### House Resolution No. 381, as Amended

By Mr. Backstrand:

### House Resolution No. 381

Relative to Studies of the Administration of Motor Vehicle Affairs

WHEREAS, Motor vehicle transportation has grown at a phenomenal pace in California in recent years and there is clear prospect that its growth in the future will be even more spectacular; and

WHEREAS, The Legislature after much diligent and continuing study has developed successful programs for the financing, constructing, and maintaining of the highway plant; and

WHEREAS, It is equally essential that concerted attention and study be given to motor vehicle functions, other than the financing and engineering of highways, if optimum service is to be rendered to the people of California; and

WHEREAS, The administration of all motor vehicle affairs, not only involves tremendous costs which are certain to increase greatly in the future, but also affects the lives and welfare of our citizens; and

WHEREAS, Deficiencies and inconsistencies in the law pertaining to motor vehicle affairs may have resulted from failure to develop an overall approach, which would clearly define basic policy objectives that would provide guidance to affected administrators, and which would also provide for re-evaluation of traditional activities in the light of changing and anticipated conditions; and

WHEREAS, State difficulties in dealing evenly with the many problems inherent in the administration of motor vehicle affairs may lead to unwelcome activity in this field by the Federal Government, a possibility suggested by current studies initiated by the Federal Government to determine what it should do to promote highway safety; and

WHEREAS, The facts heretofore cited have been recognized by the Western Interstate Committee on Highway Policy Problems, the American Association of Motor Vehicle Administrators, and the International Association of Chiefs of Police, all of whom by resolution have urged that state legislatures make provision for study of current problems and future needs in the administration of motor vehicle affairs; and

WHEREAS, Basic issues of state transportation policy are involved in the provision of service, the control of privilege, and the exercise of police power with respect to administration of motor vehicle affairs, which issues should be given comprehensive study; and

WHEREAS, Illustrative activities that should have benefit of such study include driver education and licensing; vehicle registration and title issuance; financial responsibility requirements; highway-user tax administration; law enforcement as

it relates to all highway and motor vehicle affairs; and record maintenance and data collection and analysis in regard to all of the foregoing; and

WHEREAS, Such study should include: (1) an inventory of all functions, activities, and duties of the state pertaining to operations on the highway plant and administration of motor vehicle affairs, together with a determination and evaluation of the purposes and objectives of all such functions, activities, and duties; and (2) an estimate of future needs for effective and economical performance of all such functions, activities, and duties, analyses of benefits in relation to costs in each case, and exploration of alternative means of achieving useful and necessary purposes and objectives; and

WHEREAS, The subject matter of this resolution not only involves long-range research and study as well as immediate investigation, but also cuts across many fronts which will be dealt with by one or more of the duly created interim committees of the Legislature; now, therefore, be it

*Resolved by the Assembly of the State of California*, As follows:

1. The subject matter of this resolution is assigned to the Committee on Rules for reassignment by it to an appropriate interim committee, which committee shall report thereon to the Assembly not later than the fifth calendar day of the 1961 Regular Session of the Legislature.

Mindful of an old truth, "nothing ventured, nothing gained" we have set in motion a far-reaching water program and we commend it to Thy merciful care, for Thou dost hold the future in Thy hand. Faced with exploding population we pray for vision to anticipate the supports needed by industry, schools, homes, and all things essential to a good society. Help us to hold on for two more days that we may finish the work Thou gavest us to do, taking our place in a sequence of great public service in this State, through Jesus Christ, our Lord —AMEN.

**CONSIDERATION OF HOUSE RESOLUTION NO. 239**

By Mr. Lunardi:

**House Resolution No. 239**

Relative to a study of the Lake Tahoe fish resource

WHEREAS, Lake Tahoe at one time supported very large populations of native game fishes, consisting principally of the Lahontan cutthroat trout (*Salmo clarki henshawi*) and the mountain whitefish (*Coregonus williamsoni*). The cutthroat trout were sufficiently numerous to support an important commercial fishery, with thousands of pounds shipped from the lake annually. Both the cutthroat trout and the whitefish have now disappeared completely from the lake; and

WHEREAS, All indications are that game fish are far less abundant in Lake Tahoe than they once were, both in numbers and in weight. The causes of the apparent decline in abundance are not known and are difficult even to guess on the basis of available information; and

WHEREAS, It also appears that Lake Tahoe, because of its great area and volume, combined with a rapidly increasing resident population and great numbers of summer visitors, offers a tremendous opportunity for development of sport fisheries; now, therefore, be it

*Resolved by the Assembly of the State of California*, That the State Department of Fish and Game is requested to make a thorough and extensive study to discover some means of producing good fishing in Lake Tahoe at a reasonable cost. This study shall include the testing of the most promising management methods, and an analysis of the physical and biological changes which have taken place. In order to obtain this objective, the following should be done:

(a) Determine the approximate production of game fish in past years, from an analysis of published records, and the present production of the lake, by creel census. The purpose here would be to get some idea of the potential fish production, and how much of it is now being realized.

(b) Test the possibilities of stocking large numbers of trout of various strains

(c) Study the interrelationships of game and forage species, and the food chains of the game fish, with the hope of finding possibilities for introducing new forage species which would increase the production of game fish.

(d) Test the importance of lake tributaries to the sport fisheries. The lake tributaries provide some trout and forage species with a place to spawn. With increasing use of water it may be difficult to maintain suitable flows in the tributaries.

(e) Carry out chemical and limnological sampling as necessary to provide a clear picture of the interrelationships of the fishes present and various facets of their environment, and be it further

*Resolved*, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the Director of the State Department of Fish and Game

Resolution read, and adopted.

### LETTER OF TRANSMITTAL

ASSEMBLY, CALIFORNIA LEGISLATURE
June 17, 1959

*Hon. Ralph M. Brown*
*Speaker of the Assembly*
*Honorable Members of the Assembly*
*State Capitol, Sacramento*

GENTLEMEN: Pursuant to House Resolution No. 285 of the 1957 General Session, the Honorable Donald D. Doyle, Chairman of the Assembly Interim Committee on Education, appointed the following persons

as a Subcommittee on Bonded Indebtedness of School Districts. Your subcommittee presents herewith this Progress Report on Bonded Indebtedness of School Districts, together with its findings and recommendations, and requests that same be printed in the Assembly Journal.

Respectfully submitted,

CARL A. BRITSCHGI
JOHN L. E. COLLIER
PAULINE L. DAVIS
ERNEST R. GEDDES
RICHARD T. HANNA
CARLEY V. PORTER, Chairman

## SCOPE OF THE REPORT

The Subcommittee on Bonded Indebtedness of School Districts was created under the general authority of House Resolution No. 285 of the 1957 Regular Session of the California Legislature.

The subcommittee was established to specifically study Assembly Bill No. 2315 which had been introduced in the 1957 Legislature. However, the subcommittee, in the course of hearings and studies, did not limit itself to merely the provisions of this particular bill, but explored to some small extent, at least, the general problems of school district bonded indebtedness.

Hearings were held in Los Angeles on September 26, 1957, and in San Francisco on October 2, 1958, to allow various interested persons to testify before the subcommittee either on the total effect of Assembly Bill No. 2315, or upon particular provisions of the bill. These hearings also allowed the subcommittee to study with greater intensity the overall nature and coverage of Assembly Bill No. 2315. These hearings also briefly allowed the subcommittee to delve into some of the key problems facing school districts in relation to their bonded indebtedness.

This report briefly outlines the present statutes of California which govern bond liability, particularly where boundary changes or other school district reorganization occurs. This report also includes brief summaries of expert testimony presented to the subcommittee. This testimony was not limited entirely to the positive or negative aspects of Assembly Bill No. 2315 and it is included here to give the reader some small concept of the complexities and intricacies of the problems of bonded indebtedness which came before the subcommittee during its interim study.

## FINDINGS AND RECOMMENDATIONS

It is customary and proper that an interim committee should be expected, at the conclusion of the interim period, to produce recommendations, findings, and perhaps proposed legislative solutions to a problem. In the large, important, and complicated area of school district bonded indebtedness, however, the subcommittee has decided to refrain from making any legislative recommendations this year.

The subcommittee felt it could make certain minor legislative recommendations, but that these recommendations would ignore the major issues involved and would not solve the large financial and organizational problems involved. The subcommittee was also concerned that in the complicated area of bonded indebtedness, which entails such far-

reaching consequences and implications, that what might appear at the present time as minor, might in the future cause hardships which were never originally intended.

Rather than run the risk of doing only a makeshift job in this area of legislation, the subcommittee is recommending to the Legislature that the entire problem of school district bonded indebtedness be thoroughly investigated with a view toward an ultimate, acceptable, and equitable solution.

Further, this subcommittee is recommending that various interested groups and organizations be encouraged to individually conduct thorough studies of this problem and attempt to reach proposed solutions. A combination of such studies, background materials, and proposed plans from different organizations will more clearly highlight the key areas of disagreement. Through this method a legislative subcommittee can more adequately attempt to solve the problems involved in a thorough, all-encompassing manner.

It is the hope of this subcommittee that solutions to these financial and redistricting problems can be found which are not only acceptable to all concerned, but which are in the best interests of the taxpayer, the State's financial resources, and, more importantly, to the school children of the State of California.

## FULL REPORT

The Subcommittee on Bonded Indebtedness of School Districts has attempted to study this subject, but has been able to reach no discernible areas of agreement on the major issues involved. The subcommittee has also failed to find agreement on Assembly Bill No. 2315 from the various parties who would be involved in operating under such a proposed law.

Every member of the subcommittee and every witness who appeared before the subcommittee admits this is a most important subject, which has far-reaching implications affecting the financial condition of every school district in the State.

The Legislature has, through the years, adopted specific statutes to solve specific problems or to permit certain types of district reorganization. In many cases these local reorganizations were fair and equitable for the local district involved. Many times, however, these statutes have resulted in producing unforeseen inequities in ways which were never intended nor thought of by the original authors.

The total effect of constantly adopting piecemeal statutes concerning bonded indebtedness has resulted in a system which is cumbersome, which is complicated, and which, in some cases, actually permits inequities to exist. One example can clearly illustrate this latter type of situation. It is possible, under certain special conditions, for an area to leave its school district and join with another. The school district may, in this manner, be absolved of its share of the district debt in the district which it leaves and may also be permitted to not assume its share of the debt of the district to which it is annexed.

During the hearings it became evident that a great deal of confusion exists as to what the present law actually is concerning the retention and assumption of liabilities when areas are transferred between districts. The legislative history of these laws reveal that the

multitude of minor changes which have been enacted have made interpretation of the Education Code very difficult, even for experts in this field. A long line of court cases have only served to further complicate this already complicated field.

In order to indicate the wide range of methods regarding the liability for outstanding bonds of school districts in those instances in which territory is transferred from one district to another, the following analysis from the Office of the Legislative Counsel is presented here:

STATE OF CALIFORNIA
OFFICE OF THE LEGISLATIVE COUNSEL
Sacramento, November 13, 1958

**Bonded Indebtedness of School Districts—No. 4168**

DEAR MR. DOYLE: You have asked several questions regarding the liability for outstanding bonds of school districts in those instances in which territory is transferred from one district to another. Specifically, you have asked what happens when territory is transferred from one district to another when (1) there is situated in such transferred territory a school building or other school property which has been acquired by the district from which the territory is transferred and (2) when there is no school property situated in the transferred territory.

The subject of your inquiry, we believe, can best be discussed by considering first the situation where territory is transferred from a district having an outstanding bonded indebtedness and second, the situation in which territory is annexed to a school district having an outstanding bonded indebtedness. In the first situation the question is whether the transferred territory continues to be liable for the outstanding bonds of the district of which it was formerly a part. On the other hand, the second situation presents the question whether the transferred territory becomes liable for outstanding bonds of the district to which it is annexed. We shall consider these two situations in the order referred to above under the separate headings "Retention of Liability" and "Acquisition of Liability"

**1. Retention of Liability**

Whether or not territory taken from a school district remains liable for the outstanding bonds of the district of which it was formerly a part depends upon whether or not there is any statutory provision which so provides. In the absence of such statutory provision, the common law rule prevails and the transferred territory is no longer liable for outstanding bonds of the district of which it was formerly a part (*Pass School District* v. *Hollywood District* (1909), 156 Cal. 416, 419; *Hughes* v. *Ewing* (1892), 93 Cal. 414; *Scott* v. *County of San Mateo* (1915), 27 Cal. App. 708; also see 26 Ops. Cal. Atty. Gen. 79, 81; 29 Ops. Cal. Atty. Gen. 180).

Thus, in order to determine whether transferred territory remains liable for the bonded indebtedness of the district of which it was

formerly a part, we must examine the various statutory provisions on that subject, for, as stated by the Attorney General:

> "The Legislature has in several instances made express provision for the retention of liability for the bonded indebtedness of transferring territories" (26 Ops. Cal. Atty. Gen. 79, 81).

To simplify the problem, we shall consider first the situation in which the transferred territory does not include any school property or improvements acquired by the district from which the territory is transferred. That situation will be discussed under a separate heading. Also, as requested, we shall set forth under separate headings the result of our search for statutory provisions providing for retention of such liability, which headings will indicate the several types of school districts to which such provisions have application.

#### a. Elementary School Districts

Insofar as single elementary school districts are concerned, we find no statutory provision which provides in effect that territory transferred from such districts shall continue to be liable for the bonded indebtedness of the district of which it was formerly a part. We therefore conclude that territory transferred from a single elementary district does not retain liability for the bonded indebtedness of the district of which it was formerly a part.

With respect to union elementary school districts, Section 1601 of the Education Code provides, in part, as follows:

> "Whenever any territory withdraws from a union elementary * * * school district, the territory withdrawing shall continue to be liable for such portion of the bonded indebtedness of the union elementary school district * * * incurred before the withdrawal as it would have been liable for had it not withdrawn."

Thus, territory withdrawing from a union elementary school district retains liability for the pre-existing bonded indebtedness of the district of which it formerly was a part.

#### b. High School Districts

Education Code Section 1601, quoted above, which provides in effect that territory withdrawn from a union elementary school district shall continue to be liable for the pre-existing bonded indebtedness of the district of which it was a part, also provides that territory withdrawn from a union high school district shall continue to be liable for the pre-existing bonded indebtedness of the high school district of which it formerly was a part.

Also, under the provisions of Article 10 (commencing with Section 3661) of Chapter 11 of Division 2 of the Education Code, one or more elementary school districts may withdraw from the high school district of which they are a part, pursuant to the procedure therein prescribed, for the purpose of forming a new high school district. It is specifically provided, however, by Section 3671 that:

> "Any elementary or union elementary school district electing to withdraw from a high school district shall continue to be liable for the same proportion of the bonded indebtedness of the high school

district incurred before the withdrawal, as it would have been liable for had it not withdrawn."

#### c. Junior College District

Under the provisions of Article 5 (commencing with Section 4341) of Chapter 13 of Division 2 of the Education Code, a high school district included within a junior college district may withdraw therefrom pursuant to the procedure therein prescribed. However, with respect to the pre-existing bonded indebtedness of the junior college district, Section 4343 of the Education Code provides that:

> "Any high school district excluded from a junior college district shall continue to bear its proportionate share of the bonded indebtedness of the junior college district incurred prior to the exclusion of the high school district, as though the exclusion had not taken place."

#### d. Unified School Districts

As in the case of single elementary school districts, we find no statutory provision which provides in effect that territory transferred from a unified school district shall continue to be liable for the bonded indebtedness of the district of which it formerly was a part Therefore, we conclude that territory withdrawing from a unified school district, such as through a change of district boundaries, ceases to be liable for the pre-existing bonded indebtedness of the district.

### 2. Acquisition of Liability

Under this heading we shall consider the question whether territory added to a school district automatically becomes liable for the pre-existing bonded indebtedness of the district to which it is attached. As stated in McQuillan on Municipal Corporations, Vol. 2, 3d Ed., pages 298 and 399:

> "* * * As a rule, existing debts of the corporation contracted before the limits were extended, unless otherwise provided by law, are chargeable upon the added territory as well as that comprehended by the boundaries before they were altered or extended."

This general rule finds expression in Section 1599 of the Education Code which provides, in part, that:

> "When territory is taken from one school district and annexed to another, the territory becomes liable to taxation for the bonded indebtedness of the district to which it is annexed."

The provisions of that section (Ed. C. Sec. 1599), however, are qualified by the provisions of Section 1597.1 of the same code which reads, as follows:

> "Notwithstanding any provision of this code to the contrary, no territory which comprises the whole or a part of a district and which is made a part of another district or of a new district through any proceeding involving any affirmative action taken by the residents of such territory shall be liable for any of the then outstanding bonded indebtedness of the district of which it is made a part unless such liability is specifically authorized by a vote of

two-thirds of the electors of the territory or district voting at an election called for that purpose in accordance with applicable provisions of this code."

Also, to be considered in connection with this question are the provisions of Section 18 of Article XI of the State Constitution and the court decisions in *People* v. *Hanford High School Dist* (1906), 148 Cal. 705, and *People* v. *San Bernardino High School Dist.* (1923), 62 Cal. App. 67.

In the *Hanford* case, the question presented to the court was whether an elementary school district seeking admission to a contiguous high school district could be bound by an agreement executed by the elementary school board in which it was agreed, as a condition to such admission, that it would pay a pro rata share of the pre-existing bonded indebtedness of the high school district. The court quoted that portion of Section 18 of Article XI which provides that no city, county, "or school district, shall incur any indebtedness or liability in any manner or for any purpose exceeding in any year the income and revenue provided for such year, without the assent of two-thirds of the qualified electors thereof," and said:

> "* * * Such a liability on the part of any political subdivision named in the constitutional provision can be created, the constitution says, only with the assent of two thirds of the qualified electors of such subdivision, voting at an election to be held for that purpose * * *" (p. 710)

The court then concluded that the agreement was invalid.

In the *San Bernardino* case, an elementary school district was annexed to a contiguous high school district having an outstanding bonded indebtedness. In that case it was argued that the annexation was invalid since the district would be liable for a proportion of the indebtedness of the high school district without the assent of two-thirds of the electors of the district as required by Section 18 of Article XI. However, there the annexation was accomplished pursuant to a statute which required the board of supervisors to annex any elementary district not a part of a high school district to that high school district "whose high school is most accessible to the children of the particular common school district," upon recommendation of the county superintendent of schools. In that instance, the court concluded that the constitutional provision (Sec. 18, Art. XI, Cal. Const.) was not applicable, stating that:

> "* * * In the instant case it cannot be said that the Highland School District did anything by which any indebtedness or liability was incurred against it. If any debt or liability was created as against the Highland School District, it was one which was not of its own chosing or making, but was thrust upon it primarily by the board of supervisors of San Bernardino County, and secondarily by operation of law." (p. 79)

These two cases have been summarized by the Attorney General in an opinion dated May 22, 1941 (Opinion No. NS-3527), which summary is quoted in 29 Ops. Cal. Atty. Gen. 82, at page 88, as follows:

> "These cases appear to establish the rule that when a territory becomes a part of a school district having an outstanding bonded indebtedness and the merger is due at least in part to affirmative action taken by residents of the annexed district as required by law, that section 18 of Article XI prohibits such territory from becoming liable for any bonded indebtedness unless it is specifically authorized by a vote of two-thirds of the electors of the territory voting at an election called for that purpose. However, if the merger or annexation results from action by boards not connected with the territory annexed and without any action by the inhabitants of such territory, the territory annexed may be required to pay a share of the outstanding bonded debt by operation of law."

Thus it appears that in those instances in which territory is taken from one school district and made a part of another as a result of "any affirmative action taken by the residents of such territory" such territory does not automatically become liable for the pre-existing bonded indebtedness of the district to which it is attached. On the other hand, if the annexation is the result of action other than action taken by the residents of such territory, Section 1599 of the Education Code is applicable and the annexed territory is liable for the pre-existing bonded indebtedness of the district to which it is attached. The foregoing is applicable, we believe, to all types of districts, including elementary, high school, junior college and unified school districts.

### 3. School Property Situated in Transferred Territory

Under the provisions of Section 1599.1 of the Education Code, "whenever a portion of a school district" is taken from one district and annexed to another, the acquiring district shall "take possession of all real property and all fixtures therein and thereon * * * and shall pay the original school district for the use of such property as herein provided."

The section (Ed. C. Sec. 1599.1) then provides, in part, that:

> "Within sixty (60) days after the annexation has been effected, the board of supervisors of the county [in which the districts are situated] * * * shall, by order entered upon its minutes, determine what proportion of the then outstanding bonded indebtedness of the original school district was incurred for the acquisition or improvement of said real property and all fixtures therein or thereon Commencing one (1) year after the date of such determination, the new school district [the acquiring district] shall pay annually to the original district for the use of such property an amount equal to the annual amount required for the payment of interest and for redemption of such portion of the bonded indebtedness as was determined by said board of supervisors."

Thus, in those instances in which territory is transferred from one district to another and the district from which the territory is transferred has an outstanding bonded indebtedness, a portion of which was

incurred for the acquisition of school property situated in the transferred territory, the acquiring district is required to pay annually an amount determined in the manner prescribed for the use of such property. Except as provided in that section (Ed. C. Sec. 1599.1), a district to which territory is transferred and in which territory there is situated school property acquired by another district, is not liable for the preexisting bonded indebtedness of the district from which the territory is transferred (see *Pass School Dist.* v. *Hollywood Dist.* (1909), 156 Cal. 416).

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

The following excerpts from the testimony of expert witnesses, who appeared before the subcommittee, are presented here to indicate the wide range of viewpoints, opinions and disagreements which exist in this area of bonded indebtedness.

**Dr. Bruce Hawk, Office of the Los Angeles County Superintendent of Schools and Principal Author of Assembly Bill No. 2315:**

I would like to review a little of the history of school bond liability laws and some of the statutes and court decisions that affect them.

The first statutes affecting school bond liability were enacted in 1907 in old Political Code Section 1888-A. That section primarily encompassed, without any reference to school buildings, the ideas now included in Section 1598, Section 1599, and Section 1600. I think the original statutes were very good, at least for that time.

In 1909 the City of Hollywood annexed part of the old school district in Los Angeles County. A suit was brought against the city because the annexation also included a school building.

The case finally went to the California Supreme Court and the court on November 1, 1909 made a very important decision. In stating its decision the court made several very important statements. The first

was that school districts are creatures of the State and that they may be altered or abolished by the Legislature without the consent of the people.

Secondly, the court said that the powers of the Legislature over school districts are plenary; they have full power. In this matter of bonded indebtedness the Legislature had the power to determine how any indebtedness might be determined in case school districts were altered or changed. But in the absence of any statutes dealing with the matter, common law would apply and the area would drop its liability in the old district and automatically assume it in the new district.

In 1945 Section 1597.1 was put into the code, which provided that no territory could assume the debt in a new district unless they did so at a special election by a vote of two-thirds of the people, and that still applies in certain cases.

Another very important decision was when the court ruled that the State of California owns all of the school buildings in the State, that local school districts and their trustees are only trustees of those buildings for the State, and that if there is a boundary change, and a building goes over to another school district, then the new district and the new board of trustees are the new trustees for the State.

As a result of this ruling and the court ruling that the Legislature could enact legislation to determine how debt would be imposed, a lot of legislation was passed, most of which was enacted to take care of special situations.

Under the present law, when a normal elementary district transfers to another elementary district in another high school district and another junior college district, here is what happens: The boundary change is made and the territory ceases to be liable in the elementary district where they were. They do not assume any bond liability in the district to which they are annexed and where their children are going to school.

The area continues to be liable for their proportionate share of the high school debt in the district where they were. They automatically assume their proportionate share of the debt in the high school district to which they have been annexed. They drop liability in the junior college district where they were located and they automatically assume their proportionate share of the debt in the junior college district to which they have been annexed. You can see where they remain liable.

Every time they remain liable in the old district a special assessment area has to be set up so that they will continue to be assessed, and also in the new district to which they have been annexed. If they are going to be liable for any of the bonds that were outstanding at the time they were annexed, then a special code area has to be set up so that they will not be charged for bonds for which, under the law, they are not supposed to pay.

Because the elementary district also becomes part of the high school district or the union high school district or the joint union high school district, Section 1597.1 does not apply.

Consequently, a great deal of debt is being imposed on certain areas without a two-thirds vote. Assembly Bill No. 2315 attempts to stop this idea that districts can transfer and escape taxation both ways. It is

unfair to the elementary districts and it is unfair to the taxpayers. It was the intent of Assembly Bill No. 2315 to protect districts as well as taxpayers and put a little equity back into the law.

The State of California has been embarked since 1945 in trying to create unified school districts in the State. Yet, a section in the Education Code says that any territory which forms a unified district or annexes itself to a unified school district shall continue to be liable for their share of the bonded indebtedness of all the districts of which they were formerly a part.

There are many districts of great wealth; very highly concentrated industrial wealth. If, just by accident, they happen to be located next to a regular elementary district whose tax rate is fairly low, they can make a boundary change from one of these districts and annex to the other elementary district. In so doing they drop liability for bonds where they were, they do not assume any in the district where they go, and thereby they get a great reduction in their tax rate.

All territories should pay whatever taxes are levied for the support of the education in the district of which they are a part. It is unreasonable that they should continue to pay for buildings and services they no longer can use. If, under the law, they have paid everything they are supposed to pay and they make a change, they should drop the liability in the old district and automatically assume their full share of the debt in the new district where their children are using the facilities.

As this territory is transferred, large and costly administrative problems are created for the county assessor, the county auditor, and the county engineer. This is a tremendously costly problem, as well as being a distinct hardship on those individuals involved.

Assembly Bill No. 2315 has attempted to solve many of these problems. Briefly what it tries to do is this:

Assembly Bill No. 2315 revises the general provisions relating to liability of a territory for outstanding indebtedness upon creation, dissolution, annexation, or change of boundaries of school districts and eliminates exceptions to such general provisions and portions of law relating to particular types of school districts.

It provides, when a territory is taken from a school district and annexed to another and such territory *contains no building or realty,* such territory ceases to be liable for outstanding bonded indebtedness of the district of which it formerly was a part and becomes liable for bonded indebtedness of the district to which it is annexed.

It provides that when a territory is taken from a school district and annexed to another and such territory *does contain buildings or realty,* that the board of the district from which it was taken shall determine what portion of the outstanding bonded indebtedness of its district was incurred for the acquisition of these school buildings and fixtures that are being transferred to another district. The annexing district thereupon becomes liable for this portion.

However, in the case where a new district is formed from a portion of one or more existing districts and the newly formed district contains no buildings or realty, that the new district is liable for a portion of the old district's bonded indebtedness if, in forming the new district, it leaves the old district with more than the legal maximum. It provided

that when the old district, by payments from the new district, has reduced its bonded indebtedness to the legal maximum, the new district no longer must pay a portion of this bonded indebtedness.

In the case of a new district where there are school buildings or realty the county board shall determine what portion of the bonded indebtedness of the new district was incurred for the acquisition of school buildings, fixtures and equipment situated in the new district and makes the new district liable for a portion of the bonded indebtedness so determined.

It provides that, for purposes of determining legal maximum of bonded indebtedness of school districts, such portion of indebtedness as another district or territory is liable for shall be excluded and that bonded indebtedness of another district for which district is liable, shall be included in computation of district's bonding capacity.

The bill authorizes assumption of all or a portion of outstanding bonded indebtedness of component district by any school district by a two-thirds majority of the electors voting at an election called for that purpose.

The bill then goes on to repeal certain present sections of the Education Code which would be in conflict with the new section.

**Mr. Paul Martin, President, Compton Junior College:**

Mr. Martin testified he was in full agreement on the major objective of the bill, inasfar as it attempts to simplify a very complex group of laws on boundary changes. He also agreed there were many inequities and contradictory laws in the present laws. He presented three major objections to Assembly Bill No. 2315:

1. The provision that a territory withdrawing may be forgiven its bonded indebtedness in its original district provides very strong incentives for wealthy industrial or oil or business territory to withdraw from a poor district and annex to a richer district for a tax advantage. He said that normally he feels that districts do this, but that if this bill were enacted into law and those incentives did remain, the tendency would be for rich districts to become richer and poor districts to become poorer.

2. The same provision of Assembly Bill No. 2315 would provide very strong incentives for an industrial territory or oil or any other wealthy territory to withdraw from a poor district and to form a new district with a small population and, therefore, with a very favorable tax rate. Mr. Martin feels the two above points were in conflict with the principle of equal educational opportunity for all.

3. Mr. Martin feels a thorough study should be made by organizations such as the California Teachers' Association, the California School Board Association, and the California Association of School Administrators. He feels these people are interested in this type of legislation and have not given it enough serious consideration.

**Dr. Ronald W. Cox, State Department of Education:**

Dr. Cox testified there was great confusion on this question of bonded indebtedness and that, although the Staff of the Department of Education had studied it, they had no recommendations to make on Assembly

Bill No. 2315. They did, however, have some suggestions that any change in the laws should be based on three general principles:

1. Bonded indebtedness, when voted and incurred, should be considered a continuing liability of all the territory in the district at the time the debt was incurred, until such liability is assumed by some other district.

2. Any adjustments in the liability for bonded indebtedness should never leave any district with a liability beyond the legal limit.

3. The administrative procedures necessary in handling the bonded indebtedness, repayment, and the collection of revenue for such repayment, should be made as simple as possible.

Dr. Cox went on to list two possible alternatives which are outlined below:

**Proposal A**

(1) Whenever a new district is formed, such new district would assume the liability for all of the outstanding bonded indebtedness of any district included, in whole, within the new district, and a portion of the bonded indebtedness of a former district included in part in the new district. When a portion of a district is included within the new district, that the new district assume the bonded indebtedness proportionate to the assessed valuation of the original district included within the new district.

(2) Whenever territory consisting of either the whole or a portion of a district is added to another district, the district to which the territory is added becomes liable for all the bonded indebtedness of the territory added to the district The territory added to the district, in turn, shares in the liability of the district in which it is added. (That provision means that when you have a territory that goes from one district to another, the assessed valuation changes and there is no possibility of either district going beyond their legal limits.)

(3) At the time of any transfer of a portion of a district to another district, or a new district, the county auditor shall determine the portion of assessed valuation of the original district included in such transfer, and this portion shall constitute the proportion of the payment of principal and interest on the then outstanding bonds of the original district for which the new district shall be liable.

(4) The proportion of a district's bonded indebtedness for which another district is liable shall not be considered bonded indebtedness of the original district for the purpose of determining the limits of bonded indebtedness of such original district specified in Sections 4714 and 7431.

(5) The present provision of law contained in Section 1607 of the Education Code which prohibits annexation or withdrawal of a territory including a school building unless such withdrawal is approved by either both of the school boards involved or by the county committee on school district organization, be continued in effect so that unreasonable annexation, taking a school building from one district, including it in the territory of another district cannot be effected.

**Proposal B**

An alternative part of the program may be considered if it is not desired to provide for the automatic assumption of bonded indebtedness when districts are reorganized or boundaries changed. This would

provide for any territory to remain liable for the outstanding bonded indebtedness of any district of which it was a part at the time such indebtedness was incurred, and allow the electors of a given district to mutually assume the bonded indebtedness obligations of the territory included within the district at an election called for that purpose. Such elections should be allowed to be called either by petition of the registered electors of the district or by resolution of the governing board of the district.

**Mr. Homer C. Livingston, Office of the Los Angeles County Assessor's Office:**

Mr. Livingston testified that as far as the Los Angeles County Assessor was concerned, they felt they were the victim of existing legislation and they were firmly of the opinion that there must be some better way to do it He explained they are the ones who have to set up map records and set up the assessment records all the way through; that there were over 1,700,000 parcels of property in Los Angeles, so that when you have districts that are part of several assessment districts, it complicates things considerably.

**Mr. Jack Crowther, Los Angeles City School District:**

Mr. Crowther testified his office was in favor of the general principle of simplifying the inter-district problems, but he felt there were certain things about the proposal that needed to be considered for ramifications which they will have in a district as large as the Los Angeles City School District. Mr. Crowther then gave an example of a district that was transferred from the Los Angeles City School District to the Montebello City School District. In effect, this transfer meant that they were still carrying the bonds of this district in the Los Angeles High School District. Therefore, it reduced the limitation for bonded indebtedness If this happened very much, he said, it would seriously jeopardize the Los Angeles High School District.

**Dr. Lawrence B. White, Executive Secretary, California School Boards Association:**

Dr. White explained that the California Schools Boards Association was extremely interested in this problem and had been studying it for a period of two years. He said the association will continue its interest and support of the proposals contained in Assembly Bill No. 2315 and if certain provisions of the measure adversely affect some districts, amendments could be adopted to rectify such situations. They believe, however, that the provisions of Assembly Bill No. 2315 would be an important step forward in the solution of many vexing problems in this field.

**Mr. Robert McKay, California Teachers' Association:**

Mr. McKay testified his association was deeply interested in the problem; that Dr. Hawk had appeared before the Finance Public Education Committee of the C.T.A. and that that committee was still working on studying Dr. Hawk's proposal. He said the C.T.A. did not feel it would be fair to permit or encourage the owners of high assessed valued property in one district to change their district setup to avoid carrying their fair share of the school costs, and at the same time to impoverish the district from which they withdrew. They don't feel this should serve to reduce the eligibility of a school district for state

building aid on the one hand, or should serve to reduce their obligation to pay aid after it has been obtained.

### Total Bond of Indebtedness in California

The following information, gathered by the Research Department of the California State Chamber of Commerce, is placed in this report in order to emphasize the huge amount of bonded indebtedness in California at the present time and to stress the necessity of adopting simple and clear laws concerning this subject.

California's Constitution authorizes school districts to issue bonds with the assent of two-thirds of the qualified electors. Statutes limit the debt of a school district to 5 percent of assessed valuation for each level: elementary, high school, and junior college. A maximum of 15 percent is authorized for all three levels in a unified district.

The outstanding bonded indebtedness of all school districts as of June 30, 1957, was $1.279 billion. High school districts led with $428,965,000 outstanding. Elementary districts had a debt of $408,051,000 and unified districts $406,801,000. The debt of junior college districts was $35,253,000.

| | *District bonded indebtedness June 30th* | |
|---|---|---|
| | *1954* | *1957* |
| Elementary | $311,007,000 | $408,051,000 |
| High school | 308,261,000 | 428,965,000 |
| Junior college | 16,158,000 | 35,253,000 |
| Unified | 347,683,000 | 406,801,000 |
| Total | $983,109,000 | $1,279,070,000 |

In 1940, the bonded indebtedness of all school districts was $182 million. With the slackening of construction during the war, debt dropped to $133 million in 1945. The necessity of providing more classrooms increased debt to $476 million in 1950 and to over $1¼ billion as of June 30, 1957—an increase of $166,828,000 over the previous year.

| | | | |
|---|---|---|---|
| 1940 | $182,435,000 | 1954 | $844,033,000 |
| 1950 | 475,949,000 | 1955 | 983,109,000 |
| 1951 | 569,997,000 | 1956 | 1,112,742,000 |
| 1952 | 601,206,000 | 1957 | 1,279,070,000 |
| 1953 | 718,391,000 | | |

*SCHOOL DISTRICT*

*Annual Bond Costs*

| | *Interest* | *Redemption* | *Total* |
|---|---|---|---|
| 1950-51 | $12,589,091 | $28,264,719 | $40,853,810 |
| 1951-52 | 13,981,868 | 33,237,705 | 47,219,573 |
| 1952-53 | 14,395,290 | 37,745,590 | 52,140,880 |
| 1953-54 | 17,764,613 | 43,869,555 | 61,634,168 |
| 1954-55 | 22,404,520 | 51,300,440 | 73,704,960 |
| 1955-56 | 25,525,188 | 59,556,454 | 85,081,642 |
| 1956-57 | 29,084,462 | 67,273,961 | 96,358,423 |

Interest and redemption charges totaled $96,358,000 in 1956-57—an increase of $55,505,000 in the six years since 1950-51. The $96,358,000 was the combination of $29,084,000 of interest charges and $67,274,000 for repayment of principal.

**Conclusion**

The previous excerpts of testimony have clearly indicated that there still remain wide areas of disagreement on major and basic issues involved in the area of bonded indebtedness.

The subcommittee feels that major studies of the bonded indebtedness of school districts should be undertaken immediately by various interested parties and organizations. With these organizations submitting proposed plans to the Legislature, and with the assistance of the office of the Legislative Analyst, a future subcommittee should be able to come to a reasonable and equitable bonded indebtedness program that will serve the best interests of all concerned.

### Veto Message Concerning Assembly Bill No. 1770

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 17, 1959

*To the Honorable Members of the Assembly of the State of California:*

I am returning herewith without my signature,

**Assembly Bill No. 1770,** entitled "An act to add Section 34704.1 to the Water Code, relating to officers of California water districts."

My objections to this bill are as follows:

Assembly Bill No. 1770 prescribes a procedure for cancellation of elections for water district officers, where only one person has been nominated for each office to be filled at the election, or where no nominations have been made for one or more of the offices.

I have no objection to the bill on its merits. However, I am informed that Assembly Bill No. 1144, which is also before me for consideration, covers the identical subject matter in a more thorough manner. The advisability of giving preference to Assembly Bill No. 1144 over the present bill, under the circumstances, has been discussed with the author, and I am advised that the proposal to veto his bill is satisfactory with him.

Since I am approving Assembly Bill No. 1144, I am, therefore, returning Assembly Bill No. 1770 without my signature.

Respectfully submitted,

EDMUND G. BROWN, Governor

Assembly Bill No. 1770 ordered to the unfinished business file.

### Consideration of House Resolution No. 381

By Mr. Backstrand:

### House Resolution No. 381

Relative to Studies of the Administration of Motor Vehicle Affairs

WHEREAS, Motor vehicle transportation has grown at a phenomenal pace in California in recent years and there is clear prospect that its growth in the future will be even more spectacular; and

WHEREAS, The Legislature after much diligent and continuing study has developed successful programs for the financing, constructing, and maintaining of the highway plant; and

WHEREAS, It is equally essential that concerted attention and study be given to motor vehicle functions, other than the financing and engineering of highways, if optimum service is to be rendered to the people of California; and

WHEREAS, The administration of all motor vehicle affairs, not only involves tremendous costs which are certain to increase greatly in the future, but also affects the lives and welfare of our citizens; and

WHEREAS, Deficiencies and inconsistencies in the law pertaining to motor vehicle affairs may have resulted from failure to develop an overall approach, which would clearly define basic policy objectives that would provide guidance to affected administrators, and which would also provide for re-evaluation of traditional activities in the light of changing and anticipated conditions; and

WHEREAS, State difficulties in dealing evenly with the many problems inherent in the administration of motor vehicle affairs may lead to unwelcome activity in this field by the Federal Government, a possibility suggested by current studies initiated by the Federal Government to determine what it should do to promote highway safety; and

WHEREAS, The facts heretofore cited have been recognized by the Western Interstate Committee on Highway Policy Problems, the American Association of Motor Vehicle Administrators, and the International Association of Chiefs of Police, all of whom by resolution have urged that state legislatures make provision for study of current problems and future needs in the administration of motor vehicle affairs; and

WHEREAS, Basic issues of state transportation policy are involved in the provision of service, the control of privilege, and the exercise of police power with respect to administration of motor vehicle affairs, which issues should be given comprehensive study; and

WHEREAS, Illustrative activities that should have benefit of such study include driver education and licensing; vehicle registration and title issuance; financial responsibility requirements; highway-user tax administration; law enforcement as it relates to all highway and motor vehicle affairs; and record maintenance and data collection and analysis in regard to all of the foregoing; and

WHEREAS, Such study should include: (1) an inventory of all functions, activities, and duties of the state pertaining to operations on the highway plant and administration of motor vehicle affairs, together with a determination and evaluation of the purposes and objectives of all such functions, activities, and duties; and (2) an estimate of future needs for effective and economical performance of all such functions, activities, and duties, analyses of benefits in relation to costs in each case, and exploration of alternative means of achieving useful and necessary purposes and objectives; and

WHEREAS, The subject matter of this resolution not only involves long-range research and study as well as immediate investigation, but also cuts across many fronts which will be dealt with by one or more of the duly created interim committees of the Legislature; now, therefore, be it

*Resolved by the Assembly of the State of California*, As follows:

1. The subject matter of this resolution is assigned to the Committee on Rules for reassignment by it to an appropriate interim committee, which committee shall report thereon to the Assembly not later than the fifth calendar day of the 1961 Regular Session of the Legislature.

### House Resolution No. 298, as Amended

By Mr. Samuel R. Geddes:

### House Resolution No. 298

Relative to the problems of small agricultural and commercial businesses

WHEREAS, The small business man has traditionally been a bulwark of those values we consider to be fundamental to the American way of life; and

WHEREAS, The present status of the small business man is very perilous, for the rate of bankruptcy and the rate of absorption by larger enterprises are increasing sharply; and

WHEREAS, Among these small businesses, a particularly critical situation exists with respect to small agricultural operations; and

WHEREAS, An increasing number of small farms has been abandoned in the past few years, due in large part to fluctuating price levels; and

WHEREAS, There presently exists as an agency of the federal government a Small Business Administration which is able to give aid to a portion of the small businesses throughout the nation and has been widely acclaimed for its farsighted benefits; and

WHEREAS, A legislative program along lines similar to the federal program is necessary in California to assist in the vast number of situations to which the limited federal program is unable to offer adequate help; now, therefore be it

*Resolved by the Assembly of the State of California*, That the Rules Committee is directed to refer to an appropriate interim committee for study during the 1959-61 interim the subject of problems peculiar to small agricultural and commercial businesses; and be it further

*Resolved*, That the committee consider the feasibility of enacting legislation to solve or alleviate the problems facing the small business man and that the committee give careful study to the formulation of legislation of a type similar to the federal program which would include provision for the giving of financial aid and for the furnishing of technical and managerial counseling; and be it further

*Resolved*, That the committee report to the Assembly on the subject matter of this resolution not later than the fifth calendar day of the 1961 Regular Session of the Legislature.

680. Every undocumented vessel using the waters of this State shall be numbered. No person shall operate or a county, city, or political subdivision give permission for the operation of any undocumented vessel on such waters unless the undocumented vessel is numbered in accordance with this chapter, or in accordance with applicable federal law, or in accordance with a federally approved numbering system of another state, and unless (1) the certificate of number awarded to such undocumented vessel is in full force and effect, and (2) the identifying number set forth in the certificate of number is displayed on each side of the bow of such undocumented vessel.

The application shall contain the name and address of the owner, and of the legal owner if any. The application shall be signed by the owner of the vessel and shall be accompanied by a fee of five dollars ($5). Upon receipt of the application in approved form, the division shall enter the same upon the records of its office and issue a certificate of ownership to the legal owner and a certificate of number to the owner, or both to the owner if there is no legal owner, stating the number awarded to the vessel and the name and address of the owner. The owner shall paint on or attach to each side of the bow of the vessel

Such application shall be in a manner and pursuant to the procedure required for the award of a number under subdivision (a) of this section.

(c) Should the ownership of an undocumented vessel change, the existing certificate of ownership and a new application form accompanied by a fee of three dollars ($3) shall be filed with the division and a new certificate of ownership and a new certificate of number shall be awarded in the same manner as provided for in the initial award of number and the number shall be reassigned to the new owner.

(d) In the event that an agency of the United States Government shall have in force an overall system of identification numbering for vessels within the United States, the numbering system employed pursuant to this article by the division shall be in conformity therewith.

(e) The division may award any certificate of ownership and certificate of number or temporary certificate of number directly or the commission may authorize any person to act as agent for the awarding thereof. In the event that a person accepts such authorization, he may be assigned a block of numbers and certificates therefor which upon award, in conformity with this article and with any rules and regulations of the commission, shall be valid as if awarded directly by the division. (l) Any holder of a certificate of number shall notify the division within 30 days, if his address no longer conforms to the address appearing on the certificate and shall, as a part of such notification, furnish the division with his new address. The commission may provide in its rules and regulations for the surrender of the certificate bearing the former address and its replacement with a certificate bearing the new address or for the alteration of an outstanding certificate to show the new address of the holder.

Undocumented vessels propelled solely by oars, paddles, or electric motors of 10 horsepower or less and undocumented vessels less than 8 feet in length propelled by sail or motors of 10 horsepower or less are exempt from the provisions of this article.

### PRAYER

The following prayer was offered by the Chaplain, Rev. R. Wilbur Simmons:

*Most Gracious God,* Beginning the last day of this legislative session we lift up our hearts in gratitude for the experiences of this Assembly. Where decisions have been right, further them, we pray Thee; where they have been wrong, correct them, in Thy wisdom; where noble purposes have become dead bills, provide some more favorable climate. We thank Thee for the rich interplay of personalities so vastly different that one wonders at the choices of the electorate; for friendships formed, and respect and affection won by many who have been opponents on numerous issues. For genial and courteous presiding officers, and for an efficient and pleasant Assembly staff, we lift up our humble thanks. May we return to families and home communities mindful of invisible bonds which unite us, of a loyalty to this Commonwealth shared by us all, and knowing that some memories will linger always. And now may the Lord bless you and keep you; the Lord make His face to shine upon you and be gracious unto you; the Lord lift up the light of His countenance upon you, and give you peace.—AMEN.

## OPINION ORDERED PRINTED IN JOURNAL

On request of Mr. Miller, Speaker Brown ordered the following opinion of the Legislative Counsel printed in the Journal:

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO RETIREMENT

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, June 15, 1959

*Hon. Allen Miller*
*Assembly Chamber*

**Retirement—No. 17611**

DEAR MR. MILLER: You have asked us for an analysis of Senate Constitutional Amendment No. 31, as amended in Assembly June 12, 1959, and an opinion as to the measure's validity under the United States Constitution.

A. *Analysis*

The measure would increase the monthly compensation paid to Members of the Legislature from $500 to $750.

The measure would provide that the retirement benefits payable to persons who have retired under the Legislators' Retirement System prior to the operative date of the measure shall not be increased as the result of such increased compensation, and that the increased compensation shall not be used in computing the retirement benefits of such retired persons.

Under the Legislators' Retirement System retirement allowances are based upon the compensation payable, at the time the allowances fall due, to the current incumbent of the office (Sec. 9359.1, Gov. C.). Thus, under the existing law if the compensation of Members of the Legislature are increased, the retirement allowances now being paid under the Legislators' Retirement System to former Members of the Legislature would be automatically increased.

The measure would prevent such an increased allowance for former Members of the Legislature who have retired prior to the operative date of the amendment, resulting from the increase in the compensation payable to Members of the Legislature.

B. *Validity Under United States Constitution*

It seems clear that under the existing California Constitution legislation which would increase the salary of Members of the Legislature but would prohibit such an increase from being considered in determining the allowances paid to retired members would be invalid (*Abbot* v. *City of Los Angeles* (1958), 50 Cal. 2d 438). However, the measure is a constitutional amendment and specifically controls over other provisions of the California Constitution.

The rules developed by the California courts as to modification of public retirement systems are based on the contract clause of the California Constitution (*Kern* v. *City of Long Beach* (1947), 29 Cal. 2d 848, 853).

The United States Supreme Court has held that a state statute reducing the retirement benefit payable to retired teachers did not unconstitutionally impair the obligation of contract or deprive such teachers of a vested right without due process of law under the United States Constitution (*Dodge* v. *Board of Education* (1937), 302 N. S. 74, 82 L. Ed. 57). The lower federal courts have consistently followed this holding that public retirement benefits are not protected by the United States Constitution (see 52 A. L. R. 2d at p. 443). In view of this construction of the United States Constitution by the United States Supreme Court, it would appear that an amendment to the California Constitution to modify the retirement benefits of retired members of the Legislators' Retirement System, by preventing an increase in such benefits by changing the benefits from a fluctuating type pension to a fixed amount, as would be the effect of the measure, would not be held to violate the United States Constitution.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By OWEN K. KUNS, Principal Deputy

Two copies to Hon. Randolph Collier
pursuant to Joint Rule No. 34.

## MESSAGES FROM THE GOVERNOR

The following messages from the Governor were received, and read:

### Veto Message Concerning Assembly Bill No. 2142

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 19, 1959

*To the Honorable Members of the Assembly of the State of California:*

I am returning, herewith, without my signature, Assembly Bill No. 2142, relating to organized camps.

My objections to this bill are as follows:

This bill defines the terms "organized camp," "camper," and "camp employee"

I feel there is no present need for this bill since there are no existing provisions relating to organized camping to which these definitions can give meaning

I am, therefore, returning Assembly Bill No 2142 without my signature

Respectfully submitted,

EDMUND G. BROWN, Governor

Assembly Bill No. 2142 ordered to the unfinished business file.

### Veto Message Concerning Assembly Bill No. 1824

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 19, 1959

*To the Honorable Members of the Assembly of the State of California:*

I am returning, herewith, without my signature, Assembly Bill No. 1824, an act relating to board of directors sessions of local hospital districts.

My objections to this bill are as follows:

Assembly Bill No. 1824 would permit executive sessions of district boards of directors in matters pertaining to employment or discipline of employees or members of the medical staff. It would prohibit adverse official action by the board without first having offered the person affected an opportunity for a public hearing

I have been advised of pending litigation which Assembly Bill No 1824 may affect. The author has advised me that under the circumstances the sponsors of the legislation recommend that my signature not be affixed to the measure. I concur in their recommendation.

I am, therefore, returning Assembly Bill No. 1824 without my signature.

Respectfully submitted,

EDMUND G. BROWN, Governor

Assembly Bill No. 1824 ordered to the unfinished business file.

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Hegland was granted unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal.

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO SCHOOL DISTRICT TAXES FOR O. A. S. I. OBLIGATIONS

SACRAMENTO, June 1, 1959

*Hon. Sheridan N. Hegland*
*Assembly Chamber*

**School District Taxes for O. A. S. I. Obligations—No. 15912**

*Question*

DEAR MR. HEGLAND: In connection with Assembly Bill No. 704 (now Chapter 112 of the Statutes of 1959), which increases the maximum school district tax rate by an amount which will produce moneys sufficient to reimburse the State for costs incurred in administering the Old Age and Survivors' Insurance System as it affects a school district, plus the district's employer's contribution, you ask:

Since the provisions of the bill will, in all likelihood, not become effective until some time after mid-September, 1959 (the ninety-first day after final adjournment of the Regular Session of the Legislature), and school district tax needs for the next fiscal year must be estimated by some time in August (before the effective date of the bill), may the estimate of tax needs include the estimated needs for the O. A. S. I. program?

*Opinion*

In our opinion, the budget and estimate of tax needs may include amounts estimated to be necessary to meet the school district's O. A. S. I. obligations.

The terms of the bill increase the maximum school district tax rates, and it is our opinion that the increased rates may be utilized even though the effective date of the bill may occur after the final date set by law for fixing school district tax rates.

*Analysis*

Assembly Bill No. 704 adds Section 6357.4 to the present Education Code, and Section 20801.5 to the 1959 Education Code, to provide as follows:

> "The maximum rate of school district tax for any school year is hereby increased by such amount as will produce the amount which the district is required to pay to the State in the administration of the Old Age and Survivors' Insurance System pursuant to Section 22551 of the Government Code, plus the amount of employer's contribution for which the district is liable under the provisions of Section 22553 of the Government Code, as shown by the budget of the district for such school year, as finally adopted

by the governing board of the district, less any unencumbered balances remaining at the end of the preceding school year derived from the revenue from the increase in the rate of tax provided by this section.

"If at the end of any school year there remains an unencumbered balance derived from the increase in tax rate hereby provided, such balance shall be used exclusively in the following school year for the payment of such obligations of the district."

The bill contains no urgency clause and is not one of the special forms of legislation made effective immediately by Section 1 of Article IV of the California Constitution. It will, consequently, become effective in the ordinary course on the 91st day after final adjournment of the 1959 Regular Session. It is apparent that this will be after September 1, 1959.

The final date for fixing district tax rates is September 1st (Gov. C, Sec. 29120). The school district tentative budget must be submitted to the county superintendent of schools on or before July 1st, and the final adoption of the budget occurs on or before August 10th (Ed. C., Secs.* 6301, 6306).

It will be noted, however, that the bill does not purport to expand or otherwise deal with the power and authority of the local governmental officers in respect to these taxation procedures. The terms of the bill directly increase the tax rate. It provides that the "maximum rate of school district tax for any school year is hereby increased * * * ." Thus, on its effective date the maximum tax rates will be so increased.

There would appear to be nothing in the law governing school district budget and taxing procedures (Ed. C., Secs. 6301-6387, incl.) which would prohibit the inclusion in a school district's budget of amounts which will be needed to meet the district's O. A. S. I. obligations even though they can be raised only through an increase in maximum district tax rate which will become effective a few weeks in the future. Insofar as tax collection procedures are concerned, they will become operative after the effective date of the bill (see R. & T. C., Secs. 2601, et seq ).

In our opinion the budgets and estimates of tax needs for a school district may include amounts to be needed to meet the district's O. A. S. I. obligations and the various procedures preceding the assessment and levy of the tax may, with respect to those districts whose O. A. S. I. obligations can be met only through tax rate increases, be conducted on the basis that the rate will be increased on the effective date of the bill.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By ERNEST H. KUNZI, Deputy

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Bruce F. Allen was granted unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal:

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO WATER DEVELOPMENT

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, June 19, 1959

*Hon. Bruce F. Allen*
*Assembly Chamber*

**Water Development: Senate Bill No. 1106—No. 18228**

*Question*

DEAR MR. ALLEN: You have directed our attention to Senate Bill No. 1106 as amended in the Senate May 28, 1959, and more particularly to the provision which is contained in proposed Section 12938 of the Water Code and found on page 7 of the bill which reads:

> "To the extent that money is expended from the California Water Fund for construction of state water facilities, proceeds from the sale of bonds * * * is appropriated and shall be expended for the

construction of such additional facilities of the State Water Resources Development System as the department shall determine to be necessary and desirable *(1)* to meet local needs, including, but not restricted to, flood control, *and (2)* to augment the supplies of water in the Sacramento-San Joaquin Delta from multiple purpose dams, reservoirs, aqueducts and appurtenant works in watersheds of the Sacramento, Eel, Trinity, Mad, Van Duzen and Klamath Rivers * * * " (emphasis added).

You have asked if the word "and" (underscored above) would be construed in the conjunctive and, if so, would the provision require that all facilities under (1) above for "local needs" must be facilities under (2) above "to augment the supplies of water in the Sacramento-San Joaquin Delta."

*Opinion and Analysis*

From the provision quoted above it is clear, in our opinion, that while the word "and" is used in the conjunctive and would authorize expenditure for both "local needs" and "to augment the supplies of water in the Sacramento-San Joaquin Delta," it does not require that each facility serve both purposes. In other words, we believe that the provision in question would authorize expenditures for *either* or *both* local needs and to augment the supplies of water in the delta. The determination of the particular facilities to be constructed is expressly left to the discretion of the Department of Water Resources.

It is noted that the provision in question specifically distinguishes additional facilities constructed to meet local needs from the additional facilities constructed to augment the supplies in the Sacramento-San Joaquin Delta by broadly expanding the local needs as including, but not limited to, flood control which might or might not augment the supply of water in the delta. Similarly the facilities to augment the supplies of water in the Sacramento-San Joaquin Delta are specifically identified as being multiple purpose dams, reservoirs, aqueducts and appurtenant works in the watersheds of the Sacramento, Eel, Trinity, Mad, Van Duzen and the Klamath Rivers.

We conclude that "additional facilities" contemplated would be either or both those necessary and desirable to meet local needs and those necessary and desirable to augment the supplies of water in the Sacramento-San Joaquin Delta.

This conclusion is supported, we believe, by the well established rule of statutory construction that all parts of a statute must be read together (45 Cal Jur. 2d, pp. 626, 627). The next sentence in proposed Section 12938 following the provision in question reads, in part:

"Such additional facilities for local needs *shall* include those necessary to conserve or develop water which is tributary to the stream upon which any of the facilities of the State Water Resources Development System are constructed * * *" (Emphasis added).

Facilities to meet local needs would undoubtedly include works which, like flood control structures, would not augment the supplies of water of the Delta. Considered in light of the language quoted above, which *requires* that such facilities be included, it is clear that facilities for local needs need not augment the water supplies of the Delta.

In considering the interpretation of the provision in question, at various times while Senate Bill No. 1106 has been pending before the Legislature, we have consistently construed the provision as discussed above. In so doing, we have based our opinions solely on the language of the bill. We note that a statement of one of the proponents of Senate Bill No. 1106, which appears on page 5661 of the Assembly Journal for June 17, 1959, presents a different interpretation of the provision in question. While any such statement of legislative intent might be material in considering the interpretation to be given this provision, we cannot attempt to evaluate the effect of this statement until such time as the corrected copies of the Journals of both houses of the Legislature for this session of the Legislature are available and any other statements, materials or facts which might likewise bear on the matter are available.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

**SUPPLEMENTARY REPORT TO CONCLUDE THE FINAL REPORT OF THE JOINT INTERIM COMMITTEE ON ASSESSMENT PRACTICES TO THE CALIFORNIA LEGISLATURE**

Assembly Constitutional Amendment No. 46, set forth at length on pages 13 to 15 of the *Final Report of the Joint Interim Committee on Assessment Practices,* and Assembly Bill No. 2674, set forth at length on pages 16 to 26 of the final report, were introduced in the Assembly on April 29, 1959, as a basis for discussion leading to final legislative solution of the problems which grew out of Chapter 1466, Statutes of 1949.

The full report of the committee, set forth on pages 27 to 42 of the final report, analyzed the committee's findings which led to the introduction of its two bills. This supplementary report shall, therefore, be limited to a brief discussion of Assembly Bill No. 2674, as amended in Assembly June 5, 1959, which is the legislation finally passed by both the Senate and the Assembly.

Chapter 1466, Statutes of 1949, is repealed in toto. This is done by restoring all language in Art. 1, Ch. 4, Pt. 2, Div. 1 of the Revenue and Taxation Code (Sections 751 to 760) to its exact form prior to enactment of Chapter 1466, by repealing all language in Art. 1, Ch. 2, Pt. 3, Div. 1 of the code (Sections 1831 to 1843) and adding entirely new language therefore (new Sections 1815 to 1825), and by repealing all other language contained in Chapter 1466.

Restoration of the language in Sections 751 to 760 to its pre-1949 condition completely removes the problem of equalization between state and locally assessed property from the bill. This was done in view of the recent actions by the members of the State Board of Equalization in their responsibility for assessing utilities and railroads rather than passively accepting staff recommendations. Further resolution of problems surrounding state assessments may safely be left in the hands of the board.

The new Sections 1815 to 1825 accomplish three objectives. First, they embody the procedures set forth in the Monterey Agreement between the State Board of Equalization and the County Assessors Association. The Monterey Agreement provided for the conduct of triennial equalization surveys by the board, for discussion of survey appraisals with the assessor involved, for trending survey results up to the current lien date, for tabulating the trended survey results as a basis for intercounty equalization, and for discussion of the tabulations with the several assessors. Writing these sections into the Revenue and Taxation Code provide, for the first time, a solid legal basis for equitable intercounty equalization.

The second objective is accomplished in the last sentences of Sections 1818 and 1819. These provide for the disclosure and publication of the equalization tabulations prepared by the board—in effect, revelation of the assessment ratios prevailing in each of the several counties. This will permit local assessees to compare their assessments with the level prevailing throughout their county and will give them a solid basis for appeals against alleged over-assessments before the local board of equalization. No longer will they be forced to base their appeals on comparisons with like properties, all of which may be over-assessed. Though the committee does not believe that these full disclosure provisions will completely solve the problems of intracounty equalization, it is firmly convinced that they will open up for inspection the true nature of these problems, permitting corrective legislation if deemed necessary by future legislatures, and will force the several assessors to narrow the spread between assessment levels for various locally assessed properties which is now believed to exist.

The third objective is accomplished in Sections 1823 and 1825. During the series of informal meetings held with county supervisors, assessors and other interested individuals throughout the State, the committee found that the greatest resistance to equalization orders of the State Board of Equalization has been based on the reluctance of local governing boards to reduce their tax rates in inverse proportion to the increase in the assessment level. Failure to so reduce tax rates results in an increase in actual taxes and in a resultant financial windfall to the jurisdiction. The bill requires that equalization orders shall be issued after local tax rates have been set, and that such tax rates shall be shifted in inverse proportion to the assessment level shift after final action has been taken on the equalization orders. Actual taxes due from local assessees thus will remain undisturbed by equalization actions of the State Board of Equalization.

Experience under Assembly Bill No. 2674 will no doubt reveal areas where further improvement will be necessary. However, enactment of this bill will have removed the roadblock which has barred all progress for a decade, and will provide the tools necessary to achieve far superior equalization standards than were ever possible before.

## MESSAGES FROM THE GOVERNOR

The following message from the Governor was received, and read:

### Veto Message Concerning Assembly Bill No. 846

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 19, 1959

*To the Honorable Members of the Assembly of the State of California:*

I am returning herewith without my signature

**Assembly Bill No. 846,** entitled. "An act to amend Section 4.4 of, and to add Section 2.14, to, the Los Angeles Metropolitan Transit Authority Act of 1957 (Chapter 547 of the Statutes of 1957), relating to charter service."

My objections to this bill are as follows.

Assembly Bill No 846 adds to Section 4.4 of the Los Angeles Metropolitan Transit Authority Act, which now prescribes the general powers of the Transit Authority with respect to operation and maintenance of a mass rapid transit system, a provision to the effect that the authority shall not have the power to operate or provide a sightseeing service.

I am informed that the Transit Authority has not been operating a sightseeing service in the past, and has no intention of operating such service in the future. If so, a legislative prohibition against this activity seems unnecessary, but I would not veto the bill on this ground alone.

My more serious objection to the bill arises out of the fact that the Los Angeles Metropolitan Transit Authority has issued and sold bonds, secured solely by revenues from the operation of its transit system, to finance the acquisition of the privately operated systems that were the predecessors of the Transit Authority. I have conflicting opinions from the Legislative Counsel and Attorney General on the question of whether the legislation substantially impairs the obligation of the authority's contract with the holders of its revenue bonds, and therefore violates the provisions of Section 10 of Article 1 of the United States Constitution, and Section 16 of Article 1 of the State Constitution. However, assuming the validity of the measure from a constitutional standpoint, I would still object to Assembly Bill No. 846 from the standpoint of its possible adverse effect on the marketability, and interest rate, of all public agency revenue bond issues. The State of California, and its agencies, such as the California Toll Bridge Authority, presently enjoy an excellent credit reputation with investment houses throughout the Nation. Legislation such as this, prohibiting public agencies which have outstanding revenue bonds, from engaging in any revenue producing service authorized by the enabling act which created the agency in the first instance, could have an adverse effect on this reputation.

For the reasons above noted, namely, that there is at least some question as to the constitutionality of the measure, that even if valid from a constitutional standpoint it might have an adverse effect on other public agency revenue bond issues, and because I believe the bill to be unnecessary. I am, therefore, returning Assembly Bill No. 846 without my signature.

Respectfully submitted,

EDMUND G. BROWN Governor

### Veto Message Concerning Assembly Bill No. 1097

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 19, 1959

*To the Honorable Members of the Assembly of the State of California:*

I am returning herewith without my signature

**Assembly Bill No. 1097,** an act adding Section 25660 1 to the Business and Professions Code, relating to alcoholic beverages

My objections to this bill are as follows:

The bill adds a new section to the Alcoholic Beverage Control Act, providing that in any criminal prosecution or proceeding for the suspension or revocation of any license, where the offense with which the licensee is charged is the sale of alcoholic beverage to a minor, or permitting consumption by a minor, evidence that a reasonable person would have considered the minor to be over the age of 21 may be a defense to the prosecution or administrative proceeding.

The Attorney General entertains doubts as to the constitutionality of the measure, as being in conflict with the amendment of Article XX, Section 22, of the Constitution, relating to alcoholic beverages, which amendment became effective January 1, 1957. This amendment absolutely prohibits the sale, furnishing, or giving of any alcoholic beverage to any person under the age of 21 years.

In addition to concurring with the Attorney General's view on the question of the possible conflict between the provisions of Assembly Bill No. 1097 and the provisions of the Constitution, I am personally opposed to any legislation that would permit either the courts, or the Department of Alcoholic Beverage Control, to impose less strict, rather than more strict penalties upon licensees for the sale of liquor to minors.

I am, therefore, returning Assembly Bill No. 1097 without my signature.

Respectfully submitted,

EDMUND G. BROWN, Governor

Assembly Bill No. 1097 ordered to the unfinished business file.

*State Capitol, Sacramento*

FRIEND RALPH: Would you kindly express to the Members of the Assembly my sincere thanks and appreciation for the lovely birthday resolution presented by my grandfather the Honorable Edward M. Gaffney and the other seventy-nine members. You tell Gaffney, but not the members, that the grandchildren with the

exception of one of them, will be very happy when they see the resolution. Which one will be unhappy I do not know, because the resolution says I have twelve grandchildren although I do have thirteen. Tell him to go to Eleventh and J Streets and atone for the sin he committed.

To you and the members, thanks again, as you have really had a tough session.

With my kindest regards to all, I am

Sincerely yours,

THOMAS A MALONEY

### Senate Constitutional Amendment No. 14

A resolution to propose to the people of the State of California an amendment to the Constitution of said State by amending Section 1a of, and by adding Sections 1b, 1c, 10b, and 26a to, Article VI of said Constitution, relating to the administration of justice, including removal and retirement of judges, the membership and duties of the Commission on Judicial Qualifications, Judicial Council and State Bar, and the renaming of the Commission on Qualifications.

*Resolved by the Senate, the Assembly concurring*, That the Legislature of the State of California at its 1959 Regular Session, commencing on the fifth day of January, 1959, two-thirds of all members elected to each of the two houses of the Legislature voting in favor thereof, hereby proposes to the people of the State of California that the Constitution of the State be amended as follows:

First—That Section 1a of Article VI is amended to read.

SEC. 1a. There shall be a Judicial Council. It shall consist of: (i) the Chief Justice or Acting Chief Justice; (ii) one Associate Justice of the Supreme Court, three justices of district courts of appeal, four judges of superior courts, two judges of municipal courts, and one judge of a justice court, designated by the Chief Justice for terms of two years; (iii) four members of the State Bar of California appointed by the Board of Governors of the State Bar for terms of two years, two of the first such appointees to be appointed for one year and two for two years; and (iv) one member of each house of the Legislature designated as provided by the respective house. If any judge so designated shall cease to be a judge of the court from which he is selected, his designation shall forthwith terminate If any member of the State Bar so appointed shall cease to be a member of the State Bar, his appointment shall forthwith terminate, and the Board of Governors of the State Bar shall

fill the vacancy in his unexpired term. If any Member of the Legislature so designated shall cease to be a member of the house from which designated, his designation shall forthwith terminate, and a new designation shall be made in the manner provided by the respective house. The Chief Justice or Acting Chief Justice shall be chairman and the Clerk of the Supreme Court shall serve as secretary. The council may appoint an administrative director of the courts, who shall hold office at its pleasure and shall perform such of the duties of the council and of its chairman, other than to adopt or amend rules of practice and procedure, as may be delegated to him. No act of the council shall be valid unless concurred in by a majority of its members.

The Judicial Council shall from time to time:

(1) Meet at the call of the chairman or as otherwise provided by it.

(2) Survey the condition of business in the several courts with a view to simplifying and improving the administration of justice

(3) Submit such suggestions to the several courts as may seem in the interest of uniformity and the expedition of business

(4) Report to the Governor and Legislature at the commencement of each regular session with such recommendations as it may deem proper

(5) Submit to the Legislature, at each general session thereof, its recommendations with reference to amendments of, or changes in, existing laws relating to practice and procedure.

(6) Adopt or amend rules of practice and procedure for the several courts not inconsistent with laws that are now or that may hereafter be in force.

(7) Exercise such other functions as may be provided by law.

The chairman shall seek to expedite judicial business and to equalize the work of the judges, and shall provide for the assignment of any judge to another court of a like or higher jurisdiction to assist a court or judge whose calendar is congested, to act for a judge who is disqualified or unable to act, or to sit and hold court where a vacancy in the office of judge has occurred. A judge may likewise be assigned with his consent to a court of lower jurisdiction, and a retired judge may similarly be assigned with his consent to any court.

The judges shall co-operate with the council, shall sit and hold court as assigned, and shall report to the chairman at such times and in such manner as he shall request respecting the condition, and manner of disposal, of judicial business in their respective courts.

No member of the council shall receive any compensation for his services as such, but shall be allowed his necessary expenses for travel, board and lodging incurred in the performance of his duties as such. Any judge assigned to a court wherein a judge's compensation is greater than his own shall receive while sitting therein the compensation of a judge thereof. The extra compensation shall be paid in such manner as may be provided by law. Any judge assigned to a court in a county other than that in which he regularly sits shall be allowed his necessary expenses for travel, board and lodging incurred in the discharge of the assignment.

Second—That Section 1b is added to Article VI, to read:

SEC 1b. There shall be a Commission on Judicial Qualifications. It shall consist of: (i) Two justices of district courts of appeal, two judges of superior courts, and one judge of a municipal court, each selected by the Supreme Court for a four-year term; (ii) two members of the State Bar, who shall have practiced law in this State for at least 10 years and who shall be appointed by the Board of Governors of the State Bar for a four-year term; and (iii) two citizens, neither of whom shall be a justice or judge of any court, active or retired, nor a member of the State Bar, and who shall be appointed by the Governor for a four-year term. Every appointment made by the Governor to the commission shall be subject to the advice and consent of a majority of members elected to the Senate, except that if a vacancy occurs when the Legislature is not in session, the Governor may issue an interim commission which shall expire on the last day of the next regular or special session of the Legislature Whenever a member selected under subdivision (i) ceases to be a member of the commission or a justice or judge of the court from which he was selected, his membership shall forthwith terminate and the Supreme Court shall select a successor for a four-year term; and whenever a member appointed under subdivision (ii) ceases to be a member of the commission or of the State Bar, his membership shall forthwith terminate and the Board of Governors of the State Bar shall appoint a successor for a four-year term; and whenever a member appointed under subdivision (iii) ceases to be a member of the commission or becomes a justice or judge of any court or a member of the State Bar, his membership shall forthwith terminate and the Governor shall appoint a successor for a four-year term. No member of the commission shall receive any compensation for his services as such, but shall be allowed his necessary expenses for travel, board and lodging incurred in the performance of his duties as such.

No act of the commission shall be valid unless concurred in by a majority of its members. The commission shall select one of its members to serve as chairman.

Third—That Section 1c is added to Article VI, to read:

SEC. 1c. The State Bar of California is a public corporation with perpetual existence and succession. Every person admitted and licensed to practice law in this State is and shall be a member of the State Bar except while holding office as a justice or judge of a court of record.

Fourth—That Section 10b is added to Article VI, to read:

SEC. 10b. A justice or judge of any court of this State, in accordance with the procedure prescribed in this section, may be removed for willful misconduct in office or willful and persistent failure to perform his duties or habitual intemperance, or he may be retired for disability seriously interfering with the performance of his duties, which is, or is likely to become, of a permanent character. The Commission on Judicial Qualifications may, after such investigation as the commission deems necessary, order a hearing to be held before it concerning the removal or retirement of a justice or a judge, or the commission may in its discretion request the Supreme Court to appoint three special masters, who shall be justices or judges of courts of record, to hear and take evidence in any such matter, and to report thereon to the commission. If, after hearing, or after considering the record and report of the masters, the commission finds good cause therefor, it shall recommend to the Supreme Court the removal or retirement, as the case may be, of the justice or judge.

The Supreme Court shall review the record of the proceedings on the law and facts and in its discretion may permit the introduction of additional evidence and shall order removal or retirement, as it finds just and proper, or wholly reject the recommendation. Upon an order for retirement, the justice or judge shall thereby be retired with the same rights and privileges as if he retired pursuant to statute. Upon an order for removal, the justice or judge shall thereby be removed from office, and his salary shall cease from the date of such order.

All papers filed with and proceedings before the Commission on Judicial Qualifications or masters appointed by the Supreme Court, pursuant to this section, shall be confidential, and the filing of papers with and the giving of testimony before the commission or the masters shall be privileged; but no other publication of such papers or proceedings shall be privileged in any action for defamation except that (a) the record filed by the commission in the Supreme Court continues privileged and upon such filing loses its confidential character and (b) a writing which was privileged prior to its filing with the commission or the masters does not lose such privilege by such filing. The Judicial Council shall by rule provide for procedure under this section before the Commission on Judicial Qualifications, the masters, and the Supreme Court. A justice or judge who is a member of the commission or Supreme Court shall not participate in any proceedings involving his own removal or retirement.

This section is alternative to, and cumulative with, the methods of removal of justices and judges provided in Sections 10 and 10a of this article, Sections 17 and 18 of Article IV, and Article XXIII, of this Constitution.

Fifth—That Section 26a is added to Article VI, to read:

SEC. 26a. The "Commission on Qualifications" created by Section 26 of this article is renamed and henceforth shall be known as the "Commission on Judicial Appointments."
