STATUTES OF CALIFORNIA

PASSED AT THE 1953 REGULAR SESSION OF THE LEGISLATURE

CHAPTER 1

An act to amend Section 155.6 of the Revenue and Taxation Code, relating to the assessment of property damaged or destroyed by earthquakes, declaring the urgency thereof, to take effect immediately.

[Approved by Governor January 16, 1953. Filed with Secretary of State January 17, 1953.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 155.6 of the Revenue and Taxation Code is amended to read:

Earthquake damaged property Assessment

155.6. Notwithstanding anything in this code to the contrary, every person who at 12 o'clock meridian of the first Monday in March, 1952, was the owner of, or had in his possession or under his control, any taxable property which property was thereafter damaged or destroyed by any earthquake prior to November 1, 1952, may, on or before February 15, 1953, make application for reassessment of such property and deliver to the assessor a written statement under oath, accompanied by a certificate of a disinterested competent person or authority, showing the condition and value, if any, of the property immediately after the damage or destruction, which damage must be shown therein to be in excess of five hundred dollars ($500). The assessor shall, on or before March 1, 1953, assess the property, or reassess it if it has already been assessed, according to the condition and value immediately after the damage or destruction, and the assessor, if he reassesses the property, shall transmit to the board a description of the property so reassessed, the name of the person making the application in connection with the property, and the value of the property as so reassessed. Upon such notice as it may find to be proper, the local board of equalization may, until April 1, 1953, equalize any such assessment or reassessment.

The tax rate fixed for property on the roll on which the property so assessed appears or the property so reassessed appeared at the time of its original assessment shall be applied to the amount of the equalized assessment or reassessment determined in accordance with the last paragraph. In the event that the resulting figure is less than the tax theretofore computed, the taxpayer shall be liable for tax only for the lesser amount, and the difference shall be canceled. If the taxpayer has already

paid the tax previously computed, such difference shall be refunded to him pursuant to Chapter 5 of Part 9 of this division, as an erroneously collected tax.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The recent earthquakes in the southern part of the State have destroyed and damaged property to such an extent that unless partial relief from taxation is given to the owners thereof, there is grave danger that they may be unable to pay the 1952-53 tax thereon, and that as a consequence the revenues of the counties and cities involved may diminish to a point where the ordinary needs of those communities cannot be served. This bill, if it becomes effective immediately, will do much towards eliminating the possibility of the occurrence of that situation.

CHAPTER 2

An act to amend Section 1 of Chapter 15 of the Second Extraordinary Session of 1952, relating to the revision of budgets of cities, counties, and districts after the occurrence of an earthquake, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor January 16, 1953. Filed with Secretary of State January 17, 1953.]

The people of the State of California do enact as follows:

SECTION 1. Section 1 of the act cited in the title hereof is amended to read:

Earthquake damaged property · Local budget revisions

Section 1. The governing body of any city, county, or district which has adopted a budget for the 1952-1953 Fiscal Year may revise, add to, or otherwise increase such budget during the fiscal year if within that fiscal year an earthquake occurs after July 1, 1952 and prior to November 1, 1952, that substantially damages the property of the city, county, or district or otherwise substantially impairs the ability of the city, county, or district to perform its functions. The procedure for carrying out such budget change shall be as provided in this act.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A series of severe earthquakes has resulted in substantial damage to property of local governmental agencies and has impaired their ability to perform their governmental functions. In order to provide for the welfare of the residents therein and

to prevent a serious disruption of the administration of public affairs it is essential to provide for a revision of the budgets these agencies have adopted for the current fiscal year.

CHAPTER 3

An act to amend Section 43005 of the Government Code, relating to taxes levied by cities, declaring the urgency thereof, to take effect immediately.

[Approved by Governor January 16, 1953. Filed with Secretary of State January 17, 1953.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 43005 of the Government Code is amended to read:

43005. Notwithstanding any other contrary provisions of law, the city legislative body may by ordinance provide that every person of the city who prior to July 1, 1952, was the owner of, or had in his possession or under his control, any taxable property, which property was thereafter damaged or destroyed by any earthquake prior to November 1, 1952, may on or before a date to be specified in such ordinance make application for the reassessment of such property and deliver to the assessing official of the city a written statement under oath, accompanied by a certificate of a disinterested competent person or authority showing the condition and value, if any, of the property immediately after the damage or destruction, which damage must be shown thereon to be in excess of five hundred dollars ($500), and that the assessor shall, on or before March 1, 1953, assess the property, or reassess it if it has already been assessed, according to the condition and value immediately after the damage or destruction, and upon such notice as it may find to be proper the Board of Equalization for the city may, until April 1, 1953, equalize any such assessment or reassessment. It may also be provided in such ordinance that the tax rate fixed for property on the roll on which the property so assessed appears or the property so reassessed appeared at the time of its original assessment shall be applied to the amount of equalized assessment or reassessment determined in accordance with this section. In the event that the resulting figure is less than the tax theretofore computed, the ordinance may provide that the taxpayer shall be liable for tax only for the lesser amount and that the difference shall be canceled. If the taxpayer has already paid the tax previously computed, the ordinance may provide that such difference shall be refunded to the taxpayer. This section shall be applicable to all cities to which the Constitution does not prevent it from being applied. Earthquake damaged property. Taxation by cities

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety Urgency

within the meaning of Article IV of the Constitution and shall go into immediate effect. Facts constituting such necessity are:

The recent earthquakes in the southern part of the State have destroyed and damaged property to such an extent that unless partial relief from taxation is given to the owners thereof, there is grave danger that they may be unable to pay the taxes currently levied thereon and that as a consequence the revenues of the cities involved may diminish to a point where the ordinary needs of those communities cannot be served. This bill, if it becomes effective immediately, will do much towards eliminating the possibility of the occurrence of that situation.

CHAPTER 4

An act making an appropriation for the repair and restoration of property damaged by storms, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor January 20, 1953. Filed with Secretary of State January 21, 1953.]

The people of the State of California do enact as follows:

Appropriation Redondo Beach sea wall restoration, etc

SECTION 1. There is hereby appropriated to the State Allocation Board from the General Fund, fifty thousand dollars ($50,000), or so much thereof as may be necessary, to be allocated to the City of Redondo Beach for the repair and restoration of the sea wall adjacent to that city and to clean up the debris resulting from damage to that sea wall on or about January 12, 1953.

There shall be deducted from each payment made to Redondo Beach pursuant to Section 37 of the Alcoholic Beverage Control Act an amount of not less than one-twentieth of the payment, as may be mutually determined by the State Allocation Board and the governing body of Redondo Beach, until there has been deducted from such payments an amount equal to the sum which the State, through the State Allocation Board, has expended pursuant to this act plus an amount of interest specified by the board. The money so deducted shall be deposited in the General Fund.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The sea wall adjacent to Redondo Beach was recently damaged and torn in two places by heavy seas during a violent storm. Much property and many facilities for the furnishing of governmental services necessary to the public health and safety of the people of the State were damaged and destroyed. Other property and facilities are subject to the present threat of damage from further heavy seas.

In order that funds be made available for the immediate repair and restoration of the sea wall to remove a present threat to the public health and safety, it is necessary that this act take effect immediately.

CHAPTER 5

An act to add Section 5083.3 to the Education Code, relating to state school building aid, declaring the urgency thereof, to take effect immediately.

[Approved by Governor January 23, 1953. Filed with Secretary of State January 24, 1953.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 5083.3 is added to the Education Code, to read:

Elementary school districts joining union districts Apportionments

5083.3. Notwithstanding any provision of law to the contrary, whenever a conditional apportionment has been made to an elementary school district pursuant to Section 5048.1 prior to August 1, 1951, and the school district has subsequently voted to become a part of a union school district before the school district has voted to accept and repay an amount sufficient to include both said entire apportionment made pursuant to Section 5048.1, and all other apportionments made to said school district by the board prior to August 1, 1951, the elementary school district is continued in existence until September 1, 1953, for the purpose of (1) receiving any apportionment made to said district subsequent to August 1, 1951, under Section 5048.7, as if said elementary district had not voted to unionize with another school district, and (2) for the purpose of voting upon the acceptance and repayment of the apportionment mentioned in (1) or any other apportionment made to said district by the board subsequent to August 1, 1951.

If any elementary school district so described above shall vote, prior to September 1, 1953, to accept and repay any apportionment above mentioned (except of any apportionment made under Section 5048.7), said apportionment shall thereupon become final. Repayment of any apportionment referred to in this section shall be made by said elementary district pursuant to the applicable provisions of this chapter as if no change in boundaries had been made in said district.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the construction of schools as provided in Chapter 1.6, Division 3 of the Education Code may be conducted without delay or restriction to meet the due need of the children of this State for adequate and safe classrooms, it is essential that this act take effect immediately.

CHAPTER 6

An act making an appropriation to the Department of Public Works, relating to the repair of the stream bank of Putah Creek and the protection of local sewage disposal plant and the expenditure of money appropriated therefor, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor January 23, 1953. Filed with Secretary of State January 24, 1953.]

The people of the State of California do enact as follows:

Appropriation Putah Creek stream banks

SECTION 1. Out of the moneys appropriated by Item 428 of the Budget Act of 1952, which item appropriated moneys for carrying out the purposes of Chapter 13 of the Statutes of 1951, which chapter appropriated moneys from the Postwar Unemployment and Construction Fund to the Emergency Fund specified in Item 277 of the Budget Act of 1950 for the repairing of local works and improvements which have been damaged or destroyed by storms and flood conditions, no more than the sum of fifty thousand dollars ($50,000) is hereby appropriated to the Department of Public Works for the purpose of repairing and reconstructing the stream bank of Putah Creek and for the protection of the sewage disposal plant of the City of Winters.

SEC. 2. To the extent that the State Allocation Board finds funds apportioned to the City of Winters and the County of Yolo in the Postwar Unemployment and Construction Fund which have not been committed, the appropriation made by this act shall be payable from the Postwar Unemployment and Construction Fund, notwithstanding any provision in the Construction and Employment Act limiting the expenditures therefrom. To the extent that the appropriation is paid from the Postwar Unemployment and Construction Fund, such payment shall constitute payment from the Postwar Unemployment and Construction Fund on behalf of the City of Winters and County of Yolo, respectively, for the purposes of the Construction and Employment Act.

Urgency

SEC 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Recent occurrences of storms and floods have injured the stream banks of Putah Creek, which injury threatens extensive damage and destruction to the sewage disposal plant of the City of Winters. There are not enough funds presently available to repair the damage, and because of the nearness of another flood season even greater danger is imminent. This act appropriates the necessary funds to repair and restore the stream banks of Putah Creek and, therefore, to preserve the nearby public structures and improvements which are now in grave peril. The destruction of the sewage disposal plant would create a public

health problem. Inasmuch as the danger of disaster from storms and floods is now and, until the end of the current runoff season, will be present, it is necessary in the interest of the public health and safety that this act take effect immediately.

CHAPTER 7

An act to amend Section 7431.1 of the Education Code, relating to the computation of bonded indebtedness of school districts, declaring the urgency thereof, to take effect immediately.

[Approved by Governor January 23, 1953. Filed with Secretary of State January 24, 1953.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 7431.1 of the Education Code is amended to read:

7431.1. In computing the limitation of indebtedness of any school district of any kind or class heretofore or hereafter formed or organized, hereinafter in this section referred to as the "bonding school district," the outstanding indebtedness of any previously existing district all or any part of which forms a component part of such bonding school district and the outstanding indebtedness of any school district for which any territory which has become a part of such bonding school district is liable shall be excluded and shall not be deemed, for the purposes of computing the limitation of indebtedness under Section 4714 or 7431, to constitute outstanding indebtedness of such bonding school district, except to the extent that such outstanding indebtedness has been expressly assumed by such bonding school district by vote of not less than two-thirds of the electors of such bonding school district voting at an election at which the proposition of assuming such indebtedness is voted upon. Nothing herein contained shall operate to release any property from liability for taxes to pay the principal and interest of indebtedness incurred by any component district or for which any territory which has become a part of such bonding school district is liable and in which such taxable property is located at the time of the incurring of such indebtedness. It is the intent of the Legislature to provide in this section a special method of computing the limitation of indebtedness of school districts irrespective of liability of the area embraced within such school districts for the payment of any bonded indebtedness. School districts Computation of bonded indebtedness

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows: Urgency

There is an ambiguity in the existing law as to the method of computing bonded indebtedness of certain school districts particularly in the case of a newly formed unified district that will

prevent the sale of bonds to the full bonding capacity of the district. Due to overcrowded classrooms it is necessary that all bond funds possible be made available for new school construction. In order to make such bond funds available as soon as possible it is necessary that this act take effect immediately.

CHAPTER 8

An act making an appropriation for the support of the Porterville State Home, to take effect immediately.

The people of the State of California do enact as follows:

Appropriation Porterville State Home

SECTION 1. The sum of five hundred forty-two thousand eight hundred two dollars ($542,802) is hereby appropriated from the General Fund in the State Treasury for support of the Porterville State Home, to be expended during the 1952-53 Fiscal Year.

From the amount herein appropriated, upon the request of the Director of Finance, the State Controller shall transfer to the Emergency Fund, Item 289 in the Budget Act of 1952, any amounts heretofore made available from such Emergency Fund for support of said home.

Current expenses

SEC. 2. This act makes an appropriation for the usual current expenses of the State within the meaning of Article IV of the Constitution and shall go into immediate effect

CHAPTER 9

An act to amend Sections 154 and 7000 of the Welfare and Institutions Code, relating to the Fairview State Hospital, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor January 23, 1953 Filed with Secretary of State January 24, 1953.]

The people of the State of California do enact as follows:

154. The department has jurisdiction over the following institutions:

Fairview State Hospital

Mendocino State Hospital
Modesto State Hospital
Napa State Hospital
Norwalk State Hospital
Pacific Colony
Patton State Hospital
Porterville State Home

3. Porterville State Home, in Tulare County.
4. Fairview State Hospital, in Orange County.

Wherever in this code or in any provision of statute heretofore or hereafter enacted the term "home for the feeble-minded" is used, it shall be construed to refer to and mean "home for the mentally deficient."

SEC. 3. The sum of eleven million five hundred seventy-six thousand five hundred fifty dollars ($11,576,550) or so much thereof as may be necessary, is hereby appropriated out of the Capital Outlay and Savings Fund for construction, improvements and equipment, Fairview State Hospital, a site for which has been acquired in Orange County, to be expended subject to the provisions of the Budget Act of 1952.

Appropriation Fairview State Hospital

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Urgency

In order to achieve a real mental hygiene program there must be adequate facilities to treat the mentally deficient. Our mental institutions, at present, are 19½ percent overcrowded, obsolete, and with a waiting list well in excess of 3,000. Many have been on that list for years. Heretofore, the Legislature has authorized the purchase of a site and the preparation of plans for a new mental hospital in Orange County. The site has been purchased and the preliminary plans prepared.

The appropriation made by this act will authorize the immediate construction of this hospital and thereby to some extent relieve the critical deficiencies in the care and treatment of the mentally deficient.

CHAPTER 10

An act to add Section 5050.3 to the Education Code, relating to state school building aid, declaring the urgency thereof, to take effect immediately.

[Approved by Governor January 27, 1953. Filed with Secretary of State January 28, 1953.]

The people of the State of California do enact as follows:

SECTION 1. Section 5050.3 is added to the Education Code, to read:

School districts. Validation of certain apportionments

5050.3. Whenever a conditional apportionment has been made, and the county auditor has inadvertently and erroneously included in his certification of the outstanding bonded indebtedness of the school district the bonded indebtedness of another school district having the same, or substantially the same, boundaries, which bonded indebtedness is less than two percent (2%) of the total amount of the total bonded indebtedness certified, and thereafter an election upon the issuance of new bonds in the amount required by the board has been had and the vote thereon has been in favor of the issuance of the bonds, and the board has certified to the State Controller that the apportionment to the school district has become final, such final apportionment is hereby confirmed, ratified, and validated, and any expenditure of money from the Public School Building Loan Fund according to the terms of such final apportionment is hereby confirmed, ratified, and validated.

Any bonds erroneously certified, however, shall not be taken into consideration in making the computation required by Section 5050.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the construction of schools, as provided in Chapter 1.6, Division 3 of the Education Code, may be continued without delay or restriction to meet the due need of the children of this State for adequate and safe classrooms, it is essential that this act take effect immediately.

CHAPTER 11

An act making an appropriation for the construction of fireboats and declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor January 27, 1953. Filed with Secretary of State January 28, 1953.]

The people of the State of California do enact as follows:

Harbor Improvement Fund to the Board of State Harbor Commissioners for San Francisco Harbor, to be expended for the construction (including necessary naval architectural services and inspection costs) of two fireboats for use of said commissioners in San Francisco Harbor.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution, and shall go into immediate effect. The facts constituting such necessity are: Urgency

The City and County of San Francisco will not afford fireboat protection to facilities under control of the Board of State Harbor Commissioners for San Francisco Harbor after the expiration of the present contract for such protection. Said contract expires at the end of the 1952-53 Fiscal Year. It is necessary that this act take effect immediately in order that steps may be taken to provide adequate fire protection for such facilities by the time said contract expires.

CHAPTER 12

An act making an appropriation in connection with litigation concerning the Colorado River, to take effect immediately.

[Approved by Governor January 27, 1953. Filed with Secretary of State January 28, 1953.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. There is appropriated out of the General Fund one hundred thousand dollars ($100,000) to the Department of Finance for use in connection with litigation concerning the rights of California agencies and water users to the waters of the Colorado River, fifty thousand dollars ($50,000), to be allocated to the Attorney General and fifty thousand dollars ($50,000), to be allocated to the Colorado River Board. CHAPTER 13

An act to repeal Section 7000.3 of, and to add Section 7000.3 to, the Education Code, relating to the support of the Public School System, declaring the urgency thereof, to take effect immediately.

[Approved by Governor January 27, 1953. Filed with Secretary of State January 28, 1953.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 7000.3 of the Education Code is hereby repealed.

SEC. 2. Section 7000.3 is added to said code, to read:

Local educational agencies "Federal funds"

7000.3. "Federal funds" as used in Section 7000.1 means the total amount the United States Commissioner of Education has determined and reported to the Superintendent of Public Instruction that the district is entitled to for a fiscal year under Section 3 of the act of Congress entitled "An act to provide financial assistance for local educational agencies in areas affected by federal activities, and for other purposes," approved September 30, 1950 (Public Law 874—Eighty-first Congress), except subsections (e) and (g) of said Section 3, and exclusive of increases in local contribution rates made because of unusual geographic factors, and that the district is entitled to for a fiscal year under subsection (c) of Section 5 of said act, or under any similar provisions of any other act of Congress. The Legislature finds that money received or for which an application has been made under subsection 3(e) of an act of Congress entitled "An act to provide financial assistance for local educational agencies in areas affected by federal activities, and for other purposes," approved September 30, 1950 (Public Law 874—Eighty-first Congress) during the 1951-52 Fiscal Year has not been included in any computation made under this chapter for the Fiscal Year 1952-53, and hereby declares that it is not the intention of the Legislature that money received pursuant to subsection 3(e) of said act shall be included in any such computation made during the 1953-54 Fiscal Year, or any fiscal year thereafter.

Urgency

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

At the First Extraordinary Session of 1952, provisions were added to the Education Code to equalize the amounts of state funds apportioned to school districts which receive money from the United States Government to compensate the district for the burden of educating extra pupils in the district because of military and other federal installations situated in the district and districts which do not receive federal money but educate the same number of pupils in relation to the assessed valuation of the district.

In order for these new provisions to work equitably on such federally aided districts, and to prevent unjust and drastic reduction in the amount of state money apportioned to the districts before the end of the 1952-1953 Fiscal Year accompanied by a possible jeopardizing of the basis for receiving a part of the federal money, it is necessary that this act go into immediate effect.

CHAPTER 14

An act to amend Section 11716 of, and to add Sections 11716.1 and 11716.2 to, the Insurance Code, relating to workmen's compensation insurance, declaring the urgency thereof, to take effect immediately.

[Approved by Governor January 27, 1953. Filed with Secretary of State January 28, 1953.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 11716 of the Insurance Code is amended to read:

Workmen's compensation insurers Security deposit

11716. Such deposit shall be security for the payment of the insurer's obligations on workmen's compensation insurance transacted in this State. If the insurer maintaining such deposit suspends payment or becomes insolvent or enters receivership, the commissioner and the Industrial Accident Commission shall proceed as set forth in Sections 11716.1 and 11716.2. Such deposit shall not be withdrawn except upon the written order of the commissioner in payment of compensation claims, but shall be forthwith payable by the State Treasurer to the commissioner upon such order.

SEC. 2. Section 11716.1 is added to the Insurance Code, to read:

Insolvency or receivership

11716.1. If such insurer becomes insolvent or enters receivership, the commissioner shall make a determination whether such insurer shall continue to carry on its business as a workmen's compensation insurer or not. If he determines that it shall not, he shall, as soon as practicable:

(a) Notify the Industrial Accident Commission of this determination.

(b) Supply the Industrial Accident Commission with the names and addresses of all persons shown by the file of such insurer to be claimants or potential claimants for workmen's compensation benefits.

(c) Estimate the aggregate liability of such insurer under all workmen's compensation insurance policies, which estimate may be revised if there is need therefor.

(d) If such estimate as originally made or as revised does not exceed ninety percent (90%) of such deposit, pay out of such deposit the full amount of any awards of the Industrial Accident Commission which are certified to him and from which no appeal is taken.

(e) If such estimate as made or as revised exceeds ninety percent (90%) of such deposit, pay out of such deposit the amount of any awards of the Industrial Accident Commission which are certified to him and from which no appeal is taken multiplied by a factor representing the ratio between ninety percent (90%) of the amount of the deposit and the amount of the estimated liability as originally made or as revised, which estimate may be revised if there is need therefor.

(f) Upon the revision of such estimate or of such ratio make such additional payments as are required thereby.

SEC. 3. Section 11716.2 is added to the Insurance Code, to read:

Same

11716.2. Upon receipt of notice from the commissioner pursuant to Section 11716.1(a), the Industrial Accident Commission shall, as soon as practicable:

(a) Reduce all outstanding claims against such insurer under policies of workmen's compensation insurance to lump sum awards.

(b) Transmit certified copies of such awards to the commissioner.

(c) Exercise its continuing jurisdiction in proper cases to revise such awards as provided by the Labor Code and transmit certified copies of such revised awards, showing any amounts by which previous awards have been increased, to the commissioner.

(d) Certify to the commissioner at monthly intervals a schedule of all awards made and awards increased during the preceding month.

Exemption from liability

SEC. 4. The commissioner shall not be liable to any claimant because the estimates of liability made under Section 11716.1(c) have proved inadequate and have resulted in a reduction of the amount paid to any claimant; provided, such estimates and any revisions thereof are made in good faith and in accordance with law.

"Final award"

SEC. 5. The words "final award" heretofore used in Insurance Code Section 11716 have always referred to an award by the Industrial Accident Commission from which no successful appeal has been taken and which is unmodified by the Industrial Accident Commission at the termination of the time allowed for appeal or the determination of the appeal and not to an award which is final in the sense that the entire period of the Industrial Accident Commission's continuing jurisdiction has expired. Any revision of such final award during such period is to the extent of such revision itself a final award under the same circumstances.

Urgency

SEC. 6. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and shall therefore take effect immediately. The following is a statement of the facts constituting such necessity:

A workmen's compensation insurer with a deposit which is security for the payment of the insurer's obligation on workmen's compensation insurance transacted in this State has become insolvent. A question has been raised whether under existing law the Industrial Accident Commission can reduce all claims to final awards without the necessity of allowing the entire five-year period of its continuing jurisdiction to elapse The practical effect of this may be to delay the payment of any workmen's compensation benefits to any claimant until the ex-

piration of such five-year period. Such a delay is at variance with the spirit of the workmen's compensation laws which is to provide to the injured workman at least an immediate payment of a subsistence amount. In order to safely permit the Industrial Accident Commission to certify its awards immediately and the Insurance Commissioner to pay such awards, it is necessary that this act go into effect immediately.

CHAPTER 15

An act relating to certain lands granted to the City of Alameda by Chapter 348 of the Statutes of 1913, as amended, declaring the urgency thereof, to take effect immediately.

[Approved by Governor January 27, 1953. Filed with Secretary of State January 28, 1953.]

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

Many districts organized under the California Water District Act have entered into contracts with the Bureau of Reclamation for a supply of vitally needed water, and all the contracts require validation by a court of law before becoming effective. There is now no legal procedure whereby a California water district may receive the necessary validation, and consequently the Bureau of Reclamation is unable to deliver any water to such a district. This act provides the means of validating such contracts and also provides means for acquiring funds for the purchase of the water by districts. In this period of lowered ground water levels and diminished stream flows, a supplemental water supply provided by the Bureau of Reclamation is desperately needed to preserve the health and welfare of the people of California. It is therefore necessary that this act take effect immediately.

CHAPTER 17

The people of the State of California do enact as follows:

SECTION 1. Section 9359.8 of the Government Code is amended to read:

Payment of retirement contributions

There shall also be paid to his beneficiary or estate an amount equal to one-twelfth of the annual compensation of a legislator during the 12 months immediately preceding his death, multiplied by the number of completed years of service and prior service for which he is entitled to elect to receive credit The benefits provided by this section are in addition to any benefits provided by Division 4 of the Labor Code.

Urgency

SEC 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The benefit under the Legislators' Retirement Act granted to the beneficiary of a Member of the Legislature upon his death is inadequate, with the result that qualified persons, who would otherwise be candidates for the Office of Member of the Legislature, are discouraged and may determine that they cannot afford to become Members of the Legislature. Since any vacancies which may occur during the present session of the Legislature should be promptly filled by special elections at the earliest possible time, this measure is necessary for the immediate preservation of the public peace, health or safety in order that the best qualified persons will become candidates for election to such vacancies

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

Article 4.5 of Chapter 5 of Part 1 of Division 2 of Title 5 of the Government Code was designed to enable the immediate repair and restoration of essential public facilities damaged by earthquake disaster by local agencies unable to bear the immediate cost thereof. In order to achieve such purpose it is essential that provisions of law other than Section 18 of Article XI of the Constitution, limiting the incurrence of indebtedness on the part of such local agencies, should be held inapplicable.

CHAPTER 2.5. PRINCIPAL AND INCOME LAW

Short title

730. This chapter may be cited as the Principal and Income Law.

The provisions of such trusts inconsistent with the provisions of this chapter shall govern to the extent provided in Section 730.04.

"Principal"

730.03. "Principal" as used in this chapter means any realty or personalty which has been so set aside or limited by the owner thereof or a person thereto legally empowered that it and any substitutions for it are eventually to be conveyed, delivered or paid to a person, while the return therefrom or use thereof or any part of such return or use is in the meantime to be taken or received by or held for accumulation for the same or another person;

730.04. This chapter shall govern the ascertainment of income and principal and the apportionment of receipts and expenses between tenants and remaindermen in all cases where a principal has been established with or, unless otherwise stated hereinafter, without the interposition of a trust; except that in the establishment of the principal provision may be made touching all matters covered by this chapter, and the person establishing the principal may himself direct the manner of ascertainment of income and principal and the apportionment of receipts and expenses or grant discretion to the trustee or other person to do so, and such provision and direction, where not otherwise contrary to law, shall control notwithstanding this chapter. The exercise by the trustee or other designated person, of such discretionary power if in good faith and according to his best judgment, shall be conclusive, irrespective of whether it may be in accordance with the determination which the court having jurisdiction would have made. Ascertainment of principal and income, apportionment of receipts and expenses

730.05. (1) All receipts of money or other property paid or delivered as rent of realty or hire of personalty, or interest on money loaned, or interest on or the rental or use value of property wrongfully withheld or tortiously damaged, or otherwise in return for the use of principal, shall be deemed income unless otherwise expressly provided in this chapter. Dividends on corporate shares, payable in stock or otherwise, shall be deemed income except as provided in Section 730.07. Income principal

Any profit or loss resulting upon any change in form of principal shall inure to or fall upon principal, except in the case of property referred to and defined by Section 730.14, in which case the provisions of Section 730.14 shall govern.

(3) All income after payment of expenses properly chargeable to it shall be paid and delivered to the tenant or retained by him if already in his possession or held for accumulation where legally so directed by the terms of the transaction by which the principal was established; while the principal shall be held for ultimate distribution as determined by the terms of the transaction by which it was established or by law, except

in the case of property referred to and defined by Section 730.14, in which case the provisions of Section 730 14 shall govern.

Right to income terminated, division of payments

730 06. Whenever a tenant's right to income shall cease by death, or in any other manner, all payments theretofore actually paid to the tenant or in the hands of the trustee for payment to the tenant shall belong to the tenant or to his personal representative; all income actually received by the trustee after such termination shall be paid to the person next entitled to income by the terms of the transaction by which the principal was established.

Shares of corporation

730 07. (1) All dividends on shares of a corporation forming a part of the principal which are payable

(a) In shares of the declaring corporation of the same kind and rank as the shares on which such dividend is paid; and

(b) In shares of the declaring corporation of a different kind or rank to the extent that they represent a capitalization of surplus not derived from earnings, shall be deemed principal.

Subject to the provisions of this section, all dividends, other than those awarded to principal under (a) and (b) above, including ordinary and extraordinary dividends and dividends payable in shares or other securities or obligations of corporations other than the declaring corporation, shall be deemed income.

Where the trustee shall have the option of receiving a dividend either in cash or in the shares of the declaring corporation, it shall be considered as a cash dividend and deemed income, irrespective of the choice made by the trustee.

(2) All rights to subscribe to the shares or other securities or obligations of a corporation accruing on account of the ownership of shares or other securities in such corporation, and the proceeds of any sale of such rights, shall be deemed principal. All rights to subscribe to the shares or other securities or obligations of a corporation accruing on account of the ownership of shares or other securities in another corporation, and the proceeds of any sale of such rights shall be deemed income.

(3) Where the assets of a corporation are liquidated, amounts paid upon corporate shares as cash dividends declared before such liquidation occurred or as arrears of preferred or guaranteed dividends shall be deemed income; all other amounts paid upon corporate shares on disbursement of the corporate assets to the stockholders shall be deemed principal. All disbursements of corporate assets to the stockholders, whenever made, which are designated by the corporation as a return of capital or division of corporate property shall be deemed principal.

(4) Where a corporation succeeds another by merger, consolidation or reorganization or otherwise acquires its assets, and the corporate shares of the succeeding corporation are issued to the shareholders of the original corporation in like proportion to, or in substitution for, their shares of the original corporation, the two corporations shall be considered a single corporation in applying the provisions of this section. But two

corporations shall not be considered a single corporation under this section merely because one owns corporate shares of or otherwise controls or directs the other.

(5) In applying this section the date when a dividend accrues to the person who is entitled to it shall be held to be the date specified by the corporation as the one on which the stockholders entitled thereto are determined, or in default thereof the date of declaration of the dividend.

(6) The trustee or tenant may rely upon the statement of the paying corporation as to whether dividends are paid from profits or earnings or are a return of capital or division of corporate property, and as to any other fact, relevant under any provision of this chapter, concerning the source or character of dividends or disbursements of corporate assets.

Bonds, obligations for payment of money

730.08. Where any part of the principal consists of bonds or other obligations for the payment of money, they shall be deemed principal at their inventory value as fixed by the appraiser or appraisers regularly appointed by the court, or, in default thereof, at their market value at the time the principal was established, or at their cost where purchased later, regardless of their par or maturity value; and upon their respective maturities or upon their sale or other disposition any loss or gain realized thereon shall fall upon or inure to the principal, except in the case of property referred to and defined by Section 730.14, in which case the provisions of Section 730.14 shall govern. Where any part of the principal consists of a bond or other obligation for the payment of money, bearing no stated interest but redeemable at maturity or a future time at an amount in excess of the amount in consideration of which it was issued, such accretion, as when realized, shall inure to income.

Trustee or tenant authorized to use principal

730.09. (1) Whenever a trustee or a tenant is authorized by the terms of the transaction by which the principal was established or by law, to use any part of the principal in the continuance of a business which the original owner of the property comprising the principal had been carrying on, the net profits of such business attributable to such principal shall be deemed income

(2) Where such business consists of buying and selling property, the net profits for any period shall be ascertained by deducting from the gross returns during and the inventory value of the property at the end of such period, the expenses during and the inventory value of the property at the beginning of such period.

(3) Where such business does not consist of buying and selling property, the net income shall be computed in accordance with the customary practice of such business, but not in such way as to decrease the principal.

(4) Any increase in the value of the principal used in such business shall be deemed principal, and all losses in any one calendar year, after the income from such business for that year has been exhausted, shall fall upon principal.

Animals employed in business.

730.10. Where any part of the principal consists of animals employed in business, the provisions of Section 730.09 shall apply; and in other cases where the animals are held as a part of the principal partly or wholly because of the offspring or increase which they are expected to produce, all offspring or increase shall be deemed principal to the extent necessary to maintain the original number of such animals and the remainder shall be deemed income; and in all other cases such offspring or increase shall be deemed income.

Timber, minerals, etc.

730.11. (1) Where any part of the principal consists of property in lands from which may be taken timber, minerals, oils, gas or other natural resources, and the trustee or tenant in possession is not under a duty to change the form of the investment of the principal, or (the duty to change the form of the investment being absent) is authorized by law or by the terms of the transaction by which the principal was established, to lease or otherwise develop such natural resources, and no provision is made for the disposition of the net proceeds thereof after the payment of expenses and carrying charges on such property, such proceeds shall be deemed income, whether received as rent or bonus on a lease or as a consideration, by way of royalties or otherwise for the permanent severance of such natural resources from the lands. A duty to change the form of the investment shall be negatived, and authority to develop such natural resources shall be deemed to exist (not excluding other cases where appropriate intent is manifested) where (a) the resources or the right to exploit them is specifically devised or granted, or (b) where development or exploitation of the resources had begun prior to the transaction by which the principal was established, or (c) where by the terms of that transaction a general authority to lease or otherwise develop is conferred, or (d) where the lands are directed to be retained. The fact that such property where held in trust and received from the testator or settlor does not fall within the category of investments which the trustee would be authorized to make under the law or the terms of the particular trust, nor the conferring of a mere authority, as distinguished from a direction, to sell such property, shall not be deemed to evidence an intent that the form of the investment shall be changed.

(2) Where any part of the principal consists of property in lands containing such natural resources, and the conditions under which the proceeds thereof become income shall not exist, then in the absence of the expression of contrary intent in the terms of the transaction by which the principal was established, all such proceeds from such resources, not in excess of 5 per centum per annum of the inventory value of such resources as fixed by the appraiser or appraisers regularly appointed by the court, or in default thereof their fair market value at the time the principal was established, or their cost if acquired later, shall be deemed income and the remainder principal.

(3) Nothing in this section shall be construed to abrogate or extend any right which may otherwise have accrued by law to

a tenant to develop or work such natural resources for his own benefit.

Property subject to depletion

730.12. Where any part of the principal consists of property subject to depletion, such as leaseholds, patents, copyrights and royalty rights, and the trustee or tenant in possession is not under a duty to change the form of the investment of the principal, the full amount of rents, royalties or income from the property shall be income to the tenant; but where the trustee or tenant is under a duty to change the form of the investment, either at once or as soon as a reasonable price, not representing an undue sacrifice of value, may be obtained, then the rents, royalties or income from such property not in excess of 5 per centum per annum of its inventory value as fixed by the appraiser or appraisers regularly appointed by the court, or in default thereof its market value at the time the principal was established, or at its cost where purchased later, shall be deemed income and the remainder principal.

Unproductive property in trustee's possession

730.13. (1) Where any part of a principal in the possession of a trustee consists of realty or personalty which for more than a year and until disposed of as hereinafter stated has not produced an average net income of at least 1 per centum per annum of its inventory value as fixed by the appraiser or appraisers regularly appointed by the court, or in default thereof its market value at the time the principal was established or of its cost where purchased or otherwise acquired later, and the trustee is under a duty to change the form of the investment as soon as a reasonable price, not representing an undue sacrifice of value, may be obtained and such change is delayed, but is made before the principal is finally distributed, then the tenant shall be entitled to share in the net proceeds received from the property as delayed income to the extent hereinafter stated.

(2) Such income shall be the difference between the net proceeds received from the property and the amount which, had it been placed at simple interest at the rate of 5 per centum per annum for the period during which the change was delayed, would have produced the net proceeds at the time of change, but in no event shall such income be more than the amount by which the net proceeds exceed the inventory value of the property as fixed by the appraiser or appraisers regularly appointed by the court, or in default thereof its market value at the time the principal was established or its cost where purchased later. The net proceeds shall consist of the gross proceeds received from the property less any expenses incurred in disposing of it and less all carrying charges which have been paid out of principal during the period while it has been unproductive.

(3) The change shall be taken to have been delayed from the time when the duty to make it first arose, which shall be presumed in the absence of evidence to the contrary, to be one year after the trustee first received the property if then unproductive, otherwise one year after it became unproductive.

(4) If the tenant has received any income from the property or has had any beneficial use thereof during the period while

The amount allocable to income shall in no case exceed the interest accrued and unpaid on the original obligation up to the time of such sale or other disposition or, where another security has been received in lieu of the original obligation, the income which would have accrued on the latter up to such time, less income received from the original or the substituted security. (i) A statement of the amount of advances made and of liabilities incurred for which the warehouseman claims a lien. If the precise amount of such advances made or of such liabilities incurred is, at the time of the issue of the receipt, unknown to the warehouseman or to his agent who issues it, a statement of the fact that advances have been made or liabilities incurred and the purpose thereof is sufficient.

Liability for omission

A warehouseman shall be liable to any person injured thereby, for all damage caused by the omission from a negotiable receipt of any of the terms herein required.

Additional terms and conditions

1858.12. A warehouseman may insert in a receipt, issued by him, any other terms and conditions; provided, that such terms and conditions shall not—

(a) Be contrary to the provisions of this article.

(b) In anywise impair his obligation to exercise that degree of care in the safekeeping of the goods entrusted to him which a reasonably careful man would exercise in regard to similar goods of his own.

Nonnegotiable receipt

1858.13. A receipt in which it is stated that the goods received will be delivered to the depositor, or to any other specified person, is a nonnegotiable receipt.

Negotiable receipt

1858.14. A receipt in which it is stated that the goods received will be delivered to the bearer, or to the order of any person named in such receipt is a negotiable receipt. No pro-

vision shall be inserted in a negotiable receipt that is nonnegotiable. Such provision, if inserted, shall be void.

Duplicate negotiable receipts Identification

1858.15. When more than one negotiable receipt is issued for the same goods, the word "duplicate" shall be plainly placed upon the face of every such receipt, except the one first issued. A warehouseman shall be liable for all damage caused by his failure so to do to anyone who purchased the subsequent receipt for value supposing it to be an original, even though the purchase be after the delivery of the goods by the warehouseman to the holder of the original receipt.

Identification of *nonnegotiable receipt*

1858.16. A nonnegotiable receipt shall have plainly placed upon its face by the warehouseman issuing it, "nonnegotiable," or "not negotiable." In case of the warehouseman's failure so to do, a holder of the receipt who purchased it for value supposing it to be negotiable, may, at his option, treat such receipt as imposing upon the warehouseman the same liabilities he would have incurred had the receipt been negotiable.

Exceptions

This section shall not apply, however, to letters, memoranda, or written acknowledgments of an informal character.

Duty to deliver goods

1858.17. A warehouseman, in the absence of some lawful excuse provided by this article, is bound to deliver the goods upon a demand made either by the holder of a receipt for the goods or by the depositor, if such demand is accompanied with—

(a) An offer to satisfy the warehouseman's lien,

(b) An offer to surrender the receipt if negotiable with such endorsements as would be necessary for the negotiation of the receipt, and

(c) A readiness and willingness to sign, when the goods are delivered, an acknowledgment that they have been delivered, if such signature is requested by the warehouseman.

In case the warehouseman refuses or fails to deliver the goods in compliance with a demand by the holder or depositor so accompanied, the burden shall be upon the warehouseman to establish the existence of a lawful excuse for such refusal

Who may receive goods

1858.18. A warehouseman is justified in delivering the goods, subject to the provisions of the three following sections, to one who is—

(a) The person lawfully entitled to the possession of the goods, or his agent,

(b) A person who is either himself entitled to delivery by the terms of a nonnegotiable receipt issued for the goods, or who has written authority from the person so entitled either endorsed upon the receipt or written upon another paper, or

(c) A person in possession of a negotiable receipt by the terms of which the goods are deliverable to him or order or to bearer, or which has been endorsed to him or in blank by the person to whom delivery was promised by the terms of the receipt or by his mediate or immediate endorsee.

Misdelivery warehouseman liable for conversion

1858.19. Where a warehouseman delivers the goods to one who is not in fact lawfully entitled to the possession of them, the warehouseman shall be liable as for conversion to all having a right of property or possession in the goods if he delivered the

goods otherwise than as authorized by subdivisions (b) and (c) of the preceding section and though he delivered the goods as authorized by said subdivision he shall be so liable, if prior to such delivery he had either

(a) Been requested, by or on behalf of the person lawfully entitled to a right of property or possession in the goods, not to make such delivery, or

(b) Had information that the delivery about to be made was to one not lawfully entitled to the possession of the goods.

Liability for failure to cancel receipt

1858.20. Except as provided in Section 1858.59, where a warehouseman delivers goods for which he had issued a negotiable receipt, the negotiation of which would transfer the right to the possession of the goods, and fails to take up and cancel the receipt, he shall be liable to anyone who purchases for value in good faith such receipt, for failure to deliver the goods to him, whether such purchaser acquired title to the receipt before or after the delivery of the goods by the warehouseman.

Part of goods delivered

1859.21. Except as provided in Section 1858.59, where a warehouseman delivers part of the goods for which he had issued a negotiable receipt and fails either to take up and cancel such receipt, or to place plainly upon it a statement of what goods or packages have been delivered he shall be liable, to anyone who purchases for value in good faith such receipt, for failure to deliver all the goods specified in the receipt, whether such purchaser acquired title to the receipt before or after the delivery of any portion of the goods by the warehouseman.

Alteration of receipt

1858.22. The alteration of a receipt shall not excuse the warehouseman who issued it from any liability if such alteration was

(a) Immaterial,

(b) Authorized, or

(c) Made without fraudulent intent.

If the alteration was authorized, the warehouseman shall be liable according to the terms of the receipt as altered. If the alteration was unauthorized, but made without fraudulent intent, the warehouseman shall be liable according to the terms of the receipt, as they were before alteration.

Material and fraudulent alteration of a receipt shall not excuse the warehouseman who issued it from liability to deliver, according to the terms of the receipt as originally issued, the goods for which it was issued, but shall excuse him from any other liability to the person who made the alteration and to any person who took with notice of the alteration. Any purchaser of the receipt for value without notice of the alteration shall acquire the same rights against the warehouseman which such purchaser would have acquired if the receipt had not been altered at the time of the purchase.

Loss or destruction of negotiable receipt

1858.23. Where a negotiable receipt has been lost or destroyed, a court of competent jurisdiction may order the delivery of the goods upon satisfactory proof of such loss or destruction and upon the giving of a bond with sufficient sureties to be approved by the court to protect the warehouseman

from any liability or expense, which he or any person injured by such delivery may incur by reason of the original receipt remaining outstanding. The court may also in its discretion order the payment of the warehouseman's reasonable costs and counsel fees.

The delivery of the goods under an order of the court as provided in this section, shall not relieve the warehouseman from liabilities to a person to whom the negotiable receipt has been or shall be negotiated for value without notice of the proceedings or of the delivery of the goods.

"Duplicate" constitutes warranty if accurate copy

1858.24. A receipt upon the face of which the word "duplicate" is plainly placed is a representation and warranty by the warehouseman that such receipt is an accurate copy of an original receipt properly issued and uncanceled at the date of the issue of the duplicate, but shall impose upon him no other liability.

Title to goods as excuse for failure to deliver

1858.25. No title or right to the possession of the goods, on the part of the warehouseman, unless such title or right is derived directly or indirectly from a transfer made by the depositor at the time of or subsequent to the deposit for storage, or from the warehouseman's lien, shall excuse the warehouseman from liability for refusing to deliver the goods according to the terms of the receipt.

Interpleader

1858.26. If more than one person claims the title or possession of the goods, the warehouseman may, either as a defense to an action brought against him for nondelivery of the goods, or as an original suit, whichever is appropriate, require all known claimants to interplead.

Right to refuse delivery

1858.27. If someone other than the depositor or person claiming under him has a claim to the title or possession of the goods, and the warehouseman has information of such claim, the warehouseman shall be excused from liability for refusing to deliver the goods, either to the depositor or person claiming under him or to the adverse claimant, until the warehouseman has had a reasonable time to ascertain the validity of the adverse claim or to bring legal proceedings to compel all claimants to interplead. If such adverse claimant shall not bring suit and serve summons on the warehouseman within 48 hours after the service of notice of his adverse claim, such failure shall act as a complete abandonment of such adverse claim.

Right or title of third person as defense

1858.28. Except as provided in the two preceding sections and in Sections 1858.18 and 1858.59, no right or title of a third person shall be a defense to an action brought by the depositor or person claiming under him against the warehouseman for failure to deliver the goods according to the terms of the receipt.

Damages for nonexistence, failure to correspond with receipt

1858.29. A warehouseman shall be liable to the holder of a receipt, issued by him or on his behalf by an agent or employee the scope of whose actual or apparent authority includes the issuing of warehouse receipts, for damages caused by the nonexistence of the goods or by the failure of the goods to correspond with the description thereof in the receipt at the time of

its issue. If, however, the goods are described in a receipt merely by a statement of marks or labels upon them, or upon packages containing them, or by a statement that the goods are said to be goods of a certain kind, or that the packages containing the goods are said to contain goods of a certain kind, or by words of like purpose, such statements, if true, shall not make liable the warehouseman issuing the receipt, although the goods are not of the kind which the marks or labels upon them indicate, or of the kind they were said to be by the depositor.

Loss due to negligence

1858 30. A warehouseman shall be liable for any loss or injury to the goods caused by his failure to exercise such care in regard to them as a reasonably careful owner of similar goods would exercise, but he shall not be liable, in the absence of an agreement to the contrary, for any loss or injury to the goods which could not have been avoided by the exercise of such care.

Separation of goods to permit identification, etc

1858 31. Except as provided in the following section, a warehouseman shall keep the goods so far separate from goods of other depositors, and from other goods of the same depositor for which a separate receipt has been issued, as to permit at all times the identification and redelivery of the goods deposited.

Exception Fungibles

1858.32. If authorized by agreement or by custom, a warehouseman may mingle fungible goods with other goods of the same kind and grade. In such case the various depositors of the mingled goods shall own the entire mass in common, and each depositor shall be entitled to such portion thereof as the amount deposited by him bears to the whole.

Severally liable

1858.33. The warehouseman shall be severally liable to each depositor for the care and redelivery of his share of such mass to the same extent and under the same circumstances as if the goods had been kept separate.

Goods exempted from garnishment, etc

1858.34. If goods are delivered to a warehouseman by the owner or by a person whose act in conveying the title to them to a purchaser in good faith for value would bind the owner, and a negotiable receipt is issued for them, they cannot thereafter, while in the possession of the warehouseman, be attached by garnishment or otherwise, or be levied upon under an execution, unless the receipt be first surrendered to the warehouseman, or its negotiation enjoined. The warehouseman shall in no case be compelled to deliver up the actual possession of the goods until the receipt is surrendered to him or impounded by the court.

Court aid to creditor

1858.35. A creditor whose debtor is the owner of a negotiable receipt shall be entitled to such aid from courts of appropriate jurisdiction, by injunction or otherwise, in attaching such receipt or in satisfying the claim by means thereof as is allowed at law or in equity, in regard to property which cannot readily be attached or levied upon by ordinary legal process.

Warehouseman's lien

1858 50. Subject to the provisions of Section 1858 53, a warehouseman shall have a lien on goods deposited by the owner or by the legal possessor of the property or on the proceeds thereof in his hands, for all lawful charges for storage and preservation of the goods, also for all lawful claims for money ad-

vanced, interest, insurance, transportation, labor, weighing, coopering and other charges and expenses in relation to such goods; also for all reasonable charges and expenses for notice, and advertisements of sale, and for sale of the goods where default has been made in satisfying the warehouseman's lien

Enforcement

1858.51. Subject to the provisions of Section 1858.53, a warehouseman's lien may be enforced:

(a) Against all goods, whenever deposited, belonging to the person who is liable as debtor for the claims in regard to which the lien is asserted; and

(b) Against all goods belonging to others which have been deposited at any time by the person who is liable as debtor for the claims in regard to which the lien is asserted, if such person was in legal possession of the goods when they were deposited.

Lien is lost

1858 52. A warehouseman loses his lien upon goods—

(a) By surrendering possession thereof, or

(b) By refusing to deliver the goods when a demand is made with which he is bound to comply under the provisions of this article.

Exception

1858.53. If a negotiable receipt is issued for goods, the warehouseman shall have no lien thereon, except for charges for storage of those goods subsequent to the date of the receipt, unless the receipt expressly enumerates other charges for which a lien is claimed. In such case there shall be a lien for the charges enumerated so far as they are within the terms of Section 1858 50, although the amount of the charges so enumerated is not stated in the receipt.

Refusal to deliver

1858 54. A warehouseman having a lien valid against the person demanding the goods may refuse to deliver the goods to him until the lien is satisfied.

Creditor, debtor remedies available

1858 55. Whether a warehouseman has or has not a lien upon the goods, he is entitled to all remedies allowed by law to a creditor against his debtor, for the collection from the depositor of all charges and advances which the depositor has expressly or impliedly contracted with the warehouseman to pay.

Satisfaction of lien

1858.56. A warehouseman's lien for a claim which has become due may be satisfied as follows.

The warehouseman shall give a written notice to the person on whose account the goods are held, and to any other person known by the warehouseman to claim an interest in the goods. Such notice shall be given by delivery in person or by registered letter addressed to the last known place of business or abode of the person to be notified. The notice shall contain—

(a) An itemized statement of the warehouseman's claim, showing the sum due at the time of the notice and the date or dates when it became due.

(b) A brief description of the goods against which the lien exists,

(c) A demand that the amount of the claim as stated in the notice, and of such further claim as shall accrue shall be paid on or before the day mentioned, not less than 10 days from the

delivery of the notice if it is personally delivered, or from the time when the notice should reach its destination, according to the due course of post, if the notice is sent by mail, and

(d) A statement that unless the claim is paid within the time specified the goods will be advertised for sale and sold by auction at a specified time and place.

In accordance with the terms of a notice so given, a sale of the goods by auction may be had to satisfy any valid claim of the warehouseman for which he has a lien on the goods. The sale shall be had in the place where the lien was acquired, or, if such place is manifestly unsuitable for the purpose, at the nearest suitable place. After the time for the payment of the claim specified in the notice to the depositor has elapsed, an advertisement of the sale, describing the goods to be sold, and stating the name of the owner or person on whose account the goods are held, and the time and place of the sale, shall be published once a week for two consecutive weeks in a newspaper published in the place where such sale is to be held. The sale shall not be held less than 15 days from the time of the first publication. If there is no newspaper published in such place, the advertisement shall be posted at least 10 days before such sale in not less than six conspicuous places therein.

From the proceeds of such sale the warehouseman shall satisfy his lien, including the reasonable charges of notice, advertisement, and sale. The balance, if any, of such proceeds shall be held by the warehouseman, and delivered on demand to the person to whom he would have been bound to deliver or justified in delivering the goods.

At any time before the goods are sold any person claiming a right of property or possession therein may pay the warehouseman the amount necessary to satisfy his lien and pay the reasonable expenses and liabilities incurred in serving notices and advertising and preparing for the sale up to the time of such payment. The warehouseman shall deliver the goods to the person making such payment if he is a person entitled, under the provisions of this article, to the possession of the goods on payment of charges thereon Otherwise the warehouseman shall retain possession of the goods according to the terms of the original contract of deposit.

Sale of perishables, etc to satisfy lien

1858.57. If goods are of a perishable nature, or by keeping will deteriorate greatly in value, or by their odor, leakage, inflammability or explosive nature will be liable to injure other property, the warehouseman may give such notice to the owner, or to the person in whose name the goods are stored, as is reasonable and possible under the circumstances, to satisfy the lien upon such goods, and to remove them from the warehouse, and in the event of a failure of such person to satisfy the lien and to remove the goods within the time so specified, the warehouseman may sell the goods at public or private sale without advertising. If the warehouseman after a reasonable effort is unable to sell such goods, he may dispose of them in any lawful manner, and shall incur no liability by reason thereof. The proceeds

of any sale made under the terms of this section shall be disposed of in the same way as the proceeds of sales made under the terms of the preceding section.

Other remedies not precluded

1858.58. The remedy for enforcing a lien herein provided does not preclude any other remedies allowed by law for the enforcement of a lien against personal property nor bar the right to recover so much of the warehouseman's claim as shall not be paid by the proceeds of the sale of the property.

Lawful sale eliminates liability to deliver

1858.59. After goods have been lawfully sold to satisfy a warehouseman's lien, or have been lawfully sold or disposed of because of their perishable or hazardous nature, the warehouseman shall not thereafter be liable for failure to deliver the goods to the depositor, or owner of the goods, or to a holder of the receipt given for the goods when they were deposited, even if such receipt be negotiable.

Negotiable receipt Negotiated by delivery

1858.65. A negotiable receipt may be negotiated by delivery—

(a) Where, by the terms of the receipt, the warehouseman undertakes to deliver the goods to the bearer, or

(b) Where, by the terms of the receipt, the warehouseman undertakes to deliver the goods to the order of a specified person, and such person or a subsequent endorsee of the receipt has endorsed it in blank or to bearer.

Where, by the terms of a negotiable receipt, the goods are deliverable to bearer or where a negotiable receipt has been endorsed in blank or to bearer, any holder may endorse the same to himself or to any other specified person, and in such case the receipt shall thereafter be negotiated only by the endorsement of such endorsee.

Endorsement

1858.66. A negotiable receipt may be negotiated by the endorsement of the person to whose order the goods are, by the terms of the receipt, deliverable. Such endorsement may be in blank, to bearer or to a specified person. If endorsed to a specified person, it may be again negotiated by the endorsement of such person in blank, to bearer or to another specified person. Subsequent negotiations may be made in like manner.

Transfer

1858.67. A receipt which is not in such form that it can be negotiated by delivery may be transferred by the holder by delivery to a purchaser or donee.

A nonnegotiable receipt cannot be negotiated, and the endorsement of such a receipt gives the transferee no additional right.

Who may negotiate

1858.68. A negotiable receipt may be negotiated by any person in possession of the same, however such possession may have been acquired if, by the terms of the receipt, the warehouseman undertakes to deliver the goods to the order of such person or if at the time of negotiation the receipt is in such form that it may be negotiated by delivery.

Title, obligations acquired

1858.69. A person to whom a negotiable receipt has been duly negotiated acquires thereby—

(a) Such title to the goods as the person negotiating the receipt to him had or had ability to convey to a purchaser in good

faith for value, and also such title to the goods as the depositor or person to whose order the goods were to be delivered by the terms of the receipt had or had ability to convey to a purchaser in good faith for value, and

(b) The direct obligation of the warehouseman to hold possession of the goods for him according to the terms of the receipt as fully as if the warehouseman had contracted directly with him.

Rights of person to whom receipt transferred

1858.70. A person to whom a receipt has been transferred but not negotiated, acquires thereby, as against the transferor, the title to the goods, subject to the terms of any agreement with the transferor.

If the receipt is nonnegotiable such person also acquires the right to notify the warehouseman of the transfer to him of such receipt, and thereby to acquire the direct obligation of the warehouseman to hold possession of the goods for him according to the terms of the receipt.

Prior to the notification of the warehouseman by the transferor or transferee of a nonnegotiable receipt, the title of the transferee to the goods and the right to acquire the obligation of the warehouseman may be defeated by the levy of an attachment or execution upon the goods by a creditor of the transferor, or by a notification to the warehouseman by the transferor or a subsequent purchaser from the transferor of a subsequent sale of the goods by the transferor.

Transfer for value

1858.71. Where a negotiable receipt is transferred for value by delivery, and the endorsement of the transferor is essential for negotiation, the transferee acquires a right against the transferor to compel him to endorse the receipt, unless a contrary intention appears. The negotiation shall take effect as of the time when the endorsement is actually made.

Warranties by transferor, etc

1858 72. A person who for value negotiates or transfers a receipt by endorsement or delivery, including one who assigns for value a claim secured by a receipt, unless a contrary intention appears, warrants—

(a) That the receipt is genuine,

(b) That he has a legal right to negotiate or transfer it,

(c) That he has knowledge of no fact which would impair the validity or worth of the receipt, and

(d) That he has a right to transfer the title to the goods, and that the goods are merchantable or fit for a particular purpose whenever such warranties would have been implied, if the contract of the parties had been to transfer without a receipt the goods represented thereby.

Endorser not liable for other endorsers, etc

1858.73. The endorsement of a receipt shall not make the endorser liable for any failure on the part of the warehouseman or previous endorsers of the receipt to fulfill their respective obligations.

Mortgagee, etc., does not warrant genuineness of receipt

1858.74. A mortgagee, pledgee or holder for security of a receipt who in good faith demands or receives payment of the debt for which such receipt is security, whether from a party to a draft drawn for such debt or from any other person, shall

not by so doing be deemed to represent or to warrant the genuineness of such receipt or the quantity or quality of the goods therein described.

Bona fide purchaser Negotiation a breach of duty, etc

1858.75. The validity of the negotiation of a receipt is not impaired by the fact that such negotiation was a breach of duty on the part of the person making the negotiation, or by the fact that the owner of the receipt was deprived of the possession of the same by loss, theft, fraud, accident, mistake, duress, or conversion, if the person to whom the receipt was negotiated, or the person to whom the receipt was subsequently negotiated, paid value therefor in good faith without notice of the breach of duty, or loss, theft, fraud, accident, mistake, duress or conversion.

Subsequent negotiation

1858.76. Where a person having sold, mortgaged, or pledged goods which are in a warehouse and for which a negotiable receipt has been issued, or having sold, mortgaged, or pledged the negotiable receipt representing such goods, continues in possession of the negotiable receipt, the subsequent negotiation thereof by that person under any sale, or other disposition thereof to any person receiving the same in good faith, for value and without notice of the previous sale, mortgage or pledge, shall have the same effect as if the first purchaser of the goods or receipt had expressly authorized the subsequent negotiation.

Seller's lien, etc

1858.77. Where a negotiable receipt has been issued for goods, no seller's lien or right of stoppage in transitu shall defeat the rights of any purchaser for value in good faith to whom such receipt has been negotiated, whether such negotiation be prior or subsequent to the notification to the warehouseman who issued such receipt of the seller's claim to a lien or right of stoppage in transitu. Nor shall the warehouseman be obliged to deliver or justified in delivering the goods to an unpaid seller unless the receipt is first surrendered for cancellation.

Issuance with knowledge goods not received Penalty

1858 80. A warehouseman, or any officer, agent, or servant of a warehouseman, who issues or aids in issuing a receipt knowing that the goods for which such receipt is issued have not been actually received by such warehouseman, or are not under his control at the time of issuing such receipt, shall be guilty of a crime, and upon conviction shall be punished for each offense by imprisonment not exceeding five years, or by a fine not exceeding five thousand dollars ($5,000), or by both.

Fraudulent issue Penalty

1858.81. A warehouseman, or any officer, agent, or servant of a warehouseman, who fraudulently issues or aids in fraudulently issuing a receipt for goods knowing that it contains any false statement, shall be guilty of a crime, and upon conviction shall be punished for each offense by imprisonment not exceeding one year, or by a fine not exceeding one thousand dollars ($1,000), or by both.

Issuing duplicate receipts Penalty

1858.82. A warehouseman, or any officer, agent, or servant of a warehouseman, who issues or aids in issuing a duplicate or additional negotiable receipt for goods knowing that a former negotiable receipt for the same goods or any part of them is

outstanding and uncanceled, without plainly placing upon the face thereof the word "duplicate," except in the case of a lost or destroyed receipt after proceedings as provided for in Section 1858.23, shall be guilty of a crime, and upon conviction shall be punished for each offense by imprisonment not exceeding five years, or by a fine not exceeding five thousand dollars ($5,000), or by both.

Receipt must state interest of warehouseman Penalty

1858.83. Where there are deposited with or held by a warehouseman goods of which he is owner, either solely or jointly or in common with others, such warehouseman, or any of his officers, agents, or servants who, knowing this ownership, issues or aids in issuing a negotiable receipt for such goods which does not state such ownership, shall be guilty of a crime, and upon conviction, shall be punished for each offense by imprisonment not exceeding one year, or by a fine not exceeding one thousand dollars ($1,000), or by both.

Transfer of goods with knowledge of outstanding receipt Penalty

1858.84. A warehouseman, or any officer, agent, or servant of a warehouseman who delivers goods out of the possession of such warehouseman, knowing that a negotiable receipt the negotiation of which would transfer the right to the possession of such goods is outstanding and uncanceled, without obtaining the possession of such receipt at or before the time of such delivery, shall, except in the cases provided for in Sections 1858.23 and 1858.59, be found guilty of a crime, and upon conviction shall be punished for each offense by imprisonment not exceeding one year, or by a fine not exceeding one thousand dollars ($1,000), or by both.

Encumbered property deposited with intent to deceive Penalty

1858.85. Any person who deposits goods to which he has not title or upon which there is a lien or mortgage, and who takes for such goods a negotiable receipt which he afterward negotiates for value with intent to deceive and without disclosing his want of title or the existence of the lien or mortgage shall be guilty of a crime, and upon conviction shall be punished for each offense by imprisonment not exceeding one year, or by a fine not exceeding one thousand dollars ($1,000), or by both.

CHAPTER 51

An act to codify certain acts, relating to the disposition of evidence subsequent to criminal cases, by adding Chapter 13 to Title 10 of Part 2 of the Penal Code, and repealing certain acts specified herein.

[Approved by Governor April 1, 1953. Filed with Secretary of State April 2, 1953.]

In effect September 9, 1953

The people of the State of California do enact as follows:

SECTION 1. Chapter 13 is added to Title 10 of Part 2 of the Penal Code, to read:

CHAPTER 13. DISPOSITION OF EVIDENCE IN CRIMINAL CASES

1417. All exhibits other than documentary which have been filed in any criminal action or proceeding may be disposed of as provided in this chapter. Disposal of exhibits other than documentary

1418. If the action or proceeding has resulted in conviction, the disposal of exhibits as provided for in this chapter may be made at any time after termination of one year after the conviction has become final. If the action or proceeding has not resulted in conviction, the court may, on application of the party entitled thereto, order such exhibits as may be released from the custody of the court without prejudice to the State delivered to such party at any time after the judgment or final determination of said action or proceeding has become final. In such cases, if the party entitled thereto is unknown, and in all other cases, the procedure shall be as follows: Time and manner

1. The court in which the case was tried shall make an order specifying what exhibits may be released from the custody of the court without prejudice to the State. Upon receipt of such an order the clerk of the court shall post a notice conspicuously in three public places in the county referring to the order, describing briefly the exhibits which the court has ordered disposed of and fixing the date when and the place at which said exhibits will be offered for sale at public auction. The date fixed must be at least 20 days after the posting of the notice.

2. At any time prior to the time fixed for the auction the owner or any person entitled to the possession of any of said exhibits may obtain from the court an order returning them to him.

3. Articles not returned to their owners or to persons entitled to their possession at the time set for the auction shall be sold by the clerk to the highest bidder for cash; said articles shall be sold singly or in combinations. The money received from such sales shall be placed in the general fund of the county.

4. All property offered for sale for which no bids have been received may be destroyed by the clerk or returned to the files. Upon the expiration of his war service, if the trust or estate has not been closed, the fiduciary, upon petition to the court and notice of hearing pursuant to this chapter, shall be entitled to reinstatement as fiduciary. Upon such reinstatement, any fiduciary appointed as substitute shall be removed and may receive his discharge upon such conditions as the court prescribes.

Powers in cofiduciary

1701.3. Where there is a qualified and acting cofiduciary, the court is not required to appoint a substitute fiduciary, but may vest in the cofiduciary the power and authority of the fiduciary engaged in war service.

Limits on cofiduciary's powers

1701.4 Any substitute fiduciary, including a cofiduciary in whom authority is vested pursuant to this chapter, shall have all the power and authority, including discretionary powers, which the fiduciary engaged in war service might have exercised, except discretionary powers which the court finds are purely personal to him.

Substitute trustee

1701.5 In trusts having multiple trustees, a substitute trustee shall be appointed in all cases where, in the absence of such appointment, the trusteeship would be vested solely in a beneficiary having a vested or contingent interest in or to the income or principal of the trust.

Responsibility for acts, etc., of predecessor

1702. With the approval of the court, a fiduciary engaged in war service may delegate his power and authority as fiduciary, including discretionary power, to any cofiduciary or fiduciaries who are not engaged in war service Delegation may be made for the period during which the fiduciary is engaged in war service and not to exceed six months following the expiration of that period. (b) Where in the case of a trust, the sole trustee to whom authority might otherwise be delegated is a beneficiary having a vested or contingent interest in or to income or principal of the trust.

1702 3. In the absence of power to delegate or in the absence of its exercise where the power is existent, proceedings may be had for the appointment of a substitute fiduciary, except that a substitute fiduciary shall not be authorized to exercise powers purely personal to the fiduciary engaged in war service. Such powers of the fiduciary shall remain suspended until their exercise is resumed pursuant to this chapter. Personal powers of fiduciary

The procedure relative to delegation by fiduciaries shall govern in such cases. The right of delegation shall not exist to the extent that the court finds that the powers to be delegated are purely personal to the delegant. In that class of cases the powers of the delegant shall remain suspended until their exercise is resumed pursuant to this chapter. Delegation of powers of consultant

1703.1. Where the consultant engaged in war service does not delegate his functions, the appropriate court, upon the petition of the trustee or of any person interested in the trust and Court suspension, delegation of powers, etc

(a) Suspend the consultant's authority and powers for the period of his war service and not to exceed six months thereafter.

Resumption of duties

1703.2. In all cases of delegation by the consultant or of the suspension of his powers by the court, the consultant, within not to exceed six months following the expiration of his war service and upon petition to the court and notice of hearing, may be authorized by the court to resume the exercise of his functions. All authority delegated to or conferred upon other persons shall thereupon cease.

Not responsible for acts of another

1703.3. A consultant delegating pursuant to this chapter shall have no responsibility for the acts or omissions of the person to whom the delegation is made.

Hearing, notice, etc

1704. In all cases where notice of hearing of a petition for substitution of fiduciaries, or suspension or delegation of the functions of a fiduciary or consultant, or for resumption of these functions is required to be given pursuant to this chapter, the clerk shall set the petition for hearing and shall post notice of the time and place of hearing in three public places in the county at least 10 days before the time set for the hearing.

In the case of revocable or terminable trusts, notice shall be sufficient if mailed to the person having such right of revocation or termination.

(b) In the case of guardianships, notice shall be given in the manner required by law upon settlement of a guardian's account.

(c) In addition to the notice specified in (a) and (b), in cases where the fiduciary or consultant engaged in war service is not the petitioner or where his written consent to the relief prayed for is not filed, notice served either personally or by mail, telegraph or cable shall be given to such fiduciary or consultant, unless the court finds that such notice is impracticable because his whereabouts are unknown and cannot reasonably be ascertained, or because of impossibility or difficulty of communicating with him.

(d) In all cases mentioned in this section, such additional notice, if any, shall be given to parties in interest as the court may direct.

Finding on notice conclusive

1704.1. In all cases where notice is required to be given the court shall inquire as to whether proper notice has been given, and a finding as to the giving of due notice contained in the court's order when final shall be conclusive on the fiduciary or consultant, as the case may be, and on all persons interested in the estate, trust, or guardianship, unless modified or vacated on equitable grounds by a court of competent jurisdiction.

CHAPTER 91

An act to amend Section 7 of the Los Angeles County Flood Control Act, relating to the issuance of bonds, and declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor April 4, 1953. Filed with Secretary of State April 6, 1953.]

The people of the State of California do enact as follows:

SECTION 1. Section 7 of the Los Angeles County Flood Control Act is amended to read:

Bonds: Form, contents, issuance, etc.

Sec. 7. The said board of supervisors shall, subject to the provisions of this act, prescribe by ordinance the form of said bonds, and of the interest coupons attached thereto. Said bonds shall be payable substantially in the following manner: A part to be determined by said board, and which shall not be less than one-fortieth part of the whole amount of such indebtedness, shall be payable each and every year on a day and date, and at a place to be fixed by said board, and designated in such bonds, together with the interest on all sums unpaid on such date until the whole of said indebtedness shall have been paid.

The bonds shall be issued in such denominations as the said board of supervisors may determine, except that no bonds shall be of a less denomination than one hundred dollars ($100), nor of a greater denomination than one thousand dollars ($1,000), and shall be payable on the day and at the place fixed in said bonds, and with interest at the rate specified in such bonds, which rate shall not be in excess of 6 per centum per annum, and shall be payable semiannually, and said bonds shall be signed by the chairman of the board of supervisors, and countersigned by the auditor of said Los Angeles County, and the seal of said district shall be affixed thereto. Such signatures and countersignatures may be printed, lithographed, engraved, or

otherwise mechanically reproduced, except that one of said signatures or countersignatures to said bonds shall be manually affixed. The interest coupons of said bonds shall be numbered consecutively and signed by the auditor of said Los Angeles County by his engraved or lithographed signature. In case any such officer whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such signature or countersignature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery of the bonds.

Urgency

SEC 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and therefore shall go into effect immediately. The following is a statement of the facts constituting such necessity: The electors of the district have authorized the board of supervisors of said district to issue bonds in the sum of one hundred seventy-nine million dollars ($179,000,000) for the construction of storm drains and drainage channels to protect the lives and property of the residents of said district, and Section 7 of the Los Angeles County Flood Control Act now provides that said bonds shall be signed manually by both the chairman of the board of supervisors and by the county auditor and be issued in denominations not to exceed one thousand dollars ($1,000). Even if no bonds were issued having a smaller denomination than one thousand dollars ($1,000), there would be 179,000 bonds to be so signed. In order to have the said storm drains and drainage channels constructed in part, at least, during the next summer months so as to afford protection from the floods of the next rainy season, it is necessary to sell a substantial portion of said bonds not later than May 1, 1953, and if both of said public officials must sign said bonds manually it will delay the delivery of said bonds and the receipt of the proceeds therefrom for several weeks, thereby causing substantial delays in the construction of such storm drains and drainage channels which might result in much damage to property and loss of life during the flood season of 1953-1954 unless this act goes into effect immediately. The public health and safety require that this act go into effect immediately for the reasons hereinabove set forth.

Tax exemptions

34401. The property of an authority is exempt from all taxes and special assessments of the State or any city, county, or political subdivision of the State. Nothing in Section 34369 relieves any person from any duty of exercising reasonable care in selecting securities.

SEC. 4. Section 34371 is added to said code, to read:

34371. Insofar as the provisions of Sections 34369 and 34370 are inconsistent with the provisions of any other law, the provisions of the sections are controlling.

In effect September 9, 1953

The people of the State of California do enact as follows:

SECTION 1. Chapter 14 is added to Division 6 of the Agricultural Code, to read:

CHAPTER 14. PRODUCE MARKETS

Article 1. General Provisions

3500. It is the purpose of this chapter to promote the orderly marketing of farm products and the establishment of reasonable charges for unloading such products at markets in this State. It is declared that in some of the markets of this State the charges for unloading farm products have been found to be exorbitant and unreasonable and that this chapter is enacted to remedy such evils and in the interests of the public welfare. Purpose

3501. This chapter does not apply to any produce dealer at whose place of business all farm products delivered are unloaded without charge by employees of the produce dealer either with or without the assistance of the operator of the vehicle transporting such products or other persons accompanying the operator on such vehicle. Nothing in this chapter prohibits any employee of a produce dealer from assisting in unloading farm products without charge when registered unloaders are not available. Exception

3502. The director may make such rules and regulations as he may deem necessary to carry out the provisions of this chapter and to effectuate its purposes. Director

3503. The director may exercise his powers and perform his duties under this chapter through the agency of any member or members of his staff designated by him for the purpose.

Article 2. Definitions

3525. The definitions in this article govern the construction of this chapter, unless otherwise apparent from the context. Definitions

3526. "Farm products" means fruits, nuts, vegetables and berries.

3527. "Produce dealer" includes "commission merchant" and "dealer" as defined in Section 1261, but does not include a "broker" as defined in that section nor a "processor" as defined in Section 1299.18.

3528. "City" includes city and county.

3529. "Director" means the Director of Industrial Relations.

3530. "Market" means the places of business, collectively, of produce dealers operating in a city or the vicinity thereof and dealing in farm products intended, in whole or in part, for ultimate sale for consumption in a fresh state within the city and the vicinity thereof, but this chapter applies only to markets in which five or more produce dealers operate.

3531. "Commissioner," with respect to any matter relating to a particular market, means the deputy labor commissioner who is in charge of the office of the Labor Commissioner located nearest to that market.

3532. "Registered unloader" means a person who unloads farm products in a market, but does not include a producer of farm products, or his son, father, or regularly employed employee, nor does it include the operator of any vehicle engaged in transporting farm products to market when the operation of such vehicle is subject to the jurisdiction of the Public Utilities Commission and when the rate charged for such transportation includes the charge for unloading the farm products so transported.

3533. "Association" means an association of produce dealers organized to carry out the responsibilities of produce dealers imposed by this chapter.

3534. "Union" means the labor union which has been recognized by the National Labor Relations Board, or other governmental agency having jurisdiction, as the bargaining agency for employees employed in a market.

Article 3. Charges for Unloading Produce

Charges

3555. Each produce dealer operating within a market shall establish a scale of charges for unloading farm products transported to his place of business and shall post and maintain a legible copy of such scale in a conspicuous place at his place of business where it is readily visible at all times during which farm products are delivered to such place of business.

3556. Any scale of charges established pursuant to this article may be modified from time to time in accordance with the method and procedure prescribed for establishing such scale.

3557. The scale of charges established, as provided in this article, shall be the standard charge for unloading farm products in the market.

3558. No person shall charge or receive any payment for unloading farm products in excess of the standard charge established for the market.

Method of establishment

3559. The scale of charges shall be established as follows:

(a) If the produce dealers in a market, or a majority of such produce dealers, either individually or through group representation, have an agreement with a union the scale of charges

shall be that prescribed in such agreement and approved as provided in this chapter. If an agreement covering any employees of produce dealers in a market does not cover persons unloading farm products the agreement shall be modified, or a new agreement made, to cover such persons.

(b) If there is no such union, the scale of charges shall be fixed by the produce dealers operating within the market.

In either event, the scale of charges shall be subject to the approval of the director.

3560. Upon the determination of a scale of charges for a market, the scale of charges shall be transmitted to the director. The director shall examine such scale and shall compare it with any available information relative to the charges for similar work performed under similar conditions in the city in or for which the market is operated. The director may take into consideration any and all factors relevant to the determination of the reasonableness of such charges, including any rates of the Public Utilities Commission for the performance of work of a similar nature

3561. If the director determines that the scale of charges is not unreasonable he shall approve the scale and thereafter the scale of charges shall be the standard charge for unloading farm products in the market.

Hearing

3562. If the director finds that the scale of charges is unreasonable he shall fix a time and place for a hearing on the matter.

Notice of such hearing shall be mailed to each produce dealer operating in the market and to the officials of the union if a union is involved. The director may also notify any or all producers of farm products delivered to the market.

3563. At the hearing the director shall consider any relevant matters that may be presented and at or after the conclusion of such hearing he shall so adjust the scale or any item thereof so that the scale is not unreasonably higher than the prevailing rate for similar work performed under similar conditions in the city or its vicinity.

Article 4. Registered Unloaders

Registration Unloaders

3585. Every person who unloads farm products in a market and who is a "registered unloader" as defined in this chapter shall register his name, Federal Social Security number, and address and union affiliation, if any, with the commissioner. The commissioner shall supply each registered unloader with a card of registration. Each registered unloader shall carry such card at all times while employed or seeking employment in unloading farm products in a market. No person within the definition "registered unloader" shall unload any farm products in a market unless registered as provided in this chapter.

Producers

3586. Every producer who transports farm products to a market may register himself, his father, and any or all of his sons, and regular full-time employees with the commissioner.

Such registration shall show the name of the producer, the registration number and other means of identification of his own personally owned vehicles, and the relationship of the registrant to the producer. Nothing in this chapter prohibits a person so registered from unloading farm products from a vehicle as to which he is so registered, and no such person shall be required to employ any other person to unload or assist in unloading such farm products nor to pay for any services not requested to be performed. The commissioner shall supply each such registrant with an appropriate card, which the registrant must carry at all times while engaged in unloading farm products at a market.

Producers' duties

3587. Every produce dealer operating in a market has the responsibility of providing that registered unloaders sufficient in number to do the work required shall be available at all times when farm products are being delivered to his place of business. He shall also be responsible for having on hand at his place of business at all such times a responsible person to receipt for farm products unloaded at his place of business.

Article 5. Association of Produce Dealers

Association Formation

3610. In order to facilitate the carrying out of their responsibilities under this chapter the produce dealers operating in a market may organize an association. No produce dealer shall be required to become or be a member of such association, but any such association shall admit to membership any produce dealer operating in the market and when so admitted no produce dealer shall be subject to any assessment or payment other than those necessary to carry out his responsibilities under this chapter.

Powers

3611. An association may obtain a dispatching service from which registered unloaders may be sent to the places where their services are required. An association may act as the bargaining agent to establish with a union the scale of charges for unloading farm products in the market in accordance with this chapter. An association may provide for watchman service to protect and receipt for farm products delivered to a market at times when the market is not otherwise in operation.

Charges for services

3612. The costs of services of an association to its members for carrying out any of the activities provided for or required by this chapter shall be subject to review by the director. No cost or expenditure for any other purpose shall be payable by any produce dealer except on an entirely voluntary basis. The director shall from time to time on his own motion or at the request of a produce dealer review the activities of the association to determine if any charge is made against any produce dealer in violation of this chapter.

Article 6. Penalties

Penalties

3625. The violation of any provision of this chapter by any person is a misdemeanor.

3626. The violation of any provision of this chapter by a produce dealer is grounds for the revocation of his license and the violation of any provision of this chapter by an association is grounds for the revocation of the license of each produce dealer participating in such violation.

SEC. 2 Chapter 150 of the Statutes of 1947 is repealed. Repeal

8810. The plane coordinates of a point on the earth's surface, to be used in expressing the position or location of the point in the appropriate zone of this system, shall consist of two distances, expressed in feet and decimals of a foot. One of these distances, to be known as the "x-coordinate," shall give the position in an east-and-west direction from the Y axis; the other, to be known as the "y-coordinate," shall give the position in a north-and-south direction from the X axis. The Y axis of any zone shall be parallel with the meridian passing through the point of control of that zone. The X axis of any zone shall be at right angles to the meridian which passes through the point of control of that zone.

8811. The plane coordinates of a point in any zone shall be made to depend upon and conform with the plane coordinates of the triangulation and traverse stations of the United States Coast and Geodetic Survey within the State of California, as those coordinates shall be determined to conform with the provisions of this chapter.

8812. If the survey of any parcel of land extends from one coordinate zone into another, the positions of all points delineated upon the map thereof may be referred to either of these zones. The zone which is used shall be specifically named in the title upon the map.

8813. The position of the California Coordinate System shall be as marked on the ground by triangulation or traverse stations established in conformity with the standards adopted by the United States Coast and Geodetic Survey for first-order and second-order work, whose geodetic positions have been rigidly adjusted on the North American datum of 1927 and whose coordinates have been computed on the system defined. Any survey or map purported to be based on the California Coordinate System shall have established connections to at least two of such stations.

Title to real property

8814. If any instrument affecting the title to real property contains a reference to a point or line established in accordance with the California Coordinate System of Surveying and also a reference to a point or line established with reference to data appearing of record in the county recorder's office, in a manner which will cause a conflict in position, the reference to the point or line established with reference to recorded data is controlling.

8815. The use of the term "California Coordinate System" on any map or in any field notes referring to the system shall be limited to coordinates based on the California Coordinate System as defined in this chapter.

Use optional

8816. The use of the California Coordinate System by any person, corporation, or governmental agency engaged in land surveying or mapping is optional.

CHAPTER 2. TOPOGRAPHICAL MAPPING

Topographical mapping

8831. It is the policy of the State of California to provide for basic topographic map coverage in aid of development and conservation of the natural and economic resources of the State.

"Department"

8832. As used in this chapter, "department" means the Department of Public Works.

8833. The department, acting through the State Engineer, shall investigate and prepare a complete report on mapping, including plans and recommendations for an adequate mapping program for California, and shall adopt a general plan and program for the accomplishment of the policy declared in this chapter. The general plan and program so adopted, or as amended or modified, shall be the authorized general plan and program to be carried out by the department. The department may from time to time make such further investigations and reports upon mapping as deemed proper by it in pursuance of the policy declared in this chapter.

Cooperation with Federal Government

8834. All map production work to be undertaken pursuant to this chapter shall be in cooperation with the Federal Government. With the approval of the Department of Finance, the department may enter into agreements or contracts with the Federal Government or any of its agencies for performance of map production work in accordance with the general plan and program.

Repeals

SEC. 2. Chapter 1424 of the Statutes of 1945 and Chapter 1307 of the Statutes of 1947 are repealed.

CHAPTER 109

An act to codify certain statutes relating to forestry, by adding Chapters 3.5, 7 5, and 10 to Division 4 of the Public Resources Code, and repealing certain statutes specified herein.

In effect September 9, 1953

[Approved by Governor April 6, 1953. Filed with Secretary of State April 7, 1953]

The people of the State of California do enact as follows:

SECTION 1. Chapter 3.5 is added to Division 4 of the Public Resources Code, to read:

CHAPTER 3.5. PRESERVATION OF BIG TREES

State policy

4501. It is the policy of the State of California to preserve as far as possible the species Sequoia gigantea in the interest of

conservation, both of soil and of the species itself, and for the benefit of present and future generations.

4502. Upon the finding of the State Park Commission or State Forester, or both, that any Sequoia gigantea grove is suitably situated and is of a size and character which justifies its preservation by and for the public, it is the policy of the State to acquire the grove for preservation and conservation purposes.

Construction

4503. Nothing in this chapter shall be construed as establishing a policy to acquire any such Sequoia gigantea groves for preservation and conservation out of any money appropriated for acquisition of land for park purposes by Chapter 1422, Statutes of 1945.

Penalties

4504. Any person who wilfully cuts down, strips of its bark, or destroys by fire, any tree "over sixteen feet in diameter," in the groves of big trees situated in the counties of Fresno, Tulare, or Kern, is guilty of a misdemeanor, and is punishable by fine of not less than fifty dollars ($50) nor more than three hundred dollars ($300), or by imprisonment in the county jail not less than 25 days nor more than 150 days, or by both such fine and imprisonment.

Informer

4505. Upon the arrest and conviction of any person for violation of Section 4504, the party informing is entitled to one-half of the fines collected.

SEC. 2. Chapter 7.5 is added to Division 4 of said code, to read:

CHAPTER 7.5. RANGE CLEARANCE AND REVEGETATION

Purpose

4861. The purpose of this chapter is to promote the public security by eliminating fire hazards and to reduce the risk of uncontrolled fires which result in great annual financial losses to the people of the State, to increase range forage, to return waste lands to production, and to reduce the danger of incendiarism.

It is also the purpose of this chapter to provide means and facilities to determine the effects of controlled clearing and revegetation and burning of brush covered lands which are primarily valuable for range or forage purposes as a part of the legislative policy of providing for and carrying on a continued study of range improvement.

Scope of program

4862. The Division of Forestry of the Department of Natural Resources shall engage in a program of experimental controlled land clearance and revegetation with respect to lands which are used or useful principally for range or forage purposes and which lie within that area the fire protection of which is primarily state responsibility. This program shall also include such research as may be necessary before and after clearance of the lands to determine the value of the methods used in relation to the purposes of this chapter.

4863. The division shall determine the effects of the clearance and the value of the methods used, with reference to fire

protection and prevention, watershed protection and conservation, the prevention of soil erosion, and the increased economic value of the cleared lands insofar as they are made available for range and forage purposes.

Reports

4864. The division shall from time to time prepare reports setting forth data as to the experiments conducted and its findings and conclusions, and shall submit the reports to the Legislature upon the convening of each regular session.

4865. All state agencies and other official organizations, and all persons connected therewith, shall give the division full information and reasonable assistance in any matters of research requiring recourse to them, or to data within their knowledge or control, with reference to the purposes of this chapter.

4866. This chapter does not affect the expenditure of funds appropriated for the support of the Division of Forestry for related purposes in performance of its ordinary functions of fire protection.

SEC. 3. Chapter 10 is added to Division 4 of said code, to read:

CHAPTER 10. FOREST PRACTICES

Article 1. General Provisions and Definitions

Purpose

4901. The purpose of this chapter is to declare the existence of a public interest in the forest resources and timberlands of this State; to declare the necessity of good forest practices in the processes of harvesting the forest resources, and conserving and maintaining the productivity of the timberlands in the interests of the economic welfare of the State and the continuance of the forest industry; to establish forest districts in which standards of forest practice shall be adopted to promote the maximum sustained productivity of the forests; to authorize the creation of district forest practice committees which shall formulate and adopt forest practice rules, and approve forest management plans for final approval of the State Board of Forestry; to specify the manner in which forest practice rules shall be administered; and to provide for the functioning of the district forest practice committees in an advisory capacity to the State Board of Forestry.

State policy

The public interest is affected by the management of forests, timberlands, watershed and soil resources of the State, and it is the policy of this State to encourage and promote and require such development, use, and management of forests and timberlands as will maintain the continuous production of forest products, to the end that adequate supplies of forest products are assured for the needs of the people for their farms, homes, and industries. It is the policy of this State to encourage and assist private ownership in the management and economic development of privately owned timberlands.

Exercise of powers

4902. The State Forester, acting in accordance with the policies adopted by the State Board of Forestry and under the supervision and direction of the Director of Natural Resources,

shall administer this chapter, and may exercise all powers necessary to accomplish its purposes and intent.

4903. Unless the context otherwise requires, the definitions contained in this article govern the construction of this chapter.

4906. "Person" means any individual, copartnership, firm, corporation, or company, or a recognized agent or representative thereof.

4907. "Timber owner" and "private timber owner" mean any person owning commercial timber, timberland, cutover land, or timber rights on lands of another other than a governmental agency.

4908. "Timber owner-operator" means any private timber owner who cuts and removes timber and other forest products from timberlands.

4909. "Farmer-timber owner" means any timber owner whose principal business is that of farming or ranching but included in whose property holdings are areas of commercial timber.

4910. "Timber operator" means any person engaged in timber operations, and responsible for compliance with this chapter in the timber operations.

4911. "Timber operations" means the cutting and removal of timber or other forest products from timberlands for commercial purposes.

4912. "Board" means the State Board of Forestry.

4913. "Director" means the Director of Natural Resources.

4914. "Committee" means the district forest practice committee.

Article 2. Forest Districts

Forest districts

4926. The privately owned commercial forest areas of the State are divided into four regional groups known as forest districts. Each district comprises all privately owned timberland and all privately owned cutover lands, lying within the boundaries of the district as defined by this article.

4927. The Redwood Forest District comprises the area situated between the Pacific Ocean and the eastern edge of the natural occurrence of redwood timber in the Counties of Del Norte, Humboldt, Mendocino, Napa, Sonoma, Marin, San Mateo, Santa Clara, Santa Cruz, and Monterey.

4928. The North Sierra Pine Forest District comprises the area bounded on the north by the State of Oregon, on the east by the State of Nevada, on the south by the Feather and Bear Rivers, a direct line east from the source of the Bear River to the Nevada state line, and on the west by the Sacramento River and the Shasta River to its confluence with the Klamath River and thence north to the Oregon state line.

4929. The South Sierra Pine Forest District comprises the area bounded on the north by the Feather and Bear Rivers, a direct line east from the source of the Bear River to the Nevada state line, on the east by the Nevada and Arizona state lines, on the south by the Republic of Mexico, and on the west by the Sacramento and San Joaquin River Valleys and extending south to the southern limit of the commercial timber belt.

4930. The Coast Range Pine and Fir Forest District comprises the area bounded on the north by the State of Oregon, on the east by the Sacramento River and the Shasta River to its confluence with the Klamath River, thence north to the Oregon state line, on the west by the eastern boundary of the Redwood Forest District and extending south to the southern limit of the commercial timber belt which is north and west of the Sacramento River Valley.

Article 3. Forest Practice Rules

District committees

4936. For the purpose of assisting in administering this chapter, a district forest practice committee, consisting of five members, shall be established for each district.

4937. Four of the members of the committee shall be appointed by, and hold office at, the pleasure of the Governor. Of these four members, two shall be private timber owner-operators in the district, one shall be a private timber owner owning 1,000 acres or more of commercial timber in the district and who does not conduct any logging or milling operations, and one shall be a farmer-timber owner owning not less than 160 acres nor more than 1,000 acres of commercial timber in the district.

4938. The fifth member shall be a member of the board or an employee of the Division of Forestry designated by the board to represent it. He shall be the secretary of the committee and shall meet with and take part in all deliberations of the committee, but shall not have the power of a vote except in the case of a tie.

4939. The appointive members of the committee shall receive no compensation for their services or expenses in connection with their service on the committee.

4940. The committee shall advise and assist the board and the lumber industry in the establishment of forest conservation

practices on privately owned land. In advising and assisting the board, the committee shall not interfere with any of the powers and duties of the board.

Rules Development

4941. Each committee shall develop forest practice rules for the district to fulfill the purposes of this chapter. The rules shall apply to old growth and second growth timber and shall include fire protection devices and practices, protection against operations in logging which unnecessarily destroy young timber growth or timber growing conditions of the soil, protection and prevention from damage by forest insects and disease, and provisions for the restocking of the land after cutting, by natural or artificial methods.

Approval

4942. The committee shall adopt the rules for the district after due notice and hearings. The committee shall submit the rules to the private timber owners within the district for approval. If the rules are approved by two-thirds of the private timber ownership voting in the district, the percentage to be measured by the acreage of timber and cutover land privately owned in the district, they shall be submitted to the board for approval.

Balloting

4943. For the purpose of balloting on the approval or disapproval of the rules, the private timber owners within the district shall be deemed to be the owners of record appearing on the current assessment roll of the county in which the timberlands are situated. The proposed rules and ballots shall be sent by registered mail to the owners of record to the address of record upon the assessment rolls. All ballots upon the proposed rules shall be returned to the State Forester within 60 days from the date of mailing to the owners. The State Forester shall complete the counting of the ballots within 70 days after the date of mailing. All timber acreage not voted on the ballots received within the specified time shall be excluded from the total timberland acreage of the district in determining the percentage of the approval or disapproval of the rules. Where the ownership of timberlands is of record as being owned by more than one person, company, or corporation, the percentage of acreage in such multiple ownership shall be apportioned in such percentages as the percentage appears upon the assessment rolls of the counties in the district. If the multiple ownership is divided into separate ownership of land and timber or land and timber rights, the owners of record of the land and timber shall be deemed to hold the right of vote of one-half of the total land acreage involved for land ownership and one-half of the total land acreage involved for timber ownership.

Alternate plans

4944. The committee may receive and approve forest management plans submitted by owners of timberland in the district as a substitute for the rules approved for that district.

4945. The committee may receive and approve plans of procedure submitted by owners of timberland in the district as an alternate to any requirement of the forest practice rules approved for that district, if the alternate plan, in the opinion

of the committee, will accomplish greater silvicultural or protectional management of the timberland of the owner than is provided for by the existing requirement of the rules approved for that district.

4946. If, in the opinion of the Board, the rules of forest practice, forest management plans, and alternate plans are sufficient to accomplish the purposes and intent of this chapter, they shall be approved by the board.

If any of the rules submitted are disapproved by the board, they shall be returned to the committee with recommendations for amendments. Action upon the recommended amendments shall follow the same procedure as provided for the adoption of the initial rules.

If the board finds that a forest management plan which has been submitted for approval is inadequate, it shall return the plan to the committee and the timber owner who submitted it, for concurrence in suggested amendments which will fulfill the purposes and intent of this chapter.

If the board finds that an alternate plan which has been submitted for approval does not accomplish the purposes and intent of the rule for which the alternate plan is to be substituted, it shall return the plan to the committee and the timber owner who submitted it, for concurrence in suggested amendments which will fulfill the purposes and intent of this chapter.

Compliance

4947. Forest practice rules, forest management plans, and alternate plans, approved by the board, have the force of law within the district in which the rules originated. Except as otherwise provided in this section, all timber owners in the district shall comply with the rules If any owner of timberland has submitted a forest management plan which has been approved by the board, he is subject only to compliance with the forest practices which are a part of the forest management plan. If any owner of timberland has submitted an alternate plan which has been approved by the board he is subject to compliance with the rules as modified by the alternate plan. Timberland owners who give satisfactory proof that the timberlands being cut, or to be cut, are to be devoted, in a bona fide manner, to other than a timber growing use, are not subject to compliance with the rules, but they shall comply with existing state fire laws and the fire prevention and fire suppression practices of the rules for the district.

Amendment

4948. Upon receipt by the board of a petition, signed by 50 percent of the private timber and cutover land ownership in an established district, requesting amendments to the rules of the district, or upon determination of the State Forester that the rules of any district should be amended, the board shall order the committee of the district in which the proposed amendments will apply to review the petition or the request of the State Forester and to conduct public hearings in connection therewith. If the committee concludes, after the public hearings, that the rules should be amended to meet any of the demands of the petition, or of the request of the State Forester, the committee

shall submit its findings to the board for its approval or rejection.

4949. If the findings and proposed amendments, submitted by the committee, are approved by the board, it shall publish a notice of its approval and the full text of the proposed amendments in a newspaper of general circulation in each county of the district in which the amended rules are to apply. The notice shall appear in at least three consecutive publications of the newspaper at intervals of not less than one week. The over-all period of the publications shall not exceed 30 days. At the first regular meeting of the board, following the expiration of the time allotted for publication of the approved amendments, the board by resolution, shall declare the amended rules to be in effect and have the force of law.

Enforcement

4950. The director shall require the State Forester to make periodic inspections of timber operations to determine and require compliance with the rules and forest management plans or alternate plans.

Article 4. Registration and Permits

Penalty

4961. Any timber operator who engages in the cutting or removing of timber or other forest products, for commercial purposes, from forest lands without having a valid permit to do so from the State Forester is guilty of a misdemeanor and shall be prohibited from engaging in timber operations.

Notification

4962. All timber owners upon whose holdings timber operations are proposed, shall notify the State Forester of the proposed timber operation and its location. In the notice, the timber owner shall state the name and address of the timber operator who will engage in the timber operations. Whenever possible, the location of the proposed timber operation shall be given by a legal subdivision description.

Registration and permits

4963. All timber operators shall register with the State Forester. As a part of such registration the timber operator shall agree to conduct the timber operations pursuant to this chapter and to the rules of the district in which the timber operation is conducted. Upon receipt of the registration, the State Forester, or his designated agent, shall issue a permit for the current calendar year, or the remainder thereof, authorizing the permittee to engage in the timber operations. The permit, or a copy thereof, shall be available for inspection at all times in the area in which the timber operations are being conducted.

Renewal

4964. Permits shall be renewed each calendar year. Registrations shall be renewed not more than 60 days or less than 30 days prior to the first day of January of each year.

Suspension and revocation

4965. If any timber operator fails to comply with the rules applicable to the district in which the timber operation is conducted, or fails to comply with a forest management plan approved by the board, or fails to comply with the rules modified by an alternate plan, the director may suspend or revoke his permit.

4966. No action to suspend or revoke a permit shall be invoked until the timber operation has been inspected, a written notice given the timber operator stating the items in which the timber operator is not complying with the rules, management plan, or alternate plan, and until the timber operator has been given a reasonable time, after receipt of the notice, in which to revise his timber operation to comply with the rules he is violating.

4967. The director shall conduct all proceedings to suspend or revoke a permit pursuant to Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code, and the director has all the powers granted therein.

If any part of the money is not

so expended, the gain shall be recognized to the extent of the money which is not so expended (regardless of whether such money is received in one or more income years and regardless of whether or not the money which is not so expended constitutes gain). (1) If the taxpayer during the period specified in subsection (2) of this section, for the purpose of replacing the property so converted, purchases other property similar or related in service or use to the property so converted, or purchases stock in the acquisition of control of a corporation owning such other property, at the election of the taxpayer the gain shall be recognized only to the extent that the amount realized upon such conversion (regardless of whether such amount is received in one or more income years) exceeds the cost of such other property or such stock. Such election shall be made at such time and in such manner as the Franchise Tax Board may by regulations prescribe. For the purposes of this section and Sections 25035b and 25035c—

(A) No property or stock acquired before the disposition of the converted property shall be considered to have been acquired for the purpose of replacing such converted property unless held by the taxpayer on the date of such disposition; and

(B) The taxpayer shall be considered to have purchased property or stock only if, but for the provisions of Section 25071g, the unadjusted basis of such property or stock would be its cost within the meaning of Article 4 of Chapter 8.

(2) The period referred to in subsection (1) of this section shall be the period beginning with the date of the disposition of the converted property, or the earliest date of the threat or imminence of requisition or condemnation of the converted property, whichever is the earlier, and ending—

Such application shall be made at such time and in such manner as the Franchise Tax Board may by regulations prescribe.

SEC. 5. Section 25035c is added to the Revenue and Taxation Code, to read:

25035c. If the election provided in Section 25035a (1) is made by the taxpayer and such other property or such stock was purchased prior to the beginning of the last income year in which any part of the gain upon such conversion is realized, any deficiency, to the extent resulting from such election, for any income year ending before such last income year may be assessed (notwithstanding the provisions of Sections 25663 and 25663c, or the provisions of any other law or rule of law which would otherwise prevent such assessment) at any time before the expiration of the period within which a deficiency for such last income year may be assessed.

In the case of property purchased by the taxpayer which resulted, under the provisions of Sections 25035a to 25035c, inclusive, in the nonrecognition of any part of the gain realized as the result of a compulsory or involuntary conversion, the basis shall be the cost of such property decreased in the amount of the gain not so recognized; and if the property purchased consists of more than one piece of property, the basis determined under this section shall be allocated to the purchased properties in proportion to their respective costs. [Approved by Governor April 7, 1953. Filed with Secretary of State April 8, 1953.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 6.5 is added to Division 2 of the Public Resources Code, to read:

CHAPTER 6.5. PLACER MINING WATER POLLUTION

2551. This chapter does not apply to any placer mine operator who holds a permit to operate from the California Debris Commission.

2552. Any person, firm, or corporation who engages in the operation of a placer mine on any stream or on the watershed of any stream tributary directly or indirectly to the Sacramento or San Joaquin rivers shall record a verified statement in the office of the county recorder of the county in which his mine is situated, within 30 days after the commencement of operations.

2553. The verified statement shall be verified by the operator or by some one in his behalf and shall contain the following information:

(a) A description of the ground proposed to be mined by placer mining methods, described by United States Government subdivisions where possible.

(b) The names and addresses of the owners of the ground

(c) The names and addresses of the operators of the mine.

(d) The proposed means or method of placer mining operation.

(e) The means which the operator proposes to use to prevent the pollution of any stream by the effluent from such operations.

of any such mining property, a notice setting forth the names and addresses of the new owners or operators shall be filed in the office of the county recorder.

Precautions

2555. No placer mining operator shall mine by the placer process on any stream or on the watershed of any stream tributary directly or indirectly to the Sacramento or San Joaquin rivers without taking the following precautions to prevent pollution of the stream by the effluent from operations:

(a) Constructing a settling pond or ponds of sufficient size to permit the clarification of water used in the mining processes before the water is discharged into the stream

(b) Mixing with the effluent from mining operations aluminum sulphate and lime, or an equivalent clarifying substance which will cause the solid material in the effluent to coagulate and thus avoid rendering the water in the stream unfit for domestic water supply purposes.

Transportation of dredger

2556. Notwithstanding the provisions of subdivision (b) of Section 2555, any placer miner who is operating by dredging process and who desires to transport his dredger across a stream may conduct the dredger across the stream without constructing a settling pond, if he is of the opinion that the expense of constructing settling ponds in the stream would be unduly heavy.

Required procedure

Before transporting his dredger, the operator shall use the following procedure:

(a) He shall give a notice of his intent to cross a stream to the clerk or the secretary of each city or district owning or operating a domestic water supply the clarity of which is likely to be affected by the crossing operation.

(b) The notice shall be given at least seven days in advance of the date that he expects to cross the stream with his dredger.

(c) Upon the expiration of the notice the operator may during the following 48 hours conduct his dredger across the stream even though some turbidity may be caused by the crossing operation.

(d) After crossing the stream, the operator shall comply with the provisions of subdivision (b) of Section 2555.

Penalty

2557. Any person, firm, or corporation who violates this chapter is guilty of a misdemeanor.

Public nuisance

2558. The operation of any placer mine on ground not covered by a permit to the operator from the California Debris Commission, without compliance with the provisions of this chapter, is declared to be a public nuisance which may be enjoined upon suit brought by the district attorney of the county in which the operation has been conducted, or by any city or district whose domestic water supply is rendered unfit or dangerous for human consumption by the acts, or failure to act, of the operator. The superior court of the county in which the operation is conducted has jurisdiction to hear and determine the action and to award such relief as may be proper.

Construction

2559. Nothing in this chapter shall be construed to deprive the State, any city, county, district, person, firm, or corporation

of any right to maintain any action or proceeding, in any jurisdiction, which it was entitled to maintain prior to the enactment of this chapter, or to receive or obtain in any such action any remedy accorded to it under existing law.

SEC. 2. Chapter 1677 of the Statutes of 1951 is repealed.

CHAPTER 140

An act to codify Chapter 23 of the Statutes of 1949 by repealing said chapter and adding Chapter 3 to Division 1 of the Water Code, relating to water shortage emergencies.

In effect September 9, 1953

[Approved by Governor April 7, 1953. Filed with Secretary of State April 8, 1953.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 3 is added to Division 1 of the Water Code, to read:

CHAPTER 3. WATER SHORTAGE EMERGENCIES

Declaration of water shortage emergency

350. The governing body of a distributor of a public water supply, whether publicly or privately owned and including a mutual water company, may declare a water shortage emergency condition to prevail within the area served by such distributor whenever it finds and determines that the ordinary demands and requirements of water consumers cannot be satisfied without depleting the water supply of the distributor to the extent that there would be insufficient water for human consumption, sanitation, and fire protection.

Public hearing exception

351. Excepting in event of a breakage or failure of a dam, pump, pipe line or conduit causing an immediate emergency, the declaration shall be made only after a public hearing at which consumers of such water supply shall have an opportunity to be heard to protest against the declaration and to present their respective needs to said governing board.

Notice

352. Notice of the time and place of hearing shall be published once at least seven days prior to the date of hearing in a newspaper printed, published, and circulated within the area in which the water supply is distributed, or if there is no such newspaper, in any newspaper printed, published, and circulated in the county in which the area is located.

Adoption of regulations

353. When the governing body has so determined and declared the existence of an emergency condition of water shortage within its service area, it shall thereupon adopt such regulations and restrictions on the delivery of water and the consumption within said area of water supplied for public use as will in the sound discretion of such governing body conserve the water supply for the greatest public benefit with particular regard to domestic use, sanitation, and fire protection.

Priorities

354. After allocating and setting aside the amount of water which in the opinion of the governing body will be necessary to supply water needed for domestic use, sanitation, and fire protection, the regulations may establish priorities in the use of water for other purposes and provide for the allocation, distribution, and delivery of water for such other purposes, without discrimination between consumers using water for the same purpose or purposes.

355. The regulations and restrictions shall thereafter be and remain in full force and effect during the period of the emergency and until the supply of water available for distribution within such area has been replenished or augmented.

356. The regulations and restrictions may include the right to deny applications for new or additional service connections, and provision for their enforcement by discontinuing service to consumers wilfully violating the regulations and restrictions.

Conflict of regulations with other laws

357. If the regulations and restrictions on delivery and consumption of water adopted pursuant to this chapter conflict with any law establishing the rights of individual consumers to receive either specific or proportionate amounts of the water supply available for distribution within such service area, the regulations and restrictions adopted pursuant to this chapter shall prevail over the provisions of such laws relating to water rights for the duration of the period of emergency; provided, however, that any distributor of water which is subject to regulation by the State Public Utilities Commission shall before making such regulations and restrictions effective secure the approval thereof by the Public Utilities Commission.

Review

358. Nothing in this chapter shall be construed to prohibit or prevent review by any court of competent jurisdiction of any finding or determination by a governing board of the existence of an emergency or of regulations or restrictions adopted by such board, pursuant to this chapter, on the ground that any such action is fraudulent, arbitrary, or capricious.

Repeal

SEC. 2. Chapter 23 of the Statutes of 1949 is repealed.

CHAPTER 141

An act to amend Sections 2 and 3 of an act entitled "An act relating to the application, acceptance and use of funds or assets of the California Rural Rehabilitation Corporation from the trustee thereof" (Chapter 414, Statutes 1949), as amended, relating to the acceptance and use of such trust asset funds, declaring the urgency thereof to take effect immediately.

In effect immediately

[Approved by Governor April 7, 1953. Filed with Secretary of State April 8, 1953.]

The people of the State of California do enact as follows:

SECTION 1. Section 2 of the act cited in the title hereof is amended to read:

SEC. 2. Any such trust assets referred to in Section 1 of this act which may be transferred or returned to this State or to the duly designated agency or official thereof shall be deposited in the State Treasury to the credit of said California

Farm Debt Adjustment Commission or to the credit of the Department of Agriculture Fund, as the case may require.

In the event an agreement is entered into between the designated agency or official of this State and the Secretary of Agriculture pursuant to the provisions of Section 2 (f) of the Rural Rehabilitation Trust Liquidation Act as provided in Section 3 of this act, no physical transfer or deposit in the State Treasury of the trust assets shall be required.

Such funds or other assets shall be used by the aforesaid designated agency or official for the purpose of conducting rural rehabilitation work or for any purpose similar thereto or in accordance with Section 3 of this act. No liability shall accrue to the United States or to the Secretary of Agriculture thereof by virtue of any transfer made pursuant to Section 1 of this act.

Urgency

SEC. 3. This act is an urgency measure necessary for the immediate preservation of health or safety of the people within the meaning of Article IV of the Constitution, and shall go into immediate effect The factors constituting such necessity are:

The operations contemplated under the provisions of the act herein amended are contingent upon the assignment of any trust assets from the trustee thereof and their acceptance by the proper state official for a continuing use in rural rehabilitation work Since the period within which such assets may be returned terminates on May 3, 1953, it is necessary that this act become effective immediately else such assets automatically become miscellaneous receipts in the Federal Treasury and are lost to any further use in this State.

Aid shall be paid from the first of the month following the date restoration is requested and shall be delivered to the recipient within 30 days of the date restoration is requested.

The provisions of this section shall not apply when aid has been discontinued for one year or more.

CHAPTER 5. RELIEF LAW OF 1945

Article 1. General Provisions

Short title

2800. This chapter shall be known and may be cited as the Relief Law of 1945.

Suspension from operation

2801. The provisions of this chapter (except the provisions of this section) are suspended and continue suspended from operation until the occurrence of an economic emergency in this State which results from widespread hardship and destitution and necessitates immediate action for the relief of such hardship and destitution. No act shall be done nor power be exercised nor money be expended under or pursuant to such provisions until the occurrence of such an economic emergency has been determined as provided in this section.

Determination of economic emergency

Ascertainment and determination of the fact of the occurrence of such an economic emergency is committed to the Senate and Assembly and to the Governor. If and when the Senate and Assembly by concurrent resolution filed with the Secretary of State find and declare, and the Governor by his proclamation filed with the Secretary of State finds and declares, that there exists an economic emergency in this State which results from widespread hardship and destitution and necessitates immediate action for the relief of such hardship and destitution (the resolution and the proclamation, respectively, to contain a statement of the facts upon which the finding is based), such an economic emergency is determined to have occurred and to exist and thenceforth all of the provisions of this chapter are fully operative.

Effect

2802. After the provisions of this chapter become operative, the provisions of Chapter 2 of this division, relating to county aid and relief to indigents, shall not apply to any person who receives, or is eligible to receive, relief under this chapter; but the said Chapter 2 is not repealed by this chapter, and shall continue in full force and effect in respect to persons not eligible to receive relief under this chapter.

2803. As used in this chapter, the terms defined in this article have the meanings set forth in this article.

Definitions

2804. "Department" means the State Department of Social Welfare.

2805. "Aid" means state financial assistance to counties for the direct cost of relief and the cost of administration thereof.

2806. "Relief" means assistance in cash or in kind provided to individuals or families to relieve hardship and destitution.

Relief to a person includes relief to his dependents, but relief does not include hospital or medical care.

Provision for relief

2807. In accordance with the provisions of this chapter, every county shall provide relief to needy persons who are residents of this State.

Residence

2808. For the purposes of this chapter, a resident of the State is a person who comes within all of the following descriptions:

(a) Who has lived continuously in the State for a period of one year preceding his application for relief.

(b) Who, during the said one-year period, has not received any form of public assistance from any other state or political subdivision thereof.

(c) Who has not lost his residence by remaining away from this State for an uninterrupted period of one year. Absence from the State for labor or other special or temporary purpose does not occasion loss of residence.

2809. For the purposes of this chapter, a person who is a resident of the State is a resident of the county in which he has resided continuously for one year immediately preceding his application for relief.

Costs of transportation

2810. A county may incur all necessary expenses in transporting a nonresident applicant for or recipient of relief under this chapter to another state or county when information at hand reasonably tends to show that the person has a legal residence in that state or county. The State shall reimburse the county the full amount of the cost of such transportation.

Article 2. Administration

Administration

2820. The direct administration of this chapter shall be carried out by the boards of supervisors of the several counties, directly or through their authorized agents. The administration shall be supervised by the department.

Department Duties

2821. The department shall:

(a) Establish minimum and maximum standards for the amount and form of relief, on a budgetary basis, as provided in Sections 2822, 2823, and 2824.

(b) Establish standards of eligibility for relief, which shall be of uniform application throughout the State.

(c) Make investigations in relation to the administration of relief.

(d) Secure information and make reports thereon.

2822. The department shall from time to time fix for each county maximum and minimum relief case budgets within the range of which the board of supervisors may establish its own policies.

All budgets and standards shall be based upon need and minimum budgets shall be sufficient to maintain the recipient and his dependents in accordance with minimum living requirements as provided in Section 2823.

2823. In determining and redetermining budgets and standards the department may give consideration to living costs and may establish budgets and standards varying in monetary worth or amount but providing a standard of living compatible with decency and health.

2824. Relief may be granted in cash or in kind, but relief may be granted in kind only after the method has been approved by the department.

2825. All income received by a person or family, regardless of source, shall be considered in arriving at the amount of relief to be provided.

Administration of funds

2826. In administering any funds appropriated or made available to the department for disbursement through the counties for relief purposes, the department shall:

(a) Require as a condition for receiving such grants-in-aid that the county shall bear the proportion of the total expense of furnishing relief required to be paid by the county under Section 2901.

(b) Establish rules and regulations, not in conflict with law, defining and controlling the conditions under which state aid may be granted or refused.

(c) Terminate any grants-in-aid to any county if the laws providing such grants, or the minimum standards prescribed by the department, are not complied with by the county or its officers or employees.

Failure of county to comply with department rules, etc.

2827. If any county fails to comply with the provisions of this chapter or the rules and regulations or orders of the department for the administration of relief by the county under this chapter, the director of the department shall formally notify the county of the particular respects in which it fails to comply with the law or the rules and regulations of the department, and of the changes which are necessary to effect full compliance. The county shall be allowed a reasonable time to effect compliance; if it fails to do so within such reasonable time, it shall be ordered to appear before the State Social Welfare Board to show cause, if it has any, for its failure to comply with the law or the rules and regulations of the department.

If a county is charged by the director with failure to comply with the law or the rules and regulations of the department, the county may demand a public hearing before the board. If a hearing is demanded, the board shall hold it promptly.

If the board finds that a county has failed to comply with the law or the rules and regulations of the department and is unwilling or unable to make the changes necessary to effect full compliance, the board may withhold financial assistance for the direct and administrative costs of relief, or either, until the county complies.

Operation by State

2828. The department may operate the relief administration in any county after the denial of financial assistance to the county in accordance with the provisions of Section 2827, and the county proportion of the costs thereof shall be charged against the county and shall be a proper charge against the county. The department shall certify to the county auditor any amounts so charged against the county, the county auditor shall include in his state settlement report rendered to the Controller in the months of January and June the amounts so certified and due under the provisions of this section, and the county treasurer, at the time of the settlement with the State in such months, shall pay to the State Treasurer, upon the order of the Controller, the amounts due under the provisions of this section.

Article 3. Procedure

2840. Application for relief may be made to the county of which the applicant is a resident, or, in the case of an applicant who is a resident of the State but who is not a resident of any county, to the county in which the applicant is present. Application for relief

2841. The board of supervisors of every county as a board, or by committee or by such person as it may authorize, shall investigate every application for relief under this chapter, shall supervise by periodic visitation every person receiving such relief, shall devise ways and means for bringing persons unable to maintain themselves to self-support, and shall keep full and complete records of such investigation, supervision, relief, and rehabilitation as shall be prescribed by the State Department of Social Welfare. Investigation of application

Such records shall be confidential and shall not be open to examination or inspection except by the grand jury of the county or by a board or an officer of the State or the county charged with the supervision or direction of such relief or with the control of the expenditure of funds applicable to such relief.

Any citizen shall be entitled to demand and receive from the board, officer, committee, or person having custody of such records a statement of the amount, character, and value of the relief received by any person.

2842. Persons eligible for relief who are residents of the State and residents of the county in which they apply for relief shall be granted relief by the county of their residence, and the State shall pay to the county the State's share of the cost of the relief. Costs of relief

Persons eligible for relief who are residents of the State but who are not residents of any county shall be granted relief by the county in which they apply for relief, and the State shall pay to the county providing the relief the full cost of the relief provided until such persons have remained in a county for the period necessary to acquire residence in that county.

2843. In case of dispute between two or more counties as to the responsibility for any person or in case of dispute between a county and the department either may appeal to the State Social Welfare Board for a hearing. The decision of the State Social Welfare Board is final. Disputes County or state

2844. If any applicant or recipient is dissatisfied with the action of the board of supervisors, he shall upon filing a petition with the department have the right of appeal and shall be accorded an opportunity for a fair hearing. The department shall set such appeal for hearing before the State Social Welfare Board and shall give all parties concerned written notice of the time and place of the hearing. At the hearing the applicant or recipient may appear in person with counsel of his own choosing or in person and without such counsel. Applicant's right of appeal

The State Social Welfare Board shall consider the appeal and shall dismiss the appeal or award relief as prescribed in this chapter. The county board of supervisors shall then pay

to such person the sum awarded, if any, by the State Social Welfare Board.

Article 4. Eligibility

Eligibility for relief

2860. Relief shall be provided only to persons who are in need, as determined by an investigation as prescribed by the department. Subject to the rules and regulations of the department, the county shall grant such emergency relief as may be necessary pending completion of investigation.

Requiring recipient to work for county

2861. As a condition to the grant or continuance of relief, the county may require the recipient to perform work provided by the county. Such work shall not be or replace work which otherwise would be undertaken through private or public employment. All persons performing such work shall be paid the prevailing wage scale for work of a similar character performed in the county.

No state funds shall be used for material or supplies or for nonrelief employment, on work programs.

Persons ineligible

2862. Persons who are eligible for aid to the aged under the Old Age Security Law, aid to the needy blind, or aid to needy children (including the caretaker of such needy children), are not eligible for relief under this chapter.

2863. No person shall be considered a needy person who has made any voluntary assignment or transfer of property for the purpose of qualifying for relief, and any transfer of property other than heirlooms made without adequate consideration in money or property within a period of one year prior to making application for relief shall be presumed to have been made for the purpose of qualifying for relief.

2864. No person is eligible for relief who, being physically capable thereof, refuses suitable employment. The department shall define "suitable employment," but no person shall be required to accept work where a labor dispute exists.

Article 5. Responsibility for Repayment

Recovery from person not entitled to relief

2880. Relief granted to any person who is not entitled thereto under the provisions of this chapter shall constitute a debt of the recipient, to the amount of such relief, to the State and the county participating in the granting of such relief. Recovery may be had upon such debt out of any property of the recipient not exempt from execution.

Any money refunded under the provisions of this section shall be repaid to the State and the county in the proportion that each contributed to the relief granted.

Financial responsibility of spouse, etc

2881. If the spouse, parent, or adult child of any recipient of relief is financially able to contribute to the support of the recipient, such relative is liable to reimburse the State and county for relief granted to the recipient to the extent of his financial ability so to do.

The board of supervisors of the county granting relief shall determine if the spouse, parent, or adult child has financial

ability to support or contribute to the support of the recipient and was pecuniarily able to support or contribute to the support of the recipient during the time relief was provided to him. If in the opinion of the board of supervisors pecuniary ability existed when the relief was granted and exists when the matter comes before the board of supervisors, the board shall request the district attorney or other civil legal officer of the county granting the relief to proceed against such responsible relative or relatives.

Upon such request the district attorney or other civil legal officer shall maintain an action on behalf of the county granting relief against the said relative or relatives to recover for the county the relief granted and to secure an order requiring the payment of any sums which may become due in the future.

All money collected by the county under the provisions of this section shall be credited to the State and the county in the proportion that each contributed to the relief granted.

Article 6. Payment of Relief Costs

Not an appropriation

2900. The provisions of this chapter providing for state payments to counties do not constitute appropriations of money from the State Treasury, and no provision of this chapter shall be construed to make an appropriation. No money shall be available for expenditure under this chapter until an appropriation for that purpose is made by the Legislature.

Any money appropriated to carry out the purposes of this chapter shall be deposited in, and disbursed from, the Relief Fund in the State Treasury, which fund is continued in existence.

State assistance

2901. (a) Until the rate of county expenditure for the direct and administrative costs of welfare activities under this chapter exceeds, on a fiscal year basis determined not less frequently than quarterly, eight one-hundredths of 1 percent (.08%) of the total assessed valuation of the property subject to county taxation, the State shall not participate in the expenditure.

(b) With respect to county funds expended at a rate exceeding eight one-hundredths of 1 percent (.08%) of the total assessed valuation of the property subject to county taxation, but not exceeding twelve one-hundredths of 1 percent (.12%) thereof, the State shall pay each county eighty percent (80%) of such expenditures.

(c) With respect to county funds expended at a rate exceeding twelve one-hundredths of 1 percent (.12%) of the total assessed valuation of the property subject to county taxation, but not exceeding sixteen one-hundredths of 1 percent (.16%) thereof, the State shall pay each county ninety percent (90%) of such expenditures.

(d) With respect to county funds expended at a rate exceeding sixteen one-hundredths of 1 percent (.16%) of the total assessed valuation of the property subject to county taxation,

the State shall pay each county ninety-five percent (95%) of such expenditures.

(e) The State shall pay to each county the full amount of the total costs of relief to persons who are residents of the State but who are not residents of any county.

Apportioning federal aid

2902. During such time as grants-in-aid are provided or made available by the United States Government for either direct costs or administrative costs of welfare activities under this chapter, or both, the State Treasurer shall transfer the sums so granted to the Relief Fund. Of such sums, there shall be credited to the State an amount which bears the same proportion to the total of the sums so granted that the total state expenditure under this chapter during the period for which the grants are made bears to the total of both state and county expenditures under this chapter during that period. The remainder of such sums shall be credited to the counties of the State, and the State Treasurer shall pay to each county therefrom an amount which bears the same proportion to the whole of such remainder that the county funds expended by that county under this chapter during the period bears to the total of all county funds expended by all counties under this chapter during the period.

Method of computing amounts

2903. The method of computing and paying the amounts provided for in Sections 2901 and 2902 for each quarter shall be as follows:

(a) The department shall, prior to the beginning of each quarter, estimate the amount to be paid for such quarter to each county under the provisions of Sections 2901 and 2902, such estimate to be based on a report filed by each county containing (1) its estimate of the total sum to be expended in such quarter in accordance with the provisions of this chapter; (2) records showing the number of individuals (cases) estimated to be in need of relief during the ensuing quarter; and (3) such other information and investigation as the department may find necessary.

(b) The department shall then certify to the State Controller the amounts so estimated by it for each county, reduced or increased as the case may be, by any sum by which it finds that its estimate for any prior quarter was greater or less than the amount which should have been paid to the county under this chapter for such quarter.

(c) The State Controller shall thereupon draw the necessary warrants, and prior to audit or settlement by the department and the State Controller, the State Treasurer shall pay to the treasurer of each county the amount so certified.

Upon the order of the department, the amount approved for the quarter may be paid in monthly installments and, if paid in monthly installments, all necessary adjustments for the prior quarters shall be made by additions or deductions from the allowance for the first month of each new quarter or in the manner prescribed by the department.

2904. (a) Reports of payments of relief and of payments for the cost of administration thereof made under this chapter shall be presented by the respective counties at times and in the form prescribed by the department. Reports of payments

(b) Such reports shall be audited by the department and the State Controller and, when and in the amount approved, shall be allowed to the county as a credit to apply against advances made under the terms of Section 2903.

Said bonds and the interest thereon shall be paid from revenue derived from annual taxes or assessments levied as provided in this act

Same Ordinance contents

(3) Said board shall call such special bond election by ordinance and not otherwise and submit to the qualified electors of said zone or participating zones the proposition of incurring a bonded debt in said zone or participating zones in the amount and for the purposes stated in said resolution and shall recite therein the objects and purposes for which the indebtedness is proposed to be incurred; provided, that it shall be sufficient to give a brief, general description of such objects and purposes, and refer to the recorded copy of such resolution adopted by said board, and on file for particulars; and said ordinance shall also state the estimated cost of the proposed work and improvements, the amount of the principal of the indebtedness to be incurred therefor, and the maximum rate of interest to be paid on said indebtedness, and shall fix the date on which such special election shall be held, and the form and contents of the ballot to be used The rate of interest to be paid on such indebtedness shall not exceed five percent (5%) per annum. Where the incurring of bonded indebtedness by participating zones is to be determined at such election, no bonds for any of such participating zones shall be issued or sold unless two-thirds ($\frac{2}{3}$) of the votes cast on the proposition in each such participating zone are in favor of incurring the bonded indebtedness to be undertaken by such zone.

SEC. 3. Section 14 of the Alameda County Flood Control and Water Conservation District Act is amended to read:

The bonds of one series may be made payable at different times from those of any other series. The maturity of each series shall comply with this section. The board may fix a date, not more than two years from the date of issuance, for the earliest maturity of each issue or series of bonds. The final maturity date shall not exceed 40 years from the time of incurring the indebtedness evidenced by each issue or series.

Denomination, interest, etc.

The bonds shall be issued in such denomination as the board may determine, except that no bonds shall be of a less denomination than one hundred dollars ($100), nor of a greater denomination than one thousand dollars ($1,000), and shall be payable on the days and at the place fixed in said bonds, and with interest at the rate specified in such bonds, which rate shall not be in excess of five per centum (5%) per annum, and shall be made payable annually or semiannually, and said bonds shall be numbered consecutively and shall be signed by the chairman of the board, and countersigned by the auditor of said district, and the seal of said district shall be affixed thereto by the clerk of the board. Either or both such signatures may be printed, engraved or lithographed. In case any such officers whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officers before the delivery of such bonds to the purchaser, such bonds and coupons, and signatures or countersignatures shall nevertheless be valid and sufficient for all purposes the same as if such officers had remained in office until the delivery of the bonds.

SEC. 4. Section 16 of the Alameda County Flood Control and Water Conservation District Act is amended to read:

Payment of bonds

Sec. 16. Any bonds issued under the provisions of this act, and the interest thereon, shall be paid by revenue derived from an annual tax or assessment levied as provided in clause (a) or (b) of subdivision 2 of Section 12 of this act No zone nor the property therein shall be liable for the bonded indebtedness of any other zone, nor shall any moneys derived from taxation or assessments in any of the several zones be used in payment of principal or interest or otherwise of the bonded indebtedness chargeable to any other zone.

SEC. 5. Section 17 of the Alameda County Flood Control and Water Conservation District Act is amended to read:

Annual tax levy

Sec. 17. The board shall levy a tax or assessment each year sufficient to pay the interest and such portion of the principal of said bonds as is due or to become due before the time for making the next general tax levy. Such taxes or assessments

shall be levied and collected in the respective zones of issuance together with and not separately from taxes for county purposes, and when collected shall be paid into the county treasury of said Alameda County to the credit of the zone of issuance, and be used for the payment of the principal and interest on said bonds, and for no other purpose. The principal and interest on said bonds shall be paid by the county treasurer of said Alameda County in the manner provided by law for the payment of principal and interest on bonds of said county.

SEC. 6. Section 18 of the Alameda County Flood Control and Water Conservation District Act is amended to read:

Law applicable

Sec. 18. The provisions of law of this State, prescribing the time and manner of levying, assessing, equalizing and collecting county property taxes, including the sale of property for delinquency, and the redemption from such sale, and the duties of the several county officers with respect thereto, are, so far as they are applicable, and not in conflict with the specific provisions of this act, hereby adopted and made a part hereof. Such officers shall be liable upon their several official bonds for the faithful discharge of the duties imposed upon them by this act. All property exempt from taxation for county purposes under the provisions of the Revenue and Taxation Code of the State of California is exempt from taxation for the purposes of this act. Property used for free public libraries and free museums, growing crops, property used exclusively for public schools, and such as may belong to this State, or to any county, city and county, or municipal corporation within this State shall be exempt from assessment, except such lands and the improvements thereon located outside of the county, city and county or municipal corporation owning the same as were subject to taxation at the time of the acquisition of the same by said county, city and county, or municipal corporation; provided, that no improvements of any character whatever constructed by any county, city and county or municipal corporation shall be subject to assessment. All property of a municipal utility district located within the boundaries of the Alameda County Flood Control and Water Conservation District is exempt from both taxation and assessment under this act.

Urgency

SEC. 7. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows: The act governing this district as now worded requires a levy on both real and personal property in order to finance projects. However, since no California court decision as yet has authorized a levy on personal property to finance flood control projects, it is impossible to obtain an opinion from bonding attorneys approving bonds of the district financed in part from levies on personal property. Bonds of the district cannot be traded in the open market or advantageously sold unless they are accompanied by such an opinion. During the

last rainy season flood damage in the areas where bond elections are proposed amounted to an estimated one million eight hundred seventy thousand dollars ($1,870,000), and in order to make bond funds available as soon as possible to prevent further loss and damage to property and county roads, it is necessary that this act take effect immediately.

If the superior judge, by the order granting the stay, commits the person to the custody of any person other than a peace officer, he may, by such order, require a bond for his appearance at the trial.

CHAPTER 3. REGULATION OF AERONAUTICS

Sovereignty

21401. Sovereignty in the space above the land and waters of this State rests in the State, except where granted to and assumed by the United States pursuant to a constitutional grant from the people of the State.

Ownership

21402. The ownership of the space above the land and waters of this State is vested in the several owners of the surface beneath, subject to the right of flight described in Section 21403.

Lawful flight

21403. Flight in aircraft over the land and waters of this State is lawful, unless at altitudes below those prescribed by federal authority, or unless so conducted as to be imminently dangerous to persons or property lawfully on the land or water beneath. The landing of an aircraft on the land or waters of another, without his consent, is unlawful except in the case of a forced landing. The owner, lessee, or operator of the aircraft is liable, as provided by law, for damages caused by a forced landing.

Tort liability

21404. Subject to Section 21406, the liability of the owner or pilot of an aircraft carrying passengers for injury or death to the passengers is determined by the rules of law applicable to torts on the land or waters of this State, arising out of similar relationships.

21405. Subject to Section 21406, the liability of the owner of one aircraft to the owner of another aircraft, or to operators or passengers on either aircraft, for damage caused by collision on land or in the air, is determined by the rules of law applicable to torts on land.

21406. A guest riding in or upon any aircraft without giving compensation, or any other person, does not have any right of action for civil damages against the airman flying the aircraft or against any other person otherwise legally liable for the conduct of the airman, on account of personal injury to, or the death of, the guest during such ride, unless the plaintiff in the action establishes that the injury or death proximately

resulted from the intoxication or wilful misconduct of the airman.

21407. It is unlawful for any person to operate an aircraft in the air, or on the ground or water, while under the influence of intoxicating liquor, narcotics, or other habit-forming drug, or in a careless or reckless manner so as to endanger the life or property of another. In any proceeding charging careless or reckless operation of aircraft in violation of this section, the court in determining whether the operation was careless or reckless shall consider the standards for safe operation of aircraft prescribed by federal statutes or regulations governing aeronautics. Recklessness etc

21408. For any violation of Section 21407, in addition to, or in lieu of, the penalties provided by Section 21019, or as a condition to the suspension of a sentence, the court may prohibit the violator from operating an aircraft within the State for a period not exceeding one year. Violation of the prohibition of the court may be treated as a separate offense under this section or as a contempt of court. Upon a plea of guilty or conviction under Section 21407, the commission shall cause a record of the plea or conviction and of the sentence imposed to be maintained. This section shall not be construed as warrant for the court or any other agency or person to take away, impound, hold, or mark any federal certificate, permit, rating, or license. Aircraft certificate permit, etc

21412. Any certificate, permit, or license required by the United States for an aircraft shall be carried in the aircraft at all times while the aircraft is operating in the State, shall be conspicuously posted in the aircraft where it may be readily seen by passengers or inspectors, and shall be presented for inspection upon the demand of any peace officer, any other officer of the State or of a political subdivision, or member, official, or Posting of aircraft permit, etc

employee of the commission, authorized by Section 21252 to enforce the aeronautics laws, or any official, manager, or person in charge of any airport upon which the aircraft lands, or upon the reasonable request of any person.

Accidents

21413. The commission shall report to the appropriate federal agency all accidents in aeronautics in this State of which it is informed, and shall, insofar as is practicable, preserve, protect, and prevent the removal of the component parts of any aircraft involved in an accident being investigated by it until the federal agency institutes an investigation.

CHAPTER 4. AIRPORTS AND AIR NAVIGATION FACILITIES

Article 1. Assistance to Political Subdivisions

Assistance to political subdivisions

21601. The commission may make available its engineering and other technical services, with or without charge, to any political subdivision or person desiring them in connection with the planning, acquisition, construction, improvement, maintenance, or operation of airports or air navigation facilities, subject to rules promulgated by the commission.

21602 Subject to the terms and within the limits of special appropriations made by the Legislature, the commission may render financial assistance by grant or loan, or both, to any political subdivision or political subdivisions jointly, in the planning, acquisition, construction, improvement, maintenance, or operation of an airport owned or controlled, or to be owned or controlled, by the political subdivision or subdivisions, if the financial assistance has been shown by public hearing to be essential to the proper development or maintenance of a statewide system of airports. Financial assistance may be furnished in connection with federal or other financial aid for the same purpose.

21603. Upon the request of any political subdivision or political subdivisions acting jointly, the commission may act as agent in accepting, receiving, receipting for, and disbursing federal money, and other money public or private, made available to finance, in whole or in part, the planning, acquisition, construction, improvement, maintenance, or operation of a public airport or air navigation facility. 21634 The commission may contract or otherwise provide, by condemnation if necessary, for the removal or relocation of any airport hazard or the removal or the relocation of all private structures, railways, highways, mains, pipes, conduits, wires, cables, poles, and all other facilities and equipment which may interfere with the location, expansion, development, or improvement of the airports and other air navigation facilities or with the safe approach thereto or takeoff therefrom by aircraft, and may pay the cost of the removal or relocation. When exercising its power of removal or relocation, the commission shall pay the cost of removal and relocation of any private structures, railways, mains, pipes, conduits, wires, cables, poles, or any other structure or equipment required to be moved to a new location. main, pipe, conduit, wires, cables, poles, and all other facilities and equipment or other property held for or devoted to a public use shall be exercised only after the court in which the condemnation proceedings are pending finds that the taking or relocation for the public use of the commission is of greater public necessity than the public use for which the property is presently held or used. The court may fix the terms and conditions for the enjoyment of a right of common use, in lieu of taking or relocation, as it determines will best suit the public interest and necessity.

Disposition of property

21636. The commission may dispose of any property, airport, air navigation facility, or portion or interest, acquired pursuant to this article, by sale, lease, or otherwise. The disposal shall be in accordance with the laws of this State governing the disposition of other state property, except that in the case of disposals to any political subdivision or government or the United States for aeronautical purposes, the disposal may be effected in the manner and upon the terms the commission deems in the best interests of the State.

In each case the commission may establish the terms and conditions and fix the charges, rentals, or fees for the privileges or services, which shall be reasonable and uniform for the same class of privilege or service and shall be established with regard to the property and improvement used and the expenses of operation to the State. No person shall be granted any authority to operate the airport other than as a public airport or to enter into any contracts, leases, or other arrangements in connection with the operation of the airport which the commission might not have undertaken under Section 21637. The State may operate an airport only if no acceptable bid is received.

Grant no exclusive right

21639. The commission shall grant no exclusive right for the use of any airport or air navigation facility under its jurisdiction. This section shall not be construed to prevent the making of contracts, leases, and other arrangements pursuant to this article.

The license of any taxpayer shall be automatically suspended upon cancellation of his bond, or if the bond becomes void or unenforceable for any reason, or if the taxpayer fails to pay any taxes or penalties due under this division. The license shall be automatically reinstated if the taxpayer files a valid bond, or pays his delinquent taxes, as the case may be

Upon the petition of any taxpayer whose license has been suspended under this section, a hearing shall be afforded him after five days' notice of the time and place of hearing

Deposit in lieu of bond

24524. In lieu of a bond or bonds a taxpayer, under such conditions as the board may prescribe, may deposit with the State Treasurer an amount of lawful money equivalent to the amount of the bond or bonds or he may deposit bonds or other obligations of the United States, the State of California, or any county or city and county of this State of an actual market value not less than the amount of the bond or bonds fixed by the board.

24525. Upon receipt of a certificate of the board setting forth the amount of a taxpayer's delinquencies, the State Treasurer shall pay to the board the amount so certified from the money deposited with him by the taxpayer or from the amounts received from the sale of bonds or other obligations deposited with the Treasurer by the taxpayer. Securities deposited with the State Treasurer which have a prevailing market price may be sold by him for the purposes of this section at private sale at a price not lower than the prevailing market price thereof.

Article 6. Tax Determination by Board

Deficiency in return

24545. If the board is dissatisfied with the return or returns filed or amount of tax paid to the State by any taxpayer, it may compute and determine the amount to be paid based upon any information available to it. One or more additional determinations may be made of the amount of tax due for one or for more than one month. The amount of tax so determined shall bear interest at the rate of one-half of 1 percent per month, or fraction thereof, from the fifteenth day after the close of the month for which the amount of the tax, or any portion thereof, should have been reported until the date of payment. In making a determination, the board may offset overpayment for a month or months against underpayments for another month or months and against the interest and penalties on the underpayments. If any part of the deficiency for which a determination of an additional amount due is made is found to have been occasioned by negligence or intentional disregard of this division or authorized rules, a penalty of 10 percent of the amount of the determination shall be added, plus interest as above provided. If any part of the deficiency for which a determination of an additional amount due is made is found to be occasioned by

fraud or an intent to evade this division or authorized rules, a penalty of 25 percent of the amount of the determination shall be added, plus interest as above provided. The board shall give to the taxpayer written notice of its determination. The notice may be served personally or by mail; if by mail, service shall be made pursuant to Section 1013 of the Code of Civil Procedure and shall be addressed to the taxpayer at his address as it appears in the records of the board.

Failure to make return

24546. If any taxpayer fails to make a return required by this division, the board shall make an estimate, based upon any information available to it, for the month or months with respect to which the taxpayer failed to make a return of all alcoholic beverages sold in this State by him. Upon the basis of this estimate the board shall compute and determine the amount required to be paid to the State, adding to the sum thus fixed a penalty equal to 5 percent thereof. One or more determinations may be made of the amount of tax due for one or for more than one month. The amount of tax so determined shall bear interest at the rate of one-half of 1 percent per month, or fraction thereof, from the fifteenth day after the close of the month for which the amount of the tax, or any portion thereof, should have been returned until the date of payment. In making a determination the board may offset overpayments for a month or months against underpayments for another month or months and against interest and penalties on the underpayments. If any part of the deficiency for which a determination is made is due to negligence or intentional disregard of this division or authorized rules, an additional penalty of 10 percent of the amount of the determination shall be added. If the neglect or refusal of a taxpayer to file a return as required by this division was due to fraud or an intent to evade the tax, there shall be added to the tax a penalty equal to 25 percent thereof in addition to the 5 percent penalty. The board shall give to the taxpayer written notice of the estimate and determination, the notice to be served personally or by mail in the same manner as prescribed for service of notice by Section 24545.

Petition for redetermination

24547. Any person from whom an amount is determined to be due under Sections 24545 or 24546 or any person directly interested may petition for a redetermination thereof within 15 days after service upon him of notice of the determination. If a petition for redetermination is not filed within the 15-day period, the amount determined to be due becomes final at the expiration thereof. If a petition for redetermination is filed within the 15-day period, the board shall reconsider the amount determined to be due, and if the person has so requested in his petition, shall grant him an oral hearing and shall give him 10 days' notice of the time and place of the hearing. The board may continue the hearing from time to time as may be necessary.

The board may decrease or increase the amount of the determination. The amount of the determination may be increased, however, only if claim for the increase is asserted by the board at or before the hearing.

The order or decision of the board upon a petition for redetermination shall become final 15 days after service upon the petitioner of notice thereof.

All amounts determined to be due by the board under Sections 24545 or 24546 are due and payable at the time they become final, and if not paid when due and payable, there shall be added thereto a penalty of 10 percent of the amount determined to be due.

Any notice required by this section shall be served personally or by mail in the same manner as prescribed for service of notice by Section 24545.

Jeopardy determination

24548. If the board believes that the collection of any amount of tax will be jeopardized by delay, it shall thereupon make a determination of the amount of tax due, noting that fact upon the determination, and the amount of tax shall be immediately due and payable. If the amount of the tax, interest, and penalty specified in the jeopardy determination is not paid, or a petition for redetermination is not filed, within 10 days after the service upon the taxpayer of notice of the determination, the determination becomes final, and the delinquency penalty and interest provided in Sections 24496 and 24499 shall attach to the amount of tax specified therein.

Petition, etc.

24549. The taxpayer against whom a jeopardy determination is made may file a petition for the redetermination thereof with the board within 10 days after the service upon him of notice of the determination, but he shall within the 10-day period deposit with the board such security as it deems necessary to insure compliance with the provisions of this division. The security may be sold by the board at public sale if it becomes necessary in order to recover any amount due under this division. Notice of the sale may be served upon the person who deposited the security personally or by mail in the same manner as prescribed for service of notice by Section 24545. Upon any such sale, the surplus, if any, above the amount due under this division shall be returned to the person who deposited the security.

Period for notice

24550. Except in the case of a fraudulent return or neglect or refusal to make a return, every notice of a determination of an additional amount due shall be given within three years after the date when the amount should have been returned.

Article 7. Enforcement of Tax Liability

Actions for collection

24575. The board may bring such legal actions as are necessary to collect any deficiency in the tax required to be paid, and, upon the board's request, the Attorney General shall bring the actions.

Garnishment

24576. If any taxpayer is delinquent in the payment of any obligations imposed by this division, the board may give notice of the amount of the delinquency by registered mail to all persons having in their possession or under their control any credits or other personal property belonging to the taxpayer, or owing any debts to the taxpayer, at the time of the receipt

by them of the notice. Thereafter any person so notified shall neither transfer nor make other disposition of such credits, personal property, or debts until the board has consented to a transfer or disposition or until 20 days have elapsed from and after the receipt of the notice. All persons so notified shall, within five days after the receipt of the notice, advise the board of all such credits, personal property, or debts, in their possession, under their control, or owing by them, as the case may be.

Certificate prima facie evidence

24577. In any suit brought to enforce the rights of the State with respect to taxes, a certificate by the board showing the delinquency shall be prima facie evidence of the levy of the tax, of the delinquency of the amount of tax, interest, and penalty set forth therein, and of compliance by the board with all provisions of this division in relation to the computation and levy of the tax. In the action a writ of attachment may issue, and no bond or affidavit previous to the issuing of the attachment shall be required.

Special judgment

24578. Whenever any tax, interest, or penalty is not paid when due, the board may file in the office of the County Clerk of Sacramento County or any other county a certificate specifying the amount of the tax, interest, and penalty due, the name and last known address of the taxpayer liable for it, that the board has complied with all the provisions of this division in relation to the computation and levy of the tax, and requesting that judgment be entered against the taxpayer in the amount of the tax, interest, and penalty set forth in the certificate. The county clerk immediately upon the filing of the certificate shall enter a judgment for the people of the State of California against the taxpayer in the amount of the tax, interest, and penalty set forth in the certificate. The judgment may be filed by the county clerk in a loose-leaf book entitled "Special Judgments for State Excise Tax."

Judgment lien

24579. An abstract or copy of the judgment entered under Section 24578 may be recorded with the county recorder of any county, and from the time of such recording, the amount of the taxes, interest, and penalty set forth in the judgment shall constitute a lien upon all the real property owned by the taxpayer in the county or which he may acquire afterwards and before the lien expires, which lien shall have the force, effect, and priority of a judgment lien. Execution shall issue upon such a judgment upon the request of the board in the same manner as execution may issue upon other judgments, and sales shall be held under the execution as prescribed in the Code of Civil Procedure. In all proceedings under this section the board shall act on behalf of the people of the State of California.

Property seizure and sale

24580. Whenever any taxpayer is delinquent in the payment of the tax, the board or its authorized representative may seize any property, real or personal, of the taxpayer, and sell at public auction the property seized, or a sufficient portion thereof, to pay the tax due, together with any penalties imposed for the delinquency and all costs that have been incurred on account of the seizure and sale.

Publication of notice of sale

24581. Written notice of the intended sale, and the time and place thereof, shall be given to the delinquent taxpayer and to all persons appearing of record to have an interest in the property at least 10 days before the date set for the sale by enclosing the notice in an envelope addressed to the taxpayer at his last known residence or place of business in this State as appears upon the records of the board, if any, and depositing it in the United States registered mail, postage prepaid. The notice shall also be published for at least 10 days before the date set for the sale in a newspaper of general circulation published in the county in which the property seized is to be sold. If there is no newspaper of general circulation in the county, the notice shall be posted in three public places in the county for the 10-day period. The notice shall contain a description of the property to be sold, a statement of the amount of the taxes, penalties, and costs, the name of the taxpayer, and the further statement that unless the taxes, penalties, and costs are paid on or before the time fixed in the notice for the sale, the property, or so much thereof as may be necessary will be sold in accordance with law and the notice.

Sale

24582. At the sale the property shall be sold by the board or by its authorized agent in accordance with law and the notice, and the board shall deliver to the purchaser a bill of sale for the personal property and a deed for any real property sold. The bill of sale or deed vests title in the purchaser subject to a right of redemption as prescribed in the Code of Civil Procedure upon sales of real property on execution. The unsold portion of any property seized may be left at the place of sale at the risk of the taxpayer.

Disposition of excess proceeds

24583. If upon the sale the moneys received exceed the amount of all license taxes, penalties, and costs due the State from the taxpayer, the board shall return the excess to him and obtain his receipt. If any person having an interest in or lien upon the property files with the board prior to the sale notice of his interest, the board shall withhold any excess pending a determination of the rights of the respective parties thereto by a court of competent jurisdiction. If for any reason the receipt of the taxpayer is not available, the board shall deposit the excess moneys with the State Treasurer, as trustee for the owner, subject to the order of the taxpayer, his heirs, successors, or assigns.

Remedies cumulative

24584. The remedies of the State provided for in this article are cumulative, and no action taken by the board or Attorney General constitutes an election by the State or any of its officers to pursue any remedy to the exclusion of any other remedy for which provision is made in this division.

Article 8. Overpayments and Refunds

Overpayment

24605. If the board determines that any amount of tax, penalty, or interest has been paid more than once or has been erroneously or illegally collected or computed, the board shall set forth that fact in the records of the board and shall certify

to the State Board of Control the amount collected in excess of what was legally due and the person from whom it was collected or by whom paid. If approved by the State Board of Control the excess amount collected or paid shall be credited on any amounts then due from the person under this division, and the balance shall be refunded to the person, or his successors, administrators, or executors.

Claims for refund or credit

24606. No refund shall be allowed unless a claim therefor is filed with the State Board of Equalization within three years from the fifteenth day after the close of the monthly period for which the overpayment was made, or, with respect to determinations made under Sections 24545 and 24546, within six months after the determinations become final, whichever period expires the later. No credit shall be allowed after the expiration of the period specified for filing claims for refund unless a claim for credit is filed with the board within such period. Every claim for refund or credit shall be in writing and shall state the specific grounds upon which the claim is founded.

Waiver

24607. Failure to file a claim within the time prescribed in this article constitutes a waiver of all demands against the State on account of the overpayment.

Notice of disallowance

24608. Within 30 days after disallowing any claim in whole or in part, the board shall serve written notice of its action on the claimant, such service to be made as provided by Section 24545.

Interest

24609 Interest shall be computed, allowed, and paid upon any overpayment of any amount of tax at the rate of one-half of 1 percent per month from the fifteenth day of the calendar month following the monthly period for which the overpayment was made, but no refund or credit shall be made of any interest imposed upon the claimant with respect to the amount being refunded or credited.

The interest shall be paid:

(a) In the case of a refund, to the fifteenth day of the calendar month following the date upon which the claimant is notified by the board that a claim may be filed or the date upon which the claim is certified to the State Board of Control, whichever date is the earlier.

(b) In the case of a credit, to the same date as that to which interest is computed on the tax or amount against which the credit is applied.

24610. If the board determines that any overpayment has been made intentionally or by reason of carelessness, it shall not allow any interest thereon

Suit to prevent collection of tax prohibited

24611. No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action, or proceeding in any court against this State or against any officer of the State to prevent or enjoin the collection of any tax sought to be collected.

Action on claim for refund, etc

24612. No suit or proceeding shall be maintained in any court for the recovery of any amount alleged to have been

erroneously or illegally assessed or collected unless a claim for refund or credit has been duly filed.

24613. Within 90 days after the mailing of the notice of the board's action upon a claim for refund or credit, the claimant may bring an action against the board on the grounds set forth in the claim in a court of competent jurisdiction in the County of Sacramento for the recovery of the whole or any part of the amount with respect to which the claim has been disallowed.

24614 If the board fails to mail notice of action on a claim within six months after the claim is filed, the claimant may, prior to the mailing of notice by the board, consider the claim disallowed and bring an action against the board on the grounds set forth in the claim for the recovery of the whole or any part of the amount claimed as an overpayment.

24615. Failure to bring suit or action within the time specified in this article constitutes a waiver of all demands against the State on account of any alleged overpayments.

24616. If judgment is rendered for the plaintiff, the amount of the judgment shall first be credited on any taxes due from the plaintiff, and the balance shall be refunded to the plaintiff.

24617. In any judgment, interest shall be allowed at the rate of 6 percent per annum upon the amount found to have been illegally collected from the date of payment of the amount to the date of allowance of credit on account of the judgment or to a date preceding the date of the refund warrant by not more than 30 days, the date to be determined by the board.

24618. A judgment shall not be rendered in favor of the plaintiff in any action brought against the board to recover any tax paid when the action is brought by or in the name of an assignee of the taxpayer paying the tax or by any person other than the person who has paid the tax.

Action on erroneous refund, etc

24619. The Controller may recover any refund or part thereof which is erroneously made and any credit or part thereof which is erroneously allowed in an action brought in a court of competent jurisdiction in the County of Sacramento in the name of the people of the State of California, and the action shall be tried in the County of Sacramento unless the court, with the consent of the Attorney General, orders a change of place of trial. The Attorney General shall prosecute the action, and the provisions of the Code of Civil Procedure relating to service of summons, pleadings, proofs, trials, and appeals are applicable to the proceedings.

Illegal determination

24620. If any amount has been illegally determined, the board shall certify this fact to the State Board of Control and the latter shall authorize the cancellation of the amount upon the records of the board.

24873. For the purpose of complying with the General Ceiling Price Regulation, Economic Stabilization Agency, or with any other applicable federal law, ruling, rule, or regulation respecting prices, or for the purpose of increasing a price or prices when an increase in ceiling price is authorized by any such law, ruling, rule, or regulation, price schedules and fair trade contracts, or changes therein, may be filed with the board at any time and shall become effective immediately upon filing If filed because of an authorized increase in ceiling price, the applicable price schedule and fair trade contract, or changes therein, shall be filed with the board not later than the twentieth day of the month following the month in which the increase in ceiling price is first authorized.

Publication of the price schedules or changes therein shall be made as provided in Section 24875 on or before the first day of the month following the month in which the price schedules or changes therein are filed with the board. The price schedules or changes therein shall contain the statement: "Filed to comply with federal pricing laws and regulations" or "Filed to increase prices as first authorized on (inserting the date)." Notwithstanding any other provision of this chapter, price schedules and fair trade contracts, or changes therein, made effective pursuant to this section shall remain in effect until changed pursuant to this chapter.

Public inspection

24874. The board shall make price schedules or changes therein, or a composite thereof, available for public inspection.

Publication of price schedules

24875. Except for wine growers selling only to consumers at their licensed premises, every person filing a price schedule or change therein shall, at least once on or before the first of the month in which effective, publish the price schedule or change in a trade journal or industry price book printed and published in this State and of general circulation among licensees affected in this State In case of industry price books which are of general circulation among licensees in only some of the trading areas, the publication shall be in one industry price book of general circulation in each trading area.

Mailing alternative

Instead of publishing, the licensee may mail his price schedule or any changes therein to licensees affected. Schedules or supplemental schedules or changes therein shall be deposited in the United States Post Office before the date required for publication. If the affidavit prescribed herein is not filed before the date required for publication, the schedule, supplemental schedule, or changes therein are not effective until the affidavit is filed. A price filed after the twentieth and on or before the last day of any month becomes ineffective on the last day of the first month in which effective, and the applicable price shown on the last regular price schedule on file with the board shall

become re-effective unless the last regular price is changed pursuant to this chapter. Within five days after the mailing, the licensee shall file with the board a list of names and addresses of the licensees to whom the price schedules or changes are mailed, together with an affidavit of the person who deposited the schedules in envelopes addressed to the licensees whose names and addresses are set forth in the list. The affidavit is prima facie evidence of the facts stated therein. Same. Filing

Wine growers selling only to consumers at their licensed premises need not publish or mail their price schedules but shall post the schedules in that portion of their premises where sales are made where they can be readily inspected by consumers. Exception

24876. No licensee shall make any close-out sale, or sale when the wine or container is damaged or deteriorated in quality, under the implied conditions set forth in Section 24751 except after receiving permission from the board, which shall determine whether the proposed sale is bona fide. Close-out sales, etc.

A "close-out" sale within the meaning of this section means a bona fide close-out of a particular item of wine in the California market. Label changes which do not pertain to the class or type of wine, the vintage date, or the special or gift package, shall not be deemed to be "close-out."

Permission to make a close-out sale pursuant to Section 24751 shall be granted only if it appears that the stock of wine sought to be closed out has been on the market in this State for a period of not less than six months and was not brought into this State for the purpose of offering it, or any part of it, at a close-out sale.

Permission to make a sale of wine pursuant to Section 24751, when the wine or container is damaged or deteriorated in quality, shall be granted only if it appears that the facts of the case warrant the sale of the wine affected as damaged or deteriorated.

Petitions for permission to make close-out sales, or sales of damaged or deteriorated wine, shall state a full and complete description of the wine involved, in such detail as to distinguish the wine from all others, and shall include the federal serial numbers, if any, of the cases involved. The number of cases or bottles involved shall also be stated. The petitioner shall agree not to sell or handle the item closed out for at least six months after the close-out.

24877. The sale of any wine by a licensee in violation of the Unfair Practices Act is prohibited and is a violation of this chapter. Unfair Practices Act

24878. Except as otherwise provided in this chapter, the giving of, or offering to give, any rebate, free goods, combination deal, premium, allowance, unauthorized discount, floor stocks adjustment, or any other thing or service of value, directly or indirectly, in connection with the sale of wine subject to this chapter, or, in any other way circumventing this chapter Rebates, etc., prohibited

to effect a sale at a price other than the price shown in the applicable price schedule, is a violation of this chapter.

Exceptions

This section does not prohibit any cooperative buying group which on January 1, 1949, held a federal basic permit or was licensed by the board from giving, or its members from receiving, dividends or other adjustments from the general fund of the cooperative buying group. This chapter does not prohibit the furnishing of samples, advertising matter, and other selling aids as authorized by this division and rules issued pursuant to this division.

Returns to seller

24879. A retailer may return wine to the seller and the seller may accept the return thereof, but the seller may not sell wine to the retailer for a period of one year after the date the returned wine is accepted or received unless the wine is returned in exchange for the identical quantity, brand, and item of wine, or unless it is returned pursuant to court order.

Suspension and revocation of licenses

24880. For a violation of any of the provisions of this chapter or rules adopted pursuant to this chapter, the board may suspend or revoke a license as follows:

(a) For a first offense, not exceeding 10 days' suspension.

(b) For a second offense, not exceeding 30 days' suspension.

(c) For a third offense, the board may suspend or revoke a license.

24881. The board may adopt such rules as it determines to be necessary for the administration of this chapter.

Chapter 12. Beer Price Posting and Marketing Regulations

Filing of price schedule

25000. Each manufacturer, importer, and wholesaler of beer shall file and thereafter maintain on file with the board, in triplicate and in such form as the board may provide, a written schedule of selling prices charged by the licensee for beer sold and distributed by him within the State for delivery and use therein.

Changing of schedule

25001. The schedule of prices filed may be changed or modified from time to time by the licensee filing it by filing with the board either a new and complete schedule of prices or an amendment thereto of changed or modified prices, as the board may by rule require.

Date schedules effective

25002. The first schedule of prices filed by a licensee shall be effective immediately upon filing, but an amendatory schedule or amendments to a prior filed schedule is not effective until ten (10) days after the filing date thereof, except that if any licensee has filed a new schedule or amendments to a prior filed schedule to meet lower posted and filed competing prices in a trade area, and the prices thus posted are not lower than the competing prices sought to be met, the new schedule or amendments shall go into effect immediately if the competing prices are already effective, or at the same time as the competing prices become effective.

Public inspection

25003. Filed price schedules shall be subject to public inspection and shall not in any sense be considered confidential.

Each filing licensee shall retain in his licensed premises for public inspection a copy of his effective posted and filed schedule.

Departure from schedule a misdemeanor

25004. Upon the filing of an original schedule of prices and after the effective date of any schedule of amendatory prices, all prices therein stated shall be strictly adhered to by the filing licensee, and any departure or variance therefrom by a licensee is a misdemeanor. Each sale or transaction involving a violation of posted prices under this chapter is but a single offense or violation of this chapter regardless of the number of articles covered by the sale or transaction.

25005. Any director, officer, agent, or employee of any licensee who knowingly assists or aids in the violation of this chapter or any effective posted price or any rule of the board passed to carry out the provisions of this chapter is guilty of the violation equally with the licensee.

Adoption of rules, hearing

25006. The board may adopt such rules, including but not limited to rules respecting beer price posting, as will foster and encourage the orderly wholesale marketing and wholesale distribution of beer, but no such action shall be taken by the board except after public hearing and ten (10) days notice to all licensed manufacturers of beer in California of the time and place of the hearing and of the character of the action intended to be taken by the board.

Functional classes

25007. No manufacturer, importer, or wholesaler mentioned in this chapter is prohibited the right of choice of customers or prohibited from dividing his customers into functional classes and establishing different prices for the same article for the different functional classes, such different functional classes being based upon the manner in which the classes sell beer, as wholesaler or retailer.

Trade association may have violation enjoined

25008. Any trade association having as members licensed beer manufacturers representing more than half of the volume of beer produced and sold in California for three months prior to the date of a filing of any suit authorized in this chapter may maintain an action to enjoin a continuance of any act or acts in violation of this chapter or any rule adopted pursuant thereto and, if injured thereby, for the recovery of damages. If in the action the court finds the defendant is violating or has violated any of the provisions of this chapter or any rule adopted pursuant thereto, the court shall enjoin the defendant from a continuance or further violation thereof. It shall not be necessary that actual damages to the plaintiff be alleged or proved in the action, and proof of a violation of this chapter or any rule adopted pursuant thereto shall be presumptive evidence of an intention to continue to violate this chapter or any such rule.

Records etc., as evidence

25009. Any defendant in any action brought under this chapter or any person who may be a witness therein under Sections 2021, 2031 or 2055 of the Code of Civil Procedure and the books and records of any such defendant or witness may be brought into court and the books and records may be introduced by reference into evidence, but no information so obtained may

be used against the defendant or any such witness as a basis for a misdemeanor prosecution under this chapter.

Suspension or revocation of license

25010. The board shall not suspend or revoke the license of any licensee for a violation of the provisions of this chapter or a rule adopted pursuant thereto unless he has committed, within a period of one year, at least three separate violations of the provisions of this chapter or of any rule adopted pursuant thereto, and the violations have been proved by any of the following methods:

(a) A conviction for misdemeanor.

(b) A judgment in a civil suit for injunction as provided in this chapter.

(c) A finding of the board, if a hearing is held in accordance with Chapters 7 and 8 of this division.

25172. Any unlicensed person or any on- or off-sale general licensee who has in his possession any distilled spirits in packages or containers larger than one gallon is guilty of a misdemeanor, unless the distilled spirits have been sold and delivered to the person or licensee by the holder of an industrial alcohol dealer's, distilled spirits manufacturer's, brandy manufacturer's, or rectifier's license for use in the trades, professions, or industries

25173. Any industrial alcohol dealer, distilled spirits manufacturer, brandy manufacturer, or rectifier who delivers undenatured ethyl alcohol or other distilled spirits in packages of more than one gallon for use in the trades, professions, or industries is guilty of a misdemeanor, unless the packages bear a label plainly stating the true and correct name and address

of the industrial alcohol dealer, distilled spirits manufacturer, brandy manufacturer, or rectifier.

Seizure

25174. The board may seize any distilled spirits sold served, removed, possessed, delivered, or held in any manner in violation of Sections 25170 to 25173, inclusive.

Sale of product labeled whiskey

25175. Any person who sells at retail any potable spirituous liquor product labeled as whiskey, including blended whiskey and blends of straight whiskeys, except products containing 20 or more percent of straight whiskey or whiskeys which have been aged in charred oak containers for four or more years after distillation and before bottling is guilty of a misdemeanor, except that this section does not prohibit the sale at retail of unaged corn whiskey, when so labeled, or the sale at retail of gins, brandies, rums, cordials, liqueurs, bitters, or other distilled liquor products, or products compounded of distilled spirits and other materials, when in no wise labeled as whiskey or blended whiskey or blends of straight whiskeys, or the sale at retail of Scotch whiskies.

25179. Every on-sale general licensee shall provide at all service counters where distilled spirits are poured from bottles the necessary facilities for the destruction of bottles so that persons emptying distilled spirits bottles may immediately destroy them.

Same Penalty

25180. Any alcoholic beverage licensee, except a manufacturer or rectifier of distilled spirits, who is found in possession of an emptied distilled spirits bottle which has not been destroyed is guilty of a misdemeanor and, in addition to any other punishment provided by law, shall be fined five dollars ($5) for each emptied distilled spirits bottle found on his premises

Article 2. Beer

Requirement of label

25200. All beer sold in this State shall have a label affixed to the package or container thereof, upon which shall appear the true and correct name and address of the manufacturer of the beer, and also the true and correct name of the bottler of the beer if other than the manufacturer. No manufacturer, importer, or wholesaler of beer shall use a container or carton as a package or container of a beer other than such beer as is manufactured by the manufacturer whose name or brand of beer appears upon the container or carton, or use as a package

or container of a beer a container or carton which bears the name of a manufacturer of beer or the brand of any beer other than those of the manufacturer of the beer contained in the container or carton.

Single-trip cartons

25201. The provisions of Section 25200, with respect to corrugated paper cartons commonly known as single-trip cartons and used as a package for beer, shall apply during the continuation of hostilities in any wars in which the United States may become engaged, except during such time as the manufacturers representing the major part of the production of beer in California during the calendar year next preceding the filing of the petition file with the board a petition stating a sufficient supply of such corrugated paper cartons is not available to the California brewing industry to permit compliance with Section 25200 in connection with such containers or cartons, and the board upon hearing finds the facts of the petition to be true and this finding remains standing and unrevoked. The board shall record in its records its decision and conclusion on the petition.

Obliteration of brand names etc

25202. Manufacturers' names, brand names, print, or markings first placed on returnable beer containers or cartons made of wood or fiber board shall not be obliterated, mutilated, or marked out without the written consent of the manufacturer whose name, brand, or printed markings is to be obliterated, mutilated, or marked out. 25205. Whenever a draught beer is given, sold, or dispensed by an on-sale licensee under any secondary brand name or label, the tap sign or draught beer signs required by Section 25613 to be displayed shall also contain the name and address of the manufacturer or bottler of the draught beer so given, sold, or dispensed by the on-sale licensee, which name and address shall be displayed in the same manner and with the same effect and purpose as the brand name.

25206. No retailer shall dispense any draught beer upon which the proper tap sign or draught beer sign is not displayed or the manufacturer or bottler of which has not complied with this article.

Single-trip beer bottles

25209. Empty single trip beer bottles shall not be returned to a beer manufacturer or wholesaler or offered for return to a beer manufacturer or wholesaler by or for any licensee either alone or mixed with returnable beer bottles. Nothing contained in this section prohibits a manufacturer of glass from accepting return of such bottles to be used as cullet.

25210. As used in this article "single trip beer bottles" means any bottle as described in Exhibit B-12 and B-13 of Schedule B to Limitation Order L-103 of the War Production Board as such order was amended January 4, 1943, and as set forth in Volume 8, Number 2, pages 117 to 119, inclusive, of the Federal Register, and also includes bottles which, before their first use, are of a pressure resistance or industrial use or reuse less than that of the stubby, steinie, export, or select standard returnable beer bottle used principally and generally to bottle or contain beer in the malt beverage industry in the United States on January 4, 1943.

25211. Single trip beer bottles used by licensees shall be as described in Exhibit B-12 or B-13 mentioned in Section 25210 or shall be so designed as to contour, shape, or other external characteristics as to be reasonably distinguishable from the steinie, export, or select standard returnable bottles mentioned in Section 25210 and shall be lettered plainly on shoulder or face, "not to be refilled," or "no return," or language of similar import.

Only dry wine produced entirely from grapes grown within the Counties of Sonoma, Napa, Mendocino, Lake, Santa Clara, Santa Cruz, Alameda, San Benito, Solano, San Luis Obispo, Contra Costa, Monterey, and Marin may be labeled with the words "California central coast counties dry wine." It is unlawful to label any other wine with a label containing the words "California central coast counties dry wine."

The board may seize wine labeled in violation of this section, regardless of where found.

was being, or was to be, used contrary to the provisions of this division.

25368. If the lienholder, mortgagee, or vendor proves the facts set forth in Section 25367, the court shall order the alcoholic beverages or other property released to him if the amount due to him is equal to, or in excess of, the value of the alcoholic beverages or other property. If the amount due to him is less than the value of the alcoholic beverages or other property, the alcoholic beverages or other property shall be sold at public auction by the board, and the remainder of the proceeds of the sale, after payment of the balance due on the purchase price, mortgage, or lien, shall be deposited in the State Treasury.

55801. Territory not contiguous with the district may be annexed to the district if the board determines that water may be efficiently and economically supplied to the territory from the existing district distribution system. No parcel of noncontiguous territory which contains less than 10 privately owned acres may be annexed to any district.

Who may petition

55802. The holders of title, or evidence of title, to one-half or more of the land sought to be added may file with the board a petition in writing praying that the land be added to the district.

55803. The county assessment roll last equalized at the time the petition is filed, shall be conclusive evidence as to the holders of title, or evidence of title, to the land.

55804. The petition, which may consist of any number of separate instruments, shall set forth and describe the boundaries of the proposed addition, and pray that the land within the boundaries be added to the district. 55806. No defect in the contents of the petition or in the notice, or publication of the notice, shall vitiate any proceedings, if the petition has a sufficient number of qualified signatures attached thereto.

Notice

55822. The notice shall also contain the text of the petition, but not more than five of the signers' names need be published if the total number of names is stated.

55823. At the time fixed for the hearing the board shall hear the petition, together with the written protests which have been filed by or on behalf of the owners of taxable property situated within the district, or within the proposed addition thereto, and may adjourn the hearing from time to time, not exceeding four weeks in all. Hearing

55824. At the hearing the board may make such changes in the proposed boundaries of the territory sought to be added as may be advisable, but the board shall not modify the boundaries so as to exclude any territory which in its opinion will be benefited by being added to the district. Boundary modification

55825. Upon the hearing the board shall find as to the sufficiency of the petition, as to whether the addition to the district of the land as described in the petition, or as the boundaries have been modified, will be for the best interests of the district, and its decision shall be final and conclusive. Decision

55826. If the board finds that the addition to the district of the lands as described in the petition, or as the boundaries have been modified, will not be for the best interests of the district, it shall reject the petition.

Article 3. Election

55840. At the expiration of the time at which protests may be filed, if none be filed, or if protests be filed and after hearing be denied, then the board shall be deemed to have acquired jurisdiction to further proceed, and the board may grant the petition, in whole or in part, and shall fix the boundaries of the territory sought to be added. Jurisdiction to proceed

55841. After having acquired jurisdiction to proceed, the board shall, by resolution, provide for and order the holding of a special election in the district and in the proposed addition, to determine whether or not the territory in the proposed addition shall be added to the district. Resolution for special election

No other notice of election need be given.

Inclusion order

55846. If at the election a majority of the votes cast in the district then existing and a majority of the votes cast in the territory sought to be added are in favor of the addition, the board shall enter an order to that effect upon its minutes declaring the territory added to the district, and from and after the date of the order, the territory shall be deemed added to and shall form a part of the district, subject to all the rights, privileges, powers and responsibilities set forth in this division and necessarily incident thereto.

Article 4. Inclusion Subject to Conditions

Inclusion conditional on bond issue

55860. If the board deems it necessary, because of the lack of sufficient moneys in the funds of the district to provide adequate water, construct necessary plants and distributing systems, or properly serve the territory sought to be added, or for any other reason, to make the addition of the new territory conditional upon the voting and issuance of additional bonds, the board may, in its resolution or ordinance granting the petition, or a part thereof, and calling an election upon the proposition of adding new territory to the district, order that the election shall be upon the joint proposition of adding new territory and of incurring an indebtedness by the issuance of bonds of the district as it will exist if the new territory is added.

55863. Notice of the election and all matters in connection with the election shall be given and conducted in the manner provided, where the proposition is to be upon the sole question of the adding of new territory.

Bonds chargeable exclusively to new territory

55864. If the board finds that the proposed improvements are necessary to provide adequate water or to properly serve the territory sought to be annexed but will not be of district-wide benefit, the board may, in its resolution or ordinance granting the petition, and calling an election upon the proposition of adding new territory to the district order that the election shall be upon the joint proposition of adding new territory and of incurring an indebtedness by the issuance of bonds of the district, which bonds shall constitute obligations chargeable exclusively to the new territory.

55865 The proposition to be voted upon in this event shall be: "Shall the territory described in the resolution of the board of __ adopted on the _____ __ day of _____, 19 __, be added to _____ County Waterworks District No __ ___, and shall the district incur a bonded indebtedness in the sum of ___ ___ dollars ($_____), which bonds shall be chargeable exclusively to the territory added, for the purpose of (stating the purposes for which the amount so raised is to be used)?"

Applicable law re annexation

55866. In every respect not in conflict with Sections 55864 and 55865, the provisions of this chapter shall govern the conduct of the annexation proceedings

Inclusion order

55867. If at the election a majority of the votes cast in the district then existing and a majority of the votes cast in the territory sought to be added are in favor of the proposition of adding new territory and of incurring the bonded indebtedness, then the board shall enter an order to that effect upon its minutes, declaring the new territory added to the district.

55868. From and after the date of the order the territory shall be deemed added to and shall form a part of the district subject to all the rights, privileges, powers and responsibilities set forth in this division and necessarily incident thereto and the board may thereupon issue bonds of the district (as it will exist after the addition of the new territory) or bonds of the district chargeable exclusively to the newly added territory, as the case may be, for the amount voted upon at the election.

Applicable law re bonds

55869. The provisions of this division for the form of bonds, issuance and sale of bonds, the levying and collecting of taxes for their payment and of other matters relating to bonds of the district shall govern in the case of these bonds; except, that if the bonds are chargeable exclusively to the newly added territory, taxes for the payment of principal or interest shall be levied solely upon the taxable property in that territory.

County assessor's certificate

55885. Upon the filing of the petition, the clerk shall present it to the county assessor, who shall within ten (10) days issue and file a certificate with the clerk as to whether the petition has been signed by the holders of title or evidence of title to all of the land within the boundaries described and set forth in the petition.

Board's determination

55886. At its first regular meeting following the filing of the certificate by the county assessor, the board shall ascertain whether the petition in all respects complies with the requirements therefor, except that the certificates, acknowledgments and affidavits mentioned in this chapter shall be conclusive evidence of the sufficiency of the signatures to the petition, and as to whether the owners of title, or evidence of title, to all of the land in the district have signed the petition.

55887. The board shall determine whether the addition to the district of the land sought to be annexed will be for the best interests of the district and, if it finds that the addition to the district will not be for the best interests of the district, it shall reject the petition.

Special election

55888. If the petition complies with the requirements, the board at such meeting, or at its next succeeding regular meeting, shall call a special election within the boundaries of the existing district, to vote upon the question of whether the land described in the petition shall be added to the district.

From and after the date of the order the territory shall be deemed added to and shall form a part of the district subject to all the rights, privileges, powers and responsibilities set forth in this division and necessarily incident thereto and the board shall be authorized and empowered to issue bonds of the district authorized at the election. Inclusion order

PART 10. STATE POSTWAR CONSTRUCTION LAW OF 1946

CHAPTER 1. GENERAL

15750. This part may be cited as the State Postwar Construction Law of 1946. Short title

15751. In enacting this part the Legislature does not approve or disapprove any of the projects or buildings mentioned in the "over-all priority lists" or supplemental "balance of program" lists set forth in the Statement of Capital Expenditures Required by State Agencies Submitted by Director of Finance to the First Extraordinary Session Fifty-sixth Legislative Session, January, 1946, as printed in the Senate Journal for January 7, 1946, beginning at page 26 and in the Assembly Journal for January 7, 1946, beginning at page 36; but the Legislature commits such approvals and the establishment of priorities to the State Public Works Board. Legislative policy

The Legislature realizes that the Statement of Capital Expenditures Required by State Agencies includes proposals for the expenditure of many millions of dollars for projects not designed or calculated to ameliorate the intolerably overcrowded and distressed living conditions at our hospitals and other institutions for the care of the mentally ill and other wards of the State, and therefore directs the State Public Works Board in the exercise of its powers and duties to give prime consideration to the needs of these institutions, and promptly rectify such conditions and allow the undertaking of no other project at a time, in a manner, or under conditions that will or may impair or retard the expeditious and complete attainment of these objectives for the wards of the State.

The appointed Members of the Legislature constitute a legislative interim committee on the subject of this part with all the powers and duties imposed upon such committees by the Joint Rules of the Legislature.

Compensation and expenses

15771. The members of the board and of the interim committee shall receive no compensation for their services under this part, but shall be reimbursed for their actual and necessary expenses incurred in connection with the performance of their duties prescribed by this part, to be paid out of the money made available to the director for that purpose.

Unfair tax burden

Legislative purpose

2021. The conditions set forth in Section 2020 vitally concern the health, peace, safety and general welfare of the people of this State. It is declared to be the policy of this State to aid agricultural producers in preventing or correcting adverse marketing conditions, improving existing marketing conditions, expanding existing markets, promoting new or broader markets, developing more orderly or efficient or equitable methods in the marketing of agricultural commodities and thereby to aid agricultural producers to achieve and maintain a purchasing power at an equitable and reasonable level.

Public interest

2022. The production and marketing of agricultural commodities by producers within this State is declared to be affected with a public interest. The provisions of this chapter are enacted in the exercise of the police powers of this State for the purpose of protecting the health, peace, safety and general welfare of the people of this State.

Figs

2023. By reason of the climatic and other conditions relating to the production and marketing of figs for canning purposes no proration program under this chapter shall be established for figs for canning purposes.

Grapes

2024. By reason of the climatic conditions and other factors relating to the production of grapes therein no proration program shall be applicable to grapes in Sonoma, Napa, Mendocino, Lake, Santa Clara, Santa Cruz, Alameda, San Benito, Solano, San Luis Obispo, Contra Costa, Monterey, and Marin Counties, or any of them.

2118. If the commission does not concur with the determination of the director and determines that the proposed zone and marketing program are consistent with the provisions of this chapter the commission may request the director to hold a public hearing thereon. Prior to holding the hearing the director may require the petitioners to file with the department a good and sufficient undertaking to cover the probable cost of conducting the hearing and instituting a marketing program. Costs

2119. Prior to holding a public hearing upon a proposed proration zone and a proposed marketing program the director shall establish a list of producers of the agricultural commodity affected within the area comprising the zone. (a) The name and mail address of the handler.

(b) The quantities of the commodity to be affected, handled by the handler in the marketing season next preceding the filing of the report, together with a reasonable determination of the quantity so handled which was produced within the proposed boundaries of the zone.

The lists of producers shall be filed by handlers within 10 days from the last date of publication of the notice.

Lists of producers

2121. In addition the director may obtain lists of producers affected, whenever and in such manner as he may deem necessary or advisable for the purpose of checking, comparing or correcting such lists. The director shall maintain a current list of producers based upon the records of operations under each marketing program. Such producer list shall, subject to any proper corrections, be final and conclusive in making determinations relative to the assent by producers upon a marketing program.

Producer's name on list

2122. Any producer producing the commodity affected by any proposed or existing marketing program whose name does not appear upon the director's list of producers affected may have his name established thereon by filing with the director a signed statement advising that he produced such commodity in the next preceding season and giving the quantity produced and the quantity delivered into primary channels of trade in such season.

Notice of hearing

2123. Notice of the public hearing shall be mailed to a list of producers within the proposed zone at least 10 days prior thereto. The list of producers shall be established in accordance with the provisions of Sections 2119, 2120, 2121, and 2122. Also, a notice of such public hearing shall be given at least 10 days prior thereto by publication in a newspaper of general circulation within the area proposed as the zone. In case the proposed proration zone includes areas that are noncontiguous the director shall hold a hearing in each. At the public hearing the director shall receive evidence and testimony offered by the petitioners in support of the proposed proration zone and the proposed marketing program and testimony and evidence from any interested person in support of or in opposition thereto. All testimony at the hearings shall be under oath.

Hearing

2124. The hearings may be adjourned from time to time and from place to place as the circumstances may require. For the purpose of procuring additional evidence, facts, and data, petitioners or opponents shall, upon proper motion, be granted a continuation of any hearing by the director for a period not exceeding five days. A transcript of the proceedings at all such hearings shall be made by the director and shall be open to inspection by any interested party. Adjournment, etc

2125. All evidence and exhibits and all facts and data used directly or indirectly by the director, or introduced at a hearing, shall within a reasonable time after being used or introduced be available at the office of the commission to all interested parties. Evidence, etc., available

2126. The director, with the approval of the commission, may decline to hold a public hearing upon a proposed proration zone and a proposed marketing program if he determines and is satisfied that a public hearing cannot be held within a reasonable time in advance of the harvesting or the beginning of the marketing season for the agricultural commodity so as to permit the formulation and establishment of an equitable and effective marketing program for the marketing season. Refusal to hold hearing

2127. Before issuing a marketing program for the written assent of producers, which contains provisions for correlating the supply of the agricultural commodity affected with market demands therefor by means of restrictions upon the total quantity of the commodity or restrictions upon the total quantity of any grade, size, quality or condition thereof, which restrictions have the effect of limiting the total quantity of the commodity which may be marketed during any marketing season and which restricted portion of the commodity might otherwise be marketed by producers in compliance with other laws of this State or of the United States or in compliance with established commercial practice during the marketing season, the director shall find with respect to the marketing program that: Requirements of program

(a) The program will tend to re-establish or maintain such level of prices for the agricultural commodity as will provide a purchasing power for the commodity which is adequate to maintain in the business of producing the commodity such number of producers as is required to provide such supply of the quantities and qualities of the commodity as is necessary to fulfill the normal requirements of consumers.

(b) The program will tend to approach such equality of purchasing power at as rapid a rate as is feasible in view of the market demand for the commodity.

(c) The program is in conformity with the provisions of this chapter and will tend to effectuate the declared purposes and policies of this chapter.

(d) The program will protect the interest of consumers of the commodity through the exercise of the powers of this chapter only to such an extent as is necessary to establish the level of purchasing power described in subdivision (a) of this section.

Same Factors to be considered

2128. In making the findings required by Section 2127, the director shall take into consideration all facts available to him with respect to the following economic factors:

(a) The quantity of the agricultural commodity available for distribution.

(b) The quantity of the agricultural commodity normally entered into primary channels of trade.

(c) The necessary costs of producing the agricultural commodity as determined by available surveys or other facts.

(d) The purchasing power of consumers as indicated by available reports and indices.

(e) The level of prices of other commodities which compete with or are utilized as substitutes for the agricultural commodity.

(f) The level of prices of other commodities, services, and articles which producers commonly purchase.

Same

2129. Before issuing a marketing program, for the written assent of producers, which contains provisions for the purpose of regulating the flow of the commodity, or any grade or size thereof, to market without restricting the total quantity which may be marketed during the season, or which marketing program provides for the establishment of grade, size, quality or condition specifications or for uniform grading and inspection or for advertising and trade promotion, the director shall find with respect to the program that:

(a) The program will tend to attain the objectives sought by the program.

(b) The program is in conformity with the provisions of this chapter and will tend to effectuate the declared purposes and policies of this chapter.

(c) The program will protect the interests of consumers in that the powers of this chapter are being exercised only to the extent necessary to attain the objectives of the program.

Bases for findings

2130. In making any findings pursuant to Section 2129, the director shall base his findings upon the facts, testimony and evidence received at the public hearing together with any other relevant facts available to him from official publications or institutions of recognized standing.

Included areas

2131. In addition to either of the applicable findings of Sections 2127 or 2129, the director shall find that the proposed proration zone includes all of the area within this State reasonably necessary to carry out and attain the objectives of this chapter.

Additional territory

2132. If, at a public hearing which includes a consideration of the establishment of the boundaries of a zone, it shall appear that the inclusion of territory additional to that described in the petition being heard, is necessary to the proper administration or enforcement of the proposed program the director shall postpone further proceedings until notice shall have been given by the director to the producers within the additional territory in the manner provided for in Sections 2117, 2118, 2123, 2124,

2125, and 2126. Thereafter the director may conclude the hearing, and prepare his findings.

Submission of findings, etc.

2133. The director shall submit his findings, together with a summary of the evidence received at any hearing authorized in this chapter to the commission for approval prior to the establishment of any zone or issuance of any marketing program. Upon the approval of the findings by the commission, the director shall establish such zone and issue such marketing program for the written assent of producers. If the commission does not approve of the findings of the director the commission shall examine the evidence and prepare its own findings and thereupon instruct the director to proceed in accordance with such findings.

Separate corporate entity

2134. Each zone shall constitute a separate public corporate entity and its affairs shall be managed by a program committee appointed in accordance with this chapter.

Article 6. Change of Zone Boundaries

Public hearing

2156. Upon the receipt of a petition to change the boundaries of any proration zone, filed by producers producing not less than 10 percent of the production of the agricultural commodity affected produced within the boundaries of the zone established, or within the boundaries of the area proposed to be added, requesting that the existing marketing program or a proposed marketing program as amended be made applicable to the entire area included within the proposed changed boundaries of the proration zone, the director shall, on behalf of the commission, hold a public hearing, as provided in Article 5 of this chapter, and receive testimony and evidence as to whether or not the boundaries of the proration zone as established shall be changed as recommended. The director shall further, at the hearing, receive testimony and evidence with respect to the marketing program which is to be applicable to all of the area within the proposed changed boundaries of the proration zone.

Submission to producers

2157. After the hearing findings shall be made and procedures followed which are in accordance with the applicable provisions of Article 5 of this chapter. If the findings are positive, and a marketing program issued, and a zone with new boundaries established, the marketing program shall be submitted to producers within the zone for their written assent as prescribed by the applicable provisions and procedures of Article 9 of this chapter.

Dismissal of proceedings

2158. If the marketing program submitted is not assented to by producers in sufficient number and by sufficient volume to meet the requirements of Article 9 of this chapter, the di-

rector, with the approval of the commission, shall dismiss the proceedings instituted to change or annex the boundaries of the zone, and the marketing program in operation at the time the proceedings were instituted shall continue to be effective within the boundaries of the zone as constituted prior to the proceedings. The marketing program shall have the same force and effect as though no proceedings had been instituted under the provisions of this article

Article 7. Program Committees

Initial program committee

2180. The director shall appoint the initial program committee from nominations received at the public hearing upon the proposed program. The term of office of the initial program committee shall be for one marketing season. 2181. For terms subsequent to the term of the initial committee, members and their respective alternates shall be selected and appointed in accordance with the following procedure: The director shall divide the proration zone into as many districts as may be necessary for the proper administration of the program, and allot to each district the proper number of producers to be appointed to serve as members and alternate members upon a program committee so as to give as nearly as possible adequate representation to all producers in all such districts. Members and their respective alternate members shall be appointed by the director with the approval of the commission from lists of producers eligible to serve on the program committee.

Eligible lists shall be established by the director either by means of a meeting or meetings of producers in each district, or by means of mail ballot, or by a combination of meetings and mail ballot The method to be used shall be determined by the director with the approval of the commission, except that a mail ballot shall be granted upon a written request of 10 percent of the producers. Each producer shall be entitled to one vote and voting by proxy shall not be permitted. From nominations made, not less than three eligible persons shall be selected for each member of the committee Persons nominated must be producers with producing properties located within the district for which nominated.

Corporations, alternates, etc

2183. In the event a corporation or a partnership is a producer, it may designate a representative who may be a nominee. Each respective alternate shall be appointed from the same eligible list from which the member is appointed. Each district in the zone shall be entitled to at least one member and one alternate member of the committee. The program committee may at any time invite handlers or other persons to their meetings to serve in an advisory capacity and may authorize, subject to the approval of the director, the payment of compensation

Handler members, alternates

2184. The director may, if requested by the producer members of the program committee, appoint on the committee, in addition to the producer members, not more than three handler members and their respective alternates who are handlers of the commodity affected by the marketing program of the zone. The appointments of the director shall be subject to approval by the commission. Such approval may be given by the commission, in lieu of approval at a meeting of the commission, by written approval of a majority of the commission members other than the director.

Individual responsibility

2185. The members and alternate members of any program committee or grading committee duly appointed by the director, including employees of the program committee shall not be held responsible individually in any way whatsoever to any other person for errors in judgment, mistakes, or other acts, either of commission or omission, as principal, agent, person or employee, except for their own individual acts of dishonesty or crime. 2186. Program committee members shall be entitled to compensation at a rate not exceeding ten dollars ($10) each for each day while engaged on official business, except that such compensation shall not be paid for more than five days in any month unless approved by the director, and members shall be reimbursed for their necessary traveling expenses.

Alternates, compensation

2187. An alternate member of a program committee shall sit as a regular member of the committee in case the member for whom he is an alternate fails for any reason to attend any meeting of the committee, and he shall be compensated and reimbursed for his necessary traveling expenses in the same manner and to the same extent as a regular member when so serving.

Vacancies

2188. Vacancies on the program committee occasioned by the expiration of term of office shall be filled from eligible lists of producers selected in each district obtained as provided in Sections 2180 to 2185, inclusive. Vacancies occasioned by the death or resignation of any member, or by removal for incompetence, inattention, or neglect of duties as a member of the program committee, by the director, with the approval of the commission, or by a member ceasing to qualify as a producer or handler of the commodity concerned, shall be filled from persons remaining on the eligible lists of producers from which the appointments for the current term were made, or from new lists obtained as provided in Sections 2180 to 2185, inclusive.

Agent, appointment, term etc

2189. The program committee shall appoint an agent, subject to the approval of the director, who shall administer the marketing program under the direction of the program committee and who may be removed from office in the same manner as he was appointed. The salary or compensation of the agent shall be fixed by the program committee subject to the approval of the director.

Deputy agents, etc

2190. The agent shall appoint such deputy agents and other assistants as may be necessary to direct the program, which appointments shall be subject to the approval of the program committee. The agents, deputy agents and other assistants are employees of the zone and not of the State. No officer or employee shall receive compensation based on a percentage of volume involved in a marketing program, or in any manner that would lend encouragement to the promotion of a marketing program for the purpose of increasing salaries and income.

Program committee powers

2191. The program committee with the approval of the director is authorized to:

(a) Appoint subcommittees in any producing areas within the zone to facilitate the carrying out of the purposes of this chapter.

(b) Collaborate and cooperate with agencies or organizations with similar purposes, whether of this State, other states or of the United States, in the formulation and execution of marketing programs or marketing orders having common objectives. In proper cases the commission or director may require such collaboration and cooperation.

(c) Cooperate with duly constituted authorities in the enforcement of other laws of this State, or of the United States, enacted to protect producers or the consuming public from fraud or deception.

(d) Make contracts and agreements in the furtherance of any of the powers of the program committee.

Exercise of powers

2192. The exercise of the powers granted to a program committee in its administration of a marketing program made effective in accordance with the provisions of this chapter shall be subject to the approval of the director. In the event the director disapproves of an action taken by a program committee or does not within a reasonable time approve of an action of a program committee, the committee may appeal to the commission. The commission shall make a review of the subject matter under consideration and make a determination. In such event the director shall proceed in accordance with the determination of the commission.

Article 8. Marketing Programs

Powers of program committee

2214. The powers granted to a program committee by a marketing program under this article may be exercised for the purpose of minimizing the effect of surpluses or other adverse market conditions.

2215. A marketing program may authorize the program committee to establish and maintain stabilization and surplus pools. The program committee may receive from each producer for delivery into a stabilization or surplus pool the uncertificated portions of the agricultural commodity regulated by the marketing program and market the same by varieties, grades or sizes for the account of the producers when the uncertificated portion can be disposed of advantageously either in its original or converted state. The program committee shall designate the quantity or the percentage of the marketable supply of the commodity that shall be placed in the stabilization pool and the quantity or the percentage of the marketable supply of the commodity that shall be placed in the surplus pool. Quantities or percentages so established shall be applicable to each producer. Stabilization and surplus pools

2216. In operating any stabilization or surplus pool, the program committee may receive and account for the commodity on the basis of variety, grade or size classifications and may fix servicing charges to be assessed against the total quantity of any commodity received into the pools. The program committee shall have title to all of the commodity in each of the pools and shall handle all of the commodity received into each of the pools and account for the same to each producer who is beneficially interested therein upon a pooled basis. Receipt title etc

2217. In the case of a stabilization pool, the contents may be disposed of or may be marketed from time to time as the program committee deems advisable, consistent with the maintenance of stabilized marketing conditions. Disposal of product

2218. In the case of a surplus pool, the contents of the pool shall not be marketed in any form which would directly compete with that portion of the commodity which is regularly certificated or which is in a stabilization pool. However, any part of any surplus pool may be transferred by a program committee on a gratuitous basis to charitable organizations, self-held cooperatives, and similar agencies under proper safeguards to prevent any part of the commodity so disposed of from directly competing with the part of the commodity marketed through the usual channels of trade.

2219. A marketing program may authorize the program committee to establish and maintain diversion or substandard pools. The program committee may receive from each producer for delivery into a diversion or a substandard pool such quantity of each producer's production or deliveries as fails to qualify for marketing or sale in regular marketing channels, under grade, quality or size regulations established in the marketing program or under standardization laws or other laws of the State or of the United States. Diversion or substandard pools

2220. In operating any such diversion or substandard pool, the program committee may fix servicing charges to be assessed against the commodity received into the pool and may receive and account for the commodity on a basis of variety, grade and size classifications. The program committee shall have title to Same Charges, receipt, etc

all of the commodity in either of the pools and shall handle all of the commodity received into either of the pools and account for the same to each producer who is beneficially interested therein upon a pooled basis.

Disposal of product

2221. The contents of any diversion or substandard pool shall be disposed of for by-products or for other purposes under proper safeguards to prevent that part of the commodity so disposed of from directly competing with the part of the commodity marketed in its usual form through the usual channels of trade.

Program committee powers

2222. A marketing program may authorize the program committee to create, establish, or otherwise obtain and operate facilities for the storing, financing, grading, packing, servicing, processing, preparing for market, selling and disposal of the contents of any pools provided for in this article; but nothing in this chapter shall authorize a program committee to engage in public warehousing.

2223. The program committee may pledge all of the commodity in any pools established under the provisions of this article with a bank or other lending agency for the purpose of obtaining loans thereon. The program committee shall have title to all of the commodity in any such pools for the purpose of financing and handling.

Equalization fund

2224. A marketing program may authorize the program committee to create, by a uniform assessment upon producers based upon the volume of the commodity marketed by each or upon some other uniform and equitable basis, maintain and disburse an equalization fund to be used for the removal of any inequalities between producers as to the total volume marketed through prorated channels resulting from errors in estimating production or surplus or for indemnifying producers whose production, in whole or in part, is diverted in green form or otherwise from normal marketing outlets or diverted to relief, by-products, or other noncompetitive purposes pursuant to a marketing program.

2225. No part of any funds raised for equalization fund purposes as specified in Section 2224 shall be applied to the cost of maintenance of the commission and the department.

Correlation of supply and demand

2226. A marketing program may authorize the program committee to establish, adopt, and apply methods for correlating the marketable supply of any commodity to the reasonable market demands by means of volume limitation, time limitation, diversion, or by grade, quality, or size regulations applicable to the total production of any commodity, or to that portion of any commodity which qualified for marketing pursuant to standards authorized in the marketing program, standardization laws, or other laws of this State, or of the United States If grade, quality, or size regulations are authorized under any marketing program for any commodity used for canning, freezing, fermenting, or distilling, and the regulations are not an integral part of a proration plan for the purpose of controlling a surplus condition in the commodity, such grade, quality, or size regulations or

interpretations, or modifications thereof must be approved by a grading committee appointed by the director consisting of the program committee, or a subcommittee, of at least seven members and an equal number of processor representatives nominated by the industry engaged in the processing of the commodity involved. Any action of the grading committee must be concurred in by a majority of the processor members, a majority of the producer members, and by the director.

Educational and trade stimulation efforts

2227. A marketing program may authorize the program committee to broaden distribution and increase consuming outlets by appropriate educational and trade stimulation efforts of a general industry nature and not unfairly depreciative of the quality of any other food product.

Educational and trade stimulation efforts may include efforts to prevent, modify, or remove trade barriers directly affecting the commodity to which the marketing program applies; and may also include the presentation of facts to, and negotiations with, state, federal, or foreign governmental agencies on matters which affect the marketing of the commodity.

Fee or assessment on commodity marketed

2228. For the purpose of providing funds to defray the cost of formulating, administering and enforcing educational and trade stimulation efforts a fee or assessment shall be established and collected upon the volume of the commodity marketed or upon some other uniform and equitable basis. The fee may be collected separately by the program committee or may be combined with any fee collected for general administrative purposes, in which case the program committee may recommend to the director, and the director may approve, the proportions of the combined fee which may be expended for each of such purposes.

Funds carried forward

2229. Any portion of the funds collected during any marketing season to accomplish the purposes of Sections 2227 and 2228 may, subject to the approval of the director, be carried forward for expenditure during seasons subsequent to the season during which the funds are collected.

2230. Any educational and trade stimulation efforts authorized by any marketing program when approved by growers, either by written assent or by referendum ballots, for a specified period of time, but not exceeding four years, may be carried out for such period without the necessity of a biennial referendum as required in Section 2370.

Adjustment of production

2231. A marketing program may authorize the program committee to provide for the adjustment of production of any agricultural commodity by means of tree or vine pulling. The program committee may receive applications from producers for acreage adjustment payments. The program committee shall, upon proper review and certification, make such acreage adjustment payments on an equitable basis from funds collected for that purpose under the marketing program on a uniform basis from all commercial producers of the agricultural commodity within the zone, or from funds received from federal, state or other agencies for that purpose.

Exemptions

2232. No program of production adjustment adopted under Section 2231 shall authorize payments for the removal of acreages of trees or vines of the species or varieties specified in the program which have, during the three years immediately preceding the date of application, produced an annual yield per acre in excess of the comparably computed average yield from bearing trees or vines of the same species or varieties for the State as a whole, such yields and averages to be determined by the director from statistical data compiled by state or federal agencies or such other data as the director deems to be representative and reliable.

Research: Cost

2233. If the program committee finds that the results of research would be advantageous in the administration of a marketing program it may, subject to the approval of the director, authorize and arrange for research to be conducted. The cost of the research shall be considered a part of the cost of the administration of that portion of the marketing program for which the research is authorized.

Agency to carry out research

2234. In any such research, the Dean of the College of Agriculture of the University of California and the program committee shall cooperate in selecting the research projects to be carried on from time to time. Insofar as practicable, the projects shall be carried out by the College of Agriculture, but if the dean of the college and the program committee determine that the college has no facilities for a particular project or that some other research agency has better facilities therefor, the project may be carried out by other research agencies selected by the dean and the program committee.

Article 9. Assents to Program

Copy of marketing program to each producer

2255. Upon the issuance of a marketing program for the written assent of producers the director shall submit a copy of the marketing program in full to each of the producers of the commodity to be affected or their duly authorized agent within the proposed zone as shown by the lists of producers compiled in accordance with the provisions of this chapter, accompanied by a printed, typewritten or mimeographed form upon which the producer can record his assent to the program. A nonprofit cooperative association may assent on behalf of any of its members only if authorized so to do by an instrument in writing signed by the member.

Revocation of agency

2256. Such authority may be revoked as to him by any such member by an instrument in writing filed with the director and with such association, which revocation shall become effective three days after its receipt by the director. A copy of any written authorization of a producer to the nonprofit cooperative association of which he is a member shall be forwarded to the director by the association and likewise a copy of any revocation of such authority.

Closing date for assents to program

2257. The director may at the time of mailing to producers a marketing program or amendments thereto for written assent,

establish a closing date after which assents will not be counted In such event the closing date upon which assents must be postmarked in order to be counted must be shown on the assent form and be announced by a press release for general dissemination issued by the director

Subsequent closing date Publication

2258. In the event the closing date is not established at the time assent forms are mailed to producers, and the director subsequently finds that because of the oncoming harvesting season or because of any other relevant reason it is desirable to fix a closing date for filing assents, he may do so by publishing a notice in a newspaper of general circulation published in the capital of the State and in such other newspaper or newspapers as the director may prescribe not less than 10 days prior to the closing date, and the closing date shall also be announced by a press release for general dissemination issued by the director at least 10 days prior to the date.

Marketing program effective

2259. When the director finds that the marketing program has been assented to in writing by not less than 65 percent of the producers in the zone who produced for market not less than 51 percent of the quantity of the agricultural commodity or is assented to by not less than 51 percent of the producers who produced for market not less than 65 percent of the quantity of such commodity produced in the zone in the next preceding season, he shall make the marketing program effective.

Notice of effective date

2260. Whenever the director makes a marketing program effective he shall publish a notice of the effective date in a newspaper of general circulation published in the capital of the State and in such other newspaper or newspapers as the director may prescribe, not less than five days prior to the effective date.

Article 10. Proration Certificates

Proration certificates

2280. After any marketing program has been formulated and has been approved as provided in this chapter, the agent for the zone shall assume the administration of the program and any subsequent modification thereof and the issuance of proration certificates thereunder. Such certificates shall be divided into primary and secondary certificates Each producer shall be entitled to one primary certificate which may indicate the quantities of the commodity for which the program has been instituted which the producer named in the certificate shall be entitled to harvest or otherwise prepare for market and delivery into the primary channels of trade. The primary certificate may also indicate from time to time the number of secondary certificates issued under it.

Secondary certificates

2281 Secondary certificates shall be numbered consecutively and shall be used to control the time and volume of harvesting or other preparation for disposal. Secondary certificates shall accompany all deliveries of the prorated commodity by producers into a primary trade channel In the case of commodities which are normally concentrated for preparation for market, the program committee may authorize harvesting of the entire crop for

the purpose of delivery to a concentration point and subsequent marketing control. Primary or secondary certificates shall not be negotiable between producers except with the approval of the program committee and the director.

Nonnegotiable

Cooperative and other market agencies

2282. In the operation of any program, cooperative and other market agencies entitled to the possession of agricultural commodities for marketing purposes may be authorized in writing by the program committee to receive certificates for producers represented by them and to represent their respective producers when proration is applied to the commodity while in the possession of such agencies.

Article 11. Amendments to Programs

Major amendments

2305. Any amendment to a marketing program in effect which adds to or deletes from the program any of the following principal types of regulation or authorization constitutes a major amendment for the purpose of this article:

(a) Authority to correlate the marketable supply of any agricultural commodity with reasonable market demands by means of volume, grade, size, variety or time regulations.

(b) Authority to fix salable and surplus percentages.

(c) Authority to establish, maintain and operate stabilization, surplus, or diversion—substandard pools.

(d) Authority to create, establish, or otherwise obtain and operate facilities for the storing, financing, grading, packing, servicing, processing, preparing for market, selling or disposing of the contents of any pools established.

(e) Authority to create and disburse an equalization fund as provided for in Sections 2224 and 2225.

(f) Authority to broaden distribution and increase consuming outlets by educational and trade stimulation efforts.

(g) Authority to provide for the adjustment of production of any agricultural commodity by means of tree or vine pulling.

(h) Authority for carrying on research relating to production, processing, or distribution of any agricultural commodity, that is in addition to research that is directly necessary to the administration of the marketing program.

(i) Authority to increase an assessment rate or fee beyond the maximum authorized by the marketing program in effect.

(j) Authority to extend the application of the provisions of the marketing program to portions or uses of an agricultural commodity not subject to such provisions or to extend the application of such provisions upon the producers of such portions or uses of any such commodity.

Major amendment effective

2306. A major amendment shall not be made effective unless a public hearing has been held thereon in accordance with the provisions of Article 5 of this chapter for the establishment or institution of a marketing program, and the director finds that the amendment is in conformity with the applicable provisions and procedures of Article 5 of this chapter; and that the amendment is assented to in writing in the required percentages prescribed in Article 9 of this chapter.

2307. Minor amendments may be made to an effective marketing program upon the recommendation of not less than 75 percent of the producer members of the program committee, with the approval of the director, if the director finds that such amendments are in conformity with the applicable provisions and procedures of Article 5 of this chapter. If the director deems it advisable he may, on behalf of the commission, hold a public hearing upon minor amendments prior to such approval. Any public hearing held for this purpose shall be held within the boundaries of the zone. Minor amendments effective

2308. The amendment of any marketing program to provide for a referendum is a minor amendment. Referendum

2309. Any modification of the provisions of any marketing program in effect for the purpose of clarifying the meaning or application of the provisions or modifying administrative procedures for carrying out the provisions is a minor amendment. Modifications, etc

2310. Whenever the director makes any amendment to a marketing program effective he shall publish a notice of the effective date in a newspaper of general circulation published in the capital of the State and in such other newspaper or newspapers as the director may prescribe, not less than five days prior to the effective date. Director's amendment

Article 12. Funds

2335. The zone agent for each marketing program shall collect, either for each primary certificate or for each secondary certificate, or for both, a reasonable and proportional fee to be fixed by the program committee, subject to the approval of the director, so calculated as to provide an amount adequate to defray the necessary expenses of instituting and carrying out the marketing program and a proper proportion of the cost of the maintenance of the commission and of the department in the performance of duties required by this chapter. Expenses of program

2336. Any fee for primary certificates or secondary certificates fixed by the program committee with the approval of the director, pursuant to this article, shall be due and payable by each producer upon all units of the commodity of the producer which are subject to the certificates and shall constitute a personal debt of the producer. In the event that any producer has authorized a handler to obtain secondary certificates and pay secondary certificate fees on behalf of the producer, or in the event that the handler has been a party to noncompliance with respect to payment for certificates or corresponding fees, the amounts unpaid shall constitute a personal debt of the handler. Fees for certificates

2337. The proportion of the fees payable to the commission and to the department may vary upon a seasonal basis for each program according to the estimated expense to be incurred by the director and the commission in administering the program. The amount so required shall not exceed 15 percent of the certificate fees collected by the zone agent specifically for administrative purposes and in addition such proportion of Proportion of fees

fees collected for any educational and trade stimulation program as may be required by the commission and the director to administer the program which shall in no event exceed five percent of the fees collected for such purpose, unless the payment of a larger proportion of such funds is approved by the program committee for the marketing program.

Conference prior to fixing proportion upon request

2338. Upon request of any program committee, the commission shall confer with the committee or its representatives prior to fixing the amount or proportion of any fees of the marketing program payable to the department for maintenance of the commission and the department in the performance of the duties required by this chapter.

Deposits

2339. All such fees shall be deposited promptly by the zone agent in a bank or banks approved by the Director of Finance, and shall be accounted for forthwith to the Director of Agriculture. Each deposit shall be made in the name of the zone under which the funds are collected and shall be disbursed by the director, pursuant to rules and regulations prescribed by the director, and approved by the commission, only for the expenditures incurred by the program committee in carrying out the specific purposes and provisions of the marketing program, including all necessary expenses incurred in the formulation, administration and enforcement of the program.

Withdrawals, payments, use

2340. The proportionate amount of fees payable to the department shall be withdrawn from the funds monthly by the director and paid into the Department of Agriculture Fund in the State Treasury and shall be used only for the support of the commission and of the department in carrying out their duties as required by this chapter.

Refunds

2341. At the end of any marketing season as designated in each marketing program, after proper provision has been made for the payment of all necessary expense incurred in connection therewith, any moneys remaining to the credit of the program committee, other than those collected to carry out the educational and trade stimulation efforts provided for in Sections 2227 and 2228, shall be refunded upon a pro rata basis to all persons from whom certificate fees were collected. If the marketing program continues in effect, the refund may, upon the resolution of the program committee with the approval of the director, be deferred so as to permit the program committee to use the residual funds to meet operating expenses in the succeeding season or until sufficient funds have been collected or the collection of sufficient funds is assured to enable the committee to make the refund and to defray the expenses of the then current marketing season, including an allowance for preliminary expenses of the next succeeding season.

Transfer of funds to carry out marketing program

2342 At the time the refund is made, the program committee shall file with the director a claim for the refund to growers entitled thereto. If the director finds that as of the end of any marketing season the amount remaining to the credit of the program committee is so small as to make impractical the computation and remitting of the pro rata refund,

the director may authorize the transfer of the funds to the then current marketing season for expenditure in carrying out the marketing program.

Refunds

2343. Unexpended balances of money collected to carry out the educational and trade stimulation efforts provided for in Sections 2227 and 2228 sufficient in amount to warrant incurring the expense of making a refund shall be refunded following the termination of any marketing program containing provisions authorized by those sections or following the suspension or termination of educational and trade stimulation provisions of any marketing program, and the refund shall be made upon such pro rata basis as the program committee and the director determine to be equitable.

Transfer to Department of Agriculture Fund

2344 If the unexpended balance is so small as to make impractical the computation and remitting of a pro rata refund, the director may authorize the transfer of the funds to the administrative account of the marketing program or to the Department of Agriculture Fund for the support of the commission and the department in carrying out their duties in the administration of this chapter.

Minimum refunds

2345. Unless otherwise requested by the program committee, the director shall not be required to issue refunds to any producer in an amount less than one dollar ($1).

Checks, etc., unclaimed, etc., canceled

2346. Any checks or warrants drawn against the fund to any marketing program remaining unclaimed or uncashed for a period of six months from date of issuance shall be canceled and the money retained for disbursement to the original payee or claimant upon satisfactory identification for a period of one year from the time the checks or warrants are canceled. The money so retained, if not claimed within the period of one year shall be credited to the then currently operating marketing program for the commodity under which the funds so retained were collected.

Disposal of funds

2347. If there is no program then in effective operation for the commodity, the funds shall be credited to the unexpended balance, if any, of the last previous marketing program for the commodity. In the event there is no marketing program then in current operation or no balance exists from any previous marketing program to which the funds may be credited, the funds so retained shall be deposited in the State Treasury as unclaimed trust moneys.

Bonds

2348 No agent or employee of the program committee shall have or receive any funds collected pursuant to the provisions of this chapter until such agent or employee has filed with the director a bond in such form and in such penal sum as the director may prescribe.

Relief of responsibility of collecting amounts due

2349. Upon the recommendation of the program committee the director may relieve the zone agent of the responsibility of collecting any amounts due and unpaid not exceeding one dollar ($1) when the director determines that the collection

is improbable or the cost of collecting would exceed the amount involved.

Suits for collection

2350. The director, in addition to other remedies provided by law, may direct suit in the name of the people of the State of California as plaintiff, to be brought for the recovery of fees as provided in this chapter. In such case the director may make the necessary affidavit for and a writ of attachment may issue, without any bonds being given on behalf of the plaintiff. All fees collected in this manner shall be handled as provided in this article.

Article 13. Termination of Programs

Referendum

2370. In the event any marketing program in active operation does not provide for a periodic referendum of producers of record with the department, directly affected by the program, for the purpose of determining whether or not the program shall be continued or modified, it shall be the duty of the director, prior to the beginning of a marketing season, to conduct a referendum on the program at least biennially for the purpose of making the determination. An expression by a majority of the producers participating in the referendum shall govern the action of the commission and the director in declaring a program modified, continued or suspended. In conducting the referendum, the commission and the director may require the majority expression to be that of producers in terms of volume of production in addition to numbers of producers voting.

Termination by petition

2371. After the institution of any marketing program, the program shall be terminated when there is filed with the director a petition for its termination signed by not less than 40 percent of the producers of the commodity in the zone who produced not less than 40 percent of the commodity affected which was produced within the zone during the last preceding season. The signatures of the producers upon the petition shall be those of the producers whose names appear on the list used at the institution of the program or on any corrected list which the director shall have had prepared during the existence of the program, or their successors in interest.

Contents of petition

2372. Each petitioner shall, upon affixing his signature to the petition for termination, write in the date of signing, and no signature to the petition shall be valid for any purpose if affixed more than six months prior to the filing of the petition with the director. The petition shall be accompanied by a good and sufficient undertaking in an amount equal to the probable costs incident to conducting the hearing and making of findings

Hearing

A hearing must be held by the director upon the petition to determine the sufficiency of the signatures, which hearing must be held within 60 days after the presentation of the petition.

Termination date

2373. If from a check of the petition together with the facts and evidence adduced at the hearing, it is established that the petition to terminate is signed by the required 40 per-

cent of the producers of the commodity in the zone who produced at least 40 percent of the agricultural commodity affected which was produced within the zone during the last preceding season, the director, with the approval of the commission, shall terminate the program. Any marketing program on a seasonal crop shall not be terminated except at the end of its marketing season.

Costs of hearing, findings

2374. The costs incident to conducting the hearing and making of findings shall be paid from the funds of the program to the extent that they are available and thereafter from the undertaking. In the event the petition be found insufficiently signed, the entire cost of conducting the hearing shall be paid from the undertaking. In the event of the termination of a program, any funds remaining for the use of the program committee not otherwise disposed of by the provisions of this chapter shall be deposited in the State Treasury to the credit of the Department of Agriculture Fund.

Investigation and termination, etc

2375. The director, on behalf of the commission, may at any time initiate an investigation to determine whether or not the facts specified in Sections 2127 to 2134, inclusive, continue to exist. Upon a finding that any one or more of the prerequisite facts no longer exist, the director, with the approval of the commission, shall terminate or suspend the program and may dissolve the zone. In no case shall any program on a seasonal crop be terminated or suspended except at the end of its marketing season.

Article 14. Actions and Penalties

Actions for penalties etc

2395. Any action for penalties or other remedies prescribed in this chapter shall be commenced within two (2) years from the date of the alleged violation.

Injunctions

2396. Any person who shall possess, market, handle, or transport any commodity in violation of any provision of an original or modified proration program approved and made effective or in violation of any rule or regulation adopted by any program committee and approved by the director may be enjoined by the director or by the zone affected with the approval of the director in an action brought in the superior court for the county in which any of the violations is alleged to be occurring. CHAPTER 189

An act to codify the California Agricultural Products Marketing Act of 1937 by adding Chapter 12 to Division 6 of the Agricultural Code and repealing Chapter 307 of the Statutes of 1935, relating to the marketing of agricultural products.

[Approved by Governor April 13, 1953. Filed with Secretary of State April 14, 1953.]

In effect September 9, 1953

The people of the State of California do enact as follows:

SECTION 1. Chapter 12 is added to Division 6 of the Agricultural Code, to read:

CHAPTER 12. THE CALIFORNIA AGRICULTURAL PRODUCTS MARKETING LAW OF 1937

Article 1. Short Title

Short title

2550. This chapter may be known and cited as the "California Agricultural Products Marketing Law of 1937."

Article 2. Legislative Declarations

Legislative declarations

2570. The unreasonable waste and inefficient use of agricultural resources occasioned by the marketing within the State of greater quantities of agricultural commodities than are reasonably necessary to supply the demands of the market and the disorderly marketing thereof are opposed to public interest.

2571. The difficulty inherent in any attempt of individuals to correlate within a reasonable degree the market supply of any agricultural commodity to current consumer demand within the State prevents such correlation and creates chaotic economic conditions in agricultural areas of the State of such severity as to imperil the ability of agricultural producers to contribute appropriate amounts to the support of ordinary governmental and educational functions, thus increasing the tax burdens of other taxpayers for the same purposes, and such conditions render it impossible for producers to be reasonably assured of a reasonable standard of living for themselves and their families.

2572. In the interest of the public welfare and general prosperity of the State, the unreasonable waste and inefficient use of agricultural resources should be eliminated, while at the same time preserving to all agricultural producers an equality of opportunity.

An act to codify the California Agricultural Products Marketing Act of 1943 by adding Chapter 13 to Division 6 of the Agricultural Code and repealing Chapter 516 of the Statutes of 1943, relating to the marketing of agricultural products.

[Approved by Governor April 13, 1953. Filed with Secretary of State April 14, 1953.] In effect September 9, 1953

The people of the State of California do enact as follows:

SECTION 1. Chapter 13 is added to Division 6 of the Agricultural Code, to read:

CHAPTER 13. CALIFORNIA AGRICULTURAL PRODUCTS MARKETING LAW OF 1943

Article 1. Short Title

3050. This chapter may be known and cited as the "California Agricultural Products Marketing Law of 1943." Short title

Article 2. Legislative Declarations

3070. The unreasonable waste and inefficient use of agricultural resources occasioned by the marketing within the State of greater quantities of agricultural commodities than are reasonably necessary to supply the demands of the market and the disorderly marketing thereof are opposed to public interest. The difficulty inherent in any attempt of individuals to correlate within a reasonable degree the market supply of any agricultural commodity to current consumer demand within the State prevents such correlation and creates chaotic economic conditions in agricultural areas of the State. Legislative declarations

3071. In the interest of the public welfare and general prosperity of the State, the unreasonable waste and inefficient use of agricultural resources should be eliminated, while at the same time preserving to all agricultural producers an equality of opportunity.

3145. Subject to the provisions of this chapter, the director may enter into agreements with, issue orders to, and enforce the provisions of agreements or orders upon, persons engaged in transactions of intrastate commerce within this State in the handling of any agricultural commodity.

3146. The director may, with respect to any given commodity, either execute an agreement without issuing an order, issue an order without executing an agreement, or may both issue an order and execute an agreement.

3147. For the purpose of carrying out the terms of this chapter the director may hold hearings, take testimony, administer oaths, subpena witnesses and issue subpenas for the production of relevant books, records or documents of any kind.

Self-incrimination

3148. No person shall be excused from attending and testifying or from producing documentary evidence before the director in obedience to the subpena of the director on the ground that the testimony or evidence, documentary or otherwise, required of him may tend to incriminate him or subject him to a penalty or forfeiture. But no natural person shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter or thing concerning which he may be so required to testify, or produce evidence, documentary or otherwise, before the director in obedience to a subpena issued by him, except that no natural person so testifying shall be exempt from prosecution and punishment for perjury committed in so testifying.

Rules and regulations

3149. The director may adopt and enforce all rules and regulations necessary or desirable to carry out the provisions of this chapter and not inconsistent with law. Every general rule or regulation of the director shall be posted for public inspection in the main office of the director and in the Office of the Secretary of State at least three days before it becomes effective, and shall be given such further publicity, by advertisement in a newspaper of general circulation in the territory affected by the issuance of the rule or regulation, or otherwise as the director deems advisable.

Cooperation with United States other states

3151. The director may confer and cooperate with the legally constituted authorities of other states and of the United States, in order to secure uniformity in the administration of federal and state marketing agreements, statutes, or orders and in the regulations thereby prescribed. The director may conduct hearings jointly with the Secretary of Agriculture of the United States, and may exercise his powers under this chapter to effect uniformity of administration and regulation not inconsistent with the provisions of this chapter.

Article 6. Notice, Hearing and Findings

Notice of hearing

3175. Whenever the director has reason to believe that the execution of an agreement or issuance of an order, or both, will tend to effectuate the declared policy of this chapter with respect to any agricultural commodity, he shall either upon his

own motion or upon application of any producer or handler of the commodity give due notice of and an opportunity for hearing upon a proposed agreement or order, or both.

Publication

3176. Notice shall be given by the director by publishing a notice of the hearing for a period of not less than five days in a newspaper of general circulation published in the capital of the State and in such other newspaper or newspapers as the director may prescribe. The hearing shall not be held prior to five days after the last day of the period of publication.

Copy mailed to those directly affected

3177. The director shall also mail a copy of the notice of hearing and a copy of the proposed agreement or order to the last known address of all handlers and producers directly affected by the agreement or order whose names appear upon the most recent list available for this purpose in the office of the director. Likewise, the notice shall be mailed to any person who has filed with the director a request for notice.

Publication

3178. In the event the director does not have on file an adequate list of those persons who may be directly affected by the provisions of any proposed order for any agricultural commodity and the quantity marketed by each, the director shall notify all handlers of the commodity by publication of a notice to file with the director within 10 days from the last date of publication of the notice a report properly certified showing:

(a) The correct name and address of the handler.

(b) The quantities of the agricultural commodity, affected by the proposed order, handled by the handler in the marketing season next preceding the filing of the report.

(c) The correct names and addresses of all producers of the agricultural commodity, who may be directly affected by the provisions of the proposed order, from whom the handler received the agricultural commodity in the marketing season next preceding the filing of the report.

(d) The quantities of the agricultural commodity received by the handler from each producer in the marketing season next preceding the filing of the report.

Newspaper publication, etc., of notice to file

3179. The notice to handlers requiring them to file the report shall be published by the director for a period of not less than five days in a newspaper of general circulation published in the capital of the State and in such other newspapers as the director may prescribe. The director shall also mail a copy of the notice to file the report to all handlers known to be directly affected or likely to be directly affected thereby whose names and addresses appear upon lists submitted to the department or prepared by the department for that purpose from currently available information. Each handler of the agricultural commodity, directly affected by the provisions of the proposed agreement or order shall file the report with the director within the time specified. Failure or refusal of any handler to file the report shall not invalidate any proceedings taken or order issued. The director shall proceed upon the basis of such information and reports as may otherwise be available.

3180. From the reports filed and the information received or available to the director, including any proper corrections, the director shall prepare a list of the names and addresses of such producers and the volume of such commodity produced or marketed by all the producers and a list of the names and addresses of the handlers and the volume of the commodity handled by all the handlers, directly affected by the provisions of the proposed order in the preceding marketing season. The lists shall constitute complete and conclusive lists for use in any finding made by the director pursuant to the provisions of Article 9 of this chapter and the findings shall be conclusive. Lists to be prepared

3181. Any public hearing upon a proposed order shall be held within the State. At the hearing the director shall receive and hear the evidence offered by any interested person in support of or in opposition to the execution of the agreement or the issuance of the order. All evidence and exhibits used by the director or introduced at the hearing shall within a reasonable time be available at a central point to all interested parties. The hearings may be adjourned from time to time and from place to place in the discretion of the director. A transcript of the proceedings at the hearings shall be made by the director and shall be open for inspection by any interested party. Hearing

3182. The information contained in the individual reports of handlers filed with the director pursuant to the provisions of this article shall not be made public by the director in such form but the information contained in the reports may be prepared in combined form for use by the director, his agents, or other interested persons, in the formulation, administration and enforcement of an order, or may be made available pursuant to court order, but shall not be made available to any one for private purposes. Information not public

3183. With respect to an agreement or order containing provisions for correlating the supply of the agricultural commodity with market demand therefor by restricting and allocating the total quantity of the commodity which may be marketed during any marketing season and which restricted portion of the commodity might otherwise be marketed in compliance with other laws of this State or of the United States, the director shall not issue such agreement or order for the written assent of producers or handlers unless he finds after public hearing that all of the following are true: Restriction of commodity to be marketed

(a) The supply of the commodity available for marketing exceeds or is likely to exceed the demand therefor at prices which will provide a reasonable return to producers of the commodity.

(b) The return to producers of the commodity will tend to be increased through the operation of the proposed marketing plan.

(c) The proposed agreement or order may be administered without permitting unreasonable profits to producers of the commodity and without unreasonably enhancing prices of the commodity to consumers.

(d) The proposed agreement or order will tend to prevent disorderly marketing of agricultural products within the State.

(e) The proposed agreement or order will tend to provide consumers with a more stable and adequate supply of agricultural commodities.

(f) The proposed agreement or order will tend to establish or maintain such relationship between the quantity of the particular agricultural commodity marketed and the demands of the market for the commodity as will tend to continue in production such volume of the commodity as is probable will be needed over a reasonably long period of time to supply the requirements of the commodity and to provide an adequate standard of living to the farm operator and his family.

Provisions regulating flow of commodity without restricting total quantity, etc

3184. If the agreement or order contains provisions only for the purpose of regulating the flow of the commodity or any grade, size or condition thereof to market without directly restricting the total quantity which may be marketed during the marketing season or if the order contains provisions only for the establishment of grade classifications or minimum grade, size, quality or condition specifications and uniform grading and inspection for the purpose of improving the quality of the product marketed, or the elimination of unfair trade practices, the director may issue such order if he finds all the following are true:

(a) That the order is reasonably calculated to attain the objectives sought in the order.

(b) That the order is in conformity with the provisions of this chapter and will tend to effectuate the declared purposes and policies of this chapter.

(c) That the interests of consumers of the commodity are protected in that the powers of this chapter are being exercised only to the extent necessary to attain such objectives.

The deed shall refer in general terms to the proceedings under which it is issued and contain a description of the property, any assignment thereof, and the fact that no person has redeemed the property. The tax collector shall receive from the applicant one dollar ($1) for making the deed, unless the city is the purchaser, in which case no charge shall be made.

Notice to owner of property

10422. The deed of the tax collector conveys the title in fee to the property and entitles the grantee, upon the receipt thereof, to immediate possession of the property described in the deed.

Deed prima facie evidence

10423. The deed of the tax collector is prima facie evidence of the truth of all the matters which it recites, and of the regularity of all proceedings prior to the execution of the deed.

Disposition of funds collected

10424. As fast as collected the tax collector shall pay the funds collected by him pursuant to this division, either upon voluntary payment or as the result of sales, to the treasurer of the city. The city treasurer shall place the funds so received in a special fund designated by the name of the improvement proceeding. Payment shall be made out of the special fund so established only for the purposes provided for in this division. To expedite the making of any improvement authorized by this division the legislative body may at any time transfer into the special fund, out of any money in the general fund, such sums as it deems necessary. 10426. The supplemental assessment shall be made and collected in the same manner, as nearly as may be, as the first assessment. Subsequent supplemental assessments may be made, if necessary, to pay for the improvement. At the hearing the legislative body may confirm, modify, or correct the supplemental assessment. The decision of the legislative body thereon is final.

Disposition of surplus from assessment

10427. If any assessment authorized by this division results in a surplus in the improvement fund after the improvement is completed, the surplus may be spent for the maintenance of the improvement. As an alternative method of disposition, the surplus shall be refunded or credited pro rata to the parties assessed as follows:

(a) Where the assessment or any installment has been paid in cash, credit shall be returned in cash to the person paying the corresponding assessment or installment, upon his furnishing satisfactory evidence of such payment.

(b) Where the assessment or any installment is unpaid, the credit shall be applied upon such assessment or the earliest unpaid installment of principal and interest.

Assessments as liens

10428. From the date of the recordation with the city tax collector, county surveyor, or superintendent of streets, each special assessment levied under this division is a lien upon the land upon which it is levied This lien is paramount to all other liens, except prior assessments and taxation, and shall continue until the special assessment is paid or the property is sold and deeded to the purchaser pursuant to this division. All persons shall have constructive notice of this lien from the date of the recordation of the diagram and assessment as referred to in this chapter.

The faithful performance of the contract shall be secured by an undertaking in such penal sum as the legislative body requires, with sureties satisfactory to the legislative body. The contractor shall also furnish a labor and material bond as required by law.

10503. The contract shall provide that the work shall be done strictly in accordance with the plans and specifications contained in the report provided for in Sections 10200, 10201, 10202, 10203, 10204, and 10300. The work shall be done under the supervision of the board officer, or person by whom the report was made, and no work shall be paid for until it is accepted by that board officer, or person, but this shall not prevent acceptance of and payment for completed portions of the work as it progresses.

Provisions of contract

10504. No contract made

10506. At any time after funds for all or any part of the proposed improvement are in the custody of the treasurer, by resolution adopted by a vote of two-thirds of all its members and without calling for bids, the legislative body may order that the municipality itself execute any or all of the improvement in accordance with the specifications and plans adopted for the work.

Municipality to execute improvements

10507. The legislative body, on ordering the municipality itself to execute the improvement, may authorize the municipality to employ the labor, and provide the material, appliances, supplies, and illuminating agent necessary to carry out the work.

Labor, material, etc

10508. The cost and expenses of work executed by the municipality itself shall be paid out of the improvement fund, but

In the case of a county official collecting for a public corporation, the county shall collect any money due on the bond as agent for the public corporation. If the legislative body designating the bonded person finds that his official bond is inadequate it may provide that he shall be separately bonded. The premium of such bond shall be an incidental expense of the proceeding.

No other business

35570. The commission or any operator shall not conduct any business other than that of the operation of public parking facilities on any parking place of the district.

Contracts and leases of parking places

35572. To provide revenues for the district, at any time prior to the formation of the district, or after the formation of the district and prior to the appointment of a commission, the legislative body conducting the proceeding for the formation of the district may enter into a contract or lease with any owner or tenant of property in the district under which the owner or tenant, for a specified rental or other consideration and for a specified period not exceeding 10 years, reserves a reasonable proportion or number of parking spaces in a parking place of the district for the use of the owner or tenant of such property, the employees of the owner or tenant performing services on the property, and the customers of, or other classes of persons designated by, the owner or tenant and entering the property as invitees or otherwise. After the appointment of a commission, the commission may make such contracts or leases.

No commission appointed, dissolving existing commission

35573. If the petition for the formation of a district under this part expressly so authorizes, at any time and following a hearing after such notice as the legislative body prescribes, it may determine that no parking place commission shall be appointed for such district, or if the commission has been appointed, may dissolve the commission. In either event, the legislative body shall thereafter have all powers, jurisdiction, and authority granted to, and all duties imposed upon, the commission pursuant to this part.
