Respectfully yours,

CULBERT L. OLSON, Governor of California

The following communication was received and read, and on motion of Mr. Meehan, ordered printed in the Journal:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, March 31, 1941

To the Senate and Assembly
of the California Legislature

GREETINGS: I present herewith a copy of a resolution adopted by the Legislature of the State of Utah and approved by the Governor of that State on March 17, 1941, entitled "Memorializing Congress to initiate a movement to give silver a standing in the Monetary System of the United States of America as a basic money, at a given ratio of silver to gold."

It is in pursuance to and out of respect to the request made by the Legislature of Utah that I send you copy of this resolution.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

S. C. M. No. 1—By Mr. Williams

Memorializing Congress to initiate a movement to give silver a standing in the Monitary* System of the United States of America as a basic money, at a given ratio of silver to gold

Be it resolved by the Legislature of the State of Utah, the Governor concurring therein

WHEREAS, The people of this State and this Nation are interested in procuring some basic money which will freely pass current to help enlarge the trade of the United States with foreign countries; and

WHEREAS, Some foreign countries are depriving the United States of its rightful share of world trade by a system of controlled and managed money and by the use of exchange and barter of the products of such various nations instead of the use of money; and

WHEREAS, Previous to now, discoveries of gold and silver deposits have been made only where surface indications gave unquestionable evidence of their presence; and

WHEREAS, If a proper price for these metals is provided through the monitization* of silver, deposits of gold and silver now hidden beneath the surface of the earth will be opened; and

WHEREAS, All efforts heretofore made in the direction of currency stabilization have been based upon the theories which failed to provide for the remonetization of silver; and

WHEREAS, In order to relieve the present world-wide depression it is necessary, either to provide for extension of debt payments and moratorium on them, or, to provide for a managed currency, or, to provide coinage of gold and silver in some relation to each other; and

WHEREAS, The coinage of gold and silver is the best course; and

WHEREAS, It appears necessary for the purpose of acquiring or retaining trade with various countries by the United States that a system of money be adopted which is readily available to the various countries with whom the United States trades; and

WHEREAS, The United States of America, over a period of time has purchased domestically mined silver at a fixed price pursuant to act of Congress; and

WHEREAS, The Congress has treated silver as a commodity instead of a monetary basis of metallic money; and

WHEREAS, The Government of the United States has, through relief and welfare measures, attempted to alleviate the result of unemployment throughout the United States; and

WHEREAS, Because of the low price of silver, many mines in the United States have been unable to operate and consequently many thousands of miners have been thrown out of employment and their wives and children and themselves have become dependent on relief; and

WHEREAS, When the silver mines close down the smelter, which are the largest consumers of coal within the State, curtail production which in turn materially affects the railroads and their employees That the families of the coal, silver miners, and railroad employees become dependent upon relief. That local farmers who find a ready market among the miners, and the railroad men lose their markets so that the closing of silver mines, affects not only the silver miners, but also the

*Misspelled word

coal miners, railroad men, the farmers, and the Nation in general. All classes then become at least partially dependent upon relief and the burden thereby is upon the entire State or States; and

WHEREAS, The making of silver as a part of the Monetary System of the United States at a given ratio to gold would stabilize the mining industry and allow reemployment of miners, railroad men and lessen the relief load; now, therefore, be it

Resolved, by the Legislature of the State of Utah, the Governor concurring therein, That we earnestly recommend the enactment of legislation by Congress for the use of silver in our monetary systems as a basic money, thereby increasing the supply of metallic money for use as a circulating medium and as a base for currency and credit at a ratio to gold as hereinabove provided; and be it further

Resolved, That the Secretary of State forward copies of this memorial to the President of the United States, the Vice President of the United States, the Speaker of the House of Representatives of the United States, the Congress of the United States, the United States Senators and Representatives from the State of Utah, and to the Governors of the various States, with the request that the said Governors submit it for action by the Legislators of their States.

Sec. 17. *(1)* Whenever, in the opinion of the commissioner, the use of inventories is necessary clearly to determine the income of any taxpayer, inventory shall be taken by such taxpayer upon such basis as the commissioner may prescribe, conforming as nearly as may be to the best accounting practice and most clearly reflecting the income.

(2) (A) A taxpayer may use the following method (whether or not such method has been prescribed under Subdivision (1)) in inventorying goods specified in the application required under Paragraph (B): (1) Inventory them at cost; (2) Treat those remaining on hand at the close of the income year as being: First, those included in the opening inventory of the income year (in the order of acquisition) to the extent thereof, and second, those acquired in the income year; and (3) Treat those included in the opening inventory of the income year in which such method is first used as having been acquired at the same time and determine their cost by the average cost method.

(B) The method described in Paragraph (A) may be used (1) only in inventorying goods (required under Subdivision (1) to be inventoried) specified in an application to use such method filed at such time and in such manner as the commissioner may prescribe; and (2) only if the taxpayer establishes to the satisfaction of the commissioner that the taxpayer has used no procedure other than that specified in (2) and (3) of paragraph (A) in inventorying (to ascertain income, profit, or loss, for credit purposes, or for the purpose of reports to shareholders, partners, or other proprietors, or to beneficiaries) such goods for any period beginning with or during the first income year for which the method described in Paragraph (A) is to be used.

(C) The change to, and the use of, such method shall be in accordance with such regulations as the commissioner may prescribe as necessary in order that the use of such method may clearly reflect income.

(D) In determining income for the income year preceding the income year for which such method is first used, the closing inventory of such preceding year of the goods specified in such application shall be at cost.

(E) If a taxpayer, having complied with Paragraph (B), uses the method described in Paragraph (A) for any income year, then such method shall be used in all subsequent income years unless with the approval of the commissioner a change to a different method is authorized; or the commissioner determines that the taxpayer has used for any period beginning with or during any subsequent income year some procedure other than that specified in (2) of Paragraph (A) in inventorying (for ascertaining income, profit, or loss, for credit purposes, or for the purpose of reports to shareholders, partners, or other proprietors, or to beneficiaries) the goods specified in the application, and requires a change to a method different from that prescribed in Paragraph (A) beginning with such subsequent income year or any income year thereafter. Many of the funds of such associations were invested in long-term loans secured by real property. By reason of the recent depression, with resulting widespread unemployment and decline in rental and sales values, many borrowers from such associations were unable to meet their obligations to such associations. By reason of defaults of such borrowers, many associations have suffered heavy losses, both in income and in net worth. In the absence of this act liquidation of assets of a value of many millions of dollars would be necessary. Such liquidation would impose severe hardships not only upon the borrowers and investors but also upon the public generally, by causing a marked decline in real estate values and a marked increase in tax delinquencies."

MOTION TO PRINT REMARKS IN JOURNAL

On motion of Mr. Field, the following remarks were ordered printed in the Journal:

Remarks of Assemblyman Dilworth

One can not consider the momentous events of present days without realizing that they portend historic events in the history of our great Nation.

Our President has asked for the greatest Army and Navy that the World has ever seen

Congress has granted Military authority to the President to engage in certain acts of war

Today is a solemn hour for one of our young men employed by this Assembly. He is giving up private employment tomorrow. He is leaving home and family for the rigors of Military life in defense of our Country.

His going is typical of that of hundreds of thousands of young American men today. It is typical of the going to war of millions of young men of my generation in 1917 and 1918

Let us consider a moment what his going means.

No longer will he arise and lay down to sleep at a time of his own choosing No longer will he eat food of his choice No longer will his life remain his own. He is laying his all on the altar of his Native Land

He will obey the Military orders of our Country's Chieftains morning, noon and night, in Summer's heat, in Winter's icy wind, on desert sands or on the ocean's stormy waves

Who is so daring as to say that our Country will not be actively engaged in Naval war and the great Military movements on land within the year?

Our Country's defense demands the life and bodies of our young men standing bravely under the fire of the destructive modern machines of warfare.

Be it submarines in a lonely, icy sea, or bombs on roaring battlefields, we know this young man will bravely defend that Glorious Flag with his very life's blood

Richard Del Mutolo, you are bidding us good-by. Tomorrow you will bid good-by to your home.

We wish you well. We bid you Godspeed We wish you an illustrious Military career and a safe and happy return to your Native California home.

Should Providence in His infinite Wisdom permit otherwise, no name will more honor a Post of Veterans of this War than Richard Del Mutolo, one of California's most loved native sons.

(b) All property transferred to societies, corporations and institutions now or hereafter exempted by law from taxation, or to any public corporation, or to any

society, corporation, institution, or association of persons *exclusively* engaged in or devoted to any charitable, [benevolent,] educational, public, or other like work (pecuniary profit not being its object or purpose); or to any person, society, corporation, institution, or association of persons *exclusively in trust for* or to be devoted to any charitable, [benevolent,] educational, or public purpose, by reason whereof any such person or corporation shall become beneficially entitled in possession or expectancy to any such property or to the income thereof, shall be exempt; provided, however, that such society, corporation, institution or association be organized or existing under the laws of this State or *that it is organized solely for charitable, educational, public or other like work under the laws* of the United States, or that the property transferred be limited for use within this State; provided further, that if such society, corporation, institution or association be organized or existing under the laws of a Territory or State of the United States (other than California) or of a foreign state or country, all property transferred to such society, corporation, institution or association shall be exempt if at the date of decedent's death the said State or Territory or foreign state or country under the laws of which such society, corporation, institution or association was organized or existing did not impose a legacy or succession tax or a death tax of any character in respect of property transferred to such a society, corporation, institution or association organized or existing under the laws of this State, or if at the date of decedent's death the laws of the State or Territory or foreign state or country under which such society, corporation, institution or association was organized or existing contained a reciprocal provision under which transfers to such a society, corporation, institution or association organized or existing under the laws of another State or Territory or foreign state or country were exempted from legacy or succession taxes or death taxes of every character; providing, said other State or Territory or foreign state or country allowed a similar exemption to such a society, corporation, institution or association organized or existing under the laws of another State or Territory or foreign state or country.

(2) [(a)] Property of the clear value of twenty-four thousand dollars ($24,000), transferred to the wife, and of twelve thousand dollars ($12,000) transferred to a minor child of the decedent, and of five thousand dollars ($5,000) transferred to each of the other persons described in the first subdivision of Section 4 shall be exempt.

[(b) All property transferred by a decedent to any person described in the first subdivision of Section 4, providing the same was transferred to such decedent not more than five years prior to his death by another decedent of the class described in the first subdivision of Section 4 and a tax paid thereon to the State of California, shall be exempt; provided, that the value of said property shall be taken as of the date of death of the first decedent, and provided further, that this subdivision shall not apply to a tax paid under the provisions of Subdivision 12 of Section 2 hereof.]

(3) (a) "Prior distributed estate" means that portion of the gross estate of a prior decedent transferred not more than five years before the present decedent's death to a present decedent by a prior decedent in relation to whom the present decedent was in the class described in Subdivision (1) of Section 4, if an inheritance tax was paid in full on such transfer.

"Prior decedent's property" means property, or the proceeds thereof, transferred from a present decedent to any person described in Subdivision (1) of Section 4 if the property was part of a prior distributed estate and was not entitled to exemption in the prior distributed estate under this subdivision or any similar subdivision allowing exemption from tax for property transferred to a decedent within five years before his death

In determining the amount of prior decedent's property in a present decedent's estate, due allowance shall be made under rules prescribed by the Controller for the proper proportion of deductions chargeable against the prior decedent's property in the prior estate.

"Prior exemption" means the amount which bears the same proportion to the inheritance tax exemptions allowed in the prior distributed estate as the value of the prior decedent's property at the date of the prior decedent's death or the date of the present decedent's death, whichever is lower, bears to the value of the prior distributed estate at the date of the prior decedent's death.

"Previously taxed property" means the value of the prior decedent's property at the date of the prior decedent's death or the date of the present decedent's death, whichever is lower, less the prior exemption.

(b) "Present distributed estate" means all the property transferred by the present decedent to the person to whom the prior decedent's property is being transferred

"Proportionate exemptions" means the amount which bears the same proportion to all exemptions and the proper proportion of deductions allowed in the present distributed estate, other than the exemption allowed in this section, as the value of the previously taxed property bears to the value of the present distributed estate The "proper proportion of deductions" shall be determined under rules prescribed by the Controller, giving due consideration to whether the previously taxed property is chargeable with all or any of the deductions.

(c) Previously taxed property, less the amount of proportionate exemptions, is exempt from the tax, except any tax levied under Subdivision (12) of Section 2.

[(6)] *(7)* In computing the tax upon transfers subject to tax under the provisions of this act, the exemptions [in this section] allowed *in Subdivisions (2), (3), (4), (5) and (6) of this section* shall be deducted from the aggregate amount of property transferred, and the transfer of the remainder of the property after making such deduction shall be taxed at the rates at which it would have been taxed had no exemption whatever been allowed

[(7)] *(8)* The tax imposed by this act in respect of intangible personal property shall not be payable if the decedent is a resident of a State or Territory of the United States or a foreign state or country which at the time of his death imposed a legacy, succession or death tax in respect of intangible personal property [within the State or Territory or foreign state or country] of residents of the State or Territory or foreign state or country, but did not impose a legacy or succession tax or a death tax of any character in respect of intangible personal property [within the State or Territory or foreign state or country] of residents of this State, or if the laws of the State or Territory or foreign state or country of residence of the decedent at the time of his death contained a reciprocal provision under which nonresidents were exempted from legacy or succession taxes or death taxes of every character in respect of intangible personal property providing the State or Territory or foreign state or country of residence of such nonresidents allowed a similar exemption to residents of the State or Territory or foreign state or country of residence of such decedent.

For the purposes of this act, the District of Columbia is a Territory of the United States.

SEC. 2. Section 8 of said act is hereby amended to read as follows:

SEC. 8 (1) When any grant, gift, legacy, devise or succession upon which a tax is imposed by Section 2 of this act shall be an estate, income, or interest for a term of years, or for life, or determinable upon any future or contingent event, or shall be a remainder, reversion, or other expectancy, real or personal, the entire property or fund by which such estate, income, or interest is supported, or of which it is a part, shall be appraised immediately after the death of the decedent, and the market value thereof determined, in the manner provided in Section 16 or 17 of this act, and the tax prescribed by this act shall be immediately due and payable to the treasurer of the proper county, and together with the interest thereon, shall be and remain a lien on said property until the same is paid.

(2) In estimating the value of any estate or interest in property, to the beneficial enjoyment or possession whereof there are persons or corporations presently entitled thereto, no allowance shall be made on account of any contingent incumbrance thereon, nor on account of any contingency upon the happening of which the estate or property or some part thereof or interest therein might be abridged, defeated or diminished; provided, however, that in the event of such incumbrance taking effect as an actual burden upon the interest of the beneficiary, or in the event of the abridgment, defeat or diminution of said estate or property or interest therein as aforesaid, a return shall be made to the person properly entitled thereto of a proportionate amount of such tax on account of the incumbrance when taking effect, or so much as will reduce the same to the amount which would have been assessed on account of the actual duration or extent of the estate or interest enjoyed Such return of tax shall be made in the manner provided by Subdivision 4 of Section 11 hereof upon order of the court having jurisdiction. Said application for return of tax must be made within six months of the happening of said contingency

(3) When property is transferred in trust or otherwise, whereby any person becomes entitled to an estate or interest for life or years therein and any other person to the remainder over, the executor or trustee shall pay the entire tax on all interests therein out of the corpus of the property transferred, and no part thereof shall be charged against the interest of or collected from the beneficiaries thereof.

(4) When property is transferred in trust or otherwise, and the rights, interest or estates of the transferees are dependent upon contingencies or conditions whereby they may be wholly or in part created, defeated extended, or abridged, a tax shall be imposed upon said transfer at the highest rate which, on the happening of any of the said contingencies or conditions, would be possible under the provisions of this act, and such tax so imposed shall be due and payable forthwith by the executors or trustees out of the corpus of the property transferred and shall not be charged against the interest of or collected from the beneficiaries thereof; provided, however, that on the happening of any contingency whereby the said property, or any part thereof, is transferred to a person or corporation exempt from taxation under the

provisions of this act, or to any person taxable at a rate less than the rate imposed and paid, the executors or trustees shall be entitled to a return of that part of the tax imposed and paid represented by the difference between the amount paid and the amount actually payable under the provisions of this act, and the amount returned shall go into and form a part of the corpus of the property transferred; such return of overpayment shall be made in the manner provided by Subdivision 4 of Section 11 of this act, upon motion made in the court having jurisdiction within six months after the happening of said contingency; provided, that the person or persons or body politic or corporate beneficially interested in the property chargeable with said tax or the trustees thereof may elect not to pay the same until such person or persons, or body politic or corporate beneficially interested in such property shall come into the actual possession or enjoyment thereof, and in that case such person or persons or body politic or corporate or trustees shall execute a bond to the people of the State of California in a penalty of the amount of said tax plus interest thereon for five years at the rate of 7 per cent per annum with such sureties as the said superior court may approve, conditioned for the payment of said tax or any lesser tax which may become payable on the happening of said contingency, and interest thereon at the rate of 7 per cent per annum commencing at the expiration of two years from the death of the decedent at such time or period as they or their representatives may come into the actual possession or enjoyment of such property, and conditioned further, that if said bond be not renewed and the returns made as herein provided, the amount of said tax and interest thereon shall immediately become due and payable. Said bond shall be filed in the office of the county clerk of the proper county and a certified copy thereof shall be immediately transmitted to the State Controller; provided further, that such person or persons or body politic or corporate, or trustees, shall enter into such security within a period of 90 days after the entry of the order or the decree fixing the inheritance tax charged against such transfer, or within such period thereafter as the court may in its discretion permit, and shall make a full and verified return of such property to said court and file the same in the office of the county clerk within one year from the date of such order or decree fixing tax, and at such times thereafter as the court on the application of the State Controller may require, and renew such security every five years after the date of the approval thereof by filing a new bond with such sureties as said superior court may approve, and transmitting a certified copy of said renewal bond to the State Controller. The penalty of each renewal bond shall be increased by five years interest at the rate of 7 per cent per annum on the unpaid tax. Upon the approval of said bond as herein provided, said tax shall cease to be a lien upon the property so transferred. If such security shall not be renewed before the expiration of each five years period, said bond shall immediately become due and payable and if the same be not paid forthwith, the State Controller may file an action on the bond to recover the amount of said inheritance taxes on high contingency and the penalties provided in said bond, and no demand for payment shall be necessary before the institution of such suit. Whenever it shall be made to appear to the satisfaction of the court that any surety on such bond or undertaking has for any reason become insufficient, the court may on motion of the State Controller, after such notice to such person or persons, body politic or corporate, or trustees as the court may require, order the giving of a new undertaking with sufficient sureties in lieu of such insufficient undertaking. In case such new undertaking so required shall not be given within the time required by such order, or in case the sureties thereon fail to justify thereon when required, all rights obtained by the filing of such original undertaking, or subsequent undertaking, shall cease and the amount of said tax and interest thereon shall immediately become due and payable.

(5) Notwithstanding any provisions hereof whereby final determination of taxability of the transfer of property or interests therein or income therefrom, is or may be deferred until the happening of certain contingencies or conditions, the State Controller may compromise, adjust and settle with the administrator, executor or trustee having charge of the estate or property in question, the taxability of the transfer of such property and of each and every interest therein, including the income therefrom, whether such interests be absolute or qualified, perpetual or limited, present or future, vested or contingent, or otherwise.

The inheritance tax appraiser, determining the inheritance tax payable, shall prepare a report in accordance with such settlement and if and when said report is confirmed by an order of the superior court having jurisdiction said order shall be a final determination of the matters covered thereby and the payment of said tax as fixed by said order shall be a complete discharge to such administrator, executor, or trustee with respect to such taxes.

[(6) Estates in expectancy which are contingent or defeasible and in which proceedings for the determination of the tax have not been taken or where the taxation thereof has been held in abeyance, shall be appraised at their full, undiminished value when the persons entitled thereto shall come into the beneficial enjoyment or possession thereof, without diminution for or on account of any valuation theretofore made of the particular estates for purposes of taxation, upon which said estates in expectancy may have been limited.]

(7) Where an estate or interest can be divested by the act or omission of the legatee or devisee it shall be taxed as if there were no possibility of such divesting.

(8) The value of every future, or contingent or limited estate, income or interest, shall, for the purposes of this act be determined by the rule, methods and standards of mortality and of value that are set forth in the actuaries combined experience tables of mortality for ascertaining the value of policies of life insurance and annuities and for the determination of the liabilities of life insurance companies, save that the rate of interest to be assessed in computing the present value of all future interests and contingencies shall be five (5) per cent per annum. For the purposes of this act, in determining the present value of such estate, income or interest, other than an annuity in a fixed amount, the yearly income or the annual value of the use or income of such estate or interest shall be 5 per cent of the appraised value of the property upon which said estate or interest is based When an annuity or a life estate is terminated by the death of the annuitant or life tenant, and the tax upon such interest has not been fixed and determined, the value of said interest for the purpose of taxation under this act shall be the *present value at date of death of the* amount of the annuity or income actually paid or payable to the annuitant or life tenant during the period for which such annuitant or life tenant was entitled to the annuity or was in possession of the life estate

(9) In all estates where a claim is made that the decedent was not domiciled in California at the time of his death the State Controller may, in his discretion, compromise the inheritance taxes payable in said estates, subject to the approval of the court

The procedure shall conform to that set out in Subdivision (5) of this section.

SEC 3 Section 11 of said act is hereby amended to read as follows

Sec 11 (1) If any debts shall be proved against the estate of a decedent after the payment of any legacy or distributive share thereof, from which any such tax has been deducted or upon which it has been paid by the person entitled to such legacy or distributive share and such person is required by order of the superior court having jurisdiction on notice to the State Controller, to refund the amount of such debts or any part thereof, an equitable proportion of the tax shall be repaid to him by the executor, administrator or trustee, if the tax has not been paid to the county treasurer; or if such tax has been paid to such county treasurer, such officer shall refund out of any inheritance tax moneys in his hands or custody such equitable proportion of the tax and credit himself with the same in the account required to be rendered by him under this act

For the purposes of the inheritance tax, there is no limitation governing the time within which debts may be proved against the estate of a decedent after the payment of any legacy or distributive share thereof, but the application for refund shall be made within one year after such debt is allowed by the court

(2) Where it shall be proved to the satisfaction of the superior court that deductions for debts were allowed upon the appraisal since proved to have been erroneously allowed, it shall be lawful for such superior court to enter an order assessing the tax upon the amount wrongfully and erroneously deducted and if debts are established against the estate after the order fixing inheritance tax is made the order may on petition after notice to the State Controller be modified equitably.

For the purposes of the inheritance tax there is no limitation governing the time within which it may be proved that deductions for debts were erroneously allowed nor the time within which the order assessing the tax on the amount erroneously deducted may be made, nor the time within which debts may be established against the estate after the order fixing the inheritance tax is made but the petition to have the order modified after establishment of such debts shall be made within a year after such debts are established

(3) If, after the payment of any tax in pursuance of an order fixing such tax, made by the superior court having jurisdiction, such order be modified or reversed by the superior court having jurisdiction by any of the methods provided in the Code of Civil Procedure and commenced within the time allowed by law, or be modified or reversed on an appeal taken therefrom within the time allowed by law, on due notice to the State Controller the county treasurer shall refund to the executor, administrator, trustee, person or persons by whom such tax was paid, the amount of any moneys paid or deposited on account of such tax in excess of the amount of tax fixed by the order modified or reversed, out of any inheritance tax moneys in his hands or custody, and credit himself with the same in the account required to be rendered by him to the Controller on his semiannual settlement; but no application for such refund shall be made after one year from such reversal or modification, unless an appeal shall be taken therefrom, in which case no such application shall be made after one year from the final determination on such appeal and the representatives of the estate, legatees, devisees, or distributees entitled to any refund under this section shall not be entitled to any interest upon such refund, and no judgment for such refund shall bear interest until said judgment shall have become final in the highest court to which the matter is carried and until refund is refused upon demand after such final judgment and then only from the date of such refusal. The State Controller shall deduct from the fees allowed

by this act to the county treasurer the amount theretofore allowed him upon such overpayment, *as if the amount refunded were the last payment made to the county treasurer in the year in which such overpayment was made.*

(4) When any amount of said tax shall have been erroneously paid, the superior court having jurisdiction, on application after notice to the State Controller, and on satisfactory proof to it, shall by order, direct the county auditor to draw his warrant upon the county treasurer in favor of the executor, administrator, trustee, person or persons who have paid any such tax in error in the amount of such tax so erroneously paid; provided, that all applications for such repayment of such tax so erroneously paid shall be made within one year of the date of the entry of the order fixing tax or of the decree of final distribution of the estate. Such refund shall be made by said treasurer out of any inheritance tax moneys in his hands or custody and he shall credit himself with the same in the account required to be rendered by him to the Controller on semiannual settlement; and the State Controller shall deduct from the fees allowed by this act to the county treasurer the amount theretofore allowed him upon such erroneous payment, *as if the amount refunded were the last payment made to the county treasurer in the year in which such overpayment was made.*

SEC. 4 Section 13 of said act is hereby amended to read as follows:

Sec. 13. (1) No corporation organized or existing under the laws of this State, shall transfer on its books or issue a new certificate for any share or shares of its capital stock belonging to or standing in the name of a decedent or in trust for a decedent or belonging to or standing in the joint names of a decedent and one or more persons, without the written consent of the State Controller or person by him in writing authorized to issue such consent

(2) No safe deposit company, trust company, corporation, bank, or other institution, person or persons engaged in the business of renting safe deposit boxes or other receptacles of similar character shall rent any such box or receptacle without first requiring all persons given access thereto to agree in writing to notify such safe depositary, bailee, or lessor, from whom such box or receptacle is rented of the death of any person having the right of access thereto, before seeking access to such box or receptacle after the death of such person; and all persons having the right of access to any such safe deposit box or receptacle upon the death of any other person having access thereto, before seeking access to such box or receptacle must notify such safe depositary, bailee, or lessor, from whom such box or receptacle is rented, of the death of such person; and it shall be unlawful for any safe deposit company, trust company, corporation, bank or other institution, person or persons having in possession or under control, custody or partial custody any safe deposit box or similar receptacle, to permit access thereto by any one after the death of any person who at the time of his death had the right or privilege of access thereto either as principal, deputy, agent or cotenant without the consent of the State Controller or such person by him in writing authorized to issue such consent.

(3) No safe deposit company, trust company, corporation, bank or other institution, person or persons having in possession or under control or custody or under partial control or partial custody securities, deposits, assets or property belonging to or standing in the name of a decedent who was a resident or nonresident, or belonging to, or standing in the joint names of such a decedent and one or more persons, including the shares of the capital stock of, or other interest in, the safe deposit company, trust company, corporation, bank, or other institution making the delivery or transfer herein provided, shall deliver or transfer the same to the executors, administrators or legal representatives, agents, deputies, attorneys, trustees, legatees, heirs, successors in interest of said decedent or to any other person or persons, or to the survivor or survivors when held in the joint names of a decedent and one or more persons, or upon their order or request, without retaining a sufficient portion or amount thereof to pay any tax and interest which may thereafter be assessed thereon under this act and unless notice of the time and place of such delivery or transfer be served upon the State Controller and county treasurer at least 10 days prior to said delivery or transfer; provided, that the State Controller, or person by him in writing authorized so to do, may consent in writing to said delivery or transfer, and such consent shall relieve said safe deposit company, trust company, corporation, bank or other institution, person or persons from the obligation hereunder to give such notice or to retain any portion of said securities, deposits or other assets in their possession or control. And it shall be lawful for the State Controller or county treasurer, personally or by representatives, to examine said securities, deposits or assets at the time of said delivery or otherwise

Upon the payment of a fee not to exceed the sum of one dollar ($1), any executor of the will of a decedent, the administrator of a decedent's estate, the attorney for such executor or administrator, or a surviving joint tenant or cotenant of a decedent, and no other, is entitled to a copy of any list of the contents of any safe deposit box of the decedent's prepared by the State Controller or county treasurer. A surviving joint tenant or cotenant is not, however, entitled to any

such list, unless he and the decedent were joint tenants or cotenants in the property, or any portion thereof, contained in the safe deposit box.

(4) Failure to comply with the provisions of this section shall render such safe deposit company, trust company, corporation, bank or other institution, person or persons, liable to a penalty of not more than twenty thousand dollars ($20,000), and in addition thereto said safe deposit company, trust company, corporation, bank or other institution, person or persons shall be liable for the amount of the taxes, interest and penalties due under this act on said securities, deposits or other assets above mentioned, and said penalties and liabilities of said safe deposit company, corporation, bank or other institution, person or persons for the violation of this section may be enforced in an action brought by the State Controller in any court of competent jurisdiction.

SEC. 5. Section 17 of said act is hereby amended to read as follows:

Sec. 17. (1) If it shall appear to the superior court upon petition of the State Controller that any transfer has been made within the meaning of this act, and the taxability thereof, and the liability for such tax and the amount thereof have not been determined, and that no proceedings are pending in any court in this State wherein the taxability of such transfer and the liability therefor, and the amount thereof may be determined, said court shall issue a citation ordering and directing the persons who may appear liable therefor or be known to own the property transferred or any part thereof or any interest therein, to appear before said court or before an inheritance tax appraiser to be designated by said order at a time and place in said order named, not less than 10 days nor more than one year from the date of such order, to be examined, under oath by said court, or by said appraiser as the case may be, concerning said transfer and all facts connected therewith, and concerning the property transferred and the character and value thereof. If said person or persons shall be directed to appear before said appraiser said appraiser shall, at the time and place in said order named, or at such time and place to which *said appraiser may adjourn said hearing, proceed to examine said person or persons* and such witnesses as said appraiser may subpena before him, and for the purpose of said hearing, and for the purpose of ascertaining any facts concerning the taxability of said transfer or any taxes due on account of such transfer, said appraiser shall have the powers of a referee of said court, and is hereby authorized to issue subpenas compelling the attendance of witnesses before him, and to administer oaths, and to take the evidence of such witnesses under oath concerning such property and the value thereof and concerning such transfer. Said appraiser shall report to said court his findings and conclusions in relation to said transfer and said tax, and may return to said court any depositions, exhibits or other testimony or information taken before him or exhibited to him. The procedure subsequent to the filing of said report shall conform to Subdivision (2) of Section 16 of this act.

Except as herein otherwise provided, the service of such citation and the time, manner and proof thereof, and the hearing and determination thereon, and the hearing and determination upon the facts returned in such report, and the enforcement of the determination or decree shall conform to the provisions of Chapter 22, Division 3 of the Probate Code, and the clerk of the court shall, upon the request of the State Controller, furnish, without fee, one or more transcripts of such decree, and the same shall be docketed and filed by the county clerk of any county in the State, without fee, in the same manner and with the same effect as provided by Section 674 of the Code of Civil Procedure for filing a transcript of an original docket.

The superior court may hear the said cause upon the relation of the parties and the testimony of witnesses, and evidence produced in open court, and, if the court shall find that said property is not subject to any tax, as herein provided, the court shall by order, so determine; but if it shall appear that said property, or any part thereof, is subject to any such tax the same shall be appraised and taxed as in other cases.

(2) Verified petitions may be filed by any interested party with the superior court alleging and admitting that a transfer within the meaning of this act has been made and the taxability thereof and the liability for such tax and the amount thereof have not been determined, and that no proceedings are pending in any court in this State wherein the taxability of such transfer and the liability therefor and the amount thereof, may be determined, and that the petitioner desires such determination and desires to pay said tax, if any be due. Upon the filing of such petition the superior court or a judge thereof shall by order designate and appoint an inheritance tax appraiser to ascertain and report to said court the amount of the inheritance tax, if any, due by said petitioner on account of such transfer, and shall fix a time and place, not less than 10 days thereafter, for the hearing of said matter before said inheritance tax appraiser, a copy of which petition and order shall be forthwith mailed to the State Controller, and shall refer said petition and said matter to said inheritance tax appraiser who shall have all the powers of a referee of said court, including the powers prescribed in Subdivision (1) of Section 16 of this act. The procedure subsequent to said reference to said appraiser shall conform to the provisions of Subdivisions (1) and (2) of Section 16 of this act

[In the event that final judgment is rendered in said proceeding, ascertaining and determining that no inheritance tax is due on account of said transfer or that the amount of the tax to which said transfer is liable, is less than twenty dollars the court shall, in addition to the amount of the tax, if any, include in such judgment and assess against the petitioner reasonable compensation for said inheritance tax appraiser not exceeding the sum of ten dollars, and the necessary traveling and incidental expenses of said appraisers.]

(3) Actions may be brought against the State by an interested person for the purpose of quieting the title to any property against the lien or claim of lien of any tax or taxes under this act, or for the purpose of having it determined that any property is not subject to any lien for taxes nor chargeable with any tax under this act. No such action shall be maintained where any proceedings are pending in any court in this State wherein the taxability of such transfer and the liability therefor and the amount thereof may be determined. All parties interested in said transfer and in the taxability thereof shall be made parties thereto and any interested person who refuses to join as plaintiff therein may be made a defendant. Summons for the State in said action shall be served upon the State Controller.

Mr. Speaker and Members of the Assembly

GENTLEMEN: I regret the circumstances that seem to make it important that I impose on your time and the courtesy of the House to make public my attitude regarding all forms of dictatorships.

I wish to publicly state that I hate and believe disgusting those forms of government as represented by Hitler, Stalin, etc. Their forms of government are repulsive in the extreme and contrary to all things so dearly loved by a free people.

In explanation of this statement I wish you gentlemen to know that I have been receiving in my mail Nazi propaganda which I do not want and in which I do not believe, and if it is the belief of the Nazi propaganda agents that I am sympathetic to their cause I want to take this means of publicly informing them that I am not and they might as well save their postage.

COMMUNICATIONS

The following communications were received and read, and ordered printed in the Journal:

STATE OF CALIFORNIA, BUREAU OF PRINTING
SACRAMENTO, April 3, 1941

Mr. Arthur Ohnimus, Chief Clerk
State Assembly, Sacramento, California

DEAR MR. OHNIMUS: The Bureau of Printing has an interesting report to make concerning prompt execution of all legislative printed matter for the first part of the 1941 session. Here is a comparison of completion of printed matter and dates of delivery for the 1939 and 1941 first sessions:

BILLS—In 1939, delivery was made on February 16th; 1941, February 8th.
SEMI-FINAL HISTORY—In 1939, delivery was made on March 2d; 1941, February 7th.
LEGISLATIVE DIGEST—In 1939, delivery was made on March 6th; 1941, February 21st.

In addition to speeding up service on printed matter, we also set a new record in cost of operations. The January, 1939, pay roll was $83,188.68. The January,

1941, pay roll was $81,676 41—a saving of $1,512 27 despite the fact that we were compelled to work two 12-hour shifts and pay overtime eight hours every day. Both sessions presented about the same number of documents to be printed.

The Legislative Bill Room, under the management of Ewing Hass, also showed a reduction in operating expenses. The pay roll for the first part of the session reflected a saving of $435 21 over the previous first session.

I know your committees will be glad to know that we have been able to accomplish these records. One item that tends to increase costs, which may be more pronounced for the last part of the session, is that the Defense Program and the Draft are calling a large number of workers who would otherwise be available for the Printing Plant. In previous sessions we employed three shifts. Because of shortage of printers and pressmen, we are compelled to use two 12-hour shifts and pay each shift four hours' overtime.

Very truly yours,

GEORGE H. MOORE, State Printer

STATE OF CALIFORNIA, BUREAU OF PRINTING
SACRAMENTO, April 2, 1941

Hon. Arthur A. Ohnimus, Chief Clerk, Fifty-fourth California Assembly
State Assembly, Sacramento, California

DEAR MR OHNIMUS: In accordance with provisions of Section 695 of the Political Code, the State Printer, on February 7, 1940, transmitted with his accounts, a deposit of $6,109 15 in the State Treasury for credit to the Legislative Printing Fund appropriation for the Ninetieth Fiscal Year. We are pleased to attach hereto Summary No. 1, from our accounts to show disposition of documents or publications published from funds of the Fifty-third California Legislature.

The issuance by us in 1939 and 1940 of the Daily Legislative Bill Service derived sufficient funds to meet all expenses of labor, inclosure and shipment.

We attach Summary No. 2, from our accounts in connection with our report for activities in the Ninety-first Fiscal Year. We are making a deposit of $5,113.52 in the State Treasury and conveying instructions to the State Controller that the amount is to be credited to the appropriation for legislative printing for the Ninety-first Fiscal Year.

Sales of publications or documents are being continued for the account of the Fifty-fourth California Legislature and we will duly submit our accounting when our balances are determined for the Ninety-second Fiscal Year.

Trusting that you will find this in order and extending our appreciation for your cooperation and assistance, together with our high esteem, we are

Very truly yours,

GEORGE H. MOORE, State Printer

SEC. 7. Section 11 of the act cited in the title hereof is hereby amended to read as follows:

Sec 11. Whenever any operator licensed hereunder fails to comply with any provision of this act or any rule or regulation of the board prescribed and adopted under this act, the board, upon hearing after giving 10 days' notice in writing of the time and place of the hearing to show cause why the license of such operator should not be revoked, may revoke such license The Department of Motor Vehicles upon receiving written notice from the board that the license of an operator has been revoked by the board or that an operator has failed, neglected or refused to obtain the license provided in Section 2 hereof shall suspend forthwith the registration of the motor vehicles specified in such notice of such operator and shall cause to be removed from such motor vehicles all number plates or emblems issued by said department for display upon such motor vehicles. Thereafter it shall be unlawful to operate such motor vehicles upon the public highways of this State until the operator has fully complied with the provisions of this act and a certificate to that effect has been issued by the board to the Department of Motor Vehicles and the registration of the motor vehicles of such operator has been restored by said department.

The board or its duly authorized representatives may impound the vehicles of an operator whose license has been revoked and who shall continue to engage in the transportation of persons or property for hire or compensation after having been

duly notified by the board of such revocation and may retain possession of such vehicles until all taxes, interest and penalties due from such operator and all costs incurred in connection with the impounding or storage of such vehicles have been paid.

The license of an operator shall be reinstated by the board following the revocation of such license when the amount of license tax assessed hereunder and interest thereon together with all penalties have been paid and the provisions of this act have been fully complied with by such operator and a fee of five dollars ($5) has been paid to the board for such reinstatement. The registration of the motor vehicles of such operator and the number plates and emblems removed therefrom shall be restored by the Department of Motor Vehicles upon the issuance by the board to said department of a certificate to the effect that the operator has fully complied with the provisions of this act and the payment to said department of a fee of five dollars ($5) for the restoration of the registration of each motor vehicle.

If the registration of any motor vehicle has been suspended as provided herein, the Department of Motor Vehicles shall not thereafter reregister such motor vehicle or transfer the registration of ownership thereof upon the records of the department until such time as the board has issued to said department a certificate to the effect that the operator has fully complied with the provisions of this act.

Transfer by the Department of Motor Vehicles of the registered ownership of any motor vehicle licensed hereunder may be effected only after a certificate of license tax clearance has been issued therefor by the board. Such certificate of license tax clearance *may be issued after the payment of all amounts due hereunder or after the payment of such amounts is secured to the satisfaction of the board and* shall completely extinguish the lien herein provided in the motor vehicle described therein.

If the operator of any motor vehicle is merely the registered owner thereof, and the legal owner of record repossesses such motor vehicle and pays the full amount of the license tax assessed hereunder, together with all interest thereon and penalties, such legal owner shall not be required to pay the fees herein required for reinstatement of license and restoration of registration, nor shall any of the other provisions of this section be applicable.

SEC. 8. Section 13 of the act cited in the title hereof is hereby amended to read as follows:

Sec. 13. No injunction or writ of mandate or other legal or equitable process shall ever issue in any suit, action or proceeding in any court against this State or against any officer thereof to prevent or enjoin the collection under this act of any license tax *or other amounts* sought to be collected by the board *or to prevent or enjoin the revocation of any license issued hereunder or any other action whereby it is sought to enforce the payment of any license tax or other amounts herein required to be paid*; but after payment of any such license tax under protest duly verified and setting forth the grounds of objection to the legality of such license tax, the operator paying such license tax may bring an action against the [State Treasurer] *board* in the Superior Court of the County of Sacramento for the recovery of license tax so paid under protest. No such action may be instituted more than 60 days after the last day prescribed for the payment of such license tax without penalty, and failure to bring suit within said 60 days shall constitute waiver of any and all demands against this State on account of alleged overpayment of license taxes hereunder. No grounds of illegality of the license tax shall be considered by the court other than those set forth in the protest filed at the time of the payment of the license tax.

If in any such action judgment is rendered for the plaintiff, the amount of the judgment shall first be credited on any license taxes, interest or penalties due from the plaintiff under this act, and the balance of the judgment shall be refunded to the plaintiff. In any such judgment, interest shall be allowed at the rate of 6 per cent per annum upon the amount of license tax found to have been illegally collected from the date of payment of such license tax to the date of allowance of credit on account of such judgment or to a date preceding the date of the refund warrant by not more than 30 days, such date to be determined by the Controller.

In no case shall any judgment be rendered in favor of the plaintiff in any action brought against the [State Treasurer] *board* to recover any license tax paid hereunder, when such action [as] *is* brought by or in the name of an assignee of the operator paying said license tax, or by any person, company or corporation other than the person, company or corporation that has paid such license tax.

"An act to amend Sections 2, 5, 6, 7, 8, 9, 10, 12 and 14 of the Motor Vehicle Fuel License Tax Act, relating to the taxation of distributors of motor vehicle fuel and the administration of the tax and providing that this act shall take effect immediately"

Amendment No. 2

On page 1, line 1, of the printed bill, strike out "5", and insert "2".

Amendment No. 3

On page 1 of the printed bill, between lines 2 and 3, insert

"SEC. 2. Every [distributor before April 1, 1931, and after this act becomes effective every] person, firm, association or corporation before becoming a distributor shall make an application to the State Board of Equalization for a license authorizing such distributor, person, firm, association or corporation to engage in business as a distributor. Applications for such licenses must be made to the State Board of Equalization on forms to be prescribed, prepared and furnished by said board. It shall be unlawful [from and after April 1, 1931,] for any person, firm, association or corporation to be a distributor without first securing from the State Board of Equalization a license for which provision is made in this section. Before granting any license authorizing any person, firm, association or corporation to engage in business as a distributor, the State Board of Equalization must require such person, firm, association or corporation to file with said board, in such form as shall be prescribed by said board, a bond duly executed by such person, firm, association or corporation as principal and a corporation such as is mentioned in Section 1056 of the Code of Civil Procedure of this State, as surety, payable to the people of the State of California, conditioned upon faithful performance of all the requirements of this act and expressly providing for the payment of all license taxes, penalties and other obligations of such person, firm, association or corporation arising out of this act.

The total amount of the bond or bonds required of any distributor shall be fixed by the State Board of Equalization and may be increased or reduced by said board at any time subject to the limitations herein provided. In fixing the total amount of the bond or bonds required of any distributor, the State Board of Equalization must require a bond or bonds equivalent in total amount to twice his estimated monthly license tax determined in such manner as said board may deem proper; provided however, that, subject to such terms and conditions as the State Board of Equalization may prescribe, any distributor may undertake to pay on each Tuesday the license tax accruing on all of his distributions of motor vehicle fuel during the week ending the Saturday next preceding, and, if any distributor shall so bind himself, said board shall fix his bond or bonds in a total amount equivalent to twice the license tax accruing on account of his estimated weekly distributions determined in such manner as said board may deem proper; and further provided, that the total amount of the bond or bonds required of any distributor shall never be less than one thousand dollars ($1,000) nor more than one hundred thousand dollars ($100,000). No recoveries on any bond or any execution of any new bond shall invalidate any bond and no revocation of any license shall affect the validity of any bond.

In lieu of any such bond or bonds in total amount as fixed hereunder, any distributor may deposit with the State Treasurer, under such terms and conditions as said board may prescribe, a like amount of lawful money of the United States, or bonds or other obligations of the United States, the State of California, or any county or city and county of this State, of an actual market value not less than the amount so fixed by said board. All licenses issued to distributors under this section shall be valid until revoked by the State Board of Equalization.

Nothing in this section shall be construed as relieving any distributor of the duty of filing the sworn monthly statement required by Section 6 of this act. The assessment of any distributor who makes weekly payments shall be shown on the assessment roll prepared under said Section 6 in the same manner as the assessments of other distributors are shown thereon, and the Controller shall apply such payments to the credit of such distributor on the assessment roll for the month during which the distributions covered by such payments were made. Whenever any distributor undertaking to pay his license tax in weekly installments, as provided in this section, shall fail to pay the full amount thereof in accordance with the terms and conditions prescribed by the State Board of Equalization, his license may be revoked forthwith, unless he complies immediately with the requirement of this section relating to the filing of a bond or bonds equivalent in total amount to twice the estimated monthly license tax. In the event of nonpayment of any weekly installment of the license tax, or any part thereof, pursuant to the undertaking of any distributor, the full amount of the license tax accrued against such distributor shall become immediately due and payable and the Controller and the Attorney General shall proceed forthwith to collect the license tax due from such distributor in the manner prescribed by Section 4 of this act with reference to delinquency in the payment of the monthly license tax. All provisions of said Section 4 shall apply with full force and effect to collections required to be made under this section; provided, however, that the 10 per cent penalty for delinquency for which provision is made under Section 4 hereof shall accrue only as provided in said section, and there shall be added to any weekly installment of license tax remaining unpaid at 5 o'clock in the afternoon of the Tuesday following the close of such week, a penalty of 5 per cent on account of such delinquency; the accrual of any such penalty of 5 per cent shall not in anywise affect the 10 per cent penalty for delinquency imposed under Section 4 hereof, but such 10 per cent penalty shall not be computed upon any amount added to such weekly license tax as a penalty under this section.

The license issued hereunder to any distributor shall not be transferable. Whenever a distributor ceases to engage in business as a distributor within the State of California by reason of the discontinuance, sale or transfer of such business, he shall give notice in writing thereof to the State Board of Equalization on or before the date of such discontinuance, sale or transfer. Such notice shall give the date of discontinuance and, in the event of a sale or transfer of the business, the date thereof and the name and address of the purchaser or transferee. All taxes and penalties under this act, not yet due and payable under other provisions hereof, shall become due and payable concurrently with such discontinuance, sale or transfer, and the distributor shall forthwith make a report and pay all such taxes and penalties, and shall surrender to the State Board of Equalization the license theretofore issued. Unless such notice shall have been given as hereinbefore provided, such purchaser or transferee shall be liable for all taxes and penalties under this act accrued against the vendor or transferor to the date of such sale or transfer, but only to the extent of the value of the property and business thereby acquired.

Every [producer and every broker before April 1, 1931, and thereafter every] person, firm, association or corporation before becoming a producer or broker shall [register as such with the State Board of Equalization and make application] *apply* for a license on forms [to be prepared and furnished] *prescribed* by the State Board of Equalization. Each such application shall be accompanied by a [registration] *license* fee of ten dollars ($10) *payable to the State Board of Equalization.*

Upon the receipt of [the] *such* application [of any such producer or broker], accompanied by such license fee, the State Board of Equalization shall issue to every such applicant, *except as otherwise provided herein,* a license to engage in such business from the date of the issuance thereof, until and including the following December 31st, [and on or before] *unless sooner canceled or revoked. Before* January 1st [,] of each [and every] year [and before any such producer or broker shall engage in business,] an application shall be filed and a license obtained *by each such producer or broker* for the *succeeding* calendar year. If any producer or broker shall fail to apply for the license hereby required and to pay the fee hereby specified prior to January 1st of each year, then there shall be added to the amount of such fee a penalty of 25 per cent on account of such delinquency. Any license so issued shall not be transferable and may be revoked by the State Board of Equalization as hereinafter provided. All [registration] *license* fees collected under the provisions of this section shall be credited to the "Motor Vehicle Fuel Fund" hereinafter created.

In the event that an application for a distributor's, producer's or broker's license shall be filed hereunder by an applicant formerly holding under this act any license

which, prior to the time of filing such application, shall have been revoked for cause by said board, or in the event that said board shall determine that such application is not filed in good faith or not made by the real person in interest, then, and in any of said events, said board may refuse to issue a license to the applicant. Before such refusal, however, said board shall grant the applicant a hearing and shall give the applicant at least 10 days' written notice of the time and place thereof. Such notice may be served personally or by mail. If by mail, service shall be made in the manner prescribed by Section 1013 of the Code of Civil Procedure and addressed to the applicant at his address as the same appears in the records of said board.

If any distributor shall fail, neglect or refuse to file said report within the time prescribed by this section, the State Board of Equalization must note such failure, neglect, or refusal upon the tax roll hereinafter described, and must estimate the motor vehicle fuel distributions of said distributor, assessing the license tax thereon, adding to said license tax a penalty of 15 per cent thereof for failure, neglect or refusal to report, and said distributor shall be estopped from complaining of the amount of said estimate. STATEMENTS

The following statements were ordered printed in the Journal:

By Mr. Evans:

Mr. Evans said, "In rising to support Mr. Kepple's resolution, I wish to state that it is my belief that such a committee can furnish to the Legislature the necessary information and data to correct the deplorable situation now existing in that institution.

I know Speaker Garland will select this committee on a nonpartisan and nonpolitical basis. This is undoubtedly a problem that will prove most difficult of solution, but I feel that it is a duty incumbent upon the present Legislators to make every effort to so amend the law to restore morale to both the administration and to the inmates of the institution. Because of broken morale in the institution inmates are running at large, thus creating fear in the minds of the residents of the splendid community in which the institution is located. This is an unseemly and unthinkable condition, and it must be corrected in order to prevent the spread of this condition to other similar institutions.

Since the State is obliged to provide huge sums of money for the operation of these institutions, and since we must do everything to protect the youth who are sent to such institutions and restore them to a condition both physical and mental which will permit them to again be placed back in society, the Legislature must act immediately to strengthen the law in every way possible to restore this splendid institution to its former status."

By Mr. Kepple:

In presenting his resolution, Mr. Kepple said, "The Whittier State School has been the subject of wide-spread publicity and investigation growing out of charges against administrative practices in the school. The school has already been overinvestigated for its own good, for the welfare of the institution and its inmates. Regardless of the underlying reasons for these various investigations, it is now an indisputable fact that the institution is demoralized. It is particularly significant that juvenile authorities are no longer committing boys to this institution, and the population has dropped to approximately half the normal number.

Much legislation has been introduced during this session to correct this situation as well as evils which may exist in other similar institutions. I believe that by making a study of the several reports which have been submitted by other groups and correlating the remedial suggestions therein contained, it will be possible to so strengthen the law so as to make further malpractices impossible and to bring about a restoration of the morale which is necessary and essential in carrying out the purposes of the institution."

By Mr. Garland:

Speaker Garland stated in connection with the appointment of the committee provided for in Mr. Kepple's resolution that disclosures made indicate the need for a competent and unbiased investigation by a committee of Legislators.

Probably the whole administrative structure for handling youthful delinquents is deficient.

I am urging and requesting speedy and immediate action on the part of the Kepple Committee in order that any remedial legislation necessary may be enacted. I know the committee headed by Mr. Kepple is competent to conduct such an

investigation in a manner that will uncover any conditions that can be remedied by legislation.

COMMUNICATIONS

The following communication was received, and on motion of Mr. Call, ordered printed in the Journal:

FEDERAL SECURITY AGENCY, SOCIAL SECURITY BOARD
WASHINGTON, D. C., March 25, 1941

Hon. Jerry Voorhis, House of Representatives, Washington, D. C

DEAR MR. VOORHIS: Pursuant to our conversation of March 20th, we are submitting alternative possibilities, as we see them, for revision of Sections 2020 and 3084 of the California Welfare and Institutions Code, relating respectively to old age assistance and aid to the blind, in order to bring those laws into conformity with the amendments to Titles 1 and 10 of the Social Security Act providing for the consideration of "any other income and resources"

For your convenience, we are quoting below Sections 2020 and 3084 of the Welfare and Institutions Code

2020. The amount of aid to which any applicant shall be entitled shall be, when added to the income of the applicant from all other sources, thirty-five dollars ($35) per month.

The value of the use and occupancy of premises owned and occupied by applicants shall not be deemed income. Net income from any of the following sources of a combined total value not exceeding fifteen dollars ($15) per month shall not be considered for any purpose:

(a) Income from the applicant's labor or services; or rent from the premises owned by applicants;

(b) The value of foodstuffs or other merchantable products produced by the applicant;

(c) The value of firewood or water produced on the premises of the applicant or given to him by another;

(d) The value of gifts or money, other than contributions by relatives legally responsible by law.

3084 If the county board of supervisors is satisfied that the applicant is entitled to aid under the provisions of this chapter, it shall, without delay, issue an order therefor

The amount of aid to which any applicant shall be entitled shall be, when added to the income of the applicant from all other sources, fifty dollars ($50) per month. Income from any of the following sources of a combined total value not exceeding four hundred dollars ($400) per annum shall not be considered for any purpose.

(a) Income from applicant's labor or services;

(b) The value of foodstuffs produced by the applicant or his family for his use or that of his family;

(c) The value of firewood and/or water produced on the premises of the applicant or given to him by another for the applicant's use;

(d) The value of gifts other than regular contributions by relatives legally responsible under this act;

(e) The value of the use and occupancy of premises owned and occupied by the applicant;

(f) The net income from real and personal property owned by the applicant."

The provision of Section 2020 exempting from consideration the value of the home and net income from certain sources of a value not exceeding fifteen dollars ($15) will, after July 1, 1941, be out of conformity with Federal requirements. Similarly, the provisions of Section 3084 exempting from consideration income from certain sources not exceeding four hundred dollars ($400) per year will be out of conformity. As you know, under Sections 2 (a) (7) and 10 (a) (8) of the Social Security Act, the State agency must not be precluded from taking into consideration all income and resources in determining individual need. The above-noted provisions of Sections 2020 and 3084 would preclude the State agency from so doing.

We believe that Sections 2020 and 3084 can be amended to bring the statutes into conformity with Federal requirements without lowering present standards of assistance. We should like to suggest the following four possibilities:

1. Sections 2020 and 3084 could be amended to read somewhat as follows:

"The amount of aid to which any applicant shall be entitled shall be determined in accordance with the rules and regulations of the State department with due regard to his requirements and the conditions existing in his case, and to the income and resources available to him from whatever source, and shall be sufficient, when added to the income and resources determined to be available to him, to provide him with a reasonable subsistence compatible with health and well being."

Under such a provision, awards would be determined on a budgetary basis which is considered by the board to be the most satisfactory basis, and the method of determining need used by most States, including the largest ones. This permits consideration of the requirements of the individual applicant, as well as of his income and resources, and provides for the granting of assistance in accordance with his individual need.

You will note that under this proposal no special provision is made with respect to home ownership. This does not mean that a liberal policy in this regard could not be formulated. As a matter of fact the State could, and should, develop a policy under such a provision whereby consideration would be given to the cost of maintaining the home, which cost would be reflected in the grant of assistance.

2. The following language could be used if the State wishes to continue its provision for a fixed minimum of forty dollars ($40) (State assistance grant plus income and resources). This would also make it possible, in those cases where the individual requirements are determined to be in excess of the fixed minimum, for the award to be made in an amount, not to exceed forty dollars ($40), which when added to the applicant's income and resources would not exceed the individual's actual requirements;

"The amount of aid to which any applicant shall be entitled shall be, when added to the income (including the value of currently used resources) of the applicant from all other sources, forty dollars ($40) per month; provided, however, that if in any case it is found the actual need of an applicant exceeds forty dollars ($40) per month, such applicant shall be entitled to receive aid in an amount, not to exceed forty dollars ($40) per month, which when added to his income (including the value of currently used resources) from all other sources, shall equal his actual need."

It should be clear that the Social Security Board does not recommend the placing of a monetary limitation on the amount of the award. It should be noted, however, that under this proposal if the needs of an individual were determined to be sixty dollars ($60) and if that individual had income and resources of a value of thirty-five dollars ($35), he could receive a grant of assistance of twenty-five dollars ($25), provided that the same standards of determining his need were applied alike to a person without any income or resources. This is, therefore, not so restrictive as a rigid monetary limitation upon the award together with income and resources.

3. The deletion of all but the first paragraph of Section 2020 and the first two sentences of Section 3084 would bring those sections into conformity with Federal requirements. This would result in less liberal treatment than is now provided.

4. The deletion of all but the first paragraph of Section 2020 and all but the first two sentences of Section 3084, and the substitution in these sections of the sums of fifty-five dollars ($55) and eighty-three dollars and thirty-three cents ($83.33),

respectively, for the amounts now specified would bring the sections into compliance. You are aware, of course, that under such a modification, all aged persons having income and resources of less than fifty-five dollars ($55) per month and all blind persons having income and resources of less than eighty-three dollars and thirty-three cents ($83.33) per month would be eligible for assistance. This would, no doubt, increase the cost of the programs.

If you have any questions on any of these alternatives, we shall be glad to discuss them with you further.

Sincerely,

OSCAR M. POWELL, Executive Director

MOTION TO PRINT COMMUNICATION IN JOURNAL

On motion of Mr. Tenney, the following communication was ordered printed in the Journal:

SACRAMENTO, CALIFORNIA, April 9, 1941

Honorable John Harold Swan, Senate Chamber
State Capitol, Sacramento, California

SUBJECT: Assembly Bill No. 271, the Subversive Organization Registration Act
REQUEST: No. 2279

DEAR SENATOR SWAN:

You ask:

> "If an organization like the American Legion advocates that the duly elected officials or authorized State officers use force or violence in order to control or conduct the Government of the United States or of this State or of any political subdivision thereof, will such organization be subject to the provisions of Assembly Bill No. 271?"

Section 1 of Assembly Bill No. 271, as amended in the Senate April 7, 1941, expressly declares that every organization which

> "Directly or indirectly advocates, advises, teaches, or practices the duty, necessity or propriety of controlling, conducting, seizing, or overthrowing the Government of the United States, or of this State or of any political subdivision thereof by force or violence;"

is subject to its provisions.

However, Section 3 of the bill declares

"Nothing in this act shall be construed as applying to any labor union, religious, fraternal or patriotic organization, society, or association, whose objectives and aims do not contemplate the overthrow of the Government of the United States, or of this State or of any political subdivision thereof by force or violence."

It is our opinion that any fraternal or patriotic organization such as the American Legion whose objectives and aims do not contemplate the overthrow of the existing Government of the United States or of this State or of any political subdivision thereof, by force or violence, is not subject to the bill

Therefore, if such an organization were to advocate the calling out of the National Guard or other regularly constituted military body of this State, or of the United States, for the purpose of preserving peace and order, it would not thereby be subjecting itself to the provisions of the bill, even though it was contemplated that the National Guard or other regularly constituted body would use force in the performance of its duties

Very truly yours,

FRED B WOOD, Legislative Counsel
By GEORGE W. WAKEFIELD, Deputy

"SEC. 13. It is the intent of the Legislature to prohibit expenditure of money for certain specified purposes and to limit the amount that may be expended for certain other specified purposes. This intent is expressed in each instance in the form of a declaration that "no money appropriated by this act is available for expenditure for any of the following purposes in excess of the amount set opposite each designated purpose, respectively" (or similar form of expression), followed by a designation of the officer, department or agency (such as State Controller or Department of Education), the general purpose (such as Salaries and Wages, or Service and Expense), and the specific purpose (such as Intermediate Stenographer-Clerk, or Telephone and telegraph), and the maximum allowable expenditure for that purpose (such as Nothing, or $200.00), using in that connection the same words, terms and phrases as used in the detailed budget of such officer, department or agency contained in that document entitled "State of California Budget for the Biennium July 1, 1941, to June 30, 1943, Ninety-third and Ninety-fourth Fiscal Years," submitted by the Governor to this Legislature at the Fifty-fourth Session. For the purpose of interpreting the meaning of such words, terms and phrases, reference is hereby made to said document and the appropriate portions thereof

Each such provision of this act is a prohibition, restriction, or limitation upon the expenditure of the appropriations made by this act, does not itself appropriate any money, and is not an item of appropriation.

Each such provision of this act prohibiting, limiting or restricting the expenditure of money for specified purposes is absolute, and where "nothing" may be expended or a maximum is provided for a specified purpose, no money or no money in excess of such maximum, as the case may be, shall be withdrawn from the State Treasury for such purpose, whether from the appropriations made by this act or from unexpended balances of previous appropriations or by creation of deficiencies under Section 661 of the Political Code or otherwise."

AMENDMENT NO. 176

"Sec. 13.5. The expenditure of the appropriations made by this act is hereby further restricted and limited as follows:

No expenditure shall be made from any appropriation made by this act, except from the Emergency Fund, for any other specified purpose, or in an amount in excess of that provided for any specific purpose, than for the purposes and amounts set forth in that document entitled, "State of California Budget for the Biennium July 1, 1941, to June 30, 1943, Ninety-third and Ninety-fourth Fiscal Years," submitted by the Governor to this Legislature at the Fifty-fourth Session, and particularly in that portion thereof entitled "Detailed budgets of departments and other State agencies," except that the Controller upon application of the Director of Finance and subject to the express limitations of this act, may authorize and provide that unneeded money restricted by this section to expenditure for a particular specific purpose may be expended either (a) for another purpose not specified in said document, or (b) for a purpose specified therein in excess of the amount so provided.

The approval of the Controller of any such expenditure shall be in writing and, in his discretion, may be manifested by his indorsement of approval upon the detailed fiscal year budget of the department or agency, or any revision, alteration or amendment thereof, as prepared by such department or agency and approved by the Department of Finance pursuant to Section 677.5 of the Political Code "

MOTION TO PRINT REMARKS IN JOURNAL

Mr. Watson moved that the remarks made by Mr. Lyon, in regard to the amendments proposed to Assembly Bill No. 1800, be printed in the Journal.

Motion carried.

Remarks by Mr. Lyon on the Adoption of the Amendments to Assembly Bill No. 1800

I intend, when the Budget Bill comes up for final consideration, to make a motion that the rule be suspended which prohibits the taking out of the bill, the identical language placed in the measure by amendment today.

I, also, want to say that your vote to adopt all of these amendments, in order to give the Assembly the printed bill in the final form desired by the committee, shall not be considered as a vote for or against any particular amendment, but a vote to merely expedite the business of this body and save the time necessary to explain and adopt specifically the 176 amendments, 90 per cent of which are unobjectionable.

Explanation of Vote

Assembly Bill No. 2349 was taken up out of order when I was out of the Chamber. Had I been present I would have voted against it. It bans from the use of school auditoriums any group of persons using the word "Communist" or any derivative as part of its name. Good judgment recognizes the futility of attempting to outlaw thoughts or language.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Assembly Bill No. 2582:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, April 7, 1941

To the Honorable Members of the Senate and Assembly
Sacramento, California

GREETINGS:

SUBJECT: ASSEMBLY BILL NO. 2582

Your preferred consideration is requested, and prompt passage as well, of Mr Green's Assembly Bill No 2582 which grants to the United States certain gunnery target practice rights in California's territorial waters.

For your information.

(1) I attach a copy of Secretary of War Stimson's request for this legislation

(2) The gunnery practice contemplated has been engaged in for many years but on a very limited scale It is now necessary to greatly expand.

(3) Numerous representatives of commercial shipping interests have already been consulted It is learned that, in many cases, ships habitually keep close in to shore and that such habits will have to be altered to compensate for the new emergency conditions It appears that the shipping interests readily concede the necessities of the situation and are fully prepared to cooperate

(4) To the limit permitted by time and personnel, conversations have been had with representatives of commercial fishing interests and unions. They, in some few instances, may be seriously inconvenienced; perhaps caused actual loss But it appears that they too foresee no serious obstacles of operation which can not be accommodated by conferences of army officials to insure receipt of warnings and cooperation with safety patrols in danger areas during target practice periods.

I, therefore, recommend prompt passage because of the National emergency.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

WAR DEPARTMENT, WASHINGTON, March 14, 1941

Honorable Culbert L. Olson
Governor of California
Sacramento, California

DEAR GOVERNOR OLSON: In order to provide for the proper training of men in the Military Service it is necessary from time to time to establish firing ranges of various types on land owned by or under the control of the United States. It has recently been proposed that a range for use in connection with anti-aircraft firing be established at Fort Ord, California, and it appears that the plans therefor will involve the use of the adjacent waters of Monterey Bay since shots will fall in the sea at distances up to 14,000 yards from the shore.

When this matter was considered it was determined that the use of the sea area adjacent to Ford Ord should not be approved unless and until the consent of the Legislature of the State of California was granted as to that portion of the waters within the territorial limits of the State Upon further consideration it seems probable that future needs will require establishment of similar ranges on other lands on the Coast of California owned by or under the control of the United States For this reason it is desirable that the Legislature of the State of California give its general consent to the use of such water areas for the purpose in question It is contemplated that if such consent is given every precaution will be taken by the United States in its use of these areas.

It will be appreciated if you will present this matter to the Legislature at the earliest practicable date as the matter is one of urgency in connection with the National defense For your convenience there is inclosed a draft of bill designed to accomplish the desired grant of consent.

Sincerely yours,

(s) HENRY L. STIMSON, Secretary of War

A BILL

An act to grant the consent of the State of California to the United States to use certain territorial waters of the State in connection with target practice operations on United States land adjacent thereto.

The people of the State of California do enact as follows:

SECTION 1. That the consent of the State of California be, and the same is hereby granted to the United States to use the territorial waters of the State of California, adjacent to any land on the coast thereof now or hereafter owned by or under the control of the United States, and occupied for military purposes, in connection with conducting on such lands target practice operations of any type; provided, that before any of the herein described waters shall be used in connection with conducting target practice operations of any type the United States shall take all appropriate measures and shall make and publish necessary regulations for the protection of the person and property of all persons using such waters, and that the use herein consented to shall not be so exercised as to interfere unreasonably with the public use of said waters.

SEC. 2. The provisions of this act shall not be construed to impose any liability whatsoever upon the State of California in connection with the use of the waters as herein set forth.

Remarks by Mr. Dilworth

We have in the Constitution of the United States a unique provision that is at once the envy and aim of all peoples of the world I refer to the Bill of Rights

Too little attention has been given to this priceless heritage of American citizenship. December 15, 1941, is the Sesquicentennial of the adoption of the Bill of Rights.

The Congress of the United States contemplates a very serious and general observance of this significant anniversary. This event may properly be the occasion of instituting in the California Schools a planned study and commemoration of the adoption of the Bill of Rights California youth needs a thorough understanding of their true significance and effect on the daily lives of the citizens of America

Human rights are attacked today as never before in a hundred years This bill directs the schools to include in the work of the pupils, on or near the anniversary, exercises and instruction as to the purpose, meaning, and importance of the Bill of Rights.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, April 10, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I have just signed Assembly Bill No. 285 which grants leaves of absence for Military Service to employees and officers, other than elective officers of counties and other public bodies. The Legislative Counsel has reported to me as follows concerning the bill:

"Section 20 of Article IV of the Constitution provides in part that:

'No person holding any lucrative office under the United States, or any other power, shall be eligible to any civil office of profit under this State.'

This constitutional limitation appears to invalidate the provisions of this bill in so far, at least, as persons now holding offices in political subdivisions of this State are called into the armed forces of the United States and serve in such forces as officers.

The courts have held that a military office is a lucrative office under the United States and as a matter of fact the historical background of this constitutional provision which was in the original Constitution adopted in 1849, indicates that one of the purposes in adopting it was to prevent the holding of State offices by officers in the Federal Military Force situated in California.

A 'leave of absence,' does not imply a 'vacating' of the State office but rather a continued holding of the office even though during the period of leave the powers and duties are performed by some other person.

In this connection we would call your attention to the method of approach to this problem as appears in Chapter 18 of the Statutes of 1941. This chapter amends the State Civil Service Act and provides in effect that any civil service employee of the State who enters the Military Service 'shall have the absolute right to be restored to his former position' upon the termination of that service. The procedure in that bill thus permits a resignation with an absolute right of reinstatement and so avoids the problem presented by Section 20 of Article IV of the Constitution."

In view of the possibility that an officer or employee might rely upon the provisions of this bill and that it might later be declared to be in part unconstitutional, I believe that you should be informed of the views expressed above. I may also say that similar comments in regard to related legislation have been made by the Attorney General in his opinion No. N. S. 3078.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

SACRAMENTO, April 7, 1941

To the Honorable Members of the Assembly
State of California, Sacramento, California

GREETINGS: I am returning herewith without my signature Assembly Bill No. 659, entitled "An act to amend Section 161a of the Civil Code, relating to interests in community property." My objections to this bill are as follows:

Under the present Section 161a of the Civil Code the respective interests of the husband and wife in the community property are equal, regardless of the fact that the property may stand in the name of one or the other. However, the wife may execute a deed of property acquired in her name under Section 164 of the Civil Code, and the presumption that the property deeded is her separate property is conclusive in favor of a purchaser, encumbrancer, payor or any other person dealing with the wife in good faith and for a valuable consideration.

This bill permits any action, such as a quiet title action, to be maintained against a spouse in whose name property may stand, without the joinder of the other spouse. Such an action could be brought against the wife alone by any person who had received a deed or other instrument from the wife and the judgment would bar the husband from asserting that the property was community property and that the grantee was not dealing with the wife in good faith or for a valuable consideration. In other words, this bill would permit an action which would in effect strike from Section 164 of the Civil Code the words "in favor of a purchaser, encumbrancer, payor, or any other person dealing with such married woman in good faith and for a valuable consideration."

Section 473a of the Code of Civil Procedure could not be availed of by the husband in order to set aside a judgment rendered under the provisions of this bill, because that section provides a means for a defendant who was not served to come into court within a year and file an answer, and under this bill the husband would not be a defendant for he would not be made a party to the action.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

Explanations of Vote

I voted "aye" on Senate Bill No. 180 with the understanding that none of labor's rights are violated by the passage of this bill.

J. B. COOKE

We voted against Senate Bill No. 180 believing that organized labor and liberals generally were still opposed to it. After roll was taken learned that labor is now supporting the measure and we were denied the right to change our vote or have the record expunged Hence our statement here that we desire to be recorded as voting "aye"

(Signed)

EVERETT G. BURKHALTER
VERNON KILPATRICK

I voted "no" on the so-called anti-sabotage bill, Senate Bill No 180, applying to defense industry because I believe ample law exists at present; and if any further law is needed, I believe it should be Federal rather than State law

PAUL RICHIE

We, the undersigned, have voted for the above bill, Senate Bill No 180, because Edward Vandeleur, secretary of the State Federation of Labor, states he has no objections to it as amended

REPORT ORDERED PRINTED IN THE JOURNAL

The following Partial Report of the Joint Legislative Fact-Finding Committee on Employment was ordered printed in the Journal:

Partial Report of the Joint Legislative Fact-Finding Committee on Employment—Accepting the Report, of the Legislative Advisory Committee on Defense and Employment, "On Natural Resources of California and the Tributary Pacific Slope Region"

The Joint Legislative Fact-Finding Committee on Employment (consisting of 17 members, nine from the Assembly and eight from the Senate) was created by Senate Concurrent Resolution No. 10, February 24, 1940, for the purpose of securing factual data relating to gainful employment.

The Fact-Finding Committee was supplemented by the creation of an Advisory Committee of "15 nonlegislator members," to be appointed by it, under the authority of Assembly Concurrent Resolution No. 26, May 23, 1940, to secure data and information on "all phases of the industrial, manufacturing and transportation processes and facilities."

Later, an "Industrial Committee" was created through Senate Concurrent Resolution No. 23, September 21, 1940, to determine the availability of the results of a complete industrial survey and report on California and the tributary area.

Both the Legislative Advisory Committee and the Industrial Committee recommended to the Fact-Finding Committee that copies of the industrial report being prepared by the Industrial West, Inc., a nonprofit fact-finding and research organization, be purchased and made available for an industrial program in the interest of employment.

The Joint Legislative Fact-Finding Committee, created under Senate Concurrent Resolution No. 10, February 24, 1940, at a special meeting in Sacramento, March 14, 1941, concurs in and approves the report of the Advisory Committee hereto attached.

JEANETTE E. DALBY, Vice Chairman

The Subcommittee of the Joint Legislative Advisory Committee, appointed to investigate and report on the Industrial Survey of Natural Resources on the Pacific Slope (11 Western States), made by Industrial West, Inc., has the following report to submit:

At a special session of the State Legislature, September 21, last, there was created by Joint Resolution No. 23, an "Industrial Committee", consisting of three members—Messrs. Paul C. Smith, Editor and General Manager, the Chronicle, H. C. MacGinn, Calaveras Cement Co. and Geo. W. Malone, Consulting Engineer-Manager, The Industrial West, Inc. The Industrial Committee has expressed a desire to work with and through this Legislative Advisory Committee. In making this report, The Industrial Committee was fully consulted.

Objective

To so develop and utilize the natural resources—raw materials—of California and the Pacific Slope Tributary Region or to make this Nation independent of foreign countries as a source of their raw materials. This objective should have in mind not alone the providing of "strategic" materials for war purposes in times of emergency—but as a long range plan to carry on during the period following, when a natural depression, or letdown in production is an aftermath of wartime expansion. It is a new approach, through sound industrial development, to the relief and unemployment problems.

Obtaining Objective

It is obvious that in order to obtain the desired objective a great amount of research is necessary. This would take time—from two to three years—and money. Also, as the time element is an important factor, the information making up a coordinated industrial survey must be had as early as possible. Fortunately, this is available through the "factual inventory" which has been made during the past three years by The Industrial West, Inc., directed by Mr. Geo. W. Malone, a consulting engineer. This report is contained in what is termed "The Industrial Survey-Encyclopedia of Western Resources" and includes the entire Pacific Slope Tributary Region (11 Western States). This survey took two and one-half years to complete at a cost of $150,000.

It may be asked why should we be interested particularly in the entire Pacific Slope Region, other than just the State of California The answer is fourfold

1 Raw materials are found in, and will be drawn from the other States for some of the most important new industries. It is necessary to know their location and extent

2. To stabilize labor, as migrants and reliefers would otherwise be drawn to California from this tributary area

3 The cooperation of the other States is necessary in bringing about the adjustments affecting the feasibility of industry.

4 Ninety-five per cent of the economic problems of the Pacific Slope area (11 Western States) are common, and can be adjusted through such cooperation.

The subcommittee has reviewed in a general way the industrial survey 'Encyclopedia of Resources" and finds it very complete. It is, of course, not entirely cross-indexed, and much more work will have to be done to make it readily accessible and convenient, and to furnish sufficient copies for the use of the Legislature and committees However, the material has all been collected, catalogued and coordinated into the necessary manuscript, maps, charts, et cetera—it only remains to complete the work For the benefit of the committee there follows herewith a general outline of what this industrial survey and report contains.

Scope

The industrial survey is a factual inventory of the available raw materials in the 11 Western States, including the mineral, agricultural and forestry fields, together with their location, extent and availability.

A section of the industrial report is also devoted to each of the major "plant factors," *in addition to the raw materials, affecting the feasibility of industry, including* transportation; railroads, highways, intercoastal shipping, inland waterways and airlines; power: where generated, location of transmission systems and cost; trade balance: in the major groups of 157 commodities—amount shipped into and out of each State, population trends; labor and taxes Sections are also devoted to some specific products having the earmarks of feasibility, such as the new method of electrolytic reduction of low-grade manganese, increased rayon production, et cetera.

The Industrial Survey and Report—Encyclopedia of Western Resources

This basic industrial report consists of 12 well-indexed sections, approximately 2,000 pages, including 200 graphs, charts and maps This work will be up-to-date and sufficient copies furnished for the "Advisory" and "Fact-Finding" committees, and for the Legislature

Advisers and Consultants

The Mining Bureaus, Schools of Mines, State Engineers, Railroad Commissions, Planning Boards and Directors of Agricultural Extension Service of the 11 Western States acted as advisers and consultants in their respective fields in the preparation of the work, *together with the United States Geological Survey, the Federal Bureau* of Mines and the Federal Power Commission.

Object of Survey

The objective is a new approach to the relief-unemployment and National defense problems, through the creation of new permanent industries, based on the raw materials of the region. There will be furnished full time, top wage jobs, and many of the products in which this Nation's markets are now deficient, including many of the so-called "strategic" minerals, will be produced.

New opportunities for private investment will be made available This will in turn create much additional taxable property needed by the Pacific Slope States to assist in carrying the load.

Raw Materials

Minerals, including fuels—their specific location and extent.
Agricultural products—location, extent and trends
Forestry products—location, extent and trends.

New and Expanded Industries**

Minerals—The seven leading strategic minerals of chrome, manganese mercury (quicksilver), tungsten, antimony, nickel and tin, together with many minerals of lesser importance.

Electro-chemical and electro-metallurgical industries, including the steel alloys

Agriculture—Vegetable oils, fiber flax, linseed oil, sugar (sugar beets), meats and other products

Forestry—Rayon, newsprint and plastics, in addition to the regular lumber and other miscellaneous products.

It is stated by the Industrial Committee that the cost of completing and furnishing the required number of copies of the basic industrial report (12 indexed sections) and the brief specific recommendations for new industries, together with an outline of the necessary adjustments in the basic work, will amount to $25,000. As stated previously already $150,000 has been expended in making the survey and report.

If the required funds are made available early in January, a preliminary report can be submitted at the beginning of the last half of the session, and the completed basic report—and brief report of specific recommendations as outlined—presented prior to the adjourning of the session. Approximately four months time will be required.

The brief report pointing out the specific industries and products that are or can be made, feasible of production in California and the tributary area, together with the necessary adjustments, will be prepared and submitted to the "Fact-Finding Committee"—cross-indexed with the basic industrial report of 12 sections for reference to supporting data and information.

General Assumptions

In general the future profitable increased production of the Pacific Slope must be based on the products in which this Nation's markets are deficient. In such production the Western States are entitled to an adjustment in the cost of production differentials, based on our *domestic* standards of living, as compared to foreign standards. But, naturally, this increment of adjustment must not unduly affect the cost to the consumer, other considerations, including relief and unemployment costs must more than offset such effect.

Some of the necessary adjustments include tariffs, subsidies, and quotas, which have been built up during the past 50 years by Congressional and executive action. Increased production in other lines may be brought about through publicity, and emphasis by official bodies on the changing economic factors making such increase economically feasible.

The survey discloses that the Pacific Slope is peculiarly fitted—with its available raw materials, transportation systems, power, etc., to produce many products in which this Nation's markets are deficient, and points out the specific adjustments necessary to such production.

A *specific example* of the possibilities of a *new industry* is given in the case of chromite on attached sheet.

Recommendations

In view of the far-reaching possibilities disclosed by this industrial survey, the subcommittee is of the opinion that it should be carried to completion. It then could be made readily available to the State Legislature. As far as can be determined there has never been as complete and composite an industrial survey of raw materials, with the attending "plant factors," made for the region. Every advantage should be taken of it. It forms the foundation for a specific industrial program as a new approach to the relief and unemployment problems.

We therefore recommend to the full committee

1. That a sum, not exceeding twenty-five thousand dollars ($25,000) be appropriated for the purchase of the *basic work*, and the brief specific report, as already outlined.

2. That the Legislatures and proper authorities of the other 10 States in the Pacific Slope Tributary Region be informed of any action taken.

NOTE.—Arguments supporting recommendations will be given at the meeting of the full committee in San Francisco on January 4, 1941.

H. W. OSTERHAUS, for Subcommittee.

Report Adopted by Full Advisory Committee

At a meeting of the entire Legislative Advisory Committee held in San Francisco, in December, 1940, this subcommittee report was unanimously accepted and approved and recommended for adoption by the Legislative Fact-Finding Committee.

**Some examples of possibilities.

Specific Examples of a New Industry

Chromite

Chromite is one of the seven principal "strategic" minerals, and is used in the manufacture of stainless steel, steel alloys, refractories, and in the chemical field. This mineral is extensively used in airplane and battleship armor steel, on account of its strength, light weight, and rustless qualities.

Over a period of 25 years its use has increased from 65,000 tons in 1915, to an estimated 400,000 tons for 1940

The United States is the largest consumer of this material in the world, and the smallest producer. We produce less than 1 per cent of our domestic consumption The price per ton for that period has averaged approximately $19 per ton, except for the war years of 1916 and 1917 to 1918, when imports were threatened. The price averaged $44 per ton during the year 1918, and the domestic production jumped to 45 per cent of the Nation's consumption

The latest price quoted in the Mining & Engineering Journal was $34 to $36 per ton f o b Atlantic ports—if the "Buy American" clause (foreign price plus 25 per cent) could be invoked, and "stockpiled" on the Pacific Coast and the specifications properly written, there is little doubt *that the United States could be made self-sufficient* in this "strategic" mineral

The industrial survey discloses that there are 265 deposits of this "strategic" mineral in five Western States—most of them in California

When full production is reached, an estimated minimum of 5,000 men would be directly employed in the mining and milling operations in this one raw material producing operation alone As raw material producing industries form the base of the pyramid of employment—for every man directly employed in such an industry on a full time, top-wage job, the record shows that at least 10 persons are directly or indirectly supported in the processing and service industries. In this one industry, production of chromite, only *one* of the "strategic" minerals in the mineral field, an estimated 50,000 persons would ultimately gain their support.

This is cited as an example of the possibilities of the new approach to the relief, unemployment and National defense problems through new industries. The Nation gets security through domestic production of a necessary mineral The Pacific Slope gets a new industry, thereby creating employment, new private investments, and additional taxable property.

Report of Joint Legislative Committee on State Buildings at Sacramento

The following Report of the Joint Legislative Committee on State Buildings at Sacramento was received, and ordered printed in the Journal:

Committee Report Pursuant to Assembly Concurrent Resolution No. 17

Mr. Speaker, and Members of the Assembly

The committee appointed pursuant to Assembly Concurrent Resolution No. 17, and composed of the following persons: Senators Frank L Gordon and John Harold Swan, and Assemblymen Earl D. Desmond, John E Cain and S L Heisinger, to consider the matters contained in the resolution, part of which is as follows:

WHEREAS, A number of State office buildings have been constructed at Sacramento within recent years and, in addition thereto, the State finds it necessary to rent office space in order to provide adequate room for its officers and employees, and

WHEREAS, There is pending before the Legislature a bill making an appropriation for the construction of a Social Welfare Building; and

WHEREAS, The State has never undertaken a comprehensive review of governmental functions for the purpose of developing an Orderly Building Program in Sacramento and has no official building plan properly related to the needs of the State and the trends of development of the City of Sacramento; and

WHEREAS, The existing Capitol in Sacramento is not only a fitting symbol of the dignity of State Government but is a distinguishing landmark and a primary center of interest in the city; and

WHEREAS, It is desirable that consideration be given to the relationship of the various State office buildings to each other in the interests of efficiency and economy; and

WHEREAS, Proper consideration in any State building program should be given to the economic relationship of the State office buildings to the business interests of the city; and

WHEREAS, Various plans have been proposed for the development and extension of the State office buildings, among which is the plan for the beautification of Capitol Avenue and the development of a plan for the creation of a mall along Capitol Avenue from Tower Bridge to the State Capitol; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That there is hereby created a Joint Legislative Committee on State Buildings at Sacramento, which committee shall study, ascertain, collate and appraise all facts and matters relating to the foregoing with particular reference to the study of a permanent plan for the development of the aforesaid mall as said plan has been developed and promoted by the City Planning Commission of the City of Sacramento and various civic bodies interested in the development of State buildings and the beautification of the City of Sacramento to the end that it may prepare and recommend to the Legislature a complete and coordinated program for State office building construction at Sacramento which will be for the best interests of the State and of the City of Sacramento; and be it further

Resolved, That the committee shall consist of three members of the Assembly appointed by the Speaker and two members of the Senate appointed by the Committee on Rules

The committee realizing that no plan has ever been adopted for development of a building program of State buildings made necessary by the growth of State business, held hearings in the Capitol in Sacramento, on February 25 and 26, 1941, to consider the matters contained in the above resolution

The committee had before it recommendations of the State Planning Board, the State Architect, and also recommendations by the Planning Commission of the City of Sacramento. These recommendations embraced maps and charts and numerous other documents, bringing to the attention of the committee the proposals relative to a permanent plan for erection of State buildings

In considering the matter of a permanent plan of State buildings, reference was made to the following reports based upon surveys made upon previous occasions:

Report of Chas Mulford Robinson, "The Improvement of Sacramento," November, 1908
Report of Dr. Werner Hegemann, October 30, 1913.
Report of the State Capitol Planning Commission to the Governor, September 1, 1916.
Report of the State Capitol Planning Commission to the Governor, November 26, 1917
Report of Dr. John Nolen, 1915
Report of Dr John Nolen, October 30, 1916
Report of Harland Bartholomew & Associates, March 31, 1929

These reports secured after considerable study, and at the expense of the city and State, appeared to have been largely ignored, and as a result, State buildings have been erected from time to time without a definite policy or plan.

The following persons representing State boards and Sacramento civic organizations appeared before the committee:

Mr L. Deming Tilton, Administrative Officer of the State Planning Board.
Mr H H Jaqueth, City Planning Commission and traffic engineer
Mr. Anson Boyd, State Architect
Dr. Willis Miller, Chief Planning Technician, State Planning Board
Mr George C Conover, manager of Hale Brothers, and Chamber of Commerce director.
Mr. Arthur S Dudley, secretary-treasurer, Chamber of Commerce
Mr. Fred Klaus, city engineer, and acting city manager
Mr Harry Wanzer, city councilman and president, Chamber of Commerce
Mr Roy Cothrin, managing director, Down Town Association.
Mr Chris Jones, president Jones, Braud and Hullin, and Chamber of Commerce
Mr John T Skelton, president, Down Town Association
Mr Bart W Cavanaugh, city civil service board
Dr R B Giffen, president, city planning commission

Mr Tilton, Administrative Officer of the State Planning Board, and Mr. Anson Boyd, State Architect, testified concerning the future development of State buildings in Sacramento Mr Boyd presented exhibits to the committee showing that sites had been considered for the erection of a Social Security Building which would have as its purpose the housing of all State functions relating to the administration of Social Security Laws, such as unemployment insurance, Social Welfare Department, orphan aid, and aid to needy children.

Mr Boyd testified that the erection of a Social Security Building was being urgently requested by the Federal Government for the proper protection of valuable records and proper housing of offices to carry out the duties provided in the Federal Social Security Act, and that it was the desire of the administration, the Planning Board, and the State Architect to erect a structure capable of housing some 3,500 employees, and requiring a floor space of 250,000 square feet These witnesses advocated the construction of a building along architectural lines that would give it a prominent place in the State Building Program in Sacramento

Both Mr. Tilton and Mr. Boyd presented exhibits to the committee, which exhibits showed that they had studied various sites for the erection of the Social Security Building, and also exhibits showing their studies of a Permanent Building Program of State Buildings in Sacramento.

In view of the fact that it was desirable to erect a large structure designed along lines reflecting the present interest of government in social security, Mr. Tilton reported that the State Planning Board recommended the site in the blocks between 15th and 16th Streets and L and N Streets.

The proposed Social Security Building, embracing as it will certain Federal functions, would, without doubt, be the largest building constructed under this plan. From a financial point of view, it is proposed that the State appropriate the sum of $1,500,000 for the purchase of the site and construction of the building, under a plan whereby the Federal Government, over a period of 10 years, would reimburse the State of California for the total amount appropriated for the purchase of the site and the erection of the building.

Mr. Boyd testified that from an architectural standpoint, a building of the contemplated size and architectural beauty required a commodious site and especially one that would permit of subsequent expansion of the Social Security Building.

It was proposed to close M Street between 15th and 16th, so that the Social Security Building could occupy a site larger than one entire city block. Furthermore, Mr. Tilton and Mr. Boyd, in contemplation of other exhibits showing the proposed extension of State buildings in Sacramento along N Street, and south from N Street between the block of 10th and 11th, concluded that any additional State buildings should be erected to the west of the present State Capitol, and that by erecting the Social Security Building upon the above site, it would automatically stop extension of State building beyond 16th Street.

Civic leaders and city officials evidenced their interest in the location of the Social Security Building by reason of traffic conditions that might result from the establishment of this building in an improper location, but all agreed that they would cooperate in any way possible in the erection of a Social Security Building upon whatever site was chosen by the State Planning Board and the State Architect in line with their studies.

In view of these facts and circumstances, the city officials present agreed to cooperate with the State in the closing of Capitol Avenue between 15th and 16th Streets, in order that the State could secure this additional ground area without cost for the Social Security Building.

Mr. Tilton was especially concerned in regard to the lack of planning in future development of State buildings in Sacramento, and pointed out the need of additional buildings by reason of the fact that present State buildings were inadequate to house all the State departments now located in Sacramento.

Mr. Tilton and Mr. Boyd testified that the planning authorities felt there was a definite need for a long range plan for future State building construction in Sacramento. They supported the Capitol Avenue Mall Plan as the most logical plan to adopt for future development for major State buildings in Sacramento. This plan would also contemplate the erection of State buildings, as and when they were needed, of a factory type such as the State Printing Office, to the south of N Street, from 10th to 11th Streets. This permanent plan of building development was concurred in by the various civic groups and city officials represented at the hearing.

Mr. Tilton pointed out to the committee that if the present grounds immediately east of the Capitol were improved, it would enhance the appearance of the Capitol. This would create an impressive view from both the Capitol and the Social Security Building at the east end of Capitol Park.

The various civic leaders and public officials present, who were primarily interested in the utility and beautification of State buildings and grounds have at heart the beautification of the City of Sacramento, as well as the utility and architectural designs of State buildings, agreed to cooperate in every way with any permanent plan established by the State Planning Commission, and recommended by this committee to the State Legislature.

This committee, recognizing the continual growth of the State of California, and the necessity of erecting additional State buildings in Sacramento, feels that it is vital to the welfare of the State that the Legislature establish a permanent policy governing future construction of State buildings in Sacramento. In considering this permanent plan, your committee is also convinced that it is extremely important that such a plan should take into consideration the wishes of the citizens of Sacramento, and the plans prepared for the orderly development and beautification of the city.

In an effort to accomplish this desirable result, both for the benefit of the State, and of the city, your committee is assured that the city and county officials of Sacramento, the Chamber of Commerce, and all public leaders of Sacramento, will give their wholehearted support and cooperation. Such cooperation will be necessary in order that transportation and traffic problems can be met and solved. The City Planning Commission, in order to facilitate execution of a Permanent State Building Plan, has assured your committee that certain zoning restrictions

will be established in that area of the city covered by any proposed plan for additional State buildings.

Mr Jacqueth, Secretary of the City Planning Commission, and Traffic Engineer, presented to the committee city plans calling for the removal of the car tracks on Capitol Avenue, the widening of Capitol Avenue, and a possible building "set back" plan. He also explained that the city is planning to extend 5th Street, south of Broadway to provide a wide arterial for traffic entering the downtown section from the area south of Broadway, and expressed his hope that the State could adopt a definite plan of State buildings in Sacramento, so that the City of Sacramento and its officials could adapt the city plan to a permanent State plan

In connection with the matter of traffic, Mr. Tilton of the Planning Board, pointed out the very objectionable congestion and traffic hazards now surrounding the State Capitol. He recommended that the permanent plan include, if possible, the opening of 12th Street through the Capitol Park from L to N Street by way of a subway under a widened terrace on the easterly side of the Capitol.

The committee and those appearing before it discussed also the remodeling of the present historic Capitol In considering this particular problem, the committee noted the fact that certain bills have been introduced in the Legislature to either erect a new Capitol, or to enlarge it by additions. Your committee feels that California now has one of the most beautiful and imposing Capitol buildings in America. Any additions to the Capitol would destroy its symmetrical lines and beauty. The existing Capitol, because of its sturdy construction, will last for many years, and we feel that any exterior additions or alterations are unnecessary and impractical. We also feel that a new building in place of this structure is unneeded and would be a waste of public money.

In this connection, your committee is of the opinion that the present Capitol should be used primarily for legislative and executive purposes. There is not sufficient office space for members of the Legislature. Moreover, the executive offices require more space and a more convenient arrangement

Provision should be made in the present Capitol for offices for the Lieutenant Governor, President pro tempore of the Senate, Speaker and Speaker pro tempore of the Assembly Proper and suitable offices should be provided for all ranking legislative leaders.

It is recommended, therefore, that the Legislature instruct the State Planning Board and the State Architect to make a survey of the Capitol and ascertain if Government agencies now occupying space in this building could not be transferred to other quarters, so that there would be ample room for the Governor, Lieutenant Governor, and officials of the Assembly and Senate, and their assistants, in order to expedite the work of the executive and legislative branches of State Government.

We also recommend that interior alteration of the Capitol be undertaken to carry out the above purposes, and in connection therewith, that an additional elevator be installed in the Assembly side of the Capitol for the convenience of the public and to relieve the congestion during legislative sessions

Further, we recommend that larger and more commodious committee rooms be provided in order that the many citizens of California who appear before committees in connection with legislation may have better accommodations. It is also recommended that the State Architect undertake a study of the ventilation of the Assembly and Senate Chambers as well as committee rooms, so that proper air conditioning may be installed

At the present time the Department of Agriculture is housed in several buildings for which the State is required to pay considerable rental This department is growing by leaps and bounds by reason of additional duties imposed by law upon the Director of Agriculture and the department It is inconvenient and inefficient to have the various departments and divisions of any department scattered throughout the city The Department of Agriculture is now desirous of constructing a new building in Sacramento so that all of its activities could be concentrated under one roof

Mr Jess Hession, Deputy Attorney General, appeared before the committee and testified that the Attorney General's Department desired additional room He stated that if sufficient room could be provided Attorney General Warren would move the greater part of his office staff from San Francisco to Sacramento Mr Hession also suggested that the upper floor of the Library and Courts Building be vacated by the departments now occupying that space, so that the entire floor could be used by the Attorney General.

The above are but two instances of the present need for space that will result in additional buildings in Sacramento, and proves the necessity for a Permanent Plan for State Buildings This necessity, together with the opinions of the State Planning Board and the State Architect impresses upon your committee the urgent need for the development of the Capitol Avenue Mall idea

In this connection it should be noted that the State of California owns the garage property located on the southwest corner of 9th and L Streets Space in this garage does not, at the present time, furnish sufficient room for parking of State cars It was also pointed out to the committee that traffic hazards and congestion are caused by the parking of automobiles upon the streets surrounding

present State office buildings Moreover considerable traffic congestion is created at certain times of the day by the thousands of employees going to and from State buildings by automobiles

In order to solve the problems of parking, traffic hazards and congestion, and as a means of advancing development of the Capitol Avenue Mall your committee suggests the timely and advantageous purchase of properties between 8th and 9th, L to N Streets. Your committee is impressed with the idea that if this policy is followed a profit might accrue to the State In any event assurance would be given that the Capitol Avenue Mall would be ultimately developed These properties could be held by the State, be put to a utilitarian use and additional State buildings erected thereon when and as needed

During the discussion before the committee, it became evident that it would be desirable that this committee undertake studies of State Building Programs for buildings and branch office buildings in such cities as San Francisco, Oakland, Fresno, Los Angeles and San Diego, since it is obvious that State buildings are necessary in these cities for the conduct of State business

We recommend, therefore, that the resolution creating this committee be amended to give the committee power to continue its studies in the above named cities, and that your committee should be supplied with sufficient funds to carry into effect the full purpose of the resolution creating it

In view of the above, and in accordance with sound city and State planning, your committee makes the following definite recommendations

1 That the Legislature adopt a permanent policy for a program of State building construction in the City of Sacramento, and other cities throughout the State where State buildings are necessary; that this plan be a definite plan binding as far as possible upon future State Administrations and Legislatures

2 That the recommendations of the State Planning Board and the State Architect for the construction of a Social Security Building in the blocks between 15th and 16th Streets, and the alley L and M Streets to the alley M and N Streets, be approved, and that the Legislature immediately appropriate the sum of $1,500,000 for the purpose of purchasing the site and for the erection of said building; that the Legislature adopt such other legislation which may be necessary to provide for the reimbursement to the State for the money spent for said site and said building

3 That future State buildings on N Street facing Capitol Park be deferred pending development of the Capitol Avenue Mall

4 That no buildings of any nature be erected within the confines of Capitol Park proper

5 That the State Architect undertake a study for the alteration of the present Capitol in accordance with the recommendations set forth in this report.

6 That the Capitol Avenue Mall be established as part of the State Building Program in Sacramento, and that future State buildings of suitable scale, type and use be constructed upon said Capitol Avenue Mall.

7 That as funds become available for the construction of a building for the Department of Agriculture, said building be constructed on the Capitol Avenue Mall.

8 That further study be given by the State Planning Board, the State Architect and city officials to the extension of 12th Street through Capitol Park in order to eliminate traffic movement and parking around the Capitol.

Oranges, lemons and limes shall be mature and free from decay; free from serious damage due to freezing, drying at the stem or blossom end (resulting from causes other than freezing), splits, bruises or punctures, and in addition lemons shall be free from serious damage due to sunburn or internal decline. Damage by drying at the stem or blossom end of all oranges, lemons and limes (resulting

from causes other than freezing), and by internal decline or drying due to sunburn of lemons, is not serious unless 20 per cent or more of the pulp shows staining, drying or desiccation. Damage from freezing to any one fruit is not serious unless (a) it causes a drying or desiccation in 20 per cent or more of the exposed pulp as shown on a transverse cut through the center or (b) it causes, before the drying process develops, a water-soaked appearance, or evidence of previous water soaking, or the presence of crystals or crystalline deposit, on the two surface membranes of each of two or more segments as shown on the separation of two or more segments of a section, which section shall not be less than one inch or more than one and one-half inches in thickness, obtained from the central portion of the fruit by cutting off a portion of each end—such evidence of freezing injury to show for the entire length but not necessarily the entire area of the surface membranes.

The percentage of serious damage to oranges, lemons and limes in containers, or in bulk, may be established by inspection of a representative sample which shall consist of not less than 100 fruits Damage caused by splits, bruises, or punctures in any citrus fruit is not serious if the injury is well healed and free from mold or decay. Damage other than drying, caused by sunburn to lemons, is not serious unless it affects the edible portion of the fruit.

With the exception of serious damage caused by freezing, not more than 10 per cent, by count, of the oranges, lemons and limes in any one container or bulk lot may be below these requirements but with the exception of serious damage by sunburn and internal decline of lemons, or by drying at the stem or blossom end of all citrus fruits (resulting from causes other than freezing), not to exceed one-half of this tolerance shall be allowed for any one cause. In the case of serious damage by freezing injury, when the determination of serious freezing damage is based on a water-soaked appearance, or evidence of previous water soaking, or the presence of crystals or crystalline deposit, on the surface membranes of the segments, as herein defined, and before the drying process develops, not more than 15 per cent, by count, of the oranges, lemons and limes in any one container or bulk lot may be below these requirements After the drying process develops and the determination of serious freezing damage is based on a transverse cut, as herein defined, not more than 15 per cent, by count, of the oranges, lemons and limes in any one container or bulk lot may be below these requirements, but not to exceed one-third of this tolerance shall be allowed for oranges, lemons and limes which show a drying or desiccation in 40 per cent or more of the exposed pulp, as shown on a transverse cut through the center. The total tolerance for a combination of defects shall not exceed the tolerance permitted for any one cause by more than 5 per cent, by count."

Amendment No. 5

On page 5 of the printed bill, strike out all of lines 13 to 32, inclusive.

Amendment No. 6

On page 6 of the printed bill, strike out all of lines 1 to 32, inclusive.

Amendment No. 7

On page 7 of the printed bill, strike out all of lines 1 to 4, inclusive, and insert "795.1. Oranges, except bloods, tangerines and Mandarins, shall not be considered mature unless the juice contains soluble solids, as determined by a Brix scale hydrometer, equal to or in excess of eight parts to every part of acid contained in the juice (the acidity of the juice to be calculated as citric acid without water of crystallization), and unless, before picking, they have attained at least 25 per cent of characteristic color.

"Twenty-five per cent of characteristic color" in the case of oranges is defined as that color designated by the Munsell color notation as hue one and fourteen one-hundredths green-yellow, value five and twenty-three one-hundredths chroma four and three-tenths (1.14GY5.23/4.3). Oranges shall be considered as having exceeded 25 per cent color if the average hue of the surface of each fruit is numerically less than one and fourteen-hundredths green-yellow, regardless of the other components of the color."

Amendment No. 8

On page 7 of the printed bill, strike out all of lines 7 to 32, inclusive.

Amendment No. 9

On page 8 of the printed bill, strike out all of lines 1 to 24, inclusive, and insert "795.2. Lemons shall not be considered mature unless they have reached that stage of ripeness which will insure the proper completion of the ripening process after they have been picked from the tree."

Amendment No. 10

On page 8 of the printed bill, strike out all of lines 25 to 49, inclusive, and insert "SEC. 4. Section 796 of the Agricultural Code is hereby repealed.

SEC. 5. A new section is hereby added to the Agricultural Code, to be numbered Section 796 and to read as follows:

796 Grapefruit shall be (1) mature, (2) free from serious decay, (3) free from serious damage by freezing or drying due to any cause, (4) free from serious injury due to any cause, (5) free from serious scars, including those caused by insects, (6) free from serious scale, (7) free from serious dirt, smudge stain, sooty mold, rot residues or other foreign material, (8) free from serious staining, (9) free from serious greenish or brownish rind oil spots, (10) free from serious spotting or pitting, (11) free from serious roughness, (12) free from serious aging, (13) free from serious softness, (14) free from serious sunburn, (15) free from serious sheepnose.

The following standards shall be applied in determining whether or not grapefruit meet the requirements of this section.

(1) Grapefruit are not mature unless (a) at the time of picking and at all times thereafter the juice contains soluble solids, as determined by a Brix scale hydrometer, equal to or in excess of five and one-half parts to every part of acid contained in the juice (the acidity of the juice to be calculated as citric acid without water of crystallization), except that in view of differences in climatic conditions prevailing south and east of San Gorgonio Pass, which result in the grapefruit grown in that area having, at maturity, a higher percentage of soluble solids to acid than the mature grapefruit grown in the area north and west of said San Gorgonio Pass, grapefruit produced in the area south and east of San Gorgonio Pass are considered mature if at the time of picking and at all times thereafter the juice contains soluble solids, as determined by a Brix scale hydrometer, equal to or in excess of six parts to every part of acid contained in the juice (the acidity of the juice to be calculated as citric acid without water of crystallization), and (b) 90 per cent or more of the grapefruit, by count, at time of picking and at all times thereafter have attained, on at least two-thirds of the fruit surface, at least a minimum characteristic yellow or grapefruit color, as indicated by Color Plate No 19 L3 in "Dictionary of Color," Maerz & Paul first edition 1930. Grapefruit produced outside of this State under climatic conditions similar to those prevailing in the area south and east of San Gorgonio Pass and offered for sale in this State shall meet the same maturity standard as that prescribed for grapefruit produced south and east of said San Gorgonio Pass.

(2) Decay is serious if any part of the grapefruit is affected with decay.

(3) Damage by freezing or drying due to any cause is serious if 20 per cent or more of the pulp or edible portion of the grapefruit shows evidence of drying or a mushy condition; and damage by freezing or drying due to any cause is very serious if 40 per cent or more of the pulp or edible portion of the grapefruit shows evidence of drying or a mushy condition. Evidence of damage shall be determined by as many cuts of each individual grapefruit as are necessary.

(4) Injury due to any cause is serious if the skin (rind) is broken and the injury is not healed.

(5) Scars, including those caused by insects, are serious if they are dark, or rough, or deep and if they aggregate 25 per cent or more of the fruit surface.

(6) Scale is serious if 50 per cent or more of the fruit surface shows scale infestation in excess of 50 scales per square inch.

(7) Dirt, smudge stain, sooty mold, rot residues, or other foreign material are serious if an aggregate area of 25 per cent or more of the fruit surface is affected.

(8) Staining of the skin (rind) is serious if 50 per cent or more of the fruit surface is affected with a pronounced discoloration.

(9) Greenish or brownish rind oil spots are serious if they cover an aggregate area of 25 per cent or more of the fruit surface.

(10) Spotting or pitting is serious if the spots or pits are sunken and cover an aggregate area of 10 per cent or more of the fruit surface.

(11) Roughness is serious if 90 per cent or more of the fruit surface is rough and coarse, or lumpy.

(12) Aging is serious if one-third or more of the surface of the grapefruit is dried and hard.

(13) Softness is serious if the grapefruit is flabby.

(14) Sunburn is serious if it causes decided flattening of the fruit and drying and discoloration of the skin (rind) affecting more than one-third of the fruit surface.

(15) Sheepnose is serious if the stem end of the grapefruit protrudes decidedly.

The compliance or noncompliance with the standards for grapefruit prescribed in this chapter, except as to maturity, may be determined from a representative sample taken as follows:

(a) When in containers the sample shall consist of not less than 10 per cent, by count, of the grapefruit in each of the containers selected as the sample.

(b) When in bulk the sample shall consist of not less than 100 grapefruit, except that where the total number of grapefruit in the bulk lot is less than 1,000 grapefruit a representative sample shall consist of 10 per cent of the grapefruit.

Each individual grapefruit may be examined for one or all of the defects, except as to maturity, but only one defect shall be counted or scored against any individual grapefruit.

The official sample for testing for maturity of grapefruit shall consist of not less than 30 grapefruit.

Any such sample so taken shall constitute prima facie evidence of the character of the entire lot from which such sample was taken, as provided in Section 782 of this code.

Tolerances to be applied to certain of the foregoing standards are hereby established. The grapefruit in any one container or bulk lot shall be deemed as a whole to meet the requirements of standards numbers 2, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14 and 15 of this section so long as not over 10 per cent, by count, of the individual grapefruit in such container or bulk lot are below said standards, and so long as not over 5 per cent, by count, thereof are below any one of said standards. The grapefruit in any one container or bulk lot shall be deemed, as a whole, to meet the requirements of standard number 3 of this section so long as not more than 15 per cent, by count, of the individual grapefruit in such container or bulk lot are seriously damaged by freezing or drying due to any cause, but not to exceed one-third of this tolerance shall be allowed for very serious damage by freezing or drying due to any cause.

and said selections and listings shall be made of men and women suitable and competent to serve as jurors, as set forth and required in Sections 205 and 206 of this code, which list of persons so selected shall at once be placed in the possession of the county clerk [;] . [and immediately after said order designating the estimated number of trial jurors shall be made, the board of supervisors shall select, as provided in Sections 205 and 206 of this code, a list of men and women to serve as trial jurors in the superior court of said county during the ensuing year, or until a new list of jurors shall be provided]

Provided further, that in counties and cities and counties having a population of 300,000 inhabitants or over, such order designating the number of trial jurors, and such selections and listings of men and women suitable and competent to serve as trial jurors, shall be made by a majority of the judges of the superior court and shall be made in the months of January and July of each year.

SEC. 12. Section 204d of the Code of Civil Procedure is hereby amended to read as follows:

204d. Pursuant to the rules and instructions adopted by a majority of the judges of the court, the jury commissioner shall return to the judges the lists of persons recommended by him for jury duty. The judges of said superior court shall examine the jury lists so returned and from such lists a majority of said judges may select, to serve as trial jurors and grand jurors [, respectively,] in the superior court of said county or city and county during the ensuing year, or until a new list of jurors is required, such persons as, in their opinion, should be selected for such jury duties; provided, however, that the persons so selected shall, in the opinion of the judges selecting the same, be persons suitable and competent to serve as jurors, as set forth and required in this code. The judges, however, shall not be bound to select any names from said lists, but may, if in their judgment the due administration of justice requires, make all or any selections from among the body of persons in the county or city and county suitable and competent to serve as jurors regardless of the lists returned by the jury commissioner.

SEC. 13. Section 208 of the Code of Civil Procedure is hereby amended to read as follows:

208. A certified list of the persons selected to serve as trial jurors *and grand jurors* shall at once be placed in the possession of and filed with the clerk of the superior court.

SEC. 14. Section 209 of the Code of Civil Procedure is hereby amended to read as follows:

209. On receiving such list [s] the county clerk shall file the same in his office, and write down the names contained thereon on separate pieces of paper, of the same size and appearance, and fold each piece so as to conceal the name thereon. He shall deposit the pieces of paper having on them the names of the persons selected to serve as [grand] jurors in a box to be called the " [grand] jury box [,] ." [and those having on them the names of persons selected to serve as trial jurors in a box to be called the "trial jury box "]

Following the deposit in the "jury box" of the names of all jurors, including in counties of the first class the names of jurors for all sessions, the clerk in open court in the presence of the presiding judge shall draw not less than 40 names from the "jury box"; provided, however, that in counties where there are two or more judges of the superior court said number shall be divisible by the number of judges therein, and shall in no event be less than four times the number of said judges. The names of the jurors so drawn shall constitute the grand jury list, and a copy thereof certified by the presiding judge shall be placed in the possession of and filed with the clerk of the superior court. The remainder of the names shall constitute the trial jury list, and shall be placed in a box to be called the "trial jury box"; provided, however, that in counties of the first class the remainder of the names shall be apportioned to the respective sessions of the superior court held in cities other than the county seat wherein they were originally listed for service as jurors.

SEC. 15. Section 211 of the Code of Civil Procedure is hereby amended to read as follows:

211. *From the grand jury box the judge or judges of the superior court, as the case may be, shall select not less than 25 names; provided, however, that in counties where there are two or more judges of the superior court each judge shall select not less than one name, and no judge shall select more names than any other judge. The names so selected shall be placed in a box to be called the "grand jury box."*

The names of persons drawn for grand jurors shall be drawn from the "grand jury box," and the names of persons for trial jurors shall be drawn from the "trial jury box"; and if, at the end of the year, there shall be the names of persons in either of the said jury boxes who may not have been drawn during the year to serve, and have not served as jurors, the names of such persons may be placed on the list of jurors drawn for the succeeding year.

SEC. 16. Section 241 of the Code of Civil Procedure is hereby amended to read as follows:

241. *In every county the superior court in the first week of December and June, respectively, must make and file with the county clerk an order directing grand jurors to be drawn. Such order must designate the time at which such drawing will take place, which shall be not less than 30 nor more than 45 days after the date of said order.*

The county clerk shall immediately cause to be posted in not less than three public places within the county or city and county, and to be published at least once a week for three successive weeks in some newspaper of general circulation printed and published within the county or city and county a copy of said order together with a list of the names then in the grand jury box indicating thereon the name of the judge or judges of the superior court by whom said names were selected.

Said jurors shall be summoned as provided for summoning trial jurors.

[Every superior court, whenever in the opinion of the court the public interest requires it, must make and file with the county clerk, an order directing a jury to be drawn, and designate the number, which, in case of a grand jury, shall not be less than 25 nor more than 30. In all counties there shall be at least one grand jury drawn and impaneled in each year. Such order must designate the time at which the drawing will take place. The names of such jurors shall be drawn, the list of names certified and summoned, as provided for drawing and summoning trial jurors; and the names of any persons drawn, who may not be impaneled upon the grand jury, may be again placed in the grand jury box.]

SEC. 17. Section 242 of the Code of Civil Procedure is hereby amended to read as follows.

242. *Upon the date set forth in the order mentioned in the preceding section the presiding judge shall examine such persons, if any, as may have claimed a right to be excused from jury service as provided in Section 201 of this code, and determine whether or not such person should be excused. The clerk shall then write the names of all persons summoned, not so excused, on separate ballots, which he must fold so that the names can not be seen, place them in a box, and draw out 10 names in January, and nine names in July of each year; provided, however, that in January, 1942, 19 names shall be so drawn. If a challenge has been interposed to any person so drawn pursuant to the provisions of Sections 895 and 896 of the Penal Code, the presiding judge shall thereupon unseal said challenge, read it to said person, interrogate said person upon the subject matter of said challenge, and thereupon determine the fitness of said person for grand jury service in accordance with said provisions. If said challenge is upheld a new name shall be drawn from the grand jury box. When 10 or nine names, as the case may be, are drawn and accepted, the persons so drawn shall serve for one year as grand jurors; provided, however, that in January, 1942, 19 persons shall be so drawn and the last nine names so drawn and accepted shall serve but for six months, and shall be discharged upon the impanelment, in the manner aforesaid, of nine jurors to succeed them in July of 1942.*

[When, of the persons summoned as grand jurors and not excused, 19 are present, they shall constitute the grand jury. If more than 19 of such persons are present, the clerk shall write their names on separate ballots, which he must fold so that the names can not be seen, place them in a box, and draw out 19 of them, and the persons whose names are on the ballots so drawn shall constitute the grand jury. If less than 19 of such persons are present, the panel may be filled as provided in Section 226 of this code. And whenever, of the persons summoned to complete a grand jury, more shall attend than are required, the requisite number shall be obtained by writing the names of those summoned and not excused on ballots, depositing them in a box, and drawing as above provided.]"

The following is a statement of facts constituting such necessity:

The defense of the United States and of this State is seriously threatened by a lack of airports and air training schools on the Pacific Coast. It is essential that the State of California and its agencies cooperate with the United States in carrying out plans for the establishment of airports and air training schools In many localities irrigation districts are the only State agencies in a position immediately to undertake this vital work for our common defense. If this work is not immediately undertaken it will prolong the vulnerability of this State and of our Nation to attack from without."

(c) "Includible gift" means the total gift, before allowance of any exemptions other than the intangibles or charitable exemptions, the transfer of which was subject to gift tax where the same transfer is also subject to inheritance tax at the death of the donor.

(d) The inheritance tax payable on an includible gift shall be reduced by a gift tax credit equal to the gift tax paid on the includible gift, subject to the limitations of this section.

(e) The gift tax paid in any year on the includible gift is deemed to be that proportion of the entire tax on all gifts by the donor to the donee in that year which the amount of the includible gift bears to the total gifts by the donor to such donee in that year.

(f) "Proportionate annual exemption" means the amount which bears the same proportion to the total annual exemption allowed for all gifts to the donee in the year the includible gift was made as the value of the includible gift at the date of gift or date of death, whichever is lower, bears to the total value at date of gift of all gifts by the donor to such donee in that year.

SEC. 7. Section 36.5 is hereby added to said act, to read as follows:

Sec. 36.5. Payment of the gift tax by the donee, or agreement by the donee to pay such tax, is not consideration, for the purpose of this act, for the transfer of any property.

Any person who makes any transfer by gift shall, on or before [the first day of March] *April 15th* following the close of the calendar year in which the gift was made, make a gift return under oath to the Controller, who may for cause shown extend the time for making the return not exceeding six months. In such cases as the Controller may by rule prescribe, no gift return need be made. *The Controller may by rule prescribe for the filing of returns by any other person for the donor when the donor is deceased or for other reason can not personally file the return within the time allowed.*

SEC. 9. Section 40.5 is hereby added to said act, to read as follows:

Sec. 40.5. If a donor dies before filing a return for any gift and it is conceded that the same transfer is also subject to inheritance tax the value of the property transferred may be determined for submission in the gift return as follows, at the option of the executor or administrator or donee:

At any time before filing of the gift return for the donor and before filing of the inheritance tax appraiser's inheritance tax report including the gift the executor or administrator in the probate proceeding, or the donee or respondent in any other proceeding, wherein the amount of inheritance tax on the transfer will be determined may file in the proceeding an "Election for Gift Tax Valuation."

The election shall show such information as may be required by the Controller and shall state that the person filing it (1) concedes that the gift is subject to inheritance tax and (2) elects that the appointed inheritance tax appraiser shall value the gift for gift tax as well as inheritance tax purposes. A copy of the election shall be served on the inheritance tax appraiser prior to or concurrently with the filing of the election or, if the appraiser has not yet been appointed when the election is filed, the copy shall be served on the appraiser immediately after his appointment.

As soon as possible after the filing and serving of such election, the inheritance tax appraiser shall without charge appraise the property as of the date of gift and send a report in the form prescribed by the Controller to the person filing the election showing the value of the gift for gift tax purposes. The original of this report shall be filed as part of the gift return and constitutes prima facie evidence of the value of the gift for gift tax purposes. If the appraiser's report is not received in time so that it can be filed as part of the gift return within the time during which the gift return may be filed without penalty, the gift return shall contain a statement of the facts and may be filed without the report, and the Controller shall in such cases by rule prescribe for the manner of filing the report thereafter or for other means of determining the value of the property.

Sec. 43. If the failure to make a gift return or the failure to include any transfers in a gift return is the result of fraudulent intent to evade the tax, an additional penalty of 25 per cent attaches to the tax on the transfers not included in a gift return. The penalties imposed by this section attach as of the date of the gift and notice of the determination of the tax and penalty shall be sent to the donor *or to the person liable for the tax* in the same manner as any other determination of tax. These penalties shall be considered as part of the tax for the purpose of determining the date when the tax and these penalties are delinquent and for the purpose of determining the penalty for delinquency.

SEC. 11. *Section 49 of said act is hereby amended to read as follows:*

Sec. 49. The tax is due at the time the gift is made. The tax is delinquent when the determination of the Controller fixing the amount of tax becomes final. SEC. 2. A new section to be numbered 7406 is hereby added to the Revenue and Taxation Code, to read as follows:

7406. The provisions of Section 7401 exempting motor vehicle fuel sold to the Government of the United States from the measure of the license tax imposed hereunder shall not apply to any motor vehicle fuel sold to contractors purchasing such fuel either for their own account or as the agents of the United States for construction of National defense facilities on a cost-plus-a-fixed-fee basis

SEC. 3. Except as otherwise provided in this act, pending a final decision in a court of last resort to the effect that the license tax imposed by the Motor Vehicle Fuel License Tax Act or by Part 2 of Division 2 of the Revenue and Taxation Code, as the case may be, is applicable with respect to sales of motor vehicle fuel used in the performance of contracts with the United States for the construction of National defense facilities on a cost-plus-a-fixed-fee basis, the State Board of Equalization shall exclude such sales in computing any assessment made pursuant to Section 6 of the Motor Vehicle Fuel License Tax Act and any determination made pursuant to Section 7654 of the Revenue and Taxation Code, regardless of whether such fuel is sold to the contractors so purchasing it directly by the distributor thereof or by a consignee or vendee of such distributor.

SEC. 4. Except as otherwise provided in this act, the State Board of Equalization shall not make an assessment or determination of license tax arising out of transactions such as are described in Section 3 hereof when the distribution of the fuel is made prior to a decision such as is mentioned in said section, or when made subsequent to such a decision at a price fixed by contract which became binding prior to May 1, 1941, if it is established to the satisfaction of the board that the person liable for the license tax has refrained from seeking reimbursement therefor only because of the insistence of those representing the United States with respect to such transactions and has not been, and after reasonable effort to collect can not be, reimbursed therefor as a part of the sales price of the fuel.

SEC. 5. Unless a person liable for a license tax such as is described in Sections 3 and 4 of this act shall maintain accurate records with respect to all transactions of the type therein described and shall report the transactions to the State Board of Equalization as required by the Motor Vehicle Fuel License Tax Act or the Revenue and Taxation Code, as the case may be, said sections shall not apply to such person or to any license tax assessed against him.

SEC. 6. Nothing contained in this act shall prevent the State Board of Equalization from making such assessments or determinations of license tax with respect to transactions of the type described in Sections 3 and 4 of this act as it may deem necessary to establish the validity of assessments or determinations arising out of transactions of such kind, nor shall this act affect the power and duty of the board to make an assessment or determination if the board believes that the collection of any license tax imposed by or under the Motor Vehicle Fuel License Tax Act or Part 2 of Division 2 of the Revenue and Taxation Code will be jeopardized by delay.

SEC. 7. Any claim for refund of the amount of license tax included in the sales price of fuel sold under circumstances such as are described in Section 3 hereof may be filed with the State Controller within 60 days after the filing with that official of the assessment roll showing the license tax to be due with respect to the distribution of such fuel, notwithstanding any other provisions to the contrary in Section 11 of the Motor Vehicle License Tax Act or Section 8105 of the Revenue and Taxation Code.

SEC 8. Nothing contained in this act shall be construed as a legislative intent, interpretation, or concession to the effect that the license tax imposed under the Motor Vehicle Fuel License Tax Act or Part 2 of Division 2 of the Revenue and Taxation Code, as the case may be, is inapplicable with respect to sales of the kind mentioned herein, or that the motor vehicle fuel license tax is imposed otherwise than upon the distributor for the privilege of distributing motor vehicle fuel in this State.

SEC. 9. If any section, subsection, clause, sentence or phrase of this act which is reasonably separable from the remaining portions of this act is for any reason held to be unconstitutional, such decision shall not affect the remaining portions of this act. The Legislature hereby declares that it would have passed the remaining portion of this act irrespective of the fact that any such section, subsection, clause, sentence or phrase of this act be declared unconstitutional.
