When certified copies of such certificates have been filed with the department, it shall issue to such persons certificates or commissions, and the persons therein named shall be known as "medical examiners." There

shall at all times be at least two such medical examiners in each county. The certificate may be revoked by the department for incompetency or neglect, and shall not be again granted without the consent of the department

SEC. 2. Section 5075 of said code is amended to read:

SEC. 3. Section 5150 of said code is amended to read:

5150. The cost necessarily incurred in determining the mental illness or insanity calling for care or commitment under this code of an indigent person and securing his admission into a state hospital, and the expense of providing proper clothing for him in accordance with the rules and regulations adopted by the [Department of Institutions] *Department of Mental Hygiene*, is a charge upon the county from which he is committed. Such costs include the fees of the medical examiners allowed by the judge before whom the testimony of the medical examiners is given.

5251. The court, however, may commit an epileptic or feeble-minded person who has been in the State less than one year for the purpose of transportation of such person to the State of his legal residence pursuant to Section 160. On the presentation of the order the superintendent of the institution to which the person is committed shall receive him therein, unless the institution is already full, or the fund available for its support is exhausted, or, in the opinion of the [Department of Institutions] *Department of Mental Hygiene*, the epileptic or feeble-minded person is not a suitable subject for admission thereto

SEC. 6. Section 5356 of said code is amended to read:

5356. At the hearing the court shall inquire into the financial condition of the person committed or, if the person is a minor, of the parent, guardian, or other person charged with his support. If the court finds such person or persons able to do so in whole or in part, a further order shall be made requiring him or them to pay, to the extent the judge considers just, the expenses of the proceedings in connection with his commitment, and to pay to the county of which he is a bona fide resident, such sums as the court deems proper, during such time as the person committed remains in the hospital or on parole to a licensed home for the care of such person. The court shall make a further order requiring such person or persons to pay to the [Department of Institutions] *Department of Mental Hygiene* the expense of delivery of the patient to the state hospital for placement in which he was committed, which shall be paid to and collected by the department and credited to the appropriation for transportation of patients.

The county auditor shall keep a record of such payments ordered to be made to the county, and shall receive, receipt for, and record such payments made, pay over such payments to the county treasurer, see that the persons ordered to make such payments comply with such orders, and report to the court any failure on the part of such persons to make such payments.

SEC. 7. Section 6601 of said code is amended to read:

The Department of [Institutions] *Mental Hygiene* may admit to any state hospital for the insane, if there is room therein, any insane Soldier or Sailor in the service of the United States on such terms as are agreed upon between the department and the properly authorized agents, officers, or representatives of the United States Government

Any person in custody as an insane or incompetent person is entitled to a writ of habeas corpus, upon a proper application made by the Department of [Institutions] *Mental Hygiene*, by such person, or by a relative or friend in his behalf to the judge of the superior court of the county in which the hospital is located. Upon the return of the writ, the fact of his insanity or incompetency shall be inquired into and determined. The medical history of the person as it appears in the clinical

6659. All moneys collected by the Department of [Institutions] *Mental Hygiene* under the provisions of Section 6652 for the cost and charges of transportation of an insane person or inebriate to a state hospital shall be remitted by the department to the State Treasury for credit to, and shall become a part of, the current appropriation from the General Fund of the State for the transportation of insane, correctional school, or other state hospital inmates and shall be available for expenditure for such purposes.

SEC. 10. Section 6700 of said code is amended to read:

6700. It shall be the policy of the department to make available to all persons committed to its jurisdiction all of the facilities under the control of the department. Whenever, in the opinion of the Director of [Institutions] *Mental Hygiene*, it appears that a person committed to the Department of [Institutions] *Mental Hygiene* for placement in a designated institution would be benefited by a transfer from that designated institution to another institution in the department, the director may cause the transfer of the patient or inmate from that institution to another institution under the jurisdiction of the department. Preference shall be given in any such transfer to an institution in an adjoining rather than a remote district.

However, before any inmate of a correctional school may be transferred to a state hospital for the insane, he shall first be returned to a court of competent jurisdiction, and, after hearing, may be committed to a state hospital for the insane in accordance with law.

The expense of such transfers is chargeable to the State, and the bills for the same, when approved by the Director of [Institutions] *Mental Hygiene*, shall be paid by the Treasurer on the warrant of the Controller, out of any moneys provided for the care or support of the inmates or out of the moneys provided for the support of the department, in the discretion of the department.

SEC. 11. Section 6703 of said code is amended to read:

6703. Whenever a person, committed to the Department of [Institutions] *Mental Hygiene* under one of the commitment laws providing for no reimbursement for care and treatment to the State by the county of commitment, is transferred under Section 6700, to an institution under the jurisdiction of the department where the county is required to reimburse the State for such care and treatment, the Department of [Institutions] *Mental Hygiene* may have the original commitment vacated and a new commitment issued, designating the institution to which the person has been transferred, in order to make the county liable for the care and treatment of the committed person to the extent provided by Sections 7009 and 7010 of the Welfare and Institutions Code.

REQUEST FOR UNANIMOUS CONSENT TO PRINT OPINION OF LEGISLATIVE COUNSEL IN JOURNAL

Mr. McCollister asked for, and was granted, unanimous consent to have the following opinion of the Legislative Counsel printed in the Journal:

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, March 16, 1955

Honorable Richard H. McCollister
Assembly Chamber

Conference Committees—No. 8211

DEAR MR. MCCOLLISTER: You ask what roll call will be used, under Rule No. 78 of the Permanent Standing Rules of the Assembly, to determine who may be appointed as majority and minority members of a committee on conference.

The rule in question reads as follows:

"The Speaker, in appointing a committee on conference, shall select two members from those voting with the majority on the point about which the difference has arisen, and the other member from the minority, in the event there is a minority vote.

Whether a member has voted with the majority or minority on the point about which the difference has arisen is determined by his vote on the appropriate roll call, as follows:

(a) The roll call on the question of final passage of a Senate bill amended in the Assembly when the Senate has refused to concur with the Assembly amendments;

(b) The roll call on the question of concurrence with Senate amendments to an Assembly bill."

The rule is plain and leaves no room for construction. It provides that the members vote "on the appropriate roll call" will determine his majority or minority status, and then defines "appropriate roll call."

In our opinion the roll call on the question of final passage of a Senate bill amended in the Assembly, when the Senate refuses to concur with the amendments, is the roll call which determines whether a member has voted with the majority or minority, for the purpose of appointing the first or any other conference committee on that bill.

Similarly, where the Assembly refuses to concur with Senate amendments to an Assembly bill, the roll call on the question of such concurrence will determine whether a member has voted with the majority or minority, for the purpose of appointing the first or any other conference committee on that bill.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By A. C. MORRISON, Deputy

REMARKS BY JOHN F. O'DEA

If there is anyone so unfortunate as to be unable to claim Irish ancestry, the celebration of St. Patrick's Day must present to him a puzzling aspect. Perhaps he regards the day as an occasion for the Irish to gather and tell each other what grand people they are. We know, of course, that such fact is settled by stipulation before the proceedings begin. That the event is not the exclusive property of the Irish but is shared by peoples of other nationalities would also serve to confuse. But the basic question as to why the Irish people give such prominence to the day is itself a fair matter of inquiry. Patrick was not an Irishman. And the Irish are not in want for national heroes. The history of Ireland is replete with great names and great deeds—Finn McCool—Conn of the hundred battles—Kings Cormac and Niall reigning over the glory of ancient Ireland from Tara's heights—Brian Boru—Robert Emmett—Charles Parnell—Wolfe Tone—Daniel O'Connell. Who was Patrick that he would merit honor before these? The answer, to the unknowing should surprise. He was one who came to Ireland wearing the cloth of God—A Bishop. But certainly he must have done something spectacular to have made such an impact upon the Irish people! The answer remains unchanged—he brought them their religious faith.

Such answer suggests a basic difference in the pattern of Irish life. The principal holidays of other lands commemorate political liberty, military victory and the patriots principally responsible. The Irish accord primacy to religious faith. It is not that they love liberty less, nor that they have faint heart for combat. The centuries of Irish struggle for independence are legendary—and the Gaelic propensity for contention is not unknown. Explanation must be found in the Irish standard of values.

It is no disparagement to question that this national attitude could have been fashioned entirely by the hand of Patrick. What he taught must have struck a responsive chord in the hearts of those people that it should still ring 1500 years later. The fertility of the Irish heart had been recognized by Patrick some years prior to his Apostolic mission. For he did not come to Ireland first as a prelate. He had lived there while a youth, for nine years as a slave, having been captured by the army of King Niall upon a foray across the Irish sea. Patrick's writings tell us that he came from Brittany but historians are unable to determine whether such name relates to England or to the area along the coast of France. Following his escape from Ireland he never forgot the people among whom he had labored and resolved one day to return to cultivate the promise which he had observed.

The disposition of the Irish to the teaching of Patrick does not minimize his work among them. His influence was such as to affect the whole tenor of their lives and to shape their history. His impact was as immediate as it was permanent. The story is often told that shortly after his return he made his encampment close by the hill of Tara where stood the castle of the High King. It was the eve of Easter and coincident that year with the Christian commemoration of the Resurrection was a pagan feast day. In celebration of the latter a great festival was in progress at the Court. An ancient law decreed that on such day no fire should be lighted in Ireland until the Court Druids should light

their sacred fire. Before the flame of the Druids had flared, an indignant Court and King observed in the distance the blazing of Patrick's Pascal fire. Prophetically the Chief Druid proclaimed: "unless that fire be extinguished this night, it will never be extinguished."

It was a land of strife to which Patrick came. Constant warfare had prompted ancient chroniclers to call Erin "the shaking sod". Chesterton tells us that the Irishman "was gay when he held the sword, sad when he held the harp."

"For the great Gaels of Ireland
Are men that God made mad,
For all their wars are merry,
And all their songs are sad."

The seven kingdoms of Ireland were embroiled in a struggle for supremacy. Tara was the sole symbol of political unity and each of the seven kingdoms coveted the throne of the High King. Conflict was not confined to homeland. With a ruler of strength in the office of High King the might of Ireland was brought to bear upon neighboring countries. The forces of the Gael had over-run Scotland and England, had driven the Romans from the British Isles and had pursued them over the channel and across France.

With Patrick's coming the sword was sheathed. To a people absorbed in carrying out the ruthless law of conquest he offered a nobler aspiration—not to be fulfilled by the sword. The histories of all peoples will not disclose an instance of such radical change in the character of a whole nation wrought within the life span of one man.

With Patrick's first efforts a religious revolution swept through the land. So intense was the acceptance of Christianity that fast upon the wave of conversion spread a monastic movement. Monasteries and Abbeys were established throughout Ireland. These institutions became centers of learning as well as of prayer. The classical culture of Greece and Rome and Egypt became part of the regular curriculum. Latin was a conversational medium. In few years the renown of Irish learning and sanctity caused the outside world to refer to Ireland as "the land of saints and scholars." The crowned families of Europe and England sent their children to Ireland for education. Camden in his *"Brittania"* says:

> "Our Anglo-Saxons went at those times to Ireland as if to a fair to purchase goods. Hence it is freqeuntly read in our historians 'He was sent to Ireland to School'. Or 'He went to the Irish renowned for their philosophy.' "

Irish monks began the collection, preservation and reproduction of the great books and manuscripts which represented the sum total of the thought of mankind. There was being built up on that little island as though it were a staging area, a might which was to be unleashed in an invasion of Europe.

In parallel with another setting for invasion, with which we are all too familiar, Europe had been over-run by enemies of civilization. Barbarian hordes had swept down from the north, choking the culture of centuries.

The words of England's John Henry Newman tell the story,

"I cannot forget how, in no long time * * * a country of heathen superstitions became the very wonder and asylum of all people—the wonder by reason of its knowledge, sacred and profane, and the asylum of religion, literature and science, when chased away from the continent by the barbarian invaders."

The Irish have often been referred to as contrary, or contrary as they would put it. In this instance history justifies the charge. While the whole of Europe was reverting to barbarism and paganism the Irish were reversing the process.

The influence of Patrick was not confined to the spiritual and intellectual facets of Irish life. The whole structure of society was rebuilt. It should be of interest to this gathering that he even directed the compilation and revision of the laws. It was not that the Irish were lawless—for there then existed a great body of ancient law, known as the Brehon Laws from the Irish title Brehon which was applied to the official arbiter. The advancement of legal thinking in early Ireland was such that the legislative and judicial functions were separated before the dawn of history.

Patrick called a board of three kings, three bishops and three scholars which reviewed the laws for a period of three years, codifying and correcting them, taking out of them the pagan eye-for-an-eye doctrine, toning down their severity and eliminating whatever was inconsistent with the new law of Christ which he had brought to them. The product thus obtained was then subjected to a treatment which these legislative houses might well note. The Irish, unable to accept stilted legal phraseology, committed the laws to a poet that he might "throw a thread of poetry around them." The net product is known as the Senchus Mor, oftentimes called the Statute Law of Patrick.

Even to law-makers it probably is astounding to encounter a codified system of law antedating the Justinian Code. The comprehensiveness of that body of law is an even greater revelation.

The Senchus Mor includes:

Laws relating to contracts;

Laws respecting property entrusted to another and the liability of the trustee in case of loss or damage;

Laws respecting gifts and charities;

Laws as to prescriptive rights, the abandonment and recovery of property;

The law of loans, pledges, accommodations and security;

Laws concerning the relative duties of parent and child and the adoption of children;

A series of laws relating to various trades and industries;

A clearly defined series of laws for landlord and tenant and for master and servant;

Laws concerning trespass and damage to property;

Laws of co-tenancy;

Laws of evidence;

The laws of distraint and seizure;

Laws relating to accidental injuries;

> And in the field of criminal law—complete statutes respecting manslaughter and murder, distinguishing accurately between principals and accessories; laws concerning theft and the receiving and recovery of stolen property, and laws concerning the infliction of wounds.

These laws adopted prior to the close of the Sixth Century could be our own. The Irish turn of mind is found in the sanctions which enforce them. Obligation under law increased with the status of the person, his talents and abilities. More was demanded of those to whom more had been given. The king upon the highway had no greater right of way than the serf—to the contrary the king was held to a greater degree of care for the safety of his subject. Rank was not granted privilege—it was impressed with responsibility. A note of Irish pride. There was recognition of the equality of men before God—but a mindfulness of the inequality of men among men.

Patrick had not long been dead when the forces which he had pent were loosed. By the hundreds Irish missionaries swarmed across the channel seas and over England and Europe. For centuries the invasion continued. They set up monasteries like service stations. In England, France, Germany, Italy, Spain, Switzerland, Holland, Belgium, Flanders, Luxemburg, Bavaria, Austria, JugoSlavia Irish monks established bases from which to carry out the mandate of Christ.

Learning like religion had its hosts of Irish missionaries who grouped themselves around the monasteries which their countrymen had founded and built up centers of learning, bringing light to benighted peoples. Irish scholars staffed the palaces of kings as both counselors and tutors. In the Courts of Charlemagne and Clovis Irish educators were most conspicuous and influential.

The German historian Zimmer testifies:

> "They laid the corner stone of Western Culture on the continent, the rich result of which Germany shares and enjoys in common with all other civilized nations."

As a branch of the stream of western civilization, America profited from the fruits of Irish efforts in Europe. But in a more cognizable manner persons of Irish ancestry have contributed toward the realization of the American dream. Nine signers of the Declaration of Independence, six framers of the Constitution were Irish. From Lexington to Tokyo Bay our military ranks have been fortified by their heroism. Historians estimate the American Revolutionary Army as comprised of from 50 percent to 65 percent Irish. The roster of the Marine Corps which swarmed the beach at Iwo Jima reads like the attendance list at a Hibernian picnic. The toil of Irish immigrants is enshrined in the steel and concrete of American construction. A litany of the statesmen, jurists, and patriots prominent in the development and defense of American institutions would not want in Celtic tone.

But the real contribution of the Irish to America is yet to be made.

America has grown great in material strength—to a degree of world dominance. Pride in our progress has tended to a forgetfulness that our true basis is a spiritual one. The Declaration of Independence and the Constitution are predicated upon a spirituality in man endowed by a

Creator and inviolate by even the government which they established. That concept of man and his relation to his Creator alone distinguishes us from the power which today threatens our position of world influence —a rival with the potential to surpass us in material strength—but a force which cannot prevail against spiritual truth.

Drawing upon our spiritual resources we find that we have exchanged the paternity of God for the paternalism of government. We now discover defections in the ramparts we were to have watched. We have squandered much of our true patrimony. But be it remembered that the Irish have never forsaken theirs. Through a long, dark night they have kept their flame burning. And our flame and theirs have a common origin.

America stands in need of a reaffirmation of faith in our basic institutions and in the principles which underlie them. And when you mention faith you call the Irish. By their own Brehon Laws they who have been gifted with faith in such abundance are obligated to answer the call in equal measure. Irish Americans will ever be jealous of that American heritage which gave them such opportunity of life and the freedom to practice the religion which is their lives. They will ever be vigorous in defense of the principles upon which America's liberties rest—not merely because they have fared so well by them—but because they are the only principles which they recognize. While there is a person of Irish descent left in America the true concept of American liberty cannot die. The fire which Patrick kindled hard by Tara's heights will never go out.

REMARKS BY SPEAKER LINCOLN

President Maloney, Secretary McGee, Members of the Convention and Friends:

It is a pleasure for me for the fourth time to be a member of your St. Patrick's Day Convention. It is very apparent that, in addition to being a fine legislator and an excellent Speaker pro Tempore, you are also an impresario of no mean ability.

It is fitting on this day that we pause to honor St. Patrick and the land of the Irish. It is difficult for me, and I presume for any of your many friends in Sacramento, to think of the Irish without thinking of Thomas Aloysius Maloney. You clearly exemplify the Saint which we are honoring today. Your personal behavior, your thoughtfulness, your devotion to duty exemplifies the spirit of the Irish. For the members and guests of this convention, we thank you for the outstanding program which you have presented.

On page 1, strike out line 1, and insert

"SECTION 1. Section 5055.1 of the Education Code is hereby repealed.

SEC. 2. Section 5055.1 is added to said code to read:

5055.1. The Director of Finance shall determine and certify to the Controller for inclusion in the second computation the additional amounts provided in this section.

This section applies to district which, subsequent to the making of the first apportionment to such district pursuant to this chapter and subsequent to the effective date of this section, constructs classrooms for a grade level and such classrooms are constructed solely with district funds, derived from district taxes or from the proceeds of district bonds, exclusive of district bonds for which the amount raised or to be raised for the payment of the principal and interest thereof is otherwise included in the second computation pursuant to Section 5055. In the fiscal year following that in which the contract was let by the district for the construction of such classroom, the Director of Finance shall determine and certify to the Controller, an amount for each classroom so constructed by the district equal to the sum of one thousand dollars ($1,000) for districts which, at the date the construction contract was let, are in an area which is in "Cost Group 2," for January, 1955, as defined by the board pursuant to Section 7713 The amount for each classroom for a district in an area in a cost group other than "Cost Group 2" shall be adjusted proportionately for cost standards in the areas in such other cost groups or for periodic changes in construction cost, or both, as the case may be. Such amount for each such classroom shall be included in the second computation for the

grade level. The amount so determined for a grade level of a district during the fiscal year immediately succeeding that in which the construction contract was let shall be so included on account of such classroom for 20 years commencing with the fiscal year immediately succeeding that in which the construction contract therefor was let.

If a district, subsequent to the making of the first apportionment to such district, has, prior to the effective date of this section, constructed a classroom for a grade level solely from such district funds, the Director of Finance shall determine and certify to the Controller the amount to be included in the second computation for each such classroom according to the cost group in which such district would have fallen at the date such construction contract was let and adjusting such amount by using the sum of one thousand dollars ($1,000) in Cost Group 2 for January, 1955. The board may adopt standards for adjustments pursuant to this paragraph.

No credit shall be allowed pursuant to this section unless the classrooms constructed are within the number of classrooms the district would require to adequately house its estimated attendance as it would be determined if the district were an applicant under this chapter. The board shall define "classroom" for the purposes of this section.

SEC. 3. Section 5057 of said code is amended to read:

5057. On or before the first day of January of each fiscal year, the State Controller shall compute the "annual" repayment, if any, due from each district during the [next succeeding] *current* fiscal year as herein provided. If, for any grade level of a district, the amount, if any, by which the second computation exceeds the third computation is greater than the first computation, the amount of such excess, herein called a "negative difference," shall be disregarded, and no reimbursement shall be due the State from such district with respect to such grade level during the [next succeeding] *current* fiscal year. If, for any grade level of a district, the amount of the first computation is greater than the amount, if any, by which the second computation exceeds the third computation, the amount of such excess, herein called a "positive difference," shall constitute the amount of reimbursement due the State from such district with respect to such grade level during the [next succeeding] *current* fiscal year. The sum of the "positive differences" so computed for all grade levels having a "positive difference" within each district is herein designated as the "annual repayment" of such district.

SEC. 4. Section 5058 of said code is amended to read:

5058. The State Controller shall, during the [next] fiscal year [following that] in which he determines the annual repayment as herein provided, deduct the total amount of the annual repayment of each district in equal amounts from each *of the February, March, April, and May installments* [installment] of the apportionments made to such district from the State School Fund under Chapter 15 of this division; and, on order of the State Controller, the amount so deducted shall be transferred to the Public School Building Loan Fund. All money transferred to the Public School Building Loan Fund under the provisions of this section shall be available only for transfer to the General Fund under the provisions of Section 5103.

SEC. 5. Section 5062 of said code is amended to read:

5062. Upon computing in any fiscal year the amount to be deducted from the apportionments to the district from the State School Fund during the [succeeding] *current* fiscal year, the State Controller shall notify the governing board of the district and the county auditor of the county, the county superintendent of which has jurisdiction over the district, of the amount to be deducted.

SEC. 6. Section 5062.1 is added to said code, to read:

5062.1. For the purposes of Section 5063, the State Controller shall estimate the amount to be deducted from the apportionments to the district from the State School Fund during a current fiscal year pursuant to this section.

Such estimates shall be computed in the same manner as the annual repayment of district and deduction from the State School Fund apportionments except:

(a) On or before May 1st of the fiscal year preceding that for which the annual repayment of the district is computed, the county auditor of the county, the county superintendent of schools of which has jurisdiction over the district, shall transmit to the State Controller an estimate of the assessed valuation for the fiscal year for which the annual repayment is computed for each district which has received an apportionment pursuant to this chapter. For the purposes of this section, the first computation shall be determined by the Controller on the basis of such estimate.

(b) An estimate of the amounts raised and to be raised by the district shall be determined and certified to the State Controller by the Director of Finance on or before May 1st of the fiscal year preceding that for which the annual repayment of the district is computed. For the purposes of this section, the second computation shall be determined upon the basis of such estimate.

(c) The State Controller shall compute the estimated annual repayment pursuant to this section and, on the basis thereof, on or before September 1st of the fiscal year for which such estimated annual repayment is computed, shall notify the governing board of the district and the county auditor of the county, the county superintendent of schools of which has jurisdiction over the district, of the estimated

amount to be deducted during the fiscal year from the State School Fund apportionments to the district.

SEC. 7. Section 5063 of said code is amended to read:

5063. The board of supervisors of the county, the county superintendent of which has jurisdiction over any district which [under this chapter will have moneys] *has been notified pursuant to Section 5062.1 of the estimated amount of money to be* withheld by the State Controller from the apportionments to be made to it from the State School Fund during any fiscal year, shall annually at the time the board of supervisors makes the levy of taxes for county purposes, levy a tax upon the property in the district sufficient to raise for the district the amount of money [to be withheld by] *which* the State Controller *estimates pursuant to Section 5062.1 will be withheld* during the fiscal year in which the tax is levied. Such tax, when collected, shall be paid into the county treasury of the county, the county superintendent of schools of which has jurisdiction over the district for which the tax was levied, to the credit of the general fund of the district.

SEC. 8. Section 7727.2 is added to said code, to read:

7727.2. The Director of Finance shall determine and certify to the Controller for inclusion in the second computation the additional amounts provided in this section.

This paragraph applies to a district which prior to the effective date of this section has received an apportionment pursuant to this chapter and Chapter 1 6 of this division, or which has received an apportionment pursuant to this chapter only either before or after the effective date of this section, and which subsequent to the making of the first apportionment to such district under this chapter and subsequent to the effective date of this section constructs classrooms for a grade level and such classrooms are constructed solely with district funds, derived from district taxes or from the proceeds of district bonds, exclusive of district bonds for which the amount raised or to be raised for the payment of the principal and interest thereof is otherwise included in the second computation pursuant to Section 7727. In the fiscal year following that in which the contract is let by the district for the construction of such classroom, the Director of Finance shall determine and certify to the Controller, an amount for each classroom so constructed by the district equal to the sum of one thousand dollars ($1,000) for districts which, at the date the construction contract is let, are in an area which is in "Cost Group 2," for January, 1955, as defined by the board pursuant to Section 7713 The amount for each classroom for a district in an area in a cost group other than "Cost Group 2" shall be adjusted proportionately for cost standards in the areas in such other cost groups or for periodic changes in construction cost, or both, as the case may be. Such amount for each such classroom shall be included in the second computation for the grade level. The amount so determined for a grade level of a district during the fiscal year immediately succeeding that in which the construction contract was let shall be so included on account of such classroom for 20 years commencing with the fiscal year immediately succeeding that in which the construction contract therefor was let.

If a district has received an apportionment pursuant to both this chapter and Chapter 1 6 prior to the effective date of this section or which has received an apportionment pursuant to this chapter only prior to the effective date of this section, and subsequent to the making of the first apportionment to such district pursuant to this chapter and prior to the effective date of this section, has constructed a classroom for a grade level solely from such district funds, the Director of Finance shall determine and certify to the Controller the amount to be included in the second computation for each such classroom according to the cost group in which such district would have fallen at the date such construction contract was let and adjusting such amount by using the sum of one thousand dollars ($1,000) in Cost Group 2 for January, 1955. The board may adopt standards for adjustments pursuant to this paragraph.

If a district which has not received an apportionment under this chapter prior to the effective date of this section but has received an apportionment under Chapter 1 6 of this division and subsequently an apportionment is made to a district pursuant to this chapter, in lieu of the amount which would be computed pursuant to Section 7727 as the amount for the payment of principal and interest on bonded indebtedness incurred for the grade level prior to the making of the conditional apportionment and subsequent to the first apportionment made to the district pursuant to Chapter 1.6, but not in lieu of the amount for the payment of principal and interest on that portion of the bonded indebtedness which the board in the conditional apportionment required the district to incur prior to the date on which the first apportionment made to the district under this chapter became final or any additional bonded indebtedness which was incurred for such grade level as a condition to receiving additional apportionments, the Director of Finance shall determine and certify to the Controller the amount computed pursuant to Section 5055 1 for inclusion in the second computation for the grade level.

No credit shall be allowed pursuant to this section unless the classrooms constructed are within the number of classrooms the district would require to adequately house its estimated attendance as it would be determined if the district were an applicant under this chapter. The board shall define "classroom" for the purposes of this section.

SEC. 9. Section 7727.1 of said code is amended to read:

SEC. 10. Section 7729 of said code is amended to read:

7729. On or before the first day of January of each fiscal year, the State Controller shall compute the "annual" repayment, if any, due from each district during the [next succeeding] *current* fiscal year as herein provided. If, for any grade level of a district, the amount, if any, by which the second computation exceeds the third computation is greater than the first computation, the amount of such excess, herein called a "negative difference," shall be disregarded, and no reimbursement shall be due the State from such district with respect to such grade level during the *current* [next succeeding] fiscal year. If, for any grade level of a district, the amount of the first computation is greater than the amount, if any, by which the second computation exceeds the third computation, the amount of such excess, herein called a "positive difference," shall constitute the amount of reimbursement due the State from such district with respect to such grade level during the [next succeeding] *current* fiscal year. The sum of the "positive differences" so computed for all grade levels having a "positive difference" within each district is herein designated as the "annual repayment" of such district

SEC. 11. Section 7731 of said code is amended to read:

All money transferred to the State School Building Aid Fund under the provisions of this section shall be available only for transfer to the General Fund under the provisions of Section 7903.

SEC. 12. Section 7735 of said code is amended to read:

7735. Upon computing in any fiscal year the amount to be deducted from the apportionments to the district from the State School Fund during the [succeeding] *current* fiscal year, the State Controller shall notify the governing board of the district and the county auditor of the county, the county superintendent of which has jurisdiction over the district, of the amount to be deducted.

SEC. 13. Section 7735.1 is added to said code, to read:

7735.1. For the purposes of Section 7736, the State Controller shall estimate the amount to be deducted from the apportionments to the district from the State School Fund during a current fiscal year pursuant to this section

For the purposes of this section, the first computation shall be determined by the Controller on the basis of such estimate.

(b) An estimate of the amounts raised and to be raised by the district shall be determined and certified to the State Controller by the Director of Finance on or before May 1st of the fiscal year preceding that for which the annual repayment of the district is computed For the purposes of this section, the second computation shall be determined upon the basis of such estimate.

Pyramiding of local property taxes in school districts which have received loans from the State for state school building aid has created serious problems in financing the current operation of the schools and threatens the success of bond issues to finance construction of necessary school facilities. Failure of such bond issues would curtail the educational opportunity of children in many of our rapidly growing communities for several years. In order to alleviate this situation so that adequate educational opportunity for all of the children of this State will be provided it is therefore necessary that this act take effect immediately."

THIRD READING OF ASSEMBLY BILLS (RESUMED)

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Assembly Bill No. 3775.

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, March 10, 1955

To the Honorable Members of the Assembly
Sacramento, California

GENTLEMEN:

Assembly Bill No. 3775, "An act making an appropriation to the Attorney General for investigative purposes, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

The money to be appropriated by this bill is necessary to enable the Attorney General to continue with this investigation concerning the administration of the Alcoholic Beverage Control Act and to bring it to a satisfactory conclusion.

It is desirable that this measure be enacted early in the session, and I therefore recommend its consideration before final action on the budget.

Respectfully submitted.

GOODWIN J. KNIGHT, Governor

REQUEST FOR UNANIMOUS CONSENT TO PRINT LETTER IN JOURNAL

Mr. Lindsay asked for, and was granted, unanimous consent that the following letter be printed in the Journal:

COUNTY SUPERVISORS ASSOCIATION OF CALIFORNIA
SACRAMENTO, CALIFORNIA, March 15, 1955

Assemblyman Francis C. Lindsay, Chairman
Assembly Interim Committee on Conservation, Planning,
and Public Works
State Capitol, Sacramento, California

DEAR MR. LINDSAY: I think it is a true statement that county people everywhere are definitely pleased with the general excellence of the recent report of the Interim Committee on Conservation, Planning, and Public Works entitled "Planning for Growth."

You have achieved singular success in your goal of producing an interesting and challenging statement of the planning problems facing our State and its local governments.

As with any general work of this nature, it is possible that there may have crept into it a statement or two which are so phrased that they invite comment.

Such language is surely contained on page 72 of the report.

We refer particularly to the bald statement "Political scientists have long urged and the writers of our State Constitution believed that what is urban should be municipal." This statement is not only untrue but it is the direct antithesis of California's philosophy of local government. No one knows this better than the Members of the 1951 and 1953 Legislatures.

The 1951 Legislature saw bitter controversy over these very issues of annexation and incorporation and county services between the cities and the counties. The 1953 Legislature saw a peaceful solution of this bitter controversy with the provision of the County Service Area Law which recognizes the basic principle that citizens of California must be permitted a choice of local governmental forms which will permit them to live in unincorporated urban area form indefinitely as long as they pay their fair share of governmental service costs.

While the counties of this State officially and frequently assert their belief that annexation is a normal and proper method of city growth and should be encouraged, there nevertheless remains the basic precept that there will conceivably be areas which will prefer to remain unincorporated. The democratic freedom of choice of the citizens of those areas must never be impeded, particularly by a police state type of automatic annexation as proposed in the third paragraph of Section 3 on page 72.

We further do not think that mature reflection would bear out the definite recommendation on page 72 that a county planning commission should conduct a continuing propaganda campaign for the annexation or incorporation of unincorporated communities. The county planning commission should be neutral in this area and the choice of type of local government should at all times be made by the residents of the area affected.

I want to assure you of our appreciation of the generally excellent work done in preparing "Planning for Growth" and especially to assure you of our continuing cooperation in your efforts to build a better California.

Cordially yours.

WM. R. MACDOUGALL, General Manager

WHEREAS, The City of San Diego, California's third largest city, is the center of a metropolitan area with an estimated population in excess of 575,000; and

WHEREAS, This region is one of the most rapidly growing in the Nation. A tremendous increase in commercial and manufacturing activity is attracting thousands of new residents to the area monthly; and

WHEREAS, It is reliably predicted that by 1958 San Diego and Imperial Counties will have a population in excess of 1,000,000; and

WHEREAS, Even now, the areas' educational facilities on a collegiate level are insufficient to meet the requirements of the present population; and

WHEREAS, The Members of this Assembly consider that a solution to the problem would be the establishment of a branch of the University of California at San Diego; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members of this Assembly request that the Board of Regents of the University of California conduct an investigation of the feasibility, desirability, and practicability of establishing a branch of the University of California at San Diego, either by expansion of the present institution at La Jolla or by creating a complete new branch, and that they report the findings of the investigation to the 1957 Regular Session of the Legislature; and be it further

CHAPTER 4. INTERSTATE COMPACT ON JUVENILES

1300. In addition to any other authority conferred upon him, the Governor is authorized and may execute for, on behalf of, and in the name of the State of California, a compact or agreement entitled, "State Compact on Juveniles", which compact or agreement, in words and figures, is substantially as follows:

INTERSTATE COMPACT ON JUVENILES

The contracting states solemnly agree:

ARTICLE I—FINDINGS AND PURPOSES

That juveniles who are not under proper supervision and control, or who have absconded, escaped or run away, are likely to endanger their own health, morals and welfare, and the health, morals and welfare of others. The cooperation of the states party to this compact is therefore necessary to provide for the welfare and protection of juveniles and of the public with respect to (1) cooperative supervision of delinquent juveniles on probation or parole; (2) the return, from one state to another, of delinquent juveniles who have escaped or absconded; (3) the return, from one state to another, of non-delinquent juveniles who have run away from home; and (4) additional measures for the protection of juveniles and of the public, which any two or more of the party states may find desirable to undertake cooperatively. In carrying out the provisions of this compact the party states shall be guided by the non-criminal, reformative and protective policies which guide their laws concerning delinquent, neglected or dependent juveniles generally. It shall be the policy of the states party to this compact to cooperate and observe their respective responsibilities for the prompt return and acceptance of juveniles and delinquent juveniles who become subject to the provisions of this compact. The provisions of this compact shall be reasonably and liberally construed to accomplish the foregoing purposes.

ARTICLE II—EXISTING RIGHTS AND REMEDIES

That all remedies and procedures provided by this compact shall be in addition to and not in substitution for other rights, remedies and procedure, and shall not be in derogation of parental rights and responsibilities.

ARTICLE III—DEFINITIONS

That, for the purposes of this compact, "delinquent juvenile" means any juvenile who has been adjudged delinquent and who, at the time the provisions of this compact are invoked, is still subject to the jurisdiction of the court that has made such adjudication or to the jurisdiction or supervision of an agency or institution pursuant to an order of such court; "probation or parole" means any kind of conditional release of juveniles authorized under the laws of the states party hereto; "court" means any court having jurisdiction over delinquent, neglected or dependent children; "state" means any state, territory or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico; and "residence" or any variant thereof means a place at which a home or regular place of abode is maintained.

ARTICLE IV. RETURN OF RUNAWAYS

(a) That the parent, guardian, person or agency entitled to legal custody of a juvenile who has not been adjudged delinquent but who has run away without the consent of such parent, guardian, person or agency may petition the approporiate court in the demanding state for the issuance of a requisition for his return. The petition shall state the name and age of the juvenile, the name of the petitioner and the basis of entitlement to the juvenile's custody, the circumstances of his running away, his location if known at the time application is made, and such other facts as may tend to show that the juvenile who has run away is endangering his own welfare or the welfare of others and is not an emancipated minor. The petition shall be verified by affidavit, shall be executed in duplicate, and shall be accompanied by two certified copies of the document or documents on which the petitioner's entitlement to the juvenile's custody is based, such as birth certificates, letters of guardianship, or custody decrees. Such further affidavits and other documents as may be deemed proper may be submitted with such petition. The judge of the court to which this application is made may hold a hearing thereon to determine whether for the purposes of this compact the petitioner is entitled to the legal custody of the juvenile, whether or not it appears that the juvenile has in fact run away without consent, whether or not he is an emancipated minor, and whether or not it is in the best interest of the juvenile to compel his return to the state. The judge determines, either with or without a hearing, that the juvenile should be returned, he shall present to the appropriate court or to the executive authority of the state where the juvenile is alleged to be located a written requisition for the return of such juveline. Such requisition shall set forth the name and age of the juvenile, the determination

of the court that the juvenile has run away without the consent of a parent, guardian, person or agency entitled to his legal custody, and that it is in the best interest and for the protection of such juvenile that he be returned. In the event that a proceeding for the adjudication of the juvenile as a delinquent, neglected or dependent juvenile is pending in the court at the time when such juvenile runs away, the court may issue a requisition for the return of such juvenile upon its own motion, regardless of the consent of the parent, guardian, person or agency entitled to legal custody, reciting therein the nature and circumstances of the pending proceeding. The requisition shall in every case be executed in duplicate and shall be signed by the judge. One copy of the requisition shall be filed with the compact administrator of the demanding state, there to remain on file subject to the provisions of law governing records of such court. Upon the receipt of a requisition demanding the return of a juvenile who has run away, the court or the executive authority to whom the requisition is addressed shall issue an order to any peace officer or other appropriate person directing him to take into custody and detain such juvenile. Such detention order must substantially recite the facts necessary to the validity of its issuance hereunder. No juvenile detained upon such order shall be delivered over to the officer whom the court demanding him shall have appointed to receive him, unless he shall first be taken forthwith before a judge of a court in the state, who shall inform him of the demand made for his return, and who may appoint counsel or guardian ad litem for him. If the judge of such court shall find that the requisition is in order, he shall deliver such juvenile over to the officer whom the court demanding him shall have appointed to receive him. The judge, however, may fix a reasonable time to be allowed for the purpose of testing the legality of the proceeding.

Upon reasonable information that a person is a juvenile who has run away from another state party to this compact without the consent of a parent, guardian, person or agency entitled to his legal custody, such juvenile may be taken into custody without a requisition and brought forthwith before a judge of the appropriate court who may appoint counsel or guardian ad litem for such juvenile and who shall determine after a hearing whether sufficient cause exists to hold the person, subject to the order of the court, for his own protection and welfare, for such a time not exceeding 90 days as will enable his return to another state party to this compact pursuant to a requisition for his return from a court of that state. If, at the time when a state seeks the return of a juvenile who has run away, there is pending in the state wherein he is found any criminal charge, or any proceeding to have him adjudicated a delinquent juvenile for an act committed in such state, or if he is suspected of having committed within such state a criminal offense or an act of juvenile delinquency, he shall not be returned without the consent of such state until discharged from prosecution or other form of proceeding, imprisonment, detention or supervision for such offense or juvenile delinquency. The duly accredited officers of any state party to this compact, upon the establishment of their authority and the identity of the juvenile being returned, shall be permitted to transport such juvenile through any and all states party to this compact, without interference. Upon his return to the state from which he ran away, the juvenile shall be subject to such further proceedings as may be appropriate under the laws of that state.

(b) That the state to which a juvenile is returned under this article shall be responsible for payment of the transportation costs of such return.

(c) That "juvenile" as used in this article means any person who is a minor under the law of the state of residence of the parent, guardian, person or agency entitled to the legal custody of such minor.

ARTICLE V. RETURN OF ESCAPEES AND ABSCONDERS

(a) That the appropriate person or authority from whose probation or parole supervision a delinquent juvenile has absconded or from whose institutional custody he has escaped shall present to the appropriate court or to the executive authority of the state where the delinquent juvenile is alleged to be located a written requisition for the return of such delinquent juvenile. Such requisition shall state the name and age of the delinquent juvenile, the particulars of his adjudication as a delinquent juvenile, the circumstances of the breach of the terms of his probation or parole or of his escape from an institution or agency vested with his legal custody or supervision, and the location of such delinquent juvenile, if known, at the time the requisition is made. The requisition shall be verified by affidavit, shall be executed in duplicate, and shall be accompanied by two certified copies of the judgment, formal adjudication, or order of commitment which subjects such delinquent juvenile to probation or parole or to the legal custody of the institution or agency concerned. Such further affidavits and other documents as may be deemed proper may be submitted with such requisition. One copy of the requisition shall be filed with the compact administrator of the demanding state, there to remain on file subject to the provisions of law governing records of the appropriate court. Upon the receipt of a requisition demanding the return of a delinquent juvenile who has absconded or escaped, the court or the executive authority to whom the requisition is addressed shall issue an order to any peace officer or other appropriate person directing him to take into

custody and detain such delinquent juvenile. Such detention order must substantially recite the facts necessary to the validity of its issuance hereunder. No delinquent juvenile detained upon such order shall be delivered over to the officer whom the appropriate person or authority demanding him shall have appointed to receive him, unless he shall first be taken forthwith before a judge of an appropriate court in the state, who shall inform him of the demand made for his return and who may appoint counsel or guardian ad litem for him. If the judge of such court shall find that the requisition is in order, he shall deliver such delinquent juvenile over to the officer whom the appropriate person or authority demanding him shall have appointed to receive him. The judge, however, may fix a reasonable time to be allowed for the purpose of testing the legality of the proceeding.

Upon reasonable information that a person is a delinquent juvenile who has absconded while on probation or parole, or escaped from an institution or agency vested with his legal custody or supervision in any state party to this compact, such person may be taken into custody in any other state party to this compact without a requisition. But in such event, he must be taken forthwith before a judge of the appropriate court, who may appoint counsel or guardian ad litem for such person and who shall determine, after a hearing, whether sufficient cause exists to hold the person subject to the order of the court for such a time, not exceeding 90 days, as will enable his detention under a detention order issued on a requisition pursuant to this Article. If, at the time when a state seeks the return of a delinquent juvenile who has either absconded while on probation or parole or escaped from an institution or agency vested with his legal custody or supervision, there is pending in the state wherein he is detained any criminal charge or any proceeding to have him adjudicated a delinquent juvenile for an act committed in such state, or if he is suspected of having committed within such state a criminal offense or an act of juvenile delinquency, he shall not be returned without the consent of such state until discharged from prosecution or other form of proceeding, imprisonment, detention or supervision for such offense or juvenile delinquency. The duly accredited officers of any state party to this compact, upon the establishment of their authority and the identity of the delinquent juvenile being returned, shall be permitted to transport such delinquent juvenile through any and all states party to this compact, without interference. Upon his return to the state from which he escaped or absconded, the delinquent juvenile shall be subject to such further proceedings as may be appropriate under the laws of that state.

(b) That the state to which a delinquent juvenile is returned under this article shall be responsible for payment of the transportation costs of such return.

ARTICLE VI—VOLUNTARY RETURN PROCEDURE

That any delinquent who has absconded while on probation or parole, or escaped from an institution or agency vested with his legal custody or supervision in any state party to this compact, and any juvenile who has run away from any state party to this compact, who is taken into custody without a requisition in another state party to this compact under the provisions of Article IV (a) or of Article V (a), may consent to his immediate return to the state from which he absconded, escaped or ran away. Such consent shall be given by the juvenile or delinquent juvenile and his counsel or guardian ad litem if any, by executing or subscribing a writing, in the presence of a judge of the appropriate court, which states that the juvenile or delinquent juvenile and his counsel or guardian ad litem, if any, consent to his return to the demanding state. Before such consent shall be executed or subscribed, however, the judge, in the presence of counsel or guardian ad litem, if any, shall inform the juvenile or delinquent juvenile of his rights under this compact. When the consent has been duly executed, it shall be forwarded to and filed with the compact administrator of the state in which the court is located and the judge shall direct the officer having the juvenile or delinquent juvenile in custody to deliver him to the duly accredited officer or officers of the state demanding his return, and shall cause to be delivered to such officer or officers a copy of the consent. The court may, however, upon the request of the state to which the juvenile or delinquent juvenile is being returned, order him to return unaccompanied to such state and shall provide him with a copy of such court order; in such event a copy of the consent shall be forwarded to the compact administrator of the state to which said juvenile or delinquent juvenile is ordered to return.

ARTICLE VII—COOPERATIVE SUPERVISION OF PROBATIONERS AND PAROLEES

(a) That the duly constituted judicial and administrative authorities of a state party to this compact (herein called "sending state") may permit any delinquent juvenile within such state, placed on probation or parole, to reside in any other state party to this compact (herein called "receiving state") while on probation or parole, and the receiving state shall accept such delinquent juvenile, if the parent, guardian or person entitled to the legal custody of such delinquent juvenile is residing or undertakes to reside within the receiving state. Before granting such permission, opportunity shall be given to the receiving state to make such investigations as it deems necessary. The authorities of the sending state shall send to the authorities of the receiving state copies of pertinent court orders, social case

studies and all other available information which may be of value to and assist the receiving state in supervising a probationer or parolee under this compact. A receiving state, in its discretion, may agree to accept supervision of a probationer or parolee in cases where the parent, guardian or person entitled to the legal custody of the delinquent juvenile is not a resident of the receiving state, and if so accepted the sending state may transfer supervision accordingly

(b) That each receiving state will assume the duties of visitation and of supervision over any such delinquent juvenile and in the exercise of those duties will be governed by the same standards of visitation and supervision that prevail for its own delinquent juveniles released on probation or parole.

(c) That, after consultation between the appropriate authorities of the sending state and of the receiving state as to the desirability and necessity of returning such a delinquent juvenile, the duly accredited officers of a sending state may enter a receiving state and there apprehend and retake any such delinquent juvenile on probation or parole. For that purpose, no formalities will be required, other than establishing the authority of the officer and the identity of the delinquent juvenile to be retaken and returned. The decision of the sending state to retake a delinquent juvenile on probation or parole shall be conclusive upon and not reviewable within the receiving state, but if, at the time the sending state seeks to retake a delinquent juvenile on probation or parole, there is pending against him within the receiving state any criminal charge or any proceeding to have him adjudicated a delinquent juvenile for any act committed in such state, or if he is suspected of having committed within such state a criminal offense or an act of juvenile delinquency, he shall not be returned without the consent of the receiving state until discharged from prosecution or other form of proceeding, imprisonment, detention or supervision for such offense or juvenile delinquency The duly accredited officers of the sending state shall be permitted to transport delinquent juveniles being so returned through any and all states party to this compact, without interference.

(d) That the sending state shall be responsible under this article for paying the costs of transporting any delinquent juvenile to the receiving state or of returning any delinquent juvenile to the sending state.

ARTICLE VIII—RESPONSIBILITY FOR COSTS

(a) That the provisions of Articles IV(b), V(b), and VII(d) of this compact shall not be construed to alter or affect any internal relationship among the departments, agencies and officers of and in the government of a party state, or between a party state and its subdivisions, as to the payment of costs, or responsibilities therefor.

(b) That nothing in this compact shall be construed to prevent any party state or subdivision thereof from asserting any right against any person, agency or other entity in regard to costs for which such party state or subdivision thereof may be responsible pursuant to Articles IV(b), V(b), or VII(d) of this compact.

ARTICLE IX—DETENTION PRACTICES

That, to every extent possible, it shall be the policy of states party to this compact that no juvenile or delinquent juvenile shall be placed or detained in any prison, jail or lockup nor be detained or transported in association with criminal, vicious or dissolute persons.

ARTICLE X—SUPPLEMENTARY AGREEMENTS

That the duly constituted administrative authorities of a state party to this compact may enter into supplementary agreements with any other state or states party hereto for the cooperative care, treatment and rehabilitation of delinquent juveniles whenever they shall find that such agreements will improve the facilities or programs available for such care, treatment and rehabilitation. Such care, treatment and rehabilitation may be provided in an institution located within any state entering into such supplementary agreement. Such supplementary agreements shall (1) provide the rates to be paid for the care, treatment and custody of such delinquent juveniles, taking into consideration the character of facilities, services and subsistence furnished; (2) provide that the delinquent juvenile shall be given a court hearing prior to his being sent to another state for care, treatment and custody; (3) provide that the state receiving such delinquent juvenile in one of its institutions shall act solely as agent for the state sending such delinquent juvenile; (4) provide that the sending state shall at all times retain jurisdiction over delinquent juveniles sent to an institution in another state; (5) provide for reasonable inspection of such institutions by the sending state; (6) provide that the consent of the parent, guardian, person or agency entitled to the legal custody of said delinquent juvenile shall be secured prior to his being sent to another state; and (7) make provision for such other matters and details as shall be necessary to protect the rights and equities of such delinquent juveniles and of the cooperating states.

ARTICLE XI—ACCEPTANCE OF FEDERAL AND OTHER AID

That any state party to this compact may accept any and all donations, gifts and grants of money, equipment and services from the federal or any local government, or any agency thereof and from any person, firm or corporation, for any of the

purposes and functions of this compact, and may receive and utilize the same subject to the terms, conditions and regulations governing such donations, gifts and grants.

ARTICLE XII—COMPACT ADMINISTRATORS

That the governor of each state party to this compact shall designate an officer who, acting jointly with like officers of other party states, shall promulgate rules and regulations to carry out more effectively the terms and provisions of this compact.

ARTICLE XIII—EXECUTION OF COMPACT

That this compact shall become operative immediately upon its execution by any state as between it and any other state or states so executing. When executed it shall have the full force and effect of law within such state, the form of execution to be in accordance with the laws of the executing state.

ARTICLE XIV—RENUNCIATION

That this compact shall continue in force and remain binding upon each executing state until renounced by it. Renunciation of this compact shall be by the same authority which executed it, by sending six months' notice in writing of its intention to withdraw from the compact to the other states party hereto. The duties and obligations of a renouncing state under Article VII hereof shall continue as to parolees and probationers residing therein at the time of withdrawal until retaken or finally discharged. Supplementary agreements entered into under Article X hereof shall be subject to renunciation as provided by such supplementary agreements, and shall not be subject to the six months' renunciation notice of the present Article.

ARTICLE XV—SEVERABILITY

That the provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any participating state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters

1301. Pursuant to the compact, the Governor may designate an officer who shall be the compact administrator and who, acting jointly with like officers of other party states, shall promulgate rules and regulations to carry out more effectively the terms of the compact. The compact administrator shall serve at the pleasure of the Governor.

1302. The compact administrator shall cooperate with all departments, agencies and officers of this State and its subdivisions in facilitating the proper administration of the compact or of any supplementary agreement or agreements entered into by this State thereunder.

1303. The compact administrator may enter into supplementary agreements with appropriate officials of other states pursuant to the compact. In the event that such supplementary agreement shall require or contemplate the use of any institution or facility of this State or require or contemplate the provision of any service by this State, it shall have no force or effect until approved by the head of the department or agency under whose jurisdiction the institution or facility is operated or whose department or agency will be charged with the rendering of such service.

1304. The compact administrator, subject to the approval of the Department of Finance, may make or arrange for any payments necessary to discharge any financial obligations imposed upon this State by the compact or by any supplementary agreement entered into thereunder.

1305. Any judge who appoints counsel or a guardian ad litem pursuant to the provisions of the compact may fix a fee, not to exceed the sum of _____ _____ ($_____), to be paid out of funds available for disposition by the court.

1307. The term "delinquent juvenile" as used in the Interstate Compact on Juveniles shall include those persons subject to the jurisdiction of the juvenile court within the meaning of Section 700 of this code.

INTRODUCTION, FIRST READING, AND REFERENCE OF ASSEMBLY BILLS (RESUMED)

The following resolution was offered:

Assembly Constitutional Amendment No. 59: By Messrs. Coolidge, Rumford, and Conrad—A resolution to propose to the people of the State of California an amendment to the Constitution of the State, by amending Section 22 of Article XX thereof, relating to alcoholic beverages.

Referred to Committee on Constitutional Amendments.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, March 23, 1955

To the Honorable Members of the Assembly of the California Legislature

GREETINGS: On January 1, 1955, pursuant to Chapter 20 of the Statutes of 1954, the Department of Alcoholic Beverage Control came into existence.

I have been extremely pleased with the accomplishments of the department during the brief 2½ months that it has been in operation. On the basis of what has occurred thus far, I can assure you California's Alcoholic Beverage Control Laws are now being effectively administered. The Legislature is to be commended on its fine work in submitting the proposal for the creation of this new department to the voters at the last general election; and the people of California are to be complimented upon their overwhelming endorsement of the plan.

I am particularly proud of the fact that every top-level appointee in the new department is a career employee selected from the State Civil Service System. These men have been chosen because of outstanding reputations for honesty and ability. Their years of civil service experience insure the highest type of professional administration.

The department has adopted a policy of conducting all its activities out in the open. Adequate publicity has been given to every action, and nothing has been decided in secrecy. This open, straightforward, and honest approach has already gone far in restoring public confidence in this phase of our State's business.

The department has developed new investigative procedures to obtain thorough information on the nature of the business proposed, and the moral character and competency of every potential licensee. No longer are licenses issued "for the record only" or to vacant lots where the applicant has no intention of proceeding to establish a bona fide business. The practice of obtaining a license for speculative purposes has become almost impossible under the close scrutiny which is now being given to each application. No longer can persons with serious criminal records procure licenses and use their premises as centers of illegal activity.

A bolder and more vigorous enforcement program has been inaugurated. Where once there appeared reluctance to proceed, the new department is acting promptly and consistently on all types of violations.

The department has undertaken investigations of alleged irregular practices by former employees. As a result, at least 12 persons have been suspended or dismissed from state service on charges ranging from the acceptance of gifts from licensees to outright bribery. All remaining employees have been instructed that the department's business will be conducted on the basis of strict honesty and integrity.

Departmental officers have met with representatives of various peace officer groups and with numerous organizations representing the alcoholic beverage industry; and in each instance it has clearly indicated its desire to cooperate with all law enforcement agencies, recognize the needs and desires of the industry, and protect the interests of the public at large

I know the Members of the Legislature share my desire to do everything possible to help the department solve the many perplexing problems which 21 years of licensed alcoholic beverage activity have created in California. To this end, I submit the following suggestions

I. Personnel

Director Russell S. Munro advises me that in his opinion the great majority of the personnel of the new department are honest, capable public servants. However, the position of liquor control officer is one of the lowest paid law enforcement classes of comparable responsibility in California.

The salary range for liquor control officer is $341 to $415 per month. The majority of these officers work in large cities and have or should have responsibilities at least equal to those of city patrolmen. Yet, patrolmen's salaries in several large cities are much more attractive For example, the following cities pay their patrolmen the amounts indicated:

Oakland	$395-425
Los Angeles	$375-440
Berkeley	$369-400
San Francisco	$390-440

In addition, several law enforcement classes in the state service have higher pay ranges. For example:

State Highway Traffic Officer	$358-436
Special Investigator	$376-458
Narcotic Inspector I	$376-415

Because of these conditions the recruitment of promising young officers is difficult, and even after having been employed, quite a few experienced officers have transferred to other governmental agencies when afforded the opportunities for better pay.

In Section 23001, Business and Professions Code, the Legislature has defined the purposes of the Alcoholic Beverage Control Act as follows:

> "* * * an exercise of the police powers of the State for the protection of the safety, welfare, health, peace, and morals of the people of the State, to eliminate the evils of unlicensed and unlawful manufacture, selling and disposing of alcoholic beverages, and to promote temperance in the use and consumption of alcoholic beverages. It is hereby declared that *the subject matter of this division involves in the highest degree* the economic, social, and moral well-being and the safety of the State and of all its people * * *." (Emphasis added.)

I agree with the Legislature that the administration of our Alcoholic Beverage Control Laws involves in the highest degree the general welfare of the people of California. Therefore, it is my desire that there be developed a force of liquor control officers which will come to be recognized as the most effective in the Country

This can only be accomplished through careful recruitment of good personnel combined with effective training

Mr. Munro has advised me that he intends to establish a meaningful and comprehensive training program He also intends to request the Legislature to authorize increased peace officer powers. This will enable the department to take action against those licensees who abuse the privilege of their licenses by the commission of various crimes upon licensed premises which do not constitute violations of the Alcoholic Beverage Control Act. Presently, the liquor control officers are limited in their authority to violations of the Alcoholic Beverage Control Act.

In addition, I am asking Mr Munro to undertake, with the State Personnel Board, a revision of civil service specifications for liquor control officer as well as other related classes in the department. Such adjustments in salary ranges as the new concept of the classes may indicate will naturally follow. The civil service status of persons already in these classes will, of course, be protected.

I strongly recommend approval of these three proposals: An effective training program, increased peace officer powers, and higher pay. I am convinced such forward-looking steps eventually will give us the high-calibre enforcement team we so badly need in this most important job of liquor control.

II. Food Law

Section 22 of Article XX of the State Constitution includes the following provision:

> "Intoxicating liquors, other than beers, shall not be consumed, bought, sold, or otherwise disposed of for consumption on the premises, in any public saloon, public bar or public barroom within the State; provided, however, that subject to the aforesaid restriction, all intoxicating liquors may be kept and may be bought, sold, served, consumed, and otherwise disposed of in any bona fide hotel, restaurant, cafe, cafeteria, railroad dining or club car, passenger ship, or other public eating place, or in any bona fide club after such club has been lawfully operated for not less than one year."

In 1946, the California Supreme Court interpreted this clause of our Constitution in the case of *Covert* vs. *State Board of Equalization*, 29 Cal 2d 125. In summary, the court ruled that a bona fide public eating place must meet the following requirements:

1. There must be equipment, supplies and personnel appropriate to a restaurant.
2. There must be a real offer to sell food whenever the premises are open for business.
3. There must be actual and substantial sales of food.

I am advised by numerous sources that the above requirements are too vague, complex, and unreasonable to be enforced uniformly throughout the state.

What kind and type of equipment, what quantity or kind of supplies, and what sort of a staff would be required to constitute compliance with this opinion?

By requiring that a real offer to sell food be made, is it intended that a cook and waiter must be on duty prepared to serve hot meals during all hours that alcoholic beverages are served? If so, I understand that many of our major hotels and cafes are not complying.

Further, what is meant by "substantial sales of food"? Restaurant A may sell $1,000 worth of food and $4,000 worth of liquor per month. Thus, its food sales equal only 20 percent of the gross Restaurant B, on the other hand, may sell $800 worth of food and $1,200 worth of liquor. Its food sales are 40 percent of the gross although smaller in dollar value than those of Restaurant A. Which is making "substantial sales" of food?

In order to clarify these and other related problems, I urge that the Legislature give consideration to more clearly defining by statute what constitutes a public eating place in order for an establishment to qualify for a license to sell and serve alcoholic beverages.

It has been suggested that the food requirement should be eliminated entirely. I do not advocate legalizing the open saloon, but I believe that the Legislature should consider presenting the question to the people in the form of a proposed constitutional amendment clarifying and revising the present act. In this way, the voting public could clearly express itself on the subject.

In any event, I am convinced the time has come to evolve a clear and workable policy to guide the department in regulating on-sale premises. I am advised that a literal enforcement of the present law as interpreted by the Supreme Court could result in punitive actions against at least 75 percent of our major hotels, cafes and taverns.

III. Off-sale Fees

Retail package stores are charged quarterly fees according to volume of sales. Each proprietor must maintain voluminous records and submit sales reports to the department every 90 days State auditors check these sales at a cost of approximately $180,000 each year

Currently, there are 9,341 establishments licensed for general off-sale privileges. The proprietors pay $121 on July 1st of each year, which authorizes gross sales of distilled spirits in package form not exceeding $10,000 Sales reports are filed at the end of each subsequent quarter, and additional fees are assessed at the rate of $11 for each $1,000 in excess of $10,000 This creates a complicated bookkeeping problem, both for the department and the proprietor.

To replace the present cumbersome system, I suggest a flat fee be charged annually for each off-sale general license In this way, the State would save approximately $180,000 annually in auditing fees, and each proprietor would be relieved of bothersome and costly record keeping and report making.

I have requested the department to study this problem and suggest a standard fee which would maintain our revenues without bringing an excessive burden on any individual licensee.

IV. License Transfers

Recently, there has been considerable publicity regarding the transfer of liquor licenses from person to person for a financial consideration. Apparently this has become a recognized and approved procedure.

Personally, I see no reason why these licenses should be, in effect, negotiable paper. Records of the department indicate the undesirable results of unrestricted transferability, including excessive profiteering, bribery, and peddling.

Some licensees paid $525 to the State and then transferred their licenses to other persons for as much as $23,000 each.

State officers allegedly have been bribed to arrange for licenses to be issued for $525 and then resold for huge profits.

Some persons have gained control of numerous licenses and have engaged in a regular business of peddling and re-peddling these licenses for repeated profits.

I am convinced these practices should be stopped as soon as possible. However, I recognize that most people obtained their licenses in good faith to conduct legitimate businesses. Since many of them paid high prices for these licenses, I feel they should have a reasonable opportunity to recover or amortize the purchase price. I believe, therefore, the department should retain its present authorization to approve a license transfer when a legitimate business is sold or moved to another location. Nothing should be done which would destroy the inherent 'good will" value in the sales price of a bona fide establishment.

In order to begin action against the evils of transfer, legislation should be developed to accomplish the following objectives:

1. To eliminate the transfer for profit of old licenses, on a reasonable and gradual basis; and
2. Immediately, to prohibit the transfer for profit of new licenses.

V. Temporary On-sale License

Section 22 of Article XX of the State Constitution provides in part:

"* * * the privilege of keeping, buying, selling, serving, and otherwise disposing of intoxicating liquors * * * shall be licensed and regulated under the applicable provisions of the Alcoholic Beverage Control Act."

Various private and public clubs, associations, and miscellaneous groups frequently sponsor meetings, conventions, and parties at which alcoholic beverages are served. Oftentimes, this is done although the premises has no license authorizing the use of alcoholic beverages. Thus, the sponsoring group may be violating the law, even though it has no intention of doing so.

To remedy this situation, I recommend that the department be authorized to issue temporary on-sale licenses to legitimate applicants for one-day social events. This would legalize what currently may be an illegal though generally accepted custom.

If such a license is not authorized, the department may have the unpleasant duty of taking action against persons who are unintentionally and unknowingly violating the law.

Undoubtedly there will be other problems which may arise from time to time affecting the new department. I shall consider it a privilege to work with you in seeking mutually acceptable and beneficial solutions to those problems.

Respectfully submitted.

REQUEST FOR UNANIMOUS CONSENT TO PRINT OPINION OF LEGISLATIVE COUNSEL IN JOURNAL

Mr. Maloney asked for, and was granted, unanimous consent to print the following opinion of the Legislative Counsel, directed to Mr. Levering, regarding Assembly Bill No. 510, in the Journal.

OPINION OF LEGISLATIVE COUNSEL

(COPY)

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, March 23, 1955

Honorable Harold K. Levering
Assembly Chamber

Assembly Bill No. 510—Reference to Committee on Ways and Means—No. 8622

DEAR MR. LEVERING:

Question

You ask whether Assembly Bill No. 510, providing for increases in the amounts of workmen's compensation payable, must be referred to the Committee on Ways and Means before it may be placed on third reading.

Opinion

It is our opinion that the reference must be made.

Analysis

Assembly Standing Rule No. 62 reads as follows:

"The Committee on Ways and Means shall consider all bills to appropriate money, other than the contingent expenses of the Assembly. Any bill which would require the expenditure of additional state moneys in any manner, including any bill which creates any additional state agency or office, or adds any functions, duties, or responsibilities to an existing agency or office, shall be referred to the Ways and Means Committee before being placed on third reading."

Assembly Bill No. 510 would appear to fall within the scope of the second sentence of this rule on at least two possible grounds.

First, in view of the provision for increased workmen's compensation payments, the State will be obligated to expend more money than it is now obligated to provide for in the State Budget for the Fiscal Year 1955-56 (p. 949) and the proposed "Budget Act of 1955" (S.B. 300 and A.B. 700—Item 270), if it is to fulfill its own workmen's compensation obligation towards its own officers and employees. It is to be noted in this connection that the State and its officers and employees are subject to the provisions of the Workmen's Compensation Law (Lab. C. 3300, 3351).

It is further to be noted that although the State is not required to provide for the payment of workmen's compensation in any of the ways required of private employers (Lab. C. 3700), it nevertheless does provide for such payment by budgetary appropriation, as indicated above. As a matter of fact, it also makes special appropriations for such purpose when it appears that the amount provided in the Budget Act is insufficient (see S.B. 749, present session).

The subsequent injuries payment provisions contained in Sections 4750 to 4755, inclusive, of the Labor Code constitute a second ground for our conclusion that Assembly Bill No. 510 must be referred to the Committee on Ways and Means. Under these provisions the State of California has obligated itself to make payments out of public funds to any employee, privately or publicly employed, who suffers an industrial permanent partial disability which, in combination with any preexisting permanent partial disability, results in a permanent disability equal to 70 percent or more. It follows that if workmen's compensation payments are increased as provided in Assembly Bill No. 510, the State's obligation to make subsequent injuries payments will thereby be affected correspondingly (State Budget for the Fiscal Year 1955-56 (p. 500), S.B. 300 and A.B. 700—Item 137).

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By J. GOULD, Deputy

REQUEST FOR UNANIMOUS CONSENT TO PRINT OPINION OF LEGISLATIVE COUNSEL IN JOURNAL

Mr. Levering asked for, and was granted, unanimous consent that the following opinion of the Legislative Counsel relative to Assembly Bill No. 934 be printed in the Journal:

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, March 24, 1955

Honorable Harold K. Levering
Assembly Chamber

Assembly Bill No. 934—Reference to Committee on Ways and Means—No. 8665

DEAR MR. LEVERING:

Question

You ask whether Assembly Bill No. 934 must be referred to the Committee on Ways and Means before it may be placed on third reading.

Opinion

It is our opinion that the reference must be made.

Analysis

Assembly Standing Rule No. 62 reads as follows:

"The Committee on Ways and Means shall consider all bills to appropriate money, other than the contingent expenses of the Assembly. Any bill which would require the expenditure of additional state moneys in any manner, including any bill which creates any additional state agency or office, or adds any functions, duties, or responsibilities to an existing agency or office, shall be referred to the Ways and Means Committee before being placed on third reading."

Assembly Bill No. 934 provides that where, under the Workmen's Compensation Law, an injured employee submits to a medical examination at the request of his employer, the latter's insurance carrier, the Industrial Accident Commission, its members or agents, he shall be entitled to all transportation and other expenses and reimbursement for any loss in wages incurred or resulting from such examination.

The bill would appear to fall within the scope of the second sentence of Assembly Standing Rule No. 62 in that the State will thereby become obligated to expend more money in the fulfillment of its workmen's compensation responsibilities in respect to its own officers and employees than it has provided for in the State Budget for the Fiscal Year 1955-56 (p. 949) and the proposed "Budget Act of 1955" (S.B. 300 and A.B.700—Item 270). It is to be noted in this connection that the State and its officers and employees are subject to the provisions of the Workmen's Compensation Law (Lab. C. 3300, 3351).

It is further to be noted that although the State is not required to provide for the payment of workmen's compensation in any of the ways required of private employers (Lab. C. 3700), it nevertheless does provide for such payment by budgetary appropriation, as indicated above. As a matter of fact, it also makes special appropriations for such purpose when it appears that the amount provided in the Budget Act is insufficient (see S.B.749, present session).

Such potatoes shall meet the requirements for U. S. No. 1 grade established for potatoes by the United States Department of Agriculture, except that they need only be free from serious damage by dirt, as defined in the U. S. grades for potatoes, but the tolerances for defects specified in subdivisions (c) and (d) shall be allowed.

(b) The diameter of each potato shall be not less than 1⅞ inches.

No 2 grade, but not more than one-half of this amount (3 percent) may be affected by southern bacterial wilt, ring rot, or late blight, including not more than 1 percent for frost, soft rot, or wet breakdown.

The tolerances for the standards are on a container basis; however, individual packages in any lot may vary from the specified tolerances in the amounts indicated in the U. S. standards for potatoes relating to lot tolerances, provided the averages for the entire lot, based on sample inspection, are within the tolerances specified herein.

(d) In addition, not more than 10 percent of such potatoes may have sprouts over three-fourths of an inch long so long as the potatoes are free from serious damage by shriveling as defined in the U. S. grades for potatoes, except that if the 15 percent tolerance specified in subdivision (c) is not used entirely for other defects, the unused portion of the tolerance may be used for potatoes having sprouts over three-fourths of an inch long but which are not damaged seriously by shriveling.

"California Standard" potatoes may also be labeled or designated as "Standard" or "Calif. Standard" and if so labeled must meet the requirements of this section.

Such consent, when reciting that the person giving it is entitled to the sole custody of the minor child, shall, when duly acknowledged before such agent, be prima facie evidence of the right of the person making it to the sole custody of the child and such person's sole right to consent.

In all cases of adoption in which no agency licensed to place children for adoption is a party, except in the case of an adoption by a stepparent where one natural or adoptive parent retains his or her custody and control of the said child, it shall be the duty of the Department of Social Welfare or of the licensed county adoption agency to accept the consent of the natural parents to the adoption of the child by the petitioners and to ascertain whether the child is a proper subject for adoption and whether the proposed home is suitable for the child, prior to filing report with the court

In all cases in which the consent of the natural parent or parents is not necessary and an agency licensed to place children for adoption is not a party to the petition, the State Department of Social Welfare or the licensed county adoption agency shall, prior to the hearing of the petition, file its consent to the adoption with the clerk of the superior court of the county in which the petition is filed. Such consent shall not be given by the Department of Social Welfare or the licensed county adoption agency unless the child's welfare will be promoted by the adoption.

Except in the case of the adoption of a child by a stepparent where one natural or adoptive parent retains his or her custody and control of the child, it shall be the duty of the Department of Social Welfare or of the licensed county adoption agency to submit to the court a full report of the facts disclosed by its inquiry with a recommendation regarding the granting of the petition within 180 days after the filing of the petition; provided, however, that the court may allow such additional time for the filing of said report as in its discretion it may see fit, *after at least five days' notice to the petitioner or petitioners and opportunity for such petitioner or petitioners to be heard with respect to the request for additional time.* The report required of the Department of Social Welfare or of the licensed county adoption agency may be waived by the department in all cases in which an agency, licensed by the Department of Social Welfare to place children in homes for adoption, is a party or joins in the petition for adoption. Such waiver may be issued by the department at any time, either before or after the filing of the petition for adoption.

Whenever any report or findings are submitted to the court by the Department of Social Welfare *or by a licensed county adoption agency under any provision of this* section, a copy of such report or findings, whether favorable or unfavorable, shall be given to the attorney for the petitioner in the proceedings, if the petitioner has an attorney of records, or to the petitioner.

If the findings of the State Department of Social Welfare or the county adoption agency are that the home of the petitioners is not suitable for the child and it recommends that the petition be denied, the county clerk upon receipt of the report of the State Department of Social Welfare or the county adoption agency shall immediately refer it to the superior court for review.

In case of an adoption of a child by a stepparent where one natural or adoptive parent retains his or her custody and control of said child, the consent of either or both parents must be signed in the presence of a county clerk or probation officer of any county of this State on a form prescribed by the State Department of Social Welfare and the county clerk or probation officer before whom such consent is signed shall immediately file said consent with the clerk of the superior court of the county where the petition is filed and said clerk shall immediately file a certified copy of such consent to adoption with the State Department of Social Welfare.

If the father or mother of a child to be adopted is outside the State of California at the time of signing consent, his or her consent may be signed before a notary or other person authorized to perform notarial acts and in such case the consent of the Department of Social Welfare or of a licensed county adoption agency will also be necessary, but such consent shall not be necessary where the adoption is by a stepparent and one natural parent retains custody and control of the child.

A parent who is a minor shall have the right to sign a consent for the adoption of his or her child and such consent shall not be subject to revocation by reason of such minority.

If for a period of 180 days from the date of filing the petition, or upon the expiration of any extension of said period granted by the court, the Department of Social Welfare or the licensed county adoption agency fails or refuses to accept the consent of the natural parent or parents to the adoption, or if said department or agency fails or refuses to file or to give its consent to an adoption in those cases where its consent is required by this chapter, either the natural parent or parents or the petitioner may appeal from such failure or refusal to the superior court of the county in which the petition is filed, in which event the clerk shall immediately notify the Department of Social Welfare of such appeal and the department or agency shall within 10 days file a report of its findings and the reasons for its failure or refusal to consent to the adoption or to accept the consent of the natural parent. After the filing of said findings, the court may, if it deems that the welfare of the child will be promoted by said adoption, allow the signing of the consent by the natural parent or parents in open court, or if the appeal be from the refusal of said department or agency to consent thereto, grant the petition without such consent

SEC. 2. Section 227 of said code is amended to read:

227 The person or persons desiring to adopt a child, and the child proposed to be adopted, *unless the court waives the presence of the child,* must appear before the court; provided, that if said adoptive parent is then commissioned or enlisted in the military service, or auxiliary thereof, of the United States, or of any of its allies, or in the American Red Cross, [so] *or is otherwise in such circumstances* that it is impossible or impracticable, because of such person's absence from the State of California, or otherwise, for said person to make such appearance in person, and said circumstances are established by satisfactory evidence, said appearance may be made for such person by his or her counsel, commissioned and empowered in writing so to do and which said power of attorney may be incorporated in the petition for adoption. The court must examine all persons appearing before it pursuant to this section, each separately, and if satisfied that the interest of the child will be promoted by the adoption, the party or parties adopting shall execute or acknowledge an agreement in writing that the child shall be treated in all respects as the lawful child of the party or parties, and the court shall thereupon make an order awarding the custody of the child to the adopting parent or parents. In a case where the adopting parent is permitted to appear by counsel, the agreement may be executed and acknowledged by such counsel for such absent party, or may be executed by such absent party before a notary public, or any other person authorized to take acknowledgments including the persons authorized by Sections 1183 and 1183.5 of this code; provided, that in any case where said adoptive parent is permitted to appear by counsel hereunder, or otherwise, the court may, in its discretion, cause such examination of said adoptive parent, other interested party, or witness to be made upon deposition, as it deems necessary, said deposition to be taken upon commission, as prescribed by the Code of Civil Procedure, and the expense thereof to be borne by the petitioner. The petition, relinquishment, agreement, order, and any power of attorney and deposition must be filed in the office of the county clerk and shall not be open to inspection by any other than the parties to the action and their attorneys and the State Department of Social Welfare except upon the written authority of the judge of the superior court."

Article 4. Licensing of Operators

9850. The board shall investigate and qualify applicants for operators' licenses by written or oral examination, or both.

9851. No license shall be issued to a minor, nor to any copartnership a member of which is a minor, nor to any corporation any officer, director or responsible managing employee of which is a minor, nor to any other kind of business organization in which a minor holds a responsible official position, unless such minor shall first have had a guardian appointed by a court of competent jurisdiction.

The application shall be made on a form prescribed by the board and shall be accompanied by the fee fixed by this chapter.

9853. The information contained in the application forms shall include a complete statement of the general nature of the applicant's proposed agricultural aircraft service business, including the proposed area in which he intends to engage in business, such description as may be prescribed by the board of all aircraft to be used by the applicant in his business, including the registration number assigned to each such aircraft by the Civil Aeronautics Administrator, and evidence that the Civil Aeronautics Administrator has issued a certificate of air worthiness for each such aircraft and, in addition, if the applicant is an individual, his name and address; if a copartnership, the names and addresses of all partners; and if a corporation, association or other organization, the names and addresses of the president, vice president, secretary, and chief managing officer or officers, or responsible managing employee, together with all other information which may be deemed necessary by the board.

(b) That the applicant, or any officer, director, partner, associate or responsible managing employee thereof has committed or done any act involving dishonesty, fraud or deceit whereby the applicant has been benefited or whereby some injury has been sustained by another.

(c) That the applicant, or any officer, director, partner, associate or responsible managing employee thereof bears a bad reputation for honesty and integrity.

9860 Following receipt of the application fee and the aircraft license fee for each aircraft to be licensed and an application furnishing complete information in the manner required by the board, and after such examination and investigation as may be required, the board, within 15 days after approval of the application, shall issue a license to the applicant permitting him to engage in business as an operator under the terms of this chapter for the balance of the fiscal year, and an aircraft license for each aircraft to be used in his business.

9861. The board shall issue to any licensed operator, upon application in the manner prescribed by the board and payment of the fee prescribed by this chapter, an aircraft license for any aircraft owned by the operator which the operator desires to use in his business.

9862. If information brought to the attention of the board concerning the character and integrity of an applicant is such that, in the board's discretion, it would be proper to deny the application, the board shall forthwith notify the applicant to show

cause within not more than 30 days why the application should not be denied The proceedings shall be conducted in accordance with the provisions of Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code, and the board shall have all the powers granted therein.

9863. A surviving member or members of a licensed copartnership by reason of death shall be entitled to continue in business under such license until the expiration date thereof, if application for permission is made to the board within 30 days after death of the member, and the application is approved by the board in accordance with such rules and regulations as it may adopt.

Article 5. Financial Responsibility of Operators

9870. The board shall not issue or renew any operator's license unless the applicant first submits to the board proof of his financial responsibility to respond in damages as required by this article.

9871. Proof of such financial responsibility may be made by furnishing security which may consist of a deposit of money, a surety bond in favor of any person or persons who may suffer damage by reason of operations in which materials or substances are applied through the medium of aircraft by the operator issued by a corporate surety company qualified and authorized to do business in this State, or an insurance policy insuring the operator against liability resulting from such operations. The amount of such deposit, surety bond, or insurance shall be not less than twenty-five thousand dollars ($25,000) for each aircraft and in the event of any recovery against such security it shall be replenished so that it amounts to not less than twenty-five thousand dollars ($25,000) for each aircraft.

9872. In the event that any operator required to furnish security under this article fails to do so or fails to maintain or fails to replenish such security as required by this article, the board shall forthwith suspend his license until such time as he furnishes or maintains or replenishes such security, as the case may be.

9873. For the purpose of this article a deposit of bonds or other obligations for the payment of which the full faith and credit of the United States or of this State are pledged shall be considered a deposit of money.

9874. Any person suffering loss or damage resulting from the actual performance of any agricultural aircraft service by any operator, must, within sixty (60) days from the time that the occurrence of such loss or damage became known to him, or in the event a growing crop is alleged to have been damaged, prior to the time fifty percent (50%) of said crop shall have been harvested; provided, such loss or damage was known, file with the board a verified report of loss setting forth so far as known to the claimant the following: name and address of claimant, type, kind and location of property allegedly injured or damaged, date the alleged injury or damage occurred, name of operator allegedly responsible for each loss or damage, and name of the owner or occupant of the property for whom such operator was rendering labor or services.

The filing of such report or the failure to file such report need not be alleged in any complaint which might be filed, and the failure to file the report as herein provided for shall not be a bar to the maintenance of a civil action for the recovery of damages for such loss or damage

Proof of a failure to file the report herein required shall create a rebuttable presumption that no such loss or damage occurred

Article 6. Licensing and Regulation of Pilots

9880. Pursuant to rules and regulations adopted by the board and approved by the director, the board may investigate and qualify applicants for agricultural pilots' certificates and agricultural apprentice pilots' certificates by written or oral examination or both

9884. No pilot's certificate shall be issued to any applicant, other than the holder of a valid apprentice pilot's certificate, who has not had in effect a valid pilot's certificate issued to him by the board within the previous two fiscal years.

9885. No pilot's certificate shall be issued to the holder of an apprentice pilot's certificate until he shall present to the board satisfactory documentary proof of his completion of not less than one hundred fifty (150) hours of operation of fixed-wing aircraft or fifty (50) hours of operation of nonfixed-wing aircraft within the past two fiscal years in agricultural seeding, fertilizing or pest control activities, not more than twenty-five percent (25%) of which hours shall have been in the application of seed and fertilizers.

9886. In the case of applicants for apprentice pilot's certificates, the examination shall be designed to demonstrate the candidate's ability to conduct the specific agricultural aircraft services, including pest control operations, listed in his application. Successful candidates for apprentice pilot's certificates shall be authorized to conduct only the specific kinds of agricultural aircraft services for which they are found to be qualified and such operations shall be listed on their apprentice pilot's certificates.

9887. The applicant for an apprentice pilot's certificate shall satisfy the board, through documentary evidence or other suitable information, that he will be employed by a person holding an operator's license currently in effect and that he will be employed and supervised by a person holding a valid pilot's certificate.

9888. The board may refuse to issue any pilot's or apprentice pilot's certificate to or to renew any certificate of any pilot, and may revoke or suspend the certificate of any pilot when, after a hearing, the board finds that the pilot is not qualified to conduct agricultural aircraft services, including pest control operations, has operated any aircraft in any agricultural aircraft service in a faulty, careless or negligent manner, or has violated any of the provisions of this chapter, or rules or regulations issued hereunder, or has failed or refused to comply with any lawful order of the board.

Such report shall include the names of the persons for whom services were rendered, the location of the lands involved, the day, month, year, and time of day such services were rendered, the person or firm supplying the pesticide or other substance or material applied, the air temperature, direction, and estimated velocity of the wind at the time of application, and such other information as the board may require.

9921. In the event a licensee commits a fraudulent act which is a ground for disciplinary action under Section 9937, the correction of any condition resulting from such act shall not in and of itself preclude the board from taking disciplinary action under this article.

9922. All accusations against licensees shall be filed within two years after the act or omission alleged as the ground for disciplinary action. The proceedings under this article shall be conducted in accordance with the provisions of Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code, and the board shall have all the powers granted therein.

9923. The decision may:

(b) Permit the licensee to complete any or all contracts shown by competent evidence taken at the hearing to be then uncompleted.

(c) Impose upon the licensee compliance with such specific conditions as may be just in connection with his operations as an operator disclosed at the hearing and may further provide that until such conditions are complied with no application for restoration of the suspended or revoked license shall be accepted by the board.

9924. In any proceeding for review by a court, the court may in its discretion, upon the filing of a proper bond by the licensee in an amount to be fixed by the court, but not less than one thousand dollars ($1,000), guaranteeing the compliance by the licensee with specific conditions imposed upon him by the board's decision, if any, permit the licensee to continue to do business as an operator pending entry of judgment by the court in the case. There shall be no stay of the board's decision pending an appeal or review of any such proceeding unless the appellant or applicant for review shall file a bond in all respects conditioned as, and similar to, the bond required to stay the effect of the board's decision in the first instance.

9925. After suspension of the license upon any of the grounds set forth in this article, the board may renew the license upon proof of compliance by the operator with all provisions of the decision as to renewal or, in the absence of such decision or any provisions therein as to renewal, in the sound discretion of the board.

After revocation of a license upon any of the grounds set forth in this article, the license shall not be renewed or reissued within a period of one year after the final decision of revocation and then only on proper showing that all loss caused by the act or omission for which the license was revoked has been fully satisfied and that all conditions imposed by the decision of revocation have been complied with.

9926. The suspension or revocation of license as in this chapter provided may also be embraced in any action otherwise proper in any court involving the licensee's performance of his legal obligation as an operator.

9927. The lapsing or suspension of a license by operation of law or by order or decision of the board or a court of law, or the voluntary surrender of a license by a licensee shall not deprive the board of jurisdiction to proceed with any investigation of or action or disciplinary proceeding against such license, or to render a decision suspending or revoking such license.

9928. Abandonment without legal excuse of any agricultural aircraft service operation engaged in or undertaken by the licensee as an operator constitutes a cause for disciplinary action.

9929. Diversion of funds or property received for prosecution or completion of a specific agricultural aircraft operation, or for a specified purpose in the prosecution or completion of any such operation, and their application or use for any other operation, obligation or purpose constitutes a cause for disciplinary action.

9930. Wilful departure from, or disregard of, plans or specifications in any material respect, and prejudicial to another without the consent of the person, or his duly authorized representative, entitled to have the particular agricultural aircraft service operation completed in accordance with such plans and specifications constitutes a cause for disciplinary action.

9931. Wilful or deliberate disregard and violation of the Agricultural Aircraft Service Laws or of the Safey Laws or Labor Laws or Compensation Insurance Laws of the State, constitutes a cause for disciplinary action.

9932. Failure to make and keep records showing all contracts, documents, records, receipts and disbursements by a licensee of all of his transactions as an operator and open to inspection by the registrar for a period of not less than three years after completion of any agricultural aircraft service operation to which the records refer constitutes a cause for disciplinary action.

9933. Misrepresentation of a material fact by an applicant in obtaining a license constitutes a cause for disciplinary action.

9934. Failure in a material respect on the part of a licensee to complete any agricultural aircraft service operation for the price stated in the contract for such operation or in any modification of such contract constitutes a cause for disciplinary action.

9935. Aiding or abetting an unlicensed person to evade the provisions of this chapter or knowingly combining or conspiring with an unlicensed person, or allowing one's license to be used by an unlicensed person, or acting as agent or partner or associate, or otherwise, of an unlicensed person with the intent to evade the provisions of this chapter constitutes a cause for disciplinary action.

Acting in the capacity of an operator under any license issued hereunder except: (a) in the name of the licensee as set forth upon the license, or (b) in accordance with the personnel of the licensee as set forth in the application for such license, or as later changed as provided in this chapter, constitutes a cause for disciplinary action

9939 Knowingly entering into a contract with an operator while such operator is not licensed as provided in this chapter constitutes a cause for disciplinary action

9940. Wilful failure or refusal without legal excuse on the part of a licensee as an operator to prosecute an agricultural aircraft service operation with reasonable diligence causing material injury to another constitutes a cause for disciplinary action

9941. Wilful or deliberate failure by any licensee or agent or officer thereof, to pay any moneys, when due for any materials or services rendered in connection with his operations as an operator, when he has the capacity to pay or when he has received sufficient funds therefor as payment for the particular agricultural aircraft service operation for which the services or materials were rendered or purchased constitutes a cause for disciplinary action, as does the false denial of any such amount due or the validity of the claim thereof with intent to secure for himself, his employer, or other person, any discount upon such indebtedness or with intent to hinder, delay, or defraud the person to which such indebtedness is due

9942 Any person who has been denied a license, or who has had his license revoked, or whose license is under suspension, or who has failed to renew his license while it was under suspension, or who has been a member, officer, director, associate or responsible managing employee of any partnership, corporation, firm or association whose application for a license has been denied, or whose license has been revoked, or whose license is under suspension, or who has failed to renew a license while it was under suspension, and while acting as such member, officer, director, associate or responsible managing employee had knowledge of or participated in any of the prohibited acts for which the license was denied, suspended or revoked, shall be prohibited from serving as an officer, director, associate, partner

or responsible managing employee of a licensee, and the employment, election or association of such person by a licensee shall constitute grounds for disciplinary action.

9943. The performance by any partnership, corporation, firm or association of any act or omission constituting a cause for disciplinary action, likewise constitutes a cause for disciplinary action against any licensee who is a member, officer, director, associate or responsible managing employee of such partnership, corporation, firm or association, and who participated in such prohibited act or omission.

The insurer, including the State Compensation Insurance Fund, shall thereafter report to the board any cancellation or lapse of the policy within 10 days after such cancellation or lapse A renewal of a policy or a new policy in lieu of one that has expired is not considered a cancellation or lapse

9951. Any licensee or agent or officer thereof, who violates, or omits to comply with, any of the provisions of this article is guilty of a misdemeanor.

Article 10. Revenue

9960. The fees received under this chapter shall be deposited in the Agricultural Aircraft Operators' fund.

9961. The Director of Professional and Vocational Standards shall designate a sum not to exceed 10 percent of the total income of the Agricultural Aircraft Operators' Board for each fiscal year to be transferred to the Professional and Vocational Standards Fund as the board's share of the cost of administration of the department.

A license or certificate may be renewed without penalty by the filing of a renewal application with the board not later than June 30th of each fiscal year. To be effective such renewal application must be made upon forms prescribed by the board and must be accompanied by the annual renewal fee. Otherwise a license or certificate, application for renewal of which has not been so filed on or before June 30th of each fiscal year, shall be ipso facto suspended until a renewal application is properly filed, and shall be renewable only if the application for the renewal thereof is filed with the board not later than September 30th of each year on a form prescribed by the board and is accompanied by the penalty fee prescribed by this chapter, in addition to the current renewal fee.

No license or certificate shall be renewed under any conditions unless the prescribed renewal application, together with all prescribed fees, is filed with the registrar on or before September 30th of each year.

9972. The filing of a renewal application within this time, in the form and with the fees prescribed in this article, authorizes operation as an operator by the licensee or as a pilot or apprentice pilot by the holder of a certificate, as the case may be, until the actual issuance of the renewal license or certificate for the ensuing fiscal year; provided, that the license or certificate of said applicant is not otherwise under suspension by reason of the decision of the board in a disciplinary proceeding.

9973. A licensee or certificate holder who meets all the requirements for the filing of his renewal application as prescribed herein, and who is otherwise entitled to the issuance of a renewal license or a renewal certificate, shall not be required to take or pass an examination as a condition to the issuance of such renewal license or renewal certificate; provided, however, that a requirement by a rule of the board that the licensee or certificate holder shall answer questions in the renewal application form shall not be deemed to be an examination.

No license or certificate which has been under suspension by order of the registrar or by operation of law for more than a year immediately preceding the filing of an application for renewal shall be renewed, and, if an application for the renewal thereof is filed, the board shall refuse to issue such renewal license or certificate and shall return the renewal fees tendered by the applicant with notice of refusal to renew and the grounds therefor.

9975. A license or certificate which is under suspension by order of the board, or by operation of law, during the time within which a renewal application may be filed, but which has been under suspension for less than a year prior to the time application for renewal is made, may be renewed upon compliance with all the provisions of this article; provided, however, that such renewal license or renewal certificate shall not be issued unless and until the prior suspension has been lifted and the license or certificate otherwise reinstated; and provided, further, that in such a case the filing of a renewal application form does not authorize the operation as an operator or as a pilot or apprentice pilot until the actual issuance of the renewal license or certificate. Should a license or certificate otherwise entitled to be renewed be under suspension during the time within which a renewal application may be filed, and such application for renewal is filed, but the suspension is not lifted or the license or certificate reinstated within a year from the date it was imposed, said application for renewal shall be denied and the fees tendered returned to the applicant with notice thereof and grounds therefor.

9976. The board may refuse the issuance of a renewal license to a licensee or a renewal certificate to a certificate holder, otherwise entitled to the issuance of such license or certificate, for the failure or refusal on the part of such licensee or certificate holder to complete the renewal application form prescribed by the board, or to otherwise comply with rules and regulations adopted by the board relative to the issuance of renewal licenses or renewal certificates, and which are not inconsistent with the provisions of this chapter."

The Legislature has come to the conclusion that the benefit to the State in assuring the development of the talents of its qualified citizens will bring tangible benefits to the State in the future.

The Legislature further declares that there is an urgent need at present for the establishment of a State Scholarship Program, and that the most efficient and economical way to meet this need is through the plan prescribed in this chapter.

The Legislature further declares that it does not intend that this chapter be construed as granting any present or future right to the Legislature, or any other instrumentality of the State, to control or influence the policies of any educational institution involved in the State Scholarship Program

21715. If any section, subsection, sentence, clause or phrase of this chapter is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this chapter. RESOLUTIONS

The following resolutions were offered:

By Mr. Thomas J. Doyle:

House Resolution No. 110

Relative to the use of pumicite as a partial substitute for cement in the construction of highways and dams

WHEREAS, Over 2,000 years ago the Romans discovered that by combining certain volcanic materials with calcined limestone mortars were produced which were not only stronger and more durable than were ever produced before, but would also harden under water, and outstanding examples of the Roman use of these materials, such as the Roman Pantheon, the Colosseum, and the Basilica of Constantine, are all in a remarkable state of preservation after centuries of exposure to the elements; and

WHEREAS, These volcanic materials, known as pozzolan (named after the Port of Pozzuoli near Mount Vesuvius), are being used more and more in recent times, not only because of the excellence of the cement resulting from such use but also because of the tremendous savings which are made possible by such use; and

WHEREAS, The first substantial quantity of portland-pozzolan cement used in the United States was in the Los Angeles Aqueduct (1910-1912), and savings of some $700,000 over the cost of nonpozzolanic portland cement resulted, and recent inspections of this aqueduct have shown that an unusual degree of water tightness and freedom from leaching was obtained; and

WHEREAS, The employment of pumice pozzolan in Friant Dam resulted in savings of some $301,000 in the cost of portland cement and similar savings were made in the construction of Bonneville and Grand Coulee Dams and of numerous other dams constructed in recent times; and

WHEREAS, Pozzolanic concrete has been used in many other types of construction, such as highways, bridges, buildings, canals and water pipes; and

WHEREAS, There exists in Fresno County the only known deposit of pumicite in the United States whose product is of sufficient fineness to obviate the necessity of grinding, which deposit will yield eventually a total approximating 15,000,000 tons; and

WHEREAS, It is felt that the use of pumicite by the Department of Public Works as a partial substitute for cement in the construction of highways and dams would result not only in obtaining a concrete mixture of greater strength and waterproofing qualities, increased workability, and less tendency to crack, but would also result in large savings of money to the State by cutting down the cost of the enormous amount of cement used in construction projects; now, therefore, be it

Resolved by the Assembly of the State of California, That the Department of Public Works be requested to study and ascertain the feasibility of using pumicite as a partial substitute for cement in the construction of highways and dams by the department and to report its findings to the Legislature prior to final adjournment of this session; and be it further

Resolved, That the Chief Clerk of the Assembly be directed to transmit a copy of this resolution to the Honorable Frank B. Durkee, Director of Public Works.

Resolution read, and ordered referred to the Committee on Rules.

By Mr. Collier:

House Resolution No. 111

Relating to the Forty-second Anniversary of the Founding of the Ivers Department Store.

WHEREAS, The Ivers Department Store of Highland Park recently celebrated the Forty-second Anniversary of its founding by Mr. and Mrs. Jesse Ivers; and

WHEREAS, The story of the growth of this extraordinary institution is an integral part of the history of the development of Highland Park into a teeming residential and shopping community; and

WHEREAS, While "Ivers," now in its forty-second year of service, sets the pace of progress for the community of Highland Park, its birth and history are always associated in the nostalgic memories of the old-time residents of the community; and

WHEREAS, The faith, courage, and foresight of Mr and Mrs Jesse Ivers, coupled with their steadfast dedication to the service of their community, and their blending of family talents, have been outstanding features in the growth of "Ivers" from its original beginning as a shop with a modest eight-foot store frontage to its present grandeur and spaciousness as one of the finest stores of its kind in Southern California; now, therefore, be it

Resolved by the Assembly of the State of California, That the members of this body do hereby extend their heartiest congratulations to Mr. and Mrs. Jesse Ivers of Highland Park upon the Forty-second Anniversary of the founding of Ivers Department Store, and wish to express their sincere admiration for their outstanding achievements, and extend their best wishes for continued success in the future; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit a suitably prepared copy of this resolution to Mr. and Mrs. Jesse Ivers of Highland Park.

Resolution read, and ordered referred to the Committee on Rules.

10640. Definitions.

1. Employee welfare trust funds

"Employee welfare trust funds," as used in this chapter, shall mean any fund established for the purpose of providing benefits for present or former employees or their families, dependents or beneficiaries payable through a trustee or directly by an insurer.

10641. The provisions of this chapter shall not be applicable to any fund or contractual obligation providing retirement benefits only, subject to the provisions of Division 3 of Title 4 of the Corporation Code.

10642. "Trustee," as used in this article, shall mean any person, corporation or organization, whether acting individually or jointly, and whether designated by that name or any other, who or which holds or administers any employee welfare trust fund, or any portion thereof, but shall not include any person, corporation or organization who or which acts primarily as a depository of any such fund, or portion thereof.

10643. The trustees of every employee welfare trust fund shall be responsible for all money, property, or other assets received, managed or disbursed by them on behalf of such fund.

10644. No employee welfare trust fund shall operate or engage in any activity in this State unless the trustees thereof have applied for and received a certificate of convenience to operate for a period of 60 days, or have registered such fund with the commissioner. Such registration shall be in such form and shall contain such information relating to the organization, operation and affairs of such fund as may be prescribed by the commissioner. The commissioner shall upon application issue a certificate of convenience authorizing a fund to operate for a period of 60 days pending completion of registration as required hereunder. The commissioner may impose a penalty of not to exceed twenty-five hundred dollars ($2,500) upon any employee welfare trust fund required to be registered pursuant to the provisions of this section if, after notice to and a hearing of such fund, he shall find that the trustees of such fund have unreasonably failed to comply with the requirements imposed by this section. 10647. Every employee welfare trust fund examined under the provisions of this chapter shall open its books and papers for the inspection of the commissioner, and otherwise facilitate such examination. The commissioner may administer oaths and examine under oath any person relative to the business of the employee welfare trust fund. If he finds the books to be carelessly or improperly kept or posted, he shall issue an order directing the fund to employ a certified public accountant to rewrite, post and balance the books.

10648. The costs and expenses of all such examinations shall be paid from the Insurance Fund in the State Treasury but shall be charged to and collected from the employee welfare trust fund examined, provided that the commissioner may waive such charges where the financial condition of the fund so warrants. If any such employee welfare trust fund refuses to pay such costs and expenses promptly when due, the commissioner may bring an action in the name of the people of the State of California in the Superior Court of the State of California against such employee welfare trust fund. All examination expense moneys collected by the commissioner under the provisions of this section shall be paid into the State Treasury to the credit of the Insurance Fund

10649. The commissioner shall make a true report of every examination made by him, verified under oath, which shall comprise only facts appearing upon the books, records, or other documents of such fund or as ascertained from its trustees, officers

or agents, or other persons examined concerning its affairs, and such conclusions and recommendations as may reasonably be warranted from such facts

10650. Except as hereinafter provided the commissioner may withhold any report of examination made pursuant to this article from public inspection for such time as he may deem proper. Before adopting any such report and filing it for public inspection, the commissioner shall serve a copy of the report on the employee welfare trust fund examined and, upon request, shall afford a reasonable opportunity to obtain further details and to demand a hearing with reference to facts, conclusions or recommendations therein contained. If a hearing is requested within 10 days after the giving of such notice, the commissioner shall give notice and hold a hearing with respect to such report in accordance with the provisions of Article 2 of Chapter 2, Division 3, Title 2, of the Government Code

10651. The report of examination, with modifications thereof, if any, shall be accepted by the commissioner and filed for public inspection within six months after final hearing thereon

WHEREAS, The City of San Diego, California's third largest city, is the center of a metropolitan area with an estimated population in excess of 575,000; and

WHEREAS, This region is one of the most rapidly growing in the Nation. A tremendous increase in commercial and manufacturing activity is attracting thousands of new residents to the area monthly; and

WHEREAS, Even now, the areas' educational facilities on a collegiate level are insufficient to meet the requirements of the present population; and

WHEREAS, The excessive cost of living away from home denies the benefits of a college education to many of these young men and women; and

WHEREAS, There is a vital need in this area for supplying the complete educational opportunities than can be provided only by a university; and

WHEREAS, The Members of this Assembly consider that a solution to the problem would be the establishment of a branch of the University of California at San Diego; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members of this Assembly request that the Board of Regents of the University of California conduct an investigation of the feasibility, desirability and practicability of establishing a branch of the University of California at San Diego, either by expansion of the present institution at La Jolla or by creating a complete new branch, and that they report the findings of the investigation to the 1957 Regular Session of the Legislature; and be it further

Consideration of Committee Amendments

The following amendment was proposed by the Committee on Municipal and County Government:

Amendment No. 1

On page 1 of the printed bill, strike out lines 7 to 13, inclusive, and insert

"19165. Upon the receipt of a petition signed by owners of taxable property representing 60 percent or more of the total assessed valuation of all taxable property within an existing highway lighting district, or within a temporary zone requested to be established by said petition in the manner hereinafter provided in this chapter, the governing body of the district may replace an obsolete county owned lighting system with a new modern county or utility owned lighting system where necessary for the proper operation of the district or of the portion thereof lying within such temporary zone.

19166. A petition asking for the removal of obsolete county owned lights and their replacement with modern county or utility owned lights pursuant to this chapter may request the board of supervisors to establish a temporary zone consisting solely of contiguous territory within the district which will be benefited by said replacement lights, for the purpose of levying a special tax therein to finance the cost of removal of the old lights and installation and temporary maintenance of the new lights. In such case the petition shall contain:

(a) A general description of the nature of the proposed replacement lights, together with a map showing the location thereof.

(b) An estimate of all costs or charges which will be incurred in connection with the removal of the old lights and the installation of the new lights, together with a statement as to the period of time, not to exceed three years, proposed for the payment of said costs or charges.

(c) An estimate of the average monthly cost of maintenance of the replacement lights.

(d) A description of the boundaries of the proposed temporary zone.

A proposal to form a temporary zone pursuant to this section shall be subject to the provisions of Chapter 3 of Title 6 of the Government Code to the same extent as a proposal to form a district.

19167. Upon the presentation of a petition pursuant to this chapter, the clerk of the board of supervisors shall immediately refer the same to an appropriate county officer, who shall certify to the board the number of owners of taxable property within the boundaries of the district or the proposed zone whose names appear on said petition, together with the percentage of the total assessed valuation of all taxable property within the boundaries of the district or zone, which said signatures represent

19168. If the certifying officer certifies that the petition bears the signatures of owners of taxable property within the district or, if applicable, the proposed zone representing 60 percent or more of the total assessed value of all taxable property therein, the petition shall be filed, and the board of supervisors shall fix a time for a hearing the petition and the protests of interested parties, and shall cause a notice of the filing of the petition and the time set for the hearing to be published in a newspaper designated by said board as most likely to give notice to the inhabitants of the district and, if applicable, the proposed zone If there is no such newspaper, copies of the notice shall be posted in three conspicuous places in the territory included in the district or, if applicable, the proposed zone, for three weeks prior to the date fixed for hearing the petition The notice shall contain the text of said petition, but the names of the signers of the petition need not be published.

If the certifying officer's certificate shows that any petition requesting the establishment of a temporary zone does not bear the required number of signatures, the request for the formation of a temporary zone shall be denied, without prejudice to the filing of a new petition therefor

In such event, or if the petition does not request the establishment of a temporary zone, and the certifying officer's certificate shows that the petition does not bear the signatures of owners of taxable property representing 60 percent or more of the total assessed valuation of all taxable property within the existing highway lighting district, the petition shall be denied.

19169. Upon the date fixed for the hearing, or at any time to which it is continued, the board of supervisors shall, in addition to any other proceedings required by law, consider the request for formation of a temporary zone and any objections which may be filed against it or against the formation of the proposed zone

19170. If the board of supervisors determines, with respect to a petition for the replacement of lights filed in conformity with this chapter, that

(a) It is just and equitable, and in the public interest, that the obsolete lighting system be replaced as provided in this chapter and that the proposed temporary zone be formed, and

(b) The petition was signed by resident taxpayers representing 60 percent or more of the total assessed valuation of all taxable property within the territory proposed to be formed into a zone,

the board shall by resolution, entered in its minutes, fix and describe the boundaries of the proposed zone in such manner that any territory which will not be benefited by inclusion therein, or which is not contiguous thereto, or which is not described in the petition, shall not be included therein; shall declare said zone established, designating it by an identifying name or number; and shall specify the purposes and duration thereof, not to exceed three years from the beginning of the next ensuing fiscal year in which a special tax levy may be made in said zone.

19171. With respect to a petition for the replacement of lights which includes no request for the establishment of a temporary zone, if the board of supervisors determines that it will be just and equitable and in the public interest for the additional cost, if any, of removing the obsolete county owned lighting system and its replacement with a modern county or utility owned lighting system to be paid by the district as a whole, it shall immediately estimate the cost of replacement of the obsolete system and installation and maintenance of the modern system, and shall include in the regular tax levy for the first fiscal year in which it is possible to do so, a tax upon the taxable property within the district, at the equalized value thereof for that year, sufficient to pay such cost of replacement, installation and maintenance. After the tax levy has been made the governing body shall proceed with the replacement of the obsolete system and the installation and maintenance of the modern system

19172 The provisions of Sections 19036 and 19037 apply to proceedings under this chapter.

19173. A statement regarding the boundaries of a zone established pursuant to this chapter shall be filed as provided by Chapter 8, Part 1, Division 2, Title 5 of the Government Code, together with a statement as to the period of duration of said zone specified in the resolution establishing it.

19174 In order that the obsolete system may be removed and a modern system installed in its place and maintained immediately after the action of the board pursuant to Section 19170, the governing body may authorize the immediate removal of the obsolete system in the said zone and the installation of the modern system in said zone, and may contract to pay any costs or charges incurred by reason of such removal and such installation in equal periodic payments over a period of not to exceed the period of duration of said zone specified in the resolution establishing it.

19175. The board of supervisors may from time to time transfer moneys to the district, for the benefit of said zone, from any available funds of the county. Any moneys so transferred are hereby appropriated, and shall be used, for the payment of any currently payable expenses incurred by reason of the removal of the obsolete system and the installation of the modern system proposed for said zone, and for the cost of maintenance thereof prior to December 1st of the first fiscal year in which a special tax may be levied in and on behalf of said zone. All costs of maintenance of said modern system, subsequent to said date, shall be budgeted and included in the general levy of taxes in and on behalf of the district as a whole.

19176. The board of supervisors shall, in the first fiscal year in which a special tax may be levied in and on behalf of said zone, levy a special tax upon the taxable property therein for the purposes of said zone, and shall include in said levy a sum sufficient to repay to the county the amounts tranferred to the district pursuant to Section 19175. The amounts so transferred shall be retransferred to the county treasury from the first available receipts from said special levy in said zone.

Thereafter in the succeeding fiscal year or years during which said temporary zone remains in existence, the board shall levy a special tax therein sufficient to pay any additional costs or charges incurred by reason of the removal of the obsolete system and the installation of said modern system therein, which may by contract be made payable in such year or years.

All special taxes levied in and on behalf of a zone, pursuant to this section, are in addition to any taxes levied therein for and on behalf of the district as a whole.

19177 A zone shall remain in existence for the period of time specified in the resolution of the board of supervisors which established it, and shall thereafter automatically terminate; provided, there are then no outstanding obligations payable from special taxes to be levied in said zone."

18007.5. "Maintenance", and any of its variants as used in this part includes the replacement of any obsolete equipment with the new modern equipment necessary for an adequate street lighting system or systems.

SEC. 2. Section 18032 is added to said code, to read:

18032. If there is more than one street lighting system in any city any or all of such systems may be consolidated and improved under one proceeding. In such case the consolidated system shall be zoned so that those systems of approximately the same general type are grouped together.

SEC. 3. Section 18033 is added to said code, to read:

18033. Whenever a street lighting system is installed along a boundary line or street of any city, the city council may, by resolution, assess the land abutting upon such boundary line or street for the estimated cost and expense of improving the system, even though the system is partially or entirely without the boundaries of the city.

SEC. 4. Section 18034 is added to said code, to read:

18034. If land has been assessed pursuant to Section 18033, the city council may proceed in all respects in connection therewith as though the street lighting system were entirely within the city limits; except that the city council may enter into a contract with the legislative body of the city or county having jurisdiction over the adjoining territory either to improve all or any portion of the street lighting system, or to have all or any portion of the system improved by the legislative body of the adjoining territory. The legislative body contracting to furnish such improvement may enter into any contract or issue any purchase order authorized in this part.

SEC. 5. Section 18041 of said code is amended to read:

(a) [Plans and specifications of the proposed improvement.] Plans and specifications [shall be sufficient with respect to location of lights to be improved if such plans and specifications show or describe the approximate location of said lights.] *which shall set out, among other things, the general type of street lighting system in each zone. The lighting systems to be improved shall be divided into zones and in each zone shall be grouped those systems of approximately the same general type. It shall be sufficient description of the location of the lights to be improved if such plans or specifications show or describe the approximate location of the lights.*

(b) An estimate of the cost of the improvement, for the period of time during which it is proposed to be continued.

(c) A diagram showing the proposed assessment district and also the boundaries and dimensions of the respective lots or parcels of land within the district, each of which lots or parcels shall be given a separate number upon the diagram. The diagram shall govern for all details as to the extent of the proposed assessment district.

(d) A proposed assessment of the total amount of the costs and expenses of the proposed improvement upon the several lots or parcels of land in the assessment district in proportion to the estimated benefits to be received by such lots or parcels, respectively, from said improvement. If any portion or percentage of the costs and expenses of such proposed improvement is ordered to be paid out of the city treasury, the amount of such portion or percentage shall first be deducted from the total estimated cost and expense of such improvement, and the assessment proposed in the report shall include only the remainder of the estimated costs and expenses. The proposed assessment shall refer to such lots or parcels upon the diagram by the respective numbers thereon and it shall show the names of the owners, if known, otherwise designating them as unknown. No mistakes in the name of the owner of any lot or parcel of land shall affect the validity of the assessment thereon.

SEC. 6. Section 18062 of said code is amended to read:

18062. The city council shall, in the resolution of intention, provide that the improvement of the street lighting system shall be for a period of time stated in the resolution of intention[, which period of time shall not exceed five years]. The dates of commencement and ending of that period shall be fixed by the city council on or before the date of execution of any contract as provided in this part, or, in the event that no contract is let and the maintenance or servicing is furnished by the city, those dates shall be fixed by the city council on or before the date of ordering the maintenance or servicing by the city. The city council may subsequently postpone the dates of commencement and ending of the period for a reasonable time upon good and sufficient reason appearing therefor and may, in any advertisement for bids and in any contract entered into, reserve the right to make such postponement for such reason.

SEC. 7. Section 18076 is added to said code, to read:

18076. If there is a majority protest by the landowners in any zone to the improvement in such zone, or if the officer or person designated reports that it is practical to subdivide a zone and a majority of the landowners in such subdivided zone protest the improvement in such subdivided zone, the city council shall strike such zone or subdivided zone from the proceedings and correct the proposed assessment accordingly, unless that body, by a four-fifths affirmative vote of all its members finds that the public interest and convenience require that street lights in that

zone or subdivided zone be improved. The determination of the city council shall be final and conclusive.

SEC. 8. Section 18077 is added to said code, to read:

18077. If a zone or subdivided zone is struck from the proceedings, the city council may proceed the same as though that zone or subdivided zone was not a part of the original proceedings.

SEC. 9. Section 18092 of said code is amended to read:

18092. [Any unexpended balance remaining in the fund devoted to the improvement at the expiration of any preceding assessment period shall be credited to the fund to be raised for the next ensuing assessment period and the assessment to be levied for such ensuing period shall be only for the amount required therefor after deducting from such estimated amount the amount of any such unexpended balance. Any unexpended balance remaining in such fund at the expiration of the period of time provided for in the resolution of intention shall, upon demands therefor made upon the city council within one year from and after the expiration of the time specified in the resolution of intention, be repaid pro rata to the persons by whom such assessments were paid. Any such unexpended balance remaining in such fund at the expiration of such period, and not demanded within said period of one year, shall revert to the general fund of the city or be placed in such fund as the city council may order] *Any surplus assessments collected shall be applied by the city council to reduce the assessment to be levied either for the next ensuing contract year or for the last contract year under the proceedings, and for the latter purpose such surplus may be permitted to accumulate in the assessment fund. Such reductions shall be made as nearly as possible to the zones or subdivided zones from which such surplus assessments were collected.*

SEC. 10. Section 18092.1 is added to said code, to read:

18092.1. If there is any surplus remaining at the close of the last contract year under any proceedings, such surplus shall be used as follows:

(a) If new proceedings are started within one year after the close of the last contract year, such surplus shall be applied toward a reduction of the first installment of the new assessment. Such part of the surplus as was collected from each zone or subdivided zone shall be applied to reduce the installment levied against that zone or subdivided zone.

(b) If new proceedings are not started within the one-year period or if one or more zones or subdivided zones are omitted for any reason from the new proceedings any such surplus or the surplus attributable to such omitted zones or subdivided zones shall become and remain a part of the general funds of the city.

SEC. 11. Section 18171.1 is added to said code, to read:

18171.1. Within 10 days after the establishment of the district, the governing body shall advertise for bids for installing and maintaining the system and for servicing the same. The contract shall be awarded to the lowest responsible bidder. The contract for service shall be for a period not less than three years from and after the date electric energy and service is first delivered to the lighting district pursuant to such contract and shall be extended automatically thereafter for successive terms of one year each; provided, that the agreement may be terminated by either party upon not less than sixty (60) days' written notice prior to the expiration date of the original term or any extended term."

RESOLUTIONS

The following resolution was offered:

By Mr. Thomas:

House Resolution No. 114

Relative to requesting the Secretary of the Navy to reconsider the decision to close the San Pedro Naval Supply Depot

WHEREAS, The Secretary of the Navy has announced that the Navy intends to disestablish, on June 30, 1955, the San Pedro Naval Supply Depot, a multi-million dollar facility which, during 1954, furnished some 48 million dollars worth of supplies to 187 Navy, Military Sea Transport, and Coast Guard ships, and to 71 shore establishments; and

WHEREAS, Closing of this vital defense facility will occasion the loss of employment for many of the 850 trained and skilled workers currently employed by the depot and will deal a severe blow to the economy of the San Pedro Harbor area; and

WHEREAS, The current perilous world situation facing our Nation would appear to dictate a strengthening and an increase in our defense facilities and the training of additional workers rather than the closing of facilities and discharging of skilled workers; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members of the Assembly of the State of California do hereby request the Secretary of the Navy to seriously reconsider the wisdom of closing the San Pedro Naval Supply Depot; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to prepare and transmit suitable copies of this resolution to the Secretary of the Navy of the United States and to each Senator and Representative from California in the Congress of the United States.

CONSIDERATION OF HOUSE RESOLUTION NO. 112

By Messrs. Hegland, Luckel, Schrade, and Mrs. Sankary:

House Resolution No. 112

Relating to the establishment of a branch of the University of California at San Diego.

WHEREAS, The City of San Diego, California's third largest city, is the center of a metropolitan area with an estimated population in excess of 575,000; and

WHEREAS, This region is one of the most rapidly growing in the Nation. A tremendous increase in commercial and manufacturing activity is attracting thousands of new residents to the area monthly; and

WHEREAS, It is reliably predicted that by 1958 San Diego and Imperial Counties will have a population in excess of 1,000,000; and

WHEREAS, Even now, the areas' educational facilities on a collegiate level are insufficient to meet the requirements of the present population; and

WHEREAS, The excessive cost of living away from home denies the benefits of a college education to many of these young men and women; and

WHEREAS, There is a vital need in this area for supplying the complete educational opportunities than can be provided only by a university; and

WHEREAS, The Members of this Assembly consider that a solution to the problem would be the establishment of a branch of the University of California at San Diego; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members of this Assembly request that the Board of Regents of the University of California conduct an investigation of the feasibility, desirability and practicability of establishing a branch of the University of California at San Diego, either by expansion of the present institution at La Jolla or by creating a complete new branch, and that they report the findings of the investigation to the 1957 Regular Session of the Legislature; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit a copy of this resolution to the Board of Regents of the University of California.

LETTER OF TRANSMITTAL

ASSEMBLY CHAMBER, STATE CAPITOL
SACRAMENTO, CALIFORNIA, March 10, 1955

Hon. L. H. Lincoln
Speaker of the Assembly, and
Members of the Assembly
Assembly Chamber, Sacramento, California

GENTLEMEN: The various states throughout our Country have become interested in the medico-legal method of investigation of certain deaths used by their responsible public officials. Much discussion has been heard on the merits of the coroner versus the medical examiner plans.

The Subcommittee on Coroners in California of the Assembly Public Health Interim Committee, pursuant to Resolution No. 167, of the 1953 Session, has made a study of the operation of the coroner system in California and the medical examiner systems used in some of the other states.

This study has enabled the committee to judge the efficiency of California's coroner system and to make specific recommendations for correction of certain weaknesses.

The subcommittee members wish to express its appreciation to the coroners in the State who have been most cooperative with them, to the many public officials who have given valuable information and to numerous individuals without whose help much of the data presented here could not have been obtained.

Respectfully submitted.

W. BYRON RUMFORD, Chairman
Assembly Public Health Committee, and
Subcommittee on California Coroner System

THE COAST PILOT OF SOUTHERN CALIFORNIA
SEAL BEACH, CALIFORNIA, March 27, 1955

The Honorable Jesse M Unruh
Member of Assembly
The State Capitol
Sacramento 14, California

DEAR MR UNRUH: Thank you for your letter of March 22, 1955.

In compliance with your suggestion we are forwarding to you 150 copies of the March 18th issue of *The Coast Pilot*. The articles titled "Nevada Suffering," "Gardena Wars" and "Commercial Gambling In Seal Beach" are continued articles that will cover three issues. Copies of these future issues will also be mailed to you.

The running account of the problems we have faced in Seal Beach during the last several years will generally be covered in the issues you receive of *The Coast Pilot* Much more could be added. Material is voluminous Summarized, it can be stated that the history of Seal Beach has been, unfortunately, the sordid history of

local commercial gambling and the nefarious methods pursued by the professional gamblers to perpetuate themselves. Their "modus operandi" has been to keep the little city in a state of constant turmoil and dissension; to oppose anything that contributes to progress and financial stability (they successfully opposed just recently a badly needed water bond issue election); to keep the city financially dependent on gambling license revenue; to attack and destroy any public official or citizen who opposes them; and, in general to "rule the roost."

The publication *Seal Beach Post and Wave* is owned and published by the gambling promoters. It is this organ of propaganda that they use to promote their interests. Prior to the issue of the *Coast Pilot* the *Seal Beach Post and Wave* owned by the gambling promoters was the only "newspaper" published locally.

The gambling promoters apparently have unlimited financial resources and so far have refused to abide by the repeated vote of the people against gambling. Twice within the last three years the people have voted against licensing the draw poker Airport Club. Each time the gambling promoters circulated a petition and forced another special election on the subject. We are now faced with another one of these gambling promoters' special elections this April 21st. We will defeat that proposal but without state legislation we have no protection against a repeat performance after the necessary waiting period of six months. The gambling promoters have also engineered four (4) recall elections during the past 10 years against councilmen they could not control. Their most recent attempt was last month when they failed in their attempt to recall the mayor and another councilman.

Seal Beach has suffered much and long from the lack of state protection against draw poker We are most grateful to you for your efforts to correct this deficiency in our laws and most hopeful that the present Legislature will pass your Assembly Bill No 1321.

We will be most happy for you to use this letter in any manner deemed by you beneficial to passage of Assembly Bill No. 1321.

Very truly yours,

J. R. McKINNEY

Letter of Transmittal

WATER PROJECT AUTHORITY OF THE STATE OF CALIFORNIA
SACRAMENTO, CALIFORNIA, March 30, 1955

Honorable Arthur A. Ohnimus
Clerk of the Assembly
State Capitol

DEAR MR. OHNIMUS: Pursuant to the directive of Section 4 of the Abshire-Kelly Salinity Control Barrier Act of 1953, the following two reports are transmitted herewith:

"Report to the Water Project Authority of the State of California from Board of Consultants on Salinity Control Barriers in San Francisco Bay Region," March 12, 1955.

"Report to the Water Project Authority of the State of California on Feasibility of Construction by the State of Barriers in the San Francisco Bay System," by the Division of Water Resources, March 1955.

These reports were presented to and considered by the Water Project Authority on March 29, 1955, and the following resolution with respect thereto was unanimously adopted by the authority, and, in accordance with the direction of the authority, is hereby made a part of this transmittal.

"WHEREAS, The Water Project Authority of the State of California was directed by the Abshire-Kelly Salinity Control Barrier Act of 1953 to investigate and study the feasibility and economic value of a suitable salinity control barrier or barriers, and public works incidental thereto, at several alternate locations across San Francisco Bay, San Pablo Bay, Suisun Bay, and the Sacramento-San Joaquin Delta; and

WHEREAS, The authority engaged a board of consulting engineers and contracted with the Department of Public Works, Division of Water Resources, to individually evaluate and report on the bay barrier problem; and

WHEREAS, The authority has received and reviewed the reports of the board of consulting engineers and the Division of Water Resources; and

WHEREAS, The report of the board of consulting engineers recommends that "* * * the Biemond Plan be adopted as the long-range solution of the primary problems set forth in the Abshire-Kelly Salinity Control Barrier Act of 1953"; and

WHEREAS, The Report of the Division of Water Resources recommends as follows, that:

'1. Further consideration be given only to proposals to construct closed barriers across the San Francisco Bay system at or upstream from the Chipps Island site

2 The Biemond Plan, comprising the Junction Point Barrier Plan and the proposal for flood protection of the Sacramento-San Joaquin Delta, be studied in detail as a possible unit of the California Water Plan.

3 The State of California and the United States Bureau of Reclamation immediately study and determine their joint interest in providing an isolated fresh water channel across the Delta as a means of curtailing the use of water for salinity control purposes, preventing additional water losses when transfer of greater quantities of water becomes necessary, and eliminating quality degradation and contact with mineralized return flows and connate waters.

4 The Congress of the United States and the United States Army Corps of Engineers be urged to include an investigation of the flood control proposals of the Biemond Plan in the flood control survey of the Sacramento-San Joaquin Delta, and in view of the need for early action to preserve the economy of the delta, that initiation of the survey be expedited.

5. The authorized United States Army Corps of Engineers comprehensive survey of the San Francisco Bay Area, including a model study, be completed

at an early date in order that the harbor and river system may be developed with adequate factual engineering data, and that the survey include Suisun Bay and the Sacramento-San Joaquin Delta.

6. Investigation be made of the feasibility and desirability of partially restricting by a filled causeway the south arm of San Francisco Bay as a means of reducing the existing tidal ranges therein and for use as a trunk transportation facility.'

Now, therefore, be it

Resolved by the Water Project Authority of the State of California, That the Legislature be urged to authorize further detailed investigation of the Biemond Plan for the purposes of developing complete plans of the means of accomplishing delivery of fresh water to the San Francisco Bay Area; providing urgently needed flood protection to valuable agricultural lands in the delta; conducting sub-surface exploration work in the delta and designing the facilities appurtenant to the cross-delta aqueduct; obtaining more complete information on the hydrology of the delta; and studying integration of the recommended project in the California Water Plan; and be it further

Resolved, That the executive officer be directed to communicate with the Regional Director, Region II, U. S. Bureau of Reclamation and the District Engineer, Sacramento District, U. S. Corps of Engineers, with the objective of ascertaining the joint responsibilities, jurisdictions and interests of the Federal Government and the State of California in accordance with the recommendations of the reports; and be it further

Resolved, That copies of this resolution and of the Reports of the Board of Consultants and Division of Water Resources, be transmitted to the Governor of California, to both houses of the Legislature, and to the President of the United States, the Chief of Engineers, Department of the Army, the Secretary of the Interior, and to members of the California Delegation in the Congress."

Very truly yours,

FRANK B. DURKEE
Director of Public Works,
Chairman

CALIFORNIA LEGISLATURE, SENATE
SACRAMENTO, CALIFORNIA, March 30, 1955

Honorable L. H. Lincoln
Speaker of the Assembly
Room 3190, State Capitol

DEAR MR. SPEAKER: I have been authorized to acknowledge your invitation for the Senate to meet with the Assembly for the discussion of water problems in the State. We feel that this is a highly desirous program and will undoubtedly be extremely educational and enlightening. However, due to the urgency of our committees continuing their hearings on bills, etc., and the importance of keeping our Senate File cleared as much as possible, we do not feel that the entire body will be able to attend the full meetings each day.

Many of the members have expressed a desire to attend the meetings and would appreciate attending as much as possible as invited guests.

In view of the above facts it was felt, by this body, that we should not participate in formulating an agenda.

Yours very truly,

CLARENCE C. WARD
President pro Tempore

Senate Bill No. 1—An act relating to the holding of Winter Olympic Games in California, creating the California Olympic Commission, describing the powers and duties thereof, and making an appropriation therefor.

Bill read third time.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Senate Bill No. 1:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, January 6, 1955

To the Honorable Members of the Assembly
Sacramento, California

GENTLEMEN:

Senate Bill No. 1, "An act relating to the holding of Winter Olympic Games in California, creating the California Olympic Commission, describing the powers and duties thereof, and making an appropriation therefor,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill establishes the California Olympic Commission, describes its duties, and appropriates the sum of one million dollars from the State Park Fund which has recently been augmented by the release of impounded tideland royalty funds to carry out the purposes of the act. If the commission is to be successful in its efforts to bring Olympic Games to California in 1960, it is essential that the commission be authorized as early as possible.

I therefore recommend consideration of Senate Bill No. 1 as an emergency measure.

Respectfully submitted.

GOODWIN J. KNIGHT, Governor

The question being on the passage of the bill.

The roll was called, and the bill passed by the following vote:

AYES—Backstrand, Beaver, Bee, Belotti, Bonelli, Brady, Brown, Burke, Caldecott, Casey, Chapel, Clarke, Collier, Coolidge, Cunningham, Dahl, Davis, Dickey, Dills, Dolwig, Donahoe, Donald D. Doyle, Thomas J. Doyle, Elliott, Erwin, Fleury, Gaffney, Samuel R. Geddes, Grant, Hansen, Hawkins, Hegland, Henderson, Holmes, Johnson, Kelly, Kilpatrick, Klocksiem, Lanterman, Lindsay, Lowrey, Luckel, Lyon, Maloney, Marsh, Masterson, McCollister, McFall, McGee, McMillan, Meyers, Miller, Morris, Nisbet, O'Connell, Pattee, Porter, Rees, Sankary, Schrade, Shell, Stanley, Stewart, Thomas, Weinberger, and Wilson—66.

NOES—Ernest R. Geddes, and Munnell—2.

Bill ordered transmitted to the Senate.

Request for Unanimous Consent to Change Vote on Senate Bill No. 1

Mr. Munnell asked for, and was granted, unanimous consent to change his vote on Senate Bill No. 1 from "Aye" to "No".

Explanations of Vote

I voted "No" on Senate Bill No. 1 because it is a loan of state money without guarantee or security. If we have millions to loan we should use them rather than increase taxes.

ERNEST R. GEDDES

I changed my vote on Senate Bill No. 1 for the reason it was poorly timed, coming prior to action on the budget and consideration of revenue bills pending in committee.

WM. A. MUNNELL

Sec. 36. Notwithstanding any other provisions of this act, the following shall apply with respect to the establishment, government, operation and financing of any zone lying wholly or in part in Pleasanton or Murray Townships:

1. The board of supervisors shall have no authority to proceed with the establishment of any zone lying wholly or in part in Pleasanton or Murray Townships without first obtaining the approval thereof by a vote of a majority of the qualified

electors residing within the boundaries of the proposed zone at a regular or special election on said proposition; said election shall in all particulars be held, as nearly as practicable, in conformity with the General Election Laws of the State, and the cost thereof shall be reimbursed to the district if a zone is established.

2. Any zone established by the board of supervisors under the provisions of this act lying wholly or in part in Pleasanton or Murray Townships, shall be governed and controlled by a board of seven (7) directors elected by the qualified electors residing within the boundaries of said zone. The first members of said board shall be elected at the election called by the board of supervisors upon the proposition for establishment of said zone.

The term of directors shall be three years from and after their election, except that two members of the board first elected shall serve for a term of one year, two members for a term of two years and three members for a term of three years. The seven directors first elected shall, immediately following their election and qualification, determine their respective terms by lot.

The directors must be residents of the proposed zone and qualified electors and owners of real property therein.

The directors shall be elected at large and the method of nomination and election shall be substantially the same as provided by state law for the nomination and election of elementary school district trustees.

Zone directors shall serve without compensation except their actual and necessary expenses incurred in performance of official duties under this act, payable from the funds of said zone.

3. The board of directors of any zone in which directors have been elected as provided in this act shall have the power to make and enforce all needful rules and regulations for the administration and government of the zone and the zone board may in its discretion appoint a chairman, a secretary and such other officers, agents, and employees for the zone board or zone as in its judgment may be deemed necessary, prescribe their duties and fix their compensation. Such officers, agents and employees shall be appointed under and pursuant to the civil service rules and regulations of the County of Alameda; provided, however, that the chairman and secretary of the board, and experts, consultants or technical or other advisers for particular purposes and laborers, employed for a temporary period, may be appointed by the zone board without reference to any classified civil service list.

4. If any of the reports, supplementary reports, additional reports or recommendations provided for in Section 9 of this act relate to projects or work in any zone in which a zone board of directors has been elected as provided in this act, full and complete copies thereof shall be filed with the zone board immediately upon the filing of such with the board of supervisors.

5. If, under the provisions of Section 10 of this act, the board finds that any project or work of improvement is in whole or in part for the benefit of any zone in which a board of directors has been elected, the approval or concurrence of the zone board shall be obtained before any final determination is made to proceed with such project or work of improvement.

6. No proceeding shall be commenced or taken by the board under Section 11 of this act for the institution of any project or work of improvement in whole or in part in any zone in which a board of directors has been elected, until the board has first received the approval or concurrence of said zone board to the institution of said project or work of improvement.

7. In any zone in which a board of directors has been elected, the tax or assessment for any purpose or purposes, other than administrative costs and expenses of the district, shall be based upon a budget or budgets prepared by, or under the direction of, the zone board of directors.

The taxes and assessments (other than the tax to pay the general administrative costs and expenses of the district and other than any taxes levied pursuant to Section 16 hereof to pay bonds and interest thereon) levied by the board pursuant to Section 12 of this act upon any property in any zone lying wholly or in part in Pleasanton or Murray Townships shall not exceed in the aggregate the sum of fifteen cents ($0.15) on each one hundred dollars ($100) of assessed valuation unless a larger tax has been approved by a vote of not less than two-thirds (⅔) of the qualified electors voting upon the proposition to increase such tax.

8. No proceeding shall be commenced or taken by the board under Section 13 of this act for the incurring of a bonded indebtedness to pay the cost of any work or improvement in any zone in which a board of directors has been elected, until the board has first received the approval or concurrence of said zone board to the incurring of such bonded indebtedness.

The amount of bonded indebtedness outstanding at any time shall not exceed five percent (5%) of the assessed valuation of all taxable property in any zone lying wholly or in part in Pleasanton or Murray Townships.

SEC. 3. The facts constituting the necessity for the addition of the foregoing Section 36 to this act are:

It appears that that portion of the Alameda County Flood Control and Water Conservation District lying in Pleasanton and Murray Townships will remain predominantly agricultural in land use for many years, which creates physical, economic

and political problems of a local nature, not existing in the remainder of the district. The majority of the residents and property owners in said townships have demonstrated that under present conditions they will not proceed with the institution of any projects for flood control or water conservation under this act, without such amendment. It is, therefore, essential that Section 36 be added to this act in order that the property owners and residents of Pleasanton and Murray Townships have available for their use provisions in the act whereby they can and will institute a program for solving the flood control and water conservation problems existing in said townships."

Geddes, Stewart, and Schrade:

House Resolution No. 120

Relative to the appointment of a Subcommittee on Highway Transportation of the Assembly Standing Committee on Conservation, Planning, and Public Works

WHEREAS, The public highways, streets, and bridges of the State are useful, necessary, and indispensable arteries of travel and commerce and have been constructed and improved at great public expense; and

WHEREAS, The development and growth of this State during and since World War II have subjected the streets and highways of this State to unusual and destructive burdens; and

WHEREAS, It is recognized that pavements and other highway improvements are not permanent, but must be rebuilt, resurfaced, and modernized, indicating the need of foresight in the treatment of acquisition, construction and financial problems in connection with the inevitable program of reconstruction; and

WHEREAS, It is essential that the Legislature has before it complete information with respect to the funds available for construction, improvement, and maintenance of public streets, highways, and bridges in this State, including funds derived from taxes on property, from federal aid, and from registration fees, gasoline taxes, and other fees collected as compensation for road use, and bond proceeds; and

WHEREAS, Inasmuch as the successful completion of a comprehensive plan for the construction, improvement, and maintenance of a System of Public Streets, Highways, and Bridges in this State is dependent upon the efficient and economic use of the funds available by the administrative agencies involved, it is necessary that the Legislature have information with respect to the administration of the highway programs at both the state and local level, and, especially, at the state

level it is important that the Legislature have facts with respect to the relationship of administrative costs of the Division of Highways of the Department of Public Works to the total cost of constructing state highways; and

WHEREAS, The Legislature is faced with difficult problems with respect to the construction of freeways, including but not limited to the financing, through taxation and bond proceeds, planning and design thereof, the elimination of congestion at the termini thereof, the acquisition of rights of way therefor, and the providing of mass transportation in connection therewith, and the solution of such problems is dependent upon full information of facts relating thereto; and

WHEREAS, One of the most important problems in connection with highway construction is the rising cost of acquiring rights of way and rights of access and the effect such acquisition has upon the property owners of this State, which problem should be carefully studied by the Legislature; and

WHEREAS, Complete information should be available to the Legislature as to the actual annual cost of roads, streets and bridges and the fair apportionment of such costs between those who use them; and to that end the Legislature is in need of data as to the total mileage of roads, streets and bridges, the capital investment therein, the total sum which should be collected each year in road use charges or other fees in order to maintain, replace and modernize the same, and the proper amount which should be paid each year by users of public thoroughfares to meet the total annual cost of all public roads, streets and bridges; and

WHEREAS, The Legislature is in need of additional information on the foregoing matters, including (a) the present status of the Highway System, state, county and local, (b) existing deficiencies therein to meet present demands, (c) a schedule of progressive improvements necessary to keep abreast of future demands, (d) a schedule of maintenance to keep the capital investment up to standard, (e) a schedule of improvements necessary to develop areas of the State that should be opened up to economic opportunity, (f) special problems relating to highways and matters incidental thereto, (g) the financing of highways and the administration of the Highway System including alternate plans to those heretofore proposed for financing a Highway Construction Program with the purpose of reducing as much as is equitable the burden of taxation which the motorist of the next decade must bear, (h) the interrelationship between state and local governments in relation to the foregoing and the inter-relationship of the State and Federal Government, and (i) the control of traffic on the highways in the interest of safety, which information should include so far as feasible both present needs and future needs for a period of at least 10 years; now, therefore, be it

POINT OF ORDER

Mr. Caldecott arose to the following point of order: Pursuant to Rule 62, the following bills should be re-referred to the Committee on Ways and Means:

Assembly Bills Nos. 21, 597, 94, 2200, 2826, 3082, 3083, 2571, 1291, 1822, and **395.**

Ruling by Speaker

The Speaker ruled the point of order well taken, and ordered the above bills re-referred to the Committee on Ways and Means, Assembly Bills Nos. 3082, 3083, 2571, 1291, 1822, and 395 to be read the second time prior to re-reference.

QUESTION OF PARLIAMENTARY INQUIRY

Mr. McCollister arose to the following question of parliamentary inquiry:

What is the policy of the Committee on Ways and Means relative to the volume of bills being technically referred to it?

Response

At the request of the Speaker, Mr. Caldecott responded as follows: After the Legislative Auditor analyzes the bills for appropriations, they will be automatically set for hearing; the authors need not appear as the bills will be considered only on their cost factors; and all bills will be considered in the sequence in which they are received.

ANNOUNCEMENTS

Mr. McCollister announced that he had prepared a resolution on the above question but would not now introduce it.

Mr. McCollister announced that, because of the extensive floor discussion that had taken place at the conclusion of his above announcement, he had decided to place his resolution across the desk, at this time.

RESOLUTIONS

The following resolution was offered:

By Mr McCollister:

House Resolution No. 121

Relative to action on bills referred to the Assembly Committee on Ways and Means

WHEREAS, Rule No. 62 of the Standing Rules of the Assembly provides

"The Committee on Ways and Means shall consider all bills to appropriate money, other than the contingent expenses of the Assembly. Any bill which would require the expenditure of additional state moneys in any manner, including any bill which creates any additional state agency or office, or adds any functions, duties, or responsibilities to an existing agency or office, shall be referred to the Ways and Means Committee before being placed on third reading"; and

WHEREAS, Since the Assembly is faced with the necessity of considering almost 6,000 bills at this session, many of which may fall within the provisions of said rule, early action by the Committee on Ways and Means on bills which may be enacted prior to the enactment of the Budget Bill is essential in order to avoid a legislative log jam during the closing days of this session, and

WHEREAS, The constitutional prohibition against enacting bills prior to the enactment of the Budget Bill applies only to Appropriation Bills; now, therefore, be it

Resolved by the Assembly, That the Committee on Ways and Means is hereby directed to set for hearing, at the request of the author thereof, any bill referred to it which does not contain an appropriation, and to schedule such hearing as soon as possible and without regard to the status of the Budget Bill; and be it further

Resolved, That in acting upon such bills the committee shall consider only the financial aspects thereof and shall base its recommendations solely upon said financial aspects.

Resolution read, and ordered referred to the Committee on Rules.
