The following letter of transmittal and report were presented by the Chief Clerk, and ordered printed in the Journal:

### LETTER OF TRANSMITTAL

STATE OF CALIFORNIA
DEPARTMENT OF AGRICULTURE
SACRAMENTO, April 25, 1961

*Mr Arthur A Ohnimus*
*Chief Clerk of the Assembly*
*State Capitol, Sacramento*

DEAR MR OHNIMUS I have the honor of transmitting to you herewith the report of the California State Department of Agriculture in response to House Resolution No. 41 of the 1960 Session of the State Legislature

Sincerely yours,

CHARLES PAUL, Director

### REPORT TO THE LEGISLATURE

By
**Charles Paul, Director Department of Agriculture**

The 1960 Session of the Legislature adopted House Resolution No 41, which requested the State Department of Agriculture to take the necessary steps to investigate the need for, the estimated cost, and the value to egg producers of a grading and certifying service for eggs based upon California egg standards, and to report our findings to the Assembly of the State of California Our report is submitted herewith

With respect to the need for this grading service, our department has discussed this matter with several groups of producers, primarily in Southern California, to obtain their views concerning the need for this service Most of the groups contacted believe that a grading service which establishes the grade for eggs as they are delivered by producers to purchasing handlers would be helpful, and would tend to improve prices to producers by establishing the grades more correctly.

We find that some egg producer councils in the southern part of the State now sell their eggs to handlers on the basis of grade and size established by the inspection of egg deliveries once a month by the egg grading service of the United States Department of Agriculture This Los Angeles group, and a co-operative group of egg producers in San Diego County who do not now use this federal service, feel that there are occasions when such a grading service, based upon state grades for eggs, would be of assistance to producers

So far the reaction of many egg handlers has been in opposition to such a grading service. Most egg handlers in the State perform the

grading service through their own employees, and it is to be expected that they would be opposed to this service It is reported to us that the opposition of handlers is so strong that individual producers and the smaller producer egg associations have hesitated to urge the establishment of such a grading service, fearing loss of their contract market Since producer groups have not urged this department to undertake this service, it must be concluded that they have not moved forward largely because of the opposition of handlers

The cost of such a service would depend upon the frequency of the inspection for grading purposes, and the volume of eggs to be handled The minimum salary of an inspector assigned to this work would be $415 per month, which, together with mileage and other traveling expenses, probably would raise the total cost per man to about $650 per month It is generally agreed that it should not be necessary to inspect all lots of eggs received at each plant daily Probably less frequent inspection, such as, perhaps, once each week, or even less frequently, would tend to accomplish the purposes

This would make it possible to spread the cost of each inspector over a large volume of eggs, and should not become a burden to producers However, the task of organizing a sufficient number of producers and their co-operative associations together to undertake such a project is quite difficult; and with the reluctance that now exists on the part of producers, it is quite likely that some time will elapse before producers will wish to move forward

Regarding the value to egg producers of a grading and certifying service for eggs, it is clear that producers would benefit from such a service If a grading and certifying service for eggs by neutral third party graders were available to producers, they would be assured that the grades upon which the prices for their eggs are established would be proper in relation to our state grades This would give assurance to each producer that he is being paid for his eggs on a proper and fair basis, and no doubt would have the long-time effect of increasing returns to producers Many important egg-producing states in the country have adopted the federal grading service, and it is generally agreed that producers have benefited

California has been slow in adopting third party grading for several reasons One of these reasons is that a considerable proportion of the eggs produced in the State are delivered to producers' co-operative marketing organizations; and since these organizations are producer-owned, the producer members feel that they have no need for the establishment of third party grading Since California has its own egg grades, the adoption of the federal grading service, based upon federal grades, has not been entirely satisfactory because there are some variations between the federal grades and our own California state grades It is generally considered that in California a third party grading service, based upon California state grades, would be more valuable, and would cause less confusion, than if producers used federal grading service in the sale of their eggs to egg dealers The federal egg-grading service has been available to California producers for several years, but for the above reasons, and for other reasons, producers have been slow to adopt it

In summary, it may be reported that this department believes that egg producers in California, especially producers not affiliated with large-scale egg-marketing associations, would be benefited through the establishment of a third party egg-grading service, based upon California state grades The monetary benefit of such a service cannot be calculated at this time, but it is estimated that it would be several times more than the reasonable estimate of the cost of such a service. Independent egg producers and their small egg-selling co-operatives have been reluctant to take the initiative in promoting the establishment of such a third party grading service, because the buyers of their eggs are very much opposed to the establishment of such a service, and these independent egg producers are fearful that they might lose their market outlets.

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No 462

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, March 21, 1961

*To the Honorable Members of the Senate and Assembly*

**Senate Bill No. 462**, "An act to amend Sections 2111, 2112, 2114, 2120, 2232, 2398, 2450, 2451, 2452, 2454, 2458, 2551, 2554, 2608, 2611, 2620, 2665, 2666, 2674, 2675, 2692, 2693, 2694, 2940, 2942, 2950, and 2951 of, to amend and renumber Sections 2457 5 and 2984 of, to add Sections 2451 1, 2451 2, 2452 1, 2459, 2460, 2461, and 2462 to, and to repeal Sections 2612, 2613, 2686, 2687, 2980, and 2981 of, the Business and Professions Code, relating to licenses, certificates, and permits issued by the Board of Medical Examiners,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

### OPINION OF LEGISLATIVE COUNSEL PRINTED IN JOURNAL

Pursuant to the unanimous consent request granted to Mr Conrad earlier this day, the following opinion of the Legislative Counsel is hereby printed in the Journal:

### OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, April 27, 1961

*Hon. Charles J. Conrad*
*Assembly Chamber*

**Elections—No. 15876**

DEAR MR. CONRAD. You have requested us to assume that a person discovers that a registered voter is not able to read the Constitution in the English language as required by the Constitution and notifies the county clerk of that fact

You ask the following question·

*Question*

May the county clerk cancel the voter's registration so as to prevent him from voting, or require the precinct board to deny him the right to vote?

*Opinion*

In our opinion, the county clerk may not cancel the affidavit of registration under such circumstances, and may not deprive the voter of his right to vote.

*Analysis*

It has been held that the acts of a county clerk in determining the sufficiency of an affidavit of registration at the time of registration are of a judicial nature, and that before accepting an affidavit it is his duty to pass upon the certificate and to see that it is sufficient in form (*Pohlmann* v. *Patty*, 33 Cal App 390).

The court, in the *Pohlmann case*, also held that if the county clerk does not raise any objection to the voter's qualifications, such as his ability to read English as required by the Constitution, and proceeds to register the voter, he cannot later cancel the voter's affidavit on the ground of his inability to read English, and is without power thereby to deprive the voter of his right to vote at an election.

The court pointed out that the statutes spell out, in detail, the circumstances under which a county clerk may cancel the affidavit of registration of a voter by administrative act, and that inability to read English is not listed as one of those circumstances The same is true of the statutory provisions presently in effect.

Furthermore, we find nothing in the law which would authorize a precinct board to deny a person the right to vote on the basis of an order received by the board from the county clerk, indicating that the

voter is not qualified. It would seem, therefore, that once a voter is registered, his right to vote can be challenged only at the polls, by means of the statutory challenge procedure if such a procedure is provided, and by resort to the courts His right cannot be denied by administrative act on the part of a county clerk The challenge at the polls on the ground of literacy has been eliminated by Chapter 56 of the Statutes of 1961

Very truly yours,

RALPH N KLEPS, Legislative Counsel

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No 614

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, March 21, 1961

*To the Honorable Members of the Senate and Assembly*

**Senate Bill No. 614,** "An act to appropriate money for the support of the Commission on Judicial Qualifications to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

Senate Bill No 614 would augment the budget of the Judicial Council for the current and next fiscal years in the amount of $62,267 This augmentation is made necessary by the constitutional amendment adopted November 8, 1960, which provided for an Administrative Director of the Courts of California and additional members of the Judicial Council

I, therefore, recommend consideration of Senate Bill No 614 as an emergency measure

## REQUEST FOR UNANIMOUS CONSENT

Mr Francis was granted unanimous consent that the following article be ordered printed in the Journal:

## WHEN DOES AN AMERICAN CEASE TO BE AN AMERICAN

Does he cease to be an American when his citizenship is revoked?

When of his own volition, he fails to use his natural resources and depends on the government (the people) for his support and thus becomes a drag on the nation?

Or does it cease when he fails in his duties as a citizen to vote, or to take interest in his government and in his elected representatives?

When he knowingly allows his elected representatives, or others to take exception to the law for personal gain, or for the gain of special interests? Does it make a difference if the special interest is a person, group, corporation, or foreign power?

Does it occur when he fails to take action for the safety and well-being of his nation, state, individual, related or not related to himself?

Or when his omission or failure to act allows danger or disfavor to fall on his nation or his people?

Does it occur when in his mind he takes up the cause of an enemy, or in his words, or in his actions?

Does it occur when he fails to defend his nation against its enemies?

Does it occur when he gives aid to the enemies of his nation?

Or does it cease when he takes up arms against the United States for purely personal reasons, or for a foreign power? Does it make a difference if the weapons are words and not guns?

*We are at war,* as much today as we were on December 7, 1941. *We are at war with Communism,* not by our desires, but by the doctrine and by the declaration of the proponents of Communism! We do not want this war, but we cannot refuse it, because to refuse it is to surrender our freedoms, and very likely our lives to the cause of world conquest by the Communist Conspiracy

At what point does a man cease to be an American? This should be the concern of every person in this nation, for without a firm belief in God, in the American way of life, in our Declaration of Independence, in our Constitution, and in our Bill of Rights he has already taken his first step in the loss of his American Citizenship

### COMMUNICATION FROM SAN FRANCISCO LABOR COUNCIL AFL-CIO

SAN FRANCISCO LABOR COUNCIL AFL-CIO
SAN FRANCISCO, April 28, 1961

*Hon Charles H Wilson*
*Member of the Assembly*
*State Capitol, Sacramento*

DEAR ASSEMBLYMAN WILSON. The Labor Council is concerned lest the main point of its resolution of April 14 be misunderstood

Only a few weeks remain in this session of the Legislature The people of California face serious problems in many important areas of life and they look to the liberal majorities of the Legislature for decisive action, consistent with the promises that were made in the course of their campaigns.

We are not unaware of the kind and source of obstructionism and delay, both in the Legislature and outside But that kind of opposition must not be allowed to prevent the adoption of a legislative program that meets the people's many needs

Your understandable concern over the picketing of two Assemblymen's homes, it seems to us, has little bearing on the main question You may question the propriety of such acts, but you cannot challenge the right of citizens to so act We question the propriety of legislator's describing the actions of citizens as "Hitler-like" but we cannot deny your right to indulge in such descriptions

But the act of picketing does not in any way change the problems that face the people of California, nor the need for a forward-looking legislative program to meet them The need for A B 17, to cite only one

instance, has not changed; if it was worthy of support before the act, it is still worthy of support

No, the real question is what are we going to do about strengthening our school system, about housing for low and middle income families, about medical care for the aged and necessary improvements in old age assistance, about ending discrimination in housing What is happening to proposals for needed improvements in unemployment insurance, workmen's compensation, disability insurance, or in meeting the needs of workers displaced by automation? How can adequate public hearing be given the vital reapportionment bill in the time remaining? Or to the budget which contains the State's answer to the needs in many areas?

This is the point to which the Labor Council resolution was addressed, this is the appeal it made to the legislators to whom we have every right to look for help and for leadership And it is the point on which every Member of the Legislature will in the end be judged

Since your letter to us was spread in the Journal, may we ask you to extend us a similar opportunity?

Sincerely yours,

GEORGE W JOHNS, Secretary
SAN FRANCISCO LABOR COUNCIL

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Levering was granted unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal

## OPINION OF THE LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, April 30, 1961

*Hon Harold K Levering*
*Assembly Chamber*

**Assembly Bill No. 425· Labor Injunctions—No. 15878**

*Question*

DEAR MR LEVERING You have asked whether the amendments of Assembly Bill No 425 adopted in Assembly April 28, 1961, change the opinions we previously gave you on April 12, 1961, with respect to this bill You further wish to know what change in our digest would be required to reflect the amendment

*Opinion and Analysis* *

Assembly Bill No 425 was amended in Assembly on April 28, 1961, and a Section 4 was added to the bill The section provides, generally, that the provisions of the bill do not supersede but on the contrary continue in effect the provisions of Section 1126 of the Labor Code. Section 4 of the bill then quotes Section 1126 in its entirety. Section

* Our opinions to you on April 12, 1961, dealt with A B 425 and 426 Inasmuch as only A B 425 has been amended, our opinions insofar as they related to A B 426 have not changed

1126 of the Labor Code provides, generally, that collective bargaining agreements shall be enforceable at law or in equity, and that breach of such agreements shall be subject to the same remedies, including injunctive relief, as are other contracts

On April 12, 1961, we gave you our opinions with respect to four questions concerning Assembly Bill No 425 We believe that the addition of Section 4 to the bill by the amendments of April 28, 1961, changes our opinions previously given you with respect to Questions No 3 and 4 but not with respect to Questions No 1 and 2 As we deem our conclusions with respect to Question No 4 controlling of Question No 3, we will consider Question No 4 first

Your Question No 4, on April 12, was whether, if Assembly Bill No 425 was enacted, it would be possible for an employer to secure, pursuant to Section 1126 of the Labor Code, an injunction in order to prevent a breach of a collective bargaining agreement We concluded that the provisions of Section 1140 as added by the bill constituted a subsequent special statute limiting injunctions and would control over the provisions of Section 1126, a prior general statute regarding enforcement of collective bargaining agreements, and that therefore, depending upon the factual situation presented, breach of a collective bargaining agreement might or might not be enjoinable under Section 1140 as proposed by Assembly Bill No 425

In our opinion Section 4 of the bill, added by the April 28, amendments and relating to Section 1126, alters this conclusion We believe that a court would now conclude from the plain language of Section 4 that it is the intent of the Legislature to except the enforcement of collective bargaining agreements pursuant to Section 1126 of the Labor Code from the application of Assembly Bill No 425 We are unaware of any reason why Section 4 as added by the amendments of April 28, 1961, would not be effective in this regard

With regard to your Question No 3, on April 12, you asked whether, if Assembly Bill No 425 were enacted, it would be possible to enjoin a strike in violation of a "no-strike" provision in a collective bargaining agreement We concluded that it would not be possible to enjoin such a strike We reached this conclusion based upon our belief that subdivision (b) of Section 1140 as it would be added to the Labor Code by the bill would be construed to prohibit the enjoining or restraining of strikes

We believe that the addition of Section 4 to the bill, respecting Section 1126 of the Labor Code, alters the foregoing conclusion. The California Supreme Court has held that breach of a "no-strike" clause in a collective bargaining agreement may be enjoined pursuant to Section 1126 (*Charles H Benton, Inc.* v *Painters Union* (1955), 45 Cal 2d 677, 682) It follows, therefore, from our foregoing conclusion with respect to Question 4 that one of the effects of Section 4 of Assembly Bill No 425 would be to except restraining orders and injunctions as to breaches of "no-strike" clauses from the application of Section 1140 as it would be added to the Labor Code by the bill.

Finally you have asked what change in our digest would be required to reflect the amendments We believe the following language would reflect the change:

"Provides that provisions of the bill do not supersede but to the contrary continue in effect provisions of Sec 1126, Lab. C., relating to enforcement of collective bargaining agreements at law or equity, including injunctive relief"

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By SHERWIN C MACKENZIE, JR., Deputy

## THE RECOMMENDATIONS AND FINDINGS OF THE WAYS AND MEANS SUBCOMMITTEE TO INVESTIGATE THE DESTRUCTION OR OTHER DISPOSITION OF SURPLUS STATE TEXTBOOKS IN THE 1961 LEGISLATIVE SESSION

**Special Subcommittee on Textbooks**
**Ways and Means**
**California Legislature**

**April 27, 1961**

### BACKGROUND OF THE HEARINGS

At the beginning of the 1961 Session, two unanticipated problems relating to the financing of public schools were brought to the attention of the Ways and Means Committee The first of these was the announcement that 185,000 unused language and music textbooks had been burned by the Department of Education in January with an unknown quantity having been destroyed by other means in earlier years

Secondly, it was disclosed that since 1929 California high schools have purchased books at a 20 percent discount from publishers rather than a 25 percent discount enjoyed generally throughout the country

Accordingly, under the provisions of House Resolution No 119—Coolidge and House Resolution No 120—Unruh (1961 Session), a subcommittee of the Ways and Means Committee was established to investigate the problem This subcommittee consisted of the following membership

Jesse M Unruh, Chairman
Carlos Bee
Charles J Conrad
Glenn E Coolidge
Lester A McMillan
Nicholas C Petris
Thomas M Rees
Bruce Sumner
Gordon H Winton, Jr

Other Members of the Assembly attended some of the textbook hearings including

Mrs Pauline L Davis
Edward M. Gaffney
Frank Lanterman

A series of five public hearings were held between March 6, 1961 and March 27, 1961 during the course of which the following witnesses testified·

A. Alan Post, Legislative Analyst
Roy E Simpson, Director of Education
George Levison, President, Cardozo Bookbinding Company, San Francisco
Richard J MacLaurey, of Pillsbury, Madison and Sutro; Legal Counsel for Ginn and Company
John E Carr, Director, Department of Finance

Austin McCaffrey, Executive Secretary, American Textbook Publishers Institute
Thomas Braden, Member, State Board of Education, and Publisher, *Oceanside Blade-Tribune*
Ralph N Kleps, Legislative Counsel
William H Merrifield, Auditor General
Paul E Gallagher, State Printer
Arthur W Collins, Assistant Director, General Services, Department of Finance
Dr. Wallace W Hall, Chief of the Division of Public School Administration, Department of Education
Dr. Ronald W. Cox, Assistant Chief of the Division of Public School Administration, Department of Education
Dr Ivan R Waterman, Chief of the Bureau of Textbooks and Publications, Division of Public School Administration, Department of Education
Ralph Titus, Assistant State Printer
Mrs Gertrude R Goodrich, Principal, Theodore Judah School, Sacramento; Member, State Curriculum Commission

**"LAYERS OF INSULATION"**

During the course of the hearings, it became evident that co-ordination of the entire textbook selection, printing and distribution process has been handicapped by a separation of the functions and responsibilities involved

It also became alarmingly evident that there has been a general lack of concern for the cost to the taxpayers on the part of all who are involved in these various processes The Department of Education has overestimated book requirements and has made no effort to curtail the orders nor attempt to see that the books are put to some good use when they are determined to be in surplus supply, the State Board of Education, through the State Curriculum Commission, has adopted books without regard to disposal of existing stocks; and the State Printing Plant has overcharged and overrun printing orders with apparently no effective communication between it and the Department of Education on this problem

These problems of lack of co-ordination and consideration of cost and conservation of money were found to be fostered by the fact that each agency and function involved operates in a relatively isolated sphere of activity, and that the Legislature and the public are kept well separated from dealing with the textbook function by a series of insulating factors as follows

1 The Constitution has in effect insulated the State Board of Education by giving it the power over adoption of free textbooks.

2 Although the State Board of Education makes the textbook adoptions, this action appears to be largely perfunctory due to the fact that, according to the Education Code, "The State Curriculum Commission shall recommend to the State Board of Education specifications for textbooks for uniform use in the schools of the State so that the textbooks adopted shall conform to the minimum standard for courses of study." The effect here also has been to insulate segments of the selection process

from one another in that the State Board of Education does not appear to give adequate consideration to the cost aspects of the textbook adoptions

3 After textbooks have been adopted, the State Department of Education appears to perform its functions of estimating requirements and distributing books without adequate information as to the true needs of the school districts and the acceptability of the books Furthermore, those involved in the selection process and those involved in the distribution process are located in different divisions of the State Department of Education

4 The State Printing Plant as a division in the Department of Finance operates out of a revolving fund which is not given regular budget review, and the plant establishes its own charges against agency printing appropriations Problems of overruns, overcharges and the element of customer satisfaction guaranteed in acceptance of the product are obscured under these procedures because normal buyer-seller relationships do not exist in the state printing process This insulation, coupled with a lack of co-ordination and even a lack of communication between the agencies, has substantially contributed to the textbook problems which have been brought to light in these hearings

## RECOMMENDATIONS

### Department of Education

1 It is recommended that the Department of Finance's Division of Organization and Cost Control and the Department of Education devise a new procedure for local school districts to use in requisitioning elementary textbooks This procedure should be based on district reports which show their previous use of free elementary texts as well as reports of their actual and projected requirements Replacements should be figured from a standard with allowances made for the acceptability of each title

2 It is recommended that this procedure include allowances for the following 10 factors.

(1) Total enrollment growth
(2) Growth by district and by school
(3) Growth by grade level
(4) Length of the life of the book
    (a) Use
    (b) Weight
    (c) Quality
    (d) School practice in care of book
(5) Extent to which information in book is up-to-date
(6) Books per pupil ratios
(7) Class size
(8) Overruns and underruns
(9) Acceptability of book
(10) Popularity of book

3 It is recommended that the Department of Education devise a procedure designed to clear existing warehouse stocks before new adoptions are delivered

4 It is recommended that the Department of Education account for all elements of the cost of free elementary textbooks, including warehousing, distribution, operations of the Bureau of Textbooks and Publications, allowances for unused books, etc

5 It is recommended that the Department of Education redefine its basis for estimating need for teachers' manuals in order to eliminate wastage

6 It is recommended that the teachers' editions, as such, incorporating both the pupils' edition and the teachers' manual be eliminated and that the inexpensive and often free paperbound teachers' manuals be used.

**State Board of Education**

7 It is recommended that the State Board of Education be required to request that all offers to lease or sell textbooks be made on the basis of: (a) completed books, (b) printing plates and royalty charges for state printing, and (c) books privately printed and bound in California to insure competition and a basis for comparing costs, and that legislation be passed which will make this possible

8 It is recommended that the State Board of Education require a reporting system from the State Curriculum Commission which would permit the board to compare directly the educational quality of the various titles with the relative costs

9 It is recommended that the State Board of Education make an effort to reduce the long period now involved in the textbook selection, printing and distribution processes and tighten up the procedure for receipt and acceptance of offers from publishers

10 It is recommended that the State Board of Education call for alternate offers based upon (a) the inclusion of clauses within the contracts restricting distribution of state printed texts, and (b) the exclusion of the restrictive clauses from the contracts This should demonstrate any financial advantage which might accrue to the State from the presence of the restrictive clauses

11 It is recommended that the Superintendent of Public Instruction be appointed by the State Board of Education so that he is directly responsible and accountable to them

**State Printing Plant**

12 It is recommended that impetus be given to completing the revision of the cost accounting system of the State Printing Plant and that, upon completion of this installation, the Department of Finance submit a report to the Legislature showing that all costs are fully and accurately accounted for

13 It is recommended that an appropriate ceiling be placed on the Printing Revolving Fund so that all future surpluses revert to the General Fund

14 It is recommended that a continuing control section be added to future budget bills similar to that of Section 15 5 of the Budget Act of 1959 which would recapture any accumulation of surplus in the State Printing Fund from any source including depreciation of equipment so that the Printing Plant must justify equipment purchases before the Legislature

15 It is recommended that the State Printing Plant submit to the Department of Education, with each estimate of the printing of textbooks, the cost differential between printing one year's book requirements and two years' book requirements including the computation of "makeready" costs

16. It is recommended that the State Printing Plant be instructed to improve its estimating procedures and keep the overruns within a 2 percent limit for any one printing per title

17 It is recommended that the State Printing Plant and the Department of Education work together in an attempt to co-ordinate the scheduling of printing and the distribution of textbooks; and to determine the most economical number to print but not bind in the critical final printing before the end of an adoption period

18 It is recommended that these two agencies appraise the relative merits and costs of using paperbacks instead of conventional fabric-backed textbooks in appropriate cases

**General**

19 It is recommended that favorable consideration be given to Assembly Bill No 2013 now before the Legislature This bill would provide that textbooks will be sold to California, including all costs of transportation, at prices which shall not exceed the lowest price at which the seller offers the books for sale to any state or school district in the United States

20 It is recommended that favorable consideration be given to Assembly Bill No 526 now before the Legislature This bill would provide for the adoption by the State Board of Education of a multiple list of recommended basic textbooks for use in the elementary schools of California The bill would eliminate the present practice under which method a single basic uniform textbook is adopted, by subject, for the various grade levels It is believed that this extension of the textbook adoption process to one of multiple adoptions will provide competition through which it will be possible to obtain more realistic information on costs

21 It is recommended that a study be conducted by the interim Ways and Means Committee which will continue the examination of all phases of textbook adoption, purchasing, printing, distribution, use and disposal, and that particular attention be given to

a The pooling of orders to secure quantity discounts in the purchase of high school textbooks

b The idea of purposely underprinting the required number of textbooks and purchasing the final requirements at the end of an adoption to prevent surpluses

c The effective use by elementary school districts of all free textbooks with special reference to the utilization of the supplemental orders currently being placed for the readers for which the adoption will expire on June 30, 1962

d The fiscal aspects of the current policy of adopting 18 different books for first grade readers at the current rate of 7½ books per child

e The desirability of requiring that when school district superintendents sign the purchase requisitions for free elementary textbooks, they certify under penalty of perjury that the books ordered are the true requirements (new and replacement) which can be permitted

22 It is recommended that the interim Ways and Means Committee also examine

a The purchase of all equipment and supplies by the school districts

b. All the printing done by the State Printing Plant

**FINDINGS**

1. Approximately 185,000 obsolete language and music textbooks, representing a printing and storage cost of $110,500 have been destroyed since the first of this calendar year through burning

2 The adoption period for these books expired on June 30, 1960.

3. The administrative authorization for disposal of the books had been given on August 8, 1960, although the precise manner of their disposition was left to the discretion of the staff member in charge of the warehouse, so that he might determine the most economical manner of disposal

4 The Department of Education states that contract restrictions precluded the distribution, sale, or gift of these books after the period of adoption.

5 Unsuccessful attempts were made to dispose of the paper contained in the books for use in the manufacture of paper or pulp products

6 The burning took place from the end of 1960 until February 3, 1961 The Department of Education claims that the only alternative would have been to acquire additional storage space for storing them.

7. During the seven-year period from 1954 through 1960 and early 1961 a total of 832,755 books were destroyed, or 2 72 percent of the total of 30,564,370 books manufactured or acquired

8 All of the books were state printed books However, not included were 2,736 copies of *Fish and Fishing* of the state-printed science series terminated June 30, 1959, which are being held pending the outcome of negotiations with the publisher to accept the books for use outside of California There were also 1,841 copies of science unitexts which expired June 30, 1959, but through readoption were transferred to current stock

9 By *series* adopted, the percentage of the total number of books adopted that were destroyed ranged from a low of 0 12 percent for the History and Geography series that was terminated on June 30, 1956, to a high of 7 58 percent for the Handwriting series that was terminated on June 30, 1959

10 With respect to all individual titles, including teachers' manuals, 31 of the total 107 titles were utilized 100 percent and an additional 22 titles were utilized in excess of 99 percent.

11 Utilization of the remaining 54 titles ranged from this point downward to a low of 52 13 percent for the teachers' manual *Let Music Ring*

12. Poor utilization of teachers' manuals was very pronounced throughout this period Although the total number of teachers' manuals destroyed is small in comparison to the total number of books manufactured, in many cases nearly 50 percent of the total number of manuals printed were destroyed As shown above, the highest percentage of destruction was for the eighth grade *Let Music Ring* manual in which 47 87 percent of the total number printed were destroyed

13 The State Board of Education indicates that it had no knowledge of the intent to burn the books nor the actual burning and apparently had no knowledge of the entire problem of disposal of obsolete books.

14 The Department of Education construed the disposal of books to be an administrative problem rather than a policy problem for consideration by the State Board of Education

15 The State Board of Education in its meeting in Fresno on March 1, 1961, passed a resolution stating that it "deplored the burning or other wasteful disposal of textbooks and directs that it cease forthwith"

16 The State Board of Education proposed that the Department of Education make every effort to supply the texts to California school districts as supplemental texts and to pay the necessary royalties to permit this distribution

17 The State Board of Education also directed the Department of Education to submit a constructive solution for the problem of surplus texts with recommendations for legislative changes which would preclude this from happening in the future

18 No books are scheduled for destruction during 1960-61 nor 1961-62 as no series will expire until June 30, 1962 However, basic and supplementary textbooks in reading which were adopted on April 17, 1953, for a period of not less than six nor more than eight years beginning July 1, 1954, will expire June 30, 1962 As of January 31, 1961, there were 979,541 of these readers on hand in the warehouse The Department of Education estimated that the stock on hand as of June 30, 1961, would be approximately 972,000

19 The numbers of books actually put into use by school districts is not known The Department of Education assumes that approximately 95 percent of the books delivered to school districts are actually used, but there is no followup to determine the true figure nor its effect on total requirements. In very rare cases, a district's excess books have been returned to the state warehouse and redistributed

20 The size of the textbook warehouse inventories have increased substantially over the past several years It would appear that crowded warehouse facilities could be relieved by shipping immediately to school districts rather than accumulating excessive stocks It would also appear that every effort should be made to contract with the suppliers of purchased books to have them shipped directly to the school districts

21 A total of 207,736 books or 7 percent of the final printings of the books destroyed for the past four years were overruns State Printing Plant cost records do not reveal the true cost of this practice Overruns frequently have amounted to 10 percent more than the number ordered.

22 There has been no attempt to include a proration of warehouse costs and operating expenses, including freight, rental and equipment;

and to charge the cost of destroyed books against the cost of books actually distributed

23 Teachers' manuals as a category of books appears to have been grossly overestimated. For example, the department printed teachers' manuals at the rate of one manual for every 11 music students, i e , 18,555 manuals to 198,682 textbooks, and then destroyed about half the manuals

24 The Department of Education has made some changes in recent years in an attempt to improve the basis of estimating requirements Two specific changes involve (a) an extension of the number of printings per adoption and (b) a survey of the acceptability of the books at the end of the third year estimated by evaluation of questionnaires designed to determine teachers' reactions

25 The exact use made of this survey has not been made clear with regard to specific cases in the revision of textbook requirements for current adoptions It appears that more attention should be given to this function, and that the sample should be made in time to readjust estimates

26 No cost data is available which can equate accurately the increased printing costs resulting from shorter runs on one hand against the decreased costs of longer runs, which latter, however, should reflect the cost of printing unused books, including related storage and handling costs.

27 The high schools of California are receiving only a 20 percent discount for the books they purchase from book publishers because of a so-called transportation differential, whereas, schools in other states are receiving 25 percent discounts and, through adoption procedures, much greater effective discounts This is also true with respect to the supplementary books which elementary schools purchase directly from book publishers

28 This practice stems from the language in the last phrase of Section 9953 of the Education Code whose original wording, and the body of which, was intended to secure the lowest price available to any purchaser anywhere in the United States Section 9953 of the Education Code reads as follows

> "The bond shall provide that the publisher will furnish the books offered by him and listed by the State Board of Education, to any high school district at a price which shall not exceed the lowest price the publisher has made for the books offered anywhere in the United States *under similar conditions of transportation and marketing*" (Italics added )

29 A 5 percent differential is the figure which has been uniformly inserted in the state contract since the directions incongruously state that the differential is "not to exceed 5 percent of the list price" and in the next sentence states that the price shall "be computed by adding 5 percent of the list price to the new " price, regardless of what the freight differential actually may be

30 The publishing companies acknowledge that they accepted the 5 percent freight differential because it was offered by California, not because this is the actual freight differential. Abandonment of the

differential for the future was announced by the publishers at the hearings

31 The Curriculum Commission, in its evaluation of texts submitted for any adoption, has presented its findings to the board on the basis of rankings In the future, the commission intends to apprise the board of its recommendations in terms of numerical ratings rather than a ranking This, it is felt, will assist the board in selecting a text, particularly in relating price differences to quality differences The more precise the commission's recommendations can be, the more useful information the board will have at its disposal to guide it in determining which book or books to select

32 The Curriculum Commission does not presently contemplate any substantial revision of its evaluation process nor the long selection time span

33 The Printing Division in the Department of Finance performs all state printing, which consists primarily of printing for the Legislature, publication of public school textbooks for the Department of Education and printing and related services for all state agencies. All operating costs of the Printing Division are paid out of the Printing Revolving Fund, a working capital fund, which is reimbursed by billing state agencies for costs of printing jobs done for them The Legislature makes no regular annual appropriation for support of the Printing Division but occasional appropriations are provided to augment the working capital

34 Since 1949, several legislative committees, the Legislative Analyst and the Auditor General have submitted reports which criticized certain aspects of accounting operations of the Printing Division as departures from sound and proper methods of accounting A few of the major criticisms may be summarized as follows:

a Financial statements do not include details of operating expenses as to provide sufficient information to measure efficiency of operations and to exercise control over expenses

b. Certain management reports which are necessary for measuring efficiency of operations, justifying employment of additional personnel and providing a basis for purchasing equipment are not regularly prepared for management While the Printing Division has adequate information for such reports, management has not called for these reports due to a lack of concern, the delay in producing the reports and limitations of its manual accounting system The most important of these reports include:

(1) Machine Utilization Report
(2) Labor Utilization Report
(3) Job Cost Summaries—Detail

c. Cost center procedure is based on the Printing Industry of America recommendation. All costs of the cost center, however, are not captured, including information which would be provided by labor utilization and machine utilization reports. Not all costs computed in the cost center are real or true costs

d Production costs are based on reports on work-in-process and time and impression analysis, which constitute two of the three major reports (Monthly Cost Statement is the third) utilized regularly by the State Printer. These reports reflect a limited concept in that they omit pertinent cost data provided by labor utilization and machine utilization reports.

e Job billings are based on recaps of invoices and other documents as accumulated in the job folder and are sent to the State Controller who bills the agency promptly The agency receives billing detail from the Printing Division from one to three months later which puts them in an unfavorable position. Billings often have little relation to estimates.

f Billing rates are not based according to a cost system based on recovering and distributing all costs accurately, with the result that surpluses have accumulated in the revolving fund which were used to expand operations by increasing working capital and purchasing new equipment.

35. On March 10, 1961 after the March 6th and March 8th meetings of the Ways and Means Committee on Textbooks, the State Department of Education sent a form letter to school districts with a special requisition blank for additional copies of the readers for which the adoptions will expire on June 30, 1962.

As of April 24, 1961 special requisitions have been received which resulted in the further distribution of 241,453 pupils' editions and 13,099 teachers' manuals As of that date, most of the additional orders were received but a few more may still be forthcoming. The balance on hand of pupils' editions as of April 24, 1961 was 585,311 and teachers' editions 43,304, or a total of 628,615. This is approximately 344,000 fewer readers than were originally estimated would be on hand as of June 30, 1961.

36. It appears that 1960-61 requisitions of these readers with the supplemental orders have been in excess of previous requirements and may well be primarily a means for creating surpluses in the districts rather than in the state warehouse For example, the Sacramento City Unified School District on the referenced supplemental order for readers accounted for a total of 12,053; and the 1959-60 orders were for 8,509 of these books. In 1960-61 when stimulus was applied to the districts to order these books (including a special order dated December 6, 1960) 54,482 of these particular books were ordered in addition to the March 20, 1961 supplemental order for 8,722 books The 1960-61 total of 63,204 books is thus *524 percent* of the 1958-59 order and *743 percent* of the 1959-60 order

37. In some cases more books are shipped than are requisitioned by the district, so that it is necessary for the school district, after counting the shipment, to issue another requisition for the excess rather than return the books to the state warehouse *Thus, the textbooks whose original requirements were overestimated by the Department of Education and overprinted by the State Printing Plant are also overordered by the school districts and overshipped by the state warehouse.*

38. It is clear that full use will not be made of the seven "old" first grade reader titles which were considered so poor that readoption was

advanced by one year so that they might be replaced The "new" readers to be used after June 30, 1961 in the first grade consist of 12 basic readers distributed on the basis of one book for every two children and six supplementary readers distributed on the basis of one book for every four students (i e, a total of 18 different books distributed on the basis of 7½ books per child for every first grade enrollment). How can the first graders adequately use the 7½ new readers plus the 7 old readers furnished by the State plus whatever other readers may normally be purchased from district funds?

39 In order to stop the destruction of textbooks and to make surplus obsolete textbooks available for educational purposes, including use outside the State of California and outside of the United States, proposed legislation was introduced on March 7, 1961 In essence this legislation would prohibit the burning or other destruction of obsolete unusable textbooks by school districts if the books can be used for any educational purposes or can be donated to public agencies or if the books can be sold at a nominal price to international civic or service clubs to be distributed without charge for educational purposes.

**COMPARISON OF ASSEMBLY BILL NO. 9 AS PASSED BY THE ASSEMBLY AND AS ENROLLED**

**Letter of Transmittal**

STATE OF CALIFORNIA,
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, May 2, 1961

*Hon Frank Lanterman*
*Assembly Chamber*

**Assembly Bill No. 9—Penalties for Narcotic Offenses—No. 15988**

DEAR MR LANTERMAN Pursuant to your request we have prepared the enclosed comparison of Assembly Bill No 9 as first passed by the Assembly (as amended in Assembly February 17, 1961) and as enrolled

We believe that the principal changes made in the Senate can be summarized as follows

(1) The Senate added provisions making possession of narcotics for sale a separate offense, punishable more severely than simple possession;

(2) The numerous provisions in which a greater penalty applies if the offender has a prior narcotics conviction, and a still greater penalty applies if the offender has two or more prior narcotics convictions were modified so that only a prior conviction of an offense punishable as a felony causes such increased penalties to apply;

(3) The provisions relating to offenses involving minors were greatly revised;

(4) The Senate added an amendment of Section 13202 of the Vehicle Code, making revocation of a driver's license mandatory for most of the offenses otherwise affected by the bill when a motor vehicle is involved in, or incidental to, the violation.

Very truly yours,

RALPH N KLEPS, Legislative Counsel

"SECTION 1 Article 4 5 (commencing with Section 4725) is added to Chapter 2 of Part 2 of Division 4 of the Labor Code, to read

Article 4 5 Rehabilitation

4725 As used in this article "rehabilitation" means

(a) All medical, surgical and hospital treatment, including nursing, medicines, medical and surgical supplies, crutches, and apparatus, including artificial members, reasonably required to enable an injured employee to return to the occupation in which he was engaged at the time of injury with the least possible loss of earnings, present or future, or to enable him to engage in a new occupation in the event his injury should preclude a reasonable return to the occupation in which he was injured;

(b) A weekly indemnity payment as provided in this article

4726 Where the injury is such that the employee is unable to return to the occupation in which he was engaged when injured, either in whole or in part, the employer shall furnish rehabilitation as provided by this article

4727 Rehabilitation shall be allowed

(a) If the employee cannot reasonably return to, or perform the duties of the occupation in which he was engaged when injured

(b) If the employee is able to return to the occupation in which he was engaged when injured, but with such physical handicap that his earnings are substantially impaired, provided there is a reasonable probability that his earning capacity can be improved

(c) If the employee's ability to compete in an open labor market can be enhanced, provided the injury has caused a permanent disability of 35 percent, or more, or the loss of a hand, arm, foot, leg, or eye.

4728 In determining whether an injured employee is entitled to rehabilitation, the commission may take into consideration the fact that the employee, when injured, was not performing his regular and usual duties, but was engaged in temporary duties not usually performed by him

4729 The injured employee also is entitled to recover from the employer rehabilitation indemnity based on the following:

(a) If the employee is receiving temporary disability indemnity concurrently with rehabilitation, he shall continue to receive such temporary disability indemnity without regard to Section 4656, unless or until otherwise ordered by the commission.

(b) If the employee is receiving permanent disability indemnity concurrently with rehabilitation, he shall continue to receive such permanent disability indemnity at least until rehabilitation has terminated During such period of rehabilitation, the weekly indemnity payments provided by this section are in lieu of any payments due under any award for permanent disability

(c) If the employee is receiving his wages in full during rehabilitation, the employer shall not be liable for rehabilitation indemnity during such period

(d) If subsections (a), (b) and (c) do not apply, then the employee is entitled to recover from the employer a weekly payment during the entire period of rehabilitation in the same amount and in the same manner as permanent disability indemnity, provided, however, if the employee is receiving indemnity on a temporary partial basis during a period of rehabilitation, he shall receive rehabilitation indemnity on a wage loss basis

(e) If the employee is receiving a life pension benefit, then such payment shall be increased to the same amount the employee would have received for his normal permanent disability indemnity weekly payment, during the period of rehabilitation

4730 In addition to all other indemnity provided by Divisions 4 and 4 5 of this code, an injured employee who is successfully rehabilitated under this article shall recover from the employer 10 weeks of indemnity based on his weekly rate for normal permanent disability indemnity The commission shall determine whether the employee has made a reasonable effort to return to work and to remain at work, if so requested by any party in interest, before allowing such additional indemnity

4731 The commission has a continuing jurisdiction over rehabilitation benefits or indemnity, unlimited by the provisions of Sections 5410, 5803 or 5804, or any other section of this code inconsistent with the purposes of this article

SEC 2 Section 4753 6 is added to the Labor Code, to read

4753 6 Where an employee is receiving or reasonably may be expected to receive a permanent disability rating which would entitle him to an award against the Subsequent Injuries Fund, and it reasonably appears that rehabilitation benefits or the furnishing of a prosthesis or equivalent might reduce or eliminate any liability of the Subsequent Injuries Fund, the Attorney General may refer the employee to the Bureau of Vocational Rehabilitation and it shall be the duty of the bureau to furnish the benefit directed by the Attorney General

SEC 3 Section 11732 7 is added to the Insurance Code, to read

11732 7 The commissioner may allow a reduction in premium to any employer who maintains a satisfactory program for re-employment and rehabilitation of any of his employees who may sustain injury arising out of and occurring in the course of their employment Any such reduction shall be made in accordance with rules made and adopted by the commissioner after consultation with the Industrial Accident Commission The commissioner may also take into consideration the program of an employer directed toward employment of the physically handicapped "

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Hegland was granted unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal.

## OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, May 3, 1961

*Hon Sheridan N Hegland*
*Assembly Chamber*

**School District Governing Boards: Assembly Bill No. 26—No. 14541, 15584**

*Question*

DEAR MR HEGLAND. In connection with Assembly Bill No 26 (as introduced) of the 1961 Regular Session, you have asked:

(1) Is the bill constitutional?

(2) Would it authorize school district governing boards to enter into collective bargaining agreements?

*Opinion*

In our opinion·

(1) The courts would hold the bill to be constitutional

(2) Governing boards of school districts could enter into collective bargaining agreements to the same extent as is permitted under present law.

*Analysis*

(1) Assembly Bill No 26 would add Section 1011 to the Education Code, to read as follows·

> "1011 The governing board of a district shall assume those powers, perform those duties, and exercise those responsibilities which are assigned to it by law *In addition thereto the board may exercise such responsibilities as it may find necessary for the improvement and more efficient functioning of the educational program in the district and as are consistent with the policies, purposes and objectives stated or implied in the Constitution of the State of California or the Education Code;* provided, however, that the board may not assume any power or exercise any responsibility which is specifically prohibited to it by law." (emphasis added)

The only serious constitutional problem presented by the bill, in our opinion, is whether it is an excessive delegation of authority to school district governing boards without proper standards to guide the boards A delegation of "absolute legislative discretion" to an administrative body is improper and void (*Wotton* v *Bush*, 41 Cal. 2d 460, 468; and see 2 Cal Jur 2d 97 et seq ) This principle is applicable to delegations of power to school district governing boards, as well as to other agencies (see *Davis* v. *County of Los Angeles*, 12 Cal 2d 412, 425)

No problem arises, in our opinion, under either the first sentence of the bill or under the last clause Both state the obvious. that is, that governing boards must do what the law requires and cannot do what the law prohibits The underscored language, however, does raise problems of interpretation and problems of constitutionality.

The purpose of this "additional powers" clause is not immediately apparent from a reading of its terms It has been suggested, however, that the intent of this clause is to increase the powers of school boards beyond those which the Legislature has covered by specific legislation * If it were concluded that this language could, in effect, free school boards from the need to find authority for their acts in laws passed by the Legislature, it would constitute a delegation of authority far beyond that which has been sustained by the courts If, on the other hand, it were concluded that this language means that school boards are to have, in addition to powers specifically conferred upon them, all powers *reasonably and necessarily implied from those delegated powers,* it would merely restate the existing law (*Bowman* v *L A. City Bd. of Education* (1941) 46 C A 2d 319, 324; (1947) 10 ops Cal. Atty. Gen 18.)

* This is the concept of a so-called "permissive" Education Code It was described as follows in the 1959 Report of the Joint Legislative Committee for the Revision of the Education Code, at page 10

"1 A large number of the respondents felt that the entire code should be changed from a mandatory code to a permissive one This held particularly true for school administrators at the local levels It was generally felt that mandatory or prohibitive provisions should be spelled out and, unless otherwise explicitly stated, school officials should have discretion to take action There was considerable agreement that if this were done the size of the code would be substantially reduced

See also the analogous "permissive" or "directory" provision discussed in relation to your Assembly Bill No 463 at page 1668 of the Senate Journal for this session

As between these alternatives we conclude that the courts would not assume that the Legislature intended by the "additional powers" clause to make a delegation of unconfined legislative power to school boards, but would decide rather that the clause was intended to insure that school boards have all powers which can reasonably and fairly be implied from those specifically granted So viewed, we do not think that the bill would present any constitutional problem and that it would be sustained by the courts

(2) With respect to the question of whether school district governing boards would, under the terms of the bill, be empowered to enter into collective bargaining agreements, we have previously advised you that language of the kind used in Assembly Bill No 26 would be construed in such a way as to require that the power sought to be exercised by a school board under the bill be one that is fairly implied from other powers specifically conferred on the board by the Education Code (See our opinion to you dated March 29, 1960, Request No 1553)

Under existing law school district governing boards may voluntarily enter into collective bargaining agreements, although, since they exercise a part of the sovereign power of the State and deal with public employees, collective bargaining agreements entered into by school district governing boards cannot serve to legally bind the district with respect to many of the matters ordinarily covered by such agreements entered into by private employers.* The bill, in our opinion, does not change the powers of school boards in this respect

### Communication Addressed to Committee Members

ASSEMBLY, CALIFORNIA LEGISLATURE, May 3, 1961

*To All Committee Chairmen:*

The interim committee program is now in the planning stage and I expect to call on each chairman for pertinent information during the next few weeks

You are requested to submit not later than May 10, 1961, a very brief statement setting forth the number of bills which were introduced as a direct result of studies conducted and reported by your committee in your final report during the last interim period. Will you also include a brief summary of each bill and indicate what action has been taken on it?

Please give this matter your immediate attention

Very truly yours,

RALPH M BROWN, Speaker of the Assembly

### Communication Addressed to Members

ASSEMBLY, CALIFORNIA LEGISLATURE, May 3, 1961

DEAR MEMBERS. There is no need to remind you that the session is drawing rapidly toward adjournment but I would like to call a critical problem to your attention

It is extremely important that you make absolutely sure that a Senator has been contacted with regard to taking up your bill when it reaches the Third Reading File in the Senate I suggest you take whatever steps are necessary to see that the Senator has on hand an adequate explanation, preferably written, which relates to the bill you have asked him to carry. Many Senators are justifiably reluctant to take up an Assembly Bill if they do not have a proper explanation of exactly what the bill does

I hope you will give this matter some thought for I know you are anxious to have your bills passed without delay

Very truly yours,

RALPH M BROWN, Speaker of the Assembly

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Chapel was granted unanimous consent that the following excerpt from *The Sacramento Bee* be printed in the Journal:

## EXCERPT FROM SACRAMENTO BEE

*The Sacramento Bee,* Thursday, May 4, 1961

### Correcting an Error

In *The Bee* of May 2nd was published an editorial commenting on a bill, AB 2054 by Assemblyman Charles Edward Chapel of Los Angeles County, dealing with the regulation of lobbyists, which the Assembly sent back to committee by a 68 to 8 vote

The editorial erroneously confused the content of Chapel's bill with a measure by another author, AB 1816, which would repeal some statutory requirements for lobbyists to report their expenditures in trying to influence legislation This *The Bee* regrets

In commenting on his measure, Assemblyman Chapel stated:

> My bill was prepared by the office of the legislative counsel in response to my request that they prepare a bill which would put "teeth" into the existing lobby law
>
> The legislative counsel then prepared the bill which gives the committee on legislative representation of each house the right to issue or refuse credentials or to cancel credentials already issued, to persons lobbying for hire
>
> The net effect of my bill is to give each house of the legislature control over the activities of professional lobbyists No lobbyist asked me to put in this bill and I am reliably informed that several powerful lobbyists influenced members to vote against my bill on the floor and send it back to committee in an effort to kill it

*The Bee* is happy to make this correction and to publish Assemblyman Chapel's statement.

It has come to the attention of the Legislature that there are, at present, annexation proceedings under way for the annexation of large areas of noncontiguous territory to various local fire districts in which, although all present legal requirements are being complied with, the residents of the areas proposed to be annexed to the district are not being given adequate notice of the proceedings or an adequate opportunity to protect the annexation of their property to such districts. The Legislature has, therefore, determined that for the preservation of the public peace, health, and safety it is imperative that local fire districts be precluded from annexing noncontiguous territory until it can be determined whether, or how, the rights of residents of noncontiguous territory proposed for annexation to local fire districts can be adequately protected. It is, therefore, imperative that the act take effect immediately."

**OPINION OF LEGISLATIVE COUNSEL**

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, May 2, 1961

*Hon Charles J Conrad*
*Assembly Chamber*

**House Resolution No 189—No 14347**

*Question*

DEAR MR CONRAD You have asked our opinion on the validity of House Resolution No 189 of the 1961 Regular Session which adds the following paragraph to Rule No 24 of the Permanent Standing Rules of the Assembly

> "The Speaker or any Member of the Assembly designated by him may incur such expenses, not exceeding $5,000 per fiscal year, as may be necessary on behalf of the Assembly in connection with ceremonies and other events which are attended by the Speaker or by a Member of the Assembly pursuant to the Speaker's request This paragraph does not include expenses for which a member is entitled to reimbursement under Joint Rules Nos 35 or 36, or which are proscribed by Sections 2 or 23b, Article IV of the Constitution "Expenses" as used in this paragraph constitute expenses of the Assembly within the meaning of Rule No 130 "

*Opinion*

In our opinion the provision added to Rule No 24 by House Resolution No 189 is valid

*Analysis*

The first question is whether House Resolution No 189 violates any constitutional limitation on the Legislature

Rule No 24 of the Permanent Standing Rules of the Assembly is entitled "Funerals and Other Ceremonies and Events" Generally, the rule permits the Speaker or any Member of the Assembly designated

by him to attend funerals and other ceremonies and events in appropriate circumstances, with their expenses, and to incur certain expenses on behalf of the Assembly.

The paragraph added by House Resolution No 189 authorizes the Speaker or any Member of the Assembly designated by him to incur such expenses, not exceeding $5,000 per year, as may be necessary *on behalf* of the *Assembly* in connection with ceremonies and other events attended by the Speaker or the member The expenses constitute expenses of the Assembly which the Committee on Rules is authorized to pay between sessions of the Legislature. The expenses allowed under the paragraph do not include expenses allowed members while attending sessions (Cal. Const Art IV, Sec 23b; Joint Rule No 35), or expenses allowed members on committee work (Cal Const, Art IV, Sec. 37, Joint Rule No 36), or expenses proscribed by Section 2 or Section 23b of Article IV of the State Constitution

Section 2b of Article IV of the State Constitution provides that, except for mileage, no Member of the Legislature shall be reimbursed for expenses except expenses incurred (1) while attending sessions of the Legislature or (2) serving as a legislative committee member after adjournment or during recesses not to exceed a specified number of days

Section 23 of Article IV allows mileage fixed by law not to exceed five cents per mile, and Section 23b provides that members shall receive no compensation for services other than that fixed by the Constitution but allows expenses while attending sessions of the Legislature

Section 37 of Article IV authorizes each house to provide for payment of expenses necessarily incurred by legislative investigating committees and their members

Rule No. 24 of the Permanent Standing Rules of the Assembly, in the paragraph added by House Resolution No 189, authorizes the Speaker or a member to incur certain expenses on behalf of the Assembly as expenses of the Assembly in connection with attendance at ceremonies and other events The above mentioned constitutional limitations are not limitations on the expenses of either house, but on the expenses of the members thereof

Since the paragraph added to Rule No 24 authorizes the incurring of expenses of the Assembly and by its terms specifically does not include expenses of members otherwise allowed or proscribed by the Constitution, the paragraph offends no constitutional limitation on the power of the Legislature

The second question is whether such expenses of the Assembly incurred between sessions are authorized by law

The annual appropriation in the Budget Act for expenses of the Legislature includes an item of appropriation "for contingent expenses of the Assembly and legislative committees thereof" to be transferred to the Assembly Contingent Fund (e g Budget Act of 1960, Item 8)

Section 9127 of the Government Code makes the money in the Assembly Contingent Fund available "for the expenses of the Assembly and legislative committees thereof" to be disbursed pursuant to the direction of the Assembly as provided in the rules, orders and resolutions of the Assembly.

Assembly Standing Rule No 130 empowers the Committee on Rules, during such times as the Assembly is not in session, to incur and pay such "expenses of the Assembly" not otherwise provided for as the committee determines are reasonably necessary

It is recognized that the business of the Legislature extends not only to matters legislative in character but also to the designation of members to attend, even between sessions, appropriate ceremonies and events (see *Rich* v *I A C*, 36 Cal App 2d 628—State Senator held in scope of employment for purposes of workmen's compensation in attending funeral of deceased member) Under Rule No 24 before the adoption of House Resolution No 189 the Speaker was empowered to authorize attendance of members as representatives of the Assembly at funerals and other ceremonies and events in appropriate circumstances, and to incur expenses for purchases of flags and floral pieces in connection therewith

On the basis of the foregoing, it is our conclusion that the paragraph added to Rule No 24 by House Resolution No 189 is a valid authorization to the Speaker or the member designated by him to incur expenses of the Assembly, during and between sessions, not to exceed $5,000 per year, in connection with the attendance at ceremonies and other events on behalf of the Assembly

Very truly yours,

RALPH N KLEPS, Legislative Counsel

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF RECLAMATION
WASHINGTON, D C, May 4, 1961

*Mr. Arthur A Ohnimus, Chief Clerk,*
*Assembly, California Legislature*
*State Capitol, Sacramento*

DEAR MR. OHNIMUS This will acknowledge receipt of copies of Assembly Joint Resolutions Nos 12 and 19, recently adopted by the California Legislature, which were transmitted with your letters of March 21 to this office and to the Secretary of the Interior.

Resolution No 19 pertains to construction of the East Side Canal of the San Joaquin Valley This proposed development is being studied by the Bureau of Reclamation in its investigation of the Central Valley Project It is anticipated that studies to determine engineering and economic feasibility of the canal and related facilities will be completed and a final report prepared by the end of fiscal year 1962 If the proposed development proves feasible, that report will be processed for submission to the Congress Whether construction can be undertaken, however, will depend on a number of factors including action by the Congress on authorization of the facilities for construction and the appropriation of funds for that purpose We wish to assure you of our awareness of the needs for additional water supplies along the east side of the San Joaquin Valley.

Resolution No 12 expresses the Assembly's interest in proper development of the Delta-Mendota Canal for sport fishing The Bureau of Reclamation has been working with the California Department of Fish and Game in an effort to solve various problems associatd with public use of this canal One of the prime considerations is the matter of safety of the using public Because of the large size of the canal, high water velocities, and related considerations, adequate safety features in any public use program are essential Our Regional Director at Sacramento plans to continue working with state and local interests in an effort to resolve the various problems involved, and to implement an appropriate use program that is consistent with the objectives of Assembly Joint Resolution No 12

Your courtesy in transmitting copies of these resolutions is appreciated.

Sincerely yours,

WILLIAM I PALMER

## REPORT ORDERED PRINTED IN JOURNAL

Speaker Brown ordered the following report printed in the Journal:

## REPORT OF CHAIRMAN OF COMMITTEE ON REVENUE AND TAXATION

ASSEMBLY, CALIFORNIA LEGISLATURE
May 4, 1961

*Hon Ralph M. Brown*
*Speaker of the Assembly*
*State Capitol, Sacramento*

DEAR RALPH. As Chairman of the Assembly Committee on Revenue and Taxation, I recently made a trip to Washington, D C, to consult with federal officials on legislation affecting tax administration In addition to discussions with the California Delegation as a group, I spent some time with Congressman Cecil R King of California, a member of the House Ways and Means Committee and the Joint Committee on Internal Revenue Taxation

Our discussions centered around three major tax matters which are of concern both to my committee and to the State Board of Equalization

The first of these centered around the problem of the deductibility of the cigarette tax for federal income tax purposes, similar to the de-

duction which has been granted for the gasoline tax since 1951 Representative King was most sympathetic to the problem presented but he and I both have come to the conclusion that neither Congress nor the new administration is receptive at this time to any new deduction of state taxes from federal income taxes

The second subject of our consultation was H R 1148 presently pending before the House Judiciary Committee This bill would seriously and adversely affect California's Use Tax with reference to the right of the State to require out-of-state sellers to collect this tax This matter is of particular importance to California in that we do not now have a member on the Judiciary Committee I was informed, however, that H R 1148 will face considerable difficulty in this session, as did a similar bill in the last Congress

The third matter which I discussed with Representative King was H R 4059 This bill would permit states and political subdivisions thereof to require payment of property taxes on privately owned property located in federal areas within the states Federal law now permits the collection on federal areas of state sales and use taxes, gasoline taxes, and income taxes It would seem that the provisions of H R 4059 relating to property taxes are logical and justified The benefit to local taxing agencies, if this bill were to pass, would be considerable Congressman Wayne Aspinall of Colorado is the author of this legislation and is Chairman of the House Interior and Insular Affairs Committee to which H R 4059 has been referred I am advised that prospects for its passage are excellent at this session

I returned from Washington with the firm conviction that continued and close contact with our California members of Congress, and with other federal officials, in taxation matters is in the best interests of our State and is mutually beneficial

Sincerely yours,

CHARLES H WILSON

**House Resolution No. 264**

Relating to the trucking industry

WHEREAS, A distressing economic condition exists today in the for-hire trucking industry which, unless remedied, will inevitably result in higher charges to consumers, and

WHEREAS, One of the major causes of this condition is the fact that the volume of cargo available for transportation by trucks is far too small for the number of trucks authorized to carry such cargo, and

WHEREAS, If this imbalance is allowed to persist truck operators, in order to survive, will be compelled to appeal for higher rates to compensate for the dilution of cargo, and

WHEREAS, A better solution to this problem would be restraint in the issuance of authorizations to truckers until such time as a balance is achieved between the volume of available cargo and the number of authorized trucks, and

WHEREAS, The growing number of bankruptcies in the for-hire trucking industry is eloquent evidence that an emergency condition exists, requiring prompt action to restore the industry to economic health, now, therefore, be it

*Resolved by the Assembly of the State of California*, That the Public Utilities Commission take immediate steps to end this vicious cycle by adopting a policy to withhold new authorizations to truckers until such time as a study determines the volume of cargo will not be diluted below reasonable economic levels by such authorizations

Resolution read, and referred to the Committee on Rules.

WHEREAS, It has been suggested that such arrangements could save the State a very large sum of money each year, now, therefore, be it

The following message from the Governor was received, and read·

### Veto Message Concerning Assembly Bill No. 686

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 5, 1961

*To the Honorable Members of the Assembly*
*State of California, Sacramento*
*Greetings:*

I am returning herewith without my signature

**Assembly Bill No. 686** entitled "An act to amend Sections 4609 and 5204 of the Vehicle Code, relating to license tabs of motor vehicles"

As originally introduced, at the request of the California Highway Patrol, this bill would have required that the license tabs, showing payment of current registration fees, be attached to the front license plates of truck tractors, in order to assist law enforcement officers in determining whether current registration fees have been paid, since the rear license plate on a truck tractor is frequently concealed by its trailer As finally enacted, after amendment in the Senate, the bill requires the issuance of two license tabs or stickers for the front and rear license plates of all vehicles

I am informed that the additional cost of obtaining and supplying a second sticker for all vehicles registered in this State would be a minimum of $150,000 and would increase to at least $200,000 as vehicle registrations increase. Since the only purpose of the second tab or sticker is to enable law enforcement officers to detect more readily whether current registration fees have been paid, I do not believe that this additional expense is justified

Accordingly, I am returning the bill without my signature

Respectfully submitted,

EDMUND G BROWN, Governor

At the conclusion of the hearing the board may abandon the proposed project or ~~zone~~ *plan* or proceed with the same, unless prior to the conclusion of said hearing a written protest against the proposed project or ~~zone~~ *plan* signed by a majority in number of the holders of title to read property, or assessable rights therein, or evidence of title thereto, representing one-half or more of the assessed valuation of the real property within such zone or within any of the participating zones for which said project was initiated or *within* the territory to be included in the proposed zone *or within the territory to be added to or subtracted from a zone*, be filed with the board, in which event further proceedings relating to such project or ~~zone~~ *plan* must be suspended for not less than six months following the date of the conclusion of said hearing, or said proceeding may be abandoned in the discretion of the board.

In all matters in this section referred to, the last equalized assessment roll of the County of Marin next preceding the filing of the protest shall be prima facie evidence as to the ownership of real prop-

erty, the names and number of the persons who are the holders of title or evidence of title, or assessable rights therein, and as to the assessed valuation of real property within the zone, or proposed zone, or within any of the participating zones for which the project was initiated

Executors, administrators, special administrators and guardians may sign the protest provided for in this act on behalf of the estate represented by them If the property is assessed in the name of such representatives, that fact shall establish the right of such representatives to sign the protest, if assessed in the name of the decedent, minor or incompetent person, certified copies of the letters or such other evidence as may be satisfactory to the board must be produced

Where real property appears to be owned in common or jointly or by a partnership, or where letters of representatives of decedents, minors or guardians are joint, only one of the owners or representatives or partners may sign the protest for all joint owners or representatives or partners, provided, the party claiming the right to protect for all produces the written consent of his co-owners or representatives or partners so to do, duly acknowledged by the consenting co-owners or representatives or partners in the manner that deeds of real property are required to be acknowledged to entitle such deeds to be recorded in the recorder's office of the county except that if the property jointly held is held by husband and wife and occupied by them as a dwelling, if the other spouse consents, the protest may be signed by either spouse without producing written evidence of the other's consent

Where real property is assessed in the name of a trustee or trustees, such trustee or trustees shall be deemed to be the person entitled to sign the protest, and if assessed in the name of more than one trustee the right to sign the protest shall be determined in like manner as above provided with respect to co-owners

The protest of any public or quasi-public corporation, private corporation or unincorporated association, may be signed by any person authorized by the board of directors or trustees or other managing body thereof, which authorization shall be in writing; and a proxy executed by an officer or officers thereof, attested by its seal and duly acknowledged, shall constitute sufficient evidence of such authority, and shall be filed with the board

The owner of any real property or interest therein, appearing upon the assessment roll, which has been assessed in the wrong name or to unknown owners or which has passed from the owner appearing as such on the last equalized assessment roll, since the same was made, shall be entitled to sign the protest represented thereby, either by the production of a proxy from such former owner, or by furnishing evidence of his ownership by a conveyance duly acknowledged showing the title to be vested in the person claiming the right to sign the protest, accompanied by a certificate of a competent searcher of titles, certifying that a search of the official records of the county, since the date of the conveyance, discloses no conveyance or transfer out from the grantee or transferee named in the conveyance

Where the real property has been contracted to be sold, the vendee shall be entitled to sign the protest, unless such real property is assessed in the name of the vendor, in which event the vendor shall be entitled to so do.

The board shall likewise be entitled to inquire and take evidence for the purpose of identifying any person claiming the right to sign the protest as being the person shown on the assessment roll or otherwise as entitled thereto. And, unless satisfactory evidence is furnished, the right to sign said protest may be denied ''

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO ASSEMBLY BILL NO. 425 PRINTED IN JOURNAL

Pursuant to unanimous consent previously granted to Mr Bruce F. Allen, the following opinion is printed in the Journal following the vote on Assembly Bill No 425

## OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, May 7, 1961

*Hon Bruce F. Allen*
*Assembly Chamber*

**Assembly Bill No. 425—Labor Injunctions—No. 16338**

DEAR MR ALLEN: You have directed our attention to Assembly Bill No. 425. With respect to this bill you have asked two questions which we have considered and answer in series below.

*Question No. 1*

You have asked whether Assembly Bill No. 425 as amended in Assembly May 4, 1961, would prohibit a court in California from issuing an injunction to restrain a jurisdictional strike as provided in Section 1116 of the Labor Code.

*Opinion No. 1*

No.

*Analysis No 1*

Assembly Bill No 425, as amended in Assembly May 4, 1961, would add Chapter 8 5 (commencing with Section 1140) to Part 3 of Division 2 of the Labor Code, relating to labor disputes The chapter as added by the bill would contain only Section 1140 * The section would provide, in general, in subdivision (a) that no restraining order or injunction shall be granted by any court in any case between employers and employees or between employees, or between persons employed and persons seeking employment, or their representatives, involving or growing out of a dispute concerning terms or conditions of employment, unless necessary to prevent irreparable injury to property or to a property right of the party making the application for which there is no adequate remedy at law Subdivision (b) of Section 1140 would provide, in general, that in any such restraining order or injunction issued under subdivision (a) the court shall not prohibit any person

* All sections referred to herein are, unless otherwise specified, sections of, or to be added to, the Labor Code

or persons, whether singularly or in concert from (1) stopping work or recommending, advising, or persuading others by peaceful means to do so, (2) attending any place where they may lawfully be for the purpose of peacefully obtaining or communicating information; (3) peacefully persuading any person to work, (4) ceasing to patronize or employ any party to a dispute or recommending, advising, or persuading others by peaceful and lawful means to do so, (5) paying, giving or withholding strike benefits, (6) peacefully assemblying in a lawful manner and for a lawful purpose, or (7) doing any act or thing which might lawfully be done in absence of such dispute

Further, the section would provide that none of the acts enumerated in subdivision (b) shall be considered or held to be violation of any law

The bill further repeals Chapter 8 (commencing with Section 1131) of Part 3 of Division 2 of the Labor Code, relating to hot cargo and secondary boycotts

Finally the bill provides that its provisions do not supersede but on the contrary continue in effect the provisions of Section 1126 of the Labor Code, relating to enforcement of collective bargaining agreements

Prior to May 4, 1961, the bill provided for the repeal of Chapter 7 (commencing with Section 1115) of Part 3 of Division 2 of the Labor Code, relating to jurisdictional strikes These provisions respecting repeal were stricken from the bill by amendment on May 4

As a result of this amendment Chapter 7 (commencing with Section 1115) of Part 3 of Division 2 of the Labor Code will remain as it is presently found in the code The chapter provides, generally, that a concerted refusal to perform work for an employer or any other concerted interference with an employer's operation or business, arising out of a controversy between two or more labor organizations as to which of them has or should have the exclusive right to bargain collectively with an employer or as to which of them has or should have the exclusive right to have its members perform work for an employer in a jurisdictional strike (Sec 1118)

Jurisdictional strikes, as so defined, are declared to be against public policy and unlawful, and any "person" injured or threatened with injury by violation of any provision of the chapter is entitled to injunctive relief, in a proper case, and to recover damages (Secs 1115 and 1116) The chapter excludes from its provisions labor organizations financed in whole, or in part, interfered with, dominated or controlled by an employer (Sec 1117) The chapter also provides that it shall not be construed to interfere with collective bargaining subject to the prohibitions set forth, nor to prohibit any individual voluntarily becoming or remaining a member of a labor organization or from personally requesting another to join a labor organization (Sec 1119).

The effect of subdivision (b) of Section 1140 as it would be added to the Labor Code by Assembly Bill No 425, when read in conjunction with subdivision (a) of the section, is to prohibit courts in disputes concerning terms and conditions of employment from issuing any injunctions or restraining order prohibiting the various activities enumerated in subdivision (b) of the section regardless of irreparable injury to property or property rights

We believe that the jurisdictional strike activities made unlawful and subject to injunction and damages by Chapter 7 would, for the most part, fall within the description of those activities which courts would be prohibited from enjoining by subdivision (b) of Section 1140 Such activities are also not to be considered or held violations of any law pursuant to that subdivision

It follows that the provisions of Section 1140 and of Chapter 7 are substantially in conflict In the absence of some expression of legislative intent that Section 1140 is to control over Chapter 7, we think a court would conclude that the provisions of Chapter 7 constitute an exception to those of Section 1140 We think a court would find Section 1140 to be a statute relating to the enjoining and restraining of labor disputes generally It would find that Chapter 7, on the other hand, is a special statute regulating a limited type of labor dispute, those jurisdictional disputes between labor organizations (see 45 Cal Jur. 2d, Statutes, Sec 8, and cases cited therein) It would follow from the general rules of statutory construction that later general statutes do not, absent evidence of legislative intent to the contrary, repeal by implication prior statutes of special or limited application (45 Cal Jur 2d, Statutes, Secs 84 and 120, and cases cited therein) Thus the provisions of Section 1140 would not control over those of Chapter 7 relating to jurisdictional strikes, even though later in time

Further we believe that this conclusion is supported by the legislative history of Assembly Bill No 425 As introduced the bill provided for the repeal of Chapter 7 relating to jurisdictional disputes The bill was amended in Assembly May 4, 1961, and the provisions of the bill repealing Chapter 7 were stricken out of the bill We believe a court would construe that as indicative of a legislative intent to except jurisdictional strikes as defined in Section 1118 from the application of Section 1140 as it would be added to the Labor Code by Assembly Bill No 425

In reaching this conclusion we have considered the fact that the amendment of Assembly Bill No 425 on April 28, 1961, expressly excluded Section 1126 from the application of the bill, whereas the Legislature has not done so expressly with respect to Chapter 7 We do not believe a court would find that determinative in light of other considerations noted above, although such a specific exclusion in the bill would resolve the matter explicitly and would eliminate the question entirely

*Question No 2*

If Assembly Bill No. 425 is enacted could an employer obtain a temporary restraining order or preliminary injunction to enforce a "no-strike" clause in a collective bargaining agreement?

*Opinion No 2*

Yes

*Analysis No 2*

Section 3 of Assembly Bill No 425 added by amendment on April 28, 1961, provides that the provisions of the bill do not supersede but on the contrary continue in effect the provisions of Section 1126 of the Labor Code Section 1126 provides, generally, that collective bargaining agreements shall be enforceable at law or in equity, and that breach of

such agreements shall be subject to the same remedies, including injunctive relief, as are other contracts

We believe that Assembly Bill No. 425 would not prohibit an employer from obtaining an injunction to restrain or enjoin a breach of a "no-strike" clause in a collective bargaining agreement. It is true that subdivision (b) of Section 1140 would provide that no restraining order or injunction issued under this section shall prohibit any person or persons from singularly or in concert terminating any relation of employment or ceasing to perform any work or labors, and we believe these terms would be construed to prohibit the enjoining or restraining of strikes. However the California Supreme Court has held that breach of a "no-strike" clause in a collective bargaining agreement may be enjoined pursuant to Section 1126 (*Charles H. Benton, Inc* v. *Painters Union* (1955), 45 Cal 2d 677, 682) Therefore, in our opinion one of the effects of Section 3 of Assembly Bill No. 425 would be to except restraining orders and injunctions with respect to breaches of "no-strike" clauses from the application of Section 1140 as it would be added to the Labor Code by that bill

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

## MESSAGES FROM THE GOVERNOR

The following messages from the Governor were received, and read:

**Veto Message Concerning Assembly Bill No. 1787**

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 5, 1961

*To the Honorable Members of the Assembly*
*State of California, Sacramento*

*Greetings:*

I am returning herewith, without my signature

**Assembly Bill No. 1787** entitled "An act to amend Section 22408 of the Vehicle Code, relating to speed limits"

In the form introduced, the bill would have increased from 45 miles per hour to 50 miles per hour the maximum speed limit for passenger vehicles, or commercial vehicles weighing less than 4,000 pounds, towing another vehicle In this form the measure was sponsored by the automobile clubs, and approved by the Advisory Committee on Motor Vehicle Legislation

As amended in the Senate, the bill retains the 50 mile per hour speed limit for towing vehicles generally, but creates a higher speed limit of 55 miles per hour for vehicles towing one-axle, two-wheel boat trailers

I am opposed to the principle of the measure as amended in the Senate. I see no valid reason for permitting vehicles towing boat trailers to travel on public highways at a speed greater than that allowed for vehicles towing other types of

trailers, particularly those which present less hazard to other traffic on the highway than do boat trailers

Accordingly, I am returning the bill without my signature

Respectfully submitted,

EDMUND G BROWN, Governor

**Acknowledgment of Receipt of Assembly Bill No. 1787 and Veto Message**

I acknowledge receipt this eighth day of May, 1961 at 11 o'clock a m. of Assembly Bill No 1787 without the Governor's signature, together with a statement of his objections thereto signed by the Governor, delivered to me personally by Caroline J. Dunning, Secretary to the Legislative Secretary to the Governor

Assembly Bill No 1787 ordered to the unfinished business file.

**Veto Message Concerning Assembly Bill No. 127**

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 5, 1961

*To the Honorable Members of the Assembly*
*State of California, Sacramento*
*Greetings*

I am returning herewith without my signature,

**Assembly Bill No. 127** entitled "An act to add Sections 54952 5, 54952 6, 54959, 54960, and 54961 to, the Government Code, relating to meetings of local legislative bodies"

I believe that this bill would seriously imperil the finality of all local legislative decisions. The bill provides that any action taken at a nonpublic meeting, defined in the bill as any "collective decision or collective commitment or promise . ", is void Presumably this would also mean that any such decision merely ratified at a public meeting would also be void As a result disgruntled persons unhappy with a decision of a local legislative body could attack it, whether with merit or not, in court thereby delaying and obstructing all action The consequences for bond resolutions, for example could be paralyzing

I do not believe there is a need for such a drastic remedy I refuse to believe that there is any widespread violation of the present law requiring public meetings by municipal and local officials of this state In my judgment this bill would effectively obstruct progressive local legislation without any corresponding benefit

Accordingly, I am returning the bill without my signature

Respectfully submitted,

EDMUND G. BROWN, Governor

**Acknowledgment of Receipt of Assembly Bill No. 127 and Veto Message**

I acknowledge receipt this eighth day of May, 1961 at 11 o'clock a m of Assembly Bill No 127 without the Governor's signature, together with a statement of his objections thereto signed by the Governor, delivered to me personally by Caroline J Dunning, Secretary to the Legislative Secretary to the Governor

## COMMUNICATIONS

The following communication was presented by the Speaker, and ordered printed in the Journal:

517 LELAND AVENUE
SAN JOSE, CALIF , May 6, 1961

DEAR MEMBERS · Just as in many trades where people learn a business or profession by starting out as apprentices, my husband learned to work in a laundry at the University of Colorado in October 1948 He started at the bottom and went up the ladder to a place where he learned nearly the whole workings of the laundry business.

Here in California, on trying to secure the same type of job for the State he cannot do it, because the little schooling that he had prevents him from this type of work.

As a young boy his father died and Ernest with Louis the two older boys, had to quit school to support their mother and the other four children in the family These two very young boys worked down in the coal mines Louis quit the mines before my husband, but Ernest worked in them for 24 years In the Industrial Mine in Superior, Colorado he worked nearly 18 years until it was closed down in 1945 He worked at different jobs from then on until October 1948 where he started working in the laundry at the University of Colorado

Due to my health the doctors in Boulder, Colorado, advised me to seek a milder climate so in April 1960 Ernest came to take his first State Civil Service test for Laundry Assistant Because of his little schooling he failed to pass it But he secured a job at the San Jose Hospital We are buying our property in this city.

Ernest applied for a job at Agnews State Hospital and was hired to work in the laundry, even though a test had been given for this work on December 29, 1960, they hired my husband on January 4, 1961, and started work on January 9th On January 12, 1961, two men who had passed the test of December 20, 1960 were hired in place of my husband At the end of the month of January my husband was told he was being replaced

Having had a permanent job at the San Jose Hospital, but wanting a state job, because of better security, Ernest was kicked out because of this want of security To me that was a very underhanded way of the ones who hired my husband to work at the Agnews State Hospital, knowing that within a short time he would be replaced. My husband was out of work from the end of January until April 13, 1961

He could not secure unemployment security benefits nor State Welfare Relief Being Catholic we applied for help from the St Vincent DePaul Society. They helped us out with groceries and some clothing If it were not for them we would have gone hungry

I think that in all fairness to employees in situations such as my husband has been, on-the-job or apprentice training should be taken into consideration in the hiring of State employment

I have read in the *San Jose News* where policemen of the city had to undergo both a written and oral examination These policemen had a high average written test, but the oral test which had been lowered in average, they did not pass They are taking the case to the courts I think they are right The basic averages of the written and oral test should be the same and also I think the State should take into consideration the fact that on-the-job training such as my husband had or apprentice training should be sufficient to secure a state job, if the employee has had at least seven or more years in such type of work

If Ernest would have been kept on the job at Agnews until April 1, 1961, he would have had 12½ years of actual job experience If this is not training then what is it?

I think that the State Legislature of California should enact an "On-the-Job" test for all applicants of state jobs There are overseers on all jobs possibly in the State, so this type of test would save the State maybe thousands of dollars, and I think that more qualified workers would then be given a chance My husband is a qualified worker even though he did not have much schooling. He is a willing worker and does not lag on the job He is very industrious as his work record shows.

MRS. ERNEST DAVIDEK

**House Resolution No. 271**

Relative to an interim study of the alcoholic beverage industry

WHEREAS, The State's annual revenue of over $50,000,000 from the alcoholic beverage industry is being jeopardized by increasing violations of existing laws which, if continued, will necessitate increased taxes or other forms of taxes, and

WHEREAS, The great number of complaints of violations of law concerning the legal ownership of on-sale, off-sale, wholesale, distributor's, and importers licenses, calls for an immediate and impartial and extensive investigation to determine the extent to which laws covering the ownership of licenses and the merchandising of alcoholic beverages are being violated and evaded, and

WHEREAS, Among the matters that require careful legislative scrutiny are such practices as extended credits, moneys advanced to distributors, types of indoor and outdoor advertising, and giveaway gimmicks, and

WHEREAS, Existing laws are not being properly enforced to stop and curtail these widespread abuses in the alcoholic beverage industry and the fact that such dishonesty prevails in an industry already highly regulated points up the urgent need for a detailed and exhaustive study of the industry in order to determine the necessity for new legislation designed to prevent secret interlocking ownerships, secret rebates, and proper merchandising as well as to secure stability in the industry and protect the State's source of revenues from the industry, now therefore, be it

*Resolved by the Assembly of the State of California*, That the Committee on Rules is directed to assign to the appropriate interim committee for study the subject of the alcoholic beverage industry in this State, including a thorough study of secret interlocking ownerships, secret rebates, and other abuses and violations of law existing in the industry, and that such interim committee report thereon to the Assembly with its recommendations for legislation not later than the fifth calendar day of the 1963 Regular Session

## OPINION OF LEGISLATIVE COUNSEL RELATIVE TO ASSEMBLY BILL NO. 1976

Pursuant to unanimous consent previously granted to Mr Bruce F. Allen, the following opinion of the Legislative Counsel is printed in the Journal·

### OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, May 5, 1961

*Hon Bruce F. Allen*
*Assembly Chamber*

**Employment—No. 16155**

DEAR MR ALLEN· You ask several questions in regard to Assembly Bill No. 1976, which we will answer in series.

*Question No 1*

Could an individual maintain a civil action for damages if an employer refuses to hire him or discharges him in violation of the bill, and, if so, what would be the measure of damages? Could the individual obtain an injunction in such case?

*Opinion No 1*

In our opinion the individual could maintain an action for damages The measure of damages would be an amount which would compensate him for all detriment proximately caused by the employer's act.

Whether or not the individual could obtain an injunction would depend on the facts of the particular case

*Analysis No 1*

Assembly Bill No 1976, as amended in the Assembly on May 4, 1961, would add Chapter 9 5 (commencing with Section 2070) to Part 1 of Division 1 of the Unemployment Insurance Code.

The new chapter, in part, would make it unlawful for an employer to refuse to hire or employ or to discharge, dismiss, reduce, suspend, or demote any individual solely on the ground of age, except in cases where the law compels or provides for such action (proposed Section 2072)

The chapter does not indicate what action an employee may take in the event an employer violates its terms However, Section 3281 of the Civil Code provides that every person who suffers detriment from the unlawful act or omission of another, may recover from the person in fault a compensation therefor in money, which is called damages. If an individual suffers detriment, such as loss of wages, as the result of a violation of the chapter by an employer, we believe he could maintain an action for damages

Section 3333 of the Civil Code provides that for the breach of an obligation not arising from contract, the measure of damages, except where otherwise expressly provided by the code, is the amount which will compensate for all the detriment proximately caused thereby, whether it could have been anticipated or not In this case, the measure of damages would be that amount which would compensate the employee for all the detriment proximately caused by the employer's wrongdoing What this would be in a particular case would depend on the facts of the case, but ordinarily we would assume that damages would be assessed at the amount of wages or salary lost by the employee due to his wrongful discharge by the employer or by the employer's refusal to hire him

The right to obtain an injunction is controlled by Section 3422 of the Civil Code, which enumerates the circumstances under which a writ of injunction will be granted They are as follows

"1. Where pecuniary compensation would not afford adequate relief,

2 Where it would be extremely difficult to ascertain the amount of compensation which would afford adequate relief,

3 Where the restraint is necessary to prevent a multiplicity of judicial proceedings; or

4 Where the obligation arises from a trust."

Inasmuch as these conditions are dependent on the particular facts of each case, we cannot categorically state that an employee could obtain an injunction in any case in which he is not hired or is discharged in violation of the new chapter In one case a court might consider an award in damages an adequate remedy, whereas in another, on different facts, it could reach a contrary conclusion.

*Question No 2*

Would the prohibition imposed by the bill affect the recruitment practices of the Highway Patrol which limit employment to a particular age bracket?

*Opinion No 2*

In our opinion the answer to your question is no

*Analysis No. 2*

Proposed Section 2072 makes it unlawful for an employer to refuse to hire or employ or to discharge, dismiss, reduce, suspend, or demote any individual solely on the ground of age, *except in cases where the law compels or provides for such action* The term "employer" is defined to include the State of California and any political subdivision thereof (proposed Sec 2071)

The words "except in cases where the law compels or provides for such action," in our opinion, exempt an employer from the proscription imposed by the section where the employer's action is required or provided for by law.

Section 2256 of the Vehicle Code provides that the minimum age limit for any examination for the position of traffic officer in the California Highway Patrol shall be 21 years and the maximum age limit shall be 31 years

Inasmuch as Section 2256 requires the California Highway Patrol to employ persons meeting the prescribed age requirements, the Patrol would not violate the terms of the bill by doing so We believe its action in this regard falls within the exception stated.

*Question No 3*

Would the prohibition imposed by the bill prevent an employer from recruiting at college graduation level as part of a regular "new blood" program?

*Opinion No 3*

In our opinion the answer to your question is no.

*Analysis No. 3*

As noted previously, proposed Section 2072 makes it unlawful for an employer to refuse to hire or employ or to discharge, dismiss, reduce, suspend, or demote any individual solely on the ground of age, except in cases where the law compels or provides for such action

The gist of the offense under the section is the *refusal* of an employer to employ an individual solely on the ground of age, or his positive action in discharging, dismissing, reducing, suspending, or demoting an individual solely on that basis

The bill does not prohibit an employer from recruiting young employees from college campuses so long as he does not in the process commit any of the acts proscribed by the bill. In other words, the recruitment of young employees, in itself, is not prohibited by the bill.

It should also be noted that proposed Section 2072 excepts from its operation the rejection or termination of employment where it can be demonstrated that the individual applicant or employee failed to meet bona fide requirements for the job or position sought Each case wherein an employer refuses to employ a person because of his age or takes action to discharge or demote an employee would have to be weighed against this exception, and if the employer could show that the individual or employee could not meet bona fide job requirements due to his age, it would probably be held that the employer did not violate the section by his action.

*Question No 4*

Would the prohibition imposed by the bill make a mandatory retirement age unlawful in public or private employment?

*Opinion No 4*

In our opinion, the bill would make a mandatory retirement age unlawful unless prescribed by law or imposed as an incident to a bona fide retirement or pension program

*Analysis No 4*

Assembly Bill No 1976, as amended, makes it unlawful for an employer to discharge or dismiss any individual solely on the ground of age Excepted from this restriction is any situation in which the law compels or provides for such action (Proposed Sec 2072)

Proposed Section 2072 also provides that it shall not be construed to affect bona fide retirement or pension programs.

We believe, therefore, that Assembly Bill No 1976, as amended, would not invalidate a mandatory retirement age where (1) such is prescribed by or provided for by law, or (2) is an incident to a bona fide retirement or pension program For example, the bill would not apply to the mandatory retirement ages fixed for state employees, since such ages are prescribed by statute (see Gov C Secs 20980-20983)

On the other hand, there appears no question that the bill, in effect, would invalidate mandatory retirement ages under circumstances other than those stated in the preceding paragraph To require an employee to retire at a designated age, regardless of any other considerations, appears to fall squarely within the prohibition designated in the bill, and to constitute the discharge or dismissal of an employee solely on the basis of age

*Question No 5*

Would the bill make retirement pension programs unlawful or difficult to finance?

*Opinion and Analysis No 5*

The bill expressly provides that proposed Section 2072, which is under consideration here, shall not be construed to affect bona fide retirement or pension programs If a retirement age is prescribed in connection with such a program, we believe that an employer could require an employee to retire at the age stated in that program, without violating Assembly Bill No 1976

In view of the exception stated, we find nothing in the bill that would invalidate a retirement pension program This, of course, assumes that

the program is actually a retirement or pension program, and not simply a device to escape the effects of the bill

Whether or not the bill would make it more difficult to finance a retirement pension program would depend upon actuarial computations which this office is not equipped to make We, therefore, express no opinion on this point

Very truly yours,

RALPH N KLEPS, Legislative Counsel
By EDWARD K PURCELL, Deputy

Two copies to Hon Jesse M Unruh
pursuant to Joint Rule No 34

**House Resolution No. 274**

Relating to the business of repairing major appliances, other than radio and television

WHEREAS, Each year the citizens of this State are defrauded of thousands of dollars as the result of the incompetent, and many times fraudulent, practices which are prevalent in the business of repairing major appliances, other than radio and television, and

WHEREAS, The selection of the species of trout to be raised and planted is of utmost importance to insure the greatest return, yet often the present policy is to virtually ignore the virtues of species with native populations, such as the Heenan Lake cutthroat, or the Brown Trout, selecting rather the type which can be more easily raised under hatchery conditions and which can be caught with the least effort, now, therefore, be it

*Resolved by the Assembly of the State of California*, That the Assembly Committee on Rules is requested to direct the appropriate Assembly Interim Committee

to make a study of the entire fish propagation and planting program, particularly as to the desirability of greater emphasis on the more ancestral species of trout, and the alternatives to such program, and report its findings to the Legislature, with any recommended legislation, by the fifth day of the 1963 Regular Session

Resolution read, and referred to the Committee on Rules.

"SECTION 1. Section 14694.5 is added to the Education Code, to read

14694.5 An election shall be held before June 30, 1962, on the discontinuance of the district retirement salary plan established under Section 14694 in any school district or districts in which the average daily attendance of all districts combined is in excess of 400,000, governed by the same governing board. Each active employee of the district or districts in a position requisite for membership in such district retirement salary plan shall be eligible to vote at such election. The governing board of the district or districts shall conduct the election and if at the election a majority of the active employees of the district or districts in positions requisite for membership in such district retirement salary plan favor the discontinuance of the plan, the plan shall be discontinued on July 1, 1962, and as of such date all active employees of the district or districts in positions requisite for membership in such district retirement salary plan shall be members of the State Teachers' Retirement System only. The rate of contribution by and for the employee to the State Teachers' Retirement System shall be what it would have been had there been no district retirement salary plan.

There shall be transferred from the assets of said district retirement salary plan to the account of the employee with the State Teachers' Retirement System, subject to minimum payments fixed by law, an amount from contributions, including interest, by the respective employees to the respective district retirement salary plans, equal to one-half of the accumulated contributions, including interest, which would have been credited to him in the State Teachers' Retirement System had he not been a member of the district retirement salary plan and an amount from contributions, including interest, by the respective employee to the respective district retirement salary plans, equal to one-half of the accumulated contributions, including interest, which would have been credited to him in the State Teachers' Retirement System had he not been a member of the district retirement salary plan, and the remainder of the employees contributions, together with credited interest, shall be returned to him, provided that all transfers of assets by the said district retirement plan to the State Teachers' Retirement System shall be made directly and shall not be made through the respective employees and shall be designated at such time of transfer as being made because of the discontinuance of the district retirement system, and provided further that any transfer of assets of members contributions,

plus credited interest, shall first be taken from such credited interest and any deficit shall be made from such contributions, and the accounting to the State Teachers' System shall specify the exact amount of transfer of said contribution and of said credited interest in the case of each member

In the event the combined contributions, plus interest, of the district retirement salary plan and the employee are insufficient to meet the financial requirements for entry into the State Teachers' Retirement System, any deficiency shall be derived from additional contributions by the district retirement salary plan

Employees who have retired since June 30, 1956, shall be eligible for all the benefits given by this section to the same extent and in the same manner that they would have been eligible if this section had been in effect on the date of their retirement

Any remaining residual funds shall be retained by the governing board of the school district or districts for the purposes of meeting obligations of the district retirement system to members who have already retired under such system, and to establish a reserve which shall be made available to compensate any presently active employee who can establish loss of or reduction in retirement income by reason of the discontinuance of the school district retirement plan, and to meet the cost of administering the discontinuance of the district retirement salary plan; provided that any funds in such school district retirement plan remaining after all other obligations of such plan have been met shall be retained by the governing board of the school district or districts and expended for the benefit of the certificated employees

It is the intent of this section to make possible the discontinuance as soon as practicable of all functions of the district retirement salary plan in any district or districts in which the average daily attendance of all districts combined is in excess of 400,000, governed by the same governing board, subject to the right of such district retirement plan or plans to make an orderly distribution by sale or transfer of the securities held by said district retirement plan or plans while meeting the retirement requirement of employees as they accrue, and to this end the governing board of such district or districts is authorized to enter into contractual agreements with the State Teachers' Retirement System whereby, upon agreement for payments from residual funds of the district retirement salary plan, the State Teachers' Retirement System shall assume all obligations of the district retirement salary plan to former employees who have already retired under such district retirement salary plan and to any active member of such district retirement plan as of June 30, 1962, who can establish loss of or reduction in retirement income by reason of the discontinuance of the school district retirement plan In the event that any employee in a position requisite for membership in such district retirement salary plan or plans shall elect not to retire under the State Teachers' Retirement System but to withdraw his contributions plus accredited interest from said Teachers' Retirement System, such withdrawal shall be limited to such contributions plus accredited interest as have been contributed by him either in such district retirement salary plan or plans or by him to the State Teachers' Retirement System and shall not include contributions including interest by the respective employer or employers transferred to the State Teachers' Retirement System under the provisions of this section"

## RESOLUTIONS

The following resolutions were offered

By Mr. Chapel

### House Resolution No. 278

Relative to a study of exemptions from attachment and execution

WHEREAS, The present law of California relating to exemptions from attachment and execution is a vast accumulation of provisions enacted piecemeal, over decades, and includes many archaic provisions, and

WHEREAS, There is good reason to believe that these provisions, which also operate to provide exemptions in bankruptcy proceedings, are having the result of allowing many persons to avoid paying just debts and, at the same time, retain a large net worth, far in excess of what may fairly be described as necessities, and

WHEREAS, An interim study would afford the opportunity to determine whether such is the case and to examine the entire field of exemptions before further piecemeal changes are made, now, therefore, be it

*Resolved*, That the Assembly Committee on Rules is directed to refer for study to an appropriate interim committee the subject of exemptions from attachment and execution, including the bankruptcy aspects of such subject, and to direct such interim committee to report its findings and recommendations for legislation to the Assembly no later than the fifth calendar day of the 1963 Regular Session of the Legislature.

Resolution read, and referred to the Committee on Rules.

By Messrs Hawkins and Elliott:

**House Resolution No. 279**

Relative to adult education programs and classes in the public schools

WHEREAS, Adult education has long been an integral part of the public education program in this State, based upon the concept that the opportunities for obtaining the educational advantages offered by the public schools should be available equally to all persons, and

WHEREAS, Active and effective participation by all citizens in activities of a democracy, which is so essential to the continuation of the American way of life, demands that educational programs be available to provide for the development of new skills and the continuous intellectual growth of every individual, and

WHEREAS, It has come to the attention of the Legislature that the establishment, by local school authorities, of tuition fees for state-aided adult education programs has resulted in serious reductions in enrollment in adult education programs and classes throughout the State, and, in many cases, the abandonment of all or parts of such programs and classes, and

WHEREAS, The San Francisco School District has met this serious problem by discontinuing the levying of tuition fees and has set a good example for other school districts in this State; now, therefore, be it

*Resolved by the Assembly of the State of California*, That the governing boards of all school districts offering adult education programs and classes in this State are urged to study the financial operations of their respective districts and undertake such necessary actions and steps as will permit the reduction or elimination of tuition fees for state-aided adult education programs and classes

Resolution read, and referred to the Committee on Rules

By Messrs. Hawkins and Elliott.

**House Resolution No. 280**

Relative to a study of the feasibility of deferring property taxes on the homes of senior citizens

WHEREAS, There is an increasing proportion of California citizens 65 years of age or over compared to the total adult population, and these citizens will be retiring on fixed pensions in the next decade, and

WHEREAS, Aged persons should remain in their homes as long as possible, but it is evident from the experience of the past 10 years that the assessed valuation of individual homes will rise steadily, that ad valorem property tax rates may continue to increase, and that property tax levies on homes will rise accordingly, and

WHEREAS, There is evidence that financial hardship already exists among the aged and that the peril of loss of their homes is ever present, so that the prospect of increased property taxes to persons living on a fixed income will operate to lower an already low standard of living, and

WHEREAS, There are many serious statutory, constitutional, fiscal and economic problems now impeding any specific program of tax relief to the aged, and

WHEREAS, It is essential that a study be made to determine the best approach to solving these problems, and to find a way in which property taxes may be deferred until the transfer of title of the senior citizens' homestead, now, therefore, be it

*Resolved by the Assembly of the State of California*, That the Assembly Committee on Rules is directed to refer to an appropriate interim committee for study the subject of the feasibility of deferring property taxes on the homes of senior citizens and the means by which such deferment may be granted, and to direct such interim committee to report its recommendations to the Assembly not later than the fifth calendar day of the 1963 Regular Session of the Legislature

Resolution read, and referred to the Committee on Rules

##### Communication From Thomas N. Saunders, Chief, Division of Industrial Safety

STATE OF CALIFORNIA
DEPARTMENT OF INDUSTRIAL RELATIONS
SAN FRANCISCO, March 19, 1959

*Mr Earl Heitschmidt*
*Heitschmidt and Thompson, Architects*
*617 West 7th Street, Suite 600*
*Los Angeles 17, California*

DEAR MR HEITSCHMIDT Your letter of March 5, 1959, in which you request this division to grant a variance with respect to the balcony

railings installed, or about to be installed, in the several dormitories of Harvey Mudd College at Claremont, has had my careful consideration

It has previously been brought to your attention that the premises involved will be a place of employment As such, the General Industry Safety Orders apply Harvey Mudd College will presumably be the employer who will have the legal obligation to comply with the applicable safety orders

Your request for a variance contains no argument for achieving safety equivalent to that required by the general order. You base your request on the fact that another employer obtained a variance and that the plans for the dormitories at Harvey Mudd College are in conformance with the Uniform Building Code and approved by a Los Angeles County agency I should like to point out that the California Labor Code establishes the General Industry Safety Orders of this division as minimum standards for cities and counties in California in places of employment and the adoption of the Uniform Building Code by cities or counties does not have the effect of making applicable those sections specifying a lower standard of safety than the division's General Industry Safety Orders

The currently effective General Industry Safety Orders were adopted in 1950 The variance to which you refer was granted prior to that date by a former chief of this division who, I presume, acted according to his best judgment in view of the circumstances existing at that time

If, in spite of the fact that we have notified the college prior to its occupancy of the dormitories in question that the installation of railings of 36 inches in height is in violation of a General Industry Safety Order, it accepts such substandard installations, this division will have no recourse but to take such action as the California Labor Code prescribes to effect the necessary corrections

Court decisions of late years have established that the safety standards promulgated by this division for employees are to be construed as reasonable standards for the general public as well A record of some of these decisions is enclosed for your information In view of this development, the students who will occupy the dormitories at Harvey Mudd College are entitled to receive the same degree of protection as is afforded employees and failure to provide that protection could, in the event of injury to a student, result in a court awarding damages to the injured It would be quite possible that one such award might cost Harvey Mudd College many times the cost of making the corrections necessary at this time Employees, too, have available to them certain remedies in similar cases involving violations of safety orders by preferring charges of serious and willful misconduct against their employer, which, if sustained by the Industrial Accident Commission, could result in substantial monetary awards (up to $3,750). This liability cannot be insured against; it is assessed against the employer

Therefore, in reply to your request for a variance in this matter, I must, in view of all of the factors involved, advise that this division declines to grant your request

Very truly yours,

DIVISION OF INDUSTRIAL SAFETY

**Re· Assembly Bill No. 1739**

DEAR ASSEMBLYMAN MCMILLAN For many years I have been attempting to eliminate as much as possible, the overlapping jurisdiction of various state agencies This past year, I have been Chairman of the Overlapping Jurisdiction Committee of the Construction Industries Committee of the Los Angeles Chamber of Commerce This committee is a complete cross-section of the construction industries, including the design professions, contractors, material suppliers, and the building departments This committee has come out unanimously in support of your legislation, namely, Assembly Bill No 1739

I am writing you this letter in support of this bill which, if passed without crippling amendments, will bring into line the rules and regulations of various state agencies having authority to enforce their own building codes, rules or regulations upon the construction industry, the design professions, and the taxpaying owners. These agencies, by diligent concentration in a constant search for power, have compiled regulations and rules of monumental proportions and destructive powers

I do not intend, in this letter, to enumerate the number of agencies, the statutory codes, the general laws or the administrative regulations, this having been in your hands for some time, but I do intend to call your attention to one specific incident which is typical of many throughout the State

I call your attention to the methods and the interpretations that this one agency uses in attempting to increase its own power and supplant already existing laws You are aware, no doubt, that the original Building Standards Commission was composed of members from many of these state agencies and because of this, for several years the commission was dormant and no action of any kind was taken Governor Brown signed Senate Bill No 1444 in 1959 which changed the membership of the commission This new membership immediately went to work The results are now before the Legislature and the construction industries throughout the State of California now see for the first time, the chance to eliminate, to some degree, the overlapping, the conflict, and the duplication now rampant in these various state departments.

As I have previously stated, I want to call your attention to one specific case with copies of some of the correspondence to prove that this sort of enforcement is not only ridiculous, but expensive, unfortunate, and a waste of money, people's time, including the unfortunate owner.

The following is a case in point. In June of 1958, Mr. George Conn, Campus Engineer of the Associated Colleges at Claremont, received an Accident Prevention Report based upon a survey of one John Chocholak (5-27-58) which was signed by Norman Burgess, District Safety Engineer of the Department of Industrial Safety This report required the railings of the balconies of two already constructed and occupied *dormitories* to be raised from 37" to 42" in height The minimum height required by the Uniform Code is 36".

On January of 1959, Jack Valoz, Construction Engineer for the Division of Industrial Safety, inspected the third dormitory, then under construction, and then requested that the railings of the balcony be raised to 42" in height Both inspectors quoted General Industrial Safety Orders Section No 3225 and I quote from that letter "Your attention is called to this matter during the construction stage so that suitable correction can be made thereby eliminating the possibility that your client may be required to do this later with additional expense and inconvenience " This letter was signed by Carl E Johnson, Assistant Chief and was addressed to the attention of Dr. Joseph Platt, President, Harvey Mudd College

Our firm, being the architects for Harvey Mudd College, was notified by Dr. Platt of this letter and we contacted Mr. Johnson by both telephone and letter and he finally referred us to Mr Thomas H Saunders, Chief of the Division of Industrial Safety, to whom we appealed to grant a variance similar to some that had been granted in the past. Copy of Mr Saunders reply is attached and I hope you will note his reasons for refusing our request and his reasons for enforcement of his particular rules and regulations contrary to those of the State Housing Act

It is quite evident from the contents of this letter, that the State Housing Act is to be supplanted by the rules and regulations by the Division of Industrial Safety and that the Department of Industrial Safety is grasping at any straws it can to strengthen its position, in spite of the fact that the State Housing Act is a statutory law and the rules and regulations are simply department orders

This little hassle called for a meeting of the principals of Harvey Mudd College, attorneys, and representatives of this office in Claremont Mr. John Chocholak threatened to close the college unless the railings on all three dormitories were raised from 37" to 42", and as I mentioned before, the third dormitory was then under construction, all dormitories being practically identical in plan and elevations

The college, with its "back to the wall" with no place to appeal except to the court of this State, decided to shoulder the expense and raise the railings because of the coming fall term and influx of new students they could not afford the delay. This compliance cost the college almost $5,000 and it is my opinion that it was a waste of money, time, and effort when the existing railings and the design railings were perfectly legal according to all other departments having jurisdiction

Since that time, I have measured many railings all under the State of California, and where safety is involved, have found them to vary from 30" to 48" I find that there is no uniformity of heights or uniformity of administration by any of the departments and particularly the Department of Industrial Safety Even the General Industries Safety Orders have railings of various heights, but I could find no place where specifically were mentioned any housing products such as a college dormitory

It is specific incidences, such as the above, which are prevalent throughout the State that make it so important that we have some uniformity in our codes, regulations, and administrations. It is also important that there be some place to turn besides the courts for interpretations and appeals It is also important that these codes and regulations be written by experienced men in the construction field and that the various state agencies be made to comply

In closing, I am reliably informed that the construction industries throughout the State, including all major associations and many building officials, endorse the principles behind Assembly Bill No 1739 and urge its passage

Very sincerely yours,

HEITSCHMIDT AND THOMPSON

SACRAMENTO, April 25, 1961

*Hon. Ralph M. Brown*
*Speaker, State Assembly*
*State Capitol, Sacramento*

DEAR MR. BROWN: In response to the Assembly Concurrent Resolution No 37—1961 Session, I submit the attached Report on the State Park Potentialities of the Prado Flood Control Basin, San Bernardino and Riverside Counties A copy has also been submitted to the State Senate

I concur with the recommendations of the Division of Beaches and Parks that the Prado Flood Control Basin does not possess the necessary features or meet the criteria for inclusion in the State Park System

Recreation facilities of local significance could be developed on portions of the U.S. Government lands in the Basin. However, the developing agency will be confronted with the problem of supplying water, and this problem should be thoroughly understood before any development activities take place

Sincerely,

DEWITT NELSON, Director

"SECTION 1. Section 6054.5 is added to the Revenue and Taxation Code, to read

6054.5. When an amount represented by a person to a customer as constituting reimbursement for taxes due under this part is computed upon an amount that is not taxable or is in excess of the taxable amount and is actually paid by the customer to the person, the amount so paid shall be returned by the person to the customer. In the event of his failure or refusal to do so, the amount so paid shall constitute an obligation due from him to this State. Such obligation may be determined and collected by the board in accordance with Chapters 5 and 6 of this part. The amount so collected shall be refunded by the board to the person in accordance with Chapter 7 of this part, only upon submission of proof to the satisfaction of the board, or in the event the board denies his claim for refund, to the satisfaction of the Superior Court, that such amount has been returned or will be returned to the customer.

The foregoing shall not apply to an amount computed by using a schedule designed to result in reimbursement in an amount as nearly equivalent as practicable to the tax applicable to total taxable sales and to the average amount of individual taxable sales. A retailer who computes sales tax reimbursement by reference to such a schedule shall compute reimbursement on the aggregate sales price of taxable items sold in any one transaction rather than computing reimbursement on the sales price of each individual item.

SEC. 2. Whereas it appears to the satisfaction of the legislature that persons are collecting money from the public under the representation that they are entitled to collect such amounts by way of reimbursement under the Sales and Use Tax Law, when in fact no tax reimbursement or a lesser tax reimbursement is authorized by law, and whereas such conduct is an improper use of the provisions of the Sales and Use Tax Law which allows retailers to reimburse themselves from the customers for sales and use taxes actually due the State

Now, therefore, it is the intent of this legislation to discourage such a practice by preventing persons from profiting from such erroneous collection of tax reimbursement authorized by this part. It is further the intent of the legislature that nothing in this legislation shall be construed to affect the basic principle that the incidence of the California sales tax is on the retailer."

## MESSAGES FROM THE GOVERNOR

The following veto message from the Governor and acknowledgment of the receipt of the bill were received, and read·

**Veto Message Concerning Assembly Bill No. 441**

STATE OF CALIFORNIA, GOVERNOR S OFFICE
SACRAMENTO, May 11, 1961

*To the Honorable Members of the Assembly*
*State of California, Sacramento*

GREETINGS:

I am returning herewith without my signature

**Assembly Bill No. 441** entitled "An act to amend Section 33201 of the Health and Safety Code relating to community redevelopment"

Assembly Bill No 441 provides that the resolution adopted by the local legislative body creating a redevelopment agency shall be subject to referendum

While this would give the local citizenry an opportunity to act on an issue of community importance, it would nevertheless serve to delay and prolong the community redevelopment process on the local level of government, and it further ignores the many safeguards built into our present laws guaranteeing that the public's rights shall not be abridged

Thus, in my opinion, the disadvantages embodied in this bill far outweigh the advantages

Under current laws, there must be a public hearing at virtually every step in the redevelopment process Pending redevelopment actions must be given full public notice, and the public has ample opportunity to submit written and oral objections to the redevelopment plan

The greatest danger in this bill is that it would tend to delay the undertaking of redevelopment projects inasmuch as in the majority of our cities as few as 1,000 signatures on a petition can force a referendum

Moreover, referendums are customarily reserved for ordinances not for resolutions There seems no reason why community redevelopment resolutions should be singled out in such a way

Accordingly, I am returning the bill without my signature

Respectfully submitted,

EDMUND G BROWN, Governor

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr George A. Willson was granted unanimous consent that the following communication be ordered printed in the Journal

## COMMUNICATION FROM CHIEF JUSTICE OF THE SUPREME COURT

SUPREME COURT OF CALIFORNIA
SAN FRANCISCO, May 11, 1961

*Hon. George A. Willson*
*Member of the Assembly*
*State Capitol, Sacramento*

DEAR MR WILLSON It was with great disappointment that I learned of the Assembly Judiciary Committee's action in recommending passage of Assembly Bill No 1745 which would make pre-trial optional with the court and counsel If the bill becomes law, pre-trial will be destroyed in California without having had a fair opportunity to demonstrate its benefits to litigants and the public.

The mandatory pre-trial conference system established by Judicial Counsel rules gives California the best procedure yet devised for assuring that the trial of a lawsuit will be an orderly search for the truth where justice has an opportunity to prevail. My attitude toward the proposal to abandon it is very similar to that expressed by Justice William Brennan of the United States Supreme Court based on his experience with mandatory pre-trial in New Jersey.

> "I am so fully convinced that these tools accomplish better justice, not only in bringing about settlements and avoiding time-wasting trials, but of far more importance, in assuring that right and justice shall have the most favorable opportunity of prevailing in cases that are tried, that I have almost a closed mind to any argument opposing the mandatory requirement."

The Legislative Analyst in a report to the present Legislature states there is documentation that pre-trial effects very considerable savings

in court time and recommends that any court requesting additional judicial positions should demonstrate that effective use is being made of pre-trial conferences ("A Standard for Determining California's Need for Superior Court Judges," pp 24-28)

In counties where judges and lawyers have co-operated in making it work, pre-trial has been helpful in encouraging voluntary settlement of cases and, when a settlement cannot be reached, in expediting and improving trials Where such co-operative efforts have been absent the procedure has been largely a waste of time, and some of the judges and lawyers in these counties are quoted in a pamphlet which a group called Capital City Lawyers Club submitted to the Assembly Judiciary Committee at the time Assembly Bill No 1745 was considered It is regrettable that the editors of that pamphlet apparently chose to interview only those believed to oppose pre-trial and also failed to state that some judges refused to answer their inquiry and that the reply of at least one judge favoring mandatory pre-trial was omitted

Contrary to views expressed by some, pre-trial was not initiated by the Judicial Council or its chairman In 1949 the Legislature by Assembly Concurrent Resolution No 92, requested the Council to study pre-trial to determine whether it would facilitate the disposition of civil cases and relieve calendar congestion or otherwise improve the administration of justice, and report its findings and recommendations to the 1951 General Session

A preliminary report on pre-trial was compiled in 1950, but the council felt further study was needed before formulating and presenting findings to the Legislature I appointed a pre-trial committee composed of judges from various courts to continue the study and conduct local experiments in pre-trial usage Judge Clarence Kincaid of the Los Angeles Superior Court, the chairman of this committee, was assigned for a period of four months to conduct an experiment in the Indio Branch of the Riverside Superior Court All contested civil cases were pre-tried. This experiment was so successful that similar pilot studies were conducted in various parts of the State Judge Kincaid also made an out-of-state survey in 1952 and reported to the council on the use of pre-trial in nine metropolitan centers

The State Bar co-operated with the council and a committee was appointed to assist in the study of pre-trial procedure in 1952, 1953, and 1954 by Presidents Gumpert, Beardsley, and Prince, respectively. The Conference of State Bar Delegates in 1954 unanimously recommended that pre-trial be adopted in California, and that it be made one of the objectives of the State Bar's legislative program for 1955 At a joint meeting of the Council and State Bar committees on pre-trial on September 22, 1954, it was the unanimous opinion that pre-trial rules should be promulgated by the Judicial Council.

Following the council's report and recommendations on pre-trial conferences in its 15th Biennial Report, legislation was enacted in 1955 authorizing the council to promulgate rules governing pre-trial conferences A tentative draft of proposed rules was submitted to judges and lawyers throughout the State and public hearings were held in six areas A redraft incorporating suggestions from members of the bench and bar was submitted to a committee of the Board of

Governors of the State Bar. The final draft utilized suggestions of the State Bar committee, and the Rules Relating to Pre-trial Conferences were adopted by the council September 19, 1956, to become effective January 1, 1957

Notwithstanding the important part played by the State Bar in developing pre-trial, many lawyers do not like this procedure because it may take additional time. Their view is reflected in recent resolutions of the Conference of State Bar Delegates recommending that pre-trial be made optional The Board of Governors, which is the policy-making body of the State Bar, however, has never taken the position that mandatory pre-trial should be abandoned

Experience with pre-trial in other states shows that it is a long-range program, and it was anticipated that an extended period of education of judges and lawyers would be necessary to make the procedure fully effective Justice Brennan told a seminar held at Stanford University in 1958 that in New Jersey after two or three years' experience they became discouraged with pre-trial, and there was some substantial sentiment for its abandonment, but that after 10 years' experience no sentiment existed for going back to the old way of doing things. This is not surprising because pre-trial is a procedure that requires the development of new skills, and many lawyers and judges trained to regard a trial as a battle of wits to be won by surprise and maneuver are reluctant to accept a technique that demands co-operation between court and counsel in development of the issues and a full disclosure of the facts in order that there can be an ascertainment of the truth The courts, however, are not created solely for judges and lawyers The people also have an interest, they pay for the courts, and they have a right to demand efficient court procedures.

Passage of Assembly Bill No 1745 would, in my opinion, be a substantial step backward in our program for improving the administration of justice in California, and I urge you to oppose it.

Sincerely,

PHIL S GIBSON
