RESOLUTIONS

The following resolution was offered:

By Assemblyman Warren:

House Resolution No. 93

Relative to governmental liability

WHEREAS, The California Tort Claims Act of 1963 purports to limit governmental liability "except as otherwise provided by statute"; and

WHEREAS, The act does not specifically provide that governmental entities are liable for nuisance, and

WHEREAS, California Civil Code Section 3479 defines conduct constituting a nuisance and has been applied against governmental entities since 1884; and

WHEREAS, The *Nestle* v *Santa Monica* decision of a divided California Supreme Court clearly continues the liability of governmental entities for nuisance; and

WHEREAS, The majority opinion of the court in *Nestle* relies heavily on legislative intent in finding continued governmental entity liability for nuisance despite enactment of the Tort Claims Act; and

WHEREAS, The California Law Revision Commission which originally drafted the Tort Claims Act has unsuccessfully proposed legislation eliminating liability of governmental entities for nuisance; and

WHEREAS, The Law Revision Commission and special consultants to it have argued that it was originally intended and more consistent that the Tort Claims Act eliminate liability of governmental entities for nuisance; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is hereby requested to assign to an appropriate committee for study the subject of this resolution; and be it further

Resolved, That in determining whether governmental entities should continue to be liable for nuisance, such committee balance the needs, impact, and range of governmental activities against the right of the people to be secure from unlawful invasion of their personal liberty and property rights; and be it further

Resolved, That such committee report its findings and recommendations to the Assembly on the date specified by the Rules Committee upon assignment of this resolution

Recommendation of the Governor

In accordance with Article IV, Section 12(c), of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No 901:

Governor's Office, Sacramento

By Assemblyman Duffy.

House Resolution No. 83

Relative to adoption of emergency regulations by the State Department of Social Welfare

WHEREAS, It has come to the attention of the Members of the Assembly that the State Department of Social Welfare has during the past two years increasingly pursued the policy of adopting administrative regulations under a finding of emergency, and

WHEREAS, The counties, which are mandated by law to carry out the regulations of the State Department of Social Welfare, are continually faced with the critical problem of implementing regulations which have been adopted on an emergency basis and therefore are not subject to public hearings on appropriateness and clarity, and which do not afford adequate lead time for error-free implementation; and

WHEREAS, The appropriateness of the almost routine use of emergency procedures for the adoption of administrative regulations by the State Department of Social Welfare is questionable in light of statutes governing administrative rule-making powers which specify

limited circumstances for the adoption of emergency regulations; now, therefore, be it

Resolved by the Assembly of the State of California, That the Legislative Analyst, in cooperation with the Assembly Welfare Committee and the Legislative Counsel, is hereby requested to study the subject of the adoption, amendment or repeal of the Department of Social Welfare's regulations concerning welfare as emergency regulations during the past two years in light of the use and purpose for which the adoption of emergency regulations was intended by the Legislature, and to report its findings and recommendations to the Legislature by the fifth calendar day of the 1973 Regular Session; and be it further

House Resolution No. 103

Relative to Stone Lakes Basin

WHEREAS, The Stone Lakes Basin in Sacramento County is one of the last remaining natural freshwater lake habitats in the California Central Valley, with its complexly interrelated water, marsh, and grassland ecosystem providing food and cover for one of the most unique and diverse populations of birds, fish, and animal life in the state, and

WHEREAS, The basin contains the largest collection of bird species in the Central Valley, with some 100 different types identified, includ-

ing such rare nongame birds as great blue herons, white-tailed kites, coots, and egrets; and

WHEREAS, The basin serves as a major component of the international Pacific flyway by providing a seasonal home for many species of migratory waterfowl, including sandhill cranes, teal, widgeon, woodducks, mallards, pintails, and snow, Canada, and white-fronted geese, and

WHEREAS, The basin is home to a wide variety of fish and furbearing animals, including rare river otters and mink, wildlife which were once prevalent in the Central Valley but have largely disappeared as the result of urban and industrial development, and

WHEREAS, Because of the demands of growth, unique riparian habitats such as that of the Stone Lakes Basin are rapidly disappearing throughout California, in recent years approaching the alarming annual rate of 15 percent of the remaining acreage; and

WHEREAS, The Stone Lakes Basin has only recently been granted a reprieve from massive urban development, which if allowed to proceed would ultimately destroy the fragile, complex ecosystem of the area; and

WHEREAS, The Sacramento Regional General Plan estimates a 50 percent increase in the regional population by 1990, and the State Department of Parks and Recreation reports that the demand for recreation in the Sacramento metropolitan area is increasing at a rate 1.26 times faster than population, and that consequently by 1980 several thousand additional acres of recreation land will be required within the region, and

WHEREAS, The U.S. Army Corps of Engineers, in its November 1971 Environmental Working Paper on the Morrison Creek Stream Group, recommended that the Stone Lakes Basin be acquired as a permanent flood retardation basin, a greenbelt and open-space area, a fish and wildlife preserve, and a public recreation area; and

WHEREAS, The riparian habitat of the Stone Lakes Basin would not be significantly harmed by appropriate recreational uses, and if preserved and made available to the public, would provide an extraordinary range of recreational and educational experiences to the large adjacent metropolitan population, including observation and study of the unique and varied flora and fauna of the area, and enjoyment of riding, hiking, and bicycling trails and picnic areas, thereby making a major contribution to future Sacramento regional recreation needs; now, therefore, be it

Resolved by the Assembly of the State of California, That the Secretary of the Resources Agency is requested to undertake a comprehensive study of the Stone Lakes Basin, and report to the Assembly on the following:

(1) A comprehensive definition of the existing and potential public interest in the Stone Lakes Basin, including but not limited to the significance of the basin ecosystem to the state, regional, and local fish and wildlife populations, and to state, regional, and local recreation and open-space needs, and

(2) Specific recommendations for, and costs of, the preservation and public use of the Stone Lakes Basin, including, but not limited to, the feasibility and cost of adding the basin to the state park system, per-

haps as an extension to the adjacent, already-approved Snodgrass Slough State Park, and an analysis of all possible sources of federal, state, local and private funds which could be used to preserve the basin, including park, recreation, open space, fish and wildlife preservation, and flood control financing programs, and be it further

Resolved, That the Secretary of the Resources Agency is requested to submit his comprehensive report on the Stone Lakes Basin to the Legislature no later than October 1, 1972, and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Secretary of the Resources Agency

Resolution read, and referred by the Acting Speaker to the Committee on Rules

By Assemblyman Duffy·

House Resolution No. 104

Relative to the packaging of drugs and other hazardous substances

WHEREAS, The use of safety-lid caps and other safety features on containers of prescription drugs and other hazardous substances would eliminate the occurrence of numerous serious injuries and deaths, especially with respect to children, annually, and

WHEREAS, Congress enacted the Poison Prevention Packaging Act of 1970, which establishes packaging requirements for drugs and other hazardous substances marketed in interstate commerce, and

WHEREAS, California has no legal standards for packaging hazardous substances comparable to the Poison Prevention Packaging Act of 1970 for goods marketed in intrastate commerce, now, therefore, be it

Resolved by the Assembly of the State of California, That the State Department of Public Health investigate the packaging practices of firms marketing drugs and other hazardous substances in intrastate commerce, and report to the Legislature no later than January 30, 1973, with recommendations concerning standards that should be established to insure the safe packaging of such products, and be it further

brother stands against brother.
It is difficult for us at times

May we now place all our trust

(a) The annual income to be capitalized shall be determined as follows:

(1) Where sufficient rental information is available the income shall be the fair rent which can be imputed to the land being valued based upon rent actually received for the land by the owner and upon typical rentals received in the area for similar land in similar use, where the owner pays the property tax When the land being valued is actually encumbered by a lease, any cash rent or its equivalent considered in determining the fair rent of the land shall be the amount for which the land would be expected to rent were the rental payment to be renegotiated in the light of current conditions including applicable enforceable restrictions

(2) Where sufficient rental information is not available, the income shall be that which the land being valued reasonably can be expected to yield under prudent management and subject to applicable enforceable restrictions There shall be a rebuttable presumption that "prudent management" does not include use of the land for a recreational use, as defined in subdivision (n) of Section 51201 of the Government Code, unless the land is actually devoted to such use

For the purposes of this section income shall be determined in accordance with rules and regulations issued by the board and with this section and shall be the difference between revenue and expenditures Revenue shall be the amount of money or money's worth, including any cash rent or its equivalent, which the land can be expected to yield to an owner-operator annually on the average from any use of the land permitted under the terms of the enforceable restriction including, but not limited to, that from the production of salt and from typical crops grown in the area during a typical rotation period, not to exceed six years including the tax year and the next succeeding

five years When the land is planted to fruit-bearing or nut-bearing trees, vines, bushes or perennial plants, the revenue shall not be less than the land would be expected to yield to an owner-operator from other typical crops grown in the area during a typical rotation period, not to exceed six years including the tax year and the next succeeding five years Proceeds from the sale of the land being valued shall not be included in the revenue from the land

Expenditures shall be any outlay or average annual allocation of money or money's worth that can be fairly charged against the revenue expected to be received during the period used in computing such revenue Those expenditures to be charged against revenue shall be only those which are ordinary and necessary in the production and maintenance of the revenue for that period Expenditures shall not include depletion charges, debt retirement, interest on funds invested in the land, interest on funds invested in trees and vines valued as land as provided by Section 429, property taxes, corporation income taxes, or corporation franchise taxes based on income When the income used is from operating the land being valued or from operating comparable land, amounts shall be excluded from the income to provide a fair return on capital investment in operating assets other than the land, to amortize depreciable property, and to fairly compensate the owner-operator for his operating and managing services

Where the land being valued is not capable of producing income or is not used to produce income or where sufficient information is not available by which income can be determined as provided in this subdivision, the board and the assessor shall impute to the land a reasonable amount to be capitalized as income

(b) The capitalization rate to be used in valuing land pursuant to this article shall not be derived from sales data and shall be the sum of the following components

(1) An interest component to be determined by the board and announced no later than September 1 of the year preceding the assessment year and which was the yield rate for long-term United States government bonds, as most recently published by the Federal Reserve Board, rounded to the nearest one-quarter (¼) percent

(2) A risk component which shall be a percentage determined on the basis of the location and characteristics of the land, the crops to be grown thereon and the provisions of any lease or rental agreement to which the land is subject, and

(3) A component for property taxes which shall be a percentage equal to the estimated total tax rate applicable to the land for the assessment year times the assessment ratio

(4) A component for amortization of any investment in perennials over their estimated economic life when the total income from land and perennials exceeds the yield from other typical crops grown in the area

(c) The value of the land shall be the quotient of the income determined as provided in subdivision (a) divided by the capitalization rate determined as provided in subdivision (b)

(d) The ratio prescribed in Section 401 shall be applied to the value of the land determined in subdivision (c) to obtain its assessed value.

SEC 4 Section 423 7 is added to the Revenue and Taxation Code, to read

423 7. (a) When valuing open-space land of not less than 150-acre parcels subject to a wildlife habitat contract and used exclusively for habitat by native or migratory wildlife, recreation, and livestock pasture, the board, for purposes of surveys required by Section 1815, and all assessors shall value such land under paragraph (1) or (2) of this subdivision

(1) Unless paragraph (2) applies, the value shall be the full cash value determined for the lien date immediately preceding the signing of the wildlife habitat contract or the full cash value as determined for the current lien date, whichever is less

(2) In the event that full cash value of the land as determined for the current lien date exceeds the full cash value determined for the lien date immediately preceding the signing of the wildlife habitat contract, the full cash value of the land shall not be increased by more than 2 percent for each assessment year following the assessment year in which such contract was signed over the amount determined for the lien date immediately preceding such signing

(b) The full cash value determined under subdivision (a) shall be adjusted by the factor described in Section 401

"SEC 3 This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are.

The existing 5 percent assumption rate applicable to single premium annuities and group annuities covered by this act is substantially less than the returns on new-money investments realized by insurers, and as a consequence such assumption rate places a substantial strain on the surplus available for allocation of reserves by smaller life insurers, resulting in a practical requirement that such smaller life insurers raise premiums If this act takes effect immediately, such premium increases will be avoided, and smaller companies will be permitted to compete with larger insurers."

Bill ordered reprinted, and to be re-referred to the Committee on Finance and Insurance.

INTRODUCTION, FIRST READING, AND REFERENCE OF ASSEMBLY BILLS (RESUMED)

The following resolution was offered:

Assembly Concurrent Resolution No. 126: By Assemblyman Monagan—Relative to the constitutional recess of the Legislature

Held at Desk by order of the Acting Speaker.

RESOLUTIONS

The following resolutions were offered:

By Assemblyman Ryan:

House Resolution No. 105

Relative to marriage counselors

WHEREAS, The Board of Behavioral Science Examiners reviews all applications for state licenses for marriage counselors, and

WHEREAS, The board has continuously increased the official requirements for a marriage counselor's license; and

WHEREAS, The board has raised its unofficial standards for screening applications so that only a fraction of those seeking admission to the written examination for the license are ever admitted to the examination; and

WHEREAS, This policy apparently does not serve the needs of the people of California or the applicants for the marriage counselor's license, rather, it appears to promote a closed shop, private club situation within the marriage counseling profession, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is hereby requested to assign to an appropriate committee for study the subject of standards and practices used by the Board of Behavioral Science Examiners in reviewing the applications of persons seeking state licenses to practice as marriage counselors, and be it further

Resolved, That such committee report its findings and recommendations to the Assembly on the date specified by the Rules Committee upon assignment of this resolution

Resolution read, and referred by the Acting Speaker to the Committee on Rules.

By Assemblymen Miller and Meade:

House Resolution No. 106

Relative to nonresident tuition waivers at the University of California

WHEREAS, Californians derive important benefits from the presence of students from other nations and states at California public institutions of higher learning, and

WHEREAS, Among such benefits are cultural enrichment of the educational experience of California resident students, ability of California institutions to attract the best graduate student-scholars from around the world, many of whom further undergraduate education by serving as teaching assistants, enhancement of cordial relations between the United States and other nations, since foreign students retain residual ties with our nation when they return to leadership positions in their homeland; economical enrichment of California's economy since many highly skilled graduate students remain in California even though the major portion of their education has been provided by other states; and preservation of maximum educational opportunity for California residents in other states and nations, which might retaliate in kind if nonresident enrollments were unreasonably restricted in this state; and

WHEREAS, Because many highly qualified nonresident students could not afford to attend the University of California if required to pay the annual nonresident and educational fee of $2,100, one of the highest in the nation, the Legislature has until this year provided the university with funds to waive nonresident tuition for 15 percent of nonresident students; and

WHEREAS, The Legislature has substantially reduced nonresident tuition waivers for 1972–73; now, therefore, be it

Resolved by the Assembly of the State of California, That in recognition of the adverse educational consequences which will therefor occur, the Legislature will give special consideration to the restoration of the provision for nonresident tuition waivers at the University of California in 1973–74, and urgently requests the Regents of the University of California to continue to provide the normal percentage of nonresident waivers in 1973–74 and thereafter.

Resolution read, and referred by the Acting Speaker to the Committee on Rules

By Assemblyman Quimby:

Communication Relative to Senate Bill No. 1446

July 28, 1972

The Honorable Robert Moretti, Speaker
California State Assembly, Sacramento

Dear Mr Speaker. Senate Bill 1446, relating to State University and Colleges, is presently before the Assembly for consideration

It has been suggested that publication in the Assembly Journal of a statement of legislative intent concerning the word "grievances," as used in S B. 1446 would be desirable The term "grievances" refers to unfair treatment by supervisors and/or colleagues, and does not include matters such as the salary structure which require legislative action.

Yours very truly,

GEORGE R. MOSCONE

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

By unanimous consent, the following letter of transmittal was ordered printed in the Journal:

Joint Legislative Audit Committee

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly of the Legislature of California

Sirs. We herewith transmit a report which evaluates the statistical sample methods used by the Department of Health Care Services for

reviewing the effectiveness of the fiscal intermediaries Medi-Cal payment procedures.

The department's stated purpose for the use of statistical sampling in reviewing paid claims at each fiscal intermediary is "to apprise management of DHCS and the fiscal intermediaries of the effectiveness of the claims processing systems; correct those claims found to be in error; and make improvements to such systems which will result in the elimination of future errors."

The fiscal intermediaries, Blue Shield, Blue Cross-North and Blue Cross-South, under contract with the Department of Health Care Services, process and pay Medi-Cal claims Doctors, dentists, pharmacists, hospitals, nursing homes, home health agencies, and other Medi-Cal providers, submit the claims. During the fiscal year 1970–71 over 33 million claims amounting to over $960 million were processed and paid.

Rigorous surveillance over the payment process by the Department of Health Care Services is extremely important to adequately safeguard state funds by the immediate discovery of errors and the elimination of any conditions creating such errors.

The report states that this important control function of monitoring paid claims has been neglected by the department. A November 1970 test by the Department of Health Care Services which reported a projected $3 million error rate in claims paid had not been reported to or discussed with Blue Shield operating personnel.

It is reported that the department has never tried to make any significant analysis of the sampling results. There are conclusions that can be drawn. For example, the nursing home error rate is consistently higher than the community hospital error rate. This would indicate that the nursing home claims unit needs special attention to determine and correct what is happening. The 9 15 percent nursing home error rate for July 1970 should have prompted a department survey of the nursing home payment system. Even though the errors were found in 1970, no final action has been taken to correct the errors or the causes for the errors

The report concludes that the department is not maintaining adequate control of the payment process and presents seven recommendations for improving the department's method of reviewing the intermediaries claim payment procedures.

Respectfully submitted,

VINCENT THOMAS, Chairman
Joint Legislative Audit Committee

Above report referred to the Committee on Ways and Means.

"14092 Sections 14092 through 14099 apply to the transfer of assets as of June 30, 1972, as they relate to the Los Angeles Community College District Retirement System.

SEC. 2 Section 14093 is added to the Education Code, to read:

14093. The total market value of the State Teachers' Retirement Funds' securities shall be established as of the close of business on June 30, 1972 The accrued income on the securities at June 30, 1972, cash on hand, the investment principal in course of collection and the members contributions receivable shall be added to the total market value of securities and, after deducting interest and principal collected in advance and retirement claims payable and filed, this amount shall be divided by the total of member contribution reserves plus reserves for retirement annuities, death annuities, and survivor benefits. The quotient thus obtained, computed to eight places past the decimal, shall be divided into the total of the cash, market values of the securities in kind which are to be transferred to the State Teachers' Retirement System to enable that system to discharge the obligations for member contribution reserves plus reserves for retirement annuities, death annuities and survivor benefits being assumed by that system for the Los Angeles Community College District Retirement System in Section 14455 1, established as of the close of business on June 30, 1972, and any accrued income thereon, to provide the values of the Los Angeles Community College District's assets for transfer To ensure uniform calculation of the reserves for retirement annuities, death annuities and survivor benefits, the reserves for both systems shall be cal-

culated by applying the appropriate State Teachers' Retirement System's 1943 and 1962 State Teachers' Morality Tables, 4 percent interest attained age annuity factors to the benefits payable as of June 30, 1972.

Accrued income properly computed shall include any delinquent interest at the face rate on any item which, while in default, is guaranteed or insured by an agency of the United States government.

Values established in accordance with the above procedures shall be obtained and approved by each board, who may obtain the assistance of other parties and may, if they so desire, agree to binding valuations by a mutually agreed-upon independent party.

Either the Los Angeles Community College District or the Teachers' Retirement Board may reject specified securities for transfer and recommend alternative selections.

Selection of securities to be transferred in kind shall not be made in a manner adverse to the Teachers' Retirement Fund. While a proportionate division of each holding shall not be required, the State Teachers' Retirement System shall be entitled to a division of the city local system's securities distributed between nonconvertible fixed income investments, equities, and securities convertible into equities in proportion to the book value of these security groupings to the total value of the city local system's portfolio as of June 30, 1972 However, the Teachers' Retirement Board may reject any securities which do not qualify under its investment resolution as amended December 18, 1970.

Should the respective parties be unable to reach agreement on market value of assets by October 15, 1972, the matter shall be submitted to arbitration by an independent party who, in making his determination shall be guided by the State Constitution, existing law, the formal investment resolution of the Teachers' Retirement Board as amended December 18, 1970, and the provisions of this article, and his decision shall be binding upon both parties to the extent that it is legal under state law The arbitrator shall be mutually agreed upon by the respective boards. If agreement cannot be reached, the market value shall be established by a panel of three arbitrators, one appointed by the Los Angeles Community College District, one by the Teachers' Retirement Board and the third selected by mutual agreement of the first two. Decisions of the arbitration panel shall be binding upon the Los Angeles Community College District and the State Teachers' Retirement System to the extent that it is legal under state law.

SEC. 3. Section 14094 is added to the Education Code, to read:

14094 To mitigate the possibility of conflicts arising because of changing market valuations over time, the transfer shall be effected as soon as possible To this end, a partial transfer consisting of cash and securities in kind valued at market plus accrued income equivalent to 99 percent of the estimated value of the annuity savings (active member accumulated contributions) shown on the city system's records shall be made as soon after June 30, 1972, as possible with a subsequent adjustment in its valuation amount effected as soon as the aforementioned valuation quotient is computed A decision as to which stocks shall be eligible for transfer must be agreed upon by both parties prior to the valuation date to avoid any possible inequity. For the total of

the common and preferred stocks to be transferred, any change in the market value between the valuation date and the actual date of transfer shall bear a close relationship to the change in the Standard and Poor's Composite Stock Index of 500 companies between the same dates.

SEC. 4 Section 14094.1 is added to the Education Code, to read:

14094 1. If the Los Angeles Community College District Retirement System incurs a net realized loss from the transfer of assets at less than their book values, that loss shall be a charge against the residual funds remaining on deposit with the Los Angeles Community College District.

SEC 5. Section 14094 2 is added to the Education Code, to read:

SEC 6 Section 14095 is added to the Education Code, to read:

14095. If the Los Angeles Community College District's assets contributed are recorded in the State Teachers' Retirement System's accounts at a total amount different than the total member annuity savings (active member accumulated contributions) and the present value of retired roll being financed from local system reserves transferred to the State Teachers' Retirement System, the difference shall be recorded in the State Teachers' Retirement System's account as a deferred item which is to be amortized over a 25-year period.

SEC 7 Section 14096 is added to the Education Code, to read:

14096 All costs of the asset transfer, asset valuation, security registration, and the administrative costs in the implementation of Chapter 1305, Statutes 1971, as they relate to the local system, shall be a charge against the residual funds remaining on deposit with the Los Angeles Community College District.

SEC. 8. Section 14097 is added to the Education Code, to read:

14097. The balance of assets remaining on deposit with the Los Angeles Community College District after the transfers, deposits and payments required by this article or after establishment of reserves from which such deposits and payments shall be made, shall be held intact by the districts until the Legislature either prior thereto or thereafter expressly authorizes the expenditure or other disposition thereof.

~~14120. At the beginning of each fiscal year the system shall pay to each local district maintaining a local system the amounts specified in this article.~~

SEC. 10. Article 31 (commencing with Section 14451) is added to Chapter 4 of Division 10 of the Education Code, to read:

Article 31. Los Angeles Community College District Retirement System

14451. Chapter 1305, Statutes 1971, modified the State Teachers' Retirement System for improving benefits for, and providing a source of financing from, teachers and school districts which did not maintain a local retirement system. These changes made it impossible to continue the prior relationship of the Los Angeles Community College District Retirement System to the State Teachers' Retirement System. To enable this local system to separately determine its future course of action, Chapter 1305, Statutes 1971, made no change in the local system other than to terminate additional subventions after June 30, 1972.

The Los Angeles Community College District may expend moneys out of the local system fund, to consummate the merger, and to create and maintain reasonable contingency reserves to insure an orderly and adequate transition fully protecting the interests of the Los Angeles Community College teachers.

14452 Notwithstanding any other provision in this code, the provisions of this article shall govern the matter contained therein.

14453. The modifications to the State Teachers' Retirement System retirement, disability and family allowances formulae contained in Chapter 1305 of the Statutes of 1971 shall not apply to the Los Angeles Community College District Retirement System, hereinafter referred to as the Community College System.

14454. The members of the Los Angeles Community College District Retirement System in an election held prior to July 1, 1972, chose to be covered only by the State Teachers' Retirement System as of July 1, 1972.

Sections 14455 1 through 14661 shall apply to the merger of the Los Angeles Community College District Retirement System with the State Teachers' Retirement System.

14455.1. The subvention to the Community College System shall be canceled and the retired rolls transferred to the State Teachers' Retirement System as of July 1, 1972, together with the present value of the annuity and other benefits being paid from the employer and employees' reserves in the Community College System less the present value of the benefit being provided out of subventions.

14455.2. There shall be no reduction of any benefit being paid to an individual as a result of Section 14455.1.

SEC 1 5 Chapter 6.10 (commencing with Section 6499.230) is added to Division 6 of the Education Code, to read.

CHAPTER 6 10. EDUCATIONALLY DISADVANTAGED YOUTH PROGRAMS

6499.230 It is the intent of the Legislature to provide quality educational opportunities for all children in the California public schools. The Legislature recognizes that because of differences in family income, differing language barriers, and pupil transiency, differing levels of financial aid are necessary to provide quality education for all students.

6499.231. From the funds appropriated by the Legislature for the purposes of this chapter, the Superintendent of Public Instruction, with the approval of the State Board of Education, shall administer this chapter and make apportionments to school districts to meet the total approved expense of the school districts incurred in establishing education programs for pupils who qualify economically and educationally in preschool, kindergarten, or any of grades 1 through 12, inclusive. Nothing in this chapter shall in any way preclude the use of federal funds for educationally disadvantaged youth Districts which receive funds pursuant to this chapter shall not reduce existing district resources which have been utilized for programs to meet the needs of low income students

6499 232 Maximum apportionments allowable to school districts shall be determined by the following factors·

(a) An index of "potential impact of bilingual-bicultural pupils" determined by dividing the percent of pupils in the district with Spanish and Oriental surnames, *and Indian pupils,* as determined by the annual ethnic survey conducted by the Department of Education, by the statewide average percentage of such pupils for unified, elementary, or secondary districts, as appropriate

(b) A ratio of the district's "index of family poverty," defined as the district's Elementary and Secondary Education Act, Title I entitlement, divided by its average daily attendance in grades 1 through 12, or any thereof maintained, divided in turn by the state average index of family poverty for unified, elementary, or secondary districts, as appropriate

(c) A ratio of the district's "index of pupil transiency," as computed from the relationship between the district's average daily attendance and its total annual enrollment, divided by the state average index of pupil transiency for unified, elementary, or secondary districts, as appropriate.

The district's total maximum apportionment under this chapter shall be determined by computing the product of (1) one-third the sum of the above three factors, except that if the resulting figure is higher than 2, the resulting figure shall be deemed to be 2, and if the resulting figure is lower than (1) no entitlement shall be computed for such a district, (2) the number of pupils receiving aid for dependent children support, and (3) a constant amount of three hundred dollars

($300), or such amount as the Superintendent of Public Instruction may determine so that the sum of all allocations will not exceed the funds appropriated by the Legislature for the purposes of this chapter

6499 234 In approving programs under this chapter, the State Board of Education shall give due consideration to the effectiveness of the program and shall not continue in operation any program that, upon evaluation, has been shown to be of low effectiveness and which has only limited possibility of improved effectiveness

For the fiscal year 1973–1974 and for each year thereafter, districts which demonstrate a high degree of program effectiveness shall receive amounts up to their entitlement limits. Districts which demonstrate low levels of program effectiveness shall continue to receive their initial apportionments but the Superintendent of Public Instruction may reduce the additional computed apportionments due such districts, if he determines that such programs have limited possibilities of improved achievement.

6499 235 The Superintendent of Public Instruction shall apportion the funds available for programs in accord with procedures specified in this chapter and policies which may be adopted by the State Board of Education Funds shall be allocated to each district within its entitlement based upon a plan submitted by the district to the Superintendent of Public Instruction, and approved by the State Board of Education The plan shall include (1) an explicit statement of what the district seeks to accomplish, (2) a description of the program and activities designed to achieve these purposes, and (3) a planned program of annual evaluation, including a statement of the criteria to be used to measure the effectiveness of the program

6499 236 The State Board of Education shall adopt regulations setting forth the standards and criteria to be used in the administration, monitoring, evaluation, and dissemination of programs submitted for consideration an amount not to exceed 1 percent of the total appropriation for the purposes of this chapter shall be retained by the Department of Education for these purposes. Funds appropriated for the purposes of this chapter not allocated as previously specified shall be allocated by the State Board of Education to promote the intent of this chapter to provide education programs to as many eligible pupils as possible and to stimulate the development, implementation, and evaluation of innovative programs

6499 237 The Superintendent of Public Instruction shall submit annually to the Governor and to each house of the Legislature a report evaluating the programs established pursuant to this chapter, together with his recommendations concerning whether the same should be continued in operation

(1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public

Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board.

(d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 17601.1 by ~~twice~~ the product determined under subdivision (c) of this section

(e) If the school district reports that it has maintained, during the current fiscal year, no classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation:

He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (b) of this section by ninety-seven hundredths (0.97) and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to the district change in average daily attendance He shall decrease the average daily attendance reported under the provisions of Section 17601.1 by ~~twice~~ the resulting product

(f) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation:

(g) If the school district reports, that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a)

of this section, there is an excess number of pupils computed pursuant to subdivision (b) of this section, and the average number of pupils in grades 1 to 3, inclusive, per each full-time equivalent classroom teacher is less than thirty (30), he shall decrease the average daily attendance reported under the provisions of Section 17601 by one-half of the decrease otherwise computed for the district pursuant to subdivision (f) of this section

The governing board of each school district maintaining elementary schools shall report for the fiscal year 1964–65 and each year thereafter the information required for the determination to be made by the Superintendent of Public Instruction under the provisions of this section in accordance with instructions provided on forms furnished and prescribed by the Superintendent of Public Instruction Such information shall be reported by the school district together with, and at the same time as, the reports required to be filed for the second principal apportionment of the State School Fund The forms on which the data and information is reported shall include a certification by each school district superintendent or chief administrative officer that the data is correct and accurate for the period covered, according to his best information and belief

The provisions of this section are not applicable to school districts with less than 101 units of average daily attendance for the current fiscal year

Although no decreases in average daily attendance shall be made for the fiscal year 1964–65, reports are required to be filed under the provisions of this section, and the Superintendent of Public Instruction shall notify each school district the amount of the decrease in state allowances which would have been effected had such decrease in average daily attendance been applied.

The Superintendent of Public Instruction shall adopt rules and regulations which he may deem necessary for the effective administration of this section Such rules and regulations may specify that no decrease in average daily attendance reported under the provisions of Section 17601 1 shall be made for a school district on account of large classes due to instructional television or team teaching, which may

necessarily involve class sizes at periods during the day larger than the standard set forth in this section.

(c) The foundation program amount per unit of average daily attendance used as the dividend in subdivision (b) shall be determined by the Superintendent of Public Instruction pursuant to this subdivision For elementary school districts, it shall be the foundation program for districts which have an average daily attendance of 901 or more as determined pursuant to Section 17656 For high school districts it shall be the foundation program determined pursuant to Section 17665 For unified districts, it shall be the sum of (1) the foundation program for districts which have an average daily attendance of 901 or more pursuant to Section 17656 multiplied by the elementary foundation program per unit of average daily attendance of unified districts in the second principal apportionment plus (2) the foundation program pursuant to Section 17665 multiplied by the high school foundation program per unit of average daily attendance of unified districts in the second principal apportionment divided by the sum of the elementary and high school average daily attendance of unified districts in the school principal apportionment

(d) The inflation adjustment jointly determined by the Department of Education and the Department of Finance, shall be multiplied by the appropriate foundation program amount

(e) The product determined pursuant to subdivision (d) shall be multiplied by the quotient determined pursuant to subdivision (b). The resultant amount shall constitute the revenue limit inflation adjustment of the district.

20907. Whenever the computations required by Section 20904 or 20905 results, because of estimating error, in a total income limit in an amount more or less than actual data would have produced, the revenue limit for the succeeding fiscal year shall be reduced a like amount if the total produced was more, and may be increased by such amount if the total produced was less.

20909 If the electors of a district approve an increase in the maximum tax rate during the 1972–73 fiscal year, the revenue from that increase shall be deemed to have been a part of the district's revenue for that fiscal year even if the tax rate does not become operative until the 1973–74 fiscal year.

20910 If the term of a voter approved increase in the maximum tax rate of a district expired and the increase was not available for the 1972–73 fiscal year, the revenues which would have been derived from such an increase shall be excluded from the computation of base revenue for the district during the 1972–73 fiscal year for purposes of Section 20904

20911 The unexpended proceeds of any permissive tax rate, the authorization for the levy and collection of which has been made inoperative by this article, shall be transferred to the general fund of the district on July 1, 1973.

CHAPTER 3. OPEN-SPACE SUBVENTIONS

16130 The Secretary of the Resources Agency shall direct the Controller to pay annually out of the funds appropriated by Section 16100, to each eligible county, city, or city and county the following amounts for each acre of land within its regulatory jurisdiction that is assessed pursuant to Section 423 or 423 5 of the Revenue and Taxation Code·

(a) Four dollars ($4) for prime agricultural land as defined in Section 51201 of this code which is:

(1) Within an incorporated city,

(2) Within three miles of the boundaries of an incorporated city with more than 1,500 registered voters, or

(3) Within one mile of the boundaries of an incorporated city with less than 1,500 registered voters.

(b) Two dollars ($2) for all other prime agricultural land,

(c) Fifty cents ($0 50) for all land, other than prime agricultural land, which is devoted to open-space uses of statewide significance defined in Section 16108.

16131. Land shall be deemed to be devoted to open-space uses of statewide significance if it:

(a) Could be developed as prime agricultural land, or

(b) Is open-space land as defined in Section 65560 which constitutes a resource whose preservation is or more than local importance for ecological, economic, educational, or other purposes The Secretary of the Resources Agency shall be the final judge of whether the land is in fact devoted to open-space use of statewide significance.

16132. On or before October 31, 1972, and annually thereafter, the governing body of each county, city, or city and county shall submit a report to the Secretary of the Resources Agency itemizing the number of acres of land under its regulatory jurisdiction which it believes to be qualified for state payments pursuant to the various categories enumerated in Section 16130, together with such supporting documentation as the secretary by regulation may require The secretary, after reviewing the report and determining the eligibility of the local government to receive payment and the actual amount to which it is entitled, shall certify that amount to the Controller for payment, and the Controller shall make such payment by December 31, 1972, and annually thereafter.

The secretary may make such supplemental reports to the Controller as it deems necessary throughout the year to give effect to new or additional information received from local governing bodies, correct errors, and dispose of contested or conditional situations Upon receiving such reports, the Controller shall pay any amount certified therein, and may withhold and deduct any certified overpayment from the amount that would otherwise be paid to the local government in the next succeeding year.

16133. Funds received by local governments pursuant to the open-space provisions of this chapter may be used for county, city, or city and county purposes, as the case may be, or may, but need not necessarily, be used for purposes of general interest and benefit to the state. The use of such funds shall include administration, supervision, and enforcement of any open-sapce program under which a local government receives such funds Such funds may also include an allocation of all or part of them to any special district or school district existing within boundaries of a local government in which land is assessed pursuant to Section 423 or 423 5 of the Revenue and Taxation Code, and which has thereby suffered a reduction in its assessed valuation, when the local governing body determines:

(a) That the loss of assessed value is substantial and will have an adverse effect upon programs of public importance carried on by the district.

(b) The benefits flowing from the restrictions on the use of land within the district do not accrue solely or primarily to landowners or residents within the districts

(c) That the taxes collected by the district are not devoted to expenditures primarily of benefit to land or landowners within the district.

Any special district or school district may make application for an allocation of such funds from the local government in the form and with such supporting evidence as the governing board of the local gov-

ernment may require Such governing board may also adopt such uniform standards as it believes necessary to determine the amount and method of payment of such assistance, and may provide for such payments to be reduced annually, according to a schedule, so as to cease financial assistance over a specified period of years However, nothing herein shall be construed as requiring the governing board of the local government to make any allocation to any special district, or school district, and the governing board of such local government shall be the sole judge of the entitlement of any special district or school district to any allocation, and to the amount of such allocation if granted.

16134 The Secretary of the Resources Agency may determine, after notice and hearing, that a local government is ineligible to receive state payments pursuant to this article by reason of its failure to comply with the provision of Article 10 5 (commencing with Section 65560) of Chapter 3 of Title 7 of this code, or with the provisions of any program which establishes an enforceable restriction upon which the assessment of land within its jurisdiction pursuant to Section 423 or 423 5 of the Revenue and Taxation Code is based This section shall not be construed to require the disqualification of any land from assessment pursuant to Section 423 or 423 5 of the Revenue and Taxation Code as a consequence of any determination of ineligibility by the secretary

16135 The Secretary of the Resources Agency may request the Attorney General to bring any action in court necessary to enforce any enforceable restriction as defined in Section 422 of the Revenue and Taxation Code, upon land for which the secretary has certified payment of state funds to the local governing body during the current or any preceding fiscal year Such action may include, but is not limited to, an action to enforce the contract by specific performance or injunction

16136 The Superintendent of Public Instruction shall determine the amount by which the school district tax rate for general fund purposes for each school district in which land assessed pursuant to Section 423 or 423 5 of the Revenue and Taxation Code is situated exceeds·

(a) Two dollars and twenty-three cents ($2 23) for each elementary district

(b) One dollar and sixty-four cents ($1 64) for each high school district.

(c) Three dollars and eighty-seven cents ($3 87) for each unified district maintaining grades kindergarten through 12

(d) Four dollars and twelve cents ($4 12) for each unified district maintaining grades kindergarten through 14.

(e) Twenty-five cents ($0 25) for each community college district.

The Superintendent of Public Instruction shall then determine the product of such amount multiplied by the open-space adjustment determined pursuant to Section 16137.

16137 On or before October 31, 1972, and on or before the last day on October of each year thereafter, the assessor shall report the open-space adjustment for each school district located in the county to the Controller and to the Superintendent of Public Instruction The open-space adjustment shall be calculated by determining the difference between:

(a) The adjusted assessed value of all land in the district in the base year, excluding the assessed value of the right to extract oil, gas, or other hydrocarbons, which shall be the last assessment year prior to the year in which land that is currently valued pursuant to Section 423 or 423 5 of the Revenue and Taxation Code was first valued under an enforceable restriction, except that in no event shall the base year be prior to 1966, and

(b) The assessed value of all land within the district, excluding the assessed value of the right to extract oil, gas, or other hydrocarbons for the current assessment year.

For the purposes of subdivision (a), "adjusted assessed value" shall be computed by multiplying the actual assessed value of land in the district in the base year, excluding the assessed value of the right to extract oil, gas, or other hydrocarbons by the percentage which the gross assessed value of all land in the state on the local roll outside of municipalities without deductions for any exemptions for the current assessment year is of the gross assessed value of all land on the local roll outside municipalities without deductions for any exemptions in the base year. The Controller shall announce the factors to be used by the assessors on or before October 15th of each year

If the value of land within the district for the current assessment year is greater than the adjusted assessed value of the base year, there shall be no reimbursement.

16138. A basic aid school district shall not receive any assistance under the provisions of this article if its actual assessed value per pupil is greater than the product of the base year (as defined in subdivision (a) of Section 16137) assessed value per pupil times the percentage which the estimated or actual current expense of education per pupil in the state for the current year is of the current expense of education per pupil in the state for the base year

16138 5. The Superintendent of Public Instruction shall apportion and allow to each eligible school district the amount derived pursuant to Section 16136 as part of the second principal apportionment

16138 7. The other provisions of this chapter notwithstanding, no city, county, or city and county shall receive more money by reason of the funds provided for in the open-space provisions of this chapter than such governmental entity might have received had no property in the entity been assessed pursuant to Sections 423 and 423 5 of the Revenue and Taxation Code. This determination shall be made by:

(a) Multiplying the last unrestricted assessed value, excluding the assessed value of the right to extract oil, gas, or other hydrocarbons of each parcel now subject to assessment under Sections 423 or 423 5 of the Revenue and Taxation Code by the percentages which the current gross assessed value of all land on the local roll outside municipalities without deduction for exemption in the state is of the gross assessed value of all land on the local roll outside municipalities without deduction for exemption in the state for the last year in which the parcel was not so restricted;

(b) Subtracting the current assessed value, excluding the assessed value of the right to extract oil, gas, or other hydrocarbons for the parcel from the figure derived pursuant to subdivision (a);

(c) Calculating the total of all differences determined pursuant to subdivision (b) for land under control of, or, in the case of cities, within the boundaries of, the entity in question; and

(d) Multiplying the total derived under subdivision (c) by the tax rate for the current year of the entity in question.

The determinations required by this section shall be made by the Secretary of the Resources Agency.

16139 Notwithstanding any other provision of this chapter, state disbursements under this chapter by reason of property assessed pursuant to Section 423 and 423.5 of the Revenue and Taxation Code shall not exceed thirteen million dollars ($13,000,000) in the 1972–1973 fiscal year, twenty-two million dollars ($22,000,000) in the 1973–1974 fiscal year, and twenty-four million dollars ($24,000,000) in the 1974–1975 fiscal year In the 1975–1976 fiscal year, state disbursements shall not exceed 115 percent of the state disbursements in the 1974–1975 fiscal year. The amounts provided for in this section may be exceeded by any amounts deposited in the State General Fund under Sections 51061 and 51283

If claims by local governmental agencies exceed the limitation of this section, reductions in state disbursements shall be made on a pro rata per acre basis, first on funds allocated on nonprime lands, and second on funds to local governments on prime lands, and third to school district disbursements.

The office shall report to the Legislature on the impact of the expiration of the fiscal limitations in this section A final report shall be submitted to the Legislature by April 1, 1973, in order that the Legislature can evaluate its fiscal commitment to this program for future years

16139 5 In addition to the report required by Section 16132, the Secretary of the Resources Agency shall require from local governmental agencies such other information relative to lands valued pursuant to the provisions of Article XXVIII of the California Constitution as is necessary for the proper administration of the provisions of this chapter and for periodic review of the policies established therein

Information collected pursuant to this section shall be transmitted on request to other state agencies, including but not limited to the State Board of Equalization, the Superintendent of Public Instruction, the Department of Agriculture and the Legislature.

CHAPTER 1 5 MAXIMUM PROPERTY TAX RATES FOR UNITS OF LOCAL GOVERNMENT

Article 1. General

2161. The property tax rate limits established in this chapter are established pursuant to authorization granted to the Legislature in Article XIII, Section 1d of the State Constitution

2162. It is the intent in establishing the tax rate limits in this chapter to establish limits that will be flexible enough to allow local governments to continue to provide existing programs, that will be firm enough to insure that the property tax relief provided by the Legislature will be long lasting and that will afford the voters in each local government jurisdiction a more active role in the fiscal affairs of such jurisdictions.

Any bill which seeks to enact an exception to the limits provided in this chapter shall, if receiving a do-pass recommendation from the policy committee, be referred form the policy committee to the Committee on Revenue and Taxation of the same house of the Legislature

2163 The actual loss of revenue to local government caused by any classification or exemption of property for purposes of ad valorem property taxation enacted by the Legislature after the effective date of this chapter shall be reimbursed by the state for the 1973 assessment year and assessment years thereafter.

The actual loss in revenue does not include potential revenue from property of a type which was not being assessed and taxed on the effective date of this act

The reimbursements to local governments shall be made in the same manner and at the same time as the reimbursements for the inventory exemption.

Any bill which results in a loss of property tax revenue shall, if it receives a "do pass" recommendation from the policy committee, be referred from the policy committee to the Committee on Revenue and Taxation of the same house of the Legislature

2163 5 The Department of Finance shall transmit to each county, city and county, city and special district, excluding school districts, after the first day of July of each year, beginning July 1, 1973, an estimate of the percentage change since April 1st of the prior year of the resident population, excluding institutional population, of the appropriate jurisdiction as of the first day of April of the current year. For the purposes of estimating this percentage change of the population of special districts, excluding school districts, the Department of Finance may use the population factors of the appropriate county or counties A special district may request the Department of Finance to prepare a special estimate of the district, not using the aforementioned county factors, as provided in Section 13073 of the Government Code In lieu of the Department of Finance estimate for a special district, the board of supervisors may apply the population changes estimated for each county to the various special districts within the county For special districts located in two or more counties, the boards of supervisors of such counties may allocate the total population change of such counties to the special districts in each of such counties The Department of Finance may request data from any government jurisdiction to be used to prepare the population estimate required by this section.

If any jurisdiction fails to supply the requested data, the Department of Finance is not required to provide an estimate for that jurisdiction, but may do so using the method deemed most appropriate by the Department of Finance

2164 The state shall annually reimburse cities and counties for sales or use tax exemptions enacted into law after the effective date of this act. The reimubursement shall be made, when appropriated by the Legislature as follows:

(a) For each legislative bill which includes a sales or use tax exemption, the Director of Finance shall estimate the yearly net loss of revenue to local government due to the bill

(b) Twenty percent of the local loss shall be distributed to the counties in the same ratio as the total amount of sales and use taxes collected in each county is to the whole This amount of money shall be used for the purposes specified in Chapter 1400 of the Statutes of the 1971 Regular Session.

(c) Eighty percent of the local loss shall be distributed to cities, counties and cities and counties in the same ratio as the distribution of the cigarette tax money as specified in Section 30462 for cities, counties, and cities and counties

(d) The distribution made under this section shall be made at the same time and in the same manner as such cigarette tax distributions.

(e) Any legislation which proposes a sales or use tax exemption but does not contain an appropriation as described in this section shall be null and void

(f) Any bill which results in a loss of sales or use tax revenues shall, if it receives a "do pass" recommendation from the policy committee,

be referred from the policy committee to the Committee on Revenue and Taxation of the same house of the Legislature.

2164.5. Any funds received by a unit of local government pursuant to this chapter may be used for any local purpose of such unit and may, but need not necessarily, be used for purposes of general interest and benefit to the state.

2164.3. (a) The state shall pay to each county, city and county, city and special district an amount to reimburse the county, city and county, city or special district for the full costs, which are mandated by acts enacted after January 1, 1973, of any new state mandated program or any increased level of service of an existing mandated program.

(b) Any new state program or increased level of service of an existing mandated program, which is mandated by legislative action after January 1, 1973, shall include provisions within the bill which provide an amount sufficient to cover the total cost of the mandated program for all affected counties, cities and counties, cities, and special districts, as estimated by the Legislative Analyst. This amount shall be appropriated to the Controller for disbursement.

The Controller shall allocate the funds among counties, cities, cities and counties, and special districts for each mandated program based upon claims submitted by the appropriate local government jurisdictions within 45 days after the operative date of the mandate. Such claims shall be based on the appropriate local governmental jurisdiction's estimate of its cost for the mandated program for the fiscal year. The Controller may review claims and may reduce those which appear to be excessive or unreasonable.

The allocations to the appropriate local jurisdictions shall be made by the Controller within 45 days after the deadline for the submission of the claims by the local governmental jurisdictions.

(c) For subsequent fiscal years, with respect to the costs of any mandated costs as defined in subdivision (a), the Controller shall allocate funds to each appropriate local government jurisdiction to reimburse for such costs. Claims shall be submitted by affected local governmental jurisdictions by October 31 and, after review and adjustments, shall be paid prior to December 10.

The claims shall include the actual costs for the prior fiscal year and the estimated cost for the current fiscal year. The Controller may reduce any claim for the current fiscal year which appear to be excessive or unreasonable. The Controller shall adjust the payment for the current fiscal year to the local government to correct for the underpayment or overpayment of the estimated cost of the mandated cost in the prior fiscal year. The Controller may audit the records of any local government jurisdiction to verify the actual costs of state mandated programs.

(d) The state shall pay to each county, city and county, city and special district, the full costs of a new program or increased level of service of an existing program mandated by any executive regulation issued after January 1, 1973. The costs of any such executive regulation shall be estimated by the Department of Finance. Cities, cities and counties, counties, and special districts shall be reimbursed in the same manner as provided in subdivisions (b) and (c).

(e) "Increased level of service" means any requirement mandated by state law or executive regulation after January 1, 1973, which makes necessary expanded or additional costs to a county, city and county, city, or special district

(f) If a city, city and county, county or special district has been providing a service or program at its option which is subsequently mandated by the state, the state shall pay such local governmental jurisdiction for such mandated service or program, and the local governmental program, and the local governmental jurisdiction shall reduce its property tax rate by the amount that the state payment replaces property tax revenues which were being expended on such service or program

2164.5 Any funds received by a unit of local government pursuant to this chapter may be used for any local purpose of such unit and may, but need not necessarily, be used for purposes of general interest and benefit to the state.

Article 2. Counties

2165 (a) Except as provided in subdivision (b), (c), (d), and (e), the maximum property tax rate which may be levied by any county shall be the property tax rate levied by the county for the 1972–1973 fiscal year, exclusive of the rate for bond interest and redemption charges

(b) The county may levy a property tax rate in excess of the rate provided in subdivision (a) for the payment of validly contracted bonded indebtedness and interest thereon and for the payment of retirement and pension benefits pursuant to laws which have been, or may in the future be, approved by the voters.

(c) The county may levy a rate in excess of the rate provided in subdivision (a) if the percentage increase or decrease in population and the percentage increase or decrease in the cost of living (as determined by the California consumer price index for all items as established by the California Department of Industrial Relations) for the 12 months prior to July 1, when added together, exceeds the percentage increase or is less than the decrease in property tax revenue received by the county.

The additional rate which may be levied shall not exceed a rate which would produce an amount of revenue equal to the difference between:

(1) The revenue which would be received if revenue were to grow or decline by the same percentage as the percentage growth or reduction of population of the county and cost of living; and

(2) The revenue which would be received by levying the maximum rate in subdivision (a)

(d) The maximum tax rate which may be levied by a county may be changed by a majority of those voting in an election called for such purpose

(e) The county may levy an additional rate in excess of the maximum rate provided in section (a) to pay for any costs which are mandated by the federal government or the courts after the effective date of this article and which are not funded by the federal or state government.

The Controller may audit county rate increases under the provisions of this subdivision, and if he does not consider them to be necessary to meet the costs of federally or court mandated programs, may request taxpayer relief by Attorney General action

2166. (a) A county or city and county may, in an emergency situation, increase the maximum tax rate authorized by Section 2165 by 1 percent for one year by a four-fifths vote of the board of supervisors. The board shall state in a formal resolution, the emergency which caused the rate increase.

(b) In addition to the emergency rate increase authorized in (a), a county, or city and county, may petition the Governor to declare that a dire emergency exists. If such a proclamation is issued, the county or city and county may petition the Controller to authorize the local governmental entity to levy a rate in addition to the rate authorized in Section 2165.

(c) The Controller shall find after a public hearing with reasonable notice to interested citizens held in the county or city and county that an emergency exists which is a matter of public concern This finding shall be based on the following:

(1) That there exists a growth in costs of a program which is the responsibility of the county or city and county which is not funded by the existing property tax or other alternative revenue sources; and

(2) That such growth in program costs are not within the immediate control of the county or city and county, but are due to general economic and social conditions, or acts of God; and

(3) That unless funding is provided which is sufficient to meet the increased program costs, irreparable harm will be done to the public and the program.

The petition shall set forth facts sufficient to sustain the finding of an emergency by the Controller.

(d) If the Controller finds that an emergency exists, he shall transmit this finding and the basis for such finding to the Department of Finance, the Legislatve Analyst, and the chairman of the board of supervisors of the county or city and county which initiated the petition. The Controller's finding shall authorize a maximum emergency tax rate which may be levied by the county or city and county for one year. This maximum emergency tax rate may be levied by the county or city and county in excess of the property tax rate authorized by Section 2165.

(e) Upon a four-fifths vote of the board of supervisors of the county or city and county, an emergency tax rate may be levied in excess of that authorized in Section 2165, but shall not exceed the maximum emergency tax rate specified in the finding of the Controller.

Article 3. Cities

2167 (a) Notwithstanding any other provision of law, except as provided in subdivisions (b), (c), (d), and (e), the maximum property tax rate which may be levied by any city shall be the property tax rate levied by the city for the 1972–1973 fiscal year, exclusive of the rate for bond interest and redemption charges For any city formed after the 1972–1973 fiscal year or for any city not levying a property tax rate in 1972–73, the property tax rate limit may be that limit es-

tablished by law for general law cities or may be that limit established by a vote of the people

(b) The city may levy a property tax rate in excess of the rate provided in subdivision (a) for the payment of validly contracted bonded indebtedness and interest thereon and for the payment of retirement and pension benefits pursuant to laws which have been, or may in the future be, approved by the voters

(c) The city may levy a rate in excess of the rate provided in subdivision (a) if the percentage increase or decrease in population and the percentage increase or decrease in the cost of living (as determined by the California consumer price index as established by the California Department of Industrial Relations), for the 12 months prior to July 1, when added together, exceeds the percentage increase or is less than the decrease in property tax revenue received by the city

The additional rate which may be levied shall not exceed a rate which would produce an amount of revenue equal to the difference between:

(1) The revenue which would be received if revenue were to grow or decline by the same percentage as the percentage growth or reduction of the population of the city and cost of living, and

(2) The revenue which would be received by levying the maximum rate in subdivision (a)

(d) The maximum tax rate which may be levied by a city may be changed by a majority of those voting in an election called for such purpose.

(e) The city may levy an additional rate in excess of the maximum rate provided in section (a) to pay for any costs which are mandated by the federal government or the courts after the effective date of this article and which are not funded by the federal or state government

The additional rate which may be levied shall not exceed a rate which would produce an amount of revenue equal to the difference between:

(1) The revenue which would be received if revenue were to grow or decline by the same percentage as the percentage growth or reduction of population in the special district and cost of living; and

(2) The revenue which would be received by levying the maximum rate in subdivision (a).

(d) If, on the operative date of this section, any special district is a party to any contract or lease, the terms of which in substance provide (1) that the special district shall make payments to the federal government, the State of California, or any local public agency and (2) that its governing body shall, whenever necessary, levy a property tax or assessment sufficient to provide for all payments under the contract or lease in a timely manner, such special district shall be allowed to levy an additional tax rate as required to fulfill such contract or lease.

Assembly Bill No. 1442—An act to amend Section 190 of, and to add Section 190 5 to, the Streets and Highways Code, relating to grade separation projects.

The question being · Shall the Assembly concur in the following Senate amendment to Assembly Bill No 1442?

Amendment No. 1

On page 5, after line 24, of the printed bill, as amended in Assembly May 9, 1972, insert

"SEC 3 Section 190 of the Streets and Highways Code is amended to read.

190 In each annual budget report prepared by the commission and the department under Section 143 1, commencing with the 1972–1973 fiscal year, the sum of ten million dollars ($10,000,000) shall be set aside for allocations to grade separation projects, including the elimination of existing or proposed grade crossings, the elimination of grade crossings by removal or relocation of streets or railroad tracks, and the alteration or reconstruction of existing grade separations, of separations of grade districts, cities, cities and counties, and counties on county roads or city streets as provided in Sections 189 to 191, inclusive

An allocation shall be made of ~~one-half~~ *two-thirds* of the estimated cost, after deducting therefrom any contribution to be made by the

railroad corporations involved, towards any project which qualifies therefor under the provisions of those sections, except that in no event shall allocations be made to projects for the alteration or reconstruction of grade separations unless the affected railroad or railroads have agreed, or have been required by decision of the Public Utilities Commission, to contribute not less than 10 percent of the cost of such alteration or reconstruction project. In no event shall an allocation for a project effecting the elimination of grade crossings by removal or relocation of streets or railroad tracks be in excess of the estimated allocation that would otherwise be made for the construction of grade separation facilities on the existing alignment of the street and railroad tracks ~~and result in the removal or relocation of more than 6,000 feet of railroad tracks~~

An allocation shall be made only when the affected local agency or agencies furnish evidence to the department that all necessary orders of the Public Utilities Commission have been obtained, that all necessary agreements with affected railroad or railroads have been executed, that sufficient funds from the local agency or agencies are available and that all other matters prerequisite to awarding the construction contract within a period of six months have been or can be taken care of within that time

To the extent funds are available, where the local agency has signed a construction contract for a project for which an allocation has been made, the department shall transfer the allocation to the local agency within 15 days of receiving written notification of such signing

Funds of a local agency shall be deemed available for purposes of this section to the extent of the amount of any general obligation bonds authorized but unsold if all proceedings prior to the issuance and sale of the bonds have been validly taken and if the bonds may be validly issued and sold by the local agency at any time, even though at the time of allocation under this section the bonds have not been issued or sold. Where such bond proceedings have been taken, if the bonds are not issued and sold within six months after the time of such allocation, the commission may order the allocation canceled, and shall thereupon revert the amount thereof to the fund set aside by this section, for reallocation to another eligible project.

In any event, regardless of the method proposed by the local agency for the financing of its share of the project cost, if after an allocation has been made, the construction contract has not been awarded within one year, the commission may order the allocation canceled and the funds allocated shall revert to the fund set aside by this section.

In financing its share of the project cost, the local agency may use any funds available to it. Notwithstanding any other provision of law, when the local agency uses funds derived from the TOPICS Program, pursuant to Chapter 6 (commencing with Section 2300) of Division 3 ~~of the Streets and Highways Code~~ in financing its share of the project cost, the allocation to be made pursuant to this section shall be computed as though such local agency contribution was derived from nonfederal sources and shall be computed as though the railroad had made its contribution pursuant to state law rather than pursuant to federal law.

The department and the commission may make allocations from a succeeding fiscal year's sum set aside for purposes of this section on and after January 1st preceding the beginning of such fiscal year Engineering, right-of-way acquired for the project and utility relocation costs expended by a local agency or agencies prior to an allocation of funds for a project shall be included in the total cost thereof, even though expended prior to an allocation of state funds

The first five million dollars ($5,000,000) of the fund set aside by this section each fiscal year shall be available for allocation and expenditure without regard to fiscal year.

The department and the commission shall revert as of October 1st of each fiscal year any unallocated amount of the balance of the annual sum of ten million dollars ($10,000,000) set aside by this section for that fiscal year Any other funds that may be set aside for the purposes of this section shall be allocated prior to the allocation of the above ten million dollars ($10,000,000) and shall be available for allocation and expenditure without regard to fiscal years.

A local agency that furnishes evidence to the department that it has complied with all requirements for an allocation pursuant to this section may, if it has sufficient funds available for that purpose, proceed with the advertising for bids and the construction without prejudice to its right to receive an allocation if an allocation becomes available for that local agency before the termination of the priority list established for the year during which the construction commenced

Such project may be constructed by the local agency or agencies concerned, or, by agreement between the local agency or agencies and the department, the department may acquire the necessary rights-of-way in the name of the local agency or agencies, execute agreements with railroad corporations, present necessary applications to the Public Utilities Commission and perform all other acts to complete the project Construction work by the department shall be subject to the State Contract Act. Agreements between the department and local agencies are authorized relative to the handling and accounting of funds, including the making of advancements thereof so as to permit prompt payment for the work accomplished, and relative to any other phase of the work

In the event the actual cost is less than that estimated, the allocation shall be reduced accordingly If, after completion of the project, the actual cost exceeds that estimated, the allocation may be increased proportionately by the department and the commission If more projects comply with the requirements hereof than can be financed from the fund set aside by this section, allocations shall be made only to those highest on the priority list submitted by the Public Utilities Commission, except for those allocations made for projects which exceed the estimated costs. Allocations to specific projects by the department shall remain available until expended As used in this section, "local agency" includes a separation of grade district, as well as a city, city and county, or county.

SEC 4 It is the intent of the Legislature, if this bill and Senate Bill No 544 are both chaptered and amend Section 190 of the Streets and Highways Code, and this bill is chaptered after Senate Bill No. 544, that the amendments to Section 190 proposed by both bills be

given effect and incorporated in Section 190 in the form set forth in Section 3 of this act Therefore, Section 3 of this act shall become operative only if this bill and Senate Bill No 544 are both chaptered, both amend Section 190, and Senate Bill No 544 is chaptered before this bill, in which case Section 1 of this act shall not become operative."

Amendment No. 2

On page 1, line 1, after "SECTION 1 ", insert "Section 10500 of the Government Code is amended to read

10500 The Legislature finds that auditing is now conducted by various state agencies and recognizes the needs of the executive branch of the state government for periodic and special audits of the revenues

and expenditures of any state agency, and the accounting and fiscal reporting systems established in state agencies, as a means of insuring the proper and lawful expenditure of state funds The Legislature, also, recognizes the necessity of an independent audit, in addition to the audit conducted within the executive branch of state government, for the use of both the executive and legislative branches of the state government in establishing a sound fiscal and administrative policy for the government of the state

Therefore it is the desire of this Legislature that the internal auditing be coordinated in the executive branch of the government in the interest of economy and efficiency It is also the desire of the Legislature to create the Office of the Auditor General, whose primary duties shall be to examine and report annually upon the financial statements prepared by the executive branch of the state and to perform such other related assignments , *including performance audits*, as may be requested by the Legislature The authority of the office under the direction of the Joint Legislative Audit Committee is confined to examining and reporting and is in no way to interfere with adequate internal audit to be conducted by the executive branch of the government.

Each such license not renewed in accordance with this section shall expire but may within a period of eight years thereafter be reinstated upon payment of the biennial renewal fee and penalty fee required by this chapter and upon submission of such proof of the applicant's qualifications as may be required by the board, except that during such eight-year period no examination shall be required as a condition for the reinstatement of any such expired license which has lapsed solely by reason of nonpayment of the renewal fee After the expiration of such eight-year period the board may require as a condition of reinstatement that the applicant pass such examination as it deems necessary to determine his present fitness to resume the practice of professional nursing.

(c) The board shall accept as evidence of current knowledge, meeting the requirements of subdivision (b) of this section, but shall not necessarily be limited thereto, the successful completion of a course or courses of continuing education in the registered nurse field which has been approved for this purpose by the department under standards established by the Council on Continuing Education for the Health Occupations, and as provided for in Chapter 1 5 (commencing with Section 900) of this division.

(d) The board may, by regulation, provide for temporary exemption from the provisions of subdivision (b) of this section in the case of licensees serving in overseas military service, and in other special circumstances wherein compliance would, in the board's opinion, constitute an unreasonable hardship for the licensees.

(e) This section shall not apply to licensees during the first two years immediately following their graduation from nursing school "

This act establishes an occupational education and training grant pilot program with grants to be available in the 1973–74 fiscal year and for the three fiscal years thereafter. A substantial period of time is required prior to the 1973–74 fiscal year for administrative preparation, for the making of such grants for that fiscal year. The great uncertainty with respect to when ordinary statutes enacted at the 1972 Regular Session of the Legislature will become effective raises the strong possibility that this vital program could be severely jeopardized by insufficient preparation time if it were embodied in an ordinary statute Thus, in order to ensure that sufficient time may be available for the preparation necessary for the proper implementation of the grant program established by this act, it is necessary that this act take effect immediately."

(e) The state will reimburse the county upon presentation of a valid claim based on actual performance in reducing the commitment rate from its base rate. Whenever a claim made by a county, pursuant to this article, covering a prior fiscal year, is found to be in error, adjustment may be made on a current claim without the necessity of applying the adjustment to the allocation for the prior year

(f) If the amount received by a county in reimbursement of its expenditures in a fiscal year is less than the maximum amount computed under subdivision (d), the difference may be used in the next two succeeding fiscal years and may be paid to the county in quarterly installments during such fiscal years upon preparation of valid claims for reimbursement of its quarterly expenses.

(g) In the event a participating county earns less than the sum paid in the previous year because of extremely unusual circumstances claimed by the county and verified by the Director of the Youth Authority with the approval of the Director of Finance, the Director of the Youth Authority may pay to the county a sum equal to the prior year's payment, provided, however, that in subsequent years the county will be paid only the amount earned

(h) Funds obtained under this article shall not be used to support existing programs or develop or expand new programs in juvenile homes, ranches, or camps established under Article 15 (commencing with Section 880) of Chapter 2 of Part 1 of Division 2 of this code, *except that funds obtained under this article may be used by a county that has not established a juvenile home, ranch or camp to pay for its juvenile home, ranch or camp placements in other counties*

(i) Counties where the average number of commitments in the base period as established by subdivision (b) is less than 30 may elect either to comply with the procedure set out above or, as an alternative, to receive from the state 90 percent of the salary of one full-time additional probation officer or, in the event there are fewer than 20 persons placed on probation annually otherwise eligible for commitment to state institutions, the county would be entitled to 90 percent of the salary of a half-time officer In the event a county chooses the alterna-

tive proposal, it will be eligible for reimbursement only so long as the officer devotes all of his time in the performance of probation services to supervision of persons eligible for state commitment and persons participating in special supervision programs and (1) if its base rate is below the state average, it does not on an annual basis exceed the base state rate, or (2) if its base rate is above the state average, it does not in the year exceed by 5 percent its own base rate.

(j) In addition to earnings received by counties from commitment reductions through the payment table in subdivision (d) of this section, a sum of two million dollars ($2,000,000) is hereby appropriated for the 1972-73 fiscal year to be distributed pursuant to the table below To determine a county's share, refer to Table 1 of the Fifth Annual Progress Report of the Probation Subsidy Program (Department of Youth Authority, September 33, 1971) for the county's actual commitment rate and the number of actual commitments.

Each county's share of the additional funds described above may be used for purposes of law enforcement as determined by individual county boards of supervisors.

In addition, two hundred fifty thousand dollars ($250,000) is hereby appropriated for the 1972-73 fiscal year to reimburse each participating county for the cost of collection and transmission of data to the state for program evaluation as prescribed by the Director of the Youth Authority and the Director of Finance Each county shall be required to enter into a contractual agreement with the state to provide the prescribed data Such agreement shall also specify the maximum amount each county shall be reimbursed for the collection and transmission of the required data.

No county shall share in any additional funds appropriated in this subdivision unless it enters into an agreement with the state to provide the data discussed above.

The provisions of this subdivision shall be terminated on June 30, 1974.

SEC. 3 Section 1825 of the Welfare and Institutions Code is amended to read:

1825 (a) No county shall be entitled to receive any state funds provided by this article until its application is approved and unless and until the minimum standards prescribed by the Department of the Youth Authority are complied with and then only on such terms as are set forth hereafter in this section

(b) A commitment rate for each county and for the state as a whole shall be calculated by the Department of the Youth Authority by computing the ratio of new commitments to state and county population, expressed in a rate per 100,000 population, for each of the calendar years 1959 through 1963. The average of these rates for a county for the five-year period or the average of the last two years of the period, whichever is higher, shall be the base rate for that county, however, if the base rate *for those counties not utilizing Section 1825 7* is lower than 40 commitments per 100,000 population, the rate shall be established at 40, and if the rate is higher than 100, the rate shall be established at 100. The number of commitments shall be the total of the new commitments to the custody of the Director of the Youth Authority and the new criminal commitments to the custody of the Director of Corrections, as certified by the respective departments The county and state population shall be that certified by the Department of Finance to the Controller as of July 1 of each year Persons committed to the Department of Corrections and subsequently discharged under Section 1168 of the Penal Code and persons committed to the Department of Corrections or the Department of the Youth Authority for diagnostic study only pursuant to Section 1203 03 of the Penal Code or Section 704 or 1752 1 of the Welfare and Institutions Code, shall not be counted as having been committed for purposes of determining commitment rates under this subdivision or subdivision (c)

(c) An annual commitment rate shall be calculated at the end of each fiscal year for each participating county and for the state as a whole in a like manner to that described in subdivision (b) using the population figure of the July 1 included in the year.

(d) The maximum amount that may be paid to a county pursuant to this article is determined by obtaining the interpolated dollar amount in the table in this subdivision for such county's base commitment rate and its percentage decrease, interpolated to the nearest one-tenth of 1 percent, in rate of commitment and multiplying the appropriate dollar amount by the "commitment reduction number " The "commitment reduction number" is obtained by subtracting (1) the most recent annual commitment number from (2) the product of the base commitment rate and population of the county for the same year employed in (1) The Director of the Youth Authority, with approval of the Director of Finance may annually adjust the dollar amounts in the ensuing table to reflect changes in cost to the state of maintaining persons committed to the custody of the Director of Corrections and the Director of the Youth Authority, and if such adjustments are made, the adjusted amounts shall be employed in making the computation prescribed by this subdivision.

Further Consideration of Senate Amendments to Assembly Bill No. 1794

Assembly Bill No. 1794—An act to add Chapter 4 8 (commencing with Section 31295) to Division 22 of the Education Code, relating to the occupational education and training grant program, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

Amendment No. 12

On page 5, after line 21, insert

"SEC 3 This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect The facts constituting such necessity are:

This act establishes an occupational education and training grant pilot program with grants to be available in the 1973–74 fiscal year and for the three fiscal years thereafter A substantial period of time is required prior to the 1973–74 fiscal year for administrative preparation for the making of such grants for that fiscal year The great uncertainty with respect to when ordinary statutes enacted at the 1972 Regular Session of the Legislature will become effective raises the strong possibility that this vital program could be severely jeopardized by insufficient preparation time if it were embodied in an ordinary statute. Thus, in order to ensure that sufficient time may be available for the preparation necessary for the proper implementation of the grant program established by this act, it is necessary that this act take effect immediately."
