## REPORT ORDERED PRINTED IN JOURNAL

Speaker Brown was granted unanimous consent that the following Staff Report on the National Conference of Legislative Leaders be ordered printed in the Journal·

## NATIONAL CONFERENCE OF LEGISLATIVE LEADERS—STAFF REPORT

### No. 1—Legislative Way of Life

#### The Revolution in Lawmaking

Enormous changes have developed in the lawmaking process through the year. There has been a veritable revolution in our legislative processes

About the only similarity between what our legislators do today and what our legislators of yesterday did is to meet in the State Capitol

Today the lawmaker works much harder than any of his predecessors. He has to Because the social and economic issues of today are more complex than ever before.

He has to work harder because the people are more complex folks than they were years ago when the pace of life was slower and more secure.

He has to work harder because the people are better educated today than in yesteryear and demand more of the State

He has to labor harder because new vehicles of public information have been opened up—radio and TV, and newspaper space is tighter than generations ago

He works harder because new highways, planes and trains enable the legislator to serve as a year-round official, interceding in behalf of his constituents and his district against bureaucratic restrictions

The legislator of today is probably more sensitive to public opinion than in bygone years He takes polls, "rides circuit" in his district, holds meetings with voters, participates actively in numerous organizations and civic activities which were nonexistent a generation ago.

**No. 2—Legislative Way of Life**

**A New Look at the Lawmaker's Jobs**

Some people think that all a legislator has to do is say "yes" or "no" to a variety of legislative proposals!

Few folks truly understand the work of the lawmaker

For example, the lawmaker:

1 *Acts as focal point* for virtually all the social and economic conflicts in society He is the punching-bag—and must necessarily serve that way—for all the conflicting interests among us—labor, management, farmer, city dweller

2 Must *serve to ventilate the frustrations* that exist among our people; he serves as a gripe-center, as a funnel through which the poor and the sick, the aged and the handicapped, the businessman, the worker, the farmer can "blow their top" This is a vital "escape hatch for democracy"

3 *Acts as mediator* His job is the tough task of getting the facts, going to the heart of social and economic disputes, and arranging for the compromises and agreements which mean social advances for all of us

4 *Acts as educator* His job is to inform the public on the issues that concern them or should concern them This is one of the great services rendered by our legislators

5 *Acts as a barrier to bureaucratic rules.* The legislator stands ever ready to call to task the government administrator who develops a big head, or to aid the voter who is treated arbitrarily by bureau chiefs.

The midnight calls from troubled citizens, the reception room crowded with people harassed by government regulations—all these are just part of the job of the modern legislator And they help the legislator, for in this way he gets an insight into the everyday problems that concern our people

HUNTINGTON PARK, CALIF., May 15, 1961

*Members of the State Legislature*
*Sacramento, Calif*

GENTLEMEN Can't you think of anything else to do or any other laws to make except some idiotic law to work hardships on the harassed and *overtaxed* property owners? Shame on you every one of you if you dare to make it a law to take away our rights as property owners so that we can't say to whom we are to *rent* or *sell!*

My entire source of income is from rental property and I have just gone to considerable expense because of a bad destructive tenant

We have enough trouble without your adding more

Aren't any of you property owners? Don't you know how we are being taxed and taxed and taxed?

Why don't you think of some way to make it easier for us?

When we had that insane war rent control law we nearly lost our minds Not having anything to say about our property and losing money every day and greatly needing repairs and upkeep

Shame on you every one of you if you dare to pass that law. I have reference to Assembly Bill 801

Yours truly,

MRS. HORACE T CADY, 2530 Walnut St , Huntington Park, Calif

P S I can't imagine what a calamity it would be if there were no property owners. Yet we are being taxed out of existence

MRS. C.

*Such aid is the means whereby those who support their own children support as well the unsupported children of others. Those engaged in the administration of aid under this chapter, therefore, have a dual and equal responsibility to each such group—to the applicants for and recipients of aid on the one hand and to the taxpayers who provide the means for such aid on the other.*

It is the intent of the Legislature that the employment and self-maintenance of parents of needy children be encouraged to the maximum extent and that this chapter shall be administered in such a way that needy children and their parents will be encouraged and inspired to assist in their own maintenance. The State Department of Social Welfare shall take all necessary steps to implement this section.

**REMARKS BY SENOR ANTONIO ISLAS, CONSUL OF MEXICO**

*Mr. Speaker, Officers and Members of the California Assembly, Friends:*

First, I want to thank you personally and on behalf of my country, the Republic of Mexico, for the invitation to appear here and speak from your forum

I am honored personally, and speaking as the Mexican Consul in this area, I know that Mexico is honored.

In my brief remarks here today, I would like to leave these thoughts with you

I am sure that you are all aware that my country has a great respect and a feeling of warm friendliness for the United States

This goes almost without saying

And likewise, we of Mexico trust that Mexico and her people are regarded with this same respect and spirit of friendliness by the United States

Being neighbors, this is a normal and desirable relationship between two democratic countries and it is our mutual duty to work always to maintain these friendly relations and respect for each other.

Directing my remarks closer to home, I think it is useful to review the close ties of the past between the State of California and Mexico

The basis for all great friendships stems from understanding This is true whether it be a personal friendship or a friendship between nations

There are so many deep-rooted reasons for a ready understanding between California and Mexico that I feel all of them should be taken full advantage of. The ties between Mexico and California are much greater than the simple fact that we share an open and friendly border. Much of the early California history is entwined with the early history of Mexico

This is reflected in culture and customs of California today. The economy of California and Mexico becomes more similar as the years go by

In many respects, the thinking of Californians and the people of Mexico seems alike

It is my hope, that while I am assigned to Sacramento as consul, I will be able to work out a closer cultural tie between my country and California By starting here in California, perhaps these cultural exchange projects will not only develop better understanding between California and Mexico, but spread throughout both countries

I am pleased to state that a step in this direction has been taken by the McGeorge College of Law here in Sacramento

The college officials have invited Sr. Miguel Aleman, former President of Mexico, to address this year's graduating class This is just an example of what can be done through a program of person-to-person diplomacy dedicated to better understanding between our people

In closing, I want to thank you once again for your invitation and I hope that you are successful in your efforts to enact all the legislation you deem to be in the best interest of the people of California

## REPORT OF SUBCOMMITTEE FOR STUDY OF HOUSE RESOLUTION NO. 251

May 11, 1961

To· *Assembly Committee on Transportation and Commerce*

FROM *Assemblymen Wolfrum, Kennick, and Dahl*

On Tuesday, May 9, members of the Subcommittee for Study of House Resolution No 251 met with representatives of the Division for the Blind of the Department of Social Welfare, and members of the Department of Motor Vehicles

A multilithed copy of the statement of Perry Sundquist, Chairman of the Division for the Blind, is attached for your information This report is rather conclusive

All of the records of the DMV pertaining to this case have been presented and are on file with the chairman of this subcommittee. They are too voluminous for easy reproduction at this time

The subcommittee believes that the DMV was proper in issuing a license on December 9, 1959, as the report from the Director of the Division for the Blind indicates, the problem became acute some six or seven months later.

This subcommittee will introduce a resolution requesting the Rules Committee to assign to a proper interim committee a study of the whole problem during the coming interim with a view to requiring the Division for the Blind to report to the DMV the name and address of applicants and/or recipients of aid to the blind It was also determined that the study should include the possibility of having optometrists and/or ophthamologists report severely impaired vision to the DMV so that those persons may be called up for special examination by the DMV where medical reports indicate

Respectfully submitted,

WALTER DAHL, Chairman
JOSEPH M KENNICK
CHET WOLFRUM

### Statement of Perry Sundquist

MR THEODORE SHERMAN
(ALA 3951 BL)

Mr Theodore Sherman of Oakland is a recipient of Aid to Needy Blind He is 56 years of age On the evening of April 24, 1961, he was involved in a traffic accident He is reported to have bought a car that day and driven a friend to Stockton from Oakland. While on the high-

way the car's lights failed Mr Sherman got out to check the lights, standing in front of his car His friend was in the rear seat A passing truck hit the car from the rear, killing the passenger in the rear seat and severely injuring Mr Sherman

A driver's license was issued to Mr Sherman on December 9, 1959 At that time Mr Sherman was found to have practically normal vision, it being 20/22 for both eyes and 20/25 for each eye individually Mr Sherman applied for Aid to Needy Blind in August of 1960 and aid was granted effective September, 1960 On his application for Aid to Needy Blind, dated August 16, 1960, Mr Sherman stated that he had been blind since June of 1960

The eye examination report, made as a result of an eye examination on August 17, 1960, shows the right eye as having light perception only and the left eye having 20/800 central visual acuity The eye pathology primarily responsible for impaired vision was given as optic neuritis retro-bulbar for each eye Mr Sherman told the examining physician that he was 52 years of age when the onset of impaired vision was first noticed The optic nerve was described as white atropic color. The eye examination was made by Dr E H Padden of Oakland, an ophthalmologist who is also a diplomate of the American Board of Ophthalmology The State Ophthalmologist believes that blindness from optic atrophy due to neuritis can occur within a matter of days

From the available evidence it seems probable that when Mr Sherman took his eye test for a driver's license in December of 1959 he had good vision in each eye His sight rather suddenly and completely failed in June of 1960 He was apparently almost totally blind on August 17, 1960

On December 12, 1951, the Department of Social Welfare initiated a formal procedure with the Department of Motor Vehicles whereby we agreed to refer to DMV every report which we received from county welfare departments, or otherwise, to the effect that a recipient of Aid to the Blind was reported to have been driving a car or had a valid driver's license

During the past ten and one-half years a total of 65 referrals have been made Of the 65, one person was referred twice; no report was received from DMV on 39, the license was revoked for 17; five had no driver's license; one had a special license, one was referred by DMV for a new examination prior to determination with respect to license, one was determined to have sufficient sight to drive, and one was referred for a hearing for probable revocation of driver's license

We believe that this referral procedure should be continued In addition, the Department of Social Welfare is planning to place on its application form for Aid to the Blind, as well as on its annual reaffirmation of eligibilty form, the question, "I have a valid driver's license " If the answer is "yes," provision will be made in the manual for the county welfare department to notify the Department of Social Welfare immediately and it will in turn make referral to the Department of Motor Vehicles

Bill read third time, and presented by Mr. Marks.

**Recommendation of the Governor**

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No 22.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, March 14, 1961

*To the Honorable Members of the Senate and Assembly*

**Senate Bill No. 22**, "An act making an appropriation for the acquisition, repair, and operation of the San Francisco Palace of Fine Arts as part of the State Park System,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

Senate Bill No 22 extends for an additional two-year period the appropriation of $2,000,000 made by Chapter 2386, Statutes of 1957, to the State Division of Beaches and Parks for the acquisition, repair and operation of the San Francisco Palace of Fine Arts as part of the State Park System This 1957 appropriation would expire on 30 June 1961 unless Senate Bill No 22 were enacted at the 1961 General Session of the Legislature Since Senate Bill No 22 does not appropriate any new moneys and City of San Francisco and State officials are already proceeding on this project, for which the State and city share fiscal responsibility, an urgency exists which suggests that Senate Bill No 22 should be taken up immediately

I, therefore, recommend consideration of Senate Bill No 22 as an emergency measure

Respectfully submitted,

EDMUND G BROWN, Governor

SEC 6 Section 4 21 of said act is amended to read

Sec 4 21. One of the purposes of this act is to co-ordinate any operations of the authority with the operations of any then existing system, and no other section of this act shall relieve the authority from the limitations, obligations and requirements of this section If the authority proposes, and shall then be ready, able and willing, to establish, construct, complete, acquire, operate, extend or reroute (all of the foregoing being hereinafter referred to by the word "establish" in all forms thereof), directly or indirectly, either itself or by lease or contract with any other person or persons or otherwise, any mass rapid transit service or system in such manner or form as will or may, either then or at any time in the future, divert, lessen or compete for the patronage or revenues of the existing system of a publicly or privately owned public utility (excluding any subsequent extension or rerouting of the latter) situated entirely within the metropolitan area, or seventy-five percent (75%) of whose revenue vehicle miles for the preceding calendar year are operated within the metropolitan area, then the authority shall give to each such public utility prior written notice of the proposed establishment of such service or system in sufficient detail to fully apprise such public utility of the form, nature and extent thereof and (subject to the restrictions of this section) of the time within which the authority intends to establish such service.

Until 120 days after receipt of such notice by each such public utility, the authority shall not establish any such proposed service or system At any time after receipt of such notice, or if the authority without giving such notice establishes any such proposed service or system in violation of this section then at any time after establishment of such service or system, and in either event until the expiration of 120 days after the receipt of such a notice, each such public utility shall have the option, in its sole discretion to be exercised by written notice to the authority, (i) to require the authority to purchase that portion of the existing system of such public utility (as designated in such written notice) the patronage or revenue from which will or may be diverted, lessened, or competed for by the establishment of the proposed service or system by the authority, or (ii) to require the authority to purchase all of the existing system of such public utility

If such public utility elects the relief described under clause (i) or (ii) above, then unless within ninety (90) days after receiving written notice of such election the authority gives such public utility notice in writing that it has abandoned any intention to establish the proposed service or system of which it gave notice and has abandoned any such service or system which it established without giving such notice in violation of this section, the authority shall be obligated to such public utility for the relief so elected and the authority shall not establish the proposed service or system until it has completed the purchase of all or part of the existing system of such public utility in accordance with such election The purchase price to be paid for such existing system (intending thereby only a portion of the existing system when the election has been to sell only such portion) shall be the reproduction cost new (including going concern value) of such existing system at the date of the giving of the notice of election, less depreciation (including wear and tear and obsolescence, if any) to date of transfer or to the 180th day after the giving of the notice of election whichever date occurs earlier; but in no event less than the average annual gross revenue for the preceding three calendar years of such existing system In the event that such public utility has elected relief under clause (i) above, it shall be entitled as a part of such price to severance damages for the loss of value of the unsold portion of the existing system of such public utility, and in the event such public utility has elected relief under clause (ii) above, the authority shall assume all payments becoming due after the date of purchase on all contracts and obligations of such public utility which payments if made by such a public utility would be includible as expenses of operation subsequent to the date of transfer to the authority under the system of accounting prescribed by the Public Utilities Commission or which payments are pursuant to contracts for delivery of assets by third persons or for the making or completion of additions or improvements subsequent to said date of transfer In the event that the authority purchases such existing system from such public utility pursuant to an election by the latter under either clause (i) or (ii) above, the authority shall idemnify and save and hold such public utility harmless from all payments included in the preceding sentence and from any franchise or contract liabilities to any public corporation which mature or accrue after such purchase

and which were incurred in connection with such existing system so purchased and the portions of the mass rapid transit service formerly served with such existing system The authority may at any time enter into an agreement with each such public utility as to the amount of such price

Unless the authority and such public utility have agreed upon the amount of the price required to be paid hereunder, or unless they have agreed that the amount of such price shall be established by arbitration and upon the method of naming arbitrators and the method of conducting such arbitration, the amount of such price may be fixed and judgment entered thereon in a suit brought either by the public utility or by the authority in the superior court of the State of California in and for the county in which is located that portion of the existing system to be acquired by the authority from such public utility which is largest in value

Any public utility whose patronage or revenues are diverted, lessened or competed for by any act of the authority which is in violation of this section shall be entitled to injunctive relief against the authority to stop such violation

The maintenance and operation, but not the extension or rerouting, of any existing system acquired by the authority from a publicly or privately owned public utility shall not be deemed to be the establishment of a mass rapid transit service or system within the meaning of this section

If the proposal calls for the sale of the entire system or any portion thereof, the legislative body shall submit such proposal to a vote of the electors of the public corporation owning such transportation system If such question is submitted to the electors and they decline to consent, the authority shall not proceed and shall not locate any new route into the area served by the publicly owned system Should consent to the proposal submitted by the authority be granted by the legislative body of the public corporation, or if the proposal involves the sale of such publicly owned system or any portion thereof and the

electors consent to such sale, then the authority shall proceed in the same manner as provided in this section for the acquisition of privately owned public utilities

*The construction and operation by the authority of any subways, elevated railways, overhead suspended transit or any other structures constituting a method of mass rapid transit shall not be deemed to be the establishment, construction, completion, acquisition, operation or extension of mass rapid transit within the meaning of this section*

*No publicly owned public utility shall establish, construct, complete, acquire, or extend, directly or indirectly, either itself or by lease or contract with any other person or persons or otherwise, any mass rapid transit service system in such manner or form as will then substantially divert or reduce the patronage or revenues of the system operated by the authority The authority shall be entitled to injunctive relief against any publicly owned public utility to stop any act of such utility which is in violation of this section*

SEC 32 In 1955 the Legislature enacted two sections of the Business and Professions Code, partially identical, numbered 10131 1 These sections were, respectively, added by Chapters 1791 and 1792, Statutes of 1955 Chapter 1942, Statutes of 1959, repealed "Section 10131 1 of the Business and Professions Code" Some confusion has arisen on the question of whether both sections so numbered or only one, and if so, which one, was repealed From an examination of the bill (Senate Bill No 1397) which became Chapter 1942, Statutes of 1959, it appears that it was the section as added by Chapter 1792 that was so repealed Section 6 of this act repeals Section 10131 1 of the Business and Professions Code as added by Chapter 1791, Statutes of 1955 It is thus the intention of the Legislature to dispel any ambiguity and to make it quite clear that both sections added in 1955 numbered Section 10131 1 of the Business and Professions Code are repealed

SEC 33 If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable

SEC 34 This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect The facts constituting such necessity are

Emergency legislation controlling and regulating the market in mortgages and trust deeds was enacted at the 1960 (First Extraordinary) Session of the Legislature Since that legislation became effective serious irregularities in the mortgage market have been discovered and the investments of many people have been placed in great jeopardy The Legislature finds that the bulk of promotional trust deeds as herein defined were sold by so-called trust deed companies and brokers, purchasing and selling such notes and real property sales contracts developed through subdivision financing Such notes and real property sales contracts were sold upon appraisals of value far in excess of actual fair market value and subjected the purchasing public to all the financial risks in subdivision promotion and construction Millions of dollars have been lost by investors through numerous defaults on such notes and real property sales contracts Permanent legislation is urgently needed to provide uniform and effective regulation, and to give stability to the mortgage and trust deed market"

## NEW BORDER MAY END WEIRD NO MAN'S LAND

### Colorado River Shift Near Yuma Created Stateless Territory for 150 Residents

A new boundary has been proposed which would resolve No Man's Land—a unique "stateless" disputed area 6 8 miles long, 3 6 miles wide on the California-Arizona border This is the first of a two-part series about No Man's Land, its people, problems and future

By CHARLES HILLINGER, *Times* Staff Representative

NO MAN'S LAND—Stateless disputed territory . . .

That's the way it is here in No Man's Land—one of the strangest geographic oddities in the nation

Continental United States is made up of 48 states, the District of Columbia and this 4,572-acre area.

Shaped something like a sailboat, No Man's Land lies across the Colorado River from Yuma, Ariz., glued to Imperial County.

It stretches for 6 8 miles along the western shores of the Colorado, 3 6 miles east to west, floundering without official status the past 41 years, claimed by both California and Arizona.

No Man's Land is in the United States but somehow the 150 persons who live here feel they are not yet a part of it

### Residents Can't Vote

If, however, boundary commissioners made up of representatives of both states have their way, No Man's Land will within the next year or so achieve "statehood" The commissioners recently have decided under a compromise plan to split the strip in two, with half going to California and the other half to Arizona

The area in dispute came into existence the night of June 8, 1920, when floodwaters of the Colorado without warning radically changed the river's course.

Since then those living here have been unable to vote, have been virtually without police or fire protection, have in most cases paid no property taxes—not knowing which state to pay

Some who live in No Man's Land operate vehicles without license plates

Others have both Arizona and California plates stuck on bumpers There are two-car families that have Arizona plates on one vehicle, California plates on the other

Children from here attend school in Yuma, in Baird and Winterhaven, Cal In a few families one or more youngsters are enrolled in one state, others in the other state

It's a pretty confusing situation

Recently a resident of the area in dispute shot and wounded another The man who fired the shots walked into the Yuma County sheriff's office and confessed the crime

Yuma authorities turned him over to the Imperial County Sheriff's Department When the case came before the Imperial County Superior Court the judge refused to hear it because of the question of jurisdiction

### Prosecution Avoided

There was no legal alternative other than to let the man off free Similar situations have occurred on several occasions through the years

Attorneys in both states say it is almost impossible to prosecute anyone from No Man's Land If California files a suit, the stateless person claims Arizona residence, and if Arizona files a suit, the person claims California residence

No Man's Land is a patch quilt of farms Half of the area is under cultivation Cotton is one of the principal crops Certain farmers receive cotton allotments from Arizona, others from California

Several persons have been born in the state strip And if continental United States consists of 48 states and the District of Columbia, parents wonder just exactly what to call the birthplace of their children—No Man's Land, U S A ?

### Gambling Possibility

Suggestions have been made from time to time to float slot machines down the Colorado from Nevada 238 miles to the north, to set up gambling casinos a la Las Vegas in the disputed area

"Way it stands now, neither California nor Arizona is in a position to prevent gambling, prostitution or any other illegal operations in the area," observes Yuma County District Attorney Jeff Richards

No Man's Land is claimed not only by Arizona and California but also by squatters who represent the majority of its residents and by Yuma Indians of California who contend the land in dispute has been part of their reservation for centuries

Relations between the two states have been strained due to the controversy

United States Senator Carl Hayden of Arizona, chairman of the powerful Senate Appropriations Committee, has pigeonholed the $10 7 million Colorado River channelization project—beneficial to both states—until the interstate boundary is settled

### No Compromise

In 1953 boundary commissions were established by both states to settle the matter on a "fair, equitable and realistic" basis

And for eight years the two commissions met repeatedly—but failed to reach an agreeable compromise

Arizonans led by State Senator Harold Giss insisted that the Colorado channel prior to the avulsive (sudden) change of 1920 continue as the legal boundary, that No Man's Land is now and always has been part of Arizona since the state entered the Union in 1912

"It is a boundary the United States Supreme Court would readily acknowledge based on other disputes of this nature since the founding of the nation," Senator Giss maintained

M J (Mike) Dowd, executive officer of one of California's most important water agencies, the Imperial Irrigation District, stoked the coals in the fight against Giss' position, demanding that the present Colorado River boundary be in effect the entire 250 miles between the two states

### Agreement Looms

Both states accept the river as a common boundary except in the disputed area

Two months ago the Giss faction consented to a compromise to a boundary paralleling the river's line of 1874, a boundary splitting No Man's Land down the middle—half Arizona, half California

This was the breakthrough the two commissions had worked to achieve since 1953. a border acceptable to boundary commissioners from both states

It provides that California receive 2,784 acres of land that belonged to Arizona before 1920, and that Arizona receive in addition to the balance of No Man's Land—1,788 acres—740 acres of California on the south and 1,107 acres of California on the north, all to the east of the 1874 river bed

The proposal will be presented to the Arizona Legislature at its next session in January The California Assembly and Senate are presently considering concurrent resolutions "to sound out members of both houses as to whether they will approve or disapprove the proposed boundary"

### Federal Approval

If this resolution carries, the California Legislature will then vote on the compact itself. Once the proposed boundary is accepted by the legislatures of both states it will be put up to Congress for final approval

Arguments for the California Assembly resolution will be heard by the Interstate Co-operation Committee chairmanned by Clayton Dills (D-Gardena) Friday in Sacramento A hearing will be conducted on the concurrent Senate resolution by Sen Stanford Shaw on Wednesday

Indications are in Arizona that there will be little or no opposition to the new boundary when it reaches that state's Legislature next year

There persists, however, considerable opposition to the proposal in this state, mainly by the Imperial County Board of Supervisors, Imperial County Farm Bureau, Imperial Irrigation District and the Yuma Indians

**Plan Is Beaten . . .**

If the proposed boundary is turned down by the legislatures of either state, No Man's Land will continue as a state of confusion for many years, members of both boundary commissions say.

MONDAY—The attitudes of the No Man's Land residents toward state preference, and their unique problems

## EXCERPT FROM "LOS ANGELES TIMES" OF MONDAY, MAY 22, 1961

## NO MAN'S LANDERS SPLIT OVER STATE PREFERENCE

### But Residents of Disputed Territory Long for End of Unsettled Existence

A new boundary has been proposed which would resolve No Man's Land—a unique "stateless" disputed area 6 8 miles long, 3 6 miles wide on the California-Arizona border This is the second of a two-part series about No Man's Land, its people, problems and future

By CHARLES HILLINGER, *Times* Staff Representative

NO MAN'S LAND—The 30 families who live in this stateless strip of land at the southeasternmost corner of California are divided as to whether they would rather be citizens of Arizona or California

But all readily agree with J W Brammer, cotton farmer here who maintains "The important thing is to settle on a definite boundary so we know where we stand"

No Man's Land, one of the nation's strangest geographic quirks, will be split down the middle with the eastern half going to Arizona and the western section to California if boundary commissions from both states have their way.

The proposed boundary would mean the two states would be separated by the Colorado River for 23 2 miles—the entire length of the common boundary except for this area of dispute

It was a sudden shift in the river, the traditional boundary, in 1920 which created No Man's Land

**Feel Like Outcasts**

Here the state line would leave the river across from Yuma and run along a 6 8 mile zig-zag course for a half mile to two miles west of the Colorado

Many No Man's Landers hold the view of Ellis Dover who farms 155 acres and raises 650 hogs Dover explains

"It doesn't make any difference to me which state I'm in as long as No Man's Land achieves legitimacy There are times in Yuma when people look at me like I was a Bolivian rather than an American"

Hog ranchers in No Man's Land have no problems about keeping track of the health of their livestock Livestock disease control inspectors from both states and from Yuma and Imperial Counties check the animals regularly—a case of duplication of inspectors

**Denied Ballot Right**

However, No Man's Landers feel they are overlooked, slighted and cheated in most other respects

There are 30-year residents of this stateless strip who have not been able to vote in all that time. Mrs Maggie Taylor, for example, said she attempted to register to vote a few weeks ago in Yuma

"I keep trying every so often in both states But the story is always the same. We're told as long as we live in No Man's Land we can't vote until it's determined which state we belong to"

The Taylors' property will be located in California under the proposed boundary now being studied in the State Legislature But the couple is unhappy with the decision

"We'd rather be in Arizona No Man's Land through the years has always had close ties with Yuma If our section becomes part of California, it will mean El Centro, the county seat, will be 58 miles away Yuma is only five miles from our property"

But there are just as many favoring California as those favoring Arizona

Marvin Martin does for example He raises Bermuda grass on his 150 acres and is known as the fire chief of No Man's Land because his 580-gallon spray rig is pressed into service whenever a fire occurs Martin declared

"I've always considered the land this side of the river as California And I hope it always stays that way although I understand under the proposed compromise boundary, my place will be in Arizona"

**Hot River Bottom**

Mr and Mrs John Dees, like other parents whose children were born in the stateless strip, have the problem of describing birthplace. Nearly all of the couple's 16 children were born in the disputed territory.

No Man's Land is hot, dusty river bottom, a jungle of salt cedar brush in places yet to be cleared It's an area alive with quail, road runners, jackrabbits, snakes and lizards Half of the disputed area is under cultivation All who live here—nearly 150 persons—are farmers, most are squatters, and many are Negro

The main highway here is a washboard road atop a levee that borders the old 1920 river channel All other roads are dirt trails constructed by No Man's Landers, maintained only by those who live here

In the past, Yuma Indians have thrown up roadblocks around the area and attempted to charge anyone crossing into No Man's Land a quarter or 50-cent toll fee The Indians claim the land in dispute is theirs and want all of it to remain in California

**Claimed by Indians**

Elvin Kelly of the Yuma tribe declared "We have claimed this land as part of our reservation as long as our people have been here Our reservation lies wholly within California If part of No Man's Land goes to Arizona it will complicate its administration"

In a letter to each member of the State Legislature urging passage of the proposed boundary, California's Atty Gen Mosk, a member of the boundary commission, stated

"The negotiations have been conducted in an atmosphere charged with tenseness due to the protractive litigation over the water of the Colorado River in the case of Arizona vs California now pending in the U S Supreme Court"

Two of California's giant irrigation districts are at odds over the proposed boundary The Palo Verde Irrigation District favors the compromise accepted by the boundary commissions The Imperial Irrigation District wants to see the present river as the line, with all of No Man's Land going to California

Supervisor Charles Kilgor of Imperial County contends, 'The present river is a practical, sensible, administrable boundary Members of the California Boundary Commission are sincere They've worked long and hard

"If we give up No Man's Land, we're giving up some of the finest potential park and recreational area in the United States and 6S miles of river frontage"

However, Arizona State Sen Harold Giss maintains that the compromise boundary "is fair and equitable to all" Neither state is giving or taking anything Statements to the contrary by Imperial County groups are fallacious

## COMMUNICATIONS

The following communication was presented by the Speaker, and ordered printed in the Journal·

1264 S NEW HAMPSHIRE AVE
LOS ANGELES, May 21, 1961

*Calif. State Assembly,*
*Assembly Chamber, Capitol Bldg ,*
*Sacramento, Calif.*

GENTLEMEN · Yesterday, May 20th the *Los Angeles Times* carried a news item in regard to the Senate passing a law giving Los Angeles County the right to tax automobiles for the purpose of building and repairing roads and streets

The article states that the City Council was unanimously in favor of it I don't blame them because if they can put over a swindle like this it would make less taxes for big business and big property owners

This road and street building and maintenance tax should be shared by every citizen of the State and not only by the suckers that own automobiles This type of taxation is just the cheapest type of swindle and everyone of our representatives in Sacramento knows it

I hope that there is not one member of our Assembly that will support such a fraud

It looks as if our Legislature is trying to rush this crooked piece of legislation through in a hurry in order to head off a lot of unfavorable publicity that would surely defeat such a proposed swindle

I hope that there are enough honest representatives in the Assembly to give this proposed legislation a rousing defeat

Please think it over and do your best

Sincerely yours,

ALBERT OSVALD

### House Resolution No. 313

Relating to an interim study of the issuance of drivers licenses to blind persons

WHEREAS, On April 24, 1961, there occurred a fatal traffic accident involving a driver who had a valid driver's license in his possession and who was receiving aid to the blind; and

WHEREAS, Preliminary studies of this situation have indicated a potential need for legislation on the subject of issuance of drivers licenses to persons with poor and failing eyesight; now, therefore, be it

*Resolved by the Assembly of the State of California*, That the Assembly Committee on Rules assign to the appropriate interim committee the duty to study the issuance of drivers licenses to persons with poor and failing eyesight, and to particularly consider the advisability of the Division for the Blind of the Department of Social Welfare being required to give automatic notice to the Department of Motor Vehicles upon the division's becoming aware of any applicant or recipient

of blind aid having a valid driver's license and to consider the possibility of requiring ophthalmologists and optometrists to report all cases of severe eyesight impairment to the Department of Motor Vehicles and any attendant problems concerned with the physician-patient relationship; and be it further

*Resolved*, That such interim committee report its findings and recommendations to the Assembly on or before the fifth day of the 1963 Regular Session of the Legislature

"1440 As used in this chapter the term "board" means the board of supervisors of a county

1441 The board of supervisors in each county may establish and maintain a county hospital, prescribe rules for the government and management thereof, appoint a county physician and other necessary officers and employees thereof, who shall hold office during the pleasure of the board and authorize said hospital to be a member of and maintain membership in any local, state or national group or association organized and operated for the promotion of the public health and welfare or the advancement of the efficiency of hospital administration and in connection therewith to use tax funds for the payment of dues and fees

1443 The board may provide for transporting the needy sick to and from hospitals to which they may be sent by authority of the board, and may provide for transporting indigents to other counties or states when such indigents will thereby cease to become public charges, or when friends or relatives of such indigents agree to assume the cost and expense of the care and maintenance of such indigents, or when such indigents are legally public charges in the places to which they are so transported

1444 The board of supervisors in each county or city and county, having a population of one million or more, may purchase ambulances, establish and maintain an ambulance service, and prescribe rules for the government and management thereof In any county where such a service has been established, any person who has been injured in an accident or is ill and in need of immediate transportation to a hospital may be taken to any available hospital If he is indigent and unable to pay for the service, the cost shall be a proper charge against the county If he is not indigent, he shall reimburse the county for the cost of transportation, which shall be in accordance with a schedule to be adopted by the board, and in no case less than the actual cost

1445 Under such limitations and restrictions as are prescribed by law, and in addition to jurisdiction and powers otherwise conferred, the boards of supervisors in each county may provide for the care and maintenance of the indigent sick or dependent poor of the county, and may provide medical and dental care and health

services and supplies to persons in need thereof who are unable to provide the same for themselves, and for these purposes may levy the necessary taxes Each county may, insofar as it is able to do so, provide the means to meet promptly and adequately the health needs of the indigent sick, the aged, and the poor, for the better prevention of serious illness and incapacity, to the end that such persons will not become public charges at the greater expense of those resources set aside for the public health and welfare

1446 Except as otherwise provided in this chapter, a person, in order to be eligible for care, shall be a resident of the State and county wherein care is furnished as defined in Division 4, Chapter 2, Article 2, of the Welfare and Institutions Code

1447 Notwithstanding any other provisions of the Welfare and Institutions Code, the county which is responsible for the payment of public assistance to any person or group of persons under Chapter 1 of Part 2 of Division 2, Chapter 1 of Division 3, or Division 5 of that code, and the needy relative in the case of aid to needy children, shall provide the necessary hospital or medical care, or both, if otherwise qualified for such care If a recipient of public assistance moves from one county to another county within this State to make his home, the county to which such recipient removes shall become responsible for providing medical or hospital care or both, if he is otherwise qualified for such care, upon notification by the first county that such recipient has moved to the second county for the purpose of making his home in said county

1451 (a) The board shall not let the care, maintenance or attendance of the indigent sick or dependent poor by contract to any person However, in cases.

(1) Of unusual difficulty, or

(2) Which require treatment, or hospital services, or the use of facilities not immediately available in the county hospital, or

(c) The county may also contract with licensed boarding homes for 24-hour care for dependent children under the age of 21 years, when suitable facilities are not otherwise available in any institution or establishment maintained and operated by the county

(d) The county may also contract for medical treatment of persons admissible to the county hospital with any licensed physician and surgeon, or a corporation operating under Section 9201 of the Corporations Code

1452 The board of supervisors of counties of the 20th class and 40th to 58th class, inclusive, in connection with the administration of a county hospital may establish in the county treasury a special fund to be known as the "Hospital Trust Fund," into which may be placed deposits made voluntarily by patients entering such hospital.

At the time of any patient's dismissal from a county hospital, there shall be refunded to him, upon the order of the business manager or other person designated by the board of supervisors, such portion of the deposit made voluntarily by the patient at the time of his entrance into the hospital as was unneeded for his care while confined therein The portion earned by the hospital shall be transferred to the hospital fund in the county treasury

Upon presentation of an order for refund under this section, the county auditor shall draw his warrant on the Hospital Trust Fund, and the county treasurer shall pay the amount due thereon

If no refund is made within 30 days after the patient's discharge, the patient may file a claim against the county pursuant to Article 1 of Chapter 4 of Division 3 of Title 3 of the Government Code

1453. The board of supervisors of any county in connection with the administration of any county hospital may establish in the county treasury a special fund to be known as the "patients' personal deposit fund" When such fund is established, any patient in such hospital may request the superintendent thereof to deposit in said fund any moneys belonging to such patient Upon any such request by any patient any moneys belonging to him shall be deposited in the name of that patient in said patients' personal deposit fund except that if a guardian of the estate is

appointed for any such patient, then said guardian shall have the right to demand and receive such moneys or to withdraw either in whole or in part the moneys theretofore deposited in said fund in the name of any such patient Any of the funds belonging to a patient deposited in the patients' personal deposit fund may be used for the purchase of personal incidentals for the patient or otherwise used for the personal needs and benefits of said patient upon his request At the time of the discharge from the hospital of any patient there shall be refunded to him upon the order of the superintendent the balance of any moneys standing to the credit of such patient in said fund

Prior to the time of the discharge of any patient, upon the demand of the patient there shall be refunded to him upon the order of the superintendent the whole or any portion of the balance of any moneys standing to the credit of such patient in said fund Upon such demand of the patient, or upon the discharge of the patient from the hospital, or upon the demand of the guardian of the estate of the patient, the superintendent shall order the refund to the patient or the payment to such guardian as hereinbefore provided

1454 In any county where a county hospital has been established, any expectant mother who is unable to pay for her necessary care shall be admitted to the county hospital, and the cost of her maintenance and care shall be a proper charge against and shall be paid by the county of her residence

1455 The board shall appoint a suitable graduate, or graduates, in medicine to attend such indigent sick or dependent poor in the county hospitals and almshouses

Article 2 Liability for Cost of Care

1473 The board of supervisors in each county may fix the rates to be charged patients admitted to any county hospital and may direct any county officer to collect the amounts due the county for hospitalization and medical care In fixing and collecting hospital charges the board may exercise all the powers conferred by Article 4 of Chapter 2 of Division 4 of the Welfare and Institutions Code The board, or such county officer as it may authorize or designate, may adjust or compromise hospital charges according to the financial condition of the patient, his estate, or legally responsible relatives

1474 In collecting charges for care rendered under this chapter, the board may exercise all powers provided in Article 4, Chapter 2, Division 4 of the Welfare and Institutions Code, and as it may be amended at the 1961 Regular Session and thereafter

1475 Unless there exists a reciprocal agreement relating to the expense of medical care and treatment, it shall be the duty of every county to pay for the expense of treatment of its indigent residents furnished by the county hospital of any other county As a condition of liability, the county providing such medical and hospital care shall, not more than ten (10) days after admission, give notice to the county of residence "

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 22, 1961

*To the Honorable Members of the Assembly and Senate*

**Assembly Bill No. 2739,** "An act to create the Golden Gate Transportation Commission, prescribing its organization, government, powers, duties, and functions, authorizing the Golden Gate Transportation Commission to acquire, construct and operate facilities and to promote trade and commerce, providing for the issuance and sale of revenue bonds, authorizing the collection of tolls and charges, and providing for the acquisition of existing facilities and for such purposes to add Title 7 5 (commencing with Section 67000) to the Government Code, and to amend Section 30001, of, and to repeal Section 30755 and Articles 1 (commencing with Section 30600), 2 (commencing with Section 30651) and 5 (commencing with Section 30770, as added by Chapter 1784, Statutes of 1959) of Chapter 2 of Division 17 of, and to add Sections 30001 5, 30001 7, 30750 5, 30757, 30758, 30759, and Articles 1 (commencing with Section 30600), 6 (commencing with Section 30785), and 7 (commencing with Section 30795) of Chapter 2 of Division 17 of, the Streets and Highways Code,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

I, therefore, recommend consideration of Assembly Bill No 2739 as an emergency measure

Respectfully submitted,

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, May 24, 1961

*Hon Frank P Belotti*
*Assembly Member*

**Assembly Bill No. 2739—Golden Gate Transportation Commission—No. 18129**

*Question*

DEAR MR BELOTTI You have asked whether Assembly Bill No. 2739, as amended in Assembly May 19, 1961, contains an appropriation

*Opinion*

Yes

*Analysis*

Section 34 of Article IV of the State Constitution provides, in part:

> " . Until the Budget Bill has been finally enacted, neither house shall place upon final passage any other appropriation bill, except emergency bills recommended by the Governor, or appropriations for the salaries, mileage and expenses of the Senate and Assembly "

An appropriation is a law which gives a state officer authority to expend an ascertainable sum of money for a particular purpose (*Stratton* v *Green*, 45 Cal 149, 151, *Ryan* v *Riley*, 65 Cal App 181, 187) To constitute an appropriation it is not necessary to use the word "appropriate" or any other particular language, it is sufficient if the intention of the Legislature to authorize an expenditure of a definite sum of money from a specified fund can be ascertained from the entire statute (*Humbert* v. *Dunn*, 84 Cal. 57, 59; *Riley* v. *Johnson*, 219 Cal 513, 519, *Meyer* v *Riley*, 2 Cal 2d 39, 43)

Assembly Bill No 2739, as amended, would create the Golden Gate Transportation Commission as a public corporation of the State of California (proposed Secs 67060 and 67061, Gov C ), with authority to perform certain transportation functions in the San Francisco Bay area, that is, the territory within the City and County of San Francisco and the Counties of Alameda, Contra Costa, Marin, San Mateo, and Solano, and certain other counties, cities, and agencies which might in the future elect to be included in the commission (proposed Secs 67034, 67035, 67062, 67063, Gov C )

Among other things, the toll bridges in the San Francisco Bay area now under the jurisdiction of the California Toll Bridge Authority would be transferred to the commission on January 1, 1963, and thereafter the commission would exercise jurisdiction over them, subject to

certain restrictions (Secs 5-14, incl, of the bill) Section 15 of the bill would transfer to the commission, on January 1, 1963, all funds then held in the State Treasury in respect to said toll bridges. Thereafter, such funds would no longer be in the State Treasury and would be available to the commission to expend in the manner and for the purposes provided in the bill

In our opinion this transfer of funds from the State Treasury to a public corporation for expenditure by it in the manner and for the purposes provided in the bill constitutes an appropriation

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By RAY H. WHITAKER, Deputy

Two copies to Hon. Jerome R Waldie, pursuant to Joint Rule No 34.

*To the Honorable Members of the Assembly and Senate*

**Assembly Bill No. 814,** "An act to create the Governor's Advisory Commission on Housing Problems, prescribing its organization, government, powers, duties, and functions, and making an appropriation,"

It is of great importance that the critical housing needs in this State be dealt with as quickly and effectively as possible The creation of the Housing Commission will be an important stride toward this goal

I, therefore, recommend consideration of Assembly Bill No 814 as an emergency measure

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Schrade was granted unanimous consent that the following resolution by the Board of Water and Power Commissioners of the City of Los Angeles be ordered printed in the Journal:

### Resolution By Board of Water and Power Commissioners, City of Los Angeles

*RESOLUTION NO 760*

BE IT RESOLVED that the Chairman of this board be, and is hereby, authorized to execute on behalf of this Board the following "Memorandum of Understanding"

The Department of Water and Power of The City of Los Angeles and the San Diego County Water Authority are each vitally interested in the operation and financing of the Metropolitan Water District of Southern California, each being dependent in part on the water distributed to its member agencies by that organization and each being substantially involved financially in the costs of acquiring and distributing such water

Metropolitan proposes to cause legislation to be introduced in the pending 1961 session of the Legislature which would amend Section 6, Par 8 of the Metropolitan Water District Act to authorize the board of directors of the District to fix different rates for the sale of water obtained by the District from different sources The draft of such legislation was approved by the District directors and its introduction in the Legislature authorized on April 4, 1961

The Department has favored and the Authority has opposed the introduction and adoption of such legislation The position of the Authority has stemmed from its uncertainty as to the results that might follow its adoption To remove such uncertainty and permit the Authority to feel justified in withdrawing opposition to its adoption, the following Memorandum of Understanding and Agreement as to the position to be taken by each of these organizations following adoption of such legislation is hereby approved and agreed to by each of them

1 The legislation is permissive only and does not require the Metropolitan board to adopt such rates but such adoption shall be entirely dependent upon the sound discretion of the members of the board
2 The two-rate price structure permitted by the legislation shall not be applied to the sale or delivery of water to any Metropolitan member until
   (a) Water from the State Water Development Project is physically and legally available to Metropolitan for distribution to its members, *and*
   (b) Metropolitan shall have a distribution system through which it can physically deliver such water to such member
3 Regardless of the availability of water from other sources no member of Metropolitan should be required to pay the higher rate, if adopted, at any time when water from the cheaper source is available to Metropolitan in an amount sufficient to supply its members' uses
4. The preferential right provisions of the Metropolitan Act should be amended at some subsequent legislative session to provide for the calculation of such rights based upon each member's actual contribution, in any manner, to the District's capital costs

Each of the parties hereto agrees in principle to the foregoing and each pledges to the other its full cooperation and the use of its best efforts toward their accomplishment

Based upon the understanding hereinabove set forth, each of the parties agrees to use its best efforts to secure adoption of the legislation hereinabove referred to.

I HEREBY CERTIFY that the foregoing is a full, true and correct copy of a resolution adopted by the Board of Water and Power Commissioners of The City of Los Angeles at its meeting held April 18, 1961.

HENRY D. GOLDBERG, Assistant Secretary

~~(b) For the purposes of this section, when an individual has been paid remuneration which would be taxable except for the three thousand dollars ($3,000) limitation on taxable wages, the "quarter of his base period in which his wages were the highest" may be determined by allocating to any quarter of the calendar year following within the base period that portion of the taxable wages which is equal to the amount of remuneration paid to him in that quarter or one thousand five hundred dollars ($1,500), whichever is the lesser. The term "remuneration" as used in this section means taxable wages as well as wages which would be taxable except for the three thousand dollars ($3,000) limitation on taxable wages. This subdivision shall not apply to wages paid on and after January 1, 1959.~~

SEC. 14. Section 3802 of said code is amended to read:

3802. (a) Employers shall pay into the Unemployment Fund additional contributions upon all wages paid on and after January 1, 1959, *during any calendar year that the rates under Section 978 or 979 are applicable*, with respect to employment at the following rate:

As of January 1, 1962, and January 1st of each succeeding year *that the rates under Section 978 or 979 are applicable*, the director shall determine the number of calendar months during the preceding calendar year for which the extension ratio equaled or exceeded 0.06. If the extension ratio equaled or exceeded 0.06 in the

number of months which appears on any line in column 1 of the following table, the rate for additional contributions for all employers for the year in which the determination is made shall be the figure appearing on that same line in column 2 of that table

| Line | Column 1 | Column 2 + Additional contribution rate + |
|---|---|---|
| 1 | None, 1, 2, 3, or 4 | 0.20% |
| 2 | 5, 6, or 7 | 0.15% |
| 3 | 8 or more | 0.10% |

(b) Subdivision (a) shall not apply if at the time of calculating the additional contribution rate it is apparent that the rate so determined, multiplied by the estimated taxable wages for the year would cause a surplus in the extended duration benefit account exceeding approximately seven-tenths of one percent (0.7%) of such taxable wages. In that event the director shall reduce the additional contribution rate to the extent that when multiplied by the estimated taxable wages the surplus in such account will not exceed approximately seven-tenths of one percent (0.7%) of such taxable wages.

SEC. 15. Section 3803 of said code is amended to read:

3803. Additional contributions to the Unemployment Fund shall accrue and become payable by every employer for each calendar year *that the rates under Section 978 or 979 are applicable*, with respect to taxable wages for employer contributions paid for employment. Additional contributions shall not be deducted in whole or in part from wages of employees. After January 1st of each year, the department shall assess the amount of additional contributions payable by each employer for the preceding calendar year. Additional contributions are due and payable on the date of mailing of the notice of assessment and shall become delinquent if not paid within 30 days of the due date. The provisions of Part 1 of this division with respect to the assessment and collection of contributions shall apply to assessments provided by this section, except that interest shall not accrue until 30 days after notice of assessment.

Additional contributions shall not be deducted in whole or in part from wages of employees. After June 30, 1961, the department shall assess the amount of additional contributions payable by each employer for the first and second calendar quarters of 1961. Additional contributions are due and payable on the date of mailing of the notice of assessment and shall become delinquent if not paid within 30 days of the due date. The provisions of Part 1 of this division with respect to the assessment and collection of contributions shall apply to assessments provided by this section, except that interest shall not accrue until 30 days after notice of assessment.

SEC. 17. The provisions of Sections 978 and 979 of the Unemployment Insurance Code as they existed prior to amendment by this act shall continue to remain applicable to contributions to be paid for the calendar year 1961. The provisions of sections of the Unemployment Insurance Code as they are amended and added by Sections 1 through 7 and by Sections 9, 10, and 11 of this act and the repeal of Section 981 of said code by Section 8 of this act shall take effect beginning with the rating period of the calendar year 1962 and shall not be applicable to any prior rating period. The provisions of Section 1275 of said code as amended by Section 12 of this act shall be applicable to benefit years with an effective date beginning on or after the effective date of this act.
