4630. The governing board of a unified school district may acquire property, construct buildings, and maintain classes outside its boundaries on sites immediately adjacent to school sites of the district within its boundaries *or on sites contiguous to the boundaries of the district either in the same or in an adjoining county provided that no school site heretofore or hereafter acquired in a county other than that in which the district is located in whole or in part shall become a part of the district*.

A statement of the facts constituting such necessity is as follows:

Under the existing law if a unified school district has acquired or acquires a school outside of, but adjoining, its boundaries in another county, a serious question would arise as to what type of school district would result. In order to avoid this complication in a situation where the only property in the adjoining county is the school site purchased by the school district, it seems highly desirable not to have such property become a part of the district. In order that such complication may be eliminated at the earliest possible moment as to situations now existing, it is necessary that this act take effect immediately."

Move upon the council of men that Thy sovereign will may be made manifest upon the earth. Deepen our faith so that we may do our part in the healing of a wounded world. Bless those who struggle in Korea for the ideals of a free world and a better day. Be Thou our Light in darkness and our Eternal Hope

"Sun of our life, Thy quickening ray
Sheds on our path the glow of day;
Star of our hope, Thy softened light
Cheers the long watches of the night.
Lord of all life, below, above,
Whose light is truth, whose warmth is love,
Before Thy ever blazing throne
We ask no luster of our own"

Through Jesus Christ, Our Lord—AMEN.

At the time of filing the notice of election, as herein provided, any such member may elect to apply toward the additional amount payable by him pursuant to such election, any additional accumulated contributions with which he is entitled to be credited.

(b) If the disability retirement allowance computed under (a) does not exceed one-fourth of his final compensation, 90 percent of one-fiftieth of his final compensation multiplied by the number of years of service which would be creditable to him were his service to continue until attainment by him of age 55, but in such case the retirement allowance shall not exceed one-fourth of his final compensation.

REPORTS OF STANDING COMMITTEES

Committee on Rules

ASSEMBLY CHAMBER, SACRAMENTO, May 1, 1951

MR. SPEAKER: Your Committee on Rules, to which was referred:

An editorial appearing in the Imperial Valley Press of Thursday, April 26, 1951, relative to the death of the Honorable George R. Butters

Has had the same under consideration, and reports the same back with the recommendation: That said editorial be printed in the Assembly Daily Journal.

DICKEY, Chairman

IMPERIAL VALLEY PRESS
THURSDAY, APRIL 26, 1951

EDITORIAL

Good Citizen Has Departed

George Butters is dead. With the death of the Brawley Assemblyman a vacancy has been created which will be difficult to fill His passing came so suddenly that it is still hard to believe.

George was tough. He was tough physically with that wiry health which came from 38 years of dirt farming here in Imperial Valley.

He was tough in character with a native honesty which brooked no compromise with those principles by which he lived his life. He was tough with a will to live which had surmounted personal tragedy and personal injury.

George was a gentleman with none of the artificialities which sometimes cloud the real meaning of that term. It is easy to say he had many friends. It is far broader, and just as true, to say he had no enemies. For George had a loveable blind spot which allowed him to see only the good in those he knew.

George Butters is dead, and something real, and good, and big has gone out of the lives of all of us here in Imperial Valley and throughout California. God grant that when the time comes for each of us we will have lived a little better for having known him.

LETTER OF TRANSMITTAL

Mr Speaker and Members of the Assembly:

Your committee presents the following report of its director of research and staff on governmental reorganization.

At the 1949 Session of the Legislature this Assembly pursuant to House Resolution No. 222 authorized an Interim Committee on Governmental Reorganization

> "* * * to ascertain, study and analyze all facts relating to the departments, commissions, boards, authorities, divisions, bureaus, offices, and other units thereof, the relationship of such units to one another, the internal organization thereof, their methods of operation, their cost to the State, the necessity or desirability of their continuance, the existence of duplicating, overlapping, or needless functions, the desirability of centralizing and coordinating related activities, modernizing techniques and proceedings, and all facts and matters relating to the nature and extent of governmental activities and operations, including but not limited to the operation, effect, administration, enforcement and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution, and to report thereon to the Assembly, including in the reports its recommendations for appropriate legislation. * * *"

The committee took into account that the scope of its study was rather broad and decided to divide the study into two distinct phases: the initial phase to deal with matters of governmental organization and structure, and the second phase to deal with administrative procedure and the effectiveness of administration. This report comprises the first phase, the examination of the structural aspects of the State Government.

The studies embraced in this report were considered by the committee to be the principal "problem areas." They include Fiscal Management and Controls; Personnel Administration; such administrative and housekeeping services as Purchasing, Printing, Information Services, Records Management, Buildings and Grounds and Traffic Management; other studies include Field Services; Public Safety; Public Health Services; Recreational Services; Education; Alcoholic Beverage Control; Administrative Organization for Business Regulation; Natural Resources and Public Works.

The staff approached the various studies with the following questions:

1. Is the arrangement of departments for the administration of major functions of State Government structurally sound? Does it lend itself to the application of improved procedures?
2. Is the number of major departments small enough to permit effective executive supervision and control?
3. Are relationships clearly defined?
4. Are grouping of functions logical?
5. Are adequate staff services provided?

6. To what extent have "independent areas of authority" developed?
7. Are there areas where greater centralization of authority should be achieved?
8. Are there areas of authority now centralized where advantages would accrue from greater decentralization?
9. Does the same justification exist now which existed at the time departments, bureaus, boards, or agencies were created?

Logical arguments can be given for almost endless shifting of functions, but whether a shift is to be recommended depends upon what the move is expected to achieve. "Streamlining" in itself is not a valid objective of reorganization. Emphasis can be placed upon immediate economy in State Government, or economy can be assigned a secondary value. Emphasis can be placed upon increasing executive control, or it can be placed upon methods of sharing responsibility for policy. It can be placed upon elimination of duplicate and overlapping activities, consolidation of services, the tightening of fiscal controls, the establishment of greater accountability. Thus it is apparent that intention must be clearly defined.

The objectives of reorganization proposals have been determined with particluar reference to developments in California State Government within recent years. During the past 10 years constitutional and statutory enactments have effected approximately 160 administrative changes, adding new departments, divisions and agencies, and shifting functions and responsibilities In the light of these changes, the committee has set down the following objectives:

1. Institute economies by the elimination of duplicate activities.
2. Reduce the number of major departments to correspond to major functions of State Government.
3. Integrate similar functions within one department or agency.
4. Establish clear lines of authority and responsibility within one department or agency.
5. Establish a structure which will tend to reduce the development of independent areas of authority.
6. Provide adequate supervision and staff services.
7. Provide for adequate controls and responsibility to the Executive and to the Legislature.

The committee has relied on a review of the subject matter by the staff which included public administration experts especially familiar with administrative affairs of State Government. Their findings and recommendations involve such subjects as the abolishing of some departments or functions, creation of new departments out of existing departments, consolidation of departments or functions in several departments, transfer of functions, reorganization of departments, elimination of functions and improvements in organization.

The staff findings evidence a state of confusion in the administrative and advisory agencies as a result of a lack of proper responsibilities and controls. We feel that this has resulted to a great extent from the failure of the Legislature to provide itself with an adequate consulting service in considering measures affecting state organization and administration.

We believe that a thorough study should be made of the advisability of providing the Legislature with an adequate staff of highly trained and specially qualified persons who have the ability to evaluate measures effecting organization as they are proposed and advise the Legislature of their affect upon the structure of State Government, its organization, the various departments, or their administration.

The studies in this report, to date, are sufficiently thorough to convince us that the study of the reorganization of State Government by the Legislature should be continued and should cover in detail all aspects of structure, organization, operation and procedure.

Respectfully submitted.

The following amendments were proposed by the Committee on Judiciary:

Amendment No. 1

In the title of the printed bill, strike out lines 1 to 6, inclusive, and insert "An act to amend Section 1190.1 of the Code of Civil Procedure, relating to mechanics liens."

Amendment No. 2

On page 1 of said bill, strike out line 1, and insert

"SECTION 1. Section 1190.1 of the Code of Civil Procedure is amended to read:

1190.1. (a) Any of the persons mentioned in Sections 1181 and 1184.1, except the contractor, and all persons, firms and corporations, excluding the contractor, performing work or furnishing materials, or both, upon any public improvement, including highways, streets, wagon roads, viaducts or sewers, may at any time, prior to the expiration of the period within which claims of lien must be filed for record, as prescribed by the provisions of Section 1193 1 of this code, give to the owner, a notice that they have performed labor or furnished materials, or both, to the contractor or other person acting by the authority of the owner, or that they have agreed to do so, stating in general terms the kind of labor and materials and the name of the person to or for whom the same was done or furnished, or both, and the amount in value, as near as may be, of that already done or furnished, or both, and of the whole agreed to be done or furnished, or both, and any of said persons who shall on the written demand of the owner refuse to give such notice shall thereby deprive himself of the right to claim a lien under this chapter

(b) Such notice must be verified by the claimant, or by some person acting in his behalf, and may be given by delivering the same to said owner, personally, or by leaving it at his residence or place of business with some person in charge, or by delivering it to his architect, if any; provided, however, that in all cases in which said work is being done under a contract with the State, or with any public board, commission, or officer thereof, or with any political subdivision thereof, such notice must be filed, within said time, in the Office of the Controller, auditor, or other public disbursing officer whose duty it is to make payments under the provisions of such contract, or with the commissioners, managers, trustees, officers, board of supervisors, board of trustees, common council or other body by whom the contract for the improvement was awarded. In the case of any contract of the State by or through the Department of Public Works, such notice must be filed with the Director of Public Works, and not with the State Controller. In the case of any contract of the State by or through any other state department, board, commission, or officer, such notice must be filed within said time with the head of such state department, board, commission, or officer and not with the State Controller No such notice shall be invalid by reason of any defect in form; provided, it is sufficient to inform the owner of the substantial matters herein provided for.

(c) Upon such notice being given it shall be the duty of the person to whom such notice is given to, and he shall withhold from his contractor or from any person acting under his authority and to whom said labor or materials, or both have been furnished, or agreed to be furnished, sufficient money or sufficient bonds, where bonds are to be issued in lieu of money by the political subdivision which contracted for said work, due or that may become due to such contractor, to answer such claim and any lien that may be filed therefor, and, if the owner is a public body whose property, by reason of public policy or otherwise, is not subject to the liens in this chapter provided for, also the reasonable cost of any litigation thereunder

Provided, however, that if in connection with any private work of improvement, any statutory labor and material bond has been furnished under Section 1185 1 of this code complying with the provisions of such last mentioned section and has been filed in the office of the county recorder, as in said section, provided, then in said event, it shall not be the duty of the person to whom such notice is given to withhold any moneys pursuant to such notice but such moneys may be withheld by such person to whom such notice is given.

(d) In the event the moneys so withheld or required to be withheld shall be insufficient to pay in full the valid demands of all persons by whom such notices were given, the same shall be distributed among such persons in the same ratio that their

respective claims bear to the aggregate of such valid demands. Such pro rata distribution of said moneys shall be made among the persons entitled to share therein, without regard to the order of priority in which their respective notices may have been given or their respective actions, if any, commenced

(e) Any person who shall wilfully give a false notice of his claim to the owner or who shall wilfully include in his claim work or materials not performed upon or furnished for the property described in such notice shall forfeit all right to participate in the pro rata distribution of such moneys and all right to any lien under this chapter.

(f) Nothing in this article contained shall be construed to impair in any manner the right of any person by whom such notice has been given to recover from the contractor or his sureties any deficit that may remain unpaid after such pro rata distribution in an action upon the bond provided for by Section 4200 of the Government Code.

(g) The word "owner" as used in this action, includes the State, or any public board, commission, or officer, thereof, or any political subdivision thereof, whether the said work be done by or under the direction of said State, public board, commission, or officer thereof, or any political subdivision thereof.

(h) Any of the persons mentioned in Section 1181 and 1184.1, except the contractor at any time prior to the expiration of the period within which claims of lien must be filed for record, as prescribed by the provisions of Section 1193.1 of this code, may, in any instance in which the funds with which the cost of the work of improvements are, wholly or in part, to be defrayed from the proceeds of a building loan, give to the mortgagee, beneficiary under deed of trust, or assignee or successor in interest of either, or to any escrow holder or other party holding any funds furnished or to be furnished by the owner or lender or any other person as a fund from which to pay construction costs or arising out of a construction or building loan, a notice similar to the one provided for in subdivision (a) of this section, whereupon the person so given such notice under this subsection may withhold funds to answer such claims and any lien that may be filed therefor.

Provided, further, that if such person entitled to file such claim under this subsection files with the person holding such funds as a fund from which to pay such construction costs, a bond with good and sufficient sureties in a penal sum equal to one and one-quarter times the amount of such claim, undertaking that if the defendant recovers judgment in an action brought on said verified claim or on the lien filed by the claimant, the lien claimant will pay all costs that may be awarded to the owner, contractor, or person holding such funds, or any of them, and all damages that such owner, contractor, or person holding such funds may sustain by reason of the equitable garnishment effected by the claim or by reason of the lien, not exceeding the sum specified in the undertaking, then the person holding such funds must withhold from the borrower or other person to whom said owner may be obligated to make payments or advancements out of said fund sufficient money to answer such claim, and any lien that may be filed therefor. No assignment by the owner or contractor of construction loan funds, whether made before a verified claim is filed, or after such claim is filed shall be held to take priority over claims filed under this subsection (h) and such assignment shall have no binding force insofar as the rights of claimants who file claims hereunder are concerned.

(i) If the contractor, subcontractor, or any other person against whom any claim is filed under subsection (h) above, or if the owner, mortgagee, beneficiary under deed of trust, escrow holder or any other person, disputes the correctness or validity of any claim so filed on private construction work, the contractor, subcontractor, owner or any such other person disputing such claim, may file with the custodian of such fund a bond executed by good and sufficient sureties in a penal sum equal to one and one-quarter times the amount of such claim, which bond shall guarantee the payment of any sum not exceeding the penal obligation of the bond, which the claimant may recover on the claim, together with his costs of suit in the action, if he recovers therein. Upon the filing of such last mentioned bond the funds withheld to respond to the verified claim shall forthwith be released.

(j) Subsections (h) and (i) above shall not apply to public work; nor shall either of such sections be applicable if in connection with a private work of improvement any statutory labor and material bond has been furnished under Section 1185.1 of this code complying with the provisions of such Section 1185.1, and has been filed in the office of the county recorder at any time prior to the filing of the first verified claim or notice to withhold.

(k) To be effective any verified claim or notice to withhold filed under subsection (h) served upon a banking corporation or association, building and loan association, title insurance company, escrow holder or other person holding such construction funds, and maintaining branch offices must be given to or served upon the manager or other responsible officer or person at the office or branch thereof administering or holding such construction funds.

(l) Any verified claim or notice to withhold may be served by registered mail with the same effect as by personal service.

(m) If the person holding the funds objects to the sufficiency of the sureties on the bond referred to in subsection (h) above, he must give notice in writing to the

claimant within 20 days after the service of such notice that he so objects, in which event the claimant may within 20 days after the receipt of such written objection substitute for the bond so objected to a similar bond in like amount executed by a corporate surety licensed to write such bonds in the State of California, and if the claimant fails to do so the party served with such verified claim or notice to withhold may disregard the same and release all funds withheld in response thereto."

"SECTION 1. Section 51d is added to the Public Utility District Act, to read:

Any districts, whose powers and functions are included within the powers and functions set forth in subdivision fifth of Section 30 of this act, may be consolidated with a public utility district organized pursuant to the provisions of this act

(1). Whenever a petition containing the names of the districts to be consolidated, a description of the exterior boundaries of each district, and the functions then being performed by each district, is signed by fifty-five percent (55%) of the registered voters in one of the districts, authorized by this act to consolidate, and is presented to the clerk of said district, hereinafter referred to as District A, requesting that District A be consolidated with another district authorized by this act to consolidate, said other district hereinafter being referred to as District B, then the clerk shall immediately proceed to examine and verify the signatures to such petition and he shall certify the result of such examination to the Board of Directors of District A.

(2). If, by the certificate of the District Clerk of District A, any petition hereinabove provided for, is found to be insufficient, he shall certify to the number of qualified electors required to make such petition sufficient, in addition to the signatures already thereon and verified by him, and said petition may then be amended by filing a supplemental petition within ten days from the date of such certificate. The District Clerk of District A shall within ten (10) days after the filing of such supplemental petition make a like examination of the same and certify to the results of such examination, as herein provided. If this certificate shall show any such petition as amended to be insufficient, it shall be filed by him in his office and kept as a public record, without prejudice, however, to the filing of any other petition to the same effect at some future time not less than six (6) months thereafter But if by such certificate such petition, or such petition as amended, is shown to be sufficient, the Clerk of District A shall present the same to the Board of Directors of District A, without delay, with his certificate attached thereto and properly dated. If any supplemental petition be filed, all signatures appended to the petition and to the supplemental petition shall be considered in determining the number of qualified electors signing the petition

(3). When the petition has been certified as herein provided, it shall be presented to the Board of Directors of District A at its next regular meeting, and the Board of Directors of District A shall, if it determines that said petition complies with the requirements hereinabove set forth, have a copy of said petition, certified by the Clerk of District A, forwarded to the Clerk of the Board of Directors of District B. At the next regular meeting of the Board of Directors of District B, the clerk shall present the certified copy of the petition to the Board of Directors of District B. The Board of Directors of District B shall thereupon, after notice as hereinafter provided, hold a hearing on the question of the consolidation referred to in the petition.

(4). The Board of Directors of District B shall give notice of such hearing by publication in at least one issue of a newspaper of general circulation printed and published in each District, or if no such newspaper is printed and published in each District, then in some newspaper printed in the county and circulated in each District. The Clerk of the Board of Directors of District B shall notify in writing the Clerk of the Board of Directors of District A of the time, place and purpose of the hearing.

(5). The notice shall specify the time and place of hearing and that the hearing shall be on the question of consolidation of District B with District A, both of which shall be designated by name or otherwise identified in the notice.

(6). At the time and place of hearing, as stated in the notice, the board of District B shall hear the evidence for and against the proposal, and if the Board of Directors of District B determines that the consolidation would not be for the best interests of said districts, or either of them, then said board shall make its findings and conclusions and the Clerk of District B shall forthwith file a certified copy of said findings and conclusions with the Clerk of District A and the proceedings shall terminate.

(7). If the Board of Directors of District B determines, after such hearing, that the consolidation would be for the best interest of Districts A and B, said board shall have prepared and filed with the Clerk of District A, a certified copy of an order setting forth the findings and conclusions of the Board of District B The order shall also set a date and place for the holding of a consolidated meeting of the Boards of Directors of Districts A and B

(8). At the consolidated meeting the President of the Utility District shall act as presiding officer and the Clerk of the Utility District shall prepare the minutes of the consolidated meeting and shall supply certified copies for the records of both District A and B Each district shall have three votes to be divided equally or prorated among the directors of each district. The purpose of the consolidated meeting shall be to prepare the terms and conditions, if any, upon which the consolidation shall be made In the terms and conditions so determined, provision may be made, among other things, for the payment of special taxes within any one district, or portion thereof, in addition to the regular taxes provided for in this act, which shall govern the consolidated district, the fixing of rates, rentals and charges differing in different portions of the district to be created by the consolidation, the incurring or assumption of indebtedness or the making of a payment or payments, or the transfer of property, real or personal, or other assets to the district as consolidated, in such manner as the boards of directors shall deem just for the purpose of equalizing the proportionate obligation, expenditures and costs of operation of the utilities in the districts being consolidated The above enumeration of proposed terms and conditions shall not be construed to eliminate other terms and conditions which the boards of directors deem reasonable and proper. The separate Boards of Directors of Districts A and B shall

continue to govern each district separately and individually for all business of each district, with the exception only that all matters dealing with the consolidation of the two districts shall be determined by the consolidated board as herein in this subsection provided.

(9). If, after the fixing of the terms and conditions, the consolidation is approved by a written consent containing the description of the proposed district as consolidated, and setting forth the terms and conditions, if any, agreed upon by the consolidated boards of directors of the districts at the consolidated meeting, above referred to, signed by a majority of the elector in each separate district, who were registered in the territory within the district at the date of the original petition requesting the consolidation of the districts, which written consent is filed with the clerks of the respective boards of directors, who shall thereupon verify the signatures thereon in the same manner as the signatures to the petition for the consolidation is required to be verified, then the consolidated board of directors provided for in subdivision 8 hereof, shall make an order of consolidation setting forth the new boundaries of the consolidated district, the name of the consolidated district, and the terms and conditions upon which consolidation was approved.

(10). Upon the determination that the consolidation of Districts A and B would be for the best interests of each district, and the fixing of the terms and conditions of consolidation, if any, by the consolidated board of directors of the districts, the consolidated board of directors shall then call a special election in each district to determine if the consolidation on the terms and conditions as agreed upon or as approved at the meeting called pursuant to subdivision 8 hereof, shall be approved.

In calling such election the board shall fix the time at which such election shall be held and cause notice thereof to be given and published. Such notice shall be given and published and such election shall be held and conducted and the returns thereof shall be made and canvassed and the results of the election ascertained and declared, and all things pertaining thereto conducted in the manner prescribed by this Act for the holding of special elections in a utility district. The ballots cast at such election shall contain the words "for consolidation" and "against consolidation" or words equivalent thereto. The notice of election shall describe the boundaries of the proposed consolidated district and in general terms the terms and conditions agreed to or determined.

At such election, only electors registered at the time of the filing of the original petition requesting consolidation shall be qualified to vote. If at such election a majority of all the votes cast in each district shall be in favor of such consolidation, then the consolidated board shall thereupon make an order of consolidation in the manner provided in subdivision 9 of this section. If at such election a majority of votes cast in either district shall be against the consolidation, then the consolidated board shall thereupon make an order stating the results of such election and declaring that the proposed consolidation of the two districts is terminated and the consolidated board shall adjourn to meet later as the separate boards of the two separate districts. If the results of said election are opposed to the proposed consolidation, no further proceeding shall be commenced for the consolidation of the districts as proposed until the lapse of at least one (1) year from the date of the special election.

(11). If, prior to the holding of the special elections called for in subdivision 10, hereof, the written consent, referred to in subdivision 9 hereof is filed with the clerk of the respective boards of directors of the districts, or either of them, then after verifying the signatures of the signers of said consent, and if the clerk finds and certifies to the board of directors of the districts, or either of them, that said consent has been signed by the requisite number of qualified voters of the Districts, or either of them, then, and in that event the board of directors of the district or districts so qualifying shall cancel the special election called for in subdivision (10) hereof by posting in at least three public places in the district a notice of cancellation and stating the reason for the cancellation. No charge shall be made by either the Secretary of State or any county recorder or county clerk for the services required of him under the provisions of this section. From and after the date of the filing of said duplicate order of consolidation with the

Secretary of State, the district created as a result of the consolidation shall be deemed incorporated as a district under and pursuant to the provisions of the Public Utility District Act.

(13). Upon the consolidation of such districts the consolidated district shall be governed by the board of directors of the utility district until the next ensuing election, at which election a new Board for the consolidated district shall be elected and the terms of office of the members of the board of directors of the utility district prior to consolidation shall terminate upon the qualification and the taking of office by the new directors. At the first regular meeting of the newly elected Board, the directors shall classify themselves as provided in Section 14 of this Act.

(a) Whenever the board of directors, by resolution adopted by a vote of two-thirds of the total vote of the board, shall find and determine that the interests of the district and the public interest require that the principal, or a part of the principal, of bonds as such bonds mature or are redeemed pursuant to call therefor, or are purchased upon tenders, pursuant to notice inviting such tenders, should be paid from moneys derived from the issuance and sale of refunding bonds, said board of directors may authorize the issuance and sale of refunding bonds for that purpose. The issuance of refunding bonds under this section shall not be construed as incurring or increasing indebtedness within the meaning of this act and approval of the voters is not required for the issuance of such refunding bonds.

(b) The board of directors may also, by resolution adopted by a vote of two-thirds of the total vote of the board, find and determine that the interests of the district and the public interest require the issuance and sale of refunding bonds only if approved by the qualified voters of such district in the manner hereinafter provided, and said board thereupon may order the submission of the proposition of issuing such refunding bonds to the qualified voters of such district, at an election to be held for that purpose. The declaration of public interest and the provision for the holding of such election may be included within one and the same resolution and such election may be held separately, or may be held concurrently with any other election authorized by law at which the qualified voters of the district are entitled to vote or may be consolidated therewith The resolution calling such election shall state the years in which the bonds proposed to be refunded will mature, the aggregate amount of the principal of the refunding bonds proposed to be issued, the maximum rate of interest to be borne by the refunding bonds, and the manner of voting for or against the proposition of issuing such bonds.

If the territory of the district lies in more than one county, the resolution calling the election hereunder may refer to such ordinance, resolution or order calling such other election, or to such posted or published order or notice in each such county, and the notice of such other election posted or published in the manner required by law in each county shall constitute and be adequate notice of the precincts, polling places and election officers in each such county for such election called hereunder. Such resolution calling the election hereunder shall be published once at least ten (10) days before the date of the election therein called, in a newspaper of general circulation printed and published within the district, and if the district lies in more than one county, such resoluton shall be so published in each such county, and except as provided in this subsection (b)

The returns of such election shall be made, the votes canvassed by said board of directors within seven days following said election, and the results thereof ascertained and declared in accordance with the provisions of the Elections Code, so far as they may be applicable, except as in this act otherwise provided.

In the event that any election held hereunder shall be held concurrently with another election authorized by law at which the qualified voters of the district are entitled to vote or shall be consolidated therewith, and the proposition submitted pursuant to this section shall be printed upon a ballot containing other propositions or the names of candidates for office, the returns of the election held hereunder shall be made with the returns of such other election to the boards of supervisors or other bodies whose duty it shall be to canvass the returns thereof, and the results of the election held hereunder shall be canvassed at the time and in the manner provided by law for the canvass of the returns of such other election, and it shall be the duty of such canvassing bodies promptly to certify and transmit to the board of directors of the district a statement of the result of the vote upon a proposition submitted hereunder; upon receipt of such certificates, it shall be the duty of the board of directors to tabulate and declare the results of the election held hereunder

The coupons of said refunding bonds shall be numbered consecutively, and signed by said Controller, or Assistant Controller. All such signatures and countersignatures excepting that of the Controller, or Assistant Controller, on said refunding bonds, may be printed, lithographed or engraved.

(f) Said refunding bonds may be sold by the board of directors as it shall determine, in the manner and in accordance with the provisions of paragraph (g) of Section 7 of this act, and the proceeds of the sale of such refunding bonds, except premium and accrued interest, shall be placed in the treasury of the district and shall be applied only to the payment at maturity, or redemption pursuant to call or purchase upon tenders pursuant to notice inviting such tenders, such notice to be published once, at least ten (10) days before the date fixed for receiving such tenders, in a newspaper of general circulation and published within the city wherein is located the principal place of business of the district, of the bonds so refunded. Premium and accrued interest shall be placed in the fund to be applied to the payment of interest on, and the retirement of, the refunding bonds so sold.

(g) The board of directors may, within ninety (90) days from the date of any resolution authorizing the issuance of refunding bonds, or a division or series thereof, pursuant to the provisions of subsection (a) or of subsection (b) of Section 5.2 hereof, cause to be brought in the name of the district an action in the superior court of the county in which said district, or the greater portion of the property subject to taxation by said district, according to the most recent assessment, is located, to determine the validity of such refunding bonds, or division or series thereof, and the sufficiency of the provision for the collection of an annual tax sufficient to pay the interest on such refunding bonds as it falls due and to constitute a sinking fund for the payment of the principal of such refunding bonds on or before maturity. Such action shall be in the nature of a proceeding in rem, and jurisdiction of all parties interested may be had by publication of summons for at least once a week for three (3) weeks in some paper of general circulation published in the county where the action is pending, such paper to be designated by the court having jurisdiction of the proceedings. Jurisdiction shall be complete within ten (10) days after the full publication of such summons in the manner herein provided. Anyone interested may at any time before the expiration of said ten (10) days appear and by proper proceedings contest the validity of such refunding bonds and the sufficiency of the provision for the collection of an annual tax sufficient to pay the interest on such refunding bonds as it falls due and to constitute a sinking fund for the payment of the principal of such refunding bonds on or before maturity. Any such action, or actions, so caused to be brought by said board, shall be speedily tried and judgment rendered declaring such refunding bonds to be valid or invalid, and declaring the provision for the collection of an annual tax for said purposes, to be sufficient or insufficient. Either party may have the right to appeal to the Supreme Court at any time within thirty (30) days after the rendition of such judgment, which appeal must be heard and determined within three months from the time of taking such appeal. After the expiration of ninety (90) days from the date of any resolution authorizing the issuance of an installment of such refunding bonds, no action may be brought to contest or question the validity of such refunding bonds, or division or series thereof, and proceedings in relation thereto or the sufficiency of the provision for the collection of an annual tax sufficient to pay the interest on such refunding bonds as it falls due and to constitute a sinking fund for the payment of the principal of such refunding bonds on or before maturity. If there be more than one action or proceeding involving the validity of such refunding bonds, or division or series thereof, or the sufficiency of the provision for the collection of an annual tax sufficient for the said purposes, they shall be consolidated and tried together. The court hearing any proceeding or action inquiring into the regularity, legality or correctness of the proceedings leading up to the issuance of such refunding bonds, or division or series thereof, or the validity of such refunding bonds or the sufficiency of such provision for the collection of an annual tax, must disregard any error, irregularity or omission which does not affect substantially the rights of the parties to said action or proceeding. The rules of pleading and practice provided by the Code of Civil Procedure, which are not inconsistent with the provisions of this act, are applicable to all actions or proceedings herein provided for. Any motion for a new trial of any such action or proceeding must be heard and determined within ten (10) days from the filing of the notice of intention. The costs on any proceeding or action herein provided for may be allowed and apportioned between the parties or taxed to the losing party, in the discretion of the court.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 1, 1951

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 63, entitled. "An act to add Section 105 to the Military and Veterans Code, relating to exemptions to instrumentalities of the Armed Forces of the United States, to take effect immediately."

My objections to this bill are as follows:

This bill provides that no excise taxes of this State, direct or indirect, other than those on distilled spirits or wine, shall be imposed on the sale, use, delivery, or storage of merchandise to any instrumentality of the Armed Forces of this Country engaged in resale activities, except those which may be specifically authorized by the various acts of Congress.

The Attorney General reports to me that this bill could apply only to the excise tax on beer and the motor vehicle fuel license tax. He questions the propriety of placing a tax exemption for beer in the Military and Veterans Code rather than in the Alcoholic Beverage Control Act. With reference to the exemption addressed to excise taxes which may be exempted by acts of Congress, he states that this is an unlawful delegation of legislative power of this State to Congress He also states that the bill would result in a prohibition of delivery of beer to such instrumentalities of the Federal Government because of the provision in the Alcoholic Beverage Control Act relative to the delivery of alcoholic beverages to non-licensees. Only tax paid beer may be so delivered, and if the beer were tax exempt there would be no provision permitting such delivery.

The State Controller urges that this measure jeopardizes a large source of the State's revenue derived under the motor vehicle fuel license tax. He states that under the present law fuel sold to the Armed Forces is subject to tax unless it is for use in ships or aircraft or is for export. While congressional authority is not necessary for the imposition of our motor vehicle fuel tax on motor vehicle fuel sold to instrumentalities of the United States, because the tax is imposed on the distributor and not on the sale, Congress has provided an exemption only to fuel sold through post exchanges. There are situations where the Armed Forces purchase gasoline and then resell it to private contractors working for the Armed Forces, and such sales are not made through post exchanges. The collection of taxes on such sales would be jeopardized by this bill.

The Secretary of the Board of Equalization raises a question as to the placing of this measure in the Military and Veterans Code rather than the Alcoholic Beverage Control Act. He also points out that this measure would jeopardize the collection of the motor vehicle fuel tax, and concurs in the view that it would make it impossible to deliver beer to the non-licensed agencies of the United States. He points out that amendments to the Alcoholic Beverage Control Act have been proposed and are pending providing exemption of beer sold through military establishments of the United States.

The Director of Finance opposes the measure on the basis that it jeopardizes the excise tax on gasoline. He also points out that it will invite further exemptions and that tax exemptions should not be encouraged.

The Legislative Auditor questions the propriety of attempts to limit the State's taxing power by amendments to the Military and Veterans Code, and he also points out that the indirect effect of an excise tax is impossible to follow and to control legislatively, and a provision of this kind might conceivably have effects that were not anticipated or intended by the Legislature.

Because of the objections to this measure, I am returning it without my approval.

Respectfully submitted.

EARL WARREN, Governor

Acknowledgment of Receipt of Assembly Bill No. 63

House Resolution No. 129

Relative to the creation of the Assembly Fact-Finding Committee on Highways, Streets and Bridges and the allocation of costs for the construction, maintenance and improvement thereof.

WHEREAS, The public highways, streets and bridges of California are useful, necessary and indispensable arteries of travel and commerce and have been constructed and improved at great public expense; and

WHEREAS, Such facilities have been built and are maintained by the use of funds derived from taxes on property, from federal aid, and from registration fees, gasoline taxes and other fees collected as compensation for road use; and

WHEREAS, The development and growth of this State during and since the war have subjected the streets and highways of this State to unusual and destructive burdens; and

WHEREAS, It is recognized that pavements and other highway improvements are not permanent, but must be rebuilt, resurfaced and modernized, indicating the need of foresight in the treatment of financial problems in connection with the inevitable program of reconstruction; and

WHEREAS, The planning and construction of highways, streets and bridges in California must include a complete analysis of all the problems involved, including the fullest economic development of the State by opening up under-developed areas to economic opportunity and to provide proper transportation to meet changing economic and industrial conditions; and

WHEREAS, Careful study is required to determine whether the funds contributed for highway, street and bridge construction and maintenance have been levied equitably either on property or business in relation to its benefits or upon the users in direct proportion to their use; and

WHEREAS, Complete information should be available to the Legislature as to the actual annual cost of roads and streets and the fair apportionment of such costs between those who use them; and to that end the Legislature is in need of data as to the total mileage of roads and streets, the capital investment therein, the total sum which should be collected each year in road use charges or other fees in order to maintain, replace and modernize the same, and the proper amount which should be paid each year by users of public thoroughfares to meet the total annual cost of all public roads and streets; and

WHEREAS, The Legislature is in need of additional information on the foregoing matters, including (a) the present status of the highway system, state, county and local, (b) existing deficiencies therein to meet present demands, (c) a schedule of progressive improvements necessary to keep abreast of future demands, (d) a schedule of maintenance to keep the capital investment up to standard, (e) a schedule of improvements necessary to develop areas of the State that should be opened up to economic opportunity, (f) special problems relating to highways and matters incidental thereto, (g) the financing of highways and the administration of the highway system including alternate plans to those heretofore proposed for financing a highway construction program with the purpose of reducing as much as is equitable the burden of taxation which the motorist of the next decade must bear, (h) the inter-relationship between State and local Governments in relation to the foregoing and the inter-relationship of the State and Federal Government, and (i) the control of traffic on the highways in the interest of safety, which information should include so far as feasible both present needs and future needs for a period of at least 10 years; now, therefore, be it

Resolved by the Assembly of the State of California, As follows:

1. The Fact-Finding Committee on Highways, Streets and Bridges is hereby created and appointed and authorized and directed to ascertain, study and analyze all facts and matters relating or pertaining to the subjects set forth in the foregoing recitals, including but not limited to all facts relative to the cost of constructing, maintaining and improving public highways, streets and bridges in the State, the need and cost for bringing them up to acceptable standards, the cost of maintaining them in such condition, and the need and cost of expanding the Highway System of the State to meet the increasing demands for travel, the demands arising from changing economic and industrial conditions, and the opening up of undeveloped areas, the use now and hereafter to be made of such highways, streets and bridges, and the proper distribution and allocation of the cost and burden of construction and maintenance in proportion to benefits both to users and to property as demonstrated by impartial engineering studies, and also including but not limited to the operation, effect, administration, enforcement, and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution, and to report thereon to the Legislature, including in the reports its recommendations for appropriate legislation.

REQUEST FOR UNANIMOUS CONSENT THAT OPINION FROM THE LEGISLATIVE COUNSEL BE PRINTED IN JOURNAL

Mr. Lyon asked for, and was granted, unanimous consent that an opinion of the Legislative Counsel, relative to bills pertaining to municipal court judges and attaches, be ordered printed in the Journal, in 10 point type, as follows:

Opinion of Legislative Counsel

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 2, 1951

Honorable Randal F. Dickey
Assembly Chamber

DEAR MR. DICKEY:

Question

You have requested our opinion with reference to the bills increasing the compensation of municipal court judges and attaches. You ask whether such bills:

1. Must be referred, under Assembly Standing Rule 45 of the 1951 Regular Session, to the Committee on Ways and Means; and

2. Whether such bills may be enacted prior to final passage of the Budget Bill.

Opinion

Our conclusions are:

1. Such bills need not be referred to the Assembly Committee on Ways and Means.

2. Such bills, inasmuch as they do not involve an appropriation of state moneys, may be passed prior to final enactment of the Budget Bill.

Analysis

Under Section 25 of the Municipal Court Act of 1949 (Deering's General Laws Act No. 1880) and under Sections 11c and 22 of the Municipal Court Act of 1925 (Deering Act No. 5238) the salaries of the judges and attaches of the municipal courts are payable from county funds. Both acts expressly provide that such compensation shall be paid either from the salary fund or the general fund of the county. Therefore the bills which are now pending do not involve an appropriation of money by the Legislature and do not involve the expenditure of state money in any fashion.

Assembly Standing Rule 45 applies only to express appropriations and to implied appropriations of "state moneys." Since the bills in question do not make an appropriation and do not involve an expenditure of state moneys such bills are not subject to the provisions of Assembly Standing Rule 45.

Section 34 of Article IV of the State Constitution relates entirely to the "proposed expenditures of the State" and provides that with certain exceptions all of such expenditures shall be included in a "Budget Bill." It further provides:

> "Until the Budget Bill has been finally enacted, neither house shall place upon final passage any other appropriation bill, except emergency bills recommended by the Governor, or appropriations for the salaries, mileage and expenses of the Senate and Assembly."

Since the Municipal Court Bills do not make an appropriation this provision is obviously inapplicable to them and they may be passed prior to final enactment of the Budget Bill.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By CHAS. W. JOHNSON, Chief Deputy

REQUEST FOR UNANIMOUS CONSENT THAT LETTER OF TRANSMITTAL AND REPORT BE PRINTED IN JOURNAL

Mr. Hollibaugh asked for, and was granted, unanimous consent that a letter of transmittal and a Progress Report of the Assembly Interim Committee on State and Local Taxation as to Horse Racing in California be ordered printed in the Journal in 10 point type, as follows:

LETTER OF TRANSMITTAL

ASSEMBLY CHAMBER
SACRAMENTO, CALIFORNIA, May 2, 1951

Hon. Sam L. Collins, Speaker,
and Members of the Assembly

GENTLEMEN AND MRS. NIEHOUSE: Your Assembly Interim Committee on State and Local Taxation submits herewith a progress report on its findings and recommendations, in accordance with the direction of the standing Committee on Revenue and Taxation of 1949 to investigate the taxation of horse racing.

Respectfully submitted.

JONATHAN J. HOLLIBAUGH, Chairman,
Assembly Interim Committee on
State and Local Taxation

PROGRESS REPORT OF ASSEMBLY INTERIM COMMITTEE ON STATE AND LOCAL TAXATION AS TO HORSE RACING IN CALIFORNIA

DIRECTION TO THIS COMMITTEE TO INVESTIGATE THE TAXATION OF HORSE RACING

During the 1949 Session of the Legislature, a number of bills were introduced in the Assembly (and some in the Senate) seeking to change either the rate of taxation of horse racing or the disposition of funds derived from such taxation, or both.

Senate Bill No. 1404, of the 1949 Session, would have increased the State's portion of the pari-mutuel "take" at the expense of the two major race tracks, passed the Senate and was referred to the Assembly Committee on Revenue and Taxation for consideration.

The several Assembly bills on this subject were all referred to a subcommittee of the Assembly Revenue and Taxation Committee, consisting of Assemblyman Ernest R. Geddes, Chairman; Assemblymen Clayton A. Dills, and Augustus F. Hawkins.

This subcommittee held a lengthy hearing on June 14, 1949, and rendered a written report to the committee as a whole, recommending that the entire subject matter was one that might properly come before an Interim Committee on State and Local Taxation. This report appears in the 1949 Assembly Journal, page 4739.

Senate Bill No. 1404 (1949 Session), after passing the Senate, was heard before the full Assembly Revenue and Taxation Committee on June 23, 1949. It was estimated that this bill would have taken $1,200,000, or more, from the two larger Southern California tracks (Santa Anita and Hollywood) and would not have affected any of the tracks in the northern part of the State. The author stated before the committee that the purpose of his bill was to receive revenue and to alleviate public opinion in California against gambling.

After a full hearing on this bill, it was referred to the Assembly Interim Committee on State and Local Taxation for study, as had the Assembly bills.

HEARINGS BY, AND DATA COMPILED BY, THE INTERIM COMMITTEE ON STATE AND LOCAL TAXATION

This Assembly Interim Committee on State and Local Taxation held two public hearings, one in Los Angeles January 27, 1950, and one in San Francisco March 2, 1950, at which hearings representatives of the race tracks in the south and north, respectively, were heard.

This committee received various financial statements from the representatives of the several race tracks, thereafter required and received a number of reports as to the operations of the principal race tracks during the past two years, the pari-mutuel handle, expenses, profits, charitable contributions, and other data.

Additionally, the committee has received reports and data from the California Horse Racing Board, the California Thoroughbred Breeders' Association, and the Horsemen's Benevolent and Protective Association, the latter a charitable organization of horse owners and trainers.

In February, 1950, this committee compiled and published a document entitled "Memorandum in re: Taxation of Pari-Mutuel Betting at Horse Races—Disposition of Funds and Trend of Revenues."

The information received at said hearings and from the data received just referred to, has been studied and is the basis of this report.

As part of this report, the committee includes a "Brief Summary of Tax Methods By States" of the several race track states, which is hereto attached as Exhibit A. This document was obtained from a statistical report for the year 1950, published by the National Association of State Racing Commissioners.

HORSE BREEDING IN CALIFORNIA

When Senate Bill No. 1404 came before the Assembly Committee on June 23, 1949, the author informed the committee that, whereas the constitutional amendment authorizing horse racing and pari-mutuel wagering had been adopted by the people upon the assumption that racing was going to improve horse breeding in California, this had been a false premise.

The committee has investigated this subject, and we are advised by the California Thoroughbred Breeders' Association, an organization, as its name signifies, of those engaged in breeding and raising horses in California, of the following facts:

This association has 511 horse breeders in California as members (being the largest association of its kind in its existence).

About 75 percent of these own their own breeding farms; the others board their breeding stock at farms operated by other persons.

Thoroughbred breeding farms in California (including lands, buildings, stock, etc.) represent an estimated value of around $75,000,000.

Three hundred twenty-nine stallions are registered in the State.

Two thousand mares (approximately) are on these farms.

About 1,400 thoroughbred foals were registered with the Jockey Club of New York (official registration place for thoroughbreds) in one recent year, out of a total of 8,000 for the United States, Canada, Cuba and Mexico, or 17 percent of the total. California was the second largest production center of thoroughbred horses on the North American Continent.

The growth to the position just outlined of the thoroughbred breeding industry has been from practically nil in 1933, when racing was authorized in California.

California-bred horses win a majority of the thoroughbred races in California. For the fiscal year July, 1949-June, 1950, at the six major race tracks, California-bred horses won 1,337 races out of a total of 2,311.

These horse-breeding activities are a source of much local revenue to the counties in which the same are carried on.

RACE TRACKS IN CALIFORNIA

There are six principal race tracks in California, as follows:

Name of Track	*Company Operating*	*Near What City*
Santa Anita	Los Angeles Turf Club	Los Angeles
Hollywood Park	Hollywood Turf Club	Los Angeles
Bay Meadows	California Jockey Club	San Francisco
Tanforan	Turf Co., Ltd.	San Francisco
Golden Gate	Pacific Turf Club	Oakland and S. F.
Del Mar	Del Mar Turf Club	San Diego

A total of 273 days of thoroughbred racing at these six tracks occurred in the year 1950.

Additionally, thoroughbred racing is carried on at a number of fairs, there having been 79 days of fair racing in 1950.

Harness races are conducted at most of the fairs, and the Western Harness Association conducted a 40-day meeting in Southern California in 1950 (at the Santa Anita Race Track) Such harness racing being operated by a different company from the Santa Anita operating company, the Harness Association uses the track on a rental basis. A harness meet is conducted by that association at Santa Anita Race Track and Hollywood Race Track, in alternate years.

THE "TAKE" BY THE STATE AND RACE TRACKS FROM THE WAGERS OF THE PUBLIC

The relative importance of race tracks in the matter of taxation is based on the amount of gambling at the various race meetings.

A total of 13 percent is taken from the amount wagered by the public at any given meeting, and this 13 percent is divided as between the State of California and the particular race track as follows:

	Percent to State	*Percent to Track*
First $10,000,000 wagered	4%	9%
Second $10,000,000 wagered	5%	8%
Over $20,000,000 wagered	6%	7%

This is provided for in the Business and Professions Code, Sections 19485 and 19597.

Additionally, in paying off the public, the amount is calculated to 5 cents on each dollar wagered so that payment is not in odd cents; this results in an overage which is called "breakage", which is quite substantial.

"Breakage" on the first $27,000,000 wagered at any particular meeting goes to the particular track "Breakage" on all amounts over $27,000,000 goes to the State, into a special fund designated as the "State College Fund" (Bus. & Prof. Code, Sec. 19620.1).

Prior to 1947, all "breakage" went to the tracks. The two large Southern California tracks were the principal losers by the 1947 Amendment, which gave the State "breakage" on amounts over $27,000,000.

The State of California is thus a definite partner in this large-scale gambling enterprise. Our laws make betting on a horse race inside a race track, through the pari-mutuel machine where the race is about to be run, legal—to bet or take bets on such a race otherwise than through the pari-mutuel machine is illegal.

The interest of the State in having all gambling conducted within the track enclosure and through the pari-mutuel machine is obvious, likewise the interest of the track. Each gets a percentage of such bets, but nothing on illegal bets.

The partners in this gambling field are the State of California and the track, the State furnishing the permission to operate a gambling enterprise that would otherwise be illegal The track furnishes the racing plant, purses, etc., expecting to make money from its share of the pari-mutuel "take", and its admissions, concessions, etc.

Additionally, the State receives various license fees, and all unclaimed good pari-mutuel tickets. The amount of uncashed good pari-mutuel tickets is astonishing. The revenue to the State from this source in 1950 was $152,391.05.

COMPARISON OF RETURN TO STATE, PROFITS OF RACE TRACKS, PURSES TO HORSE OWNERS

The California Horse Racing Board has furnished the following figures as to the amount wagered, amount returned to the public, and the state revenues, all for the year 1950:

Place (Running races)	*Racing dates*	*Pool (wagered)*	*Returned to public*	*Total revenue to State*

Grand totals		$277,991,136 00	$239,757,758.85	$15,193,893.81

Considering only the six principal tracks, the following is a comparison of:

(1) The state "take" in taxes from each meeting;

(2) The profit of the particular track for the year; and

(3) The gross amount to horse owners in purses (for the year 1950, except as noted)

Track	*Total Revenue to State*	*Track Profit*	*Total of Purses to Horse Owners*
Santa Anita	$4,739,845.00	$1,034,673.25	$2,203,500.00
Tanforan	1,259,435.13	462,414.89	811,900.00

Del Mar	1,054,890.80	210,302.64	803,900.00
Bay Meadows	1,100,540.72	----[3]	839,900.00
	$13,976,004.65	$3,048,465.93	$7,319,850.00

[1] Fiscal year ending Nov 30, 1950
[2] Fiscal year ending March 31, 1950, includes $119,209 collected from use and occupancy insurance policy
[3] Figures for 1950 were requested, but not furnished

The State is clearly the most favored one in this deal. Its taxes are collected at comparatively little expense to the State. (Proposed in 1951-52 Budget $209,999, an increase of $80,628 over the budget for the previous year, because of the desire of the Racing Board to pay stewards and veterinaries representing the Racing Commission.)

The printed argument to the voters in favor of the constitutional amendment authorizing pari-mutuel betting, prophesied an income to the State of California of $1,000,000 a year if the amendment was approved by the people.

The current report of the California Horse Racing Board gives the amount of revenue as received by the State of California in each fiscal year since racing was legalized in California, as follows:

1933-1934	$259,657.36
1934-1935	1,005,103.36
1935-1936	1,587,373 44
1936-1937	1,933,259.84
1937-1938	2,661,142.32
1938-1939	3,030,689.56
1939-1940	2,832,230.66
1940-1941	3,799,115.10
1941-1942	1,515,435.18
1942-1943	1,077,685.21
1943-1944	2,375,186.16
1944-1945	8,258,568.58
1945-1946	22,779,402.22
1946-1947	18,741,499.55
1947-1948	20,117,506.78
1948-1949	17,091,734.69
1949-1950	14,813,984.21
Total Revenue to State	$123,879,574.22

In creating this revenue, the public has wagered over $2,300,000,000 through pari-mutuel machines at the various race tracks.

The operations at the six principal tracks from 1933 to 1950 have resulted in revenue to the State of California as follows:

Track	*Total Revenue to State*
Santa Anita	$45,506,637.47
Hollywood	38,985,216.73
Bay Meadows	17,350,504.58
Del Mar	7,538,135.20
Tanforan	7,294,422.62
Golden Gate	6,583,125.83

CONSIDERATION OF THE PROFITS AND POSITION OF EACH OF THE SIX PRINCIPAL RACE TRACKS

The committee has requested from each of the six principal race tracks financial statements and other data, and we briefly summarize the same here:

Santa Anita
(Operated by Los Angeles Turf Club)

This company was the principal target of the author of the Senate Bill No. 1404 at the 1949 Session, due to large profits made by this company.

The company operates one of the two largest and most pretentious tracks in the State, on a large tract of land near the City of Los Angeles, and in the City of Arcadia

The land used for this track is, obviously, worth an enormous amount of money, and is now surrounded by developed property.

This track has emphasized to the committee that they pursue a policy of putting a substantial part of their profits back into improvements.

This company has advised the committee of the following:

Profit of race meeting for year ending 11/30/50	$1,034,673.25
This compared to	1,284,555.78
for the previous year	
The value of the plant, real estate, etc., estimated at between $10,000,000 and $12,000,000 with additional improvements planned.	

The volume of betting at this track has been decreasing for the past several years as follows:

1946-1947	$123,436,852 00
1947-1948	108,727,729.00
1948-1949	87,419,464 00
1949-1950	77,981,791.00
1950-1951	75,946,261.00

This track advises that, while the pari-mutuel income has been decreasing, other income items, such as admissions and concessions, have decreased, while wages and other expense items have increased.

Santa Anita has made the largest distribution to horse owners of purses, and this has not been decreased. The importance of purses to the

breeding industry and the continuance of horse racing is hereafter discussed.

Santa Anita has also called our attention to the fact that racing was shut down at Santa Anita from December, 1941, to 1944. The race meeting scheduled to begin in December, 1941, was cancelled, due to war; again in December, 1944, a scheduled meeting was cancelled by order of war authorities. The United States Government used the property and facilities as a Japanese Assembly Center, and for other war operations. The company sustained an operating loss during these years of about $1,000,000 The facilities of Santa Anita are available in the event of another war emergency.

Hollywood Park
(Operated by the Hollywood Turf Club)

This track is the second largest in point of pari-mutuel betting and revenue accruing to the State from horse racing.

It is situated in the City of Inglewood, at the outskirts of the City of Los Angeles

Its grandstand and club house were destroyed by fire in the Spring of 1949, and the Assembly Revenue and Taxation Committee knew that the question of whether the plant would be rebuilt or the land on which the track was situated be used for other purposes, would be affected by the disposition of the various bills pending to increase the State's "take" at the expense of the two larger tracks.

Hollywood Park occupies a large area of land that is now surrounded by homes and other development, and, like the land on which Santa Anita is situated, is clearly of great value

The company estimates that the value of its plant, lands, buildings, etc., is approximately $11,000,000.

The grandstand and club house and other buildings destroyed by fire were rebuilt at a cost of $3,172,000

The profit of this company for its fiscal year ending March 31, 1950, was $971,155, which included $117,209 collected on a use and occupancy insurance policy as the result of the fire.

The pari-mutuel handle of this track has been declining much the same as Santa Anita's. The figures are:

Year	*Pari-mutuel Handle*
1946	$125,819,342
1947	102,733,154
1948	95,683,124
1949	70,350,567
1950	68,280,062

The purse distribution to horse owners at Hollywood has been second only to Santa Anita.

The purse distribution from this track in the year 1950 was $1,738,000. (Santa Anita's for 1950 was $2,203,500.)

Golden Gate Fields
(Operated by the Pacific Turf Club, Albany, California)

This track is located on the Oakland side of the San Francisco Bay, in an industrial district The current balance sheet as of November 30, 1950, shows total assets of $2,742,402.56. Its earnings for the year ending November 30, 1950 (before federal income taxes) was $611,867.49,

and, after taxes, $369,920.15. This is to be compared to profits after taxes for the previous year of $385,650.70. First distributions for 1950 were a little below the "4-3-2" Plan hereafter referred to. The total amount of the purses, $921,900.

This is the third largest track in point of pari-mutuel handle, the amount for the 1950 race meeting being $31,711,059. For the previous fiscal year the pari-mutuel handle at this track was $35,935,955.

Del Mar Race Track
(Operated by the Del Mar Turf Club, a Corporation)

This race track is located in the small town of Del Mar, about 20 miles north of the City of San Diego. Its patronage is drawn from the City of San Diego, from the City of Los Angeles, and towns adjacent to Del Mar.

For the year ending December 31, 1950, it reports profits after taxes of $210,302.64 (before income taxes, $343,302.64). For the previous year it reported profits after taxes of $318,663.81 (before income taxes, $528,-663.81).

It distributed in purses at its 1950 meeting $718,100. Its pari-mutuel handle for the meeting was $22,348,565 For the previous year the pari-mutuel handle was $24,577,243.

Tanforan Race Track
(Operated by Tanforan Company, Ltd., a Corporation)

This track is located at San Bruno, just outside the City of San Francisco, on a large tract of valuable land.

Its financial report at December 31, 1950, shows earnings for 1950 before taxes of $797,267.06, and after income taxes a net profit of $462,-414.89. This was a substantial increase over the previous year, when net profits for the year were $187,289.28.

The pari-mutuel handle at this track in 1950 was $25,672,773, as against a handle in 1949 of $20,640,727. Purse distribution was exactly at the "4-3-2" Plan. As hereafter noted, it would appear that purse distribution of this track was insufficient in relation to the earnings.

Bay Meadows
(Operated by California Jockey Club, Inc., a Corporation)

This track is located at San Mateo, just outside of San Francisco, on a tract of land which has great value, the surrounding area having been developed in recent years.

A financial statement as of the end of 1950 has not been made available, although requested by the committee.

Pari-mutuel "take" for 1950 has been received by the committee at $23,120,112, as compared to $24,492,190 for the previous year.

In 1950, the race meeting was 46 days as compared to 41 days for the previous year. Purse distribution in 1950 was $842,500.

CONSIDERATION OF PURSES AND BREEDERS' AWARDS TO HORSEMEN

The California Horse Racing Board is charged with the duty of passing on and approving the purse program of any race meet. Race horses are necessary to any race meet, and the rewards to horse owners must be considered.

The State's "take" from race tracks is practically all net revenue. The several race tracks operate (and must operate) at a profit.

The foundation of any horse breeding farm must be that the horses raced have a substantial value, which, in turn, depends on whether the opportunity to earn substantial returns in racing be available to such horses, to the end that the owners may hope for a profit on their operation.

Breeders of California horses that win races receive a breeder's bonus or fee of 10 percent of the amount of the winning purse in any race won in this State. This is paid by the track at which the race is won (Bus. & Prof. Code, Sec. 19562.)

These awards in 1950 totaled $259,272.98.

We have been furnished with statistics (by the Horsemen's Benevolent and Protective Association) giving a division of pari-mutuel income between the horsemen and tracks, after State and local taxes—showing percentage relationship between the horsemen and tracks—at 22 larger race tracks throughout the Country in 1950. Those statistics appear in the following table:

* 1949 meeting.

This same association advises that the costs of maintaining race horses are at peak levels, with no indications that such costs will diminish, that in the aggregate horse owners in California operate at a deficit of several million dollars a year.

The California Horse Racing Board has set a minimum amount of the pari-mutuel "take" at any principal race meet which must be divided in purses. This has been set at 4 percent of the first $10,000,000, 3 percent of the next $10,000,000, and 2 percent thereafter of all amounts wagered through the pari-mutuel machines.

This is called the "4-3-2" Plan. Two of the six principal tracks (Tanforan and Golden Gate) appear to follow this plan exactly, while the other four distribute purses in excess of the requirements of this "4-3-2" Plan.

Tanforan Race Track advised the committee that the "4-3-2" Plan required it to pay $813,455 to horsemen in 1950, and that it actually paid $813,450 (yet this track earned $462,414.89 after taxes in 1950, its earnings before income taxes being $797,267.26).

Golden Gate in 1950, on a pari-mutuel handle of $31,711,000, paid out in purses $921,900. Its earnings for 1950 before income taxes were $611,867.49, and after taxes, $369,920.15.

From the table of comparison between California tracks and Eastern tracks, it appears to be a question whether the California purse distributions are sufficiently high. The California Horse Racing Board, in its most recent report to the Governor and Legislature, states the following on this subject:

> "(f) The board has attempted to protect the horsemen by adopting a so-called 4-3-2 Rule. This rule provides there should be paid in purses and stakes not less and 4 percent of the first $10,000,000, 3 percent of the next $10,000,000, and 2 percent thereafter, of the amounts wagered through the pari-mutuel machines.
>
> "Historically, in comparison to tracks in the East, California tracks pay less to the horsemen than the tracks elsewhere of comparable prominence. The 4-3-2 Rule is not entirely satisfactory. It has been proposed by many horsemen that the Legislature should adopt a formula or set forth a rule by which horsemen would be assured of purses adequate to pay expenses. While the board feels that it can handle the matter and that it should remain flexible, inasmuch as it is a matter of urgent concern to so many in the business, we wish here to call it to your attention for whatever action may be deemed desirable."

So long as the State of California is to be a partner in these gambling concessions, and derive the revenue it does therefrom, it is highly important to the State that the owners of horses (without whom this activity cannot exist) be protected. This duty at present rests with the California Horse Racing Board, and, specific legislation being absent as to the amount of pari-mutuel "take" to be distributed in purses, the Racing Board should be diligent to see that a fair distribution is made to horse owners.

CHARITABLE ACTIVITIES OF RACE TRACKS

The various race tracks are substantial donors to charitable activities. Several members of the committee evinced an interest in these activities of the tracks, and we called upon all of the tracks to furnish us information on this subject.

Section 19538 of the Business and Professions Code provides that the Racing Board may allow not to exceed five additional racing days, to be known as "Charity Days." Where such days are allowed, the profits to go to non-profit organizations and corporations engaged in charitable and benevolent work selected by the track and approved by the board.

Most of the six major tracks run a number of "Charity Days," usually five days during a meeting, for the purpose of having the profits of these meetings distributed to charity.

In several instances, the charity end is handled by a separate foundation or charitable organization. Some of the tracks make charitable donations direct without the intervention of a foundation.

We will briefly discuss the charitable activity of each of the principal tracks:

Santa Anita

Very substantial charitable donations are made, some directly, and some through the "Santa Anita Foundation." Details of the charitable activities of this track for two years have been furnished the committee, and are hereto attached, as Exhibit B.

The committee is advised that the reserve for possible income taxes applicable to the profits of the charity days, as shown in this exhibit, will be available to charity, as the income tax authorities have ruled the profits not taxable.

Hollywood

This track's charities are substantial, and are handled through the "Hollywood Turf Club Associated Charities, Inc.," a separate charitable corporation.

The activities of this charitable organization are explained in the letter of the organization dated March 9, 1950, with a list of the donations for the past two years, all of which is attached to this report as Exhibit C.

Golden Gate

For the year ending November 20, 1950, this track made contributions of $14,579.79, of which $3,662.67 is stated as going to the "Golden Gate Fields Foundation," a charitable corporation, and $10,759 for restoration of the Santa Barbara Mission. This amount appears disproportionate to the earnings of this track ($611,867.49 before income taxes, and $369,920.15 after income taxes).

Tanforan

This track, for the year ending December 31, 1949, lists no contributions For the year ending December 31, 1950, an item of $8,985 appears as "Contributions." Clearly, this is out of proportion to other tracks. (Tanforan's earnings after taxes in 1950 were $462,414.89.)

Del Mar.

This track operates five days for charity, profits going to "Del Mar Charities", a non-profit charitable organization. These profits for 1948 were $41,279; for 1949, $42,041; for 1950, $20,331.70.

Bay Meadows

This track has furnished this committee with a statement of its charitable donations for 1950, written January 2, 1951, signed by W. P. Kyne, Chairman-manager, a copy of which is included in this report as Exhibit D.

The outstanding item of this report of contributions is one of $10,000 (out of a total of $27,000 distributed to charity) to an American Legion Post at Yreka, California.

While this American Legion Post at Yreka is undoubtedly a worthy organization, there must be many other Legion posts and charitable institutions equally worthy, and many located in the vicinity of San Francisco that would seem to have a prior call on charitable donations made by a race track dependent upon San Francisco people for patronage.

Stricter supervision by the Racing Board of charitable contributions appears to be proper and necessary.

Legislation to more carefully regulate charity days at the various race tracks, containing provisions to eliminate any revenue to the State from such charity days, is pending in this 1951 Session. Strict regulation of these activities by the State is essential and should be spelled out carefully in a statute. Such legislation as presently proposed contemplates that the State shall yield its revenue on such charity days. This committee recommends against the State yielding any part of its revenue. It is obvious that the purpose of such charity days by the tracks is to create goodwill towards the race tracks, and to soften criticism of this form of gambling. An examination of the list of beneficiaries of the charity donations shows a wide range, from many Community Chests, religious organizations, and in the Los Angeles area substantial contributions to charities connected with the metropolitan newspapers, all calculated to create goodwill for the race tracks. This committee sees no reason at this time for the State to yield its revenue on such charity days, to enable the tracks to distribute larger sums in these goodwill efforts.

CONCLUSIONS AND RECOMMENDATIONS

The committee concludes that the State of California's share of race track betting is a fair one, that the fable of "killing the goose that lays the golden egg" would seem to apply to this situation, that race tracks and horse owners must make money or the State cannot derive the revenue it does from this source, and that for the State to take too much would end racing. The question of whether to end racing in California or continue it is not the problem for a committee on taxation to consider. Our problem has been to consider whether the "take" of the State from this gambling enterprise is a fair one. It is clear that the State of California is the chief beneficiary from these race track operations.

The committee recommends as follows:

(1) That there be no change in the amount of the pari-mutuel "take" to the State of California.

(2) That the California Horse Racing Board exercise vigilance to see that horse owners are awarded a fair amount of the profits of racing at the several tracks from the purses awarded in the various races run. The Racing Board should scrutinize carefully the proposed distributions by the tracks in an endeavor to have the race tracks in California make

purse distributions comparable to the other race tracks throughout the country, consistent with a fair profit to the race track.

(3) That charitable distributions of the tracks from charity days be carefully scrutinized and be not made until after approval by the Racing Board. The racing days designated as charity days by the board should be strictly regulated by the State, to the end that the profits from these charity days actually go to charitable purposes. The Committee recommends that the State do not yield its revenue from the charity days to enlarge the sums which race tracks have for goodwill purposes.

Respectfully submitted.

To the rush of the busy fray.
Speak in the cadence of my voice,
Shine through my happy eyes
Let the steady clasp of a friendly hand
Bring the peace of the mountain skies."

"The heavens declare the glory of God; and the firmament showeth His handywork. Day unto day uttereth speech, and night unto night showeth knowledge." Sunshine and rain, springtime and harvest, all belong to Thee.

In the beauty of this new day, show us the Beauty of Thy Holiness.

Grant this, we pray, through Jesus Christ, our Lord—AMEN.

have not been paid. *In case of a contract with the State entered into by or through any state department, board, commission or officer, such statement shall be filed with the head of such department, board, commission or officer and not with the State Controller.*

(b) Except as to contracts awarded under the State Contract Act, Chapter 3, Part 5, Division 3, Title 2 of the Government Code, within 10 days after the completion of any contract, structure, or work of improvement to which Chapter 3 of Division 5, Title 1 of the Government Code applies, or within 10 days after there has been a cessation from labor thereon for a period of 30 days, the State, or any public board, commission, or officer thereof, or any political subdivision thereof, may file for record in the office of the county recorder of the county or counties where the property is situated a notice setting forth the date when the same was completed or on which cessation from labor occurred, together with the name of the state or such public board, commission, or officer thereof, or such political subdivision thereof, and a description of the property or public work or structure sufficient for identification, and the name of the contractor or contractors, and the names of the sureties, if any. The notice shall be verified by some officer of the State or some member of such board, commission, or officer thereof, or of such political subdivision thereof. If the notice is not so filed, the failure to do so has the same effect as is provided in Section 1193.1 with reference to the "owner."

(c) Actions against the State, public board, commission, or officer thereof, or the political subdivision of the State, or the disbursing officer whose duty it is to make payments under the provisions of the contract for the public improvement in question, brought by any claimant who has filed claim under this section, or his assign, shall be governed by the provisions of Sections 1190.1 and 1197.1 and the verified notice provided for in those sections is equivalent for all purposes to the verified claim provided for herein.

(d) No assignment by the contractor of the whole or any part of the money due him or to be due him under the contract, or for "extras" in connection therewith, whether made before a verified claim is filed as provided for herein or after the claim is filed, takes priority over claims filed under this section and such assignment has no binding force insofar as the rights of the claimants who file claims hereunder, or their assigns, are concerned.

(e) This section does not prohibit the payment of any money to the contractor to his assigns, so long as no verified claim is on file before the disbursing officer has actually surrendered possession of the warrant, checks, bonds, or money or the payment to the contractor or his assigns of any money due him or his assigns over and above the total amount of the claims filed at that time plus such interest and court costs as might be reasonably anticipated in connection with the claims.

(f) If the contractor, subcontractor, or other person against whom any claim is filed as provided in this section disputes the correctness or validity of any claim so filed, the controller, auditor, or other public disbursing officer whose duty it is to make payments under the provisions of such contract or the commissioner, managers, trustees, officers, board of supervisors, board of trustees, common council, or other body by whom the contract for the improvement was awarded, in its or his discretion, may permit the contractor to whom the contract was awarded to deliver to such board, commission, or officer a bond executed by some corporation authorized to issue surety bonds in the State of California, in a penal sum equal to one and one-fourth times the amount of the claim, which bond shall guarantee the payment of any sum which the claimant may recover on the claim together with his costs of suit in the action, if he recovers therein. *In case of a contract with the State entered into by or through any state department, board, commission or officer, the bond shall be delivered to the head of such department, board, commission or state officer and not to the State Controller.* Upon the filing of the bond by and with the consent of such board, commission or officer, then such board, commission or officer shall not withhold any moneys from the contractor on account of the claim. The sureties upon the bond are jointly and severally liable to the claimant with the sureties upon the contractor's bond given in accordance with Chapter 3 of Division 5, Title 1 of the Government Code.

Although we believe the public should be given all information relative to amendments to the Constitution which entail the expenditure of public funds, we question whether a state officer or employee is the proper person to furnish this information. One individual, who could be biased, and subject to legislative pressure, should not be granted such an important power which could sway the voters to vote either for or against a proposition.

STATEMENT OF VOTE ON ASSEMBLY BILLS NOS. 996 AND 997

It was my understanding that Assembly Bill No. 996 and Assembly Bill No. 997 would not be taken up on May 2, 1951, during my absence.

While these bills affect only Los Angeles County, I would have noted "no," because of the affect these bills may have on the entire reorganization plan of the inferior courts in California.

These bills do not represent the views of the Los Angeles Supervisors or the Judicial Council.

Assembly Constitutional Amendment No. 49 proposed that local home rule would be considered, and that the courts would not be stacked with new departments or attaches.

These bills would increase the cost of the reorganization plan for Los Angeles by nearly $430,000 and completely offsets the possibility of having an economical Inferior Court System in California.

The people have a right to expect that we will go slowly in forming new courts.

Sec. 3.5. Any part of the land included within an established zone may be excluded therefrom by the board of supervisors if at a hearing on the matter it determines that the exclusion would be for the best interests of the zone, or that the land would no longer be specially benefited by its continued inclusion in the zone and that the land remaining in the zone would continue to be specially benefited by remaining as a zone. The board may order such hearing on its own motion and shall do so upon a petition for exclusion being filed with the clerk of the board, signed by the owners of ten per cent in assessed value of the real property within the area described in the petition or upon receipt by the clerk of a resolution requesting exclusion, adopted by the majority vote of the governing body of any city, or of any public district formed for the purpose of supplying water, all or any part of which is included in the zone. Petitions of property owners must contain a description of the property in which each signer claims ownership, sufficient to identify the same. The clerk shall transmit such petition to the assessor who shall certify to the board of supervisors whether such properties assessed to such petitioners, as shown on the last equalized assessment roll, have an assessed value of ten per cent or more of the assessed value of all taxable real property within the area sought to be excluded.

Notice of such hearing shall be given in the manner described in Section 3.2 and shall contain a description of the land sought to be excluded and a statement of the purpose of the hearing.

At the hearing, evidence may be presented concerning either or both of the elements to be determined by the board as a prerequisite to the exclusion of the land described. The hearing may be continued from time to time not to exceed sixty days in the aggregate. If the board so determines, it shall thereupon by resolution declare such land excluded from the zone.

SEC. 5 Section 3.6 is added to said act, to read:

Sec. 3.6. Any zone established pursuant to Section 3.1 of this act may be terminated by the board of supervisors after a public hearing on the matter. Such hearing may be ordered upon motion of the board, and shall be ordered upon a petition for termination being filed with the clerk of the board, signed by the owners of 10 percent of the taxable real property within the zone as ascertained by reference to the last equalized county assessment roll, or upon the filing with the clerk of a resolution requesting termination adopted by a majority vote of the governing body of any city, or of any public district formed for the purpose of supplying water, all or any part of which is included within the zone. The determination of the percentage of owners of real property signing the petition for termination shall be made and certified to by the assessor in the manner described in Section 3.5.

Notice of such hearing shall be given in the manner described in Section 3.2. The notice shall contain a description of the zone, a general statement of its activities, and the purpose of the hearing.

At the hearing, evidence may be presented concerning the necessity, or lack thereof, for continuing the zone. The hearing may be continued from time to time not to exceed 60 days in the aggregate. If the board determines that such necessity no longer exists, or that the public interest otherwise requires the termination of the zone, or that the real property is no longer benefited, the board shall thereupon by resolution declare the zone terminated for all purposes except those necessary to finance outstanding contracts. When such contracts have been satisfied the zone will terminate for all purposes, effective at the close of the then current fiscal year.

Such a zone shall terminate without hearing at the end of the third or fourth fiscal year during which taxes were, or could have been, levied for zone purposes if certified copies of resolutions requesting such termination are filed with the board of supervisors, as hereinafter provided, on or before 60 days prior to the date of the requested termination. Such resolutions shall be sufficient if adopted by a majority vote of the governing bodies of cities or of public districts formed for the purpose of supplying water within which cities or public districts or both, there is taxable real property situated within the zone having an assessed value equal to not less than 35 percent of the assessed value of all of the taxable real property within the zone, as shown by the equalized assessment roll of such fiscal year.

If not sooner terminated, such zone shall terminate without hearing at the end of the fifth fiscal year during which taxes were, or could have been, levied for zone purposes. A new zone comprising or including all or any part of an original zone which has been terminated pursuant to the provisions of this section, shall not be established if protests are filed with the clerk of the board, at least fifteen (15) days prior to the date set for hearing thereon, which protests have been adopted by a majority vote of the governing bodies of cities or of public districts formed for the purpose of supplying water, within which cities or public districts or both, there is taxable real property situated within the proposed zone as described in the notice of hearing, having an assessed value equal to not less than 35 percent of the assessed value of all of the taxable real property within the proposed zone as described in said notice of hearing, as shown on the last equalized assessment roll.

Any remaining funds of a terminated zone shall be added to the general funds of the district and shall be expended by the district for water conservation in a manner beneficial to the area within the terminated zone in addition to that normally performed."

"SEC. 8. Section 2 of said act is amended to read:

Sec. 2. It is hereby found and declared that there exist in many communities in this State blighted areas which constitute either social or economic liabilities, or both, requiring redevelopment in the interest of the health, safety and general welfare of the people of the communities in which they exist and of the people of this State generally. These blighted areas are characterized by one or more of the following conditions:

(a) The existence of buildings and structures, either used or intended to be used for living, commercial, industrial or other purposes, or any combination of such uses, which by reason of defective design and character of physical construction, faulty interior arrangement and exterior spacing, high density of population and overcrowding, inadequate provision for ventilation, light, sanitation, open spaces and recreation facilities, age, obsolescence, deterioration, dilapidation, mixed character or shifting of uses to which they are put, or any combination of such factors and characteristics, are unfit or unsafe to occupy for residential, commercial, industrial or other purposes and are conducive to ill health, transmission of disease, infant mortality, juvenile delinquency and crime.

(b) An economic dislocation, deterioration or disuse, as a result of faulty planning, the subdividing and the sale of lots of irregular form and shape and inadequate size for proper usefulness and development, the laying out of lots in disregard of the contours and other physical characteristics of the ground and surrounding conditions, or the existence of inadequate streets, open spaces and utilities, or of lots or other areas which are subject to being submerged by water.

(c) A prevalence of depreciated values, impaired investments and social and economic maladjustment to such an extent that there exists a reduced capacity to pay taxes and consequent inadequacy of tax receipts in relation to the cost of public services rendered.

(d) A growing and in some instances a total lack of proper utilization of areas, resulting in a stagnant and unproductive condition of land potentially useful and valuable for contributing to and serving the public health, safety and welfare; and in other areas a loss of population and reduction of useful utilization of the area, resulting in the further deterioration thereof and in added costs to the taxpayer supporting governmental entities for the creation of new public facilities and services elsewhere.

It is further found and declared that the existence of blighted areas characterized by any or all of such conditions, separately or collectively, constitutes a serious and growing menace which is hereby condemned as injurious and inimical to the public health, safety and welfare of the people of the communities in which they exist and of the people of the State generally; that such areas present difficulties and handicaps which are beyond remedy and control solely by regulatory processes in the exercise of the police power; that they contribute substantially and increasingly to the problems of, and necessitate excessive and disproportionate expenditures for, crime prevention, correction, prosecution and punishment, the treatment of juvenile delinquency, the preservation of the public health and safety and the maintaining of adequate police, fire and accident protection and other public services and facilities; that this menace is becomingly increasingly direct and substantial in its significance and effect; that the benefits which will result from the remedying of these conditions and the redevelopment of these areas of blight will accrue to all the inhabitants and property owners of the communities in which they exist.

It is further found and declared that such conditions of blight tend to further obsolescence, deterioration and disuse because of the lack of incentive to the individual landowner and his inability to improve, modernize or rehabilitate his own particular property while the condition of the neighboring properties remains unchanged; that as a consequence the process of deterioration of a blighted area frequently can not be halted or corrected except by redeveloping the entire area, or substantial portions thereof; that such conditions of blight are chiefly found in areas which have been subdivided into small parcels, that in most instances the lands are held in divided and widely scattered ownerships, frequently under defective titles, that in many such instances the private assembly of the lands in blighted areas for purposes of redevelopment is so difficult and costly that it is uneconomic and as a practical matter impossible for individual owners independently or collectively to undertake to remedy such conditions because of lack of the legal power necessary for, and the excessive costs involved in, the private acquisition of the real property of the area; that the remedying of such conditions may require the public acquisition at fair prices of adequate areas, the clearance of the areas through demolition of existing obsolete, inadequate, unsafe and insanitary buildings and the redevelopment of the areas suffering from such conditions under proper supervision, with appropriate planning, and continuing land use and construction policies.

For these reasons it is hereby declared to be the policy of this State to protect and promote the sound development and redevelopment of blighted areas within this State and the general welfare of the inhabitants of the communities in which they exist by remedying such injurious conditions through the employment of all means appropriate for that purpose; that whenever the redevelopment of blighted areas can not be accomplished by private enterprise alone, without public participation and assistance in the acquisition of land, in planning and in the financing of land assembly, in the work of clearance and in the making of improvements necessary therefor, it is in the public interest to employ the power of eminent domain, to advance or expend public funds for these purposes and to provide a means whereby the blighted areas within this State may be redeveloped or rehabilitated; that the redevelopment of such blighted areas and the provision for appropriate continuing land use and construction policies therein, constitute public uses and purposes for which public money may be advanced or expended and private property acquired, and are governmental functions of State concern in the interest of the health, safety and welfare of the people of the State generally and particularly of the people of the communities of the State in which such areas exist; [that it is in the public interest that work on such projects be commenced as soon as possible in order to create postwar employment;] and that the necessity in the public interest for the provisions hereinafter enacted is hereby declared to be a matter of legislative determination.

SEC. 9. Section 2 1 of said act is amended to read:

Sec. 2.1. It is hereby found and declared that blighted areas [shall] *may* include housing areas constructed as *temporary government-owned* wartime housing

All moneys received by the agency from the sale, lease or encumbering of property acquired with moneys from the Redevelopment Revolving Fund in excess of the money required to replay the loans and interest thereon authorized by this act shall be redeposited in the fund. All other provisions of this act that relate to financing shall be subject to the provisions of this section. Nothing contained in this section shall authorize a redevelopment agency to construct any buildings, but such redevelopment agency shall be subject to the limitations imposed by the provisions of Section 29 of this act. If any property acquired in whole or in part from the Redevelopment Revolving Fund is to be sold or leased by the redevelopment agency, the sale or lease must first be approved by the legislative body. Such approval by the legislative body shall be by resolution adopted after public hearing. Notice of the time and place of such hearing shall be published once in the official newspaper of the community at least one week prior to such time. Such resolution shall be adopted by a majority vote unless the legislative body shall have provided by ordinance for a two-thirds vote for such purpose.

33004. A [redevelopment] *project* area need not be restricted to buildings, improvements, or lands which are detrimental or inimical to the public health, safety, or welfare, but may consist of an area in which such conditions predominate and injuriously affect the entire area. A [redevelopment] *project* area may include lands, buildings, or improvements which are not detrimental to the public health, safety or welfare, but whose inclusion is found necessary for the effective redevelopment of the area of which they are a part.

33004.5. A project area shall comprise either (1) at least one block bounded on all sides by public highways as shown on the official map of the community or (2) where no official map exists, an area of not less than 90,000 square feet, including any highways, streets, or alleys.

SEC. 14. Section 33011 of said code is hereby repealed.

SEC. 15. Section 33013 of said act is amended to read:

33013. "Redevelopment" means the planning, development, replanning, redesign, clearance, reconstruction, or rehabilitation, or any combination of these, of all or part of a [redevelopment] *project* area, and the provision of such residential, commercial, industrial, public, or other structures or spaces as may be appropriate or necessary in the interest of the general welfare, including recreational and other facilities incidental or appurtenant to them.

It does not exclude the continuance of existing buildings or uses whose demolition and rebuilding or change of use are not deemed essential to the redevelopment and rehabilitation of the area. It includes:

(a) The alteration, improvement, modernization, reconstruction, or rehabilitation, or any combination of these, of existing structures in a project area.

(b) Provisions for open space types of use, such as streets and other public grounds and space around buildings, and public or private buildings, structures and improvements, and improvements of public or private recreation areas and other public grounds.

(1) The areas are stagnant or improperly utilized because of defective or inadequate street layout, faulty lot layout in relation to size, shape, accessibility, or usefulness, or for other causes.

(2) The areas require replanning and land assembly for reclamation or development in the interest of the general welfare because of widely scattered ownership, tax delinquency, or other reasons.

SEC. 16. Section 33267 of said act is amended to read:

33267. Within the [redevelopment] *project* area or for purposes of redevelopment an agency may:

(a) To protect and promote the sound development and redevelopment of blighted areas and the general welfare of the inhabitants of the communities in which they exist by remedying such injurious conditions through the employment of all appropriate means.

(b) That whenever the redevelopment of blighted areas cannot be accomplished by private enterprise alone, without public participation and assistance in the acquisition of land, in planning and in the financing of land assembly, in the work of clearance, and in the making of improvements necessary therefor, it is in the public interest to employ the power of eminent domain, to advance or expend public funds for these purposes, and to provide a means by which blighted areas may be redeveloped or rehabilitated.

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Senate Bill No. 676:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 3, 1951

To the Honorable Members of the Assembly
Sacramento, California

GENTLEMEN:

Senate Bill No. 676, "An act to amend Sections 9765, 9769, and 9770 of the Business and Professions Code, relating to cemeteries,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

The funds which would be made available by Section 9 of this bill are necessary to provide for the continued operation of the Cemetery Board during the balance of the present fiscal year.

I therefore recommend consideration of Senate Bill No. 676 as an emergency measure.

Respectfully submitted.

Collins, Condon, Connolly, Conrad, Cooke, Crowley, Dickey, Dills, Dolwig, Doyle, Dunn, Elliott, Evans, Fleury, Gaffney, Grant, Gubser, Hagen, Hahn, Hansen, Henderson, Hollibaugh, Kelly, Kirkwood, Klocksiem, Lanterman, Levering, Lindsay, Lowrey, Luckel, Lyon, Maloney, McCarthy, McCollister, McFall, McGee, McMillan, Meyers, Morris, Moss, Mrs. Niehouse, Messrs. Parker, Porter, Rumford, Shaw, Silliman, Stanley, Thomas, and Waters:

House Resolution No. 135

Extending felicitous greetings to the Republic of Mexico upon the occasion of its national holiday, Cinco de Mayo

Cinco de Mayo has been a date revered in Mexico since that day in 1862 when Ignacio Zarogoza and his men, greatly outnumbered, defeated the French in the Battle of Guadalupe, near Puebla, to set a valiant example for the people of Mexico through the hard struggle which was to follow, that the flaming love for freedom in the hearts of the people should never dim, nor courage falter, until the spirit that won the Battle of Guadalupe should emerge eternally triumphant in the establishment of national independence and freedom

As the people of Mexico celebrate the national holiday of Cinco de Mayo, the people of the State of California join in spirit with our good friends and nearest neighbors in homage to the courage and love of freedom of those who fought the battles against foreign domination and whose vigilance and wisdom guarded and guided the infant nation so well that today Mexico shares with the rest of this hemisphere a common heritage of freedom and independence, and speaks with a firm voice in world councils for the maintenance of freedom and peace for all the peoples of the earth; now, therefore, be it.

Resolved by the Assembly of the State of California, That the Members of this Assembly, on behalf of the people of the State of California, extend to the people of Mexico felicitous greetings upon the occasion of the celebration of their great national holiday, Cinco de Mayo, conveying to them expressions of warm friendship and good will; and be it further

Resolved, That the Chief Clerk of the Assembly send a suitably engrossed copy of this resolution to His Excellency, the President of the Republic of Mexico.

Resolution read, and adopted unanimously.

Mr. Shaw moved that House Resolution No. 135 be translated into Spanish, and that 1,000 copies be printed as a separate document.

Mr. Rosenthal seconded the motion.

Substitute Motion

Mr. Waters moved that the remarks by Mr. Geddes relative to House Resolution No. 135 be ordered printed in the Journal, in 10 point type.

Mr. Doyle seconded the motion.

Substitute motion carried.

REMARKS BY MR. GEDDES RELATIVE TO HOUSE RESOLUTION NO. 135

Mr. Speaker and Members: Joining with Mr. Rosenthal in presenting this resolution in observance of the Cinco De Mayo, I do so because of an obligation which I feel that I should discharge at every opportunity to show my gratitude to the people of our sister Republic for the manifold kindnesses and courtesies which they have extended me during the years that I lived in the Republic of Mexico. For 16 years as a boy and afterwards for two years as a grown man I learned that our Mexican brothers are people unfailing in their courtesy and understanding. There are those perhaps who may regard Mexico as a backward nation but I declare to you that it is not so. In many ways we may measure Mexico as having been before the people of this Country in establishing and using things that are modern. May I call to your attention that Mexico was already established as a Crown Colony of Spain when the Pilgrims were still on their way to settle on the New England shores from England. May I remind you that the first Lodge of Freemasons was established in Mexico before there was a corresponding Lodge in the English Colony. It is a known fact that the first air mail service between regular designated termini was established in Mexico before this Country had established air mail routes, and also that that great mark of civilization, the printing press, functioned in Mexico before it did in the northern colonies which later became part of the United States.

The Cinco De Mayo as is explained in the resolution is a date of significance to a people who have not only fought their own battle for freedom and thereby won our admiration, but have continued to utilize that freedom and today are a friendly neighbor and one which will aid us in our undertakings whereby we seek to establish a better world in which free people may dwell.

MOTION BY MR. SHAW ORDERED REFERRED TO THE COMMITTEE ON RULES

By unanimous consent, the motion by Mr. Shaw, that House Resolution No. 135 be translated into Spanish, be printed as a separate document, and that 1,000 copies be printed, was ordered referred to the Committee on Rules for consideration, with instructions to Mr. Hollibaugh to present the motion.

In public duty, and in private thinking."

"SECTION 1. The Legislature hereby finds and declares that unprecedented growth in California, particularly since 1940, has created many new and difficult problems of government. One such problem has arisen in the unincorporated areas of many counties where, as a result of large population growth and extensive residential, commercial and industrial development, these areas require governmental services commonly provided by cities. Many of these areas do not now choose to incorporate or annex to cities.

At the present there is no adequate method of providing efficient and economical performance of multiple urban services in such areas. Boards of supervisors throughout the state, faced with the demand for services from these areas and recognizing the need, have been obliged either to require such areas to create numerous overlapping special purpose districts or to provide the services directly through the county departments. In these circumstances the tendency of many boards of supervisors has been, and increasingly is, to provide these services directly. The law, however, makes no provision for assessment of the cost of such direct county services against the benefited persons and property. Such expenditures are made from the county general fund to which both city and rural property owners contribute through general county taxes. Thus a serious tax inequity has arisen.

The residents and property owners of such unincorporated urban areas of the county are entitled to have made available to them reasonable alternative methods of providing or securing the urban services they require and to choose among the alternatives the method best suited to their local circumstances. Equity requires, in addition, that the inhabitants and property owners of such areas pay for such urban

services rather than to continue to receive them as a result of taxes paid largely by others.

It is, therefore, the purpose of this act to provide additional alternative methods for the provision of such urban services in urban unincorporated areas; to require the payment of such costs by the benefited persons and property; and to establish procedures for the determination and payment of such costs.

SEC. 2. Chapter 3.3 is added to Part 2, Division 2 of the Government Code, to read:

CHAPTER 3.3. URBAN UNINCORPORATED AREAS

25260. On or before March 31, 1953, the board of supervisors of each county shall classify all real property located in the unincorporated area of the county as: (1) urban; or (2) rural.

25261. Real property shall be classified as urban:

(a) If the established or rapidly developing type of land use in the area represents such a degree of residential, commercial or industrial development, or a combination of such uses, as to establish the urban character of the area, as distinguished from those unincorporated areas of the county where the nature of land use and the degree and density of development are such as clearly to retain a rural agricultural character; and

(b) If the nature and extent of such development requires urban services commonly provided within cities, because of population and land use density, which services are not commonly provided or provided to such an extent in the rural agricultural areas of the county.

25262. All unincorporated areas of the county not classified as urban shall be classified as rural.

25263. In classifying any parcel of real property as urban or rural, the board of supervisors shall be guided by the predominant character of land use in the area; provided, however, that as to unimproved property lying along the exterior boundaries of an urban unincorporated area, the board of supervisors shall take into account whether the present or immediately intended use of the land is urban or rural and shall be guided in the classification by such use or intention.

25264. 'Urban Services', as distinguished from 'county standards of service", mean those governmental functions or facilities provided in the unincorporated area of the county which are made necessary as to kind, quality, extent, standard or degree by the urban nature of land use in the area. In determining services which are urban, each board of supervisors first shall identify the services and activities of county government which are performed only in the unincorporated areas of the county. Determination shall then be made of the standards of such services and activities provided in the rural agricultural areas. These are the standards or degrees of service which would be provided throughout the unincorporated area of the county except for the factor of urban development. The board shall then take into account in connection with its determination of each urban service provided in the urban unincorporated areas, the extent to which the county actually provides at county expense or makes direct financial contributions to the support of the same service within all the cities of the county. Services provided or supported in the urban unincorporated area of the county and not provided or supported in the rural area or within cities, and standards or degrees of service provided in the urban unincorporated areas of the county higher than the standards of service provided in the rural agricultural areas and not provided or supported to a like extent within the cities, are hereby defined as and declared to be special urban services by the county to unincorporated urban areas.

25265. On and after July 1, 1953, unincorporated urban areas shall be required to pay all costs, direct and indirect, of urban services provided by the county. Between March 31, 1953, and July 1, 1953, the board of supervisors of each county, after public hearing, shall determine in the manner above provided the extent and cost of urban services being provided urban unincorporated areas and shall cause notice to be given to the inhabitants and property owners of such areas in order that steps may be taken by the inhabitants and property owners of such areas to select and arrange for the method by which they choose to provide and pay for such services.

SEC. 3. Chapter 3 5 is added to Part 2, Division 2 of said code, to read:

CHAPTER 3.5. URBAN SERVICE ZONES

25270. As a method of assessing such costs upon persons and property within the urban unincorporated areas served, the board of supervisors may establish an urban service zone or zones in the urban unincorporated area of the county in the manner provided in this chapter and levy taxes upon taxable property within any such zone or zones as hereinafter provided.

25271 The board of supervisors may commence proceedings for the establishment of an urban service zone or zones within the urban unincorporated area of a county by the adoption of a resolution of its intention to establish such a zone or zones, and setting a time and place for public hearing on the creation of such zones. The hearing shall be not less than 30 days nor more than 60 days after publication of the resolution.

25272. Notice of such hearing shall be given by the clerk of the board of supervisors by publication of a notice of hearing and the resolution of intention at least once in a newspaper of general circulation published in the county.

25273. In addition to the resolution of intention the notice of hearing shall:

(a) State that the proceedings are conducted pursuant to this chapter.

(b) State the time and place for the hearing.

(c) State that at the hearing the testimony of all interested persons will be heard.

(d) State that the purpose of the hearing is to create and establish urban service zones within which taxes will be levied to pay the costs of urban services provided such zones by the county.

(e) Include a tentative map or maps of proposed urban unincorporated areas and a list of urban services and approximate tax rates applicable thereto.

(f) State that at said hearing protests will be considered by the board of supervisors.

(g) State that at said hearing requests in writing for the exclusion from or inclusion in any of the proposed zones will be considered by the board of supervisors.

25274. At the hearing the board of supervisors shall hear all testimony and consider documents, maps or exhibits introduced by any interested person. The board may continue the hearing from time to time not exceeding 60 days.

25275. At the hearing protests may be made orally or in writing by any interested person. Any protest pertaining to the regularity or sufficiency of the proceeding must be in writing and must clearly set forth the irregularities and defects to which objection is made. All written protests must be filed with the clerk of the board of supervisors on or before the time fixed for the final hearing. Written protests may be withdrawn in writing at any time before the hearing.

25276. If the board determines that all urban services rendered by the county are uniformly provided to one or more urban unincorporated areas of the county it may establish such urban unincorporated area or areas of the county as a single urban service zone.

25277. If the board determines that only certain urban services rendered by the county, but not all such services, are uniformly provided to all urban unincorporated areas of the county, it may establish all such urban unincorporated areas of the county as a single urban service zone with respect to such services. In such case the board shall establish other zones defining the areas which receive the balance of the urban services rendered by the county in urban unincorporated areas.

25278. The board of supervisors shall not be deprived of jurisdiction to proceed with the hearing, nor shall the proceeding be invalidated by any clerical error in the published notice.

25279. At the conclusion of the hearing the board shall deny or allow all protests and requests for exclusion from or inclusion in urban service zones, and shall by resolution finally determine and establish the boundaries of such zones within the county. A map showing the boundaries of the urban service zone or zones as finally established in substantially the same form as the tentative map shall be published at least once in a newspaper of general circulation published in the county within two weeks after the adoption of the resolution of final determination. From the date of the adoption of the resolution finally determining and establishing the urban service zone or zones within the county, the zone or zones thereby established shall be and constitute the official urban service zone or zones of the county, until modified by proceedings taken pursuant to Section 25280, or inclusion within an incorporated city, urban district or district.

25280. Proceedings for modifications of the boundaries of urban service zones to meet changed conditions may be undertaken by the board of supervisors in the same manner as proceedings for the original establishment of zones; provided that no change in boundaries shall be effective for purposes of taxation for the fiscal year following the change in boundaries unless completed prior to the first Monday in February.

25281. After the establishment of an urban service zone or zones within a county the board of supervisors shall annually levy and collect, at the same time and in the same manner as other county taxes are levied and collected, a tax upon all taxable property within each urban service zone in the county in an amount sufficient to pay all costs, direct and indirect, of urban services furnished by the county within such zone. If more than one zone is established in a county, the zones may be given consecutive numbers for convenience of reference.

25282. Whenever any portion of an urban service zone is included with a city by reason of incorporation, annexation or otherwise such portion shall be withdrawn. All urban service zone taxes collected by the county after the date of withdrawal on property so withdrawn shall be paid over to the city.

25283. Whenever any portion of an urban service zone is included within an urban district by formation, annexation or otherwise, such portion shall be withdrawn. All urban service zone taxes collected by the county after the date of withdrawal on property so withdrawn shall be credited by the county to the urban district.

25284. Whenever any portion of an urban service zone is included within a district by incorporation, formation, annexation or otherwise, authorized by law to

perform any of the special services for which the county has levied an urban service zone tax, the county shall immediately undertake proceedings for the modification of the boundaries of such zone pursuant to Section 25280. That portion of urban service zone taxes collected on property so included which is deemed by the board to represent the saving, if any, to the county resulting from such inclusion shall be paid over to the district as the case may be.

SEC. 4. Chapter 7 is added to Title 6 of said code, to read:

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 5, 1951

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 2318, entitled: "An act to add Article 3 to Chapter 1, Part 1, Division 4 of the Fish and Game Code, relating to a means of providing reciprocity in the issuance of sport fishing licenses."

My objections to this bill are as follows:

This measure deals with reciprocal fishing licenses between the State of California and the States of Nevada and Arizona. I am today approving Assembly Bill No. 1908 authored by Assemblymen Erwin and Hinckley and the late Assemblyman Butters, which deals with both reciprocal fishing licenses and reciprocal hunting licenses between

this State and the State of Arizona. I am also signing Assembly Bill No. 2321 authored by Assemblyman McCollister, dealing with the subject of reciprocal fishing licenses between the State of California and any adjoining state By approving these two bills the broadest scope is given to this subject. No necessity remains for the approval of this measure, which would not provide anything that is not provided by the approval of the two bills which I have mentioned.

For the above reasons I am returning this bill without my approval.

Respectfully submitted.

EARL WARREN, Governor

AYES—None.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 5, 1951

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 1890, entitled: "An act to repeal Section 232 of the Banking Code and to repeal Section 232 of the Financial Code, relating to the taking of the constitutional oath of office by deputies and examiners."

My objections to this bill are as follows:

This bill repeals the present requirement of the Banking Code that certain employees in the office of the Superintendent of Banks take the constitutional oath. This repeal has been suggested for the reason that the same employees are required to take the oath which the Legislature adopted as a measure connected with civil defense. The constitutionality of this last requirement has been attacked in our courts and it would be a mistake to repeal the present law until the constitutionality of the second oath has been determined.

Furthermore, the second oath was required by the Legislature upon recommendation of the President of the United States as a measure connected with civil defense. When the present crisis is past and the civil defense effort is abandoned, it may be deemed wise to repeal the present temporary oath provision. In such case there would be no reason for the repeal of the oath sought to be effected by this bill.

For these reasons I am returning this bill without my approval.

Respectfully submitted.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 5, 1951

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 291, entitled: "An act to amend Section 19437 of the Education Code, relating to civic centers."

My objections to this bill are as follows:

The Civic Center Act has been in existence in California since 1913 and has been integrated into the civic life of our State. The people of California have come to depend upon the use of these school properties for educational, cultural and recreational purposes I believe the act has filled a real need in the life of our State and has not as presently written done an injustice to the taxpayers of the school districts. I believe it would be a mistake to discourage the use of our schools for the purposes of the Civic Center Act. This bill is subject also to the objection that it could be used to freeze organizations which might not be particularly in the favor of the school boards, out of the use of our schools. This can be accomplished under Assembly Bill No. 291 because no uniformity for charging is provided for. The school board could charge those organizations that it chose to charge, and could permit free use of school properties by organizations that it chose to favor. Even among those that it would charge, no uniformity is required. It could charge a large fee to one and a nominal fee to another group, although the use might be identical.

I do not believe that it was ever intended that the Civic Center Act should be on such a narrow or preferential basis. It was, on the contrary, designed to encourage people, both minors and adults, to make use of school properties for wholesome civic purposes

when they were not required for purposes of instruction. We have expended many hundreds of millions of dollars in the construction of public schools and it would seem that in order for the public to receive the maximum benefit from them that they should be made available as much as possible for the advancement of civic interests.

I have received objections to the signing of the bill from the California Congress of Parents and Teachers, the Superintendent of Recreation of the City and County of San Francisco, the County of San Mateo, the City of San Mateo and the City of Turlock, the Boy Scouts of America, the Welfare Council of Metropolitan Los Angeles and other civic organizations.

For the above reasons I am returning this bill without my approval.

Respectfully submitted.

RESOLUTIONS

The following resolution was offered:

By Messrs. Grant, Porter, Maloney, Chapel, Rosenthal, Thomas Berry, Klocksiem, Condon, Cooke, Burkhalter, Doyle, Geddes, Erwin, Hinckley, Clarke, McCollister, and Conrad:

House Resolution No. 136

Relating to wishing former Governor Merriam a rapid recovery from his illness

WHEREAS, News has reached us of the illness of former Governor Frank F. Merriam, much to the individual and sincere disquiet of the Members of the Legislature, who recall his contributions to adapting government to meet human needs; and

WHEREAS, Frank F. Merriam began his career as a public servant in the Iowa Legislature, in which he served two terms, and then four years as the auditor of that State; and

WHEREAS, He was a modern pioneer of the West from the days he operated a newspaper in the Territory of Oklahoma, to the days of his civic leadership in Long Beach, California, when for the second time a popular demand arose for his entrance into state service. He became a Member of the Assembly in 1917, where he was to serve for the 10 years following. As Chief of the Republican Party in California he successfully directed the election of a fellow Californian to the Presidency of the United States; and

WHEREAS, Such experience in journalism, pioneering and civic development, and his ability in working with all people's problems cried for broader fields to cultivate and harvest, in the tradition of his farming forbears, the people elected him Lieutenant Governor in 1930; and

WHEREAS, It would seem that by Providence a man of his solid and certain character was to be the State's Chief Executive after the collapse of national finance and distribution and during the State's struggle for economic rehabilitation, Governor Frank Merriam fulfilled the highest demands of the day in relief emergencies and kindred problems. A man of conservative views, he successfully met the challenges of the hour with liberal administration; and

WHEREAS, The State will ever be grateful for the willingness of his abundant heart and his distinguished personal presence in all forms of public endeavor; and

WHEREAS, He has been basking in the sunshine of a California he helped build and guide; now, therefore, be it

Resolved by the Assembly of the State of California, That there be wished for him a rapid recovery and the best of health; and be it further

Resolved, That the Chief Clerk transmit a suitably prepared copy of this resolution to our colleague, at 20 Lindero Avenue, Long Beach.

REQUEST FOR UNANIMOUS CONSENT THAT OPINION OF LEGISLATIVE COUNSEL BE PRINTED IN JOURNAL

Opinion of Legislative Counsel

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO 2, CALIFORNIA, May 7, 1951

Honorable Donald L. Grunsky
Assembly Chamber

ASSEMBLY BILLS 2624, 2625, AND 2626 RE JUDICIAL SALARIES—No. 7950

DEAR MR. GRUNSKY: You have asked our opinion whether the above bills can be enacted prior to the Budget Bill in view of the provision in Section 34 of Article IV that until the Budget Bill has been finally enacted neither house shall place upon final passage any other appropriation bill, except emergency bills recommended by the Governor, or appropriations for the salaries, mileage, and expenses of the Senate and Assembly. The bills in question increase the salaries of the judges of the superior and appellate courts and also increase the amount paid by the State as its share of the salaries of the superior court judges.

It is our opinion that none of these bills contains an appropriation and hence they may be properly enacted prior to the Budget Bill.

The sections affected by these bills are contained in Chapter 5 of Title 1 of Part 3 of the Political Code. Section 737 of that chapter provides that the provisions thereof prescribing salaries do not effect an appropriation of money and shall not be construed as making an appropriation or appropriations therefore, and that such salaries shall be payable only from such funds as may be made available under other provisions of law. The provisions of this chapter would be transferred to the Code of Civil Procedure by A. B. 2626, now pending before the Legislature, and the bills in question are addressed both to the Political Code and to the proposed new provisions of the Code of Civil Procedure.

We believe that the provisions of Section 737 are controlling as to the legislative intent regarding these bills and that the section negatives any possibility that the bills make appropriations. The section appears also to be applicable to the provision in Assembly Bill No. 2626 that increases the State's share of the salaries of the judges of the superior court. So far as we are aware, this provision has never been considered to be an appropriation. The appropriation to pay the State's share of the salaries of judges of the superior court has always been contained in the Budget Bill or in some other bill making a specific appropriation for that purpose. The current appropriation is contained in Item 379 of the pending Budget Bill.

Since the only limitation upon the enactment of bills prior to the Budget Bill is the one regarding appropriation bills, we know of no

reason passage of these bills should await the enactment of the Budget Bill.

Very truly yours,

RALPH N. KLEPS
Legislative Counsel
By LAWRENCE G. ALLYN, Deputy

Two copies to Honorable Thomas Caldecott pursuant to Joint Rule 34.

READING OF THE JOURNAL DISPENSED WITH

COMMUNICATIONS

By Speaker Sam L. Collins:

The following communication and resolution were received, read, and ordered printed in the Journal:

STATE OF CALIFORNIA
SACRAMENTO 14
INTER-DEPARTMENTAL COMMUNICATION

Date: May 7, 1951

To: Honorable Sam L. Collins
Speaker of the Assembly
State Capitol
Sacramento, California

SUBJECT: TRANSFER OF LIQUOR CONTROL

From: State Board of Equalization
Dixwell L. Pierce, Secretary

At its meeting in Los Angeles on May 4, 1951, the State Board of Equalization, upon motion of Honorable Jerrold L. Seawell, adopted the enclosed resolution regarding the transfer of the administrative responsibility for alcoholic beverage control from the board to a separate agency of the State Government.

This resolution was adopted by the unanimous vote of all five members of the board By their direction, I am sending you this copy in order that the Assembly may be informed of the action of the board. A similar communication and enclosure are being sent to the President of the Senate, so that that legislative body may also be informed of the views of the board members on this subject.

DIXWELL L. PIERCE

STATE BOARD OF EQUALIZATION

Resolution Regarding Transfer of Liquor Control
Introduced by Jerrold L. Seawell
Unanimously Adopted, May 4, 1951

WHEREAS, Proposed constitutional amendments are now pending before the California State Legislature proposing to separate the administration of alcoholic beverages from the tax administration functions of the State Board of Equalization; and

WHEREAS, There are many people and organizations who believe a separate alcoholic beverage control authority, protected in every possible way from political influences and having wide authority over liquor law administration, will promote public welfare; and

WHEREAS, Those who believe in the separation of liquor law administration from tax administration base their contention that the rapidly increasing population of California, with the attendant increase in permits, revenues, valuations, and hearings and litigation in connection therewith, merit the full attention of the State Board of Equalization; and that such separation of control will improve the administration of both state services from social, political and economic standpoints; and

WHEREAS, Since the Board of Equalization believes that over a period of 17 years it has performed its constitutional duties to the best of its ability with the facilities made available to it to perform this function, it has no objection to the transfer of the enforcement of the provisions of the Alcoholic Beverage Control Act to another state agency if it is believed such action would better the public welfare; now, therefore, be it

Resolved by the Members of the Board of Equalization, That if the Legislature believes the separation of liquor control enforcement from the Board of Equalization would be conducive to better government they respectfully recommend to the Legislature that it take action at the 1951 Session appropriate to achieve the objectives contained in this resolution; and be it further

Resolved, That if a constitutional amendment is submitted by the Legislature to the people that it should contain the following objectives:

1. The creation of an Alcoholic Beverage Commission consisting of members whose responsibility it shall be to administer the laws of California pertaining to the regulation of the manufacture and sale of such beverages;

2. Inclusion in the proposed amendment of provision that the commissioners, to be appointed by the Governor with the confirmation of the Senate, shall serve for

six-year terms, expiring at two-year intervals, to assure their independence of action, continuity of service, and freedom from disruptive political influences;

3. Inclusion in the proposal of provision for judicial review of the acts of the Alcoholic Beverage Commission, thus assuring that there may be speedy access to the courts to determine the lawfulness of its orders, and insuring against the possibility of arbitrary exercise of its powers; and

4. Enactment of legislation to effectuate the purpose of the constitutional amendment by providing, upon its adoption, for the transfer of regulatory responsibility under the Alcoholic Beverage Control Act from the State Board of Equalization to the Alcoholic Beverage Commission, together with the removal from the act of its excise tax provisions to the end that they may be administered thereafter as a part of the Revenue and Taxation Code by the State Board of Equalization.

Above subject matter ordered referred to the Committee on Constitutional Amendments.

By Speaker Sam L. Collins:

A communication from Lewis B. Hershey, Director, National Headquarters, Selective Service System, Washington, D. C., relative to the Selective Service Act was received, and ordered referred to the Committee on Military Affairs.

Such vendor shall at the time of shipping or delivering any cigarettes make a true and duplicate invoice of the same which shall show full and complete details of the sale or delivery and shall retain the same subject to the use and inspection of the board.

27053. It shall be presumed for the purposes of this part that all cigarettes manufactured in this State, delivered to or possessed by any person on and after July 1, 1951, are subject to tax under this part until the contrary is established, and the burden of proof that any cigarettes are not taxable under this part shall be upon the person claiming the exemption.

CHAPTER 3. PAYMENT OF TAX

27075. Vendors and agents shall be liable to the State as taxpayers for the payment of the tax imposed under this part and shall pay the tax by purchasing adhesive or meter stamps from the board of such design and denomination as it may prescribe

27076. Every vendor within 24 hours of the receipt of any cigarettes shall cause to be affixed on every package of such cigarettes on which the tax required under this part has not previously been paid as evidenced by stamps affixed thereto, stamps of an amount equal to the tax due thereon before such person sells, offers for sale, uses, consumes, handles, removes or distributes such cigarettes in this State.

27077. Stamps shall be affixed to each package of cigarettes of an aggregate denomination not less than the amount of tax upon the contents therein, and shall be affixed in such manner as to be visible to the purchaser and that they cannot be removed from the package or container without being mutilated or destroyed.

27078. The board may require returns to be filed with it at such times and containing such information as it may prescribe.

27079 The board shall prescribe, prepare and furnish stamps of such denominations and quantities as may be necessary for the payment of the tax imposed by this part, and may from time to time and as often as it deems advisable provide for the issuance and exclusive use of stamps of a new design and forbid the use of stamps of any other design The board shall make provisions for the sale of such stamps at such places and at such times as it may deem necessary.

An agent shall at all times have the right to appoint the person in his employ who is to affix the stamps to any cigarettes under the agent's control. Whenever the board shall sell and deliver stamps to any such agent, he shall be entitled to receive as compensation for his services and expenses as such agent in purchasing and affixing the stamps, and to retain out of the money to be paid by him for the stamps, a commission on the par value thereof. The board may prescribe a schedule of commissions, not exceeding 3 per centum allowable to such agent for buying and affixing such stamps. Such schedule shall be uniform with respect to the different types of stamps used, and may be on a graduated scale with respect to the number of stamps purchased.

27081. The board may, in its discretion, permit an agent to pay for such stamps within 30 days after the date of purchase provided a bond satisfactory to the board in an amount not less than the sale price for such stamps shall have been filed with the board conditioned upon payment for the stamps

27082. The board may authorize the use of meter stamping machines for imprinting stamps, which imprinted stamps shall be in lieu of those otherwise provided for in this part, and shall prescribe reasonable rules and regulations with respect to the use thereof

CHAPTER 4. RECORDS

28000 At the time of delivering cigarettes to any person in this State each agent shall make a true duplicate invoice showing the date of delivery, the number of packages and number of cigarettes contained therein, in each shipment of cigarettes delivered, and the name of the purchaser to whom delivery is made, and shall retain the same for a period of three years subject to the use and inspection of the board

28001 Each vendor shall procure and retain invoices showing the number of packages and number of cigarettes contained therein, in each shipment of cigarettes received by him, the date thereof, and the name of the shipper, and shall retain the same for a period of three years subject to the use and inspection of the board.

28002. The board by regulation may provide that whenever cigarettes are shipped into the State, the railroad company, express company, trucking company or other public carrier transporting any shipment thereof shall file with the board a copy of the freight bill within 10 days after the delivery in the State of each shipment All vendors shall maintain and keep for a period of three years such other records of cigarettes received, sold or delivered within the State as may be required by the board.

28003. Every person who shall possess or transport any unstamped packages of cigarettes shall be required to have in his actual possession invoices or delivery tickets for such cigarettes. The absence of such invoices or delivery tickets shall be prima facie evidence that such person is a vendor in this State and subject to the provisions of this part.

CHAPTER 5. DETERMINATIONS

28025. If any person fails to pay the tax required under this part the board shall make an estimate of the quantity of cigarettes sold, used, consumed, handled or distributed by such person in this State on which the tax was not paid The estimate shall be based upon any information which is in the board's possession or may come in its possession Upon the basis of this estimate the board shall compute and determine the amount required to be paid to the State, adding to the sum thus arrived at a penalty of an amount equal to the total tax computed, and interest on the amount of the tax at the rate of 1 percent for each 30 days or fraction thereof from the date the tax should have been paid until the date of payment.

28026. Promptly after making its determination the board shall give to the person written notice of the estimate, determination, and penalty, the notice to be served personally or by mail; if by mail, service shall be made pursuant to Section 1013 of the Code of Civil Procedure.

CHAPTER 6. COLLECTIONS

Such seized cigarettes, vending machine or receptacle shall be deemed to be forfeited to the State

28053. The seizure and sale or redemption of cigarettes shall not be deemed to relieve any person from fine or imprisonment provided herein for violation of any provision of this part

28054 When the board has good reason to believe that any cigarettes are being kept, sold, or offered for sale, in violation of the provisions of this part or its regulations it may make an affidavit of such fact, describing the place or thing to be searched, before any justice of peace, or judge of any court in this State, and such justice or judge shall issue a search warrant directed to the sheriff, any constable, police officer, or duly authorized agent of the board commanding him diligently to search any building, room, place, or vehicle as may be designated in the affidavit and search warrant, and to seize such cigarettes so possessed and to hold the same until disposed of by law, and to arrest the person in possession or control of the same. If upon the return of such warrant, it shall appear that any of the cigarette, unlawfully possessed, were seized, the same shall be sold as provided in this part.

28077. In the action a certificate by the board showing the delinquency shall be prima facie evidence of the levy of the tax, of the delinquency of the amount of tax,

interest and penalties set forth in the certificate, and of compliance by the board with all provisions of this part in relation to the assessment of the property and computation and levy of the tax.

CHAPTER 7 REFUNDS

28101. The board is authorized to redeem any unused stamps purchased from it at the face value thereof less any discount allowed upon their purchase, as an agent's commission.

28102. No person shall sell or offer for sale any stamp or stamps issued under this part except by written permission of the board

28127. Every person dealing in, transporting or storing cigarettes in the State shall keep such records, receipts, invoices, and other pertinent papers with respect thereto, and in such form, as the board may require.

28128. The board or its authorized representative may examine the books, records, papers, stock in trade, and equipment of any person dealing in, transporting, or in possession of, cigarettes, and may investigate the character of the disposition which such person makes of the cigarettes in order to ascertain whether all excise taxes due under this part have been properly paid

28129. It is unlawful for the board of any person having an administrative duty under this part to make known in any manner whatever other than in the discharge of official duties the business affairs, operations, or information obtained by an investigation of records and equipment of any person visited or examined in the discharge of an official duty, or the amount or source of income, profits, losses, expenditures or any particular thereof, set forth or disclosed in any report or copy thereof, or any book containing any abstract or particulars thereof to be seen or examined by any person. Mr. Cooke arose to the following point of order: That Mr. McGee did not vote on the adoption of Assembly Concurrent Resolution No. 59 yesterday, and, pursuant to the provisions of the Rules, was not in order in giving notice of motion to reconsider the vote whereby Assembly Concurrent Resolution No. 59 was yesterday adopted.

Ruling by Speaker

Speaker Sam L. Collins ruled the point of order well taken, and ruled the notice of motion to reconsider the vote whereby Assembly Concurrent Resolution No. 59 was yesterday adopted the property of the House, at this time.

Point of Order

Mr. Gaffney arose to the following point of order: That Mr. Collier is not speaking to the motion.

Ruling by Speaker

Speaker Sam L. Collins ruled the point of order not well taken.

Ruling by Speaker

Collins repeated his ruling which was that such an objection should have been raised yesterday, and that, as the notice of motion to reconsider the vote whereby Assembly Concurrent Resolution No. 59 was yesterday adopted became the property of the House, the point of order is not well taken.

Point of Inquiry

Mr. Coats arose to the following point of inquiry: Why was Mr. Collier in order when he moved to reconsider Assembly Concurrent Resolution No. 59?

Ruling by Speaker

Ruling by Speaker

Speaker Sam L. Collins ruled the point of order not well taken.

Motion to Lay Motion to Reconsider on Table

Mr. Condon moved that the motion by Mr. Collier to reconsider the vote whereby Assembly Concurrent Resolution No. 59 was adopted be laid upon the table.

Point of Inquiry

Mr. Crowley arose to the following point of inquiry: Does this coming roll call carry with it the question of the adoption of the resolution, or just the question of reconsideration?

REQUEST FOR UNANIMOUS CONSENT THAT OPINION OF LEGISLATIVE COUNSEL BE PRINTED IN JOURNAL

Mr. Hinckley asked for, and was granted, unanimous consent that an opinion of the Legislative Counsel relative to railroads be ordered printed in the Journal in 10 point type, as follows:

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, April 4, 1951

Honorable Edwin J. Regan
Senate Chamber

RAILROADS—No. 6483

DEAR SENATOR REGAN: Senate Bill No. 616, if enacted, would add Section 485b to the Civil Code, or, in the event the Public Utilities Act is enacted by the Legislature at this session, Section 7659 to the Public Utilities Code. The two sections are identical and read as follows:

> "Notwithstanding any city ordinance to the contrary, no railroad conductor or engineer, who, while operating a train, obstructs a railroad crossing, shall be subject to any criminal penalty, where he has no physical control over the situation causing the obstruction, or where the train cannot be moved without endangering the safety of the passengers or freight."

You have asked our opinion as to the validity of Senate Bill No. 616. With respect to the effect of Senate Bill No. 616, you have asked:

(1) Could a municipality enact an ordinance to subject a railroad corporation to criminal penalties for obstructing a railroad crossing, even though the engineer or conductor operating the train would not be subject to criminal penalties by reason of the provisions of Senate Bill No. 616?

(2) In the event a railroad engineer or conductor is liable because his acts are not excused by Senate Bill No. 616, could a railroad corporation also be made liable?

Opinion

It is our opinion that:

(1) The bill is valid.

(2) The answers to your two questions are in the affirmative.

Analysis

(1) Validity of Senate Bill No. 616

Section 11, Article XI of the State Constitution provides:

> "Sec. 11. Any county, city, town or township may make and enforce within its limits all such local, police, sanitary and other regulations are are not in conflict with general laws."

The power so conferred is as broad as that possessed by the Legislature itself, subject, however, to this exception: its exercise by any city must be confined to the municipality and must not conflict with the general law of the State (*Pasadena School District* vs. *Pasadena* (1913), 166 Cal. 7).

Since Senate Bill No. 616 purports merely to limit the power of cities to enact ordinances imposing criminal penalties upon railroad conductors or engineers for the obstruction of a railroad crossing while operating a train, we need not consider the extent of the power of the municipality to enact such legislation.

The power of the Legislature to enact such legislation limiting the power of the cities depends upon whether this is a matter of statewide concern or a "municipal affair." Where a particular matter is outside the limited group of "municipal affairs," it is clear that local regulations upon the subject may be enforced only if they "are not in conflict with general laws." (*Pipoly* vs. *Benson* (1942), 20 Cal. 2d 366.)

The regulation of traffic upon the streets of a city was held not to be one of those municipal affairs over which the local authorities are given power superior to that of the Legislature in *Ex Parte Daniels* (1920), 183 Cal. 636.

In a recent case, *Northwestern Pacific R. R. Co.* vs. *Superior Court* (1949), 34 Cal. 2d 454, the California Supreme Court, in deciding whether the condemnation of a right of way for a street across a railroad within a city was a matter of statewide concern or a municipal affair, said:

> "In other words, although the city may have control over municipal affairs under its charter and thereby have the right to bring a condemnation action to obtain a crossing of a railroad, it is only entitled to such relief where the crossing may be constructed without disturbing the public use and enjoyment of the utility. If the proposed crossing, whether lateral or longitudinal, would substantially interfere with the use of the facilities of the utility, then

the matter becomes one of statewide concern, rather than a 'municipal affair' * * * ." (p. 458).

The regulation by municipalities of the movement of trains within its limits, in our opinion, would substantially interfere with the use of the facilities of the railroad, and, hence, is a matter of statewide concern, rather than a "municipal affair." Being a matter of statewide concern, it follows that the power of the local authorities to enact such ordinances must yield to the superior power of the Legislature to enact general laws upon the subject.

(2) Liability of a Railroad Corporation Where Senate Bill No. 616 Exempts the Employee From Liability

It is to be noted that Senate Bill No. 616 purports to limit the power of municipalities only with respect to the imposition of criminal penalties upon railroad conductors and engineers in certain instances. It does not purport to limit the power of a municipality with respect to the imposition of criminal penalties upon the railroad corporation. Thus it appears that a municipal ordinance to impose such liability upon the corporation would not be subject to attack on the ground that it conflicted with the general law of the State.

The liability of the corporation can be based upon the general rule that a corporation may be criminally liable for the acts of an officer or agent, assumed to be done by him when exercising authorized powers, and without proof that his act was expressly authorized or approved by the corporation (*New York C. & H. R. R. Co.* vs. *United States* (1909), 212 U.S. 481).

(3) Liability of a Railroad Corporation When Senate Bill No. 616 Does Not Exempt the Employee From Liability

Senate Bill No. 616 purports to exempt a railroad engineer or conductor from criminal liability for the obstruction of a railroad crossing only under certain specified circumstances, namely, "where he has no physical control over the situation causing the obstruction, or where the train cannot be moved without endangering the safety of the pasesngers or freight." It does not purport to exempt such persons from criminal liability for acts not so specified. Hence it appears that a municipal ordinance to impose criminal liability upon such persons for acts not covered by Senate Bill No. 616 would not be subject to attack on the ground that it conflicted with the general law of the State.

The fact that a municipal ordinance makes the railroad engineer or conductor liable for acts not within the scope of Senate Bill No. 616 does not preclude the municipality from also passing ordinances making the corporation liable. The acts of a railroad engineer or conductor, acting within the scope of his employment, can be imputed to the employing corporation, thus subjecting the corporation to criminal penalties also (*New York C. & H. R. R. Co.* vs. *United States*, supra).

Very truly yours,

RALPH N. KLEPS
Legislative Counsel

REQUEST FOR UNANIMOUS CONSENT THAT OPINION OF LEGISLATIVE COUNSEL BE PRINTED IN JOURNAL

Mr. Dolwig asked for, and was granted, unanimous consent that an opinion of the Legislative Counsel, relative to registration of legislative representatives, be ordered printed in the Journal, in 10 point type, as follows:

Opinion of Legislative Counsel

(COPY)

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, April 23, 1951

Honorable Frank Lanterman
Assembly Chamber

REGISTRATION OF LEGISLATIVE REPRESENTATIVES—No. 6651

DEAR MR. LANTERMAN: You ask whether a general counsel, executive, or employee of a corporation would be required to register as a legislative representative under Section 9906 of the Government Code if on behalf of the corporation, and as a part of his duties as such counsel, executive, or employee, he writes letters to, or telephones, or telegraphs a Member of the Legislature in an attempt to influence the passage or defeat of legislation.

Section 9906 of the Government Code reads in part:

> "9906. (a) Any person who shall engage himself for pay or for any consideration for the purpose of attempting to influence the passage or defeat of any legislation * * * shall, before doing anything in furtherance of such object, register * * *."

"Engage" is defined by Webster's New International Dictionary (Second Edition) as:

> "1. To promise or pledge oneself; to enter into an obligation; to become bound; to warrant * * *.
> **Syn.** See PROMISE."
>
> "*Syn.* PROMISE, ENGAGE, PLEDGE. PROMISE is the general term; ENGAGE adds the implication of a binding agreement * * *."

Under this definition of the word "engage," it appears to us that if a person is employed as general counsel, executive, or employee of a corporation, and a part of his duties include the writing a letter to, telephoning to, or telegraphing to a Member of the Legislature in an attempt to influence the passage or defeat of legislation, such person would have engaged "himself for pay" within the meaning of Section 9906.

On the other hand, if such person on his own behalf, and not as a part of his duties for which he receives pay or any consideration from the corporation or any other person, were to write, telephone or telegraph a Member of the Legislature in an attempt to influence the passage or

defeat of legislation, he clearly would not be required to register as he has not engaged himself for pay or for any consideration for the purpose of attempting to influence the passage or defeat of any legislation within the meaning of Section 9906.

Whether a person acting as a general counsel, executive, or employee of a corporation has engaged himself for pay or for any consideration for the purpose of influencing legislation is a question of fact which will need be determined as to each particular person, considering the terms of his employment and the duties which are assigned to such person within the scope of his employment.

When it is concluded that such person has so engaged himself, the statute then requires such person to register "before doing *anything* in furtherance of such object." We see no reason why the phrase "before doing anything" would be given a restrictive interpretation. As we interpret "anything" it would include the making of phone calls, writing letters, or sending telegrams for the purpose of attempting to influence the passage or defeat of legislation.

Very truly yours,

RALPH N. KLEPS
Legislative Counsel
By LOUIS A. BOLI III, Deputy

May the example of Jesus, who gave always tender concern for His dear mother, rise up within our hearts, that we, too, may call her "blessed".

COMMUNICATIONS

By Speaker Sam L. Collins:

The following communication was received, read, and ordered printed in the Journal:

SACRAMENTO, CALIFORNIA, May 10, 1951

Honorable Sam L. Collins
Speaker of the Assembly

MR. SPEAKER: We cordially extend an invitation to the Members of the Assembly to attend the Kern Crossroads Celebration, Sunday, May 13, 1951, in Delano, commemorating the arrival of Friant Kern Canal water at its terminus in Kern County.

The occasion of this celebration is the culmination of the dream of many thousands of Californians for the delivery of water for the lands of the South San Joaquin Valley.

It was initially with the help of the California Legislature that the Central Valley Project was given a childhood, and at this date the efforts of the Legislature have resulted in a manful deployment of California surplus waters to areas less supplied with the lifeblood of an agricultural community.

The celebration from 9:30 a.m. until 4 p.m. will provide entertainment and a source of pride to all attending. The County of Kern extends an individual invitation to each Member of the Assembly and its attaches to attend with their families and friends.

Very truly yours,

H. W. KELLY
Member of the Assembly

SEC. 2. Section 4912 of said code is amended to read:

4912. [The] *Except as otherwise provided in Section 4912.2 the* county superintendent of schools of the county in which the greater part of such area is located shall cause to be held a special election in the elementary school district or unified school district, or [those portions of the] districts affected [,] for the purpose of adopting or rejecting the plans and recommendations of the county committee or committees. 4912.2. In the event the plans and recommendations of a county committee for an area provide for the exclusion of territory from a school district, the county committee [shall] *may* determine [whether] *that as to said district* the election shall be held only in said territory. SEC. 4. Section 4663 of said code is amended to read:

4663. [Upon approval of the county committee on school district organization, after following the procedure prescribed by Chapter 16 of this division, one] *One* or more contiguous elementary or high school districts, [or portions thereof,] one of which is contiguous to a unified school district, may be annexed to the unified school district not later than the first day of February in any school year by the board of supervisors of the county having jurisdiction over the unified school district whenever a majority

of the qualified electors in each of the elementary or high school districts voting at an election held for that purpose vote in favor of the annexation and the governing board of the unified school district has filed its approval of the annexation, in writing, with the board of supervisors. [The annexation of such elementary or high school district or districts, or portions thereof, to a unified school district may be effected without such elementary or high school districts or portions thereof first withdrawing from an elementary or high school district of which it is a part.] The election shall be called by the county superintendent of schools having jurisdiction over the unified school district *whenever a majority of the electors residing in each of the elementary or high school districts petition the county superintendent of schools to call the election*.

When an election is called for the annexation of one or more contiguous elementary or high school districts, one of which is contiguous to a unified school district, after the approval by the State Board of Education of plans and recommendations of a county committee for the reorganization of school districts, the election shall be held and conducted in accordance with the provisions of this article and the annexation of such elementary or high school districts to a unified school district may be effected without such elementary or high school districts first withdrawing from any school district.

SEC. 6. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Under the existing law, there is no method by which an elementary school district which is a part of a city high school district may be annexed to a contiguous unified school district, nor is there any procedure prescribed whereby an elementary or high school district which is a part of another district may be annexed to a contiguous unified school district without first withdrawing from the district of which it is a part. This act would eliminate delay in annexations to a unified school district by allowing annexations in all such cases without the initiation of withdrawal proceedings.

It is therefore necessary that this act take effect immediately in order for unified school districts to make plans for necessary new sites and buildings, based on the new boundaries, rather than the present boundaries, of the district, so that the schools built in the unified district through the state school building aid program will be situated so as to serve the needs of the reorganized district."

When an inspection is made and a report is issued, the following shall be set forth in the report:

Under a control service agreement a licensee shall refer to the original report and contract in such manner as to identify them clearly, and said report shall be assumed to be a true report of conditions as originally issued, except as it may be modified after a control service inspection. A licensee is not required to issue a report as outlined in subsections 1 to 8 inclusive after each control service inspection If after control service inspection, no modification of the original report is made in writing, then it will be assumed that conditions are as originally reported.
