Recommendation of the Governor

In accordance with Article IV, Section 12(c), of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No. 1953

Governor's Office, Sacramento

PRAYER

The following prayer was offered by the Chaplain, Father Leo McAllister:

Father, We join with Your inspired writer in the Book of Wisdom by re-echoing these sentiments·

"Thou dost overlook men's sins, that they may repent,
For Thou lovest all things that exist,
and hast loathing for none of the things which Thou hast made,
for Thou wouldst not have made anything if Thou hadst hated it.

How would anything have endured if Thou hadst not willed it?
Or how would anything not called forth by Thee have
been preserved?
Thou sparest all things, for they are Thine, O Lord
who lovest the living" (Wis 11:23–26)—AMEN.

14092 5 The total market value of the State Teachers' Retirement Fund's securities shall be established as of the close of business on June 30, 1973. The accrued income on the securities at June 30, 1973, cash on hand, the investment principal in course of collection, and the members' contributions receivable shall be added to the total market value of securities and, after deducting interest and principal collected in advance and retirement claims payable filed, this amount shall be divided by the total of member contribution reserves plus reserves for retirement annuities, death annuities, and survivor benefits The quotient thus obtained, computed to eight places past the decimal, shall be divided into the total of the cash, market values of the securities in kind which are to be transferred, established as of the close of business on June 30, 1973, and any accrued income thereon, to provide the values of the Los Angeles Community College District's assets for transfer. Accrued income properly computed shall include any delinquent interest at the face rate on any item which, while in default, is guaranteed or insured by an agency of the United States government Values established in accordance with the procedures specified in this section shall be obtained and approved by each board, which may obtain the assistance of other parties and may, if it so desires, agree to binding valuations by a mutually agreed upon independent party.

Either the Los Angeles Community College District or the Teachers' Retirement Board may reject specific securities for transfer and recommend alternative selections Selection of securities to be transferred in kind shall not be made in a manner adverse to the Teachers' Retirement Fund. While a proportionate division of each holding shall not be required, the State Teachers' Retirement System shall be entitled to a division of the community college district system's securities distributed between nonconvertible fixed income investments, equities, and securities convertible into equities in the proportion the book value of such security groupings bears to the total value of the community college district system's portfolio as of June 30, 1973. SEC. 4. Section 14093 5 is added to the Education Code, to read:

14093 5 To mitigate the possibility of conflicts arising because of changing market valuations over time, the transfer shall be effected as soon as possible. To this end, a partial transfer consisting of cash or securities in kind, which are valued at market plus accrued income equivalent to 90 percent of the estimated value of the annuity savings (active member accumulated contributions) shown on the community college district system's records, or both such cash and securities, shall be made as soon after June 30, 1973, as possible, with a subsequent adjustment in its valuation amount effected as soon as the aforementioned valuation quotient is computed. A decision as to which stocks shall be eligible for transfer must be agreed upon by both parties prior to the valuation date to avoid any possible inequity For the total of the common and preferred stocks to be transferred, any change in the market value between the valuation date and the actual date of transfer shall bear a close relationship to the change in the Standard & Poor's Composite Stock Index of 500 companies between the same dates.

SEC. 5. Section 14094 is added to the Education Code, to read:

SEC. 7. Section 14095 is added to the Education Code, to read:

14095. If the Los Angeles Community College District's assets contributed are recorded in the State Teachers' Retirement System's accounts at a total amount different than the total member annuity savings (active member accumulated contributions) and present value of retired roll being financed from local system reserves transferred to the State Teachers' Retirement System, the difference shall be recorded in the State Teachers' Retirement System's account as a deferred item which shall be amortized over a 25-year period

Gasoline Price Indications—#12942

Dear Mr. Deddeh · You have directed our attention to Chapter 1400 of the 1971 Statutes, to become operative July 1, 1972, which will, among other things, delete the sales and use tax exemption for motor vehicle gasoline, and have asked the question stated and considered below relating to gasoline price indications and sales tax.

Question

Do the provisions of Sections 20820, 20826, and 20880 of the Business and Professions Code, taken together, either permit or require a motor vehicle gasoline retailer to include, in the respective price indications specified in such provisions, amounts to be collected in reimbursement of sales tax?

Opinion

The provisions of Sections 20820, 20826, and 20880 of the Business and Professions Code, taken together, permit, but do not require, a motor vehicle gasoline retailer to include, in the respective price indications specified in such provisions, amounts to be collected in reimbursement of sales tax.

Analysis

Sections 20820 and 20826 of the Business and Professions Code are part of Article 5 (commencing with Section 20820) of Chapter 7 of Division 8 of that code, and regulate, among other things, price indications on retail gasoline dispensing apparatus. Section 20820 reads, in pertinent part, as follows ·

"20820 (a) No person shall sell, offer for sale, or advertise for sale, at retail to the general public, any gasoline or other motor vehicle fuel from any place of business in this state by use of or through or from any dispensing apparatus, unless there is displayed on such dispensing apparatus in a conspicuous place at least one sign showing the *actual total price per gallon* of, all gasoline or other motor vehicle fuel sold, offered for sale, or advertised for sale therefrom The *actual total price* per gallon *shall include fuel taxes and where sales tax is to be added the sign shall so state and show the rate and tax base*.

"(b) No person shall sell, offer for sale, or advertise for sale, at retail to the general public, any gasoline from any place of business in this state by use of or through or from any dispensing apparatus, unless there is displayed on such dispensing apparatus in a conspicuous place at least one sign showing the *actual total price per gallon* of, and the minimum octane number of, all gasoline sold, offered for sale, or advertised for sale therefrom The *actual total price* per gallon *shall include fuel taxes and where sales tax is to be added the sign shall so state and show the rate and tax base*.

* * *"

(Emphasis added)

Section 20826 reads as follows:

"20826 A price indicator used in connection with a computing meter pump or a pump designed to compute price fulfills the requirements of this article, provided, all letters, figures or numerals used to designate the *total fuel-tax-included price per gallon* are clear and distinct and so located as to be plainly discernible to the purchaser and, provided further, that *where sales tax is to be added* a sign so stating and designating the rate and tax base shall be conspicuously displayed on the dispensing apparatus" (Emphasis added.)

Section 20880 of the Business and Professions Code is part of Article 8 (commencing with Section 20880) of Chapter 7 of Division 8 of that code, and regulates, among other things, advertising media, such as signs, showing the retail price of gasoline Section 20880 contains the following pertinent provisions:

"20880. (a) Nothing in this article shall be construed to apply to the price signs referred to in Article 5 (commencing with Section 20820) of this chapter, provided, however, that any numerals designating the *net tax-included price per gallon* for a particular brand or trade name of gasoline or motor vehicle fuel permitted under the provisions of Article 5 (commencing with Section 20820) of this chapter, unless otherwise stated herein, shall be identical in numerical value with numerals designating the *net tax-included price per gallon* for the same brand or trade name of gasoline or other motor vehicle fuel permitted under the provisions of this article.

"(b) Nothing in this article shall be construed to apply to the price signs referred to in Article 5 (commencing with Section 20820) of this chapter, provided, however, that any numerals designating the *net tax-included price per gallon* and the minimum research octane number for a particular brand or trade name of gasoline permitted under the provisions of Article 5 (commencing with Section 20820) of this chapter, unless otherwise stated herein, shall be identical in numerical value with numerals designating the *net tax-included price per gallon* and the minimum research octane number for the same brand or trade name of gasoline permitted under the provisions of this article.

* * *

"(c) No person shall keep, maintain or display on or near the premises of any place of business in this state any advertising medium, which indicates or shows or advertises the price of gasoline or other motor vehicle fuel sold, offered for sale or advertised for sale from such premises, unless the *actual price per gallon* of gasoline or other motor vehicle fuel *including taxes* is also shown on such advertising medium, together with the word or words "gasoline" or "motor fuel" and the trade name or brand of the gasoline or other motor vehicle fuel product advertised for sale by such advertising medium

* * *" (Emphasis added)

Considering first Section 20820, we think that the provisions therein relating to "actual total price" specifically require that fuel taxes per gallon be included in such price The provisions do not, however, specifically include sales taxes, but require only that "where sales tax *is to be added* the sign shall so state and show the rate and tax base" (our emphasis) *

We think this conclusion is supported by Section 20826, which specifically refers first to a price indicator which designates "total fuel-tax-included price per gallon" and then specifically states that "where sales tax *is to be added* (our emphasis) a sign so stating . . . the rate and tax base" is required to be conspicuously displayed on the dispensing apparatus

The provisions of Section 20880 govern advertising media, such as gasoline price signs, other than price indicators on fuel dispensing apparatus However, as set forth above, subdivisions (a) and (b) of Section 20880 do require that the amounts shown on the apparatus price signs regulated by Section 20820 be identical in numerical value with the amounts shown on price signs regulated by Section 20880.

In this connection, subdivision (c) of Section 20880 requires advertising media such as price signs to show, among other things, the "actual price per gallon" of fuel "including taxes" Statutes on the same subject matter must be construed together in the light of each other so as to harmonize them (*Boyd* v *Huntington*, 215 Cal 473, 482). We think that if Sections 20820, 20826, and 20880 are so construed together, the "taxes" referred to in subdivision (c) of Section 20880 would necessarily include motor fuel taxes but would not necessarily include sales taxes Were it otherwise, that is, were the "taxes" referred to in Section 20880 to necessarily include sales taxes, the provisions of Sections 20820 and 20826 referring specifically to inclusion in price amounts only of "fuel taxes" would, because of the provisions of subdivisions (a) and (b) of Section 20880 requiring uniformity of numerical amounts on price signs, be in conflict with Section 20880

* In this connection, fuel taxes are imposed on the distributor of motor fuel (Sec. 7351, R & T C) but the amount of tax may be added to the selling price of the fuel, thus in effect permitting collecting the tax from the consumer (see *People* v *Ventura Refining Co*, 204 Cal 286, 294) Similarly, the sales tax is a tax on the seller, not the buyer, but may be collected by the retailer from the consumer (Sec 6052, R & T C), that is, the retailer may reimburse himself by collecting the amount of the tax from the consumer as part of the purchase price (*De Aryan* v *Akers*, 12 Cal 2d 781, cert den 84 L ed. 487).

We conclude, therefore, that the provisions of Sections 20820, 20826, and 20880, taken together, do not *require* that a motor vehicle gasoline retailer include in the respective price indications, on fuel dispensing apparatus and otherwise, amounts to be collected in reimbursement of sales tax.

On the other hand, we find nothing in any of the provisions in question which would *prohibit* a retailer from including such amounts in his price indications The fact of any such addition of sales tax would have to be noted on the dispensing apparatus, however, together with the rate and tax base (Secs. 20820, 20826, B & P C) and the numerical amounts shown on the apparatus and on other price indicators, such as signs, would have to be identical (Sec 20880, B & P.C.).

Very truly yours,

GEORGE H MURPHY

"SECTION 1 Section 1825 of the Welfare and Institutions Code is amended to read:

1825. (a) No county shall be entitled to receive any state funds provided by this article until its application is approved and unless and until the minimum standards prescribed by the Department of the Youth Authority are complied with and then only on such terms as are set forth hereafter in this section

(b) A commitment rate for each county and for the state as a whole shall be calculated by the Department of the Youth Authority by computing the ratio of new commitments to state and county population, expressed in a rate per 100,000 population, for each of the calendar years 1959 through 1963 The average of these rates for a county for the five-year period or the average of the last two years of the period, whichever is higher, shall be the base rate for that county, however, if the base rate *for those counties not utilizing Section 1825 7* is lower than 40 commitments per 100,000 population, the rate shall be established at 40, and if the rate is higher than 100, the rate shall be established at 100 The number of commitments shall be the total of the new commitments to the custody of the Director of the Youth Authority and the new criminal commitments to the custody of the Director of Corrections, as certified by the respective departments The county and state population shall be that certified by the Department of Finance to the Controller as of July 1 of each year Persons committed to the Department of Corrections and subsequently discharged

under Section 1168 of the Penal Code and persons committed to the Department of Corrections or the Department of the Youth Authority for diagnostic study only pursuant to Section 1203 03 of the Penal Code or Section 704 or 1752.1 of the Welfare and Institutions Code, shall not be counted as having been committed for purposes of determining commitment rates under this subdivision or subdivision (c).

(c) An annual commitment rate shall be calculated at the end of each fiscal year for each participating county and for the state as a whole in a like manner to that described in subdivision (b) using the population figure of the July 1 included in the year.

(d) The maximum amount that may be paid to a county pursuant to this article is determined by obtaining the interpolated dollar amount in the table in this subdivision for such county's base commitment rate and its percentage decrease, interpolated to the nearest one-tenth of 1 percent, in rate of commitment and multiplying the appropriate dollar amount by the "commitment reduction number" The "commitment reduction number" is obtained by subtracting (1) the most recent annual commitment number from (2) the product of the base commitment rate and population of the county for the same year employed in (1) The Director of the Youth Authority, with approval of the Director of Finance may annually adjust the dollar amounts in the ensuing table to reflect changes in cost to the state of maintaining persons committed to the custody of the Director of Corrections and the Director of the Youth Authority, and if such adjustments are made, the adjusted amounts shall be employed in making the computation prescribed by this subdivision

(e) The state will reimburse the county upon presentation of a valid claim based on actual performance in reducing the commitment rate from its base rate Whenever a claim made by a county, pursuant to this article, covering a prior fiscal year, is found to be in error, adjustment may be made on a current claim without the necessity of applying the adjustment to the allocation for the prior year.

(f) If the amount received by a county in reimbursement of its expenditures in a fiscal year is less than the maximum amount computed under subdivision (d), the difference may be used in the next two succeeding fiscal years and may be paid to the county in quarterly installments during such fiscal years upon preparation of valid claims for reimbursement of its quarterly expenses.

(g) In the event a participating county earns less than the sum paid in the previous year because of extremely unusual circumstances claimed by the county and verified by the Director of the Youth Authority with the approval of the Director of Finance, the Director of the Youth Authority may pay to the county a sum equal to the prior year's payment, provided, however, that in subsequent years the county will be paid only the amount earned

(2) Compute the 1972–73 foundation program support apportionments which would be made after increasing all foundation program factors by twenty dollars ($20 00) per unit of average daily attendance (making appropriate increases in the foundation programs prescribed for small schools and school districts to maintain the relationships prescribed by Article 2 (commencing with Section 17651) of Chapter 3 of Division 14 of the Education Code), and allow the amounts computed to each school district.

this amount to be expended pursuant to Section 17668 of the Education Code and in accordance with the following specifications:

(a) The Superintendent of Public Instruction shall compute the 1972–73 apportionment for supplemental support to elementary school districts and high school districts (Article 7.1 (commencing with Section 17920) of Chapter 3 of Division 14 of the Education Code) without regard to the appropriation in this item.

(1) For each elementary school district the Superintendent of Public Instruction shall determine that portion of the general fund tax rate of the district converted to the nearest cent which is in excess of one dollar ($1), exclusive of rates levied pursuant to Sections 1822.2, 1825, 16633, 16635, 16645.9, 19443, 19619, 20801, and 22101 of the Education Code, and not to exceed two dollars and twelve cents ($2.12).

(2) For each high school district, the Superintendent of Public Instruction shall determine that portion of the general fund tax rate of the district converted to the nearest cent which is in excess of eighty cents ($0.80), exclusive of rates levied pursuant to Sections 1822.2, 1825, 16633, 16635, 16645.9, 19443, 19619, 20801, and 22101 of the Education Code, and not to exceed sixty-five cents ($0.65).

(3) For elementary school districts: If the applicable tax rate of the district pursuant to Section 17921 of the Education Code equals or exceeds sixty cents ($0.60), he shall determine, for each unit of average daily attendance eligible for supplemental support, an amount equal to one dollar and twenty-five cents ($1.25) for each cent of such applicable rate. For such purposes, the applicable rate determined pursuant to Section 17921 shall be deemed to be no less than two dollars and twelve cents ($2.12); provided that, in no case shall the amount determined pursuant to this section shall be in excess of two hundred sixty-five dollars ($265) per pupil in average daily attendance.

(4) For high school districts: If the applicable tax rate of the district pursuant to Section 17922 of the Education Code equals or exceeds twenty cents ($0 20), he shall determine, for each unit of average daily attendance eligible for supplemental support, an amount equal to two dollars and forty cents ($2.40) for each cent of such applicable rate For such purposes, the applicable rate determined pursuant to Section 17922 shall be deemed to be no less than sixty-five cents ($0 65); provided that, in no case shall the amount determined pursuant to this section be in excess of one hundred fifty-six dollars ($156) per pupil in average daily attendance.

(c) He shall determine for each district the difference between the apportionments computed in subdivisions (a) and (b).

(d) He shall determine the total sum of the amounts computed for each district in subdivision (c). If such total sum is more or less than the amount appropriated by this item, the amount computed for each district shall be reduced or increased proportionately.

(e) He shall apportion the amounts computed in subdivision (c) to each district, as modified by the proportionate reduction or increase computed pursuant to subdivision (d). The amounts shall be shown separately and shall be labeled as "Additional Supplemental Support."

269—For public school support, Department of Education, to be expended as hereinafter provided..... 65,000,000

The funds appropriated by this item shall be apportioned and disbursed by the Superintendent of Public Instruction to eligible school districts to fund the operation of projects similar to those funded under Title I of the Elementary and Secondary Education Act of 1965, in order that comprehensive services of the type afforded under that federal statute will be available to additional pupils in need thereof.

Of the amount appropriated by this item an amount not to exceed one-fourth of one percent (.0025%) thereof shall be allocated to the Department of Education for administrative purposes, and apportionments to school districts shall be made from the remainder thereof.

Entitlements shall be computed, and allocations and apportionments shall be made by the Superintendent of Public Instruction on the basis of projects for which applications shall be submitted by school districts, which projects shall have been approved by the Superintendent of Public Instruction on the basis of the adequacy of purposes and goals and compliance with other requirements which may be prescribed by the Superintendent of Public Instruction.

Upon approval of a project the amount of the entitlement of the district will be determined by the Superintendent of Public Instruction and certified to the State Controller for disbursement to the district.

The entitlement of each district shall be determined by the Superintendent of Public Instruction by application of the following factors and computations:

I. (a) An index of "potential impact of bilingual-bicultural pupils" determined by dividing the percent of pupils in the district with Spanish and oriental surnames, as determined by the annual ethnic survey conducted by the Department of Education, by the statewide average percentage of such pupils for unified, elementary, or secondary districts, as appropriate.

(b) A ratio of the district's "index of family poverty," defined as the district's Elementary and Secondary Education Act, Title I entitlement, divided by its average daily attendance in grades 1 through 12, or any thereof maintained, divided in turn by the state average index of family poverty for unified, elementary, or secondary districts, as appropriate.

(c) A ratio of the district's "index of pupil transiency," as computed from the relationship between the district's average daily attendance and its total annual enrollment, divided by the state average index of pupil transiency for unified, elementary, or secondary districts, as appropriate.

II. The district's total maximum apportionment under this chapter shall be determined by:

(a) Computing the product of (1) one-third the sum of the three factors specified in subdivision I (except that if the resulting figure is higher than 2, the resulting figure shall be deemed to be 2) and (2) the number of pupils receiving aid for dependent children support.

(b) Taking the sum of all of the computations made for all eligible school districts under subsection (a) of this subdivision and dividing the same into the amount appropriated by this item which is available for apportionment and allocation

(c) Multiplying the amount computed pursuant to subsection (b) of this subdivision by the amount computed for each district under subsection (a) of this subdivision.

III. If the entitlement computed for any district under subdivision II is less than $1,000, no apportionment shall be made to the district.

IV. Funds appropriated by this item and not required for purposes of the entitlements computed under subdivisions I, II, and III, shall be allocated by the Superintendent of Public Instruction to districts for which such entitlements and apportionments were made as supplementary additional allowances to insure that compensatory education programs are afforded to as many eligible pupils as possible and to stimulate the development, implementation, and evaluation of innovative programs."

provided, that no money appropriated by this item shall be expended for the publishing, purchasing, and shipping of any textbook which is not included in the budget request submitted to the Governor for the 1972–73 fiscal year for the textbook phase of Department of Education operations, without prior approval of the Department of Finance; provided further, that none of the moneys appropriated by this item may be expended for publishing, purchasing or shipping any textbook, which has been conditionally approved or adopted by the State Board of Education subject to the condition that revisions will be made in such textbook by the publisher, unless and until such revisions have been made to the complete satisfaction of said board.

Provided, that none of this appropriation shall be available to finance contracts in respect to basic textbooks adopted by the State Board of Education during the 1971–72 or 1972–73 fiscal years in which the total price, including sales and use tax, for any textbook submitted on a finished-book basis exceeds by more than 13 percent the average of the three highest total prices for a competitive textbook submitted on the basis of leasing plates to the state or in which said total price for any such textbook exceeds by more than 13 percent the sum of the manufacturing cost of such textbook as estimated by the State Department of General Services, and the average royalty cost of the three highest priced competitive textbooks, except that upon a finding by the State Board of Education that the book submitted on a finished-book basis is clearly superior in quality and utility to others submitted on a leased-plate basis, this appropriation shall be available to finance contracts at a cost to be agreed upon by the State Board of Education if such cost does not exceed by more than 13 percent the sum of the manufacturing cost of such textbook as estimated by the State Department of General Services and the average royalty cost of the three highest priced competitive textbooks.

Provided further, that none of this appropriation shall be available to finance contracts for textbooks adopted as supplemental textbooks by the State Board of Education during the 1971–72 or 1972–73 fiscal years in which the unit price, including sales and use tax, for any textbook submitted on a finished-book basis exceeds the unit manufacturing cost of such textbook as estimated by the State Department of General Services, multiplied by the average of the ratios of the total computed unit cost of each other supplementary textbook submitted to the state on a leased-plate basis for the same grade level to the unit manufacturing cost of each such other textbook, plus 13 percent of the unit manufacturing cost of the textbook which is offered on a finished-book basis.

For the purposes of this item, three means all if fewer than three competitive textbooks are submitted on a leased-plate basis and textbooks includes teachers' manuals or editions.

All changes shall be contained in a report by the Department of Education to the Joint Legislative Budget Committee prior to August 1, 1973

Provided further, that no funds shall be available to finance contracts for basic textbooks, supplementary textbooks, or separate teachers' manuals adopted by the State Board of Education during the 1972–73 fiscal year in which the royalty for any such textbook exceeds by more than 10 percent an amount equal to the net price of that book multiplied by the average of the ratios of royalty to net price of all competitive books of its respective type, basic, supplementary, or separate teachers' manuals Provided further, that the State Board of Education shall complete an adoption no later than November 1 of the fiscal year prior to that for which the board requests funds from the Legislature for that adoption; provided further, that the Department of Education will report to the Legisla-

Help us to respect that dignity and freedom with the utmost delicacy Justice must precede our charity and not be confused with it Save us in this endeavor from seeking personal advantage or dominion over those who are helped in their need

Help us to plan in such a way that those in need will eventually be freed from their dependence on others and become self-sufficient — AMEN.

SEC. 12. Section 5326 1 is added to the Welfare and Institutions Code, to read:

5326 1. It is hereby recognized and declared that all persons, including all persons involuntarily confined, have a fundamental right against enforced interference with their thought processes, states of mind and patterns of mentation through the use of organic therapies, and that in order to justify any limitations on this fundamental right,

(1) The court or jury must determine whether the state has proven, by a preponderance of the evidence, that the confined person has the capacity for informed consent.

(2) If an inmate is already being administered organic therapies for general therapeutic purposes and not specifically to secure his informed consent to future, or ratification of prior, organic therapies, then the court or jury must determine whether the state has proven, by a preponderance of the evidence, that the confined person, although under the influence of such therapies, has the capacity for informed consent

(b) If the court or jury determines that the confined person does not have the capacity for informed consent and that the state has established by clear and convincing evidence that the benefits to be derived for the inmate from administration of the organic therapies in question substantially outweigh the hazards and burdens of said therapies to the inmate, the court must authorize the administration of the organic therapies for a period not to exceed six months After the expiration of such period the inmate, or his attorney, guardian or conservator, or the attending physician, may file new petitions pursuant to Sections 5326 3 and 5326 4

CHAPTER 5 5 NUTRITION PROGRAM FOR THE ELDERLY

18325 It is the intention of the Legislature that the State of California through state, local governmental, and private agencies shall make a maximum contribution of their in-kind resources and facilities

in order to implement the provisions of Public Law 92-258, the Nutrition Program for the Elderly. Public Law 92-258 has designated eight million five hundred fourteen thousand seventy-eight dollars ($8,514,078) in federal funds as being available to California for the 1972-73 fiscal year and twelve million seven hundred seventy-one thousand one hundred seventeen dollars ($12,771,117) for the 1973-74 fiscal year for the purposes specified in the law. Public Law 92-258 states that the federal government will provide 90 percent of the cost of approved nutrition programs and that the local or state 10 percent may be "in-kind" contributions.

18326. The California Commission on Aging, with the approval of the Secretary of the Human Relations Agency, shall develop and submit to the federal government a state plan for implementation of Public Law 92-258 pursuant to this chapter. Such plan shall be submitted by November 1, 1972. While such state plan is in preparation, any private agency or public agency, with the consent of the jurisdiction involved, may submit to the California Commission on Aging for review and consideration its proposal for funding and assistance pursuant to Public Law 92-258. The commission shall do everything feasible to assist such private and state or local agencies in the preparation of their proposals.

18327. The state plan referred to in Section 18326 shall include, but not be limited to the following:

(1) Establishment of projects which, five or more days per week, provide at least one hot meal per day and any additional meals which the contracting agency or organization may elect to provide, each of which assures recommended dietary allowances;

(2) Provision of such nutrition projects for individuals aged 60 or over who are eligible;

(3) Furnishing of sites for such nutrition projects in close proximity to concentrations of eligible individuals' residences, such as schools, churches, senior centers and facilities serving the aging;

(4) Utilization of administrative methods to assure maximum participation of eligible individuals;

(5) Provision of special menus, where feasible, to meet particular dietary needs arising from health or religious requirements or ethnic backgrounds;

(6) Provision of settings conducive to including, as a part of such projects, recreational activities, information, health and welfare counseling, and referral services;

(7) Provision of appropriate modes of transportation essential to maximum participation of eligible individuals;

(8) Establishment and administration of such projects with the advice of persons competent in the field and of older Californians who will themselves participate in the program.

18328. The California Commission on Aging, with the concurrence of the Secretary of the Human Relations Agency, shall submit to the Legislature by January 30 of each year a report on the state's implementation of this chapter. The initial report due January 30, 1973, shall include, but not be limited to, the following:

(1) The estimated current and potential in-kind contributions available by local private nonprofit, state, and local governmental agencies.

(2) A summary of all submitted local plans

(3) The estimated current and potential in-kind contributions available within the state which are in addition to those included within plans submitted by private agencies, state, and local governments.

(4) The extent to which the staff of the California Commission on Aging is giving assistance to local agencies in the development of their plans

18329 There is hereby appropriated four hundred thousand dollars ($400,000) from the General Fund for the purposes of this chapter to be transferred by the Director of Finance upon certification of the California Commission on Aging that the "in-kind" contribution of a private, state or local governmental agency is not sufficient to secure adequate federal funds for the purpose of implementing Public Law 92-258 Where local nutritional projects may be eligible for funding under federal programs for serving older citizens, and where such projects are to be operated by and serve the needs of minority, Indian, and limited-English-speaking eligible individuals; and where needed local matching funds are unavailable, state funds shall be made available to local governmental jurisdictions or voluntary organizations up to and not to exceed 10 percent of total project costs, or a maximum of fifty thousand dollars ($50,000) whichever is the lesser sum, for each local project approved."

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Hayes was granted unanimous consent that the following communication be printed in the Journal:

June 14, 1972

The Honorable Robert Moretti
Speaker of the Assembly
State Capitol, Sacramento, California

Re: Assembly Bill 1549, 1971 Regular Session, Chapter 1699

Dear Mr Speaker: Several questions have arisen from lawyers and others concerning the intended application of AB 1549, 1971 Regular Session (Chapter 1699) of which I was the author This bill amended Section 5118 of the Civil Code, a portion of the Family Law Act, of which I was one of the principal authors in the 1969 Regular Session of the Legislature

The Family Law Act became effective on January 1, 1970, and was applicable to all cases thereafter filed and to all pending cases in which an interlocutory or other judgment had not yet been rendered.

It was my intention as the author of AB 1549, and the argument I used in obtaining passage of the measure by the Assembly and Senate of the California Legislature, that this amendment to Section 5118 of the Civil Code (Family Law Act) would govern the determination of the property rights of the parties under the same rules applied by the California Supreme Court Case of Addison v. Addison, 62 Cal 2nd 558, 43 Cal Rptr 97 (1965). In other words, the courts, on or after the effective date of AB 1549 (March 4, 1972), must construe the status and the division of the property of the parties by the law then in effect, without regard to whether the status of the property of the parties or the division of such property might have been differently determined or divided had a judgment been made on March 3, 1972, or at any time prior thereto The intention was to supersede the prior law and to have the new law retroactively apply to all cases decided on and after March 4, 1972.

Respectfully,

JAMES A. HAYES
Assemblyman, 39th District

"SECTION 1. Section 1777 5 of the Labor Code is amended to read:

1777 5. Nothing in this chapter shall prevent the employment of properly indentured apprentices upon public works.

Every such apprentice shall be paid the standard wage paid to apprentices under the regulations of the craft or trade at which he is employed, and shall be employed only at the work of the craft or trade to which he is indentured.

Only apprentices, as defined in Section 3077, who are in training under apprenticeship standards and written apprentice agreements under Chapter 4 (commencing at Section 3070), Division 3, of the Labor Code, are eligible to be employed on public works The employment and training of each apprentice shall be in accordance with the provisions of the apprenticeship standards and apprentice agreements under which he is training.

When the contractor to whom the contract is awarded by the state or any political subdivision, or any subcontractor under him, in performing any of the work under the contract or subcontract, employs workmen in any apprenticeable craft or trade, the contractor and subcontractor shall apply in each such case to the joint apprenticeship committee administering the apprenticeship standards of the craft or trade in the area of the site of the public work for a certificate approving the contractor or subcontractor under the apprenticeship standards for the employment and training of apprentices in the area of the site of the public work The committee shall issue a certificate fixing the number of apprentices or the ratio of apprentices to journeymen who shall be employed in the craft or trade on the public work. The ratio shall

not exceed that stipulated in the apprenticeship standards under which the joint apprenticeship committee operates, but in no case shall the ratio be less than one apprentice for each five journeymen, except as otherwise provided in this section

The contractor or subcontractor, if he is covered by this section, shall, upon the issuance of the approval certificate in each such craft or trade, employ the number of apprentices or the ratio of apprentices to journeymen fixed in the certificate issued by the joint apprenticeship committee. Upon proper showing by the contractor that he employs apprentices in such craft or trade in the state on all of his contracts on an annual average of not less than one apprentice to each eight journeymen, the Division of Apprenticeship Standards shall grant a certificate exempting the contractor from the 1-to-5 ratio as set forth in this section.

"Apprenticeable craft or trade," as used in this section, shall mean a craft or trade determined as an apprenticeable occupation in accordance with rules and regulations prescribed by the Apprenticeship Council. The joint apprenticeship committee shall have the discretion to grant a certificate exempting a contractor from the 1-to-5 ratio set forth in this section when it finds that any one of the following conditions is met:

(a) In the event unemployment for the previous three-month period in such area exceeds an average of 15 percent, or

(b) In the event the number of apprentices in training in such area exceeds a ratio of 1 to 5, or

(c) If there is a showing that the apprenticeable craft or trade is replacing at least one-thirtieth of its journeymen annually through apprenticeship training, either (1) on a statewide basis, or (2) on a local basis.

(d) If assignment of an apprentice to any work performed under a public works contract would create a condition which would jeopardize his life or the life, safety, or property of fellow employees or the public at large or if the specific task to which the apprentice is to be assigned is of such a nature that training cannot be provided by a journeyman

When such exemptions are granted to an organization which represents contractors in a specific trade from the 1-to-5 ratio on a local or statewide basis the member contractors will not be required to submit individual applications for approval to local joint apprenticeship committees, provided they are already covered by the local apprenticeship standards.

A contractor to whom the contract is awarded, or any subcontractor under him, who, in performing any of the work under the contract, employs journeymen or apprentices in any apprenticeable craft or trade and who is not contributing to a fund or funds to administer and conduct the apprenticeship program in any such craft or trade in the area of the site of the public work, to which fund or funds other contractors in the area of the site of the public work are contributing, shall contribute to the fund or funds in each craft or trade in which he employs journeymen or apprentices on the public work in the same

amount or upon the same basis and in the same manner as the other contractors do, *but where the trust fund administrators are unable to accept such funds, contractors not signatory to the trust agreement shall return a like amount to the California Conference on Apprenticeship* The contractor or subcontractor may add the amount of such contributions in computing his bid for the contract. The Division of Labor Law Enforcement is authorized to enforce the payment of such contributions to the fund or funds as set forth in Section 227

The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section *Such stipulations shall fix the responsibility of compliance with this section for all apprenticeable occupations with the prime contractor.*

In the event a contractor willfully fails to comply with this section, such contractor shall be denied the right to bid on a public works contract for a period of six months from the date the determination is made

The interpretation and enforcement of this section shall be in accordance with the rules and procedures prescribed by the Apprenticeship Council

All decisions of the joint apprenticeship committee under this section are subject to the provisions of Section 3081."

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Thomas was granted unanimous consent that the following letter of transmittal be printed in the Journal.

Joint Legislative Audit Committee

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly of the Legislature of California

Sirs: We transmit herewith a performance audit report by the Office of the Auditor General on the contracting procedures followed by the Department of Human Resources Development in providing educational and vocational training to recipients of Aid to Families with Dependent Children (AFDC) under the Work Incentive Program (WIN) Objectives of this review were to determine the procedures followed by the department in contracting for these services, the efficiency of these procedures, and the effect of these procedures on the AFDC recipients receiving training and upon the overall program operations

Since the start of the WIN program in September 1968, in excess of $40 million has been made available to the Department of Human Resources Development to provide education and training to AFDC recipients so that they may compete more successfully in the labor market. These funds have been provided 80 percent from federal sources and 20 percent from state funds.

Personnel negotiating the contracts have not had sufficient information readily available to choose the most effective and economical training available. Each WIN office should have an inventory of all educational and vocational training programs available in its service area The cost, length of training, effectiveness, and other information should be known before contracts are signed.

The planning and coordination of education and training components has not been adequate In certain cases WIN enrollees are placed in training programs in order to fill contracted training slots rather than to improve the enrollees' employability. Only about 20 percent of persons enrolled in WIN educational or vocational training programs successfully complete the courses. Thousands of dollars have been wasted on inappropriate and ineffective training while other enrollees have been held in nonproductive holding components because appropriate training has not been provided.

Contracts have been negotiated on a "fixed fee" basis which, in the opinion of the legal personnel at the Department of Human Resources Development, has obligated the state for full contract amounts but has not required the contractors to provide specific training to a specified number of enrollees Fixed fee contracts have been extended for the full amount even though the number of students has decreased.

The state controls over the contract-related transactions are so weak as to invite fraud, misuse of funds, and poor utilization of available resources. Contractors are paid even though they lack competent instructors and equipment WIN enrollees are receiving training at a facility that has been investigated for fraud and convicted in connection with irregularities under a Manpower Development Training Act Contract.

No audit positions have been provided in the past to detect inconsistencies in procedures. The department has recently been authorized by the Department of Labor to establish investigative and audit positions, but it is doubtful that the positions approved will be adequate.

The report contains 16 recommendations to provide data essential to the procurement of the most effective and economical training, to establish fiscal and operating controls over the contracting and disbursing procedures, and to provide coordination of training on a current basis

Respectfully submitted,

VINCENT THOMAS, Chairman
Joint Legislative Audit Committee

Above report referred to the Committee on Ways and Means.

Bill read second time.

Consideration of Author's Amendments

The following amendments, pursuant to the Assembly Rules, were read, and adopted:

Amendment No. 1

In lines 1 and 2 of the title of the printed bill, as amended in Assembly June 15, 1972, strike out "to amend Sections 17301 and 17303.5 of the Education Code,".

Amendment No. 2

On page 1, strike out line 1, and insert

"SECTION 1. There is hereby appropriated from the General Fund in the State Treasury the sum of _____ ($_____), to be expended for the support of public education in accordance with the following schedule:

(a) For transfer by the State Controller to the State School Fund, in amounts necessary to fund Chapter 1619 and Chapter 1668, Statutes of 1971 _____

(b) For transfer by the State Controller from the General Fund to the State School Fund for cost increases due to inflation _____

this amount to be expended pursuant to Section 17668 of the Education Code and in accordance with the following specifications:

(1) Compute the 1972–73 foundation program support apportionments without regard to the appropriation in this subdivision

(2) Compute the 1972–73 foundation program support apportionments which would be made after increasing all foundation program factors by twenty dollars ($20) per unit of average daily attendance (making appropriate increases in the foundation programs prescribed for small schools and school districts to maintain the relationships prescribed by Article 2 (commencing with Section 17651) of Chapter 3 of Division 14 of the Education Code), and allow the amounts computed to each school district

(3) Determine the difference in the amounts computed under (1) and (2) above, and subtract such difference from the amount appropriated in this item. This remainder shall be apportioned as additional equalization aid for cost increases due to inflation as specified in (4) to (6) below.

(4) Determine the number of average daily attendance in all districts for which equalization aid was computed in (2) above.

(5) Divide the number of average daily attendance in all districts for which equalization aid was computed into the remainder computed in (3) above.

(6) Multiply the amount per average daily attendance computed in (5) above by the average daily attendance in each district for which equalization aid was computed in (2) above and apportion this amount to the district.

(7) The amount apportioned under (6) above shall be shown separately and shall be labeled as "Additional Equalization Aid for Cost Increases Due to Inflation"

(8) For purposes of determining eligibility for apportionments of funds appropriated in this subdivision, and more particularly, in determining the average daily attendance in school districts for which equalization aid was computed, the Superintendent of Public Instruc-

tion shall compute the same by considering solely individual school district wealth, disregarding the effects of the areawide school support mechanism, and as though no areawide school support programs were in operation anywhere in the state.

(c) For transfer by the State Controller from the General Fund to the State School Fund for increases due to inflation ----------

this amount to be expended pursuant to Section 17668 of the Education Code and in accordance with the following specifications:

(1) The Superintendent of Public Instruction shall compute the 1972–73 apportionment for supplemental support to elementary school districts and high school districts (Article 7.1 (commencing with Section 17920) of Chapter 3 of Division 14 of the Education Code) without regard to the appropriation in this subdivision.

(2) He shall compute another apportionment for supplemental support to elementary and high school districts using the factors in Article 7.1 (commencing with Section 17920) of Chapter 3 of Division 14 of the Education Code except as follows:

(A) For each elementary school district the Superintendent of Public Instruction shall determine that portion of the general fund tax rate of the district converted to the nearest cent which is in excess of one dollar ($1), exclusive of rates levied pursuant to Sections 1822.2, 1825, 16633, 16635, 16645.9, 19443, 19619, 20801, and 22101 of the Education Code, and not to exceed two dollars and twelve cents ($2.12).

(B) For each high school district, the Superintendent of Public Instruction shall determine that portion of the general fund tax rate of the district converted to the nearest cent which is in excess of eighty cents ($0.80), exclusive of rates levied pursuant to Sections 1822.2, 1825, 16633, 16635, 16645.9, 19443, 19619, 20801, and 22101 of the Education Code, and not to exceed sixty-five cents ($0 65).

(C) For elementary school districts: If the applicable tax rate of the district pursuant to Section 17921 of the Education Code equals or exceeds sixty cents ($0.60), he shall determine, for each unit of average daily attendance eligible for supplemental support, an amount equal to one dollar and twenty-five cents ($1.25) for each cent of such applicable rate. For such purposes, the applicable rate determined pursuant to Section 17921 shall be deemed to be no less than two dollars and twelve cents ($2.12); provided that, in no case shall the amount determined pursuant to this section shall be in excess of two hundred sixty-five dollars ($265) per pupil in average daily attendance.

(D) For high school districts: If the applicable tax rate of the district pursuant to Section 17922 of the Education Code equals or exceeds twenty cents ($0.20), he shall determine, for each unit of average daily attendance eligible for supplemental support, an amount equal to two dollars and forty cents ($2.40) for each cent of such applicable rate. For such purposes, the applicable rate determined pursuant to Section 17922 shall be deemed to be no less than sixty-five cents ($0.65); provided that, in no case shall the amount determined pursuant to this section be in excess of one hundred fifty-six dollars ($156) per pupil in average daily attendance.

(3) He shall determine for each district the difference between the apportionments computed in paragraphs (1) and (2) of this subdivision.

(4) He shall determine the total sum of the amounts computed for each district in paragraph (3). If such total sum is more or less than the amount appropriated by this subdivision, the amount computed for each district shall be reduced or increased proportionately.

(5) He shall apportion the amounts computed in paragraph (3) to each district, as modified by the proportionate reduction or increase computed pursuant to paragraph (4). The amounts shall be shown separately and shall be labeled as "Additional Supplemental Support."

(d) For public school support, Department of Education, to be expended as hereinafter provided ----------

The funds appropriated by this subdivision shall be apportioned and disbursed by the Superintendent of Public Instruction to eligble school districts to fund to operation of projects similar to those funded under Title I of the Elementary and Secondary Education Act of 1965, in order that comprehensive services of the type afforded under that federal statute will be available to additional pupils in need thereof

Of the amount appropriated by this subdivision an amount not to exceed one-fourth of one percent (.0025%) thereof shall be allocated to the Department of Education for administrative purposes, and apportionments to school districts shall be made from the remainder thereof.

Entitlements shall be computed, and allocations and apportionments shall be made by the Superintendent of Public Instruction on the basis of projects for which applications shall be submitted by school districts, which projects shall have been approved by the Superintendent of Public Instruction on the basis of the adequacy of purposes and goals and compliance with other requirements which may be prescribed by the Superintendent of Public Instruction.

Upon approval of a project the amount of the entitlement of the district will be determined by the Superintendent of Public Instruction and certified to the State Controller for disbursement to the district.

The entitlement of each district shall be determined by the Superintendent of Public Instruction by application of the following factors and computations:

(1) (A) An index of "potential impact of bilingual-bicultural pupils" determined by dividing the percent of pupils in the district with Spanish and Oriental surnames, as determined by the annual ethnic survey conducted by the Department of Education, by the statewide average percentage of such pupils for unified, elementary, or secondary districts, as appropriate.

(B) A ratio of the district's "index of family poverty," defined as the district's Elementary and Secondary Education Act, Title I entitlement, divided by its average daily attendance in grades 1 through 12, or any thereof maintained, divided in turn by the state average index of family poverty for unified, elementary, or secondary districts, as appropriate.

(C) A ratio of the district's "index of pupil transiency," as computed from the relationship between the district's average daily attendance and its total annual enrollment, divided by the state average index of pupil transiency for unified, elementary, or secondary districts, as appropriate

(2) The district's total maximum apportionment under this subdivision shall be determined by:

(A) Computing the product of (1) one-third the sum of the three factors specified in paragraph (1) (except that if the resulting figure is higher than two, the resulting figure shall be deemed to be two) and (2) the number of pupils receiving aid for dependent children support.

(B) Taking the sum of the computations made for all eligible school districts under subparagraph (A) of this pragraph and dividing the same into the amount appropriated by this subdivision which is available for apportionment and allocation

(C) Multiplying the amount computed pursuant to subparagraph (B) of this subdivision by the amount computed for each district under subparagraph (A) of this subdivision.

(3) If the entitlement computed for any district under paragraph (2) is less than one thousand dollars ($1,000), no apportionment shall be made to the district.

(4) Funds appropriated by this subdivision and not required for purposes of the entitlements computed under paragraphs (1), (2), and (3) shall be allocated by the Superintendent of Public Instruction to districts for which such entitlements and apportionments were made as supplementary additional allowances to insure that compensatory education programs are afforded to as many eligible pupils as possible and to stimulate the development, implementation, and evaluation of innovative programs.

SEC. 2 The provisions of this act shall supersede Items 267.1, 268, 268.1, and 269 of the Budget Act of 1972."

Amendment No. 3

PRAYER

The following prayer was offered by the Chaplain, Father Leo McAllister:

Lord, Man's mores always seem to be on the precipice of disaster and at the same time knocking on the door of achievement. When we forget what is due to ourselves and to others, when the feeling for human quality and the power to exercise reserve cease to exist, chaos is at the door. Help us to bring about a new sense of nobility to bind together men from all former social classes and social divisions, a nobility which arises from and exists by sacrifice, courage, and a clear sense of duty to oneself and to society.—AMEN.

MESSAGES FROM THE GOVERNOR

The following Messages from the Governor were received, and by unanimous consent, ordered printed in the Journal:

Message on Item Vetoes—Senate Bill No. 50

Governor's Office, Sacramento
June 22, 1972

I object to the following appropriations in **Senate Bill No. 50**:

Item 37—For support of Department of Commerce. I reduce this item from $1,752,188 to $1,692,188 by reducing paragraph (b) operating expenses and equipment from $656,250 to $621,250 and by eliminating paragraph (d) celebration of 150th anniversary of City of Sonoma

I am eliminating funds added for repair of a band shell and the addition of a new exhibit These projects should be funded from other than state sources

I am eliminating funds added for celebration of 150th anniversary of the City of Sonoma While it is important to acknowledge and celebrate our heritage, expenditure of state tax funds should be limited to events that are clearly of statewide significance.

Item 43—For support of the State's cash match for Federal grants made by the Law Enforcement Assistance Administration. I reduce this item from $5,750,000 to $4,500,000.

The estimated amount of Federal grants available has been reduced from $60,000,000 to $46,500,000, thereby reducing the amount required for state cash match.

Item 45—For support of contribution to counties for providing legal assistance to indigents I reduce this item from $1,429,500 to $775,000

The remaining amount reflects the traditional contribution to counties for legal assistance to indigents

Item 46.5—For tort liability claims that may arise from damage caused by structural deficiency of the State Capitol Building. I eliminate this item.

No liability or injury is anticipated in the State Capitol Building because of structural deficiencies.

Item 67—For support of Public Utilities Commission. I reduce this item from $7,333,388 to $6,913,273 by reducing paragraph (a) Personal Services from $11,109,835 to $10,781,960 and paragraph (b) Operating Expenses and Equipment from $2,293,635 to $2,201,395.

I am reducing this item to a level of expenditure which provides for an augmentation to the Commission's original budget in the amount of $97,310 for additional auditors The amount appropriated will enable the Commission to meet its responsibilities.

Item 80—For support of Augmentations for Salary Increase—Civil Service and Related. I reduce this item from $46,688,000 to $31,125,000 and reduce the proposed across-the-board salary increases specified therein for State officers and employees, exclusive of personnel in the University of California and of the California State Colleges whose compensation or portion thereof is charged to the General Fund, from 7½% to 5% and for State officers and employees whose compensation, including staff benefits, or a portion thereof is payable from special funds, from 7½% to 5%.

This action reduces the appropriation to a salary increase of 5%. Together with the salary inequity funds I am approving in this bill, salary increases will amount to an average of 8.4%. Such increases will cover a substantial portion of existing salary inequities Additional efforts to correct remaining inequities are planned for 1973–74.

Item 80.5—For support of Augmentations for Salary Increase—Increase in Statutory Salaries. I reduce this item from $177,000 to $118,000 and reduce the proposed salary increase specified therein for state officers whose salaries are specified by statute and whose compensation is paid from either the General Fund or special funds, from 7½% to 5%.

This item is reduced to reflect the level of general salary increase granted to civil service and related positions.

Item 81—For support of Augmentation for Salary Increase—University of California. I reduce this item from $33,274,000 to $20,705,000 by reducing paragraph (a) For increases in compensation for faculty and faculty-related positions from $22,188,000 to $13,314,000, and I reduce the proposed across-the-board salary increase specified therein for these positions from 12½% to 7½%; and paragraph (b) For increases in compensation for nonfaculty positions from $11,086,000 to $7,391,000, and I reduce the proposed across-the-board salary increase specified therein for these positions from 7½% to 5%.

This action provides the increases for University employees as I originally proposed. Both the academic and non-academic increase funds in this item, together with the inequity funds which I am approving in this budget, will cover a substantial portion of salary inequities

Additional efforts to correct remaining salary inequities are planned for 1973–74.

Item 81.1—For support of Augmentation for Salary Increase —University of California—Inequity Funds I reduce this item from $8,133,000 to $6,100,000, by reducing paragraph (a) Faculty and faculty-related positions from $4,438,000 to $2,600,000 and paragraph (b) Nonfaculty positions from $3,695,000 to $3,500,000

I am reducing this item to the amount I recommended in May. Together with other salary increase funds, the amounts made available will cover over half of existing salary inequities. Plans to meet remaining inequities are scheduled next year (1973–74).

I am approving this item as reduced, with the understanding that increase in compensation provided by increased salary ranges for positions established for the 1972–73 fiscal year shall not result in total annual salary increases, including staff benefits, of more than $6,100,000.

Item 82—For support of Augmentation for Salary Increase—California State Universities and Colleges I reduce this item from $35,445,000 to $21,836,000 by reducing paragraph (a) For increases in compensation for instructional and instructional-related positions from $26,918,000 to $16,151,000, and I reduce the proposed across-the-board salary increase specified therein for these employees from 12½% to 7½% and paragraph (b) For increases in compensation for non-instructional positions from $8.527,000 to $5,685,000, and I reduce the proposed across-the-board salary increase specified therein for these positions from 7½% to 5%.

This action provides the increases for State University and College employees as originally requested. The academic and non-academic increase funds in this item, together with the inequity funds which I recommended, will cover a substantial portion of salary inequities. Additional efforts to correct remaining salary inequities are planned for 1973–74.

Item 82.1—For support of Augmentation for Salary Increase —California State Universities & Colleges—Inequity Funds I reduce this item from $8,226,000 to $5,600,000 by reducing paragraph (a) Instructional and instructional-related positions from $5,384,000 to $3,100,000 and paragraph (b) Non-instructional positions from $2,842,000 to $2,500,000

I am reducing this item to the amount I recommended in May. Together with other salary increase funds the amounts being provided will cover over half of existing salary inequities

We plan to continue our efforts to correct remaining salary inequities next year (1973–74).

I am approving this item, as reduced, with the understanding that increase in compensation provided by increased salary ranges for positions established for the 1972–73 fiscal year shall not result in total annual salary increases, including staff benefits, of more than $5,600,000

Item 86—For claim of the Secretary of the State Board of Control. I reduce this item from $156,695 to $134,031 by reducing paragraph (k) Water Resources Revolving Fund from $6,857 to $2,193 and paragraph (*l*) Health Care Deposit Fund from $19,864 to $1,864.

The two claims involved in category (k) and the single claim under category (*l*) received a full hearing by the State Board of Control as provided for in their procedures After its review, the Board declined to recommend approval No new information has been presented that would suggest reversal of the Board's decision and therefore by this action, their decision is sustained

Item 145—For support of State Personnel Board I reduce this item from $9,023,636 to $8,123,636 by reducing paragraph (c) For implementation of Division 4 of the Unemployment Insurance Code from $3,757,000 to $2,857,000.

The needs of this program can be adequately maintained at this funding level with utilization of Federal funding

Item 194—For support of State Lands Division. I reduce this item from $1,674,000 to $1,568,000 by reducing paragraph (a) Personal Services from $2,265,205 to $2,186 058 and paragraph (b) Operating Expenses and Equipment from $504,436 to $477,583

I am approving this item at the level originally proposed in the budget which provides sufficient resources for the Division to meet its responsibilities

Item 206.1—For loan to the City of Avalon, Department of Navigation and Ocean Development I eliminate this item.

This item is eliminated on the basis that the Department of Navigation and Ocean Development should retain the responsibility for approving loans based on economic and engineering feasibility.

Item 217—For expenditures by the Department of Water Resources for the State's share of flood control projects I reduce this item from $7,500,000 to $4,000,000

The legislative augmentation of $3,500,000 should be provided by SB 993 (Lagomarsino) which contains a comprehensive proposal for state and local cost sharing for flood control

Item 220—For support of Department of Corrections I reduce this item from $112,503,781 to $112.003,781 by reducing paragraph (b) II Institutional Program $91,229,830 to $90,729,830

I am also deleting the following language from Item 220 relating to the reductions made in the appropriation itself

"Provided further, that of the amount appropriated in this item $100,000 shall be used for the sole purpose of converting 300 positions from the classification correctional officer to the classification correctional program supervisor and that $50,000 of this appropriation, shall be used for the sole purpose of the development of a centralized recruiting program to aid in locating and employing better qualified personnel."

I am also reducing the $450,000 for a centralized training program to $100,000.

I am reducing the augmentation for training ($350,000) pending funding of the Department under a grant by the California Council on Criminal Justice for a centralized training program in conjunction with the Youth Authority.

I am eliminating the augmentation for correctional program supervisor reclassifications ($100,000) because it has not been demonstrated that expansion of the existing program will enhance existing rehabilitative efforts.

I am eliminating the augmentation for centralized recruiting ($50,000) because the Personnel Board has funds in its existing program to meet the recruiting needs of the Department.

Item 220.2—For support of Department of Corrections, Inmate Welfare Fund. I eliminate this item.

I am eliminating this item because the method of providing recreational equipment and supplies is both adequate and satisfactory.

Item 220.5—For support of the Department of Corrections. I eliminate this item.

I am eliminating this item because the existing inmate self help program is being accomplished through voluntary efforts at the present time and can be continued on this basis.

Item 224—For support of Department of the Youth Authority. I reduce this item from $52,633,215 to $52,428,215 by reducing paragraph (b) II. Rehabilitative Services from $50,004,679 to $49,799,679.

I am also deleting the following language from Item 224 relating to the reductions made in the appropriation itself:

"Provided, that $30,000 of the amount appropriated by this item shall be used for the sole purpose of development of a centralized recruiting program to aid in locating and employing better qualified personnel."

I am also reducing the $225,000 for a centralized training program to $50,000.

I am eliminating the augmentation for centralized recruiting ($30,000) because the State Personnel Board has funds in its existing program to meet the recruiting needs of the Department.

I am reducing the augmentation for training ($175,000) pending funding of the Department under a grant by the California Council on Criminal Justice for a centralized training program in conjunction with the Department of Corrections.

Item 233—For transfer to the Health Care Deposit Fund to provide for Medical Assistance Program expenditures. I reduce this item from $664,517,365 to $606,317,587 and eliminate the following language and schedule:

"Provided, further, that of the amounts appropriated by this item, $25,580,702 shall be expended, for the 1972–73 fiscal year only, in addition to all other amounts required by law, pursuant to the following schedule for relief of the counties for costs incurred in the implementation of Chapter 577 of the Statutes of 1971.

I have eliminated $25 580,702 and related language and schedule which were added to reduce the counties' share of costs under the Medi-Cal program The present cost sharing as set forth in the statutes is equitable

I am recommending the passage of AB 1282, by Assemblyman Arnett, which will provide some administrative relief to the counties through simplified billing procedures for reimbursement for Medi-Cal services rendered through county hospitals

In addition I have reduced the funds for caseload expenditures in recognition of revised estimates by $32,619,076

Item 234—For support of Department of Human Resources Development I reduce this item from $9,424,374 to $8,163,874 A modification in Federal law has changed the state matching requirements The original appropriation will be enough to match Federal money to properly fund the work incentive program under the new (9–1) sharing ratio

Item 241—For support of Department of Mental Hygiene I reduce this item from $6,910,096 to $6,878,096 by reducing paragraph (b) Operating Expenses and Equipment from $1,715,701 to $1,683,701

I have also deleted the following language from Item 241 which provides funds specifically for staff and related expenses of the Citizens' Advisory Council

> "Provided that, of this amount, $32,000 shall be made available to the Citizens' Advisory Council solely for the purpose of providing independent staffing and expenses related thereof "

The Citizens' Advisory Council provides advice and assistance to the Director of Mental Hygiene The Department can provide staff as needed to support the work of the Council

Item 241.1—For support of Department of Mental Hygiene. I eliminate this item.

I have eliminated this item because the 1972–73 budget, as originally submitted contains sufficient funds to maintain Mendocino State Hospital pending final disposition

Item 246—For support of Department of Public Health I reduce this item from $12,197,502 to $11,697,502 by reducing paragraph (b) Operating Expenses and Equipment from $6,647,845 to $6,147,845

I have eliminated additional funds for comprehensive health planning pending evaluation of efforts made to date by regional and local area comprehensive health planning agencies.

Item 246.1—For support of Department of Public Health I eliminate this item.

I am eliminating this augmentation of $300,000 on the basis that $600,000 remains available in 1972–73 for family planning from prior appropriations which will permit the orderly growth of this program while it is further evaluated.

Item 257.1—For Local Assistance, Department of Social Welfare—Unmet Shelter Needs I reduce this item from $3,000,000 to $1,500,000

The 1971 Welfare Reform Act achieved a balance of various public assistance programs funded by the State and county governments As a part of that balance it was agreed that the State would assume certain costs previously borne by counties, such as the costs of the Old Age Security and Aid to the Blind programs It was also agreed that counties would assume full responsibility for some functions. Specifically, the Welfare Reform Act provided that counties provide special needs to AFDC welfare recipients in accordance with priorities determined at the county level The reduction of Item 257.1 represents that portion which relates to the AFDC program The remaining $1,500,000 shall be allocated to the adult aid programs, which remain the fiscal responsibility of the State

Item 261—For support of Department of Education I reduce this item from $6,172,638 to $5,980,938 by reducing paragraph (a) Personal Services from $15,156,501 to $15,121,701 and paragraph (b) Operating Expenses and Equipment from $8,711,545 to $8,679,645, and eliminating paragraph (f)

I have reduced this item by eliminating the legislative augmentations in the amount of $66,700 which were provided for additional staffing and related expenses Consideration of proposed increases should be deferred until after the Superintendent of Public Instruction has completed the presently planned reorganization of the department. I have eliminated the $125,000 legislative augmentation for the new careers program because there is insufficient information available to justify the proposed expansion of this relatively new program

Item 264—For support of Special Schools, Department of Education I reduce this item from $9,963,325 to $9,263,325 by eliminating paragraph (f)

I have reduced this item by eliminating the additional funds for a new school at Mendocino State Hospital because a study currently is being made of the existing facilities at Berkeley The transfer from Berkeley to new facilities should consider all aspects of the program on a long range basis and should be based upon a plan recommended by the Superintendent of Public Instruction. The results of the study now being conducted may reveal other existing facilities or possible arrangements that would prove superior from a program viewpoint. I believe the matter must be thoroughly examined and alternatives considered in view of the significance of establishing new facilities.

Item 268.1—For support of transfer by the State Controller from the General Fund to the State Schools Fund for additional supplemental support. I reduce this item by $8,000,000

I am reducing this item by $8 million The remaining $24 million augmentation for supplemental support which I am approving is sufficient to fully fund the apportionment formulas in the item

Item 269—For Public School Support, Department of Education I eliminate this item.

I have eliminated this item because I am approving in Items 268 and 268 1 the expenditure of $190 million appropriated by the Legislature for enhancement of education at the local level. The remaining $73 million ($65 million in Item 269 and $8 million of Item 268 1) appropriated to local schools in this Act is not primarily directed toward the relief of low wealth school districts in accordance with the guidelines of the Serrano decision There is ample time for the Legislature to enact a combination tax reform and school finance bill at this session and I have proposed one such solution The $73 million will remain in surplus available to local schools at such time as the Legislature places on my desk a bill conforming to the general principles of the Serrano case Should the Legislature adjourn this session without enacting such legislation, I am ordering that the Department of Finance clearly set forth in the budget documents an earmarked surplus of $73 million as part of the money to be available for low wealth school districts whenever the Legislature completes work on comprehensive school tax financing reform.

Item 271—For support of Compensatory Education Program, Department of Education I reduce this item from $11,000,000 to $10,518,000

I have reduced this item by eliminating the unallocated funds for expansion of the Professional Development Centers I have approved augmentations in the amount of $60,000 for the project related to the University of California at Santa Cruz and $100,000 for project LINKAGE related to the University of California at Los Angeles and $108,000 for the project related to the Pasadena Unified School District, thereby funding all projects specified by the Legislature. The

Professional Development Centers program has not had sufficient proven results to warrant expansion beyond that being authorized.

Item 272.1—For support of the Abstract Conceptually-Oriented Mathematics Program Act, Department of Education. I reduce this item from $1,000,000 to $500,000.

I have reduced this item because the funds remaining are sufficient to support demonstration programs which will permit a proper evaluation of this instructional method. AB 1644 (Russell) now being considered by the Legislature will provide for a complete evaluation of this program.

Item 273—For support of Children's Centers, Department of Education. I reduce this item from $21,892,700 to $21,742,700 by reducing paragraph (a) Children's centers from $28,522,988 to $28,372,988.

I have reduced this item by eliminating funds for administrative costs related to establishment of centers at or near campuses of institutions of higher learning The Department assured me at the time legislative authorization for such centers was enacted that there would be no additional state costs.

Item 273.1—For support of Department of Education. I eliminate this item.

Item 273.1 appropriations $3,000,000 to the Department of Education for county child care and child care training programs. These funds were originally budgeted to the Department of Social Welfare. Item 273 1 is eliminated in the belief that the Department of Social Welfare is the appropriate agency to administer this program, particularly since the Department has long standing channels of communication and supervision established with county welfare departments. It would be necessary for Education to establish a parallel administrative structure if this program were transferred. In order to restore these funds to the child care program, I am requesting legislation to add the necessary appropriation.

Item 276—For support of Assistance to Public Libraries, Division of Libraries, Department of Education. I reduce this item from $1,346,000 to $800,000.

I have reduced this item to the current level of funding.

Item 277.1—For vocational education, Summer Work Program, Department of Education I eliminate this item.

I have eliminated this program because it is essentially an employment program that can more properly and effectively be satisfied through existing manpower programs.

Item 280—For support of Project SHARE, Department of Education I eliminate this item.

I have eliminated this item since it previously has been funded from the Miller-Unruh appropriation and it should continue to be financed from that resource. AB 612 (Vasconcellos) now before the Legislature can be used to direct Miller-Unruh funds for SHARE.

Item 283—For support of University of California. I reduce this item from $357,636,442 to $354,289,029.

The Regents of the University of California have provided for an appropriate and vigorous educational opportunity program from total funds available to the Regents; therefore, it is not necessary to augment this program from the General Fund at this time

Despite the fact enrollments are failing to come up to budget levels, I nevertheless have not only maintained the same support for the University I proposed in January—which was predicated on higher projected enrollments—but I have retained legislative augmentations in the amount of $1.7 million for research in mosquito control and university unemployment benefits The funds provided by the State to the University in 1972–73 are being increased by $18 2 million over the current year's support level, plus $27 million for salary increases

The Administration has allocated sufficient funds for the operation of the University The Legislature addressed the budget item by item. The Regents have authority to redirect funds to specific needs and economies of operations together with prospective enrollment reductions which appear to be sufficient to meet specific needs

Item 283.1—For support of University of California I eliminate this item.

I am opposed to the elimination of tuition It is a necessity for financing of higher education. The Regents of the University of California have themselves implemented a tuition program. It exists and it is increasing in importance at every major university in the United States

Item 283.2—For support of a Department of Demography, University of California, Berkeley campus I eliminate this item

This item is being eliminated at the request of the University.

Item 283.3—For support of the Institute of Traffic and Transportation Engineering, University of California I reduce this item from $551,362 to $460,871 by reducing paragraph (b) from $90,491 to $0

The program at the UCLA Campus is being reduced at the request of the University.

Item 290—For support of Hastings College of Law. I reduce this item from $1,586,826 to $1,554,426 by reducing paragraph (b) Operating Expenses and Equipment from $770,371 to $737,971.

An augmentation I am approving will provide state and federal funds for the National Defense Student Loan Program and thereby assist the financial aids effort.

Item 290.1—For support of Hastings College of Law I eliminate this item.

The Coordinating Council for Higher Education has advised me that there is insufficient evidence to support the need for an additional law school in the State of California Therefore, I am eliminating this item for this year.

Item 290.2—For support of Hastings College of Law. I eliminate this item.

I am opposed to the elimination of tuition. It exists and it is increasing in importance at every major university in the United States.

Item 291—For support of Trustees of the California State Colleges and the California State Colleges I reduce this item from $343,442,373 to $342,870,597 by reducing paragraph (a) Personal Services from $350,659,350 to $350,192,340 and paragraph (b) Operating Expenses and Equipment from $80,352,604 to $80,347,838, and paragraph (c) Reimbursements from —$87,569,581 to —$87,669,581. I am also reducing the $313,849 for the educational television station at San Diego to $213,849

I reduce this item for the following reasons.

San Diego Educational Television	$100,000
The $213,849 which already has been budgeted for the station is adequate to reimburse its operations for instructional programs on the campus	
Planning funds for Year-round Operation	50,000
Substantial amounts of funds have been spent in previous years at San Francisco State and the current budget already contains some funds for this purpose	
State Health Benefits increase from $12 to $14	421,776
Funds for this purpose are to be provided from existing resources	

Item 292—For support of Trustees of the California State Colleges and the California State Colleges I reduce this item from $5,909,602 to $4,733,922 by reducing paragraph (a) from $3,331,680 to $2,156,000

This action retains an augmentation of $2,156,000 for Educational Opportunity Program grants, including 3,500 first year students at $440 each and 2,800 second year students at $220 per student.

The state-supported program for educationally disadvantaged students in the California State Colleges is thereby increased over 100% with the grant portion reflecting a five-fold increase by this action.

Item 296—For support of community college extended opportunity programs, Board of Governors of the California Community Colleges I reduce this item from $6,600,000 to $4,850,000

This action will provide an increase of nearly 50% in this program over the current year

The emphasis of the Educational Opportunity Program at the Community Colleges is consistent with the Master Plan for Higher Education and will provide eligible students with the greatest opportunity for academic success.

Item 298—For support of scholarship awards, State Scholarship and Loan Commission I reduce this item from $30,422,705 to $29,447,194 by reducing paragraph (a) Competitive Scholarship Program from $24,401,816 to $23,426,305.

The legislative augmentation is being reduced by $975,511 because we have been informed by the State Scholarship and Loan Commission that actual scholarship need is now projected at $962 per award winner

Item 300.4—For capital outlay, Department of General Services, for working drawings for a state office building in San Jose I eliminate this item.

Information provided by the Department of General Services shows that a state constructed building in San Jose cannot be economically justified at this time

Item 308.1—For capital outlay, University of California. I eliminate this item

I am opposed to the elimination of tuition. It is a necessity for financing higher education The Regents of the University of California have themselves implemented a tuition program. The importance of tuition is increasing for every major university in the United States.

Item 308.6—For capital outlay, University of California I reduce this item from $8,500,000 to $7,900,000 by reducing paragraph (a) from $8,500,000 to $7,900,000

The current appraisal by the Department of General Services indicates that the funds retained in this item will provide Sacramento County fair market value for the land, improvements, equipment and supplies to be transferred to the University of California.

Item 318.2—For capital outlay, Department of Parks and Recreation I reduce this item from $9,153,900 to $7,053,900 by eliminating paragraphs (a-8) Refugio State Beach acquisition—$1,900,000, and (b-1) San Diego Museum development—$200,000.

The Refugio acquisition is not included in departmental priority lists Consequently there is no present program to justify the purchase of this property The San Diego Museum funding is contained in legislation I recently signed and is therefore not required in this act

Item 318.5—For capital outlay, Department of Fish and Game Salmon and Steelhead study I eliminate this item.

This study is not appropriately a capital outlay item and if needed, should be accomplished within the Department of Fish and Game support budget.

Section 10.4—For reappropriation of funds for Children's Center's and family and child development I eliminate this section and delete the following language.

"Notwithstanding any other provisions of law, Item 274(a) and Item 259(b), Budget Act of 1971 are reappropriated for the same purposes to the Department of Education and Department of Social Welfare, respectively, and shall be available until June 30, 1973"

I have eliminated this reappropriation of funds because the 1972–73 budget provides adequate funds for the program and it is more effective management to maintain the program on an annual funding basis

Section 10.7—For support of Department of Social Welfare. I eliminate this section and delete the following language:

"The unexpended balance of funds appropriated to the Department of Social Welfare by Chapter 578, Statutes of 1971, Section 39 7(b), is hereby reappropriated to the Department of Education for the cost of child care services and child care training programs pursuant to the provisions of Sections 10811 and 10811 5, Welfare and Institutions Code, provided, that the Department of Finance may, by executive order, transfer funds in augmentation of the amount scheduled in subdivision (h) of Item 258 for purposes of meeting the state matching fund requirements for child care services provided for under Public Law 90-248."

Action on this section is taken in conjunction with my reduction to Item 273 1. County child care programs should continue to be under the jurisdiction of the Department of Social Welfare since that Department is presently equipped to maintain the day-to-day county supervision that is necessary Section 10 7 would have transferred the funds to the Department of Education Elimination of Sec 10 7 will ensure that unexpended child care funds will continue to be available in 1972–73 to Social Welfare for child care programs.

Section 19.6—For early announcement of awards and grants by the Scholarship and Loan Commission I reduce the amounts reflected in this section by a total of $1,750,899 by reducing the amount for scholarship awards, paragraph (a), from $29,000,000 to $27,850,862 and the amount for graduate fellowship awards, paragraph (b), from $1,560,000 to $958,239

I have reduced amounts in this section in conformity with action taken on Item 298 and also to maintain the graduate fellowship program funding at approximately $1,000,000

With the above deletions and reductions, I hereby approve Senate Bill No 50

RONALD REAGAN, Governor

Veto Message—Assembly Bill No. 557

Governor's Office, Sacramento
June 23, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No 557 entitled, "An act to amend Section 71145 of, add Section 71180 to, and repeal Sections 71141 and 71180 of, the Government Code, relating to judges "

This bill attempts to conform municipal court election procedures to those used in superior court elections As such, the relatively simple procedures used for the election of municipal court judges would result in unnecessary complications and inequity.

This bill would contribute to the log jam in our courts because of the time delay in filling vacancies which might occur during election years. Moreover, some judges would be required to face election only a few months after they have been appointed to the bench Finally, no transition period has been included in this bill, and, as a result many judges would now face the uncertainty of not knowing when their term in office ends.

I can see no reason for adding confusion to our judicial election procedures. While this bill may be a well-intentioned attempt to simplify these procedures, in reality it can only complicate them.

For these reasons, I am returning the bill unsigned.

Respectfully,

RONALD REAGAN, Governor

Amendment No. 1

"103001 The Legislature hereby finds and declares:

(a) It is necessary that a transit district be established to operate a single unified public transportation system in Monterey County in order to meet the present and future public transportation, and mass and rapid transit, needs of that county At the present time, there does not exist within the county a publicly owned public transportation system.

(b) It is, therefore, necessary to provide an authority, to wit: a transit district, and to establish such a transit district appointed by, and responsive to, the cities in Monterey County and the County of Monterey so that there will be sufficient governmental authority to solve the existing and future transportation problems of the region and provide the needed comprehensive public transportation system.

(c) Because there is no general law under which such a district could be formed, the adoption of a special act and the creation of a special district is required

103002. It is the intent of the Legislature that the creation of this district shall further the concept of regional rapid transit and transit districts, with the eventual goal of the creation of a network of rapid transit systems throughout the state which would be operated as a single coordinated statewide system to facilitate the expeditious movement of people between the major metropolitan centers of the state.

The board may contract with the county, or delegate to the appropriate county officials the authority, to conduct the election within the county on behalf of the district. CHAPTER 7. BONDS AND OTHER EVIDENCE OF INDEBTEDNESS

Article 1. Authorization and Issuance of General Obligation Bonds

103500. The district may exercise its powers under this article only with respect to territory in cities and counties in which the voters have authorized the district to operate and levy a tax, the term "district" as used in this article, shall be limited to such territory for purposes of the election and the incurring of indebtedness, and for the purposes of Section 103336.

103501 Whenever the board deems it necessary for the district to incur a bonded indebtedness for the acquisition, construction, or repair of any or all improvements, works, property or facilities, authorized by this part or necessary or convenient for the carrying out of the powers of the district, or for any other purpose authorized by this part, it shall, by ordinance, adopted by a vote of two-thirds of all members of the board, so declare and and call an election to be held in the district for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the district; provided the total amount of bonds issued and outstanding pursuant to this article shall not exceed 15 percent of the assessed value of the taxable property of the district as shown by the last equalized assessment rolls of the counties included within the district. The ordinance shall state·

(g) The date of the election

(h) The manner of holding the election and the procedure for voting for or against the measure

(i) The ordinance may also contain any other matters authorized by this part or any other law.

103502. Notice of the holding of such election shall be given by publishing, pursuant to Section 6066 of the Government Code, the ordinance calling the election in at least one newspaper published in such district. No other notice of such election need be given. Except as otherwise provided in the ordinance, the election shall be conducted as other district elections

103503 If any proposition is defeated by the electors, the board shall not call another election on a substantially similar proposition to be held within six months after the prior election If a petition requesting submission of such a proposition, signed by 15 percent of the district electors, as shown by the votes cast for all candidates for governor within the district at the last gubernatorial election, is filed with the board, it may call an election before the expiration of six months

103504 If a majority of the electors voting on the proposition vote for it, then the board may, by resolution, at such time or times as it deems proper, issue bonds of the district for the whole or any part of the amount of the indebtedness so authorized and may from time to time, by resolution, provide for the issuance of such amounts as the necessity thereof may appear, until the full amount of such bonds authorized shall have been issued The full amount of bonds may be divided into two or more series and different dates and different dates of payment fixed for the bonds of each series A bond need not mature on an anniversary of its date The maximum term the bonds of any series shall run before maturity shall not exceed 50 years from the date of each series respectively In such resolution or resolutions, the board shall prescribe the form of the bonds (including, without limitation, registered bonds and coupon bonds) and the form of any coupons to be attached thereto, the registration, conversion and exchange privileges, if any, pertaining thereto, and fix the time when the whole or any part of the principal shall become due and payable

103505 The bonds shall bear interest at a rate or rates not exceeding 7 percent per annum, payable semiannually, except that the first interest payable on the bonds or any series thereof may be for any period not exceeding one year as determined by the board In the resolution or resolutions providing for the issuance of such bonds, the board may also provide for call and redemption of such bonds prior to maturity at such times and prices and upon such other terms as it may specify, provided that no bond shall be subject to call and redemption of such bonds prior to maturity unless it contains a recital to that effect or unless a statement to that effect is printed thereon The denomination or denominations of the bonds shall be stated in the resolution providing for their issuance, but shall not be less than one thousand dollars ($1,000) The principal of and interest on such bonds shall be payable in lawful money of the United States at the office of the treasurer of the district or at such other place or places as may be designated, or at either place or places at the option of the holders of the bonds The bonds, or such series thereof, shall be dated and numbered consecutively and shall be signed by the chairman of the board and the treasurer, countersigned by the secretary and the official seal

of the district attached The interest coupons of such bonds shall be signed by the treasurer. All such signatures, countersignatures and seal may be printed, lithographed or mechanically reproduced, except that one of such signatures or countersignatures on the bonds shall be manually affixed. 103506. The bonds may be sold as the board determines by resolution, but for not less than par. Before selling the bonds, or any part thereof, the board shall give notice inviting sealed bids in such manner as it may prescribe If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if the board determines that the bids received are not satisfactory as to price or responsibility of the bidders, the board may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

103507. Delivery of any bonds may be made at any place either inside or outside the state, and the purchase price may be received in cash or bank credits.

103508 All accrued interest and premiums received on the sale of bonds shall be placed in the fund to be used for the payment of principal of and interest on the bonds and the remainder of the proceeds of the bonds shall be placed in the treasury to the credit of the proper improvement fund and applied exclusively to the purposes for which the debt was incurred (which purposes shall be in conformity with an approved general transit plan or element thereof then in effect); provided, however, that when such purposes have been accomplished, any moneys remaining in such improvement fund (a) shall be transferred to the fund to be used for the payment of principal of and interest on the bonds, or (b) shall be placed in a fund to be used for the purchase of outstanding bonds of the district from time to time in the open market at such prices and in such manner, either at public or private sale or otherwise, as the board may determine. Bonds so purchased shall be canceled immediately

103509. After the expiration of three years after a bond election, the board may determine, by ordinance adopted by a vote of three-fifths of all the members of the board, that any or all of the bonds authorized at the election remaining unsold shall not be issued or sold. When the ordinance takes effect, the authorization to issue those bonds shall become void.

103510 Whenever the board deems that the expenditure of money for the purposes for which the bonds were authorized by the voters is impractical or unwise, it may, by ordinance adopted by a vote of three-fifths of all members of the board, so declare and call an election to be held in the district for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of such bonds for some other purpose or, in the case where bonds have been sold, the proposition to use the proceeds, for some other purposes The procedure, so far as applicable, shall be the same as when a bond proposition is originally submitted.

103511 The board may provide for the issuance, sale, or exchange of refunding bonds to redeem or retire any bonds issued by the district upon the terms, at the times and in the manner which it determines. Refunding bonds may be issued in a principal amount sufficient to pay all, or any part, of the principal of such outstanding bonds, the interest thereon and the premiums, if any, due upon call and redemption thereof prior to maturity, and all expenses of such refunding. The provisions of this article for issuance and sale of bonds apply to the issuance and sale of such refunding bonds; except that (a) no election need be called or held for the purpose of authorizing the issuance of refunding bonds, and (b) when refunding bonds are to be exchanged for outstanding bonds the method of exchange shall be as determined by the board.

103512. The provisions of Article 4 (commencing with Section 53500), Chapter 3, Part 1, Division 2, Title 5 of the Government Code are applicable to the district.

103513.
