struggle with their employer to better their wages or working conditions, "You can not ask other employees to assist you in your struggle." And it says to a union of other employees, "You must continue to work on materials furnished by another plant in which that struggle exists, and you may be sent to jail if you fail to continue at work on those materials, although by so doing you will aid in destroying your own union." (254 U. S. 443.)

I believe that most Americans, without looking at any law books, would say that under our American system of government and the rights guaranteed by our Constitution, if a man does not want to work, he can not be made to do so whatever his reasons; that he can use this right to quit work for any reason he sees fit, either individually or collectively, that is, he can quit his job alone, or he can walk out with other employees of a similar mind.

So analyzed, I believe the average American will agree that no matter what the purpose, or how some people may have abused their right to quit work or to strike, you can't make a free man work in private enterprise, and that therefore such a bill as this would violate our fundamental rights of liberty and freedom from involuntary servitude.

In the case of *Thornhill* vs. *Alabama*, 60 Supreme Court Reports 736, is the final and conclusive determination by our highest court of the unconstitutionality of a bill such as this. In that case the court held as follows (pages 744-5):

"The freedom of speech and of the press guaranteed by the Constitution embraces at the least the liberty to discuss publicly and truthfully all matters of public concern without previous restraint or fear of subsequent punishment. * * *

"In the circumstances of our times the dissemination of information concerning the facts of a labor dispute must be regarded as within that area of free discussion that is guaranteed by the Constitution. *Hague* v. *C. I. O.* 307 U. S. 496, 59 S. Ct. 954, 83 L. Ed. 1423; *Schneider* v. *State*, 308, U. S. 147, 155, 162, 163, 60 S. Ct. 146, 151, 84 L. Ed. ___. See *Senn* v. *Tile Layers Union*, 301 U. S. 468, 478, 57 S. Ct. 857, 862, 81 L. Ed. 1229. It is recognized now that satisfactory hours and wages and working conditions in industry and a bargaining position which makes these possible have an importance which is not less than the interests of those in the business or industry indirectly concerned. The health of the present generation and of those as yet unborn may depend on these matters, and the practices in a single factory may have economic repercussions upon a whole region and affect widespread systems of marketing. The merest glance at State and Federal legislation on the subject demonstrates the force of the argument that labor relations are not matters of mere local or private concern. Free discussion concerning the conditions in industry and the causes of labor disputes appears to us indispensable to the effective and intelligent use of the processes of popular Government to shape the destiny of modern industrial society. The issues raised by regulations, such as are challenged here, infringing upon the right of employees effectively to inform the public of the facts of a labor dispute are part of this larger problem. We concur in the observations of Mr. Justice Brandeis, speaking for the Court in Senn's case (301 U. S. at page 478, 57 S. Ct. at page 862, 81 L. Ed. 1229): 'Members

> *of a union might, without special statutory authorization by a State, make* known the facts of a labor dispute, for freedom of speech is guaranteed by the Federal Constitution'"

In the case of *American Federation of Labor* v *Swing*, Justice Frankfurter placed even greater emphasis upon the inviolability of the right of "peaceful picketing of peaceful persuasion" in the following language, which in my opinion is determinative that this bill is unconstitutional

> "We are asked to sustain a decree which for purposes of this case asserts as the common law of a State that there can be no peaceful picketing or peaceful persuasion' in relation to any dispute between an employer and a trade union unless the employer's own employees are in controversy with him
>
> "Such a ban of free communication is inconsistent with the guarantee of freedom of speech That a State has ample power to regulate the local problems thrown up by modern industry and to preserve the peace is axiomatic But not even these essential powers are unfettered by the requirements of the Bill of Rights. The scope of the Fourteenth Amendment is not confined by the notion of a particular State regarding the wise limits of an injunction in an industrial dispute, whether those limits be defined by statute or by the judicial organ of the State. *A State can not exclude workingmen from peacefully exercising the right of free communication by drawing the circle of economic competition between employers and workers so small as to contain only an employer and those directly employed by him* The interdependence of economic interest of all engaged in the same industry has become a commonplace *American Foundries* v *Tri-City Council*, 257 U S 184 209 The right of free communication can not therefore be mutilated by denying it to workers, in a dispute with an employer, even though they are not in his employ Communication by such employees of the facts of a dispute, deemed by them to be relevant to their interests can no more be barred because of concern for the economic interests against which they are seeking to enlist public opinion than could the utterance protected in Thornhill's case 'Members of a union might, without special statutory authorization by a State, make known the facts of a labor dispute for freedom of speech is guaranteed by the Federal Constitution' *Senn* v *Tile Layers Union*, 301 U S 468, 478"

Since the United States Supreme Court handed down these and like decisions, State courts of last resort in several States have reversed their former decisions in conflict therewith

In the case of *E L Kerns Co* vs *Landaraf et al.*, decided by the New Jersey Court of Errors and Appeals on December 12, 1940, the court held that it was lawful for the union to distribute circulars and cards among customers, and prospective customers of the employer informing them that such employer's products were nonunion made

The court in that case reviewed the various decisions of the United States Supreme Court on the subject, and upheld the right of a union to compete with nonunion concerns by means of informing the public that such concerns were producing goods made by nonunion workers In that connection the court had the following to say

> 'If a merchant may freely, fairly, honestly and peacefully compete with other merchants, as is the common daily practice, by means of advertisements in the press, (or) by circulars, or by his window display' or by radio, so a union may in like manner, here by circulars, compete with nonunion concerns for customers Such competition violates no rule of common law or otherwise, nor does it trench upon any provision of either our State or Federal Constitution Cf *Senn* v *Tile Layers &c. Union* 301 U. S 468, 482, 81 L Ed 1229, 1238 (For the right generally to distribute circulars see, *Lovell* v *Griffin*, 303 U. S 444, 82 L. Ed 949, *Schneider* v *New Jersey*, 308 U S 147 (5 LRR Man 659); *McLean* v. *Mackay*, 124 N J L. 91, 10 A. 2d 733) If injury results from the stated competition it is *damnum absque injuria*.
>
> "(Free Speech and Press)
>
> 'Additionally we are of the opinion, and so hold, that, under the circumstances exhibited in the instant case, the restraint imposed constitutes an infringement of the union's right of freedom of speech and freedom of press both under our State and Federal Constitutions, notwithstanding the fact that there was no strike nor dispute between complainant and its employees For an analogy in principle compare, *Thornhill* v *Alabama* supra; *Carlson* v *Shasta County, California*, Adv Opinions, U. S Sup Ct. Vol. 84, No 13, p 668 (6 LRR 318)'

The Kentucky Court of Appeals in the recent case of *Blanford et al* v. *Press Publishing Company*, decided February 28 1941 held secondary boycott as lawful and as an exercise of constitutional right of freedom of speech and of the press.

It reviewed the recent decisions of the Supreme Court on the subject and held in effect that the U. S. Supreme Court being the final interpreter of the Federal Constitution the State court must follow its decisions. In this connection it held:

> "Since the Supreme Court is the final interpreter of the Federal Constitution, no distinction may hereafter be drawn by a state court between the acts which may be committed by employees in furtherance of their interests and those which may be committed by nonemployee members of a labor union in the furtherance of its interests. Hence, members of any labor union, so long as they refrain from acts of violence, may not be enjoined from picketing the premises of any person against whom the union has a grievance or from conducting a boycott against his business, notwithstanding the consequences to him, his accord with his own employees, or his inability to grant the demands made upon him by the union.
>
> "Since the appellants are members of bona fide labor unions and, in attempting to compel the unionization of appellee's printing establishment, did not resort to acts of violence, it is wholly immaterial that by advertisements and personal interviews in which the facts were stated and consequences intimated, they induced many of appellee's patrons to withhold their patronage. Appellants were exercising rights guaranteed to them by the Constitution and construed by the Supreme Court and lesser courts are powerless to afford appellee any relief."

The last expression of the Supreme Court of California on the subject is the case of *McKay* vs *Retail Automobile Salesmen's Union*, 100 Cal Dec 344. The Supreme Court in that case reviewed nearly all of the previous decisions of that court, pointing out that workmen may associate together and exert various forms of economic pressure upon employers. It held (at page 352) as lawful the right to strike, to boycott, primarily and secondarily, and to picket, using the following language and references:

> "Concerning the means used, it must be taken as settled in this State, that workmen may associate together and exert various forms of economic pressure upon employers, provided they act peaceably and honestly. The conventional means of exerting this economic pressure which have been held lawful are the strike (*Pierce* v *Stablemen's Union*, (1909) 156 Cal 70, *Parkinson* v *Building Trades Council*, (1908) 154 Cal 581, *So Calif Iron & Steel Co* v *Amalgamated Assn.*, (1921) 186 Cal 604, *Lisse* v *Local Union*, (1935) 2 Cal (2d) 312, the boycott, both primary and secondary (*Parkinson* v *Building Trades Council*, supra; *Pierce* v. *Stablemen's Union*, supra, *So. Calif Iron & Steel Co* v *Amalgamated Assn*, supra), and the picket (*Lisse* v *Local Union*, supra, In re Lyons, 27 Cal App 182)."

The right to picket was held by the court in that case as one guaranteed by the Constitution as an incident of freedom of speech. In that connection the court said further (page 352):

> "It is true that the early cases in the state intimated that picketing in any form was illegal (*Rosenberg* v *Retail Worker's Assn.*, 39 Cal App 67 (1918), *Pierce* v *Stablemen's Union*, supra), and that *Moore* v *Cook's Union*, 39 Cal. App 538, held that peaceful picketing was per se unlawful. However, those conclusions were expressly renounced by this court in *Lisse* v *Local Union*, supra. Indeed, the modern trend of decision clearly indicates that the right to picket peacefully and truthfully is one of organized labor's lawful means of advertising its grievances to the public, and as such is guaranteed by the Constitution as an incident of freedom of speech. (*Carlson* v *California* 84 L Ed 668 (1940), *Thornhill* v *Alabama* 84 L Ed 659 (1940), In re Lyons, supra (1938), *People* v *Harris*, 91 Pac (2d) 989 (Colo 1939), 48 Yale L J 308, 312 (1938).) But the law clearly requires that concerted action by union workers be peaceful. Acts of violence or 'acts amounting to physical intimidation' will be enjoined. (*Goldberg etc Co* v *Stablemen's Union* 149 Cal 429 (1906); *So Calif Iron & Steel Co* v *Amalgamated Assn* supra; *Lisse* v *Local Union*, supra)."

In the case of In re Lyons, 27 Cal App (2d) 293, the first expression was made by our appellate court that the right to picket was a constitutional right that could be exercised not only by employees but by anyone else. In that case the right of citizens to picket the market because it would not close on Sundays was upheld. The court upheld this universal right of picketing in the following language:

> "We can not see how the right to peacefully picket, under the guaranty of free speech, could be confined to cases in which there exists a dispute between an employer and organized labor over hours or conditions of employment of nonunion men and not extended to a dispute between a business man and any citizen or group of citizens who may differ with him on a question of business policy. The guaranty of the right of free speech is general and extends to every class or group of citizens."

The right of boycott and picketing, being a constitutional right, can not be enjoined by any legislative enactment

It should be pointed out that this attempt to restrict this fundamental constitutional right is only limited to the activities of workers and labor organizations, or persons who would assist them. As such, it is class legislation. The bill makes it unlawful for an employee to refuse to handle goods because of a dispute between another employer and his employees, or a labor organization. That same employee would have the right to refuse to handle goods because it was produced by slave labor, child labor, or under any other circumstance which that person thought in the light of his reasoning and his conscience was wrong, and as such, to be discouraged.

The bill makes it unlawful for a person to bring economic pressure on an employer in an effort to induce such employer to refrain from doing business with, or handling the products of any other employer because of a dispute between the latter and his employees, but would permit any group of citizens to exercise the same economic coercion on that employer because he sells Japanese goods.

The proponents of the bill seem oblivious to the fact that there is a unity of interest among all workers. This fact was recognized by Justice Taft years ago in the case of *American Foundries* vs. *Tri-City Central Trades Council*, 257 U. S. Supreme Court Reports (at p. 209), in the following language:

> "Labor unions are recognized by the Clayton Act as legal when instituted for mutual help and lawfully carrying out their legitimate objects. They have long been thus recognized by the courts. They were organized out of the necessities of the situation. A single employee was helpless in dealing with an employer. He was dependent ordinarily on his daily wage for the maintenance of himself and family. If the employer refused to pay him the wages that he thought fair, he was nevertheless unable to leave the employ and to resist *arbitrary and unfair treatment*. Union was essential to give laborers opportunity to deal on equality with their employer. They united to exert influence upon him and to leave him in a body, in order, by this inconvenience, to induce him to make better terms with them. They were withholding their labor of economic value to make him pay what they thought it was worth. The right to combine for such a lawful purpose has, in many years not been denied by any court. The strike became a lawful economic struggle or competition between employer and employees as to the share or division between them of the joint product of labor and capital. To render this combination at all effective, employees must make their combination extend beyond one shop. It is helpful to have as many as may be in the same trade in the same community united, because, in the competition between employers, they are bound to be affected by the standard of wages of their trade in the neighborhood. Therefore, they may use all lawful propaganda to enlarge their membership, and especially among those whose labor at lower wages will injure their whole guild."

They overlooked the fact that the standard of wages and working conditions prevailing in one plant, or locality, may be seriously jeopardized by the payment of lower wages by another employer, and especially is this true if it is in the same industry. Workers receiving fair wages from employers who want to maintain the American standards of living are duty-bound to protect themselves and that employer from the unfair competition from other chiseling and cut-throat competitors, by means of boycott and picketing.

To hold otherwise and to compel a worker, or an employer from exercising his fundamental right to purchase or work on any material which they feel would seriously jeopardize the employer's business, and the standards of wages and working conditions established in his business, would be to compel such employer and his employees to destroy themselves.

However, the proponents of this bill do seem to realize the force of the foregoing objections as evidenced by its provision, inserted by way of amendment, that it is to remain in effect only during the defense emergency.

If constitutional guarantees are to be set aside for the safety of the Nation in war or in any of the conditions of National emergency, it is not for the Legislature of any one State to do so. That is the function of the Congress of the United States, in the exercise of its power to provide for the common defense, or of the President under powers delegated to him by Congress. Nor should any temporary suspension of constitutional rights be confined to workers in private industries, whether they be National defense industries or all other industries to which this bill would apply. No such action was taken even by the National Government in the first World War. It was not considered expedient to do so. President Wilson, in 1917, said:

> "The highest and best form of efficiency is the spontaneous cooperation of free people."

The leaders, legislative and executive, of this Nation in 1917, when it was engaged in the first World War, agreed that the rights of labor should be preserved

and protected, not only because of the dictates of human decency but because high efficiency in industrial production can be secured in no other way.

Exigencies for National safety in time of war may require the conscription of both capital and labor, but it is not for the Legislature of any one State to do so as to either, but that is not the motive behind this bill. It is, in its essence, the same measure as Proposition No. 1, placed by certain employing interests on the 1938 ballot of California's general election in November of that year, and which the people overwhelmingly defeated.

As to the needs for any constitutional legislation to protect defense industries and maintain peaceful industrial relations in our State, we now have ample laws against violence or disorderly conduct, laws for the protection of the rights of persons and property. They should be thoroughly and unrelentingly enforced, whether against members of labor unions or other groups.

I signed Senate Bill No. 180, known as the "Anti-Sabotage Bill" which provides that whoever intentionally and maliciously destroys, impairs, injures, interferes or tampers with real or personal property with reasonable grounds to believe that such act will hinder, delay or interfere with the preparation of the United States for defense or for war, shall be guilty of a felony. That bill provided, and it is now the law, that portions of public highways could be closed to public use if the property abutting thereon is used in the manufacture of products to be used in National defense, if the Highway Commissioner decided that the public safety, the safety of the property so required; and I believe that these provisions will go a long way toward preventing any picketing designed to impede the National defense. One must also remember that picketing in any case to be lawful must be peaceful, and that if the picketing is carried on with force or violence or in any way in an unlawful manner, it is the duty of the law enforcement officers and the courts under the present law to prevent such picketing from going beyond the lawful limits. Too often, the public mind is given the picture of lawful picketing as embracing the right to obstruct highways, to waylay workers, to barricade entrances to plants and like forcible and unlawful measures, but the fact of the matter is that such acts are at present unlawful and may be restrained and prevented under the present law.

Peaceful industrial relations are desired by all loyal and right thinking citizens. But this can not be accomplished by class legislation, such as this bill, which would deprive organized groups of workers of their fundamental economic and constitutional rights.

If this bill were to go on our Statute books, operations under it would, in my humble judgment, foment unprecedented industrial strife in our State, interrupting beyond any previous experience the normal course of industry and commerce. I fear that injunctions issued under it would be disrespected by organized workers affected as unconstitutional and discriminating, and dislocations in industrial relations would be greatly increased.

It would delay the complete realization of the fundamental rights of employees and the responsibilities which go with these rights. Our need is for better understanding between employers and employees of their rights and responsibilities, and closer cooperation for the betterment of both and for service to the public; mediation and conciliation services, instead of laws like this bill, which would only agitate and arouse bitterness and antagonism between labor and management.

I am thoroughly aware of the urgency which faces California labor, industry and agriculture in fulfilling their commitments and their patriotic duties in the National Defense Program.

Lockouts and strikes, particularly in the defense industries, seriously conflict with the National purpose to rapidly and adequately turn out defense armaments. The security of the nation can not and should not be jeopardized by the exercise of these economic weapons, and the citizens of California can not be expected at this juncture in the Nation's affairs, to look with favor upon stoppages in defense preparedness work over disputes between labor and management.

The President has called for National unity. He has asked labor and management in defense industries to accept the recommendations of the National Board of Conciliation in the settlement of their differences and to keep all work going. It is my conviction that California management and labor will respond patriotically to that duty, and I shall continue my efforts to make that response complete throughout the State.

Respectfully submitted

CULBERT L. OLSON, Governor of California

The following communication was received and read, and on motion of Mr. Johnson, ordered printed in the Journal:

Logan's Memorial Day Order

General Order No. 11—Headquarters Grand Army of the Republic, Washington, D. C., May 5, 1868

I The thirtieth day of May, 1868, is designed for the purpose of strewing with flowers or otherwise decorating the graves of Comrades who died in defense of their Country during the late rebellion, and those bodies now lie in almost every city, village, and hamlet churchyard in the land. In this observance no form or ceremony is prescribed, but Posts and Comrades will in their own way arrange such fitting services and testimonials of respect as circumstances may permit.

We are organized, Comrades, as our regulations tell us, for the purpose among other things, "of preserving and strengthening those kind fraternal feelings which have bound together the Soldiers, Sailors, and Marines, who united to suppress the late rebellion." What can aid more to assure this result than by cherishing tenderly the memory of our heroic dead, who made their breasts a barricade between our Country and its foes? Their soldier lives were the reveille of freedom to a race in chains and their deaths a tattoo of rebellious tyranny in arms. We should guard their graves with sacred vigilance. All that the consecrated wealth and taste of the Nation can add to their adornment and security is but a fitting tribute to the memory of her slain defenders. Let no wanton foot tread rudely on such hallowed ground. Let pleasant paths invite the coming and going of reverent visitors and fond mourners. Let no vandalism of avarice or neglect, no ravages of time, testify to the present or to the coming generation that we have forgotten as a people the cost of a tree and undivided republic.

If other eyes grow dull and other hands slack, and other hearts cold in the solemn trust, ours shall keep it well as long as the light and warmth of life remains to us.

Let us, then, at the time appointed, gather around their sacred remains and garland the passionless mounds above them with the choicest flowers of springtime; let us raise above them the Dear Old Flag they saved from dishonor; let us in this solemn presence renew our pledges to aid and assist those whom they have left among us a sacred charge upon the Nation's gratitude—the Soldier's, Sailor's, widow and orphan.

II It is the purpose of the Commander in Chief to inaugurate this observance with the hope that it will be kept up from year to year, while a survivor of the war remains to honor the memory of his departed Comrades. He earnestly desires the public press to call attention to this order, and lend its friendly aid in bringing it to the notice of Comrades in all parts of the Country in time for the simultaneous compliance therewith.

III. Department Commanders will use every effort to make this order effective.

By Command of

JOHN A. LOGAN, Commander in Chief

N. P. CHIPMAN, Adjutant General

COMMUNICATIONS

The following communication was received, and on motion of Mr. Dilworth, ordered printed in the Journal:

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 29, 1941

Honorable Arthur W. Carlson, Assembly Chamber
State Capitol, Sacramento, California

SUBJECT: A. B. No. 1581, as amended May 24, 1941
REQUEST. No. 3851

DEAR MR. CARLSON: This is in response to your inquiry concerning the effect of Assembly Bill No. 1581, as amended May 24, 1941, with particular emphasis on the effect it might have on the filing of income tax returns.

The bill gives a wife the management, control and disposition of (1) money earned by her and (2) money damages received by her for personal injuries suffered by her, while the money is kept on deposit in her name and until it is converted by her into other property or commingled with other community property.

The bill further provides that during the time such money is under the wife's management, control and disposition, she can not give it away or dispose of it without a valuable consideration, except with the written consent of her husband.

The bill does nothing more than vest in the wife a control over a particular kind of community property which at the present time is vested in the husband. It does not change the community character of the property.

We fail to find anything in the bill which might in any wise affect the filing of joint or separate income tax returns.

In this latter connection, it might be noted that money received by way of damages for personal injuries is exempt from taxation under both the Federal and the State income tax laws (Internal Revenue Code, Sec. 22 (b) (5); Personal Income Tax Act, Sec. 7 (b) (4)).

Very truly yours,

FRED B. WOOD, Legislative Counsel
By J. GOULD, Assistant Counsel

Copy to Assemblyman Dilworth, pursuant to Joint Rule No. 37.

COMMUNICATIONS

The following communications were received, and ordered printed in the Journal:

DEPARTMENT OF COMMERCE, CIVIL AERONAUTICS ADMINISTRATION
WASHINGTON, May 23, 1941

Mr. Arthur A. Ohnimus, Chief Clerk, Assembly Chamber
State Capitol, Sacramento, California

MY DEAR MR OHNIMUS: This office is in receipt of two copies of Assembly Joint Resolution No. 50 of the California Legislature, adopted May 6, 1941, which urges that Federal funds be allocated for the development of the Corcoran Airport. One of these copies has been referred to me by the President while the other is that inclosed with your letter to me of May 14th.

The Civil Aeronautics Administration is glad to learn of this further evidence of California's appreciation of the importance of airport development and desire to cooperate with the Federal Government in fostering the welfare of civil aeronautics. However, I feel it should be pointed out that there is very little likelihood that the Civil Aeronautics Administration will be able to assist in the development of the Corcoran Airport.

For one thing, the pending Congressional Appropriation Bill, H. R. 4276, mentioned in your Resolution, which would provide additional funds to this agency for the development of civil airports necessary for National defense, contains language similar to that of the appropriation under which our current Airport Program is being conducted (Public No. 812, Seventy-sixth Congress), which is construed to limit the program to the development of only such airports as are publicly owned. This means that the Corcoran Airport being privately owned, would have to be acquired by the State a political subdivision, or some other public agency in order to be eligible for improvement as a CAA project. But, even then, it would have to be approved by the Secretaries of War, Navy, and Commerce as necessary for National defense, which seems unlikely at this time in view of the extremely small number of projects that may be included in the program. The only other possibility of CAA aid is that the airport might be developed, under lease to the Government, as a CAA intermediate landing field, and this possibility, I am sorry to say, is even more remote, our system of intermediate fields being considered well established.

It will be appreciated if you will convey the above information to the President of the Senate and Speaker of the Assembly, stating that I regret my inability to be more encouraging as to the possibility of CAA assistance in carrying out the objectives of Assembly Joint Resolution No. 50 of the California Legislature.

Sincerely,

DONALD H. CONNOLLY
Administrator of Civil Aeronautics

FEDERAL WORKS AGENCY, WORK PROJECTS ADMINISTRATION
WASHINGTON, D. C., May 26, 1941

Mr. Arthur A. Ohnimus, Chief Clerk
California Legislature Assembly, Sacramento, California

MY DEAR MR. OHNIMUS: The White House has referred to this Administration for attention your letter of May 12, 1941 addressed to the President, enclosing a copy of a joint resolution adopted by the California Legislature in which the President and the Congress are requested to enact legislation which will modify the requirements of Section 15 (b) of the Emergency Relief Appropriation Act for the fiscal year 1941.

Section 15 (b) provides that there shall be removed from employment on projects all relief workers except veterans, unmarried widows of veterans, and wives of unemployable veterans, who have had more than eighteen months continuous employment.

For your information this Administration, as well as the President, has recommended to the Congress that this provision of the act be deleted.

Very truly yours,

ERNEST L. MARBURY, Assistant Director
Division of Employment

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 30, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Assembly Bill No. 431 entitled "An act to amend Section 73b of, and to add Sections 73c, 73d, 73e, 73f and 73g to, the Code of Civil Procedure, relating to sessions of the superior court held in cities other than the county seat and the transfer of actions or proceedings to the same."

My objections to this bill are as follows:

The bill provides for sessions of the superior court in cities of over 50,000 population where the city hall is not less than six miles distant from the site of the courthouse. I am advised that this general provision is designed to permit a session of the court to be held in the City of Glendale.

I would not disapprove a bill which simply narrowed the existing distance from eight miles (Sections 73 and 142) to six miles so that the superior court sessions could be held in Glendale.

My objection to this bill is based upon its further provisions (Sections 73d, 73e, and 73f) which would freeze in the outlying sessions all of the types of litigation enumerated in Section 73d. These provisions for transfer of such actions to such sessions are mandatory.

Section 73d sets out a long list of actions and proceedings which shall be transferred if any party to the action or proceeding files an affidavit showing the case to be one of those specified.

Section 73e authorizes a plaintiff to file with the complaint a "verified certificate of assignment and transfer" showing the case to be one transferable under Section 73d. Thereupon the case is "automatically" transferred to the outlying session, and under Section 73f all further proceedings are to be had therein.

Section 73g leaves only a limited discretion to the court to transfer cases from an outlying session back to the county seat. Such transfers back are permitted for only the four reasons set forth in said section.

Among the causes specified by Section 73d to be so transferable are "criminal actions where the preliminary examination was held or an offense charged was committed within the area served by such session." The trial of a criminal action in the immediate area where the offense was committed does not tend toward an impartial trial. Furthermore, this provision would impose additional expense upon the county in that it would be necessary to transport persons back and forth from the county jail, or to make arrangements for their incarceration in the localities where their trials would have to be held, increased travel expense would be incurred by the district attorneys' and public defenders' offices, or it would be necessary to set up branches of those offices in such different localities to take care of the criminal actions which would have to be tried there.

I am reliably informed that at the present time criminal actions are not normally tried in the Santa Monica or Pomona departments. Since these provisions of this bill would apply to all outlying sessions in Los Angeles County, and in any other county in the State, the present practice would have to be changed.

While doubt has been expressed to me as to the constitutionality of these provisions governing distribution of the court's business among its departments, I am not clearly convinced that they are in violation of the fundamental law. I direct

your attention, however, to Section 7 of Article VI of the Constitution of California, which provides

> "The judges of each Superior Court in which there are more than two judges sitting, shall choose, from their own number, a presiding judge, who may be removed as such at their pleasure. Subject to the regulations of the Judicial Council, he shall distribute the business of the court among the judges, and prescribe the order of business."

Under this section of the Constitution the Judicial Council may make rules controlling the distribution of the business of the court. Such rules of the Judicial Council, like the rules of the court itself, may readily be amended to meet changing conditions. In my opinion this flexibility is desirable and should be preserved.

The rules of the Los Angeles Superior Court have provided that certain types of litigation "may" be transferred to sessions held elsewhere than at the county seat, but this bill provides that they "shall" be transferred.

I think that discretion should be left to the court to assign cases, taking into consideration the convenience of all of the litigants, the amount of litigation pending before the different sessions, the cost to the county, the availability of courtrooms, and all other factors bearing on the orderly administration of the court.

I am advised that under this bill it would be necessary in Los Angeles County to assign additional judges to some, and to perhaps all, of the outlying sessions, and to provide additional courtrooms and equipment.

Another objection is that this bill, by giving litigants a statutory right to a trial in a particular locality, would create legal questions as to venue between courts in the same county. It would therefore be productive of litigation which could not arise if such matters are left to the rules of the court and of the Judicial Council.

As I have stated, I would not disapprove a bill, in the form of those which have been enacted in the past for other localities, which would permit a superior court session in Glendale. By reason, however, of the unfortunate departure which has been made in this bill from legislative precedents in such cases, I am convinced that it would seriously interfere with the procedure of the courts, and therefore should not become law.

Respectfully submitted,

CULBERT L. OLSON, Governor of California.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 30, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith without my signature, Assembly Bill No. 379, entitled "An act to amend Sections 226 and 227a of the Civil Code, relating to adoption."

My objections to this bill are as follows:

This bill amends Section 226 of the Civil Code, relating to adoptions. Section 226 now provides that if the State Department of Social Welfare fails to submit its report to the court on the proposed adoption within one hundred eighty (180) days, the consent for adoption provided to be signed in the presence of an agent of the State Department of Social Welfare may be allowed by court to be signed in open court. The amendment changes from one hundred eighty (180) days to ninety (90) days the period within which the Department of Social Welfare shall submit to the court a full report on the proposed adoption, and makes provision that additional time therefor may be granted by the court in its discretion.

The experience of the Department of Social Welfare has shown that an adequate investigation which will protect both the child and the adoptive parents can be completed in only a few cases within a ninety (90) day period. The investigations of this department are very thorough and searching and go into a very large number of facts and circumstances concerning the child and its parents and the persons desiring to adopt the child, including the questions of hereditary diseases, mental and physical condition, finances, and many other factors which must be considered. In many cases the consent of out-of-State parents must be secured, and these are often difficult to reach. While the ninety (90) days allowed by this bill may seem sufficient to those unaccustomed to the difficulties of an investigation necessary for the submission by the Department of Social Welfare of the report required in adoption proceedings, I am assured that in most cases under this bill the department would be required to petition the court for additional time, which would greatly burden the courts and this department. Furthermore, an investigation might be seriously impeded by requirements that facts be stated by the department, showing the necessity for the additional time which would disclose the scope of the investigation and impede its continuance. There is a distinct possibility that a court, overburdened by constant applications for extensions of time, made necessary by this bill, might in some instances erroneously fail to grant additional time and that as a result, the full facts involved would not be presented to the court. The Department of Social

Welfare in the past, in several instances, has been forced to conclude its investigations because of limitations of time, and the consequences have been injurious to the parties concerned

While a quick and speedy procedure may be desired in adoption cases, as in all court proceedings, it must be remembered that each adoption proceeding involves the future life of a child as well as that of the natural and adoptive parents, and I do not believe that we should sacrifice thoroughness of investigation for ease or speed of procedure

Respectfully submitted.

CULBERT L. OLSON, Governor of California

If the board of directors finds the facts alleged in the petition to be true it shall order that a general election be held, as provided in this act, at which election a director for each division and all other elective officers shall be elected. MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 2, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Assembly Bill No 2633, entitled: "An act making an appropriation for the contingent expenses of the Assembly and declaring that this act shall take effect immediately."

My objections to this bill are as follows:

This bill appropriates $60,000 "for contingent expenses of the Assembly to be expended for such purposes and in such manner as the Assembly shall by resolution direct, including expenses of committees, whether to meet and act during the session or after final adjournment"

There has already been appropriated for Assembly contingent expenses for this session of the Legislature the sum of $70,000, of which there is unexpended the sum of $37,001.73, as of May 29th, according to the records of the State Controller. The $60,000 appropriated by this bill, together with the amounts already appropriated, would total $130,000, which far exceeds any amounts ever appropriated at previous sessions of the Legislature for similar purposes.

The appropriations for the last regular session totaled $40,000, and the appropriations made for the expenses of the five special sessions of the Legislature, covering unprecedented amounts for numerous special investigating committees, totaled $64,618.80.

In my message regarding Assembly Bill No. 638 I stated:

> "This additional amount of $25,000 which I have approved together with the amount remaining from previous appropriations, I know is ample to cover all necessary expenditures from the Assembly Contingent Fund. It is inconceivable that the normal contingent expenses that could be incurred by the Assembly during the remainder of this regular session could possibly exceed the sum of $25,000 more than the amount now in the fund, even though the session were to last another 60 days. If at a later date a still further appropriation to this fund should become necessary, I will willingly approve the same."

The thirty-seven odd thousand dollars still remaining for Assembly contingent expenses is ample to cover any expenditures that should be made by this Legislature for such purposes.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 2, 1941

To the Senate and Members of the Assembly
Sacramento, California

GREETINGS: I consider it my duty to again call your attention to the need for immediate revision of the Horse Racing Act increasing the State's portion of the total "take" from contributions to the pari-mutuel betting pools when they are in excess of ten million dollars ($10,000,000). In view of the extraordinary profits of the large track licensees under the present law, and in view of the position taken by the present Racing Board and sustained by an opinion of the Attorney General that the race tracks have not heretofore complied with the statute in calculating the "breakage" retained by them on redistributions, there should be enacted at this session amendments of the provisions of the law with reference to license fees and redistributions so as to return to the State a greater portion of the total amount taken from the pools of the pari-mutuel betting, and at the same time provide for the retention by the licensees of a sufficient part thereof to meet their operating requirements and provide for a reasonable return. This may be done without

increasing the total "take" from the contributions to the betting pools, with the resulting additional return to the State of a million and one-half dollars or more per annum

Bills are pending which may be used to effect such legislation

You have passed Senate Bill No. 386 which would permit race track licensees to continue to deduct as a part of their commissions from the gross amount of money handled in the pari-mutuel pools, in addition to eight per cent (8%) thereof, the odd cents by which the amount payable on *each dollar* wagered exceeds the next lowest multiple of ten cents (10c); this act to be effective only until December 25, 1941, but not subsequent thereto. If no other legislation is enacted at this session making revisions of the Race Track Act as above suggested, the State will be deprived of revenues available from this source of one and one-half million dollars or more per year, and from and after December 25, 1941, redistributions must be made with odd cents taken only on the mutual contributions instead of on each dollar wagered, which has heretofore been the illegal practice and with which the State and county fairs and the smaller tracks are vitally concerned. Senate Bill No. 386 may not be regarded as an urgency measure within the meaning of Section 1 of Article IV of the Constitution of the State of California which is invoked, even though it was passed as an urgency measure and states that "It is necessary that this act take effect immediately in order that injury may be averted while the permanent solution is being worked out."

There will be no call of a special session of the Legislature for working out a permanent solution. Therefore, a permanent solution should be worked out and legislation to that end enacted before the adjournment of this regular session.

My recommendations are that the act be revised to provide that the commission deducted by a licensee on any amount not exceeding $10,000,000 of the total amount of the pari-mutuel pool shall not exceed 8 per cent and the odd cents by which the amount payable on each dollar wagered exceeds the next lowest multiple of 10 cents; that the commission deducted by a licensee on any amount in excess of $10,000,000, but not in excess of $20,000,000, handled in a pari-mutuel pool shall not exceed 6 per cent and one-half of the odd cents by which the amount payable on each dollar wagered exceeds the next lowest multiple of 10 cents; that the commission deducted by a licensee on any amount of a pari-mutuel pool exceeding $20,000,000 shall not exceed 5 per cent and one-half of the odd cents by which the amount payable on each dollar wagered exceeds the next lowest multiple of 10 cents, and that the license fee deducted by the State on any amount of a pari-mutuel pool of not exceeding $10,000,000 shall be 4 per cent thereof; that the license fee deducted by the State on any amount of a pari-mutuel pool in excess of $10,000,000, but not in excess of $20,000,000, shall be 6 per cent and one-half of the odd cents by which the amount payable on each dollar wagered exceeds the next lowest multiple of 10 cents; and that the license fee deducted by the State on any amount of a pari-mutuel pool in excess of $20,000,000 shall be 7 per cent and one-half of the odd cents by which the amount payable on each dollar wagered exceeds the next lowest multiple of 10 cents.

I further recommend that all additional revenue to the State derived from such amendments be for the General Fund.

I also respectfully urge that you consider and act favorably upon other recommendations made by the Horse Racing Board, including provisions for proper rewards to California breeders of winning race horses and for increasing the amount annually appropriated to the board in order to defray the expenses of the officers and employees provided for in the act.

Respectfully submitted.

GUILBERT L. OLSON, Governor of California

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 3, 1941

To the Honorable Members of the Assembly
State Capitol, Sacramento, California

GREETINGS. Pursuant to the provisions of Section 312 of the Political Code of California, you are hereby notified that on the second day of June, 1941, at 11.40

p.m., Assembly Bill No. 2633 was returned without my signature and, together with a statement of my objections thereto, was delivered to Honorable Harold F. Sawallisch, Member of the Assembly.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 2, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS I am returning herewith, without my signature, Assembly Bill No. 1497 entitled "An act to amend Section 2380 of the Business and Professions Code, relating to unprofessional conduct within the chapter on medicine."

My objections to this bill are as follows.

The bill amends Section 2380 of the Business and Professions Code, which now provides that all advertising of medical business, which is intended, or has a tendency, to deceive the public, or to impose upon credulous or ignorant persons, and so be harmful or injurious to the public morals or safety, constitutes unprofessional conduct. Other provisions of the said code make unprofessional conduct a cause for suspension or loss of license.

This bill adds, as unprofessional conduct, the actual practicing of any system or mode of treating the sick or afflicted which is intended, *or has a tendency*, to deceive the public, or to impose upon credulous or ignorant persons.

There can be no objection to legislation prohibiting a mode or system of treating the sick which is intended to deceive or impose upon the public, for any such provision involves the element of intent. My objection to the bill arises out of the language, "which has a tendency."

I think that the question of advertising and the question of practicing a system or mode of treating the sick are different things. A physician does not have to advertise if he does not want to, but, of necessity, he must adopt some system or mode of treating the sick or afflicted. The question of whether a given mode or system of treating the sick has a tendency to impose upon ignorant and credulous persons, or to deceive the public, is one upon which opinions can readily differ.

This is a near criminal statute, since the penalty for violation is the loss of the license to practice medicine. To deprive a licensee of his right to follow his profession is a heavy penalty. The standard of professional conduct should be more objectively stated by the Legislature than is done in this bill, so that those to whom the law applies can clearly understand the character of their professional obligations.

The bill could be construed to subject to this penalty any physician or surgeon who brought forth a new or unusual method of treatment It would, therefore, tend to retard and discourage the research and experimentation which have contributed so notably to the practice of medicine.

If the Legislature has in mind any particular mode or system of treating the sick or afflicted which are considered injurious or deceitful, it would be better to specifically prohibit such practices, rather than to provide so loose and uncertain a standard as that specified in this measure.

Respectfully submitted

CULBERT L. OLSON, Governor of California

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 4, 1941

To the Honorable Members of the Assembly
State of California, Sacramento, California

GREETINGS: Pursuant to the provisions of Section 312 of the Political Code of California, you are hereby notified that on the third day of June, 1941, at 11 25 p.m., Assembly Bill No. 1452 was returned without my signature and, together with a statement of my objections thereto, was delivered to Honorable Arthur A. Ohnimus, Chief Clerk of the Assembly.

Respectfully submitted

CULBERT L OLSON, Governor of California

STATE OF CALIFORNIA GOVERNOR'S OFFICE
SACRAMENTO, June 3, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS I am returning herewith, without my signature, Assembly Bill No 1452, entitled, "An act to amend Section 2554 of the Business and Professions Code, relating to registered dispensing opticians"

My objections to this bill are as follows

This bill increases the annual renewal fee of registered dispensing opticians from $25 to $50, and provides that application for renewal need not contain the information required by original applications for registration, but shall contain only such information as the board may prescribe

The bill also provides that from the fees paid by registered dispensing opticians there shall be paid to the secretary of the Board of Medical Examiners, in addition to other salaries allowed by law, $40 monthly for services incident to the administration of the provisions of the chapter relating to registered dispensing opticians

I have no objection to the provisions increasing the fees of registered dispensing opticians nor to those provisions concerning the applications for renewal of their licenses, but there is in my opinion no justification for legislation concerning the salary of the secretary of the Board of Medical Examiners Such secretary is a civil service employee Under Section 70 of the State Civil Service Act, the State Personnel Board is empowered to establish and adjust salary ranges for each class of position in the State civil service Such act also provides

> "The salary ranges shall be based on the principle that like salaries shall be paid for comparable duties and responsibilities In establishing or changing such ranges consideration shall be given to the prevailing rates for comparable service in other public employment and in private business, improvement of living standards, the current costs of living, and the State's financial condition Reasonable opportunity to be heard shall be provided by the board to any employee affected by a change in the salary range for the class of his position"

Under such provisions, if it should appear that the secretary of the Board of Medical Examiners or any other State civil service employee has been given additional services so that the salary range fixed for his classification is not adequate for the duties and responsibilities of the position, the salary range may be increased In my opinion it would be setting a very bad precedent for the Legislature to attempt to add to or deduct from the salary of any State civil service employee, thus setting aside the function of a Constitutional Board, which has the facilities and personnel for determining salary ranges

Respectfully submitted

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 3, 1941

To the Honorable Members of the Assembly
State of California, Sacramento, California

GREETINGS. Pursuant to the provisions of Section 312 of the Political Code of California, you are hereby notified that on the third day of June, 1941, at 11 25 p.m., Assembly Bill No 432 was returned without my signature and, together with a statement of my objections thereto, was delivered to Honorable Arthur A. Ohnimus, Chief Clerk of the Assembly.

Respectfully submitted

CULBERT L. OLSON, Governor

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 3, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Assembly Bill No. 432 entitled: "An act to add Section 73h to the Code of Civil Procedure, relating to designation of assistants to the presiding judge and the furnishing of secretarial and stenographic services to such assistants."

My objections to this bill are as follows.

This bill adds Section 73h to the Code of Civil Procedure, requiring the presiding judge to designate an assistant presiding judge for each session of the superior court held elsewhere than at the county seat It is provided that such assistant presiding judge must be a judge "permanently assigned" to such additional session; that he shall have all the powers and duties of the presiding judge in respect to litigation pending before such session, that such assistant presiding judge is authorized to employ persons to perform such secretarial and stenographic services as are necessary to assist the court with respect to the business of the session.

Section 7 of Article VI of the Constitution of California provides as follows:

> "The judges of each superior court in which there are more than two judges sitting, shall choose, from their own number, a presiding judge, who may be removed as such at their pleasure. Subject to the regulations of the Judicial Council, he shall distribute the business of the court among the judges, and prescribe the order of business"

There is doubt as to the constitutionality of this measure in that it can be claimed that the provision conferring powers to employ assistants, to distribute the business of the session, etc, is in conflict with the powers given by the Constitution to the presiding judge.

Irrespective of the constitutional question, the bill is subject to criticism in that no provision is made for the removal of such assistant presiding judges, and no provision is made for such assistant presiding judge to act subject to the orders and directions of the presiding judge. The requirement that the assistant presiding judge, to be appointed, be a judge "who is permanently assigned to such additional session," creates confusion in the law, inasmuch as there is now no provision for "permanent" assignment of judges to particular departments or sessions.

Under the constitutional provision above quoted, the presiding judge is chosen by the majority of the judges of the court His actions, therefore, should reflect the opinion of the majority of the court as to the best methods of handling the business of the court Any such bill as this, providing for assistant presiding judges to preside over the outlying sessions, should be carefully drawn, to the end that the full control of the business of the court, both at the county seat and in the sessions held elsewhere, be left in the hands of the presiding judge, as is plainly intended by the Constitution.

This bill appears to me to be subject to the same objection which I heretofore stated in returning, without my signature, Assembly Bill No 431, namely, that it would interfere with the orderly administration of the business of the superior court, by unnecessarily creating questions of law respecting the powers and duties of the judges thereof.

I think the bill accomplishes nothing which can not at the present time be done in counties, where it may be necessary, by rule of the superior court, or of the Judicial Council.

Respectfully submitted.

To the Honorable Members of the Assembly

GREETINGS: Pursuant to the provisions of Section 312 of the Political Code of California, you are hereby notified that on the third day of June, 1941, at 11.25 p.m., Assembly Bill No. 1683 was returned without my signature and, together with a statement of my objections thereto, was delivered to Honorable Arthur A. Ohnimus, Chief Clerk of the Assembly.

Respectfully submitted

CULBERT L. OLSON, Governor

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 3, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Assembly Bill No. 1683 entitled: "An act to add Sections 3066, 3066a, 3066b, 3066c, 3066d and 3066e to the Civil Code, to provide for liens in favor of private hospitals in this State upon all causes of action for damages accruing to an injured person therein or to the legal representatives of such person for the reasonable charges for hospital care, treatment and maintenance necessitated by the injuries giving rise to such causes of action."

My objections to this bill are as follows:

The bill provides for a lien in favor of private hospitals for hospital care, treatment and maintenance for injuries on any recovery by the injured person, or his legal representative, based upon such injuries.

I am in sympathy with the general purpose of this measure, as obviously it is wrong for a patient to secure a recovery based, in part, upon the hospital bill, and then fail to compensate the hospital; however, this bill is objectionable by reason of certain defects and by reason of failure to recognize the equities of other persons having equal claim to a lien with a private hospital.

The major defect in the bill is that it creates a lien for a hospital bill against any recovery in a wrongful death case. Under Sections 376 and 377 of the Code of Civil Procedure, a parent in the case of a minor child, and an heir, or personal representative, in the case of an adult, may bring an action for wrongful death. Damages in such actions are always limited to the heirs' own pecuniary loss.

Bond vs. *United Railroads*, 159 Cal. 270

In such wrongful death actions, recovery can not be had for hospital bills, or medical bills.

Salmon vs. *Rathjens*, 152 Cal. 290, 301;
Nitta vs. *Haslam*, 138 Cal. App. 736.

The argument made on behalf of this measure, that recovery will be based upon the hospital bill, is, therefore, based on an erroneous assumption of law. It seems to me improper for this bill to create a lien against the recovery by the heirs for their own personal pecuniary loss by reason of the death. The hospital bill was not their liability, and they can not hold the third party for it.

I think it is no answer to this criticism to say that the payment of the hospital bill will prevent a claim being filed against the decedent's estate, and that the heirs will, therefore, come out just as well. If there is any estate, the hospital bill for the last illness is a preferred claim (Probate Code 950), and entitled to early payment (Probate Code 951). If there be no estate, then there is all the more reason why the heirs should receive the damages for their own loss through having lost the support of the decedent, without diminution to meet a bill which was not their liability.

Until the rule prohibiting recovery on a hospital bill in a wrongful death case is changed, I think that no such lien on the recovery therein should be allowed.

The second objection which I have to the bill is that it provides such lien for private hospitals only, and overlooks the equities of others having at least an equal claim to a similar right.

No good reason appears why the physician or surgeon rendering aid to such an injured person should not be accorded the same privileges, under the law, as the hospital. By the same token, public hospitals should have the same right to file a lien as may be given to private hospitals.

Finally, the rights of the attorney, through whose efforts the recovery is made, deserve careful consideration California, unlike most other jurisdictions, recognizes no attorney's lien. Even after the attorney has secured a judgment, the client can enter satisfaction, and the attorney must then look only to the personal responsibility of his client (3 Cal Jur. 682). Since such recovery, under such a bill, would be without expense to any person given a lien, other than the attorney, my recommendation would be that the attorney's lien should have priority over any lien given to hospitals, and any lien given to doctors.

While my failure to approve this bill is not based on that ground, I wish to call to your attention certain defects in the provisions relative to notice of lien

Section 3066a, as added by this bill, provides that the lien is obtained by filing in the county recorder's office *in the county in which the hospital is situated.* This should be *the county in which the accident occurred,* for the reason that the third party who is made liable for the lien of the hospital knows where the accident occurred; he does not necessarily know to what hospital, in what county, the injured person was removed for treatment. If, as often happens, emergency treatment is given in one hospital and, thereafter, the injured person is removed to another hospital for further treatment, the filing in the county where the hospital is situated would not necessarily give notice to a third party.

While the bill does provide for mailing by the hospital of a copy of the notice to the person believed to be liable, there is no requirement that such person actually receive the notice. In this connection, the lien dates from the date of filing in the county recorder's office, and of mailing, so that the third party would be liable to the hospital if he paid the injured person while the notice was in transit through the mails.

For the reasons above stated, I am returning the bill without my signature. In doing so, I wish to make it clear that I would be pleased to consider a bill, properly drawn, to accomplish the general purpose of this bill, and meeting the objections here stated.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Senate Bill No. 195:

Explanation of Vote

My reasons for voting against Senate Bill No. 195 are, First, insufficiency in amount, second, because the Assembly refused to correct the record whereby my amendment providing $1,700,000 was defeated. Assemblyman Bashore's vote was erroneously recorded as "No" when in fact he voted "Aye." Proper recording would have adopted the amendment.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 2, 1941

To the Honorable Members of the Senate
State Capitol, Sacramento, California

GREETINGS: I have this day delivered to the Secretary of State Senate Bill No 1338. I objected to the appropriation made by such bill, and reduced the amount of such appropriation by appending to the bill, at the time of signing it, a statement of the items to which I objected and the reasons therefor.

In accordance with the provisions of Section 16 of Article IV of the Constitution, I am transmitting herewith a copy of such statement.

Respectfully submitted

CULBERT L OLSON, Governor of California

I object to the appropriation of $62,500, and hereby reduce the sum to $10,000. With this reduction I approve the bill.

My reasons for reducing the amount of said appropriation are as follows:

There has previously been appropriated for the contingent expenses of the Senate for this session of the Legislature the sum of $45,000, of which amount there is an unexpended balance of $19,395 63, as of May 29th, according to the records in the office of the State Controller. The appropriation of $62,500 made by this bill, together with the previous appropriation, total $107,500, which sum far exceeds any amount previously appropriated for similar purposes at prior sessions of the Legislature, even exceeding the total of the appropriations covering the last regular session and the five special sessions of the Legislature, which created a large number of Special Investigating Committees.

In my statement on May 3d concerning Senate Bill No. 1292 I said:

> This additional amount of $25,000 which I have approved I know is ample to cover all necessary expenditures from the Senate Contingent Fund. It is inconceivable that the normal contingent expenses that could be incurred by the Senate during the remainder of this regular session could possibly exceed the sum of $10,000, even though the session were to last another 60 days. If at a later date a still further appropriation to this fund should become necessary, I will willingly approve the same.

The nineteen odd thousand dollars still remaining for Senate contingent expenses, together with the $10,000 made available by this bill, is ample to cover any expenditures that should be made by this Legislature for such purposes.

CULBERT L. OLSON, Governor of California

Dated June 2, 1941.

Above bill ordered to unfinished business.

SENATE CHAMBER, SACRAMENTO, June 4, 1941

MR. SPEAKER: I am directed to inform your honorable body that the Senate on this day passed:

PROCEEDINGS UNDER CALL OF THE ASSEMBLY BY UNANIMOUS CONSENT

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 4, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Assembly Bill No. 192, entitled: "An act to amend Section 790 of the Fish and Game Code, relating to crab meat."

My objections to this bill are as follows:

This bill amends Section 790 of the Fish and Game Code, which now prohibits pickling, canning or otherwise preserving crab, with a proviso that fresh crab meat may be preserved by means of refrigeration under regulations of the Fish and Game Commission in not less than five pound net weight containers. This bill reduces the weight of such containers for preservation of fresh crab meat by refrigeration to not less than one pound net weight containers.

I have today signed Assembly Bill No. 1574 which amends Section 790 to delete both the prohibition against pickling, canning or preserving crab contained therein and the exception thereto which is amended by this bill.

I am advised that the purpose sought to be accomplished by Assembly Bill No. 192 is to permit preservation of fresh crab meat in one pound tins for the development of family trade since a family will not buy five pound tins. Assembly Bill No. 1574 will, of course, permit such purpose to be accomplished.

Both those engaged in the crab fishery and the Division of Fish and Game have reported to me that the supply of crabs is plentiful and that Assembly Bill No. 1574 will not result in depletion since adequate protection will still be furnished by the provisions of the code limiting season, size and prohibiting the taking of females.

Since it is to the interest of the State that our fishery resources be utilized to the fullest extent possible without injury to the future of the supply, I have signed Assembly Bill No. 1574. Since both bills can not become law, I return Assembly Bill No. 192 without my signature.

Respectfully submitted.

WHEREAS, The present compensation for California's Legislators is so insufficient that most of them serve at material financial loss; now, therefore, be it

Resolved, That the Affiliate Teacher Organizations of Los Angeles does hereby indorse Assembly Constitutional Amendment No. 2, which provides for compensation of State Legislators at a rate of $200 per month, and pledge ourselves to support the proposed amendment when and if it is placed on the ballot

House Resolution No. 195

WHEREAS, Hundreds of changes in the organization and administration of the State Government are proposed at each session of the Legislature. The complicated machinery of State Government erected to serve the citizens of this State, can function only under law. New circumstances constantly arise which previous statutes did not contemplate. It is necessary for the Legislature to study these circumstances carefully, with a view to revising and amending the law relating thereto, in order that the most efficient, economical and equitable administration of the laws may be fostered.

During the interim between sessions it is desirable to ascertain and collate the facts upon which legislation may be based. The Legislature can best function as a fact-finding agency through Legislative Committees, therefore, be it

Resolved by the Assembly of the State of California, That there is hereby created an Assembly Committee on Governmental Efficiency and Economy, which committee shall study and investigate, accurately and in detail, the organization, functions, and administration of the State Government and of any department, agency, or subdivision thereof and of the governments of the cities and counties of this State, for the purpose of recommending changes and proposing legislation in order to promote efficiency, to reduce and eliminate costs, to provide for the consolidation of functions and removal of duplication, and to do all other things necessary and

proper to increase the efficiency and effectiveness of the State and local governments and the agencies and subdivisions thereof.

The committee shall consist of 15 members of the Assembly appointed by the Speaker of the Assembly, and the Speaker as an ex officio member. Vacancies on the committee shall be filled by appointment by the Speaker.

Upon the appointment of its members the committee may organize, appoint a secretary and employ such clerical and technical assistants and adopt such rules as in its discretion it deems necessary and proper to enable it to carry out to full force and effect the powers granted and the duties imposed herein.

The committee is authorized and empowered to summon and subpena witnesses, require the production of papers, books, accounts, reports, documents, and records, of every kind and description, and to take all necessary means to compel the attendance of witnesses and to procure testimony. The members of the committee may each administer oaths, and all of the provisions of Article 8 of Chapter 2, Title 1, Part 3 of the Political Code, relative to the attendance and examination of witnesses before the Legislature and committees thereof, shall apply to the committee appointed under this resolution.

The committee is hereby authorized and empowered to make a complete investigation and study of all matters and subjects hereinbefore referred to and relating thereto, and to do any and all things necessary or convenient to enable it to exercise the powers and duties granted to and imposed upon it.

The committee may create subcommittees from its membership, assigning to the subcommittee any study, inquiry, investigation or hearing which the committee itself has authority to take or hold, and the subcommittee for the purpose of this assignment shall have and exercise all of the powers conferred upon the committee limited by the express terms of the resolution or resolutions of the latter, defining the powers and duties of the subcommittee, which powers may be withdrawn or terminated at any time by the committee.

The committee may hold public hearings at any place in California, at which hearings the people are to have an opportunity to present their views to the committee. The committee may also meet in executive session. The committee is hereby authorized to act during sessions of the Legislature, including any recess thereof, or after final adjournment, but in no event beyond the convening of the Fifty-fifth Legislature. The committee may report to any session of this Legislature or to the regular session of the Fifty-fifth Legislature, on or before March 15, 1943.

Every department, commission, board, agency, officer and employee of the State Government and of any political subdivision, county, city, or public district of or in this State shall furnish the committee and any subcommittee upon request, any and all assistance and information, records, and documents as the committee or subcommittee deems proper for the accomplishment of the purposes for which the committee is created. The Sergeant-at-Arms of the Assembly, or other officers designated by him are hereby directed to serve any and all subpenas, orders and other process issued by the committee, when directed so to do by the chairman or by a majority of the membership of the committee.

The members of the committee shall serve without compensation but shall be allowed mileage at the rate of five and one-half cents ($0.05½) per mile each way incurred in connection with their services upon the committee and other actual and necessary expenses for living accommodations and meals incurred in connection with their services upon the committee, or in lieu thereof an allowance of eight dollars ($8) per day for accommodations and meals.

The sum of seven thousand five hundred dollars ($7,500), together with the unexpended balance of moneys made available to the Assembly Committee on Governmental Efficiency and Economy created by House Resolution No. 62, is hereby made available from the Contingent Fund of the Assembly, for expenses of the committee hereby created and its members, and for any other charges, expenses or claims it may incur under this resolution to be disbursed after certification by the chairman of the committee by warrants of the State Controller drawn upon the State Treasurer.

COMMUNICATIONS

The following communication from the Department of Finance relative to review of reports rendered by the department, was presented by Mr. Poulson, and ordered printed in the Journal:

Review of Certain Reports Rendered by the Division of Budgets and Accounts, Department of Finance

March 15, 1941

PRICE, WATERHOUSE & CO., 530 WEST SIXTH STREET
LOS ANGELES, March 15, 1941

Assembly Committee on Governmental Efficiency and Economy
California Legislature, Sacramento, California

DEAR SIRS: Pursuant to your instructions we have reviewed some of the reports (about 30 in number) rendered by the Division of Budgets and Accounts of the Department of Finance covering examinations made of the accounts and affairs of various State activities. The purpose of this review was to ascertain generally the procedure followed with respect to examinations, the current status of examinations of some of the larger departments, and some of the more important matters mentioned in the reports we reviewed.

General

We understand from our conversations with Mr. Fred W. Links, Chief of the Division of Budgets and Accounts, and with Mr. E. Morrice, Assistant Superintendent of Accounts, that in addition to periodic examinations and special examinations where the need is clearly indicated, the division is required to make special examinations to determine cash accountability as of the termination of employment of the person charged with responsibility for the cash transactions of any department, bureau, board or commission; that the division must rely on its own judgment in the selection of departments for periodic examinations and that an important factor in this selection is availability of staff. We also understand that upon completion of each examination the accountant in charge (who would be a principal or a senior) submits a signed and dated report in draft, addressed to Mr. Links; that after Mr. Morrice and/or Mr. Links have reviewed the draft report it is typed in final form, addressed to the Director of Finance, and signed by Mr. Links; that copies of the report are sent to the head of the department or bureau under examination and to the State Controller; and that with few exceptions the final report bears the same date as the draft report prepared by the accountant in charge of the examination.

As instructed, we compared the draft copy and the final copy of some of the reports. This comparison disclosed that the draft reports signed by the accountant in charge of the examination were not revised in any material respect before final typing except in the case of the report on examination of the records of the Department of Finance and Board of Control referred to hereinafter.

Our review disclosed that in some instances considerable time elapsed between the close of the period under examination and the date of the report and also between that date and the date copies were released to the department head and to the State Controller; some examples of this are shown below:

Department	*Period Covered*	*Date of Report*	*Release Date*
Twenty-second District Agricultural Association	Jan. 16, 1937, to Feb. 28, 1939	March 9, 1940	June 21, 1940
Department of Natural Resources	Dec. 1, 1936, to June 30, 1939	May 1, 1940	Oct. 30, 1940
Department of Industrial Relations	June 1, 1936, to Dec. 31, 1938	Sept. 30, 1940	Jan. 2, 1941
Department of Social Welfare	July 1, 1934, to Sept. 30, 1939	Nov. 6, 1940	Nov. 26, 1940
Board of Architectural Examiners, Northern Division (special examination)	Jan. 1, 1933 to July 20, 1940	Dec. 13, 1940	Feb. 6, 1941
Department of Finance and Board of Control	May 1, 1936 to June 30, 1938	Sept. 12, 1939	May 23, 1940
Franchise Tax Commissioner	July 1, 1937, to Oct. 31, 1938	Oct. 13, 1939	Feb. 13, 1940
State Controller	Jan. 1, 1934, to June 30, 1936	April 23, 1937	Not ascertained
State Board of Equalization	July 1, 1930, to June 30, 1935	April 30, 1940	Not ascertained

The Division of Budgets and Accounts prepares a monthly report of its activities. This report for the month of January, 1941, showed that examinations of the following departments, among others, were in progress at January 31, 1941.

Department	*Period Covered*	*Approximate hours expended to January 31, 1941*
Division of Highways	Sept 1, 1935, to Dec 31, 1940	24,100
Board of Equalization	July 1, 1935, to June 30, 1940	40,700
State Controller	July 1, 1936, to Dec 31, 1939	21,300
Department of Professional and Vocational Standards	April 1, 1938, to April 30, 1940	8,200
State Lands Commission	Nov. 1, 1934, to June 30, 1940	5,900
State Treasurer	July 1, 1936, to Dec 31, 1939	5,600

We were informed that none of the examinations listed above had reached the point where the reports thereon could conveniently be made available for our review but that the examination of the Division of Highways was substantially completed in January, 1941, and the accountant in charge would probably submit his report in March, 1941.

The January, 1941, report on activities showed that the Division of Budget and Accounts had 119 employees comprising, Chief of division, Assistant Superintendent of Accounts, Financial Research Technician, 100 accountants (7 classed as principals and 6 as seniors) and 16 stenographers, clerks, etc. Other statistical information summarized from this report is shown below:

Hours in arrears at January 31, 1941, reported as equivalent to about 15 months arrearage based upon above estimate of 98,000 hours	122,300

Review of Reports on Examinations

Our review indicated that the auditors directed their attention to such matters as statutory duties and requirements, organization, accounting procedures and internal control, as well as to the accounting for receipts and expenditures. It appeared that detailed audits of the transactions were not attempted (this would *obviously be impracticable except perhaps in a few instances) but that the auditors* made test-checks of underlying records and other supporting evidence; it is reasonable to suppose that the extent of such test-checks varied according to the condition of the records and the efficacy of the system of internal control but this, of course, *could not be established by reviewing the reports. Judging from the comments and* recommendations in the reports, both the methods of internal control and the condition of the records were usually found to be unsatisfactory.

Some of the more important matters set forth in certain of the reports are summarized as follows.

Department of Finance and Board of Control

The report on examination for the period May 1, 1936, to June 30, 1938, comprising 45 pages of text, was dated September 12, 1939, and released on May 23, 1940. No financial statements accompanied the report which explained that the examination was being continued and that authenticated financial statements would be prepared when it was completed. We observed that the January, 1941, report on activities of the Division of Budgets and Accounts showed the examination of the Department of Finance to be 25 months in arrears and that it would require about 5,800 hours to bring it to the current six months—that is, up to July 31, 1940; the examination was not reported as in progress at January 31, 1941.

The report we reviewed described the history of the department's formation, the activities it took over from other State agencies, subsequent changes therein, and its numerous activities as of June 30, 1938; it also summarized statutory requirements regarding auditing of other State agencies and reported that these had not been fulfilled in all respects. It was explained in the report that the examination was extended to cover activities of the Board of Control. " * * * because of the apparent impossibility of drawing a clear line of demarcation between the department and the board." We understand that at the department's request the Attorney General rendered an opinion in January, 1939, which helped to clarify this situation.

There were numerous criticisms of the department's accounting procedures and controls, its form of organization, its functional duties and manner of discharging them, in this connection the following is quoted from the report:

> "It will be noted that when the provisions of law relating to the powers and duties of the department are grouped around an orderly framework there are marked gaps and vacancies, while at the same time, some statutory duties appear to have no relationship to any possible organization of the duties along functional lines Perhaps it would not be presumptive to suggest that a revision and clarification of the Political Code would be of benefit with a view to stating the functional powers and duties of the Department of Finance in broad, general terms, instead of the present, often narrow, definitions which sometimes overlap and sometimes leave serious gaps."

With regard to non-compliance with the statutory requirement of audits of every State agency at least once a year, the report attributed this to failure of the Legislature to provide the funds necessary for sufficient personnel to keep the department abreast of its increased duties. It pointed out that the Division of Budgets and Accounts had only 17 employees on January 1, 1935, and although the number had increased to 77 early in 1936 only about 50 of these had been employed on audit work since July, 1936, the remainder being engaged in budget preparation, administration and research; that according to recent estimates more than 50 auditors were required to keep abreast of current work, which estimate did not allow for bringing arrearages up to date.

Presumably the information recited in the report regarding the staff available for auditing was as of the close of the period under examination (June 30, 1938) rather than as of the date appearing on the report (September 12, 1939) or the date of its release (May 23, 1940). According to monthly reports of activities, there were about 90 auditors employed at October 31, 1939, and 95 at May 31, 1940; as previously mentioned there were 100 in January, 1941.

Among other matters of general interest mentioned in the report are the following.

> There was no executive head of the Division of Service and Supply to coordinate the various activities of this division. The report stated that an able administrator in this position would be of immeasurable value to the State.
>
> The absence of detailed property records in the accounting office. In this connection the report reiterated a previous recommendation that physical inventories of property should be taken and records established therefrom by the Department of Finance.
>
> An organization chart of the department was included which showed nine divisions each responsible directly to the Director of Finance and not to any other division. The report stated that this chart was theoretical and had little similarity to conditions actually prevailing.

We reviewed the manuscript draft of the report which was signed by the auditor in charge of the examination and addressed to the Assistant Superintendent of Accounts There were a number of points of difference between this manuscript report and the typed report addressed to the Director of Finance and signed by the

Chief of the Division of Budgets and Accounts; some of the more important of these are summarized below:

Following the presentation of the above-mentioned theoretical organization chart, the manuscript draft contained the following which was omitted from the typed report:

> "The Bureaus of Buildings and Grounds, Purchases, and Printing are theoretically responsible directly to the Director of Finance but in actuality they have come under the influence of the Division of Budgets and Accounts to a degree which is difficult to measure and state in definite terms but which nevertheless must be recognized.
>
> Therefore, leaving out of consideration the autonomous units and showing the lines of authority as they actually exist with respect to the units which are primarily subject to the executive authority of the Director of Finance, we have the following chart:"

At this point in the manuscript report there appeared a chart showing one line of authority running to the Director of Finance from the Superintendent of Accounts and one line of authority running directly to the Superintendent of Accounts from each of the following activities: Financial supervision; Division of Budgets and Accounts; Departmental Accounting Office; Bureau of Buildings and Grounds; Bureau of Printing, Bureau of Purchases. We understand that Mr. Links occupies the position of Superintendent of Accounts as well as that of Chief of the Division of Budgets and Accounts.

There was also deleted from the manuscript draft a paragraph pointing out the unusual difficulties attendant upon an examination of the accounting records of the Department of Finance by an employee of that department in which it was stated

> "Regardless of how thoroughly and impartially we have proceeded with our work, our findings will doubtless fail to enjoy the confidence which would be given those of independent auditors At the same time our actions in reviewing and criticizing the work of our associates and supervisors of our own department can obviously lead to friction and personal feelings. We believe that the proper way to avoid a repetition of this situation would be for the Director of Finance to enter into an agreement with the Controller or even with a Joint Legislative Committee for the periodical undertaking of this task. Skilled accountants could be temporarily engaged by the State agency undertaking the work, if necessary personnel were not already available, and the arrangement need not be objectionable to anyone. We suggest that the Director of Finance ascertain from the Attorney General whether such procedure would satisfy the provisions of the Political Code as to the responsibility of the director for auditing all State agencies"

Another section that was deleted read as follows:

> "It appears to be the statutory duty of the Department of Finance to coordinate the needs of all State agencies and institutions, taking into account available surpluses at any point, fixing prices therefor, and supplying the needs of the State as a whole in the most economical manner. We did not find evidence of any attempt to fix prices of surplus commodities. As we have explained in our comments on organization of the department there does not appear to be any recognition of this function.
>
> As to the matter of providing rules and regulations concerning the use of State buildings and grounds, we did not find evidence that such rules have been given formal and public expression. Records of the Bureau of Buildings and Grounds leave much to be desired especially with regard to the terms of occupancy, dates, and periods of occupancy, and similar matters concerning tenants.
>
> We were unable to find clear evidence of the degree to which management of the State Fair has been supervised by the Department of Finance or the manner in which such supervision has been effected."

In some instances statements in the manuscript report were reworded before typing in a manner that altered the implications of the original statement, as evidenced by the following examples:

Per Manuscript Report—	*Per Typed Report—*
"The accounting records can not be described as anything short of inadequate and unreliable."	"The accounting records were not found to be adequate in some respects."
"Records pertaining to the Division of State Lands were found to be in such condition that it was deemed advisable to exclude them from the purview of our examination at this time with the expectation that a special examination and system revision would be instituted in the near future."	"It was deemed advisable to exclude the Division of State Lands from the purview of our examination at this time for the reason that a special examination and system revision is to be undertaken in the near future."
"Our examination of the system of internal check disclosed several instances in which methods did not comply with accepted accounting theories."	"Our examination of the system of internal check disclosed several instances in which methods can be improved."

Board of Equalization

The report on examination covering the period July 1, 1930, to June 30, 1935, was dated April 30, 1940 (we did not ascertain the date it was released), and comprised 267 pages of text, 84 pages of exhibits and seven pages summarizing recommendations. We considered it would be impracticable in the time at our disposal to attempt to review this report in the detail that would be required to ascertain all the significant matters referred to therein A cursory review disclosed that the report emphasized the serious handicaps under which the board had operated because of an enormous increase in the volume of its activities and the complexity of its problems, and referred particularly to the impact of the Alcoholic Beverage Control Act which became effective July 1, 1935.

With regard to these problems in general the report stated:

> "The volume and complexity of the financial transactions connected with the numerous licensing and tax administering functions of the Board of Equalization which were assumed in 1933, and have grown from year to year, call for elaborate accounts, machine methods of record-keeping and effective systems of internal check and budgetary control. These, in turn, need constant supervision, modification and coordination
>
> Until April, 1935, the Department of Finance had done little, if any, system work during the expansion period. Much excellent work had been done by the board in centralizing and safeguarding the handling of cash receipts resulting from the activities of the several divisions; but many bookkeeping and accounting processes needed revision or development
>
> * * * Considerable time was spent in devising new or modified procedures, but only the most important needs were dealt with. The survey, revision and amplification * * * was by no means complete nor was there time to prepare the manuals of procedure which were much needed A great deal remains to be done in perfecting the entire accounting system of the board."

Under the section of the report titled "Summary of findings and recommendations" there appeared the following:

> "As the Department of Finance, pursuant to Section 654 of the Political Code, has general powers of supervision over all matters concerning the financial affairs and business policies of the State, we believe that steps should be taken to ascertain whether the practices of the Board of Equalization questioned herein, were, or are, allowable, in those instances where a legal determination has not already been made."

As previously mentioned an examination of the board's accounts and affairs for the period July 1, 1935, to June 30, 1940, was in progress at January 31, 1941, and had consumed about 40,700 hours to that date We were informed by Mr. Links that such examination included extensive system revision and that the revised system was now being installed and would be referred to in the forthcoming report to June 30, 1940; also, that the Attorney General's opinion had been sought and

obtained with respect to many of the questions raised in the report for the period ending July 1, 1935.

State Controller

The report on examination for the period July 1, 1934, to June 30, 1936, was dated April 23, 1937, and comprised 255 pages and referred to "* * * a mass of historical and statistical material which has been incorporated in additional indexed volumes for future reference * * *" As in the case of the above-mentioned report on the Board of Equalization we considered it impracticable to attempt to review this report in detail However, it was observed from reading certain sections that there were numerous criticisms of the procedures and records and this condition may perhaps best be summarized by quoting two separated paragraphs in the report:

> "We have concluded that the existing policies, cumulatively executed, have in the course of time brought about the performance of unnecessary activities and the neglect of essential functions."
>
> "And so we are confronted with an array of specific, trust, revolving, bond, assessment, interest and sinking funds, approximating 200 in number, each subject to accounting treatment and all involving much painstaking and rather futile clerical labor. There is little evidence of systematic expenditure of effort in the direction of maintaining an equilibrium between cost of services and revenues obtained through excise rates established to meet it, and it is recommended that a survey be initiated so that legislation may be secured designed to preserve such balance and eliminate unnecessary funds."

The report concluded with some 45 specific recommendations each of which was said to be referred to more particularly elsewhere in the report and some of which were said to repeat recommendations in previous reports

According to the January, 1941, report on activities of the Division of Budgets and Accounts, examination of the Controller's accounts for the period July 1, 1936, to December 31, 1939, was in progress and had consumed approximately 21,300 hours to January 31, 1941; other figures in this report suggested that approximately 5,300 additional hours would be required to complete the examination to December 31, 1939.

Franchise Tax Commissioner

The report covering the period July 1, 1937, to October 31, 1938, was dated October 13, 1939, and released on February 13, 1940 The report stated that improvements had been made in accounting records since the last preceding examination but that deficiencies still existed due chiefly to greatly increased volume of transactions and it was recommended that the commissioner study the feasibility of reorganizing the department's internal affairs to cope with this increase.

Among the specific recommendations made in the report were the following.

> "More extensive comparisons should be made of amounts reported on information returns and the amounts reported in the related personal income tax returns. The report stated that a test indicated such a comparison would result in the assessment of substantial additional amounts of income taxes, but that the commissioner's staff was of the opinion that the additional cost involved in the recommended procedure might well exceed the increased revenue.
>
> "Adequate safeguards should be provided against the loss of mail bags by fire or theft before the mail can be opened and the receipts recorded during the peak periods when tax installments are due.
>
> "More extensive use should be made of the commissioner's power under the Bank and Corporation Franchise Tax Act to suspend a corporation's right to do business when taxes become delinquent."

Department of Natural Resources

According to the report which we reviewed, this department comprises an Administrative Division and Operating Divisions for Fish and Game, Forestry, Parks, Oil and Gas, and Mines, which operating divisions are in turn segregated into various bureaus, sections and services The report covered the period December 1, 1936, to June 30, 1939, and was dated May 1, 1940, and released on October 30, 1940. It comprised 92 pages of text and 33 pages of financial statements and incorporated by reference four special reports (which we did not review) described as relating to Division of Forestry fire suppression costs, irregular pay roll transactions of that division, and unsatisfactory conditions in the Kern County unit from July 1, 1936, to March 31, 1940

After stating that there were no known cash shortages and describing the scope of examination in terms suggesting a rather extensive and satisfactory test-check audit, the report stated:

> "* * * Throughout our examination we consistently attempted to subject the records to a detailed scrutiny, however, in several instances the basic

records were so indefinite, incomplete, or in such chaotic condition, that it was necessary to limit our examination to certain gross or test checks."

and then went on to comment unfavorably upon nearly every phase of the department's accounting and other activities including compliance with provisions of the Political Code. Among such unfavorable comments were the following:

The accounting functions were so decentralized that definite control over expenditures, and to some degree revenues, was practically non-existent

Certain employees in positions of trust, and who handled cash, were not under bond.

Equipment and materials of the Forestry Division that had been purchased with State funds were inextricably commingled with like articles purchased with county, district or association funds.

Department of Social Welfare

The report for the period July 1, 1934, to September 30, 1939, comprising 42 pages of text and 20 pages of exhibits, was dated November 6, 1940, and released on November 26, 1940. Considerable space was devoted to rather detailed description of the various aid programs administered or supervised by the department and the difficulties involved in determining eligibility of persons to receive such aid

Reference was made to the greatly increased volume of work since the Federal participation plan was instituted and to the increased cost to the State as a result of participation in the Federal plan. With regard to the latter, the report presented a table showing that total grants and expenditures for aid increased from about $9,500,000 in the (86th) fiscal year ended June 30, 1935, to $55,200,000 in the (90th) fiscal year ended June 30, 1939, of which there came from State funds $5,800,000 in the 86th and $18,375,000 in the 90th fiscal years

It was stated in the report that in July, 1939, the Attorney General had ruled that the Department of Social Welfare no longer had direct or implied authority to examine or report upon activities of penal institutions because an amendment to the Welfare and Institutions Code, effective August 27, 1937, was silent on this point.

The report also stated that because the Attorney General had ruled that counties, rather than the State, should bear the cost of medical fees for eye examinations in blind aid cases, the department was in the position of having expended without legal authority some $64,000 for such purposes.

We received the general impression from the report that the auditor believed the department had performed its duties reasonably well, having regard to increases in the volume and complexity of its work and to insufficient personnel, and that it had probably erred on the side of liberality in granting aid because it had not the staff necessary to make the searching investigations of applicants necessary to determine initial and continuing eligibility for aid.

Twenty-second District Agricultural Association (San Diego County)

We reviewed three reports on the accounts and affairs of this association; one of these related solely to the association's transactions with Del Mar Turf Club for the period January 8, 1936, to December 31, 1937, and the other two covered the periods January 28, 1936, to January 15, 1937, and January 16 1937, to February 28, 1939. We were informed that this association's accounts are now being examined for the period March 1, 1939, to a recent date; also, that all district agricultural associations are under the administrative jurisdiction of the Department of Finance as well as being subject to audit by that department.

The earlier of the three reports we reviewed stated clearly that the association's accounts and affairs were in a deplorable condition; subsequent reports indicated little, if any, improvement in general conditions and pointed out further specific questionable practices although there had been some changes in the personnel of the association's board of directors.

There follows a summary of some of the many unsatisfactory conditions disclosed by the three reports:

"Although every official transaction of the association is subject to approval of the Department of Finance, such approval was sought and obtained only in isolated instances.

Employees acted without authority of the association's board of directors and in many instances appeared to have acted illegally.

Gross misstatements were made to the Department of Finance and significant information was withheld from it.

Directors acting in their official capacities had negotiated contracts in which they had a personal interest, thus violating the provisions of the Political Code. In this connection the report for the period January 28, 1936, to January 15, 1937, recommended that steps be taken to recover some $2,700 from three directors; we were informed that this matter is currently receiving attention of the State Controller and the Attorney General.

Two directors were salaried employees of Works Progress Administration and this condition, in the language of the report, '* * * gave rise to

numerous disputes with respect to claims and to a marked tendency to pay out of association funds such charges as could not pass muster under WPA audit.'

The association's expenditures to December 31, 1938, totaled about $820,000 for a wide variety of purposes and in many instances the records were not adequate to permit ascertaining whether expenditures were made within statutory limitations For example, payments of about $1,700 were made to attorneys although the State Attorney General had ruled that only he or his deputies could legally be employed by the association; payments of about $36,000 were made to architects but the auditor could discover neither a written contract nor statutory authorization for their employment; a payment of $3,000 for balance of professional services was made by Del Mar Turf Club at the written request, and for the account, of the association despite the auditor's prior specific recommendation that such payment be not made.

An employee disbursed some $4,300 from office cash in the period January 28, 1936, to January 15, 1937, notwithstanding refusal of the then president of the association to countersign checks which had been prepared to cover such disbursements. (According to a letter we inspected acknowledging receipt of an audit report, this employee was general manager of the association in July, 1940.)

The transactions with Del Mar Turf Club were referred to in considerable detail. It seems that in accordance with written agreements, the Turf Club financed association expenditures for certain capital outlays and obtained a lease for racing purposes on the property so financed and that the amounts advanced by the Turf Club are recoverable by it only from amounts due the association as rental for the property or from amounts that may be appropriated to the association for capital outlay. (Although the report did not so state, presumably such appropriations, if any, would be made from State funds.) At December 31, 1938, the association's indebtedness to the Turf Club was about $436,000; it was not stated whether this was secured by a lien upon the property financed by the Turf Club. According to the report, the Del Mar Turf Club appears to have exerted a strong influence over the association's affairs and some degree of actual control over its employees.

Real property purchased for $27,730 was said in the report dated March 9, 1940, to have been informally appraised as worth not to exceed $4,000 at time of purchase. The purchase price of one parcel was $25,000 of which $8,500 was payable 'from net revenues and receipts' and was subsequently paid; the report pointed out that while the term 'net revenues and receipts' was ambiguous, it was questionable whether the association '* * * ever had any cash resources which would come within any reasonable interpretation of such term * * *' The report stated that the $8,500 represented the payee's profit on resale of the real estate to the association; also, that prior to the payment, the payee had informed the auditor orally that when he collected the $8,500 he would donate $4,000 back to the association but that there was neither allegation nor record of such donation having been made."

With regard to the last mentioned transaction, we inspected an opinion of the Attorney General, dated April 23, 1937, to the effect that the $8,500 should be paid if the purchase was advantageous to the association and there were funds available. Mr. Links informed us that following receipt of such opinion the Department of Finance had the property appraised and that the appraisal supported the purchase price. We did not ask to see the appraisal report.

Board of Architectural Examiners, Northern Division

The Board of Architectural Examiners has a Southern Division with headquarters in Los Angeles and a Northern Division with headquarters in San Francisco. A special examination was made of the accounts of the Northern Division for the period January 1, 1933, to July 20, 1940, and copies of the report thereon, dated December 13, 1940, were sent to the Director of the Department of Professional and Vocational Standards and to the State Controller on February 6, 1941. We were informed that the purpose of this examination was to establish the accountability at date of resignation of the employee (Mrs. Jeanne Cathcart) who for some years had performed the duties of the board's secretary-treasurer. The special examination disclosed a cash shortage of $4,750 which was established to have occurred during the following years:

1933		$330
1934		270
1935	(overage)	(70)
1936		735
1937		820
1938		130
1939		930
1940	(to July 20)	1,605
		$4,750

The report stated that the amounts of the shortage were developed by reference to collection reports, file copies of renewal certificates, examination applications and other records available in the office of the board together with replies to letters sent by the auditors to all persons known to have sat for recent examination and to persons listed in the 1940 published Roster of Licensed Architects. The report also stated that there was no evidence of forgery or of improper endorsement on checks thus indicating that the misappropriations were made from currency of which relatively substantial amounts were remitted by applicants; also, that recorded collections had been withheld in some instances from four to twelve months before being deposited. According to the report, 49 persons sat for the Northern Division's examinations in June, 1940, but examination fees were reported from only 10 of such persons.

It was said in the report that Mrs. Cathcart was under bond of $1,000 from October 1, 1932, to July 20, 1940; that the person who held the position of secretary-treasurer from July 1, 1933, to April 1, 1936, was not under bond but that his predecessors and successors were each under bond of $2,500. The report expressed the opinion that despite her denial of any wrongful acts, Mrs. Cathcart was clearly personally accountable, and that the State should seek recovery from her and her surety and that if full recovery was not thereby effected then the State should look to the persons who held office as secretary-treasurer during the several periods.

We were informed that the State Controller has conferred with the Attorney General regarding the action to be taken in this matter.

In view of the above-mentioned shortage we referred to reports covering examinations of the Department of Professional and Vocational Standards for the periods January 1, 1931, to June 30, 1935, and July 1, 1935, to March 31, 1938, to ascertain the general scope of those examinations and the reported findings regarding affairs of the Board of Architectural Examiners, Northern Division. The earlier of these two reports contained no specific reference to the scope of examination but recommended the consolidation of the Northern and Southern Divisions of the Board of Architectural Examiners in the interests of economy, pointing out that the two districts cost three times as much to operate as another having a greater number of licensees. Under the section relating specifically to the Board of Architectural Examiners, Northern Division, the report stated "No accounting has been supplied to cover No. 750 of the examination series"; presumably this referred to an examination certificate.

The report for the period July 1, 1935, to March 31, 1938, contained a section entitled "Scope of examination" which stated among other things:

> "We * * * inspected the audit copies of all licenses issued by the boards, bureaus or commissions and reconciled them with accountability therefor; examined the records of examinations of applicants and reconciled them with the amount accreted therefor."

and in the section relating specifically to the Board of Architectural Examiners, Northern Division, the statement was made:

> "Accountability for fees earned during the period November 4, 1935, to April 6, 1938, appears to have been properly discharged."

As previously mentioned, an examination of the accounts of the Department of Professional and Vocational Standards was in progress at January 31, 1941, and had consumed approximately 8,200 hours to that date; this examination covers the period April 1, 1938, to April 30, 1940, and we understand it was commenced during May, 1940, at which time an auditor visited the office of the Bureau of Architectural Examiners, Northern Division, to verify cash balances, etc.

* * * * * * * * * * * *

The foregoing comments summarize the more important matters that we observed in our limited review of reports. In addition to the reports listed above, we reviewed the following:

Department	*Period*
Department of Industrial Relations	June 1, 1936, to Dec. 31, 1938
Board of State Harbor Commissioners	Jan. 1, 1938, to June 30, 1939
Humboldt State College	July 1, 1937, to July 31, 1940
California School for the Blind	April 1, 1938, to May 31, 1940
Legislative Counsel Bureau, California Code Commission	Jan. 1, 1938, to Nov. 30, 1940
San Quentin Prison (cash transactions only)	Oct. 5, 1939, to Aug. 31, 1940
Veterans' Home of California (cash transactions only)	Oct. 15, 1940, to Dec. 16, 1940
Industrial Home for Adult Blind	March 1, 1937, to Sept. 30, 1940
Department of Penology—Division of Pardons and Commutations, Prison Advisory Board	July 1, 1937, to Dec. 31, 1939
45th District Agricultural Association	Jan. 1, 1937, to Dec. 31, 1938
(Imperial County)	Jan. 1, 1939, to Aug. 31, 1940
Eight other district agricultural associations	Various, ending in 1940

Although these reports described conditions to be unsatisfactory in many respects, they contained nothing that appeared to be sufficiently important to warrant specific comment.

Conclusion

We understand that you desire an expression of our views on the subject of post audits of State activities. We have not had an opportunity to study all the ramifications of this problem nor to have the benefit of any extended discussion with Mr. Killion, Director of Finance, or Mr. Links, Chief of the Division of Budgets and Accounts. However, we submit the following general observations which we trust will be helpful to the Committee in its study of the matter.

(1) An appropriate State officer (possibly the Controller) should be specifically authorized to investigate promptly any reported expenditures for purposes or in amounts of questionable value to the State, and to order that no further expenditures be made or obligations incurred for such purposes pending decision by competent authority. We understand that it is not clear at present where, if at all, authority for such action is now vested.

(2) We believe that it is fundamentally unsound for the post auditing function to be vested in a department which exercises administrative control over any of the State activities which it is called upon to audit. In order to obtain the maximum value of post auditing commensurate with its cost, it seems to us essential that the work be done by a department completely independent of any other department; the head of such department will hereinafter be referred to for convenience as the Auditor General.

(3) Primary emphasis should be laid upon the establishment and maintenance of adequate systems of internal control in the various State departments and agencies so as to provide better current control over receipts and expenditures and better accounting therefor. The Auditor General should be empowered and required to enforce recommendations for improvements in methods after adequate discussion with the head of the department affected; absence of some such authority is bound to defeat in large measure the constructive purposes of any auditing program. We understand that it is not clear at present just how far the Department of Finance may go in this matter over the opposition of heads of other departments.

(4) The Auditor General's staff should be expected to do less detailed checking so as to devote more time to the constructive work of improving methods and procedures. To this end we believe that the present statutory requirement for an annual audit of every State agency should be changed; furthermore this requirement has proved too onerous to be practical. We believe it would be preferable to require an audit of each agency once every three years and at such other times as may be deemed necessary by the Auditor General.

(5) The work of the auditing staff should be carefully planned and closely supervised by the Auditor General who should be a skilled accountant and an able executive. We believe that it would be to the best interests of the State for the Auditor General's staff to be relatively small and include a sufficient number of well qualified accountants of supervisory and senior grade, whose work should be principally directed to ascertaining whether the accounts of the various State activities were being properly maintained and their financial affairs properly reported. In order that the staff may be kept small and relatively more efficient we suggest that the policy be adopted of employing independent public accountants to make such extraordinary investigations of State departments or activities as may be required from time to time. The Auditor General, with the approval of an appropriate committee of the Legislature, might be authorized to engage such outside assistance to meet emergencies which would otherwise interfere with the predetermined program of work being carried out by the Auditor General's staff. The reports of independent public accountants employed on emergency work should be addressed jointly to the Auditor General and to the committee of the Legislature.

(6) Inasmuch as the Legislature not only makes appropriations, but also designates within broad limits the purposes for which the funds shall be expended, it would seem desirable and proper that the Auditor General be appointed by, and be responsible only to, the Legislature.

(7) We believe it would be desirable for the Legislature to retain a firm of independent public accountants as auditing consultants. They would be expected to collaborate with the Auditor General in planning the post audit work and in the preparation of his annual report to an appropriate committee of the Legislature and also to submit their own independent report annually to such committee expressing their opinion upon the nature of the auditing program and the effectiveness with which it has been carried out. To obtain the maximum benefit from the services of the consulting auditors, the same firm should be reappointed from year to year so long as their services are considered to be satisfactory. This will obviate loss of the accumulated familiarity which the consultants will obtain with respect to the problems involved and with the progress being made.

It should be understood that we have not attempted to ascertain whether the foregoing suggestions are permissible of adoption under the present State procedure; also, we have not had the opportunity for adequate discussion of the problem with

the Director of Finance and his assistants and such a discussion might indicate the need for revising some of the above suggestions.

We shall be pleased to confer with the committee in its study of the situation if that is desired.

Yours very truly,

PRICE, WATERHOUSE & CO
By T. G. DOUGLAS

Article 4. Qualifications and Exemptions

10490. This article is applicable only to life and disability insurance. Except as otherwise expressly permitted by this code, life or disability insurance shall not be transacted in this State by any person other than a corporation. A person not exempted by Chapter 10 of this part shall not transact life or disability insurance in this State except pursuant to a valid and unrevoked certificate of authority issued by the commissioner or under a valid and unrevoked certificate of exemption issued by the commissioner pursuant to this article.

10491. Persons possessing a valid and unrevoked certificate of authority to transact life or disability or life and disability insurance issued by the commissioner are not subject to this article.

10492. Any incorporated benefit and relief association of nonprofit, charitable or eleemosynary character formed by public schools or officers or employees of public schools or school districts, that confines its privileges and membership to pupils of public or private schools may, if it complies with the requirements of this article, procure a certificate of exemption from the commissioner.

10493. Any incorporated benefit and relief association of nonprofit, charitable, or eleemosynary character formed by a church, lodge, labor union, or employees of a common employer that confines its privileges and membership to its own employees and the members of the church, lodge, labor union, employees or officers of such common employer, or employees or officers of companies or corporations of which a single employer owns at least one-quarter of the issued capital or voting stock, or to persons who were such corporate officers or employees at the time of becoming members of such association, may, if it complies with the requirements of this article, procure a certificate of exemption from the commissioner.

10494. Any incorporated domestic lodge, order or association of a purely religious, charitable or benevolent description that insures only the lives or health of its members and does not provide for death benefits of more than two hundred fifty dollars ($250) or for disability benefits of more than two hundred fifty dollars ($250) to any one person in any one year and does not issue to applicants or members, policies, benefit certificates, or any other visual evidence of benefits, except complete copies of the articles of association and by-laws, to be received by members or their beneficiaries, may, if it complies with the requirements of this article, procure a certificate of exemption from the commissioner.

10495. A certificate of exemption may be procured from the commissioner by filing with him certified copies of the articles of incorporation and by-laws of the applicant together with certified copies of any evidences of insurance which it may issue and a statement of the operations of the applicant. There shall also be filed with such application a statement of the financial condition of the applicant in such form as the commissioner may prescribe. The commissioner may, pursuant to Article 4, Chapter 1, Part 2, Division 1, require from any person transacting life or disability insurance, whether or not an applicant for a certificate of exemption, such information as will enable him to determine whether or not such person is transacting life or disability insurance in conformity with or in violation of this code.

10496. Any person transacting life or disability insurance without a certificate of authority so to do issued by the commissioner shall not give, allow, or promise to give or allow any compensation for procuring new members. The term "compensation" as used herein is confined to a payment, percentage, bonus or monetary credit given, promised or allowed for the securing of new members which directly or by any arrangement, understanding or device is based in whole or in part upon the number of new members or reinstatements procured, or the nominal or contingent value of their certificates or policies, or the net or gross amount of dues or premiums paid or payable by them or upon any other variable result or contingency.

10497. If the commissioner finds that an applicant for a certificate of exemption meets the applicable requirements of this article and those requirements of this code made applicable to such an applicant by this article, and that the applicant is not formed, conducted or operated for profit or as a commercial insurance enterprise for the benefit of any group or person rather than the relatively equal benefit of its members, he shall issue to the applicant a certificate of exemption.

10498 An applicant for a certificate of exemption must comply with, and the possessor of a certificate of exemption is subject to, the following provisions of this code.

10501 Any person specified in Sections 10492 10493 and 10494 who is transacting life or disability insurance at the time this article takes effect without a valid and unrevoked certificate of authority so to do, may continue the transaction of life or disability insurance for a period of not more than 30 days thereafter if within 15 days after this article becomes effective it files with the commissioner notice of intention to apply for a certificate of exemption

If, after such investigation as he may deem necessary, the commissioner is satisfied that reasonable grounds exist to believe that the filer of a notice of intention to apply for a certificate of exemption is able to or will conform to the requirements of this article he may by written order, extend the time during which

it may transact life or disability insurance pending the filing of a proper application for and issuance of a certificate of exemption."

MOTION TO PRINT REPORTS IN JOURNAL

The following report was received and read, and on motion of Mr. Maloney and Mrs. Daley, ordered printed in the Journal:

Report of Committee Appointed Under Provisions of Senate Concurrent Resolution No. 16

To the Senate and Assembly of the State of California

Your committee, with Colonel Archibald Young, Chairman of the Social Welfare Board of California, appointed under the provisions of the above-numbered resolution, traveled to Washington, D C, and in that city on June 2d and 3d conferred with the members of the California Congressional Delegation, Senator Hiram Johnson, and members and staff officials of the Federal Social Security Board concerning the controversy now existing concerning alleged nonconformity of California law and practices with the Federal Social Security Act as amended in 1939.

As a result of these conferences it is the conclusion and the finding of your committee:

First: That unless certain concessions hereinafter to be discussed are made by the State of California the present aged aid subvention to the State of California amounting to approximately $38,000,000 per annum will be discontinued by the Federal Social Security Board on July 1, 1941. In addition to this, the Federal subvention for aid to the blind, amounting to approximately $2,000,000 annually, will also be discontinued on said date

Second That there are now pending in Congress certain bills, H R. 3021, H.R. 4041, H R. 4042, introduced by Congressman Jerry Voorhis of California, the effect of which, if enacted, would be to cause the Federal Social Security Board to recede from its present position, but there is no chance for passage of these bills prior to July 1, 1941, or any immediate date following.

Third: That a test case in the Federal courts on the interpretation of the Social Security Act by the Federal Social Security Board could not be brought to a successful conclusion in time to prevent the loss of these subventions to the State of California.

Fourth: That the minimum concessions by the State of California which will satisfy the Federal Social Security Board and prevent the loss of the Federal subvention are as follows:

(a) Income and Resources

Adoption of language similar to that contained in Assembly Bill No. 2630, Section 1, amended, however, from $45 to $40 per month. The principle herein involved would leave the maximum payment at the present rate of $40, and if greater need than $40 is shown in any individual case the income and resources allowed under the present law would be added to the $40.

(b) Confidential Nature of Records

That the language contained in Section 4 of Assembly Bill No. 2630 would meet the Federal requirements found in Subsection 8 of Section 2 of the Social Security Act making such records available only for the purposes of administration of the act.

(c) Personnel Standards

That no legislation on this subject is necessary at this time, the Federal Social Security Board being satisfied with the present California law as interpreted by opinions of the Attorney General of California

(d) Single State Agency

The language contained in the second paragraph of Section 6 of Assembly Bill No. 2630 is necessary to satisfy the requirements of the Social Security Board.

(e) Blind Aid

That similar amendments to the laws pertaining to blind aid must be made to Sections 3076 and 3884 of the Welfare and Institutions Code in order to preserve the present subvention.

In conclusion, the committee desires to express its gratitude to Honorable Clarence F. Lea, the Chairman of the California Delegation, and all the members thereof, for the many courtesies extended to it.

ROBERT W KENNY, Chairman
CHARLES H. DEUEL
JEANETTE E. DALEY
THOMAS A. MALONEY

The following reports were received and on motion of Mr. Maloney and Mrs. Daley, ordered printed in the Journal:

June 3, 1941

Mr. Robert W. Kenny, Chairman, Special Legislative Committee
State Senate, Sacramento, California

DEAR MR. KENNY: Pursuant to your request, as Chairman of the California Legislative Delegation, for a summary statement of the subjects discussed at the meeting of your delegation and the Social Security Board in Washington on June 2d, I am reviewing for your consideration the position of the Social Security Board as expressed at that meeting.

As you know, the Old Age Assistance, Aid to the Blind, and Aid to Dependent Children Titles of the Social Security Act were amended by the Congress in 1939 to provide that effective July 1, 1941, the State agency shall, in determining need, take into consideration any other income and resources of an individual claiming assistance.

Sections 2020 and 3084 of the California Welfare and Institutions Code, relating to old age assistance and aid to needy blind, respectively, specifically exempt from consideration in determining need and the amount of assistance to be granted, income from certain specified sources in an amount not exceeding $15 per month for old age assistance and $400 per year for aid to needy blind.

It was indicated at the time of our conference that these two sections of the Welfare and Institutions Code can not be considered as being in accord with the above cited amendment to the Social Security Act, and discussion was had as to possible revisions of the California statutes which would provide a basis for the development of Old Age Assistance and Aid to Needy Blind Programs which will meet the requirements of the Federal Act after July 1, 1941. The alternatives which were discussed are set forth in the attached copy of my letter of March 25, 1941, addressed to Hon. Jerry Voorhis, Congressman from California.

As was pointed out during our discussion, while the second possible alternative mentioned in that letter permits the meeting of the need of individuals having other income or resources it results in a certain amount of inequality of treatment of individuals in that it fails to provide a means of meeting the requirements of individuals in excess of $40 in instances where the individual is not in possession of other income or resources.

It was also pointed out that Titles 1, 4, and 10, of the Social Security Act require that State public assistance plans must provide "for the establishment or designation of a single State agency to administer the plan * * * or to supervise the administration of the plan; * * *." As you know, the California plans provide for the supervision of local administrative units by the State Department of Social Welfare.

The reports of the Committees of Congress which considered this legislation make it clear that a single State-wide plan, in effect in all political subdivisions of the State, administered or supervised by a single State agency which is vested "with final administrative responsibility" and sufficient powers to assure the uniform application of the plan throughout the State is required for Federal participation in such a plan.

Our discussion revealed that since the beginning of the State-Federal Public Assistance Programs in California, the authority of the State Department of Social Welfare effectively to supervise the administration of the California public assistance plans has been in question and occasion has existed to question whether the State agency possesses this requisite authority in fact. In view of the evidence of past experience it is advisable that appropriate legislation be enacted affirmatively establishing this authority and providing adequate remedies essential to achieving compliance with standards established by the single State agency. Any failure to effectuate adequate supervision whether due to lack of authority or to other causes would make it necessary for this board to question the conformity of such administration with the requirements of the Federal Act.

The Social Security Act was further amended in 1939 to provide that effective July 1, 1941, the State plan must provide safeguards which restrict the use or disclosure of information concerning applicants and recipients to purposes directly connected with the administration of the public assistance programs. Since the current statutory authority governing this aspect of the California program is inadequate it will be necessary, as was indicated in our discussion, that legislation be enacted to provide safeguards consistent with the above-mentioned amendment to the Social Security Act.

In addition, the Social Security Act requires that effective January 1, 1940, the State shall establish and maintain personnel standards on a merit basis to govern the employment of all personnel engaged in the administration of the public assistance programs. Pursuant to this amendment the Social Security Board adopted standards providing, as a requisite to a merit system, adequate rules and regulations and the establishment and maintenance of classification and compensation plans for all positions included in the administration of the public assistance programs.

As the experience of the State has indicated during the past year, the authority of the State agency to establish and maintain a merit system to govern personnel engaged in the administration of the public assistance programs has on several occasions been questioned. As you will appreciate, the Social Security Board can not accept any plea on the part of the State of lack of authority and the State agency must possess the statutory powers essential for the effectuation of this phase of the State's program.

You will note from the attached copy of the board's standards that while certain exemptions are permitted it is intended that the personnel standards established by the State agency will be applicable to all State and county personnel engaged in the administration of the public assistance programs. Local civil service systems governing personnel in all agencies of the local government, and maintaining standards comparable to those established by the State agency and the board, have been found by the Social Security Board to be in keeping with the above mentioned amendment. However, it has been determined by the board, and the State of California has been so advised, that any local civil service system limited to the selection of personnel engaged only in the administration of the public assistance programs could not be found by the board to meet the requirements of the Social Security Act.

In summary, the provision of the Federal act pertaining to the administration or supervision of public assistance plans by a single State agency; amendments to the act pertaining to the consideration of income and resources in determining need, and to the protection of the confidential nature of public assistance information, and to the establishment and maintenance of personnel standards on a merit system basis, set up requirements for State plans by which the Social Security Board is governed in approving such plans. The authority of this board is derived from the Social Security Act, as amended, and is limited by the terms of the act. Adequate State legislation authorizing inclusion of these required provisions in the State plan is necessary and is prerequisite to the action of this board in approving State plans and in certifying grants in aid to the State.

Sincerely,

OSCAR M. POWELL, Executive Director

March 25, 1941

Hon. Jerry Voorhis
House of Representatives, Washington, D. C.

DEAR MR. VOORHIS: Pursuant to our conversation of March 20th, we are submitting alternative possibilities, as we see them, for revision of Sections 2020 and 3084 of the California Welfare and Institutions Code, relating respectively to old age assistance and aid to the blind, in order to bring those laws into conformity with the amendments to Titles 1 and 10 of the Social Security Act providing for the consideration of "any other income and resources."

For your convenience, we are quoting below Sections 2020 and 3084 of the Welfare and Institutions Code.

"2020. The amount of aid to which any applicant shall be entitled shall be, when added to the income of the applicant from all other sources, $35 per month.

The value of the use and occupancy of premises owned and occupied by applicants shall not be deemed income. Net income from any of the following sources of a combined total value not exceeding $15 per month shall not be considered for any purpose;

(a) Income from the applicant's labor or service; or rent from the premises owned by applicants;

(b) The value of food stuffs or other merchantable products produced by the applicant;

(c) The value of firewood or water produced on the premises of the applicant or given to him by another;

(d) The value of gifts or money, other than contributions by relatives legally responsible by law."

"3084. If the county board of supervisors is satisfied that the applicant is entitled to aid under the provisions of this chapter, it shall, without delay, issue an order therefor. The amount of aid to which any applicant shall be entitled shall be, when added to the income of the applicant from all other sources, $50 per month. Income from any of the following sources of a combined total value not exceeding $400 per annum shall not be considered for any purpose:

(a) Income from applicant's labor or services;

(b) The value of food stuffs produced by the applicant or his family for his use or that of his family;

(c) The value of firewood and/or water produced on the premises of the applicant or given to him by another for the applicant's use.

(d) The value of gifts other than regular contributions by relatives legally responsible under this act;

(e) The value of the use and occupancy of premises owned and occupied by the applicant,

(f) The net income from real and personal property owned by the applicant"

The provision of Section 2020 exempting from consideration the value of the home and net income from certain sources of a value not exceeding $15 will, after July 1, 1941, be out of conformity with Federal requirements. Similarly, the provisions of Section 3084 exempting from consideration income from certain sources not exceeding $400 per year will be out of conformity. As you know, under Sections 2(a)(7) and 10(a)(8) of the Social Security Act, the State agency must not be precluded from taking into consideration all income and resources in determining individual need. The above noted provisions of Sections 2020 and 3084 would preclude the State agency from so doing.

We believe that Sections 2020 and 3084 can be amended to bring the statutes into conformity with Federal requirements without lowering present standards of assistance. We should like to suggest the following four possibilities:

1. Sections 2020 and 3084 could be amended to read somewhat as follows:

> "The amount of aid to which any applicant shall be entitled shall be determined in accordance with the rules and regulations of the State department with due regard to his requirements and the conditions existing in his case, and to the income and resources available to him from whatever source, and shall be sufficient, when added to the income and resources determined to be available to him, to provide him with a reasonable subsistence compatible with health and well being."

Under such a provision, awards would be determined on a budgetary basis which is considered by the board to be the most satisfactory basis, and the method of determining need used by most States, including the largest ones. This permits consideration of the requirements of the individual applicant, as well as of his income and resources, and provides for the granting of assistance in accordance with his individual need.

You will note that under this proposal no special provision is made with respect to home ownership. This does not mean that a liberal policy in this regard could be formulated. As a matter of fact, the State could, and should, develop a policy under such a provision whereby consideration would be given to the cost of maintaining the home, which cost would be reflected in the grant of assistance.

2. The following language could be used if the State wishes to continue its provision for a fixed minimum of $40 (State assistance grant plus income and resources). This would also make it possible, in those cases where the individual requirements are determined to be in excess of the fixed minimum, for the award to be made in an amount, not to exceed $40, which when added to the applicant's income and resources would not exceed the individual's actual requirements:

> "The amount of aid to which any applicant shall be entitled shall be, when added to the income (including the value of currently used resources) of the applicant from all other sources, $40 per month; provided, however, that if in any case it is found the actual need of an applicant exceeds $40 per month, such applicant shall be entitled to receive aid in an amount, not to exceed $40 per month, which when added to his income (including the value of currently used resources) from all other sources, shall equal his actual need."

It should be clear that the Social Security Board does not recommend the placing of a monetary limitation on the amount of the award. It should be noted, however, that under this proposal if the needs of an individual were determined to be $60 and if that individual had income and resources of a value of $35, he could receive a grant of assistance of $25, provided that the same standards of determining his need were applied alike to a person without any income or resources. This is, therefore, not so restrictive as a rigid monetary limitation upon the award together with income and resources.

3. The deletion of all but the first paragraph of Section 2020 and the first two sentences of Section 3084 would bring those sections into conformity with Federal requirements. This would result in less liberal treatment than is now provided.

4. The deletion of all but the first paragraph of Section 2020 and all but the first two sentences of Section 3084, and the substitution in these sections of the sums of $55 and $83.33, respectively, for the amounts now specified would bring the sections into compliance. You are aware, of course, that under such a modification, all aged persons having income and resources of less than $55 per month and all blind persons having income and resources of less than $83.33 per month would be eligible for assistance. This would, no doubt, increase the cost of the programs.

If you have any questions on any of these alternatives, we shall be glad to discuss them with you further.

Sincerely,

OSCAR M. POWELL, Executive Director

MOTION TO PRINT REMARKS IN JOURNAL

Mr. Johnson moved that the remarks by Mr. Maloney and Mrs. Daley be printed in the Journal.

Mr. Kilpatrick seconded the motion.

Motion carried unanimously.

Statement by Mr. Maloney

In reporting the trip to Washington which Senator Kenny, Senator Deuel, Mrs. Daley, and I made, relative to the Social Security Law, the following are the facts:

On arriving in Washington, D. C., on Monday, June 2, 1941, the delegation met in Congressman Lea's office in the new House Office Building. Besides Congressman Lea, there were present Congressmen Richard J. Welch, Izac, Geyer, Englebright, Anderson, Thomas Ford, Leland M Ford, Ward, Johnson, Sheppard, Kramer, Voorhis, Rolph, Carter and Gearhart

After conferring with the California Congressmen, we immediately proceeded to the Social Security Board, where we discussed the subject matter in question with Mr. Oscar M. Powell, executive director, and Mr. Bigger of the board.

The question involved was relative to an amendment to the Federal Social Security Act becoming effective July 1 1941, which provides that any State agency shall, in determining need, take into consideration other income and resources of the individual claiming old age assistance. If this section of the Federal law is to prevail, it will compel changes in our State law, and curtail grants to the needy aged, further lowering their standards of living within this State. The effect of these interpretations is that the State must, contrary to the provisions of our State law, deduct, from the grant, the value of foodstuffs raised by the recipient for his own use, the value of firewood or water produced on his premises for his own use, and the value of casual gifts and money other than those made by a responsible relative or income from his labor or services

The California law provides that the total combined value of all of these exemptions shall not exceed $15 per month. If the provisions of the amendment enacted by Congress go into effect on July 1st the recipient of old age benefits in California, in our opinion, will be denied this small additional aid. Your committee vigorously made a demand that this law be interpreted so as not to interfere with the rights of California, which under the present law, gives to its recipients the right to earn up to $15 per month so that they may subsist in a clean, decent way of living in which they now do under the provisions of the California law of today.

Our appeal to the members of the board in conference did not meet with much success, as the executives of the board stated that it was a mandate of Congress, and that it was their duty to enforce it. The question was asked pointblank by the members of the committee, as to whether or not the subvention granted by the Federal Government would be withdrawn if California did not conform to the provisions of this amendment. The board answered in the affirmative that it would be. They expressed the desire to have California conform, because they did not wish to take drastic action as was taken in three other States where benefits were suspended by the board for maladministration. The committee, determined to win its point, and not have a Federal Social Security Board withdraw its grant, very emphatically stated to them that they, the committee, did not think that the board would withhold its grant of aid to California if not in conformity.

Meeting with no success with the members of the board, the committee proceeded to Congressman Lea's office, where they again met with the California Congressmen At the suggestion of your committee, a subcommittee was formed consisting of Congressmen Lea, Englebright, and Voorhis. They secured a conference with the board's executive officers to again discuss this amendment, and on the same day, reported back to our committee and to the balance of the California Congressmen that the board would not change its attitude in the interpretation of this amendment and that California must conform.

The California Congressmen have advised your committee that it will be practically impossible to secure an amendment to the act exempting California alone, because such a bill affecting this State alone would get no place were it to be brought before Congress, but that, if in the future amendments are submitted to the act in general, they would do everything in their power to amend it to conform to our present State law

At this writing Mr Voorhis has introduced three bills.

House Resolution No 3021, which repeals the section now under discussion,

House Resolution No. 4042, which gives the right to each State to define needy individuals who are blind, and blind individuals who are needy, and

House Resolution No 4041, which gives to each State the exclusive right to adopt its own interpretation of the phrase "needy individuals".

If the State law before July 1st does not conform with the Federal law, there is a danger of the State losing a grant of $3,000,000 per month, or around $38,000,000 per year for the needy aged in California, and over $2,000,000 for the blind. The question now arises which should be determined by this Legislature either today, June 6th, or Saturday, June 7th, as to whether or not the State can defy the ultimatum laid down by the Federal Social Security Board.

It is my suggestion that the Committee on Social Welfare meet with the State Administration and others interested immediately on this question, and determine whether or not California should take the chance of losing the grant that it now gets from the Federal Government if we do not conform.

(Signed) THOMAS A. MALONEY

MOTION TO EXPRESS APPRECIATION TO COMMITTEE MEMBERS

Mr. Johnson moved that the Assembly express to Mrs. Daley and Mr. Maloney, as well as to Senators Kenny and Deuel, its appreciation of their services to the Legislature and to the people of California in representing the Assembly by presenting to the United States Social Security Board the unique social security problems of California; and that the Assembly express its view that the work accomplished by the committee members in Washington, during their absence from Sacramento, was of great importance to the people of their respective districts and of the entire State.

COMMUNICATIONS

The following communication was received, and on motion of Mr. Bennett, ordered printed in the Journal:

STATE OF CALIFORNIA, DEPARTMENT OF FINANCE
SACRAMENTO, June 5, 1941

Honorable Members of the Assembly of the State of California
Sacramento, California

GENTLEMEN: There was introduced in the Assembly yesterday a resolution by Assemblyman Poulson requesting the Governor and the Director of Finance to have made without delay a complete audit of activities of the Department of Finance. Audit of the Department of Finance is next on the schedule of audits as planned October 10, 1940, in accordance with which audits have been scheduled since that time. The audit will be undertaken as rapidly as staff is available and in accordance with the fixed schedule.

To preclude misunderstanding of situations to which arguments incorporated in the resolution refer, there are offered comments which should be considered in connection with such arguments, quotations comprising all the arguments for the resolution incorporated therein, and statements of relevant fact.

> "WHEREAS, The Director of Finance is required by law to audit, or cause to be audited, at least once annually the financial records of all State agencies, including the Department of Finance; and
>
> WHEREAS, No audit has ever been made of the State Lands Commission in the Department of Finance, nor of the functions of the department pertaining to investments in stocks and bonds and the disposition of vehicles forfeited to the State under the Narcotic Laws; and"

Field work comprising an audit of the State Lands Commission already has been completed and accountants are preparing a report of the findings.

Functions of the department pertaining to investments in bonds have been investigated in connection with audit of general records of the State maintained by the Controller, which audit has been completed to December 31, 1939. No stocks have ever been purchased by the Department of Finance as investments, such purchase of stocks being prohibited by the Constitution. All investment transactions initiated since 1933 have been presented to, reviewed, and approved by the State Board of Control before such transactions have been completed by the Department of Finance.

All financial transactions related to disposition of vehicles forfeited to the State under the Narcotic Laws were audited as one phase of audits of revenue collected

by the Department of Finance, which have been previously completed and reported. Further verifications of related transactions have been undertaken in connection with previously completed audits of records of the Division of Narcotic Enforcement.

The resolution continues:

"WHEREAS, An Investigating Committee of this Assembly has found

(1) That such audits as have been made of particular activities of the Department of Finance have been made by employees of the department under the supervision of the Chief of the Division of Budgets and Accounts.

(2) That the employees who made these audits submitted manuscript reports thereof to the Chief of the Division of Budgets and Accounts, who in turn, submitted typewritten or printed reports thereof to the Director of Finance and the Governor

(3) That, with one exception, all reports submitted to the Chief of the Division of Budgets and Accounts were submitted by the latter to the Director of Finance and the Governor without alteration.

(4) That one report submitted to the Director of Finance and the Governor, covering a period ending June 30, 1938, contained a number of material alterations, of which the following are illustrative:

(a) The manuscript report stated:

'The accounting records can not be described as anything short of inadequate and unreliable.'

The typewritten or printed report stated:

'The accounting records were not found to be adequate in some respects.'

(b) The manuscript report stated

'Our examination of the system of internal check disclosed several instances in which methods did not comply with accepted accounting theories.'

The typewritten or printed report stated:

'Our examination of the system of internal check disclosed several instances in which methods can be improved'

(c) The manuscript report stated:

'Records pertaining to the Division of State Lands were found to be in such condition that it was deemed advisable to exclude them from the purview of our examination at this time with the expectation that a special examination and system revision would be instituted in the near future.'

The typewritten or finished report stated.

'It was deemed advisable to exclude the Division of State Lands from the purview of our examination at this time for the reason that a special examination and system revision is to be undertaken in the near future,' and"

It will be seen from analysis of the alterations which the resolution describes as material that they are not, in fact, material, that the portions of the formal report text which were quoted are grammatically superior to the expressions which they replaced, and that the formal report text was, for all practical purposes, as informative as were the somewhat less grammatical expressions originally submitted in the report manuscript. It is the sanctioned practice of auditors of public accounting firms and of the State to revise preliminary manuscript and to use language no more forceful than is requisite to necessary understanding and action when preparing formal reports for release

That the report has, in fact, served all practical requirements is further indicated by the following facts A complete survey of all accounting records and procedures of the Department of Finance has been undertaken by an expert on accounting systems who has for several months been engaged in that project Changes in full accord with the expert's recommendation are being made from time to time as portions of the system revision are completed

An audit of the Division of State Lands has been completed since completion of the audit of the Department of Finance Numerous improvements in records of the Division of State Lands have been instituted and preparations have been made for additional work as soon as funds appropriated for the purpose become available July 1, 1941

As heretofore stated, the work program of the Department of Finance formulated October 10, 1940, contemplates that audit of the Department of Finance be undertaken as the next audit project Staff requirements in connection with other audits now in progress and in connection with financial administrative duties which must be performed currently would have precluded commencement of the audit of the Department of Finance until about August 1, 1941, if the normal work program and urgency of necessary functions were considered

Very truly yours,

GEORGE KILLION, Director of Finance

MESSAGES FROM THE SENATE

SENATE CHAMBER, SACRAMENTO, June 6, 1941

MR. SPEAKER: I am directed to inform your honorable body that the Senate refused to sustain the Governor's veto to:

Senate Bill No. 26—An act to amend Section 995 of the Penal Code, relating to causes for which indictment or information must be set aside.

Herewith is a copy of Governor's message relating to said bill.

J. A. BEEK, Secretary of the Senate
By JOHN F. LEA, Assistant Secretary

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 31, 1941

To the Honorable Members of the Senate
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Senate Bill No. 26, entitled "An act to amend Section 995 of the Penal Code, relating to causes for which indictment or information must be set aside."

My objections to this bill are as follows:

In 1939, Section 995 of the Penal Code was amended to provide that an information must be set aside upon motion of a defendant by the court in which he is arraigned in case "the defendant had been committed without reasonable or probable cause."

This bill provides that an indictment shall be set aside for the same cause.

I had no objection to the 1939 Enactment since for a great many years Subdivision 7 of Section 1487 of the Penal Code has provided that a person committed on a criminal charge without reasonable or probable cause is entitled to discharge by habeas corpus. The 1939 Bill simply provided a new procedure whereby, by motion to set aside the information, the same result could be secured as by habeas corpus.

This bill, however, changes the general rule of law which has been in effect since there have been grand juries, which is that the sufficiency of the evidence upon which a prisoner was indicted can not be reviewed by habeas corpus. (29 C. J. 46; *In re Kennedy*, 144 Cal. 634; 25 Am. Jur 172) or otherwise. (*People* vs *Hatch*, 13 Cal. App 521, 528; *Brobeck* vs *Superior Court*, 152 Cal. 289.)

The courts for the most part have not stated the underlying reasons for this long standing rule of law. Our Supreme Court in the *Kennedy* case denied the reason given by a few other courts, namely, preservation of secrecy of grand jury proceedings, and stated its reason for the rule to be that any such inquiry into the sufficiency of the evidence on which the grand jury acted would turn the writ of habeas corpus into "a writ of review for the purpose of inquiring whether the grand jury committed an error reversible on appeal" and that "an entirely new field of litigation in criminal cases would be opened up and few indictments would come to trial without this preliminary contest."

The Supreme Court of Iowa gave its reason for the rule as follows: "The judge would become an appellate tribunal to reverse or affirm the decisions of grand juries and may thwart the action of that body altogether if he sees proper." (*Hight* vs. *U S.*, 43 Am Dec. 111, Morris 407.)

I am not implying that any of our courts would intentionally act to thwart the actions of grand juries My objection is based upon the legal and practical effect of this bill. In my opinion the court, regardless of its feeling about the case, would be compelled by this law to set aside an indictment if any insufficiency in the proceedings of the grand jury were shown by the reporter's transcript. This follows, since the identical words "without reasonable or probable cause" as used in Section 1487, Subdivision (7) of the Penal Code, relating to habeas corpus, have been construed by our courts to have that effect in the cases of commitments on preliminary hearings.

It has been held that the evidence at the preliminary hearing must establish each and every essential element of the crime charged. (*In re Jang*, 25 Cal. App (2d) 529.)

If a showing as to venue is neglected, reasonable and probable cause for the commitment is not shown. (*In re Huber*, 103 Cal App. 315.)

It does not follow that because a defendant will be released on account of such defects in the evidence on which he was committed after a preliminary hearing before a magistrate, that the same should be true in the case of an indictment by the grand jury. There is a practical and real distinction between the two proceedings.

The district attorney is in charge of preliminary examinations, presents the evidence, and cross-examines on behalf of the people. He is able, and it is his duty to see to it that evidence showing reasonable cause for commitment is presented to the magistrate

His position before the grand jury is entirely different The grand jury is an independent body provided for by our Constitution, Section 1, Article VIII Under Section 925 of the Penal Code, the grand jury may ask the district attorney's advice, but there is nothing requiring the grand jury to do so While the district attorney may be present and examine witnesses, the courts have said that it is his duty to refrain from advising the grand jury as to the sufficiency of the evidence unless they request such advice (*People* vs *Hatch*, 13 Cal App 521, 528; 13 Cal. Jur. 78.)

While, as a practical matter, the district attorney should be present at all of the proceedings of the grand jury, there is nothing to prevent the grand jury from meeting when the district attorney is not in attendance In some of the smaller counties where the district attorneys do not have large staffs of assistants, the district attorney is not always able to be present at all sessions of the grand jury. If for any reason the grand jury brings in an indictment in a case in which the transcript of the testimony taken will show that the evidence is insufficient as to venue, corpus delicti or any other essential element of the crime, this bill would require such indictment to be set aside The district attorney, on looking over the transcript, will see that the essential element was not proved before the grand jury If the district attorney has the proof at hand to prove that element at the trial, he is in position to proceed. If he does not have such proof and knows that it can not be secured, he has authority to request a dismissal of the indictment and the court has power to dismiss. (Penal Code, Section 1385.) An illustrative case wherein such procedure was followed is *Brobeck* vs *Superior Court*, 152 Cal 289.

It may be that a grand jury has acted in part on hearsay or incompetent evidence. Under the present law this would not be cause for setting aside the indictment. (*Poole* vs. *Fealy*, 33 Cal. App 605.) Under this bill an indictment would have to be set aside, notwithstanding that the district attorney had competent and first hand evidence to offer on the trial If he did not have such evidence, it would be his duty to go to the court and ask that the indictment be dismissed.

California has relaxed the common law rule which originally prevailed as to secrecy of grand jury proceedings. The defendant is now furnished with a complete transcript of the proceedings before the grand jury to enable him to prepare his defense. (Penal Code, 925.) This bill provides, in effect, that this must be

a legally perfect transcript proving all the essential elements of the crime charged and that otherwise the court must set the indictment aside. This will result in delay in the trial of persons accused of crime.

The grand jury is a lay body provided for by the Constitution, legally entitled but not required to ask advice of the district attorney. It is this independence of the grand jury which gives it its value. To provide that the grand jury should hear only such evidence as is presented by the district attorney and should return only such indictments as are approved by him would destroy its value as a part of our Judicial System. It would be better to abolish the grand jury and to base all prosecutions on information. Yet the only way to insure against technical imperfections in the proceedings of grand juries is to restrict their independence of action

It would appear to me that should an indictment be set aside, after the statute of limitations had run, for some technical defect in the proceedings of the grand jury, the person charged would escape prosecution.

I think that we should assume that the district attorneys will perform their sworn duties in good faith and will not needlessly prosecute.

The grand jury has always been a part of our System of Jurisprudence. No particular abuses of the rights of individuals have been called to my attention. Such search of the authorities as time permits indicates that the present California law prohibiting going behind the indictment is the general rule in this country.

For the reasons stated above, I am returning the bill without my signature.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

Amendment No. 2

Strike out line 2 of the title of the printed bill, and insert "to workmen's compensation insurance in connection with defense projects of the Federal Government and defense agencies thereof, declaring the urgency hereof, to take effect immediately."

"SECTION 1. Section 11738.5 is hereby added to the Insurance Code, to read as follows

11738.5. (a) Notwithstanding any other provision of this article, the commissioner may approve special rates or rating plans applicable only to workmen's compensation insurance covering workmen and employers engaged in National defense projects in connection with which the cost of insurance is a direct item of expense to the United States or a defense agency thereof by reason of a specific agreement by the United States Government or special defense agency to pay such cost, or reimburse the insured, as a separate item of expense, or similar plans submitted by the United States Government or defense agency thereof

(b) This section is enacted to meet the National emergency arising out of the necessities of National defense and shall not be effective beyond the period of National emergency, termination of which shall be proclaimed by the commissioner, and in any event this section shall not be effective after September 30, 1949.

SEC. 2. The Legislature hereby declares that in enacting Section 11738.5 of the Insurance Code, it is its intention to permit the Insurance Commissioner to determine when the emergency of National defense has expired and to terminate the effect of said section of the Insurance Code in accordance with the proclamation of the Insurance Commissioner determining that the period of National emergency has elapsed. If the delegation of such power to the Insurance Commissioner is for any reason unconstitutional, the Legislature hereby declares that it would have enacted said Section 11738.5 of the Insurance Code notwithstanding such contingency, and that it is its intention in such circumstance that the authority granted the Insurance Commissioner by Section 11738.5 of the Insurance Code shall remain vested in him until September 30, 1949.

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1, Article 4 of the Constitution of the State of California, and shall take effect immediately. The following is a statement of the facts constituting such necessity:

The Federal Government through its War Department and other defense agencies is now engaged upon a vast program of construction and other undertakings in the interest of National defense. In order efficiently to supervise, manage and control work under such program, it is necessary that such matters connected therewith be handled uniformly on a National basis, and that workmen's compensation insurance connected with such projects be similarly handled and procured at a cost commensurate with the sizes of the undertakings involved. There is doubt under the present law whether the Insurance Commissioner has power to approve special rating plans or classifications necessary to facilitate the construction of and work under these National defense projects, and the delay which would be encountered in procuring satisfactory legal determination of such questions would be inimical to the National defense. It is, therefore, necessary in the interests of National defense to expedite the commencement and continuation of such projects in this State by removing all doubt as to the authority of the Insurance Commissioner to make special provision for workmen's compensation insurance on National defense projects."

Amendment No. 4

On page 1 of the printed bill, strike out lines 3 to 25, inclusive; and on page 2, strike out lines 1 to 6, inclusive
