An act to amend Section 14745 of and to add Sections 14745.5 and 14745.6 to the Education Code, relating to the use and disposition of certain funds in the possession of school districts discontinuing local district retirement plans.

In effect September 9, 1953

[Approved by Governor June 9, 1953. Filed with Secretary of State June 10, 1953.]

The people of the State of California do enact as follows:

SECTION 1. Section 14745 of the Education Code is amended to read:

Discontinuance of district retirement plan

14745. (a) A district retirement salary plan established under this article in any unified district having an average daily attendance of less than 70,000 pupils may be discontinued by the governing board of the district; but no discontinuance of any such retirement plan shall be effective for any purpose unless provision is made for retirement allowances for active and retired employees of the district as provided in subdivisions (b), (c), (d), and (e) of this section.

Transfer to State Employees' Retirement System

(b) Active and retired employees of the district who otherwise would be members of such plan, other than teachers and persons employed in a status requisite for membership in the State Teachers' Retirement System or who were so employed prior to retirement, shall be made members and beneficiaries, respectively, of the State Employees' Retirement System according to the provisions of Part 3, of Division 5, of Title 2 of the Government Code, including transfer to said system of the accumulated contributions of said employees, together with such other assets of said plan allocated to said employees as may be determined.

(c) Notwithstanding any other provisions of this division, contributions to the discontinued district retirement plan made by teachers and other persons employed by the district in a status requisite for membership in the State Teachers' Retirement System standing to their individual credit at the date of discontinuance of the district retirement plan shall be deposited forthwith in the Retirement Annuity Fund with credited interest, to be applied on the amount due from said teachers and other persons under Section 14680 of this code, but not to exceed the amount so due. Likewise an amount equal to the actuarial equivalent of the annuity portion of the retirement allowance to which the respective retired teachers and other persons employed by the district, prior to retirement, in a status requisite for membership in the State Teachers' Retirement System were entitled under said plan, based on the interest rate and mortality tables used in its determination, shall be deposited in the Retirement Annuity Fund, to be applied on the amount due from said respective retired teachers and other persons under Section 14683 of this code, but not to exceed the amount so due. Any excess of the contributions with credited interest or the actuarial equivalents, as the case may be, over the respective amounts due under said sections, shall be paid forthwith to the respective active and retired teachers and other persons. Further amounts, if any, due under said sections after said deposits, shall be paid to the Retirement Annuity Fund by the respective active and retired teachers and other persons The balance of the assets held in the various funds of the discontinued district retirement plan after the deposits and payments required by this section, shall be delivered to the district in which the plan is discontinued, to be used as provided in subdivision (e) of this section.

Disposition of contributions, etc

(d) The district in which the district retirement plan is discontinued shall pay monthly to teachers and other persons employed by the district, prior to retirement, in a status requisite for membership in the State Teachers' Retirement System who were retired prior to the date of such discontinuance an amount equal to the amount by which the retirement allowance to which any of said retired teachers or other persons was entitled under said plan exceeds the increase in said teacher's or other person's retirement allowance under the State Teachers' Retirement System resulting from said discontinuance. If the amount payable to any such teacher or other person, under the sentence next preceding, is less than two dollars ($2), the district may pay, in lieu of such amount, one amount which shall be actuarially equivalent to such monthly amount thereafter payable, according to the interest rate and mortality table used in the determination of the teacher's or other person's retirement allowance under the said district retirement plan. The payment of such actuarially equivalent amount shall discharge fully the district's liability to such teacher or other person under this subdivision (d). The arrangement under which said amounts are paid by said district shall not be considered to

Payments to teachers, etc

be a local retirement system for the purposes of Chapter 14, of Division 7, of the Education Code, nor shall said amount be taken into account in the calculation of retirement allowances under the State Teachers' Retirement System.

Reserve fund

(e) From the assets delivered to it pursuant to subdivision (c) the district shall create a reserve fund which shall be the actuarial equivalent of the amounts to be paid to retired teachers and other persons under subdivision (d), and the amounts payable under subdivision (d) shall be paid from that reserve fund. If the reserve fund as first created proves insufficient to make the payments required under subdivision (d), the district shall make such additions to the reserve fund as may be necessary to provide for the payments required under subdivision (d). The remainder of the assets delivered to the district pursuant to subdivision (c), after the creation of the reserve fund for payments under subdivision (d), shall be placed in a special reserve, of which part shall be used first as provided in Section 14745.5, and the part remaining shall be used annually in the interest of the employees of the district, at the discretion of the governing board of the district.

SEC. 2. Section 14745.5 is added to said code, to read:

Special reserve

14745.5. (a) The special reserve resulting from the discontinuance of a district retirement salary plan as provided in Section 14745, and a part of which is to be used annually in the interest of the employees of the district, at the discretion of the governing board, shall be used first as provided in this section.

Credits

(b) The district in which the district retirement plan is discontinued shall credit each teacher or other person employed by the district at the time of discontinuance, in a status requisite for membership in the State Teachers' Retirement System, with an amount which bears the same ratio to the portion of the assets delivered to the district pursuant to subdivision (c) of Section 14745, which remains after the creation of the reserve fund for payments under subdivision (d) of Section 14745, as required by subdivision (e) of Section 14745, as the accumulated contributions credited to the said member in his individual contribution account under the discontinued retirement plan at the time of discontinuance, bore to the total accumulated contributions so credited to all such teachers and persons, but such credit to any active member shall not exceed the amount of the member's accumulated contributions so credited at that time. The amount so credited to any person shall be increased by interest at rates approved from time to time by the governing board of the district, and the accumulated amount at the date upon which the person retires for service or disability under the State Teachers' Retirement System shall be applied according to rates and tables adopted by the said governing board and then in effect, to provide an annuity payable to the person throughout the balance of his life, but subject to Section 14637, which provides for an election by the member as to options, in the same manner that the member's retirement allowance under

the State Teachers' Retirement System is subject to Section 14637, if the annuity which would be so provided is at least two dollars ($2) per month; otherwise said accumulated amount shall be paid in one sum to the person, in lieu of the annuity. If the person dies prior to retirement, the said amount, with credited interest, shall be paid to his designated beneficiary, as it appears on the records of the district, if any, otherwise to the member's estate. If the person ceases to be employed by the district for any reason other than death, retirement, or attainment of the age at which his classification as a permanent employee ceases, he shall no longer be credited with or have any right to the said accumulated amount, but the amount shall revert to and belong to the district. If any such active member has retired, died before retirement under the State Teachers' Retirement System, or ceased to be employed by the district by reason of his attainment of the age at which his classification as a permanent employee ceased, between the date of discontinuance of the district retirement plan and the effective date of this section, an annuity or death benefit, as the case may be, nevertheless shall be paid with the same effect as if this section had been in effect at the time of his retirement, death, or cessation of employment by the district. The arrangement under which annuities and death benefits are paid by a district under this subdivision shall not be considered to be a local retirement system for the purposes of Chapter 14 of Division 7 of this code, nor shall such payments be taken into account in the calculation of retirement allowances under the State Teachers' Retirement System.

Reserve fund

(c) From the assets delivered to it pursuant to subdivision (c) of Section 14745, the district shall create a reserve fund equal in amount to the total contributions credited to employees of the district, under subdivision (b) of this section, and the annuities and death benefits payable under subdivision (b) of this section shall be paid from this reserve fund. If the reserve fund as first created proves insufficient to make the payments required under subdivision (b), the district shall make such additions to the reserve fund as may be necessary to provide for such payments.

SEC. 3. Section 14745.6 is added to said code, to read:

Person retired prior to January 1, 1953

14745.6. If any person who was retired prior to January 1, 1953, from a position requisite for membership in the State Teachers' Retirement System, under a district retirement salary plan which has been discontinued pursuant to Section 14745, elected either under the said plan or under the said system, but not under both, to have his retirement allowance modified according to an option under which he would receive a smaller allowance and provide a benefit for his beneficiary, said person shall have the right, to be exercised not later than sixty (60) days after the effective date of this section, to change his election under the State Teachers' Retirement System with respect to said options. Any computations of actuarial equivalents under a changed election shall be made as of the said effective

date, and no adjustment shall be included in the computation on account of retirement allowance payments made prior to that date.

CHAPTER 1103

An act to amend Section 794 of the Agricultural Code, relating to cherries and containers thereof, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 11, 1953. Filed with Secretary of State June 12, 1953.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 794 of the Agricultural Code is amended to read:

794. Cherries shall be mature but not overripe, free from (a) insect injury or bird pecks which have penetrated or damaged the flesh, unsealed skin breaks, mold, brown rot, decay and (b) growth cracks, cracks or splits over three-eighths of an inch in length even though well healed, except that well healed shoulder cracks shall be allowed regardless of length and (c) serious damage due to sunburn, shriveling, sponginess, abnormal softening or other causes. Cherries

Not more than 10 percent, by count, of the cherries in any one container or bulk lot, may be below these requirements, but not to exceed one-half of this tolerance shall be allowed for any one cause. In addition 5 percent of the cherries in any one container or bulk lot may be slightly below the maturity requirements of this section but in no case may such cherries show any green areas, excepting the Bing variety when testing not less than 16 percent, and the Tartarian variety, when testing not less than 14 percent, soluble solids in a composite sample of the juice from not less than 10 representative cherries as shown by a standard refractometer instrument. Packing

All red and black varieties of cherries shall not be considered mature unless at the time of picking the entire surface has attained at least a solid light red color.

"Face and fill" packing

When cherries are packed in containers by the "face and fill" method the average size of the cherries used in the fill shall not be smaller than would pack one "row size" more than the cherries in the packed face; however, none of the cherries in the fill shall be of a size that would pack more than two sizes smaller, except that 10 percent, by count, of the cherries in any one container may be below this minimum size requirement.

Doubles

Cherries meeting all other requirements of this section shall in addition be free from doubles except that (1) a tolerance of 10 percent, by count, shall be allowed for doubles with both halves well developed uniform in size and mature, and (2) a tolerance of 2½ percent, by count, shall be allowed for doubles having one portion not well developed. However, any amount of such doubles shall be allowed if the container in which they are placed or packed is plainly and conspicuously marked on the outside end of the container, bearing other markings required by this section, with the designation "Exceeds tolerance for doubles" in letters at least three-eighths of an inch in height.

Markings

All containers of cherries shall bear upon them in plain sight and in plain letters on one outside end: The name of the person who first authorized the packing of the cherries or the name under which such packer is engaged in business, together with a sufficiently explicit address to permit ready location of such packer; the name of the variety, if known, and when not known the words "unknown variety." When two or more varieties are placed in the same container they shall be marked "mixed varieties." All containers of row packed cherries shall be marked with the number of rows of cherries packed laterally across the end of the container, directly followed by the word "row" or "rows" or the letter "R" in like size letters. All closed containers of loose cherries shall be marked in numbers and letters at least three-eighths of an inch in height with (a) the row size of the cherries in the container followed by the term "row size" or (b) the "minimum diameter" of the cherries in the container expressed in inches or fractions thereof, followed by the term "inch minimum diameter" or "inches minimum diameter" or a proper abbreviation or variation of such designation.

Row size

(a) When containers of loose cherries are marked with a row size designation at least 50 percent of the cherries in the container shall be of a size no smaller than the row size number marked; however, none of the cherries in such container shall be more than two row sizes smaller than that marked on the container, except that 10 percent, by count, of the cherries in any one container may be below this minimum size requirement. The row size number shall be deemed to be that number of cherries of uniform size whose aggregate width will equal 11½ inches.

Minimum diameter

(b) When containers of loose cherries are marked with the minimum diameter of the cherries in the container none of the

cherries in such container shall be smaller in diameter than the size marked on the container, except that 10 percent, by count, of the cherries in any one container may be below the size marked. In addition the cherries in any container so marked with the minimum diameter, shall not vary in diameter between the fruits in the container, more than one-fourth of an inch. The "diameter" shall mean the diameter measured through the widest portion of the cross section of the cherry at a right angle to a straight line drawn from the stem end to the distal end thereof.

Compliance with the requirements of this section may be determined by the examination of a representative sample of the cherries in any container or bulk lot.

Cherries shall be in standard containers numbers 4, 10, 11, 12, 12A, 22C, 25 or 27.

Other size containers may be used if conspicuously marked on the outside of the end which bears any marks intended to describe the contents of such container, in letters not less than one-half inch in height, "irregular container."

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

The size of the cherries in this year's cherry crop is very irregular on the trees. Coupled with this is the fact that there is a shortage of competent labor for sizing and sorting these cherries. These factors make it extremely difficult to comply with present packing requirements. As the cherry season is rapidly approaching, it is necessary that this act take effect immediately to alleviate this condition.

This section does not authorize any decrease in any pension, or does this section give any retired member, or his successors in interest, any claim against the State for any increase in any such pension paid or payable for time prior to its effective date. Calculations under this section shall be made on the basis of current interest rate and mortality tables

Calculations under this section shall be made on the basis of current interest rate and mortality tables.

SEC. 27. Section 21296 of said code is amended to read:

(b) If the disability retirement allowance computed under subdivision (a) does not exceed one-fourth of his final compensation, 90 percent of one-sixtieth of his final compensation multiplied by the number of years of service which would be creditable to him were his service to continue until attainment by him of age 60, but in such case the retirement allowance shall not exceed one-fourth of such final compensation.

If, however, the employing contracting agency does not so elect, then as to the local miscellaneous members employed by that agency retired for disability and the local safety members employed by that agency retired for nonindustrial disability, the requirements for obtaining the disability retirement allowance are the same as those for state members so retired, but the disability retirement pension shall be such an amount as with

This section supersedes any order of the commission under Article 1 of Chapter 2 of Division 1 of this code and the commission shall have no power to modify the provisions of this section by any order, rule or regulation pursuant to said article or any other provision of law. The provisions of this section shall remain in effect until October 19, 1953, and thereafter shall have no force or effect. Deer hunting seasons

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under the current order of the Fish and Game Commission fixing the seasons and bag limits for deer under the general regulatory powers delegated to the commission by Article 1 of Chapter 2 of Division 1 of the Fish and Game Code, the deer season in the portion of Colusa County lying south of Highway 20 will be from August 8th to September 13th, inclusive, and in the area of the county north of Highway 20 it will be September 19th to October 18th, inclusive. This will result in a concentration of deer hunters in the southern part of the county during the early season and a similar concentration in the northern part of the county in the late season. This concentration of the hunters will increase the hazards to the safety of the hunters and will result in the taking of a greater number of deer than would be taken if the season were uniform throughout the county. The commission is without power to modify its order and an act of the Legislature is necessary to protect the hunters and preserve the deer herds in the area affected. In order that the provisions of this act may take effect prior to the deer seasons of the current year this act must take effect immediately.

9000. The Legislature hereby declares that the conservation of the soil is of fundamental importance to the prosperity and welfare of the people of this State. Severe pressure has

been placed upon the State's soil resources in order to supply the basic food requirements of a greatly expanded population, and the productivity of agricultural, range and forest lands must be preserved and increased if the present standard of living is to be maintained under continuing population increases. Special effort must be made to speed up the present program of soil and water conservation in order to provide for permanent productive use of all remaining resources. To promote such effort, the Legislature believes that the State must assume leadership in formulating and putting into effect a state-wide program of soil and water conservation and hereby declares that the provisions of this division of this code are enacted to accomplish the following purposes:

(a) To provide a means by which the State may cooperate with the United States and with soil conservation districts organized pursuant to this division in securing the adoption in this State of farm, range, and woodland practices best adapted to save the soil resources of the State from unreasonable and economically preventable waste.

(b) To provide for the organization and operation of soil conservation districts for the purposes of soil and water conservation, the control of runoff and the prevention and control of soil erosion, including, but not limited to, the improvement of farm irrigation, the development of storage and distribution of water, land drainage and land clearing. Such districts, in addition to their other powers, shall have legal authority

(1) To cooperate with the United States, this State, counties, public districts, other soil conservation districts, persons, associations, and corporations in matters relating to the control of runoff and to soil conservation through the prevention and control of soil erosion.

(2) With the consent of the owner, to construct on privately or publicly owned lands necessary works for the control of runoff and the prevention and control of soil erosion.

Such districts shall not have legal authority to conserve water for power purposes or to produce or distribute power for their own use or for the use of others.

9001. It is hereby declared as a matter of legislative determination:

(a) That the construction and maintenance on privately or publicly owned land of works for the control of runoff and the prevention and control of soil erosion caused by the action of water or wind or otherwise is in the general public interest and for the general public benefit.

(b) That the expenditure of state, county, district or other public funds for the construction or maintenance of such control or preventive works on privately or publicly owned land constitutes expenditure for the general public benefit.

Delegation

9805. For the purpose of carrying out each such plan according to its terms, the commission is hereby authorized to delegate any of the powers herein conferred to such agents or agencies as may be designated by the commission and approved by the Secretary of Agriculture.

Annual report

2540. A party is qualified to participate in any primary election: Primary elections. Qualified parties

(b) If on or before the one hundred thirty-fifth day before any primary election it appears to the Secretary of State as a result of examining and totaling the statement of voters and their political affiliations transmitted to him by the county clerks, that voters, equal in number to at least 1 percent of the entire vote of the State at the last preceding gubernatorial election, have declared their intention to affiliate with that party; or

(c) If on or before the one hundred thirty-fifth day before any primary election there is filed with the Secretary of State a petition signed by voters, equal in number to at least 10 percent of the entire vote of the State at the last preceding gubernatorial election, declaring that they represent a proposed party, the name of which shall be stated therein, which proposed party those voters desire to have participate in that primary election. The Secretary of State shall immediately remove the name of such party from any list, notice, ballot, or other publication containing the names of the parties qualified to participate in the primary election.

SEC. 1.5. Section 2540.4 of the Elections Code is repealed and a new Section 2540.4 is added to said code, to read:

CHAPTER 1218

An act to add Section 5081.5 to the Education Code, relating to state school building aid, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 19, 1953. Filed with Secretary of State June 22, 1953.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 5081.5 is added to the Education Code, to read:

5081.5. Notwithstanding any provisions of law to the contrary, when a district has received conditional apportionments which have become final under this chapter, and there is a unification of said district prior to December 31, 1952, within the meaning of Section 4931 of the Education Code, with another district having the same boundaries, the effective date of said unification for the purpose of the first district receiving additional apportionments pursuant to the terms of Section 5048.1 of the Education Code shall be July 1, 1953. Effective date of unification

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

Under the existing law, it has been ruled because of a technicality in the law that when a district receives a conditional apportionment for state school building aid and subsequently reorganizes as a unified district with no change of boundaries, the district loses its right to obtain apportionments to cover increased costs pursuant to Section 5048.1 of the Education Code, even though there has been no change in the area included in the district, nor in the assessed valuation for the grade level for which the apportionment was made. It was not the intent of the Legislature in enacting these provisions to deprive such a district of necessary state aid to complete projects already authorized. In order to preserve the priority of such district for state aid and to prevent the time-consuming process of reapplying and again waiting its turn on the priority list as a new applicant while the necessary school buildings for the pupils of the district remain inadequate, thus giving equitable treatment to districts desperately in need of state aid and which have made application therefor in the prescribed manner, it is necessary that this act take effect immediately.

CHAPTER 1219

An act to add Section 205.5 to the Revenue and Taxation Code, and providing for the effective date thereof, relating to the veterans' property tax exemption.

In effect September 9, 1953

[Approved by Governor June 19, 1953. Filed with Secretary of State June 22, 1953.]

The people of the State of California do enact as follows:

SECTION 1. Section 205.5 is added to the Revenue and Taxation Code, to read:

Veterans' property tax exemption

205.5. There is exempt from taxation property, constituting the home, of every resident of this State who is a veteran as specified in Section 1¼ of Article XIII of the Constitution, and who, by reason of a permanent and total service-connected disability incurred in such military or naval service due to the loss, or loss of use, as the result of amputation, ankylosis, progressive muscular dystrophies, or paralysis, of both lower extremities, such as to preclude locomotion without the aid of braces, crutches, canes, or a wheel chair, has received pecuniary assistance from the Government of the United States in the acquisition of a home with special fixtures or movable facilities made necessary by the nature of the disability.

Residence

No person shall be eligible for such exemption unless he was a resident of California at the time of his entry upon military or naval service, or unless he has resided in this State for five years out of the nine years immediately preceding the date of his application for the exemption, or unless he was a resident of California at the effective date of this section.

Joint, etc., ownership

This exemption includes the home of such a person owned in either joint, common or community interest with his or her spouse.

Limitation

The exemption granted to any such person or any such person and his or her spouse shall not exceed five thousand dollars ($5,000) and shall not extend to more than one home.

In lieu of other exemptions

An exemption granted to a claimant in accordance with the provisions of this section shall be in lieu of any other property tax exemption to which the claimant may be entitled, and no property tax exemption may be claimed by any other person with respect to the same home for which an exemption has been granted under the provisions of this section.

Condition precedent

SEC. 2. This act shall take effect only if the amendment to Section 1¼ of Article XIII of the Constitution proposed at the 1953 Regular Session of the Legislature is adopted by the voters, and in such case this act shall take effect at the same time as such amendment takes effect.

CHAPTER 1220

An act to amend Sections 221, 226, and 227p of the Civil Code, relating to the adoption of minors.

[Approved by Governor June 19, 1953. Filed with Secretary of State June 22, 1953.]

In effect September 9, 1953

The people of the State of California do enact as follows:

SECTION 1. Section 221 of the Civil Code is amended to read:

Adoptions

221. Any unmarried minor child may be adopted by any adult person, in the cases and subject to the rules prescribed in this chapter other than in Section 227p, and any adult person or married minor child may be adopted by any other adult person in the cases and subject to the rules prescribed in Section 227p.

Definitions

As used in this chapter, "child" and "children" mean minor child and minor children, respectively, except in Sections 227p, 228, 229, and 230. In Sections 228, 229, and 230 "child" and "children" include both minor persons and adult persons. In Section 227p "child" means adult person or married minor child, and does not include an unmarried minor person.

SEC. 2. Section 226 of said code is amended to read:

Petition

226. Any person desiring to adopt a child may for that purpose petition the superior court of the county in which the petitioner resides and the clerk of the court shall immediately notify the State Department of Social Welfare at Sacramento in writing of the pendency of the action and of any subsequent action taken. In all cases in which consent is required, except in the case of an adoption by a stepparent where one natural or adoptive parent retains his or her custody and control of the child, unless an agency licensed by the State Department of Social Welfare to find homes for children and place children in homes for adoption joins in the petition for adoption, the consent of the natural parent or parents to the adoption by the petitioners must be signed in the presence of an agent of the State Department of Social Welfare or of a licensed county adoption agency on a form prescribed by such department and filed with the clerk of the superior court, in the county of the petitioner's residence.

Consent of natural parents

Such consent, when reciting that the person giving it is entitled to the sole custody of the minor child, shall, when duly acknowledged before such agent, be prima facie evidence of the right of the person making it to the sole custody of the child and such person's sole right to consent.

In all cases of adoption in which no agency licensed to place children for adoption is a party, except in the case of an adoption by a stepparent where one natural or adoptive parent retains his or her custody and control of the said child, it shall be the duty of the Department of Social Welfare or of the licensed county adoption agency to accept the consent of the

natural parents to the adoption of the child by the petitioners and to ascertain whether the child is a proper subject for adoption and whether the proposed home is suitable for the child, prior to filing report with the court.

In all cases in which the consent of the natural parent or parents is not necessary and an agency licensed to place children for adoption is not a party to the petition, the State Department of Social Welfare or the licensed county adoption agency shall, prior to the hearing of the petition, file its consent to the adoption with the clerk of the superior court of the county in which the petition is filed. Such consent shall not be given by the Department of Social Welfare or the licensed county adoption agency unless the child's welfare will be promoted by the adoption.

Department or agency report

Except in the case of the adoption of a child by a stepparent where one natural or adoptive parent retains his or her custody and control of the child, it shall be the duty of the Department of Social Welfare or of the licensed county adoption agency to submit to the court a full report of the facts disclosed by its inquiry with a recommendation regarding the granting of the petition within 180 days after the filing of the petition; provided, however, that the court may allow such additional time for the filing of said report as in its discretion it may see fit. The report required of the Department of Social Welfare or of the licensed county adoption agency may be waived by the department in all cases in which an agency, licensed by the Department of Social Welfare to place children in homes for adoption, is a party or joins in the petition for adoption. Such waiver may be issued by the department at any time, either before or after the filing of the petition for adoption.

Whenever any report or findings are submitted to the court by the Department of Social Welfare or by a licensed county adoption agency under any provision of this section, a copy of such report or findings, whether favorable or unfavorable, shall be given to the attorney for the petitioner in the proceedings, if the petitioner has an attorney of records, or to the petitioner.

Unfavorable findings

If the findings of the State Department of Social Welfare or the county adoption agency are that the home of the petitioners is not suitable for the child and it recommends that the petition be denied, the county clerk upon receipt of the report of the State Department of Social Welfare or the county adoption agency shall immediately refer it to the superior court for review.

Stepparent adoption Consent of natural parents

In case of an adoption of a child by a stepparent where one natural or adoptive parent retains his or her custody and control of said child, the consent of either or both parents must be signed in the presence of a county clerk or probation officer of any county of this State on a form prescribed by the State Department of Social Welfare and the county clerk or probation officer before whom such consent is signed shall immediately

file said consent with the clerk of the superior court of the county where the petition is filed and said clerk shall immediately file a certified copy of such consent to adoption with the State Department of Social Welfare.

Consent where parents outside the State

If the father or mother of a child to be adopted is outside the State of California at the time of signing consent, his or her consent may be signed before a notary or other person authorized to perform notarial acts, and in such case the consent of the Department of Social Welfare or of a licensed county adoption agency will also be necessary, but such consent shall not be necessary where the adoption is by a stepparent and one natural parent retains custody and control of the child.

Consent by minor parent irrevocable

A parent who is a minor shall have the right to sign a consent for the adoption of his or her child and such consent shall not be subject to revocation by reason of such minority.

Appeal from refusal of department or agency to accept consent

If for a period of 180 days from the date of filing the petition, or upon the expiration of any extension of said period granted by the court, the Department of Social Welfare or the licensed county adoption agency fails or refuses to accept the consent of the natural parent or parents to the adoption, or if said department or agency fails or refuses to file or to give its consent to an adoption in those cases where its consent is required by this chapter, either the natural parent or parents or the petitioner may appeal from such failure or refusal to the superior court of the county in which the petition is filed, in which event the clerk shall immediately notify the Department of Social Welfare of such appeal and the department or agency shall within 10 days file a report of its findings and the reasons for its failure or refusal to consent to the adoption or to accept the consent of the natural parent. After the filing of said findings, the court may, if it deems that the welfare of the child will be promoted by said adoption, allow the signing of the consent by the natural parent or parents in open court, or if the appeal be from the refusal of said department or agency to consent thereto, grant the petition without such consent.

SEC. 3. Section 227p of said code is amended to read:

Adoption of adult

227p. Any adult person may adopt any other adult person younger than himself, except the spouse of the adopting person, by an agreement of adoption approved by a decree of adoption of the superior court of the county in which either the person adopting or the person adopted resides, as provided in this section. The agreement of adoption shall be in writing and shall be executed by the person adopting and the person to be adopted, and shall set forth that the parties agree to assume toward each other the legal relation of parent and child, and to have all of the rights and be subject to all of the duties and responsibilities of that relation.

Consent of spouse

A married person not lawfully separated from his spouse cannot adopt an adult person without the consent of the spouse of the adopting person, if such spouse, not consenting, is capable of giving such consent. A married person not lawfully separated from his spouse cannot be adopted without the con-

sent of the spouse of the person to be adopted, if such spouse, not consenting, is capable of giving such consent. Neither the consent of the natural parent or parents of the person to be adopted, nor of the State Department of Social Welfare, nor of any other person shall be required.

Petition

The adopting person and the person to be adopted may file in the superior court of the county in which either resides a petition praying for approval of the agreement of adoption by the issuance of a decree of adoption. The court shall fix a time and place for hearing on the petition, and both the person adopting and the person to be adopted must appear at the hearing in person, unless such appearance is impossible, in which event appearance may be made for either or both of such persons by counsel, empowered in writing to make such appearance. The court may require notice of the time and place of the hearing to be served on any other interested persons, and any such interested person may appear and object to the proposed adoption No investigation or report to the court by any public officer or agency is required, but the court may require the county probation officer or the State Department of Social Welfare to investigate the circumstances and report thereon, with recommendations, to the court prior to the hearing.

Hearing

Notice

At the hearing the court shall examine the parties, or the counsel of any party not present in person. If the court is satisfied that the adoption will be for the best interests of the parties and in the public interest, and that there is no reason why the petition should not be granted, the court shall approve the agreement of adoption, and make a decree of adoption declaring that the person adopted is the child of the person adopting him; otherwise, the court shall withhold approval of the agreement and deny the petition.

Married minor child

A married minor child may be adopted pursuant to the provisions of this section; provided, that such married minor child has the written consent of his or her spouse to such adoption.

(b) If the child's residence is not determined under subdivision (a) hereof, then the residence of the mother determines that of the child during the lifetime of the mother, unless the mother has abandoned the child or has been legally deprived of his custody. The residence of the husband shall not be deemed the residence of the wife if they are living separate and apart and in such case each may have a separate residence dependent upon proof of the fact and not upon legal presumptions. The residence of the parent having custody of the child determines his residence.

(c) If the residence of the child is not determined under subdivision (a) or (b) hereof, then the residence of any indi-

vidual who has been appointed legal guardian or the individual who has been given the care or custody by a court of competent jurisdiction, determines the residence of the child.

(d) Wherever in this section it is provided that the residence of a child is determined by the residence of the person who has his custody, "custody" means the legal right to custody of the child unless that right is held jointly by two or more persons, in which case "custody" means the physical custody of the child by one of the persons sharing the right to his custody.

(e) The residence of a foundling shall be deemed to be that of the county in which the child is found.

(f) If the residence of the child is not determined under (a), (b), (c) or (e) hereof, the county in which the child is living shall be deemed the county of residence, if and when the child has had a physical presence in the county for one year.

(g) If the child has been declared permanently free from the custody and control of his parents, his residence is the county in which the court issuing the order is situated.

In effect September 9, 1953

[Approved by Governor June 20, 1953. Filed with Secretary of State June 22, 1953.]

The people of the State of California do enact as follows:

SECTION 1. Section 10 of the County Water Authority Act is amended to read:

Sec. 10. (a) For the purposes of this section, the following definitions shall apply to the terms used herein; the term "city" shall mean and include any municipal corporation or municipality of the State of California, whether organized under a freeholder's charter or under the provisions of general law of the type and class of cities and incorporated towns; the term "water district" shall mean and include any municipal water district, municipal utility district, public utility district, county water district, irrigation district or any other public corporation or agency of the State of California of similar character. Definitions

(b) Territory may be annexed to any county water authority organized hereunder by one of the following methods: Annexation methods

(1) By annexation to, or consolidation with, the area of any city, the area of which, as a separate unit, shall have become a part of any county water authority organized hereunder, such annexation or consolidation to occur upon compliance with the provisions of law governing such annexation to, or consolidation with, the area of such city. Upon completion of such annexation to, or consolidation with, such city in compliance with the provisions of law applicable thereto, such territory shall become, and be, a part of such county water authority, and the taxable property therein shall be subject to taxation thereafter for the purposes of said county water authority, including the payment of bonds and other obligations of such authority at the time authorized or outstanding.

(2) By annexation to, or consolidation with, any city which, as a separate unit, shall have become a part of any water district the area of which water district, as a separate unit, shall have become a part of any county water authority organized hereunder, in instances where, under the applicable provisions of law governing the change of boundaries of such water district, such annexation or consolidation automatically will result in the enlargement of the area of such water district, such annexation or consolidation to occur upon compliance with the provisions of law governing such annexation to, or consolidation with, the area of such city. Upon completion of such annexation to, or consolidation with, such city in compliance with the provisions of law applicable thereto, such territory shall become, and be a part of such water district, and of such county water authority, and the taxable property therein shall be subject to taxation thereafter for the purposes of said water district and of said county water authority, including the payment of bonds and other obligations of such water district and of such county water authority at the time authorized or outstanding. If any such territory shall have been so annexed to, or consolidated with, any such city prior to the effective date of this subparagraph (2), under conditions which would have resulted in the enlargement of the area of such county water authority had the foregoing provisions of this subparagraph (2) then been in effect, upon compliance with the following provisions of this subparagraph (2), such territory shall be

annexed to, and shall become and be a part of, such county water authority, and shall be a part of such water district for all purposes, the last-mentioned provisions being as follows:

(aa) The governing body of such city, at any time after the effective date of this subparagraph (2), may adopt an ordinance which, after reciting that such territory has been annexed to, or consolidated with, such city by proceedings theretofore taken under statutory authority, and after referring to the applicable statutes and to the date and place of filing of the certificate or certificates evidencing such annexation or consolidation, shall describe such territory and shall determine and declare that the said territory shall be, and thereby is, annexed to such county water authority, and said ordinance shall further determine and declare that the said territory shall become and be, and thereby is, a part of such county water authority, and shall be, and thereby is, a part of such water district for all purposes.

Same

(bb) The governing body, or clerk thereof, of such city shall file a certified copy of such ordinance with the Secretary of State of the State of California. Upon the filing of said certified copy of such ordinance in the Office of the Secretary of State, such territory shall become, and be, a part of such county water authority, and shall be a part of such water district for all purposes, and the taxable property therein shall be subject to taxation thereafter for the purposes of said county water authority and of said water district, including the payment of bonds and other obligations of such county water authority at the time authorized or outstanding.

(cc) Upon the filing in his office of the aforesaid certified copy of such ordinance, the Secretary of State shall, within 10 days, issue his certificate, describing such territory, reciting the filing of said certified copy of such ordinance in his office and the annexation of said territory to such county water authority, and declaring that the said territory is a part of said county water authority and of such water district. The Secretary of State shall transmit the original of his said certificate to the secretary of such county water authority and a duplicate original of his said certificate to the clerk of the governing body of such water district, and shall forward a certified copy of his said certificate to the county clerk of the county in which such county water authority is situated.

(3) Upon terms and conditions fixed by the board of directors of such county water authority and in the manner provided in paragraph (c) hereof, by direct annexation, as a separate unit, of the corporate area of any water district or city.

(4) Upon terms and conditions fixed by the board of directors of such county water authority and in the manner provided in paragraph (d) hereof, by annexation to, or consolidation with, any water district, the area of which, in whole or in part, is included within such county water authority as a separate unit; provided, that unless such territory shall be so annexed to such county water authority with the consent of such board of

directors, the annexation of such territory to, or the consolidation of such territory with, any such water district shall not authorize or entitle such water district or such territory to demand or receive any water from such county water authority for use in such territory; and provided further, that, except where automatic annexation results under the conditions mentioned in subparagraph (2) of this paragraph (b), nothing in this act shall prevent the annexation of territory to, or the consolidation of territory with, any such water district for its local purposes only and without annexing such territory to such county water authority, and such local annexation or consolidation may occur without requesting or obtaining the consent thereto of the board of directors of such county water authority.

Same

(c) The governing body of any water district or city may apply to the board of directors of such county water authority for consent to annex the corporate area of such water district or city to the county water authority. The board of directors may grant or deny such application and in granting the same may fix the terms and conditions upon which the corporate area of such water district or city may be annexed to and become a part of the county water authority. Such terms and conditions may provide, among other things, for the levy by such county water authority of special taxes upon taxable property within such water district or city, in addition to the taxes elsewhere in this act authorized to be levied by such county water authority, and in case such terms and conditions shall provide for the levy of such special taxes, the board of directors in fixing such terms and conditions shall specify the aggregate amount to be so raised and the number of years prescribed for raising such aggregate sum, and that substantially equal annual levies will be made for the purpose of raising such sum over the period so prescribed. The action of the board of directors evidenced by resolution shall be promptly transmitted to the governing body of such applying water district or city, and if such action shall grant consent to such annexation, such governing body may thereupon submit to the qualified electors of such water district or city at any general or special election held therein, the proposition of such annexation subject to the terms and conditions fixed as herein provided. Notice of such election shall be mailed to each voter qualified to vote at the election and shall be given by posting or publication; when given by posting such notices shall be posted at least ten (10) days and in three public places in the water district or city; when given by publication such notice shall be published once at least ten (10) days before the date fixed for the election in a newspaper of general circulation published in the water district or city. Such notice shall contain the substance of the terms and conditions fixed by the board of directors, as herein provided. Such election shall be conducted and the returns thereof canvassed in the manner provided by law for elections in such water district or city. If such proposition shall receive the affirmative vote of a majority of electors of such water district or city voting thereon at such

election, the governing body of such water district or city shall certify the result of such election on said proposition to the board of directors of said authority, together with a legal description of the boundaries of the corporate area of such water district or city, accompanied by a map or plat indicating such boundaries. A certificate of proceedings hereunder shall be made by the secretary of the authority and filed with the Secretary of State. Upon the filing thereof in the Office of the Secretary of State, the corporate area of such water district or city shall become, and be, an integral part of such county water authority, and the taxable property therein shall be subject to taxation thereafter for the purposes of said county water authority, including the payment of bonds and other obligations of such authority at the time authorized or outstanding, and the board of directors of such county water authority shall be empowered to do all things necessary to enforce and make effective the terms and conditions of annexation fixed as hereinabove authorized. Upon the filing in his office of the aforesaid certificate of proceedings the Secretary of State shall, within ten (10) days, issue his certificate, reciting the filing of said papers in his office and the annexation of the corporate area of such water district or city to such county water authority. The Secretary of State shall transmit the original of his said certificate to the secretary of such county water authority and shall forward a certified copy thereof to the county clerk of the county in which such county water authority is situated.

Same

(1) In the event that a water district shall apply to a county water authority for consent to annex its corporate area, as a separate unit, which water district shall include as a part of its corporate area the corporate areas of any cities (whether one or more) which are already included within such county water authority as separate units, or which water district shall include as a part of its corporate area the corporate areas, or portion thereof, already included within such water authority, of any water districts (whether one or more) the corporate areas of which, in whole or in part, are already included within such county water authority as separate units, then that fact shall be taken into consideration by the board of directors of such county water authority in fixing the terms and conditions upon which said applying water district may be annexed to such county water authority, to the end that the areas within said unit member cities or water districts which are already a part of such county water authority, shall not be required to assume any greater financial burden or obligation to such county water authority than they would have had if they had remained a part of such county water authority as separate units.

Same

That concurrently with any election called by an applying water district to submit to the qualified electors of such water district, the question of whether the terms and conditions fixed by the board of directors of such county water authority for annexation shall be approved, the governing bodies of said unit member cities or water districts may call and hold elections

within their respective corporate limits or portions thereof already included within such county water authority, to determine whether or not such cities or water districts shall withdraw from such county water authority as separate units, and said proposed withdrawal may be made and submitted conditioned upon and effective when the said applying water district shall have finally been annexed to such county water authority.

The effect of such concurrent elections, if a majority of the electors of the said applying water district voting thereat vote in favor of annexation, and a majority of the electors of said unit member cities or water districts voting thereat vote in favor of withdrawing, shall be that the said annexing water district thereafter shall be authorized to exercise the privileges and to discharge the duties prescribed in this act for public agencies the areas of which, as separate units, are included within the said authority, in place of and instead of said cities or water districts so withdrawing. That notwithstanding anything to the contrary in Section 11 of this act, the areas within said withdrawing cities or water districts shall remain a part of such county water authority and shall not be excluded therefrom notwithstanding the fact that said cities or water districts, as corporate entities, have withdrawn from said authority.

In the event that said water district does annex to such county water authority, then the directors representing said withdrawing cities or water districts on the board of directors of such county water authority, shall continue to act until their successors have been chosen and designated by the appropriate officers of said annexing water district and have qualified as members of the board of directors of such county water authority, after which time the said directors representing said withdrawing cities or water districts, shall no longer be entitled to sit or vote on said board.

(2) In the event that a water district shall apply to a county water authority for consent to annex its corporate area as a separate unit, which water district shall include as a part of its corporate area lands in public ownership exempt from taxation by a county water authority, and not within or adjacent to the area within said water district served with water by said district, and which lands are not to be supplied by said water district with water obtained from and by reason of its annexation to said county water authority, then that fact may be taken into consideration by the board of directors of such county water authority in fixing the terms and conditions upon which said water district may be annexed to said county water authority and in determining the boundaries of the area to be annexed, and said county water authority may, in the discretion of its board of directors, annex all of the corporate area of said water district as a separate unit excepting that portion consisting of such publicly owned and tax-exempt lands.

(d) The governing body of any water district, the area of which, in whole or in part, is included within such county water authority as a separate unit, may apply to the board of directors Same

of such county water authority for consent to annex to such county water authority territory which it is sought to annex to, or consolidate with, such water district, or territory which, without making the same a part of such county water authority, already has been annexed to, or consolidated with, such water district. The board of directors may grant or deny such application and in granting the same may fix the terms and conditions upon which such territory may be annexed to, and become a part of, the county water authority. Such terms and conditions may provide, among other things, for the levy by such county water authority of special taxes upon taxable property within such territory in addition to the taxes elsewhere in this act authorized to be levied by such county water authority, and in case such terms and conditions shall provide for the levy of such special taxes, the board of directors in fixing such terms and conditions shall specify the aggregate amount to be so raised and the number of years prescribed for raising such aggregate sum, and that substantially equal annual levies will be made for the purpose of raising such sum over the period so prescribed. The action of the board of directors evidenced by resolution shall be promptly transmitted to the governing body of such applying water district, and if such action shall grant consent to such annexation, such territory may be annexed to such county water authority as provided in subdivision (1) or (2) thereof.

Same

(1) If such territory has not theretofore been annexed to or consolidated with such water district, upon completion of such annexation to, or consolidation with, such water district in compliance with the provisions of law applicable thereto, including this Section 10, such territory shall become and be a part of such county water authority and the taxable property therein shall be subject to taxation thereafter for the purposes of said county water authority, including the payment of bonds and other obligations of such authority at the time authorized or outstanding, and the board of directors of such county water authority shall be empowered to do all things necessary to enforce and make effective the terms and conditions of annexation fixed as hereinabove authorized; provided, that if the applicable provisions of law governing such annexation to, or consolidation with, such water district shall require any notice of any election called for the purpose of determining whether such proposed annexation or consolidation shall occur, or shall require any notice of hearing or other notice to be given to the residents or electors of, or owners of property in, such territory, such notice shall contain the substance of the terms and conditions of annexation to such county water authority fixed by the board of directors of such authority as herein provided; and provided further, that the governing body of such water district or other officer thereof having the duty of certifying the proceedings resulting in such annexation to, or consolidation with, such water district, pursuant to the provisions of law applicable thereto, shall include in such certification a

record of the proceedings by which such territory has been annexed to such county water authority in accordance with the provisions hereof, and shall file a duplicate of such certificate with the board of directors of such county water authority.

Same

(2) If the territory sought to be annexed to such county water authority theretofore has been annexed to, or consolidated with, such water district, the governing body of such water district, upon being advised of the action of the board of directors of such county water authority, as above provided, and if such action shall grant consent to such annexation, may submit to the qualified electors of such territory at any general or special election held therein, the proposition of such annexation to such county water authority subject to the terms and conditions fixed by the board of directors of such county water authority, as herein provided. Notice of such election shall be given by posting or publication; when given by posting such notice shall be posted at least ten (10) days and in three public places in such territory; when given by publication such notice shall be published once at least ten (10) days before the date fixed for the election in a newspaper of general circulation published in such water district. Such notice shall contain the substance of the terms and conditions fixed by the board of directors, as herein provided. Such election shall be conducted and the returns thereof canvassed by the governing body of such water district in the manner provided by law for elections in such water district. If such proposition shall receive the affirmative vote of a majority of electors of such territory voting thereon at such election, the governing body of such water district shall certify the result of such election on said proposition to the board of directors of said authority. A certificate of proceedings hereunder shall be made by the secretary of the authority and filed with the Secretary of State. Upon the filing thereof in the Office of the Secretary of State, such territory shall become, and be, a part of such county water authority, and the taxable property therein shall be subject to taxation thereafter for the purposes of said county water authority, including the payment of bonds and other obligations of such authority at the time authorized or outstanding, and the board of directors of such county water authority shall be empowered to do all things necessary to enforce and make effective the terms and conditions of annexation of such territory to such county water authority fixed by said board of directors as hereinabove authorized. Upon the filing in his office of the aforesaid certificate of proceedings the Secretary of State shall, within ten (10) days, issue his certificate, reciting the filing of said papers in his office and the annexation of such territory to such county water authority. The Secretary of State shall transmit the original of his said certificate to the secretary of such county water authority and shall forward a certified copy thereof to the county clerk of the county in which such county water authority is situated.

(e) Should the corporate area or all portions thereof already included within a county water authority, of any water district or city the corporate area of which, in whole or in part, already is included within such county water authority as a separate unit, annex to a water district or city the corporate area of which, in whole or in part, already is a part of such county water authority as a separate unit, upon the completion of such annexation pursuant to the law pertaining thereto, the water district or city, the corporate area (or portions thereof) of which is so annexed, shall automatically cease to be a separate unit member of said county water authority but said corporate area (or portions thereof) shall remain a part of said county water authority as a part of the unit member water district or city to which it was annexed. The governing body of the water district or city to which such annexation is effected, or other officer thereof having the duty of certifying the proceedings resulting in such annexation, shall file a duplicate of such certificate with the board of directors of such county water authority.

(1) Should any water district or city the corporate area of which, in whole or in part, already is included within a county water authority as a separate unit, consolidate with a water district or city the corporate area of which, in whole or in part, already is a part of such county water authority as a separate unit, under the provisions of any law by the terms of which, after consolidation, a new district or city will result and the former water districts or cities participating in such consolidation shall no longer exist, the resulting new water district or city shall be substituted for the water districts or cities whose corporate existence has been terminated by the consolidation as a unit member of said county water authority, and said corporate areas (or portions thereof) of such former water districts or cities shall remain a part of said county water authority as a part of such unit member water district or city resulting from such consolidation. The governing body of the water district or city resulting from such consolidation, or other officer thereof having the duty of certifying the proceedings resulting in such consolidation, shall file a duplicate of such certificate with the board of directors of such county water authority.

[Approved by Governor June 20, 1953. Filed with Secretary of State June 23, 1953.]

In effect September 9, 1953

The people of the State of California do enact as follows:

SECTION 1. Section 51a of the act cited in the title hereof is amended to read:

Annexation of contiguous unincorporated territory

Sec. 51a. Unincorporated territory contiguous to the district may be annexed to said district in the manner following:

Petition

(1) A petition signed by not less than 15 percent of the qualified electors residing in the territory proposed to be annexed, describing said territory and asking that proceedings be taken for its annexation, may be addressed to the board of directors and filed with the secretary of the district. Thereupon the secretary shall compare the signatures of said petition with the affidavits of registration on file with the county clerk of the county or counties wherein said territory proposed to be annexed is situated, and if he finds that said petition has been signed by the required number of electors he shall attach his signature thereto and present said petition to the board of directors of the district.

In the event that the territory is wholly uninhabited, a petition filed by not less than 15 percent of the owners of the territory proposed to be annexed describing said territory and asking that proceedings be taken for its annexation may be addressed to the board of directors and filed with the secretary of the district. The secretary shall thereupon determine if such petitioners are owners of such territory by the records of the county assessor of the county wherein said territory proposed to be annexed is situated and if he finds that said petition has been signed by the required number of owners, he shall attach his signature thereto and present said petition to the board of directors of the district.

Determination by board

(2) If the board of directors shall determine that the annexation of said territory will facilitate the acquisition, construction or completion or operation of any public utility, public utilities or public utility works of the district, or will be for the advantage of the said district, and that the territory proposed to be annexed will be benefited by such annexation, then said board shall determine the terms and conditions upon which said annexation should be made. In the terms and conditions so determined provision may be made, among other things, for the payment of special taxes within the territory to be annexed in addition to the taxes elsewhere in this act provided for, the fixing of rates, rentals and charges differing from those fixed, or existing elsewhere, within the utility district, the incurring or assumption of indebtedness or the making of a payment

or payments, or the transfer of property, real or personal, or other assets to said utility district by the territory proposed to be annexed, in such manner as the board of directors shall deem just for the purpose of equalizing the proportionate obligations, expenditures and costs of operation between the territory within the district and the territory proposed to be annexed. Such terms and conditions shall become effective and be binding upon the utility district and upon the territory to be annexed when approved in the manner hereinafter set forth.

The boundaries of the territory proposed to be annexed need not be coterminous with any election precincts.

Ordinance Notice of hearing

(3) The board of directors of said utility district shall by ordinance describing the territory proposed to be annexed, and setting forth such terms and conditions at length, declare its intention of approving such annexation and terms and conditions. Said ordinance, together with a notice fixing the time and place for hearing thereon, and notifying all persons interested in or that may be affected by the proposed annexation of said territory within the district to appear at such meeting and show cause in writing, if any they have, why said territory or any of it should not be annexed as proposed in said petition, shall be published in a newspaper of general circulation printed and published in said utility district, or if there be no such newspaper then in some newspaper of general circulation printed and published in the county where such district or some part thereof is situated. A copy of said ordinance and notice shall be filed with the secretary of said utility district. The time fixed for such hearing shall be not less than 30 nor more than 60 days from the date of the first publication of said ordinance. Said notice and ordinance shall be posted in three public places in the territory proposed to be annexed at least 30 days before the date set for said meeting.

Hearing Protests

At such hearing any person interested may file with the board of directors of the utility district written protest to the proposed annexation or to the approval of such terms and conditions. Upon such hearing the board of directors of the utility district shall hear and determine all protests so filed and all evidence relevant thereto; said board shall thereupon determine whether said territory shall be annexed and shall determine upon what terms and conditions, if any, said annexation shall be made.

Hearing by supervisors

In the event such written protests are filed by the owner or owners of taxable property in the territory proposed to be annexed, the board of directors shall refer said protests to the board of supervisors of the county in which the district is situated. The board of supervisors shall thereupon hold a hearing on said protests after notice given in the manner hereinabove in Section 5 of this act provided. At such hearing, the board of supervisors may, if they find and determine that the property described in said protests will not be substantially benefited by annexation to the said district, notify the board of directors of said district that such property shall not be annexed to said

district, and the board of directors shall take the necessary steps to exclude said property from the territory proposed to be annexed.

Failure to protest

Failure of any person interested in said utility district or in the matter of the proposed annexation on the terms and conditions set forth in said ordinance to show cause by written protest as aforesaid, shall be deemed and taken as an assent on his part to a change in the boundaries in the utility district upon the terms and conditions, if any, set forth.

Any such hearing may be adjourned from time to time or from place to place by the board of directors without further notice other than an order to be entered upon the minutes of the meeting at the time of adjourning fixing the time and place that such meeting shall reconvene.

Approval of proposed annexation

In the event that the board of directors after such hearing by resolution approves proposed annexation of the territory described in said petition with or without terms or conditions, and said annexation is also approved either by a written consent containing a description of the territory proposed to be annexed and setting forth the terms and conditions, if any, of such annexation signed by a majority of the electors who were registered in the territory to be annexed at the date of the presentation of the petition or petitions for annexation, which written consent is filed with the secretary of the board who shall thereupon verify the signatures thereon in the same manner as the signatures to the petitions for annexation are required to be verified by the provisions of subdivision (1) of this section. or if said territory be uninhabited, by the owners of a majority of the assessed valuation of said territory, or by a majority vote in favor of annexation at an election called and held as hereinafter in this section provided within the territory proposed to be annexed; it shall make an order describing the boundaries of said territory proposed to be annexed and also describing the exterior boundaries of the district as they shall exist after said annexation. For the purposes of said order the board may cause a survey to be made of said boundaries or such portions thereof as may be deemed necessary. Said order shall also set forth in detail the conditions and terms, if any, of the annexation. Said order shall be set forth in full upon the minutes of the board.

Election

(4) The board of directors, after its approval of said annexation by resolution as hereinbefore provided may call an election to determine whether said annexation is approved by the electors of said territory proposed to be annexed, but before calling such election it may require an undertaking with sufficient sureties from the petitioners for the annexation, conditioned that the petitioners or their sureties will pay all costs to the district of such election in case such annexation be disapproved by such election.

Notice

In calling such election the board shall fix the time at which such election shall be held and cause notice thereof to be given and published. Such notice shall be given and published and such election shall be held and conducted and returns thereof

shall be made and canvassed and the result of the election ascertained and declared, and all things pertaining thereto conducted in the manner prescribed by said act in case of a special election to determine whether bonds of a public utility district shall be issued. The ballots cast at such election shall contain the words "for change of boundary" or "against change of boundary," or words equivalent thereto. The notice of election shall describe the territory proposed to be annexed in such manner that it can be readily understood and shall set forth the terms and conditions, if any, of such annexation.

Election result

At such election only electors registered at the time of the presentation of the petition for annexation and who at the time of said election are still electors in said territory shall be qualified to vote. If at such election a majority of all the votes cast on the proposition shall be against such annexation the board shall order that the petition be denied and shall proceed no further in that matter, but if a majority of such votes be in favor of such annexation the board shall thereupon in the manner provided in subdivision (3) of this section order that the annexation be made.

Filing of order

(5) Upon the making of such order changing the boundaries of the district as aforesaid a copy of the order of the board of directors ordering such change certified by the president and secretary of the board shall be filed for record in the recorder's office in each county within which the district and any part thereof and within which the territory annexed or any part thereof is situated, and thereupon the district, including the territory annexed, shall be and remain a public utility district as fully and to every intent and purpose as if the lands which are included in the district by the change of the boundaries as aforesaid had been included therein at the original organization of the district, except that this provision shall not modify or impair the terms and conditions upon which said annexation shall be made.

Resolution for annexation recorded in minutes

(6) Upon the filing of the copies of the order, as in the last preceding section mentioned, the secretary shall record in the minutes of the board the resolution aforesaid; and the said minutes, or a certified copy thereof, shall be admissible in evidence, with the same effect as the petition.

Re-establishment of boundaries, precincts

(7) In case land is annexed to any district as aforesaid, the board of directors thereof shall, but not less than 30 days before any election in such district, re-establish the boundaries of the units and election precincts within such district, so as to include such land therein in the same manner and with the same effect as set forth in Section 12 hereof. In order to place in immediate effect a portion of the organization plan for the Division of Instruction, Department of Education, recommended by the Director of Finance (Administrative Survey Report A.N. 440), on July 1, 1953, the present Bureau of Guidance will be transferred from the vocational section to a supplemental services section and expanded as a counseling and guidance bureau.

[Approved by Governor June 24, 1953. Filed with Secretary of State June 25, 1953.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 980 of the Military and Veterans Code is amended to read:

980. As used in this chapter, "veteran" means any person who served in the active military, naval, or air service of the United States on or after December 7, 1941, and prior to January 1, 1947, and any person who served in the active military, naval or air service on or after June 27, 1950, and prior to a future date to be established by proclamation of the Governor, and receives an honorable discharge therefrom or is released from active duty under honorable conditions and who was, at the time of his entry into active duty, a native of or a bona fide resident of this State or who, if a minor at such time, entered active duty while in the State of California and had lived in this State for six months immediately preceding his entry into active duty. "Veteran"

Whenever the Governor, after June 27, 1950, finds that the United States is no longer engaged in any type of campaign in-

volving persons in active duty in the armed forces, he shall issue a proclamation establishing the date after which persons entering active duty in the armed forces shall not be considered veterans for the purposes of this chapter.

As used in this chapter "veteran" does not include:

(a) A person who was separated from such forces under other than honorable conditions at any time after December 7, 1941.

(b) A person who was separated from such forces on account of alienage at any time after December 7, 1941.

(c) A person who performed no military duty whatever or refused to wear the uniform.

(d) A person who has received from another state a bonus, compensation, or benefit, the prerequisite of which is service in such forces, which service is the basis for the claim of benefits under this chapter.

(e) A person who served only in an auxiliary or reserve component of the armed forces whose service therein did not exempt him from the operation of the Selective Training and Service Act of 1940.

(f) A person whose active service in the armed forces was less than 90 days, unless such person was discharged from the service due to a service-connected disability within said 90-day period.

(g) A person whose service with the armed forces was due to temporary active duty orders for the sole purpose of training duty, processing or a physical examination.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure, necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution, and shall go into immediate effect.

The facts constituting such necessity are:

At the present time the law is not specific as to the required length of active service in the military forces to entitle one to the benefits of the California Veterans Farm and Home Purchase Act. It is necessary that the statute defining "veteran" be clarified as soon as possible because at the present time persons who take short active duty training periods in the armed forces are demanding veterans' benefits under the Farm and Home Purchase Act and are claiming that they are eligible for such assistance. The statute was never intended to grant the benefits on the basis of such training.

Since commercial carriers cannot provide the required vehicles necessary for receiving and discharging the 50,000 Boy Scouts plus the anticipated thousands of parents, leaders and employees who will attend the national Boy Scout encampment during July, 1953, without interruption and great inconvenience

to systems of public transportation, it is necessary that this act take effect immediately.

Operation in other counties

In order to extend the services of licensed county adoption agencies to the maximum number of counties practicable within the limits of funds appropriated therefor the State Department of Social Welfare may license a county adoption agency to operate in such other counties in the general area of the agency as it deems conducive to the effective and efficient administration of the adoption program.

A license issued to a county agency pursuant to this section constitutes the holder thereof a "county adoption agency," and the holder shall be deemed to be an "organization" within the meaning of this code and of Chapter 2, Title 2, Part 3, Division 1, of the Civil Code.

Costs of care

In providing state funds for the cost of care of children relinquished for adoption it is the intent of this section that the cost of care of a child shall not be transferred to the adoption program from any other publicly supported program unless there is reason to believe that the child can be successfully placed for adoption.

1643. County claims for reimbursement for expenses incurred for the operation of a licensed county adoption agency shall be filed with the department at the time and in the manner specified by the department and the claims shall be subject to audit by the Department of Social Welfare. The State Department of Social Welfare shall adopt such rules as may be necessary to determine the cost of administration and the cost of care of children relinquished for adoption and to provide for the presentation, allowance, and payment of such claims.

If any grants-in-aid are made by the Federal Government for the cost of administering an adoption program or for the cost of care of children relinquished for adoption, the amount of the federal grant shall first be applied to defer the cost of administration or of care and the remainder of the cost, if any, shall be borne by the State. CHAPTER 1356

An act to add Section 10490.2 to the Insurance Code, relating to the exemption of nonprofit incorporated or unincorporated mutual benefit associations from the provisions of the Insurance Code.

[Approved by Governor June 24, 1953. Filed with Secretary of State June 25, 1953.] In effect September 9, 1953

The people of the State of California do enact as follows:

SECTION 1. Section 10490.2 is added to the Insurance Code, to read:

10490.2. If an association described in Section 10490.1 has operated pursuant thereto since January 1, 1945, it may procure a certificate of exemption from the commissioner upon meeting all of the requirements of this article relating thereto except those of Section 10494. Thereafter such association shall be subject to: Certificate of exemption

(a) All of the requirements of this article relating to an association holding a certificate of exemption except Section 10494, and

(b) The limitations of Section 10490.1, except that it may pay disability benefits in amounts not exceeding three thousand six hundred dollars ($3,600) in the aggregate in any one calendar year on account of the disability of any one person.

CHAPTER 1357

An act to amend Section 4795 of the Health and Safety Code, relating to the authorization and issuance of bonds of county sanitation districts, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor June 24, 1953 Filed with Secretary of State June 25, 1953]

The people of the State of California do enact as follows:

SECTION 1 Section 4795 of the Health and Safety Code is amended to read:

Additional bonds

4795 If the district board by resolution passed by a vote of four-fifths of all its members determines that the public interest or necessity of the district demands the issuance of additional bonds for carrying out any of the objects of the district, the district board may again have a report made, and submit to the voters the question of issuing additional bonds in the same manner as for a first issue. All the provisions of this chapter for the issuance and sale of bonds, and for the expenditure of the proceeds apply to the issuance of additional bonds

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In certain county sanitation districts, bonds of the district to finance the construction of sewers and sewage disposal facilities urgently needed in such district for the preservation of the public health and safety have been authorized at an election, but such bonds have not been issued and the proceeds thereof expended because, when bids for the work were called for, it was found that the cost of the work would be greater than the amount of proceeds which could be derived from the sale of the bonds. In such cases the preservation of the public health and safety requires that a second election be called in the district to authorize additional bonds to supplement the bonds already authorized Under the present law an election to authorize such additional bonds cannot be called until the original bonds have been issued and the proceeds thereof expended. Since in the cases above mentioned it would be unsound and possibly illegal to sell the original bonds and expend the proceeds thereof when it is known that such proceeds would be insufficient to complete the project for which the bonds were authorized, the immediate preservation of the public health and safety requires that the above mentioned limitation on the authorization of additional bonds be removed by an act which takes effect immediately.

A statement of the facts constituting such necessity is as follows:

The act governing this district as now worded requires a levy on both real and personal property in order to finance projects,

In order to make bond funds available as soon as possible to prevent loss and damage to property and county roads, it is necessary that this act take effect immediately.

SECTION 1. Section 41.5 of the Unemployment Insurance Act is amended to read:

Acquisition of business

Sec. 41.5. (a) Whenever any employing unit acquires the organization, trade, or business, or substantially all of the assets thereof, or a distinct and severable portion of such organization, trade, or business of any employer, excepting in such case, any assets retained by such employer incident to the liquidation of his obligations (whether or not such acquiring employing unit was an "employing unit" within the meaning of Section 8.5 of this act prior to such acquisition), and continues such organization, trade, or business, or such distinct and severable portion thereof without substantial reduction of personnel resulting from such acquisition, an application may be made within 90 days of such acquisition for transfer of reserve account by setting forth the name and address of the predecessor, the date of acquisition, the name of the successor, the number of employees prior to and subsequent to the date of acquisition, and, in case of severable portions, such pay roll data as may be required by the department to determine the proper amount to be transferred, whereupon the separate account, actual contribution and benefit experience and pay rolls of the predecessor or that part thereof, as determined by authorized regulations, which pertains to the organization, trade, or business, or portion thereof acquired, shall be transferred to the successor employer for the purpose of determining its rate of contribution after such acquisition with the same effect for such purpose as if the operations of the predecessor had at all times been carried on by the successor. Such separate account shall be transferred by the commission to such successor employer and, as of the date of such acquisition, shall become the separate account or

part of the separate account, as the case may be, of such successor employer, and the benefits thereafter chargeable to such predecessor employer on account of employment relating to such transferred organization, trade, or business or transferred portion thereof prior to the date of such acquisition shall be charged to such separate account. This section shall not apply to any acquisition which is determined by the commission to have been made solely or primarily for the purpose of obtaining a more favorable rate of contributions under Section 39.

Application of section

The provisions of this section shall also apply to applications for transfer of reserve accounts made after the 90-day period beginning with the date of acquisition but prior to the cancellation of the reserve account as provided in Section 40 if such reserve account has not been reacquired by the predecessor on re-entering business or, in the case of distinct and severable portions, if the predecessor did not continue in business and; provided further, that any amendment of the contribution rate shall be made as of the first day of the calendar quarter next succeeding the date of such application.

The provisions of this section relating to a specific application for transfer of reserve account shall not apply as to any successor who through error or inadvertence continued to file contribution reports and pay contributions for the account and at the rate determined by the department to apply to the predecessor employer, but such reporting and payment shall be deemed to be in lieu of such application and shall be given the same effect as though a specific application had been filed during the 90-day period beginning with the date of acquisition.

Denial of application, appeal

In event of a denial of application for transfer of reserve account, any interested party shall have the right to petition for hearing before the appeals board and the decision of the appeals board, after affording the parties reasonable opportunity for fair hearing, shall be final unless within 60 days after the mailing of the notice of determination of the appeals board any interested party may bring an action against the commission with respect to such determination to require the transfer of the reserve account as required by law. The commission, in writing, at any time prior to the expiration of said 60-day period may extend the time during which such action may be instituted for a period not exceeding two years of the date of mailing of the determination of the appeals board.

Joint accounts

(b) The commission may prescribe regulations for the establishment, maintenance, and dissolution of joint accounts by two or more employers, and shall in accordance with such regulations, upon application by two or more employers to establish such account or to merge their several individual accounts in a joint account, maintain such joint account, as if it constituted a single employer's account.

"Joint venture"

used in this subsection only, "employer" means any individual or type of organization, including any partnership, joint venture, association, trust, estate, joint stock company, insurance company, corporation whether domestic or foreign, and the receiver, trustee in bankruptcy, trustee or successor thereof, and the legal representative of a deceased person. Upon dissolution of a joint venture each participating employer may make application within 90 days for the transfer of his proportionate share of the reserve account whereupon the separate account, actual contribution and benefit experience and pay rolls of such joint venture shall be apportioned among the employers or their successor employers or any subsequent successor employers making such application in the same proportion that assets are distributed among the participating employers, and the portion thereof of each shall be transferred to each such employer or his successor employer or employers or any subsequent successor employers for the purpose of determining its rate of contribution after such dissolution, with the same effect for such purpose as if the applicable portion of the operations of such joint venture had at all times been carried on by such employer or his successor employer or employers or any subsequent successor employer or employers. Such portion of such separate account shall be transferred by the commission to each such employer or his successor employer or employers or any subsequent successor employer or employers and as of the date of such dissolution shall become the separate account or part of the separate account, as the case may be, of such employer or his successor employer or employers or any subsequent successor employer or employers and the benefits thereafter chargeable to such joint venture on account of employment relating to such joint venture prior to the date of such dissolution shall be charged to the separate accounts of such employers or their successor employers or any subsequent successor employers in proportion to their participation in the joint venture. Any such joint venture shall promptly notify the commission of its dissolution.

Dissolut on

Application of subsection

The provisions of this subsection shall apply to dissolutions occurring prior as well as subsequent to the effective date of this subsection as amended in the 1953 Regular Session of the Legislature; provided, that notice of any such prior dissolution shall have been given to the commission within 120 days after the effective date of this subsection as amended in the 1953 Regular Session of the Legislature; and provided further, any transfer in respect to any such prior dissolution shall not affect any rate of contribution for any period prior to January 1, 1954.

Change in contribution rate

(d) A change in contribution rate caused by a transfer of all or a portion of the separate account, actual contribution and benefit experience and pay rolls shall not become effective

earlier than the beginning of the calendar quarter next succeeding the effective date of such transfer.

NOTE: The section of the Unemployment Insurance Code affected by this chapter appears in its proper place in that code, Chapter 308 of Statutes of 1953, as required by Section 9762 of the Government Code.

SEC. 3. Section 2 of this act becomes operative only if the Unemployment Insurance Code is enacted by the Legislature at its 1953 Regular Session, and in such case at the same time as said code takes effect, at which time Section 41.5 of the Unemployment Insurance Act as amended by this act is repealed.

The power of eminent domain vested in the district shall include the power to condemn in the name of the district either the fee simple or any lesser estate, easement, or interest in any real property which the board of supervisors of the district by resolution shall determine is necessary for carrying out the purposes of this act. Such resolution shall be prima facie evidence that the taking of such fee simple or any lesser estate or easement or interest as the case may be, is necessary.

Whenever real property which is devoted to or held for some other public or quasi-public use is required by the district for any purpose authorized by this act, the district may condemn real property adjacent thereto or in the immediate vicinity thereof to be exchanged for the real property so required by the district.

Nothing in this act contained shall be construed as in any way affecting the plenary power of any existing city and county or municipal utility district to provide for a water supply for such city and county or municipal utility district or as affecting the absolute control of any properties of such city and county or municipal utility district necessary for such water supply and nothing herein contained shall be construed as vesting any power of control over such properties in such Contra Costa County Flood Control and Water Conservation District or in any officer thereof, or in any person referred to in this act

Contracts with Contra Costa County, etc

SEC. 3. Section 6.1 of said act is amended to read:

Commission

SEC. 6.1. The board shall appoint a commission consisting of nine (9) members, six (6) of whom shall be freeholders of the unincorporated territory of the County of Contra Costa. The board may delegate any or all of its powers to the commission. The board may by resolution provide for compensation for services and payment of the actual necessary expenses incurred by said members in the performance of official duties under this act, payable from the funds of the district. Members of the commission shall serve at the pleasure of the board.

When the board of supervisors has delegated any or all of its powers to the commission, the terms "board" and "board of supervisors" mean the commission. The commission may, by resolution, certified to by the chairman of the commission, take action with reference to any and all matters which have been

delegated to it by the Board of Supervisors of the County of Contra Costa.

SEC. 4. Section 11 of said act is amended to read:

SEC. 11. The board may institute projects for single zones and joint projects for two or more zones, for the financing, constructing, maintaining, operating, extending, repairing or otherwise improving any work or improvement of common benefit to such zone or participating zones. For the purpose of acquiring authority to proceed with any such project, the board shall adopt a resolution specifying its intention to undertake such project, together with the engineering estimates of the cost of same to be borne by the particular zone and in the case of participating zones the proportionate cost to be borne by each of the participating zones and fixing a time and place for public hearing of said resolution and which shall refer to a map or maps showing the general location and general construction of said project. Notice of such hearing shall be given for a period of not less than twenty (20) days. If there is a newspaper of general circulation published in the territory proposed to be formed into a zone, notice shall be given by publication once a week for two (2) consecutive weeks prior to the hearing, the last publication of which must be at least seven (7) days before said hearing. If there is no such newspaper, notice shall be given by posting notice of the hearing for a period of fourteen (14) days prior to said hearing in five (5) public places as their said territory designated by the board. Said notice shall designate a public place in any such zone where a copy of the map of the project may be seen by any interested person.

Zone projects

At the time and place fixed for the hearing, or at any time to which said hearing may be continued; the board shall consider all written and oral objections to the proposed project. Upon the conclusion of the hearing the board may abandon the proposed project or proceed with the same, unless prior to the conclusion of said hearing a written protest against the proposed project signed by a majority in number of the holders of title to real property, or assessable rights therein, or evidence of title thereto, representing one-half or more of the assessed valuation of the real property within such zone or within any of the participating zones for which said project was initiated, be filed with the board, in which event further proceedings relating to such project must be suspended for not less than six months following the date of the conclusion of said hearing, or said proceeding may be abandoned in the discretion of the board.

In all matters in this section referred to, the last equalized assessment roll of the County of Contra Costa next preceding the filing of the protest shall be prima facie evidence as to the ownership of real property, the names and number of the persons who are the holders of title or evidence of title, or assessable rights therein, and as to the assessed valuation of real property within the zone or within any of the participating zones for which the project was initiated.

Executors, administrators, special administrators, and guardians may sign the protest provided for in this act on behalf of the estate represented by them. If the property is assessed in the name of such representatives, that fact shall establish the right of such representatives to sign the protest; if assessed in the name of the decedent, minor or incompetent person, certified copies of the letters or such other evidence as may be satisfactory to the board must be produced.

Where real property appears to be owned in common or jointly or by a partnership, or where letters of representatives of decedents, minors or guardians are joint, only one of the owners or representatives or partners may sign the protest for all joint owners or representatives or partners; provided, the party claiming the right to protest for all produces the written consent of his co-owners or representatives or partners so to do, duly acknowledged by the consenting co-owners or representatives or partners in the manner that deeds of real property are required to be acknowledged to entitle such deeds to be recorded in the recorder's office of the county.

Where real property is assessed in the name of a trustee or trustees, such trustee or trustees shall be deemed to be the person entitled to sign the protest, and if assessed in the name of more than one trustee the right to sign the protest shall be determined in like manner as above provided with respect to co-owners.

The protest of any public or quasi-public corporation, private corporation or unincorporated association, may be signed by any person authorized by the board of directors or trustees or other managing body thereof, which authorization shall be in writing; and a proxy executed by an officer or officers thereof, attested by its seal and duly acknowledged, shall constitute sufficient evidence of such authority, and shall be filed with the board.

The owner of any real property or interest therein, appearing upon the assessment roll, which has been assessed in the wrong name or to unknown owners, or which has passed from the owner appearing as such on the last equalized assessment roll, since the same was made, shall be entitled to sign the protest represented thereby, either by the production of a proxy from such former owner, or by furnishing evidence of his ownership by a conveyance duly acknowledged showing the title to be vested in the person claiming the right to sign the protest, accompanied by a certificate of a competent searcher of titles, certifying that a search of the official records of the county, since the date of the conveyance, discloses no conveyance or transfer out from the grantee or transferee named in the conveyance.

Where the real property has been contracted to be sold, the vendee shall be entitled to sign the protest, unless such real property is assessed in the name of the vendor, in which event the vendor shall be entitled to so do.

The board shall likewise be entitled to inquire and take evidence for the purpose of identifying any person claiming the

right to sign the protest as being the person shown on the assessment roll or otherwise as entitled thereto. And, unless satisfactory evidence is furnished, the right to sign said protest may be denied.

SEC. 5. Section 12 of said act is amended to read:

Sec. 12. The board shall have power, in any year:

1. To levy ad valorem taxes or assessments upon all property in the district to pay the general administrative costs and expenses of the district, and to carry out any of the objects or purposes of this act of common benefit to the district; provided, however, that said ad valorem tax or assessment shall not exceed two cents ($0.02) on each one hundred dollars ($100) of assessed valuation, and

Taxes, assessments

2. To levy taxes or assessments in each or any of said zones and participating zones to pay the cost and expenses of carrying out, constructing, maintaining, operating, extending, repairing or otherwise improving any or all works or improvements established or to be established within or on behalf of said respective zones, according to the benefits derived or to be derived by said respective zones, by either of the following methods:

(a) By a levy or assessment upon all property within a zone or participating zone, including land, improvements thereon, and personal property;

(b) By a levy or assessment upon all real property within a zone or participating zones, including both land and improvements thereon. It is declared that for the purposes of any tax or assessment levied under this subdivision, the property so taxed or assessed within a given zone is equally benefited.

3. To levy taxes or assessments by either method authorized by subdivision 2 of this section in each or any of said zones, according to the special benefits derived or to be derived by the specific properties therein, to pay the cost and expenses of carrying out any of the objects or purposes of this act of special benefit to such zone or zones, including the constructing, maintaining, operating, extending, repairing, or otherwise improving any or all works of improvement established or to be established within or on behalf of said respective zone or zones.

In the event of project cooperation with any of the governmental bodies as authorized in subdivision 7 of Section 5 of this act, and requiring the making of a contract with any such governmental body for the purposes set forth in said subdivision 7, by the terms of which work is to be performed by any such governmental body in any specified zone or participating zones, for the particular benefit thereof, and by said proposed contract the district is to pay to such governmental body, a sum of money in consideration or subvention for the performance of said work by such governmental body, the board may, after proceedings in the manner prescribed in Section 11 of this act, levy and collect a special tax or assessment upon the property in such zone or participating zones, whereby to raise funds to

enable the district to make such payment, in addition to other taxes or assessments herein otherwise provided for.

Said taxes or assessments shall be levied and collected together with, and not separately from taxes for county purposes, and the revenues derived from said district taxes or assessments shall be paid into the county treasury to the credit of said district, or the respective zones thereof, and the board shall have the power to control and order the expenditure thereof for said purposes; provided, however, that no revenues, or portions thereof, derived in any zone from the taxes or assessments levied under the provisions of subdivision 2 or 3 of this section shall be expended for constructing, maintaining, operating, extending, repairing or otherwise improving any works or improvements located in any other zone, except in the case of joint projects, or for projects authorized or established outside such zone, or zones, but for the benefit thereof. In cases of projects joint to two or more zones, such zones will become, and shall be referred to as, participating zones.

SEC. 6. Section 13 of said act is amended to read:

Bonds

Sec. 13 (1) Whenever the board determines that a bonded indebtedness should be incurred to pay the cost of any work or improvement in any zone or zones, the board may by resolution, determine and declare the respective amounts of bonds necessary to be issued in each zone in order to raise the amount of money necessary for each work or improvement and the denomination and the maximum rate of interest of said bonds. The board shall cause a copy of the resolution, duly certified by the clerk, to be filed for record in the office of the Recorder of Contra Costa County within five days after its issuance. From and after said filing of said copy of said resolution the board shall be deemed vested with the authority to proceed with the bond election.

(2) After the filing for record of the resolution specified in subdivision (1) of this section, the board may call a special bond election in said zone or participating zones at which shall be submitted to the qualified electors of said zone or participating zones the question whether or not bonds shall be issued in the amount or amounts determined in said resolution and for the purpose or purposes therein stated. Said bonds and the interest thereon shall be paid from revenue derived from annual taxes or assessments levied as provided in this act.

(3) Said board shall call such special bond election by ordinance and not otherwise and submit to the qualified electors of said zone or participating zones, the proposition of incurring a bonded debt in said zone or participating zones in the amount and for the purposes stated in said resolution and shall recite therein the objects and purposes for which the indebtedness is proposed to be incurred; provided, that it shall be sufficient to give a brief, general description of such objects and purposes, and refer to the recorded copy of such resolution adopted by said board, and on file for particulars; and said ordinance shall also state the estimated cost of the proposed work and improvements, the amount of the principal of the indebtedness to be

incurred therefor, and the maximum rate of interest to be paid on said indebtedness, and shall fix the date on which such special election shall be held, and the form and contents of the ballot to be used. The rate of interest to be paid on such indebtedness shall not exceed five percent (5%) per annum. For the purposes of said election, said board shall in said ordinance establish special bond election precincts within the boundaries of each zone and participating zone and may form election precincts by consolidating the precincts established for general elections in said district to a number not exceeding six general precincts for each such special bond election precinct, and shall designate a polling place and appoint one inspector, one judge and one clerk for each of such special bond election precincts.

In all particulars not recited in said ordinance, such special bond election shall be held as nearly as practicable in conformity with the general election laws of the State.

Said board shall cause a map or maps to be prepared covering a general description of the work to be done, which said map shall show the location of the proposed works and improvements and shall cause the said map to be posted in a prominent place in the county courthouse for public inspection for at least thirty (30) days before the date fixed for such election.

Said ordinance calling for such special bond election shall, prior to the date set for such election, be published in a newspaper of general circulation circulated in each zone and participating zone affected for six consecutive times if published in a daily newspaper of general circulation, or two times if published in a weekly newspaper of general circulation. The last publication of such ordinance must be at least fourteen (14) days before said election, and if there be no such newspaper, then such ordinance shall be posted in five public places designated by the board, in each zone and participating zone for at least thirty (30) days before the date fixed for such election. No other notice of such election need be given nor need polling place cards be issued.

Any defect or irregularity in the proceedings prior to the calling of such special bond election shall not affect the validity of the bonds authorized by said election. Where a project affects a single zone only, if at such election two-thirds ($\frac{2}{3}$) of the votes cast in said zone on the proposition of incurring a bonded indebtedness are in favor thereof, then bonds for such zone for the amount stated in such proceedings shall be issued and sold as in this act provided. Where the incurring of bonded indebtedness by participating zones is to be determined at such election, no bonds for any of such participating zones shall be issued or sold unless two-thirds ($\frac{2}{3}$) of the votes cast on the proposition in each such participating zone are in favor of incurring the bonded indebtedness to be undertaken by such zone.

SEC. 7. Section 14 of said act is amended to read:

Sec. 14. The board shall, subject to the provisions of this act, prescribe by resolution the form of said bonds, which must include a designation of the zone or participating zone affected, Same Form

and of the interest coupons attached thereto. Said bonds shall be payable annually or semiannually at the discretion of the board each and every year on a day and date, and at a place to be fixed by said board, and designated in such bonds, together with the interest on all sums unpaid on such date until the whole of said indebtedness shall have been paid.

The board may divide the principal amount of any issue into two or more series and fix different dates for the bonds of each series. The bonds of one series may be made payable at different times from those of any other series. The maturity of each series shall comply with this section. The board may fix a date, not more than two years from the date of issuance, for the earliest maturity of each issue or series of bonds. Beginning with the date of the earliest maturity of each issue or series, not less than one-fortieth of the indebtedness of such issue or series shall be paid every year. The final maturity date shall not exceed 40 years from the time of incurring the indebtedness evidenced by each issue or series.

The bonds shall be issued in such denomination as the board may determine, except that no bonds shall be of a less denomination than one hundred dollars ($100), nor of a greater denomination than one thousand dollars ($1,000), and shall be payable on the days and at the place fixed in said bonds, and with interest at the rate specified in such bonds, which rate shall not be in excess of five percentum (5%) per annum, and shall be made payable annually or semiannually, and said bonds shall be numbered consecutively and shall be signed by the chairman of the board, and countersigned by the auditor of said district, and the seal of said district shall be affixed thereto by the clerk of the board. Either or both such signatures may be printed, engraved or lithographed. The interest coupons of said bonds shall be numbered consecutively and signed by the said auditor by his printed, engraved or lithographed signature. In case any such officers whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such bonds and coupons, and signatures or countersignatures shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery of the bonds.

SEC. 8. Section 16 of said act is amended to read:

Same-Payment

SEC. 16. Any bonds issued under the provisions of this act, and the interest thereon, shall be paid by revenue derived from an annual tax or assessment levied as provided in clause (a) or (b) of subdivision 2 of Section 12 of this act. No zone nor the property therein shall be liable for the bonded indebtedness of any other zone, nor shall any moneys derived from taxation or assessments in any of the several zones be used in payment of principal or interest or otherwise of the bonded indebtedness chargeable to any other zone.

SEC. 9. Section 17 of said act is amended to read:

Sec. 17. The board shall levy a tax or assessment each year sufficient to pay the interest and such portion of the principal of said bonds as is due or to become due before the time for making the next general tax levy. Such taxes or assessments shall be levied and collected in the respective zones of issuance together with and not separately from taxes for county purposes, and when collected shall be paid into the county treasury of said Contra Costa County to the credit of the zone of issuance, and be used for the payment of the principal and interest on said bonds, and for no other purpose. The principal and interest on said bonds shall be paid by the county treasurer of said Contra Costa County in the manner provided by law for the payment of principal and interest on bonds of said county. Annual assessment

SEC. 10. Section 18 of said act is amended to read:

Sec. 18. The provisions of law of this State, prescribing the time and manner of levying, assessing, equalizing and collecting county property taxes, including the sale of property for delinquency, and the redemption from such sale, and the duties of the several county officers with respect thereto, are, so far as they are applicable, and not in conflict with the specific provisions of this act, hereby adopted and made a part hereof. Such officers shall be liable upon their several official bonds for the faithful discharge of the duties imposed upon them by this act. Incorporation of other provisions

SEC. 11. Section 18.5 of said act is amended to read:

Sec. 18.5. The total amount of taxes and assessments levied on property within any zone shall not exceed twenty cents ($0.20) on each one hundred dollars ($100) of assessed valuation, exclusive of the amounts necessary for interest and redemption of any bonds voted within such zone. Tax ceiling

SEC. 12. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

At the present time the Contra Costa County Flood Control and Water Conservation District Act provides for only a one

cent ($0.01) tax on every one hundred dollars ($100) of assessed valuation. It has been found that the amount derived from this tax provides for only approximately one-half of the funds necessary to accomplish the essential work of the district. This act increases the tax rate funds so that the district may properly perform its functions. It is therefore urgently necessary that the bill be enacted into law and become effective before July 1, 1953, in order that the tax provided herein may be levied for the 1953-1954 Fiscal Year.

"Gross receipts" do not include revenue derived by an express company from the shipment of property over the lines of common carriers, but do include revenue derived by an express company from the transportation of property in motor vehicles operated by it.

If the proceedings to enforce the lien be not prosecuted to trial within two years after the commencement thereof, the court may in its discretion dismiss the same for want of prosecution, and in all cases the dismissal of such action (unless it be expressly stated that the same is without prejudice) or a judgment rendered therein that no lien exists shall be equivalent to the cancellation and removal from the record of such lien.

CHAPTER 1439

An act to amend Section 2 of the Vallejo Sanitation and Flood Control District Act (Chapter 17 of the Statutes of 1952, First Extraordinary Session), relative to the Vallejo Sanitation and Flood Control District.

In effect September 9, 1953

[Approved by Governor June 27, 1953. Filed with Secretary of State June 29, 1953.]

The people of the State of California do enact as follows:

SECTION 1. Section 2 of the act cited in the title hereof is amended to read as follows:

Objects and purposes

SEC. 2. Objects and Purposes of Act and Powers of District. The objects and purposes of this act are to provide for the collection and disposal of sewage and industrial waste and for the control and disposition of the storm and flood waters of said district, and to protect the public health and also to protect from damage from such storm and flood waters the waterways, property, public highways and public places in said district. The Legislature hereby declares that special facts and circumstances peculiar to the area within the district having the boundaries hereinabove defined makes the accomplishment of the objects and purposes of this act impossible under existing general law and special legislation is necessary. The State and the people thereof have a primary and supreme interest in the securing to the inhabitants and property owners within the district hereinabove described adequate facilities for the collection and disposal of sewage and the protection from waters naturally flowing into the district from the surrounding mountainous watershed. Special investigation has shown that the conditions within the district hereinabove described are peculiar to that area and that this act is essential to carry out the objects and purposes herein expressed and for the elimination of duplication of governmental authority and securing greater economy of administration. It is further found and determined that the area within the district herein defined has no facilities for the sanitary treatment and disposal of sewage and is consequently contaminating and polluting the waters of San Francisco Bay. The area within the district is of strategic importance due to the proximity of Mare Island Navy Yard. The influx of Navy personnel and their families and civilian workers at the Mare Island Navy Yard has greatly aggravated the problem of sewage disposal in that area; said problem of sewage disposal is further aggravated by lack of adequate drainage and floodwater control and the infiltration of storm and flood waters into existing sanitary sewers; both the problem of sanitary sewage and drainage and the problem of storm water flood control are so correlated and interrelated that the special problems relating to each can only be solved by uniform administration and a uniform control plan of sewage disposal and flood control works.

The Vallejo Sanitation and Flood Control District is hereby declared to be a body corporate and politic and as such shall have power: District powers

(a) Succession. To have perpetual succession. Succession

(b) Suits. To sue and be sued in the name of said district in all actions and proceedings in all courts and tribunals of competent jurisdiction. Suits

The terms "sanitary sewage disposal works," "sewage disposal works," "sanitary sewage disposal purposes" or "sewage disposal purposes" or similar terms whenever used herein shall include and comprehend all of the works, properties or structures necessary or convenient for sewage disposal purposes. Sanitary sewage disposal

(h) Drainage and Flood Control Works. voted by the district then the assessment for the payment thereof shall be in excess of the two and one-half ($2\frac{1}{2}$) mills on each one hundred cents ($1) of the assessed values of the lands within the district.

Report

The board of directors, whenever the interest of the district shall require, may cause a report to be made to the effect that the acquisition of certain property or works or the construction of such works is convenient or necessary to serve or fulfill the purpose for which the district exists and that the cost of such property or works cannot be paid for out of the annual revenue of the district. Such report shall be in such detail and be accompanied by such exhibits as will disclose the purpose sought to be accomplished and the means to be employed therefor. Such report shall be printed in convenient form for distribution to the electors of the district.

Election

After the printing of said report the board of directors by resolution adopted by a majority of the members of the board may call an election to be held in the district for the purpose of authorizing the incurring of a bonded indebtedness by the district. Such resolution shall specify the purpose for which the indebtedness is to be incurred, the amount of bonds which it is proposed shall be issued, the maximum rate of interest such bonds shall bear, and the number of years, not exceeding 40, the whole or any part of said bonds are to run until maturity. It shall further provide for submitting the question of the incurring of such indebtedness to the qualified electors of the district at an election called for that purpose, and the words to appear upon the ballot shall be "Bonds—Yes," and "Bonds—No," or words of similar import, together with a general statement of the amount and purpose of the bonds to be issued. Several propositions may be submitted at the same election. None but qualified electors of the district shall be permitted to vote at such election.

A notice shall be given of such election by publication in a newspaper of general circulation published in the district once a week for at least three weeks if published in a weekly or semi-weekly newspaper or for at least 10 days if published in a daily newspaper and the first publication shall be at least 30 days prior to the date fixed for the election.

Notice

Such notice shall state the time and place for holding the election, the names or numbers of election precincts, which may be the general election precincts established by the boards of supervisors for general state or county elections, or a consolidation of

such precincts, or such other special precincts for the purpose of such bond election as the board of directors of such water conservation district may designate and establish, the location of the polling places and the names of the election officers appointed to conduct such election. Such notice shall also state the amount of the debt that it is proposed to incur, a brief statement of the purpose thereof and refer to the report hereinbefore provided to be made for further particulars the number of years the bonds or any part thereof are to run before the maturity thereof and the maximum rate of interest such bonds shall bear.

The manner of holding and conducting such election, the selection of officers to conduct the same, the designation of precincts and polling places, the preparation of ballots and the receipt, counting and return of the same, and the canvassing and determining the results thereof shall be as provided for the election of directors as provided in this act as nearly as practicable, and in particulars not so provided shall be in accordance with the general laws of the State relative to elections whereat propositions are submitted and voted upon. In the event that such election has been fairly held and conducted, no informality nor omission to perform a prescribed duty shall be held to invalidate or affect the legality of any bonded debt authorized to be incurred.

If two-thirds of the votes cast upon the proposition shall have been marked and counted "Bonds—Yes" or appear to favor the proposition submitted, then such proposition shall be deemed to have been accepted by the voters and to authorize the incurring of a bonded debt and the issuance of bonds therefor to the amount of and for the purpose stated in the proposition.

Issuance

Thereafter the board of directors of the district may issue the bonds of the district for the whole or any part of the amount of the indebtedness so authorized, and may, from time to time, provide for the issuance of such amounts as the necessity therefor shall appear, until the full amount of such bonds authorized shall have been issued. 21933. The issuance of bonds is authorized when at a bond election either:

(a) Two-thirds of the votes cast on the proposal are "yes."

(b) A majority of the votes cast on the proposal are "yes" when the election was called pursuant to a petition sufficient to require it to be called.

(c) A majority of the votes cast on the proposal are "Yes" when the bonds to be issued are payable both as to principal and interest solely from revenue and not directly or indirectly from assessments and the commission finds that in its judgment the proposed revenues will each year, after deducting a reasonable allowance for the cost of operation and maintenance, if any, which must be paid from the revenues, be at least one and one-tenth times the debt service requirements for that year for principal, interest, sinking funds and reserve funds of all the bonds, including the bonds to be issued, payable from the revenues.

CHAPTER 1480

An act making an appropriation to the Department of Public Works relating to repair and restoration of county roads and bridges, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1953. Filed with Secretary of State June 30, 1953.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. There is hereby appropriated to the Department of Public Works, the sum of thirty-two thousand five hundred dollars ($32,500), or so much thereof as may be necessary, payable from the unexpended and unencumbered balance of the appropriation made by Item 428 of the Budget Act of 1952, to be expended by the Department of Public Works in assisting the County of Humboldt to repair and to restore certain public roads and bridges damaged or destroyed by storms and flood conditions; namely, Devils Gate Road (County Road No. 155), Ryan Slough Hill Road (County Road No. 408), and West End Low Level Bridge in Humboldt County. Humboldt County Appropriation for road repairs

SEC. 2. The expenditure of the money appropriated by Section 1 of this act shall be subject to approval by the Department of Public Works of specifications, but the expenditure may be made by the Department of Public Works notwithstanding the dates on which the County of Humboldt lets the contracts in connection with the repair and restoration of the roads and bridges described in Section 1 of this act.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

Recent occurrences of storms and floods have injured the county roads and bridges in Humboldt County, which injury has interrupted the exercise of the governmental functions and threatens the health and welfare of the citizens of the State who are dependent upon the use of those roads and bridges. This act is necessary, therefore, in order to restore lines of communication urgently needed for the proper functioning of the Government of the State.

CHAPTER 1481

An act to add Section 54905 to the Government Code, relating to the filing of statements and maps or plats for tax purposes by cities and districts on creation or change in boundaries, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 29, 1953. Filed with Secretary of State June 30, 1953.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 54905 is added to the Government Code, to read:

Fire protection district tax levy exception

54905. With respect to any tax levied for the Fiscal Year 1953-54, this chapter does not apply to any fire protection district organized or existing pursuant to Chapter 2 of Part 3 of Division 12 of the Health and Safety Code, some of whose territory has been included within the boundary of any city incorporated during the 1951-52 Fiscal Year, and again included in such district subsequent to February 1, 1953.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution, and shall go into immediate effect. The facts constituting such necessity are:

A question has arisen as to the validity of any tax that may be levied for the 1953-54 Fiscal Year by a fire protection district organized or existing pursuant to Chapter 2 of Part 3 of Division 12 of the Health and Safety Code, some of whose territory has been included within the boundary of a newly incorporated city during the 1951-52 Fiscal Year, and again included in such district after February 1, 1953. Those directly concerned have been reasonably unaware of the fact that as a result of such incorporation a change of boundaries in a fire protection district affected may have resulted, requiring the filing of a statement and map or plat with the county assessor and State Board of Equalization as a condition to levying taxes for district purposes for the Fiscal Year 1953-54. Unless any consequent failure to file the statement and map or plat is corrected in accordance with this act, the people in each area affected will be without essential fire protection services during the Fiscal Year 1953-54; and in order to make such correction effective in time to be of any value for that year, it is necessary that this act take effect immediately.

CHAPTER 1482

The people of the State of California do enact as follows:

SECTION 1. Section 866.5 is added to the Penal Code, to read:

Right to counsel

866.5. The defendant may not be examined at the examination, unless he is represented by counsel, or unless he waives his right to counsel after being advised at such examination of his right to aid of counsel.

In effect September 9, 1953

The people of the State of California do enact as follows:

SECTION 1. Section 1240 is added to the Penal Code, to read:

Payment for criminal defendant's appellate brief

1240. In any case where an automatic appeal is taken, as provided in Section 1239, and where counsel has been appointed by the court to appear for the defendant, the cost of preparing the defendant's brief required in any such criminal case shall be paid by the State from the current appropriation for the support of the Supreme Court, in an amount not to exceed one hundred dollars ($100). Claim for payment of such cost shall be presented by counsel to the Clerk of the Supreme Court in such form as the clerk prescribes. If the claim is in order, the clerk shall transmit it to the State Controller, who shall draw his warrant in payment thereof and transmit it to the clerk for delivery to the payee.

SECTION 1. Section 23242.4 is added to the Water Code, to read:

Irrigation district contracts with U. S. Assessment apportionment

23242.4. Where a district makes a contract with the United States for a supply of water or for the payment or repayment of construction costs upon a reclamation project, and the United States has theretofore made individual contracts with landowners or entrymen as to land within the district, and such landowners or entrymen have under such individual contracts paid all or a portion of the charges to be paid to the United States upon construction costs or for a water supply, the assessment required in any year to meet the payment due to the United States for all purposes under the contract may be apportioned in whole or in part in accordance with the benefits received by such landowners or entrymen under the contract between the district and the United States. In the levying of district assessments upon the lands of such landowners or entrymen, the amounts already paid by such landowners or entrymen may be taken into consideration in the levying and equalizing of the assessments to the end that such landowners or entrymen may not be required to pay by way of assessment the amounts that such landowners or entrymen may have already paid to the United States under individual contracts.

The contract between a district and the United States may, subject to hearing and equalization as provided herein, determine, or provide for the method of computation of, the benefits accruing to each parcel of land within the district from the agreement of the district to pay the construction charges applicable to such lands to the United States; and such determination or provision in the contract may be amended from time to time.

If the district shall determine to apportion the assessment required in any year to meet the payment due to the United States on account of such construction charges in accordance with such benefits it shall establish for each parcel of land an appropriate period of years over which such benefits should be paid (which periods may be different as to different parcels), and thereby determine the amount applicable to the year in question. The annual assessment on each parcel shall be equal to the amount so determined increased by such a percentage as shall, in the opinion of the board, be deemed sufficient to cover anticipated delinquencies.

The secretary shall thereupon include an announcement of apportionment according to benefits in the notice provided for in Section 25550. At the meetings of the board as a board of equalization it may hear and determine objections to the assessment and order any changes that it deems just. Within 15 days after the close of its session as a board of equalization the board shall levy the assessment, the secretary shall transmit a record thereof to the collector, and thereafter the assessment shall be collected as in the case of other district assessments.

SEC. 3. This is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1, Article IV of the Constitution, and therefore shall go into immediate effect. The facts constituting such necessity are: Urgency

Certain irrigation districts are required by federal reclamation law to assume the pre-existing indebtedness of construction charges levied against the land within their boundaries or forfeit valuable credits In the execution of such contracts it is necessary that provision be made for the equitable adjustment of assessments levied to pay those charges and clarification of existing law is required to insure the legality of this procedure.

Computation of allowance

7014. He shall determine the total current expenses of the district for such transportation during the preceding fiscal year. He shall then determine what rate of tax levied on each one hundred dollars ($100) of 90 percent of the assessed valuation of the district as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than two cents ($0.02) he shall allow to the district (1) 50 percent of the amount which would be produced by not more than eight cents ($0.08) of the computed tax rate less two cents ($0.02) and (2) 100 percent of the amount which would be produced by the computed tax rate in excess of eight cents ($0 08).

(b) He shall allow to each high school district maintaining a junior college, except as to any to which Section 7016 is applicable, which during the preceding fiscal year provided for the transportation of pupils, an amount which shall be computed as follows:

He shall determine the total current expenses of the districts for such transportation during the preceding fiscal year. He shall then determine what rate of tax levied on each one hundred dollars ($100) of 90 percent of the assessed valuation of the district as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than three cents ($0 03) he shall allow to the district (1) 50 percent of the amount which would be produced by not more than twelve cents ($0.12) of the computed tax rate less three cents ($0.03) and (2) 100 percent of the amount which would be produced by the computed tax rate in excess of twelve cents ($0.12).

(c) He shall allow to each elementary school district which is not a part of a high school district and which during the preceding fiscal year provided for the transportation of pupils to the elementary schools of the district and to one or more high schools in other districts an amount which shall be computed as follows:

He shall determine the total current expenses of the districts for such transportation during the preceding fiscal year. He shall then determine what rate of tax levied on each one hundred

dollars ($100) of 90 percent of the assessed valuation of the district as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than four cents ($0.04) he shall allow to the district (1) 50 percent of the amount which would be produced by not more than sixteen cents ($0.16) of the computed tax rate less four cents ($0.04) and (2) 100 percent of the amount which would be produced by the computed tax rate in excess of sixteen cents ($0.16).

If an elementary district which is not a part of a high school district provides only for the transportation of pupils to a high school, an amount shall be computed as provided in subdivision (a) of this section.

(d) He shall allow to each high school district not a part of any junior college district which during the preceding fiscal year provided for the transportation of pupils to the high schools of the district and pupils attending junior colleges maintained by other districts an amount which shall be computed as follows:

He shall determine the total current expenses of the districts for such transportation during the preceding fiscal year. He shall then determine what rate of tax levied on each one hundred dollars ($100) of 90 percent of the assessed valuation of the district as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than four cents ($0.04) he shall allow to the district (1) 50 percent of the amount which would be produced by not more than sixteen cents ($0.16) of the computed tax rate less four cents ($0.04) and (2) 100 percent of the amount which would be produced by the computed tax rate in excess of sixteen cents ($0.16).

If a high school district which is not a part of a junior college district provides only for the transportation of pupils to a junior college, an amount shall be computed as provided in subdivision (a) of this section.

Same Unified districts

7015. (a) He shall allow to each unified school district formed under the provisions of Chapter 16 of Division 2 of this code, the formation of which became effective on July 1, 1948, or thereafter, an amount equal to the total current expenses of the district during the preceding fiscal year for the transportation of pupils, determined by the Superintendent of Public Instruction to have been required because of a change of the location of schoolhouses or the reorganization of attendance centers within the district during such preceding fiscal year. No allowance shall be made under this paragraph subsequent to the close of the fifth fiscal year following that in which the district was formed and thereafter the provisions of subsection (b) or (c) of this section shall control as to such district.

(b) He shall allow to each unified school district not maintaining a junior college which during the preceding fiscal year

provided for the transportation of pupils, an amount which shall be computed as follows:

He shall determine the total current expenses of the district for such transportation during the preceding fiscal year. He shall then determine what rate of tax levied on each one hundred dollars ($100) of 90 percent of the assessed valuation of the district as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than three cents ($0.03) he shall allow to the district (1) 50 percent of the amount which would be produced by not more than twelve cents ($0.12) of the computed tax rate less three cents ($0.03) and (2) 100 percent of the amount which would be produced by the computed tax rate in excess of twelve cents ($0.12).

(c) He shall allow to each unified school district maintaining a junior college which during the preceding fiscal year provided for the transportation of pupils, an amount which shall be computed as follows:

He shall determine the total current expenses of the district for such transportation during the preceding fiscal year. He shall then determine what rate of tax levied on each one hundred dollars ($100) of 90 percent of the assessed valuation of the district as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than four cents ($0.04) he shall allow to the district (1) 50 percent of the amount which would be produced by not more than sixteen cents ($0.16) of the computed tax rate less four cents ($0.04) and (2) 100 percent of the amount which would be produced by the computed tax rate in excess of sixteen cents ($0.16).

Same. Joint transportation systems

7016. He shall compute for each group of two or more school districts which have been continuously from a time prior to July 1, 1949, governed by boards of identical personnel during the preceding fiscal year and have maintained a single transportation system for all of such districts which provided for the transportation of pupils, an amount which shall be computed as follows:

He shall determine the total current expenses of the districts for such transportation during the preceding fiscal year.

(a) He shall, if such group comprises an elementary school district and a high school district not maintaining a junior college and each district provided for the transportation of pupils, or comprises an elementary school district, a high school district, and a junior college district and each district except the junior college district provided for the transportation of pupils, or comprises a high school district and a junior college district and each district provided for the transportation of pupils, then determine what rate of tax levied on each one hundred dollars ($100) of 90 percent of the assessed valuation of that one of such districts providing for the transportation of pupils which

has the largest assessed valuation as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than three cents ($0.03) he shall allow the district (1) 50 percent of the amount which would be produced by not more than twelve cents ($0.12) of the computed tax rate less three cents ($0.03) and (2) 100 percent of the amount which would be produced by the computed tax rate in excess of twelve cents ($0.12).

(b) He shall, if such group comprises an elementary school district, and a high school district maintaining a junior college, each of which provided for the transportation of pupils, including those attending the junior college, or comprises an elementary school district, a high school district, and a junior college district, each of which provided for the transportation of pupils, then determine what rate of tax levied on each one hundred dollars ($100) of 90 percent of the assessed valuation of that one of such districts providing for the transportation of pupils which had the largest assessed valuation as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than four cents ($0.04) he shall allow to the district (1) 50 percent of the amount which would be produced by not more than sixteen cents ($0.16) of the computed tax rate less four cents ($0.04) and (2) 100 percent of the amount which would be produced by the computed tax rate in excess of sixteen cents ($0.16).

He shall then allow to each district in the group the same ratio of the total amount computed for the group as the governing boards of the districts in the groups certify to him is the ratio the amount expended for such transportation in such district during the preceding fiscal year was of the total expenditures of all districts in the group for such transportation during the preceding fiscal year.

Unified school district. Cost of busses

7017. In the case of a unified school district formed under Chapter 16 of Division 2 of this code, the formation of which became effective for all purposes on July 1, 1948, or thereafter, there shall be included in addition to the current expenses of transportation of the district the cost of such school busses for the first five fiscal years in which it purchases school busses as are determined by the Superintendent of Public Instruction to have been required because of changes in the location of schools or the reorganization of attendance centers within the district. This paragraph shall not be effective as to any unified school district after the end of the fifth fiscal year succeeding the formation of the district.

Standards of approval

7018. The Superintendent of Public Instruction in approving, under this article, current expenses of school districts for the transportation of pupils shall apply the same standards and bases for such approval to expenditures for such transportation

provided by a school district in school busses owned and operated by the school district and expenditures for such transportation provided by contract with a private party.

Maximum allowance

7018.1. (a) The Superintendent of Public Instruction shall not allow under this section during any fiscal year a total amount in excess of the amount provided by law.

Allowance for special students

(b) In addition to all other amounts allowed to a school district under this article, the Superintendent of Public Instruction shall allow to each school district an amount equal to the current expense of the district during the preceding fiscal year of transporting blind, deaf, cerebral palsied, and orthopedically handicapped minor pupils and mentally retarded minors who come within the provisions of Section 9801.2, to and from special day classes but not in excess of three hundred fifty dollars ($350) for each unit of average daily attendance of such pupils during the next preceding fiscal year resulting from the attendance of such pupils on the special day classes to and from which they were transported by the district.

Same County service fund

(c) The Superintendent of Public Instruction shall allow to the county school service fund of each county an amount equal to the current expense of the county superintendent of schools during the preceding fiscal year of transporting blind, deaf, cerebral palsied, and orthopedically handicapped minor pupils and mentally retarded minors who come within the provisions of Section 9801.2, to and from special day classes but not in excess of three hundred fifty dollars ($350) for each unit of average daily attendance during the next preceding year resulting from the attendance of such pupils on the special day classes to and from which they were transported by the county superintendent of schools.

(d) If the total amount which may be allowed under subdivision (a) during any fiscal year is less than the total allowances computed under subdivisions (b) and (c), the amounts allowed shall be reduced proportionately.

(e) If the total amount which may be allowed under subdivision (a) during any fiscal year is more than the total allowances computed under subdivisions (b) and (c), the balance shall be apportioned pursuant to Section 7118.

Recomputation

7019 (a) In the event that the total amount which may be allowed under Section 7011 during any fiscal year is less than the total allowances computed under Sections 7014, 7015, 7016, and 7017, the amount allowed shall be successively recomputed by adding one-tenth of one cent ($0.001) to the lower tax rates provided for in Sections 7014, 7015, and 7016, respectively, until there is no deficit. The average daily attendance in the regular day schools of the district during the period in the then current fiscal year and for the same period in the preceding fiscal year shall be computed in the manner prescribed in Chapter 14 of this division, except that the computation of a day of attendance shall be determined according to the law in effect during said preceding fiscal year.

The Superintendent of Public Instruction shall allow to each school district for each unit by which the average daily attend-

One-school elementary school district

7109.21. Notwithstanding any provisions of this article to the contrary, allowances for growth for elementary school districts maintaining only one elementary school with a total average daily attendance during the preceding fiscal year of less than 101, exclusive of pupils attending the seventh and eighth grades of a junior high school, shall be computed pursuant to this section.

The provisions of subdivisions (a), (b), (c), and (d) of Section 7032 for average daily attendance and number of teachers hired shall apply to such districts.

If the excess is sufficient to place the district within the requirements of a different subdivision of Section 7032 an apportionment for growth shall be made only if there has been employed for the school during the period of the current fiscal year the number of teachers required by the subdivision of Section 7032 which is applicable to the district according to its average daily attendance during the period of the current fiscal year, exclusive of pupils attending the seventh and eighth grades of a junior high school.

The Superintendent of Public Instruction shall allow, for each period for each district which was in existence for all purposes during the preceding fiscal year an amount equal to the difference between the amount of basic state aid and state equal-

If the excess is sufficient to place the district outside of the requirements of any of the subdivisions of Section 7032, the Superintendent of Public Instruction shall deem the average daily attendance of the district during the preceding fiscal year to have been 100 and he shall compute an allowance pursuant to Section 7109.2 with respect to the units of average daily attendance during the period of the then current fiscal year which are more than 100.

The Superintendent of Public Instruction shall allow to each school district for each unit by which the average daily attendance for each period of the then current fiscal year in the seventh and eighth grades of a junior high school exceeds such average daily attendance for the same period during the preceding fiscal year the following: for the first period, the sum of two hundred twelve dollars ($212) multiplied by the ratio of days the regular day schools of the district were maintained during the first period of the then current fiscal year to 175 and, for the second period, the sum of two hundred twelve dollars ($212) multiplied by the ratio of the difference between 175 and the days the regular day schools of the district were maintained during the first period of the then current fiscal year to 175.

days the regular day schools of the district were maintained during the first period of the then current fiscal year to 175

7109.3. The Superintendent of Public Instruction shall allow, for each period referred to above, to each school district which was not in existence for all purposes during the preceding fiscal year an amount which shall be computed as follows: New district

The Superintendent of Public Instruction shall allow to each such district for each unit of average daily attendance so computed for the first period of the then current fiscal year an amount determined by dividing the total of the amounts of basic state aid and state equalization aid which would have been apportioned to such district during the current fiscal year on account of such average daily attendance had the district been in existence for all purposes during the preceding fiscal year and had the tax required to be levied for such district under Section 7094 or 7095 been levied, by such average daily attendance multiplied by the ratio of days the regular day schools of the district were maintained during said period of the then current fiscal year to 175.

The Superintendent of Public Instruction shall allow to each such district for each unit of average daily attendance so computed for the second period of the then current fiscal year an amount determined by dividing the amounts of basic state aid and state equalization aid which would have been apportioned to such district during the current fiscal year on account of such average daily attendance had the district been in existence for all purposes during the preceding fiscal year and had the tax required to be levied for such district under Section 7094 or 7095 been levied, by such average daily attendance multiplied by the ratio of the difference between 175 and the days the regular day schools of the district were maintained during the first period of the then current fiscal year to 175.

In making any computation under Section 7081 for the purposes of this section, the assessed valuation of the district for the current year shall be used.

7109.41. If the total amount which may be allowed to all districts under subdivision (b) of Section 7109 for the first period during any fiscal year is less than the total amount allowed to all districts for the first period under this article, the amounts allowed shall be reduced proportionately. Reduction

7109.42. If the total amount which may be allowed to all districts under subdivision (c) of Section 7109 for the second period during any fiscal year is less than the total amount allowed to all districts for the second period under this article, the amounts allowed shall be reduced proportionately.

Proration allowance of balance

7109.43. If the total amount which may be allowed to all districts under subdivision (c) of Section 7109 is more than the total amount allowed to all districts for the second period under this article, the balance shall be prorated to any allowance made during the first period to which Section 7109.41 applied in an amount not to exceed the allowances computed for the first period under this article Any portion of the balance remaining after this computation shall be allowed pursuant to Section 7119.

Eminent domain

SEC. 7. The district shall have and may exercise the right of eminent domain within the district, and in the manner provided by law for the condemnation of private property for public use, to take any property necessary to carry out any of the objects or purposes of this act, whether such property be already devoted to any public use by any district or other public corporation, or agency, or otherwise; provided, however, that the district in exercising such power shall in addition to the damage for the taking, injury, or destruction of property, also pay the cost of removal or relocation of any structure, railways, mains, pipes, conduits, wires, cable, poles, which is required to be moved to a new location; and provided further, that, notwithstanding any other provision of this act or any other law, no property shall be taken unless it is taken upon a finding by a court of competent jurisdiction that the taking is for a more necessary public use than that to which it has already been appropriated; and provided further, that no right shall exist in the district to take by proceedings in eminent domain any property, including water rights, appropriated to public use by any existing county, city or municipal utility district. The district shall also have and may exercise the right to condemn any existing works or improvements in the district, and it is hereby declared that the use of the property, lands, rights of way, easements, or materials which may be condemned, taken or appropriated under the provisions of this act is a public use subject to the regulation and control of the State in the manner prescribed by law.

The power of eminent domain vested in the district shall include the power to condemn in the name of the district either the fee simple or any lesser estate, easement, or interest in any real property which the board by resolution shall determine is necessary for carrying out the purposes of this act. Such resolution shall be prima facie evidence that the taking of such fee simple or any lesser estate or easement, or interest as the case may be, is necessary.

Whenever real property which is devoted to or held for some other public or quasi-public use is required by the district for its purposes, the district may condemn real property adjacent thereto or in the immediate vicinity thereof to be exchanged for the real property required by the district for its purposes.

Construction

Nothing in this act contained shall be construed as in any way affecting the plenary power of any existing county, city or municipal utility district to provide for a water supply for such county, city or municipal utility district or as affecting

the absolute control of any properties of such county, city or municipal utility district necessary for such water supply, and nothing herein contained shall be construed as vesting any power of control over such properties in said Contra Costa County Storm Drain District or in any officer thereof or in any person referred to in this act.

SEC. 8. The Board of Supervisors of Contra Costa County shall be, and is hereby designated as and empowered to act as, ex officio the Board of Supervisors of the Contra Costa County Storm Drainage District.

All ordinances, resolutions and other legislative acts for said district shall be adopted by said board, and certified to, recorded and published, in the same manner, except as herein otherwise expressly provided, as are ordinances, resolutions or other legislative acts for the County of Contra Costa.

In addition to the officers and employees herein otherwise prescribed, the board may in its discretion appoint a chairman from its membership, a secretary and such other officers, agents and employees for the board or district as in its judgment may be deemed necessary, prescribe their duties and fix their compensation, which said officers, agents and employees so appointed shall hold their respective offices or positions during the pleasure of the board.

Engineer

SEC. 11. An engineer appointed by the board of supervisors shall be in charge of installation and maintenance, and shall, subject to the approval of the board of supervisors, do all things necessary for the proper functioning of the district. The compensation of any assistants or employees of the cost of any material necessary shall be payable out of the funds of the district. If, for any reason whatsoever, there be insufficient money in the district fund to pay the compensation of any such assistants or employees or the cost of any material, the county may advance the necessary funds for such purposes, and shall reimburse itself from moneys paid into said district fund.

Zone petition

SEC. 12. Proceedings for the establishment of a zone shall be instituted by the board when a petition requesting the formation of such zone and signed by the requisite number of property owners is filed with the board. The petition may consist of any number of separate instruments, each of which must comply with all the requirements of a petition except as to the number of signatures.

SEC. 13. A petition requesting the formation of a zone and the institution of a project or work of improvement permitted by this act shall:

(a) Request the board to institute proceedings to establish a zone pursuant to this act;

(b) Describe the boundaries of the territory which is proposed for inclusion within the zone;

(c) State the project or work of improvement to be provided within the zone; and

(d) Be signed by the owners of at least 50 percent of the assessed value of property within the proposed zone as shown on the last assessment roll of Contra Costa County.

SEC. 14. Before a petition is circulated, the proposed boundaries of the zone shall be submitted to the County Boundary Commission for recommendation and report in the manner provided for in Chapter 3, Title 6 of the Government Code.

Report on proposed work

SEC. 15. Prior to the hearing on the proposal by petition to establish a zone, the board shall, by resolution, direct the officer or employee of the district charged with the duty of supervising the engineering affairs of the district to make and to file a report with the board which shall show:

1. A general description of the project or work of improvement to be done; and

2. A general description of the lands, rights of way, easements, and property to be taken, acquired, or injured in carrying out such work; and

3. An estimate of the cost of such work including an estimate of the cost of lands, rights of way, easements, and property proposed to be taken, acquired, or injured in carrying out said work, and also of all incidental expenses and of all operating, maintenance and other costs likely to be incurred in connection therewith.

The report shall be considered by the board, which may, by resolution, either adopt the report as filed or refer it back to the officer or employee charged with the duty of supervising engineering affairs of the district for modification or change. When a report satisfactory to the board has been filed with the board, the board by resolution shall adopt the report and shall estimate the amounts of all capital expenditures and of all operating, maintenance and other acts necessary in connection with the institution of the proposed project or work of improvement with the said zone.

SEC. 16. Within 30 days after the receipt of the engineer's report on the proposal by petition for the establishment of a zone, which report has been approved by the board, the board

shall adopt a resolution of intention to establish a zone in the form and in the manner specified in Section 18 of this act.

Board determination

SEC. 17. The board shall determine as to each project or work of improvement, either proposed by petition or instituted by the board itself, that it is either:

1. Either in whole or in part for the district as a whole, and if in part only, what part; or

2. Either in whole or in part for the common benefit of two or more zones, hereinafter referred to as participating zones, and if in part only, what part; or

3. Either in whole or in part for the benefit of a single zone, and if in part only, what part.

Resolution of intention

SEC. 18. For the purpose of acquiring authority to proceed with the establishment of a zone, or any such project, as requested by petition, the board shall adopt a resolution specifying its intention to undertake such project, together with the engineering estimates of the cost of same to be borne by the particular zones or participating zones and fixing a time and place for public hearing of said resolution and which shall refer to a map or maps showing the general location and general construction of said project. Notice of such hearing shall be given by publication once a week for two consecutive weeks prior to said hearing, the last publication of which notice must be at least seven (7) days before said hearing, in a newspaper of general circulation designated by the board, circulated in such zone or each of said participating zones, if there be such newspaper, and if there be no such newspaper then by posting notice for two consecutive weeks prior to said hearing in five public places designated by the board, in such zone or in each of said participating zones. Said notice must designate a public place in such zone or in each of said participating zones where a copy or copies of the map or maps of said joint project may be seen by any interested person; said map must be posted in each of said public places so designated in said notice at least two weeks prior to said hearing.

Hearing

At the time and place fixed for the hearing, or at any time to which said hearing may be continued, the board shall consider all written and oral objections to the proposed zone or project. Upon the conclusion of the hearing the board may abandon the proposed zone or project or proceed with the same

Levy of assessments

SEC. 19. The board of supervisors shall have power, in any year:

1. To levy assessments in each or any of said zones and participating zones to pay the cost and expenses of carrying out, constructing, maintaining, operating, extending, repairing or otherwise improving any or all works or improvements established or to be established within or on behalf of said respective zones, according to the benefits derived or to be derived by said respective zones by a levy or assessment upon all real property within a zone or participating zones, including both land and improvements thereon. It is declared that for the purposes of

any assessment levied under this subdivision, the property so taxed or assessed within a given zone is equally benefited.

2. To levy assessments upon all real property within a zone or participating zones in each or any of said zones, according to the special benefits derived or to be derived by the specific properties therein, to pay the cost and expenses of carrying out any of the objects or purposes of this act of special benefit to such zone or zones, including the constructing, maintaining, operating, extending, repairing, or otherwise improving any or all works of improvement established or to be established within or on behalf of said respective zone or zones.

Said assessments shall be levied and collected together with, and not separately from taxes for county purposes, and the revenues derived from said district assessments shall be paid into the county treasury to the credit of said district, or the respective zones thereof, and the board shall have the power to control and order the expenditure thereof for said purposes; provided, however, that no revenues, or portions thereof, derived in any zone from the assessments levied under the provisions of subdivision 1 or 2 of this section shall be expended for constructing, maintaining, operating, extending, repairing or otherwise improving any works or improvements located in any other zone, except in the case of joint projects, or for projects authorized or established outside such zone, or zones, but for the benefit thereof. In cases of projects joint to two or more zones, such zones will become, and shall be referred to as, participating zones.

Resolution to issue bonds

SEC. 20. (1) Whenever the board determines that a bonded indebtedness should be incurred to pay the cost of any work or improvement in any zone or zones, the board may by resolution determine and declare the respective amounts of bonds necessary to be issued in each zone in order to raise the amount of money necessary for each work or improvement and the denomination and the maximum rate of interest of said bonds. The board shall cause a copy of the resolution, duly certified by the clerk, to be filed for record in the Office of the Recorder of Contra Costa County within five (5) days after its issuance. From and after said filing of said copy of said resolution the board shall be deemed vested with the authority to proceed with the bond election.

Special bond election

(2) After the filing for record of the resolution specified in subdivision (1) of this section, the board may call a special bond election in said zone or participating zones at which shall be submitted to the qualified electors of said zone or participating zones the question whether or not bonds shall be issued in the amount or amounts determined in said resolution and for the purpose or purposes therein stated. Said bonds and the interest thereon shall be paid from revenue derived from annual assessments levied as provided in this act.

(3) Said board shall call such special bond election by ordinance and not otherwise and submit to the qualified electors of said zone or participating zones, the proposition of incurring a

bonded debt in said zone or participating zones in the amount and for the purposes stated in said resolution and shall recite therein the objects and purposes for which the indebtedness is proposed to be incurred; provided, that it shall be sufficient to give a brief, general description of such objects and purposes, and refer to the recorded copy of such resolution adopted by said board, and on file for particulars; and said ordinance shall also state the estimated cost of the proposed work and improvements, the amount of the principal of the indebtedness to be incurred therefor, and the maximum rate of interest to be paid on said indebtedness, and shall fix the date on which such special election shall be held, and the form and contents of the ballot to be used. The rate of interest to be paid on such indebtedness shall not exceed five percent (5%) per annum. For the purposes of said election, said board shall in said ordinance establish special bond election precincts within the boundaries of each zone and participating zone and may form election precincts by consolidating the precincts established for general elections in said district to a number not exceeding six general precincts for each such special bond election precinct, and shall designate a polling place and appoint one inspector, one judge and one clerk for each of such special bond election precincts.

In all particulars not recited in said ordinance, such special bond election shall be held as nearly as practicable in conformity with the general election laws of the State.

Said board shall cause a map or maps to be prepared covering a general description of the work to be done, which said map shall show the location of the proposed works and improvements and shall cause the said map to be posted in a prominent place in the county courthouse for public inspection for at least thirty (30) days before the date fixed for such election.

Said ordinance calling for such special bond election shall, prior to the date set for such election, be published in a newspaper, of general circulation circulated in each zone and participating zone affected for six consecutive times if published in a daily newspaper of general circulation, or two times if published in a weekly newspaper of general circulation. The last publication of such ordinance must be at least fourteen (14) days before said election, and if there be no such newspaper, then such ordinance shall be posted in five (5) public places designated by the board, in each zone and participating zone for at least thirty (30) days before the date fixed for such election. No other notice of such election need be given nor need polling place cards be issued.

Any defect or irregularity in the proceedings prior to the calling of such special bond election shall not affect the validity of the bonds authorized by said election. Where a project affects a single zone only, if at such election two-thirds ($\frac{2}{3}$) of the votes cast in said zone on the proposition of incurring a bonded indebtedness are in favor thereof, then bonds for such zone for the amount stated in such proceedings shall be issued and sold as in this act provided. Where the incurring of bonded indebted-

ness by participating zones is to be determined at such election, no bonds for any of such participating zones shall be issued or sold unless two-thirds ($\frac{2}{3}$) of the votes cast on the proposition in each such participating zone are in favor of incurring the bonded indebtedness to be undertaken by such zone.

Form, etc., of bonds

SEC. 21. The board shall, subject to the provisions of this act, prescribe by resolution the form of said bonds, which must include a designation of the zone or participating zone affected, and of the interest coupons attached thereto. Said bonds shall be payable annually or semiannually at the discretion of the board each and every year on a day and date, and at a place to be fixed by said board, and designated in such bonds, together with the interest on all sums unpaid on such date until the whole of said indebtedness shall have been paid.

The board may divide the principal amount of any issue into two or more series and fix different dates for the bonds of each series. The bonds of one series may be made payable at different times from those of any other series. The maturity of each series shall comply with this section. The board may fix a date, not more than two years from the date of issuance, for the earliest maturity of each issue or series of bonds. Beginning with the date of the earliest maturity of each issue or series, not less than one-fortieth of the indebtedness of such issue or series shall be paid every year. The final maturity date shall not exceed forty (40) years from the time of incurring the indebtedness evidenced by each issue or series.

The bonds shall be issued in such denomination as the board may determine, except that no bonds shall be of a less denomination than one hundred dollars ($100), nor of a greater denomination than one thousand dollars ($1,000), and shall be payable on the days and at the place fixed in said bonds, and with interest at the rate specified in such bonds, which rate shall not be in excess of five per centum (5%) per annum, and shall be made payable annually or semiannually, and said bonds shall be numbered consecutively and shall be signed by the chairman of the board, and countersigned by the county auditor, and the seal of the county shall be affixed thereto by the clerk of the board. Either or both such signatures may be printed, engraved or lithographed. The interest coupons of said bonds shall be numbered consecutively and signed by the said auditor by his printed, engraved or lithographed signature. In case any such officers whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officers before the delivery of such bonds to the purchaser, such bonds and coupons, and signatures or countersignatures shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery of the bonds.

Sale of bonds

SEC. 22. The board may issue and sell the bonds of any such zones authorized as hereinbefore provided at not less than par value, and the proceeds of the sale of such bonds shall be placed in the treasury of the county to the credit of said district and the respective participating zones thereof, for the uses

and purposes of the zone or zones voting said bonds; and the proper record of such transactions shall be placed upon the books of said county treasurer, and said respective zone funds shall be applied exclusively to the purposes and objects mentioned in the ordinance calling for such special bond election as aforesaid, subject to the provisions in this act contained. Payments from said zone funds shall be made upon demands prepared, presented, allowed and audited in the same manner as demands upon the funds of the county.

Payment of bonds

SEC. 23. Any bonds issued under the provisions of this act, and the interest thereon, shall be paid by revenue derived from an annual assessment levied as provided in subdivision 1 of Section 19 of this act. No zone nor the property therein shall be liable for the bonded indebtedness of any other zone, nor shall any moneys derived from assessments in any of the several zones be used in payment of principal or interest or otherwise of the bonded indebtedness chargeable to any other zone.

SEC. 24. The board shall levy an assessment each year sufficient to pay the interest and such portion of the principal of said bonds as is due or to become due before the time for making the next general tax levy. Such assessments shall be levied and collected in the respective zones of issuance together with and not separately from taxes for county purposes, and when collected shall be paid into the county treasury of said county to the credit of the zone of issuance, and be used for the payment of the principal and interest on said bonds, and for no other purpose. The principal and interest on said bonds shall be paid by the county treasurer of said county in the manner provided by law for the payment of principal and interest on bonds of said county.

Applicable law

SEC. 25. The provisions of law of this State, prescribing the time and manner of levying, assessing, equalizing and collecting county property taxes, including the sale of property for delinquency, and the redemption from such sale, and the duties of the several county officers with respect thereto, are, so far as they are applicable, and not in conflict with the specific provisions of this act, hereby adopted and made a part hereof. Such officers shall be liable upon their several official bonds for the faithful discharge of the duties imposed upon them by this act. All property exempt from taxation for county purposes under the provisions of the Revenue and Taxation Code of the State of California is exempt from assessment for the purposes of this act. Property used for free public libraries and free museums, growing crops, property used exclusively for public schools, and such as may belong to this State, or to any county, city and county, or municipal corporation within this State shall be exempt from assessment, except such lands and the improvement thereon located outside of the county, city and county, or municipal corporation owning the same as were subject to taxation at the time of the acquisition of the same by said county, city and county, or municipal corporation; provided, that no improvements of any character what-

ever constructed by any county, city and county, or municipal corporation shall be subject to assessment.

Inapplicable law

SEC. 26. A zone formed or proposed to be formed under this act, or the acquisition of any property or the construction of any improvement thereby, shall not be subject to any of the provisions of the District Investigation Law of 1933.

Investments status of bonds

SEC. 27. The bonds issued for any zone thereof pursuant to this act, shall be legal investments for all trust funds, and for the funds of all insurance companies, banks, both commercial and savings, and trust companies, and for the state school funds, and whenever any money or funds may by law now or hereafter enacted be invested in bonds of cities, cities and counties, counties, school districts or municipalities in the State of California, such money or funds may be invested in the said bonds issued in accordance with the provisions of this act, and whenever bonds of cities, cities and counties, counties, school districts or municipalities, may by any law now or hereafter enacted be used as security for the performance of any act, such bonds may be so used.

Legislative intent

This section of this act is intended to be and shall be considered the latest enactment with respect to the matters herein contained and any and all acts or parts of acts in conflict with the provisions hereof are hereby repealed.

Tax exemption

SEC. 28. All bonds issued under the provisions of this act shall be free and exempt from all taxation within the State of California.

Construction contracts

SEC. 29. All contracts for any improvement or unit of work when the cost thereof according to the estimate of the engineer will exceed two thousand dollars ($2,000), shall be let to the lowest responsible bidder or bidders in the manner hereinafter provided. The board shall first determine whether such contract shall be let as a single unit for the whole of the work, or shall be divided into severable convenient parts, or both, according to the best interests of the zone. The board shall make call for bids and advertise such call by three (3) insertions in a daily newspaper of general circulation or by two (2) insertions in a weekly newspaper of general circulation printed and published in said district inviting sealed proposals for the construction or performance of the improvement or work before any contract is made therefor. Such call for bids shall state whether such work is to be performed as a unit for the whole thereof or shall be divided into severable convenient specific parts, or both, as stated in the call. The board may let such work by single contract for the whole thereof as a unit or it may divide such work into severable convenient parts by separate contracts, as stated in such call, according to the best interests of the district. The board shall require the successful bidder or bidders to file with the board good and sufficient bonds to be approved by the board conditioned upon the faithful performance of the contract and upon the payment of their claims for labor and material in connection therewith, such bonds to contain the terms and conditions set forth

in Title 1, Division 5, Chapter 3 of the Government Code and to be subject to the provisions of that chapter. The board shall also have the right to reject any and all bids. In the event no proposals are received pursuant to advertisement therefor, or the estimated cost of such work does not exceed the sum of two thousand dollars ($2,000), or the work consists of emergency work necessary in order to protect life and property from impending flood damage, the board of supervisors may, without advertising for bids therefor, have said work done by day labor, under the direction of the board, by contract, or by a combination of the two. The board shall have the power to acquire in the open market without advertising for bids therefor, materials, equipment and supplies for use in any work or for any other purpose; provided, however, that materials and supplies for use in any new construction work or improvement, except work referred to in the preceding sentence, may not be purchased if the cost thereof exceeds two thousand five hundred dollars ($2,500), without advertising for bids and awarding the contract therefor to the lowest responsible bidder.

SEC. 30. Any improvement for which bonds are voted under the provisions of this act, shall be made in conformity with the report, plans, specifications and map theretofore adopted, as above specified, unless the doing of any of such work described in said report, shall be prohibited by law, or be rendered contrary to the best interests of the zone by some change of conditions in relation thereto, subsequent to the date of filing the report, plans, specifications and map theretofore adopted, in which event the board of supervisors may order necessary changes made in such proposed work or improvements and may cause any plans and specifications to be made and adopted therefor.

Additional bonds

SEC. 31. Such resolution may contain any terms or conditions proposed for such annexation.

27252. When a certified copy of said resolution requesting annexation is filed with the board of the annexing district, such board may pass a preliminary resolution stating that such annexation is desirable and consenting thereto. Notice

27257. Notice of the hearing shall be given by publication in at least one newspaper of general circulation printed and published in the annexed district and in at least one such newspaper printed and published in the annexing district. In the event that there is no such newspaper printed and published in one of the districts, the notice shall be published in a newspaper of general circulation deemed by the board of that district most likely to give notice to the owners of land in that district. Such notice shall be approved as to form and the names to be attached thereto by the board of directors of each district and published in such newspapers and posted at such places as shall be ordered by said boards.

Hearing procedure

27259. At the time and place specified in the notice the boards of the two districts shall meet in joint session. The president of the annexing district shall act as chairman. At said time and place, or at any time and place to which the hearing may be adjourned or continued, the combined boards shall hear all objections or protests filed and all evidence in support of or opposed to such protests or to the proposed annexation, or any matter involved therein. The hearing may be adjourned or continued from time to time by a majority vote of each board. No adjournment or continuance shall be for a longer period than seven days, and the total of all continuances or adjournments shall not exceed 90 days.

27260. The combined boards, by a majority vote of the members of each board, at the conclusion of the hearing shall approve or disapprove the proposed annexation, or may modify the territory to be annexed, by excluding any lands which, in the judgment of the combined boards, will not be benefited by the annexation and approve such modified annexation. No land shall be excluded if the owner thereof objects to the exclusion.

27261. At the conclusion of the hearing the combined boards, by a majority vote of the members of each district, shall make an order finding:

(a) Whether or not a preliminary annexation resolution has been duly adopted by each board;

(b) Whether or not copies thereof have been referred to the department;

(c) Whether or not the notice of the hearing has been given in accordance with the law.

27262. The combined boards shall also, at the conclusion of said hearing, by a majority vote of the members of each board, if the proposed annexation is approved as proposed or as the

boundaries of the territory to be annexed may be modified at the hearing, make an order:

(a) Determining that the annexation of the district will benefit the lands as described or referred to in the order as proposed to be annexed or the lands described in the order if the boundaries have been modified, and will also benefit the lands within the annexing district;

(b) Describing the lands, if any, which the combined boards have determined will not be benefited by the annexation and which are to be excluded from the district in the event the annexation becomes effective;

(c) Stating the terms and conditions upon which the annexation is to be made. Unless otherwise stated in said terms and conditions, any annexed district or any portion of such district annexed under this article shall, upon annexation, become subject to all of the outstanding indebtedness of the annexing district, and all lands so annexed shall become, be and remain liable to be assessed in the manner provided in the Irrigation District Law for the payment of such outstanding indebtedness of the annexing district.

Such terms and conditions may also state the sum or sums or otherwise describe the indebtedness, or method of payment of any sum or amount to be paid to any metropolitan water district or any county water authority for or on behalf of the annexed district or the lands annexed and for which the lands in the annexed district shall be and remain liable to be assessed;

(d) Determining whether authorized, but unissued, bonds of the annexed district which it is proposed are to be issued after the annexation in the name of the annexing district shall be paid from assessments to be levied upon lands in the annexing district. If the unissued bonds are to be payable entirely from assessments upon lands in the annexed district, or such lands therein as are not excluded in the annexation, then upon annexation and the issuance of such bonds such bonded indebtedness shall be payable solely from moneys derived from an annual assessment upon such lands in the annexed district or charges which, in the discretion of the board of the annexing district, are fixed and collected in lieu thereof, and all such lands in the annexed district shall be and remain liable to be assessed for such payments;

(e) Fixing the date when the annexation becomes effective if approved by the voters, which date shall not be later than six months subsequent to the canvass of the election returns.

Election

27263. Said order shall fix a date for an election to be held in the districts at which shall be submitted to the voters of each district the question of the annexation of the district, or if any land has been excluded, of the territory to be annexed. The resolution shall also contain:

(a) The date and purpose of the election;

(b) The name of the district which it is proposed shall be annexed to the annexing district, or a general description of

the land to be annexed, if the combined boards at the hearing modified the boundaries of the territory to be annexed;

(c) The hours the polls will be open at said election;

(d) The place in which the polls will be open in each precinct in each district. Such precincts may be designated by name or number or otherwise generally referred to or described;

(e) The names of the election officers in each precinct;

(f) The form of the ballot to be used at said election, which shall contain the words "Annexation—Yes" or "Annexation —No," or words equivalent thereto.

In all respects not otherwise stated in said resolution said election shall be held and conducted as are general elections under the Irrigation District Law.

Said resolution shall be authenticated in such manner as may be ordered by the combined boards; shall be entered in full in the minutes of each board; and shall be published as the notice of election.

Conclusiveness of proceedings

27264. No action, suit or proceeding to set aside, cancel, avoid or annul any of the proceedings, acts or determinations made in the proceeding for said annexation or to question the validity of said annexation shall be maintained by any person unless such action shall be commenced within 90 days after the date of the election or annexation, and thereafter all persons, including the State of California, shall be barred from any such action, suit or proceeding, and after said 90 days has expired the resolution declaring the territory or district annexed shall be conclusive evidence of the regularity and validity of such annexation.

Election notice

27265. Said resolution shall be published in a newspaper of general circulation in the annexed district and in a newspaper of general circulation in the annexing district. Such publication shall be once a week in at least three consecutive calendar weeks, the first publication to be at least 21 days prior to the election. In the event there is no such newspaper printed and published in one of the districts, the notice shall be published in a newspaper of general circulation deemed by the combined boards most likely to give notice to the electors of that district. Sample ballots and polling-place cards shall be mailed to the qualified electors in each district by the secretaries of the respective districts and shall be mailed within the time fixed in the Elections Code.

Canvass of votes

27266. All returns from said election shall be filed in the office of the secretary of the annexing district, and the boards of the two districts shall meet in joint session in the office of the said annexing district and canvass the returns and the absentee vote substantially in the manner provided for in a general election in an irrigation district. If a majority of the votes cast in each district at such annexation election are in favor of such annexation, the annexation is approved. If such annexation is approved, the board shall adopt a resolution:

Annexation resolution

(a) Declaring that was the vote cast at said election;

(b) Declaring that the district or territory to be annexed is annexed to, incorporated in and made a part of the annexing district and that such annexation becomes effective for all purposes on the date fixed in the resolution or order calling the election (stating such date);

(c) Describing the boundaries of the annexing district as enlarged by such annexation.

Such resolution shall be entered in full in the minutes of each board. A copy of the resolution, certified by the secretaries of the two districts, shall be forthwith filed for record in the office of the county recorder of each county in which any part of the districts lies.

Effect of annexation

27267. If the annexation is approved at the election, it shall become effective upon the date specified in the order of the combined boards, and the territory in the annexed district shall thereupon become incorporated in and a part of the annexing district, and the annexing district on said date shall succeed to all of the rights, privileges and properties of the annexed district and shall carry out all contracts and other obligations of such annexed district with funds raised by assessments upon the lands in such annexed district or charges made in whole or in part in lieu of said assessments, and said annexed district shall be dissolved; provided, however, that all property in said annexed district shall be and remain liable to be assessed for the payment of any and all contracts or obligations of said annexed district incurred prior to the effective date of annexation and to assessment for the payment of any bonds theretofore authorized by the annexed district which are to be issued later by the annexing district for such annexed district. After such effective date any territory excluded in such annexation shall not be a part of either district, but shall be and remain liable to be assessed for all outstanding indebtedness of the annexed district, and such territory shall not be liable for any indebtedness of any kind or nature, bonded or otherwise incurred after the effective date of the annexation.

Authorized unissued bonds

27268. Any bonds of the annexed district, which were authorized prior to the annexation, but which were not issued, may, by order of the board of the annexing district, be issued by and in the name of the annexing district and may be sold or disposed of in the manner provided in this division, and the proceeds of the sale or other disposition of such bonds shall be applied to the purposes for which the bonds were authorized. Such bonds shall be signed by the officers of the annexing district and shall mature at such times and bear such rate or rates of interest as may be fixed by the board of the annexing district. Such bonds shall recite upon their face that they are payable solely from assessments levied upon lands in the annexed district in the manner provided in the Irrigation District Law, and all assessments necessary to pay principal and interest upon such bonded indebtedness shall be levied upon such lands in the annexed district and such lands shall be and remain liable to be assessed for such payments. No lands in the annexing

district as same existed prior to such annexation shall be subject to assessment for the payment of principal or interest of said bonds.

The board of the annexing district may prescribe the form of the bonds and coupons and provide for the issuance thereof, all in accordance with the authorization of the bonds at the election in the annexed district. Said bonds may be certified as legal investments by the Districts Securities Commission in substantially the same manner as other bonds of irrigation districts are certified, and the certification of such bonds by the Controller shall have the same force and effect as the certification of any other bonds under the Districts Securities Commission Law.

Urgency

SEC. 23. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There are water shortages in many parts of the State, and in order to fill their water needs, irrigation districts have found it necessary and expedient to consolidate or to annex other irrigation districts. This act amplifies and improves the present method for the consolidation of irrigation districts and it provides a method for the annexation of one irrigation district to another. Such consolidations result in better and more dependable supplies of water, and in order that these supplies of water can be assured for the coming summer and the early autumn, it is necessary that this act take effect immediately.

CHAPTER 1553

An act to add Section 36.2 to the Water Conservation Act of 1931, relative to water conservation districts.

In effect September 9, 1953

[Approved by Governor July 1, 1953. Filed with Secretary of State July 2, 1953.]

The people of the State of California do enact as follows:

SECTION 1. Section 36.2 is added to the Water Conservation Act of 1931, to read:

Sec. 36.2. In the event that the board of directors determine, by resolution, that it would be inequitable to secure all or any portion of the money necessary for any project of the district (including obligations of the district arising from contracts with local, state or federal agencies, bureaus or authorities for the furnishing of a water supply to the district, or the construction of works for the district, where the actual construction is undertaken and financed in the first instance by such agency, bureau or authority, subject to later repayment in whole or in part by the district), through the levy of assessments on land or real property in accordance with the assessed value thereof, the board shall cause to be prepared any necessary plans and specifications of the project, and estimates of the repayment obligations of the district, together with an assessment of the amount of the cost, or portion thereof as determined by the board, apportioned to the various tracts of land in the district according to the benefits that will accrue to each such tract by reason of the expenditures of the money for the project, or for the repayment obligations of a contract, payable in not to exceed 40 annual installments with interest at an annual rate not to exceed 7 percent. The board of directors constitute a board of commissioners to levy and apportion the assessment. The resolution, plans, specifications, estimate, and proposed assessment shall be filed in the district office and shall be subject to public inspection.

Apportionment of water conservation district assessment

The resolution shall also designate that portion of the cost of the project, if any, that the board determines can be secured equitably by means of an assessment on all lands in the district, or if so determined by the board, on all real property within the district, in accordance with the assessed value of the land (or real property) as it appears on the county assessment roll, payable in not to exceed 40 annual installments at an annual rate not to exceed 7 percent.

In lieu of securing such portion of the cost through a separate assessment levied on the land (or real property) the board may elect to pay such portion of the cost from funds secured for general purposes by assessments levied on all of the land within the district pursuant to the provisions of Section 28 and subject to the limitations contained therein. If the board so elects, it shall so state in the resolution and the amount of money to be so paid shall not be considered by the electors in the election provided in this section.

After the filing of the resolution, plans, specifications, estimate, and proposed assessments, the board of directors shall hold a hearing upon the matter, notice of which shall, not later than three weeks prior to the date of the hearing, be posted in three public places within the district and published in a newspaper of general circulation published within the district once a week for three weeks if published in a weekly or semiweekly newspaper or for at least 10 days if published in a daily newspaper, the first publication being at least 30 days prior to the date fixed for the hearing.

Hearing

At the hearing the board shall hear such objections to the resolution, plans, specifications, estimates, and proposed assessments and apportionment thereof as may come before it and at such hearing shall make such changes in reference thereto as it considers proper.

If (a) more than 40 percent in number of the holders of title or evidence of title to land within the boundaries of all cities within the district, or if (b) more than 40 percent in number of the holders of title or evidence of title to land within the unincorporated areas of the district, shall object, at the hearing, to the levy of the proposed assessment, the board shall take no further action on the matter.

Election

If no sufficient objections are presented to the board it shall call an election to be held in the district for the purpose of authorizing the assessment. It shall provide for the submitting of the question of levying the assessment to the qualified electors of the district at an election called for that purpose and the words to appear upon the ballot shall be: "Project assessment—Yes" and "Project assessment—No" or words of similar import, together with a general statement of the amount and purpose of the assessment to be levied. Several purposes may be submitted at the same election. None but qualified electors of the district shall be permitted to vote at the election.

Notice of the election shall be posted and published and the election shall be conducted, insofar as practicable, in accordance with the provisions of Section 36.

If a majority of the votes cast by the qualified electors in cities and a majority of the votes cast by the qualified electors residing in unincorporated areas for the proposition shall have been marked and counted "Project assessment—Yes" or appear to favor the proposition submitted, then the proposition shall be deemed to have been accepted by the voters and to authorize the levy of the assessment to the amount of and for the purpose stated in the proposition.

The project assessment, or any installment thereof, shall be and remain a lien on the lands in the same manner as, and be a part of, the annual assessment of the district.

Warrants

The district shall issue warrants for the amount of the project assessment, which warrants shall be made payable in the amount and at times corresponding substantially to the payments of the installments of the project assessments, plus any money to be paid from funds secured by assessments for general district purposes as herein provided, and which bear interest at such rate of interest as may have been fixed in the levy of the project assessment. Said warrants shall be payable only out of funds derived from the levy and collection of the project assessments and, if so stated in the resolution proposing the project, from the assessments made for general district purposes under the provisions of Section 28 of this act.

Proceeds

The proceeds arising from the sale of the warrants shall be paid into the treasury of the district and placed to the credit

of a special project fund and expended only for the purpose for which the indebtedness was created.

Such investigation shall be completed promptly, without any unnecessary delay, and with all diligence after receipt of an application with the objective that payment is made to all eligible persons within the minimum possible length of time.

If the applicant is determined to be eligible the aid shall be granted from the first day of the month in which the determination is made that he is eligible, but aid shall not begin prior to the date of application unless an earlier date is required by Section 104.1.

If the investigation is not completed within 60 days, the investigation shall continue until completed and if eligibility is established aid shall begin as of the first day of the month following the month in which the sixtieth day falls.

SEC. 2. Section 3088 of said code is amended to read:

3088. If any applicant receiving aid under the provisions of this chapter has residing within the State a spouse, parent, or adult child, pecuniarily able to support him, upon the failure of such kindred to perform their duty to support the blind person the board of supervisors may request the district attorney or other civil legal officer of the county to proceed against the kindred in the order of their responsibility for support.

Upon such request the district attorney, or other civil legal officer of the county granting aid may, on behalf of the county, maintain an action in the superior court of the county granting such aid, against such relatives, in the order named: (1) to recover for the county such portion of the aid granted as the courts find such relative or relatives pecuniarily able to pay and (2) to secure an order requiring the payment to the county of any sums which may become due in the future for which the relative may be liable. The receipt of aid by the applicant under the provisions of this chapter, however, shall not be contingent upon such recovery or such order. The sums so recovered shall be credited by the county in its settlement with the State.

The degree of liability of a responsible relative under this section shall be determined in accordance with the provisions of Section 2181 of this code.

SEC. 3. Section 3474 of said code is amended to read:

Upon such request the district attorney, or other civil legal officer of the county granting aid may, on behalf of the county, maintain an action in the superior court of the county granting such aid, against such relatives, in the order named: (1) to recover for the county such portion of the aid granted as the courts find such relative or relatives pecuniarily able to pay and (2) to secure an order requiring the payment to the county of any sums which may become due in the future for which the relative may be liable. The receipt of aid by the applicant under the provisions of this chapter, however, shall not be contingent upon such recovery or such order. The sums so recovered shall be credited by the county in its settlement with the State.

The maximum degree of liability of the responsible relative shall be determined by "Relatives' Contribution Scale." In determining ability to contribute, the financial circumstances of responsible relatives shall be given due consideration and, in unusual cases, contributions at less than the amount fixed by "Relatives' Contribution Scale" may be made as the board of supervisors may deem justifiable.

For purposes of this chapter, income of a responsible relative is defined as the sum of the income constituting the separate property of the responsible relative, the income (excluding earnings) which is community property subject to the direction and control of the responsible relative, and the earnings of the responsible relative but not of his or her spouse.

Whenever the board finds, with respect to land for which there is no existing system for the application of water for the irrigation thereof, that the character of the soil or elevation of the land to be supplied water from the district water supply is such that the application of such water thereto by flooding is likely to require the use of excess quantities of water or to create a hazardous seepage or drainage problem, the board may limit the application of such water to that land to application through overhead sprinkling systems so designed and operated to prevent the use of excess quantities of water, or the creation of a hazardous seepage or drainage problem. Regulation of water; Sprinkling systems

District rules; Ditches

A district may close a defective gate in a community water distribution system used for irrigation purposes and may refuse to deliver water through the defective gate if the landowner fails to repair the gate or outlet to the satisfaction of the district within a reasonable time after receipt of notice from the board through its authorized water superintendent, manager or ditch tender to repair the gate or outlet. Rules and regulations adopted pursuant to this section may include, with respect to land for Defective gate

[Approved by Governor July 2, 1953. Filed with Secretary of State July 3, 1953.]

In effect immediately

The people of the State of California do enact as follows:

Alteration of district boundaries

SECTION 1. Notwithstanding any provision to the contrary in the Water Conservation Act of 1931, the Municipal Water

District Act of 1911, or any other act, the board of directors of the United Water Conservation District and the board of directors of the Ventura River Municipal Water District may by joint resolution alter the original boundaries of the two districts so that no area will be within both of said districts; provided, that no territory shall be excluded from either district that was not originally within the original boundaries of the other district; and provided, that no area shall be excluded from a district which is receiving services from that district on the effective date of this act.

Joint resolution

SEC. 2. The boards of directors of such districts may by joint resolution initiate proceedings for such changes of boundaries. Such joint resolution shall declare that proceedings have been initiated by said boards of directors under the provisions of this act, shall state the reason for proposing such changes in boundaries, shall set forth and describe the new proposed boundary between such districts, shall require all persons interested in the proposed changes of boundaries to appear before a joint meeting of said boards and be heard as to why said boundaries should not be so changed, shall fix the time of the joint meetings of such boards at which persons so interested will be heard, and shall direct the secretaries of such districts to give notice thereof.

Publication

When such joint resolution has been adopted by both of said boards of directors the secretaries of both of said boards of directors shall thereupon cause the text of said resolution and a notice of the time and place of said hearing to be published once a week for at least two weeks, the last publication to be made not less than one week nor more than four weeks before the time so fixed for the hearing, in at least one, but not to exceed three, newspapers printed and published in the county in which such districts are situated. Each of such districts shall bear one-half of the costs of publication of such notice.

Hearing

SEC. 3. The boards of directors of such districts shall hold a joint meeting at the time and place fixed by said resolution and published in said notice and shall hear all persons interested in the proposed changes in boundaries who appear at the hearing, which may be adjourned from time to time.

Change of boundaries. Joint resolution

SEC. 4. If after such hearing the board of directors of each of the districts find that it is to the best interest of its district, the two boards of directors may by joint resolution change the boundaries of such districts as provided in Section 1 of this act. If such a joint resolution so changing the boundaries of such districts be adopted, as provided herein, the secretaries of each of the districts shall each certify the adoption of such joint resolution by the board of directors of the district of which he is secretary and a copy of such joint resolution, so certified, shall be filed by such secretaries with the Secretary of State and the county recorder of the county in which such districts are situated. Upon receipt of such certified copy of such resolution, the Secretary of State shall, within 10 days, issue his certificate reciting the adoption of such joint resolution by such districts and the changes in boundaries of such

districts. A copy of said certificate of the Secretary of State shall be transmitted to and filed with the county clerk of the county in which such districts are situated. From and after the date of such certificate of the Secretary of State the boundaries of such districts shall be deemed changed as provided in said joint resolution, but taxable property thereby excluded from either of such districts shall continue taxable by the district from which excluded for the purpose of paying the bonded or other indebtedness of such district outstanding or contracted for at the time of such exclusion and until such bonded or other indebtedness shall have been satisfied, to the same extent that such property would be taxable for such purpose if such exclusion had not occurred.

Urgency

SEC. 5. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

The inhabitants of the areas embraced within the boundaries of the United Water Conservation District and the Ventura River Municipal Water District are in dire need of immediately obtaining an adequate supply of water for domestic and municipal use. The overlapping boundaries of the two districts must be revised to the end that the territory within both districts will not be subject to double taxation. This act would permit such boundary revisions and enable the inhabitants of the area to secure vitally needed water; it is therefore necessary for the immediate preservation of the public peace, health and safety that this act take effect immediately.

Legislative declaration

SEC. 6. The Legislature hereby finds and declares that conditions existing in the United Water Conservation District and the Ventura River Municipal Water District are peculiar to that area and the circumstances therein are unique. The territory of the two districts overlap, and their functions are substantially the same. It has been impossible to finance the works necessary to secure the urgently needed water for either district because of the inclusion of certain lands within both districts, a situation which exists only with respect to the named districts.

SECTION 1. Chapter 9, comprising Sections 54950 to 54958, inclusive, is added to Part 1, Division 2, Title 5, of the Government Code, to read:

CHAPTER 9. MEETINGS

Legislative intent

54950. In enacting this chapter, the Legislature finds and declares that the public commissions, boards and councils and the other public agencies in this State exist to aid in the conduct of the people's business. It is the intent of the law that their actions be taken openly and that their deliberations be conducted openly.

The people of this State do not yield their sovereignty to the agencies which serve them. The people, in delegating authority, do not give their public servants the right to decide what is good for the people to know and what is not good for them to know. The people insist on remaining informed so that they may retain control over the instruments they have created.

"Local agency"

54951. As used in this chapter, "local agency" means a county, city, city and county, town, school district, municipal corporation, district, political subdivision, or any board, commission or agency thereof, or other local public agency.

"Legislative body"

54952. As used in this chapter, "legislative body" means the governing board, commission, directors or body of a local agency, or any board or commission thereof.

Meetings open

54953 All meetings of the legislative body of a local agency shall be open and public, and all persons shall be permitted to attend any meeting of the legislative body of a local agency, except as otherwise provided in this chapter.

Time and place of meetings

54954. The legislative body of a local agency shall provide, by ordinance, resolution, by-laws, or by whatever other rule is required for the conduct of business by that body, the time for holding regular meetings. Unless otherwise provided for in the act under which the local agency was formed, meetings of the legislative body need not be held within the boundaries of the territory over which the local agency exercises jurisdiction. If at any time any regular meeting falls on a holiday, such regular meeting shall be held on the next business day. If, by reason of fire, flood, earthquake or other emergency, it shall be unsafe to meet in the place designated, the meetings may be held for the duration of the emergency at such place as is designated by the presiding officer of the legislative body.

Adjourned meeting

54955. The legislative body of a local agency may adjourn any regular or adjourned meeting to a time and place specified in the order of adjournment. When so adjourned, the adjourned meeting is a regular meeting for all purposes. When an order of adjournment of a regular or adjourned meeting fails to state the hour at which the adjourned meeting is to be held, it shall be held at the hour specified by ordinance, resolution, by-laws, or whatever other rule is required for regular meetings.

Special meeting Notice

54956. A special meeting may be ordered at any time by the presiding officer of the legislative body of a local agency, or by a majority of the members of the legislative body, by delivering personally or by mail written notice to each member of the legislative body and to each local newspaper of general circulation, radio or television station requesting notice in writing.

Such notice must be delivered personally or by mail at least 24 hours before the time of such meeting as specified in the notice. The order shall specify the time and place of the special meeting and the business to be transacted. No other business shall be considered at such meetings by the legislative body.

54957. Nothing contained in this chapter shall be construed to prevent the legislative body of a local agency from holding executive sessions to consider the employment or dismissal of a public officer or employee or to hear complaints or charges brought against such officer or employee by another public officer, person or employee unless such officer or employee requests a public hearing. The legislative body also may exclude from any such public or private meeting, during the examination of a witness, any or all other witnesses in the matter being investigated by the legislative body. Executive sessions

54958. The provisions of this chapter shall apply to the legislative body of every local agency notwithstanding the conflicting provisions of any other state law. Conflicting laws
