PRAYER

The following prayer was offered by the Chaplain, Rev. Robert R Ferguson.

God Our Eternal King, In this moment fill our silence with Thy presence; our emptiness with Thy love; our inadequacies with Thine abundance. May we ever

be close enough to our work and constituents to be relevant, yet sufficiently detached to make objective decisions.

While during the course of a spring day we go through many inner storms, may we ever have a quiet center which stills the tempest and gives us the motivation to serve Thee, our God, and our fellow man. May our social imperatives never be dulled by selfish options

In Thy name we pray —AMEN

"SEC. 2. Section 540 of said code is amended to read.

540 The writ must be directed to the sheriff, or a constable, or marshal of any county in which property of such defendant may be, and must require him to attach and safely keep all the property of such defendant within his county not exempt from execution, ~~specifically excluding one-half of the earnings of such defendant received for his personal services rendered at any time within 30 days next preceding the levy of attachment,~~ or so much of the property of such defendant as may be sufficient to satisfy the plaintiff's demand against such defendant, the amount of which must be stated in conformity with the complaint, unless such defendant give him security by the undertaking of at least two sufficient sureties, which must first be approved by a judge of the court issuing the writ, or if said writ of attachment is issued to another county then by a judge of a court, having jurisdiction in cases involving the amount specified in the writ, in the county where the levy shall have been, or is about to be, made, or deposit a sum of money with the sheriff, constable, or marshal in an amount sufficient to satisfy such demand against such defendant, besides costs, or in an amount equal to the value of the property of such defendant which has been or is about to be attached, in which case to take such undertaking or sum of money in lieu of the property which has been or is about to be attached, provided, however, that whenever a levy shall be made upon personal property, other than money, belonging to a going concern, and no undertaking is given as herein provided, then the officer making the levy must, if the defendant consents, place a keeper in charge of said attached property, at plaintiff's expense, for at least two days, and said keeper's fees must be prepaid by the attaching creditor. After the expiration of said two days, the sheriff, constable, or marshal shall take said property into his immediate custody, unless other disposition is made by the court or the parties to the action.

In the event that the action is against more than one defendant, any defendant whose property has been or is about to be attached in the action may give the sheriff, constable or marshal such undertaking which must first be approved by the judge as hereinabove provided, or deposit such sum of money, and the sheriff, constable, or marshal shall take the same in lieu of such property. Such undertaking, or the deposit of such sum of money, shall not subject such defendant to, or make him answerable for, any demand against any other defendant, nor shall the sheriff, constable, or marshal thereby be prevented from attaching or be obliged to release from attachment, any property of any other defendant, provided, however, that such defendant, at the time of giving such undertaking to, or depositing such sum of money with the sheriff, constable, or marshal shall file with the sheriff, constable, or marshal a statement, duly verified by his oath, wherein such defendant shall state the character of his title to the attached property and the manner in which he acquired such title, and aver and declare that the other defendant or defendants, in the action in which said undertaking was given or such sum of money was deposited, has or have not any interest or claim of any nature whatsoever in or to said property.

Several writs may be issued upon the same affidavit and undertaking within 60 days after the filing of the affidavit and undertaking, to the sheriffs, constables, or marshals of any county or counties.

SEC. 3. Section 542 of said code is amended to read:

542. Service upon the occupant may be made by leaving said copy of the writ, description and notice with the occupant personally, or, in his absence, with any person, of suitable age and discretion, found upon the property at the time service thereof is attempted and who is either an employee or agent of such occupant or a member of his family or household. Where the property described in the notice consists of more than one distinct lot, parcel or governmental subdivision and any of such lots, parcels, or governmental subdivisions lie with relation to any of the others so as to form one or more continuous, unbroken tracts, one service or posting need be made as to each such continuous, unbroken tract.

Whenever growing crops have been attached under the provisions of this subdivision, which will greatly deteriorate in value, unless properly cultivated, cared for, harvested, packed or sold, the court issuing such writ, upon application of the person in whose favor the writ runs, and after due notice to the owner of said property, may direct the sheriff to take possession of said property and to cultivate, care for

and preserve the same and, when necessary, harvest, pack and sell such property Any sale of such property shall be made in the same manner that property is sold on execution and the proceeds must be retained by the sheriff to be applied to the satisfaction of any judgment which may be recovered in the action in which said writ is issued The court shall order said applicant to pay such expenses in advance if the court may deem it proper, or may direct that the whole or any part of such expenses be paid from the proceeds of any sale of such property

2 Real property, or any interest therein, belonging to the defendant, and held by any other person, or standing on the records of the county in the name of any other person, must be attached in the same manner as is real property standing upon the records of the county in the name of the defendant by the provisions of subdivision 1 of this section and the notice of attachment shall state that the real property therein described, and any interest of the defendant therein held by or standing on the records of the county in the name of such other person (naming him), are attached In addition, a similar copy of the writ, description and notice shall be delivered to such other person, or his agent, if known and within the county, or left at the residence of either, if within the county The recorder must index such attachment when recorded, in the names, both of the defendant and of the person by whom the property is held or in whose name it stands of record

5 In cases where the sheriff, constable, or marshal is instructed to take into possession personal property capable of manual delivery, whether the same is to be placed in a warehouse or in custody of a keeper, the sheriff, constable or marshal shall require, as a prerequisite to the taking of such property, that in addition to written instructions the plaintiff or his attorney of record deposit with the sheriff constable or marshal, a sum of money sufficient to pay the expenses of taking and keeping safely said property for a period not to exceed 15 days In the event that a further detention of said property is required, the sheriff, constable or marshal must, from time to time, make written demand upon the plaintiff or his attorney for further deposits to cover estimated expenses for periods not to exceed five days each Such demand must be served as provided in Section 1011 of this code, or by depositing such notice in the post office in a sealed envelope, as first-class registered mail, postage prepaid, addressed to the person on whom it is served at his last known office or place of residence In the event that the money so demanded is not paid, the

The sheriff, constable, or marshal shall endorse such check, draft, money order or other order for the withdrawal of money by writing the name of the defendant or judgment debtor thereon and the name and official title of the officer making the levy with the statement that such endorsement is made pursuant to levy of writ of attachment or execution and giving the title of court and cause in which such writ was issued, and such endorsement shall be sufficient endorsement and no banking corporation or association on which said check, draft, money order or other order for the withdrawal of money is drawn shall incur any liability to any person, firm or corporation by reason of paying to such officer such check, draft, money order or other order for withdrawal of money by reason of such endorsement, nor shall the officer making the levy incur any liability by reason of his endorsing and presenting for and obtaining payment of such check, draft, money order or other order for the payment of money; provided, however, that the funds or credit resulting from the payment of such check, draft, money order or other order for withdrawal of money shall be held by said officer subject to the levy of said writ of attachment or execution. If it appear from the face of such check, draft, money order or other order for the withdrawal of money that the same has been tendered to the defendant or judgment debtor in satisfaction of a claim or demand and that endorsement thereof shall be considered a release and satisfaction by defendant or judgment debtor of such claim or demand, then, in such event, the officer making the levy **shall not endorse said check, draft, money** order or other order for the withdrawal of money unless the defendant or judgment debtor shall first endorse the same to the officer making the levy; provided, however, that if said defendant shall not endorse said check, draft, money order or other order for withdrawal of money to the officer making the levy, said officer may thereafter hold such check, draft, money order or other order for the withdrawal of money subject to such levy and shall incur no liability to the defendant or judgment debtor or to any other person, firm or corporation for delay in presentment of the same for payment.

COMMUNICATION FROM CHIEF CLERK

The following communication from the Chief Clerk was received, and read.

May 29, 1963

Hon. Jesse M. Unruh
Speaker of the Assembly

DEAR MR. SPEAKER: The numerical arrangement in Amendment No. 1, on Legislative Counsel requisitions dated May 24, 1963, Amendment No. 2, dated May 26, 1963, and Amendment No. 1, as approved by the Legislative Counsel, dated May 28, 1963, to Assembly Bill No. 2006, were uncertain as to how the numerals should be arranged. Consultation with the authors of these amendments resolved the ambiguity in having the numerals appear in numerical sequence.

Amendment No. 4, dated May 26, strikes out the figures "13008" in line 14 of the title of the bill. These figures do not appear in line 14 but are in line 15. We have made this correction. In Amendment No. 3, dated May 26, a comma was inserted after "16305.3", so that two numerals would not appear in succession without a comma separating them.

In Amendment No. 19, dated May 26, 1963, the comma after "17206", has been deleted, otherwise two commas would appear in succession. In Amendment No. 26, dated May 26, the comma after "16305.3" has been deleted, otherwise two commas would appear in succession.

In Amendment No. 31 of May 26, the comma after "28452" has been deleted, otherwise a comma would precede the period.

With your permission, these corrections have all been made to Assembly Bill No. 2006.

ARTHUR A. OHNIMUS, Chief Clerk.

Approval of Corrections

By unanimous consent, the preceding corrections by the Chief Clerk to the amendments to Assembly Bill No. 2006 were approved by the House.

Explanation of Votes

May 29, 1963

With reference to Assembly Bill No. 14, my vote today was out of respect for the committee system, not against Assembly Bill No. 14 on

its merits. I favor a full hearing on Assembly Bill No 14, for the problem of pornography is a grave one in our State today. I can unalterably support Assembly Bill No 3, and do so, and might support Assembly Bill No 14 after a hearing on its merits

4453 In computing average annual earnings for the purposes of temporary disability indemnity only, the average weekly earnings shall be taken at not less than thirty-eight dollars and forty-six cents ($38 46) nor more than ~~one hundred seven dollars and sixty-nine cents ($107 69)~~ *two hundred thirty dollars and seventy-six and two-tenths cents ($230 762)* In computing average annual earnings for purposes of permanent disability indemnity, the average weekly earnings shall be taken at not less than thirty dollars and seventy-seven cents ($30 77) nor more than eighty dollars and seventy-seven cents ($80 77) Between these limits the average weekly earnings, except as provided in Sections 4456 to 4459, shall be arrived at as follows

(a) Where the employment is for 30 or more hours a week and for five or more working days a week, the average weekly earnings shall be 95 percent of the number of working days a week times the daily earnings at the time of the injury.

(b) Where the employee is working for two or more employers at or about the time of the injury, the average weekly earnings shall be taken as 95 percent of the aggregate of such earnings from all employments computed in terms of one week; but the earnings from employments other than the employment in which the injury occurred shall not be taken at a higher rate than the hourly rate paid at the time of the injury

(c) If the earnings are at an irregular rate, such as piecework, or on a commission basis, or are specified to be by the week, month or other period, then the average weekly earnings mentioned in subdivision (a) above shall be taken as 95 percent of the actual weekly earnings averaged for such period of time, not exceeding one year, as may conveniently be taken to determine an average weekly rate of pay.

(b) The maximum amount of unemployment compensation benefits payable to an individual during any one benefit year shall be 26 times his weekly benefit amount but in no case shall the total amount of such benefits payable be more than one-half the total wages paid to the individual during his base period. If the benefit is not a multiple of one dollar ($1) it shall be computed to the next higher multiple of one dollar ($1)

(c) For the purpose of this section and Section 1280, "Wages" includes wages due to any individual but unpaid within the time limit provided by law

SEC 5 The Legislature hereby finds and declares as follows The Unemployment Insurance Program enacted by the Legislature in 1935 is a major social insurance program of substantial importance to the public employees and employers The program, since 1946, financed solely by employer contributions, has far-reaching and beneficial impact on the economy of the State and has helped reduce involuntary unemployment and the suffering caused thereby to a minimum The Contingent Fund includes penalties and interest collected in connection with unemployment insurance contributions and was set aside and established by the Legislature to be used for unemployment insurance purposes. The transfer by the Legislature of nine million nine hundred twelve thousand dollars ($9,912,000) from the Contingent Fund to the General Fund resulted in a withdrawal of money which could otherwise be used for unemployment insurance purposes and should now be paid to the Unemployment Fund so that it may be used for the payment of unemployment insurance benefits Such sum should be paid to the Unemployment Fund promptly, and no less than one million six hundred thousand dollars ($1,600,000) shall be transferred in each succeeding fiscal year until the entire amount has been paid.

SEC 6 Notwithstanding any provision of this State's Unemployment Insurance Code, the Director of the Department of Employment is hereby authorized and directed to requisition from this State's account in the Unemployment Trust Fund and to pay to the Treasury of the United States prior to November 10, 1964, an amount equal to the payments of temporary unemployment compensation paid in this State under the Temporary Unemployment Compensation Act of 1958 (except amounts paid to individuals who exhausted their unemployment compensation under Title XV of the Social Security Act and Title IV of the Veterans Readjustment Assistance Act of 1952 prior to making their first claims under the Temporary Unemployment Compensation Act of 1958) less the amount restored to the Treasury prior to November 10, 1964, pursuant to the provisions of Section 104(a) of the Temporary Unemployment Compensation Act of 1958 and the amount paid pursuant to Section 3 hereof

SEC 7 Section 1 of this act shall take effect only if prior to November 10, 1964, the Legislature shall enact an act or acts (1) appropriating prior to such date three million fifty-five thousand seven hundred ninety-one dollars ($3,055,791) from the Contingent Fund to pay to the Treasury of the United States part of the amount owing in connection with the Temporary Unemployment Compensation Act of 1958 and (11) transferring prior to such date one million six hundred thousand dollars ($1,600,000) or more from the General Fund to the Unemployment Fund

SEC 8 Section 1 of this act shall not take effect if the federal government should enact legislation prior to November 10, 1964, which would remove the obligation of this State to make repayment of any of the amount otherwise payable to the Treasury of the United States under the Temporary Unemployment Compensation Act of 1958

SEC 9 The amendment of Sections 1280 and 1281 of the Unemployment Insurance Code by this act shall apply to new claims filed with an effective date beginning on or after the effective date of this act The provisions of said Sections 1280 and 1281 as in effect prior to the amendment and the repeal made by this act shall remain applicable to new claims filed with an effective date beginning prior to the effective date of this act

PRAYER

The following prayer was offered by the Chaplain, Rev Robert R. Ferguson:

Eternal and Ever Present God, In this season of Pentecost, we pray for an infilling of our little lives with Thy grace.

Long ago a group of perplexed men, lacking motivation, were assembled in a room Suddenly these lives were filled with Thy Holy Spirit and they became known as those who turned the world right side up As they were given new insight, love for their fellow man, deeper compassion for the needs of others, and the confidence that they could do something to make this a better world, so may this group of Thy servants receive this same experience this morning Our opportunities for helping our fellow man are limited by our humanity.

May something of Thy divinity merge with our endeavors In Thy name we pray —AMEN

Amendment No. 6

On page 1, after line 8, insert

"The Senior Citizens Village of Antelope Valley was located in the particular area because of the economic advantage in obtaining land for the development. The housing is designed to create quality low-rent housing for the low-income group of the elderly, such as those who receive their income through public assistance, social security, or World War I pensions. Residence in the village is limited to those persons who are 62 years of age or over. All utility costs are included in the rent payable by these persons. If the village is compelled to remain in the Quartz Hill County Water District, the costs of water will be greatly increased, thus imposing an undue hardship on the persons residing therein.

The 557-unit project of the Senior Citizens Village of Antelope Valley is by far the largest development in the Antelope Valley. Because of the size of this project, it is doubtful that the Quartz Hill County Water District can continuously and efficiently supply the village with an adequate supply of water over the forthcoming years. Moreover, the development of the village is a pilot venture, and its success constitutes a matter of statewide concern. Because of the unique problems presented by this project, and the facts and circumstances relative thereto, the adoption of a special act is required."

Consideration of Committee Amendments

The following amendment, proposed by the Committee on Elections and Reapportionment, was read, and adopted:

Amendment No. 1

On page 1 of the printed bill, strike out lines 7 to 11, inclusive, and insert

"8600. The Legislature hereby finds the following to be true

(1) The major political parties have become an integral part of the American governmental system requiring regulation as to their structure, governing bodies, and functions by state government in the public interest

(2) The Legislature has found it necessary and appropriate in the regulation of political parties to create and provide for the convening of state conventions, state central committees, and county central committees for parties qualified by law to participate in the direct primary election, by statute

(3) The electorate is entitled to protection by appropriate legislation from deception, whether intentional or unintentional, by organizations using names similar or synonymous to the names of the governing bodies created and regulated by this code for political parties

(4) In the context of political organizations the names "committee" and "council" are virtually synonymous of meaning to an extent that the electorate would tend to confuse the words in identifying party governing bodies

(5) Over the several years preceding the adoption of this section organizations of electors using as a part of their names the name of a political party qualified to participate in the direct primary election have endorsed candidates for nomination of that party for partisan office in the direct primary election and have publicized and promulgated such endorsements in a manner which has resulted in considerable public doubt and confusion as to whether such endorsements are those of a private group of citizens or of an official governing body of a political party, which confusion is injurious and contrary to the public interest.

(6) The voting public is entitled to protection by law from deception in political campaigns in the same manner and for the same reasons that it is entitled to protection from deception by advertisers of commercial products.

8601. The state convention, state central committee, and the county central committee in each county are the official governing bodies of a party qualified to participate in the direct primary election The state convention, state central committee, and the county central committee in each county, and the officers, employees, and agents of such convention or committees acting on their behalf shall not contribute money or aid or assist in the solicitation and contribution of money to aid or assist, and shall not endorse, support, or oppose, any candidate for nomination by that party for partisan office in the direct primary election No candidate for such nomination shall claim, nor shall any other person claim on his behalf, that he is the official candidate or the officially endorsed candidate of that party, or that he has received any contribution of money from an official governing body of his party when such is not the case

8602 It shall be contrary to the public policy of the State of California for any organization of citizens using as a part of its name the name of a qualified political party or derivative thereof to endorse any candidate for nomination by that party for partisan office in the direct primary election

8603 Every advertisement, bill, placard, pamphlet or other printed or duplicated matter having reference to any candidate for nomination for partisan office in the direct primary election, for which consideration of any kind will be paid to any person for the preparation, printing, publishing, posting, or distribution thereof, by any candidate, person, or committee, which contains a statement or words to the effect that the candidate has been endorsed or is being supported by a political party, political party organization, or organization using as a part of its name the name of a political party or derivative thereof, shall bear on each surface, page, or fold thereof on which such statement or words appear, in type or lettering at least as large as the type or lettering of such statement or words or in 12-point roman type, whichever is larger, in a printed or drawn box and set apart from any other printed matter, the following statement

NOTICE TO VOTERS
(Required by law)

The endorsement claimed hereon is by an unofficial private organization Official organizations of the (name) Party are prohibited by law from endorsing candidates in primary elections.

8604 In addition to any other penalty, no payment shall be made or allowed to any person in consideration for his having prepared, printed, published, or circulated, or assisted in the preparation, printing, publishing, or circulating of any advertisement, bill, placard, poster, or other printed or duplicated matter in violation of Section 8603. Any person who pays or receives a payment in violation of this section is guilty of a misdemeanor."

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Thomas was granted unanimous consent that the following opinion of the Legislative Counsel be ordered printed in the Journal:

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, May 31, 1963

Hon Vincent Thomas
Assembly Chamber

Voting—No. 19790

DEAR MR. THOMAS· You ask whether voting is a privilege or a right.

The California Supreme Court, in the early case of *Van Valkenburg* v. *Brown,* 43 Cal 43, indicated that the right of suffrage is not a natural, absolute, or fixed right of which a person or citizen cannot be deprived except by due process of law, but is purely a conventional

political right which may be enlarged or restricted, granted or withheld, at pleasure in the absence of constitutional restrictions, and which does not exist except as given by the Constitution and laws

The court, in this connection, drew a distinction between political and civil rights It pointed out that the latter constitutes the citizen, while the former are not necessary ingredients. A state may deny all her political rights to an individual, and yet he may be a citizen The rights of office and suffrage are political purely, and may be denied to some portion of the State's population, so long as there is no violation of federal constitutional provisions prohibiting the denial of the right to vote to any person on account of race, color or previous condition of servitude, or because of sex (p 51).

It follows, therefore, that the right to vote is more in the nature of a privilege granted by the State, than a right which is inherent in citizenship.

Very truly yours,

A. C. MORRISON
Legislative Counsel

Deputy Legislative Counsel

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Ryan was granted unanimous consent that the following article be ordered printed in the Journal:

HOW SHALL CALIFORNIA'S ELEMENTARY SCHOOL TEXTBOOKS BE SELECTED AND PROCURED?

By William G. Richmond

In the late 1800's schools were beset with high pressure book salesmen who caused the expenditure of public funds for useless, unneeded

and unsatisfactory texts As a result, many states felt that it was essential that a single, good text should be adopted by the state in order to insure that there be quality texts in all schools In California this action took place in 1884 with the adoption of a constitutional amendment. This same amendment also created the office of State Printer; off and on since then the State Printer has printed the texts that were adopted Across the country 25 states took up state adoption of textbooks, two took up state printing of texts.

Since these early days, the scene has changed in many respects First, the hard sell has essentially disappeared from the textbook scene Second, bookmen as a group have developed ethical standards in regard to the sale of textbooks Third, the training of those who select and use texts at the local level has moved to that of professional competence. However, while these changes were taking place, state adoption and printing of texts was becoming an institution

Textbook Adoption

In regard to the process of textbook adoption, there are three descriptive terms that are used [1] *Open adoption* means that schools are free to make their own choices *Multiple adoption* means that schools may use one or more of several texts that are listed for any particular grade and subject *Single adoption* means that all schools must use the single text that is selected by the State In California a single adoption system is used for elementary schools and an open system for high schools and junior colleges The states that adopt texts and their method of adoption are as follows: [2]

State	*Single*	*Method*	*State*	*Single*	*Multiple*
Ala *		x	Miss *		x
Ariz *		x	Nev		x
Ark *		x	N M *		x
Calif	x		N C	x	
Del		x	Okla *		x
Fla *		x	Ore *		x
Ga *		x	S C *		x
Ida.*		x	Tenn *		x
Ind.*		x	Tex *		x
Kan		x	Utah		x
La *		x	Va *		x
			W Va		x

* States that changed from single to multiple adoption between 1936 and 1963 In addition, Montana changed from state to open adoption.

It is obvious that the trend is from single to multiple adoption In one sense California is a multiple adoption state; local districts are free to adopt additional texts and purchase them Many districts have done

this in the past in order to replace state texts that they judged inferior This practice, of course, gives an advantage to richer districts

The arguments that are generally advanced for and against single adoption are as follows: [3]

For

1 It provides a uniform course of study
2 Cost is lower because of volume
3 It meets the needs of a mobile population
4 There is less chance of graft
5 State commissions are better qualified to make expert selection

Against

1 No state is a homogeneous unit
2 State domination stifles local initiative
3 Long adoption periods work against currency
4 Ill-advised actions have statewide repercussions
5 It tends toward mediocrity.
6 It tends to limit curriculum development and breed inflexibility.
7 There is no one "best" book anyway

In California adoption is made by the State Board of Education usually following the recommendations of the State Curriculum Commission. The commission in turn receives the advice of several thousand local teachers and administrators as an aid in reaching its conclusions.

Procurement

In general there are two ways used in securing adopted textbooks—state printing and private printing In all states but two, California and Kansas, all texts are purchased from private sources Kansas produces a limited amount of regional material In California, however, the bulk of elementary school texts are state printed Only in recent years has there been any significant deviation from this practice

Beginning in 1903 the practice of leasing plates from private publishers came into being [4] This is a practice whereby the State leases the original plates from the publisher and then does the printing itself in its own plant There might not be any problem with this procedure except that several major publishers of textbooks will not sell or lease their plates Thus if one of the books of one of these publishers is rated "best," it may not become available for statewide use The following table shows a list of major publishers who will not lease plates along with their rank of number of appearances in the 1956 adoption lists of all states that adopt texts. [5]

Publisher	*Rank Order of Appearance on all 1956 Adoption Lists*
Allyn & Bacon	12
American Book	4
Ginn & Co	3
Houghton Mifflin	10
Macmillan	5
Rand McNally	18
Scott Foresman	2

[3] Burnett, *Ibid*, pp. 49-50.
[4] University of California, *Op. Cit.*, pp. 4, 5.
[5] *Ibid.*, p. 10.

It should be noted that four of the top five were essentially unavailable to California schools As an outcome of a general concern that came to the surface in 1957, it was decided that texts could be procured from private publishers if the cost did not exceed by more than 10 percent that which the State Printer *said* he could print the same book for This allowed a major adoption of Ginn and Allyn & Bacon readers in 1959 and certain other titles since

One of the main areas of controversy in regard to state printing has had to do with what the costs of state printing really are. Burnett said,[6]

> Careful studies of the indirect or hidden cost factors involved in state printing have led many to conclude that no appreciable savings result That position is possibly an extreme one, but it has never been refuted by any thorough research

A study by the State Department of Finance, the department within which the State Printer functions, indicated that savings of up to one-third could be realized by state printing of basic texts[7] However the data given reveals no mention of cost of depreciation of either buildings or equipment although the cost of borrowing money is mentioned. Neither is there any mention of the cost of distribution. The publishers, of course, as complete marketing organizations, must maintain distributive systems as part of the cost of doing business. In addition they must maintain research and development staffs in order to develop quality materials, indeed those that develop the best materials will undoubtedly have the highest costs in this area A more proper comparison might be one of comparing costs of books as delivered to school districts

It is argued that with private printing, much of the printing would be done out-of-state On the other hand, the State Printer, with the largest printing plant west of the Mississippi, is spending the money on California salaries and for California and western products. It could be argued though that if private enterprise could print textbooks for use in California, an average of 9 17 million were distributed each year 1956-63,[8] it would become economically feasible to establish larger printing plants in the West If this happened, of course, considerable property would be added to the tax rolls providing additional income to local governments

Another argument for state printing is that printing state texts makes use of equipment that is idle between sessions of the Legislature. The State Printer, however, prints many items other than texts between sessions—the publications of all other departments of state government It may well be that this volume is sufficient to keep equipment needed during legislative sessions busy year round It seems doubtful that many of the kinds of equipment required for quality textbook printing are usable for legislative printing If this is true, the implications in regard to the wise use of capital investment are considerable

[7] University of California, *Op. Cit.*, p. 25
[8] Data supplied by California State Department of Education.

Proposed Criteria

How can we devise an adequate plan for economically getting the best texts for local needs and purposes into the State's elementary schools? A set of criteria for an effective system for California could be as follows:

1. *Use that system, all things considered, that is the most economical.* This would require an *independent* audit and study of state selection, printing, storing, ordering and distribution. The *real cost* of a book delivered to a school by various means should be established. All costs should be considered including the cost educationally of an excessively long lead time between copyright date and actual date of introduction into the State's classrooms.

2. *Give recognition to the fact that most school systems are presently equipped to evaluate texts without extra cost.* Teachers and administrators in today's schools are trained and certificated to make proper evaluation of textbooks for local use. Local evaluation is as simple as calling together a group of teachers and administrators to set criteria and to evaluate specific books. Indeed these same persons are asked to do this currently by the Curriculum Commission. In addition it should be noted that with local selection, the cost of examination copies would be at publisher's expense; currently the State is paying for many thousands of copies of texts being evaluated by the commission. The day of the one-room school with a teacher with only a high school education is gone. Today the local professional knows as much about textbook selection as the "expert" in Sacramento.

3. *Recognize that there is no "best" book for all California schools.* In two districts with average IQ's of 90 and 115, students entering the fifth grade would be expected to have reading abilities of 4.5 and 5.75 respectively, a difference of 1.25 years, those entering the eighth grade would be expected to vary by two years. Besides this variation in ability in mechanics of reading, there are cultural and other educational differences of significance. Is the same book "best" for all districts or even for all schools within a district? Obviously not. If there is no "best" book, selection on a statewide basis will naturally turn toward the average—too hard for some, too easy for others.

4. *Recognize that in an era of the explosion of knowledge, procedures must be devised whereby new material gets to the classroom promptly.* Can a monolithic statewide structure be expected to meet the needs of the times? When new knowledge is developed, must schools wait out an adoption period in order to secure materials? Must they wait out the added lead time of one year required by the State Printer?[9]

5. *Recognize that if schools were free to choose their own materials, smaller, local concerns would be encouraged to develop and find a market for quality materials.* Local concerns meet local needs and pay local taxes.

[9] F. M. Wright, "California Elementary School Textbook Production and Distribution, 1948-49," *California Schools*, XXX (December 1948), p. 369.

Proposed Action

1. Make California's elementary school adoption system an open one. This would allow local selection for local needs recognizing local educators and citizens as competent to select It would eliminate the need for costly, futile statewide searches for the "best" book for all.

2. Require publishers of textbooks to post with the State Department of Education guaranteed, net prices that are as low as those offered to anyone else in the United States Require schools to purchase only those titles for which such prices had been established

3 Add the funds now used in selection, adoption, printing, warehousing and distribution of state texts to the moneys supplied for basic state aid Calculate what percent this amount is of the new total of money available Require schools thenceforth each year to spend this percentage of their basic state aid for textbooks There seems to be little doubt that an independent, impartial investigation of state text *real costs* will reveal little, if any, significant economic advantage for state selection, production and distribution of textbooks

It is time that California overhauled its expensive, cumbersome system of securing textbooks for elementary schools Must we continue a system just because it is? Or should we devise a system keyed to the needs of our age?

Amendment No. 1

In line 1 of the title of the printed bill, as amended in the Assembly on April 5, 1963, strike out "add Section 790 6 to", and insert "amend Section 820 of, and add Sections 820 1 and 828 81 to,'

Amendment No. 2

On page 1, strike out lines 1 to 15, inclusive, and insert

"SECTION 1. Section 820 of the Agricultural Code is amended to read

820. Tomatoes shall be mature but not overripe, shall be free from pinworm damage which has penetrated beyond the tissue making up the base of the core of the tomato, other insect injury which has penetrated or damaged the flesh, and from mold, decay, and wet or soft rots, and from serious damage due to freezing, blossom end rot, mosaic, alkali spot, sun scald, bruises, cat faces, growth cracks, or other causes. Damage to any one tomato is not serious unless it causes a waste of 10 percent, by weight, of the individual tomato

Not more than 10 percent, by weight, of the tomatoes in any one container or bulk lot may be below these requirements, but not to exceed one-half of this tolerance shall be allowed for any one cause

Packed tomatoes shall not vary in size in any one container, more than one-half of an inch in diameter when measured through the widest portion of cross-section

When tomatoes are packed in containers which have straight sides, each layer shall consist of the same number of tomatoes except that (1) when the tomatoes in the bottom layer or layers as the case may be, are placed on edge and the tomatoes in the top layer are placed flat, the top layer may consist of one row less in width than the bottom layer or layers and (2) when packed in standard container No 27 with wide cleats on each end extending one-half inch or more over the inside edge of the end piece, and such cleats interfere with the packing of the top layer, the top layer may consist of one row less in length than the bottom layer or layers However in no case may the count of the bottom layer or layers be less than the top layer

Tomatoes which are packed by the double-wrap method need not conform with the requirements of this section as to the arrangement of the individual tomatoes in the container or the count of tomatoes in layers or in the containers providing

(a) The tomatoes are fairly tightly packed and do not vary in size in any one container or layer, more than three-eighths of an inch in diameter when measured through the widest portion of cross-section, and

(b) Each container is marked in plain sight and in plain letters on the outside end of the container bearing other markings required by this section with the numerical description of the pack in the top layer followed by the term "double-wrapped" or "double-wrap," all in figures and letters at least three-eighths of an inch in height

The "double-wrap" method of packing means that with respect to all of the tomatoes in a container except in the top layer, two tomatoes shall be placed in each individual wrapper

Tomatoes which are packed in containers having straight sides with the bottom layers packed by the "off set" or diagonal arrangement methods need not conform with the requirements of this section relating to the count of tomatoes in the various layers; however, there shall be approximately the same numerical count in each layer.

In the case of wrapped and packed tomatoes a "bridge" of a number of tomatoes consisting of less than a complete layer packed between any two layers in any container shall be permitted providing the container is marked as hereinafter provided

All containers of tomatoes shall bear upon them in plain sight and in plain letters on one outside end, *side or top* : the name of the person who authorized the packing of the tomatoes together with a sufficiently explicit address to permit ready location of such person, *and on one outside end*, when wrapped and packed, numerical description of the pack in the top layer. If a bridge pack is used the designation "bridge pack" shall be imprinted in plain letters one inch in height and in plain sight on the lid of the container.

The designation "bridge pack" shall not be required to be marked on containers of tomatoes packed by the double-wrap method

SEC 2. Section 820 1 is added to said code, to read.

820 1. All tomatoes shall be in standard containers numbers 22C, 53, 54, 55, 56, or 57, except tomatoes which are green and wrapped, or vine-ripened tomatoes may be in other size containers.

SEC 3. Section 828 81 is added to said code, to read:

828 81.	Tomato Lug 53	11¼	x 11⅛ x	18¾
	Tomato Lug 54	10⅝	x 10⅝ x	17⅞
	Tomato Lug 55	10 to 11	x 11⅛ x	18¾
	Tomato Lug 56	9½ to 10	x 11⅛ x 18 to	18¾
	Tomato Lug 57	10¼ to 11¼	x 10⅛ x	16⅝".

PROGRESS REPORT OF SPECIAL ASSEMBLY COMMITTEE ON LEGISLATIVE REPRESENTATION

LETTER OF TRANSMITTAL

ASSEMBLY, CALIFORNIA LEGISLATURE
June 3, 1963

Hon. Jesse M. Unruh
Speaker of the Assembly
State Capitol, Sacramento

DEAR MR. UNRUH: The Assembly Legislative Representation Committee has met and is herewith submitting a Progress Report for consideration of the Members of the Assembly.

There are two lists submitted for the approval of the members The list dated May 3d was approved at the May 31st meeting of the committee. The second list was received on the same day as the committee meeting so for the sake of expediency the new registrations were approved after being read Because of the time element it was impossible to list all names and associations alphabetically and two lists had to be prepared

If there are no questions concerning any of the advocates listed within five days after the printing of this list, the advocates' cards will be issued to those named.

The committee requests that this Progress Report be appropriately inserted in the Assembly Daily Journal.

Respectfully submitted,

CARL A BRITSCHGI, Chairman
Legislative Representation

Relating to a study of agricultural exports

WHEREAS, Agriculture is California's number one industry, and

Resolved by the Assembly of the State of California, That the Assembly Rules Committee is directed to assign to an appropriate interim committee for study the subject of California's agricultural exports and the methods by which the State of California can protect and encourage such exports and to direct such interim committee to report its findings thereon, together with its suggestions for proposed legislation, to the Assembly not later than the fifth legislative day of the 1965 Regular Session of the Legislature

House Resolution No. 410

Relating to a study of agricultural zoning

WHEREAS, It is imperative that the prime agricultural lands of this State be protected from unnecessary and premature urbanization, and that urban and industrial

development be encouraged on nonessential agricultural land or nonagricultural land; and

WHEREAS, The premature devastation of prime agricultural land by haphazard and noncontiguous urbanization has caused the unnecessary loss to the California economy of numerous agricultural jobs and products, and

WHEREAS, Many California counties have adopted some form of exclusive agricultural zoning where prime agricultural lands exist and where urbanization is either unfeasible or not in the public interest; and

WHEREAS, Taxation based upon the principle of agricultural use in exclusively zoned areas might encourage the continuation of agricultural production on prime agricultural lands as well as the orderly urbanization of nonessential agricultural lands and nonagricultural lands; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Rules Committee is directed to assign to an appropriate interim committee for study the subject of agricultural zoning as it relates to the preservation of the agricultural segment of the economy of the State of California and to direct such interim committee to report its findings thereon, together with its suggestions for proposed legislation, to the Assembly not later than the fifth legislative day of the 1965 Regular Session of the Legislature

House Resolution No. 411

Relating to a study of agricultural products

WHEREAS, A great number of the laws of the State of California pertaining to agriculture have a direct or indirect effect upon the relationship between the producers and the handlers and processors of California's agricultural products, and

WHEREAS, The relationships between producers and handlers and processors differ not only from commodity to commodity, but often change rapidly within a commodity, for cultural, technological, and economic reasons, and

WHEREAS, It is desirable that the Legislature of the State of California, from time to time, conduct a review of the provisions of state law affecting these relationships, for the purpose of determining whether existing laws satisfy the requirements of proper legislative policy in these areas, and whether changed circumstances necessitate new laws to carry out the original intentions of the Legislature; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Rules Committee is directed to assign to the appropriate interim committee the review of present laws which affect the relationship between the producers and the handlers and processors of agricultural products to determine their adequacy and the proper relationship between the producers and the handlers and processors of agricultural products, and to direct such interim committee to report its findings thereon, together with its suggestions for proposed legislation, to the Assembly not later than the fifth legislative day of the 1965 Regular Session of the Legislature

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

WHEREAS, The Chinese people seeing the climax of their valiant efforts toward self determination and a measure of material improvement in the great triumph won at Hupeh on that fateful October 10th in 1911, have made this their National Day, and

Eternal God Our Father, This morning we pray for a keen sense of responsibility without an accompanying halo or spiritual pride May our citizens not always wait for Washington or Sacramento to act but realize our government is effective in proportion to individual moral and intellectual integrity plus spiritual vitality Thou hast taught us that laws may be helpful but they can never make men good, and as we tend morally to decay we produce more laws

May our citizenry not put blame on our capitols but realize national health is only personal integrity written with a large pen May we be moral without being offensive

In the name of Christ, our Lord—AMEN.

Report of Study of Possible Duplication Between Investigations by Federal Agencies and State Department of Social Welfare in Intercountry Adoptions

DEPARTMENT OF SOCIAL WELFARE
SACRAMENTO, May 31, 1963

Hon Jesse M Unruh
Speaker of the Assembly
California Legislature
State Capitol, Sacramento

DEAR SPEAKER UNRUH Attached is a copy of a report concerning possible duplication of investigative procedures of this department and federal agencies in relation to the adoption of foreign born orphans This report is the result of an inquiry concerning such procedures required by Assembly Concurrent Resolution No 33

In summary the findings of this report are that, although there are two separate investigations conducted they are for different purposes, primarily complement each other and are without significant overlap Investigations conducted by this department and federal agencies, principally the Immigration and Naturalization Service, are conducted for different purposes and in accordance with different laws and regulations It was found that there is a free exchange of information between the two agencies, and that each makes effective use of information gathered by the other in the course of their respective investigations or studies

I concur in the findings of this report and plan no further action in this regard

Sincerely yours,

J. M WEDEMEYER, Director

Above transmitted report referred by the Speaker pro Tempore to the Committee on Judiciary.

MESSAGES FROM THE GOVERNOR

The following veto message from the Governor was received, and read:

Veto Message Concerning Assembly Bill No. 1474

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 3, 1963

To the Honorable Members of the Assembly
State of California
Sacramento, California

GREETINGS: I am returning herewith, without my signature,

Assembly Bill No. 1474 entitled "An act to amend Section 13119 of the Education Code, relating to school district personnel"

Education Code Sections 13118 and 13119 provide that the standards for provisional teaching certificates shall be prescribed by the State Board of Education. Detailed regulations governing provisional credentials have been promulgated pursuant to these statutes. 5 Calif Adm. Code Section 600-670 Section 13119, as amended by Assembly Bill No. 1474, would require the state board to renew such provisional credentials upon the holder's completion of 12 units of academic subject matter courses, taken for credit for a master's degree, without meeting the requirements specified in the Administrative Code. In addition, Assembly Bill No 1474 requires that the state board renew the provisional teaching credentials of any holder of a master's degree granted by a recognized college or university, without meeting the said Administrative Code requirements.

This latter provision would require the State Board of Education to grant successive renewals of these provisional certificates to holders of master's degrees without such holder ever qualifying for the full credential. Such renewals are granted for two-year periods 5 Calif. Adm Code Section 606 and 613(a). A master's degree per se does not necessarily qualify the holder to be a teacher. The Legislature has wisely placed the discretion to determine the standards for provisional teaching certificates in the State Board of Education, and this measure would unwisely restrict that discretion. Further, I am of the opinion that the wide exemption granted by this measure would dilute the high teacher credentialing standards established by the Licensing of Certificated Personnel Law of 1961, Stats. 1961, Ch. 848, by creating a permanent class of "provisional" teachers.

Assemblyman Garrigus concurs in my returning the bill to you without my signature.

Sincerely,

EDMUND G. BROWN, Governor

Acknowledgment of Receipt of Bill

I acknowledge receipt this 3d day of June, 1963 at 4 55 o'clock p m , Assembly Bill No 1474 without the Governor's signature, together with a statement of his objections thereto signed by the Governor, delivered to me personally by Caroline J. Dunning, Secretary to the Legislative Secretary to the Governor

INTRODUCTION, FIRST READING, AND REFERENCE OF ASSEMBLY BILLS

The following resolution was offered

Assembly Concurrent Resolution No. 95: By Assemblymen Allen and Lanterman—Relative to the Joint Legislative Retirement Committee

Referred by the Speaker pro Tempore to Committee on Rules.

RESOLUTIONS

The following resolutions were offered.

By Assemblyman Dannemeyer.

House Resolution No. 424

Relative to an interim study of the cancellation practices of insurers

Resolved by the Assembly of the State of California, That the Assembly Rules Committee is directed to assign to an appropriate interim committee for investigation and study the subject of the practices of insurers in the cancellation of automobile insurance policies, and to direct such interim committee to report its findings and recommendations for legislation to the Assembly no later than the fifth legislative day of the 1965 Regular Session of the Legislature

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

By Assemblyman Greene:

House Resolution No. 425

Relative to an interim study of vehicle parking facilities

WHEREAS, The State of California has never had a standardized, co-ordinated plan for provision of parking facilities for its employees, and

WHEREAS, The lack of planning is reflected in congested metropolitan areas where adequate parking facilities are not available to employees who reasonably require the use of private automobiles for transportation to and from their place of employment, and

WHEREAS, Most local zoning ordinances require that off-street parking be furnished in varying amounts to serve every new structure which is constructed and for enlargements to existing structures, and it is considered a fundamental of sound community planning to provide for the storage of vehicles off the traffic thoroughfares, and the State, even though it may not be legally bound by such local ordinances, should reasonably comply with these objectives when placing or enlarging state facilities in local communities, and

WHEREAS, Employee parking facilities are also provided by governmental jurisdictions, e.g., a 1957 survey by Los Angeles County of 26 large governmental jurisdictions in California showed that 20 jurisdictions provide free employee parking for some or all of their employees, and

WHEREAS, Surveys show that many private employers in major metropolitan areas provide free parking facilities for their employees, and

WHEREAS, Providing for employee parking has become increasingly recognized as an essential employee benefit or working condition and in private industry is considered to be a necessary and integral part of the cost of doing business, and

WHEREAS, Experience indicates that the availability of parking is an increasingly significant factor in the recruitment and retention of competent personnel, and

WHEREAS, The State must remain competitive with other employers not only in terms of "prevailing rate" salaries and wages but in the area of working conditions and employee benefits, and

WHEREAS, The aforementioned parking problems are recognized in reports by the Department of Finance, the State Personnel Board in its annual reports to the Governor, the Deputy Directors Conference, Special Committee on Parking, and by the 1959 California Legislature in Senate Concurrent Resolution No 43; and

WHEREAS, Notwithstanding the cognizance of all concerned, the parking situation has not improved in that adequate parking facilities are not provided, particularly in metropolitan areas, and

WHEREAS, The State Department of Finance in its Management Survey 1020 concluded that ". . . it is becoming more and more apparent that successful solution of the parking problem requires constant attention and positive action by all employers, including local and state government agencies. The State must, therefore,

revise and intensify its program to satisfy employee parking needs", now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Rules Committee is directed to assign to the appropriate interim committee the statewide parking problem with its many ramifications for a complete and comprehensive study with the view of determining what actions are necessary to ameliorate the parking situation, and to direct such interim committee to report its findings to the Assembly not later than the fifth legislative day of the 1965 Regular Session of the Legislature

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

By Assemblymen McMillan and Kennick.

House Resolution No. 426

Relative to a study of the transfer of senile patients to state hospitals

WHEREAS, There now exists a serious problem involving the transfer of senile patients from privately owned sanitaria to state hospitals, and

WHEREAS, It is essential that a determination be made of the impact of such transfers on the well-being of patients, the operation of the private sanitaria, and the burden placed on state hospitals, and

WHEREAS, A study of this problem should be made at the earliest possible time, so that legislation may be formulated, if necessary, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is hereby directed to assign to an appropriate interim committee the subject of the transfer of senile patients from private sanitaria to state hospitals, and to direct such committee to report its findings to the Assembly by the fifth legislative day of the 1965 Regular Session

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

By Assemblyman Bagley

House Resolution No. 427

Relative to an interim study of the powers of the California State Highway Commission

WHEREAS, During the 1962 Budget Session of the Legislature, a heated controversy erupted over the powers of the State Highway Commission and the design and routing of several freeways throughout California; and

WHEREAS, House Resolution No 86 (1962 Budget Session) recommended a study of the powers of cities and counties with respect to proposed state highways; and

WHEREAS, The Assembly Interim Committee on Transportation and Commerce held preliminary hearings on these subject matters and several related bills referred for study during the 1961-63 interim, and
