### Explanation of Votes

We voted against Assembly Bill No. 2727 for these reasons:

1. In some ways it weakens the present law with respect to second offenders.
2. It is opposed by law enforcement and correctional authorities.
3. It deprives the courts of discretionary power, which will make it more difficult to bring narcotic offenders to justice.
4. The present law is stronger in that it provides for second offense a sentence of from 10 years to life, whereas Assembly Bill No. 2727 provides a sentence of 10 years to 40 years.

Had I been present I would have voted "Aye" on Assembly Bill No. 2674.

**House Resolution No. 340**

Relative to the salaries of laborers, workmen and mechanics employed by the State of California

WHEREAS, Section 18853 of the Government Code provides a specific method of setting salaries for "laborers, workmen and mechanics" employed by the State and permits the State Personnel Board to establish different salaries for the various localities of the State depending upon the local prevailing rate; and

WHEREAS, It is the intent of this section that, when required by the needs of the State, salaries for such employees be set at the local prevailing rate rather than as a statewide salary range; and

WHEREAS, It has been the long-standing practice to compensate many such employees at the local prevailing rate; and

WHEREAS, The State Personnel Board did, on June 2, 1956, change the salaries of large numbers of employees, particularly those in the building trades classes,

from an hourly rate to a lower monthly salary range and place the employees on a monthly "red-circle rate"; and

WHEREAS, This action by the State Personnel Board created extensive dissatisfaction among the affected employees and has adversely affected their morale and at the same time has added to the difficulty of recruiting and obtaining competent employees by the State; and

WHEREAS, It appears that the main factor taken into consideration by the State Personnel Board was the permanency of employment rather than the nature of the work performed and the skills required; and

WHEREAS, The work appears to be as permanent for employees in private industry as those in state service and therefore such factor was given greater weight by the State Personnel Board than the prevailing practice justifies; now, therefore, be it

*Resolved by the Assembly of the State of California*, That the State Personnel Board, at its earliest opportunity, review its action taken on June 2, 1956, reducing the salaries for "laborers, workmen and mechanics" employed in state service as the matter relates to the permanency of similar positions and work in private industry and particularly in relation to the work performed and the skills required, and that in making such review the State Personnel Board place primary emphasis on the nature of the work performed and the skills required in making its review and its comparisons with similar positions and work in private industry; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the State Personnel Board.

On the date fixed by the board, pursuant to Sections 21252 and 21253 of this part for division of the system with respect to such members, each member in employment on that date to whom this article otherwise may apply shall be given an opportunity to elect to be subject to this article.

21385. This article shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this article by amendment to its contract made in the manner prescribed for approval of contracts, except that an election among the employees is not required, or, in the case of contracts made after the time this article takes effect, by express provision in such contract making the contracting agency subject to the provisions of this article.

This article shall not in any event apply to employees of a contracting agency whose services are included in the federal system. Members who are employees of a contracting agency when such agency becomes subject to this article and whose services are not included in the federal system shall have the right to elect to be subject to it. Employees of such contracting agency becoming members thereafter shall be subject to this article without election.

21386. The rate of contribution of a member subject to this article shall include, in addition to his normal rate, two dollars ($2) per month or fraction thereof, or

SEC. 25. Section 20132 of said code is amended to read:

20132. At the end of each fiscal year the board may credit to all contributions held in the Retirement Fund at June 30th of the then current fiscal year, such interest in excess of the current rate as it deems proper in the light of the earnings on the Retirement Fund during that fiscal year, but not more than the difference between such earnings and the interest credited at the current rate to contributions during that year *plus the amount of earnings applied to costs of administration of the system*. In the calculation of benefits under any mortality table adopted by the board, only the current rate of interest shall be used regardless of any additional interest allowed on contributions under this section.

SEC. 26. Section 20202.5 is added to said code, to read:

20202.5. Costs of administration of the system shall be paid from interest income from the Retirement Fund beginning with the Fiscal Year 1959-60; provided, that the amount of income so applied in any fiscal year may not exceed ten hundredths (0.10) of 1 percent of the investments of the Retirement Fund at book value as of the close of the preceding fiscal year.

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO RE-REFERENCE OF BILLS FROM ONE COMMITTEE TO ANOTHER

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, June 8, 1959

*Hon. Joseph M. Kennick*
*Assembly Chamber*

**Re-reference of Bills From One Committee to Another—No. 17025**

*Question*

DEAR MR. KENNICK: You have called our attention to Senate Bill No. 923, which was passed out of the Assembly Committee on Social Welfare with a recommendation that the bill be filed, and that the subject matter be referred to the Committee on Rules for assignment to the proper interim committee for study. The bill was ordered filed, and the subject matter referred to the Committee on Rules (Assembly Journal, May 28, 1959, page 4288).

You ask whether a motion would now be in order to re-refer the bill to the original committee for rehearing, or to order that the bill be returned to the Assembly daily file for further action thereon.

*Opinion and Analysis*

We believe such a motion made in the regular order of business would be in order.

Each bill in the Assembly is the property of the House. The membership by majority vote may order bills referred to committees, withdrawn from committees, re-referred from one committee to another, or re-referred from the daily file to a committee (Assembly Standing Rules Nos. 52, 53, 101, 102), except where a bill has been stricken from the file upon adoption of a motion to postpone indefinitely or a motion to strike, in which case it may not be acted upon again during the session (Assembly Standing Rules Nos. 92 and 103).

The bill in question, having been ordered to be filed, is in the possession of the Chief Clerk, not the Rules Committee. Only the subject matter thereof has been referred to the Rules Committee for assignment to a proper interim committee. Therefore no motion to withdraw the bill from the Rules Committee is necessary, nor do we think any motion is necessary with respect to the "subject matter" of the bill, that being analogous to a direction to provide for an interim study of a particular topic.

Thus, a motion would be proper in our opinion, by which the Assembly directs that Senate Bill No. 923 be re-referred to committee for further hearing or be placed on the daily file for further action

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By ROBERT G. HINSHAW, Deputy

### Consideration of House Resolution No. 318

By Mr. Thomas:

### House Resolution No. 318

Relative to a study by the Assembly Committee on Interstate Co-operation of a port authority for Los Angeles-Long Beach Harbor

WHEREAS, There is unnecessary duplication of facilities and administration by the Cities of Los Angeles and Long Beach in connection with their harbors; and

WHEREAS, These harbors could be more efficiently and economically administered by a single authority which would accomplish the following desirable ends:

1. Attract more trade and commerce through improved facilities.
2. Reduce the tax burden on the public.
3. Cut administrative costs.
4. Provide a vehicle for co-ordinated future planning in the area.
5. Remove the management of key transportation facilities from politics.
6. Provide a compact administrative setup allowing better salaries with which to attract the most competent men.
7. Broaden the credit base and make bonds more saleable.
8. Reduce intra area competition and put both harbors on a more competitive footing with other cities.
9. Allow a greater administrative elasticity to the management of enterprises presently encumbered with restrictions.
10. Pool assets and expenditures in a more vigorous area-wide promotion program.
11. Improve the position or bargaining power of the harbors in lease negotiations; and

WHEREAS, Port authorities have been established and are operating successfully in other states, including New York, Delaware, Maryland, Massachusetts, North and South Carolina, Virginia, Texas, Louisiana and Washington; now, therefore, be it

*Resolved by the Assembly of the State of California*, That the subject matter of the organization and administration of the port authorities in the states referred to hereinabove and the desirability and feasibility of establishing a port authority for the operation of the Los Angeles and Long Beach Harbors, including the matters referred to in this resolution and any other matters pertaining thereto, is assigned to the Committee on Rules for reassignment by it to an appropriate interim committee for study, which committee shall report thereon to the Assembly not later than the fifth calendar day of the 1961 Regular Session of the Legislature.

Resolution read, and adopted by the following vote:

AYES—Bruce F. Allen, Don A. Allen, Backstrand, Bane, Beaver, Bee, Belotti, Biddick, Bradley, Britschgi, George E. **Consideration of House Resolution No. 316**

By Mr. O'Connell:

**House Resolution No. 316**

Relative to recodification of the Penal Code

WHEREAS, The Penal Code was enacted in 1872 and numerous provisions have been added to it over a period of 87 years; and

WHEREAS, Much of the Penal Code is characterized by archaic language, undue prolixity, real and apparent conflicts, obsoleteness, illogical organization, and failure to reflect the interpretations of the courts; and

WHEREAS, Persons seeking to apprise themselves of the criminal law of this State and who, for this purpose, logically refer to the Penal Code, are in grave danger of being misled as to the law because so many laws of a criminal nature are in codes other than the Penal Code; and

WHEREAS, It is basic that the people of this State, in order to avoid prohibited conduct, are entitled to have the law presented in understandable convenient form; and

WHEREAS, It is desirable that peace officers in this State, on whom is imposed the duty of enforcing the State's criminal laws, and who are often in situations requiring immediate reference to the law, be able, if this is feasible, to have the laws they must enforce set forth clearly in a single volume, to which ready reference can be made; now, therefore, be it

*Resolved by the Assembly of the State of California*, That the subject matter of the feasibility of recodifying the Penal Code in such manner as to eliminate the undesirable characteristics described above in this resolution and to include therein criminal laws found in other codes of this State, is assigned to the Committee on Rules for re-assignment to an appropriate interim committee for study, which committee shall report thereon to the Assembly not later than the fifth calendar day of the 1961 Regular Session of the Legislature

*Our Father and Our God*, If, in these recent sessions of the Assembly, we have been keen in judgment, decisive in action, and clear in our thinking, it is because Thou hast been with us. If we have comforted one another, it is because we ourselves have been comforted of Thee. Grant us patience to endure the failure of causes that seemed important to us, and humility to outgrow those things in which we have triumphed. We leave our decisions, not in the lap of whimsical gods, but in Thy merciful hands, as we gird ourselves for great issues yet to be resolved. We would hear the words of Christ: "Come unto me all ye that labor and are heavy laden, and I will give you rest"—AMEN.

### PRAYER

The following prayer was offered by the Chaplain, Rev. R. Wilbur Simmons:

*We Thank Thee, O God,* For the safeguard of two groups of lawmakers, and for the conscientious work that is revealed in Senate bills. How they got that way we may not always understand, but help us, O God, to confirm in their proposals all that is good for California, and give us the wisdom to deny whatever would hurt the State. Enable Assemblymen in conference and committee to stand up boldly for helpful compromise, but never at the expense of moral and ethical principle. Let there be an abrupt end to passing unpopular decisions from one body to another, and in all significant legislation let both bodies stand helpfully together, thus building a better world.—AMEN

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO WATER DEVELOPMENT

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, June 10, 1959

*Hon. Bruce F. Allen*
*Assembly Chamber*

**Water Development—No. 17243**

*Question*

DEAR MR ALLEN: You have referred us to the following language contained on page 2, lines 22 to 24, inclusive, of Senate Bill No. 1106, as amended in Senate May 28, 1959:

> "For the purposes of this chapter the Sacramento-San Joaquin Delta shall be deemed to be within the watershed of the Sacramento River."

You have asked whether this language gives a priority under the "watershed protection" provisions (Secs. 11460-11463, incl, Wat. C.) to the entire San Joaquin Valley and Tulare Basin.

*Opinion and Analysis*

The "watershed protection" provisions, which are made applicable by the bill to all facilities acquired or constructed as a part of the State Water Resources Development System with funds made available under the bill (see proposed Sec. 12931, Wat. C.), are designed to afford protection to "a watershed or area wherein water originates, or an area immediately adjacent thereto which can conveniently be supplied with water therefrom" (Sec. 11460, Wat. C.).

The language to which you have referred would, for the purposes of the bill, declare the Sacramento-San Joaquin Delta to be within the watershed of the Sacramento River Thus, to the extent the area within the watershed of the Sacramento River is protected by the "watershed protection" provisions, the Sacramento-San Joaquin Delta would likewise be protected.

As to whether any or all of the San Joaquin Valley or Tulare Basin would likewise be protected would depend upon the determination of two facts:

(1) Whether the area in question is "immediately adjacent" to the watershed of the Sacramento River (including the Sacramento-San Joaquin Delta); and

(2) Whether the area in question "can conveniently be supplied with water" from the watershed of the Sacramento River.

We believe that both of these facts would have to be determined in each particular case and that no general answer can be given to your question. For example, if at some future date after the Department of Water Resources had constructed and commenced operating certain facilities of the State Water Resources Development System, the question of the availability of water in a certain portion of the Tulare Basin under the "watershed protection" provision arose, it would have to be determined whether the area in question was "immediately adja-

cent" to the watershed of the Sacramento River (including the Sacramento-San Joaquin Delta) and whether it could "conveniently be supplied with water therefrom."

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By RAY H. WHITAKER, Deputy

Two copies to Hon. Hugh M. Burns,
pursuant to Joint Rule No. 34.

There exists a shortage of parking and student activity facilities on the campuses of the various state colleges. The Federal Government is offering to guarantee the purchase of revenue bonds for such purposes at a favorable rate of interest. The State is currently constructing residence halls partially financed from this source. To insure that these presently financed facilities can be kept completely filled so as to insure repayment of the loans, parking facilities are needed and can be financed within the amount of the original loan. These parking facilities for dormitory residents should be available as close to the time the residence halls are completed as possible. The estimated completion date of most of the residence halls is September 1, 1959. Therefore it is necessary to commence work on the parking facilities by July 1, 1959."

Senate Second Committee on Conference

JESSE M. UNRUH,

GEORGE G. CRAWFORD
Assembly Second Committee on Conference

June 12, 1959

I have signed the conference report in order that Assembly Bill No. 1172, although emasculated by Senate amendments, might be passed and necessary revenues be received by the State of California.

I deplore the action of the Senate for removing cigars from the provisions of this bill and imposing the stamp method for the collection of the cigarette tax. I feel that not to tax cigar smokers too is discriminatory and that the expense of stamps is unnecessary. I recognize, however, the futility of attempting to secure passage of *Assembly Bill No. 1172 without these amendments and I am acceding to the Senate* demands, wrong as they are, only in the interest of assuring that we will have the benefit of this tax in balancing the 1959-60 Budget.

The Senate members of the conference committee have at least conceded that cost *or* 2 percent, whichever is smaller, shall be paid for affixing the stamps It is my hope that this small concession will result in some savings in the collection of this tax.

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO APPLICABILITY OF CHAPTER 201, 1959 REGULAR SESSION, TO SALE OF INSURANCE

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, June 2, 1959

*Hon. Jesse M. Unruh*
*Assembly Chamber*

**Applicability of Chapter 201 of the 1959 Regular Session (Assembly Bill No. 500) to the Sale of Insurance—No. 16107**

DEAR MR. UNRUH: You have called to our attention Section 1802.2 of the Civil Code, as added by Chapter 201 of the 1959 Regular Session, which defines "services" for purposes of the new Unruh Act which relates to credit and installment sales, and ask the following question:

*Question*

Would the definition of the term "services" found in Section 1802.2 of the Civil Code as enacted in Chapter 201 of the 1959 Regular Session cover the arrangement by which the insurer permits the insured to pay the insurance premiums in installments?

*Opinion*

In our opinion the term "services" as defined in Section 1802.2 of the Civil Code, as enacted in Chapter 201 of the 1959 Regular Session, would not include the arrangement by which an insured is allowed to pay his insurance premiums in installments rather than in one lump sum.

*Analysis*

Section 1802.2 of the Civil Code defines "services" as including "services furnished in connection with * * * the providing of insurance * * * ."

In question is the arrangement frequently entered into by the insurer and the insured by which the insured is allowed to pay his insurance premium in installments rather than in one lump sum. The payments

under this arrangement normally include the addition of an "installment payment fee" which is said to be added to cover the greater expense to the insurer of receiving the payments by installments.

The general purport of the Unruh Act, as indicated by an examination of its specific provisions, is to regulate credit and installment sales with emphasis placed upon controlling the manner and method of financing such contracts The determination of the question here presented must then turn upon whether the essential nature of the arrangement entered into by the insured and the insurer is one primarily of installment financing or rather simply the sale of insurance for a different "price" or premium depending on the time paid. In other words, the distinction is between "services furnished in connection with * * * the providing of insurance * * * " and the insurance sale transaction itself. It would seem that this act was not intended to regulate the primary insurance sale transaction itself.

It is well established that in the law of insurance, the "premium" means the price or amount paid to the insuring company for the insurance coverage (*State Farm etc. Ins. Co.* v. *Carpenter,* 31 Cal. App. 2d 178). It is equally well established that the expense of administering the insurance is a legitimate component of the premium (*State Comp. Ins. Fund* v. *McConnell,* 46 Cal. 2d 330). Therefore, where the sole basis for the imposition of the additional "installment payment fee" and the determination of its amount is the added expense to the company of the additional installment collection it becomes a legitimate component of the "premium" which is the price the insured chooses to pay when he chooses to pay in installments rather than in a lump sum. (See *Allstate Ins. Co.* v. *State Board of Equalization,* 169 A.C.A. 162). This is more in the nature of the basic consideration or "quid pro quo" for the insurance coverage offered by the insurer than installment credit charges. Therefore, we conclude that a court would probably find such an arrangement between the insurer and the insured to be not included under the definition of "services" found in Section 1802.2 of the Civil Code as enacted at the 1959 Regular Session and in turn would hold the provisions of the Unruh Act inapplicable.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By RICHARD J. WYLIE, Deputy

## COMPUTATION BY LEGISLATIVE ANALYST

JOINT LEGISLATIVE BUDGET COMMITTEE
CALIFORNIA LEGISLATURE
SACRAMENTO, June 12, 1959

*Hon. S. C. Masterson*
*Assemblyman, 11th District*
*State Capitol, Sacramento*

DEAR ASSEMBLYMAN MASTERSON: Pursuant to your request, we have computed below, by year, the interest and principal costs on bonds issued under Senate Bill 1106 as far into the future as we have been able to secure data from the Department of Water Resources. A simple assumption that the bonds will be repaid over 40 years after a 10-year

development period is the best approximation we can make, at this time, of the bond terms.

| *Year* | *Cumulative total bonds issued* | *Annual interest at 4 percent* | *Annual principal repayment* |
|---|---|---|---|
| 1962 | $ 1,490,000 | $ 59,600 | |
| 1963 | 144,500,000 | 5,780,000 | |
| 1964 | 261,000,000 | 10,440,000 | |
| 1965 | 366,800,000 | 14,672,000 | |
| 1966 | 489,500,000 | 19,850,000 | |
| 1967 | 681,900,000 | 27,276,000 | |
| 1968 | 879,200,000 | 35,168,000 | |
| 1969 | 1,020,700,000 | 40,828,000 | |
| 1970 | 1,119,800,000 | 44,792,000 | |
| 1971 | 1,190,900,000 | 47,636,000 | |
| 1972 | 1,232,700,000 | 49,308,000 | $37,250 |
| 1973 | 1,267,300,000 | 50,692,000 | 3,612,500 |
| 1974 | 1,298,000,000 | 51,920,000 | 6,525,000 |
| 1975 | 1,319,300,000 | 52,772,000 | 9,170,000 |
| 1976 | 1,326,400,000 | 53,056,000 | 12,237,500 |
| 1977 | 1,348,400,000 | 53,936,000 | 17,047,500 |
| 1978 | 1,397,100,000 | 55,884,000 | 21,980,000 |
| 1979 | 1,453,800,000 | 58,152,000 | 25,517,500 |
| 1980 | 1,523,400,000 | 60,936,000 | 27,995,000 |
| 1981 | 1,599,000,000 | 63,960,000 | 29,772,500 |
| 1982 | 1,633,100,000 | 65,324,000 | 30,817,500 |
| 1983 | 1,639,500,000 | 65,580,000 | 31,682,500 |
| | | $928,021,600 | $216,394,750 |

We might observe that there is a probability that all of the general obligation bonds will be issued and expended. Section 12938 of Senate Bill No. 1106, page 7, starting at line 10, states "To the extent that money is expended from the California Water Fund for construction of the State Water Facilities, proceeds from the sale of bonds authorized pursuant to this act in an equal amount is appropriated and *shall* be expended for the construction of such additional facilities of the State Water Resources Development System as the department shall determine to be necessary and desirable to meet local needs" and to augment supplies of water in the Delta. We interpret this as language which will have the effect of making mandatory the issuance of all bonds irrespective of California Water Fund accruals.

Further, the determination of the size of the bond issue has allowed for no increase in prices over the 25-year construction period involved and it has been assumed that complimentary federal expenditures of $270,800,000 will be made in the Delta, at San Luis and at Oroville. Of this amount, only the $70,000,000 of assumed federal flood control expenditure at Oroville is reasonably assured at this time by any congressional action. Increasing costs and lack of federal expenditures

may require greater state expenditures. All of these factors lead us to conclude that it is highly probable that all the bonds will be issued.

I hope this provides the information you desire.

Sincerely yours,

A. ALAN POST, Legislative Analyst

*Gracious and Loving God,* Remembering that a gentleman farmer has been described as one who puts more into the soil than he takes out, so must be the character of a gentleman in all of life, and in this Assembly. In conversation, personal encounter, committee, and Assembly sessions make us to be men who more than pay the rent, adding the spice of good humor when it is needed, furnishing information when there is a lack of it, serving others first and ourselves not at all, putting far more into public life than we take out. Make us to be God's men, gentle men, as we draw near to the close of a good legislative session —AMEN.

On the basis of computations made by the staff of the State Board of Equalization, the secretary of that board shall certify on or before October 1st of each year to the Superintendent of Public Instruction the factor, carried to two decimal points, by which the total assessed value of all tangible property on the current local roll of each county must be modified to conform to the statewide average assessment level of all such property.

17262. Any state department, board, or agency which allocates funds to any school district on the basis of the assessed valuation of property within the district, or which makes any computation on this basis for school building fund repayment purposes, first shall modify that part of the valuation of the district shown upon the local roll by application of the factor certified for that roll as required in Section 17261. If a district is located in more than one county, this modification shall be made by applying the factor appropriate for the assessed value of the property upon the local roll of each county within which the district is located.

17263. Notwithstanding any other provision of this code, whenever the assessed valuation of the district has been modified upward under Section 17262, the maximum general fund tax rate of that district as determined by Sections 20751 or 20803 shall be increased sufficiently to provide the funds required to offset the decrease in school equalization aid resulting from such modification of the assessed value of the district.

17264. The provisions of Sections 17262 and 17263 shall be applicable initially to funds made available to, repayments from, or tax rates of school districts during the fiscal year beginning July 1, 1960, as a result of modification of the assessed valuations of such districts determined as of the first Monday in March 1959. In succeeding fiscal years, these provisions shall apply in a like manner.

17265. The Legislature hereby declares that its sole motive in enacting this chapter is to provide a reasonable and equitable method for ascertaining the value of property located within school districts for use in connection with the administration of state laws providing for the allocation of state funds to such districts for school purposes on the basis of value. The Legislature hereby further declares that in enacting this chapter it has no intention to affect in any way, whether directly or indirectly, any determination of the assessed value of property for tax purposes; and that it has no intention by such enactment to modify any phase or aspect of

the process of property taxation in any respect whatsoever, except to the limited extent necessary for tax levy adjustment purposes in accordance with this chapter. The certification with respect to the factor applicable to the assessed value of tangible property on the local roll of any county to conform that value to the statewide average assessment level shall not be construed as a finding of the State Board of Equalization concerning the relationship between the assessed value of locally assessed property in that county to the market value thereof, but shall be regarded only as a report of the staff of that board for the purposes specified in this chapter."

### Consideration of House Resolution No. 332

By Mr. House:

### House Resolution No. 332

Relative to the California-Arizona State Boundary

WHEREAS, The California Colorado River Boundary Commission is engaged in negotiations with representatives of the State of Arizona in an endeavor to reach an agreement regarding the location of the common boundary between this State and the State of Arizona; and

WHEREAS, That boundary is described in Section 1 of Article XXI of the Constitution; now, therefore, be it

*Resolved by the Assembly of the State of California*, That the Members of this Assembly recommend to the commission that the location of the permanent boundary between the States of California and Arizona from Laguna Dam to the International Boundary approximate the center line of the present channel of the Colorado River; and be it further

*Resolved*, That, if such a location from Laguna Dam to Yuma is not acceptable to the representatives of the State of Arizona, we urge the members of the commission to insist that the southern boundary line as described in the Constitution of this State shall remain unchanged; and be it further

*Resolved*, That the Chief Clerk of the Assembly is instructed to transmit copies of this resolution to each member of the Colorado River Boundary Commission.

Resolution read, and adopted by the following vote:

**Consideration of House Resolution No. 336**

By Messrs. Masterson, Sedgwick, Waldie, and Belotti:

**House Resolution No. 336**

Relative to an archery deer season

WHEREAS, Section 4370 of the Fish and Game Code provides, in part, "In every area in which deer may lawfully be taken during the regular open season there is an archery season for the taking of deer with bow and arrow. The season for each area shall be as the commission may prescribe with a minimum interposing interval of three days immediately preceding the regular open season on deer in that area . . ."; and

WHEREAS, Provisions for this season have been in the law ever since the original enactment of such a provision in 1949; and

WHEREAS, The very nature of archery hunting, by stealth and concealed maneuver, makes it incompatible with hunting with high powered rifles; and

WHEREAS, At its May meeting the Fish and Game Commission, ignoring not only the obvious intent of the law but also the safety of bow and arrow hunters, precipitously abolished the pre-regular season archery hunting, allowing such hunting only during the regular season for firearms; now, therefore, be it

*Resolved by the Assembly of the State of California*, That the Fish and Game Commission is directed to restore the archery season, in conformity with the intent and spirit of Section 4370, at its earliest opportunity; and be it further

Consideration of House Resolution No. 340

By Messrs. Z'berg, Samuel R. Geddes, and Meyers:

House Resolution No. 340

Relative to the salaries of laborers, workmen and mechanics employed by the State of California

WHEREAS, Section 18853 of the Government Code provides a specific method of setting salaries for "laborers, workmen and mechanics" employed by the State and permits the State Personnel Board to establish different salaries for the various localities of the State depending upon the local prevailing rate; and

WHEREAS, It is the intent of this section that, when required by the needs of the State, salaries for such employees be set at the local prevailing rate rather than as a statewide salary range; and

WHEREAS, It has been the long-standing practice to compensate many such employees at the local prevailing rate; and

WHEREAS, The State Personnel Board did, on June 2, 1956, change the salaries of large numbers of employees, particularly those in the building trades classes, from an hourly rate to a lower monthly salary range and place the employees on a monthly "red-circle rate"; and

WHEREAS, This action by the State Personnel Board created extensive dissatisfaction among the affected employees and has adversely affected their morale and at the same time has added to the difficulty of recruiting and obtaining competent employees by the State; and

WHEREAS, It appears that the main factor taken into consideration by the State Personnel Board was the permanency of employment rather than the nature of the work performed and the skills required; and

WHEREAS, The work appears to be as permanent for employees in private industry as those in state service and therefore such factor was given greater weight by the State Personnel Board than the prevailing practice justifies; now, therefore, be it

*Resolved by the Assembly of the State of California,* That the State Personnel Board, at its earliest opportunity, review its action taken on June 2, 1956, reducing the salaries for "laborers, workmen and mechanics" employed in state service as the matter relates to the permanency of similar positions and work in private industry and particularly in relation to the work performed and the skills required, and that in making such review the State Personnel Board place primary emphasis on the nature of the work performed and the skills required in making its review and its comparisons with similar positions and work in private industry; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the State Personnel Board.

Resolution read, and adopted by the following vote:

AYES—Bruce F. Allen, Don A. Allen, Backstrand, Bane, Beaver, Bee, Belotti, Biddick, Bradley, Britschgi, George E. 35013. Any territory which is by consent of the owners zoned and restricted for reservoir, airport, open spaces, open spaces recreational, or municipal service purposes exclusively pursuant to a master plan for land use in any county shall not while it is so zoned be annexed to a city pursuant to Articles 2 or 5 without the consent of the owners of the land in the territory which is proposed to be annexed.

Territory so zoned shall not be considered unincorporated territory for the purposes of Sections 35158, 35326 and 35002.3. This section shall apply only to counties which have adopted a master plan for land use which includes provision for the zoning and restricting of areas for exclusively reservoir, airport, open spaces, open space recreational, or municipal service purposes, and this section shall apply to any territory which is so zoned and restricted pursuant to such plan before or after the effective date of this section.

SEC. 3. Section 35014 is added to said code, to read:

35014. Sections 35009 and 35013 shall not be construed and are not intended to prevent the providing of reasonable easements for utility services to city areas on the other side of exclusively zoned and restricted lands provided such utility services cannot be furnished by reasonable alternate means or routes. In such cases the board of supervisors of a county shall request the County Planning Commission to prepare recommendations in accord with the county's master plan for land use, for the location of utility service easements primarily, but not limited to, routes along existing roads so that such easements may be sought by a city or other utility with a minimum of disruption, damage and interference with the purposes for which the exclusively zoned and restricted areas were created.

SEC. 4. Section 35015 is added to said code, to read:

35015. Eminent domain actions by any public agency to acquire land or easements against land which has been zoned and restricted for agricultural, reservoir, airport, open spaces, open spaces recreational, or municipal service purposes exclusively pursuant to a master plan for land use in any county shall not while the land is so zoned be commenced without first securing the approval of the board of supervisors which created the zoning and restrictions.

Applications for approval of eminent domain actions may be denied unless the board of supervisors determines that there is no other reasonable site available and that the proposed use under the eminent domain action would be a more desirable use of the land than the purposes which caused the board of supervisors to zone and restrict the land. Board of supervisors shall approve or disapprove applications for eminent domain action approval as rapidly as possible and shall state the reasons for their approval or denial.

SEC. 5. Section 35016 is added to said code, to read:
35016. Sections 35009 and 35013 shall not be construed and are not intended to prevent the annexation of roads, and territory so zoned shall not be included in computing the one-half-mile limitation under Government Code Sections 35105.5 or 35304.5 as to any territory situated outside of the territory so zoned."

## MESSAGES FROM THE GOVERNOR

The following messages from the Governor were received, and read:

### Veto Message Concerning Assembly Bill No. 2278

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 15, 1959

*To the Honorable Members of the Assembly of the State of California:*

I am returning herewith without my signature

**Assembly Bill No. 2278,** an *act relating to destruction of records of the Los Angeles County Flood Control District.*

My objections to this bill are as follows:

The bill adds a new section to the Los Angeles Flood Control Act, authorizing destruction of records or documents of the district, not expressly required by law to be preserved, where such records or documents have been microfilmed or otherwise preserved on film

Another bill, Assembly Bill No. 1021, covers the same subject matter as far as *all* special districts are concerned, thereby rendering this measure unnecessary.

It is my understanding that the matter of disapproving this bill, on the ground that the subject matter thereof is adequately covered by Assembly Bill No. 1021, has been discussed with the Los Angeles County Board of Supervisors, at whose request the bill was introduced, and also with the author, and that both the supervisors and the author concur in disapproval under these circumstances.

Since I am signing Assembly Bill No. 1021, I am, therefore, returning Assembly Bill No. 2278 without my signature

Respectfully submitted,

EDMUND G. BROWN, Governor

Assembly Bill No. 2278 ordered to the unfinished business file.

### Veto Message Concerning Assembly Bill No. 499

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 16, 1959

*To the Honorable Members of the Assembly of the State of California:*

I am returning herewith without my signature

**Assembly Bill No. 499,** which adds a new section to the Public Resources Code, relating to land acquisition procedures by the State Division of Beaches and Parks.

My objections to this bill are as follows:

The bill provides that before the State Park Commission or the State Division of Beaches and Parks commences purchase or condemnation proceedings for the acquisition of property, it shall consult with and advise the legislative body of each local agency, in which any portion of the property is situated, as to the proposed project and the acquisition of property and plan for development therefor

The bill apparently assumes that land acquisition activities may be engaged in by either the State Park Commission or the Division of Beaches and Parks, and is intended to require whichever of these agencies does engage in this work to consult with each city council and county board of supervisors that might be interested in any plan for development of a state park in their area. Since most city councils and county boards of supervisors meet only once each week, this requirement of consultation with the legislative bodies might impose a difficult burden on the state agency, particularly in the case of parks located in more than one county, and where more than one city is involved

The Legislature has also passed Assembly Bill No. 720, which makes certain organizational changes in the State Park Commission and the Division of Beaches and Parks Among other matters, Assembly Bill No. 720 vests in the Department of Natural Resources, as such, the land acquisition duties presently vested in the Park Commission If Assembly Bill No. 720 is approved, the reference in Public Resources Code Section 5006.2, added by Assembly Bill No. 499, to acquisition of property by either the Park Commission or the State Division of Beaches and Parks, would be incorrect.

In addition, Assembly Bill No. 720 contains a provision requiring the Division of Beaches and Parks to consult and advise with the local planning agencies, as distinguished from the local legislative bodies, with respect to acquisition of property for State Beaches and Parks. This consultation with the local planning agencies would appear to accomplish the same general purpose as the consultation with the legislative bodies required by Assembly Bill No 499

I have not yet determined whether Assembly Bill No. 720 will be approved or disapproved. If it is approved, there would be two provisions in the Public Resources Code, each requiring consultation with local agencies in a slightly different manner, and the two sections would be technically in conflict with each other

I believe my final decision should await my action on Assembly Bill No. 720, which being a later bill reaching my desk, expresses the final determination of the Legislature on this matter.

These conflicts have been discussed with the author and he has no objection to this procedure.

I am, therefore, returning Assembly Bill No. 499 without my signature

Respectfully submitted,

EDMUND G. BROWN, Governor

Assembly Bill No. 499 ordered to the unfinished business file.

### Veto Message Concerning Assembly Bill No. 1028

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 16, 1959

*To the Honorable Members of the Assembly:*

I am returning, herewith, without my signature,

**Assembly Bill No. 1028** entitled: "An act to amend Sections 7376 and 7381 of, to add Section 7396 72, and to repeal Section 7439 of, the Business and Professions Code, relating to the practice of cosmetology."

My objections to this bill are as follows.

Among other provisions, Assembly Bill No. 1028 adds a new section to the Cosmetology Act, providing that every cosmetology school, within 15 days after enrolling a student therein, shall require the student to submit proof of completion of a tenth grade education in the public schools of this State, or its equivalent, and requires the dismissal of any student, and refund of tuition fees, when such proof is not produced within this 15-day period.

Under present law, while it is necessary, in order to take the state examination for a license as a hairdresser or cosmetologist, for the applicant to submit proof of

completion of a tenth grade education, or its equivalent, such proof is not required in order to obtain admission to a cosmetology school. I am informed that many cosmetology students, who have not previously completed their tenth grade education, do so while they are attending cosmetology school so that when they apply for admission to take the examination they have their tenth grade education, or its equivalent. Imposing the additional requirement, that proof of completion of a tenth grade education be made at the time of admission to the cosmetology school, would, according to my information, bar many persons, particularly adults who are seeking a self-supporting vocation, and foreign students in this Country on a visa, from obtaining their cosmetology training and their tenth grade education at the same time.

There are other changes, of a technical nature, that this bill makes in various provisions of the Cosmetology Act. It is regrettable that my disapproval of the bill will result in these other changes failing to be enacted into law at this session of the Legislature. However, I do not believe that these other changes are of so great importance that they cannot wait for enactment into law at the next session of the Legislature.

Under these circumstances, therefore, I am returning Assembly Bill No. 1028 without my signature.

Respectfully,

EDMUND G BROWN, Governor

Assembly Bill No. 1028 ordered to the unfinished business file.

**House Resolution No. 381**

Relative to studies of the administration of motor vehicle affairs

WHEREAS, Motor vehicle transportation has grown at a phenomenal pace in California in recent years and there is clear prospect that its growth in the future will be even more spectacular; and

WHEREAS, The Legislature after much diligent and continuing study has developed successful programs for the financing, constructing, and maintaining of the highway plant; and

WHEREAS, It is equally essential that concerted attention and study be given to motor vehicle functions, other than the financing and engineering of highways, if optimum service is to be rendered to the people of California; and

WHEREAS, The administration of all motor vehicle affairs, not only involves tremendous costs which are certain to increase greatly in the future, but also affects the lives and welfare of our citizens; and

WHEREAS, Deficiencies and inconsistencies in the law pertaining to motor vehicle affairs may have resulted from failure to develop an overall approach, which would clearly define basic policy objectives that would provide guidance to affected administrators, and which would also provide for re-evaluation of traditional activities in the light of changing and anticipated conditions; and

WHEREAS, State difficulties in dealing evenly with the many problems inherent in the administration of motor vehicle affairs may lead to unwelcome activity in this field by the Federal Government, a possibility suggested by current studies initiated by the Federal Government to determine what it should do to promote highway safety; and

WHEREAS, The facts heretofore cited have been recognized by the Western Interstate Committee on Highway Policy Problems, the American Association of Motor Vehicle Administrators, and the International Association of Chiefs of Police, all of whom by resolution have urged that state legislatures make provision for study of current problems and future needs in the administration of motor vehicle affairs; and

WHEREAS, Basic issues of state transportation policy are involved in the provision of service, the control of privilege, and the exercise of police power with respect to administration of motor vehicle affairs, which issues should be given comprehensive study; and

WHEREAS, Illustrative activities that should have benefit of such study include driver education and licensing; vehicle registration and title issuance; financial responsibility requirements; highway-user tax administration; law enforcement as it relates to all highway and motor vehicle affairs; and record maintenance and data collection and analysis in regard to all of the foregoing; and

WHEREAS, Such study should include: (1) an inventory of all functions, activities, and duties of the State pertaining to operations on the highway plant and administration of motor vehicle affairs, together with a determination and evaluation of the purposes and objectives of all such functions, activities, and duties; and (2) an estimate of future needs for effective and economical performance of all such functions, activities, and duties, analyses of benefits in relation to costs in each case, and exploration of alternative means of achieving useful and necessary purposes and objectives; and

WHEREAS, The subject matter of this resolution not only involves long-range research and study as well as immediate investigation, but also cuts across many fronts which will be dealt with by one or more of the duly created interim committees of the Legislature; now, therefore, be it

*Resolved by the Assembly of the State of California*, As follows:

Report of California Commission on Interstate Co-operation

*State Assembly, Sacramento*

DEAR MR. OHNIMUS: I am happy to transmit herewith a copy of the report of the California Commission on Interstate Co-operation for the period May 28, 1957, to May 30, 1959.

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Bruce F. Allen was granted unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal:

### OPINION OF LEGISLATIVE COUNSEL RELATIVE TO STATE WATER DEVELOPMENT

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, June 16, 1959

*Hon. Bruce F. Allen*
*Assembly Chamber*

State Water Development—Senate Bill No. 1106—No. 17685

DEAR MR. ALLEN: You have asked two questions with respect to Senate Bill No. 1106, as amended in Senate May 28, 1959, which we shall set forth and answer separately below.

*Question No. 1*

Assuming the bill is passed and is approved by the voters, is it mandatory for the Department of Water Resources to construct aqueducts into Santa Clara County and Los Angeles County?

*Opinion and Analysis No. 1*

Under the proposed Section 12938 of the Water Code, the department "is authorized to construct any and all facilities for which funds are appropriated to it for expenditure pursuant to this chapter." Since all money from the sale of bonds and in the California Water Fund would be appropriated, among other things, for the construction of certain designated facilities (including the aqueducts into Santa Clara County and Los Angeles County (see proposed Sec. 12934, Wat. C.)), the department would be *authorized* to construct those facilities.

However, while the department would be *authorized* to construct any facilities for which funds are appropriated under the bill, including the facilities mentioned by you, there is nothing in the proposed measure which would *require* the construction of any particular facilities.

We conclude, therefore, that the department would not be required to construct any particular facilities. On the other hand, it should be noted that the bond funds cannot be expended for purposes other than those prescribed in the bill.

Question No. 2

Who would have the standing in court to enforce the provisions of the bond act, assuming its provisions were not carried out? Could the bondholders maintain an action so long as there is no default in payment and the full faith and credit of the State is behind the bonds?

Opinion and Analysis No. 2

In our opinion any bondholder could bring an action to enforce the provisions of the bond act. A mandamus action could be brought to compel the performance by state officers of acts which the law specifically requires (Sec. 1085, C. C. P.). A third-party beneficiary action could be brought to enforce the terms of a state water or power contract (Sec. 1559, Civ. C.). An action against the State based upon the express contract represented by the bonds could be brought (Sec. 16041, Gov. C.). In our opinion the right to bring any such action would not be limited to situations in which there is a default in payment. Since the net revenues of the State Water Development System are pledged to the payment of the bonds, as well as the general credit of the State, any action which affected the system might, under the particular circumstances involved, affect the security of the bondholders.

It might be noted, also, that persons or entities contracting with the State for the sale, delivery, or use of water or power, or for other services or facilities, would be authorized to sue the State with respect to such contracts (see proposed Sec. 12937, Wat. C.).

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By RAY H. WHITAKER, Deputy

Two copies to Hon. Hugh M. Burns

Quorum present.

### PRAYER

Upon invitation of Speaker Brown, the following prayer was offered by the Honorable Charles B. Garrigus, Member of the Assembly from the Thirty-third District:

*O Great Spirit of All Wisdom and All Power!* Of what worth are our words unless our minds are open to Thy will?

The oceans of responsibility are wide and deep. The winds of contrary opinion are rising about us. The tempest of prejudice and greed breaks with fury on the frail craft of our human judgment.

O God, how shall we steer a safe course unless Thy hand shall strengthen ours upon the tiller?

Give us the wisdom to place ourselves within Thy care so that we may safely reach the harbor of Thy purpose. We ask in Jesus' Name.—AMEN.

Since I am confident no better bill can be brought out of this Legislature, I am voting for Senate Bill No. 1106 only to provide that it be submitted to the people. My "Aye" vote is not an endorsement.

The voters will have to pay the bonds, if authorized, and should have the responsibility of acceptance or rejection.

VERNON KILPATRICK

The Riverside County Board of Supervisors by resolution support Senate Bill No. 1106 in its present form. Therefore I voted for it. I recognize weaknesses in it in respect to Southern California's needs. I hope future Legislatures will correct these weaknesses.

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Porter was granted unanimous consent that the following statement relative to legislative intent be ordered printed in the Journal:

## STATEMENT BY MR. CARLEY V. PORTER

June 10, 1959

This statement is made by way of explanation of legislative intent. In my support of Senate Bill No. 1106, I have relied upon the interpretation presented here Reference is made to page 7 of the bill as amended May 28th, starting with line 19. "and to augment the supplies of water in the Sacramento-San Joaquin Delta from multiple purpose dams * * * for use in the State Water Resources Development System * * *".

I interpret this phraseology, as do water lawyers with whom I have been in contact and as do other Members of the Legislature who are likewise supporting this bill and with whom I have discussed this matter, as being phraseology operating as a condition precedent to the expenditure of funds for the construction of facilities discussed in Section 12938 of the bill. The word "and" on page 7, line 19, is deemed to be read in the conjunctive, with the limitations following that word being a part of the necessary elements which must be met before the department can authorize construction, and before money can be spent, on units of water development discussed in Section 12938 of the bill.

In other words, no construction is contemplated in Section 12938 unless it fulfills the clear purpose of augmenting the supplies of water in the Sacramento-San Joaquin Delta, and is of a multiple purpose nature, and contributes directly to use in the State Water Resources Development System, and thus produces water directly or indirectly for export.

It will also be recalled that the above interpretation was made abundantly clear in the hearings held before the Senate Water Committee on this bill, prior to its passage from that committee to the Senate as a whole and its transmission "do pass" to the Assembly.

It is my further and separate understanding that neither the County of Origin Statutes, or the Watershed Protection Act is given any greater status in the law, or effect in litigation, of standing in the face of court challenge, than would otherwise be the case if Senate Bill No. 1106 were not enacted into law; and I understand the same is true whether the bond issue contemplated in Senate Bill No. 1106 is ultimately enacted by the people, voting on the ballot measure, or not.

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Porter was granted unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal:

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO WATER RESOURCES DEVELOPMENT

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, May 29, 1959

*Hon. Carley V. Porter*
*Assembly Chamber*

**Water Resources Development—No. 16320**

DEAR MR. PORTER: Pursuant to your request we are enclosing an analysis of Senate Bill No. 1106, as amended in Senate May 28, 1959.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By RAY H. WHITAKER, Deputy

Two copies to Hon. Hugh M. Burns,
pursuant to Joint Rule No. 34.

**Analysis of Senate Bill No. 1106—Water Resources Development—No. 16320**

Generally speaking, Senate Bill No. 1106, as amended May 28, 1959, would provide for the submission of the California Water Resources Development Bond Act (hereinafter referred to as the Act), to the people for adoption. The act, if approved, would authorize the issuance and sale, from time to time, of general obligation bonds of the State in the total amount of $1,750,000,000. The funds would be used to construct enumerated facilities for the conservation, development and distribution of water (designated as the "State Water Facilities") (with an amount not to exceed $130,000,000 thereof required to be used only for water development facilities for local areas), and, to a certain extent (described below), for additions to the "State Water Resources Development System." The State Water Resources Development System would consist of (1) State Water Facilities, (2) such additional facilities as may now or hereafter be authorized by the Legislature as a part of the Central Valley Project, (3) such additional facilities as may now or hereafter be authorized by the Legislature as part of the California Water Plan, and (4) such other additional facilities as the Department of Water Resources deems necessary and desirable to meet local needs, including flood control, and to augment the supplies of water in the Sacramento-San Joaquin Delta and for which funds are appropriated in the act.

The bill would also appropriate the California Water Fund and surplus revenues from the State Water Resources Development System for expenditure and allocation by the Department of Water Resources for the State Water Resources Development System. The bill would require available California Water Fund money and surplus project revenues to be expended for State Water Facilities, and bond proceeds in an equal amount to such expenditures from the California Water Fund would be authorized to be expended for construction of the facilities described in (4) above.

More particularly, the bill would provide for submission to the voters at the next general election to be held in November, 1960, of the California Water Resources Development Bond Act (Sec. 12930 * and Sec. 3 of bill) which would take effect only if a majority of the votes cast for and against it at the election are cast in favor of the act (Secs. 2 and 4 of the bill).

The object of the act is stated to be that of providing funds to assist in the construction of a State Water Resources Development System for the State of California (Sec. 12931). The system would be comprised of:

(I) The State Water Facilities. These facilities are defined to include certain enumerated facilities which may be summarized, generally, as follows:

(1) A multiple purpose dam and reservoir on the Feather River in the vicinity of Oroville, Butte County, and dams and reservoirs upstream therefrom in Plumas County in the vicinity of Frenchman, Grizzly Valley, Abbey Bridge, Dixie Refuge and Antelope Valley;

(2) An aqueduct system which will provide for the transportation of water from a point or points at or near the Sacramento-San Joaquin Delta to termini in the Counties of Marin, Alameda, Santa Clara, Santa Barbara, Los Angeles and Riverside, and for delivery of water both at such termini and at canal-side points en route, for service in Solano, Napa, Sonoma, Marin, Alameda, Contra Costa, Santa Clara, San Benito, Santa Cruz, Fresno, Tulare, Kings, Kern, Los Angeles, Ventura, San Bernardino, Riverside, Orange, San Diego, San Luis Obispo, Monterey and Santa Barbara Counties.

(3) Master levees, control structures, channel improvements, and appurtenant facilities in the Sacramento-San Joaquin Delta for water conservation, water supply in the delta, transfer of water across the delta, flood and salinity control, and related functions.

(4) Facilities for removal of drainage water from the San Joaquin Valley.

(5) Facilities for the generation and transmission of electrical energy.

(6) Provision for water development facilities for local areas.

(7) Including for the foregoing (1 through 5), the relocation of utilities and highways and acquisition of all lands, rights of way, easements, machinery, equipment, apparatus, and all appurtenances necessary or convenient therefor.

(II) Facilities now or hereafter authorized by the Legislature as a part of the Central Valley Project.

(III) Facilities now or hereafter authorized as a part of the California Water Plan.

(IV) Facilities deemed necessary and desirable by the department to meet local needs, including flood control, and to augment the supplies of water in the Sacramento-San Joaquin Delta and for which funds are appropriated pursuant to the act. (Sec. 12931)

* Except as otherwise indicated, all section references are to proposed sections of the Water Code which would be added as Ch. 8 (commencing with Sec. 12930) to Part 6 of Div. 6 of the Water Code by Senate Bill No. 1106.

It is further stated that the enactment of the Act should not be construed as creating any right to the water or the use thereof, nor as affecting any legislation with respect to water or water rights (except as expressly provided), nor as affecting vested water rights (Sec. 12931).

It is also declared that any facilities heretofore or hereafter authorized as a part of the Central Valley Project or facilities which are acquired or constructed as a part of the State Water Resources Development System with funds made available by the Act shall be acquired, constructed, operated, and maintained pursuant to the statutory provisions relating to the Central Valley Project, as they may now or hereafter be amended (Sec. 12931). This would result, among other things, in the so-called "watershed protection" provisions (Secs. 11460-11463, incl., Wat. C.) being applicable to the construction and operation of facilities acquired or constructed as a part of the State Water Resources Development System with funds made available by the act. It is also declared that for the purposes of the act, the Sacramento-San Joaquin Delta shall be deemed to be within the watershed of the Sacramento River (Sec. 12931).

It is also provided that no facility constructed in whole or in part with funds made available by the Act shall be used to transport water secured by eminent domain by others than the State unless approved by the Legislature by concurrent resolution adopted by a majority of the members elected to each house (Sec. 12931).

The act would create a California Water Resources Development Finance Committee, composed of the Governor, the State Treasurer, the State Controller, the Director of Finance and the Director of Water Resources (Sec. 12933). The committee, upon written request of the Department of Water Resources and supported by a statement of expenditures made and to be made for the State Water Resources Development System, would be required to determine whether or not it was necessary or desirable to issue bonds in order to make the expenditures, and if so, the amounts then to be issued and sold (Sec. 12939). Any such bonds would be issued, sold and repaid, generally speaking, in accordance with the State General Obligation Bond Law (Ch. 4 (commencing at Sec. 16720) of Part 3, Div. 4, Title 2, of the Government Code) (Sec. 12932). The bonds could be issued in series and in such denominations as determined by the committee, with the maturity of the first series of bonds not more than 10 years, and the last dates of maturity not more than 50 years (Secs. 12939, 12940, and 12936), and not to exceed an aggregate amount of $1,750,000,000 (Sec. 12935). The rate of interest to be borne by the bonds would be fixed by the committee, not to exceed 5 percent per annum, payable semiannually (Sec. 16731 (d), Gov. C.).

The proceeds from the sale of such bonds would be deposited in the California Water Resources Development Bond Fund and would be appropriated to the department without regard to fiscal years for the State Water Facilities defined in the bill (with $130,000,000 of such proceeds to be available exclusively for provision of water development facilities for local areas) and, to a certain extent (as explained below), for additions to the State Water Resources Development System (Sec. 12938).

Any available money in the California Water Fund and surplus project revenues (more fully described below) would be required to be used for the construction of the State Water Facilities. An amount of bond proceeds equal to that expended from the California Water Fund would be authorized to be expended by the department for the construction of such additional facilities of the State Water Resources Development System as it determines to be necessary and desirable to meet local needs, including flood control, and to augment the supplies of water in the Sacramento-San Joaquin Delta from multiple purpose dams, reservoirs, aqueducts, and appurtenant works in the Watershed of the Sacramento, Eel, Trinity, Mad, Van Duzen, and Klamath Rivers for use in the system (Sec. 12938). The additional facilities for local needs would be required to include those necessary to conserve or develop water which is tributary to the stream on which any of the facilities of the system are constructed, and the department would be required to diligently plan such full development and submit plans and reports thereon to the Legislature (Sec. 12938).

The moneys in the California Water Fund would be appropriated to the department for expenditure and allocation for the State Water Development Resources System (and see the more restrictive requirements described above), but the Legislature would be authorized in any fiscal year to appropriate any available money therein, or accruing thereto, for any lawful purpose (Sec. 12938).

The bonds issued pursuant to the act would constitute valid and legally binding obligations of the State and the full faith and credit of the State would be pledged for the punctual payment of principal and interest thereon (Sec. 12936). The ways and means specified for the payment of the principal and interest of the bonds would include provision for collection of such revenue as may be necessary to pay the principal and interest of the bonds (in addition to the ordinary revenues of the State) with a continuing appropriation from the General Fund of the sum necessary to pay such principal and interest. Provision is also made for annual transfers of project revenues from the California Water Resources Development Bond Fund to the General Fund to meet bond service payments. To the extent project revenues in any year were insufficient to meet such payments, the deficiency would be made up from the General Fund, and such amount would be required to be transferred to the General Fund from project revenues as soon as available, together with simple interest thereon until so returned at the same rate as borne by the bonds (Sec. 12937).

All revenues from the sale and delivery and use of water and all other income derived by the State from the State Water Resources Development System would be used only for the following purposes:

(1) The payment of the reasonable costs of the annual maintenance and operation of the system, and the replacement of any parts thereof.

(2) The annual payment of the principal of and interest on the bonds issued pursuant to the act.

(3) Transfer to the California Water Fund as reimbursement for funds utilized from said fund for construction of the system.

(4) Any surplus revenues in each year not required for the purpose specified in the foregoing subparagraphs (1), (2), and (3) and not otherwise required to be transferred to the General Fund would be

deposited in a special account in the California Water Resources Development Bond Fund and appropriated for expenditure by the department for acquisition and construction of the State Water Resources Development System. (Sec. 12937)

The revenues from the State Water Resources Development System would constitute a trust fund pledged for the designated uses, which pledge would inure to the direct benefit of the owners and holders of all general obligation bonds issued under the act (Sec. 12937).

The Department of Water Resources would be required to enter into contracts for the sale, delivery or use of water or for other services and facilities made available by the State Water Resources Development System, subject to such terms and conditions as may be prescribed by the Legislature. The act would provide that such contracts "shall not be impaired by subsequent acts of the Legislature during the time when any of the bonds authorized herein are outstanding and the State may sue and be sued with respect to said contracts." Such contracts would be for a stated term, which insofar as practicable and feasible would be for the full life of the general obligation bonds, and each such contract would recite:

(a) That it is entered into for the direct benefit of the holders and owners of all the general obligation bonds; and

(b) That the income and revenues derived from the contracts are pledged for the purposes and in the priorities set forth in the act The pledge of revenues would be declared to be an essential term of the act and, upon the act's ratification by the people, binding upon the State as long as the general obligation bonds are outstanding and unpaid. (Sec. 12937)

Mr. Bruce F. Allen was granted unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal:

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO STATE WATER DEVELOPMENT

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, June 16, 1959

*Hon. Bruce F. Allen*
*Assembly Chamber*

**State Water Development—Senate Bill No. 1106—No. 17754**

*Question*

DEAR MR. ALLEN: You have directed our attention to the provisions of Section 11460 of the Water Code, one of the so-called "watershed protection" provisions which are included in the part (Pt. 3 (commencing at Section 11100) of Div. 6) governing the Central Valley Project. Generally speaking, this section constitutes a limitation on the powers of the entity constructing and operating the Central

Valley Project, and provides that a watershed or area wherein water originates or an area immediately adjacent thereto which can be conveniently supplied with water therefrom, shall not be deprived directly or indirectly of the prior right to all water reasonably required to adequately supply the beneficial needs of the watershed, or area, or any of the inhabitants or property owners therein.

This provision is incorporated in Senate Bill No. 1106 by reference with the following language:

> "Any facilities heretofore or hereafter authorized as a part of the Central Valley Project or facilities which are acquired or constructed as a part of the State Water Resources Development System with funds made available hereunder shall be acquired, constructed, operated, and maintained pursuant to the provisions of the code governing the Central Valley Project, as said provisions may now or hereafter be amended. For the purposes of this chapter the Sacramento-San Joaquin Delta shall be deemed to be within the watershed of the Sacramento River."

With respect to the last sentence of this language you ask us to assume that the San Joaquin-Tulare basin is an area immediately adjacent to the Sacramento River watershed from which water can conveniently be supplied within the meaning of watershed protection provisions. Based on this assumption you ask:

1. How could the area in the San Joaquin-Tulare basin assert such priority as to water exported south from the Sacramento River?

2. If, after the area asserts such priority and a right to receive such water, an initiative measure is prepared and passed which repeals Section 11460, would such initiative measure be effective to cut off such right?

*Opinion and Analysis*

1. As indicated above, the watershed protection provisions constitute a limitation on the powers of the entity constructing and operating the Central Valley Project. Under Section 11460,[1] that entity cannot deprive the inhabitants or property owners of the prior rights to all of the water reasonably required to adequately supply the beneficial needs of the watershed or area wherein the water originates or an area immediately adjacent thereto which can conveniently be supplied with water therefrom.

If the Department of Water Resources, in constructing and operating the facilities of the State Water Resources Development System, left sufficient unappropriated water to meet the needs of the area of origin[2] in question, the priority could, of course, be asserted by securing an appropriative right to water needed. If the water was subject to applications held by the Department of Water Resources under Section 10500 (filed as being required in the development and completion of a general or co-ordinated plan for water resource development) a release

[1] All section references are to sections of the Water Code, except as otherwise indicated

[2] For the purposes of this opinion we have used the phrase "area of origin" to include also the "area immediately adjacent thereto which can conveniently be supplied with water therefrom"

from priority or assignment of such a right could be secured to meet the needs in question (see Sec. 10504).

If neither unappropriated water nor water subject to applications held by the department under Section 10500 was available to meet the needs of the area of origin, the department could fulfill its obligation under the watershed protection provision in several different ways. While the manner in which the obligation would be met under such circumstances would undoubtedly depend on conditions existing at the time, we believe that the following courses, among others, would be open to the department:

(a) Water appropriated by the department in connection with the facilities which was not committed for delivery under a contract could be made available through project facilities or otherwise for use in the area of origin.

(b) Water for use in the area of origin could be secured through the construction of additional facilities.

(c) Water for use in the area of origin could be secured through the purchase of existing rights.

(d) If the rights of the users under contracts previously made for use outside the area of origin were so subject to the watershed protection provision, the water required by its terms could be secured by reducing the amount delivered under the contracts, if no other water was available.

If the entity charged with construction and operation of the facilities (the Department of Water Resources) failed to comply with the provisions of law, we think an appropriate court action could be brought to compel compliance.

2. As indicated above, Section 11460 operates as a limitation on the entity constructing and operating the Central Valley Project. As incorporated in Senate Bill No. 1106 it would constitute a limitation on the Department of Water Resources in the construction and operation of the State Water Resources Development System.

If this section were repealed by initiative legislation, the effect of such repeal would depend, we believe on whether a right protected by law had been obtained prior to such repeal.

For example, if an appropriative water right had been obtained, in absence of other considerations, the right would not be affected by repeal of the watershed protection provisions. The user would be protected by the vested water right rather than by the watershed protection provisions. Therefore rights thus secured would not be "cut off" by repeal of Section 11460 whether adopted by initiative or otherwise.

Similarly, if a private entity secured water through contract with the department, such a contract would be protected against substantial impairment under the Federal and State Constitutions (Sec. 10, Art. I, U. S. Const.; Sec. 16, Art. I, Cal. Const.) and, in absence of other considerations, legislation (whether adopted by the Legislature or by

initiative) eliminating the operation of the watershed protection provisions would not affect such contracts. The renewal of such contracts might, however, be affected by the change in the law.

Mr. Kilpatrick was granted unanimous consent that the following letter of transmittal, opinion of the Legislative Counsel, and communication be ordered printed in the Journal:

### LETTER OF TRANSMITTAL

ASSEMBLY, CALIFORNIA LEGISLATURE
June 17, 1959

*Hon. Ralph M. Brown*
*Speaker of the Assembly*

DEAR MR. SPEAKER: Enclosed herewith are two letters which have to do with land values, one for tax assessment purposes and the other for acquisition. The first of these is by the Legislative Counsel on the subject of constitutional requirements for tax values. The other is by the Director of Water Resources pertaining to fixing of values for acquisition of lands for state purposes.

A comparison of the two would tend to show need for some method of bringing the realities of these policies closer together. Thus I offer them for insertion in the Journal as they may reflect on operation of Senate Bill No. 1106 when enacted.

Respectfully yours,

VERNON KILPATRICK

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO PROPERTY TAXATION: ASSESSORS AND ASSESSMENTS

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
September 26, 1957

*Hon. Vernon Kilpatrick*
*3715 Abbott Road*
*Lynwood, California*

**Property Taxation: Assessors and Assessments—No. 227**

DEAR MR. KILPATRICK: You have asked the three questions stated and answered below, relating to the assessment of property for tax purposes.

*Question No. 1*

Is there any legally specified standard for the assessment of property for property tax purposes?

*Opinion*

There is such a standard, and that is the "full cash value" (i.e., "market value") of the property.

*Analysis*

Our State Constitution states that all taxable property "shall be taxed in proportion to its value" (Art. XIII, Sec. 1), and provides that all "property subject to taxation shall be assessed for taxation at its full cash value" (Art. XI, Sec. 12).

"Full cash value" has been defined as "the amount at which property would be taken in payment of a just debt from a solvent debtor" (R. & T. C., Sec. 110). As our Supreme Court recently described it, it is "the price that property would bring to its owner if it were offered for sale on an open market under conditions in which neither buyer nor seller could take advantage of the exigencies of the other. It is a measure of desirability translated into money amounts * * * and might be called the market value of property for use in its present condition" (*DeLuz Homes, Inc.* v. *County of San Diego* (1955), 45 Cal. 2d 546, 562). The Supreme Court of the United States has stated unequivocally that it is synonymous with "market value" (*San Francisco National Bank* v. *Dodge* (1904), 49 L. Ed. 669, 674).

As thus defined, "full cash value" is the standard of value for property tax purposes (see *DeLuz Homes, Inc.* v. *County of San Diego,* above, at pp. 561-562).

In concluding this analysis, we direct your attention to the case of *Eisley* v. *Mohan* (1948), 31 Cal. 2d 637, in which the court considered the constitutionality of former Section 987 of the Revenue and Taxation Code, which read:

> "The cash value of a possessory interest in real estate of the Veterans Welfare Board is the following percentage of the cash value of the property during the following periods of the life of the contract covering sale of the property:
>
> "(a) Thirty percent during the first quarter period of the life of the contract;
>
> "(b) Forty-five percent during the second quarter period;
>
> "(c) Sixty-five percent during the third quarter period; and
>
> "(d) Eighty-five percent during the fourth quarter period."

The possessory interests involved were those of veterans in property being purchased for them by the State pursuant to the Veterans' Farm and Home Purchase Act (M. & V. C., Sec. 800 and following), title, however, remaining in the State for security purposes until the completion of all required payments.

Holding that Section 987 was unconstitutional, the Supreme Court stated (at p. 645):

> " * * * But the Legislature cannot set aside the constitutional provision declaring that '(a) all property * * * shall be taxed in proportion to its value' * * * by requiring the assessment of property at less than its full cash value. Section 987 is, therefore, invalid as being in conflict with the constitutional provision."

Before *Eisley* v. *Mohan*, the courts had evidently countenanced the practice of assessing property at less than its market value (e g, *Rittersbacher* v. *Board of Supervisors of Los Angeles County* (1934), 220 Cal. 535; *Southern California Telephone Company* v. *County of Los Angeles* (1941), 45 Cal App 2d 111, 126-127). In none of the cases, however, was there any issue as to the propriety of the practice. The question almost invariably was whether the action of the assessor or board of equalization in assessing a particular class of property at a percentage of market value different from that used in assessing other classes resulted in a violation of the constitutional provision in Section 1 of Article XIII for taxation in proportion to value; and, more particularly, whether, since the latter necessitates uniformity in imposing the burdens of taxation (*Joint Highway District No. 13 of the State of California* v. *Hinman* (1934), 220 Cal 578), there was any discrimination as to any of such other classes.

In the *Rittersbacher* case, supra, the court stated (at pp. 543-544):

> " * * * It is the assessor's recognized duty to see that the valuation placed on the various kinds of property shall be in proportion to the worth of such properties. If it is proportional and all are treated alike, no one contends that the taxpayers must be charged a full hundred percent, for such is not required by the law."

While the last clause of this statement is clearly to the point that an assessment may be made on the basis of a percentage of market value, it has the effect only of dictum, since there was no issue whatever in the case as to whether property might be assessed at anything less than market value The primary question was whether there had been any discrimination in the assessment of the plaintiff's property at a particular percentage of its market value, when it appeared from the evidence that other categories of property had been assessed at smaller percentages of their market value.

*Question No. 2*

In the event that the county assessor assesses property at less than its full cash value for tax purposes, is there any way in which the assessment could be corrected to conform to that value?

*Opinion*

Such a correction could be made either by the board of supervisors on equalization or by subsequent court order. However, on the basis of currently applicable court decisions, it is doubtful that any such correction would be made.

*Analysis*

The law provides for the assessment of common property for tax purposes by the county assessor between the first Mondays in March and July (R. & T. C. Sec. 405), for the delivery of his completed assessment roll to the clerk of the board of supervisors (R. & T. C. Sec. 617), and for the equalization by the board of supervisors between the first and third Mondays in July of the assessments shown on that roll (R. & T. C. Sec. 1603).

In equalizing, the board of supervisors "may increase or lower any assessment on the local roll" (R. & T. C. Sec. 1605), for the purpose of adjusting the value of the property listed "to conform to its real and true value" (see *People* v. *Dunn* (1881), 59 Cal. 328, and *Abrams* v. *City and County of San Francisco* (1941), 48 Cal. App. 2d 1, 6).

The functions of an assessor are considered judicial in nature; hence, when he has acted within the limits of a reasonable discretion, his judgment, even though erroneous, usually will not be interfered with in the absence of actual or constructive fraud (*Eastern-Columbia, Inc.* v. *County of Los Angeles* (1943), 61 Cal. App. 2d 734).

Evidence of constructive fraud may be found in a systematic and intentional undervaluation of property (*Mahoney* v. *City of San Diego* (1926), 198 Cal. 388), and this apparently might consist of a practice of assessing property at less than its full cash value. Nonetheless, in consideration of presently applicable court decisions, if all taxpayers similarly situated are affected alike by such practice, it is doubtful that the board of equalization or the courts would increase the assessments or order an increase therein (see *Rittersbacher* v. *Board of Supervisors of Los Angeles County* (1934), 220 Cal. 535, 543, 544, and see discussion of this case in analysis of first question). In the absence of a type of discrimination creating unfair tax burdens, the courts have shown no inclination to upset assessments concededly made at less than full cash value.

*Question No. 3*

Does an assessor who assesses property at less than full cash value thereby subject himself to any liability?

*Opinion and Analysis*

Section 1365 of the Revenue and Taxation Code provides for the prosecution of an assessor by the district attorney on the request of the State Board of Equalization when the latter "is satisfied that an assessor or deputy assessor has knowingly * * * assessed any property at less than cash value." The section reads in its entirety as follows:

> "Whenever the State Board of Equalization is satisfied that an assessor or deputy assessor has knowingly, fraudulently, or corruptly assessed any property at less than cash value, it shall immediately inform the district attorney of his county in writing of

the facts within its knowledge, requesting that the assessor or deputy assessor be prosecuted. The district attorney shall at once comply."

Apparently also applicable is Section 1222 of the Government Code, which provides that every "willful omission to perform any duty enjoined by law upon any public officer, or person holding any public trust or employment, where no special provision is made for the punishment of such delinquency, is punishable as a misdemeanor."

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

## COMMUNICATION FROM DIRECTOR OF WATER RESOURCES

STATE OF CALIFORNIA
DEPARTMENT OF WATER RESOURCES
SACRAMENTO, April 13, 1959

*Hon. Vernon Kilpatrick*
*55th Assembly District*
*State Capitol, Sacramento*

DEAR MR. KILPATRICK: This is in reference to your letter of March 25, 1959, wherein you requested information concerning our established policies in the acquisition of reservoir sites and rights of ways for aqueducts and other appurtenances to such projects as the Feather River Project. Our answers to your specific questions are as follows:

1. What influences, if any, the assessment values have on acquisition of properties, such as areas where land is on the tax rolls for as little as $1.25 to $5.00 an acre?

Assessment values shown on the tax rolls are not used as a yardstick in determining the fair market value of the property. This is true whether the land is acquired by negotiation or through eminent domain. Article I, Section 14 of the State Constitution provides that private property shall not be taken or damaged for public use without paying just compensation to the owner. The measure of "just compensation" in our appraisals is "market value," which has been defined by the California Supreme Court as being "the highest price estimated in terms of money which the land will bring if exposed for sale in the open market, with a reasonable time allowed to find a purchaser, buying with full knowledge of all the uses and purposes to which it is adapted, and for which it is capable of being used."

To determine the market value, we rely generally upon well-qualified, independent appraisers. Their opinions as to market value are based upon the selling price of comparable property, the anticipated income, and the original and the replacement cost of improvements thereon.

2. What values should be accounted for in arriving at a purchase figure giving consideration to the service rendered the adjacent lands by the fact that water is brought directly to these properties? What part does it play in the cost to the State that tremendous sums would be required for the owners to provide their own channel construction?

Compensation for land acquired for project purposes is due not only for the value of or damage to land directly taken or damaged, but also for so-called severance damage, that is, damage to an owner's remaining property by reason of the fact that it is severed from the part actually taken for public use The benefit to the remaining part of the owner's land by reason of the construction of the improvements proposed may be "set off" against this severance damage. The Department of Water Resources has no way of collecting for the benefits which might accrue to lands as a result of project construction unless a portion of the ownership is taken for project purposes. In other words, in its land acquisition program, the department deals only with those owners whose property is being acquired. However, if water service from the state project is to be furnished to lands adjacent to project facilities, the owners of such lands will be required to pay for such service. The water rates will reflect the total cost of the project, including land acquisition costs.

3. Will the department take into consideration the fact that the shore lands of reservoirs will be enhanced in value, and therefore, acquire such areas?

The Department of Water Resources is authorized to acquire any property which it considers necessary for state water and dam purposes. Thus, a determination must first be made that the property is necessary for such purposes before it can be

acquired. However, the department is expressly prohibited by Section 345 of the Water Code from acquiring property for recreational purposes without first submitting a proposed recreational plan and obtaining specific legislative authorization. The department is currently preparing such recreational plans in connection with the presently authorized reservoirs.

If we can be of further assistance, please call on us.

Very truly yours,

HARVEY O. BANKS, Director

The following amendments, proposed by the Committee on Municipal and County Government, were read, and adopted:

#### Amendment No. 1

In line 1 of the title of the printed bill, as amended in the Senate on June 2, 1959, strike out "Sections", and insert "Section".

#### Amendment No. 2

On page 1, strike out lines 4 to 23, inclusive, and insert

"11543.5. A local ordinance may require the payment of a fee as a condition of approval of a final subdivision map for purposes of defraying the actual or estimated costs of constructing planned drainage facilities for the removal of surface and storm waters from local or neighborhood drainage areas.

Such local ordinances may require payment of fees pursuant to this section if:

(1) The ordinance has been in effect for a period of 30 days prior to the filing of the tentative map of any subdivision for which payment of a fee is required;

(2) The ordinance refers to a drainage element of a general plan adopted pursuant to Section 65469 of the Government Code, which contains an estimate of the total costs of constructing the local drainage facilities required by the plan;

(3) The drainage plan, in the case of a city, situated in a county having a countywide general drainage plan, has been determined by resolution of the governing body of the county to be in conformity with the county drainage plan;

(4) The costs, whether actual or estimated, are based upon findings by the governing body that subdivision and development of property within the planned local drainage area will require construction of the facilities described in the drainage plan, and that the fees are fairly apportioned within the local drainage area either on the basis of benefits conferred on property proposed for subdivision or on the need for local drainage facilities created by the proposed subdivision and development of other property within the local drainage area;

(5) The fee as to any property proposed for subdivision within a local drainage area does not exceed the pro rata share of the amount of the total actual or estimated costs of all facilities within the local drainage area which would be assessable on such property if such costs were apportioned uniformly on a per acre basis.

(6) The drainage facilities planned are in addition to existing local drainage facilities serving the area at the time of the adoption of the drainage plan for the area.

Fees required by an ordinance adopted pursuant to this section shall be paid into a "planned local drainage facilities fund." A separate fund shall be established for each local drainage area. Moneys in such fund shall be expended solely for the construction or reimbursement for construction of local drainage facilities within the planned local drainage area from which the fees comprising the fund were collected. An ordinance adopted pursuant to this section may provide for the acceptance of cash or other consideration in lieu of the payment of fees.

A county or city imposing fees pursuant to this section may advance money from its general fund to pay the costs of constructing drainage facilities within a local drainage area and reimburse the general fund for such advances from the planned local drainage facilities fund for the local drainage area in which the drainage facilities were constructed.

A county or city imposing fees pursuant to this section may incur an indebtedness for the construction of drainage facilities within a local drainage area; provided, that the sole security for repayment of such indebtedness shall be moneys in the planned local drainage facilities fund.

This section shall be effective until the ninety-first day after final adjournment of the 1961 Regular Session of the Legislature."

## MESSAGES FROM THE GOVERNOR

The following messages from the Governor were received, and read:

**Veto Message Concerning Assembly Bill No. 1920**

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 17, 1959

*To the Honorable Members of the Assembly of the State of California:*

I am returning herewith, without my signature,

**Assembly Bill No. 1920,** entitled "An act to add Section 150 to Streets and Highways Code, relating to state freeways."

My objections to this bill are as follows.

Assembly Bill No. 1920 provides that the Department of Public Works shall erect, or cause the erection of center strip vehicle barriers at such places on state freeways, the roadways of which are not separated or only separated by a divider strip, as the Department determines is required for the public safety.

I am informed that the Department of Public Works has ample authority, under Section 144 of the Streets and Highways Code, to erect center strip vehicle barriers on state freeways, or any other state highways, wherever there is particular danger to the traveling public of collision between vehicles proceeding in opposite directions, or from cross-traffic. Under these circumstances, further legislation on the subject seems unnecessary and superfluous. In addition, although permissive in fact, Assembly Bill No. 1920 is mandatory in form. To the extent that the bill constitutes a mandate to the Department to erect barriers, it may also encourage claims and litigation based on the theory that the department's engineers were negligent in *failing to place a barrier at a particular location where an accident happened to* occur.

I am, therefore, returning Assembly Bill No. 1920 without my signature.

Respectfully submitted,

EDMUND G. BROWN, Governor

Assembly Bill No. 1920 ordered to the unfinished business file.

### Veto Message Concerning Assembly Bill No. 1572

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 17, 1959

*To the Honorable Members of the Assembly of the State of California*

I am returning herewith, without my signature,

**Assembly Bill No. 1572**, entitled: "An act to add Section 627 to the Labor Code, relating to orders of the Division of Industrial Safety on pressure vessels."

My objections to this bill are as follows:

Assembly Bill No. 1572 provides, in effect, that no standard or order of the Division of Industrial Safety relating to air tanks or reservoirs, used to provide storage of compressed air for vehicle brake application, or other air controlled auxiliaries common to automotive vehicles equipped with compressed air, shall be more restrictive than the "applicable standards for such tanks as set forth by the Society of Automotive Engineers."

I would have no objection to legislation requiring the Division of Industrial Safety, in adopting standards or orders relating to air brake pressure tanks, or any other pressure tanks, to *consider* the standards adopted by nationally recognized organizations such as the Society of Automotive Engineers. However, I do object to legislation such as this, absolutely prohibiting the division from making its standards, which apply to pressure tanks of all kinds, including but not limited to those used on motor vehicles, any more restrictive than those adopted by an outside organization, no matter how eminent that organization may be. This is particularly true in a case like the present one, where the standards, which the state regulatory agency would be required by law to adopt as its *maximum* standards, are subject to periodic change. It may well be that the standards of the Society of Automotive Engineers, as they exist at *the present time*, are sufficiently strict to be adopted as our state standards; however, there is no guarantee that the Society's standards will not become less strict in the future, and thereby become unsatisfactory for use as California's standards of safety.

I am, therefore, returning Assembly Bill No. 1572 without my signature.

Respectfully submitted

EDMUND G. BROWN, Governor

Assembly Bill No. 1572 ordered to the unfinished business file.

### Veto Message Concerning Assembly Bill No. 2033

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 17, 1959

*To the Honorable Members of the Assembly of the State of California:*

I am returning herewith without my signature

**Assembly Bill No. 2033**, entitled. "An act to add Section 69891.6 to the Government Code, relating to secretaries to Superior Court Judges."

My objections to this bill are as follows:

Assembly Bill No. 2033 provides that in each county with a population of less than 102,000, and more than 95,000, each judge of the superior court may appoint a secretary, at a salary to be determined by the board of supervisors, but in no event to be less than $275 per month.

It is my understanding that the only county in the State with a population of more than 95,000 and less than 102,000 is Santa Barbara County, and that therefore the bill is intended to apply only to Santa Barbara County. I am informed by the author of the bill that it was introduced at the request of the Santa Barbara County Supervisors and the Grand Jury, but it is customary, with respect to all legislation creating new positions in county offices, or increasing salaries for county officials, superior court clerks and attaches, and similar county employees, to furnish the Governor with a favorable recommendation, in writing, from the county supervisors and the grand jury, preferably in the form of a resolution adopted by the county supervisors and the grand jury. The reason for this is that in the absence of some such written recommendation, the Governor cannot be certain that the county is willing to assume the increased expense.

In this instance there is no written recommendation, in form of a resolution or otherwise, directly from the county. In the absence of such recommendation, since I must take action on the bill today, I feel that I have no alternative but to disapprove the measure.

I am, therefore, returning Assembly Bill No. 2033 without my signature.

Respectfully submitted,

EDMUND G. BROWN, Governor

Assembly Bill No. 2033 ordered to the unfinished business file.
