The following prayer was offered by the Chaplain, the Rev. Robert S. Romeis:

Heavenly Father and Gracious God, By whose mercy and goodness we stand at the beginning of another day; defend us in the same by Thy mighty power, and grant that this day we fall into no sin, neither run into any kind of danger, but that all our doings, being ordered by Thy governance, may be righteous in Thy sight. Help us to see the many proposals which stand before us for decision not merely as words printed upon paper, as means to bring about benefits for a few selected groups, or as puzzles designed to take up the time of those who consider them; but rather may we see them as the tools, which, if carefully sharpened and faithfully used, can forge a glorious day of justice and prosperity for all our people; through Christ, our Lord.—AMEN.

CONSIDERATION OF DAILY FILE (RESUMED)

CONSIDERATION OF HOUSE RESOLUTION NO. 248

By Mr Belotti:

House Resolution No. 248

Relating to designation of alternate state highway routes

WHEREAS, Section 122 of the Streets and Highways Code provides that the Department of Public Works may continue to maintain and improve highways over which jurisdiction has been relinquished to state park authorities; and

WHEREAS, In certain instances, the Department of Public Works maintains highways through parks which highways no longer constitute state highway routes because of the construction of bypasses or the relocation of the highways constituting state highway routes; and

WHEREAS, These highways and others which no longer constitute state highway routes may be entirely adequate to serve the needs of a portion of the traffic which uses the highways constituting state highway routes; and

WHEREAS, The abandoned or relinquished highways may well afford a more scenic or otherwise more desirable route to many travelers than do the state highway routes; and

WHEREAS, The failure of many travelers to use the abandoned or relinquished highways results solely from the fact that they are unaware that those highways constitute alternative routes to their destination; and

WHEREAS, The practice of designating, by highway signs, road maps, and other devices, certain highways as state highways without designating as alternate routes other highways maintained by the State which furnish substantially similar means of travel between the same termini is deceptive to the traveler, increases traffic congestion, and results in a failure to fully utilize the highway facilities of the State; and

WHEREAS, The function of designating highways and placing of appropriate signs indicating that designation along such highways is conferred on the Department of Public Works with respect to all highways under its jurisdiction, possession, or control by Section 92 of the Streets and Highways Code; now, therefore, be it

Resolved by the Assembly of the State of California, That the Department of Public Works be hereby requested to designate any highway under its jurisdiction which affords a route and means of travel similar to a state highway route as an alternate route to the state highway route and to place appropriate signs upon such highway indicating that it is an alternate of the state highway route; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit a copy of this resolution to the Director of Public Works.

Resolution read, and adopted.

CONSIDERATION OF HOUSE RESOLUTION NO. 203

By Mrs. Davis:

House Resolution No. 203

Relative to study of feasibility of acquisition and development of river frontages in Redding

WHEREAS, The City of Redding and surrounding areas have experienced a rapid increase in population, resulting in a need for the establishment of additional park and recreation areas to serve that region; and

WHEREAS, The lands fronting the Sacramento River, which are located within the City of Redding, would constitute an ideal site for park and recreational purposes; and

WHEREAS, Unless such river frontage lands are soon acquired for public use, the improvements and developments within the City of Redding of the area contiguous to the Sacramento River will make prohibitive the cost of acquiring such lands in the future for public use; now, therefore, be it

Resolved by the Assembly of the State of California, That the Division of Beaches and Parks of the Department of Natural Resources be and hereby is directed to study the feasibility and desirability of acquiring and developing the river frontages in the City of Redding as park and recreational areas; and be it further

Oakland Tribune, Sunday, June 2, 1957

Veteran capitol observers tell the Knave they have never before witnessed anything like the situation which prevailed when the Assembly adopted the compromise report on the state budget. Normally, the submission of the report signals the start of protracted debate, political and sectional oratory, interminable questions as to minute details in the huge document and, quite frequently, rejection of the compromise. This time, the bill sailed through without a single question, without oratory and by unanimous vote With the roll call came a spontaneous outburst of applause which startled the old-timers who recall the bitter battles and animosities generated in prior budget battles. The round of applause was a tribute to the Assembly Ways and Means Committee and to the Assembly members of the free conference which worked out the compromise. But, more particularly it was a tribute to one man, Assemblyman Thomas W. Caldecott of Berkeley. As author of the budget bill, chairman of the Ways and Means Committee and chairman of the Assembly conferees, Caldecott earned the respect and gratitude of the 78 other members of the lower house. Throughout the long tussle over the budget—there were more than 400 amendments in committee, and 250 sections changed in free conference—Caldecott managed to keep warring factions happy, saw that everyone had his "day in court" and never rode roughshod over any member. And he ran the show in relaxed good humor. In fact, one oldster said, Caldecott was carrying the heaviest load of any lawmaker at Sacramento and yet he managed to give the impression that he was coasting. His relaxed manner eased the strain on many occasions when over-worked committeemen were spoiling for a battle. That fellow solons were appreciative was demonstrated not only by the unanimous vote and the applause but by the fact that the minority floor leader, who would normally carry the battle for the opposition, took the floor to declare his party's satisfaction with the way things had been handled. Nothing like that has happened before, either, the old capitol hands say.

PANIC ON WATER SHOULD BE AVOIDED

One grave danger, more than any other, faces the Legislature in these hectic closing days in regard to California's tangled water situation.

This is the possibility of some hasty, ill-advised action.

At this juncture it is far better to do nothing at all than to rush into a dangerous "compromise," involving unwise decisions which could impede the State's water program for a generation.

Fairness Evident—Fortunately, Southern California can point to a completely consistent attitude of fairness and common sense in its efforts to settle an admittedly complex problem. The Times has been careful to document this position all the way through, so there can be no possible justification for any accusations from Northern California.

Even before the present Legislature's session started many months ago Southern California and its Assemblymen and Senators agreed upon a concise and practical program. It was stated publicly that water rights must be settled by submission of a constitutional amendment to the people and that if this were done funds would be voted for the start of initial phases of State water projects.

This was plain and aboveboard and equitable.

Still, the State Senate, dominated by Northern California interests, has refused to join in what almost everyone admits is a proper procedure.

Why?

Northern Problem—The north is in far greater immediate need of action on the water program than is the south, because flood control is a paramount northern need and it could be undertaken immediately. On the other hand, Southern California's need for supplemental water is 15 to 25 years ahead. Still, the south has offered repeatedly to proceed at once with funds and all available help, provided there is a reasonable determination of water rights, which, of course, is a necessary preliminary.

Actually, the Feather River Project was proposed in 1951 as a Sacramento Valley flood-control idea, and Southern California was "hitched on" to help pay the bill and derive some benefits. This should always be kept in mind.

Some Southern California water leaders now are saying that perhaps the whole Feather River plan has been too hasty and too rigid in concept and that other possibilities should be explored if the north will not join in settling water rights for it.

Southern California is particularly interested in making sure that quick relief is provided for Kern County, which desperately needs more water to prevent large areas of farming land from being abandoned. Kern County has been a stalwart ally of the south and vigorously has

defended the principle of State control of the San Luis Reservoir in the Feather River Project.

Knight's Defeat—Gov. Knight and his Water Department Director, Harvey Banks, have lost prestige in their defeat in the Legislature in their unjustified effort to give the Federal government control of the San Luis Reservoir. Lacking effective leadership from the Governor, Southern California and Kern County may be compelled now to reappraise the whole water situation and act to protect their own people.

In view of this deplorable impasse brought about by Gov. Knight, Banks and the northern Senators, the "dedication" of the so-called Feather River Project scheduled for Oroville tomorrow could not be more ill-timed. All that has happened is that Southern California legislators, as a gesture of goodwill to the north, provided some money to relocate railroad tracks and a highway at a damsite.

The public should not be misled by the "dedication" into thinking the Feather River Project is under way.

Southern California legislators have done their duty faithfully and honorably. They should not be stampeded at this late day by the Governor or anybody else into any unwise water "settlement" which might not be a settlement at all.

WATER FOR ALL

There's enough water in California for everybody. Certainly, reasonable men and women will find a way to utilize that water for the benefit of all of the state. Let the South take no precipitate action, or utter no threat; let the North take it easy until a constitutional amendment has been prepared that will be fair and equitable for both sides.

No Overt Act By Either Side

Stephen W. Downey, eminent water authority in this state, spoke wisdom when he expressed dissatisfaction with the County of Origin Law. He said "It is full of uncertainties, full of questions, full of discretion that is uncontrolled, full of germs of future lawsuits. No judge has construed its many ramifications."

The County of Origin Law does not guarantee water for Northern California. That is a myth. The only thing that can guarantee water for Northern California, for all time, is a constitutional amendment, and we need it in the North just as much as Southern California needs it in the South.

If the governor has to call a special session of the Legislature, a constitutional amendment for submission to the people can then be prepared—provided the South doesn't take precipitate action and submit an initiative of its own choosing. That would be the worst thing that could happen to this important California problem.

Both sides should exercise patience at this time.

Editorial

LOS ANGELES EXAMINER, Tuesday, May 28, 1957

SPECIAL WATER SESSION

Failure of the current session of the California Legislature to reach an equitable solution of the state's water problem is naturally disappointing to the general hope of an early settlement.

The failure can be taken as one unavoidable hazard met in the search for an acceptable answer to a complex and difficult question.

It cannot be taken as anything but a transitory setback.

Actually it may prove to be a blessing in disguise

The Senate Water Resources Committee has urged the Governor to call a special session of the Legislature in October or November, dedicated exclusively to thresh out this vital question.

The Governor should act favorably on the recommendation.

The Legislature would then be free of the log-rolling and the haul-and-tug caused by other pressing matters during this session.

Legislators will then have an interval of careful thought in which to put sectional and personal interests in proper perspective, and conciliate them with our state's fundamental need.

The Examiner is convinced the differences are by no means irreconcilable; that they can be harmonized to everyone's benefit—which means every Californian, whether from the North or South.

The special session can start with two undeniable facts in mind.

The water problem cannot wait indefinitely for settlement

The final solution can be reached only when the welfare of the entire state gets the Legislature's exclusive attention, and narrow obstructions are given none.

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, June 2, 1957

Hon. Edward M. Gaffney
Assembly Chamber

Firecrackers—No. 15159

DEAR MR. GAFFNEY:

Question

You have asked us whether Assembly Bill No 61, as amended in Assembly June 1, 1957, is constitutional.

Opinion

In our opinion, the bill would probably be held unconstitutional.

Analysis

Assembly Bill No. 61, as amended in Assembly June 1, 1957, would exempt the use or discharge of certain firecrackers in religious ceremonies in a city and county from the license requirements of Chapter 4 (commencing at Section 12650) of Part 2 of Division 11 of the Health and Safety Code.

The bill would also provide that the State Fireworks Law (H. & S. C. 12500, et seq.) does not prohibit in a city and county the sale of firecrackers for use in, nor the use of firecrackers in, religious ceremonies,

with reasonable safeguards prescribed by the State Fire Marshal. Such excepted uses of firecrackers would not include aerial displays.

Since there is only one city and county in the State, the bill would be limited in its application to the City and County of San Francisco.

Section 11 of Article I of the Constitution of California requires that all laws of a general nature have a uniform operation and Section 25 of Article IV provides that the Legislature shall not pass local or special laws in cases where a general law can be made applicable.

Although the courts have frequently held that these provisions do not invalidate legislation that applies equally to all persons embraced within a class founded upon some natural or intrinsic or constitutional distinction; they have also declared that a law is not general or constitutional if it classifies counties of the State and the basis of classification is not founded upon factual distinctions that might reasonably be regarded as necessitating diverse treatment in the various political subdivisions or areas of the State (*Consolidated Printing and Publishing Co.* v. *Allen* (1941), 18 Cal. 2d 63); (*City of Pasadena* v. *Stimson* (1891), 91 Cal. 238). In view of the constitutional restrictions mentioned above, it is difficult to perceive any factual basis which would be considered to warrant a classification of the City and County of San Francisco apart from other cities or counties in the State with respect to exemptions and exclusions from the State Fireworks Law. Although more religious ceremonies in which the use of firecrackers is customary may be held in San Francisco than in other communities of the State, such ceremonies would not appear to be confined to San Francisco; racial groups which might hold such ceremonies exist in other areas of the State, and there would appear to be no geographical, population, or other factual distinctions which would permit a classification in which San Francisco would be unique. Accordingly, we believe the courts would hold that the objectives of Assembly Bill No. 61 could be attained by a general law and that enactment of a similar local law would be constitutionally objectionable.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By OWEN K. KUNS, Deputy

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, June 2, 1957

Hon. Seth J. Johnson
Assembly Chamber

Fireworks—No. 15158

DEAR MR. JOHNSON: You have asked us various questions concerning Assembly Bill No. 61, as amended in Assembly June 1, 1957, which we will answer in series.

Question No. 1

Is the bill constitutional in its limitation to the City and County of San Francisco?

Opinion No. 1

In our opinion the bill as so limited probably would be held to be unconstitutional.

Analysis No 1

Assembly Bill No. 61, as amended in Assembly June 1, 1957, would exempt the use or discharge of certain firecrackers in religious ceremonies in a city and county from the license requirements of Chapter 4 (commencing at Section 12650) of Part 2 of Division 11 of the Health and Safety Code.

The bill would also provide that the State Fireworks Law (H. & S. C. 12500, et seq.) does not prohibit in a city and county the sale of firecrackers for use in, nor the use of firecrackers in, religious ceremonies, with reasonable safeguards prescribed by the State Fire Marshal. Such excepted uses of firecrackers would not include aerial displays.

Since there is only one city and county in the State, the bill would be limited in its application to the City and County of San Francisco.

Section 11 of Article I of the Constitution of California requires that all laws of a general nature have a uniform operation and Section 25 of Article IV provides that the Legislature shall not pass local or special laws in cases where a general law can be made applicable.

Although the courts have frequently held that these provisions do not invalidate legislation that applies equally to all persons embraced within a class founded upon some natural or intrinsic or constitutional distinction, they have also declared that a law is not general or constitutional if it classifies counties of the State and the basis of classification is not founded upon factual distinctions that might reasonably be regarded as necessitating diverse treatment in the various political subdivisions or areas of the State (*Consolidated Printing and Publishing Co.* v. *Allen* (1941), 18 Cal. 2d 63); (*City of Pasadena* v. *Stimson* (1891), 91 Cal. 238).

In view of the constitutional restrictions mentioned above, it is difficult to perceive any factual basis which would be considered to warrant a classification of the City and County of San Francisco apart from other cities or counties in the State with respect to exemptions and exclusions from the State Fireworks Law. Although more religious ceremonies in which the use of firecrackers is customary may be held in San Francisco than in other communities of the State, such ceremonies would not appear to be confined to San Francisco; racial groups which might hold such ceremonies exist in other areas of the State, and there would appear to be no geographical, population, or other factual distinctions which would permit a classification in which San Francisco would be unique. Accordingly, we believe the courts would hold that the objectives of Assembly Bill No. 61 could be attained by a general law and that enactment of a similar local law would be constitutionally objectionable.

Question No. 2

Would the bill reduce the present power of the State Fire Marshal to regulate fireworks?

Opinion No. 2

The bill would appear to reduce the present power of the State Fire Marshal to regulate fireworks with respect to firecrackers.

Analysis No. 2

Under the present State Fireworks Law (commencing at Sec. 12500, H. & S. C.) the definition of "fireworks" and the definition "dangerous fireworks" include "firecrackers" (Secs. 12502 and 12503, H. & S. C.). The State Fire Marshal is required to classify all fireworks as "dangerous fireworks," "safe and sane fireworks," or "agricultural and wildlife fireworks," (Sec. 12700, H. & S. C.) and no fireworks may be sold, discharged, or transported within the State without first having been classified and registered by the State Fire Marshal (Sec. 12701, H. & S. C.).

Persons who engage in the manufacture, importation, sale, or use of fireworks must obtain a license from the State Fire Marshal (Sec. 12652, H. & S C.). The State Fire Marshal may deny a license if he finds that its granting would be contrary to public safety or welfare.

The bill provides that no such license shall be required in a city and county for the use or discharge of firecrackers in religious ceremonies. Thus, the bill would eliminate the requirement that a license be obtained from the State Fire Marshal for the use of firecrackers in the situation described in the bill, which would detract from the present powers of the State Fire Marshal.

Section 12764, as added to the Health and Safety Code by the bill, does empower the State Fire Marshal to prescribe reasonable public health, safety, and fire protection standards for the sale or use of firecrackers in a city and county for use in religious ceremonies. However, the licensing requirement would be eliminated.

Question No. 3

Would it limit San Francisco enforcement of ordinances regarding parades, street closures, gatherings in public places, and would it affect or limit local fire ordinances in San Francisco.

Opinion No. 3

In our opinion the bill would not affect such ordinances nor their enforcement.

Analysis No. 3

Under the existing law, in addition to the license required to be obtained from the State Fire Marshal, a permit for the manufacture, possession or sale of fireworks at wholesale or retail, or the discharge of dangerous fireworks, or a public display of fireworks must first be obtained from chief of the fire department or the chief fire prevention officer of a city, city and county, or county (Secs. 12600, 12601, 14, H. & S. C.). The bill does not eliminate the necessity of obtaining this permit since it affects only the license required to be obtained from the State Fire Marshal.

Section 12864, as added to the Health and Safety Code by the bill, states that the State Fireworks Law does not prohibit in a city and county the sale or use of firecrackers in religious ceremonies. The bill does not state that local ordinances may not prohibit such sale or use.

Section 12754 of the Health and Safety Code provides that the State Fireworks Law does not authorize the manufacture, sale, use, or discharge of fireworks in a city or county in which such activities are prohibited by ordinance. The bill would not affect this provision.

Thus, to the extent that local ordinances may be enacted under the existing law, the bill would not appear to affect such ordinances or their enforcement.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 31, 1957

Hon. Seth Johnson
Assembly Chamber

Explosives—No. 15026

DEAR MR. JOHNSON:

Question

You have asked us whether Assembly Bill No. 3705, as amended in Assembly April 24, 1957, would be applicable to the transportation of explosives in interstate commerce when such operation is subject to regulations of the Interstate Commerce Commission.

Opinion

In our opinion the bill would not be applicable to such transportation.

Analysis

Assembly Bill No. 3705, as amended in Assembly April 24, 1957, would add Division 11D (commencing at Section 729.01) to the Vehicle Code, regulating the transportation of explosives.

The Interstate Commerce Commission is empowered to formulate regulations for the transportation of explosives by common carriers engaged in foreign or interstate commerce (18 U.S.C.A., Sec. 835). Pursuant to this authorization the Interstate Commerce Commission has promulgated detailed regulations governing transportation of explosives in interstate commerce (49 C.F.R., Secs. 77.800-77.870, motor vehicle carriers).

It has been held that a shipment of explosives in interstate or foreign commerce while in the course of transportation is subject exclusively to the regulations prescribed by the Interstate Commerce Commission, and state or local laws have no application to such transportation (*Actiesselskabet Ingrid* v. *Central R. Co. of New Jersey*, 216 Fed. 72, certiorari denied 238 U.S. 615, 59 L. Ed. 1490).

PRAYER

O God, Thou Almighty and Righteous Judge, Some day all of us shall stand before Thee to render account of our stewardship here upon earth. What shall we answer when Thou wilt ask, "What didst thou do with the life I gave thee?" Help us to realize, O Lord, that the answer we give in that day is being forged in this day by the things we do and the things we leave undone. Deliver us from the pride that hinders progress, the greed that crushes goodness, the selfishness that kills satisfaction. Fill us with Thy spirit that we might ever seek the best for our neighbor, the greatest good for the greatest number, and the highest victory in life for ourselves—the victory which comes from losing ourselves in sacrifice and service; through Jesus Christ, Thy Son, our Lord.—AMEN.

Sale or Lease of Power to Public Agencies—No. 14986

DEAR MR. PATTEE:

Question

You have asked whether there are any public power preference provisions in the federal law other than those contained in the federal reclamation laws, and, if so, how they differ from the provisions of Section 11626 of the Water Code.

Opinion and Analysis

Within the time available to consider your question our review of the applicable federal laws indicates two pertinent provisions, one in the Federal Power Act and one in the Flood Control Act of 1944.

Under Section 4(e) of the Federal Power Act (49 Stat. 842; 16 U. S. C. A. 797) the Federal Power Commission is authorized to issue a license to a state, a municipality (defined to mean a city, county, irrigation district, drainage district, or other political subdivision or agency of a state competent under the laws thereof to carry on the business of developing, transmitting, utilizing, or distributing power), or any private person or entity for the purpose of utilizing the surplus water or water power from any dam or other work constructed or owned by the United States for government purposes, with or without contribution from others. Section 7(a) of said act (16 U. S. C. A. 800), as amended, provides as follows:

"(a) In issuing preliminary permits hereunder or licenses where no preliminary permit has been issued and in issuing licenses to new licensees under section 808 of this title the Commission shall give preference to applications therefor by States and municipalities, provided the plans for the same are deemed by the Commission equally well adapted, or shall within a reasonable time to be fixed by the Commission be made equally well adapted, to conserve and utilize in the public interest the water resources of the region; and as between other applicants, the Commission may give preference to the applicant the plans of which it finds and determines are best adapted to develop, conserve, and utilize in the public interest the

water resources of the region, if it be satisfied as to the ability of the applicant to carry out such plans."

Section 5 of the Flood Control Act of 1944 (58 Stat. 890; 16 U. S. C. A. 825s), as amended, provides, in part, as follows:

"Electric power and energy generated at reservoir projects under the control of the Department of the Army and in the opinion of the Secretary of the Army not required in the operation of such projects shall be delivered to the Secretary of the Interior, who shall transmit and dispose of such power and energy in such manner as to encourage the most wide-spread use thereof at the lowest possible rates to consumers consistent with sound business principles, the rate schedules to become effective upon confirmation and approval by the Federal Power Commission. Rate schedules shall be drawn having regard to the recovery (upon the basis of the application of such rate schedules to the capacity of the electric facilities of the projects) of the cost of producing and transmitting such electric energy, including the amortization of the capital investment allocated to power over a reasonable period of years. Preference in the sale of such power and energy shall be given to public bodies and cooperatives."

Section 11626 of the Water Code provides, with respect to the state-authorized Central Valley Project, as follows:

"In entering into and awarding contracts, in case of equal or equivalent offers, including consideration of the cost of construction, operation, and maintenance of the necessary lines, plants, and other works to deliver the commodity or service which is to be delivered under the contracts, the authority [now the Department of Water Resources] shall grant preference to state agencies or other organizations not organized or doing business for profit but primarily for the purpose of supplying water or electric power to their own citizens or members."

The principal difference between the two federal statutes quoted above and Section 11626 of the Water Code is the express provision in Section 11626 of "equal or equivalent offers." In other words preference is to be given under state law to the public agencies and nonprofit organizations mentioned only if such agencies or organizations make offers to purchase or lease power which are equal or equivalent to offers made by private companies or corporations organized for profit.

Under Section 7(a) of the Federal Power Act, there is no preference given to nonprofit organizations, but preference is required to be given to the State and municipalities (including public agencies) if their plans are, or can be made within a reasonable time, equally well adapted to conserve and utilize in the public interest the water resources of the region. There is no express requirement that the offer by a public agency to purchase or lease surplus power from a federal dam be equal or equivalent to an offer made by a private company or corporation as to matters such as the consideration to be paid. The only express requirement is that the plans of the public agency with respect to the power to be purchased or leased be equally well adapted to conserve and utilize in the public interest the water resources of the region.

Under Section 5 of the Flood Control Act of 1944, it is expressly provided that surplus power is to be sold or leased in such manner as to encourage the most widespread use thereof at *the lowest possible rates* to consumers consistent with sound business principles, and preference is required to be given to public bodies and cooperatives. There is no express requirement as to "equal or equivalent offers," but rate schedules are required to be drawn having regard to the recovery of the cost of producing and transmitting the power, including the amortization of the capital investment allocated to power over a reasonable period of years.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By RAY H. WHITAKER, Deputy

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, June 3, 1957

Hon. Lloyd W. Lowrey
Assembly Chamber

Lobbyists—No. 15212

DEAR MR. LOWREY: You have submitted to us several questions which we will answer in series:

Question No. 1

What constitutes a lobbyist or legislative advocate, that is, who has to register?

Opinion and Analysis No. 1

The applicable provision is Section 9906 of the Government Code, which provides in part:

"Any person who shall engage himself for pay or for any consideration for the purpose of attempting to influence the passage or defeat of any legislation by the Legislature of the State of California or the approval or veto of any legislation by the Governor of the State of California shall, before doing anything in furtherance of such object, register with the Clerk of the Assembly and the Secretary of the Senate * * *."

On the basis of the foregoing, a legislative advocate, required to register, is any person who engages himself for pay or for any consideration for the purpose of attempting to influence the passage or defeat of legislation or the approval or veto of legislation by the Governor.

192—L-4213

Question No. 2

When a person is working with legislators for and against various bills but does not appear before a committee, is he required to register?

Opinion No. 2

In our opinion such a person would be required to register if he has engaged himself for pay or for any consideration for carrying out the practices described in your question.

Analysis No. 2

As indicated above, a legislative advocate, required to register, is a person who engages himself for pay or for any consideration for the purpose of attempting to influence the passage or defeat of legislation or the approval or veto of legislation by the Governor.

The facts given show that the person in question is working for and against legislation. They do not indicate whether or not he has engaged himself for pay or other consideration for such purpose. If he has done so, it is apparent that he would fall within the class of persons required to register. If he has not, the converse would be true.

Question No. 3

If a person appears before standing committees in support of, or opposition to, bills, but does not otherwise contact members to urge the passage or defeat of bills, does he have to register?

Opinion No. 3

In our opinion he would not, unless he has stimulated others to communicate with members in support of or opposition to such bills.

Analysis No. 3

The law specifically exempts from the requirement of registration those persons who merely appear before a committee of the Legislature of the State of California in support of or opposition to legislation (Gov. C. Sec. 9906). This exemption would be specifically applicable in the situation presented.

It should be noted that the Supreme Court of the United States, in construing federal provisions almost identical to those regulating legislative advocates in this State, held that the provisions in question cover not only the situation in which direct communication is made by the advocate with Members of Congress, but also that in which the advocate stimulates others to communicate with members (*United States* v. *Harris,* 374 U. S. 612, 98 L. Ed. 989). Assuming that the California courts would give the applicable state provisions a similar construction, the same conclusion would be true here also. We mention this simply as a matter of precaution as your question did not expressly indicate that the individual did not stimulate others to communicate with Members of the Legislature in support of or opposition to the bills involved.

Question No. 4

If a person lobbys but does not register, how should a member go about stopping him? That is, how can a member enforce the law? What steps should or must he take to enforce the law as to a particular individual?

Opinion and Analysis No. 4

Violation of the Government Code provisions regulating lobbying constitutes a criminal offense (Gov. C. Sec. 9908). Consequently, one course open to a legislator, as a citizen, would be to register a complaint with the appropriate law enforcement officials against the person involved.

Furthermore, a Member of the Legislature is specifically authorized to file a verified complaint with either house of the Legislature, or with an appropriate legislative committee on legislative representation, requesting that an investigation be made of the activities of any person who the member has reason to believe has been acting as a legislative advocate (Gov. C. Sec. 9909). The house or committee, as the case may be, is authorized to require any person who attends upon a legislative session for any considerable period of time and communicates with the legislators but who fails to register, to appear before either house of the Legislature or an authorized committee thereof to explain his purpose in attending upon the legislative session and to advise them of the interests for whom he acts and the methods he employs in promoting, advocating, opposing or influencing the passage or defeat of legislation (Gov. C. Sec. 9909, Subd. 5). The house or committee may also report to appropriate law enforcement officers any violation of the legal requirements concerning legislative advocates (Gov. C. Sec. 9909, Subd. 7).

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By EDWARD K. PURCELL, Deputy

WHEREAS, Thousands of pupils will be deprived in the next few years of the opportunity of continuing their education beyond high school unless additional facilities are provided; now, therefore, be it

Resolved by the Assembly of the State of California, That the Department of Education is hereby requested to conduct a study on the need for the establishment of additional state colleges in Los Angeles County, and to file its recommendations on the matter with the Assembly not later than the tenth day of the 1959 General Session.

By Mr. McGee:

House Resolution No. 283

Relating to study of license taxes by Assembly Interim Committee on Municipal and County Government

WHEREAS, Most California cities have business license taxes covering the operation of various types of businesses and professions, which license taxes represent an important part of municipal revenue; and

WHEREAS, Certain types of businesses, such as the construction business, are of such nature that services and business transactions must necessarily be spread among a number of individual municipal jurisdictions, thus requiring the payment of business license taxes or fees in each such jurisdiction within which any services are performed or materials sold; and

WHEREAS, Little or no provision is made for reciprocity with respect to levy of such license taxes; and

WHEREAS, The absence of reciprocity agreements between the cities may, in many cases, place an inequitable tax burden on those types of businesses and professions in which sales and services are considered to have been consummated at the address of the buyer or user rather than at the principal place of business of the seller or of the person providing such services; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Interim Committee on Municipal and County Government is authorized and directed to conduct a study of the extent to which certain types of businesses and professions are subject to duplication of business licensing taxes among the various municipal jurisdictions, the extent to which such duplication of license taxes represents an inequitable burden, and to recommend such legislation as may be desirable or necessary either to provide for reciprocity or in some other manner to equalize the tax burden.

Resolution read, and ordered referred to the Committee on Rules.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Sumner asked for, and was granted, unanimous consent that the following statement relative to Senate Constitutional Amendment No. 25 be ordered printed in the Journal:

Statement Relative to Senate Constitutional Amendment No. 25

This is a constitutional amendment which would require future judges to retire at age 70. It passed the Senate Governmental Efficiency

Committee, the Senate, and the Assembly Constitutional Amendments Committee with virtually no opposition.

In proposing this amendment, Senator Miller announced that the provision establishing 70 as the compulsory age was an arbitrary selection.

The decision of 70 was based principally on the already established precedent for all state employees wherein 70 is the mandatory retirement age, as it is for most other public agencies and some of them have earlier compulsory retirement ages, as for example the safety members in public service are required to retire at age 60.

In making the request to refer this matter to an interim study, Senator Miller wants it understood that he is not retreating from his original position that there should be a mandatory retirement for judges. However, during the course of this legislative session it has been brought to his attention that such a provision at this time might have unforeseen effects on the present judges' retirement system. In view of the fact that the Senate Interim Committee on Judiciary is presently committed to an interim study of many phases of the retirement problems for judges at the close of this session, he believes that it would be in the ultimate best interests of all concerned that this matter be deferred and considered along with all the other matters under study in connection with judges' retirement in the belief that two years from now the objective sought in this bill can be accomplished in a well-considered program which will give consideration to all the related retirement problems.

CONSIDERATION OF HOUSE RESOLUTION NO. 250

By Mr. Hawkins:

House Resolution No. 250

Relative to the employment of the physically handicapped

WHEREAS, There now exists a serious problem concerning the lack of employment for physically handicapped persons in industrial, commercial, and governmental fields, which has resulted in great hardship on such persons, and

WHEREAS, Time and again handicapped workers have proven their worth in many lines of industry and business, and have been found to do their work as well or better than able-bodied workers, to have a much lower rate of turnover, and to have a very low absenteeism record; and

WHEREAS, While many organized groups and governmental agencies have been working extremely hard to solve the problems confronting the physically handicapped, they have found themselves seriously impeded in their efforts by the lack of proper statistical material and concrete evidence to permit an intelligent approach to the development of a workable and constructive solution to the basic problem of employment; and

WHEREAS, It is believed that a compilation of statistical and other research material from industrial, manufacturing, and governmental sources would constitute a valuable reservoir of documentary material which would enable the State, industry, commerce, and other private organizations interested in the employment of the physically handicapped to propose and put into effect a sound and constructive program for the employment of the physically handicapped; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Interim Committee on Social Welfare is hereby directed, in addition to other matters assigned to it for study, to investigate the question of employment for the physically handicapped and to compile such statistical and research data as it deems necessary and appropriate to carry out the purposes stated in this resolution, and to include its findings in the report required of it by the resolution creating the committee.

Resolution read, and adopted.

CONSIDERATION OF DAILY FILE (RESUMED)
THIRD READING OF SENATE BILLS (RESUMED)

Senate Bill No. 493—An act making an appropriation in augmentation of the appropriation in Item 146 of the Budget Act of 1956 for support of Department of Justice in connection with legal services rendered the Colorado River Board of California, to take effect immediately.

Bill read third time.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 493:

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, April 29, 1957

To the Honorable Members of the Assembly
Sacramento, California

GENTLEMEN:

Senate Bill No. 493, "An act making an appropriation in augmentation of the appropriation in Item 146 of the Budget Act of 1956 for support of Department of Justice in connection with legal services rendered the Colorado River Board of California, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill appropriates $252,223 from the General Fund in augmentation of Item 146 of the Budget Act of 1956 to the Department of Justice for litigation and legal services rendered the Colorado River Board of California. The taking of evidence before the master appointed by the United States Supreme Court in the litigation involving the waters of the Colorado River has continued longer and proved more costly than anticipated when the 1956-57 Budget was prepared, and the additional funds provided in this bill are needed immediately to carry on this litigation.

I therefore recommend consideration of Senate Bill No. 493 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

COMMITTEE LETTER OF TRANSMITTAL

ASSEMBLY INTERIM COMMITTEE ON
CONSERVATION, PLANNING, AND PUBLIC WORKS
SACRAMENTO, CALIFORNIA, June 1, 1957

Hon. L. H. Lincoln,
Speaker of the Assembly
Members of the Assembly
Assembly Chamber, Sacramento, California

This final report of the Subcommittee on Impact of Enemy Attack on Economy and Constitutional Government of the State of California, with the legislation submitted herein, is indicative of the determination of the State of California to be prepared in case of major atomic disaster. While additional studies may be necessary in the coming interim, it is my belief that the legislation be developed by this subcommittee and the cooperating agencies and groups is an important step forward and deserves the support of the Legislature and the people of this State.

Respectfully submitted,

FRANCIS C. LINDSAY, Chairman
Assembly Interim Committee on
Conservation, Planning, and Public Works

SUBCOMMITTEE LETTER OF TRANSMITTAL

ASSEMBLY CHAMBER, STATE CAPITOL
SACRAMENTO, CALIFORNIA, June 1, 1957

Hon. Francis C. Lindsay, Chairman
Conservation, Planning, and Public Works Committee
California State Assembly
Sacramento, California

DEAR SIR: This is the final report of your Subcommittee on Impact of Enemy Attack on Economy and Constitutional Government of the State of California, prepared in accordance with House Resolution No. 53 on the First Extraordinary Session 1956.

The subcommittee has deliberately withheld the submission of this final report to permit, through conferences of state and local agencies and the Bar Association, the development of legislation that these agencies and groups could support. This legislation, now well on its way through the Senate and the Assembly, is submitted with this report. It is the firm conviction of the subcommittee that, as a result of its work and the cooperation of affected agencies and groups, California will be in a better position to sustain its governmental forms and social institutions following an atomic disaster.

This report outlines the process whereby constitutional amendments were developed for the consideration of the Legislature. Assembly Constitutional Amendment No. 65, submitted with the report, is the product of such cooperative action. This measure preserves and provides for the operation of state and local governments following war-caused disaster. It is the belief of the subcommittee that this measure, which passed in the Assembly and is now in the Senate, should be adopted by the people of California.

All of the measures clearing the Assembly committees have been passed by the Assembly to the Senate without a dissenting vote.

Two of the measures developed by the subcommittee, Assembly Bill No. 2780 and Assembly Bill No. 3162, have passed both the Assembly and the Senate and are on the Governor's desk for his signature:

Assembly Bill No. 2780 merely provides for the destruction of certain records when they are obsolete by the Controller with the concurrence of the Director of Finance after they are five (5) years old;

Assembly Bill No. 3162 provides for the appointment by the Governor of a commission to conduct elections in the event voting records are destroyed.

Assembly Bill No. 2773 provides that, in case of catastrophe, it will not be necessary to prove that the maker of a will was living at the time the will was destroyed.

Assembly Bill No. 2777 has an appropriation of $50,000 for microfilming and safe keeping of records.

Assembly Bill No. 2778, providing for depositories outside the capital city, has an appropriation of $18,799.

Assembly Bill No. 2781 has been amended in both houses and by free conference; and is now an important permissive measure providing for the method of establishing stand-by officers in order to preserve local government in case of war-caused disaster.

The work of this subcommittee has been of such a pioneering character that other states and the Federal Government have been much interested in our progress. While all of the matters are not covered by legislation developed during this session, and additional study and further legislative changes are no doubt necessary, it is the hope of the subcommittee that the results of its labor will provide the basis for the survival of state and local government in case of atomic disaster.

Respectfully submitted,

VERNON KILPATRICK, Chairman
JACK A. BEAVER
ALLEN MILLER
Subcommittee on Impact of Enemy Attack on Economy and Constitutional Government of the State of California

WHEREAS, The South Fork of the Eel River is particularly suitable for recreation development; however, low flows prevail during the summer season, and the water tends to stagnate in pools and temperatures often become intolerable to fish life; and

WHEREAS, Branscomb Reservoir is designed to alleviate these unsatisfactory conditions; and

House Resolution No. 297

Relative to an investigation of the pollution of the waters of San Francisco Bay and other areas

WHEREAS, A lethal pollutant is causing thousands of striped bass, salmon, crabs, smelt, shrimp, catfish, perch, and other fish to die in the Bay area; and

WHEREAS, Historically San Francisco Bay was world-renowned for its San Francisco Bay shrimp, oysters, and other marine delicacies, but presently these delicacies are becoming extinct since their breeding grounds are being destroyed by pollution from jettisoned oil, chemicals, and other foreign material so that the shore lines of San Mateo, Alameda, San Francisco, Marin, Santa Clara, Contra Costa, Solano and Napa Counties are almost devoid of their previously plentiful population of crabs, shrimps, and oysters; and

WHEREAS, The problem created by the continuous dumping of refuse and pollution into the water from various sources, including industrial plants, agricultural operations, and shipping facilities, is serious and deleterious to the best interests of the people of the San Francisco Bay area; and

WHEREAS, The oil, chemicals, and other foreign substances in the waters of San Francisco Bay are destroying the recreational value of the Bay and the surrounding beaches to the detriment of the health and welfare of the citizens of the area and of the whole State; and

WHEREAS, Although measures have been instituted which have alleviated to some extent the problem caused by dumping of raw sewage into such waters, other types of waste are continuing to be dumped into the Bay so that valuable game fish are being killed and obnoxious and unhealthful conditions of pollution are being created and maintained; and

WHEREAS, It appears that there is a deficiency in the present laws relating to water pollution control inasmuch as governmental agencies having jurisdiction in this field have been unable to successfully combat the serious threat to public health and safety by reason of continued pollution of the waters of the State, particularly in the San Francisco Bay area; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Interim Committee on Conservation, Planning, and Public Works is hereby authorized and directed to ascertain, study and analyze all facts relative to pollution of the waters of San Francisco Bay, the waters tributary thereto, and other waters of the State, the causes thereof, and the desirability of or necessity for legislation for the prevention and abatement of such pollution, and to do such other things as are necessary to effectuate the purposes of this resolution, and to report thereon to the Assembly, including in its report its recommendations for appropriate legislation.

Resolution read, and ordered referred to the Committee on Conservation, Planning, and Public Works.

Resolved, That the committee is hereby authorized and directed to ascertain, study and analyze all facts relative to the subject matter of said bills and to the

desirability of or necessity for legislation thereon, and to report thereon to the Assembly, including in its reports its recommendations for appropriate legislation.

Resolution read, and ordered referred to the Committee on Livestock and Dairies.

By Messrs. McMillan, Elliott, Hawkins, and Wilson:

House Resolution No. 299

Relating to urging the Government of the United States to assume world leadership in effecting a moratorium on nuclear detonations

WHEREAS, The abolition of warfare, international disarmament, and the development of nuclear energy for peaceful uses have been and are major objects of our governmental policies at both the domestic and foreign levels; and

WHEREAS, The acquisition and continued experimentation with military nuclear weapons by many nations would multiply the problems of effective control over their use and greatly increase the danger of war; and

WHEREAS, Persuasive scientific evidence has been presented to demonstrate the possibility that continued detonation of nuclear and thermonuclear weapons may cause the earth's atmosphere to become permeated by radioactive matter to such a degree as to make radioactive fallout a serious danger to life all over the earth; and

WHEREAS, International disarmament agreements to eliminate the development and continued experimentation with these weapons have failed in large measure to curtail their use; and

WHEREAS, Because of the dangers presented by the continued detonation and development of these nuclear devices, it is imperative that immediate steps be taken to establish international control to halt further explosions throughout the world; and

WHEREAS, The United Nations is the body which could best produce the international accord and cooperation necessary to eliminate these dangerous conditions through the creation of monitoring establishments throughout the world and by other means; and

WHEREAS, Effective United Nations control could be established by vigorous leadership by the Government of the United States without incurring the danger of impairing the Nation's defensive potential; now, therefore, be it

Resolved by the Assembly of the State of California, That the Government of the United States is urged to assume a position of leadership in the United Nations in negotiating a moratorium on all nuclear detonations throughout the world, in establishing an effective monitoring agency under direction of the United Nations, and to encourage that body to take other steps to bring about a complete cessation of all such detonations and to cause the resources of mankind, with respect to development of nuclear power, to be devoted exclusively to multiplying its peaceful uses; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit suitably prepared copies of this resolution to the President and Vice President of the United States and to each Member of the Congress of the United States representing the State of California.

Resolution read, and ordered referred to the Committee on Rules.

LETTER OF TRANSMITTAL

ASSEMBLY CHAMBER, STATE CAPITOL
SACRAMENTO, CALIFORNIA, May 1, 1957

Hon. L. H. Lincoln
Speaker of the Assembly; and
Members of the Assembly
Assembly Chamber, Sacramento, California

GENTLEMEN: This report on Electric Power and Development of Northern California, submitted pursuant to House Resolution No. 239, 1955, was prepared at the request of the Interim Committee on Conservation, Planning, and Public Works, by Professor Warren S. Gramm of the University of California at Davis.

The several subcommittees of this committee have long been cognizant of the relationship between state and local physical developmental programs and population, location, and occupation. These programs of physical development, such as highway construction and water resource conservation, whether planned or not planned to influence population location, nonetheless do so. One of the most important of these, of course, is the multiple purpose type of water development envisaged in the California Water Plan The study by Professor Gramm examines electric power as an energy source in energy-short Northern California and relates the availability of large blocks of electric energy to the area's resources and industrial potential.

The publication of this scholarly study on energy sources as related to population growth, its location, and industrial expansion is the second of such a series published by this committee. The last General Session published Hugh G. Hansen's Central Valley Project: Federal or State?, which contributed importantly to knowledge regarding basic policy questions facing California. It is hoped that this study will be useful both to state and local administrative arms of government and to their policy bodies in facing many unsolved problems related to water development. While the staff of our committee worked closely with the author of this study in the organization and scope of the report, Professor Gramm himself, of course, is responsible for the facts presented and their emphasis.

Respectfully submitted,

FRANCIS C. LINDSAY, Chairman
Assembly Interim Committee on
Conservation, Planning, and Public Works

SEC. 6. Chapter 6 (commencing with Section 33970) is added to Part 1, Division 24 of said code, to read:

CHAPTER 6. URBAN RENEWAL

Article 1. General

33970. In addition to its powers under any other section of this part, an agency is authorized to plan and undertake urban renewal projects.

33971. "Urban renewal" means undertakings and activities for the elimination and for the prevention of the development or spread of blighted areas, and may involve any redevelopment work or undertaking or any rehabilitation and conservation work, or any combination or part of such undertaking or work.

33972. "Rehabilitation" or "conservation" may include the restoration and renewal of a blighted, deteriorated, or deteriorating area by:

(a) Carrying out plans for a program of voluntary or compulsory repair and rehabilitation of buildings or other improvements in accordance with the urban renewal plan;

(b) Acquisition of certain real property and demolition or removal of buildings and improvements thereon where necessary to eliminate unhealthful, insanitary or unsafe conditions, lessen density, eliminate obsolete or other uses detrimental to the public welfare, or to otherwise remove or prevent the spread of blight or deterioration, or to provide land for needed public facilities;

(c) Installation, construction or reconstruction, of streets, utilities, parks, playgrounds, and other improvements necessary for carrying out in the area an urban renewal plan; and

(d) Disposing of any real property acquired to private enterprise or public agencies for use in accordance with an urban renewal plan.

33973. "Urban renewal area" means a blighted, deteriorated or deteriorating area, the urban renewal of which is necessary to effectuate the public purposes declared in this part.

33974 "Urban renewal plan" means a plan for the urban renewal of a project area. Such a plan shall be subject to all the requirements and prepared and approved pursuant to all the provisions and procedures of this part applicable to a redevelopment plan and the preparation and approval thereof.

33975. "Urban renewal project" means an undertaking of an agency pursuant to an official urban renewal plan designated by the legislative body in accordance with this part. Such a project shall be subject to all the requirements and provisions of this part applicable to a redevelopment project.

33976 The findings and declarations heretofore made in this part with respect to the existence of blighted areas in need of redevelopment are hereby affirmed and restated.

33977. It is hereby further found and declared that:

(a) There exist in many communities other areas in which the conditions by which blighted areas are characterized are present to a lesser degree but still to such an extent that such areas are deteriorated or deteriorating and threaten to become blighted areas if the conditions of blight in them are not remedied.

(b) The existence of such deteriorated and deteriorating areas thus threatens to increase still further the extent, scope and effect of blighted areas and is itself declared to be a menace which is condemned as injurious and inimical to the public health, safety and welfare of the people of the communities in which they exist and of the State.

(c) In such deteriorated and deteriorating areas, and in some blighted areas, the conditions of blight can be remedied, the process of deterioration halted, and the spread of blight and development of blighted areas prevented by rehabilitation and conservation.

(d) The effective rehabilitation and conservation of such areas may require public acquisition at fair prices of certain parcels of land where necessary to eliminate unhealthful, insanitary or unsafe conditions, lessen density, eliminate obsolete or other uses detrimental to the public welfare, or to otherwise remove or prevent the spread of blight or deterioration, or to provide land for public facilities.

33978. It is further found and declared that there exists in many communities still other areas, parts of which are blighted to the extent that they require redevelopment, and other parts of which are blighted, deteriorated and deteriorating to the extent that they require rehabilitation and conservation, and the effective remedying of the conditions of blight and urban renewal of such areas requires the combination of redevelopment, rehabilitation and conservation measures.

33979. For these reasons it is declared to be the further policy of the State and the further purposes of this part.

(a) To promote and advance the urban renewal of blighted, deteriorated and deteriorating areas and the general welfare of the inhabitants of the communities in which such areas exist by the employment of all appropriate means.

(b) That whenever the urban renewal of blighted, deteriorated and deteriorating areas cannot be accomplished by private enterprise alone, without public participation and assistance in planning, in the acquisition of land, in the work of clearance, relocation of families and preparing the land for new building, in carrying out programs of voluntary or compulsory repair and rehabilitation of structures or other improvements, and in making site improvements and providing community facilities, it is in the public interest to employ the power of eminent domain and to advance or expend public funds for these purposes and otherwise to provide means by which blighted, deteriorated and deteriorating areas may be renewed.

(c) That the urban renewal of blighted, deteriorated and deteriorating areas and the provision of continuing land use and construction policies in them are public uses and purposes for which public money may be advanced or expended and private property acquired, and are governmental functions of state and community concern in the interest of the health, safety and general welfare of the people of the State and of the communities in which the areas exist.

(d) That the benefits which will result from the remedying of conditions of blight and the elimination and the prevention of the spread of blighted areas by the urban renewal of blighted, deteriorated and deteriorating areas shall accrue to all the inhabitants and property owners of the communities in which such areas exist.

(e) That the necessity in the public interest for the provisions of this part is a matter of legislative determination.

33980. In connection with the planning and undertaking of any urban renewal project, the agency, the community, the legislative body, the planning commission, and all public officers, agencies and bodies shall have all the powers, duties, rights, privileges and immunities which they have in respect to a redevelopment plan or a redevelopment project, in the same manner as though all the provisions of this part applicable to a redevelopment plan or a redevelopment project were applicable to an urban renewal plan or an urban renewal project; provided, that the provisions of this section shall not apply to the taxation provisions of all of Article 4 of Chapter 5 of this part.

33981. In addition to the plans which an agency is otherwise authorized to prepare, an agency is hereby specifically authorized to prepare plans within urban renewal areas for urban renewal projects to include (1) a program of voluntary or compulsory repair and rehabilitation of buildings and improvements, and (2) the enforcement of laws, codes and regulations relating to the use of land and the use and occupancy of buildings and improvements, and to the compulsory repair, rehabilitation, demolition or removal of buildings and improvements. An agency is authorized to develop, test and report methods and techniques, and carry out demonstrations and other activities, for the prevention and elimination of conditions of blight and blighted areas.

33982. For purposes of urban renewal and urban renewal planning and projects, the word "redevelopment" as used in this part shall mean "urban renewal," and the word "blighted" as used in this part shall mean "blighted, deteriorated or deteriorating"; provided, that the provisions of this section shall not apply in this chapter,

nor in the definitions in Section 33013, as amended, Section 33013.01 and Section 33014, as amended, nor in the declaration of state policy of Article 2 of Chapter 1, nor in the provisions in reference to taxation in Article 4 of Chapter 5; and provided further, that this section shall not amend any section of this part or change the short title of this part or the corporate name of an agency.

33983. The provisions for urban renewal in this chapter shall not become operative in any community unless and until the legislative body of the community declares, by resolution, that there is need for urban renewal in the community. The provisions of this chapter shall not grant to any such agency in any community powers which are now or hereafter granted to any other officer, board, or department of the community by charter or ordinance without the consent of the legislative body of such community by ordinance.

33984. At any time following the adoption by the legislative body of a resolution declaring there is need for urban renewal in the community, the words "urban renewal" may be substituted for the word "redevelopment" wherever in this part the word redevelopment is used as part of the name of an agency, an administrative fund or a revolving fund, established pursuant to this part; provided, that the provisions of this section shall not apply in any community unless and until the legislative body thereof, by resolution, declares that said provision shall be applicable.

33985. The urban renewal agency shall provide a feasible method for the temporary or permanent relocation of persons displaced from the urban renewal area and shall require that there be provided, in the urban renewal area or in other areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means of the families displaced from the urban renewal area, decent, safe, and sanitary dwellings equal in number to the number available to such displaced persons and reasonably accessible to their places of employment.

SEC. 7. Nothing in this act shall be construed as a determination by the Legislature that redevelopment agencies did not have some or all of the powers herein specified prior to this enactment; to the extent that such agencies have such powers prior to the effective date hereof, this act shall be construed as a restatement thereof."

The bonds of the agency shall be authorized, issued and sold, public hearing shall be noticed and held, a determination shall be made of whether the whole or part of the county will be benefited by incurring a bonded indebtedness, an election shall be held and bonds shall be authorized, issued and sold all in the same manner as are bonds of county water districts under the provisions of Chapter 2 (commencing with Section 31370) of Part 6 of Division 12 of the Water Code and shall conform to the provisions of that chapter insofar as they are applicable and are not in conflict with the provisions of this act. The bonds of the agency shall be free and exempt from all taxation within the State of California and it is hereby declared that the agency is a reclamation and irrigation district within the meaning of Section 1½ of Article XIII and Section 13 of Article XI of the Constitution of the State of California. SEC. 21. Improvement districts may be formed in the agency and shall be governed in the same manner as improvement districts are formed and are governed in irrigation districts. The board shall have the same rights, powers, duties and responsibilities with respect to the formation and government of improvement districts in the agency as the board of directors of an irrigation district has with respect to improvement districts in irrigation districts. Assessments in an improvement district in the agency shall be levied, collected and enforced at the same time and as nearly in the same manner as practicable as annual taxes of the county, except that the assessment shall be made in the same manner as provided with respect to improvement districts in irrigation districts. The provisions of the Improvement Act of 1911, the Municipal Improvement Act of 1913, the Street Opening Act of 1903, and the Improvement Bond Act of 1915 are applicable to the agency. Such acts or any of them may be used in the discretion of the board in the construction of work to be done or improvements made under this act and in the levying of assessments and reassessments and the issuing of bonds to pay for costs and expenses of the work and improvements done or to be done hereunder.

SEC. 22. Without limiting the generality of any provision of this act, the agency may for any of the purposes of the agency, cooperate and contract with the United States under the Federal Reclamation Act of June 17, 1902, and all acts amendatory thereof or supplementary thereto, or any other act of Congress heretofore or hereafter enacted permitting cooperation or contracting. In the event an election is held to authorize the execution of such a contract with the United States, such election shall, except as otherwise in this act provided, be called, noticed and held in the manner provided in the case of the issuance of

agency bonds. All of the electors of the agency shall be entitled to vote at such election. The notice of election shall contain in addition to the information required in the case of bond elections, a statement of the maximum amount of money to be payable to the United States for construction purposes and cost of water supply and acquisition of property, exclusive of penalties and interest, and a general statement of the property, if any, to be conveyed by the agency pursuant to the contract. The ballots at the election shall contain a brief statement of the general purpose of the contract substantially as stated in the notice of election and the extent of the obligation to be assumed with the words "Contract—Yes" and "Contract—No" or "Contract and bonds—Yes" and "Contract and bonds—No," whichever may be applicable. A favorable majority of the votes cast at such election shall be necessary to authorize the execution of the contract.

SEC. 23. The agency may submit any contract or proposed contract to the superior court of the county to determine the validity thereof and the authority of the signatories to execute the same. Such validation proceedings shall be had as in the case of the judicial determination of the validity of irrigation district bonds under Article 2 (commencing with Section 22670), Chapter 4, Part 5, of Division 11 of the Water Code, and with like effect.

SEC. 24. Claims against the agency shall be prepared, presented audited and allowed or disallowed in the same manner and within the same time as in the case of claims against the county.

SEC. 25. The formation of the agency or the enactment of this act shall not impair the vested right of any person, association, corporation or district in or to water or the use thereof.

SEC. 26. No director of the agency shall in any manner be interested, directly or indirectly, in any contract awarded or to be awarded by the board or in the profits to be derived therefrom; provided, that this section shall not be construed to apply to any contract made with a corporation for its general benefit where such a director owns less than one percent (1%) of the stock thereof.

SEC. 27. No director, officer, employee or agent of the agency shall be personally liable for any damage resulting from the operations of the agency or from the negligence or misconduct of any of its directors, officers, employees or agents unless the damage was proximately caused by his own negligence, misconduct or wilful violation of duty. When a director, officer, agent or employee is held liable for any act or omission done or omitted in his official capacity and any judgment is rendered thereon, the agency shall pay the judgment without obligation for repayment by the director, officer, agent or employee. The agency may carry and pay for insurance to cover any liability of the agency, its directors, officers, employees or agents or any of them.

SEC. 28. The agency may be dissolved in the manner provided for the dissolution of districts by Article 10 (commencing with Section 58300 of the Government Code) of the District Organization Law, and the district shall be considered a district within the meaning of all the provisions of that article.

SEC. 29. Any portion of a county within or outside of the county in which such agency is situated, or any city situated within any county, or both, may be added to the agency, and such cities need not be contiguous and such unincorporated territory may consist of one or more parcels which need not be contiguous one with the other or with any such cities and such annexing area or areas need not be contiguous with the agency. Such annexation shall occur in the following manner. A petition, which may consist of any number of separate instruments, shall be filed with the secretary of the agency, signed by voters residing within the boundaries of the area proposed to be annexed equal in number to at least 10 percent of the number of such voters voting for all candidates for the Office of Governor of this State at the last general election prior to the filing of such petition; provided, that where one or more cities are included in such proposed annexation, such petition must be signed by at least 10 percent of the voters of each such city so voting at such election. Such petition shall set forth and describe the boundaries of the area proposed to be annexed and shall contain a prayer that such area be annexed to the agency.

The text of such petition shall be published once a week for at least two weeks, the last publication to be made not less than one week nor more than four weeks before the time at which the same is to be presented to the board of directors of the agency in at least one, but not to exceed three, newspapers printed and published in such county, together with a notice stating the time of the meeting at which the same will be presented. When contained upon one or more instruments, one copy only of such petition need be published. No more than five of the names attached to said petition need appear in said publication of said petition and notice, but the number of signers shall be stated.

Within 10 days of the date of the filing of such petition the secretary of the agency shall examine the same and ascertain whether or not such petition is signed by the requisite number of voters; and if requested by the secretary of the agency, the board of directors shall authorize him to employ persons especially for that purpose, in addition to the persons regularly employed in his office and shall provide for their compensation. When the secretary of the agency has completed

his examination of the petition, he shall attach to the same his certificate, properly dated, showing the result of such examination; and if from such examination he shall find that said petition is signed by the requisite number of voters or is not so signed, he shall certify that the same is sufficient or insufficient, as the case may be.

If, by the certificate of the secretary of the agency, the petition is found to be insufficient, he shall also certify to the number of voters required to make such petition sufficient, and it may be amended by filing a supplemental petition or petitions within 10 days of the date of such certificate. The secretary of the agency shall, within 10 days after the filing of such supplemental petition or petitions, make like examination of the same and certify to the result of such examination as hereinbefore provided.

If his certificate shall show any such petition, or such petition as amended, to be insufficient, it shall be filed by him with the board of directors of the agency and kept as a public record, without prejudice, however, to the filing of a new petition to the same effect. But if, by the certificate of the secretary, such petition, or petition as amended, is shown to be sufficient, the secretary shall present the same to the board of directors, without delay.

If any supplemental petition be filed, all the signatures appended to the petition or to the supplemental petition or petitions shall be considered in determining the number of voters signing the petition.

After an election for the annexation of such area to the agency the sufficiency of such petition in any respect shall not be subject to judicial review or be otherwise questioned.

Such petition may be granted by ordinance of the board of directors of such agency. In granting such petition, such board of directors may fix in said ordinance the terms and conditions upon which such annexation may occur, and such terms and conditions may provide, among other things, for the levy by such agency of special taxes upon taxable property within such annexed area or areas in addition to the taxes elsewhere in this act authorized to be levied by such agency, and in case such terms and conditions shall provide for the levy of such special taxes, the board of directors, in fixing such terms and conditions, shall specify the aggregate amount to be so raised and the number of years prescribed for raising such aggregate sum and that substantially equal annual levies will be made for the purpose of raising such sum over the period so prescribed. Such terms and conditions also may provide, among other things, that a special water rate may be fixed from time to time by the board of directors for the area or areas proposed to be annexed. If such petition is granted, the proposition of such annexation subject to the terms and conditions so fixed, shall be submitted to the vote of the voters in the proposed addition, at an election called by the board of directors and held, as herein provided, within 70 days after the effective date of such ordinance. Notice of such election shall be given by publication in a newspaper of general circulation published in the county once a week for three successive weeks, the last publication to be not more than four weeks nor less than one week prior to the date fixed for such election. Such notice shall describe the boundaries of the area or areas so proposed to be annexed and shall designate such territory by some appropriate name, or other words of identification, by which such territory may be referred to and indicated upon the ballot to be used at any election at which the question of such annexation is submitted, as in this act provided. Such notice also shall contain the substance of the terms and conditions fixed by the board of directors, as herein provided The measure so submitted at such election shall be stated on the ballot substantially as follows: "Shall _____ (giving the name or other designation of the territory proposed to be annexed, as stated in the notice of election) be annexed to the Mojave-Antelope Water Agency subject to the terms and conditions fixed by the board of directors of said agency?" At the right of such proposition there shall be printed the words "yes" and "no" with voting squares. The board of directors shall canvass the votes cast at such election and if such proposition is approved by a majority of the voters voting thereon at such election, the president and secretary of the board of directors shall certify that fact to the Secretary of State and to the county recorder of the county in which such agency is located and the county in which the territory is situated. Upon receipt of such last-mentioned certificate, the Secretary of State shall, within 10 days, issue his certificate reciting the passage of said ordinance and the addition of said area or areas to said agency. A copy of said certificate shall be transmitted to, and filed with, the county clerk of the county in which such agency is situated and the county in which the territory is situated. From and after the date of such certificate, the area or areas named therein shall be deemed added to, and shall form a part of, said agency, and the taxable property therein shall be subject to taxation thereafter for the purposes of said agency, including the payment of bonds and other obligations of such agency at the time authorized or outstanding, and the board of directors of such agency shall be empowered to do all things necessary to enforce and make effective the terms and conditions of annexation fixed as hereinabove authorized.

SEC. 30. Any tract of land included within the agency and not substantially and directly benefited by being in the agency, or by its continued inclusion therein, may be excluded from the agency by order of the board upon the verified petition of the owners in fee of land which has an assessed value with improvements in excess of one-half of the assessed value of all the privately owned land and improvements in the tract proposed to be excluded. The petition shall set forth all of the following:

(a) A description of the land proposed to be excluded.

(b) A statement that the land is not substantially and directly benefited by being in the agency or by its continued inclusion therein.

(c) A prayer that the land be excluded from the agency.

The petition shall be filed with the secretary and shall be accompanied by a deposit with the secretary of one hundred dollars ($100) to meet the expenses of advertising and other costs incident to the proceedings for exclusion. Any unconsumed balance of the deposit shall be returned to the depositor. The secretary shall call a meeting of the board at a time not less than 25 days nor more than 50 days after the filing of the petition and publish a notice of the filing of the petition for at least two weeks in some newspaper of general circulation within the agency, if there is one, and if not, in some newspaper of general circulation published in the county in which the agency is situated.

The notice shall contain:

(a) A statement that a petition for exclusion of land has been filed.

(b) The date when the petition was filed.

(c) A statement that the petition will be heard by the board.

(d) The time of the hearing.

(e) The place of the hearing.

The place of the meeting specified in the notice shall be the regular meeting place of the board or a more convenient meeting place within the agency as designated by the board.

SEC. 31. At the time and place specified in the notice the board shall hear the petition. Any landowner or taxpayer within the agency may appear at the hearing to urge or oppose the granting of the petition.

The board after the hearing of any exclusion petition shall order the exclusion of all or any part of the land described in it when as to the land to be excluded either:

(a) The board determines that the land will not be substantially and directly benefited by its continued inclusion in the agency.

(b) The board determines the exclusion to be for the best interests of the agency.

Any order excluding land shall be by ordinance which shall be effective at the expiration of 30 days after adoption. The exclusion ordinance shall specifically describe the land excluded. An order denying exclusion may be by resolution. From and after the effective date of the ordinance, the land therein described is excluded from the agency.

Land excluded from the agency shall not be subject to any tax levy or tax lien for indebtedness on bonds issued after such exclusion, except that exclusion shall not invalidate in any manner any taxes or assessments levied or assessed against the land excluded prior to the effective date of such exclusion.

A copy of the exclusion ordinance, certified to by the secretary, shall be recorded in the office of the county recorder of the county in which the agency is situated and the record is prima facie evidence of the exclusion from the agency of the land described in the ordinance.

A finding by the board in the exclusion order in favor of the genuineness and sufficiency of the petition for exclusion and notice of hearing of it is conclusive against all persons except the State upon suit by the Attorney General commenced within six months after the adoption of the order excluding land from the agency.

SEC. 32. The board may by resolution initiate proceedings to exclude land from the agency if the board determines either:

(a) That the exclusion will be for the best interests of the agency.

(b) That the land to be excluded is not substantially and directly benefited by continued inclusion in the agency.

The resolution of intention to exclude land shall:

(a) Require all persons interested to appear before the board and be heard as to why land included in the agency should not be excluded.

(b) Describe the land to be excluded.

(c) Fix the time for the hearing on the resolution which time shall be not less than 25 days nor more than 50 days from the passage of the resolution.

(d) Fix a convenient place within the agency for the hearing.

(e) Direct the secretary to give notice of the passage of the resolution and of the hearing.

Thereupon the secretary shall give notice of the time and place of the hearing in the manner prescribed for giving notice of a hearing upon petition by a landowner to exclude land. The proceedings at the hearing and thereafter shall be as provided for proceedings upon a petition by a landowner to exclude land.

Property in territory excluded from the agency in any manner under the provisions of this chapter, or otherwise, shall continue to be subject to taxation to pay the principal and interest on bonds of the agency, and on bonds of any improvement agency therein in which said property is situated, outstanding at the time of such exclusion.

SEC. 33. The Legislature hereby finds that in the County of San Bernardino there are urgent problems of water conservation, development of water resources, and securing adequate water supplies which are unique to San Bernardino County, and that the county water districts, municipalities, and irrigation districts which now exist within portions of the county, have acquired property and works, developed a limited water supply, and have incurred indebtedness, but have been and are unable alone economically to plan and develop an adequate water supply, or adequately and feasibly to conserve the water supply of the agency; that to accomplish these ends it is necessary to have a political entity encompassing areas within the various municipalities and districts; and that there is a great scarcity of water within the county for municipal, irrigation, and other uses and there is an urgent need that an adequate supply of water be obtained. Investigation has shown conditions in the county to be peculiar to it and it is hereby declared that general law cannot be applicable to the county and that the enactment of this special law is necessary for the planning, conservation, development, distribution, control and use of said water for the public good and for the protection of life and property therein.

SEC. 34. In case any section or sections, or part of any section, of this act shall be found to be unconstitutional or invalid for any reason, the remainder of the act shall not thereby be invalidated, but shall remain in full force and effect.

SEC. 35. This act is designated and may be cited and referred to as the "Mojave-Antelope Water Agency Act." "

By Messrs. Nisbet and Beaver:

House Resolution No. 304

Relative to an interim study of the need of the establishment of a state college in San Bernardino County

Resolved by the Assembly of the State of California, That the Assembly Interim Committee on Education, in addition to other matters assigned to it for study, is hereby authorized and directed to ascertain, study, and analyze all facts relative to the need and feasibility of the establishment of a state college in the area comprising San Bernardino County, and to consider the desirability of or necessity for legislation in that field and to report thereon to the Assembly on or before the fifteenth legislative day of the 1959 Regular Session of the Legislature, including in its reports its recommendations for appropriate legislation.

Resolution read, and ordered referred to the Committee on Rules.

By Mr. Masterson:

House Resolution No. 305

Relative to an interim study of Assembly Constitutional Amendment No. 46

WHEREAS, This State is enjoying a population growth of unprecedented magnitude which has resulted in ever-increasing needs for new and expanded facilities both on the state and local level; and

WHEREAS, The present cost of obtaining funds in combination with this demand for needed construction programs has emphasized the great importance of obtaining public financing at the lowest possible cost in order to keep taxes at the lowest possible level; and

WHEREAS, The credit of the State of California and of its various subdivisions must be protected if the needs of the State are to be satisfied without burdensome taxation and other charges for unnecessarily expensive methods of financing; and

WHEREAS, The subject matter of Assembly Constitutional Amendment No. 46 which has been referred to the Rules Committee for assignment for interim study has instituted discussion which may be instrumental in pointing the way toward a solution of these difficult financing and taxation problems; now, therefore, be it

Resolved by the Assembly of the State of California, That the Interim Committee on Revenue and Taxation is authorized and instructed to investigate this subject and to ascertain, study and analyze all facts relative to the subject matter of said measure and to report the result of its investigation to the Legislature not later than the fifth legislative day of the 1959 Session thereof; and be it further

Resolved, That the said committee is allocated the sum of twelve thousand dollars ($12,000) from the Contingent Fund of the Assembly for the purpose of making such study and report.

House Resolution No. 306

Relating to requesting the President of the United States to permit representatives of the shipbuilding and ship repair industries to obtain instruction from the Atomic Energy Commission on methods for developing nuclear propulsion of ships

WHEREAS, The success achieved by installation of nuclear propulsion equipment in naval vessels by the Government of the United States indicates that ship propulsion in the future will be by means of atomic energy because of superior cruising range, space efficiency, and numerous related factors; and

WHEREAS, The State of California has historically been a major center of shipbuilding and ship repairing, both in peacetime and in time of war, and has developed this industry to a point where its continued existence and growth is essential for both the economic and military security of the Nation; and

WHEREAS, The maintenance and expansion of the shipbuilding and ship repairing industry in this State as well as elsewhere will, in the future, depend upon leadership in the development of technological innovations designed to increase the efficiency of shipping transportation, thus making it imperative that the industry be given access, where possible, to information acquired by the Federal Government in its research and development of nuclear propulsion equipment to the end that American ships may utilize such equipment; now, therefore, be it

Resolved, by the Assembly of the State of California, That the President of the United States is respectfully requested to take such steps as may be necessary, practical, and consistent with national security to provide representatives of the California shipbuilding and ship repairing industry with such instruction by the Atomic Energy Commission in the construction and installation of nuclear propulsion equipment in ships as will permit them to introduce the use of such equipment in the vessels constructed by the ship building industry; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a suitably prepared copy of this resolution to the President of the United States.

Resolution read, and ordered referred to the Committee on Rules.

My objections to this bill are as follows:

This gives blind persons who are licensed under the provision the right to operate "snack bars and cafeterias in any building owned or occupied by the State or by any county or city." I am entirely sympathetic with the problems of the blind and the plan of permitting such people to earn a living by operating vending stands, snack bars or cafeterias, but I feel it is going too far to give them a right by act of the State to operate snack bars, cafeterias or stands in any building which is owned or occupied by the State, by the counties or by cities.

The cities and counties, as well as the State, should have some regulation for the use of buildings owned or occupied by them and should not be subjected to the whim of some person, no matter how worthy, who may wish to operate a cafeteria in some particular building.

I believe that the best interests of the State and local agencies, as well as the best interests of the blind, will be served by a more reasonable approach to this problem.

The bill presents a further question as to whether cafeterias now operated in state buildings by employee associations, for the benefit of the employees, can continue to operate if this bill should be signed.

I am, therefore, returning Assembly Bill No. 963 without my signature and with this statement of my objections.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

Assembly Bill No. 963 ordered to unfinished business file.

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 1476, entitled: "An act to add Section 867 to the Agricultural Code, relating to the Sixth District Agricultural Association."

My objections to this bill are as follows:

This bill relates to guards in the State Museum of Science and Industry at the Sixth District Agricultural Association in Los Angeles. This bill is so confused that it is impossible to determine what is intended by it. I, therefore, am returning the bill, without my signature, and with this statement of my objections thereto.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

Assembly Bill No. 1476 ordered to unfinished business file.

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, June 7, 1957

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 3546, entitled: "An act to amend Section 3830 of the Elections Code, relating to ballots."

My objections to this bill are as follows:

The Legislature passed and presented to me this Assembly Bill No 3546 and Assembly Bill No. 280. These bills are identical for all practical purposes. In order to avoid unnecessary duplication, only one of these bills should receive my signature and the other should be returned without my signature. Accordingly, I have signed Assembly Bill No. 280 and that bill has become a law and I am returning this Assembly Bill No. 3546 to the house in which it originated without my signature and with this statement of my objections thereto.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

Assembly Bill No. 3546 ordered to unfinished business file.

CONSIDERATION OF HOUSE RESOLUTION NO. 296

By Mr. Belotti:

House Resolution No. 296

WHEREAS, Bulletin No. 3, The California Water Plan, lists the Branscomb Dam Project for fishery enhancement and recreational benefits to be accomplished by providing a minimum flow of 100 second feet in the South Fork of the Eel River below the mouth of Rattlesnake Creek; and

WHEREAS, The South Fork of the Eel River is particularly suitable for recreation development, however, low flows prevail during the summer season, and the water tends to stagnate in pools and temperatures often become intolerable to fish life; and

WHEREAS, Branscomb Reservoir is designed to alleviate these unsatisfactory conditions; and

WHEREAS, The Fish and Wildlife Service of the United States Department of the Interior in a preliminary report dated January 23, 1950, recommended that:

(1) A broad plan coordinating the many land uses in the project area be developed by interested federal and state agencies, the plan stipulates that.

(a) All of the federally owned land in the project area be open to free use by the public, except for such portions as may be reserved by the planning agency for purposes of safety, efficient operation, or protection of public property.

(b) Leases of land within the reservoir area stipulate the right of public access for the purpose of hunting, fishing, and other uncommercialized recreational use; now, therefore, be it

Resolved, That the Department of Water Resources is requested to expedite as a part of the California Water Development Program the investigation as to the engineering, economic and financial feasibility of a dam and reservoir in the Branscomb and alternate sites on the South Fork of the Eel River in Mendocino County; and be it further

Resolved, That the Department of Water Resources prepare at the earliest possible date a report of this investigation, which report will include the design of all important structures for the purpose of determining cost of construction, studies of areas receiving benefits from the project, cost benefit analysis, cost allocations and repayment plans, descriptions of land easements and rights of way, including relocation of roads and utilities, and such other information as is necessary to determine economic and financial feasibility to assist the Legislature in considering authorization of the project; and be it finally

Resolved, That a copy of this resolution be transmitted to Mr. Harvey O. Banks, Director of the Department of Water Resources.

House Resolution No. 297

Relative to an investigation of the pollution of the waters of San Francisco Bay and other areas

WHEREAS, A lethal pollutant is causing thousands of striped bass, salmon, crabs, smelt, shrimp, catfish, perch, and other fish to die in the Bay area; and

WHEREAS, Historically San Francisco Bay was world-renowned for its San Francisco Bay shrimp, oysters, and other marine delicacies, but presently these delicacies are becoming extinct since their breeding grounds are being destroyed by pollution from jettisoned oil, chemicals, and other foreign material so that the shore lines of San Mateo, Alameda, San Francisco, Marin, Santa Clara, Contra Costa, Solano and Napa Counties are almost devoid of their previously plentiful population of crabs, shrimps, and oysters; and

WHEREAS, The problem created by the continuous dumping of refuse and pollution into the water from various sources, including industrial plants, agricultural operations, and shipping facilities, is serious and deleterious to the best interests of the people of the San Francisco Bay area; and

WHEREAS, The oil, chemicals, and other foreign substances in the waters of San Francisco Bay are destroying the recreational value of the Bay and the surrounding beaches to the detriment of the health and welfare of the citizens of the area and of the whole State; and

WHEREAS, Although measures have been instituted which have alleviated to some extent the problem caused by dumping of raw sewage into such waters, other types of waste are continuing to be dumped into the Bay so that valuable game fish are being killed and obnoxious and unhealthful conditions of pollution are being created and maintained; and

WHEREAS, It appears that there is a deficiency in the present laws relating to water pollution control inasmuch as governmental agencies having jurisdiction in this field have been unable to successfully combat the serious threat to public health and safety by reason of continued pollution of the waters of the State, particularly in the San Francisco Bay area; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Interim Committee on Conservation, Planning, and Public Works is hereby authorized and directed to ascertain, study and analyze all facts relative to pollution of the waters of San Francisco Bay, the waters tributary thereto and other waters of the State, the causes thereof, and the desirability of or necessity for legislation for the prevention and abatement of such pollution, and to do such other things as are necessary to effectuate the purposes of this resolution, and to report thereon to the Assembly, including in its report its recommendations for appropriate legislation.
