Reply by Speaker

Mr. Lowrey arose to the following parliamentary inquiry: Will Mr. Banks be back from Washington at that time?

Reply by Speaker

The Speaker replied that if he is not, the special order can be reset.

Request to Hold Motion Temporarily

Mr. Hawkins moved that Assembly Constitutional Amendments Nos. 38 and 55 be re-referred to the Committee on Constitutional Amendments.

1233. [The director may, upon application to him, issue to any warehouseman a license for the conduct of a warehouse or warehouses in accordance with this chapter and such rules and regulations as may be made hereunder. Each such warehouse shall be suitable for the proper storage of the particular product or products for which a license is applied for, and each warehouseman shall agree, as a condition to the granting of the license, to comply with and abide by all the terms of this chapter and the rules and regulations prescribed hereunder, except that if a warehouseman operates two or more warehouses in the same city or village, or on the same railroad siding, in conjunction with each other, and with the same working force, and if but one set of books and records is kept with respect to weight certificates, scale tickets, inspection certificates and receipts issued for products stored in all such warehouses, only one license shall be required for the operation of all such warehouses.] *No person shall operate a warehouse for the storage of products for compensation unless he has a valid, effective license, issued by the director pursuant to this chapter, for such warehouse; provided, however, that this provision shall not prohibit the delivery of products received at warehouse prior to the effective date of this amendment or during the effective period of any license issued hereunder for such warehouse. The director is authorized to issue to any warehouseman a license for the conduct of the warehouse or warehouses in accordance with this chapter and with such regulations as may be made hereunder; provided, that each such warehouse shall be found suitable for the proper storage of the products for which a license is to be issued, and that such warehouseman agrees, as a condition of the granting of the license, to comply with all the terms of this chapter and the regulations prescribed hereunder. [There is hereby appropriated, out of any moneys in the State Treasury not otherwise appropriated, the sum of ten thousand dollars ($10,000), which shall be placed to the credit of the Department of Agriculture Fund and used to carry out the provisions of this chapter until such time as the revenue derived from collected fees shall be sufficient to pay the costs thereof. After July 1, 1934 five per centum of the collected fees shall be paid quarterly into the general fund of the State Treasury until such time as an amount equivalent to that herein appropriated has been repaid.]

SEC. 7. *Section 1245 of said code is amended to read:*

1245. Every warehouseman conducting a licensed warehouse shall keep the products therein of one depositor so far separate from products of other depositors, and from other products of the same depositor for which a separate receipt has been issued, *as to permit at all times the identification and re-delivery of products* deposited; but [if authorized by agreement or by custom,] a warehouseman may mingle fungible products with other products of the same kind and grade. [He is severally liable to each depositor for the care and redelivery of his share of such mass to the same extent and under the same circumstances as if the products had been kept separate.] He shall not mix fungible products of different grades, except upon written order of the owner or his agent and the surrender of the warehouse receipts.

SEC. 8. Section 1245.5 is added to said code, to read:

1245.5. With respect to commingled products, every warehouseman licensed under this chapter shall at all times maintain in his warehouse a stock of products which is of at least the quantities, kinds and grades which he is obliged to deliver under all outstanding receipts for such products.

(e) The rate of storage charges.

(f) A description of the products received, showing the quantity, or, in *the* case of products [customarily put up] in *bags* [bales] or packages, the marks, numbers, or other means of identification, *if any*, [and the weight of such bales or packages] *the number of bags and weight in a lot and the weight of bulk products*

(g) The grade or other class of the products received and the standard or description in accordance with which such classification has been made. Such grade or other class shall be stated according to the [standard of the State applicable to such products as the same may be fixed and promulgated under authority of law. Until official standards of the State for any product or products have been fixed and promulgated, the grade or other class thereof may be stated in accordance with any recognized standard or in accordance with such rules and regulations not inconsistent herewith as may be prescribed by the director.] *Official grades at the warehouse location if available. If official grades are not available at the warehouse location, the grade may be determined by the best available means at the warehouse location or any grading laboratory qualified to issue official grade certificates, on the basis of a sample taken under the supervision of a licensed inspector, or a sample which the depositor and the warehouseman agree to be representative, or in accordance with such regulations not inconsistent herewith as may be prescribed by the director.*

(h) A statement that the receipt is issued subject to this chapter and the [rules and] regulations prescribed thereunder.

(i) The fact of ownership of the products by the warehouseman, solely, jointly, or in common with others, if such is the fact.

(j) A statement of the amount of advances made and of liabilities incurred for which the warehouseman claims a lien. If the precise amount of such advances made or of such liabilities incurred is at the time of the issue of the receipt unknown to the warehouseman or his agent who issues it, a statement of the fact that advances have been made or liabilities incurred and the purpose thereof is sufficient.

(k) A statement of the amount of any deduction for shrinkage of any grain deposited on any basis other than identity preserved, if the warehouseman wishes to claim any such deduction.

(l) A statement as to whether the product is stored identity preserved or is commingled.

[(k)] *(m)* Such other terms and conditions within the limitations of this chapter as may be required by the director.

[*(l)*] *(n)* The signature of the warehouseman, or his authorized agent. Unless otherwise required by law, if a statement of the grade is not requested by the depositor of [other than fungible products] *a product stored indentity preserved*, a receipt omitting compliance with subdivision (g) of this section may be issued, without reference on the receipt as to why the grade of the product has been omitted therefrom.

SEC. 10. Section 1249 of said code is amended to read:

1249. While an original receipt is outstanding and uncanceled by the warehouseman issuing the same no other or further receipt shall be issued for the product covered thereby or for any part thereof, except that in the case of a lost or destroyed receipt a new receipt, upon the same terms and subject to the same conditions and bearing on its face the number and date of the receipt in lieu of which it is issued, may be issued upon compliance with the [statutes of the State.] *regulations prescribed hereunder.*

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 10, 1957

Hon. Jesse M. Unruh
Assembly Chamber

Assembly Bill No. 3628 as Amended April 8, 1957:
Vote Necessary to Enact—No. 13304

DEAR MR. UNRUH: You have inquired as to the vote necessary for the passage of Assembly Bill No. 3628, as amended in the Assembly April 8, 1957.

It is our opinion that a vote of two-thirds of the elected members of each house is necessary for the passage of this bill as it now reads.

The bill as it now reads would exempt from taxation any personal property shipped into California from elsewhere on a consigned basis to be processed here and then transported to a point elsewhere for use solely outside California, title to the property not passing to the consignee or processor.

A bill making such an exemption requires a two-thirds vote of the elected members of the Legislature in view of Section 14 of Article XIII of the State Constitution, which reads:

"The Legislature shall have the power to provide for the assessment, levy and collection of taxes upon all forms of tangible personal property, all notes, debentures, shares of capital stock, bonds, solvent credits, deeds of trust, mortgages, and any legal or equitable interest therein, not exempt from taxation under the provisions of this Constitution, in such manner, and at such rates, as may be provided by law, and in pursuance of the exercise of such power the Legislature, two-thirds of all of the members elected to each of the two houses voting in favor thereof, may classify any and all kinds of personal property for the purposes of assessment and taxation in a manner and at a rate or rates in proportion to value different from any other property in this State subject to taxation and may exempt

entirely from taxation any or all forms, types or classes of personal property."

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By J. GOULD, Principal Deputy

Two copies to Hon. Montivel A. Burke pursuant to Joint Rule 34.

Amendment No. 7

On page 2, strike out lines 3 to 10, inclusive, and insert

"Due to the recent increase in the maximum amount which may be loaned to a veteran under the Veterans Farm and Home Purchase Act of 1943 to $15,000, a large number of loan applications have been received by the Department of Veterans Affairs from veterans who desire to finance farms and homes. Approximately 75 percent of these applications have been made by veterans who wish to refinance more expensive farms and homes which they were able to acquire originally under other financing. While loans in such cases are entirely proper, it is only fair that the needs of the veteran who now has no home and who in this time of tight credit restrictions is seriously handicapped in the financing of a home purchase should be considered. For this reason, it is necessary to impose an immediate moratorium with respect to loans for refinancing homes and farms to enable the Legislature to study and formulate a system of priorities that will authorize refinancing under appropriate circumstances without depriving the many veterans who do not now own farms or homes of the opportunity to acquire them."

Amendments read, and adopted.

Bill ordered reprinted, re-engrossed, and to be re-referred to the Committee on Military and Veterans Affairs.

RESOLUTIONS

The following resolution was offered:

By Messrs. Busterud, Sumner, Masterson, and Weinberger:

House Resolution No. 192

Relative to an interim study of traffic accident consequences

WHEREAS, Vehicular traffic on California highways in recent years has outgrown all estimates and expectations while the number and severity of traffic accidents in this State has concurrently grown to catastrophic proportions; and

WHEREAS, Such accidents each year take a tragic toll in personal injuries, deaths, and property damage; and

WHEREAS, This toll constitutes a major economic loss, and results in grave social dislocations throughout our State; and

WHEREAS, A very high percentage of the cases heard by the courts of this State arise out of traffic accidents, and a corresponding proportion of tax burden to maintain those courts results therefrom; and

WHEREAS, Traffic accident litigation is a primary cause of congested court calendars and delays in the administration of justice; and

WHEREAS, Judgments in personal injury cases are often inadequate to compensate for the economic loss and frequently are uncollectible in cases where the defendant is not insured or are only partially collectible where he is under-insured; and

WHEREAS, The unfortunate victims of traffic accidents frequently sustain grievous personal sufferings and economic loss in medical expenses, lost earnings, broken families, damaged and destroyed property, and other consequences of such accidents; and

WHEREAS, Studies made by responsible agencies indicate that in many instances the economic losses sustained by these victims are not recovered, because their injuries and damages are inflicted by uninsured motorists; and

WHEREAS, Although commendable emphasis has been and continues to be directed to safety measures designed to reduce the number of such accidents, a high volume of such accidents is an unavoidable consequence of our industrial society, and immediate attention must be directed to solving the economic, social and legal problems thereby created; and

WHEREAS, It is the desire of this Assembly to explore thoroughly all aspects of the foregoing problems and any related matters in order to provide a factual basis upon which legislation may be based; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Interim Committee on Judiciary is authorized and directed to ascertain, study, and analyze all facts applicable to:

(a) the nature and extent of the economic losses and social dislocations arising out of traffic accidents in this State;

(b) the degree to which such economic losses and social dislocations are arising out of accidents caused by uninsured motorists;

(c) the proportion of such losses and dislocations caused by uninsured motorists which are not compensated by insurance or otherwise;

(d) the state of the laws by which the responsibility for such accidents is measured or assigned, as well as the operation, effect, administration and enforcement of such laws;

(e) various methods designed to assure the availability of funds needed to alleviate the burden of the losses and dislocations, giving emphasis to methods which will preserve and encourage private enterprise, including the New York Financial Security Act and other proposals designed to provide systems of compensation for such losses and dislocation; and, be it further

Resolved, That the committee is directed to report thereon to the Assembly at the 1959 Regular Session, including in the report its recommendations for appropriate legislation.

Resolution read, and ordered referred to the Committee on Transportation and Commerce.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Levering asked for, and was granted, unanimous consent that the following opinion of the Attorney General be ordered printed in the Journal:

OPINION OF ATTORNEY GENERAL

OFFICE OF THE ATTORNEY GENERAL

State of California

EDMUND G. BROWN, Attorney General

Opinion of EDMUND G. BROWN, Attorney General—No. 57/42, May 14, 1957

WALLACE HOWLAND, Assistant Attorney General

The Water Problems Coordinating Subcommittee of the Joint Committee on Water Problems of the California State Legislature has requested our opinion as to whether or not any or all of the proposed Upper Feather River Basin projects have been authorized by the Legislature as part of the Feather River Project. The question includes, but is not limited to five upstream projects designated as "Antelope Reservoir," "Dixie Reservoir," "Abbey Bridge Reservoir," "Grizzly Valley Reservoir," and "Frenchman Reservoir."

Our conclusions may be summarized as follows:

(1) The Legislature has not authorized any projects in the Upper Feather River Basin as part of the Feather River Project;

(2) The Legislature has delegated to the Department of Water Resources the authority to modify the legislatively defined and approved Feather River Project under Water Code Section 11260, and to add new units to the Central Valley Project under Section 11290. (Unless otherwise designated, all section references herein are to sections of the Water Code.) Pursuant to either of these statutes, the Department of Water Resources could authorize any or all of the Upper Feather River Projects by administrative action; however, the department has not done so.

(3) In view of the foregoing, there is no existing authority for the expenditure of Item 419.6 of the Budget Act of 1956, making an appropriation for the "acquisition of dam and reservoir sites" for the five designated projects in the Upper Feather River Basin. The enactment of the Budget Act itself cannot be considered as constituting legislative authorization for the upstream projects referred to in view of Article IV, Section 24, of the California Constitution.

Analysis

The five upstream projects on the Feather River referred to were the subject matter of Item 419.6 of the Budget Act of 1956 (Calif. Stats. 1956, c. 1), which made the following appropriation:

"For acquisition of dam and reservoir sites for the following reservoirs, Water Project Authority 273,000
Grizzly Valley Reservoir on Big Grizzly Creek, Frenchman Reservoir on Little Last Chance Creek, Antelope Valley Reservoir on Indian Creek, Dixie Refuge Reservoir on Last Chance Creek, Abbey Bridge Reservoir on Red Clover Creek."

In view of this appropriation the word "authorized" as used in the question propounded could have two different meanings. Accordingly, the question is rephrased to read alternatively:

(a) Whether any projects in the Upper Feather River Basin have been *authorized for construction, operation and maintenance* by the State as part of the Feather River Project. If so, authority for the acquisition of the dam sites for which appropriation was made by Item 419.6 would be included therein. If not, the further question then arises:

(b) Whether the Legislature has *authorized the acquisition* of the dam and reservoir sites for which money was appropriated by Item 419.6 to the Water Project Authority.

The powers, duties and functions of the Water Project Authority have been transferred to the Department of Water Resources (Calif. Stats. 1956, c. 52, First Ex. Sess., Water Code sec. 153).*

The only "project" which the department has been authorized to construct, maintain and operate, is the Central Valley Project, which is the subject matter of Part 3, Division VI of the Water Code, beginning at Section 11100. Hence, legislative authority, if it exists, for any

* For brevity the word "department" as used herein refers to both the Department of Water Resources and the predecessor Water Project Authority.

projects in the Upper Feather River Basin must be found within the definition of the Central Valley Project as set forth in Sections 11200-11290.

The construction of the Central Valley Project "is a single object and the units thereof collectively constitute one project" (Sec. 11200). "The project as authorized by this part consists of the units provided for in this chapter" (Sec. 11201). None of the "units" so provided has any pertinence to the question propounded except the Feather River Project. Hence we turn to the question of whether the Legislature authorized the construction of any dams or reservoirs in the Upper Feather River Basin by enacting Section 11260, as amended in 1956 (Calif. Stats. 1956, c. 54, First Ex. Sess.). As so amended, this section authorizes the department to construct, maintain and operate, as units of the Central Valley Project:

"11260. The *units set forth* in publication of the State Water Resources Board entitled 'Report on Feasibility of Feather River Project and Sacramento-San Joaquin Delta Diversion Projects Proposed as Features of the California Water Plan,' dated May, 1951, *as modified in the publication of the Division of Water Resources entitled 'Program for Financing and Constructing the Feather River Project as the Initial Unit of the California Water Plan,' dated February, 1955, subject to such further modifications thereof as the authority* [*Department*] *may adopt*, * * * " (Emphasis added; the documents so specified are hereinafter referred to as the "1951 report" and the "1955 report," respectively.)

From this enactment there arise the questions (a) whether the Upper Feather River Basin projects are "units set forth" in the 1951 report, as modified in the 1955 report, or (b) whether they have been adopted as further modifications thereof by the department.

We conclude that these questions must be answered in the negative for the following reasons:

The Feather River Project "set forth" in the 1951 report is described on pages 2-5 of the 1955 report. It consisted of the following features:

(a) Oroville Dam;
(b) Oroville Power Plant;
(c) Oroville afterbay dam and power plant;
(d) Delta Cross Channel;
(e) Electric power transmission system from Oroville Power Plant to Tracy;
(f) Water conduit from the Delta to Southern California; and
(g) Water conduit from the Delta to Santa Clara and Alameda Counties (p. 2).

It is significant that at its very beginning the 1955 report *added* certain features to, *deleted* certain features from, and *revised* certain features of, the 1951 report. For example, the 1955 report *added* "the following features not included in the original report: The San Luis Forebay, San Luis Reservoir, Buena Vista Forebay, and Quail Lake Afterbay along the Feather River Project Aqueduct" (p. 4). It *deleted* the electric power transmission system included in the earlier report (p. 3). It *revised* the earlier provisions for the Oroville Afterbay (p. 3).

Significantly, the 1955 report does not content itself with merely making recommendations concerning these specific modifications in the already authorized Feather River Project. On the contrary, the 1955 report *assumes* such modifications for the purposes of the report.

As so modified, the 1955 report (p 4) "delineated" the Feather River Project on Plate 1, with the route shown in more detail on Plate 3 attached to the report. Neither of these plates makes any reference to developments in the Upper Feather River Basin above Oroville Dam.

Following this introduction, the 1955 report is organized by chapter headings numbered in sequence as follows: "Introduction," "Feather River Project," "Step-construction Program for the Project," "Methods of Financing," and "Financial Analyses" None of these chapters describe or set forth any developments in the Upper Feather River Basin.

Chapter VI, entitled "Upstream Features," begins with the statement: "Estimates of water requirements and water development plans for the Upper Feather River Service Area have been given consideration in planning the Feather River Project" (p. 173).

At page 181, the report states: "Possible plans for the development of water supplies * * * are contained in the following paragraphs." There follows a description of Antelope Valley, Dixie Refuge Dam, and Abbey Bridge Reservoir on the North Fork (p 181); Grizzly Valley Reservoir and Frenchman Reservoir on the Middle Fork (p. 182); and Little Grass Valley Reservoir and Lost Creek Reservoir and other specified works on the South Fork (p. 183).

The report concludes with four "recommendations" (pp. 190-191), of which the following are pertinent here:

> "1. Adequate funds be appropriated by the Legislature to initiate construction of the Feather River Project as presented in this report.
>
> * * * * * * *
>
> "3. Upstream features on the North, Middle and South Forks of the Feather River, as set forth in Chapter VI of this report, be included in the Feather River Project."

From the foregoing we conclude that:

(a) The upstream projects on the North, Middle, and South Forks of the Feather River were not included in the "Feather River Project as presented in" the 1955 report within the meaning of the 1956 amendment to Section 11260.

(b) The modifications of the units set forth in the 1951 report authorized by the 1956 amendment are limited to those summarized on pages 2-5 of the 1955 report, which do not include any developments upstream from the Oroville Dam and Reservoir.

These conclusions are based on the markedly different treatment given the San Luis Reservoir, for example, on the one hand, and the Upper Feather River Basin reservoirs on the other hand Neither of these features had been previously described or included in the 1951 report. The 1955 report expressly "added" the San Luis Reservoir and the other additional features described on page 4 thereof; it included their costs in the studies of project financing; and it considered the project operations in the light of their inclusion therein. It is the project as so modified which is the subject of recommendation No. 1

of the 1955 report. On the other hand, the Upper Feather River Basin projects referred to in Chapter VI are singled out as the subject of a separate and specific recommendation that they "be included in the Feather River Project." This recommendation assumes that they are not included in the project as "presented in this report." The contrary assumption would make the recommendation unnecessary.

We further conclude that in enacting the 1956 amendment to Section 11260 (Calif. Stats. 1956, First Ex. Sess. c. 54) the Legislature did not specifically act upon the recommendation contained in the 1955 report that the Upper Feather River Basin reservoirs be included in the Feather River Project and did not by this enactment include them. In this connection it is noteworthy that the 1956 Legislature made its appropriation for the acquisition of the five upstream sites (Item 419.6) separate and distinct from its appropriation for the acquisition of property for and other expenses in connection with the Feather River Project. Item 419.5 appropriated the sum of $9,350,000.

> "For surveys, explorations, investigations, preparation of construction plans and specifications; surveys of, negotiations for, and acquisitions of, rights of way, easements, and property, including other expenses in connection therewith, for the Feather River Project, as authorized by Section 11260 of the Water Code and as modified by the report of the Division of Water Resources of February, 1955, entitled 'Program for Financing and Constructing the Feather River Project,' and as may be modified subsequently, Water Project Authority * * *"

The reference thus made in the Budget Act to the Feather River Project as modified by the 1955 report is significant. It would appear that the Legislature considered the acquisition of the upstream sites, which is the subject of Item 419.6, as not being included in the Feather River Project as modified by the 1955 report, which is the subject of Item 419.5.

We turn now to the question of whether there has been any authorization by administrative action of any projects in the Upper Feather River Basin.

Since first enacted in 1951, Section 11260 has authorized the department to modify the legislatively authorized Feather River Project. For example, as presently authorized, the Feather River Project consists of the units set forth in the 1951 report, as modified in the 1955 report: "* * * subject to such further modifications thereof as the authority [department] may adopt." The minutes of the Water Project Authority contain no reference to any action with respect to the 1955 report which could be construed as an adoption of any modifications thereof. In fact the Water Project Authority did not even make any recommendations concerning the 1955 report. By resolution dated February 16, 1955, the authority simply transmitted the report to the Legislature without comment or recommendation. We are advised that, since its inception in July 1956, the Department of Water Resources has not modified the legislatively authorized Feather River Project to include any project works in the Upper Feather River Basin within the meaning of 11260.

Reference has already been made to the fact that the Feather River Project is authorized as a unit of the Central Valley Project (Section 11260). As to the Central Valley Project, Section 11290 provides:

> "The project includes such other units as may be from time to time added by the authority [department] to the units specifically enumerated. The authority [department] may add additional units which are consistent with and which may be constructed, maintained, and operated as a part of the project and in furtherance of the single object contemplated by this part."

To date the department has not added any "additional units" to the Central Valley Project by administrative action pursuant to the authority granted under Section 11290.

We conclude that neither the designated dams and reservoirs nor any other projects in the Upper Feather River Basin have been authorized to date, either directly by act of the Legislature, or by administrative action pursuant to the authority delegated by the Legislature.

Since we have been unable to find any legislative authority for the construction, operation, and maintenance by the State of any projects in the Upper Feather River Basin, we turn to the question whether authority for the acquisition of the designated dam and reservoir sites can be found in the Budget Act of 1956 which makes an appropriation for that purpose in Item 419.6.

In our opinion, legislative authority either for the construction of the designated projects in the Upper Feather River Basin or for the acquisition of the five dam and reservoir sites cannot be found in Item 419.6 of the Budget Act of 1956. "We recognize that the Budget Act may not constitutionally be used to grant authority to a state agency that the agency does not otherwise possess" (27 Ops. Cal. Atty. Gen. 345, 346).

Annual budget acts, like all other enactments of the Legislature, are subject to the provisions of Section 24, Article IV, of the California Constitution, which prescribes that every act of the Legislature "shall embrace but one subject, which subject shall be expressed in its title." While the so-called Budget Act amendment to the California Constitution, Section 34, Article IV, authorizes an annual budget bill containing multiple items of appropriation, nonetheless, the budget bill may deal only with the one subject of appropriations to support the annual budget consistently with Section 34. This statement is not inconsistent with our prior opinions upholding language in various budget acts which conditions, restricts or limits the manner in which an appropriation may be expended (see 25 Ops. Cal. Atty. Gen. 267, 271-272). Suffice it to say that a restriction on the manner in which an appropriation may be spent for an already authorized state purpose is clearly distinguishable from the impropriety of a budget act substantively authorizing a new activity as well as making an appropriation for such purpose. It follows that Item 419 6 cannot be construed as constituting legislative authorization for the upstream projects referred to therein, either as part of the Feather River Project or independently thereof. The opposite conclusion would necessarily result in the budget act substantively amending and changing existing statute law. We have previously held that this cannot validly be done. (Ops.

Cal. Atty. Gen. No. NS-2945, dated Sept. 24, 1940; see 27 Ops. Cal. Atty. Gen. 111).

As previously stated, the department is not presently authorized to carry on any activity with a view to the construction, operation, and maintenance of any project other than the Central Valley Project. The Legislature has enacted with clarity (Section 11201) that the Central Valley Project consists of the units provided for in Chapter 2, Part 3, Division 6. The only units so provided for are those specifically enumerated and such other units as may be added by the department by administrative action. To construe Item 419.6 of the Budget Act as enlarging upon the project as so defined by the Legislature would result, in our opinion, in a substantive change in an existing statute which would contravene Section 34 of Article IV of the Constitution. Accordingly we reject such a construction This is not to say that Item 419 6 is an unconstitutional enactment, however. The appropriation must be deemed to have been made by the Legislature in contemplation of the existing authority granted to the department by Sections 11260 and 11290 to authorize the projects for which such appropriation was made, either as modifications of the Feather River Project as described in the 1955 report, or as additional units of the Central Valley Project As noted, the department has not taken such action to date and we are advised that at the present time the funds appropriated by Item 419.6 have not been expended.

CONSIDERATION OF SENATE BILL NO. 210

Bill read third time.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 210:

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, April 4, 1957

To the Honorable Members of the Assembly
Sacramento, California

GENTLEMEN:

Senate Bill No. 210, "An act to add Chapter 4 (commencing at Section 1300) to Division 6 of the Military and Veterans Code, relating to veterans' organizations, creating the United Spanish War Veterans Commission, and prescribing its powers and duties, and making an appropriation,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

This bill appropriates $6,000 from the General Fund to the United Spanish War Veterans Commission created therein. This commission is to promote the interests of veterans of the Spanish-American War and provide a California headquarters for the United Spanish War Veterans. In view of the objectives of this bill and its small appropriation, no purpose would be served by withholding action upon it until after final passage of the Budget Bill

I therefore recommend consideration of Senate Bill No. 210 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

RESOLUTIONS

The following resolution was offered:

By Messrs. Pattee and Coolidge:

House Resolution No. 194

Relative to requesting the Regents of the University of California to study the feasibility of establishing a campus of the university in Monterey, San Benito, or Santa Cruz County

WHEREAS, It has become apparent from enrollment projections prepared by the State Department of Finance and from estimates made by other agencies, including the Joint Staff for the Liaison Committee of the State Board of Education and the Regents of the University of California (the report of which was recently submitted to the Legislature), that unprecedented increases in enrollment should be expected shortly by the University of California; and

WHEREAS, The establishment of new university campuses appears to be the most equitable method of meeting the evident need for additional university facilities, by locating such facilities nearer to new major sources of students; and

WHEREAS, There are adequate and convenient sites in Monterey, San Benito and Santa Cruz Counties that are available for a campus that would serve the South Central California coast section and are sufficiently distant from the university campus in Berkeley to serve an area where its services would not be immediately conflicting with those of the Berkeley campus; and

WHEREAS, The cultural environment in this district is particularly conducive to institutions of higher learning as evidenced by the location in Monterey County of the United States Naval Post Graduate School of Engineering, the United States Army Language School, Hartnell A. & M. Junior College, Monterey Peninsula Junior College, and the residence there of many retired educational leaders from throughout the United States and Europe; now, therefore, be it

Resolved by the Assembly of the State of California, That the Regents of the University of California are requested to have suitable studies made of the feasibility and appropriateness of establishing a new campus of the university in Monterey, San Benito or Santa Cruz County, including estimates of the cost involved and recommendations to the Legislature thereon, such recommendations to be presented at the convening of the next Regular Session of the Legislature in 1958; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the Regents of the University of California.

Where an action or proceeding is heretofore or hereafter brought to set aside, cancel, avoid, annul, or correct any assessment or reassessment, or to review any of the proceedings, acts or determinations pursuant to this part, or to question the validity or enjoin the collection of any assessment or reassessment or to enjoin the issuance of bonds to represent any assessment or reassessment, said action or proceeding being brought after recordation of the assessment or reassessment but before the sale and award of the bonds, the legislative body may issue and sell said bonds unless prevented by order of court and may, in its discretion, order: (1) that the bonds be dated and bear interest as provided in Section 31680, (2) that the bonds be dated and bear interest from such date as may be specified by the legislative body, or (3) that notice of the assessment or reassessment be refiled in the office of the county recorder, in which case the time of recording as used in this part and in Section 4289 shall be the time of refiling such notice instead of the time of filing the original notice with the county recorder.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The constantly increasing traffic congestion in the State of California and particularly in its urban areas brings death or injury to many persons each day. Traffic congestion detrimental to the public safety is in some measure caused by the inability of the operators of motor vehicles to find quickly and easily a place to park. The provisions of this act are necessary to expedite the financing of parking districts to provide parking places in such congested areas and it is therefore necessary that this act take effect immediately."

Enclosure

REPORT OF CITIZENS LEGISLATIVE ADVISORY COMMISSION TO THE CALIFORNIA LEGISLATURE

May 15, 1957

Joint Committee On Legislative Procedure and
Committees On Rules Of The Senate And Assembly
State Capitol, Sacramento, California

GENTLEMEN: This report is made pursuant to Assembly Concurrent Resolution No. 23, adopted by the California Legislature at its 1957 Regular Session, creating the Citizens Legislative Advisory Commission and requiring the same to report to the Legislature not later than May 15, 1957.

The commission consists of 67 members appointed pursuant to the above mentioned Assembly concurrent resolution for the purpose of advising and assisting the Legislature on possible improvements in procedures and staffing. The membership comes from widely representative walks of life, and includes state-wide representation from leading civic, educational, political and business organizations. A list of the membership, giving their names and assocations, is hereto attached.

The organization meeting of the commission was held at the State Capitol on March 22, 1957, and presided over by Mr. Carl F. Wente, Chairman of the Executive Committee of the Bank of America, San Francisco, California, and former President of the California State Chamber of Commerce. During the course of the organization meeting, the undersigned was elected as permanent chairman, and the following committees and their chairmen were elected:

I. Legislative Sessions, Chairman, Mr. T. H. DeLap; former Senator and attorney at law, Richmond, California.

II. Legislative Terms of Office, Chairman, Mr. Thomas J. Cunningham; General Counsel, the Regents of the University of California, Berkeley, California.

III. Legislative Compensation and Conflicts of Interest, Chairman, Mr. Lloyd E Graybiel; Vice President, American Trust Company, San Francisco, California.

IV. Personal Assistance for Legislators, Chairman, Mr. Henry J. Kaiser, Jr ; Vice President, Henry J. Kaiser Company, Oakland, California.

V. Legislative Committees, Chairman, Mr. Dan Kimball; President, Aerojet, Sacramento, California.

VI Legislative Aids and Services, Chairman, Mr. Louis A. Rozzoni; President, California Farm Bureau Federation, Berkeley, California.

The subject committees forthwith entered upon a period of immediate activity, considering much research material which had been made available through the kind auspices of your Joint Committee on Legislative Procedure, the Office of the Legislative Counsel, and others. A total of 17 meetings of the various committees were held in the course of which recommendations to the commission were formulated.

A second full meeting of the commission was held at the State Capitol on April 26, 1957, at which recommendations of the various committees, referred to above, were received, considered and acted upon. For your assistance and advice, attached hereto you will find in full the text of the various resolutions adopted by the commission. In addition to these resolutions, attention should be directed to the Report of the Committee on Terms of Office, which was approved by the commission to the effect that while there exists many good reasons advanced for increasing the terms of office of legislators, additional information and work must be done before any firm recommendation can be made in that regard. Proposals in recent years for increasing terms of office have not met with popular support, and particularly in 1954, in California Ballot Proposition No. 10, which included provision for increasing the terms of both Assemblymen and Senators, was defeated by a vote of 962,000 for, to 2,122,000 against. Any proposal for extending the term of office, therefore, must be well documented. Such documentation could result from an analysis of the job done by a legislator, which analysis was recommended by Committee No. 3, having to do with legislative compensation. Any change in the term of office would have to involve a constitutional amendment, which, in any event, could not be voted upon until the General Election of 1958. It was the determination, therefore, that recommendations in this regard should await consideration of any analysis to be made as above suggested, rather than being based upon present incomplete data and information.

On the bothersome question of the number and effect of spot bills, the recommendations of Committee No. 1 on Legislative Sessions were believed to be beneficial. In addition, Committee No. 5 on Legislative Committees in its report recommended that further study should be given to the means by which the legislative log jam may be broken, and that a serious effort should be made to curtail the introduction of such spot bills.

Reference to the resolutions adopted will show that the commission, as a key philosophy of governmental action, continued to adhere to reliance upon the citizen legislator, who, in addition to his legislative obligations, is not restricted from remunerative activities in private life. The commission was convinced, however, that the burden of legislation is increasing with an increasing demand upon the time and energies of the legislator. This feeling is evident in the resolutions adopted recommending the abolishment of the constitutional recess and lengthening the general session.

Nearly all of the committees felt that the time within which the commission was permitted to act was too short for completion of the duties suggested and for an adequate determination of the problems inherent therein. You will see a number of resolutions adopted suggesting further study. The background of experience and integrity of the members of the commission we hope have proved of value in the action already taken, and it is left to the Legislature whether or not continued activity by such a group of citizens is of benefit

Acknowledgment is given to the excellent services rendered by our secretary, Dr. Ernest A. Engelbert, who was employed by you for this purpose. His help was invaluable. Acknowledgment is also given for the substantial information and research data made available through the Legislative Reference Section of the State Library and the Office of the Legislative Auditor and for the results of studies made as a part of the legislative conferences held at the University of California at Berkeley and the University of Stanford, Palo Alto, in recent years. Acknowledgment is also given for information made available by the Council of State Governments and for research assistance rendered by various personnel and offices of the University of California.

The members of the commission feel that they have made a worthwhile contribution by their recommendations, and that the opportunity of assisting and advising the Legislature in this capacity was not only a great privilege but also a pleasure. By and large, the members served without compensation for either time or expenses.

The commission is furnishing to each of the members of the Joint Committee on Legislative Procedure a full transcript of our general meetings, which transcript sets forth in full the factual data and supporting arguments, both for and against recommendations considered. No attempt is being made in this report to belabor said factual data or arguments, but we will be happy to augment the same as contained in the transcript, if desired.

Respectfully submitted,
CITIZENS LEGISLATIVE ADVISORY COMMISSION

Recommendations of the Citizens Legislative Advisory Commission to the California Legislature

May 15, 1957

Recommendations Dealing With Legislative Sessions

Constitutional Recess

The commission recommends that the constitutional recess be abolished.

Bill Introduction

The commission recommends that introduction of bills be unrestricted by the Constitution but that there be placed in the Constitution a requirement that no bill be considered for 30 days after its introduction, and that no bill be introduced within 30 days prior to the termination

of the general session, except either with the unanimous consent of the members or with the consent of the Governor stating that the matter is an emergency.

Length of General Session

The commission recommends that the general session be limited to 150 calendar days with the provision that no bill may be passed in the house of origin during the last 10 days of the session, except either with the unanimous consent of the members or with the consent of the Governor stating that the matter is an emergency.

Legislative Digest and Index

The commission recommends that a current digest and index be prepared by the Legislative Counsel and that such digest and index be available to the public.

Companion Bills, Joint Hearings, Etc.

The commission recommends that such matters as the use of companion bills, and joint hearings on bills be given further study by the Legislature with the recommendation that the Legislature seriously consider such matters with the view if possible of reforming the present procedure with reference to the consideration of bills.

Budget Session

The commission recommends that serious consideration be given to the elimination of the session in the even-numbered years, now known as the budget session.

Recommendations Dealing With Terms of Office

After careful consideration of the subject, Terms of Office, the commission recommends that the problem be given further study by this commission. This study should be developed and documented in the light of the action which will be taken if other recommendations of this commission are adopted.

Recommendations Dealing With Compensation and Conflicts of Interest

The Citizen Legislator

The commission believes in the philosophy of the citizen legislator who, in addition to his legislative obligations, is not restricted from remunerative activities in private life.

Compensation to Be Fixed by Statute

The commission recommends that compensation for the Members of the California State Legislature be fixed by statute.

Per Diem Allowances

The commission recommends eliminating from the Constitution (a) legislative mileage provisions, and (b) provisions relating to the number of days of service on legislative committees meeting between sessions of the Legislature for which per diem allowances are paid.

Compensation Survey

The commission recommends (a) the appointment of a citizens commission for the purpose of studying and evaluating the duties and

responsibilities of Members of the California State Legislature and of recommending rates of compensation, allowances, and actual and necessary expenses, (b) that the commission be provided with sufficient funds to enable it to employ such independent research agency or agencies as it deems necessary, and (c) that the recommendations of such commission be submitted to the Legislature for appropriate legislative action during the 1958 Budget Session of the California State Legislature.

Conflicts of Interest

In the field of conflict of interests the commission recommends the adoption of legislation embodying the principle that no legislator shall knowingly have any direct interest or engage in any business or professional activity which is in substantial conflict with the performance of his official obligations as a legislator of the State of California.

Recommendations Dealing With Personal Assistance for Legislators

Internship Program

The commission recommends that the proposed legislative internship program be referred back to the Committee on Legislative Procedures for appropriate study and action, for the reasons:

1. That it appears that some participation and responsibility devolves upon Members of the Legislature in connection with the program which involves a determination on the part of the Members of the Legislature.
2. That it appears that the internship program is primarily educational rather than an aid to the legislative program with which the commission is concerned.

Personal Staff

The commission recognizes the need for additional help for legislators and recommends that further study be undertaken by the commission for the purpose of determining specific personnel requirements.

District Offices

The commission does not recommend that, in general, district offices are needed for legislators, but that consideration should be given to the possibility of providing offices in those counties wherein the delegations might jointly profit from the use of such offices such as San Diego, Los Angeles, Alameda, San Francisco, Santa Clara, Orange, and San Bernardino Counties.

Recommendations Dealing With Legislative Committees

Consent Calendar

The commission recommends that each house of the Legislature amend its rules to provide for a Consent Calendar; that no bill be placed on the proposed Consent Calendar until it has been considered and reported out by standing committees of the respective houses. The commission recommends that the Assembly amend its rules to read as follows:

"Whenever a standing committee reports a bill out with a do pass recommendation it shall, if in its opinion the bill is noncontroversial

and will not be contested, recommend that the bill be sent to a special file to be designated the 'Consent Calendar.' Such bills, and any other bill whose author so requests at or after the time it is placed on the second reading file, shall be handled separately from the other bills and shall be listed in the Daily File, and printed under the heading 'Consent Calendar.' Each legislative day immediately following the appropriate point in the order of business the Assembly shall, for a period of one hour or so much thereof as is necessary, call for consideration in the order of their listing the bills which have been on the Consent Calendar for 20 days or longer. If, at any time before the final vote is taken on any such bill, three or more members object, the bill shall forthwith be withdrawn from the Consent Calendar and returned to its place on the regular Daily File."

The commission further recommends that the Senate similarly amend its rules to provide for a Consent Calendar.

Number of Committees and Assignments

With respect to the number of committees and assignments it is recommended that:

1. The number of legislators serving on each committee be reduced.
2. A study be made of the subject matter of the various bills assigned to each committee and, based on such a study, the committees be realigned to equalize the workload of the members of the Legislature.
3. A wider use of subcommittees be made to save the time of the committee members and witnesses.

Hearings by Interim Committees

The commission recommends that interim committees studying the same problem hold joint hearings.

Recommendations Dealing With Legislative Aids and Services

Legislative Counsel

With respect to the Legislative Counsel the commission recommends that in providing adequate legislative service the Legislative Counsel's present independence and legal specialization should be preserved, and the office should not be given nonlegal research duties.

Legislative Auditor

With respect to the Legislative Auditor the commission recommends that:

1. The Legislative Auditor's Office should be responsible to both houses and not one or two committees.
2. The designation, "Legislative Auditor," should be reviewed in the light of designations given to other legislative service agencies, such as the recently established Office of Auditor General.
3. The Legislative Auditor's responsibilities should be limited to fiscal analysis and fiscal research and that the Legislative Auditor should be independent but accountable to the State Legislature as a whole.

General Research

WHEREAS, There exists a large amount of information and research data, including reports of past committees of the Legislature both interim and standing, resources of the State Library and of the University of California, and other research agencies; and

WHEREAS, There appears to be a lack of communication as well as of knowledge of these resources which are available to the Legislature in their consideration of many problems;

Therefore, This commission recommends that a separate office be established to function as a source of information and to coordinate research material and prepare this information in such form as to be readily available to committee chairmen and members of the legislative bodies. We believe the establishment of this service would eventually lead to better coordination and common understanding of the problems of both Houses.

Citizens Commission

In view of the broad scope of the problems under consideration by the commission it would be desirable to have the commission continued in order to provide sufficient time to properly analyze and consider the problems, including the need for adequate research facilities for the Legislature.

Report on Sediment Problems in California

UNIVERSITY OF CALIFORNIA
May 10, 1957

Mr. Arthur A. Ohnimus, Chief Clerk, Assembly
State Capitol Building, Sacramento, California

DEAR MR. OHNIMUS: Vice President Corley has asked that I send you copies of a report prepared under the auspices of the University's Committee on Research in Water Resources entitled "Sediment Problems in California." Please note particularly pages 135 to 145 which summarize the sedimentation problems discussed at this conference and page V, which lists the participants.

This conference on sedimentation problems was one of a series sponsored by the University in response to Senate Bill No. 67 of the 1956 Session of the Legislature. President Sproul appointed a committee under the chairmanship of Vice President Wellman to consider:

"(a) A review and summary of existing university research including available facilities;
(b) A prospectus of university research which may contribute to fundamental knowledge in the field;
(c) Suggestions for the coordination of research efforts, present and prospective, to assure that programs will be in keeping with the best utilization of the resources of the state-wide University."

The committee has arranged nine conferences of experts in various aspects of the over-all water resources field for the purpose of defining those areas of research which the University might appropriately undertake.

You may not have received a copy of the proceedings previously distributed on "Recreational Uses of Impounded Water" and I enclose a copy of that report also. Copies of other proceedings will be sent to you as soon as they are bound

Should you desire more copies of these reports, we will be glad to furnish them.

Sincerely yours,

M. P. O'BRIEN, Chairman

Sec. 2. Definitions. The following terms wherever used or referred to in this act, or in any indenture entered into pursuant hereto, shall have the following meanings, respectively, unless a different meaning appears from the context:

(a) Regents. The term "regents" means the existing corporation known as "the Regents of the University of California," as the same is constituted by the provisions of Article IX, Section 9, of the Constitution of the State of California.

(b) University of California. The term "University of California" means the public trust created by Article IX, Section 9, of the Constitution of the State of California, and each and all of the campuses of said university within the State of California.

(c) Project The term "project" means any one or more dormitories, [or] other housing facilities, [or] boarding facilities, *student union facilities, vehicle parking facilities or any other auxiliary or supplementary facilities for individual or group accommodation*, owned or operated or authorized to be acquired, constructed, furnished, equipped and operated by the regents for use by students, faculty members or employees of the University of California, or a combination of such facilities, which may include facilities already completed and facilities authorized for future completion, designated by the regents as a project in providing for the issuance of revenue bonds.

(d) Bonds. The term "bonds" or "revenue bonds" means the written evidence of any obligation issued by the regents, payment of which is secured by a pledge of revenues or any part of revenues, as provided in this act, in order to obtain funds with which to carry out the purposes of this act, irrespective of the form of such obligation.

(e) Revenues. The term "revenues" means and includes any and all fees, rates, rentals and other charges received or receivable in connection with, and any and all other incomes and receipts of whatever kind and character derived by, the regents from the operation of a project or arising from a project, including any such revenue as may have been or may be impounded or deposited in any sinking fund, redemption or reserve fund or other fund created for the security of revenue bonds or for the purpose of providing for the payment thereof or the interest thereon.

(f) Holder of Bonds. The "holder of bonds" or "bondholder" or any similar terms shall mean any person who shall be the bearer of any outstanding revenue bond or bond registered to bearer or not registered or the registered owner of any such outstanding revenue bond or bond which shall at the time be registered other than to bearer.

(g) Indenture. The term "indenture" means an agreement entered into by the regents pursuant to which revenue bonds are issued, regardless of whether such agreement is expressed in the form of a resolution of the regents or by other instrument.

(h) Person. The term "person" includes any individual, firm, corporation, association, copartnership, trust, business trust or receiver or trustee or conservator for any thereof, but does not include this State or any public corporation, political subdivision, city, county, district or any agency thereof or of this State.

(i) Number, Gender, Verbs:

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Present housing and auxiliary and supplementary facilities to accommodate students, faculty and other persons on certain campuses of the university are already grossly inadequate to meet demonstrated needs Enrollment projections of the Department of Finance and other competent analysts warn that the situation will soon become desperate The cost to the State of such accommodations can be reduced materially by the use of revenue bonds to finance them, and this act is necessary to authorize the regents of the university to issue such bonds for the auxiliary and supplementary purposes This act will also serve as appropriate evidence of authority to support applications for loan assistance for such purposes

from Federal Government agencies. Since these applications must be filed within 90 days to avoid a higher rate of interest on granted loans, it is necessary that this act go into immediate effect."

SEC. 2 Section 14746.6 of the Education Code is amended to read

14746.6. (a) Notwithstanding the provisions of Section 14746, persons other than (1) teachers and (2) other persons employed in a status requisite for membership in the State Teachers' Retirement System, who are active or retired members of a district retirement salary plan established under this article in any school district or districts, in which the average daily attendance of all districts combined is in excess of 200,000, governed by the same governing board, may be transferred by the governing board of the district or districts, with the consent of the majority of such active members of the plan expressing their desires with respect to the transfer evidenced in such manner as the governing board may prescribe, but no transfer of such active and retired members shall be effective for any purpose unless provision is made for retirement allowances for active and retired employees of the district as provided in subdivision (b) of this section

(b) (1) Active and retired employees, including future employees, of the district or districts who otherwise would be members of such plan, *persons who are members of the district's retirement salary plan under Section 14744 of this code, and persons who were employees on June 30, 1957, and who attained age 65 or over during the 12 months immediately preceding July 1, 1957*, other than teachers and persons employed in a status requisite for membership in the State Teachers' Retirement System or who were so employed prior to retirement, shall be made members and beneficiaries, respectively, of the State Employees' Retirement System according to the provisions of Part 3, of Division 5, of Title 2 of the Government Code, including transfer to said system of the accumulated contributions of said members, together with such other assets of said plan as may be determined The total of such other assets transferred, however, shall not be greater than the portion of the reserves of such plan which is allocable to such active and retired employees, as determined by actuarial valuation. In such valuation the portion of the reserves allocable to such active and retired employees proposed to be transferred shall be determined as an amount which bears the same ratio to the total reserves under such plan as the liabilities under the plan on account of such active and retired employees bear to the total liabilities under the plan on account of all active and retired employees thereunder On the effective date of the contract making such active employees members of the State Employees' Retirement System, such employees shall cease to be members of such plan, and neither they nor retired persons who are made beneficiaries of such state system, shall be paid or have any right to any allowance or other benefit under such plan for time beginning with said effective date.

(2) With respect to persons who are members of such plan at such transfer, it shall be provided in the contract making such employees members of the State Employees' Retirement System, that their respective rates of contribution thereunder shall be based on the age at the nearest birthday at July 1, 1944, or at the respective later effective dates of their membership in such plan, all instead of the age at the nearest birthday at the effective date of membership in such employees' system

(3) Each employee of the district or districts who is included in such contract, but who during all or part of his employment in a status requisite for membership in such plan was not a member thereof, because of his election under an available option, or who, while employed in a status not requisite for membership in such plan, was a member of the State Teachers' Retirement System and was contributing to that system, or who [failed to] *did not* redeposit upon re-entry into membership contributions previously withdrawn, shall have the right to elect by written document filed with the Board of Administration, State Employees' Retirement System, at any time within 90 days after the date upon which the notice of the right to make such election is mailed by such system either to the member's latest address on file in the office of such system, or to the office of the governing board of such district or districts, and prior to the date of retirement, to contribute to such system, subject to minimum payments fixed by the Board of Administration, and in one or more sums, or in not to exceed 60 monthly payments, an amount which, when added to his accumulated contributions, including interest, transferred as required in paragraph (1) of this subdivision (b), will make a total amount equal to the accumulated contributions, including interest, which would have been credited to him in such plan, if he had never elected not to be a member thereof, or if he had been a member of such plan during the time he was a member of such State Teachers' Retirement System and was contributing thereto, or if he had redeposited such withdrawn contributions upon such re-entry, as the case may be. Such employee shall pay to the State Employees' Retirement System interest on the unpaid balance of the amount payable to such system, beginning with the date of transfer, at the rate of interest currently used from time to time under the system. If such employee elects to make, and makes such contributions, and pays such interest, but not otherwise, he shall receive credit under such employees' system, as state service, for all the service rendered while he was not a member of such

plan, because of his optional exclusion, or for service rendered while he was contributing to such State Teachers' Retirement System; provided, such service is no longer credited under such teachers' system, or for all service upon which the withdrawn contributions were based, and for the purpose of paragraph (2) shall be considered as a member of such plan at such transfer and from November 1, 1937, or later beginning date of such service. Regardless of whether such contributions are made, such employee shall receive credit for service with which he was credited or would have been credited if he had been a member, as prior service under such plan. The contributions under this paragraph (3) shall be added to and administered in the same manner as the contributions transferred under paragraph (1), of this subdivision (b)

(4) Service rendered by active employees who are made members of the State Employees' Retirement System prior to or after the assumption by the district or districts of the function under which the service was rendered, but prior to the effective date of the contract making active employees such members, and the compensation for which was paid wholly or in part from funds other than the funds of the district or districts, shall be credited under such employees' system; provided, such service qualified for credit under such plan.

(5) The contract making such active employees members of the State Employees' Retirement System, shall include such employees with respect to service rendered in a status in which they are not eligible for membership in the State Teachers' Retirement System, as provided in Section 20491 of the Government Code, and also with respect to service rendered in a status in which they are eligible for such membership, but which is no longer credited under such teachers' retirement system, and such service shall be credited in the manner applicable to service otherwise qualifying for credit.

(6) Retirement allowances being paid under such plan to retired employees of the district or districts, who are made beneficiaries of the State Employees' Retirement System, shall be changed by action of the governing board of such districts, effective at such transfer, to retirement allowances calculated on the basis of service used in the calculation of the respective allowances under such plan, and average annual salary earnable during the highest three consecutive years of creditable service, calculated according to the methods used at the date of transfer, under such plan in determining salary earnable, but excluding any salary based on overtime as provided in Section 20025.2 of the Government Code, but otherwise according to the formulae under such employees' system which apply to active employees who are made members thereof. Such changed allowances shall be paid to such beneficiaries for time commencing on the date they are made beneficiaries of such employees' system. No allowance shall be reduced by such change.

(7) If two or more districts under the control and management of a single governing board are participants in such plan, one contract between the board of administration and such governing board may include all such districts. The governing board may apportion the total contributions required under the contract, among the districts on the basis of total salaries upon which the contributions are computed, and on the basis of other pertinent information.

(8) The contract making such active employees members of the State Employees' Retirement System shall provide that the service included in the calculation of the completed years of service as a basis for the portion of the basic death benefit provided in subdivision (b) of Section 21361 of the Government Code for persons who were members of such plan at transfer, shall not be limited to service under the State Employees' Retirement System, but instead that service rendered as members of such plan shall also be included.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Application of the state law providing for school district retirement plans or systems as amended by Chapter 264 of the Statutes of 1957 with respect to transfer of members of such plans or systems has raised a number of questions involving the retirement rights of such members who are to be transferred as of July 1, 1957. It is necessary that this act take effect immediately in order to fully protect the rights of the members to be so transferred."

MESSAGES FROM THE SENATE

SENATE CHAMBER, May 14, 1957

MR. SPEAKER: I am directed to inform your honorable body that the Senate on this day refused to sustain the Governor's veto of:

Senate Bill No. 653—An act to amend Section 211 of the Financial Code, relating to the Superintendent of Banks

Appended hereto is the message from the Governor setting forth his objections to this measure:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 9, 1957

To the Honorable Members of the Senate
State of California
Sacramento, California

Greetings: I am returning herewith, without my signature, Senate Bill 653, entitled: "An act to amend Section 211 of the Financial Code, relating to the Superintendent of Banks"

My objections to this bill are as follows:

This bill would require that appointments to the Office of Superintendent of Banks be made with the advice and consent of the Senate.

This provision violates a basic rule of public administration that the authority and the responsibility for any act be vested in the same person. When an appointment is made by the Governor of a director of a department to serve at his pleasure, the Governor should be solely responsible to the people for that appointment.

I have been concerned at the trend in recent years to place more and more restrictions upon the Executive in the exercise of his constitutional functions, and I am firmly of the opinion that this trend should not be further extended.

Accordingly, I am returning the bill without my signature.

Respectfully submitted,

GOODWIN J KNIGHT, Governor

J. A. BEEK, Secretary of the Senate
By LACHLAN M. RICHARDS, Chief Assistant Secretary

Above bill ordered to unfinished business file.

"SECTION 1. Section 511 of the Vehicle Code is amended to read:

511. Prima Facie Speed Limits. The speed of any vehicle upon a highway not in excess of the limits specified in this section or established as authorized in this code is lawful unless clearly proved to be in violation of the basic rule declared in Section 510 hereof.

The speed of any vehicle upon a highway in excess of any of the limits specified in this section or established as authorized in this code is prima facie unlawful unless the defendant establishes by competent evidence that any said speed in excess of said limits did not constitute a violation of the basic rule declared in Section 510 hereof at the time, place and under the conditions then existing.

The prima facie limits referred to above are as follows and the same shall be applicable unless changed as authorized in this code and, if so changed, then only when signs have been erected giving notice thereof, in which event the speed designated on the sign shall be the prima facie limit.

(a) 15 miles per hour:

(1) When passing a school building or the grounds thereof, contiguous to the highway while children are going to or leaving such school during opening or closing hours or during the noon recess period. Such prima facie limit shall also apply when passing any school grounds which are not separated from the highway by a fence, gate or other physical barrier while such grounds are in use by children.

(2) When traversing a grade crossing of a steam, electric or street railway, if during the last 100 feet of the approach to such crossing the driver does not have a clear and unobstructed view of such crossing and of any traffic on such railway for a distance of 400 feet in both directions along such railway. This subdivision shall not apply in the case of any railway grade crossing where a human flagman is on duty or a clearly visible electrical or mechanical railway crossing signal device is installed but does not then indicate the immediate approach of a railway train or car.

(3) When traversing any intersection of highways if during the last 100 feet of his approach to such intersection the driver does not have a clear and unobstructed view of such intersection and of any traffic upon all of the highways entering such intersection for a distance of 100 feet along all such highways, except [on a through highway or at a traffic-controlled intersection] *at an intersection controlled by stop signs, traffic control signals, or yield right of way signs*.

(b) 25 miles per hour in any business or residence district unless a different speed is determined by competent authority under procedures set forth in this code

[(c) 55 miles per hour under all other conditions unless a different speed is specifically designated in this code or is determined and declared by competent authority under procedures set forth in this code.]

SEC. 2. Section 511.1 of said code is amended to read:

511.1. Establishment of State Speed Zones. (a) Authority to Increase 25-mile Limit. Whenever the Department of Public Works determines upon the basis of an engineering and traffic investigation that a speed greater than 25 miles per hour would facilitate the orderly movement of vehicular traffic and would be reasonable and safe upon any state highway otherwise subject to a prima facie limit of 25 miles per hour under this code, the department may determine and declare a prima facie speed limit of 30, 35, 40, 45, [or] 50, *55, or 60* miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon said highway.

(b) Authority to Decrease [55] *65*-mile Limit. Whenever the Department of Public Works determines upon the basis of an engineering and traffic survey that the [prima facie] *maximum* limit of [55] *65* miles per hour is more than is reasonable or safe upon any portion of a state highway where [such prima facie] *the maximum* limit of [55] *65* miles is applicable under this code, the department may determine and declare a prima facie speed limit of *60, 55,* 50, 45, 40, 35 or 30 miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon said highway.

(c) The authority of the Department of Public Works as set forth in this section shall apply upon all state highways, whether within or outside of the limits of any incorporated city or city and county.

SEC. 3. Section 511.2 of said code is amended to read:

511.2. Authority to Link Districts. (a) By Department of Public Works. Whenever the Department of Public Works determines upon the basis of an engineering and traffic investigation that the [prima facie] *maximum* limit of [55] *65* miles per hour is more than is reasonable or safe upon any portion of a state highway for a distance of not exceeding 2,000 feet in length between districts, either business or residence, the department may determine and declare a reasonable and safe prima facie limit thereon lower than [55] *65* miles per hour, but not less than [twenty-five] *25* miles per hour, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon said highway.

(b) By Local Authorities. Whenever a local authority determines upon the basis of an engineering and traffic investigation that the [prima facie] *maximum* limit of [55] *65* miles per hour is more than is reasonable or safe upon any portion of a street or highway other than a state highway for a distance of not exceeding *2,000 feet in length between districts, either business or residence, such local* authority may determine and declare a reasonable and safe prima facie limit thereon lower than [fifty-five] *65* miles per hour, but not less than [twenty-five] *25* miles per hour, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon said street or highway.

SEC. 4. Section 511.3 of said code is amended to read:

511.3 When Local Authorities May Alter Prima Facie Limits. (a) Authority to Increase 25-mile Limit. Whenever a local authority, as defined herein, determines upon the basis of an engineering and traffic investigation that a speed greater than 25 miles per hour would facilitate the orderly movement of vehicular traffic and would be reasonable and safe upon any street otherwise subject to a prima facie limit of 25 miles per hour under this code, such local authority may by ordinance determine and declare a prima facie speed limit of 30, 35, 40, 45, [or] 50, *55, or 60* miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon said street.

(b) Authority to Decrease [55] *65*-mile Limit. Whenever a local authority, as defined herein, determines upon the basis of an engineering and traffic survey that *the [prima facie] maximum limit of [55] 65 miles per hour is more than is reasonable* or safe upon any portion of any street or highway where [such prima facie] *the maximum* limit of [55] *65* miles per hour is applicable under this code, such local authority may by ordinance determine and declare a prima facie speed limit of *60, 55,* 50, 45, 40, 35 or 30 miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe, which declared prima facie limit shall be effective when appropriate signs giving notice thereof are erected upon such street.

(c) No local authority shall exercise the powers set forth in this section in reference to any state highway or extension thereof.

(d) With respect to boundary line streets and highways where portions thereof are within different jurisdictions, no ordinance adopted under this section shall be effective as to any such portion unless and until all authorities having jurisdiction

of the portions of the street or highway concerned have approved the same. The provisions of this subdivision shall not apply in the case of boundary line streets consisting of separate roadways within different jurisdictions.

SEC. 5. Section 511.5 is added to said code, to read:

511.5. Maximum Speed Limit. No person shall operate any motor vehicle in excess of a maximum speed of 65 miles per hour on any highway.

SEC. 6. Section 753.1 is added to said code, to read:

Evidence of Speed Obtained by Use of Radar Equipment or Electronic Device. Notwithstanding any other provision of this code, evidence secured through the use of radar equipment or an electronic timing device shall be admissible in any prosecution for the purpose of arrest or prosecution under this code upon a charge involving the speed of a vehicle. Signs warning motorists of the use of radar for such purposes shall be erected at the border of each highway leading into this State from another state or country and at other appropriate places throughout the State."

WHEREAS, His contributions to the American theater, both as a thespian and as a leader in the movement to secure recognition of the basic rights and interests

CONSIDERATION OF DAILY FILE (RESUMED)
THIRD READING OF ASSEMBLY BILLS (RESUMED)

Assembly Bill No. 2662—An act to renumber the title of Article 2 (commencing at Section 185), Chapter 2 of Division 1 of, and to add Article 2 (commencing at Section 170) to, Chapter 2 of Division 1 of, and to amend Sections 135 and 139 of, the Water Code, to amend Section 14033 of, and to repeal Sections 14034, 14035, and 14036 of, the Government Code, relating to Water Resources Revolving Fund.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No. 2662:

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, April 23, 1957

To the Honorable Members of the Assembly
Sacramento, California

GENTLEMEN:

Assembly Bill No. 2662, "An act to renumber the title of Article 2 (commencing at Section 185), Chapter 2 of Division 1 of, and to add Article 2 (commencing at Section 170) to, Chapter 2 of Division 1 of, and to amend Sections 135 and 139 of, the Water Code, to amend Section 14033 of, and to

repeal Sections 14034, 14035, and 14036 of, the Government Code, relating to the Water Resources Revolving Fund,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill relates to the Water Resources Revolving Fund. It increases the sums which may be withdrawn by the Department of Water Resources with the approval of the Department of Finance to be used as a revolving fund where payments of compensation earned or cash advances are necessary, but no additional funds are made available for expenditure. In these circumstances, prompt consideration of this bill is desirable and no purpose would be served by withholding action upon it until after final passage of the Budget Bill.

I therefore recommend consideration of Assembly Bill No. 2662 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Kilpatrick asked for, and was granted, unanimous consent that the following statement by the Legislative Auditor be ordered printed in the Journal:

STATEMENT BY LEGISLATIVE AUDITOR

CALIFORNIA LEGISLATURE
JOINT LEGISLATIVE BUDGET COMMITTEE
STATE CAPITOL, SACRAMENTO, CALIFORNIA, May 15, 1957

Hon. Vernon Kilpatrick
Assemblyman, Fifty-fifth District
State Capitol, Sacramento, California

DEAR ASSEMBLYMAN KILPATRICK: In reply to your inquiry regarding limitations on size of the card used in time clocks, we have developed the following information:

Maker	*Model*	*Limitations on size of ticket*	*Price*
Lathem	Car-check	None	----
Cincinnati	Park-Tym	None	$145-210 (Incl.
Calculagraph		None	other models)
Simplex	Automatic Parking Clock	None	$153-211
International Business Machines	Parking Time Recorder	None	$225
	Time Stamp	None	$135
(IBM Consecutive Spacing Recorder makes many records on one card)			
Stromberg Time Recorder		None	$168

The above includes all recent time clock or time stamp advertisers in the parking lot operators' trade journal, *Parking,* during the last year. Prices presumably are competitive. Note that *none* of these machines have limitation on the size of ticket they will edge-stamp.

It is interesting to note that *Parking* (Fall 1956 issue) advertises on page 15, "Parking Lot Operators' Legal Liability Policy" covering fire, lightning, explosion and theft with $100,000 limits at each location combined with a low group premium. It also offers "personal effects coverage" in cases of stolen automobiles. "This special feature is important as it provides defense and payment coverage in a theft case, whereas otherwise the operator is providing his own defense for personal effects." This indiactes that the mechanics of offering insurance to cover the parking lot operator has been worked out, and that the individual car owner need not be left defenseless when he patronizes a parking lot.

Sincerely,

A. ALAN POST, Legislative Auditor

O Lord, our Lord, How excellent is Thy name in all the earth! Before the mountains were brought forth, or ever Thou hadst formed the earth and the world, even from everlasting to everlasting Thou art God. Help us ever to remember that Thou art the creator, sustainer, and owner of all things; that Thou didst pack with potential the land, the rivers, and the mountains; and that Thou wilt demand of us an accounting of the way we have used Thy good gifts What are we doing with the life Thou didst give us? How are we employing the resources of the earth which Thou has placed under our dominion? Are we making the most of our opportunities to serve Thee and our fellowmen? Grant, our Father, that our daily lives may give unselfish answer to these questions, and that someday we may hear Thy commendation, "Well done, thou good and faithful servant." Through Christ, our Lord—AMEN.

Amendment No. 3

On page 2, after line 34, insert

"SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution. The facts constituting such necessity are:

Because of extremely complex legal and other problems, many corporations desiring and attempting to liquidate in 1951, 1952 or 1953 were unable to arrange for distribution in complete liquidation of their property within the requisite period and month in either of such years, with the result that the benefits granted taxpayers by Section 17402 of the Revenue and Taxation Code have been unavailable to them. These taxpayers will, as a consequence, and for reasons beyond their control, be required to pay considerably more in the way of taxes than they would have had the corporations mentioned been able to arrange for the liquidation of their property within the period and time specified. As an additional effect of this situation, a clear disparity exists in their treatment because other taxpayers in the same class were more fortunately situated as to have received a liquidation in accordance with the conditions under which Section 17402 operates. Such a situation leads to economic inequality and is productive of unrest, thus directly affecting the public peace, health or safety. This act will eliminate such inequality and more completely and equitably carry out the intent of Section 17402."

Amendments read, and adopted.

Bill ordered reprinted, and to be re-referred to the Committee on Revenue and Taxation.

The following prayer was offered by the Chaplain, Rev. Robert S. Romeis:

Gracious God and Heavenly Father, We give Thee thanks that all days are not sunny, that all tasks are not easy, and that all roads are not pleasant. It is in times of darkness that we see Thee best as the light; it is during days of strain and stress that we feel Thy strength; it is when our path is rough and crooked that we know Thee as our helper and our guide. We pray not that our obstacles be removed, but that Thou wilt give us the power to surmount them, for we know that man masters life not by escaping adversity but by conquering it. So fill us with Thy power, O Lord, that we see in every trial the opportunity for triumph; through Jesus Christ, Thy Son, our Lord.—AMEN.

66310. In addition to the other reports, studies and documents provided in this chapter, the board shall submit to the legislative bodies and to the planning agencies of all of the counties, cities, and to other governmental agencies, organizations and individuals, public or private, designated by the board, an annual report on or before the first day of March. The annual report shall contain an evaluation of the major problems and opportunities for desirable development facing the district, a report on the status of the district plan, and descriptions of those sections of the district plan which have been amended, revised, added or deleted during the year, and the nature of such amendments, revisions, additions or deletions. The annual report shall also contain summaries of important studies partially or entirely completed by the board during the year, and a brief report of other major activities.

Article 13. Official Representatives

66320. Each of the following agencies, organizations and individuals may designate, from among its own members, one person to be accredited as the official representative of that agency, in matters concerning district planning:

(a) Each county and city planning commission within the district.

(b) Each redevelopment and housing authority or agency within the district.

(c) Any agencies, instrumentalities, or departments which may be designated by the Governor.

(f) Any agencies, instrumentalities or department which may be designated by the President of the United States.

(g) Other public or private agencies and organizations as the board may from time to time designate.

The director shall invite each of such agencies, organizations and individuals to select an official representative, and shall accredit the official representatives chosen.

66321. Each official representative shall receive a copy of each report issued by the district, a notice of meeting, agenda, and minutes of meeting of every meeting of the board, and any other information or material which the board may wish to issue.

66322. Each official representative shall have, upon the giving of reasonable notice, and subject to reasonable regulation by the board, the right to request the addition of any matter to the agenda of any regular board meeting, and to present the views of those represented at that time. In addition, any official representative may submit written reports of the views of those represented at any time, which reports shall be filed as part of the official records of the district.

66323. Official representatives shall serve at the discretion of the agency, organization or individual designating them, and the director shall remove accreditation, and give new accreditation, upon the written request of such agency, organization or individual.

Article 14. Technical Advisory Committees

66340. Each board may appoint, with the advice of the director, from time to time, technical advisory committees of skilled and experienced persons to study various aspects of matters related to the functions and duties of the district and to report to the board.

Article 15. Financial Provisions

66360. Each district may borrow money and incur indebtedness in anticipation of the revenue for the current year in which the indebtedness is incurred or of the ensuing year. Such indebtedness shall not exceed the total amount of the estimate of the tax income for either the current year or the ensuing year, whichever estimate is selected as the limit by the board.

66361. Before the fifteenth day of June each year each district board shall estimate and determine the amount of money required by the district for purposes of the district during the ensuing fiscal year and shall apportion this amount to the counties included within the district according to the relative value of all the property in each county within the district as determined by the board. The total amount of money required by the district for district purposes during any one fiscal year shall not exceed one cent ($0.01) on each one hundred dollars ($100) of the assessed valuation of all the property included in the district.

66362. On or before the fifteenth day of June of each year each board shall inform the boards of supervisors of each county within its district of the amount apportioned to the county. Each board of supervisors shall levy an ad valorem tax on the taxable property within the county included within the district sufficient to secure the amount so apportioned to it and such taxes shall be levied and collected together with, and not separately from, the taxes for county purposes and paid to the treasurer of each of the counties to the credit of the district.

66363. Taxes levied by the board of supervisors for the benefit of the district shall be a lien upon all property within such county lying within the district and shall have the same force and effect as other liens for taxes. Their collection may be enforced in the same manner as liens for county taxes are enforced.

66364. The treasurers of the several counties within the district shall pay into the district treasury all funds held by them to the credit of the district.

66365. The district board shall, in carrying out the provisions of this article, comply as nearly as possible with the provisions of Chapter 1 (commencing with Section 29000) of Division 3 of Title 3 of the Government Code.

66380. The failure of any legislative body, commission, agency, organization, instrumentality, individual, or official representative to receive any agenda, notice of meeting, minutes, report, or document or material of any sort provided for in this chapter shall not affect the validity nor impair the lawful effect of any action or activity of any district.

Article 17. Dissolution

66390. The State of California reserves the right to dissolve, combine, alter, modify or amend in any manner the organization and powers of each of the districts established in this chapter, including, without limiting the generality of the foregoing, the association, combination or integration of each district with any other district, agency, body or instrumentality within the district or within any part of the State in a manner which in the judgment of the Legislature may appear best to carry out the purposes of this chapter."

Erase from our hearts all pride and self-seeking; make us not only good, but good for something; in all that we do and say help us to carry out Thy holy will, that the people of our State may be benefited and we may know the peace of a quiet conscience; through Christ our Lord.—AMEN.

situated, an estimate in writing of the amount of money needed for the purposes of the district for the ensuing fiscal year, for any reserve funds necessary for the first six months of the following fiscal year, and to provide for the prompt payment, when due, of principal of and interest on bonds. This amount must be sufficient to raise a sum of money which shall be sufficient to pay the incidental expenses of the district, and the costs of the work of spreading and sinking waters which the board of directors may deem advisable to be done during the ensuing fiscal year; the estimated costs of repairs to and maintenance of any property or works of the district; the amount of any indebtedness (other than bonded debt) of the district currently due or to become due in the ensuing fiscal year, the amount deemed necessary by the board of directors for reserve funds to meet the costs and expenses of the district during the first six months of the following fiscal year; the estimated amount necessary for the payment of the costs of any action or proceeding which may be taken by the district, including the cost of employment of attorneys and engineers; and if bonds have been voted and sold by the district the board of directors shall include in said estimate an amount which together with any moneys available therefor in the bond fund shall be at least sufficient to pay all bond principal and interest coming due during the ensuing fiscal year and also during that part of the following fiscal year before the proceeds of an assessment tax levied at the time for making the general tax levy in such following fiscal year can be made available for the payment thereof, and such estimate each year shall include an amount clearly sufficient to provide for the payment of principal of and interest on bonds of the district as the same become due; and if bonds have been voted but not sold, and the board expects to sell such bonds prior to the end of the ensuing fiscal year there shall be included in such estimate an amount estimated to be sufficient to provide for the payment of all principal and interest of such unsold bonds which the board believes will come due during the ensuing fiscal year and also during that part of the following fiscal year before the proceeds of an assessment tax levied at the time for making the general tax levy in such following fiscal year can be made available for the payment thereof; and also if said district shall have voted a special assessment as provided in Section 35 hereof, the board shall include in said estimate the amount of the installment of said special assessment to be levied each year; and such estimate may also include such an amount as the board of directors may deem advisable to expend in the acquisition or construction of settling basins, well, dams, reservoirs and other works for the storing, spreading and sinking of waters, together with canals, ditches, conduits and necessary rights of way for use of all such works; provided, however, that if at the time of making said estimates herein referred to the district shall not have voted a special assessment as provided for in Section 35 hereof and said district shall not have voted bonds as in this act provided, then the assessment levied during any year for the raising of said funds shall not exceed two and one-half (2½) mills on each one hundred cents (100¢) of the assessed values of the lands within the district, according to the last assessment rolls, but if a special assessment has been voted or if bonds have been voted by the district then the assessment for the payment thereof shall be in excess of the two and one-half (2½) mills on each one hundred cents (100¢) of the assessed values of the lands within the district; provided, however, that if the proceeds of bonds whether heretofore or hereafter voted for the acquisition of properties for, or the construction of, any works or projects of the district shall have been insufficient to pay the cost of such properties, works or projects, then in addition to the above mentioned assessments, an assessment may be levied not to exceed one (1) mill on each one hundred cents (100¢) of the assessed value of lands within the district for not to exceed five fiscal years, for the payment of the remaining cost of such properties, works or projects; provided, however, [that at least 15 percent of the revenue each year from such special one (1) mill assessment shall be expended for the construction, improvement, maintenance, repair of roads or highways and acquisition of land and rights of way therefor, in the vicinity of the properties, works or projects, the remaining cost of which necessitates the assessment; and provided further,] that no district shall levy more than one such special one (1) mill assessment at any one time.

RESOLUTIONS

The following resolution was offered:

By Mr. Holmes:

House Resolution No. 198

Relating to State Highway Route 236

WHEREAS, Route 236, to be known as Clarence Ward Memorial Boulevard, was added to the State Highway System in 1955 and was designated as being "from a point northwest of the City of Santa Barbara on Route 2 to the campus of the University of California at Santa Barbara, Goleta Campus"; and

WHEREAS, These termini would permit a number of feasible locations for the highway to constitute Route 236; and

WHEREAS, The Report of the Hearing Commissioners on the Clarence Ward Memorial Boulevard, dated April 25, 1957, indicates that the hearing commissioners considered at least six possible locations for the highway and found that engineering route E-4 met with the greatest popular support and was specifically supported by the University of California and the City of Santa Barbara and the County of Santa Barbara (pages 3 and 5 of the report); and

WHEREAS, The hearing commissioners concluded that engineering route E-4, connecting to Route 2 at La Cumbre Road, would reflect the greatest user savings (page 8 of the report), but a majority of the hearing commissioners did not recommend that route because they did not consider the expense of the route to be justified by the existing volume of traffic; and

WHEREAS, Activities on the Goleta Campus of the University of California at Santa Barbara will undoubtedly be expanded to accommodate the tremendous growth of the university and the estimated enrollment of the university of 10,000 students will undoubtedly continue to increase; and

WHEREAS, Although the termini of Route 236 were established with a view to permitting considerable leeway in the location of the route, the route was intended to link the campus and the City of Santa Barbara by a route best calculated to adequately serve the needs of the university and the community of Santa Barbara; and

WHEREAS, Although a less desirable location could be utilized at a somewhat lesser cost, Route 236 was intended to provide the most convenient means of travel between the campus and the City of Santa Barbara and the location for the route was intended to be one which would reflect the greatest traffic benefits; now, therefore, be it

Resolved by the Assembly of the State of California, That the California Highway Commission be requested to adopt engineering route E-4 as the location of the Clarence Ward Memorial Boulevard in order to best serve the interests of the University of California and the Santa Barbara community, and to effect the intention of the Legislature in adding that route to the State Highway System; and be it further

PRAYER

Upon invitation of the Speaker, the following prayer was offered by the Rev. A. E. Syverud, Executive Director of the Lutheran Welfare Service of Northern California:

Gracious Heavenly Father, History and experience have given us so many evidences of Thy guidance to leaders of nations and individuals. We should never doubt Thy power or Thy willingness to direct us. May we never doubt this Thy Word, "Whatsoever you shall ask the Father in My Name, believing, you shall receive." May every individual here this morning feel and know Thy willingness to help, lead, and guide them in decisions they make that affect the lives of us all. We are beginning to understand that the things that are really wrong with the world are the sum total of all the things that are wrong with us as individuals. We all know perfectly well what we ought to do, but our trouble so often is that we do not want to do it. We are so afraid of having convictions and making decisions. Thy help is our only hope. Give Thy Holy Spirit to each of these people so that their decisions this day are Thy decisions. We pray for each person here individually. Bless them in their homes. Bless their loved ones. Forgive all of us of our many sins of commission as well as sins of omission. We crave Thy Spirit's presence this day in this place. In the Blessed Name of Jesus we offer this prayer.—AMEN.

Explanation of Votes

We voted against Assembly Bill No. 1984 because the measure places too great a power and discretion in the Commissioner of the Highway Patrol who may by rule approve chemical breath tests in addition to the Intoximeter and Drunkometer examinations.

Moreover this bill deprives a person of his right to a trial by court or jury. We laud the purpose of the measure but feel it has fatal defects.

LETTER OF TRANSMITTAL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 19, 1957

Hon. Harold K. Levering
Assembly Chamber

Air Pollution—No. 13661

DEAR MR. LEVERING:

Question

You have asked whether the amendment to Section 24263 of the Health and Safety Code proposed to be made by Senate Bill No. 501, which would allow an air pollution control board to require a permit for the sale or rental of a contrivance which may cause the issuance of air contaminants, would be unconstitutional as an interference with interstate commerce.

Opinion

In our opinion, the amendment proposed by Senate Bill No. 501 would not be held or construed to offend the commerce clause of the United States Constitution.

Analysis

The United States Constitution provides that one of the powers of Congress shall be "to regulate commerce with foreign nations and among the several states * * *" (Art. I, Sec. 8, Cl. 3).

In the proposed amendment under consideration here, contrivances which may issue air contaminants would be required in appropriate cases to be sold or rented only upon a permit being granted for such sale or rental by an air pollution control officer. It has been suggested that this would unconstitutionally interfere with the sale or rental of equipment intended for shipment in interstate commerce and not intended for use in the particular area to which the powers of the air pollution control board extend.

We believe the constitutionality of Section 24263 as proposed to be amended would be upheld, and alternative arguments are available in its support.

Firstly, despite the grant of power to the Congress to regulate commerce among the several states, not every police regulation by a state in the interest of public health, safety, or convenience which affects interstate commerce offends the commerce clause. Thus, if this provision being merely local in character, devised in furtherance of the general plan of air pollution control, would affect interstate commerce incidentally only, it would not be in conflict with the powers of the Congress over interstate commerce.

In this connection it is observed that state laws are not presumed to be at variance with the Federal Constitution and will be upheld unless there are clear facts showing the invalidity of the legislation (*Missouri Pacific Railroad Company* v. *Norwood,* 283 U. S. 245).

Secondly, even in the event that the section under consideration, as amended, was capable of a construction that the section may place an unconstitutional burden on interstate commerce, we do not believe it would be so construed because of the maxim of constitutional interpretation that, if at all possible, a statute will be construed so as to bring it within the law of the Constitution (*U. S.* v. *C. I. O.*, 335 U. S. 106).

Under the procedure set forth in Sections 24260 to 24265 of the Health and Safety Code, the permits are to be issued in conformity with regulations of the air pollution control board designed "to reduce the amount of air contaminants released within the district" (Sec. 24262). Section 24263 contemplates the automatic issuance of permits in some cases, and the regulation might well provide such automatic issuance of permits for equipment sold or rented within the district, but intended for use outside the district. Conceivably the regulations might exempt such equipment from the permit requirement entirely. In any event, we think the statute is susceptible of being construed so as not to interfere unduly with interstate commerce, even though a particular regulation of the air pollution control board might be invalid upon that ground.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By ALEX. B. YAKUTIS, Deputy

Two copies to Hon. Richard Richards pursuant to Joint Rule 34.

The numerous cases in which a crime is committed in one local jurisdiction and the criminal is apprehended in another evidence the truth of this fact. This situation warrants action at the state level. Great scientific advances that have occurred in recent times—serving the criminal element as well as law enforcement agencies—render appropriate the establishment of standards for employment of peace officers which will assure the people of this State law enforcement officers of a calibre to deal with the modern crime problem. In view of the state-wide character of the problem, it is the intent of the Legislature that this act apply in chartered counties, cities, and cities and counties, as well as those counties, cities, and cities and counties which are not chartered.

INTRODUCTION, FIRST READING, AND REFERENCE OF ASSEMBLY BILLS

The following resolution was offered:

Assembly Constitutional Amendment No. 76: By Messrs. Porter, Levering, Schrade, and Thomas—A resolution to propose to the people of the State of California an amendment to the Constitution of the State, by adding Section 5 to Article XIV thereof, relating to water.

Referred to Committee on Constitutional Amendments.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, May 22, 1957

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 685, entitled: "An act to amend Section 10505 of the of the Insurance Code, relating to life and disability insurance."

My objections to this bill are as follows:

This bill contains a technical defect in that its title is insufficient to accomplish the result intended. The title of the bill relates to *"life and disability* insurance." The bill was intended to exempt *"job insurance"* issued by labor unions from certain provisions of law. I have no objection to the substance of this bill, but grave doubt exists whether the subject is embraced within the title, and, therefore, in order to prevent a bill of questionable constitutionality being placed upon the books and misleading persons who may be concerned with it, I believe it in the public interest to veto the bill. There would also seem to be time to pass another bill eliminating this technical defect at this session.

Accordingly, I am returning this bill to the house in which it originated without my signature and with this statement of my objections thereto.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

Assembly Bill No. 685 ordered to the unfinished business file.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Munnell asked for, and was granted, unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal:

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 21, 1957

Hon. William A. Munnell
Assembly Chamber

Assembly Bill No. 685: Adequacy of Title—No. 14191

DEAR MR. MUNNELL: You have asked whether the title to Assembly Bill No. 685, in enrolled form, is defective.

Opinion

In our opinion the title would be held to be sufficient.

Analysis

Assembly Bill No. 685, in enrolled form, reads as follows (the amendments to the section proposed by this bill being underlined):

"An act to amend Section 10505 of the Insurance Code, relating to life and disability insurance.

"The people of the State of California do enact as follows:

"SECTION 1. Section 10505 of the Insurance Code is amended to read:

"10505. (A) A labor union having all of the following characteristics is exempt from the provisions of this code relating to life and disability insurance in respect to the benefits herein specified and transactions connected therewith:

"1. It is composed of members of one craft or industry or allied crafts or industries.

"2. It is organized for the purpose of collective bargaining concerning grievances, labor disputes, wages, rates of pay, hours of employment, or conditions of work and for the mutual benefit of its members and not for profit.

"3. Either (a) it does not issue policies but provides for payment of such benefits in its by-laws, constitution or rules and regulations; or (b) it limits membership to one hazardous occupation.

"4. Such payment of benefits is incidental to the purposes of such union.

"(B) Any incorporated organization, the membership and insurance in which are restricted to members of such a labor union and the officers of which are the officers of the labor union, is likewise exempt from the provisions of this code to the same extent as such labor union.

"(C) Any organization described in either subsection (A) or subsection (B) of this section is also exempt from all provisions of this code relating to insurance protecting against wage losses from any cause in respect to the benefits promised, not exceeding three thousand dollars ($3,000) in the aggregate for any one loss and the transactions connected therewith."

Section 24 of Article IV of the California Constitution provides, in part, that "Every act shall embrace but one subject, which subject shall be expressed in its title."

Perhaps it might be contended that the title to this bill is defective because it refers to "life and disability insurance" but the new matter added to Section 10505 by the bill covers insurance (with respect to organizations now referred to in the section) protecting against wage losses "from any cause" in respect to the benefits promised. We do not believe the contention would be sustained.

It is well established that the purpose of the above constitutional provision is not to destroy legislation germane to the general object declared in the title but to protect against the passage of provisions foreign to the title; that the title is sufficient if the provisions of the act

are germane to the subject matter expressed in the title and if the title naturally suggests to the mind the field of legislation which is included in the text of the act; and that it was never intended that the title of an act should be an index to all of its provisions *(Orange County Water Dist.* v. *Farnsworth,* 138 Cal. App. 2d, 518).

It is further to be noted that this bill amends a code section. There is ample authority for the proposition that the title of an act which amends a code section is sufficient if it names the code and the section amended *(Milgate* v. *Wraith,* 19 Cal. 2d 297; *People* v. *Oates,* 142 Cal. 12). The addition of further descriptive words cannot negative the sufficiency of this title unless those further words indicate a subject not really related to the matters covered by the body of the act (Estate of Elliott, 165 Cal. 339). The relating clause in this bill is not such an unrelated description.

In view of the above decisions, we believe that the title to this bill would be held sufficient.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By TERRY L. BAUM, Deputy

REQUEST FOR UNANIMOUS CONSENT TO TAKE UP HOUSE RESOLUTION NO. 181

Mr. Grant was granted unanimous consent to take up House Resolution No. 181, out of order.

CONSIDERATION OF HOUSE RESOLUTION NO. 181

By Mr. Grant:

House Resolution No. 181

WHEREAS, Although provisions to regulate operations of water treatment works and sewage treatment plants are found in the Health and Safety Code of the State of California, there are no provisions made in state law for the regulation of those persons entrusted with the operation of either water or sewage treatment works or plants; and

WHEREAS, The only qualifications and standards imposed on such operators are those required by local governmental units and these standards are not uniform from locality to locality; and

WHEREAS, The American Water Works Association and various health officers throughout the State advocate and have proposed that the State enact a compulsory licensing program for water treatment works operators (defined as those persons in charge of a system where water treatment facilities or devices are operated for the purpose of disinfecting or of altering the quality of water distributed to the public) and the California Sewage and Industrial Wastes Association and various health officers and interested agencies throughout the State have proposed a similar compulsory licensing program for sewage treatment plant operators; and

WHEREAS, The Assembly Interim Committee on Public Health has, as a result of a two-year interim study, found that there may well be a need for additional regulatory provisions over and above those now provided for the protection of the public health and recognizes that such regulation might be effected by requiring licensure of operators of water treatment works and sewage treatment plants; and

WHEREAS, Although voluntary programs of operator training and certification have been conducted for their own groups by the California Section, American Water Works Association since 1937 and by the California Sewage and Industrial Wastes Association since 1935, and courses have been given at various times and places in high schools and junior colleges throughout the State, and in-service training courses have also been given by several of the larger water and sewage systems, there is no state-wide education or training program for either of the groups; and

WHEREAS, The availability of adequate education and training facilities is one of the major problems connected with the establishment of a new licensure program; now, therefore, be it

Resolved by the Assembly of the State of California, That the State Department of Education be hereby requested to study the cost and feasibility of establishing training programs for both water treatment works operators and sewage treatment plant operators in the Public School System and report its findings to the Assembly; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the Director of Education.

Resolution read, and adopted.

WHEREAS, The City of Redding and surrounding areas has experienced a rapid increase in population, resulting in a need for the establishment of additional park and recreation areas to serve that region; and

WHEREAS, The lands fronting the Sacramento River, which are located within the City of Redding, would constitute an ideal site for park and recreational purposes; and

WHEREAS, Unless such river frontage lands are soon acquired for public use, the improvements and developments within the City of Redding of the area contiguous to the Sacramento River will make prohibitive the cost of acquiring such lands in the future for public use; now, therefore, be it

Resolved by the Assembly of the State of California, That the Division of Beaches and Parks of the Department of Natural Resources be and hereby is directed to study the feasibility and desirability of acquiring and developing the river frontages in the City of Redding as park and recreational areas; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit a copy of this resolution to the State Park Commission and to the Chief of the Division of Beaches and Parks.

Resolution read, and ordered referred to the Committee on Conservation, Planning, and Public Works.

"SECTION 1. Sections 1 to 24, inclusive, of the Sewer District Revenue Bond Act of 1939 are repealed.

SEC. 2. Sections 1 to 18, inclusive, are added to said act, to read:

Section 1. This act may be cited as the Sewer District and Water District Revenue Bond Act of 1939.

Sec. 2. This act is full authority for the issuance of bonds, and is intended to provide to any local agency heretofore or hereafter created an alternate method of *acquiring, constructing, improving or financing of any works (as herein defined)* unless the issuance of such bonds is specifically prohibited to such local agency by the Constitution of the State of California, or by the law or charter pursuant to which such local agency is organized and operates. The powers conferred by this act are in addition to and the limitations imposed by this act do not affect the powers conferred by any other law. If this act is inconsistent with any other law, this act is controlling. Any defect or omission of any officer or any local agency in proceedings taken under this act does not invalidate the proceedings or bonds issued under this act, if the acts done and proceedings taken are not invalid under the State and Federal Constitutions.

Sec. 3. The terms defined in this act have the meanings set forth unless the context requires a different meaning

"Local agency" means any county, city and county, city or any municipal or public corporation or district which is authorized to acquire, construct, own or operate any works (as defined herein).

"Law" includes the charter of the local agency.

"Sewer works," as used in this act, includes sewage treatment plants, sewage disposal plants, intercepting and collecting sewers, outfall sewers, trunk, connecting and other sewer mains, force mains, pumping stations, ejector stations, and all other appurtenances necessary, useful, or convenient, for the collection, treatment, purification, or disposal of sewage or waste and necessary lands, easements, rights of way, or other property.

"Waterworks," as used in this act, includes dams, reservoirs, water mains, filtration works, pumping stations, water rights, and all other facilities and appurtenances necessary, useful or convenient for the obtaining, conserving, treating, distributing and supplying of water for domestic use, irrigation, sanitation, industrial use, fire protection, recreation or any other public or private uses and necessary water rights, rights in land, lands, easements, rights of way or other property.

"Bonds," as used in this act, means bonds issued by a local agency pursuant to this act and payable exclusively from revenues of the sewer system within the sewer revenue district as herein defined, or from the revenues of the water revenue district as herein defined.

"Sewer revenue district" means the area formed into a sewer revenue district pursuant to this act which may include all or only a part of the local agency and from which the revenues to secure the bonds are to come.

"Water revenue district" means the area formed into a water revenue district pursuant to this act which may include all or only a part of the local agency and from which the revenues to secure the bonds are to come.

"Sewer system," as used in this act, means the system or facilities through which sewage or industrial waste arising from within the district may be collected, carried away, treated or disposed of, which system or facilities are acquired, constructed, improved, extended or repaired with the proceeds of the bonds. The sewer system shall also include all improvements thereof or additions thereto acquired or constructed subsequent to the accomplishment of the purposes for which the bonds were issued.

"Water system," as used in this act, means the system or facilities through which or by means of which water for the district may be obtained, conserved, treated, distributed, and supplied, which system or facilities are acquired, constructed, improved, extended or repaired with the proceeds of the bonds. The water system shall also include all improvements thereof or additions thereto acquired or constructed subsequent to the accomplishment of the purposes for which the bonds were issued.

"Sewer revenues" means all charges received for and all other income and receipts derived by the local agency within the sewer revenue district from the operation of a sewer system.

"Water revenues" means all charges received for and all other income and receipts derived by the local agency within the water revenue district from the operation of the water system.

Sec. 4. A local agency may acquire any sewer works or waterworks by gift, purchase, or eminent domain. A local agency may construct, improve or repair any sewer works or waterworks wholly or partially within or wholly without the sewer or water revenue district or the local agency. By gift, lease, purchase, eminent domain or otherwise, it may acquire any real or personal property or any interest in or any improvement on any such property, except that no property of a state or public body may be acquired without its consent. A local agency may sell, lease, exchange, transfer, assign or otherwise dispose of any real or personal property or any interest in such property. It may lay out, open, extend, widen, straighten, establish or change the grade of any real property or public rights of way necessary or convenient to the acquisition, construction, improving, repair or financing of sewer works or waterworks.

A local agency may operate, maintain, repair or manage all or any part of the sewer system or water system wholly or partially within or wholly without the proposed sewer revenue district or the proposed water revenue district or the local agency.

The local agency may issue bonds for funds to pay all or a portion of the cost of the acquisition, construction, improvement, repair or financing of any sewer works or waterworks. Said sewer works or waterworks may be wholly or partially within or wholly without the sewer revenue district or the water revenue district or the local agency.

Sec. 5. The local agency may adopt reasonable rates and regulations for the conduct of the sewer or water system and may prescribe, revise, collect and enforce charges for the services and facilities furnished by the sewer or water system.

A local agency may provide that charges for sewer service shall be collected together with and not separately from any other utility service rendered by it and that all charges shall be billed on the same bill and collected as one item. If all or a part of the bill is not paid (whether said bill is for the water service only or sewer service only or is for sewer service and water service or sewer service and some other utility service), the local agency may discontinue any and all service for which the bill is rendered.

The local agency may enter into a written contract with a privately owned public utility rendering other than gas or electric service, that the charges for sewer service shall be collected together with and not separately from the charges of said privately owned public utility for any other utility service rendered by it, and that all charges shall be billed upon the same bill and collected as one item. If all or any part of the bill of any privately owned public utility on which any sewer service charge is collected is not paid, the privately owned public utility may discontinue its utility service until said bill is paid, and the contract between the local agency and such utility may make discontinuance of service mandatory.

The local agency may enter into a written contract with any person, firm or public or private corporation providing for the billing and collection by such person, firm or corporation of the charges for the sewer service. If all or any part of any bill rendered by any such person, firm or corporation pursuant to any such contract is not paid and if such person, firm or corporation renders any public utility service to the person billed, such person, firm or corporation may discontinue its utility service until such bill is paid and the contract between the local agency and such person, firm or corporation may make discontinuance of service mandatory.

The local agency may provide for the collection of charges. Provisions may be made for, but are not limited to:

(a) The granting of discounts for prompt payment of bills.

(b) The requiring of deposits or the prepayment of charges in an amount not exceeding six months' charges either from persons receiving service and using the facilities or from the owners of property on which or in connection with which said services and facilities are to be used; provided, however, that in case of nonpayment of all or part of a bill said deposits or prepaid charges shall be applied only insofar as necessary to liquidate the cumulative amount of such charges plus penalties and costs of collection.

(c) The requiring of a guaranty by the owner of property that the bills for service to said property or the occupants thereof will be paid.

The local agency may provide for a penalty for nonpayment of the charges within the time and in the manner prescribed by it. Said basic penalty shall not be more than 10 percent of each month's charges. On the first day of the calendar month following the date of payment specified in the bill the charge shall become delinquent if the bill or that portion thereof which is not in bona fide dispute remains unpaid. The local agency may provide for collection of the penalties herein provided for.

A local agency has police power over any works or system acquired, constructed, improved, repaired or financed pursuant to this act and may make and enforce all necessary regulations to protect the public health in the operation and maintenance of the works or system. If a local agency is using bonds for the acquisition, construction, improvement, repair or financing of sewer works it may require its inhabitants to use the facilities exclusively. It may declare that the further maintenance or use of cesspools or other local means of sewage disposal constitutes a public nuisance. If the buildings are within a reasonable distance (not more than 200 feet) from the connection with the sewer system, the local agency may require that all buildings inhabited or used by human beings and in which any sewage is produced be connected with the sewer system within the period prescribed by it (not less than 30 days from the time when such a connection can be made).

The local agency may execute all instruments, perform all acts, and do all things necessary or convenient in the exercise of the powers granted by this act or in the performance of its covenants or duties.

Sec. 6. Before the local agency acquires, constructs, improves, repairs or finances any sewer works or water works under this act its governing body shall adopt a resolution declaring its intention to do so.

The resolution of intention shall contain the following:

(a) A statement that the governing body deems it necessary that revenue bonds be issued for funds to pay all or a portion of the cost of the acquisition, construction, improvement, repair or financing of sewer works or water works.

(b) The purpose for which the revenue bonds are proposed to be issued, which purpose shall include a general description of the sewer works or water works to be acquired, constructed, improved, repaired or financed, and may include all costs and estimated costs incidental thereto or connected therewith and all engineering, inspection, legal fees, costs of the bond election and of the issuance of said revenue bonds, bond reserve funds and working capital and bond interest estimated to accrue during the construction period and for a period of not to exceed 12 months after completion of the construction.

(c) The estimated cost of the accomplishment of said purpose.

(d) The amount of revenue bonds to be issued and sold therefor.

(e) A statement that the governing body intends to form a sewer revenue district or water revenue district of the area to be benefited by the proposed sewer works or waterworks the proposed exterior boundaries of which are set forth on a map on file with the clerk or secretary of the local agency, which map shall govern for all details as to the extent of the proposed sewer revenue district or water revenue district; provided, however, that if the proposed sewer district or water revenue district is to include the entire local agency it is sufficient if the resolution so states.

(f) A statement that said bonds to be issued and sold will be paid solely from and be secured by an exclusive pledge, lien, charge and encumbrance upon the revenues derived by the local agency within the sewer revenue district from the operation of a sewer system or within the water revenue district from the operation of a water system.

(g) A statement that rates and charges will be made within said proposed sewer revenue district for service from said sewer system or within said proposed water revenue district for service from said water system which will produce revenue sufficient to pay the principal of and interest on said revenue bonds, furnish sufficient funds to secure said bonds, and pay the necessary and reasonable costs of maintenance, operation and repair of said sewer system or water system.

(h) A statement of the time and place where all persons interested, including persons owning property in the local agency or in the proposed sewer revenue district or water revenue district may appear and be heard.

The clerk or secretary of the local agency shall appear and be heard.

The clerk or secretary of the local agency shall give notice of such hearing by causing the resolution to be published once a week for at least two weeks in a newspaper published and circulated in the local agency. If no newspaper is published and circulated in the local agency then the publication shall be made in a newspaper published in the county in which the local agency is located. Said resolution shall also be posted at three public places within the proposed sewer revenue district or water revenue district at least two weeks before the time fixed for said hearing.

At the time and place so fixed or at any time and place to which the hearing is adjourned the governing body shall proceed with the hearing. At the hearing any person interested, including any person owning property within the local agency or within the proposed sewer revenue district or water revenue district

may appear and object to the purpose for which the proposed revenue bonds are to be issued, the estimated cost, the amount of said bonds, the area to be included in the proposed sewer revenue district or water revenue district or present any other matters material to the resolution of intention.

The governing body shall have power to change the purpose, the estimated cost, the amount of the bonds and the boundaries of the proposed sewer revenue district or water revenue district, or one or all of said matters, provided that notice of intention to change one or all of said matters stating the time and place fixed for hearing on said change is published and posted in the same manner and for the same time as the resolution fixing the original hearing. Said notice shall state the proposed change or changes and, if the boundaries of the district are proposed to be changed, that the exterior boundaries of the proposed sewer revenue district or water revenue district as changed are set forth on a map on file with the clerk or secretary of the local agency, which map shall govern for all details as to the extent of the proposed sewer revenue district or water revenue district, and specify the time and place for hearing on such change. At the time and place so fixed or at any time and place to which the hearing is adjourned the governing body shall proceed with the hearing. At the hearing any person interested, including any person owning property within the local agency or within the proposed sewer revenue district or water revenue district may appear and present any matters material to the changes stated in the notice.

At the conclusion of the hearing the governing body shall determine whether the property within the proposed sewer revenue district or water revenue district will be benefited by the issuance of revenue bonds for said purpose, and if so may by resolution state:

(a) The purpose for which the revenue bonds are to be issued.

(b) The amount of said bonds.

(c) That the exterior boundaries of the sewer revenue district or water revenue district, which will be benefited by the issuance of said bonds for said purpose, are set forth on a map on file with the clerk or secretary of the local agency, which map shall govern for all details as to the extent of the sewer revenue district or water revenue district and that said district shall thereupon constitute and be known as "Sewer (or Water) Revenue District No _____ of _____ (naming the local agency)"; provided, however, that if the entire local agency is included in the sewer or water revenue district it is sufficient if the resolution shall so state.

The determinations made in said resolution shall be final and conclusive and after the formation of such sewer revenue district or water revenue district within a local agency all proceedings for the purpose of a bond election shall be limited and shall apply only to the sewer revenue district or water revenue district, and the payment of the bonds and the interest thereon shall be secured by an exclusive pledge, lien, charge and encumbrance upon the revenues derived by the local agency within the sewer revenue district from the operation of a sewer system or within the water revenue district from the operation of a water system.

Sec. 7. By further resolution to take effect upon adoption the governing body shall submit to the qualified voters within the sewer revenue district or water revenue district at an election held for that purpose the proposition of issuing revenue bonds pursuant to this act to provide funds for the purpose stated in the resolution making determinations.

The resolution shall:

(a) State the purpose for which the bonds are proposed to be issued.

(b) State the principal amount of the bonds.

(c) State that the bonds are to be revenue bonds payable exclusively from revenues derived by the local agency within the sewer revenue district from the operation of a sewer system or within the water revenue district from the operation of a water system.

(d) State the maximum rate of interest on the bonds which shall not exceed 6 percent a year payable annually or semiannually or in part annually or in part semiannually.

(e) Fix the election date.

(f) Fix the manner of holding the election.

(g) Fix the manner of voting on the issuance of the bonds.

(h) State that in all other particulars the election shall be held and the votes canvassed pursuant to law for other elections in said local agency.

The resolution shall be published once a week for at least two weeks in a newspaper published and circulated in the local agency. If no newspaper is published and circulated in the local agency then the publication shall be made in a newspaper published in the county in which the local agency is located. Said resolution shall also be posted at three public places within the sewer revenue district or water revenue district at least two weeks before the election. No other notice of said election need be given. Only qualified voters residing within the sewer revenue district or water revenue district are entitled to vote at said election.

If the votes of a majority of all the voters voting on the proposition are in favor of the issuance of the bonds the governing body shall provide for the issuance and sale of said bonds by resolution or resolutions to take effect upon adoption.

If the votes of less than a majority of all the voters voting on the proposition are in favor of issuing the bonds the governing body shall not adopt a resolution of intention containing a substantially similar purpose for a substantially similar area until six months after the date of the election.

No irregularities or informalities in conducting such an election shall invalidate the same if the election shall have been fairly conducted. Any action or proceeding wherein the validity of the formation of the sewer revenue district or water revenue district or of the proceedings for the authorization of the revenue bonds or of the right to prescribe, revise, collect and enforce charges for water service within the water revenue district or upon the persons and property served by the sewer system within the sewer revenue district is contested, questioned or denied shall be commenced within three months from the date of such election, otherwise the formation of the sewer revenue district or water revenue district, the proceedings for the authorization of the revenue bonds, and the right to prescribe, revise, collect, and enforce charges shall be held to be valid and in every respect legal and incontestable.

Sec. 8. The governing body may issue and sell the bonds in the manner it determines. It may sell the entire issue of bonds at one time or may divide an issue into series and sell each series at different times. The bonds may be sold at a price below par value; provided, that the maximum net interest cost on bonds sold below par or face value shall not exceed 6 percent a year payable semiannually to the respective maturity dates of the bonds determined by standard tables of bond values. The proceeds of the sale (except for premium and accrued interest which shall be paid into the fund designated for the payment of principal and interest of the bonds) shall be paid into the construction fund designated by the resolution authorizing the issuance of the bonds and shall be applied exclusively to the purpose stated in the resolution calling the election; provided, that when said purpose has been accomplished any remaining unexpended funds derived from the sale of said bonds shall be used for the payment of principal and interest of said bonds

Before selling the bonds or any part thereof the governing body shall give notice inviting sealed bids in such manner as it may prescribe. If satisfactory bids are received the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received or if the governing body determines that the bids are not satisfactory as to price or responsibility of the bidders it may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

Any action or proceedings wherein the validity of any of the revenue bonds or any of the proceedings in relation thereto is contested, questioned or denied shall be commenced within three months from the date of the adoption of the resolution authorizing the issuance of said bonds, otherwise said bonds and all proceedings in relation thereto shall be held to be valid and in every respect legal and incontestable.

Sec. 9. The resolution authorizing the issuance of the bonds shall state:

(a) The purpose for which said bonds are to be issued.

(b) The principal amount of bonds to be issued.

(c) The date said bonds are to bear.

(d) The maturity dates of the bonds, not exceeding 40 years from their respective dates.

(4) The maximum rate of interest on the bonds which shall not exceed 6 percent a year payable annually or semiannually or in part annually and in part semiannually.

(f) The denomination of the bonds, which shall not be less than one thousand ($1,000) each.

(g) The form of the bonds.

(h) The manner in which the bonds are to be executed.

(i) The medium and place of payment, which may be within or without the State of California.

(j) The fund or funds from which said bonds and the interest thereon and any premiums upon the redemption of any thereof are to be payable.

(k) The designation of the bonds as "Bonds of_____(naming the local agency) for Sewer (Water) Revenue District No. _____," except that if the sewer revenue district or water revenue district includes all of the local agency the bonds shall be designated as revenue bonds of the local agency.

The resolution authorizing the issuance of the bonds may also state:

(a) The form, denomination and condition of temporary bonds or interim certificates and the provisions for the replacements of mutilated, destroyed, stolen or lost bonds.

(b) The registration and conversion privileges of the bonds.

(c) The provisions regarding call or redemption prior to maturity, including the payment of a premium therefor.

(d) The provisions for the purchase out of any available funds of any outstanding bonds and the price at which and the manner in which the purchases may be made.

In the resolution providing for the issuance of the bonds the governing body may also fix additional terms and conditions for said bonds and may in any article, section or clause thereof make such provision as it may deem necessary or desirable to facilitate the issuance and sale of the bonds or for the protection or security of the holders thereof, including, but not limited to and without limiting the generality of the foregoing, provision for any or all of the following:

(a) Rates to be charged for service from the sewer system or water system and the collection and enforcement of charges.

(b) The extent to which such services may be furnished or rendered to the United States of America, the State of California, the local agency, or any city or public corporation or body, or private corporation or person free or at lower rates than otherwise charged.

(e) The permissible investments for said funds or any thereof.

(f) The accounts to be kept, the audits thereof, inspections permitted and reports of operations to be rendered.

(g) The carrying of insurance against any risks, and in case of loss the application of the insurance proceeds.

(h) Prohibitions against or limitations upon the sale, lease or other disposition of the sewer works or waterworks of any substantial portion thereof, and the use of any funds derived therefrom.

(i) Prohibitions against limitations upon the issuance of any additional bonds payable from revenues from said sewer revenue district or water revenue district, and prohibitions against or limitations upon the issuance of additional bonds having any priority in payment of principal or interest out of said revenues over revenue bonds theretofore or thereafter issued and payable out of said revenues.

(j) Provisions whereby the consent or agreement of a stated percentage or number of the holders of the bonds may bind all holders to modifications of the provisions of any resolution authorizing the issuance of said bonds, or to a refunding of said bonds and to calls or exchanges in connection with such refunding.

(k) Prohibitions against the entering into of any agreement which impairs the operation of the sewer system or water system, or any part of it necessary to secure adequate revenues to pay the principal and interest of the bonds or which otherwise would impair the rights of the bondholders with respect to the revenues or the operation of the sewer system or water system.

(l) Events of default, acceleration of payment of the bonds on default and waiver of default.

(m) The rights, liabilities, powers and duties arising upon the local agency's breach of any covenants, conditions or obligations.

(p) Any other restrictions or provisions valid under the Constitutions of the State of California and the United States of America, not inconsistent with the provisions of this act which the governing body deems necessary, convenient or desirable to facilitate the issuance and sale of said bonds or for the protection of the holders thereof

Said bonds shall be issued in negotiable form and shall be negotiable.

The bonds and interest or income from the bonds are exempt from taxation in this State except for gift, inheritance and estate taxes.

Bonds bearing the signature of any officer of the local agency in office at the time of the signing are valid notwithstanding that before delivery said person has ceased to be such officer.

Any bond may recite that it is issued pursuant to this act and bonds containing such recital are conclusively deemed valid and issued in conformity with this act. Reference on the face of the bonds to the resolution authorizing the issuance of the bonds incorporates the provisions of the resolution and of this act into the bonds and their coupons The validity of the authorization and issuance of the bonds is not affected by the proceedings for the acquisition, construction, improving, repair or financing of the sewer works or waterworks or by contracts in connection therewith.

The provisions of this act and the provisions and covenants set forth in the resolution authorizing the issuance of the bonds shall become a part of the contract with the bondholders, and shall be performed by the local agency or its proper officers, agents or employees and time of such performance is of the essence of said contract; provided, however, that this act does not authorize any local agency to make any covenants, to perform any act, or to do anything which requires expending

any funds other than the revenues derived by the local agency within said sewer revenue district from the operation of a sewer system, or within said water revenue district from the operation of a water system, but existing funds or other funds legally available from some other source may be used by the local agency; provided, that no indebtedness or liability of the local agency is incurred in connection with their use.

The bonds are special obligations of the local agency and shall be secured solely by a pledge of, lien, charge and encumbrance upon the revenues derived by the local agency within the sewer revenue district from the operation of the sewer system or within the water revenue district from the operation of the water system and are not secured by the taxing power of the local agency and the payment of the principal of and interest on said bonds and any premiums upon the redemption of any thereof are not a debt of the local agency or a legal or equitable pledge, charge, lien or encumbrance upon any of its property, or any of its income, receipts or revenues *except said revenues derived within the sewer revenue district from the* operation of the sewer system or said revenues derived within the water revenue district from the operation of the water system.

The revenues and any interest earned on the revenues shall constitute a trust fund for the payment of the interest on and principal of the bonds.

The general fund of the local agency is not liable for the payment of the bonds or their interest, nor is the credit or taxing power of the local agency pledged for the payment of the bonds or their interest nor can the holder of bonds or coupons compel the exercise of the taxing power of the local agency or the forfeiture of any of its property.

Pursuant to this act and the resolution authorizing their issuance, bonds of the same issue shall be equally secured by a pledge of, lien, charge and encumbrance upon the revenues derived by the local agency within the sewer revenue district from the operation of the sewer system or within the water revenue district from the *operation of the water system* without priority for number, date of bonds, of sale, or execution or of delivery; provided, however, that the local agency may authorize the issuance of bonds of different series and may provide that the bonds in any series shall, to the extent and in the manner prescribed in the resolution, be subordinated to and be junior in standing, with respect to payment of principal and interest and the security thereof, to such other bonds as may be specified in the resolution.

In the resolution authorizing the issuance of the bonds the governing body may pledge, place a lien, charge and encumbrance upon and assign all or any part of the revenues derived by the local agency within the sewer revenue district from the operation of the sewer system or within the water revenue district from the operation of a water system for the security of the bonds.

Every bond shall recite in substance that the principal of and interest on the bond are payable solely from the revenues derived by the local agency within the sewer revenue district from the operation of the sewer system or within the water revenue district from the operation of the water system, and that the local agency is not obligated to pay it except from said revenues.

The governing body may provide in the resolution authorizing the issuance of the bonds that amounts for the necessary and reasonable costs of maintenance, operation and repair of the sewer system within the sewer revenue district or the water system within the water revenue district, may be apportioned from the revenues. The governing body may also provide in said resolution that there shall be apportioned from the revenues amounts for all or a portion of the necessary and reasonable costs of maintenance, operation and repair of any sewer works or system of sewer works lying outside of the sewer revenue district which are in whole or in part used for the collection, carrying away, treatment or disposal of sewage or industrial waste originating within the sewer revenue district or any system of waterworks lying outside the water revenue district which are in whole or in part used for transporting, storing, treating, distributing or otherwise supplying water to the water revenue district. Said resolution may provide that said expenses of maintenance, operation and repair may be apportioned from the revenues either prior or subsequent to the payment from revenues of principal and interest on the bonds and the setting aside of sums into security funds.

The local agency shall pay or cause to be paid the principal and interest on the bonds on the date, at the place, and in the manner mentioned in the bonds and coupons and in accordance with the resolution authorizing their issuance

The local agency shall operate the sewer system or water system in an efficient and economical manner *and shall maintain and preserve the sewer system* or water system in good repair and working order.

The local agency shall prescribe, revise, collect and enforce such charges that after making allowances for contingencies and error in the estimates, the charges shall be at least sufficient to pay the following amounts in whatever order the governing body sets forth in the resolution:

(a) The interest on and principal of the bonds as they become due and payable.

(b) All payments required for compliance with the resolution authorizing the issuance of the bonds, including the creation of sinking and reserve funds.

(c) All payments required to meet any other obligations of the local agency which are charges, liens, or encumbrances upon, or payable from, the revenues derived by the local agency from the operation of the sewer system within the sewer revenue district or the water system within the water revenue district.

(d) The necessary and reasonable costs of maintenance, operation and repair of the sewer system within the sewer revenue district or the water system within the water revenue district and, if so provided by the governing body in the resolution providing for the issuance of the bonds, all or a portion of the necessary and reasonable costs of maintenance, operation and repair of any sewer works or system of sewer works lying outside of the sewer revenue district which are in whole or in part used for the collection, carrying away, treatment or disposal of sewage or industrial waste originating within the sewer revenue district or any waterworks or system of waterworks lying outside the water revenue district which are in whole or in part used for transporting, storing, treating, distributing or otherwise supplying water to the water revenue district.

After all the aforementioned payments have been made, but subject to any limiting covenants in the resolution providing for the issuance of the bonds, the remaining surplus may be used for any lawful purpose of the local agency.

Whenever the governing body declares by resolution that it deems it desirable that the bonds should be certified as provided in this section, the governing body shall file a certified copy of the resolution with the California Districts Securities Commission and the bonds shall then be subject to investigation and certification by the California Districts Securities Commission pursuant to the Districts Securities Commission Law.

If in the opinion of the commission, the bonds are adequately secured and the revenues derived by the local agency within the sewer revenue district from the operation of the sewer system or within the water revenue district from the operation of the water system, and the other funds applicable to the payment of the bonds are, or upon the acquisition, construction, improvement, repair, or financing of the sewer works or waterworks will be sufficient to pay the principal of and the interest on the bonds, the commission shall certify that the bonds are eligible as legal investments for public and private funds and as security for the deposit of public funds in banks in the state pursuant to the Districts Securities Commission Law and this section.

Sec. 10. Remedies for collecting and enforcing rates and charges set out in this act are cumulative and may be pursued alternately, or any thereof may be used consecutively when the governing body so determined. If any one of said remedies is or may be invalid, all valid remedies shall remain effectual until the principal and interest of the bonds are fully paid. Any holder of any bond outstanding at any time may compel the use of any or all of the remedies herein provided. The costs of collection and enforcement of the remedies for the collection of charges shall be paid from the revenues.

As a remedy established for the collection of due and unpaid deposits and charges and the penalties thereon an action may be brought in the name of the local agency in any court of competent jurisdiction against the person or persons who occupied the property when the service was rendered or the deposit became due or against the owner or owners of the property when the service was rendered or the deposit became due or against any person guaranteeing payment of bills, or against any or all of said persons, for the collection of the amount of the deposit or the collection of delinquent charges and all penalties thereon.

Sec. 11. A local agency may declare in the resolution or ordinance prescribing or revising charges for sewer services and facilities that delinquent charges for sewer service and all penalties thereon when recorded as in this act provided shall constitute a lien upon the real property served (except that no such lien shall be created against any publicly owned property) and such lien shall continue until the charge and all penalties thereon are fully paid or the property sold therefor.

Such resolution or ordinance shall not be adopted until the governing body has given notice of and held a hearing thereon substantially as herein provided; provided, however, that nothing herein shall be construed to prevent the local agency from prescribing, revising and collecting charges sufficient in amount to comply with any provision of this act or any provision or covenant in the proceedings for the issuance of any outstanding revenue bonds of the local agency payable from the revenues of the enterprise.
