GENTLEMEN:

Assembly Bill No. 3793, "An act to add Sections 50 and 51 to the Construction and Employment Act (Statutes of 1946 (First Extraordinary) Session, Chapter 20), relating to the allocation of funds to cities, making an appropriation therefor, declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This act makes an appropriation of money to be available for providing a water supply to the cities. The bill contains an urgency clause and, in my judgment, it is essential that the money be made available as early as possible.

I therefore recommend consideration of Assembly Bill No. 3793 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

RESOLUTIONS

The following resolutions were offered:

By Messrs. Smith, Backstrand, Dills, Kilpatrick, Dahl, Gaffney, Rees, Rumford, and O'Connell:

House Resolution No. 205

Relative to the modification of mufflers and exhaust systems of motor vehicles

WHEREAS, The laws of this State prohibit the modification of any portion of the exhaust system of a motor vehicle whenever such modification would amplify or increase the noise emitted by the motor of the vehicle above that emitted by the original muffler installed on the vehicle; and

WHEREAS, The purpose of the members of this body in adopting such a regulation was to prevent persons from modifying the exhaust systems of motor vehicles in such a manner as to cause the emission of unreasonable noises, and was not to prohibit persons from making such adjustments, repairs, or replacements as would be reasonable; and

WHEREAS, It has come to the attention of this body that many law enforcement officers throughout the State, because of misconception as to the purpose of these requirements or because of an unreasonable construction of these requirements, have been arresting or detaining persons merely because they have made slight modifications to the exhaust systems of their motor vehicles, even though no unreasonable increase in noise has been occasioned as a result of such modifications; and

WHEREAS, It is imperative that a proper law enforcement program respecting this problem be adopted throughout the State to protect the citizens of California from any harassment or unreasonable actions which may result from any failure by law

enforcement officers to appreciate properly the purpose of the laws in question; now, therefore, be it

Resolved by the Assembly of the State of California, That all local and state law enforcement agencies are hereby requested to take such measures as are necessary to carry into effect the purpose of the statutes in question; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit such number of copies of this resolution to the Commissioner of the California Highway Patrol as the commissioner deems necessary to supply each appropriate law enforcement agency in this State with a copy thereof, and hereby requests the commissioner to transmit a copy of this resolution to each such agency.

Assembly Bill No. 3485—An act to add Section 11181.2 to the Education Code, relating to special books for pupils of the public schools whose vision is defective, and making an appropriation therefor.

Bill read third time.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No. 3485:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 25, 1955

To the Honorable Members of the Assembly
Sacramento, California

GENTLEMEN:

Assembly Bill No. 3485, "An act to add Section 11181.2 to the Education Code, relating to special books for pupils of the public schools whose vision is defective, and making an appropriation therefor,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill provides textbooks in large print for the use of students of low visual acuity. It appears desirable that this project to supply special books should proceed as rapidly as is reasonably possible.

I therefore recommend consideration of Assembly Bill No. 3485 as an emergency measure.

Respectfully submitted.

EXPLANATION OF ABSENCE

Just before my bills, Assembly Bills Nos. 3467 and 3468, were to be taken up on file, I was called to the Governor's Office for a conference and, not knowing whether I would be back in time, I asked Mr Maloney to take up the bills for me. That accounts for my not being recorded as voting on these and other measures during my absence from the Chamber

"6495. Whenever the Legislature has appropriated money to be expended by the Department of Finance for the acquisition of a site and the development of a small craft harbor and recreation area, the State Lands Commission, in lieu of the Department of Finance, may expend for such purpose the money thereby appropriated and may enter into leases or agreements with a county, city, city and county or other political subdivision of the State for the development, operation and maintenance thereof by such county, city, city and county or other political subdivision. If the legislative appropriation contemplates that any such lease or agreement shall be entered into with a particular county, city, city and county or political subdivision, the lease or agreement shall be entered into with that local agency.

Such leases or agreements shall provide for a plan of development of the harbor and area, and may provide for the development, operation and maintenance thereof by the county, city, city and county or other political subdivision of the State for a term not to exceed 60 years. Such leases or agreements may provide for cooperative agreements between the State, the local agency and the Federal Government for federal participation in the development of the harbor and area. Such leases or agreements may also authorize the local agency to grant concessions or subleases consistent with and in furtherance of the plan of development and the public use of the harbor and recreation area. The State Lands Commission may reserve the right to approve any such concessions or subleases.

If the appropriation requires payments to the State, then the lease or agreement shall provide for such payments plus any additional amount which may be required by the appropriation either by agreed upon rental payments or by payments from the revenues to be derived from the harbor and area. The intervals, amounts and method of payment shall be as mutually agreed upon by the State Lands Commission and the local contracting agency.

6496. The Legislature hereby finds and declares that the acquisition, development, maintenance and operation of small craft harbor and recreation areas is of state-wide interest and concern and the appropriation of state funds for the acquisition of a particular site for that purpose constitutes a determination of state-wide interest therein.

Unless unemployment continues to be alleviated by the granting of financial assistance to local agencies as provided in the Construction and Employment Act there will be a serious disruption to the economic affairs of this State. House Resolution No. 120

Relative to the appointment of a Subcommittee on Highway Transportation of the Assembly Standing Committee on Conservation, Planning, and Public Works

WHEREAS, The public highways, streets, and bridges of the State are useful, necessary, and indispensable arteries of travel and commerce and have been constructed and improved at great public expense; and

WHEREAS, The development and growth of this State during and since World War II have subjected the streets and highways of this State to unusual and destructive burdens; and

WHEREAS, It is recognized that pavements and other highway improvements are not permanent, but must be rebuilt, resurfaced, and modernized, indicating the need

of foresight in the treatment of acquisition, construction and financial problems in connection with the inevitable program of reconstruction; and

WHEREAS, It is essential that the Legislature has before it complete information with respect to the funds available for construction, improvement, and maintenance of public streets, highways, and bridges in this State, including funds derived from taxes on property, from federal aid, and from registration fees, gasoline taxes, and other fees collected as compensation for road use, and bond proceeds; and

WHEREAS, Inasmuch as the successful completion of a comprehensive plan for the construction, improvement, and maintenance of a System of Public Streets, Highways, and Bridges in this State is dependent upon the efficient and economic use of the funds available by the administrative agencies involved, it is necessary that the Legislature have information with respect to the administration of the highway programs at both the state and local level, and, especially, at the state level it is important that the Legislature have facts with respect to the relationship of administrative costs of the Division of Highways of the Department of Public Works to the total cost of constructing state highways; and

WHEREAS, The Legislature is faced with difficult problems with respect to the construction of freeways, including but not limited to the financing, through taxation and bond proceeds, planning and design thereof, the elimination of congestion at the termini thereof, the acquisition of rights of way therefor, and the providing of mass transportation in connection therewith, and the solution of such problems is dependent upon full information of facts relating thereto; and

WHEREAS, One of the most important problems in connection with highway construction is the rising cost of acquiring rights of way and rights of access and the effect such acquisition has upon the property owners of this State, which problem should be carefully studied by the Legislature, and

WHEREAS, Complete information should be available to the Legislature as to the actual annual cost of roads, streets and bridges and the fair apportionment of such costs between those who use them; and to that end the Legislature is in need of data as to the total mileage of roads, streets and bridges, the capital investment therein, the total sum which should be collected each year in road use charges or other fees in order to maintain, replace and modernize the same, and the proper amount which should be paid each year by users of public thoroughfares to meet the total annual cost of all public roads, streets and bridges; and

WHEREAS, The Legislature is in need of additional information on the foregoing matters, including (a) the present status of the Highway System, state, county and local, (b) existing deficiencies therein to meet present demands, (c) a schedule of progressive improvements necessary to keep abreast of future demands, (d) a schedule of maintenance to keep the capital investment up to standard, (e) a schedule of improvements necessary to develop areas of the State that should be opened up to economic opportunity, (f) special problems relating to highways and matters incidental thereto, (g) the financing of highways and the administration of the Highway System including alternate plans to those heretofore proposed for financing a highway construction program with the purpose of reducing as much as is equitable the burden of taxation which the motorist of the next decade must bear, (h) the inter-relationship between state and local governments in relation to the foregoing and the inter-relationship of the State and Federal Government, and (i) the control of traffic on the highways in the interest of safety, which information should include so far as feasible both present needs and future needs for a period of at least 10 years; now, therefore, be it

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Holmes asked for, and was granted, unanimous consent to have the following communication and brief printed in the Journal:

LETTER OF TRANSMITTAL

SANTA MARIA CHAMBER OF COMMERCE
SANTA MARIA, CALIFORNIA, May 24, 1955

Assemblyman James L. Holmes
Assembly Office Building
Sacramento 14, California

DEAR JIM: We appreciate the time you gave to Glenn Seaman, Chairman of our Highway Committee, in discussing the current status of our request before the California Highway Commission to relocate the Cuyama-Santa Maria Road. It is unfortunate that the condition arose concerning our request and your Assembly bill. We want you to know that your efforts in our behalf are sincerely appreciated, and will look forward to securing your assistance and cooperation in the future.

In order that you may know the contents of the request we now have pending with the California Highway Commission, I am enclosing a copy of the brief we presented to the commission at its regular monthly meeting held in Sacramento on Thursday, May 19th.

You will note that we have requested at present a survey for the complete relocation of the westerly 33 miles of the Cuyama-Santa Maria Road from U. S. Highway 101 to the second crossing of the Cuyama River. As Mr. Seaman explained to you by telephone yesterday, we have every reason to believe that the commission will grant our request for the survey, and that funds will be forthcoming through California Highway Commission channels. Our District Highway Engineer, Mr. E. J. L. Peterson, has recommended this course of action, inasmuch as he feels the critical deficiencies in U. S. Highway 101 will be corrected within the next four to five years, and that funds can then be made available for the improvement of secondary state highways.

Any help you may be able to give to encourage the California Highway Commission to grant our request for an immediate survey will be most helpful and appreciated at this time.

Very sincerely yours,

ROBERT M SEAVERS, Secretary-Manager

SANTA MARIA CHAMBER OF COMMERCE
SANTA MARIA, CALIFORNIA

BRIEF IN SUPPORT OF REQUEST FOR A SURVEY FOR THE RELOCATION OF STATE HIGHWAY NO. 57 KNOWN AS STATE SIGN ROUTE NO. 166 OR THE CUYAMA HIGHWAY

TO: CALIFORNIA HIGHWAY COMMISSION
ATTENTION: MR. FRANK B. DURKEE, CHAIRMAN

This summary is presented in support of the relocation of State Sign Route #166 between its intersection with U. S. Highway 101 and a point 33 miles easterly to the second crossing of the Cuyama River. This route serves as an access road between the Santa Maria-San Luis Obispo coastal area and the Cuyama Valley, and also connects with U. S. Highway #99 about 22 miles South of Bakersfield. This road was originally built about thirty years ago The 33 mile westerly section of this road is badly in need of relocation as indicated by the following results of an engineering survey:

"The section from U. S. 101 to the second crossing of the Cuyama River is 32.8 miles in length, and contains 531 curves The total length of the curves is 16.8 miles There are 118 curves having a radius of less than 150 feet; 301 with radii from 150 feet to 250 feet; 164 with radii from 275 feet to 600 feet; and 48 with radii greater than 600 feet

There are 3.4 miles of this section with grades of 7%; 7.2 miles with grades ranging from 5.5% to 6.9%; and 7.4 miles with grades from 3.5% to 5.4%."

The extensive agricultural and oil development in the Cuyama Valley during the past decade has been of tremendous importance to Santa Barbara County, and to the State of California. However, commerce between the Cuyama Valley and the coastal area has been severely handicapped because of the totally inadequate connecting road. The innumerable curves and steep grades have caused the routing

of practically all truck transportation to and from Southern San Joaquin Valley points by way of the much longer Paso Robles-Shandon route. The development of sugar beet acreage in the Cuyama Valley has been materially retarded because of excessive transportation costs to the sugar refinery near Santa Maria. During recent years, approximately 13,000 acres of irrigated farm land have been placed under cultivation, and the annual agricultural production of the area exceeds $4,000,000. The assessed valuation has increased many fold and is presently more than $57,000,000

Traffic counts on the Cuyama Road are no criteria of the extreme need for this improvement, since, *without the relocation, traffic as been forced to use longer, more circuitous routes.* Not only would this improvement be of great benefit to motor transportation in this area, but it would make a shorter, serviceable route between U. S. Highway 99 and U. S Highway 101 *It would reduce by more than 20% the travel time between Southern San Joaquin Valley points and furnish a direct route for the many thousands of people residing in the Southern San Joaquin Valley to the central coast recreational areas*

We believe this purpose can be served only with a river road, 50 mile an hour highway, eliminating excessive curvatures with standard truck grades. We appreciate the fact that the State has allocated funds for realignment of certain critical curves and widening of certain narrow portions, but this program will take a great number of years to complete and will not provide the type of highway we believe necessary to handle this problem

The Cuyama Road improvement has been the subject of presentations to the California Highway Commission on previous occasions, but each time the proposal has been turned down because of inadequate funds, and because of critical deficiencies on major traffic arteries It can readily be seen that the critical deficiencies on U S Highway 101 through the southern central coast area are rapidly being corrected so that funds can be released to finance critical projects on the other important roads. However, *we submit that the improvement of the Cuyama Road as a lateral highway connecting the Santa Maria-San Luis Obispo coastal area with the lower San Joaquin Valley will decrease the traffic load on U S. Highway 101 and other Highways because of providing a shorter, faster route between those points.*

Previously, the Division of Highways has considered that preliminary surveys indicated that no minor accomplishment could be made which would improve this road, and to bring it up to adequate standard would call for a major project. While we are not qualified to estimate the total amount of money which might be needed to properly improve this road, we firmly believe that the relocation constitutes a worthwhile improvement, and that the need for this improvement is so great that an immediate survey should be made We believe with the completion of the freeway program in the Southern part of District V that many state secondary highways will then be in line for improvement We firmly believe that the Cuyama lateral is one of major importance in the secondary State Highways system in District V We cannot stress too strongly the importance of this survey at this time At the completion of the major freeway construction program in the Southern part of District V, funds may be available for secondary State Highway construction, and we firmly believe that the Cuyama lateral should be high on the list for consideration

Nothing in this brief is to be construed as determining the allocation of funds for the Cuyama Road relocation Naturally, we feel that the project should be completed as soon as possible, but our primary concern is to get the work started on the survey.

In conclusion, we submit the names of the following organizations which have endorsed the survey of State Sign Route No 166 between Santa Maria and the Cuyama Valley:

UNANIMOUS CONSENT REQUEST

Mr. Munnell asked for, and was granted, unanimous consent to have an explanation of vote which exceeds 50 words printed in the Journal.

EXPLANATION OF VOTE

Assembly Bill No 1486 is a loose, ineffective, measure which does not require any formal designation of a campaign treasurer Consequently there would be no tangible identification of the person charged with the duty of filing campaign statements. The measure does not require any tangible connection between a candidate and his committees This is in strong contrast with Assembly Bill No. 1548 (Purity of Elections Act) which I introduced and the Assembly passed This continues in essence the present ineffective law where candidates disavow responsibility for the action of their campaign committees

Assembly Bill No. 1486 would leave the law enforcement aspect as neglected as it is at present, since no one would have a duty to report violations to the district attorney.

In addition, this measure follows Assembly Bill No. 1548, if it should be signed into law it would supersede many sections of Assembly Bill No. 1548 since they both deal with many identical sections of the Elections Code

WM. A MUNNELL

FURTHER PROCEEDING UNDER QUORUM CALL OF THE ASSEMBLY DISPENSED WITH

At 6 08 p.m., on motion of Mr. McCollister, further proceedings under the call of the Assembly were dispensed with.

In any event, each such corporation shall pay annually to the State, for the said privilege, a minimum tax of [twenty-five dolars ($25)] *fifty dollars ($50)*.

SEC. 3. Section 23184 of said code is amended to read:

23184. Financial corporations may offset against the franchise tax the amounts paid during the income year to this State or to any county, city, town, or other political subdivisions of the State as personal property taxes, or as license fees for the following privileges:

The percentage of the net income of every corporation taxable under Section 23151, other than public utilities as defined in the Public Utilities Act, required to be paid to this State or its political subdivisions in personal property taxes shall be determined by ascertaining the ratio which the total amount of such personal property taxes, less [4] *5* percent thereof, bears to the total amount of net income of such corporations allocable to California, increased by the amount of such personal property taxes; provided, however, that if any such corporation sustains a net loss allocable to California the personal property taxes required to be paid by such corporation to this State or its political subdivisions during the preceding calendar year or fiscal years ended during such calendar year shall be considered for the purpose of determining such ratio only to the extent which such personal property taxes exceed such net loss allocable to California.

SEC. 5. Section 23501 of said code is amended to read:

23501. There shall be imposed upon every taxpayer for each taxable year, a tax at the rate of 4 percent upon its net income derived from sources within this State on or after January 1, 1937, *and until January 1, 1955, and at the rate of 5 percent upon its net income derived from sources within this State on and after January 1, 1955*, other than income for any period for which the taxpayer is subject to taxation under Chapter 2 of this part, according to or measured by its net income.

RESOLUTIONS

The following resolutions were offered:

By Mr. Dolwig:

House Resolution No. 229

Relative to the Trinity River-San Luis Project

WHEREAS, The increasing needs of population, industry, agriculture and national defense call for the immediate development of certain California water projects now under consideration by the Congress of the United States and the Legislature of the State of California; and

WHEREAS, The Legislature of the State of California has made a study of many of these projects and agreement has been generally expressed that construction of the Trinity-San Luis Project should be initiated immediately by the Federal Government; and

WHEREAS, It has been generally agreed that the integration of the Trinity River-San Luis Project with the federally operated Central Valley Project will, during this period of urgency, increase the economic feasibility of both projects and speed the day when supplemental water can be made available; and

WHEREAS, It has been generally agreed, and concurred in by the United States Bureau of Reclamation, that the San Luis phase of the project can be so planned and designed that it may, in the interests of the fullest and most economic utilization of the State's precious water resources, be integrated with a state-wide California program when the Feather River Project has been advanced to the operation stage; now, therefore, be it

Resolved by the Assembly of the State of California, That the Congress and the President of the United States are respectfully urged to enact such legislation as may be required to bring about the immediate authorization and construction of the Trinity-San Luis Project and that in such authorization the Congress make provision for the integration of the San Luis Project with the California state-wide water program; and be it further

Resolved, That the Chief Clerk of the Assembly be instructed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives and to each Senator and Representative from California in the Congress of the United States and to the Secretary of the Interior and to the Secretary of the Army.

Resolution read, and ordered referred to the Committee on Rules.

By Mr. Brown:

House Resolution No. 230

Relative to the need for identifying legislative measures which have been introduced before the Legislature at the request of governmental agencies

WHEREAS, A constantly increasing volume of legislative business is being handled by both houses of the Legislature, much of which originates with governmental agencies at the state or local level; and

WHEREAS, It is impossible, under existing procedures, to ascertain from examining such measures the fact that they are initiated and sponsored by such governmental agencies; and

WHEREAS, Some clear identification of these bills, readily observable from the face of the measures themselves, would be of great assistance in processing the vast number of bills which must be considered by the Legislature at each general session; now, therefore, be it

Resolved by the Assembly of the State of California; That during the next interim period the Assembly Committee on Rules is directed, and the Senate Committee on Rules is requested, to determine what changes could be made in the Joint Rules of the Senate and the Assembly to insure that adequate identification of such governmental bills can be made; and be it further

Resolved, That during the next interim period any joint interim committee which may be created to study problems related to that described herein is also requested to give attention to it; and be it further

Resolved, That an appropriate solution would seem to lie in the direction of requiring that each bill introduced at the request of a governmtal agency be so designated by printing a special legend to that effect on the face of the bill following the words "By Request"; and be it further

Resolved, That the Chief Clerk of the Assembly be, and hereby is, directed to send copies of this resolution to the chairman of each interim committee authorized to study problems in any way relating to the one described herein.

"SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect The facts constituting such necessity are:

Under the existing law the state school building bonds must be sold and the proceeds thereof available before the State Allocation Board can make a final apportionment of such proceeds to the school districts even though the full amount of such apportionment will be actually disbursed to the district over a period of time. Such a method is unnecessarily wasteful of State General Fund money in that it costs the State, in the interest payments on the state bonds, several million dollars a year Under this act the apportionments would be made payable out of the proceeds of the state bonds when they are sold, and bonds will be sold when needed for disbursment to the school districts, thus avoiding the holding in the State Treasury of funds earmarked for particular school districts but not yet needed by the districts under their building schedule In order that this savings of State funds may be made as soon as possible it is essential that this act take effect immediately."

6021. "Vehicle" and "motor vehicle", as used in this part, shall have the meanings ascribed to them in Sections 31 and 32 of the Vehicle Code.

SEC. 6. Section 6248 is added to said code, to read:

6248. On and after the effective date of this section it shall be presumed that any vehicle bought outside of this State which is brought into California within 90 days from the date of its purchase, and which is subject to registration under the Vehicle Code, was acquired for storage, use, or other consumption in this State.

SEC. 7. Section 6388 is added to said code, to read:

6388. There are exempted from the computation of the amount of the sales tax the gross receipts from sales of vehicles subject to registration under the Vehicle Code when the retailer is a person other than a dealer certificated under Section 206 of the Vehicle Code, or a wrecker licensed under Section 245 of that code, holding a valid seller's permit under Section 6068 of this code.

SEC. 8. Section 6422 is added to said code, to read:

6422. If a purchaser of a vehicle from a person other than a dealer certificated under Section 206 of the Vehicle Code, or a wrecker licensed under Section 245 of that code, holding a valid seller's permit under Section 6068 of this code, claims that no use tax is due from him under this part, he may submit to the board the facts on which such claim is predicated, and if the board determines that no tax is due, it shall so certify to the Department of Motor Vehicles, which is then authorized to complete registration or transfer of registration of the vehicle without payment of the use tax.

SEC. 9. Section 6454.5 is added to said code, to read:

6454.5. (a) When a vehicle is sold at retail by a person other than a dealer certificated under Section 206 of the Vehicle Code, or a wrecker licensed under Section 245 of that code, holding a valid seller's permit under Section 6068 of this code, the retailer is not required to make a sales tax return or to pay the tax with respect to the transaction, but the purchaser of the vehicle must make a use tax return showing the sales price of the property.

(b) This return, accompanied by payment of the tax, is due when the purchaser first applies to the Department of Motor Vehicles for registration or transfer of registration of the vehicle following his acquisition thereof. The use tax return shall be filed with, and the tax payment made to, the Department of Motor Vehicles, acting for and on behalf of the board.

(c) If the purchaser does not make timely application to that department, but is subject to penalty because of deliquency in effecting registration or transfer of registration of the vehicle, he then becomes liable also for penalty as specified in Section 6591 of this code, but no interest shall accrue

SEC. 10. Section 148.5 is added to the Vehicle Code, to read:

148.5. *Payment of Use Tax.* (a) The department shall withhold the registration or the transfer of registration of any vehicle sold at retail to any applicant by any person other than a dealer certificated under Section 206 of this code or a wrecker licensed under Section 245 of this code, holding a valid seller's permit under Section 6068 of the Revenue and Taxation Code, until the applicant files with the department a use tax return showing the sales price of the vehicle and pays to the department the tax measured by that price as required by the Sales and Use Tax Law, together with penalty, if any, unless, in accordance with the provisions of Section 6422 of the Revenue and Taxation Code, the applicant files with the department a certificate from the State Board of Equalization that no use tax is due. If the applicant so desires, he may pay the use tax and penalty, if any, to the department so as to secure immediate action upon his application for registration or transfer of registration, and thereafter he may apply to the State Board of Equalization under the provisions of the Sales and Use Tax Law for a refund of the amount so paid.

(b) Withholding action on the registration or the transfer of registration of any vehicle solely because of nonpayment of use tax and penalty, if any, shall not effect the transferor's relief from civil liability as provided in this code and specifically as provided in Sections 177 and 178 hereof, nor shall such withholding affect the effective date of transfer of title or interest in the vehicle as provided in Section 186 of this code. An acknowledgment stamp shall be placed upon the certificate of ownership for the vehicle by the department prior to its return to the applicant without completion of the registration or transfer of registration of the vehicle because of such nonpayment of use tax and penalty, if any.

(c) The department shall accept on deposit any registration or vehicle license fee upon an application for registration or transfer of registration, when withholding the registration or transfer of registration because of nonpayment of use tax would subject the applicant to imposition of penalty fees under this code.

(d) The department shall transmit to the State Board of Equalization all collections of use tax and penalty made under this section. This transmittal shall be made at least monthly, accompanied by a schedule in such form as the department and board may prescribe.

(e) The State Board of Equalization shall reimburse the department for its costs incurred in carrying out the provisions of this section. Such reimbursement shall be affected under agreement between the agencies, approved by the Department of Finance.

(f) In computing any use tax or penalty thereon under the provisions of this section dollar fractions shall be disregarded in the manner specified in Section 373.5 of this code. Payment of tax and penalty on this basis shall be deemed full compliance with the requirements of the Sales and Use Tax Law insofar as they are applicable to the use of vehicles to which this section relates."

Amendments read, and adopted.

Bill ordered reprinted, and to be re-referred to the Committee on Revenue and Taxation.

State Capitol
Sacramento, California

DEAR MR. LINCOLN AND LADIES AND GENTLEMEN: There are times in the lives of all of us when words fail to express our innermost thoughts. I had heard something about a resolution being passed by the Assembly regarding my untimely removal from the active list, but I was totally unprepared to receive the document which arrived yesterday.

It has been such expressions of good will which have given me the courage to try to accept as gracefully as possible being confined in a cast and to my bed, an experience which has not been mine before.

The thoughts conveyed in Assembly Resolution 149 are appreciated more than I can ever express and I am truly grateful to each and every one of you for your thoughtfulness.

Sincerely yours,

FRANK M. WRIGHT
Associate Superintendent
of Public Instruction

The following communication was presented by the Chief Clerk, and ordered printed in the Journal:

CONSIDERATION OF HOUSE RESOLUTION NO. 205

By Messrs. Smith, Backstrand, Dills, Kilpatrick, Dahl, Gaffney, Rees, Rumford, and O'Connell:

House Resolution No. 205

Relative to the modification of mufflers and exhaust systems of motor vehicles

WHEREAS, The laws of this State prohibit the modification of any portion of the exhaust system of a motor vehicle whenever such modification would amplify or increase the noise emitted by the motor of the vehicle above that emitted by the original muffler installed on the vehicle; and

WHEREAS, The purpose of the members of this body in adopting such a regulation was to prevent persons from modifying the exhaust systems of motor vehicles in such a manner as to cause the emission of unreasonable noises, and was not to prohibit persons from making such adjustments, repairs, or replacements as would be reasonable; and

WHEREAS, It has come to the attention of this body that many law enforcement officers throughout the State, because of a misconception as to the purpose of these requirements or because of an unreasonable construction of these requirements, have been arresting or detaining persons merely because they have made slight modifications to the exhaust systems of their motor vehicles, even though no unreasonable increase in noise has been occasioned as a result of such modifications; and

WHEREAS, It is imperative that a proper law enforcement program respecting this problem be adopted throughout the State to protect the citizens of California from any harassment or unreasonable actions which may result from any failure by law enforcement officers to appreciate properly the purpose of the laws in question; now, therefore, be it

Resolved by the Assembly of the State of California, That all local and state law enforcement agencies are hereby requested to take such measures as are necessary to carry into effect the purpose of the statutes in question; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit such number of copies of this resolution to the Commissioner of the California Highway Patrol as the commissioner deems necessary to supply each appropriate law enforcement agency in this State with a copy thereof, and hereby requests the commissioner to transmit a copy of this resolution to each such agency.

By Mr. Brown:

House Resolution No. 190

Relative to the maintenance of a uniform statutory system governing the publication of legal notices

WHEREAS, The Assembly Interim Committee on the Judicial System, the Code Commission and the Legislative Counsel expended a great deal of effort, over a period from 1945 to 1951, in an endeavor to devise and implement a uniform and consistent plan for the publication by newspapers of legal notices, which plan was enacted by the Legislature as Sections 6060 to 6066 of the Government Code; and

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 1246:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, April 7, 1955

To the Honorable Members of the Assembly
Sacramento, California

GENTLEMEN:

Senate Bill No. 1246, "An act to add Chapter 4 to Division 3 of the Health and Safety Code, relating to pet birds and public health, and making an appropriation," in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill should have an important effect in reducing the number of cases of psittacosis in California. This disease is now increasing at a significant trend.

I therefore recommend consideration of Senate Bill No. 1246 as an emergency measure.

Respectfully submitted.

House Resolution No. 236

Relative to the passing of Dr. Will Clark Crawford

WHEREAS, This week marks the loss to California of one of its fine citizens and public leaders, with the unfortunate passing of Dr. Will Clark Crawford, who for 20 years until 1954 was Superintendent of Schools in the County of San Diego; and

WHEREAS, It is the wish of the Members of this Assembly that the recognition of the Members of the Legislature who constitute this House be accorded to the exemplary life of Dr. Crawford, and the sympathy of the Members of this House be extended to Mrs. Katherine Crawford, and to the daughters of Dr. Crawford, Mrs. Nancy Sutliff and Mrs. Peggy Fernley, on the occasion of their bereavement in the loss of a beloved husband and father; and

WHEREAS, The excellent public service of Dr. Crawford deserves that this Assembly memorialize the life of devotion to public duty which has been given largely to the people of the State of California by this fellow citizen who was born almost 64 years ago, and whose early life was spent at Claremont in the State of California—Dr. Will Clark Crawford graduated from Pomona College in 1913 with the degree of Master of Arts, after which he served his Country honorably as an Air Force Lieutenant in the United States Army during the first World War, from 1917 to 1919 Early in his life Dr. Crawford distinguished himself by holding the responsible position of Principal of the Anglo-Chinese High School in Singapore between the years of 1919 and 1921, and as Assistant Manager of the Ahukini Railroad Company in the Territory of Hawaii Dr. Crawford continued his life of devotion to the education of young people as Deputy Superintendent of Public Instruction in the Territory of Hawaii between the years 1923 and 1925, and was elevated to the position of Superintendent of Public Instruction in the Territory of Hawaii, a position he held from 1925 until 1934, whence he came to the County of San Diego which he served well and faithfully as Superintendent of Schools for 20 years until his retirement from that position in 1954. During the last years of his life Dr. Crawford continued in the field of public education as a Professor of Education at the University of California at Los Angeles; and

WHEREAS, Dr. Crawford's accomplishments, honors and associations extended beyond the scope of his duties and mark him as a man devoted to the service of his fellow citizens, he having rendered service on the Board of Governors on the California Association of School Administrators, and as Vice President of the American Association of School Administrators, and having been honored as a member of Phi Beta Kappa and with the degree of Doctor of Education from the University of Southern California in 1940; and

WHEREAS, It is known that Dr. Crawford's service as Superintendent of Schools in San Diego County tested to the utmost his abilities as a leader, during these years of unprecedented growth in school enrollments in time of depression and war, with the added problems of lack of adequate buildings and shortages of qualified teachers, in all of which Dr. Crawford proved himself capable of rendering splendid service in cooperation with the war efforts of our Country and in the maintenance of superior educational programs; and

WHEREAS, It has been truthfully said of Dr. Crawford that he was a man dedicated to the cause of the free education of all of the children of all of the people in our great Country, a man of courage, who stood for his principles at the risk of personal sacrifice, and whose many years of devoted service to the education of children and youth in the County of San Diego will long be felt in that community; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly notes with profound sorrow and sympathy the loss of Dr. Will Clark Crawford, and extends the condolences of the members of this House to Mrs. Katherine Crawford upon the loss of her beloved husband, and to Mrs. Nancy Sutliff of San Diego and Mrs. Peggy Fernley of Sacramento the condolences of its members upon the loss of their beloved father, and offers to them the expression of this House that their grief may be lessened by the knowledge that the life of their beloved husband and father has been filled with accomplishment and ennobled by his contributions to the public welfare, and that his successes and achievement will long live in the memories of those persons who have known him and who have received the benefits of his labors and sacrifices; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit to Mrs. Katherine Crawford and to Mrs. Nancy Sutliff and Mrs. Peggy Fernley suitably prepared copies of this resolution.

Resolved by the Assembly of the State of California, That the Assembly Interim Committee on Education constituted at the 1955 Session of the Legislature, in addition to the other studies required to be made by it, is hereby directed to study and report on the need for establishment of state colleges in the Counties of Alameda, Stanislaus and Imperial, and in the area of Napa and Solano Counties, including the operation, effect, administration, enforcement, and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution and to report thereon to the Assembly, including in the report its recommendation for appropriate legislation.

By Messrs. Brady, Ernest R. Geddes, Thomas J. Doyle, Elliott, Hawkins, Wilson, Chapel, Miller, Munnell, Unruh, Rees, Gaffney, Porter, O'Connell, Masterson, and Mrs. Sankary:

House Resolution No. 246

Relative to recommendations by grand juries

WHEREAS, Thousands of citizens throughout the State have petitioned Members of the Legislature protesting the actions of several county grand juries in passing identical resolutions aimed at influencing certain legislation; and

WHEREAS, It appears that such resolutions were passed by such county grand juries without investigation of the subject matter of the resolutions, and such actions were, therefore, not proper for grand juries, which are investigative, deliberative bodies; now, therefore, be it

Resolved by the Assembly of the State of California, That this body hereby expresses its desire and conviction that no grand jury shall make any recommendation on any matter except on the basis of independent investigation of the matter by such grand jury, and no grand jury shall adopt as its own the recommendation of another grand jury unless the grand jury adopting such recommendation does so after independent investigation of the matter as to which the recommendation is made; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the Attorney General, each district attorney, and each grand jury.

Resolution read, and ordered referred to the Committee on Rules.

UNANIMOUS CONSENT REQUEST TO PRINT STATEMENT IN JOURNAL

Mr. Shell asked for, and was granted, unanimous consent to have the following statement printed in the Journal:

STATEMENT OF SENATOR JAMES E. CUNNINGHAM, SR., AND ASSEMBLYMAN JOSEPH C. SHELL

This morning before the Senate Committee on Governmental Efficiency a subcommittee report was submitted to the full committee, which report we believe, failed to convey the correct facts. This report had to do with various bills concerning development of gas and oil on state-owned tidelands. The report was submitted prior to the hearing of Assembly Bill No. 3402, by Assemblyman Shell. The committee, without allowing any further discussion concerning the bill moved it to the Rules Committee for re-reference to an interim committee.

We believe that if the full committee was appraised of the true facts regarding Assemblyman Shell's bill it would not have been referred to the Rules Committee, but would actually have received a "do pass" recommendation.

The subcommittee report failed to state that all but one of the objections to Assembly Bill No. 3402 had been removed by amendments and that present before the Governmental Efficiency this morning were persons prepared to testify that they approved the bill in its present form and as to be amended. Such persons represented cities, counties and groups mentioned in the subcommittee report as being in opposition.

The following are examples:

(1) The subcommittee indicated that the City of Santa Barbara opposed the bill, whereas in fact a personal representative of the Mayor and City Council of Santa Barbara (Attorney Stanley Tomlinson) was present and prepared to testify that the city was entirely satisfied and that all objections had been removed.

The subcommittee had full knowledge of the statement of the Mayor of Santa Barbara that the city had no objection to the bill. The report of the subcommittee failed to disclose this fact.

(2) The report stated that the City of Oxnard opposed the bill, whereas in fact the objections posed by the City Attorney of Oxnard were cured. The city has evidenced no further objection to the bill. Again, the subcommittee report failed to disclose this fact

(3) The report stated that the Board of Supervisors of Los Angeles County was opposed to Assembly Bill No. 3402. Any objection that the County of Los Angeles may have had to the bill, in one of its prior forms, was eliminated by an amendment which excluded certain areas. Two of the affected Assemblymen (Levering and Chapel) were present this morning ready to state that any such objections had been eliminated. Further, a personal representative of the board of supervisors was also present and was prepared to state that the supervisors had no further objection.

Further, the report stated that the Palos Verdes area of Los Angeles County was opposed to the bill. This area is located in the district of Assemblyman Chapel. He was prepared to state that the Palos Verdes area withdrew its objections.

The report further stated that the "entire" County of Los Angeles was opposed to the bill, also the City of Santa Monica and numerous other organizations fronting on the Santa Monica Bay. The truth is that the State Senator from Los Angeles County, Richard Richards, had indicated before the subcommittee itself that the objections raised in his district were eliminated by proper amendment. However, this statement of Senator Richards was not included in the report.

(4) The report indicated that the City of Seal Beach was opposed to the bill, whereas at no time during the subcommittee hearings was any objection raised by the City of Seal Beach Further, Assemblyman LeRoy Lyon, in whose district Seal Beach is located, indicated that he was not opposed to the bill and actually voted for the bill in the Assembly

(5) The report also indicated that the County of San Diego opposed the bill, whereas in fact the City Council of San Diego passed a resolution endorsing in principle Assembly Bill No. 3402, and the entire San Diego County Assembly Delegation voted in favor of the measure in the Assembly

(6) The report stated that the County of Orange opposed the bill but failed to state that such opposition had been eliminated by proper amendments and that Senator Murdy and Assemblymen Stanley and Lyon had no further objection to the bill. Present this morning was Harry Grimsley, who was prepared to offer numerous resolutions from Orange County cities and organizations supporting in principle Assembly Bill No 3402. Due to the action by the Governmental Efficiency Committee this morning, Mr Grimsley was precluded from offering these resolutions.

(7) The subcommittee reported opposition from the Ventura County Board of Supervisors, but it did not report that these objections had been substantially cured by subsequent amendments.

(8) The report indicated opposition from the law firm of Price, Postell & Parma. It is interesting to note that this law firm represents Mr Hugh Martin in an action now pending in the California Supreme Court against the State Lands Commission which seeks to preclude development of the tidelands from other than upland sites This same Hugh Martin testified before the Assembly Manufacturing, Oil, and Mining Industry Committee that he represented the owners of such upland drill sites.

(9) The report further listed opposition from several newspapers and organizations primarily located in the Santa Monica Bay Region and the Santa Barbara area. Later amendments have excluded these areas, thereby satisfying such opposition. The subcommittee report failed to so advise the full committee

The report omitted a most important fact that this bill has been endorsed by the Lieutenant Governor of California, the State Controller, and the Director of Finance, in their official capacities as members of the State Lands Commission. The subcommittee further failed to state that the bill in its present form, was acceptable to the Attorney General of the State.

Mr. Robert Kirkwood, State Controller, and Chairman of the State Lands Commission, did appear before the subcommittee and indicated the full approval of the commission, and further stated that the bill afforded full protection to the people of the State of California and was to their best interest Mr Kirkwood was also present this morning to reiterate this statement. He was denied an opportunity by virtue of the committee action

The State Lands Commission further indicated that without such legislation, as contained in Assembly Bill No 3402, they are denied needed legislative guidance with reference to their further leasing state-owned tidelands.

Had the Governmental Efficiency Committee permitted testimony this morning on Assembly Bill No 3402, any other objections mentioned or implied in the subcommittee report would have been shown to be without foundation.

It is conservatively felt that the action of the Governmental Efficiency Committee this morning, by virtue of being ill advised, caused a loss in revenue to the State of California of untold millions of dollars.

Assembly Bill No. 3402 is the result of exhaustive study on the part of a Senate Interim Committee, Chairmanned by Senator Cunningham, and, in his opinion, the bill embodies all of the recommendations contained in the report of his committee.

Senator Cunningham and Assemblyman Shell believe that if the subcommittee had correctly reported that all the opposition it referred to had been withdrawn, except for the above named individual who admittedly represents upland drill site owners, the full committee would have heard the witnesses present. If it had done so, Senator Cunningham and Mr Shell feel that in view of the State's financial condition and the probable income to the State under Assembly Bill No. 3402, the committee undoubtedly would have recommended a "do pass" for the bill.

Except as to outstanding general obligation bonds the holders of which have assented to the exclusion of territory from the district, territory excluded from the district shall be subject to the lien of general obligation bonds and be otherwise chargeable for the payment and discharge of all of the obligations outstanding at the time of the filing of the petition for the exclusion of the territory as fully as though the territory had not been excluded.

61924. For the purpose of discharging the obligations outstanding at the time of the filing of the petition for its exclusion, territory excluded shall be considered as part of the district the same as though the territory had not been excluded.

61925. All provisions which could have been used to compel the payment by excluded territory of its portion of the outstanding obligations had the exclusion not occurred can be used to compel the payment on the part of the excluded territory of the portion of the outstanding obligations of the district for which it is liable

61926. Excluded territory is not subject to taxation or assessment nor is it otherwise chargeable for any obligation of any kind incurred after the filing with the board of the petition for the exclusion of the territory from the district.

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, June 3, 1955

Honorable Gordon A. Fleury
Assembly Chamber

Effect of Integration of State Employees Retirement System With Federal O. A. S. I.—No. 11732

DEAR MR. FLEURY: With respect to Assembly Bill No. 2371 [1] you have asked a series of questions requiring a comparison between the benefits which state employees now enjoy under the State Employees Retirement System and the benefits which would be available to them, assuming an integration between that system and the Federal Old Age and Survivors Insurance Plan in accordance with the terms of Assembly Bill No. 2371. These comparisons can only be stated in very general terms, of course, since the status of any particular individual, under either circumstance, will depend upon all the facts relating to his individual case. In asking these questions, you have referred to an opinion of this office which is printed in the Assembly Journal for May 9, 1955, at page 3883.

1. Question

You ask whether it is true that "many state employees will gain benefits, in addition to survivors' insurance, due to the retirement benefits for dependents provided by O. A. S. I., and because of certain provisions and guarantees contained in Assembly Bill No. 2371."

Opinion

It is true that the federal program provides retirement benefits to his dependents during the lifetime of an insured worker under some circumstances. These benefits, generally, consist of payments during the retired worker's lifetime to a husband or wife and to any dependent children under age 18, providing the necessary conditions are present.

[1] All references to A. B. 2371 are to the bill as amended in Assembly on May 21, 1955.

This dependents' benefit is an amount equal to one-half the primary insurance amount of the insured person (his federal retirement allowance), except that the total federal benefits payable to a worker and all his dependents cannot exceed 80 percent of the worker's average monthly wage or one and one-half times his old age benefit, whichever is the larger. These benefits for dependents are not provided under the present State Employees Retirement System, and would, therefore, be additional benefits during the lifetime of a retired employee.

Analysis

There are federal benefits which are payable to dependents of the insured worker in addition to his basic retirement allowance, prior to his death. These are the payments to the wife[2] or husband[3] of the insured person and to the child or children[4] under age 18 of the insured person.

The wife's benefit during the lifetime of a retired worker is payable upon her application at age 65, or before age 65 if the wife has care of a child under 18 which is entitled to a child's benefit based on the wages of her husband: (1) if she was living with her husband at the time of application; and (2) if she is not entitled to old-age insurance, or if she is, if it would be less than the wife's benefit.

The husband's benefit is similar except that he must have attained age 65, regardless of children, and he must have been receiving at least one-half of his support from his wife at the time she became entitled to her old age insurance.

The child's benefit is payable if the child is under age 18, is not married, files an application, and was dependent upon such parent at the time of filing an application.

A limit is placed on the total monthly benefits payable on the basis of one worker's earnings, however. Whenever the total benefits exceed $50, they must be reduced to the larger of (1) 80 percent of the worker's average monthly wage, or (2) 1½ times his primary insurance amount, but cannot be reduced to less than $50. Thus, while the total of all benefits may actually be less than $50 a month in some cases, when such total exceeds $50, the effect of the above limitation will not reduce them to less than a total of $50. When total benefits are subject to reduction because they exceed the above limits, each dependent's benefit is reduced proportionately.[5]

We are unable to discuss the other "provisions and guarantees" mentioned in your question in the absence of more specific identification. There is, however, a guarantee in Assembly Bill No. 2371 which provides that a member's benefits payable under the state system will not be reduced below the amount equal to the life annuity which could be purchased by the member's accumulated contributions, regardless of the amount of federal benefits he receives.[6] This guarantees that the member will receive his own contributions, or their annuity value, without reduction. The retirement allowance payable under the state system with respect to current service is actually composed of two separate

[3] Subd (c) Sec 202, Social Security Act (42 USCA Sec 402 (c))

[6] Section 21638

amounts. It is the sum of (1) the annuities derived from the member's contributions plus (2) a pension derived from contributions of the State in whatever amount is necessary to provide an allowance equal to the guaranteed formula.[7]

Upon integration with O. A. S. I., and assuming that a retired state employee achieves full coverage and reaches age 65, the amount of state retirement benefits is offset by that portion of the amount he is entitled to under the federal program which is attributable to his state service. The effect of the guarantee mentioned above, however, is to permit this reduction or offset only to the extent that it offsets that portion of the state allowance based upon state contributions, and not to permit any offset against the amount based upon the member's contributions.

It has been asked whether this guarantee would operate to increase the retirement benefit of certain state employees. In any case where the retired employee's allowance is small enough so that the federal benefit will meet, or more than meet, the total allowance under the State Employees' Retirement System, this restriction on the offset provision would enable the employees to collect the annuity value of his own contributions in addition to the normal retirement benefit We are unable to make any calculation as to how many employees would receive such an increased benefit after integration.

2. Question

You have asked two questions relating to the wage credits which a state employee may have based upon covered employment outside state service.

(a) You ask whether "Assembly Bill No. 2371 makes provision whereby a state employee will receive credit for O.A.S I. coverage in other employment."

(b) You also ask whether an employee with wage credits based upon employment outside state service would gain anything from integration under Assembly Bill No. 2371 with respect to the amount of survivors' insurance which would be payable upon his death.

Opinion

(a) Provision is made in Assembly Bill No. 2371 for giving credit, after integration, for O.A.S.I. coverage acquired in employment outside state service.

(b) After integration. an employee with wage credits based on employment outside state service would gain (with respect to survivor's insurance) in the sense that he could establish eligibility under the state employment and could prevent the diminution which would take place in the O A.S.I. benefit resulting from state employment if that employment were not "covered employment."

Analysis

(a) The offset formula in Assembly Bill No. 2371 provides for reducing the allowance payable to a member under the state system by the "apportioned federal benefit."[8] This term is defined as an amount bearing the same relationship to the member's total federal benefit

[7] Sections 21250-21251 1 Government Code
[8] Section 21630.

which the member's federal system wage credits in state service bear to his total federal system wage credits.[9]

The term "federal system wage credits" is in turn defined as the total wages subject to O.A.S.I., except that for any calendar year in which a member is in state service under O.A.S.I., any wage credit for such year shall be deemed to relate to such state service in an amount equal to the total remuneration for such state service which was reported to the federal agency for such member for such year, not to exceed $4,200.[10]

The effect of these definitions is to provide for apportioning the federal benefit, so that only that portion of the benefit which relates to state service will be offset, or deducted from the allowance payable under the state system. This permits the member to receive that portion of his federal benefit which relates to employment prior to his state service without deduction, in addition to the benefits otherwise payable.

(b) As indicated in our prior opinion, survivors' benefit payments are computed as a percentage of the insured person's primary insurance amount. One of the factors in determining an insured person's primary insurance amount is the individual's average monthly wage.[11] Without integration, state employment would be non-covered work and would therefore tend to decrease the "average monthly wage" used for computing any primary insurance amount payable under O.A.S.I. based on prior covered employment. In spite of the amounts granted under the new federal law to "disregard periods of no earnings in covered employment up to five years, the absence of employment in covered work would diminish the average monthly wage thereafter and this would be reflected in the survivors' benefit payments upon his death.

Under integration of the state system with O.A.S.I., however, state service would be covered employment and the employee would be able to prevent diminuation in average monthly wage for purposes of O.A.S.I. computation. Keeping this factor at a high level would be reflected in higher survivors' benefits based thereon resulting from state employment after integration.

3. Question

"Will a state employee with children under 18, married to a man employed in private employment covered by O.A.S.I. gain anything with respect to survivors' insurance?"

Opinion and Analysis

Her children would become eligible for survivor's insurance upon her death, until they reached age 18.[12] This benefit is not provided under the present state system.

4. Question

"Under Assembly Bill No. 2371, is it possible for a single person to receive a greater total allowance on retirement at age 65 than under the present state system?"

[9] Section 21619.
[10] Section 21618
[11] Sec. 215, Social Security Act (42 U.S.C.A. Sec. 415)
[12] Sec. 202 (d) Social Security Act (42 U.S.C.A., Sec. 402 (d))

Opinion and Analysis

It is possible under certain circumstances See, for example, answer to Question 2 above.

5. Question

"In terms of the cost of securing comparable coverage through the purchase of an insurance policy, how much is survivors' insurance worth?"

Opinion and Analysis

We have no means of ascertaining whether such coverage could be secured through a private insurer, or what the cost would be.

6. Question

"Under the present Social Security Law, O A.S.I. contribution rates are scheduled to increase in amounts of one-half percent every five years until a maximum of 4 percent is reached What effect will this have on the contributions required of state employees under Assembly Bill No. 2371?"

Opinion and Analysis

The only effect of the increase in the federal rates will be to decrease the portion of the member's contributions which will go into the state fund to his credit.[13] No provision is made in Assembly Bill No. 2371 for increasing the members' contributions.

7. Question

"Will the financial soundness of the state system be impaired as the result of the diversion of employee and state contributions from the state system to Social Security?"

Opinion and Analysis

Under the provisions of the bill the revenue to the Retirement Fund will be reduced by the amount of the federal tax payable for O.A.S.I. coverage *by members* of the state system which amount is currently at the rate of 2 percent of all wages up to $4,200 a year. The employees, however, will continue to contribute to the fund the balance of the amount required under the state system. The revenue to the fund is further diminished by reducing the amount payable to the fund *by the State* by 3 percent of the total wages paid to members of the state system. While this reduction of the State's contribution to the Retirement Fund is based on *3 percent of total wages*, the State will only pay the regular employer's contribution to the federal system, that is, (at present rates) *2 percent of wages paid up to $4,200*. The difference between these two figures, part of the amount now contributed by the State to the Retirement Fund, will not be used apparently for either a state or federal benefit. The extent to which these reductions in income to the Retirement Fund may impair the financial soundness of the system is a question involving actuarial considerations which we are not qualified to answer.

8 Question

"What effect will an increase in O.A.S.I. benefits have on a retired employee 65 years of age?"

[13] Sections 21660, 21670

Opinion

Assuming integration, an increase in O.A.S.I. benefits in the future would apparently accrue to the benefit of a retired member without further deduction from his state allowance because of the wording of the offset provisions.

Analysis

Section 21641 of Assembly Bill No. 2371 provides that the board may estimate a member's apportioned federal benefit for the purpose of computing his allowance, which computation may be adjusted pending a final determination by the board "provided, that a final determination shall not thereafter be subject to adjustment except as otherwise provided * * *".

It appears from the above quoted provision, that once a final determination has been made of a member's allowance upon his retirement, the board will not thereafter be permitted to change the state allowance by offsetting of any increase in federal benefit.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

The question being: Shall the Assembly concur in the following Senate amendment to Assembly Concurrent Resolution No. 98?

Amendment No. 1

On page 1 of the printed resolution, as amended in the Assembly May 14, 1955, strike out lines 5 to 28, inclusive, and insert

"WHEREAS, Irrigable land is a limited, irreplaceable resource and basic to the production of food and fiber for our rapidly increasing population; and

WHEREAS, Excellent irrigable land is being encroached upon by the construction of certain public projects, as well as by rapidly expanding urban and industrial development; and

WHEREAS, It is possible that the amount of irrigable land available, rather than the availability of water, could ultimately limit agricultural development in this State; and

WHEREAS, Loss of irrigable land is caused not only by State water development projects but by many other forms of public improvements, including highways, subdivisions, airports, military establishments; and

WHEREAS, Construction of many of these projects is undertaken not only by the State but by the Federal Government and by local governments, and

WHEREAS, In considering the advisability and feasibility of such projects the Legislature should be informed as to the estimates of the relative benefits and costs of each proposed project; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the State Water Resources Board, in submitting its reports and recommendations to the Legislature on projects to be authorized for immediate construction, include economic studies of such projects based on estimated benefits to be derived from each such project and the costs thereof, considering, among other things, the cost of the facilities, land, and other necessary expenses, and the present worth of the net returns, including annual interest thereon, that would otherwise be derived during the estimated useful life of the project, NOT TO EXCEED 40 YEARS, from the lands taken for project purposes, listing each item of benefit cost separately; and be it further

Resolved, That all state and local agencies are hereby requested to consider the problem of encroachment of nonagricultural improvements on irrigable land and to take such action as may be reasonably possible to hold such encroachment to a minimum, and be it further

Resolved, That the Legislature hereby memorializes the Congress of the United States to give consideration to this problem; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the State Water Resources Board, the State Engineer, the Water Project Authority and all other state agencies concerned, and to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States"
