MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 6, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith without my signature Assembly Bill No. 2332, entitled. "An act to add Article 4, comprising Sections 11610 to 11613, inclusive, to Chapter 1, Part 3, Division 2, of the Insurance Code, relating to contracts of insurance against hazards incident to ownership, maintenance, operation and use of motor vehicles."

My objections to this bill are as follows:

This bill provides in part that "An admitted insurer, insurance agent, or broker shall not fix, make, or procure any rate or schedule of rates nor charge a rate for any contract of insurance against hazards incident to ownership, maintenance, operation or use of motor vehicles in this State to any group of persons by reason of such group being engaged in any business, trade, calling, profession or occupation, or by reason of membership in any society, club or association or by reason of common employment or by reason of common occupancy of the same building or group of buildings or for any other reason which would result in a lower cost to an individual in such group than such individual would have had to pay to that insurer if he were not a member of such group." Under such provisions it will no longer be possible for a group of persons to secure automobile insurance on their respective automobiles at the lower rates which are offered to large individual owners or such groups. To be specific, this bill would prevent a group of farmers, contractors, employees, professional men, or a group of any occupational class, or members of any cooperative association from obtaining insurance available to them on what is known as the "fictitious fleet basis".

The State does not prohibit life, health, or accident group insurance. There would seem to be no reason why automobile insurance should be singled out as a type of insurance which can not be written on a group basis. In that respect there is no logical support for a distinction between it and any other type of insurance. If we go outside the field of insurance we find that many persons, including farmers, trade associations, employee associations, and countless others, have associated together to secure the benefits of group buying. I can see no logical reason for singling out automobile insurance as the one thing which may not be purchased at low rates or prices, by groups of people. Some of the proponents of this bill, in communications to me, have stated that the writing of insurance at low rates, to a group covering a large number of cars individually owned by members of the group, will result in higher costs to persons who are not members of such groups, and will result in discrimination against the general public. Exactly the same

argument is applicable to the granting of a low rate of insurance to a single individual or company which owns a large number of cars.

If it is desirable by legislation to regulate the rates which may be charged for insurance and to prohibit a higher or lower rate, such legislation should operate equally upon all persons whether included in a classification of a "legitimate" or a "fictitious" group. A substantial number of insurance salesmen support this bill on the ground that it is needed to prevent a narrowing of the field of their endeavors to sell automobile insurance. But the field is open for them without this bill to organize occupational groups for group or "fictitious" fleet insurance, and thus serve to increase the scope of low cost insurance. Public policy should encourage and extend the opportunities for low cost insurance until all persons may be given the benefit thereof instead of limiting those opportunities to a favored class as this bill would do.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

J. A BEEK Secretary of the Senate
By JOHN F LEA, Assistant Secretary

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, April 22, 1941

To the Honorable Members of the Senate
State Capitol, Sacramento, California

GREETINGS: I am returning herewith, without my signature, Senate Bill No 339, entitled "An act to amend Section 4 of the Bank and Corporation Franchise Tax Act, relating to corporations exempt from tax." This bill exempts so-called "diversified management companies" from all taxes under the Bank and Corporation Franchise Tax Act, just as its companion bill, Senate Bill No. 338, exempts such companies from all tax under the Corporation Income Tax Act of 1937.

My objections to this bill are as follows:

It has the effect of singling out a group of privately owned corporations operating for profit and granting them exemptions heretofore accorded only to eleemosynary and like corporations, and which have never been accorded even to mutual nonprofit cooperative corporations.

The scope of the permissible profit making activities of diversified management companies can be readily obtained from the statement of policies required to be filed as a condition of registering under Section 8 of the Federal Investment Company Act of 1940. Under that act, each registering company must file a recital of policy concerning (among other things) (1) "engaging in the business of underwriting securities issued by other persons," (2) "the purchase and sale of real estate and other commodities, or either of them;" (3) "making loans to other persons," and (4) "portfolio turn-over (including a statement showing the aggregate dollar amount of purchases and sales of portfolio securities, other than Government securities, in each of the last three full fiscal years . .)".

It is clear to me that sound tax and fiscal policy demands that companies which can, and do, underwrite securities, and which can, and do, engage in the activity of buying and selling securities and property for speculative profit in competition with other underwriters and speculators, should not be accorded exemption from a State tax which all other profit corporations must pay.

Further, I note from the Federal Investment Company Act of 1940, that diversified management companies are required to have a degree of diversification in their portfolio of investments, but that there is no requirement of diversification in the stock ownership of such companies. That is, there is no assurance that the stock ownership of such companies will be spread over many small stockholders (one of the arguments in favor of the present bill) and there is the possibility that the effective ownership of such companies may be concentrated in the hands of a few persons or corporations. Therefore, a blanket tax exemption of diversified management companies would defeat the announced purpose of its proponents, which was to exempt only such companies, the shares of which are widely held by many small investors.

I am aware of the argument made by the proponents of this bill, that tax exemption is necessary to prevent a so-called triple tax on the small investor; that is, where income is taxed once to the corporation earning it, again to the diversified management company which receives a dividend from the first company, and again to the small investor, who owns stock in the diversified management company on the receipt of the dividend from the diversified management company. On close analysis this argument fails for the following reasons

(a) There is no certainty that the stockholder of the diversified management company will be a "small" investor;

(b) Section 8 (h) of the California Bank and Corporation Franchise Tax Act, and Section 7 (h) of the California Corporation Income Tax Act, already permit a corporation which receives a dividend to deduct from income a percentage of the dividend income taxed to the declaror corporation under either act This fact eliminates one incidence of the so-called "triple tax" as far as taxation by this State is concerned

(c) The income of diversified management companies is not limited to dividend income, but can and does, arise from the speculative purchase and sale of securities and property, interest, etc

In conclusion, I am also impressed by the fact that the United States Congress despite the fact that it enacted the Federal Investment Company Act of 1940, regulating investment companies) has not deemed it proper to exempt from Federal taxation the complement of investment companies which would be exempt from State taxation by this bill and its companion, Senate Bill No. 338.

Respectfully submitted.

COMMUNICATIONS

The following communication was received, and on motion of Mr. Maloney, ordered printed in the Journal.

The City of San Francisco With Its Bay and Adjacent Territory Is the Geographical Center of the Pacific Coast and Is of the Highest Strategic Importance to Any Adequate Defense of This Country

EXTENSION OF REMARKS OF HON RICHARD J. WELCH OF CALIFORNIA IN THE HOUSE OF REPRESENTATIVES

Thursday, March 27, 1941

Mr. WELCH. Mr. Speaker, the strategic importance of the City of San Francisco, its bay, and the adjacent territory to any adequate defense of the entire Pacific Coast is beyond verbal description. San Francisco is the outlet for that vast empire embracing the San Joaquin and Sacramento Valleys, each of which is traversed its length by different large navigable rivers emptying into San Francisco Bay, and the Livermore, Napa, Sonoma, and Santa Clara Valleys, all rich and profitable land. The immeasurable importance of this empire to National defense is only limited by the adequacy of transportation facilities available.

San Francisco Bay is not only the geographical center of the Pacific Coast, but it is the most important and finest harbor for Naval and Military purposes on the entire western seaboard. This important fact has been referred to on many occasions by the highest-ranking officials of both the Army and the Navy. Admiral Charles F. Hughes, while Chief of Naval Operations, testified before a committee of Congress that:

> San Francisco Bay is, as you know, the principal harbor of the Pacific Coast. To my mind it belongs to the Nation; it is not the property of California nor of the cities that are on its shores. From its natural advantages and its location, San Francisco Bay is certain to be the major continental fleet base for any extensive campaign in the Pacific. It will be the point where the fleet will concentrate at the beginning of a war.

Within this vast area—the spearhead of Pacific Coast National defense—are many of the principal Military establishments on the Pacific Coast. Within the City of San Francisco are the Presidio Military Reservation, Fort Winfield Scott, Fort Mason, the Army transport docks, United States Risdon Naval Plant, and the United States Naval Drydocks at Hunters Point. Outside of San Francisco proper, but within the bay area, are the Mare Island Navy Yard, the Oakland Naval Air Base, one of the largest in the world, the Oakland Naval Supply Base, the United States Army Moffett Air Field, Fort Barry, Fort Baker, and the United States Bombardment Base. Every single one of these Military and Naval establishments is essential to National defense, but from the lessons of modern warfare we now know their weakest link is inadequate highways. When the completed story of the battle of France is finally written it will show the battle was lost and won mostly on the highways.

The Federal Government, of necessity, is spending billions for proper National defense. In this program careful consideration must be given to strategic National-defense highways and to bridges which are an integral part of those highways. Particularly is this true in the case of San Francisco, with all of its Military and Naval activities.

San Francisco, one of our great seaport cities, has a population of approximately three-fourths of a million people. Thousands of men are now engaged in building Naval and merchant ships in private shipyards for the United States Government. The city itself is built on the tip of a peninsula, with an area of approximately 40 square miles, one of the smallest areas of any large city in the country. This geographic location enhances its strategic importance, but there is but one approach from the easterly or continental side of San Francisco Bay—by way of the San Francisco-Oakland Bay Bridge, which is nine miles long and 200 feet high. San Francisco Bay is 70 miles long, with an average width of some eight miles. The only other approaches are by two roads entering the city from the south on the San Francisco Peninsula and the Golden Gate Bridge at the extreme north. Thus the transportation of all materials and supplies over highways is restricted, and for purely Military purposes in this Defense Program the Government must provide another approach. This matter has been favorably considered by Military authorities already.

Several years ago the War Department approved a low-level bridge at Hunters Point connecting San Francisco with Alameda County on the east side of San Francisco Bay. Hunters Point extends well out into the bay; is 5½ miles south of the San Francisco-Oakland Bay Bridge and 11½ miles north of the next bridge to the south, the San Mateo Bridge. It is directly opposite Bay Farm Island, Alameda County, which is slightly south of the Oakland Naval Air Base and the Oakland Municipal Airport. This provides an ideal location for another approach to San Francisco for the distance is only 5¾ miles from Hunters Point to the opposite shore and two-thirds of this distance is shallow water where a road could be built up by the same process as was used for the Oakland Naval Air Base and for Treasure Island where the recent Golden Gate Exposition was held. They were reclaimed by the use of centrifugal pumps at a nominal cost. Following the type of construction used in the approaches to the San Francisco-Oakland Bridge and the San Mateo Bridge, the remainder of the road could readily be constructed on concrete piling.

A further defense requisite for adequate highways would be to provide such a bridge for the evacuation of San Francisco should that ever be necessary. In such an emergency the Golden Gate Bridge might by reason of its exposed location be of limited value and a single shell could put the 200-foot high-level San Francisco-Oakland Bridge out of commission for an indefinite period. Thus without an additional approach, there are but two roads available—the ferry systems having been long since abandoned—and these are heavily congested even under ordinary conditions.

I was Harbor Master of the Port of San Francisco at the time of the great catastrophe in 1906 when five square miles in the heart of the city was reduced to ashes. The scene of its evacuation even at that early date beggars description. Picture another evacuation caused by shell fire from the air into a city principally of wooden construction, and the conditions will be beyond description.

The need for such a low-level bridge as an integral part of the defense program for the Pacific Coast, has long since been established. It would make possible the extension of all transcontinental freight lines directly into San Francisco and the important Military establishments to which I have referred. Lessons from the European War emphasize that need more certainly. National defense is predicated on the preservation of the Government and the lives and property of its citizens. The War Department approved the project years ago, and such a bridge should be immediately constructed extending from Hunters Point to the continental side of the bay, not only for the Military and Naval value it will be, but the great value it would be should such an emergency as necessary evacuation ever arise.

By Mr. Thorp:

House Resolution No. 259

Be it resolved, That the Investigating Committee on Live Stock and Dairies, created by House Resolution No 45 of this session, is hereby authorized to meet and *act after final adjournment of this, the Fifty-fourth Session of the Legislature*, and until the convening of the Fifty-fifth Session of the Legislature, and to study and report upon the problems of milk production and distribution and swine diseases and to submit its recommendations for legislative action in connection therewith to the Fifty-fifth Session of the Legislature; and be it further

Resolved, That the funds heretofore made available to the committee pursuant to House Resolutions numbered 45 and 144, shall continue to be available for expenses of the committee and its members, and for any charges, expenses or claims it may incur in connection with any study authorized by this resolution, to be disbursed as provided by House Resolutions numbered 45 and 144

Resolution read and adopted.

By Mr. Hugh M. Burns:

House Resolution No. 260

Relative to the inadequate transportation facilities between Sacramento and points south

WHEREAS, The biennial problem of moving the State Capital from the City of Sacramento to some less charming but more accessible spot is due in large part to

the antiquated and grossly inadequate transportation facilities between Sacramento and the San Joaquin Valley and Southern California; and

WHEREAS, Neither railroads, bus lines nor airplane lines have shown any particular inclination to improve that transportation service, but on the contrary continue to use equipment more appropriate for junk yards or for use in motion pictures depicting scenes in the Gay Nineties; and

WHEREAS, Under present conditions a reasonably diligent hitchhiker can leave Sacramento and arrive in Southern California hours ahead of any existing commercial transportation service; now, therefore, be it

Resolved by the Assembly of the State of California, That the Chamber of Commerce of the City of Sacramento is hereby urged to rouse itself to a point of considering this problem and endeavoring to secure a substantial improvement in the transportation facilities between the City of Sacramento and points in the San Joaquin Valley and Southern California; and be it further

Resolved, That a copy of this resolution be transmitted by the Chief Clerk to the President and Secretary of the Sacramento Chamber of Commerce

Resolution read, and referred to Committee on Rules.

By Mr. Crowley:

House Resolution No. 261

Directing an investigation and report relative to a bridge on Route 99 wherein that highway crosses Cache Slough, Solano County, California

WHEREAS, The agricultural interests of this area are inadequately being served by a ferry; and

WHEREAS, Said ferry is incapable of operation during seasons of floods, high water and high winds, which occur at the height of the asparagus harvesting season; and

WHEREAS, The construction of the proposed bridge would shorten the haul to the produce centers of Stockton and San Francisco some 27 miles, the annual savings to the farmers from this area estimated on the ton mile would be approximately seventy-five thousand dollars ($75,000); now, therefore, be it

Resolved by the Assembly of the State of California, That the California Highway Commission is hereby authorized and directed to make a study and survey for the construction of a suitable bridge over Cache Slough, Solano County, California, wherein Route 99 crosses said slough; and be it further

Resolved, That the Director of Public Works shall prepare a report of the study, and survey on or before January 1, 1942.

Request for Unanimous Consent

Mr. Crowley asked for, and was granted, unanimous consent to take up House Resolution No. 261, at this time, without reference to committee.

Resolution read and adopted unanimously.

By Mr. Meehan:

House Resolution No. 262

Relative to the regulation of "dilatory tactics"

WHEREAS, The cool Sacramento summer weather and the high rates of pay of Legislators make it desirable that the Legislature remain in session during the whole of June, July, August, and most of September; and

WHEREAS, This Assembly as one of the houses of the Legislature is proceeding to transact its business with too rapid dispatch; and

WHEREAS, Only by the use of "dilatory tactics" will the Legislature, and both houses thereof, be able to remain in Sacramento until the middle of September, now, therefore, be it

Resolved by the Assembly of the State of California, That all business transacted in this House without the use of "dilatory tactics" is out of order; and be it further

Resolved, That "dilatory tactics" consists of putting any matter to a vote without at least three hours debate and five calls of the House, and be it further

Resolved, That the Chief Clerk of the Assembly deliver to each member guilty of not engaging in "dilatory tactics" a suitably prepared copy of the Assembly Journal containing this resolution.

Resolution read, and referred to Committee on Rules.

By Mr. Cassidy:

House Resolution No. 263

WHEREAS, Frank Killam, the Chief of the Bureau of State Buildings and Grounds, by virtue of Section 716 of the Political Code, has the powers of a peace officer in all parts of the State; and

WHEREAS, By virtue of being a peace officer he is the proud possessor of a police whistle; and

WHEREAS, In pursuit of his customary and official duties he has little occasion to blow said whistle, much as he might desire so to do; and

WHEREAS, Said Frank Killam is by nature and inclination a baseball fan of the deepest dye and purest ray serene; and

WHEREAS, In pursuit of his avocation as a baseball fan he is occasionally overwhelmed by his suppressed desire to toot said whistle and does so vigorously, violently and vociferously; and

WHEREAS, It is reported that the City of Oakland has granted him special permission to blow said whistle to his heart's content when Sacramento plays Oakland on Oakland's home grounds; and

By Mr. Heisinger:

House Resolution No. 264

Relating to the creation of an Assembly Committee on State Highways, County Highways, and on City Streets

WHEREAS, The maintenance of the State, and the county highways and the city streets of California approximates a cost to the taxpayers of one hundred million dollars ($100,000,000) annually; and

WHEREAS, Within this State, and adjacent to the rural county highways of California, there is produced over four hundred million dollars ($400,000,000) of agricultural products annually; and

WHEREAS, The greater percentage of these products are conveyed over the county highways, State highways and city streets to market; and

WHEREAS, Nearly all processed and manufactured products purchased by the farmers are transported in reverse over the same arteries of travel; and

WHEREAS, It is apparent that a complete motor vehicle highway system must embrace the county highways and city streets as well as the State highways; and

WHEREAS, Some county supervisors complain that certain of their county highways carry extra heavy motor traffic of a Nation-wide and State-wide nature, the wear and tear of which entails undue maintenance costs; and

WHEREAS, The governing boards of some of the larger cities claim that many of their streets are more in the nature of State highways than local streets, the motor traffic on which streets causes such heavy maintenance upkeep as to bring about very high taxes upon the local property owners; and

WHEREAS, The State laws provide that all State highways and State highway bonds are financed from motor vehicle funds, but county highways, city streets, county highway bonds and city street bonds are largely financed from taxes upon local property; and

WHEREAS, Many taxpayers believe that the maintenance of county highways, city streets, county highway bonds and city street bonds should be financed by motor vehicle funds; and

WHEREAS, The Legislature has no definite knowledge of all these matters; and

WHEREAS, The Legislature should be in possession of factual and authentic information and data pertaining to all such and kindred matters; and

WHEREAS, It is the duty of the Legislature to enact laws that are just and equitable to the local taxpayers as well as to State taxpayers; now, therefore, be it

Resolved by the Assembly of the State of California, That a Committee on State and County Highways and City Streets is hereby created to study and survey, accurately and in detail, all matters hereinbefore referred to, and to report its recommendations to the Legislature not later than March 15, 1943.

The committee hereby created shall consist of two Members of the Assembly appointed by the Speaker of the Assembly. The Speaker of the Assembly also may serve on the committee and may sign any report made by the committee

The committee hereby created is authorized to act either during sessions of the Legislature or after final adjournment, but except as otherwise provided herein, not beyond the convening of the Fifty-fifth Legislature. The committee hereby created shall have all powers conferred upon investigating committees by the Joint Rules and the Rules of the Assembly as they are now or may hereafter be amended, and may exercise such powers after final adjournment.

The Sergeant-at-Arms of the Assembly, or other officers designated by him, is hereby directed to serve any and all subpenas, orders and other process issued by the committee, when directed so to do by the chairman or by a majority of the membership of the committee.

The members of the committee shall serve without compensation but shall be allowed mileage at the rate of five and one-half cents ($0.05½) per mile each way incurred in connection with their services upon the committee and other actual and necessary expenses for living accommodations and meals incurred in connection with their services upon the committee, or in lieu of such expenses for accommodations and meals an allowance of eight dollars ($8) per day

The sum of one thousand five hundred dollars ($1,500) or so much thereof as may be necessary is hereby made available from the Contingent Fund of the Assembly for the expenses of the committee and its members and for any charges, expenses or claims it may incur under this resolution, to be paid and disbursed, after certification by the chairman of the committee, upon warrants drawn by the State Controller upon the State Treasurer.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 9, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Assembly Bill No. 560 entitled:

> "An act to amend Sections 2, 7, 11, 12, 13, 15, 41, 44.2, 45, 45.9, 45.10, 52.2, 53, 54, 55, 56, 57, 57.5, 61, 66, 75, 91, 92 and 94, to amend and renumber Section 70, and to repeal Sections 47, 48, 49, 50, 51, 58, 67, 68, 69, 71 and 72 of, and to add Sections 7.1, 7.2, 23.1, 28, 67, 68, 69, 70, 71 and 73 to, the Unemployment Insurance Act, relating to a System of Unemployment Insurance."

My objections to this bill are generally that instead of improving the present law, it would cause recession from progress made and obstruct the further development of the California Unemployment Compensation Program in carrying out the general social policy of our law and the Federal Social Security Act. It would jeopardize or interrupt administrative grants from the Federal Government and work injury both to employers and employees directly concerned in its equitable application and administration. Both from a social standpoint and from the standpoint of the general taxpayer who bears the burden of unemployment relief, this is not a good bill.

It would modify the benefit rights of the working people of this State under the existing law in a manner so drastically restrictive and unjust as to defeat to a measurable degree the primary purposes of our unemployment insurance legislation; it would make wholly inadequate provision for protecting the benefit rights of workers inducted into Military Service; it would needlessly encumber administration of the act with detailed, rigid, procedural provisions which would be costly and burdensome to claimants, employers and the department; and it does not conform to the mandatory requirements of the reciprocal Federal legislation administered by the Social Security Board.

It is obvious that the provisions of this bill are designed to deny benefits through harsh disqualifications to many deserving unemployed workers who themselves have contributed to the fund and for whom unemployment insurance was clearly intended, and by that means to accomplish an avoidance or reduction of contribution requirements. Nowhere in the bill can be found any provision liberalizing the present law or extending its scope to the thousands of working people now excluded from its beneficent protection On the contrary, the bill provides for new exclusions from coverage, reduces benefits to partially employed persons, imposes severe and unjust penalties and disqualifications.

Many of the provisions of the bill, urged as reformations of alleged abuses of the law, actually are designed to deny millions of dollars in unemployment benefits payable under the present law to honest working people during periods when they are unable to find employment, notwithstanding the fact that their earnings have contributed to the Unemployment Insurance Fund. Of this character are the disqualification provisions proposed in Section 20 of the bill, which would have a far-reaching effect in reducing benefit payments. The Social Security Board, in a letter from Oscar M. Powell, Executive Director of the board, has stated that: "These provisions are the most severe that have ever been brought to the attention of the Bureau of Employment Security and seem to be incompatible with unemployment compensation principles. Under these provisions claimants would be disqualified without sufficient cause; second, unusually severe penalties would be imposed as 'disqualifications' and, third, these penalties would operate arbitrarily with little relation to the circumstances leading to the individual's disqualification."

Typical examples, illustrative of the harsh and unjust consequences which would be visited upon thousands of claimants were these provisions adopted, are easily discerned. Many employees, who have been honest laborers over many years of service and who have contributed to the Unemployment Fund, must occasionally surrender their jobs for compelling personal reasons, such as serious illness in their families. Others may quit one job to take another which they consider better or of longer duration. In either of these cases, the individual having returned to work may later suffer unemployment due to a plant shut-down, shortage of materials, loss of business, etc. In all such cases the individual would not be able to draw any unemployment insurance until at least 15 months after he left his employment, notwithstanding his willingness and ability to work. In none of these cases can the individual's unemployment be ascribed to his "fault," nor can he be regarded as a malingerer on the fund.

The act should provide for a reasonable deferment of benefits to prevent malingering, but disqualifications of this severity would be an injustice to tens of thousands of honest working people who become unemployed although able and willing to work.

This bill's amendment of Section 57(a) would also disqualify thousands of working people whose unemployment is caused by the existence of a trade dispute but who are innocent bystanders, in no way connected with the dispute. It would also deny unemployment insurance to workers in search of steady employment who in good faith decline to accept an offer of temporary work to avoid losing an opportunity for permanent employment.

A new section, set forth in Section 32 of the bill, purports to provide protection for individuals who enlist or are inducted into the armed services But in reality this provision does not afford protection for many inducted into Military Service. The provision contains restrictions and discriminations which would have the effect of limiting the protection to a fraction of those who are rightfully entitled to it Under the definition of "military worker" set forth in this provision, only those individuals who were engaged in covered "employment" at the time of induction will have their benefit rights preserved, and individuals who may have been unemployed at the time of induction or who may have been working in "uncovered work" are not so protected. Further, the provision that: "Within 60 days after the effective date of this section, or within 60 days after the commencement of such Military Service, whichever is the later date, a worker may serve upon the commission a notice to the effect that he desires to be classified as a military worker," clearly means that only if this notice is given are the worker's benefit rights computed and preserved for him. Undoubtedly many, if not most, of these workers would fail to give this notice because of lack of knowledge of the necessity therefor, and would consequently lose the benefit of the protection which the section purports to offer to them. Furthermore, the Department of Employment advises me that this notice is wholly unnecessary.

The men who have enlisted or have been inducted into the military service under the draft laws make sacrifices which entitle them to a just measure of protection in their accrued rights under the unemployment compensation law, through provisions which are not hedged by unreasonable restrictions which would result in their defeating those rights An amendment should be made to our law as will fully preserve to those who have been called to military service all rights which they possessed at the time of their induction upon the basis of their past earnings and contributions to the Unemployment Fund. I earnestly recommend to the Legislature the enactment at this session of such amendment.

Certain of the proposed amendments set forth in the bill will conflict with mandatory requirements of the Federal Social Security Act and Internal Revenue Code, thus jeopardizing Federal grants of funds to finance the administration of the State Unemployment Compensation Law, involving a loss to employers of this State of their normal and additional tax credit offset rights under the Federal Unemployment Tax Act, and a disorganization of the employment service. Upon the passage of this bill, I requested the Federal Social Security Board for an authoritative statement, with particular reference to the conformity of the provisions of the bill with the requirements and the social purposes of the Federal legislation. The Social Security Board has answered this request in a letter, dated June 3, 1941, and a telegram, dated June 4, 1941, copies of which answers are attached hereto for your information.

As stated by the Federal Social Security Board, "Sections 67, 68, and 69, as proposed in Sections 27 through 29 of the bill, are undesirable from the standpoint of policy, administrative feasibility, and cost. It seems inadvisable to incorporate minute administrative procedure in the statute since the resulting inflexibility may create difficulty. The procedures provided appear not only unduly burdensome to the claimant and to the agency, but it is questionable whether certain of the provisions are necessary for the proper and efficient administration of the unemployment compensation law."

Quoting further from the letter of the Executive Director of the Social Security Board: "Section 61(a) proposed in Section 22 of the bill would permit reduced contribution rates as long as the amount in the State fund exceeded one and one-half times the amount of benefits paid in the preceding calendar year. Such a provision is not considered adequate to protect the solvency of the fund.

"Also, Section 61(a), if amended as proposed, would leave the suspension of reduced contribution rates to the discretion of the commission. The responsibility for establishing a minimum standard to protect the solvency of the fund should be assumed by the Legislature and should not be delegated by it as a discretionary power to any administrative body. A decline in the fund will in all probability be accompanied by a decline in business activity. The pressure upon any administrative officers to withhold exercise of such discretionary power, which would be brought by the interests affected in the matter, would make the sound exercise of such a discretion exceedingly difficult."

Unless an adequate reserve is made a condition precedent to reduction in contribution rates, the only means of protecting the fund is through the suspension of benefits under Section 61 of the present law, which is carried forward as Section 61(a) in this bill. Provision should be made that reductions in contribution rates shall be suspended whenever the fund falls below an adequate reserve, so that the solvency of the fund can be protected without suspending the payment of benefits. Such a suspension of benefits, made necessary because reduced contribution rates are continued after the fund falls below an adequate reserve, would result in a perversion of the primary purpose of the law, which is to pay benefits and stabilize purchasing power during the periods of unemployment.

An adequate reserve is essential to the future of the Unemployment Insurance Program, and the Legislature should provide therefor. Some months ago the California Employment Commission recommended to the Assembly the reserve they considered necessary to safeguard the funds, as follows. Reduced contribution rates be revoked when the fund is less than two times the amount of benefits paid during the preceding calendar year, or two times the total amount of contributions collected during the preceding calendar year, whichever is the greater. The Bureau of Employment Security has recommended reduced contribution rates shall be effective only if the amount in the fund meets two tests, namely, (1) it equals or exceeds eight (8) per cent of the average total annual pay roll for the preceding three years; and (2) it equals or exceeds twice the highest amount of benefits paid during any one of the six preceding calendar years. It appears to me that either one of the two recommendations made would constitute the minimum adequate safeguard of the fund. Provisions adopting either one of these suggested standards could be properly made a part of Assembly Bill No. 1177, which is a bill intended to eliminate ambiguities in the merit rating provisions of the existing law. In this connection, the Legislature should give consideration to the inevitable burden of benefit payments which the fund will sustain when the peak of the defense emergency has passed. I strongly recommend one of the foregoing statutory minimum tests in the interests of adequate protection for the workers in defense production and to prevent a dangerous reduction in the fund below level necessary to meet the known future emergency arising when the defense program has passed its peak.

The inevitable result of a short-sighted policy with respect to adequate reserves will lead to the discontinuance of benefit payments which will adversely affect not only the welfare of unemployed workers but also the merchants and business organizations with whom they trade. Any suspension of benefit payments will increase the cost of relief, which in turn will place a heavier burden on the general taxpayer.

Section 5 of the bill eliminates tips and gratuities from the definition of "wages." The present act provides that tips and gratuities be included as wages and that the

reasonable amount of tips and gratuities may be estimated in accordance with rules prescribed by the commission. A worker who reports tips to his employer and pays contributions thereon is able to draw unemployment insurance upon such tips. This amendment would make it impossible for workers desirous of reporting tips as wages to do so, and thereby deny them an opportunity to earn sufficient wages to qualify for unemployment insurance benefits.

Section 6 of the bill provides a rigid definition of the term "week." This amendment will place an undue hardship on many employers who are required under the Minimum Standards for the administration of Partial Unemployment Benefits of the Social Security Board, effective June 1, 1941, to initiate claims and verify earnings of partially unemployed workers. If the present flexible definition of the term "week" is retained, such employers may utilize carbon copies of existing pay rolls to verify the earnings of partially unemployed workers. Otherwise, many employers will be required to accrue wages to conform to the defined "week" of the statute rather than use a carbon copy of the check drawn in favor of the worker to satisfy the requirements of the Board's Minimum Standards.

Section 44.2(c), added by Section 11 of the bill, provides that "Services performed by an individual while registered for full attendance at and regularly attending an established school, college or university, and the services during customary vacation periods by an individual who intends to return or go to or enroll at any such school, college or university as a student for the next regular term, are not subject to tax under Section 44 and no worker shall be entitled to benefits based upon wages earned by such services." The effect of this amendment would be to exclude approximately 105,000 students from the potential benefits of the act, of which number it is estimated approximately 50,000 are working full or part time. It would exclude individuals attending any school, including persons enrolled in trade schools and night schools, from the protection of unemployment insurance. Further, it would create a large group of noncovered workers whom employers, particularly those engaged in seasonal industries, may find advantageous to utilize in lieu of their present workers because (1) no benefits could be paid to this group of workers, and, therefore, no charges made against the employer's account; (2) by utilizing students during the school vacation, the amount of work available to covered workers might be sufficiently reduced in a large number of cases that the workers would no longer be able to earn sufficient wages to qualify for benefits.

Section 12 of the bill would reduce the interest rate on delinquent contributions from 1 per cent per month to one-half of 1 per cent per month or a fraction thereof. It is not believed desirable to reduce the interest rate on delinquent contributions for the following reasons: Other important tax statutes, such as the Bank and Corporation Franchise Act and the Personal Income Tax Act, provide a 1 per cent per month interest rate on delinquent payments. Even with a 1 per cent interest rate on delinquent payments, the Department of Employment has approximately 4,500 delinquent accounts each quarter. If the interest rate were reduced, it is estimated that the number of delinquent accounts would be considerably increased.

Section 19 of the bill eliminates the $3.00 wage credit now granted partially employed workers. Under the present law, the first $3.00 of weekly earnings of partially employed workers are not deducted from their benefits. This credit is allowed to encourage workers to seek casual or odd job work pending reemployment at full time. Forty-three States provide for a partial earnings credit. There is no justification for California taking a backward step with respect to the granting of partial earnings credit.

Section 19.5 of the bill provides that "Only an individual who is unemployed through no fault of his own shall be eligible to receive benefits as provided in this act, and such benefits shall be paid with respect to any week in which he is so unemployed only if—(a) he has filed a claim for benefits with respect to such week during the next succeeding week; * * *" This provision is objectionable for several reasons: (1) It provides a rigid procedure not adaptable to meet changing conditions, (2) It does not enable the department to comply with the mandatory requirements of the Social Security Board with respect to their minimum standards for the payment of partial benefits, (3) It will deny an individual the right to draw benefits for which he is qualified simply because he is unable to claim such benefits during the succeeding week because he obtained full-time employment in that week; (4) Regulations of the commission under the present act require an individual to certify each week except when good cause is shown. Experience has shown that there are many situations justifying the waiver of this requirement for good cause. With reference to this provision of the bill, the Executive Director of the Social Security Board says: "Section 56(a) and (b) and Section 67(b) and (c) of the California unemployment compensation law, if amended as proposed in Sections 19.5 and 27 of Assembly Bill No. 560, would not meet the standards established by the Social Security Board under Section 303(a) (1) of the Social Security Act respecting the payment of benefits for partial unemployment. For example, the proposed amendment would appear to prevent the State agency from permitting the retroactive filing of claims for partial benefits for the four preceding weeks as is required by the Board Standards."

By amendments to Section 56(c) this bill provides that an unemployed individual shall be eligible for benefits only if "During all of such week he is able to work and was available for work, and for the purposes of this requirement, no worker shall be deemed able to work unless he was both physically and mentally capable of performing any work of substantially the same kind or nature in so far as physical or mental requirements are concerned, as work performed by such an individual during a period or periods totaling one month or more out of the 12 months immediately preceding the week with respect to which he is applying for benefits." This provision would require an individual, no longer qualified to perform his usual work for physical or mental reasons, to either have worked for a period or periods totaling one month or more out of the 12 preceding months in an occupation in which he is now able to work. Failure to meet this condition would result in the denial of benefits to such an individual, even though he is able, available and qualified to work in another occupation. Any individual who, as a result of an industrial accident, is required to change his occupation, could be excluded from the protection of the act, even though fully recovered from the accident and thoroughly qualified for a new occupation.

Your further attention is directed to the inequities inherent in the disqualification provisions which would be imposed by Section 20 of the bill.

Section 57(a), as amended, would provide: "An individual shall not be *deemed unemployed through no fault of his own and shall not be eligible for* benefits (a) during any week in which he is out of work with any prior employer because of a trade dispute and for two weeks thereafter, or for 15 months from the date he was last employed by such employer, whichever period is the shorter, if such individual left or *remained away* from or refused to continue his work with such employer because of such trade dispute." This amendment would disqualify innocent bystanders who are thrown out of work because of a trade dispute because the proposed amendment does not limit the disqualification to unemployment due to disputes at the plant at which a worker is or was last employed, as is the case *under the present law, and so far as I can learn, under every unemployment insurance* law in the United States. On the contrary, the great majority of State laws contain a provision that even workers in the plant where a dispute exists, who are not participating in, financing and otherwise interested in the dispute, will not be denied benefits if they become unemployed due to the dispute. This amendment is subject to reasonable interpretation that all workers, regardless of their interest or connection with the dispute resulting in their unemployment, would be disqualified. Workers not connected with a trade-union and having no interest whatever in the result of a trade dispute, should not be denied unemployment insurance when thrown out of work because a strike causes them to become unemployed. An example of the extreme scope of this amendment is indicated by the fact that under it a worker who, having once become involved in a dispute, later disassociates himself from the dispute and finds employment elsewhere, would nevertheless be disqualified for the duration of the trade dispute, plus two weeks but not to exceed a period of 15 months from the commencement of the trade dispute with which he no longer has any connection whatsoever. The recent Ford Motor Company strike in Dearborn, Michigan, is also an excellent example of the far-reaching effect of the proposed amendment. The workers of the Richmond, California, plant who were thrown out of work because of the shutdown in Dearborn, Michigan, under this amendment could be denied benefits because of their unemployment, pending the settlement of the trade dispute 2,000 miles away. Mr. Powell, Executive Director of the Social Security Board has made the following comment with respect to this proposed section: "The language of Section 20 of Assembly Bill No. 560, *amending Section 57(a) of the State law*, is ambiguous. If the words 'remained away from' are so interpreted as to deny benefits to any claimant under circumstances which might constitute an offer of 'new work' under conditions which the individual would be entitled to reject in view of the terms of Section 1603 (a) (5) of the Internal Revenue Code, a question of the conformity of the State law with that section would result. Under certain circumstances an offer of work by a prior employer from whom the individual has long since been separated may constitute an offer of 'new work' within the purview of Section 1603(a) (5) of the Internal Revenue Code. Unless Section 13(a) of the California law is considered as controlling over the instant amendment to Section 57(a), the conformity issue might arise."

Section 57(b) is amended to provide that an individual shall not be eligible for benefits: "(b) During any period the benefits with respect to which are based in whole or in part on wages earned prior to the most recent date on which such individual *without good cause refused to accept suitable employment* when offered him, or failed without good cause to apply for and make a bona fide effort to obtain suitable employment when notified thereof by a district public employment office." This would mean that if a worker, after a number of years of continuous employment, were laid off on April 15, 1941, and soon thereafter were offered suitable employment by another employer for a few days' duration which he refused, the individual would not be able to qualify for any unemployment insurance until September 30, 1942. In this case, the individual would have been disqualified for

a period in excess of 17 months because he refused to accept suitable employment of a few days' duration, although that refusal was in order to hold himself in readiness for an available permanent job. A comparative analysis of the disqualifications contained in the laws of other States will indicate the extreme harshness of this amendment. Should an individual who refused suitable employment of a day's duration be disqualified for a period in excess of 15 months? A recent survey shows that 35 States disqualify an individual for refusing to accept suitable employment for a period from one to six weeks. The California Employment Commission has recommended to the Legislature that such an equitable provision be incorporated in our law.

Section 57(d) provides that an individual shall not be eligible for benefits: "(d) During any week in which he was laid off, suspended, or discharged for misconduct connected with his work, if so found by the commission, and in the case of such discharge for not less than five successive weeks nor more than 10 successive weeks thereafter, and in addition in the case of such discharge the maximum total amount of benefits which would otherwise be payable to him in his then current benefit year, or if none be then current, his next benefit year, shall be reduced by an amount equal to not less than five nor more than 10 times his weekly benefit amount." This amendment means that an individual, in addition to being disqualified for from five to 10 weeks for having been discharged for cause, would also have his benefits reduced not less than five nor more than 10 times his weekly benefit amount from either the current or the next succeeding benefit year. As an individual's next succeeding benefit year may not occur for a period of five, 10 or 15 or more years, his maximum total amount of benefits in such cases would be reduced from $50.00 to $180.00, 15 or more years after he was once discharged for misconduct. No other State law contains such a provision.

Section 20.5 of the bill provides that "An otherwise eligible individual shall not be eligible for benefits with respect to unemployment (1) for any week with respect to which he has wilfully failed to report a material fact in order to obtain any benefit under this act and for the 52 weeks immediately succeeding such week." The full implication of this section can be understood only when analyzed in light of the language contained in Sections 67(b) and (c), as amended in Section 27 of this bill, which says that every original claim and continued claim "shall state in writing, under oath of the claimant * * * (2) That the claimant was not then subject to any disqualification or condition of ineligibility for benefits under this act, or if any such disqualification or condition of ineligibility of benefits under this act does exist, the nature thereof." Since claimants are required to state under oath a conclusion of law instead of a statement of fact at the time the claim is filed, many individuals may be disqualified for 53 weeks because they have made an affidavit of qualification, not knowing that they were subject to a disqualification or condition of ineligibility. No other State provides a 53-week disqualification for a wilful false statement. In fact, only 14 States provide any disqualification in such cases, and the majority of these disqualify an individual for only from one to 10 weeks. I believe provision can and should be made imposing reasonable penalties in the denial of benefits upon persons who wilfully make false statements of essential facts supporting their claim. But I do not consider this amendment a proper provision for that purpose.

Section 21 of the bill repeals Section 58 of the act. The disqualifications now contained in Sections 58(a), (b), and (d) have been amended by this bill and made part of Sections 57 and 57.5. However, in the process of redrafting the material formerly contained in Section 58, there has been eliminated the presumption that an individual has been discharged for reasons other than misconduct in connection with his work and not to have voluntarily left his work without good cause unless an employer has given notice to that effect to the commission in writing within five days after the termination of service. The Department of Employment is receiving over 30,000 termination notices a year under Section 58(c) and, based on information contained in these notices, over 20,000 disqualifications are being imposed annually. In order to enable the department to make initial determinations based on all available facts and to pay benefits promptly, it is essential that the employers continue to notify the department whenever any grounds exist which may require the disqualification of a claimant. Requiring employers to file a written notice within five days, setting forth such facts as are necessary to establish a prima facie case in support of the employer's contention that a worker left voluntarily or was dismissed for misconduct, would not seem to constitute a serious burden on the employers. In lieu of the language contained in Section 58(c), this bill provides in Section 28 a system of notification of all prior base period and lag quarter employers which would require the department to furnish employers over 1,300,000 separate notices in order to save them the necessity of filing the notices now required in the limited number of cases where grounds for a possible disqualification exist. It is estimated that the cost of furnishing the required notices and the maintenance of the necessary records would be in excess of $500,000 annually; whereas, an adequate system of notifying employers is now provided by the department at a cost of less than $100,000 annually.

New conditions for grants under the Social Security Act, required to be provided in State laws by July 1, 1941, would not be fulfilled by Assembly Bill No 560 As a result, grants for administration of the California program would necessarily be suspended. Sections 8 4 and 8.5 of Assembly Bill No. 560 purport to include provisions conforming with Section 303 (a) (8) and (9) of the Social Security Act While in content the proposed provisions are adequate for that purpose, this bill, if approved, would not become law until 90 days after the Legislature adjourns, because this bill was not enacted as an urgency measure. Section 303 (a) (8) and (9) of the Social Security Act requires that a State law conforming therewith contain the appropriate provisions *effective July 1, 1941*. Therefore, during the period from July 1, 1941, to the effective date of Assembly Bill No 560, the California law would not conform with the above-cited sections of the Social Security Act, and grants for administration expenses would not be made available to the State. It is necessary, in order to avoid such a result, that an act containing the provisions contemplated by Section 303 (a) (8) and (9) of the Social Security Act become effective on or before July 1, 1941. Assembly Bill No. 1222, now before the Senate, which in content conforms with Section 303 (a) (8) and (9) should be enacted forthwith as an urgency measure in order to become effective on or before July 1, 1941, and prevent the suspension of Federal grants.

Proponents of this bill argue in its support that cases have been found of individuals obtaining benefits to which they were not entitled, and that one of the purposes of this bill is to prevent the recurrence of such cases I can not find in the provisions of the bill any greater protection against chiselers than the present law affords. The elimination of chiselers on any law is usually accomplished only through efficient administration with adequate administrative powers. In the launching and development of any program of the scope and magnitude of the Unemployment Insurance Act, particularly during the early stages of the organization of the administrative machinery and the establishment of manuals and rules of procedure to carry into effect the intent of the law, it may not be doubted that some chiselers have found their way to its benefits and isolated cases of abuse have occurred. The administration of the act has so progressed, particularly during recent months, that such abuses have been reduced to a negligible quantity, and with proper cooperation of employers and workers, and increased knowledge and understanding by both parties of the purpose of the act and in the light of previous experience, it is reasonable to anticipate that abuses will be cut to the irreducible minimum, possible under any conceivable provisions in the act No longer are benefits being paid to students or other unemployed workers not available for full time employment; nor are benefits paid to expectant mothers until after it is clearly determined that they are again able and available for work No worker is permitted to receive the benefits of the act during any period in which he is not available and subject to call for work. But even if some abuses needing administrative correction do exist, the situation could not possibly justify those far reaching drastic and inequitable changes, jeopardizing the continuance of Federal grants for administration and tax credits for employers

I am attaching hereto a report on this bill made to me by the California Employment Commission in response to my request for its analysis and recommendation, which supports the foregoing objections and recommends this veto

Respectfully submitted.

FEDERAL SECURITY AGENCY
SOCIAL SECURITY BOARD
WASHINGTON, D. C.

June 3, 1941

The Honorable Culbert L Olson,
Governor of California,
Sacramento, California.

DEAR GOVERNOR:

This is in answer to your letter of May 29th to Mr A J Altmeyer, Chairman of the Social Security Board, in which you requested the Social Security Board's views with respect to California Assembly Bill No 560, with particular reference to the conformity of its provisions with the requirements and the social purposes of the Federal Social Security Act and the board's standards. We have examined this bill in the form in which it passed the Legislature and offer the following comments.

Conformity Questions Arising Under Section 303(a) of the Social Security Act

1. New conditions for grants under the Social Security Act, required to be provided in State laws by July 1, 1941, would not be fulfilled by Assembly Bill No. 560. As a result, grants for administration of the California program would necessarily be suspended. Sections 8.4 and 8.5 of Assembly Bill No. 560 purport to include provisions conforming with Section 303(a) (8) and (9) of the Social Security Act. While in content the proposed provisions are adequate for that purpose, they will not become law until 90 days after the Legislature adjourns, under the terms of the California Constitution. Sections 303(a) (8) and (9) of the Social Security Act requires that a State law conforming therewith contain the appropriate provisions *effective July 1, 1941*. Therefore, during the period from July 1, 1941, to the effective date of Assembly Bill No. 560, the California law will not conform with the above-cited sections of the Social Security Act and grants for administration expenses can not be made available to the State.

It will be necessary, in order to avoid such a result, that any State law or laws containing the provisions contemplated by Section 303(a) (8) and (9) of the Social Security Act contain the language necessary to assure that such law or laws become effective on or before July 1, 1941; it may be noted that Assembly Bill No. 1222 which in content would conform with Section 303(a)(9) contains such language, but that Assembly Bill No. 1193, which in content would conform with Section 303(a) (8) does not contain appropriate language to assure its immediate effective date.

2. Section 56(a) and (b) and Section 67(b) and (c) of the California unemployment compensation law, if amended as proposed in Sections 19.5 and 27 of Assembly Bill No. 560, would not meet the standards established by the Social Security Board under Section 303 (a) (1) of the Social Security Act respecting the payment of benefits for partial unemployment. For example, the proposed amendments would appear to prevent the State agency from permitting the retroactive filing of claims for partial benefits for the four preceding weeks as is required by the board standards.

Conformity Question Arising Under Section 1603(a) (5) of the Internal Revenue Code

The language of Section 20 of Assembly Bill No. 560, amending Section 57(a) of the State law, is ambiguous. If the words "remained away from" are so interpreted as to deny benefits to any claimant under circumstances which might constitute an offer of "new work" under conditions which the individual would be entitled to reject in view of the terms of Section 1603(a)(5) of the Internal Revenue Code, a question of conformity of the State law with that section would result. Under certain circumstances an offer of work by a prior employer from whom the individual has long since been separated may constitute an offer of "new work" within the purview of Section 1603(a) (5) of the Internal Revenue Code. Unless Section 13(a) of the California law is considered as controlling over the instant amendment to Section 57(a), the conformity issue might arise.

California Conformity Questions under Section 303 (a) (4) and (5) of the Social Security Act and Sections 1603(a)(3) of the Federal Unemployment Tax Act

Section 2 of the bill would amend Section 7 of the law by paragraphs excluding from the definition of employment services performed by an individual as an insurance agent or solicitor, if all such service is performed for remuneration solely by way of commission and service performed by an individual under the age of 18 in the delivery or distribution of newspapers or shopping news.

These exclusions are subject to the provisions of Subsection 1 providing that the services thereafter enumerated shall be excluded from the definition of employment "if, when and during such times" as they are excluded from the Federal Unemployment Tax Act. Since the services of insurance salesmen and newsboys under 18 were excluded from the Unemployment Tax Act by the Social Security Act amendments of 1939, it would appear that the new exclusions may be given a retroactive application, and that in such cases the California law may be construed to authorize refunds of contributions which were due under the law in effect at the time of their payment. In such case, the California law will contain provisions authorizing the use of moneys in the Unemployment Compensation Fund contrary to limitations imposed by both the Social Security Act and the Federal Unemployment Tax Act.

Major Policy Considerations

1. The new disqualification provision in Section 57, proposed in Section 20 of the bill, would have great significance for benefit payments. These provisions are the most severe that have ever been brought to the attention of the Bureau of Employment Security and seem to be incompatible with unemployment compensation principles. Under these provisions claimants would be disqualified without sufficient cause, second, unusually severe penalties would be imposed as "disqualifications," and third, these penalties would operate arbitrarily with little relation to the cir-

cumstances leading to the individual's disqualification. To illustrate, an individual would be disqualified for leaving work without good cause *attributable to his employer.* Thus an individual who left work for the most compelling of personal reasons, but who was in all other respects eligible, would be disqualified merely because the separation was not directly attributable to his employer. To illustrate the second point, consider a claimant who has left work without good cause, but expects to seek reemployment after a time. When such individual seeks to reenter the labor market, but is unsuccessful in finding work, none of his past accumulated benefit rights would be available to him as they would all have been canceled under the proposed Section 57(c). Such individual could not become eligible for benefits until he had gone back to work and gradually accumulated enough wage credits to qualify; this would in effect mean that he would probably be ineligible for at least a year A disqualification of this severity seems most undesirable in the face of the individual's demonstrated willingness to work over a period long enough to accumulate rights under the unemployment compensation law.

The manner in which these disqualifications would operate may be revealed by comparing two individuals who refuse suitable work in comparable circumstances, one of whom has drawn nearly all the benefits to which he is entitled for that year, and one of whom has drawn only one week of benefits In the former case, the disqualification will result in the cancellation of only a negligible amount of benefit rights, whereas the latter individual will be deprived of practically his whole year's potential benefits.

The Social Security Board recommends that disqualifications should be designed to simply postpone the enjoyment of the individual's benefit rights for a limited period of time on the theory that a period of unemployment which originates out of the individual's own action can not be presumed to continue to be attributable to the individual for the indefinite future It should be noted that an individual's current eligibility is always subject to his being found able to and available for work.

2 Section 73 proposed in Section 32 of the bill in reality gives little or no protection to the benefit rights of individuals who enlist in or are inducted into the armed services. The provision that "within 60 days after effective date of this section, or within 60 days after commencement of such military service, whichever is the later date, a worker must serve upon the commission a notice to the effect that he desires to be classified as a military worker," clearly implies that any worker who fails to give such notice within the 60-day period will not be entitled to be so classified or to have benefits computed and credited to him Since it may be expected that many, if not most of such workers will fail to give such notice because of lack of knowledge of the necessity for so doing, this requirement makes of the provision an "empty gesture" In view of the fact that arrangements have been made on a National basis, by the Bureau of Employment Security, for identifying information to be sent to each State agency for those individuals in the armed services who have wage credits in their respective States, a provision requiring a military worker to notify his State as to his status seems unnecessary and undesirable.

Under the language of this section, an individual who was inducted into military service must not only have been employed at the time of induction but must have been working in "covered work" if he is to benefit by this provision Such discrimination against individuals who may have been unemployed at the time of induction *or who may have been working in "uncovered work" yet who have benefit rights* accrued, is most undesirable

3. Sections 67, 68, and 69 as proposed in Sections 27 through 29 of the bill are undesirable from the standpoint of policy, administrative feasibility, and cost. It seems inadvisable to incorporate minute administrative procedure in the statute since the resulting inflexibility may create difficulty The procedures provided appear not only unduly burdensome to the claimant and to the agency, but it is questionable whether certain of the provisions are necessary for the proper and efficient administration of the unemployment compensation law.

4 Section 61 (a) proposed in Section 22 of the bill would permit reduced contribution rates as long as the amount in the State fund exceeded one and one-half times the amount of benefits paid in the preceding calendar year. Such a provision is not considered adequate to protect the solvency of the fund

Also, Section 61 (a), if amended as proposed, would leave the suspension of reduced contribution rates to the discretion of the commission The responsibility for establishing a minimum standard to protect the solvency of the fund should be assumed by the Legislature and should not be delegated by it as a discretionary power, to any administrative body. A decline in the fund will in all probability be accompanied by a decline in business activity The pressure upon any administrative officers to withhold exercise of such discretionary power, which would be brought by the interests affected in the matter, would make the sound exercise of such a discretion exceedingly difficult

Under the provision of Section 61 (b), if amended as proposed, it would appear that the fund, established for the purpose of paying benefits, is to be "protected" by the suspension of benefits. Since the sole purpose of maintaining the fund is for the payment of benefits, the provision for suspension of benefits while the fund

is solvent could apparently serve only to build the fund up to the point where reduced rates will again be effective This would seem to be a denial of the whole purpose of an unemployment compensation law It would make it appear that the purpose of the California law is to enable employers to obtain reductions on their Federal taxes and that the payment of benefits is of merely secondary consideration

5 Section 72 of the law as proposed in Section 26 of the bill, would assess a penalty in an amount equal to 10 per cent of the final award, against claimants or employers who have acted in bad faith and without reasonable basis for appeal While a benefit claimant coming within the purview of the provision would suffer a severe pecuniary loss, a guilty employer would suffer only a debit in the bookkeeping account maintained for him by the agency for experience rating purposes. It is apparent that the "penalty" as regards the employer will in most instances occasion him no pecuniary loss whatsoever and that the provision is therefore discriminatory and inequitable as between claimants and employers Also, since the employer's bad faith in taking appeals is in no way related to his experience with unemployment risk (upon which his contribution rate should be based) this debit to the employer's experience rating account is inconsistent with experience rating principles.

It is hoped that these comments will be helpful to you in determining what action you will take on this bill. Please advise if we can be of any further assistance.

Sincerely,

OSCAR M POWELL
Executive Director

Re my letter dated June 3 concerning Assembly Bill 560 regret inadvertent omission therefrom of following two points:

1. Re provision of bill whereby only 73 per cent of benefits will be charged for experience rating purposes, failure to charge total benefits paid raises question as to conformity of experience rating provisions with requirements of Section 1602(a)(1) of Internal Revenue Code, and

2. Bill contains no provision removing ambiguities of Section 39 of California law concerning three years of experience as condition precedent to allowance of reduced rates of contributions Social Security Board certified California law for additional credit purposes on basis of opinion of California Attorney General in which that official recognized and urged need for legislation removing all question.

HON CULBERT L OLSON,

Governor, State Capitol, Sacramento, Calif.

In reference to your request of the Department of Employment for an analysis and recommendations regarding Assembly Bill 560, we desire to make the following statement of our views. This bill is not a measure consistent with the basic principles of the present law, which would merely correct alleged abuses in the existing act It proposes far-reaching changes which would make the California act one of the most restrictive unemployment insurance laws in the United States The major effect of almost all the proposed changes would be to facilitate reductions in employers' contribution rates under the merit rating provisions This would be accomplished by harsh and inequitable denials of benefits, and by an arbitrary reduction of 27 per cent in the present benefit charge against employers' reserve accounts without provisions that we think would adequately protect the Total Reserve Fund The bill will raise very serious questions of conformity with the minimum standards provided by the Social Security Act and Internal Revenue Code of the United States Government. One consequence of such nonconformity might be that the State of California would have to provide from its general funds the five million dollars for administrative expenses now being supplied annually by the United States Government or the work of the department, including its activities in the National defense program, would be compelled to shut down. Similarly the tax credit offset rights of employers might be jeopardized In view of the serious effects which this bill would have upon vital interests of employees, employers and the State, we recommend that the bill be vetoed,

Henry F. Grady, chairman and commissioner representative of the large employers

James L. Matthews, commissioner representative of the State and its interests and of the public.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 10, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Assembly Bill No. 1129, entitled: "An act to establish a Legislative Audit Bureau and an Audit Committee of the Legislature, and in connection therewith to amend Section 11860 of the Insurance Code, and to repeal Sections 658 and 660 of the Political Code," with my objections.

My objections to this bill are not against the policy of establishing an agency, independent of all executive officers, to post audit the accounts and financial records

of all agencies of the State I have consistently advocated a revision of the accounting and auditing functions of the State Government, including the establishment of the office of Auditor General independent of the Governor and of all other executive officers, to perform the post auditing duties mentioned in this bill Reference is made to my message to the Fifty-third (1939) Session of the Legislature, in which I recommended submission of a constitutional amendment and the passage of an appropriate bill establishing the office of an Auditor General with such powers, *and that the Controller, created by the Constitution, be made Auditor General.* In this I adopted and followed the recommendation of the Committee on State Organization, otherwise known as the Interim Committee of Twenty-five of the California Conference on Government and Taxation, appointed by my predecessor to make a survey of the fiscal agencies of the State and make recommendations for their reform in accordance with the trend of modern administrative practice. The final report on this committee was made to the Governor and to the Legislature this year. This recommendation was made as a part of a comprehensive plan of reorganization

My objections to this bill are that it fails to accomplish such a reorganization; that it does not fit in with a plan of reorganization of the fiscal functions of the State in accordance with modern administrative practice and the recommendations *of experts including said Committee of Twenty-five of the California Conference on* Government and Taxation.

Under the Constitution of California the Governor must prepare and present to the Legislature within 30 days of each regular session a Budget containing a complete plan and itemized statement of all proposed expenditures of the State provided by existing law or recommended by him, and of all of its institutions, departments, boards, bureaus, commissions, offices, employees and other agencies, and of all estimated revenues for each fiscal year of the ensuing biennial period This is accomplished at the present time through the Department of Finance which is equipped with accountants familiar with the details of the organization of every agency of the State Government

The familiarity of the Department of Finance with each State agency is due in a large degree to the fact that the Department of Finance now makes the post audit of each of these agencies Under this bill not only would the post auditing functions of the Department of Finance be transferred to the Legislative Committee's auditor for which it provides, but all of the employees of the Department of Finance engaged in this activity would be placed under his jurisdiction

The comprehensive plan of reorganization above referred to, while providing for independent post auditing would at the same time transfer the preauditing functions to the Department of Finance for the reason that this function belongs to the executive department charged with the legal and faithful expenditure of funds, and also that the functions of auditing and budget making are so closely tied together that the same agency which prepares the Biennial Budget should also be engaged in auditing work. The report above mentioned, and my recommendations, were that the preauditing function be transferred to the Department of Finance, where it belongs But under this bill preauditing would still remain the function of another independent agency, mainly the State Controller

If no auditing functions are vested in the Department of Finance, it will not have the direct contact with each State agency and the familiarities with its accounts that are necessary to efficiently perform the function of passing upon the Budget for such agencies, unless it engages an independent staff of accountants for the sole purpose of familiarizing themselves with such detail.

This direct relationship and familiarity with the fiscal operations of each State agency can be gained through preauditing as well as postauditing, but when postauditing is transferred from the Department of Finance to another agency, provisions should be made transferring, at the same time preauditing functions to the Department of Finance, otherwise where we now have two sets of accountants (one for preauditing and one for the combined function of postauditing and budget making), we would be compelled to have three sets of accountants, one for each function, although their duties would, to a large extent, necessarily overlap It is obvious that the preauditing of claims should be under the control of that portion of the executive branch charged with the responsibility of carrying out the Budget provisions, and as above pointed out, any change in the fiscal organizations of the State Government should include this transfer of preauditing functions at the same time if any change is made in the postauditing functions The advantages of this plan are set forth on pages 23 and 24 of the reports of the Committee on State Organization, heretofore mentioned

The second main objection to this bill is that proper provisions to insure the independence and impartiality of the auditor created have not been included In most of the States which have provided for the performance of postauditing *functions by an official independent of the executive officers of the State, provision* is made for his election directly by the people or by the Legislature while it is in session. The purpose of delegating the work of postauditing through an independent official is that he shall be free from control not only from the executive departments, whose accounts he is to postaudit, but he shall, as far as possible, be free from

partisan control, no matter how he receives his appointments. This bill does not provide for the election of a postauditor by the Legislature, but by a committee composed of a small minority of the Legislature. The great majority of the Members would have no voice in his selection and no power to remove him. The bill provides that he shall be appointed by and serve at the pleasure of a committee. Any such State official to serve the purposes of the Legislature should be elected by the entire Legislature as is done at the election of a Legislative Counsel. Under this bill an appointment or removal may be made by a committee when the Legislature is not in session and with or without cause and without any knowledge, counsel or voice in the matter by most of the Members of the Legislature. No provision is made even for a minority representation on the proposed joint committee.

It is a fundamental principle, recognized by all public administration authorities, that a postauditor, whether elected by the Legislature or by the people, must be elected or appointed in such manner that he will command the confidence of the public and that he may perform his duties fearlessly and impartially, without being subject to any motive other than a faithful discharge of his duties and the production of factual, unprejudiced and uncontrolled reports to the Legislature and to the Governor. As stated in the report of the Committee of Twenty-Five of the California Conference of Government and Taxation, "Such authority should be vested in an elective official by virtue of which he would become one of the most important officials in the State, probably second in rank only to the Governor." That committee considered the suggestion that the State Auditor be elected by the Legislature, after consideration decided upon the foregoing recommendation which is the recommendation contained in my message to the 1939 Session of the Legislature.

It seems to me that instead of such piecemeal attempts at postauditing under a bill as objectionable as this bill in the manner in which it is to be set up, the reforms recommended as a result of expert surveys and analyses of the entire fiscal functions of the Government should be considered by the Legislature and adopted as a means not only of accomplishing all that the Legislature could possibly wish to accomplish through the operation of the bill, but would correlate and reform the administration of other functions including preaudit so as to make a coherent, comprehensive and effective Auditing and Accounting Fiscal System for the State.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 10, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Assembly Bill No. 706, entitled: "An act to amend Sections 10434 and 10435 of the Insurance Code, relating to insurance."

My objections to this bill are as follows.

This bill amends Sections 10434 and 10435 of the Insurance Code, the former of which now provides, among other things, that no insurance company, whether incorporated in this or some other State, may pay commissions to its directors, officers, actuaries or medical examiners for insurance policies on which the company would be liable. This bill would amend this provision to leave the section applicable to insurance companies incorporated in this State, and it would also remain applicable to companies incorporated in other States, but only in so far as their activities in this State are involved. The Attorney General, commenting on this section and its application, in Opinion Number N. S. 2179, dated December 6, 1939, explained the section as follows:

> "The statute, by its terms, is applicable to all life insurers doing business in the State, whether foreign or domestic, and is not limited to commissions paid on California business. It is also apparent from a consideration of the purposes of the statute that the Legislature intended that it should apply to all life insurers doing business in the State.
>
> The statute is designed to avoid the conflict of interest which arises when a person who can profit personally from the acceptance of risks is required to determine the acceptability of risks upon behalf of the insurer, or where such person is in a position to influence the persons who do pass upon risks.
>
> It is apparent that the mortality rate and therefore the solvency of a company could be adversely affected if an underwriter, influenced by personal interest, accepted improper risks, and that the effect would be the same whether commissions were paid on business written in California, and whether the insurer was a domestic corporation or a foreign corporation."

It is obvious that California policyholders would be as adversely affected by the acceptance of poor risks resident in other States as would be the case if the poor

risks were residents of this State. If the present law has a tendency to prevent the acceptance of poor risks, as pointed out by the Attorney General, this bill would permit companies organized in other States to engage in such practices in other States but would prevent them from doing so in this State. The purpose of the statute is obviously to protect all policyholders. If any company organized in another State would engage in such practices in another State but would be prohibited from doing so in this State, and such practices did result in the company accepting poor risks, the result would be that the California policyholders would be contributing to those risks.

Likewise, it is to be noted that this bill might place California companies, doing business in other States, at a disadvantage, in that California companies doing business in other States would not be permitted to compete for business on the same basis as companies organized in other States.

The laws of this State should impose like restrictions on the privilege of doing insurance business in this State upon all insurance companies, whether organized in this State or some other State. This is the effect of the present law. If the present law is not satisfactory, any change made therein should continue this principle. This State has a right and a duty to regulate insurance companies doing business in this State, and all companies should abide by the same laws, rules and regulations in exercising the privilege of doing such business. However, I am advised that there are some companies organized in other States which, strictly in accordance with the laws of those States, engage in practices which might technically be said to violate the present provisions of the California law. There is another bill pending before the Legislature which would give the Insurance Commissioner power to permit such practices where authorized by the State in which the particular company is organized, if he finds that such practices do not in fact endanger or tend to endanger the solvency of such companies. In the interests of cooperation between various States, if such a bill is presented to me I will not disapprove it.

Respectfully submitted

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 10, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Assembly Bill No. 1411, entitled: "An act to add Section 162 to the Revenue and Taxation Code, relating to actions to quiet title against the State."

My objections to this bill are as follows:

This bill would permit any taxing agency to include the State as a defendant in any action to quiet title to property claimed by such taxing agency.

In my veto message on Assembly Bill No. 1016, transmitted to you on May 16, 1941, I indicated the necessity of special provisions to be included in any bill to authorize quiet title suits against the State, and there is appended hereto a copy of that message.

In addition, this bill goes further than Assembly Bill No. 1016, which limited the types of interest held or claimed by the State, against which title could be quieted, to liens, other than for taxes levied directly against the property.

The necessity for specifying the claim of the State against which title is sought to be quieted, due to the broader scope of the bill, is more apparent even than in the case of Assembly Bill No. 1016.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

Bill ordered on unfinished business file.

COMMUNICATIONS

The following communication was received and read, and on motion of Mr. Maloney, ordered printed in the Journal:

SACRAMENTO, CALIFORNIA, June 10, 1941

Honorable Gordon Garland, Speaker of the Assembly
Sacramento, California

DEAR MR. SPEAKER: The honor which the Members of the Assembly so graciously conferred upon me Saturday by resolution, affected me so deeply that I fear I did not properly express my gratitude and appreciation to all the Members and particularly to the authors of the resolution, Messrs. Garland, Desmond, Lyon and Maloney.

Although the honorary designation has never been accorded me before, the uniform kindness and courtesy of the Members of your Body has been one of my most cherished possessions during the years that Mr Crowley has served here. They have always made me feel welcome among them and as Bill Hornblower would have said I was one of you "right up to the roll call"

I have often wished that each and every one of California's citizens might sit in upon your sessions as I have done for the promotion of a better understanding among them

I am sure that they would have the same reactions which I have developed during these years—First, a rather amazed appreciation of the character, ability and intelligence of the men who accept the low-salaried office and the conscientious, unselfish service which they render the State—and second, a growing conviction that the people do not make mistakes On rare occasions, a man is chosen who does not grace his office but his sojourn is short and the body as a whole maintains an unusually high standard.

Perhaps I must admit not being entirely impartial in the matter, but without derogation of any other official, may I say that as I have watched men come and go, and some return again, I have felt that the Legislators, elected directly by the people of their districts, returned or removed in accordance with the desires and prejudices of their constituents, are closest to the heart and pulse of California and that the Legislature is truly the voice of the people at home.

Therefore, may I again thank you all sincerely for the courtesy of nominating me an Honorary Member of so worthy a Body

Respectfully yours,

GEORGIA CROWLEY

COMMUNICATIONS

The following communication was received, and on motion of Mr. Bashore, ordered printed in the Journal:

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, June 10, 1941

Honorable George D Collins, Jr.,
Assembly Chamber, State Capitol
Sacramento, California

SUBJECT: Assembly Bill No. 2658
REQUEST No. 4223

DEAR MR. COLLINS: You have requested that we advise you whether, in our opinion, Assembly Bill No. 2658 required a vote on final passage of two-thirds of all the Members elected to each house of the Legislature.

In our opinion, Assembly Bill No 2658, in its form as introduced, only required a majority of all Members elected to each house.

In the absence of provision to the contrary, only a majority vote of all Members elected to each house is necessary on the final passage of a bill. The only applicable provision which we have been able to find which would appear to require more than a majority vote is Section 34a of Article IV of the Constitution.

Section 34a of Article IV of the Constitution requires a two-thirds vote on all appropriations out of the General Fund when the base established in Section 34a is exceeded. This section does not relate to appropriations made out of special funds.

Assembly Bill No 2658 makes an appropriation out of a special fund, the Boat Fund, created by Deering Act No 7120 Consequently, we do not believe that Section 34a of Article IV of the Constitution applies to Assembly Bill No. 2658, and thus, that only a majority vote of all Members elected was necessary on final passage of the bill.

Very truly yours,

FRED B WOOD, Legislative Counsel
By NORMAN MELLER, Assistant Counsel

WHEREAS, The President of the United States did on the twenty-seventh day of May, 1941, find, declare and proclaim that an unlimited National emergency confronts this country which requires that its Military, Naval, air and civilian defenses be put on the basis of readiness to repel any and all acts or threats of aggression directed toward any part of the Western Hemisphere, and

WHEREAS, The President did then call upon all loyal citizens engaged in production for defense to give precedence to the needs of the Nation to the end that a System of Government that makes private enterprise possible may survive, and did call upon all loyal State and local leaders and officials to cooperate with the defense agencies of the United States to assure our internal security and to put every community in order for maximum productive effort and minimum of waste and to aid in every way that the needs of the Nation may require; and

WHEREAS, California, being one of the leading oil producing States and the production, refining and distribution of this great natural resource having developed into California's largest industry, recognizes a special responsibility to respond to the President's call in this particular field and is determined to meet and discharge that responsibility in fullest measure, including particularly the consideration and enactment of such State legislation as may be necessary or appropriate to the attainment of these purposes; now, therefore, be it

Resolved by the Assembly of the State of California, That a Committee on State-Federal Cooperation in the Production, Distribution, Processing and Use of Petroleum Products is hereby created, to consist of the Speaker and four Members of the Assembly appointed by the Speaker, which committee is hereby charged with the

duty of studying exhaustively and in detail and ascertaining all facts and circumstances as to any and all features of the subject (within the scope of legislative regulation or control) of attaining maximum efficiency and minimum waste in all the various phases of the production, distribution, processing and use of oil, gas and other hydrocarbon substances, cooperating therein to the fullest extent and in every way with the Petroleum Coordinator for National Defense, with authority to appoint an advisory committee of citizens and of experts in this field to assist the committee in the performance of its duties and the discharge of its obligations hereunder; and be it further

Resolved, That the committee is authorized to act during the Fifty-fourth Session of the Legislature, including any recess thereof, and after final adjournment until the convening of the Legislature at its Fifty-fifth Regular Session, and shall report to the Assembly from time to time concerning its activities, rendering its final report not later than March 15, 1943, including in its reports its recommendations as to legislation deemed by it necessary or appropriate to any phase of the subject of this resolution; and it is hereby further provided as follows.

(1) Upon the appointment of its members the committee shall organize and select a chairman from its membership; it may appoint and fix the compensation of a secretary and such clerical and technical assistants and adopt such rules as in its discretion it deems necessary and proper to enable it to carry out the powers granted and the duties imposed herein.

(2) The committee may hold public hearings at any place in California at which hearings the people are to have an opportunity to present their views to the committee, and may also meet in executive session.

By Mr. Call:

House Resolution No. 272

Relative to an Assembly Fish and Game Investigating Committee, to study and report on matters relating to fish and game.

WHEREAS, The preservation, development and utilization of the fish and game resources of this State are of primary importance because this great natural resource supplies healthful recreation, quantities of wholesome food and opportunities for obtaining a livelihood for thousands of persons; and

WHEREAS, There is an inevitable conflict of interest and opinion between different groups of persons affected by the laws relating to the subject of fish and game, which results in the introduction of hundreds of proposals at each session of the Legislature; and

WHEREAS, The Constitution of this State was amended by the people at the November, 1940, general election to establish a long-term commission to which the Legislature is specifically authorized to delegate such powers relating to fish and game as the Legislature sees fit; and

WHEREAS, Before any steps of far-reaching consequence are taken the entire field of fish and game regulation should be investigated in order that the Legislature may proceed with the basic facts before it; and

WHEREAS, Such an investigation should be made by the Legislature through an impartial committee of its own choosing; now, therefore, be it

Resolved by the Assembly of the State of California, That there is hereby created an Assembly committee to be known as the Assembly Fish and Game Investigating Committee, which shall consist of five Members of the Assembly appointed by the Speaker thereof, and which shall make a thorough study and investigation of the fish and game resources of the State and matters relating thereto, including, but not limited to, the investigation and study of the administration of the laws relating to fish and game, the expenditures of funds derived under such laws or otherwise made available for fish and game purposes, the existing and potential supply of the several species and the conditions of their environment, the availability of recreational facilities and shooting grounds, the effect of the pollution of the waters of the State on fish and fishing, and the need for legislation on any such subject; and be it further

Resolved, That said committee is authorized to act at any time during sessions of the Fifty-fourth Legislature or recesses thereof, or after final adjournment, and may report to the Fifty-fourth Legislature from time to time but shall make its final report, together with such recommendations as it deems desirable not later than the thirtieth day after the convening of the Fifty-fifth Legislature in Regular Session in 1943; and be it further

Resolved, That there is hereby made available to said committee the sum of two thousand five hundred dollars ($2,500), or so much thereof as may be necessary, payable out of the Contingent Fund of the Assembly for the expenses of the committee and its members and for any charges, expenses or claims it may incur under the provisions of this resolution or of Joint Rule No. 35, the provisions of which are hereby incorporated herein and adopted hereby as if fully set forth and repeated in this resolution; and be it further

House Resolution No. 273

Relative to a survey and report and recommendations by The Regents of the University of California as to the coordination of the scope and activities of the various public educational institutions of the State above the secondary school level

WHEREAS, There has been a significant growth in the enrollment of students in all types of public schools in the State above the secondary school level, resulting in the rapid expansion of junior college, normal school and State college facilities; and

WHEREAS, It is apparent that unrestrained expansion in the field of higher education, together with a growing social conception that all young people, regardless of aptitude, are entitled to the privileges thereof, are lowering the standards of academic achievement as well as adding to a steadily increasing tax burden with no sign of relief; and

WHEREAS, There is a necessity for the establishment of a basis of effective control and direction in the development of a program of higher education for California which can be justified as reasonably responsive to the actual needs of the State; now, therefore, be it

Resolved by the Assembly of the State of California, That The Board of Regents of the University of California be requested to make a comprehensive survey of the educational needs of the State and submit to the Legislature of the State of California its recommendations for the coordination of the scope and activities of the various public educational institutions engaged in educational work above the secondary level, and for the establishment and maintenance of sound policies therefor; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby instructed to forward copies of this resolution to The Board of Regents of the University of California

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, June 12, 1941

Honorable Charles M. Weber, Assembly Chamber
State Capitol, Sacramento, California

SUBJECT: Constitutional vote requirement as to appropriation bills, and status of Assembly Bill No. 1264

DEAR MR. WEBER: We are pleased to transmit our opinion in which we discuss these two points and offer the suggestion that the Assembly might wish to have one of its committees consider the feasibility and desirability of formulating a rule of procedure for the method of handling such appropriation bills in the future.

Yours very truly,

FRED B. WOOD, Legislative Counsel

Memorandum of Opinion

IN RE: Assembly Bill No. 1264, and vote required to pass a bill containing a General Fund appropriation, after the prescribed base for the biennium has been exceeded.

Question: What is the status of Assembly Bill No. 1264 on this tenth day of June, 1941?

Facts: This is a bill to create a Third Division of the District Court of Appeal, Second District, and to make an appropriation of $71,226 for the support of said division during the ensuing biennium.

Originally the bill was designed also to provide a clerk, a bailiff and a reporter for the new division but that feature was taken out by the amendment of May 22, 1941.

On June 7, 1941, this bill was on the Assembly third reading file and in due course that day was read the third time (Assembly Journal, pages 4093 and 4094), received a recorded vote of 45 ayes and 31 noes, the chair announcing that the bill had thereby been "refused passage" (page 4143).

It also appears as a fact (though not from any express statement to that effect in the Journal) that this roll was called, this vote was taken, in accordance with a belief and practice that a bill in the situation of this bill required a two-thirds vote for passage; i.e., the base for General Fund appropriations for the ensuing biennium having been exceeded by the Budget Bill, Assembly Bill No. 1800, all appropriation measures subsequently considered must receive such a vote or fail of

passage—that such a bill receiving more than 40 and less than 54 votes could not be deemed to have "passed" with an inoperative appropriation clause

The existence of this belief and practice is borne out by the action taken on Assembly Bill No 689. It was a bill to create a State Division of Shore Protection, defining the function of the Division and appropriating $15,000 for its support. It received a vote of 41 ayes and 13 noes, upon the basis of which it was declared to have been "refused passage" (Assembly Journal, pages 4092, 4108 and 4109).

Following the announcement of the vote on Assembly Bill No. 1264, and declaration of the effect thereof, other business was transacted by the Assembly, including action taken upon Assembly Bills Nos. 1002, 1904, 1608, 2016, 2022, 2135, 2136, 2108, and Assembly Concurrent Resolutions Nos 21, 46, 49 and 37 (Assembly Journal, pages 4143 to 4150).

Then a question was raised, whether or not Assembly Bill No 1264 had actually "passed," it having received more than 40 votes though less than 54 The Assembly resolved itself into a Committee of the Whole, discussed the matter in Committee, and then arose and reported (Assembly Journal, page 4150).

Thereupon a motion was made "to expunge the record and rescind the action whereby Assembly Bill No. 1264 was this day *refused passage*." This motion was lost by a vote of 38 ayes and 28 noes (Assembly Journal, page 4151).

The Issues:

(1) Does the Constitution provide that such a bill is deemed "passed" by a vote of more than 40 and less than 54, containing an appropriation clause that is void and inoperative?

(2) Is this particular bill, Assembly Bill No. 1264, in view of its history as above related, properly deemed a bill that has been passed or one that has been refused passage by the Assembly?

Opinion: We are of the opinion:

(1) The Constitution requires but 41 votes for the passage of such a bill by the Assembly, the 54 vote requirement going only to the effectiveness of the appropriation clause.

(2) This particular bill, Assembly Bill No. 1264, in view of its history as above related, should not be considered as having "passed" despite the fact that it received more than 40 aye votes.

(3) It would seem appropriate to formulate a written rule of procedure to govern such cases in the future.

Analysis

(1) *As to the votes required by the Constitution*

The general rule is that it takes a favorable vote of a "majority of the Members elected to each house" to pass a bill (Art. IV, Sec. 15) and that such is a sufficient vote therefor.

The only exceptions are those specifically expressed in the Constitution itself; such as two-thirds to overrule a veto (Art. IV, Sec. 16) or to authorize the deposit of public moneys in banks (Art XI, Sec. 16½).

Here, we are concerned with the provisions of Section 34a of Article IV.

It prescribes a base which the biennial "appropriations" from the General Fund (except for support of the Public School System) may not exceed "unless two-thirds of all the Members elected to each house of the Legislature vote in favor thereof."

It then provides that if the appropriations in the Budget Act for any biennium exceed this limit, and that "act be not passed by such two-thirds vote, the several items of appropriation" in it "shall be deemed reduced" pro rata so as not to exceed that limit.

It then says:

> "Should the prescribed limit for any biennium be exceeded by reason of any other appropriation or appropriations from the General Fund, then the appropriation first passed by the Legislature without such two-thirds vote, which exceeds such prescribed limitation, shall be deemed reduced by the amount of such excess, *and all other subsequent appropriations from the General Fund not passed by such two-thirds vote shall be void.*" (Italics ours)

Down to the portion we have italicized, there can be no doubt that if the bill gets a majority (but less than two-thirds) in either house, it is still a bill and it has "passed" that house. Otherwise there would be no "appropriation" that would be subject to a reduction.

Nor would it matter how much of a reduction the bill suffers, whether by $10 or $999 to 50 cents In such a case there is still a bill, and it has "passed"

The same result, we believe, obtains in the case of a bill whose "appropriation" is entirely over the limit, which "appropriation" (not the bill) is void if but a majority vote is given the bill in one house or the other.

In such a case the bill "passes" but the "appropriation" in it is "void" and of no effect

(2) *As to the present status of Assembly Bill No 1264*

The roll was called, the vote announced, and the result declared in accordance with a practice and in the belief that the Constitution requires a two-thirds vote for the "passage" of such a bill as this

It might be urged that this was a mere mistake of law which is irrelevant to the counting of the votes, that the bill did receive the requisite majority, must be considered as having "passed" the Assembly.

But the problem is not so simple as that.

The Chair, pursuant to the practice above mentioned, announced that the bill had been "refused passage"

No appeal was made from the decision of the Chair.

A considerable amount of other business was transacted before any question was raised

Then a motion was made and lost to expunge the record and rescind the action whereby this bill "*was this day refused passage*" This action seems equivalent to a decision by the house that the bill had been refused passage

In the face of this record it is difficult to see how one could *now* say that this bill had passed It is not a mere matter of counting the votes anew It involves cutting through the record of these decisions, twice made, that the bill did not pass.

Moreover, that is not the whole of it.

Take the situation a Member was in when the vote was taken on this bill

He may have been for the bill with the appropriation in it, but opposed if the bill carried no money

He may well have been in favor of creating an additional division in the Second District Court of Appeal if by the same measure money for the support of the new division was made available He may have been opposed to setting up the new division by this measure if at that time it appropriated no money and thereby created a $71,226 charge against the Emergency Fund

He voted for the bill in the belief (in accord with the Assembly precedents and practice) that it took 54 votes to pass the bill, that there would either be a bill with a suitable appropriation or no bill at all

The vote was 45 Had he known, or had he reason to believe this vote would result in a bill without any money, he likely would have changed his vote from 'Aye' to "No" before the announcement of the total, as was his right under the Rules.

Other Members, sharing the same views, might have done the same The bill might thus have received less than 41 ayes It is impossible now to determine, for those votes can not now be changed.

It thus appears that there are strong equities against a literal, legalistic application of the constitutional provision that a majority vote "passes" the bill with an inoperative appropriation clause

It appears to us it is not a mere matter of correcting an erroneous announcement of the vote on a bill as a result of error in counting the recorded vote There are *precedents for the correction of such errors at subsequent proceedings* (*Cushing, Law and Practice of Legislative Assemblies*, Sec. 2402)

Nor is it a mere matter of correcting an assertedly erroneous announcement of the result (passage or nonpassage of a bill), the record showing the actual number of votes cast for and against the measure—whatever the procedure might be for correcting such an announcement.

It involves consideration of the existence of a belief and a practice (two-thirds necessary to pass the bill) upon the basis of which the Members made their decisions when they cast their votes

Nor is it the situation which obtains when a bill contains provisions later found and declared by the courts to be unconstitutional In such a case there is a bill which if passed becomes a statute (viewed from the procedural standpoint) though inoperative in part or as a whole, according as the invalid portion is separable or nonseparable from the rest of the bill

In this situation, as to this particular bill, the only further action which might seem available would be another motion to rescind and expunge. This would require a suspension of the Rule against renewal of the same motion If that resulted in rescission, the three-fourths consent would be required to take up the bill for passage

(3) *As to the Propriety of a Rule of Procedure*

This suggests the propriety of formulating and adopting a rule of procedure applicable to this type of bill in the future

A *precedent is furnished by the action taken in 1913, and following, in relation* to "immediate effect" bills

One thousand nine hundred thirteen was the first bifurcated session There was uncertainty as to the exact meaning of that clause of Section 1 of Article IV which deals with "immediate effect" bills

The Senate Judiciary Committee recommended

(1) That any act falling in that category (elections, tax levies, current expense appropriations, urgency measures) "shall be passed by a two-thirds vote";

(2) That only an "urgency measure" required a separate section (statement of facts showing the necessity) to be passed by a vote upon a separate roll call;

(3) That any act calling an election, providing for a tax levy, or making an appropriation for current expenses (if to take effect immediately) should contain a section substantially in these words, "This act, inasmuch as it * * * shall under the provisions of Section 1 of Article IV of the Constitution take effect immediately." (Senate Journal, 1913, p 226)

Those recommendations apparently became the practice in the Senate Whether or not they were actually written into the Senate Standing Rules of that period, we have not ascertained

The Joint Rules for a long time did contain a provision that upon third reading of an "urgency measure," the question as to the urgency section would be put thusly:

"Shall this section setting forth the urgency feature of this bill be passed?"

If the vote on that question was less than two-thirds "no further action" was to be taken on the bill (Joint Rules of 1919 and of 1923, Rule No 34)

We have not, within the time limited since this question arose, undertaken to formulate any concrete suggestions as to a rule of procedure for use in the future in connection with bills of the nature of Assembly Bill No 1264

It is a matter which the Assembly, or its Rules Committee, might wish to take up for consideration.

In a sense, the practice which has grown up in relation to such measures might be considered a rule of practice not in writing, which with some modifications (analogous to the former Joint Rule on "urgency sections") well might be reduced to writing for incorporation in the Standing Rules

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 12, 1941

To the Honorable Members of the Assembly
State of California, Sacramento, California

GREETINGS. I have heretofore vetoed Assembly Bill No. 243, feeling that in the event it became law there would be a period during which there would be no legally effective Fish and Game Commission.

Since vetoing the bill I have submitted my nominations for appointments to the Fish and Game Commission to the Senate and I have been informed that the Senate has this day confirmed my nominations.

That action of the Senate eliminates my objections to Assembly Bill No. 243 and I therefore recommend that the Legislature vote to enact this measure notwithstanding my veto.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

COMMUNICATIONS

The following communication was received and read, and ordered printed in the Journal:

THE WHITE HOUSE, WASHINGTON, June 3, 1941

Honorable Gordon H. Garland, Speaker
Assembly, California Legislature
State Capitol, Sacramento, California

MY DEAR MR GARLAND: Thank you for your letter dated April 22nd, transmitting a copy of Assembly Joint Resolution No. 21 which was adopted in the Assembly of the California Legislature on January 25, 1941, and subsequently in the Senate on April 15, 1941. This joint resolution urges the establishment of plants for the conversion of surplus fruit and vegetables into alcohol for use in the National defense as an auxiliary fuel.

While it is true that a number of foreign countries process agricultural materials for the production of alcohol as a motor fuel, it is equally true that the motor fuel economy of countries possessing no petroleum resources is very different from such economy in the United States. It has never been established in this country that the conversion of agricultural products into motor fuel is economically feasible or necessary for National defense.

On the other hand, it has been recognized for some time that a real need exists in this country for the development of all the information possible on this very contentious subject. Hence a pilot-plant is being set up at the Northern Regional Research Laboratory of the Department of Agriculture at Peoria, Illinois, to make such studies. Until this plant is completed and has been in operation on a variety of agricultural products for such time as may be required for the collection of essential data, it would not seem advisable to undertake the project advanced in Assembly Joint Resolution No. 21.

For your information, there is enclosed a copy of Department of Agriculture Miscellaneous Publication No. 327, "Motor Fuels from Farm Products".

Very sincerely yours,

FRANKLIN D. ROOSEVELT

Poem by Hon. Roger Alton Pfaff on Resolution on Hon. Allen G. Thurman Wedding Anniversary

Like ships upon the boundless sea
We meet with friends so dear,
Then sail on swiftly from the ones
We fain would linger near.

Sometimes I wish the winds would cease,
The waves be quiet, too,
And let me sort of drift along
Beside such friends as you.

RESOLUTIONS

The following resolution was offered:

By Mr. Tenney:

House Resolution No. 277

Relative to the creation of an Assembly Fact-Finding Committee on Un-American Activities in California to investigate the activities of persons and groups known or suspected to be foreign dominated or controlled and recommend legislation for their regulation.

WHEREAS, These are times of public danger. Subversive persons and groups are endangering our domestic unity so as to leave us unprepared to resist aggression. Under color of the protection afforded by the Bill of Rights these persons and groups seek to destroy our liberties and our freedom by force, threats and sabotage and to subject us to the domination of foreign powers.

Recent announcements by responsible officials of the Federal Government indicate the seriousness of the problem. In his message to the Congress on January 3, 1941, the President said: "The first phase of the invasion of this hemisphere would not be the landing of regular troops. The necessary strategic points would be occupied by secret agents and their dupes—and great numbers of them are already here, and

in Latin America." State legislation to meet the problem and to assist law enforcement officers can best be based on a thorough and impartial investigation by a competent and active legislative committee; now, therefore, be it

Resolved by the Assembly of the State of California, That there is hereby created an Assembly Fact-Finding Committee on Un-American Activities in California which shall investigate, ascertain, collate and appraise all facts causing or constituting interference with the National Defense Program in California or rendering the people of the State, as a part of the Nation, less fit physically, mentally, morally, economically or socially; and be it further

Resolved, That in addition to other duties imposed upon the committee, the committee shall investigate the activities of groups and organizations whose membership includes persons who are members of the Communist Party, the Fascist organizations, the German Nazi Bund, or any other organization known or suspected to be dominated or controlled by a foreign power, which activities affect the preparation of this State for National defense, the functioning of any State agency, unemployment relief and other forms of public assistance, educational institutions of this State supported in whole or in part by State funds, or any political program; and be it further

Resolved, That the committee shall consist of five Members of the Assembly, appointed by the Speaker; and be it further

Resolved, That the committee shall continue the work of the Joint Fact-Finding Committee on Un-American Activities in California, created by Assembly Concurrent Resolution No. 13, and be it further

Resolved, That the committee hereby created in exercising the powers and performing the functions vested in it by this resolution shall have: (i) all the powers conferred upon legislative committees by Article 8, Chapter 2, Title 1, Part 3 of the Political Code; (ii) except when inconsistent with this resolution, all the powers conferred upon committees by the Rules of the Assembly, the Rules of the Senate, and the Joint Rules of the Senate and Assembly as they are enacted and amended from time to time and such rules are hereby incorporated herein and made a part hereof the same as if they were set forth in this resolution in full. The powers specified in such rules may be exercised by the committee after the final adjournment of this session; (iii) all powers necessary or convenient to accomplish the objects and purposes of this resolution, including but not limited to the following duties and powers.

(1) To select a chairman from its membership and to employ and fix the compensation of a secretary and such clerical, expert and technical assistants as it may deem necessary;

(2) To create subcommittees from its membership, assigning to the subcommittee any study, inquiry, investigation or hearing which the committee itself has authority to undertake or hold, and the subcommittee for the purpose of this assignment shall have and exercise all of the powers conferred upon the committee limited by the express terms of the resolution or resolutions of the latter defining the powers and duties of the subcommittee, which powers may be withdrawn or terminated at any time by the committee;

(3) To adopt and from time to time amend such rules governing its procedure (including the fixing of its own quorum and the number of votes necessary to take action on any matter) as may to it appear appropriate;

(4) To contract with such other agencies, public or private, as it deems necessary for the rendition and affording of such services, facilities, studies and reports to the committee as will best assist it to carry out the purposes for which it is created;

(5) To hold public hearings at any place in California at which hearings the people are to have an opportunity to present their views to the committee;

(6) To make a complete study, survey and investigation of every phase of the subject of this resolution including but not limited to the operation, effect, administration, enforcement, and needed revision of any and all laws in anywise bearing upon or relating to the subject of this resolution;

(7) To meet at any and all places in this State, in public or executive session;

(8) To act during this session of the Legislature, including any recess hereof, and after final adjournment hereof, until the commencement of the Fifty-fifth Legislature;

(9) To file a report with the Legislature during any session of the Fifty-fourth Legislature and with the Legislature during the regular session of the Fifty-fifth Legislature;

(10) To summon and subpena witnesses, require the production of papers, books, accounts, reports, documents, and records of every kind and description, to issue subpenas and to take all necessary means to compel the attendance of witnesses and procure testimony; and

(11) To do any and all other things necessary or convenient to enable it fully and adequately to exercise its powers, perform its duties, and accomplish the objects and purposes of this resolution; and be it further

Resolved, That the committee, each of its members, and any representative of the committee thereunto authorized by the committee or by its chairman, is authorized and empowered to administer oaths; and be it further

Resolved, That the Sergeant-at-Arms of the Assembly, or other officers designated by him, are hereby directed to serve any and all subpenas, orders and other process issued by the committee, when directed so to do by the chairman or by a majority of the membership of the committee; and be it further

Resolved, That every department, commission, board, agency, officer and employee of the State Government, including the Legislative Counsel, the Attorney General and their subordinates, and of any political subdivision, county, city, or public district of or in this State shall furnish the committee and any subcommittee, upon request, any and all such assistance, and information, records and documents as the committee or subcommittee deems proper for the accomplishment of the purposes for which the committee is created; and be it further

Resolved, That the members of the committee shall serve without compensation but shall be allowed mileage at the rate of five and one-half cents ($0.05½) per mile each way incurred in connection with their services upon the committee and other actual and necessary expenses for living accommodations and meals, incurred in connection with their services upon the committee, or in lieu of such expenses for accommodations and meals an allowance of eight dollars ($8) per day; and be it further

Resolved, That the sum of fifteen thousand dollars ($15,000) or so much thereof as may be necessary is hereby made available from the Contingent Fund of the Assembly for the expenses of the committee and its members, and for any charges, expenses or claims it may incur under this resolution, to be paid from the Contingent Fund of the Assembly and disbursed, after certification by the chairman of the committee, upon warrants drawn by the State Controller upon the State Treasurer.

Resolution read, and referred to Committee on Rules.

House Resolution No. 278

WHEREAS, The State Board of Equalization, together with Members of the Legislature, sponsored the Stewart-Riley Tax Plan of 1933 when the State and county finances were in a state of chaos; and

WHEREAS, The revenues derived from the present tax laws enacted as a result of this plan make it apparent that no new or increased taxes are needed in California; and

WHEREAS, The revenues derived from the taxes have enabled the Public School System to continue unimpaired and education in California to maintain the enviable position which it occupies; and

WHEREAS, The State of California now is operating on a cash basis for the first time in many years and its financial status is unquestioned; and

WHEREAS, A study now is being given by the State Board of Equalization, the Controller, and Members of the Legislature to the end that all taxpayers may be benefited by a substantial reduction in their tax burden; and

WHEREAS, The State Board of Equalization, together with the State Controller, has, or will, levy, assess, or collect in excess of four hundred sixty million dollars ($460,000,000) in taxes for the current biennium; and

WHEREAS, The cost of tax administration in this State in proportion to the amount of revenue collected is so low that it sets a standard which every other State in the Union is striving to equal; and

WHEREAS, It is self-evident that this satisfactory result is due in no small part to the efforts and diligence of the State Board of Equalization and the Controller; now, therefore, be it

Resolved, By the Assembly of the State of California, that Fred E. Stewart, co-author of the Stewart-Riley Plan, be commended for his farsightedness and efforts in bringing the plan to the successful culmination which has ensued; and be it further

STATE OF CALIFORNIA, DEPARTMENT OF FINANCE
SACRAMENTO, June 13, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: In order that the Members of the Legislature may be informed as to the consequences which may result from a stoppage of Federal funds now contributed

to the administrative budget of the State Department of Social Welfare. I wish to call your attention to the fact that approximately 70 per cent of such administrative budget comes from Federal subvention. Upon this basis additional appropriations from the General Fund aggregating as much as $1,586,677 might become necessary.

It has been the experience of other States that such loss of Federal funds may not be made up by retroactive grants from the Federal Government.

In order that the Senate may have the complete facts before them, I am enclosing a statement showing the amount of Federal administrative funds in relation to the total budget of the Department of Social Welfare for the administration of the categorical aids

In addition to the loss of Federal administrative grants used for the support of the State Department of Social Welfare, the 58 counties of the State would stand to lose grants totaling $3,672,395 in the next biennium which otherwise would be available to assist them in meeting the local cost of administering the three categorical aid programs. The loss of these Federal administrative funds would further complicate the more serious danger to State and county budgets involved in the threatened withdrawal of Federal grants for aid purposes.

Respectfully submitted.

WAR DEPARTMENT, OFFICE OF THE QUARTERMASTER GENERAL
WASHINGTON, June 9, 1941

Mr. Arthur A Ohnimus, Chief Clerk
Assembly, California Legislature
State Capitol, Sacramento, California

DEAR SIR Your letter of May 16, 1941, addressed to the President of the United States and inclosing Assembly Joint Resolution No 40, was forwarded to this office for reply.

It is noted that the first statement contained in the resolution states: "Numerous reports have been received that the enlisted personnel in Military and Naval establishments in this State have been denied oranges and other healthful citrus fruits in their food menu." This office has received a copy of the menus used by Army organizations in the State of California since April 1st, and it has been found that citrus fruits have been and are being used in substantial quantities. We are pleased to inform you that this same condition is true in the Army in all other parts of the United States, and that citrus fruits, particularly oranges, form a very important part of the soldier's diet.

If you have at hand any reports which indicate that soldiers at stations in California have been denied fruits, it is requested that this office be given the name of the Army station concerned and immediate steps will be taken to see that the condition, if it actually exists, is corrected.

For the Quartermaster General:

C L CORBIN, Brigadier General, Q M. C. Assistant

WAR DEPARTMENT, THE ADJUTANT GENERAL'S OFFICE
WASHINGTON, June 6, 1941

Mr. Arthur A. Ohnimus, Chief Clerk, Assembly
California Legislature, Sacramento, California

DEAR SIR: Further reference is made to your letter of May 14th, transmitting copy of Assembly Joint Resolution No. 50 adopted by the California Legislature on May 6, 1941, concerning the development of the Corcoran Airport in connection with the defense program.

The War Department has no current plans for construction of an airport in the locality in question.

The correspondence, however, has been made of record and you may be assured that the facilities available at Corcoran will receive due consideration in the event the need for a site in that vicinity should arise.

Very truly yours,

E. S. ADAMS, Major General
The Adjutant General

Mr. Arthur A. Ohnimus, Chief Clerk,
California Legislature, Sacramento, U. S. A.

I am pleased to refer to the very kind communication that you were gracious enough to address to my executive expressing your sincere condolences to the citizens of Colima in their suffering—which sad situation is due to the heavy earthquake registered on the fifteenth of April of this year.

With the same communication, we received page 2505 of the Daily Journal of your Honorable Legislature in which the resolution taken by the Assembly was accepted in regard to sending the expressions of condolence herein mentioned

In the name of the citizens of Colima and in my own, I am happy to express to your High Legislative Body my most profound thanks for such a sincere expression of fraternity in such moments of sacrifice as those through which we are passing.

I protest to you the assurances of my attentive and distinguished consideration.

MESSAGES FROM THE SENATE

SENATE CHAMBER, SACRAMENTO, June 13, 1941

MR. SPEAKER: I am directed to inform your honorable body that the Senate refused to sustain the Governor's veto to:

Senate Bill No. 1078—An act to amend the Building and Loan Association Act by adding thereto a new section to be numbered Section 13.16d, relating to building and loan associations, including the rehabilitation, readjustment, reorganization or plans for the liquidation of such an association, or of all or of any part of the business, property and assets of such association, or the readjustment, modification or reorganization of the rights or interests of any or all investors and creditors of such association; providing for the kinds of securities issuable in connection therewith and exempting such securities from the necessity of a permit under the Corporate Securities Act; authorizing executors, administrators, guardians, receivers, trustees, insurance companies and cemetery associations to consent to a plan as defined in said Section 13.16d, and exchange shares, stock, investment certificates or other rights or claims for securities issued pursuant to such plan and to continue to hold as a legal investment any securities so received; and exempting the proposer or proposers of a plan from the provisions of an act approved July 1, 1937, being Chapter 784 of the Statutes of 1937.

Herewith is a copy of the Governor's message relating to said bill.

J. A. BEEK, Secretary of the Senate
By JOHN F. LEA, Assistant Secretary

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 23, 1941

To the Honorable Members of the Senate
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Senate Bill No. 1078, entitled:

> "An act to amend the Building and Loan Association Act by adding thereto a new section to be numbered Section 13.16d, relating to building and loan associations, including the rehabilitation, readjustment, reorganization or plans for the liquidation of such an association, or of all or of any part of the business, property and assets of such association, or the readjustment, modification or reorganization of the rights or interests of any or all investors and creditors of such association; providing for the kinds of securities issuable in connection therewith and exempting such securities from the necessity of a permit under the Corporate Securities Act, authorizing executors, administrators, guardians, receivers, trustees, insurance companies and cemetery associations to consent to a plan as defined in said Section 13.16d, and exchange shares, stock, investment certificates or other rights or claims for securities issued pursuant to such plan and to continue to hold as a legal investment any securities so received; and exempting the proposer or proposers of a plan from the provisions of an act approved July 1, 1937, being Chapter 784 of the Statutes of 1937."

My objections to this bill are generally and specifically as follows:

1. The objective of the bill is to circumvent action taken by the Building and Loan Commissioner in the performance of his duty to protect from further manipulation, mismanagement and loss the interests of the certificate holders of the Pacific States Savings and Loan Company, which had ceased to function as such and the assets of which were impaired to an extent exceeding $10,000,000

Of all the building and loan associations in California, numbering more than 100, there is only this one association, and its condition, to which this legislation relates. There is no need or reason, nor is there any demand for this legislation except the desire that comes from the former management of the Pacific States Savings and Loan Company, representing a stockholding company which has no real interest in its assets. This bill would not have been presented to the Legislature but for the fact that it was sponsored by the individual who controls that stockholding company. It was introduced after the refusal of the Legislature to adopt an initiative measure,

sponsored by him, as a vehicle which would enable him again to secure control of the assets of this association acquired with the savings of its depositors. These assets were taken over by the Building and Loan Commissioner for the protection of the holders of the certificates of these savings deposits, to whom they belong. Their operations are in competent hands, their earnings are being paid to the certificate holders, their management and careful disposition will go forward, and the moneys therefrom will be paid to the 40,000 or more certificate holders entitled thereto unless obstruction is placed in the way under provisions of a bill such as this.

In long-drawn-out litigation, instituted by the ousted management in an endeavor to recover possession of Pacific States assets, the evidence is clear and unimpeachable that the condition of this association and the illegal manner in which its assets had been handled to defeat the interests of the certificate holders, required the action taken by the commissioner. Protraction of that litigation has been due solely to the activities of the former management for the purpose of delaying final determination until legislation could be procured giving opportunity to promote a reorganization plan to place these assets into another organization, possibly a general corporation, which could be used as a vehicle for a continuance of the practices by which thousands upon thousands of small investors have been maneuvered out of their savings. This bill gives such an opportunity. If it became a law it would mean not the end of litigation regarding the assets of the Pacific States Building and Loan Company, but an indefinite continuation thereof in which the struggle of the State to protect the interests of the 40,000 deposit certificate holders, to whom its assets belong, would be made all the harder!

2. Support of the foregoing general objections is found in the provisions of the bill itself. In the litigation started by the former management to regain possession of the assets of Pacific States, expert witnesses appointed by the court itself have testified that the company is insolvent to an extent exceeding ten million dollars ($10,000,000). These experts determined the actual or fair market value of all the assets in accordance with the only rule of evidence ever used in such cases in California or in any other State.

The bill provides for a new proceeding to be started for reorganization, in which proceedings the condition of the company would be determined according to a different rule of evidence for the determination of value, so speculative and conjectural as to be almost meaningless in itself, thus giving an opportunity to the stockholding interest to introduce evidence of value that is fictitious instead of actual. If by the use of this different rule of evidence as to value, the stockholding company and the old management controlled by one individual could make it appear that the stockholder has an equity in the assets, it would, under the provisions of this bill, be in a position to veto any plan of reorganization which did not give that individual effective control.

Supplementing the new rule of evidence is a provision that the trial in the pending case may be stayed. Since the condition of the company would be determined by a rule of value different from the established rule followed in the present case, findings of the experts and the court in the present case would be considered of no use and effect. All proceedings would be stopped, as this litigation is about to end in final judgment. Any finding of the court as to mismanagement or manipulation by the stockholding interest may, in this manner, be suppressed, and all of the time employed and expense incurred in establishing the facts of the case would be wasted if this bill becomes law.

It appears to me that this legislation would come to the rescue, so to speak, of a party litigant, removing him from the jurisdiction of one court and starting him off in another under rules made to favor him. In this respect this measure is an unwarranted and unjustifiable interference with the judicial process already in motion.

During the many years the present law has been in effect, a large number of building and loan associations have been taken over by the State. The rights of their various classes of investors have been determined and their affairs administered. There have been no complaints about any injustices in the law. There seems to be no reason to change the law now to apply especially to the Pacific States case.

To my mind this bill can do nothing but harm to the 40,000 investment certificate holders who, as creditors of Pacific States, are entitled to first consideration in the disposition of its assets. The new proceeding provided by the bill would mean more litigation—not less—endless delay before the certificate holders could be given the relief for which they are waiting, and a great deal more expense. All of this unnecessary expenditure of time and money could only be for the purpose of giving the former management an opportunity to make some kind of a showing that would furnish the basis for its being restored to possession and control so that it may further exploit assets belonging to others.

Many of the certificate holders are elderly; time means a great deal to them. Most of them are greatly in need of the money they have invested in this company; they have relied upon their legal right to withdraw it and upon the State to protect that right. Relief will be brought to them sooner by permitting the present trial to go to judgment. Certainly it is not just public policy to provide ways and means for those who are engaged in efforts to obstruct this result to continue further that obstruction by endless litigation in addition to that which they have already been able

to devise. The law is already broad enough to permit certificate holders who wish to reorganize to acquire and operate assets of the company after the court renders judgment in the present case.

In my opinion, if this measure were to become a law it would perpetrate a cruel injustice upon those whose interests it is our duty to protect

Respectfully submitted

Except as herein otherwise provided, all other provisions of this act shall continue to be applicable in connection with such benefits.

(1) The term "Military Service" as used in this section means active service in the Land or Naval Forces of the United States, but the service of an individual in any reserve component of the Land or Naval Forces of the United States who is ordered to active duty in any such force for a period of 30 days or less shall not be deemed to be active service in such force during such period.

For all quarters so excluded there shall be substituted an

(5) No disqualification shall be applied to any trainee after the termination of his Military Service, by reason of any act or course of action on his part prior to the date of his entry into such service.

(6) If, under an act of Congress, payments with respect to the unemployment of individuals who have completed a period of Military Service are payable by the United States, a trainee shall be disqualified for benefits with respect to any week for which he receives such benefits and no benefits shall be paid under this act until he has exhausted all his rights to such payments from the United States."

MESSAGES FROM THE SENATE

SENATE CHAMBER, SACRAMENTO, June 14, 1941

MR SPEAKER. I am directed to inform your honorable body that the Senate on this day refused to sustain the Governor's veto to

Senate Bill No. 169—An act to amend Section 317 of the Agricultural Code, relating to slaughterhouses.

Herewith is a copy of the Governor's message relating to said bill.

J. A. BEEK, Secretary of the Senate
By JOHN F. LEA, Assistant Secretary

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 12, 1941

To the Honorable Members of the Senate
Sacramento, California

GREETINGS. I am returning herewith, without my signature, Senate Bill No. 169, entitled "An act to amend Section 317 of the Agricultural Code, relating to slaughterhouses."

My objections to this bill are as follows:

This bill provides that the owner of a slaughterhouse who feels that the building requirements of the department are unreasonable may protest to the director; that the protest shall be determined by an arbitration committee of three—one selected by the department, one by the owner and the third by the first two—and that the decision of the arbitration committee shall be final and binding upon the department and the owner. During the Fifty-third Session of the Legislature, I returned without my signature Senate Bill No. 285 which similarly provided for such arbitration. The reasons then given are applicable to this bill and are here restated:

> "The correspondence I have received from several small slaughterhouse operators indicates that this bill was introduced in response to their complaints *that higher and more burdensome standards have been fixed for them in the* administration of the present law than the average of sanitary and building standards required and actually in force in other slaughterhouse establishments. I agree that such discriminations would be inexcusable; in fact they would constitute a violation of duty on the part of officials charged with the enforcement of the present law. If any such violations have occurred, or if unreasonable standards or requirements are made they can and will be corrected by administrative order. Complaints with reference thereto should be made to the Director of Agriculture.
>
> The provisions of this bill, it seems to me, would defeat its purpose to establish uniformity in sanitary and building requirements for all establishments subject to regulation. It would permit the arbitrary fixing by arbitration committees of different standards and requirements in different localities and in individual plants than obtained in others.
>
> The Legislature may deem it advisable to set up uniform standards more specifically than the present law provides. But this act would break down all standards. It would delegate to unofficial agencies powers which should be exercised only by duly qualified administration officers. It would be detrimental to the establishment of reasonable and uniform public health and sanitary regulations affecting the operations of slaughterhouses."

There now exists a further reason why this bill should not become law, which is that it would undoubtedly defeat the efforts of the Department of Agriculture and of the California meat packing industry to secure Federal recognition of California meat inspection so that meat packed in California plants under State inspection may be sold to Federal agencies and particularly to the Military and Naval authorities of the United States. At the present time these authorities will accept only Federal inspected meat. That the Legislature is fully cognizant of this situation is demonstrated by Senate Joint Resolution No. 4 adopted at the present session of the Legislature, memorializing the Congress and the President to take action to provide that meat inspected and passed under the California Meat Inspection Law may be sold to and purchased by the United States and its agencies. I doubt that the Legislature in enacting this bill realized that the destruction of the standards of the California meat inspection service made possible by this bill would defeat such purpose and thereby be *disadvantageous to the California* industry. Under the present law the standards are required to conform to the Federal standards as nearly as possible (Agricultural Code, Section 315). Under this law such standards would conform to the individual ideas of the different arbitration boards.

For the reasons above stated, I am returning the bill without my signature.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 14, 1941

To the Honorable Members of the Assembly
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Assembly Bill No. 2634 entitled "An act to repeal Section 2.600 of the School Code and to repeal an act entitled "An act providing for the organization of certain elementary school districts into union or joint union high school districts," approved April 30, 1929, and to add Section 2.600 to the School Code, all relating to the formation of high school districts"

My objections to this bill are as follows:

The bill repeals the existing Section 2.600 of the School Code and then adds another section of the same number, thus, in effect, amending the present section. The present Section 2.600 of the School Code provides a procedure whereby two or more elementary school districts which are included within a union or joint union high school district, under certain conditions, may withdraw from the union or joint union high school districts of which they are a part and form a new and smaller union or joint union high school district

This bill removes certain restrictions in the existing section and would permit a single elementary school district to withdraw from the union or joint union district and to form a new high school district, or a new and smaller union or joint union high school district.

The bill then adds a provision that the entire Section 2.600 shall not apply except in a county which has a population of between 280,000 and 290,000 under the 1940 Census.

Thus, a procedure which has heretofore been State-wide in scope where the conditions prescribed by the section are met will be limited to a single county.

From a constitutional point of view, there would seem to be little doubt that this bill is special legislation, prohibited by Section 25 of Article IV of the Constitution, as well as other sections thereof. Your attention is particularly called to Subdivision 27 of Section 25 of Article IV of the Constitution, prohibiting special laws "providing for the management of common schools." While the decisions of the State have recognized in some instances that valid classifications of school districts may be made, it is clear that any such classification must be based upon a natural and intrinsic distinction, and the courts have had no hesitation in holding that an attempted classification is void unless this natural and intrinsic distinction actually exists. The provisions of this bill, limiting its application to a single county, would appear to be clearly arbitrary. It might be that identical conditions as to assessed valuation, number of pupils, and all other matters mentioned in the section would exist in two different counties of the State. Such being the case, under the authority of the case of *Los Angeles City School District* vs. *Griffin*, 3 Cal. (2d) 651, I think there is little doubt but what the attempted classification would be held invalid. (See also *Chitwood* vs. *Hicks*, 219 Cal. 175.)

Aside from the constitutional problem, I believe this bill is wrong in principle. The effect of the bill is to facilitate the breaking up into smaller units of existing administrative agencies. Sound educational policy dictates the inadvisability of breaking up large units into smaller ones. This policy is founded first upon the avoidance of duplication of effort, it being undeniable that larger units can more economically and efficiently handle administration than a number of smaller units. Larger districts can offer more facilities than smaller ones. The second consideration in this policy is the desirability of uniformity in the administration of public schools. Any breaking up of a larger unit into smaller ones would create a problem to retain the existing uniformity.

I have received numerous protests against this bill from residents and taxpayers of the area affected by it. Apparently an elementary district desires to withdraw from a union high school district. This district has a much higher percentage of the assessed valuation than it does of the students of the union high school district. If this should occur, I am informed that the remainder of the union high school district would be left in an impoverished condition, and that its efforts to provide educational facilities, not only to the children of the district, but to nearly 2,000 adults enrolled in adult classes, and to over 300 vocational students preparing for their places in the National Defense Program would be seriously curtailed. The Federal Government has furnished money with which to buy machinery and equipment for use by schools of the district. The cooperative program between the district and the Federal Government might be seriously hampered.

Under these circumstances I have no alternative but to return the bill.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

Assembly Bill No. 2634 ordered to unfinished business file.

REQUEST TO PRINT PLEDGE IN JOURNAL

In observance of Flag Day, Mr. Gaffney requested that the following pledge to the Flag, appearing in a local paper, be printed in the Assembly Journal.

Request granted.

A Pledge Renewed

By solemnly if silently renewing the pledge they have kept for more than a century and a half, the people of the United States today will observe the anniversary of a memorable date in their Nation's history.

For today the Nation will commemorate the 164th birthday of the Flag of the United States of America—proud symbol for which more than 130,000,000 Americans stand ready to give their lives today if need be, just as their forefathers pledged their lives 164 years ago to keep the new Stars and Stripes flying in all their splendor.

In only two States is Flag Day a legal holiday. But throughout the entire Nation it will be a fitting occasion for Americans to ponder the many perils that confront their Flag wherever it waves in the strife-torn world, and to reiterate their pledge of allegiance.

" * * * to the Flag of the United States of America,
And to the Republic for which it stands,
One Nation, indivisible,
With liberty and justice for all."

The solemn obligations which that pledge entails have never been more pressing, nor its implications more far-reaching, than they are now.

RESOLUTIONS

The following resolutions were offered:

By Messrs. Robertson, Howser, F. N., Bennett, Green, Houser, Frederick F., Garland, and Miss Miller:

House Resolution No. 282

Relative to memorializing the President and Congress against the passage of legislation to prohibit the filing of separate income tax returns by spouses in reference to community income.

WHEREAS, There is now pending before the Congress of the United States a bill to prohibit a wife from filing a separate income tax return on her share of community property income and taking the credits and deductions thereon to which she is now legally entitled; and

WHEREAS, This represents a fundamental change in our Federal income tax policy, and, in the States where community property laws are in effect, would contravene the well-established principle that a wife has a vested right in community property equal to that of her husband; and

WHEREAS, The change contemplated would result in a disproportionate increase in the taxes of those persons affected throughout the country, including California, would constitute a very material increase over the increase imposed on taxpayers in noncommunity property States, and would disregard the fact that the taxpayers of this State are carrying one of the largest per capita tax loads in the Nation; and

WHEREAS, To make this change at the present time would be to place an unconscionable burden upon the citizens of California who have been carrying their full share of the normal costs of Government and the National Defense Program; now, therefore, be it

Resolved by the Assembly of the State of California, That the people of the State of California hereby register an emphatic protest against the passage of the bill now pending in Congress to which this resolution relates; and be it further

Resolved, That the Chief Clerk of the Assembly forward a copy of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives of the Congress of the United States, and to each Senator and Member of the House of Representatives from California in the Congress of the United States.

Request for Unanimous Consent

Mr Robertson asked for, and was granted, unanimous consent to take up House Resolution No. 282, at this time, without reference to committee.

By Mr. John B. Knight:

House Resolution No. 283

WHEREAS, It is the belief of the property owners along and in the vicinity of North Figueroa Street in the City of Los Angeles, that a northerly extension of said North Figueroa Street through the San Rafael Hills from Colorado Street to Foothill Boulevard near La Canada would provide a desirable connection to State Highway Route 61 (commonly known as Angelus Crest Highway) running northerly from La Canada; now, therefore, be it

Resolved by the Assembly of the State of California, That the Division of Highways of the Department of Public Works is hereby authorized and directed to make a study and reconnaissance survey of the above described routing; and, be it further

Resolved, That a report of such study and survey be prepared and presented to the Fifty-fifth Session of the California Legislature.

Request for Unanimous Consent

Mr. John B. Knight asked for, and was granted, unanimous consent to take up House Resolution No. 283, at this time, without reference to committee.

WHEREAS, The tentative program of the Code Commission for the next biennium contemplates the preparation of a Water Code, a revision of the School Code, and the completion of the Revenue and Taxation Code, the Business and Professions Code, the Public Resources Code, and the Streets and Highways Code; and

WHEREAS, It is the practice of the Code Commission to prepare preliminary drafts of proposed codes in mimeographed form for distribution to interested persons and groups for study and criticism prior to submission to the Legislature, but distribution by such means is necessarily limited; and

WHEREAS, If such proposed codes were printed they could be more widely circulated among interested persons and groups, thus enabling them to receive the careful scrutiny to which proposed legislation of such importance is entitled; now, therefore, be it

Resolved by the Assembly of the State of California, That the California Code Commission is hereby directed to prepare for printing as soon as practical after the adjournment of the 1941 Session of the Legislature, such codes or portions thereof as it proposes to submit to the next session of the Legislature for consideration, and immediately upon such printing to distribute the same to all interested persons and groups, and be it further

By Messrs Cronin, Cain, Desmond, Gallagher, O'Day, Collins, George D., Johnson, Green, Wollenberg, Carlson, Maloney, Welch, Dickey, Sawallisch, Crowley, Gaffney, Meehan, Phillips, Sheridan and Cassidy:

House Resolution No. 304

WHEREAS, State Highway Routes Nos. 69, 14, 7 and 6 from Oakland to Sacramento comprise the main traffic artery from the San Francisco Bay Region to the north and to the east therefrom, and by reason thereof constitute one of the most used stretches of highway in Northern and Central California; and

WHEREAS, The present road is totally inadequate in its dimensions, contour and construction to properly and safely handle and care for the constantly increasing traffic load thereon, by reason of its many winding curves and narrow stretches; and

WHEREAS, It has been demonstrated that a highway heavily used by traffic which has but three lanes of travel is a danger, hazard and menace to motorists which should be eliminated; and

WHEREAS, By proper engineering studies a shorter, more direct and less dangerous route between San Francisco and Sacramento can undoubtedly be devised which will be a tremendous benefit and saving to the motorists in mileage and cost of travel, as well as a protection against traffic hazards; and

WHEREAS, By reason of the increased activity at the Navy Yard at Mare Island under the National Defense Program, and at the factories, shops, refineries and other industries in that vicinity and along the route, as well as the increased activity between the agricultural areas of Northern and Central California and the Bay Area necessitating the use of this highway, the traffic on this highway which has for years been extremely heavy is expected to steadily increase to meet the growing traveling demands; and

WHEREAS, There is a vital need that the dangers of the highway be eliminated so that it may become a safe and speedy highway required by the needs of the National Defense Program; now, therefore, be it

Resolved by the Assembly of the State of California, That the State Highway Commission and the State Department of Public Works are hereby urged to take immediate action looking to the construction of a four-lane divided highway between Oakland and Sacramento, eliminating the many winding curves, dangerous stretches and passages through business districts of small towns on the present road and routing the road so that these can be eliminated and traffic hazards minimized; and to consider and weigh the desirability and need of making such highway a freeway from the San Francisco-Oakland Bay Bridge to the Carquinez Bridge; and be it further

Resolved, That the Chief Clerk of the Assembly be and he is hereby instructed to send a copy of this resolution to the Chairman of the State Highway Commission and to the Director of the State Department of Public Works.

MOTION TO PRINT REMARKS IN JOURNAL

Upon motion of Mr. Maloney, the following remarks by Miss Miller were ordered printed in the Journal:

Remarks by Miss Miller

Mr. Speaker and Members of the Assembly

I rise to a point of personal privilege, perhaps, as well as to present the resolutions to Father's Day.

I am singing my "Swan Song" this morning, for as Mr. Coolidge remarked, "I do not choose to run again," and this is my last legislative day.

Coming to the Legislature 20 years ago, I have watched with intense interest its activities and developments through the years.

Physically, many changes have occurred in Sacramento and especially surrounding the Capitol. The small and inadequate railroad station which we then had has been replaced by a commodious and beautiful one; many of the tall and up-to-date business buildings have been erected, the Senator Hotel has been built within those years; and our very fine and wonderful State buildings—the Library, office buildings and department buildings have all come into being in the progress of the years.

But, what shall we say of the personnel of the Legislature since 1923! Of those who greeted us in that year the remaining Senate Members are Senators Slater, Rich, Maloney and Lyon. In the Assembly we still have Mr S. L. Heisinger and Mr. George A. Clarke, and our gracious and genial clerk, Mr Arthur Ohnimus. These good men have been helpful and patient with us through the years.

In memory we recall many of the stalwart and unusual Members of this Legislature in the past, among them Isaac Jones, T. M. Wright and Frank L. Coombs, "The Nestor of the Assembly."

Honest, courageous, God-fearing men they were, and their number is multiplied in our memory many times In the intervals when business was slack in the Assembly, Mr. Coombs used to come back and sit beside me and talk of Shakespeare and we would quote the golden words of "The Bard of Avon" while he would tell of kneeling at Shakespeare's tomb in honor of his contribution to the English language and the thought of the world.

Those were great days of enjoyment and of service. There were five women here then, and we endeavored to keep our fingers on every piece of good legislation as we tried, also, to prevent the enacting of bad laws Sometimes, we were permitted to introduce measures that were far-reaching and beneficial in their effects and, we trust, have added to the general welfare of the State.

But our great joy has been the friendships we have formed that will be lasting as our towering mountains. Today, as we have come to the end of the legislative trail, we come with sincere appreciation of that friendship and with gratitude for the kind, courteous and helpful treatment we have received at your hands. We shall cherish our memories of you, and your kindly attitude throughout our legislative experience.

I arose to speak on the "Father's Day" resolution, but these reminiscences have clamored for expression. On this day, dedicated to the beloved fathers of our Country, we wish to come this morning to honor them, to express our love for them, and to voice our appreciation of their fine service to their families and to their State during these days of stress. Quietly they go about their duties, bearing their burdens and bringing happiness—even though no tribute or meed of praise is bestowed upon them. But it is fitting that today we pause to give them the tribute which they so richly deserve.

As we separate today to go our devious ways, to till the farms or labor in the busy mart, or to march with firm step to defend our liberties, or to breast the waves in battleships, or to take the wings of the air for "God and home and native land," we pray for His blessing and guidance and His strength to meet and conquer every foe to the welfare of our State and Nation.

God bless our men!

And we pray to the Good Father—

> "Open Thou our eyes that we may see His Beauty about us, as well as observe the needs of the world which it may be ours to supply.
>
> May He open our ears to hear the call of the helpless and the cry of little children in our midst.
>
> May we be granted wisdom and guidance in our endeavors of the day and of all our future, with an understanding heart and a spirit unafraid."

In the words of Eugene Field we say "Good-by":

"I like the Anglo-Saxon speech
With its direct revealings,
It takes ahold and seems to reach
Way down into your feelings

That some folks deem it rude, I know,
And therefore they abuse it,
But I have never found it so,
Before all else, I'd choose it.

I don't object that men should air
The Gaelic they have paid for
With 'au revoir', 'adieu ma chere'
For that's what French was made for.

But when a crony takes your hand
In parting to address you,
He drops all foreign lingo
And he says 'Good-by, God bless you.'"

CONSIDERATION OF HOUSE RESOLUTION NO. 264

House Resolution No. 264

Relating to the creation of an Assembly Committee on State Highways, County Highways, and on City Streets

WHEREAS, The maintenance of the State, and the county highways and the city streets of California approximates a cost to the taxpayers of one hundred million dollars ($100,000,000) annually; and

WHEREAS, Within this State, and adjacent to the rural county highways of California, there is produced over four hundred million dollars ($400,000,000) of agricultural products annually; and

WHEREAS, The greater percentage of these products are conveyed over the county highways, State highways and city streets to market; and

WHEREAS, Nearly all processed and manufactured products purchased by the farmers are transported in reverse over the same arteries of travel; and

WHEREAS, It is apparent that a complete Motor Vehicle Highway System must embrace the county highways and city streets as well as the State highways; and

WHEREAS, Some county supervisors complain that certain of their county highways carry extra heavy motor traffic of a Nation-wide and State-wide nature, the wear and tear of which entails undue maintenance costs; and

WHEREAS, The governing boards of some of the larger cities claim that many of their streets are more in the nature of State highways than local streets, the motor traffic on which streets causes such heavy maintenance upkeep as to bring about very high taxes upon the local property owners; and

WHEREAS, The State laws provide that all State highways and State highway bonds are financed from motor vehicle funds, but county highways, city streets,

county highway bonds and city street bonds are largely financed from taxes upon local property; and

WHEREAS, Many taxpayers believe that the maintenance of county highways, city streets, county highway bonds and city street bonds should be financed by motor vehicle funds; and

WHEREAS, The Legislature has no definite knowledge of all these matters; and

WHEREAS, The Legislature should be in possession of factual and authentic information and data pertaining to all such and kindred matters; and

WHEREAS, It is the duty of the Legislature to enact laws that are just and equitable to the local taxpayers as well as to State taxpayers; now, therefore, be it

Resolved by the Assembly of the State of California, That a Committee on State and County Highways and City Streets is hereby created to study and survey, accurately and in detail, all matters hereinbefore referred to, and to report its recommendations to the Legislature not later than March 15, 1943.

The committee hereby created shall consist of two Members of the Assembly appointed by the Speaker of the Assembly. The Speaker of the Assembly also may serve on the committee and may sign any report made by the committee.

The sum of one thousand five hundred dollars ($1,500) or so much thereof as may be necessary is hereby made available from the Contingent Fund of the Assembly for the expenses of the committee and its members and for any charges, expenses or claims it may incur under this resolution, to be paid and disbursed, after certification by the chairman of the committee, upon warrants drawn by the State Controller upon the State Treasurer.

Bill ordered transmitted to the Senate

Explanations of Vote

I voted "No" on Senate Bill No. 607 because I object to the $40 limitation contained in the bill. The Social Security Board does not place a $40 limitation on our State.

RALPH C. DILLS

The Federal law provides that unless California amends its law to conform to the Federal statutes, we may lose in Federal grants a sum estimated at $42,000,000.

Therefore, we feel impelled to vote for this bill or place thousands of the aged in jeopardy of their only livelihood.

S. L HEISINGER
DAN GALLAGHER
GEORGE D. COLLINS, JR
EDWARD M GAFFNEY
VINCENT THOMAS
FRANK C RUSSELL

I voted "Aye" on this measure I felt if the bill were not passed, the older citizens of our State entitled to public assistance would probably have been deprived of needed funds which the Federal Government stated would not be forthcoming if our laws on the subject were not modified to harmonize with the requirements insisted upon by the Federal Social Security Board

MELVYN I CRONIN

I voted "Aye" on this bill because the Federal Government notified California it would take away $38,000,000 of grant to our aged people.

This action on its part is unjust and unfair, and had I voted "No," the old people would have received no assistance I pray the law is changed.

Signed

THOMAS A MALONEY, Twentieth District

I voted "Aye" on this measure. I felt if the bill were not passed, the older citizens of our State entitled to public assistance would probably have been deprived of needed funds which the Federal Government stated would not be forthcoming if our laws on the subject were not modified to harmonize with the requirements insisted upon by the Federal Social Security Board.

Explanation of Vote

Oscar M Powell, Executive Director, Federal Security Board, having wired "We did not recommend reduction from $45 to $40" is my reason for offering his telegram for printing in Journal and voting against tabling the motion.

By Mr. Weber:

House Resolution No. 310

Relating to State Employees Handbook

WHEREAS, Upon entering the employment of the State, the employee assumes certain obligations to his employer. Among these obligations is that of loyalty, not only in the faithful performance of his work, but in adherence to the principles upon which the State is founded; now, therefore, be it

Resolved by the Assembly of the State of California, That the State Personnel Board is hereby requested to formulate, publish and cause to be distributed to each employee and officer of the State, whether or not included in the State civil service, by the appointing power or by the board, if the office is an elective office, a manual or Handbook for State employees. The Handbook shall contain such information as the board considers appropriate as to the law and rules of the board affecting the relationship between the employee and the State

There shall be contained in the Handbook, a statement of the principles of the American Government which the employee is required to uphold. This statement of principles shall be based upon the Constitution of the United States, setting forth that the United States is an indissoluble Union of indestructible States, having three coordinate branches of Government, each entrusted with its respective executive, judicial and legislative functions, that the executive power is vested in the President; the judicial power, in the Supreme Court, and such inferior courts as the Congress may from time to time ordain and establish, and the legislative power is granted to the Congress of the United States, which shall consist of a Senate and House of Representatives, chosen from the several States and charged with enacting laws for the protection and preservation of the Nation as a whole; that the Bill of Rights is declared to protect the individual against persecution and the abuse of this power, and that the individual owes a corresponding duty to obey and uphold the laws in those matters which have been surrendered to Congress; that this is the fundamental law of the Nation and can be lawfully altered only by the methods of amendment provided in the Constitution itself in accordance with the spirit and traditions of America; that the Government of the State of California and the several States is modeled upon that of the United States, with a corresponding

division of powers and a corresponding protection of the rights of persons and property and a surrender of individual rights to the State to act for all the people; that these divisions and balances are provided to foster the freedom and liberties of the people and to preserve the American democracy, and that these checks and balances were devised by the framers of the Constitution in order to curb the emotionalism of the masses, the influence of demagogues and the efforts of powerful minorities which history has shown have always marked the pathways to the ruin of democracy.

A portion of the Handbook shall be devoted to standards of conduct of employees In this portion of the Handbook the essential nature of public employment and the peculiar rights, duties, and obligations of State employees shall be presented, particularly in relation to the matters referred to in this resolution. This portion of the Handbook may be referred to as the State Employees Code. In drafting the code the board shall consider and appropriately state the differences between public employment and private enterprise or employment, particularly in that while the latter ordinarily reflects the value of services on an immediately tangible and monetary basis, the value of the services of a public employee is to a great extent intangible rather than concrete; and since the value of his services can not be immediately measured the ethical duties of the employee in connection with his duties are correspondingly increased.

In drafting the code the board shall consider and appropriately state the reciprocal relationship which arises from the grant by the State of security of tenure and opportunity for career service and the correlative dedication by the employee to the service of the State

The board shall also consider and appropriately state the peculiar position of the State employee in relation to partisan politics and the essential fact that while State employment does not operate as disfranchisement, nevertheless the State who is the employer is the whole State and not a fraction thereof; and that consequently in so far as employer and employee are in true accord no room exists for political activity of a partisan nature.

The board shall appropriately state the fact that public service is an honorable calling and to the extent that it comprises unselfish devotion to the welfare of the State in its sovereign capacity, rather than as an employer, such calling may be an exalted one.

The Handbook provided for in this resolution shall be distributed by the appointing power to each employee upon his entrance into the service and each appointing power during the probationary period shall cause such employee to read and digest the matters contained therein. All appointing powers, in relation to permanent employees, shall call the attention to such employees at periodic intervals to the substance of the Handbook, and shall, in evaluating the service of employees for the purposes of performance reports give due consideration to the conduct and demeanor of the employee and his adherence to the principles enunciated in the code.

The following communication was received, and ordered printed in the Journal:

WAR DEPARTMENT, THE ADJUTANT GENERAL'S OFFICE
WASHINGTON, June 10, 1941

Mr. Arthur A. Ohnimus, Chief Clerk
Assembly Chamber, State Capitol, Sacramento, California

DEAR SIR: Reference is made to your letter of May 23d, addressed to the President and referred to this department for consideration, concerning the development of State Highway 20.

The War Department has found, as a result of detailed studies on the subject, that highways constructed for commerce and internal development, in general, fill the requirements of National defense. Consequently, it has no funds for the improvement of highways except on Military reservations.

However, the War Department is interested in a net of highways adequate for the movement of Military transport. To that end, it is working in close collaboration with the highway construction agencies of the States and Federal Government.

You may be assured that the matter will be given due consideration.

Very truly yours,

E. S. ADAMS, Major General
The Adjutant General

June 14, 1941

Honorable Gordon H. Garland
Assembly Chamber, Sacramento, California

DEAR MR. SPEAKER: As the Fifty-fourth Session of the Legislature draws to a close, we wish to say "goodbye" to you and to the other Members of this Assembly.

Each of us deems it a privilege to have served you. We have sincerely endeavored to perform our duties to the very best of our ability. We appreciate your tolerance of our mistakes, which we must admit have been many, and hope they have not caused any of you serious inconvenience.

To you, Mr. Speaker, to Arthur Ohnimus, the Chief Clerk, and, of course, to "Charlie" Lyon, our immediate "bosses," we extend our thanks for all you have done for us. It has been an experience we never will forget to have worked with you.

We can not close without especially mentioning "P. Q." Robertson and his famous backfield. We think they performed a notable service for this Assembly, except that perhaps they shortened our period of employment.

To the members of the Assembly "goodbye" and the very best of luck and good fortune to each of you.

Sincerely,

"THE DESK CREW"

Statement by Assemblyman Thomas A. Maloney—20th District

Ladies and Gentlemen of the Assembly

May I, on behalf of the fathers in this Legislature and the fathers in California, extend to the Honorable Eleanor Miller, Assemblywoman of Pasadena, and to the Honorable Jeanette Daley of San Diego our sincere thanks and appreciation for the resolution presented this day, a day designated in America as "Fathers' Day."

We are thankful to Mrs. Daley for extending the honor to Miss Miller of expressing the wishes of them both in extolling the virtues of "father."

To you, Miss Miller, from the hearts of those who have served with you over a long period of years there comes over us at this moment a sadness because of your announcement that this session terminates your legislative career. We have learned to love and respect you because of your sincere determination to legislate on all matters in an honest and efficient manner that has brought credit to your good self and to the women of America. We wish you Godspeed and Good Luck for the future; so to you may I say:

From dawn to darkness
And throughout each night
We're with you.
When you're right we're glad—
When you're wrong we're sorry—
But right or wrong, good or bad
We're with you.
Whenever you need us call,
And we shall answer with all of the help we have,
There may come a time when you may say to yourself
If there was only someone
Let us, your colleagues and friends
Be those someones.
May your path be a path of roses,
And may God bless you and guide over you
For many, many years to come.

Hon. Charles W. Lyon Presiding

Honorable Gordon Garland
Speaker, Assembly, Sacramento

Naval authorities question my sanity. They insist today is Monday. Respectfully request you confirm my contention that today is Saturday. Will sail the twenty-sixth on *Lurline*. Respects to the mates and all hands.

COOKE

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, June 14, 1941

Honorable Melvyn I. Cronin and Honorable Albert C. Wollenberg
Assembly Chamber, State Capitol, Sacramento, California

SUBJECT: Senate Bill 200—Validity of Appropriation
REQUEST No. 4382

GENTLEMEN: *The question* is as to the *validity and effectiveness* of the appropriation made by this bill

It turns upon the fact that Section 1 of the bill (which appropriates money for certain purpose) fails to designate the particular State department or agency that is to do the spending.

In our opinion this is not a fatal defect.

The title of the bill expressly states that it is an act making an appropriation "to the State Department of Social Welfare for administrative costs incurred by the department * * *."

This title definitely and positively limits the appropriation to that particular department. (Article IV, Section 24.) In addition it has long since been established in this State that the title of an act may be referred to for the purpose of resolving an ambiguity in the text of the statute (23 Cal. Jur. page 770, Statutes, Sec. 146, and cases therein cited).

We believe, therefore, that a court in reading the text of Section 1 of this bill readily could and would refer to the title and say that this section makes the appropriation which it does make for expenditures in accordance with law by the State Department of Social Welfare.

We note additionally that Section 120 of the Welfare and Institutions Code has already conferred upon the State Department of Social Welfare authority to do the various things which this bill appropriates money for.

Yours very truly,

FRED B. WOOD, Legislative Counsel

FURTHER PROCEEDINGS UNDER CALL OF THE ASSEMBLY DISPENSED WITH ON SENATE BILL NO. 200

At 11.58 a.m., on motion of Mr. Carlson, further proceedings under the call of the Assembly were dispensed with.

The names of the absentees were called, and Senate Bill No. 200 passed by the following vote:

AYES—Allen, Bashore, Bennett, Burkhalter, Burns, Michael J., Cain, Call, Carlson, Clarke, Collins, Sam L., Cronin, Daley, Desmond, Dickey, Dills, Dilworth, Donnelly, Doyle, Evans, Field, Gaffney, Gallagher, Green, Hastain, Hawkins, Heisinger, Houser, Frederick F., Johnson, Kepple, Kilpatrick, King, Knight, T. Fenton; Leonard, Lyon, Maloney, Massion, McCollister, Meehan, Middough, Miller, Millington, Pelletier, Pfaff, Phillips, Poole, Potter, Robertson, Russell, Sheridan, Stream,

Tenney, Thorp, Thurman, Turner, Voigt, Waters, Watson, Weber, Welch, Weybret, Wollenberg, and Mr Speaker—62.

NOES—Andreas, Burns, Hugh M., Collins, George D., Crowley, Del Mutolo, Lowrey, O'Day, Richie, and Sawallisch—9.

Bill ordered transmitted to the Senate.

Explanations of Vote

We, the undersigned, have voted against Senate Bill No. 200 because it is an attempt to evade the responsibility owed to the needy unemployed of this State, and by indirection to abolish the State Relief Administration.

GEORGE D. COLLINS
EDWARD F. O'DAY

I have voted for Senate Bill No. 200 against my will because of having been advised that the Senate has adjourned without providing for relief; making this the only opportunity to vote for any relief appropriation I am opposed to adjournment until we have completed our obligation in solving this problem.

VERNON KILPATRICK

COMMUNICATIONS

The following communication was received, and ordered printed in the Journal:

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
June 14, 1941

Honorable Edward M. Gaffney
Assembly Chamber, Sacramento, California

SUBJECT: Senate Bill No. 200, as amended in Senate June 14, 1941
REQUEST: No. 4383

DEAR MR. GAFFNEY: You have requested that we advise you as to the following two points:

(1) Is Senate Bill No. 200, as amended in the Senate June 14, 1941, constitutional?

(2) In regard to counties which have no social welfare departments or counties in which there is no branch office of the State Department of Social Welfare, does Senate Bill No 200, as amended June 14, 1941, state to whom (and the amount of) the money is to be allocated for services with respect to Works Project Authority and Civilian Conservation Corps recruitment and enrollment programs?

In answer to your first question we desire to state that we believe provisions of Senate Bill No 200, as amended in Senate June 14, 1941, are constitutional.

In response to your second question, we desire to state that Senate Bill No. 200, as amended in Senate June 14, 1941, makes no provision for any of the moneys appropriated by the bill to be paid to counties which certify to the State Department of Social Welfare persons determined by the counties to be eligible under Federal statutes and rules and regulations for public assistance under the Works Project Authority Program and the Civilian Conservation Corps Program.

Taking Senate Bill No. 200, as last amended, by its four corners, it would appear that the money is appropriated to the State Department of Social Welfare, to be expended by the State Department of Social Welfare in such manner as it deems advisable for administrative costs and sponsorship contributions with respect to the Works Project Authority and Civilian Conservation Corps Recruitment and Enrollment Programs of the Federal Government.

There is no provision in Senate Bill No. 200, as last amended, which would require the money appropriated by the bill to be given to the board of supervisors or other bodies of the county government The fact that the State Department of Social Welfare may or may not have a branch office in a county would appear to be immaterial, for under the provisions of Senate Bill No 200, as last amended, it would appear that the department could make such arrangements as necessary, to carry out the appropriation made by the bill, which could, conceivably, include the sending of a representative of the State Department of Social Welfare to such county.

Yours very truly,

FRED B. WOOD, Legislative Counsel

FURTHER PROCEEDINGS UNDER CALL OF THE ASSEMBLY DISPENSED WITH ON MOTION TO SUSPEND RULES TO CONSIDER ASSEMBLY BILL NO. 2662

At 11 59 a m., Mr Field moved that further proceedings under the call of the Assembly be dispensed with.

Demand for Previous Question

Messrs. Carlson, Dickey, Phillips, Knight, T. Fenton, and Mrs. Daley demanded the previous question.

Demand for previous question sustained.

The question being on the motion to dispense with proceedings under the call of the Assembly.

Further proceedings under the call of the Assembly dispensed with.

The roll was called, and the motion that the rules be temporarily suspended in order to consider Assembly Bill No. 2662 without reference to committee lost by the following vote:

AYES—Andreas, Bashore, Bennett, Burkhalter, Burns, Hugh M., Burns, Michael J., Cain, Call, Collins, George D, Cooke, Cronin, Crowley, Desmond, Dills, Donnelly, Doyle, Evans, Gaffney, Gallagher, Hawkins, Heisinger, Kilpatrick, King, Lowrey, Maloney, Massion, Meehan, Middough, O'Day, Pelletier, Pfaff, Poole, Richie, Russell, Sawallisch, Sheridan, Tenney, Thomas, Voigt, and Welch—40.

NOES—Allen, Carlson Clarke, Collins, Sam L., Daley, Dickey, Dilworth, Field, Green, Hastain, Houser, Frederick F, Johnson, Kepple, Knight, John B., Knight, T. Fenton; Leonard, Lyon, McCollister, Miller, Millington, Phillips, Potter, Salsman, Stream, Thorp, Thurman, Turner, Waters, Watson, Weber, Weybret, Wollenberg, and Mr Speaker—33.

COMMUNICATIONS

The following communication was received and ordered printed in the Journal:

The Assembly has passed on June 5th, Assembly Bill No. 2657 granting $15,000,000 of additional funds to the counties in payment of aid to the aged which will release a similar amount of county funds for relief of unemployed now given by the SRA.

The Assembly also passed on June 5th, Assembly Bill No. 1175, by which the State would assume 25 per cent of the cost of county administration, amounting to one and one-quarter million in further aid to the counties

We have been ready to approve Senate bills providing for a closing appropriation for SRA of three and one-half millions for a three months liquidation

We have favored approval of Senate Bill No. 201 to assume two-thirds of the cost of indigent and unemployed aid by the counties and appropriating $20,000,000.

These proposals would fully serve those in need and protect the counties. This program has secured a majority vote but has failed of necessary two-thirds by reason of the opposition of those who are determined at any cost to retain the SRA with its approximately two and one-half thousand salaried officials and employees.

The SRA case load has fallen from 122,000 to 28,000 and is still declining each week We believe the relief emergency is over and that the SRA is no longer needed, that it is an unjustifiable duplication of the county welfare departments which can handle the funds with a fraction of the administrative cost of SRA.

We regret that this program has been blocked by an executive veto and by a minority in the Legislature.

We were willing to remain in session the necessary additional days at our own personal expense to reach a solution of this vexing problem.

Explanations of Vote on Resolution to Notify the Senate of Adjournment

My "No" vote against this resolution is in recognition of the fact that that Body has already adjourned, leaving unpassed any bill to appropriate money for the State Relief Administration. I can not too severely criticize the Senate for thus ignoring the want and suffering of the people.

AUGUSTUS F. HAWKINS

I voted "No" on the resolution to notify the Senate that the Assembly has concluded its work. I believe we should remain on the job until we have voted an appropriation for the relief of needy people in this State.

RALPH C. DILLS

Resolved, That the Chief Clerk of this Assembly be hereby directed to transmit a copy of this resolution to the Director of Public Works.

WHEREAS, Bachelors should be given equal recognition along with mothers and fathers; now, therefore, be it

Resolved by the Assembly of the State of California, That the President and Congress of the United States are hereby respectfully memorialized to establish a National holiday to be known as Bachelor's Day and to provide for the holding on that day of suitable ceremonies in honor of our Country's bachelors; and be it further

Resolved, That the Governor of the State of California and the Governor of every one of the States in the Union is hereby requested to proclaim an annual State holiday to be known as Bachelor's Day; and be it further

The question being on the adoption of House Resolution No. 323.

The roll was called, and the resolution adopted by the following vote:

AYES—Allen, Call, Carlson, Clarke, Collins, Sam L., Daley, Desmond, Dilworth, Field, Green, Hastain, Houser, Frederick F., Johnson, Kepple, Knight, T. Fenton; McCollister, Middough, Miller, Millington, Pfaff, Phillips, Potter, Stream, Thorp, Thurman, Turner, Voigt, Waters, Watson, Weber, Weybret, Wollenberg, and Mr. Speaker—33.

Explanation of Vote

Our "No" vote on this resolution to notify the Governor is caused by the fact that we disagree with the statement that we have completed the work of this session. We have not yet passed a bill to continue the SRA and thus to adjourn now is to ignore the suffering and want of a large number of our citizenry who find themselves on relief.
