REPORT OF THE ASSEMBLY STANDING COMMITTEE ON FINANCE AND INSURANCE

Concerning an Investigation of the Activities and Conduct of the Office of the Insurance Commissioner of the State of California, as Authorized and Directed by House Resolution No. 221, Adopted by the Assembly, June 18, 1949

ASSEMBLY CHAMBER, June 25, 1949

MR SPEAKER: Your committee acting under the directive of House Resolution No. 221, reports through our subcommittee as follows:

1. Although House Resolution No. 221 was introduced May 31, 1949, and reported out of the Committee on Rules, June 3, 1949, the crowded calender of the Assembly and the long debates on the Budget Bill and other matters prevented action until the resolution was adopted by the Assembly on June 18th, just seven days before today, the date specified in the resolution for filing the report.

2. We also point out that no funds were allocated by House Resolution No. 221 for conducting hearings, hiring court reporters, or transportation of witnesses. We do not however, quibble over this fact since it must at once be evident that in the short time available only the most perfunctory research and investigation could have been made.

3. A third impediment to an immediate and formal investigation exists in the possible immunity to either party in the case at issue and

before the courts should the other party be required to testify under oath as to matters touching the controversy. We have decided it best not to interpose an investigation between the parties and the court.

4. We have, therefore, appointed a subcommittee to gather together information bearing on the situation existing between the Commissioner and the Rhode Island Insurance Company. As much of this data as is deemed necessary to give a picture of the situation is here included in the following exhibits which are included and made a part of this report:

Exhibit A

Copy of Court Order

DISTRICT COURT OF THE UNITED STATES FOR THE DISTRICT OF RHODE ISLAND

RHODE ISLAND INSURANCE COMPANY, *Plaintiff*
vs.
WALLACE K. DOWNEY, both individually and as Insurance Commissioner of the State of California, *Defendant*
Civil Action No. 1008

ORDER

This cause came on to be heard on the verified complaint herein, and the Court makes the following Findings of Fact and Conclusions of Law with respect thereto:

(1) Plaintiff is a stock insurance corporation created by act of the General Assembly of the State of Rhode Island;

(2) Plaintiff owns assets and conducts an insurance business within the State and District of Rhode Island;

(3) On May 17, 1949, an order was entered *ex parte* by the Superior Court of the State of California in and for the City and County of San Francisco upon the application of the defendant appointing said defendant conservator of the business of the plaintiff and purporting to vest all right, title and interest of plaintiff's assets, wheresoever situated, in defendant as Insurance Commissioner of the State of California, and directing the defendant forthwith to take possession of all of the books, records, property, real and personal, and assets of plaintiff, wheresoever situated, and to conduct as conservator the business of plaintiff;

(4) Despite its express provisions to the contrary the aforesaid order does not legally vest in defendant title to assets outside the State of California or confer upon defendant the right to take possession of assets outside of said State of California; the provisions of the aforesaid order purporting to vest in the defendant title to assets outside the State of California, and directing the defendant to take possession of such assets is calculated to result in doubts and misunderstandings as to the right of the plaintiff to deal with its assets and business outside the State of California, to the irreparable damage of the plaintiff, and accordingly constitutes an encumbrance upon and a cloud on the title of the plaintiff to the assets of the plaintiff located outside the State of California, and

any action taken by the defendant pursuant to the directions contained in said order with respect to property outside of the State of California will constitute a cloud on the title to such property and cause immediate and irreparable damage to plaintiff, and that immediate and irreparable injury, loss and damage will result to plaintiff before notice can be served and a hearing had on plaintiff's prayer for a preliminary injunction, in that unless the aforesaid doubts and uncertainties are removed immediately and the defendant enjoined from following the directions of said decree outside the State of California, a serious and irreparable immediate interruption to the insurance business of the plaintiff may result;

(5) It further appearing to the Court that this is an action under Section 1655 of Title 28 of the United States Code to remove an encumbrance or lien or cloud upon the title to personal property within the District of Rhode Island, and that the defendant is not an inhabitant of the State or District of Rhode Island and cannot be found therein;

It is therefore ORDERED that the defendant, Wallace K. Downey, his agents and servants, be and they hereby are restrained from taking possession of or interfering in any way with the assets of any kind or nature of the plaintiff within the State and District of Rhode Island, and from interfering with the plaintiff in the conduct of its business in said State and District; it appearing to the Court that the plaintiff has given security in proper form in the sum of Ten Thousand Dollars ($10,000.) for the payment of such loss and damage as may be suffered by any party who is found to have been wrongfully enjoined or restrained.

It is further ORDERED that the defendant, Wallace K. Downey, is hereby directed to appear, plead, answer or otherwise move with respect to the complaint herein on or before the 24th day of June, 1949, or in default thereof the Court will proceed to the hearing and adjudication of this suit.

It is further ORDERED that a certified copy of this order and of the complaint herein shall be served on the said defendant on or before June 3, 1949, and that such service shall be made on said defendant by the United States Marshal, or his deputy, of the United States District Court for the Northern District of California, or by the United States Marshal, or his deputy, of the United States District Court for the Southern District of California, if said defendant is to be found in either of said Districts.

It is further ORDERED that this order expire within ten (10) days after entry unless within such time the order, for good cause shown, is extended for a like period, or unless the defendant consents that it may be extended for a longer period.

It is further ORDERED that the plaintiff's prayer for a preliminary injunction be set down for hearing on June 6, 1949, at 10:00 o'clock A.M. E.D.S.T.

Entered as the decree of Court this 26th day of May, 1949, at 5:05 P.M., E.D.S.T.

WHAT'S WRONG WITH THE CALIFORNIA INSURANCE DEPT?

California's Insurance Commissioner has too much power! In Russia the Government can and does take private property on the flimsiest of legal grounds or on no grounds at all. Here in California the Insurance Commissioner has the power of life and death over the business life of individuals, corporations, and partnerships. Wisely used the tremendous power possessed by the Commissioner *might* be all right—but used the way Commissioner *Wallace K. Downey* and his staff of legalite hair splitters use it—it is a menace to the public and the insurance business The law isn't so bad—it is the Commissioner's often ill advised INTERPRETATION of what he THINKS is the law that makes most of the trouble.

CALIFORNIA'S REPUBLICAN GOVERNOR EARL WARREN APPOINTED DOWNEY AND IT IS UP TO THE GOVERNOR TO REMOVE HIM—FAST! If the way in which the Insurance Commissioner (who acts as though ins. people are CROOKS and should be treated accordingly) operates is the Republican way of doing things, then this writer (a life long Republican) is ashamed of the party. Kangaroo courts, seizure of private property on flimsy pretexts and without the defendant having his day in court, business MURDER and cut rate competition by the State with the taxpayers may be okay in Russia (if the Russians like it) but it should not be allowed to continue in California.

Without waiting the results of a convention examination of the Rhode Island Ins Co., which started on May 2nd, and participated in by the States of Rhode Island, Pennsylvania, Florida, Indiana, New Mexico and California (whose examiner failed to arrive on time) Insurance Commissioner *Wallace K. Downey,* obtained a Superior Court order on the grounds that the company is insolvent (so *he* says) and seized its California business, assets, bank accounts, accounts receivable, etc.

In his "wisdom" the California Commissioner used as one of his excuses for what seems to have been unjustified seizure of private property, that the Rhode Island's financial condition was such as to render its continued operation hazardous to policyholders, loss claimants and creditors. Up until the time he seized it, no one in California had any complaint about the Rhode Island. It paid its obligations promptly and in full and is still doing so in all the other 34 States in which it operates.

Now, because the Commissioner has been substituted for the lawful management in California, California policyholders, agents and brokers cannot secure return premiums, lost claimants are having loss drafts returned unpaid, and over 150,000 policyholders are incurring financial loss because of having to purchase new insurance to replace Rhode Island policies.

The Calif. Ins. Dept. cannot discharge Rhode Island's obligations and it has made it impossible for the Rhode Island management to do so!

Therefore, the California Insurance Department has brought about the very situation which it was afraid might happen!

We do not question the Commissioner's honesty of purpose nor his sincerity in trying to "enforce the law," nor do we doubt his good intentions. The Road to Hell is paved with them!

The Rhode Island case is merely the culmination of a long series of unfortunate and costly mistakes by the present California Ins. Commissioner. Others we can cite, in which real courts have over-ruled Downey and his fellow gnat strainers of the Insurance Department include the National Auto & Casualty case, the Thomas V. Humphreys case and the Mal Pillsbury case.

The insurance business pays taxes of over $20 millions per year to the State of California and the head of the Insurance Department should be interested in preserving—not destroying the business that makes such revenue possible. In the case of the Rhode Island Ins. Co. Downey says it is "insolvent within the meaning of the California law" so he seizes it and makes it impossible for the company to pay off California obligations, although it continues successfully and pays all of its obligations in all the other 34 States in which it operates and everybody except Downey and his hair splitters say the company is solvent. Contrast Doubting Downey with Ins. Supt. Robert Dineen of the State of New York.

Not long ago Mr. Dineen learned that one of his home State companies, the great Preferred Accident, was in financial difficulties. Did he immediately seize it? Did he carry out legal steps to destroy it? Supt. Dineen called a meeting of the leaders of the casualty business in New York and in effect said: "Gentlemen, the Preferred Accident needs several millions of dollars in order to rehabilitate itself. It is up to you to assist us in securing this money because the collapse of one insurance company will be harmful to ALL the insurance business."

The Eastern executives agreed with the Superintendent but when they failed to display much interest in the matter Dineen secured the money from the R.F.C., down at Washington, and today the Preferred Accident is in fine shape and will soon be repaying the Government loan with interest.

California, the second largest insurance State in the union, deserves to have one of the BEST Insurance Commissioners.

THE NATIONAL UNDERWRITER, May 26, 1949

FRACTIONAL RECEIVERSHIP

The action of the California department in bringing about a receivership for the California branch of Rhode Island Ins. Co. constitutes an eccentric and unheard of departure and one that we fear contains the possibility of seeds of discord that could be menacing to the system of state supervision. We hold no brief for the Rhode Island Ins. Co. and are not undertaking here to champion its cause, but the idea that a state could or would place in receivership that portion of an insurance company's operations over which it could command jurisdiction, is shocking and depressing to contemplate. In the depression days when insurance companies were toppling over in considerable numbers, there was a mad rush to get ancillary receivers named in an endeavor to seize for the policyholders of an individual state assets that would provide more than

a pro rata recovery for assured and claimants in that state. This caused such an awkward problem that there was brought into being, through the good offices of National Assn. of Ins. Commissioners, the uniform liquidation act that was put on the statute books of most states.

That problem, however, doesn't hold a candle to the kind of a situation that could be precipitated by the course of procedure such as California has instituted here. Commissioner Downey wanted Rhode Island Ins. Co. to leave the state. We suppose he exhausted the various possibilities open to him to effect such departure and failing to persuade the company to leave the state voluntarily or to effect a revocation of license that would stand up, he took the unprecedented action of getting a court order placing the California branch of Rhode Island Ins. Co. in receivership.

This introduces a type of situation that could be paralyzing to the insurance business, and completely disruptive of state supervision. Until now, receivership has been thought of as being akin to pregnancy in that it was impossible to be a little bit that way. Mr. Downey, however, has proceeded on the theory that an insurance company can be 1/48th in receivership. What is appalling to contemplate is the possibility of retaliatory laws being invoked and companies being subjected to receivership proceedings in one state so as to get even with the state of domicile of an insurer.

From a practical standpoint, a receivership for a branch of an insurance company in a particular state is an anomaly. The only assets to be seized usually will consist of the state deposit which is usually in a token amount, premiums receivable and any local bank accounts. These would ordinarily be insufficient to cover the liabilities unless the company would be willing and could find some way to make head office funds available to the receiver of the branch.

However, the fact that the mechanics of the situation are confounding is less disturbing than the fact that such a procedure was conceivable to any state authority. There have been plenty of commissioners throughout the years that have desired and have had reason to cause the departure from their shores of foreign insurers, and time and time again this has been accomplished either with or without recourse to court action and on other occasions, foreign insurers have been able to establish their right to remain in a state.

Rhode Island Ins. Co. apparently had decided not to back down in California. The question was whether it should be permitted to remain in the state and the issue was whether its license there should be revoked. Mr. Downey, it seems to us, has said in effect that if he can't bring about the departure of a foreign company by any other means, he will resort to partition of that company and place the California branch in receivership. Granted that Mr. Downey has had a terriffic mad on for Rhode Island, we can't endorse the principle that when a commissioner's blood pressure exceeds a certain point he shall be privileged to place a portion of a foreign insurance company that is within his domain in receivership.

FOR IMMEDIATE RELEASE

FROM: RHODE ISLAND INSURANCE COMPANY
15 Westminster Street
Providence 3, Rhode Island

NEW YORK, N. Y., June 9, 1949—Wallace K. Downey, California Insurance Commissioner, was today revealed as having failed to keep his Department's pledge to participate in the quadrennial convention examination of the Rhode Island Insurance Company's books, now in progress. This disclosure was made immediately following action of the California Assembly which passed a resolution calling for a legislative investigation of the actions of Commissioner Downey in seizing assets of the Rhode Island Insurance Company.

The information was made public here today by Stewart B. Hopps, Chairman of the Insurance Company's Board of Directors, in commenting upon the controversy between the Commissioner and the Company.

"There is at present being conducted in our Philadelphia office by the National Association of Insurance Commissioners the regular four-year convention examination." Hopps continued, "One state in each of the six zones takes part. Participating are Rhode Island, our home state,

Pennsylvania for the East, Florida for the South, Indiana for the Central West, New Mexico for the Southwest and, for the Pacific Coast, California had indicated acceptance. The examination has been in progress since May 2, 1949, and Mr. Downey's examiner has so far failed to put in an appearance at the Company's offices.

"Photostatic evidence is herewith presented (attached) showing that the California Department had, prior to April 15, 1949, designated their Principal Examiner by name to report to the Executive Offices of the Company at 1409 North Broad St., Philadelphia, Pa.

"Now, why has Mr. Downey failed to keep his word and participate in the examination which will conclusively settle his vicious charges against our Company? I will answer that question. Mr. Downey knows that the convention examination will show the Company to be amply solvent. That will effectively prevent him from carrying out his plan to railroad the Company out of the State of California. Therefore, he chose not to officially know the truth and he kept his examiners home.

"There is far more involved here than just the relationship of the Rhode Island Insurance Company with the California Department of Insurance. If Mr. Downey succeeds in having his way against our Company, all other insurance companies entered in the State of California will be threatened with the same kind of heavy handed and arbitrary treatment."

Re: House Resolution No. 221

DEAR MR. GEDDES: Jack Maloney has just informed me that he discussed the above mentioned Resolution with you yesterday in Sacramento. He told me that you felt that the Committee would not have an opportunity, due to press of legislative business, to carry on this investigation and report back by next Saturday, and that you felt that the matter should be referred to the Interim Committee when the Assembly establishes it.

Mr. Maloney further stated that you had told him that the only information you had regarding the recent conservation action taken by

this Department against Rhode Island Insurance Company and Pioneer-Equitable Insurance Company of Indiana, was various statements that have been circulated to the members of the Legislature either by the Rhode Island Insurance Company or, on its behalf, by an insurance trade publication.

The activities of the Rhode Island Insurance Company have been under study by this Department for about four years, and under intensive scrutiny for about two years. Since I was unable to have the home States of these companies call a convention examination last summer, I had the California Department examine them, beginning last September. The Report of Examination by Mr. Rouble, the California Examiner, is over 270 pages long, and is quite complex. I will be glad to furnish a copy of this report to you if you wish it. It is now a public record in the Superior Court in San Francisco.

Mr. Maloney indicated that you might be interested in a resume of the proceedings and the reasons why the Department brought this conservatorship action. I am, therefore, enclosing a copy of a letter dated June 8, 1949,* that I sent to the Insurance Commissioner of each State of the United States and the District of Columbia.

The conservation proceeding is pending before the Superior Court in San Francisco. Neither Rhode Island Insurance Company nor Pioneer-Equitable Insurance Company of Indiana has filed any proceeding in that court as yet to show that any reason exists for terminating the conservatorship. Rhode Island Insurance Company did file a mandamus proceeding in the District Court of Appeal here in San Francisco seeking to have me ousted as Conservator, but that action is still pending and the court has as yet issued no decision therein.

Mr. Maloney further told me that he had informed you that I intended to attend the spring meeting of the National Association of Insurance Commissioners in Seattle, and that you had stated to him that my presence would not be required before the Committee prior to the time that the National Association meeting is completed, which will be the end of next week.

I will be glad to furnish you or the Committee with any information you may desire regarding the subject of investigation or any other pertinent subject, at any time.

Yours very truly,

WALLACE K. DOWNEY
INSURANCE COMMISSIONER

EARL WARREN
GOVERNOR

STATE OF CALIFORNIA

Office of the
INSURANCE COMMISSIONER
417 MONTGOMERY STREET
SAN FRANCISCO 4

June 8, 1949

DEAR COMMISSIONER: This letter is written to clarify a somewhat widespread misunderstanding of the basis of the action taken by the California Department against the Rhode Island Insurance Company which misunderstanding apparently has resulted from the extensive publicity given to the Company's claim of unwarranted, ill-considered and untimely action on the part of the California Commissioner.

The affairs of the Rhode Island Company have been under scrutiny of and a source of concern to the California Department for nearly four years. During 1948, I was in almost continuous contact with the Commissioners of the states most closely involved and attended many conferences with them regarding this company. During this period I had no reliable data as to the company's financial condition since the official statements of the company contained obvious defects that could not be readily reconciled. But I believe it was the consensus of opinion of the Commissioners present at the various conversations that the Rhode Island Company was in questionable financial condition and that the practices of its management with respect to intercorporate financial and reinsurance transactions presented a definite hazard. The Company had recently withdrawn under compulsion from the states of Connecticut, Minnesota, and New York. Best's publication had withdrawn its rating of the company.

As early as April 22, 1948, I urged that there be a convention examination of the Company. That suggestion was repeated in July, 1948, and again on September 2, 1948, but no action thereon was obtained. Since September, 1948, the Company has been under examination by the California Department Concurrently therewith examinations were in progress by the Rhode Island, Pennsylvania, Colorado and Indiana Departments as well as by two or three different firms of public accountants. By reason of the many controversies that existed and the absence of reliable and essential information, none of the examiners or accounting firms concerned, with the exception of the examiner from Rhode Island, would certify to a financial statement of the Company. The Rhode Island examiner produced a financial statement as of September 30, 1948, but that statement was so qualified by notes on almost every item contained therein as to make it of little help in analyzing the situation. The California examiner continued his efforts until March, 1949, but was still unable to produce a financial statement to which he cared to certify.

In October, 1948, an interim report of examination was submitted by examiners of the Rhode Island, Pennylvania, and Indiana Departments. Again, this report did not contain a financial statement but it

disclosed records of transactions which could not but cause grave concern to a regulatory official. The report of examination by the California examiner dated April 22, 1949, produced an amazing record of intracompany and intercorporate transactions which, with information theretofore received, forced me to the conclusion that the Company had been grossly mismanaged and was in a condition in which its continued operation would be hazardous to its policyholders and to the public.

It may be noted that, as early as September 10, 1948, I advised the Commissioners of Rhode Island and Pennsylvania that, pending clarification of the company's affairs, I would press my previous request made to the Company that there be a voluntary termination of writing of new business in California. I was unable to obtain such voluntary action on the part of the Rhode Island, but the Pioneer Equitable did voluntarily cease to write further business here. Thereafter, in response to the query of its officers, I urged the withdrawal of the Rhode Island Company from California.

As required by law, the Rhode Island Company, on or about March 1, 1949, filed a verified statement of its affairs as of December 31, 1948, showing a surplus to policyholders of $2,025,717.44. This statement indicated, on the basis of the Company's own financial statements, a loss of surplus of $2,830,926.83 in the three year period between December 31, 1945, and December 31, 1948, of which amount $1,369,298.76 represented a loss in 1948.

An analysis by this office of the December 31, 1948 statement of the Company and of a transaction with Pioneer Equitable Insurance Company of Indiana effective the following day resulted in our making a number of adjustments as follows:

The Company had ceded to Lloyds of London premiums aggregating $3,810,784.74 under a treaty of reinsurance providing for a commission to Rhode Island of four per cent less than the difference between the loss ratio and 100% up to a loss ratio of seventy-five per cent. Lloyds guaranteed a minimum commission of twenty-five per cent. The date of the first settlement under the Lloyds' treaty is March 31, 1950, covering the period October 31, 1948, to December 31, 1949. I was informed by an official of the Company that its 1948 statement had been set up on the basis of a commission due the Rhode Island on this reinsurance of forty-six per cent, based on an assumed prospective loss ratio of fifty per cent. Obviously, the Company may not create an asset in the form of a commission due from Lloyds upon the basis of an assumed loss ratio for a period not yet completed, since such a procedure would have the effect of taking a profit not yet realized, and the only commission asset for which it could properly take credit was the minimum commission guaranteed by the reinsurer, i.e., twenty-five per cent, and, further, since under the type of agreement involved, the reinsurer accepts no liability for losses whatsoever within normal limits of loss ratio and consequently such reinsurance cannot create the basis of a deduction from unearned premium reserves except to the extent of the guaranteed commission. The reduction in the Lloyds' commission taken in the Rhode Island statement from forty-six per cent to twenty-five per cent, results in a reduction in the Company's surplus as of December 31, 1948, of $800,264.79.

A revaluation of the securities in the Company's portfolio resulted in a decrease in the valuation thereof of $26,716.

Under date of March 21, 1949, but effective as of January 1, 1949, Rhode Island entered into an agreement with Pioneer Equitable Insurance Company of Indiana settling the various disputes theretofore existing between the two companies, under which Rhode Island reinsured and took over the entire insurance business of Pioneer. As a result of this transaction, the following adjustments were made in the Rhode Island statement:

(1) Among the considerations received by Rhode Island for the reisurance were 4 percent notes of Pioneer Equitable due in 1954 in the amount of $379,500. These notes are unsecured and are not believed to be a sound investment within the meaning of the California Insurance Code. The amount thereof was deducted as an asset not admitted and, therefore, adversely affected the surplus in the full amount thereof.

(2) In the transaction, Pioneer Equitable turned over to Rhode Island 259,213 shares of Rhode Island common capital stock of a par value of $1 per share at an agreed valuation of $1,330,000. Since a company cannot carry its own stock as an asset, the stock was considered to be retired, resulting in a decrease in assets of $1,330,000.

(3) The cession to Rhode Island of the insurance business of Pioneer Equitable resulted in automatic reinsurance by Lloyds of London of 50 percent of the total so ceded, upon which Rhode Island would become entitled to a minimum commission of 25 percent, or $183,875.

(4) The total of the obligations assumed by Rhode Island and the securities transferred by it to Pioneer Equitable exceeded the assets received by $908,066.

The effect of all of these adjustments, applied to its own statement, is to create an impairment of the Company's capital of $734.954.35, which constitutes insolvency under the California statute. This impairment was determined after surplus had been credited with an amount of $1,240,787 representing the difference between the redemption value of $1,500,000 and the par value of $259,213 of Rhode Island 5 percent preferred capital stock issued to Pioneer Equitable in accordance with the reinsurance agreement. The redemption feature of this preferred capital stock is discussed under paragraph 1 below.

Further, in determining the amount of impairment, no consideration has been given to a number of items which, upon further analysis, may further increase the impairment as follows:

1. In connection with the Pioneer Equitable transaction, Rhode Island issued to Pioneer 259,213 shares of its $1 par value preferred capital stock at an agreed valuation of $1,500,000. The agreement provided that such preferred capital stock is to be redeemed at $5.7862 per share at the rate of $75,000 redemption value every six months commencing July 1, 1949. It further provides for the impounding in the hands of a trustee of securities of the aggregate value of $1,522,130 in order to guarantee such redemption.

There appears to be ground for considering that the redemption agreement and the impounding of securities creates a liability in the amount of the total redemption price of the stock less its par

value, amounting to $1,240,787. In such case, however, the Pioneer Equitable's 4 per cent notes in the amount of $379,500, which may be used to effect such redemption and previously treated as not admitted above, would be allowed as an admitted asset. The result, therefore, would be a further impairment of $861,267.

2. The questionable value of Rhode Island's accounts receivable from Wm. Penn Fire Insurance Company, due to disputes which exist with that company.

3. The possible liability of the Rhode Island as a defendant in a number of derivative suits by stockholders of other corporations.

4. The questionable value of various accounts receivable appearing on the company's statements in substantial amounts.

In seeking an order appointing me Conservator of the Rhode Island Company in California, I alleged an impairment of capital of $734,954.35 creating insolvency under California law and the possibility of still further substantial additional impairment due to the various causes cited above and further that the Company was in a hazardous condition based not only upon the financial impairment referred to above but also by reason of the following conditions:

(1) The practice of entering into management agreements with concerns in which officers or employees of the Company, past or present, had a substantial or controlling interest.

(2) The writing of excessive amounts of insurance in comparison with the capital and surplus of the Company and then reinsuring an undue proportion of the amount so written.

(3) The reinsurance of a substantial portion of the Company's business in alien insurers, most of which are not authorized to do business in any State of the United States and whose capacity to respond to catastrophe losses and to pay losses in American currency is open to question.

(4) The possibility of cancellation of Lloyds, London, reinsurance agreement as a result of changes in the Company's underwriting policies.

(5) The handling of the business of the Company by its officers in such a manner as to cause the Company to become embroiled in disputes with others such as that with La Metropolitana Compania Nacional de Seguro, S. A., of Havana, Cuba, the Pioneer Equitable Insurance Company of Indiana, and the Wm. Penn Fire Insurance Company.

(6) The practice of the management in causing the Company to purchase the securities of other companies in which the officers of Rhode Island were interested.

(7) The investment of Rhode Island's funds in questionable securities.

(8) The existence of a number of transactions not adequately set forth in the records of the Company.

The Company's contention that my action is premature does not square with the facts of the situation, regardless of the Convention Examination now in progress. During the past two years, and particularly during last year, practically every method of meeting the situation by means other than those finally adopted was thoroughly canvassed. Suggestions that additional assets be placed in the Rhode Island, that the Company cease the writing of new business in California pending clarification of its affairs, or that the Company withdraw from California, failed to bring a favorable response.

Efforts to obtain an earlier Convention Examination were not successful. Consequently, I was obliged to examine the Company alone. The examination report when submitted forced the conclusion that the Company had been grossly mismanaged. Since the management remained essentially unchanged, there was involved a condition of hazard to which it was felt that the people of California should no longer be exposed. Until the execution of the Pioneer Equitable agreement on March 21, 1949, the extent of the loss to which the Rhode Island would be subjected in the settlement of their disputes with the Pioneer Equitable was impossible of computation.

The examination report analyzed the annual statement submitted by the Company as of December 31, 1948, and made certain substantial adjustments therein as outlined above. It likewise indicated the effect of the Pioneer Equitable settlement upon that statement. The result showed a wiping out of the Company's surplus and 73 per cent of the Company's capital with the distinct possibility that, upon further analysis, and information with respect to other existing controversies and accounts, there may be a further impairment which would result in an impairment of reserves.

In these circumstances it appeared that patience ceased to be a virtue and that the only method open to me of avoiding involving the people of this State in further loss was the action taken in conservation.

Yours very truly,

WALLACE K. DOWNEY
Insurance Commissioner

Conclusions

After considering the foregoing, your committee concludes that an unhurried investigation and a more detailed report is justified, and, since a resolution creating an interim committee authorized to investigate such matters will shortly be before the Assembly, and, anticipating favorable action in creating such committee, we recommend that the subject matter of House Resolution No. 221 be referred to it.

PRAYER

The following prayer was offered by the Chaplain, Dr. Torrance Phelps:

Infinite Wisdom: Upon this day, when taxes were levied on the colonists that precipitated the Revolution, we pray that Congress may beware of taxing our Country into exhaustion.

Taxes of wasteful duplication of inefficient agencies, taxes of pork barrel maneuvering and handouts by political log rollers who think the public exchequer is bottomless.

Taxes that eat up the investing capacity and decrease the surplus devoted to charitable and character building institutions that mould the foundations of democracy

May the people learn the peril of spending more than they earn, the peril of a nation spending beyond its resources, and the peril of that rosy optimism that Eldorado is around the corner.

May the people remember that a sound nation can not spend its way into Utopia. —AMEN.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 28, 1949

To the Assembly of the State of California
Sacramento, California

GENTLEMEN I am transmitting to you herewith a copy of a message with reference to **Assembly Bill No. 404**, entitled, "An act to add Section 21.2 to the Municipal Court Act of 1925, relating to departments of the municipal court in cities and cities and counties of the first and one-half class, including judges and attaches thereof."

This bill, with my message relative thereto, I (through my Legislative Secretary) delivered to John E. Moss, Jr., Member of the Assembly, at 10.20 o'clock p.m. on the twenty-seventh day of June, 1949, at which time your honorable body had adjourned for the day but not for the session.

Respectfully submitted,

EARL WARREN, Governor

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 27, 1949

To the Honorable Members of the Assembly
State of California, Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 404, entitled, "An act to add Section 21 2 to the Municipal Court Act of 1925, relating to departments of the municipal court in cities and cities and counties of the first and one-half class, including judges and attaches thereof."

The Presiding Judge of the Municipal Court of the City of Los Angeles has informed me that the judges of the court are unanimously opposed to this bill. He

states that there is no correlation between Assembly districts within the city and the need for divisions of the court. He advises me that the branches of this court are now open and in session throughout the entire year for the filing and trial of both civil and criminal cases with each branch having a judge presiding there full time and one or more deputy clerks and deputy marshals on a full time basis. These branches are performing full court services with the sole exception of jury trials.

The Judicial Council has recommended a veto of this bill, stating that it is not necessary inasmuch as a branch of the municipal court is being maintained in San Pedro and the bill establishes a bad precedent.

The Judiciary Committee of the Los Angeles Bar Association was polled on this bill and all the members except one, who could not be reached, opposed the measure on the ground that the branch court idea is bad and that the court should not be further decentralized Further, the presiding judge of the municipal court informs me that the measure is ambiguous and would probably not apply to any Assembly district in the City of Los Angeles inasmuch as there is no Assembly district which is more than 20 miles from the city hall. The boundary line of the Sixty-eighth Assembly District nearest to the city hall is 14 miles away. If this measure would apply to the Sixty-eighth Assembly District, it would also apply to the Sixtieth Assembly District, the boundary of which is just a few blocks south of the present West Los Angeles Division of the court

Because of these objections and the ambiguity of the bill I am returning it without my signature.

Respectfully submitted,

EARL WARREN, Governor

Assembly Bill No. 404 ordered to unfinished business file.

ANNOUNCEMENTS

Speaker Sam L. Collins announced, upon request of Senator Swing, that the final meeting of the Senate Governmental Efficiency Committee is at 11 a.m. this morning. The calendar, as set out in the Senate File, will be followed so that Members of the Assembly may anticipate about when their bills will be heard, and they will not be unnecessarily delayed.

The committee will stay in session until all bills are heard, and the cooperation of members in being present and presenting their measures will be appreciated.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 28, 1949

To the Assembly of the State of California
Sacramento, California

GENTLEMEN: I am transmitting to you herewith a copy of a message with reference to **Assembly Bill No. 20,** entitled, "An act to add Sections 159.5, 159.6, and 159.7 to the Vehicle Code, relating to motor vehicle registration."

This bill, with my message relative thereto, I (through my Legislative Secretary) delivered to John E. Moss, Jr., Member of the Assembly, at 10.20 o'clock p.m. on the twenty-seventh day of June, 1949, at which time your honorable body had adjourned for the day but not for the session.

Respectfully submitted,

EARL WARREN, Governor

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 27, 1949

To the Honorable Members of the Assembly
State of California, Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 20, entitled "An act to add Sections 159.5, 159.6, and 159.7, to the Vehicle Code, relating to motor vehicle registration."

My objections to this bill are as follows:

This bill would require the Director of Motor Vehicles to establish a system of staggered registration for all motor vehicles with the registration of motor vehicles distributed as uniformly as practical over each of 12 monthly periods. The bill does not provide for details as to how the conversion from the present plan of registration is to be accomplished, nor does it make any provision with regard to corresponding changes which would be required in the taxing provisions of our law, nor in the provisions relative to payments to counties from such fees.

I am informed that there have been no studies which would indicate the effects such a system would have, nor have there been any studies as to the means whereby the transfer could be accomplished. The Department of Motor Vehicles is just recovering from the difficulties imposed on it by the change from a manual to a machine type of operation Confusion which would result from this proposed change is impossible to foretell so long as there has been no investigation of the subject

It has been pointed out to me that only two states now use this system, both of which are comparatively small in the number of vehicles registered as compared with the registration in California. The system of staggered registrations is now in effect in Wisconsin and Missouri, and in those states it applies only to automobiles, and not to trucks, trailers, or motorcycles. In addition, in these states the registration fee is a flat fee regardless of age or the value of the vehicle, whereas such is decidedly not the case in California. In this State the total number of transactions involved in each year is approximately seven million items. The transfer from the present system to the new system would require an additional number of registration items totaling some two million transactions.

Because of the fluid nature of the population in this State 87,000 certificates and plates were returned unclaimed in 1948. The addition of 2,000,000 additional transactions to the work load in the department could not help but result in confusion and the requirement of added expense and personnel To convert more than four million vehicles to the new registration system it would be necessary either to register each vehicle twice within a year's time, or to collect a full year's fee and a pro rata share of the following year's fee. Either system immediately suggests serious obstacles.

Before a plan could be evolved to meet such difficulties, the department would be required to make a most complete study and evolve detailed plans for the transfer No provision has been made in the department budget for any such activity. Under the circumstances and until studies have been made which will produce more detailed information as to the difficulties involved, I do not believe that this bill should be approved. Inasmuch as it is not by its terms to go into effect until January 1, 1952, no harm will result if this bill does not go into effect this year Under the circumstances I am returning the bill without my approval

Respectfully submitted,

EARL WARREN, Governor

Assembly Bill No 20 ordered to unfinished business file

CONSIDERATION OF DAILY FILE

UNFINISHED BUSINESS

CONSIDERATION OF SENATE AMENDMENTS

Assembly Bill No. 1472—An act to amend Section 22 of the Bank and Corporation Franchise Tax Act, relating to the appointment of the Franchise Tax Commissioner.

The question being: Shall the Assembly concur in the following Senate amendments to Assembly Bill No. 1472?

Strike out the title of the printed bill, and insert

"An act to create the Franchise Tax Board, prescribing its powers, duties, jurisdiction, purposes, and functions and abolishing the office of Franchise Tax Commissioner."

Amendment No. 2

On page 1 of said bill, strike out lines 1 to 23, inclusive, and insert

Explanation of Votes

I voted against Mr Dunn's amendment to Senate Bill No. 1417 calling for a special election for school bonds because I believe that the bonds might be defeated at a special election. I think that moving up the election one year is not worth the gamble of defeat I am wholeheartedly in favor of the school bonds, and will urge their approval at the 1950 general election, if the special election is not called this year.

By Mr. Conrad:

House Resolution No. 249

Relative to directing the Assembly Interim Committee on Governmental Efficiency and Economy to study traffic-management procedures of the State Government and its agencies

WHEREAS, It appears that further savings could be effected by adequate state representation, through such agency, before administrative and other bodies authorized to act on rates, tariffs, traffic and related matters; and

God of Eternity: Lift Thou our thoughts this morning above the mundane and temporal to the timeless

May we dwell for a moment upon the shore of the Infinite Sea however earthbound we may be, and this moment in which we pause is the gateway into a world the senses cannot perceive.

The far sweep of the Eternal calls to us and the breath of the distant reaches of the Infinite bears us out on waves of longing to the illimitable.

Let the sea surge of the Infinite beat within us, and awaken whatever is grand, untamed, and soaring in our innermost selves.

May the tides of that Eternal Sea bear us up to the far horizon where we dwell in thought on the margin of Infinitude.—AMEN.

Every domestic and qualified foreign nonprofit corporation expressly exempted from taxation under the Bank and Corporation Franchise Tax Act shall file in the office of the Secretary of State each calendar year, commencing with the year 1950, a statement of the names of its president or other head, its secretary or clerk, and any other officers desired, and a statement of the location and address of its principal office in this State.

If any such corporation fails to file such statements on or before December 31, 1950, the Secretary of State shall forthwith mail written notice, postage prepaid, of the provisions of this section to the corporation. If the only address of the corporation disclosed by the records of the Secretary of State is the county in which the principal office in this State is located, then the notice may be mailed to the corporation in care of any officer, director, or agent whose address is disclosed by such records or in care of the last known attorney of record for the corporation according to the records of the Secretary of State. If the corporation then fails to file said statements within ninety (90) days after the mailing of such notice the corporation shall be presumed to have abandoned its corporate rights and privileges, including its corporate name, and the Secretary of State may remove the corporation from his active file and thereupon the name of such corporation shall become available for use by another corporation.

Similar notice shall be given by the Secretary of State following the end of each calendar year subsequent to 1950 to each such corporation which fails to file said statements during the preceding year except that no notice need be given to a corporation as to which the presumption of abandonment already exists. Failure to file within ninety (90) days after such notice shall create the presumption of abandonment thereinabove provided for.

The presumption of abandonment shall not affect corporate existence nor adversely affect the rights of third persons.

Any such presumption of abandonment may be overcome and the corporation restored to the active files of the Secretary of State by the filing of the statements required by this section, except that if, during the period of presumed abandonment, another corporation has adopted the same name or any name so similar as to tend to deceive, then the corporation may not file said statements and be restored to the active files until it has amended its articles of incorporation to adopt a new available name.

No fee shall be charged or collected for the filing of any statement of the names of officers or of the location and address of the principal office of a corporation pursuant to this section."

REMARKS BY MR. THOMAS RELATIVE TO ASSEMBLY BILL NO. 404

Mr. Speaker and Members of the Assembly:

Before voting on Governor Warren's veto of Assembly Bill No. 404 which provides for jury trials in the Municipal Court in San Pedro, I would be derelict in my duty as the representative of the Sixty-eighth Assembly District unless I first explained to the Members of the Assembly some facts concerning the history of this bill.

During the last five sessions of the California Legislature, the people in the Los Angeles Harbor area have sought better court services. Several years ago a judge was assigned to the Municipal Court Division in San Pedro for short periods because the judges felt it an additional expense to travel to San Pedro from Los Angeles without the payment of mileage. The Legislature adopted several bills providing for the payment of mileage which made it possible for longer assignments in San Pedro. At that time the attorneys were denied the right to argue on questions of law, and no provision was made for the filing of actions in the court in San Pedro. I was informed that this has been corrected, but the people are still denied the right to a trial by a jury in San Pedro.

The people appearing before the court must travel a distance of 25 miles to Los Angeles in order to have their case tried by a jury. This also applies to the people living in Avalon, Catalina Island, which is over 45 miles from the court in Los Angeles.

I was surprised to learn that the presiding judge of the municipal court came to Sacramento for the purpose of lobbying against Assembly Bill No. 404. He was very much concerned whether the bill would become a law and also I regret very much that the Governor disregarded the wishes of the people in San Pedro and was convinced by the same judges who serve in a judiciary capacity to veto Assembly Bill No. 404 thereby disregarding the fact that it is the function of the legislative body to enact the law. This is in violation to our structure of government which consists of three departments· Legislative, Executive and Judicial. The legislative power is vested in the Senate and the Assembly. The supreme executive power is vested in the Governor and the judicial power is vested in the courts Here is an example where the Judicial Department has influenced both the Legislative and Executive Departments of our government.

I was always under the impression that the Governor objected to lobbying. Similar instances have occurred during the last several years We have gone far afield and have permitted the interference by many judges through their influence and expression of opinions to defeat proposed legislation pending before the Legislature. We are constantly forgetting the demands of the people whom we represent and we give more credence to the opinions of judges simply because they are the ones who try the cases in accordance with the laws the Legislative Department is supposed to have enacted.

There have been 10 long years of effort on the part of the people of San Pedro to improve the administration of justice in the court of San Pedro. It has been a slow process and they have made some improvement but, nevertheless, they still demand that some provision should be made for jury trials in the Municipal Court in San Pedro without having to travel a long distance in order to exercise their right guaranteed to them by the Constitution.

I discussed this matter with the Governor and he informed me that the Judicial Council advised him that the bill was not necessary, and it established a bad precedent. It is my opinion that this argument failed because the courts, themselves, have broken precedents in their decisions.

The reason why I am requesting the Assembly to sustain the Governor's veto is because I have polled the Assembly and have found that I cannot get 54 votes to pass this measure over the Governor's veto. I

realize the significance of this matter, and I fully realize the importance of this measure, and I regret very much that we do not have the courage of our own conviction as to what is good and as to what is bad legislation. Therefore, I ask for a "NO" VOTE.

In conclusion, it is my opinion that judges oftentimes express their opinions openly for the purpose of passing or defeating certain proposed legislation rather than leaving the enactment of laws entirely up to the people and to the Senate and Assembly who are vested with this function.

Respectfully submitted,

VINCENT THOMAS

Amendment No. 7

On page 2 of said bill, after line 52, insert

"SEC. 4. Section 19601 of said code is amended to read:

19601. *The purpose of the Legislature in enacting this chapter in 1943 was to provide for the wartime emergency conditions which necessitated the employment of many mothers as a result of the 24-hour operation of wartime industries necessary for the successful outcome of World War II.*

It is hereby declared by the Legislature in enacting amendments to this chapter at the 1949 Session that such wartime emergency is rapidly disappearing so that the state support for child care centers will no longer be necessary after June 30, 1950, and that while in some communities there is still a need for child care centers, such need is a matter of local rather than state interest and therefore should be supported by the local school districts after June 30, 1950.

[The policy of the Legislature in enacting this chapter is to provide for the care of children of needy parents and other children in need of care and supervision during usual working hours and who would not otherwise receive such care because of the financial inability of the supporting parent.] As used in this chapter "parent" includes any person having legal custody of a child.

SEC. 5 Section 19613.5 of said code is amended to read:

19613.5 No state funds shall be expended for the operation of child care centers *after June 30, 1950 The unencumbered balance of any appropriation for child care centers shall revert to the General Fund July 1, 1950.* [until all available federal funds, including federal funds appropriated or which may be appropriated prior to March 1, 1946, have been expended.

No state funds shall be expended for the operation of child care centers except funds appropriated therefor from the General Fund of the State.]

SEC. 6 Section 19613.6 is added to said code, to read:

19613.6. Pursuant to Chapter 10 of Division 3, the governing board of any school district maintaining a child care center may include in its budget the amount necessary to carry out its child care center program pursuant to this chapter and the board of supervisors shall levy a school district tax necessary to raise such amount. The tax shall be in addition to any other school district tax authorized by law to be levied.

SEC. 7. The sum of six million dollars ($6,000,000) is hereby appropriated out of the General Fund to the Department of Education to be expended for the administration and support of child care centers during the 1949-1950 Fiscal Year. The department shall apportion the money directly to school districts and to the governing authorities of state institutions maintaining child care centers pursuant to Chapter 11, Division 9 of the Education Code upon the basis of demonstrated need."

Amendment No. 8

On page 3, line 9, of said bill, strike out "SEC. 4.", and insert "SEC. 8."

Amendment No. 9

On page 3, line 4, of the printed bill, as amended in the Senate on June 27, 1949, strike out "six million dollars ($6,000,000)", and insert "five million eight hundred forty-eight thousand five hundred dollars ($5,848,500)".

NOES—None.

Assembly Bill No. 707 ordered enrolled.

Explanations of Vote on Assembly Bill No. 707

I voted for Assembly Bill No. 707 in its present form since it appeared to be the only means of continuing child care centers for another year. I do not agree that child care centers should be closed on June 30, 1950, or that on that date their maintenance should be turned over to local control. I do not feel bound by Section 4 or 5 of the bill, which purports to stop state aid after June 30, 1950, and will vote for a further continuation of the program at the Budget Session in 1950.

ROBERT L CONDON

In voting "Aye" for Senate amendments to Assembly Bill No. 707, we wish to make it clear that we do not feel Section 4 to be a proper expression of legislative intent

GORDON A. FLEURY
JOHN E. MOSS, JR.

Although I voted in favor of Assembly Bill No. 707, I do not concur in the statement of legislative intent set forth in Section 4 of the bill, particularly that portion which reads "That state support for child care centers will no longer be necessary after June 30, 1950."

JULIAN BECK

I voted "Aye" on concurrence because failure to enact the bill on this day would mean discontinuation of the child care center program. Among other objections, I do not agree with the legislative intent expressed therein that "State support will no longer be necessary after June 30, 1950."

REQUEST FOR UNANIMOUS CONSENT THAT OPINION OF LEGISLATIVE COUNSEL BE PRINTED IN JOURNAL

Hon. S. L. Heisinger

POWER OF THE LEGISLATURE TO CALL A SPECIAL ELECTION—No. 8031

DEAR MR. HEISINGER: You have asked us whether or not there is a specific provision in our State Constitution which authorizes the Legislature to call a special election and if not, whether this power may be implied.

We are not aware of any provision in the Constitution which specifically authorizes the Legislature to call a special election but we are of the opinion the Legislature does have this power.

It is a fundamental principle of constitutional law that a state has general powers of legislation and that a state constitution operates as a restriction upon those general powers. In other words, a state law is presumed to be within the powers of the state legislature unless it is prohibited by the constitution of the state or the United States.

Nowhere in the Constitution of the State of California is the power to call a special election denied to the Legislature. Therefore, since the Legislature has the law making power in this State, it has such a power.

With respect to whether or not such a power could be implied Section 1 of Article XVIII of our State Constitution which relates to constitutional amendments proposed by the Legislature provides in part with respect to such constitutional amendments:

> "* * * and it shall be the duty of the Legislature to submit such proposed amendment or amendments to the people in such manner, and at such time, and after such publication as may be deemed expedient."

We are of the opinion that this provision necessarily implies a power in the Legislature to call a special election for the submission of such constitutional amendments. The case of *Hatch* vs. *Stoneman,* 66 Cal. 632, held that an act calling a special election passed by the Legislature and approved by the Governor is an appropriate method by which to specify the time and manner for the submission of a constitutional amendment or amendments.

This conclusion is strengthened by the following provision in Section 1 of Article IV:

> "* * * No act passed by the Legislature shall go into effect until 90 days after the final adjournment of the session of the Legislature which passed such act, except acts calling elections, acts providing for tax levies or appropriations for the usual current expenses of the State, and urgency measures necessary for the immediate preservation of the public peace, health or safety, passed by a two-thirds vote of all the members elected to each house."

Very truly yours,

FRED B. WOOD, Legislative Counsel

REQUEST FOR UNANIMOUS CONSENT THAT OPINION OF LEGISLATIVE COUNSEL BE PRINTED IN JOURNAL

Opinion of Legislative Counsel

(COPY)

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO 2, CALIFORNIA, June 28, 1949

Hon. George D. Collins, Jr.
Assembly Chamber

Assembly Bill No. 3180—No. 8293

DEAR MR. COLLINS: You have requested our opinion as to the constitutionality of Assembly Bill No. 3180. You call our attention to the fact that there is now a qualified initiative petition affecting Article XXV of the Constitution. You ask whether, in view of paragraphs 3 and 12 of Section 1 of Article IV, the Legislature can call a special election.

In our opinion Assembly Bill No. 3180 as introduced is constitutional.

Assembly Bill No. 3180 provides for a special election at which shall be submitted all constitutional amendments proposed by the Legislature at this session.

Section 1 of Article XVIII authorizes the Legislature to propose constitutional amendments and provides that the Legislature shall submit "such proposed amendment or amendments to the people in such manner, *and at such time,* and after such publication as may be deemed expedient."

This provision clearly gives to the Legislature the power to call a special election for the submission of constitutional amendments proposed by the Legislature.

This does not of itself affect the submission of initiative measures. The third paragraph of Section 1 of Article IV (as printed by the Assembly, 1948, which differs from the paragraphing of the section as printed in the 1948 Statutes volume where paragraphs 2 and 3 of the Assembly version appear as one paragraph) provides that initiative measures shall be submitted to the people at the general election first occurring subsequent to 130 days after presentation of the petition or at any special election called by the Governor in his discretion prior to such general election.

However, the twelfth paragraph of said Section 1 reads:

> "If for any reason any initiative or referendum measure, proposed by petition as herein provided, be not submitted at the election specified in this section, such failure shall not prevent its submission at a succeeding general election *and* no law or amendment to the Constitution, proposed by the Legislature, shall be submitted *at any election* unless at the same election there shall be submitted all measures submitted by petition of the electors, if any be so proposed, as herein provided."

We do not think the conjunctive "and" operates to tie the last clause into the first. The last clause should be read as if it were a separate sentence.

The purpose of providing for the submission of initiative measures which are already qualified at an election at which legislative measures are submitted is obviously to protect the initiative process. What the framers of Section 1 of Article IV probably visualized was a situation where the Legislature could steal a march on an initiative measure by proposing another constitutional amendment and putting it on the ballot at a special election, thus taking the wind out of the sails of the initiative.

This does not affect the power of the Governor to call a special election for submitting initiative measures, except, of course, that he would have to choose a date prior to a special election called by the Legislature for submitting legislative measures.

Reading all of the provisions together we think that it is clear that the Legislature has control of the situation where its measures only are involved, that the Governor has control when only initiative measures are involved, but that when both are involved the qualified initiative measures automatically go on the ballot when any legislative measures are submitted.

Of said sum there shall first be allocated and made available for the support of the Director of Finance, the Director of Education, and the State Controller during the Fiscal Year 1949-1950 in carrying out their duties under Chapter 1 6 of Division 3 of the Education Code, such amount as the Director of Finance may determine.

SEC. 7 This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health, and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect A statement of the facts constituting such necessity is as follows:

There are hundreds of impoverished school districts in California that do not have the financial means to provide either suitable buildings or adequate instruction. Many of those districts and other districts have had tremendous population increases as well as a disproportionate increase in the number of children of kindergarten and grammar school age. The children living in those districts are being denied their birthright of a good education. There must be equalization of educational opportunities by helping the poorer districts to render more adequate service to the children upon whom the future of the State depends. They are our future citizens, and it is clearly our duty to give them every opportunity to become useful and happy people. The need is great, and the State is under a direct obligation.

In order that the benefits arising from this measure may inure to the children of the State at the earliest possible time, it is necessary that this act take effect immediately."

MOTION TO WITHDRAW SENATE BILL NO. 132 FROM COMMITTEE

In compliance with a notice given on a previous day, Mr. Levering moved that Senate Bill No. 132 be withdrawn from the Committee on Rules, and be placed upon the file.

Demand for previous question sustained.

The roll was called, and the motion lost by the following vote:

Request for Unanimous Consent That Names Be Placed Upon Roll Call on Motion to Withdraw Senate Bill No. 132

Messrs. Brown and Dunn asked for, and were granted, unanimous consent that their names be placed upon the roll call on the motion to withdraw Senate Bill No. 132 from committee, and that they be recorded as voting "No".

Explanation of Vote

The reason I voted "No" on the withdrawal of Senate Bills Nos. 132, 208, 515, 516, 298, 130, and Senate Constitutional Amendment No. 14 by Senator Tenney was that I stated on the floor of the Assembly over two weeks ago that I was opposed to all withdrawals from the committees.

Had the bills come up for a vote on the floor in their regular form I would have voted for them.

THOMAS M. ERWIN

PLEDGE OF ALLEGIANCE TO THE FLAG

Upon request of the Speaker, the Assembly gave the pledge of allegiance to the Flag.

MOTION THAT REMARKS BY MR. LEVERING BE PRINTED IN JOURNAL

Mr. Collier moved that the remarks by Mr. Levering, relative to Senate Bill No. 132, be ordered printed in the Journal in 10-point type.

Mr. Doyle seconded the motion.

Motion carried.

REMARKS BY MR. LEVERING RELATIVE TO SENATE BILL NO. 132

Before setting forth the reasons for the withdrawal of this bill from the Committee on Rules, I wish to make a short statement:

I do not believe the Speaker or Mr. Yorty were a party to any conspiracy, nor do I believe that the Speaker pro Tempore was guilty of steamroller tactics. Any member of this House had an opportunity to debate Mr. Yorty's motion, or to ask for a roll call. If we failed to take advantage of the opportunity, it was our fault and not the fault of the Speaker or the Speaker pro Tempore.

Here are the specific reasons why I believe these bills should be withdrawn from committee: I am speaking to the four bills, but my motion to withdraw is only on Senate Bill No. 132.

1. Each of these four bills had passed the Senate committee, the Senate, and the Assembly committee to which each had been referred. They were before this House for a debate and a vote on each one—and they got neither.

2. I do not think Mr. Yorty's motion was the proper motion to make —to send all of these bills to the Committee on Rules. I do not think it was for the purpose of having a future hearing on them. Mr. Yorty was quoted as saying he sent them to Rules to *be killed.* Mr. Dickey's published quote substantiated this. If the motion had been the proper one, it would have been to send them to the respective committees which had considered them, and which had passed them out. This is the custom of this House—at least during this session.

3. Mr. Dickey, Chairman of Rules, is quoted as saying that a hearing on these bills would be granted upon the request of the author or any other interested person. I made such a request in writing last Friday and, up to the present time, I have not been notified of any hearing, or proposed hearing.

4. These bills are very controversial, and the people of California have a right to expect their elected representatives to vote for or against them, as their consciences dictate. They have this right and they are demanding just that.

5. Whether you vote on this motion to withdraw, or vote on a motion to table, or on any other kind of a motion whatsoever, relative to these bills, I believe it will be interpreted by the people as a vote for or against the bills. Remember this when you cast your vote.

6. In conclusion, let me point out that the name of every member of this House is under a shadow because of our failure to stand up and be counted on this subject. We are being called traitors and cowards because of the honest mistake we have made. You can, and should, correct this mistake by withdrawing these bills from the Rules Committee and placing them before this House for further consideration.

HAROLD K. LEVERING

MOTION THAT REMARKS BY MR. YORTY BE PRINTED IN JOURNAL

Mr. Doyle moved that the remarks by Mr. Yorty relative to Senate Bill No. 132 be ordered printed in the Journal in 10-point type

Mr. Evans seconded the motion.

Motion carried.

STATEMENT BY MR. YORTY

MR. SPEAKER: On June 6, 1949 you were kind enough to permit me to insert a statement in the Journal relative to my opinion of the so-called "Tenney Loyalty Oath Bills."

I feel highly complimented by the action of the body requesting that my remarks of June 29, 1949, relative to these bills, be printed in the Journal, but I feel that an additional statement would add nothing to what has been said already, and I, therefore, respectfully refer anyone interested to the Assembly Journal of June 6, 1949.

REQUEST FOR UNANIMOUS CONSENT THAT OPINION OF LEGISLATIVE COUNSEL BE PRINTED IN JOURNAL

Mr. Kirkwood asked for, and was granted, unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal, in 10-point type:

Honorable Robert C. Kirkwood

AID TO SCHOOLS—No. 8358

DEAR MR. KIRKWOOD: You have asked us the following question: Can the Legislature amend Senate Bill No. 1417 to provide that if a special election is called by the Governor the constitutional amendment mentioned in the bill shall be presented to the voters at that special election?

In our opinion this cannot constitutionally be done.

Section 1 of Article XVIII of the Constitution provides that the *Legislature* shall fix the manner and the time at which constitutional amendments proposed by it shall be submitted to the electors.

The proposed amendment provides in effect that the Governor will fix the time. It does this by providing that if the Governor calls a special election of the kind that can be called by the Governor, such as for submitting an initiative measure, the legislative measure referred to will also be on the ballot We think this is a surrender of the legislative power specifically imposed upon the Legislature by Section 1, Article XVIII, of the Constitution.

Very truly yours,

FRED B. WOOD, Legislative Counsel

Opinion of Legislative Counsel

Hon. Francis Dunn, Jr.
Assembly Chamber

SENATE BILL NO 1417, RE STATE SCHOOL BUILDING BONDS—No. 8239

DEAR MR. DUNN: You have advised us that amendments to the above bill have been adopted which provide for calling a special election to submit a constitutional amendment to the people providing for an issue of

bonds for school building purposes. These amendments include a section declaring that the act shall take effect immediately inasmuch as it is an act calling an election. You ask whether the bill as so amended can be passed by a majority vote or whether a two-thirds vote is required. You have also asked us to examine the other provisions of the bill as amended June 25th and to advise you what vote is required for passage.

It is our opinion that the bill as amended June 25th can be passed by a majority vote. It still may be passed by a majority vote notwithstanding the fact that as amended today it provides for calling a special election and that it shall take effect immediately.

Section 1 of Article IV of the Constitution provides in part:

> "No act passed by the Legislature shall go into effect until 90 days after the final adjournment of the session of the Legislature which passed such act, except acts calling elections, acts providing for tax levies or appropriations for the usual current expenses of the State, and urgency measures necessary for the immediate preservation of the public peace, health or safety, passed by a two-thirds vote of all the members elected to each house."

In *Roth Drug, Inc.* vs. *Johnson,* 13 Cal. App. 2d 720, the court had under consideration the Retail Sales Tax Act, which act provided that it should take effect immediately as a tax levy. The court determined that the two-thirds vote requirement of the quoted provision of the Constitution applied only to urgency measures and that the other types of acts specified therein could take effect immediately even though they were passed by only a majority vote.

It follows, therefore, that Senate Bill No. 1417 may be placed in immediate effect as an act calling an election by a majority vote.

With respect to the other provisions of the bill, the only question is whether a two-thirds vote is required for passage by reason of the provisions of Section 34a of Article IV of the Constitution.

Briefly, the bill provides for the creation of a fund to provide aid to school districts. This fund is to consist of the proceeds of a bond issue which would be authorized by a constitutional amendment if such amendment is adopted by the people. The bill prescribes the form of bonds and the procedure for issuance and sale thereof. It appropriates from the General Fund such sum annually as will be necessary to pay the principal of and the interest on the bonds issued. It also appropriates $75,000 from the General Fund for use as a Revolving Fund for the expenses of the State Treasurer in having the bonds prepared and in advertising their sale or their prior redemption. As to this Revolving Fund the money transferred thereto from the General Fund shall be returned to the General Fund when all the bonds have been sold.

Section 34a of Article IV of the Constitution provides that appropriations from the General Fund in excess of a specified formula must be passed by a two-thirds vote of all the members elected to each house of the Legislature. But these appropriations are "appropriations from the General Fund of the State for any fiscal year, *exclusive of appropriations for the support of the Public School System* * * *".

It is our opinion that the appropriation from the General Fund made by Senate Bill No. 1417 is one for the support of the Public School System and hence that it comes within the exception to the two-thirds

vote requirement in Section 34a of Article IV of the Constitution. It seems clear that the Legislature could make a direct appropriation from the General Fund by a majority vote to assist the schools in the manner contemplated by this bill and by the constitutional amendment providing for the bond issue and we believe the same logic applies to an appropriation to pay the principal and interest of such a bond issue. The Revolving Fund created for the expenses in issuing the bonds (assuming that it is in fact an appropriation and not a temporary transfer of funds) is an expenditure necessarily incidental to and an integral part of the general appropriation, all of which is for the support of the Public School System.

Very truly yours,

FRED B. WOOD, Legislative Counsel

PRAYER

The following prayer was offered by the Chaplain, Dr. Torrance Phelps:

God of Hope: In this age of peril and uncertainty, may we look forward with hope to the world-transforming principles of our Religion.

Civilizing the barbarians through long Dark Ages, instituting orderly society, and establishing the moral, civil, and benevolent institutions, the first colleges, hospitals, and democracies.

Let us remember that all efforts to emancipate womanhood, elevate the common man, and abolish poverty sprang from the teachings of the Man of Galilee, who fed the hungry and uplifted the fallen.

The vision and possibility of Universal Peace were born when the angels sang of goodwill above the Manger of Bethlehem.

Above all, when we return to our homes, may we promote in private life organizations which diffuse these principles and offer us every earthly blessing and Heavenly consolation.—AMEN.

RESOLUTIONS

The following resolutions were offered:

By Messrs. Moss and Fleury:

House Resolution No. 300

Relative to directing the Assembly Interim Committee on Governmental Efficiency and Economy to study the feasibility of closing state offices on Saturday

WHEREAS, State offices are required by law to remain open on Saturday mornings which unnecessarily increases the cost of State Government in those instances where there is not sufficient use of the office to justify it; and

WHEREAS, Some state offices have their heaviest work load on Saturday and a study should be made of those offices to determine if, in the interests of the public and the employees, there are ways of distributing the work more evenly over the other days in the week and of better scheduling the working days and hours of the employees involved; and

WHEREAS, There was legislation introduced and considered in this session of the Legislature dealing with the closing of state offices on Saturday; and

WHEREAS, Action was deferred on such legislation because of insufficient information on the various problems involved in closing some or all state offices on Saturdays and of the general effect of such legislation upon the public and the state employees; and

WHEREAS, The Legislature should consider the matter at the next regular session and therefore have full and complete information on the subject by that time; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Interim Committee on Governmental Efficiency and Economy created at this session of the Legislature is hereby authorized and directed to ascertain, study and analyze all facts

and data relating to or in any way bearing upon the subjects expressed in the recitals of this resolution, including but not limited to the operation, effect, administration, enforcement and needed revision of any and all laws and departmental policies in any way bearing thereon or relating thereto and to report thereon to the Assembly, including in its reports its recommendations for appropriate legislation or other action

Resolution read, and ordered referred to the Committee on Rules

By Mr. Maloney:

House Resolution No. 301

Relating to preprinting the proposed codes

WHEREAS, Upon the adjournment of this current session of the Legislature, the California Code Commission will continue its work of codifying the general statutory laws of this State; and

WHEREAS, It is the practice of the Code Commission to prepare preliminary drafts of proposed codes in mimeographed form for distribution to interested persons and groups for study and criticism prior to submission to the Legislature, but distribution by such means is necessarily limited; and

WHEREAS, If such proposed codes were printed they could be more widely circulated among interested persons and groups, thus enabling them to receive the careful scrutiny to which proposed legislation of such importance is entitled; now, therefore, be it

Resolved by the Assembly of the State of California, That the California Code Commission is hereby directed to prepare for printing as soon as practical after the adjournment of the 1949 Regular Session of the Legislature, such codes or portions thereof as it proposes to submit to the Legislature for consideration, and immediately upon such printing to distribute the same to all interested persons and groups; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to have not to exceed 1,500 copies of each of such proposed codes printed, the cost thereof to be payable from the legislative printing appropriation.

Resolution read, and ordered referred to the Committee on Rules.

By Mr. Kirkwood:

House Resolution No. 302

Relative to amending the Standing Rules of the Assembly with respect to vacancies in interim committees

Resolved by the Assembly of the State of California, That a new rule to be numbered 23.5 is hereby added to the Standing Rules of the Assembly to read as follows:

23.5. Committee on Education

ASSEMBLY CHAMBER, SACRAMENTO, June 30, 1949

MR. SPEAKER: Your Committee on Education, to which was referred:

A communication from the State Commission on School Districts, signed by Dr. George Geyer, Director;

Has had the same under consideration, and reports the same back with the recommendation: Be printed in the Assembly Journal.

DUNN, Chairman

Above reported communication ordered printed in the Journal.

COMMUNICATION FROM STATE COMMISSION ON SCHOOL DISTRICTS

STATE OF CALIFORNIA
COMMISSION ON SCHOOL DISTRICTS
SACRAMENTO 16, June 28, 1949

To the Assembly of the State of California

The State Commission on School Districts, created by the Legislature in 1945 through provisions of Chapter 16 of Division 2 of the Education Code, wishes to forward to your honorable body the enclosed resolution passed unanimously at the meeting of the Commission on June 18, 1949, at San Francisco. This resolution is also being transmitted this date to the Senate of the State of California

The State Commission on School Districts has expressed the hope that its resolution can receive the consideration of the Legislature.

Respectfully,

GEORGE H. GEYER, Executive Secretary

RESOLUTION of the State Commission on School Districts June 18, 1949, at San Francisco

WHEREAS, In furtherance of constitutional provisions, and of the social policy and educational idealism of the people of the State, the powers, duties, functions and activities of the State Superintendent of Public Instruction and the State Board of Education have, during the last quarter of a century, been greatly expanded and increased, and

WHEREAS, During the same period, the professional functions and activities of the county superintendency have greatly increased; and

WHEREAS, The professional functions of the county superintendency seem destined to continue to expand and increase through the delegation by the State Legislature of new duties and authorities to that office; and

WHEREAS, Partly as a result of local initiative and invention, and partly at the instance of state authority, the range and character of school district services have greatly changed and expanded, and

WHEREAS, Under pressures of local problems and burdens, school districts have come more and more to depend upon the State and the county, both for funds and for professional guidance and leadership; and

WHEREAS, Responsibility for the rendering of many types and kinds of educational services is not clearly defined by law, and

WHEREAS, Expansion and growth of educational services have been accompanied by piecemeal legislation which has created a situation involving some considerable degree of conflict of authority which can be corrected only by appropriate legislation, and

WHEREAS, The existing situation involves governmental policy which has implications for present trends in matters of educational control and administration; now therefore be it

Recommended, That the California State Legislature give serious consideration to legislation whereby the legitimate activities of the three levels of our state program of public education—state, county, and district—can be clearly delineated and defined.

It is further recommended, That either by means of a joint interim committee, or by joint action of Interim Committees on Education, of the Senate and Assembly, action be taken by the Legislature to discover and evaluate educational services at all levels of the Public School System, to fix responsibilities for such services, and to delineate and define the powers and duties of (a) the State Superintendent of Public Instruction, (b) the county superintendency, and (c) the local school district.

Consideration of Committee Amendments

The following amendments were proposed by the Committee on Education:

Amendment No. 1

In line 23 of the title of the printed bill, as amended in the Senate on June 18, 1949, before the period, insert ", declaring the urgency thereof, to take effect immediately".

Amendment No. 2

On page 1 of said bill, after line 9, insert

"SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to care for the many students of the Sacramento and outlying areas who desire to enroll in the Sacramento State College, a site for the new college should be acquired and improved at the earliest possible time.

There is a great need for increased facilities for publicly supported higher education which must be met to insure the welfare of the State and the needs of the people.

An urgency has existed and now exists in publicly supported higher education. This urgency exists by reason of the following facts: The tremendous increase in population in recent years will continue to make overwhelming demands upon the existing facilities for higher education; practically all of the publicly supported institutions of higher education of the State are greatly overcrowded and compelled to resort to unsatisfactory devices in order to care for the students who are seeking admission; large concentrations of students upon single campuses with inadequate facilities would result in the lowering of the quality of education service.

As so positively stated by Section 1 of Article IX of the Constitution of this State, a general diffusion of knowledge and intelligence is essential to the preservation of the rights and liberties of the people. The enactment of this act at the earliest possible moment, is necessary if there is to be in the future, as there has been in the past, that diffusion of knowledge and intelligence essential to the rights and liberties of the people, and it is therefore necessary that this act take effect immediately."

Amendments read, and adopted.

Bill ordered reprinted, and to third reading.

RESOLUTIONS

The following resolutions were offered:

By Mr. McMillan:

House Resolution No. 303

Relative to the package sale of alcoholic beverages on military and naval reservations

WHEREAS, Alcoholic beverages are sold and dispensed in military and naval reservations in this State, distilled spirits being sold and dispensed in officers clubs in such reservations; and

WHEREAS, The volume of sales of alcoholic beverages in packages at certain military and naval reservations in this State is reported as not confined to military personnel and that a considerable proportion of such volume of sales is indirectly made for the use of civilians rather than for use by members of the military personnel; and

WHEREAS, The diversion in such military reservation of such alcoholic beverage sales to civilian use results in loss of sales and excise tax to the State of California and further adversely affects the efforts of this State in the regulation and control of the sale of alcoholic beverages through licensed sales outlets of this State in the manner deemed best suited to the welfare of this State and the people of this State; and

WHEREAS, This problem of both state tax loss and state welfare can more readily be solved by federal legislation with respect to practices on military and naval reservations rather than by the enactment of legislation by this State; now, therefore, be it

Resolved by the Assembly of the State of California, That the responsible officers of the armed military and naval forces of the United States are urged to take such action as may be necessary to prevent civilians from indirectly and improperly obtaining alcoholic beverages sold in packages on military or naval reservations for the use of personnel of the armed forces; and be it further

Resolved, That the Congress of the United States is respectfully urged to consider and enact such legislation as may be necessary to prevent the sale in packages of alcoholic beverages to other than military personnel on any Army, Navy or Air Force reservation or base; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to send copies of this resolution to the President and Vice President of the United States, the Speaker

of the House of Representatives of the United States, to the Senators and Representatives from California in the Congress of the United States, and to the Secretary of Defense, the Secretary of the Army, the Secretary of the Navy, and the Secretary of Air.

Resolution read, and ordered referred to the Committee on Rules.

By Messrs. Hahn, Beck, Hollibaugh, Fletcher, Crichton, Thompson, Waters, Geddes, Dolwig, Maloney, Doyle, Crowley, Dunn, Evans, and McCollister:

House Resolution No. 304

Relative to commending Mr Leslie E. Claypool for his outstanding record as a distinguished member of the press

WHEREAS, Leslie E. Claypool has graced these legislative halls for the past five years; and

WHEREAS, Mr. Claypool has gained prominence as a newspaper reporter of 41 years' experience throughout the Nation; and

WHEREAS, Leslie E Claypool affectionately known to many of his readers as "L.E C.," has conscientiously reported the news of this Legislature to the people of Los Angeles through the columns of the Los Angeles Daily News, of which newspaper Mr. Claypool is the political editor; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members of this Assembly do hereby express their admiration for, and extend their congratulations to, Mr. Leslie E. Claypool for his outstanding record as a distinguished member of the press; and be it further

Resolved, That because of his many years of journalistic activities in this State, Mr. Leslie E. Claypool be hereafter known as "Uncle Leslie" by which name so many of his close friends already call him, and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to Leslie E. Claypool.

Resolution read, and ordered referred to the Committee on Rules.

Infinite Presence: How marvelous that we may pause for a moment to realize Thou art no mere empty name.

Thou dost uphold the star domed canopy of the universe and in the order of the heavenly bodies and the harmonies of earth and sky are the outlines of Eternal Thought.

How wonderful that Thou art with us when we walk alone in the darkness, and Thou art the power that fights with us in the confusion of daylight hours.

In perplexity, Thou art our hope, in sorrow, our comfort, and underlying our daily efforts are Thy Everlasting Arms.

When we are one with Thee we are more truly alive and we have another and greater life, and we rise above time into the ineffable.—AMEN.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, July 1, 1949

To the Honorable Members of the Assembly
State of California, Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 1093, entitled: "An act to amend Section 45.11 of the Unemployment Insurance Act, relating to claims for refund and authorizing civil action against the commission for recovery."

This bill would provide that suits against the State to claim a refund from the California Employment Stabilization Commission may be brought in the county seat of the county wherein the employer maintains his principal place of business. At the present time such suits may be brought in any county in which the Attorney General maintains an office. This means that such suits may be brought in Los Angeles, San Francisco or Sacramento Counties.

This measure is opposed by the Attorney General and the Employment Stabilization Commission. Both departments point out that this bill would extend to this type of tax refund action a privilege which is not extended in the case of any other action to recover a tax. In fact, Assembly Bill No. 3002, which was introduced to permit any person having a claim against the State arising out of a tax matter to bring the suit in any county, was not approved by this session of the Legislature.

The Attorney General asks for a veto of this bill pointing out that actions to recover sales and use tax, use fuel tax, or motor vehicle transportation license tax among others must be brought in one of the three cities in which the Attorney General maintains an office. He states that this authority sufficiently protects the rights and conveniences of all taxpayers. Passage of this bill would bring an unreasonable burden and expense on the State in having to defend such actions in every county of the State. The expense which this would impose on the State would constitute an unreasonable burden on State Government.

The Director of Employment reports that there is good reason to require persons suing the State to bring their actions in those counties where the State maintains its offices.

I am satisfied that if it is fair and equitable to permit this type of action to be brought in any county in the State, it would be equally fair and equitable to extend the same right to any other type of tax refund action and possibly to any other action against the State. This would of course require the employment of a much larger staff in the Attorney General's Office with a corresponding increase in state expenditures. I do not believe that this is desirable.

Under the circumstances I am returning this bill without my approval.

Respectfully submitted,

EARL WARREN, Governor

Assembly Bill No. 1093 ordered to unfinished business file.

Receipt of Assembly Bill No. 1093 Acknowledged

I acknowledge receipt this first day of July, 1949, at 8.05 o'clock p.m. of Assembly Bill No. 1093 without the Governor's signature, together with a statement of his objections thereto signed by the Governor, delivered to me personally by Beach Vasey, Legislative Secretary to the Governor.

ARTHUR A. OHNIMUS, Chief Clerk of the Assembly

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, July 1, 1949

To the Honorable Members of the Assembly
State of California, Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 1862, entitled: "An act to add Section 737.5 to the Vehicle Code, permitting certain nonresident violators to be taken immediately before a magistrate and procedure when magistrate is not available."

The obvious purpose of this bill is to permit arresting officers in those cases of minor traffic violations, where a five-day notice to appear is ordinarily given, to take

a person driving an out-of-state vehicle and who has no satisfactory evidence of a California address, immediately before a magistrate. However, the bill has several ambiguities which I cannot believe were intended.

I am advised by the Attorney General that, under its terms, a nonresident motorist would not come within the provisions of the section if he were driving a vehicle bearing California license plates. Neither would he come within the provisions of this section if he furnished some address within this State However, if a resident of this State, driving a vehicle of foreign registration, failed to furnish to the arresting officer an address within this State, he would come within the provisions of the section. The Attorney General further states that the last sentence of the section would need considerable interpretation in order to ascertain the legislative intent. There is no precise language in any section of the Vehicle Code that authorizes the continued detention of a violator "in the event a magistrate is not available at the time of the arrest." Therefore, in the event a magistrate is not available at the time of the arrest, it may be that a person arrested in accordance with the provisions of Section 737.5, because of an alleged violation of some action of the Vehicle Code (be it a misdemeanor or a felony) may be entitled to secure his immediate release while a resident of this State charged with a felony violation, or any of the violations specifically mentioned in subparagraph *d* of Section 736 and those mentioned in Section 737 would not be entitled to secure his immediate release.

I do not believe that it was intended by this bill to discriminate against resident drivers in favor of nonresident operators, nor do I believe that it was intended to provide that nonresident operators, arrested for felonies or serious offenses should be released in the event a magistrate is not immediately available, while at the same time and under the same circumstances a resident would not be released. While the purpose of the bill is not objectionable, the draftsmanship is such that under its terms, as interpreted by the Attorney General, results not desirable nor intended may be realized.

The Highway Patrol, which sponsored this legislation, advises me that if the bill has the effect as stated by the Attorney General it should not be approved. The author joins in this request.

Under the circumstances I am returning the bill without my approval.

Respectfully submitted,

EARL WARREN, Governor

STATE OF CALIFORNIA
DEPARTMENT OF CORRECTIONS, June 30, 1949

The Honorable Earl Warren
Governor of California
The Honorable Goodwin J. Knight
President of the Senate
The Honorable Sam L. Collins
Speaker of the Assembly

I have the honor to transmit herewith the attached communication addressed to the State Board of Corrections under date of June 29, 1949, by Gerald H. Hagar, Acting Chairman, the Special Crime Study Commission on Organized Crime.

Mr. Hagar sets forth the reasons why the commission is not prepared at this time to submit to the Governor and the Legislature a report on the status of the studies initiated since the submission of its Second Progress Report on March 7, 1949.

Respectfully yours,

RICHARD A. McGEE, Chairman, State Board of Corrections

(COPY)

STATE OF CALIFORNIA
SPECIAL CRIME STUDY COMMISSION ON ORGANIZED CRIME, June 29, 1949

State Board of Corrections
State Office Building No. 1
Sacramento 14, California

ATTENTION: *Honorable Richard A McGee, Chairman*

GENTLEMEN: On March 7, 1949, the Commission for the Study of Organized Crime submitted its Second Progress Report which presented the commission's investigation of the bookmaking racket and of the slot machine racket in California.

Special studies initiated since March 7, 1949, have not progressed to the point where the commission can issue a report at this time. To do so would jeopardize the current inquiries and successful completion of our studies.

As soon as practical, a report on current inquiries will be submitted by the commission.

Respectfully yours,

(SIGNED)

GERALD H. HAGAR
Acting Chairman
Commission for the Study of Organized Crime

LETTER OF TRANSMITTAL

July 1, 1949

Hon. Sam L. Collins
Speaker of the Assembly
Assembly Chamber

MR. SPEAKER AND MEMBERS OF THE ASSEMBLY:

Your Assembly Interim Committee on Governmental Efficiency and Economy, created by House Resolution No. 216 of the 1947 Regular Session, submits herewith its final report of its investigations.

Yours very truly,

A. I. STEWART, Chairman
Assembly Interim Committee on
Governmental Efficiency and Economy

FINAL REPORT

ASSEMBLY INTERIM COMMITTEE ON GOVERNMENTAL EFFICIENCY AND ECONOMY

The Assembly Interim Committee on Governmental Efficiency and Economy was created by House Resolution No. 216 of the 1947 Regular Session.

Its main activities consisted of four investigations undertaken pursuant to request of the Ways and Means Committee of the Assembly or resolutions regularly adopted by the Assembly.

The first investigation concerned the Office of the Franchise Tax Commissioner and was undertaken pursuant to a recommendation contained in the Report of the Assembly Committee on Ways and Means, printed in the Assembly Journal of March 10, 1948. The investigation of this office disclosed conditions detrimental to the welfare of the State, which are fully set forth in the partial report of this committee printed in the Assembly Journal for January 21, 1949, at pages 510 and 537.

Legislation was introduced by the chairman of your committee, with the advice and consent of a majority of the members thereof, which will go far toward removing the conditions mentioned in that report and preventing the recurrence of such conditions in this and other state agencies.

The second investigation was undertaken as the result of a request by the Assembly Committee on Ways and Means that an interim committee of the Assembly make a complete investigation of the State Personnel Board.

The committee made an extensive study and survey of the Personnel Board and engaged the services of an expert in personnel matters to assist it in its task. The results of that investigation are embodied in the partial report of the committee printed in the Assembly Journal for March 25, 1949, at pages 1390 to 1394.

A series of bills was introduced by the chairman of your committee, with the advice and consent of a majority of the members thereof, to remedy certain defects in the operation of the Civil Service Laws of the State and the administration of the Personnel Board.

In response to a request embodied in House Resolution No. 29 of the 1948 General Session, your committee appointed a subcommittee to investigate the use of state-owned automobiles and equipment for other than official purposes. Although no formal report was filed concerning this investigation, Mr. Huyck, the chairman of the subcommittee, with the assistance of the other members thereof, made a thorough study of this matter, and introduced legislation designed to correct existing conditions and to prevent further misuse of state automobiles and equipment.

Finally, in response to a request embodied in House Resolution No. 22, 1949 Regular Session, your committee conducted an investigation of "smog" and the efficiency of the governmental agencies responsible for its control. A report of this investigation was made on April 1, 1949, and a letter transmitting said report appears in the Assembly Journal for April 1, at page 1642.

Your committee feels that its investigation, and the legislation which resulted therefrom, will result in increased efficiency of operation of the state agencies involved and a consequent saving to the taxpayers of the State.

Of the moneys allocated to your committee, the sum of $13,266.52 has not been used or obligated and can now revert to the Contingent Fund of the Assembly.

DATED: July 1, 1949.

Respectfully submitted,

A. I. STEWART, Chairman

Amendment No. 3

On page 1 of said bill, strike out line 1, and insert

"SECTION 1. Section 13.6 is added to the Construction and Employment Act, to read:

Sec 13 6 In addition to other allocations to counties, any county may apply for an allocation pursuant to this act for the repair, restoration, and repair and restoration, of county roads or portions of county roads where such roads or portions thereof have been damaged or destroyed by freezing or snow, or both, subsequent to October 30, 1948.

The Legislature hereby finds and declares that there is a state interest in such projects.

The Legislature further finds and declares that, because of economic dislocations caused by the extremely severe winter of 1948-49, widespread unemployment exists in the mountain areas served by roads which have been damaged or destroyed by freezing or snow, and any project otherwise qualifying under the provisions or this section will contribute to the prevention and alleviation of unemployment.

All the provisions of this act shall be applicable to allocations made under this section, except where such provisions are by their nature inapplicable and provided that all such allocations shall be made on the basis of need and importance of the respective projects, as determined by the board, with priority being given to the projects of greatest need and greatest importance.

The provisions of this act relating to the allocation of funds among counties in specified portions are specifically found and declared to be inapplicable to allocations made under this section Not more than 20 percent of money appropriated by this act shall be expended in any one county.

Allocations under this section shall be made only from money appropriated specifically for allocations pursuant to this section and shall be in addition to all other allocations to counties provided for in this act. The State's share as made available by this act of the cost of such repair or restoration, or repair and restoration, shall not exceed one-half of the cost of completion. In the event that work on the construction of any such project has been commenced prior to making of application for an allocation under this section the State shall credit towards the county's share of the cost all amounts heretofore expended and also all amounts obligated for expenditure by the county but not yet expended.

SEC. 2. The sum of five hundred thousand dollars ($500,000) is hereby appropriated out of unappropriated money in the Postwar Unemployment and Construction Fund to be expended without regard to fiscal years for allocations made pursuant to Section 13.6 of the Construction and Employment Act.

SEC 3 This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect The facts constituting such necessity are:

During the extremely cold winter of 1948-49 much of the roads in the mountain areas of the State were seriously damaged or destroyed by excessive freezing or snow. The damage occasioned was unprecedented in the history of the State. At present these roads are in such condition that travel over them is dangerous, difficult, and in some cases impossible The county governments charged with the responsibility of maintaining these roads are without sufficient funds to make necessary repairs and restoration The economic life of these areas has been brought to a standstill and the maintenance of public peace, health and safety has been seriously impaired. In order to remedy such conditions it is necessary that this act take effect immediately."

CONSIDERATION OF DAILY FILE (RESUMED)

CONSIDERATION OF HOUSE RESOLUTION NO. 300

By Messrs. Moss and Fleury:

House Resolution No. 300

Relative to directing the Assembly Interim Committee on Governmental Efficiency and Economy to study the feasibility of closing state offices on Saturday

WHEREAS, State offices are required by law to remain open on Saturday mornings which unnecessarily increases the cost of State Government in those instances where there is not sufficient use of the office to justify it; and

WHEREAS, Some state offices have their heaviest work load on Saturday and a study should be made of those offices to determine if, in the interests of the public and the employees, there are ways of distributing the work more evenly over the other days in the week and of better scheduling the working days and hours of the employees involved; and

WHEREAS, There was legislation introduced and considered in this session of the Legislature dealing with the closing of state offices on Saturday; and

WHEREAS, Action was deferred on such legislation because of insufficient information on the various problems involved in closing some or all state offices on Saturdays and of the general effect of such legislation upon the public and the state employees; and

WHEREAS, The Legislature should consider the matter at the next regular session and therefore have full and complete information on the subject by that time, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Interim Committee on Governmental Efficiency and Economy created at this session of the Legislature is hereby authorized and directed to ascertain, study and analyze all facts and data relating to or in any way bearing upon the subjects expressed in the recitals of this resolution, including but not limited to the operation, effect, administration, enforcement and needed revision of any and all laws and departmental policies in any way bearing thereon or relating thereto and to report thereon to the Assembly, including in its reports its recommendations for appropriate legislation or other action.

Resolution read, and adopted.

CONSIDERATION OF HOUSE RESOLUTION NO. 303

By Mr. McMillan:

House Resolution No. 303

Relative to the package sale of alcoholic beverages on military and naval reservations

WHEREAS, Alcoholic beverages are sold and dispensed in military and naval reservations in this State, distilled spirits being sold and dispensed in officers clubs in such reservations; and

WHEREAS, The volume of sales of alcoholic beverages in packages at certain military and naval reservations in this State is reported as not confined to military personnel and that a considerable proportion of such volume of sales is indirectly made for the use of civilians rather than for use by members of the military personnel; and

WHEREAS, The diversion in such military reservation of such alcoholic beverage sales to civilian use results in loss of sales and excise tax to the State of California and further adversely affects the efforts of this State in the regulation and control of the sale of alcoholic beverages through licensed sales outlets of this State in the manner deemed best suited to the welfare of this State and the people of this State; and

WHEREAS, This problem of both state tax loss and state welfare can more readily be solved by federal legislation with respect to practices on military and

naval reservations rather than by the enactment of legislation by this State; now, therefore, be it

Resolved by the Assembly of the State of California, That the responsible officers of the armed military and naval forces of the United States are urged to take such action as may be necessary to prevent civilians from indirectly and improperly obtaining alcoholic beverages sold in packages on military or naval reservations for the use of personnel of the armed forces; and be it further

Resolved, That the Congress of the United States is respectfully urged to consider and enact such legislation as may be necessary to prevent the sale in packages of alcoholic beverages to other than military personnel on any Army, Navy or Air Force reservation or base; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to send copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives of the United States, to the Senators and Represenatives from California in the Congress of the United States, and to the Secretary of Defense, the Secretary of the Army, the Secretary of the Navy, and the Secretary of Air.

HIGHWAY COMMISSION RESOLUTION—1259

DEAR MR. GEDDES:

QUESTION

You have asked us for an analysis as to effect and efficiency of a resolution of the Highway Commission which prescribes certain hearing procedures in connection with the locations and relocations of freeway routes.

OPINION

We believe that the resolution of the Highway Commission which you have submitted to us is not legally binding on the commission and we also believe that the commission has no present power to bind itself in the exercise of the functions mentioned above. The commission may therefore change its policy in this matter at any time and without notice to anyone.

ANALYSIS

We have examined the statement of policy contained in the following resolution of the Highway Commission:

"WHEREAS, This Commission has carefully reviewed and considered the recommendation made to the Commission by the Statewide Highway Committee of the State Chamber of Commerce, through Neil Petree, Chairman, and Martel Wilson, Vice Chairman, of the Committee, at the meeting of this Commission on June 24, 1948, relating to procedure on location or major relocation of freeways, and

WHEREAS, The State Highway Engineer has recommended to this Commission the adoption of the procedure so recommended, and

WHEREAS, It appears to the commission that the public interest will be best served by the adoption of such procedure; now, therefore,

Be it resolved, by the California Highway Commission as follows:

1. That at the time of commencing studies or surveys for the location or major relocation of any state highway which is to be constructed as a freeway, a meeting shall be called with local officials, to which the local Press shall be invited, for the purpose of advising those interested that such studies or surveys are being commenced.

2. That the Division of Highways of the Department of Public Works determine on that location for the freeway which in its judgment will best serve the public interest and report the same to this Commission.

3 That the Division of Highways, on authorization of this Commission, give adequate public notice of the Commission's intention to consider the adoption of the location so determined and also give written notice to the City Council or Board of Supervisors, if unincorporated territory is involved, or both, of such intention. Such notice to the local legislative body or bodies shall specify that if any such legislative body considers a public hearing on the matter necessary or desirable, this Commission will hold or cause to be held such hearing if requested by any such local legislative body within thirty days after the first regular meeting of such legislative body following receipt of such written notice; or the Commission may, on its own initiative, call a public meeting or grant such hearings as it may deem necessary or desirable.

4. If any such legislative body requests such hearing, this commission shall hold or cause to be held a hearing, after due public notice of the time and place thereof, at which time and place all persons interested in the matter will be heard and all questions and objections pertaining to the matter will be answered or explained by the State Highway Engineer or members of his staff.

5. After such hearing, or after the expiration of such period of thirty (30) days, if no hearing is requested, the Commission will take action in respect to the location or relocation of such freeway.

6. The authorization referred to in Paragraph 3 of this resolution, to give public notice of the Commission's intention, shall be by specific resolution of the commission relating to each such location or major relocation In all other respects this resolution authorizes the State Highway Engineer to do such things without further resolution or order of this Commission as are necessary to comply with the above specified procedure."

The power of the commission to act in the matter to which the above resolution relates arises out of Section 75 of the Streets and Highways Code which reads as follows:

"75. [Location of highways: Allocation of moneys: Authorization of preliminary surveys.] Except as otherwise provided by law, the commission at any time and from time to time may:

(a) Select, adopt, and determine the location for state highways on routes authorized by law.

(b) Allocate, from the funds available therefor, moneys for the construction, improvement or maintenance of the various highways or portions thereof under the jurisdiction of the department. The commission may determine in each case the maximum sum of money that shall be made available therefor.

(c) Authorize preliminary surveys to determine the advisability of including in or excluding from the State Highway System any highway or portion thereof."

We doubt that a power to issue rules and regulations can be implied from the section cited above. We have found no statute vesting the Highway Commission or the Department of Public Works either expressly or impliedly with any rule-making power in connection with location or major relocation of freeway routes by the Highway Commission.

Had the Highway Commission rule making power, its declaration of policy would be a regulation within the meaning of subdivision (b) of Section 11371 of the Government Code, cited below:

> "'Regulation' means every rule, regulation, order, or standard of general application or the amendment, supplement or revision of any such rule, regulation, order or standard adopted by any state agency to implement, interpret, or make specific the law enforced or administered by it, or to govern its procedure, except one which relates only to the organization or internal management of the state agency."

A state agency must file its rules and regulations with the Secretary of State unless they come within certain exceptions which we do not believe here applicable, as provided in Section 11380 of the Government Code, cited below:

> "[Filing agency regulations and repeals: Duplicate copies: Citation of authority.] Every state agency shall:
>
> (a) File with the Secretary of State a certified copy of every regulation adopted by it except one which:
>
> (1) Establishes or fixes rates or tariffs.
>
> (2) Relates to the use of public works, including streets and highways, under the jurisdiction of any state agency when the effect of such order is indicated to the public by means of signs or signals.
>
> (3) Is directed to a specifically named person or to a group of persons and does not apply generally throughout the State.
>
> (b) File with the Secretary of State a certified copy of every order of repeal of a regulation required to be filed under subdivision (a) of this section.
>
> (c) Deliver to the Secretary of State at the time of filing a regulation or order of repeal two duplicate copies of the regulation or order of repeal together with a citation of the authority pursuant to which it or any part thereof was adopted."

Section 11421 of the Government Code provides that no regulation or its repeal, except for emergencies, shall be effective prior to 30 days from filing.

The restraints imposed by the provisions of the Government Code described above are not applicable if a state agency has no rule making power in the field in which such agency issues a declaration of policy. And we believe the Highway Commission has no rule making power with reference to its manner of selecting freeway routes.

We conclude, therefore, that the statement of policy of the Highway Commission is not binding upon the Highway Commission and that the Highway Commission has no legal power to issue a statement of policy

or regulation which will bind legally its future course of action in the exercise of the powers granted to the commission under Section 75 of the Streets and Highways Code.

The commission may therefore deviate from its statement of policy at any time without notice to anyone. The commission may, of course, in fact follow the declaration of policy at all times but it would not have to do so.

Very truly yours,

FRED B. WOOD, Legislative Counsel

Opinion of Legislative Counsel

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO 2, CALIFORNIA, July 1, 1949

Honorable Stanley T. Tomlinson
Assembly Chamber

SENATE BILL No. 718—No. 8378

DEAR MR. TOMLINSON: You have requested our opinion as to whether certain proposed amendments to this bill are germane to the bill under Assembly Rule 74 or Joint Rule 9, or both.

Senate Bill No. 718 provides that each appointive member of the Highway Commission shall receive a per diem of $15 while conducting or attending any public hearing pursuant to rule, order or regulation of the commission for purposes of state highway planning.

The bill would strike out the proposed new section and insert new Sections 70.3 and 70.5 reading as follows:

(Page 1, between lines 4-5)

"70.3. The commission in order to guarantee to every community traversed by a state highway the fullest consideration of local problems affecting the economic and cultural development of the community as relating to a proposed highway or freeway right of way or route, shall by order, rule or regulation provide for public hearings on the matters involved if requested to do so by the governing body of the municipality, area, or community, or the citizens thereof.

70.5. In enacting Sections 70, 70.1, 70.2, 70.3, and 70.4 the Legislature declares that while property taken or damaged for highway purposes is paid for to the owner under the laws of this State the only way in which those intangible property rights of the community at large may be compensated is by avoiding insofar as may be possible, the interference with the pattern of the orderly growth and economic and cultural development of the community and contemplates as justifiable the added expenditures necessary to change direction, depress or elevate highways traversing the communities of California."

Assembly Rule 74 provides that no amendment shall be in order when it relates to a different subject, is intended to accomplish a different purpose, or requires a title essentially different from the original title of the bill.

The purpose of the present bill is to provide a per diem for certain members of the commission.

The purpose of the proposed amendment is to require the commission to provide public hearings relating to certain proposed highways or freeways, and to declare a state policy of avoiding interference with the pattern of growth and development of local communities.

We believe that the amendments, therefore, are intended to accomplish a different purpose than the present bill and to that extent would violate Assembly Rule 74 if that rule is strictly construed and applied.

We do not think that the proposed amendments necessarily relate to a different subject than Assembly Rule 74 nor that an essentially different title is required. The rule is, however, stated disjunctively and if it is determined that the amendments are intended to accomplish a different purpose than the bill a ruling that the amendments violated Rule 74 would be probable.

Very truly yours,

FRED B. WOOD, Legislative Counsel

STATE OF CALIFORNIA
DEPARTMENT OF PUBLIC WORKS
SACRAMENTO, July 2, 1949
Assembly Bill No. 629

Honorable Lloyd W. Lowrey
Member of the Assembly
Assembly Chamber
Sacramento, California

DEAR MR. LOWREY: You will recall that at the time Assembly Bill No. 629 was under consideration on the floor of the Assembly you expressed concern as to whether farm implements would be prohibited from crossing freeways under the provisions of Section 3 of this bill.

As I agreed to do, the bill was amended on the Senate side to remove any possibility that the prohibition against the use of freeways by pedestrians, bicycles, etc., would result in what you feared. This was done by limiting the power to restrict the use of freeways to those freeways or portions thereof where all rights of access have been acquired.

Where the State has acquired all rights of access, there are no openings into the freeway from adjoining lands. Therefore, there would be no possibility that any person or firm could cross such a freeway from lands one side to lands on the other.

By and large, rights of access are acquired in their entirety only in urban areas where intersections are separated by structures, and pedestrian undercrossings or overcrossings are provided.

Your assistance in securing Assembly concurrence in the Senate amendments will be appreciated.

Very truly yours,

RUSSELL S. MUNRO, Attorney

COMMUNICATIONS

By Speaker Sam L. Collins:

The following communication was received, read, and ordered printed in the Journal:

SACRAMENTO, CALIFORNIA, July 1, 1949

Hon. Sam Collins, Speaker of the Assembly
State Capitol, Sacramento, California

DEAR MR. COLLINS: Some weeks ago Collier's magazine assigned Mr. Lester Velie, an associate editor of that magazine, to come to California to prepare an article on the California Legislature.

Mr. Velie interviewed me on several occasions and I understand he also interviewed a number of legislators as well as certain officers and attaches of the Legislature.

I call your attention to the enclosed copy of a letter I recently wrote to Mr. Velie concerning his forthcoming article and particularly to that paragraph in which I say I want "to make certain there will be no misunderstanding or that no wrong construction will be placed on the pictures or the text which might reflect derogatorily on the California Legislature."

This letter and the attached copy of my letter to Mr. Velie is for your information and file.

With all kind regards.

Sincerely,

ARTHUR H. SAMISH

SACRAMENTO, CALIFORNIA, June 23, 1949

Mr. Lester Velie, Associate Editor
Collier's Magazine
250 Park Avenue, New York 17, New York

DEAR LESTER: It was very nice to have your letter of June 21; to learn that you had talked with Bartley Crum, and the kind things he said about me.

It is heartening to have your evaluation of such good friends as Messrs. Neylan, McCabe and Crum. One cannot have intimate associations with such outstanding personalities without absorbing something of their philosophy of honesty of purpose.

Over my many years of experience in dealing with people, I think I have developed an ability to read character and I endeavored to give you the benefit of that experience in evaluating a number of individuals about whom you sought information. At the same time, from my conversations with you, I am convinced that you are a fair minded person who would not knowingly do anything harmful to any individual who might be the subject of interest in your writings.

That is the reason I was more than ordinarily frank with you and wanted to give you every possible help in developing your story. I also tried to be as helpful as

possible in securing photographic illustrations for the article, even to suggesting several poses which were completely informal.

Knowing me as well as you do, you can understand my wanting to make certain there will be no misunderstanding or that no wrong construction will be placed on the pictures or the text which might reflect derogatorily on the California Legislature.

It is my very earnest request that I be privileged to review the article before publication in the interest of bringing facts up to date and verifying accuracy of incidents and quotations so that there may be no misunderstanding as to wrong inferences to be drawn or false conclusions reached.

In short, I want, more than anything, to help you to be certain that your article is as honest and factual as it can be made.

It was most interesting to have your friend's report on Dick Donovan. He was here with Stan Delaplane of the Chronicle who was developing information on a series of articles dealing with lobbying The series began in that paper today. Donovan was not completely honest in discussing what he had in mind. I told him very frankly that I could not talk with him He left then and I am told the Chronicle representatives later upbraided him for his lack of frankness and honesty.

I am looking forward to being with you on my next visit to New York and continuing a friendship which has begun so auspiciously.

With all kind regards.

Sincerely,

(Signed) ARTHUR

RESOLUTIONS

The following resolution was ordered printed in the Journal by the Speaker:

By Mr. Sam L. Collins:

House Resolution No. 348

Memorializing the Congress of the United States to remove the wartime excise taxes on alcoholic beverages

WHEREAS, The wartime excise taxes were deemed necessary to provide additional revenue to prosecute the war and make certain of victory at the earliest possible moment, thereby returning our Nation to the pursuits of peace; and

WHEREAS, It was the expectation of the people of the United States that these wartime excise taxes would be removed with the cessation of hostilities; and

WHEREAS, These high excise taxes on a legitimate industry in time of peace are inequitable and have become such a burden, particularly on small businessmen, that many have found their incomes and volume of business reduced with a resultant increase in unemployment and serious economic loss to the communities where such small business firms would otherwise be an asset; and

WHEREAS, The agricultural industry of the Nation is closely allied with the alcoholic beverage industry in that it provides an ever present market for agricultural products beyond that based on direct food requirements; and

WHEREAS, The viticultural industry of California, representing upwards of 90 percent of the Nation's total vineyard acreage finds its main outlet in the production of California wines, the equal of any in the world, now in surplus supply through loss of sales because of prohibitive price added by still existing wartime excise taxes; and

WHEREAS, Excess cereal crops and hops are the main ingredient of beers and ales, the beverage of the working man and the drink of moderation, upon which continued imposition of high excise taxes is inequitably increasing the cost; and

WHEREAS, The continuation of the imposition of such wartime excise taxes is reducing the normal sale of all alcoholic beverages, distilled spirits, wine and beer, to the loss of employment, taxes and normal business; now, therefore, be it

Resolved, by the Assembly of the State of California, That the said Assembly of the Legislature hereby memorialize the Congress of the United States to enact immediately legislation to remove the wartime excise taxes from alcoholic beverages; and be it further

Resolved, That the Secretary of the Assembly transmit copies of this resolution to the President and the Vice President of the United States, to the Speaker of the House of Representatives, to the chairman and each member of the Committee on Taxation in each House of Congress, and to each Senator and Representative from the State of California in the Congress of the United States.

Assembly Constitutional Amendment No. 49

A resolution to propose to the people of the State of California an amendment to the Constitution of the State of California, by amending Sections 1, 11, and 23 and repealing Sections 11a and 13 of Article VI thereof, relating to inferior courts.

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California, at its 1949 Regular Session, commencing on the third day of January, 1949, two-thirds of all the members elected to each of the houses thereof voting in favor hereof, hereby proposes to the people of the State of California that the Constitution of said State be amended as follows.

First: That Section 1 of Article VI be amended to read:

SECTION 1. The judicial power of the State shall be vested in the Senate, sitting as a court of impeachment, in a Supreme Court, district courts of appeal, superior courts, municipal courts, and justice courts.

Second. That Section 11 of Article VI be amended to read.

SEC. 11. Each county of the State shall be divided into judicial districts in the manner to be prescribed by the Legislature; provided, however, that no incorporated city or city and county shall be divided so as to lie partly within one district and partly within another.

In each district containing a population of more than 40,000 inhabitants, as ascertained in the manner prescribed by the Legislature, and in each consolidated city and county there shall be a municipal court; in each district containing a population of 40,000 inhabitants or less, as ascertained in the manner prescribed by the Legislature, there shall be a justice court, except that the Legislature may provide that each incorporated city the boundaries of which were coextensive with those of the township two years before the effective date of this amendment and which is entirely surrounded by another incorporated city containing a population of more than 40,000 inhabitants shall constitute a judicial district in which there shall be a municipal court. For each such municipal court and justice court at least one judge, with such additional judges as may be authorized, shall be elected by the qualified electors of the district; provided, however, that the judges of the municipal courts heretofore established pursuant to general law shall continue in office during the terms for which they were elected or appointed and until their successors are elected and qualify.

The Legislature shall provide by general law for the regulation, government, procedure and jurisdiction of municipal courts and of justice courts, and shall fix by law the powers, duties and responsibilities of such courts and of the judges thereof.

Except as such matters are otherwise provided in this article, the Legislature shall prescribe the manner in which, the time at which, and the terms for which the judges, officers and attaches of municipal courts and of justice courts shall be elected or appointed, the number, qualifications and compensation of the judges, officers and attaches of municipal courts, and provide for the manner in which the number, qualifications and compensation of the judges, officers and attaches of justice courts shall be fixed

In each judicial district or consolidated city and county in which a municipal or justice court is established, and in cities and townships situated in whole or in part in such district or city and county, there shall be no other court inferior to the superior court; provided, however, that in each such district or city and county existing courts shall continue to function as presently organized until the first selection and qualification of the judge or judges of the municipal or justice court, at which time, unless otherwise provided by law, pending actions, trials and all pending business of existing courts shall be transferred to and become pending in the municipal or justice court established for the judicial district or city and county in which they are situated, and all records of such superseded courts shall be transferred to, and thereafter be and become records of said municipal or justice court.

The compensation of the justices or judges of all courts of record shall be fixed, and the payment thereof prescribed, by the Legislature.

The Legislature shall enact such general or special laws, except in the particulars otherwise specified herein, as may be necessary to carry out the provisions of this section, and all laws relating to municipal and justice courts and to judicial districts enacted by the Legislature at its 1949 Regular Session are hereby validated and made fully and completely effective.

Third. That Section 11a of Article VI be repealed.

Fourth: That Section 13 of Article VI be repealed.

Fifth: That Section 23 of Article VI be amended to read:

SEC 23. No person shall be eligible to the office of a Justice of the Supreme Court, or of a district court of appeal, or of a judge of a superior court, or of a municipal court, unless he shall have been admitted to practice before the Supreme Court of the State for a period of at least five years immediately preceding his election or appointment to such office; provided, however, that any elected judge or justice of an existing court who has served in that capacity by election or appointment for five consecutive years immediately preceding the effective date of this amendment shall be eligible to become the judge of a municipal court by which the existing court is superseded upon the establishment of said municipal court or at the first election of judges thereto and for any consecutive terms thereafter for which he may be reelected. The requirement of consecutive years of judicial service shall be deemed to have been met even though interrupted by service in the armed forces of the United States during the period of war.

All property so assessed by said board shall be subject to taxation to the same extent and in the same manner as other property.

All companies herein mentioned and their franchises, other than insurance companies and their franchises, shall be taxed in the same manner and at the same rates as mercantile, manufacturing and business corporations and their franchises are taxed pursuant to Section 16 of this article; provided, that nothing herein shall be construed to release any company mentioned in this section from the payment of any amount agreed to be paid or required by law to be paid for any special privilege or franchise granted by any political subdivision or municipality of this State; provided further, that no excise, or income tax or any other form of tax or license charge shall be levied or assessed upon or collected from the companies, or any of them, mentioned in the first paragraph of this section, in any manner or form, different from, or at a higher rate than that imposed upon or collected from mercantile, manufacturing and business corporations doing business within this State.

The Legislature shall have the power to provide for the assessment, levy and collection of taxes upon all forms of tangible personal property, all notes, debentures, shares of capital stock, bonds, solvent credits, deeds of trust, mortgages, and any legal or equitable interest therein, not exempt from taxation under the provisions of this Constitution, in such manner, and at such rates, as may be provided by law, and in pursuance of the exercise of such power the Legislature, two-thirds of all of the members elected to each of the two houses voting in favor thereof, may classify any and all kinds of personal property for the purposes of assessment and taxation in a manner and at a rate or rates in proportion to value different from any other property in this State subject to taxation and may exempt entirely from taxation any or all forms, types or classes of personal property.

The total tax imposed on notes, debentures, shares of capital stock, bonds, solvent credits, deeds of trust, mortgages and any legal or equitable interest therein in pursuance of the provisions of this section shall not be at a rate in excess of four-tenths of 1 percent of the actual value of such property and no tax burden shall be imposed upon any personal property either tangible or intangible which shall exceed the tax burden on real property in the same taxing jurisdiction in proportion to the actual value of such property.

The word "companies" as used in this section shall include persons, partnerships, joint stock associations, companies and corporations.

Nothing herein contained shall be construed to subject to assessment and taxation property which is exempt from taxation under other provisions of this Constitution.

(b) An annual tax is hereby imposed on each insurer doing business in this State on the base, at the rates, and subject to the deductions from the tax hereinafter specified.

(c) In the case of an insurer not transacting title insurance in this State, the "basis of the annual tax" is, in respect to each year, the amount of gross premiums, less return premiums, received in such year by such insurer upon its business done in this State, other than premiums received for reinsurance and for ocean marine insurance.

In the case of an insurer transacting title insurance in this State, the "basis of the annual tax" is, in respect to each year, all income upon business done in this State, except:

(1) Interest and dividends.
(2) Rents from real property.
(3) Profits from the sale or other disposition of investments.
(4) Income from investments.

"Investments" as used in this subdivision (d) includes property acquired by such insurer in the settlement or adjustment of claims against it but excludes investments in title plants and title records Income derived directly or indirectly from the use of title plants and title records is included in the basis of the annual tax.

In the case of an insurer transacting title insurance in this State which has a trust department and does a trust business under the banking laws of this State, there shall be excluded from the basis of the annual tax imposed by this section, the income of, and from the assets of, such trust department and such trust business, if such income is taxed by this State or included in the measure of any tax imposed by this State.

(d) The rate of tax to be applied to the basis of the annual tax in respect to each year is 2.35 percent.

(e) Each insurer shall have the right to deduct from the annual tax imposed by this section upon such insurer in respect to a particular year the amount of real estate taxes paid by it, in that year, before, or within 30 days after, becoming delinquent, on real property owned by it at the time of payment, and in which was located, in that year, its home office or principal office in this State. Such real property may consist of one building or of two or more adjacent buildings in which such an office is located, the land on which they stand, and so much of the adjacent land as may be required for the convenient use and occupation thereof

Where as a result of merger, consolidation, or other method of acquisition of substantially all of the assets of one or more insurers by another insurer, effected prior to January 1, 1939, an insurer owns more than one parcel of real property in this State in which was located a home office or principal office of an insurer immediately prior to such acquisition, the owner shall designate one of such properties as its home or principal office Real estate taxes paid by it in any of the years 1943 to 1952, inclusive, before or within 30 days after, becoming delinquent, on such property owned by it at the time of payment and not so designated may also be deducted from the annual tax imposed by this section in respect to such year and are included within the deduction provided for in this subdivision.

(f) The tax imposed on insurers by this section is in lieu of all other taxes and licenses, state, county, and municipal, upon such insurers and their property, except:

(1) Taxes upon their real estate.

(2) That an insurer transacting title insurance in this State which has a trust department or does a trust business under the banking laws of this State is subject to taxation with respect to such trust department or trust business to the same extent and in the same manner as trust companies and the trust departments of banks doing business in this State.

(3) When by the laws of any other state or country any taxes, fines, penalties, licenses, fees, deposits of money or securities or other obligations or prohibitions are imposed on insurers of this State doing business in such other state or country, or upon their agents therein, in excess of those imposed upon insurers of such other state or country or upon their agents therein, so long as such laws continue in force, the same obligations and prohibitions of whatsoever kind may be imposed by the Legislature upon insurers of such other state or country doing business in this State, or upon their agents herein.

(4) The tax on ocean marine insurance

(g) Every insurer transacting the business of ocean marine insurance in this State shall annually pay to the State a tax measured by that proportion of the underwriting profit of such insurer from such insurance written in the United States, which the gross premiums of the insurer from such insurance written in this State bear to the gross premiums of the insurer from such insurance written within the United States, at the rate of 5 percentum which tax shall be in lieu of all other taxes and licenses, state, county and municipal, upon such insurer, except taxes upon real estate, and such other taxes as may be assessed or levied against such insurer on account of any other class of insurance written by it. Deductions from the annual tax pursuant to subdivision (e) cannot be made from the ocean marine tax. The Legislature shall define the terms "ocean marine insurance" and "underwriting profit," and shall provide for the assessment, levy, collection and enforcement of the ocean marine tax.

(h) The taxes provided for by this section shall be assessed by the State Board of Equalization.

(i) The Legislature, two-thirds of all the members elected to each of the two houses voting in favor thereof, may by law change the rate or rates of taxes herein imposed upon insurers.

(j) This section is not intended to and does not change the law as it has previously existed with respect to the meaning of the words "gross premiums, less return premiums, received" as used in this section or as used in Section 14 or 14¾ of this article.

Fourth. That Section 18 be added to Article XIII, to read:

SEC. 18. The repeal or deletion of any provision of this article, regardless of when effected, shall not affect the collectibility of any tax assessed pursuant to such provisions while such provision was in effect.

FINAL REPORT OF THE ASSEMBLY INTERIM COMMITTEE ON CRIME AND CORRECTIONS

Letter of Transmittal

July 2, 1949

To the Speaker and Members of the Assembly

GENTLEMEN: On behalf of this committee, recreated by House Resolutions Nos. 164 of the 1947 Session, and 16, 36, and 116 of the 1949 Session, we are happy to submit our further report.

This report will deal to a large extent with the work of this committee, extending back to its inception four years ago.

The members of this committee, during this period, have visited many penal institutions of the State, as well as those of the Youth Authority. Our contacts with these institutions have resulted in the acquisition of a vast amount of information concerning the inmates, the personnel, and the plants.

It is only natural that the members of the committee, having put in so much time trying to understand the problems of handling adult and youthful offenders, and trying to understand some of the age-old reasons for crime, should have some out-of-the-ordinary knowledge of these subjects.

Those of us who were Members of the Legislature when the present Youth Authority was set up have had a keen interest in its success over the years. In presenting the material on this subject in this report, we have attempted to give you a brief resume of the work the committee has done in its observation of its activities.

During the past four years we have collected data on the subject of probation from numerous authorities, as well as from the voluminous literature on the subject. We have endeavored to present an understandable outline of this subject to you, in the sincere belief that minimum standards will net immediate returns to the citizens of the State. To convince the counties, however, may prove to be a difficult task, and a great deal of work may be necessary to effectuate this worthy approach to a modern and workable concept.

Your committee has worked constantly to improve not only a workable liaison with the law enforcement and custodial authorities throughout the State, but to strive for improvement within its institutions. The setting up of an entirely new Medical Department within our State Department of Corrections is something of which this committee is very proud.

Your committee is happy to report that its relations with most of the department heads and personnel has been on the most courteous basis.

While this is the final report of this committee, its work will be continued under authority of House Resolution No. 243, adopted at this session of the Legislature.

Respectfully submitted,

The Youth Authority

HISTORICAL BACKGROUND

Your Committee on Crime and Corrections, during the past four years, has devoted a great deal of its time in observing the working of the Youth Authority. We have visited all of the detention facilities and during the past few months have observed a very marked improvement in some of the operations. Probably what has happened is that the Authority, having gone through five years of organization, has about completed the setup and is settling down to sound operation.

The Youth Authority assumed responsibility for operation of the State's correctional schools in August, 1943. The shift of that responsibility from the Department of Institutions, now Mental Hygiene, to the Youth Authority, was made upon the recommendation of the Members of the Legislature, who had investigated the problem incident to the three schools then in operation.

Although the Youth Authority was created in 1941, the first two years of its operation were mainly in the fields of observation, planning, and preparation of recommendations. The Youth Authority had been asked by the then Director of Institutions to act in an advisory-consultant capacity, together in the operation of both the Fred C. Nelles School for Boys, and the Ventura School for Girls. The Authority was thus in a position to make valuable suggestions to the Members of the Legislature, who wrote the amendments to the act, and guided these amendments through the Senate and the Assembly. In this work the Members of the Legislature were assisted also by a number of lay clubs and individuals who were interested in youth welfare.

The total bed capacity of the three correctional schools in 1943 was approximately 1,150. There had been little increase in the schools' capacity during the 20 years preceding, although the state population had nearly doubled, and hundreds of boys and girls were being held in jails and detention homes under unfavorable conditions, awaiting transfer to state facilities.

The Legislature charged the Youth Authority with the responsibility of securing additional facilities to meet that crisis.

The following accomplishments were made by the Youth Authority under war and postwar conditions of scarcity of material and dearth of trained personnel.

REORGANIZATION OF THE CORRECTIONAL SCHOOLS

One of the first steps taken by the Youth Authority was an extensive reorganization of the three existing correctional schools, and this reorganization was carried out for two principal purposes: First, to alleviate the pressure from the counties for assignment of boys and girls to state facilities, and the second, to reflect the new concept of treatment inherent within the Youth Authority Act. This reorganization was accomplished through:

(a) An intensive analysis of needs:

(b) A critical analysis and alteration of existing programs of custody and training;

(c) An inter-change or transfer of superintendents;

(d) The employment of new personnel;

(e) Intensive staff and service training programs;

(f) The renovation of physical plants.

EDUCATIONAL DEFICIENCIES OF WARDS

Careful analysis revealed that most of the wards in the state correctional schools were educationally retarded, and in need of extensive and intensive remedial teaching, particularly in fundamental reading, writing, arithmetic, and language usage. From consultation with the State Department of Education, from the literature of the field, and from actual on-the-job experience, it became very apparent that this remedial work must be on a highly individualized basis, and in class groups of limited numbers.

REMEDIAL TEACHING

Many members of the teaching staff lacked the necessary abilities for this special type of teaching program They have no training in evaluation of achievement tests, nor have they the ability to translate such tests into a teaching program. This was not surprising. A similar situation existed in the public schools. Remedial teaching of delinquent children is still in its experimental stage. In fact, it was necessary that the State Department of Education establish a separate section for this work.

In view of the lack of trained personnel, it was necessary to work out a project type program, where each youngster made a contribution to the extent of his ability; where each was given supplies and materials within his capacity to handle; and in which techniques of individual remedial treatment were as closely integrated as staff capabilities would allow. This approach has worked fairly well and adjustments are being made as staff training increases.

By legislative action with the Authority, teachers were allowed sabbatical leave to attend special training institutes. (Assembly bills authored by your committee member and now in Senate Finance would

place teachers in custodial schools on same leave privileges as teachers in the public schools generally.) In cooperation with the State Department of Education, San Francisco State College has set up a workshop for training teachers in the techniques and methods of handling exceptional children. Many of the Youth Authority's teaching staff have attended these workshops and have benefited greatly from the instruction received therein.

CONSTRUCTION OF SCHOOLS AND CAMPS

Calaveras Big Trees Camp

The careful analysis of the areas of need referred to above revealed that the largest group involved was composed of boys between the ages of 16 and 20. In cooperation with the State Park Commission, 50 boys of this age were transferred from county jails in 1943 to the Calaveras Big Trees Park where, under the supervision of skilled tradesmen, they built a camp of 100-boy capacity. Portable buildings from Benicia State Guard Camp were dismantled and transported to the park The establishment of this camp was expedient and temporary in nature, but did relieve some of the pressure in county jails and detention homes

Benicia Arsenal and Stockton Ordnance Depot

In 1944, the Youth Authority entered into a contract with the Military for the establishment of two camps, one at Benicia Arsenal, and the other at the Stockton Ordnance Depot, each with a boy population of 150. Boys of the same age group as those who had attended the Calaveras Camp were taken directly from county jails. Camp staffs were recruited and, under joint supervision by the Military and Youth Authority personnel, the boys entered into the war-time programs of necessary and vital activity, working alongside of civilian personnel. The boys were paid the going rate of pay with costs for support being taken out of their earnings, leaving them an average of from fifty to sixty dollars per month for their trust funds. The end of the war, of course, brought an end of the operation of these camps.

Fricot Ranch School for Boys

The next largest group consisted of boys between the ages of 8 to 15. These boys were too young to be placed in work projects Development of extensive formal schools was out of the question, due to the lack of building materials and equipment. Early in 1944 the Youth Authority leased the Desire Fricot estate of 1,090 acres, situated 11 miles from San Andreas. Again, old State Guard camp and prison barracks were dismantled and these were taken to Fricot; and reassembled for use as dormitories and dining and mess halls. The old Fricot residence served as an administration building and as living quarters for part of the camp personnel. The first boys arrived at Fricot on July 7, 1944, and by the fall of 1945 the school had a full complement of staff and the population of the boys was at the 100 capacity. In 1946, the property was purchased at a very favorable price A simple, informal-type camp school program is carried on at Fricot. A remedial education program is the basis of the boys' training. The activity program of the school is centered around small maintenance tasks; these are made as interesting and purposeful as possible. Located as it is, the school has many of the advantages obtained in the Youth Authority forestry camps.

Los Guilucos School for Girls

The third need was for a school for younger girls, where limited school work and a home-type training could be given. The Youth Authority was fortunate in finding available, in the summer of 1943, the property and buildings near Santa Rosa which had formerly been used as a Knights of Pythias Old Peoples' Home. Boy wards were brought from the Preston School of Industry and Calaveras Camps to do the ground policing and renovating work on the buildings that was necessary before the school could be occupied. The first 20 girls arrived at the school in November of 1943. These were younger girls transferred from Ventura. By the fall of 1944, a sufficient staff had been recruited so that 100 younger girls were being given treatment and training. In the spring of 1948, through the alteration of the basement of one of the two dormitory buildings which were already on the property, the capacity of the school was stepped up to 115 girls.

Forestry Camps for Boys

The end of the war meant the end of the Army Camps. Through agreement with the Department of Natural Resources, the Youth Authority began the construction of Forestry Camps for boys. By 1947, four of these camps were in operation. They are located at Whitmore, Ben Lomond, Pine Grove, and Coarse Gold, each with a population capacity of from 50 to 60 boys. In these camps the boys are employed on a full time program of forestry work, such as construction of roads, reforestation, blister rust control, fire fighting, maintenance of equipment, and the manufacture of lumber and shingles. The types of boys sent to the Forestry Camps are those in the older age groups, whom the Youth Authority believes either do not require or do not benefit from the more formal educational program of the Preston School of Industry, or the California Vocational Institution. The Forestry Camps also are used as an intermediate step between release from those two schools and parole.

Vocational School for Older Youth

In 1945, the Legislature authorized the Director of Corrections to construct a medium secondary facility for the training and treatment of mature youths who were in need of correctional supervision and vocational training of a more terminal nature than that offered by the program of the Preston School of Industry, yet who were neither sufficiently mature nor offered adjustment problems of such a serious nature as to indicate commitment to San Quentin. Pending a permanent construction, a temporary facility was established at Lancaster in 1947. Under agreement between the Director of the Youth Authority and the Director of Corrections, certain older Youth Authority wards are assigned to the California Vocational Institution. On June 30, 1948, out of a total population of 475, all but seven were Youth Authority wards.

Paso Robles School for Boys

With the establishment of the schools and camps mentioned above, the only gap in the series of training centers for boys was a school for an intermediate age group, those too immature for Preston or Lancaster, and yet too old for Nelles or Fricot. After considerable search for a suitable site, the Youth Authority chose a surplus Army air base on the Estrella

Plain, near Paso Robles. This site was leased in April, 1947, and later purchased, on an additional discount, for $5,800. The property consists of 200 acres and, at time of purchase, had on it some 40 barracks buildings. The area contained a complete sewage disposal plant and a good water system. The first boys arrived at Paso Robles on September 30, 1947, and by the spring of 1948 a full complement of staff had been recruited, and population of the school established at 110 boys. Plans were completed by the summer of 1948 for an increase of population for the next fiscal year to 135 boys. Construction of permanent buildings is expected to start in the fall of 1949.

MEDICAL SERVICES PROVIDED

With the establishment of Paso Robles, Fricot, Los Guillucos, the camps, and the California Vocational Institution to supplement the program of the older schools, Preston, Nelles, and Ventura, the pattern for facilities for individualizing training to meet the needs of various types and ages of youth began to take shape. It became possible to gear the total state retaining program into the basic philosophy of the Youth Authority. A sick, ailing, deformed, or defective body is likely to result in warped thinking and delinquent behavior reaction. Knowing this, the Youth Authority took early steps to augment medical services in its schools and camps. Preston now has a well-equipped hospital staffed by competent physicians, a dentist, a laboratory technician, and full time nursing service. Physical examinations are given to all wards entering the clinic, and corrective surgery is given to wards in the Camps, Fricot, and Paso Robles, as well as at Preston itself. The Fred C. Nelles School also has a well-equipped hospital, a full-time physician, a surgery nurse and graduate nurse, a part-time dentist, and a part-time eye, ear, nose, and throat specialist.

The schools for girls receive medical service under contractual service with physicians in the nearby communities. Full-time nurses are on the staff of both of these schools.

THE FOOD PROGRAM

The correctional school food control plan in use in 1943 had been established 10 years previously. War-time shortages and rationing programs necessitated immediate revision and the services of a nutrition consultant initially from the State Department of Health. In 1944, the position of Food Administrator was established within the Division of Training and Treatment. New schedules for rations and operation procedures were established. Basic menus were set up, assuring adequate, suitable, and palatable food, for all of the schools and camps. In cooperation with the Farm Advisor from the Department of Finance, the Food Administrator reviews the farm or garden production at each school, to insure balance between production and needs.

THE RENOVATION PROGRAM

The Youth Authority found the physical plants, existing at the time in the correctional facilities, badly in need of repair. A broad program of renovation was developed by the Youth Authority staff manager, working cooperatively with the Division of Architecture. At the same time a comprehensive scheme of maintenance was worked out. During the period

from 1943 to 1948, approximately $650,000 of deferred maintenance funds were allocated to bring the physical structures all over the correctional schools up toward an economic standard.

INITIAL DIAGNOSIS AND CLASSIFICATION SERVICE

Initial diagnosis and classification service is one of the strongest links in the Youth Authority program of rehabilitation. During 1943 and 1944, initial clinical diagnosis was being done with a small percentage of Youth Authority wards. In 1945, one of the schools at Preston was set aside for clinic usage and a program of diagnosis, and clinical services began to emerge in a rather complete pattern. Initial psychological services for the two schools of girls are being given a full-time psychologist at each facility.

While money was appropriated for construction of a clinic in the North, and another in the South, the Youth Authority has experienced extreme difficulty in securing sites, and up to the end of 1948 had not been successful in finding locations that might be approved by the Department of Finance and the Public Works Board. It is expected that these sites will be found in 1949 and with the cooperation of the Division of Architecture it is hoped that construction of the two clinics will begin during this year.

PAROLE AND PLACEMENT SERVICES

At the time the operation of the correctional schools was shifted from the Department of Institutions to the Youth Authority, parole services of the three schools were operating independently, with consequent duplication in travel by school parole officer staff and lack of integration of the entire service.

Reorganization of the Services

In the reorganization of the parole and placement service, the first steps taken by the Youth Authority were the centralization of supervision and the assignment of parole case load on a lighter basis. Case loads were reduced from as high as 175 per officer to a standard of 80 cases. Parole case files were centralized in the Sacramento office. Survey of the total parole case load revealed a discrepancy of approximately 1,000 cases in the records. Criteria were established for the Division of Parole case load into active and inactive cases. Supervising parole officers were appointed and the staff was assigned to go for instruction and guidance.

Demands for Assistance in Youth Service and Delinquency Prevention Programs

Throughout the period covered by this report, the field staff of the Youth Authority was besieged with requests from committees of the State for assistance in their Youth Service and delinquency prevention programs. In this service the guiding principle at all times has been that the Youth Authority serve in an advisory and consultive capacity; all action must be on the local level and taken by the counties and cities. It is there that the problems arise and there that they have been and must continue to be, solved.

Responsibility for State Probation Supervision

In 1943 the Legislature also shifted responsibility for state probation supervision from the Department of Social Welfare to the Youth

Authority. The first step taken in discharge of that responsibility was the development of statistical reporting on probation by the counties of the State. Later, the Youth Authority embarked upon a broad program of assistance to the counties in improving their probation services. The media used were consultation service to the probation departments and courts, the development of standard forms, issuance of publications, the initiation of the Interstate Compact, and the Forestry Camp Subsidy. Present plans provide for the establishment of programs for in-service training, personnel recruitment, and improved personnel practices.

CALIFORNIA ADVISORS' COMMITTEE ON DETENTION HOME PROBLEMS

As a result of the swollen population during the early war period, the detention facilities of the State were crowded beyond capacity and many youths were being held for long periods of time in juvenile "tanks" in the jails of the State. At the suggestion of the Director of the Youth Authority, the California Advisors' Committee on Detention Home Problems was organized early in 1945. Under a grant from the Rosenberg Foundation, a comprehensive survey was made of the problems of juvenile detention within the State and a set of plans for detention home construction, operation, and management was formulated. In addition, a detention consultant was added to the staff of the Youth Authority. During the period covered by this report, over 20 counties have been given special assistance in their building plans for juvenile halls.

FORESTRY CAMPS

The Legislature in 1945, made possible a program of subsidy by the State of county-operated forestry camps, for youths who might otherwise be committed to the Youth Authority. These camps are considered an extension of juvenile hall programs of treatment and retraining of youths, in whom patterns of delinquency are not so rigid as to require the more lengthy and formalized treatment offered by the Youth Authority facilities. This program has proved highly successful. At the present time, there are 12 such camps for boys and one school for girls receiving subsidy. The camps are operated in conformance with the minimum standards established by the State.

YOUTH PROBLEM CONFERENCES AND WORKSHOPS

During the period from August, 1943, to December, 1948, the Youth Authority co-sponsored a total of 48 conferences, with workshop, on various versions of youth problems. Approximately 12,000 persons, all leaders in various services to youth throughout the State, attended those conferences. The workshops gave community leaders concrete techniques and methods for dealing with youth problems and they are developing and carrying on community-wide preventive programs and continuous recruitment of volunteer workers. From June of 1944, when the first conference of its kind in the country was held, until 1948, the Youth Authority sponsored a total of 20 meetings of youth groups, with a total attendance of 1,170 young persons and their adult advisors Out of these conferences of youth leaders came a stimulation for organization of a large number of teen-age centers.

STATE-WIDE SURVEYS AND STUDIES OF YOUTH-SERVING AGENCIES

At the request of governmental agencies, such as county boards and supervisors, juvenile courts, city mayors and managers, studies of youth-serving agencies have been conducted in 32 counties and five cities. These studies have been carried on cooperatively with several other state departments and usually with agencies of the cities or counties in which the surveys were made. Hundreds of special studies have also been made and there have been three state-wide surveys which were financed by Foundation grant. These studies were:

(1) Survey of the recreational facilities of the State, particularly as to the usage of school facilities

(2) An appraisal of the transient youth problem in California, and

(3) A state-wide study of detention principles and practices.

Reports on all three of those studies have been published and made available through wide distribution.

City and county enforcement agencies, including 35 departments with juvenile officers, departments or bureaus, have been provided consultation assistance. Fifteen more enforcement agencies are now providing specialized juvenile control services, and are a direct result of Youth Authority surveys or consultation.

REORGANIZATION EMPHASIS ON OLDER SCHOOLS

The main emphasis in the activity of the Youth Authority to date has been the reorganization of the programs in the older correctional schools, in order to reflect the basic philosophy of the Youth Authority Act; the recruitment and training of adequate staff; the establishment of additional facilities to care for the increasing number of hundreds committed to the Youth Authority by the courts; and the strengthening of already existing services for youth in the counties and cities of the State, and the establishment of new ones for the purpose of preventing the occurrence of delinquency.

ADDITIONAL FACILITIES REQUIRED

The housing of staff and wards in the newer schools is, in the main, in temporary buildings. Much construction must be done on a permanent basis and some further expansion of bed capacity is necessary to manage the continuous increase in population of the State. The construction of two clinics is imperative.

Much has been accomplished in both the fields of rehabilitation and delinquency prevention. That the expected increase in the rate of delinquency occurrence during the war and post-war years did not take place, is gratifying. The next few years will enable a further refinement of the Youth Authority program. The helpful assistance of cooperative action by the agencies of the State, county and city governments, as well as by the lay and volunteer groups, will continue to express its worth in service to the youth of California.

REASONS FOR DELINQUENCY

In concluding our report on the Youth Authority, this committee wishes to point out to the Members of the Legislature that in our many visits to our penal institutions, where we have interviewed prisoners and

examined their records, and in our many interviews with parolees both in and out of jails, that we have been appalled at the number whose conflicts with the law began at an early age.

The Delinquent Parent

The number who came from broken homes is very high. As we have listened to their stories and the explanations of their present difficulties, it has seemed in many instances that their criminal involvements were indeed inescapable.

Society, in dealing with delinquency, seems to direct most of its thought to the child, and in child delinquency discussion much is heard of the "delinquent boy" or the "delinquent girl."

Little has been said or legislated concerning the delinquent parents, who, because of their carelessness, ignorance, or utter disregard of their responsibilities as parents or citizens, are contributing today to tomorrow's criminal scourge.

In too many instances the wards of our Youth Authority are finding far better living conditions than they ever experienced in their homes. Their food, clothing, shelter, medical and dental care far exceeds anything that they have been accustomed to However, no institution, whether operated by State, county, or city, will ever offer as wholesome an atmosphere as is found in an acceptable American home.

Frankly, we do not know what to recommend to cure the condition; we do know, because of our experience in the work we have been doing, that in the field of Crime and Correction the delinquent parent imposes a tremendous charge on the public.

Interesting and Important Facts About Crime and Its Incidence

In the mass of material accumulated by this committee since its inception, are some interesting and important facts which have contributed to the overall knowledge of the members on the subject of crime and its incidence.

Age of Delinquency

We have learned, for instance, that the onset of youth delinquency difficulties occur before the age of 10 years in 35.5 percent of the cases; under 20 years in 89.7 percent Anti-social behavior begins to show for the most part in childhood, adolescence, or early adult life.

An examination of prison records of inmates discloses the fact that fully 50 percent of those sentenced to prison for the first time had a juvenile delinquency record. The man in prison, in other words, was inclined from early youth, for whatever reason, to continue the development of tendencies which lead him straight to prison.

Cerebral Birth Injury a Cause for Delinquency

Among the reasons which have been advanced to account for criminality growing out of delinquency, is that of cerebral birth injury. Detailed analysis of a mass of material yields strong evidence that the above cause is a factor of the highest importance in the study of child behavior difficulty, juvenile delinquency and adult criminality.

The findings of the above cases is illustrated better by the study of about 1,000 twins, from which it is shown that although the heredity

and environment are alike, in the one case one child has lead a normal existence with no indication of delinquency, the other has shown varying degrees of mental deficiencies resulting in behavior difficulties, juvenile delinquency, adult criminality, or various combinations of these. Whether it shall produce but a relative deficiency; that is, leaving behind an intellectual capacity which is still within normal limits, or whether it shall leave the subject without damage to his mental function, are, presumably, matters determined by the nature and extent of the brain injury.

CONCLUSIONS

From the foregoing, it will be apparent that in order to begin to form the most simple idea of what crime is and why, one should be willing to engage in a study that is many sided and takes one into strange places, in order to meet the unusual people one finds in our institutions.

Increased Medical and Psychiatric Services a Necessity

Members of the Legislature have asked us why this committee has stressed the need of increased medical and psychiatric services for our corrective institutions. When we have pointed out that a great many of our so-called criminals were destined from birth, because of injury, to be non-conformists, they have expressed surprise. Too often, society casts aside consideration of what it conceives to be a criminal with such remarks as "bad heredity," "bad environment."

While heredity and environment are important, they do not account for the total crime problem.

Youth Authority Well Equipped to Reduce Future Crime Incidence

We do not believe that any department in the State is as well equipped to reduce future crime incidence as is the Youth Authority, dealing as it does with crime in its embryonic stages. Staffed and equipped as it is, the Youth Authority is in a position to detect many of the factors which would inevitably lead to crime. The Youth Authority corrects many physical and mental faults, thereby reducing the crime incidence and provides for a better social and economic future of many of its wards.

The Authority is well aware that the cost of maintaining the program is very high. This is due to a great extent, to the extreme condition of shortages of materials and labor during its early stages of development.

Costs of the project per inmate are likely to be reduced in the near future, and a greater degree of efficiency in rehabilitation is anticipated.

ACTION ON COMMITTEE'S SUGGESTIONS TO DEPARTMENT OF CORRECTIONS

Following the submission of our last report to the Assembly, this committee made several suggestions to the Department of Corrections relative to the medical department of our penal institutions.

Panel Discussions by Chief Medical Officers and Medical Director

These suggestions were acted upon by the department and resulted in a panel discussion by the chief medical officer of each of the institutions, under the leadership of the Medical Director. Had all of the Members of the Legislature the time to devote to this panel discussion, we are

sure that the knowledge and insight to the needs and problems of penal medical practice in all of its phases would be viewed in a new light.

THE IMPORTANCE OF MEDICAL MEN IN THE INSTITUTIONS

There is practically universal agreement that the medical men, especially those qualified by special training to treat the mentally disturbed people who find themselves in our institutions, offer great hope, not only of helping these people, but of contributing concrete knowledge which will be of value in the future in understanding the cause of crime, and therefore, to a great extent, its prevention.

The importance of the medical profession in the study of the causes of crime and its correction is of comparatively recent origin, and the difficulty of fitting in their contribution of knowledge on this subject has been complicated for a number of reasons.

First of all, penal institutions, our own, as well as those of all other states, have been run until recently by men who were primarily experts in the methods of confining prisoners, and of little else. If a mentally disturbed prisoner got out of line, he was repressed or punished, sometimes in a brutal manner. The people little knew, nor apparently were greatly concerned with what went on inside a prison and it was only when a break occurred or a scandal leaked out that news of what took place in the prisons became known.

Under the old regime, the prison doctor was a relatively unimportant official, with only the barest facilities, generally housed in an improvised hospital.

Today, due, no doubt, to more widespread education in the sciences, which contribute to society's betterment, the physician, surgeon and psychiatrist are gradually assuming an entirely new role in penal affairs and are working closely with the psychologist and the sociologist.

PROBLEMS CONFRONTING MEDICAL MEN IN THE PENAL INSTITUTIONS

Three serious problems, however, confront the medical men in our penal institutions The first is the very structure of the institutions themselves, most of them built in the bastion style of a hundred years ago. This brings up the subject "shall we again burden ourselves financially to build structures to again become obsolete in 50 years." The second is educational, which calls for a selling job to society at large, and, of perhaps greater importance, the need of putting across the necessity for increasingly larger appropriations from the Legislature. The third arises from the difficulty of securing the right type of medically trained people for our institutions. Too few people who have studied and trained so long, and at such great expense, are willing to make penal work their career. This is especially true in the case of psychiatrists who, in addition to their medical training, are required to spent five years of additional training in order to qualify as psychiatrists or neurologists. When one considers the long period of training these men undergo, it is not surprising that their limited field offers financial rewards which the State is not usually prepared to meet.

MEDICAL DIRECTOR OF THE DEPARTMENT OF CORRECTIONS

The Department of Corrections is fortunate in having as its Medical Director one of the country's leading medical penologists.

Until recently, due to war conditions, the medical department was not coordinated, as have been the other departments of the Department of Corrections.

At the opening of the panel discussion by the Director of Corrections, he told the medical heads of the institutions that he was not a medical man—that he looked to the doctors to formulate a sound, unified medical policy, which would insure giving California's penal institutions, hospital, and other medical treatment which would meet the highest standards of the American Medical Association. Upon the completion of their recommendations, they are to submit them to the directors, who will then institute, for the first time in the history of California's penal system, a thoroughly unified and coordinated medical policy.

Your committee believes this new plan will be a distinct advance over methods used in the past, because the actions and the policy of every medical man in the institutions will be under the direct scrutiny of an experienced Medical Director who has a wide knowledge of penology.

This committee, having listened to these medical men, observed the very apparent devotion with which they applied themselves to the task of setting up something fine in the way of a complete medical facility within the department, are happy to report to the Assembly that they are pleased to have made some contribution to it.

Probation

During the four years that this committee has functioned in the field of crime and correction, we have covered many phases of this subject. The field which offers the greatest promise for constructive work and economics lies within the wise understanding and use of probation.

TRENDS IN ENLIGHTENED CRIME CORRECTION

We have pointed out in our previous reports that in the case of crime and its correction, the change of trends confronts one on every side.

In the State of California, it is interesting to note that not long ago punishment of a medieval character was inflicted upon those incarcerated for crime, regardless of the extent of the offense.

During the history of California, dating back to the formation of the State, at which time discipline amounted to outright cruelty and corporal punishment, there has been a constant and consistent evolution in penal procedures, leading to the present accepted standards of humane treatment divorced from physical torture or corporal chastisement or incarceration in dungeons under horrible conditions.

Even as recently as in the last decade, however, the reprimanding of prisoners in California sometimes descended to inflicting upon the inmates punishments which amounted to cruelty in the physical sense. The trends since then have changed, and today probation has come in to cut down not only the punishment philosophy, but to utilize humane knowledge and understanding.

PROBATION IN FELONY CONVICTIONS

During 1948 there were some 100,000 felony arrests in California, of which 14,000 resulted in convictions. Of these, 4,000 went to our penal institutions.

Probation was granted on a state-wide basis in 42 percent of the felony convictions. Sentences to penal institutions occurred in 28 percent of the cases.

An examination of conflicting statistics on probation procured from various sources which we have studied are very revealing. While these leave much in doubt, there are many near agreement. We found one county which granted probation to 80 percent of its felony convictions, and another county did not grant any probation in its felony convictions.

A group of five counties granted 60 percent or more probation. They are: Orange, 67 percent; Glenn 65 percent; Lassen 65 percent; Lake 80 percent; and Modoc 70 percent.

A group of eleven counties granted from 50 to 60 percent probation. These are: Alameda 52 percent; Sonoma 53 percent; Colusa 52 percent; Tulare 54 percent; Statislaus 52 percent; Merced 52 percent; Kings 55 percent; Mendocino 52 percent; Nevada 58 percent; Eldorado 50 percent; Calaveras 55 percent.

The following group of eight counties granted 40 to 50 percent probation: Los Angeles 43 percent; San Diego 48 percent; Riverside 47 percent; San Mateo 46 percent; Yolo 44 percent; Sutter 43 percent; Humboldt 40 percent; and Tuolumne 43 percent.

The following group of nine counties granted 30 to 40 percent probation: San Bernardino 31 percent; Kern 32 percent; Imperial 38 percent; San Francisco 37 percent; Santa Clara 35 percent; Fresno 35 percent; Madera 37 percent; Monterey 30 percent; and Santa Cruz 31 percent.

A group of four counties granted under 30 percent probation. They are: Santa Barbara 26 percent; Sacramento 28 percent; Tehama 28 percent; and San Joaquin 21 percent.

In another group, comprising 13 counties, some of them quite populous, the information given on probation matters was so obscure or at such great variance that it was impossible to classify them. They include: Ventura, San Luis Obispo, Contra Consta, Solano, Marin, Napa, Shasta, Butte, Placer, Yuba, Siskiyou, Plumas, and San Benito.

COSTS FOR PENAL CORRECTION

We have said repeatedly that it costs a great deal of money to send a person to prison. We have pointed out that a person in prison is a tax eater instead of a taxpayer. It costs approximately $1,000 a year to incarcerate one human being. The figures which we have before us, we believe, tell a very eloquent story.

NO SET RULES ON PROBATION

To begin with, there is no set rule throughout the State of California governing the granting of probation. Generally there are some fairly well understood rules which have been evolved over a long period of time throughout the United States and it is difficult to understand why one

county did not grant any probation, and another county granted probation in 80 percent of its felony convictions. The truth, or the right or the wrong, certainly lies somewhere in between.

THE HUMAN APPROACH TO THE PROBLEM

This committee in the past, while collecting information on this subject for the purpose of developing a comprehensive study, has come to the conclusion that wide variance results from the human approach to the problem. Officials use methods which, in a great many cases, they were not required to answer for to any one for their policies relating to probation matters.

We ran into many instances where judges and other county officials bluntly said they did not believe in probation and that what other counties did was of no concern to them. When it was pointed out to some of these people that they were responsible for contributing to a situation which required taxpayers throughout the State of California to pay an additional $1,150,000 a year for the upkeep in idleness of prisoners whom they were sending to the State's penal institutions, we received the invariable reply that for one reason or another probation just would not work in their county, which we took to mean that these officials just did not believe in probation.

UNIFORM PROBATION PROCEDURES RECOMMENDED

It certainly seems strange that, if probation works so satisfactorily in so many cases and at such a saving to the taxpayers, it could not be successfully utilized throughout the State. It is true that in some of the counties they do not have trained probation officers In many instances the salary paid is too low to attract trained people. Again we find that in many counties they do not have any statistics whatsoever on parole or other related cases. This committee believes that the quickest and surest method of showing positive savings to the people of California in crime and correction would be to require all counties to follow uniform probation procedures.

NEEDED LEGISLATION

In order to effectuate such a plan it would, of course, be necessary first of all to provide for good statistical information. There presently is pending before the Legislature a bill to subsidize up-to-date methods of probation throughout the State. We believe that this, or a similar bill, has merit. The mathematics which the present statistical information discloses indicates the necessity for more thorough methods.

TAX REDUCTION THROUGH PROBATION AND PAROLE

Let us bear in mind that throughout the State 42 percent of all felony convictions result in probation and 28 percent result in prison sentences. Considering the counties which grant probation in the higher percentages, it seems to us quite reasonable that, if the 28 percent of the cases resulting in prison terms were reduced to 20 percent and the 8 percent reduction added to the 42 percent which already receive probation, thereby making a total throughout the State of 50 percent receiving

probation, this would result in there being 1,150 fewer people in our penal institutions.

To put the above on a dollar and cents basis, the saving to the taxpayers of the State, by reducing the prison terms 8 percent and increasing the probation 8 percent, would be $1,150,000. In addition to the saving we have just pointed out, we could reduce the need for providing some of the new facilities which are so necessary because of overcrowded conditions, by the proper application of parole.

Every time a superior court judge of the State of California sends a man to one of our penal institutions in a case where parole could be used, he is punishing the taxpayer just as surely as he is punishing the man whom he send to jail.

Just as it was necessary for the 1947 Legislature to pass laws insuring the minimum standards, we believe that it is going to be necessary for some steps to be taken on a state-wide basis to insure uniformity in the use of probation.

RECOMMENDATIONS RELATIVE TO PROBATION

Some of the best informed men in our penal setup have told us repeatedly that courts are sending men to California prisons who should not be there. Examination of probation statistics, federal, State and county, discloses the fact that the percentage of violations of probation is very low.

In the case of first offenders, especially those convicted of nonvicious offenses, there is sufficient data to support the belief that the use of parole in a high percentage of cases could be applied with the assurance of full maintenance of all social values.

The federal courts grant probation in a very high percentage of cases, and their reports indicate that close to 95 percent of those to whom probation is granted, not only succeed, but where restitution is called for, this condition is satisfied.

The best authorities on penology in the world all agree that prisons do not make anyone better. Probation, when it can be used, benefits society at large. It aids the victim, where restitution is indicated, and also the convicted person, who escapes the stigma of having to serve time. In too many cases abject poverty of the family of a person serving time in prison is the result, and they become public charges.

The human and monetary values of the wise use of probation are overwhelmingly in its favor and the members of this committee recommend it.

FINAL REPORT OF ASSEMBLY INTERIM COMMITTEE ON PUBLIC EDUCATION

Letter of Transmittal

CALIFORNIA LEGISLATURE, STATE CAPITOL
SACRAMENTO, CALIFORNIA, July 1, 1949

Hon. Sam L. Collins
Speaker of the Assembly
State Capitol, Sacramento, California

DEAR MR. SPEAKER: The Assembly Interim Committee on Public Education submits herewith its final report.

The Second Report of the Interim Committee on Public Education has attracted nation-wide attention. Your committee has received many requests for copies. Since only 2,500 copies of the report were printed, your committee has attempted to arrange for their distribution in a manner calculated to convey the information gathered by the committee to people who will make the most effective use of it.

Members of the committee have introduced or advocated the passage of the following bills during the current session:

Assembly Bill No. 970 provided for the continuance of efforts to reorganize some of the school districts of the State into districts which may operate more efficiently and offer better educational opportunities.

Assembly Bill No. 971 which provides that elementary districts not in a high school district will contribute on behalf of pupils from the district attending high schools in another district, the sum of $100 to the high school district toward the cost of capital outlay for buildings and equipment.

Assembly Bill No. 1484 providing for the disposition on the real property and assets or bonded debt or other liabilities when districts either joined together into a new district or in case they should separate. This bill in effect provides that a new district would start without any bonded debt.

Assembly Bill No. 1486 provides for continuation of the present provisions of Chapter 16 of the Education Code for those districts now in the process of reorganization until after an election has been held despite the effective date of Assembly Bill No. 970 (Chapter 637, Statutes 1949). Only one bill having to do with reorganization of school districts has been rejected by the Legislature—Assembly Bill No. 972.

One of the most important problems recognized by the interim committee was the inequality of the assessed valuation of school districts in relation to market value of property.

Assembly Bill No. 2027 has successfully passed both houses of the Legislature. If this bill becomes a law it will do much to equalize the apportionment of state money based on assessed valuation, and should result in the saving of large amounts of state money.

Assembly Bill No. 2120, as introduced, called for state aid for districts having excess costs for pupil transportation or who incur increased costs by reason of excessive increase in enrollment. There were provisions for increasing the amount of money to be distributed so that a better minimum program of education could be furnished to the pupils in the public schools of this State, especially at the elementary level. As

the bill was finally approved, none of the foregoing provisions for additional financing by the Legislature in excess of the amount appropriated by the provisions of the Constitution were adopted.

It is interesting to note that the Legislature has not voted for many years to increase the state aid for current additional costs except for one $6 increase at the elementary level in 1943.

Perhaps the most important contributions of the 1949 Session has been the approval of an integrated program for aid to school districts for the provision of needed additional classrooms. The interim committee and other members of the standing committee have worked with Senator Dilworth and representatives of the State Department of Education and other state departments and with citizens and groups interested in the public educational problems of the State towards the drafting of the legislation which is contained in Senate Bills Nos. 850, 685 and 1417, and Assembly Constitutional Amendment No. 80.

The constitutional amendments will be submitted to the voters on November 8th, and will call for a state-wide bond issue of $250,000,000 to assist in financing the building of badly needed additional classrooms. The bills provide for a program of selling the bonds and apportioning the money to districts requesting aid, and for the repayment of the money by the districts. Also for the amount of construction which will be authorized, and for a system of priority to the districts in greatest need.

The committee feels that the 1947 Session has expressed its confidence in the recommendations of the interim committee by enacting almost all the legislation we have proposed. Only two bills, Assembly Bill No. 1384 which would have provided a system for auditing the funds of school districts and, Assembly Bill No. 1760 which would have permitted unified districts to use the total bonding capacity available at the level where the need was greatest rather than continue the present segregation into two or three 5 percent levels. These two bills were approved by the Assembly but failed to pass the Senate committee. We hope the work of the interim committee brought a better and clearer understanding of the problem facing the people of California and the Legislature in its responsibility of providing for the needs of public education.

Your committee is happy to report that there remains in the committee funds a balance of $440.08.

Respectfully submitted,

FRANCIS DUNN, JR., Chairman
MRS. KATHRYN T. NIEHOUSE, Vice Chairman
