By Mr. Belotti:

House Resolution No. 253

Relative to the improvement of State Highway Route 1 in the redwood parks in Humboldt County

WHEREAS, Considerable controversy has arisen in the past several years with respect to proposals to widen and straighten State Highway Route 1 (U. S. 101) through the redwood groves in Humboldt County in order to eliminate the serious traffic hazards engendered by this narrow, twisting road which is bordered by towering redwood trees; and

WHEREAS, This stretch of highway, approximately 22 miles long, has been labeled by traffic experts of the State as one of the most hazardous rural highways in the State, with an extremely high traffic fatality rate, and

WHEREAS, While the scenic beauty and splendor of the redwood trees in these state parks must, of course, be preserved to the greatest extent possible, nevertheless the safety of the people using the highways of this State demands that either the existing highway through these redwood groves be improved to standards sufficient to provide safe passage through this area by the heavy vehicular traffic which must of necessity traverse this area, or that a new state highway be constructed by-passing these redwood groves; and

WHEREAS, Assembly Bill No. 677 was introduced at this session to provide for the construction of a state highway by-passing the redwood groves in Humboldt County and to appropriate ten million dollars ($10,000,000) from the State Park Fund to construct this by-pass highway and to improve portions of the existing highway within the redwood groves pursuant to an agreement between the State Park Commission and the California Highway Commission; and

WHEREAS, Furthermore, Senate Concurrent Resolution No. 25, which states that the Legislature favors the appropriation from the State Park Fund of such sums as may be shown to be necessary to pay the difference and the cost of improving the existing state highway within the redwood groves and constructing a by-pass highway, has been acted upon favorably by both houses of the Legislature; and

WHEREAS, Despite this expression of the Legislature, the Senate Standing Committee on Natural Resources has refused to give favorable consideration to Assembly Bill No. 677, thereby eliminating for all practical purposes any possibility of prompt action in the construction of a by-pass highway, and

WHEREAS, In view of the dangerous and unsafe condition of the state highway through the redwood groves, it is imperative for the sake of traffic safety that steps be taken immediately to widen and straighten such existing state highway through the redwood groves in Humboldt County; now, therefore, be it

Resolved by the Assembly of the State of California, That the Department of Public Works be requested to take immediate steps to widen and straighten the portions of State Highway Route 1 through the redwood groves in the state parks in

Humboldt County, including the removal of any trees on the state highway right-of-way if such removal is determined to be necessary by the department for the sake of traffic safety, and to expend for such purpose any funds which may be available, including, but not limited to, money in the State Park Fund and the State Highway Fund; and be it further

Resolved, That the Chief Clerk of the Assembly be directed to transmit a copy of this resolution to the Honorable Frank B. Durkee, Director of Public Works.

Resolution read, and ordered referred to the Committee on Rules.

WHEREAS, The Legislature of the State of California has made a study of many of these projects and agreement has been generally expressed that construction of the Trinity-San Luis Project should be initiated immediately; and

WHEREAS, It has been generally agreed, and concurred in by the United States Bureau of Reclamation, that the San Luis phase of the project can be so planned and designed that it may, in the interests of the fullest and most economic utilization of the State's precious water resources, be integrated with a state-wide water plan; now, therefore, be it

Resolved by the Assembly of the State of California, That the Congress and the President of the United States are respectfully urged to enact such legislation as may be required to bring about the immediate authorization and construction of the Trinity-San Luis Project and that in such authorization the Congress make provision for the integration of the San Luis Project with the California water plan; and be it further

It is proposed that the State take service from Central Valley Power lines at the junction of Highway 40 direct from the Bureau of Reclamation, transforming from 230 KV to 69 KV at this point The 69 KV line can be connected to an existing 69 KV tap belonging to the Bureau of Reclamation where the proposed line would cross it to serve the University of California at Berkeley, thereby providing a loop which could be supplied from either end enabling the lines to be sectionalized from either end to repair any part of the overhead services.

Plans and studies are being made to inter-tie Oregon and California power facilities. This will give reasonable firm power with greatly improved standby features for CVP power.

It is possible by acting at once for the State to obtain the 30,000 KW capacity presently held by the State of Nevada (which will be or could be had by bringing pressure to bear, as this power is not used by them) on a year to year basis; and as there seems to be little likelihood that this contract will be renewed July 1, 1954, the State should obtain it, as it will meet the requirements for the transmission system proposed; and

WHEREAS, Nothing appears to have been done to thoroughly investigate and report on this matter to the Legislature; and

WHEREAS, A proper interim committee of the Assembly may render a worthwhile service by going into the subject matter of this resolution; now, therefore, be it

Resolved by the Assembly of the State of California, To refer this matter to an interim committee which it deems most proper to conduct a fair and impartial investigation and which shall make a recommendation respecting the proposal not later than the tenth legislative day of the 1956 Regular Budget Session of the California Legislature.

Resolution read, and ordered referred to the Committee on Rules.

Relative to continuing the study of library problems in California

WHEREAS, The Assembly Interim Committee on Education has submitted a Report on Library Problems in California and urged that further study and investigation be made; and

CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS

Article 1. General Provisions

21600. It is the intent of the Legislature that the enactment of this part shall authorize persons in positions covered by the State Employees' Retirement System to participate in the federal old age and survivors insurance provisions of the Social Security Act without jeopardizing the continued maintenance of their state system.

To this end and notwithstanding any other provisions of the State Employees' Retirement Law, the provisions of this part shall supersede or modify any inconsistent provision in such law in its application to every member whose position is included in an agreement between the State and Federal Government for coverage under the old age and survivors insurance provisions of the Social Security Act. The provisions of this part shall be applicable to each such employee upon the effective date of the agreement or modification of agreement which includes such employees' position.

The provisions of the State Employees' Retirement Law are not repealed by this part however, and except as superseded or modified by this part in their application to members who are covered by old age and survivors insurance, they shall continue to be fully effective and operative.

21601. The board shall give notice and shall conduct a referendum pursuant to applicable provisions of law, to determine whether state employees, including employees of the University of California, who are in positions covered by the State Employees' Retirement System shall be included in an agreement or modification of an agreement for coverage under the federal system.

21602. The modification of the agreement which the board shall execute pursuant to Section 22210 of this code when a majority of eligible State and university employees in positions covered by the State Employees' Retirement System have voted in favor of inclusion in the federal system shall provide an effective date of coverage under the federal system of January 1, 1955, for all employees included in the terms of the modification.

21619. The "apportioned federal benefit" is an amount which equals that portion of a member's federal benefit which the federal system wage credits relating to service in positions covered under the terms of the modification of the agreement provided for in Sections 21602 and 22210 of this code bear to his total federal system wage credits.

CHAPTER 2. BENEFITS

21630. Every monthly retirement allowance payable pursuant to the state system to a person who was a state or university member shall be reduced by the amount of the apportioned federal benefit to which the person is entitled, beginning with:

(a) The first of such allowances, if the person has attained the federal retirement age on the effective date of his retirement under the state system, or

(b) The allowance payable for the month in which the person attains the federal retirement age if he had not attained that age on the effective date of his retirement under the state system.

21632. The reduction provided for in Section 21630 shall not be made at any time if the person is not entitled to a federal benefit upon the effective date of his retirement from the state system, if he has then attained the federal retirement age, or upon the attainment of that age after said effective date.

21634. A person shall be considered, for the purposes of this part, to be entitled to a federal benefit if he has fulfilled the age and coverage requirements for qualification for receipt of a federal benefit.

21636. In determining the apportioned federal benefit for the purposes of Sections 21630 or 21637, the board shall take into consideration such information regarding federal system wage credits as are made available to the board by the federal agency, the records maintained by the board and any statement by the federal agency of the person's federal benefit. Said determination shall be finally made by the board within the 120 days following the month for which the allowance was first reduced in accordance with the provisions of Section 21630 and any error in payments already made shall be adjusted in a manner determined by the board. Upon receipt by the board of information satisfactory to it that the final determination of the apportioned federal benefit was based on erroneous information, the board shall then make a redetermination of said benefit Future retirement allowances shall be reduced by the redetermined benefit and the correction for payments already made shall be adjusted in a manner fixed by the board.

21637. The lesser retirement allowance payable under an optional settlement elected at retirement, pursuant to Article 4 of Chapter 9 of the State Employees Retirement Law, shall be actuarially equivalent to the retirement allowance that would have been payable at retirement had no optional settlement been elected after taking into consideration the reduction in said allowance provided for in Section 21636. Upon the election of an optional settlement by a member who has not attained the federal retirement age, the board shall estimate the apportioned federal benefit upon the basis of information then available to it. If the death of such a member should occur before he has attained the federal retirement age, payments under the optional settlement elected shall be as thus estimated. If such a member attains the federal retirement age, the board shall then recalculate the lesser retirement allowance payable under the optional settlement upon the basis of the age of the member and the beneficiary on the effective date of retirement, actuarial tables then in use, and the apportioned federal benefit determined as provided in Section 21636. Payments of the recalculated amount shall be made beginning with the month in which the federal retirement age was attained and such payments shall be increased or decreased by the actuarial equivalent of any difference in payments previously made and such recalculated amount.

21638. Notwithstanding any other provision of this part, no member shall be paid an allowance from the State Employees Retirement Fund which is less than the life annuity that could be provided by the accumulated contributions with which he was credited on the effective date of his retirement, on the basis of actuarial tables in use by the board on such date.

21639. Notwithstanding the provisions of Sections 20332 and 20809 of the State Employees' Retirement Law, nothing in said law shall act to prohibit the receipt of credit in the state system, nor the payment of benefits relating thereto, for service which is also being credited in the federal system, and persons shall not be excluded from the state system as to such service as is being credited in the federal system.

21640. To the extent permitted by federal law or regulations, the board may file applications or other documents with the federal system relating to members of the State Retirement System, and receive information regarding the entitlement of such members under the federal system.

21641. The board may require a member to provide evidence of his entitlement to federal benefits, and may estimate the apportioned federal benefit and date of first entitlement in computing a member's allowance, which computation may be adjusted pending a final determination by the board; provided, that a final determination shall not thereafter be subject to adjustment except as otherwise provided in this part

CHAPTER 3 CONTRIBUTIONS

Article 1. Procedure

21650. Employee federal contributions of employees in positions covered by the agreement shall be withheld by the agency that disburses funds in payment of salaries and wages paid to such employees. Such agencies shall transmit to the board all employee federal contributions and employer federal contributions, together with all wage, contribution and other reports required to fulfill the obligations

of the State under the federal system. Such agencies are hereby authorized to correct errors and to make any and all adjustments with respect to covered employees and to the funds from which salary and wage payments and contributions are made as may be required to fulfill the obligations of the State under the federal system or in compliance with any of the provisions of this part.

Article 2. Employee Contributions

21660. Every member shall continue to contribute to the State Employees' Retirement Fund the normal contributions required of such member under the State Employees' Retirement Law less (a) an amount each month equal to the federal rate of contributions times the monthly wages subject to normal retirement contributions but not in excess of one-twelfth of the maximum annual wages subject to contributions under the federal system in each calendar year or (b) the amount, as computed in a manner approved by the board, the State Controller and the Director of Finance, required for employee federal contributions with respect to those wages subject to normal retirement contributions.

21661. Every employee covered by the agreement providing coverage under the federal system for such employee shall be liable for the employee federal contributions.

Article 3. Employer Contributions

21670. On the execution date of the agreement which includes the state miscellaneous, narcotic and law enforcement members, if such date is the first day of the month, and if not, on the first day of the first month next succeeding such execution date, the State's contribution to the State Employees' Retirement Fund in respect to such members as provided by Chapter 6 of the State Employees' Retirement Law shall be reduced by a sum equal to 3 percent of the compensation paid such members who are included in such agreement.

On the execution date of any agreement which includes either the state warden members or the state forestry members, or both, if such date is the first day of the month, and if not, on the first day of the first month next succeeding such execution date, the State's contributions to the State Employees Retirement Fund with respect to any such members who are included in such agreement shall be reduced by a sum equal to 2.30 percent of the compensation paid to such members.

21671. From the General Fund in the State Treasury there shall be transferred from time to time, to the Old Age and Survivors Insurance Revolving Fund the amount of employer federal contributions for those state and university employees, excluding employees in positions covered by the Pension and Retiring Annuities System of the University of California or the State Teachers Retirement System, covered by the agreement whose compensation is paid from either:

(a) The General Fund.

(b) Funds of or funds appropriated to the University.

(c) The Vocational Education Fund, the Vocational Rehabilitation Fund, or any other fund received, in whole or in part, as a donation to the State under restrictions preventing its use for the payment of employer federal contributions.

(d) Moneys in the Water Resources Revolving Fund, where such moneys were derived from an appropriation from the General Fund.

(e) The Senate Contingent Fund or the Assembly Contingent Fund.

21672. From each other fund in the State Treasury there shall be transferred from time to time to the Old Age and Survivors Insurance Fund the amount of employer federal contributions for those state employees covered by the agreement whose compensation is paid from that fund and in respect to which compensation the employer's federal contribution is not required to be made from the General Fund.

21673. The board shall certify to the Controller from time to time the total amount of employer federal contributions required to meet the obligations of the State under the federal system with respect to wages paid to state and university employees, excluding employees in positions covered by the Pension and Retiring Annuities System of the University of California or the State Teachers Retirement System, and payable from the General and each other fund in the State Treasury, and the Controller shall thereupon transfer such employer federal contributions from each such fund, respectively, to the Old Age and Survivors Insurance Revolving Fund.

21674. There is hereby appropriated the amount necessary from the funds designated, to provide, (a) the payments required by this article to be made by the State to the Old Age and Survivors Insurance Revolving Fund, which payments are declared to be continuing obligations of the State, (b) the amounts payable pursuant to Articles 4 and 5 of this chapter, and (c) in addition thereto the sum of three hundred fifty thousand dollars ($450,000) from the General Fund to the Department of Finance for the purpose of administering the provisions of Parts 3.5 and 4 of Division 5 of Title 2 of this code, to be allocated by the Director of Finance in such amounts as he may determine in augmentation of the support appropriations of the University of California, the State Controller and the Board of Administration of the State Employees' Retirement System made by the Budget Acts of 1954 and 1955, provided, however, that the Director of Finance may return

to this portion of the appropriation by executive order any sum thus allocated and may reallocate such sums as herein provided and amounts thus allocated or reallocated shall, for accounting purposes, be deemed to be augmentations and increases of the support appropriations of the agencies and for the fiscal years herein specified.

Article 4. Retroactive Employee Federal Contributions

21680. Employee federal contributions required of state and university employees, excluding employees who are in positions covered by the Pension and Retiring Annuities System of the University of California or the State Teachers Retirement System, with respect to salaries and wages paid for services rendered after the effective date of coverage of such employees under the federal system and prior to the time employee federal contributions are first deducted from the salaries and wages of such employees, shall be paid from the State Employees' Retirement Fund to the Old Age and Survivors Insurance Revolving Fund. Such employee federal contributions shall be charged in the accounts of the state system to the state's accumulated contributions for current service and shall be regarded as a loan to each such employee and shall be a lien on any salaries or wages payable to the employee and on any amounts payable by the state system to the employee or on his account. Said loan shall be repaid by the employee as follows:

(a) Such employee federal contributions with respect to employees who were members of the state system during the period extending from the effective date of coverage until the time employee federal contributions are first deducted from the salaries and wages of such employees shall be deducted from the member's accumulated contributions made with respect to services performed during the said period and which are to his credit in the state system, to the extent that such contributions are in excess of what they would have been had the contributions to the state system during the said period been made as provided in Section 21660, disregarding interest, provided, however, that for any employee who was a member of the state system on the effective date of coverage, all such employee federal contributions shall be deducted from such accumulated retirement contributions of the employee.

(b) Such employee federal contributions are not deductible from members' accumulated contributions in the state system as provided in subdivision (a) of this section shall be repaid by the employee by one cash payment to the state system or by payroll deductions during current employment or any subsequent employment of such employee extending over a period determined by the board and subject to minimum payments as determined by the board, under a plan approved by the State Controller. The agency making such pay roll deductions shall remit to the board monthly all amounts so withheld and shall file with the board appropriate information relating thereto. All such repayments shall be remitted by the board to the State Employees' Retirement Fund and shall be credited in the accounts of the state system to the account to which the loan was charged.

21681. The board shall certify to the State Controller the total amount of employee federal contributions required for retroactive coverage under the federal system and the Controller shall thereupon transfer such amount from the State Employes' Retirement Fund to the Old Age and Survivors Insurance Revolving Fund.

21690. Employer federal contributions required with respect to salaries and wages paid on or before the execution date of the modification of the agreement set forth in Section 22210 of this code for services rendered after the effective date of coverage of public agency employees or state and university employees, excluding employees who are in positions covered by the Pension and Retiring Annuities System of the University of California or the State Teachers Retirement System, shall be paid from the State Employees' Retirement Fund to the Old Age and Survivors Insurance Revolving Fund and shall be charged in the accounts of the state system to the State's or the public agency's accumulated contributions for current service, as the case may be.

21691. The board shall certify to the State Controller the total amount of employer federal contributions required for retroactive coverage under the federal system and the Controller shall thereupon transfer such amount from the State Employees' Retiement Fund to the Old Age and Survivors Insurance Revolving Fund.

CHAPTER 4. CONTRACT MEMBERS

21700. Except as hereinafter provided in this chapter, the provisions of this part do not apply to any public agency under contract with the board, as provided by the State Employees' Retirement Law, nor to the employees of such an agency with respect to services rendered as an employee of the agency. Notwithstanding the provisions of Chapter 4.5 of said Retirement Law, the provisions of this part do not apply to contracts made under that law with any county superintendent of schools nor to persons who are members of the state system on account thereof, except as hereinafter provided in this chapter.

21702. With the approval of the board, any contract made under the provisions of the State Employees' Retirement Law between the board and a public agency may be amended to provide a modification of the benefits to be paid under said contract, and to provide an adjustment in contributions made, or to be made, by

employees to the state system, if the agreement executed by the board pursuant to Section 218 of Title II of the Social Security Act is simultaneously modified to include in the federal system the employees of the agency in positions covered by the state system. The amendment to such contracts as are subject to the provisions of Sections 21251.1 and 21253 of said Retirement Law, shall provide a modification of benefits and employee contributions under the contract like that provided in Chapters 2 and 3 of this part for the State and its employees. As may be agreed upon by the board and the public agency, a contract which is not subject to said sections may be amended to provide a modification of benefits to be payable under the contract and an adjustment of the contributions made, or to be made, by employees to the state system, provided the agreement executed by the board pursuant to Section 218 of Title II of the Social Security Act is simultaneously modified to include in the federal system the employees of the agency in positions covered by the state system.

The amendment to the contract shall be made in the manner prescribed in the State Employees' Retirement Law for the approval of contracts.

21704. The referendum referred to in Section 22301 of this code with respect to County Superintendent of Schools is hereby authorized. When a majority of the eligible employees in positions covered by the state system under the contract between the board and a county superintendent, as provided in Chapter 4.5 of the State Employees' Retirement Law, have voted in favor of inclusion in the federal system, the county superintendent may make formal application to the board for the inclusion of such employees in the agreement in accordance with Part 4 of this division. The contract between the board and the county superintendent of schools shall be amended effective upon such inclusion to provide a modification of the benefits and contributions like that provided in Chapters 2 and 3 of this part for the State and its employees. The amendment to this contract shall be made in the manner prescribed in the State Employees' Retirement Law for the approval of contracts.

21706. If the effective date of coverage under the federal system of the employees of a public agency under contract with the board of the state system is effective prior to the time employee federal contributions are first deducted from the salaries and wages of such employees, said contract with the board may be amended to provide for the payment of retroactive employee and employer federal contributions from the accounts of the employee or the public agency, as the case may be, in the State Employees' Retirement System in the same manner as provided in Articles 4 and 5 of this part for the State and its employees.

21708. Contracts made by the board with a public agency after this part takes effect, may provide a modification, as may be agreed upon by the board and the agency, of the benefits provided under the State Employees' Retirement Law and adjusted employee contributions to be paid under said law if the employees of the agency are covered by the federal system or are to be so covered on the effective date of the contract.

SEC. 2. Section 16395 of the Government Code is amended to read:

16395. For the purpose of determining the fund or funds from which the State's contributions to the State Employees' Retirement Fund under Chapter 6 of Part 3 of Division 5 of Title 2 of this code and the contributions required of an employer under Chapter 3 of Part 3 5 of Division 5 of Title 2 of this code shall be paid, any compensation paid to state officers and employees from the State Pay Roll Revolving Fund shall be deemed to have been paid from the fund or funds from which the money disbursed from the State Pay Roll Revolving Fund in payment of such compensation was originally derived.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Sweeping changes have been made in the Social Security Act during 1954, providing, among other matters, that public agencies in this State with retirement systems may now be covered by the Old Age and Survivors' Insurance System of the Federal Government. In order that employees of the State and other public employees under the State Employees' Retirement System may be so covered without jeopardizing the continued maintenance of their state system it is necessary that provision be made for the integration of the two systems."

Amendments read, and adopted.

Bill ordered reprinted, and to third reading.

SEC. 9. This act is an urgency measure, necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The present law is not sufficiently clear as to the effect of terminating an annexation proceeding prior to protest hearing when such termination becomes necessary due to procedural irregularities or defects. Numerous persons are in grave doubt concerning the effect of certain terminations of annexation proceedings. Until specific authority to terminate the defective or outmoded proceedings and institute new proceedings is granted by the Legislature, the uncertainty of the present law will delay or prohibit the benefits of annexation to many persons. Such delays, in addition to creating uncertainties for the residents of areas which are the subject of annexation proceedings, also create uncertainties in the minds of those persons whose investments in real property make possible the expansion and development of the annexed areas. It is therefore necessary that the Legislature resolve the doubts that have arisen as soon as possible so that the furnishing of municipal services necessary for the preservation of the public health and safety and the orderly development of property which is the subject of annexation proceedings may proceed immediately."

If the city legislative body finds that a majority protests as therein provided is made, no further proceedings for the annexation of any of the territory shall be taken for one year after the finding. If the city legislative body finds that a majority protest as therein provided for is not made or it finds that no protests have been filed, new proceedings for the annexation of all or part of the same territory to the city may be instituted and proceeded with as provided in this chapter at any time after the date of such finding."

Amendment No. 11

On page 3, strike out lines 20 to 24 inclusive, and insert

"SEC. 8. The right of a city to terminate annexation proceedings prior to the date set for the hearing of protests without prejudice to a new proceeding filed within a year is the existing law. "SECTION 1. Section 1526 of the Welfare and Institutions Code is amended to read:".

1526. Except as provided in Sections 1512 and 1557, and subdivision (d) of this section, no county is required to pay aid under this chapter for a child, or shall be charged under Section 1512 for aid paid for a child, unless the child has had residence in that county for the period of one year immediately preceding the date of application.

For the purposes of this chapter, the county residence of the child shall not be lost until another is gained, and shall be determined in accordance with the following rules:

(a) The residence of the father determines that of the child during the lifetime of the father, unless the father has abandoned the child, has been legally deprived of his custody, or is in fact living separate and apart from the mother of the child; in the latter case the residence of the child is determined by the residence of the parent who has his custody.

(b) If the child's residence is not determined under subdivision (a) hereof, then the residence of the mother determines that of the child during the lifetime of the

mother, unless the mother has abandoned the child or has been legally deprived of his custody. The residence of the husband shall not be deemed the residence of the wife if they are living separate and apart and in such case each may have a separate residence dependent upon proof of the fact and not upon legal presumptions. The residence of the parent having custody of the child determines his residence.

(c) If the residence of the child is not determined under subdivisions (a) and (b) hereof, then the residence of any individual who has been appointed legal guardian determines the residence of the child; if the child is a ward of the juvenile court, the county in which the court is located shall be considered the residence of the child.

(d) The residence of a foundling shall be deemed to be that of the county in which the child is found, without the necessity of a year's presence in the county.

(e) If the residence of the child is not determined under subdivisions (a), (b), (c), or (d) hereof, and the child has been placed in an institution or boarding home by a public agency, the county in which the child has residence at the time of such placement shall be considered the residence of the child until his residence can be determined under subdivisions (a), (b), or (c) of this section.

(f) If the residence of the child is not determined under (a), (b), (c), (d), or (e) hereof, the county in which the child is living shall be deemed the county of residence, if and when the child has had a physical presence in the county for one year. The county may accept an application in the case of a child living with a relative who does not have legal custody or the county, itself, shall file an application for aid on behalf of the child and also be responsible for whatever may be its share of the child's support. This subdivision does not apply to a child for whom an application is made under Section 1557.

"SECTION 1. Section 555 is added to the Streets and Highways Code, to read:

555. The California Highway Commission is authorized, if it finds the same to be for the best interest of the State, to construct a state highway from Route 1 near Garberville to a connection with existing Route 1 near Pepperwood, located so as to avoid the necessity of destroying any substantial number of redwood trees in state parks between said termini, and upon completion of construction, to designate such new highway as a portion of Route 1 in lieu of the existing Route 1 between said termini.

The Legislature hereby finds and declares that it is in the best interest of the State of California that the groves of virgin redwood trees in this area should be preserved and protected for the enjoyment and education of future generations. The redwood groves of California are unique in the world, and their unnecessary destruction would be a tragic loss. While one purpose of the relocation of the state highway described in this section is to improve the transportation facilities of the State, the primary purpose of the relocation is to avoid the necessity of destroying any substantial numbers of redwood trees in the state parks or in any other property in that area and to relieve the existing roads through the state parks of a heavy burden of traffic and thus make such roads available for the convenience of visitors to the parks. The Legislature, therefore, further finds and declares that the construction of the highway described in this section is for park purposes.

SEC. 2. Section 1 of Chapter 1639 of the Statutes of 1953 is amended to read:

[can be purchased at a reasonable price, to be determined by appraisal and negotiation or by condemnation proceedings, said land situate, lying and being between the extension of Los Patos Avenue, at the southerly terminus of Sunset Beach and the northerly city limits of Huntington Beach and between the ordinary high tide of the Pacific Ocean and State Highway No 101, Alternate, excepting therefrom an easement for railroad purposes as said railroad now exists. This appropriation shall be expended in the acquisition of aforesaid property and shall not be matched by like amounts or any amounts, in money, property or lands received from private or any other sources.]

SEC. 3. Section 5038 is added to the Public Resources Code, to read:

(b) Active and retired employees of the district or districts who otherwise would be members of such plan, other than teachers and persons employed in a status requisite for membership in the State Teachers' Retirement System or who were so employed prior to retirement, shall be made members and beneficiaries, respectively, of the State Employees' Retirement System according to the provisions of Part 3, Division 5, of Title 2 of the Government Code, including transfer to said system of the accumulated contributions of said employees, together with such other assets of said plan as may be determined.

of the district retirement plan shall be deposited forthwith in the Retirement Annuity Fund with credited interest, to be applied on the amount due from said teachers and other persons under Section 14680 of this code, but not to exceed the amount so due. Likewise an amount equal to the actuarial equivalent of the annuity portion of the retirement allowance to which the respective retired teachers and other persons employed by the district or districts, prior to retirement, in a status requisite for membership in the State Teachers' Retirement System were entitled under said plan, based on the interest rate and mortality tables used in its determination, shall be deposited in the Retirement Annuity Fund, to be applied on the amount due from said respective retired teachers and other persons under Section 14683 of this code, but not to exceed the amount so due. Any excess of the contributions with credited interest or the actuarial equivalents, as the case may be, over the respective amounts due under said sections, shall be paid forthwith to the respective active and retired teachers and other persons. If the amount payable to any such teacher or other person, under the sentence next preceding, is less than two dollars ($2), the district or districts may pay, in lieu of such amount, one amount which shall be actuarially equivalent to such monthly amount thereafter payable, according to the interest rate and mortality table used in the determination of the teacher's or other person's retirement allowance under the said district retirement plan The payment of such actuarially equivalent amount shall discharge fully the district's liability to such teacher or other person under this subdivision (d). The arrangement under which said amounts are paid by said district shall not be considered to be a local retirement system for the purposes of Chapter 14, of Division 7, of the Education Code, nor shall said amount be taken into account in the calculation of retirement allowances under the State Teachers' Retirement System.

(e) If any person who was retired prior to such discontinuance from a position requisite for membership in the State Teachers' Retirement System, under a district retirement salary plan which is discontinued pursuant to this section, elected either under such plan or under such system, but not under both, to have his retirement allowance modified according to an option under which he would receive a smaller allowance and provide a benefit for his beneficiary, such person shall have the right, to be exercised not later than sixty (60) days after the discontinuance of such plan to change his election under the State Teachers' Retirement System with respect to said options. Any computations of actuarial equivalent under a changed election shall be made as of the date of discontinuance of the plan, and no adjustment shall be included in the computation on account of retirement allowance payments made prior to that date."

years and for so long thereafter as gas or oil is produced in paying quantities from the leased lands. If such term is for 20 years it may, at any time or times prior to its expiration, be extended upon such terms and conditions and for such period of time as the commission deems for the best interest of the State or as the Legislature may provide.]

[In addition to the royalty provided therein each bid and each lease shall also provide for an annual rental payment in advance of such sum as the commission shall specify.] *include all oil and gas deposits in the leased land and be for a term of 20 years and for so long thereafter as gas or oil is produced in paying quantities from the leased land, or lessee shall be diligently conducting producing, drilling, deepening, repairing, redrilling or other necessary lease or well maintenance operations on the leased land. Any lease heretofore issued under this chapter for a term of 20 years, or any renewal or extension thereof, may at any time or times prior to its expiration be extended upon such terms and conditions and for such period of time as the commission deems for the best interests of the State or as the Legislature may provide; provided, further, that upon the lessee's timely application therefor the commission may issue a new lease in exchange for any lease issued for a term of 20 years, or any renewal or extension thereof; such new lease shall be issued at the same royalty and upon the same terms and conditions as the lease for which it is exchanged, unless the commission and the lessee shall otherwise agree, except that the term of such exchange lease shall be for a term of five years and for so long thereafter as oil or gas is produced in paying quantities, or lessee shall be conducting producing, drilling, deepening, repairing, redrilling or other necessary lease or well maintenance operations on the leased land.*

When state tide and submerged lands offered for lease by the commission are lands not within the known geologic structure, as determined by the commission, of a producing oil or gas field at the date of issuance by the commission of an invitation to bid for an oil or gas lease thereon, the commission shall specify a flat-rate royalty to be paid under such lease of 12½ percent in kind, or of 12½ percent of the current market price or the price received for the production removed or sold from the leased land, subject to an allowance for oil treatment and dehydration of not to exceed five cents per net barrel for the royalty oil and shall specify a flat royalty of 10 percent of the current gross market value or price received for all dry gas, natural gasoline, and other products extracted and saved from the gas produced from the leased land, and an annual rental payment in advance of not to exceed one dollar ($1) for each acre of the land subject to the lease at the rental date. Unless the commission decides to reject all bids pursuant to Section 6836, the lease of the parcel or tract which is the subject of the bid shall be awarded to the qualified bidder who undertakes to pay the highest cash bonus in addition to satisfying the royalty and rental requirements and all other provisions of the lease.

When state lands, including tide and submerged lands, offered for lease by the commission are lands within the known geologic structure, as determined by the commission, of a producing oil or gas field at the date of issuance by the commission of an invitation to bid for an oil and gas lease thereon, the commission shall specify a fixed royalty on oil of not less than 16⅔ percent or a sliding scale royalty commencing at not less than 16⅔ percent up to a maximum percentage specified in the invitation to bid to be paid on the average production of oil per well per day under such lease, and a royalty of 15 percent as specified in the invitation to bid on dry gas, natural gasoline, and other products extracted and saved from the gas produced under such lease. Such royalties shall be paid in kind or as a percentage of the current market price at the well of, and of any premium or bonus paid on, the production removed or sold from the leased land, subject to a reasonable allowance for oil treatment and dehydration, and an annual rental payable in advance of not to exceed one dollar ($1) for each acre of the land subject to the lease at the rental date. Unless the commission decides to reject all bids pursuant to Section 6836, the lease of the parcel or tract which is the subject of the bid shall be awarded to the qualified bidder who undertakes to pay the highest cash bonus in addition to satisfying the royalty and rental requirements and all other provisions of the lease.

If, at any time or from time to time, before or after the expiration of the primary term of such lease, the leased lands cease to produce oil or gas, the lease shall, nevertheless, continue in full force or effect if within six months after the cessation of production, or such longer period of time as the commission may authorize, lessee shall commence and thereafter prosecute with reasonable diligence drilling, deepening, repairing, redrilling or other operations which shall result in the restoration of production of oil or gas from the leased lands."

SEC. 17. Section 6871.3 is added to said code, to read.

6871.3. Whenever it appears to the commission that it is for the best interests of the State to lease lands subject to the provisions of Section 6871.1 of this code for the production of oil or gas therefrom, or whenever a person who possesses the qualifications provided in this chapter makes written request therefor, the commission may, subject to the provisions of Section 6871.4, offer the same for bidding at such times and in such parcels as the commission shall determine to be in the best interests of the State.

SEC. 18. Section 6871.4 is added to said code, to read

6871.4. The commission may divide the lands within the area proposed to be *leased into parcels of convenient size and shape and shall prepare a form of* lease or leases therefor embracing not to exceed 5,760 acres in any one lease, and if the lands are not within the known geologic structure of a producing oil or gas field at the date of issuance by the commission of an invitation to bid for an oil and gas lease thereon, such lease shall embrace not less than 1,920 acres, or the whole thereof if less than 1,920 acres are available for leasing.

SEC. 19. Section 6872 of said code is amended to read:

6872. [Whenever it appears to the commission] *Title and submerged lands along the coast of the Pacific Ocean other than those which may be leased under Section 6871.1 and Section 6872.1 may be leased by the commission if the commission shall determine (1)* that oil or gas deposits are [known or] believed to be contained in [any] such lands [and may be or], *(2) that the same* are being drained by means of wells upon adjacent lands, *and (3) that the leasing of the same* [the commission shall thereupon be authorized and empowered to lease any such lands, either as a tract or in parcels of such size and shape as the commission shall determine,] for the production of oil and gas [therefrom] *will be in the best interests of the State.*

SEC. 20. Section 6872.1 is added to said code, to read:

6872.1. Whenever it appears to the commission that oil and gas deposits are known or believed to be contained in any such lands as are described in Section 6871.2, subdivision (b), of this code and are being drained by means of wells upon adjacent lands owned by others than the State, the commission shall thereupon be authorized and empowered to lease state-owned tide and submerged lands adjacent to any such wells for the production of oil and gas therefrom, either as a tract or in parcels of such size and shape as the commission shall determine but only within an area and to an extent necessary to offset such drainage of state-owned tide and submerged lands by any such wells upon adjacent lands owned by others.

SEC. 21. Section 6872.2 is added to said code, to read:

6872.2. If the commission determines that any tide and submerged lands belonging to the State in the area hereinafter referred to should be drilled pursuant to the terms of Section 6872 of this code, then, notwithstanding the provisions of Section 6874 of this code, in order to preserve and protect the highly developed recreational and residential area now referred to, the commission shall require that any well or wells drilled pursuant to the terms of any lease issued with respect to any part of the hereinafter described area be slant drilled from an upland or littoral site to and into the subsurface of the tide or submerged lands covered by the lease. The area to which this section is applicable is the tide and submerged lands along the Coast of the Pacific Ocean south of the Santa Ana River in Orange County to the southerly boundary of the State.

SEC. 22. Section 6873 of said code is amended to read:

6873. [The] *When leasing tide or submerged lands, the* commission shall prepare a form of lease which shall contain, in addition to other provisions deemed desirable and necessary by the commission, appropriate provisions contained in this chapter and the following:

(a) Each well drilled pursuant to the terms of the lease [shall] *may* be [drilled only upon filled lands or shall be] slant-drilled [from an upland or littoral drill site] to and into the subsurface of the tide or submerged lands covered by the lease[, or shall be drilled or slant-drilled to and into the subsurface of tide or submerged lands covered by the lease, from a drill site located upon any pier heretofore constructed for drilling purposes and available for such drilling upon any tide or submerged lands described in any valid existing lease heretofore issued pursuant to the provisions of Chapter 303, Statutes of 1921, as amended, if in the judgment of the commission such drilling will be in the public interest. The derricks, machinery, and any and all other surface structures, equipment, and appliances shall be located only upon filled lands or upon the littoral lands or uplands, or upon any pier heretofore constructed and available for such drilling upon any tide or submerged lands described in any valid existing lease heretofore issued pursuant to the provisions of Chapter 303, Statutes of 1921, as amended, and all surface operations shall be conducted therefrom.] *from upland or littoral drill sites owned or controlled by the State or owned by or available to the lessee, or from drill sites located upon any filled lands heretofore or hereafter filled, whether contiguous or noncontiguous to the littoral lands or uplands, or from any pier heretofore or hereafter constructed, owned by or available to the lessee and available for such purpose, or from platforms or other fixed or floating structures in, on or over the tide or submerged lands covered by the lease or otherwise available to the lessee.*

(b) Pollution and contamination of the ocean and tidelands and all impairment of and interference with bathing, fishing or navigation in the waters of the ocean or any bay or inlet thereof is prohibited, and no oil, tar, residuary product of oil or any refuse of any kind from any well or works shall be permitted to be deposited on or pass into the waters of the ocean or any bay or inlet thereof.

(c) If the lessee, as disclosed by information submitted with his bid, proposes to drill one or more wells from filled lands, whether contiguous or noncontiguous to the littoral lands or uplands, or from any pier or from platforms or other fixed or floating structures to be constructed for such purpose, and if permission from any federal or state agency is legally required in order to construct any such filled land or structures, the lessee shall be allowed a reasonable time following the execution of the lease and prior to the commencement of the drilling term thereof within which to secure the necessary permission from such federal and state agencies as shall be legally required, and, upon the securing of such permission, a further reasonable time, determined with regard to the nature of the filled lands or structure or structures to be constructed, within which to commence operations for the drilling of such well or wells, and, if necessary, the drilling term of the lease shall be extended by the commission to the date to which the time to commence operations for the drilling of such well or wells has been extended

[(c) Impairment of or interference with developed shore line recreational areas or residential areas is prohibited]

(d) Any offshore filled lands or structure or structures constructed for the purpose of drilling pursuant to this section shall conform to the rules and regulations of the commission in effect at the time of invitation for bids in pursuance of which the lease is awarded. Drilling, whether from upland, littoral or offshore locations, shall be conducted in conformance with such rules and regulations in effect at the time of invitation for bids in pursuance of which the lease is awarded.

SEC. 23. Section 6873.1 is added to said code, to read:

6873.1. Filled lands shall include, but not be limited to, tide or submerged lands reclaimed artificially through raising such lands above the highest probable elevation of the tides to form dry land, by placement of a fill or deposit of earth, rock, sand or other solid imperishable material. Such fill may be retained in place or protected by bulkheads, seawalls, revetments or similar enclosures and may be placed at any location approved by the commission under a lease heretofore or hereafter issued pursuant to this article.

SEC. 24. Section 6873.2 is added to said code, to read:

6873.2. Before offering any tide or submerged land area for an oil and gas lease, the commission shall publish notice thereof, and any affected city or county may, within fifteen (15) days after the publication of such notice, request in writing to the commission that a hearing be held with respect thereto. Upon receipt of such request, the commission shall hold such a hearing and give not less than ten (10) days notice thereof to the city or county, or both such city and county, making such request, and to the Department of Natural Resources, and shall publish such notice. The commission in its discretion and irrespective of any such request may hold such hearings as it shall determine. All notices shall be given in the manner prescribed in Section 6834 of this chapter.

Within thirty (30) days after such hearing the commission shall determine to offer the land for lease, as provided under Sections 6871.3, 6872 and 6872.1, unless

the commission shall determine that the issuance of a lease as to all or a part of such land would result in an impairment or interference with the developed shore line recreational or residential areas adjacent to the proposed leased acreage, or the commission may determine to offer such land for lease as to all or a part thereof and include in the offer for lease such reasonable rules and regulations which, in the opinion of the commission, are necessary for the exploration, development, and operation of said lease in a manner which will not impair or interfere with said developed shore line recreational or residential areas Provided, however, that no tide or submerged lands shall be offered for lease under any conditions, rules, or regulations which will result in a discrimination between bidders as prohibited by Section 6874.

The commission in determining whether the issuance of such lease or leases would result in such impairment or interference with the developed shore line, recreational or residential areas adjacent to the proposed lease acreage or in determining such rules and regulations as shall be necessary in connection therewith shall at said hearing receive evidence upon and consider whether such proposed lease or leases would

(a) Be detrimental to the health, safety, comfort, convenience, or welfare of persons residing in, owning real property, or working in the neighborhood of such areas;

(b) Interfere with the developed shore line, residential or recreational areas to an extent that would render such areas unfit for recreational or residential uses or unfit for park purposes;

(c) Destroy, impair, or interfere with the aesthetic and scenic value of such recreational, residential or park areas;

(d) Create any fire hazard or hazards, or smoke, smog or dust nuisance, or pollution of waters surrounding or adjoining said areas

Authority to hold the hearings provided in this section may be delegated by the commission to its officers or employees.

SEC. 25. Section 6874 of said code is amended to read:

6874 [In any notice of intention to lease tide or submerged lands, the commission may include a requirement that each prospective bidder, as a condition precedent to the consideration of his bid and in addition to the other qualifications required by this chapter, shall present evidence satisfactory to the commission of his present ability to furnish all necessary sites and rights of way for all operations contemplated under the provisions of the proposed lease. In such event the commission shall reject the bids of all bidders who fail to qualify as provided by this section.]

Each bid shall be accompanied by information giving a description of the location or locations, structure or structures, from which the bidder proposes to drill. In awarding a lease, the commission shall not discriminate between bidders by prohibiting drilling from upland or littoral drillsites, or drilling from sites upon filled lands, whether contiguous or noncontiguous to the littoral lands or uplands, or upon any pier or platform or other fixed or floating structure in, on or over tide and submerged lands with respect to which the State or other owner thereof has consented to such use; provided, however, that in the event state-owned tide or submerged lands are determined by the commission to contain oil or gas deposits which are being drained by wells owned by others upon adjacent lands, and such state-owned tide and submerged lands cannot be developed by a particular method of exploration, development or operation without interfering with or impairing developed shore line, recreational or residential areas, then the commission may offer and award an oil and gas lease on such lands with a prohibition against said particular method of exploration, development or operation."

CONSIDERATION OF HOUSE RESOLUTION NO. 261

By Mr. Ernest R. Geddes:

House Resolution No. 261

Relative to the State of California taking service from Central Valley Power Lines at the junction of Highway 40 direct from the Bureau of Reclamation

WHEREAS, There was filed with the State Merit Award Board in March of 1954 an employee's suggestion in the following language:

In view of the increasing fixed cost of state institutions, and in appreciation of the fact that the officials of the State are endeavoring to run the State on a business-like basis, this suggestion is tendered with the realization due to my background of building electrical distribution systems at various state institutions, that a gross saving of approximately $562,000 annually could be saved by the expenditure of $3,500,000 by the State for transmission lines and substations which would serve the following institutions at savings indicated.

Institution	*Annual Saving*
Sacramento State Office Buildings	$125,000.00
University of California at Davis	40,000.00

Miscellaneous Costs	130,000 00
Total	$3,500,000.00

It is proposed that the State take service from Central Valley Power lines at the junction of Highway 40 direct from the Bureau of Reclamation, transforming from 230 KV to 69 KV at this point. The 69 KV line can be connected to an existing 69 KV tap belonging to the Bureau of Reclamation where the proposed line would cross it to serve the University of California at Berkeley, thereby providing a loop which could be supplied from either end enabling the lines to be sectionalized from either end to repair any part of the overhead services.

Plans and studies are being made to inter-tie Oregon and California power facilities. This will give reasonable firm power with greatly improved standby features for CVP power.

It is possible by acting at once for the State to obtain the 30,000 KW capacity presently held by the State of Nevada (which will be or could be had by bringing pressure to bear, as this power is not used by them) on a year to year basis; and as there seems to be little likelihood that this contract will be renewed July 1, 1954, the State should obtain it, as it will meet the requirements for the transmission system proposed; and

WHEREAS, Nothing appears to have been done to thoroughly investigate and report on this matter to the Legislature; and

WHEREAS, A proper interim committee of the Assembly may render a worthwhile service by going into the subject matter of this resolution; now, therefore, be it

Resolved by the Assembly of the State of California, To refer this matter to an interim committee which it deems most proper to conduct a fair and impartial investigation and which shall make a recommendation respecting the proposal not later than the tenth legislative day of the 1956 Regular Budget Session of the California Legislature.

Resolution read, and adopted.

House Resolution No. 176

WHEREAS, The air conditioning is not satisfactory as applied to the front of the Assembly Chamber, the Speaker's Rostrum, and the Assembly Desk; and

WHEREAS, The control of temperature at the present time is manually operated, which necessitates the presence of an engineer in constant attendance in order to avoid excessive hot and cold temperatures in the Chamber; and

WHEREAS, The air conditioning could be controlled automatically, which would insure an even temperature at all times and would relieve the present unsatisfactory system; now, therefore, be it

Resolved, That the Chief of the Division of Buildings and Grounds is instructed to make a study of the air conditioning system in order that the condition now existing at the front of the Assembly Chamber, at the Speaker's Rostrum, and at the Assembly Desk, be corrected, and that the work be done before the next session of the Legislature.

UNANIMOUS CONSENT REQUEST

Mr. Weinberger asked for, and was granted, unanimous consent to have the following opinion of the Legislative Counsel printed in the Journal:

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, June 7, 1955

Honorable Caspar W. Weinberger
Assembly Chamber

Alcoholic Beverages—No. 13303

DEAR MR. WEINBERGER:

Question

You have asked whether the fees provided for in Senate Bill No. 1987 as amended in Assembly June 3, 1955, will be in addition to the fees prescribed in Section 23320 of the Business and Professions Code upon an application for an on-sale or off-sale general license on and after January 1, 1956.

Opinion

In our opinion the answer to your question is in the affirmative.

Analysis

Senate Bill No. 1987 adds Section 23954 5 to the Business and Professions Code to provide that an applicant for an original on-sale license on and after January 1, 1956 must, at the time of filing the application for the license, accompany the application with a fee of $6,000; and an applicant for an original off-sale general license on or after said date must accompany the application with a fee of $3,000. It is expressly provided in the bill that the license to which the fee applies does not include a license issued upon renewal or transfer of a license. It should be noted that these fees are payable only at the time of filing the application for the license; they are not annual fees.

Section 23320 of the Business and Professions Code, on the other hand, prescribes the annual fees to be charged for the various types of licenses issued pursuant to the Alcoholic Beverage Control Act.

In our opinion it is clear, from a reading of the two sections together, and especially in view of the fact that the fees provided in Section 23954.5 of the Code, as added by the bill, are nonrecurring fees and that the fees prescribed in Section 23320 for on- and off-sale general licenses are not repealed, that the fees prescribed in Section 23954.5 are intended to be in addition to the annual fees prescribed in Section 23320 upon the application for the original on- off-sale general license. Upon a subsequent renewal or transfer of such a license, of course, the fee prescribed in Section 23320 would be the only fee required to be paid.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By RAY H. WHITAKER, Deputy

Two copies to Honorable James E. Busch pursuant to Joint Rule 34.

Hon. Richard H. McCollister Presiding

At 8.18 p.m., Hon. Richard H. McCollister, Member of the Assembly from the Seventh District, presiding.

TEMPORARY SUSPENSION OF ASSEMBLY RULE NO. 105

Mr. Thomas J. Doyle asked for, and was granted, unanimous consent that Assembly Rule No. 105 be temporarily suspended for the purpose of placing a call of the Assembly on any matter before the Assembly.

ASSEMBLY INTERIM COMMITTEE
ON MUNICIPAL AND COUNTY GOVERNMENT
CALIFORNIA LEGISLATURE, June 6, 1955

Hon. L. H. Lincoln
Speaker of the Assembly
State Capitol, Sacramento, California

DEAR MR. SPEAKER: The Committee on Municipal and County Government has completed its work for the 1955 session and will, after June 8th, engage in its interim studies.

I have been the chairman of this committee for the past nine years, and have had a great deal of pride in my committee members and their sincere and conscientious work on the committee. It has also been a great pleasure to work with the high caliber of young men who represent both the County Supervisors' Association and the League of California Cities.

It is my sincere belief that the people of the State will best be served if the interim committee is chairmanned by a member who will set the policies of the interim studies, and who will be returning in the '57 Session to follow through on the findings of the interim committee

I, therefore, respectfully request that you accept my resignation as Chairman of the Committee on Municipal and County Government, effective not later than June 9, 1955, as I will not be filing for re-election in '56.

Respectfully yours,

EARL W. STANLEY

ANNOUNCEMENT

The Speaker requested that the members please leave complete shipping instructions for the Sergeant-at-Arms inside their desks in the Assembly Chamber.

Assembly Constitutional Amendment No. 4

A resolution to propose to the people of the State of California an amendment to the Constitution of the State, by amending the first paragraph of Section 7½ of Article XI, relating to county charters.

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its 1955 Regular Session commencing on the third day of January, 1955, two-thirds of the members elected to each of the two houses of the Legislature voting therefor, hereby proposes to the people of the State of California that the Constitution of the State be amended by amending the first paragraph of Section 7½ of Article XI, to read as follows:

SEC. 7½. Any county may frame a charter for its own government consistent with and subject to the Constitution (or, having framed such a charter, may frame a new one,) and relating to matters authorized by provisions of the Constitution, by causing a board of 15 freeholders, who have been for at least five years qualified electors thereof, to be elected by the qualified electors of said county, at a general or special election. Said board of freeholders may be so elected in pursuance of an ordinance adopted by the vote of three-fifths of all the members of the board of supervisors of such county, declaring that the public interest requires the election of such board for the purpose of preparing and proposing a charter for said county, or in pursuance of a petition of qualified electors of said county as hereinafter provided. Such petition, signed by 15 percentum of the qualified electors of said county, computed upon the total number of votes cast therein for all candidates for Governor at the last preceding general election at which a Governor was elected, praying for the election of a board of 15 freeholders to prepare and propose a charter for said county, may be filed in the office of the county clerk. It shall be the duty of said county clerk, within 20 days after the filing of said petition, to examine the same, and to ascertain from the record of the registration of electors of the county, whether said petition is signed by the requisite number of qualified electors. If required by said clerk, the board of supervisors shall authorize him to employ persons specially to assist him in the work of examining such petition, and shall provide for their compensation. Upon the completion of such examination, said clerk shall forthwith attach to said petition his certificate, properly dated, showing the result thereof, and if, by said certificate, it shall appear that said petition is signed by the requisite number of qualified electors, said clerk shall immediately present said petition to the board of supervisors, if it be in session, otherwise at its next regular meeting after the date of such certificate. Upon the adoption of such ordinance, or the presentation of such petition, said board of supervisors shall order the holding of a special election for the purpose of electing such board of freeholders, which said special election shall be held not less than 20 days nor more than 60 days after the adoption of the ordinance aforesaid or the presentation of said petition to said board of supervisors; provided, that if a general election shall occur in said county not less than 20 days nor more than 60 days after the adoption of the ordinance aforesaid, or such presentation of said petition to said board of supervisors, said board of freeholders may be elected at such general election. Candidates for election as members of said board of freeholders shall be nominated substantially in the same manner as may be provided by general law for the nomination of candidates for county offices. It shall be the duty of said board of freeholders, within one year after the result of such election shall have been declared by said board of supervisors, to prepare and propose a charter for said county, which shall be signed in duplicate by the members of said board of freeholders, or a majority of them, and be filed, one copy in the office of the county clerk of said county and the other in the office of the county recorder thereof. Said board of supervisors shall thereupon cause said proposed charter to be published for at least 10 times in a daily newspaper of general circulation, printed, published and circulated in said county; provided, that in any county where no such daily newspaper is printed, published and circulated, such proposed charter shall be published for at least three times in at least one weekly newspaper, of general circulation, printed, published and circulated in such county; and provided, that in any county where neither such daily nor such weekly newspaper is printed, published and circulated, a copy of such proposed charter shall be posted by the county clerk in three public places in said county, and on or near the entrance to at least one public schoolhouse in each school district in said county, and the first publication or the posting of such proposed charter shall be made within 15 days after the filing of a copy thereof, as aforesaid, in the office of the county clerk. Said proposed charter shall be submitted by said board of supervisors to the qualified electors of said county at a special election held not less than 30 days nor more than 60 days after the completion of such publication, or after such posting; provided, that if a general election shall occur in said county not less than 30 days nor more than 60 days after the completion of such publication, or after such posting, then such proposed charter may be so submitted at such general election. If a majority of

said qualified electors, voting thereon at such general or special election, shall vote in favor of such proposed charter, it shall be deemed to be ratified, and shall be forthwith submitted to the Legislature, if it be in regular session, otherwise at its next regular session, or it may be submitted to the Legislature in extraordinary session, for its approval or rejection as a whole, without power of alteration or amendment. Such approval may be made by concurrent resolution, and if approved by the majority vote of the members elected to each house, such charter shall become the charter of such county and shall become the organic law thereof relative to the matters therein provided, and supersede any existing charter framed under the provisions of this section, and all amendments thereof, and shall supersede all laws inconsistent with such charter relative to the matters provided in such charter. A copy of such charter, certified and authenticated by the chairman and clerk of the board of supervisors under the seal of said board and attested by the county clerk of said county, setting forth the submission of such charter to the electors of said county, and its ratification by them, shall, after the approval of such charter by the Legislature, be made in duplicate, and filed, one in the Office of the Secretary of State and the other, after being recorded in the office of the recorder of said county, shall be filed in the office of the county clerk thereof, and thereafter all courts shall take judicial notice of said charter.

Assembly Constitutional Amendment No. 68

A resolution to propose to the people of the State of California an amendment to the Constitution of the State, by an amendment to the first paragraph of Section 1, and to Sections 3, 4, 5, 6, 17, 19, and 27 of, and to add Section 38 to, Article IV, relating to the Legislature.

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its 1955 Regular Session commencing on the third day of January, 1955, two-thirds of the members elected to each of the two houses of the

Legislature voting therefor, hereby proposes to the people of the State of California that the Constitution of the State be amended as follows:

First: That the first paragraph of Section 1 of Article IV be amended to read:

SECTION 1. The legislative power of this State shall be vested in a Senate and House of Representatives which shall be designated "the Legislature of the State of California," but the people reserve to themselves the power to propose laws and amendments to the Constitution, and to adopt or reject the same, at the polls independent of the Legislature, and also reserve the power, at their own option, to so adopt or reject any act, or section or part of any act, passed by the Legislature. The enacting clause of every law shall be "The people of the State of California do enact as follows:"

Second: That Section 3 of Article IV be amended to read:

SEC. 3. Representatives shall be elected in the year 1879, at the time and in the manner now provided by law. The second election of Representatives after the adoption of this Constitution shall be on the first Tuesday after the first Monday in November, 1880. Thereafter, Representatives shall be chosen biennially, and their term of office shall be two years; and each election shall be on the first Tuesday after the first Monday in November, unless otherwise ordered by the Legislature.

Third: That Section 4 of Article IV be amended to read:

SEC. 4. Senators shall be chosen for the term of four years, at the same time and places as Representatives, and no person shall be a Member of the Senate or House of Representatives who has not been a citizen and inhabitant of the State three years, and of the district for which he shall be chosen one year, next before his election.

Fourth: That Section 5 of Article IV be amended to read:

SEC. 5. The Senate shall consist of 40 members, and the House of Representatives of 80 members, to be elected by districts, numbered as hereinafter provided. The seats of the 20 Senators elected in the year 1882 from the odd numbered districts shall be vacated at the expiration of the second year, so that one-half of the Senators shall be elected every two years; provided, that all the Senators elected at the first election under this Constitution shall hold office for the term of three years.

Fifth: That Section 6 of Article IV be amended to read:

SEC. 6. For the purpose of choosing Members of the Legislature, the State shall be divided into 40 senatorial and 80 house of representatives districts to be called senatorial and house of representatives districts. Such districts shall be composed of contiguous territory, and house of representatives districts shall be as nearly equal in population as may be. Each senatorial district shall choose one Senator and each house of representatives district shall choose one Representative. The senatorial districts shall be numbered from 1 to 40, inclusive, in numerical order, and the house of representatives districts shall be numbered from 1 to 80 in the same order, commencing at the northern boundary of the State and ending at the southern boundary thereof. In the formation of house of representatives districts no county, or city and county, shall be divided, unless it contains sufficient population within itself to form two or more districts, and in the formation of senatorial districts no county, or city and county, shall be divided, nor shall a part of any county, or of any city and county, be united with any other county, or city and county, in forming any house of representatives or senatorial district. The census taken under the direction of the Congress of the United States in the year 1920, and every 10 years thereafter, shall be the basis of fixing and adjusting the legislative districts; and the Legislature shall, at its first regular session following the adoption of this section and thereafter at the first regular session following each Decennial Federal Census, adjust such districts, and reapportion the representation so as to preserve the house of representatives districts as nearly equal in population as may be; but in the formation of senatorial districts no county or city and county shall contain more than one senatorial district, and the counties of small population shall be grouped in districts of not to exceed three counties in any one senatorial district; provided, however, that should the Legislature at the first regular session following the adoption of this section or at the first regular session following any Decennial Federal Census fail to reapportion the house of representatives and senatorial districts, a Reapportionment Commission, which is hereby created, consisting of the Lieutenant Governor, who shall be chairman, and the Attorney General, State Controller, Secretary of State and State Superintendent of Public Instruction, shall forthwith apportion such districts in accordance with the provisions of this section and such apportionment of said districts shall be immediately effective the same as if the act of said Reapportionment Commission were an act of the Legislature, subject, however, to the same provisions of referendum as apply to the acts of the Legislature.

Each subsequent reapportionment shall carry out these provisions and shall be based upon the last preceding Federal Census. But in making such adjustments no persons who are not eligible to become citizens of the United States, under the Naturalization Laws, shall be counted as forming a part of the population of any district. Until such districting as herein provided for shall be made, Senators and Representatives shall be elected by the districts according to the apportionment now provided for by law.

Sixth: That Section 17 of Article IV be amended to read:

SEC. 17. The House of Representatives shall have the sole power of impeachment, and all impeachments shall be tried by the Senate. When sitting for that purpose, the Senators shall be upon oath or affirmation, and no person shall be convicted without the concurrence of two-thirds of the members elected.

Seventh: That Section 19 of Article IV be amended to read:

SEC. 19. No Senator or Representative shall, during the term for which he shall have been elected, hold or accept any office, trust, or employment under this State; provided, that this provision shall not apply to any office filled by election by the people.

Eighth: That Section 27 of Article IV be amended to read:

SEC. 27. When a congressional district shall be composed of two or more counties, it shall not be separated by any county belonging to another district. No county, or city and county, shall be divided in forming a congressional district so as to attach one portion of a county, or city and county, to another county, or city and county, except in cases where one county, or city and county, has more population than the ratio required for one or more Congressmen; but the Legislature may divide any county, or city and county, into as many congressional districts as it may be entitled to by law. Any county, or city and county, containing a population greater than the number required for one congressional district shall be formed into one or more congressional districts, according to the population thereof, and any residue, after forming such district or districts, shall be attached by compact adjoining house of representatives districts to a contiguous county or counties, and form a congressional district. In dividing a county, or city and county, into congressional districts no house of representatives district shall be divided so as to form a part of more than one congressional district, and every such congressional district shall be composed of compact contiguous house of representatives districts.

Ninth: That Section 38 be added to Article IV, to read:

SEC. 38. Whenever in this Constitution or the laws of this State "Assembly" is used, it shall be deemed to refer to the House of Representatives.

Whenever in this Constitution or the laws of this State "Assemblyman" or "Member of the Assembly" is used, it shall be deemed to refer to Representative.

Senate Constitutional Amendment No. 7

A resolution to propose to the people of the State of California an amendment to the Constitution of the State, by amending Section 1 of Article XVI thereof, relating to State indebtedness.

Resolved by the Senate, the Assembly concurring, That the Legislature of the State of California at its 1955 Regular Session, commencing on the third day of January, 1955, two-thirds of the members elected to each of the two houses of the Legislature voting therefor, hereby proposes to the people of the State of California that the Constitution of the State be amended by amending Section 1 of Article XVI thereof, to read:

SECTION 1. The Legislature shall not, in any manner create any debt or debts, liability or liabilities, which shall, singly or in the aggregate with any previous debts or liabilities, exceed the sum of three hundred thousand dollars ($300,000), except in case of war to repel invasion or suppress insurrection, unless the same shall be authorized by law for some single object or work to be distinctly specified therein which law shall provide ways and means, exclusive of loans, for the payment of the interest of such debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within 50 years of the time of the contracting thereof, and shall be irrepealable until the principal and interest thereon shall be paid and discharged, and such law may make provision for a sinking fund to pay the principal of such debt or liability to commence at a time after the incurring of such debt or liability of not more than a period of one-fourth of the time of maturity of such debt or liability; but no such law shall take effect until, at a general election, it shall have been submitted to the people and shall have received a majority of all the votes cast for and against it at such election; and all moneys raised by authority of such law shall be applied only to the specific object therein stated or to the payment of the debt thereby created. Full publicity as to matters to be voted upon by the people is afforded by the setting out of the complete text of the proposed laws, together with the arguments for and against them, in the ballot pamphlet mailed to each elector preceding the election at which they are submitted, and the only requirement for publication of such law shall be that it be set out at length in ballot pamphlets which the Secretary of State shall cause to be printed. The Legislature may, at any time after the approval of such law by the people, reduce the amount of the indebtedness authorized by the law to an amount not less than the amount contracted at the time of the reduction, or it may repeal the law if no debt shall have been contracted in pursuance thereof.

Senate Constitutional Amendment No. 11

A resolution to propose to the people of the State of California an amendment to the Constitution of the State, by adding Section 18 to Article XVI thereof, relating to the issuance of bonds or the appropriation of money to provide loans and grants to school districts of the State, and prescribing the terms and conditions under which such grants and loans to school districts shall be made and repaid.

Resolved by the Senate, the Assembly concurring, That the Legislature of the State of California, at its 1955 Regular Session, commencing on the third day of January, 1955, two-thirds of the members elected to each of the houses of the Legislature voting therefor, hereby proposes to the people of the State of California

that the Constitution of the State be amended by adding Section 18 to Article XVI thereof, to read:

SEC. 18. Bonds of the State of California shall be prepared, issued, and sold in the amount of one hundred million dollars ($100,000,000), in such denominations, to be numbered, to bear such dates, and to bear such rate of interest as shall be determined by the Legislature.

The proceeds of such bonds shall be used:

(a) Subject to such legislation as the Legislature may, from time to time, enact, to provide loans and grants to school districts of the State for use in purchasing and improving school sites, the purchasing of furniture and equipment for schools, and the planning and constructing, reconstructing, repairing, altering, and making additions to, school buildings.

(b) Subject to such legislation as the Legislature may, from time to time, enact, to provide loans and grants to school districts for assistance in providing necessary housing and equipment for the education of physically handicapped minors and mentally retarded minors as those terms are defined in Chapters 9 and 11 of Division 4 of the Education Code.

(c) To pay the expenses that may be incurred in preparing, advertising, issuing, and selling the bonds, and in administering and directing the expenditure of the moneys realized from the sale of such bonds.

The issuance, signing, countersigning, endorsing, and selling of the bonds herein provided for, and the interest coupons thereon, the place and method of payment of principal and interest thereon, the procedure for initiating, advertising and holding sales thereof, and the performance by the several state boards and state officers of their respective duties in connection therewith; and all other provisions, terms, and conditions relating to the bonds, shall be as provided by the Legislature.

The Legislature may appropriate money to be expended in addition to or in lieu of the money received from the sale of the bonds sold under the authority of this section. The money so appropriated shall be expended pursuant to subdivision (a) of this section. If the Legislature appropriates money in lieu of the money received from the sale of the bonds, the total amount of bonds required to be sold pursuant to this section shall be reduced by the amount so appropriated.

The Legislature shall pass all laws, general or special, necessary or convenient to carry into effect the provisions of this section. Such laws may provide for the allocation of funds to school districts pursuant to this section by the State Allocations Board or a similar agency and in that event, notwithstanding any other provision of this Constitution, Members of the Legislature who are required to meet with such board shall have equal rights and duties with the nonlegislative members to vote and act upon matters pending before such board.

The Legislature shall require each district receiving an allocation of money from the sale of bonds pursuant to this section for the purposes prescribed in subdivision (a) of this section to repay such money to the State on such terms and in such amounts as may be within the ability of the district to repay.

The Legislature may require each district receiving an allocation of money from the sale of bonds pursuant to this section for the purposes prescribed in subdivision (b) of this section to repay such money to the State on such terms and in such amounts as the Legislature deems proper.

The people of the State of California in adopting this section hereby declare that it is in the interests of the State and of the people thereof for the State to aid school districts of the State in providing necessary school sites and buildings for the pupils of the Public School System, such system being a matter of general concern inasmuch as the education of the children of the State is an obligation and function of the State
