Very respectfully yours,

By W. C. BUCHANAN, Secretary

Transmitted to the Senate and Assembly this 18th day of February, 1941.
PAUL PEEK, Secretary of State

By Mr. Weber:

SACRAMENTO, CALIFORNIA, February 19, 1941

Honorable Gordon Garland, Speaker of the Assembly
Sacramento, California

DEAR MR. SPEAKER. Your Special Committee on Legislative Organization consisting of Messrs. Desmond, Lyon and Weber, respectfully submits herewith a Report on the Organization of the Standing Committees of the Assembly and the arrangement of a schedule for their meetings

The report recommends the adoption of several new Standing Rules by the Assembly, immediately after the reconvening of the Legislature on March 3, 1941.

Your committee respectfully refers you to the Supplemental Report on Reorganization of the Standing Committees of the Assembly made pursuant to House Resolution No. 205, adopted June 20, 1939, which proposed the amendment of the rules *in a manner similar* to that recommended by the present report.

Respectfully.

CHARLES M. WEBER, Chairman
Assembly Committee on Legislative Organization

MOTION TO PRINT REPORT IN JOURNAL

Mr. Weber moved that the following report be ordered printed in the Journal:

Motion carried.

Reorganization of the Standing Committees of the Assembly

Arrangement of a Schedule for Committee Meetings

In arranging a time schedule for the meetings of the 58 standing committees of the Assembly, a most difficult problem presents itself. There are available only 27 periods of time during each week for the meeting of about 50 standing committees, which obviously creates conflicts in the schedule of the individual member, whereby he is required to serve on more than one committee at the same time. Under present committee assignments, each member serves on eight to ten committees so that when the meetings are set to schedule, it is found that from four-tenths to seven-tenths of the members of each committee have conflicts. Under such circumstances, it is almost impossible to have a quorum present in order to hold committee

meetings. It is difficult to relieve this condition to any satisfactory degree by changing the meeting times of the committees because the further limitation exists that certain committees require specific rooms of large size in order to accommodate the committeemen and the public.

The final result of this improper organization is that the Assembly faces a break-down in its system of consideration of legislation during the present session, which will cause a prolonged period of confusion, obstruct proper consideration of bills, prevent cooperation on the part of the public, increase the nerve strain and exhaustion of the members and add possibly a month to the duration of the session with great attendant expense.

The Senate on its part has merged its committees' work and has reduced the number of its standing committees to 20. This action took place on May 20, 1940, during the extraordinary session. Although one year prior thereto the Assembly, acting upon the report of its Special Committee, adopted Assembly Resolution No. 205 on June 20, 1939, consolidating its committees in a rational manner and reducing their number to 28, during the special session which followed, as there were comparatively few bills submitted under the proclamation convening the First Extraordinary Session of 1940, the Assembly readopted the old Rules.

The present session was organized as a result of action taken at the special session of last December and consequently the list of standing committees under the old Rules was used by the members of the Assembly in selecting the committees of their choice Thus it is that the Assembly again finds itself in the same position as in the Session of 1939 and faced with far worse confusion.

It should be obvious to every member that some consolidation on the schedule or merging of committees must take place in order that excessive conflicts be eliminated.

By using the present organization of the committees as a basis, it is found that a rational method of merging some committees is possible, while still preserving the rights of their respective chairman, although slightly modifying their duties.

Your committee, therefore, respectfully recommends that the following resolution amending the Standing Rules of the Assembly be adopted in order to reduce the conflicts in schedule which would otherwise occur and to aid in the proper consideration of bills before committees and that action necessary to facilitate the operation of the amendments be taken by the chairmen and members of the standing committees:

House Resolution No. ___

It is further recommended that prior to the assignment of members to serve on the several standing committees, the Speaker or the Committee on House Functions shall consider the preferences of the members with regard to committee assignments, while keeping in view the practical necessity of making assignments so that members will not serve on more than one committee which meets at the same time and that the Speaker thereafter shall determine the number and the members to serve on each standing committee. Upon publication in the Journal of the number of members on each standing committee, no further change in the membership of the committee should be made otherwise than by a majority vote of the Assembly.

Section 1. A municipal utility district may be created as herein provided and when so created may exercise the powers herein granted. Any [municipality] *public agency* together with unincorporated territory may so organize and incorporate; likewise any two or more [municipalities] *public agencies*, whether contiguous or otherwise or in the same or different counties, may organize and incorporate as a municipal utility district. Unincorporated territory may be embraced and

Said resolutions may state the kind of utility proposed to be first acquired, but failure to acquire such utility shall not affect the validity of the district. They shall describe the exterior boundaries of the proposed district *provided, that if it is intended to organize said district of [incorporated municipalities] public agencies only*, then and in that case a statement of the names of such [municipalities] *public agencies* shall constitute a sufficient description of said district. Certified copies of said resolutions shall be presented to the board of supervisors of the county containing the largest number of registered electors within the proposed district requesting said board to call an election without delay for determining whether such district shall be created.

Instead of said resolutions, a petition may be presented to the board of supervisors of said county signed by qualified electors within the boundaries of said district equal in number to at least 10 per cent of the total vote cast at the last general State election within the territory proposed to be included in said district Said petition shall contain substantially the same declarations and statements required to be contained in the resolutions aforementioned, and declare that, in the opinion of the petitioners, public interest or necessity demands the creation and *maintenance of a municipal utility district. Such petition may be on separate* papers, but each paper shall contain the affidavit of the party who circulated it certifying that each name signed thereto is the true signature of the person whose name it purports to be. The clerk of the board of supervisors of said county shall compare the signatures with the affidavits of registration and certify to the sufficiency or insufficiency of such petition.

SEC. 4. Section 5 of said act is hereby amended to read as follows:

The time fixed for such hearing shall be not less than thirty (30) nor more than sixty (60) days from the date of the first publication of said ordinance. At such hearing any person interested may file written objections to the execution of said agreement with the board of directors of the utility district. Upon such hearing the board of directors of the utility district shall determine whether or not said agreement shall be carried into execution and shall hear and determine all objections thereto. Failure of any person interested in said utility district or in the matter of the proposed execution of said agreement to show cause in writing as aforesaid, shall be deemed and taken as an assent on his part to a change in the boundaries of the utility district and to the execution of such agreement. Any such hearing may be adjourned from time to time by the board of directors without further notice other than an order to be entered upon the minutes of the meeting fixing the time and place of such adjournment. In the event no protests are filed or the protests filed are overruled and denied by the board of directors such board shall thereupon, by resolution, finally approve said agreement and authorize its execution, which shall become effective when executed by the other party thereto, duly authorized in the manner hereinafter provided. When so executed by the utility district the same shall be dated and an executed copy thereof filed with the secretary of said utility district, and an executed copy shall also be filed with the secretary or clerk of the [municipality or county water district] *public agency* to be annexed.

Notice of such election shall be published once a week for two weeks prior to the date fixed for said election, or posted at least two weeks in three public places in said [municipality or county water district] *public agency* in the event no newspaper of general circulation is published therein. It shall not be necessary to set forth the terms and conditions of said agreement of annexation at length but the notice of said election shall state that a copy thereof is on file in the office of the secretary or clerk of the [municipality or county water district] *public agency* proposed to be annexed, open to the inspection of all persons interested; provided, however, the legislative body of the [municipality or county water district] *public agency* to be annexed may in its discretion set forth the terms and conditions of said agreement of annexation at length in said notice of election, but this requirement is not mandatory.

The ballots for said election shall contain substantially the instructions required to be printed on ballots for use at general State and county elections and in addition thereto shall set forth the proposition of annexation substantially as follows:

Shall the [city of] _____ (*public agency*) [(or the town of _____ or the county water district)] be annexed to _____ Municipal Utility District in accordance with and subject to all of the terms and conditions of an agreement of annexation dated _____ now on file in the office of the clerk (or secretary) of _____ (*public agency*) [(city, town or county water district)]?	YES	
	NO	

Said election, in all matters pertaining thereto not otherwise provided for herein, shall be held and conducted and the result thereof ascertained, determined and declared in accordance with the General Election Laws of the State so far as the same may be applicable.

If upon a canvass of such election it shall be found that a majority of all votes cast at said election were cast in favor of the annexation said proposition and all of the terms and conditions of said agreement of annexation shall be deemed to have been carried and approved by the electors; provided, however, that if the terms and conditions of said agreement of annexation provide for the assumption of any indebtedness of said utility district by any [municipality] *city* proposed to be annexed, said proposition of annexation shall not be deemed carried unless approved by the vote of two-thirds of all the voters voting at such election. If such proposition fails to carry the result thereof shall be entered upon the minutes of the governing body of such [municipality or county water district,] *public agency*. In the event said proposition receives the vote of the requisite majority of electors hereinabove set forth the governing body of said [municipality or county water district] *public agency* shall enter in its minutes an order declaring the result of such election and shall thereupon cause the agreement of annexation to be executed by its duly authorized officers Upon receipt by said utility district of a certified copy of said agreement of annexation properly executed by the municipal utility district and the [municipality or county water district] *public agency* proposed to be annexed thereto the board of directors of said utility district shall pass a resolution declaring said [municipality or county water district] *public agency* annexed to said utility district, and shall cause a certified copy of said resolution to be filed with the Secretary of State of the State of California. Tenth—To make contracts and to enter into stipulations of any nature whatsoever, either in connection with eminent domain proceedings or otherwise, including, without limiting the generality of the foregoing, contracts and stipulations to indemnify and save harmless, also to employ labor, and to do all acts necessary and convenient for the full exercise of the powers herein in this act granted.

Eleventh—To proceed in the name of the district in case of condemnation proceedings.

Twelfth—To invest any surplus money in the district treasury, including money in any sinking fund established for the purpose of providing for the payment of the principal or interest of any bonded or other indebtedness or for any other purpose, not required for the immediate necessities of the district, in its own bonds, [or in the treasury notes or bonds of the United States, or of this State, or bonds of any city and county, city school district or county water district situated within the county or counties in which the municipal utility district is situated in whole or in part, or bonds of any county which includes any part of such municipal utility district] *or in bonds of any special district established pursuant to the provisions of this act or in treasury notes or bonds of the United States, or of this State or bonds of any county, city and county, city, school district or in bonds of any other public or municipal corporation or public district within this State which are legal as security for the deposit of public funds*, and such investment may be made by direct purchase of any issue of such bonds or treasury notes, or part thereof, at the original sale of the same or by the subsequent purchase of such bonds or treasury notes. Any bonds or treasury notes thus purchased and held may from time to time be sold and the proceeds reinvested in bonds or treasury notes as above provided. Sales of any bonds or treasury notes thus purchased and held shall from time to time be made in season so that the proceeds may be applied to the purposes for which the money, with which the bonds or treasury notes were originally purchased, was placed in the treasury of the district.

Thirteenth—*To sell, or otherwise dispose of any water, sewer effluent, fertilizer or other by-product resulting from the operation of a sewage disposal system, and to construct, maintain and operate such pipe lines and other works as may be necessary for that purpose.*

Fourteenth—*To accept, without limitation by any other provisions of this act requiring approval of indebtedness, contributions or loans from the United States of America, or any department, instrumentality or agency thereof, for the purpose of financing the construction, maintenance and operation of any enterprise in which the district is authorized to engage, and to enter into contracts and cooperate with, and accept cooperation from, the United States of America, or any department, instrumentality or agency thereof, in the construction, maintenance and operation, and in financing the construction, maintenance and operation, of any such enterprise in accordance with any legislation which Congress may have heretofore adopted or may hereafter adopt, under which aid, assistance and cooperation may be furnished by the United States of America in the construction, maintenance and operation or in financing the construction, maintenance and operation of any such enterprise; and to do any and all things necessary in order to avail itself of such aid, assistance and cooperation under any Federal legislation now or hereafter enacted.*

Fifteenth—*To accept, without limitation by any other provisions of this act requiring approval of indebtedness, contributions of money, rights of way, labor, materials and any other property for the construction, maintenance and operation of any enterprise in which the district is authorized to engage, and to enter into any contracts and cooperate with, and accept cooperation from, the State of California, or any department, instrumentality or agency thereof, or any public agency of this State in the construction, maintenance and operation of, and in financing the construction, maintenance and operation of, any such enterprise.*

SEC. 16. Section 15 of said act is hereby amended to read as follows:

SEC. 15. Any district organized under this act may from time to time, as hereinafter provided, incur a bonded indebtedness to pay the cost of acquiring, constructing or completing the whole or any portion of any utility or works referred to

in this act, or for acquiring any works, lands, structures, rights or other property necessary or convenient to carry out the objects, purposes or powers of such district.

Whenever the board of directors of any such district shall, by resolution passed by vote of two-thirds of all its members, determine that the public interest or necessity demands the acquisition, construction or completion by the district of any public utility or utilities referred to in this act, or any part thereof, or any works, lands, structures, rights or other property necessary or convenient to carry out the objects, purposes or powers of such district, the cost of which will be too great to be paid out of the ordinary annual income and revenue of such district, it may at any subsequent meeting of said board of directors provide for the submission of the proposition of incurring a bonded debt for the purpose set forth in said resolution, to the qualified voters of such district, at any election held for that purpose; provided, that propositions for incurring indebtedness for more than one object or purpose may be submitted at the same election. The ordinance calling such election shall recite the objects and purposes for which the indebtedness is proposed to be incurred, the estimated cost of the utility, works, lands, structures, rights or other property proposed to be acquired, constructed or completed, the amount of the principal of the indebtedness to be incurred therefor, and the rate of interest to be paid on said indebtedness, and shall fix the date on which such election will be held, the manner of holding such election, and the voting for or against incurring such indebtedness, and in all particulars not recited in said ordinance, such election shall be held as provided by law for holding general elections in such district; provided, however, that if the rate of interest to be paid on such indebtedness shall not exceed 4½ per cent per annum, payable semiannually, the rate of interest need not be recited in said ordinance, but in its discretion the board of directors may recite in said ordinance a maximum rate of interest to be paid on such indebtedness, not exceeding 6 per cent per annum, payable semiannually, which rate, when so recited, shall not be exceeded in the issuance of bonds for such indebtedness.

Said ordinance shall be published once a day for at least seven days in some newspaper published at least six days a week in such district, or once a week for two weeks in some newspaper published less than six days a week in such district; and one insertion each week for two succeeding weeks shall be a sufficient publication in such newspaper published less than six days per week. In districts where no such newspaper is published, said ordinance shall be posted in three public places therein for two succeeding weeks. No other notice of such election need be given. It shall require the votes of two-thirds of all the voters voting at such election to authorize the issuance of the bonds herein provided; provided, however, should the proposition so submitted at such election fail to receive the requisite number of votes of the qualified voters voting at such election to incur the indebtedness for the purpose specified, the board of directors of such district shall have no power or authority within six months after such election to call or order another election for incurring any indebtedness for the acquisition, construction or completion of improvements or property substantially the same as voted upon at such prior election, unless a petition signed by at least 15 per cent of the qualified electors of such district computed upon the total number of votes cast therein for all candidates for Governor at the last preceding election at which a Governor was elected be filed with the board of directors of such district, requesting that said proposition, or a proposition substantially the same, be submitted at an election to be called for the submission of such proposition and to be held in accordance with the provisions of this act. The bonds so authorized shall mature serially in amounts to be fixed by the board of directors; provided, that the payment of said bonds shall begin not later than 10 years from the date thereof and be completed in not more than 50 years from said date. Said bonds shall be issued in such denominations as the board of directors of the district determine, except that no bonds shall be of a less denomination than one hundred dollars ($100), nor of a greater denomination than one thousand dollars ($1,000), and shall be payable on the day and at the place or places fixed in said bonds, and with interest at the rate specified therein, which interest shall be payable semiannually. The board of directors may provide for the call and redemption of any or all of said bonds on any interest payment date prior to their fixed maturity at not exceeding the par value thereof and accrued interest plus a premium of not exceeding 5 per cent upon the principal amount of said bonds, in which event a statement to that effect shall be set forth in the ordinance calling the election and the call price fixed by the board of directors shall be set forth on the face of the bond. Notice of such redemption shall be published once a week for three successive weeks in a newspaper of general circulation printed and published within the district or if there be no such newspaper printed and published within the district then the publication shall be made in a newspaper of general circulation printed and published within the county in which the said district or any part thereof is situated, the first publication of which shall be at least 30 days prior to the date fixed for such redemption. After the date fixed for such redemption, interest on said bonds thereafter shall cease. Said bonds shall be signed by the president of the board of directors of the district or by such officer thereof as the board of directors shall, by resolution adopted by a two-thirds vote of all its members,

authorize and designate for that purpose. They shall also be signed by the treasurer thereof, and be countersigned by the secretary thereof. The coupons of said bonds shall be numbered consecutively and be signed by the treasurer by his lithographed or engraved signature. All such signatures and countersignatures except that of the treasurer, on said bonds may be printed, lithographed or engraved. In case any of such officers whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officer before the delivery of said bonds to the purchaser, such signatures or countersignatures shall nevertheless be valid and sufficient for all purposes, the same as if they had remained in office until the delivery of the bonds. Said bonds may be issued and sold by the board of directors of the district as they determine, but for not less than their par value. The proceeds of said bonds shall be placed in the district treasury to the credit of the proper fund, and shall be used exclusively for the objects or purposes for which said bonds were voted.

No municipal utility district shall incur an indebtedness for public works which shall in the aggregate exceed 20 per cent of the assessed value of all the real and personal property of such district; provided, however, any indebtedness which has been incurred for the construction and operation of a public utility, where the revenue from said utility for three years or more next preceding has been sufficient to pay the interest and principal due on any bonds issued for its construction or acquisition, in addition to the cost of operation and maintenance, shall not be counted and included in ascertaining the limit of indebtedness; *provided further, that any indebtedness incurred for the construction or operation of a public utility within any special district created pursuant to the provisions of this act shall be excluded in ascertaining the aggregate indebtedness hereinabove specified.*

The board of directors of such district shall, at the time of fixing the general tax levy and in the manner for such general tax levy provided, levy and collect annually each year until said bonds are paid, or until there shall be a sum in the treasury of such district set apart for that purpose to meet all sums coming due for principal and interest on said bonds, a tax sufficient to pay the annual interest on said bonds, and also such part of the principal thereof as shall become due before the time for fixing the next general tax levy; provided, however, that if the maturity of the indebtedness created by the issue of bonds be made to begin more than one year after the date of the issuance thereof, said tax shall be levied and collected at the time and in the manner aforesaid annually each year, sufficient to pay the interest on said indebtedness as it falls due, and also to constitute a sinking fund for the payment of the principal thereof on or before maturity. The taxes herein required to be levied and collected shall be in addition to all other taxes levied for district purposes, and shall be collected at the time and in the same manner as other district taxes are collected, and be used for no other purpose than the payment of said bonds and accruing interest.

In lieu of a resolution passed as hereinbefore provided by its board of directors, proceedings for the issuance of bonds for the purposes in this section provided may be initiated by petition of the qualified electors of such district.

Whenever any petition or petitions, each signed by electors of the district equal in number to 15 per cent of the qualified electors of such district, computed upon the total number of votes cast therein for all candidates for Governor at the last preceding election at which a Governor was elected, shall be presented to the board of directors of said district asking for the acquisition, construction or completion of the whole or any portion of any utility, or works referred to in this act, or for acquiring any works, lands, structures, rights, or other property necessary or convenient to carry out the objects, purposes or powers of such district, and also asking that a bonded indebtedness be incurred to pay for the cost thereof, then it shall be the duty of the secretary of the district to immediately proceed to examine and verify the signatures of such petition or petitions, and to certify the result of such examination to the board of directors. If the required number of signatures be found to be genuine, the secretary shall transmit to the board of directors an authentic copy of such petition or petitions without the signatures thereto. Upon receiving the petition or petitions with the certificate of the secretary stating that it or they contain the required number of signatures, the board of directors shall formulate for submission to the electors of the district at a special election called for that purpose the proposition of incurring a bonded debt for the purposes set forth in said petition, and thereafter the said election and all things and proceedings with reference to the said bonds and the issuance thereof shall be conducted and performed in the same manner as if the proceedings had been initiated by resolution of the board of directors of said district as hereinbefore provided. In its discretion the board of directors may defer the calling of said election until the next general election to be held in the district in order that the same may be consolidated therewith.

Any election called for the submission of any question or proposition under the provisions of this section, may be held separately, or may be consolidated with any other election authorized by law at which the qualified voters of such district are entitled to vote; provided, however, that in the event any such election called pursuant to the provisions of this section is consolidated with any other election, the

provisions of this section setting forth the procedure for the calling and holding of the election called pursuant to the provisions of this section, shall be complied with, except that the ordinance calling such election need not set forth the election precincts, polling places and officers of election, but may provide that the precincts, polling places and officers of election shall be the same as those set forth in the ordinance, notice or other proceedings calling the election with which the election called pursuant to the provisions of this section, is consolidated, and shall refer to such ordinance, notice or other proceeding by number and title, or by other definite description.

SEC. 17. Section 15a of said act is hereby amended to read as follows:

Sec. 15a. In lieu of the immediate levy of a tax to pay the interest or any part thereof on any bonded debt hereafter incurred [as provided in Section 15] *in accordance with any provisions* of this act the board of directors may in the estimate of the amount of money necessary to be raised by such bonds include a sum sufficient to pay interest on all of such bonds or part thereof during the period of acquisition, construction or completion, and until revenues may be earned by the contemplated public utility or utilities, but for no period in excess of five years. Thereafter the board may use so much of the proceeds from the sale of the said bonds as may be necessary for the payment of such interest until the receipt of revenues, the amount used however not to exceed the sum so included by the board in its estimate for such purpose.

SEC. 18. Section 15d is hereby added to said act, to read as follows:

Sec. 15d. One or more special districts for sewage disposal purposes may be created within the boundaries of a municipal utility district in the manner following:

Resolutions shall first be passed by the legislative bodies of half or more, but of not less than two, of the public agencies, all or any part of the areas of which it is intended to include in the proposed special district, declaring that the public interest or necessity demands the creation of a special district for sewage disposal purposes and shall describe the boundaries of the same. The boundaries of the proposed special district may include territory outside any such public agency, provided such territory is within the area of the municipal utility district. When the entire area of any public agency is to be included in such special district it may be described in said resolutions by name. Certified copies of said resolutions shall be filed with the secretary of said municipal utility district.

Instead of said resolutions, a petition may be filed with the secretary of said municipal utility district signed by qualified electors within the boundaries of a proposed special district, which boundaries shall include two or more public agencies, equal in number to at least 10 per cent of the total vote cast at the last preceding general election within the territory proposed to be included in such special district, which said territory shall be described in said petition. A statement of the name of any public agency shall constitute a sufficient description of the territory thereof if the entire area of such agency is included. Such petition shall declare that the public interest or necessity demands the creation of such special district for sewage disposal purposes within such area of said municipal utility district described in said petition. Such petition may be on separate papers, but each paper shall contain the affidavit of the party who circulated same, certifying that each name signed thereto is the true signature of the person whose name it purports to be. The secretary of said municipal utility district shall compare the signatures with the affidavits of registration and certify to the sufficiency or insufficiency of such petition.

The board of directors of any municipal utility district on its own motion, and without any previous resolution or resolutions of any public agency included within such municipal utility district, or without any petition therefor as hereinbefore provided, may initiate proceedings for the creation of any special district for sewage disposal purposes within the area of such municipal utility district by passing a resolution declaring that the public interest or necessity demands the creation of such special district for sewage disposal purposes, and in said resolution shall describe that portion of the area of said municipal utility district which it is proposed to include in such special district, which shall include two or more public agencies. A public agency to be included may be described by name. No certified copy of such resolution need be filed with the secretary of such municipal utility district.

SEC. 19. Section 15e is hereby added to said act, to read as follows:

Sec. 15e. Within sixty (60) days after receipt of the resolution or resolutions of said public agencies or the certification of the sufficiency of such petition by the

secretary of the district, or the passage of the resolution of the board of directors of the municipal utility district, the said board of directors shall, by resolution, designate said special district as "_____(here insert name) Municipal Utility District, Special District No.____(here insert number)" (all such special districts shall be numbered consecutively) and shall fix a time and place for a hearing on the proposed creation of said special district for sewage disposal purposes, and shall publish notice thereof. Said notice shall be published once in a newspaper of general circulation printed and published in said municipal utility district. If no such newspaper is printed and published therein, then notice of such hearing shall be given by posting a notice thereof in three (3) public places within the boundaries of such municipal utility district at least one of which shall be within the boundaries of said proposed special district. The time fixed for such hearing shall be not less than thirty (30) nor more than sixty (60) days from the date of the first publication of said notice, or of its posting, in the event that same is posted.

SEC. 20. Section 15f is hereby added to said act, to read as follows:

Sec. 15f. At or before said hearing, any person interested may file with the secretary of the utility district written objections to the creation of said special district or to the inclusion of his property therein. Upon such hearing, the board of directors of the utility district shall hear and determine all protests and objections. Any such hearing may be adjourned from time to time by the board of directors without further notice other than an order to be entered upon the minutes of its meeting fixing the time and place of such adjournment. In the event that no protests are filed, or the protests filed are overruled and denied by the board of directors, said board shall thereupon, by resolution, approve the creation of the district either as originally described, or may, with or without the filing of any protest or objection, and on its own motion, revise by reducing or enlarging the boundaries of said special district, so that such enlarged boundaries may include any area in said municipal utility district; provided, that said board of directors shall not approve the creation of a district containing territory not included in the resolutions or petition filed with the secretary of the municipal utility district, or in its own resolution, until notice of its intention to include such additional territory has been published or posted for the time and in the manner hereinbefore fixed for the hearing on the original matter, and a hearing is had pursuant to such notice.

SEC. 21. Section 15g is hereby added to said act, to read as follows:

Sec. 15g. At any time after the board of directors has approved the creation of said proposed special district, and fixed its boundaries, said board shall call an election within said proposed special district for the purpose of determining whether the proposed special district shall be created, and if the board so determines, for the submission of a proposition for incurring a bonded indebtedness for the acquisition, construction or completion of any works, lands, structures, rights, or any and all other property necessary or convenient for the collection, treatment or disposition of sewage matter for said special district. If the board of directors determines that no bonded indebtedness is presently necessary, the board may call the election for the creation and establishment of said special district only, and a bond election may later be called.

SEC. 22. Section 15h is hereby added to said act, to read as follows:

Sec. 15h. Said election for creating and establishing such district, with or without the proposal for incurring any bonded indebtedness, and all matters pertaining thereto not otherwise provided for herein, shall be held and conducted and the result thereof ascertained, determined and declared, in accordance with the General Election Laws of the State, as nearly as may be, and no person shall be entitled to vote at said election unless he or she be a qualified elector of the territory included in the proposed special district. All such elections may be held on the same day as any other State, county or city election, and may be consolidated therewith.

Said board of directors shall meet and canvass the votes cast at said election as soon thereafter as is practicable.

SEC. 23. Section 15i is hereby added to said act, to read as follows:

Sec. 15i. On the question of the creation of such special district, the board of directors shall canvass the returns of each public agency and of each parcel of unincorporated territory, if any, separately, and shall order and declare said district created and established if in each public agency and if in each parcel of unincorporated territory, a majority of those who voted on the proposition of creating said special district voted in favor of the creation thereof.

SEC. 24. Section 15j is hereby added to said act, to read as follows:

Sec 15j. On the question of incurring a bonded indebtedness, the board of directors shall separately canvass the votes cast on that proposition in the special district as a whole. It shall require the favorable vote of two-thirds of all the voters voting on the proposition of issuing said bonds within the special district as finally established to authorize the issuance of said bonds. The form of said bonds shall be as herein provided for special district bonds.

SEC 25. Section 15k is hereby added to said act, to read as follows:

Sec. 15k. In addition to the authority conferred by any other provision of this act, and at any time after the creation of a special district for sewage disposal purposes as herein provided, the board of directors of any such utility district may, by resolution passed by a vote of two-thirds of all its members, determine that the public interest or necessity of said special district demands the acquisition, construction or completion by the district of a public utility for the collection, treatment or disposition of sewage matter, or the acquisition of any works, lands, structures, rights of way, or other property necessary or convenient for the operation thereof for such special district.

At any subsequent meeting, said board of directors may provide for the submission of the proposition of incurring a bonded debt for the purposes set forth in said resolution to the qualified voters within said special district at an election to be called and held for that purpose.

It shall require the favorable vote of two-thirds of all the voters within said special district voting on said proposition to authorize the issuance of said bonds.

All special district bonds issued under any provision of this act shall be designated as "_____Municipal Utility District, Special District No._____Bond" and only the property in said special district shall be taxable for the payment of the principal and interest on bonds voted by said special district, and said tax shall be levied and collected in substantial compliance with the provisions of this act relating to the levy and collection of taxes generally.

SEC. 26. Section 15*l* is hereby added to said act, to read as follows:

Sec 15*l*. Except as otherwise provided herein, the provisions of Sections 15, 15a, 15c, 16 and 20 of this act shall substantially govern as to all matters therein contained, including, among other things, and without limiting the generality of the foregoing, the calling and holding of any special district bond election, the form, execution, issuance, maturity, redemption, refunding, validation, the payment of interest from bond funds, and the levy and collection of taxes to pay the principal and interest on said bonds.

Proceedings for the issuance of special district bonds may be initiated by petitions signed by 15 per cent of the qualified electors within said special district, and shall comply substantially with the provisions of Section 15 of this act.

The bonds of said special district shall be legal investment for all trust funds and other funds, and shall be legal for use as security for the deposit of public funds to the same extent as are the bonds issued by any municipal utility district.

SEC. 27. Section 15m is hereby added to said act, to read as follows

Sec. 15m Any proceeding denying the validity of the creation of any such special district, or of any bonds authorized by the voters thereof pursuant to the provisions of this act, must be brought within three (3) months after the date upon which such bond election is held.

SEC. 28. Section 15n is hereby added to said act, to read as follows:

Sec. 15n The board of directors shall, by resolution, determine the cost of a special district election and of any survey, and of legal, engineering, administrative and other expenses incurred by such municipal utility district in connection with the creation of any special district and the planning of its project, and shall reimburse such municipal utility district by means of a special tax on all the property within said special district as created or as proposed, or from any future revenues of such special district

The board may use temporarily any utility district funds for the payment of any immediate expenses of operation and maintenance of any such sewage disposal system, which funds the board shall recover by means of a special tax levied upon all property within such special district or from any future revenues of such special district; provided, however, that nothing in this section contained shall compel reimbursement if the tax required therefor would amount to less than one mill on each one hundred dollars ($100) of the assessed value of the property within said special district.

SEC. 29. Section 15o is hereby added to said act, to read as follows:

Sec. 15o. Any special district created pursuant to the provisions of this act may be dissolved by resolution of the board of directors if any proposition for the

incurring of a bonded indebtedness, as in this act provided, fails to carry, provided such special district is then subject to no other indebtedness or liability pursuant to the provisions of this act. Such dissolution of such special district shall not prevent subsequent proceedings for the creation of a special district including the same or any part of the area of the special district dissolved.

SEC. 30. Section 15p is hereby added to said act, to read as follows:

Sec. 15p. Nothing in this act contained shall require the utility district to construct any sewers other than intercepting and outfall sewers. The determination by the board of directors of the utility district of what are intercepting and outfall sewers, within the meaning of this act, shall be final and conclusive.

Connections of all sewers within the special district to such intercepting sewers of the utility district shall be made at such points and in such manner and under such rules, regulations, terms, charges and conditions as the board of directors of the utility district may prescribe.

The term "sewage disposal," as used in this act, shall mean the acquisition, construction, enlargement, operation and maintenance of intercepting sewers, sewage treatment works, pumping plants, outfall sewers and appurtenances.

Without limiting in any way the foregoing provisions of this act, the respective *public agencies within the utility district and the utility district may contract* regarding the collection, treatment or disposition of sewage.

Upon completion of sewage disposal facilities for any special district all sewage and industrial waste originating within the special district shall be disposed of through the sewage disposal facilities of the utility district.

SEC. 31. Section 15q is hereby added to said act, to read as follows:

Sec. 15q. Nothing in this act contained shall prevent the issuance of revenue bonds by a municipal utility district for the entire municipal utility district or any special district created therein, under any provision of law now or hereafter enacted permitting the issuance of revenue bonds by municipal utility districts.

SEC. 32. Section 18 of said act is hereby amended to read as follows:

Sec. 18. [Only revenue producing utilities shall be acquired, owned or operated by a district formed under the provisions of this act.] The rates and charges for commodities or service furnished shall be fixed by the board of directors. As far as possible utilities shall be self-supporting but in order so to do the board shall not be required to fix a rate which in its opinion is unreasonably high, nor to cover large expenditures and the interest thereon required for future needs and developments.

[The words "revenue producing utilities" as used in this act, shall be deemed to mean such utilities as those from which revenue is customarily or may be derived by means of charges, rates, or rentals imposed upon or collected from users, consumers or customers thereof, together with such works, facilities and appliances used or useful in connection therewith or incidental thereto.]

The board may provide that rates, tolls and charges for any sewage disposal enterprise or service shall be collected with the rates, tolls and charges for any water or other utility service rendered by the utility district, and that all rates shall be billed upon the same bill and collected as one item, and that in the event of failure to pay the whole or any part thereof, the utility district may discontinue any and all service for which such bill is rendered; provided further, that the utility district may also provide for the collection of any such fees, tolls, rates, rentals or other charges in any lawful manner the board may determine, and may provide for the collection of the same by action at law, and any and all such remedies for the collection and enforcement of all such fees, tolls, rates, rentals or other charges shall be cumulative and may be pursued alternatively or consecutively as the board may determine. In addition to such fees, tolls, rates, rentals or other charges, the board may provide for a penalty of not more than 10 per cent, in the event of nonpayment thereof within the time and in the manner as may be prescribed by the board, and may provide for collection of such penalty.

The board of directors may apportion all or a portion of the expenses of operation and maintenance of any sewage disposal facilities constructed by said utility district, and the interest on any bonds issued therefor, among the public agencies whose sewers are connected with said facilities. Said board shall establish rules for determining said apportionment, which rules shall, among other things, be based on the quantity, quality or characteristics of the sewage delivered by each public agency.

Notwithstanding any of the provisions of this section, the board of directors may, in its discretion, finance any sewage disposal enterprise, the interest on and retirement of any bonded indebtedness therefor, and provide for the maintenance and operation thereof entirely by the levy and collection of taxes upon the property within the special district for which said enterprise is constructed or operated, or

by rates and charges imposed upon the users of the facilities of said enterprise, or by both taxes, rates and charges, apportionment of expenses among public agencies served, or any combination of the foregoing.

SEC. 33. Section 19 of said act is hereby amended to read as follows:

Sec. 19. The *utility* district and any [municipalities] *public agencies* included therein, may at any time enter into appropriate contracts for the use by such [municipality or municipalities] *public agency or public agencies* of commodities or service furnished by any of the [utilities] *works* acquired, owned, [and] *or* operated, or authorized to be acquired, constructed or completed by the *utility* district, as in this act provided, *or of any of the facilities of said utility district.*

SEC. 34. Section 29a is hereby added to said act, to read as follows:

Sec. 29a. Whenever the board of directors shall by resolution determine that any record, map, book or paper in the possession of such district, or any officer or employee thereof, is of no further value to said district, said board of directors may authorize its sale, destruction or other disposition thereof.

SEC. 35. Section 29b is hereby added to said act, to read as follows:

Sec. 29b. If any section, subsection, sentence, clause, or phrase of this act, or of the act or acts of which this act is amendatory or supplemental, is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would have passed this act, and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that any one or more other sections, subsections, sentences, clauses or phrases of this act, or that any one or more sections, subsections, sentences, clauses or phrases of the act or acts of which this act is amendatory or supplemental, be declared unconstitutional. If any section, subsection, sentence, clause or phrase of this act, for any reason, be held to be unconstitutional, and such unconstitutional provision shall have purported to repeal or amend any provision of the act or acts of which this act is amendatory or supplemental, the provision existing and in force at the time of the enactment of this act shall remain and be in full force and effect notwithstanding such purported repeal or amendment."

Amendments read and adopted.

On page 709 of the Assembly Journal of March 3, 1940, appears a communication from the Assembly Committee on Legislative Organization, wherein the said committee apparently makes certain recommendations for the adoption of new Standing Rules

The report is signed by Charles M. Weber as chairman, and not by the undersigned, but our names are mentioned in the report, and indicates we approve the report.

Such is not the case, and while we do not favor the immediate adoption of the changes in the Rules as recommended by Mr. Weber in his report, we are in accord with many of his proposals and would, at the commencement of a new session of the Legislature, favor the changes he proposes, but we do not favor these changes in the middle of a legislative session because of the confusion such a change would entail.

EARL D. DESMOND and
CHARLES W. LYON

RESOLUTIONS

The following resolution was offered:

By Messrs. Lowrey, Thomas, Cain and Bennett:

House Resolution No. 91

WHEREAS, The tax delinquency of a large portion of the real property of the State of California has resulted in removing such property from the tax rolls, thus preventing the property from bearing its fair share of the costs of government and increasing the burden now imposed on property which is not tax-delinquent. This problem is further complicated by the overlapping of taxing agencies, which at times results in the same parcel becoming delinquent for several taxes or assessments, and being deeded to several taxing agencies. The solution to this problem may only be reached through well-founded legislation, far reaching in scope and vision, which is designed to make all property bear its share of taxes, to provide an incentive for the original owner or his successor to redeem delinquent property, to supply encouragement for the sales of tax-delinquent property and for the obtaining of good title thereto, and to furnish sound management of delinquent property while it remains tax-deeded so that the greatest return may be obtained therefrom. This legislative program can best be studied by a competent and impartial committee of members of the Legislature; now, therefore, be it

Resolved by the Assembly of the State of California, That a committee to be known as the Tax-Delinquent Property Committee is hereby created, which committee is hereby authorized and directed to make a complete investigation into the extent of tax delinquency in California and the overlapping of taxing agencies, with a view to recommending to the legislators such legislation as will tend to make all

property bear its fair share of taxes, to return tax-delinquent property to the tax rolls, and to furnish sound management of delinquent property while it remains tax-deeded; and be it further

Resolved, That the committee shall consist of five members of the Assembly appointed by the Speaker. Vacancies in the membership of the committee occurring at any time shall be filled by the Speaker.

The committee in exercising the powers and performing the functions vested in it by this resolution shall have: (i) all the powers conferred upon legislative committees by Article 8, Chapter 2, Title 1, Part 3 of the Political Code; (ii) except when inconsistent with this resolution, all the powers conferred upon Assembly committees by the Rules of the Assembly, and the Joint Rules of the Senate and Assembly, as they are enacted and amended from time to time and such Rules are hereby incorporated herein and made a part hereof the same as if they were set forth in this resolution in full. The powers specified in such Rules may be exercised by the committee after the final adjournment of this session; (iii) all powers necessary or convenient to accomplish the objects and purposes of this resolution, including but not limited to the following duties and powers:

(1) To select a chairman from its membership and to employ and fix the compensation of a secretary and such legal, clerical, expert and technical assistants as it may deem necessary;

(2) To create subcommittees from its membership, assigning to the subcommittee any study, inquiry, investigation or hearing which the committee itself has authority to undertake or hold, and the subcommittee for the purpose of this assignment shall have and exercise all of the powers conferred upon the committee limited by the express terms of the resolution or resolutions of the latter defining the powers and duties of the subcommittee, which powers may be withdrawn or terminated at any time by the committee;

(3) To adopt and from time to time amend such rules governing its procedure (including the fixing of its own quorum and the number of votes necessary to take action on any matter) as may to it appear appropriate;

(4) To contract with such other agencies, public or private, as it deems necessary for the rendition and affording of such services, facilities, studies and reports to the committee as will best assist it to carry out the purposes for which it is created;

(5) To hold public hearings at any place in California at which hearings the people are to have an opportunity to present their views to the committee;

(6) To make a complete study, survey and investigation of every phase of the subject of this resolution, including but not limited to the operation, effect, administration, enforcement, and needed revision of any and all laws in any wise bearing upon or relating to the subject of this resolution;

(7) To meet at any and all places in this State, in public or executive session;

(8) To act during this session of the Legislature, including any recess hereof, and after final adjournment hereof, until the commencement of the Fifty-fifth Legislature;

(9) To file a report with the Assembly during any session of the Fifty-fourth Legislature and with the Assembly during the regular session of the Fifty-fifth Legislature;

REQUEST FOR OPINION OF ATTORNEY GENERAL

February 15, 1941

Honorable Earl Warren, Attorney General
State Building, San Francisco, California

DEAR GENERAL WARREN: Throughout the last several years property tax delinquencies have increased in the Colusa Irrigation District. The titles to these delinquent properties have reverted to the State in accordance with the law and the Colusa Irrigation District has been granted permission to rent many of the holdings for agricultural purposes to farmers in that locality.

Naturally, this has had the effect of narrowing the county tax base. In attempting to correct this situation, one and possibly two problems present themselves. They are as follows: First, is it now within the powers of the State Controller to provide that Colusa County shall have the first claim upon the revenue from such properties, to the extent that such funds are necessary to meet their fair share of the taxes, or, second, is it within the province of the Legislature to empower the State Controller or the board of supervisors of the county to have the revenue from these tax-delinquent rented properties accrue to the credit of the county?

Some have contended that a constitutional amendment would be necessary to authorize such procedure. I would greatly appreciate a statement of your opinion, first, as to the powers of the board of supervisors or the State Controller, or both, under existing law; and second, in the event the legislation is necessary, the power of the Legislature to enact authority for such action. I might say that this request is being made at the suggestion of the California Farm Bureau Federation.

I am enclosing herewith a copy of Assembly Bill No. 2478, which I have introduced by request. I should appreciate it if you would furnish me with your opinion as to whether, if this bill should be enacted into law, the County of Colusa has the power to lease and sublease tax-deeded property from the State. In this connection, and in connection with the other two questions above set forth, I should like to know as to what the respective powers of the State Controller and irrigation districts are in a situation where property has been tax-deeded both for nonpayment of county taxes and nonpayment of the irrigation district taxes or assessments.

Thanking you for an early reply to these queries, I am

Yours very truly,

LLOYD W. LOWREY

Opinion of Attorney General

STATE OF CALIFORNIA, LEGAL DEPARTMENT
SAN FRANCISCO, March 4, 1941

Honorable Lloyd W. Lowrey, Assemblyman, Third District
Rumsey, California

DEAR MR. LOWREY: I have your letter of February 15th relative to property which has been deeded to the State for delinquent taxes and also has been deeded to an irrigation district for delinquent assessments.

You ask my opinion upon certain questions of law and also request advice as to the effect of Assembly Bill No. 2478 should it be enacted into law.

Your first question is whether it is now within the power of the State Controller to provide that Colusa County shall have the first claim upon the revenue from tax-deeded properties in that county.

The Controller has no such power. His authority to collect rentals from tax-deeded property is found in Sections 3651-3661 of the Revenue and Taxation Code (Old Section 3773 of the Political Code). Section 3659 provides that all moneys received by the Controller under this chapter (Chapter 6, Revenue and Taxation Code) shall be placed in the Tax-Deeded Land Rental Fund in the State Treasury.

Your second question is whether the Legislature could empower the State Controller or the board of supervisors of the county to have the revenue from tax-deeded property accrue to the credit of the county.

Since the Constitution is silent on the subject, I think the Legislature has plenary power to make any provision it may see fit regarding the disposition of rentals from tax-deeded properties. Under the present law the property is not subject to local taxation after it has been deeded to the State, so the counties derive no revenue therefrom, and any rentals collected by the Controller go into the Tax-Deeded Land

Rental Fund in the State Treasury. The Legislature could, by appropriate amendments to existing statutes, provide for a different system.

Where land has been deeded both to the State and to an irrigation district, the law is not entirely clear as to the respective rights of the State and the district to rentals therefrom.

In some instances, and I think generally by common consent, the practice is for the Controller to lease such properties to the district upon an agreed per acre rental, and the district then rents the property to private lessees. Or the district may proceed under Sections 3791, et seq. of the Revenue and Taxation Code (old Section 3897d, Political Code) and purchase from the State its tax title. Thereafter the district may rent the property or it may sell it into private ownership.

I am advised that most irrigation districts which purchase the State's tax title endeavor to sell rather than to lease the property, as in the case of a sale the property is returned to the county tax rolls. As long as the title remains in the district the property is not subject to taxation for county purposes (*Anderson-Cottonwood Irrigation District* vs. *Klukhert*, 13 Cal. 2d 191).

Unquestionably it is to the great disadvantage of the counties to have large areas of land withdrawn from the tax rolls, and yet some irrigation districts are apparently not making sustained efforts to resell these properties, with the result that year after year they remain off the tax rolls.

As to Assembly Bill No. 2478:

This bill reads as follows:

> "SECTION 1. Section 3655.5 is hereby added to the Revenue and Taxation Code, to read as follows:
>
> 3655.5. In renting tax-deeded property, the Controller or, in the name of the Controller, any person designated by him shall give preference to an offer to lease tax-deeded property received from a county when the county's offer has the same or substantially the same terms as an offer received from any other taxing agency, a revenue district, or a person.
>
> SEC. 2. Section 3655.7 is hereby added to the act cited in the title hereof, to read as follows:
>
> 3655.7. When the county so requests, a lease of tax-deeded property made to a county shall contain a clause permitting the county to sublease the property."

I see no objection to these provisions although in all probability the Controller could adopt such a plan without specific authorization. Inasmuch as the words "from any other taxing agency, a revenue district, or a person" are somewhat restrictive and might exclude a corporation, for instance, would it not be advisable to strike those words and substitute the words "from any other source"?

The bill makes no provision for the disposition of moneys received by a county by way of subleasings. Possibly this is not necessary but some consideration of that matter might be advisable. What I have in mind is whether the bill should designate a particular county fund to which such payments should be credited. In a sense these payments would be in lieu of taxes and possibly should go into the General Fund rather than into some special fund. Also there may be some question as to the effect of a redemption upon a county sublease. So far as a lease by the Controller is concerned this is taken care of by Section 3656 of the Revenue and Taxation Code. If property leased to a county and subleased by the county should be redeemed, the rights of the lessee may be terminated by cancellation of the lease by the Controller as provided in Section 3656 of the Revenue and Taxation Code. That section reads:

> "Every lease made under this chapter shall provide that the Controller may cancel the lease as of the date of redemption from tax sale or as of the date of a sale terminating the right of redemption, and that the lessee is not thereupon entitled to any damages or reimbursement except as provided in this section. On redemption or sale of the property, the Controller may refund from the Tax-Deeded Land Rental Fund to the lessee the unearned portion of any rental paid in advance."

Whether the Controller *must* cancel the lease, upon demand of the redemptioner may be an open question. I am inclined to think he would have no discretion but must cancel the lease. See *Hayes* vs. *Los Angeles County*, 99 Cal. 74; *City of Los Angeles* vs. *Board of Supervisors*, 108 Cal. App. 655. While the Controller is authorized by Section 3656 to refund to the lessee the unearned portion of any rent paid in advance, there might be a question whether without some legislation the county could similarly refund the unearned portion of rental paid in advance by a lessee from the county.

I suggest that you might discuss these matters with Mr. Claire Proctor of the Controller's Office if you think they merit further attention.

Very truly yours,

EARL WARREN, Attorney General
By H. H. LINNEY, Deputy

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, March 5, 1941

Honorable John W Evans, Assembly Chamber
State Capitol, Sacramento, California

SUBJECT: Postponed effective date of a house resolution amending the legislative rules.

REQUEST: No. 982.

DEAR MR. EVANS:

You have pointed out that House Resolution No 88 which proposes certain amendments to the Permanent Standing Rules of this, the Fifty-fourth Session of the Legislature, was amended to provide that the resolution will take effect on January 1, 1942. You have asked what the effect of that amendment will be.

It is our opinion that House Resolution No. 88 can only operate upon the Rules of this, the Fifty-fourth Session of the Legislature.

Upon the adjournment sine die of the Fifty-fourth Session of the Legislature, the Rules of that session will cease to have any operative effect.

Each succeeding session of the Legislature may adopt its own Rules without regard to the Rules of any previous legislative session.

Therefore, if the Fifty-fourth Session of the Legislature adjourns sine die prior to January 1, 1942, House Resolution No. 88 will cease to be of any effect in so far as the Rules of the Fifty-fourth Session are concerned Any subsequent session of the Legislature may or may not incorporate into the Rules adopted by it the provisions of House Resolution No. 88.

Very truly yours,

FRED B. WOOD, Legislative Counsel

MESSAGES FROM THE GOVERNOR

Mr. Lyon moved that the following message from the Governor be ordered printed in the Journal:

Motion carried.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, March 4, 1941

To the Honorable Members of the Senate and Assembly of the State of California
State Capitol, Sacramento, California

GRETINGS: I deem it advisable to address this communication to you regarding the manner in which the State's tax-deeded lands have been handled by the State Controller, who has the sole authority to lease properties deeded to the State for delinquent taxes, and to collect rent therefor and generally administer such properties under the provisions of Sections 3651 to 3661 of the Revenue and Taxation Code, formerly Section 3773 of the Political Code. Some months ago at my direction the Director of Finance conducted an investigation of the system adopted by the Controller's Office of administering this law. A preliminary report was made to the Director of Finance by the staff assigned to this investigation, which was presented to me shortly before the first of this year. In this report the question of the legality of the methods followed in handling these properties is raised, as is also the question as to whether under this method the State has been defrauded and deprived of revenues which it should have received from these properties. For instance, this preliminary report shows that tax-deeded lands in Los Angeles County were leased to one Hayden F. Jones at a nominal rental of one dollar ($1) per year. Mr Jones in turn sublet these properties with the Controller's approval, making monthly reports of amounts collected, expended and retained by this nominal rental lessee acting as agent for the Controller. After deducting 25 per cent of collections as "commission" for his services as lessee-agent and making deductions for cost of repairs, purchases, refunds, etc, payments of the residue of his collections were made to the Controller's Office

Questions as to the legal status of such a lessee or agent who was not hired in accordance with the Civil Service Laws of this State; whether the Controller may refund from the Tax-deeded Land Rental Fund as unearned rental on redeemed property a larger amount than has been paid into the fund as rental of the redeemed property; whether he may settle accounts with this lessee-agent through offsets that effect the same results; whether the Controller may incur indebtedness for expenses of operating and repairing tax-deeded properties by procedures not subject to the provisions of the applicable sections of the Political Code, or may do so through the lessee-agent, and whether the Controller may pay a claim for damage to tax-deeded property without proceeding pursuant to Sections 688 and 667 of the Political Code through this method of settling accounts with his lessee-agent are raised in this report. Soon after the first of January of this year, I called the Attorney General into conference with the Director of Finance and his accountants and investigators of this subject, for the purpose of acquainting him with the progress of the investigation and to procure his advice upon the legal questions raised by this preliminary report Following and pursuant to the purpose of this conference, I sent a communication to the Attorney General on February 12, 1941, a copy of which is hereto attached.

The purpose of securing the advice of the Attorney.General on the legal questions raised is to assist the Director of Finance and his accountants and investigators in continuing their inquiry and determining its proper scope and the legal directions it should follow in ascertaining facts relevant and material to the right of the State to recover rental values of these tax-deeded lands of which it may have been deprived by this method of the administration of tax-deeded lands. The Department of Finance will continue its investigation in the light of legal advice from the Attorney General and make full and complete report thereof for the information of the Governor and the Legislature, which report will be duly transmitted to you.

I bring this matter to your attention at this time so that you may have it in mind in connection with any legislation which you may be considering affecting the disposition of lands deeded to the State for tax delinquencies. The preliminary report indicates that valuable properties with substantial improvements have thus been leased and subleased with low rentals, and properties thus handled have not been sold or put back on the county tax rolls, operating to the distinct disadvantage of both the State and the counties.

The problem of tax-deeded lands is a serious one which merits the attention of the Legislature, the real estate taxpayers, and the county boards of supervisors. When land is tax-deeded it is taken from the tax rolls, and the remaining real estate in the county must pay a higher rate It is thus highly important that tax-deeded land valuable for private ownership be returned to the tax rolls at the earliest possible time A great step in this direction was taken by the enactment of Chapter 47 of the Statutes of 1940, which will enable the State to clear the titles

of tax-deeded lands so as to render them more saleable. This chapter has also set up a governmental agency for the utilization of tax-deeded lands for public purposes, and the withdrawing from sale of perennially tax-deeded lands which may be classed as waste lands.

In considering legislation for the future administration of lands deeded to the State for tax delinquencies, with a view of deriving the true rental value thereof for the State and for the counties, I recommend that their administration be placed under the State Lands Commission. I further recommend that provision be made for the leasing of these tax-deeded lands only to actual occupants for beneficial use at their fair rental values, and that subventions be made to the counties of a proper proportion of the net rentals received by the State from these properties equivalent to the amount of county and local taxes properly assessable thereto. It seems to me that such a system of handling tax-deeded lands would do away with tax dodging and speculation in tax-delinquent lands which too often prevents their acquisition by persons desiring to acquire and occupy them for homes or other beneficial uses.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

SACRAMENTO, February 12, 1941

Hon. Earl Warren, Attorney General
State Building, San Francisco, California

DEAR MR. WARREN: When the Director of Finance called my attention to a preliminary report of auditors and investigators of his department on the manner in which tax-deeded lands have been handled by the office of the State Controller, from which it appeared that the legality of this system is questioned, and that under it the State may have been defrauded and deprived of revenues from these properties which it should have received, I deemed it advisable and proper to call you in and acquaint you with the matter so that the Department of Finance may have the benefit of your legal advice and opinions in the further course of its investigation and development of facts pertinent to the inquiry.

As you will observe, this preliminary report shows, for instance, that tax-deeded lands in Los Angeles County were leased to one Hayden F. Jones, at a nominal rental of $1 per year. Mr. Jones in turn sublet these properties, securing the Controller's approval of principal terms and some of the leases of major properties, and in rare instances sending copies thereof to the Controller's Office. Monthly reports of amounts collected, expended and retained by this agent (who, in dealing with the public, represents himself to be the agent of the Controller) are made, stating the property and rental periods to which collections pertain, deducting 25 per cent "commission" from the collections for the services of this agent, and deductions for cost of repairs, purchases, water bills, refunds, etc.

Questions as to the status of such a sublessee or agent; whether the Controller may refund from the Tax-Deeded Land Rental Fund as unearned rental on redeemed property, a larger amount than has been paid into the fund as rental of the redeemed property; whether he may settle accounts with the sublessee or agent through offsets that effect the same results; whether the Controller may incur indebtedness for repairs or expenses of operating tax-deeded property by procedures not subject to the provisions of the applicable sections of the Political Code or may achieve the same result by handling transactions and settling accounts with the lessee or agent effecting the same result; and whether the Controller may pay a claim for damage to tax-deeded property without proceeding pursuant to Section 688 and Section 667 of the Political Code, through this method of settling accounts with lessee or agent are raised in this report.

In seeking to ascertain the effect of this method of handling tax-deeded lands upon their return to the tax rolls, and upon the State's General Fund, and to ascertain whether all revenues from tax-deeded properties to which the State is entitled has reached the fund, these investigators spread their survey over all types of properties and geographical locations in the State. While this preliminary report only purports to cover a portion of the properties of the tax-deeded lands leased by the Controller, it appears to be comprehensive enough to present a factual condition that not only raises the legal questions above mentioned, but also the question of whether the State has not been actually defrauded of moneys which should have been derived from the leasing of these lands, considering their true rental value and the manner in which sublessees derived the benefit of their true rental value, as shown in such instances as have been called to your attention.

I am writing you now to ask you to please give me your opinion on these legal questions involved in this investigation at your earliest convenience after you have analyzed the matter presented in this preliminary report and the law applicable thereto.

Thanking you for your cooperation, I remain

Very respectfully yours,

CULBERT L. OLSON, Governor of California

COMMUNICATIONS

The following communication was received, read, and ordered printed in the Journal.

STATE OF CALIFORNIA, OFFICE OF THE CONTROLLER
SACRAMENTO, March 7, 1941

To the Honorable Members of the Assembly
State Capitol, Sacramento, California

GREETINGS: My attention has been directed to a communication addressed to your Honorable Body by the Governor in which reference is made to an asserted audit report concerning the State Controller's administration of tax-deeded property.

No such report has ever been submitted to me. If such a report exists, the Governor and the Director of Finance have failed to discuss it with me or to provide me with a copy as required by law.

It may be significant that the Governor in his message proposed that control of these distressed properties be handed over to a commission dominated by the Administration.

Under statutory authority the Controller is custodian of all property which unfortunate home owners and others have lost for nonpayment of taxes.

Pioneering in a difficult endeavor without sufficient appropriation, he has administered this growing volume of delinquent land for the best interests of the people of the State with these results:

Thousands of wage earners who otherwise would have been dispossessed have been enabled to retain the homes for which they struggled.

Countless businessmen have been assisted in redeeming property into which their life savings, their dreams and the sweat of their brow have gone.

Struggling laborers have been aided in acquiring through purchase of tax-distressed property homes for which they otherwise could not have hoped.

In three years the Controller's program has returned $7,500,000 worth of non-producing property to the tax rolls, thereby aiding cities and counties from the border of Oregon to the Mexican Line. The burden on the other loyal taxpayers thus has been lightened.

A million dollars has been turned over to California's 58 counties through sales authorized by the Controller.

Rental of tax-deeded land has brought a flow of half a million dollars into the State Treasury.

The Controller's primary duty under the law is to keep custody and maintain in good repair this unfortunately huge volume of property until the financially embarrassed owner can redeem it or otherwise return it to the tax rolls.

Wherever possible such property has been rented. The bulk of it, regrettably, is worthless. To secure tenants willing to pay for use of property which over a period of many years has not produced sufficient money to even pay taxes is difficult and in many cases impossible.

The State has at all times received 100 per cent of the net proceeds from such rentals.

Prior to 1935 the Controller was not authorized to employ representatives to administer tax-deeded property.

When authorization finally was granted, no funds were available to finance such a program. As a result my predecessor, eager to properly discharge his responsibility, worked out with the cooperation of other reputable State officials a careful plan to obtain the services of recognized businessmen throughout the State as agents to help meet the problem.

This entire program was discussed with and approved by attorneys of the Department of Finance before it was placed in operation.

By this means the State was relieved of the expense of maintaining these many thousands of homes and millions of acres of land, a revenue began to pour into State, city and county treasuries, and a way was opened that began a large-scale return of property to the tax rolls.

More than 50 per cent of the property handled by these representatives was redeemed and returned to a tax-paying basis without the representatives receiving any compensation for their work. In Los Angeles County, 70 per cent of all property thus managed was promptly redeemed.

When I became Controller, I recommended that as rapidly as possible the work of administering tax-deeded land be taken over by full-time civil service employees. I had and continue to have complete faith in the integrity of the gentlemen who served the State as agents. As a matter of sound business policy, however, I insisted that money be made available to handle the job with civil service employees.

When, at last, the Department of Finance made the requested funds available, I abolished the agent-representative system. For nearly a year now qualified employees chosen from the civil service lists have efficiently administered this work.

Merchants, business operators, farmers and working people alike are reluctant to occupy or install equipment in tax-deeded property from which they can be

ejected at any moment the record owner chooses to start a redemption plan through payment of a small portion of the delinquent taxes.

The Controller is legally unable to guarantee a renter tenancy for a month, a week, or even a day.

In the face of this uncertainty, property obviously can not bring the same rental as healthy, productive property in which a tenant can be secure enough to make an investment.

The audit report to which the Governor referred in his message is said to mention several parcels of bankrupt property owned by the State.

If and when I am permitted to see this report, I shall be happy to make a detailed report to the Legislature upon such property. The records are and always have been open to everyone.

I assure you of my desire to be of continued service to your Honorable Body and again offer to be of all possible assistance in the conduct of this investigation which I welcome.

Respectfully,

HARRY B. RILEY, Controller

MR. SPEAKER AND MEMBERS OF THE ASSEMBLY: I am as much embarrassed as was Domingo at this tribute which has been accorded me. On previous years I have been able to keep secret my natal day, but it seems to have slipped out at this session. I certainly wish to voice my deep appreciation of your congratulations and good wishes so beautifully expressed and shall remember them with joy in future years. I shall hope to have all of your names inscribed on this lovely resolution.

While sitting here at my desk in reminiscent mood I have penned these lines which I now dedicate to you:

A birthday is "a lovesome thing, God wot,"
With gifts and flowers, good wishes—age forgot;
When hope springs new, exempting all our sorrow,
And one fares forth expectant of a glad tomorrow.

I thank you heartily.

When in the opinion of the department any vehicle is incapable of moving at the requisite speed up the minimum grade a gross load as great as that permitted under the said table in paragraph (d) and by such grade zone plate permitted, such owner shall submit such vehicle to an appropriate test by such department. If on such test it is found such vehicle is incapable of moving at the minimum speed up such minimum grade, a load as great as that provided by such table and by such grade zone plate, the department shall forthwith cancel and appropriate such grade zone plate, and shall issue in lieu thereof a grade zone plate for such lesser gross load as such vehicle is competent to move up such minimum grade at such minimum speed.

Sec. 20 Prohibition No person, except as authorized by this act, shall directly or indirectly charge, contract for, or receive any interest, discount, or consideration greater than the lender would be permitted by law to charge if he were not a licensee hereunder upon the loan, use, or forbearance of money, goods, or things in action, or upon the loan, use, or sale of credit of the amount or value of three hundred dollars ($300) or less

The foregoing prohibition shall apply to any person, who by any device, subterfuge, or pretense whatsoever shall charge, contract for, or receive greater interest, consideration, or charges than is authorized by this act for any such loan, use, or forbearance of money, goods, or things in action or for any such loan, use, or sale of credit.

Any profit or advantage of any kind whatsoever that any personal property broker or broker may contract for, collect, receive or in anywise obtain by a collateral sale, purchase, or agreement, in connection with the negotiating, arranging, making or otherwise in connection with any loan of three hundred dollars ($300) or less, except commissions received as a licensed insurance agent or broker on insurance written as hereinafter permitted, shall be deemed to be charges for the purposes of regulation under this act Such transactions shall be governed by and subject to the provisions of this act. However, security consisting of tangible personal property offered as security may be reasonably insured against loss for a reasonable term, considering the circumstances of the loan, and such insurance shall not be deemed such collateral sale, purchase, or agreement when the policy is payable to the borrower or any member of his family, even though the customary mortgagee clause is attached or the licensee is a coassured; provided, that such insurance is sold at standard rates through duly licensed insurance agents.

No licensee shall enter into any contract for a loan for a period of longer than 24 months after making the loan"

The following is a statement of the facts constituting the necessity:

An emergency exists in the United States and the State of California in providing adequate armies and facilities for defense. A large rearmament program is also under way, in which the manufacturing, airplane, shipbuilding and other plants of this State are taking their part. The National Guard, which has heretofore been available to this State as an organization for the defense and for the guarding of such plants and other places of strategic and military value is being called into the service of the United States and many units thereof have already left the State in such service. It is therefore necessary that this act take effect immediately.

MOTION TO PRINT SPEECH IN JOURNAL

On motion of Mr Lyon, the following speech by Mr. Eneas Kane of San Francisco was ordered printed in the Journal:

Speech by Eneas Kane

Today, everywhere beneath the sun, under the crimson vault of heaven, as the exile plods his weary way homeward to a humble and contented roof—on the high

seas, in the marts of industry and of trade, around the campfire and in the castellated banqueting halls where his more fortunate brothers are foregathered—wherever Irish blood pulses in the veins of the generous Celt, he is translated to a far-off yesterday.

The idol in his heart, the image in his mind, the name spontaneous on his lips—with her struggles and her vicissitudes, her joys and her sorrows, her tears and her laughter—is Ireland.

It is the day of Irishmen all over the world. Its inspiration covers the rise of a nation in the mist of history's morning.

It carries us through the dark night of Ireland's travail to the bright dawn of her hopes of today.

Custom has added to its purpose, so that, today, we not only pay homage to the patron saint of Ireland, but we impress upon Irish sons and grandsons and the world at large, the greatness of the Irish people, and we endeavor to perpetuate Irish ideals in the heart of this generation and of generations yet to come.

Today, then, we picture Saint Patrick on the Hill of Tara, surrounded by chieftain and bard and people listening quietly to his story of the Christian faith.

We celebrate the victory of Irish culture and Christianity over the Pagan Irish world.

Today, then, we remember the bitter fight of a thousand years for Irish liberty; we recall the valor of the Irish Brigade and the world-wide achievements of the Sons of Erin.

Today, we drop a tear upon the graves of Sarsfield, O'Connell and Emmett and acclaim the debt which civilization owes to the Irish race.

Today, therefore, as we gather to pay tribute to one who stands upon one of the highest pinnacles of the temple of Christianity, it seems to me that it would be well to examine the story of Patrick and of Ireland in so far as any correlated singularity is concerned.

Ireland's history and the story of Patrick are so closely interwoven as to bespeak singularity.

The conversion of Ireland by Saint Patrick is one of the strangest facts of history.

We know that every nation has given some sort of opposition to the Gospel, resulting in the very arduous labors of the missionary life

To this truth, however, Ireland alone stands as the notable exception.

Here Patrick's apostolate resembled more the majestic progress of a triumphant king, rather than the difficult, toilsome labor of the life of a missioner.

Where in history can you point to a nation receiving a new philosophy, a new religion, aye, a new theory of existence in the wholehearted receptive manner in which his was accepted by the people of Ireland?

He flung Christianity into the very face of Druidism and there was peaceful conquest. More than that, in the annals of Christian history, Patrick is the lone example of the prophet who was not stoned by objectors to his doctrine.

Ireland refused martyrdom—the apostle's lot—to Patrick

And to a willing nation Patrick was given, just that, martyrdom

For to whatever lands the "Cross of the Ancient Church" has been carried, we have found in the very front ranks, young Irishmen and Irishwomen, many of whom have spilled their very life's blood upon the sacrificial altar of the recognition of a Supreme and All-Powerful Ruler of the universe.

Truly, therefore, Ireland and Patrick are singular in so far as the fact of its conversion is concerned.

In the third century, Patrick gave to Ireland that Christian civilization which has distinguished that little isle among the nations of the world.

Nowhere upon the scroll of history do we find a more striking and glorious sight than Ireland for 300 years after Patrick's conquest

She was an island covered with seats of learning—hundreds upon hundreds of schools and monasteries.

Even though a small nation, she was then the refuge of learning and the instructress of the world.

The world, admiring the luster of her learning and the glory of Ireland's sanctity, united in conferring upon her one of the proudest titles ever conferred upon a land or people, "The Island of Saints and Scholars."

That Ireland ruled the destinies of European education for nine centuries. It saved western civilization.

It is the parent of modern civilization.

All of this was the direct result of the efforts of the man whom we honor today.

As an American, I like to believe, and I do believe, that one of the greatest contributions that has been made to American nationality has been made by Patrick's Ireland.

In tracing back, as does a lawyer in search of a title, the origin of things, we find that when Patrick visited Pagan Ireland and gave Christianity to the people, when he introduced Latin culture and civilization, he accomplished something which, when

weighed by consequences, is of utmost importance in determining the reason and the cause of our own American position in the world today

Lest you think I am speaking in generalities, let us investigate.

A very great German philologist, many years ago in critical study, after deep research, said it was the Irish, instructed by St Patrick and his successors, who actually saved from utter destruction and the loss of learning the philosophy and the morals of continental Europe.

This because missionaries went out from the Emerald Isle to the continent and there kept alive the smoldering embers of that culture which was once the boast of Rome It is recorded history that these men, endowed with knowledge, possessing it in its fulness, went out and gave it with Irish generosity to the waiting peoples on the other side after the incursions of the Huns and Teuton hordes had made of Europe a barren place

I say that I believe all this, because we can see, even today, in continental Europe, which but yesterday was the seat of civilization, the possibility of everything being extinguished in the blight of war and devastation—unless there is some place sacred for the preservation of the ideals of government, such, for instance, as our own glorious United States.

The danger of this country being involved in war concerns not so much the comfort and preservation of this generation of men

It concerns the preservation of democratic ideals.

It concerns the preservation of the rights of men.

It concerns the preservation of all those things for which patriots have bled and died the world over.

As Ireland served the earlier centuries in that respect, so America must, if we regard our mission a holy one, preserve those things today

We must not become engulfed in maelstrom of war, destructive not only of life and property, but more important, destructive of ideals and hopes and human rights

Ireland served the earlier centuries in the retention of its culture and its knowledge.

It serves those nations of the world today who love liberty and the untrammeled rights of the individual

The historical chroniclers of the ages can not point to a greater example of a struggle for the rights of men than Ireland presents.

It has been said that when the hydra-headed monster of the persecution of the Irish race rears its ugly head, the story is so sad that the thoughts of men can not be placed in writing, for the tears of the chronicler needs must efface them

However, Ireland has preserved her nationality despite every effort that has been made to obliterate it.

Her schools were abolished and it was impossible for her children to procure an education and then it was said that the Irish were ignorant.

Her lands were stolen, her means of livelihood removed and then she was laughed at because she was poor.

But Ireland fought and fought, not for a day, not for a year, not for a decade—she fought for centuries; for hundreds of years, to preserve her individualism and her principles of existence and never once did she admit the anguish of an evening of defeat

For hundreds of years the Irish people had no rights; Ireland was a nation trampled into the blood-stained earth by wave after wave of ruthless persecution

Yet that nation never lost the principle of its national existence, never consented to merge its name, its democratic ideas, its history or its national individuality with that of its oppressor

This indomitable persistency, the faculty of preserving through centuries of misery, the remembrance of lost liberty and of never despairing of a cause always defeated, always fatal to those who dared defend it, is perhaps the strangest and noblest example for us to reflect on in this chaotic world of today

There is no excuse for violence where there is a constitutional government under which the people have the right and privilege of determining the character of their government

That is a fundamental human right, and such is the government which we enjoy.

But in Ireland there was no means within the constitution of either side of stating their case or pursuing a policy which would lead, under free elections, free discussions and free assembly, to a solution of those momentous problems

Yet the Irish who later helped, guided by the fundamentals taught by St Patrick, to build this great nation, never faltered. These ideas and ideals for which they had fought permeated the very beings of all those whose forbears emanated from that little gem in the sea.

Liberty is impossible without order, we are told

Order is impossible without government, but government, in any worthy sense of the term, is impossible without a settled conviction on the part of the people of its legitimacy and their obligations in conscience to obey it

That early training of the Irish where all their accomplishments were destroyed by ruthless soldiery, that experience of the Irish in resisting by rebellion unauthorized acts of royalty, brought to the creation of America a support and an intimate

knowledge which justified that support, which in no small degree represents the fundamentals of the free government under which we are privileged to live

And now, my friends, as our story hastens to a close, as we who have tried to understand an Irish-American's feelings on this day; as we who have examined the singularity of Ireland's conversion, as we who have reviewed the story of Ireland's glories and her trials, as we who have considered the effect of her struggle for liberty on this great country of ours, as we prepare to leave these chambers, may I, in the light of what has been said, may I, in your name, salute the memory of St. Patrick, and the efforts of his people to keep the flame of culture and of liberty ever ablaze?

May I, in your name and in my own, express the hope that we, too, Americans all, will, if needs be, suffer the same tortures as they did of old, to preserve forever the principles of this Nation, the greatest on the face of the earth.

RESOLUTIONS

The following resolutions were offered:

By Mr. Poulson:

House Resolution No. 109

Relative to an opinion of the Attorney General upon income tax deductions of members of the Legislature

WHEREAS, The Attorney General of this State has recently reaffirmed a previous opinion in which he declared that the salaries of members of this Legislature are income upon which State income taxes must be paid but that necessary expenses incurred by members in attending legislative sessions are not deductible from such income as business expenses; and

WHEREAS, The opinion of the Attorney General is based upon the grounds that being a Legislator in this State is not a "business" because Legislators receive such small compensation that they can not be said to be moved by motives of personal gain or profit in becoming legislators; and

WHEREAS, It appears to the members of this Legislature that participating in the conduct of the business of the State is certainly engaging in a business in every reasonable sense of the word and that the expenses necessitated in performing this work are necessary business expenses; and

WHEREAS, The technical construction of the Personal Income Tax Act adopted by the Attorney General works appreciable hardship upon the members of this Legislature in that although the compensation received by them is scarcely sufficient to meet the expenses contingent upon attending legislative sessions, the opinion would go still further and require them to pay a tax upon this compensation; and

WHEREAS, It is the belief of the members of the Legislature that a deduction for legislative expenses is permitted in other States as business expenses; now, therefore, be it

Resolved by the Assembly of the State of California, That the Attorney General of this State be urged and requested to reconsider his opinion; and, be it further

Resolved, That a copy of this resolution be forthwith transmitted by the Chief Clerk of this Assembly to the Attorney General.

Request for Unanimous Consent

Mr. Poulson asked for, and was granted, unanimous consent to take up House Resolution No. 109, at this time, without reference to committee.

Resolution read and adopted

WHEREAS, Elizabeth Hughes, who served the State of California as an Assemblyman from Butte County for two terms, 1919 and 1929, recently has been called on to her reward, at the age of 63 years; now, therefore, be it

Resolved by the Assembly of the State of California, That this Assembly hereby expresses its deep and sincere sympathy upon the death of former Colleague Elizabeth Hughes; and be it further

Resolved, That a suitably engrossed copy of this resolution be transmitted by the Chief Clerk of this Assembly to James Shepard Hughes, *member of the faculty* of San Francisco Junior College, San Francisco, the son of Elizabeth Hughes; and be it further

Resolved, That when the Assembly adjourns this day, it do so out of respect to the memory of the late Elizabeth Hughes, former Member of the California Legislature.

Request for Unanimous Consent

Mr. Millington asked for, and was granted, unanimous consent to take up House Resolution No. 110, at this time, without reference to committee.

Resolution read and adopted unanimously

By Mr. Desmond:

House Resolution No. 111

WHEREAS, For some five years past, Highway Patrolmen J. A. Thielen and Harry Starr of Sacramento County Unit of the California Highway Patrol have been rendering outstanding service in the recovery of stolen automobiles and in apprehending persons upon the highways wanted for violations of law; and

WHEREAS, They have perfected a system for memorizing the numbers and descriptions of vehicles desired; and

WHEREAS, Patrolman J. A. Thielen only recently apprehended the driver of a stolen car, wanted on numerous charges and under sentences totaling 104 years, while said driver was armed with a gun; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly does hereby express to Highway Patrolmen J. A. Thielen and Harry Starr its deep appreciation of their outstanding and faithful performance of their duties and its heartiest and most sincere wishes for the continuance of their excellent services, and be it further

MOTION TO EXTEND VOTE OF THANKS

On motion of Mr. Lyon, Assemblyman Maloney and the Committee in Charge of the St. Patrick's Day Celebration were given a vote of thanks by the Assembly

REQUEST TO PRINT SPEECH IN JOURNAL

Mr. Lyon requested that the remarks of the Speaker, delivered to the Saint Patrick's Convention, be printed in the Journal.

Request granted.

Speech by Hon. Gordon H. Garland

Senator Maloney, Lieutenant Governor Patterson, members of the Senate, members of the Assembly, ladies and gentlemen here assembled:

During the week-end, I had the pleasure of attending the St. Patrick's Day ceremonies held by the Associated Irish Societies of San Francisco beginning with a banquet in the Municipal Auditorium which was provided by the members of the Islam Temple of the Shrine and also the ball Saturday evening in the same place which was attended by over 10,000 people—not alone people of the Irish race, but people of every race, creed, and religious faith; on Sunday a parade consisting of over 100 units which took about two hours to view in passing.

With all of these activities, I was very deeply and favorably impressed for I have never before seen such splendid cooperation in connection with any cause or objective. I am persuaded that if the members of the Legislature will cooperate to a similar degree in the consideration of matters pending before us, that a greater and better job will be done for the State of California.

On Sunday afternoon, a luncheon was furnished by the members of the South of Market Boys Organization at which time Supervisor McGowan of San Francisco delivered an oration in which the story of the life of Saint Patrick was beautifully told. All of these ceremonies reminded one of the important part that the Irish people have played in bringing Christianity to the people of the world and the abolition of Paganism.

In this day and year when the world is so troubled because of the greed and avarice of dictators and when the light of Christianity is flickering in many of the countries abroad, we are further reminded that we should do all within our power to protect our country against the inroads of these dictators in order to maintain at least one country where Christianity can be held sacred and perpetuated.

In this stupendous task which is before us, I am sure that the Irish people will play again the important part they have played in the past in maintaining for the present and extending to future generations the advantages of Christianity.

As we approach our legislative duties, let us bear in mind that now as never before should the spirit of tolerance be nurtured and disseminated, ever remembering that our government was established to protect all people and not to favor one class over another.

Thank you, Mr. Maloney.

SENATE JOINT RESOLUTION

Memorializing the legislature of the State of California to include portion of state route 24 in California state highway program for completion at an early date.

WHEREAS, Two decades ago, when a coordinated effort to establish a transcontinental route for highway travel was being formulated throughout the Nation, the residents of Nevada and California began to assume an active interest in the movement, and as a result of much correspondence between the officials of both states regarding the allocation of both primary and secondary routes connecting the states, a meeting was arranged between California officials headed by the then governor of that state, the Hon. William D. Stephens, and a group of officials representing the interests of Nevada; and

WHEREAS, After surveying the possibilities of various suggested routes, Governor Stephens gave his approval to a route designed to connect the primary transcontinental route passing through the city of Reno, in Nevada, with a secondary highway from that point to a connection with the Sacramento valley and coastal points, and declared that if and when the State of Nevada had completed the Nevada unit to the state line it would be met with an adequate connection in California; and

WHEREAS, Since the date of that original agreement and declaration, Nevada has found it necessary to complete such a route, and later to reconstruct it to a higher standard, while the State of California has refrained thus far from constructing such a connection in its entirety across the lowest elevation of the Sierra range, and the section between Hallelujah station, on U. S. route 395, and Beckwourth Pass, on state route 24, continues to remain on the old alignment built as a wagon road in pioneer days by Lassen County, in that state, and which is regarded as both dangerous and unsatisfactory in the light of present-day standards; therefore be it

Resolved by the Senate and Assembly of the State of Nevada, That the legislature of the State of California be memorialized to include the neglected portion of the state route 24, heretofore complained of as being dangerous and inadequate, in the California state highway program for completion at an early date, to the end that the agreement entered into so many years ago may be carried out and for the best interests of the residents of both states; and be it further

Resolved, That duly certified copies of this resolution be promptly forwarded by the secretary of state to the governor of the State of California, to the president of the California senate, to the speaker of the assembly, and to the board of supervisors of Plumas County, California.

E. P. CARVILLE, Governor

Resolution

WHEREAS, It appears from the provisions of proposed changes in Assembly Bills Nos. 560 and 1458 now pending before the Legislature of the State of California, that said proposed changes would, if enacted, work a hardship on, and be inimical to the best interests of many seasonal cannery workers in this community; and,

WHEREAS, The law providing for the payment of unemployment insurance, is best suited, as it now stands, to meet the needs of said seasonal workers in this community; be it therefore

Resolved, That we, the Executive Committee of the Armona Chamber of Commerce, do respectfully petition the Legislature of the State of California not to interfere with the operation of the Unemployment Insurance Law, by the passage, or adoption of any amendment thereto, but that the Legislature leave said Unemployment Insurance Law on the statute books of the State, with all of its present provisions unimpaired; be it further

Resolved, That copies of this resolution be forwarded to the Honorable Gordon H. Garland, Assemblyman, representing the Thirty-eighth Assembly District, and to the Honorable R R Cunningham, Senator, representing the Twenty-seventh Senatorial District, in the California State Legislature, at Sacramento, California

SOCIAL SECURITY BOARD, WASHINGTON, D. C., March 3, 1941

The Honorable Culbert L. Olson, Governor of California

DEAR GOVERNOR OLSON: This is in response to your letter of February 17th, addressed to the Administrator Federal Security Agency.

The amendment to Title I, Section 2 (a) (7), of the Social Security Act, apparently makes it impossible for the board to approve the California plan for old-age assistance after July 1, 1941, unless some change is made in the California law; but I believe that a revision of the California Old-Age Assistance Law might be framed in accordance with the requirements of the Federal statute and, at the same time, not only assure the maintenance of California's present standards of assistance to its needy aged, but also permit assistance to be given on a more liberal basis.

The amendment referred to above states that "A State plan * * * must * * * effective July 1, 1941, provide that the State agency shall, in determining need, take into consideration any other income and resources of an individual claiming old-age assistance."

In the report of the committee of the United States Senate and in the report of the committee of the House of Representatives, which considered this amendment, its purposes were explained in the following language:

> "Under this clause the State plan must provide that the State agency shall, in determining need, take into consideration any income and resources of an individual claiming old-age assistance. This will make it clear that, regardless of its nature or source, any income or resources will have to be considered, including ordinary income from business or private sources, Federal benefit insurance payments under Title II of the Social Security Act, and any other assets or means of support."

The California Old-Age Assistance Law provides: "* * * income from any of the following sources" (including income applicant's labor on service, or rent from the premises owned by applicant) "of a combined value not exceeding $15 per month shall not be considered for any purpose * * *" It also excludes from consideration as income or resources "the value of the use or occupancy of premises owned and occupied by applicants".

The Social Security Board feels that the language of the above-mentioned amendment, read in the light of the Committee Reports, makes it clear that the board can not give approval to a State plan under which the State administrative agency is prohibited from considering, for any purpose, specific income and resources of an applicant for old-age assistance. The term "other income and resources," as used in the amendment, is stated in the Committee Report to mean "any income or resource, regardless of its nature or source."

The adoption of such an interpretation as that suggested in the second paragraph of your letter, that income not in excess of $15 per month, if derived from certain sources, might be considered inconsequential, and, therefore, that consideration of

such income, in the determination of an individual's need, might be prohibited, is believed by the board to be beyond its power.

I understand that the California Old-Age Assistance Law was written in its present terms for the purpose of providing as adequately as possible, within the resources of the State, for the need of its aged citizens. I also understand that another reason for excluding from consideration income from applicant's labor or service, the value of foodstuffs raised by the applicant for his own use, the value of firewood or water produced on his premises for his own use, and the value of the use and occupancy of premises owned and occupied by the applicant, was that it was thought to be socially desirable to encourage productivity and thrift, by allowing the retention of the products of such efforts, to a limited extent, to meet more adequately the applicant's need.

I think perhaps there is a misunderstanding as to the effect of this amendment upon the California Old-Age Assistance Plan. In your letter you indicate that deduction would be required of the value of foodstuffs raised by the recipient for his own use, the value of casual gifts and money, other than those by a responsible relative and income from his labor or service. You also state, "I am advised that the Federal Social Security Board further interprets this amendment as making it necessary for aged people who own their own small homes, to have deducted from their grants the rental values of their small homes less taxes and some other items."

Your State plan fixes a minimum of $40 which may be paid to any individual even though the need of that individual exceeds such amount. The plan further provides that from the $40 maximum the individual's income (except income aggregating not more than $15 from certain sources) shall be deducted in fixing the amount of the payment. I do not understand that the $40 maximum is intended to measure the need of the individual, but rather to represent a figure which, within the funds available from State and Federal sources, can be paid.

There is nothing in the Social Security Act which would prevent approval of a plan providing for the payment of a maximum amount to an individual and, at the same time, permitting such individual to retain for his own use and benefit any income and resource which he might have, provided that the value of such income and resource when added to the amount paid under the State plan did not exceed the total actual need of such individuals, as determined by the State agency.

If an applicant's need were determined by the State agency to be $55 per month, and the applicant had an income, from any source, amounting to $15 per month, the amendment to the Social Security Act would not prevent approval of a plan which would permit that person to receive from the State $40 per month and, at the same time, retain for his own use the $15 income.

The amendment to Title I of the act, quoted above, does not require the deduction of any income or resource from a grant made by the State, but simply requires that all income and resources of an applicant for old-age assistance shall be taken into consideration by the State in fixing the amount of the grant. The difficulty in California, which seems to be more apparent than real, is of a kind which results, only in those States having plans which fix a maximum payment and require the deduction of income from other sources and prohibit consideration, or deduction, of income from other sources. This point might be clarified by one or two examples:

Under the provisions of the California plan, as it now operates an applicant for old-age assistance might own premises which are partially occupied by him and partially rented. He might receive from such rental $15 per month and have the use of the balance of the premises, the rental value of which might be $15 or $20, or more, per month, and still be entitled to receive the maximum grant of $40.

Another applicant might have a monthly income of $15 from a nonexempt source. Under the California plan, the latter applicant would receive from the State but $25 and would have to pay rent on the premises which he occupies.

The first-mentioned applicant would, therefore, have $55 and rent-free premises, while the second applicant would have but $40 out of which he would have to pay his own rent.

Such anomalies result from a fixed grant-minus income formula, and are aggravated when preferential treatment is given to income from specified sources. The Social Security Board has recommended against the adoption of a fixed grant-minus income method for determining the amount of assistance grants, feeling that, in application, it is less liberal than a system which permits the treatment of all income and resources on a like basis and which does not fix an arbitrary maximum, but allows available resources to be used to meet the widely differing needs of individuals to the extent that they can be met with available resources. An inflexible formula of this kind results in restrictions rather than liberality in many cases. For example, two applicants having like amounts of income but living, one in a rural area where rent and living expenses are low, the other in an urban area where rent and other living expenses are relatively high, would both receive the same grant. The comparative adequacy of such grants in these cases would, obviously, be quite different.

We believe, as you do, that as adequate provision as possible should be made for the needs of the aged people of your State. Our regional staff and I will be glad

to confer with you, or anyone whom you might wish to designate, and you may be sure we shall be happy to give all assistance possible.

The power of the Social Security Board is derived solely from the Social Security Act and is limited by the terms of that act. The board, by reason of the amendment, apparently does not have the power to continue approval of the present California plan after July 1, 1941. However, I believe that the California law can be brought into conformity with this condition in the Federal Act and that, at the same time, the social objectives of your present plan can be achieved and as liberal provision for the needy aged of your State as under the present plan can be made.

Sincerely,

OSCAR M. POWELL
Executive Director

WASHINGTON, D. C., March 15, 1941

Dr. Newel Perry, 6441-4 Colby Street, Oakland, California

DEAR DOCTOR After a week in Washington, I have more unsocial exchange to report than specific accomplishment The ambiguities of the Powell letter have now been completely resolved, all of them against us If there ever was any doubt about it, it is now altogether clear that the people who administer the Social Security Act have deliberately embarked upon a policy designed to destroy the flat grant and income exemption clauses of our State statutes The Washington administrators will be satisfied with nothing less than a specific allocation by the State to the social workers of the power to determine the need of each individual aid recipient and the amount of his grant This much we have known for some time. But we have now clarified the legal basis upon which the lawyers of the board rest its position According to them the amendment to 1002(a) requires a vesting of determinative power in the State agency and this together with the word "needy" requires an equitable distribution of the funds expended by the State on blind aid among the recipients of such aid. That equitable distribution can only be effected if, under the State law, urban dwellers and city dwellers do not receive the same amount (other distinctions are also taken) and the power is only properly vested in the State agency under clause (8) if the consequence of considering "other income and resources" is a discretion to make a corresponding reduction in the amount of the grant Moreover, the Washington administrators have worked out an argument against a flat grant which is calculated to have some appeal to the Congressmen They say that the flat grant prevents the State agency from giving to blind persons whose needs are greater than the amount of the grant a sufficient payment.

Since the board was worried about the injustices of statutory maxima, I suggested that we would be perfectly willing to say in the California law that every person having an income of less than $33 a month should receive not less than $50 a month. But this proposal did not seem to excite a favorable response. I next suggested that the equitable distribution argument could be met by making a flat grant in an amount which would meet the minimum needs common to all blind persons and permitting the agency discretionary power as to grants above that point; but this too fell on deaf ears Powell was worried about the statement in the California law that an income of $33 a month from certain specified sources "shall not be considered for any purpose" I thought that this objection could easily be obviated by saying in the California law that a private income up to $33 a month should be considered for the purpose of determining whether the blind person had, together with the grant, an income of $83 per month and for the purpose of reducing the grant by the amount of all income above that point But this argument too was not pleasing to the administrative mind.

Gradually working our way upwards, Burlingame and I first presented our case to Jane Hoey, Director of the Bureau of Public Assistance, and her associate, a lawyer named Casius. Next to Oscar Powell, Executive Director of the Social Security Board; and finally to Paul V. McNutt, Administrator of the Federal Security Agency Powell is a very high caliber man with a fine sense of argumentative values, a considerable store of good nature and unusual perception. He simply is not a believer in our fundamental assumptions Hoey and Powell had argued that the new ruling of the board did not necessarily result in a reduction of a recipient's grant by the amount of his earnings or other income McNutt took the position that it did and moreover, that it should. "Are you saying to us," I asked McNutt, "that blind men should have their grants reduced no matter how small their private income and no matter how great their actual need?" His answer was that he was saying precisely that I formulated the question in several other ways only to get the same reply. I can't say that I wasn't glad to get this official declaration from McNutt since it provides us with an official declaration by the highest administrator of them all that ought to be of immense propagandistic value to us. Moreover, McNutt's conduct during the conference has provided us with the most perfect example of the arbitrary and tyrannical methods of the board that we could hope to have.

In the remaining week that I shall stay in Washington we shall attempt to carry our appeal the last administrative step Senator Downey of California and Senator Hughes of Delaware are attempting to secure for us appointments with Mrs and President Roosevelt.

On the legislative side, I have had sessions with numerous Senators and Representatives. They all seem sympathetic to our rehabilitation argument. I hope to have our amendment introduced early next week Senator Downey and Congressman Voorhis have been particularly sympathetic and helpful. Downey assured me that the President is going to back a liberalizing amendment with respect to old age and that he, Downey, will do what he can to have the blind cut in on the Presidential move McNary, hitherto openly pessimistic about his bill, (incidentally, the number of the McNary bill is now S 869) now thinks that the mere rumor of the President's wishes will give his measure considerable impetus Voorhis thought well enough of my amendment to suggest that it be modified to suit the purposes of Title I Senator Harrison has given every evidence of being interested in our troubles but, unfortunately, he has now left the city for a six weeks' rest However, he had the clerk of the Senate subcommittee in charge of this matter show us every attention and requested the chairman of that subcommittee, Tom Connally of Texas, to give our proposals serious consideration All of these people agree that nothing will be done about the Social Security Act until June or July.

As things stand, the only course open to the blind of California is to urge the Legislature to retain the Blind Aid Act in its present form If we can get a favorable amendment to the Social Security Act it certainly will not be until after the California Legislature adjourns.

I'll send you another report shortly after I return to Chicago which will probably be on the 23d If anything of crucial importance develops, which I have no reason to expect, I shall get it to you by wire in time for the Sacramento Convention

Cordially yours,

CHICK

CONSIDERATION OF SPECIAL ORDER

The hour of 2.15 p.m. having arrived, Assembly Bill No. 253 was taken up.

Assembly Bill No. 253—An act to add Section 1.5 to the Unemployment Relief Appropriation Act of 1940, and to amend Section 4 of the California Unemployment Relief Act of 1935, and to add Section 8.5 to the California Unemployment Relief Act of 1935, relating to the relief of hardship and destitution due to and caused by unemployment and the administration thereof, providing terms and conditions upon which such relief may be granted, making an appropriation therefor, declaring the urgency thereof, to take effect as therein provided.

Bill read third time.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Assembly Bill No. 253:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, March 18, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS

ASSEMBLY BILL NO 253

"An act to add Section 1.5 to the Unemployment Relief Appropriation Act of 1940, and to amend Section 4 of the California Unemployment Relief Act of 1935, and to add Section 8.5 to the California Unemployment Relief Act of 1935, relating to the relief of hardship and destitution due to and caused by unemployment and the administration thereof, providing terms and conditions upon which such relief may be granted, making an appropriation therefor, declaring the urgency thereof",

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await final enactment of the Budget Bill.

I, therefore, recommend consideration of Assembly Bill No 253 as an emergency measure. However, I must advise you that the appropriation of $2,042,000 proposed by this bill in its present form is insufficient to meet the emergency presented Available information as to the current case load, rate of closing cases, anticipated seasonal decrease and other pertinent factors give every indication that the appropriation now required to cover unemployment relief needs for the fourth quarter of the current fiscal year should be $4,617,000 in addition to an unexpended balance which may be carried forward under the bill into the next quarter, out of appropriations heretofore made, which is estimated at $1,100,000. In other words, the appropriation specified in this bill of only $2,042,000 is less than one-half of the additional amount required for the needs of unemployment relief during this quarterly period, according to present estimates made by the Relief Administration and the Department of Finance on a factual basis, unless indeed it should be the intent of the Legislature to reduce the relief budgets by more than one-half during that period. This I would unalterably oppose If the Legislature sees fit to appropriate only the sum of $2,042,000, I shall advise the Relief Administrator to continue relief payments without change in standards of eligibility and at present budgetary levels which will almost certainly make an additional appropriation necessary before the end of the biennium.

I recommend, however, that Section 1.5 of Assembly Bill No 253 be amended by striking out the words and figures "two million, forty-two thousand dollars ($2,042,000)" and inserting in lieu thereof "four million, six hundred seventeen thousand dollars ($4,617,000)".

Respectfully submitted

CULBERT L. OLSON, Governor of California

Bill read third time.

Explanations of Vote on Assembly Bill No. 271

S. L. HEISINGER

I have refused to vote for Assembly Bill No. 271 for the reason that it is very poorly drawn and as a result does not accomplish the purposes claimed for it by its proponents.

COMMUNICATIONS

ASSEMBLY, CALIFORNIA LEGISLATURE, March 19, 1941

Honorable Gordon H. Garland, Speaker of the Assembly
State Capitol, Sacramento, California

DEAR MR. GARLAND: In answer to your letter, dated February 5, 1941, which reads as follows:

> "Pursuant to our conversation of recent date, concerning the collection of data and information appertaining to road taxes of every nature, I would suggest that you submit to me, at your earliest possible convenience, a resume of information you have gathered in order that I may be enabled to study same and present it to the members of the Legislature for their consideration.
>
> Realizing that this is a rather broad subject, I, of course, appreciate that your study will not be complete in every detail. I shall nevertheless appreciate receiving whatever information you have been able to gather up to the time you write
>
> Thanking you for the interest you have shown in this matter and the effort you have put forth, etc",

after six weeks of intensive study and research, I have sufficient data, from official records for the year 1940, to give to you what I think is the most complete report ever assembled upon the taxation for highway maintenance of State, county and city roads and streets

During 1940 the registrations of all motor vehicles in California were 2,990,252 and out-of-State vehicles, entering California, were 517,427 automobiles, and 42,914 trucks The total income to the State from all these vehicles was $81,214,048.29. Of this total, there was collected from gas tax and fuel tax the sum of $51,143,811 at an expense of 36 per cent, and from this total the counties received $16,808,558.89. There was also expended $8,404,229 54 from this sum by the State and the cities upon city streets.

Included in the total collections was $2,576,903 84, taken from for-hire vehicles on a basis of 3 per cent of gross earnings at an administrative cost of $304,641.25, or 11 8 per cent. This money went directly into the State General Fund. The "in lieu" tax was $14,350,000 which, after the deduction of an administrative cost of $274,378 or 2 per cent also went into the General Fund. From this net fund State highway bonds and interest in the sum of $3,514,187 was paid, leaving a balance of approximately $10,500,000 to be divided as follows. 40 per cent to the counties 40 per cent to the cities, and 20 per cent into the General Fund. Figures quoted show that over $4,500,000 of motor vehicles money remained in the General Fund after the cost of administration and bond redemptions In addition to the sum of $16,808,458 89 which the counties received from the State, the records show that the counties collected from direct tax upon property the further sum of $4,619,757 08. In addition to the $8,404,229 54 which the cities received from the State, they spent large sums of money for street work estimated at not less than $10,000,000.

It was impossible for me to make a further survey into the payments by the taxpayers of the cities for street purposes within the short time of this survey, and without a further heavy personal expense to myself. However, I am giving you the estimates, of the Taxpayers Association, and of the State Chamber of Commerce, which approximate from $10,000,000 to $20,000,000.

Reports from C H Purcell, State Highway Engineer, show 13,865 miles in the State Highway System containing 4,225 bridges with over 1,150 bridges inadequate for present day traffic which will require $35,000,000 for replacement

In the rural State Highway System are 617 railroad grade crossings of which 269 show 92 per cent of crossing accidents within the last 13 years To eliminate these dangerous crossings, it will require $27,000,000 These weak bridges and dangerous grade crossings constitute traffic bottlenecks, which should be quickly eliminated.

Mr. Purcell reports that the county highway system embraces 58,200 miles The counties in 1940 raised by direct tax upon property nearly $5,000,000, in addition to the funds supplied by the State

In the short time of study I have not learned what additional funds the cities have paid for street purposes in 1940, but the sums are large and in addition, many of them place licenses upon the delivery of agricultural and commercial products, which licenses constitute serious trade barriers All data collected shows that millions of additional dollars are needed in the State, in the counties, and in the cities for highway purposes.

How shall the money be raised? Surely not by direct property taxes. Property is already over-taxed and should have relief.

The gas tax is recognized as the most equitable tax for highway purposes, but has California properly used it for such purposes? A comparison with other States might be enlightening and valuable

The gas taxes in the 48 States show an average of 4.4 cents per gallon. The average in the 10 western States outside of California is 4.5 cents per gallon, with no State less than 4 cents, and the average in the 9 provinces of Canada is 8.2 cents per gallon

This data taken from their laws shows that had the 560,341 motor vehicles from outside California paid us the same gas tax as charged by their home States, we would have received $1,000,000 more than we did in 1940.

Our State Highway System is financed upon the sound basis with only motor taxes for its support, which also liquidates the payment of the State highway bonds, but because of improper allocation the railroad grade separations and inadequate bridges are not properly financed while many millions of dollars go directly into the General Fund

During 1940 the farmers of California produced over $412,627,000 worth of agricultural products, half of which was livestock, and it is estimated that at least 75 per cent of this vast tonnage originated on the county roads and ended on city streets, while on the other hand, multiplied millions worth of finished products they purchased originated mostly on the city streets, and ended over the county roads.

This most forcibly illustrates that the county roads and the city streets help to make up our mighty highway system, which should be coordinated by a sound financial system and a fair allocation of motor vehicle revenues, so that finally property taxes would be reduced to the minimum for all highway purposes, which includes the payment of their highway bonds

The enactment of Assembly Bill No 1816 would supply $8,000,000 or $10,000,000 additional money to the counties, which would eliminate and take the place of property taxes for county highway purposes; would supply the cities with $4,000,000 or $5,000,000 of additional dollars to take the place of similar amounts of property taxes and would bring about the repeal of the barrier licenses against delivery of outside products

The enactment of the bill would take from the State General Fund the $2,500,000 collected from the for-hire vehicles and instead would give the inadequate bridges and the dangerous grade crossings $4,000,000 or $5,000,000 annually.

The enactment would also give to the counties and the cities gas tax money for highway bond redemptions

Sincerely,

S. L. HEISINGER, Assemblyman
Thirty-seventh District

REQUEST FOR USE OF ASSEMBLY CHAMBER

House Resolution No. 115

Relative to securing facts concerning alleged San Francisco police brutality.

WHEREAS, There have been recurrent reports of alleged brutal treatment by certain members of the San Francisco police of persons charged with crime; and

WHEREAS, The most recent report shows that one John Liston, a member of the San Francisco police force is alleged to have struck and painfully injured a 15-year-old high school student; and

WHEREAS, It further appears that two other members of the San Francisco police force are charged with setting upon and beating two Stanford University students; and

WHEREAS, It is the desire of the Legislature to enact proper legislation to prevent the future occurrence of such brutality and to safeguard and protect the rights and physical well-being of those accused of crime without hampering proper and efficient police administration; and

WHEREAS, It is necessary that the Legislature be supplied with all facts relating or appertaining to the above-mentioned situation in order to enact such legislation, now, therefore, be it

Resolved by the Assembly of the State of California, That the Attorney General of the State of California is hereby directed (1) to investigate, thoroughly, adequately, and in detail, the circumstances surrounding and dealing with the arrest and confinement of the high school student and the two Stanford University students by the San Francisco Police Department and the disciplining of the members of the San Francisco Police Department, and (2) to prepare a report concerning such arrests and confinement in order that the Legislature may enact reasonable laws administratively feasible in application, that will safeguard the rights of persons arrested and not hamper proper and efficient police administration; and be it further

Resolved, That in the conduct of such investigation and preparing a report of the facts ascertained through such investigation, the Attorney General and every deputy designated by him shall have and exercise, in addition to all other powers conferred upon him by law, the power to summon and subpena witnesses, require the production of books, papers, accounts, reports, documents, and records of every kind and description, to issue subpenas and to take all necessary means to compel the attendance of witnesses and the procuring of testimony; and be it further

Over a long period of years, the State Board of Education and the Commission of Credentials of the State Department of Education have issued several thousand credentials valid until revoked, to qualified graduates of the State colleges and the University of California. (1) To investigate any and all transactions between producers and distributors[,] *or among distributors* or between distributors and retail stores or between distributors and consumers[,] or *between* retail stores and consumers, and for that purpose the director or his authorized agents shall have access to and may enter at all reasonable hours all places where milk is being stored, bottled or manufactured, or where milk or milk products are being bought, sold or handled, or where the books, papers, records or documents relating to such transactions are kept, and shall have power to inspect and copy the same in any place within the State

(2) To issue licenses to distributors and require the registration of producers

(3) To formulate any stabilization and marketing plan as prescribed in this chapter and declare the same effective after public hearing and reasonable notice by mail or otherwise to all producers and distributors of record with the director, affected by such plan.

(4) To prescribe minimum prices to be paid by distributors in accordance with a stabilization and marketing plan for fluid milk and classify said milk according to usage by distributors; provided, that the prices so prescribed shall be based upon the economic relationship of the price of fluid milk for the marketing area involved to the price of manufacturing milk, taking into consideration the additional costs incurred in producing and marketing fluid milk over and above such costs incurred in producing and marketing manufacturing milk

(5) To prescribe minimum prices to be paid by distributors for fluid cream in accordance with a stabilization and marketing plan, provided, that the prices so prescribed shall be based upon the economic relationship of the price of fluid cream for the marketing area involved to the price of manufacturing milk, taking into consideration the additional costs incurred in producing and marketing fluid cream over and above such costs incurred in producing and marketing manufacturing milk.

(6) (a) To amend or terminate any stabilization and marketing plan, after notice and public hearing as prescribed in Section 736 1, in the event that he finds that such plan is no longer in conformity with the standards prescribed in, or will not tend to effectuate the purposes of, this chapter Such hearing may be held upon the motion of the director and shall be held upon receipt of a petition signed by producers representing not less than 55 per cent of the total number of all producers and not less than 55 per cent of the total production of all producers who are eligible to petition the director for the formulation of such plan.

(7) To appoint a local control board for any marketing area, in the event that he deems such board necessary or advisable.

(8) To remove any member from a local control board in the event that he finds such member, after hearing, is guilty of nonfeasance or malfeasance in office.

(9) To appoint a member to fill a vacancy on a local control board.

SEC. 3. Section 736.3 of the Agricultural Code is hereby amended to read as follows:

736.3. Any stabilization and marketing plan shall contain the following provisions:

(a) Provisions for prohibiting distributors *and retail stores* from engaging in the unfair practices hereinafter set forth:

(1) The payment, allowance or acceptance of secret rebates, secret refunds, or unearned discounts by any person, whether in the form of money or otherwise.

(4) The false or misleading advertising of fluid milk or fluid cream as defined in Section 654a of the Penal Code.

(5) The purchase of any fluid milk in excess of 100 gallons monthly from any producer or association of producers unless a written contract has been entered into with such producer or association of producers stating the amount of fluid milk to be purchased for any period; the quantity of such milk to be paid for as Class 1, [and Class 2,] and the price to be paid for each of the several classes, [but in any marketing plan where an equalization pool is in operation such contract need not specify the quantity of the several classes.] *but in any marketing area where an equalization pool is a part of a stabilization and marketing plan, such contract need not specify the quantity of milk in any one class.* The contract shall also state the date and method of payment, the charges for transportation if hauled by the distributor, and may contain such other provisions as are not in conflict with this chapter, *and shall contain a proviso to the effect that the producer shall not be obligated to deliver in any calendar month fluid milk in excess of 20 per cent more than the amount for which such producer received the Class 1 price during the preceding calendar month.* A signed copy of such contract shall be filed by the distributor with the director within five days from the date of its execution.

(6) The purchasing, processing, bottling, offering for sale, contracting for sale, consigning, selling, transportation, delivering or otherwise handling in any marketing area of any fluid milk or fluid cream which is to be or is sold or otherwise disposed of by such distributor at any place in the geographical area within the outer, outside and external boundaries or limits of such marketing area, whether such place is a part of the marketing area or not, at less than the minimum wholesale and minimum retail prices effective in such marketing area.

(7) The purchasing or receiving of any fluid milk from any producer by distributors within a marketing area, which milk is sold or distributed outside a marketing area, for less than the average of the prices paid for fluid milk of similar grade or quality by distributors for fluid milk received at plants in the town or vicinity in which such fluid milk is distributed as such prices are determined by the director from contracts required to be filed with him pursuant to this section.

(8) Any deduction by a distributor from payments for fluid milk purchased or received from a producer which has not been authorized by the provisions of a stabilization and marketing plan, or by written agreement signed by both producer and distributor, a copy of which has been filed with and approved by the director; provided further, that no such agreement may contain provisions at variance with or contrary to the provisions of any applicable stabilization and marketing plan.

(b) Provisions whereby the director designates and prescribes or provides methods for designating or prescribing minimum prices to be paid by distributors to producers, for fluid milk in one or more of the various classes; provided, however, that the prices so designated or prescribed shall be based upon the economic relationship of the price of fluid milk for the marketing area involved to the price of manufacturing milk, taking into consideration the additional costs incurred in producing and marketing fluid milk over and above costs incurred in producing and marketing manufacturing milk; and provided further, the director finds that such prices will tend to effectuate the purposes and policy of this chapter and will insure consumers a sufficient quantity of pure and wholesome milk.

Any stabilization and marketing plan may contain the following provisions:

(c) Provisions whereby distributors shall report to each producer from whom fluid milk is secured, the volume of fluid milk received from such producer in pounds

of milk, the milk fat test of such milk and the amount of fluid milk in milk fat pounds paid for in the several classes and the prices paid for the various classes for each month.

(d) Provisions whereby the director designates and prescribes or provides methods for designating or prescribing minimum prices to be paid by distributors to producers for fluid cream [.] *:* provided, that the prices so designated or prescribed shall be based upon the economic relationship of the price of fluid cream for the marketing area involved to the price of manufacturing cream, taking into consideration the additional costs incurred in producing and marketing fluid cream; and provided further, that the director finds that such prices will tend to effectuate the purposes and policy of this chapter and will insure consumers a sufficient quantity of pure and wholesome cream.

(e) Provisions whereby the director designates or prescribes methods to provide uniform prices to be paid to all producers supplying fluid milk to distributors for pasteurization purposes in the marketing area involved by pooling the returns of all such fluid milk [,] *;* provided, that no equalization pool shall be established unless the director, after hearing, determines that producers who supply distributors with not less than sixty-five *(65)* per cent of the total volume of fluid milk used for pasteurization purposes and who represent not less than sixty-five *(65)* per cent of the total number of such producers desire the establishment of such pool, but no hearing shall be necessary if said sixty-five *(65)* per cent, by volume and production, of such producers petition the director in writing to establish such equalization pool as a part of the plan. If the director finds that an equalization pool is necessary to carry out the provisions of this chapter he shall make provision therefor. The director may designate the local control board for the marketing area as his agency to operate the equalization pool and may permit such local board to employ a pool manager and such other necessary personnel and to incur such expenses incidental to the operation of the pool as the director finds are necessary. The director is hereby empowered to require distributors to make reports to the pool manager at such intervals and in such detail as he finds is necessary for the operation of the pool which reports shall be kept confidential as to any individual distributor but shall be available to the director or his agents and the pool manager, and such employees of the pool as are necessary to the operation of the equalization pool.

No provision of any pooling program shall prevent any distributor from paying premiums for quality *:* provided, all producers supplying fluid milk of like quality to such distributor are paid similar premiums, nor shall any provision prohibit the paying of different prices to producers based on differentials in transportation, adjustments or deductions made by a cooperative association of producers to its members, including the blending of proceeds received from the sale of fluid milk by such cooperative in other markets. Distributors who purchase fluid milk from producers for pasteurization purposes shall deduct from payments due such producers at such time and in such manner such sums as the director determines are sufficient to insure uniform prices to all producers subject to the provisions of the equalization pool, irrespective of the usage of such fluid milk by the distributors. Distributors shall make, in addition to the deductions herein prescribed, such additional deductions per pound milk fat as the director finds necessary to pay all expenses incidental to the operation of the equalization pool, including the establishment of a reserve account to insure prompt payments to producers. The deductions herein prescribed are in addition to any other deductions prescribed by this chapter.

SEC. 4. Section 736.11 of the Agricultural Code is hereby amended to read as follows:

736.11 The director shall, as soon as possible, after the effective date hereof, in all marketing areas wherein a stabilization and marketing plan is in effect under the provisions of this chapter, designate and prescribe or provide methods for designating and prescribing [,] *:*

(a) Minimum wholesale prices which, as used herein, shall be sold by distributors to retail stores including the prices at which fluid milk or fluid cream shall be sold by distributors to retail stores, restaurants, confectioneries and other places for consumption on the premises but excluding, however, the prices at which fluid milk or fluid cream, or both, shall be sold by distributors to retail stores owned or operated by such distributors; and

(b) Minimum retail prices which, as used herein, shall mean prices at which fluid milk or fluid cream, or both, shall be sold by distributors and retail stores to consumers.

At the time any stabilization and marketing plan is hereafter established under the provisions of this chapter, the director shall designate and prescribe, or provide methods for designating and prescribing, such minimum wholesale prices and such minimum retail prices; provided, however, that all prices established under the terms of this article shall be such prices as are determined by the director pursuant to the provisions of Section 736.12.

The director shall in making effective any stabilization and marketing plan for fluid cream, correlate the price to producers for fluid cream to the cost to distributors of cream obtained from Class 2 fluid milk, taking into consideration the value

of skim milk obtained by separation of Class 2 fluid milk, transportation charges and other factors entering into the production of fluid cream and cream obtained from Class 2 fluid milk.

SEC. 5. Section 736.13 of the Agricultural Code is hereby amended to read as follows:

736 13. No distributor shall sell to any retail store, restaurant, confectionery or other place for consumption on the premises, or to any consumer, and no retail store, restaurant, confectionery or other place for consumption on the premises, shall purchase from any distributor or sell to any consumer, any fluid milk or fluid cream, or either of them, at less than the prices as established by the director under the provisions of this article, and the use or attempted use of any method, device or transaction whereby any distributor sells or offers *or agrees* to sell to any retail store, restaurant, confectionery or other place for consumption on the premises, or consumer or any retail store, restaurant, confectionery or other place for consumption on the premises, buys or offers *or agrees* to buy from any distributor, or sells or offers *or agrees* to sell to any consumer fluid milk or fluid cream, or either, at a price less than that established by the director under the provisions of this article, whether by discount, rebate, free service, advertising allowance, lease of refrigeration or other equipment, or gift, or otherwise and whether any such discount, rebate, free service, advertising allowance, lease of refrigeration or other equipment, or gift applies directly to fluid milk or fluid cream or is allowed upon or in connection with the sale or handling of any other commodity or product, is hereby prohibited. [The director may, for the purpose of enabling him to enforce the provisions of this section, require every] *Every* distributor in any marketing area [to file] *wherein an order establishing minimum wholesale and minimum retail resale prices is in effect shall file* with [him] *the director* schedules and any amendments thereto setting forth the prices at which each such distributor is selling or offering *or agreeing* to sell *fluid milk, fluid cream and* dairy products, *excluding butter, cheese, except cottage cheese, canned milk, powdered milk, casein and ice cream,* in such marketing area. *Such filings shall be made in such office of the director as he shall designate. Such prices shall not become effective until the fifth day after filing. Evidence of any sale of, or offer or agreement to sell such fluid milk, fluid cream or dairy products by a distributor, made as part of, or in connection with the sale of, or offer or agreement to sell fluid milk and fluid cream, or both, in a marketing area where prices for fluid milk or fluid cream, or both have been established by the director, at less than the prices theretofore filed with the director by such distributor pursuant to the provisions of this section, shall constitute prima facie proof of a violation of this section. Offers and agreements to sell, as used herein shall include offers and agreements which are conditional, or which shall become effective, upon the filing thereafter of amended prices by the distributor making such offer. Upon receipt of such amendments the director shall forthwith date, file, and index the same in such manner that the information therein contained shall at all times be kept current and be readily available to any interested party desiring to inspect the same. Any other distributor in the marketing area may meet any such prices so filed provided that such distributor shall file with the director a schedule of prices not exceeding the prices so met by him within 24 hours after meeting the same.*

SEC. 6. Section 736 14 of the Agricultural Code is hereby amended to read as follows:

736 14. Distributors who are subject to the provisions of this article shall pay to the director on all milk fat contained in fluid milk and fluid cream purchased from producers, *including their own production, if any,* a fee in mills per pound of milk fat equal to that required to be deducted from the payments due producers of fluid milk under Section 737.6 of this code. The amount so received by the director shall be used in the administration and enforcement of this chapter or any stabilization or marketing plan established by this chapter. Any amounts in excess of that required for this purpose shall be returned *pro rata,* at such times as the director may determine, to distributors [pro rata] from whom such sums were collected.

SEC 7. Section 737.5 of the Agricultural Code is hereby amended to read as follows:

737 5. (a) After thirty *(30)* days after the effective date of this chapter no distributor shall deal in fluid milk or fluid cream without first having obtained a license from the director. The special licenses provided in this section are in addition to any and all licenses required by any other section of Division 4, Agricultural Code, or any law or ordinance of any county or municipality of this State. Applications for the licenses herein provided shall be made on forms prescribed by the director and shall state the name and address of the applicant and such details as to the nature of the applicant's business as the director may require. *Such applicant shall further satisfy the director of his or its character, responsibility and good faith in seeking to carry on the business stated in the application.* [Licenses shall be issued for a period of 12 months from the first day of each year. Application for renewal shall be made at least 30 days before the commencement of the license year.]

Licenses shall be issued for a period of twelve (12) months from the first day of each year or for the remainder of the calendar year from the date of issuance. Application for a new license for the following year by a licensee shall be made at least thirty (30) days prior to the commencement of such year, and if not so made the applicant shall pay an additional sum equal to 50 per cent of the license fee before such license shall be issued.

(b) [Before any license is issued to any distributor who purchases fluid milk or fluid cream from producers, the applicant shall] *Every distributor before purchasing any fluid milk or fluid cream from a producer must* execute and deliver to the director a surety bond in the minimum sum of *one thousand dollars* ($1,000), executed by the applicant as principal and by a surety company qualified and authorized to do business in this State as surety. Said bond shall be upon a form approved by the director, and shall be conditioned upon the payment in the manner required by this chapter, of all amounts due to producers for fluid milk or fluid cream purchased by such licensee or applicant during the license year. Said bond shall be to the State in favor of every producer of fluid milk and fluid cream. In case of failure by a distributor to pay any producer or producers for fluid milk or fluid cream in the manner required by this chapter, the director shall proceed forthwith to ascertain the names and addresses of all producer-creditors of such distributor, together with the amounts due and owing to them and each of them by such distributor, and shall request all such producer-creditors to file a verified statement of their respective claims with the director. Thereupon the director shall bring an action on the bond on behalf of said producer-creditors. Upon any action being commenced upon said bond, the director may require the filing of a new bond and immediately upon a recovery in any action upon such bond, such distributor shall file a new bond, and upon failure to file same within ten *(10)* days in either case, such failure shall constitute grounds for the revocation or suspension of the license of such distributor. In the event that recovery upon the bond is not sufficient to pay all of the claims as *finally determined and adjudged by the court, any such amount recovered shall be* divided pro rata among said producer-creditors.

The minimum bond of *one thousand dollars* ($1,000) shall be required of distributors purchasing an average daily quantity of fluid milk [not to exceed] *of less than* 100 gallons; distributors purchasing an average daily quantity of 100 gallons and less than 200 gallons must post a bond in the amount of *two thousand dollars* ($2,000); distributors purchasing an average daily quantity of 200 gallons and less than 300 gallons must post a bond in the amount of *three thousand dollars* ($3,000); distributors purchasing an average daily quantity of 300 gallons or more shall post a bond in the sum of *five thousand dollars* ($5,000).

The same bond requirements shall apply to purchases of fluid cream, except that for the purposes of computation of the required bond, 10 gallons of fluid cream shall be deemed the equivalent of 100 gallons of fluid milk.

In the event that any distributor so increases his purchases of fluid milk or fluid cream during the license year that said purchases exceed the amount for which said distributor is bonded, said distributor shall forthwith post such additional bond or bonds as may be required to comply with the provisions of this section.

The licenses and bonds provided for in this section shall be required for each distributor, and for the purposes of this section each subsidiary milk plant or branch milk plant whether under one ownership or not shall be considered as an individual distributor.

Failure of any distributor who purchases fluid milk or fluid cream from producers to execute and deliver the bond as herein provided and required shall constitute a violation of this chapter; failure of any such distributor to post such additional bond or bonds as may be required to comply with the provisions of this chapter shall likewise constitute a violation of this chapter.

SEC. 8. Section 737 7 of the Agricultural Code is hereby amended to read as follows:

737 7. (a) The violation of any provision of this chapter, or of any provision of any stabilization and marketing plan *or any order of the director establishing minimum wholesale and minimum retail prices for fluid milk or fluid cream or of any other order, rule or regulation* formulated under the provisions of this chapter, or of any of the unfair practices set forth in this chapter, is a misdemeanor, and is furthermore ground for revocation or suspension of license in the manner set forth in this chapter. The unfair practice provisions described in this chapter are hereby declared to apply to all distributors, whether or not a plan is in effect in the area in which a distributor is licensed or carries on business.

This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into effect immediately. The facts constituting the necessity are as follows In several of the seasonal resort areas of the State which are located more than one mile outside the limit of incorporated cities or towns public works camps have become established In such areas regularly going resort businesses of many years standing have been duly licensed for the sale of distilled spirits and wine for more than six months prior to the establishment of such public works camps. Nevertheless, under the present law when the owner of such a resort business dies or sells his business, or when a partner in a partnership operating such a business dies or drops out of the partnership, there can be no transfer of the licenses held by such owner or partnership The law does not now permit new licenses, except on-sale beer licenses, to be issued in such areas after the camps are established. However, since the licenses for such businesses can not be transferred and are being rapidly eliminated by the death of present owners or by a partner's death or his going out of business there is an increasing tendency for unlicensed persons to carry on the business of making unlawful sales of alcoholic beverages. There is thereby created a police problem which is extremely detrimental to the public peace, health and safety"

Sec 11. The board, whenever it deems it necessary to insure compliance with the provisions of this act, may require any person subject to the tax imposed hereunder to deposit with it such security as the board may determine. *The amount of the security shall be fixed by the board but shall not be greater than twice the person's estimated average tax for the period for which he files returns, determined in such manner as the board deems proper, or ten thousand dollars ($10,000), whichever amount is the lesser. The amount of the security may be increased or decreased by the board subject to the limitations herein provided.* The [same] *security* may be sold by the board at public sale if it becomes necessary so to do in order to recover any tax, interest or penalty due. Notice of such sale may be served upon the person who deposited such securities personally or by mail; if by mail, service shall be made in the manner prescribed by Section 1013 of the Code of Civil Procedure and addressed to the person at his address as the same appears in the records of the board. Upon any such sale, the surplus, if any, above the amounts due under this act shall be returned to the person who deposited the security.

SEC. 6. Section 17 of the Retail Sales Tax Act of 1933 is hereby amended to read as follows:

Sec. 17. The burden of proving that a sale of tangible personal property is not a sale at retail shall be upon the person who makes it, unless such person takes from the purchaser a certificate to the effect that the property is purchased for resale. Such certificate relieves the seller from such burden only if taken in good faith from a person engaged in the business of selling tangible personal property and holding the permit provided for in Section 12 of this act and who, at the time of purchasing the tangible personal property, intends to sell it in the regular course of business or is unable to ascertain at the time of purchase whether such property will be sold or will be used for some other purpose. Such certificate shall be signed by and bear the name and address of the purchaser, shall indicate the number of the permit issued to such purchaser under this act, and shall indicate the general character of the tangible personal property sold by such purchaser in the regular course of business. Such certificate shall be substantially in such form as the board may prescribe.

If a purchaser who gives such a certificate makes any use of such property other than retention, demonstration, or display while holding it for sale in the regular course of business, such use shall be deemed a retail sale by such purchaser as of the time such property is first used by him and the cost of such property to him shall be deemed the gross receipts from such retail sale. If the sole use of such property other than retention, demonstration or display in the regular course of business is *the rental of the property while holding it for sale, the purchaser may* elect to include in his gross receipts the amount of the rental charged rather than the cost of the property to him

For the purpose of the proper administration of this act and to prevent evasion of the tax hereby imposed it shall be presumed that all gross receipts are subject to the tax hereby imposed until the contrary is established

If the board is not satisfied with the return or returns of tax made by any retailer, it is *hereby authorized and empowered to make* [an] *one or more* additional assessment*s* of tax due from such retailer based upon the facts contained in the return or returns, or upon any information within its possession or that shall come into its possession [An] *One or more* additional assessment*s* may be made of the amount of the tax due for *one or for* more than one period

The amount of tax so assessed shall bear interest at the rate of one-half of 1 per cent per month, or fraction thereof from the fifteenth day after the close of the quarterly period for which the amount of such tax or any portion thereof should have been returned until the date of payment In making an assessment hereunder the board may offset overpayments for a period or periods, together with interest on such overpayments, against underpayments for another period or periods, against penalties, and against the interest on such underpayments. Such interest on underpayments and overpayments shall be computed in the manner set forth

in Sections 9½ and 23 hereof. If any part of the deficiency for which the additional assessment is imposed is due to negligence or intentional disregard of the act or authorized rules and regulations, a penalty of 10 per cent of the amount of the additional assessment shall be added thereto. If any part of the deficiency for which the additional assessment is imposed is due to fraud or an intent to evade the tax, a penalty of 25 per cent of the amount of the additional assessment shall be added thereto. The board shall give to the retailer written notice of such additional assessment. Such notice may be served upon the retailer personally or by mail; if by mail, service shall be made in the manner prescribed by Section 1013 of the Code of Civil Procedure and addressed to the retailer at his address as the same appears in the records of the board.

SEC. 7. Section 18 of the Retail Sales Tax Act of 1933 is hereby amended to read as follows:

[An] *One or more* assessments may be made of the amount of tax due for *one or for* more than one period. The amount of tax so assessed shall bear interest at the rate of one-half of 1 per cent per month, or fraction thereof, from the fifteenth day after the close of the quarterly period for which the amount of such tax or any portion thereof should have been returned until the date of payment. In making an assessment hereunder the board may offset overpayments for a period or periods together with interest on such overpayments against underpayments for another period of periods, against penalties, and against the interest on such underpayments. Such interest on underpayments and overpayments shall be computed in the manner set forth in Sections 9½ and 23 hereof.

If the [neglect or refusal] *failure* of a retailer to file a return as required by this act was due to fraud or an intent to evade the tax, there shall be added to the tax a penalty equal to 25 per cent thereof in addition to the 10 per cent penalty [as above provided] *for failure to file returns*. Promptly thereafter the board shall give to the delinquent written notice of such estimate, tax and penalty, the notice to be served personally or by mail in the same manner as prescribed for service of notice by the provisions of Section 17 hereof. But the delinquent shall have the right to petition for reassessment of any such tax found, determined and declared by the board pursuant to and in accordance with the provisions of this section.

SEC. 8. Section 20 of the Retail Sales Tax Act of 1933 is hereby amended to read as follows:

If a petition for reassessment is not filed within said 30-day period the amount of the assessment becomes final at the expiration thereof.

If a petition for reassessment is filed within said 30-day period the board shall reconsider the assessment, and if the retailer has so requested in his petition, shall grant said retailer an oral hearing and shall give the retailer 10 days' notice of the time and place thereof. The board shall have power to continue the hearing from time to time as may be necessary.

The board may decrease or increase the amount of the assessment. The amount of the assessment may be increased, however, only if a claim for such increase is asserted by the board at or before the hearing.

The order or decision of the board upon a petition for reassessment shall become final 30 days after service upon the retailer of notice thereof.

All assessments made by the board under the provisions of Section 17 or 18 hereof shall become due and payable at the time they become final and if not paid when due and payable there shall be added thereto a penalty of 10 per cent of the amount of the tax.

Any notice required by this section shall be served personally or by mail in the same manner as prescribed for service of notice by the provisions of Section 17 hereof.

The unsold portion of any property so seized may be left at the place of sale at the risk of the retailer. If upon any such sale, the moneys so received shall exceed the amount of all taxes, interest, penalties and costs due the State from such retailer, any such excess shall be returned to the retailer, and his receipt therefor obtained; provided, however, that if any person having an interest or lien upon the property has filed with the board prior to any such sale notice of such interest or lien the board shall withhold any such excess pending a determination of the rights of the respective parties thereto by a court of competent jurisdiction. If, for any reason, the receipt of such retailer shall not be available, the board shall deposit such excess moneys with the State Treasurer, as trustee for such owner, subject to the order of such retailer, his heirs, successors or assigns.

It is expressly provided that the foregoing remedies of the State shall be cumulative and that no action taken by the board of Attorney General shall be construed to be an election on the part of the State or any of its officers to pursue any remedy hereunder to the exclusion of any other remedy for which provision is made in this act.

2652. From money appropriated therefor by other provisions of law, the State shall pay:

(a) The entire amount of the direct costs of relief incurred by a county under this chapter for the relief of (i) persons having no State and no county residence and (ii) persons having a State but no county residence.

(b) Two-thirds of the direct costs of relief incurred by a county under this chapter for the relief of persons having a State and a county residence, until the total cost to any county under this subdivision exceeds the amount expended by the county for the direct costs of indigent relief under this chapter during the fiscal year, 1939-1940, and any costs in excess thereof for the remainder of the current fiscal year shall be borne 90 per cent by the State and 10 per cent by the county.

(c) Two-thirds of the administrative costs incurred by a county under this chapter in administering relief to any person for whose relief the State bears the costs in whole or in part, not counting in the amount of such administrative costs so much thereof as exceeds 15 per cent of the total amount of State and county funds expended by the county for direct relief under this chapter. The department shall define administrative costs by rule and regulation.

2653. Prior to the beginning of each quarter, the department shall estimate the amount that will have to be paid upon the beginning of the quarter to each county from the amounts of State money appropriated for the direct and administrative costs of relief

2654 The department shall make its estimate of the amount to be paid each county upon the basis of a report filed by the particular county containing

(a) An estimate of the total sums that will probably be expended during the quarter by the county for the direct and administrative costs of relief for which it is entitled to receive State money

(b) The amount appropriated or to be made available by the county for the quarter for that share of the direct and administrative costs of relief to be borne by it, and, if the total sum appropriated or made available by the county is less than that share it is required by law to bear, the source from which the difference is expected to be derived.

(c) Records showing the number of relief cases in the county

2655 The department shall certify to the Controller the amounts estimated by it to be paid to each county, reduced or increased as the case may be, by any sum by which it finds that its estimate for any prior quarter was greater or less than the amount which should have been paid to the county for such quarter, except to the extent that such sum has been applied to make the amount certified for any prior quarter greater or less than the amount estimated by the department for such prior quarter

Upon the order of the department, the amount approved for the quarter may be paid in monthly installments and, if paid in monthly installments, all necessary adjustments for the prior quarters shall be made by additions or deductions from the allowance for the first month of each new quarter.

The Controller shall draw his warrant prior to audit or settlement by the department or the Controller and the State Treasurer shall pay to each county the amount certified

2656 Reports of all money paid out by the counties for all costs of relief, both direct and administrative, shall be presented by the counties in the form and at the times prescribed by the department.

The reports shall be audited by the department and the Controller and when and in the amount approved shall be allowed to the county as a credit to apply against the advances made to the counties.

2657. Within 10 days after the beginning of each month for the month preceding, each county shall send to the department in such manner and form as the department may prescribe:

(a) The number of applications for relief granted

(b) The grants of relief changed, revoked or suspended.

(c) Copies of all applications received and a statement of the action of the county on such applications

2658 Notwithstanding any other provisions of law to the contrary or otherwise providing, all reimbursement secured from any relief case shall be divided between the State and the county in the same proportion that both or either thereof contributed to the direct costs of the case.

SEC. 14 Section 124 of said code is hereby amended to read as follows:

The State Department of Social Welfare shall keep a record of the classes and sources of income credited to the Social Welfare Fund and of the disbursements therefrom.

Amendment No. 26

Amendment No. 27

On page 8, line 17, of the printed bill, as amended, strike out "9", and insert "16. Notwithstanding any of the provisions contained in this act or in any section amended, repealed or added by this act, all relief cases under the jurisdiction of the Relief Commission and the Relief Administrator shall become subject to the full, complete, absolute and separate jurisdiction of the State Department of Social Welfare upon the effective date of this act.

For this purpose, the State Department of Social Welfare shall have all the powers, duties, purposes, responsibilities and jurisdiction of the Relief Commission and the Relief Administrator under the California Unemployment Relief Act of 1935.

From the effective date of this act and until April 1, 1942, the State Department of Social Welfare may exercise all the powers, duties, purposes, responsibilities and jurisdictions granted to it under this section necessary or convenient to effect the transfer of all duties, powers, purposes, responsibilities and jurisdictions over the relief cases under the California Unemployment Relief Act of 1935 to itself and the counties in accordance with Chapter 2 of Division 4 of the Welfare and Institutions Code, and for this purpose the State Department of Social Welfare may continue in existence the administrative organization of the Relief Commission and the Relief Administrator as a separate unit of the State Department of Social Welfare.

On and after the effective date of this act, no further relief cases shall be accepted under the California Unemployment Relief Act of 1935, but all such cases shall be subject to the jurisdiction of the State Department of Social Welfare or the counties, or both, in accordance with the provisions of Chapter 2, of Division 4 of the Welfare and Institutions Code. All cases receiving relief under the California Unemployment Relief Act of 1935 on the effective date of this act and which after such date continuously receive such relief and for which the counties are responsible under the provisions of Chapter 2 of Division 4 of the Welfare and Institutions Code shall be gradually transferred to the counties in accordance with the rules and regulations prescribed by the State Department of Social Welfare.

Irrespective of whether the State Department of Social Welfare has transferred the administration of relief for a relief case to a county or not, the State shall bear all the direct costs of every relief case receiving relief under the California Unemployment Relief Act of 1935 on the effective date of this act and which after such date continuously receives such relief, until January 1, 1942, after which date the counties shall bear its proportion of the costs as determined under Chapter 2 of Division 4 of the Welfare and Institutions Code.

Immediately upon the effective date of this act, the State Department of Social Welfare shall undertake to determine the relief cases for which each county is responsible under Chapter 2 of Division 4 of the Welfare and Institutions Code, and to determine the amount of the direct costs connected therewith, which direct costs would in some part be borne by the county under Chapter 2 of Division 4 of the Welfare and Institutions Code if the case were subject to county administration. For all direct costs borne by the State after January 1, 1942, for relief cases receiving relief on the effective date of this act and continuously receiving relief after such date the administration of which has not been transferred to the counties, and any part of the direct costs of which would be borne from county funds under Chapter 2 of Division 4 of the Welfare and Institutions Code, the State shall retain from the funds thereafter advanced to the county for the

direct costs of relief under Article 7 of Chapter 2 of Division 4 of the Welfare and Institutions Code, the amount which would be borne by the county from county funds had the administration of the case been transferred to the county.

Effective April 1, 1942, the California Unemployment Relief Act of 1935 is hereby repealed

SEC 17 The State Department of Social Welfare shall succeed to and is hereby vested with all the duties, powers, purposes, responsibilities and jurisdiction of the Relief Commission and the Relief Administrator under the provisions of the California Unemployment Relief Act of 1935 and of the several officers, deputies and employees of or under the Relief Administrator of the Relief Commission.

SEC. 18 The State Department of Social Welfare shall succeed to and is hereby vested with all the duties, powers, purposes, responsibilities and jurisdiction of the Emergency Relief Administrator and the State Emergency Relief Commission under the Unemployment Relief Bond Act of 1933, or of any other law, and of the several officers, deputies, and employees of or under the Emergency Relief Administrator or the State Emergency Relief Commission.

SEC 19 Whenever by the provisions of any statute or law now in force or which may hereafter be enacted, a duty or jurisdiction is imposed or authority conferred upon the Relief Administrator or the Relief Commission, or upon any of the officers, deputies or employees of or under either thereof, such duty, jurisdiction and authority are imposed upon and transferred to the State Department of Social Welfare with the same force and effect as if the department had been specifically set forth and named therein, in lieu of the name of the Relief Administrator, the Relief Commission, or any such officer, deputy or employee thereof or thereunder. For the purposes of this act, the terms "Relief Administrator," "Relief Commission," or similar designation, and of the several officers, deputies and employees of or under either thereof, when used in any statute or law now in force or which may hereafter be enacted, shall be construed to refer to and mean the State Department of Social Welfare the same as if the department had been specifically set forth and named therein.

SEC 20 The State Department of Social Welfare shall be in possession and control of all records, books, papers, offices, equipment, moneys, funds, appropriations, and real and personal property now or hereafter held for the benefit or use of the Relief Commission or Relief Administrator, and the title to all property held by the Relief Commission or Relief Administrator for the use and benefit of the State is hereby transferred to the State of California to be held in the possession of the State Department of Social Welfare. The State Department of Social Welfare shall make available or give possession to the counties of all records of the Relief Commission and the Relief Administrator relating to all needy persons to whom the county is authorized to grant relief under Chapter 2 of Division 4 of the Welfare and Institutions Code and Section 16 of this act.

SEC 21 From and after the date on which this act takes effect, the State Department of Social Welfare shall be and is hereby authorized to expend the moneys in any appropriation or in any special fund in the State Treasury now remaining or made available by law for expenditure by the Relief Commission or Relief Administrator, if such money is appropriated and available for withdrawal from the State Treasury under any provisions of law not contained in this act.

(c) An act entitled "An act to transfer the duties, powers, purposes, responsibilities, unexpended moneys, and jurisdiction of the Relief Commission and Relief Administrator to the Department of Social Welfare and declaring the urgency thereof to take effect immediately," approved May 8, 1937.

MOTION TO PRINT LETTER IN JOURNAL

Mr. Lyon moved that the following letter be printed in the Journal: Motion carried.

ASSEMBLY, CALIFORNIA LEGISLATURE, March 28, 1941

Honorable Charles W. Lyon and
Other Members of the Committee on Rules

GENTLEMEN: I am certain that each and every member of the Committee on Rules, as well as the members of the Legislature clearly recall the maladjustment of economic conditions following the cessation of activities after the last World War. Not only did labor suffer untold hardship and privation due to lack of employment, but industry and business as well suffered one of the most devastating reversals in the history of our Nation. These conditions undoubtedly resulted in part from a lack of foresight and planning at that time.

With this thought in mind, I am persuaded that it would be both wise and advisable for the Legislature to give thought and attention to this problem during the present period of artificial prosperity to the end that we may maintain employment and business activity at the highest possible level after the Defense program normally ends.

I believe that a committee composed of members of the Legislature, augmented by leaders in labor and industry can, by making a thorough study of economic conditions in the State of California, submit a plan which will serve to protect not only the State of California but the entire Nation as well against the usual and attendant depression which ordinarily follows a period of abnormal prosperity.

In my opinion, this type of study and activity would be the most valuable contribution that this session of the Legislature could make to the future welfare of the State of California.

Keeping in mind the protection of the working man and of business and industry in this State, will you therefore prepare at your earliest convenience and submit to the Legislature for its consideration a suitable resolution which will initiate the above-mentioned plan.

Very truly yours

GORDON H. GARLAND

RECESS

At 5.45 p.m., on motion of Mr. Lyon, the Assembly recessed until 8 p.m.

REASSEMBLED

At 8 p.m., the Assembly reconvened.

Hon. Gordon H. Garland, Speaker of the Assembly, presiding.

Chief Clerk Arthur A. Ohnimus at the desk.

Motion carried.

FRESNO, CALIFORNIA, March 27, 1941

Hon. Hugh M. Burns, State Assembly

Are our faces red. But, honest, we are not solely to blame Our error in addressing the postcard to the House of Representatives instead of the State Assembly is only another result of the problem that we have on our campus. For years proponents of physical education have maintained that physical activity is a basis for an efficient circulatory system which in turn supplies the brain with its entire energy output capacity, and this both physical and mental fatigue are reflected through inefficient circulation. Due to the lack of a gymnasium in which we can get this necessary physical activity our brains are sluggish, stagnant, cloggy, listless, blunt and doltish. You can help remedy this situation by getting us a new gymnasium. With facilities for physical recreation, we are confident that our knowledge of civics will improve. Yours for future correct addresses.

AL RADKA, President
Associated Students, Fresno State College

2652. From money appropriated therefor by other provisions of law, the State shall pay:

(a) The entire amount of the direct costs of relief incurred by a county under this chapter for the relief of (i) persons having no State and no county residence and (ii) persons having a State but no county residence.

(b) Two-thirds of the direct costs of relief incurred by a county under this chapter for the relief of persons having a State and a county residence, until the total cost to any county under this subdivision exceeds the amount expended by the county, for the direct costs of indigent relief under this chapter during the fiscal year, 1939-1940, and any costs in excess thereof for the remainder of the current fiscal year shall be borne 90 per cent by the State and 10 per cent by the county.

(c) Two-thirds of the administrative costs incurred by a county under this chapter in administering relief to any person for whose relief the State bears the costs in whole or in part, not counting in the amount of such administrative costs so much thereof as exceeds 15 per cent of the total amount of State and county funds expended by the county for direct relief under this chapter. The department shall define administrative costs by rule and regulation.

(b) The amount appropriated or to be made available by the county for the quarter for that share of the direct and administrative costs of relief to be borne by it, and, if the total sum appropriated or made available by the county is less than that share it is required by law to bear, the source from which the difference is expected to be derived.

(c) Records showing the number of relief cases in the county.

The department shall certify to the Controller the amounts estimated by it to be paid to each county, reduced or increased as the case may be, by any sum by which it finds that its estimate for any prior quarter was greater or less than the amount which should have been paid to the county for such quarter, except to the extent that such sum has been applied to make the amount certified for any prior quarter greater or less than the amount estimated by the department for such prior quarter.

Upon the order of the department, the amount approved for the quarter may be paid in monthly installments and, if paid in monthly installments, all necessary adjustments for the prior quarters shall be made by additions or deductions from the allowance for the first month of each new quarter.

The Controller shall draw his warrant prior to audit or settlement by the department or the Controller and the State Treasurer shall pay to each county the amount certified.

Every applicant for a certificate shall file in the office of the commission an application therefor in such form as shall be required by the commission, and the Railroad Commission shall have power, with or without hearing, to issue said certificate as prayed for, or to refuse to issue the same, or to issue it for the partial exercise only of said privilege sought, and may attach to the exercise of the rights granted by said certificate such terms and conditions as, in its judgment, the public convenience and necessity may require; provided, that the Railroad Commission shall have power, after hearing, to issue said certificate when an applicant requests a certificate to operate in a territory already served by a certificate holder under this act only when the existing passenger stage corporation or corporations serving such territory will not provide the same to the satisfaction of the Railroad Commission. Whether or not any stage, auto stage, or other motor vehicle is being, or is proposed to be operated as a passenger stage corporation "between fixed termini or over a regular route" within the meaning of this act shall be a question of fact, and the finding of the Railroad Commission thereon shall be final and shall not be subject to review, *except when either both termini of a line, or all termini of all lines, operated by such passenger stage corporation are within the limits of the same incorporated city, town or city and county and such city, town or city and county shall not have voted to surrender its powers of regulation thereover pursuant to the provisions of Section 23, Article XII of the California Constitution.* Any act of transporting or attempting to transport any person or persons by stage, auto stage, or other motor vehicle upon a public highway of this State between two or more points not both within the limits of a single incorporated city, town or city and county, where the rate, charge or fare for such transportation is computed, collected or demanded on an individual fare basis, shall be presumed to be an act of operating as a passenger stage corporation within the meaning of this act.
