(9) The levying officer in all cases shall retain physical possession of the property levied upon if it be capable of physical possession, or in the case of property not capable of physical possession, the levy shall remain in full force and effect, pending the final determination of the claim to exemption; provided, however, that no sale under execution shall be had prior to such final determination unless an order of the court hearing the claim for exemption shall so provide.

Procedure at hearing

(10) At such hearing, the party claiming the exemption shall have the burden of proof. The affidavits and counter-affidavits shall be filed by the levying officer with the court and shall constitute the pleadings, subject to the power of the court to permit an amendment in the interests of justice. The affidavit of exemption shall be deemed controverted by the counter-affidavit and both shall be received in evidence. Nothing herein contained shall be construed to deprive anybody of the right to a jury trial in any case where by the Constitution such right is given, but a jury trial shall be waived in any such case in like manner as in the trial of an action. No findings shall be required in a proceeding under this section. When the hearing is before the court sitting without a jury, and no evidence other than the affidavit and counter-affidavit is offered, the court if satisfied that sufficient facts are shown thereby, may make its determination thereon; otherwise, it shall order the hearing continued for the production of other evidence, oral or documentary, or the filing

of other affidavits and counter-affidavits. At the conclusion of the hearing, the court shall give judgment determining whether the claim to exemption shall be allowed or not, which judgment shall be determinative as to the right of the creditor to have the property taken and held by the officer or to subject the property to payment or other satisfaction of his judgment. In such judgment the court shall make all proper orders for the disposition of such property or the proceeds thereof.

Judgment

(11) A copy of any judgment entered in the trial court shall be forthwith transmitted by the clerk to the levying officer in order to permit such officer to either release the property attached or to continue to hold it or sell it, in accordance with the provisions of the writ previously delivered to him. Such officer, unless an appeal from the judgment be waived, or the judgment has otherwise become final, shall continue to hold such property under attachment or execution, continuing the sale of any property held under execution until such judgment becomes final.

Service by mail

(12) When any documents required hereunder are served by mail, the provisions of this code relating to service by mail shall be applicable thereto.

Extension of time

(13) Whenever the time allowed for an act to be done hereunder is extended by the court, written notice thereof shall be given promptly to the opposing party, unless such notice be waived, and to the levying officer.

Appeal

(14) An appeal lies from any judgment under this section; such appeal to be taken in the manner provided for appeals in the court in which the proceeding is had.

The affidavit of the clerk shall be conclusive evidence as to the mailing or nonmailing of any notice. Mailing of notice to all property owners who have filed a request therefor with the county assessor, as authorized by Section 58905, shall be deemed sufficient compliance with this chapter for all purposes.

Invalidity for omission of notice

58907. No proceeding shall be held invalid for omission of the clerk of the supervising body to mail the notice required by this chapter to any property owner unless such owner objects to such omission within 30 days after the public hearing or initial action with reference to which such notice was omitted. No objection shall be considered unless it is made in writing, signed, under oath by such owner or his duly authorized representative, and filed with the clerk of the supervising authority. Upon the expiration of said 30 days, the clerk may file an affidavit stating whether or not any property owner entitled to a mailed notice under this chapter who has not been mailed such notice, has filed the objection herein authorized. The affidavit of the clerk shall be conclusive evidence as to

Objections

the filing or nonfiling of objections within the period of 30 days as above required. If a valid objection is filed within the time allowed, the supervising authority shall conduct another hearing or reconsider its initial action on the proposal, after complying with the notice provisions of this chapter and the principal act under which the proposal was initiated. The time allowed by such principal act for the taking of any proceedings subsequent to the initial action or hearing shall be extended for such additional time as may be required to comply with this chapter.

58908. The provisions of this chapter shall not be superseded or modified by any subsequent legislation except to the extent that such legislation shall do so expressly.

CHAPTER 852

An act to add Sections 31031 and 31032 to the Water Code, relating to county water districts and to the Coachella Valley County Water District, declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 23, 1953. Filed with Secretary of State May 23, 1953.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 31031 is added to the Water Code, to read:

31031. The Coachella Valley County Water District may fix, on or before the first day of July in each calendar year, a water stand-by or availability charge of not to exceed five dollars ($5) per acre per year for each acre of land within the district to which water is made available for irrigation purposes by the district, whether the water is actually used or not. Water stand-by charge

SEC. 2. Section 31032 is added to said code, to read:

31032. In case any water stand-by charge remains unpaid on the first day of the month before the month in which the board of supervisors of the county in which the district is located is required by law to levy the amount of taxes required for county purposes, the amount of the unpaid stand-by charge shall be added to and become part of the annual tax levied upon Unpaid charges as liens, etc

the land to which water for which the stand-by charge is unpaid was available and same shall constitute a lien on that land, and shall be added to and become a part of the first installment of said tax.

Notice to auditor and supervisors

In such case and at least fifteen (15) days before the first day of the month in which said board of supervisors is required by law to levy the amount of taxes required for county purposes, the board of directors of the district shall furnish in writing to the board of supervisors and to the county auditor, respectively, a description of each and every parcel of land within the district upon which a stand-by charge remains unpaid, together with the amount of said unpaid charge on each said parcel of land.

Urgency

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety, within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The inhabitants of the Coachella Valley County Water District, and those in certain other parts of that region of the State, are in dire need of obtaining an adequate supply of water for agricultural irrigation purposes. This region is unique in that it is able to supply itself with but a small part of the water which it uses, and the only source of water available to that area is the Colorado River through expensive diversions and transmission construction works, and arrangements for obtaining said water by said inhabitants are dependent upon the repayment to the United States of certain construction costs by the land benefited by the availability of water through said works; this cannot be brought about equitably and effectively unless and until the amendment to Division 12 of the Water Code provided by the within and foregoing amendatory act shall have become effective. It is therefore necessary that this act take effect immediately.

CHAPTER 853

An act to amend Section 5 of Chapter 1307 of the Statutes of 1947, and to amend Section 8813 of the Public Resources Code, relating to the California Coordinate System.

In effect September 9, 1953

[Approved by Governor May 23, 1953. Filed with Secretary of State May 23, 1953.]

The people of the State of California do enact as follows:

SECTION 1. Section 5 of Chapter 1307 of the Statutes of 1947 is amended to read:

California Coordinate System Zones

Sec. 5. (a) For the purpose of more precisely defining the California Coordinate System, the following definition is adopted:

The California Coordinate System, Zone 1, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 40 degrees 00 minutes and 41 degrees 40 minutes, along which parallels the scale shall be exact. The point of control of coordinates is at the intersection of the meridian 122 degrees 00 minutes west longitude with the parallel 39 degrees 20 minutes north latitude, such point of control being given the coordinates: x (east)=2,000,000 feet and y (north)=0 feet.

The California Coordinate System, Zone 2, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 38 degrees 20 minutes and 39 degrees 50 minutes, along which parallels the scale shall be exact. The point of control of coordinates is at the intersection of the meridian 122 degrees 00 minutes west longitude with the parallel 37 degrees 40 minutes north latitude, such point of control being given the coordinates: x (east)=2,000,000 feet and y (north)=0 feet.

The California Coordinate System, Zone 3, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 37 degrees 04 minutes and 38 degrees 26 minutes, along which parallels the scale shall be exact. The point of control of coordinates is at the intersection of the meridian 120 degrees 30 minutes west longitude with the parallel 36 degrees 30 minutes north latitude, such point of control being given the coordinates: x (east)=2,000,000 feet and y (north)=0 feet.

The California Coordinate System, Zone 4, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 36 degrees 00 minutes and 37 degrees 15 minutes, along which parallels the scale shall be exact. The point of control of coordinates is at the intersection of the meridian 119 degrees 00 minutes west longitude with the parallel 35 degrees 20 minutes north latitude, such point of control being given the coordinates: x (east)=2,000,000 feet and y (north)=0 feet.

The California Coordinate System, Zone 5, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 34 degrees 02 minutes and 35 degrees 28 minutes, along which parallels the scale shall be exact. The point of control of coordinates is at the intersection of the meridian 118 degrees 00 minutes west longitude with the parallel 33 degrees 30 minutes north latitude, such point of control being given the coordinates: x (east)=2,000,000 feet and y (north)=0 feet.

The California Coordinate System, Zone 6, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 32 degrees 47 minutes and 33 degrees 53 minutes, along which parallels the scale shall be exact. The point of control of coordinates is at the intersection of the meridian 116 degrees 15 minutes west longitude with the parallel 32 degrees 10 minutes north latitude, such point of control being

given the coordinates: x (east) = 2,000,000 feet and y (north) = 0 feet.

The California Coordinate System, Zone 7, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes 33 degrees 52 minutes and 34 degrees 25 minutes, along which parallels the scale shall be exact. The point of control of coordinates is at the intersection of the meridian 118 degrees 20 minutes west longitude with the parallel 34 degrees 08 minutes north latitude, such point of control being given the coordinates: x (east) = 4,186,692.58 feet and y (north) = 4,160,926.74 feet.

Marking of position

(b) The position of the California Coordinate System shall be as marked on the ground by triangulation or traverse stations whose geodetic positions have been rigidly adjusted on the North American datum of 1927 and established in conformity with the standards adopted by the United States Coast and Geodetic Survey for first-order and second-order work, and whose coordinates have been computed on the system herein defined. Any survey or map purported to be based on the California Coordinate System shall have established connections to at least two of such stations; provided, however, that wherever any instrument (or conveyance) affecting the title to real property contains a reference to a point or line established in accordance with the California Coordinate System of Surveying and also reference to a point or line established with reference to data appearing of record in the county recorder's office, in a manner which will cause a conflict in position, the reference to the point or line established with reference to recorded data shall be controlling.

SEC. 2. Section 8813 of the Public Resources Code is amended to read:

8813. The position of the California Coordinate System shall be as marked on the ground by triangulation or traverse stations whose geodetic positions have been rigidly adjusted on the North American datum of 1927 and established in conformity with the standards adopted by the United States Coast and Geodetic Survey for first-order and second-order work, and whose coordinates have been computed on the system defined. Any survey or map purported to be based on the California Coordinate System shall have established connections to at least two of such stations.

Effect. Stats 1953, Ch 108

SEC. 3. Section 2 of this act becomes operative only if Division 8 of the Public Resources Code is enacted by the Legislature at its 1953 Regular Session, and in such case at the same time as said Division 8 takes effect, at which time Section 5 of Chapter 1307 of the Statutes of 1947, as amended by this act, is repealed.

CHAPTER 855

An act to amend Sections 1596.1 and 2421 of and to add Section 2421.5 to the Education Code, relating to school districts, and declaring the urgency thereof.

[Approved by Governor May 23, 1953. Filed with Secretary of State May 23, 1953.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 1596.1 of the Education Code is amended to read:

1596.1. The governing board of a school district may acquire a site for a school building contiguous to the boundaries of the district and upon the acquisition of such site it shall become

Acquisition of school building site in contiguous territory

a part of the district. No proceedings affecting school district boundaries, including annexation proceedings of any nature whatsoever, shall operate to exclude a school site from the school district owning the same if after such proceedings are complete the school site remains contiguous to the boundaries of the district. The school site remains contiguous for the purpose of this section although separated from the boundaries of the district by a road, street, stream, or other natural or artificial barrier or right of way. Notwithstanding such proceedings the site shall continue to be a part of the district owning or occupying the same, and the buildings and improvements thereon shall remain the property of such district.

SEC. 2. Section 2421 of said code is amended to read:

City as school district

2421. Except as provided in Section 2421.5 every city, except cities of the sixth class, unless otherwise prescribed in its original city charter, constitutes a separate school district, which shall be governed by the board of education or board of school trustees of the city. If the consent of the governing board of the district is first obtained, territory within the exterior boundaries of a city may be withdrawn from the school district of that city and annexed to an adjoining school district in the manner provided elsewhere in this code for the change of school district boundaries.

SEC. 3. Section 2421.5 is added to said code, to read:

Territory annexed to city not part of school district

2421.5. Territory annexed to a city shall not become part of any elementary, high school, junior college, or any other school district within said city as provided in Section 2421 unless proceedings are had and completed for the annexation or inclusion of such territory to the school district in the manner provided elsewhere in this code, or unless the resolution required by Section 35117 of the Government Code in the case of proceedings for the annexation of inhabited territory, or the resolution required by Section 35306 of the Government Code in proceedings for the annexation of uninhabited territory contains a statement that the annexed territory shall become part of the school district of the city.

Application of section

The provisions of this section apply to territory proposed to be annexed to a city in which territory is situated any school district or part of any school district.

The provisions of this section apply to any proceedings to annex territory to a city which have not been completed on or before the effective date of this section, except proceedings in which the resolution provided for in Section 35117 of the Government Code has been adopted, or in which the city legislative body or the board of supervisors has approved the annexation by ordinance, or resolution, as the case may be, for other city annexation proceedings.

Termination date

The provisions of this section shall remain in effect until the ninety-first day after the final adjournment of the 1955 General Session of the Legislature except that any territory which was annexed to a city during the effective period of this section but was not included in the school district of the city by reason

of the provisions of this section shall not be included in the school district of such city unless proceedings are had and completed for the annexation or inclusion of such territory to the school district in the manner provided elsewhere in this code.

This section shall not apply to sixth-class cities or to cities which have provided in their original charter that they shall not constitute a separate school district. Exception

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

The extremely rapid urban growth in many parts of California has resulted both in numerous city annexations and the expansion of school facilities in unincorporated areas, creating an irreconcilable conflict of desirable public interests and a block to the path of urban progress and growth of schools to meet the immediate needs of the children of the State of California. In order to prevent the serious impairment of the financial resources of school districts in several parts of the State it is necessary that this act take effect immediately.

CHAPTER 856

CHAPTER 2.2. COUNTY SERVICE AREAS

Article 1. General Provisions

Legislative findings

25210.1. The Legislature hereby finds and declares that unprecedented growth in the unincorporated areas of a great many counties of California, particularly since 1940, has created many new and difficult problems of government. As a result of large population growth and intensive residential, commercial

and industrial development in such areas, extended governmental services are needed in such areas.

The Legislature recognizes the duty of counties as instrumentalities of State Government to adequately meet the needs of such areas for extended governmental services and also recognizes that such areas should pay for the extended services which are provided.

The residents and property owners of such areas are entitled to have made available to them reasonable alternative methods of providing or securing the extended services they require and to choose among the alternatives a method best suited to their local circumstances.

Purpose

It is the purpose of this chapter to provide an additional alternative method for the furnishing of extended governmental services within such areas adequate to meet the needs of such areas and to provide for the levy of taxes within such areas in an amount sufficient to pay for extended services provided or additional extended services to be provided.

Short title

25210.2. This chapter shall be known and may be cited as the "County Service Area Law."

Scope of chapter

25210.3. This chapter provides an alternative method for providing governmental services by counties within unincorporated areas and the provisions of this chapter shall not affect or limit any other provisions of law authorizing or providing for the furnishing of governmental services within such areas.

When any proceedings are commenced under this chapter, for the establishment of a county service area or for providing additional types of services within an established county service area, the provisions of this chapter and no other shall apply to such proceedings. The provisions of Chapter 8 of Part 1, Division 2, Title 5 of the Government Code shall apply to all such proceedings and the term "district" as used in said Chapter 8 shall be deemed to include a county service area for the purposes of said chapter only.

Authorized services

25210.4. A county service area may be established under this chapter to provide any one or more of the following types of extended service within such area:

(a) Extended police protection.

(b) Structural fire protection.

(c) Local park, recreation or parkway facilities and services.

(d) Any other governmental services, hereinafter referred to as miscellaneous extended services, which the county is authorized by law to perform and which the county does not also perform on a county-wide basis both within and without cities, if:

(1) The board of supervisors determines that such services should be provided on an extended basis within a county service area; or

(2) Such services are specified in a request or a petition for the initiation of proceedings for the formation of a county service area or in a request or a petition for the initiation of

proceedings for the furnishing of additional types of services within a county service area.

At the time of the adoption of the resolution of intention to establish a county service area the board of supervisors shall specify the type or types of services which are proposed to be provided within the area pursuant to this chapter.

"Structural fire protection"

25210.5. As used in this chapter, "structural fire protection" includes protection against all fires occurring within a county service area except those for which protection is provided pursuant to Section 25642 of this code

Article 2. Preliminary Proceedings

County service area Establishment

25210.10. A county service area consisting of all or any part or parts of the unincorporated area of a county may be established pursuant to this chapter. Board of supervisors

25210.11. Proceedings for the establishment of a county service area may be instituted by the board of supervisors on its own initiative and shall be instituted by the board when:

(a) A written request therefor, signed by two members of the board, describing the boundaries of the territory which is proposed for inclusion in the area and specifying the type or types of extended county services already provided or to be provided within the area, is filed with the board; or

(b) A petition requesting the institution of such proceeding and signed by the requisite number of registered voters is filed with the board. The petition may consist of any number of separate instruments, each of which must comply with all the requirements of a petition, except as to the number of signatures.

25210.12. A petition requesting the institution of proceedings for the establishment of a county service area shall:

(a) Request the board of supervisors to institute proceedings to establish a county service area pursuant to this chapter.

(b) Describe the boundaries of the territory which is proposed for inclusion in the area.

(c) State the type or types of extended county services to be provided within the area.

(d) Be signed by not less than 10 percent of the registered voters residing within the territory proposed to be included within the area. If the board of supervisors finds that the petition is signed by the requisite number of registered voters residing within the territory proposed to be included within the area, that finding shall be final and conclusive.

County boundary commission

25210.13. Before any proceedings are instituted by the board or requested by its members, or any petition is circulated the proposed boundaries of the area shall be submitted to the county boundary commission for recommendation and report as to the definiteness and certainty of the boundaries in the

manner provided for in Chapter 3 of Title 6 of the Government Code.

Resolution of intention

25210.14. Within 40 days after either a written request by two members of the board or a petition requesting the institution of proceedings for the establishment of a county service area is filed with it, the board of supervisors shall adopt a resolution of intention to establish a county service area in the form hereinafter specified.

Contents

25210.15. Proceedings for the establishment of a county service area shall be instituted by the adoption of a resolution of intention to establish the area which shall:

(a) State that a county service area is proposed to be established under the terms of this chapter in the unincorporated area of the county, and describe the boundaries of the territory proposed for inclusion in the area.

(b) State the name proposed for the area in substantially the following form: "County Service Area No. _____."

(c) State the type or types of extended county services already provided or proposed to be provided within the area pursuant to this chapter and that a tax sufficient to pay for all such services which are furnished on an extended basis will be annually levied upon all taxable property within such area.

(d) Fix a time and place for a public hearing on the establishment of the area which shall be not less than 30 nor more than 60 days after the adoption of the resolution.

Notice of hearing

25210.16. The clerk of the board of supervisors shall publish a notice of the hearing at least once in a newspaper of general circulation published in the county or if there is no newspaper published in the county then it shall be published in a newspaper of general circulation which is circulated in the area. The last day upon which the notice is published shall be at least seven days prior to the date of the hearing.

Contents

The notice shall:

(a) Contain the text of the resolution.

(b) State the time and place for the hearing.

(c) State that at the hearing the testimony of all interested persons or taxpayers for or against the establishment of the area, the extent of the area or the furnishing of specified types of extended services will be heard.

Protests

25210.17. At the hearing protests against the establishment of the area, the extent of the area or the furnishing of specified types of extended services within the area may be made orally or in writing by any interested persons or taxpayers. Any protests pertaining to the regularity or sufficiency of the proceedings must be in writing and must clearly set forth the irregularities and defects to which objection is made. All written protests must be filed with the clerk of the board of supervisors on or before the time fixed for the hearing. The board of supervisors may waive any irregularities in the form or content of any written protest and at the hearing may correct minor defects in the proceedings.

Written protests may be withdrawn in writing at any time before the conclusion of the hearing.

25210.17a. If 50 percent or more of the registered voters residing within the territory proposed to be included in the area, or the owners of one-half or more of the value of the territory proposed to be included in the area, as shown by the last equalized assessment roll, file written protests against the establishment of the area, the board shall abandon the proposed establishment of the county service area.

If such majority protest of the registered voters or of assessed property owners is against only the furnishing of a specified type or types of extended service within the area, those types of service shall be eliminated from the resolution finally establishing the area.

Hearing

25210.18. The hearing may be continued from time to time but must be completed within 30 days. At the conclusion of the hearing the board shall find and determine the extent to which the services described in the resolution of intention are extended county services. After making the finding the board may abandon the proposed establishment of the county service area or may, after passing upon all protests, determine to establish the area. If the board abandons the proposed establishment of the county service area the county services found by the board to be extended county services shall not thereafter be provided to the area from general funds of the county. If the board determines to establish the area it shall by resolution so declare and finally determine and establish the boundaries of the county service area and designate the types of services to be performed therein.

Abandonment

Establishment

In establishing the boundaries of the area the board may alter the exterior boundaries of the area to include less territory than that described in the notice of the hearing but it may not include any territory not described in the notice of the hearing.

Land excluded

Land devoted primarily to agricultural or livestock uses and being used for the commercial production of agricultural or livestock products shall be excluded from a county service area if such land is contiguous to other land which is not included within the described exterior boundaries of the county service area, if the board of supervisors finds that such land will not be benefited by any of the types of extended services proposed to be provided within the county service area. Such land may, however, be included in the county service area, if the owner requests its inclusion.

Types of services

In designating the types of services to be performed in the county service area the board may eliminate one or more of the types of services specified in the resolution of intention to establish the area but may not include any types of services not specified in the resolution of intention.

Upon the adoption of the resolution establishing the area, the area is established for all purposes, subject only to compliance with the requirements of Chapter 8, Part 1, Division 2, Title 5

of the Government Code and subject to the provisions of Article 2.5 of this chapter.

Determinations binding

25210.19. If prior to the adoption of the resolution finally establishing the area the board of supervisors finds that the proceedings prior thereto were valid and in conformity with the requirements of this chapter, its determination shall be final and conclusive upon all persons.

Reports

25210.20. At the time of the adoption of the resolution of intention to establish a county service area the board of supervisors may direct each county officer who is or will be responsible for providing one or more of the proposed types of extended services within the area, if it is established, to study the proposed area and at or before the time of the hearing file a report with the board containing a brief description of such extended services by type which will in his opinion be required to adequately meet the needs of the area and his estimate of the cost of providing such extended services. The estimate shall also include the cost of providing any services of the same type which in his opinion are already being furnished within the area to the extent that such services are being furnished on an extended basis.

Cost estimate

All such reports shall be made a part of the record of the hearing on the resolution of intention to establish the area.

The petition shall be signed by at least 10 percent of the registered voters residing within the county service area.

Election

25210.22. If the board of supervisors does not rescind the resolution against which a petition is filed, it shall submit the resolution to the voters of the area at either a regular election or a special election called for the purpose. The resolution shall have no further effect unless and until a majority of the votes cast at said election are cast in favor thereof. If the resolution is not approved by a majority of the votes cast at said election, the county services found by the board to be extended county services shall not thereafter be provided within such area from general funds of the county.

25210.23. The provisions of Article 1, Chapter 2, Division 4 of the Elections Code, relating to the form of petitions, the duties of the county clerk, and the manner of holding elections, when an ordinance is proposed by initiative petition, govern the procedure on resolutions against which a protest is filed.

establishing the area may be authorized or provided therein under the authority of this chapter.

If the board of supervisors is of the opinion that public convenience and necessity require that any of the other types of extended services referred to in Section 25210.4 be provided within an established county service area, it may adopt a resolution of intention to provide such other types of extended services within the area. Such proceedings may be commenced at any time but shall be completed after July 1st but prior to December 31st of any year and services shall be commenced the following July 1st.

If 50 percent or more of the registered voters residing within the area, or the owners of one-half or more of the value of the territory included in the area as shown by the last equalized assessment roll, file written protests against the furnishing of any specified type or types of extended service within the area, those types of service shall be eliminated from

the resolution ordering additional types of extended service to be provided within the area.

SECTION 1. Section 5010 of the Financial Code is amended to read:

Filing of forms

5010. At least 10 days before issuing any stock, shares, investment certificates, or borrowers' membership certificates, each association shall file in the office of the commissioner copies of the forms of such instruments which have not been previously approved by the commissioner. If the commissioner within such period of 10 days notifies the association in writing that any form is unauthorized and states the reason therefor, the association shall not thereafter use such form. Any form of stock, shares, investment certificates, or membership certificate may be used without delay if such form has been approved by the commissioner.

Retirement of shares

6511. The directors may, under the regulations prescribed by the by-laws, retire any shares by enforcing the withdrawal of the shares. If the withdrawal of any shares is to be enforced, the holders of such shares shall be given 30 days' notice and be paid the amount actually paid in plus the full amount of dividends applicable thereto to the date of retirement. The notice shall expressly state that dividends cease on the date fixed for retirement. The aggregate amount required to be paid by this section is denominated the retirement price.

SEC. 5. Section 6512 of said code is amended to read:

Nothing in this section requires an association, in paying a withdrawal, to make any deduction for interest which it has paid or credited on any investment certificate on any date when it regularly pays or credits such interest, provided such dates of payment or credit as to any particular investment certificate are not more frequent than quarterly and provided the association's by-laws state that such deduction shall not be made

If prior to the adoption of such resolution the reserve or surplus account so established for the sole purpose of absorbing losses was available for the purpose, either solely or among other things, of absorbing losses, and such reserve or surplus account constituted all or a part of, or counted toward, the loan reserve, the bad debt reserve, the stock surplus, or any other reserve or surplus account required by or referred to in this part, then such reserve or surplus account excepting such part as is absorbed by losses, shall continue to constitute all or a part of, or to be counted toward, such reserve or surplus account required by or referred to in this part.

SECTION 1. Section 437c of the Code of Civil Procedure is amended to read:

Summary judgment:

437c. In superior courts and municipal courts when an answer is filed in any kind of action if it is claimed that there is no defense to the action or that the action has no merit, on motion of either party, after notice of the time and place thereof in writing served on the other side at least 10 days before such motion, supported by affidavit of any person or persons having knowledge of the facts, the answer may be stricken out or the complaint may be dismissed and judgment may be entered, in the discretion of the court unless the other party, by affidavit or affidavits shall show such facts as may be deemed by the judge hearing the motion sufficient to present a triable issue of fact. A judgment so entered is an appealable judgment as in other cases. The word "action" as used in this section shall be construed to include all types of proceedings.

Affidavits in support of motion

The affidavit or affidavits in support of the motion must contain facts sufficient to entitle plaintiff or defendant to a judgment in the action, and the facts stated therein shall be within the personal knowledge of the affiant, and shall be set forth with particularity, and each affidavit shall show affirmatively that affiant, if sworn as a witness, can testify competently thereto.

Affidavits in opposition to motion

The affidavit or affidavits in opposition to said motion shall be made by the plaintiff or defendant, or by any other person having knowledge of the facts, and together shall set forth facts showing that the party has a good and substantial defense to the plaintiff's action (or to a portion thereof) or that a good cause of action exists upon the merits. The facts stated in each affidavit shall be within the personal knowledge of the affiant, shall be set forth with particularity, and each affidavit shall show affirmatively that the affiant, if sworn as a witness, can testify competently thereto. When the party resisting the motion appears in a representative capacity, such as a trustee, guardian, executor, administrator, or receiver, then the affidavit

in opposition by such representative may be made upon his information and belief.

If it appear that such defense applies only to a part of the plaintiff's claim, or that any part is admitted, the court shall, by order, so declare, and plantiff's claim shall be deemed established as to so much thereof as such defense shall not apply to, or as is admitted, and the cause of action may be severed accordingly, and the action may proceed as to the remainder of such claim. No judgment shall be entered prior to the termination of such action but the judgment in such action shall, in addition to any matters determined in such action, award to plaintiff the amount of his claim so established by the proceedings herein provided for. A judgment entered under this section is an appealable judgment as in other cases.

(a) A retirement salary derived from the Permanent Fund, payable monthly in an amount which bears the same ratio to fifty dollars ($50) as the number of years of service credited to the member bears to 30 years The retirement salary shall be subject to the deductions provided in Section 14476, if the member is not credited at the time of retirement with the total Permanent Fund contributions required of each member.

However, no amount shall be paid under this paragraph to any retired person who has the right to receive a retirement allow-

ance from a local retirement system upon his subsequent attainment of a minimum age after the retired person attains that minimum age unless he affirmatively exercises his right to receive the retirement allowance from the local retirement system, and if such a retired person does so exercise his right, only if some amount is then payable under this paragraph.

Upon approval of the director each advisory board may establish committees or subcommittees to carry out assigned duties and functions and designate the members or alternate members of the board to serve upon such committees. If the marketing order so authorizes or upon recommendation of the board, the director may authorize the establishment of special committees or subcommittees of persons who are not members or alternate members of the board to perform specific duties and functions; provided, that the members and alternate members of any such special committee or subcommittee shall be appointed by the director. (1) Provisions for determining the existence and extent of the surplus of any agricultural commodity, or of any grade, size or quality thereof, and providing for the control and disposition of such surplus, and for equalizing the burden of such surplus elimination or control among the producers, processors, distributors or other handlers affected. Notwithstanding any other appropriate means of equalizing the burden of surplus Surplus, etc

control and the elimination thereof as provided in this chapter, provision may be made for the creation of a stabilization fund to be used for purchasing or otherwise acquiring any portion of the surplus of any agricultural commodity either in fresh or processed form, except when processed in hermetically sealed containers, and for the diversion of such surplus quantity of such commodity so acquired into noncompetitive or by-products uses or for disposing of such surplus in noncommercial channels. Moneys for such stabilization fund shall be provided by means of the establishment of an assessment rate for such purpose levied upon producers or handlers or upon both producers and handlers. Such assessment rate shall be based upon the units in which such agricultural commodity is handled or marketed or upon any other uniform basis which the director determines to be reasonable and equitable. For convenience of collection, the director may collect any producer assessments from handlers of such commodity. Handlers paying such assessments for and on behalf of any producers are authorized to deduct such producer assessments from any moneys owed by such handlers to such producers.

Stabilization fund

Assessment rate

Limitation on quantity to be marketed

(2) Provisions for limiting the total quantity of any agricultural commodity, or of any grade, size or quality thereof, which may be marketed by producers or processed, distributed or otherwise handled within this State during any specified period or periods, by any and all persons engaged in such producer marketing, processing, distributing or handling; provided, that any such limitation shall be applied under a uniform rule applicable to all such persons so regulated. The total quantity of any such commodity so regulated and permitted to be marketed by producers, processed, distributed or otherwise handled, shall not be less than the quantity which the director finds is reasonably necessary to supply the market demands of consumers of such commodity.

Allotment of quantity acquired from producer

(3) Provisions for allotting the quantity of any agricultural commodity, or of any grade, size or quality thereof, which each handler may purchase or acquire from, or handle on behalf of, any and all producers thereof, within this State during any specified period or periods under a uniform rule, applicable to all handlers so regulated based upon the amounts produced or sold by such producers in a prior period which the director finds to be representative, or upon the current season's production or sales of such producers, or both, to the end that the total quantity of such commodity or of any grade, size or quality thereof, so purchased or handled within this State shall be apportioned equitably among the producers thereof.

Allotment of quantity handled

(4) Provisions for allotting the quantity of any agricultural commodity, or of any grade, size or quality thereof, which each handler may process, distribute or handle within this State under a uniform rule, applicable to all handlers so regulated, based upon the quantities of such commodity or of any grade, size or quality thereof of the current season's crop which each such handler has available for such processing, distribution or

handling, or upon the quantities of such commodity or of any grade, size or quality thereof so processed, distributed or handled by each such handler in a prior period which the director finds to be representative, or based upon both, to the end that the total quantity of such commodity or any grade, size or quality thereof, processed, distributed or handled within this State during any specified period or periods shall be equitably apportioned among all such handlers thereof.

(5) Provisions regulating the period, or periods, during which any agricultural commodity, or any grade, size or quality of such commodity, may be processed, distributed or otherwise marketed within this State by any and all persons engaged in such processing, distributing or marketing within this State; provided, that the total quantity of such commodity so regulated and permitted to be processed, distributed or otherwise marketed during such period or periods, shall not be less than the quantity which the director finds is necessary to reasonably supply the needs of consumers of such commodity. Period for handling or marketing

(6) Provisions for the establishment of surplus, stabilization, or by-product pools for any agricultural commodity or of any grade, size, quality or condition thereof, and providing for the sale of the commodity in any such pool and for the equitable distribution among the persons participating therein of the net returns derived from the sale of such commodity. Whenever the marketing order authorizes the establishment of any such pool or pools the advisory board shall have power to receive such commodity from each producer or handler and to handle the same according to the grade, size, quality or condition thereof and to account to each producer or handler participating therein upon a pro rata basis for the net proceeds derived from the sale thereof. Surplus etc pools

The contents of any surplus pool shall not be marketed by the board in any form which would compete directly with that portion of the commodity which is marketed in regular channels of trade However, any portion of any surplus pool may be transferred by the board upon any gratuitous basis to charitable organizations and other similar agencies under proper safeguards to insure that none of such commodity shall compete directly with the unrestricted portion of such commodity. The board may dispose of the contents of a stabilization pool in the regular marketing channels in such manner and at such times as the board deems advisable, consistent with the maintenance of stabilized marketing conditions for such commodity. The board may dispose of the contents of any by-product pool only for by-products or for other similar purposes under proper safeguards to prevent such portion of the commodity so disposed of from directly competing with that part of the commodity which is marketed in the usual form or in the regular channels of trade.

Whenever the marketing order authorizes the establishment of a surplus, stabilization, or by-product pool, the board shall have authority to arrange for and operate any necessary facili- Facilities for storing financing, etc

ties for the storing, financing, grading, packing, servicing, processing, preparing for market, selling, and disposing of the contents of any pools provided for in this section; provided, however, the board shall not have authority to engage in commercial warehousing.

Pledge for loans

The board shall have power to pledge all of the commodity in any such pools with banks or other lending agencies for the purpose of obtaining loans thereon. The board shall have title, for the purpose of financing and handling, to all of the commodity in any such pools.

Equalization fund

Whenever the marketing order authorizes the establishment of any type of pool authorized in this section, the board shall have authority to create, by a uniform assessment upon producers, or upon some other uniform and equitable basis, maintain, and disburse an equalization fund to be used for the removal of any inequalities between producers or handlers participating in any pool resulting from errors in estimating production or surplus or for indemnifying producers whose production, in whole or in part, is diverted in green form or otherwise from normal marketing outlets or diverted to by-products, relief, or other noncompetitive purposes pursuant to the provisions of the marketing order.

Uniform grading and inspecting

(7) Provisions establishing or providing for establishing with respect to any agricultural commodity either as delivered by producers to handlers or processors, or as handled, processed, or otherwise prepared for market, or as marketed by producers, handlers or processors: (A) grading standards of quality, condition, size, maturity or pack, which standards may include minimum standards provided the standards so established shall not be established below any minimum standards prescribed by law for such commodity; and (B) uniform inspection and grading of such commodity in accordance with the standards so established.

Advertising

(8) Provisions for the establishment of plans for advertising and sales promotion to maintain present markets or to create new or larger markets for agricultural commodities grown in the State of California, or for the prevention, modification or removal of trade barriers which obstruct the free flow of agricultural commodities to market. The director is hereby authorized to prepare, issue, administer and enforce plans for promoting the sale of any agricultural commodity.

Particular brands, etc

Provided, that any such plan shall be directed toward increasing the sale of such commodity without reference to a particular brand or trade name, and

False claims

Provided further, that no advertising or sales promotion program shall be issued by the director which shall make use of false or unwarranted claims in behalf of any such product, or disparage the quality, value, sale or use of any other agricultural commodity.

Unfair trade practices

(9) Provisions relating to the prohibition of unfair trade practices. In addition to the unfair trade practices, now prohibited by law, applicable to the processing, distribution or

handling of agricultural commodities within this State, the director is hereby authorized to include in any marketing order issued hereunder provisions designed to correct any trade practice affecting the processing, distributing or handling of any agricultural commodity within this State which the director finds, after a hearing thereupon in which all interested persons are given an opportunity to be heard, is unfair and detrimental to the effectuation of the declared purposes of this chapter.

Production adjustment benefits

(10) Provisions for the application for, review, certification and equitable payment of, production adjustment benefits to growers from funds collected for such purpose on a uniform basis from all commercial growers of any agricultural commodity in the State, for which production adjustment payments are made. Such funds may be supplemented by funds, if any, received from federal, state or other agencies for such purpose.

Limitation

No program of production adjustment adopted hereunder shall authorize payments for the removal of acreages of trees or vines of the species, variety or varieties specified in the program which have, during the three years immediately preceding the date of application, produced an annual yield per acre in excess of the comparably computed average yield from bearing trees or vines of the same species, variety or varieties for the State as a whole, such yields and averages to be determined by the director from statistical data compiled by state or federal agencies or such other data as the director deems to be representative and reliable.

Research studies

(11) Provisions for carrying on research studies in the production, processing or distribution of any agricultural commodity and for the expenditure of moneys for such purposes. In any research in production or processing carried on hereunder, the Dean of the College of Agriculture of the University of California and the advisory board provided for in Section 1300.15 hereof shall cooperate in selecting the research project or projects to be carried on from time to time. Insofar as practicable such projects shall be carried out by said College of Agriculture, but if the dean of said college and the advisory board determine that the college has no facilities for a particular project or that some other research agency has better facilities therefor, the project may be carried out by other research agencies selected by the dean and the advisory board.

Additional powers of director

(c) In addition to authority to issue marketing orders regulating the processing or preparation for marketing of any or all portions of any agricultural commodity processed within this State, and in addition to authority to issue marketing orders regulating the distribution of any or all portions of any agricultural commodity within this State and subject to the legislative restrictions and limitations of Section 1300.14 of this chapter, the director may also issue marketing orders regulating the handling, processing, preparation for marketing or marketing of any or all portions of any agricultural commodity produced in this State for which marketing regulatory

powers are not being exercised by the Federal Government under the provisions of the Marketing Agreement Act of 1937, as amended, being Public Law No. 137, Seventy-fifth Congress, Chapter 296, First Session, 7 U. S. C. A. 674, 50 Statute 249.

SEC. 3. Section 1300.16 of said code is amended to read:

Handler's assent

1300.16. (a) (1) No marketing order or major amendment thereto, directly affecting handlers, issued pursuant to this chapter, shall become effective unless and until the director finds that such marketing order or amendment thereto has been assented to in writing by the handlers engaged in the marketing activity or activities regulated by such marketing order who handle not less than sixty-five percent (65%) of the volume of the agricultural commodity regulated thereby which is processed or distributed within the area defined in such marketing order or amendment thereto, or that such marketing order or amendment thereto has been assented to in writing by not less than sixty-five percent (65%) of the number of handlers engaged in the marketing activity or activities regulated by such marketing order; provided, however, that any marketing order or major amendment thereto directly affecting processors engaged in the operation of canning of fresh fruits or vegetables or canning or packing of dried fruits shall not be made effective by the director unless and until the director finds that such marketing order or amendment thereto has been assented to in writing by such processors engaged in the marketing activity or activities regulated by such marketing order or amendment thereto who processed not less than sixty-five percent (65%) of the volume of such agricultural commodity which is processed within the area defined in such marketing order or amendment thereto and by sixty-five percent (65%) of the number of such processors engaged in the marketing activity or activities regulated by such marketing order or amendment thereto.

Producer's assent

(2) No marketing order or major amendment thereto, directly affecting producers or producer marketing, issued pursuant to this chapter, shall be made effective by the director unless and until the director finds one or more of the following: (A) That such marketing order for amendment thereto has been assented to in writing by not less than sixty-five percent (65%) of the producers who are engaged, within the area specified in such marketing order or amendment thereto, in the production for market or engaged in such producer marketing, of not less than fifty-one percent (51%) of the agricultural commodity specified therein in commercial quantities, or (B) that such marketing order or amendment thereto has been assented to in writing by producers who produce not less than sixty-five percent (65%) of the volume of such agricultural commodity and by fifty-one percent (51%) of the total number of producers so engaged, or (C) that such marketing order or amendment thereto has been approved or favored by producers in a referendum among producers directly affected if the valid votes cast in such referendum in favor of such marketing order or amendment thereto represent not less than fifty-one percent

(51%) of the total number of producers of said commodity of record with the department who marketed not less than fifty-one percent (51%) of the total quantity of said commodity marketed in the next preceding marketing season by said total number of producers of record with the department. Whenever any marketing order or any major amendment to any marketing order is issued by the director, he shall determine whether assent, approval, or favor thereto of the producers shall be by written assents or by referendum.

Referendum

If the director determines that a referendum shall be had, he shall establish a referendum period of sixty (60) days. At the close of such referendum period, the director shall count and tabulate the ballots filed during said period. If from such tabulation the director finds that the number of producers voting in favor of such marketing order or amendment thereto is not less than fifty-one percent (51%) of the total number of producers of record with the department and that such producers who voted in favor of said marketing order or amendment thereto marketed not less than fifty-one percent (51%) of the total volume of such commodity marketed by all producers of record with the department during the marketing season next preceding such referendum the director may make such marketing order or amendment thereto effective. If he finds from the tabulation of such referendum that the number of producers who have voted in favor of such marketing order or amendment thereto is less than the required fifty-one percent (51%) of the total number of producers of record with the department or that the producers who have voted in favor of such marketing order or amendment thereto represent less than fifty-one percent (51%) of the total quantity of such agricultural commodity marketed by all producers of such commodity of record with the department during the marketing season next preceding the conducting of such referendum, or that such votes in favor represent less than fifty-one percent (51%) of the total by both number of producers and quantity of the commodity, the director may extend the period of such referendum for not exceeding thirty (30) days. At the close of such extended period the director shall again count and tabulate all ballots received during the entire period of referendum and he shall be authorized to make such marketing order or amendment thereto effective if he finds that not less than fifty-one percent (51%) of the total number of producers of such commodity of record with the department have voted in favor of such marketing order or amendment thereto and that such producers marketed not less than fifty-one percent (51%) of the total quantity of such commodity marketed by all producers of record with the department during the marketing season next preceding the conducting of such referendum. The director is authorized to prescribe such additional procedures as may be necessary to conduct such referendum.

Assent by cooperatives

(3) In finding whether such marketing order or major amendment thereto is assented to in writing or approved or

favored by producers pursuant to the provisions of this chapter, the director shall consider the approval of any nonprofit agricultural cooperative marketing association, which is authorized by its members so to assent, as being the assent, approval or favor of the producers who are members of, or stockholders in, such nonprofit agricultural cooperative marketing association.

Public hearings

(4) At each public hearing upon a marketing order or a major amendment thereto, the director shall receive testimony or evidence relative to the period of time which may be necessarily required for the filing, checking, and tabulating of written assents prescribed in this section. At the conclusion of each such hearing the director shall make a finding, based upon the evidence and testimony so received, with respect to the period of time which may be reasonably and necessarily required for such filing, checking and tabulating. On the basis of such finding the director shall fix and limit the period during which such assents may be received by the director and such period shall be announced by the director at the time of mailing of assent forms to producers and handlers affected; provided, however, that if the director finds that an extension of such period is reasonably warranted he may extend such period for receiving assents.

Extension

Finding re written assent or referendum After public hearing

At a public hearing held to consider a proposed marketing order or major amendments to an existing marketing order which directly affects producers or producer marketing, the director shall also receive testimony or evidence from which he can determine whether the assent, approval or favor of such producers shall be determined by written assents or by referendum as hereinabove prescribed. Upon the conclusion of any hearing which involves a marketing order or a major amendment thereto directly affecting producers or producer marketing, the director shall make a finding, based upon testimony and evidence received, whether producer assent, approval or favor shall be determined by written assents or by referendum. If the director finds that a referendum shall be had, he shall direct that a referendum be held in accordance with the provisions of subdivision (a) (2) of this section. If a referendum is conducted, the director shall not be required, with respect to the assent, approval or favor of producers, to make a finding concerning or fix and limit the period during which assents may be received by the director.

Referendum

Regulation of producer marketing, etc.

(b) Subject to the provisions, restrictions and limitations imposed herein, the director may issue marketing orders regulating producer marketing, the processing, distributing or handling in any manner of agricultural commodities by any and all persons engaged in such producer marketing, processing, distributing or handling of such agricultural commodities within this State.

Suspension or termination of marketing order

(c) The director shall suspend or terminate any marketing order, whenever he finds, after a public hearing duly noticed and held in accordance with the provisions of Section 1300.13 of this chapter, that such marketing order is contrary to or does not tend to effectuate the declared purposes or provisions of

this chapter within the standards and subject to the limitations and restrictions herein imposed; provided, that such suspension or termination shall not become effective until the expiration of the marketing season then current. If the director finds that the termination of any marketing order is requested in writing by more than forty percent (40%) of the producers, who are engaged within the State of California in the production for market of the agricultural commodity specified in such marketing order, and who produce forty percent (40%) of the volume of such agricultural commodity produced within the State of California for market, and finds that the termination of such marketing order is requested in writing by handlers who handle more than forty percent (40%) of the volume of the agricultural commodity covered thereby and by more than forty percent (40%) of the number of handlers of the agricultural commodity covered thereby, the director shall, if he finds such marketing order is contrary to or does not tend to carry out the declared policy of this chapter, terminate such marketing order; provided, that such termination shall be effective only if announced on or before such date (prior to the end of the marketing period then current) as may be specified in such marketing order.

Amendment of marketing order Minor amendments

(d) Upon the recommendation of not less than seventy-five percent (75%) of the producer members or handler members of the advisory board, or not less than seventy-five percent (75%) of each group if both are represented upon the advisory board, the director may make effective minor amendments to a marketing order. The director may require a public hearing upon minor amendments if in his opinion the substance of such minor amendments so warrant; the director shall, however, not be required to submit minor amendments for written assents or referendum approval.

Major amendments

Scope

In making effective major amendments to a marketing order the director shall follow the same procedures prescribed in this chapter for the institution of a marketing order. For the purposes of this chapter a major amendment to a marketing order shall include but not be limited to any amendment which adds to or deletes from any such marketing order any of the following types of regulations or authorizations:

Modification of any provisions of any marketing order in effect for the purpose of clarifying the meaning or application of such provisions or modifying administrative procedures for carrying out such provisions are hereby declared not to be a major amendment of such marketing order.

Public notice of issuance, suspension etc., of marketing order

(c) Upon issuance of any order making effective a marketing order, or any suspension, amendment or termination thereof, a notice thereof shall be posted on a public bulletin board to be maintained by the director in his office and a copy of such notice shall be published in a newspaper of general circulation published in the capital of the State and in such other newspaper or newspapers as the director may prescribe. CHAPTER 954

An act to add Section 8650.1 to the Streets and Highways Code, relating to bonds issued under the Improvement Bond Act of 1915, declaring the urgency thereof, to take effect immediately

In effect immediately

[Approved by Governor May 29, 1953. Filed with Secretary of State May 29, 1953.]

The people of the State of California do enact as follows:

SECTION 1. Section 8650.1 is added to the Streets and Highways Code, to read:

Bond denominations, etc.

8650.1. If the work is done under the Municipal Improvement Act of 1913 or the Street Opening Act of 1903, the legislative body may by resolution establish the denomination of the bonds and the amount to mature each year which may be other and different than that provided in Section 8650. It may also provide for a classification of assessments into different terms of maturity so that smaller assessments may be made to mature over a shorter period of time.

In such event, the bond declaration in the resolution of intention, assessment, and notice of recording the assessment may recite that the last installment of bonds shall mature a maximum rather than an exact number of years from the second day of July next succeeding 10 months from their date.

Urgency

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The purpose of this act is to make it possible to provide that odd denomination bonds to be issued under the Improvement Bond Act of 1915 shall mature in not more than two series and that small assessments may be collected over a shorter period of time than large assessments. This act is necessary in providing public improvements to meet the requirements of the

extraordinary growth which the State of California is now receiving. Odd denomination bonds are resulting in increased sale price of bonds and therefore increasing the cost of work to property owners which is necessary for the public health, safety, convenience and general welfare. Also the collection of small assessments over long periods of time increases governmental cost and they should be distinguishable from large assessments.

31664.2. This section shall apply in any county having a population in excess of 2,000,000. When the compensation of a safety member subject to the provisions of this article is a fac-

tor in any computation to be made under this chapter, there shall be excluded from such computation, for any period of service prior to January 1, 1952, any compensation earned since the establishment of the retirement system in such county upon which compensation the member has not paid contributions into the retirement fund because of the provisions of Section 32024 or 32322, unless prior to January 1, 1952, such member shall elect, by written notice filed with the board to pay into the retirement fund, by lump sum payment or by pay roll deduction over a period not exceeding 120 months and prior to the effective date of his retirement, and thereafter pays into the retirement fund within the period specified, (1) such additional amount as he would have contributed as a part of his normal contributions, assuming the entire compensation earnable by him was subject to normal contributions during the entire period of his membership in the system since its establishment in such county; and (2) an amount equal to the additional interest which would have been credited to his account under such assumption. At the time of filing the notice of election, as herein provided, any such member may elect to apply toward the additional amount payable by him pursuant to such election, any accumulated contributions with which he is entitled to be credited.

Exclusions

The entire compensation of a member shall be included in any computation to be made under this article for any period of county service on and after January 1, 1952, but if such election is not made or such amounts are not paid, there shall be excluded from the total payments made as current service pension, prior service pension and service retirement annuity, twice the actuarial equivalent at the time of retirement of such amounts plus regular interest thereon. If a member subject to the provisions of this article makes the election and payment as provided in this section, his entire compensation shall be included in any computation to be made under this chapter for the entire period of service with which he is entitled to be credited at retirement.

If a safety member files an election pursuant to this section and has accumulated contributions to his credit as of December 31, 1937, which with interest to December 31, 1951, are less than payments due for prior service credit subsequent to June 30, 1921, the amount due or balance thereof shall be paid by additional salary deductions in

the amounts specified by the member but in no case less than six dollars ($6) per month. The total amount due shall be paid prior to the effective date of his retirement. If the accumulated contributions with interest exceed the amount due for prior service credit the balance shall be refunded.

SEC. 5. Section 31687 of said code is amended to read:

31687. The prior service pension of a county peace officer member is an additional pension for county peace officer members, purchased by the contributions of the county, calculated in accordance with the following formula: Formula for computing prior service pension

$$\frac{A \times B}{2 \times (C - D)} = \text{annual prior service pension}$$

where:

A. Average annual compensation earnable by the member during any three years of service elected by the member at or before the time he files an application for retirement, or, if he fails to elect, during the three years immediately preceding his retirement.

B. The number of years of prior service credited to the member.

C. The minimum age at which the member is eligible to retire for service.

D. The member's age, at nearest birthday, at entry into county service.

In the event the amount derived in accordance with this formula exceeds one-half the member's final compensation the amount shall be reduced to an amount equal to one-half the member's final compensation. Notwithstanding any other provisions of this chapter, a county peace officer member who enters the system with credit for prior service and retires upon completion of 20 years of continuous service after attaining age 55, whose retirement allowance is less than one-half of his final compensation, his prior service pension shall be increased so as to cause his total retirement allowance to amount to one-half of such final compensation.

SEC. 6. Section 31688 of said code is amended to read:

31688. If a member enters the retirement system with credit for prior service, and retires after attaining the compulsory retirement age and his retirement allowance is less than one thousand two hundred dollars ($1,200) a year, exclusive of any annuity based on additional contributions, an additional amount purchased by contributions of the county shall be added to his combined annuity and pensions which will cause his total retirement allowance to amount to one thousand two hundred dollars ($1,200) a year. [Approved by Governor June 1, 1953. Filed with Secretary of State June 1, 1953.]

In effect September 9, 1953

The people of the State of California do enact as follows:

SECTION 1. Section 301 of the Corporations Code is amended to read:

301. Articles of incorporation shall set forth:

Articles of incorporation

(a) The name of the corporation.

(b) The purposes for which it is formed, including a statement in a separate paragraph identifying the specific business in which the corporation proposes primarily and initially to engage.

(c) The county in this State where the principal office for the transaction of the business of the corporation is located.

(d) The number of its directors, which shall be not less than three; and the names and addresses of the persons who are appointed to act as the first directors. The number so stated constitutes the authorized number of directors until changed by amendment of the articles or, unless the articles provide

otherwise, by a by-law duly adopted by the shareholders. However, the articles or, unless the articles provide otherwise, a by-law duly adopted by the shareholders, may state that the number of directors shall be not less than a stated minimum (which in no case shall be less than five) nor more than a stated maximum (which in no case shall exceed such stated minimum by more than three); and in the event that the articles or by-laws permit such an indefinite number of directors, the exact number of directors shall be fixed, within the limits specified in the articles or by-laws, by a by-law or amendment thereof duly adopted by the shareholders or by the board of directors. In the event the articles provide for an indefinite number of directors, unless the articles provide otherwise, such indefinite number may be changed, or a definite number fixed without provision for an indefinite number, by a by-law duly adopted by the shareholders.

SEC. 2. Section 500 of said code is amended to read:

By-laws

500. By-laws may be adopted, amended, or repealed by the vote or the written assent of shareholders entitled to exercise a majority of the voting power of the corporation. Subject to the right of shareholders to adopt, amend, or repeal by-laws, by-laws may be adopted, amended, or repealed by the board of directors, except that a by-law or amendment thereof changing the authorized number of directors may be adopted, amended, or repealed by the board of directors only pursuant to Section 301.

However, the articles or by-laws may require the vote or written assent of the shareholders entitled to exercise more than a majority of the voting power for the amendment or repeal of by-laws generally, or of particular by-laws, or for the adoption of new by-laws. The articles or a by-law adopted by the shareholders may limit or restrict the power of the directors to adopt, amend, or repeal by-laws, or may deprive them of the power.

SEC. 3. Section 501 of said code is amended to read:

Same Scope

501. The by-laws of a corporation may make provisions not in conflict with law or its articles for:

(a) The time, place, and manner of calling, conducting, and giving notice of shareholders' and directors' meetings. The by-laws may dispense with notice of all regular or annual meetings of shareholders except as required under Section 2201, or of all regular meetings of directors, or both.

(b) The method of publication of notices of meetings of the shareholders or directors when publication is required.

(c) The manner of execution, revocation, and use of proxies.

(d) The number, qualifications, duties, and compensation of directors; the time of their annual election; the requirements of a quorum for a directors' meeting, which shall not be less than one-third of the authorized number of directors nor less than two. The authorized number of directors may be changed by amendment of the articles, or, unless the articles forbid, by a by-law duly adopted by the shareholders, or, if the articles or

by-laws permit an indefinite number of directors pursuant to Section 301, by a by-law duly adopted by the directors; but the votes or written consents of shareholders holding more than 80 percent of the voting power are necessary to reduce the authorized number of directors below five.

(e) The appointment and authority of an executive committee and other committees of the board of directors.

(f) The appointment, duties, compensation, and tenure of office of officers other than directors.

(g) Special qualifications of persons who may be shareholders, and reasonable restrictions upon the right to transfer or hypothecate shares.

(a) To adopt a new name, subject to the restrictions contained in Sections 309 and 310 of this code.

(b) To change or add to its powers or purposes, or to set forth different or additional powers or purposes.

(c) To change the location of its principal office to any other county within the State; but no amendment need be made to change the principal office from one location to another in the same county.

(d) To change the authorized number of directors, or to state the authorized number of directors as changed by amendment of the by-laws or other lawful proceeding, or to state or change the minimum and maximum number of directors authorized as permitted by Section 301, or to limit or forbid change thereof by the by-laws.

The unencumbered balance remaining in each budget allotment for salaries and wages shall be computed by deducting from the amount of the allotment the expenditures and accrued obligations for salaries and wages chargeable to such allotment for the period covered thereby. The amount in the Salary Savings Reserve shall not be available for expenditure except upon transfer to allotments for salaries and wages approved by the Department of Finance. Such transfers shall be approved only after it has been demonstrated to the satisfaction of the Department of Finance that the allotment to be augmented is insufficient to meet necessary expenditures for salaries and wages.

No money in any Salary Savings Reserve may be expended to pay increases in salary ranges established after July 1, 1953, unless the Department of Finance certifies to the State Personnel Board prior to the adoption of such increased salary range that funds will be made available to pay the increased salaries resulting therefrom.

This provision shall not apply to the purchase of refrigerators, heaters, air conditioning equipment, stoves, linoleum, or equipment normally furnished in construction of the house as may be determined by the Board of Control. Any such funds that are appropriated by this act for this purpose shall be held intact and be reverted to the fund from which they were appropriated. It is the intent of the Legislature that no money shall be appropriated henceforth for the purpose of house furnishings. There exists an extreme shortage of physical facilities for the operation of the custodial, mental treatment, educational, administrative, military and other agencies of the State Government, the present facilities being entirely inadequate due to great increases in population and added governmental responsibilities. The capital outlay appropriations in this budget are all in continuation of an existing program to remedy the aforesaid shortage of facilities and to promote and sustain the economy of the State If they are not available for expenditure on July 1, 1953, the existing program will be delayed The expeditious correction of such condition and the efficient operation of the State's business require the immediate availability of the new

capital outlay appropriation and the uninterrupted availability of reappropriated capital outlay items contained in this measure. It is therefore necessary that this act go into immediate effect.

Only when there is an unsatisfied use tax liability on this basis shall the seller be liable for sales tax with respect to the sale of the property to the purchaser. If the sole use of the property other than retention, demonstration, or display in the regular course of business is the rental of the property while holding it for sale, the purchaser may elect to include in his gross receipts the amount of the rental charged rather than the sales price of the property to him.

Legislative intent

SEC. 3. Sections 1 and 2 of this act are hereby declared to be the positive expression of a continuing legislative intent with respect to the construction of the Sales and Use Tax Law, and the amendments of Sections 6009.1 and 6094 of the Revenue and Taxation Code made by this act are, accordingly, clarifications of the law and not changes therein.

SEC. 2. Section 802 of said code is amended to read:

Definitions

802. As applied to grapes:

(a) "Mature" means that each bunch of the varieties classified above in Group A shall test not less than 17 percent soluble solids in juice, as determined by the Balling or Brix scale hydrometer; however, in view of differences in climatic conditions prevailing north and west of San Gorgonio Pass, which results in the Thompson Seedless and Malaga varieties of grapes grown in that area having, at maturity, a higher percentage of soluble solids than mature grapes of these varieties grown in the area south and east of San Gorgonio Pass, Thompson Seedless and Malaga grapes produced in the area north and west of San Gorgonio Pass shall so test not less than 18 percent, except that Thompson Seedless grapes produced in the area north and west of San Gorgonio Pass shall be considered mature if they so test not less than 17 percent and if the juice contains soluble solids equal to or in excess of 25 parts to every part of acid contained in the juice (the acidity of the juice to be calculated as tartaric acid without water of crystallization); however, the varieties Emperor, Gros Colman, Bleu Grau, Drodelabi, Fresno Beauty, Servian Blue, Pierce Isabella, Pierce, Isabella Regia, California Concord, Concord, Dattier de Beyrouth, Red Malaga, Khalili, Persian 23, Dizmar, Ribier, Delight and Perlette shall so test not less than 16 percent and the varieties Olivette Blanche, Ladyfinger, Rish Baba, and Khandahar shall so test not less than 15 percent; however, the Blackrose and Cardinal varieties shall so test either not less than 16 percent or not less than 15 percent if the juice contains soluble solids equal to or in excess of 25 parts to every part of acid contained in the juice (the acidity of the juice to be calculated as tartaric acid without water of crystallization).

"Mature" in the case of all other varieties shall mean that the average or composite test of all the grapes in any container or bulk lot shall be not less than 17 percent soluble solids in juice, as determined by the Balling or Brix scale hydrometer; however, white varieties of the Muscat type shall test not less than 18 percent and the variety Burger shall test not less than 16 percent.

In the event that the maturity standard fixed for the Thompson Seedless and Malaga varieties of grapes produced in that area northwest of the San Gorgonio Pass should be declared void, it is the intent of the Legislature that the other maturity standards prescribed in this section shall prevail.

Any varieties included in group A may be placed in the standard for juice grapes and other varieties may be placed in the standard established for table grapes, but regardless of standard, the maturity of varieties included in group A shall be determined by testing the juice from entire bunches representative of the least mature grapes in any container and constituting not less than 10 percent by weight of the contents of the container. The maturity of all varieties not included in group A shall be determined by testing the juice from a composite sample representative of the average of the grapes in any container or bulk lot. The standards provided by this section are minimum standards, and the tolerances allowed by Sections 800 and 801 shall not be applied to any test made in accordance with this section for the purpose of determining whether any lot of grapes complies with the maturity standard for the variety.

(b) "Waterberry" means a disease characterized by a watery, soft or flabby condition of the berries. Such affected berries are low in sugar content, have tender skins and are very easily crushed.

(c) "Redberry" means a condition closely resembling waterberry generally found in black varieties. Such grapes show a red or brownish red color in addition to the general characteristics of waterberry.

(d) "Raisined berries" means grape berries which are fully cured, resembling raisins, which do not contain sufficient juice to drop from the berry under ordinary pressure between thumb and finger.

(e) "Sunburned or dried berries" means grapes which show complete drying out, from any cause, of part or all of any individual berries.

(f) "Severe freezing injury" means damage affecting the pulp of the berries.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

The production of grapes is an important industry in this State and the orderly marketing of properly matured table

grapes is necessary in order that the consumers shall have an appropriate supply of such grapes. The harvesting season of the current year will commence prior to the time this act would ordinarily take effect. The changes in the classification and standards of grapes as provided in this act should take effect prior to the 1953 marketing season in order that the benefits of the act may be available to producers and consumers during the current year.

Change of residence

3450. For the purposes of this section, it is presumed that the period of time for the acquisition of one year's residence in the county to which the person has removed, shall start to run upon the date of removal from the county in which he has previously acquired residence. Any residence once acquired is presumed to continue unless terminated by a subsequent act of the recipient. The county to which such person has removed shall provide the necessary medical or hospital care, or both, during the one-year period of establishment of residence under this section.

Any blind person who leaves his county for the purpose of attending an institution of learning located in the State shall be deemed, for the purposes of this chapter, not to have moved from his county.

If a recipient returns to the county granting aid to him, after an absence of less than one year, he shall not be deemed to have lost his residence therein.

In effect September 9, 1953

[Approved by Governor June 6, 1953. Filed with Secretary of State June 6, 1953.]

The people of the State of California do enact as follows:

Repeal

SECTION 1. Sections 30605, 30606, 30607 and 30608 of the Streets and Highways Code are repealed.

SEC. 1.5. Section 100.7 of said code is amended to read:

100.7. The department may, for the protection of the State of California, insure any bridge on the State Highway System acquired or constructed under provisions of the California Toll Bridge Authority Act against all risks in any amount up to the full insurable value thereof. In case of damage or destruction, the proceeds of such insurance shall be applied to the restoration of such bridge. Any such bridge may be so insured irrespective of the retirement of all indebtedness incurred for its acquisition or construction, and the cost of such insurance shall be paid from any funds available to the department for highway purposes. Bridge insurance

Any such bridge, other than bridges over the San Francisco Bay, shall, after retirement of all indebtedness incurred for its acquisition or construction, be maintained and operated as a free bridge and the cost thereof charged to funds available for maintenance of state highways. Free bridges

SEC. 2. Section 30605 is added to said code, to read:

30605. (a) The cost of operation and insurance of the toll bridge and any additional highway crossing of San Francisco Bay constructed between the County of Alameda and the City and County of San Francisco shall be paid by the department from the tolls and revenues received from the use and operation of the toll bridge and additional highway crossing. The cost of operation and insurance of any toll bridge or other highway crossing upon which tolls are now being collected or that may hereafter be acquired or constructed over the San Francisco Bay shall be paid by the department from the tolls and revenues received from the use and operation thereof. Operation and insurance costs

(b) The cost of maintenance (exclusive of the approaches) of the toll bridge and any additional highway crossing of San Francisco Bay constructed between the County of Alameda and the City and County of San Francisco shall be paid by the department from the tolls and revenues received from the use and operation of the toll bridge and additional highway crossing, and the cost of maintenance (exclusive of the approaches) of any toll bridge or other highway crossing on which tolls are now being collected or that may hereafter be acquired or constructed over the San Francisco Bay, shall be paid by the department from the tolls and revenues received from the use and operation thereof, except as follows: Maintenance costs

If the terms and conditions of any bonds that are outstanding on the effective date of this section and that are payable from such tolls are such as to require that the cost of physical maintenance of the toll bridge shall be paid from sources other than tolls and revenues from the use and operation of the toll bridge, the cost of such maintenance shall be paid by the department from money accruing and to accrue in the State Highway Fund available for the widening, resurfacing, and reconstruction of state highways for the group of counties designated as Group No. 1 in Section 187 until such bonds are refunded or retired or until payment of the cost of maintenance out of tolls and

revenues from the toll bridge is authorized in the manner provided in the proceedings authorizing the issuance of such bonds. The State Highway Fund shall be reimbursed by the authority for all amounts so expended with interest thereon at the rate of one and one-half percent ($1\frac{1}{2}\%$) per annum to be computed on the total amount expended during any one year.

Whenever after the effective date of this section any bonds secured by pledge of the tolls and revenues of the toll bridge are refunded or retired, in the total then outstanding, the authority shall include in the proceedings for any new issue of bonds for such purpose bonds in a sufficient amount to repay to the State Highway Fund the amount provided by this section. If the amount is not repaid from the proceeds from the sale of bonds and all revenue bonds secured by revenues on the toll bridge are fully retired, and all other obligations secured by revenues of the toll bridge, whether by means of bond issue or other provisions of law have been fully paid, then such repayment shall be made from the tolls and revenues of the toll bridge, and the authority and the department shall fix and collect tolls on the toll bridge at a rate sufficient to include provision for such repayment until the amount required to be paid into the State Highway Fund by this section has been paid thereto.

The moneys required to be repaid by this section shall be credited to the money available for construction of state highways in County Group No. 1 as specified in Section 187.

SEC. 3. Section 30607 is added to said code, to read:

State Highway Fund Reimbursement

30607. There shall be repaid into the State Highway Fund the total amount expended therefrom prior to the effective date of this section for maintenance, operation, and insurance of the toll bridge, which amount shall be determined by the department and the authority.

Whenever, after the effective date of this section, any bonds secured by a pledge of the tolls and revenues of the toll bridge are refunded or retired, in the total then outstanding, the California Toll Bridge Authority shall include in the proceedings for any new issue of bonds for such purpose bonds in an amount fully sufficient to repay to the State Highway Fund the amount provided by this section.

If the amount provided to be repaid to the State Highway Fund by this section is not repaid from the proceeds of the sale of bonds, then, after all revenue bonds issued and sold by the California Toll Bridge Authority in the sum of twenty-one million dollars ($21,000,000) and designated as "San Francisco-Oakland Bay Bridge 1951 Refunding and Improvement Toll Bridge Revenue Bonds, Series A" have been fully redeemed and paid, the authority and the department shall fix and collect tolls on the toll bridge at a rate sufficient to include provision for such repayment until the amount required to be paid into the State Highway Fund by this section has been collected to make such payment.

The moneys required to be repaid by this section shall be credited to the money available for construction of state highways in County Group No 1 as specified in Section 187.

SEC. 5. Article 2 is added to Chapter 2 of Division 17 of said code, to read:

Article 2. Southern Bay Crossing

30651. (a) As used in this article, "toll bridge" means that certain bridge across San Francisco Bay known as the San Francisco-Oakland Bay Bridge and the approaches thereto. "Toll bridge"

(b) As used in this article, "southern crossing" means an additional toll bridge or other highway crossing, as provided by this article and by Chapter 1 of this division, across San Francisco Bay from the City and County of San Francisco to the County of Alameda, and including the approaches thereto. "Southern crossing"

30652. As soon after the effective date of this section as it may lawfully do so under federal law, the California Toll Bridge Authority shall issue bonds in a sufficient amount to pay or provide for the payment of engineering studies, plans, and specifications of an additional bridge or other highway crossing across San Francisco Bay to relieve congestion of traffic on the toll bridge and to reimburse the State for such engineering expenses as have theretofore been incurred by it for that purpose, which additional bridge or other highway crossing is designated the southern crossing. From the proceeds of the sale of such bonds there shall be made available to the department the sum of one million five hundred thousand dollars ($1,500,000), or so much thereof as may be necessary, for the purpose of bringing the surveys and plans for the southern crossing to the same state of completion as those heretofore made for a northern crossing or crossing parallel to the San Francisco-Oakland Bay Bridge. Bonds

30653. (a) The authority and the department shall apply promptly to the appropriate officials of the Federal Government for permission to construct a southern crossing having its westerly terminus in the vicinity of Army and Third Streets in the City and County of San Francisco and its easterly terminus on Bay Farm Island, and shall obtain the necessary permits therefor as promptly as feasible. Permission to construct

(b) If permission to construct the southern crossing at the location specified in subdivision (a) of this section cannot be obtained, the authority and the department shall forthwith determine the most feasible location of the southern crossing and type of construction thereof, located southerly from the toll bridge and having its westerly terminus between the southern city limits and Army Street in the City and County of San Francisco and its easterly terminus on Bay Farm Island, and shall promptly confer with the appropriate officials of the Federal Government from whom permits must be obtained for the construction of such bridge or other highway crossing and shall obtain such permits as promptly as feasible.

Westerly approaches

30654. If the westerly terminus of the southern crossing is in the vicinity of Third and Army Streets, then the westerly approaches shall include:

(a) A freeway connection with Bayshore Freeway in the vicinity of 26th Street, with on-and-off ramps in both directions on Bayshore Freeway, together with connections to city streets in that location, and

(b) A freeway connection between Army Street and the Embarcadero Freeway in the vicinity of Mission Street with connections to city streets at Army Street, 23d Street, 19th Street, Main and Harrison Streets, Spear and Harrison Streets, Howard and Mission Streets on the Embarcadero, Fourth and Brannon Streets, and a high level bridge 135 feet above China Basin.

Easterly approaches

If the easterly terminus of the southern crossing is on Bay Farm Island at or in the vicinity of a point on the southwesterly shore thereof south of the intersection of Kilkenny Road and the county road connecting Bay Farm Island with the City of Alameda, the easterly approaches shall include:

(a) A freeway crossing Bay Farm Island to the bridge connecting the island with the City of Alameda, with on-and-off ramps in both directions, connecting with Kilkenny Road and the county road extending southeasterly, and also with the highway along the northerly shore of Bay Farm Island.

(b) A freeway from a point on the Bay Farm Island Freeway to a point on the Eastshore Freeway, to be constructed southeasterly from the City of Alameda.

(c) A freeway along the southerly shore of the City of Alameda from Bay Farm Island Bridge to a southerly prolongation of Main Street, thence northerly along Main Street to a point near Atlantic Avenue, and thence to the Posey Tube connecting the City of Alameda and the City of Oakland and a parallel tube which shall be constructed as part of the approaches, with on-and-off ramps connecting the freeway with the southerly end of Webster Street in the City of Alameda, and with adequate on-and-off ramps connecting the freeway and tubes with the streets in the Cities of Oakland and Alameda.

The tube parallel to the Posey Tube connecting the City of Alameda with the City of Oakland at Webster Street, and the approaches to the parallel tubes shall be constructed immediately as soon as money is obtained that may be used therefor either through the sale of revenue bonds the proceeds of which may be used for such purpose or through the refinancing by the Reconstruction Finance Corporation or any other agency

Alternative provisions

30655. If the terminal points of the southern crossing differ substantially from those set forth in Section 30654, the authority and the department shall promptly determine appropriate approaches thereto as soon as its location and type of construction are determined to provide suitable connection with Bayshore Freeway and if necessary the construction of portions of such freeway and other connections to the main arterial routes in the City and County of San Francisco. It shall likewise deter-

mine appropriate approaches in Alameda County, including connections from the easterly terminus of such bridge or other crossing with the Eastshore Freeway at one or more points, and including an additional tube connecting the City of Alameda and the City of Oakland under the Oakland Estuary with suitable connections on each end of said tube. In connection with the location of the approaches to the bridge or other highway crossing to be constructed, the authority shall advise the governing bodies of the City and County of San Francisco, the County of Alameda, and all of the cities in the County of Alameda, as to the approaches it deems appropriate, and upon the request of any such governmental agencies shall hold public hearings concerning the location of said approaches before they are finally determined by the authority.

Commencing construction Removal of federal restrictions

30656. As soon as surveys, plans, specifications and estimates of cost are completed for the southern crossing and the approaches thereto and the project has qualified for immediate construction under any governmental restrictions then in effect, the authority shall undertake the financing and construction of the southern crossing and the approaches as promptly as possible and without unnecessary delay, except that no construction shall be commenced unless and until all restrictions in the federal law imposing limitations upon the right of the State of California or the authority to collect tolls upon the existing San Francisco-Oakland Bay Bridge for the purpose of constructing a southern crossing of San Francisco Bay, or approaches leading to such crossing, have been deleted. The construction of the southern crossing, however, shall precede construction of any other such crossing.

Intent

It is hereby declared to be the intent of the Legislature that the construction of the southern crossing shall be commenced as soon as the federal law is amended so as to permit the collection of tolls upon the existing Bay Bridge for the purpose of constructing a southern crossing; but that this section is not intended to indicate a legislative declaration in favor of amending the federal law to permit collection of the existing bridge's tolls for construction of only one additional crossing, but rather that the Legislature favors amending the federal law to permit collection of such tolls for construction of other crossings in addition to the southern crossing.

Financing

30657. The authority, to the extent that it finds it feasible to do so in connection with the financing of the southern crossing and the approaches thereto, shall include sufficient funds in any borrowing or issuance of bonds therefor to provide such amounts as will be necessary for the construction of the approaches mentioned in Section 30654 on each side of San Francisco Bay.

RFC loan

30658 The authority shall consider the possibility of financing through a loan from the Reconstruction Finance Corporation as well as the issuance of bonds under Chapter 1 of this division and shall adopt a method of financing deemed most desirable from the standpoint of interest costs, restrictions that

might be imposed by the Reconstruction Finance Corporation, or under any proposed bond indenture, to the end that the best facility designed to meet traffic needs will be constructed at the lowest possible cost. Such financing shall include the pledging of the revenues from the existing San Francisco-Oakland Bay Bridge as well as those of the southern crossing. The authority may exercise any power conferred under Chapter 1 of this division with reference to the borrowing of funds or the issuance of bonds to accomplish the improvements mentioned in this article, and may borrow funds or issue bonds to provide funds as needed to carry on the work.

Alternative provisions if bonds cannot be sold

SEC. 6. In the event that the California Toll Bridge Authority is unable to issue and sell bonds for surveys and plans for a southern crossing as provided by this act prior to March 31, 1954, the necessary funds for such survey and plans shall be made available from money accruing and to accrue in the State Highway Fund available for the widening, resurfacing, and reconstruction of state highways for the group of counties designated as Group No. 1 in Section 187. The sum of one million five hundred thousand dollars ($1,500,000), or so much thereof as may be necessary, will be appropriated from such portion of the fund for the purpose of bringing surveys and plans for a southern crossing of San Francisco Bay, as provided by Article 2 of Chapter 2 of Division 17 of the Streets and Highways Code, to the same state of completion as those made for a northern crossing or crossing parallel to the toll bridge known as the San Francisco-Oakland Bay Bridge, including necessary approaches, to be expended through and upon authorization of the Department of Public Works. The California Toll Bridge Authority shall return said appropriation, or so much thereof as may be used, with interest thereon at the rate of one and one-half percent (1½%) a year, to be computed on the total amount withdrawn during any one year, to the fund in the State Treasury from the proceeds of the first sale of revenue bonds issued for the construction of such bridge or other highway crossing under the provisions of the California Toll Bridge Authority Act; provided, that in the event revenue bonds are not issued and sold for the construction thereof, any money expended from this appropriation shall be returned to the State Highway Fund from the tolls of the existing San Francisco-Oakland Bay Bridge, but only after all revenue bonds issued and sold by the California Toll Bridge Authority and all other obligations payable from the tolls from said bridge have been fully redeemed and paid and all other obligations of the bridge have been fully satisfied, including repayment to the State Highway Fund of all moneys heretofore expended for maintenance, operation, and insurance of said bridge as provided in Section 30607 of the Streets and Highways Code. The California Toll Bridge Authority and the department shall fix and collect tolls on the toll bridge at a rate sufficient to include provision for such repayment until the amount required to be paid into the State Highway Fund by this

section has been paid thereto. The moneys required to be repaid by this section shall be credited to the money available for the construction of state highways in County Group No. 1 as specified in Section 187.

SEC. 7. Notwithstanding any other provision of this act nothing herein appropriates any money and no money may be expended pursuant to this act until appropriated by another act of the Legislature. Limitation on expenditures

Petitions

D. Any person having an interest in land within the district claiming that such land will not be benefited under any contract for which a special assessment is required under the terms of this Section 35 5 may file with the secretary a verified petition alleging all of the following:

Contents

(1) That his land, or a described portion of it, is not and will not be benefited by the operations of the district in a manner that would justify his taxation at the special contract rate of taxation.

(2) That said land is entitled to a reduced rate of taxation.

Such petition shall request that the board determine what percentage of the special contract rate of taxation of the district

should be used in levying such special contract tax on the land described in the petition. No such petition may be filed or considered with reference to the annual general assessment of the district provided for in Section 30 of this act.

Cost

The petitioner shall pay all cost of publication of the notice and other expenses of the hearing, and such hearing shall be reported and transcribed by a phonographic reporter, and such transcript shall be filed with the board. If more than one petition shall be heard at the same time or upon the same notice, the cost and expenses of such hearing shall be equitably divided among all petitioners in such manner as may be determined by the board.

Hearing

The board shall set a time and place for the hearing of the petition, or of all the petitions if more than one has been filed, and shall give notice of such hearing by publication once each week for two successive weeks in a newspaper published in the county where the office of the district is situated, the first of which publications shall be at least 14 days before the date of such hearing. Such notice shall state all of the following:

(2) The names of the petitioners.

The board shall meet at the time and place set for the hearing and proceed in the order it deems proper to hear the petitions, and shall hear all competent and relevant evidence offered in support of any petition or in opposition to it, and may adjourn the hearing from time to time.

After the conclusion of the hearing, if the board finds that any of the land described in any petition is not and will not be benefited by the operations of the district in a manner that would justify its taxation at the special contract rate of taxation, the board shall reduce the rate of taxation on the land in a resolution entered in full upon its minutes.

Resolution

The resolution shall:

(1) Describe the land entitled to a reduced rate of taxation, or the respective parcels of it if separate parcels are to be assessed.

(2) Fix the percentage of the special contract rate of taxation which shall be applied in levying such taxes on the land described, or on each parcel of it if various parcels are found to be entitled to different reduced rates, in order that such taxes to be levied on such land will be proportionate with the benefits which it receives or will receive from the contract for which such special assessments are levied; and if any such parcel receives and will receive no such benefits, fix such percentage at zero.

Certified copy

A certified copy of the resolution determining that any land is entitled to a reduced rate of taxation shall be delivered to the assessor, and thereafter until notified of a change in the determination, he shall enter the land described in the resolu-

tion separately on the assessment roll and so designate it and the percentage of the special contract rate of taxation to which it is entitled so that it may readily be distinguished from other land not entitled to a reduced rate.

After a copy of the resolution is delivered to the assessor, the officer charged with the duty of entering on the assessment roll the amount of district taxes on the land shall in making the entry observe and conform to the resolution.

If the board determines that any of the land described in any petition is not entitled to any reduced rate of taxation, such determination shall be entered in full upon its minutes.

Board's finding

The determination of the board granting or denying a reduced rate of taxation as to any land after a hearing pursuant to this article shall not be changed by the board unless the board, on petition by a party affected, consents to another hearing, or on its own motion causes notice to be served on the owner of the land to show cause why the determination should not be changed, in either of which cases another hearing shall be advertised and held as provided in this subsection E; provided, however, that any person aggrieved by the determination of the board granting or denying a reduced rate of taxation may commence, at any time within 30 days after the entry of such determination on the minutes of the board, a proceeding in the superior court of the county in which the principal office of the district is located to have such determination corrected, modified or annulled.
