GENTLEMEN:

Assembly Bill No. 683, "An act making an appropriation in augmentation of the appropriation in Item 144 of the Budget Act of 1948, for support of the State Controller, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

I therefore recommend consideration of Assembly Bill No. 683 as an emergency measure.

Spirit of Harmony: May we hear today in the Springtime the many voices of nature sounding out their music and speaking to us of the harmony which the Creator ordained.

The quiet music that leaf and grass make as they move in the breeze, the bird tones that bring to us their music from another realm, and the song which all growing things sing as they add to the beauty of the earth.

May we think of the music the stars make in their rotations, the color tones of the sunlight, and the rhythm and melody which fill all space—even that which we breathe, and which our ears have not the structure to hear.

May we blend our spirits with the universal harmony and add with our influence a note of unity to the world.—AMEN.

Hon. S. L. Heisinger

Conservation of Wild Fowl—No. 5772

DEAR MR. HEISINGER:

Question

Assembly Bill No. 3108 proposes under its terms to permit the Fish and Game Commission to lease shooting grounds on a nonprofit basis during closed season from persons or organizations which have proper facilities, notably with regard to water facilities, for the production of feed and nesting places for wild fowl. The general purpose which is declared is for the propagation and conservation of migratory wild fowl. You have posed the question whether the Fish and Game Commission has the present power to accept gifts of the use of land during the same time and for the same purposes as are stated in this bill.

Opinion

It is our opinion that if the Fish and Game Commission undertook to accept as a gift the use of the property of private persons, clubs, and corporations during the closed season only for the purpose of propagating and protecting migratory wild fowl, its action would not be challenged.

Analysis

It is a well-known proposition of law that an administrative agency has no powers other than those expressly conferred by law. (42 Am. Jur. 316, *Federal Trade Commission* vs. *Raladam Co.*, 283 U. S. 643, 646.) The necessity for a statutory authorization with respect to the California Fish and Game Commission would seem to be no exception to this rule even though that body was created by the Constitution (Art. IV, Sec. 25½). Section 25½ provides in effect that the only powers of the commission are those which the Legislature sees fit to delegate to it. There would seem to be no justification for departure from the general rule because of the nature of the power here involved. The power of the State to accept gifts derives from its sovereignty and is clearly subject to legislative control. To bear this out, numerous provisions of law have been enacted which reflect upon this power.

With these propositions in mind, it becomes clear that the answer to your question depends on whether there is among the powers of the commission enumerated in the Fish and Game Code an express authority to accept gifts broad enough to comprehend this particular situation. If there is not, no such power exists. As far as we have been able to determine, there are no other provisions in the Fish and Game Code authorizing the acceptance of gifts than Sections 39.8 and 325. The first of these by its terms is not helpful. It is very limited in scope and confined to the acceptance of donations of money to pay the commission's expenses incurred for the purpose of exhibiting fish and game educational material at fairs, sportsmen's shows or other public displays.

Section 325 poses a more difficult problem. It provides as follows:

"325. For the purposes of propagating, feeding and protecting birds, mammals, and fish, and establishing public shooting grounds the commission may:

(a) Accept, on behalf of the State, donations of any interest in lands within any refuge or preserve.

(b) Accept, on behalf of the State, from any person owning and in possession of patented lands except lands which are covered and uncovered by the ordinary daily tide of the Pacific Ocean, the right to preserve and protect all birds, mammals and fish of such patented lands.

(c) Accept, on behalf of the State, donations of birds, mammals, and fish, and of money given or appropriated. Such donations must be used for the purposes for which they are accepted, and, as nearly as may be, for any purpose indicated by the donor.

(d) Acquire, by purchase, lease, rental or otherwise, and occupy, develop, maintain, use and administer land, or land and water, or land and water rights, suitable for state game farms, game refuges, or public shooting grounds."

The question is can these words be construed so as to authorize the commission to accept gifts of interests in land as provided in Assembly Bill No. 3108 In the first place, the introductory clause is susceptible of two constructions. It may be argued that the purposes, which are stated as "propagating, feeding and protecting birds, mammals, and fish, and establishing public shooting grounds," must both be met or the provisions of subdivisions (a), (b), (c) and (d) are inapplicable. We are of the opinion, however, that these purposes are stated in the alternative in spite of the use of "and" rather than "or" because of the use of the plural form "purposes" and because such a restrictive construction would conflict with the clear words of the following subdivisions (a), (b), and (d). It would be inconsistent to say that the commission could accept land within game refuges and preserves [subdivision (a)] for example only for the establishment of public shooting grounds.

We must next determine whether a gift of the nature here under consideration would come within the terms of any of the subdivisions of Section 325. Subdivision (a) would only be useful in the case that the land sought to be donated lies within a refuge or preserve. Subdivision (b) does not purport to deal with gifts of land but only a gift by the owner of patented lands to the commission of the right to preserve and protect the wild life thereon. It might be argued that the persons,

clubs or corporations mentioned in Assembly Bill No. 3108 could donate this right, if they are the patent owners of the land, and thus achieve the same desired result. This would be an extremely dubious interpretation, however, and seemingly well beyond the intent of the subdivision

Subdivision (c) is clearly not applicable, dealing as it does with donations of wildlife or money only.

The result of this process of elimination is that the type of gift in question must qualify as within the commission's powers, if at all, under subdivision (d). Under this subdivision, the commission may acquire by purchase, lease, rental, or "otherwise" and occupy, develop, maintain, use, and administer land, etc., suitable for State game farms, game refuges, or public shooting grounds. "Otherwise" as a category of permissible types of acquirement would comprehend acquirement by gift.

It is also necessary to construe the word "suitable" as used in this subdivision. To give the provision as a whole a broad interpretation, it would be possible to construe this word literally as meaning that the commission could accept gifts of any land which could in any way be used as a State game farm, a game refuge, or a public shooting ground. If a broad construction is adopted, the commission could accept gifts for the purposes of Assembly Bill No. 3108 since there is little doubt that land suitable for those purposes would also be suitable for use as one of the three enumerated above. A narrow construction, however, is equally plausible, and the subdivision could be held to mean that the commission could accept property only for use as a State Game Farm, etc.

We are inclined to believe that, if a court were called upon to construe subdivision (d), a broad interpretation would be adopted. Even if it can be said that the terms would not exactly fit this case, there are sufficient indications in the Fish and Game Code as a whole which show the general intent of the Legislature. Section 28 gives the commission general power to propagate wild life. Section 38 would allow it to spend money to provide areas for feeding game when natural food is insufficient. We think that there is implicit in such provisions a direction to construe broadly provisions enlarging the powers of the commission to propagate and protect wild life. Accordingly, it is our conclusion that if the commission undertook to accept the use of land for the purposes stated in Assembly Bill No. 3108 a court would in all probability uphold its action.

Very truly yours,

FRED B. WOOD, Legislative Counsel
By PHILIP J. O'DONNELL, Deputy

PRAYER

The following prayer was offered by the Chaplain, Dr. Torrance Phelps:

O God of America: Under the shadow of Memorial Day, decorated with banners and flowers and resounding with martial music, let us solemnly remember the enormous price that mankind has paid for the blessings of freedom

The long-plumed procession of the Knights of Liberty who fought upon the countless battlefields from the Jordan and Thermopolis, from Tours and Waterloo, to Bunker Hill and Gettysburg, and to the lands where the thistle and the shamrock grow.

Those who on "Fame's eternal camping ground" fought to preserve the Union, and those who made the Spanish-American War the first in the story of chivalry.

Let us honor the youth who, in the World Wars, twice crossed the ocean and made the Argonne, Normandy, and the South Pacific sacred, and left a forest of crosses an appalling symbol of the price of freedom.

"These gave the world away, gave up the rich red blood of youth
Gave up the years to be of love, success and fame,
And that which was their immortality, their sons, they gave."

May we zealously guard these liberties hallowed by their blood, and for which they fought.—AMEN.

Amendment No. 3

On page 1 of said bill, strike out lines 3 to 5, inclusive, and insert

"SEC. 2. It is hereby found and declared that there exist in many communities in this State blighted areas which constitute either social or economic liabilities, or both, requiring redevelopment in the interest of the health, safety and general welfare of the people of the communities in which they exist and of the people of this State generally. These blighted areas are characterized by one or more of the following conditions:

(a) The existence of buildings and structures, either used or intended to be used for living, commercial, industrial or other purposes, or any combination of such uses, which by reason of defective design and character of physical construction, faulty interior arrangement and exterior spacing, high density of population and overcrowding, inadequate provision for ventilation, light, sanitation, open spaces and recreation facilities, age, obsolescence, deterioration, dilapidation, mixed character or shifting of uses to which they are put, or any combination of such factors and characteristics, are unfit or unsafe to occupy for residential, commercial, industrial or other purposes and are conducive to ill health, transmission of disease, infant mortality, juvenile delinquency and crime.

(b) An economic dislocation, deterioration or disuse as a result of faulty planning, the subdividing and the sale of lots of irregular form and shape and inadequate size for proper usefulness and development, the laying out of lots in disregard of the contours and other physical characteristics of the ground and surrounding conditions, or the existence of inadequate streets, open spaces and utilities, or of lots or other areas which are subject to being submerged by water.

(c) A prevalence of depreciated values, impaired investments and social and economic maladjustment to such an extent that there exists a reduced capacity to pay taxes and consequent inadequacy of tax receipts in relation to the cost of public services rendered.

(d) A growing and in some instances a total lack of proper utilization of areas resulting in a stagnant and unproductive condition of land potentially useful and valuable for contributing to and serving the public health, safety and welfare; and in other areas a loss of population and reduction of useful utilization of the area, resulting in the further deterioration thereof and in added costs to the taxpayer supporting governmental entities for the creation of new public facilities and services elsewhere.

(e) A housing area constructed as a temporary wartime housing project and not designed or constructed to be used permanently which has now deteriorated or become obsolescent so as to be unsuitable for residential purposes.

It is further found and declared that the existence of blighted areas characterized by any or all of such conditions, separately or collectively, constitutes a serious and growing menace which is hereby condemned as injurious and inimical to the public health, safety and welfare of the people of the communities in which they exist and of the people of the State generally; that such areas present difficulties and handicaps which are beyond remedy and control solely by regulatory processes in the exercise of the police power; that they contribute substantially and increasingly to the problems of, and necessitate excessive and disproportionate expenditures for, crime prevention, correction, prosecution and punishment, the treatment of juvenile delinquency, the preservation of the public health and safety and the maintaining of adequate police, fire and accident protection and other public services and facilities; that this menace is becoming increasingly direct and substantial in its significance and effect; that the benefits which will result from the remedying of these conditions and the redevelopment of these areas of blight will accrue to all the inhabitants and property owners of the communities in which they exist.

It is further found and declared that such conditions of blight tend to further obsolescence, deterioration and disuse because of the lack of incentive to the individual landowner and his inability to improve, modernize or rehabilitate his own particular property while the condition of the neighboring properties remains unchanged; that as a consequence the process of deterioration of a blighted area frequently cannot be halted or corrected except by redeveloping the entire area, or substantial portions thereof; that such conditions of blight are chiefly found in areas which have been subdivided into small parcels, that in most instances the lands are held in divided and widely scattered ownerships, frequently under defective titles, that in many such

instances the private assembly of the lands in blighted areas for purposes of redevelopment is so difficult and costly that it is uneconomic and as a practical matter impossible for individual owners independently or collectively to undertake to remedy such conditions because of lack of the legal power necessary for, and the excessive costs involved in, the private acquisition of the real property of the area; that the remedying of such conditions may require the public acquisition at fair prices of adequate areas, the clearance of the areas through demolition of existing obsolete, inadequate, unsafe and insanitary buildings and the redevelopment of the areas suffering from such conditions under proper supervision, with appropriate planning, and continuing land use and construction policies.

For these reasons it is hereby declared to be the policy of this State to protect and promote the sound development and redevelopment of blighted areas within this State and the general welfare of the inhabitants of the communities in which they exist by remedying such injurious conditions through the employment of all means appropriate for that purpose; that whenever the redevelopment of blighted areas cannot be accomplished by private enterprise alone, without public participation and assistance in the acquisition of land, in planning and in the financing of land assembly, in the work of clearance and in the making of improvements necessary therefor, it is in the public interest to employ the power of eminent domain, to advance or expend public funds for these purposes and to provide a means whereby the blighted areas within this State may be redeveloped or rehabilitated; that the redevelopment of such blighted areas and the provision for appropriate continuing land use and construction policies therein, constitute public uses and purposes for which public money may be advanced or expended and private property acquired, and are governmental functions of state concern in the interest of the health, safety and welfare of the people of the State generally and particularly of the people of the communities of the State in which such areas exist; that it is in the public interest that work on such projects be commenced as soon as possible in order to create postwar employment; and that the necessity in the public interest for the provisions hereinafter enacted is hereby declared to be a matter of legislative determination."

RECOMMENDATION OF THE GOVERNOR

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Senate Bill No. 857:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 6, 1949

To the Honorable Members of the Assembly
Sacramento, California

GENTLEMEN:

Senate Bill No. 857, "An act making an appropriation to the Emergency Fund specified in Item 278 of the Budget Act of 1949, relating to the repair and restoration of property damaged or destroyed by storms or floods and the expenditure of money appropriated therefor,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

This bill does not appropriate new funds, but appropriates the unencumbered balance of an appropriation made in 1947 to the Emergency Fund specified in Item 278 of the Budget Act of 1949, for the cost of repair or restoration of certain damage done by storm or flood. Consideration of this item before the budget has been recommended by the Director of Public Works to permit the State Engineer to begin work on these items as soon as possible.

I therefore recommend consideration of Senate Bill No. 857 as an emergency measure.

Respectfully submitted,

EARL WARREN, Governor

Above letter received at Assembly desk May 27, 1949.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 27, 1949

To the Honorable Members of the Assembly
State of California, Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 1501, entitled: "An act to add Section 2144.5 to the Business and Professions Code, relating to persons and acts exempted from the State Medical Practice Act, Chapter 5 of Division 2 of the Business and Professions Code."

My objection to this bill is as follows:

The author and proponents of this measure state that they have no intention of excluding any of the healing arts from any activities in which they are now permitted to engage and that they do not believe that it would do so However, the Attorney General is of the opinion that the courts could reasonably hold that the laboratory technicians would be prevented from making skin punctures and vein punctures for chiropractors, of which there are some 5,500 in California. This exclusion of the chiropractors is not expressed in the bill and the Legislature could hardly have had that in mind from the wording used The bill while excluding chiropractors at the same time includes drugless practitioners, midwives and chiropodists among those for whom laboratory technicians may make these punctures for the taking of blood for laboratory tests I believe that the avowed purpose of the bill is desirable in order to specifically define the duties of the laboratory technicians and if that were all the bill included I would cheerfully sign it. I believe that the purpose of this bill can be accomplished through the medium of another bill without affecting the interests of any group

Respectfully submitted,

EARL WARREN, Governor

Receipt of Assembly Bill No. 1501 Acknowledged

I acknowledge receipt this twenty-seventh day of May, at 11.57 o'clock a.m., of Assembly Bill No. 1501, without the Governor's signature, together with a statement of his objections thereto signed by the Governor, delivered to me personally by Beach Vasey, Legislative Secretary to the Governor

ARTHUR A. OHNIMUS
Chief Clerk of the Assembly

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 27, 1949

To the Honorable Members of the Assembly
State of California, Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 578, entitled "An act to validate the organization, boundaries, governing officers or boards, acts, proceedings, elections, and bonds of public bodies, declaring the urgency of this act, to take effect immediately."

My objection to this bill is as follows:

This is a general validating act in the form frequently adopted by the Legislature in the past and approved by me It has a saving clause providing that it does not apply to pending litigation. In at least one instance in this State there has been recently concluded litigation involving the boundaries of two cities. Attorneys involved in this litigation have suggested that the litigation has been concluded and, therefore, is not saved by the clause of this bill. They have requested that this bill be vetoed and that other validating acts now in the process of being adopted by the Legislature be amended to broaden the saving clause to exclude from the operation of the validating act not only pending litigation but litigation which has been concluded as well. This situation has been discussed with the author of this bill and its veto is satisfactory with him. It will be possible for the Legislature to approve other validating acts which have already been introduced and which can be so worded as to remove any question as to the effect on litigation which has been concluded.

Respectfully submitted,

EARL WARREN, Governor

Receipt of Assembly Bill No. 578 Acknowledged

I acknowledge receipt this twenty-seventh day of May, at 11.57 o'clock a.m., of Assembly Bill No. 578, without the Governor's signature, together with a statement of his objections thereto signed by the Governor, delivered to me personally by Beach Vasey, Legislative Secretary to the Governor

ARTHUR A. OHNIMUS
Chief Clerk of the Assembly

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 26, 1949

To the Honorable Members of the Assembly
State of California, Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 1991, entitled: "An act to amend Section 526 of the Agricultural Code, relating to milk products plants"

My objection to this bill is as follows.

With one very minor exception this bill is identical with Senate Bill No 897, which I approved on May 23d and which is now Chapter 356. No useful purpose would be served by approving this bill as everything that would be accomplished by this bill has already been accomplished by the bill previously signed.

Respectfully submitted,

EARL WARREN, Governor

Receipt of Assembly Bill No. 1991 Acknowledged

PRAYER

Upon invitation of the Speaker, the following prayer was offered by the acting Chaplain, Rev. Wilder V. Immel of the First Methodist Church:

Let us Pray:

Our Heavenly Father, we pause for just a moment at this time to seek a blessing Each and every one of us needs guidance and inspiration to do and to be our best selves. To that end we seek to tune our hearts and minds.

We gather today from many fields of service where we have in these last few days spoken many things in loving memory of those who have gone before us in the service of their Country. Help us to remember that those brave souls required no loyalty oath to compel them to love their Country. Yea, many have so loved this dear land that they regretted only that they had but one life to give for it.

Dear Lord and Father of Mankind help us to so live in unselfish devotion to the best interests of our communities, our State, and our Nation that the greatest good may be done for the greatest number of people.

May Thy divine blessing rest upon these good men and women who are beset by constant and unrelenting pressures. Help them to simply be true to the highest and the best values they know, and grant to us who are humble taxpayers the grace to put ourselves in their places.

In the spirit of the Galilean, we pray.—AMEN.

ANNOUNCEMENTS

Speaker Sam L. Collins announced that he spoke with Mr. Fletcher this morning, by telephone, and that Mr. Fletcher is feeling much better, and is hopeful of soon returning to Sacramento.

Mr. Dickey made the announcement noted below:

Joint Rule 23 provides in part as follows:

"No Senate bill shall be passed by the Senate, and no Assembly bill shall be passed by the Assembly within 14 days prior to the adjournment sine die of the two houses of the Legislature at a general session * * * unless permission to vote on such bill shall be granted by three-fourths vote of the house of its origin after being recommended * * * or by the Speaker of the Assembly (if it be an Assembly bill)."

The Assembly File shows that the Committee on Public Health has set for hearing on June 14th, one bill, Assembly Bill No. 863.

It was my thought that it would be well at this time to set as a tentative date for adjournment Saturday, June 25th If June 25th be set as a tentative date for sine die adjournment, the last day to consider Assembly bills would be June 11th.

It would appear advisable to have the Assembly adopt a rule that no Assembly bill be set for hearing by an Assembly committee after June 9th, which with its second and third reading, would bring such bill to June 11th, 14 days prior to a contemplated sine die adjournment on June 25th

MOTION THAT SPEAKER BE EMPOWERED TO TERMINATE DEBATE

Mr. Heisinger moved that the Speaker be empowered to terminate debate upon speakers who have exceeded their time.

Mr. Grant seconded the motion.

Motion to Lay on Table

Mr Hollibaugh moved that the motion by Mr. Heisinger be laid upon the table.

Messrs. Evans and Burke seconded the motion.

SEC. 25. Article 4, comprised of Sections 2001 to 2004, inclusive, is added to Chapter 2, Part 3, Division 1 of the Revenue and Taxation Code, to read:

Article 4. *Adjustments for Allocations and Tax Rates*

2001. Upon completion of proceedings had under Article 1 of this chapter, the board shall certify to the Governor, not later than the first day of September following, its final determination of the relationship between the total value of land, improvements and tangible personal property as entered upon the local roll by each assessor and as thereafter equalized, and the market value thereof. The board shall also certify to the Governor its determination of the ratio between assessed and market value of all such property for the State as a whole.

2002. If the percentage of assessed to market value in any county, as certified by the board under Section 2001, differs from the state-wide average of assessed to market value, as likewise certified by the board, by more than ten (10) percent of that state-wide average, whenever any state department, board or agency allocates funds to the county or any district lying wholly or partly within the county upon the basis of the assessed valuation of property, the value of all land, improvements and tangible personal property entered upon the local roll of the county after equalization, shall be adjusted for purposes of such allocation to eliminate the difference between the county percentage and the state-wide average.

2003. In a district situated partly in one county and partly in one or more other counties, the adjustment for which provision is made in Section 2002 shall be made separately for each part of the district in a different county.

2004. In a district which is situated partly in one county and partly in one or more other counties and which utilizes the county rolls as the basis for district taxes, the rate or rates applicable to the assessments on those rolls shall be adjusted to equalize differences between the county percentages of assessed to market value as determined by the board to the end that the burden of district taxes shall be apportioned equitably with reference to the market value of the property taxed. This adjustment shall be accomplished by computing the total market value of the property subject to district taxes on the basis of the percentages thereof that the board has determined to be represented by the assessed valuation of such property in the several counties in which the district is situated and by apportioning the amount to be raised by district taxes to that part of the district in each county in the same ratio that the market value of the taxable property there bears to the market value of the taxable property in the entire district. Thereafter, district tax rates shall be fixed in the respective counties calculated to raise the amounts so apportioned when applied to the assessed values there.

2005. Whenever a maximum tax rate is established by law for a district, the rate shall be subject to adjustment upward or downward in the fiscal year in which an adjustment is made in the assessed valuation of the property in the district for the purpose of allocation of funds, pursuant to Section 2002, by that percentage that the adjustment in the assessed valuation bears to the assessed valuation prior to adjustment, to the end that the maximum rate, as applied to the assessed valuation, shall be productive of the same tax burden in terms of market value of the property taxed, as though the property in the district were assessed at the state-wide average."

SEC. 14. Section 74.7 is added to the Orange County Water District Act, to read:

Sec. 74.7. Until the board of directors shall have re-established the boundaries of the divisions as provided in Section 74.6 hereof, no forfeiture of office of any director shall occur by reason of the exclusion from said district of the lands so annexed to such metropolitan water district; provided, that when the boundaries of the divisions shall have been so re-established, as provided in said Section 74.6, any director who is not then a resident of this district and an owner of land within the re-established boundaries of the division theretofore represented by him shall forfeit his office, and the vacancy shall be filled as provided in Section 12 hereof.

SEC. 15. Section 74.8 is added to the Orange County Water District Act, to read:

Sec. 74.8. The statement of change of boundaries and map or plat filed pursuant to Section 3720 of the Political Code, or other applicable provision of law, for the purposes of assessment and taxation of property within the area so annexed to such metropolitan water district, shall constitute sufficient compliance with said Section 3720 of the Political Code, or other applicable provision of law, for the purpose of releasing the lands so excluded from Orange County Water District from assessment and taxation by said District

SEC. 16. Section 74.9 is added to the Orange County Water District Act, to read:

Sec. 74.9. Nothing in this act provided shall, in any manner, operate to release any of the lands so excluded from the district concurrently with the annexation of such lands to a metropolitan water district, from any obligation to pay, or any lien on such excluded lands of any assessment for the payment of, any valid bonds or other indebtedness of the district outstanding at the time of such exclusion of such lands, but upon the contrary, such lands shall be held subject to said lien and answerable and chargeable for and with the payment and discharge of all of said bonds and other indebtedness of the district outstanding at the time of such exclusion of such lands, as fully as though said exclusion had never been made; and for the purpose of discharging such outstanding indebtedness, the lands so excluded shall be deemed and considered as part of the district the same as though such lands had not been so excluded from the district; and all provisions which might have been resorted to to compel the payment by such lands of their quota or portion of said outstanding indebtedness, had said exclusion never been accomplished, may, notwithstanding said exclusion, be resorted to to compel and enforce the payment on the part of such lands of their quota and portion of said outstanding indebtedness of the district for which said excluded lands are liable, as herein provided. But the lands so excluded shall not be held answerable or chargeable for any obligation or indebtedness of any nature or kind whatever, incurred after the making of the order for publication of notice of intention to exclude said lands, as provided in Section 74.3 hereof if said lands be excluded, and such excluded lands shall not be subject to any lien of any assessment for the payment of any such obligation or indebtedness

SEC. 17. Section 74.10 is added to the Orange County Water District Act, to read:

Sec. 74.10. If there be outstanding bonds of the district at the time of the making of the order for the publication of the notice of intention as provided in Section 74.3 hereof, the holders of any such outstanding bonds may give their assent, in writing, to the effect that they severally consent that the lands when so annexed to such metropolitan water district may be excluded from this district, and if said lands be so excluded from his district, then, notwithstanding any other provision of this act, the lands so excluded shall be released from the lien of any such outstanding bonds, the holders of which shall have so assented to the exclusion of such lands from this district. The assent must be acknowledged by the several holders of said bonds in the same manner and form as is required in case of a conveyance of land, and the acknowledgment shall have the same force and effect as evidence as the acknowledgment of such conveyance. The assent shall be filed with the board, and must be recorded in the minutes of the board; and said minutes, or a copy thereof, certified

by the secretary of said board, shall be admissible in evidence, with the same effect as the said assent, and such certified copy thereof may be recorded in the office of the county recorder of the county wherein said lands are situated.

SEC. 18. This act is hereby declared to be an emergency measure necessary for the immediate preservation of the public peace, health, and safety within the meaning of Section 1, Article IV of the Constitution of the State of California and as such shall take effect immediately. The facts constituting such necessity are:

Because of the subnormal rainfall during the past few years together with an ever increasing population, Orange County is faced with a critical underground water shortage which, aggravated by the consequent intrusion of salt water in certain areas of the county, jeopardizes the agricultural industry and the health, safety and welfare of the residents of the county. The immediate replenishment of the underground water supply is imperative. The Orange County Water District proposes to alleviate this condition by purchasing and importing water. The areas to be excluded from the district by or pursuant to this act, however, obtain or will obtain all or substantially all of their water from other sources; consequently, it is just and equitable that they be relieved from the burden of contributing to the cost of replenishing the underground water supply. Therefore, in order to permit the Orange County Water District to take immediate steps to alleviate the critical water shortage in Orange County and to meet the cost thereof on a fair and equitable basis, it is necessary that this act take effect immediately."

Veto Message From Governor Relative to Assembly Bill No. 1501

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 27, 1949

To the Honorable Members of the Assembly
State of California, Sacramento, California

GREETINGS I am returning herewith, without my signature,

Assembly Bill No. 1501, entitled "An act to add Section 2144.5 to the Business and Professions Code, relating to persons and acts exempted from the State Medical Practice Act, Chapter 5 of Division 2 of the Business and Professions Code."

My objection to this bill is as follows:

The author and proponents of this measure state that they have no intention of excluding any of the healing arts from any activities in which they are now permitted to engage and that they do not believe that it would do so However, the Attorney General is of the opinion that the courts could reasonably hold that the laboratory technicians would be prevented from making skin punctures and vein punctures for chiropractors, of which there are some 5,500 in California. This exclusion of the chiropractors is not expressed in the bill and the Legislature could hardly have had that in mind from the wording used. The bill while excluding chiropractors at the same time includes drugless practitioners, midwives and chiropodists among those for whom laboratory technicians may make these punctures for the taking of blood for laboratory tests I believe that the avowed purpose of the bill is desirable in order to specifically define the duties of the laboratory technicians and if that were all the bill included I would cheerfully sign it I believe that the purpose of this bill can be accomplished through the medium of another bill without affecting the interests of any group.

Respectfully submitted,

EARL WARREN, Governor

Receipt of Assembly Bill No. 1501 Acknowledged

I acknowledge receipt this twenty-seventh day of May, at 11.57 o'clock a.m., of Assembly Bill No. 1501, without the Governor's signature, together with a statement of his objections thereto signed by the Governor, delivered to me personally by Beach Vasey, Legislative Secretary to the Governor.

Explanation of Vote on House Resolution No. 193

I voted "No" on this measure because I am opposed to the passing of resolutions by this House which concern matters on which we are not fully informed. PRAYER

The following prayer was offered by the Chaplain, Dr. Torrance Phelps:

O God of Consolation: In this memorial season we pray for those who mourn under the shadow of the Dark Angel, and who sigh for the sight of vanished faces.

May the Angel of Remembrance comfort them with the tender memories of the past, of happy days of youth, and home, of the joyful excursions and stirring events of the yester years.

Let them find consolation in bringing hope to those in worse trials than their own, and feel the glow of happiness that springs from giving comfort to the despairing.

May they cherish the hope that their absent, who have crossed the bourne of time, have entered into a better land where there is no more discord, and where they will grow in knowledge and the sunlight of youth forever.

When our own time comes to walk in the Garden of Gethsemane, let us have the wisdom, like the Great Master, to kneel beneath the olives, and turn to the Infinite Love whose consolation is ineffable.—AMEN.

RESOLUTIONS

The following resolution was offered:

By Mr. Morris:

House Resolution No. 224

Relating to public transportation facilities in highway construction

WHEREAS, The 1946 Report on "Engineering Facts" to the California Legislature following extensive investigation and public hearings by the "Joint Fact-Finding Committee On Highways, Streets and Bridges" (Collier Committee) recommended a network of freeways or expressways; and

WHEREAS, Said report recommended that design should take into consideration all elements of use including provision for mass transportation where necessary, off-street parking facilities and terminals for transit systems, and stated that modern urban freeway design incorporates separate lanes for bus loading and off-street bus terminals; and

WHEREAS, Said report stated "In the proposed State Expressway System design standards must be high enough to accommodate all types of vehicles that will constitute the traffic over the system * * *. It is essential that bus routes be determined before expressways are designed, because special provision must be made for the safety of bus passengers and the general traffic, with facilities for loading and unloading passengers outside the traffic lanes.", and stated that "Bus lines operating over expressways properly designed to handle such traffic will add materially to the State's highway transportation facilities and serve large numbers of people who rely on mass transportation."; and

WHEREAS, Increased highway user taxes have been imposed to construct expressways or freeways for the purposes of relief of traffic congestion and more rapid travel; and

WHEREAS, There is an ever increasing need for more rapid travel by public transit vehicles as well as by private automobile; and

WHEREAS, Present patrons of motor coach operations are contributing to the construction cost of freeways through the increased highway user and fuel taxes imposed for that purpose; and

WHEREAS, Many more persons would undoubtedly use this means of travel if adequate facilities for the handling of passengers by bus were included in freeways or expressways with resulting benefit to the public at large through reduced traffic congestion because of the far greater carrying capacity of the bus as compared to the private vehicle; now, therefore, be it

Resolved by the Assembly of the State of California, That the State Division of Highways be requested to give diligent attention to the incorporation in the design and construction of such expressways and freeways of those features which will insure to the public at large the fullest possible advantages from freeways by mass transit as well as by private vehicle, all in keeping with the above mentioned engineering recommendations; and be it further

Resolved, That the Chief Clerk of the Assembly be instructed to transmit a copy of this resolution to the State Highway Engineer.

Resolution read, and ordered referred to the Committee on Rules.

May we never forget that, in the hands of the ruthless, it can destroy the cities and half the population of America in a single hour.

May we see that we must now live in a state of perpetual fear or else organize the world on the principles of international law.

Let us behold the democratic peoples of the world uniting in friendship and mutual service to preserve the material and spiritual riches of civilization.

To survive in this atomic world, may the nations live together like the members of a peaceable family.—AMEN.

"SEC. 2. Section 786.3 is added to said code, to read:

786.3. No spiny lobster cooked for human consumption in this State shall be sold, exposed for sale, offered for sale, bartered, or traded unless cooked under the supervision of a representative of the commission for the purpose of determining that each such cooked spiny lobster was alive at the time of immersion into the cooking medium and is cooked for a period of at least eighteen minutes and unless the conditions of sanitation of the place of preparation are found by the State Board of Public Health or local health authorities to be in compliance with applicable provisions of Article 1, Chapter 7, Division 21 of the Health and Safety Code. Supervision shall be provided in such manner as the commission shall prescribe, and the cost thereof shall be paid by the owner of the lobster or the person requiring such service.

SEC. 3. Section 786.5 of said code is amended to read:

786.5. It is unlawful to sell, expose for sale, offer to sell, barter, trade, or have in possession any spiny lobster which has been cooked [or otherwise prepared] for human consumption outside of the State of California *in any area where the State Board of Public Health has, after investigation, found as a fact on evidence satisfactory to it and proclaimed that practices prevalent in the cooking of lobsters are such that the production of large numbers of improperly cooked lobsters cannot be avoided. For the purposes of this section, "improperly cooked lobsters" are those which were not alive when immersed in the cooking medium, which have not been cooked for a period of at least eighteen minutes, or which were cooked under sanitary conditions below the standards maintained in this State.* This section shall not apply to any canned lobster or

other shellfish prepared under the supervision of the Department of Agriculture or the corresponding department of any other state or nation.

SEC. 4. Chapter 8.5, comprising Sections 28460 and 28461, is added to Division 21 of the Health and Safety Code, to read:

CHAPTER 8.5. LOBSTERS

28460. As used in this chapter, "improperly cooked lobsters" means cooked lobsters which were not alive at the time of immersion into the cooking medium, which have not been cooked for a period of at least eighteen minutes, or which have been cooked under sanitary conditions below the standards maintained in this State.

28461. Whenever, as provided in Section 786.5 of the Fish and Game Code, the board has investigated and found as a fact on evidence satisfactory to it that practices prevalent in the cooking of lobsters in any area outside of this State are such that the production of large numbers of improperly cooked lobsters cannot be avoided, the board shall proclaim the fact by official order. Thereupon, the prohibitive provisions of Section 786.5 of the Fish and Game Code shall become effective as to lobsters cooked for human consumption in the area in which such state of facts has been found to exist.

SEC. 5. This Legislature recognizes that the value of cooked spiny lobster as a human food depends entirely on the manner in which it is processed or prepared. In the absence of strict compliance with well-recognized standards, lobsters not only become impure but present a serious menace to the health and lives of those who consume them. It is essential to the purity of the spiny lobster that it be taken alive and preserved in that condition until the precise moment of cooking, and it is necessary that sanitary conditions be maintained until the lobster reaches the consumer. Spiny lobster, being entirely inedible in an uncooked state, must be cooked for a period of time sufficient to insure preservation of the meat and complete destruction of poisonous matter. Upon any departure from these standards by those who undertake to supply cooked lobsters to the public, dire consequences are substantially certain to follow.

It is recognized further that the only practicable method by which the purity of cooked spiny lobster can be assured is by supervision of the process of preparation. Supervision must be such as to ascertain that each one of the foregoing precepts is observed in all particulars. Past experience has revealed that subsequent inspection is effective to apprehend only the most flagrant violations because, in the majority of cases, outward manifestations of impurity in improperly prepared lobsters do not appear until a considerable period has elapsed from the time of cooking.

Recognition is given to another characteristic of the spiny lobster that the density of the meat decreases as the time of cooking is increased. The inevitable result of this attribute is the perpetration of a fraud upon the consuming public whereby a higher price may be exacted for impure than for palatable lobsters.

In view of these facts, the Legislature of the State of California, in order to adequately protect the health and safety of the people of this State, to prevent the perpetration of fraud upon them, and to protect California's legitimate lobster industry from having responsibility for improperly cooked lobsters produced outside of this State imputed to it, hereby not only requires supervision of the cooking of lobsters in the State of California but directs that no spiny lobster cooked for human consumption in an area outside of this State in which the State Board of Public Health has found that practices prevalent in the cooking of lobsters are such that the production of large numbers of improperly cooked lobsters, as defined in this act, cannot be avoided shall be sold, exposed for sale, offered for sale, bartered, or traded in this State until such time as the conditions complained of are remedied to the satisfaction of the State Board of Public Health."

PRAYER

The following prayer was offered by the Chaplain, Dr. Torrance Phelps:

Infinite Light: In Thy world there is darkness as well as sunlight, and the shadows of sorrow, of undeserved suffering and of frustration of soaring hopes.

Darkness that comes from the conduct of heartless men; from their cruelty and rapacity, how often the innocent suffer

Darkness that springs from our unconscious ignorance of Thy cosmic laws, and often from disobedience to Nature's decrees.

But may we see behind all the shifting panorama of life a pattern slowly weaving, some with threads of silver and some with strands of gold, while often the darker colors are all the day unfolds

"But not 'til the loom is silent, and the shuttles cease to fly,
Shall Heaven reveal the pattern and show the reason why."

AMEN.

(b) That the corporation has had an income of at least $10,000, from tuition, subscription, or otherwise, for the three years next preceding the date of filing.

(c) That the corporation has students enrolled in each year of a four-year, or more, course at the date of filing.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There are music and fine arts schools in California which have been established for many years and which furnish courses of instruction of collegiate standard in music and fine arts subjects but are unable to confer degrees to their students. Since there are very few schools or colleges in the State offering a curriculum in music or in the fine arts and not all of these schools are authorized to confer degrees, it is a discrimination against those schools which have proven their stability and reputation to be denied the right to confer degrees to their students. The cultivation of the fine arts is an essential part of the structure of any civilization and the study of fine arts should be encouraged. The path of students, many of whom are veterans, who desire to enroll in established schools of fine arts should not be discouraged therefrom by the inability of schools offering a full curriculum with a distinguished faculty to confer degrees upon completion of the course.

As it is of vital public interest and necessity that recognized schools of music and fine arts further encourage education in such fields by being able to confer appropriate degrees upon the completion of the school year in June, it is necessary that this act take effect immediately."

Remarks by Mr. Dolwig Relative to House Resolution No. 227

It is an honor to give tribute to one of the great men of this Country.

A. P. Giannini symbolized the "Horatio Alger" tradition in its truest sense. In true pioneer spirit he worked hard and acquired meager worldly goods.

After the San Francisco fire, he started in the banking business. He performed a real service to a growing community which now is one of the great metropolitan centers of the world. From that modest beginning, he built one of the greatest empires in this Country.

He never lost the common touch despite his association with the great people of our time. His passing is mourned by the multitude of friends he has made throughout his long and colorful career.

PRAYER

The following prayer was offered by the Chaplain, Dr. Torrance Phelps:

God of Our Fathers: May we be glad this morning to pledge allegiance to this Republic in humble gratitude for all the blessings that America has given us.

Gladly vow our allegiance to these principles for which America stands among nations as the very paradise of earth, and to which the millions of other nations wish they might come.

Now we pray for those unwilling to pledge allegiance to this Republic, those to whom America gives their liberties and their very bread and butter; and yet who, with parasitic ingratitude, refuse to pledge their allegiance to this Republic that has mothered them.

In gratitude this morning may we proclaim unfaltering allegiance to this land that we love, this land hallowed by a heroic multitude, this land that has given us the most precious treasures of earth.

God grant that we may swear by the blood of the Founders that we shall forever keep America the land of the sane, and the home of the loyal.—AMEN.

STATEMENT BY MR. YORTY ORDERED PRINTED IN THE JOURNAL BY UNANIMOUS CONSENT

Pursuant to unanimous consent granted to Mr. Yorty on Friday, June 3, 1949 (see page 4042 of the Assembly Journal for said date), the following statement by Mr. Yorty was ordered printed in the Journal in 10-point type:

STATEMENT BY ASSEMBLYMAN SAM YORTY RELATIVE TO HIS VOTE ON THE TENNEY "LOYALTY" OATH BILLS

There is widespread interest in the Tenney bills introduced by Senator Jack B. Tenney, Chairman of the Senate Committee on Un-American Activities, for the purpose of attempting to expose and curb subversive activities Many persons have asked my opinion of the bills, due to the fact that I was the first chairman of the state legislative committee to combat subversive activities. Senator Tenney, then an Assemblyman, was originally appointed to the committee as a result of my suggestion to Speaker Gordon Garland. I wanted Mr. Tenney on the committee because at the time he was one of the active leaders in the American Federation of Labor who was already aware of the danger of penetration of the labor movement by the Communists.

Everyone, except the Communists and their sympathizers, is in favor of checking the influence of the Communist Party. The only question involved in the Tenney bills is whether or not they are proper vehicles by which to accomplish the purposes for which they have been proposed.

Let no one mistake the fact that in dealing with the Communist Party we are not dealing with ordinary American radicals or dissident groups. The Communist Party is international in scope, is directed from Moscow, and is engaged in a treasonable Russian-directed conspiracy against the people of the United States. The hard core of the Communist Party is this Country is made up of disciplined, well-trained spies and saboteurs. The theory of Communism, its merits or demerits, is irrelevant to the question of dealing with the Communist Party. The Communist Party is in fact a dictatorship of a ruling minority, which espouses theoretical Communism only as a propaganda tactic in its effort to extend its reactionary and stifling domination throughout the world.

No one should be fooled into believing that the Communist fight against efforts to curb them is based upon any appreciation of, or sympathy with, the Constitution of the United States simply because they attempt to invoke constitutional guarantees. The Communists believe in free speech, free press, and freedom of religion only for Communists and only as long as these rights are exercised in conformity with the Communist Party line. There are many rights under our laws which are extended only to persons who exercise them in good faith, and it ill becomes a foreign-directed conspiracy to attempt to use American constitutional liberties for the purpose of destroying them. This phase of Communist strategy merits further study. It is important that we be not misled into destroying the constitutional liberties of our people in an attempt to prevent the abuse of these liberties by the Communists.

The original state committee, which I headed, was created in 1939 for the purpose of investigating Communist infiltration into the California State Relief Administration. The committee proved conclusively that Communists were active in the State Relief Administration and the exposure lead to the dismissal of most of them. The Communists in the Relief Administration tried to hide behind a C. I. O. union, known as the State, County and Municipal Workers of America. They charged that the fight against them was really a fight against the union. Many C. I. O. unions in California joined in falsely condemning the committee as antilabor. It is very gratifying to note at this time the Reds, who then controlled so many C. I. O. unions, are now being driven out of the C. I. O., and the President of the C. I. O. himself recently bitterly denounced the Communist domination of the union to which the State Relief Administration employees belonged. The national C. I. O. itself has, therefore, now verified the charges made by the legislative committee which I headed, and has justified the action which we took. Incidentally, the woman who was Assistant Director of Relief in Los Angeles County at the time, and who vehemently denied her Communist affiliation, is now under arrest, awaiting a deportation hearing as a result of a charge brought by the Department of Immigration, which department has alleged that Alice Orans is in fact a Russian citizen and a Communist. She was one of the leaders of the so-called union, and was one of the most active opponents of the investigation by the legislative committee.

When we completed the job for which the legislative committee was appointed, we disbanded the committee. I did not return to the Legislature, and Senator Tenney, who had been vice chairman of the original committee, succeeded in having a new committee appointed for the purpose of further investigating subversive activities. Senator Tenney has headed this committee for almost ten years. He has worked very hard and faithfully, at this tiresome, nerve-wracking, and thankless job. It is obvious to me that he is completely exhausted, and that his constant scrutiny of Communist activities has resulted in distortion of his perspective, causing him to have an exaggerated opinion of the immediate threat of Communist success in the United States.

When the original committee was formed, the public was not aroused to the dangers of Communism. Ignorance of the nature and purposes of the Communist Party was widespread. Years of depression had made easy prey of many of our people, who were susceptible to the false promises of greater security, slyly made by the scheming Communist Party. Ill-informed reactionary groups were creating confusion, helpful to the Communists, by branding as Communists liberal-minded persons whose proposals these reactionaries disliked. Sweeping general charges by investigating committees, which smear loyal Americans, are to be condemned as not only a wrong against the citizens unjustifiably branded as Communists, but also because of the fact that when an innocent person is charged with being a Communist, the Communist Party is benefited by being better able to cover its real members. Procedures must be adopted by our investigating committees, which will guarantee protection to innocent persons, and limit the labelling of persons as Communists to the real members of the Communist Party conspiracy.

Since the original committee was formed, the fight against the foreign-directed Communist Party has entered an entirely different

phase. Today, the public is well aware of the antagonism of the Communists to our democratic form of government. A vitally important prosecution is taking place in New York, where the grand jury has charged leaders of the Communist Party with having engaged in a conspiracy to overthrow the Government of the United States by force and violence. This case is so important that the F.B.I. has, for the first time, uncovered some of its most secret operators who have posed as Communists for many years, and who have actively worked within the Communist Party. If the Communist leaders are convicted in New York, the real character of the Communist conspiracy will have been legally established, and a precedent for the prosecution of all active Communist conspirators will have been established. Federal grand juries are already delving into the various facets of Communist activity. Our police forces have been alerted to the need for scrutiny of Communist activity. What is more important, our two great Labor organizations are both actively and energetically fighting those Communists who have succeeded in infiltrating the Labor movement. The most effective opponents of the Communists are our liberal Labor leaders like Phil Murray, Walter Reuther, George Roberts, and John Despol, to name only a few.

If I were convinced that the Tenney bills were necessary to preserve our Democracy, and that they would effectively stop Communist activity without sacrificing the fundamental principles of our Constitution, I would vote for the bills, but I am not convinced that the bills are either necessary or wise. In fact, I am convinced that they are ill-advised, far too broad in scope, and that they propose a dangerous departure from democratic procedures.

The definition of Communism in the Tenney bills is much too sweeping It fails to maintain the distinction between Communism as a mere economic or political theory and our real enemy, which is the international Communist conspiracy. For instance, the definition of Communism in Senate Bills No. 129 and No. 297, describes Communism as a "totalitarian dictatorship in which the government holds title to all or substantially all raw materials and production and distribution facilities " The latter part of this definition actually defines Socialism and could easily be used as a weapon against American Socialists, who are certainly as loyal as any other group of Americans, irrespective of the unpopularity of their political program. I believe that the other parts of the definition would also prove difficult of application, and might be applied to innocent persons by anyone in authority whose ignorance of the subject lead him to become confused between loyal liberals or radicals, and Communist Party members. Certainly we do not want to destroy the constitutional guarantees of homespun American radicals, whose proposals which may have seemed radical during one era have sometimes proved acceptable during a later one

We must not forget that there was a time when public schools were considered very radical. The right to differ with constituted authority is one which every loyal American is bound to cherish and protect In order to eradicate traitorous Communist practices, we must not undermine the fundamental structure of our constitutional democracy. Such a price is far too high. We must rely upon and we are now employing methods in the New York trial which are consistent with the principles of Anglo-Saxon justice.

The affidavits proposed in the Tenney bills, which compel the affiant to disclose his affiliation with organizations considered subversive, might well create new Communists and permanently drive into the party temporarily misled dupes and fellow travelers, who might otherwise be saved. Many persons, particularly impetuous youthful ones, are apt at one time or another, to become identified with some legitimate-appearing Communist dominated "front" organization. In fact, the Communists strive to create "fronts" advocating worthy causes for the very purpose of ensnaring well-intentioned people, drawing them closer to sympathy, then partnership, and later membership in the Communist Party. Most of the well-intentioned persons who join such organizations eventually learn their true character and resign, wiser for the experience. Such persons join such organizations before becoming aware of the Communist influence in them. It seems probable that if such persons are once forced to sign an affidavit disclosing their affiliation with such organizations and thereby bringing their loyalty into question, they will have become a part of a suspected group, they will feel a kinship with other suspected persons, and this will render them more susceptible to Communist propaganda and tactics.

Young people should be given the opportunity to outgrow youthful ventures into questionable programs without being permanently branded as Communists. If our Educational System were fully effective, there would be fewer young people seeking security by listening to false prophets. We need to teach our young people a philosophy of life that makes life seem rational, meaningful, and a worthwhile experience. We must teach them to find security by development of inner strength, rather than by acquisition of material wealth, because security through materialism alone is part of the essence of Communism.

Communism teaches that man is a pathetic victim of material environment. The idealism on which Democracy is based teaches that man is endowed by his Creator with spiritual power and a consciousness capable of limitless unfoldment and development. In my judgment, we are failing to instill in our young people an appreciation of the real purpose of life. We are teaching them to dissect the material world down to the minutest electron, but we are not teaching them to understand their own inner selves and we are, therefore, leaving them wide open to the lure of materialistic Communist dogma.

In addition to their programs calculated to ensnare our youth, the Communists also have well thought out and directed programs calculated to entrap minority groups. In most cases, greater tolerance on the part of all of us would completely thwart Communist efforts In a nation which is composed largely of persons who profess to believe in the Christian religion, it is hard to understand how there can exist so many prejudices and discriminations based upon nothing more than the difference in the color of the pigment in the skin of some of our people. Such un-Christian prejudices are dramatized by the Communists. They pose as friends of these minority groups, whose liberties the Communists would destroy completely if they could obtain power. I would not like to see members of these minority groups permanently labelled Communists because of mistaken temporary affiliation with front organizations. Most of these people are unquestionably loyal Americans and will immediately resign

from any Communist dominated front organization once they really understand the role of the Communists in it.

There are other parts of the bills which I will not analyze in detail, but which I believe to be equally ill-advised. I feel that Communist teachers would not be curbed or frightened by the Tenney bill purportedly affecting them, but other teachers might be afraid to even teach the principles of theoretical Communism because of the fact that a few emotional young pupils might construe the analysis as being partial to Communism and, therefore, a crime under the Tenney proposal. Full, frank and open discussion of Communism should be encouraged because, as is pointed out in the government pamphlet *Gift of Freedom,* Communism as practiced in Russia cannot even hold a candle to American Democracy when the two are objectively compared.

Under proper circumstances, it is hard to understand how any American could object to taking a proper loyalty oath, and if the Tenney bills required nothing more than this they would not be objectionable to so many persons whose loyalty cannot be questioned. I was investigated by three security agencies before being admitted to the Army's highly secret Code and Cipher School. This was routine procedure. I certainly did not resent the investigations but rather appreciated the care that was being used to keep our codes and ciphers inviolate. The importance of the matter justified the investigation. Under similar conditions no loyal American would mind being investigated. Communists, however, always resent all investigations. Their opposition to the Tenney bills is in reality based upon their fear of exposure, and not upon the higher and more important fundamental premises which have caused loyal liberals and progressives to oppose the bills. Regardless of the desirability of exposing subversives, we must not burn down our house in order to destroy a few Communist rats which are infesting it.

The National C. I. O., which is fighting hard and effectively against the Communists, is also against the Tenney bills The National C. I. O. feels that the bills will help the Communists by giving them an excuse to form more fine-sounding "front" organizations and to collect large sums of money from persons who have bona fide objections to the bills. John A. Despol, Secretary-Treasurer of the California National C. I. O.-P. A. C., has sent all Members of the Legislature a critical analysis of the bills and has gone on record against them. Mrs. Despol, before her marriage, acted as my secretary when I headed the original Un-American Activities Committee. She was most helpful in the fight against Communists, and she and her husband have carried on the fight against them for many, many years. Their considered opposition to the Tenney bills commands attention.

It is my opinion that the Communists cannot become an important force in American politics without capturing control of one of our two large labor organizations. When I first commenced fighting the Communists, they dominated the C. I. O. in California. They reached their greatest strength when they were able to manipulate the California C. I. O. unions. Now that the C. I. O. itself is purging its ranks of the Communists, I believe that Communist strength is bound to rapidly wane. I believe that the F. B. I. and other law-enforcement agencies are capable of coping with the Communist Party. The sudden awakening of

many formerly apathetic persons to the international menace of Communism has caused them to become a little bit hysterical and to rush headlong into any program that looks like it might stop the Reds. I believe we should give the problem more study and that we should give our law-enforcement agencies a chance to do their work before resorting to measures like those proposed by Senator Tenney.

The free American Press is doing a splendid job of informing our people relative to Communist activities and at the same time keeping itself alert to the need to maintain our freedoms, including freedom of the press.

It is extremely distasteful to me to find myself in a position where I must oppose measures aimed at restricting Communist activities, but I feel the Tenney bills go far beyond the purpose for which they were intended and that further consideration of them should be postponed until more careful analysis can be made of the proper and sound avenues of activity which we can constitutionally employ to stop the nefarious and traitorous activities of the Russian-supported and directed Communist Party.

PRAYER

The following prayer was offered by the Chaplain, Dr. Torrance Phelps:

God of Liberty: Upon this day when the first resolution for the independence of the American colonies was introduced let us honor the colonists who had the audacity to defy tyranny, and let us reaffirm the right of freedom of expression.

Rejoice that in America we have liberty of thought and of speech without the danger of being persecuted, imprisoned, or shot.

May we behold again how fundamental to American character is the right of independence of belief, and how quickly the stamina of a people is tamed by the suppression of freedom of expression.

But heaven forbid that any one should think that he has any right by violence or stealth to undermine the foundation of freedom

Let us glorify that independent spirit glorified in Richard Henry Lee and Patrick Henry, and keep America forever the land of people with the courage of their righteous convictions—AMEN.

(Richard Henry Lee introduced this resolution, June 7, 1776, in the Continental Congress.)

"SECTION 1. Section 3466a of the Political Code is amended to read:

3466a. Sale or Lease of Unredeemed Land. After the lapse of one year from and after the expiration of the period of redemption of any land sold to the district, or county treasurer as trustee for the district, either pursuant to the provisions of Sections 3466, 3480 or Section 3480a of this code, the county treasurer of the main county, when and as directed by the board of trustees of the district, may in their discretion then sell the whole or any part of any tract of land remaining unsold to the highest bidder for cash at the front door of the courthouse of the main county of the district after giving previous notice of such sale, and the time and place of holding the same, by publication thereof in some newspaper published in the county in which the land to be sold or some portion thereof is situated for two times, to wit: once a week for two successive weeks. It shall be sufficient to describe said land in said notice by reference number as set forth in the assessment lists to which reference shall be made in said notice, and to the date and time of filing same, for further particulars. In the event of a sale of a part of any tract of land remaining unsold then the assessment or assessments thereon shall be reapportioned as provided in Sections 3454 and 3460 of the Political Code.

Conduct of Sale; Effect of Deed. The trustees of the district shall have the right to reject any and all bids and no bid shall be accepted for an amount less than such price as shall be approved by them. No parcel shall be sold for an amount less than the fair market value thereof as such value shall be ascertained by the board of trustees. One or more parcels of such land may be included in the same notice and sold severally at the time and place set forth in said notice. Upon such last mentioned sale being made as herein provided the said county treasurer shall execute a deed to the purchaser conveying the land sold, upon payment of the price bid, which deed shall have the effect of conveying title to the land sold to the purchaser free of encumbrance, except district assessments (including the unpaid balance of said assessment for the delinquency of which said property was sold) which upon the date of the sale herein provided had not been called, and except as may be otherwise provided by law, and such deed duly executed and acknowledged shall be prima facie evidence that all the proceedings for the levy and collection of the delinquent assessment for which said land was sold, and all of the proceedings for the sale of said land have been duly and regularly taken, and all notices required to be given or published have been so duly given and published for the time and manner as required by law.

Rights of District After Default; Leases. Where any land has been sold for a delinquent assessment, pursuant to the provisions of Sections 3466, 3480 or 3480a of the Political Code for a delinquent assessment or installment of the same and no redemption has been made and the time for redemption has expired, the district shall have the right to the possession of the land so sold and unredeemed and the board of

trustees shall have the right to bring and maintain any and all actions in equity or law in connection with said land and the protection of the district's rights therein to the same extent as any other owner, and the costs and expenses of such action or actions shall be a charge against the district. The board of trustees shall also have the right to expend funds of the district in such amounts that may from time to time be necessary for the purpose of retiring any and all liens against such land superior to the title of the county treasurer therein

The trustees of the district shall have the management and control of, and right to lease out to a tenant or tenants for such reasonable rental and upon such terms as such trustees may deem advisable, any and all lands in the district which have been sold to the county treasurer, as trustee, for delinquent assessments, where the time for redemption has expired and said lands remain unsold and to receive and collect the rental for the same

Out of said rentals the trustees shall annually pay to the county treasurer of the county in which the land is situated, in lieu of taxes, such sum of money as the county assessor shall determine annually on or before November 1st, as will equal the taxes that would have been assessed and levied for that year if the land were in private ownership.

Disposition of Rents All rents collected or moneys received by the trustees of the district from such lease of land or for the use or occupation of such land may be applied by them to the payment of the incidental expenses of holding and leasing said lands and to the payment of any other incidental expenses of, or legal charge against the district or for the purpose of purchasing any outstanding bonds of the district matured or unmatured together with the coupons thereunto appertaining at not more than the face value of such bonds plus the accrued interest thereon; which said bonds and/or coupons when so purchased shall be forthwith delivered to the county treasurer and canceled, and to the payment of any call of any maintenance assessment on any tract of land theretofore bought in by county treasurer as trustee of the district for a delinquent installment of any assessment theretofore levied on any such tract of land and then remaining unsold by said county treasurer; provided, however, that after the period of redemption has expired all rentals collected or moneys received from lease of land sold to the county treasurer as trustee of the district pursuant to the provisions of Section 3480 or 3480a of this code or for the use or occupation of such land, less the incidental expenses of leasing or holding the same and less the amount required to pay any called or delinquent installment of any maintenance assessment on any tract of land which has been theretofore bought in by the said county treasurer for the payment of any delinquent installment of any assessment theretofore levied on any such tract of land, and then remaining unsold by such county treasurer, shall, in the event said district shall be in default for the interest or principal payments on any of said bonds issued by said district, be deposited in said county treasury of the main county, to the credit of the bond fund of the district. An amount equal to the revenues derived from each tract by reason of the leasing, use or occupation thereof, less the incidental expenses of leasing and holding same, shall be credited by the county treasurer on the assessment lists against the delinquent charges on said tract.

Application of Section The provisions hereof shall apply to all lands heretofore sold for delinquency to a district or to the county treasurer, as trustee as well as to future sales under assessments whether heretofore, or hereafter to be, levied

SEC. 2. Section 3480 of said code is amended to read:

The present provisions of Assembly Bill No 1870 as amended April 8

SEC. 3 If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it will have passed this act, and each section, subsection, sentence, clause or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared unconstitutional."

"3466a. After the lapse of one year from and after the expiration of the period of redemption of any land sold to the district, or county treasurer as trustee for the district, either pursuant to the provisions of Sections 3466, 3480 or Section 3480a of this code, the county treasurer of the main county, when [and as] directed by the board of trustees of the district [as herein provided, may in their discretion then] *shall* sell the whole or any part of any tract of land remaining unsold to the highest bidder for cash at the front door of the courthouse of the main county of the district after

giving previous notice of such sale, and the time and place of holding the same, by publication thereof in some newspaper published in the county in which the land to be sold or some portion thereof is situated for two times, to wit: Once a week for two successive weeks. It shall be sufficient to describe said land in said notice by reference number as set forth in the assessment lists to which reference shall be made in said notice, and to the date and time of filing same, for further particulars. *One or more parcels of such land may be included in the same notice and sold severally at the time and place set forth in said notice.*

Such land shall be offered for sale within three years from and after the expiration period of redemption thereof, or within two years from and after the effective date of this amendment, whichever period is greater, in parcels of 160 acres or such lesser number of acres as the board of trustees may determine will be most desirable for purposes of assuring the sale thereof.

Prior to the sale of any parcel, the county treasurer of the main county shall cause its fair market value to be ascertained by means of an appraisal made by a board of appraisement consisting of:

(a) One member who is an officer or an authorized appraiser of a banking corporation formed under the laws of this State, or by the manager of a branch bank of such banking corporation, or an officer or cashier of a national banking association, having a place of business in the county in which the parcel or some portion thereof is situated. If there is no such banking corporation or national banking association having a place of business in the county in which the parcel or some portion thereof is situated, one member shall be an officer or an authorized appraiser, or the manager of a branch bank of such a banking corporation, or an officer or cashier of a national banking association, having a place of business in a county adjacent thereto

(b) One member who is an inheritance tax appraiser of the county in which the parcel is located.

(c) One member, a disinterested person, who is a licensed real estate broker, selected by the two other members of the board.

In the event that all of the members of the board of appraisement cannot agree as to the fair market value of the parcel, (a) if two of the members of the board agree as to the fair market value, the amount so agreed upon shall constitute the board's appraisal, or, (b) if no two members of the board agree as to the fair market value, then each member of the board shall make a separate appraisal and the average of the three appraisals shall constitute the board's appraisal

Each appraisal shall be verified by the members of the board of appraisement The verification shall state that the appraisal is made in good faith, and that the valuation is honestly determined and represents the bona fide opinion of the board If any member of the board of appraisement does not concur in the appraisal, the verification shall contain a statement as to the manner in which the board determined the appraised fair market value.

At the time of the sale of any parcel of such land, the county treasurer of the main county shall announce the fair market value of the parcel, as appraised, and shall not accept any bid therefor less than such fair market value.

In the event that any parcel of such land remains unsold for want of an acceptable bid, the county treasurer shall have the parcel reappraised and offer it for sale to the highest bidder for cash in the manner herein provided, at least once each year until the parcel is sold.

In the event of a sale of a part of any tract of land remaining unsold then the assessment or assessments thereon shall be reapportioned as provided in Sections 3454 and 3460 of the Political Code.

[The trustees of the district shall have the right to reject any and all bids and no bid shall be accepted for an amount less than such price as shall be approved by them No parcel shall be sold for an amount less than the fair market value thereof as such value shall be ascertained by the board of trustees. One or more parcels of such land may be included in the same notice and sold severally at the time and place set forth in said notice.] Upon such last mentioned sale being made as herein provided the said county treasurer shall execute a deed to the purchaser conveying the land sold, upon payment of the price bid, which deed shall have the effect of conveying title to the land sold to the purchaser free of encumbrance, except district assessments (including the unpaid balance of said assessment for the delinquency of which said property was sold) which upon the date of the sale herein provided had not been called, and except as may be otherwise provided by law, and such deed duly executed and acknowledged shall be prima facie evidence that all the proceedings for the levy and collection of the delinquent assessment for which said land was sold, and all of the proceedings for the sale of said land have been duly and regularly taken, and all notices required to be given or published have been so duly given and published for the time and manner as required by law.

Where any land has been sold for a delinquent assessment, pursuant to the provisions of Sections 3466, 3480 or 3480a of the Political Code for a delinquent assessment or installment of the same and no redemption has been made and the time for redemption has expired, *and until the sale thereof*, the district shall have the right to the possession of the land so sold and unredeemed and the board of trustees shall have the right to bring and maintain any and all actions in equity or law in connection with

said land and the protection of the district's rights therein to the same extent as any other owner; and the costs and expenses of such action or actions shall be a charge against the district. The board of trustees shall also have the right to expend funds of the district in such amounts that may from time to time be necessary for the purpose of retiring any and all liens against such land superior to the title of the county treasurer therein.

The trustees of the district shall have the management and control of, and the right to lease out to a tenant or tenants for such reasonable rental and upon such terms as such trustees may deem advisable, any and all lands in the district which have been sold to the county treasurer, as trustee, for delinquent assessments, where the time for redemption has expired and said lands remain unsold and to receive and collect the rental for the same.

All rentals collected or moneys received by the trustees of the district from such lease of land or for the use or occupation of such land may be applied by them to the payment of the incidental expenses of holding and leasing said lands and to the payment of any other incidental expenses of, or legal charge against the district or for the purpose of purchasing any outstanding bonds of the district matured or unmatured together with the coupons thereunto appertaining at not more than the face value of such bonds plus the accrued interest thereon; which said bonds and/or coupons when so purchased shall be forthwith delivered to the county treasurer an canceled, and to the payment of any call of any maintenance assessment or any tract of land theretofore brought in by county treasurer as trustee of the district for a delinquent installment of any assessment theretofore levied on any such tract of land and then remaining unsold by said county treasurer; provided, however, that after the period of redemption has expired all rentals collected or moneys received from lease of land sold to the county treasurer as trustee of the district pursuant to the provisions of Section 3480 or 3480a of this code or for the use or occupation of such land, less the incidental expenses of leasing or holding the same and less the amount required to pay any called or delinquent installment of any maintenance assessment on any tract of land which has been theretofore bought in by the said county treasurer for the payment of any delinquent installment of any assessment theretofore levied on any such tract of land, and then remaining unsold by such county treasurer, shall, in the event said district shall be in default for interest or principal payments on any of said bonds issued by said district, be deposited in said county treasury of the main county, to the credit of the bond fund of the district. An amount equal to the revenues derived from each tract by reason of the leasing, use or occupation thereof, less the incidental expenses of leasing and holding same, shall be credited by the county treasurer on the assessment lists against the delinquent charges on said tract.

The provisions hereof shall apply to all lands heretofore sold for delinquency to a district or to the county treasurer, as trustee as well as to future sales under assessments whether heretofore, or hereafter to be, levied."

VOTE NECESSARY FOR PASSAGE OF BUDGET BILL—No. 7199

DEAR MR. COLLINS: You have asked us to write you an opinion with reference to the vote necessary to pass the Budget Bill.

For all practical purposes, the Budget Bill must be passed by a two-thirds vote of all the members elected to each house of the Legislature. Unless it is passed by a two-thirds vote, all appropriations therein from the General Fund are void and ineffective except appropriations for the support of the Public School System. Only the appropriations from special funds would be effective.

The relevant provisions of our State Constitution on this subject are contained in Section 34a of Article IV of the Constitution. This section was added to the Constitution in 1933. As so added, it provided that appropriations from the General Fund for any biennium (exclusive of appropriations for support of the Public School System) shall not exceed by more than 5 percentum the appropriations from such fund for the preceding biennium unless two-thirds of all the members elected to each house of the Legislature vote in favor thereof. No amount in excess of such 5 percentum shall become part of the base for determining the maximum appropriation for a succeeding biennium.

The section further provided that the first bill passed (whether it be the Budget Bill or any other bill) by less than a two-thirds vote which exceeded the 5 percent limit should be reduced by the amount in excess of that limit *and all other subsequent appropriations from the General Fund not passed by such two-thirds vote shall be void.*

This section was amended in 1946 but only to put it on a fiscal year rather than a biennial basis in view of the provisions for annual sessions.

The "base" applicable to appropriations from the General Fund under this section is the total appropriated from the General Fund, other than for public schools, for the 1933-35 Biennium plus 5 percent accumulated for each two years thereafter until 1947. Since that time the base has been one-half the 1945-47 base plus 5 percentum. During the years immediately following the adoption of Section 34a of Article IV a number of continuing appropriations from the General Fund were enacted or amended to increase the total amount paid from the General Fund to such an extent that for a number of years these continuing appropriations alone exceeded the original base plus the 5 percent accumulated increases.

Because of this situation the appropriations from the General Fund for any fiscal year are in excess of the base when the Legislature convenes. Hence, any appropriation by the Legislature from the General Fund for other than public school purposes is void unless it is passed by a two-thirds vote. This is equally true whether the appropriation is in the Budget Bill or in a separate bill.

For the foregoing reasons, it is obvious that failure to pass the Budget Bill by a two-thirds vote is substantially the equivalent of failure to pass the bill at all, since the appropriations therein from the General Fund would be void and ineffective, and no funds would be available for expenditure for the operation of a major portion of the state agencies, institutions and prisons.

Very truly yours,

FRED B. WOOD, Legislative Counsel

APPROPRIATIONS FROM GENERAL FUND—No. 6967

DEAR MR. COLLINS: In connection with Section 34a of Article IV of the Constitution you ask to be advised as to the "base" amount in excess of which appropriations from the General Fund are required to be enacted by a two-thirds vote.

Section 34a was adopted by vote of the people on June 27, 1933, having been submitted pursuant to Senate Constitutional Amendment No. 30 as part of what is known as the Riley-Stewart Plan. It then provided that appropriations for the General Fund for any biennium (exclusive of appropriations for support of the Public School System) shall not exceed by more than 5 percentum the appropriations from such fund (exclusive of public school appropriations) for the preceding biennium unless two-thirds of all the members elected to each house of the Legislature vote in favor thereof. The section further provided that "no amount appropriated in excess of such 5 percentum shall become a part of the base for determining the maximum appropriation for a succeeding biennium."

This section was amended at the 1946 general election as part of the proposal for annual sessions This amendment, however, did not substantially affect the base, since it provided in substance that the base for the 1947-48 Fiscal Year shall be one-half the base in effect for the 1945-47 Biennium plus 5 percentum.

The base, therefore, is the total amount appropriated from the General Fund (other than for school purposes) for the 1933-35 Biennium plus 5 percent for each succeeding two-year period until the end of the 1945-47 Biennium. Thereafter the base is one-half of that for the 1945-47 Biennium plus 5 percent for each fiscal year. Appropriations in excess of the 5 percent increase are disregarded in determining the base.

For your further information we have heretofore been advised by state fiscal officers that the total amount of continuing appropriations

that have heretofore been made since the enactment of Section 34a of Article IV is in excess of the base permitted by that section. Hence as a practical matter all appropriation bills at any session from the General Fund require a two-thirds vote in order to be effective.

Very truly yours,

FAILURE TO ENACT BUDGET BILL—No. 6967

DEAR MR. COLLINS: You have asked us to advise you whether, if in a given year a Budget Bill is not enacted by the Legislature, the Budget Bill for the preceding year becomes the Budget Bill for the next or current fiscal year.

There is no provision made in the Constitution of this State for the automatic renewal of appropriations upon failure to enact a Budget Bill.

Section 22 of Article IV of our Constitution provides in part that no money shall be drawn from the Treasury but in consequence of appropriations made by law Failure to enact a Budget Bill in any year would mean that as of the succeeding first day of July no appropriations would be available for those state agencies that are supported from the General Fund and whose support appropriations are normally included in the Budget Bill These state agencies would, therefore, of necessity cease to function.

This situation would not be true, however, as to those agencies that are supported from special funds. Special funds in the State Treasury are generally continuously appropriated for the respective purposes for which these funds were created, which ordinarily includes support of the agency administering the particular activity. The inclusion in the Budget Bill of appropriations for the support of such agencies from special funds does not constitute making an appropriation but rather, in effect, imposes a limit upon the amount that may be spent by the particular agency from the special fund during the fiscal year. Failure to enact the Budget Bill or the omission of such items from the Budget Bill would not preclude such agencies from spending special funds, insofar as they have been heretofore appropriated for their support.

Very truly yours,

FRED B. WOOD, Legislative Counsel

House Resolution No. 236

Relating to removal of the Goodyear Synthetic Rubber Corporation plant from Torrance, California

WHEREAS, The Reconstruction Finance Corporation, generally known as the RFC, Office of Rubber Reserve, is the owner of the Goodyear Synthetic Rubber Corporation, now located in Torrance, California; and

WHEREAS, The Members of the Assembly of the State of California have been informed that the RFC is planning to shut down the Torrance plant and transfer all synthetic rubber operations to Texas; and

WHEREAS, The annual pay roll at the Torrance plant is in excess of $700,000, and the welfare and livelihood of thousands of workers and their families depend on the continued operation of the plant at Torrance; and

WHEREAS, The effects of any shutdown would be felt not only by the Torrance plant but also by its supplying companies, i.e., Standard Oil of El Segundo which furnishes butadiene, and Dow Chemical which supplies styrene; and

WHEREAS, Further loss of jobs would have disastrous consequences on the economic structure of the State because of the tremendous post-war population increase; and

WHEREAS, Consideration of national defense are consistent with the retention of the Torrance plant in its present location, since RFC already has three such plants operating in Texas, and the advantages of decentralization of production facilities are well known; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly requests that the RFC abandon any plans for moving the Torrance plant to Texas; and be it further

Resolved, That the Clerk of the Assembly be directed to send copies of this resolution to the Director of the RFC and to each Member of Congress from the State of California.

PRAYER

The following prayer was offered by the Chaplain, Dr. Torrance Phelps:

God of Our Fathers: Upon this day, when Abraham Lincoln was nominated, let us celebrate his immortal services.

Born in a log cabin, self taught by the light of a pine torch, showing that America is still the land of opportunity.

His faith in the ordinary man for self government, that the "Government is best which governs least" and that "Government should do for people only what they cannot do for themselves."

His scrupulous honesty, infinite patience with irritating people, his tender mercy and magnanimity, and his efforts ever to touch the mystic chords of affection

His aim to pluck a thorn and plant a rose, wherever he thought a rose would grow.

Above all, his faith in righteousness and justice as the safeguard of America, and "that those nations only are blessed whose God is the Lord"—AMEN.

Sec. 17.1. Charges According to Scheduled Balances; Refund. This section shall apply only to loan contracts payable in substantially equal and consecutive monthly installments, the first of which shall be due not less than fifteen days nor more than forty-five days from the date the loan is made. In lieu of computing charges and applying payments as provided in the second sentence of the third paragraph of Section 17, a licensee may pre-compute charges and apply payments as hereinafter provided. The total charges which would be earned if the contract were repaid exactly according to its terms, at the monthly rate or rates stated in the contract not exceeding the maximum provided in Section 17, may be pre-computed when the loan is made by applying each payment first to charges and then to principal. If the contract is pre-paid in full (by cash, renewal or refinancing) on or after the third installment date or more than fifteen days before final maturity, the portion of the pre-computed charges which applies to the period of the contract and principal balances scheduled to follow the installment date nearest the date of pre-payment in full shall be refunded or credited to the borrower. If pre-payment in full occurs before the third installment

date, or if on the installment date immediately preceding pre-payment in full the total amount which has been paid on the contract exceeds by more than three scheduled payments the total of the payments scheduled to be made by that date, the charges shall be re-computed and collected as provided in Section 17 and any excess shall be refunded or credited to the borrower.

The number and amount of installments required to pay the principal and pre-computed charges shall be stated in the contract and all payments received thereon may be applied to the aggregate amount contracted to be repaid. The statement to be given to the borrower as provided in Section 18 (a) (1) and the contract shall disclose in addition to other required information the principal amount of the loan exclusive of charges and the basis for computing the refund of pre-computed charges in case of pre-payment in full or acceleration of maturity. The delivery of a receipt for each payment showing the total amount of each payment shall be deemed to comply with Section 18 (a) (4)

If the maturity of the contract is accelerated for any reason, the licensee shall make the same refund or credit as would be required for pre-payment in full.

If the contract so provides, the licensee may re-compute and collect the charges, at the rate or rates agreed for due performance, on the basis provided in Section 17 in lieu of all charges under this section.

The penalty provisions of this act shall apply to any violation of this section."

"1187. Every original contractor, claiming the benefit of this chapter, within sixty days after the completion of his contract, and every person save the original contractor claiming the benefit of this chapter, at any time after he has ceased to perform labor or furnish material, or both, for any work or improvement mentioned in this chapter, and until 30 days after the completion of such work of improvement, as a whole, may file for record with the county recorder of the county or city and county in which such property or some part thereof is situated a claim of lien containing a statement of his demand after deducting all just credits and offsets, the name of the owner or reputed owner, if known, a general statement of the kind of work done or materials furnished by him, or both, the name of the person by whom he was employed or to whom he furnished the materials, and a description of the property sought to be

charged with the lien sufficient for identification; which claim of lien must be verified by oath of claimant or some other person.

In all cases, any of the following shall be deemed equivalent to a completion for all the purposes of this chapter: The occupation or use of a building, improvement or structure by the owner, or his representative, accompanied by cessation from labor thereon; or the acceptance by the owner, or said agent, of said building, improvement or structure, or cessation from labor for 30 days upon any contract or upon any *building, improvement or structure, or the alteration, addition to, or repair thereof*; the filing of the notice hereinafter provided for.

The owner shall within ten days after the completion of any contract or work of improvement provided for in this chapter, or within ten days after there has been a cessation from labor thereon for a period of 30 days, file for record in the office of the county recorder where the property is situated a notice setting forth the date when the same was completed, or on which cessation from labor occurred, together with his name, address and the nature of his title, and a description of the property sufficient for identification, together with the name of the original contractor, if any, for the work of improvement as a whole, or if the notice is given only of the work under a particular contract, then the name of the contractor under such contract, which notice shall be signed and verified by the owner or by some other person on his behalf The fee for recording the same shall be as provided in [Section 4300e of the Political] *Sections 27361 to 27382, inclusive, of the Government* Code for the recording of instruments, papers and notices required by law to be recorded.

The word "owner" as used in this section is hereby defined to mean the owner who caused the building, improvement, or structure to be constructed, altered, or repaired (or his successor in interest at the date a notice of completion or cessation from labor is filed for record) whether the interest or estate of such owner be in fee, as vendee under a contract of purchase, as lessee, or other interest or estate less than the fee, and where such interest or estate is held by several person as joint tenants or tenants in common, any one or more of the cotenants may be deemed to be the "owner" within the meaning of this section; provided, any notice of completion or cessation from labor signed by less than all of such co-owners recites the names and addresses of all of such co-owners

[Where the ownership of the property is in several persons, any one or more of the several owners may execute and file such notice but the notice must state the names, addresses, and nature of title of all of such owners.]

In case such notice be not so filed, then all persons claiming the benefit of this chapter, shall have 90 days after the completion of said work of improvement within which to file their claims or lien.

The phrase "work of improvement" and the word "improvement" as used in this chapter are each hereby defined to mean the entire structure or scheme of improvement as a whole; provided, that where a work of improvement as so defined consists in the construction of two or more separate residential units, each such separate residential unit, shall be considered a separate "work of improvement" or "improvement" [, and the time for filing claims of lien against each such residential unit as provided in this chapter shall commence to run upon the completion of each such residential unit]. A separate residential unit is defined as consisting of one residential structure together with *any* garage or other outbuildings appurtenant thereto. *Liens provided for in this chapter which are claimed for work done or materials furnished in connection with any such separate residential unit shall attach as of the time of actual commencement of work upon the site of such separate residential unit. The time for filing claims of lien against each such residential unit as provided in this chapter shall commence to run upon the completion of each such residential unit.* The provisions of this proviso shall not impair any rights conferred under the provisions of Sections 1184e, 1188, and 1191 of this code. Materials delivered to or upon any portion of said entire work of improvement or furnished to be used in said entire work of improvement and ultimately used or consumed in one of such separate residential units shall, for all the purposes of this chapter, be deemed to have been furnished to be used or consumed in the separate residential unit in which the same shall have been actually used or consumed: provided, however, that if the lien claimant is unable to segregate the amounts used on or consumed in such separate residential units he shall be entitled to all the benefits of Section 1188 of this code.

SEC. 2. Section 1191 of the Code of Civil Procedure is amended to read:

1191. *(a)* Any person who, at the *instance or* request of the owner *(or any other person acting by his authority or under him, as contractor or otherwise)* of any lot or tract of land, grades, fills in, or otherwise improves the same, or the street, highway, or sidewalk in front of or adjoining the same, *or constructs or installs sewers or other public utilities thereon*, or constructs any areas, or vaults, or cellars or rooms, under said sidewalks, or makes any improvements in connection therewith, has a lien upon said lot or tract of land for his work done and materials furnished; provided, that in cases where improvement or work done is subject to acceptance by any municipal board or officer, the time for filing claims of lien shall not commence to run until after such acceptance shall have been made.

Every contractor, subcontractor, architect, builder, or other person having charge of the construction, alteration, addition to, or repair, either in whole or in part, of

such improvement shall be held to be the agent of the owner for the purposes of this chapter.

(b) If the work of improvement of the character referred to in this section is provided for in a separate contract from any contract or agreement with respect to the erection of residential units or other structures upon said lot or tract of land, then the work of improvement of the character referred to in this section shall be deemed a separate work of improvement and the commencement thereof shall not constitute a commencement of the work of improvement consisting of the erection of any residential unit or other structure upon said lot or tract of land.

(c) The liens provided for in this section are preferred to (1) any mortgage, deed of trust, or other encumbrance which may have attached subsequent to the time when the work of improvement of the character referred to in this section in connection with which the lien claimant has done his work or furnished his materials was commenced; or to (2) any mortgage, deed of trust, or other encumbrance of which the lien claimant had no notice and which was unrecorded at the time when such work of improvement was commenced; or to (3) any mortgage, deed of trust, or other encumbrance recorded before the commencement of such work of improvement which was given for the sole or primary purpose of financing such work of improvement unless the loan proceeds are, in good faith, placed in the control of the lender under a binding agreement with the borrower to the effect that such proceeds are to be applied to the payment of claims for labor performed or materials used or consumed in such work of improvement and that no portion of such proceeds will be paid to the borrower in the absence of satisfactory evidence that all claims for such labor or materials have been paid or that the time for filing claims of lien arising out of such work of improvement has expired and no such claims have been filed; provided, however, that in the event the owner of the land or the holder of any mortgage, deed of trust, or other encumbrance thereon shall procure or cause to be procured, a bond with good and sufficient sureties which shall be conditioned for the payment in full of the claims of all persons performing labor upon or furnishing materials to be used in, or furnishing appliances, teams or power contributing to such work of improvement, and shall cause to be incorporated in said bond a provision by its express terms making it inure to the benefit of any and all persons who perform labor upon, or furnish materials to be used in, or furnish appliances, teams or power contributing to such work of improvement, so as to give such persons a right to recover upon said bond in any suit brought to foreclose the liens provided for in this chapter, or in a separate suit brought on said bond, then such mortgage, deed of trust, or other encumbrance shall be prior and paramount to the liens provided for in this section arising out of such work of improvement, irrespective of whether or not such mortgage, deed of trust, or other encumbrance, attached before or after the time when the work of improvement commenced, and irrespective of the nature or provisions for payment of the consideration of such mortgage, deed of trust or encumbrance. Such bond given under this section must, in order to comply with its requirements, be either (1) a statutory labor and materials bond, complying with all of the provisions of Section 1183 of this code, save and except that said last mentioned bond may instead of being filed with the original contract, before the work of improvement is commenced, in the office of the county recorder of the county where the property is situated, be filed in such office at any time before such work of improvement has been completed, or such bond may be (2) a bond with good and sufficient sureties in an amount not less than fifty (50) percent of the face principal amount of such mortgage, deed of trust, or other encumbrance, and shall be given for the sole benefit of persons performing labor upon, or furnishing materials to be used in, or furnishing appliances, teams or power contributing to the work of improvement to which said bond refers, upon which last mentioned bond either the contractor or the owner may be principal, and which last mentioned bond shall be filed, in order to comply with the requirements of this section, before the work of improvement to which said bond refers is completed No change or alteration, or modification in the work or scheme of improvement referred to in said bond nor in the plans, specifications, or agreements pertaining to the work of improvement, or agreements pertaining to the furnishing of labor or materials therein, or change in the terms of payment or extension of time thereof, nor rescission of said bond, nor conditions precedent, nor conditions subsequent contained therein, attempting to limit the right of recovery under said bond shall release or exonerate any surety or sureties on said bond If the bond for the benefit of laborers, subcontractors and materialmen, and others coming within the protection of Section 1183 of this code given under any of the provisions of this chapter, be a bond on which the surety is a corporate surety, licensed to do a surety business in the State of California, then such a bond otherwise complying with the provisions of this chapter shall be conclusively presumed to be a good and sufficient bond within the meaning of this chapter."

REQUEST FOR UNANIMOUS CONSENT THAT OPINION OF LEGISLATIVE COUNSEL BE PRINTED IN JOURNAL

Mr. Beck asked for, and was granted, unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal in 10-point type:

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO 2, CALIFORNIA, June 7, 1949

Honorable Julian Beck
Assembly Chamber

PROCEDURE ON PASSAGE OF BUDGET BILL—No. 7588

DEAR MR. BECK: You have asked us whether the Budget Bill would be legally enacted and all of its appropriations completely effective under the following circumstances:

Suppose that the Budget Bill is passed by the Assembly at this time by a vote of less than two-thirds of the elected members The bill is then sent to the Senate, where it is amended, passed by a two-thirds vote, and returned to the Assembly for concurrence in the amendments. The Assembly thereupon concurs in the Senate amendments by an affirmative recorded vote of two-thirds of its membership.

It is our opinion that under such circumstances, the Budget Bill would have been passed by a two-thirds vote of each house of the Legislature and that all of its appropriation provisions would be fully effective insofar as such a vote is necessary to make them so.

We had occasion to consider this question in 1939 (1939 Assembly Journal for April 21, p. 1418) and again in 1945 (1945 Assembly Journal for May 19, p. 3184). Our opinion is still the same as indicated in those opinions. The conclusions expressed therein find further support in the fact that such a procedure was followed in the course of enactment of the Budget Bill at the 1945 Session (A. B. No. 500) and no question was subsequently raised as to the effectiveness of that measure.

The problem arises by reason of the provisions of Section 34a of Article IV of the Constitution which section provides that under the circumstances specified therein appropriations from the General Fund are either reduced or are void unless passed by a two-thirds vote of both houses of the Legislature. *While it is true as a practical matter that the Budget Bill must ultimately be passed by a two-thirds vote of both houses since the appropriations therein from the General Fund are essential to the continued functioning of the State Government, nevertheless a failure to obtain such a vote in the Assembly when the bill is initially up for passage does not constitute a refusal to pass the bill since the measure as so passed would be effective at least as to appropriations from special funds Hence, if the bill receives at least a majority vote, it may properly be transmitted to the Senate for action by that house.*

If the Budget Bill is then amended by the Senate, passed by that house by a two-thirds vote and returned to the Assembly for concurrence in the Senate amendments, it is our opinion that the vote in the Assembly on such concurrence is the vote on final passage by that body. If upon

such vote the amendments are concurred in by two-thirds of the Members of the Assembly, it is our opinion that the measure has then been passed by both houses by the required two-thirds vote.

Very truly yours,

FRED B. WOOD, Legislative Counsel
By LAWRENCE G. ALLYN, Deputy

The following communication was received, read, and ordered printed in the Journal:

THE AMERICAN LEGION, DEPARTMENT OF CALIFORNIA
OFFICE OF CAMP DIRECTOR, CALIFORNIA BOYS' STATE
400 COLOMA WAY, SACRAMENTO, CALIFORNIA, June 6, 1949

Mr. Arthur A. Ohnimus,
Chief Clerk of the Assembly
State Capitol, Sacramento, California

DEAR MR. OHNIMUS: For the past several years the Assembly Chamber has been made available to the boys attending the annual session of California Boys' State, which is sponsored by the American Legion, Department of California.

As camp director for this program this year I would like to request that we be permitted to use the Assembly Chamber for the annual Inauguration Ceremonies of Boys' State, Thursday, June 23d.

You are aware, I am sure, that this trip to the Capitol and the ceremonies in the Assembly Chamber are really the heart of our Boys' State session. Through the kindness of the Members of the Assembly in granting us this privilege, the boys have come to look upon this as the real highlight of the session. The basic principle of our Boys' State program is good citizenship and an appreciation of our governmental structure, and in order for the boys to enjoy this real contact, I sincerely trust that we may again be permitted to use the Assembly.

We anticipate an attendance this year of 730 boys.

Thanking you for your cooperation, I remain,

Yours very truly,

CARLISLE CRAMER, Camp Director

"1197.5. No employer shall pay any female in his employ at wage rates less than the rates paid to male employees in the same establishment for the same quantity and quality of the same classification of work; provided, that nothing herein shall prohibit a variation of rates of pay based upon a difference in seniority, length of service, ability, education, experience, training, skill, difference in duties or services performed, whether regularly or occasionally, or in the shift or time of day worked, or in availability for other operations normally performed in the business of the employer or other reasonable differentiation, factor or factors other than sex.

A variation in rates of pay as between the sexes is not prohibited where the variation is provided by contract between the employer and the recognized bargaining agent of the employees.

Differences in time, hours of work, interruptions of work for rest periods or restrictions or prohibitions on lifting or moving of objects in excess of a specified weight, when in good faith based on such differences, whether or not required by any statute or regulation or order of any board or commission, whether federal, state or local, authorized to issue the same shall justify a difference in the rate of pay for male and female employees engaged in the same classification of work.

Any action based upon or arising under this section shall be instituted within six months after the date of the alleged violation, but in no event shall any employer be liable for any pay due under this section for more than thirty days prior to receipt by the employer of written notice of claim thereof from the employee.

REQUEST FOR UNANIMOUS CONSENT THAT OPINION OF LEGISLATIVE COUNSEL BE PRINTED IN JOURNAL

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO 2, CALIFORNIA, June 7, 1949

Honorable Samuel W. Yorty
Assembly Chamber

PROCEDURE UPON CONSIDERATION OF BILLS REQUIRING MORE THAN MAJORITY VOTE—No. 7544

DEAR MR. YORTY: You ask what procedure should be followed with respect to an Assembly bill that has been reported to the Senate as having been passed by the Assembly where such bill received only a majority vote and the Constitution requires passage by a two-thirds vote. As an example you cite the possibility of this occurring in connection with a bill to increase the number of superior court judges in a county and the provision of Section 9 of Article VI requiring that such a bill be passed by a two-thirds vote. You state it has been suggested that it is unnecessary to recall such a bill from the Senate for further consideration in view of what is known as the "Enrolled Bill Rule."

It is our opinion that when a bill which requires a two-thirds vote for enactment is reported to the Senate as having been passed by the Assembly, although it did not receive the required vote, it should be recalled from the Senate for further consideration. This same procedure should be followed in the case of any other bill as to which constitutional requirements applicable to its enactment are not complied with.

What is known as the Enrolled Bill Rule was originally set forth by the Supreme Court of this State in *Sherman* vs. *Story*, 30 Cal. 253 and in *County of Yolo* vs. *Colgan*, 132 Cal. 265. The rule was reaffirmed in *Taylor* vs. *Cole*, 201 Cal. 327, and is in substance that an act of the Legislature properly enrolled and authenticated, conclusively establishes not only the contents of the law but the due performance of all steps requisite to its passage by the Legislature.

The essence of the rule is that the courts of this State accept as conclusive the authentication of due passage of a bill as indicated by the signatures of the proper officers of the two houses and that the court will not look to the Journals to confirm or refute the propriety of such authentication.

The effect of the rule is to place upon the Legislature and the officers of the houses the responsibility of determining whether legislative bills have been passed in compliance with constitutional requirements and to charge those officers with the duty of certifying as passed only those bills which have been enacted in accordance with the requirements of the Constitution.

It is true that under this rule, if a bill is duly enrolled and chaptered the courts will refuse to consider any question as to whether the bill was properly passed. However, we find nothing in any of the cases that indicates in any way that the rule is intended to permit wilful

deviations by the Legislature from specific constitutional requirements regarding passage of bills or that it relaxes the obligation of a legislative officer to refuse to authenticate a bill as duly passed if he knows that such is not the fact.

Very truly yours,

FRED B. WOOD, Legislative Counsel
By LAWRENCE G. ALLYN, Deputy

CONSIDERATION OF HOUSE RESOLUTION NO. 236

By Mr. Thomas:

House Resolution No. 236

Relating to removal of the Goodyear Synthetic Rubber Corporation plant from Torrance, California

WHEREAS, The Reconstruction Finance Corporation, generally known as the RFC, Office of Rubber Reserve, is the owner of the Goodyear Synthetic Rubber Corporation, now located in Torrance, California, and

WHEREAS, The Members of the Assembly of the State of California have been informed that the RFC is planning to shut down the Torrance plant and transfer all synthetic rubber operations to Texas; and

WHEREAS, The annual pay roll at the Torrance plant is in excess of $700,000, and the welfare and livelihood of thousands of workers and their families depend on the continued operation of the plant at Torrance; and

WHEREAS, The effects of any shutdown would be felt not only by the Torrance plant but also by its supplying companies, i.e., Standard Oil of El Segundo which furnishes butadiene, and Dow Chemical which supplies styrene; and

WHEREAS, Further loss of jobs would have disastrous consequences on the economic structure of the State because of the tremendous postwar population increase, and

WHEREAS, Considerations of national defense are consistent with the retention of the Torrance plant in its present location, since RFC already has three such plants operating in Texas, and the advantages of decentralization of production facilities are well known; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly requests that the RFC abandon any plans for moving the Torrance plant to Texas; and be it further

Resolved, That the Clerk of the Assembly be directed to send copies of this resolution to the Director of the RFC and to each Member of Congress from the State of California.

Resolution read, and adopted unanimously.

God of Lights: Upon this day when Benjamin Franklin drew lightning from the skies with a kite, let us look with awe upon the celestial forces which surround us, and pulse from pole to pole.

Let us hear again the voice which came out of the clouds at the dawn of Creation, "Let there be Light."

Let us honor the scientists whose inventions have turned night into day, sent our voices around the earth, healed human ills with invisible light, and created the countless marvels of the Electrical Age.

Let us revere the memory of all inventors, who have starved in garrets and died unknown because of a blind public, and let us encourage the inventive genius which will add to the comfort and culture of the world.

Above all, may scientific progress equal growth in character and devotion to human welfare, so the Wizardry of Science will not destroy, but advance the betterment of mankind.—AMEN.
