(a) The notice of the hearing shall be given by the clerk or secretary of the governing body and shall contain a copy of the proposed resolution or ordinance. Said notice shall state the time and place for a hearing on said proposed resolution or ordinance, and that at said time and place any person interested, including all persons owning property in the sewer revenue district or water revenue district or in the local agency, may appear and be heard as to whether the proposed rates and charges are discriminatory or excessive, or will not comply with any provision of this act, or will not be sufficient under the provisions or covenants of any outstanding revenue bonds of the local agency payable from the revenues of the said district, or on any other matter relating to said proposed resolution or ordinance or the rates or charges proposed therein.

(b) Said notice shall be published at least once a week for two weeks prior to the hearing in a newspaper published and circulated in the local agency. If there is no newspaper published in the local agency then the publication shall be made in a newspaper published in the county in which the local agency is located. Said notice shall also be posted in three public places in the sewer revenue district or water revenue district for not less than two weeks prior to the hearing. The first publication or posting of the notice shall be at least 15 days prior to the date of hearing.

(c) At the time and place fixed in said notice for the hearing, the governing body shall hold said hearing and may adjourn said hearing from time to time and may adjourn said hearing to a different place if deemed necessary. At the hearing any person interested, including all persons owning property in the sewer revenue district or water revenue district or in the local agency, may appear and be heard on the matters set forth in the notice. At the hearing the governing body may change or modify the proposed rates and charges; provided, however, that no rate or charge shall be raised or increased from that set forth in the proposed resolution or ordinance, unless notice of intention to make said increase shall be published once and posted at least 10 days prior to the hearing on the proposed change.

(d) At the conclusion of the hearing the governing body may determine that the proposed rates and charges, as originally proposed or modified as provided herein, are not discriminatory or excessive, and will comply with the provisions of this act and will be sufficient under the provisions or covenants of any outstanding revenue bonds of the local agency payable from the revenues of the said district and will be in compliance with law and adopt said proposed resolution or ordinance as proposed or modified as provided herein.

Such lien shall attach when the treasurer or other officer whose duty it is to collect the charge records a list of delinquent unpaid charges and penalties thereon with the county recorder, stating the amount of each charge and the penalty thereon, a description of the real property upon which the same is a lien and the name of the local agency to which the same is payable. Such lien shall have the same force, effect, priority and duration as to the property described as would the lien of an abstract of a judgment against the owner of the real property at the time such list is recorded and may be enforced in like manner. A list of all such delinquent charges shall be recorded at least every year, but no delay or informality in recording the same shall invalidate the lien or any unpaid charge or any subsequent act or proceedings. If through error or otherwise the amount of any unpaid charge plus penalties thereon as stated in said list shall be incorrect, said error shall be deemed de minimus and shall not affect or invalidate the filing if said error is one dollar ($1) or less.

As a separate, distinct and cumulative remedy established for the collection of said charges and penalties thereon an action may be brought in the name of the local agency in any court of competent jurisdiction to foreclose the lien of the charge and all penalties thereon. In such action a reasonable attorney's fee shall be awarded plaintiff.

SEC. 12. In connection with the issuance of bonds a local agency may appoint a fiscal agent.

The local agency may:

(a) Provide for the powers, duties, functions, and compensation of the fiscal agent.

(b) Limit the liabilities of the fiscal agent.

(c) Prescribe a method for his resignation and removal, and the merger or consolidation of the fiscal agent.

(d) Prescribe a method for the appointment of a successor fiscal agent and the transfer of rights and properties to the successor.

The local agency may authorize the fiscal agent to receive, collect, hold, or disburse revenues derived by the local agency within the sewer revenue district from the operation of the sewer system and to apply such revenues as provided in the resolution authorizing the issuance of the bonds.

SEC. 13. At any time after the adoption of a resolution for the issuance of the bonds and prior to their delivery to a purchaser, the governing body may bring an action to determine the validity of the bonds in the superior court of the county in which the office of the governing body is located.

The action is a proceeding in rem.

Jurisdiction of all parties interested is had by publication of summons once a week for three weeks in a newspaper of general circulation published in the county where the action is pending. The court shall designate the paper.

Jurisdiction is complete within 10 days after full publication.

At any time before the expiration of the 10 days anyone interested may appear and contest the validity of the bonds.

The action shall be speedily tried and judgment rendered declaring the bonds either valid or invalid.

Either party may appeal to the Supreme Court within 30 days after entry of judgment. The Supreme Court shall hear and determine the appeal within three months from the filing of the appeal.

Sec. 14. Notwithstanding any provision of this act to the contrary, the governing body may accept contributions or loans from the United States, or a federal department, instrumentality, or agency for financing or aiding in financing the cost of preliminary investigations and studies, surveys, plans and specifications, procedures and other action preliminary to acquisition, construction, improvement, repair or financing of sewer works or waterworks.

The local agency may enter into contracts and cooperate with the United States or a federal department, instrumentality, or agency in the making of preliminary investigations, studies and surveys, preparation of plans and specifications and in the accomplishment of procedures and other action preliminary to construction, in the construction, maintenance, and operation, and in financing or aiding in financing the cost of preliminary investigations and studies, surveys, plans and specifications, procedures and other action preliminary to construction and of the construction, maintenance, and operation, of any sewer works or waterworks pursuant to federal legislation under which aid, assistance, and cooperation may be furnished for these purposes by the United States.

The governing body may do any and all things necessary to avail itself of such aid and cooperation.

The governing body may accept contributions from, contract, and cooperate with, the State, any state department, instrumentality, or agency, or any municipal corporation, public corporation, or district in the construction, maintenance, and operation of, and in financing of, any sewer works or waterworks and for the use of any works and services furnished by it for public or private purposes.

The contributions may consist of money, rights of way, labor, materials, and other property.

Sec. 15. Each taker and subsequent holder of bonds and attached or detached coupons has recourse to all of the provisions of the resolution authorizing the issuance of the bonds and to this act and is bound by their terms.

Subject to any contractual limitations binding upon a bondholder or his trustee, any bondholder or his trustee has the remedies set forth in this act for the equal benefit and protection of all bondholders similarly situated.

Such contractual limitations include, but are not limited to, any limitation upon the exercise of a remedy to bondholders or their trustees holding a specific percentage of the bonds.

By mandamus or other suit or proceeding at law or in equity a bondholder or his trustee may enforce his rights against the local agency, its governing body, and any of its officers, agents, and employees and compel them to perform and carry out their duties under this act and their agreements with bondholders.

By a suit in equity a bondholder or his trustee may require the local agency and its governing body to account as the trustee of an express trust.

By suit in equity a bondholder or his trustee may enjoin any acts or things which are unlawful or violate the bondholders rights.

The remedies conferred upon any bondholder or his trustee by this act do not exclude any other remedy. Each remedy is cumulative and in addition to every other remedy and may be exercised without exhausting and without regard to any other remedy conferred by the act or other law.

A waiver of any default or breach of duty or contract by any bondholder or his trustee does not affect any subsequent default or breach of duty or contract nor impair any rights or remedies on the subsequent default or breach.

The delay or omission of any bondholder or his trustee to exercise any right or power accruing upon any default does not impair the right or power and is not a waiver of the default or acquiescence in it.

Every substantive right and remedy conferred upon the bondholders or their trustee may be enforced and exercised as often as is deemed expedient.

If a suit, action, or proceeding to enforce any right or exercise any remedy is abandoned or determined adversely to the bondholders or their trustees, the local agency and bondholder or trustee shall be restored to their former positions, rights, and remedies as if such suit, action, or proceeding had not been brought or taken.

Sec. 16. A local agency may provide for the issuance, sale, or exchange of refunding bonds to redeem or retire bonds issued by it upon the terms, at the times, and in the manner which its legislative body determines.

All provisions of this act applicable to the issuance of bonds are applicable to funding or refunding bonds and to their issuance, sale, or exchange.

Funding or refunding bonds may be issued in a principal amount sufficient to provide funds for the payment of all of the following:

(a) All bonds to be funded or refunded by them.

(b) All expenses incident to the calling, retiring, or paying of the outstanding bonds, and the issuance of the funding or refunding bonds, including the difference in amount between the par value of the funding or refunding bonds and any amount less than that for which the funding or refunding bonds may be sold.

(c) Interest upon the funding or refunding bonds from the date of the sale to the date of payment of the bonds to be funded or refunded out of the proceeds of the

sale or the date upon which the bonds to be funded or refunded will be paid pursuant to call or agreement with the holders of such bonds.

(d) Any premium necessary in the calling or retiring of the outstanding bonds and the interest accruing on them to the date of the call or retirement.

Sec. 17. Territory which has become annexed to a local agency which has formed a sewer revenue district or water revenue district and authorized the issuance of bonds pursuant to this act, and which territory shall use the works acquired, constructed, improved, repaired or financed pursuant to this act shall become subject to the rates and chages imposed by the local agency for such use.

Territory which has been withdrawn from a local agency which has formed a sewer revenue district or water revenue district and authorized the issuance of bonds pursuant to this act, and which territory shall continue to use the works acquired, constructed, improved, repaired or financed pursuant to this act shall remain liable for the payment of the rates and charges imposed by the local agency for such use.

Sec. 18. If any section, subsection, sentence, clause or phrase of this act or the application thereof to any person or circumstance is for any reason held invalid the validity of the remainder of the act or the application of such provision to other persons or circumstances shall not be affected thereby. The Legislature hereby declares that it would have passed this act and each section, subsection, sentence, clause and phrase thereof irrespective of the fact that one or more sections, subsections, sentences, clauses of phrases or the application thereof to any person or circumstance be held invalid."

Amendments read, and adopted.

PRAYER

The following prayer was offered by the Chaplain, the Rev. Robert S. Romeis:

Gracious God, Our Heavenly Father, We thank Thee that Thou hast protected us through the night from all danger and harm, and that Thou hast safely brought us to the beginning of this day. Grant that we may meet its challenges with clear heads, with clean hands, and with hearts cleaving to Thee and Thy word. Help us to be more concerned with what we can do for people, and not what we can do to people; make us more interested in what we can give to others, than in what we can get from others; lead us to be more conscious of the debt we owe to our fellow men, instead of complaining that we aren't receiving our due. Capture our hearts, O God, that we may be free—free to serve and to give and to love; through Christ, our Lord —AMEN.

26601. At its option, the board of directors of a district may adopt a resolution declaring its intention to dispense with either the office of assessor or both the offices of assessor and collector of the district, and to transfer the duties of either the assessor or of both such officers to the assessor or to the assessor and tax collector of the county or counties in which the lands within such district are located.

26602. Certified copies of such resolution shall be served on the clerk of the board of supervisors and on the auditor, assessor and collector of the county or counties in which the lands within the district are located.

If the board of directors elects to accept the terms offered by the county, it shall adopt a resolution reciting its acceptance, dispensing with the office of district assessor or with both the offices of district assessor

and district collector, and transferring their duties to the assessor or to the assessor and tax collector of the county or counties in which the lands within the district are located.

The acceptance of the county's terms by the district as evidenced by the board's resolution shall constitute a contract between the county and the district which shall become effective on the first Monday of February next following its adoption and which shall continue for a term of four years from its effective date. The contract shall be automatically renewed for successive four-year terms unless terminated by either the district or the county by the adoption of a resolution and its service on either the clerk of the board of supervisors by the district, or on the secretary of the district by the county, at least 90 days prior to the expiration of the then-current term of the contract.

The rolls and statement so delivered shall for all purposes become the assessment rolls of the district.

26629. Within 15 days after receipt of the statement of values and duplicate rolls, the district's board of directors shall levy an annual assessment upon the land within the district in the same manner as provided in Chapters 2 and 3 of this part.

The statement shall include the amount of any charges which may

be added to the assessment pursuant to this division and a description of the property to which the charge applies as such property is described upon the county rolls.

26652. The county auditor shall compute and enter in the assessment book the district assessment on all lands assessed as being in the district using the rates fixed by the district's board of directors and the assessed value of the lands in the assessment book at the time and in the manner he computes and enters county taxes.

26653. The assessment so levied shall be collected at the time and in the manner of county taxes and paid into the county treasury. The net amount of the taxes, after the deduction of the county's compensation for the services of its treasurer, assessor and tax collector shall be paid to the district by warrant of the county auditor.

26654. The compensation paid to the county for assessing or collecting assessments for a district shall be that fixed by agreement between the board of supervisors and the district's board of directors.

26655. Unpaid district assessments are delinquent on the same hour and day that county taxes are delinquent and the lands subject thereto shall be sold to the district in the manner, at the time, and upon the penalties of sales of property for nonpayment of county taxes.

26656. Lands sold for delinquent district assessments may be redeemed within three years from date of sale in the same manner as the redemption of property after sale for nonpayment of county taxes.

26657. The county auditor shall apportion to the district the money paid for redemption in the manner provided by Division 1, Part 8, Chapter 1(c) of the Revenue and Taxation Code.

26658. Lands unredeemed after three years have elapsed from the date of their sale for delinquent district assessments shall be deeded to the district by the county tax collector. The deed shall be substantially in the form provided for collector's deeds by Section 26276 of the Water Code and shall have the same effect and be recorded in the same manner as irrigation district's collector's deeds under the provisions of Articles 4 and 5 of Chapter 6 of this part."

The premiums on such bonds shall be paid by the district.

SEC. 22. Whenever the board of directors deems it necessary for the district to incur a bonded indebtedness for the acquisition, construction, completion, or repair of any or all improvements, works or property mentioned in this act, the board shall, by resolution, so declare and call an election to be held in said district for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of said district. Said resolution shall state: (a) the purpose for which the proposed debt is to be incurred, which may include expenses of all proceedings for the authorization, issuance and sale of the bonds; (b) the amount of debt to be incurred; (c) the maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 40 years; (d) the maximum rate of interest to be paid, which shall not exceed 5 percent per annum, payable semiannually, except that interest for the first year may be payable at the end of said year; (e) the measure to be submitted to the voters; (f) the date upon which an election shall be held for the purpose of authorizing said bonded indebtedness to be incurred; and (g) the designation of precincts, the location of polling places, and the names of the officers selected to conduct the election, who shall consist of one judge, one inspector and two clerks in each precinct. Notice of the holding of such election shall be given by publishing the resolution calling the election once each week for two weeks, the last publication to be made not less than two weeks prior to the date of the proposed election, in at least one newspaper published in such district. If there is no newspaper published in such district, then such resolution shall be posted in three public places in such district not less than two weeks prior to the date of the proposed election. No other notice of such election need be given. The returns of such election shall be made, the votes canvassed by said board of directors within seven days following said election, and the results thereof ascertained and declared in accordance with the provisions of the Elections Code, so far as they may be applicable, except as in this act otherwise provided. The secretary of the board of directors, as soon as the result is declared, shall enter in the records of such board a statement of such results. No irregularities or informalities in conducting such election shall invalidate the same, if the election shall have otherwise been fairly conducted.

Any action or proceeding, wherein the validity of any such bonds or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of such election; otherwise, said bonds and all

proceedings in relation thereto shall be held to be valid and in every respect legal and incontestable.

SEC. 23. Whenever the board of directors deems it necessary to incur a bonded indebtedness for the acquisition, construction, completion, or repair of any or all improvements, works or property mentioned in this act and to provide for such bonded indebtedness to be payable from taxes levied upon less than all of the district, the board shall, by resolution, so declare and state: (a) the purpose for which the proposed debt is to be incurred; (b) the amount of debt to be incurred, which may include expenses of all proceedings for the authorization, issuance and the sale of the bonds; (c) that the board intends to form an improvement district of a portion of the district which in the opinion of the board will be benefited, the exterior boundaries of which portion are set forth on a map on file with the secretary of the district, which map shall govern for all details as to the extent of the proposed improvement district, and to call an election in such proposed improvement district on a date to be fixed, for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the district for said improvement district; (d) that taxes for the payment of said bonds and the interest thereon shall be levied exclusively upon the taxable property in the improvement district; (e) that a general description of the proposed improvement, together with a map showing the exterior boundaries of said proposed improvement district with relation to the territory immediately contiguous thereto and to the proposed improvement is on file with the secretary of the district and is available for inspection by any person or persons interested; (f) the time and place for a hearing by the board on the questions of the formation of said proposed improvement district, the extent thereof, the proposed improvement and the amount of debt to be incurred; and (g) that at the time and place specified in the resolution any person interested, including all persons owning property in the district or in the proposed improvement district, will be heard. Notice of said hearing shall be given by publishing a copy of the resolution at least once each week for two weeks prior to the time fixed for the hearing in a newspaper printed and published in the district, if there is a newspaper printed and published in such district. Such notice shall also be given by posting a copy of said resolution in six public places within the proposed improvement district at least two weeks before the time fixed for said hearing.

At the time and place so fixed, or at any time and place to which the hearing is adjourned, the board shall proceed with the hearing. At the hearing any person interested, including any person owning property within the district or within the proposed improvement district, may appear and present any matters material to the questions set forth in the resolution declaring the necessity for incurring the bonded indebtedness. The board shall have power to change the purpose for which the proposed debt is to be incurred, or the amount of bonded debt to be incurred, or the boundaries of said proposed improvement district, or one or all of said matters; provided, however, that said board shall not change such boundaries so as to include any territory which will not, in its judgment, be benefited by said improvement.

The purpose, amount of bonded debt or boundaries shall not be changed by said board except after notice of its intention to do so, given by one insertion in a newspaper printed and published in said district, if there is a newspaper printed and published in such district, and by posting in six public places within said proposed improvement district. Said notice shall state the changed purpose and debt proposed and that the exterior boundaries as proposed to be changed are set forth on a map on file with the secretary of the district, which map shall govern for all details as to the extent of the proposed improvement district, and specify the time and place for hearing on such change, which time shall be at least 10 days after publication or posting of said notice. At the time and place so fixed, or at any time and place to which the hearing is adjourned, the board shall proceed with the hearing. At the hearing any person interested, including any person owning property within the district or the proposed improvement district, may appear and present any matters material to the changes stated in the notice. At the conclusion of the hearing the board shall by resolution determine whether it is deemed necessary to incur the bonded indebtedness, and, if so, the resolution shall also state the purpose for which said proposed debt is to be incurred, the amount of the proposed debt, that the exterior boundaries of the portion of the district which will be benefited are set forth on a map on file with the secretary of the district, which map shall govern for all details as to the extent of the improvement district, and that said portion of the district set forth on said map shall thereupon constitute and be known as "Improvement District No. _____ of Mojave-Antelope Water District," and the determinations made in said resolution shall be final and conclusive. After the formation of such improvement district within a district pursuant to this section, all proceedings for the purpose of a bond election shall be limited, and shall apply only, to the improvement district, and taxes for the payment of said bonds and the interest thereon shall be levied exclusively upon the taxable property in the improvement district.

After the board has made its determination of the matters required to be determined by said last mentioned resolution, and if the board deems it necessary to incur the bonded indebtedness, the board shall by a further resolution call a special election in said improvement district for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the district for said improvement district. Said resolution shall state: (a) that the board deems it necessary to incur the bonded indebtedness; (b) the purpose for which the bonded indebtedness will be incurred; (c) the amount of debt to be incurred; (d) the improvement district to be benefited by said indebtedness, as set forth in the resolution making determinations, and that a map showing the exterior boundaries of said improvement district is on file with the secretary of the district, which map shall govern for all details as to the extent of the improvement district; (e) that taxes for the payment of such bonds and the interest thereon shall be levied exclusively upon the taxable property in said improvement district; (f) the maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 40 years; (g) the maximum rate of interest to be paid, which shall not exceed 5 percent per annum, payable semiannually, except that interest for the first year may be payable at the end of the said year; (h) the measure to be submitted to the voters; (i) the date upon which an election shall be held for the purpose of authorizing said bonded indebtedness to be incurred; and (j) the designation of precincts, the location of polling places, and the names of the officers selected to conduct the election, who shall consist of one judge, one inspector and two clerks in each precinct.

The board of directors shall provide for holding such special election on the day so fixed and in accordance with the provisions of the Elections Code so far as the same shall be applicable, except as herein otherwise provided. Notice of the holding of such election shall be given by publishing the resolution calling the election at least once each week for two weeks prior to the date of the proposed election, in at least one newspaper printed and published in such district, if there is a newspaper printed and published in such district. Such resolution shall also be posted in three public places in such improvement district not less than two weeks prior to the date of the proposed election. No other notice of such election need be given.

The returns of such election shall be made, the votes canvassed by said board of directors within seven days following said election, and the results thereof ascertained and declared in accordance with the provisions of the Elections Code so far as they may be applicable, except as in this act otherwise provided. The secretary of the board of directors, as soon as the result is declared, shall enter in the records of such board a statement of such results. No irregularities or informalities in conducting such election shall invalidate the same, if the election shall have otherwise been fairly conducted.

Any action or proceeding, wherein the validity of the formation of the improvement district or of any such bonds or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of such election; otherwise, said bonds and all proceedings in relation thereto, including the formation of the improvement district, shall be held to be valid and in every respect legal and incontestable.

SEC. 24. Any portion of such district situated contiguous to an improvement district thereof, may be annexed to said improvement district in the following manner. A petition, which may consist of any number of separate instruments, shall be filed with the secretary of the district, signed by holders of title to sixty percent (60%) or more of the land in the portion proposed to be annexed, which land as so represented in said petition shall have an assessed valuation of not less than fifty percent (50%) of the land so proposed to be annexed. The petition shall contain the following: (a) a description of the area proposed to be annexed, which may be made by reference to a map on file with the secretary of the district, which map shall govern for all details as to the extent of the area proposed to be annexed, or in any other definite manner; (b) the terms and conditions upon which said proposed area may be annexed as theretofore determined by resolution adopted by the board of directors of the district; and (c) a prayer that the board of directors declare such area to be annexed to the improvement district. Said petition shall be accompanied by a certified check payable to the order of the district in sufficient sum to reimburse said district for expenses of processing and publishing the petition and preparing and making the filings required by law.

Within 10 days of the date of the filing of such petition the secretary of the district shall examine the same and ascertain whether or not such petition is signed by the required number of property owners; and, if requested by the secretary of the district, the board of directors shall authorize him to employ persons especially for that purpose, in addition to the persons regularly employed in his office, and shall provide for their compensation. When the secretary of the district has completed his examination of the petition, he shall attach to the same his certificate, properly dated, showing the result of such examination; and if from such examination he shall find that said petition is signed by the requisite number of property owners, or is not so signed, he shall certify that the same is sufficient, or insufficient, as the case may be.

If by the certificate of the secretary of the district the petition is found to be insufficient, said petition may be amended by filing a supplemental petition or petitions within 10 days of the date of such certificate. The secretary of the district shall, within 10 days after the filing of such supplemental petition or petitions, make like examination of the same and certify to the result of such examination as hereinbefore provided.

If by the certificate of the secretary such petition, or petition as amended, is shown to be sufficient the secretary shall cause notice of hearing on the petition to be published and posted without delay.

The text of said petition shall be published once a week for at least two weeks prior to the time at which the same is to be presented to the board of directors of the district, in at least one newspaper printed and published in such district, if there is a newspaper printed and published in such district, together with a notice stating the time and place of the meeting at which the same will be presented. When contained upon one or more instruments one copy only of such petition need be published. No more than five of the names attached to said petition need appear in said publication of said petition and notice, but the number of signers shall be stated. Said notice and petition shall also be posted in three public places in the improvement district and three public places in the area proposed to be annexed, at least two weeks prior to the hearing.

The board of directors of the district shall proceed to hear the petition at the time and place fixed therefor and any person residing within the district or improvement district or owning taxable property in said district or improvement district shall be entitled to appear and be heard at such hearing. Such hearing may be continued from time to time by the board of directors of the district. At the conclusion of the hearing, and if the board of directors finds and determines from the evidence presented at said hearing that the area proposed to be annexed to an improvement district will be benefited thereby, and that the improvement district to which said area proposed to be annexed will also be benefited thereby and will not be injured thereby, then and in such case the board of directors of the district may, by resolution, approve such annexation, describing the territory so annexed, which may be by reference to a map on file with the secretary of the district, which map shall govern for all details as to the extent of the annexed area, or in any other definite manner, and the terms and conditions of annexation as theretofore determined by resolution of the board of directors.

From and after the date of the adoption of such resolution the area named therein shall be deemed added to and shall form a part of said improvement district and the taxable property therein shall be subject to taxation thereafter for the purposes of said improvement district, including the payment of the principal of and interest on bonds and other obligations of such improvement district at the time authorized and outstanding at the time of said annexation as if said annexed property had always been a part of said improvement district, and the board of directors of such district shall be empowered to do all things necessary to enforce and make effective the terms and conditions of annexation fixed as hereinabove authorized.

Any action or proceeding wherein the validity of any such annexation is contested, questioned or denied must be commenced within three months after the date of issuance by the Secretary of State of his certificate; otherwise said annexation shall be held to be valid and in every respect legal and incontestable.

SEC. 25. If from such returns it appears that more than two-thirds of the votes cast at such election held pursuant to the provisions of Section 23 or of Section 24 of this act, were in favor of and assented to the incurring of such indebtedness, then the board of directors may, by resolution, at such time or times at it deems proper, issue bonds of the district for the whole or any part of the amount of the indebtedness so authorized, and may from time to time provide for the issuance of such amounts as the necessity thereof may appear, until the full amount of such bonds authorized shall have been issued. Said full amount of bonds may be divided into two or more series and different dates fixed for the bonds of each series. The maximum term which the bonds of any series shall run before maturity shall not exceed 40 years from the date of each series respectively.

The board of directors shall, by resolution, prescribe the form of the bonds and the form of the coupons attached thereto and fix the time when the whole or any part of the principal shall become due and payable. The payment of the first installment of principal may be deferred for a period of not more than five years from the date of the bonds or the date of the bonds of each series respectively. The bonds shall bear interest at a rate or rates not to exceed seven percent (7%) per annum, payable semiannually, except that interest for the first year may be payable at the end of said year. The board of directors may also provide for call and redemption of bonds prior to maturity at such times and prices and upon such other terms as it may specify. A bond shall not be subject to call or redemption prior to maturity unless it contains a recital to that effect or unless a statement to that effect is printed thereon.

The denomination of the bonds shall be stated in the resolution providing for their issuance, but shall not be less than one thousand dollars ($1,000). The principal and interest shall be payable in lawful money of the United States at the

office of the treasurer of the district or such other place or places as may be designated, or at either place or places at the option of the holder of the bond.

The bonds shall be dated, numbered consecutively, and be signed by the president and treasurer of the district, countersigned by the secretary of the district, and the official seal of the district attached. The interest coupons of such bonds shall be signed by the treasurer of said district. All such signatures and countersignatures may be printed, lithographed, or mechanically reproduced, except that one of said signatures or countersignatures to said bonds shall be manually affixed.

If the bond election proceedings have been limited to and have applied only to an improvement district within said district, said bonds are bonds of the district and shall be issued in the name of the district and shall be designated "Bonds of Mojave-Antelope Water District for Improvement District No. _____" and each bond and all interest coupons thereof shall state that taxes levied for the payment thereof shall be levied exclusively upon the taxable property in said improvement district.

Before selling the bonds, or any part thereof, the board of directors shall give notice inviting sealed bids in such manner as it may prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder If no bids are received, or if said board determines that the bids received are not satisfactory as to price or responsibility of the bidders, it may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

The proceeds arising from the sale of bonds shall be paid into the treasury of the district and placed to the credit of a special improvement fund and expended only for the purpose for which the indebtedness was created; provided, however, that when said purpose has been accomplished any moneys remaining in said special improvement fund may be transferred to the fund to be used for the payment of principal of and interest on the bonds Said remaining moneys remaining from the sale of bonds of the district may also be used for some other district purpose. Such moneys remaining from the sale of bonds of the district for an improvement district therein may also be used for any purpose which will benefit the property in the improvement district Said moneys may not be used for said other district purpose or improvement district purpose until two-thirds of the qualified voters of said district or improvement district have consented thereto at a special election called in said district or improvement district by the board of directors. Notice of said election shall be given in the manner provided for bond elections in said district or improvement district, as the case may be, and in other respects the election shall be conducted as are other such district elections.

SEC. 26. The board of directors shall have power to construct works along and across any stream of water, watercourse, street, avenue, highway, canal, ditch, or flume, or across any railway which the route of said works may intersect or cross; provided, such works are constructed in such manner as to afford security for life and property, and said board of directors shall restore the crossings and intersections to their former state as near as may be, or in a manner not to have impaired unnecessarily their usefulness. Every company whose right of way shall be intersected or crossed by said works shall unite with said board of directors in forming said intersections and crossings and grant the rights therefor. The right of way is hereby given, dedicated and set apart to locate, construct and maintain such works along and across any street or public highway and over and through any of the lands which are now or may be the property of this State, and to have the same rights and privileges appertaining thereto as have been or may be granted to cities within the State Any use, under this section, of a public highway now or hereafter constituted a state highway shall be subject to the provisions of Chapter 3 of Division 1 of the Streets and Highways Code.

SEC. 27. No suit shall be brought on any claim for money or damages against any district or the board of directors or any director or other officer or employee thereof, until a verified demand therefor shall have been filed, as herein provided, and rejected in whole or in part If rejected in part, suit may be brought to recover the whole. Except in those cases where a shorter period of time is otherwise provided by law, verified demands for all such claims for damages must be filed with the secretary of such district within six months after the occurrence from which the damages arose or within six months after the effective date of this section, and verified demands for all other claims shall be filed with the secretary of such district within six months after the last item of the account or claim accrued or within six months after the effective date of this section. Each such verified demand shall set forth with reasonable certainty the nature of the claim and shall contain the name and address of the claimant, the date of the occurrence from which the damages arose or the date when each item of the account or claim accrued, the total amount originally claimed, all payments thereon or offsets or credits thereto, the net amount due, owing, and unpaid on such claim, and if such claim shall have been assigned, the name of the original claimant and the names of all assignees and the full particulars of each assignment Verified demands so filed with said secretary shall be presented to the board of directors at its next meeting, and failure of the board of directors to act upon any such verified demand within ninety (90) days from the

date such demand is filed with said secretary shall be deemed to be a rejection thereof. Nor shall suit be brought against such district or the board of directors or any director or other officer or employee thereof upon any claim or demand that shall have been approved in whole and audited for payment; provided, that nothing herein contained shall be construed so as to deprive the holder of any claim of his right to resort to writ of mandamus or other proceeding against the district or the board of directors or any officer thereof to compel it or him to act upon such claim or to pay the same when so audited. If suit be brought on a claim allowed in part and rejected in part by the board of directors and no more is recovered in such suit than the amount so allowed by the board of directors, no costs shall be awarded to the claimant.

SEC. 28. No director or other officer, agent, or employee of any district shall be liable for any act or omission of any officer, agent or employee appointed or employed by him unless he had actual notice that the person appointed or employed was inefficient or incompetent to perform the service for which such person was appointed or employed or unless he retains the inefficient or incompetent person after notice of the inefficiency or incompetency.

The district may employ counsel to defend any litigation brought against any director or other officer, agent, or employee thereof, on account of his official action, and the fees and expenses involved therein shall be a lawful charge against the district.

If any director or other officer, agent, or employee of the district is held liable for any act or omission in his official capacity, and any judgment is rendered thereon, the district, except in case of his actual fraud or actual malice, shall pay the judgment without obligation for repayment by such director or other officer, agent, or employee.

SEC 29. The board of directors, so far as practicable, shall fix such rate or rates for water in the district and in each improvement district therein as will result in revenues which will pay the operating expenses of the district, and the improvement district, provide for repairs and depreciation of works, provide a reasonable surplus for improvements, extensions, and enlargements, pay the interest on any bonded debt, and provide a sinking or other fund for the payment of the principal of such debt as it may become due. Said rates for water in each improvement district may vary from the rates of the district and from other improvement districts therein

SEC. 30. If the revenues of the district, or of any improvement district therein, are or in the judgment of the board of directors will probably be inadequate for any cause to pay the principal of or interest on any bonded debt of the district, or any improvement district thereof, as it becomes due and also the amounts set forth in Section 29 of this act, the board of directors must cause a tax to be levied, as herein provided, sufficient to provide for such deficit and to pay the amount of such principal and interest as will become due before the proceeds of a tax levied at the next general tax levy will be available.

SEC. 31. The board of directors shall determine the amounts necessary to be raised by taxation during the fiscal year and shall fix the rate or rates of tax to be levied which will raise the amounts of money required by the district, and within a reasonable time previous to the time when the board of supervisors is required by law to fix its tax rate, the board of directors shall certify to the board of supervisors the rate or rates so fixed and shall furnish to the board of supervisors a statement in writing containing the following: (a) an estimate of the minimum amount of money required to be raised by taxation during the fiscal year for the payment of the principal of an interest on any bonded debt of the district or of an improvement district thereof as will become due before the proceeds of a tax levied at the next general tax levy will be available; (b) an estimate of the minimum amount of money required to be raised by taxation during the fiscal year for all other purposes of the district. Such tax rate shall not exceed thirty cents ($0.30) on each one hundred dollars ($100) of assessed valuation of all taxable property within the district, exclusive of such portion of the rate as may be levied annually to pay principal and interest on bonds of the district. The board of directors shall direct that at the time and in the manner required by law for the levying of taxes for county purposes, such board of supervisors shall levy, in addition to such other tax as may be levied by such board of supervisors, at the rate or rates so fixed and determined by the board of directors, a tax upon the property within the district, or improvement district thereof benefited by the bonded debt, as the case may be, and it is made the duty of the officer or body having authority to levy taxes within each county to levy the tax so required. Taxes for the payment of the interest on or principal of any bonded debt shall be levied on the property within the district, or improvement district thereof, benefited by the bonded debt, as determined by the board of directors in the resolution declaring the necessity to incur the debt. Taxes for other purposes of the district shall be levied on all property in the district or portion thereof subject to the particular tax, and it shall be the duty of all county officers charged with the duty of collecting taxes to collect such tax in time, form, and manner as county taxes are collected, and when collected to pay the same to the

district. Such petition shall set forth and describe the boundaries of the area proposed to be annexed and shall contain a prayer that such area be annexed to such municipal water district.

The text of such petition shall be published once a week for at least two weeks, the last publication to be made not less than one week nor more than four weeks before the time at which the same is to be presented to the board of directors of the district in at least one, but not to exceed three, newspapers printed and published in such county, together with a notice stating the time of the meeting at which the same will be presented When contained upon one or more instruments, one copy only of such petition need be published No more than five of the names attached to said petition need appear in said publication of said petition and notice, but the number of signers shall be stated.

After an election for the annexation of such area to the district the sufficiency of such petition in any respect shall not be subject to judicial review or be otherwise questioned.

Such petition may be granted by ordinance of the board of directors of such district. In granting such petition, such board of directors may fix in said ordinance the terms and conditions upon which such annexation may occur, and such terms and conditions may provide, among other things, for the levy by such district of special taxes upon taxable property within such annexed area or areas in addition to the taxes elsewhere in this act authorized to be levied by such district, and in case such terms and conditions shall provide for the levy of such special taxes, the board

CONSIDERATION OF DAILY FILE (RESUMED)
THIRD READING OF SENATE BILLS (RESUMED)

Senate Bill No. 494—An act making an appropriation for printing constitutional amendments and other ballot measures, to take effect immediately.

Bill read third time.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 494:

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, March 18, 1957

To the Honorable Members of the Assembly
Sacramento, California
GENTLEMEN:

Senate Bill No. 494, "An act making an appropriation for printing constitutional amendments and other ballot measures, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill appropriates $137,246 from the General Fund in augmentation of Item 39 of the Budget Act of 1956 to the Secretary of State for the printing of constitutional amendments and other ballot measures. There is an urgent need for the immediate payment of this sum into the Printing Revolving Fund in order that this fund may meet the current heavy charges against it for legislative printing. Accordingly, the funds provided by this bill should be made available as speedily as possible.

I therefore recommend consideration of Senate Bill No. 494 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

OFFICE OF LEGISLATIVE COUNSEL

Hon. Lloyd W. Lowrey

Sale or Lease of Power to Public Agencies—No. 14213

DEAR MR. LOWRLY: You have requested an explanation of the differences between public power preference provisions in the federal reclamation laws and in the laws of this State.

Section 9(c) of the Reclamation Project Act of 1939 (53 Stat. 1187), as amended, provides, with respect to sale of electric power or lease of power privileges, in part, as follows:

"* * * That in said sales or leases preference shall be given to municipalities and other public corporations or agencies; and also to cooperatives and other nonprofit organizations financed in whole or in part by loans made pursuant to the Rural Electrification Act of 1936."

Section 11626 of the Water Code provides, with respect to the state-authorized Central Valley Project, as follows:

"In entering into and awarding contracts, in case of equal or equivalent offers, including consideration of the cost of construction, operation, and maintenance of the necessary lines, plants, and other works to deliver the commodity or service which is to be delivered under the contracts, the authority [now the Department of Water Resources] shall grant preference to state agencies or other organizations not organized or doing business for profit but primarily for the purpose of supplying water or electric power to their own citizens or members."

The principal difference between the two provisions is the express reference in the state law to "equal or equivalent offers." In other words, preference is to be given under state law to the public agencies and nonprofit organizations mentioned only if such agencies or organizations make offers to purchase or lease power which are equal or equivalent to offers made by private corporations organized for profit. Under the federal law there is no express requirement with respect to equal or equivalent offers but the price of power is fixed by the Secretary of the Interior "at such rates as in his judgment will produce power revenues at least sufficient to cover an appropriate share of the annual operation and maintenance cost, interest on an appropriate share of the construction investment at not less than 3 per centum per annum, and such other fixed charges as the secretary deems proper."*

Another distinction between the provisions is that under the federal law preference is required to be given to only such nonprofit organizations which are financed in whole or in part by loans made pursuant to the Rural Electrification Act of 1936. Under the state law preference is to be given to any organizations not organized or doing business for profit but primarily for the purpose of supplying water or electric power to their own citizens or members.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By RAY H. WHITAKER, Deputy

Both problems must be met before the regions and metropolitan areas of California can appropriately meet the present problems of growth and furnish the services demanded.

Respectfully submitted,

Almighty and Eternal God, We give Thee thanks for the opportunity we have of contributing to the betterment of the world We know that a new world cannot be built out of old, warped, and weakened material. Make us new creatures, O Lord, from the inside out; purge from our hearts the old prejudices, the selfish desires, and the lack of concern for others; force us to realize that no man is an island, we need one another, and only as we live and work together can we live in happiness and work for peace and prosperity; through Christ, our Lord —AMEN.

CONSIDERATION OF DAILY FILE (RESUMED)
THIRD READING OF ASSEMBLY BILLS

Assembly Bill No. 2712—An act to add Chapter 6.6 (commencing with Section 2900) to Division 2 of the Business and Professions Code, relating to the creation of the Committee of Psychological Examiners and to prescribe its organization, powers and duties, and making an appropriation.

Bill read third time.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No. 2712:

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, May 24, 1957

To the Honorable Members of the Assembly
Sacramento, California

GENTLEMEN:

Assembly Bill No. 2712, "An act to add Chapter 6.6 (commencing with Section 2900) to Division 2 of the Business and Professions Code, relating to the creation of the Committee of Psychological Examiners and to prescribe its organization, powers and duties, and making an appropriation,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

Because of the delay in the final enactment of the Budget Bill, it appears that there may not be time to give adequate consideration to this bill before the date of adjournment if it must await action on the Budget Bill.

In order to permit such consideration, I recommend consideration of Assembly Bill No. 2712 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

RESOLUTIONS

The following resolutions were offered:

By Mr. Thomas:

House Resolution No. 211

WHEREAS, A lethal pollutant caused hundreds of striped bass, crabs, smelt, shrimp, catfish, perch, and other fish to die in an area stretching from Point Isobel to Brooks Island in the Bay area; and

WHEREAS, University of California's Dr. Paul Needham, one of the most learned men on fish life in the United States, after making a thorough examination of one of the striped bass killed by this death-dealing substance, declared that the gills of the fish were eroded and that it was certainly something foreign and quite powerful that suddenly entered the water; and boats going through the water when the pollution was apparently at its peak bore evidence of the tremendous potency of the substance in that propellers that were dull and needed cleaning and boat bottoms in need of scraping emerged whistle-clean; and

WHEREAS, The danger of the pollutant is emphasized by the fact that Dr H. L. Blum, Contra Costa County's Health Director, advised that the dead fish should not even be touched until the cause of their death is determined; and

WHEREAS, Many thousands more dead fish have floated up on the East Bay tide flats, further evidencing the tremendous loss of one of the best runs of fish in years; now, therefore, be it

Resolved by the Assembly of the State of California, That the Director of the Department of Fish and Game and such deputies, assistants, and employees as are necessary shall appear before the Assembly Standing Committee on Fish and Game on June 4, 1957, and give a complete report on the department's research for the last five years on pollution and poisoning of fish in the Sacramento River area and the Bay area, with the report specifically declaring when the department had knowledge of this recent poisoning and when such information was released to the press, what the department has done and what it proposes to do about the causes of fish depletion in these areas; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the Director of the Department of Fish and Game.

Resolution read, and ordered referred to the Committee on Fish and Game.

By Mr. Luckel:

EXPLANATION OF VOTES

We have consistently taken a moderate, conciliatory position on water, because we think it proper, and because our county needs water.

In light of recent actions in the Senate, and because we are in favor of state control, we are now by our vote indicating to obstructionists that co-operation is overdue. In the above we are carrying out the wishes of the San Diego Chamber of Commerce and the San Diego Water Authority and many other groups and constituents who are interested and extremely competent in water matters.

San Diego County Assembly Delegation will always view each individual measure on its merits.

A certificate of convenience authorized by Section 1628 5 shall not be issued with respect to any application filed on and after April 1, 1956, unless the fees prescribed for such certificate together with the application fee and examination fee for the license sought accompany the application for such certificate.

This section shall not operate to extend any certificate of convenience pending examinaton beyond six months after the issuance thereof.

1629.2 An applicant for a license to act as a life and disability agent, or life only agent or disability only agent shall file a separate application for, and secure a separate license for each insurer for which he intends to act in such capacity.

1629.3. When an applicant for any of the licenses specified in Section 9.2 is at the time of the filing of his application not licensed to act in any such capacity, he shall file with his application a statement by a duly authorized representative of the insurer which he seeks to represent, setting forth the following:

(a) The applicant is known to him.

(b) The applicant has had experience or instruction in the insurance, the transaction of which is authorized by the license sought, or will be given the necessary instruction within 30 days after the issuance of such license.

(c) The nature of any business other than insurance in which the applicant is engaged and the name under which such business is conducted.

(d) The applicant is of good reputation.

(e) The applicant is worthy of a license.

1629.4. The provisions of Section 1629.3 do not apply to a person (a) holding a license to act as a life and disability agent, life only agent, or disability only agent for one insurer who desires to act in the same licensed capacity for other insurers.

Such holders may secure such additional licenses by the filing of an application in the form of a certificate of appointment executed by such holder and by the insurer or fraternal benefit society, as the case may be, jointly. Such certificate of appointment shall bear written evidence of acceptance of the appointment by the agent

1629.5. Every applicant for a license to act as an insurance agent or as a travel insurance agent must file with the commissioner a notice of appointment executed by an insurer, or its authorized representative, admitted to transact the insurance included within the scope of the license sought, appointing such applicant, upon licensing, its agent in this State. Additional notices of appointment may be filed by other insurers before such license is issued and thereafter as long as such license remains in force. Such appointment shall, by its terms, continue in force until.

(a) The termination of the license applied for; or

(b) The filing of a notice of termination by the insurer, its representative, or by such insurance agent or travel insurance agent.

1629.6. Each notice of appointment or notice of termination filed pursuant to this article shall be filed in triplicate on forms prescribed by the commissioner The commissioner shall retain one copy thereof in his files, forward one copy thereof to the insurance agent or travel insurance agent whose appointment is effected or terminated, and return one copy thereof to the insurer or insurer s representative filing either such notice.

Article 10 Termination of Licenses

1630.1. A licensee may at any time surrender any license under which he is permitted to act in any of the capacities specified in Article 1 of this chapter. If the license is in the possession of the licensee, surrender may be accomplished by the delivery of the document itself to the commissioner. If the license is in the possession of the insurer, the licensee may nevertheless make such surrender by written notice thereof delivered to the commissioner.

1630.2 A life or disability insurer or a fraternal benefit society, as the case may be, may at any time surrender to the commissioner for cancellation any license under which any person may act as a life licensee on its behalf, and the employing insurance agent or broker may at any time surrender to the commissioner for cancellation any license under which any employee of theirs acts as an insurance solicitor, as the case may be.

1630 3. The license of an organization to act in any capacity may be surrendered to the Insurance Commissioner for cancellation by the organization or by any person named thereon.

1630.4. All licenses issued to natural persons terminate upon the death of such person.

1630.5. The right of any person to exercise the power and perform the duties under an organization license terminates upon the death of such person. If such person be the only person named on an organization license, such license likewise terminates

1630.6. For the purposes of this chapter and except as provided in this article, an organization ceases to exist as an entity eligible to hold a license as follows:

(a) Upon dissolution of a partnership or upon addition of any new partner.

(b) Upon the termination of an association.

(c) Upon dissolution of a corporation.

Provided, however, should a change occur in the membership of a copartnership licensed under this article, the surviving or continuing copartnership may continue to transact insurance under the license issued to the predecessor copartnership if:

(a) The surviving or continuing copartnership within thirty (30) days after such change files an application on a form prescribed by the commissioner for registration of such change in membership, and

(b) At least one person who exercised the agency or brokership powers of the predecessor copartnership continues to exercise the agency or brokership powers of the surviving or continuing copartnership, and,

(c) Such application for registration be signed by a general partner.

1630 7. The termination of the existence of the license entity as provided in Section 1630.6, except as provided in this article automatically terminates the right of that entity and of any persons named to exercise the power and perform the duties of such partnership or corporation. Thereafter such partnership or corporation and the natural persons named to exercise the power and perfom the duties may not act in any of the capacities specified in Article 1 of this chapter except under and by virtue of another license held or acquired by them. Provided, however, a natural person, copartnership, association, or corporation licensed under this article, may continue to transact insurance under an existing license in either a different capacity or as a different organization or entity if no additional license examination qualification is required and if no substantial change in ownership and no change in control of the licensed insurance business has taken place; provided, that within sixty (60) days after the first insurance transaction performed following such change the person or the successor partnership, association or corporation files a sufficient application for an appropriate license and pays the lawful fees therefor.

Nothing herein shall be construed to nullify any provision of Section 1631.5 except that any fee paid as required by subdivision (a) of Section 1631 5 for a license not issued, or one-half of any double fee paid as required by subdivision (b) of Section 1631.5 for a license not issued, may be applied towards the fee for filing an application under this section.

1630 8. If all insurers' appointments of an insurance agent are terminated, or if an insurance solicitor's employment is terminated, the employer shall return the employee's license to the commissioner for cancellation. If unable to return the license, the employer shall furnish evidence of loss or destruction satisfactory to the commissioner who shall thereupon cancel the license and shall enter the cancellation in his record Such agent or such solicitor shall retain a property right to the reacquisition of a license to act in such capacity for the balance of the license year in which the last such appointment was terminated or such employment as solicitor was terminated and for the immediately following license year. Unless such property right is terminated for cause, such agent or such solicitor may reacquire his license upon the filing of a new notice of appointment or statement of employing agent or broker, as the case may be; provided, however, that such right to the reacquisition of license must be kept in force or renewed in the same manner and subject to the payment of the same fees as the license itself

1630 9. If the license of a person to act as an insurance agent or travel insurance agent be suspended, revoked, surrendered, or expire by reason of the failure to file a notice of intention to keep the license in force or a renewal application, as the case may be, all appointments of insurers shall automatically terminate on the date upon which the right of such licensee to reacquire his license without examination terminates

1630 10. If an applicant for such license within six months from the date of the filing of his application or the issuance of his certificate of convenience, if any, neither fully qualifies for and receives such license on a permanent basis, nor is denied its issue, such application is automatically denied without prejudice to the filing of a new application for such license.

Article 11. License Periods

1631.1. The provisions of this article shall not apply to any certificate of convenience other than a military service certificate of convenience.

1631 2. A license period is the entire length of time, fixed in accordance with the provisions of Section 1631 4, for which a license may be issued. Such license period shall commence and terminate as follows:

(a) For persons licensed to act as life licensees, on the first day of January;

(b) For persons licensed under this chapter to act in any other capacity, on the first day of July.

1631 3. A license year is a period of one year which shall commence and terminate as follows:

(a) For persons licensed to act as life licensees, on the first day of January;

(b) For persons licensed under this chapter to act in any other capacity, on the first day of July.

1631 4. Licenses issued pursuant to this chapter shall be for license periods the length of which shall be fixed by the commissioner Such length shall never exceed

four license years Each such license may be issued for the entire license period or, if application therefor is filed during such period, for the balance thereof. If any such license period is fixed for a term in excess of one license year, such license may be kept in force from license year to license year, until expiration of the license period by the filing, pursuant to the provisions of this article and in the form prescribed and provided by the commissioner, of an annual notice of intention to keep such license in force.

1631 5. (a) Such annual notice or a renewal application, as the case may be, may, upon payment of the filing fee therefor, be filed as follows:

(1) For the licenses of life licensees or a life insurance analyst on or before November 1st of each year;

(2) For the licenses of all other licensees under this chapter, on or before May 1st of each year.

(b) During the balance of the license year and during the immediately following license year such annual notice or renewal application may be filed upon payment of a fee twice that required for filing an application for the license. However, the failure to file such notice or such application prior to the termination of the license year shall result in the termination of the license at the end of such year, and upon the filing of such notice or such renewal during the immediately following license year a new license shall issue but shall be effective only from the date of such issuance.

(c) The commissioner shall mail notice of the termination of license not later than 50 days after the last day upon which notice of intention to keep license in force or renewal application can be filed without additional fee to:

(1) The licensee;

(2) The appointing insurers, if any; and

(3) Any employer named on the license.

Failure to mail such notice shall not continue the right to a license.

1631 5.1. If any person be unlicensed as of the date of the annual notice or renewal application specified in subdivision (a) of Section 1631 5, the commissioner shall not issue any permanent license of such type to such person between such filing date and the termination date specified in Section 1631 2 during any year unless such person shall have also filed a notice of intention to keep such license in force or an application for renewal of such license, as the case may be, for that period directly following such July 1st to which such notice of intention or application for renewal relates and shall have paid the fee for filing specified in subdivision (a) of Section 1631.5 As to the filing of such notice of intention to keep the license in force or renewal application, as the case may be, the provisions of subdivision (b) of Section 1631.5 shall not be applicable.

1631 5.2 If a holder of a certificate of convenience pending examination becomes entitled to a permanent license, and the license period of such permanent license has terminated since application therefor, such permanent license shall be issued to him upon payment of the fee required for filing application for renewal of such license. If he fails to pay this fee within 60 days after notice of eligibility for permanent license, he forfeits his right to a permanent license and all privileges under his certificate of convenience terminate. This section shall not operate to extend any certificate of convenience beyond six months from the issuance thereof

1631.6. If a person licensed pursuant to the provisions of this chapter be in the military service of the United States at a time prescribed for the filing of a notice of intention to keep his license in force or a renewal application, the filing of such notice or of such application is waived, and all licenses held by such licensee at the time of his entry into military service shall remain in force during the period of such military service and for six months thereafter.

1631.7. If a person named on the license of an organization be in the military service of the United States at a time prescribed for the filing of a notice of intention to keep such license in force or a renewal application therefor, and the name of such person be omitted from such notice of intention or renewal application, as the case may be, the right of such person to a license to act in the capacity for which he was named on such organization license shall continue during the period of such military service and for six months thereafter.

Article 12. Conduct of Licensees

1632.1. Except as provided in Section 1628.17, the holder of a certificate of convenience pending examination, and, in the case of an organization, any person named on its certificate of convenience or temporarily endorsed on its license, may not transact personal or controlled insurance as the same is defined in Insurance Code Sections 760 and 760 5, whichever is applicable, nor receive commissions thereon.

1632.2. Every license to act as an insurance agent or broker shall be prominently displayed by the holder thereof in his office.

1632.3. Every license to act as an insurance solicitor shall be prominently displayed by the employing insurance agent or broker in the office from which the insurance solicitor conducts his business.

1632.4. Every insurance agent or broker shall keep complete records of all insurance transacted by him and of the collection of all premiums and of the names

of all persons from whom business is accepted or to whom commissions are promised or paid.

Such records shall be open to inspection or examination of the commissioner at all times and the commissioner may at any time require such licensee to furnish him, in such manner or form as he requires, any information kept or required to be kept in such records.

1632.5. Every resident insurance agent or broker shall maintain an office in this State for the transaction of business. The address of such office shall, pursuant to Section 1624 5, be specified on all applications for license, renewal applications and notices of intention to keep licenses in force. The records referred to in Section 1632.4 shall be kept at such address, provided that if an insurance agent or broker maintains more than one office with a segregation of functions or territory between offices, the records may be divided between such offices in accordance with such segregation of functions or territory, in which case the insurance agent or broker must notify the commissioner of all addresses at which such records are kept.

1632.6. Every licensee shall immediately notify the commissioner in writing of any change in his address. In the event that the licensee is required by this article to keep books and records, he shall also notify the commissioner of any change in any address where such books and records are kept.

1632.7. A licensee shall not misrepresent the type of license under which he is transacting insurance, nor shall he engage in transactions not authorized by the licenses held by him.

1632.8. If a person be licensed to act as an insurance broker and as an insurance agent, he shall be deemed to be acting as an insurance agent in the transaction of insurance placed with those insurers for whom a notice of appointment has been filed with the Insurance Commissioner in accordance with Section 1623 5. In all other transactions he shall be deemed to be acting as a broker.

1632.9. All funds received by any person acting as an insurance agent, broker or solicitor, life agent of any type, life analysts, surplus line broker, special lines surplus line broker, motor club agent, or bail agent or solicitor, as premium or return premium on or under any policy of insurance or undertaking of bail, are received and held by such person in his fiduciary capacity. Any such person who diverts or appropriates such fiduciary funds to his own use is guilty of theft and punishable for theft as provided by law.

1632.10. This section applies to any person licensed, whether under a permanent license, restricted license, temporary license, certificate of convenience or as a registrant, to act in any of the capacities specified in Section 1632.9. If fiduciary funds, as defined in Section 1632 9 and held for one or more principals, are maintained in accordance with subsection (b) hereof, such funds for other principals may be held and remitted in accordance with subsection (a) hereof. Otherwise each such person who does not make immediate remittance of all funds received as premium to the insurer entitled thereto must elect and follow with respect to such funds, one of the following methods:

(a) Remit premiums, less commissions, and return premiums received or held by him to the insurer or the person entitled thereto within fifteen (15) days after the receipt thereof; or

(b) Maintain such fiduciary funds at all times in a bank account or depository separate from any other account or depository, in an amount at least equal to the premiums and return premiums, net of commissions, received by him and unpaid to the persons entitled thereto or, at their direction or pursuant to written contract, for the account of such persons. However, such person may commingle with such fiduciary funds in such account or depository such additional funds as he may deem prudent for the purpose of advancing premiums, establishing reserves for the paying of return commissions or for such contingencies as may arise in his business of receiving and transmitting premium or return premium funds. Further, such person may commingle the funds of any principal with his own funds to an unlimited extent, if such principal in writing specifically waives the segregation requirements of this section. Commingling of funds as herein permitted shall not alter the fiduciary nature of such premium or return premium funds.

1632 11. As used in this section a managing general agent is a licensed insurance agent who, (1) has a written management contract with one or more admitted insurers covering business transacted by the insurer in a substantial portion of the State of California; (2) under such contract manages the transaction of either all or one or more of the classes of insurance written by such insurers in that territory or the transactions therein by such insurers under a specified fictitious underwriter's name; (3) has the power to appoint, supervise and terminate this appointment of local agents in such territory; (4) has the power to accept or decline risks; and (5) collects premium moneys from producing agents and brokers and remits such moneys to such insurers pursuant to the account current system.

Any such managing general agent may, with respect to any principals for whom fiduciary funds are held, either comply with Section 1632.10 or with respect to such principals as have in writing specifically waived the segregation requirements of said section, comply with this section. A managing general agent electing to

comply with this section may commingle the funds of any such principal with his own funds to an unlimited extent and shall maintain such fiduciary funds held for such principals at all times in a bank account or depository in an amount equal to the net aggregate for all such principals of the premiums and return premiums, net of commissions, received by him and unpaid to the persons entitled thereto or, at their direction or pursuant to written contract, for the account of such persons. In computing such net aggregate any balance owed to such managing general agent by any principal may be deducted only if (1) such balance will, in the normal course of business and pursuant to written contract, be paid or allowed to such managing general agent by such principal and (2) such principal is not in liquidation or conservation in any jurisdiction and is not the subject of voluntary or involuntary receivership proceedings

1632.12. If any acts are forbidden or conduct prescribed by any provisions of this code, such acts shall not be performed and such conduct shall be followed by both the organization and by any person named to exercise the power and perform the duties under any license issued to such organization.

Article 13. Disciplinary Actions

1633.1. The purpose of this chapter is to protect the public by requiring and maintaining professional standards of conduct on the part of all persons licensed hereunder.

1633.2. The commissioner may suspend or revoke any permanent license issued pursuant to this chapter on any of the grounds set forth in Article 6 hereof on which he may deny an application. Whenever in such grounds the word "applicant" is used, such word shall for the application of this section be the words "the holder of a permanent license" A suspension or revocation based upon a ground set forth in Section 1626.4 may be without notice or hearing. Suspension or revocation of any permanent license, except a restricted license, on a ground other than that set forth in Section 1626.4 shall be after notice and hearing conducted in accordance with Chapter 5, Part 1, Division 3, Title 2 of the Government Code, and the commissioner has all of the powers granted therein.

1633.3. Where a permanent license is held by an organization both the organization itself and any natural persons named thereunder or endorsed thereon shall, for the purposes of this article, be deemed to be the holders thereof. If such natural person commits any act or fails to perform any duty which is a ground for suspension or revocation of the license held by the organization, such action may be taken against the organization If any natural person named under an organization license commits any act or fails to perform any duty which is a ground for the suspension or revocation of any license held by such organization, the commissioner may suspend or revoke the license of the organization, the right of the individual to act thereunder, any other license held by the individual, or his right to act under any other license, or may take all such steps.

1633.4. The certificate of the commissioner certifying any facts found after a hearing held under this chapter shall be prima facie evidence of the facts set forth therein.

1633.5. If the commissioner finds, after a hearing, that there be grounds for the denial of an application for a license to act in any capacity set forth in Article 1 of this chapter or if he finds, after a hearing, that any licensee has violated the provisions of this code and that such violation would justify the suspension or revocation of any license held by such person, the commissioner may order him to prove his qualifications by taking and passing the qualifying examination for any such license held or applied for. The commissioner shall set the time for the taking of such examination. Failure thereof by any licensee shall result in the termination of all licenses of such licensee, to which the examination is applicable. An order to take such examination may be in lieu of any other action in respect to the application or the license, or, except in the case of revocation, may be in addition to any other action.

1633.6. Where a person who is or has been licensed under this chapter has been found by the commissioner to have violated any provision of this code which would justify the suspension or revocation of a license held, or where a person is applying for a license under this chapter and there exists grounds for the denial by the commissioner of his application, the commissioner may, after hearing, revoke the license held or deny the application for an unrestricted license, and in lieu thereof issue to such a person a restricted license The commissioner may impose any reasonable conditions upon the acquisition of such restricted license or the conduct of the holder thereof. The holder of the restricted license has no property right therein and the commissioner may, with or without either hearing or cause, suspend or revoke a restricted license. All hearings under this section shall be conducted in accordance with Chapter 5, Part 1, Division 3, Title 2 of the Government Code.

The holder of a restricted license is subject to all the provisions of this code and such license shall be kept in force and renewed in the same manner, at the same time, and subject to the same conditions and fees as are applicable to an unrestricted license to act in the same capacity.

1633.7. The lapsing or suspension of any license by operation of law, by failure to renew it or by failure to file a notice of intention to keep it in force or its voluntary surrender shall not deprive the commissioner of jurisdiction or right to institute or proceed with any disciplinary proceeding against such license, to render a decision suspending or revoking such license or to establish and make a record of the facts of any violation of law for any lawful purpose. No such disciplinary proceeding shall be instituted against any license after the expiration of five years from the termination of such license.

Article 14. Fees

1634.1. House Resolution No. 192, as Amended

By Messrs. Busterud, Sumner, Masterson, and Weinberger:

House Resolution No. 192

Relative to an interim study of traffic accident consequences

WHEREAS, Vehicular traffic on California highways in recent years has outgrown all estimates and expectations while the number and severity of traffic accidents in this State has concurrently grown to catastrophic proportions; and

WHEREAS, Such accidents each year take a tragic toll in personal injuries, deaths, and property damage; and

WHEREAS, This toll constitutes a major economic loss, and results in grave social dislocations throughout our State; and

WHEREAS, A very high percentage of the cases heard by the courts of this State arise out of traffic accidents, and a corresponding proportion of tax burden to maintain those courts results therefrom; and

WHEREAS, Traffic accident litigation is a primary cause of congested court calendars and delays in the administration of justice; and

WHEREAS, Judgments in personal injury cases are often inadequate to compensate for the economic loss and frequently are uncollectible in cases where the defendant is not insured or are only partially collectible where he is underinsured; and

WHEREAS, The unfortunate victims of traffic accidents frequently sustain grievous personal sufferings and economic loss in medical expenses, lost earnings, broken families, damaged and destroyed property, and other consequences of such accidents; and

WHEREAS, Studies made by responsible agencies indicate that in many instances the economic losses sustained by these victims are not recovered, because their injuries and damages are inflicted by uninsured motorists; and

WHEREAS, Although commendable emphasis has been and continues to be directed to safety measures designed to reduce the number of such accidents, a high volume of such accidents is an unavoidable consequence of our industrial society, and immediate attention must be directed to solving the economic, social and legal problems thereby created; and

WHEREAS, It is the desire of this Assembly to explore thoroughly all aspects of the foregoing problems and any related matters in order to provide a factual basis upon which legislation may be based; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Interim Committee on Judiciary is authorized and directed to ascertain, study, and analyze all facts applicable to:

(a) The nature and extent of the economic losses and social dislocations arising out of traffic accidents in this State;

(b) The degree to which such economic losses and social dislocations are arising out of accidents caused by uninsured motorists;

(c) The proportion of such losses and dislocations caused by uninsured motorists which are not compensated by insurance or otherwise;

(d) The state of the laws by which the responsibility for such accidents is measured or assigned, as well as the operation, effect, administration and enforcement of such laws;

(e) Various methods designed to assure the availability of funds needed to alleviate the burden of the losses and dislocations, giving emphasis to methods which will preserve and encourage private enterprise, including proposals designed to provide systems of compensation for such losses and dislocation;

(f) Other problems related to the administration of justice in personal injury actions; and be it further

Resolved, That the committee is directed to report thereon to the Assembly at the 1959 Regular Session, including in the report its recommendations for appropriate legislation.

REMARKS BY MR. MARSH RELATIVE TO SENATE JOINT RESOLUTION NO. 17

Mr. Speaker and Members of the Assembly:

My reasons for opposing Senate Joint Resolution No. 17 on a motion to re-refer to the Committee on Judiciary are that I consider the motion as a dilatory approach to an important problem affecting the active servicemen of the State of California. I also firmly believe that the mothers and families of our servicemen stationed overseas are in accord with the policy that those servicemen in foreign countries should be tried by the courts of the United States.

These men were drafted without their consent, were stationed overseas without their consent, and should not be deprived of their right of being tried for their errors under the laws of their native Country.

Those members of the armed forces stationed in foreign countries are there to protect the best interests of the United States, and in most instances are accepted by the allies of the United States, and for this reason should be protected by the laws of the United States of America.

I therefore urge a "no" vote on the motion to re-refer this resolution to the Judiciary Committee and would urge an "aye" vote on the passage of the resolution.

I am honored in that through the motion of Mr. Levering, with the unanimous consent of the Assembly, my remarks are to be printed in the Assembly Journal.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. McGee asked for, and was granted, unanimous consent that the following essay on Democracy by Gregory Clever (13 years old) of the Edna McGuire School, Mill Valley, be ordered printed in the Journal:

DEMOCRACY

By GREGORY CLEVER

Democracy is a civil right to man. It has the effect of a cistern, gathering the right people from the bad for the government. You might say the voters are a construction gang, sharpening our democracy to a keen, keen edge; but if the voters don't maintain this sharp edge by casting a wise ballot, they will be committing treason and this country shall fall into "coruption."

They must choose the right occupant for each chair in the senate and legislature. The senator must encourage or oppose each bill represented, but it is unfortunate that we have people with poor character just like some people in your town. These people vote only to further their own interests. This is called poletics.

The senator is one of 33 other senators. Part of every year the senators go into a series of sessions. Each big session is started with a prayer. Then, according to name, the roll is called. Then the big fights start, and this is when you know whether or not you have voted for the right man, each a patriot to his own belief.

It is fortunate we have a democratic government today.

Relative to a study of the subject matter of Assembly Bill No. 4163, relating to creation of a land subsidence abatement district in the Long Beach area

WHEREAS, Due to the subsidence and compaction of land within the Long Beach area, harbor installations, industrial structures, facilities of the United States Navy, and other valuable buildings and facilities are being injured or imperiled and substantial areas are threatened with inundation, thereby endangering life, health, and safety of the people and property in the area; and

WHEREAS, At the present time the affected land area has already subsided over 23 feet in certain portions, thereby injuring surface and underground improvements, and necessitating extensive and expensive filling and construction of levees and dykes; and

WHEREAS, Such operations would also benefit the owners of land and of interests of oil within the area, including the State and City of Long Beach, by mitigating further injury to structures and improvements thereon, and by increasing the amount of oil and gas ultimately recoverable from the formations underlying such land, thereby increasing the revenues accruing to such owners, including the City of Long Beach and the State; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is hereby authorized and directed to assign to the appropriate interim committee for study the subject matter of Assembly Bill No. 4163, including but not limited to the operation, effect, administration, enforcement, and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution, for report thereon to the Assembly, including in the report its recommendations for appropriate legislation; and be it further

INTRODUCTION, FIRST READING, AND REFERENCE OF ASSEMBLY BILLS

The following resolution was offered:

Assembly Constitutional Amendment No. 80: By Mr. Ernest R. Geddes—A resolution to propose to the people of the State of California an amendment to the Constitution of the State, by amending Section 6 of Article IV thereof, relating to senatorial and assembly districts.

Referred to Committee on Constitutional Amendments.

REQUEST FOR UNANIMOUS CONSENT TO PRINT REMARKS IN JOURNAL

Mr. Winton asked for, and was granted, unanimous consent that the following remarks by Mr. Crawford relative to Senate Joint Resolution No. 17 be ordered reduced to writing, and printed in the Journal.

REMARKS BY MR. CRAWFORD RELATIVE TO SENATE JOINT RESOLUTION NO. 17

Mr. Speaker and Members of the Assembly:

I do not intend to bore you with a long dissertation upon the relative merits of Senate Joint Resolution No. 17. However, I do wish to bring to your attention certain material which I consider very pertinent and

the reasons why I rise to oppose the passage of this resolution. I, too, once shared the feelings expressed by the proponents of this resolution; however, after having had an opportunity to study fully the administrative and executive agreements with other nations as formulated by the NATO Status of Forces Treaty and after having for nine months studied the case histories of American servicemen, their dependents, and employees of American forces in foreign countries and observed the treatment of Americans who had violated the laws of foreign countries in which they were stationed; and after noting the fair treatment which they received and the many safeguards with which they were protected, despite the fact that only those individuals who had committed heinous crimes such as murder, rape, mayhem, robbery or burglary were subjected to the jurisdiction of these foreign courts, and that all other individuals who had violated minor rules and regulations and laws of foreign countries were turned back to the United States military authorities for court-martial, I must now rise to oppose the passage of this resolution.

I wish to draw to your attention the loosely worded and ill-conceived language of this resolution on page 1, line 11, in which it states that "it is impossible for any serviceman accused of transgression in a foreign country to receive a fair and impartial trial." I ask you to consider the legal consequences where an American serviceman on duty or visiting one of the nations of the British Commonwealth, violates one or more of the laws of that country. Please take note that the American jurisprudence based upon common law is almost entirely formulated and is an exact duplication of the laws formulated in Great Britain and in effect there today. His treatment would be the same as he would receive here.

We are asked to have Congress modify or denounce the Status of Forces Treaty and any other agreements affecting the rights of our servicemen overseas when at the same time we have been extremely critical of certain foreign nations which have denounced or abrogated treaties previously in force with the United States. Certainly we do the prestige of the United States little good by requesting our Congress to breach treaties already made without carrying out proper diplomatic negotiations to that end.

I next wish to draw your attention to the language contained in the resolution clauses on page 2, and ask you to consider carefully the language contained therein and its relationship to the times of stress with which our Country is now faced. These countries, as a courtesy to the United States, have extended the hospitality of their country in order that we might station members of our armed services there to protect the interests of Americans both abroad and at home. Do you think that a resolution as loosely worded as this is not providing fodder for the Communist press and is excellent material to stir up difficulties between our countries and our allies? Are you willing to provide material which will be turned into propaganda which will severely injure the status of our Country, of our President, of our legislative bodies, and of our citizens?

I realize that the motives which prompted this resolution are very commendatory. However, before you vote upon this resolution I ask you to consider the following questions and be guided thereby:

First, have you had an opportunity to study fully the NATO Status of Forces Treaty and the administrative and executive agreements which govern the action of Americans abroad when they violate the laws of these foreign countries?

Second, have you had an opportunity to study the case histories of each and every individual tried, to observe the careful protection which they are receiving under foreign jurisdictions?

Third, do you realize that only those individuals who have committed heinous crimes are being subjected to foreign jurisdiction?

If you have not had the opportunity to make these studies, then I ask you to abstain from voting. If you have made these studies and have realized the careful safeguards protecting our servicemen in NATO countries, then I know that you will vote "no" on this resolution. I thank you.

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 28, 1957

Hon. Bruce Sumner
Assembly Chamber

Mental Health Services—No. 14621

DEAR MR. SUMNER:

Questions

You have submitted to us the following questions:

1. If an individual voluntarily applies for care and treatment under the Community Mental Health Services Act and thereupon is determined to be in need of care and treatment, can that person be confined or treated against his will? In other words, does the voluntary application preclude subsequent withdrawal from treatment?

2. Is there anything in Senate Bill No. 244 that would weaken the right or eliminate the right of a person treated under the provisions of that act to either:

(a) A court hearing before commitment.
(b) The right to a jury trial.
(c) The right to a speedy public trial.
(d) The right to counsel of his own choosing.
(e) The right to be confronted by his accusers.
(f) The right to subpena any necessary witnesses.
(g) The right of the court to appoint counsel to represent the person.
(h) The right to not be committed because of religious or political beliefs.
(i) The right to not be committed because of any exercising of freedom of speech, including political views and criticism of the government.
(j) The right to not be committed because of exercising the right to assemble or to petition the government for redress or to resist unlawful searches and seizures or to engage in political activity.
(k) The right to not be prevented from communicating with any persons outside of any institution to which he might be committed as a result of this act.
(*l*) The right to not be transported out of the State of California by the authorities after being committed as a result of a voluntary application in accordance with Senate Bill No. 244, as amended.

Opinion

In our opinion the answer to both questions set forth above is in the negative.

Analysis

Senate Bill No. 244, as amended, provides for the establishment of a state-wide program of local mental health services, which would be

locally administered and locally controlled. In connection with this program, the bill would make available to local authorities state assistance to aid them in the establishment and administration of the local services established.

Nowhere in Senate Bill No. 244 is mention made of commitments to local mental health services, nor does the bill contain any commitment procedure or authorize local authorities to restrain persons in institutions against their will. Commitment of persons and their restraint in mental institutions would be governed by existing law, and would not be affected by the bill under consideration.

In view of the foregoing, it is our conclusion that Senate Bill No. 244 would not authorize the confinement or commitment of a person against his will, following voluntary application for treatment. In our opinion the bill would not affect any rights which a person may have under existing law.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By EDWARD K. PURCELL, Deputy

Two copies to Hon. Alan Short pursuant to Joint Rule 34.

May we who have benefited as a result of their sacrifice pledge ourselves that the gains they fought to achieve shall not be lost because of our indifference and neglect. As they died for the cause of freedom, so may we live for the cause of freedom—for all men, everywhere. Grant, O Lord, that we may give ourselves without reservation to the building of a Nation and a world where the thunder of war is never heard, where want and misery no longer stalk the land, but where men live in the holy light of liberty and know the true meaning of peace; through Christ, our Lord.—AMEN.

RESOLUTIONS

The following resolutions were offered:

By Mr. Belotti:

House Resolution No. 248

Relating to designation of alternate state highway routes

WHEREAS, Section 122 of the Streets and Highways Code provides that the Department of Public Works may continue to maintain and improve highways over which jurisdiction has been relinquished to state park authorities; and

WHEREAS, In certain instances, the Department of Public Works maintains highways through parks which highways no longer constitute state highway routes because of the construction of bypasses or the relocation of the highways constituting state highway routes; and

WHEREAS, These highways and others which no longer constitute state highway routes may be entirely adequate to serve the needs of a portion of the traffic which uses the highways constituting state highway routes; and

WHEREAS, The abandoned or relinquished highways may well afford a more scenic or otherwise more desirable route to many travelers than do the state highway routes; and

WHEREAS, The failure of many travelers to use the abandoned or relinquished highways results solely from the fact that they are unaware that those highways constitute alternative routes to their destination; and

WHEREAS, The practice of designating, by highway signs, road maps, and other devices, certain highways as state highways without designating as alternate routes other highways maintained by the State which furnish substantially similar means of travel between the same termini is deceptive to the traveler, increases traffic congestion, and results in a failure to fully utilize the highway facilities of the State; and

WHEREAS, The function of designating highways and placing of appropriate signs indicating that designation along such highways is conferred on the Department of Public Works with respect to all highways under its jurisdiction, possession, or control by Section 92 of the Streets and Highways Code; now, therefore, be it

Resolved by the Assembly of the State of California, That the Department of Public Works be hereby requested to designate any highway under its jurisdiction which affords a route and means of travel similar to a state highway route as an alternate route to the state highway route and to place appropriate signs upon such highway indicating that it is an alternate of the state highway route; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit a copy of this resolution to the Director of Public Works.

Resolution read, and ordered referred to the Committee on Transportation and Commerce.

By Mr. Cunningham:

House Resolution No. 249

Relative to an interim study of small craft harbors and waterways development

Resolved by the Assembly of the State of California, That the Committee on Rules is hereby directed to assign to the Assembly Interim Committee on Public Utilities and Corporations the study of small craft harbors and waterways development and specifically with reference thereto, the question of licensing boat operators, title records and recording of boat transfers, educational programs on operation of boats, establishment of standards for the design and construction of boats, procedures for relations between State, counties, cities, harbor districts, and boating associations; a program of improvement, development, and maintenance of state waterways, procedures for standard financing by state loans, control of pollution and contamination, standards for marine and boat harbor construction and maintenance, and the feasibility of making capital available on a long-time loan basis for private enterprise in marine and boat harbor construction, and including but not limited to the operation, effect, administration, enforcement and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution.

Resolution read, and ordered referred to the Committee on Public Utilities and Corporations.

By Mr. Hawkins:

House Resolution No. 250

Relative to the employment of the physically handicapped

WHEREAS, There now exists a serious problem concerning the lack of employment for physically handicapped persons in industrial, commercial, and governmental fields, which has resulted in great hardship on such persons; and

WHEREAS, Time and again handicapped workers have proven their worth in many lines of industry and business, and have been found to do their work as well or better than able-bodied workers, to have a much lower rate of turnover, and to have a very low absenteeism record; and

WHEREAS, While many organized groups and governmental agencies have been working extremely hard to solve the problems confronting the physically handicapped, they have found themselves seriously impeded in their efforts by the lack of proper statistical material and concrete evidence to permit an intelligent approach to the development of a workable and constructive solution to the basic problem of employment; and

WHEREAS, It is believed that a compilation of statistical and other research material from industrial, manufacturing, and governmental sources would constitute a valuable reservoir of documentary material which would enable the State, industry, commerce, and other private organizations interested in the employment of the physically handicapped to propose and put into effect a sound and constructive program for the employment of the physically handicapped, now therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Interim Committee on Social Welfare is hereby directed, in addition to other matters assigned

to it for study, to investigate the question of employment for the physically handicapped and to compile such statistical and research data as it deems necessary and appropriate to carry out the purposes stated in this resolution, and to include its findings in the report required of it by the resolution creating the committee.

Resolution read, and ordered referred to the Committee on Rules.

By Mr. Rees:

House Resolution No. 252

Relating to the extreme shortage of qualified candidates for city, county and regional planning positions available in the State of California

WHEREAS, The Assembly of California finds:

(a) The need for city, county and regional planning in California is extremely urgent;

(b) Many cities and counties are attempting to establish or enlarge their planning departments;

(c) The demand at this time for qualified personnel for city, county and regional planning positions far exceeds the supply, with positions in many areas unfilled for some length of time;

(d) Because of the shortage of qualified personnel, planning programs are being held up in many areas at a time when major population increases are anticipated;

(e) Continued delay in these planning programs and a continued shortage of planning personnel could be disastrous to proper use of undeveloped land and proper redevelopment of distressed land;

(f) There are only three schools in California teaching city planning (University of California at Berkeley, University of California at Los Angeles and University of Southern California) and their annual total of graduates in planning falls far short even of present requirements; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Interim Committee on Conservation, Planning, and Public Works is requested to undertake a survey which will provide a basis for an over-all state-wide program of providing planning personnel; and be it further

Resolved, That the committee is requested to establish such advisory body or bodies of educators, professionals, and other persons as it deems necessary; and be it further

Resolved, That agencies of the State Government and cities and counties are requested to cooperate with the committee in the conduct of the study; and be it further

Resolved, That the committee is requested to report from time to time on the progress of its study and to submit its final report on the subject matter of this resolution not later than fifteenth day of the 1959 Regular Session of the Legislature.

Resolution read, and ordered referred to the Committee on Municipal and County Government.

By Mr. Johnson:

House Resolution No. 253

WHEREAS, Sadie Wolf was born and reared in Hope, Kansas, moving to Denver, Colorado, in 1910, where she lived for 14 years; and

WHEREAS, She was married to William E. Wolf, a captain in the Denver police department in 1916, and subsequently moved to Los Angeles in 1924; and

WHEREAS, Following her arrival in her adoptive state, Mrs. Wolf became intensely interested in politics, serving for many years on election boards in her district and organizing 63 precincts in the Fifty-sixth Assembly District; and

WHEREAS, In recognition of her exceptional abilities as an organizer she was selected as vice president of the Los Angeles County Republican Assembly, and later as vice president of the California State Republican Assembly, the oldest volunteer Republican organization in the State; and

WHEREAS, Over the years Mrs Wolf has given liberally of her time and energies to social welfare problems and has been an enthusiastic supporter of numerous civic projects in her community; and

WHEREAS, She has also served as president of the Women's Missionary Society of the South Hollywood Presbyterian Church, and has been an active worker in that church for many years; now, therefore, be it

Resolved by the Assembly of the State of California, That the members highly commend Mrs. Sadie Wolf for her devoted civic spirit and extend their sincere gratitude on behalf of the citizens of the entire State as well as of her community for her many outstanding activities in the public interest; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a suitably prepared copy of this resolution to Mrs. Sadie Wolf.

Help us ever to remember that our lives are not our own, but they are Thine, given to us in trust, to use for Thee in service and in love. Lead us away from temptation, strengthen us to resist evil, defend us against adversity, and above all, keep us in the sunshine of Thy love; through Christ, our Lord, who liveth and reigneth with Thee and the Holy Ghost, ever one God, world without end.—AMEN.

REMARKS BY LEGISLATIVE AUDITOR

Pursuant to unanimous consent granted to Mr. Levering yesterday, the following remarks were ordered printed in the Journal:

STATE POLICY ON FLOOD CONTROL

Remarks by Legislative Auditor before Assembly Committee of the Whole May 30, 1957

There are three main aspects of the State's policy on flood control:

1. Reimbursement or advance of local costs for lands, easements and rights of way, including relocation of utilities, for federal flood control projects. This assistance is limited to levee and channel work. Under the Federal Flood Control Act of 1936, Congress established the policy that the Federal Government, acting through the U. S. Corps of Engineers, will plan and construct those flood control projects authorized by Congress which have a favorable benefit-cost ratio (i.e., annual amortization charges plus operation and maintenance costs are exceeded by the annual flood control benefits from the project) if the local interests benefiting from construction of the project will assume certain costs and responsibilities as follows:

a. Secure and pay all costs for lands, easements and rights of way required for the project.

b. Relocate or reconstruct all bridges, structures and utilities.

c. Assume full responsibility for operation and maintenance of the completed project (except for large reservoirs).

d. Hold the Federal Government free from all damages resulting from the project.

The State Legislature, through the policy enunciated in the Flood Control Fund Act of 1946, committed the State to reimburse local interests, usually county flood control districts, for all costs of rights of way and relocation (a and b above) required by federal law for local cooperation in federal flood control projects, but required the local interests to assume responsibility for items c and d. The state costs for items a and b are financed through the Flood Control Fund of 1946, for which $10,817,590 is provided in Budget Item 435 of the Budget Act of 1957. This money is expended by the Reclamation Board for the Central Valley areas, and by the Department of Water Resources for the remainder of the State. Current projects are listed

in Budget Item 434. In relocating or reconstructing bridges and utilities, these structures frequently are widened or otherwise improved. These additional costs, or betterments, the State will not assume; they must be paid by local interests.

The major project work under way is in Los Angeles County, although smaller projects are under construction or have been constructed in many other parts of the State. The State has appropriated $22,445,381 in past years for its share of the anticipated costs of local cooperation in federal flood control projects within the Los Angeles County Flood Control District. Of this amount $9,269,606 has been allocated to the district to reimburse its costs. The remainder is for unpaid claims and work not yet under way.

As of June 30, 1954, the latest date for which complete figures are available at the present time, the Los Angeles County Flood Control District had spent $97,683,759 of its own funds for construction of flood control and related conservation projects separate and apart from the federal project. The budget for the following year contained approximately $10,000,000 more for capital outlay from district funds to bring the total to well over $100,000,000. Total authorizations for construction of federal projects within the district as of the same date amounted to approximately $383,000,000. Total federal expenditures were $142,732,000.

2 Acting under authorization contained in Water Code Section 8621, the Budget Bill of 1957 contains in Budget Item 419 (b) $2,300,000 for state construction and payment of all costs of the upper portion of the San Joaquin River Flood Control Project. This project, for which the State is paying all costs, reaches from Friant Dam to the mouth of the Merced River and is similar in concept and execution to a customary federal levee and channel project. Estimated cost is $6,500,000. Several hundred thousand dollars were appropriated for this purpose in the Budget Act of 1956. This particular project is an exception to the traditional policy in the paragraphs above, but was approved by the Legislature in 1955 with the knowledge that it was an exception.

3 The State has authorized the Feather River Project and appropriated funds to start its construction. This is a multiple-purpose project with flood control storage as one of its principal features. The Omnibus Flood Control Bill now before Congress would authorize a federal contribution to the construction costs of the project for its flood control benefits.

In general there is both statutory authorization and appropriation precedent for state construction of levees and channel works in addition to providing flood control storage. In addition, large portions of the Sacramento River Flood Control Project are operated and maintained by the Department of Water Resources at a cost of about $650,000 in Fiscal Year 1957-58, pursuant to Water Code Section 8361.

Insofar as local activities in flood control are concerned, the conditions relating to the Sacramento and Los Angeles Flood Control Projects are not fully comparable. Although as of June 30, 1956, a total of $3,900,302 had been expended from the Flood Control Fund of 1946 on the Sacramento River Flood Control Project, flood control on the Sacramento River until the depression years had been the responsibility of local reclamation districts which have constructed and maintained

many levee systems and who now maintain many of these works. Much of their construction work was done before federal aid was available. In fact, it was the plight of these districts and similar local agencies along the Mississippi River which encouraged Congress to assume flood control as a federal responsibility.

State laws provide the statutory authority for local flood control work. The Los Angeles County Flood Control District is organized under a special act and has authority to impose annual ad valorem taxes on real property sufficient to retire bonded indebtedness, pay operation and maintenance costs and construct projects, not to exceed 15 cents per $100 of assessed valuation. There is provision for a special zone assessment of not to exceed five cents per $100 of assessed valuation in any one year for special zone purposes.

On the other hand, flood control and floodwater conservation districts and reclamation districts are organized under general law and can assess benefited land in proportion to benefits for district works, bonds, maintenance and operation, or can assess ad valorem taxes for operation and maintenance in districts in one county not to exceed 70 cents per $100 of assessed valuation in any one year. The amount of actual assessments is not available. Levee districts may make annual ad valorem assessments upon all property in the district without limitation.

Explanation of Votes

We voted against Assembly Bill No. 3877 because the bill does not provide for equal representation for the minority party. This so-called bipartisan commission of 16 members provides definitely for only three members of the minority (or in this case Democratic) party, and we do not believe this is adequate, although we favor the idea of a fair Elections Practices Commission.
