Eternal God, Who hast created this mysterious universe and pronounced it good; may we use the freedom Thou hast given us to elevate life rather than degrade it.

We pray for balance between the brilliance of our scientific advance and our moral and spiritual regression May we learn to accelerate goodness or face the possibility of mass suicide by the very instruments we have created

May we, a proud people, see the need for humility, and creative good will; may we use the same tenacity to break down racial barriers and inter-personal problems that we used for splitting the atom—AMEN.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Britschgi was granted unanimous consent that the following communication be ordered printed in the Journal

COMMUNICATION FROM CITY MANAGER, CITY OF REDWOOD CITY

CITY OF REDWOOD CITY, June 4, 1963

Hon Carl Britschgi
Assemblyman, 26th District
State Capitol, Sacramento

DEAR ASSEMBLYMAN BRITSCHGI: I was flabbergasted when I read in Tuesday morning's paper the *Chronicle's* interpretation of my state-

ments to their reporter. I cannot repeat too strongly the city's interest in our Reclamation Bill, which you were successful in getting passed through the Assembly on Monday.

This bill is completely indispensable to our Master Plan for the bayshore lands We have spent over four years working out the Master Plan and preparing for reclamation of the major portion of this 24 square miles. As you know, our intention is to reclaim the land only to our shoreline, even though our city limits run out to the middle of the bay Much of this property is now being used for agricultural purposes, light industry and salt ponding.

I wish to apologize profusely for this misunderstanding, and to urge you to continue to support this bill which is so vital to our city and to our economy, and which will allow us to reclaim land for future improvements in line with the City Master Plan

Cordially yours,

JAMES E NEAL, City Manager

House Resolution No. 434

Relative to economic development

WHEREAS, The Legislature has declared it to be the continuing policy and responsibility of the State to foster and promote full employment and increased productivity, income, and purchasing power, and to coordinate and utilize all of its plans, policies, functions, and resources to these ends; and

WHEREAS, This policy requires the submission by the Governor of an annual report reviewing the economic progress of the State and the economic conditions affecting the State's development, and authorizes the submission of such supplementary studies and reports as the Governor may deem advisable in attaining these economic policy objectives; and

WHEREAS, California is the foremost State in the conduct of defense and aerospace production and research activities, the expenditures for which occupy a critically important place in providing jobs and income for our people, and in accelerating the growth or decline of communities and areas throughout our State, with resultant consequences for public services and facilities of all kinds; and

WHEREAS, There is widespread concern and interest by all levels of government, by private enterprise, and by individual citizens in our State regarding the public and private consequences of possible reductions in the volume of employment and income resulting from decreased defense and aerospace expenditures, from technological change, and from national and international economic policy decisions bearing immediately upon the State's economic welfare; and

WHEREAS, The attainment of the State's economic objectives respecting employment, income, purchasing power, and productivity depends upon the combined planning efforts of state and local government in partnership with private enterprise and upon the orderly development of our urban areas for commercial and industrial purposes; now, therefore, be it

Resolved by the Assembly of the State of California, That the Department of Finance is hereby requested to initiate a study, or to amplify existing studies which will appraise the foreseeable or anticipated impact of changes in defense spending or other significant economic factors upon California's economy, its labor force, and the development of its urban areas, which study or studies shall recommend steps for combatting or reducing the adverse effects upon the State's economy and upon employment, income, productivity and purchasing power, and shall particularly consider the following matters:

1. The functional sectors of the State's economy and the geographic areas or regions most likely to be impacted by a reduction in defense and aerospace spending.

2. Estimates of the broad magnitude of the effects on employment and income resulting from likely reductions in defense-aerospace expenditures in California

3. Appraisal of the sectors of the State's economy offering the best or most probable opportunities for the growth of new investment in nonmilitary economic activities

4. Analysis of the implications for present and anticipated manpower and skill requirements within the labor force, posed both by adverse economic circumstances and by the needs of new, nonmilitary economic activities

5. Improvement in the collection and analysis of data relating to economic change and urban growth and development, to permit more accurate analysis and earlier detection of significant changes, and more rapid communication of such knowledge to public and private decision-makers, and be it further

Eternal God, Our Loving Father. On this traditional day of worship, may we see clearly that our real estimate of Thee and our fellow man begins after we leave church May we ever have our sights lifted, our motives purified, our seeking for the right intensified by formal worship Then may we go forth and endeavor with all of our being to live in the world what we affirmed in the sanctuary

Wilt Thou give cool heads and warm hearts to these Thy servants as they face the Herculean tasks before them. May not fatigue or frustration lessen their abilities to serve the people of this State.

In our Lord's name we pray —AMEN.

June 9, 1963

Hon. Jesse M. Unruh
Speaker of the Assembly

DEAR MR. SPEAKER: In Amendment No. 1 to Assembly Bill No. 2927 a comma was inserted before "Stanton" so that proper punctuation would appear between the names of the authors.

In Amendment No 2 to Assembly Bill No 2970 the period at the end of the inserted material was deleted so that two periods would not appear in succession.

COMMUNICATION FROM WARREN K. MILLER

EASTSHORE LINES
BERKELEY, June 5, 1963

The Honorable John Knox
Assemblyman, California Legislature
State Capitol, Sacramento

DEAR SIR. This is to advise you that because of the failure of AB 889 it will be necessary for us to discontinue our charter bus operations in Alameda and Contra Costa Counties as of June 30, 1963 This move is necessary as it is impossible for us to compete with the Alameda-Contra Costa Transit District operations in the East Bay area.

Two years ago Eastshore Lines was the second largest charter bus operator in the area, being surpassed only by Greyhound Lines It is

indeed a sad commentary on conditions in the State of California when governmental enterprise can force a profitable taxpaying private operator out of business

Words cannot express our appreciation of the magnificent job you have done to support our cause

Very truly yours,

WARREN K MILLER, President

PRAYER

The following prayer was offered by the Chaplain, Rev. Robert R. Ferguson:

God of Creation, We confess our need for Thy grace in our lives We are so prone to pride, greed, cruelty May we again have the vision that we are all children of an everlasting Father; Thou hast revealed that Thy will for us is mutual understanding, trust, goodwill to our fellow man. Since each person has Thy mark of "inestimable worth," regardless as to the color of skin, or culture, may we strive to amend ancient wrongs and take our place in advancing equality of opportunity for all men.

May we do this because of our basic philosophy and never because of expediency.—AMEN.

Letter of Transmittal
Bulletin No. 13—Alameda County Investigation

THE RESOURCES AGENCY OF CALIFORNIA
DEPARTMENT OF WATER RESOURCES
SACRAMENTO, June 5, 1963

Hon Arthur A Ohnimus
Clerk of the Assembly
State Capitol, Sacramento

DEAR MR. OHNIMUS Transmitted for the information of the California State Assembly is a copy of Bulletin No. 13, "Alameda County Investigation," dated November 1962 This bulletin is the result of a series of co-operative agreements between the Department of Water Resources and its predecessor agencies, and the County of Alameda, commencing in 1948 It summarizes the results of several years of intensive investigation and study of the surface and underground water supplies in the area, including quality, replenishment, and utilization thereof, and methods of solving the water problems involved The fieldwork was largely completed during the period 1949-51, and a preliminary edition of the bulletin was published in 1955

The final agreement between the department and the county, in January 1961, provided for the updating and final publication of the bulletin Several revisions have been made to the preliminary edition to reflect more current data, recent studies, and the present conditions of water supply development

The principal conclusion set forth in Bulletin No 13 is that the present basic water problem in Alameda County is perennial overdraft on the ground water resources of the Bay Plain This overdraft has resulted in a lowering of ground water levels in the principal pumping aquifers in the Bay Plain to depths below sea level, with resultant intrusion of sea water from San Francisco Bay Supplemental water for this area will be met largely by importation via the South Bay Aqueduct of the State Water Facilities The bulletin recommends that the maximum amount of water which the Alameda County Water District can arrange to purchase should be obtained from the South Bay Aqueduct

Sincerely yours,

WILLIAM E WARNE, Director

Above transmitted bulletin referred by the Speaker pro Tempore to the Committee on Water

MESSAGES FROM THE GOVERNOR

The following veto message from the Governor was received, and read.

Veto Message Concerning Assembly Bill No. 1223

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 10, 1963

To the Honorable Members of the Assembly
State of California, Sacramento

GREETINGS I am returning herewith, without my signature,

Assembly Bill No. 1223, entitled, "An act to add Section 3581 1 to the Education Code, and to add Section 3004 5 to Division 5 of the Education Code, as proposed to be added by Senate Bill No. 718, relating to master plans for school district organization, declaring the urgency thereof, to take effect immediately."

This bill authorizes the extension of deadlines, by which county committees on school district organization must file master plans for unification, until September 15, 1965

The program for development of master plans for school unification has been under way since 1959 Children who were in kindergarten when the program was initiated are now in the third grade, and if the delays suggested by this bill are permitted they may well have completed elementary school before the studies are put into effect in some counties We consider the unification studies under this program to be of great importance, and they should not be unduly prolonged

Assembly Bill No. 693, permitting a one-year extension of the September 15, 1963 deadline for county committees which have already made substantial progress in their studies has already been signed I believe such a one-year extension will provide sufficient time for any committee which has been working diligently on problems of unification to complete its plan

Accordingly, I am returning the bill without my signature

Respectfully submitted,

EDMUND G. BROWN, Governor

Acknowledgment of Receipt of Bill

I acknowledge receipt this 10th day of June, 1963, 5 23 o'clock p m , of Assembly Bill No. 1223, without the Governor's signature, together with a statement of his objections thereto, signed by the Governor, delivered to me personally by Caroline J Dunning, Secretary to the Legislative Secretary to the Governor

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Knox was granted unanimous consent that the following communication be ordered printed in the Journal:

COMMUNICATION FROM LEAGUE OF CALIFORNIA CITIES

LEAGUE OF CALIFORNIA CITIES
SACRAMENTO, June 10, 1963

Assemblyman John T. Knox
California Legislature
State Capitol, Sacramento

DEAR MR KNOX: In the presentation of your Assembly Bill 2015 to the Assembly earlier today a statement was made by Assemblyman Lanterman with reference to a League legislative bulletin concerning

the annexation bills While we have categorically denied the statement by Mr Lanterman, it might be helpful to you and the other members of the Assembly to have the precise wording of our bulletin of May 28 relative to Assembly Bills 2015, 2017 and 2018. This bulletin was sent to all mayors, city managers and city clerks and insofar as it related to the three measures the following is an exact and complete quote from our bulletin:

"1 *Annexation Measures Advance*—A B. 2015, A B 2017 and A B 2018 were approved late yesterday by the Assembly Committee on Municipal and County Government

A B. 2015 would permit the city council to initiate annexation proceedings in connection with annexation of inhabited territory

A B. 2017 would permit cities, with the consent of the board of supervisors, to annex corridors and unincorporated islands completely surrounded by city territory, both of which were legally created prior to the prohibition against the creation of islands and corridors. The board of supervisors would hold a protest hearing, but protests could be overridden by the board of supervisors

A B 2018 would permit two or more cities to enter into agreements defining future areas of growth The agreements after approval by ordinance would prevent parties to the agreement from annexing territory in the future growth area of another city.

All of these bills will be heard within the next two or three days on the floor of the Assembly and all are highly controversial The cities have an excellent opportunity of obtaining legislation to facilitate annexation if these measures are approved We hope that interested cities will telephone their Assemblymen upon receipt of this letter urging support of all three bills "

It was stated that every Member of the Assembly should have a copy of every one of our bulletins I have indicated before and I do so again that we will be happy to make every one of our bulletins available to every Member of the Legislature whenever a request for such bulletins is received We would assume that we would be treated no differently than other legislative representatives and that a similar request would be made of all who represent the various interests in Sacramento. In the event the Lobby Registration Act were to be amended to require filing of such bulletins, we would support such an amendment.

Sincerely,

RICHARD CARPENTER
Executive Director
and General Counsel

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, June 10, 1963

Hon John T Knox
Assembly Chamber

Local Agencies Assembly Bill No. 6612—No. 21292

Question

DEAR MR. KNOX: You ask if an assessment district formed under the Improvement Act of 1911 (S & H C. Secs 5000 et seq) and the Municipal Improvement Act of 1913 (S & H. C. Secs 10000 et seq.) would be a "special district" as that term is defined in Assembly Bill 1662, as amended May 29, 1963.

Opinion

In our opinion such an assessment district would not be a special district under Assembly Bill No. 1662, as amended May 29, 1963.

Analysis

Assembly Bill No 1662 provides for the creation in each county of a local agency formation commission. The proponents of the formation of a new city or special district in the county must submit notice thereof to the commission The commission has the power to approve or disapprove the formation. If it disapproves, the formation proceedings are terminated

The term "special district" is defined in the bill as:

> " 'Special district' means an agency of the State for the local performance of governmental or proprietary functions within limited boundaries 'Special district' does not include the State, a city, a county, or a school district."

An assessment district created under the Improvement Act of 1911 (commencing with Section 5000 of the Streets and Highways Code) and under the Municipal Improvement Act of 1913 (commencing with Section 10000 of the Streets and Highways Code) is a district formed for the purpose of assessing and collecting the cost of improvement work done on the lands which are benefited and which are included in the district The district has no governing body and has no powers or duties

Such a district is, therefore, not, in our opinion, an agency of the State performing functions within the definition of "special district" which is set forth in Assembly Bill No. 1662.

Very truly yours,

A C MORRISON
Legislative Counsel

Deputy Legislative Counsel

Statement by Hon. Frank Lanterman in Reply to Announcement by the Speaker That Assemblyman Carley Porter Was Trailing in His Candidacy for Congress at the Special Election in Los Angeles County

Mr. Speaker and Members of the Assembly, forgive me for stating a personal opinion at this time, but it is my belief that it is Congress'

loss in not being benefited by the statesmanship and legislative capacities of the Honorable Carley Porter and it is our State Legislature's gain.

There is not a finer legislator than Carley, not a keener intellect in bill analysis, not a finer gentleman nor understanding friend; nor is there anyone better able to guide the complexities confronting our Assembly Water Committee. I personally hope we welcome him home to our body not in sorrow, but in joy that we shall continue to have the privilege of his fellowship

In my opinion he is one of the best authorities in water law as it applies to our California Water Project and the legislative procedures involved.

PRAYER

The following prayer was offered by the Chaplain, Rev. Robert R. Ferguson.

God our Creator and Heavenly Father, We pray for a sensitive conscience and enlightened outlook on life which is not encumbered by past prejudices. Forgive us, for claiming to be a nation which opens its arms to all peoples and where we claim to be a free people against another ideology which enslaves men's minds, yet they have equality for all, and we have to vote to see if we really believe that we should treat people as people

Help us to re-educate ourselves quickly before we cast a cloud over our fair land which shall obliterate Thy smile and cause deep discontent here and repercussions throughout the world As we pray for peace, may we not be instruments of racial war by our silence to speak forth that we really mean, what we profess, and are willing to back with our lives We pray for dignity and respect for all people and that our beloved flag may not merely have three colors but all the colors of the rainbow blended into a glorious symphony of color and harmony and we may truly be the land of the free and the home of the brave —AMEN

MESSAGES FROM THE GOVERNOR

The following message from the Governor was received, and read:

Veto Message Concerning Assembly Bill No. 1362

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 11, 1963

To the Honorable Members of the Assembly
State of California,
Sacramento, California

GREETINGS I am returning herewith without my signature

Assembly Bill No. 1362, entitled "An act to add Section 5904 to the Harbors and Navigations Code, relating to Harbor Improvement Districts."

This measure grants peace officer status to persons employed by harbor improvement districts, while performing their duties in areas under the district's jurisdiction I am informed that the primary effect of the bill will be to give peace officer status to harbor patrol personnel employed by the Orange County Harbor Improvement District, since the Orange County District is the only one that has been formed under this particular enabling act

While I can understand the difficulties encountered by harbor patrolmen, in attempting to enforce laws and regulations in harbor areas without the power to make arrests in the same manner as a city policeman or deputy sheriff, I am more concerned about the piecemeal granting of the power to make arrests to persons who are not required to undergo the intensive training that is required of regular law enforcement officers

It appears to me that the whole subject, of what additional classes of law enforcement personnel should have peace officer status, is a matter that might appropriately be studied by a legislative interim committee Pending the completion of such study, I believe that there should be a clear showing of urgent need before such powers are granted to additional persons Such clear showing has not been made in this case.

Accordingly, I am returning the bill without my signature.

Respectfully submitted,

EDMUND G. BROWN, Governor

RESOLUTIONS

The following resolutions were offered

By Assemblyman Waite

House Resolution No. 496

Relative to the division of school district property

WHEREAS, The processes of establishing unified school districts in areas served by large union high school districts usually lead to a division of the territory of such districts; and

WHEREAS, The property of such union high school districts is not usually located so as to best serve the most appropriate choice of new unified districts; and

WHEREAS, The question of dividing the property and obligations between the unified districts is difficult to do and almost inevitably inequitable; and

WHEREAS, The machinery of state aid is not appropriately suited to offsetting these inequities, and

WHEREAS, The urgency of this problem is illustrated in the proposed reorganization of the Antelope Valley Joint Union High School District, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Rules Committee is directed to assign to an appropriate interim committee for study and investigation the problem of the division of the property and obligations of a union high school district between the unified districts created therefrom; and be it further

Resolved, That such committee is instructed to hold hearings in the Antelope Valley Joint Union High School District, and be it further

Resolved, That such committee is directed to report its findings and recommendations to the Assembly not later than the fifth legislative day of the 1965 Regular Session

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules.

By Assemblyman Knox.

House Resolution No. 497

Relative to interim study of licensing of insurance agents

WHEREAS, Insurance Code regulations provide for certificates of convenience as a means of enabling insurance agents to begin on-the-job training, under approved courses of training, prior to examination for permanent license, and

WHEREAS, This temporary license provision has served a practical and useful purpose in the majority of instances in California by providing excellent pre-licensing training for such insurance agents, and

WHEREAS, A small number of disability insurance companies, are appointing many hundreds of agents on certificates but qualifying only small numbers of these persons for permanent licenses, some as few as 8 percent, and

WHEREAS, To indicate the condition referred to herein, of the 1,924 disability only certificates of convenience issued between July 1, 1961, and July 1, 1962, only 260, or 13.5 percent, were presented for the examination, the remaining 1,664 having been discontinued; and

WHEREAS, It would appear that the intent of the certificate of convenience provisions are being circumvented and working a disservice to the people of the State of California; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is hereby directed to assign to an appropriate interim committee a study concerning possible abuses of the certificate of convenience, and the enforcement by the Commissioner of Insurance of present statutes designed to prevent such abuses, and to direct such committee to report its findings and recommendations to the Assembly not later than the fifth legislative day of the 1965 Regular Session

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

By Assemblyman Belotti

House Resolution No. 498

Relating to a study of milk stabilization

WHEREAS, The California Legislature has declared that fluid milk and fluid cream are necessary articles of food for human consumption, and

WHEREAS, The production and maintenance of an adequate supply of healthful milk of proper chemical and physical content, free from contamination, is vital to the public health and welfare; and

WHEREAS, The production, transportation, processing, storage, distribution or sale of fluid milk and fluid cream in the State of California is an industry affecting the public health and welfare; and

WHEREAS, In the past unfair, unjust, destructive and demoralizing trade practices have been carried on in the production, marketing, sale, processing and distribution of fluid milk and fluid cream, which constitutes a menace to the health and welfare of the inhabitants of this State; and

WHEREAS, Such practices tend to undermine sanitary regulations and standards of content and purity, however effectually such sanitary regulations may be enforced; and

WHEREAS, It has been demonstrated in this State, as well as in many other states of these United States, that health regulations alone are insufficient to prevent disturbances in the milk industry which threaten to destroy and seriously impair present and future supplies of fluid milk; and

WHEREAS, It has been previously declared to be the policy of this State to promote, foster and encourage the intelligent production and orderly marketing of commodities necessary to its citizens, including milk, and

WHEREAS, The law presently known as the Milk Stabilization Act has been a part of the laws of this State since 1937, and

WHEREAS, This law has been amended from time to time during the ensuing period for the purpose of facilitating its administration and to carry out the legislative intent as set forth in Section 4205 of the Agricultural Code; and

WHEREAS, It is the stated legislative intent as set forth in Section 4205 that the powers conferred in Chapter 17 (commencing with Section 4200) Division 6 of the Agricultural Code be liberally construed and that nothing in the chapter be construed as permitting or authorizing the development of conditions of monopoly in the production or distribution of fluid milk or fluid cream and that, furthermore, in the establishment of the terms and conditions under which fluid milk and fluid cream shall be purchased from producers, and under the same, such terms and conditions shall be those which will, in the several localities and markets of the State and under the varying conditions of production and distribution insure an adequate and continuous supply of pure fresh wholesome fluid milk and fluid cream to consumers thereof at fair and reasonable prices, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is requested to assign to the Assembly Interim Committee on Livestock and Dairies the study of whether or not the legislative intent and objectives of the California Milk Stabilization Act, as set forth in Article 1 (commencing with Section 4200), Chapter 17, Division 6 of the Agricultural Code, are being properly carried out and that such committee be authorized and directed to call upon any agency or source of information such as, but not limited to, the University of California and the Department of Agriculture to assist in its study with such interim committee to report its findings and conclusions to the Assembly by the fifth legislative day of the 1965 Regular Session.

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

June 4, 1963

MR SPEAKER AND MEMBERS OF THE CALIFORNIA STATE ASSEMBLY. Clyde loved flowers so much that the wonderful expressions of love and esteem surrounding him at his service were a blessing to us all

Your lovely wreath of Talisman and Symbidiums was very much appreciated We also wish to thank you for the beautiful resolution honoring Clyde's memory which Assemblyman Carley Porter presented to me on my recent trip to California

Sincerely,

LYDIA Y DOYLE and Family

LA HABRA, CALIFORNIA, June 6, 1963

The Honorable Jesse M Unruh, Speaker
California Legislature
State Capitol, Sacramento

DEAR MR UNRUH I am taking this opportunity to extend to you my deep appreciation for the high honor accorded to me at the time of my visit to Sacramento on May 31, 1963

The United States Department of Defense Medal for Distinguished Public Service which was bestowed upon me on May 8, 1963 was accepted with great pride However, although I was selected as the recipient of the highest honor which the Department of Defense can bestow upon a civilian, I also feel that the tribute was actually paid to many other individuals One such individual was the Honorable James L Holmes who, as Advisor to the California State Co-ordinator's staff, contributed so magnificently of his time, efforts and talents toward the success of the Military Affiliate Radio System (MARS)

The recognition of this honor from the California Legislature by way of a standing ovation and as an inclusion in its Daily Journal will remain forever as one of the greatest highlights in my life

Please accept my sincere thanks for this extremely gratifying experience

Very truly yours,

IRA C BECHTOLD

RESOLUTIONS

The following resolutions were offered.

By Assemblyman Porter:

House Resolution No. 501

Relative to a continuation of studies of saline conversion and nuclear energy

WHEREAS, The Assembly began a study of the possible applications of saline conversion and nuclear energy to the State's water problems in 1957, and

WHEREAS, These studies have been conducted continuously since that date in cooperation with the Department of Water Resources, the University of California, and appropriate federal agencies, and

WHEREAS, As a result of such studies and other factors a sea water conversion plant has been constructed by the federal government at Point Loma, substantial clarification of the role of saline conversion in the State's water problems has resulted, and nuclear energy has become a major possible source of energy for pumping water in the State Water Facilities, and

WHEREAS, Further work is needed in the field of saline conversion and major decisions on the use of nuclear energy in the State Water Facilities will be made in the next year or two, now, therefore be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is requested to refer to an appropriate interim committee the continuation of a study of all factors related to the use of saline conversion and nuclear energy in the State's water problems and that such committee is to report thereon to the Assembly by the fifth calendar day of the 1965 Regular Session

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

By Assemblyman Petris:

House Resolution No. 502

Relative to a study of the conflict between the California Buy American Act and the General Agreement on Tariffs and Trade

WHEREAS, Provisions of Section 4304 of the Government Code of the State of California appear to conflict with federal law and the provisions of the General Agreement on Tariffs and Trade, and

WHEREAS, An unfortunate legal impasse has arisen which makes it impossible for a public agency to make a major purchase from either a domestic or a foreign vendor without the risk of prolonged litigation due to such conflict; and

WHEREAS, Delays in programs of public works by local agencies are contrary to the best interests of labor, industry and the citizens of the State of California; now, therefore, be it

Resolved by the Assembly of the State of California, That it is appropriate at this time that a study be undertaken of the subject matter of the California Buy American Act and its apparent conflict with the federal treaty known as the General Agreement on Tariffs and Trade, an agreement entered into by the United States and 48 of the free nations of the world; and be it further

REPORTS OF STANDING COMMITTEES

Committee on Livestock and Dairies

ASSEMBLY CHAMBER, June 10, 1963

MR SPEAKER. The Chairman of your Committee on Livestock and Dairies reports:

Senate Bill No. 130

With author's amendments with the recommendation: Amend, and re-refer to the Committee on Livestock and Dairies.

BELOTTI, Chairman

SECOND READING OF SENATE BILL NO. 130 (PURSUANT TO RULE NO. 59.5)

Senate Bill No. 130—An act to add Article 7.5 (commencing with Section 4300) to Chapter 17, Division 6 of the Agricultural Code, relating to milk.

Bill read second time.

Motion to Amend

Mr. Belotti moved the adoption of the following amendments:

Amendment No. 1

In line 1 of the title of the printed bill, as amended in the Senate on May 31, 1963, strike out "Article 7 5 (commencing with Section 4300)", and insert "Chapter 17 5 (commencing with Section 4500)".

Amendment No. 2

In line 2 of the title, strike out "Chapter 17,".

Amendment No. 3

On page 1, line 1, strike out "Article 7 5 (commencing with Section 4300)", and insert "Chapter 17 5 (commencing with Section 4500)".

Amendment No. 4

On page 1, line 2, strike out "Chapter 17,".

Amendment No. 5

On page 1, line 4, strike out "Article 7 5", and insert "Chapter 17 5".

Amendment No. 6

On page 1, strike out line 6, and insert

"4500 The production and distribution of fluid milk and fluid cream is hereby declared to be a business affected with a public interest The provisions of this chapter are enacted in the exercise of the police powers of this State for the purpose of protecting the health and welfare of the people of this State

4501 It is hereby declared that fluid milk and fluid cream are necessary articles of food for human consumption; that the production and maintenance of an adequate supply of healthful milk of proper chemical and physical content, free from contamination, is vital to public health and welfare, and that the production, transportation, processing, storage, distribution and sale of fluid milk and fluid cream in the State of California is an industry, in whole and in part, affecting public health and welfare; that unfair, unjust, destructive and demoralizing trade practices have appeared within this industry and these practices constitute a menace to the health and welfare of the inhabitants of this State by threatening the stability of this industry and by thereby endangering the assurance to the people of the State of California of the maintenance of an adequate supply of this necessary commodity; that it is a policy of this State to promote, foster and encourage the intelligent production and orderly marketing of commodities necessary to its citizens, including fluid milk and fluid cream, and to eliminate speculation, waste, improper marketing, unfair and destructive trade practices, and improper accounting for milk purchased from producers

4502 It is recognized by the Legislature that currently the powers conferred upon the director by Chapter 17 (commencing with Section 4200) of Division 6 are inadequate to enable the dairy industry to correct existing evils, develop and maintain satisfactory marketing conditions, and bring about and maintain a reasonable amount of stability and prosperity in the production of fluid milk and fluid cream, and that to accomplish these purposes, and particularly to insure to consumers within California, an adequate and continuous supply of pure, fresh and wholesome milk at fair and reasonable prices, including a reasonable estimate of the additional supply which is needed to provide for normal fluctuations in production and in consumer demand for such products, such powers must be supplemented by the powers conferred in this chapter upon the director to equalize gradually the distribution of Class 1 usage among the producers of this State

In this connection, the Legislature further declares that the present differences between the prices paid to producers for fluid milk and fluid cream devoted to Class 1 usage and the prices paid such producers for such products devoted to other usages, constitutes an irresistible temptation to many producers to maximize their Class 1 usage, whether by integration of processing or distribution facilities with production facilities, or by other means, and that this continuing and increasing integration has resulted in great instability in the dairy industry which condition currently threatens the continued existence in this State of the previously mentioned adequate supply of pure, fresh wholesome milk

The Legislature further declares that since the enactment into law of Chapter 17 in 1935, the general equality among producers in Class 1 usage, which then obtained, has gradually been replaced by a great inequality in such usage, which general condition of inequality has been aggravated in recent years by integration, and that, as a consequence, the substantial elimination of such difference in prices, without an

equalization of Class 1 usage among producers, would destroy completely the stability and endanger the prosperity generally of the production segment of the dairy industry and most seriously endanger the permanent continuation of the adequate supply of pure, fresh wholesome milk Accordingly, the Legislature hereby declares that to effectuate the purposes previously stated in this chapter, it is now necessary that the pricing powers previously conferred upon the director by Chapter 17 be supplemented by the powers conferred upon him by this chapter

4503 In effectuating the purposes of this chapter as hereinafter authorized by this chapter, a production base shall be established for each producer which will be his historical production of fluid milk There shall also be determined a usage base for each producer which shall be, generally, that amount of his production of fluid milk accounted for as Class 1 The relationship between these two bases will be used to establish the producer's allotment base The producer's allotment base is the percentage of his total production for which he may be paid the Class 1 price The establishing of these bases and their functions shall be as provided in the pooling plan formulated by the director pursuant to the provisions of this chapter

4504 The director is authorized to develop proposed pooling plans and designate the proposed areas in which the plans will be made effective Such pooling plans may be either

(a) A statewide pooling plan for all producers.

(b) One or more regional pooling plans but which shall, in total, include all areas covered by stabilization and marketing plans under Chapter 17 (commencing with Section 4200) of Division 6

(c) Distributor pools in conjunction with either regional or statewide pooling plans

4505. After the director has formulated a proposed plan, which shall be within 90 days of the effective date of this chapter, he shall hold one or more public hearings in each proposed area to be affected by the proposed plan for the purposes of considering modification of the proposed boundaries and formulating the pooling plan which will best accomplish the purposes of this chapter Notice of such public hearings shall be given to each producer including each member of co-operative marketing associations, who ships fluid milk to a distributor and to each distributor who receives fluid milk from producers The procedures for the giving of notice and the conducting of such hearings shall be the same as those provided in Article 5 (commencing with Section 4270) of Chapter 17, Division 6 for public hearing on stabilization and marketing plans.

4506. If the director determines that a regional pool should be established, the plan shall include in a given pool all producers who sold fluid milk to distributors in the area selected for that plan The area selected shall be the area found by the director to be the area which will effectuate the purposes of this chapter in the shortest period of time with the least disturbance of pre-existing business relationships

4507. If the director determines that the purposes of this chapter can best be effectuated by the establishing of distributor pools he shall also establish either regional pools or a statewide pool concurrent with the establishment of the distributor pools

4508. Each pooling plan shall provide for the designating of methods to achieve equality of Class 1 usage to all producers supplying fluid milk to distributors Such methods shall be identical in all plans and shall be based upon the following:

(a) The establishment of a production base for each producer which shall be the total amount of fluid milk produced by that producer in the calendar year 1962, provided however, the director may select a different 12-month period to be used as the production period for a producer if the production of the producer in the calendar year 1962 was less than his normal production and the reasons for his production being less than normal were circumstances beyond the producer's control

(b) The establishment of a usage base for each producer which shall be the amount of his production of fluid milk accounted for as Class 1, and any fluid milk sold for use as Class 1 to a United States military installation but which was not accounted for as Class 1, in the calendar year 1962

(c) The establishment of an allotment base for each producer which shall be expressed in a percentage figure of his production base and which shall be the percentage that the producer's usage base is of the producer's production base. This allotment base is the amount of the producer's production base for which he may be paid the Class 1 usage price and may only be modified as provided in this chapter.

4509 The production base, the usage base, and the allotment base for each individual producer member of a co-operative association belong to the association Such bases shall be allocated to each individual member in accordance with the bylaws of the association

4510 Each producer may be paid the Class 1 usage price for that amount of his fluid milk production which is equal to his allotment base, provided, however, that the pool plan shall designate an equalization point which shall be the percentage of

all fluid milk production required to insure consumers an adequate and continuous supply of pure, fresh, wholesome milk at fair and reasonable prices but not including any additional supply reasonably needed to provide for normal fluctuations in production and in consumer demand for fluid milk, cream, and skim milk Every producer whose allotment base exceeds this equalization point shall, within two years of the effective date of the applicable pooling plan, dispose of that portion of his allotment base which exceeds the equalization point

In the disposal of this portion of his allotment base such a producer shall not affect his production base

If a portion or all of the allotment base of any producer is transferred for any other purpose, it shall carry with it the proportionate share of such producer's production base and usage base

4511 Additional or new producers may be included in any pool under the following terms and conditions

(a) A qualified Grade A milk producer who acquires the usage allotment from another producer then in a pool shall be admitted into the pool at the full allotment level so acquired Such a person shall not be considered as a new producer.

(b) A producer who becomes qualified as a fluid milk producer, but whose major experience in milk production has been as a producer of Grade B, or milk for manufacturing purposes, shall be considered a new producer, and shall be admitted into the pool at a usage allotment five percent (5%) below the lowest usage allotment of any producer in the pool

(c) New producers shall be admitted into a pool only when additional fluid milk for Class 1 usage is needed, and may participate only in the apportionment of the ten percent (10%) of the additional supply needed and reserved by the director for allocation to new producers in the pool

4512 The remainder of such additional supply shall be annually apportioned by the director among existing producers in the pool who have a usage allotment less than the equalization point Such apportionment shall be made by the director on a weighted scale formula prescribed as follows

For producers whose allotment base falls into the following ranges, the corresponding numerical weightings of such usage shall be applied in calculating the allotments

Allotment Base	*Numerical Weighting*
From 80 to 87 percent	Current Class 1 allotment multiplied by 1
From 70 to 80 percent	Current Class 1 allotment multiplied by 2
From 60 to 70 percent	Current Class 1 allotment multiplied by 3
From 50 to 60 percent	Current Class 1 allotment multiplied by 4
Under 50 percent	Current Class 1 allotment multiplied by 5

In calculating such adjusted allotment for each producer multiply the current Class 1 allotment for each producer by the appropriate numerical weighting; add together the weighted Class 1 allotments of all producers to obtain a total of all weighted allotments; calculate the percentage which each producer's weighted allotment is of the total of all weighted allotments; apply the percentage so obtained to the actual remaining additional supply needed to obtain each producer's actual increase in allotment

No additional or new producer shall be admitted into a pool unless and until his dairy farm qualifies as a Grade A dairy

No producer shall be admitted into a pool unless he has a contract for fluid milk to be used for Class 1 usage with a distributor operating in the pool, or is a member of a co-operative association which holds such a contract

4513 If the director has established distributor pools and regional pools each distributor shall allocate allotments of Class 1 usage which develop beyond the allotment base of the producers in the pool to the producers who are members of the pool in the same manner as provided in Section 4512 for the allotment of additional usage, until all producers in a given pool have the same allotment base and such base is the same as that which has been established as the equalization point All additional Class 1 usage shall then be allocated to the other producers in that regional pool on the same basis as additional usage is apportioned pursuant to Section 4512

When the allotment base of every producer in a regional pool has reached the equalization point any additional usage shall be apportioned between the producers in the nearest adjacent regional pool

4514 In any year that the total usage of fluid milk for Class 1 uses is less than that usage in the calendar year 1962, the pooling plan shall provide for an equal percentage reduction for the allotment base of every producer

4515 Following the required hearing the director shall submit such pooling plan to producers concerned for their approval or disapproval in a statewide referendum, unless he finds with respect to such pooling plan:

(a) That such plan will not tend to effectuate the purposes of this chapter, within the limitations and restrictions imposed herein, at as rapid a rate as is feasible in view of the production and marketing conditions prevailing in the pooling area, and

(b) That such plan will not insure consumers in the pooling area an adequate and continuous supply of pure, fresh, wholesome milk, including a reasonable estimate of the additional supply which is needed to provide for normal fluctuations in production and in consumer demand for fluid milk, fluid cream and skim milk for such pooling area

4516 If the director finds that producers on a statewide basis have assented in writing to either a statewide pool or regional pool plans covering all marketing areas established in the State submitted to them for assent the director shall place the pool plan or plans into effect The director shall find that producers have assented to the plan if he finds on a statewide basis that (a) not less than 51 per cent of the total number of eligible producers in the State shall have voted in the referendum, (b) 65 percent or more of the total number of eligible producers who voted in the referendum who produced 51 percent or more of the total amount of fluid milk produced in 1962 in the State by all producers who voted in the referendum approve the plan or 51 percent or more of the total number of eligible producers who voted in the referendum who produced 65 percent or more of the total amount of fluid milk produced in 1962 by all producers who voted in the referendum, approve the plan

If such plans are not approved, the director may resubmit the plans, or submit new plans, at any time after six months from the date the director announces the pool plans were not approved

4517 The pool or pools established shall be administered by the director Each distributor shall deduct from moneys owed producers and pay to the director the amount necessary to cover the cost of administering the pool plan, but not to exceed three cents ($0 03) per hundred weight of fluid milk

4518. The director shall appoint a review board composed of no less than nine (9) members to advise him in the administration of the pool plan or plans. The board members shall be two distributors, one producer-distributor and six producers. Each member of the review board shall be paid his necessary travel expenses approved by the director which are incurred in the attendance at board meetings or in conducting the business of the board

4519 No pooling plan formulated pursuant to this chapter shall restrict the free movement of fluid milk and no pooling plan shall result in an unequal raw production cost between distributors in the same marketing areas

4520 No pooling plan shall control the production of fluid milk except insofar as may otherwise be specifically authorized in this chapter

4521. No pooling plan shall effect contracts between producers and distributors except as may be the indirect effect of the application of the provisions of this chapter

4522 Pooling plans shall not apply to the production of goat's milk, certified milk or guaranteed raw milk.

4523 Unless the context otherwise requires, the definitions contained in Chapter 17 (commencing with Section 4200) of Division 6 govern the construction on this chapter."

House Resolution No. 434, as Amended

By Assemblymen Burton, Crown, Mills, and Petris:

House Resolution No. 434

Relative to economic development

WHEREAS, The Legislature has declared it to be the continuing policy and responsibility of the State to foster and promote full employment and increased productivity, income, and purchasing power, and to co-ordinate and utilize all of its plans, policies, functions, and resources to these ends, and

WHEREAS, This policy requires the submission by the Governor of an annual report reviewing the economic progress of the State and the economic conditions affecting the State's development, and authorizes the submission of such supplementary studies and reports as the Governor may deem advisable in attaining these economic policy objectives; and

WHEREAS, California is the foremost State in the conduct of defense and aerospace production and research activities, the expenditures for which occupy a critically important place in providing jobs and income for our people, and in accelerating the growth or decline of communities and areas throughout our State, with resultant consequences for public services and facilities of all kinds, and

WHEREAS, There is widespread concern and interest by all levels of government, by private enterprise, and by individual citizens in our State regarding the public and private consequences of possible reductions in the volume of employment and income resulting from decreased defense and aerospace expenditures, from technological change, and from national and international economic policy decisions bearing immediately upon the State's economic welfare; and

WHEREAS, The attainment of the State's economic objectives respecting employment, income, purchasing power, and productivity depends upon the combined planning efforts of state and local government in partnership with private enterprise and upon the orderly development of our urban areas for commercial and industrial purposes; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to direct an appropriate interim committee to initiate a study, or to amplify existing studies which will appraise the foreseeable or anticipated impact of changes in defense spending or other significant economic factors upon California's economy, its labor force, and the development of its urban areas, which study or studies shall recommend steps for combatting or reducing the adverse effects upon the State's economy and upon employment, income, productivity and purchasing power, and shall particularly consider the following matters.

1 The functional sectors of the States' economy and the geographic areas or regions most likely to be impacted by a reduction in defense and aerospace spending

2 Estimates of the broad magnitude of the effects on employment and income resulting from likely reductions in defense-aerospace expenditures in California.

3 Appraisal of the sectors of the State's economy offering the best or most probable opportunities for the growth of new investment in nonmilitary economic activities

4 Analysis of the implications for present and anticipated manpower and skill requirements within the labor force, posed both by adverse economic circumstances and by the needs of new, nonmilitary economic activities

5 Improvement in the collection and analysis of data relating to economic change and urban growth and development, to permit more accurate analysis and earlier detection of significant changes, and more rapid communication of such knowledge to public and private decision-makers, and be it further

Resolved, That such interim committee is directed to submit an initial report on this study to the Assembly not later than the fifth legislative day of the 1964 Budget Session.

Resolution, as amended, referred to the Committee on Rules; and the subject matter referred to the Committee on Rules for assignment to the proper interim committee for study

There exists an extreme shortage of physical facilities for the operation of the custodial, mental treatment, educational, administrative, military and other agencies of the state government, the present facilities being entirely inadequate due to great increases in population and added governmental responsibilities. If they are not available for expenditure on July 1, 1963, the existing program will be delayed. It is therefore necessary that this act go into immediate effect."

PRAYER

The following prayer was offered by the Chaplain, Rev Robert R Ferguson:

Eternal God Our Father, May the impact of the message "he that saves his life will lose it, but he who loses his life will save it," weigh with us this morning

Help us to see that all life is a trust You have not put us here on this planet for a picnic but for a pilgrimmage to journey toward the Kingdom of God where ultimate dignity, respect and peace will prevail We cannot hoard our talents, time or possessions Only as we give these in service and love to our fellow man will we find the meaning and purpose of our own existence As we are confronted with problems of great complexity, may we not avoid them, but face them now or be haunted and defeated by them later Give courage integrity and honor to each Member of this Assembly that they may find their lives by losing them in doing their duty

In our Master's name —AMEN

COMMUNICATIONS

The following communication was presented by the Chief Clerk, and ordered printed in the Journal

DEPARTMENT OF STATE
WASHINGTON, June 7, 1963

Mr Arthur A Ohnimus
Chief Clerk, Assembly
California Legislature
State Capitol, Sacramento

DEAR MR OHNIMUS The Department of State has received with your letter to the Secretary of State of May 24, 1963 a copy of Assembly Joint Resolution No 26, which was adopted by the California Legislature on May 7, relative to the necessity of federal aid in eliminating water pollution caused by the sewage disposal practice of Tijuana, Mexico

The new Tijuana disposal system has now been in continuous operation since 8 a m on March 23, 1962 The California Department of Public Health has conducted surf water sampling and analyses north of the international border, and the Mexican Ministry of Hydraulic Resources has conducted a similar program south of the boundary So far as the Department of State has been informed, no pollution of surf above the international boundary can be attributed to Tijuana sewage since that date The United States Section of the International Boundary and Water Commission continues to check the operation of the system closely to study its adequacy for protection of United States interests

As the California Legislature recommends, however, the United States Commissioner on the commission is attempting to conclude an agreement with Mexico to establish standby facilities for emergency need He proposes to submit appropriate recommendations to the Congress for federal participation in this program as soon as agreement is reached with Mexico It appears at the present time that the matter is progressing satisfactorily along the lines desired by the California Legislature

Sincerely yours,

ROBERT M. SAYRE
Officer in Charge, Mexican Affairs
