PRAYER

The following prayer was offered by the Chaplain, Dr. Clarence A. Kircher:

Almighty and Eternal God, Father of all nations, Creator and Preserver of mankind, we assemble again in Thy holy sight. Within these hallowed precincts, we seek Thy presence and Thy guidance. As we look upon the Flag, remind us of our duty to God and our Country. Help us lift our labor out of the realm of the ordinary, so that we may see opportunities for service in that which otherwise would be drab routine. Grant us Thy presence throughout this day that we may live without strain, face our problems without fear, meet our temptations without dishonor, bear our burdens without complaint.

"O Lord, who knowest every need of mine,
Help me to bear each cross and not repine,
Grant me fresh courage every day,
Help me to do my work always
Without complaint."

In Jesus' name.—AMEN.

House Resolution No. 144

Relative to requesting the Assembly Interim Committee On Interstate Cooperation to ascertain facts relating to motor vehicle registration

WHEREAS, The Assembly Interim Committee On Interstate Cooperation created by House Resolution No. 216, 1949 Regular Session, was directed to and did study and investigate facts relating to the development of a System of Registration of Motor Vehicles on a monthly basis; and

WHEREAS, It appears that certain additional facts are necessary in order that the Assembly may intelligently legislate upon this complicated subject, particularly facts relating to the operation of the so-called "staggered system" of vehicle registration now in use in the States of Oregon, Missouri, and Wisconsin, and the problems which may have arisen in connection therewith; and

WHEREAS, A new committee on Interstate Cooperation has been created by House Resolution No. 105 of this 1951 General Session of the Legislature and it appears that the experience gained by the members thereof qualify this committee for the task of ascertaining such additional facts, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Interim Committee On Interstate Cooperation, (created by House Resolution No. 105, 1951 General Session) be and it hereby is authorized and directed to ascertain, study and analyze all facts relating to the development of a System of Registration of Motor Vehicles on a monthly basis so as to permit, as far as possible, uniform distribution of the work of registration throughout each month of the calendar year and the establishment of 12 registration periods of 12 months duration, and particularly all facts relating to the systems of this nature now in use in the States of Oregon, Missouri, and Wisconsin, including but not limited to the operation, effect, administration, and enforcement and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution, and to report thereon to the Assembly, including in its report its recommendations for appropriate legislation; and be it further

Resolved, That in carrying out the duties imposed upon it by this resolution the committee shall have all the powers and duties prescribed in said House Resolution No. 105 (1951 General Session) and particularly shall be authorized to make this study in conjunction with the Department of Motor Vehicles and to contract with the Department of Motor Vehicles for the rendition and affording of such services, facilities, studies and reports to the committee as will best assist it to carry out the purposes of this resolution; and be it further

Resolved, That in addition to any money heretofore made available the sum of two thousand five hundred dollars ($2,500) or so much thereof as may be necessary is hereby made available to the committee from the unallocated balance of the money previously made available to the Committee On Interstate Cooperation by House Resolution No. 216 of the 1949 Regular Session, for the expenses of the Assembly Committee on Interstate Cooperation (created by House Resolution No. 105, 1951 General Session) and its members, and for any charges, expenses, or claims it may incur under

this resolution, to be paid from the Contingent Fund of the Assembly and disbursed after certification by the chairman of the committee, upon warrants drawn by the State Controller on the State Treasurer.

Resolution read, and ordered referred to the Committee on Rules.

By Mr. Brown:

House Resolution No. 145

Relating to studies of the feasibility of location of a state college at Modesto

WHEREAS, There is before the Legislature Assembly Bill 4 which proposes to establish a four-year state college in or near Modesto; and

WHEREAS, Senate Concurrent Resolution 40 has been introduced proposing to create a Joint Legislative Committee to Study the Building Program Problems at Presently Established State Colleges; and

WHEREAS, It would seem more efficient to begin dispersal of college locations throughout the State in certain cases, rather than only expanding facilities at the present 10 locations; and

WHEREAS, The location of a four-year state college at Modesto would be readily accessible to the increasing number of present and potential students in that area and relieve pressure on colleges in the Bay area and Central Valley; now, therefore, be it

Resolved by the Assembly of the State of California, That the State Council of Educational Planning and Coordination, the Regents of the University of California, the Department of Education, and the joint legislative committee when created, are requested and authorized to cooperate in the formulation of a study or studies of the feasibility of location of a four-year state college at Modesto, and be it further

Resolved, That a report of these studies be made to the Legislature not later than 10 days after convening of the 1952 Session, and be it further

Resolved, That copies of this resolution be transmitted by the Chief Clerk of the Assembly to each of the participants in the studies.

the period or periods for which no return was filed and upon the basis of such estimate shall compute and assess the amounts of employer and worker contributions payable by the employing unit, adding thereto a penalty of 10 percent of the amount of contributions.

(b) If the commission is not satisfied with the return or returns made by any employing unit of the amount of employer or wage earner contributions, it may compute the amount required to be paid upon the basis of facts contained in the return or returns or upon the basis of any information in its possession or that may come into its possession and make an assessment of the amount of the deficiency. If any part of the deficiency is due to negligence or intentional disregard of this act or the authorized rules and regulations, a penalty of 10 percent of the amount of the deficiency shall be added thereto.

(c) If the failure of the employing unit to file a return within the time required by this act and authorized regulations or if any part of the deficiency for which an assessment is made is due to fraud or an intent to evade this act or the authorized rules and regulations, a penalty of 25 percent of the amount of contributions assessed shall be added thereto.

(d) The amount of each assessment exclusive of penalty shall bear interest at the rate of one-half percent (½%) per month or fraction thereof from and after the last day of the month following the close of the calendar quarter for which the contributions should have been returned until the date of payment.

(e) One or more assessments may be made for the amount due for one or for more than one period and overpayments may be offset against underpayments. The commission shall give to the employing unit against whom an assessment is made a written notice of the assessment. The notice may be served personally or by mail; if by mail, service of the notice of any assessment in excess of three hundred dollars ($300) shall be made by registered mail, otherwise such service shall be made pursuant to Section 1013 of the Code of Civil Procedure and shall be addressed to the employing unit at its address as it appears in the records of the commission. In case of service by mail of any notice required by this section, the service is complete at the time of deposit in the United States post office.

(f) Except in the case of failure without good cause to file a return, fraud or intent to evade this act or the authorized rules and regulations, every notice of assessment shall be made within three years after the last day of the month following the close of the calendar quarter during which the contribution liability included in the assessment accrued or within three years after the deficient return is filed, whichever period expires the later[.] *; provided that every notice of assessment based upon services performed in the employ of a bona fide owner or tenant of a farm shall be made within one year after the last day of the month following the close of the calendar quarter during which the contribution liability included in the assessment accrued or within one year after the deficient return is filed, whichever period expires the later.*

An employing unit, however, may waive the limitation period herein prescribed or may consent to its extension.

(g) Any employing unit against whom an assessment is made under this section or any person directly interested may petition for reassessment within 30 days after service of notice of the assessment; provided, that an additional 30 days for the filing of a petition may for good cause be granted by the commission. If a petition for reassessment is not filed within the thirty-day period, or within the additional period granted by the commission, the assessment becomes final at the expiration of the period. If a petition is filed within the time herein prescribed, the appeals board shall review the assessment and if requested by the petitioner shall, unless a hearing has previously been afforded petitioner on the same grounds as set forth in the petition for reassessment, grant a hearing before the appeals board or its duly authorized representatives, giving 10 days' notice of the time and place of the hearing. The appeals board may decrease or increase the amount of the assessment but the amount may be increased only if a 10-day notice of the increase is given by the appeals board with opportunity for hearing before the appeals board with respect to such increase. The order or decision of the appeals board upon the petition for reassessment and the assessment becomes final 30 days after service upon the petitioner of notice of the order or decision. Notices shall be served in the same manner as notices of assessment.

(h) Assessments under this section become delinquent if not paid on or before the date they become final. There shall be added to the amount of each delinquent assessment a penalty of ten percent (10%) of the amount thereof exclusive of interest and penalties.

(i) The commission may cancel any assessment or portion thereof which it finds to have been erroneously made; provided, however, that with respect to an assessment which has become final such a cancellation shall be made only upon the approval of the Appeals Board.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 15, 1951

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS: I am returning without my signature

Assembly Bill No. 3386 entitled: "An act to add Section 6516 to the Revenue and Taxation Code, relating to assessments for sales and use taxes."

My objections to this bill are as follows:

This bill provides that in the event of any failure to file a return under the Sales or Use Tax Law for any reason other than fraud or an intent to evade, any determination pursuant to the article shall be mailed within three years of the time for which the determination is made. This in effect establishes a statute of limitations on claims by the State for taxes where the taxpayer has failed to file a return, except in those cases where the failure is due to a fraudulent intent to evade the payment of the tax.

I have received serious objections to this bill from the Attorney General, the Board of Equalization, and the Department of Finance. Its provisions interpreted in connection with existing law establish a premium on not filing a return and make the position of the taxpayer who has not filed better than the position of a taxpayer who files his return late. Existing law provides a statute of limitations of three years from and after the time of the filing of the return. Thus, if a taxpayer should file his return two years late, the statute of limitations would not run until five years after the accrual of the tax; whereas, if he did not file a return at all, the statute of limitations would run three years after the date that the tax became due. This would result in a longer period of limitations for the taxpayer who filed a return than for the taxpayer who did not; thus placing a premium on not filing returns.

It is pointed out by the Attorney General that this result would introduce an absurdity into our law. The Board of Equalization calls attention to the fact that this would give an advantage to the person who fails to file a return over a person who complies with his obligation, even though belatedly, and that this seems to be an utterly unreasonable and unsound provision and tends toward placing a premium on the avoidance of a statutory duty.

It is pointed out by the Director of Finance that this encourages failure to file a return, inasmuch as the person who fails to file a return merely risks a penalty and interest charge against the chance that his books will not be audited within the period of limitations.

In the second place, this measure introduces a change into our existing law, although it recites that it does not do so. Both the Attorney General and the Board of Equalization point out clearly that the measure, despite its recital, introduces a decided change into our existing law. The existing law does not provide any period of limitations to protect the taxpayer who fails to file any return at all. The Board of Equalization reports that the period of limitations prescribed by this bill is new and not contained in existing law, despite the recital of the bill to the contrary.

In the third place, the measure would result in a loss of revenue to the State. The Director of Finance reports that he estimates that if this bill becomes law, the General Fund will lose at least $500,000 annually. Between $500,000 and $600,000 of audit assessments are now being made, which would be outlawed under this bill. He further points out that if this bill can be validly applied retroactively to assessments already made, it would be necessary to vacate assessments totalling approximately $333,000.

In the fourth place, this bill is objectionable in that it provides a protection to non-filing taxpayers that is not extended in the case of any other self-assessed tax imposed by the State. The Attorney General states that there is no similar provision in the federal income tax statute. He also points out that in none of the other self-assessed taxes imposed by the State is there any statute of limitations in the case of

failure to file a return. This is true of the motor vehicle fuel license tax, the use fuel tax, the motor vehicle transportation license tax, the gift tax, the personal income tax, the bank and corporation franchise tax, the corporation income tax, and the tax imposed in the Alcoholic Beverage Control Act.

It should also be noted, as has been pointed out by the Board of Equalization, that that board has sponsored a measure establishing a statute of limitations in the cases outlined by this law, but without the objectionable features which have been designated. The measure which has been introduced by the Board of Equalization establishes a period of limitations of eight years in the case of failure to make a return.

A measure similar to this reached me in 1949. I refer to Assembly Bill No. 2308. This measure was introduced with the sponsorship of the Board of Equalization for the purpose of providing a statute of limitations of eight years for sales and use taxes under the circumstances described by this bill. Assembly Bill No. 2308 was amended in the course of its passing two years ago, to provide a five year period of limitation. When the objections similar to those to which I have referred in this message were called to the attention of the author of that measure, he concurred in a request that the bill should be vetoed.

For the reasons that I have stated, I am returning the bill without my signature.

Respectfully submitted.

EARL WARREN, Governor

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO 14, May 16, 1951

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Assembly Bill No. 16:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 12, 1951

To the Honorable Members of the Assembly
State of California

GENTLEMEN:

Assembly Bill No. 16, "An act relating to research in air pollution problems, making an appropriation therefor, declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill appropriates $150,000 for research concerning the effect of air pollution on public health. This is a serious problem confronting our State and the beginning of such research should not be delayed.

I therefore recommend consideration of Assembly Bill No. 16 as an emergency measure.

Respectfully submitted.

Explanation of Vote on Senate Bill No. 509 by Francis Dunn, Jr.

I voted for Senate Bill No 509 with some misgivings and only because of the great need for shortage of school housing and because I know that a very thorough study of the subject has been made between March 14th and May 9th, 1951 by a Subcommittee of the Assembly Committee on Education

It is my hope that if and when the governing board of any school district submits to the electors of the district a proposal to use a school building which otherwise would be abandoned as unsafe, that the best possible information as to the actual structural strength of the building be made available to the voters, and that every effort within the financial ability of the district be taken to make the building safe.

Opinion of Legislative Counsel Requested by Chief Clerk as Instructed by Motion

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 17, 1951

Honorable Arthur A. Ohnimus
Chief Clerk of the Assembly
Assembly Chamber

MOTION TO RECONSIDER REFUSAL OF ADOPTION OF AMENDMENTS
—No. 8484

DEAR MR. OHNIMUS: You have called our attention to the action of the Assembly on May 14, 1951, with reference to certain amendments

to Assembly Bill No. 2665, as appearing in the Assembly Journal for that day commencing at page 4264. Certain amendments were offered and adopted. Adoption of these amendments was reconsidered. Upon reconsideration, the amendments were refused adoption. Notice was then given that on the next legislative day a motion would be made to reconsider the vote whereby the amendments were refused adoption. Upon a question being raised the Speaker ruled that the notice was not in order, following which the bill was passed.

You have asked our opinion as to the correctness of the ruling on the point of order.

It is our opinion that the ruling of the Speaker was correct.

Section 85 of Mason's Manual of Legislative Procedure provides in part that no question may be reconsidered a second time unless it was so materially amended after the first reconsideration that it in fact presents a new question.

In this instance the amendments were considered and adopted. Reconsideration was granted and the amendments were then refused adoption—in each instance by a roll-call vote. There were, in effect, three votes expressing the will of the House upon these amendments. The second motion for reconsideration of the Assembly action on the amendments would merely have delayed the ultimate expression of the will of the Assembly with reference to the bill before it. We believe, therefore, that the Speaker correctly interpreted the rule of procedure, as set forth in Mason's Manual, that the notice of motion to reconsider was not in order.

Very truly yours,

RALPH N. KLEPS
Legislative Counsel
By LAWRENCE G. ALLYN, Deputy

By Messrs. Beck, Hollibaugh, Rosenthal, Hinckley, Cooke, Shaw, Stanley, Babbage, Tomlinson, Luckel, and Kelly:

House Resolution No. 148

Relating to memorializing the Federal Government to locate Regional Mobilization Offices at Los Angeles

WHEREAS, Optimum efficiency of any agency in constant contact with the population of several localities is attained only by location in the most populous locality, whether or not other areas are in that same jurisdiction; and

WHEREAS, The highest degree of autonomy for finality of decision consistent with national direction, furnished by a regional office, must exist at that location; and

WHEREAS, In the Western States, Los Angeles is the most populous area; the Southern California area contains 42 percent of the population, 46 percent of industrial production, and is performing 70 percent of the present war contracts of the three coastal states; and

WHEREAS, In World War II Los Angeles was the second largest war industry center in the Nation; its rate of increase has been the most phenomenal in the Nation; its retail demand is third nationally; and

WHEREAS, For Los Angeles the closest regional office administering the Defense Mobilization Program is 400 miles away; and

WHEREAS, Unnecessary expenditure of time and funds in travel and phone calls by private citizens and by the government, as in the last war, threatens to result again, unless such a regional office is located in Los Angeles; and

WHEREAS, Such inefficient extension of transportation and communication creates military vulnerability; and

WHEREAS, Regional offices could be established in Los Angeles at the present district offices with a modicum of expense to be saved by the elimination of a step in administration of the program for the most important area in the Western States; now, therefore, be it

Resolved by the Assembly of the State of California, That the President and Administrators of the Defense Mobilization Program be respectfully memorialized to establish a regional office in Los Angeles for the Southern California-Arizona region; and be it further

"SEC. 7. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act is primarily designed to more strictly regulate the annexation of territory to a city. While such legislation has long been considered desirable, the need for it has become a matter of immediate urgency in connection with the programs for the reorganization of the inferior court system and for state school building aid, both of which programs were initiated as amendments to the California Constitution and which are of primary importance to all of the State.

Both of such programs are adversely affected by annexations effected by means which this act will prevent or discourage. In the case of the inferior court reorganization the designation of the judicial districts into which the State will be divided is made more difficult when the territory of a city is connected by narrow strips of land. It is essential to the orderly functioning of the judicial system that changes in territory of judicial districts be reduced to a minimum.

When territory is annexed to a city the boundaries of school districts which include such territory may also be affected, since in certain cases territory annexed to a city becomes part of the city school district.

Under certain circumstances, since October, 1950, a conditional apportionment to a school district for state school building aid becomes void, and the district receives no state money under such apportionment if part of the district is annexed to another school district In many cases this works great hardship on the district which has complied with all the requirements for state school building aid In order to forestall this hardship on other school districts it is essential that changes in the territory of school districts be reduced to a minimum. It is therefore necessary that this act take effect immediately."

Amendments read, and adopted.

COMMUNICATIONS

By Mr. Meyers:

The following communication was received, read, and ordered printed in the Journal:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 17, 1951

Honorable Charles W. Meyers
Member of the Assembly
State Capitol, Sacramento, California

MY DEAR ASSEMBLYMAN: Confirming our conversation regarding Assembly Bill No. 1890, I wish to express my appreciation of the manner in which you have handled this matter. I appreciate your willingness to introduce this measure at the request of the Superintendent of Banks.

The veto of this measure was the result of a series of errors commencing with the Superintendent and culminating in this office. The unfortunate result was that the message was inaccurate in stating my reason for returning the bill.

It was most courteous of you to hold the matter on the unfinished business file until we had an opportunity to discuss it. Following our conversation and as indicated to you, you are at liberty to take such further action as you deem most appropriate. It is most regrettable that you have been caused any embarrassment as the result of a series of misunderstandings and mistakes.

I wish to assure you of my feeling of appreciation to you in view of the unfortunate results attending your willingness to handle this measure for one of our state departments.

Sincerely,

EARL WARREN, Governor

REQUEST FOR UNANIMOUS CONSENT TO TAKE UP CONSIDERATION OF GOVERNOR'S VETO TO ASSEMBLY BILL NO. 1890

Mr. Meyers asked for, and was granted, unanimous consent that he be permitted to take up consideration of the Governor's veto to Assembly Bill No. 1890, temporarily passed on the unfinished business file, out of order, at this time.

CONSIDERATION OF GOVERNOR'S VETO

Assembly Bill No. 1890—An act to repeal Section 232 of the Banking Code and to repeal Section 232 of the Financial Code, relating to the taking of the constitutional oath of office by deputies and examiners.

Governor's message stating his objections read previously.

The question being: Shall Assembly Bill No. 1890 become a law notwithstanding the objections of the Governor?

The roll was called, and the Assembly sustained the objections of the Governor by the following vote:

AYES—Stewart—1.

NOES—Babbage, Belotti, Berry, Brown, Burke, Caldecott, Chapel, Clarke, Cloyed Coats, Collier, Condon, Connolly, Conrad, Cooke, Crowley, Dickey, Dills, Dolwig, Dunn, Erwin, Evans, Fleury, Gaffney, Grunsky, Hagen, Hahn, Hansen, Henderson, Hinckley, Kelly, Kirkwood, Klocksiem, Lanterman, Lincoln, Lindsay, Lipscomb, Luckel, Lyon, Maloney, McCarthy, McCollister, McFall, McGee, McMillan, Meyers, Morris, Moss, Niehouse, Porter, Shaw, Sherwin, Silliman, Smith, Stanley, Waters, and Mr Speaker—57.

REQUEST FOR UNANIMOUS CONSENT THAT OPINION OF LEGISLATIVE COUNSEL BE PRINTED IN JOURNAL

Mr Meyers asked for, and was granted, unanimous consent that an opinion of the Legislative Counsel, relative to oaths of deputies and examiners of the Banking Department, be ordered printed in the Journal, in 10 point type, as follows:

Opinion of Legislative Counsel

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO 2, CALIFORNIA, May 15, 1951

Honorable Charles W. Meyers
Assembly Chamber

OATHS OF DEPUTIES AND EXAMINERS OF BANKING DEPARTMENT—No. 8436

DEAR MR. MEYERS:

Question

You have asked us to advise whether the repeal of Section 232 of the Banking Code, which is the purpose of Assembly Bill No. 1890, would eliminate the requirement for the taking of oaths of office by deputies and examiners of the Superintendent of Banks in the event of a future repeal of the 1950 loyalty oath statute (Stats. 1950, 3rd Extra Sess., Chap. 7).

Opinion

In our opinion the repeal of Section 232 of the Banking Code would not have such an effect.

Analysis

The Government Code already contains a requirement for the taking of an oath of office by officers (Section 1360) and employees (Section 18150). These sections were not repealed by the enactment of the 1950 loyalty oath statute (Stats. 1950, 3rd Extra Sess., Chap. 7), although that act does provide that compliance with its provisions will also constitute compliance with the general oath required of state employees generally (Government Code, Sec. 3106). The 1950 loyalty oath statute did not make a similar provision with respect to the oaths of officers since

its provisions are not applicable to officers required to take the constitutional oath.

Section 232 of the Banking Code (Section 232 of the Financial Code effective on the ninety-first day after final adjournment; Chapter 364 of 1951 Statutes) requires the taking of the oath of office by deputies and examiners of the Superintendent of Banks. In our opinion this requirement merely duplicates the existing provisions in Sections 1360 and 18150 of the Government Code, which sections would continue to require the oath of office for such persons in the event that the 1950 loyalty oath statute should cease to be operative at some future date.

Very truly yours,

RALPH N. KLEPS
Legislative Counsel
By J. D. STRAUSS, Principal Deputy

REQUEST FOR UNANIMOUS CONSENT THAT OPINION OF LEGISLATIVE COUNSEL BE PRINTED IN JOURNAL

Opinion of Legislative Counsel

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO 2, CALIFORNIA, May 18, 1951

Honorable Julian Beck
Assembly Chamber

COMMUNIST REGISTRATION ACT—NO. 8531

DEAR MR. BECK:

Question

You have requested a brief opinion as to the constitutionality of Assembly Bill No. 1573, relating to the registration of members of Communist organizations and regulating the activities of registrants.

Opinion

It is our opinion that the statute, if enacted, would be held unconstitutional by the courts.

Analysis

Assembly Bill No. 1573 would require the registration of every person who resides in, is employed in, has a regular place of business in, or who regularly enters or travels in this State, and who is, or becomes a member of any Communist organization. The act would also prohibit such registrants from acquiring or carrying certain dangerous weapons or explosives, and excludes them from appointment to positions in civil defense organizations. Persons violating the provisions of the act would be subject to criminal penalties.

Assembly Bill No. 1573 is the counterpart of Ordinance No. 5579 of the County of Los Angeles which was held unconstitutional in the recent cases of *People* vs. *McCormick* and *People* vs. *Steinberg* (1951), 102 A.C.A. Supp. 854.

The *Steinberg* case was commenced in the Justices Court of Belvedere Township, County of Los Angeles Judge Myer B. Marion on a ruling on demurrer (No. 35,072) held Ordinance No. 5579 unconstitutional on the following grounds:

(1) Abridgement of freedom of speech and peaceable assembly guaranteed by the First and Fourteenth Amendments of the United States Constitution.

(2) Denial of due process of law because of such vague, indefinite, and unascertainable standards.

(3) Impairment of the privilege against self incrimination guaranteed by Section 13, Article I of the State Constitution.

(4) Invasion of the field of foreign affairs which is reserved to the national sovereignty.

The *Steinberg* case and its companion case, the *McCormick* case, were appealed to the Appellate Department of the Superior Court for Los Angeles County, which affirmed the judgments of the lower courts on the ground that the ordinance was unconstitutional as a violation of the prohibition against self incrimination (102 A.C.A. Supp. 854).

In addition to the provisions contained in Ordinance No. 5579, Assembly Bill No. 1573 contains the following provision:

> "Any information obtained through such registration may not be used by any public official in relation to prosecutions for violation of any other state statute as such use would be against the public interest." (Par. 2, Sec. 7).

The two statutes, in our opinion, cannot be distinguished because of this additional provision since such provision would not furnish a registrant with a protection equal to his constitutional privilege against self-incrimination which the courts have required. (*Ex parte Cohen* (1894), 104 Cal. 524; *In Re Williams* (1932), 127 Cal. App. 424; *Counselmen* vs. *Hitchcock* (1892), 142 U.S. 547.)

Very truly yours,

RALPH N. KLEPS
Legislative Counsel

REQUEST FOR UNANIMOUS CONSENT THAT COMMUNICATION BE PRINTED IN JOURNAL

Mr. Lowrey asked for, and was granted, unanimous consent that a communication be printed in the Journal, as follows:

STATE OF CALIFORNIA, DIVISION OF BEACHES AND PARKS
DEPARTMENT OF NATURAL RESOURCES
SACRAMENTO 14, May 16, 1951

Hon Lloyd W. Lowrey
Member, State Assembly
State Capitol, Sacramento, California

DEAR ASSEMBLYMAN LOWREY I am taking the liberty of replying to your letter of May 14, 1951, in the absence of Chief Newton B. Drury of this division.

The State Park Commission at its meeting in San Francisco on May 4, 1951, rescinded the action it took in December, 1950, not to renew the grazing concession of Mrs Miriam Rudisill in Del Norte Coast Redwoods State Park in Del Norte County. It has now granted Mrs. Rudisill an extension, on a year-to-year basis, of her grazing concession in that park.

This concession, as is true of all grazing concessions in the State Park System, may be granted only for park protection purposes, namely: fire protection. The State Park Commission is not authorized to grant grazing concessions solely upon the need

for grazing in the area of the park involved. Grazing activities must not in any way interfere with the recreational use of the areas involved. Further, when grazing appears to be changing the native character of the park lands involved, the commission may defer grazing on the area until reasonable recovery of the vegetation has occurred.

At the present time, more than 80,000 acres are being grazed by private concessioners in state park areas. In the last three years, approximately 6 percent has had to be withdrawn from grazing for one reason or another. The largest portion of this 6 percent was withdrawn in Anza Desert State Park which supports a minimum number of animals per acre and which we could not get anyone interested in.

The entire matter of grazing policy was discussed at the May meeting of the State Park Commission and representatives of the Wool Growers Association and the State Farm Federation appeared before the State Park Commission and were assured that it shall be the continuing policy of the Park Commission to permit grazing where such grazing does not interfere with the recreational use of the area, the general wildlife associations, and will definitely reduce the fire hazards.

Sincerely yours,

NEWTON B. DRURY, Chief
Division of Beaches and Parks
By EARL P. HANSON, Deputy Chief

cc: Supt. E. P. French (2)

LETTER OF TRANSMITTAL

ASSEMBLY, CALIFORNIA LEGISLATURE
INTERIM COMMITTEE ON FAIRS AND EXPOSITIONS, May 22, 1951

Hon. Sam L. Collins, Speaker of the Assembly
California State Legislature
Sacramento, California

MR. SPEAKER: Your Committee on Fairs and Expositions, created pursuant to House Resolution No. 285, 1949 Session, herewith submits its final report and recommendations.

This report is based on a two-year study, by committee members, of fairs and expositions and their relationship to education and economy.

The committee is grateful to the many individuals and organizations which have cooperated in the gathering of material and information for this report.

The undersigned committee has the honor to submit its report on fairs and expositions.

In submitting this report on the work of the Interim Committee on Fairs and Expositions, the chairman and committee members desire to state that their primary purpose is to give a fairly complete current picture of how district and county fairs are actually operating in California. The attempt has been made to present objectively the problems which exist and which must be solved, to inform the Members of the Legislature and the public generally of the State's investment in fairs, to set forth the educational and cultural contributions which fairs make, to indicate in a general way the economic and commercial importance state-supported district and county fairs have attained in the business life of California, and finally to present certain constructive suggestions concerning the operation of county and district fairs. The committee does not make recommendations on every problem which perplex fair managers and fair directors. But we do hope that the recommendations which are presented and that the general information here made available will make easier the solution of problems to which we here propose no specific answers.

Respectfully,

LESTER T. DAVIS, Chairman
JOHN W. EVANS
JOHN E. MOSS, JR.
CHARLES S. GUBSER
L. STEWART HINCKLEY

House Resolution No. 152

Relative to expressing confidence in the statesmanship of Vernon Kilpatrick

WHEREAS, Our colleague Vernon Kilpatrick is now a candidate for election to the City Council of the City of Los Angeles, having received the highest vote among five contestants for nomination to such office; and

WHEREAS, In the course of his campaign for such office he has been subjected to vicious, unwarranted attacks on his loyalty and devotion to our American principles of democracy; and

ANNOUNCEMENT

Speaker Sam L Collins announced that he has received a communication from Earl W. Chapman, Executive Officer of the Board of Administration, State Employees' Retirement System, Sacramento, and read one paragraph from the letter as follows:

"In that connection may I suggest that the Law be amended to provide that the member has the right of election until ninety days after the receipt of notice from this office concerning his right. That provision is in the State Employees' Retirement Law and prevents the unfortunate situation which arises when ninety days have elapsed and no notice has come. I think it would improve the situation if an amendment such as I have suggested were placed in the Legislators' Law."

Speaker Sam L. Collins further announced that if any member has a remaining spot for the introductoin of a bill, and is interested in full information, to come to his office, and read said letter in full.

REPORT ON OVERLAPPING IN BUILDING REGULATIONS BY ASSEMBLY INTERIM COMMITTEE ON GOVERNMENTAL EFFICIENCY AND ECONOMY

House Resolution No. 183, 1949

A. I. STEWART, Chairman

To the Honorable Sam L. Collins, Speaker, and to the Members of the Assembly:

House Resolution No. 183, 1949, directed that this committee investigate overlapping in state and local building regulations, and propose corrective legislation, if appropriate, to relieve the burden that these conflicts now impose on builders.

To study a problem of this scope and complexity requires painstaking attention to a mass of detailed law and regulations. Near the end of 1949, we engaged Louis J. Kroeger and Associates, management consultants, of San Francisco and Los Angeles, to undertake the necessary staff work of compiling and analyzing the data on which this report is based.

The committee met in Sacramento in March, 1950, at which time the staff outlined proposed procedures for the study, and reported certain preliminary facts concerning the scope of the problem.

Thereafter the staff amassed and reviewed about 4,400 pages of California state and local building regulations; and almost as much again from other states and localities. The analysis of this material was contained in a second staff report, released in August, 1950, and circulated widely among public officials and the industries and professions engaged in building.

The committee held hearings in San Francisco and Los Angeles in October, 1950, to give all concerned an opportunity to comment on the tentative findings and recommendations in the second staff report. A full transcript of those hearings is available as part of the records of this committee.

In addition to committee hearings, the staff has had further conferences with a committee of the League of Cities and with industry and profession representatives, to the end that this report of your committee may reflect as accurately as possible the best available thinking as to what should be done about this troublesome problem.

Finally, the staff has, through correspondence with the governors and building officials of other principal states, sought to find precedent elsewhere by which California might benefit. Apparently, however, this is a common problem to which no state has yet provided a satisfactory answer.

That it is essential to the economy of the State that an answer be found is illustrated by the mounting value of building construction. The following figures show total value of public and private, residential and non-residential construction in California in recent years:

1945	$ 373,500,000
1946	$1,262,700,000
1947	$1,613,400,000
1948	$2,275,200,000
1949	$1,817,700,000
1950	Estimated to be over $2,000,000,000

If overlapping building regulations add only 1 percent to costs in this 20 billion dollar activity, the unjustified cost to builders is $20,000,000! A waste of 20 million dollars deserves prompt and decisive action by this Legislature.

SCOPE OF THE STUDY

By the terms of House Resolution No. 183, this is a study of overlapping in building regulations.

There is a host of other problems affecting the construction industry and allied activities, which interested parties would like to see investigated as a part of this study; but we have kept within the strict limits of the resolution.

This report, therefore, does not consider such matters as the adequacy of building codes; any aspect of zoning to regulate where buildings may be erected; claims of excessive or restrictive requirements as to conditions or materials; alleged restrictive practices of building trades labor unions; the adequacy or social implications of housing; or the policies and practices of state and local administrative and licensing agencies, except as they are directly concerned in promulgating and enforcing building regulations.

If basic conflicts can first be resolved, then many of these other problems can more readily be solved.

FINDINGS

The results of detailed study can be summarized in a few general findings, with which we believe there will be general agreement:

1. There are too many overlapping building regulations to make it feasible or desirable to attempt to recite them in full.

2. There are too many conflicts, and in such a variety of types of regulations, to make it feasible or desirable to try to resolve the conflicts by detailed legislative action.

3. The real problem is to find a proper definition of the relative authority and responsibility in this field among state agencies, among local agencies, and between state and local agencies.

4. Although the Uniform Building Code is in use by most cities in the State, it is frequently amended in some respects before local adoption.

5. The authority to make laws and rules governing building construction is widely scattered among state and local agencies.

6. The rule-making authority is frequently mingled with enforcement authority.

7. Regulations governing the construction industry have a variety of purposes, of which the principal ones are: (a) assuring adequate structural soundness, (b) protecting surrounding economic values, and (c) assuring the safety of persons where they live, where they work and where they assemble.

8. Neither those making rules nor those enforcing them recognize clearly or observe carefully these different purposes.

9. Many of the regulations are not readily available in understandable form to those who must be governed by them.

10. A local permit to build is no guarantee whatsoever against later intervention by other authorities, with the possible requirement of alterations in work already completed.

11. A citizen proposing to build (or his architect or contractor) must literally become a coordinator of a variety of public agencies to be assured of proper clearance of every official detail.

12. Building construction is slower and costlier as a consequence of all the foregoing conditions.

NATURE OF EXISTING OVERLAPPING

Overlapping Among State Agencies

The State has no one agency concerned principally with building regulations. There are at least 10 state agencies having some degree of authority in this field; and no one of them is responsible for taking the lead in coordinating the activity of all of them. This produces two kinds of confusion—conflict between state agencies themselves; and too many kinds of relationships between state and local agencies.

There is no consistent pattern for defining the relative responsibility of the State and of local agencies in enforcing state regulations. In some instances, such as many of the regulations of the State Fire Marshal, the regulations are published by the State, but generally left to local fire departments for enforcement In other instances, such as checking the structural detail on school buildings, the work is done directly by the state.

Even though the State Fire Marshal's regulations are enforced locally, there is some local resentment against them because their enforcement is required to be through the local fire department, rather than leaving the city free to assign it to the building safety department if locally it seems like a better idea

Some state agency actions would seem less confusing and conflicting if they were better understood. They are not understood partly because the regulations are too long and involved for the average reader, and partly because they are not published in such a way as to be widely distributed before they are effective. Printing a regulation and having it available for those who ask for it may create the legal presumption that all concerned are properly notified, but it is not a very practical way of really being sure that those regulated know what is expected of them.

Overlapping Among City Agencies

The cities tend to lay all blame for conflict and confusion on the State. But few cities have put their own administrative house in order. Most cities have a building official who is the principal officer responsible for enforcing building regulations. In addition, the fire department, the health department, and sometimes as many as a dozen other local agencies are involved in some phase of building regulation. Even though most of these agencies have a legitimate concern in some aspect of building regulation, local organization should be such that the applicant for a building permit would have to go only to one place and could expect a single answer from the city, embodying all the considerations that any city department is authorized to apply.

A health department naturally and properly views a proposed building solely from the standpoint of sanitary and other health features; a fire department is concerned with preventing fire and being able to fight it effectively if necessary; a planning department wants to be sure that

the building conforms to zoning regulations If each pursues its own interests without central direction and coordination, each set of features gets undue attention. The builder who goes to 10 city offices and gets a favorable decision in nine of them and a rejection in the tenth, can hardly be blamed for feeling that he is unfairly treated and that he should get a permit anyway, since the vast majority of the offices approve.

Overlapping Between Cities and Counties

Most of the counties in California do not have building regulations. Opposition has generally come from agricultural interests, who argue against the need for regulation on farm buildings.

The lack of county regulation in many places has created a serious situation for the cities having heavily populated "fringe areas" The substandard buildings permitted in unregulated county territory tend to depreciate property values in nearby city areas; and the city faces a serious future enforcement problem whenever the fringe area comes into the city by annexation.

In those cases where the county has adopted a building code, the conflict between city and county is generally the same as that between cities, described in the following section.

Overlapping Between Cities

The "Uniform Building Code" is a compilation of regulations by building official members of the Pacific Coast Building Officials Conference working with other groups, including state departments. Most California cities have adopted the Uniform Code, but in doing so they frequently adopt local modifications which impair uniformity, or fail to enact late editions of the code.

From studying the variations in the Uniform Building Code, it is not apparent why these variations are important. They frequently consist of minor variations in standards, probably adopted to satisfy local pressure groups, but not essential to building safety.

The fact that most of the cities adopt the Uniform Building Code almost in its entirety does not minimize the confusion that results from minor local exceptions. For instance, when 45 cities in Los Angeles County, and the county itself, may indulge in any combination of variations of the Uniform Building Code, a builder operating throughout the county faces a bewildering situation.

If local conflicts are to be resolved, the means for reducing variation in local building codes must be found. It will always be desirable to leave to each city the discretion to set its own schedule of fees and to establish its own local form of administration; but such details do not concern the builder in the same way as do such things as varying requirements for the height of ceilings.

Overlapping Between Cities and the State

Here is the most serious point of overlapping, and the one about which the Legislature can take the most conclusive action. Inherent in this particular conflict is not only a matter of convenience to an important industry and to the citizenry; but there is also a matter of the nature of the fundamental relations between cities and the State.

Building regulation has traditionally been a field of local concern. Cities have adopted their own standards and regulations and have been responsible for their own enforcement.

The State has more recently begun to occupy the field of building regulation, and has usually come into it to meet some special requirement, or to carry out some other function of the State, or to protect the local investment of state funds. Thus, the State Division of Architecture was precipitated into the business of checking the structural plans of school houses because a serious earthquake revealed deficiencies in existing standards; and state housing regulations stem from the State's general concern in the field of industrial relations and welfare.

The principal examples of state regulations and/or enforcement in this field are as follows:

1. *Agriculture.* The Department of Agriculture regulates the construction and extensive alteration of dairy buildings by establishing rules, providing plans and specifications and approving plans.

2. *Corporations.* The commissioner approves plans for housing projects undertaken by land chest corporations, and may enforce improvements for the health and safety of occupants.

3. *Education.* The Department of Education may establish rules and standards and must review plans for construction or alteration of school buildings where the contract cost will exceed $5,000.

4. *Fire.* The State Fire Marshal has broad rule-making power with respect to fire protection, the protection of life and property against fire and panic, and the design of state institutions. In these matters he may and does delegate authority to local fire departments. He also has rule-making and enforcement responsibilities for fire safety in clothes-cleaning and spotting, sponging and pressing establishments.

5. *Industrial Relations.* The divisions of the Department of Industrial Relations make and enforce building rules on a wide range of subjects, including apartment houses, other dwellings, auto courts and resorts, labor camps, and places of employment. These are designed primarily to protect the safety of individuals, but in doing so necessarily become involved in the construction and equipment of buildings. Certain of these regulations, particularly those affecting dwellings, are enforced by local officials, except that the state agency may intervene where local agencies fail. Most of the regulations of the department are enforced directly by state officials.

6. *Public Health.* The Department of Public Health enforces laws and regulations governing bakeries, restaurants and food processing establishments. Certain of these laws are enforced both by the State and by local health officials, and others by state officers. The department also sets and enforces standards for the construction and equipment of hospitals and clinics.

7. *Public Works.* The Department of Public Works checks the construction and alteration of dams, school buildings, certain other public buildings, and the State's own buildings There are also general provisions of law which specify certain conditions to be met by all contractors on public construction.

8. *Public Utilities.* The Public Utilities Commission makes regulations governing the construction of utility facilities.

9. *Social Welfare.* The Department of Social Welfare checks the plans for a wide variety of welfare institutions.

10. *Veterans.* Plans and specifications must be approved by the Department of Veterans Affairs as a condition of aid under the Veterans Farm and Home Purchase Act.

There are two significant points about the foregoing summary: (1) it is a greatly simplified statement about regulations which occupy hundreds upon hundreds of pages of law and regulations; and (2) much of the same subject matter is covered by local regulations and is subject to local inspections as well.

Under present arrangements, the difficulties of the builder are particularly trying in those cases in which state enforcement applies only when local officials have failed. In such instances the builder may in good faith have completed work according to local standards (and according to his information, the only standards), only to find later that stricter state standards were not properly enforced locally, and that he must tear out the job and do it over according to those standards. Differences between state and local officials would not be so serious if they were the only ones concerned, but they become a matter of general concern when innocent bystanders are injured.

Equally serious, and equally a matter of general concern, are those instances in which the State must rely on local enforcement, but is without the power to require a satisfactory standard of local enforcement.

Underlying all these problems is the basic fact that the State lacks any single point at which responsibility is lodged to see that state law, regulations and enforcements standards and practices are kept consistent and well coordinated. If the building industry or the local building officials or any state agency seeks assistance in the solution of a problem of general concern, there is no one state officer responsible for bringing together all pertinent facts and all interested parties. To a considerable degree, this lack has undoubtedly accounted for much of the existing chaos.

PROBLEMS OF THE BUILDERS

The hostile attitude of so many builders toward building regulations and building officials can be easily understood in light of some of the builders' problems.

1. Most building regulations are too detailed and written in too difficult language to be readily read and applied on the job.

2. Many of the regulations are out of print. It is annoying to be held subject to a rule which cannot be readily ascertained.

3. Many of the local regulations are out-of-date. A city adopts the Uniform Building Code, with modifications. Later the Uniform Building Code is revised, but the city fails to adopt the revised edition. The harassed builder must not only know what modifications each city has adopted, but must also remember which edition they approved.

4. There are conflicts in the detail of regulations, already discussed.

5. There is a multiplicity of regulating agencies, some with outlets for appeals from decisions, and others without such recourse—and each

operating alone, so that the builder must move among them as the coordinating force which finally gets agreement on the standards to govern a given job

6. Because of the multiplicity of agencies there is also added costs for a multiplicity of inspections and approvals

THE PROBLEMS OF OCCUPANCY

Not all of the difficulty complained of is caused by conflicts in regulations Some of it is caused by the changing uses to which buildings are put.

The conflicts which beset the builder of a new building are serious; and in the course of time many of them can be resolved by the actions which this report will recommend. But there will still remain the problem of the owner of a building who wishes to change its occupancy after it has been built. For him the imposition of an unexpected set of regulations is just as serious, but more often justified.

If a building originally intended for storage purposes is converted to a dwelling, it clearly becomes subject to a different set of standards If a building housing a manufacturer of machinery is later to be used by a processor of foods, new regulations properly apply.

As to those complaints that a building must be altered to fit different standards in those circumstances, we have no concern. Even in these change of occupancy cases, however, we find instances in which there are conflicts and lack of adequate information as to just what change must be made—and those conflicts must be resolved.

SOME ALTERNATIVE SOLUTIONS

There are a number of alternative ways of treating this problem:

1. It can be left as it is, on the grounds that construction progresses in spite of it; it is familiar; and any attempt to change it will encounter opposition from one source or another This is an unsound, defeatist attitude, not yet openly expressed by anyone, but several times implied as the probable ultimate fate of this investigation.

2 The State might adopt a Minimum Uniform Code, with authority vested in the local governments to adopt necessary local modifications, and with local enforcement. This would perpetuate the present condition of confusion and conflict, since local units would tend to modify the state standard just enough to make every local situation different.

3. Some advocate complete state regulation and enforcement. In a state of this size and variety of conditions, such a plan is not practicable; and it would be an unwarranted invasion of the rights of home rule enjoyed by California cities.

4. Regulations might be established voluntarily through some such organization as now develops the Uniform Building Code, but with the requirement of actual uniformity; and with local enforcement. This plan has much to commend it, except that (1) it might be difficult to enforce the uniform adoption of regulations informally developed, and (2) it is doubtful whether such an arrangement recognizes adequately the general public interest, as represented by the State.

5. The entire matter could be returned to local jurisdiction. This would eliminate conflict with the State by removing the State from

the field entirely. The cure, however, is a little too drastic In the days of widely separated self-contained communities, such an arrangement was logical. Under present conditions, when cities in a metropolitan area are separated only by an imaginary line; when people live, work and congregate in different political jurisdicitions; and when food is processed, shipped and served over a wide area, the considerable interest of the State in this field cannot be denied

6. There might be a clear division of responsibility by vesting all law and rule making authority in the State, and reserving all enforcement to the local governments. As stated, the principal objection to this plan is that uniform state regulation would be too rigid to apply equitably in all parts of the State, and the subsequent strain on local enforcement agencies, coupled with a lack of supervision over local enforcement, would soon bring chaos back in but a different form.

7. The State might adopt and enforce uniform regulations, with the provision that any city could exempt itself from state regulations by adopting equivalent standards.

8. A plan which has been offered to reconcile most of the difficulties and objections would be one providing for a coordinated authority to make regulations, probably at the state level, with local boards of appeal authorized to make local exceptions within limits, and with enforcement at the local level, subject to standards set by the rule-making authority.

We believe that a complete clear-cut solution of all the problems is not possible at this time. The point that needs clarification first—and the one most directly a proper field of action by this Legislation—is to clarify the state regulations in this field In our hearings we raised repeatedly the question of whether a new state agency should be established to codify and coordinate state regulations in this field; and whether the State should regulate by law or by administrative regulation The consensus of opinion given us is that codification of state regulations should be under legislative supervision, but that resulting regulations should be promulgated administratively. The Committee concurs in those views, and therefore offers the following recommendations:

RECOMMENDATIONS

Your committee recommends:

1. That the first step in resolving conflicts in building regulations be the codification of state regulations on this subject.

2. That the task of codification be carried on under the jurisdiction of the Interim Committee on Governmental Efficiency and Economy.

3. That the committee be authorized to engage staff and utilize advisory committees representing the public officials and industries and professions engaged in building.

4. That the committee be instructed to do these things:

a. Recommend a codification of all existing state regulations governing building.

b. Propose changes in legislation or regulation needed to eliminate conflicts which become apparent as codification proceeds.

c. Prepare a definition of the proper extent of the State's interest in this field.

d. Propose changes in state organization necessary to provide better direction and coordination of the State's proper interests in this field.

5. That the Legislature endorse the Uniform Building Code and encourage local governments to adopt it with a minimum of variations, and to keep current with revisions in the Code.

Your committee will sponsor resolutions to give effect to these recommendations.

APPENDIX B

House Resolution No. 000

A resolution encouraging the adoption of uniform local building regulations

WHEREAS, The Assembly Interim Committee on Governmental Efficiency and Economy has reported serious conflicts in state and local building regulations; and

WHEREAS, It appears that part of this conflict results from lack of uniformity caused by failure to adopt a Uniform Building Code, or from variations included at the time of adoption of the code, or from failure to adopt subsequent revisions; and

WHEREAS, This Legislature respects the autonomy of local government on this subject, yet sees the advantages of uniform building regulation; and

WHEREAS, Representatives of local governments, through the Pacific Coast Conference of Building Officials, have developed a Uniform Building Code; now, therefore, be it

Resolved,

1. That this Legislature urges upon each local government the importance of adopting as nearly uniform building regulations as possible, as a measure of public convenience and economy.

2. That this Legislature recommends to the governing body of each local government that the Uniform Building Code be adopted with a minimum of local modification; and that revision of the code be enacted as published.

3. That copies of this resolution be sent to the clerk of each local government.

Explanation of Vote on Assembly Bill No. 1144

Had I had in my binder the correctly amended bill, as amended May 17, 1951, I should have voted "AYE." The bill in my binder was the one as amended May 3, 1951, which contained in my estimation a very improper provision. This latter was amended out by the latest amendment.

CONSIDERATION OF SENATE BILL NO. 987

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Senate Bill No. 987:

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, March 22, 1951

To the Honorable Members of the Assembly
Sacramento, California

GENTLEMEN:

Senate Bill No. 987, "An act to establish a Public Utilities Code, thereby consolidating and revising the law relating to and regulating public utilities and other regulated businesses and matters incidental thereto, the powers and duties of the Public Utilities Commission, local utility franchises, and publicly owned utilities, and repealing certain acts and parts of acts specified herein,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill is a codification by the California Code Commission As such it does not purport to change existing law. However, the Legislative Counsel advises me that it contains a technical appropriation. To facilitate the consideration of bills amending portions of the code as added by this bill it is important that it be acted on early in the session.

I therefore recommend consideration of Senate Bill No 987 as an emergency measure.

Respectfully submitted.

EARL WARREN, Governor

Senate Bill No. 987—An act to establish a Public Utilities Code, thereby consolidating and revising the law relating to and regulating public utilities and other regulated businesses and matters incidental thereto, the powers and duties of the Pubile Utilities Commission, local

Opinion of Legislative Counsel

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 21, 1951

Honorable Arthur W. Coats, Jr.
Assembly Chamber

TREATIES—No. 8652

DEAR MR. COATS:

Question

You have asked the following questions:

1. Could the President and the Senate of the United States through the exercise of the treaty-making power make a fundamental change in the constitutional structure of the Government of the United States; i.e. could they abolish the House of Representatives or suspend the "due process" clause of the 14th Amendment of the Federal Constitution?

2. What is the jurisdiction of the United States Supreme Court with regard to the validity of treaties? Could the Supreme Court, for instance, rule that a treaty directed at the abolition of the House of

Representatives or the suspension of the "due process" clause was unconstitutional and should not be respected either by the Federal or State Governments?

Opinion

It is our opinion that:

1. The President and Senate of the United States could not by treaty make a fundamental change in the constitutional structure of the Government of the United States.

2. The Supreme Court has the power to rule such treaties invalid. However, it is possible that the Supreme Court would refuse to entertain jurisdiction on the ground that the question of the validity of a treaty was political in nature.

Analysis

With respect to the treaty-making powers, the Constitution of the United States declares that the President "shall have Power, by and with the Advice and Consent of the Senate, to make Treaties, provided two thirds of the Senators present concur;"[1] also, that "no State shall enter into any Treaty, Alliance, or Confederation;"[2] and that "no State shall, without the Consent of Congress * * * enter into any Agreement or Compact with another State, or with a foreign Power."[3] It is announced that "This Constitution, and the Laws of the United States which shall be made in Pursuance thereof; and all Treaties made, or which shall be made, under the Authority of the United States, shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any Thing in the Constitution or Laws of any State to the Contrary notwithstanding."[4]

The extent of the treaty-making power in the United States has never been clearly defined. As the language of the Constitution in this respect is general, any limitations now existing in the treaty-making power have developed by means of judicial interpretation.

In *Doe, ex. dem Clark* vs. *Braden* (1853), 16 How, 635, the United States Supreme Court held that no court may annul or disregard any of the provisions of a treaty unless they violate the Constitution of the United States.

In *De Geofroy* vs. *Riggs* (1890), 133 U.S. 258, 267, Justice Field defined the power as follows:

> "The treaty power, as expressed in the Constitution, is in terms unlimited except by those restraints which are found in that instrument against the actions of the government or of its departments, and those arising from the nature of the government itself and that of the States. It would not be contended that it extends so far as to authorize what the Constitution forbids, or a change in the character of the government or in that of one of the States, or a cession of any portion of the territory of the latter, without its consent . . . But with these exceptions, it is not perceived that there is any limit to the questions which can be adjusted touching any matter which is properly the subject of negotiation with a foreign country."

[1] Art II, Section 2, paragraph 2
[2] Art I, Section 10, paragraph 1.
[3] Art. I, Section 10, paragraph 3.
[4] Art. VI, paragraph 2

(See also *Cherokee Tobacco* vs *United States* (1870), 11 Wall. 616, 620; *Holden* vs. *Joy* (1871), 17 Wall. 211, 243; *Asakura* vs. *Seattle* (1924), 265 U S. 332, 341.)

In view of the above cases, we are of the opinion that a treaty to make a fundamental change in the constitutional structure of the government would be invalid.

Whether the Supreme Court of the United States would entertain jurisdiction to hold such a treaty invalid is a more difficult question.

In this connection, it is interesting to note that the Supreme Court has never expressly declared a treaty invalid, although a lower Federal court has stated:

> "While this court is of the opinion that the power to declare treaties void, if clearly violative of some provision of the Constitution or for reason mentioned in *Geofroy* vs. *Riggs* exists, it should, in the language of Mr. Justice Chase, in *Ware* vs. *Hylton*, 'never be exercised but in a very clear case indeed.'" (*United States* vs. *Thompson* (1919), 258 Fed. 257, 268.)

Nevertheless, the United States Supreme Court has recently cast some doubt on its ability to declare a treaty invalid, and it is possible that it may now refuse to do so on the ground that such a decision would involve a political question beyond its jurisdiction to decide. (*United States* vs. *Curtiss-Wright Export Corp.* (1936), 299 U. S. 304 See also *United States* vs. *Reid* (1934), 73 F. (2d) 153.)

Very truly yours,

RALPH N KLEPS, Legislative Counsel
By DELBERT E. WONG, Deputy

A student body organization may be established at any state college under the supervision of the college officials for the purpose of providing essential activities closely related to, but not normally included as a part of, the regular instructional program of the college. The activities conducted by such an organization shall be designed to contribute to the development of skill and facility in human relations, the development of leadership ability, and the recreational and social needs of students. The activities may include but shall not be limited to the operation of campus publications, musical organizations, speech and dramatics activities, student government activities, intramural and intercollegiate sports, and the sponsorship of clubs and organizations which are designed for students specializing in various major subject matter areas offered by the college. Such an organization may also operate a campus store, a cafeteria, and other projects not inconsistent with the purposes of the college.

Notwithstanding any provisions of law to the contrary, if a student body organization is established at any state college and upon the favorable vote of two-thirds of the students voting in an election held for this purpose, in such manner as the Director of Education shall prescribe, and open to all regular students enrolled in such college, the State Director of Education shall fix a membership fee which shall be required of all regular students attending such college. This required fee may be subject to referendum at any time upon the presentation of a petition to the president of the college containing the signatures of 35 percent of the regularly enrolled students at such college. A successful referendum shall take effect with the beginning of the academic year following that in which the election was held. The director may also fix student body organization membership fees for limited and summer session students attending such college. Such fees shall not be charged to students registering solely in extension classes offered by the college. Each state college student shall pay the required membership fee as a prerequisite to enrollment in the college. No student shall be required to pay student body membership fees in an aggregate amount exceeding twenty dollars ($20) annually. The provisions of this section shall apply to any vote held during the spring semester of the 1950-51 school year.

SEC. 2. Section 20345.6 is added to said code, to read.

20345.6. Notwithstanding any provision of law to the contrary, student body organization membership fees authorized under the provisions of Section 20345.5 hereof shall be collected by the officials of the college, together with all tuition and material and service fees, at the time of registration. Moneys collected on behalf of student body organizations shall be transmitted by the business manager to the student body treasurer and such moneys may be deposited by said treasurer in local bank accounts under the jurisdiction of the student body organization

All moneys received by a state college from any agency of the State or Federal Government for the payment of student body organizations membership fees of students attending the college shall be in a like manner transmitted by the business manager to the treasurer of the student body organization and deposited in local bank accounts as provided above.

SEC. 3. Section 20345.7 is added to said code, to read:

20345.7. All moneys collected by a state college on behalf of a student body organization under the provisions of this article shall be available for such purposes of the student body organization as are approved by the State Director of Education. These funds may be drawn against by the appropriate officers of the student body organization for expenditures necessary to carry out the purpose of the organization.

SEC. 4. Section 20345.8 is added to said code, to read:

20345.8. Any student whose financial need is reasonably demonstrated to the dean of student personnel of such college shall either be refunded the amount of the membership fee from the student welfare fund or, at the discretion of such dean, shall be given the opportunity to work off this sum at the prevailing student rate of such college.

SEC. 5. This act shall be in operation on September 1, 1951

SEC. 6. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect The facts constituting such necessity are:

Unless student body organization fees are required by a college, the veteran student does not receive the amount of the fees in the education aid which the Federal Government extends to veterans. There are many veterans enrolled in state colleges who are financially unable to pay such fees unless the amount is included in the federal aid; if this act is adopted the Federal Government will pay the fees for such student veterans. Under the existing law, many state colleges will find it necessary to discontinue the student activities which are supported by student body organization fees and which are a necessary and integral part of an adequate program for college education. In order to enable the state colleges to continue the offering of student activities at the commencement of the fall term, it is therefore necessary that this act take effect immediately."

(e) The practice of chiropractic includes the study and use of any and all means, methods, preparations and substances, physical, chemical, including pharmaceutical, biological, minor surgical or ambulant surgical, mental or other in or upon human beings in the analysis, correction, and care, which terms, for the purposes of this act, shall encompass such terms as "diagnosis," and "treatment," of those disorders of body structure and function commonly referred to as "diseases," "ailments," "deformities," "blemishes" "disfigurements," and all other physical and mental conditions resulting from any and all causes including trauma.

The record of such revocation so made by said county clerk shall be prima facie evidence of the fact thereof, and of the regularity of all proceedings of said board in the matter of said revocation.

(b) At any time after two years following the revocation or cancellation of a license or registration under this section, the board may, by a majority vote, reissue said license to the person affected, restoring him to, or conferring on him all the rights and privileges granted by his original license or certificate. 24301 The mandatory provisions of this chapter shall not include schools maintained or classes conducted by employers for their own employees, where no fee or tuition is charged, or schools owned and operated by bona fide religious, charitable, or eleemosynary institution; or any school conducting a course of instruction required or recognized by any board, bureau, commission, or other agency within the Department of Professional and Vocational Standards for purposes of qualifying any person to engage in any profession or vocation, or any school licensed, regulated, or controlled

24302. The provisions of this chapter shall be administered by the State Department of Education and the Superintendent of Public Instruction, which in connection therewith shall have the power to make and enforce rules and regulations not inconsistent with the provisions of this chapter. "SEC. 2. Section 29.1 is added to said act to read:

Sec. 29.1. The agency may in any year during which it owns property in a redevelopment project pay to any city, county, city and county, district or other public corporation which would have levied a tax upon such property had it not been exempt, an amount of money in lieu of taxes.

SEC. 3. Section 29.2 is added to said act to read:

Sec. 29.2. Any redevelopment plan may contain a provision that taxes, if any, levied upon taxable property in a redevelopment project each year by or for the benefit of the State of California, any city, county, city and county, district, or other public corporation (hereinafter sometimes called "taxing agencies") after the effective date of the ordinance approving the redevelopment plan, shall be divided as follows:

(1) that portion of the taxes which would be produced by the rate upon which the tax is levied each year by or for each of said taxing agencies upon the total sum of the assessed value of the taxable property in the redevelopment project as shown upon the assessment roll used in connection with the taxation of such property by such taxing agency, last equalized prior to the effective date of such ordinance, shall be allocated to and when collected shall be paid into the funds of the respective taxing agencies as taxes by or for said taxing agencies on all other property are paid (for the purpose of allocating taxes levied by or for any taxing agency or agencies which did not include the territory in a redevelopment project on the effective date of such ordinance but to which such territory has been annexed or otherwise included after such effective date, the assessment roll of the county last equalized on the effective date of said ordinance shall be used in determining the assessed valuation of the taxable property in the project on said effective date); and

(2) that portion of said levied taxes each year in excess of such amount shall be allocated to and when collected shall be paid into a special fund of the redevelopment agency to pay the principal of and interest on loans, moneys advanced to, or indebtedness (whether funded, refunded, assumed, or otherwise) incurred by such redevelopment agency to finance or refinance, in whole or in part, such redevelopment project.

Unless and until the total assessed valuation of the taxable property in a redevelopment project exceeds the total assessed value of the taxable property in such project as shown by the last equalized assessment roll referred to in paragraph numbered (1) hereof, all of the taxes levied and collected upon the taxable property in such redevelopment project shall be paid into the funds of the respective taxing agencies. When said loans, advances, and indebtedness, if any, and interest thereon, have been paid, all moneys thereafter received from taxes upon the taxable property in such redevelopment project shall be paid into the funds of the respective taxing agencies as taxes on all other property are paid.

In any redevelopment plan or in the proceedings for the advance of moneys, or making of loans, or the incurring of any indebtedness (whether funded, refunded, assumed, or otherwise) by the redevelopment agency to finance or refinance, in whole or in part, the redevelopment project, the portion of taxes mentioned in paragraph numbered (2) hereof may be irrevocably pledged for the payment of the principal of and interest on said loans, advances, or indebtedness.

As used in this section the word "taxes" shall include, but without limitation, all levies on an ad valorem basis upon land or real property.

Whenever property in any redevelopment project has been redeveloped and thereafter is leased by the redevelopment agency to any person or persons or whenever the agency leases real property in any redevelopment project to any person or persons for redevelopment, the property shall be assessed and taxed in the same manner as privately owned property, and the lease or contract shall provide that the lessee shall pay taxes upon the assessed value of the entire property and not merely upon the assessed value of his or its leasehold interest.

This section shall become operative only if the people approve the constitutional amendment of the 1951 Regular Session of the Legislature adding Section 19 to Article XIII of the Constitution of the State and in such case at the same time as such constitutional amendment takes effect.

SEC. 4. Section 78 of said act is amended to read:

Sec. 78. An agency shall have power to issue bonds from time to time in its discretion, for any of its corporate purposes. An agency shall also have power to issue refunding bonds for the purpose of paying or retiring bonds previously issued by it. An agency may issue such types of bonds as it may determine, including bonds on which the principal and interest are payable: (a) exclusively from the income and revenues of the redevelopment projects financed with the proceeds of such bonds, or with such proceeds together with financial assistance from the State or Federal Governments in aid of such projects; (b) exclusively from the income and revenues of certain designated redevelopment projects whether or not they were financed in whole or in part with the proceeds of such bonds; *(c) in whole or in part from taxes allocated to, and paid into a special fund of, the agency pursuant to the provisions of Section 29.2 hereof* [(c)] *(d)* from its revenues generally; [(d)] *(e)* from any contributions or other financial assistance from the State or Federal Governments; or [(e)] *(f)* by any combination of these methods. Any of such bonds may be additionally secured by a pledge of any revenues or by an encumbrance (whether by mortgage, deed of trust or otherwise) of any redevelopment project, projects or other property of the agency *or by a pledge of the taxes referred to in (c) above, or by any combination thereof*.

Neither the members of an agency nor any person executing the bonds shall be liable personally on the bonds by reason of the issuance thereof. The bonds and other obligations of any agency (and such bonds and obligations shall so state on their face) shall not be a debt of the community, the State or any political subdivision thereof and neither the community, nor the State or any political subdivision thereof shall be liable thereon, nor in any event shall such bonds or obligations be payable out of any funds or properties other than those of said agency. The bonds shall not constitute an indebtedness within the meaning of any constitutional or statutory debt limitation or restriction.

SEC. 5. Section 33279 is added to the Health and Safety Code to read:

33279. The agency may in any year during which it owns property in a redevelopment project pay to any city, county, city and county, district or other public corporation which would have levied a tax upon such property had it not been exempt, an amount of money in lieu of taxes.

SEC. 6. Section 33882 of said code is amended to read:

33882. Except as otherwise provided in this part, any general obligation bonds issued by any community pursuant to this article shall be authorized and issued in the manner and within the limitations prescribed by law or the charter of the community for the issuance and authorization of such bonds for public purposes generally. Irrespective of any limitation as to the amount of general obligation bonds which may be issued, a community may issue such bonds for the purposes prescribed in this article, in excess of the limitation, in such amount as may be authorized [by an ordinance submitted to and approved] by the voters of the community at any general or special election.

SEC. 7. Section 33911 of said code is amended to read:

33911. An agency may issue such types of bonds as it may determine, including bonds on which the principal and interest are payable.

(a) Exclusively from the income and revenues of the redevelopment projects financed with the proceeds of the bonds, or with such proceeds together with financial assistance from the State or Federal Government in aid of the projects.

(b) Exclusively from the income and revenues of certain designated redevelopment projects whether or not they were financed in whole or in part with the proceeds of the bonds

(c) In whole or in part from taxes allocated to, and paid into a special fund of, the agency pursuant to the provisions of Article 4 of this chapter.

[(c)] *(d)* From its revenues generally.

[(d)] *(e)* From any contributions or other financial assistance from the State or Federal Government.

[(e)] *(f)* By any combination of these methods.

SEC. 8. Section 33912 of said code is amended to read:

33912. Any of such bonds may be additionally secured by a pledge of any revenues or by an encumbrance by mortgage, deed of trust, or otherwise of any redevelopment project or other property of the agency *or by a pledge of the taxes referred to in subdivision (c) of Section 33911, or by any combination thereof.*

ANNOUNCEMENT

Speaker Sam L Collins announced that a new sex crime has stressed the necessity for every legislative safeguard and for a further full investigation of sex crime problems by the Legislature. He also announced

that he recently requested an opinion from every district attorney in the State of how best to approach this serious problem; and asked for, and was granted, unanimous consent that the following telegrams and letter be ordered printed in the Journal, in 10 point type, as follows:

WEAVERVILLE, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker
California Assembly, Sacramento

Longer sentences with less chances for parole.

STENNETT M. SHEPPARD, District Attorney

SACRAMENTO, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker
California Assembly
State Capitol, Sacramento, California

Present laws for punishment of sex offender are adequate if strictly applied and enforced.

J. FRANCIS O'SHEA, District Attorney

SAN RAFAEL, CALIFORNIA, May 24, 1951

Sam L Collins, Speaker
California Assembly
State Capitol, Sacramento, California

No particular recommendation to strengthen laws for punishment for sex offenders. Commend Legislature for action in securing further medical data concerning prevention and treatment.

R. M. SIMS, JR., District Attorney

EL CENTRO, CALIFORNIA, May 24, 1951

Hon. Sam L. Collins
Speaker of California
Assembly, Sacramento, California

I believe sex offenders are rarely rehabilitated either by jail or prison sentences or probation or parole because such persons are either subnormal mentally or senile or abnormal sexually, and it seems more of a medical problem with possible surgical operations indicated as a solution. We have several times committed men of varying ages to jail or prison and, after either short or long terms, they returned and performed same or similar sexual offenses. My recommendations for penalties are much tighter restrictions on probation and parole with surgical operations where recommended by a medical board. Also death penalty for second offenders when minors under 14 are victims. Senile defendants should get life without parole. These suggestions based on long experience as prosecutor and our belief that sex offenders should be permanently removed from society. I would be glad to furnish you digests of some of our recent cases in support of the ideas set forth.

DON C. BITLER, District Attorney
Imperial County

INDEPENDENCE, CALIFORNIA, May 24, 1951

Hon. Sam L. Collins, Speaker
California Assembly, State Capitol Building
Sacramento, California

Re your telegram, I believe as to sex offenders that enforcement of present law is all that is necessary.

JOHN P. McMURRAY
District Attorney, Inyo County

BRIDGEPORT, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker of the Assembly
State Capitol, Sacramento, California

Believe committee comprised of law enforcement and science should analyze sex offenses. Seriousness and complexity of problem defy hasty and unscientific solution.

VERNE SUMMERS
District Attorney, Mono County

UKIAH, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker California Assembly
State Capitol, Sacramento, California

Believe that present laws regarding sex offenders are adequate, excepting Section 5501, Welfare and Institutions Code should be amended to permit charge of sexual psychopathy before adjudication on other criminal charge.

JAMES E. BUSCH
District Attorney
Mendocino County

SALINAS, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker
California Assembly

Believe present laws regarding sex offenders adequate as to punishment if judicious use of kidnapping statutes is made.

BURR SCOTT, District Attorney
Monterey County, Salinas

SANTA ANA, CALIFORNIA, May 24, 1951

Hon. Sam L. Collins
Speaker, California Assembly
State Capitol, Sacramento, California

Telegram May 23rd received. My belief laws for punishment of sex offenders are now sufficient. Under Section 288 Penal Code, sex offenders may be given life imprisonment. What California needs is jurors with sufficient courage and backbone to enforce our present sex laws when violations are presented to them.

JAMES L. DAVIS
District Attorney of Orange County

AUBURN, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker
California Assembly
State Capitol, Sacramento, California

Re telegram 23-5-51 sex offenders. It has been the experience of this office in the prosecution of sex crimes that by far the greater majority involved are second or more offenders, and it is strictly believed that the minimum sentences should be sufficiently increased so that first offenders are not released on society until it is absolutely assured that they are either cured or will no longer be a menace thereto. In addition, after release on a parole or otherwise, they should be placed on absolute and strict supervision for such an additional period as to assure their adjustment to society, and assure that any propensities toward the commission of sex offenses are not revived.

AL B. BROYER
District Attorney, Placer County

YREKA, CALIFORNIA, May 24, 1951

Sam L. Collins
Speaker of California Assembly
State Capitol, Sacramento, California

Suggest serious sex offenders be punished as other criminals. Separate confinement, no benefit of parole.

FLOYD MERRILL
District Attorney, Siskiyou County

SAN FRANCISCO, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker

I am in favor of strengthening laws for punishment of sex offenders in some instances. RAYMOND A. LEONARD
District Attorney, Butte County

HANFORD, CALIFORNIA, May 24, 1951

Honorable Sam L. Collins, Speaker
State Assembly, State Capitol

Recommend violation Penal Code Section 290 (registration of sex offenders) be made felony; add Section 311a to Penal Code to provide:

Every person who wilfully and lewdly exposes his person or private parts thereof to a child under the age of 14 years shall be guilty of a felony

A. HUGO PEARSON
District Attorney, Kings County

VENTURA, CALIFORNIA, May 24, 1951

Sam L. Collins
State Capitol, Sacramento, California

I believe that there would be less concern about punishment of sex offenders if persons with such tendencies were confined in institutions and treated as medical and psychological cases upon first detection of symptoms regardless of how minor or insignificant first act may seem. Legislature should recognize that persons who are mentally ill, mentally deficient, alcoholics, narcotic victims, and sex offenders, should be isolated and treated for physical and mental condition rather than for some particular act committed by them. Commitment and length of confinement should not depend on severity of act which brought the condition to attention. Institutionalization of all such persons should be by court on expert testimony with no jury trial allowed. Confinement should be indefinite with power of discharge or parole in hands of competent medical authorities. That plan would remove a potentially dangerous sex offender before his condition gets so bad that he commits a violent crime arousing public opinion. Even maximum punishment then comes too late.

ROY A. GUSTAFSON
District Attorney, Ventura County

MODESTO, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker
California Assembly
State Capitol, Sacramento, California

Re your telegram re sex offenders. Believe present punishment adequate if laws enforced. Biggest problem in this type of offense is to overcome reluctance of victims and parents of victims to prosecute. This due

to publicity and possibility of public trial. Realize serious constitutional questions involved in any law or procedure remedying this, but would have extremely beneficial results.

T. W. MARTZ
District Attorney, Stanislaus County

RIVERSIDE, CALIFORNIA, May 24, 1951

Sam L. Collins
State Capitol, Sacramento, California

Replying to your wire re sex offenders, punishment should be one year to life. Probation and suspended sentences prohibited. Failure on part of any peace officer or any other person to file charge involving sex offense made a crime, as well as filing reduced charge. No person should be released on parole after conviction of a sex crime offense without proof from three physchiatrists all concurring that prisoner no longer inclined toward sex offenses. Another method is to provide for separate institutions for sex offenders staffed with trained psychiatrists who would not be authorized to grant releases or paroles unless cure effected, and a requirement that all sex offenders either misdemeanants or felons be committed thereto. Do away with present red tape on court procedure.

WILLIAM O. MACKEY
District Attorney, Riverside County

SAN LUIS OBISPO, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker

Received your wire May 23d. Suggest eliminate parole for sex offenders.

LOS ANGELES, CALIFORNIA, May 24, 1951

Sam L. Collins, Speaker
California Assembly

Recommendations strengthening law re sex offenders. Amend Section 209, Penal Code, to include forcible rape and violation of Section 288 P.C. Also recommend amending Section 5047 Welfare and Institutions Code so as to permit a verified petition to be filed against sexual psychopathics as defined by Section 5500 same code, and thus subject these individuals to commitment to appropriate institution and treatment as in mental cases Recommend amending 5501 same code so as to eliminate condition that a sexual psychopath must first be convicted of a criminal offense before proceedings can be initiated. Provide foregoing suggested amendment should not be made available to the sexual psychopath as a substitute for or a means of avoiding any prosecution on any applicable criminal statute Air mail letter follows.

S. ERNEST ROLL, District Attorney

COUNTY OF LOS ANGELES
OFFICE OF THE DISTRICT ATTORNEY
HALL OF JUSTICE, LOS ANGELES, May 24, 1951

Hon Sam L. Collins, Speaker
California Assembly
State Capitol, Sacramento, California

DEAR SAM: Further answering your telegram as of today concerning proposed legislation for the strengthening of sex laws, may I suggest the following for your consideration:

1. Amend Section 209 of the Penal Code to include in addition to the matters therein contained, kidnapping for the purpose of forcible rape and kidnapping for the purpose of violation of Section 288 of the Penal Code.

I have discussed these proposals with other men in our office and with Superior Court Judge Charles Fricke, and they all concur in these suggestions.

2. Amend Section 5047, Welfare and Institutions Code, and other applicable sections, so as to permit a verified petition to be filed against sexual psychopaths as defined by Section 5500 of the same code, and thus subject these individuals to commitment to appropriate institutions and treatment as in mental cases.

3. Amend Section 5501 of the Welfare and Institutions Code so as to eliminate the condition that a sexual psychopath must first be convicted of a criminal offense before proceedings can be initiated to have the individual adjudicated a sexual psychopath.

4. Provide that the foregoing suggested amendments should not be made available to the sexual psychopath as a substitute for or a means of avoiding any prosecution on any applicable criminal statute, but the procedure should be used only in those cases where either no criminal offense or only minor criminal offenses have been committed The purpose of these amendments should be limited to procedure against sexual psychopaths and their commitment as such before they become involved in serious sexual offenses, the idea being to treat these individuals as mentally ill persons and prevent them from injuring themselves or others because of their tendencies.

There are several reasons for the suggested amendments as mentioned in 2, 3, and 4, and among them you may consider the following:

When a man is insane to the extent that he is a menace to the safety of others, there are procedures to remove him from society until he is determined to be no longer a menace. Certainly we should have a law whereby a person who is perpetually a menace to little children could be removed from society for so long a time as he is a danger to them. The present sexual psychopath act cannot be invoked until an offender has been convicted of a moral offense That can be too late. In quite a few cases a child-molester can appear to be non-violent for many years, and then suddenly turn into a killer when his victim offers resistance.

5. Recommend amending 647a subsection 1 of the Penal Code to increase the age limit to 18. 647a seriously limits the child molestation cases. Insofar as molestation is concerned, it is now an offense to molest youngsters only under the age of 14, and provides no protection at all

under this provision for youngsters 14 and over Serious consideration should be given to raising the age limit to 18 under this section.

Sincerely yours,

S. ERNEST ROLL
District Attorney

No permit shall be sold, leased, assigned or otherwise transferred or encumbered by the holder thereof without first having secured from the commission an order authorizing the same. Any such sale, lease, assignment, transfer or encumbrance made otherwise than in accordance with the order of the commission authorizing the same shall be void.

(6) The failure of a household goods carrier to pay any fee imposed upon the carrier within the time required by law.

5286. After the cancellation or revocation of a permit or during the period of its suspension, it is unlawful for a household goods carrier to conduct any operations as such a carrier. The commission may either grant or deny an application for a new permit whenever it appears that a prior permit of the applicant has been canceled or revoked pursuant to Section 5285, or whenever it appears, after hearing, that as a prior permit holder, the applicant engaged in any of the unlawful activities set forth in Section 5285 for which his permit might have been canceled or revoked.

5316 All penalties accruing under this chapter are cumulative, and a suit for the recovery of one penalty does not bar or affect the recovery of any other penalty or forfeiture or bar any criminal prosecution against any person or corporation, or any officer, director, agent or employee thereof, or any other corporation or person, or bar the exercise by the commission of its power to punish for contempt.

5317. Actions to recover penalties under this chapter shall be brought in the name of the people of the State of California, in the superior court of the county, or city and county, in which the cause or some part thereof arose, or in which the corporation complained of, if any, has its principal place of business, or in which the person, if any, complained of, resides. The action shall be commenced and prosecuted to final judgment by the attorney of the commission.

5318 In any such action, all penalties incurred up to the time of the commencement of the action may be sued for and recovered. In all such actions, the procedure and rules of evidence shall be the same as in ordinary civil actions.

5319. All penalties recovered by the State in any action pursuant to this chapter, together with the costs thereof, shall be paid into the State Treasury to the credit of the General Fund. Any such action may be compromised or discontinued on application of the commission upon such terms as the court approves and orders.

SEC. 26. Section 25 of this act becomes operative only if Division 2 of the Public Utilities Code is enacted by the Legislature at its 1951 Regular Session, and in such case at the same time as said Division 2 takes effect, at which time Sections 1 to 24, inclusive, of this act are repealed."

CONSIDERATION OF HOUSE RESOLUTION NO. 148

By Messrs. Beck, Hollibaugh, Rosenthal, Hinckley, Cooke, Shaw, Stanley, Babbage, Tomlinson, Luckel, and Kelly:

House Resolution No. 148

Relating to memorializing the Federal Government to locate regional mobilization offices at Los Angeles

WHEREAS, Optimum efficiency of any agency in constant contact with the population of several localities is attained only by location in the most populous locality, whether or not other areas are in that same jurisdiction; and

WHEREAS, The highest degree of autonomy for finality of decision consistent with national direction, furnished by a regional office, must exist at that location; and

WHEREAS, In the Western States, Los Angeles is the most populous area; the Southern California area contains 42 percent of the population, 46 percent of industrial production, and is performing 70 percent of the present war contracts of the three coastal states; and

WHEREAS, In World War II Los Angeles was the second largest war industry center in the Nation; its rate of increase has been the most phenomenal in the Nation; its retail demand is third nationally; and

WHEREAS, For Los Angeles the closest regional office administering the Defense Mobilization Program is 400 miles away; and

WHEREAS, Unnecessary expenditure of time and funds in travel and phone calls by private citizens and by the government, as in the last war, threatens to result again, unless such a regional office is located in Los Angeles; and

WHEREAS, Such inefficient extension of transportation and communication creates military vulnerability; and

WHEREAS, Regional offices could be established in Los Angeles at the present district offices with a modicum of expense to be saved by the elimination of a step in administration of the program for the most important area in the Western States; now, therefore, be it

Resolved by the Assembly of the State of California, That the President and Administrators of the Defense Mobilization Program be respectfully memorialized to establish a regional office in Los Angeles for the Southern California-Arizona region, and be it further

CONSIDERATION OF DAILY FILE (RESUMED)
THIRD READING OF ASSEMBLY BILLS (RESUMED)

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Assembly Bill No. 3410:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 24, 1951

To the Honorable Members of the Assembly
State of California

GENTLEMEN:

Assembly Bill No. 3410, "An act to amend Sections 19601, 19601.5, 19601.6, 19608, 19611, 19613, and 19613.7 of, to add Sections 19601.7 and 19607.1 to, and to repeal Section 19617 of the Education Code, relating to child care centers, making an appropriation and declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

This bill provides for the continuance of child care centers and makes an appropriation to assist in their operation. It is important that those charged with the responsibility of maintaining these centers should know at the earliest possible moment whether such centers are to be continued in order that they may make the necessary plans for their operation.

I, therefore recommend consideration of Assembly Bill No. 3410 as an emergency measure.

Respectfully submitted.

EARL WARREN, Governor

Assembly Bill No. 3410—An act to amend Sections 19601, 19601.5, 19601.6, 19608, 19611, 19613, and 19613.7 of, to add Sections 19601.7 and 19607.1 to, and to repeal Section 19617 of, the Education Code, relating to child care centers, making an appropriation and declaring the urgency thereof, to take effect immediately.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 25, 1951

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS. I am returning herewith, without my signature,

Assembly Bill No. 1742, entitled "An act to validate the organization, boundaries, acts, proceedings and bonds of public bodies, as herein defined."

My objections to this bill are as follows:

For some years it has been customary for the Legislature to enact at least two validating measures which are identical except that one carries an urgency clause. Such action was taken this year. However, this measure, which is the validating act without the urgency clause, was amended in the Senate. By the amendment to Section 8 it is made to speak as of the time of signing rather than as of its effective date

I am advised by attorneys specializing in the field that this amendment gives this bill the same effect as Assembly Bill No. 1743 carrying the urgency clause. There is no necessity of approving both bills as they accomplish the same thing.

At the request of attorneys interested in the matter, and with the consent of the author, I am approving Assembly Bill No. 1743 and returning this bill without my approval.

Respectfully submitted.

EARL WARREN, Governor

Acknowledgment of Receipt of Assembly Bill No. 1742

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 25, 1951

To the Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 479, entitled: "An act to repeal Section 170.5 of and to add Section 170.5 to the Code of Civil Procedure, relating to disqualification of judges"

My objections to the bill are as follows:

I cannot believe that this bill is either essential or desirable for the administration of justice. There is a proceeding now available to any litigant who believes that a judge is prejudiced against his client. In that proceeding the judge has an opportunity to answer the charge, and the fact is determined by a disinterested judge. This bill provides that "No judge of any superior, municipal, justice or other inferior court of the State of California shall hear or try any action or proceeding when it shall be established as hereinafter provided that such judge is prejudiced against any party or attorney or the interest of any party or attorney appearing in such action or proceeding"

It then provides that the fact of prejudice will be established merely by the written or oral motion of counsel without notice supported by "affidavit that the judge before whom the action or proceeding is pending * * * is prejudiced * * * so that such party or attorney cannot or believes that he cannot have a fair and impartial trial before such judge"

There is no opportunity provided for the judge to disprove or even controvert the affidavit regardless of how scurrilous or libelous it may be concerning him. He would be automatically adjudged by law to be guilty of the facts charged and therefore unfit to discharge his judicial duty in the case.

This, it seems to me, can be used and I have no doubt would be used in instances to discredit a judge where no reasonable grounds exist. In such cases it would result in disgrace to the judge and discredit to the court. The bill provides that the motion of prejudice can be made at any time before the first juror is drawn in a jury case or before the first witness is sworn in, in a non-jury case which would make it a powerful instrument for delay in the trial of cases.

In counties that have one judge, the bill would give any recalcitrant lawyer the right to permanently disqualify from service, in any case in which such lawyer appears, the judge who had been elected by the people because of their confidence in him. I believe that it would be extremely detrimental to the orderly administration of justice.

The Chief Justice has expressed the view that the bill is undesirable in the following language:

"In my opinion, a procedure permitting peremptory disqualification of any judge upon the mere filing of an affidavit is undesirable. Section 170 of the Code of Civil Procedure establishes an adequate and fair method for disqualifying any justice, judge or justice of the peace on the grounds of bias and prejudice, among others, and provides that the hearing of such charge shall be before another judge"

Other judges have also pointed out to me the undesirability of the bill.

Respectfully submitted.

EARL WARREN, Governor

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 25, 1951

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS. I am returning herewith, without my signature,

Assembly Bill No. 1317, entitled "An act to amend Sections 16430 and 16434 of the Education Code, relating to school safety patrols."

My reasons for objecting to this bill are as follows.

This bill provides that school pupils who are members of school safety patrols may assist pupils in crossing streets at school bus stops and may for that purpose ride school busses to such stops I have been asked to veto this bill by the Superintendent of Public Instruction, the Commissioner of the State Highway Patrol, the California Teachers Association and the California Congress of Parents and Teachers.

The Superintendent of Public Instruction points out that under the sections of the California Administrative Code on the subject, adopted by the State Board of Education, it is provided that when a school bus stops at a point where the traffic is not controlled and is discharging pupils who must cross a street or highway the bus shall not be moved until all the pupils have crossed the street or highway. The driver of the bus must not permit the pupils to cross the street or highway until they may safely do so and shall, if necessary, escort such pupils across the street or highway He reports that experience has shown that school bus drivers while performing their obligation under this section are often seriously injured. The task of directing traffic and protecting lives of pupils while they cross busy streets and highways requires the attention of adults rather than that of pupils.

The Commissioner of the State Highway Patrol reports that it is not good practice to place the control of high-speed traffic on children.

The California Teachers Association in objecting to the bill states that the use of children in traffic control in the areas immediately adjacent to schools is reasonably safe, because speed limits are posted and maintained in school zones and supervisory personnel is available. Such is not the case at points along the highway, where traffic travels at extremely high speeds and no warning signs exist. The presence of safety patrol members at such locations would serve only to give children traveling on school busses a false sense of security and protection which the facts would not warrant

The California Congress of Parents and Teachers recommends that the bill be not signed because of the hazards and liabilities that would be involved in permitting members of school traffic patrols to ride busses and direct traffic as children get off the busses The Congress has reluctantly approved any school traffic patrol control of traffic near schools and adjoining schoolgrounds. They believe the responsibility for traffic patrol belongs to the police and highway patrol and not to school districts or school pupils

This session of the Legislature has made one provision which will be of great assistance in connection with this problem. I refer to Assembly Bill No 1701, which is now Chapter 414, Statutes of 1951, and which provides for flashing red lights on school busses to be operated when the busses are receiving or discharging passengers. All motorists are required to stop when busses are receiving or discharging passengers and are flashing the warning red light required by this bill

Because of the hazard to the pupils involved, as pointed out by the officers and organizations to which I have referred, I am returning this bill without my signature.

Respectfully submitted.

May the Flag, the emblem of our united struggle for liberty and justice, long wave above us Bless those who serve in our Armed Forces and all who are in authority in State and Nation and the United Nations.

Grant peace to the weary nations of this world.

"Too long has hate and wrath conspired

Too long we wait for the day desired—
The day of Peace, the Swordless Christ!"

Opinion of Legislative Counsel

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 21, 1951

Honorable Stanford C. Shaw
Assembly Chamber

ASSEMBLY BILL 2366—No. 8328

DEAR MR. SHAW:

Question

You have asked for our opinion as to the constitutionality of Assembly Bill No. 2366, as amended in Assembly May 18, 1951.

Opinion

While any opinion in the field covered by this bill is, to a certain extent, speculative, we are inclined to believe that the bill, if enacted, would be upheld.

Analysis

The bill contains certain legislative findings and declarations which in effect set out that recent history shows there is a world-wide movement to establish a totalitarian dictatorship which has resulted in the overthrow of legally constituted governments aided by the treachery of totalitarian organizations within the country involved. The bill declares that such totalitarian organizations exist in this State and through treachery and specified activities, including infiltration into key positions in government and defense industries, will interfere with the military and civil defense of the Nation and of this State.

In order to meet this evil the bill would create a commission charged with the duty of ascertaining whether any member of a totalitarian organization, as defined in the act, "knowingly acts to bring about the establishment of a totalitarian government as defined in the act." The commission is charged with the duty of requiring "registration by such persons at such time and place and on such forms as the commission may determine."

The bill provides for notice to the person affected by the commission's initial determination that he should register, and affords him a hearing before the commission and a judicial review of the commission's final determination that as a person you should be required to register. It is not until the person affected has failed to seek judicial review, or until such determination of the commission is affirmed by the court, that any penalty attaches for failure to register.

It would appear that any attack upon the bill would be grounded upon the following arguments:

1. That the bill constitutes an attempt for state regulation in the field of foreign affairs, which is exclusively reserved to the Federal Government (*United States* vs. *Pink*, (1942) 315 U. S. 203).

2. That the bill constitutes state legislation in a field completely occupied by federal legislation, and therefore violates Section 2 of Article VI of the United States Constitution.

3. That, as a criminal statute, the bill is too uncertain to meet the requirements of the due process clause of the Fourteenth Amendment to the Federal Constitution.

4. That the bill violates the equal protection clause of the Fourteenth Amendment to the United States Constitution.

5. That the bill infringes on the right of free speech or assembly guaranteed by the First Amendment and made applicable to the states by the Fourteenth Amendment of the United States Constitution.

We do not believe that the first ground of attack set forth above is valid The obvious purpose of the bill is to prevent sabotage and similar acts within the State of California and the bill would appear to have no impact upon foreign or international affairs. Unlike the statute declared void upon this ground in *Hines* vs. *Davidowitz* (1941) 312 U S. 52, the bill does not single out aliens for registration but applies with equal force to all persons within the State In the *Davidowitz* case (supra) the court pointed out for example that: "Experience has shown that international controversies of the gravest moment, sometimes even leading to war, may

arise from real or imagined wrongs to anothers subjects inflicted, or permitted, by a government." A state requirement that aliens be registered and carry registration cards might cause such trouble and affect foreign affairs, but it is difficult to see how a state statute requiring registration of subversive organizations can be open to the same comment.

With respect to the second ground set forth above, there is no question but that the bill operates in the same field as that covered by the Federal Subversive Activities Control Act of 1950. That act provides for the registration of Communist-action and Communist-front organizations and it further provides for the registration of certain members of such organizations.

Both the federal statute cited and the bill in question would result in the registration of certain individuals, but we can see no basis for a conclusion that registration by the State would interfere with the operation of the federal statute. There is nothing in the text of the federal statute which would clearly indicate an intent on the part of Congress to exclude the states from regulating in the same field. In the absence of such an intent nonconflicting regulations adopted by the states under their police powers are not invalid. (*Allen-Bradley Local* vs. *Wisconsin Employment Relations Board*, 315 U.S. 740)

With respect to the third ground of attack set forth above, it should be noted that the only crime defined is for a person to refuse to register after he has been found by the commission to be a member of a totalitarian organization who has knowingly acted to bring about the establishment of a totalitarian dictatorship. In other words, the crime constitutes failure to register after notification that the person affected should register. We do not believe therefore that the statute could be invalidated on this ground.

As to the fourth ground mentioned above, it is well established that the equal protection clause of the Fourteenth Amendment does not prevent the states from enacting class legislation provided there is a reasonable basis for the classification. (*Thompson* vs. *Kentucky*, 209 U. S. 340) It is true that the bill singles out only those persons who are members of totalitarian organizations *and* who have knowingly acted to bring about the establishment of a totalitarian dictatorship for registration, thereby leaving unaffected other persons who seek to bring about a totalitarian dictatorship but do not belong to such organizations. However, the legislative findings set forth in Section 1 of the bill provide a reasonable basis for this classification by showing that the danger is presented primarily by the activities of members of totalitarian organizations.

As to the fifth ground of attack mentioned above, it should be noted that the effect of the bill upon the right to free speech or assembly is remote and indirect. Assuming that a person has registered pursuant to the act, nothing in the act would prevent him from making any utterance in favor of the establishment of a totalitarian government or on any other subject, nor would anything in the act prevent him from remaining a member of any totalitarian organization.

We believe that the effect of the registration requirement of the bill upon rights protected by the first amendment to the United States Constitution is as indirect and remote as was the effect of the Communist oath requirement of the Taft-Hartley Act upon those rights. We further believe the registration requirement of the bill is as reasonable a means

to meet an evil subject to regulation under the State's police power as that oath requirement was to meet an evil which Congress could regulate through its power over interstate commerce. The Communist oath provision referred to was upheld in *American Communications Ass'n.* vs. *Douds*, 339 U. S. 382, and in our opinion, under the reasoning of that case, the bill in question would be upheld as against the contention that it unconstitutionally infringed rights protected by the First Amendment.

We are aware that a county ordinance requiring registration of substantially the same persons who would be affected by Assembly Bill No. 2366 was recently declared invalid. (See *People* vs. *McCormick*, 102 A. C. A. (Supp.) 854.) However, the basis of the decision in that case was that the registration requirement would violate the constitutional provision against self-incrimination. We do not believe that objection is applicable to the bill under consideration.

No person is required to register until the commission has investigated and secured facts sufficient to convince itself and a reviewing court that: (1) A specified organization is a totalitarian organization, as defined; (2) The person affected is a member of that organization; and (3) The person affected "knowingly acts to bring about the establishment of a totalitarian dictatorship."

It should be noted that neither the definition of "totalitarian dictatorship" nor the definition of "totalitarian organization" mentions the use of force, violence or unlawful means. A totalitarian dictatorship could be lawfully accomplished by a revision of the Constitution through lawful processes, and an organization which exists for the purpose of establishing and maintaining such a government by such constitutional means would fall within the definition of "totalitarian organization."

Similarly a member of such organization who secured signatures on a petition asking Congress to call a convention for the purpose of amending the Constitution to provide for a totalitarian dictatorship would be acting knowingly to bring about such a dictatorship.

Neither the organization nor the member would, of course, be guilty of any criminal conduct in the examples just given for such conduct is not proscribed, nor could it be proscribed, by the California Criminal Syndicalism Act or by any federal statute.

It is clear, therefore, that unlike the situation presented by the county ordinance in the *McCormick* case (above), the fact of registration under the bill would not be evidence of the violation of any criminal statute. In view of this, and the fact that the bill specifically provides that the fact of registration shall not be received in evidence in any criminal prosecution, we do not believe the registration requirement violates the constitutional provision against self-incrimination.

Based upon the above, we believe that the bill, if enacted, would be valid.

Very truly yours,

RALPH N. KLEPS
Legislative Counsel

RESOLUTIONS

The following resolution was offered:

By Mr. Dolwig:

House Resolution No. 162

Relative to the creation of the Assembly Fact-Finding Committee on Regional Problems of the San Francisco Bay Area

WHEREAS, Critical regional problems of common concern to the several counties bordering the San Francisco Bay, and to the cities and districts in those counties, remain unsolved because of lack of means for coordinated planning and final initiation of projects; and

WHEREAS, These problems involve: (a) *water conservation*, including plans for supplemental water supplies, reclamation and recovery of drainage and flood waters, and prevention of intrusion of sea water into underground waterbasins; (b) *vehicular traffic planning*, including the pressing need for additional bay crossings and freeway planning; (c) *transportation planning*, including future railroad crossings of the bay, provision of rapid transit facilities for the region, coordination of port and harbor operation and related navigation problems, parking and terminal facilities, and planning for future air traffic facilities; (d) *reclamation of tidelands*, including plans and projects for recreational areas, marine facilities for small craft, development of beaches, shoreline parks and parkways, and related planning for orderly development of the tidelands for urban, industrial and agricultural uses; (e) *drainage and flood control*, including provision of drainage critically needed in presently developed tideland areas, drainage and flood control in future reclaimed areas, proper disposal or reclamation of municipal and industrial liquid wastes, and related waste disposal problems affecting the water and air within the region, particularly those problems of disposal of garbage, refuse and other solid wastes in tideland areas; and

WHEREAS, These problems are inseparably inter-related and their solution requires practical coordination of numerous local, state and federal governmental agencies, and many private interests and voluntary public groups, in order to reach final decisions on regional planning; and

WHEREAS, Solutions of some of these problems are closely related to existing development and future plans in the Central Valley region particularly in the Delta area; and

WHEREAS, Projects for final solution of these problems are vital to military and civilian defense, and are necessary for orderly planning and development for ultimate urban, industrial and agricultural growth in the region; and

WHEREAS, Initial studies of the separate problems have failed to develop acceptable projects, largely because of failure to properly relate the various problems, and also to absence of legislative means to adopt final plans and implement projects; and

WHEREAS, It has been the conclusion of all of these separate studies that final solutions can come about only through some type of regional authority with sufficient power to adopt definite plans and initiate and finance projects for their completion; and

WHEREAS, The regional problems relating to railroad crossings and grade separations and to the reclamation of tidelands are so closely related to the state-wide problems relating to these subjects that the study of such problems must be undertaken on a state-wide basis; now, therefore, be it

Resolved by the Assembly of the State of California, As follows:

PRAYER

Our Father, Which Art in Heaven, Hallowed be Thy name. Thou has taught us by the death of Thy Son, our Saviour, that without the shedding of blood, there is no remission of sins. Thou dost bring to our remembrance, the blood of saints and martyrs, heroes and warriors. We memorialize the lives that teach us the lesson of sacrifice that leads to redemption. May our Nation's destiny be so ordered that they shall not have died in vain.

"O thus be it ever when free men shall stand
Between their loved homes and the war's desolation;
Blest with victory and peace, may the Heaven-rescued land
Praise the Power that has made and preserved us a Nation!
Then conquer we must, when our cause it is just;
And this be our motto: "In God is our trust!"
And the Star-Spangled Banner in triumph shall wave
O'er the land of the free and the home of the brave"

In Jesus' name.—AMEN.

Assembly Bill 3279, entitled: "An act to amend Section 207 of the Welfare and Institutions Code, relating to bodies of deceased persons."

My objections to this bill are as follows:

If the sole purpose of the bill is to authorize boards of supervisors to contract with approved colleges of mortuary science that are licensed as funeral directors by the State Board of Funeral Directors and Embalmers I seriously doubt the necessity of the bill. Under present law boards of supervisors may contract for this purpose with any duly licensed funeral director or embalmer.

However, if this is the sole purpose of the bill and it were so written I would have no objection to signing it if the Legislature was of the opinion that this right should be made more clear

My main objection to the bill is the following language: "Bodies of the unclaimed dead shall be made available to the State Department of Public Health in accordance with the provisions of Sections 7200 to 7208 of the Health and Safety Code"

If the sole purpose of the bill is to provide for the contracts as previously mentioned, this provision is entirely unnecessary and should be eliminated. If on the other hand it attempts to change the law concerning unclaimed bodies it is of sufficient gravity to warrant a full and public consideration by the Legislature which it may not have had when it is considered that this language appears to be incidental to the main change made by this bill There are many elderly people in our State both in institutions and without who will always believe that this language was inserted for the purpose of authorizing the disposal of their bodies for dissection. I do not believe that this inference should be permitted to disturb these unfortunate citizens during their terminal illnesses or their final days of life

If the Legislature, upon reflection, believes the remainder of the act without this language is essential to permit boards of supervisors to contract with colleges of mortuary science, I would have no objection to signing such a bill.

Respectfully submitted

SEC 6. Section 395 05 is added to said code, to read:

395 05. Any public employee who is a member of the National Guard, shall be entitled to absent himself from his duties or service, without regard to the length of his public service, while engaged in the performance of ordered military or naval duty and while going to and returning from such duty, provided such duty is performed during such time as the Governor may have issued a proclamation of a state of extreme emergency or during such time as the National Guard may be on active duty in one or more of the situations described or included in Section 146 of this code

provided such absence does not exceed the duration of such emergency. During the absence of such officer or employee while engaged in such military service during such emergency and while going to and returning from such duty, and for a period not to exceed 30 calendar days, he shall receive his salary or compensation as such officer or employee and shall not be subjected by any person directly or indirectly by reason of such absence to any loss or diminution of vacation or holiday privilege or be prejudiced by reason of such absence with reference to promotion or continuance in office, employment, reappointment to office, or re-employment.

SEC. 7. Section 395.06 is added to said code, to read:

395.06. Every officer or enlisted man of the National Guard who, in order to undertake active military duty in the service of the State during such time as the Governor may have issued a proclamation of a state of insurrection pursuant to Section 143 of this code or proclamation of state of extreme emergency or during such time as the National Guard may be on active duty in one or more of the situations described or included in Section 146 of this code, has left or leaves a position, other than a temporary position, in the employ of a private employer, and who receives a certificate of satisfactory service in the National Guard, and is still qualified to perform the duties of such position, and makes application within 40 days after he is relieved from such active emergency service shall be considered as on leave of absence during such period and shall be restored by his former employer to the former position or to a position of like seniority, status and pay without loss of retirement or other benefits unless the employer's circumstances have so changed as to make it impossible or unreasonable to do so, and shall not be discharged from the position without cause within one year after being restored to said position.

In case any employer fails or refuses to comply with the provisions of this section the superior court of the county in which such employer maintains a place of business shall have power, upon the filing of a motion, petition, or other appropriate pleading by the person entitled to the benefits of such provisions, to specifically require such employer to comply with such provisions, and, as an incident thereto, to compensate such person for any loss of wages or benefits suffered by reason of such employer's unlawful action. The court shall order a speedy hearing in any such case and shall advance it on the calendar. Upon application to the district attorney of the county in which such employer maintains a place of business, by any person claiming to be entitled to the benefits of such provisions, such district attorney, if reasonably satisfied that the person so applying is entitled to such benefits, shall appear and act as attorney for such person in the amicable adjustment of the claim or in the filing of any motion, petition, or other appropriate pleading and the prosecution thereof to specifically require such employer to comply with such provisions. No fees or court costs shall be taxed against the person so applying for such benefits.

SEC. 8. It is hereby declared that this act except for the provisions of subdivision (c) of 395.02 of the Military and Veterans Code as amended hereby, is not a change in the present law but is a declaration of existing law as it has existed since the effective date of Chapter 1396, Statutes of 1949.

SEC. 9. Section 389 is added to said code, to read:

389. (a) As used in this chapter, "temporary military leave of absence" means a leave of absence from public employment to engage in ordered military duty for a period which by the order is not to exceed 180 calendar days including travel time for purposes of military training, drills, encampment, naval cruises, special exercises or like activity as a member of the reserve corps or force of the Armed Forces of the United States, or the National Guard, or the Naval Militia.

(b) "Public employee" means any officer or employee of a public agency.

(c) "Public agency" means the State, or any county, city and county, city, municipal corporation, school district, irrigation district, water district, or other district.

(d) "Armed Forces" or "Armed Forces of the United States" means the "Armed Forces" as defined in Section 18540 of the Government Code.

(e) "Recognized military service" means service as defined in Section 18540.3 of the Government Code.

SEC. 10. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such urgency is as follows:

Due to the Korean crisis and the unsettled world conditions many thousands of public employees, including more than 1,000 state employees, are now on military leaves of absence and serving with the Armed Forces. The rights of such persons under existing provisions of the Military and Veterans Code are uncertain due to ambiguities in the existing law. This uncertainty has and will continue to result in delayed actions on the claims of such employees and has further resulted in hardship to the employees involved and to their families. These conditions may well affect the morale of those employees who are now in the Armed Forces and render them less able to perform their military duties. It is therefore necessary that this act take effect immediately."

WHEREAS, There presently exists several methods for reclaiming tidelands, and each method being useful for different purposes; and

WHEREAS, An essential part of such a development program involves consideration of providing adequate highway facilities and integrating plans for state highway facilities with the plans for such reclamation and development of industrial sites; and

WHEREAS, There presently exists a serious condition wherein the people of the State living in the valleys of Northern California are greatly harassed by traffic congestion in and about the San Francisco Bay area and the people of the State living on the San Francisco-San Mateo Peninsula are not being adequately served by the present means of ingress and egress from the northern and central portions of the State; and

WHEREAS, The State now has under consideration plans for the construction of additional San Francisco Bay crossings and there is pending before this legislature a proposal for an appropriation for surveys, plans, estimates, preliminary engineering and other preliminary expenses for the construction of such crossing; and

WHEREAS, There are differences of opinion as to which location and type of crossing would be most advantageous to the people of the State; and

WHEREAS, The construction of such crossing and the location thereof is a material factor in the development of a program for tideland reclamation and development of the San Francisco Bay area; and

WHEREAS, There is urgent need for the Legislature to be fully advised as to all facts relating to the foregoing; now, therefore, be it

Resolved by the Assembly of the State of California, As follows:

1. The Assembly Fact-Finding Committee on Tideland Reclamation and Development in Northern California, Related Traffic Problems, and Relief of Congestion on Transbay Crossings is hereby created and authorized and directed to ascertain, study, and analyze all facts relating to

(a) The scarcity of industrial sites within the borders of the State of California and particularly in the San Francisco Bay region;

(b) The needs of industry and commerce for expansion and location of sites in Northern California and particularly in the San Francisco Bay region upon land easily accessible by highway, rail, and water;

(c) Specific tideland areas in Northern California and particularly in the San Francisco Bay region that are available for reclamation and development, the methods by which any such area may be reclaimed, developed, and made available for industrial or commercial use, and the estimated cost of any or all such projects;

(d) Providing adequate access by highways from such areas and the San Francisco-San Mateo Peninsula to the northern and central portions of California, including all matters pertaining to the construction of additional San Francisco Bay crossings, the location thereof, and the type of structure; including but not limited to the operation, effect, administration, enforcement and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution, and to report thereon to the Assembly, including in the reports its recommendations for appropriate legislation.

The scope of the committee's activities has been broad, consequently it has been necessary to divide the studies into three distinct subjects and treat them as individual units of a bay area regional problem. They are:

1. Transbay crossings.
2. Tideland reclamation and development.
3. The San Francisco Bay project—the Reber Plan.

It is readily perceivable that the traffic problem is the integral factor in each of these studies and that it is impossible to reach any

definite conclusions or recommendations relative to these subjects until we have first formulated a plan of action to remedy the existing traffic situation.

In its studies of the many problems involved in present highway facilities as the means of ingress and egress from the northern and central portions of the State, the committee was ever mindful of the mounting public interest and pressure for increased grade crossing separations. In answer to these demands hearings were held in San Mateo and San Francisco. While the purpose for which this Committee was created is limited to the consideration of problems within a specified geographical area, the Committee sought information pertinent to the solution of these problems from other relevant sources where similar problems exist.

The study embraced in this report is considered to be one of the "principal factors" involved in the proper solution to this problem.

From the testimony presented at the hearings it would appear that the pressure for increased grade crossing separations is out of proportion to the accident hazard but that it derives more from irritation of an increasing driving public over delay factors.

For a realistic approach to the problem, information of a new kind may be necessary if a true evaluation of needs for the basis of a sound program is to be developed.

Based upon this report and the evidence of testimony presented at the hearings, the committee makes the following recommendations:

1. That legislation should be introduced to establish a procedural basis for assigning costs for the purposes of classifying current cases, and to establish a procedural basis for a state-wide railroad-highway crossing program which may be provided by future legislation.

2. If a statewide railroad-highway crossing program is undertaken, that the benefit-cost ratio be seriously considered as the basis for determining (a) justification for separations (b) priorities.

3. That a statewide railroad-highway crossing program requires further intensified study of the problem by this Committee, including the gathering of needed background data concerning (a) knowledge of delay factors, (b) coordination of state and local planning to avoid wastage of funds in any crossing separation program.

Respectfully submitted.

BURBANK CHAMBER OF COMMERCE
BURBANK, CALIFORNIA

Petition to the State Legislature to Reject Charter Amendment No. 11 as Adopted at April 3d Burbank Municipal Election

WHEREAS, The Burbank Chamber of Commerce has been advised that the recently approved Charter Amendment No. 11 has an error which would seriously restrict the normal operation of the Public Service Department, in that it could not use its own revenues for "construction and expansion" without first having its right to do so determined by court litigation; and,

WHEREAS, The Burbank Chamber of Commerce is informed that a delay, caused by such litigation, would prove disastrous to the present construction and expansion program now being carried on by the Burbank Public Service Department; and,

WHEREAS, The Burbank Chamber of Commerce was one of the sponsors of several charter amendments, including No. 11 at the April 3d municipal election; and,

WHEREAS, The Burbank Chamber of Commerce, like other groups, endorsed Charter Amendment No. 11 without knowledge that the legal uncertainty arising from the omission of the words "construction and/or alterations" would prove to be of such serious nature; now therefore be it

Resolved, That the Burbank Chamber of Commerce does hereby petition the Legislature of the State of California not to approve Charter Amendment No. 11 for the reasons stated above and that a copy of this resolution be sent to the City Council of the City of Burbank.

Adopted this fourteenth day of May, 1951.
