## OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, May 27, 1961

*Hon. Bruce F. Allen*
*Assembly Chamber*

**Reapportionment—No. 18189**

DEAR MR ALLEN: You ask three questions relating to the referendum of a reapportionment act, which we will answer in series

*Question No 1*

If the reapportionment is put to the referendum, when would the referendum election be held?

*Opinion No. 1*

In our opinion the reapportionment act would be submitted to the people at either the 1962 General Election or at any special election called by the Governor prior to that election.

*Analysis No. 1*

Article IV, Section 1 of the Constitution controls the right of referendum That section provides that if a referendum petition, proper in form, and signed by the prescribed number of qualified electors, is filed with the Secretary of State within 90 days after the final adjournment of the Legislature, the act against which the referendum is directed shall be submitted to the people by the Secretary of State "at the next succeeding general election occurring at any time subsequent to 30 days after the filing of said petition or at any special election which may be called by the Governor, in his discretion, prior to such regular election . . . ."

Inasmuch as a referendum petition would have to be filed with the Secretary of State within 90 days after the adjournment of the 1961 Regular Session, the next succeeding general election occurring subsequent to 30 days after the filing of that petition would be the 1962 general election.

It follows that the reapportionment act would be submitted to the people at that election unless the Governor, in his discretion, calls a special election prior to that time. If he does call a special election, the reapportionment act would be submitted to the people at that election.

*Question No. 2*

If no special election is called for the referendum, would legislators run from their present districts in 1962?

*Opinion No 2*

In our opinion legislators would run from their present districts in 1962.

*Analysis No 2*

Article IV, Section 1 of the Constitution provides that if a referendum petition, proper in form, and signed by the prescribed number of qualified electors, is filed with the Secretary of State within 90 days after final adjournment of the Legislature, the act against which the petition is directed shall not go into effect until and unless approved by a majority of the qualified electors voting thereon.

The reapportionment act has two aspects First, it repeals those provisions of law establishing the present districts, and, secondly, it enacts the provisions establishing the new districts If a referendum petition is filed against the act, it not only prevents the new districts from taking effect, but it also retains in existence the old districts.

There appears no question, therefore, that if the referendum is not submitted to the people until the General Election in November of 1962, persons seeking election to the Legislature at both the Primary Election in June of 1962 and at the General Election in November would run from the old districts The old districts would be the only districts in existence at the time of the two elections

*Question No 3*

If the people defeat the reapportionment bill by referendum, who has the power to reapportion?

*Opinion No. 3*

In our opinion, if the people, by referendum, defeat a reapportionment act enacted by the Legislature, the Legislature could enact another such measure at its next session.

*Analysis No 3*

The Constitution of California and the United States Constitution clearly contemplate that the Legislature shall redistrict the State for the purpose of election of legislative representatives following each decennial federal census (Art IV, secs 6 and 27, Cal Const ; Art I, secs 2 and 4, and 14th Amendment Sec 2, U S Const )

The courts of this State have said that the Legislature may create Assembly districts but once following each federal census, and that once the districts are created they may not be altered until after the next federal census (*Dowell* v *McLees*, 199 Cal 144; and *Wheeler* v *Herbert*, 152 Cal 224 ) The theory of the cited cases is that the legislative power to form legislative districts can be exercised but once during the period between one United States census and the succeeding one We believe the same reasoning would apply to the creation of Congressional districts

An attempt by the Legislature to modify the boundardies of legislative districts which have become effective through acts of the Legislative following a federal census is, in our opinion, an entirely different matter from an attempt by our Legislature to create legislative districts following the failure of the previous attempt to create such districts due to the rejection of the acts by the electors at a referendum election In this latter situation no legislative districts have been formed by the Legislature based upon the latest federal census, since the acts adopted by the Legislature would be a complete nullity due to the operation of the referendum procedure

Therefore, we do not believe that the *Dowell* or *Wheeler* case would prohibit the Legislature from creating new assembly or congressional districts based upon the 1960 federal census at a session occurring subsequent to a referendum election at which was rejected the previous attempt of the Legislature to create such districts

Section 6 of Article IV of the California Constitution provides that "should the Legislature at the first regular session . following any decennial federal census fail to reapportion the Assembly and Senatorial districts, a Reapportionment Commission . . shall forthwith apportion such districts . . . "

It is clear that the above-quoted portion of the Constitution has no bearing upon the creation of congressional districts However, some question might arise as to whether this provision was intended to apply to a situation in which the Legislature has enacted a statute reapportioning the Assembly districts of the State and which would have become law but for its rejection by the electors at a referendum election.

We do not believe the quoted provision applies in such a situation. The apparent purpose of the provision is to prevent the Legislature from failing to act to redistrict the State as soon as possible after each federal census It is clear that if the Legislature had failed to enact a statute establishing new Assembly districts at the 1961 session, the Reapportionment Commission would be required to act. The Legislature having acted, however, it is our opinion that the Reapportionment Commission is neither required nor authorized to take any action in the event that the act of the Legislature creating new Assembly districts is rejected by the electors at a referendum election.

Very truly yours,

RALPH N KLEPS, Legislative Counsel
By EDWARD K. PURCELL, Deputy

## ANNOUNCEMENT

## MEMORIAL DAY ADDRESS BY ASSEMBLYMAN GORDON H. WINTON

In the almost one hundred years since the first observance of Memorial Day, practically everything that can be said in the memory and honor of our comrades who died in the defense of our Nation has been said and many times over. There is really nothing new that I can say

today, and so I can but reiterate some of those things we have thought of in the past.

Probably everyone of us tends to think of our friends or comrades who lost their lives in the service of their Country as we commemorate Memorial Day. I know that I always do. I particularly remember a radioman in my flight crew who died in North Africa He had been married just one week before we went overseas He was clean-cut and vigorous and young at 22 Perhaps, for him, I should ask—Memorial Day, 1961 What is its meaning?

If it is a day when we revere our dead of past wars, it is also a day when we must ask ourselves. Are we carrying on their valiant fight? Are we as alert to the dangers to our free society as they were? Are we as willing to act as they were? Are we as willing to sacrifice as they were?

I believe that we are

However, in the serious struggle to preserve our national freedom and integrity in the world today, we must ask ourselves Are we presenting to the uncommitted nations of the world today an image of the United States that will persuade the people of these nations to join us—and not the Communists?

Remembering that most of the uncommitted nations are populated by peoples of darker race, the Freedom Rider violence in Alabama and Mississippi can be as damaging a blow to freedom as a Communist military advance in Laos

What the bigots of the South are saying, in effect, is that people of darker skins are *not* our equals This statement, of course, is un-American It is in direct contradiction to one of our fundamental concepts—"that all men are created equal" It is in direct contradiction to what you and I fought to preserve—it is in direct contradiction of what we are trying, as a Nation, to accomplish in our diplomatic efforts abroad.

Who is the Congolese to believe? Adlai Stevenson, who is fighting in the UN for equality and dignity for the new member nations from Africa—or the grand dragon of the Ku Klux Klan?

You can be certain that Communist agents in Africa are saying the Ku Klux Klan speaks for our Country—not Adlai Stevenson, or Dean Rusk, or President Kennedy

Whether they know it or not, the club-carrying racists of Alabama and Mississippi are giving as much aid and comfort to Communism as the rebel machine-gunner in Laos.

And we may ask ourselves still another question What of the fanatic organizations that today are questioning the loyalty of all with whom they disagree?

I speak of the equally un-American societies who call General Eisenhower and Chief Justice Warren conscious agents of the Communist conspiracy.

I speak of those who would destroy, in the name of anti-communism, the very institutions which are prime targets of the Communists themselves

Here again, you can be certain that Pravda and Izvestia are quoting these extremists as the true representatives of America

I believe, as I know you do, that our American democracy has the vigor, the strength and the dedication to survive all of its enemies—at home and abroad But I also believe that the un-American voices among us only will delay our ultimate victory—and every day that we are delayed, the Communists will put to their own evil use in the forum of world influence

On this Memorial Day, let us turn, as Lincoln said, to the better angels of our nature Let us rededicate ourselves to the principle that all men *are* created equal—that all of us have an equal right to life, liberty, and the pursuit of happiness

If we turn our backs to the despots and the racists—and confront honestly the dangers to freedom at home—we hasten the day of world victory of freedom, and we hasten the day of eventual peace on this earth

I would ask you to join with me in pledging that in the time of military peace—we will resist all encroachment upon our liberties and ideals just as surely and as vigorously as we resisted them in time of military war We owe it not only to ourselves, but to those whose lives we remember on this Memorial Day to make the fight as vigorous and as determined as the fight in which they gave their lives to defend the freedoms which we now enjoy

Our cause today is just. The fight is a good one, and we are the people to win it

Thank you

### REQUEST FOR UNANIMOUS CONSENT

Speaker Brown was granted unanimous consent that the above address by Mr Winton be ordered printed in the Journal

### EDITORIAL ORDERED PRINTED IN JOURNAL

On request of Mr Gaffney, Speaker Brown ordered the following editorial printed in the Journal:

### EDITORIAL FROM "AMERICA"

#### Memorial Day

Memorial Day, once called Decoration Day, used to be an occasion for honoring all those who died in defense of our Country Since 1950, by joint resolution of Congress, it is also a day of prayer for permanent peace

Hence, on April 24, President Kennedy urged all of us to celebrate May 30 "by invoking the blessing of God on those who have died in defense of their Country, and by praying for a new world of law where peace and justice shall prevail "

It is indeed fitting and proper that we remember our honored dead and ask God to grant eternal rest to those who gave the last full measure of devotion that this Nation might live in liberty.

It is also meet and just that we earnestly ask God to grant us peace in order that we may dedicate ourselves anew to the unfinished task of law and justice which our dead have thus far so nobly advanced

For, as the President said, "the same principles and revolutionary beliefs for which our forebears fought and died are still at issue in the

world '' Now we are engaged in a great global war, testing whether our Nation, or any nation that cherishes freedom with justice under law, can long survive Even now we struggle on the relatively bloodless fields of that war—in Berlin and Laos, in Cuba and the Congo—and, as we are beginning to see, it has no peripheral areas the chains of slavery are clanking everywhere.

Yet prayer is not enough The challenge requires of us all the best qualities of those who once made the supreme sacrifice Only thus can this world, under God, have a new birth of freedom Only thus can we make sure that liberty shall not perish from the earth

### SILENT PRAYER

On request of Speaker Brown, the Members of the Assembly, attaches, and guests, stood for one minute in silent prayer in memory of those who have given up their lives in the service of their Country

### REQUEST RELATIVE TO ADJOURNMENT IN MEMORY OF WAR DEAD

Speaker Brown requested that when the Assembly does this day adjourn, it do so out of respect to the memory of those who gave their lives for our Country.

**OPINION OF LEGISLATIVE COUNSEL**

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, May 30, 1961

*Hon. William B. Rumford*
*Assembly Chamber*

**Small Craft Harbors—No. 18314**

*Question*

DEAR MR. RUMFORD You have asked whether Assembly Concurrent Resolution No. 84, as amended in Assembly May 29, 1961, would in any way indicate legislative intent to divert any money presently earmarked for a loan for a small craft harbor project designated on the priority list established by the Small Craft Harbors Commission and approved by the Legislature by the adoption of Assembly Concurrent Resolution No. 30 (Res. Ch. 61, Stats 1959) in 1959 or Senate Concurrent Resolution No. 3 (Res. Ch 32, Stats 1960 [Reg Sess ]) in 1960

*Opinion*

No.

*Analysis*

The previous legislative action referred to consisted of an indication, by concurrent resolution, of legislative approval of a priority list established by the Small Craft Harbors Commission for eligibility of designated small craft harbor projects for construction loans pursuant to the Small Craft Harbors Law (DIV 5 7 [commencing with Sec 5801], P R.C.).

Assembly Concurrent Resolution No 84, as amended, would point out that the Small Craft Harbors Commission has announced that there are projects on the priority list which have not been commenced and that applications for loans will be cancelled by it unless projects are begun or are being diligently pursued The measure would request that if the commission finds funds are available for small craft harbor loans by reason of cancellation by the commission of applications for loans for projects enumerated on the priority list, projects found to be feasible subsequent to the previous concurrent resolutions shall be granted the available funds in accordance with criteria established by the commission.

In our opinion the measure does not indicate any legislative intent to divert funds from any project now on the priority list. It would only indicate legislative intent that if the Small Craft Harbors Commission, by its own action under commission policy which it has previously announced, cancels the applications for loans for any projects on the priority list, any money thereby made available by such commission action should be made available for loans for new projects.

Very truly yours,

RALPH N KLEPS, Legislative Counsel

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

*To the Honorable Members of the Assembly and Senate*

**Assembly Bill No. 273,** "An act to amend Section 4020 of the Welfare and Institutions Code, relating to the amount of grant for recipients of aid to needy disabled,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill will increase the scope of special services which may be extended to disabled persons under the aid to needy disabled program. This is a small program for very severely disabled persons who require the increased attention which the bill will provide.

The provisions of this bill are in accordance with my recommendations to the 1961 Legislature. Funds to finance the cost of this bill are contained in my 1961 Budget Message to the Legislature.

I, therefore, recommend consideration of Assembly Bill No. 273 as an emergency measure.

Relative to commending the Assembly electricians

WHEREAS, The diligent and conscientious service rendered by the crew of electricians who maintained and serviced the electric voting system, the public address system and other electrical equipment in the Assembly during the 1961 Regular Session, as well as past sessions, of the Legislature is deserving of commendation; and

WHEREAS, The foreman of this outstanding crew of electricians is Raymond H. Murphy who has maintained and serviced the electric voting system for 13 years, and the public address system for seven years; and

WHEREAS, This able crew consists also of John S Wyman who has maintained and serviced the electric voting system for 13 years and the public address system for seven years and Farris Wadsworth who has maintained and serviced these systems for seven years, and

WHEREAS, The willingness and efficiency with which the services were rendered served to lighten greatly the burden borne by the Members of the Assembly during the course of deliberation and decision, now, therefore, be it

*Resolved by the Assembly of the State of California*, That the Members of this House do extend to Raymond H Murphy, John S Wyman and Farris Wadsworth congratulations for their services and commendations and thanks for a job well done; and be it further

*Resolved*, That the Chief Clerk of the Assembly is hereby directed to transmit a suitably prepared copy of this resolution to Raymond H Murphy, John S Wyman and Farris Wadsworth.

By Mr. Lanterman:

**House Resolution No. 345**

Relative to an interim study of divorce laws

WHEREAS, Section 130 of the Civil Code presently provides in part that no divorce can be granted upon the uncorroborated statement, admission, or testimony of the parties; and

WHEREAS, This provision was enacted in 1872 and it is the feeling of many attorneys that it is now antiquated and unrealistic since it requires corroboration of the testimony of the plaintiff, or cross-complainant, as to the acts of the defendant constituting grounds of divorce whereas most, and in many cases all, of the misconduct of the offending party occurs out of the presence of corroborating witnesses, and

WHEREAS, A legislative study is necessary to determine if a change in the law should be made; now therefore be it

*Resolved by the Assembly of the State of California,* That the Committee on Rules is directed to assign the subject matter of this resolution to an appropriate interim committee for study and report thereon to the Assembly not later than the fifth calendar day of the 1963 Regular Session, including in its report its recommendation for appropriate legislation

Resolution read, and referred by the Speaker to the Committee on Rules.

By Mr. Lanterman:

**House Resolution No. 346**

Relative to small claims courts

WHEREAS, The small claims courts were created as a forum in which individuals unskilled in the law might press claims of small size and obtain relief without incurring large legal expenses and without being handicapped by their lack of expertise, and

WHEREAS, The small claims courts are at present commonly used by some corporations, represented by skilled, experienced persons, to secure judgments against individuals lacking skill and experience; and

WHEREAS, It has been alleged that such use of the small claims courts is inconsistent with the original philosophy of the small claims courts, places defendants at a disadvantage, and is unfair to the taxpayers who support such courts; now, therefore, be it

*Resolved by the Assembly of the State of California,* That the Assembly Committee on Rules is requested to refer for study to an appropriate interim committee the subject of persons entitled to press claims in the small claims courts, and to direct such interim committee to report to the Assembly its findings and recommendations no later than the fifth calendar day of the 1963 Regular Session of the Legislature.

Resolution read, and referred by the Speaker to the Committee on Rules.

## FIRST READING AND REFERENCE OF SENATE BILLS (RESUMED)

The following resolution was read

**Senate Concurrent Resolution No. 68**—Relative to snow clearance

Referred by the Speaker to the Committee on Rules

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Speaker Brown was granted unanimous consent that the following reports by the Speaker relative to interim committees and legislative printing costs be printed in the Journal.

## REPORT BY SPEAKER RELATIVE TO INTERIM COMMITTEES

June 1, 1961

*To All Members:*

Reports of the various committee chairmen show Assembly interim studies resulted in the introduction of approximately 440 bills in the 1961 session.

Inquiries conducted by the committees touched upon practically every phase of state government Some of the most highly publicized results:

Legislation designed to speed up the tabulation of election results, the need for which was observed in the days following the 1960 general election.

A tightening of laws to protect investors following the "10 per center" trust deed scandals

Changes in the handling of state funds to promote economy, efficiency and flexibility.

Educational system reforms, including more emphasis on academic training for both pupils and teachers

Not all interim hearings resulted in recommendations for changes in state laws One committee chairman reported no new laws are needed in three areas studied by his committee Another reported a series of hearings did not turn up a need for legislation, but did produce a voluntary cut in prices charged the State by a group of manufacturers

Savings to the taxpayers as a result of this are estimated at $2 to $3 million annually.

Some of the studies concerned simple, easy to understand issues while many others went into such highly technical fields as constitutional reforms and recodification of existing laws

Most committee chairmen, in summarizing their activities, pointed out instances in which their reports had been the inspiration for legislation by Members of the Assembly who were not members of the committee which carried out the studies, indicating such reports are widely read

One chairman reported 60 bills introduced as a result of studies during the interim and two of the 26 reported their committees concluded no new legislation was needed in the fields they covered.

Planning for the forthcoming interim study program is underway. These between sessions hearings provide valuable sources of information from which sound legislation can be developed.

Very truly yours,

RALPH M. BROWN, Speaker of the Assembly

## REPORT BY SPEAKER RELATIVE TO PRINTING COSTS

May 31, 1961

I wish to bring to the attention of the members that a comparison of printing costs for Assembly publications for the month of April of this year with those of the same month of the 1959 Session shows an overall saving of $12,822 36.

The largest single saving, $6,455 33, is shown by the Daily and Weekly Histories due mainly to the elimination of extraneous material, a new format and simplification of the tabular matter.

This saving has been effected notwithstanding an increase of 272 measures over the 1959 figure and a substantial number of copies printed.

## OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, May 30, 1961

*Hon Gordon H. Winton, Jr.*
*Assembly Chamber*

**Assembly Bill No. 2908—Horse Racing—No. 18442**

*Question*

DEAR MR WINTON: With reference to Assembly Bill No. 2908, as amended in Assembly May 25, 1961, you ask whether the language in lines 6 to 13, page 2 of the bill, would require the California Horse Racing Board to allocate thoroughbred racing days only to licensed thoroughbred racing associations conducting horse race meetings on the effective date of the bill In other words, would new associations be precluded under such language from obtaining racing days.

*Opinion*

No.

*Analysis*

The language in question reads as follows:

> "Of the total thoroughbred racing days available, the board may allow not more than 155 days per year to thoroughbred racing associations conducting horse race meetings north of the sixth standard parallel south, Mount Diablo base and meridian, nor more than 165 such days to thoroughbred racing associations conducting horse race meetings south of that parallel"

In our opinion the words "conducting horse race meetings" are used to indicate that the races allowed are to be held either north or south

of the sixth standard parallel south, Mount Diablo base and meridian, and would not preclude the allowance of racing days to associations not in existence on the effective date of Assembly Bill No. 2908 Such an interpretation harmonizes the changes made by Assembly Bill No. 2908 with existing Sections 19480 and 19485 of the Business and Professions Code, which contemplate the licensing of new tracks

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By HENRY J GOFF, JR., Deputy

**OPINION OF THE LEGISLATIVE COUNSEL**

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, May 25, 1961

*Hon Gordon H Winton, Jr*
*Assembly Chamber*

**Influencing Legislation by Contacting Other Persons—No. 17319**

*Question*

DEAR MR WINTON. You ask whether the filing and registration requirements of Sections 9903 and 9906 of the Government Code are applicable to a person who does not himself contact members of the Legislature but attempts on behalf of a group or association to influence legislation by persuading others to contact members of the Legislature. You also ask if it makes a difference if the group or association is registered and has a registered lobbyist, other than the member engaging in the activities

*Opinion*

In our opinion, assuming that the other conditions specified in Sections 9903 and 9906 are met, the sections would apply under the circumstances set forth in your question The fact that the group or association is registered and has another person as a registered lobbyist does not exempt the person referred to above from registration requirements otherwise applicable.

*Analysis*

Section 9903 of the Government Code provides that·

> "every person receiving contributions or expending any money for the purposes designated in subparagraph (a) or (b) of Section 9905 of this chapter shall file with the clerk and secretary . . ." certain specified information.

Section 9905 provides as follows:

> "The provisions of Sections 9901 to 9903, inclusive, shall apply to any person, except a political committee, who by himself, or through any agent or employee or other persons in any manner whatsoever, directly or indirectly, solicits, collects, or receives money or any other thing of value to be used principally to aid, or the principal purpose of which person is to aid, in the accomplishment of any of the following purposes:
>
> "(a) The passage or defeat of any legislation by the Legislature of the State of California or the approval or veto of

any legislation by the Governor of the State of California.

"(b) To influence, directly or indirectly, the passage or defeat of any legislation by the Legislature of the State of California or the approval or veto of any legislation by the Governor of the State of California."

Section 9906 provides that, with certain enumerated exceptions not here applicable, "any person who shall engage himself for pay or for any consideration for the purpose of attempting to influence the passage or defeat of any legislation by the Legislature of the State of California or the approval or veto of any legislation by the Governor of the State of California shall, before doing anything in furtherance of such object, register with the clerk of the Assembly or the Secretary of the Senate . . ." and file specified reports and information.

These provisions of California law have not been construed or considered by the California courts They were, however, modeled upon almost identical provisions of the Federal Regulation of Lobbying Act (2 U S C. Sections 261-270). The federal act was recently construed by the Supreme Court of the United States in *United States* v. *Harris,* 347 U.S. 612 The court summarized its construction of the federal act as follows (pages 623 and 624):

"To summarize, therefore, there are three prerequisites to coverage under Sec. 307.[1] (1) the 'person' must have solicited, collected, or received contributions, (2) one of the main purposes of such 'person,' or one of the main purposes of such contributions, must have been to influence the passage or defeat of legislation by Congress; (3) the intended method of accomplishing this purpose must have been through direct communication with members of Congress. And since Sec. 307 modifies the substantive provisions of the Act, our construction of Sec. 307 will of necessity also narrow the scope of Secs 305 and 308, the substantive provisions underlying the information in this case. Thus Sec 305[2] is limited to those persons who are covered by Sec. 307; and when so covered, they must report all contributions and expenditures having the purpose of attempting to influence legislation through direct communication with Congress. Similarly, Sec. 308[3] is limited to those persons (with the stated exceptions) who are covered by Sec 307 and who, in addition, engage themselves for pay or for any other valuable consideration for the purpose of attempting to influence legislation through direct communication with Congress."

The phrase "through direct communication with Congress" as used by the court does not require that such direct communication be made by the organization or person attempting to influence legislation, but includes the situation where that person or organization persuades

[1] This section is codified as 2 U S C 266 and is the counterpart of Gov C Sec 9905
[2] This section, codified as 2 U S C 264, is the counterpart of Gov C Sec 9903.
[3] This section, codified as 2 U S.C 267, is the counterpart of Gov. C. Sec. 9906.

others to communicate with Congress. This is made clear by the court in the following statement (347 U S. 620).

> "The legislative history of the Act makes clear that, at the very least, Congress sought disclosure of such direct pressures, exerted by the lobbyists themselves or through their hirelings or through an artificially stimulated letter campaign."

Thus, assuming that the California courts construe the Government Code provisions set forth above in the same manner as their counterparts in the federal statutes were construed by the United States Supreme Court, the sections would be applicable where the method employed to influence the Legislature is the artificially stimulated letter campaign In the event the California court does not adopt the United States Supreme Court's construction, there is nothing in the language of the Government Code provisions quoted above which indicates an intent to make those provisions applicable only to persons who themselves directly contact members of the Legislature or the Governor. Therefore, irrespective of whether the California courts adopt the federal court's construction, we believe the Government Code provisions would be applicable in the circumstances set forth in your question.

The fact that a group or association is registered and has another person as a registered lobbyist does not exempt a person contacting others to influence legislation from being subject to registration requirements otherwise applicable.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

Relating to a study on interstate co-operation of a port authority for Los Angeles-Long Beach Harbor

WHEREAS, There is unnecessary duplication of facilities and administration by the Cities of Los Angeles and Long Beach in connection with their harbors; and

WHEREAS, These harbors could be more efficiently and economically administered by a single authority which would accomplish the following desirable ends.

**Assembly Bill No. 1066,** "An act to amend Sections 124 5, 4552, 4553 and 4604 5 of, to add Section 4552.5 to, and to repeal Sections 2020 003 and 3084 05 of, the Welfare and Institutions Code, relating to medical care for public assistance recipients,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

This bill makes important improvements in the public assistance medical care program Through the utilization of additional federal funds which became available in late 1960 and those voted just recently by Congress, it is possible to revise and upgrade the scope of medical services for aged, blind and disabled persons This improvement in medical services to these needy persons will not result in any increased cost to either the state or county governments

I, therefore, recommend consideration of Assembly Bill No. 1066 as an emergency measure

Respectfully submitted,

EDMUND G BROWN, Governor

## REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Hanna was granted unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal.

## OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 31, 1961

*Hon Richard T Hanna*
*Assembly Chamber*

**Horse Racing—No. 18622**

DEAR MR. HANNA You have directed our attention to Assembly Bill No 2908 as amended in Assembly May 30, 1961, relating to horse racing You ask the following questions, which we will answer in series, in regard thereto.

*Question No 1*

What is the meaning of the language "unless the licensee consents to noncontinuous days, the racing days granted for any meeting shall be continuous, nonracing days excepted" as used in proposed Section 19530?

*Opinion and Analysis No 1*

Assembly Bill No. 2908, as amended in Assembly May 30, 1961, proposes to repeal existing Article 6 of the Horse Racing Law (Ch. 4, commencing with Sec 19400, Div 8, B & P C), which relates to the allocation of racing days by the California Horse Racing Board, and to substitute a new Article 6 therefor.

Language identical to that in question is presently contained in existing Article 6 (see Sec 19532, B & P C) It seems clear from a reading of that article that the term "racing days" means those days designated by the board on which racing may be conducted by a licensee Nonracing days are those days on which racing may not be held The determination as to which shall be racing or nonracing days is within the discretion of the board (Sec 19420, B & P C). For example, the board could grant a license on a five racing day per week basis

Thus, we believe the language contained in the present Section 19532 means that unless a licensee agrees to a break in the racing days which are allocated to him by the board, those days are to run continuously for the meeting interrupted only by those days on which no racing is held We believe the same interpretation is applicable to the language contained in proposed Section 19530 of Assembly Bill No 2908

*Question No 2*

If the language in proposed Section 19530 means that all racing associations must race six days a week does this mean when considering proposed Section 19533 that an association now racing only five days a week must "fill in" the Mondays or other nonracing days during its racing meeting?

*Opinion and Analysis No 2*

As indicated above, we do not interpret the language in proposed Section 19530 as requiring a race six days a week We believe the discretion as to the number of racing days rests with the board

Very truly yours,

RALPH N KLEPS, Legislative Counsel
By (Mrs) ANN MACKEY, Deputy

Two copies to Hon Gordon H Winton, Jr,
pursuant to Joint Rule No 34

## EXPLANATION OF ASSEMBLY BILL NO. 1688 BY MR. GEORGE A. WILLSON

1. Assembly Bill No. 1688 provides for the establishment of a state narcotic detention and treatment facility

2 It places the control of this facility in the Department of Corrections, recognizing the need for trained custodial officers in order to keep the addicts "in" and narcotics "out"

3 It seeks to accomplish the number one objective of all narcotic law enforcement personnel, namely, it gets the addict off the street.

4 It is both the toughest narcotic bill in the Legislature, and yet the most humane

5 It makes the detention of addicts compulsory

6 It *excludes* from the program the criminally aggressive addict, meaning any person who has been convicted of any felony involving bodily harm.

7. It also *excludes* any narcotic law violator who has committed an offense, the minimum term prescribed for which is more than five years in prison Thus, the seller of hard narcotics to a minor is excluded as well as the "repeater" seller of hard narcotics

8 It is limited to addicts of hard narcotics. It excludes marijuana

9 It includes persons in "imminent danger of addiction to narcotics." It recognizes that the repeated use of heroin places a person in "imminent danger of addiction"

10 The period of detention in misdemeanor cases is 5 years, and in felony cases 10 years

11 It provides for the parole of narcotic addicts under the strict control of the Adult Authority, with the inmates being eligible for parole only after they have served and been treated for a mandatory minimum period of 6 months

12 Commitment is for an indeterminate period in the sense that the person's progress under treatment will really be determinative of how long he stays in the detention facility following completion of the minimum period of 6 months Thus, if he shows no progress he could be kept for the maximum periods of 5 or 10 years He becomes eligible for parole only if he has progressed to the extent that this is recommended by the director in charge

13 An escape from the detention facility is given the same effect as an escape from a state prison It would be a felony.

14 Expensive hospital construction is not required. Treatment is recognized to be primarily psychological.

15 The measure provides for what is missing in the federal hospital treatment of narcotic addicts by providing for close supervision of the parolee after release from the detention facility.

16 The Director of Corrections is authorized to establish a "halfway house" as a pilot project to determine the effectiveness of such control upon the addict's rehabilitation after his release on parole.

17 Earnings of parolees are to be controlled while residing in such "halfway house" Charges for maintenance would be deducted therefrom Thus, the "halfway house" would be partially self-supporting.

18. Parole violators are subject to being retaken and returned to the detention facility, just as other parole violators are handled. It will not be necessary to prove that the individual had committed a crime while on parole A return to the use of narcotics or other violation of the conditions of parole is sufficient

19 If a parolee abstains from the use of narcotics for at least three consecutive years and has otherwise complied with the conditions of parole, the Adult Authority may certify the defendant back to the court in which the criminal charges were pending The court then discharges him from the program and may dismiss the criminal charges

A discharge of a parolee from the program and a dismissal of the charges against him release him from all penalties and disabilities resulting from the crime of which he had been convicted (Similar to provisions under 1203 4 Penal Code ) If such original charges are not dismissed and the defendant is sentenced thereon, time served while under commitment under the program shall be credited on such sentence

20 The parole program applies to misdemeanants as well as felons

21. If a defendant is convicted of *any* crime in a Municipal or Justice Court, and it appears to the judge that the defendant is addicted, the judge adjourns the criminal proceedings and certifies him to the Superior Court to determine if he qualifies for the commitment under the program.

22 Similarly, upon conviction of a defendant for *any* crime in the Superior Court (excepting those aggressive-type crimes expressly excluded from the operation of the program) the judge adjourns the proceedings and proceeds as indicated

23. The commitment itself is a civil-type commitment similar to that provided for under Section 5360 of the Welfare and Institutions Code

24 The program *also* applies to the involuntary commitment of addicts *not charged* with a crime If the person so committed is dissatisfied with the order of the court committing him, he may demand a hearing by judge or jury in substantial compliance with the present provisions of Section 5125 of the Welfare and Institutions Code

25. An addict who doesn't have criminal charges pending against him is nevertheless committed for a period of from six months to five years subject to the right of parole in the same manner as heretofore outlined

He becomes eligible to be discharged from the program by the Adult Authority if he abstains from the use of narcotics for at least three consecutive years while on parole and has otherwise complied with the conditions of parole

26 The Director of Corrections is required to engage in a program of research in the detention, treatment and rehabilitation of narcotic addicts.

Federal grants to the states are now available to assist in such projects

27. The measure bears the endorsement of the judges serving in criminal departments in the Superior Court of Los Angeles County, as well as of the Advisory Committee of judges of that court It also has the support and endorsement of District Attorney William B McKesson, and of Los Angeles County Probation Officer Karl Holton

## VETO MESSAGE CONCERNING ASSEMBLY BILL NO. 198

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 2, 1961

*To the Honorable Members of the Assembly*
*State of California, Sacramento*

GREETINGS: I am returning without my signature

Assembly Bill No 198 entitled, "An act to amend Section 206, 207, 209, 212, 213, 217, 452 and 453 of the Fish and Game Code relating to Fish and Game Commission"

Assembly Bill No 198 provides that the Fish and Game Commission shall hold two additional meetings, one in May and one in November, alternating between Redding and Fresno, relating to the discussions or announcements of the Commission's proposed regulations for fishing and hunting

This bill imposes an undesirable restriction on the prerogative of the commission to schedule meetings I am not at all opposed to the discussion and dissemination of public information respecting the game laws However, the present law requiring four annual meetings, two in Los Angeles and two in Sacramento, in addition to other regular and special meetings of the commission, is more than adequate to inform the general public of the proposed game regulations No useful purpose is served by establishing additional meetings by legislative enactment and imposing mandatory provisions with respect to the time and place they are to be held

Accordingly, I am returning this bill without my signature

Respectfully submitted,

EDMUND G. BROWN, Governor

## COMMUNICATIONS

The following communication was presented by the Chief Clerk, and ordered printed in the Journal.

GOVERNMENT OF THE DISTRICT OF COLUMBIA
WASHINGTON, D.C., May 29, 1961

*Mr Chester H Smith*
*Committee on the District of Columbia*
*United States Senate, Washington, D C*

DEAR MR SMITH· Thank you for forwarding to the Board of Commissioners a copy of a joint resolution adopted by the Legislature of the State of California regarding the naming of an appropriate street in the District of Columbia for the State of California

Under date of 14 April 1961 the Honorable Clair Engle, United States Senator from the State of California, requested our comments on a suggestion which Senator Engle had received from Mr James M. Singer of Soquel, California. Because Mr Singer's suggestion and the State of California Senate Joint Resolution have a common objective of changing the designation of Fifteenth Street between K Street and Constitution Avenue to California Avenue, I am enclosing a copy of our earlier letter to Senator Engle

A copy of this letter and a copy of my letter to Senator Engle will be sent to each State of California delegate serving in the 87th United States Congress

With best personal wishes

Sincerely yours.

F J CLARKE, Brigadier General U S Army
Engineer Commissioner

April 28, 1961

*Hon. Clair Engle*
*United States Senate*
*Washington, D C*

DEAR SENATOR ENGLE This is in further reply to suggestion made by Mr James M Singer, Soquel, California, that Fifteenth Street between K Street and Constitution Avenue, Northwest, be designated as "California Avenue"

Mr Singer states in his letter he " was somewhat shocked to find that California Street was one block long in the Plaza in front of the Union Depot." As you know, Mr Singer is evidently not aware that California Street is also situated in the Northwest Section of Washington and currently runs approximately five blocks from Massachusetts Avenue to Columbia Road and from Nineteenth Street to Florida Avenue

We fully appreciate Mr Singer's feelings in the matter and his interest in having Fifteenth Street renamed for his native State. However, the street-naming pattern for our City is that all major North-South streets be numbered consecutively, and East-West streets conform as much as possible to the alphabet In addition, past efforts of the District Government to rename existing streets have consistently met with resistance from the public

In considering all of the above, I regret to advise that favorable action will not be taken on Mr Singer's suggestion.

With best personal regards

Sincerely yours,

F J CLARKE, Brigadier General, U. S. Army
Engineer Commissioner

The following communication was presented by the Chief Clerk from. M. B Wilson, Assistant City Clerk, relative to a motion by the Los Angeles City Council concerning Assembly Bill No 3112 Referred to the Committee on Judiciary.

WHEREAS, Juvenile probation and parole officers are currently carrying caseloads far in excess of the recommended number, thus reducing the effectiveness of their overall work, and

WHEREAS, There has been no ascertainment of the status and degree of effectiveness of protective services in California, which are designed to insure early detection, referral, diagnosis and treatment and thus reduce the rate of, and prevent, juvenile delinquency, now, therefore, be it

*Resolved*, That the Committee on Rules is hereby directed to assign to an appropriate interim committee for study the subject of detention practices of juveniles, and to direct the interim committee to report the findings to the Legislature not later than the fifth calendar day of the 1963 General Session

WHEREAS, A Student Memorial Fund was established at California State Polytechnic College, San Luis Obispo, to raise funds and administer relief for the stricken dependents of the victims, and

## RESOLUTION CREATING COMMITTEE

**House Resolution No. 200**

Relating to a Legislative Inquiry into Policies and Procedures Affecting the Veterans' Home of California

WHEREAS, The Legislature of the State of California has as its utmost concern the welfare and best interests of the California veterans residing at the Veterans' Home of California at Yountville, California; and

WHEREAS, The Legislators of the districts in which said Veterans' Home is contained have expressed serious concern relative to certain newspaper articles which have questioned the propriety of the Director of the Department of Veterans Affairs in effecting certain fundamental policy changes at the Home; now, therefore, be it

*Resolved by the Assembly of the State of California*, That the Rules Committee of said body, together with whatever other members the Speaker of the Assembly shall select, conduct an immediate inquiry into the following matters

1 The feasibility of effecting the policy changes of the Veterans' Home from a quasi military institution to a Veterans Rehabilitation Center

2 The line of demarcation of authority between the policy-making power of the California Veterans Board, the direction of power of the Director of Veterans Affairs, and the administrative power of the Commandant of the Veterans' Home of California;

3 The general operation of the Veterans' Home of California, including the budget and program, and such other related subjects as may be suggested by the director of the department, the California Veterans Board and the Commandant of the Home

4 A review of the Report Concerning the Care and Treatment of Veterans at the California Veterans' Home dated March 1961

5 In addition to the following, an actual viewing of the Veterans' Home and Administration by members of the committee

## RECOMMENDATIONS

1 The Director of Veterans Affairs should reorient the program of the Home to emphasize objectives This program should be consistent with the principles outlined in Exhibit IV of this report No increases in budget, personnel ceilings, or major changes in physical facilities are required Assignment of a physiotherapist, however, should be a part of this program

2 The Veterans Board should be encouraged to take a more active role in formulating policies for the Home

3 The Veterans Board should reject the recommendation of the Department of Finance that the Home be turned over to the United States Veterans Administration

4 The Veterans Board should reject the recommendation of the Department of Finance that the Home be co-ordinated with the Department of Mental Hygiene and 1,000 mentally ill veterans be transferred to the facility.

5 A stronger program of physical medicine and rehabilitation should be instituted at the Veterans' Home

6 An interim study should be made on the subject of a suitable schedule of charges for care, support, maintenance and medical attention This should be referred to the Committee on Military and Veterans Affairs

7 The Home administration should continue to co-operate with veterans organizations, in view of the noteworthy service these organizations have contributed to the Home for many years

8 A new policy should be established for the Home pharmacy under which, as far as practicable, all prescriptions would be filled from this dispensary

9 The Veterans Board should review the use of post exchange funds so as to best meet such needs of members as rehabilitation, unmet expenses, etc.

10. Legislation should be enacted to provide for reimbursement to the State of the reasonable cost of medical and domiciliary care from the estate of any deceased veteran. Such reimbursement should be established as a priority claim

11 Taxicabs, under suitable controls, should be permitted to discharge passengers at convenient points within the grounds of the Home.

12 The hours of operation of the tavern should be shortened The morning opening should be discontinued

13 The courts-martial system should be abolished Handling of disciplinary problems should follow procedures used in Veterans Administration facilities or Members Courts

14 The required wearing of uniforms and use of all military titles should be discontinued. Uniforms should continue to be available for issue as at present.

15 A critical examination should be made of all civil service employees to determine whether they are performing essential services. If indicated, personnel should be reassigned within the Home to achieve greater efficiency, effectiveness and economy

16 Vacant beds in domiciliary buildings at the Home should be made available for eligible veterans who require intermediate care Such availability should be made known to county hospitals throughout the State

Priority of such aid should be given to veterans who are ambulatory stroke victims not requiring hospitalization, but requiring care above the nonprofessional level

17 The following changes should be effected by administrative action as soon as possible·

a All recreational activities should be member-oriented
b More effective work supervision should be instituted
c Members should be encouraged to contribute suggestions for improvement and changes Accepted ideas should be suitable acknowledged and acted upon by the administration

18 The Home should develop an effective and intelligent program to combat the alcoholic patient problem Alcoholism should not be treated as a basis for discharge Establishment of an Alcoholics Anonymous group and suitable rehabilitation programs in this area should be instituted

## FINDINGS

A *Feasibility of Changing the Veterans' Home to a Veterans' Rehabilitation Center*

It is clear that the direction of the Home should be toward greater emphasis on rehabilitation This will require some related changes in the present medical organization of the hospital to assure improved treatment of members.

No change in name of the Veterans Home of California is needed

Changes in direction and emphasis of operation and program are organizational matters to be determined by the Director of Veterans Affairs, where not in conflict with established policies of the California Veterans Board.

B *Demarcation of Authority*

Authority for direction and control of the Veterans' Home is presently shared by the California Veterans Board, the Department of Veterans Affairs and the Commandant of the Veterans' Home of California

Opinions of the Legislative Counsel (Exhibits II and III) establish the authority of the Director of Veterans Affairs for *direction* of the Home, and that of the commandant for *administration and management* as follows

> "It would seem, therefore, that while the law confers on the commandant the authority to manage and administer the affairs of the Home, by making his authority in this respect subject to the 'direction' of the Director of Veterans Affairs, it confers ultimate authority for the operation of the Home in the director In other words, in the case of a disagreement as to how a particular operation at the Home should be carried out, we think the decision of the director would control over that of the commandant, subject, of course, to the limitation that both the director and the commandant must act in a manner consistent with statute and the policies adopted by the California Veterans Board"

*Policy* originates within the board (Section 72, Mil and Vet Code) The director, however, subject to applicable policy or statute, must still "exercise all powers and jurisdiction***", (Section 78) within the department

The existing chain of authority (responsibility) is adequate to effect the foregoing recommendations for a new emphasis and change in direction of the organization

C *Budget and Operation of the Home*

A budget for fiscal year 1962 has been submitted for $4,806,897 including total salaries of $3,573,021 Of this amount $1,650,312 is from federal grants The total budget represents about $2,600 per member/year It is estimated this can be reduced to $2,575

On April 18, 1961, there were 1,847 members of the Home with an average age of 68 They include veterans of the Indian War (2), Spanish-American War (124), World War I (1,282), World War II (419), Korean War (15), and 5 others

The Home employs 631 of an authorized ceiling of 657 civil service employees, plus 115 member-employees. This equals one paid employee for each 2 4 members.

The annual budget for the Home is not submitted to nor reviewed by the board

The central fund of this operation is reported as totaling $200,000 Such a sum could be used toward many beneficial objectives for the welfare of the members Better utilization of this fund should be studied

D *A Report Concerning the Care and Treatment of Veterans*

This report (Exhibit I) is based on a detailed analysis of the Home made with a view toward achieving increased service and establishing a more modern approach to care of veterans

The recommendations of this committee agree with those of the report The rehabilitation and medical aspects of the proposed changes in the direction of the Home are detailed more fully in Exhibit IV.

E. *Committee Visit to Veterans Home of California*

The committee visited the Home on Friday, April 21, 1961 and inspected the plant Following attendance at a Veterans Board meeting that was in progress, the committee met informally for discussion of items of interest and exchange of information The Home was found to be well-planned physically and on spacious acreage near Yountville The committee was favorably impressed with the surroundings, care of the grounds, condition of the buildings, hospital and domiciliary accommodations and general atmosphere of the Home.

### THE CARE AND TREATMENT OF VETERANS AT THE CALIFORNIA VETERANS HOME

### SUMMARY AND RECOMMENDATIONS

#### Summary

A management study of the operations of the California Veterans Home at Yountville was undertaken with the objective of insuring that the aging and disabled members of the Home were receiving the care and treatment which would alleviate their infirmities

Because an adequate study required knowledge in broad fields of endeavor the assistance and counsel of many persons were sought These persons represented agencies of the state and federal government engaged in activities similar or parallel to the California Veterans Home.

The study has been rewarding to the participants. It has provided an opportunity to meet dedicated people and to gain a greater appreciation of the continuing advances being made in gerontology and related fields

The following recommendations are made with the assurance that their adoption will contribute to an ever improving program at the California Veterans Home It is, at the same time, recognized that the successful installation of them will require strong leadership and the co-operative efforts of the employees and members of the Veterans Home

#### Recommendations

1 Recommend that the Veterans Home of California be operated as a rehabilitation center. This will require that the manager of the division be required to be a licensed physician, preferably one experienced in physical medicine and rehabilitation procedures.

2 Recommend the secondary level of supervision be placed in a Director of Medical Services and a Director of Domiciliary Services

3 Recommend that as far as is practicable, the Veterans Administration's operating manual for the operation of a domiciliary center be adopted as the operating guide for the Veterans Home

4 Recommend that a co-ordinated medical program be established at the Veterans Home which will utilize the concerted efforts of the entire staff in achieving the rehabilitation potential of every member.

#### The Care and Treatment of Veterans at the California Veterans Home

This is a report of a management study made at the California Veterans Home at Yountville The study was undertaken at the request

* A Management Survey made at the request of the Director of Veterans Affairs

of Mr Joseph M Farber, the Director of Veterans Affairs It was conducted by a group of people, each of whom contributed specialized experience and competence in evaluating administrative or medical programs The study was performed by employees of the Department of Finance, Division of Organization and Cost Control, and members of the staff of the Department of Veterans Affairs Employees of the United States Veterans Administration worked with the survey team and supplied suggestions, recommendations and assistance in the conduct of the study In addition, a number of other employees of the Veterans Administration were contacted in a consulting capacity Medical officers of other state agencies were consulted as were directors of other State Veterans Homes

The study has an advantage in having been conducted over an extended period of time The objectives of the study were to formulate recommendations which would promote a more efficient management and operation at the Veterans Home The conclusions and recommendations are well founded They are based on modern concepts for alleviating the medical and sociological problems of a segment of our aging population These concepts are being developed through intensive gerontological research and are being practiced by the United States Veterans Administration as well as other agencies charged with the care of the aging.

## FINDINGS

### The Veterans Home Today

During the 1960-61 fiscal year, the budget for the California Veterans Home is $4,816 270, of which $3,532,898 or 73 3 percent is for salaries and wages Of the total budget expenditure, it is anticipated that $1,525,095 or about 32 percent will be received in support funds from the federal government on the basis of $2 50 per man-day for each veteran domiciled at the Home

The Home is comprised of seven domiciliary units with a total of 1,531 beds for men and one domiciliary building for 50 women members Two intermediate care units for men requiring some continuing medical care provide 418 beds There is a 468-bed general hospital

At the end of February, 1961, the membership at the Home was 1,854 members. Of this number, 1,290 members or approximately 70 percent of the membership consisted of World War I veterans whose average age is 68 Four hundred twenty-one World War II veterans or 22 percent of the population are members Their average age is 56 In addition, 124 Spanish American War veterans averaging 84 years of age were members, and a lesser number of veterans of other periods of hostilities The highest level of membership was reached in January, 1959 when 2,044 members were enrolled, and has declined since that time The Home has experienced a membership turnover of approximately 600 members a year.

### Some Aspects of Management

Management at the Home is relaxed and controls are exerted only when incidents disturbing to the complacence of the employees occur There has been a pronounced tendency to increase personnel despite a decreasing membership The management demonstrates a tendency to abdicate all authority, responsibility and direction to the Chief Medi-

cal Officer No other professional member of the staff has any influence in the decision regarding the hiring of medical staff or nursing personnel Responsibility and authority are not properly assigned to the Chiefs of Medical Services or to the Chief of Nursing As examples, the Senior Surgical Nurse reports to the Chief Medical Officer; the performance ratings of all the professional medical personnel are made by the Chief Medical Officer

This lack of appropriate delegation of authority and responsibility is also manifest in the duties and assignment of supervisors of the administrative, maintenance and housekeeping functions at the Home

An almost exclusive control of the hospital and intermediate care feeding under the domination of the Chief Medical Officer has resulted in a division of the responsibility and control of the food service function This has been attended by an increase in the number of persons eating in the hospital At the inception of the study, certain members were granted permission to eat at the hospital as a special privilege.

There is a need to study the entire food service function at the Veterans Home in detail, with a view to introducing improvements and economy At the present time, food is served family style in each of the five dining rooms Bedside tray service is provided to the non-ambulatory patients This family style method of feeding requires a high level of staffing Thirty-six food service assistants are employed in the main dining room alone, and fewer than a thousand members eat there Most state institutions feed the majority of their personnel cafeteria style

The Manager of the Veterans Administration Center in Los Angeles informed the survey team that domiciliary feeding at that installation was converted to cafeteria style at an expense of slightly more than $100,000, with a resultant savings of $87,000 during the first year Mr Wilbur Henline, Director of Veterans Affairs of the State of Oklahoma, informed the survey team that the conversion to cafeteria feeding at the three Veterans Homes in the State of Oklahoma paid the cost of conversion in the first year Per capita food costs are reasonable and there is no indication of excessive food waste This method of feeding is, however, not an economic one This situation regarding food service exemplifies the attitude of the management at the Home and its unwillingness to search for or accept changes in operating methods which would reduce waste and introduce economies

There is an underlying philosophy at the Home which has gradually evolved without departing far from the concepts held in 1881 which brought the Home to being Originally, the Home was intended as a soldier's home for indigent veterans of the Mexican and Civil Wars Those veterans, without families, who could not find employment because of their age or disability could gather together in a community, produce a portion of their food, perform the labor required to operate the Home and receive housing, sustenance and medical care in exchange

While this concept may have originally been defensible, it is not warranted today. The veterans in membership and those applying are no longer agricultural workers Federal pensions and Social Security benefits have introduced economic differences in the membership At the present time, less than 7 percent of the Home membership have an

income of under $200 a year The average income of the entire membership amounts to about $1,300 a year A significant number of members have incomes in excess of that amount.

### Charges for Care

The California Legislature in 1959 considered a bill which would require each member of the Home to reimburse the State in a reasonable amount each month for his maintenance The bill did not gain the approval of the Legislature, it was, in fact, referred to an interim committee for study and the committee has recommended against its passage There is, however, ample precedent for adopting a system of charges for care and medical attention

The United States Veterans Administration began in July, 1960 to withhold all pension amounts in excess of $30 per month from veterans receiving domiciliary or hospital treatment There are at the present time approximately 4,000 veterans who are patients in Department of Mental Hygiene hospitals A portion of the income of these veterans is utilized on a flexible basis to defray, in part, the costs of their hospital care and treatment Further, 14 of the 28 states which maintain veterans homes presently charge for care, treatment and hospitalization Surely, the desirability of adopting an equitable fee schedule should be given serious consideration No veteran who has sufficient income to pay his way outside the Home should be admitted There are some veterans, though, who would benefit from care and treatment at the Home who could contribute toward their support. It is possible that an equitable system could be developed administratively.

### Rehabilitation

The outstanding deficiency of the Veterans Home lies in that the members are not attended the benefits and assistance of a comprehensive rehabilitative program Veterans are admitted and within two days assigned to domiciliary companies As members of the company, they are assigned to fatigue detail to perform chores around the company or at various places around the Home These assignments vary and are not planned, nor are they related to a program to promote the rehabilitation of the members

If the program is to provide more than food and shelter to its members, changes are essential The whole admissions program must be overhauled A rehabilitative program based on well-defined goals must be initiated and an activities program related to the potential abilities of each member must be organized The needs are related Successful installation of them is dependent upon a complete change in philosophy and attitude on the part of management and the membership Improvement must necessarily be gradual and be related to the development of goals in all areas at the same time

To those who would argue that a rehabilitation program already exists at the Home, it is necessary to reply that mere objective is not enough unless it is properly organized and administered It is essential that work situations be developed, geared to member ability Daily responsibilities are necessary which will provide the members with a feeling of worth and self-respect.

**Admissions**

The admissions program of the Veterans Home represents one of the logical points at which the rehabilitative program can be initiated. At the point of admission it is necessary to determine

1. Whether the applicant can be benefited by admission to the Home;
2. Appraise his feasibility for rehabilitation, his rehabilitation goals and initiate a program leading to the accomplishment of these goals;
3. Acquaint the new member with the facilities and services available to him;
4. Train him in standard housekeeping and hygiene procedures; and
5. Through co-operative efforts of an activities planning board and the veteran, decided upon a regular assignment for the veteran during certain periods of the day

It is a recognized principle of medicine and sociology that man, in order to live, must provide for his own care and person within the limits of his ability He must engage in activities which will make him feel worthwhile and give him the advantage of serving his fellows

Dr Karl H Haase, Chief of Physical Medicine and Rehabilitation at the Los Angeles Veterans Administration Center has described the philosophy on which the rehabilitative efforts at that center are based He has stated that work situations, when properly utilized, can be medically and emotionally beneficial to the member Not only does a suitable activity satisfy the member's natural needs for acceptance, self-respect and security, but the activity contributes to the member's physical and psychological well being by focusing his attention on his abilities and work contributions rather than his chronic symptoms and disabilities

Studies at the Veterans Administration, Los Angeles Center, reveal that persons apply for admission to the domiciliary because they are either physically or mentally incapable of self-sustaining existence It has been determined, as a consequence, that the principal work of their rehabilitative effort was to furnish an aggressive program of preventative rehabilitation which encompass the activities of daily living

Preventative rehabilitation implies a program planned for the patient which will prevent regression from a realized maximum rehabilitation potential This type of therapy tends to reduce physical or mental relapses and forestall preventable hospitalization

All members of the California Veterans Home are presumed to be disabled and in need of medical treatment. More and more, however, it is recognized that the medical treatment of aging persons particularly must be a continuing process which embraces all elements of professional and technical rehabilitative procedures. Medical treatment is facilitated by motivating the patient to engage in a productive activity which will maintain his interest in other persons and in social groups Active people are happier and tend to be better able to live with an infirmity In order to properly establish the goals of a rehabilitative

program for the Veterans Home, it is essential that the term rehabilitation be defined in relation to the membership, their ages and the facilities available

The term rehabilitation can mean the restoration to employability. It can also mean the repair or alleviation of physical disabilities, or it can mean the restorative activities, both mental and physical, as engaged in through the practice of occupational and physical therapy The principal achievement of a rehabilitation program at the Veterans Home should be to bring the members to the ability to care for themselves either in the Home or in their own community It is not enough to provide physical, occupational and recreational therapy to a small group of members

**Medical Care Program**

The existing medical program for domiciliary members at the Veterans Home can best be described as medical supervision on an ambulatory basis. There is a distinct similarity to "sick call" in the military. Domiciliary members may obtain out-patient type care on their own initiative The program includes diagnostic workups and followups on existing plans of treatment and the maintenance of the members' general health, where the member co-operates by reporting to the domiciliary medical center It is not possible, under this type of program for the domiciliary medical officers to insure that their patients are continuing the prescribed treatment.

With the type of patient found in the domiciliary section, a better level of medical service would be provided by initiating a general practitioner system of domiciliary medical care This would be accomplished by assigning a team composed of a full-time physician, a part-time registered nurse and a medical secretary for approximately each 400 domiciliary members The general practitioner would retain responsibility for his patients should hospitalization become necessary Consultation in physical medicine, psychological, surgical or general medical problems would be obtained when needed from the medical staff assigned to the hospital Such a program would provide improved medical care to the chronically ill aging veterans residing in the domiciliary unit It would permit.

a The critical evaluation of their medical, psychological and sociological problems,
b The return of as many as possible to a more useful and relatively normal life in the outside community,
c Provide those remaining in the domiciliary unit with an integrated therapeutic regime and medical follow-up

Such a program would provide the additional advantages of opportunities for investigative studies of a well-controlled aging population and aid in the training of physicians in clinical geriatrics

There is already a demonstrated interest in significant medical research on the part of several members of the medical staff It is hoped that this interest can be reinforced and extended to include all the physicians The existence of worthwhile medical research projects at the Home would attract qualified practitioners and enhance the medical staff

One of the most striking differences found between the existing medical programs at the Veterans Home and the Veterans Administration Center at Los Angeles is the difference in approach to the field of physical medicine and rehabilitation The Veterans Administration's medical staff is actively involved in prescribing planned activity to promote the rehabilitative effort at the center. The administrative and maintenance employees are encouraged to assist in the program within the limits of their ability In Los Angeles the objectives have been clearly described and employee training programs conducted On the other hand, at the Veterans Home the orientation of the medical staff up to this time has been more nearly that of excusing the majority of members from any type of activity Other employees at the Home have no responsibility for rehabilitation Neither do they recognize their potential abilities in this area

These differences are essentially differences in approach and attitude Undoubtedly, many employees at the Veterans Home are attempting to perform their jobs in as effective a rehabilitative sense as they know how But they need assistance One of the objectives of any new program for the Home must be to encourage an enlightened attitude on the part of all employees and to co-ordinate their efforts under a sound and coherent plan to the mutual benefit of members and employees The program would rest on direct responsibility for the success of the rehabilitation program being assumed by all employees.

### The Rehabilitation Center

The Veterans Home has a rehabilitation and occupational therapy center contributed by the Oddfellows and Rebeccas at a cost of approximately one quarter of a million dollars These shops are currently being used to house the maintenance activities of the station rather than being devoted to member rehabilitative activity. This center should be put to use for the purposes it was intended.

### Military Aspects

The Veterans Home is still organized and operated along quasi-military lines, with many of the employees assuming military titles Members are granted the free issue of expensive military uniforms and accessories They are obligated to wear these uniforms for a monthly military-type inspection and there appears to be general resentment of the military atmosphere within the membership Coupled with this, there is no evidence of any improved management as the result of this military atmosphere Veterans Administration personnel have indicated that their experience has shown that when a military atmosphere was discontinued, management control was strengthened and the objectives of the Home were more easily developed The Veterans Administration took this step in 1955

It is proposed to abolish all military titles at the Veterans Home, since the practice mitigates against the concept of a modern rehabilitation center.

### Organizational Structure

An examination of the organizational structure of the Veterans Home was undertaken in the course of the study Significant differences between the stated organization and the organization as it actually func-

tions were found to exist. It is sufficient to state that the top organizational structure has not changed substantially since the Home was first accepted by the State in 1897. Modifications have been made over the years as the physical plant and membership have been enlarged

The report recommends major changes in program emphasis for the Veterans Home These changes make it imperative that corresponding changes in the top administrative structure occur They are essential to the installation and direction of a comprehensive rehabilitative program The principal changes are shown in the attached exhibit The recommended organizational structure would provide that the manager of the division and the Veterans Home be a qualified physician Below this employee the functions of the Home would be divided between a medical officer directing the medical program and an administrative officer controlling the business and service functions of the Home. Appropriate classifications for these positions will be determined by the State Personnel Board

Additional classification matters will surely arise and require action as the changed program gains impetus It will at the same time be possible to abolish certain existing classes.

**Veterans Home—No. 15765**

DEAR MR HAWKINS You have requested us to indicate the respective authority of the Director of Veterans Affairs and the Commandant of the Veterans Home of California in connection with the management and administration of the Home

The law relating to the Veterans Home of California appears in Chapter 1 (commencing with Section 1010) of Division 5 of the Military and Veterans Code.

Section 1014 of the Military and Veterans Code provides that the Veterans Home of California shall be under the management and control of the Department of Veterans Affairs, shall be subject to the policies adopted by the California Veterans Board and the direction of the Director of Veterans Affairs, and shall be administered by the Commandant of the Veterans Home of California

Section 1023 of the same code provides that the commandant shall manage the Home and shall administer its affairs, and subject to the direction of the Director of Veterans Affairs, shall adopt rules and regulations for the government of the Home

It is clear from these provisions that the commandant of the Home is entrusted with its management and administration, but that his

authority in this regard is subject to the direction of the Director of Veterans Affairs.

The term "direction" used in a statute ordinarily denotes the act of governing, ordering, or ruling (*Kellyville Coal Co v Bruzas* (Ill ), 79 N E 309), and when used in a statute relating to the authority of a head of an agency over a subordinate constitutes an expression in general terms of the power of the head of the agency to supervise and control the operations of the agency of which he is the head (see *Warner Valley Stock Co v. Smith*, 165 U.S 28, 41 L. Ed 621).

It would seem, therefore, that while the law confers on the commandant the authority to manage and administer the affairs of the Home, by making his authority in this respect subject to the "direction" of the Director of Veterans Affairs, it confers ultimate authority for the operation of the Home in the director. In other words, in the case of a disagreement as to how a particular operation at the Home should be carried out, we think the decision of the director would control over that of the commandant, subject, of course, to the limitation that both the director and the commandant must act in a manner consistent with statute and the policies adopted by the California Veterans Board

**Veterans—No. 15009**

DEAR MR. HAWKINS. You have referred us to House Resolution No 200, which appears at pages 2469 and 2470 of the Assembly Journal for April 13, 1961, and which relates to the Veterans Home of California.

You state that the "Resolve" clause of the resolution refers to the line of demarcation of authority between the California Veterans Board, the Director of Veterans Affairs, and the Commandant of the Veterans Home of California, and you ask whether there is such a line of demarcation established by law between the persons and agencies mentioned

The law relating to the Veterans Home of California appears in Chapter 1 (commencing with Section 1010) of Division 5 of the Military and Veterans Code

Section 1014 of the Military and Veterans Code provides that the Veterans Home of California shall be under the management and control of the Department of Veterans Affairs, shall be subject to the policies adopted by the California Veterans Board and the direction of the Director of Veterans Affairs, and shall be administered by the Commandant of the Veterans Home of California

Section 1023 of the same code provides that the commandant shall manage the Home and shall administer its affairs, and subject to the

direction of the Director of Veterans Affairs, shall adopt rules and regulations for the government of the Home

It appears clear from these provisions that there is a line of demarcation established by law between the California Veterans Board, the Director of Veterans Affairs, and the Commandant of the Veterans Home The California Veterans Board is designated as the agency to establish policies for the Home, the Home is under the direction of the Director of Veterans Affairs, and the administration of the home is placed in the Commandant of the Home, subject to the direction of the director

**AN OUTLINE FOR AN INTEGRATED MEDICAL TREATMENT AND REHABILITATION PROGRAM AT THE CALIFORNIA VETERANS HOME**

**Problem**

Approximately 1,400 domiciliary beds at the Veterans Home are not adequately served by an integrated medical treatment and rehabilitation program It is considered that the initiation of such a program will serve the welfare of the members, can be accomplished within existing budgetary limitations and result in increased performance of the function for which the Home was organized

**Assumptions**

1 The term "rehabilitation" here means to restore each member to optimum functioning capacity relative to his present age and physical capabilities whether he remains in the institutional setting or not It also means the preventative measures planned for the patient to inhibit

* Suggestions and recommendations by Dr Lochen
† Certain liberties in editing have been taken in conference with Dr Lochen

regression from a realized rehabilitation potential tending thereby to reduce physical or mental relapse and forestall preventable hospitalization

2 No additional physical facilities are required to put this rehabilitation program into operation.

3 The development of appropriate attitudes and interpersonal relationships play the most important role in the success of a rehabilitation program This encompasses the attitudes of members and employees toward the program and to each other.

### Background

The present domiciliary program depends on the members seeking out medical care and desirable activities The existing quasi-military organization reinforces the tendency to foster dependency attitudes on the part of the members These people, in the main aged and disabled, demonstrate a natural tendency to lose interest in themselves and their relation to their environment and turn their thoughts and feelings toward themselves The ultimate result is a deterioration of self-respect and the singularity of the individual It is essential that an aggressive and optimistic institutional climate be created under an imaginative leadership to combat the withdrawal and dependency feelings of the members or patients

In the male domiciliary sections comprising 1,481 beds there are assigned no physicians, nurses or other civil service personnel The housekeeping and administrative functions for these sections are all performed by paid members Members may obtain medical treatment by walking to a domiciliary medical clinic where two physicians are assigned Thus, in some small way, takes care of their physical ailments but is inadequate

### The Rehabilitation Plan

A planned rehabilitation program is required and must be organized to operate efficiently in close proximity to the members and to satisfy their needs

The plan encompasses the establishment of a professional team for each domiciliary section Such team will consist of a physician and a nurse, each of whom will devote their entire working day to the section members It will be augmented by the assignment of three aides to provide 24-hour, around-the-clock trained service Appropriate clerical assistance will be furnished to the team

Although psychologists and social workers will not be resident on the section, they will be on call and serve as members of the team

### Functions of the Domiciliary Medical Team

The initial responsibility of the domiciliary medical team will be a complete evaluation of the physical, mental and social status of each member in order to

1 Determine the reason for domiciliation,
2 Determine a rehabilitation goal for the member,
3 Outline a program to achieve that goal

Each member will be conferenced by the team Followup conferences will be held whenever deemed necessary or desirable to evaluate

the member's progress under the regime established for him All clinical records for the member will be kept on the section It is expected that adequate and meaningful progress notes will be added to this record at a minimum frequency of three months.

Presence of the medical team on the section will permit a more intimate knowledge of each member's disability, strengthen the physician-patient relationship and more firmly establish rapport between members and professional employees

A Member Advisory Committee will be established for each section. This committee will provide the members with a voice in the many day-to-day decisions affecting their welfare Management, through the vehicle of the medical team, will maintain final authority The members can reflect the wishes of the group in those areas where acceptable alternate courses of action are available Within the section the employee team can guide and review the committee's deliberation to insure that policy is followed

**Medical Team Facility**

Office space is already available in each section to house the medical team A doctor's office will be established comparable to the usual general practitioner's office An examination and treatment room will also serve as the station for the nurse and aide The third room required will be for the clerical assistant and medical record files Modification of existing facilities will consist of only minor alterations which can easily be accomplished by maintenance personnel at little or no additional cost.

**Member Activity Projects**

At the present time, members can engage in activities only on their own initiative It is anticipated that the section medical team, in cooperation with the member advisory committee, will stimulate and motivate member interest and participation in occupational, industrial and recreational therapy These therapy programs must be expanded to provide opportunity for the active participation of all members and employees of the Home This could necessitate the recruitment of some key personnel trained in these specialties However, these same goals can be accomplished by training existing personnel It is difficult to to find any evidence of an active employee training program at the present time Such a program is sorely needed to re-orient the entire employee complement toward a member-centered approach to rehabilitation

The rehabilitation program will be complemented by the integration of volunteer services of individuals and groups from the surrounding communities

**Staff Availability**

As of May 1, 1961, there were authorized 16 physicians, 80 registered nurses, 150 hospital aides and 20 technicians or 266 medical personnel to care for 397 hospital patients This does not include those medical personnel assigned to the annex and the receiving ward. This provides for one medically trained employee for each 1 4 patients At least 75 percent of the hospital patients are chronic cases and other hospitals caring for the same class of patients normally operate at a 1 to 4 5

ratio It is evident that the hospital is overstaffed Employees can be reassigned from the hospital to provide trained medical personnel for the domiciliary medical teams, to the extent this can be done without impairing the present level of service rendered at the Nelson M Holderman Memorial Hospital.

**Prescription Service**

All physicians, including those in the domiciliary sections, will write medical prescriptions only for those drugs maintained in the hospital pharmacy. They will ascertain beforehand that the drug is available by consulting a formulary The formulary will be prepared by the pharmacy committee The committee will list drugs by their pharmaceutic name and will review the formulary at least quarterly A formulary will insure adequate prescription service and eliminate the necessity for patients to purchase drugs of any kind

**Conclusion**

This rehabilitation program is intended to involve 100 percent of the members in the domiciliary area Regardless of any limitation in the degree of an individual's participation, it is considered that the very presence of the program in his section will be of great benefit to him Stimulation and remotivation can be accomplished in various ways, but it can never be attained in the complete absence of any planned or structured program in the vicinity of the patient or where there exists an apathetic attitude on the part of personnel as presently prevails at the California Veterans Home

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No 2631·

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, May 26, 1961

*To the Honorable Members of the Assembly and Senate*

**Assembly Bill No. 2631,** "An act creating a commission to investigate and report upon the financing of the public school system of this State, defining the powers and duties of the commission in respect thereto, and making an appropriation therefor,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This legislation is urgently needed to move ahead in the vitally necessary study of public school financing

I, therefore, recommend consideration of Assembly Bill 2631 as an emergency measure

Respectfully submitted,

EDMUND G BROWN, *Governor*

**Letter of Transmittal**

STATE OF CALIFORNIA, DEPARTMENT OF PUBLIC WORKS
SACRAMENTO, May 29, 1961

*Hon Arthur A. Ohnimus*
*Chief Clerk of the Assembly*
*State Capitol*

DEAR MR OHNIMUS Reference is made to House Resolution No 28 adopted by the Assembly on January 18, 1961, pertaining to freeway development in the City of Sacramento, particularly as planning for a north-south freeway between 2d and 3d Streets might seriously impair plans for beautifying the Sacramento River front as a part of a proposed historical development This resolution also calls upon the City of Sacramento to consider the integrity of the Capital in planning for freeways wherever routed

You can be assured that this resolution of interest and concern to the State Legislature was given deep consideration by the State Highway Engineer and the California Highway Commission, by the City Council of the City of Sacramento, and by interested citizen groups in the City of Sacramento

For your information, attached is a copy of resolution adopted by the California Highway Commission on May 24, 1961, indicating its co-operation with the City of Sacramento in the development of a comprehensive master plan for the Sacramento Central City which includes proposed historic and cultural areas along the Sacramento River front The contents of this resolution are self-explanatory and I trust indicate sincere interest in and concern for the development of an area of stimulating historical interest in Sacramento's West End

Respectfully,

ROBERT B BRADFORD
Director of Public Works and
Chairman, California Highway Commission

Above transmitted resolution referred to the Committee on Transportation and Commerce
