LETTER OF TRANSMITTAL

CALIFORNIA LEGISLATURE, STATE CAPITOL
SACRAMENTO, CALIFORNIA, January 18, 1955

HONORABLE GEORGE A. CLARKE, Chairman
Assembly Interim Committee on Agriculture
State Capitol
Sacramento, California

DEAR MR. CLARKE: Your Subcommittee on Public Lands, Grazing, and Forest Practices, in accordance with the directive contained in House Resolution No. 193, 1953 General Session of the California Legislature, submits the following report covering hearings and investigations to ascertain facts relating to the activities of administering the State Division of Beaches and Parks.

Since the filing of the first report, transmitted to you on March 29, 1954, your subcommittee has obtained additional data which have been developed from subsequent investigations.

Invited to sit with our subcommittee at the hearing were the Senate Interim Committee on Public Lands, the Senate Finance Committee, the Assembly Committee on Conservation, Planning and Public Works, and the Joint Legislative Committee on Impounded Funds from Tide and Submerged Lands.

The committees heard the recommendations from more than 50 organizations and their testimony regarding impounded funds will be submitted to the Legislature by the Joint Committee on Tide and Submerged Lands.

This, our final report, limits its scope to the subject of concessions, acquisitions, and the administrative staff. The investigation has revealed certain practices and procedures of administration which seem to require the immediate attention of the Legislature.

The subcommittee appreciates the cooperation and assistance given by the Chief of the Division of Beaches and Parks and his staff and expresses its gratitude to the many state agencies, private organizations and individuals who contributed their valuable time in helping the subcommittee prepare this report.

Respectfully submitted.

LLOYD W. LOWREY, Chairman
FRANCIS C. LINDSAY

STATE OF CALIFORNIA, BOARD OF ADMINISTRATION
STATE EMPLOYEES' RETIREMENT SYSTEM
SACRAMENTO 14, January 10, 1955

Honorable L. H. Lincoln
Speaker of the Assembly
State Capitol, Sacramento, California

SIR: Accompanying this letter is the Annual Report of the Legislators' Retirement System for the fiscal year ending June 30, 1954, which is sent for the official files of the Assembly. Individual copies have been sent to each member of the Legislators' Retirement System.

There are a few Members of the Legislature who entered office at times other than the first of January who failed to become members of the system because they filed their applications after 90 days from the commencement of their terms. Notice of their election did not come to our office, and no membership forms were sent to them.

To avoid such situations in the future, I suggest that Section 9355 of the Government Code be amended to give the newly elected legislators 90 days after notice is received from the office of the Retirement System in which to elect membership. I suggest also that those who failed to attain membership be given another opportunity. This suggestion is also being made to the President of the Senate.

Yours truly,

EARL W. CHAPMAN, Executive Officer

DEAR MR OHNIMUS: Reference is made to Senate Concurrent Resolution No. 18, 1954 Regular Session, by Senators Berry, Way, Teale, Harold T. Johnson, Dale C. Williams, and Regan.

This resolution requested that the Department of Public Works make a comprehensive economic and engineering survey to determine whether it would be in the public interest to designate specific sections of the Public Highway System as natural resources roads.

There are enclosed six copies of a report which has been prepared by the Division of Highways in accordance with the request contained in the resolution.

STATE OF CALIFORNIA
DEPARTMENT OF CORRECTIONS
SACRAMENTO 14, January 20, 1955

Honorable L. H. Lincoln, Speaker of the Assembly
California Legislature
State Capitol, Sacramento, California

DEAR MR. SPEAKER: In accordance with our telephone conversation, I should like to extend an invitation to Members of the Assembly, particularly to the new members who have not had an opportunity to become acquainted with state facilities, to visit any of the eight institutions under the jurisdiction of this department. We will be glad to provide transportation for groups. The three institutions which are easiest to reach from Sacramento are: The California State Prison at Folsom (22 miles); the Deuel Vocational Institution at Tracy (66 miles); and the California State Prison at San Quentin (94 miles). Such trips could be arranged on a basis of one a day to each institution. As far as the department is concerned, any week-day would

be satisfactory if the Members of the Assembly can arrange to be absent, or we would be glad to make provisions for such trips on any, or all, of the Saturdays in the month of March (5th, 12th, 19th, or 26th). On group trips, if arrangements are made in advance, we will be happy to have the wives of Assemblymen accompany them.

It may be that Assemblymen from other parts of the State may wish to visit institutions located a greater distance from Sacramento. These institutions include: The California Institution for Men at Chino, the California Institution for Women at Corona, the California State Prison at Soledad, and the California Medical Facility at Terminal Island. Any Assemblymen wishing to make calls at these institutions on an individual basis are, of course, invited to do so. It may be possible for us, however, to make their visit more pleasant by arranging in advance with the office of the Director of Corrections so that we may make certain that appropriate personnel are available to receive them. This is especially so on week-ends.

Sincerely yours,

RICHARD A. McGEE, Director of Corrections

ANNOUNCEMENT

Speaker Lincoln announced that all members desiring to avail themselves of the opportunity to visit state penal institutions, pursuant to the invitation outlined in the above letter, are to see his secretary so that proper arrangements may be made. He further announced that he is hopeful that the new members will plan to make these trips.

Speaker Lincoln announced that all members are to leave their addresses and full mailing instructions in their desks in order to assist the Chief Clerk, who will mail copies of the final Journal and History, the Bill Room which will mail Library bill sets, and the Sergeant-at-Arms who will mail other items.

Speaker Lincoln announced that the Legislative Counsel has reported that his office has just 350 remaining requests for bills for introduction in the Assembly; and they will all have gone over the desk by 5 p.m.; and that it will not expedite the business for each member to individually go into the office of the Legislative Counsel for his bills as fast delivery to the desk will be given as soon as the bills are prepared.

Temporary Standing Rules of the Assembly be amended in the following particulars:

First, That Rule No. 48 be amended to read:

"48. There shall be printed an Assembly Daily File for each legislative day following the constitutional recess, or at any time prior thereto when ordered by the Speaker. All bills on the Daily File shall be called for consideration in the order of their listing, unless otherwise ordered by unanimous consent or an affirmative vote of two-thirds of the members present."

Second, That Rule 48.1 be added to said Rules to read:

"Consent Calendar

48.1. Whenever a standing committee reports a bill out with a do pass recommendation it shall, if it believes the bill is noncontroversial and will not be contested, and if the author consents, recommend that the bill be sent to a special file to be designated the "Consent Calendar." Such bills after being reported out by the committee, shall be read for the second time, and placed on a special file to be known as the Consent Calendar. The bills on such file shall be handled separately from other bills and shall be listed in the Daily File, printed pursuant to Rule No. 48, under the heading "Consent Calendar." Each legislative day immediately following "Unfinished Business" in the order of the Daily File the Assembly shall, for a period of 30 minutes or so much thereof as is necessary, call for consideration in the order of their listing the bills which have been on the Consent Calendar for three days or longer. If, at any time before the final vote is taken on any such bill, three or more members object, the bill shall forthwith be withdrawn from the Consent Calendar and returned to its place on the regular Daily File. The three members so selected shall constitute the Consent Calendar Screening Committee of that party. Said committee shall examine all bills appearing on the Consent

Relative to obscene and indecent literature

WHEREAS, The citizens of this State and of the Nation are rightfully concerned over the problem of juvenile delinquency and the elimination of conditions contributing thereto; and

WHEREAS, It is apparent to all observant citizens that some publications openly and prominently displayed in magazine racks in markets, grocery stores, drug stores and other places to which parents must frequently take or send their children to purchase food and other necessities of life, or past which children continuously pass on their way to or from school, contain portrayals which offend the sensibilities of the ordinary decent citizens and, in fact, border on obscenity; and

WHEREAS, All right thinking citizens will agree that an informed and vigilant citizenry is society's best protection, and that it is the duty of parents, Parent-Teacher organizations and other civic minded groups to mobilize public opinion and cooperation to the end that such laws be fearlessly enforced by all duly constituted law enforcement officers and agencies; now, therefore, be it

Mr. Stewart asked for, and was granted, unanimous consent a letter of transmittal be printed in the Journal, in 10-point type, as follows:

LETTER OF TRANSMITTAL

ASSEMBLY, CALIFORNIA LEGISLATURE
COMMITTEE ON GOVERNMENTAL EFFICIENCY AND ECONOMY
January 20, 1955

Hon. L. H. Lincoln, Speaker
State Assembly,
Sacramento, California

DEAR MR. SPEAKER: The Assembly Interim Committee on Governmental Efficiency and Economy, submits this report in accordance with House Resolution No. 196, introduced at the 1954 Session of the Legislature.

The report embodies the recommendations of the committee's consultant, Mr. James E. Lash of Harland Bartholomew & Associates, San Francisco, and are solely those of Mr. Lash, who is a recognized national expert in the field of urban redevelopment and urban renewal.

Your committee has not had an opportunity to carefully analyse Mr. Lash's recommendations and adopt them as the recommendations of the committee, which the committee might well do, if sufficient time was available to hear from all interested parties.

Because Mr. Lash is an expert in this field and, because the recommendations he has made would provide the necessary legislation to take advantage of President Eisenhower's Urban Renewal Program, I have taken the responsibility of having bills drafted for introduction at this session of the Legislature.

During the interim period, all interested parties will have an opportunity to analyse this legislation and present their views at such time as the bills are heard in committee after the February recess.

Respectfully submitted.

A. I. STEWART, Chairman

REQUEST FOR UNANIMOUS CONSENT THAT REPORT BE PRINTED AS SEPARATE DOCUMENT

Mr Stewart asked for, and was granted, unanimous consent that the above letter of transmittal and a report with recommendations on Community Redevelopment Law, relating to House Resolution No. 196, by James E. Lash, be ordered printed as a separate document in 10-point type, and that 500 copies be printed.

REQUEST FOR UNANIMOUS CONSENT THAT OPINION BE PRINTED IN JOURNAL

Mr. Stewart asked for, and was granted, unanimous consent that an opinion of the Attorney General be printed in the Journal, in 10-point type, as follows:

OPINION OF ATTORNEY GENERAL

OFFICE OF THE ATTORNEY GENERAL
STATE OF CALIFORNIA
EDMUND G. BROWN
Attorney General

OPINION OF EDMUND G. BROWN, ATTORNEY GENERAL

DELBERT E. WONG, DEPUTY ATTORNEY GENERAL
No. 54/169—January 19, 1955

The Assembly Interim Committee on Governmental Efficiency and Economy, through its Chairman, Honorable A. I. Stewart, Assemblyman, 47th District, has requested the opinion of this office on the following questions:

1. To what extent are the cities and counties of this State empowered to undertake community redevelopment projects without the creation of a redevelopment agency endowed with special powers of the Community Redevelopment Law?

2. As to such powers of cities and counties, is there a distinction between slum clearance projects and projects to redevelop predominantly open areas?

3. If a county or city is empowered to undertake such projects without the creation of a redevelopment agency, is the Community Redevelopment Law applicable to the county or city in any manner?

The conclusions reached may be summarized as follows:

1. Chartered cities empowered to make and enforce all laws and regulations with respect to "municipal affairs" may undertake community redevelopment projects without the creation of a redevelopment agency. Counties and non-chartered cities may undertake such projects only in accordance with the provisions of the Community Redevelopment Law.

2 Where a compelling community economic need exists a chartered city pursuant to its charter powers may undertake the redevelopment of predominantly open areas as well as slum areas. In accomplishing such an undertaking, however, a city's power of eminent domain with respect to redevelopment projects in predominantly open areas is not as broad as its powers with respect to slum areas.

3. If a county or city elects not to avail itself of the Community Redevelopment Law, the provisions thereof are inapplicable to it.

Analysis

The Community Redevelopment Law (Health and Safety Code, Part 1, Div. 24) was enacted by the Legislature as Chapter 1326 of the Statutes of 1945. The law created in each community (city, county, or city and county) a redevelopment agency and provided that the agency shall not transact any business or exercise any of its granted powers unless, by resolution, the legislative body of the community declares that there is need for an agency to function therein (Health and Safety Code, Secs. 33200, 33201). The agency is given certain powers,

including the right to acquire property by eminent domain or otherwise, for the purpose of improving, rehabilitating, and redeveloping blighted areas (Health and Safety Code, Secs. 33266, 33267, 33700, 33708).

The constitutionality of the Community Redevelopment Law was upheld in *Redevelopment Agency of the City and County of San Francisco* vs *Hayes* (1954), 122 Cal. App. 2d 777. Similar legislation has been upheld in other jurisdictions (*Berman* vs *Parker* (U. S. 1954), 23 LW 4012; *State* vs *Rich* (1953), 159 Ohio St. 13, 110 N. E. 2d 778; *Murray* vs *La Guardia* (1943), 291 N. Y. 320, 52 N. E. 2d 884).

These cases clearly establish that cities, counties and other local agencies may be authorized to establish and to carry out community redevelopment projects through redevelopment agencies or otherwise. The inquiry posed by the questions presented, however, is not whether the cities and counties *may* be given such authority without the necessity of employing a redevelopment agency as authorized by the Community Redevelopment Law, but rather whether they *have* been given such authority.

Our discussion will relate first to chartered cities, and second to counties and non-chartered cities.

Chartered Cities

1. *Power to Undertake Community Redevelopment Projects*

Section 8, Article XI, of the Constitution authorizes any chartered city to include in its charter provisions to empower it to make and enforce all laws and regulations with respect to municipal affairs, subject only to the restrictions and limitation provided in the charter. Hence, if it can be said that community redevelopment projects are within the scope of municipal affairs, any city empowered by its charter to regulate municipal affairs, may undertake such projects.

No exact definition of the term "municipal affairs" can be formulated, and the courts have made no attempt to do so, but instead have indicated that judicial interpretation is necessary to give it meaning in each controverted case. The comprehensive nature of the power is, however, conceded in all the decisions, and it is recognized that it is not fixed but fluctuates in scope, and that changes in conditions make necessary new and broader applications thereof (*Butterworth* vs. *Boyd* (1938), 12 Cal. 2d 140, 147).

In *Willmon* vs. *Powell* (1928), 91 Cal. App. 1, the court held that the portion of the charter of the City of Los Angeles, creating a housing commission for the purpose of elimination of overcrowded tenements, unhealthy slums, and congested areas constituted a public purpose and was within the description of a municipal affair.

Recently, the Ohio Supreme Court upheld the validity of a city ordinance authorizing an urban redevelopment project as being within the lawful purposes of city government (*State* vs. *Rich* (1953), 159 Ohio St. 13, 110 N. E. 2d 778).

The United States Supreme Court on November 22, 1954, in upholding the validity of the District of Columbia Redevelopment Act, in *Berman* vs. *Parker* (1954), 23 LW 4012, 4014, stated:

"Public safety, public health, morality, peace and quiet, law and order—these are some of the more conspicuous examples of the traditional application of the police power to municipal affairs. Yet they merely illustrate the scope of the power and do not delimit it. See *Noble State Bank* vs. *Haskell,* 219 U. S. 104, 111. Miserable and disreputable housing conditions may do more than spread disease and crime and immorality. They may also suffocate the spirit by reducing the people who live there to the status of cattle. They may indeed make living an almost insufferable burden. They may also be an ugly sore, a blight on the community which robs it of charm, which makes it a place from which men turn. The misery of housing may despoil a community as an open sewer may ruin a river."

In view of the tenor of recent decisions we are of the opinion that the courts would hold that a municipal charter provision or municipal ordinance authorizing a community redevelopment project to be undertaken by a city is within the meaning of municipal affairs.

We are also of the opinion that community redevelopment projects are both "municipal affairs" subject to municipal control and "matters of state concern" subject to state legislative control (*see* California Low Rent Housing Legislation, 11 So. Cal. L. Rev. 444, 462).

In this field of "not strictly municipal affairs" an enactment of the State Legislature voids any act of the municipality in conflict therewith. Until the State acts, however, the field remains subject to municipal regulation (*Wilton vs. Henkin* (1942), 52 Cal. App. 2d 368).

Inasmuch as the Community Redevelopment Law is permissive in nature and the provisions thereof can affect a community only if the legislative body of that community so elects (Health & Safety Code Sec. 33201), it is our opinion that the Legislature in enacting the said law did not intend to occupy the field and that any charter provisions or municipal ordinances authorizing a chartered city to undertake a community redevelopment project would not be in conflict therewith.

2. *Slum Clearance Projects vs. Predominantly Open Area Projects*

In *Redevelopment Agency* vs. *Hayes* (1954), 122 Cal. App. 2d 777, the court upheld the constitutionality of the Community Redevelopment Law as applied to (1) a slum area and (2) an area consisting of 85 percent vacant land. As to the first type of project, the court observed at page 787 that statutory or constitutional provisions authorizing local public agencies to undertake urban redevelopment projects for slum clearance have been adopted in at least 37 states and have been almost uniformly upheld. As to the second type of project, the court stated at page 793 that where no compelling community economic need is shown, the power of eminent domain may not be used. In finding that such a need had been demonstrated in the particular project under consideration, the court at page 798 stated:

"While probably no one element of the blight is sufficient to justify the taking by eminent domain, the combination of a great and pressing demand for more housing, the correlation of the area with

other areas of the city, by streets and public places, the fact that without governmental help the area cannot be developed and will continue to deteriorate, together with all the circumstances shown by the record, demonstrate the compelling community economic need required to permit the application of the act."

It is our opinion that a city's authority to regulate municipal affairs empowers it to undertake community redevelopment projects in predominantly open areas, as well as in slum areas, whenever it can be shown that a compelling economic need exists.

In effectuating any such project, it is important that a city have the right to acquire property for this purpose by the exercise of the power of eminent domain. Under the Community Redevelopment Law a redevelopment agency has this power with respect to projects in predominantly open areas as well as in slum areas (*Redevelopment Agency* vs. *Hayes* (1954), 122 Cal. App. 2d 777). A city, however, has no inherent power of eminent domain, and may exercise it only under authority of the Legislature for one of the purposes authorized (*Los Angeles* vs. *Koyer* (1920), 48 Cal. App. 720; *Alexander* vs. *Mitchell* (1953), 119 Cal. App. 2d 816). The legislative grant of power by Subdivision 21 of Section 1238 of the Code of Civil Procedure, in our opinion, is sufficiently broad to authorize a city to exercise the power of eminent domain for certain types of community redevelopment projects. This provision authorizes the exercise of eminent domain for the following public uses:

"Any work or undertaking of a city, county, or city and county, housing authority or commission, or other political subdivision or public body of the State: (a) to demolish, clear or remove buildings from any area which is detrimental to the safety, health and morals of the people by reason of the dilapidation, overcrowding, faulty arrangement or design, lack of ventilation or sanitary facilities of the dwellings *predominating in such area*; or (b) to provide dwellings, apartments or other living accommodations for persons or families *who lack the amount of income which is necessary* (as determined by the body engaging in said work or undertaking) *to enable them to live in decent, safe and sanitary dwellings* without overcrowding." (Emphasis added)

The above quoted subsection (a) would appear to authorize the exercise of eminent domain for redevelopment projects in slum areas. As to projects in predominantly open areas, subsection (b) would appear to authorize the exercise of eminent domain only for those projects which would provide living accommodations for low income persons or families. Should the Legislature desire cities to have the power of eminent domain for other projects in predominantly open areas, it would appear that additional legislative authorization is necessary.

3. *Applicability of Community Redevelopment Law*

The Community Redevelopment Law provides that a community redevelopment agency, created thereunder, shall not transact any business or exercise any powers under that law unless, by resolution, the legislative body of a community declares that there is need for such an agency to function in the community (Health & Safety Code Sec.

33201). In the absence of such declaration, the provisions of the Community Redevelopment Law are inapplicable to a particular community. A city undertaking such a project pursuant to its charter powers may, however, incorporate in its charter or ordinances any of the provisions of the said law.

Counties and Non-chartered Cities

1. *Power to Undertake Community Redevelopment Projects*

The provisions of Section 8, Article XI, of the Constitution, relating to municipal affairs, are inapplicable to counties and to cities formed pursuant to general law. Any authorization for such local agencies to undertake community redevelopment projects must necessarily be pursuant to constitutional or general statutory provisions (*Hurst* vs. *City of Burlingame* (1929), 207 Cal. 134; *Simpson* vs. *Payne* (1926), 79 Cal. App. 780).

Although Section 11, Article XI of the Constitution empowers any county or city to make and enforce within its limits all such local, police, sanitary and other regulations as are not in conflict with general laws, it does not constitute an authorization to counties and cities to undertake redevelopment projects, for this provision has been construed by the courts to authorize only the making and enforcing of penal ordinances (*See* Municipal Home Rules in California, etc., 32 Cal. L. Rev. 341).

Nor is such authorization granted to counties and cities by the above quoted Subdivision 21, Section 1238 of the Code of Civil Procedure. That this provision was intended merely to supply a means to attain objectives otherwise authorized is indicated by the language of the statute, which merely empowers counties, cities, and other local agencies to exercise eminent domain for the purpose of slum clearance and housing. It does not purport to be an authorization for such agencies to engage in these activities (See *Hyatt* vs. *Williams* (1906), 148 Cal. 585, in which the court held that the Code of Civil Procedure provisions relating to eminent domain did not purport to grant any power except the power to condemn property).

This conclusion is buttressed by the legislative history of the said Subdivision 21, which was added to Section 1238 by Chapter 3 of the Statutes of the Extra Session of 1938, on the same day that the Housing Authorities Law (now Health & Safety Code, Div. 24, Pt. 2, Ch. 1) was enacted by Chapter 4 of the same session. The Housing Authorities Law authorized housing authorities to establish, construct, and operate housing projects. To provide a means of achieving these objectives, Section 12 thereof authorized housing authorities to exercise the power of eminent domain pursuant to the provisions of the Code of Civil Procedure.

With the exception of the Community Redevelopment Law, counties and non-chartered cities have not been authorized to undertake community redevelopment projects, and, in our opinion, may do so only in accordance with the procedure set forth therein

2. *Slum Clearance Projects vs. Predominantly Open Area Projects*

Where a compelling community economic need exists, counties and non-chartered cities may, pursuant to the Community Redevelopment Law, undertake both types of projects (*Redevelopment Agency* vs.

Hayes (1954), 122 Cal. App. 2d 777). The Legislature by general law may also empower counties and non-chartered cities to undertake such projects by some other procedure, subject to the same limitation.

3. *Applicability of Community Redevelopment Law*

Inasmuch as we have concluded that counties and non-chartered cities may undertake community redevelopment projects only pursuant to the Community Redevelopment Law, it is unnecessary to discuss its applicability to an alternative procedure. Should the Legislature authorize such an alternative procedure, any of the present provisions of the said law may be made applicable.

REQUEST FOR UNANIMOUS CONSENT THAT REPORT BE PRINTED IN JOURNAL

Mr. Stewart asked for, and was granted, unanimous consent that a report be printed in the Journal, in 10-point type, as follows:

REPORT ON STATE HOUSING ACT BY ASSEMBLY INTERIM COMMITTEE ON GOVERNMENTAL EFFICIENCY AND ECONOMY

ASSEMBLY, CALIFORNIA LEGISLATURE
COMMITTEE ON GOVERNMENTAL EFFICIENCY AND ECONOMY
SACRAMENTO, CALIFORNIA, January 11, 1955

Hon. L. H. Lincoln,
Speaker of the Assembly,
State Capitol, Sacramento, California.

DEAR MR. SPEAKER: This report is made pursuant to the provisions of House Resolution No. 28, at the Special Session of the Assembly, 1954, which reads:

"Resolved by the Assembly of the State of California, that the Assembly Interim Committee on Governmental Efficiency and Economy (created by House Resolution No. 160, 1953 Regular Session), in addition to the other studies required to be made by it, is hereby authorized and directed to study the State Housing Act, including the administration, operation, effect and needed revision thereof, and all matters relevant thereto, and to report thereon to the Assembly, including in the report its recommendations for appropriate legislation."

In furtherance of the directives of the resolution, your committee made an investigation of the subject as limited time at the committee's disposal would permit.

Administration and Operation

A study of the administration and operation of the State Housing Act revealed that these features of the act might well serve as a model for similar state laws. The act provides that city and county building departments shall enforce all provisions pertaining to construction and alteration of apartment houses, hotels, and dwellings (Sections 15250 and 15253). Primary jurisdiction is given to city and county health departments for enforcement of all provisions pertaining to maintenance, sanitation, ventilation, use, and occupancy of existing apartment houses, hotels, and dwellings (Sections 15251 and 15253). Dwellings outside cities are not regulated by the act. The Division of Housing in the Department of Industrial Relations is authorized to enforce all provisions of the act pertaining to apartment houses and hotels outside the territorial limits of any city (Section 15255). Your committee was advised by the Division of Housing that as a matter of policy it surrenders jurisdiction over construction upon establishment of county building departments who then assume this responsibility. The Division of Housing also has a limited secondary jurisdiction with city and county health departments in enforcement of the maintenance and sanitation provisions of this law. (Section 15255).

As a direct result of a previous interim study made by your committee on the subject matter of overlapping of building regulations,

Chapter 9 was added to Part 3, Division 13, of the Health and Safety Code. Chapter 9 provides that the State Housing Act is inapplicable in any city or county which enacts and enforces an ordinance prescribing standards equal to or greater than the provisions of the State Housing Act. Your committee commends the administration and operation of this law.

Effect of the Law

The effect of the State Housing Act, the committee has concluded, has been good. The 1950 Federal Census revealed that 36.5 percent of the Nation's dwellings do not have running water, private toilet and bath, or are dilapidated. The State of California is more fortunate since only 14 percent of the dwellings in this State have these deficiencies. In the Nation as a whole, 15.7 percent of dwelling units have more than 1.01 persons per room. Again, California is more fortunate since only 12.3 percent of dwellings in this State are overcrowded according to the Federal Census. Even though your committee discovered that some few provisions of the State Housing Act are not being enforced in some areas of the State it is our belief that the act has prevented widespread slums from developing in this State to the same degree that they have in many other states.

The first State Housing Law was enacted in 1909. It was replaced by a new act in 1911 and again in 1917. The present State Housing Act was enacted in 1923 and at almost every session since the Legislature has improved state minimum standards for construction, occupancy, and maintenance of places of human habitation. The act accents requirements for the protection, health, and safety of the public and of the occupants of apartment houses, hotels, and dwellings. It is a necessary supplement to city and county building codes which accent the structural stability of buildings, and as the act is not a complete building code, city and county building codes are a necessary supplement to it.

Needed Revision

Numerous conferences were held with city, county and state building and housing officials, contractors, builders, property owners, and managers and other interested parties, groups, and individuals to obtain their advice on needed revisions of the State Housing Act. The committee wishes to take this means to acknowledge gratefully the fine cooperation and assistance extended to the committee by these groups and individuals and is particularly appreciative of the assistance of the Los Angeles City Department of Building and Safety and the State Division of Housing.

Prior to public hearing and upon request of the chairman of the committee, the Los Angeles City Department of Building and Safety prepared an eighty-four (84) page typewritten proposed revision of the State Housing Act. While this was a preliminary draft to provide only a basis for consideration it was designed to accomplish three major revisions:

(1) Rearrangement for ease of usage

(2) Adoption by reference to the Uniform Building Code, the Uniform Plumbing Code, and National Electric Code for all construction and fire resisting requirements

(3) Streamlining the text, with archaic and conflicting provisions brought up to date or completely removed.

The proposed revision of the act was mimeographed and distributed by the Division of Housing to all city and county planning, building, fire and health officials, to groups in the housing construction industry, property owners and managers, and to hotel and apartment house associations. The Division of Housing requested that these officials and groups analyze the document carefully and supply us with their criticisms or comments. Forty-two letters commenting on the proposed revision were received which reflected a wide variety of opinion.

A public hearing on needed revisions to the State Housing Act was held in the State Building in Los Angeles on November 29, 1954 to which interested parties and the general public were invited and given an opportunity to express to the committee their views, which were found to be divergent.

As the result of interviews, conferences, correspondence, and the public hearing, your committee recommends that the Assembly Committee on Governmental Efficiency and Economy be authorized and directed to prepare a revision of the State Housing Act for consideration of the 1957 Regular Session of the Legislature and that the necessary funds be appropriated for this task.

The time allotted the committee was insufficient to prepare a proposed revision for introduction at this session of the Legislature. In the opinion of the committee the State Housing Act can be improved and modernized through new editorial arrangement, by restating requirements in the presently accepted terminology of construction practice, by substituting performance standards for specifications of particular methods and materials and by eliminating archaic provisions.

As the 1951 Session the Legislature through enactment of Sections 15159 and 15160 removed the act from the category of an obsolete strait-jacket specification code and permitted approval by enforcement agencies of appliances, devices, arrangements, and materials and methods of construction that are equivalent in the protection of health and safety to those that are prescribed in the act, the committee believes that revision of the act can await further study and presentation of a revision to the 1957 Regular Session of the Legislature.

Respectfully submitted.

RESOLUTIONS

The following resolution was offered:

By Mr. Donald D. Doyle:

House Resolution No. 54

Relative to equestrian competition

WHEREAS, For many years American horsemen representing the United States in the Olympic Games and other meetings involving international equestrian competition have been handicapped because their mounts have been inadequately trained under the rules of such competition as set forth by the Federation Equestrien Internationale; and

WHEREAS, Such lack of training has been due to the absence in the United States of competitive events prescribed by F. E. I. rules and regulations; and

WHEREAS, It has been, and is, necessary for equestrian teams representing the United States in such competition to secure horses trained in such events in foreign countries, thus detracting from the international flavor of such competition to the detriment of American position in the field of such competition; and

WHEREAS, The United States in general and California in particular, because this State breeds more horses than any state in the Nation which itself breeds more mounts than any Nation in the World, has unlimited opportunity to advance the American position in international equestrian competition; now, therefore, be it

Resolved by the Assembly of the State of California, That it is the feeling of the Legislature of the State of California that all California fairs, horse shows and other events in which competition between horsemen and their mounts is included should be, and are encouraged by the Legislature, to include in their schedules one or more events which comply with the rules and regulations which apply to international competition as set forth by the Federation Equestrien Internationale, to the end that riders and their mounts alike may be trained to be able in toto to represent the United States in such international competition.

Resolution read, and ordered referred to the Committee on Rules.

CONSIDERATION OF HOUSE RESOLUTION NO. 47

By Mrs. Davis, Messrs. Patterson, Casey, and Beaver:

House Resolution No. 47

Relative to the establishment of separate waterfowl seasons in California

WHEREAS, There is an extreme variation in the migration and seasonal abundance of waterfowl throughout the State of California due to differences in latitude and elevation; and

WHEREAS, The migration and seasonal abundance of waterfowl in Northeastern California are similar to those prevailing in adjacent Oregon, but differ from the central and coastal portions of the State; and

WHEREAS, In 1945 the federal regulations were satisfactorily adjusted by establishment of the open season for migratory waterfowl in Modoc, Lassen and Siskiyou Counties to coincide with the Oregon season (October 13th-December 13th) permitting an open season in the balance of California from November 2nd to January 20th; and

WHEREAS, The migration and seasonal abundance of waterfowl in Southeastern California are similar to those prevailing in adjacent Arizona, but differ from the central and coastal portions of the State; and

WHEREAS, In recent years the Federal Government has permitted an open season in Southeastern California to coincide with the Arizona season; and

WHEREAS, No waterfowl season, straight or split, can be established within existing formulas for the State of California, which will not cause inequalities of hunting opportunities in one or another portion of the State due to the extreme variation in waterfowl conditions; now, therefore, be it

Resolved by the Assembly of the State of California, That it respectfully petitions the Secretary of Interior henceforth to establish and allow a separate waterfowl shooting season for Northeastern California identical to that allowed for adjacent Oregon; to continue a separate waterfowl shooting season for Southeastern California identical to that allowed for adjacent Arizona; and to permit another separate waterfowl shooting season for the balance of the State; be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit properly certified copies of this resolution to the Secretary of Interior and to the Representatives of the State of California in the Congress of the United States.

STATE OF CALIFORNIA
DEPARTMENT OF INSURANCE
SAN FRANCISCO 2, February 14, 1955

Hon. L. H. Lincoln
Speaker of the Assembly
State Capitol, Sacramento, California

DEAR SPEAKER LINCOLN: As my tenure as Insurance Commissioner of the State of California during the past year and my almost 24 years of service in the State Department of Insurance reaches its termination tomorrow, I feel compelled to express to the Members of the Assembly, through you, my sincere thanks and appreciation for the courtesy and cooperation which they have always extended to me.

During the past 10 years I have appeared before the committees of your body in one capacity or the other as a representative of this department, the last four years as its head, in connection with legislation affecting insurance and the regulation thereof. Some of this legislation was introduced by various of your members at the request of this department. While your members have not always agreed with my views in respect to such legislation, which is as it should be in our wonderful democracy, they have at all times been respectful and considerate of my opinions and have been courteous and completely cooperative. Particularly has this been the case of the treatment accorded me by the various chairmen and members of the Committee on Finance and Insurance before which my appearances were most frequent.

Please convey to the Members of the Assembly my sincere gratitude for their courteous cooperation with me during my career of public service. I return to private life with the satisfaction of knowing that the Legislative Branch of our State Government is composed of individuals of the highest ideals and principles and dedicated to the best interests of the public.

Yours very truly,

JOHN R. MALONEY
Insurance Commissioner

To the Members of the
Assembly of the California Legislature

DEAR MEMBERS: No words can quite adequately express our deep appreciation for the beautifully engrossed copies of the Assembly Concurrrent Resolution No. 15, relative to the death of my beloved husband, Captain Willis W. Bradley.

My daughters and I are very grateful to you all. You have been so kind to Willis and to us. He was so good, and so able, and treasured the friendship of his Colleagues in the Legislature.

I *know* he was very fond of you.

It is comforting to us—and it would be to Captain Bradley—to know that your sincere regard for him, and your expressions of sorrow at his passing and also sympathy for us in our great loss, had been so touchingly expressed in the Assembly's concurrent resolution of January fifth.

Our daughters, Elizabeth Earle Sue McCandless, Anne Brucker, and Josephine De Young join me in thanking you all for the treasured and beautifully worded resolutions, and for your great sympathy and friendliness for Willis, and for us who dearly love him.

Gratefully and sincerely,

OATH OF OFFICE ADMINISTERED

Mr. Geoffrey Cook took and subscribed to the following oath administered by the Hon. L. H. Lincoln, Speaker of the Assembly:

I, Geoffrey Cook, do solemnly swear (or affirm) that I will support and defend the Constitution of the United States and the Constitution of the State of California against all enemies, foreign and domestic; that I will bear true faith and allegiance to the Constitution of the United States and the Constitution of the State of California; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties upon which I am about to enter.

And I do further swear (or affirm) that I do not advocate, nor am I a member of any party or organization, political or otherwise, that now advocates the overthrow of the Government of the United States or of the State of California by force or violence or other unlawful means; that within the five years immediately preceding the taking of this oath (or affirmation) I have not been a member of any party or organization, political or otherwise, that advocated the overthrow of the Government of the United States or of the State of California by force or violence or other unlawful means except as follows:

No Exceptions

and that during such time as I hold the office of Minute Clerk I will not advocate nor become a member of any party or organization, political or otherwise, that advocates the overthrow of the Government of the United States or of the State of California by force or violence or other unlawful means.

REQUEST FOR UNANIMOUS CONSENT

Mr. Erwin asked for, and was granted, unanimous consent to have the following remarks printed in the Journal:

REMARKS BY MR. ERWIN

In moving the adoption of this resolution I would be remiss in my duty if I did not call the attention of the Assembly to the reason why Geraldine B. Hadsell's name is not on the resolution for Minute Clerk.

Miss Hadsell underwent a very serious operation during the month of January which, I am pleased to relate to the members, was successful, and she is now convalescing. It is for this reason that Geoffrey Cook, who was the Assistant Minute Clerk during the January session, has been elevated to the position of Minute Clerk.

Geoffrey Cook assumes this position with the understanding that when Miss Hadsell's health permits she will return to her position as Minute Clerk.

J. A. BEEK, Secretary of the Senate
By C. V. TAYLOR, Assistant Secretary

FIRST READING AND REFERENCE OF SENATE BILLS (RESUMED)

The following resolution was read:

Senate Concurrent Resolution No. 37—Relative to the passing of the Honorable Fred Weybret.

Request for Unanimous Consent

Mr. Pattee asked for, and was granted, unanimous consent to take up Senate Concurrent Resolution No. 37, at this time, without reference to committee or file.

Senate Concurrent Resolution No. 37—Relative to the passing of the Honorable Fred Weybret.

Resolution read, and adopted unanimously by a rising vote of the members

Resolution ordered transmitted to the Senate.

REQUEST FOR UNANIMOUS CONSENT TO PRINT REMARKS IN JOURNAL

Mr. Thomas J. Doyle asked for, and was granted, unanimous consent that the remarks by Messrs. Pattee, Clarke, and Maloney, relative to the passing of the Honorable Fred Weybret, be ordered printed in the Journal.

REMARKS BY ASSEMBLYMAN PATTEE CONCERNING SENATOR FRED WEYBRET

Senator Weybret was one of the men who started me in politics. He was a true friend and a man of great integrity. Whether you agreed with him or not on issues, you had to respect his stand, for he always voted his conscience.

My county and our State has truly lost a fine friend and a sound legislator with the death of Senator Fred Weybret.

REMARKS BY SPEAKER PRO TEMPORE MALONEY RELATIVE TO THE PASSING OF SENATOR FRED WEYBRET

Mr. Speaker and Members of the Assembly

May I most sincerely concur in the remarks of Assemblyman Pattee relative to our departed colleague, Senator Fred Weybret.

Mr. Weybret served with honor as a Member of the Assembly and the Senate of this great State of California.

I'll not forget the experience I had with him, as a member of a Conference Committee on the Old Age Pension Law. There was a difference of opinion between both houses as to how much personal property an applicant for an old age pension could possess.

Senator Weybret was appointed on the committee from the Senate with two of his colleagues. Assemblyman Harold Levering, Assemblyman Vernon Kilpatrick, and I represented the Assembly.

Mr. Charles Schottland represented the Social Welfare Committee. There was a little deadlock for about 10 minutes, and I made a compromise motion, seconded by Assemblyman Harold Levering, that the old age recipient be allowed $1,200 personal property. Senator Weybret was the first one to agree from the Senate group, and his two colleagues immediately followed his thinking, and the committee came

out with a unanimous report, although other persons not connected at all with the Legislature claimed credit for the recommendations of the committee, in which they had no part at all.

Mr. Speaker, all of the members you appointed to attend Senator Weybret's funeral services were present.

The Mass celebrated for the repose of the soul of Senator Weybret was beautiful. As I gazed at Assemblyman Pattee's face, and saw the tears running down his cheeks, I knew of the affection he had for Senator Weybret, as did all of those who were in attendance at the services. May his soul rest in peace.

REMARKS BY ASSEMBLYMAN CLARKE, RELATIVE TO THE PASSING OF SENATOR FRED WEYBRET

Knowing Fred Weybret as I have for the last 16 years as a legislator, and having served on so many committees with him, I feel that I should say a few words about him as a legislator and a citizen.

Fred Weybret came to the Assembly in 1939, and in 1941 he became Chairman of the Committee on Agriculture of the Assembly which position he held until 1944 when he was elected to the Senate. After the passing of Senator Crittenden, he was appointed Chairman of the Senate Committee on Agriculture.

In these years he was an outstanding chairman in the representation of agriculture in the State of California.

I have served on several interim committees with him, one of these being the Committee on Agricultural and Livestock Problems. A subcommittee from that committee consisting of Senator Weybret, Assemblyman Lowrey, and I visited all the state institutions north of Tehachapi every year since 1944 with the exception of last year. On our investigation of those different institutions, Senator Weybret took a leading part in the expenditure of money for those institutions. A great deal of money was saved through our investigations as it was estimated by the late Mr. Vandegrift that over 7 million dollars was saved by the work of this subcommittee. Senator Weybret was fair, honest, and honorable in every dealing with the institutions in their requirements.

I also served with Senator Weybret on the committee which went to Honolulu on the Oriental fruit fly problem. He took an active part in all things such as laboratories, etc., pertaining to the work that had been carried on in those islands relative to the elimination of this great menace. We met with the different departments over there, and he took an outstanding interest in all the work on this and was very active in assisting in writing the report. Upon our return, he actively participated in presenting our findings and also showed moving pictures which he had taken while on the trip.

The State of California has lost a fine man, a fine representative, and a highly honored citizen in the passing of Fred Weybret.

REQUEST FOR UNANIMOUS CONSENT TO PRINT STATEMENT IN JOURNAL

Mr. McCollister asked for, and was granted, unanimous consent that the following statement be printed in the Journal.

STATEMENT BY MR. McCOLLISTER

During January, 1955, 3,767 Assembly bills were introduced. Of the 120 days allowed by the Constitution to complete this session, 19 were used in January, leaving 101 calendar days to act upon the measures before us.

Of the 101 remaining days there are 14 Saturdays and 14 Sundays in addition to Good Friday and Memorial Day. This means if we work half of the Saturdays and none of the Sundays we have only 78 working days to complete a hearing on all Assembly bills by our committees. The committees, therefore, must act on 48 Assembly bills a day, bearing in mind that approximately 900 Senate bills will be sent to this House for committee action, which means 12 Senate bills must be heard by committee each day, bringing the average committee action to 60 bills a day.

During the 1953 Session the Assembly passed and adopted a total of 2,606 measures.

In this session we have a larger number of measures to act upon and less days (78) in which to work than in 1953. Therefore, using the 1953 figures as a base, and bearing in mind that we will probably work only 78 days, we must have a floor action on 35 measures a day in order to complete the business of this session.

REQUEST FOR UNANIMOUS CONSENT THAT LETTER OF TRANSMITTAL BE PRINTED IN THE JOURNAL

Mr. Weinberger asked for, and was granted, unanimous consent that a letter of transmittal by the Committee on Government Organization, relative to the creation of a State Department of Revenue, be printed in the Journal, and that the accompanying report be filed with the Secretary of State.

LETTER OF TRANSMITTAL

ASSEMBLY INTERIM COMMITTEE ON GOVERNMENT ORGANIZATION
SACRAMENTO, CALIFORNIA, February 8, 1955

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
State Capitol, Sacramento

SIRS: Acting under provisions of House Resolution No. 176 of the 1953 General Session, your Subcommittee of the Assembly Interim Committee on Government Organization submits herewith its Report on *The Need for a Department of Revenue in California.*

The creation of a Department of Revenue should have taken place many years ago. Because this was not done, millions of dollars have been wasted in excessive administration costs, duplication of staff and

facilities, and in failure to collect all taxes owed the State under existing laws. Furthermore, our taxes are administered by a scattered assortment of independently elected boards, officials, and ex-officio bodies The Governor has virtually no responsibility for the collection or administration of most of our tax laws. The bulk of our taxes are handled by the Board of Equalization, the members of which are elected from obsolete districts They are not responsible to the Governor and are not even subject to impeachment by the Legislature.

It is the committee's belief that particularly now, when new and increased taxes are proposed to meet the revenue deficiency caused by our growing needs and population and by fixed constitutional provisions, existing taxes should be administered in the most efficient and economical manner. We find that our existing taxes are not now being so administered.

In fairness to everyone, both the Legislature and the people should be assured that our present taxes are being administered by expert officials responsible to the Governor and to all of the people, so as to produce maximum revenues with minimum cost. This assurance could largely be provided by the creation of a Department of Revenue as we recommend herein Otherwise, adding new or increased tax duties, in the haphazard manner used in the past, to any one or more of the numerous scattered boards and agencies now handling tax duties can only result in compounding an already unwieldy, costly, and inefficient tax administration structure.

We have found that the Federal Government and most of the large and important states are successfully using departments of revenue or taxation substantially similar in top organization to that recommended by us. We are confident that California's taxpayers would be far better served by the establishment of such a department than they are now. We further find that very substantial sums can be saved yearly by the adoption of our proposals.

Therefore, your committee respectfully and strongly urges that the legislation recommended in this report establishing a Department of Revenue be enacted at this session of the Legislature.

Respectfully submitted.

THE REGENTS OF THE UNIVERSITY OF CALIFORNIA
OFFICE OF THE SECRETARY AND TREASURER
BERKELEY 4, CALIFORNIA, January 28, 1955

Mr. L. H. Lincoln
4000 Redwood Road
Oakland, California

DEAR MR. LINCOLN: In advance of the meeting of the Board of Regents of the University of California on January 21, 1955, the Regents received a report on a "Restudy of the Needs of California in Higher Education," which was prepared by a joint staff appointed by direction of the Liaison Committee of the State Board of Education and the Regents of the University of California, and which it is understood will soon be presented by the joint staff to the Legislature.

This report discusses important matters concerning the university, and the Regents feel that there should be an opportunity for them to make a thorough study of it before taking any action upon it.

Therefore, the board requests that the Legislature take no action on the restudy until the Regents have had an opportunity to study it and make their own recommendations.

Sincerely yours,

ROBERT M. UNDERHILL

Acquisition and Operation of Key System Facilities—No. 7257

DEAR MR. WEINBERGER:

Question

You have asked whether the California Toll Bridge Authority has the power, without additional legislation, to acquire and operate the transportation facilities owned by the Key System and operated on the San Francisco-Oakland Bay Bridge; and, if so, whether it may use bridge tolls for the purchase or lease of the equipment and the operation of the transportation system.

Opinion

There is statutory authority for the acquisition and operation of such transportation facilities; however, if it is contemplated to issue bonds to provide funds for such acquisition it would be advisable, in order to avoid any question, to amend the law to specifically provide for such issuance in conjunction with a refunding of existing bonds.

There is no statutory authority for the use of tolls from the use of the San Francisco-Oakland Bay Bridge for the purchase or lease of such equipment, and such use would violate the terms of the agreement with existing bondholders. Under the existing agreement bridge railway revenues, but not vehicular toll revenues, may be used for the operation of the transportation system by the authority.

Analysis

The San Francisco-Oakland Bay Bridge was financed and constructed pursuant to the provisions of the California Toll Bridge Authority Act (Div. 17, Ch. 1 (Secs. 30000-30506), S. & H. C.), as modified by Article 1 of Chapter 2 (Secs 30600-30607) of Division 17 of the Streets and Highways Code, which contains certain provisions applicable solely to that bridge.

The California Toll Bridge Authority Act contains provisions authorizing the construction or acquisition of transportation facilities in connection with bridges constructed thereunder by the California Toll Bridge Authority and the Department of Public Works and the issuance of revenue bonds for such purpose (S.&H.C. 30100, 30202, 30203, 30205, 30206). Pursuant to this authorization the existing transportation facilities owned by the authority, including railway tracks and terminals, were constructed at the time of the construction of the San Francisco-Oakland Bay Bridge.

Under Sections 30104 to 30109 *, inclusive, the authority is empowered to enter into contracts with, and grant permits to, railroad and other transportation companies for the use of a toll bridge or the transportation facilities thereon. It is pursuant to such a contract, entered into on March 6, 1936, that the Key System is at the present time operating the rail transportation facilities on the San Francisco-Oakland Bay Bridge.

Section 30110 authorizes the authority, by itself or through the department or agents of either, to operate the transportation facilities of a toll bridge upon default of a contracting railroad or other transportation company, upon the termination or cessation of any such contract, or in the absence of such a contract.

Section 40 of the contract between the authority and the Key System enumerates the events which constitute a default on the part of the Key System. We have no information as to whether any of said events has occurred. Under Section 41 of that contract the authority may, in the event of default, take over and operate all of the transportation facilities of the Key System so long as bonds, including refunding bonds, are still outstanding; however, under Section 42, the exercise of this right is subject to certain agreements entered into on March 6, 1936, between the authority, Key System, and Oakland Terminal Railroad Company and Railway Equipment and Realty Company, Ltd. Under these agreements, if the authority exercises its right to take over and operate such facilities, it must, among other things, pay annually to Key System $50,000, plus 75 percent of the annual net earnings of the authority from the use of the facilities In addition, it must pay the principal and interest on new capital invested in such facilities subsequent to the date

* All section references are to the Streets and Highways Code unless otherwise indicated.

Key System commenced operation of railway facilities over the bridge. The present bond agreement (dated November 27, 1951) with holders of San Francisco-Oakland Bay Bridge bonds recognizes the possibility of the taking over and operation of Key System's facilities in the event of default and authorizes the use of bridge railway tolls for the above-mentioned purposes and for operation and maintenance of the bridge railway facilities in such event (Secs. 1.01 (r) and 7.01 of said bond agreement).

Under Section 6 of the contract between the authority and the Key System, the contract is to terminate upon the final payment, retirement, or amortization of all bonds, including refunding bonds, issued and sold with respect to the construction of the San Francisco-Oakland Bay Bridge and approaches and the railway facilities thereon. Said section also gives the authority the right to terminate the contract by giving a written notice of termination at any time within 60 days after January 1, 1942, or within 60 days after the end of any five year period thereafter (which makes January 1, 1957, the next possible date for such notice). The date of termination is required to be not less than two years after January 1, 1942, or the end of any subsequent five year period, as the case may be (which makes January 1, 1959, the next possible termination date). Another method of termination of the contract is upon default by the Key System, at which time the authority, instead of, or in addition to, taking over and operating the Key System's facilities, as described earlier, may terminate the contract.

Section 7 of the contract gives the Key System, upon termination of the contract, the right to remove its movable property and fixed improvements constructed or installed at its expense (except where the authority takes over and operates the Key System's facilities upon default and makes the required payments to it), but gives the authority the option of purchasing such fixed improvements.

Section 4 of the contract reserves to the authority or the department, or any other public body, any right it otherwise has to condemn or acquire Key System properties; and Section 5 prohibits the Key System, in such case, from claiming any valuation based upon the contract or its rights thereunder. Sections 30400 to 30405, inclusive, of the Streets and Highways Code grant the power of eminent domain to the department, upon a resolution of necessity by the authority, for purposes of toll bridges or transportation facilities. However, in view of Section 30110, which provides that the authority may only operate the transportation facilities upon default of the contracting party or termination of the contract, we do not believe that the authority and department may condemn or purchase the Key System's properties while the contract is in effect.

The most difficult problem in connection with the acquisition of the Key System's properties is the financing of such acquisition. While Sections 30202, 30203, 30205, and 30206 authorize the issuance of bonds to provide funds for transportation facilities either as a separate issue or as part of an issue to provide for the acquisition or construction of a toll bridge, it is fairly evident that this authorization is designed for the issuance of bonds either before or at approximately the same time as the bridge bonds. Once bonds are issued for the construction or

acquisition of a toll bridge, the tolls and revenues from the bridge are pledged for the payment thereof and other purposes set forth in the bond resolution. The only method by which bonds may be issued and revenues pledged for other purposes is to refund the original bonds and issue, in connection therewith, bonds for the new purpose. This can be done, of course, only if authorized by statute. Sections 30224, 30225, 30226, 30227, and 30232 contain the necessary authorization for the issuance of additional bonds for the purpose of retiring the existing bonds and to enlarge or extend a bridge or change the structure or design thereof to afford new or greater facilities for any type or class of traffic, including railroad or interurban facilities, or to reimburse the authority for expenditures made in connection with any of such purposes. There is, to our knowledge, no similar statutory authorization for an additional bond issue for the purpose of providing funds to purchase or condemn rail transportation equipment and facilities. It is possible that if this latter purpose were made a part of an over-all plan of bridge structure or design change to provide greater railroad or interurban facilities to be operated by the authority or the department, or agents of either, the expenditure for such purpose of a portion of the proceeds from the sale of bonds for such change would be considered valid. We believe, however, that to remove any doubts, it would probably be advisable, if bonds are to be issued to provide funds for the purchase or condemnation of the Key System's properties, to add a provision to the California Toll Bridge Authority Act expressly authorizing an additional issue of bonds for the purpose of acquiring transportation facilities.

In order to use tolls or other revenues from the San Francisco-Oakland Bay Bridge to lease the Key System's properties from it, it would be necessary to amend the law to provide authorization to use tolls and other revenues for such purpose, and it would also be necessary either to obtain the consent of the existing bondholders to such use of the tolls and revenues of said bridge or to refund such bonds.

Another means of obtaining the funds necessary to purchase or lease the Key System's facilities is by a legislative appropriation of money for such purpose (S. & H. C. 30008). Such appropriation could either contain no provision for repayment thereof or contain a provision for repayment from tolls and other revenues of the bridge subject to the terms of any outstanding bonds.

Section 30605 provides for the payment of the cost of operation and insurance of the San Francisco-Oakland Bay Bridge from the tolls and revenues of the bridge. Under Sections 1.01(r) and 7.01 of the existing bond agreement, the authority, if it takes over the operation of the bridge railway, is authorized to pay the cost of maintenance, operation, and insurance of the bridge railway from the revenues of the bridge railway, but not from vehicular toll revenues.

The final question remaining is the effect, if any, upon the financing of the purchase or lease of the Key System's facilities of the provisions contained in Article 2 (Secs. 30651-30658) of Chapter 2 of Division 17 of the Streets and Highways Code with respect to the financing of the Southern Crossing. Assuming that the California Toll Bridge Authority has the power to issue additional bonds to finance such acquisition, we do not believe that the Southern Crossing financing provisions prevent

the exercise of such power. There is nothing in these latter provisions which, in our opinion, requires the maintenance of the status quo with respect to transactions affecting the San Francisco-Oakland Bay Bridge. The Southern Crossing is to be financed by the issuance of bonds pursuant to the California Toll Bridge Authority Act, and the only requirement is that such financing include the pledging of the revenues from the San Francisco-Oakland Bay Bridge as well as those of the Southern Crossing (S. & H. C. 30658). In our opinion, the financing of the acquisition of the Key System's facilities could either be undertaken before the Southern Crossing financing proceedings or be undertaken in conjunction with such proceedings (S. & H. C. 30224, 30232).

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

CHAPTER 4. APPEALS

Article 1. General Provisions

45150. Except as provided in this chapter, whenever the department has given notice to a taxpayer of its order or decision on a petition for redetermination or of its action on a protest of a proposed assessment the taxpayer may pay the amount of the tax as determined by the department and commence and maintain any action or proceeding for the recovery of the amount so paid or any part thereof in any court of competent jurisdiction in accordance with the provisions of the tax law under which the tax was imposed or any other applicable provisions of law and without the taking of any appeal as provided for in this division. If, however, the taxpayer appeals under this chapter, such appeal constitutes his election to proceed under this chapter, and no action or proceeding in any court with respect to the same subject matter may be commenced or maintained until after the final disposition of the appeal by the board.

45151. Whenever an appeal to the board is taken under this chapter from an order or decision of the department on a petition for redetermination or from the action of the department on a protest of a proposed assessment the taxpayer may at any time at or after filing his petition under this chapter pay all or any part of the amount of the tax as determined by the department. Such payment shall have no effect other than to stop the accrual of interest upon the amount so paid and shall not constitute nor be considered to be an admission on the part of the taxpayer that all or any part of the money so paid is due. If as a result of such payment, it is finally determined by the board that an overpayment has been made the board shall order the amount so overpaid to be refunded to the taxpayer and such order may be made without further petition to the board.

45152. If, at any time after its order or decision on a petition for redetermination or its action on a proposed reassessment, irrespective of the taking of an appeal under this chapter, the department determines that the collection of the tax will be jeopardized by delay, it shall give notice of such determination to the taxpayer. Within 10 days after the giving of such notice the taxpayer may deposit with the department such security as the department deems necessary to insure the payment of the tax. If such security is not so deposited, the department may proceed to collect the tax in any manner or by any method provided for in the tax law under which the tax was imposed and, in such case, the collection of any money shall be treated the same as a payment under Section 45151. At any time at which an appeal under this chapter is pending before the board, the board may, at the request of the taxpayer, order the amount of the security so deposited to be decreased to such amount as will, in the opinion of the board adequately protect the interests of the State.

45153. On and after January 1, 1956, "board" as used in Section 19062.9 means Board of Tax Appeals with respect to appeals filed with the Board of Tax Appeals.

Article 2. Taking of Appeals

45175. Any taxpayer may appeal to the board from any action, order or decision of the department which is declared to be appealable by this article.

45176. The denial, refusal, or revocation of any permit or license is appealable.

45177. Any order, decision or action referred to in Section 45079 is appealable, except that no order, decision, or action with respect to a jeopardy assessment or a jeopardy determination is appealable. However, the action of the department on a claim for a refund based upon an overpayment arising out of a jeopardy determination or a jeopardy assessment is appealable in like manner as any other claim for a refund which appealable.

45178. An appeal may be taken to the board from the denial, refusal, suspension or revocation of a license or permit within 90 days after the date of such denial, refusal or revocation.

45179. An appeal may be taken from any action, order, or decision referred to in Section 45079 within 90 days after service of notice on the taxpayer of such action, order or decision.

45180. If the department fails to act upon any claim for a refund for a period of 60 days after the claim for such refund was filed with it the claim or petition shall be deemed to have been denied and an appeal may be taken from such denial within 90 days after the termination of said 60-day period.

45181. An appeal is taken by the timely filing of a petition with the board and the serving of a copy of the petition upon the department. The board may require the filing of such additional copies of the petition as it may deem necessary for its purposes.

45182. REPORT OF THE INTERIM COMMITTEE ON LIVESTOCK AND DAIRIES

The Committee on Livestock and Dairies met three times during the interim, holding one meeting in Sacramento, one in Oakland, and a third in Eureka.

At the organization meeting of this committee which was held here in Sacramento on December 8, 1953, the following subject matters were discussed:

1. Imitation Ice Cream
   (a) Its inroads on the California dairy industry.
   (b) Is the state inspection of imitation ice cream plants as diligent as the milk product plants?
2. Cost of milk inspection.
3. A more clearly defined procedure for inspecting dairy products.
4. The Los Angeles milk market.

At the next meeting of the interim committee which was held in Oakland on December 22, 1953, we heard testimony as to inroads imitation ice cream is making on the California dairy industry; the various phases of the enforcement of the milk control law, and allied subjects.

At the Oakland hearing we received testimony from Judge Willis I. Morrison of the Challenge Cream & Butter Association which due to its involved conditions follows in full:

"DAIRY INSPECTIONS AND DAIRY INSPECTION FEES IN FRESNO CITY AND FRESNO COUNTY

The effect of the existing system is as follows:

(1) Distributors maintaining plants outside the City of Fresno whether they be located within the County of Fresno, or without said county, receiving milk from producing dairies in the Fresno County inspection area pay no dairy inspection fee.

(2) Distributors maintaining plants outside the City of Fresno in Fresno County and in the Fresno approved milk inspection service area pay no plant inspection fee.

(3) Distributors maintaining plants in the City of Fresno pay $.006 per pound of butterfat and $.002 per gallon of skimmed milk on all market milk received at their plants in addition to paying dairy inspection fees to the City of Los Angeles, or to the City of San Jose on the same milk, if it happens to come from one of these inspection areas.

(4) Since distributors maintaining plants in the City of Fresno pay $.006 and $.002 on all market milk received regardless of its source, when one distributor whose plant is located in the city receives milk and pays the City of Fresno fees and possibly also the San Jose or Los Angeles dairy inspection fees and thereafter delivers such milk to another distributor whose plant is located also in the City of Fresno, this second distributor again pays the $.006 and $.002 fees on the same milk.

Dairy Inspections

(1) Inspections of producing dairies in the Northwest corner of Fresno County are made by the approved milk inspection service maintained by the City of San Jose.

(2) Inspections of producing dairies in the South Central portion of Fresno County are made by the approved milk inspection service maintained by the City of Los Angeles.

(3) Inspections of producing dairies in the balance of Fresno County are made by the approved milk inspection service maintained by the City of Fresno. This work, is actually done, however, by the County of Fresno by reason of a contract between the City of Fresno and the County of Fresno entered into in 1948 whereby the County Health Department does all of its own work and does also all of the City Health Department work within the City of Fresno, for which the city pays certain sums of money based on the collections of fees and the population of the city.

Dairy Inspection Fees

(1) Distributors maintaining plants in the County of Fresno, but outside the City of Fresno pay to the City of San Jose a dairy inspection fee on milk received from the northwest portion of the county

and a dairy inspection fee to the City of Los Angeles on milk received from the south central portion of the county, but pay no dairy inspection fee at all on milk received from the balance of Fresno County, which is the area where inspections are carried on by the City of Fresno inspection service.

(2) Distributors maintaining plants outside of Fresno County likewise pay no dairy inspection fee on milk received from producing dairies in the area serviced by the City of Fresno approved inspection service. This situation results from the non-existence of a county ordinance concerning milk inspections and the absence from the city ordinance of a provision for the collection of fees except from plants located within the City of Fresno.

(3) Distributors maintaining plants in the City of Fresno pay a dairy inspection fee to the City of San Jose and to the City of Los Angeles for milk received by them from the south central and northwest portions of the county respectively, and in addition pay $.006 for each pound of butter fat received at their plants, and $.002 for each gallon of skimmed milk received into their plants regardless of its source. These $.006 and $.002 payments apply to market milk only, and are charged pursuant to Section 12 of Ordinance 3191 of the City of Fresno. There is no breakdown between dairy inspection and plant inspection costs or charges in these fees charged by and paid to the City of Fresno.

Milk Products Plant Inspections

(1) Distributors' plants located outside the City of Fresno and in Fresno County within the approved inspection service area of the City of Fresno are inspected by the City of Fresno as the approved milk inspection service. However, as in the case of dairy inspections the work is actually done by the County of Fresno pursuant to the contract between the city and the county.

(2) Distributors' plants located in the City of Fresno are likewise inspected under the Fresno City milk inspection service with the work again being done by the County pursuant to the above-mentioned contract.

Milk Products Plant Inspection Fees

(1) Distributors maintaining plants in Fresno County outside the City of Fresno, and within the City of Fresno inspection area pay no fee at all to the City of Fresno for the inspections made.

(2) Distributors maintaining plants within the City of Fresno, as above-mentioned in connection with dairy inspection fees, pay $.006 on each pound of butterfat in market milk and $.002 on each gallon of skimmed milk of market milk grade with, as above-mentioned, no breakdown between the amount allocable to dairy inspection and the amount allocable to plant inspection fees."

It was the feeling of the committee that some sort of legislation or better understanding inside the various inspection departments involved will be necessary to clear up this very serious situation which exists in the Fresno area with respect to milk inspection and milk inspection fees.

MILK ACT

The committee was also able to have testimony from the Safeway Stores presented to us by Mr. Willard S. Johnson, Attorney for Safeway Stores in which he attacked the constitutionality of the Desmond Act in the following language:

"The operation of resale price control of milk today is a public scandal. It is well that this committee is giving it scrutiny.

Safeway's complaint is confined to the fixing of *resale* prices which is done under the Desmond Act. Safeway does not attack—rather it supports—the Young Act under which minimum producer prices are fixed and producers otherwise protected. The Young Act protects producers from being injured by price wars at the resale level. Until its enactment the producer was the proverbial innocent bystander and always got hurt. By requiring (1) that the farmer be paid a minimum price; (2) that distributors be bonded; and (3) that distributors not engage in unfair trade practices, the Young Act prevented such injury to the farmer.

In most important areas in other states, orderly marketing of fluid milk has been achieved by producer programs alone. No one needs resale price control and over the years it has become a festering sore threatening with its evil infection the welfare of all interests in the milk industry: consumers, producers, distributors and stores.

Today the Desmond Act operates as a scheme by which monopoly-minded distributors sought to get on the farmers' bandwagon and eliminate competition between themselves in the resale of milk. It was based upon the assumption—wholly false today—that the public interest required the substitution of monopoly pricing for free and fair competition in the distribution of milk.

On paper the Desmond Act is a Socialist's dream. First it envisions that there are in the State many different marketing areas, each isolated from all others and requiring its separate governmental regulations. Each is to be the subject of separate bureaucratic price fixing and system of red tape.

Second, the Desmond Act envisions that resale prices will be set by omniscient administrators at a level just sufficient to return a reasonable profit—no more, no less—to the most inefficient of the distributors and retail stores whose facilities are necessary to supply the public demand for milk.

Both of these basic assumptions in the act are false, as is the underlying conception that regulation by bureaucrats is to be trusted over regulation by fair competition and the law of supply and demand.

We think the Desmond Act unconstitutional and that it should be repealed, thereby strengthening producer price control and the provisions outlawing unfair distributor practices. Our views are spelled out in more detail in the two briefs which we filed with the Superior Court in Kings County prior to its grant of injunction. Copies of these briefs are respectfully submitted with this statement."

Mr. McCollister, a member of the committee, questioned almost all of the witnesses with respect to producers and distributors having some method of recourse from decisions of the Bureau outside of the courts.

The committee then decided to have Mr. McCollister ask for an opinion from the Legislative Counsel, which he did in the following language:

"QUESTION NO. 1

You ask what remedies producers and distributors of milk have against price determinations of the State Department of Agriculture.

OPINION NO. 1

In our opinion the only remedy available to such producers and distributors is a court action to review the order of the director.

ANALYSIS NO. 1

Minimum prices chargeable by producers of fluid milk are set by the Director of Agriculture as part of a stabilization and marketing plan (Ag. Code Sec. 4281).*

Prior to putting such plan into effect, the director is required to hold a public hearing upon giving notice either by mail or publication, to all producers and distributors of record who may be subject to the provisions of the plan. The purpose of this hearing is to give interested parties an opportunity to present their views (Sec. 4273).

If, after the hearing the director determines that the proposed plan will tend to accomplish the purposes set forth by law, he issues an order to all producers of record who will be subject to the provisions of the plan, declaring the plan in effect within 30 days of the hearing (Sec. 4273).

The procedure for setting minimum prices chargeable by distributors is similar to that set forth above. The director, after making certain preliminary investigations and examinations, is required to hold one or more public hearings. Notice of these hearings must be given to every distributor and retail store whose name appears upon the records of the department and who is located in the marketing area involved. Notice must also be given to all distributors and retail stores who file a request with the department for such notice (Sec. 4354). Following the hearings, the director issues an order to all distributors and retail stores of record located in the marketing area declaring the new prices in effect within 30 days from the date of the hearings (Sec. 4360).

The only resort open to producers or distributors aggrieved by the action of the director is to the courts. There is no provision authorizing reconsideration by the director. Under Section 4255 of the Agricultural Code, any order of the director substantially affecting the rights of any interested party may be reviewed by any court of competent jurisdiction. The action must be commenced within 30 days after the effective date of the order complained of or within 30 days after the injurious effect complained of becomes reasonably apparent.

Another possible course open to producers is to seek an amendment of the stabilization and marketing plan after it has become effective. If the director receives a petition signed by producers representing

* All references are to the Agriculture Code.

not less than 55 percent of the total number of all producers and not less than 55 percent of the total production of all producers who are eligible to petition the director for the amendment of a plan, he must hold a public hearing to determine whether such plan should be amended (Sec. 4248). The difficulty with this remedy is that it will not prevent the established prices from going into effect. There is no similar provision relating to distributors.

QUESTION NO. 2

You also ask whether a request for a new administrative hearing would be sufficient to delay the effective date of the prices, and how a procedure for effective review could be worked out.

OPINION NO. 2

In our opinion a request for a new administrative hearing in itself would not be sufficient to delay the effective date of the new prices.

ANALYSIS NO. 2

A provision authorizing the director to reconsider his order establishing minimum milk prices would not in itself be sufficient to delay the effective date of the new prices. The order would still go into effect within 30 days after the hearing or hearings unless the law was amended to extend this period.

As to what would constitute a procedure for effective review depends on what is desired.

If the director is merely to be given an opportunity to reconsider his order and to hold additional hearings to aid him in doing so, all that would be necessary would be a provision authorizing him to take such action. A period of time, such as 30 days after his order, could be set during which requests for rehearing could be made and during which the new prices would not take effect.

On the other hand, if some procedure is sought by which to compel the director to grant a rehearing, this might be done by the petition of a specified percentage of producers or distributors in the area, and as above, a time limit could be imposed during which the new prices would not take effect.

A procedure such as you have suggested under which a review could be obtained upon protest of a majority of the gallonage producers, placing the funds collected under the new prices into escrow until a new hearing is held, appears to us to be feasible. A time limit for protests, the details of the escrow, and other such matters would have to be worked out.''

It is the opinion of the committee that the opinion of the Legislative Counsel as set forth in Opinion No 2 of Mr. McCollister's inquiry is sufficient basis for the introduction of some sort of remedial legislation. Mr. Lynn Bramkamp's (Mgr. of Assoc. Dairymen) testimony was pointed at the method of handling hearings and arriving at standards for the setting of price structures in the various milk marketing areas. It is the feeling of the committee that some legislation may be introduced by the affected people to correct some of the more obvious of

these so-called unsatisfactory methods. So that there may be a check on their recommendations they are printed below:

"In Mr. Bramkamp's opinion the separate premise requirement is not reasonable. In other words, it is very difficult for a legislature to control a food product He felt that as long as a product was clearly labeled as to what it was, that the word imitation would have an effect upon the purchasers. A brief discussion followed in regard to the use of labels; and it was recommended to obtain information in this regard. (See Exhibits 'C' and 'D').

A brief discussion developed regarding the possibility of using a tracer in real ice cream. Mr. Bramkamp felt since it would be of no benefit to the producer that such a method would not be too successful.

From questions by Mr. McCollister, Mr. Bramkamp said that he expected reduction in price in some areas as a result of the milk control hearings. Bramkamp said that such board hearings left them certain alternatives—

1. Request another hearing—this raised the question of whether or not this acted as an injunction. (See Exhibit 'E').

2. They could seek an injunction from the courts seeking an interpretation of the law.

3. They could criticize the Department of Agriculture for not observing all the standards of the act.

4 Request that a method be established by which an opportunity would exist to offset the bureau findings; consequently stop the habit of the bureau acting as judge, D. A , jury and auditor.

Upon questioning by Mr. Bellotti, Mr. Bramkamp said that by the price established by the bureau on bulk dispenser milk, the intent of the bill allowing the dispensers had not been carried out. Briefly, the price established lends no incentive to such a change."

LABELING

Some questioning and discussion occurred concerning the handling of inspection in imitation ice cream plants and it was developed that any inspection of substances for imitation ice cream is made only at the plants and any inspection so far as the quality of the products is concerned is left up to the food and drug people.

In this same discussion Mr. Lynn Bramkamp stated that, in his opinion, the separate premise requirement is not reasonable. He felt that as long as a product was clearly labeled as to what it was, that the word "imitation" would have an effect upon the purchasers.

A brief discussion followed as to the use of labels and it was recommended to obtain information in this regard.

Mr. McCollister was then appointed a Committee of One to submit questions and get opinions from the Legislative Counsel as to what constituted proper labeling. This we consider so important as to include in full:

"QUESTION

You have asked us whether tuna may validly be labeled and sold as 'meat' rather than 'fish'. The intention is to sell the tuna as hamburger and use it in the preparation of frankfurters.

OPINION

In our opinion the answer to your question is in the negative.

ANALYSIS

The requirements as to the labeling and quality of foods are to be found in the California Pure Food Act (Div. 21, Ch. 3, H. & S. C.). 'Food' is defined therein by Section 26450 * as follows:

> ' "Food" includes all articles used for food, drink, liquor, confectionery, condiment, or chewing gum by man or other animals, whether such articles are simple, mixed or compound.'

Meat and tuna appear to be included within the term 'food' and are therefore subject to those provisions in the act relating to adulteration and misbranding.

It is to be noted that both the adulteration and misbranding of food are prohibited (Sec. 26515). A food is deemed to be misbranded if its labeling is false or misleading in any particular or if it is offered for sale under the name of another food (Sec. 26490). In this connection the State Board of Public Health may promulgate regulations establishing for any food or class of food a reasonable definition and standard of identity whenever in the board's judgment such action would promote honesty and fair dealing in the interest of consumers (Sec. 26540). A food would then be considered misbranded if it fails to conform to such definition and standard (Sec. 26493). However, research has failed to disclose any definition or standard of identity of 'meat', 'tuna' or 'fish' in the regulations of the State Department of Public Health.

In the absence of such regulations a food is deemed to be misbranded unless its label bears the *common or usual name* of the food, if one exists (Sec. 26495). Of course, the questions whether the label correctly states the identity and composition of a food and bears the common or usual name are to be answered in the light of the facts of each particular case. With respect to this determination Section 26456 provides:

> 'If an article is alleged to be misbranded because the labeling is misleading, or if an advertisement is alleged to be false because it is misleading, then in determining whether the labeling or advertisement is misleading, there shall be taken into account (among other things) not only representations made or suggested by statement, word, design, emblem, sound, or in any combination thereof, but also the extent to which the labeling or advertisement fails to reveal facts material in the light of such representations or material with respect to consequences which may result from the use of the article to which the labeling or advertisement relates under the conditions of use prescribed in the labeling or advertisement thereof or under such conditions of use as are customary or usual.'

There appears to be no general definition in our state law which may be used to determine what generally constitutes 'meat.' Nor are there any cases helpful in this respect. While *Webster's New International Dictionary, Second Edition, Unabridged,* defines the word

'meat' broadly as 'food in general' or 'anything eaten for nourishment,' it also gives the following more confining definition:

'The flesh of animals used as food; as a breakfast of bread and fruit without meat; specif., flesh, as distinguished from *fish* or *fowl*. Commercially, in the United States, *meat* means the dressed flesh of cattle, swine, sheep, or goats, * * *'

We believe that this latter definition is the one which is more in accord with the common conception of the term 'meat' in the minds of consumers whenever a label meets this designation without further description. The consumer would not usually or customarily associate that term with tuna or any other fish. It would appear to be misleading to the consumer, who would expect something other than fish. If, on the other hand, the word 'tuna' was included on the label as well as 'meat,' it is doubtful whether any such misunderstanding would thereby arise.

There is an additional objection in attempting to sell tuna as hamburger. Section 26472 provides in part:

'A food shall be deemed to be adulterated:

* * * * * * *

(f) If it be chopped or ground beef, *or hamburger containing any substance other than the striated muscle of fresh beef, except those substances approved by the State Department of Public Health,* or if the total fat content (determined by either extract method of analysis) of chopped or ground beef, or hamburger is in excess of 30 percent.

Nothing in this subdivision shall be deemed to prohibit the use of monosodium glutamate in such chopped or ground beef and hamburger. * * * ' (Emphasis added.)

Thus, if tuna were to be labeled and sold as hamburger, it would be considered an adulterated food unless approved by the State Department of Public Health.

It is our conclusion, therefore, that under existing provisions of law tuna may not be labeled or sold as meat. In order to accomplish this result it would be necessary for the Legislature to amend the California Pure Food Act to permit tuna to be so labeled and sold notwithstanding any other provision of law. Another possibility would be for the State Board of Public Health to promulgate a regulation defining 'meat' so as to include 'tuna'.''

Mr. McCollister also inquired of the Legislative Counsel concerning butter and oleomargarine labeling. This opinion is so important that it is quoted in full:

QUESTION

''You ask whether it would be legal under California law to market a product containing 40 percent butterfat and labeled 'Dairy Spread' and stating on the label its contents.

OPINION

In our opinion such a product may not be marketed as so labeled.

ANALYSIS

Butter is defined in Section 590 of the Agriculture Code as follows:

'590. Butter is the product made by gathering the fat of fresh or ripened milk or cream into a mass, which also contains a small portion of other milk constituents, with or without salt, or a harmless coloring matter. Butter shall be clean and nonrancid and shall contain not less than 80 percent of milk fat.'

As the product in question contains only 40 percent butterfat, it clearly does not qualify as butter. However, we believe that it would qualify as oleomargarine which is defined in Section 640 as follows:

'640. The following manufactured substances, mixtures, and compounds with or without butter, milk or cream, are "oleomargarine" or "margarine":

(a) All substances heretofore known as oleomargarine, margarine, oleo, oleomargarine oil, butterine, lardine, suine, and neutral.

(b) All mixtures and compounds containing any edible oils or fats other than milk fat, and *all mixtures and compounds containing milk fat which do not conform to the standard for butter, when made in imitation or semblance of butter or when so made, intended to be sold as or for butter or butter substitute.*' (Emphasis added.)

The labeling requirements for oleomargarine are quite strict. It is unlawful to sell oleomargarine unless the package containing the product has printed thereon the word 'oleomargarine' or 'margarine', in letters at least as large as any other type of lettering on the label and of a color in strong contrast to that of the package. The package must also have printed thereon the name and address of the manufacturer or distributor, the net weight of the contents and a full and accurate statement of all the ingredients contained in the product (Sec. 644).

Furthermore, even though the product in question was marked in conformity with the above requirements, the use of the name 'Dairy Spread' would probably preclude its sale. Section 647 of the code provides:

'647. No person shall in connection or association with the sale or advertisement of any oleomargarine or margarine or any substance designed to be used as a substitute for butter or as a substitute for cheese, represent or suggest by any means whatsoever that such substance is a dairy product, except that nothing herein contained shall prevent an accurate and full statement of all of the ingredients contained in such substance.'

Although the courts have not had occasion to construe this section, it appears clear that it prohibits the placing of any language on a carton of imitation butter which might possibly mislead the public into believing it to be a dairy product. This is true even though a statement of the contents of the product is also printed on the container. We would hesitate to advise that any use of the word 'dairy' in conjunction with the name of the product would escape this prohibition.

To authorize the sale of the product of which you speak, it would be necessary to amend the law relating to oleomargarine either to permit the desired marking to be used or to except the new product from the definition of oleomargarine and expressly permit its sale.

If you do not desire to change the laws relating to oleomargarine, it is suggested that a new article be added to the Agricultural Code expressly relating to the new product, and authorizing its sale notwithstanding the provisions contained in the oleomargarine sections."

It was brought out in the Eureka hearing that there had not been a costing of the Humboldt area for several years; to which the Humboldt people complained without any exceptions.

BEAR DEPREDATION

It was brought out by Mr. DeWitt Nelson, State Forester, and many others that the depredation of bears in the redwood areas of Humboldt County was of such serious magnitude as to require some remedial action by whatever authority had the legal responsibility in the matter. This seemed a very bazaar request until testimony was presented by some of the large lumber companies who presented testimony that unless it were corrected they would very probably give up any of their reforestation practices. It is our understanding that Mr. Lowrey and his committee are studying this problem through Fish and Game, and that there will be some recommendations from them.

CONCLUSION

1. It is the conclusion of the committee that in all those matters relating to the Milk Control Act that it would be improper at this time because of the pending court case in Kings County for this committee to suggest any changes.

2. We believe it would be proper for the state department affected to investigate the inspection problem in the Fresno area with a view to correcting what is obviously a mix-up in the matter of fees in that area.

3. The committee feels that the Bureau of Milk Control should have somewhat more funds to make a more comprehensive costing in all of the milk sheds.

4. There would seem to be a need for a better control of the raw products going into imitation milk and butter products (oleomargarine). It is believed there could be helpful legislation with respect to labeling of imitation products.

5. It is hoped that the proper agencies will take charge of and provide remedial action of some kind with respect to bear depredation.

By Mr. Lyon:

House Resolution No. 73

Relating to the continuance of the Assembly Interim Committee on Education

Resolved by the Assembly of the State of California, As follows:

1. The Assembly Interim Committee on Education, created by House Resolution No. 170 of the 1953 Session and continued by House Resolution No. 22 of the 1955 Session, is further continued as an Assembly committee at this session, through April 6, 1955, with the membership and with all the rights, powers and duties

possessed by the committee and its members immediately prior to the commencement of this session. Vacancies occurring or existing in the membership of the committee shall be filled by the appointing power

2. The committee is authorized to act during this session of the Legislature, through April 6, 1955, including any recess, with authority to file its final report or any subcommittee report not later than that date.

3. The provisions of the Joint Rules of the Senate and Assembly and of the Temporary and Standing Rules of the Assembly, as soon as such rules are adopted at this session or amended from time to time, become applicable to this committee and its members.

4. The unexpended balance of the money heretofore made available to the committee continued by this resolution shall continue to be available for the expenses of the committee and its members and for any charges, expenses, or claims it may incur under House Resolution No. 170 of the 1953 Session, House Resolution No. 22 of the 1955 Session and this resolution, to be disbursed in the manner heretofore provided.

By Mr. Coolidge:

House Resolution No. 74

Relative to water resources legislation and the calling of a special session thereon

WHEREAS, Almost 6,000 bills have been presented to this Legislature for consideration at the current 1955 Regular Session; and

WHEREAS, Numerous of these bills and measures involve problems of extraordinary complexity and importance whose legislative solution will affect materially the economic and general welfare of the State of California for generations to come; and

WHEREAS, Among them are many bills relating to projects for the use of our water resources, including some pertaining to the Feather River Project and the San Luis Reservoir; and

WHEREAS, The period permitted for the consideration of all bills and measures introduced is so limited by the State Constitution as to make it virtually physically impossible for the Legislature at this session to give fair and adequate consideration to the bills before it relative to the use of our water resources, if it also is to give like consideration to bills on other matters before it; now, therefore, be it

Resolved by the Assembly of the State of California, That the Governor of the State of California is hereby requested to issue his Proclamation convening the California Legislature in extraordinary session following the final adjournment of the current regular session and not later than the 1956 Budget Session for the purpose of considering bills relating to projects for the use of our water resources similar to those now before the Legislature; and be it further

Resolved, That it is in the best interests of the people of the State of California that pending the issuance of such Proclamation no action be taken by this Legislature on any bill now before it relating to the use of the State's water resources; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to deliver a suitable copy of this resolution to the Honorable Goodwin J. Knight, Governor of the State of California.

Resolution read, and referred to the Committee on Rules.

Under the existing law when a teacher fails to renew his certification documents at the legally prescribed time, his salary cannot be paid for the period the documents are not in force. This provision works a severe hardship on the many teachers who by mistake, or because of the pressure of teaching duties, or otherwise, are late in renewing their documents, but who continue to teach in their usual positions during the period the documents are not in force and who are assured by the school district authorities that their salaries will be paid for such period as soon as the renewal is effective.

In order to restore the confidence of such teachers in the Public School System, and to encourage them to remain in the teaching profession, rather than seeking employment in other fields subject to fewer strict regulations, at a time when an increase rather than a decrease in the number of teachers is essential to furnish an adequate education to the children of the State, it is necessary that this act go into immediate effect."

The Director of Finance shall determine the amount of the bonded indebtedness that was incurred by the district for each grade level, when bonds were issued and sold for purposes of more than one grade level. [When one or more additional apportionments have been made to a grade level of a school district, conditioned upon the issuance and sale of additional bonds of the district, the Director of Finance shall determine and include in his certificate the amount raised and to be

The Director of Finance shall determine the amount of the bonded indebtedness that was incurred by the district for each grade level, when bonds were issued and sold for purposes of more than one grade level. [When one or more additional apportionments have been made to a grade level of a school district, conditioned upon the issuance and sale of additional bonds of the district, the Director of Finance shall determine and include in his certificate the amount raised and to be raised by the district during the current fiscal year for the payment of principal and interest on that portion of the additional bonded indebtedness of the district that was incurred for each such grade level as a condition to receiving such additional apportionment; and such amount so certified shall be included in the "second computation," as herein defined.]

SEC. 5 This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect The facts constituting such necessity are:

Pyramiding of local property taxes in school districts which have received loans from the State School Building Fund has created serious problems in financing the current operation of the schools and threatens the success of bond issues to finance

construction of necessary school facilities. Failure of such bond issues would curtail the educational opportunity of children in many of our rapidly growing communities for several years. In order to alleviate this situation so that adequate educational opportunity for all of the children of this State will be provided it is therefore necessary that this act take effect immediately."

Our days are Thine; may we live them as in Thy sight. Do Thou so shine upon this day that we may see clearly what we ought to do, and be faithful in doing it. Help us to lift our labor above the domain of the ordinary, that we may see opportunities for service in what can become drab routine. Grant us Thy peace and such prosperity as may be good for us Look down with the eyes of Thy mercy upon the sins and misery of men, and help us in some way to minister to their needs. So may the words of our mouths and the meditation of our hearts be always acceptable in Thy sight, O Lord, our strength and our redeemer.—AMEN.

(b) The commissioner may authorize official inspection stations to issue a certificate of inspection for a motor vehicle registered outside of this State upon the presentation of a valid certificate of inspection issued by another state within the preceding six-month period whenever the commissioner determines that the inspection requirements of such state are substantially similar to those of this State, and no fee shall be charged by the inspection station for the issuance of the certificate. The certificate shall be valid for a period of six months from the date of issuance, or until such vehicle is registered or required to be registered in this State, whichever first occurs. Any motor vehicle which is registered in a state which either has no inspection requirement or whose requirements are not substantially similar to those of this State, as determined by the commissioner, shall not be operated on the highways of this State, unless within 10 days after entering the State, such vehicle has been inspected and a certificate of inspection issued therefor under this chapter.

(c) The commissioner may permit any person or municipality who has registered in his or its name in this State more than 25 motor vehicles, and any dealer with respect to motor vehicles held by him for sale or demonstration, who maintain approved inspection facilities approved by the commissioner, to conduct, under regulations prescribed by the commissioner, the inspection required by this chapter

(d) The commissioner may, pursuant to law, appoint and remove inspectors, consultants, and such other assistants and employees as he deems necessary to carry out the provisions of this chapter.

(e) The commissioner may make and enforce such rules and regulations as may be necessary for the administration and enforcement of this chapter.

687.3. Official Inspection Stations.

(a) The commissioner may license official inspection stations to conduct the inspections required under this chapter and to issue certificates of inspection. Every application for a license to operate a station shall be made upon a form furnished by the commissioner, signed by the applicant, and shall contain such information as the commissioner may require to determine the identity, character, and qualifications of the applicant. The application shall be accompanied by a fee of five dollars ($5), which fee shall not be refunded if the applicant fails to qualify for a license. The commissioner shall issue a license to an applicant, after appropriate inquiry and investigation, only when he is satisfied that the applicant is properly qualified to operate a station and that the station itself is properly equipped and will be operated properly by personnel competent to make inspections. The commissioner may issue a temporary permit to any applicant authorizing the applicant to operate an official inspection station until the commissioner completes his investigation and determines whether a license should be issued or refused. Any such permit shall be valid for a period not in excess of 60 days from the date of issuance. No temporary permits shall be issued after six months have elapsed from the effective date of this chapter. All licenses and renewals thereof shall expire on August 31 of the year following the date of issuance or renewal. The commissioner may prescribe minimum standards of equipment and personnel for the operation of inspection stations.

(b) Each official inspection station shall keep a record of each inspection made by it and a record of each certificate of inspection issued by it. The records shall be kept for a period of two years. The commissioner shall furnish appropriate signs to each official testing station.

(c) The commissioner shall supervise and inspect official inspection stations. The police forces of all municipalities of the State shall assist the commissioner in enforcing the provisions of this chapter to insure that all official testing stations comply with the provisions of this chapter and with all rules and regulations adopted pursuant thereto. Every official inspection station and its official records shall be open for inspection at reasonable times by any police officer or by any person designated by the commissioner to inspect such stations.

687.4 Suspension and Revocation of Licenses. A license to operate an official inspection station may be suspended or revoked upon written notice by the commissioner for any one of the following causes:

(a) Failure to conduct inspections in the manner prescribed by the provisions of this chapter or violation of any rule or regulation adopted pursuant thereto, or improperly issuing any certificate of inspection.

(b) Conviction of a crime involving moral turpitude.

(c) Fraud, deceit, or misrepresentation in obtaining the license or in conducting the operations of an official inspection station.

(d) Charging excessive fees, rates, or prices for the making of any adjustment, correction, or repair of any equipment found to be defective by any official inspection. Fees, rates, or prices exceeding those established by the latest edition, at the time this chapter becomes effective, of "Motor Age Flat Rate and Service Manual" published by the Chilton Company Incorporated, Philadelphia, Pennsylvania, shall be deemed excessive within the meaning of this subdivision.

(e) Violation of any provision of this chapter or any rule or regulation adopted pursuant thereto.

The proceedings for the suspension or revocation of any license of an official inspection station under this chapter shall be conducted in accordance with the provisions of Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code, and the commissioner shall have all the powers granted therein. A license, however, may be temporarily suspended, upon written notice, by the commissioner, pending any prosecution, investigation, or hearing. Whenever any person's license to operate an official inspection station is revoked, no license shall be issued to such person until after the expiration of one year from the date of such revocation.

687.5. Inspections. (a) No certificate of inspection shall be issued by an official inspection station for any motor vehicle unless the equipment specified in Section 687.1 has been inspected by the station and the equipment is found to be in a safe and proper condition and conforms with the provisions of this code Each certificate issued by a station shall include the date of inspection and the registration number of the vehicle for which it is issued. The certificate shall be affixed by the station to the inside surface of the lower center of the rear window of the vehicle, except in the case of a vehicle having a removable or folding top, the certificate shall be affixed to the inside surface of the upper right hand corner of the windshield or on the center of the windshield behind the rear view mirror.

(b) If the inspection discloses that any adjustments, corrections, or repairs are required to be made to make such equipment conform to the provisions of this code, the station shall inform the owner of the motor vehicle of such fact in writing on a form prescribed by the commissioner and shall forward a report of the inspection to the commissioner. Upon receipt of the report, the commissioner shall immediately send a written notice to the owner of the motor vehicle stating that unless the necessary adjustments, corrections, or repairs of the deficient equipment are made within 30 days from the date of mailing of such notice, the registration of the motor vehicle shall be suspended. If the commissioner has not received within 30 days after the expiration of such 30-day period a report from an official inspection station certifying that the required adjustments, corrections, or repairs have been made and a certificate of inspection issued for the motor vehicle, the commissioner shall send a duly certified report of such fact to the Department of Motor Vehicles and the department shall suspend immediately the registration of such vehicle until such time as the commissioner notifies the Department of Motor Vehicles that the required adjustments, corrections, or repairs have been made and a certificate of inspection issued for the vehicle. The owner of the motor vehicle may have any such adjustments, corrections, or repairs made in any manner and by whomever he shall choose.

(c) The commissioner shall supply each official inspection station with certificates of inspection for a fee of ten cents ($0.10) for each certificate. Each official inspection station shall stock a sufficient number of certificates to meet its demand through the entire inspection period. Unused certificates may be returned to the commissioner during the month of July and January, and the operator of the station shall be refunded ten cents ($0.10) for each certificate returned. The commissioner shall remit all money collected under this subdivision and under Section 687.3 to the State Treasurer, who shall deposit it in the Motor Vehicle Fund.

687.6. Certificates of Inspection. (a) The certificates of inspection issued by the commissioner to official inspection stations shall be numbered serially, and shall bear the license number of the particular inspection station. Each certificate shall also have a number measuring two inches in height printed in the center thereof, which number shall indicate the month of expiration of the certificate. Certificates of inspection issued during the following months shall bear the following numbers:

April	10
May	11
June	12
October	4
November	5
December	6

Each certificate shall be valid for a period of six months following the end of the month in which the certificate is issued, provided, however, that said period may be less than six months should the State of California issue new license plates to any motor vehicle which results in a change in the motor vehicle group set forth in paragraph (b) of this section, in which event inspection periods shall be determined by the last number of the new license plate so issued. Provided further that certificates of inspection issued after reinspection in July, August, or September of any year following repair work shall expire on December 31 of that year and certificates of inspection issued after reinspection in January, February, or March of any year following repair work shall expire on June 30 of that year.

(b) Staggered inspection periods shall be provided by dividing motor vehicles into three groups. Motor vehicles whose license plate numbers end in 0 to 3, inclusive, shall be in Group 1; those ending in 4 to 6, inclusive, in Group 2, and those ending in 7 to 9, inclusive, in Group 3.

(c) Every owner of a motor vehicle in Group 1 shall have such vehicle inspected as required by this chapter in April and October of each year.

(d) Every owner of a motor vehicle in Group 2 shall have such vehicle inspected in May and November of each year.

(e) Every owner of a motor vehicle in Group 3 shall have such vehicle inspected in June and December of each year.

687.7. Inspection Fees. The fee charged by an official inspection station for making any inspection required by this chapter shall not exceed fifty cents ($0.50). No additional fee shall be charged by any station for reinspecting any motor vehicle to determine whether any adjustments, corrections or repairs ordered to be made by the commissioner have been satisfactorily completed if such station itself makes the adjustments, corrections, or repairs.

687.8. Penalties. (a) Any person who issues a certificate of inspection without having made an inspection of such vehicle, or any person who wilfully issues a certificate knowing that any or all of the equipment required to be inspected under this chapter does not comply with the requirements of this code or of any rule or regulation adopted pursuant thereto, shall be guilty of a misdemeanor.

"SECTION 1. Chapter 18.5 is added to Division 3 of the Education Code, to read:

CHAPTER 18.5. APPORTIONMENTS TO NEWLY FORMED JUNIOR COLLEGE DISTRICTS

7661. Whenever any junior college district is formed which includes a high school district maintaining a separate day junior college, the governing board of the junior college district may apply to the Superintendent of Public Instruction for an apportionment pursuant to this chapter.

7662. The application shall be made in the form and manner prescribed by the Superintendent of Public Instruction not later than the effective date of the formation of the junior college district for all purposes. Each application shall include an estimate of the average daily attendance of pupils in the regular day junior college of the high school district during the fiscal year immediately preceding the effective date of the inclusion of such high school district in the newly formed junior college district signed by the county superintendent of schools having jurisdiction over the junior college district. Such estimate shall be based upon enrollment in the regular day junior college of the high school district included in such junior college district during the current fiscal year and shall be subject to the approval of the Superintendent of Public Instruction.

7663 Not later than 30 days after such application the Superintendent of Public Instruction shall apportion to each applicant school district from the State General Fund as an advance against future apportionments from the State School Fund to such district an amount equal to one-half of the basic state aid to which the district is entitled during the first fiscal year of the existence of such district based upon the estimated average daily attendance of pupils in the regular day junior college of the high school district during the fiscal year immediately preceding the effective date of the inclusion of such high school district in the newly formed junior college district for all purposes.

7664 The Superintendent of Public Instruction shall furnish an abstract of all apportionments made to junior college districts of any county under this chapter to the State Controller, the Department of Finance and to the county auditor,

county treasurer and county superintendent of schools of the county and shall certify such apportionments to the State Controller who shall thereupon draw his warrants on the State General Fund in favor of the county treasurer of each county for the amounts apportioned to the junior college districts of the county

7665. All moneys received by the treasurer of a county under this chapter shall be credited by the treasurer to the general fund of the junior college district of the county exactly as apportioned by the Superintendent of Public Instruction.

7666. During each of the two successive fiscal years commencing with the first fiscal year of the existence of a newly formed junior college district for all purposes the State Controller shall deduct from apportionments made to each such district from the State School Fund under this division one-half of the amount apportioned to such district under this chapter and shall pay the same into the State General Fund.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under the existing law whenever a junior college district is formed it is required to establish and maintain one or more junior colleges the first fiscal year of it existence for all purposes In order to do so the newly formed district is authorized and required to prepare school district budgets for the ensuing school year, elect and appoint employees and administrative personnel for such year, and exercise other powers and duties vested in governing boards of junior college districts, not inconsistent with other provisions of the Education Code. However, because funds with which to employ administrative personnel are not available to newly formed junior college districts prior to the first fiscal year of the existence of such districts for all purposes, it is exceedingly difficult to secure the necessary services for the preparation of budgets, elect and appoint employees for the ensuing school year and perform other duties required of junior college boards in preparation of the ensuing school year. In order to provide the necessary funds with which to exercise the powers and duties conferred upon governing boards of newly formed junior college districts prior to the date such districts become effective for all purposes, it is necessary that this act take effect immediately."

Amendment No. 6

Amendments read, and adopted.

Bill ordered reprinted, engrossed, and to be re-referred to the Committee on Education.

PRINTER'S NOTE—There being no 7-point strikeout type available, the material which should appear in strikeout type in the following amendment is indicated by being enclosed within brackets.

Amendment No. 4

On page 1, strike out all of lines 3 to 18, inclusive, and insert

"1743. A person shall not be [appointed to any office by virtue of this part unless he is a qualified elector of this State, nor shall any person be so] appointed or employed *by virtue of this part* who is interested in any vessel sailing or plying in and out of or on the inland waters of the Bay of San Francisco, as owner, mortgagee, or otherwise, or as a stockholder in any company owning such vessels, or who is a consignee, the general or freight agent or manager of any such vessel, or agent or other employee of the owner of any such vessels, or who is engaged in the business of marine insurance, or of procuring such insurance, or who is engaged as a stevedore, in loading and discharging such vessels.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The San Francisco Harbor is one of the main vital arteries of commerce for our State and its smooth operation is unquestionably necessary for the public health and well-being of our people. However, at the present time there is a vacant position of port manager as the executive officer of the Board of State Harbor Commissioners for San Francisco Harbor. While the selection of the best qualified person from anywhere in the United States to fill the vacancy is essential for the proper management of the harbor, Section 1743 of the Harbors and Navigation Code prevents such selection. In order that such selection could be made as soon as possible and thereby better preserve the public health, safety, and welfare, it is necessary that this act take effect immediately."

Amendments read, and adopted.

Bill ordered reprinted, engrossed, and to be re-referred to the Committee on Transportation and Commerce.

RESOLUTIONS

The following resolution was offered:

By Mrs. Davis:

House Resolution No. 79

Relative to ascertaining the necessity or desirability of constructing a State Building in Redding

WHEREAS, The City of Redding is so located as to provide a central point at which citizens residing at considerable distances from the seat of government in Sacramento may conveniently transact business with various state agencies; and

WHEREAS, This fact is recognized by many state agencies which now operate branch offices in the City of Redding for the convenience of citizens of Northern California; and

WHEREAS, Most of said branch offices are located in rented quarters, at considerable expense to the State and its citizens, and such expense might be materially reduced if a state building to house such agencies were constructed in the City of Redding; now, therefore, be it

Resolved by the Assembly, That the Director of Finance and the State Public Works Board are hereby requested to conduct a study and survey designed to ascertain whether the public interest and the cause of governmental economy would be better served by the construction of a state building in Redding, than by the continued renting of quarters in that city by numerous state agencies, and to report their findings to the Assembly not later than April 30, 1955.

Pursuant to House Resolution No. 150, 1953, the Assembly Interim Committee on Fish and Game submits this Final Report on "Problems of Ocean Fisheries" and recommendations for legislation for their alleviation.

It is pointed out that the contents of this report and the hearings by this committee which developed the factual data to support the recommendations embrace only that period following the interim appointment of the present chairman, or since August 9, 1954.

The committee devoted its efforts principally toward the investigation and study of the problems embraced in three bills presented to the last regular session of the Legislature, to wit, Senate Bill No. 264, Assembly Bill No. 597, and Assembly Bill No. 1734, and includes recommendations for their disposition in this report.

The committee's work has been aided greatly by the generous cooperation of the various groups interested in commercial fishing, the

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, March 9, 1955

Honorable Thomas M. Erwin
Assembly Chamber

Committee Reports—No. 7818

DEAR MR. ERWIN: You ask whether the motion adopted by the Assembly, as printed on page 1139 of the Assembly Journal for March 7, 1955, will permit Assembly investigating committees created prior to this session to incur expenses in connection with preparing their reports, up to and including March 30, 1955.

In our opinion the answer is no.

The motion referred to in your question provides: "That March 30, 1955, be set as the final date for filing Assembly and joint interim committee reports."

Except for committees created by statute, no legislative committee can be authorized to act beyond final adjournment of a regular session unless it is provided for by resolution, and in that event has only those powers provided for by the *resolution* creating it, or by law, or by the *Rules* of the Legislature or either house thereof. (Constitution, Art. IV, Sec. 37.)

The resolutions which created interim investigating committees at the 1953 Session generally authorized such committees to act until the commencement of the 1955 Regular Session and required them to file their reports not later than a specified date. The money made available to each such committee was made available only for expenses the committee or its members "may incur under this resolution," that is, under the resolution creating it.

Thus, the resolutions limited the committees' power to act to a specified term, limited their power to report to a specified term, and limited their right to spend money allocated to them to actions taken or reports prepared during those terms.

House Resolution No. 22 of the 1955 General Session extended the power to act of all interim committees previously created by the Assembly and in existence on January 2, 1955, through March 7, 1955, and the power of all such committees to file their final reports was extended by the same resolution to March 7, 1955. The resolution also authorized all such committees to expend funds previously made available to them for expenses which those committees would incur under

the resolutions creating them or under the resolution which continued their existence.

Since the Constitution limits the powers of interim investigating committees to those conferred upon them by the resolution creating them, or by law, or by the Rules of the Legislature, it is clear that the power of many committees to expend funds for the purpose of preparing their reports terminated as of March 7, 1955. It is also clear that new powers could be given to such committees only by law, by resolution or by rule and that the motion which gave rise to your question is ineffective for this purpose.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By A. C. MORRISON, Deputy

REQUEST FOR UNANIMOUS CONSENT TO PRINT OPINION OF LEGISLATIVE COUNSEL IN JOURNAL

Mr. McCollister asked for, and was granted, unanimous consent to have the following opinion of the Legislative Counsel printed in the Journal:

STATEMENT OF EFFECT OF PROPOSED CHANGES IN TEMPORARY RULES

OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, March 8, 1955

Statement of Effect of Proposed Changes in Temporary Rules of the Assembly—No. 7601

(1) Rule 1 at present provides for assignment of desks by the Chief of the Bureau of Buildings and Grounds, subject to change by the Committee on Rules. The amendment would give the authority to make the original assignment to the Committee on Rules and would extend the authority to cover assignment of offices as well as desks.

(2) Rule 2 would be amended to provide that, Sundays excepted, and unless otherwise ordered by majority vote of the members present, the session of the Assembly shall begin daily at 10 a.m. throughout the entire session, rather than 10 a.m. prior to the constitutional recess and 9:30 a.m. after the recess.

(3) Rule 5 would be amended to provide that no standing rule of the Assembly shall be amended except by resolution, rather than motion, adopted by affirmative recorded vote of a majority of the entire elected membership of the Assembly. The amendments would

also eliminate the requirement of one day's notice of motion to amend the Rules and the requirement that proposed amendments be printed in the Journal before adoption and would substitute the provision that no such resolution shall be considered until it shall have been referred to and approved by the Committee on Rules.

(4) Rule 47.5, pertaining to the effect of adoption of Standing Rules of a budget session would be renumbered Rule 7.5, putting it in a more appropriate place in the Temporary Rules. No change would be made in the rule itself.

(5) Part 1 of Subdivision (a) of Rule 8, which presently provides for the Committee on Rules and defines its powers would be divided up into three rules: Rule 8, headed "Committee on Rules," Rule 8.1, headed "Powers of the Committee on Rules," and Rule 8.3, headed "Interim Committee on Rules." The present powers and duties of the Committee on Rules during sessions would not be modified. Rule 8.4 would be added defining the powers of the Interim Committee on Rules. These powers are the same as those customarily vested in the Legislative Process Committee.

The Committee on Legislative Procedure, presently provided for in part 2 of this subdivision, would be abolished. A new Rule 8.5 would provide for a Committee on Engrossment and Enrollment, this committee to have the same functions as the present Committee on Legislative Procedure with respect to enrollment and engrossment, except that it would consider and report on *requests* for the introduction of bills after the constitutional recess, rather than considering and reporting on the bills themselves introduced at such time.

The material in present subdivision (b) of Rule 8 would be divided up, according to subject matter, into four rules, as follows: Rule 8.6, headed "Standing Committees," Rule 8.7, headed "Membership of Standing Committees," Rule 8.8, headed "Creation of Interim Committees," and Rule 8.9, headed "Rational Organization of Committees." Only the following substantive changes would be made:

(a) Upon appointment of the Speaker or approval of the Assembly, a member could serve on five rather than four standing committees.

(b) The provision that a vote of two-thirds of the elected membership of the Assembly is necessary to create other standing committees would be eliminated.

(c) The requirement that there be published in the Weekly History the "Total Number of Measures, 'referred' and 'action pending'" would be deleted.

(6) Rule 9.5 would be renumbered Rule 8.2. The rule would be amended to provide that the Committee on Rules shall adopt rules concerning letting of contracts by interim committees and expenses and allowances of committee employees within 30 days after final adjournment of *any General Session,* rather than the 1953 General Session, thus bringing the rule up to date and rendering unnecessary a modification of the rule at each general session to fit that session.

(7) Rule 10 would be amended to provide that the Speaker shall have the power and duty to establish, rather than merely propose, a schedule of meetings of standing committees. It does not appear at present that

anyone is empowered to establish the schedule. This rule would also be amended to make the Speaker an ex officio, non-voting member of the Committee on Rules. In paragraph (b) "questions to order" would be changed to "questions *of* order," as was evidently intended.

(8), (9), and (10) Headings would be supplied for Rules 11.1, 11.2, and 12.5, dealing with the Majority Floor Leader, Minority Floor Leader, and the registration of legislative representatives. No changes would be made in the rules themselves.

(11) The form of Rule 20 would be changed without substantive change.

(12) Rule 21 would be renumbered Rule 9 and amended to increase the membership of the Assembly Committee on Legislative Representation from five to seven.

(13) Rule 23 would be amended to provide that no witness summoned to appear before an Assembly committee shall be entitled to his fee or mileage until after his appearance. At present the rule does not expressly state when such a person is entitled to his fee and mileage.

(14) A heading would be supplied for Rule 24.5, pertaining to press photographers. No change would be made in the rule.

(15) At present Rule 25 provides that in the absence of the Speaker and Speaker pro Tempore, the Chief Clerk or his assistant shall call the Assembly to order, whereupon a temporary chairman shall be elected from among the members, the temporary chairman to serve until return of the Speaker or Speaker pro Tempore. This rule would be amended to provide instead that in the absence of the Speaker and Speaker pro Tempore, the Majority Floor Leader shall call the Assembly to order and preside until the return of the Speaker or Speaker pro Tempore.

(16) Rule 27, which sets forth the order of business of the Assembly, would be amended by adding "Notices of Motion," not presently provided for, after "Business on the Daily File" and before "Announcements."

(17), (18), and (19) In Rules 30, 31, and 32, the phrase "on the Journal" would be changed to "in the Journal," which latter phrase is used in some other rules. The amendment would make no substantive change, but would make for uniformity in phraseology.

(20) Rule 34 at present requires that, after printing, a copy of a bill, constitutional amendment, or concurrent or joint resolution shall be placed upon the desk of each member, without specifying the time when this shall be done. The rule would be amended to provide that the copy must be placed on his desk before final passage.

(21) Rule 35 provides that by majority vote of the membership of the Assembly, a bill may be referred to a committee other than the one to which the Speaker referred it. The rule would be amended by deleting the provision that if several different committees are proposed, preference shall be given to Committee of the Whole, standing committee, and special committee.

(22) Rule 36 at present provides that a bill shall be delivered to the State Printer after introduction. The rule would be amended to provide that such delivery shall be made after introduction, first reading, and reference to committee. As amended, the rule would conform to actual practice.

(23) The second paragraph of Rule 37, relating to departmental bills, would be made a separate section, numbered 37.5. The first paragraph of Rule 37 relates to introduction of bills after the constitutional recess.

(24) Rule 38, which provides that each committee may adopt rules in addition to the Rules of the Assembly would be amended by providing that such committee rules shall not be in conflict with the Rules of the Assembly.

(25) Rule 46 provides that no member or committee shall be permitted to incur any expense without first receiving the consent of the Assembly but contains the exception that the Chairman of the Committee on Ways and Means shall be allowed his actual expenses for the performance of any duties of his office during the constitutional recess. The rule would be amended to eliminate the exception.

(26) Rule 47 at present provides that interim committees, unless otherwise authorized, shall report to the succeeding Legislature on or before the fortieth day after the convening thereof. It is not clear whether this means calendar or legislative day. As amended, the rule would specify the latter.

(27) Rule 48, which provides that all bills on the Daily File shall be called for consideration in the order of their listing, unless otherwise ordered by the membership, would be amended to provide that such bills shall be so called for consideration only if the requirements of Rule 39, which relates to meetings of standing committees, have been complied with.

(28) Rule 52 at present provides that before debate on amendments proposed on second or third reading of a bill an extra copy thereof must be delivered to the clerk's desk and made available to the author of the bill. The rule would be amended to provide that four copies must be delivered to the clerk's desk and one copy must be made available to the author.

This rule, at present, further provides that the Chief Clerk shall order printed not to exceed 1,000 copies of amended bills. The rule would be amended to provide that he shall order printed as many copies as he may determine to be necessary.

(29) A heading would be supplied for Rule 52.5, relating to consideration of bills re-referred to committee.

(30) Rule 55.5 would be renumbered Rule 50, without any change in the rule itself.

(31) Rule 58 at present requires that in appointing a committee on conference the Speaker shall select two members from those voting with the majority on the point about which the difference has arisen, and the other member from the minority, if any. This rule would be amended to spell out what roll call is referred to in making this selection, to wit: The roll call on the question of final passage of a Senate bill amended in the Assembly when the Senate has refused to concur with the Assembly amendments, or, the roll call on the question of concurrence with Senate amendments to an Assembly bill, as appropriate.

(32) Rule 76 would be amended to provide that upon request of the Speaker all motions, after reduction to writing, shall be read by the Speaker *to the Assembly,* rather than merely read by the Speaker, before the same are acted upon.

(33) Rule 85 at present provides that when a call of the Assembly is dispensed with, the completion of the roll call pending when the call of the Assembly was ordered shall become the immediate order of business before the Assembly. This rule would be amended to provide that the action of dispensing with the call shall not become effective until after completion of the roll call and the announcement of the vote upon the matter for which the call was ordered.

(34) Rule 100, which at present authorizes the Committee on Rules or the Legislative Process Committee to pay expenses of the Assembly not otherwise provided for, would be amended by deleting the reference to the Legislative Process Committee, thus leaving the rule applicable only to the Committee on Rules. This would conform to the proposal to eliminate the Legislative Process Committee.

Mr. Hawkins asked for, and was granted, unanimous consent to have the following two opinions of the Legislative Counsel printed in the Journal:

OPINIONS OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, March 22, 1955

Honorable Augustus F. Hawkins
Assembly Chamber

Introduction of Bills—No. 7612

DEAR MR. HAWKINS: You ask whether, if one member introduces a bill at the request of other members, and the latter members affix their signatures to the bill immediately following the words "By Request Of," the latter members would be charged with having introduced the bill.

In our opinion the answer is in the negative.

The provision of the Constitution which governs this question is Section 2 of Article IV, which provides in part:

> "On the reassembling of the Legislature, no bill shall be introduced in either house without the consent of three-fourths of the members thereof, nor shall more than two bills be introduced by any one member after such reassembling."

The provision does not speak of "authors" or "co-authors." Its obvious purpose was to limit the maximum number of bills which could be introduced after the constitutional recess to twice the number of legislators, thus affording the people some opportunity to study the bills. In keeping with this purpose *it is the introduction, not the authorship, of the bills which is restricted.*

In our opinion only the member or members who actually receive consent to introduce the measure are required to be charged with the introduction of that bill under the Constitution. The fact that another member's name appears on the face of the bill, after that of the "introducer," as requester is irrelevant, since the addition of such names does not alter the *fact* of introduction or result in exceeding the limit on the maximum number of bills which may be introduced after the constitutional recess.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By A. C. MORRISON, Deputy

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, March 8, 1955

Honorable Augustus F. Hawkins
Assembly Chamber

Introduction of Bills—No. 7773

DEAR MR. HAWKINS: You have furnished us with a copy of the proposed amendment to Rule No. 37 of the Standing Rules of the Assembly. The amendment would add the following language to Rule No. 37 which deals with introduction of bills after the constitutional recess:

"The request shall be signed by the member requesting permission to introduce the bill and, if permission to introduce is granted pursuant to this rule, such permission shall extend only to such member and his name shall be printed on the face of the bill following the words "Introduced by". The names of members who collaborated in the drafting of the bill or who wish to sponsor or indicate approval thereof shall also be printed on the face of the bill following the caption "co-authors" or "sponsors" as the case may be. Only the member who introduced a bill pursuant to this rule shall be charged with the introduction of the bill in computing the number of bills for the purposes of Section 2 of Article IV of the Constitution."

You ask whether, if this rule is adopted, a member who did not actually introduce a bill would be charged with the introduction of the bill after the constitutional recess when his name appears on the face of the bill.

In our opinion he would not, since the rule specifically provides that only the member who introduced the bill shall be charged with its introduction and restricts the right to introduce any particular bill to the member to whom permission to introduce that bill has been granted.

You also ask whether such a rule would violate the Constitution.

This question arises by virtue of the following language of Section 2 of Article IV of the Constitution:

"On the reassembling of the Legislature, no bill shall be introduced in either House without the consent of three-fourths of the members thereof, nor shall more than two bills be introduced by any one member after such reassembling."

This provision does not speak of "authors" or "co-authors". Its obvious purpose was to limit the maximum number of bills which could be introduced after the constitutional recess to a number equal to twice the number of legislators, thus affording the people some opportunity to study the bills. In keeping with this purpose it is the introduction, not the authorship, of the bills which is restricted.

The proposed rule does not violate this provision of the Constitution since it insures that the member who introduced the bill shall be charged with its introduction.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By A. C. MORRISON, Deputy

DIVISION 17. DRAINAGE

PART 1. COUNTY DRAINAGE DISTRICTS

CHAPTER 1. GENERAL PROVISIONS

56000. This chapter shall be known and cited as the "County Drainage District Act"

56001. "District" as used in this chapter means any county drainage district formed pursuant to this chapter or pursuant to any law which it supersedes.

56002. "District board" as used in this chapter means the board of directors of a district.

56003. Districts may be formed, maintained and governed in any county as provided in this chapter.

CHAPTER 2 FORMATION

56010. Proceedings for the formation of a county drainage district shall be instituted by the board of supervisors of a county when a petition requesting the institution of such proceedings and signed by the requisite number of owners of real property is filed with the board. The petition may consist of any number of separate instruments, each of which must comply with all of the requirements of a petition except as to the number of signatures.

56011. A petition requesting the institution of proceedings for the formation of a county drainage district shall:

(a) Request the board of supervisors of a county in which the district will be located to institute proceedings to form a county drainage district pursuant to this chapter;

(b) Describe the boundaries of the territory which is proposed for the district;

(c) Be signed by not less than 100 owners of real property within the proposed district unless the total number of owners of real property within the proposed district does not exceed 200, in which case the petition shall be signed by a majority of such owners. If the board of supervisors finds that the petition is signed by the requisite number of owners of real property residing within the territory to be included within the proposed district, that finding shall be final and conclusive.

56012. Proceedings for the formation of a county drainage district shall be instituted by the board of supervisors by the adoption of a resolution of its intention to do so. The resolution shall contain all of the following:

(a) A statement of the intention to form the district;

(b) The boundaries of the proposed district or some other designation of its territorial extent;

(c) The name of the proposed district;

(d) The time and place where objections to the formation of the district or to its extent will be heard;

(e) Instructions to the clerk of the board to publish the resolution and notices of hearing.

56013. The district as formed may include unincorporated or incorporated and contiguous unincorporated territory. The incorporated territory included in the district may include the whole or part of one or more cities. However, the whole or part of a city shall not be included in a district except by the vote of a majority of the governing board of the city. The district shall not include the whole or any part of any other district formed for similar purposes unless the governing body of such other district shall consent thereto and the board of supervisors shall find and determine by resolution duly adopted that the proposed inclusion of the whole or part of such other district is in the best public interest and the territory affected will be benefited thereby.

56014. The time to be fixed for the hearing of objections to the formation or extent of the district shall be not less than 30 days after the adoption of the resolution of intention to form the district by the board of supervisors. The hearing shall be held at the regular meeting place of the board of supervisors or at some place within the proposed district as specified by the board in the resolution of intention to form the district.

56015. Prior to the time of hearing, the resolution shall be published at length twice in at least one newspaper of general circulation in the proposed district and brief notices of the passage of the resolution and the time and place of the hearing may be published in one or more daily or weekly newspapers published and circulated in the proposed district.

56016. At the time provided in the resolution of intention or at any time to which the hearing is continued, the board of supervisors shall hear any objections to the formation of the district or to its extent. At the hearing the board of supervisors may exclude any territory that in its opinion will not be benefited by being in the district.

56017. If written objection to the formation of the district signed by 10 percent of the voters registered in the district is filed with the board of supervisors, it shall, and in any event it may, either adopt an order abandoning the formation of the district or order the matter of the formation of the district with the boundary lines determined at the close of the hearing submitted to the voters of the proposed district at an election.

56018. At the election only voters registered in the proposed district may vote. Election precincts shall be established by the board of supervisors, and precinct boards, composed of one inspector, one judge, and one clerk shall be appointed. At least one week prior to the election notice of the election shall be given by publication in a newspaper of general circulation in the proposed district. In other particulars the election shall be conducted in the manner ordered by the board of supervisors.

56019. At the conclusion of the hearing, or if an election is held and the canvass of the election returns shows that a majority of all the votes cast in the entire proposed district were in favor of the formation of the district, the board of supervisors may, if it deems best, make an order forming the district.

56020. The order of formation shall contain the name of the district, and a description of the boundaries or otherwise indicate its territory. The order is conclusive evidence of the regularity of all prior proceedings, except the adoption and publication in full of the resolution of intention and of the fact of the hearing.

CHAPTER 3. OFFICERS

56053. Notice of the hearing shall be given by the district board by publishing the notice for at least five times in a daily, or twice in a weekly, newspaper circulated in the district, as the district board may direct. At the time and place so fixed, or at the time and place to which the hearing may be from time to time continued, the board shall hear all objections Said objections may be oral or in writing.

56054. At the conclusion of the hearing the district board shall either order the report changed to conform to some or all the objections made or shall approve and adopt the report as made. 56055. If the district board approves and adopts the report of the engineer or engineers, the board shall order the engineer or engineers to prepare precise plans and specifications for the work contained in said report. Said precise plans and specifications shall be in conformity with the general plans and specifications contained in said report as approved by the district board unless the district board by a four-fifths vote adopts a resolution declaring that the public interest requires a modification of or departure from the general plans and specifications, which resolution shall contain a statement of the manner in which the modification is required or departure is to be made.

56056. Upon completion of the precise plans and specifications, the work or any portion of it may be done in any of the following ways as ordered by the district board:

(a) By purchasing the material and doing the work by day labor;

(b) By purchasing the material and letting a contract for the doing of the work;

(c) By purchasing only a portion or none of the material and letting a contract for furnishing the balance or all of the material and the doing of the work.

56057. Any contract for the doing of the work and furnishing any or all of the material shall be let to the lowest responsible bidder submitting a sealed bid in response to a notice calling for bids.

56058. The notice shall be published once a week for at least two successive weeks in a newspaper circulated in the county and shall refer to precise plans and specifications covering the work to be done and materials, if any, to be furnished. If the material to be purchased costs over one thousand dollars ($1,000), and there is no purchasing agent, the material shall be purchased from the lowest responsible bidder.

56059. The engineer or engineers employed by the district board to prepare the precise plans and specifications shall be directed by the district board to superintend the doing of the work contained in said precise plans and specifications.

56060. A right of way in or across any public highway, street or property in the district is hereby granted to the district wherever the right of way is found by the district board to be necessary or convenient for the doing of any of the work.

56061. Notwithstanding any other provision in this chapter to the contrary, in the event that prior to the formation of a district a report has been secured by the board of supervisors of the county in which the district is formed pursuant to the provisions of Section 4.2 of the Drainage District Improvement Act of 1919 concerning the protection of lands and other property within the district from storm or waste waters and containing substantially the same data and matter required by Section 56050 of this chapter, and if copies of said report are made available to the district board by the board of supervisors of such county, a new report need not be prepared by the district board under said Section 56050 and the hearing or hearings referred to in this chapter may be held on such report furnished by the board of supervisors of such county, and thereafter all of the provisions of this chapter shall be applicable to such report.

CHAPTER 6. BONDS

56070. After the approval and adoption of an engineer's report and before ordering the engineer to prepare precise plans and specifications as provided in Chapter 5, the district board may submit to the voters of the district the proposition of incurring a bond indebtedness to obtain funds with which to acquire the property and to do the work in whole or in part set forth in the report. For that purpose a special election shall be called by resolution.

56071. The resolution shall state all of the following:

(a) The general objects and purposes for which it is proposed to incur and indebtedness.

(b) A reference to the report filed with the district board for particulars.

(c) The amount of the bonds proposed to be issued.

(d) The number of years not to exceed which the whole of the bonds are to run.

(e) The rate of interest or a maximum rate of interest to be paid, which rate shall not be more than the rate specified in this chapter, payable at the time specified in this chapter.

(f) The date of the election.

(g) The election precincts, polling places, and election officers.

56072. For the purposes of the bond election the district board may consolidate into one precinct several precincts established for general election purposes and describe the precinct by reference to the general election precincts.

56073. An election board consisting of one inspector, one judge, and one clerk shall be appointed by the district board for each precinct.

56074. Only voters registered in the district are eligible to vote at the bond election.

56075. The resolution calling the election shall be published once a week for three successive weeks in a newspaper having a general circulation in the district and designated by the district board. No other notice of the election need be given.

56076. If two-thirds of the votes cast are in favor of incurring the bonded indebtedness as proposed, bonds of the district for the amount stated in the resolution calling the election shall be issued and sold.

56077. The validity of the bonds after their issuance shall not be questioned in any court except upon the ground that the provisions of this chapter authorizing their issuance are unconstitutional, or that the required hearing regarding the formation of the district was not legally held or proper notice of it was not given.

56078. The district board shall prescribe by resolution the form of the bonds, and interest coupons. The bonds shall be payable at such times and at a place to be fixed by the board, and designated in the bonds, together with interest on all sums unpaid on that date until the whole of the indebtedness has been paid. The term of bonds issued shall not exceed 40 years.

56079. The bonds shall be issued in such denominations as the district board determines, except that no bonds shall be of a denomination less than one hundred dollars ($100) or greater than one thousand dollars ($1,000). They shall be payable on the day and at the place fixed in the bonds, and with interest at the rate specified in the bonds, which rates shall not be in excess of 6 percent per annum, and shall, after the first year, be payable semiannually.

56080. The bonds shall be signed by the chairman of the district board, and countersigned by the auditor of the district, and the seal of the district board shall be affixed. The interest coupons of the bonds shall be numbered consecutively and signed by the auditor of the district. All such signatures and contersignatures may be printed, lithographed, engraved, or otherwise mechanically reproduced, except that one of said signatures or countersignatures to said bonds shall be manually affixed. The auditor of the district under this section shall be the county auditor of the county in which the district is formed.

56081. If any officer whose signature or countersignature appears on the bonds ceases to be an officer before the delivery of the bonds to the purchaser, his signature or countersignature shall be as valid as if he had remained in office until the delivery of the bonds.

56082. The board may issue and sell the bonds of the district at not less than par value, and the proceeds shall be placed in the treasury of the county.

All premiums and accrued interest received shall be paid into the fund to be used for the payment of principal and interest on the bonds and the remainder of the proceeds of the sale shall be paid into the construction fund of the district, and proper records of the transactions shall be placed upon the books of the treasurer.

56083. The construction fund shall be applied exclusively to the purposes and objects mentioned in the resolution calling the bond election.

Payments from the construction fund shall be made upon the demands allowed by the district board, and prepared, presented and audited in the same manner as demands upon the funds of the county.

56084. When the purposes and objects mentioned in the resolution calling the bond election have been accomplished, any moneys remaining in the construction fund shall be transferred to the fund to be used for the payment of principal and interest on the bonds.

56085. If the proposition of issuing bonds submitted at a bond election fails to receive the requisite number of votes, the district board may, at the expiration of six months after that election, call or order another bond election, either for the same objects and purposes, or for any other object or purpose of the district.

56086. If bonds have been issued by the district and the proceeds of the sale have been expended, and the district board by resolution passed by a vote of four-fifths of all its members determines that the public interest or necessity of the district demands the issuance of additional bonds for carrying out any of the objects of the district, the district board may again have a report made, and submit to the voters the question of issuing additional bonds in the same manner as for a first issue. All the provisions of this chapter for the issuance and sale of bonds, and for the expenditure of the proceeds, apply to the issuance of additional bonds.

56087. Bonds and the interest thereon shall be paid by revenue derived from an annual tax upon the real property in the district, and all the real property in the district shall be and remain liable to be taxed for such payments. Said bonds and the interest thereon shall not be taxable in this State.

56088. (1) An issue of bonds is hereby defined to be the aggregate principal amount of all the bonds authorized to be issued in accordance with a proposal submitted to and approved by the electors of the district, but no indebtedness will be deemed to have been contracted until bonds shall have been sold and delivered and then only to the extent of the principal amount of bonds so sold and delivered.

(2) The board of directors of any district issuing any bonds heretofore or hereafter authorizing may, in its discretion, divide the aggregate principal amount of such issue into two or more divisions or series and fix different dates for the bonds of each separate division or series. In the event any authorized issue is divided into two or more divisions or series, the bonds of each division or series may be made payable at such time or times as may be fixed by the legislative body of the district separate and distinct from the time or times of payment of bonds of any other division or series of the same issue.

56089. Bonds may be made payable on a date subsequent to the time fixed for the collection of the second installment of general district taxes with which the first levy of taxes for the payment of the principal and interest of said bonds is to be collected. In such event, the first interest coupons shall be for interest from the date of said bonds of such issue or series or division to the maturity date of said coupons.

56090. If the result of any election upon the question of the issuance of bonds is in favor of issuance, the board may, in its discretion, commence in the superior court of the county, a special proceeding to determine its right to issue the bonds and their validity, similar to the proceeding in relation to irrigation bonds, provided for by the "Irrigation District Law", and all supplementary acts, and all their provisions apply to and govern the proceedings to be commenced by the board, so far as applicable.

The judgment has the same effect as a judgment in relation to irrigation bonds under the provisions of that act.

CHAPTER 7. APPLICATION OF OTHER STATUTES

56100. The Improvement Act of 1911, the Street Opening Act of 1903 and the Improvement Bond Act of 1915 are applicable to county drainage districts formed under this chapter. After approving and adopting the engineer's report as provided in Chapter 5, the district board may order the work contained in the said report to be done in whole or in part pursuant to the provisions of the Improvement Act of 1911 or the Street Opening Act of 1903 or the Improvement Bond Act of 1915 and the costs thereof assessed upon the real property benefited, all in the manner provided by said Improvement Act of 1911, or the Street Opening Act of 1903, or the Improvement Bond Act of 1915.

56102. The powers and duties conferred by those acts and supplementary acts upon boards, officers, and agents of cities shall be exercised by the respective boards, officers, and agents of the district.

56103 No assessment or bond hereafter levied or issued shall become a lien and no person shall be deemed to have notice thereof until a certified copy of said assessment and the diagram thereto attached shall be recorded in the office of the county surveyor, if the improvement district or any part thereof is in unincorporated territory, and with the superintendent of streets of the city or cities, if the improvement district or any part thereof is in incorporated territory.

56104. Notwithstanding any other provision contained in the Special Assessment Investigation, Limitation and Majority Protest Act of 1931 to the contrary, in the event the district board shall order the work contained in the report prepared by the district engineer pursuant to Chapter 5 to be done in whole or in part pursuant to the provisions of the Improvement Act of 1911 or the Street Opening Act of 1903 or the Improvement Bond Act of 1915, the provisions of the said Special Assessment Investigation, Limitation and Majority Protest Act of 1931 shall not be applicable to such work if the district board so declared by resolution duly adopted by four-fifths vote after a finding that said work is necessary for the public welfare, which finding shall not be made by the district board if, prior to the conclusion of the hearing on said report as provided in Chapter 5, the owners of more than 20 percent of the total assessed value of the taxable property within the district file written protests against the doing of said work

CHAPTER 8. FINANCE AND TAXATION

56110 Annually, at least 15 days before the first day of the month in which the board of supervisors of the county in which the district is located is required by law to levy the amount of taxes required by law for county purposes, the district board shall furnish to the board of supervisors a written statement of the amount necessary to pay the interest on bonds for that year, and the portion of the principal that is to become due before the time for making the next general tax levy.

56111 The board of supervisors of the county shall annually, at the time and in the manner of levying other county taxes, levy and cause to be collected a tax upon the taxable real property in the district, based upon the last equalized assessment roll of the county sufficient to pay the interest on the bonds for that year and such portion of the principal as is to become due before the time for making the next general tax levy.

56112. If the district board fails to furnish to the board of supervisors the written statement of the amount necessary, the board of supervisors of the county shall ascertain the amount necessary to pay the interest on the bonds for that year and the portion of the principal that is to become due before the time for making the next general tax levy, and shall levy and cause to be collected the necessary amount

56113 The tax shall be collected at the same time and in the same manner as the general tax levy for county purposes, and when collected shall be paid into the treasury of the county to the credit of the district, and shall be used for the payment of the principal and interest upon the bonds, and for no other purpose.

56114 The principal and interest on the bonds shall be paid by the treasurer of the county in the manner now or hereafter provided by law for the payment of principal and interest on the bonds of the county.

56115. In any year, at least 15 days before the first day of the month in which the board of supervisors of the county in which the district is located, is required by law to levy the amount of taxes required by law for county purposes, the district board may furnish to the board of supervisors a written statement of the amount necessary to maintain, operate, extend, or repair any work or improvements of the district, and to defray all other expenses incidental to the exercise of any of the district's powers, and the board of supervisors of the county shall at the time and in the manner of levying other county taxes, levy and cause to be collected a tax upon the taxable real property in the district based upon the last equalized assessment roll of the county sufficient to pay the cost of maintaining, operating, extending, or repairing any work or improvements of the district and of defraying all other expenses incidental to the exercise of any of the district's powers.

56116 The tax shall be levied and collected at the same time and in the same manner as the general tax levy for county purposes, and the revenue derived from the tax shall be paid into the county treasury to the credit of the operating fund of the district, and the district board shall control and order its expenditure.

56117. Payments from the operating fund shall be made upon demands allowed by the district board, and prepared, presented, and audited in the same manner as demands upon the funds of the county.

56118. The cost of preparing the engineer's report, including the compensation paid engineers and other employees of the district, is a charge against the district and shall be paid from the first available funds of the district.

CHAPTER 9. ANNEXATION

56130. Territory, whether incorporated or unincorporated, contiguous to a district, and not included in any other county drainage district or other district formed for similar purposes, may be annexed, if the board of supervisors finds and determines that the additional territory will be benefited by annexation.

56131. For the purpose of annexing territory to a district the board of supervisors shall proceed in the same manner as for the formation of a district in the first instance; except that wherever it is required to set forth the boundaries of the proposed district there shall instead be set forth the boundaries of the territory proposed to be annexed, and wherever protests are called for or authorized or an election is to be held, the provisions relating thereto shall refer only to the territory proposed to be annexed.

The district board shall before such annexation is completed, by resolution, find and declare that the district will be benefited by the annexation of the territory and consent to its annexation.

56132. Whenever any territory is annexed to a district, it thereupon becomes a part of the district and is subject to all the liabilities and entitled to all the benefits of the district.

CHAPTER 10. DISSOLUTION

56140. A district having no bonded indebtedness may be dissolved upon the vote of a majority of its voters upon an election called by the district board upon that question. Before dissolution all legal indebtedness of the district shall first be paid and discharged

56141. The election on the question of dissolution shall be called and conducted in the same manner as other elections of the district, and the district board shall canvass the returns of the election within 30 days after the election

56142 If a majority of the votes cast are in favor of dissolution of the district, the district board shall by resolution so find, and declare the district dissolved, and thereupon the district is dissolved

56143. A certified copy of the resolution shall, within fifteen days after its adoption, be filed with the clerk of the board of supervisors of the county in which the district is situated.

56144. Upon the dissolution of any district the property of the district lying within the corporate limits of any city vests absolutely in the city, and the property of the district lying without the corporate limits of any incorporated city vests absolutely in the county in which the district is situated.

56145. If after the dissolution of the district it is found that through oversight or error there remains a legal indebtedness of the district, the board of supervisors of the county shall levy a tax upon the taxable real property within the boundaries of the district as it existed at the time of dissolution, sufficient to meet the indebtedness and interest thereon, if any, and pay it

56146. Any funds belonging to the district at the time of dissolution shall be transferred to the cities and the county, as the case may be, in proportion to the assessed valuation of the taxable real property in the cities and county respectively, as it appears on the last equalized assessment roll of the county prior to the dissolution."

Such funds or revenues shall include the revenues derived from the operation of the project or projects for which the bond proceeds are used or expended and any other revenues derived therefrom, and may also include revenue of the entity derived from any other building or buildings, stadia, facilities or other sources and any or all extensions or renewals thereof.

6552. All bonds issued by the entity shall contain a recital on their face that neither the payment of the principal or any part thereof nor any interest thereon constitutes a debt, liability or obligation of any of the public agencies who are parties to the agreement creating such entity.

6553. The indenture authorizing the issuance of such bonds shall recite the objects and purposes for which the bonds are to be issued, which may include any or all of the purposes stated in this article and which shall comprise the project, the principal amount of the bonds, the maximum rate of interest to be payable thereon which shall not exceed six percent (6%) per annum, payable annually for the first year and semiannually thereafter, the date or dates of issue of said bonds, the maturity date or dates thereof, and the fund or funds from which said bonds and the interest thereon and premiums upon the redemption of any thereof are to be payable, and such other provisions authorized by this article as the governing body of the entity deems necessary or desirable. Said bonds shall be issued in negotiable form and shall be negotiable. The recitals of regularity of proceedings in any revenue bond issued and sold under this article shall be conclusive evidence of compliance with the provisions of this article and of the validity of such bond.

6555. In the indenture authorizing the issuance of said bonds the governing body may also fix additional terms and conditions and may in any article, section or clause thereof make such provision or covenant as it may deem necessary or

desirable to facilitate the issuance and sale of the bonds or for the protection or security of the holders thereof, including, without affecting the generality of the foregoing, provision for any or all of the matters stated in Sections 6556 to 6568 of this article.

6556. Said indenture may provide the terms and conditions under which said bonds may be paid, redeemed before maturity (including the premiums, if any, to be payable upon bonds redeemed prior to maturity), exchanged, registered, transferred, and negotiated. No bond shall be redeemable prior to maturity unless a statement substantially to that effect is contained in the bond.

6557. Said indenture may include covenants or other provisions relating to the bonds issued thereunder requiring the entity to fix, prescribe and collect rates, tolls, fees, rentals or other charges in connection with the services and facilities furnished from the project acquired or constructed from the proceeds of bonds, and it may require such rates, tolls, fees, rentals or other charges to be sufficient to pay principal of and interest on the bonds as they become due, together with all expenses of operation, maintenance and repair of the project and such additional sums as may be required for any sinking fund, reserve fund or other special fund provided for the further security of such bonds, or as a depreciation charge or other charge in connection with such project; provided, however, that all rates, tolls, fees, rentals or other charges in connection with the services and facilities furnished by the project shall be subject to such provisions, if any, relative thereto as may be contained in the contract or agreement between the public agencies creating such entity.

The indenture may include covenants or other provisions relating to the collection, deposit and safekeeping of the revenues, the permissible uses thereof, the special fund or funds to be kept for the payment of principal and interest of the bonds, including reserve, sinking, bond service, redemption and trust funds, and any bond payable from the revenue fund may be paid from any such special fund set up therefor, the permissible investments for moneys in said funds, or any thereof, the accounts and records to be kept, audits thereof and examination thereof by bondholders and others, and reports to be made by the entity.

6559. The indenture may include a covenant or other provision relating to the insurance upon such project, or any part thereof, against any or all risks, and in case of loss the application of the insurance proceeds.

6560. The indenture may include a covenant or other provision containing prohibitions against or limitations upon the sale, lease or other disposition of such project or any part thereof.

6561. The indenture may contain covenants or other provisions providing for prohibitions against or limitations upon the issuance of any additional bonds payable from the revenues of the project.

6562. The indenture may contain covenants or other provisions whereby the consent or agreement of a stated percentage or number of the holders of the bonds may bind all bondholders to modifications of or changes in all or part of the provisions of the indenture authorizing or providing for the issuance of such bonds, and the provisions subject to modification or change shall be specified or stated in such indenture.

6563. The indenture may provide for the issuance of a duplicate in the manner and upon such terms and conditions as the governing body of the entity may determine, in the event any bond, temporary bond, coupon or interim certificate of any issue is lost, destroyed or mutilated.

6564. The indenture may include a covenant or provision against the entering into of any agreement which impairs the operation of the project or any part of it necessary to secure adequate revenues to pay the principal and interest of the bonds, or which otherwise would impair the rights of the bondholders with respect to the revenues or the operation of the project.

6565. The indenture may provide for events of default and the terms upon which the bonds may be declared due before maturity and the terms upon which that declaration and its consequences may be waived.

6566. The indenture may provide for the rights, liabilities, powers and duties arising upon the entity's breach of any covenants, conditions or obligations of the indenture.

6567. The indenture may provide for a fiscal agent and the deposit of funds therewith.

6568. The indenture may contain any other provision or covenant valid under the Constitutions of the State of California and the United States of America which the governing body of the entity deems necessary or desirable to facilitate the issuance and sale of the bonds or for the protection or security of holders thereof.

6569. The indenture authorizing the issuance of said bonds and all resolutions or orders in the proceeding for the issuance of said bonds shall constitute a contract with the holders of the bonds, and such contract may be enforced by any holder by

mandamus, injunction or any applicable legal action, suit, proceeding or other remedy.

6570. Any bonds issued under this act shall be payable within not more than forty (40) years from the date of issue thereof. No bond may be made payable at a time later than the end of the term of the agency, board or commission as provided in the joint powers agreement in effect at the time the bonds are issued.

6571. The bonds shall be issued and sold as the governing body may determine, and for not less than par and accrued interest to date of delivery. The proceeds from the sale (except premium and accrued interest, which shall be paid into the bond service or other fund designated or established for the payment of the principal and interest of the bonds) shall be paid into the construction fund designated by the indenture authorizing the issuance of the bonds and shall be applied exclusively to the objects and purposes set forth in such indenture, including all expenses incidental thereto or in connection therewith, and also including the payment of interest on said bonds during the period of construction of the project and for a period not to exceed twelve (12) months after completion of such construction.

6572. The bonds shall be secured by a pledge of any lien upon the revenues of the project described in the indenture authorizing the issuance of the bonds, and such revenues may be used only as provided in said indenture. The revenues of the project include revenues from improvements to or additions to or extensions thereof later constructed or made. The bonds shall also be secured by additional revenues, if any, of the entity from other sources, to the extent set forth in the indenture.

6573. So long as any bonds or interest coupons thereof are outstanding and unpaid, the revenues and interest thereon shall not be used for any purpose not authorized by the indenture, unless the authority to make such use of revenues shall be authorized by the bond holders pursuant to the provisions of the indenture, and during such period the joint powers agreement shall be irrevocable and may not be amended or modified in any manner to the detriment of the bondholders. Any bond for the payment and discharge of which, upon maturity or upon redemption prior to maturity, provision has been made through the setting apart in a reserve fund or special trust account created pursuant to this article to insure the payment thereof, of moneys sufficient for that purpose or through the irrevocable segregation for that purpose in some sinking fund or other fund or trust account of moneys sufficient therefor, shall be deemed to be no longer outstanding and unpaid within the meaning of any provision of this article.

6574. The entity shall operate, maintain and preserve the project in good repair and working order, and shall operate the project in an efficient and economical manner; provided, however, that the entity may lease or rent concessions, or lease or rent the project or any part thereof, or otherwise provide for the operation of the project or any part thereof.

6575. All bonds and the interest thereon or income therefrom are exempt from all taxation in this State other than gift, inheritance and estate taxes.

6576. The entity may provide for the issuance, sale or exchange of refunding bonds for the purpose of redeeming or retiring any revenue bonds issued by the entity. All provisions of this article applicable to the issuance of revenue bonds are applicable to the funding or refunding bonds and to the issuance, sale or exchange thereof.

6577. Funding or refunding bonds may be issued in a principal amount sufficient to provide funds for the payment (including premium) of all bonds to be funded or refunded thereby, and interest thereon, and in addition for the payment of all expenses incident to the calling, retiring or paying of such outstanding bonds, and the issuance of such funding or refunding bonds.

6578. This article shall be liberally construed to effectuate its purposes."

If, for any grade level of a district, the amount of the first computation is greater than the amount, if any, by which the second computation exceeds the third computation, the amount of such excess, herein called a "positive difference," shall constitute the amount of reimbursement due the State from such district with respect to such grade level during the [next succeeding] *current* fiscal year. For the purposes of this section, the first computation shall be determined by the Controller on the basis of such estimate.

(b) An estimate of the amounts raised and to be raised by the district shall be determined and certified to the State Controller by the Director of Finance on or before May 1 of the fiscal year preceding that for which the annual repayment of the district is computed. Such tax, when collected, shall be paid into the county treasury of the county, the county superintendent of schools of which has jurisdiction over the district for which the tax was levied, to the credit of the general fund of the district."

RULES OF PROCEDURE

Resolved by the Special Assembly Committee on Legislative Representation, That, until revoked, altered, or amended, these Rules are

adopted and shall guide the committee in conducting proceedings, conducting investigations, and holding and conducting hearings, when hearings are held, to determine whether the committee shall issue, revoke, or suspend a certificate of registration as legislative advocate under Section 9909 of the Government Code:

Part 1. General Provisions

1. Unless the provision or the context otherwise requires, the definitions and general provisions set forth in this part govern the construction of these Rules.

2. "Committee" means the Special Assembly Committee on Legislative Representation.

3. "Registrant" means any person required to file any statement or report under Section 9906 of the Government Code, and any person who has filed any statement or report referred to in Section 9906 of the Government Code.

4. "Certificate" means a certificate of registration as legislative advocate, issued pursuant to Section 9909 of the Government Code.

5. Rule or part headings contained in these Rules shall not in any manner affect the meaning or intent of these Rules.

Part 2. Issuance of Certificates

20. The committee may consider any statement, report, or authorization filed by a registrant pursuant to Section 9906 of the Government Code as an application for a certificate. *Where a certificate has been issued to a registrant at a previous session, he shall submit at each succeeding general session, on a form prescribed by the committee, a sworn statement of such facts relating to good moral character as are deemed necessary to bring the committee's records concerning the registrant up to date. Such statement shall include a declaration that since the issuance of his last certificate, he has not wilfully violated any of the obligations imposed on legislative advocates by Section 9910 of the Government Code or been convicted of a crime other than a traffic violation.*

21 **(Processing Applications)** The committee will review each application for a certificate filed by a registrant to whom any certificate has been issued, as soon as practicable after the filing of the application. If upon a review of the application, the committee is not satisfied that a certificate should issue, the committee may require the registrant to supply and submit such additional information and proof as the committee deems proper.

If upon a review of the application, and the review of any additional information and proof, and after such other investigation as the committee deems proper, a majority of the committee finds that the registrant is of good moral character, has complied with the provisions of Chapter 8, Part 1, Division 2, Title 2 of the Government Code, and is entitled to a certificate, the committee will make a preliminary determination to that effect.

22. **(Report of Preliminary Determination)** The committee shall, as soon as practicable, report to the Assembly its preliminary determination. The report shall contain the name of each registrant to whom the committee proposes to issue a certificate, the name or names of the

persons by whom each registrant is employed and from whom the registrant has on file an authorization, a brief statement that the committee proposes to issue a certificate to each person named not less than five days after the making of the report unless good cause for denying the certificate is presented, and a request that the report be printed in the Assembly Journal.

23. **(Issuance of Certificate)** At the first meeting of the committee held not less than five days after the making of the report of the committee's preliminary determination, the committee will issue a certificate to each registrant named in the report, unless there has been filed with the committee a verified complaint conforming with the provisions of Part 4 of these Rules, or because of matter brought to its attention since the filing of the report, the committee on its own motion determines to conduct further investigation.

24. **(Report of Denial, Suspension, or Revocation of Certificate)** If upon review of an application and the review of any additional information and proof, or after such other investigation as the committee deems proper, the committee finally determines that the application should be denied and that the registrant should not receive a certificate, or if a certificate is suspended or revoked, the committee shall make an order to that effect and report its action to the Assembly.

If the determination and order are made without an opportunity for the registrant to appear at a hearing, the executive secretary of the committee shall mail a copy of the order to the registrant at his last address shown on his registration papers. The order shall be mailed, together with a statement that upon proper application pursuant to Part 4 of these Rules, a hearing will be afforded the registrant.

If the order is made after a hearing or after the registrant has been afforded an opportunity to appear at a hearing of which he has failed to avail himself, no notice of such order need be given to the registrant.

Part 3. Certificate Requirements

30. **(Duration of Certificate)** Certificates remain in effect until they expire by their terms or by operation of law, or until surrendered, suspended, or revoked as provided in Section 9909 of the Government Code and in these Rules.

31. **(Service of Papers)** Any notice, request, demand, subpena, or other paper or process shall be deemed personally served on the registrant if it is enclosed in a sealed envelope, addressed to registrant at the last business address shown in his registration statement or other papers filed pursuant to Section 9906 of the Government Code, and deposited in the United States mail, postage prepaid.

32. **(Surrender of Certificate)** Each registrant shall forthwith surrender his certificate to the committee when the certificate expires, or when the committee has suspended or revoked it.

33. **(Additional Information to Be Filed)** Each registrant shall promptly file, as provided for in Section 9906 of the Government Code, the following information:

(a) A statement of any additional employment.

(b) A statement of any change in his business address.

(c) A statement of any change in the terms of employment as a legislative representative, or other employment referred to in any

papers filed pursuant to Section 9906 of the Government Code, including, but not limited to, the name and address of the employer, term of employment, compensation or other consideration to be paid.

34. **(Surrender of Certificate for Modification)** Each registrant shall, upon request, promptly surrender his certificate in order that it may be appropriately changed or modified, where a change or modification is required, or canceled, if all of the registrant's authority has been terminated.

35. **(Reports)** Each person registering pursuant to Section 9906 of the Government Code, and each registrant to whom a certificate has been issued, shall, between the first and tenth day of each calendar month, so long as his activity continues, file the detailed reports under oath as required by Section 9906 A failure to do so shall not be deemed reason for suspending or revoking a certificate, if in any month for which a report is not filed the registrant or holder of a certificate has not engaged in any activity referred to in Section 9906 of the Government Code, and registrant so states in the first monthly report filed by him thereafter. Such statement shall be sufficient to continue his certificate in good standing if there are no other grounds or reason that the certificate should be suspended or revoked. This rule shall not be construed to prevent any person from filing a monthly report for the months during which he has not engaged in any activity covered by Section 9906, for the purpose of making it appear currently of record that his registration and certificate are in good standing.

36. **(Statement of Compensation)** The failure of a registrant to include in his registration a statement of how much he is paid, and is to receive, shall be deemed sufficient ground for refusing to issue a certificate If the registrant's employment is on a regular monthly or annual basis and is for services other than activities specified in Section 9906 of the Government Code, the committee will deem that he has complied with this rule if he does either of the following:

(a) States his annual or monthly compensation.

(b) States that he is paid on a monthly or annual basis for various services, some of which do not constitute activities under Section 9906, and further states that he will make appropriate allocation of his compensation for activities covered by Section 9906 when such services are performed. If the registrant thereafter fails to make such allocation of his compensation in any monthly report, this failure shall be deemed sufficient ground for refusing a certificate or suspending or revoking a certificate

The committee shall not consider that the requirements of this rule are met if the registrant merely states that he is to be paid a reasonable fee or a fee to be agreed upon, but where the fee or compensation is to be fixed or agreed upon only as or after services have been rendered, the basis upon which the fee is to be determined shall be fixed and stated with precision and upon a unit time basis, and the monthly reports filed thereafter which state the amount of the fee earned in the preceding month and the amount thereof which has been paid.

If the basis for fixing a fee for compensation is one which would increase or decrease the compensation depending upon the result of the

services and whether the same were successful in whole or in part or unsuccessful in whole or in part, it shall be considered for the purposes of these Rules, an agreement for contingent compensation, and shall be deemed sufficient ground for denying, suspending, or revoking a certificate.

Part 4. Procedure for Denial, Revocation, or Suspension of Certificates

40. **(General)** Certificates will be suspended or revoked as provided in subdivision 2 of Section 9909 of the Government Code and in these Rules, upon proceedings, investigations, or hearings initiated by the committee on its own motion or by verified complaint.

41. **(Periodic Review of Registration Statements)** The committee, from time to time, will review all statements, reports, and authorizations filed by any registrant to whom a certificate has been issued and is outstanding, and will review such other information or proof as it may from time to time require, to determine if the registrant is in good standing as such and is complying with the provisions of law. If the committee finds upon such review that good cause exists for the suspension or revocation of a certificate, it may on its own motion, take such steps as it deems appropriate.

42. **(Filing of Complaints)** The committee will receive and file with its records any verified complaint against any registrant. The committee may dismiss the same if it fails to comply with the provisions of Rule 43, or fails to state any charge which, if true, would warrant the denial, suspension, or revocation of a certificate.

43. **(Form of Complaints)** The complaint shall be signed by the persons making the charges. If filed by other than a natural person, the complaint shall be signed and verified by a duly authorized officer thereof. The complaint shall be verified in the manner provided by the Code of Civil Procedure for the verification of complaints in civil actions. A verified complaint shall clearly and distinctly show the following:

(a) The name and address of the persons by whom or on whose behalf the complaint is filed.

(b) The name of the persons against whom the complaint is made.

(c) A statement of the charges made. The statement of charges shall specify the statutes, Rules, or other provisions of law with which the person charged (respondent) is alleged to have violated, together with a statement in ordinary and concise language of the acts or omissions with which the respondent is charged. If any statement is on information and belief, it shall be accompanied by a statement of the source of the information and the grounds for the belief, which shall be a statement of fact and not conclusions.

44. **(Charges in Complaints)** The committee will consider only the following charges in any verified complaint:

(a) The charge that the respondent is not a person of good moral character.

(b) The charge that the respondent has violated a provision or provisions of Chapter 8, Part 1, Division 2, Title 2, of the Government Code.

(c) The charge that respondent has violated his obligations under Section 9910 of the Government Code.

(d) The charge that respondent has violated Section 35 of Article IV of the State Constitution.

(e) The charge that respondent has violated Sections 85 or 86 of the Penal Code, or Sections 9054 or 9056 of the Government Code.

45. **(Notice of Complaint)** If a verified complaint complying with the requirements of these Rules is filed with the committee, the committee may take such action as it deems appropriate in accordance with the authority vested in it. Before a hearing is held on the complaint, notice thereof shall be served on the person or persons charged in the complaint. The notice may be served personally or in the manner provided by Rule 31. The notice shall state that a verified complaint has been filed with the committee. Respondent shall be duly informed of the charges in said complaint and that the respondent named in the complaint has 10 days after service of the notice within which to file a verified answer with the committee and demand a hearing, and that unless such verified answer and demand for hearing are filed within that time, or such further time as the committee may grant, the committee will proceed to deal with the charges in the verified complaint in such manner as it deems proper.

46. **(Filing of Answer)** The respondent named in the complaint may within 10 days after service of the notice file with the committee a verified answer to the charges and demand a hearing. The committee may, for good cause, grant further time in which to answer. The answer may consist of denials or the statement of any material by way of defense, or both.

If an answer and demand for hearing is filed as provided for in these Rules, a hearing shall be had as provided by these Rules. If no answer and demand for hearing is filed, the committee may proceed to deal with the charges in the complaint as it deems proper, and may hold hearings on the charges, at which hearings the committee may require the attendance of the respondents, the complainants, or any other person the committee desires to hear.

47. **(Certificate Not Suspended by Filing Complaint)** If at the time of the filing of a complaint, a respondent named in the complaint holds a valid certificate, it shall remain in effect until the committee determines the charges made in the complaint and dismisses the charges or suspends or revokes the certificate.

48. **(General Rule on Hearing)** Except as otherwise provided by law and by these Rules, the committee in determining whether to issue, suspend, or revoke a certificate may proceed with or without hearings. If hearings are held, they may be open to the public.

49. **(Hearing When Complaint Filed)** If a verified complaint has been filed with the committee, and the respondent has filed an answer and demand for hearing, a hearing shall be had before a certificate is issued, suspended, or revoked.

50. **(Hearing When Certificate Has Been Denied)** If the committee has refused to issue a certificate without a hearing, the registrant shall be notified of the committee's action. The notice shall be served as provided in Rule 31. Within 10 days after the mailing of the notice the registrant whose application has been denied may demand a hearing.

51. **(Investigations)** All investigations, other than hearings, shall be conducted by the committee at such time, at such places, and by such means as the committee deems proper.

52. **(Scheduling Hearings)** The chairman shall schedule such hearings as are deemed advisable or as are provided for by these Rules. The time and place of all hearings shall be such as the chairman may fix, except that the time shall not be earlier than the expiration of the time within which a respondent or registrant may file a demand for a hearing.

53. **(Notice of Hearings)** The committee shall give reasonable notice in writing of time and place of all hearings either personally or by mail, to the complainant or complainants in any verified complaint, to the respondent or respondents charged in any verified complaint, and to any registrant entitled to a hearing as provided in Rules 49 and 50. The committee may give notice of the hearings to any other persons they deem proper, and in such manner as they deem proper. When hearings are held on the committee's own motion, only such notice shall be given as the committee deems proper in the circumstances.

54. **(Conduct of Hearings)** At any hearing a person shall be heard only with the consent of the committee, except that on hearings held pursuant to demands for a hearing filed in accordance with these Rules the complainant, respondent, and registrant shall be entitled to the following:

(a) To be represented by a member of the State Bar of California.

(b) To produce evidence which is material and relevant.

(c) To have subpenas issued by the committee upon reasonable request therefor. If a request for a subpena *duces tecum* is filed, the subpena will issue only if the request specifies with particularity the records, documents, papers, or other material desired, and is accompanied by a showing required for the issuance of subpenas *duces tecum* in civil actions in the superior courts of the State of California.

55. **(Scope of Inquiry)** In all hearings oral evidence shall be taken only by oath or affirmation. No testimony or evidence required shall be taken or received unless it is material and relevant to a charge made in the verified complaint, or a matter under investigation. In hearings had under the committee's own motion, the committee may determine the scope of the hearing, and on hearings had pursuant to a demand under Rules 49 and 50, the inquiry shall not be confined to any reasons which the committee may have stated upon the denial, suspension, or revocation of a certificate.

56. **(Amending Complaint or Answer)** The committee in its discretion may permit amendment to any verified complaint, answer, or other material filed with it, upon a showing to the committee of cause which the committee deems sufficient.

57. **(Order of Hearings)** On any hearing the committee shall determine the order of procedure and the order of proof, and on its own motion may enlarge the scope of the inquiry. The hearing need not be conducted according to any technical rules.

58. **(Evidence)** The hearing need not be conducted according to any technical rules relating to evidence, testimony, or witnesses, used in courts of record. Any evidence which is relevant and material shall be admitted if it is the sort on which responsible persons are accustomed

to rely in the conduct of serious affairs, without regard for any common law or statutory rule under which it might be excluded in the trial of any civil action.

On all investigations and hearings the committee will consider, and take notice of, so far as relevant and material, all proceedings and all matters appearing in any proceeding, at any time had by either house of the Legislature or any committee of either house of the Legislature or any joint committee of the houses of the Legislature.

59. **(Failure to Appear Before Committee)** If any complainant who has filed a verified complaint, or any registrant or respondent fails to appear before the committee pursuant to notice served upon him, or fails to appear at any hearing of which he has notice, the committee may forthwith proceed as though such person had filed his complaint, answer, or demand for a hearing as the case may be. The committee may take such other action, with or without a hearing, as the committee deems proper, in so far as the person in default is concerned.

60. **(Findings of Fact)** The committee shall not be required to make findings of fact or state its reasons or conclusions for any action taken by it, but may do so if it deems proper.

61. **(Finality of Committee's Action)** The committee will not entertain any charge in a verified complaint or any demand for a hearing or other application to the committee upon any subject on which the committee has acted after a hearing pursuant to these Rules, except on the committee's own motion.

Hours of Meeting

2. The session of Assembly shall be daily, beginning at 10 o'clock a.m. (Sundays excepted), unless otherwise ordered by a majority vote of the members present.

RULES

Adoption of Standing Rules

3. The adoption of the Standing Rules shall require an affirmative recorded vote of a majority of the entire elected membership. When once adopted, such Standing Rules shall remain in effect, unless suspended or amended as provided in these Rules.

Suspension of Rules

4. Any standing rule of the Assembly may be suspended temporarily by a vote of two-thirds of the members present; provided, that such temporary suspension shall apply only to the matter under immediate consideration, and in no case shall it extend beyond an adjournment.

No such resolution shall be considered until it shall have been referred to the Committee on Rules.

Temporary Rules

6. The Committee on Rules may at any time report a temporary rule. Upon adoption by an affirmative recorded vote of two-thirds of the entire elected membership of the Assembly, such temporary rule shall have the effect, for the time being, of a standing rule. If such temporary rule shall be in conflict with a standing rule, it shall supersede such standing rule only for the time being.

Parliamentary Rules

7. In all cases not provided for by the Constitution, by the Assembly Rules, or by the Joint Rules of the Senate and Assembly, the authority shall be Mason's Manual of Legislative Procedure.

Effect of Adoption of These Rules

8. The adoption of the Standing Rules of a budget session shall not be construed as modifying or rescinding the permanent Standing Rules of the Assembly for the preceding general session, nor as affecting in any way the status or powers of the interim committees created by those Rules.

Committee on Rules

9. There is a Committee on Rules which shall act as the executive committee of the House. The committee shall consist of one member appointed by the Speaker, who shall be the chairman and six other members, three of whom shall be members of the minority party and three of whom shall be members of the majority party. The chairman of each minority and majority party caucus shall within twenty-four (24) hours after the operative date of this rule, convene the party caucus of which he is chairman and provide the members thereof with ballots showing the names of the members. The members of each party caucus shall thereupon by secret ballot indicate their preference for three to be members of the Rules Committee and shall continue to ballot until three names shall have received a majority of the votes of the total number of members of the party. Following the balloting by the party caucus the chairman thereof shall file with the Chief Clerk a list of three nominees for membership on the Committee on Rules. Upon the filing of each such list, the Speaker shall immediately present the name of each nominee to the Assembly for its approval or rejection in the order filed. If approved by a majority of the elected membership of the Assembly, the nominee shall be declared elected as a member of the committee. If a nominee shall fail to receive such approval, the committee membership to which he would have been elected shall remain vacant until the chairman of his party caucus shall have filed the name of another nominee for the position which shall be the name of a member of the party caucus and selected by ballot in the same manner as the names of those previously presented and that such person shall be the nominee who shall be thereafter approved by a majority of the elected membership of the Assembly. Vacancies in the elected membership of the Committee on Rules occurring during any session of the Legislature shall be filled by election as herein provided, and such vacancies occurring after final adjournment and before the convening

any matter within its jurisdiction the committee and its members shall have and exercise all of the rights, duties and powers conferred upon investigating committees and their members by the Joint Rules of the Senate and Assembly as they are adopted and amended from time to time, which provisions are incorporated herein and made applicable to the Committee on Rules and its members.

Bills

Bills Defined

Introduction and Reference of Bills

50. Each bill shall be signed by the member, or each of the members, who is an author of the bill before it is introduced. If any bill is introduced which does not contain the signature of such author or co-author, the same, on motion of the member whose name appears thereon without such signature, shall be stricken from the file by a recorded vote of a majority of the elected membership. In each legislative session, on the first day when bills are introduced under "Introduction and Reference of Bills," the roll shall be called from A to Z and then back from Z to A, and as each member's name is called, he may introduce one bill, constitutional amendment, concurrent or joint resolution.

After these two roll calls, any member desiring to introduce bills, constitutional amendments, concurrent and joint resolutions may at any time during a session send the same to the Clerk's desk.

When received at the Clerk's desk it shall, under the proper order of business, be numbered, read the first time, referred to a standing committee, be printed, and a copy placed upon the desk of each member before final passage.

All bills, constitutional amendments, concurrent and joint resolutions introduced before the standing committees of the Assembly are appointed, shall be referred to committees, references to take effect when the committees shall be appointed.

The request shall be signed by the member requesting permission to introduce the bill and, if permission to introduce is granted pursuant to this Rule, such permission shall extend only to such member and his name shall be printed on the face of the bill following the words "Introduced by". The names of members who collaborated in the drafting of the bill or who wish to sponsor or indicate

approval thereof shall also be printed on the face of the bill following the caption "co-authors" or "sponsors" as the case may be. Only the member who introduced a bill pursuant to this rule shall be charged with the introduction of the bill in computing the number of bills for the purposes of Section 2 of Article IV of the Constitution.

The bill may be introduced only after the adoption of a motion by the Assembly that permission be granted to the member to do so. The adoption of such a motion shall require an affirmative recorded vote of two-thirds of all members elected to the Assembly.

Standing Committee Functions

Standing Committee Rules

55. The Rules of the Assembly shall govern the conduct of all committee meetings. Each committee may adopt, by a majority vote of its entire membership, such additional rules, not in conflict with the Standing Rules, as it may deem necessary for the conduct of any business referred to such committee.

A majority of the committee members present may order a call of the committee.

Meetings of Standing Committees

56. All standing committees shall meet at the hour and place provided by schedule, unless otherwise ordered by the Assembly. No committee shall meet during any session of the Assembly without first obtaining permission from the Assembly.

Every scheduled committee meeting shall be open to the public, unless the committee, by a majority vote of its entire membership, shall order an executive session.

All bills set for hearing by any Assembly committee, except the Assembly Committee on Rules, must be published in the Daily File not less than three days in advance of such hearing; provided, that this rule shall not prevent any Assembly committee from hearing any bill on Tuesday or Wednesday, where the action of the committee or committee's chairman setting such bill for hearing was taken on the preceding Friday or Saturday and a notice thereof is published in the Daily File for the following Monday; provided, further, that no bill shall be set for hearing nor shall any notice thereof be published by any Assembly committee until that bill has been referred to such committee

Committee Quorum

57. A majority of the membership of any standing committee shall constitute a quorum for the transaction of its business, including the adoption of any amendments to any bill. At least a majority of all members constituting such committee shall be required to report a bill out of committee.

Bills Reported Back to Assembly

58. All committees shall act upon bills referred to them as soon as practicable, and when acted upon each bill shall be reported back to the Assembly forthwith, and the chairman of each committee is charged with the observance of this rule.

Reports of Committees

59. Reports of standing and special committees shall be delivered to the Chief Clerk or an assistant, and shall be read and ordered printed in the Journal unless otherwise ordered by the Speaker or a majority vote of the members present.

60. No bill shall be signed out of committee unless the committee has failed to hold a meeting on two consecutive scheduled dates, or having so met, has failed to have a quorum present for the transaction of business.

Committee of the Whole

61. The Assembly may resolve itself into a Committee of the Whole at any time by a majority vote of the members present. While sitting as such committee, persons other than members may address the committee. The Speaker of the Assembly, or any member named by the Speaker, shall preside as Chairman of the Committee of the Whole.

A motion that the Committee of the Whole "do now rise and report back to the Assembly," shall always be in order, and shall be decided without debate. All actions of the Committee of the Whole shall be reported to the Assembly by the chairman, but shall not be entered in the Journal except upon motion and a majority vote of the members present.

Committee on Ways and Means

62. The Committee on Ways and Means shall consider all bills to appropriate money, other than the contingent expenses of the Assembly. Any bill which would require the expenditure of additional state moneys in any manner, including any bill which creates any additional state agency or office, or adds any functions, duties, or responsibilities to an existing agency or office, shall be referred to the Ways and Means Committee before being placed on third reading.

Committee Expenditures

63. No member or committee shall be permitted to incur any expense without first receiving the consent of the Assembly.

Travel Expenses of Assembly Committee Employees

64. Travel expenses of employees of Assembly committees shall be subject to Board of Control rules as applicable from time to time to state employees generally, except as follows:

a. Committee employees shall be entitled to allowances in lieu of actual expenses for mileage, hotel accommodations and meals at the rates fixed by the Board of Control from time to time in limitation of reimbursement of actual expenses of state employees generally, or at such lesser rates as may be prescribed by the employing committee.

b. Whenever a rule of the Board of Control requires approval of the Director of Finance or of the Governor with respect to any claim for expenses, such rule shall be applicable to committee employees but shall be deemed to require the approval of the Assembly Rules Committee rather than the approval of the Governor or Director of Finance.

In all other respects Board of Control rules shall govern as to the time, place and amount of expense allowable, and travel expense claims shall be submitted in form and supported by data and vouchers as required by Board of Control rules.

Mileage is an allowance in lieu of actual expenses of travel by private conveyance, and shall be allowed only to the operator of, and not to passengers in, a private vehicle. Mileage shall not be allowed in lieu of actual fare when travel is by train or other common carrier. Claims for mileage must be accompanied by the license number of the vehicle and the names of state officers and employees riding as passengers.

Reports of Interim Committees

65. All interim committees, unless otherwise authorized, shall report to the next succeeding Legislature on or before the fortieth legislative day after the convening thereof.

Passage of Bills

Daily File

66. There shall be printed an Assembly Daily File for each legislative day following the constitutional recess, or at any time prior thereto when ordered by the Speaker. The Committee on Rules shall have charge of the Daily File of the Assembly. The following listing shall constitute the order of the Daily File:

2. Second Reading, Assembly Bills
3. Second Reading, Senate Bills
4. Unfinished Business
5. Third Reading, Assembly Bills
6. Third Reading, Senate Bills

Inactive File

67. Whenever a bill has been passed twice on third reading file, it shall forthwith be placed upon a special file to be known as the inactive file. When a bill has been placed on the inactive file, it may be returned to the third reading file by a request of the author; but the bill shall then be placed at the foot of the third reading file.

Record of Bills

68. The Chief Clerk shall cause to be kept a permanent record of every action taken by the Assembly on every bill, and the date of such action. Every such action and the date thereof shall also be indorsed upon such bill.

Second Reading of Bills

69. All bills shall be read the second time in the order of their appearance upon the second reading file. Upon second reading, Assembly bills reported without amendments shall be ordered engrossed, and Senate bills reported without amendments shall be ordered to third reading.

Committee Amendments

70. Committee amendments reported with bills shall be considered upon their second reading and such amendments may be adopted by a majority vote of the members present. Assembly and Senate bills amended on second reading, whether by committee amendment or amendment from the floor, shall be ordered reprinted and engrossed and returned to the second reading file.

Amendments From the Floor

71. Any member may move to amend a bill during its second or third reading and such motion to amend may be adopted by a majority vote of the members present.

Before debate four copies of the proposed amendment must be delivered to the Clerk's desk and one copy made available to the author of the bill. Bill so amended on second reading shall be treated the same as committee amendments. Any bill so amended upon second or third reading shall be reprinted and re-engrossed. The Chief Clerk shall order printed as many copies of all amended bills as he may determine to be necessary.

Consideration of Bills Re-referred to Committee

72. Whenever a bill which has been amended, and re-referred to committee, is reported out by that committee, it shall be placed on the second reading file and shall not be transferred therefrom to the regular third reading file until the following day.

Consideration of Constitutional Amendments, Concurrent and Joint Resolutions

73. Constitutional amendments, concurrent and joint resolutions may be amended by a majority of the members present and shall be treated the same as bills, except that they shall be read but once. The ayes and noes shall not be called upon the adoption of concurrent resolutions, except those presenting charter amendments or authorizing expenditures of money, unless regularly demanded or required by statute or by the Constitution.

Bills Transmitted to the Senate

74. Upon the final passage of any bill if no notice of motion to reconsider such bill be given, the Speaker shall order the bill transmitted to the Senate under signature of the Chief Clerk. Senate bills refused passage shall forthwith be returned to the Senate under similar signature.

Bills Considered During Period Prior to Final Adjournment

75. See Joint Rule 23 for provisions governing bills considered during this period.

Concurrence in Senate Amendments

76. It shall require the same affirmative recorded vote to concur in any Senate amendment to an Assembly bill as the vote required by the Constitution for the passage of such bill. It shall require an affirmative recorded vote of two-thirds of the entire elected membership of the Assembly to concur in any Senate amendment to an Assembly bill which contains an item or items of appropriation subject to reduction or elimination under the provisions of Section 34a of Article IV of the Constitution. The vote on concurrence shall be deemed the vote upon final passage of such bill. When Senate amendments to an Assembly bill are concurred in, the bill shall be forthwith ordered enrolled, and the Chief Clerk shall notify the Senate of such concurrence.

Nonconcurrence in Senate Amendments

77. If the Assembly refuse to concur in Senate amendments to an Assembly bill, and when notified that the Senate has refused to concur in Assembly amendments to a Senate bill, the Speaker shall appoint a committee of three (3) on conference, and the Chief Clerk shall immediately notify the Senate of the action taken by the Assembly and request the appointment of a like committee.

Committee on Conference

78. The Speaker, in appointing a committee on conference, shall select two members from those voting with the majority on the point about which the difference has arisen, and the other member from the minority, in the event there is a minority vote.

Whether a member has voted with the majority or minority on the point about which the difference has arisen is determined by his vote on the appropriate roll call, as follows:

(a) The roll call on the question of final passage of a Senate bill amended in the Assembly when the Senate has refused to concur with the Assembly amendments;

(b) The roll call on the question of concurrence with Senate amendments to an Assembly bill.

Meetings and Reports of Committees on Conference

79. The Chairman of the Senate committee on conference for the same bill shall arrange the time and place of meeting of such committee. It shall require an affirmative vote of not less than two of the Assembly members and two of the Senate members constituting the committee on conference to agree upon a report, and the report shall be submitted to both the Senate and the Assembly. Such report is not subject to amendment, and if either house refuses to adopt such report, the conferees shall be discharged and other conferees appointed. No member who has served on a committee on conference shall be appointed a member of another committee on conference on the same bill. The presentation and consideration of any report of a committee on conference shall always be in order, except during a roll call or when a member has the floor. It shall require the same affirmative recorded vote to adopt any conference

report as required by the Constitution upon the final passage of the bill affected by such report. It shall require an affirmative recorded vote of two-thirds of the entire elected membership of the Assembly to adopt any conference report affecting any Assembly bill which contains an item or items of appropriation which are subject to reduction or elimination under the provisions of Section 34a of Article IV of the Constitution.

The vote on concurrence or upon the adoption of such conference report by the Assembly shall be deemed the vote upon final passage of such bill.

Engrossing and Enrolling Bills

80. The Engrossing and Enrolling Clerk shall engross and enroll all bills which shall come to his hands for such purpose, in compliance with provisions of Section 9503 of the Government Code, and in the order of time in which the same shall be acted upon by the Assembly.

81. After final passage by both houses, any Assembly bill not amended by the Senate shall be forthwith ordered by the Speaker to be enrolled, as provided in Sections 9508 and 9509 of the Government Code. The Committee on Engrossment and Enrollment shall report both the day and hour each enrolled bill is presented to the Governor, which report shall be entered in the Journal.

SECTION 4

PARLIAMENTARY PROCEDURE

Motions and Questions

Precedence of Motions During Debate

82. When a question is under debate or before the Assembly, no motions shall be received but the following, which shall take precedence in the order named:

First—To adjourn;
Second—To recess to a time certain;
Third—To lay on the table;
Fourth—For the previous question;
Fifth—To set as a special order;
Sixth—To postpone indefinitely;
Seventh—To refer to or re-refer;
Eighth—To amend.

Questions of Order Decided Without Debate

83. All incidental questions of order, arising after a motion is made for any of the questions named in Rule 82 and pending such motion, shall be decided by the Speaker without debate, whether on appeal or otherwise.

Appeal From Decision of the Speaker

84. Any member may appeal from a decision of the Speaker without waiting for recognition by the Speaker, even though another member has the floor. No appeal is in order when another is pending, or when other business has been transacted by the Assembly prior to the appeal being taken.

Upon the appeal being seconded, the Speaker may give his reasons for the decision, and the member taking the appeal may give his reasons for making his appeal, and the Speaker shall forthwith put this question to the Assembly: "Shall the decision of the Speaker be sustained?"

An appeal cannot be amended and yields only to a motion to recess or adjourn, to lay on the table, or a question of personal privilege. If an appeal be laid on the table, such action shall have no effect on the pending question.

An appeal cannot be debated when relating to indecorum, transgression of Rules, or priority of business. A majority vote of the members present shall decide any appeal.

Speaker Explains Order of Business

85. The Speaker may, on his own motion or upon the motion of any Member of the Assembly, explain the order of business when the motion pending before the Assembly is not debatable. Such explanation is not to consume more than two minutes.

To Adjourn

86. A motion to adjourn is not debatable and cannot be amended, and is always in order, except (a) when another member has the floor; (b) when the Assembly is voting; (c) during a call of the Assembly. The name of any member moving an adjournment and also the hour at which the motion was made and adjournment taken shall be entered in the Journal. A motion to adjourn must be adopted by a majority vote of the members present.

When a motion to adjourn is made and seconded, it shall be in order for the Speaker, before putting the question, to permit any member to state to the Assembly any fact relating to the condition of the business of the Assembly which would seem to render it improper or inadvisable to adjourn. A statement shall not occupy more than two minutes and shall not be debatable.

To Recess to a Time Certain

87. A motion to recess to a time certain shall be treated the same as a motion to adjourn, except that such motion is debatable when no business is before the Assembly, and can be amended as to the time and duration of the recess. It yields only to a motion to adjourn.

To Lay on the Table

88. A motion to lay on the table is not debatable and cannot be amended.

A motion to table a bill, constitutional amendment, concurrent or joint resolution requires a majority vote of the entire elected membership.

Any motion to lay on the table, if carried by a majority vote of the entire elected membership, carries with it the main question and everything that adheres to it; provided, however, that a motion to lay an amendment on the table, if adopted, does not carry with it a bill, constitutional amendment, concurrent, joint, or House resolution.

A motion to lay an amendment on the table may be adopted by a majority vote of the members present.

The Previous Question

89. The previous question shall be put only when demanded by five members, and in this form: "Shall the question be now put?" And its effect, when sustained by a majority of the members present, shall be to put an end to all debate and bring the House to a vote only on the question then pending; except that the proponent of the matter pending shall be allowed not to exceed five minutes to close the debate.

Motion to Set Special Order

90. A motion to set any matter before the Assembly as a special order of business must be adopted by a two-thirds vote of the members elected. It is debatable only as to the propriety of setting the main question as a special order of business, and may be amended only as to the time.

Motion to Postpone to a Time Certain

91. A motion to postpone to a time certain shall be deemed and treated as a motion to set as a special order.

Motion to Postpone Indefinitely

92. When a motion is made to postpone indefinitely any bill, motion, or amendment, it opens the main question to debate. Should the motion to postpone indefinitely prevail by a majority vote of the entire elected membership, the main question shall not be acted upon again during the session.

Motion to Amend

93. A motion to amend may itself be amended, but no "amendment to an amendment" can be amended. A motion to amend is debatable, except where the main question to be amended is not debatable. Any motion to amend may be adopted by a majority vote of the members present.

A motion to amend having been decided in the negative, shall not again be in order on the same day, or at the same stage of proceeding. A motion to amend by striking out certain words having been decided in the negative, shall not preclude a motion to amend by adding words, or a motion to amend by striking out and inserting words; but in no case shall a further amendment be substantially the same as the one rejected.

Subject to the above provisions of this rule, a motion to amend is in order during the second or third reading of any bill.

A motion to lay an amendment on the table may be adopted by a majority vote of the members present, as provided in Rule 88.

Amendment to Be Germane

94 No amendment to any bill, whether reported by a committee or offered by a member, shall be in order when such amendment relates to a different subject, or is intended to accomplish a different purpose, or requires a title essentially different from the original title of any bill.

No amendment shall be in order which adds or deletes the name of a member as an author or co-author, or which changes the original number of any bill.

Substitute Motion

95 A motion to substitute shall be deemed and treated as a motion to amend.

Motions in Writing

96. Upon request of the Speaker all motions shall be reduced to writing and shall be read to the Assembly by the Speaker before the same are acted upon.

Constitution of Motions

97. No motion, whether oral or written, shall be adopted until the same shall be seconded and distinctly stated to the Assembly by the Speaker.

Division of Questions

98. Any member may call for a division of the question, and the Speaker shall order the question divided if it comprehend propositions in substance so distinct that, one being taken away, a substantive proposition shall remain for the decision of the Assembly.

Withdrawal of Motions

99. After a motion is stated by the Speaker, or a bill, resolution, or petition read by the Clerk, it shall be deemed to be in the possession of the Assembly.

Motion to Be Germane

100. No motion or proposition on a subject different from that under consideration shall be admitted as an amendment.

Motion to Withdraw and Recall Bills

101. A motion to withdraw a bill or resolution from committee, or to re-refer a bill or resolution from one committee to another committee may be made during the regular order of business. A motion to re-refer shall only be debatable as to the propriety of such reference, and shall require a recorded vote of a majority of the elected members.

No bill or resolution shall be withdrawn from committee and placed upon the file except upon two days' notice thereof and except by a recorded vote of a majority of the elected members.

Bills Stricken From File

102. A motion to strike from the file any bill or House resolution requires a majority vote of the entire elected membership. Such bill shall not be acted upon again during the session.

Motion to Rescind Action and Expunge Record

103. Previous to the approval of the Journal by the Assembly, any action may be rescinded and its record ordered expunged by an affirmative recorded vote sufficient to take such action originally; except that no action shall be rescinded and the record expunged by a vote less than a majority of the entire elected membership. No motion to rescind the action and expunge the record shall be made twice on the same proposition.

Whenever any action of the Assembly is rescinded and its record ordered expunged, the record of the action expunged shall not appear in any form whatsoever, but the record of the proceedings on the motion to rescind and expunge shall appear in the Assembly Journal as and when printed.

Reconsideration of Vote

104. Notice of a motion to reconsider on the next legislative day, the vote whereby any bill, constitutional amendment, concurrent or joint resolution was passed or refused passage, must be given on the same day such vote to be so reconsidered was taken.

A notice of motion to reconsider a vote must be given by a member voting on the bill, constitutional amendment, concurrent or joint resolution, and shall take precedence over all motions, except a motion to adjourn. Upon such notice of motion being given, the bill, constitutional amendment, concurrent or joint resolution shall forthwith be placed upon the unfinished business file, and no further action shall be taken prior to the next legislative day. When a notice of a motion to reconsider has once been made, the same shall be considered to be the property of the Assembly.

Any member voting on any motion, amendment, concurrence, Assembly resolution or proposition other than a bill, constitutional amendment, concurrent or joint resolution, may give notice of reconsideration of the vote whereby the same was passed or refused passage on the same day such vote to be reconsidered was taken, which notice shall suspend all further consideration until the next legislative day; provided, however, that a motion to reconsider on the same day the notice was given shall take precedence over and above such notice and upon demand of any member must be put to an immediate vote. A motion to reconsider any proposition other than a bill, constitutional amendment, concurrent or joint resolution shall require an affirmative recorded vote of a majority of the entire elected membership.

No notice of motion for reconsideration shall be in order on the day preceding the last day for consideration of Assembly or Senate bills in the Assembly. No motion to reconsider shall be adopted except upon an affirmative recorded vote of a majority of the entire elected membership, except that it shall require a two-thirds vote of the entire elected membership to reconsider the vote on any matter originally requiring a two-thirds vote for its passage or adoption.

When reconsideration is granted, the bill shall resume its exact position before the Assembly previous to its being voted upon.

Call of Assembly

105. After the roll has been called, and prior to the announcement of the vote, any member may move a call of the Assembly. A majority of the members present may order a call of the Assembly, and the Speaker shall immediately order the Sergeant-at-Arms to lock all doors and shall direct the Clerk to prepare a list of absentees as disclosed by the last roll call, which list of absentees shall be furnished to the Sergeant-at-Arms. Thereupon no members shall be permitted to leave the Assembly Chamber except by written permission of the Speaker, and no person shall be permitted to enter except such member as is taken into custody as herein provided, or Senators, officers, attaches, or employees of the Legislature in the official performance of their duties.

Those members who are found to be absent, and for whom no leaves of absence have been granted, shall be forthwith taken into custody wherever found by the Sergeant-at-Arms or his assistants or any person

designated by the Sergeant-at-Arms, including members of the California Highway Patrol, the State Police, and sheriffs or their deputies, and brought to the Assembly Chamber. No recess or adjournment shall be taken during a call of the Assembly. During such call, the Assembly may consider and transact any matter of business by unanimous consent. No call of the Assembly shall be ordered on any matter while the Assembly is already under call. A call of the Assembly may be dispensed with at any time upon a majority vote of the members present, such action to become effective upon the completion of the roll call and the announcement of the vote upon the matter for which the call was ordered.

Resolutions

106. The adoption of any resolution authorizing the expenditure of money shall require an affirmative recorded vote of a majority of all members elected to the Assembly. All House resolutions shall be numbered and shall be referred to the appropriate committee by the Speaker.

Motions and Resolutions

107. Any motion or resolution not otherwise provided for under the Rules shall be placed before the Assembly only under this order of business. Unless otherwise provided by law or Assembly rule, any motion or resolution may be adopted by a majority vote of the members present.

Adjournment

108. Adjournment for the constitutional recess or adjournment *sine die* shall be ordered by concurrent resolution. The resolution for adjournment *sine die* shall be adopted by the Assembly not less than seven days before the date set therein for such adjournment.

Members' Decorum and Privileges

Order in Speaking to Questions

109. When a member desires to address the Assembly, he shall rise from his seat and respectfully address himself to "Mr Speaker." Upon being recognized, he may speak, confining himself to the question under consideration. When two or more members rise at the same time, the Speaker shall designate the member who is entitled to the floor.

No member shall speak more than once during the consideration of any one question on the same day and at the same stage of proceeding, except that the author of a bill or resolution or the mover of a question shall have the right to open and close the debate thereon. No member shall be allowed to speak more than 10 minutes to open and five minutes to close the debate thereon, and no member other than the author or the mover of the question shall be allowed to speak more than five minutes thereon. No member shall yield to any other member the time for which he is entitled to speak on any matter.

Leave of Absence

110. No member shall absent himself from attendance at any session of the Assembly without leave of the Assembly, and no member shall obtain such leave of absence or be excused for nonattendance, except by a two-thirds vote of all members elected to the Assembly, or by unanimous consent.

Personal Privilege

111. Any member may rise to explain a matter personal to himself and shall forthwith be recognized by the Speaker, but shall not discuss a question in such explanation. Such matters of personal privilege yield only to a motion to recess or adjournment.

Objection to Reading of Any Paper

112. Any member upon recognition by the Speaker may object to the reading of any paper before the Assembly. After such objection, the question of reading shall be determined without debate by a majority vote of the members present, upon a brief statement of its substance by the Speaker.

Members Called to Order for Transgressing Rules

113. a. If any member transgresses the Rules of the Assembly, the Speaker shall, or any member may, call the offending member to order. The member so called to order shall immediately take his seat, until the Speaker without debate, shall have determined whether he is in order or not. Such decision by the Speaker shall be subject to an appeal to the Assembly.

b. If any member be called to order for offensive words spoken in debate, the person calling him to order shall state to the Assembly the words to which exception is taken. No member shall be held to answer, or be subject to censure by the Assembly, for language used in debate, if other business shall have been transacted by the Assembly prior to exception being taken to the words spoken.

Members Voting

114. Every member in the Assembly Chamber when a roll call is required shall record his vote openly and without debate, unless the Assembly shall, by a majority vote of the members present, excuse him.

The name of any member who refuses to vote as required by this rule, after being requested by the Speaker to do so, shall be entered in the Journal of the Assembly, together with a statement that he was present and did so refuse to vote. Any member who refuses so to vote may, if he so desires, and immediately after the announcement of the vote, submit a written explanation of his failure to vote and have such explanation printed in the Journal, provided no such explanation shall exceed 50 words in length.

In addition to the entry of his name in the Journal, any member who refuses so to vote when required, and who has not been excused from doing so, may, immediately after the announcement of the vote, in the discretion of the Speaker or upon demand of any member, be summoned to appear before the bar of the Assembly for public censure by the Speaker or by any member designated by the Speaker. Censure of a member as provided by this rule shall not constitute a bar to proceedings for his expulsion from the Assembly pursuant to Section 9 of Article IV of the Constitution.

A member may submit a written explanation of his vote on any bill or House resolution, and have such explanation printed in the Journal immediately following such vote, provided no such explanation shall exceed 50 words in length.

Ayes and Noes

115. The ayes and noes shall be recorded by the electrical voting system on the final passage of all bills, or by viva voce when demanded by three members or when ordered by the Speaker, and on any other question when called for by three members or ordered by the Speaker, the names of which members shall be entered in the Journal.

Voting Not to Be Interrupted

116. When once begun, voting shall not be interrupted, except that before the vote is announced, any member may have the total pending vote flashed on the visible vote recorder. Prior to the announcement of the vote the Speaker shall inquire if all members have voted. Any member may move a call of the Assembly after the completion of the roll and prior to the final recording, but no member shall be allowed to change his vote, or have his vote recorded after the vote is announced.

Members at Clerk's Desk

117. No member or other person shall be allowed at the Clerk's desk while the ayes and noes are being recorded or the votes counted.

Tie Vote

118. In case of an equal division, or tie vote, the question shall be lost.

"Two-thirds of the Entire Elected Membership" Defined

119. Wherever the words or figures, "two-thirds of the entire elected membership" appear in any rule, it shall mean 54 votes.

Assembly Expenses Between Sessions

120. Pursuant to the powers vested in the Assembly Committee on Rules, and during such times as the Assembly is not in session, the committee is authorized and directed to incur and pay such expenses of the Assembly not otherwise provided for as the committee determines are reasonably necessary, including repair, alteration, improvement and equipping of the Assembly Chamber and the offices provided for the Assembly in the State Capitol.
