There is presently an unprecedented population growth within the State and within the cities therein. With it has come an urgent need for housing and adequate commercial and industrial facilities in order to maintain a high level of employment and standards of living. This need has been countered by a tremendous increase in the number of both large and small parcels of land which are being subdivided every day throughout the State. It has also resulted in the greatly expanded use of laws which provide for certain improvements to be constructed pursuant to special assessments which are collected as taxes, thus enabling more rapid development than might otherwise be possible. The use of these laws and the ability to keep pace with growth has, however, been seriously restricted by the present requirement that a bond be filed or money paid in the full amount of such assessment before the final subdivision map may be recorded, notwithstanding the bondholder has already accepted the land as his sole source of security prior thereto. Bonds for a 10- to 25-year obligation may only be obtained from a few insurance companies and at prohibitive cost. It is necessary that subdivisions be able to develop as rapidly and economically as possible in order to assure the continued orderly development of the State."

### EXPLANATION OF VOTE ON ASSEMBLY BILL NO. 1173

In the event that new taxes become necessary, we feel that increased taxes on horse racing are justified. However, we voted "No" on Assembly Bill No. 1173 because we also feel that until the budget is presented to the Assembly for passage it cannot be determined what additional taxes may be required to carry on the necessary functions of government.

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Kilpatrick was granted unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal:

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO FOSTER HOMES AND ADOPTION

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, April 26, 1959

*Hon. Vernon Kilpatrick*
*Assembly Chamber*

**Foster Homes and Adoption—No. 13397**

DEAR MR. KILPATRICK: You have submitted to us three questions which we will answer in series:

*Question No. 1*

Is there a state interest in foster homes and adoption, and, if so, when did the State assume such interest.

*Opinion No. 1*

In our opinion, there is a state interest in foster homes and adoption The first adoption law was enacted in 1870, whereas the State has licensed foster homes for children since at least 1925.

*Analysis No. 1*

The State occupies the position of parens patriae and in that capacity has a continuing interest in the welfare of minor children within its

borders. It has been held by the courts that it is unquestionably a function of this power, as well as the duty of the State, to guide its helpless young, and it is competent for the Legislature to provide for the protection of children (*In re Weber,* 149 Cal. 392).

The Legislature has full power to regulate the adoption of children (*Estate of Stevens,* 83 Cal. 322; *Estate of Calhoun,* 44 Cal. 2d 378). Not only is the adoption law contained in the Civil Code purely of statutory origin, but the State licenses all agencies, public or private, which place children for adoption (W. & I. C. Secs. 1620, 1640). The first adoption law was enacted in 1870 (Stats. 1870, p. 530).

The State, through the State Department of Social Welfare, also licenses and regulates persons and organizations engaged in providing foster homes for children, although the state department is authorized to delegate this function to counties and cities (W. & I. C. Secs. 1620, 1622). This licensing function has existed since at least 1925 (See Stats. 1925, Ch. 18).

*Question No. 2*

To what extent does the State contribute to the foster home and adoption programs?

*Opinion and Analysis No. 2*

The State pays all administrative costs of the adoption program, after deducting such amounts as are paid in the way of fees by prospective adoptive parents (W. & I. C. Sec. 1641).

With respect to foster homes, the State pays each county or city which undertakes to license or regulate such homes on behalf of the State $65 for each new or renewal license granted (W. & I. C. Sec. 1622). The State does not pay for the costs of care for children placed in a licensed home, although the aid to needy children program is available for such children if they are qualified (W. & I. C. Secs. 1511, 1557).

*Question No. 3*

Did House Resolution No. 202 exceed the authority of the Assembly?

*Opinion No. 3*

In our opinion, House Resolution No. 202 did not exceed the authority of the Assembly.

*Analysis No. 3*

House Resolution No. 202 (Assembly Journal, p. 2460) directs the Assembly Standing Committee on Social Welfare to "ascertain, study and analyze all facts relating to social welfare and the administration by the State and counties of the social welfare program, including adoption procedures and practices and any and all other matters relating to the administration of the social welfare programs including but not limited to the operation, effect, administration, enforcement and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution. * * *"

There is no question as to the authority of each house of the Legislature to create committees, by resolution, to ascertain facts and to make recommendations as to any subject within the scope of legislative regulation or control. This authority is expressly conferred on both houses

of the Legislature by Article IV, Section 37 of the State Constitution. Since the subject of social welfare, as well as adoptions, are unquestionably subjects within the scope of legislative regulation or control, it would follow that the Assembly would not exceed its authority by adopting House Resolution No. 202.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By EDWARD K. PURCELL, Deputy

### PRAYER

The following prayer was offered by the Chaplain, Rev. R. Wilbur Simmons:

*O God*, Give to this Assembly an ideal of public service which is as broad as the needs of all California citizens. When the day-by-day routine settles down to a test of private perseverance and endurance, keep our eyes on the stars, and our feet on the ground of practical affairs, and may we find Thee, O God, in both places. Let nothing ever shatter the high purposes which we bring to the work of this Assembly. Even though our ideas do not prevail, and we sometimes feel helpless and frustrated, comfort us with the knowledge that no good effort is ever without some good effect, and that it is better to fail in a cause which must ultimately win, than to succeed in a program which is doomed to ultimate failure. Thy will be done, O God, now or later.—AMEN.

### REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

### COMMUNICATION FROM COMMITTEE ON LEGISLATIVE REPRESENTATION

ASSEMBLY, CALIFORNIA LEGISLATURE
SACRAMENTO, April 21, 1959

*Hon. Stanley Mosk*
*The Attorney General*
*Library and Courts Building, Sacramento*

DEAR GENERAL MOSK: As Chairman of the Special Assembly Committee on Legislative Representation I have been instructed by the committee to refer to you, as Chief Law Officer of the State and as the officer having direction and control of the State Bureau of Criminal Identification and Investigation the matters set forth below. Assemblyman Charles Edward Chapel, a member of this committee, has presented this material to the committee Before deciding whether to investigate these matters the committee desires to have your views as to whether the laws relating to influencing legislation (Gov. C. Secs. 9900-9911) or any other laws have been violated under such circumstances as to make criminal prosecution likely. The committee does not want to interfere in any way with any law enforcement proceeding which may result from the facts set forth herein.

The incident which gives rise to this request is reflected in three communications published in the Assembly Journal. The first of these is a letter written by Perry Taft, printed on pages 1712 and 1713 of the Assembly Journal for March 23, 1959, in which the author specifies he is interested in Assembly Bill No 1729 "because of my interest in the measure as California tax counsel for the National Automatic Merchandising Association," and in which he in effect solicits the initiation of a letter-writing campaign to defeat the bill.

The second communication is a letter to Assemblyman Chapel printed on page 1830 of the Assembly Journal for March 26, 1959. This letter

declares that Perry Taft was not registered as a legislative advocate for anyone except the Association of Casualty and Surety Companies.

The third communication is a statement of Assemblyman Chapel which is printed in the Assembly Journal for April 9, 1959, at pages 2258 to 2260, inclusive.

Copies of each of the Journals referred to above are enclosed for your convenience. The members of the committee recognize that you will be faced with the necessity of securing additional facts from various sources, and that this may take some time. However, they would appreciate being advised as to the results of your investigation at the earliest possible date.

Sincerely yours,

MYRON H. FREW, Chairman
Assembly Committee on
Legislative Representation

Encls.

### PRAYER

The following prayer was offered by the Chaplain, Rev. R. Wilbur Simmons:

*Almighty and Gracious God,* We pause to ask, what good are we doing here in this Assembly? Those who have left their mark on history have been, for the most part, those who have sought to lift the common man, whom Thou, O God, must love, having made so many. Help us not to be impatient that so much time and effort seem to be concerned with various needy segments of our society; enable us to see that here is our burden and our privilege, our chance to lift some load and carry more than our own weight. Make us honest enough not to pretend to love Thee whom we have not seen, if we love not these, our needy brethren, whom we have seen.—AMEN.

CONGRESS OF THE UNITED STATES
HOUSE OF REPRESENTATIVES
WASHINGTON, D C, April 24, 1959

*Mr. Arthur A. Ohnimus, Chief Clerk*
*Assembly, California Legislature*
*State Capitol, Sacramento*

DEAR ARTHUR: As I wrote you on April 13th, I referred a copy of Assembly Joint Resolution No. 9, relative to public inspection of crop allotment records in the State of California, to Secretary of Agriculture Benson, asking for his comments on the matter.

I am enclosing, for your information, a copy of the letter just received from the Department of Agriculture in reply to my inquiry.

With all good wishes,

Sincerely,

GLENARD P. LIPSCOMB, Member of Congress

Encl.

DEPARTMENT OF AGRICULTURE
WASHINGTON, D. C., April 23, 1959

*Hon. Glenard P. Lipscomb*
*House of Representatives*

DEAR CONGRESSMAN LIPSCOMB: This is in reply to your letter of April 13, 1959, to which was attached a copy of the Assembly Joint Resolution No. 9 adopted by the California State Legislature on March 25, 1959, relative to public inspection of crop allotment records in the State of California.

Our general policy is to make all records, not required by law to be kept confidential, available for inspection in each ASC county office. In some cases, however, the information is not made public until after a stated time. For example, the amount of any payment or loan to a farmer is not made public until 30 days after the amount has been received by him.

The basis for determining which acreage allotment and marketing quota records may be made public is contained in the Agricultural Adjustment Act of 1938, as amended. In this connection, Section 362 of the act provides in part as follows:

"All acreage allotments, and the farm marketing quotas established for farms in a county or other local administrative area shall, in accordance with regulations of the Secretary, be made and kept freely available for public inspection in such county or other local administrative areas."

Section 373 (c) of the same act provides

"All data reported to or acquired by the Secretary pursuant to this section shall be kept confidential by all officers and employees of the Department, and only such data so reported or acquired as the Secretary deems relevant shall be disclosed by them, and then only in a suit or administrative hearing under this title."

Section 344 (j) of the same act provides:

"Notwithstanding any other provision of this Act, State and county committees shall make available for inspection by owners or operators of farms receiving cotton acreage allotments all records pertaining to cotton acreage allotments and marketing quotas."

In formulating our regulations on availability of allotment records, we have complied with the above-cited provisions. The acreage allotments and marketing quotas established for each farm are available in ASC county offices to anyone; all records pertaining to cotton acreage allotments are available to cotton farmers; but other records acquired in connection with the administration of acreage allotment and marketing quota programs are available only in a suit or administrative hearing with respect thereto.

If we may be of further assistance to you in this matter, please let us know. The copy of the Assembly Joint Resolution No. 9 is returned herewith.

Sincerely yours,

MARVIN L. McLAIN, Assistant Secretary

Encl.

On page 1, strike out line 1, and insert

"SECTION 1. Section 135 of the Unemployment Insurance Code is amended to read:

135. "Employing unit," means any individual or type of organization, including any partnership, association, trust, estate, joint stock company, insurance company, corporation whether domestic or foreign, and the receiver, trustee in bankruptcy, trustee or successor thereof, and the legal representative of a deceased person, *and any public housing administration agency whether operated by state or local governmental subdivisions, this State, and every governmental entity as defined in subdivision (a) of Section 608*, which has, or subsequent to January 1, 1936, had, in its employ one or more individuals performing services for it within this State. All individuals performing services within this State for any employing unit which maintains two or more separate establishments within this State shall be deemed to be employed by a single employing unit for all the purposes of this division.

SEC. 2. Section 608 is added to said code, to read:

608. (a) For the purpose of this section, the term "governmental entity" means political subdivisions or instrumentalities of this State, the Regents of the University of California, and instrumentalities of one or more political subdivisions of this State.

(b) Effective on and after January 1, 1960, "employment" shall, for the purposes of this division, include services performed in the employ of the State of California and in the employ of any governmental entity. The State of California and every governmental entity shall be deemed to be an employer within the meaning of this division for the purpose of determining an individual's rights to benefits. The State Controller shall be considered the employer of persons performing services in the employ of the State and the comparable officer for each governmental entity shall be considered the employer of persons performing services in the employ of the governmental entity, for the purpose of performing the duties with respect to worker contributions prescribed by this division.

(c) In lieu of the contributions required of employers, the State and each governmental entity shall pay into the Unemployment Fund in the State Treasury at the times and in the manner provided in subdivision (d) of this section, an amount equal to the additional cost to the Unemployment Fund of the benefits paid with respect to state employment and employment for the governmental entity. The State shall pay its contribution, hereinafter referred to as the "State's contribution," from the General Fund and from each special fund Benefits otherwise payable irrespective of this section shall be charged to employers' accounts in accordance with other sections of this division, but the additional cost to the Unemployment Fund of the benefits paid pursuant to this section shall be borne solely by the State or by the appropriate governmental entity. If benefits are based on wages paid from two or more state funds, or by two or more governmental entities, or from one or more state funds and by one or more governmental entities, the benefits shall be borne by each of the state funds or governmetal entities in the proportion that the total wages paid to the individual in employment from each state fund or by each governmental entity bears to the total wages paid to the individual in employment from all state funds and by all governmental entities during the base period. "Total wages paid" as used in this subdivision includes taxable wages as well as wages which would be taxable except for the limitation on taxable wages provided under Section 930.

(d) In making the payments prescribed by subdivision (c) of this section, there shall be paid or credited to the Unemployment Fund, either in advance or by way of reimbursement, as may be determined by the director, such sums as he estimates the Unemployment Fund will be entitled to receive from the General Fund, from each special fund in the State Treasury, and from each governmental entity under this section for each calendar month, reduced or increased by any sum by which he finds that his estimates for any prior calendar month were greater or less than the amounts which should have been paid to the fund. Such estimates may be made upon the basis of such statistical

sampling, or other method as may be agreed upon by the State Controller and the director.

Upon making such determination, the director shall certify to the State Controller the amount so determined with respect to each such fund, which is hereby appropriated, and shall also certify to the comparable officer of each governmental entity the amount determined with respect to it On order of the State Controller, the State's contribution from the General Fund and from each special fund, pursuant to the determination, shall be transferred to the Unemployment Fund in the State Treasury. The contributions due from the governmental entities shall be paid to the Unemployment Fund by the appropriate governmental entity.

There is hereby appropriated monthly from the General Fund and from each special fund in the State Treasury an amount equal to the State's contribution payable from each such fund pursuant to this section.

(e) The director may require from each state agency, as the term "state agency" is defined in Section 11000 of the Government Code and from each governmental entity, such employment, financial, statistical, or other information and reports, properly verified, as may be deemed necessary by the director to carry out his duties under this division, which shall be filed with the director at the time and in the manner prescribed by him.

(f) The director may tabulate and publish information obtained pursuant to this section in statistical form and may divulge the name of the state agency or governmental entity.

(g) Each state agency and governmental entity shall keep such work records as may be prescribed by the director for the proper administration of this division.

(h) For the purposes of this section, with respect to unemployment compensation benefits an individual shall be entitled to credit for wages paid for service in the employ of the State of California and governmental entities for periods prior to the effective date of this section which shall constitute "wages for employment by employers," but shall not be entitled to such credit with respect to disability benefits. The State's contribution and contributions from the appropriate governmental entities shall be required as to the additional cost to the Unemployment Fund for credits allowed under this subdivision.

(i) Except as inconsistent with the provisions of this section, the provisions of this division and authorized regulations shall apply to any matter arising pursuant to this section.

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Lowrey was granted unanimous consent that the following letter be ordered printed in the Journal:

## COMMUNICATION FROM STATE BOARD OF EQUALIZATION

OFFICE OF STATE BOARD OF EQUALIZATION
STATE OF CALIFORNIA
SACRAMENTO, April 24, 1959

*Hon. Lloyd W. Lowrey*
*Assemblyman, Third District*
*State Capitol, Sacramento*

DEAR MR. LOWREY: Several weeks ago, you requested from Mr. Travis and myself information concerning exemption of public utilities from sales and use tax. Since there is no specific exemption of public utilities from the 3 percent state tax, we assume that you are interested in the 1 percent local tax exemption under the provisions of the Bradley-Burns Uniform Local Sales and Use Tax Law.

As you know, the Bradley-Burns Law permits counties and cities to enact local tax ordinances which are administered under contracts with the Board of Equalization. Such ordinances are required to contain two separate special exemptions not found in the State Sales and Use Tax Law. The first of these is an exemption from *sales* tax and applies only where the purchaser is the operator of a common carrier or a waterborne vessel and the property is to be used or consumed in the operation of such common carrier or waterborne vessel. The second exemption is one from *use* tax and applies only if the purchaser is a public utility regulated by the California Public Utilities Commission and will use the property directly in the transmission of communications, the transportation of persons or property, the generation, transmission or distribution of electricity, or the manufacture, transmission, or distribution of gas.

Those companies which can qualify for both the common carrier sales tax exemption and the public utility use tax exemption are able to purchase merchandise free of local tax. Examples of companies which qualify are railroads, intercity bus lines, some airlines, some truck companies, and a small number of water carriers. The principal reasons that some of the carriers do not qualify for those exemptions are either that the company is engaged exclusively in interstate or foreign commerce and is, therefore, not regulated by the Public Utilities Commission, or that the company is regulated by the Public Utilities Commission but not as a public utility.

Among the types of businesses which might qualify for the public utility use tax exemption, but not for the common carrier sales tax exemption, are electric, gas, and telephone companies. The local sales tax will apply to purchases by such companies unless a purchase is made from a retailer whose place of business is in one of eight counties (seven after July 1, 1959, which will account for only around 3½ percent of all sales subject to the state tax) which do not have a state-administered local tax in effect, or if the purchase is made under a contract which provides that the merchandise will be shipped to the purchaser from an out-of-state point with title passing at the out-of-state point.

It is interesting to note that at the time the Bradley-Burns Law was under consideration by the Legislature, and the public utility use tax exemption was inserted, a major reason advanced in favor of the exemption was the large bookkeeping expense which would be necessary to determine the place of use of the vast quantities of merchandise purchased by the large utilities for use in their far-flung systems We have had several examples, however, of public utilities apparently attempting to vary their normal purchasing practices in order to take advantage of the exemption. In some instances, the utilities attempt to provide for shipment from a point outside California, with title passing at the out-of-state shipping point, whereas, before the Bradley-Burns Law, the utility might have been content to have the merchandise shipped from a point in California. Many of their purchases are made from large national firms which have offices and warehouses both in California and elsewhere. We have noted one case where a public utility attempted to alter what would normally be considered a construction contract to provide that the contractor would sell the materials to the public utility with title passing at an out-of-state shipping point, and the utility would then hire the contractor to install the materials at a site in California.

It is difficult to measure the amount of state-administered local use tax which is lost to conforming counties and cities by reason of the public utilities exemption provided by the existing statute. No provision has been made for accumulating that information in our records We have, however, made a study based upon an analysis of tax returns filed for reporting periods ended December 31, 1958, together with an examination of records of recognized major suppliers of electric, gas, and telephone companies. The data so obtained indicate that the local use tax exemption enjoyed by public utilities is not less than $1,250,000 per year. The maximum figure could be in excess of $2,000,000.

It is even more difficult to measure the amount of local sales and use tax which is lost to local jurisdictions by reason of the exemption from county sales tax and city sales and use taxes provided the operators of common carriers and waterborne vessels. Nevertheless, we have compared the total local sales tax base of all conforming jurisdictions with the State's base in the same counties from the inception of the program in each county. Under this approach, we established that the local bases are approximately 2½ percent lower than the State's base in the same counties. While this difference is not entirely attributable to these two exemptions, we have every reason to believe that at least three-fourths

of the difference is directly attributable to the exemptions discussed herein. Consequently, we suspect that the loss of local sales tax revenue resulting from these exemptions presently amounts to at least $3,000,000 a year and could possibly be as high as $4,000,000 annually.

We trust that the above information is that which you require. Please inform us if we can be of further assistance.

Respectfully yours,

RONALD B. WELCH, Assistant Executive Secretary

### PRAYER

The following prayer was offered by the Chaplain, Rev. R. Wilbur Simmons:

*Almighty God, Source of All Being,* Thou hast not created our world, set it spinning, and gone off and forgotten it. As we remember that, our labors in this Assembly take on a new dimension, for we know that a power greater than man is moving in the direction of a more perfect order. There is always a chance that Thou wilt include some word or thought of ours as Thou dost shape eternity. We may not see the connection, but we may believe it is there, if we have opened our hearts to the prompting of Thy Holy Spirit. Use us, in Thy divine plan, we humbly pray.—AMEN.

(a) Employees shall have the right to self-organization, to form, join or assist labor organizations, to bargain collectively through representatives of their own choosing, and to engage in other concerted activities for the purpose of collective bargaining or other mutual aid or protection.

(b) Whenever a majority of the employees in a unit appropriate for collective bargaining indicate a desire to be represented by a labor organization, the agency, upon determining as provided in subsection (f) of this section that such labor organization represents the employees in the appropriate unit, shall enter into a written contract with the accredited representatives of such employees governing wages, salaries, hours and working conditions.

(c) In case of a dispute over wages, salaries, hours or working conditions which is not resolved by negotiations in good faith between the agency and the labor organization, upon the agreement of both, the employing public agency and the labor organization may submit the dispute to the decision of the majority of an arbitration board, and the decision of the majority of such arbitration board shall be final.

(d) The arbitration board shall be composed of two representatives of the agency, and two representatives of the labor organization, and they shall endeavor to agree upon the selection of the fifth member. If they are unable to agree, the names of five persons experienced in labor arbitration shall be obtained from the Supervisor of

Conciliation of the Division of Conciliation, Department of Industrial Relations. The labor organization and the agency shall, alternately, strike a name from the list so supplied, and the name remaining after the labor organization and the agency have stricken four names, shall be designated as the arbitrator. The labor organization and the agency shall determine by lot who shall first strike from the list. The decision of a majority of the arbitration board shall be final and binding upon the parties thereto. The expenses of arbitration shall be borne equally by the parties. Each party shall bear his own costs.

(e) No contract or agreement shall be made with any labor organization, association, group, or individual, or be assumed under the provisions of this chapter, where such organization, association, group, or individual denies membership to or in any manner discriminates against any employee on the grounds of race, creed, color or sex; except that such organization may preclude from membership any individual who advocates the overthrow of the government by force or violence. The agency shall not discriminate in regard to employment against any person because of his race, creed, or color.

(f) If there is a question whether a labor organization represents a majority of employees or whether the proposed unit is or is not appropriate, such matters shall be submitted to the State Conciliation Service for disposition. The State Conciliation Service shall promptly hold a public hearing after due notice to all interested parties and shall thereupon determine the unit or units appropriate for the purposes of collective bargaining. In making such determination and in establishing rules and regulations governing petitions, the conduct of hearings and elections, the State Conciliation Service shall be guided by relevant federal law and administrative practice, including but not limited to the self-determination rights accorded crafts or classes in the Labor Management Relations Act, 1947, and the Railway Labor Act.

The State Conciliation Service shall provide for an election to determine the question of representation and shall certify the results to the parties. Any certification of a labor organization to represent or act for the employees in any collective bargaining unit shall not be subject to challenge on the grounds that a new substantial question of representation within such collective bargaining unit exists until the lapse of one year from the date of certification or the expiration of any collective bargaining agreement, whichever is later; except that no collective bargaining agreement shall be construed to be a bar to representation proceedings for a period of more than two years."

## CONSIDERATION OF HOUSE RESOLUTION NO. 220

By Messrs. Masterson, Waldie, Biddick, Lunardi, Bee, Crown, Dahl, Mulford, Petris, and Rumford:

**House Resolution No. 220**

Relative to the solving of the water problems of the East Bay area

WHEREAS, The increasing population and the rapidly expanding economy of the East Bay area of the State require additional water supplies to meet its needs; and

WHEREAS, The East Bay Municipal Utility District, a public service agency, had for years made plans for the transport of these needed water supplies from the watershed of the Mokelumne River within the Counties of Amador and Calaveras, and had requested the State of California to assign to it certain State filings on these waters; and

WHEREAS, In their best judgment and in the interests of their citizens, these counties and the County of San Joaquin engaged in litigation to forestall the assignment of State filings to the East Bay Municipal Utility District until such time as the counties could be assured that the interests of their citizens and their own economies were properly and adequately protected; and

WHEREAS, By mutual agreement the East Bay Municipal Utility District and the counties have provided that the East Bay Municipal Utility District grant to the Counties of Amador and Calaveras each the sum of two million dollars to be used for the future development of water supplies in these counties, and the State reserve to these two counties certain amounts of water for the beneficial use within these counties, and has assured the County of San Joaquin an adequate supply of water, and

WHEREAS, As a result of this mutual agreement, the counties have dismissed their litigation, thus enabling the East Bay Municipal Utility District to proceed with its plan for meeting the needs of the communities it serves; and

WHEREAS, The State Director of Water Resources at all times extended his advice and co-operation to all parties and approved the agreement which was reached; and

WHEREAS, The arrangement meets the needs of the counties of origin as well as those of the area needing an additional water supply without recourse to legislation or the use of state funds or credit, thus establishing a pattern for mutual co-operation in the development and utilization of the State's water resources; now, therefore, be it

*Resolved by the Assembly of the State of California*, That the Counties of Amador, Calaveras and San Joaquin, the East Bay Municipal Utility District and the State Director of Water Resources be commended for their diligence, patience and success in the settlement of the problem presented, and their great contribution to the public interest in making possible the development of these water resources to serve the needs of the counties wherein the water originates and those essential to the further development of the area served by the East Bay Municipal Utility District; and be it further

*Resolved*, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the Counties of Amador, Calaveras and San Joaquin, the East Bay Municipal Utility District and the Director of the State Department of Water Resources.

Resolution read, and adopted unanimously.

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Miss Donahoe was granted unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal:

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO CHILD CARE CENTER PERSONNEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, April 29, 1959

*Hon. S. C. Masterson*
*Assembly Chamber*

*Child Care Center Personnel (Assembly Bill No. 579 as Amended April 16, 1959)—No. 13722*

*Question*

DEAR MR. MASTERSON. You ask whether Assembly Bill No 579, as amended April 16, 1959, places "teachers" in child care centers in the same category as cafeteria workers in child care centers.

*Opinion*

No. The two types of employees are already in the same legal category —that of noncertificated employees. The bill would affect all noncertificated employees by requiring the establishment in each district of a classified service consisting of all noncertificated employees, except those in part-time and certain other types of positions.

*Analysis*

Section 19611 of the Education Code* provides:

> "Each person employed by a school district in a child care center under the provisions of this chapter shall be deemed for all purposes, including retirement, to be a person employed by the school district in a position not requiring certification qualifications, except that he shall not be subject to the provisions of Article 5 of Chapter 13 of Division 7 of this code."

Hence, under the present existing law all persons employed in a child care center are noncertificated employees of a school district, except that such employees are not subject to the merit system established by any district for noncertificated employees. This noncertificated status applies to all child care center employees whether they are employed for cafeteria duties or duties which involve the direct supervision of the children admitted to the center, that is as "teachers." A person who is employed in a child care center to supervise the children and who may actually have teacher training and be qualified for employment as a teacher is nonetheless a noncertificated employee and is, under the existing law, deemed to be a noncertificated employee with the same status, for the purposes of the Education Code, as a cafeteria worker or any other noncertificated employee except that child care center employees are not subject to district merit systems. Such a person does not, for the purposes of the Education Code, have the status of a certificated employee such as a

* Sec 16626 of Education Code, as enacted at 1959 Reg Sess

person employed by a district to teach in the regular day schools of the district.

Hence, where the Education Code provides that a certain provision is applicable to certificated employees, that provision does not now apply to any person employed in a child care center, whether as a cafeteria worker, as a supervisor or "teacher" of the children in the center; when the code provides that a certain provision applies to noncertificated employees, those provisions apply to all child care center employes (except the district merit system provision) whether the child care center employee is a cafeteria worker or a "teacher."

Assembly Bill No. 579 provides in part that the governing board of a school district shall employ persons for positions not requiring certification qualifications (noncertificated employees) and shall classify the employees and the positions, and that such employees and positions shall be known as the classified service. The bill would exempt certain types of employees from the classified service. (Sec. 13581, to be added by Assembly Bill No. 579). The main effect of this provision is to establish a "classified service" consisting of all noncertificated employees except substitutes and short term employees, part-time playground employees, part-time student employees, and apprentices and professional experts employed on a temporary basis for a specific project.

In our opinion the bill would affect the "teachers" (that is, the persons employed to supervise the children) in a child care center to the same extent and on the same basis as it would affect child care center cafeteria workers or any other noncertificated employee of a school district. The child care center cafeteria workers and "teachers" and all of the noncertificated district employees would, under the bill, be included in the classified service of the employing district if they do not fall within one of the excluded classes of employees.

Hence the bill would not *place* the child care center "teachers" in the same category as the cafeteria workers. The two types of employees are already in the same legal category—that of noncertificated school district employee. The bill would affect all noncertificated employees on the same basis.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By BARBARA COCHRANE CALAIS, Deputy

Two copies to Hon. Dorothy M. Donahoe pursuant to Joint Rule No. 34.

Relating to veterans and their dependents

WHEREAS, The State of California, by the enactment of Section 699.5 of the Military and Veterans Code in 1943, instituted a program of assisting war veterans and their dependents in pursuit of their governmental benefits, and has continued this program since that date; and

WHEREAS, The Veterans Administration, as a branch of the Federal Government, cannot prosecute claims against itself and the Veterans Administration cannot and should not be allowed to act as prosecutor, judge and jury; and

WHEREAS, No veteran's benefits are automatically adjudicated, necessitating filing of claims, supported by carfeully compiled evidence and representation before constituted authority or boards by accredited representative of veteran's choice from veterans' organizations empowered by the Congress of the United States to act as the veteran's qualified and accredited attorney-in-fact before the Veterans Administration; and

WHEREAS, The State of California since the inception of this legislation has under agreement reimbursed the veterans' organizations under contract with the State for services rendered for the mutual benefit of State and veteran in the recovery of millions of dollars, which has contributed greatly to the general welfare of needy veterans and their dependents and in turn to the general economy of our State; and

WHEREAS, The State of California has in furtherance of this legislation also contributed to the counties of this State which maintain county service officers in administering provisions of state law in assisting veterans in recovery of just benefits due from the Federal Government as the result of military service in the armed forces of the United States in defense of our Nation; and

WHEREAS, Numerous disputes and conflicts have arisen, and will continue to arise in the future, causing infinite harm to the cause of all health and social agencies to the effect that public esteem for such agencies will sink lower and lower, now, therefore, be it

*Resolved by the Assembly of the State of California*, That in the best interest of the public health and welfare, it is hereby declared to the public policy of this State, that a policy of home rule be allowed, permitting a local community, or county unit of fund-raising agencies to decide for itself, the best manner and method to raise funds to support needed services and all state fund-raising agencies are hereby advised and instructed to cease and desist from forcing or coercing any local, community, or county unit from participating in any United Fund or Community Fund Drive; and be it further

## SUBCOMMITTEE LETTER OF TRANSMITTAL

ASSEMBLY, CALIFORNIA LEGISLATURE
SACRAMENTO, March 16, 1959

*Hon. Bruce F. Allen, Chairman*
*Assembly Interim Committee on Judiciary*
*California Legislature*
*State Capitol, Sacramento*

DEAR MR. ALLEN: Pursuant to your directive and in conformance with the provisions of House Resolution No. 224 of the 1957 General Session, the Subcommittee on Pornographic Literature herewith submits its report.

The subcommittee has held extensive hearings during the interim period on the subject of obscene and pornographic literature and pictures. We sincerely invite and urge you, the Members of the Assembly Interim Committee on Judiciary, the Members of the Legislature, and the public to join with the subcommittee in sponsoring and enacting legislation in this important field.

March 13, 1959

RICHARD T. HANNA

March 13, 1959

I hereby accept the attached report of the Subcommittee on Pornographic Literature of the Assembly Interim Committee on Judiciary.

LOUIS FRANCIS, Chairman
HOWARD J. THELIN

The law at the time of the writing of this report, outlaws the selling of obscene publications. If objectionable material is sold, it is not because of a weakness of the law, but because the present law is not being enforced, and the present law certainly should be enforced. I respectfully feel that censoring material which is not clearly obscene invites a loss of our cherished American freedom. There is a tendency in this report to increase the power of law enforcement officers to censor; past experience would dictate that such censorship would vary considerably from community to community. The publication of "hard core" obscenity is already outlawed, and I am not in favor of any relaxation of this present law. It would seem clear that the best recourse against borderline material is good reading habits encouraged by a healthy family background. To do otherwise, is to invite much censorship where it is not required and to encourage legislative invasion into local areas. There is nothing at the present time to prevent cities from passing ordinances as they see fit to cover activities in this field

ROBERT W. CROWN

### PRAYER

The following prayer was offered by the Chaplain, Rev. R. Wilbur Simmons:

*God of our Founding Fathers*, If, in meeting deadlines, or for other reasons we are ever inclined to neglect prayer, remind us that during a crisis in the Constitutional Convention Benjamin Franklin spoke these words: "We have been assured, sir, in the sacred writings, that except the Lord build a house they labor in vain that build it. I firmly believe this; and I also believe that without His concurring aid we shall succeed in this political building no better than the builders of Babel. I therefore beg leave to move that henceforth prayers asking the assistance of heaven and its blessings on our deliberations be held in this Assembly every morning before we proceed to business."

Give to us in 1959 that same sense of the necessity and the power of prayer. —AMEN.

CONGRESS OF THE UNITED STATES
HOUSE OF REPRESENTATIVES
WASHINGTON, D. C., April 27, 1959

*Mr. Arthur Ohnimus*
*California State Legislature*
*State Capitol, Sacramento*

DEAR ARTHUR: I am enclosing herewith a letter from Assistant Secretary of Agriculture Marvin McLain with respect to my inquiry of the Secretary based on Assembly Resolution No. 9.

I trust that this information is valuable to the Assembly.

Sincerely,

HARLAN HAGEN, Member of Congress

Encl.

DEPARTMENT OF AGRICULTURE
WASHINGTON, D. C., April 24, 1959

*Hon. Harlan Hagen*
*House of Representatives*

DEAR CONGRESSMAN HAGEN: This is in reply to your letter of April 13, 1959, with reference to Assembly Resolution No 9 passed by the Assembly and Senate of the California State Legislature relative to public inspection of crop allotment records in the State of California.

Our general policy is to make all records, not required by law to be kept confidential, available for inspection in each ASC county office. In some cases, however, the information is not made public until after a stated time. For example, the amount of any payment or loan to a farmer is not made public until 30 days after the amount has been received by him.

The basis for determining which acreage allotment and marketing quota records may be made public is contained in the Agricultural Adjustment Act of 1938, as amended. In this connection, Section 362 of the act provides in part as follows:

> "All acreage allotments, and the farm marketing quotas established for farms in a county or other local administrative area shall, in accordance with regulations of the Secretary, be made and kept freely available for public inspection in such county or other local administrative areas."

Section 373(c) of the same act provides:

> "All data reported to or acquired by the Secretary pursuant to this section shall be kept confidential by all officers and employees of the Department, and only such data so reported or acquired as the Secretary deems relevant shall be disclosed by them, and then only in a suit or administrative hearing under this title."

Section 344 (j) of the same act provides:

> "Notwithstanding any other provision of this Act, State and county committees shall make available for inspection by owners or operators of farms receiving cotton acreage allotments all records pertaining to cotton acreage allotments and marketing quotas."

In formulating our regulations on availability of allotment records, we have complied with the above-cited provisions. The acreage allotments and marketing quotas established for each farm are available in ASC county offices to anyone; all records pertaining to cotton acreage allotments are available to cotton farmers; but other records acquired in connection with the administration of acreage allotment and marketing quota programs are available only in a suit or administrative hearing with respect thereto.

If we may be of further assistance to you in this matter, please let us know.

Sincerely yours,

MARVIN L McLAIN, Assistant Secretary

Any vacancy in the office of judge of a justice court shall be filled by appointment by the board of supervisors of the county in which the justice court is situated, but no vacancy shall be deemed to exist in any such office before the time fixed in Section 71080 for the selection of the judges of such court and the time fixed by law for their qualification. The appointee shall hold office until his successor is elected and qualifies.

A successor to such appointee shall be elected at the next general state election after the first day of January next succeeding the occurrence of the vacancy, unless the vacancy occurs in a year in which a general state election is held at which a person is elected, in the same manner as he would have been elected had the vacancy not occurred, to fill the office for the ensuing full six-year term and such person actually qualifies and takes office at the commencement of the term for which he was elected. The elected successor shall hold office for the duration of the unexpired term of the person originally creating the vacancy, unless the election at which the successor is elected is the election at which, had the vacancy not occurred, a person would have been elected to the office of judge for a full six-year term, in which case the elected successor shall hold for the full six-year term and until his successor is elected and qualifies.

If the office to which any person so appointed was not previously occupied, he shall hold office until his successor is elected at the general state election next succeeding the occurrence of the vacancy and qualifies. ### PRAYER

The following prayer was offered by the Chaplain, Rev. R. Wilbur Simmons:

*Gracious God,* We would see all of life, and see it whole. We confess that for the sake of comfort and clarity we have too often divided life into compartments, separating religion from politics, and humanitarianism from economic practice. We have occasionally relegated religion to one day in seven, and have sometimes seemed to feel that tenderness is weakness except in the area of the home and family. Enable us to see that there is no spot in society where love and truth are not needed, and that there is no compartment in our own lives which is immune, and that the darker the corner, the greater is the need for Thy light and love.—AMEN.

Chief Clerk Arthur A. Ohnimus at the Desk

STATE OF CALIFORNIA
DEPARTMENT OF WATER RESOURCES
SACRAMENTO, May 1, 1959

*Hon. Arthur A. Ohnimus*
*Clerk of the Assembly*
*State Capitol, Sacramento*

DEAR MR. OHNIMUS: I have the honor to transmit herewith for the information of the California State Assembly a copy of the report of the Department of Water Resources entitled, "State Water Right Applications for Unappropriated Water, Assignments Thereof, Reservations for the Counties of Origin, and Other Related Matters," dated January, 1959. ### RESOLUTIONS

The following resolution was offered:

By Mr. Lunardi:

**House Resolution No. 239**

Relative to a study of the Lake Tahoe fish resource

WHEREAS, Lake Tahoe at one time supported very large populations of native game fishes, consisting principally of the Lahontan cutthroat trout (*Salmo clarkii henshawi*) and the mountain whitefish (*Coregonus williamsoni*). The cutthroat trout were sufficiently numerous to support an important commercial fishery, with thousands of pounds shipped from the lake annually. Both the cutthroat trout and the whitefish have now disappeared completely from the lake; and

WHEREAS, All indications are that game fish are far less abundant in Lake Tahoe than they once were, both in numbers and in weight. The causes of the apparent decline in abundance are not known and are difficult even to guess on the basis of available information; and

WHEREAS, It also appears that Lake Tahoe, because of its great area and volume, combined with a rapidly increasing resident population and great numbers of summer visitors, offers a tremendous opportunity for development of sport fisheries; now, therefore, be it

*Resolved by the Assembly of the State of California*, That the State Department of Fish and Game is requested to make a thorough and extensive study to discover some means of producing good fishing in Lake Tahoe at a reasonable cost. This study shall include the testing of the most promising management methods, and an analysis of the physical and biological changes which have taken place. In order to obtain this objective, the following should be done:

(a) Determine the approximate production of game fish in past years, from an analysis of published records, and the present production of the lake, by creel census. The purpose here would be to get some idea of the potential fish production, and how much of it is now being realized.

(b) Test the possibilities of stocking large numbers of trout of various strains.

(c) Study the interrelationships of game and forage species, and the food chains of the game fish, with the hope of finding possibilities for introducing new forage species which would increase the production of game fish.

(d) Test the importance of lake tributaries to the sport fisheries. The lake tributaries provide some trout and forage species with a place to spawn. With increasing use of water it may be difficult to maintain suitable flows in the tributaries.

(e) Carry out chemical and limnological sampling as necessary to provide a clear picture of the interrelationships of the fishes present and various facets of their environment; and be it further

*Resolved*, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the Director of the State Department of Fish and Game

Resolution read, and referred to the Committee on Rules.

## MESSAGES FROM THE GOVERNOR

The following messages from the Governor were received, and read:

### Veto Message Concerning Assembly Bill No. 863

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 4, 1959

*To the Honorable Members of the Assembly*
*State of California*
*Sacramento*

GREETINGS: I am returning, herewith, without my signature,

**Assembly Bill No. 863** entitled: "An act to amend Section 5024 of the Streets and Highways Code, relating to the Improvement Act of 1911."

My objections to this bill are as follows:

The purpose of this measure is to clarify the fact that attorney's fees in proceedings under the Improvement Act of 1911 are properly includable as "incidental expenses."

I have previously approved another bill (Assembly Bill No. 543, now Chapter 158) amending the same section of the 1911 Improvement Act. The changes in the law made by Assembly Bill No. 543 were not incorporated in Assembly Bill No. 863 when it was under consideration by the Legislature, so the present measure cannot be approved without nullifying the amendments made by the bill previously approved

I have no objection to the present bill on its merits, and my veto is based solely upon the failure of Assembly Bill No. 863 to include the changes in Streets and Highways Code Section 5024 previously made by Assembly Bill No. 543. The deficiencies in the form of Assembly Bill No. 863, as enacted by the Legislature, have been discussed with the author. He has stated that he will introduce legislation that will correct the errors in draftsmanship inherent in the measure which I am disapproving.

I am, therefore, returning Assembly Bill No. 863 without my signature.

Respectfully submitted,

EDMUND G. BROWN, Governor

Assembly Bill No. 863 ordered to the unfinished business file.

**Veto Message Concerning Assembly Bill No. 242**

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 4, 1959

*To the Honorable Members of the Assembly*
*State of California*
*Sacramento*

GREETINGS: I am returning, herewith, without my signature,

**Assembly Bill No. 242** entitled: "An act to amend Section 14058 of the Health and Safety Code, relating to nomination of fire commissioners."

My objections to this bill are as follows:

Assembly Bill No. 242 would amend Section 14058 of the Health and Safety Code, which now provides that if on the fortieth day prior to a general election in a recreation and park district only one person has been nominated for each of the positions to be filled at the election, or no person has been nominated, and a petition signed by 5 percent of the voters requesting that the election be held has not been presented to the district board, an election shall not be held. The bill would change the time for making these determinations from the fortieth to the fifty-fourth day before the election.

If the bill is enacted, the provision relating to the circulation of a petition will become meaningless, since there would be *no time between the final date for filing nomination papers and the determination of whether or not an election shall be held in which to circulate such a petition.*

This discrepancy has been discussed with the author, and he concurs in the objections herein set forth.

I am, therefore, returning Assembly Bill No. 242 without my signature

Respectfully submitted,

EDMUND G. BROWN, Governor

Assembly Bill No. 242 ordered to the unfinished business file.

**Veto Message Concerning Assembly Bill No. 199**

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 4, 1959

*To the Honorable Members of the Assembly*
*State of California*
*Sacramento*

GREETINGS: I am returning, herewith, without my signature,

**Assembly Bill No. 199** entitled: "An act to amend Section 5781.10 of the Public Resources Code, relating to election of directors of recreation and park districts"

My objections to this bill are as follows:

Assembly Bill No. 199 would amend Section 5781.10 of the Public Resources Code, which now provides that if on the sixteenth day prior to a general election in a recreation and park district only one person has been nominated for each of the positions to be filled at the election, or no person has been nominated, and a petition signed by 5 percent of the voters requesting that the election be held has not been presented to the district board, an election shall not be held. The bill would change the time for making these determinations from the sixteenth to the sixtieth day before the election

If the bill is enacted, the provision relating to the circulation of a petition will become meaningless, since there would be *no time between the final date for filing nomination papers and the determination of whether or not an election shall be held in which to circulate such a petition.*

This discrepancy has been discussed with the author and he concurs in the objections herein set forth.

I am, therefore, returning Assembly Bill No. 199 without my signature.

Respectfully submitted,

EDMUND G. BROWN, Governor

Assembly Bill No. 199 ordered to the unfinished business file.

My objections to this bill are as follows:

Assembly Bill No. 753 would amend Section 14058 of the Health and Safety Code, which now provides that if on the fortieth day prior to a general election in a recreation and park district only one person has been nominated for each of the positions to be filled at the election, or no person has been nominated, and a petition signed by 5 percent of the voters requesting that the election be held has not been presented to the district board, an election shall not be held. ## ADVISORY COMMITTEE ON MOTOR VEHICLE LEGISLATION
## AUTOMOTIVE SMOG CONTROL COMMITTEE

Following are some of the major points brought out by the several technical men during the course of subcommittee meetings:

*Motor Vehicle as "Smog" Contributor*

There is fairly general agreement that the motor vehicle is the principal source of hydrocarbons and oxides of nitrogen which form smog in the Los Angeles area. It was stated that automobiles and trucks constitute 80 percent of the problem in the Los Angeles area. In Los Angeles the motor vehicle produces about 95 percent of the olefinic hydrocarbons in the air and 65 percent of the nitric oxides. It was further stated that it will be impossible to control smog without controlling the motor vehicle. The problem is less than 80 percent of the pollution problem in the Bay area only because there are other sources not yet controlled as in Los Angeles. Only one qualification might be added to the statement of general agreement about the contribution

which the motor vehicle makes to air pollution. The automobile manufacturers concede that the motor vehicle is the principal uncontrolled source of air pollution in the Los Angeles area, but feel that the relative importance of automobile emissions in other areas may be different from the situation in the Los Angeles area. They point out, apparently with some justification, that research of the same magnitude as in Los Angeles has not been carried on in other locations. It would seem reasonable to assume that if hydrocarbons and oxides of nitrogen are irritating to crops and human beings in one location, they would be similarly irritating in other locations. Any difference in results might be due to differences in quantity or concentrations of such pollutants.

*Effects Upon Health*

There is also general agreement that the long-term effects of "smog" upon public health are indefinite. There is presently no conclusive evidence regarding the health problem.

It is known, of course, that smog affects the senses of human beings by producing eye irritation and some other discomforts, but the question of whether there is actual health impairment, the extent of any such impairment, and the concentrations of air pollutants which might result in actual health impairment have not been determined.

*Need for Research*

It was urged by practically every expert in the field that additional research be conducted both on the precise nature of smog and on the medical or health aspects of smog. It is clear that there are many technical questions in both of these fields which have yet to be answered.

*Establishing Standards for Maximum Concentrations of Certain Air Pollutants*

It is generally agreed that the first step which can be taken toward alleviating the smog problem would be the establishment of standards governing the maximum concentrations of certain air pollutants.

This initial step is far from simple because we are dealing not only with the pollutants which might be emitted from the exhaust of a single motor vehicle, but also with the entire atmosphere of a particular area —which might be called "the community air."

As an illustration, carbon monoxide is a part of the motor vehicle exhaust. For a person to be exposed to this emission in a closed garage for a limited period of time would prove fatal. On the other hand, adverse effects of carbon monoxide are not noticeable in the Los Angeles Basin area even though there are millions of cars operated there. What, then, should be the standard applicable to emissions of carbon monoxide from a motor vehicle?

What, also, should be the standards applicable to emissions of hydrocarbons and oxides of nitrogen which produce objectionable results only at certain times and in the presence of sunlight?

During subcommittee meetings it was stated that as of the present time, no group could sit down and establish satisfactory standards concerning emissions from automobile exhausts. However, it was generally agreed that the State Department of Public Health should undertake the research and other basic work necessary to develop such standards as soon as possible on the basis of present knowledge.

*Motor Vehicle Exhaust Control Devices*

It was pointed out that there are several devices in the preliminary stages of development. There is one device which is better than 90 percent effective in removing hydrocarbons from motor vehicle exhausts. However, this device must have additional developmental engineering and testing.

There are problems to overcome in developing a satisfactory device—such problems as excessive heat, maintenance, noise, odor, as well as cost. It was also stated that future devices will undoubtedly be developed that will make the present devices obsolete. Such is the status of present devices.

*Inspection of Motor Vehicles*

It was indicated that if any devices are installed upon motor vehicles to control emission of air pollutants, such devices would have to be inspected periodically to determine their effectiveness. This, of course, contemplates devices of a type which have been developed thus far, although future research might develop a device which would last the life of the car. At the present time the experts are hopeful of a device which would be at least 90 percent effective in removing hydrocarbons for 30,000 miles of operation without replacement, although catalysts, if required, might require replacement every 12,000 miles.

Some experts feel that the technical problems of heat, odor, warm-up time, etc. can be solved but look upon the establishment of an inspection system as perhaps the most difficult problem of all.

This is because an inspection program aimed at testing of hydrocarbon or other exhaust emissions would create problems completely new and never before encountered in any inspection system. There would, for example, be the initial problem of manufacturing testing equipment to be used in inspection stations. Such equipment is not now available in the quantities which would be required. The establishment of inspection stations, training of personnel and obtaining of proper equipment to test and inspect approximately eight and a half or nine million vehicles in the State of California is unquestionably a major problem and would be extremely costly. Some doubt the effectiveness of an inspection system.

*Maintenance of Motor Vehicles*

There was also discussion of a "tune-up" or maintenance program for motor vehicles; possibly coupled with an inspection system to check proper maintenance of all vehicles.

All of the problems attendant with establishment of an inspection system, of course, would be present if such a program were undertaken.

As to the effectiveness of such a program, estimates made by the various experts ranged from 10 percent to 30 percent reduction of hydrocarbon emission. This was described as the maximum reduction which could be hoped for under a semiannual system of inspection.

While proper maintenance of a vehicle may help in reducing the smog forming exhaust emissions, to make any appreciable improvement would entail in some instances complete replacement of a vehicle's electrical system, replacement of battery and various other major

tuneup adjustments. There is no assurance that such a tuneup would last and be effective for more than perhaps a month or six weeks.

*Geographic Problems*

It was brought out in subcommittee discussion that there are many problems which arise because of variations in the air pollution problem among various sections of the State. This is applicable to the setting of standards, the use or requirement of a device and the general problem of the health effects of air pollution.

It was pointed out that metropolitan areas which contain perhaps 80 percent of the population of the State are facing a problem at the present time, that there is also the problem of crop damage in the more rural areas and that it may be merely a matter of time before the problem becomes more acute in outlying sections of the State.

All experts seemed to agree that the problem should be attacked at least upon a large regional basis and preferably upon a statewide basis.

## RECOMMENDATIONS

1. That additional research be continued with reference to the precise nature of emissions from motor vehicle exhaust which may contribute to air pollution, and more particularly, to eye irritation, plant damage and reduced visibility. It is recognized that additional research is also necessary with reference to the long-range effects of automobile exhaust emissions upon public health.

2. That the State Department of Public Health be requested to establish standards for maximum allowable concentrations of the various components of motor vehicle exhaust emissions as necessary to alleviate the acute effects of air pollution, including but not limited to, eye irritation, plant damage and the acute effects upon health.

3. That the State Department of Motor Vehicles be requested to undertake a study of all aspects of a system of inspection of motor vehicles to determine air contaminants in exhaust emissions. This study should include:

(a) A study of the feasibility, administration, enforcement, testing equipment and procedures, cost and effectiveness of such a system on both a regional and statewide basis.

(b) The establishment and operation of a "prototype" testing station for the testing of a limited number of motor vehicles for the purpose of developing and perfecting proper procedures for the testing of vehicle exhaust emissions.

(c) The establishment of "pilot" testing stations after approved devices are available and before such devices are required on all motor vehicles, for the purpose of testing the effectiveness of such devices as well as to reappraise the procedures, feasibility, cost and effectiveness of an inspection system, as related to the devices then available.

4. That sufficient funds be appropriated from the State General Fund to carry out the foregoing recommendations.

5. That the Advisory Committee on Motor Vehicle Legislation continue in existence the Subcommittee on Automotive Smog Control

to pursue further investigation of the subject matter and co-operate to the maximum extent possible with the Legislature and other public and private agencies working toward solution of the automotive air pollution problem.

### House Resolution No. 242

Commending the State Board of Education and the Board of Regents of the University of California

WHEREAS, The State Board of Education and the Board of Regents of the University of California on April 15, 1959, jointly adopted the following resolution:

"RESOLUTION OF STATE BOARD OF EDUCATION AND THE REGENTS OF THE UNIVERSITY OF CALIFORNIA

April 15, 1959

Joint Board Policies Relative to New Campuses

"WHEREAS, by legislative and other official action, additional campuses of higher education have been approved for State Colleges in Alameda, Stanislaus, Orange, and North Bay counties, and for University campuses in San Diego, Southeast Los Angeles-Orange and South Central Coast counties; and

"WHEREAS, the present fiscal condition of the State threatens delay in providing expansion of facilities and institutions necessary to accommodate the projected enrollments for state-supported higher education in California; and

'WHEREAS, protracted delay in beginning these new centers will force upon existing institutions excessive congestion and over-expansion and will deprive qualified young Californians of a full measure of learning and student life;

"THEREFORE, BE IT RESOLVED that the joint Boards declare that:

"(1) The new campuses already approved for the State Colleges and the University should be placed in operation as soon as the fiscal condition of the State will permit;

"(2) The Boards will continue, both individually and jointly through the Liaison Committee, to reassess 'priorities for the establishment of new public institutions' as provided in the resolution adopted by the State Board of Education on December 17, 1958, and by The Regents of the University of California on December 19, 1958;

"(3) For new campuses both already approved and to be approved in the future, the State should adopt a policy of early site acquisition for those assigned the highest priority in order to make possible proper community planning, to forestall high acquisition costs, and to avoid delays after construction money becomes available,

'(4) No new State Colleges or campuses of the University, other than those already approved, shall be established until adequate Junior College facilities have been provided, the determination of adequacy to be based on studies made under the direction of the Liaison Committee of the State Board of Education and The Regents of the University of California;

"(5) (a) The principles enunciated on pages v and vi of the Study of the Need for Additional Centers of Public Higher Education in California, approved by both Boards, shall continue to be accepted as a bases for further planning by both Boards, (Copy of these principles attached to this Resolution).

"(b) These principles and any subsequent modifications approved by both Boards shall guide each Board in determining priorities for new campuses and the timetable for future acquisition of sites;

"(c) No new campuses for the State Colleges or for the University of California, other than those already approved, shall be established without prior approval of both Boards;

"(d) The Governor and the State Legislature be requested to approve only those bills and appropriation items which conform to this understanding.

"(6) Following the submission to the Legislature of the master plan for higher education in California, to be prepared in accordance with Assembly Concurrent Resolution No. 88, if enacted in the 1959 regular session of the Legislature, the above agreements shall be re-appraised by The Regents and the State Board of Education."

"Principles Underlying the Joint Staff Report Entitled the Need for Additional Centers of Public Higher Education in California

"1 The expansion of existing institutions and the establishment of new ones should depend on the optimum use of the state's resources for higher education in relation to the greatest relative need both geographically and functionally.

"2. Differentiation of functions so far as possible of the three segments of public higher education, namely the junior colleges, the state colleges, and the University of California, is imperative if unnecessary and wasteful duplication is to be avoided. This principle has been confirmed by the approval of the State Board of Education and The Regents of the University of California of the recommendation in the Restudy of the Needs of California in Higher Education which reads as follows:

"'. . . that the junior colleges continue to take particular responsibility for technical curriculums, the state colleges for occupational curriculums, and the University of California for graduate and professional education and research.'

'3. The assumption that adequate junior college facilities will be provided through local initiative and state assistance prior to the establishment of additional state college or University campuses is basic to the state college and University enrollment estimates in this report

"4. The financing of new publicly supported institutions should be such that it interferes in no way with the needs, including necessary improvement or expansion, of existing ones.

"5. In order that a possible new institution may serve the greatest number of eligible students, it should be placed near the center of the population served by it.

"6. Extension of publicly supported institutions to the degree that the continued operation of private ones long in existence and seemingly serving the community well is jeopardized, is not in the public interest."

now, therefore, be it

*Resolved by the Assembly of the State of California*, That the Assembly commends the members of the State Board of Education and the Board of Regents of the University of California for their fine work and co-operation in respect to the problems presently confronting higher education; and be it further

*Resolved*, That the Chief Clerk of the Assembly is directed to transmit suitably prepared copies of this resolution to the State Board of Education and the Board of Regents.

Resolution read, and referred to the Committee on Rules.

### PRAYER

The following prayer was offered by the Chaplain, Rev. R. Wilbur Simmons:

*Ever-present God,* We seek immediate attention to our prayer for we think we can afford only a few moments, and, please, God, answer our prayer instantly. If you have any word of guidance for us, speak promptly, but, please, God, do not expect promptness from us. Carelessly some of us waste the time of others who must wait in committee and on Assembly floor while we get ourselves organized. You know our excuses: the telephone, an office visitor, we just couldn't make it on time. We mean we could have, but did not. Forgive our self-deception and our lack of courtesy to others. Help us, O God, to be present and ready for every duty, and thank you, God, for your prompt attention.—AMEN.

CONGRESS OF THE UNITED STATES
HOUSE OF REPRESENTATIVES
WASHINGTON, D. C., April 30, 1959

*Mr. Arthur A. Ohnimus*
*Chief Clerk, State Assembly*
*State Capitol, Sacramento*

DEAR MR OHNIMUS: As a member of the California delegation in the House of Representatives, Congressman John Moss received a copy of Assembly Joint Resolution No. 9 on public inspection of crop allotment records in the State of California.

The staff of the House Government Information Subcommittee, of which Congressman Moss is chairman, has undertaken an initial investigation of the matter set forth in the resolution, but additional details are needed to complete the staff work.

Federal Agriculture Department officials contend that all crop allotment records and documents maintained by the department in California are available to state officials and the general public. The only restriction to which the federal officials would admit is in connection with crop loan payments made to farmers. Even this information, they state, is made public 30 days after the financial transaction.

To complete our investigation, we need to know, specifically, what crop allotment records and documents have been refused to members of the public and newspaper representatives. If you can provide this information from the records of the Legislature, or refer this request to someone who can provide specific details, it will be helpful to the subcommittee's investigation.

Sincerely,

SAMUEL J. ARCHIBALD, Staff Administrator

**Explanation of Vote on Amendment No. 1**

My reason for a "No" vote on Amendment No. 1 to Assembly Bill No. 244 today is as follows:

Assembly Bill No. 244 before amendment today provided that revocation of a social worker's license shall be administered without regard to race, color, creed, political affiliation, national origin, etc. By removing the words "political affiliation" courts could possibly determine that the Legislature intended that political affiliation could be considered grounds for suspension or revocation of licenses.

### Motion to Amend

Mr. O'Connell moved the adoption of the following amendments:

### Amendment No. 1

On page 3 of the printed bill, as amended in the Assembly on April 8, 1959, strike out lines 31 to 41, inclusive, and insert

"790.05. Whenever the commissioner shall have reason to believe that any such person has been engaged or is engaging in this State in any unfair method of competition or any unfair or deceptive act or practice defined in Section 790.03, and that a proceeding by him in respect thereto would be to the interest of the public, he shall issue and serve upon such person an order to show cause containing a statement of the charges in that respect and a notice of a hearing thereon to be held at a time and place fixed therein, which shall not be less than 30 days after the service thereof, for the purpose of determining whether the commissioner should issue an order to such person to cease and desist such methods, acts or practices or any of them.

If the charges or any of them are found to be justified the commissioner shall issue and cause to be served upon such person an order requiring such person to cease and desist from engaging in such methods, acts, or practice as have been found to be unfair or deceptive.

Such hearing shall be conducted in accordance with the Administrative Procedure Act, Chapter 5 (commencing at Section 11500) of Part 1, Division 3, Title 2 of the Government Code, and the commissioner shall have all the powers granted therein.

Such person shall be entitled to have such proceedings and such order reviewed by means of any remedy provided by Section 12940 of this code or by said Administrative Procedure Act.

790.06. (a) Whenever the commissioner shall have reason to believe that any person engaged in the business of insurance is engaging in this State in any method of competition or in any act or practice in the conduct of such business which is not defined in Section 790.03 and that such method is unfair or that such act or practice is unfair or deceptive and that a proceeding by him in respect thereto would be in the interest of the public, he may issue and serve upon such person an order to show cause containing a statement of the methods, acts or practices alleged to be unfair or deceptive and a notice of hearing thereon to be held at a time and place fixed therein, which shall not be less than 30 days after the service thereof, for the purpose of determining whether the alleged methods, acts or practices or any of them should be declared to be unfair or deceptive within the meaning of this article.

The hearings provided by this section shall be conducted in accordance with the Administrative Procedure Act, Chapter 5 (commencing at Section 11500) of Part 1, Division 3, Title 2 of the Government Code, and the commissioner shall have all the powers granted therein. If the alleged methods, acts, or practices or any of them are found to be unfair or deceptive within the meaning of this article the commissioner shall issue and service upon said person his written report so declaring.

(b) If such report charges a violation of this article and if such method of competition, act or practice has not been discontinued, the commissioner may, through the Attorney General of this State, at any time after 30 days after the service of of such report cause a petition to be filed in the superior court of this State within the county wherein the person resides or has his principal place of business, to enjoin and restrain such person from engaging in such method, act or practice. The court shall have jurisdiction of the proceeding and shall have power to make and enter appropriate orders in connection therewith and to issue such writs as are ancillary to its jurisdiction or are necessary in its judgment to prevent injury to public pendente lite.

(c) A transcript of the proceedings before the commissioner, including all evidence taken and the report and findings shall be filed with such petition. If either party shall apply to the court for leave to adduce additional evidence and shall show, to the satisfaction of the court, that such additional evidence is material and there were reasonable grounds for the failure to adduce such evidence in the proceeding before the commissioner, the court may order such additional evidence to be taken before the commissioner and to be adduced upon the hearing in such manner and upon such terms and conditions as to the court may seem proper. The commissioner may modify his findings of fact or make new findings by reason of the additional evidence so taken, and he shall file such modified or new findings with the return of such additional evidence.

(d) If the court finds that the method of competition complained of is unfair or that the act or practice complained of is unfair or deceptive, that the proceeding by the commissioner with respect thereto is to the interest of the public and that the findings of the commissioner are supported by the weight of the evidence, it shall issue its order enjoining and restraining the continuance of such method of competition, act or practice.

790.07. Whenever the commissioner shall have reason to believe that any person has violated a cease and desist order issued pursuant to Section 790.05 or a court order issued pursuant to Section 790.06, after such order has become final, and while such order is still in effect, the commissioner may, after a hearing at which it is determined that such violation was committed, order such person to forfeit and pay to the State of California a sum not to exceed fifty dollars ($50), which may be recovered in a civil action, except that, if such violation is found to be willful, the amount of such penalty may be a sum not to exceed five hundred dollars ($500).

For any subsequent violation of such cease and desist order or of such court order, while any such order is still in effect, the commissioner may, after hearing, suspend or revoke the license or certificate of such person for a period not exceeding one year. Provided, however, no such proceeding shall be based upon such subsequent violation unless the same was committed or continued after the date on which the order imposing the penalty pursuant to the preceding paragraph became final.

The hearings provided by this section shall be conducted in accordance with said Administrative Procedure Act, and the commissioner shall have all the powers granted therein.

Such person shall be entitled to have such proceedings and the order of the commissioner thereon reviewed by means of any remedy provided by Section 12940 of this code or by said Administrative Procedure Act."

### PRAYER

The following prayer was offered by the Chaplain, Rev. R Wilbur Simmons:

*We Thank Thee, God,* For the privilege of praying in this Assembly, which, when mentioned, usually brings from the public the quick reaction, "they need it." Can it be, Our Father, that our work is so important that we do greatly need the power of prayer? Does the public really have a sense of the pressures under which legislators work: importunate lobbyists, anxious and critical constituents, worthy opponents, rest and sleep in short supply? Sustain these lawmakers, we pray Thee, our Father, through weary days, for just laws are hard to produce, and it is difficult to be fair to all concerned. Hear our prayer for these Thy good and faithful public servants.—AMEN.

## COMMUNICATIONS

The following communications were presented by the Chief Clerk, and ordered printed in the Journal:

CALIFORNIA STATE POLYTECHNIC COLLEGE
SAN LUIS OBISPO, May 4, 1959

*To the Honorable Members of the California State Assembly*
*Care of: Mr. Arthur A. Ohnimus*
*Chief Clerk of the Assembly*
*State Capitol Building, Sacramento*

I would be remiss in both appreciation and courtesy if I did not take some means to let the Members of the California State Assembly know something of the degree to which I was touched by their resolution in honor of my 25 years at California State Polytechnic College. It is an inspiring thing to have one's efforts appreciated and particularly by those whose judgment and opinions one values and respects.

The Assembly, in co-operation with the Senate of the State of California, have made possible the great advancements in California's field of higher education. You have found the means of meeting the costs and have always been sympathetic to the tradition of free higher education.

My appreciation, therefore, goes forward not only for your heartwarming resolution concerning my work at California State Polytechnic College, but for your co-operation through the years.

Sincerely yours,

JULIAN A. McPHEE, President

### Traffic Problem at Temporary Terminal of Ventura Freeway

STATE OF CALIFORNIA
DEPARTMENT OF PUBLIC WORKS
SACRAMENTO, May 1, 1959

*Mr. Arthur A. Ohnimus*
*Chief Clerk, Assembly*
*State Capitol, Sacramento*

DEAR MR. OHNIMUS: Reference is made to your letter of April 3, 1959, transmitting a copy of House Resolution No. 172, adopted by the Assembly on April 2, 1959, regarding the traffic problem at the temporary terminal of the Ventura Freeway.

The Division of Highways has had under study the traffic conditions at the temporary termination of the Ventura Freeway at Radford Avenue and Laurel Canyon Boulevard. Preparations are presently under way in co-operation with the City of Los Angeles for the immediate installation of a signal system at the intersection of Sarah Street and Laurel Canyon Boulevard.

The Division of Highways is also preparing plans for the construction of an eastbound on-ramp from Laurel Canyon Boulevard, as suggested in the House Resolution.

The interchange between the freeway and Laurel Canyon Boulevard-Radford Avenue was designed in co-operation with the City of Los Angeles to conform to the city's plan for street development, and as agreed upon between the City of Los Angeles and the State in the freeway agreement executed on May 23, 1955. Radford Avenue at that time was planned to be developed as a secondary city street, and in December, 1956, the City Planning Commission took official action to make Radford Avenue a secondary city street. Radford Avenue has not been improved and is presently closed north of the freeway. It is our understanding that the city has now abandoned plans to develop Radford Avenue as a secondary city street.

Subject to the concurrence of the city, it is the intent of the Division of Highways to initially construct an eastbound on-ramp and ultimately a westbound off-ramp between the freeway and Laurel Canyon Boulevard. Construction of the eastbound on-ramp from Laurel Canyon Boulevard should provide relief to the traffic condition on Sarah Street. The later construction of the westbound off-ramp to Laurel Canyon Boulevard will provide a revised plan which will conform to the present street plan of the City of Los Angeles.

Respectfully,

ROBERT B. BRADFORD, Director of Public Works

## WHAT WE EXPECT OF OUR LEGISLATIVE REPRESENTATIVES

### By Miss Ann Bruederle

Since few of us are fortunate enough to know our representative personally, we must judge his merits solely on his record and on the principles he esteems and defends. A man of outstanding character and ability is required to meet the qualifications of a lawmaker whose most insignificant acts and inactions are viewed and evaluated by a critical society.

In this Country the will of the people is the foundation upon which the entire governmental structure is built. As a result, the primary function of a legislator is to carry out the wishes expressed by the voters through bills and resolutions. He must not only satisfactorily solve the immediate problems confronting him, but also anticipate those in the future.

The representative's first responsibility is to the people of his district. As their spokesman, he must be willing to contribute his full time and effort to their betterment. It is his duty to take a firm stand and prompt

action on the issue after first carefully weighing the evidence. He should at all times place the ultimate good of the people above the pettiness of party politics.

No matter how good his proposals may be, the legislator will accomplish nothing if he does not possess diplomacy and tact. In order to win the sympathies of his opponents, the legislator's arguments must be clear, concise, and factual. He should concede a point if he is proven wrong, but never a principle.

A representative can compromise nearly everything but his integrity. High principles should be so firmly a part of his nature that he is virtually impenetrable to the temptations and corruption presented by public life.

The legislator who can pass these requirements will do his share to give us a good government. Our job is to co-operate with him.

## CONSIDERATION OF HOUSE RESOLUTION NO. 242

By Miss Donahoe:

**House Resolution No. 242**

*Commending the State Board of Education and the Board of Regents of the University of California*

WHEREAS, The State Board of Education and the Board of Regents of the University of California on April 15, 1959, jointly adopted the following resolution:

"RESOLUTION OF STATE BOARD OF EDUCATION AND THE REGENTS OF THE UNIVERSITY OF CALIFORNIA

April 15, 1959

Joint Board Policies Relative to New Campuses

"WHEREAS, by legislative and other official action, additional campuses of higher education have been approved for State Colleges in Alameda, Stanislaus, Orange, and North Bay counties, and for University campuses in San Diego, Southeast Los Angeles-Orange and South Central Coast counties; and

"WHEREAS, the present fiscal condition of the State threatens delay in providing expansion of facilities and institutions necessary to accommodate the projected enrollments for state-supported higher education in California; and

"WHEREAS, protracted delay in beginning these new centers will force upon existing institutions excessive congestion and over-expansion and will deprive qualified young Californians of a full measure of learning and student life;

"THEREFORE, BE IT RESOLVED that the joint Boards declare that.

"(1) The new campuses already approved for the State Colleges and the University should be placed in operation as soon as the fiscal condition of the State will permit;

"(2) The Boards will continue, both individually and jointly through the Liaison Committee, to reassess 'priorities for the establishment of new public institutions' as provided in the resolution adopted by the State Board of Education on December 17, 1958, and by The Regents of the University of California on December 19, 1958;

"(3) For new campuses both already approved and to be approved in the future, the State should adopt a policy of early site acquisition for those assigned the highest priority in order to make possible proper community planning, to forestall high acquisition costs, and to avoid delays after construction money becomes available;

"(4) No new State Colleges or campuses of the University, other than those already approved, shall be established until adequate Junior College facilities have been provided, the determination of adequacy to be based on studies made under the direction of the Liaison Committee of the State Board of Education and The Regents of the University of California;

"(5) (a) The principles enunciated on pages v and vi of the Study of the Need for Additional Centers of Public Higher Education in California, approved by both Boards, shall continue to be accepted as a bases for further planning by both Boards; (Copy of these principles attached to this Resolution).

"(b) These principles and any subsequent modifications approved by both Boards shall guide each Board in determining priorities for new campuses and the timetable for future acquisition of sites;

"(c) No new campus for the State Colleges or for the University of California, other than those already approved, shall be established without prior approval of both Boards;

"(d) The Governor and the State Legislature be requested to approve only those bills and appropriation items which conform to this understanding.

"(6) Following the submission to the Legislature of the master plan for higher education in California, to be prepared in accordance with Assembly Concurrent Resolution No. 88, if enacted in the 1959 Regular Session of the Legislature, the above agreements shall be re-appraised by The Regents and the State Board of Education.

"Principles Underlying the Joint Staff Report Entitled the Need for Additional Centers of Public Higher Education in California

"1. The expansion of existing institutions and the establishment of new ones should depend on the optimum use of the state's resources for higher education in relation to the greatest relative need both geographically and functionally.

"2. Differentation of functions so far as possible of the three segments of public higher education, namely the junior colleges, the state colleges, and the University of California, is imperative if unnecessary and wasteful duplication is to be avoided. This principle has been confirmed by the approval of the State Board of Education and The Regents of the University of California of the recommendation in the Restudy of the Needs of California in Higher Education which reads as follows:

"'. . . that the junior colleges continue to take particular responsibility for technical curriculums, the state colleges for occupational curriculums, and the University of California for graduate and professional education and research.'

"3. The assumption that adequate junior college facilities will be provided through local initiative and state assistance prior to the establishment of additional state college or University campuses is basic to the state college and University enrollment estimates in this report.

"4. The financing of new publicly supported institutions should be such that it interferes in no way with the needs, including necessary improvement or expansion, of existing ones.

"5. In order that a possible new institution may serve the greatest number of eligible students, it should be placed near the center of the population served by it.

"6. Extension of publicly supported institutions to the degree that the continued operation of private ones long in existence and seemingly serving the community well is jeopardized, is not in the public interest."

now, therefore, be it

*Resolved by the Assembly of the State of California*, That the Assembly commends the members of the State Board of Education and the Board of Regents of the University of California for their fine work and co-operation in respect to the problems presently confronting higher education; and be it further

*Resolved*, That the Chief Clerk of the Assembly is directed to transmit suitably prepared copies of this resolution to the State Board of Education and the Board of Regents.

Resolution read, and adopted unanimously.

*Almighty God*, Give to every man a progressive list of loyalties: first, to himself, and he cannot then be false to any man; then to his family, as given to him for economic support and loving care; to his electorate, more than to the people of another district; to his section of the State, if the State be divided into sections with differing interests; to his State, above any other; to his Nation, more than any other, even the "old country"; to groups of nations, united in support of freedom and democracy; to the people of this planet, more than any other planet, as yet. Grant that such loyalties may never conflict with each other, for we are increasingly one community, one family under Thee, O God.—AMEN.

May incentive for personal effort be provided for every human being, and may industry and agriculture be so encouraged that research, experiment, and new capital outlay will continue to bring new blessings to all our people. PART 15. SEVERANCE TAX

CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS

33001. This part is known and may be cited as the "Severance Tax Law."

33002 Unless the context otherwise requires, the definitions set forth in this chapter govern the construction of this part

33003. "Person" includes any individual, firm, copartnership, joint venture, association, corporation, estate, trust, business trust, receiver, syndicate, this State, any county, city and county, municipality, district, or other political subdivision of the State, or any other group or combination acting as a unit.

33004. "Oil" means crude oil, condensate, or other mineral oil produced or recovered from the earth as a liquid, regardless of specific gravity.

33005 "Gas" means natural gas and casinghead gas and any petroleum gas or vapor taken from the earth, regardless of whether produced from a well producing only gas or from a well also producing oil or any other product

33006 "Producer" means any person owning, controlling, managing or leasing any oil well or gas well, and any person who produces or severs oil or gas from the earth in any manner in this State, including any person owning any royalty or other interest in any oil or gas taken from the earth in this State, or the proceeds of any such oil or gas, whether produced by him or by some other person, either by lease, contract or otherwise.

33007. "Operator" means

(a) the producer in actual charge of production operations,

(b) a refiner of oil, and

(c) a distributor of gas to consumers.

33008. (a) "Production" or "produced" means, in the case of oil, the total gross amount of oil produced and saved, including that attributable to royalty or other interests. Allowance shall be made for any reasonable and bona fide deduction for basic sediment and water, and for correction of temperature to 60 degrees Fahrenheit.

(b) "Production" or "produced" means, in the case of gas, the total gross amount of gas produced and saved, including that attributable to royalty or other interests. For the purposes of this part, a "cubic foot of gas" or "standard cubic foot of gas" means the amount of gas contained in one cubic foot of space at a standard pressure base of 14.65 pounds per square inch absolute, and at a standard temperature base of 60 degrees Fahrenheit. Whenever the conditions of pressure and temperature differ from the above standard, conversion of the volume from these conditions to the standard conditions shall be made in accordance with the ideal gas laws, corrected for deviation.

33009. "Severing" means extracting or withdrawing any oil or gas from the earth in this State, whether such extraction or withdrawal is by natural flow, mechanically enforced flow, pumping or any other means.

33010. (a) "Value," for purposes of the tax imposed by Section 33021, means the market value at the wellhead at the time of severance. If the oil or gas is not sold at the time of severance, or, if sold, the transaction is not indicative of such market value, the board shall determine the value of the oil or gas, and the value so determined by it shall be presumed to be correct.

(b) "Value," for purposes of the tax imposed by Section 33031, means the market value of the oil at the time and place of the refining operation; provided, however, that a higher value shall not be attributed to oil produced outside this State than the average value at the wellhead of oil of like kind and quality produced in this State. Any determination of value made by the board for purposes of Section 33031 shall be presumed to be correct.

(c) "Value," for purposes of the tax imposed by Section 33041, means the market value of the gas at the time and place at which it enters into a local distribution system or a line for delivery to a consumer or consumers; provided, however, that a higher value shall not be attributed to gas produced outside this State than the average value at the wellhead of gas of like kind and quality produced in this State. Any determination of value made by the board for purposes of the tax imposed by Section 33041 shall be presumed to be correct.

(d) If it be judicially determined that any value determined by the board for oil or gas produced outside this State is higher than is authorized by law, the refiner of the oil or the distributor of the gas shall be relieved of liability for any tax imposed under this part only to the extent that the value so determined is in excess of that which might legally be determined.

33011. "In this State" means within the exterior limits of the State of California, and includes all territory within such limits owned by or ceded to the United States of America.

## CHAPTER 2. IMPOSITION OF TAX

### Article 1. Tax on Producers of Oil or Gas

33021. For the privilege of engaging in the business of producing or severing oil or gas from the earth in this State, a tax is hereby imposed upon every person so engaged at the rate of 2 percent of the value of the oil or gas produced or severed and saved.

33022. In determining the value of natural gas for the purposes of Section 33021, there shall be deducted from the amount of natural gas severed any amount thereof that the operator returns to the earth for repressuring purposes to increase the recovery of oil or gas or which is reasonably necessary for and is used in the severing operation.

33023. The tax imposed by Section 33021 shall become effective July 1, 1959, shall be paid at the time and in the manner hereinafter provided, and shall be in addition to any and all other taxes.

33024. The tax imposed by Section 33021 is imposed upon each producer of oil or gas in respect to his interest in the oil or gas, or the proceeds therefrom, at the time of severance. The operator shall collect or withhold from each producer the amount of the tax due with respect to the oil or gas produced or severed by the operator and shall return and remit all taxes payable for himself and the other producers in accordance with this part.

33025. In the event that the oil or gas produced or severed is sold to any person under a contract requiring the purchaser to make payments directly to those owning any royalty or other interest in the oil or gas, or the proceeds therefrom, the purchaser shall be regarded as the operator as respects the requirement of the collection or withholding of the tax from the producers and the return and remittance of the tax to the board. Nothing contained herein shall be construed as relieving the producer in actual charge of production operations from liability for payment of the entire amount of the tax.

33026. The tax required to be collected or withheld by the operator from each producer constitutes a debt owed by the operator to this State and the operator shall be personally liable for the payment of any amount of tax required to be collected by him in the event of his failure to collect or withhold as required herein.

Article 2 Tax on Refiners of Oil

33031. For the privilege of engaging in the business of refining oil in this State, a tax is hereby imposed upon every person so engaged at the rate of 2 percent of the value of the oil refined.

33032. The tax imposed by Section 33031 shall not apply with respect to any oil as to which the tax imposed by Section 33021 is applicable.

33033 The tax imposed by Section 33031 shall not apply with respect to any oil produced or severed from the earth, irrespective of the place of production or severance, prior to July 1, 1959.

33034. The tax imposed by Section 33031 shall become effective July 1, 1959, shall be paid at the time and in the manner hereinafter provided, and shall be in addition to any and all other taxes.

Article 3. Tax on Distributors of Gas

33041. For the privilege of distributing gas in this State to consumers, whether for industrial, commercial, residential or other purposes, a tax is hereby imposed upon every person so engaged at the rate of 2 percent of the value of the gas

33042. The tax imposed by Section 33041 shall not apply with respect to any gas as to which the tax imposed by Section 33021 is applicable.

33043. The tax imposed by Section 33041 shall not apply with respect to any gas produced or severed from the earth, irrespective of the place of production or severance, prior to July 1, 1959.

33044 The tax imposed by Section 33041 shall become effective July 1, 1959, shall be paid at the time and in the manner hereinafter provided, and shall be in addition to any and all other taxes.

CHAPTER 3. PERMITS

33051. It shall be unlawful after June 30, 1959, for any person to act as an operator in this State without first securing a permit as prescribed herein.

An application for a permit shall be made to the board upon a form prescribed by the board. The application shall be signed by the applicant individually if a natural person; in the case of an association or partnership, by a member or partner thereof, and in the case of a corporation, by an executive officer thereof or some person specifically authorized by the corporation to sign the application to which shall be attached the written evidence of his authority.

33052. At the time of making an application for each permit, the applicant shall pay to the board a permit fee of five dollars ($5).

33053. Upon the payment of such permit fee and compliance with other requirements imposed herein, the board shall issue to each applicant a permit to act as an operator.

33054. A permit is not assignable and shall be valid only for the person in whose name it is issued. A separate permit shall be obtained to act as an operator for:

(a) The producing or severing of oil or gas;

(b) The refining of oil; or

(c) The distributing of gas to consumers

33055. A permit issued under this chapter shall be valid and effective without further payment of fees until suspended or revoked by the board

33056. Whenever the holder of a permit fails to comply with any provision of this part or any rule or regulation of the board prescribed and adopted under this part, the board upon hearing, after giving the holder 10 days' notice in writing of the time and place of the hearing to show cause why his permit should not be revoked, may revoke or suspend the permit. The notice may be served personally or by mail in the manner prescribed for the service of a notice of a deficiency determination.

A fee of five dollars ($5) shall be collected by the board for the renewal or issuance of a permit to an operator whose permit has been previously suspended or revoked.

33057. Any person who acts as an operator in this State without a permit, or after a permit has been suspended or revoked, and each officer of any corporation which so acts, is guilty of a misdemeanor.

CHAPTER 4. DETERMINATIONS

Article 1. Returns and Payments

33061. The taxes imposed by this part are due and payable monthly on or before the twentieth day of the month following the calendar month in which:

(a) Oil or gas is produced or severed;

(b) Oil is refined; or

(c) Gas is distributed to consumers.

33062. Every operator shall on or before the twentieth day of August, 1959, and on or before the twentieth day of every month thereafter, file with the board on forms prescribed by the board a return showing such information as the board may require to carry out the purposes of this part.

33063. The operator shall transmit with each return a remittance payable to the board for the amount of taxes due, including the amount required to be collected or withheld.

33064. If the board deems it necessary in order to insure the payment of the taxes imposed by this part, or to facilitate the administration of this part, it may require returns and payment of the taxes to be made for other than monthly periods.

33065. The board for good cause may extend for not to exceed one month the time for making any return required by this part. The extension may be granted at any time, provided that a request therefor is filed with the board within or prior to the period for which the extension may be granted.

33066 Any person to whom an extension is granted shall pay, in addition to the tax, interest at the rate of one-half of 1 percent per month, or fraction thereof, from the date on which the tax would otherwise have been due to the date of payment.

Article 2. Deficiency Determinations

33071. If the board is not satisfied with a return filed or the amount of taxes paid by or on behalf of any person, it may compute and determine the amount required to be paid upon the basis of the facts contained in the return or upon the basis of any information within, or that may come into, its possession. One or more deficiency determinations may be made of the amount due for one or for more than one month. When a business is discontinued a determination may be made at any time thereafter, within the periods specified in Section 33077, as to liability arising out of that business, irrespective of whether the determination is issued prior to the due date of the liability as otherwise specified in this part.

33072. The amount of the determination, exclusive of penalties, shall bear interest at the rate of one-half of 1 percent per month, or fraction thereof, from the twentieth day after the close of the month for which the determination is made until the date of payment.

33073. In making a determination the board may offset overpayments for any month or months together with interest on the overpayments against underpayments for another month or months, against penalties, and against interest on underpayments.

33074. If any part of the deficiency for which a deficiency determination is made is due to negligence or intentional disregard of this part or authorized rules and regulations, a penalty of 10 percent of the amount of the determination shall be added thereto.

33075. If any part of the deficiency for which a deficiency determination is made is due to fraud or an intent to evade this part or authorized rules and regulations, a penalty of 25 percent of the amount of the determination shall be added thereto.

33076. The board shall give to the person written notice of its determination. The notice may be served personally or by mail; if by mail, service shall be made pursuant to Section 1013 of the Code of Civil Procedure and shall be addressed to the person at his address as it appears in the records of the board, but the service shall be deemed complete at the time of the deposit of the notice in the mail without extension of time for any reason.

33077. Except in the case of fraud, intent to evade the tax, or failure to make a return, every notice of a deficiency determination shall be given within three years after the date when the amount should have been reported.

Article 3. Determinations Where No Return

33081 If a return is not made the board shall make an estimate of the amount due from any person liable for the tax. The estimate shall be made for the month or months in respect to which a return was not made and shall be based upon any information available to the board. The board shall add to the estimated amount a penalty equal to 10 percent thereof. One or more determinations may be made for one or for more than one month.

33082. In making a determination the board may offset overpayments for any month or months, together with interest on the overpayments, against underpayments for another month or months and against interest and penalties on the underpayments.

33083. Every such determination thus made, exclusive of penalties, shall bear interest at the rate of one-half of 1 percent a month, or fraction thereof, from the twentieth day after the close of the month for which the tax is imposed until the date of payment.

33084. If the failure of a person to file a return is due to fraud or an intent to evade the tax, a penalty of 25 percent of the amount required to be paid by the person, exclusive of penalties, shall be added thereto in addition to the 10 percent penalty provided in Section 33081.

33085 Promptly after making its determination the board shall give to the person against whom the determination is made written notice of its estimate and determination, and of the penalty, the notice to be served personally or by mail in the manner prescribed for service of notice of a deficiency determination.

Article 4. Jeopardy Determinations

33091 If the board believes that the collection of any amount of tax due from any person under this part will be jeopardized by delay, it shall thereupon make a determination of the amount, noting that fact upon the determination. The amount determined is immediately due and payable.

33092. If the amount specified in the determination is not paid within 10 days after service of notice thereof upon the person against whom the determination is made, the determination becomes final at the expiration of that period unless a petition for redetermination is filed within the 10 days, and the delinquency penalty and interest provided in Article 6 of this chapter shall attach to the amount specified.

33093. The person against whom a jeopardy determination is made may petition for the redetermination thereof pursuant to Article 5 of this chapter. He shall, however, file the petition for redetermination with the board within 10 days after the service upon him of notice of the determination. The person shall at the time of filing the petition for redetermination deposit with the board such security as it may deem necesary to insure compliance with this part. The security may be sold by the board at public sale if it becomes necessary in order to recover any amount due under this part. Notice of the sale may be served upon the person who deposited the security personally or by mail in the same manner as prescribed for service of notice of a deficiency determination. Upon any such sale, the surplus, if any, above the amount due under this part shall be returned to the person who deposited the security.

Article 5. Redeterminations

33101. Any person against whom a determination is made under Articles 2 or 3 of this chapter may petition for a redetermination within 30 days after service upon the person of notice thereof. If a petition for redetermination is not filed within the 30-day period, the determination becomes final at the expiration of the period.

33102 If a petition for redetermination is filed within the 30-day period, the board shall reconsider the determination and, if the person has so requested in his petition, shall grant him an oral hearing and give him 10 days' notice of the time and place of the hearing. The board may continue the hearing from time to time as may be necessary.

33103. The order or decision of the board upon a petition for redetermination becomes final 30 days after mailing of notice thereof.

33104. All determinations made by the board under Articles 2 or 3 of this chapter are due and payable at the time they become final. If they are not paid when due and payable, a penalty of 10 percent of the amount of the determination, exclusive of interest and penalties, shall be added thereto.

33105 Any notice required by this article shall be served personally or by mail in the manner prescribed for service of notice of a deficiency determination.

Article 6. Interest and Penalties

33111 Any person who fails to pay any tax, except taxes determined by the board under Article 2 or 3 of this chapter, within the time required shall pay a penalty of 10 percent of the amount of the tax, in addition to the tax, plus interest at the rate of one-half of 1 percent per month, or fraction thereof, from the date on which the tax became due and payable until the date of payment.

CHAPTER 5. COLLECTION OF TAX

Article 1. Security for Tax

33116. The board whenever it deems necessary to insure compliance with this part may require any person subject thereto to deposit with it such security as the board may determine. The amount of security shall be fixed by the board but shall not be greater than twice the estimated monthly liability of the person for the tax, ascertained in such manner as the board may deem proper. The total amount of security required of any person shall never be less than one hundred dollars ($100) or more than one hundred thousand dollars ($100,000). Within the limitations prescribed herein the board may increase or reduce the amount of security at any time.

33117. The security shall be in the form of a bond or bonds executed by the person from whom the tax or taxes imposed under this part are required to be paid as principal, and a corporation such as mentioned in Section 1056 of the Code of Civil Procedure in this State as surety, in such form as the board prescribes, payable to the people of the State of California conditioned upon the payment of all taxes, penalties, and other obligations of the person arising under this part.

33118. In lieu of a bond a person, under such conditions as the board may prescribe, may deposit with the State Treasurer an amount of lawful money equivalent to the amount of the bond or bonds or he may deposit bonds or other obligations of the United States, the State of California, or any county or city and county of this State of an actual market value not less than the amount of the bond or bonds fixed by the board.

33119. Upon receipt of a certificate of the board setting forth the amount of a person's delinquencies, the State Treasurer shall pay to the board the amount so certified from the money deposited with him by the person or from the amounts received from the sale of bonds or other obligations deposited with the Treasurer by the person. Securities deposited with the State Treasurer which have a prevailing market price may be sold by him for the purposes of this section at private sale at a price not lower than the prevailing market price thereof.

Article 2. Notice to Withhold

33121. If any person is delinquent in the payment of the amount required to be paid by him or in the event a determination has been made against him which remains unpaid the board may, not later than three years after the payment became delinquent, give notice thereof personally or by registered mail to all persons, including any officer or department of the State or any political subdivision or agency of the State, having in their possession or under their control any credits or other personal property belonging to the delinquent, or person against whom a determination has been made which remains unpaid, or owing any debts to the delinquent or such person. In the case of any state officer, department or agency, the notice shall be given to such officer, department or agency prior to the time it presents the claim of the delinquent taxpayer to the State Controller.

33122. After receiving the notice the persons so notified shall neither transfer nor make any other disposition of the credits, other personal property, or debts in their possession or under their control at the time they receive the notice until the board consents to a transfer or disposition or until 60 days elapse after the receipt of the notice, whichever period expires the earlier

33123. All persons so notified shall forthwith after receipt of the notice advise the board of all such credits, other personal property, or debts in their possession, under their control, or owing by them. If such notice seeks to prevent the transfer or other disposition of a deposit in a bank or other credits or personal property in the possession or under the control of a bank, the notice to be effective shall be delivered or mailed to the branch or office of such bank at which such deposit is carried or at which such credits or personal property is held.

33124. If, during the effective period of the notice to withhold, any person so notified makes any transfer or disposition of the property or debts required to be withheld hereunder, to the extent of the value of the property or the amount of the debts thus transferred or paid he shall be liable to the State for any indebtedness due under this part from the person with respect to whose obligation the notice was given if solely by reason of such transfer or disposition the State is unable to recover the indebtedness of the person with respect to whose obligation the notice was given.

Article 3. Suit for Tax

33131. At any time within three years after any amount of tax becomes due and payable the board may transmit notice of the delinquency to the Attorney General who shall at once proceed by appropriate legal action to collect all sums due the State

33132. In the action a writ of attachment may issue, and no bond or affidavit previous to the issuing of the attachment is required

33133. In the action a certificate by the board showing the delinquency shall be prima facie evidence of the determination of the tax, of the delinquency of the amount of tax, interest, and penalty set forth, and of compliance by the board with all provisions of this part in relation to the computation and determination of the tax.

Article 4. Lien of Tax

33136. The amounts required to be paid by any person under this part together with interest and penalties shall be satisfied first in any of the following cases:

(a) Whenever the person is insolvent.

(b) Whenever the person makes a voluntary assignment of his assets.

(c) Whenever the estate of the person in the hands of executors, administrators, or heirs is insufficient to pay all the debts due from the deceased.

(d) Whenever the estate and effects of an absconding, concealed, or absent person *required to pay any amount under this part are levied upon by process of law*

This section does not give the State a preference over any recorded lien which attached prior to the date when the amounts required to be paid became a lien

The preference given to the State by this section shall be subordinate to the preferences given to claims for personal services by Section 1204 and 1206 of the Code of Civil Procedure.

33137. If any amount required to be paid to the State under this part is not paid when due, the board may within three years after the amount is due file for record in the office of any county recorder a certificate specifying the amount, interest, and penalty due, the name and address as it appears on the records of the board of the person liable for the same, and the fact that the board has complied with all provisions of this part in the determination of the amount required to be paid. From the time of the filing for record, the amount required to be paid together with interest

and penalty constitutes a lien upon all real property in the county owned by the person or afterwards and before the lien expires acquired by him. The lien has the force, effect, and priority of a judgment lien and shall continue for 10 years from the time of the filing of the certificate unless sooner released or otherwise discharged. The lien may, within 10 years from the date of the filing of the certificate or within 10 years from the date of the last extension of the lien in the manner herein provided, be extended by filing for record a new certificate in the office of the county recorder of any county and from the time of such filing the lien shall be extended to the real property in such county for 10 years unless sooner released or otherwise discharged.

33138. The board may at any time release all or any portion of the property subject to any lien provided for in this part from the lien or subordinate the lien to other liens and encumbrances if it determines that the amount, interest, and penalties are sufficiently secured by a lien on other property or that the release or subordination of the lien will not jeopardize the collection of the amount, interest, and penalties.

33139. A certificate by the board to the effect that any property has been released from the lien or that the lien has been subordinated to other liens and encumbrances shall be conclusive evidence that the property has been released or that the lien has been subordinated as provided in the certificate.

Article 5. Warrant for Collection of Tax

33141. At any time within three years after any person is delinquent in the payment of any amount herein required to be paid, the board or its authorized representative may issue a warrant for the enforcement of any liens and for the collection of any amount required to be paid to the State under this part. The warrant shall be directed to any sheriff, marshal, or constable and shall have the same effect as a writ of execution. The warrant shall be levied and sale made pursuant to it in the same manner and with the same effect as a levy of and a sale pursuant to a writ of execution

33142. The board may pay or advance to the sheriff, marshal or constable, the same fees, commissions, and expenses for his services as are provided by law for similar services pursuant to a writ of execution. The board, and not the court, shall approve the fees for publication in a newspaper.

33143. The fees, commissions, and expenses are the obligation of the person required to pay any amount under this part and may be collected from him by virtue of the warrant or in any other manner provided in this part for the collection of the tax.

Article 6. Judgment for Tax

33146. If any amount required to be paid to the State under this part is not paid when due, the board may within three years after the amount is due, file in the office of the county clerk of Sacramento County, or any county, a certificate specifying the amount required to be paid, interest and penalty due, the name and address as it appears on the records of the board of the person liable, the compliance of the board with this part in relation to the determination of the amount required to be paid, and a request that judgment be entered against the person in the amount required to be paid, together with interest and penalty as set forth in the certificate.

33147. The county clerk immediately upon the filing of the certificate shall enter a judgment for the people of the State of California against the person in the amount required to be paid, together with interest and penalty as set forth in the certificate. The county clerk may file the judgment in a loose-leaf book entitled, "Special Judgments for Severance Tax."

33148 An abstract of the judgment or a copy may be filed for record with the county recorder of any county. From the time of the filing the amount required to be paid together with interest and penalty set forth constitutes a lien upon all the real property in the county owned by the person liable or afterward and before the lien expires acquired by him. The lien has the force, effect, and priority of a judgment lien and shall continue for 10 years from the date of the judgment so entered by the county clerk unless sooner released or otherwise discharged. The lien may within 10 years from the date of the judgment or within 10 years from the date of the last extension of the lien in the manner herein provided, be extended by filing for record in the office of the county recorder of any county an abstract or copy of the judgment and from the time of such filing the lien shall be extended to the real property in such county for 10 years unless sooner released or otherwise discharged.

33149. Execution shall issue upon the judgment upon request of the board in the same manner as execution may issue upon other judgments, and sales shall be held under such execution as prescribed in the Code of Civil Procedure.

Article 7. Miscellaneous Provisions

33151. The remedies of the State provided for in this chapter are cumulative, and no action taken by the board or Attorney General constitutes an election by the State to pursue any remedy to the exclusion of any other remedy for which provision is made in this part.

33152. In all the proceedings under this chapter the board may act on behalf of the people of the State of California.

CHAPTER 6. OVERPAYMENTS AND REFUNDS

Article 1. Claim for Refund

33161. If the board determines that any amount not required to be paid under this part has been paid more than once or has been erroneously or illegally collected or computed, the board shall set forth that fact in its records and certify to the State Board of Control the amount collected in excess of the amount legally due and the person from whom it was collected or by whom it was paid. If approved by the State Board of Control, the excess amount collected or paid shall be credited on any amounts then due and payable from the person under this part, and the balance shall be refunded to the person, or his successors, administrators, executors, or assigns.

In the case, however, of a determination by the State Board of Equalization that an amount not exceeding one hundred dollars ($100) was not required to be paid under this part, the State Board of Equalization, without obtaining approval of the State Board of Control, may credit such amount on any amounts then due and payable under this part from the person by whom the amount was paid and shall refund the balance to the person or his successors, administrators or executors.

33162. No refund shall be allowed or approved after three years from the twentieth day after the close of the monthly period for which the overpayment was made, or, with respect to a determination made under Chapter 4 of this part, after six months from the date the determination becomes final, or after six months from the date of overpayment, whichever period expires the later, unless a claim therefor is filed with the board within such period. No credit shall be approved or allowed after the expiration of such period unless a claim for credit is filed with the board within such period.

33163. Every claim for refund or credit shall be in writing and shall state the specific grounds upon which it is founded.

33164. Failure to file a claim within the time prescribed in this article constitutes a waiver of all demands against the State on account of the overpayment

33165. Within 30 days after disallowing any claim in whole or in part, the board shall serve written notice of its action on the claimant in the manner prescribed for the service of a notice of a deficiency determination.

33166. Interest shall be computed, allowed, and paid upon any overpayment of any amount of tax at the rate of one-half of 1 percent per month from the twentieth day of the calendar month following the monthly period for which the overpayment was made, but no refund or credit shall be made of any interest imposed upon the claimant with respect to the amount being refunded or credited

The interest shall be paid:

(a) In the case of a refund, to the twentieth day of the calendar month following the date upon which the claimant is notified by the board that a claim may be filed or the date upon which the claim is certified to the State Board of Control, whichever date is the earlier

(b) In the case of a credit, to the same date as that to which interest is computed on the tax or amount against which the credit is applied.

33167. If the board determines that any overpayment has been made intentionally or by reason of carelessness, it shall not allow any interest thereon.

Article 2. Suit for Refund

33171. No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action, or proceeding in any court against this State or against any officer of the State to prevent or enjoin the collection under this part of any tax or any amount of tax required to be collected.

33172. No suit or proceeding shall be maintained in any court for the recovery of any amount alleged to have been erroneously or illegally determined or collected unless a claim for refund or credit has been duly filed.

33173. Within 90 days after the mailing of the notice of the board's action upon a claim for refund or credit, the claimant may bring an action against the board on the grounds set forth in the claim in a court of competent jurisdiction in any city or county in the State in which the Attorney General has an office for the recovery of the whole or any part of the amount with respect to which the claim has been disallowed.

33174. If the board fails to mail notice of its action on a claim within six months after the claim is filed, the claimant may, prior to the mailing of notice by the board of its action on the claim, consider the claim disallowed and bring an action against the board on the grounds set forth in the claim for the recovery of the whole or any part of the amount claimed as an overpayment.

33175. Failure to bring a suit or an action within the time specified in this article constitutes a waiver of all demands against the State on account of an alleged overpayment.

33176. If judgment is rendered for the plaintiff, the amount of the judgment shall first be credited on any amounts due from the plaintiff under this part, and the balance of the judgment shall be refunded to the plaintiff. In any judgment interest shall be allowed at the rate of 6 percent per annum upon the amount found to have been illegally collected from the date of payment of the amount to the date of allowance of credit on account of the judgment or to a date preceding the date of the refund warrant by not more than 30 days, the date to be determined by the board.

33177. A judgment shall not be rendered in favor of the plaintiff in any action brought against the board to recover any amount paid when the action is brought by or in the name of an assignee of the person making the payment or by any person other than the person making the payment.

### Article 3. Recovery of Erroneous Refunds

33181. The board may recover any refund or part thereof which is erroneously made and any credit or part thereof which is erroneously allowed in an action brought in a court of competent jurisdiction in any city or county in this State in which the Attorney General has an office, in the name of the people of the State of California.

33182. The Attorney General shall prosecute the action, and the provisions of the Code of Civil Procedure relating to service of summons, pleadings, proofs, trials, and appeals are applicable to the proceedings.

### Article 4. Cancellations

33191. If any amount in excess of one hundred dollars ($100) has been illegally determined, the board shall set forth in its records and certify to the State Board of Control the amount determined in excess of the amount legally due and the person against whom the determination is made. If the State Board of Control approves, it shall authorize the cancellation of the amount upon the records of the board. If an amount not exceeding one hundred dollars ($100) has been illegally determined, the board without certifying the fact to the State Board of Control shall authorize the cancellation of the amount upon the records of the board.

## CHAPTER 7 ADMINISTRATION

33201. The board shall enforce the provisions of this part and may prescribe, adopt, and enforce rules and regulations relating to the administration and enforcement of this part. The board may prescribe the extent to which any ruling or regulation shall be applied without retroactive effect.

33202. The board may employ accountants, auditors, investigators, assistants, and clerks necessary for the efficient administration of this part and may designate representatives to conduct hearings or perform any other duties imposed by this part or other laws of this State upon the board.

33203. Every operator and producer and every person dealing in or transporting oil or gas shall keep such records, receipts, charts, invoices, and other pertinent papers and information with respect to producing, severing, refining, transporting, or distributing oil or gas in such form as the board may require.

33204. The board or its representatives may examine the books, papers, records, files, meters, charts, and equipment of any operator or producer or any other person or any department or office of the State to verify the accuracy of any return made, or, if no return is made, to ascertain and determine the amount required to be paid under this part.

33205. Every transporter of oil or gas within, into, or out of this State shall be required to furnish the board such information relative to the transportation of such oil or gas as the board may require. The board or its representatives may examine and inspect bills of lading, waybills, or other similar documents and such books and records as may relate to the transportation of oil or gas in the hands of the transporter; provided, however, that in the case of a common carrier using bills of lading or waybills prescribed or approved by the Interstate Commerce Commission, such common carrier shall only be required to keep the usual records at an office or offices in this State where such records are customarily kept.

33206. It is unlawful for the board or any person having an administrative duty under this part to make known in any manner whatever the business affairs, operations, or information obtained by an investigation of records and equipment of any person visited or examined in the discharge of official duty, or the amount or source of income, profits, losses, expenditures, or any particular thereof, set forth as disclosed in any report, or to permit any report or copy thereof or any book containing any abstract or particulars thereof to be seen or examined by any person. However, the Governor may, by general or special order, authorize examination of the records maintained by the board under this part, by other state officers, by tax officers of another state, by the Federal Government, if a reciprocal arrangement exists, or by any other person.

Nothing in this section shall prevent the board from exchanging with officials of other states information concerning interstate transportation of oil or gas.

The board shall transmit the payments to the State Treasurer to be deposited in the State Treasury to the credit of the Severance Tax Fund, which fund is hereby created

33212 All money deposited in the Severance Tax Fund under this part shall, upon order of the State Controller, be drawn therefrom for refunds under his part or be transferred to the General Fund of this State.

CHAPTER 9. VIOLATIONS

## MESSAGES FROM THE GOVERNOR

The following veto messages from the Governor were received, and read:

**Veto Message Concerning Assembly Bill No. 159**

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 11, 1959

*To the Honorable Members of the Assembly*
*State of California, Sacramento*

GREETINGS. I am returning, herewith, without my signature,

**Assembly Bill No. 159** entitled: "An act to add Section 19828 to the Health and Safety Code, relating to contractors"

My objections to this bill are as follows:

Assembly Bill No. 159 adds Health and Safety Code Section 19828, prohibiting the issuance of building permits by cities or counties unless the applicant submits a statement to the effect that he is licensed by the State as a contractor or is exempt from such licensing.

I have no objection to the bill on its merits. However, it is in conflict with Assembly Bill No. 712, also passed by the Legislature and now before me for consideration. Assembly Bill No. 712 adds a similar prohibition to Labor Code Section 3800, which is part of the Workmen's Compensation Law of the State. The Labor

Code section contains an exemption, as to permits for work costing $100 or less, which would automatically become applicable in the event Assembly Bill No. 712 is approved, thereby creating the conflict.

This discrepancy between the two bills, which are intended to accomplish the same purpose, has been discussed with Assemblyman MacBride, who is the author of both bills, and he concurs in the objection herein set forth

I am, therefore, returning Assembly Bill No. 159 without my signature

Respectfully submitted,

EDMUND G. BROWN, Governor

Assembly Bill No. 159 ordered to the unfinished business file.

**Veto Message Concerning Assembly Bill No. 237**

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 12, 1959

*To the Honorable Members of the Assembly*
*State of California, Sacramento*

GREETINGS. I am returning, herewith, without my signature,

**Assembly Bill No. 237** entitled: "An act to amend Sections 3819 and 3929 of the Elections Code, relating to occupational designations."

My objections to this bill are as follows:

This bill attempts to clarify the law to insure that a candidate, successful in a special election to fill an unexpired term at the primary election, can use the new designation of his office on the general election ballot. However, in drafting the amendments to the present law this intent is not carried out, and the wording of the present proposal would actually deny the successful candidate the right to use the new designation.

This discrepancy has been discussed with Assemblyman Conrad, the author of the bill, and he concurs in the objections herein set forth.

I am, therefore, returning Assembly Bill No. 237 without my signature.

Respectfully submitted,

EDMUND G. BROWN, Governor

Assembly Bill No. 237 ordered to the unfinished business file.

**Veto Message Concerning Assembly Bill No. 341**

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 12, 1959

*To the Honorable Members of the Assembly*
*State of California, Sacramento*

GREETINGS: I am returning, herewith, without my signature,

**Assembly Bill No. 341** entitled: "An act to add Section 851.5 to the Penal Code, relating to telephone calls by arrested persons".

My objections to this bill are as follows:

This bill would permit a prisoner immediately upon his booking to make not less than three completed telephone calls.

I am advised by those who maintain our jails that the enactment of this bill would increase costs for personnel who should be present during such telephone calls, as well as the time consumed by employees in logging the calls.

In Los Angeles County the installation of additional facilities to comply with the terms of this bill would decrease available jail facilities badly needed because of present overcrowding.

In addition, the enactment of this legislation would result in delays in transporting prisoners from outlying areas to the central jail in Los Angeles County

However, I believe in the principle of the measure, and I would not be adverse to approving a similar measure limited to one such telephone call.

I understand the author has a bill which could be amended to accomplish this purpose—to-wit, Assembly Bill No. 342, now on the Assembly Inactive File

I am, therefore, returning Assembly Bill No. 341 without my signature.

Respectfully submitted,

EDMUND G. BROWN, Governor

Assembly Bill No. 341 ordered to the unfinished business file.

Employee and employer federal contributions for such retroactive period shall be paid from the State Employees' Retirement Fund and charged to the account of the employer. There shall be transferred to the employer account from the member's accumulated contributions an amount equal to employee federal contributions charged to the account of the employer for such member. If said contract is or has

been amended to provide for the payment of retroactive employee and employer contributions in the manner provided in this section, it may be further amended to provide that the amount by which (1) the total normal contributions of each member for the period subsequent to the effective date of coverage under the federal system less the total normal contributions which would have been credited to the account of such member had the reduced rate of contribution provided in the amended contract with the public agency been in effect from and after the aforesaid date of coverage exceeds (2) the employee federal contributions for such member for the period after said date of coverage shall be paid to such member.

SEC. 10. Chapter 6.5 (commencing at Section 20780) is added to Part 3, Division 5, Title 2 of said code, to read:

CHAPTER 6.5. FEDERAL CONTRIBUTIONS

20780. Every state member covered by the federal-state agreement providing coverage under the federal system for such member shall be liable for employee federal contributions.

20781. Employee federal contributions shall be withheld by the state department or agency that disburses funds in payment of salaries and wages to such members. Such department or agency shall transmit to the board all such employee federal contributions and employer federal contributions, together with all wage, contribution and other reports required to fulfill the obligations of the State under the federal system. Such agencies and departments are hereby authorized to correct errors and to make any and all adjustments with respect to all

covered employees and to the funds from which salary and wage payments and contributions are made as may be required to fulfill the obligations of the State under the federal system or in compliance with any of the provisions of this part.

20782 From the General Fund in the State Treasury there shall be transferred from time to time, to the Old Age and Survivors Insurance Revolving Fund the amount of employer federal contributions for those state members covered by the agreement whose compensation is paid from either:

(a) The General Fund.

(b) Funds of or funds appropriated to the university.

(c) The Vocational Education Fund, the Vocational Rehabilitation Fund, or any other fund received, in whole or in part, as a donation to the State under restrictions preventing its use for the payment of employer federal contributions.

(d) Moneys in the Water Resources Revolving Fund, where such moneys were derived from an appropriation from the General Fund.

(e) The Senate Contingent Fund or the Assembly Contingent Fund.

20783. From each other fund in the State Treasury there shall be transferred from time to time to the Old Age and Survivors Insurance Revolving Fund the amount of employer federal contributions for those state employees covered by the agreement whose compensation is paid from that fund and in respect to which compensation the employer's federal contribution is not required to be made from the General Fund.

20784. The board shall certify to the Controller from time to time the total amount of employer federal contributions required to meet the obligations of the State under the federal system with respect to wages paid to state and university employees and payable from the general and each other fund in the State Treasury, and the Controller shall thereupon transfer such employer federal contributions from each such fund, respectively to the Old Age and Survivors Insurance Revolving Fund.

20785. There is hereby appropriated the amount necessary from the funds designated, to provide, (a) the payments required by this chapter to be made by the State to the Old Age and Survivors Insurance Revolving Fund, which payments are declared to be continuing obligations of the State, (b) the amounts payable pursuant to Sections 20786, 20787, 20788, and (c) in addition thereto the sum of _____ dollars ($_____) from the General Fund to the Department of Finance for the purpose of administering the provisions for inclusion of state members in the federal system, to be allocated by the Director of Finance in such amounts as he may determine in augmentation of the support appropriations of the University of California, the State Controller and the Board of Administration of the State Employees' Retirement System made by the Budget Act of 1959; provided, however, that the Director of Finance may return to this portion of the appropriation by executive order any sum thus allocated and may reallocate such sums as herein provided and amounts thus allocated or reallocated shall, for accounting purposes, be deemed to be augmentations and increases of the support appropriations of the agencies and for the fiscal years herein specified.

20786. Employee federal contributions required of state and university employees with respect to salaries and wages paid for services rendered after the effective date of coverage of such employees under the federal system and prior to the time employee federal contributions are first deducted from the salaries and wages of such employees, shall be paid from the State Employees' Retirement Fund to the Old Age and Survivors Insurance Revolving Fund. Such employee federal contributions shall be charged in the accounts of the state system to the State's accumulated contributions for current service and shall be regarded as a loan to each such employee and shall be a lien on any salaries or wages payable to the employee and on any amounts payable by the state system to the employee or on his account. Said loan shall be repaid by the employee as follows:

(a) Such employee federal contributions with respect to employees who were members of the state system during the period extending from the effective date of coverage under the federal system until the time employee federal contributions are first deducted from the salaries and wages of such employees shall be deducted from the member's accumulated contributions made with respect to services performed during said period and which are to his credit in the state system, to the extent that such contributions are in excess of what they would have been had the contributions to the state system during said period been made as provided in Section 20601.5, disregarding interest.

(b) Such employee federal contributions as are not deductible from member's accumulated contributions in the state system as provided in subdivision (a) of this section shall be repaid by the employee by one cash payment to the state system or by payroll deductions during current employment or any subsequent employment of such employee extending over a period determined by the board and subject to minimum payments as determined by the board. The agency making such payroll deductions shall remit to the board monthly all amounts so withheld and shall file with the board appropriate information relating thereto. All such repayments shall be remitted by the board to the State Employees' Retirement Fund and shall be credited in the accounts of the state system to the account to which the loan was charged.

For the purposes of this section, upon termination of an employee's service and pending a determination of the amount to be repaid, the amount of retroactive employee federal contributions to be repaid by an employee may be estimated and such estimated amount shall be withheld from any refund of accumulated retirement contributions or salaries and wages payable to such employee.

20787. The board shall certify to the State Controller the total amount of employee federal contributions required for retroactive coverage under the federal system and the Controller shall thereupon transfer such amount from the State Employees' Retirement Fund to the Old Age and Survivors Insurance Revolving Fund.

20788. Employer federal contributions required with respect to salaries and wages paid on or before the execution date of the modification of the agreement set forth in Section 22210 of this code for services rendered after the effective date of coverage of state and university employees, shall be paid from the State Employees' Retirement Fund

to the Old Age and Survivors Insurance Revolving Fund and shall be charged in the accounts of the state system to the State's or the public agency's accumulated contributions for current service, as the case may be.

The board shall certify to the State Controller the total amount of employer federal contributions required for retroactive coverage under the federal system and the Controller shall thereupon transfer such amount from the State Employees' Retirement Fund to the Old Age and Survivors Insurance Revolving Fund.

SEC. 11. Section 20989 is added to said code, to read:

20989. During the effective period of this section, the compulsory retirement provisions of this article relating to local miscellaneous members shall be inoperative as to such members under Chapter 4.5 (commencing at Section 20580).

This section shall remain in effect until the first day of the second month following that in which the modification to the federal-state agreement including such members in the federal system is executed, or, in the event coverage procedures are concluded without inclusion of such members in the federal system, upon such conclusion.

SEC. 12. Section 21251.14 is added to said code, to read:

21251.14. The fraction of final compensation, for purposes of calculating the current service pension under Section 21251.1 based on service in any period after the effective date of coverage of a member under the federal system, shall be reduced from 1/60 to 1/90 as applied to that part of the member's final compensation which does not exceed the monthly equivalent of the maixmum annual amount subject to contribution under the federal system during such period. Any change in such maximum amount shall affect allowances based on service after the date of such change only.
