Capture our souls with Thy love, O Lord, that we might be free—free from all envy and enmity, pride and prejudice. Grant that today we may strive to think and speak and act that in our small circle at least peace on earth will be a reality and good will among men more than an empty dream; through Jesus Christ, the Prince of Peace.—AMEN.

SEC. 4. Section 21361 of said code is amended to read:

21361. The basic death benefit is payable in all cases where the retirement system is liable under Section 21360 for either the basic or a special death benefit and the special death benefit is not payable.

The basic death benefit shall consist of:

(a) The accumulated contributions of the member.

(b) An amount, provided from contributions by the State, or contracting agency, equal to one-twelfth of the annual compensation earnable by the deceased during the 12 months immediately preceding his death, multiplied by the number of completed years of service under the system, but not to exceed one-half of such compensation.

The basic death benefit for a member who dies under the circumstances described in subdivision (e) of Section 21360 shall not exceed an amount which when added to the death benefit paid for such member under such other system equals the maximum death benefit payable under that system, if the death is not the result of injury or disease arising out of and in the course of his employment under that system; provided, however, that such benefit shall be at least equal to his accumulated contributions. The basic death benefit for such member shall be the amount of his accumulated contributions if death is the result of disease or injury arising out of and in the course of employment under such other system.

SEC. 5. Section 20023.1 is added to said code, to read:

Amendment No. 4

On page 1, strike out lines 1 and 2, and insert

"SECTION 1. Section 5055 of the Education Code is amended to read:

5055. On or before the first day of December preceding the first day of January of each fiscal year, the Director of Finance shall determine *for each such grade level* and certify to the State Controller the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest [on that portion] of the bonded indebtedness of the district [that was] incurred for [each such] *the* grade level [prior to the making of the first apportionment to said district under the provisions of this chapter], which amount is designated as the "second computation." The Director of Finance shall determine the amount of the bonded indebtedness that was incurred by the district for each grade level, when bonds were issued and sold for purposes of more than one grade level. [When one or more additional apportionments have been made to a grade level of a school district, conditioned upon the issuance and sale of additional bonds of the district, the Director of Finance shall determine and include in his certificate the amount raised and to be raised by the district during the current fiscal year for the payment of principal and interest on that portion of the additional bonded indebtedness of the district that was incurred for each such grade level as a condition to receiving such additional apportionment; and such amount so certified shall be included in the "second computation," as herein defined.]

If such bonded indebtedness matures 20 years or more from the date of issuance, the amount actually raised and to be raised during the current fiscal year shall be included in the second computation. If such maturity occurs in less than 20 years from the date of issuance, the amount to be included shall be the amount as determined by the Director of Finance which the district would be required to raise in the current fiscal year if the maturity date was 20 years from the date of issuance.

There shall not be included in the second computation the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the bonded indebtedness incurred for a grade level subsequent to the making of the first apportionment to such district, if the proceeds of such bonded indebtedness were not used for a project which meets the requirements of this chapter, or, in the event such bonded indebtedness was incurred after November 12, 1952, if the proceeds of such indebtedness were not used for a project which meets the requirements of Chapter 19 of Division 3 of this code.

If the proceeds of any portion of the bonded indebtedness of a district referred to in this section have not been expended by the district as of the date in any fiscal year in which the Director of Finance makes the determination required by this section, he shall include the amount raised or to be raised by the district during the current fiscal year for the payment of principal and interest of such portion of bonded indebtedness. The amount computed each fiscal year pursuant

to this paragraph, on account of the unexpended proceeds of a particular portion of bonded indebtedness, may be included for such number of fiscal years as the board deems reasonable for such amount of proceeds of a particular portion of bonded indebtedness to remain unexpended by the district, taking into consideration the construction needs of the district and the status of the construction program of the district. In no event shall such an amount be included on account of unexpended proceeds of a particular portion of bonded indebtedness remaining unexpended for more than three fiscal years following the fiscal year in which occurred the sale of the bonds from which the proceeds were derived.

Determination of the amount of the proceeds of bonded indebtedness which were used for a project which meets the requirements of this chapter, or Chapter 19 of this division, as the case may be, shall be made by the Department of Education and the Department of Finance in accordance with the jurisdiction which each department has in the administration of these two chapters. The findings of the Department of Education and the Department of Finance shall be subject to review by the board, whose decision shall be final."

7714.4. If after a district has received an apportionment for a grade level pursuant to this chapter or Chapter 1.6 of this division, it incurs bonded indebtedness for such grade level and uses the proceeds thereof for projects which do not meet the requirements of this chapter or of such Chapter 1.6 so that the amount to be raised by the district during a fiscal year for the repayment of the principal and interest of such indebtedness is excluded from the "second computation" pursuant to Sections 5055 or 7727 and after incurring such indebtedness applies for an apportionment under this chapter and such application is approved, the amount of the apportionment which is granted shall be reduced by an amount equal to the proceeds of the bonded indebtedness incurred subsequent to the making of the first final apportionment which the district received under Chapter 1.6 of this division, or, if the district has not received an apportionment under Chapter 1.6, subsequent to the making of the first final apportionment which the district received under this chapter, which proceeds were used for a project which did not meet the requirements of Chapter 1.6, or, in the event such bonded indebtedness was incurred after November 12, 1952, if the proceeds of such indebtedness were not used for a project which meets the requirements of this chapter.

SEC. 7.5. Section 7717.2 is added to said code, to read:

7717.2. If after a district has received an apportionment for a grade level pursuant to this chapter of Chapter 1.6 of this division, it incurs bonded indebtedness for such grade level and uses the proceeds thereof for projects which do not meet the requirements of this chapter or of such Chapter 1.6 so that the amount to be raised by the district during a fiscal year for the repayment of the principal and interest of such indebtedness is excluded from the "second computation" pursuant to Sections 5055 or 7727 and after incurring such indebtedness applies for an apportionment under this chapter, the number of square feet of school building construction in such project shall be excluded from the computation of area of adequate school construction existing in the district for the purposes of Sections 7717 and 7717.1.

SEC. 7.6. Section 7727 of said code is amended to read:

7727. On or before the first day of December preceding the first day of January of each fiscal year, the Director of Finance shall determine for each such grade level and certify to the State Controller the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on [that portion of] the bonded indebtedness of the district [that was] incurred

for the grade level [prior to the making of the conditional apportionment plus that portion which the board, in the conditional apportionment, required the district to incur prior to the date on which the first apportionment made to said district under the provisions of this chapter became final,] which amount is designated as the "second computation." The Director of Finance shall determine the amount of the bonded indebtedness that was incurred by the district for each grade level, when bonds were issued and sold for purposes of more than one grade level. [When one or more additional apportionments have been made to a grade level of a school district, conditioned upon the issuance and sale of additional bonds of the district, the Director of Finance shall determine and include in his certificate the amount raised and to be raised by the district during the current fiscal year for the payment of principal and interest on that portion of the additional bonded indebtedness of the district that was incurred for each such grade level as a condition to receiving such additional apportionment; and such amount so certified shall be included in the "second computation," as herein defined.]

If such bonded indebtedness matures 20 years or more from the date of issuance, the amount actually raised and to be raised during the current fiscal year shall be included in the second computation. If such maturity occurs in less than 20 years from the date of issuance, the amount to be included shall be the amount as determined by the Director of Finance which the district would be required to raise in the current fiscal year if the maturity date was 20 years from the date of issuance.

There shall not be included in the second computation the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the bonded indebtedness incurred for a grade level subsequent to the making of the first apportionment to such district, if the proceeds of such bonded indebtedness were not used for a project which meets the requirements of this chapter.

If the proceeds of any portion of the bonded indebtedness of a district referred to in this section have not been expended by the district as of the date in any fiscal year in which the Director of Finance makes the determination required by this section, he shall include the amount raised or to be raised by the district during the current fiscal year for the payment of principal and interest of such portion of bonded indebtedness. The amount computed each fiscal year pursuant to this paragraph, on account of the unexpended proceeds of a particular portion of bonded indebtedness, may be included for such number of fiscal years as the board deems reasonable for such amount of proceeds of a particular portion of bonded indebtedness to remain unexpended by the district, taking into consideration the construction needs of the district and the status of the construction program of the district. In no event shall such an amount be included on account of unexpended proceeds of a particular portion of bonded indebtedness remaining unexpended for more than three fiscal years following the fiscal year in which occurred the sale of the bonds from which the proceeds were derived.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Kilpatrick asked for, and was granted, unanimous consent that the following schedules relative to state tax collections, state subventions, and property tax collections, prepared by the Legislative Auditor, be ordered printed in the Journal:

LETTER OF TRANSMITTAL

CALIFORNIA LEGISLATURE
JOINT LEGISLATIVE BUDGET COMMITTEE
SACRAMENTO, CALIFORNIA, April 1, 1957

Hon. Vernon Kilpatrick
Assemblyman, Fifty-fifth District
State Capitol, Sacramento, California

DEAR ASSEMBLYMAN KILPATRICK: Pursuant to your request for current information relative to state tax collections, state subventions and property tax collections, by county, similar to tabulations printed in the Assembly Journal for June 9, 1953, we are submitting the following schedules:

1. Schedule 1 shows state tax collections and state subventions for each of the counties, and in total, for 1955-56. Subventions are the actual amounts of direct distributions and shared revenues shown in the Controller's report. State tax collections represent the following as shown for 1955-56 on page A-23 of the current printed budget:

Alcoholic beverage taxes and licenses:	
Excise tax on beer and wine	$4,373,476
Excise tax on distilled spirits	33,969,910
Liquor license fees	9,637,794
Bank and corporation franchise and corporation income taxes	157,088,332
Gift tax	2,161,219
Horse racing (pari-mutuel) license fees	24,890,704
Inheritance tax	34,172,916
Insurance gross premiums tax	39,104,201
Motor vehicle license (in lieu) fees	100,483,740
Motor vehicle fuel tax (gasoline)	257,242,886
Motor vehicle fuel tax (diesel)	15,843,087

Motor vehicle registration and other fees	$109,333,088
Motor vehicle transportation tax	15,920,893
Personal income tax	127,815,965
Private car tax	1,330,427
Retail sales and use taxes	564,224,676
Total, Major Taxes and Licenses	$1,497,593,314

Sales tax collections and income tax collections are allocated by county as these are reported by the respective tax collecting agencies. All other tax sources have been allocated on the basis of population. In the last column of this tabulation we have shown the relationship between this calculated amount of state tax payments in each county and the amount of subventions to the county.

2. Schedule 2 deals with assessed valuations and property tax levies in each of the counties for the last available fiscal year. The average tax rate expressed in the next-to-the-last column is as reported by the Board of Equalization and is the over-all average rate used for purposes of the private car tax.

3. Schedule 3 shows counties listed in the order of the percentage which the subventions bear to state tax collections in the county, from highest to lowest, as shown in Column 6 of Schedule 1. It also shows assessed valuation per capita, property tax levies per capita, and property tax per $100 of assessed valuation, with the rank of each county on the basis of the last named factor, from lowest to highest.

4. Schedule 4 shows certain of the information included in Schedule 3 for 10 representative counties.

The source of the basic information is identified on each of the individual schedules.

You have also inquired as to certain types of expenditures, such as the amounts appropriated by the Legislature for Squaw Valley. One million dollars was appropriated initially to the California Olympics Commission, largely for promotion of the 1960 Winter Olympic Games in California, and an additional $4,000,000 was appropriated by the 1956 Session. Both of these were from the State Park Fund. A considerable part of this latter expenditure was for improvements in Squaw Valley for purposes of holding the Olympic Games. These expenditures will presumably be made at the location of Squaw Valley which is in Placer County The same session of the Legislature appropriated other amounts for acquisition and for improvements to state parks. Similarly, state expenditures for capital outlay for the state institutions and for highway construction will all be spent in one or another of the counties. None of these expenditures, however, are state subventions for expenditure by the local governments and have not been included in the tables of data with respect to state subventions in the counties. The figures for state subventions are confined to the amounts appropriated to the counties and to the cities within those counties for local expenditure.

Sincerely,

A. ALAN POST, Legislative Auditor

Enc.

The Division of Housing may approve any such equivalent if it finds that the proposed design is satisfactory and that the material, appliance, installation, device, arrangement, method, or work offered is, for the purpose intended, at least the equivalent of that prescribed in this part in quality, strength, effectiveness, fire resistance, durability, safety, and for the protection of life and health.

The division may require that sufficient evidence or proof be submitted to substantiate any claims that may be made regarding its use.

Wherever there is evidence that any material, appliance, installation, device, arrangement, or method of construction does not conform to the requirements of this part, or in order to substantiate claims for equivalents, the division may require tests as proof of compliance to be made at the expense of the owner or his agent by an approval agency.

(c) If there is any substantial deviation from the division approved plans and specifications as submitted by the original applicant for a construction permit, a new application for a permit to construct, accompanied by revised plans and specifications and the fee specified in Section 18650 or in Section 18651, as the case may be, shall be filed by the new owner with the division.

The permittee shall file in an office of the division a written petition requesting such hearing and setting forth a brief statement of the grounds therefor within ten (10) days of the date of mailing such notice.

18662 Upon receipt of such petition the division shall set a time and place for such hearing and shall give the petitioner written notice thereof. At such hearing the petitioner shall be given an opportunity to be heard and to show cause, if any why such notice should be modified or withdrawn.

18663 Such hearing shall be commenced not later than ten (10) days after the day on which such petition was filed, provided, that upon application of the petitioner the division may postpone the date of such hearing for a reasonable time beyond such 10-day period, if in its judgment the petitioner has submitted a good and sufficient reason for such postponement

18664 After such hearing the division shall sustain, modify, or withdraw the notice, depending upon its findings as to whether the provisions of this part have been complied with

18665. If the requirements of the said notice have not been complied with on or before the expiration of thirty (30) days after the mailing and posting of the notice, the division may suspend the permit.

By Messrs. Burton, O'Connell, Munnell, Unruh, Henderson, Elliott, Meyers, Biddick, Hawkins, and Gaffney:

House Resolution No. 58

Relative to memorializing Congress to revise the Immigration and Nationality Act of 1952

WHEREAS, The leaders of both the Democratic and Republican parties have repeatedly asked for Congressional action to revise the Immigration and Nationality Act of 1952, commonly known as the McCarran-Walter Act, so as to eliminate certain racist and un-American restrictions contrary to our democratic way of life; and

WHEREAS, The call for such revision was incorporated in the platforms of both the Republican and Democratic parties in their national conventions of 1956; and

WHEREAS, Outstanding members of both parties in the House of Representatives and the United States Senate have urged enactment of legislation to revise the law; and

WHEREAS, The present plight of refugees from Communist oppression in Hungary and the ravages of war in the Middle East dramatizes the urgent need for emergency legislation similar to the Refugee Relief Act which expired December 31, 1956, and for revision of our basic immigration policies including the discriminatory national origins quota system, and the failure to provide equal rights as well as equal responsibilities to naturalized citizens; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly of the State of California does hereby respectfully request the Congress of the United States to give immediate and favorable attention to pending legislation to revise and liberalize the Immigration and Nationality Act of 1952, and respectfully urges all Representatives and Senators of the State of California to support such revisions, and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to prepare and transmit suitable copies of this resolution to the President and the Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

(b) "Permanently impaired and totally disabled" means suffering from a major physical or a major mental impairment, not a psychosis, or a combination of both which is verifiable by medical findings and appears reasonably certain to continue throughout the lifetime of the individual without substantial improvement. Such permanently impaired and totally disabled person shall not be qualified under this chapter unless he requires constant and continuous care.

A person needing constant and continuous care is one who is bedfast, chairbound, or in need of physical assistance without which the daily regimen could not continue or whose mental or physical impairment makes continuous supervision essential.

The definitions of terms as provided for in this section shall not be liberally construed as if such terms were used in contracts, but the definitions of such terms shall be strictly construed.

4002. In administering this chapter the Department of Social Welfare shall encourage the rehabilitation or employment of the recipient if it appears that with proper care and training such person may become wholly or partially self-supporting. The policy shall be followed of granting the aid to the recipient in his own home or in some other suitable home of his own choosing, in preference to placing him in an institution.

4003. All aid granted under the provisions of this chapter is granted and held subject to the provisions of any law hereafter enacted amending, repealing, or supplementing in whole or in part the provisions of this chapter, and subject to the

rules and regulations of the State Department of Social Welfare No recipient under this chapter shall have any claim for compensation or otherwise because his aid is affected in any way by any such amending, repealing, or supplemental act, or by any such rule or regulation or by any addition, amendment, or repeal of such rules and regulations.

4004. All aid given under this chapter shall be absolutely inalienable by any assignment, sale, attachment, execution, or otherwise and in case of bankruptcy the aid shall not pass through any trustee or other person acting on behalf of creditors.

4005. Any person who, knowing he is not entitled thereto, obtains or attempts to obtain aid to which he is not entitled, or a larger amount than that to which he is legally entitled, is guilty of a misdemeanor.

4006 Any person who knowingly violates any provision of this chapter for which no penalty is specifically provided is guilty of a misdemeanor

4007 Nothing in this chapter shall be construed as repealing any act or part of an act providing for the support of the poor except insofar as inconsistent therewith, and the provisions of this chapter shall be construed as an additional method of supporting and providing for the needy disabled.

Article 2. State, County, and Federal Aid

4020. For needy disabled persons qualifying for aid under the provisions of this chapter there shall be paid an amount sufficient for the adequate care of the disabled person but not to exceed the sums specified below:

(b) For each needy disabled person who is living alone or in a household with persons with whom he is not related by blood or marriage, a sum not to exceed ninety dollars ($90).

(c) For each needy disabled person who is a medical patient in a public institution or who, because of his need for care is residing in a private hospital, sanitarium, rest home or other protective living arrangement which is licensed under Sections 2300 or 5700 of this code or Chapter 2 of Division 2 of the Health and Safety Code, a sum not to exceed one hundred twenty-five dollars ($125).

The State Department of Social Welfare may provide by rule that any change in grant for an amount of two dollars ($2) or less may be delayed not more than two months beyond the month in which the recipients reported the change in circumstances.

4021. When state and federal funds are available for this program each county shall contribute an amount equal to the total assistance paid to disabled persons who come within the provisions of this chapter, after deducting the aomunt of federal funds paid for the assistance of such persons, and after deducting the amount of state funds made available for the assistance of such persons, and shall further contribute an amount equal to the amount necessary for the proper and efficient administration of this chapter in the county after deducting therefrom the amount of federal funds allowed to the county for the cost of administration.

4022. The board of supervisors of every county, in addition to its other powers and duties in relation to the care and support of the poor, as provided by law, shall receive and act upon application for aid under and in accordance with this chapter and shall provide funds in its county treasury, and shall do all other acts and things necessary for the purposes of carrying out the provisions of this chapter insofar as such provisions relate to such county.

Amendment No. 2

On page 1, strike out lines 1 to 13, inclusive, and insert

"SECTION 1. Section 42 of the Kings River Conservation District Act is amended to read:

SEC. 42. (1) [Any territory within the district and now or hereafter embraced within the boundaries of an incorporated city and not substantially benefited by being within the district or by continued inclusion therein, may be excluded by order of the board upon the verified petition of the owner or owners in fee of lands whose area is in excess of one-half of the area of all lands held in private ownership in such territory.

The petition shall describe the territory sought to be excluded, and generally describe the land of each petitioner sought to be excluded, and the land sought to be excluded of each owner of record who does not sign the petition together with the name of its owner according to the records of the county recorder of the county in which the land is situated and shall set forth the reasons why it is claimed that such territory should be excluded and taken from said district. It shall be filed with the secretary.

Upon the filing of the petition, the secretary shall fix a time when the petition will be presented to the board, which shall be not less than 25 days nor more than 50 days after the filing of the petition, and shall cause notice of the filing thereof to be published once a week for at least two weeks in one newspaper of general

circulation printed and published in each county within which any portion of the district lies. Such notice shall also state the date of the filing of the petition, a description of the land proposed to be excluded, the names of the petitioners, the time when the secretary will present the petition to the board that it will come for hearing before the board at such time and shall state the place where the board will meet for the purpose of holding such hearing, and such notice shall also contain an announcement that any persons interested in the proposed exclusion may appear at the time of the hearing and file objections in writing showing cause, if any they have, why the land or any of it should not be excluded. Any landowner or taxpayer or other interested person within the district shall have the right to appear at said hearing either in behalf of said petition or in behalf of said written objections. At the time and place mentioned in the notice or at the time to which the hearing of the petition may be adjourned the board shall hear the petition, all of the objections to it presented in writing, and all evidence introduced in support of the petition and objections. The evidence at such hearing shall be taken down in shorthand and a record made of it and filed with the board. If upon such hearing the board determines that the petition complies with the provisions of this section and determines either that it is for the best interests of the district that the lands mentioned in the petition, or some portion thereof, be excluded from the district or if it determines that such lands, or some portion thereof, will not be substantially benefited by their continued inclusion in the district, the board shall make an order that such lands, or such portion thereof, be excluded from the district, such order to describe specifically the land so excluded. From the time of making such order, the lands so excluded shall be deemed no longer included in the district, but such order of exclusion shall not invalidate in any manner any taxes or assessments theretofore levied or assessed against the lands so excluded, nor shall it in any way limit the authority of the board to levy taxes for the payment of principal and interest under the terms of any contract approved by the voters or of bonds theretofore voted or issued by the district or any improvement district embracing such lands so excluded. The president and secretary of the board shall certify that such order has been adopted to the Secretary of State and to the county recorder of each county within which any portion of said district is located. Upon receipt of the certificate, the Secretary of State shall, within 10 days, issue his certificate reciting the adoption of such order and the exclusion of the area from the district. A copy of such certificate shall be transmitted to and filed with the county clerk of each county in which any portion of the district is situated.

The expense of giving the notice and of the aforesaid proceedings on exclusion shall be paid by the persons filing the exclusion petition.]

Whenever any portion of the district is included within, or has been included within a city by reason of incorporation, annexation, or otherwise, such portion may be withdrawn from the district. Such withdrawal shall be effective upon the filing with the State Board of Equalization, the Board of Directors of the Kings River Conservation District, county clerk or registrar of voters, and the county assessor, of copies of a resolution of the legislative body of the city, describing the included portion, and declaring such portion withdrawn.

(2) Any other territory within the district and not substantially benefited by being within the district or by continued inclusion therein, may be excluded by order of the board upon the verified petition of the owner or owners in fee of lands whose assessed valuation is in excess of one-half of the assessed valuation of all lands held in private ownership in such territory as shown by the last equalized assessment roll.

The petition shall describe the territory sought to be excluded and shall set forth that such territory is not substantially benefited by being in the district or its continued inclusion therein and shall pray that such territory be excluded and taken from said district. It shall be filed with the secretary and accompanied by a deposit with the secretary of the sum of five hundred dollars ($500), to meet expenses of advertising and costs incident to the proceedings, any unconsumed balance to be returned to the petitioner or petitioners.

Upon the filing of the petition, the secretary shall transmit a copy thereof to the Department of Public Works, Division of Water Resources, which acting by and through the State Engineer shall make an investigation and determine whether the lands proposed to be excluded, or some portion thereof, will not be substantially benefited by their continued inclusion in the district. In making a determination upon any such petition for exclusion of lands the State Engineer shall exercise his own independent judgment as to whether the lands described in the petition for exclusion will be substantially benefited by remaining in the district, and the State Engineer shall not be bound by the findings of the Legislature in this act with respect thereto. Upon completing such investigation, the department shall file its report with the secretary, which shall describe specifically the lands, if any, which will not be so benefited. The cost and expense of such investigation and report shall be a charge against the district and against the deposit made by the petitioners.

Upon the filing of the report, the secretary shall fix a time when the petition and report will be presented to the board, which shall be not less than 25 days nor more than 50 days after the filing of the report, and shall cause a notice of the filing thereof to be published once a week for at least two weeks in one newspaper of general circulation printed and published in each county within which any portion of the district lies. Such notice shall also state the date of the filing of the petition and the date of the filing of the report and the time when he will present them to the board and that they will come on for hearing before the board at such time and shall state the place where the board will meet for the purpose of holding such hearing. Any landowner or taxpayer or other person interested within the district shall have the right to appear at said hearing either in behalf of or in opposition to the granting of said petition. If upon such hearing the board determines that the petition complies with the provisions of this section and determines either that it is for the best interests of the district that the lands mentioned in the petition, or some portion thereof, be excluded from the district or if it determines that such lands, or some portion thereof, will not be substantially benefited by their continued inclusion in the district (and lands which the report of the Department of Public Works states will not be so benefited shall be included as such lands by the board in making its determination), the board shall make an order that such lands, or such portion thereof, be excluded from the district, such order to describe specifically the land so excluded. From the time of making such order, the lands so excluded shall be deemed no longer included in the district, but such order of exclusion shall not invalidate in any manner any taxes or assessments theretofore levied or assessed against the lands so excluded, nor shall it in any way limit the authority of the board to levy taxes for the payment of principal and interest under the terms of any contract approved by the voters or of bonds theretofore voted or issued by the district or any improvement district embracing such lands so excluded. The president and secretary of the board shall certify that such order has been adopted to the Secretary of State and to the county recorder of each county within which any portion of said district is located. Upon receipt of the certificate, the Secretary of State shall, within 10 days, issue his certificate reciting the adoption of such order and the exclusion of the area from the district. A copy of such certificate shall be transmitted to and filed with the county clerk of each county in which any portion of the district is situated."

17690. (a) Except as provided in subsection (b), there shall be allowed as a deduction in computing taxable income all expenditures paid or incurred during the taxable year for the development of a mine or other natural deposit (other than an oil or gas well) if paid or incurred after the existence of ores or minerals in commercially marketable quantities has been disclosed. This section shall not apply to expenditures for the acquisition or improvement of property of a character which is subject to the allowance for depreciation provided in Sections 17208 [and 17209] *to 17211, inclusive*, but allowances for depreciation shall be considered, for purposes of this section, as expenditures.

(b) At the election of the taxpayer, made in accordance with regulations prescribed by the Franchise Tax Board, expenditures described in subsection (a) paid or incurred during the taxable year shall be treated as deferred expenses and shall be deductible on a ratable basis as the units of produced ores or minerals benefited by such expenditures are sold. The certificate shall contain a statement of the medical facts within his knowledge, his conclusion with respect to the disability of the claimant and his opinion with respect to probable duration of the disability. The claim of any eligible individual who obtains care and treatment outside this State *or in any foreign country* may, pursuant to authorized regulation, be supported by a like certificate of a similar licensee of the state *or foreign country* in which the claimant is receiving care and treatment. With respect to any eligible claimant who is hospitalized in a county hospital in this State or is hospitalized by said county hospital in another hospital, a certificate as to such individual's disability as shown by his hospital chart signed by the registrar of the hospital shall satisfy the requirements of this section. Where any eligible claimant is hospitalized in or under the care of any medical facility of the United States Government, a certificate as to such individual's disability signed by any duly authorized medical officer of such facility shall satisfy the requirements of this section.

SEC. 9. Section 3254.5 is added to said code, to read:

3254.5. A voluntary plan in force and effect at the time a successor employing unit acquires the organization, trade, or business, or substantially all the assets thereof, or a distinct and severable portion of such organization, trade, or business, and continues its operation without substantial reduction of personnel resulting from such acquisition, shall not terminate without specific request for cancellation thereof. The successor employing unit shall be deemed to have consented to the plan, and agreed to make the pay roll deductions required, if any, and transmit the proceeds to the plan insurer, if any, unless written request for cancellation is transmitted to the director within 30 days after the acquisition date. Promptly upon notice of change in ownership any insurer of such a plan shall prepare and issue policy forms and amendments as required, unless the plan is canceled. Whenever an approved voluntary plan is insured by an admitted disability insurer, the insurer shall be substituted for the employer with respect to any assessments under this part which relate to the portion of the voluntary plan insured by such insurer. *With respect to premiums received on or after January 1, 1958, and for so long as contributions to the disability fund are not taxed as are premium receipts of insurance companies, the rate of taxation upon Unemployment Compensation Disability Insurance premiums received by an admitted disability insurer for insurance of approved voluntary plans and included within the "basis of the annual tax" shall be 10 percent of the rate otherwise fixed by law.*

SEC. 11. Section 3260 of said code is amended to read:

An employer may, but need not, assume all or part of the cost of the plan, and may deduct from the wages of an employee covered by the plan for the purpose of providing the disability benefits specified in this part and the costs as set forth in Section 3269 an amount not in excess of that which would be required by Section 984 if the employee were not covered by the plan.

With respect to individuals covered by a voluntary plan on January 1, 1958, the amount of the deduction on or after that date may be increased to a maximum of one percent of three thousand six hundred dollars ($3,600) of annual taxable wages without any further consent of the individual or approval by the director.

SEC. 13 Section 3271 of said code is amended to read:

3271. Until [January 10, 1956] *January 1, 1960*, the commission shall approve any amendment to a voluntary plan adjusting [future benefits] *the provisions thereof as to periods after the effective date of the amendment* as to which it finds that the plan as amended will conform to the standards set forth in Section 3254 and that either of the following exist:

(a) A majority of the employees covered by the plan have consented in writing to the amendment.

(b) All of the employees covered by the plan who are adversely affected by the amendment have consented in writing to the amendment.

(c) [A notice, the form of which has been approved by the commission, has been posted and circulated to the employees covered by the plan at least 10 days prior to the effective date of the proposed amendment that the plan is to be amended and of their right to withdraw from the plan.] *The insurer of such plan, if any, has certified to the director that notice of the amendment either separately or as a part of a new certificate or statement of coverage, has, at least 10 days prior to the effective date of the proposed amendment, been delivered to the employer for distribution to his employees and has further certified that such notice specifically included notification to the employees covered by the plan of their right to withdraw from the plan.*

Nothing contained in this section is intended to deny or limit the right of the [commission] *director* to make regulations supplementary thereto [prior to January 10, 1956], nor on the general subject of requirements for amendments of voluntary plans subsequent to [January 10, 1956] *January 1, 1960*.

SEC. 14. The amendments of Sections 2652, 2655, 2708, 2801, and 2804 of the code made by this act shall become operative with respect to periods of disability commencing on and after January 1, 1958, and the provisions of said sections of the code in effect prior to such amendments shall continue to be applicable with respect to periods of disability commencing prior to January 1, 1958.

(b) The refining, manufacturing, producing, blending, or compounding of motor vehicle fuel in this State from petroleum products owned by another and the delivery of the fuel in this State to the owner thereof or to any person on his order.

(c) The importing of motor vehicle fuel into this State, and the sale, donation, consignment for sale, barter, or use of the fuel in this State unless the State is prohibited by the Constitution or laws of the United States from imposing a tax with respect to such sale, donation, consignment for sale, barter or use; provided, however, that motor vehicle fuel brought into this State in the usual and ordinary fuel supply tank connected to the engine of a motor vehicle shall not be deemed to be "imported" if not removed from such tank except as used for the propulsion of such engine, except to the extent such fuel was acquired tax free for export or a refund of tax was claimed on account of exportation from the state from which such fuel was transported into this State.

(d) The receiving in this State of motor vehicle fuel with respect to which there has been no prior taxable distribution *by a distributor licensed under this part* and the sale, donation, consignment for sale, barter, or use of the fuel in this State.

(e) The withdrawal of motor vehicle fuel from storage in this State for the purpose of the sale, donation, consignment for sale, barter or use of the fuel in this State if the consummation of such purpose does not otherwise constitute a distribution taxable under this part, in which event the license tax with respect to the fuel withdrawn from storage is measured by the gallonage thereof thus sold, donated, consigned for sale, bartered or used

SEC. 2. Section 7306 of said code is amended to read:

7306 "Distributor" includes every person who, within the meaning of the term "distribution" as defined in this chapter, distributes motor vehicle fuel and also includes every person who refines, manufactures, produces, blends or compounds motor vehicle fuel in this State and every person who imports motor vehicle fuel into this State or who receives in this State motor vehicle fuel of which there has

been no prior taxable distribution *by a distributor licensed under this part*, and any aircraft manufacturer, or certificated or licensed carrier by air, who files with the board an application for a license to engage in business as a distributor and to whom the board issues such a license. Distributor" does not include any person who brings motor vehicle fuel into this State in the usual and ordinary supply tank connected to the engine of a motor vehicle if such fuel is not removed from the tank except as used for the propulsion of such engine, except to the extent such person acquires the fuel tax free for export or claims a refund of tax paid on account of exportation from the state from which such fuel is transported into this State. *Distributor does not include any person who shall import into this State motor vehicle fuel in individual quantities of 500 gallons or less purchased from a distributor licensed under this part and who shall assume liability for the tax to this State.*

SEC. 3. Section 7351 of said code is amended to read:

7351. For the privilege of distributing motor vehicle fuel a license tax is hereby imposed upon distributors at the rate of six cents ($0.06) for each gallon of fuel distributed, *as well as for each gallon of fuel distributed in this State by a purchaser thereof upon which distribution the distributor has assumed liability for the tax thereon under Section 7306*, until December 31, 1959, and thereafter the rate shall be five and one-half cents ($0.05½) for each gallon of fuel distributed.

SEC. 4. Section 7352 of said code is amended to read:

7352. For the purpose of the proper administration of this part and to prevent evasion of the license tax, unless the contrary is established, it shall be presumed that all motor vehicle fuel refined, manufactured, produced, blended or compounded in this State or imported into this State and no longer in the possession of the distributor has been distributed. This presumption cannot be overcome by proof that the motor vehicle fuel has been converted to his own use by any person to whom the distributor has entrusted the control or possession of the fuel either as bailee, consignee, employee, or agent, provided, however, any such person causing a distribution by the act of converting to his own use any fuel so entrusted to him, as well as any other person receiving such fuel [with the knowledge that it was so converted], shall be jointly and severally liable with the distributor for payment of the tax imposed upon such distribution, and all such persons shall be considered as distributors for the *purpose of Chapters 5 and 6* of this part.

SEC. 5. Section 7401 of said code is amended to read:

(c) Motor vehicle fuel distributed, or delivered on the order of the owner, to a distributor who has furnished bond of one hundred thousand dollars ($100,000) as prescribed by Section 7454 and who has established to the satisfaction of the board that this bond, together with property to which the lien imposed by Section 7871 attaches, is sufficient security to assure payment of all license taxes as they may become due to the State from him under this part.

(d) Motor vehicle fuel sold to the United States armed forces for use in ships or aircraft, or for use outside this State.

Every distributor claiming an exemption shall report the exports, sales or distributions to the board in such detail as the board may require, otherwise the exemption granted in this section shall be null and void and all the fuel shall be considered distributed in this State subject fully to the provisions of this part.

SEC. 6. Section 7402 of said code is amended to read:

7402. In support of any exemption from license taxes claimed under this chapter on account of the exportation of motor vehicle fuel, every distributor shall execute *and file with the board* an export certificate in such form as shall be prescribed by the board [, containing a sworn statement made by some person having actual knowledge of the fact of the exportation that the motor vehicle fuel has been exported from the State and giving such details with reference to the shipment as the board may require] *The board may waive the requirement of export certificates in any instance in which it considers no useful purpose is served thereby.*

In support of any exemption from taxes on account of sales of motor vehicle fuel in individual quantities of 500 gallons or less for export by the purchaser, the distributor shall retain in his files for at least three years an export certificate executed by the purchaser in such form and containing such information as shall be prescribed by the board This certificate shall be prima facie evidence of the exportation of the motor vehicle fuel to which it applies only if accepted by the distributor

in good faith. Should, however, such purchaser not so export any part of the motor vehicle fuel covered by the certificate, he is required to remit immediately thereafter to the State the applicable amount in taxes due on such part not exported and upon failure to do so such purchaser shall be subject to all penalties provided for in this part.

SEC. 7. Section 7403 of said code is amended to read:

7403. All export certificates *required to be filed with the board under Section 7402* shall be completed and be [on file in the office of] *filed with* the board within [90 days] *three months* after the close of the calendar month in which the shipments to which they relate are made *unless the exporter of the fuel submits proof satisfactory to the board that any applicable fuel tax of the destination state, territory or country has been paid and that the fuel has been received in the destination state, territory or country.* [A certificate not completed and filed within this period shall not be recognized for any purpose by the State.]

SEC. 8. Section 7405 of said code is repealed.

SEC. 9. Section 7407 of said code is amended to read:

7407 The board may extend for good cause for not to exceed six months the time for filing certificates of export as fixed in Section 7403 [and claims for exemption as fixed in Section 7405]. 7655. Any distributor who fails to [pay] *file with the board his remittance payable to the Controller for* the amount of license tax shown to be due by his return on or before the first day of the second calendar month following the monthly period to which it relates must pay a penalty of 10 percent of the license tax, together with interest on said license tax at the rate of one-half of 1 percent per month, or fraction thereof, from the date on which the license tax became due and payable to the State until the date of payment.

SEC. 11. Section 7656 of said code is amended to read:

7656. The board for good cause may extend for not to exceed [five] *30* days the time for making any report or paying any tax required under this part. The extension may be granted at any time; provided, a request therefor is filed with the board within or prior to the period for which the extension may be granted.

Any distributor to whom an extension is granted shall pay, in addition to the tax, interest at the rate of one-half of 1 percent per month, or fraction thereof, from the date on which the tax would have been due without the extension to the date of payment.

SEC. 12. Section 7727 of said code is amended to read:

7727. The board shall forthwith ascertain as best it may the amount of the distributions and shall determine immediately the license tax on the amount, adding to the license tax a penalty of [100] *25* percent of the amount of the tax, and shall give the unlicensed distributor notice of this determination as prescribed by Section 7493 *provided, however, that where the board shall determine that failure to secure a license was due to reasonable cause, such penalty shall be waived* Provisions of Sections 7699 and 7700 shall be applicable with respect to the finality of the determination and the right of the unlicensed distributor to petition for a redetermination

In the event of the loss of an original invoice, the person claiming a refund may submit in lieu thereof a duplicate copy of such invoice, which may be retained by the Controller until the expiration of the period specified in Sections 8104.5 and 8105 for filing of refund applications, and no payment of refund based upon such duplicate invoice shall be made until after the expiration of such statutory period

Explanation of Votes

ASSEMBLY, CALIFORNIA LEGISLATURE, April 9, 1957

Statement Regarding Drunk Driver Bill

In voting "no" on Assembly Bill No. 19, we opposed a mandatory jail sentence for a misdemeanor drunk driver where the same requirement was not made for a felony. We also feel that a mandatory jail sentence will cause more jury trials and result in fewer convictions.

Amendment No. 2

On page 6, between lines 34 and 35, insert

"For the purposes of this section and Section 4545, a person is eligible to vote for a candidate if he is a registered elector, and if he resides within the district or area within which votes are to be cast for that candidate."

Amendment No. 3

On page 6, between lines 46 and 47, insert

"4529 As used in Sections 4527 and 4528, "campaign contribution" includes those contributions specified in subdivisions (b) and (c) of Section 4507."

Amendment No. 4

On page 10, after line 25, insert

"SEC. 9 The Legislature hereby finds and declares that the increased sums expended upon behalf of candidates for public office have resulted in a condition in which it is nearly impossible for a person to become a candidate for public office unless he secures financial assistance from persons outside the district or area in which he is a candidate. This condition has discouraged many able and conscientious persons from becoming candidates for public office, and has frequently denied the voters of an area a choice of capable candidates If campaign contributors are limited to those persons who are eligible to vote at the election of the candidate, the result will be that contributions will be received only from those persons directly affected by the election, the importation of large sums from other areas will be prevented, and candidates will be afforded a more equal opportunity for election. This will encourage capable persons to become candidates for public office, and thus be of benefit to the public generally. For these reasons, this act prohibits campaign contributions by persons not eligible to vote for the candidate."

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, April 9, 1957

To the Honorable Members of the Senate and Assembly of the State of California:

As we approach the midway mark in the 1957 Session of the Legislature, I have been giving much study to the progress we are making toward solution of one of the most difficult and vital problems ever to confront the people of California and their elected officials. I speak of the positive steps which we must take toward solving our state-wide water problems.

Considering the number and complexity of these problems, we are making gratifying progress in the thorough study and interchange of thinking which is essential to the decisions ahead of us in the remaining weeks of this session. We are to the point where some of these decisions must be made.

Saturday afternoon I met briefly with the Governor's Water Lawyers' Committee, which is studying all of the constitutional amendment proposals pertaining to water rights in an effort to evolve a recommendation which will meet the needs of and be acceptable to all parts of California.

I am greatly encouraged by the progress which has been made by this committee. There is agreement among the members of the committee, as there is among virtually all groups and individuals interested in California's water development, that one of the first steps which should be taken by the State is the establishment of a Water Development Fund. This can and should be done now.

Immediate creation of a Water Development Fund by statute would not in any way interfere with the inclusion of such a provision in the constitutional amendment now under consideration.

In my message to the Legislature on January 7th, I urged that such a fund be established, adequately supported by a long-range financing program. This fund should be utilized to implement state participation in water development, both in the construction of projects by the State and in financial participation in projects of federal and local agencies.

Such a fund is essential for achievement of the necessary objectives of water development in California, and as such is of prime importance to every section of the State and to every interested group. There remain unanswered at this date many questions as to details of our water program, but one point is crystal clear: We must develop our water resources to serve the ever-growing needs of the people of California. As we reach decisions on details of the program, the money must be available to implement those decisions. There are several sources of revenue which can be utilized to create and augment a Water Development Fund, and I urge in the strongest possible terms that we act now to commit these revenues in order that the future of California will not be stifled.

In my January 7th message, I recommended that the presently uncommitted tidelands oil funds and income from that source through Fiscal Year 1957-58 be used initially to establish this fund. I also recommended that regular, annual appropriations from the general revenues of the State, consistent with other demands on the General Fund, be devoted to water development.

I now specifically recommend that the following moneys be placed in the Water Development Fund, and I have asked the Department of Finance to prepare appropriate amendments to measures now pending to create such a fund:

(1) Uncommitted tidelands oil revenues as described above, and income from this source through July 1, 1958. These will amount to approximately $101,000,000 after deducting the $38,000,000 appropriation now pending for continuation of the preparatory work at the Oroville Dam and reservoir site.

(2) Future revenues from tidelands oil lands in excess of $10,000,000 per year.

(3) The $75,000,000 now in the Revenue Deficiency Reserve Fund ("rainy day" fund), in the State Treasury.

(4) Moneys from the General Fund in amounts to be determined by the Legislature.

(5) Such moneys in other funds as may be determined by the Legislature to be available for this purpose.

(6) Net revenues derived from water projects operated by the State.

(7) Proceeds from any bond issues that may be voted and sold in the future for construction of the Feather River Project and of other elements of the California Water Plan as they are authorized, and for financial participation in projects of the Federal Government and local agencies.

(8) Interest derived from the investment of moneys held in the Water Development Fund.

With an anticipated federal appropriation of at least $75,000,000 for flood control benefits at Oroville Dam, we should be able to count on a minimum of $250,000,000 in such a fund. This will make available money for the projects which are necessary now and in the immediate future, and for further water development projects as needed and justified in all areas of the State, in conformity with the objectives of the California Water Plan. From this fund, the Legislature would make appropriations for specific projects.

While a bond issue will undoubtedly be necessary in order to meet the schedule of needs of California in water development, we must, insofar as possible, use existing funds and present sources of revenue to finance this program. To the extent that we do this, we avoid payment of heavy interest charges which, on long-term bond issues, may nearly double the cost. Such conservation of our financial resources will make possible more rapid progress in achieving our water development goals.

By using the $75,000,000 now in reserve in the "rainy day" fund, we will be assuring that this surplus will be used for permanent and vital improvement of the State for the benefit of all areas. As a cash payment, it will take the place of at least $125,000,000 in ultimate expenditure through bond financing. Careful management of the State's financial assets is increasingly essential in order that we may continue to meet the rapidly growing needs of California for increasing services of all kinds, and water is the most urgent problem now confronting the State.

I have long held to the sound view that the "rainy day" fund should be held as a reserve to be utilized in case of a sudden reduction in state tax revenue. However, the question is becoming more and more one of trying to protect that fund from being dissipated for special appropriations of one kind or another. By setting it aside for water development, you will in reality be conserving it for the future and helping to create an expanded tax base, through development of industry and agriculture, which will work to the lasting benefit of the entire State.

Another function of the "rainy day" fund, to provide funds for emergency use in event of a major disaster, can be met readily through legislation to permit any other available funds in the State Treasury to be used for such a purpose. I have asked the Department of Finance to prepare legislation to accomplish that purpose.

I urge the establishment of adequate financing of the Water Development Fund as one of the most pressing needs of the 1957 Session of the Legislature.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No. 616:

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, April 1, 1957

To the Honorable Members of the Assembly
Sacramento, California
GENTLEMEN:

> **Assembly Bill No. 616,** "An act to repeal and re-enact the Fish and Game Code, and include therein codification of Chapter 1447, Statutes of 1947, and to repeal Chapter 1447 of the Statutes of 1947, relating to fish and game, and making an appropriation,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill was submitted by the California Law Revision Commission as a revision of the Fish and Game Code pursuant to Chapter 204 of Resolutions, Statutes of 1955. It further appears that among the provisions of this revision there is an appropriation, but that no additional funds are made available for expenditure. In these circumstances, prompt consideration of this bill is desirable and no purpose would be served by withholding action upon it until after final passage of the Budget Bill.

I therefore recommend consideration of Assembly Bill No. 616 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

House Resolution No. 151

Relative to the removal of a fence on State Highway Route 1 near Orick

WHEREAS, State Highway Route 1 below Orick has been constructed to expressway standards and a fence has been erected along the easterly portions of the right of way to prevent access thereto and egress therefrom; and

WHEREAS, Freshwater Lagoon, which is located approximately one and one-half miles south of Orick and is separated from the Pacific Ocean by said Route 1, is the only fresh water recreational facility in the area and the only practical and convenient access to said lagoon is from the state highway; and

WHEREAS, The erection of the said fence along the right of way of Route 1 prevents access from said highway to Freshwater Lagoon upon and over the road hereinafter mentioned; and

WHEREAS, The Division of Highways for a period of the last five years has made no effort to discourage or prevent the general public from using that certain access road to that certain boat landing area located at the northerly end of said lagoon and immediately to the east of said state highway right of way, leading from and to said State Highway Route 1; and

WHEREAS, Said general public has developed said area into a well-known fresh water recreational facility by the use thereof for water skiing, outboard racing and related sports in reliance upon said lack of interference, and has been led to believe by said Division of Highways that no interference would be forthcoming, and have made extensive plans for the continued use thereof as an outstanding recreational area; and

WHEREAS, Plans have been prepared which would provide for the removal of a portion of the fence on the northerly end erected by the Department of Public Works so as to permit public access to Freshwater Lagoon without interfering with traffic on the highway to any material degree and without impairing its character as an expressway; now, therefore, be it

Resolved by the Assembly of the State of California, That the Department of Public Works be requested to remove that portion of the fence mentioned above which closes off the access road also mentioned above and which now prevents public access from said highway to the boat landing area located at the northern end of Freshwater Lagoon; and be it further

RECOMMENDATION OF THE GOVERNOR

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 1991:

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, March 8, 1957

To the Honorable Members of the Assembly
Sacramento, California
GENTLEMEN:

Senate Bill No. 1991, "An act to ratify and approve the Klamath River Basin Compact signed at Klamath Falls, Oregon, November 17, 1956, to make an appropriation of twelve thousand dollars ($12,000) to the Klamath River Compact Commission, and to abolish the California Klamath River Commission,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

This bill approves on behalf of this State the 'Klamath River Basin Compact between the States of Oregon and California" It also appropriates $12,000 for the use of the commission therein provided until this commission can prepare its first budget. In order that this compact may be ratified and go into effect as early as possible, this bill should be acted upon immediately.

I therefore recommend consideration of Senate Bill No. 1991 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

4122 The title of all property which is acquired for a district vests in the county. Whenever all of the territory in the district is annexed or otherwise included in any *one* city, then the district is dissolved and the property becomes the property of the city All money in the county treasury to the credit of the district shall upon the annexation or inclusion of the district be forthwith transferred to the treasury of the city and be used only for the purpose for which it was available prior to the transfer.

SEC. 2 Section 4143 of said code is amended to read as follows.

4143. Any portion of a district that will not be benefited by remaining in the district may be withdrawn therefrom as provided in this article

Any portion of a district annexed to or otherwise included in a city shall have a right to withdraw from the district and shall be withdrawn from the district upon there being filed with the board of supervisors a request by the legislative body of the city in which such portion of the district is included that such withdrawal be effected

SEC. 3. Section 4147 of said code is amended to read.

4147. Upon the withdrawal of any territory from a district, as in this chapter provided, all property acquired for the district shall remain vested in the district and be used for the purposes of the district; except, that *when* the territory *being withdrawn or* sought to be withdrawn from the district includes any territory *within a city*, [then a part of the money in the county treasury to the credit of the fund of the district shall be paid over to the city in accordance with the ratio that the territory of the city sought to be withdrawn from the district bears to the territory of the entire district]. *All property acquired for the district and all unencumbered funds on the date of withdrawal including all taxes levied and collected by the district in any year in which taxes are levied and collected by the district after the date of withdrawal on property withdrawn from the district shall be divided between the city and the remaining district in proportion to the assessed value of the real property of the territory so withdrawn and the portion remaining The unencumbered funds shall be deemed to be the sum of money, uncollected taxes, and other uncollected accounts belonging to or due such district, in excess of an amount sufficient to pay all claims and accounts against the district.*

In the event there is a withdrawal of territory from a district by reason of portions of such district having been included within more than one city each city shall be entitled hereunder to the assets of the district, as set forth herein, in the same proportion that the assessed value of that portion of the district within the city bore to the assessed value of the entire district prior to the withdrawal.

SEC 4. This act is an urgency measure necessary for immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Within the past year a number of new cities have been incorporated and proceedings are pending for the incorporation of several additional cities The proximity of these newly incorporated areas and the areas in process is such that there is likely to be an inclusion of all the territory of a garbage disposal district in two or more cities. The law as it now reads does not cover such a contingency and unless this act is adopted there will be a confusion as to what political entity has jurisdiction over the district so included and the collection of garbage will be delayed. Further, unless this act is adopted there will be no means of properly apportioning assets of the district and the newly incorporated cities likely will not have sufficient funds available to provide the service of garbage collection. Therefore, it is necessary that this act take effect immediately."

Amendment No. 3

On page 1, lines 14 through 25, inclusive, strike out "and all unencumbered funds on the date of withdrawal, including all taxes levied and collected by the district in any year in which taxes are levied and collected by the district after the date of withdrawal on property withdrawn from the district, shall be divided between the city and the remaining district in proportion to the assessed value of the real property of the territory so withdrawn and the portion remaining. For the purpose of this article, the unencumbered funds are the sum of money, uncollected taxes, and other uncollected accounts belonging to or due such district, in excess of an amount sufficient to pay all claims and accounts against the district."

DIVISION 5.5. THE SUSPENDED RAPID TRANSIT TEST LINE AUTHORITY

10300. It is hereby declared to be the policy of the State to find a solution for the traffic and transit problems now facing the metropolitan areas. The duo-rail suspended rapid transit system has been advocated as one means to solve these problems. It is the purpose of the Legislature in enacting this division to provide for the construction of a test line of the duo-rail suspended rapid transit system to serve as a working model and to determine the feasibility, cost, and efficiency of such a system.

10301. "Test Line" means a working test full-scale model line of the Duo-rail Suspended Transit System, approximately one-half mile to one mile in length and constructed in the County of Los Angeles or adjacent counties or any other suitable area in the State as may be determined by the authority. The test line shall be deemed a public project of the State and of the County of Los Angeles and the City of Los Angeles if the county and city participate financially in the construction of the test line, or of the State and any political subdivision or public agency which participates financially in the construction of such test line, until such time as these parties relinquish control of the test line pursuant to this division or by operation of law.

10302. There is hereby created the Suspended Rapid Transit Test Line Authority. The authority is a public corporation of the State.

10303. The authority is not subject to the jurisdiction of the Public Utilities Commission, and the laws applicable to privately owned and operated carriers shall not be applicable to the authority.

10304. The authority is composed of three members who shall be sympathetic toward solving the transit and traffic problems in Los Angeles and in the State, all of whom shall be appointed by the Governor from the nomination submitted by the Duo-rail Suspended Transit System. The term of one of the initial members of the authority, as designated by the Governor, shall expire two years from the date of his appointment. The remaining two initial members of the authority shall be appointed by the Governor to serve for a full term of four years from the date of their appointment. The successors of the members of the authority initially appointed shall be appointed to serve for a full term of four years. Any member appointed to serve in lieu of any member on account of death, resignation, or disability of such member shall serve only for the unexpired term of such member. Each member of the authority shall hold office for the term for which he was appointed and until his successor has been appointed and qualified. The initial members of the authority shall be appointed by the Governor within sixty (60) days after the effective date of this division

Whenever a political subdivision or public agency contributes any funds for the construction of the test line, one member for each such political subdivision or public agency shall be appointed to the authority. Such member shall be appointed by the Governor from nominations submitted by the governing body of the local political subdivision or public agency and shall have a term of four years.

10305. Each member of the authority shall be, and shall hold office only so long as he is a resident of, and a registered voter in the city, county or political subdivision from which he was appointed. Each member of the authority shall be paid the sum of twenty-five dollars ($25) for each regular meeting attended plus traveling expenses from his residence to the place of meeting of ten cents ($0.10) per mile, but not to exceed more than one hundred dollars ($100) per month.

At special meetings of the authority the members shall not receive the per diem of twenty-five dollars ($25) but shall receive the travel allowance specified above.

10306. The members of the authority shall hold their first meeting within one week following the appointment of the members of the authority by the Governor. The time and place of the first meeting shall be designated by the Governor at the time he appoints the members of the authority. At its first meeting the authority shall select a chairman from its membership and shall also appoint a secretary and a treasurer. The authority shall fix the time and place of its regular meetings, which shall be called at least once each week. No more than one special meeting may be held each week.

10307. The authority may appoint a general manager, who, preferably, shall be a mechanical or electrical engineer, or have equivalent qualifications, to hold office during the pleasure of the authority. The general manager shall be paid an annual salary as may be determined by the authority at the time of hiring. He shall have management of the properties and the business of the authority, including the operation of the test line, subject to the general control of the authority and subject to any powers specifically reserved by the authority, which reserved powers shall include the power to appoint and dismiss employees of the authority.

If the test line is sold or transferred by the authority, the position of general manager shall be terminated and one month's salary shall be paid to the general manager after the effective date of the transfer or sale.

10308. A majority of the members of the authority constitute a quorum for the transaction of business and may act for the authority.

10309. The authority may act at any regular meeting or special meeting called pursuant to such rules and regulations as the authority may adopt. The authority may adopt such rules and regulations as it deems advisable with respect to the conduct of its own affairs.

10310. The authority shall maintain an office in the City of Los Angeles, Los Angeles County, or in any other county in the State where the test line is constructed.

10311. The authority may adopt a seal to be impressed upon its instruments, and may provide for the impression of such seal by printed or lithographed facsimile thereof. An executed instrument bearing the seal of the authority shall be prima facie evidence of its execution by the authority and that its execution was duly, regularly and legally authorized by the authority.

10312. The authority has perpetual succession.

10313. The authority may sue and be sued in all courts of competent jurisdiction.

10314. The authority shall start negotiations immediately after its appointment with the patentee, his company, associates, assignees, or heirs, holding the patent rights of the Davino Duo-rail Suspended Transit System, for the use of such patent rights on such terms and conditions as may be agreed upon by both parties thereto The authority may acquire by grant, purchase, gift, devise or lease and may hold, use, sell, lease or dispose of any real and personal property, licenses, franchises, patents, rights and interests necessary, convenient, or usetul in carrying out any of its powers pursuant to the provisions of this division.

10315 The authority shall have power to acquire, construct, complete, develop, own, operate and maintain the test line; including power to acquire by purchase, lease, gift or otherwise all or any part of any patents, licenses, rights, interests, engineering studies, data, or reports owned or held by any person and determined by the authority to be necessary, convenient or useful to the authority in connection with the acquisition, construction, completion, development, ownership, operation or maintenance of the system.

10316. The authority may expend not more than fifteen percent (15%) of the funds available to it for the preparation of engineering plans and for the acquisition of any necessary rights of way, surveys, car plans, and any other preliminary plans and surveys necessary to complete the test line.

10317. All detailed working plans shall be approved by the authority and then be submitted for approval to the Director of the State Department of Public Works

10318. Upon completion of the working construction plans, the authority shall advertise for bids for construction of the test line. It shall require all bidders to post performance bonds in an amount fixed by the authority. The authority shall enter into contracts for the construction of the test line with the successful bidders.

10319. The authority shall fix the rates, fares, tolls, and other charges to be charged in the operation of the test line. So long as the authority has complete control and ownership of the test line, the Public Utilities Commission shall have no jurisdiction over the rates, fares, tolls and other charges charged in the operation of such line.

10320. All funds and revenues derived from the operation of the test line, after its completion, and all expenditures shall be under control of the authority. Upon total repayment of the money advanced, the authority shall proceed as hereinafter provided.

10321. The authority, subject to the limitations specified in this division, shall have exclusive jurisdiction over the expenditures of any and all revenue collected from the operations of the test line, and shall pay all costs of operation from the revenues received, including all salaries, power costs, interest, and other costs.

10322. The authority shall grant sufficient time to the Duo-rail Suspended Transit System, its engineers and contractors to construct the system as designed and prescribed in its patents, and to allow them to make all necessary changes, corrections or adjustments and to operate the test line until it is perfected for the public to ride on. Should fares be collected during construction, they shall be turned over to the authority as hereinabove described in Section 10320. The terms of repayment of the money advanced to the authority from any political subdivision or public agency and the funds from which repayment will be made shall be provided for in the contracts entered into between the authority and the political subdivision or public agency, and no money shall be expended except pursuant to such contracts.

10323. Upon the completion of the test line and following a period of operation to be determined by the authority, the authority may sell, lease, or transfer, and convey the test line and all of its other assets, rights, and property to any responsible group, particularly to the above described Duo-rail Suspended Transit System, or person, or agency, or to any other transit system seeking to include the line as part of an integrated transportation system.

SEC 2. The Suspended Rapid Transit Test Line Authority may issue revenue bonds in an amount not to exceed eight hundred thousand dollars ($800,000). Such bonds may be issued in separate parcels as funds are needed in the construction of the test line pursuant to this division. The bonds shall bear interest as may be agreed upon between the authority and any purchaser of the bonds There shall likewise be provided 5 percent annual amortization payments. Bond redemption, interest and amortization payments shall be paid out of the revenue derived from operation of the test line The date of payments shall be determined by and between the purchasers of the bonds and the authority."

CHAPTER 6. STATE CONTRIBUTIONS

5400. The Legislature hereby declares that the costs of conducting political campaigns are legitimate public expenses; that the cost of campaigning places an

undue premium on access to private wealth as a primary criterion for the judging of candidates; that the tremendous cost of election campaigning gives an undue advantage to a candidate receiving substantial contributions from a relatively small number of persons, thus placing an undue emphasis on money in our free elections that can ultimately spell disaster to our democratic processes; that this continuing trend of constantly increasing campaign costs can only be offset by increased financial responsibility between the registered voter and his political party by the use of public funds; that the use of public funds for the purpose set forth in this chapter is the most practical and economical way for all registered voters to contribute to the political party of their choice

5401. During the month of July of every even-numbered year the Secretary of State shall certify to the State Controller the number of persons registered as affiliated with each political party as of January 1st of that year throughout the State, in each county within the State, in each congressional district, in each state senatorial district, in each state assembly district and in each district of the State Board of Equalization.

5402. On the first Monday after the first Saturday of August of each even-numbered year the State Controller shall draw his warrant in favor of the state central committee of each eligible political party in an amount equal to twenty cents ($0.20) for each person registered as affiliated with that political party within the State and shall deliver such warrant to the chairman of the state central committee of that party. At the same time the Controller shall draw warrants in favor of each county central committee of each eligible political party in the sum of twenty cents ($0.20) for each person registered as being affiliated with that party within the county and shall deliver the warrant to said chairmen.

5403. On the first Monday after the first Saturday of August of each even-numbered year the State Controller shall draw his warrant in favor of each party nominee for state (and district) offices, congressional offices, legislative offices in an amount equal to twenty cents ($0.20) for each person, residing within the boundaries of the political district of the public offices enumerated above and who is registered as affiliated with the party with which the party nominee is registered. The State Controller shall deliver the warrants to each party nominee. No such warrant shall be issued to a party nominee who has also received the party nomination of a political party other than the political party the candidate has registered with.

5404. The money received pursuant to this chapter by any state or county central committee shall be expended on an equitable basis only for campaign expenses of nominees of that party, who are registered as affiliated with that party.

5405. The moneys received pursuant to this chapter by any party nominee shall be expended by said party nominee for his campaign expenses in the election year in which the State Controller issued his warrant. Any unexpended moneys shall be returned by the party nominee to the General Fund of the State Treasury within thirty (30) days from the date of the general election.

5406. Within 30 days after the general election in each even-numbered year the chairman of the state central committee and the chairmen of all county central committees shall file with the Secretary of State an audit of the expenditure of the money received by them pursuant to this chapter, such audit to be made and certified by a certified public accountant.

5407. Within thirty (30) days after the general election each party nominee in receipt of a warrant from the State Controller shall file with the Secretary of State an audit of the expenditure of the money received by the party nominee, such audit to be made and certified by a certified public accountant.

5408 A continuing appropriation is hereby made from the General Fund in the State Treasury of such amounts as may be necessary to carry out the provisions of this chapter

5409. The provisions of this chapter shall apply only to political parties, each of which have registered as affiliated therewith at least 10 percent of the total number of persons registered as affiliated with all political parties throughout the State as of January 1st of the then current even-numbered year.

5410. Any person violating any provision of this chapter shall be guilty of a misdemeanor and shall thereafter be ineligible to hold any elective office."

"1900. In addition to any other method provided by law ordinances may be enacted by any district pursuant to this article.

1901. Any proposed ordinance may be submitted to the governing board of the district by an initiative petition filed with the clerk of the district board signed by not less than the number of voters specified in this article. The signatures to the petition need not all be appended to one paper. Each signer shall add to his signature his place of residence, giving street and number. If no street and number exist, then a designation of the place of residence shall be given which will enable the location to be readily ascertained.

Each separate paper shall have attached an affidavit made by a voter of the district. The affidavit shall state that the affiant circulated that particular paper and saw written the signatures appended thereto; and that according to the best information and belief of the affiant:

(a) Each is the genuine signature of the person whose name it purports to be.

(b) The signer is a voter of the district.

1902. Within 10 days from the date of filing the petition, the clerk shall examine and from the records of registration ascertain whether or not the petition is signed by the requisite number of voters. He shall attach to the petition his certificate showing the result of his examination. If the clerk's certificate shows the petition to be insufficient, a supplemental petition in form a duplicate of the original petition, bearing additional signatures, may be filed within 10 days of the date of the certificate of insufficiency. The clerk shall, within 10 days after the supplemental petition is filed, examine it, and if his certificate shows that all the signatures to the petition, are still insufficient, no action shall be taken thereon. The petition shall remain on file as a public record; and the failure to secure sufficient signatures shall not prejudice the filing later of an entirely new petition to the same effect. If the petition together with supplementary petitions, if any, is found to be sufficient, the clerk shall submit it to the governing board of the district at the next regular meeting.

1903. If the initiative petition is signed by voters not less in number than 20 percent of the registered voters in the district, and contains a request that the ordinance be submitted immediately to a vote of the people at a special election, the board shall either:

(a) Pass the ordinance without alteration at the regular meeting at which it is presented and within 10 days after it is presented.

(b) Immediately call a special election at which the ordinance, without alteration, shall be submitted to a vote of the voters of the district.

1904. To avoid holding more than one election, within any six months, the date for holding a special election may be fixed at as early a date as practicable after the expiration of the six months.

When it is legally possible to hold a special election under this article within six months prior to a regular election, the board may, in its discretion, submit the proposed ordinance at the regular election instead of at a special election.

In all other cases the board shall call a special election to be held not less than 30 nor more than 60 days after the date of the presentation of the proposed ordinance to it.

1905. Not more than one special election may be held pursuant to this article during any period of one year.

1906. If the initiative petition is signed by voters not less in number than 10 percent of the registered voters in the district, and the ordinance petitioned for is not required to be, or for any reason is not submitted to the voters at a special election, and is not passed without change by the board, then the ordinance, without alteration, shall be submitted by the board to the voters at the next general election.

1907. The board shall give notice of an election held pursuant to this article, by publication in the same manner as prescribed for the publication of the list, or portions of the list, designating polling places, as in the case of a general county election.

1908. Whenever any ordinance is required by this article to be submitted to the voters of a district at any election, the clerk shall cause the ordinance to be printed. He shall mail a printed copy thereof, enclosed in an envelope with a sample ballot, to each voter, at least 10 days prior to the election

1909. The ballots used when voting upon the proposed ordinances shall have printed thereon the words "Shall the ordinance (stating the nature thereof) be adopted?" Opposite the statement of the ordinance to be voted on, and to its right, the words "Yes" and "No" shall be printed on separate lines, with voting squares. If a voter stamps a cross (+) in the voting square after the printed word "Yes," his vote shall be counted in favor of the adoption of the ordinance. If he stamps a cross (+) in the voting square after the printed word "No," his vote shall be counted against its adoption.

1910. The persons filing an initiative petition pursuant to this article may file therewith a written argument in favor of the ordinance; the board may submit an argument against the ordinance. Neither argument shall exceed 300 words in length, and both arguments shall be printed upon the sample ballot used for the election.

1911. Any number of proposed ordinances may be voted upon at the same election.

1912. If a majority of the voters voting on a proposed ordinance vote in its favor, the ordinance shall become a valid and binding ordinance of the district. The ordinance shall be considered as adopted upon the date the vote is declared by the board, and shall go into effect 10 days thereafter.

1913. If the provisions of two or more ordinances adopted at the same election conflict, the ordinance receiving the highest number of affirmative votes shall control.

1914. The enacting clause of an ordinance submitted to the voters of a district shall be substantially in the following form:

'The people of the _____ District do ordain as follows ".

1915. No ordinance proposed by initiative petition and thereafter adopted either by the board without submission to the voters or adopted by the voters, shall be repealed or amended except by a vote of the people, unless provision is otherwise made in the original ordinance itself. In all other respects, an ordinance proposed by initiative petition and adopted shall have the same force and effect as any ordinance adopted by the board."

CHAPTER 8 PROPERTY PRESUMED ABANDONED

1450 On the first business day preceding the date on which any report is subject to removal and destruction by the county clerk as provided in Section 1435, all funds and other property deemed unclaimed and mentioned in such report shall be presumed abandoned if:

They remain unclaimed by the owner; and

There has been no substantial change in any of the facts or circumstances pursuant to which they were deemed unclaimed.

1451 Every person holding funds or other property, tangible or intangible, presumed abandoned by this act shall report to the board with respect to the property by registered or certified mail before December 1st as of June 30th next preceding, or, with respect to life insurance corporations, before May 1st as of December 31st next preceding. The report shall consist of the copy of report retained by the holder under Section 1430, which copy shall clearly show by appropriate deletion or other notation all property previously claimed by or delivered to the owner. By verified statement, the holder shall certify that all such property was so claimed or delivered, that all other property shown upon the copy of report remains unclaimed by or undelivered to the owner, and that the holder has complied with all applicable provisions of this act.

1452. Subject to Section 1455, property entirely consisting of funds reported under Section 1434 and unclaimed or undelivered at the time of report under Section 1451, shall be delivered by the holder to the board with said report and the report shall clearly show the items affected by such delivery. All other property reported under Section 1434 shall be delivered to the board under Section 1454.

1453. (1) Subject to paragraph (2), within 90 days after the date reports are required to be mailed under Section 1451, and from the information contained in such reports, the board shall cause notice to be published at least once each week for two successive weeks in an English language newspaper of general circulation published in the county in this State in which is located the last known or presumed address of any person appearing to be the owner of property known or believed to be valued at twenty-five dollars ($25) or more and presumed abandoned under this act If no such newspaper is published in the county, the board shall cause the notice to be posted at the courthouse in said county for a period of four consecutive weeks If the owner's address is outside this State, the notice shall be published in the county in which the holder of the property has his principal place of business within this State.

The notice shall be entitled Notice by State of California of Names of Persons Appearing to Be Owners of Funds or Property Presumed Abandoned and shall contain:

The names of such owners in alphabetical order and their last addresses as known or presumed;

The name and address, if known, of any person obviously interested in the property;

The name and business address of the holder of the property;

The date when the property first became payable, demandable or returnable;

A statement that the notice only concerns money or personal property known or believed to have a value of twenty-five dollars ($25) or more, and that any person writing the board and enclosing an addressed envelope with postage prepaid may

inquire whether money or property known or believed to have a value of less than twenty-five dollars ($25) appears to be held for the account of any person whose name and last known address are set forth in such letter of inquiry.

A statement that only the value of money is set forth in the notice and a description of all property, to be indicated by a clearly arranged code in which the following symbols shall have the following meanings, which symbols and meanings shall be stated:

W: purported will(s).

All property shall be related to the foregoing symbols. Only the value of money shall be stated and such value shall be contained in parentheses following the symbol C. Any combination of symbols shall be used which will indicate that such several classes of property are held for the claim of an owner.

A statement that property in possession of a holder named in the notice may be claimed from the holder or that information may be obtained by such person from the holder or by addressing an inquiry to the board, and a reference to the board's address;

A statement that if within 60 days following the date of the second published notice, proof of claim is not presented by the owner to the holder and if the owner's right to receive the property is not established to the holder's satisfaction, the property will be delivered not later than 90 days after such publication date to the custody of the board to whom all further inquiries must thereafter be directed;

A statement that the property may be claimed within five years of the date it was presumed abandoned, which date shall be stated, and that if claim is not made in the manner provided by law and if the owner is not under legal disability, a claim filed after such date shall be forever barred and the property shall be deemed abandoned and shall escheat and belong to the State.

(2) If the value of property is unknown, the board may at its election determine the value to be more than twenty-five dollars ($25) for the purposes of this section.

If the board determines that the cost of notice by publication is not warranted by the value of any property it may in lieu thereof give notice as though no qualified newspaper were published in the county.

(3) Funds or other property subject to Section 1457 shall not be subject to this section.

1454. (1) Subject to Section 1455 every person who has mailed a report under Section 1451 shall within 30 days after the time specified in Section 1453 for presenting proof of claim to the holder pay or deliver to the board all property referred to in the report to which the owner has not established his right to the satisfaction of the holder; except that if it appears for some other reason that the presumption of abandonment is erroneous, the holder need not pay or deliver the property to the board, and the property will no longer be presumed abandoned, but in lieu thereof the holder shall file a verified written explanation of the error in the presumption of abandonment.

(2) Upon its receipt by the board under this act the State shall assume custody and shall be responsible for the safekeeping of the property or its proceeds during the time the same is subject to recovery by the owner.

(3) Whenever property subject to this act under paragraph (1) of Section 1414 is presumed abandoned and subject to delivery to the board, the commercial organization thereby affected shall, without indemnity bond or other undertaking issue and deliver to the board appropriate stock or membership certificates in the name of the owner whose property is presumed abandoned, which certificates shall evidence ownership of all such property, designating the amount of shares or interests thereof

(4) When the notice under Section 1453 is published or posted, every holder affected by this section shall be charged with notice of the time when property shall be paid or delivered to the board

1455. Except funds or other property subject to payment, delivery, or distribution under any provision of the Probate Code, and except any other funds, the board may decline to receive any property which is presumed abandoned and which the board deems to have a value less than the cost of custody and safekeeping; provided, that the board may, if it deems desirable and until such time as a sufficient sum accumulates, postpone taking possession of funds not subject to any such provision of the Probate Code Unless the holder of property is notified to the contrary by the time required for payment or delivery, the board shall be deemed to have elected to receive payment or delivery of the funds or other property.

If any person, including any public officer, holds property which the board declines to receive under this section, he may destroy or otherwise dispose of it and no action shall thereafter be maintained for or on account of such property or its destruction or disposal

1456. After it receives delivery of property which is presumed abandoned, the board shall direct a letter of inquiry to any person who, in the opinion of the board, may be interested in the property and may not have received notice by posting or publication within this State

1457. Whenever under the provisions of any law funds or other property are presumed abandoned for the purposes of this act and under such provisions are subject to this section, the holder thereof shall report such fact to the board and shall furnish a description of or reference to the type of property and value of funds, the full name and last known address of the person for whose account the same are held, and the circumstances under which the holder obtained possession The holder shall retain possession for 30 days following the date of such notice and shall thereafter deliver such funds or other property to the board unless, within said 30 days, the holder is notified by the board that under Section 1455 it declines to receive the same

1458 Whenever funds or other property are distributable to the State under Sections 1027 or 1144 of the Probate Code or are subject to payment and delivery to the board under Sections 738, 1147 1, 1147 2, 1148, or 1148 1 of the Probate Code, any person transmitting such property to the board shall, at the time of such transmittal, furnish written notice thereof to the board, setting forth the name of the decedent, the county and court in which probate proceedings were held, the number of the proceeding, the amount of funds transmitted, the nature and description of the personal property other than funds transmitted, the name and last known address of the person, if any, entitled to such funds or other property or for whose benefit the same are transmitted, a reference to the specific statutory provision under which such funds or other property are transmitted, the date the same were presumed abandoned, and such other identifying information available from the records of the person making such transmittal as the board by rules and regulations may require The person transmitting such money or other property to the board shall, at the time of such transmittal, furnish to the board a certified copy of each court order or decree, and of each court order correcting or amending the same, covering such funds or other property.

1470. (1) Except as provided in paragraph (2) all property received under this act is subject to claim and recovery by the owner within five years following the date upon which the same is presumed abandoned under Section 1450 or under any other provision of law, except property received·

Prior to the effective date of this act, and which was the subject of proceedings for escheat by judicial determination or notice and publication commenced prior to that date under any provision of law, in which event it shall be claimed within five years after the date of entry of judgment in any such proceeding or within five years after completion of notice by publication.

Prior to the effective date of this act and concerning which no proceeding for escheat by judicial determination or notice by publication was commenced prior to such date, and the time for claim of which is not otherwise limited by any provision of law, in which event it shall be claimed within five years from the completion of notice by publication in any proceeding commenced pursuant to Section 1580.

(2) Whenever property is claimed by a nonresident alien under the laws of succession, such claim shall be made within five years of the date of succession.

(3) All persons who fail to claim their property within the time limited are forever barred and such property shall be deemed abandoned and fully escheated to the State for its uses under Section 4 of Article IX of the State Constitution. The board shall be without power to consider or determine claims thereafter made; provided that, subject to paragraph (2), infants and persons of unsound mind shall have the right to file their petition and claim their property at any time within the time limited, or within one year after their respective disabilities cease; but it shall be presumed that there are no such infants or persons of unsound mind who are or will be entitled to claim such property unless and until they appear and claim such property as provided in this act; provided, however, such presumption shall be conclusive in favor of any purchaser in good faith and for a valuable consideration from the board and everyone subsequently claiming under him, saving however, to infants and persons of unsound mind the right of recourse to the proceeds of any sale or other disposition of any such property

1471. Whenever funds or other property have been erroneously delivered to the board by any person, the board shall, if satisfied that such error existed, refund any money and return any property without deduction of service charge under Section 1543

If the petition includes a claim to real property or any interest therein, the petitioner shall record in the office of the county recorder of the county in which the real property is situated, a notice of the pendency of the petition before the board containing the object of the petition and a description of the property. From the time of filing such notice for record only, shall a purchaser or encumbrancer of the property be deemed to have constructive notice of the pendency of the petition, and only of its pendency against parties designated by their true names.

1474. Except with respect to a decedent's estate, facts showing any present legal disability of the person for whom petitioner acts;

Facts required to be stated under Sections 1475, 1476, 1477 or 1478, as the case may be, as though the petition were filed by a decedent during his lifetime or by the person for whom petitioner acts.

(2) If the petition is filed by a representative of the estate of a deceased person, no recovery shall be had unless the property is subject to disposition by will admitted to probate and petitioner knows the identity and whereabouts of the person entitled to take thereunder or unless there is an heir whose existence and whereabouts is known to petitioner; provided, that if there are creditors of the estate whose claims have been approved, so much of the property may be recovered by petitioner as will satisfy such claims and the cost of administration

(3) If the person for whom petitioner acts is capable of verifying the petition, he shall do so; otherwise the petition shall state the fact of present disability and verification shall be made by petitioner on information and belief except as to matters which the petitioner knows to be true, which facts shall be so affirmed

1480. If the petition is filed by a claimant as successor in interest to any person whose claim is subject to the preceding sections in this chapter, or as a person otherwise entitled, it shall state:

Whether the claim is based on law or contract and the full facts, including dates, relating thereto;

Facts required to be stated of the person through whom petitioner immediately claims, as though the petition were filed by that person;

Facts showing petitioner's present right to the property

1481. (1) Whenever the contents of a box or repository are claimed in any petition filed by other than the record owner and such property includes a document purporting to be testamentary in character and to have been made by the record owner, the Attorney General subject to paragraph (7) shall advise the board whether it is reasonable to believe such document might be legally sufficient to be admitted to probate under the laws of this State or under the laws of any state in which, according to the purported will, the maker may have had an interest in real property If the Attorney General advises affirmatively the board shall mail notice of purported will to the public administrator in the appropriate county of this or such other state, accompanied by a copy of the purported will, and if known, the full name of the record owner, all other names known to have been used by him and his last known address; an inventory of the property; the name and address of claimant and date the petition was filed, and the citation to this section and act. The board shall give similar notice and furnish similar copies of documents and information to each person whose address is known and who is named in the purported will with respect to the property or as representative of the estate. The board shall not consider the claim within 90 days after the date the petition is filed

(2) If, within said 90 days, a public administrator advises the board of his desire or if such officer is directed to commence administration proceedings, or if any other person commences the same within such time and proper proof thereof is furnished the board, it shall reject the claim and the property shall only be subject to claim of a representative as provided in this chapter.

(3) If, consistent with paragraph (1), the Attorney General advises affirmatively but by reason of former administration and distribution or for other reasons administration proceedings are not commenced within said 90 days, and if within such time the claim of any such petitioner is opposed by written demand for the property filed with the board by any person who is named in the purported will with respect to the property and who bases his claim thereon, the board shall after notice and demand reject such claim unless all claimants and their opponents define the extent of their respective interests and conclusively agree thereto by written stipulation filed with the board and unless they appear by petition as provided in this chapter If a claim is rejected under this paragraph, no petition thereafter filed with respect to the property shall be considered by the board unless there are also filed with the board all documents required to prevent rejection under this paragraph.

(4) In the event of rejection under paragraph (3) any person claiming an interest in the property may bring an action under Section 1571.

(5) Whether, consistent with paragraph (1) the Attorney General advises affirmatively or negatively, and if, consistent with paragraph (2), no administration proceedings are commenced and if the claim of petitioner is not opposed as provided in paragraph (3) and if such claim is based upon such purported will the board shall reject the claim without prejudice unless it determines that petitioner would be entitled to recover the property in the absence of such will or unless petitioner's right under such will is established by final judgment or decree of a proper court.

(6) If, consistent with paragraph (1), the Attorney General advises negatively, and if the petition of claimant is not based upon the purported will, the board shall consider the petition without regard to such will but shall make no determination within 60 days after the date the petition is filed. If such will is admitted to probate and proper proof thereof is furnished the board within said 60 days any such petition shall be rejected without prejudice notwithstanding it may have been previously considered, and the property shall only be subject to claim of a representative as provided in this chapter.

(7) If the board determines that the total value of property is insufficient to warrant administration proceedings it need not comply with so much of paragraph (1) as relates to a public administrator, in which event similar provisions of paragraph (2) shall not apply to the board or to any claim.

CHAPTER 10 PROCEEDINGS ON PETITION

1510. The board may decline to consider any claim and may reject the same without prejudice by mailing or delivering to the claimant a notice of rejection under this section and by returning the petition any accompanying proof, and any filing fee paid by such claimant Any claimant aggrieved thereby may bring an action under Section 1571

1511. The board may consider any petition ex parte or may order a hearing thereon, and a hearing shall be had upon the request of a claimant or in the event of contest When more than one petition is filed with the board all petitions shall be consolidated for hearing. A hearing officer qualified under Section 11502 of the Government Code shall preside at any hearing and the same shall be conducted pursuant to the provisions of this chapter. Continuances may be granted but only by the hearing officer and for good cause shown. Any board member or his acting

nominee, or the hearing officer, may administer oaths and affirmations and certify to official acts The proceedings at a hearing shall be reported by a phonographic reporter and the services of such reporter and the hearing officer shall be a charge against the board.

1512 The board shall determine whether the hearing officer is to hear the petition alone or with the board. When the board hears the petition the hearing officer shall preside, rule on the admission and exclusion of proof, and advise the board on matters of law; the board shall exercise all other powers relating to the conduct of the hearing but may delegate any or all of them to the hearing officer. When the hearing officer alone hears a petition he shall exercise all powers relating to the conduct of the hearing.

1513. (1) If the petition is heard by the board, the hearing officer who presided at the hearing shall be present during consideration and shall assist and advise the board. Where the petition is heard by the board, no member or acting nominee who did not hear the evidence shall participate in the consideration or determination.

(2) If a petition is heard by a hearing officer alone, he shall prepare a proposed determination in such form that it may be adopted as the resolution of the board, and the board may adopt same.

(3) If the proposed determination is not adopted as provided in paragraph (2), the board may determine the petition on the record, including the transcript, with or without taking additional evidence, or may refer the matter to the same or another hearing officer to take additional evidence. If the matter is so assigned to a hearing officer he shall prepare a proposed determination as provided in paragraph (2) upon the additional evidence and the transcript and other papers which are part of the record of the prior hearing The board shall make no determination under this paragraph without affording a claimant an opportunity upon reasonable notice to present either oral or written argument before the board If additional oral argument is introduced before the board no member may participate in the determination unless he heard the same.

1514. In considering a petition under Section 1540 the board may accept the accompanying documentary proof and a determination may be made upon such proof if its content when reported personally would be in the nature of direct evidence and of such character that responsible persons are accustomed to rely upon it in the conduct of serious affairs; provided, that a determination shall not be made upon such proof if its content when reported personally would be in the nature of hearsay evidence unless it would be admissible over objection in civil actions, but such proof may be accepted to supplement or explain proof upon which a determination may be made.

1515. At any hearing oral evidence shall be taken only on oath or affirmation A claimant shall have the right to call and examine witnesses, to introduce exhibits, to cross-examine opposing claimants or witnesses on any matter relevant to the issue although that matter may not have been covered in the direct examination, to impeach any witness, and to rebut the evidence against him A claimant may be called by the board or any opposing claimant and examined as if under cross-examination

The hearing shall not be conducted according to technical rules relating to evidence and witnesses. Any relevant evidence shall be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions. Hearsay evidence may be used for the purpose of supplementing or explaining any direct evidence but shall not be sufficient in itself to support a finding unless it would be admissible over objection in civil actions, and irrelevant and unduly repetitious evidence shall be excluded.

1516. (1) In a contested matter, at any time 10 or more days prior to a hearing or a continued hearing, any claimant may mail or deliver to an opposing claimant a copy of any affidavit which he proposes to introduce in evidence, together with a notice as provided in paragraph (3).

(2) Unless the opposing claimant, within seven days after such mailing or delivery, mails or delivers to the claimant a request to cross-examine an affiant, his right to cross-examine such affiant is waived and the affidavit, if introduced in evidence, shall be given the same effect as if the affiant had testified orally. If an opportunity to cross-examine an affiant is not afforded after request therefor is made as herein provided, the affidavit may be introduced in evidence, but shall be given only the same effect as other hearsay evidence

(3) The notice referred to in paragraph (1) shall be substantially in the following form

The accompanying affidavit of (insert name of affiant) will be introduced as evidence at the hearing on the petition of (insert name of claimant). (Insert name of affiant) will not be called to testify orally and you will not be entitled to question him unless you notify (insert name of claimant or his attorney) at (insert address) that you wish to cross-examine him. To be effective your request must be mailed or delivered to (insert name of claimant or his attorney) on or before (insert a date

seven days after the date of mailing or delivering the affidavit to the opposing claimant)

1517. On the verified request of any claimant, the board may order that the testimony of any material witness residing within or without the State be taken by deposition in the manner prescribed by law for depositions in civil actions The request shall set forth the nature of the pending petition; the name and address of the witness whose testimony is desired; a showing of the materiality of his testimony, a showing that the witness will be unable or can not be compelled to attend; and shall seek an order requiring the witness to appear and testify before an officer named in the request for that purpose. If the witness resides outside the State and the board orders the taking of his testimony by deposition, the board shall obtain an order of court to that effect by filing a petition therefor in the Superior Court in Sacramento County. The proceedings thereon shall be in accordance with the provisions of Section 11189 of the Government Code.

1518. (1) Before a hearing commences the board shall issue subpenas and subpenas duces tecum at the request of any claimant in accordance with the provisions of Section 1985. After a hearing commences the board itself hearing a case or a hearing officer sitting alone may issue subpenas and subpenas duces tecum

(2) The process issued pursuant to paragraph (1) shall extend to all parts of the State and shall be served in accordance with the provisions of Sections 1987 and 1988. No witness shall be obliged to attend at a place out of the county in which he resides unless the distance be less than 100 miles from his place of residence, except that the board, upon affidavit of any claimant showing that the testimony of such witness is material and necessary, may indorse on the subpena an order requiring the attendance of such witness

(3) All witnesses appearing pursuant to subpena, other than the claimants or officers or employees of the State, shall receive fees, and all witnesses appearing pursuant to subpena, except the claimants, shall receive mileage in the same amount and under the same circumstances as prescribed by law for witnesses in civil actions in a superior court Witnesses appearing pursuant to subpena, except the claimants, who attend hearings at points so far removed from their residences as to prohibit return thereto from day to day shall be entitled, in addition to fees and mileage, to a per diem compensation of three dollars ($3) for expenses of subsistence for each day of actual attendance and for each day necessarily occupied in traveling to and from a hearing. Fees, mileage and expenses of subsistence shall be paid by the claimant at whose request the witness is subpenaed

1519. If any person in proceedings before the board or a hearing officer disobeys or resists any lawful order or refuses to respond to a subpena, or refuses to take the oath or affirmation as a witness or thereafter refuses to be examined, or is guilty of misconduct during a hearing or so near the place thereof as to obstruct the proceeding, the board shal. certify the facts to the superior court in and for the county where the proceedings are held. The court shall thereupon issue an order directing the person to appear before the court and show cause why he should not be punished as for contempt. The order and a copy of the certified statement shall be served on the person and the court shall thereafter have jurisdiction of the matter. The same proceedings shall be had, the same penalties may be imposed and the person charged may purge himself of the contempt in the same way, as in the case of a person who has committed a contempt in the trial of a civil action before a superior court.

CHAPTER 11. DETERMINATION BY BOARD

1540. Subject to Section 1481, whenever a petition for recovery of property and accompanying proof is filed with the board and no other person opposes such claim, the board may consider the petition and proof ex parte and if satisfied that petitioner is entitled to recover all or a portion of the property the board shall by resolution so determine and approve the claim subject to Section 1544. If the board determines that additional documentary proof is necessary to establish claimant's right, it may request such proof by written notice designating the matters to be proved Any such request shall advise that if the additional proof is not received within 30 days, or within any further time the board may grant upon claimant's written application therefor, the board shall proceed to determine claimant's right upon the proof submitted. The determination shall conform to Sections 1541 and 1544 except that findings shall not be prepared if an entire claim is approved ex parte. No claim shall be wholly or partially rejected ex parte unless the claimant upon reasonable notice is afforded an opportunity for hearing and declines or fails to appear, in which event the board shall adopt a resolution containing findings of fact and a rejection of claim.

1541. Subject to Section 1540, the determination shall be by resolution and shall describe or refer to the property, contain findings, and an entire or partial approval or rejection of claim, as the case may be, and shall conform to Section 1544. If a claim is entirely or partially approved the resolution shall separately describe or refer to the property subject to delivery. Findings or a description of or reference to the property may be stated in the language of the petition or by reference thereto.

A determination shall become effective 30 days following the date of resolution unless the board orders a reconsideration within such time. Copies of the resolution shall be mailed to the claimants and their attorneys.

The determination of the board shall be subject to judicial review under Section 1570.

1542. Whenever a claim concerns real property, or the proceeds thereof, distributed to the State the board shall furnish a description of such property to the redemption officer of any interested taxing agency and such officer shall thereupon certify to the board the amount of any taxes or other sums due under Section 4986.5 of the Revenue and Taxation Code.

1543. There shall be deducted by the board from the amount of any approved claim 3 percent of the total amount of such claim, but in no event less than ten dollars ($10), as a service charge for the receipt, accounting, and management of the funds or other property claimed, and for processing the claim filed to recover the same. The amount of any service charge shall be subject to the provisions of Section 1564 with the same force and effect as if said amount had been paid to the claimant from whose claim such service charge was deducted.

1544. Before approving any claim, whether ex parte or following hearing, the board shall ascertain and determine, under Section 14516 of the Revenue and Taxation Code, the total amount of any tax due and payable to the State; the total sum of any tax or other amounts subject to payment under Section 4986.5 of the Revenue and Taxation Code; the total amount of any expenditures made by the board under Section 1374 on behalf of the property, and the total amount of service charge under Section 1543. Every resolution approving a claim shall separately identify and state each of such total amounts, and if:

(1) The property consists of funds sufficient to satisfy such taxes, expenditures, and charge, a sufficient sum shall be withheld for such purposes and the balance of such funds and any other property shall be subject to delivery and the resolution shall so state.

(2) The property includes funds insufficient for such purposes, such funds shall be withheld for the account thereof, and the remainder of such property shall be subject to delivery contingent upon receipt by the board of funds required to fully satisfy such taxes, expenditures and charge, and the resolution shall so state.

(3) The property does not consist of funds, the same shall be subject to delivery contingent upon receipt by the board of funds sufficient to satisfy such taxes, expenditures, and charge, and the resolution shall so state.

1545. The board may order a reconsideration of all or part of the petition on its own motion or on the request of any claimant The power to order a reconsideration shall expire on the effective date of the determination. If no action is taken on a request within the time allowed for ordering reconsideration the request shall be deemed denied.

The petition may be reconsidered by the board on all the pertinent parts of the record and such additional proof and argument as may be permitted, or may be assigned to a hearing officer. A reconsideration assigned to a hearing officer shall be subject to the procedure provided in Section 1513. If oral evidence is introduced before the board no member may participate in the determination unless he heard the same.

CHAPTER 12. PAYMENT AND DELIVERY

1560. (1) Subject to paragraph (3) not less than 45 days after the effective date of any resolution approving a claim for property the delivery of which is contingent upon receipt of funds by the board, unless judicial review thereof is sought, or whenever the board receives certified copies of findings and judgment ordering delivery of property contingent upon the board's receipt of funds, the board shall notify the person entitled to such property that the same will be delivered upon receipt of such funds, stating the amount, and the board shall deliver such property when such funds are received by it.

(2) If any funds are received under paragraph (1) for the account of a taxing agency interested under Section 4986.5 of the Revenue and Taxation Code, the board shall prepare and present to the Controller its claim which shall state the name of the taxing agency entitled to payment and the total amount of funds payable to such agency. The claim shall be accompanied by a certificate of the redemption officer of such agency, which certificate shall be deemed a voucher against which the Controller shall draw his warrant on the Treasurer against funds in the Abandoned Property Fund in the amount subject to payment and to the order of the agency thereto entitled.

(3) If an entire claim is approved and there is no opposing claimant, the board may act under paragraph (1) at any time after the date the resolution becomes effective, and the board may so act if a claim is partially approved and all claimants file with the board a notice of waiver of judicial review.

1561. (1) Subject to paragraph (3), not less than 45 days after the effective date of any resolution conforming to paragraph (1) of Section 1544, unless judicial review thereof is sought, or whenever the board receives certified copies of findings and judgment conforming to paragraph (2) of Section 1571, the board shall prepare and present to the Controller its claim which shall state the name of the

person entitled to payment of funds and the total amount thereof. The claim shall be accompanied by a certified copy of such resolution or findings and judgment, which shall be deemed a voucher against which the Controller shall draw his warrant on the Treasurer against funds in the Abandoned Property Fund in the amount subject to payment and to the order of the person entitled.

(2) If the resolution or findings and judgment mentioned in paragraph (1) concerns real property or its proceeds to which the claimant is entitled and against which taxes or other amounts are due under Section 4986.5 of the Revenue and Taxation Code the claim of the board shall also separately state the name of the taxing agency entitled to payment and the total sum of such taxes or other amounts. Such claim shall also be accompanied by a certificate of the redemption officer of the taxing agency, which certificate shall be deemed a voucher against which the Controller shall draw his warrant on the Treasurer, against funds in the Abandoned Property Fund, to the order of such taxing agency in a sum equal to such taxes or other amounts.

(3) If an entire claim is approved and there is no opposing claimant, the board may act under paragraph (1) at any time after the date the resolution becomes effective, and the board may so act if a claim is partially approved and all claimants file with the board a waiver of judicial review.

1562. Any warrant drawn under Sections 1560 or 1561 shall be transmitted by the Controller to the board and such warrant, together with any other recoverable property, shall be delivered by the board to the person entitled.

1563. Whenever the Controller receives from the board a resolution or findings and judgment conforming to paragraph (1) of Section 1561 he shall order transferred from the Abandoned Property Fund to the General Fund a sum equal to:

The total amount stated in such resolution or findings and judgment to be due the State for inheritance taxes; and

The total amount stated in such resolution or findings and judgment to be due as a service charge, which sum shall be credited to the current appropriation for support of the board.

1564. When payment or delivery of funds or other property has been made to any claimant under the provisions of this act, no action shall thereafter be maintained by any other claimant against the State, or any officer thereof, or the board for or on account of such property.

CHAPTER 13. PROCEEDING OR ACTION AT LAW

1570. Any claimant affected by an adverse determination under Section 1541 may seek judicial review by filing a petition for writ of mandate in accordance with the provisions of the Code of Civil Procedure, and the resolution of the board shall be deemed an order or decision for such purposes; provided that no adverse determination under Section 1540 shall be subject to judicial review unless reconsideration was requested. Any such petition shall be filed within 40 days after the last day on which reconsideration can be ordered and a copy thereof shall be served upon the board and the Attorney General within 10 days after the date of filing. No petition for judicial review shall concern evidence which in the exercise of reasonable diligence could have been presented to the board at the time of hearing or within the time allowed for any reconsideration, and such petition shall affirm and show that such additional evidence could not have been so produced if the claimant intends to rely thereon. The complete record of the proceedings, or such parts thereof as are designated by the claimant and agreed upon by the board shall be prepared by the board and delivered to claimant, within 20 days after a request therefor by him, upon the payment of the fee now or hereafter provided in Section 69950 of the Government Code for the transcript, the cost of preparation of other portions of the record and for certification thereof. The complete record includes the petition, all notices and orders issued by the board, the resolution of the board, any request for reconsideration and resolution thereon, a transcript of all proceedings, the exhibits admitted or rejected, the written evidence and any other papers. The board may file with the court the original of any document in the record in lieu of a copy thereof.

1571. (1) Any action under paragraph (4) of Section 1481 or any action under Section 1510 shall be brought to determine plaintiff's right to possession of the property. The action shall be commenced in the superior court, subject to Section 401, within the time limited for filing claims with the board under Section 1470; provided that if such claim is rejected by the board within 30 days of the limited time for filing a petition under said section such action may be filed within 30 days after such rejection.

The complaint shall be verified, shall allege facts required to be stated in a petition filed under Chapter 9, and shall contain a description of or reference to the property sufficient to enable the board to identify it with certainty. The board shall be named as a defendant in any such action and if brought under paragraph (4) of Section 1481 all other claimants shall also be named as defendants. Within 10 days after the date an action is commenced, all defendants named therein shall be

served with copies of summons and complaint and such service shall also be made upon the Attorney General. The board, through the Attorney General, may make any motions with respect to the action, may appear and answer the complaint, or may elect to submit the claim upon the complaint and any evidence to be offered in support thereof. At any time prior to trial of the action any interested person may appear and answer the complaint as though named and served as a defendant, and may assert an interest in the property by alleging facts required to be stated in a petition filed under Chapter 9. In the event of any such answer the action, if set, shall be removed from the trial calendar and thereafter reset for trial at a later date upon written notice to all interested persons. Within 10 days after filing, copies of such answer shall be served upon the plaintiff, all defendants, and upon the Attorney General. Within the time to respond to complaint, or within any extension thereof, the board shall certify to the court the total amount of funds held for the person entitled and subject to the complaint, the total amount of any taxes or other amounts due under Section 4986.5 of the Revenue and Taxation Code; the total amount of any expenditures made by the board on behalf of the property; and the total amount of service charge, all of which amounts shall be separately identified and stated.

The court shall make combined findings and judgment in a single document. If the court determines that a claimant is entitled to possession of the property it shall make findings to that effect and shall refer to or describe the property subject to delivery. The findings shall separately identify and state the total amount of any inheritance taxes due under Section 14515 of the Revenue and Taxation Code, as that amount is found by the court; the total amount of any other taxes and amounts due; the total amount of any expenditures made on behalf of the property; and the total amount of service charge due, as those amounts are certified by the board.

(2) If the certificate of the board indicates that the property consists of funds sufficient to satisfy such amounts, the court shall find the amount of funds subject to delivery after deduction of funds sufficient for such purposes and the judgment shall order the board to deliver to the claimant, who shall be named, the amount of funds remaining after such deduction, which amount shall be stated, together with any other property to which the court finds the claimant entitled.

(3) If the certificate of the board indicates that the property includes funds insufficient for such purposes, the court shall find that such funds are not subject to delivery and the judgment shall order the board to deliver the remainder of such property to the named claimant contingent upon receipt by the board of funds, the amount of which shall be stated, sufficient to fully satisfy such taxes, expenditures, and charge.

(4) If the certificate of the board indicates that the property is other than funds, the court shall so find and the judgment shall order the board to deliver the same to the named claimant contingent upon receipt by the board of funds, the amount of which shall be stated, sufficient to fully satisfy such taxes, expenditures, and charge.

(5) When any judgment ordering the delivery of property becomes final the person in whose behalf the findings and judgment were made shall forward two certified copies thereof to the board. If the judgment conforms to paragraphs (3) or (4), such persons shall also forward to the board funds in the amount necessary to satisfy the condition for delivery of property.

1572. In any proceeding or action under Section 1570 or Section 1571, if the claim includes a claim to real property or any interest therein, the plaintiff shall record in the office of the county recorder of the county in which the real property is situated, a notice of the pendency of the action containing the object of the action and a description of the property. From the time of filing such notice for record only, shall a purchaser or encumbrancer of the property be deemed to have constructive notice of the pendency of the action, and only of its pendency against parties designated by their true names.

If the plaintiff fails to establish his right to property in any such proceeding or action the board shall recover its costs, but costs shall in no event be recovered against the board.

CHAPTER 14. PROCEDURE CONCERNING CERTAIN PROPERTY

1580. The board shall prepare a return listing all unclaimed money or other unclaimed property paid into the Treasury prior to the effective date of this act and concerning which no proceeding for escheat by judicial determination or notice by publication was commenced prior to such date and the time for claim of which was not otherwise limited by any provision of law. Such return and notice thereof shall be prepared in the manner hereinafter provided. The return shall list each item and show (1) the amount of any money and a description of any other property; (2) the name of the owner or claimant and his last known address; (3) the name and address of the person delivering the property to the State Treasury, if known, but where the property is received from an estate, only the name of the decedent together with the name of the county and the number of the proceeding need be given; and (4) such other information as the board may desire to include to assist in identifying each item.

When such return has been completed, the board shall prepare, date, and attach thereto a notice that the property listed in the return is subject to claim by an owner within the time limited by the Abandoned Property Act. Copies of such return and notice shall then be displayed and be open to public inspection during business hours in the office of the board and in at least three offices of the Controller, one in the City of Sacramento, one in the City and County of San Francisco, and one in the City of Los Angeles.

The board shall then cause notice to be given by publication in one newspaper of general circulation published in the City of Sacramento, and also by publication in one newspaper of general circulation published in the City and County of San Francisco, and also by publication in one newspaper of general circulation published in the City of Los Angeles, at least once each calendar week for four consecutive weeks, that said return and notice that the property listed in the return is subject to claim within a limited time has been prepared and is on display and open to public inspection during business hours, giving the addresses and room numbers of the locations where the same may be inspected.

In addition, the board shall cause notice to be given by publication, at least once each calendar week for four consecutive weeks, in one newspaper of general circulation published in the county from which the property was forwarded to the State Treasury, of each estate and item of property from such county in excess of three hundred dollars ($300) Such notice shall list each estate and item in excess of three hundred dollars ($300) and show (1) the amount of the property, if money, or a description thereof, if other than money; (2) the name of the owner or claimant and his last known address, if any; (3) such other information as the board may desire to include to assist in identifying each item

Such publication shall be made within 90 days after attaching the notice to the return Notice by such publication shall be deemed completed 120 days after attaching the notice to the return

Any claim for such property shall be made within the time limited by Section 1470

CHAPTER 15. FUNDS AND PROPERTY IN CUSTODY OF FEDERAL OFFICERS, AGENCIES, AND DEPARTMENTS

1590. Chapters 1 through 14 of this act shall not apply to a holder of funds or other personal property which are subject to the provisions of this chapter.

1591. It is the policy of this State and the purpose of this chapter to discover funds or other property in the possession or custody of federal officers, agencies, or departments, whether physically held in this State or elsewhere, which property was vested in and remains unclaimed by an owner who last resided or was dissolved in this State. It is the further policy of this State and purpose of this chapter to judicially determine the title to and right to possession of such property by proceeding against the same after reasonable notice to such owner and, in the event the State is found to be entitled by escheat under this chapter, to declare full ownership and right to possession in the State.

1592. The funds or other personal property subject to this chapter include, by way of illustration but not of limitation, outstanding liabilities represented by checks or warrants which were undelivered or not negotiated and, among other things, were tendered in payment for services or supplies, or under the social security laws, or as rebates on income tax payments; wages of deceased seamen; undistributed assets of bankrupts; condemnation awards and other unclaimed litigation deposits; deposits in the postal savings system; claims against the postal money order system; unclaimed or floating dividend checks and safe deposit box contents under the control of the Comptroller of the Currency; claims represented by the old matured debt, and subsequent obligations under the public debt.

1593. The Attorney General on behalf of the Abandoned Property Board shall endeavor to confer with officers of the United States or of any other state in an effort to establish ways and means whereby factual information relative to escheat may be ascertained by the United States and reported to the State

The State shall bear a proportionate share of the actual cost incurred by the United States in examining records to determine facts relative to escheat by the State. Such share shall be established by the Congress or, if not so established, shall be as the Attorney General and responsible officers of the United States may agree and the Abandoned Property Board may approve. The State's share of such costs shall only be paid from money in the Abandoned Property Fund, and then only to the extent that the total of all claims for such costs does not exceed, in any fiscal year, 50 percent of the value of money or other property received by the board under this chapter during the preceding fiscal year; provided, that there shall be no other limitation on the time when claims for such costs may be presented and paid.

1594 The State hereby undertakes to hold the United States harmless against any claim affected by a declaration of escheat under this chapter and consents to suit in the event an action or proceeding on any such claim is brought against the United States. The Attorney General shall intervene in any such action or proceeding, or shall appear and oppose the same in the event the State or the Abandoned Property Board is named or served therein.

1595. All money in the Abandoned Property Fund is hereby continuously appropriated to the board, without regard to fiscal years, for the following purposes:

(1) For payment of the State's proportionate share of costs, under Section 1593;

(2) For payment of all sums, including costs, found owing by the United States in a final judgment, decree, or order in any action or proceeding referred to in Section 1594.

1596. (1) Subject to paragraphs (2) and (3), all funds or other personal property in the possession or custody of any officer, department, or agency of the United States and unclaimed by the owner more than five years after the same were first payable, returnable, or demandable, are subject to Section 1597 if:

The owner had a vested right therein, and;

The records of the United States indicate that the owner was a resident of this State.

(2) All deposits in the postal savings system of the United States and unclaimed within the time established by the Congress, or if a time is not so established, which are unclaimed within 20 years after the last transaction concerning principal or interest are subject to Section 1597 if the depositor or owner was a resident of this State.

(3) *All funds represented by obligations under the public debt of the United* States and unclaimed within the time established by the Congress, or if a time is not so established, which are unclaimed within 40 years after the date of maturity or call for payment are subject to Section 1597 if the registered owner was a resident of this State.

1597. Whenever funds or other personal property are subject to the provisions of this section, it shall be presumed that the full interest therein was vested in an owner who:

Is now unknown and was so during the entire time within any relevant period mentioned in Section 1596;

Did not during his lifetime dispose of the whole or any portion of such interest;

Died possessing all of such interest, without leaving a will or heirs entitled to take under the laws of this State;

Was a resident of this State and under no legal or other disability at the time of his death.

If the owner of such funds or other personal property was a corporation, such presumptions shall apply to all stockholders and creditors thereof and it shall also be presumed that the corporation was dissolved and is no longer in existence, that its charter was forfeited, and that all such acts occurred within this State.

It shall be presumed that all funds or other personal property affected by this section are subject to escheat under this chapter.

1598. Whenever funds or other personal property are presumed to be subject to escheat under this chapter, the Attorney General shall commence a proceeding in the name of the State on the relation of the Abandoned Property Board in the Superior Court for the County of Sacramento seeking a declaration that all such funds and property and all interests therein have escheated and belong to the State; provided, that if funds or other personal property were originally subject to the jurisdiction of a district court of the United States within this State, such proceeding shall be commenced in the superior court of the county wherein such court sits. The proceeding shall be tried in the county in which it is commenced unless the court with the consent of the Attorney General orders a change of place of trial.

The proceedings shall be commenced by filing a petition naming as respondents all persons known to have been interested and "all persons unknown claiming any title or interest in or to the property described or referred to in the petition." If the records of the United States fail to disclose with reasonable certainty the identity or number of owners or claimants of specific funds or other personal property, or the extent of their interests therein, such persons may be designated and described as a class, to wit, as "all unknown owners or claimants to the fund or property _____," and, as the case may be, plaintiff shall therein identify and set forth the court actions or proceedings to the credit of which such funds or other property are held, or the accounts or other identifying references under which they are carried upon the records of the United States. The petition shall describe or refer to the property, and may include one or more items, as the Attorney General may be advised, without prejudice to his right to commence subsequent proceedings relating to other items not included. The petition shall also state the name of the owner and his last address as known or as presumed under Section 1306, and shall set forth the facts and circumstances by virtue of which it is claimed that such funds or property are subject to escheat. Any number of parties, whether they reside in the same or other counties, and any number of causes of action may be joined in the same proceeding and in the same petition without being separately stated. It shall be sufficient to allege that all of the parties named in the proceeding and all other claimants are subject to the presumptions under Section 1597 of the Abandoned Property Act.

A summons shall issue in such proceeding and the court shall order that it be published once each week for six consecutive weeks in a newspaper of general

circulation published in the county, which newspaper shall be designated by the court. A copy of the summons and petition shall be posted at the courthouse in the county where each defendant was last known or presumed to have had an address and three copies of summons and petition shall be delivered to the United States Attorney in the county where the proceeding is commenced. Service shall be deemed completed 60 days after the last date of publication. Any person thereby affected, whether or not named therein, shall have an additional 60 days within which to answer the petition. Thereafter, the rules of practice relating to civil causes shall apply to the proceeding and to any respondent. The answer shall be verified and shall set forth respondent's true name and address The answer shall also set forth in full detail respondent's claim of title and right to possession

When service of summons is completed, the court shall have full and complete jurisdiction over the property and the person of everyone having or claiming any interest therein, whether or not appearing in the cause, and shall have full and complete jurisdiction to hear and determine the issue and render an appropriate judgment

1599 The Attorney General shall as a matter of right be entitled to take by deposition before trial the testimony of any claimant, or any other person, firm or corporation, and to a discovery and inspection of any and all records and documents concerning the facts upon which a claim is based, the circumstances under which claimant became apprised of the existence of the claim, and any other matters material and necessary to determine validity of the claim.

1600. When the cause is tried, all of the presumptions set forth in Section 1597 shall obtain in favor of plaintiff and it shall also be presumed that all facts stated in the petition and necessary to constitute a cause of action under this chapter are true. In the absence of competent evidence to the contrary, offered by a respondent claiming an interest in specific funds or other personal property affected by any of such presumptions, the court shall find in accordance with such presumptions If it appears to the court that any person claiming an interest in funds or other personal property is or may be the owner and entitled to possession thereof, the court shall, upon the application of the Attorney General·

Order the proceeding with respect to items, or portions thereof, concerning which any claimants appear, to be severed into one or more separate proceedings, and allow all such proceedings to be tried separately;

Amend the proceeding by adding to the title thereof the true names of any claiming respondents;

Amend any proceeding from time to time in any just and equitable manner.

1601. If it appears to the court that funds or other personal property, or a portion thereof, are not subject to escheat, it shall make and enter separate findings of fact and conclusions of law and shall make and enter a judgment describing or referring to such funds or other personal property or portion thereof, dismissing the petition with respect thereto either on its merits or without prejudice to the filing of a subsequent petition.

If it appears that funds or other personal property or a portion thereof are escheatable the court shall make and enter separate findings of fact and conclusions of law and shall enter a judgment describing or referring to the funds or property *and declaring that the same have escheated to and are payable or deliverable to the* State as the owner The findings of any one such set of facts shall not be deemed inconsistent with any other such set of facts, and the court may find one or more such sets of facts.

1602 Whenever a judgment declaring the State to be the owner by escheat becomes final, such judgment shall be binding and conclusive upon all persons and shall have the force and effect of a judgment in rem

No costs shall be allowed in a proceeding under this chapter either for or against the State

1603. The Attorney General, in the name of the State on relation of the Abandoned Property Board, shall commence an action in an appropriate court of the United States to collect and receive all funds or other personal property to which the State is found entitled by declaration of escheat under this chapter; provided that, in lieu of such action, the Attorney General may pursue other appropriate means for such purposes.

1604. Whenever the board receives personal property affected by a final judgment declaring an escheat, such property shall be sold by the board under Chapter 3. The proceeds from sale, and all funds otherwise received by the board pursuant to this chapter, shall be remitted to the Treasurer for deposit in the School Land Fund

Mr. Bruce F. Allen asked for, and was granted, unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal:

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, April 11, 1957

Hon. Bruce F. Allen
Assembly Chamber

Fair Employment Practices—No. 10840

DEAR MR. ALLEN: In connection with Assembly Bill No. 2000, introduced at the current session of the Legislature, and as amended on April 3, 1957, you have asked for our opinion on four questions which we shall consider in series.

Question No. 1

Will violation of the provisions declaring certain practices to be "unlawful employment practices" constitute a misdemeanor?

Opinion No. 1

The violation of the specified practices would not constitute a misdemeanor.

Analysis No. 1

Assembly Bill No. 2000 would add provisions to the Labor Code to establish a Fair Employment Practices Commission to conduct investigations and hearings, issue orders, bring actions in the courts for injunctive relief, and otherwise administer provisions dealing with employment practices. The bill would set out a series of acts termed "unlawful employment practice," consisting of discriminatory conduct by employers, labor organizations, employment agencies, and others, with respect to the employment of persons, where the discrimination is based upon race, religion, color, national origin, or ancestry.

The listed practices are frequently referred to throughout the bill as "unlawful practices." The bill would add Section 1430 to the Labor Code, to make it a misdemeanor punishable by imprisonment in the county jail for up to six months or by fine not exceeding $500, or both, for any person to "wilfully resist, prevent, impede or interfere with any member of the commission or any of its agents or agencies in the performance of duties pursuant to this part, or who shall in any manner violate an order of the commission * * *."

It is apparent that Section 1430 would not make a misdemeanor of committing the so-called "unlawful acts," since by its terms it applies only to violation of orders of the commission or interference and other obstruction of the commission in the performance of its duties.

The use of the word "unlawful" in a statute generally does not of itself establish a crime. Section 15 of the Penal Code defines a crime as follows:

"15. A crime or public offense is an act committed or omitted in violation of a law forbidding or commanding it, and to which is annexed, upon conviction, either of the following punishments:

"1. Death;

"2. Imprisonment;

"3. Fine;

"4. Removal from office; or

"5. Disqualification to hold and enjoy any office of honor, trust or profit in this State."

Thus, to constitute a crime the offense prescribed must carry with it a penalty or punishment. No such punishment is specified for commission of the unlawful acts set out in Assembly Bill No. 2000, nor is there a general provision in the Labor Code to make all violations of its provisions not otherwise particularly provided for a crime.

For these reasons it is our opinion that the commission of the "unlawful acts" set out in Assembly Bill No. 2000 would not constitute a misdemeanor.

Question No 2

Will violation of the so-called "unlawful activities" be a basis for civil action for damages?

Opinion No. 2

The violation of these provisions would not in and of itself form the basis for a civil action for damages.

Analysis No. 2

The unlawful practices specified in Assembly Bill No. 2000 include discriminatory conduct by employers, labor organizations, employment agencies, and other groups and individuals, which would affect the employment of the persons discriminated against A specific remedy is provided aggrieved individuals, to be administered by a newly created agency empowered to investigate violations, hold hearings to be conducted pursuant to the Administrative Procedure Act, issue orders, and seek injunctive relief in the state courts.

The courts have, of course, traditionally refrained from interfering with the employer-employee relationship, and freedom to enter into or break employment contracts at the will of the parties has been the rule Although common law and statutory remedies have been developed with respect to contracts for unique personal services, and although remedies against third persons who cause a contracting party to break a contract do exist it seems clear that the rights and administrative remedies which would be created by Assembly Bill No. 2000 are entirely new.

It is well settled that where both a right and a corresponding remedy are given by statute, that remedy alone must be pursued (see

discussion 1 Cal. Jur. 2d 711, et seq.). Where a statute creates a new remedy for a previously existing right the new remedy will be deemed cumulative and either that remedy or the pre-existing remedies may be utilized by an aggrieved party (*County of Alameda* v. *Freitas*, 8 Cal. App. 2d 653; *Estate of Ward*, 127 Cal. App. 347 at 354; *People* v. *Craycroft*, 2 Cal. 243). On the other hand where a statute creates a new right but fails to prescribe a remedy, the courts may utilize an appropriate presently existing remedy to provide redress and this is particularly true of equitable remedies (see, for example, *City of Stockton* v. *Frisbie & Latta*, 93 C.A. 277, at 286).

It does not appear that Assembly Bill No. 2000 is intended to confer a general right of action for damages for harm suffered from commission of the specified unlawful acts. Since the rights created are new and a detailed procedure for their redress, including administrative action, judicial review of orders and decisions, and equitable remedies is provided, we do not believe that the courts would construe these rights as necessitating further remedy.

It is our opinion, therefore, that commission of the specified unlawful activities would not form the basis for a civil action for damages.

Question No. 3

Under Section 1430, which makes it a misdemeanor to violate a commission order, would a person be guilty if he continued to commit acts covered by the order while the order is under appeal?

Opinion No. 3

Whether continued acts in violation of a commission order under appeal would constitute a crime would depend upon whether a stay of the operation of the order, pursuant to subdivision (f) of Section 1094.5 of the Code of Civil Procedure, had been issued by the court to which the case was submitted for review.

Analysis No. 3

The commission would be empowered to issue orders to cease and desist from unlawful employment practices, and to provide affirmative relief in forms including hiring, reinstatement or upgrading of employees with or without back pay, and restoration to membership in a labor organization. Every such order would be subject to judicial review as provided by law.

The law governing the procedure for judicial review of the orders and decisions of the type of state-wide administrative agency which would be established by Assembly Bill No. 2000 would in most cases be the statutory provisions dealing with the writ of mandate (Sec. 1084, et seq., C.C.P.; see discussion 2 Cal. Jur. 2d 324). The use of the writ of mandate to review the orders and decisions of administrative agencies is expressly provided for by Section 1094.5 of the Code of Civil Procedure.

In connection with the status and effect of an administrative order or decision while it is being reviewed by the courts, subdivision (f) of Section 1094.5, provides as follows:

"(f) The court in which proceedings under this section are instituted may stay the operation of the administrative order or decision pending the judgment of the court, or until the filing of a notice of

appeal from the judgment or until the expiration of the time for filing such notice whichever occurs first; provided that no such stay shall be imposed or continued if the court is satisfied that it is against the public interest. If an appeal is taken from a denial of the writ, the order or decision of the agency shall not be stayed except upon the order of the court to which such appeal is taken; provided that, in cases where a stay is in effect at the time of filing the notice of appeal, such stay shall be continued by operation of law for a period of twenty (20) days from the filing of such notice. If an appeal is taken from the granting of the writ, the order or decision of the agency is stayed pending the determination of the appeal unless the court to which such appeal is taken shall otherwise order. Where any final administrative order or decision is the subject of proceedings under this section, if the petition shall have been filed while the penalty imposed is in full force and effect the determination shall not be considered to have become moot in cases where the penalty imposed by the administrative agency has been completed or complied with during the pendency of such proceedings."

Under this subdivision, the court in which an order or decision is being reviewed may stay operation of the order or decision if satisfied that such a stay will not be against the public interest. The court may so stay the operation of the order or decision until a judgment is issued, or until a notice of appeal is filed or the time for filing such notice expires, whichever first occurs. If the court enters judgment denying the writ of mandate, any stay must be obtained from the court to which the decision is appealed, except that any stay in effect at the time of filing the notice of appeal will be automatically continued for twenty (20) days. If the trial court grants the writ of mandate, the operation of the administrative order or decision is stayed pending final outcome of any appeal.

It is our opinion that the status and effect of the commission's orders under judicial review would be determined by whether or not a stay of operation has been obtained pursuant to this provision. The granting of the stay is, of course, largely discretionary with the trial court and will depend upon the facts in each case. If a stay were granted the continued commission of the acts during the period of the stay would not be a misdemeanor. If no stay were obtained the order or decision would be in effect and commission of the prohibited acts would constitute a crime.

We have not completed our research on your question which asks whether in considering final orders or decisions of the commission the courts would apply the "substantial evidence" rule or the "weight of evidence" rule. We hope to have our research completed on Monday.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

May the example of Jesus of Nazareth show us the way to triumphant living. Grant that we may be given grace and strength to follow in His steps, and that His humility, self-sacrifice, and limitless love may ever draw us onward and upward; through the same Jesus Christ, Thy Son, our Lord.—AMEN.

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL

Hon. Bruce F. Allen

Fair Employment Practices—No. 11052

DEAR MR. ALLEN:

Question

In connection with Assembly Bill No. 2000, as amended on April 10, 1957, you ask whether the courts, in reviewing the orders and decisions of the Fair Employment Practices Commission which would be created

by the bill, would apply the "substantial evidence" rule or some other rule.

Opinion

The courts would not restrict the scope of their inquiry into the orders and decisions to the substantial evidence rule, but would make a more comprehensive inquiry and exercise independent judgment on the evidence.

Analysis

The so-called "substantial evidence" rule is one of the rules applied by courts to fix the scope of the review to be given the orders and decisions of various administrative and other bodies. These tests generally go to the degree of proof necessary in the administrative tribunal's record to justify the court in upholding the agency's decision.

In connection with the judicial review of the decisions of administrative agencies under Section 1094 5 of the Code of Civil Procedure, subdivision (c) of that section provides:

> "Where it is claimed that the findings are not supported by the evidence, in cases in which the court is authorized by law to exercise its independent judgment on the evidence, abuse of discretion is established if the court determines that the findings are not supported by the weight of the evidence; and in all other cases abuse of discretion is established if the court determines that the findings are not supported by substantial evidence in the light of the whole record."

Under this provision the reviewing court may, in those cases where it is authorized to exercise its independent judgment on the evidence, test the agency's findings to determine whether they are supported by the weight of the evidence. That is, the court may make a comprehensive inquiry into the evidence in the administrative record to determine whether a preponderance of evidence is present in favor of the decision. In all other cases (i.e., cases in which the court is *not* authorized to exercise its independent judgment on the evidence) the court will examine the record to determine whether the administrative decision is supported by substantial evidence. The extent of the court's inquiry into the supporting evidence in the latter situation is, consequently, more limited since the examination will extend only to ascertaining whether substantial evidence exists in the record to support the decision.
