"We are the owners of the sphere,
Of the seven stars of the solar year,
Of Caesar's hand and Plato's brain,
Of Lord Christ's heart and Shakespeare's strain."

Grant us to so work at our tasks, and live out our days, that we, too, may create something that will add to the values that make life good.—AMEN.

Such amount is designated as the "first computation."~~

SEC. 2. Section 19431 of said code is hereby repealed.

~~19431. On or before the first day of December preceding the first day of January of each fiscal year, the Director of Finance shall determine and certify to the State Controller the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on that portion of the bonded indebtedness of the district that was incurred for each such grade level prior to the making of the first apportionment to said district under the provisions of this chapter (Sections 19401 to 19486, inclusive), which amount is designated as the "second computation." The Director of Finance shall determine the amount of the bonded indebtedness that was incurred by the district for each grade level, when bonds were issued and sold for purposes of more than one grade level. When one or more additional apportionments have been made to a grade level of a school district, conditioned upon the issuance and sale of additional bonds of the district, the Director of Finance shall determine and include in his certificate the amount raised and to be raised by the district during the current fiscal year for the payment of principal and interest on that portion of the additional bonded indebtedness of the district that was incurred for each such grade level as a condition to receiving such additional apportionment, and such amount so certified shall be included in the "second computation," as herein defined.~~

~~19432. If the Director of Finance determines in any fiscal year that the amount certified to the State Controller as the "second computation" during the next preceding fiscal year is more or less than the amount actually raised by the district for the repayment of principal and interest of the bonded indebtedness referred to in Section 19431, then the Director of Finance shall add to, or subtract from, the amount computed as the "second computation" for the current fiscal year, as the case may require, an amount equal to the difference between the amount actually~~

~~19433. With respect to each grade level of a district referred to in Sections 19430 and 19431, the amount of the "second computation" which is not in excess of one-third of the "first computation" is hereby designated as the "third computation."~~

SEC. 5. Section 19434 of said code is hereby repealed.

~~19434. On or before the first day of January of each fiscal year, the State Controller shall compute the "annual" repayment, if any, due from each district during the next succeeding fiscal year as herein provided. If, for any grade level of a district, the amount of the first computation is greater than the amount, if any, by which the second computation exceeds the third computation, the amount of such excess, herein called a "positive difference," shall constitute the amount of reimbursement due the State from such district with respect to such grade level during the next succeeding fiscal year. The sum of the "positive differences" so computed for all grade levels having a "positive difference" within each district is herein designated as the "annual repayment" of such district.~~

(d) "Eligible bonded debt service" means the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the bonded indebtedness of the district that was incurred for each such grade level prior to the date of the first final apportionment for such grade level to said district under the provisions of this chapter, computed as provided in Section 19431.

SEC. 7. Section 19431 is added to said code, to read:

19431. On or before the first day of December of each fiscal year, the Director of Finance shall determine for each grade level and certify

to the State Controller the eligible bonded debt service for the district, as follows:

(a) He shall determine the amount of the bonded indebtedness that was incurred by the district for each grade level, when bonds were issued and sold for purposes of more than one grade level. When one or more additional apportionments have been made to a grade level of a school district, conditioned upon the issuance and sale of additional bonds of the district, the Director of Finance shall determine and include in the eligible bonded debt service and in his certificate the amount raised and to be raised by the district during the current fiscal year for the payment of principal and interest on that portion of the additional bonded indebtedness of the district that was incurred for each such grade level as a condition to receiving such additional apportionment.

(b) If the Director of Finance determines in any fiscal year that the amount certified to the State Controller as the eligible bonded debt service during the last preceding fiscal year is more than the amount actually raised by the district for the repayment of principal and interest of the bonded indebtedness referred to in subdivision (d) of Section 19430 and subdivision (a) of this section, then the Director of Finance shall subtract from the amount determined as the eligible bonded debt service for the current fiscal year an amount equal to the difference between the amount actually raised by the district during the preceding fiscal year for the repayment of such bonded indebtedness and the amount so certified by the Director of Finance.

(c) If the Director of Finance determines in any fiscal year that the amount certified to the State Controller as the eligible bonded debt service during the last preceding fiscal year is less than the amount actually raised by the district for the repayment of principal and interest of the bonded indebtedness referred to in subdivision (d) of Section 19430 and subdivision (a) of this section, then the Director of Finance shall add to the amount determined as the eligible bonded debt service for the current fiscal year an amount equal to the difference between the amount actually raised by the district during the preceding fiscal year for the repayment of such bonded indebtedness and the amount so certified by the Director of Finance

SEC. 8. Section 19432 is added to said code, to read:

19432. On or before the first day of January of each fiscal year, the State Controller shall compute for each grade level of a district for which grade level an apportionment has become final during any preceding fiscal year the 40-cent tax amount, the 30-cent tax amount and the 10-cent tax amount.

SEC. 9. Section 19433 is added to said code, to read:

19433. On or before the first day of January of each fiscal year the State Controller shall determine the annual repayment, if any, to be due from each district during the next succeeding fiscal year, as follows:

(a) If, for any grade level of a district, the amount of the eligible bonded debt service exceeds the 40-cent tax amount, no annual repayment shall be due the State from such district with respect to such grade level during the next succeeding fiscal year.

(b) If, for any grade level of a district, the 40-cent tax amount is greater than the eligible bonded debt service, the amount of such excess shall constitute the annual repayment due the State with respect to such grade level during the next succeeding fiscal year; except that if the eligible bonded debt service is less than the 10-cent tax amount, the annual repayment shall equal the 30-cent tax amount.

(c) The total repayment from each district is the sum of the annual repayments determined for each grade level of the district under this section.

SEC. 10. Section 19438 of said code is amended to read:

19438. (a) Upon request of the district, the Controller shall use in computing the ~~"first computation"~~ *"40-cent, 30-cent, and 10-cent tax amounts"* under Section ~~19430~~ *19432* the difference between the total assessed valuation of property in a district as shown on the equalized assessment roll for the current fiscal year and the assessed valuation of property as shown on the equalized assessment roll for the current fiscal year, in excess of 2 percent of such total assessed valuation, with respect to which revenues of the district taxes levied in the 1954-1955 Fiscal Year, or thereafter, have been impounded by the county auditor pursuant to Section 20901. If such a request is received prior to August 1, 1955, with respect to the impounding of revenues of taxes levied during the 1954-1955 Fiscal Year, the Controller shall recompute the annual repayment of the district due during the 1955-1956 Fiscal Year on the basis of such reduced assessed valuation, and, on or before September 1, 1955, notify the officers and board referred to in Section 19442 of such recomputed annual repayment for the 1955-1956 Fiscal Year, and of the recomputed amount to be deducted from the State School Fund apportionment to such district during the 1955-1956 Fiscal Year.

(b) Whenever, after July 1, 1955, the county auditor notifies the Superintendent of Public Instruction and the Controller of the release of impounded tax revenues to the school district, the Controller shall add to the annual repayment of the district, for the first fiscal year or second fiscal year next succeeding that in which such notification of release was made, that amount by which the annual repayment of the district for a previous fiscal year was reduced by reason of the exclusion of assessed valuation with respect to tax revenues impounded and thereafter released.

(c) The amount of annual repayment and deduction, increased or reduced as required by this section, shall be the amount deducted by the Controller for the purposes of Sections 19436, 19442, and 19443 for the fiscal year in which such increase or reduction occurs.

(d) If a request is received from a school district and an annual repayment reduced pursuant to subdivision (a) hereof, Section 19437 shall not apply with respect to any tax revenues to which subdivision (a) applies.

SEC. 11. Section 19601 of said code is hereby repealed.

~~19601. On or before the first day of January of each fiscal year, the State Controller shall compute for each grade level of a district for which an apportionment has been made and has become final during any preceding fiscal year the amount that would be produced by a tax of thirty cents ($0.30) on each one hundred dollars ($100) of assessed~~

~~valuation, excluding the assessed valuation of solvent credits and other intangible property, for the current fiscal year within the district. Such amount is designated as the "first computation."~~

SEC. 12. Section 19602 of said code is hereby repealed.

~~19602. On or before the first day of December preceding the first day of January of each fiscal year, the Director of Finance shall determine for each such grade level and certify to the State Controller the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on that portion of the bonded indebtedness of the district that was incurred for the grade level prior to the making of the conditional apportionment plus that portion which the board, in the conditional apportionment, required the district to incur prior to the date on which the first apportionment made to said district under the provisions of this chapter (Sections 19551 to 19589, inclusive) became final, which amount is designated as the "second computation." The Director of Finance shall determine the amount of the bonded indebtedness that was incurred by the district for each grade level, when bonds were issued and sold for purposes of more than one grade level. When one or more additional apportionments have been made to a grade level of a school district, conditioned upon the issuance and sale of additional bonds of the district. or upon the requirement that the proceeds of bonds issued and sold be contributed for the purposes of the application for which the apportionment is made, the Director of Finance shall determine and include in his certificate the amount raised and to be raised by the district during the current fiscal year for the payment of principal and interest on that portion of the additional bonded indebtedness of the district that was incurred for each such grade level as a condition to receiving such additional apportionment or which was incurred for bonds issued and sold, the proceeds of which were required to be contributed for purposes for which the apportoinment was made, and such amount so certified shall be included in the "second computation," as herein defined.~~

SEC. 13. Section 19603 of said code is hereby repealed.

~~19603. If an apportionment has been made to a district for a grade level for which the district also received an apportionment pursuant to Chapter 8 (Sections 19401 to 19486, inclusive), the Controller shall determine the amount of the positive difference, if any, due from the district during the next succeeding fiscal year for such grade level as required by Chapter 8 (Sections 19401 to 19486, inclusive) and such amount shall be included by the Controller in the second computation.~~

SEC. 14. Section 19604 of said code is hereby repealed.

~~19604. If the Director of Finance determines in any fiscal year that the amount certified to the State Controller as the "second computation" during the next preceding fiscal year is more or less than the amount actually raised by the district for the repayment of principal and interest of the bonded indebtedness referred to in Section 19602, then the Director of Finance shall add to, or subtract from, the amount computed as the "second computation" for the current fiscal year, as the case may require, an amount equal to the difference between the~~

~~amount actually raised by the district for the repayment of such bonded indebtedness and the amounts so certified by the Director of Finance.~~

SEC. 15. Section 19606 of said code is hereby repealed.

~~19606. With respect to each grade level of a district referred to in Sections 19601 and 19602, the amount of the "second computation" which is not in excess of one-third of the "first computation" is hereby designated as the "third computation."~~

SEC. 16. Section 19607 of said code is hereby repealed.

~~19607. On or before the first day of January of each fiscal year, the State Controller shall compute the "annual" repayment, if any, due from each district during the next succeeding fiscal year as herein provided. If, for any grade level of a district, the amount, if any, by which the second computation exceeds the third computation is greater than the first computation, the amount of such excess, herein called a "negative difference," shall be disregarded, and no reimbursement shall be due the State from such district with respect to such grade level during the next succeeding fiscal year. If, for any grade level of a district, the amount of the first computation is greater than the amount, if any, by which the second computation exceeds the third computation, the amount of such excess, herein called a "positive difference," shall constitute the amount of reimbursement due the State from such district with respect to such grade level during the next succeeding fiscal year. The sum of the "positive difference" so computed for all grade levels having a "positive difference" within each district is herein designated as the "annual repayment" of such district.~~

SEC 17. Section 19601 is added to said code, to read:

19601. The following definitions apply to the computation and determinations required to be made under Sections 19602, 19603, and 19604 of this code, and they apply with respect to each grade level of a district for which grade level an apportionment has become final during any preceding fiscal year.

(a) "Forty-cent tax amount" means the amount that would be produced by a tax of forty cents ($0.40) on each one hundred dollars ($100) of assessed valuation, excluding the assessed valuation of solvent credits and other intangible property, for the current fiscal year within the district;

(c) "Ten-cent tax amount" means the amount that would be produced by a tax of ten cents ($0.10) on each one hundred dollars ($100) of such assessed valuation

(d) "Eligible bonded debt service" means the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the bonded indebtedness of the district that was incurred for each such grade level prior to the making of the first apportionment for such grade level to said district under the provisions of this chapter computed as provided in Section 19602 plus the amount of the annual repayment under Chapter 8 (Section 19401 to 19486, inclusive).

SEC. 18. Section 19602 is added to said code, to read:

19602. On or before the first day of December of each fiscal year, the Director of Finance shall determine for each grade level and certify to the State Controller the eligible bonded debt service for the district, as follows:

(a) He shall determine the amount of the bonded indebtedness that was incurred by the district for each grade level, when bonds were issued and sold for purposes of more than one grade level. When one or more additional apportionments have been made to a grade level of a school district, conditioned upon the issuance and sale of additional bonds of the district or upon the requirement that the proceeds of bonds issued and sold be contributed for the purposes of the application for which the apportionment is made, the Director of Finance shall determine and include in the eligible bonded debt service and in his certificate the amount raised and to be raised by the district during the current fiscal year for the payment of principal and interest on that portion of the additional bonded indebtedness of the district that was incurred for each such grade level as a condition to receiving such additional apportionment or which was incurred for bonds issued and sold, the proceeds of which were required to be contributed for purposes for which the apportionment was made.

(b) If the Director of Finance determines in any fiscal year that the amount certified to the State Controller as the eligible bonded debt service during the last preceding fiscal year is more than the amount actually raised by the district for the repayment of principal and interest of the bonded indebtedness referred to in subdivision (d) of Section 19601 and subdivision (a) of this section, then the Director of Finance shall subtract from the amount determined as the eligible bonded debt service for the current fiscal year an amount equal to the difference between the amount actually raised by the district during the preceding fiscal year for the repayment of such bonded indebtedness and the amount so certified by the Director of Finance.

(c) If the Director of Finance determines in any fiscal year that the amount certified to the State Controller as the eligible bonded debt service during the last preceding fiscal year is less than the amount actually raised by the district for the repayment of principal and interest of the bonded indebtedness referred to in subdivision (d) of Section 19601 and subdivision (a) of this section, then the Director of Finance shall add to the amount determined as the eligible bonded debt service for the current fiscal year an amount equal to the difference between the amount actually raised by the district during the preceding fiscal year for the repayment of such bonded indebtedness and the amount so certified by the Director of Finance.

(d) If an apportionment has been made to a district for a grade level for which the district also received an apportionment pursuant to Chapter 8 (Sections 19401 to 19486, inclusive), the Controller shall determine the amount of the annual repayment, if any, due from the district during the next succeeding fiscal year for such grade level as required by Chapter 8 (Sections 19401 to 19486, inclusive) and such amount shall be included by the Controller in the eligible bonded debt service of the district for that grade level.

SEC. 19. Section 19603 is added to said code, to read:

19603. On or before the first day of January of each fiscal year, the State Controller shall compute for each grade level of a district for which grade level an apportionment has become final during any preceding fiscal year the 40-cent tax amount, the 30-cent tax amount and the 10-cent tax amount.

SEC. 20. Section 19604 is added to said code, to read:

19604. On or before the first day of January of each fiscal year the State Controller shall determine the annual repayment, if any, to be due from each district during the next succeeding fiscal year, as follows:

(a) If, for any grade level of a district, the amount of the eligible bonded debt service exceeds the 40-cent tax amount, no annual repayment shall be due the State from such district with respect to such grade level during the next succeeding fiscal year.

(b) If, for any grade level of a district, the 40-cent tax amount is greater than the eligible bonded debt service, the amount of such excess shall constitute the annual repayment due the State with respect to such grade level during the next succeeding fiscal year; except that if the eligible bonded debt service is less than the 10-cent tax amount, the annual repayment shall equal the 30-cent tax amount.

(c) The total repayment for each district is the sum of the annual repayments determined for each grade level of the district under this section."

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO RETAIL PRICES FOR MILK

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, April 16, 1959

*Hon. Alan Short*
*Senate Chamber*

**Retail Prices for Milk—No. 12103**

*Question*

DEAR SENATOR SHORT: You have asked whether Assembly Bill No. 2319 is constitutional.

*Opinion*

In our opinion a question of reasonable classification is presented by the bill. The validity of the classification depends upon whether sufficient facts exist to justify the classification.

*Analysis*

Assembly Bill No. 2319 defines "distributor" in the following language:

> " 'Distributor' means any person, whether or not such person is a producer or an association of producers, who purchases and processes, packages or otherwise physically handles, or who processes, packages or otherwise physically handles without purchasing, fluid milk or fluid cream which is subsequently sold to other distributors, or retail stores, or places for consumption on the premises, or consumers. The definition of 'distributor' shall not include any of the following: (1) any retail store; (2) any place for consumption on the premises; (3) any person owned or controlled by one or more retail stores, or owned or controlled by one or more places for consumption on the premises, which person is not actively and directly engaged in the processing and packaging of fluid milk or fluid cream; (4) any producer who delivers fluid milk or fluid cream only to a distributor; (5) any distributor in respect to his transactions involving fluid milk, fluid cream or both made in the capacity of a retail store, as defined in Section 4218, or in the capacity of a place for consumption on the premises as defined in Section 4224. A person who purchases from a distributor, but does not process, package or otherwise physically handle, fluid milk or fluid cream or both, and who resells such fluid milk or fluid cream or both to a retail store or to a place for consumption on the premises, shall also be deemed to be a retail store, or a place for consumption on the premises, as the case may be, in respect to the purchase of such fluid milk or fluid cream or both by such person from a distributor."

The bill defines "retail store" in the following language:

> " 'Retail store' means any person with the exceptions hereafter provided, who sells fluid milk or fluid cream to a consumer

for consumption off the immediate premises of the business location occupied by such person The definition of 'retail store' shall not include (1) a distributor who sells fluid milk or fluid cream to a consumer by home delivery; (2) a producer-distributor or distributor who sells fluid milk or fluid cream to a consumer at the dairy ranch where such fluid milk or fluid cream is produced, processed and packaged, and who in addition sells no other products at such ranch except dairy products as the term 'dairy products' is defined in Section 4101 of this code, and products produced at such ranch. A person is a 'retail store' as herein provided whether his sale of fluid milk or fluid cream to a consumer is made from a store, restaurant, confectionery, processing plant, depot, vending machine, mobile unit or otherwise."

Assembly Bill No. 2319 adds Section 4353 5 to the Agricultural Code. This section provides that the sales of fluid milk or fluid cream or both by retail stores to consumers shall constitute a single method of distribution and that except as provided in Section 4357 of the Agricultural Code minimum retail prices established for such method of distribution within any marketing area shall be uniform without variation between different retail stores or different groups of retail stores (Section 4357 of the Agricultural Code relates to special distribution costs and is not related to the pricing provisions of the bill).

The bill affects the retail prices of fluid milk and fluid cream and relates primarily to two types of retail prices. One is the so-called "cash and carry" price for milk * sold at the dairy farm where it is produced, processed and packaged. The other type of retail price is the so-called "F.O.B. plant" price. This is the price at which milk is sold by the distributor at a milk products plant at which it is processed, packaged or handled. We understand that both the cash and carry price and the F.O.B. plant price, when established, are lower than the retail price established for sales at retail stores. Apparently this price differential is based upon different methods of distribution.

Under the bill, the cash and carry operator will be allowed to sell at the cash and carry price to consumers at the dairy farm where the milk is produced only if no other products other than dairy and farm products are sold.

An F.O.B. plant would fall within the definition of a retail store as contained in the bill where the plant is not located upon the dairy ranch and since the bill requires that minimum retail prices be uniform without variation between retail stores, the effect of the bill would be to eliminate the F.O.B. plant price at retail for milk sold at processing plants.

The effect of the bill in this regard can best be shown by specific examples.

"A" owns and operates a dairy ranch. "A" processes the milk on the ranch and sells it at retail to consumers at the ranch. Under the present law a cash and carry price could be established which is lower than the retail price established for sales at retail stores. Under the

* All references to milk would also apply to fluid cream where minimum prices are established for fluid cream

bill "A" can sell at such established lower cash and carry price only where the products sold at the dairy ranch are dairy products and products produced at the dairy ranch.

"B" is a processor and distributor. He processes the milk and sells it at retail at the processing plant. Under the bill this operation is defined as a retail store and the operator would be required to charge the minimum retail store price, thus eliminating the F.O.B. plant price.

The bill would appear to raise a question of valid classification since it would permit a special minimum retail sales price for the producer-processor-distributor who sells at retail (cash and carry dairy) but not for the processor-distributor who sells at retail (F.O.B. plant operation).

Section 11 of Article I of the State Constitution requires that all laws of a general nature shall have a uniform operation. A statute is uniform in its operation if it applies alike to all persons or objects within a class founded upon some natural, intrinsic, or constitutional distinction (*Jersey Maid Milk Products Co.* v. *Brock* (1939), 13 Cal. 2d 620, 639, 640). In exercising its power to classify, the Legislature has a wide discretion and the presumptions are in favor of the validity of the legislative determination and will not be overthrown unless it is palpably arbitrary ( *In re Schmolke* (1926), 199 Cal. 42).

The only distinction we can see between one who produces, processes, and sells fluid milk or fluid cream to consumers at retail at the dairy ranch, and one who processes and sells at the processing plant, is that in the latter case the fluid milk or cream must be transported from the place where produced to the place where it is sold. However, it is our understanding that, due to the operation of provisions of the existing law, the producer rather than the distributor bears the cost of transporting the milk or cream from the producer to the distributor (subd. (b) of Sec. 4204, and subd. (e) of Sec. 4280, Ag. C.). Thus, this distinction as to transportation would not seem to justify applying a different minimum retail sales price in the two situations.

Unless sufficient facts exist to justify the different treatment of the so-called cash and carry operation and the F.O B. plant operation, the courts would hold the classification effected by the bill to be invalid.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO GERMANENESS OF AMENDMENTS TO ASSEMBLY BILL NO. 1189

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, May 13, 1959

*Hon. Alan Short*
*Senate Chamber*

**Germaneness—No. 14959**

*Question*

DEAR SENATOR SHORT: You have asked whether the amendments to Assembly Bill No. 1189 adopted in the Assembly May 12, 1959, are germane. The amendments in question deleted the provisions of the

bill, as amended in Assembly March 16, 1959, and substituted therefor the provisions of Assembly Bill No. 2319.

*Opinion*

While the question is one for decision by the Assembly and the Senate in the final analysis, it is our opinion that the amendments would probably be held not to be germane under either the Assembly Rules or the Joint Rules.

*Analysis*

Questions of germaneness are to be determined by examining the original title of the bill proposed to be amended. In the case of Assembly Bill No. 1189, as amended in Assembly March 16, 1959, such title reads:

> "An act to amend Sections 493 and 494 of the Agricultural Code, relating to the qualifications of persons regularly engaged in the enforcement of laws, rules, regulations and ordinances pertaining to milk and milk products."

Both the relating clause of the title and the subject matter of the two code sections amended relate to the same subject, namely, the qualifications of persons regularly engaged in the enforcement of laws, rules, regulations and ordinances pertaining to milk and milk products. It is our opinion, therefore, that this is the subject of the bill.

Assembly Bill No. 2319, however, relates to the marketing of fluid milk and fluid cream, containing several provisions of a substantive nature in this respect. Thus, this bill relates to certain of the activities which would be regulated by the persons whose qualifications are affected by Assembly Bill No. 1189, and does not relate to such qualifications in any manner.

Assembly Standing Rule No. 94 provides, in part, as follows:

> "94. No amendment to any bill * * * shall be in order when such amendment relates to a different subject, or is intended to accomplish a different purpose, or requires a title essentially different from the original title of any bill.
> "* * * ."

We think that amendments which would delete the provisions of Assembly Bill No. 1189 and substitute therefor the provisions of Assembly Bill No. 2319 relate to "a different subject," are intended to "accomplish a different purpose" and require "a title essentially different from the original title" of the bill.

While the House must make the decision itself in the final analysis, we think that these amendments would probably be held not to comply with Rule No. 94.

If no point of order is raised under the Assembly Rules, you ask whether the amendments could be held germane under the provisions of Joint Rule No. 9. This rule is far more liberal than the Assembly rule and provides:

> "9. A substitute or amendment must relate to the same subject as the original bill, constitutional amendment or resolution under consideration."

Again, however, we think that the amendments do not "relate to the same subject as the original bill." Thus, while either of the houses

must make the decision itself in the final analysis, we think that the amendments would probably be held to violate Joint Rule No. 9.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Hawkins was granted unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal:

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO PERSONS ADMITTED TO ASSEMBLY FLOOR

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, May 7, 1959

*Hon. Augustus F. Hawkins*
*Assembly Chamber*

**Persons Admitted to Assembly Floor—Assembly Rule 38—No. 14669**

*Questions*

DEAR MR. HAWKINS: You have asked the following three questions concerning Assembly Standing Rule 38, relative to persons admitted to the floor of the Assembly:

1. Does it include state employees other than those employed by the Legislature?
2. Does it include constitutional officers?
3. Does it include state, county, and city officials who seek passage or defeat of legislation on the floor of the Assembly?

*Opinion*

In our opinion the answer to each of your questions is "yes."

*Analysis*

Assembly Standing Rule 38 reads as follows:

"38. No person other than Members, officers, attaches, employees of the Legislature, former Members of the Legislature, and accredited members of the press shall be admitted to the floor of the Assembly during any session of the Assembly; provided, that a guest of any member shall be admitted upon presentation of a guest card of said member countersigned by the Speaker, such guest card being valid only on the legislative day for which it was issued. No person required to register pursuant to Section 9906 of the Government Code shall, under any circumstances be admitted to the Assembly Chamber while the Assembly is in session.

"All guests shall be seated only in the chairs in the back of the rail in the rear of the Assembly Chamber and shall not be permitted to sit at the desks of the members nor stand in the rear of the Chamber while the Assembly is in session. No person other than an accredited newspaper representative shall be permitted to sit at the press desks. A special section in the balcony shall be reserved for those holding guest cards. Neither any person mentioned in this rule or any other person shall engage in influencing the passage or defeat of legislation in the Assembly Chamber; provided, that this sentence is not applicable to Members of the Legislature."

First, it is clear that the rule prohibits the admission to the floor without a guest card of any state employee or constitutional officer of the State except the members themselves and the officers, attaches and employees of the Legislature, unless the particular person involved is a former Member of the Legislature. It is also clear that no county or city official may be admitted to the floor without a guest card unless he is a former Member of the Legislature.

The rule permits any person to be admitted to the floor as a guest of a member upon presentation of a properly signed guest card but in no event permits admission of legislative advocates registered as such pursuant to state law.

Further, the rule definitely prohibits any persons, except members, who are in the Assembly Chamber for any reason from there engaging in influencing the passage or defeat of legislation.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By ROBERT G. HINSHAW, Deputy

such expenditures or liability shall be considered as proximately resulting from such injury or death in addition to any other items of damage proximately resulting therefrom. ~~After recouping himself for such special damages, together with a reasonable attorney's fee fixed by the court, which shall be based solely upon the services rendered by the employer's attorney in effecting recovery for the benefit of the employee, the employer shall pay any excess to the injured employee or other person entitled thereto.~~

SEC. 2. Section 3856 of said code is repealed.

~~3856. The court shall first apply, out of the entire amount of any judgment for any damage recovered by the employee, a sufficient amount to reimburse the employer for the amount of his expenditures for compensation. If the employer has not joined in the action or has not brought action, or if his action has not been consolidated, the court, on his application shall allow, as a first lien against the entire amount of any judgment for any damages recovered by the employee, the amount of the employer's expenditures for compensation; provided, however, that where the employer has failed to join in said action and to be represented therein by his own attorney, or where the employer has not made arrangements with the employee's attorney to represent him in said action, the court shall fix a reasonable attorney's fee, which shall be fixed as a share of the amount actually received by the employer, to be paid to the employee's attorney on account of the service rendered by him in effecting recovery for the benefit of the employer, which said fee shall be deducted from any amounts due to the employer.~~

SEC. 3. Section 3856 is added to said code, to read:

3856. In the event of suit against such third party:

(a) If the action is prosecuted by the employer alone, the court shall first order paid from any judgment for damages recovered the reasonable litigation expenses incurred in preparation and prosecution of such action, together with a reasonable attorney's fee which shall be based solely upon the services rendered by the employer's attorney in effecting recovery both for the benefit of the employer and the employee. After the payment of such expenses and attorney's fees, the court shall apply out of the amount of such judgment an amount sufficient to reimburse the employer for the amount of his expenditure for compensation together with any amounts to which he may be entitled as special damages under Section 3852 and shall order any excess paid to the injured employee or other person entitled thereto.

(b) If the action is prosecuted by the employee alone, the court shall first order paid from any judgment for damages recovered the reasonable litigation expenses incurred in preparation and prosecution of such action, together with a reasonable attorney's fee which shall be based solely upon the services rendered by the employee's attorney in effecting recovery both for the benefit of the employee and the employer. After the payment of such expenses and attorney's fee the court shall, on application of the employer, allow as a first lien against the amount of such judgment for damages, the amount of the employer's expenditure for compensation together with any amounts to which he may be entitled as special damages under Section 3852.

(c) If the action is prosecuted both by the employee and the employer, in a single action or in consolidated actions, and they are represented by the same agreed attorney or by separate attorneys, the court shall first order paid from any judgment for damages recovered, the reasonable litigation expenses incurred in preparation and prosecution of such action or actions, together with reasonable attorneys' fees based solely on the services rendered for the benefit of both parties where they are represented by the same attorney, and where they are represented by separate attorneys, based solely upon the service rendered in each instance by the attorney in effecting recovery for the benefit of the party represented. After the payment of such expenses and attorneys' fees the court shall apply out of the amount of such judgment for damages an amount sufficient to reimburse the employer for the amount of his expenditures for compensation together with any other amounts to which he may be entitled as special damages under Section 3852.

(d) The amount of reasonable litigation expenses and the amount of attorneys' fees under subdivisions (a), (b), and (c) of this section shall be fixed by the court. Where the employer and employee are represented by separate attorneys they may propose to the court, for its consideration and determination, the amount and division of such expenses and fees.

SEC. 4. Section 3858 of said code is amended to read:

3858. After *payment of litigation expenses and attorneys' fees fixed by the court pursuant to Section 3856 and* payment of the employer's lien, the employer shall be relieved from the obligation to pay further compensation to or on behalf of the employee under this division up to the entire amount of the balance of the judgment, if satisfied, without any deduction. No satisfaction of such judgment in whole or in part, shall be valid without giving the employer notice and a reasonable opportunity to perfect and satisfy his lien.

SEC. 5. Section 3859 of said code is amended to read:

3859. No release or settlement of any claim under this chapter *as to either the employee or the employer* is valid without the written consent of both ~~employer and employee~~. The consent of both the employer and employee filed in court in writing together with the approval of the court, is sufficient in any action or proceeding where such approval is required by law.

SEC. 6. Section 3860 of said code is repealed.

~~3860. No release or settlement under this chapter is valid and binding without notice to both employer and employee and opportunity to the employer to recover the amount of compensation he had paid or become obligated to pay. The entire amount of such settlement, or of any settlement without suit, is subject to the employer's full claim for reimbursement for his compensation expenditures and liability; provided, however, that where the employer has not prosecuted any claim or action in his own behalf or has failed to join and participate in the prosecution of any action presented by the employee or has not made arrangements with the employee's attorney to represent him in the prosecution of said action or claim, the commission shall fix a reasonable attorney's fee, which shall be fixed as a share of the amount actually received by the employer, to be paid to the employee's attorney on~~

~~account of the services rendered by him in effecting a recovery for the benefit of the employer, which said fee shall be deducted from any amounts due to the employer.~~

SEC. 7. Section 3860 is added to said code, to read:

3860. (a) No release or settlement under this chapter, with or without suit, is valid or binding as to any party thereto without notice to both the employer and the employee, with opportunity to the employer to recover the amount of compensation he has paid or become obligated to pay and any special damages to which he may be entitled under Section 3852, and opportunity to the employee to recover all damages he has suffered and with provision for determination of expenses and attorney's fees as herein provided.

(b) The entire amount of such settlement, with or without suit, is subject to the employer's full claim for reimbursement for compensation, he has paid or become obligated to pay and any special damages to which he may be entitled under Section 3852, together with expenses and attorney fees, if any, subject to the limitations in this section set forth.

(c) Where settlement is effected, with or without suit, solely through the efforts of the employee's attorney, then prior to the reimbursement of the employer, as provided in subdivision (b) hereof, there shall be deducted from the amount of the settlement the reasonable expenses incurred in effecting such settlement, including costs of suit, if any, together with a reasonable attorney's fee to be paid to the employee's attorney, for his services in securing and effecting settlement for the benefit of both the employer and the employee.

(d) Where settlement is effected, with or without suit, solely through the efforts of the employer's attorney, then, prior to the reimbursement of the employer as provided in subdivision (b) hereof, there shall be deducted from the amount of the settlement the reasonable expenses incurred in effecting such settlement, including costs of suit, if any, together with a reasonable attorney's fee to be paid to the employer's attorney, for his services in securing and effecting settlement for the benefit of both the employer and the employee.

(e) Where both the employer and the employee are represented by the same agreed attorney or by separate attorneys in effecting a settlement, with or without suit, prior to reimbursement of the employer, as provided in subdivision (b) hereof, there shall be deducted from the amount of the settlement the reasonable expenses incurred by both the employer and the employee or on behalf of either, including costs of suit, if any, together with reasonable attorneys' fees to be paid to the respective attorneys for the employer and the employee, based upon the respective services rendered in securing and effecting settlement for the benefit of the party represented. In the event both parties are represented by the same attorney, by agreement, the attorney's fee shall be based on the services rendered for the benefit of both.

(f) The amount of expenses and attorneys' fees referred to in this section shall, on settlement of suit, or on any settlement requiring court approval, be set by the court. In all other cases these amounts shall be set by the commissioner. Where the employer and the employee are represented by separate attorneys they may propose to the court or

the commission, for consideration and determination, the amount and division of such expenses and fees.

SEC. 8. Section 3861 of said code is amended to read:

3861. The commission is empowered to and shall allow, as a credit to the employer to be applied against his liability for compensation, such amount of any recovery by the employee for his injury, either by settlement or after judgment, as has not theretofore been applied ~~to reimburse the employer, or has not been applied~~ to the payment of ~~an attorney's fee to the employee's attorney~~ *expenses or attorneys' fees*, pursuant to the provisions of Sections 3856, *3858*, and 3860 of this code, *or has not been applied to reimburse the employer*.

SEC. 9. Section 3863 of said code is repealed

~~3863. No provision of this chapter shall be deemed to impair the right of the employee and his attorney to contract as between themselves for attorney's fees to be paid by the employee for prosecuting any action or claim against any person other than the employer.~~

### PRAYER

Upon invitation of Speaker Brown, the following prayer was offered by the Honorable Richard T. Hanna, Member of the Assembly, from the Seventy-fifth District:

*Our Heavenly Father,* We Thy children, gather within this Assembly Hall upon a new day to turn our efforts again to the business of government for the people of California. We come to our tasks as Thou hast made us—in Thy image and with a spark of the divine. We are mindful Thou hast told us—that as man is, God once was; and as God is, man may become; and because of these things, we aspire to and seek perfection. Yet we are made mortal, in and of a mortal world that is too much with us, late and soon; and, because of these things, we are prone to error and destined to imperfection.

Lord, we ask this day Thy divine guidance and inspiration so that all of us may rise a little higher towards our aspirations.

We seek also to share one with another the help and sustaining power of our different strengths; our diverse talents and our divided skills, to the end that none of us fall too far into error.

May this day's work be worthy of the day, we pray, in the Name of Jesus Christ.—AMEN.

### Letter of Transmittal, Senate Concurrent Resolution No. 33

The University of California recognizes the importance of mineral production as a source of new wealth to the State. The University can best serve the needs of the State through a program of basic research, co-ordinated with the training of graduate students in the field of mineral sciences. Before the latent mineral wealth of the State can be exploited, a substantial amount of basic research on the properties of minerals and on the methods of separating them will have to be done. Furthermore, one of the main functions of the University will be to supply mineral engineers with advanced training in scientific principles and technological methods who will be able to cope with the increasingly more difficult problems of extracting the mineral wealth from the earth. The University will thus co-ordinate basic research and graduate training in the mineral industry field, for the ultimate benefit of the State.

To implement this research program it is believed that an Institute of Minerals Research should be established at Berkeley, since the University's center of instruction and research in this field is located on that campus. If and when such an institute is established, a statewide committee would be appointed to assure intercampus co-operation in this area by making the facilities of the institute available to all qualified staff members within the University regardless of campus.

The University has been requested by the Governor to defer the funding of many of its urgent items for the academic year 1959-60. Therefore, while recognizing the great importance of research in the field of

mineral science, the funding of this should take priority behind many of the urgent items that have already been deferred.

Respectfully submitted,

CLARK KERR
President, University of California

*Hon. Ralph M. Brown*
*Speaker of the Assembly*
*State Capitol, Sacramento*

DEAR SPEAKER BROWN: The following resolution was adopted by the State Board of Education at its meeting held at San Fernando Valley State College on May 9, 1959:

*Resolved*, That the State Board of Education looks with disfavor upon the necessity of state college presidents having to depend upon financial contributions from private sources to defray the cost of community service functions incidental to their official duties, and

*Resolved*, That the Legislature be requested to appropriate funds in amounts and under conditions to provide a practical solution to the problem of these expenditures imposed on state college presidents.

Sincerely yours,

ROY E. SIMPSON

## REQUEST TO CONSIDER AND ACT ON BILL WITHIN 30 CALENDAR DAYS

Pursuant to Joint Rule No. 10.8, I request permission that Assembly Bill No. 2865 may be heard in committee, and acted upon by the Assembly before 30 calendar days have elapsed following the date it was introduced.

The above request referred to the Committee on Rules.

## RESOLUTIONS

The following resolution was offered:

By Mr. Britschgi:

**House Resolution No. 265**

Relative to price differentials in the retail sales of fluid milk

WHEREAS, The Department of Agriculture in its marketing orders has established minimum retail prices for fluid milk sold to consumers at processing plants and dairy farms in various marketing areas in this State; and

WHEREAS, The minimum retail prices established for sales at processing plants and dairy farms are below the minimum retail prices established for retail stores, and it appears that additional requests for such price differentials will be made by operators of processing plants and dairy farms; and

WHEREAS, The price differentials in the minimum retail prices have presented multiple problems and disturbances in the production, processing and distribution of fluid milk which cause, or tend to cause, instability in the milk industry; and

WHEREAS, In order to carry out the policy of this State in promoting, fostering and encouraging the orderly production, processing and marketing of milk, it is necessary that the Legislature, through an appropriate interim committee, study the problems and disturbances arising from price differentials in the minimum retail prices of milk; now, therefore, be it

*Resolved by the Assembly of the State of California*, That the Department of Agriculture is requested not to establish any additional minimum retail prices for the sales of fluid milk at processing plants and dairy farm outlets which are below the minimum retail prices established for retail stores, until the problems arising from price differentials in minimum retail sales have been studied by an appropriate interim committee and the committee has reported thereon to the Legislature; and be it further

*Resolved*, That a copy of this resolution be transmitted to the Director of the Department of Agriculture.

Resolution read, and referred to the Committee on Rules.

Is there a man who has not felt himself to be used by ulterior forces, sometimes abused, forsaken, betrayed, misrepresented, let down by those expected to stand by? Lift up our hearts, we pray Thee, and remind us that minorities have wrought the great changes of history, and that Thou canst use all who are willing to seek and do Thy will.—AMEN.

SAN FERNANDO VALLEY STATE COLLEGE
OFFICE OF THE PRESIDENT
NORTHRIDGE, May 12, 1959

*Mr. Arthur A. Ohnimus, Chief Clerk*
*Assembly, Legislature of California*
*State Capitol, Sacramento*

DEAR MR OHNIMUS: I have received your note of May 7th and the enclosed Resolution No 103 I believe the proposition which you suggest is a proper subject for discussion by the State College Presidents of California at one of their future meetings

I am glad you raised the issue of facilities for research, since this has been a project discussed numerous times by the Presidents and other constitutent bodies of the State Colleges of California. As you probably know, we have no part of the assigned responsibilities of members of our teaching staff devoted to research at present. Therefore, our type of institution will not reflect the kinds of facilities for staff research that may be found in institutions where research is an integral part of the mission of the college.

Undoubtedly, a proposition such as you mention will require some funds These may be hard to come by in the light of present pressures.

Sincerely yours,

RALPH PRATOR, President

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO LOCAL INDEBTEDNESS

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, May 18, 1959

*Hon. Sheridan N. Hegland*
*Assembly Chamber*

### Local Indebtedness—No. 15196

*Question*

DEAR MR. HEGLAND: You have asked whether the Legislature can enact legislation which would be applicable to chartered as well as general law cities and counties:

1. To prohibit such agencies from using a lease-purchase arrangement to construct or acquire capital outlay items.
2. To require such agencies to obtain approval by a majority vote of the electorate before issuing revenue bonds.

*Opinion*

In our opinion, both statutes would be applicable to chartered counties, but would probably not be applicable to chartered cities. However, in view of the ever-changing concept of what constitutes a municipal affair, we should note the possibility that a court might decide otherwise particularly in respect to applicability of the lease-purchase statute to cities.

*Analysis*

The constitutional provisions relating to city and county charters are different. Section 7½ of Article XI of the Constitution provides that any county may frame a charter for its own government consistent with and subject to the Constitution, and that general laws shall be superseded by the charter as to matters for which, under Section 7½ it is competent to make provision in the charter and for which provision is made therein. Since we find no provision in the Constitution which authorizes a county to provide in its charter for its methods and procedures for financing items of capital outlay, we believe that statutes prohibiting use of lease-purchase agreements or requiring approval of the electorate for the issuance of revenue bonds would be applicable to chartered counties.

A city charter, on the other hand, may contain a provision that the city shall have power over its own municipal affairs (Art XI, Secs. 6 and 8), and when this "home rule" provision is in the charter, the applicability of a statute prohibiting lease-purchase agreements or requiring approval of the electorate for the issuance of revenue bonds would depend on whether the method of financing the acquisition of public property is a matter of statewide concern, or is a "municipal affair." The courts have not attempted to formulate an exact definition of "municipal affairs," but generally speaking, the term refers to the internal business affairs of the city (34 Cal. Jur. 2d 748).

The issuance of bonds in the sum of $75,000 for the completion and repair of an existing wharf has been held to be a municipal affair (*Long Beach* v. *Boynton* (1911) 17 Cal. App. 290) as has been the issuance of bonds for a schoolhouse (*Law* v. *San Francisco* (1904) 144 Cal. 384), and charter provisions relating to such bonded indebtedness prevail over inconsistent state laws If a lease-purchase agreement were of the type already approved by California courts, with the liability confined to each installment as it falls due, and with each year's payment limited to the consideration actually furnished that year (See *City of Los Angeles* v. *Offner* (1942) 19 Cal. 2d 483), such agreement would probably be upheld as to a chartered city as being a municipal affair. However, under particular circumstances a court might hold that the financial stability of its cities is a matter of statewide concern and that if the Legislature has prohibited lease-purchase agreements, the prohibition extends to chartered cities as well as to general law cities. As was stated by the court in *Pacific Telephone and Telegraph Company* v. *San Francisco* (1959) 51 A.C. 767, 772, "the constitutional concept of municipal affairs is not a fixed or static quality. It changes with the changing conditions upon which it is to operate. What may at one time have been a matter of local concern may at a later time become a matter of state concern controlled by the general laws of the State."

As for the matter of requiring the approval of the voters for the issuance of revenue bonds, such bonds are generally issued in connection with the acquisition of a public utility. The acquisition of a public utility, such as a water system, is a municipal affair and the fact that some service is afforded in territory outside the city does not render the acquisition of the utility any the less a municipal affair (*South Pasadena* v. *Pasadena Land and Water Company* (1908), 152 Cal. 579, at 594; *Sawyer* v. *City of San Diego* (1956), 138 Cal. App. 2d 652 at 657-8). In the Pasadena case, above, the outside territory to be supplied by the chartered city included territory in another city.

In view of these cases and the ones upholding the issuance of bonds as a municipal affair (see above), it is our opinion that the matter of issuing revenue bonds to acquire a public utility would be held to be a municipal affair, and a state law requiring approval of the voters before the bonds could be issued would not be applicable to a chartered city. Here too, however, it is conceivable that changing conditions might cause a court to rule it applicable.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By (MRS.) ROSE WOODS, Deputy

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Elliott was granted unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal:

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO TENURE OF CERTIFICATED EMPLOYEES OF SCHOOL DISTRICTS

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, May 14, 1959

*Hon. Edward E. Elliott*
*Assembly Chamber*

**Tenure of Certificated Employees of School Districts—No. 14993**

*Question*

DEAR MR. ELLIOTT: You have asked us whether Assembly Bill No. 1457, as amended in Assembly April 9, 1959, would impair any tenure rights which certificated employees of school districts now have.

*Opinion*

In our opinion the bill would not impair any tenure rights of certificated employees.

*Analysis*

Assembly Bill No. 1457, as amended in Assembly April 9, 1959, amends Section 13317 of the Education Code, as enacted at the 1959 Regular Session.

Section 13317 provides as follows:

"Any certificated employee having permanent classification in any district who is transferred from the district to another district, the governing board of which is composed of the same persons as the first district, shall retain the permanent classification in the district in which the permanent classification has been attained, until permanent classification has been attained in the district to which he is transferred."

This section would be amended by Assembly Bill No. 1457, as amended in Assembly April 9, 1959, to read:

"Any certificated employee having permanent classification in a district, who is granted a leave of absence and transfers to another district which is under the supervision of the same chief administrative officer or district superintendent as the district from which the employee is on leave, may acquire permanent classification in the district to which he transferred if he is employed for a second year in that district, at which time his permanent classification in the district from which he transferred shall expire."

Although the bill revises the provisions relating to the transfer of a certificated employee from one district to another, we believe that the employee's tenure rights will be unaffected. Under Section 13317 as it now reads, the transferring employee retains his permanent classification in the district from which he transfers until he acquires permanent classification in the new district. Under the section as amended by Assembly Bill No. 1457, this provision would not be changed since the employee would not lose his permanent classification in the district from which he transferred until he acquired a permanent classification in the new district. Therefore, we would conclude that the bill does not impair any tenure rights of a certificated employee of a school district.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By FRED G. WILLIAMS, Deputy

Bill read third time.

### Motion to Amend

Mr. Sumner moved the adoption of the following amendment:

### Amendment No. 1

On page 1, of the printed bill, as amended in the Assembly on May 1, 1959, after line 21, insert

"This section shall be applicable only to districts located within the County of Orange.

The Legislature finds and declares that special problems of sanitation exist in the County of Orange due to the extremely rapid growth in population and the rapid opening of large new tracts of land to residential development and further finds and declares that in areas of Orange County serious difficulties involving sewage overflow and other related problems have arisen which threaten the health of Orange County residents.

These problems are not, however, common to all areas of the State in which county sanitation districts are located. It is therefore, hereby declared that a general law cannot be made applicable and that the enactment of this section as a special law is necessary to effectuate the solution of problems which threaten the health of the residents of Orange County."

*O God*, Deliver us from physical weariness, emotional exhaustion, mental tiredness. In the midst of the demands of this day make our minds to be hosts to ideas that are truly important and significant; let us give audience to those who have something of value to say to us; make us too busy to give attention to trivial matters. Endow us with the memory of the wisdom of the past, imagination enough to visualize the results of contemplated action, and conscience to distinguish between truth and error. May all these powers of ours be renewed in daily dedication to public service and to Thee, O God, to whom we are ultimately responsible.—AMEN

Chief Clerk Arthur A. Ohnimus at the Desk

### PRAYER

The following prayer was offered by the Chaplain, Rev. R. Wilbur Simmons:

*Our Father, God.* If ever we have wondered why we got involved in lawmaking challenge our mood with the wisdom of these words: "This is the true joy of life, the being used for a purpose recognized by yourself as a mighty one; the being thoroughly worn out before you are thrown on the scrapheap; the being a force of Nature instead of a feverish, selfish little clod of ailments and grievances complaining that the world will not devote itself to making you happy." *

Enable us to be not merely a force of Nature, but a power for good, a power for Thee, O God.—AMEN.

### PRAYER

The following prayer was offered by the Chaplain, Rev. R. Wilbur Simmons:

*God and Father of us all*, We are assembled as those who bear responsibility for the public, for all the public, with whom we would be identified in the spirit of words once expressed by a great-hearted man:

"While there is a lower class, I am in it,
While there is a criminal element, I am of it,
While there is a soul in jail, I am not free."

May it be said of us, as it was once spoken of the poet Whittier, that his chief glory was "not that he could speak inspired words, but that he spoke them for the despised, the helpless, and the dumb, for those too ignorant to honor him, too poor to reward him." We make our prayer in the name of the compassionate Christ.—AMEN.

*Mr. Arthur A. Ohnimus, Chief Clerk*
*Assembly, California Legislature*
*Capitol Building, Sacramento*

DEAR MR. OHNIMUS: I appreciated receiving from you a copy of Assembly Concurrent Resolution No. 103. This resolution deals with an extremely important and timely subject.

We are greatly pleased that the Legislature has authorized the use of our facilities by retired scientists for the pursuit of scientific endeavors. This is a most appropriate use of our facilities and I am sure that a considerable amount of significant research and study will be done at the state college and university campuses.

Sincerely,

JOHN T. WAHLQUIST

The following communication was presented by the Speaker and ordered printed in the Journal:

BRIEFLY—

To make a very long story short, in November, 1956, I went to the Welfare Department in San Francisco to apply for old age security. A clerk would not allow me to apply and walked to the back but in my full view and phoned. She then stood around back doing nothing and saying nothing for over 20 minutes and then said a few words which ended the interview.

The theory is that she phoned saboteurs who had me illegally kidnapped and taken to an insane asylum prison without trial or hearing in a devious manner which intended to hide the illegal action from thoughts that the Welfare Department had anything to do with it. She was shot and killed on January 16, 1959, by a man she presumably did the same to. There I finally got a *state* welfare worker to send for the old age pension papers which were filled out and mailed.

The Welfare Department then *again illegally* prevented me from getting the pension by mailing a fake statement to this state agent falsely saying that they contacted Blum Advertising Agency, Mission near 4th, San Francisco, and were told that I never worked there. After I left the asylum prison I wrote Blum's. They said no one inquired and did not deny I worked there for years.

On the basis of this false statement, pray that you will ask the Legislature to issue an order to San Francisco County to mail me the maximum amount of the pension each month to allow me to have said mail forwarded to frustrate saboteurs trying to false imprison again, thereby relieving me of indescribably extremely much

worry, fear, anxiety, grief; and to have the first check comply with the law by including the retroactive sum from January 30, 1957, which was the date I was finally allowed to apply, but only through pressure of the state agent. The Legislature should be advised that an early judgment is in order due to the great need of this petitioner who is 77 and living on borrowed time and borrowed money.

I have mailed thousands of these letters to attorneys but nearly all failed to even reply.

The theory is that the San Francisco Welfare Department is operated as a political patronage enterprise. I am wondering as to the legality of instigating a general strike, a taxpayers' no tax payment strike and so forth against San Francisco County if necessary.

If interested in a secret technique which pays you your money back in full every time your horses lose and also pays you in full every time they win please let me know. Same bets. Same money. No other bets. Unbelievable but true.

Sincerely,

JOHN RISAGNO

Postcript—

If you will not handle, please mail this back so that I can mail it to someone else. Also the envelope so that I can check something.

Thank you.

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Rumford was granted unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal:

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO THE HEALING ARTS

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, May 17, 1959

*Hon. William Byron Rumford*
*Assembly Chamber*

**The Healing Arts—No. 15056**

*Question*

DEAR MR. RUMFORD: You have directed our attention to Assembly Bill No. 1627, as amended in Assembly May 8, 1959, relating to optometry. You ask if under Section 3029, contained therein, the State Board of Optometry could adopt a rule requiring an optometrist who maintains his office in a department store to move such office.

*Opinion And Analysis*

Section 3029, as proposed to be added to the Business and Professions Code by the bill in question, authorizes the board to adopt rules and regulations appropriate to the establishment and maintenance of a high standard of integrity and dignity in the profession. Specifically what is meant by "high standard of integrity and dignity in the profession" is not stated. However, in *Estate of Gordon* (1904), 142 Cal. 125, at 131-132, the Supreme Court sanctioned a definition of the word " 'integrity' for the purposes of a Civil Code section as 'soundness of moral principle and character, as shown by a person's dealing with others, in the making and performance of contracts, in fidelity and honesty in the discharge of trusts. In short, it is used as a synonym

for probity, honesty, and uprightness in business relations with others.' "

Webster's New International Dictionary, Second Edition, defines the word "dignity" in part as meaning the state, character or quality of being worthy or honorable. Thus we believe that pursuant to the authority contained in Section 3029 the board could adopt rules directed to maintaining honest and upright relations between an optometrist and his patients.

We note that the State Board of Accountancy has power to adopt rules of professional conduct appropriate to the establishment and maintenance of a high standard of integrity and dignity in the practice of accountancy (Sec. 5021, B. & P. C.). Pursuant to this authority, that board has adopted rules relating to the confidential relationship between an accountant and his client, fee splitting, incompatible businesses, and soliciting of clients (see 16 Cal. Adm. Code, Secs. 54 to 66).

In view of the fact that it has been customary for optometrists to practice in department stores we believe it would be difficult to justify a rule of professional conduct, on the ground of maintaining a high standard of integrity and dignity in the profession, which would prohibit an optometrist from practicing in such an establishment. Thus, while it is not certain, we do not believe that the authority under the proposed section would permit the board to adopt a rule requiring an optometrist presently practicing in a department store to move his office therefrom.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By (MRS.) ANN MACKEY, Deputy

## MESSAGES FROM THE SENATE

SENATE CHAMBER, May 21, 1959

MR. SPEAKER: I am directed to inform your honorable body that the Senate on this day refused to sustain the veto of the Governor affecting Senate Bill No. 284, notwithstanding the objections of the Governor as stated in his message of May 19th set forth below:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 19, 1959

*To the Honorable Members of the Senate*
*of the State of California:*

I am returning, herewith, without my signature,

**Senate Bill No. 284**, entitled: "An act to amend Section 27641 of the Government Code, relating to the county counsel."

My objections to this bill are as follows:

This bill would amend Section 27641 of the Government Code which now provides that a county counsel shall be appointed for a four-year term. The amendment would strike this provision and provide that the county counsel shall "serve at the pleasure of the board of supervisors."

The county counsel represents the county and special districts within the county on civil matters. He is obligated to render *objective* legal services on behalf of the people of his county without being subject to being summarily dismissed if his opinions do not concur with those held by a majority of the board of supervisors.

The Legislature, in creating the office of county counsel, wisely adopted a four-year term in order that the independence of the county counsel could be insured. This has been the law since 1941. There is no compelling reason why it should be changed now.

I am, therefore, returning Senate Bill No. 284 without my signature.

Respectfully submitted,

EDMUND G. BROWN, Governor

J. A. BEEK, Secretary of the Senate

Senate Bill No. 284 ordered to the unfinished business file.

SENATE CHAMBER, May 20, 1959

*Hon. Arthur A. Ohnimus*
*Chief Clerk of the Assembly*
*Sacramento*

DEAR SIR: I have been directed to request your honorable body to return to the Senate, Senate Bill No. 621 for further consideration by the Senate.

Very truly yours,

J. A. BEEK, Secretary of the Senate

Above request ordered to the unfinished business file.

35800.1 There is in the Department of Industrial Relations a Division of Housing for the Elderly which shall be responsible for the administration of this act and for enforcing its provisions.

35801 It is the intent of this act to make available to elderly persons of low income decent, sanitary, and safe housing which will enable them to live in dignity, self-respect, and safety as becomes individuals whose labors have helped develop California into a great State The people of the State of California declare:

(a) That it has been found that because of their low income, elderly persons must reside in unsafe and unsanitary accommodations; that there exists in the State a shortage of decent, safe, and sanitary housing accommodations available at rents and purchase prices which such low-income elderly persons can afford to pay; that these unsafe, unsanitary, undesirable dwellings constitute a menace to the health, safety, morals, and welfare of all the residents of the State as well as to elderly persons; that these conditions necessitate excessive and disproportionate expenditures of public funds for public health, safety, fire, and accident prevention, and other public services and facilities; that these conditions tend to depress the elderly person, make him dependent and accelerate physical and mental deterioration which deprive him of self-sufficiency and responsibility and greatly increase the cost to the public for care in public general hospitals and state mental hospitals

(b) That because the unsafe, unsanitary, and undesirable housing occupied by elderly persons of low income cannot be raised or replaced, or the shortage of safe, sanitary, and desirable dwellings be relieved, entirely through the efforts of private enterprise, it is necessary that the construction, development, and acquisition of homes and housing projects for such elderly persons be the co-operative and joint responsibility of private enterprise and public agencies.

(c) That the clearance, replanning, and reconstruction of the areas in which unsafe and unsanitary housing conditions exist and that the provision of safe, sanitary and decent housing accommodations for elderly persons of low income are public uses and purposes, for which public money may be spent and private property acquired, are governmental functions of statewide concern; that it is in the public interest that work on homes and housing projects for the elderly persons of low income be commenced as soon as possible; and that the necessity in the public interest for the provisions of this chapter is declared a matter of legislative determination

## CHAPTER 2. LOANS TO INDIVIDUAL ELDERLY PERSONS OF LOW INCOME

### Article 1. Home Purchase

35820. The provisions of this article are applicable, and the benefits conferred thereby are available to any elderly person of low income.

35821 "Home" means a parcel of real estate upon which there is a dwelling house and such other buildings as will, in the opinion of the division, suit the needs of the purchaser and his dependents as a place of abode.

35822. "Purchaser" means an elderly person of low income who has entered into a contract of purchase of a home from the division.

35823. "Purchase price" means the price which the division pays for any home

35824 "Selling price" means the price for which the division sells any home.

35825 "Initial payment" means the first payment to be made by a purchaser to the division for a home

35826. "Progress payment plan" means payment by the division for improvements on real property in installments as work progresses

35827. The object of this article is to provide elderly persons of low income with the opportunity to acquire homes.

35828. There is in the Department of Industrial Relations a Division of Housing for the Elderly which shall be administered through a chief appointed by the Governor, with the consent of the Senate, to serve at the pleasure of the Governor at a salary to be fixed by the Governor. The administration of this article is vested in the division

35828.1. There is hereby created the Elderly Persons Home Purchase Finance and Advisory Committee, composed of the Governor, State Controller, State Treasurer, Director of Finance, Director of Public Health, Director of Social Welfare, Executive Secretary of the Citizens Advisory Committee on Aging, and the Chief of the Division of Housing for the Elderly, all of whom shall serve without compensation and a majority of whom shall be empowered to act for said committee. This committee shall determine the details for financing the programs developed under this act, such as interest rates and payments, and to set the amount of income which will determine the low-income status of an elderly person It shall also serve the chief of the division in an advisory capacity on all matters relating to the provisions of this act. The Attorney General of the State shall be the legal adviser of the committee.

35829. The division shall determine and prescribe the qualifications of all elderly persons of low income Any person deeming himself eligible for benefits hereunder, shall submit to the division information, in such form as the division prescribes, which will enable the division to determine his eligibility and qualifications. The division may make further inquiries and investigations in order to determine such eligibility and qualifications

35829.5. No elderly person shall be eligible for benefits under this chapter if his probable aggregate annual income exceeds the amount set by the Elderly Persons Home Purchase Finance and Advisory Committee as that which denotes an elderly person of low income The committee shall make provisions for continued occupancy of the dwellings by elderly persons when there is a change in their probable aggregate annual income, unless it is of such an amount as to remove without doubt the elderly persons from being considered as persons of low income

"Probable aggregate annual income," as used in this section, means the annual income, including income from public aid to the aged, of the elderly person and, if he has a spouse and they are living together, his spouse

35829.6. No person shall be eligible for benefits under this chapter unless and until he has filed a financial statement of his total capital assets with the division on a form approved and furnished by the division

35830 If an elderly person of low income dies after filing his application for a home, and his application setting forth his eligibility and qualifications is subsequently approved, the surviving spouse, if such spouse would otherwise be eligible may, in the discretion of the division, succeed to his rights under the application, and may be entitled to the rights, privileges, and benefits under this article that would have been his, but for his death. The contract of purchase which the division otherwise would have made with such person may be made with such spouse.

35831 When an elderly person of low income has been authorized by the division to select a home, he shall submit his selection in such form as the division prescribes

35832 The division may acquire such home from the owner thereof or may contract with an elderly person of low income for the construction of a dwelling house and other improvements for a home, upon the terms agreed if:

(a) The division is satisfied of the desirability of the property submitted

(b) The elderly person of low income has agreed with the division actually to reside on the property within 60 days from the date of purchase by the division, or if the residence on the property is not complete on the date of purchase, within 60 days after the residence is completed.

(c) The sum to be expended by the division pursuant to a contract for the construction of a dwelling house and other improvements does not exceed the sum of fifteen thousand dollars ($15,000).

(d) Where the division is to contract with the elderly person of low income for the construction of a dwelling house and other buildings:

(1) The elderly person of low income is the owner in fee of the real property on which the dwelling house and other buildings are to be constructed and agrees to convey that property to the division without cost.

(2) The elderly person of low income has paid a reasonable fee set by the division to cover the cost of such preliminary service of the division as may be necessary to process the application.

(3) The elderly person of low income has filed with the division adequate plans and specifications for the improvements to be constructed upon said real property, together with a contract, executed by a contractor licensed by the State of California for the construction of said improvements in accordance with said plans and specifications within eight months after the acquisition of said real property by the division, and a bond executed by the contractor providing for compliance with the terms of said contract and for the payment of materialmen and labor furnishing material

or labor on the job, executed by a surety company, authorized to do business in the State of California.

(4) The plans, specifications, contract and bond are approved by the division.

(5) The elderly person of low income has placed in escrow all sums of money to be advanced by him where the cost is in excess of the maximum that may be expended by the division

35833. The purchase price of a home to the division shall not exceed the sum of fifteen thousand dollars ($15,000), and an elderly person of low income purchasing the home may advance the difference between the total price or cost of the home and the sum of the purchase price of the home to the division and any amount the division is required under Section 35837 of this code to add to the purchase price of the home in fixing the selling price thereof to the elderly person of low income.

35834. The division may acquire a home in which the elderly person of low income to whom such home is to be sold has heretofore acquired an interest.

35835. Before the purchase of any property by the division there shall be filed with the division an appraisement of the market value of the property by an employee or an authorized agent of the division, and in addition there may be filed with the division an appraisement of the market value of the property by an authorized appraiser of a banking corporation formed under the laws of this State of a national banking association having a place of business in this State. Each appraisement shall be certified by the maker thereof. The certification shall state that it is made in good faith, and that the valuation is honestly determined and represents the bona fide opinion of the maker.

35836 The division, before consummating a purchase under the provisions of this article, shall cause the title of the property sought to be purchased to be examined and may require for that purpose an abstract, an unlimited certificate of title, or a policy of title insurance, and may refer the same to the Attorney General for his opinion

35837. The division shall then enter into a contract with the elderly person of low income for the sale of the property to such person. The division shall fix the selling price of the property by adding to the purchase price thereof, to the total cost of improvements constructed, or to the value of such property as determined by the division when such property is acquired by the division in a manner other than by purchase, all expenses incurred and estimated to be incurred by the division in relation thereto, inclusive of interest, administration, appraisals, examination of title, incidental expenses, and the sum deemed necessary to meet unforeseen contingencies. In the case of real property acquired from an elderly person of low income for the purpose of constructing improvements thereon, the division shall forthwith after acquiring said real property enter into the contract with such person authorized by this section at a selling price determined by the amount of the contract price for the improvements and any of the other additions herein authorized After the execution of said contract between such person and the division and the making of the initial payment thereon the division shall be authorized to pay the cost of the improvements contracted to be constructed on said real property, making progress payments thereon in such amounts and at such times as the division approves. The division shall upon written request of the elderly person of low income and his contractor have authority to approve additions to or deletions from the improvements contracted to be constructed and any savings affected or added cost incurred shall be deducted from or added to the amount due the division by such person under the terms of his contract.

35838. The purchaser shall make an initial payment of at least 3 percent of the selling price of the property. The division may waive the initial payment in any case where the value of the property as determined by the division appraisal shall equal the amount to be paid by the division, plus at least 5 percent The balance of the purchase price may be amortized over a period fixed by the division, together with interest thereon at the rate as determined by the division for such amortization purposes. The division shall establish the actual interest rate to be paid To his end the division is empowered to establish a uniform rate of interest payable upon the amount remaining unpaid under any purchase contract. The division shall periodically, at least once each year, make a finding as to the rate of interest to be charged, not to exceed 5 percent per annum, taking into consideration the current value of money and the solvency of the fund from which the money for the purposes of this article is derived. The division may raise or lower the rate of interest payable under such contracts for any given period as many times and as frequently as it deems to be for the best interests of the division, as well as the contract holders, if in so doing its action is made applicable alike to any and all contract holders and 90 days' advance notice be given of the time when the new rate of interest is to become effective In no case shall the rate of interest to the elderly person exceed the cost of money to the State plus a fixed margin for overhead and servicing. Any change in the interest rate shall not affect the total amount of any installment payment, but the difference shall be credited to interest or principal and accelerate or prolong the period of payment. The purchaser on any installment date may pay any or all installments still remaining unpaid. In

any individual case the division may for good cause postpone from time to time, upon terms as the division deems proper, the payment of the whole or any part of any installment of the purchase price or interest thereon.

35839. The provisions of Section 35838 relative to the rate of interest to be charged to purchasers do not apply to assignees of such purchasers who are not elderly persons of low income, but as to such assignees the rate of interest shall be as fixed by the division, compounded at periods fixed by the division.

35840. The division in each individual case may specify the terms of the contract entered into with the purchaser, but no property sold under the provisions of this article shall, voluntarily or involuntarily, by operation of law or otherwise, be transferred, assigned, encumbered, leased, let or sublet, in whole or in part, without the written consent of the division, until the purchaser has paid therefor in full and has complied with all the terms and conditions of this contract of purchase.

35841. The contract made between the division and purchaser shall provide that the purchaser maintain the home as his place of residence and keep in good order and repair all buildings, fences, and other permanent improvements situate thereon and that the purchaser, if required, insure and keep insured against fire or other hazards, all buildings, fences, or other permanent improvements on the property, loss, if any, under the policies therefor to be made payable to the division as its interest appears. Insurance shall be in the amount, with the insurance companies, and under the conditions specified by the division.

35842. If the purchaser fails or neglects to pay, satisfy, and discharge at maturity all taxes and assessments, and all other charges and encumbrances which are a lien upon the property being purchased from the division, or any part thereof, and also all taxes and assessments levied or assessed upon the interest created by the contract of purchase of such property; or to keep the buildings, fences, or other permanent improvements upon such property insured and in good order and repair; or to keep in good order and repair all buildings, fences, and other permanent improvements situated upon such property; then, in such event, the division may pay, satisfy, discharge, settle, or compromise the taxes, assessments, charges, or encumbrances, or insure the buildings, fences, or permanent improvements, or do the work and supply the materials necessary to keep the buildings, fences, and other improvements in good order and repair. All moneys so expended by the division shall be added to the selling price of the property and bear interest at the rate of interest designated in Section 35838 from the date of expending the same, and shall be repaid by the purchaser to the division on demand. The division may amortize the repayment of such expenditures or permit repayment in installments upon the terms and conditions which it deems proper. The division may consider a failure on the part of the purchaser to repay money to the division upon demand pursuant to this section to be a default in the contract and upon a 30 days' notice may evict the purchaser.

35843. The division shall be the sole judge of:

(a) The legality or validity of taxes, assessments, charges or encumbrances, and the amount necessary to be paid in satisfaction or discharge thereof.

(b) The amount of insurance to be placed upon the buildings, fences, and other permanent improvements, and the amount necessary to be paid for the premiums for such insurance.

(c) The necessity and nature of the work necessary to keep the buildings, fences, and other improvements in good order and repair, and the amount necessary to be paid therefor.

35844. In the event of a failure of a purchaser to comply with any of the terms of his contract of purchase, the division may cancel such contract, and thereupon be released from all obligations, at law or in equity, to convey the property, and the purchaser shall forfeit all right thereto. All payments theretofore made shall be deemed to be rental paid for occupancy. Upon such forfeiture, the division shall take possession of the property covered by such contract, and shall remove all persons and personal property therefrom without any liability whatsoever on the part of the division or of any official or employee thereof for any damage or injury caused by or incident to the entry or removal. The failure of the division to exercise any option to cancel or to exercise any other privilege under such contract for any default shall not constitute a waiver of the right to exercise such option or privilege for any other default on the part of the purchaser.

35845. In the event of a forfeiture of a contract of purchase under the provisions of this article, the division may sell or otherwise dispose of the property covered by the forfeited contract to such person and upon such terms and conditions as it deems proper.

35846. The division may, in the contract of purchase with an elderly person of low income, provide that, in the event of default by such person and forfeiture of his rights under the contract and subsequent sale of the property by the division, it may pay to him any net gain realized by the division upon the sale. The division is the sole judge of the net gain.

35847. The division may insure and keep insured against fire or other hazards all buildings, fences, or other permanent improvements, situated upon any property which has reverted to and is under the control of the division, or may do the work and supply the materials necessary to keep the buildings, fences, and other improvements situated upon the property in good order and repair. The division may lease or let the property, in whole or in part, upon such terms as it deems proper.

35848. When a purchaser dies, indebted to the division under contract of purchase, the division shall, within six months, enter into a new contract of purchase for the property involved with an elderly person of low income eligible under the provisions of this chapter. If within six months such a contract cannot be entered into, the division may sell or otherwise dispose of the property involved to such person and upon such terms and conditions as it deems proper. In either event, the heirs or devisees of the deceased purchaser shall be paid by the division the cash value of the equity in the property belonging to the purchaser at the date of his death, less the cost of sale of the property to the division and subject to all rights, claims, and charges of the division.

35849. Whenever the money in the Elderly Persons Home Purchase Fund is insufficient to enable the division to aid elderly persons of low income in the acquisition of, or payments for, homes pursuant to this article, the division shall provide for advances of money in the amount determined to be necessary, out of any money appropriated from the General Fund for that purpose. The money so advanced shall be transferred from the General Fund to the Elderly Persons Home Purchase Fund and must be used exclusively in aiding elderly persons of low income in the acquisition of, or payments for, homes in accordance with the provisions of this article. Each such advance shall be made on condition that it be repaid, together with interest at a rate fixed by the Elderly Persons Home Purchase Finance and Advisory Committee, to the General Fund at the earliest possible date, out of the proceeds of the sale of any bonds which may hereafter be authorized to be issued to create a fund to be expended in accordance with the provisions of this article, and on the further condition that in the event such bonds are not authorized, said advances, together with interest at the rate of one and seventy-four one-hundredths percent (1.74%) per annum, shall be returned to the General Fund in the State Treasury from the Elderly Persons Home Purchase Fund within a period of twenty-one (21) years from the effective date of this section.

35850. For the purposes of carrying out the purposes of this article the chief of the division may by executive order authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which have been authorized to be sold for the purpose of carrying out this article, and the amount necessary to carry out this section is hereby appropriated without regard to fiscal years. Any amounts withdrawn shall be deposited in the Elderly Persons Home Purchase Fund. Any moneys made available under this section to the division shall be returned to the General Fund in such amounts as may be received by the division from the sale of bonds sold for the purpose of carrying out this article, together with interest at the rate of interest fixed in the bonds so sold.

35851. The division shall prescribe by regulation a priority system in the consideration of applications for aid under this article, which system shall provide for prior consideration to applications on a basis of a determination of need.

35852. The right to declare a forfeiture for breach of a condition contained in any deed to real property may not be enforced as against the interest of the division in said real property or any portion thereof.

## Article 2. Funds

35870. There is in the State Treasury a revolving fund known as the Elderly Persons Home Purchase Fund. All moneys deposited in such fund shall be subject to the provisions of this article. Money may be withdrawn from such fund in accordance with law upon requisition of the division.

35871. The money paid by purchasers shall be deposited in the fund and be available for the purpose of carrying out the provisions of this article.

35872. Out of any money available in the fund, the division may advance to any purchaser upon his application, and under such policies as the division may, from time to time, prescribe, sums for the purpose of paying taxes and assessments, or making permanent improvements, or keeping in good order or repair, or for painting, redecorating or remodeling, all buildings, fences or other permanent improvements on, or the insuring against fire or other hazards, any building, fence or other permanent improvements on the property being purchased from the division, or the division may advance to any such purchaser moneys actually expended in so doing.

All the money advanced to a purchaser by the division shall be added to the deferred principal of the purchaser's account and bear interest at the same rate and shall be repaid by the purchaser to the division under such conditions as it may prescribe.

The money advanced may, in the discretion of the division, be in addition to the maximum purchase price of a home as limited by the provisions of Section 35833 of this code.

The division shall be the sole judge of the need and desirability of making such advances.

35873. The division is hereby authorized to provide for advances of money needed to meet contingent expenses, to such an amount not exceeding eighty-five thousand dollars ($85,000), as the said division shall deem necessary, and to provide for advances of money needed to carry out the provisions of this chapter, to such an amount not exceeding eighty-five thousand dollars ($85,000), as the division may deem necessary, such advances to be administered as revolving funds The State Controller is hereby authorized and directed to draw his warrants upon the Elderly Persons Home Purchase Fund for such advances, and the State Treasurer is hereby authorized and directed to pay the same.

35874. The division is empowered to accept, and use for the purposes of this chapter, gifts, donations, and contributions from public and private sources. Such moneys shall be deposited in the Elderly Persons Home Purchase Fund.

35875. The division is empowered to accept contributions from the Federal Government whenever the Congress of the United States shall authorize such contributions Such moneys shall be deposited in the Elderly Persons Home Purchase Fund to be used for the purposes of this chapter.

Article 2. State Aid

35940. The chief of the division may, in the name of the State, enter into contracts for loans to any housing authority, limited dividend housing corporation, land chest corporation, or nonprofit corporation for one or more projects, whether or not such project or projects have received or will receive aid from another source. All such contracts shall be subject to the approval of the Attorney General as to form. Any such loan shall be in such amount as the chief of the division may deem necessary to insure the completion of the project. No loan shall be made in an amount greater than the total project cost, including working capital, which shall not exceed 2 percent of the total project cost

35941. No loan shall be made pursuant to this article unless the chief of the division finds that:

(a) The project is in conformity with a plan.

(b) The city, county, or city and county in which the project is to be located has enacted zoning regulations, or other restrictions adequately protecting the area or areas in which the project is to be undertaken, against future uses likely to depreciate unduly the value of such project.

(c) The estimated revenues, including any grants from the United States, of the project or part thereof for which such loan is to be made will be sufficient to cover all probable costs of operation and maintenance, or fixed charges and operating and depreciation reserves.

(d) The plans and specifications conform or will conform to all requirements of law and of the plan assuring adequate light, air, sanitation and fire protection, and other needed services.

(e) Adequate open spaces for recreation are provided within the project or provision therefor has been made conveniently near the project.

35941.5. All contracts for loans shall include a requirement that the entity to which the loan is made shall rent the dwellings in the project for which the loan is made exclusively to elderly persons of low income whose probable aggregate annual income, including income from public aid to the aged, during the period of occupancy does not exceed the amount established by the Elderly Persons Home Purchase Finance and Advisory Committee; nor shall the rental charged the elderly person exceed 25 percent of his probable aggregate income.

"Probable aggregate income," as used in this section, means the annual income, including income from public aid to the aged, of the elderly person and, if he has a spouse and they are living together, his spouse.

35941.6. All contracts for loans shall include a provision that the entity to which the loan is made shall, prior to renting any dwelling in the project for which the loan is made, to any elderly person of low income, require such person to file a financial statement of his total capital assets with the entity to which the loan is made and with the division upon forms to be approved and furnished by the division.

35942 Loans shall be made at the rate of interest paid or to be paid by the State for the funds loaned, plus a proportionate share of the actual direct cost of the borrowing and the costs of administration of this chapter Loans shall be repaid in equal annual installments over or within a period of 50 years, but in no case to exceed the probable life of the buildings and improvements of the project or part thereof to which the proceeds thereof are to be applied.

35943 The property of projects receiving aid pursuant to this chapter, except the property of projects of limited dividend housing corporations and land chest corporations, is exempt from all taxes and special assessments of the State or any city, county, city and county, or political subdivision of the State.

Article 3. Funds

35970. There is in the State Treasury a revolving fund known as the Elderly Persons Low Rent Housing Fund. All moneys deposited in such fund shall be subject to the provisions of this article. Money may be withdrawn from such fund in accordance with law upon requisition of the division.

The State Controller is hereby authorized and directed to draw his warrants upon the Elderly Persons Low Rent Housing Fund for such advances, and the State Treasurer is hereby authorized and directed to pay the same.

35973. The division is empowered to accept and use for the purposes of this chapter, gifts, donations and contributions from private and public sources. Such moneys shall be deposited in the Elderly Persons Low Rent Housing Fund.

35974. The division is empowered to accept contributions from the Federal Government whenever the Congress of the United States shall authorize such contributions. Such moneys shall be deposited in the Elderly Persons Low Rent Housing Fund to be used for the purpose of this chapter.

Article 4. Elderly Persons Low Rent Housing Bond Act of 1959

35990. This article may be cited at the Elderly Persons Low Rent Housing Bond Act of 1959.

35991. For the purpose of creating a fund to provide aid for projects in accordance with the provisions of this chapter, the Elderly Persons Low Rent Housing Finance and Advisory Committee created by this article shall be and it hereby is authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the manner and to the extent hereinafter provided, but not otherwise, nor in excess thereof.

35992. After the adoption of any resolution by the Elderly Persons Low Rent Housing Finance and Advisory Committee hereby created, provided for in Section 36000, the State Treasurer shall prepare the requisite number of suitable bonds of the denomination of one thousand dollars ($1,000) in accordance with the specifications contained in such resolution. The aggregate par value of all bonds issued under this article shall not exceed the sum of sixty-six million dollars ($66,000,000), and the bonds issued under any such resolution shall bear interest from the date of issuance of said bonds to the date of maturity thereof, at a rate to be determined by the said committee and specified in such resolution, but in no case exceeding 5 percent per annum. Both principal and interest shall be payable in lawful money of the United States, at the office of the State Treasurer, or at the office of any duly authorized agent of the State Treasurer, and shall be so payable at the times specified in said resolution or resolutions

All bonds issued under this article shall bear the facsimile signature of the Governor and the facsimile countersignature of the Controller and shall be endorsed by the State Treasurer either by original signature or by a signature stamp adopted for each particular bond issued under this article and the bonds shall be signed, countersigned and endorsed by the officers who shall be in office on the date of issuance thereof, and each of said bonds shall bear an impress of the Great Seal of the State of California. The bonds so signed, countersigned, endorsed and sealed, when sold, shall be and constitute a valid and binding obligation upon the State of California, although the sale thereof be made at a date or dates upon which the officers having signed, countersigned and endorsed said bonds, or any or either of said officers, shall have ceased to be the incumbents of the offices held by them at the time of signing, countersigning, or endorsing said bonds. Each bond issued under this article shall contain a clause or clauses stating that interest shall cease to accrue thereon from and after the date of maturity thereof and referring to this article and to the resolution of the Elderly Persons Low Rent Housing Finance and Advisory Committee by virtue of which said bond is issued.

35993. The requisite number of suitable interest coupons, appropriately numbered, shall be attached to each bond issued under this article. Said interest coupons shall bear the facsimile signature of the State Treasurer who shall be in office on the date of issuance of the bond to which said coupons pertain.

35994. All bonds issued under this article and sold shall be deemed to have been called in at their respective dates of maturity and the State Treasurer shall, on the respective dates of maturity of said bonds, or as soon thereafter as said matured bonds are surrendered to him, pay the same out of the proceeds of the Controller's warrants drawn in his favor as provided in Section 35995 and perforate the bonds so paid with a suitable device in a manner to indicate such

payment and the date thereof. He shall also, on the said respective dates of maturity, cancel all bonds bearing said dates of maturity and remaining unsold, by perforation with a suitable device in a manner to indicate such cancellation and the date thereof The provisions of this section shall be applicable also to the interest coupons pertaining to the bonds authorized by this article to be issued, and shall be applicable, as far as practicable, to any duly authorized agent of the State Treasurer

35995 There is hereby appropriated from the General Fund in the State Treasury such sum annually as will be necessary to pay the principal of and interest on the bonds issued and sold pursuant to the provisions of this article, as said principal and interest become due and payable.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the State, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collections of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of said principal and interest in each fiscal year, there shall be returned into the General Fund in the State Treasury, all of the moneys in the Elderly Persons Low Rent Housing Fund, not in excess of the principal of and interest on the said bonds then due and payable and, in the event of such moneys so returned on said dates of maturity being less than the said principal and interest then due and payable, then the balance remaining unpaid shall be returned into the General Fund in the State Treasury out of said fund as soon thereafter as it shall become available, together with interest thereon, from such dates of maturity until so returned, at the rate of 5 percent per annum, compounded semiannually.

Both principal and interest of said bonds shall be paid when due upon warrants duly drawn against said appropriation from the General Fund by the Controller of the State in favor of the State Treasurer or in favor of any duly authorized agent of the State Treasurer, upon demand audited by the State Department of Finance, and the moneys to be returned into the General Fund in the State Treasury pursuant to the provisions of this section shall likewise be paid as herein provided upon warrants duly drawn by the Controller of the State upon demands duly audited by the division.

35996 The sum of seventy-five thousand dollars ($75,000) is hereby appropriated out of any money in the State Treasury not otherwise appropriated to pay the expenses that may be incurred by the State Treasurer in having said bonds prepared and in advertising their sale. Said amount shall be refunded to the General Fund in the State Treasury out of the Elderly Persons Low Rent Housing Fund on Controller's warrant duly drawn for that purpose.

35997. When the bonds authorized to be issued under this article shall be duly executed, they shall be by the State Treasurer sold at public auction to the highest bidder for cash, in such parcels and numbers as the said Treasurer shall be directed by the Governor of the State, under seal thereof, after a resolution requesting such sale shall have been adopted by the Elderly Persons Low Rent Housing Finance and Advisory Committee and approved by the Governor of the State, but the Treasurer must reject any and all bids for said bonds, or for any of them, which shall be below the par value of said bonds so offered plus the interest which has accrued thereon between the date of sale and the last preceding interest maturity date, and with the approval of the Governor, he may from time to time, by public announcement at the place and time fixed for the sale, continue such sale, as to the whole of the bonds offered, or any part thereof offered, to such time and place as he may select. Before offering any of said bonds for sale the said Treasurer shall detach therefrom all coupons which have matured or will mature before the day fixed for such sale.

35998 Due notice of the time and place of sale of all bonds shall be given by said Treasurer by publication in one newspaper published in the City and County of San Francisco and also by publication in one newspaper published in the City of Sacramento and by publication in one newspaper published in the City of Los Angeles once a week during four weeks prior to such sale. In addition to the notice last above provided for, the State Treasurer may give such further notice as he may deem advisable, but the expense and cost of such additional notice shall not exceed the sum of one thousand dollars ($1,000) for each sale so advertised. The proceeds of the sale of such bonds and such amount as may have been paid as accrued interest thereon shall be forthwith paid over by said Treasurer into the Elderly Persons Low Rent Housing Fund which is hereby appropriated for, and shall be used exclusively in, aiding elderly persons of low income in accordance with the provisions of this chapter; provided, that the proceeds from the sale of said bonds may be used to pay the debt created by the issuance and sale thereof

35999 The division is authorized to invest any surplus moneys in the Elderly Persons Low Rent Housing Fund in bonds of the United States, or of the State of California, or of the several counties or municipalities or other political subdivisions of the State of California, and to sell such bonds, or any of them, at the governing market rates; or the division may invest moneys in such fund, in interest-bearing

certificates of deposit of state banks having a paid-up capital of five hundred thousand dollars ($500,000) or more; provided, that the total amount of money so deposited with any one bank shall not exceed a sum equal to 50 percent of the paid-up capital of such bank; provided, however, that nothing therein contained shall inhibit or be construed to inhibit the depositing in banks in accordance with the provisions of an act entitled "An act to authorize and control the depositing in banks of moneys belonging to or in the custody of the State and to repeal all acts or parts of acts conflicting with this act," approved April 12, 1923, and of any and all acts amendatory thereof or supplemental thereto, of moneys of any of the funds provided for in this chapter.

Interest accruing upon the deposit of moneys of the Elderly Persons Low Rent Housing Fund shall be paid into and credited to said fund

36000. There is hereby created the Elderly Persons Low Rent Housing Finance and Advisory Committee composed of the Governor, State Controller, State Treasurer, Director of Finance, Director of Public Health, Director of Social Welfare, the Executive Secretary of the Citizens Advisory Committee on Aging, and the Chief of the Division of Housing for the Elderly, all of whom shall serve thereon without compensation and a majority of whom shall be empowered to act for said committee. This committee shall determine the details for financing the programs developed under this act, such as interest rates and payments, and to set the amount of income which will determine the low-income status of the elderly person; it will also serve the chief of the division in an advisory capacity on all matters relating to the provisions of this act. The Attorney General of the State shall be the legal adviser of the committee.

Upon request of the chief of the division, supported by a statement of the plans and projects with respect thereto, the committee shall determine whether or not a bond issue under this article is necessary or desirable to carry such plans and projects into execution

36001. Whenever the said Elderly Persons Low Rent Housing Finance and Advisory Committee shall have determined that a bond issue under this article is necessary or desirable to carry such plans and projects into execution, it shall adopt a resolution to this effect. The said resolution shall authorize and direct the State Treasurer to prepare the requisite number of suitable bonds and shall specify:

1. The aggregate number, aggregate par value, and the date of issuance of the bonds to be issued.

2. The date or dates of maturity of the bonds to be issued and the number and numerical sequence of the bonds maturing at each date of maturity

3. The annual rate of interest which the bonds to be issued shall bear.

4. The number, numerical sequence, amount or amounts and the dates of maturity of the interest coupons to be attached to the said bonds.

5. The technical form and language of the bonds to be issued and of the interest coupons to be attached thereto.

In determining the date or dates of maturity of the said bonds and the amount of bonds maturing at each date of maturity, the committee shall be guided by the amounts and dates of maturity of the revenues estimated to accrue to the department from the transactions to be financed by each issue, and shall fix and determine said dates and amounts in such manner that, together with the dates and amounts of interest payments on the said bond issue, they shall coincide, as nearly as practicable, with the dates and amounts of such estimated revenues; provided, that the bonds first to mature in each issue, shall mature not later than five years from the date of issuance thereof, provided further, that specified numbers of bonds of specified numerical sequence shall thereafter mature at annual intervals; and provided further, that the bonds last to mature in each issue shall mature not later than 45 years from the date of issuance thereof.

The rate of interest to be borne by the bonds shall be uniform for all the bonds of the same issue and shall be determined and fixed by the committee according to the then prevailing market conditions, but shall in no case exceed 5 percent per annum, and the determination of said committee as to the rate of interest shall be conclusive as to the then prevailing market conditions. The interest coupons to be attached to the said bonds shall be payable at semiannual intervals from the date of issuance of said bonds; provided, that the interest coupon first payable may, if the committee shall so determine and specify, be payable one year after the date of issuance of said bonds

36002. All actual and necessary expenses of the Elderly Persons Low Rent Housing Finance and Advisory Committee and of the members thereof incurred in the performance of their duties arising out of the provisions of this article shall be paid out of the Elderly Persons Low Rent Housing Fund, upon approval of the State Board of Control and on Controller's warrant duly drawn for that purpose.

36003. The State Controller, the State Treasurer and the Elderly Persons Low Rent Housing Finance and Advisory Committee shall keep full and particular account and record of all their proceedings under this article, and they shall transmit to the Governor an abstract of all such proceedings thereunder, with an annual report, to be by the Governor laid before the Legislature biennially; and all books

and papers pertaining to the matter provided for in this article shall at all times be open to the inspection of any party interested, or the Governor, or the Attorney General, or a committee of either branch of the Legislature, or a joint committee of both, or any citizen of the State."

PART 4. AID TO COMMERCIAL AND AGRICULTURAL BUSINESS

CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS

18000. This part may be cited as the Small Business Aid Act

18001. (a) The essence of the American economic system of private enterprise is free competition. Only through full and free competition can free entry into business and opportunities for the expression and growth of personal initiative and individual judgment be assured. The preservation and expression of such competition is basic, not only to the economic wellbeing, but to the security of this State. Such security and wellbeing cannot be realized unless the actual and potential capacity of small business is encouraged and developed. It is the declared policy of the Legislature of the State of California that this State should aid, counsel, assist and protect insofar as it is possible, the interest of small business concerns in order to preserve free competitive enterprise and to maintain and strengthen the over-all economy of the State.

(b) It is the declared policy of the Legislature of the State of California that the State should aid and assist victims of floods and other catastrophes.

(c) Research is a major factor in the growth and progress of the commercial and agricultural economies of the State. The expense of carrying on research programs is beyond the means of many small business concerns, and such concerns are unable to obtain the benefits of research programs conducted at the expense of the Federal Government. These small business concerns are thereby placed in a competitive disadvantage, weakening the competitive free enterprise system. It is the policy of the Legislature of the State of California that assistance be given to small business concerns to enable them to undertake and obtain the benefits of research in order to maintain and strengthen the competitive free enterprise system.

18002. As used in this part:

(a) "Division" means the Small Business Aid Division.

(b) "Director" means the Director of the Small Business Aid Division.

(c) "Board" means the State Board of Equalization.

(d) "Small Business" means any farming operation or business concern which is independently owned and operated, which is not dominant in its field of operation, and which has an annual gross income of one million dollars ($1,000,000) or under.

CHAPTER 2. ADMINISTRATION

## CONSIDERATION OF HOUSE RESOLUTION NO. 151

By Mr. Hanna:

### House Resolution No. 151

Relative to a study of the costs of education to be conducted by the Superintendent of Public Instruction

WHEREAS, While the Legislature is primarily interested in making available the highest possible quality of education in the public schools of the State, it also has the duty of ascertaining that the cost of education is reasonable when related to the results produced; and

WHEREAS, The Superintendent of Public Instruction has been encouraging school districts to organize the seventh and eighth grades on a "departmentalized" basis so that the pupils change rooms for certain instructional periods; and

WHEREAS, The state maximum requirement of 75 square feet of room space for each pupil and 20 acres ground space for each junior high school has been adopted for all practical purposes as the minimum requirement in this State; and

WHEREAS, The requirement of departmentalization and size extensions as mentioned herein has resulted in the following increases in cost of operation, to wit:

A. Increase in maintenance and upkeep cost of both interior and exterior of buildings and upon grounds surrounding them

B. Increase in cost of certified personnel per pupil calculated on the average of 1 to every 25 pupils in junior high schools as in contrast to 1 to every 32 pupils in elementary schools.

C. Increase in administrative cost per pupil.

D. Increase in transportation for greater area served; and

WHEREAS, These additions result in an average daily attendance cost substantially higher for junior high schools than for self-contained elementary schools, which costs presently must be met by robbing average daily attendance support in grades kindergarten to sixth or by increasing local taxation above present set limits; now, therefore, be it

*Resolved by the Assembly of the State of California*, That the Assembly hereby requests the Superintendent of Public Instruction to report to the Legislature at its 1961 Regular Session, within five days after the convening thereof, on the following matters:

(a) Whether the education provided for seventh and eighth grade pupils by the departmentalized system is superior to that provided by the self-contained classroom system.

(b) If so, whether the degree of superiority of the departmentalized system is great enough to justify the excess cost of maintaining such a system

(c) If so, the recommendations of the Superintendent of Public Instruction setting forth the methods of raising additional state and local funds to finance the additional cost entailed in substituting the departmentalized system for the self-contained classroom system of educating seventh and eighth grade pupils, including the needs of the State for such a substitution on a statewide basis, and the changes which would be required in the present state and local tax structure to finance the more expensive system; and be it further

*Resolved*, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the Superintendent of Public Instruction.

Resolution read, and adopted.

*God Our Father,* Be in this day and in the fleeting hours of its passing; be in our awareness that after this week only three more weeks remain in this legislative session; be in our honest appraisal of work remaining to be done. Be in our personal acceptance of responsibility for the things to which we have aspired and failed, that we blame not the political party to which we do not belong, or the Senate across the hall, or pressure from outside forces Be in our firm purpose to serve our State in the remaining days of this Assembly. God, be in our expression of loyalty to our Nation, now in mourning for a great public servant, John Foster Dulles, as we pledge allegiance to our Country's Flag.—AMEN.

### PLEDGE OF ALLEGIANCE TO THE FLAG

THE NATIONAL BOARD OF FIRE UNDERWRITERS
SAN FRANCISCO, May 22, 1959

*Hon. Jack A. Beaver*
*State Capitol, Sacramento*

DEAR MR. BEAVER: In discussing Senate Bill No. 675, as amended on May 20, you raised the question as to whether or not this bill would have any effect upon loss by fire if the fire originated in a reactor.

The authors of the bill intend to make clear to the insuring public that the Standard Fire Insurance Policy of California does not furnish coverage against nuclear reaction, nuclear radiation or radioactive contamination and that such loss is not part of the fire loss. Under this bill, however, loss by fire remains unchanged whether the fire originates in a reactor or elsewhere.

Sincerely,

W. F. WILLIAMS

CHAPTER 6. SAN FRANCISCO BAY AREA REGIONAL PLANNING DISTRICT

Article 1. Short Title

66500. This chapter may be cited and shall be known as the San Francisco Bay Area Regional Planning Law.

Article 2. Declaration of Policy

66501. The Legislature finds and declares that the people of California have a fundamental interest in the orderly development of the metropolitan regions of the State in which large segments of the State's population are concentrated.

66502. The Legislature further finds and declares:

(a) That the State has a positive interest in the preparation and maintenance of a long-term general plan for the physical development of each of the State's metropolitan areas that can serve as a guide to state departments and divisions that are charged with constructing state-financed public works within such metropolitan areas.

(b) That continuing growth of the State, and particularly, metropolitan areas within the State, present problems which are not confined to the boundaries of any single county or city.

(c) That the planning activities of counties and cities can be strengthened and more effectively performed when conducted in relation to studies and planning of a metropolitan regional character.

(d) That the San Francisco Bay area, by reason of its numerous governmental jurisdictions, its irregular topography, and its location around a large body of water, presents special regional problems of physical development which can best be dealt with by a regional planning agency suited to that area rather than an agency created under general law.

(e) That the Counties of Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano and Sonoma together form a metropolitan region well-adapted to unified consideration as a regional planning area.

(f) That in order to assure, insofar as possible, the orderly and harmonious development of the Bay area, and to provide for the needs of future generations, it is necessary for the people of the metropolitan Bay area community to develop a means of studying, forecasting, and planning for the physical growth and development of the nine-county region, which purpose may be best achieved by the establishment of a regional planning agency for the San Francisco Bay area.

Article 3. Definitions

(b) A statement of the major objectives, principles and standards expressed in the plan, and a summary of major proposals;

(c) Recommendations for the most desirable general arrangement of land use within the region, considered in respect to: trends in economic and population growth and development; the activities carried on within the region; the interrelationship between various activities; the habits, traditions, and living standards of the people within the region; the governments of the region; conditions of geology, topography, climate, bodies of water, and other relevant natural or environmental factors; the aesthetic characteristics, both naturally-existing and man-created, which affect the physical attractiveness and beauty of the region as a whole; and any other studies that may appear relevant to the board.

(d) The transportation system recommended for the region, including major routes and stations of transit; streets and highways (including bridges) of metropolitan importance; parking, trucking routes and terminals, ports, air terminals, and railroad lines and stations of metropolitan importance; and other facilities for the transportation of people and goods of metropolitan importance or regional concern.

(e) Recommendations concerning the need for and proposed general location of metropolitan facilities and reservations which by the nature of their function, size, extent or for any other causes appear to the regional planning board to be appropriate subjects for inclusion in the regional plan.

(f) Recommendations concerning the space resources of the region, that is, those major areas which, in the opinion of the regional planning board, should be carefully conserved, or which are so especially suited to some particular use as to render it contrary to the best interests of the metropolitan community that they be developed for any other use. Such areas may include, without limiting the generality of the foregoing, areas especially suited for industrial purposes; areas especially suited for recreational purposes; areas especially suited for agricultural purposes; areas especially suited for any combinations of the purposes above-listed; and areas best left in an undeveloped or relatively undeveloped state.

### PRAYER

*O God, Ruler of Creation,* Rule firmly in the hearts of all lawmakers. We have seen nations destroyed for want of authority, or perish when evil forces took control, we have seen multitudes abandoning themselves to whatever authority would claim and protect them, for they had no center of authority within themselves. Make us to be men who can live without external authority, which on one hand relieves of responsibility and on the other hand provides a ready defense against change to a better way. Grant, O God, that the true center and government of our world, as of ourselves, may be in Jesus Christ, of whom it was once said, "He taught them as one who had authority"—AMEN.

3081.02. A real property loan broker within the meaning of this article is a real estate broker who for compensation payable by a borrower or lender, either directly or indirectly, or from the proceeds of a loan, negotiates or solicits a prospective borrower or lender, for the purpose of negotiating a loan to be secured by real property; or who in this State as principal or agent engages in the business of buying, selling or exchanging promissory notes, secured by mortgages or deeds of trust on real property, or makes collateral agreements for buying and selling or for the performance of services in connection with said mortgages and deeds of trust, and who engages in such activities as a main or principal business or vocation or maintains a regular place of business where the public may sell, purchase or exchange such promissory notes.

## EXPLANATION OF ABSENCE ON MAY 25TH AND 26TH

May 27, 1959

Due to illness, a case of influenza, I was absent part of Monday and Tuesday, May 25th and 26th. On Monday morning, while en route to the Capitol from San Mateo, I had a running nose in addition to all of the other uncomfortable symptoms To complicate matters, each time I blew my nose, it would bleed profusely. Consequently, it required several hours with the long interruptions caused by nosebleeds for me to travel to the Capitol, and I missed Monday morning's session. In spite of this illness, I was present and attended my duties, including attending my committee meeting and presenting my bills scheduled for that date, and eventually left my office after 7 p.m

On Tuesday, I remained in bed all day with the exception of making several telephone calls concerning important legislative business. At 6 p.m. I left my bed and went to the Capitol for the particular purpose to prepare for the presentation of my bills, Assembly Bills Nos. 2249 to 2253, inclusive, which were scheduled to be heard by the Committee on Criminal Procedure at 8 p.m. After the meeting adjourned about midnight, I returned to my office and worked until almost 2 a.m.

Other changes will not be made; in these grant us graceful acceptance Help us to sort out the wheat from the chaff, and so to plant the wheat that we shall be gladdened by the hope of another harvest in some future legislative season. The last word has not been spoken. There will be another day and still another. We do not suggest that every action has been completely wise but we do pray that the foundations laid may support the future, and that we may be found serving our generation and Thine eternal purposes.—AMEN.

CITIZENS LEGISLATIVE ADVISORY COMMISSION
SACRAMENTO, May 21, 1959

*To the California Legislature, 1959*
*Regular (General) Session, and*
*To the Joint Committee on Legislative Organization*

In re: Citizens Legislative Advisory Commission
Report and Recommendations, May, 1959

GENTLEMEN: The Citizens Legislative Advisory Commission existing and operating under and pursuant to the provisions of Section 9134 of

the Government Code herewith reports certain findings and recommendations as a result of activities culminating in the commission meeting of May 6, 1959. Attached hereto and incorporated herein are recommendations dealing with legislative committees and legislative aids and research services approved by the commission at said meeting.

Reference is made to the earlier reports of our commission, which are contained in the Assembly Daily Journal for May 14, 1957, and the Assembly Daily Journal for March 5, 1958. The recommendations made in these earlier reports still are effective, except for supplemental matters covered in the present report. Many of our earlier recommendations have already been made operative by the Legislature or by the electorate, and we are of the opinion that substantial benefits have accrued as a result of the changes thus made. Outstanding, of course, is the substantial change in procedure resulting from the adoption by the electorate at the November, 1958, election of Proposition No. 9 which eliminated the constitutional recess and lengthened the General Session.

In connection with recommendations now submitted dealing with suggested changes in the procedures and rules of legislative committees, these recommendations, in a large measure result from an extensive study recently made at our request by the Bureau of Public Administration, University of California at Berkeley, on the subject of California legislative committee organization and procedures. Copies of the report of this study are contained in our files and are available for your use. It is believed that if the recommendations as to committee organization and procedures transmitted herewith are placed in effect by the Legislature, substantial improvement in the committee operation can be achieved.

The recommendations dealing with legislative aids and research services are the result of a continuing study by our subcommittee on these matters, and by our staff, instituted when the commission was first organized early in 1957. Present recommendations deal with augmentation of the services of the Legislative Reference Library, the creation of a separate research office, and establishment of procedures in connection with continuity in the employment of secretarial, administrative, and research staff.

As a result of the adoption this year by the Legislature, and enactment into law of Assembly Bill No. 718, this commission will continue in existence, and its subcommittees and staff will be reviewing and giving further study to certain subjects delineated at the end of the accompanying recommendations. One of these, the matter of conflicts of interests of legislators and the possibility of recommending a code of ethics for legislators, has been a matter of extensive review and study and many subcommittee meetings have been held for the consideration thereof. There is much diversity of opinion on this subject, and after considering a report of the subcommittee concerning the same, our commission at its meeting on May 6, 1959, submitted the matter back to the subcommittee for further consideration and report. New matters, arising from this session, submitted for consideration in the future months, will be welcome.

The commission now contains 67 members, representative of leading organizations in the State, including business, labor, the professions, the press, and civic groups. This year three new members have been added: Mr. Fred Hall, Mr. Wallace Henderson, and Mr. Adrian McCalman. All members have served without compensation, their efforts being made as a contribution to good government. They consider it an honor and a pleasure to have the opportunity to assist and advise the Legislature on possible improvements in procedures and staffing.

The commission has continued to be well-served by staff assistants made available through the Joint Committee on Legislative Organization. Dr. Ernest A. Engelbert, who has served as our secretary, and who has done much of the organizational development of the studies required, has been invaluable to us and we are especially appreciative of his help.

Additional copies of the accompanying recommendations are available on request to the Joint Committee on Legislative Procedures.

Very truly yours,

MAX EDDY UTT, Chairman

## REPORT OF CITIZENS LEGISLATIVE ADVISORY COMMISSION TO JOINT COMMITTEE ON LEGISLATIVE ORGANIZATION

### Findings and Recommendations Dealing With Legislative Committees

At the request of the Citizens Legislative Advisory Commission, a report was prepared by the Bureau of Public Administration, University of California, Berkeley, on California legislative committee organization and procedures. This excellent study, completed by Dr. Jay Doubleday in 1958, has served as the basis of much information leading to the following findings and recommendations.

#### Number of Standing Committees

Standing committees are indispensable to the effective functioning of the modern legislature. The California Senate is currently organized into 21 standing committees and the Assembly into 27 standing committees. In both houses committees are organized on the basis of subject matter which has resulted in similar though not parallel committees in each house.

It is difficult to determine what is the optimum number of standing committees for the California Legislature. Much depends upon the size of the committees which are established and the relative distribution of the workload. The number of standing committees in California does not appear to be out of ratio with other large states. Moreover, in recent years the California Legislature has made some progress toward the reorganization of committee structure.

This commission, however, finds quite an uneven distribution of workload between the standing committees in each house. It believes that improvements in the legislative process will result if the number of committees are kept to a minimum. By keeping standing committees to a minimum number consonant with legislative needs, the importance of each committee is demonstrated, greater simplicity in legislative organization results, and public understanding of legislative operations is facilitated. *We, therefore, recommend that both the Senate and*

*Assembly move toward some reduction in the number of committees and at the same time plan a more equalized distribution of committee workload.*

### Standing Committee Size and Assignments

The average size of Senate standing committees for the legislative years 1957-58 was 9.6 members and of Assembly committees 13.7 members. Assembly committees ranged in size from 6 to 28 members, Senate committees from 5 to 13 members. Most Senators serve on five or six committees and most Assemblymen on four or five committees.

Careful review of the way in which standing committees operate points to the desirability of some changes in committee size and assignment. The number of committee assignments per member occasionally results in conflicts in schedules and other interference with committee attendance. For instance, during the current session 14 conflicts per week are scheduled in the Assembly. Some of the committees appear too large for optimum committee deliberation. Considerable imbalance exists between committee workloads and the workloads of individual members.

We support the progress that has been made in recent years toward the improvement of committee structure. *We recommend, however, that both the Senate and the Assembly should consider further the reduction of the size of some standing committees as well as the reduction of the committee assignments of some legislative members.*

### Standing Committee Procedures

The most important consideration of legislation takes place within standing committees It is, therefore, essential that committee procedures be conducted on an orderly and systematic basis.

In recent years the regularized scheduling of committee meetings and public notice of committee hearings has been much improved in both the Senate and Assembly. Committee hearings are, in general, responsibly conducted with fair treatment accorded to both legislative authors and witnesses Further investigation, however, shows that some desirable changes are still in order and therefore the committee makes these recommendations:

(1) *Greater effort should be made by standing committees to group bills by subject matter and hear related bills together at the same hearing. This should lead to more efficient use of committee time and better consideration of related policies.*

(2) *Corresponding committees of the two houses should hold more joint hearings, after which the committees should meet separately to take action. The responsibility for chairing joint hearings could be rotated between the chairmen of the two committees. Joint hearings will save the time of legislators, administrative officials, and other persons who appear.*

(3) *The staff work in connection with the preparation of legislation for some committees should be improved. Committees with heavy workloads should have staff assistance available for the purpose of correlating bills and bill schedules, for helping with the organization of committee hearings, and the maintenance of records.*

(4) *A better system of record keeping by standing committees should be instituted. Consideration should be given to the preparation of brief statements on major bills together with a list of persons who appeared*

*for and against bills. Committee records should be filed at the close of each session with an official records keeping agency in each house, the records to be available for legislative and public perusal.*

(5) *Committees should request executive departments to transmit written reports on bills which affect their organization or program. Where the agency has not taken a position on a bill, the report could be limited to a statement of facts. These reports would greatly aid the committees in their analysis of legislation.*

**Interim Committee Organization and Procedure**

In the past two decades the Legislature has vastly expanded its use of single-house and joint interim committees for investigation of problems of legislative concern. Ninety-five committees were authorized at the 1957 Legislative Session, as compared with 35 created in 1937.

Since 1951 the Assembly has followed the procedure of constituting its standing committees as interim committees, rather than creating special committees as the Senate does. This procedure has the important advantage of providing for consideration of legislation by the same Members of the Assembly as has studied its subject matter.

As of June, 1958, the average Assemblyman was serving on approximately six full committees and six subcommittees, the average Senator was serving on eight full committees. However, in both houses there was wide variation in the number of interim committee assignments of members

The procedures for conducting interim committees have varied greatly depending upon the subject under review and the purposes for which the committees were established Some committees employ expert staff, carefully develop a program of investigation, and systematically hold hearings, while others have operated in a highly nonregularized fashion.

Since interim committees are now spending close to two million dollars per interim, the public has a right to expect high standards of committee performance. We therefore, recommend that the following steps be taken to improve interim committee procedures:

(1) *Wherever possible the Legislature should employ joint interim committees in order to avoid duplication as between the two houses. Joint interim committees would provide common factual basis for action and facilitate agreement on legislation during the session.*

(2) *Where separate interim committees of each house are established, the use of joint hearings should be expanded.*

(3) *Continued effort needs to be made to co-ordinate and control interim committee operations. Primary responsibility for the solution of this problem must rest with the Rules Committees and the leadership of both houses. Through their power of approving resolutions creating committees, of approving appropriations, and, in certain cases, of approving staff appointments, the Rules Committees can improve performance of committees greatly. Consultation between the two Rules Committees should take place before and after establishment of committees, in order to avoid overlapping and to insure that all important subjects which deserve study are in fact investigated. In order to exercise better control, the Rules Committees should develop much more information regarding committee operations than is now available in*

*useable form. The Rules Committees should consider whether staff assistance would aid them in carrying out more effectively their functions of co-ordination and control.*

(4) *Staff for interim committees should be selected on the basis of merit and expertness and not on the basis of political or other considerations.*

(5) *Interim committee reports should be published prior to the convening of the session, if possible, and certainly not later than the fourth week of the session.*

(6) *In order to facilitate prompt reporting, committees should commence their work as soon as possible after the close of the session at which they are created. Some committees delay unnecessarily, with the result that staff is inefficiently utilized or the investigation is hastily executed.*

(7) *All interim committees should formally adopt a set of rules, and consideration should be given to the inclusion of additional provisions in the Joint Rules of the Legislature to govern committee operations.*

(8) *Recommendations for legislation proposed by interim committees should be included in their reports. At present, legislative recommendations are sometimes made after submission of reports.*

(9) *Witnesses should be requested to submit written statements in advance of hearings so that staff may prepare digests for committee members, and testimony should generally be limited to an oral summary of the written statement. Verbatim reading of statements is unduly time-consuming.*

(10) *Committees should consider the use of briefing sessions prior to hearings at which staff would explain what information is being sought.*

(11) *Chairmen of interim committees should exercise greater control over the activities of subcommittees.*

(12) *In those cases in which transcripts of hearings are prepared, copies should be filed promptly with the official records keeping agency of each house and in other strategic locations in the State so that they will be available to the Legislature and the public.*

### Manual of Procedures

*A manual of procedures should be developed for both standing and interim committees by the Joint Committee on Legislative Organization. The manual would constitute an organizational and operating guide for the chairmen and members of the committees as well as committee staff. It would produce more uniform and regularized arrangements between committees and staff agencies and lead to more efficient operations.*

*As one of the provisions of this manual we recommend the adoption of a rule which would limit the time that a bill, favorably acted upon by a committee, could be held by the chairman in a committee before being passed out to the floor to be placed on file.*

### Findings and Recommendations Dealing With Legislative Rids and Research Services

### Legislative Reference Library

This commission notes with approval the establishment of the Legislative Reference Library in the State Capitol with convenient access

to both houses of the Legislature. We find that this library was started with exceedingly meager resources. It is our conviction that this library should be developed as rapidly as feasible with suitable facilities and research materials to be the basic reference service for the Legislature. We believe that a good reference library is indispensable to the improvement of legislative research activities. In addition to servicing legislators and legislative research staff, this library also should be viewed as a basic depository for legislative materials which should be available to all persons who are engaged in some aspect of research and study of California legislative activities. In accordance with these convictions, the following specific recommendations are made:

(1) *The legislative rules should be amended to make the Legislative Reference Library the basic depository for all official proceedings and reports, printed and typewritten as well as tapes.*

(2) *The rules of both the Senate and the Assembly should be amended to require that all official files of both standing and interim committees should be deposited in the Legislative Reference Library at the close of each session or upon the expiration of the committee. The staff of the library should be instructed to contact chairmen and staff of former committees, the Legislative Analyst, the Legislative Counsel, and other legislative agencies to secure files and documents in order to provide as complete a chronological record of the activities of legislative committees as possible. Arrangements should be worked out to protect the confidentiality of documents where necessary.*

(3) *The Legislative Reference Library should establish and maintain a central index for all legislative documents. The index should list libraries or other services where legislative documents are located if not available in the Legislative Reference Library.*

(4) *The library should be provided with sufficient funds to enable it to secure and maintain current basic reference volumes to provide an effective quick-answering service for legislators and staff.*

(5) *The Legislative Reference Library should maintain a file of local newspaper clippings such as is now maintained in other legislative reference libraries to provide background and interpretative information on previous legislative actions.*

### Joint-House Research Office

(1) *This commission again recommends the creation of a separate research office to serve both the Senate and the Assembly. As previously recommended by the commission, this office would "be established to function as a source of information and to co-ordinate research material and prepare this information in such form as to be readily available to committee chairmen and members of the legislative bodies." In view of the growing number and complexity of research investigations together with increasing research costs, the evidence is stronger than ever that the establishment of a research office would go far toward providing better quality research with lower expenditures. The establishment of a research office should not be viewed as the beginning of a major agency which would restrict the freedom of investigating committees or which would duplicate the work of other legislative staff agencies. Instead, this office should be established with limited staff to serve as a facilitative and research aid service to committees and to the entire Legislature.*

(2) *We recommend further that the research office should be staffed with personnel selected on the basis of merit under standards established by the Joint Committee on Legislative Organization. To provide maximum co-ordination this committee should be responsible for the operations of the research office as well as the Legislative Reference Library.*

(3) *The research office should be encouraged to work in close cooperation with standing and interim committees. It would constitute a small pool of trained personnel upon which committees could draw for staff. Upon completion of a committee's assignment the staff member could return to the pool and work upon pool research until reassigned to another committee. This procedure, if followed, would provide the opportunity of developing a high-quality permanent staff which is not now possible under present committee processes of personnel turnover. Furthermore, it would provide savings by reducing the need of high-priced consultant services and the elimination of nonproductive research by poorly qualified personnel.*

### Continuity of Employment

*It is recommended that the Joint Committee on Legislative Organization establish procedures which will provide continuity in employment for qualified secretarial, administrative and research staff.*

### Subjects Recommended for Further Study

It is recommended that further study be given by the Citizens Legislative Advisory Commission to the following subjects:

(1) The advisability of providing a lump sum allowance on an appropriate basis to each legislator such as is done in Congress which may be used at his discretion for the employment of staff or the costs of telephone, postage, or other official business which he may determine, but subject to a monthly audit of expenditures. It is recommended that the staff prepare a report for subsequent consideration by this commission.

(2) To study ways to expedite the adoption of the budget in regular session to avoid the log jam and hasty consideration of bills requiring an appropriation or dependence upon the budget. The staff should undertake a study for further consideration by the commission.

(3) For the purpose of attracting more qualified personnel it is recommended that a study be undertaken of the advisability of establishing an employee benefit and retirement system for legislative staff.

(4) During the past months a committee of this commission has been drafting a report on the subject of conflicts of interest and a code of ethics for legislators. It is recommended that the committee continue its work and report back to a subsequent meeting of the commission.

### House Resolution No. 291

Relative to the Revival of Brownville, Nebraska

WHEREAS, The City of Brownville, Nebraska, the "City of Seven Hills," a proud and historic city on the banks of the Missouri River, is once again awakening to the prospects of a brilliant and colorful future; and

WHEREAS, The City of Brownville grew from its beginnings as the site of Richard Brown's flatboat ferry service in 1855 to one of the most important towns on the Missouri, serving as a stopping point for all the important and famed river boat traffic, serving as the starting point for pioneer families taking the Oregon Trail west, and displaying vigor and energy as the territorial capital; and

WHEREAS, Brownville grew in brilliance and importance and was the site of the state's first four story building, first telegraph office, and the site of the United States Land Office which issued the first grant of land under the Homestead Act of 1862; and

WHEREAS, The prosperity of the City of Brownville is evidenced by the many fine pioneer structures, built by those who made their fortunes in Brownville, which stand today; and

WHEREAS, Having seen her days of prosperity, the City of Brownville faced adverse times which saw the Missouri River change its course away from the town, saw the railroad bypass her completely and saw the territorial capital moved to Omaha and the County Seat change to Auburn; and

WHEREAS, After a peaceful rest of 65 years the City of Brownville has again awakened with new growth and stamina; and

WHEREAS, The Brownville Restoration Plan germinated from the idea of the nationally known artist Terence Duren, a native of Shelby, Nebraska, and has created a strong artistic, cultural and historical interest in Brownville which has been furthered by the Brownville Historical Society; now, therefore, be it

*Resolved by the Assembly of the State of California*, That the City of Brownville, Nebraska, is congratulated on its brilliant and historical past and its bright and optimistic future; and be it further

*Resolved*, That the following Members of the Assembly of the State of California take this opportunity to give their special congratulations to the City of Brownville: Montivel A. *Resolved*, That the Chief Clerk of the Assembly is hereby directed to transmit suitably prepared copies of this resolution to Ralph C. Brooks, Governor of Nebraska, Terence Duren, the City of Brownville, Nebraska, and to the Brownville Historical Society.

**House Resolution No. 292**

Requesting a study of a proposed highway from Niland to the California border at Yuma, Arizona

WHEREAS, Interstate traffic from the east on US 80 enters California at the border across the Colorado River from Yuma, Arizona; and

WHEREAS, A highway following generally the route of the main line of the Southern Pacific Railroad from Yuma to Niland, California, and joining State Highway Route 187 at that point would appear to cut the distance to the metropolitan areas of California by many miles; and

WHEREAS, The people of the entire State would benefit from the saving of transportation costs as to goods being brought into or transported from such areas; now, therefore, be it

*Resolved by the Assembly of the State of California*, That the Department of Public Works be and it is hereby requested to make a study of a proposed highway from Niland to the California border immediately across the Colorado River from Yuma, covering in such study the savings in distance and time, the probable cost, and the ratio of traffic benefits to cost of such highway; and be it further

*Resolved*, That said department report its findings to this Assembly at the opening of the 1961 Regular Session; and be it further

*Resolved*, That the Chief Clerk is instructed to transmit a copy of this resolution to the Director of Public Works.

**House Resolution No. 293**

Relative to a study of state water development problems

WHEREAS, A Joint Interim Committee on Water Problems was created in 1955 by Senate Concurrent Resolution No. 84 (Resolution Chapter 249) of the 1955 Regular Session, and again in 1957 by Senate Concurrent Resolution No. 105 (Resolution Chapter 337) of the 1957 Regular Session; and

WHEREAS, The many problems related to the state development of water resources require the continued study of a legislative committee; and

WHEREAS, Legislative committees and the Legislature have in the past considered principally the questions of financing such development and the adoption of measures adequate to protect the present and future water needs of all areas of the State, and

WHEREAS, In connection with the state water development, the Legislature has given little consideration to the many related policy problems which should be determined by the Legislature prior to submission of a bond issue to the public; and

WHEREAS, Insufficient time remains in the present session of the Legislature to give full and adequate consideration to the many vital policy questions which remain unsolved, now, therefore, be it

*Resolved by the Assembly of the State of California*, That the Committee on Rules be directed to refer to the appropriate interim committee created at this session of the Legislature the following questions for said committee to study and report thereon to the Legislature at the 1961 Regular Session.

(a) Should public agencies be given a preference in the purchase of water and power and, if so, how shall such preference be exercised?

(b) How shall project costs be allocated to the various project beneficiaries?

(c) Shall the charge for irrigation water be subsidized either directly by the taxpayers or through increasing the charge for municipal and industrial water for power or for other services and commodities available from the projects?

(d) On what basis shall water and power and other commodities and services available from state projects be priced?

(e) Shall the State construct water and power transmission systems?

(f) Shall the State expend funds for development of recreation facilities at reservoirs created as a part of the State Water Plan?

(g) Shall the State establish a limit on the amount of water which will be made available from State projects to irrigate land in order to prevent unjust enrichment?
