Certified copy

9522. A certified copy of the resolution shall be forwarded to the board of directors of the district with which it is proposed to consolidate and to the board of supervisors of the county or counties in which the districts proposed to be consolidated are located. If the board of directors of the district to which the resolution was forwarded unanimously adopts a resolution approving the proposed consolidation, it shall forward a certified copy of such resolution to the board of supervisors of the county or counties in which the districts proposed to be consolidated are located.

Hearings and notice

9523. If the board of supervisors approves the proposed consolidation, it shall fix a time and place for a hearing on the proposed consolidation and cause notice of the hearing to be published in the manner and for the time provided for the publication of notice of hearing on the formation of a district. Where the districts are located in different counties, if the board of supervisors of each county in which any portion of either district is located approves the proposed consolidation, the board of supervisors of the county in which the principal district is located, or, if the principal district encompasses land in more than one county, the board of supervisors of the principal county of the principal district, shall fix the time and place for the hearing and shall cause the notice to be published.

In effect September 18, 1959

[Approved by Governor June 16, 1959. Filed with Secretary of State June 16, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 542 of the Code of Civil Procedure is amended to read:

542. The sheriff, constable, or marshal, to whom the writ is directed and delivered, must, upon receipt of instructions in writing, signed by the plaintiff or his attorney of record, and containing a description of the property, and in the case of real property or growing crops the name of the record owner of the real property to be attached, or upon which the crops are growing, execute the same without delay, and if the undertaking mentioned in Section 540 of this code be not given, as follows:

1. Real property, standing upon the records of the county in the name of the defendant, must be attached, by recording with the recorder of the county a copy of the writ, together with a description of the property attached, and a notice that it is attached, and by serving an occupant of the property, if there is one upon the property at the time service is attempted, with a similar copy of the writ, description and notice, or if there is no occupant then on the property, then, by posting the same in a conspicuous place on the property attached. Service upon the occupant may be made by leaving said copy

of the writ, description and notice with the occupant personally, or, in his absence, with any person, of suitable age and discretion, found upon the property at the time service thereof is attempted and who is either an employee or agent of such occupant or a member of his family or household. Where the property described in the notice consists of more than one distinct lot, parcel or governmental subdivision and any of such lots, parcels, or governmental subdivisions lie with relation to any of the others so as to form one or more continuous, unbroken tracts, one service or posting need be made as to each such continuous, unbroken tract.

1a. Growing crops (which, until severed, shall be deemed personal property not capable of manual delivery), growing upon real property standing upon the records of the county in the name of the defendant, must be attached by recording with the recorder of the county a copy of the writ, together with a description of the growing crops to be attached, and of the real property upon which the same are growing, and a notice that such growing crops are attached in pursuance of the writ, and by serving an occupant of the real property, if there is one upon the real property at the time service is attempted, with a similar copy of the writ, description and notice, or if there is no occupant then on the real property, then, by posting the same in a conspicuous place on the real property. Service upon the occupant may be made by leaving said copy of the writ, description and notice with the occupant personally, or, in his absence, with any person, of suitable age and discretion, found upon the real property at the time service thereof is attempted and who is either an employee or agent of such occupant or a member of his family or household. Where the real property described in the notice consists of more than one distinct lot, parcel or governmental subdivision, and any of such lots, parcels or governmental subdivisions lie with relation to any of the others so as to form one or more continuous unbroken tracts, one service or posting need be made as to each such continuous unbroken tract.

Whenever growing crops have been attached under the provisions of this subdivision, which will greatly deteriorate in value, unless properly cultivated, cared for, harvested, packed or sold, the court issuing such writ, upon application of the person in whose favor the writ runs, and after due notice to the owner of said property, may direct the sheriff to take possession of said property and to cultivate, care for and preserve the same and, when necessary, harvest, pack and sell such property. Any sale of such property shall be made in the same manner that property is sold on execution and the proceeds must be retained by the sheriff to be applied to the satisfaction of any judgment which may be recovered in the action in which said writ is issued. The court shall order said applicant to pay such expenses in advance if the court may deem it proper, or may direct that the whole or any part of

such expenses be paid from the proceeds of any sale of such property.

2. Real property, or any interest therein, belonging to the defendant, and held by any other person, or standing on the records of the county in the name of any other person, must be attached in the same manner as is real property standing upon the records of the county in the name of the defendant by the provisions of subdivision 1 of this section and the notice of attachment shall state that the real property therein described, and any interest of the defendant therein held by or standing on the records of the county in the name of such other person (naming him), are attached. In addition, a similar copy of the writ, description and notice shall be delivered to such other person, or his agent, if known and within the county, or left at the residence of either, if within the county. The recorder must index such attachment when recorded, in the names, both of the defendant and of the person by whom the property is held or in whose name it stands of record.

2a. Growing crops (which, until severance, shall be deemed personal property not capable of manual delivery), or any interest therein, belonging to the defendant, and growing upon real property held by any other person or standing upon the records of the county in the name of any other person, must be attached in the same manner as growing crops growing upon real property standing upon the records of the county in the name of the defendant are attached by the provisions of subdivision 1a of this section, and the notice of attachment shall state that the crops therein described or any interest of the defendant therein, held by, or standing upon the records of the county in the name of, such other person (naming him), are attached in pursuance of the writ. In addition, a similar copy of the writ, description and notice shall be delivered to such other person, or his agent, if known and within the county, or left at the residence of either, if known and within the county. The recorder must index such attachment when recorded, in the names of both the defendant and of the person by whom the real property is held, or in whose name it stands on the record.

Whenever growing crops have been attached under the provisions of this subdivision, which will greatly deteriorate in value unless properly cultivated, cared for, harvested, packed or sold, the court issuing such writ, upon application of the person in whose favor the writ runs, and with or without notice as the court directs to the owner of said property, may direct the sheriff to take possession of said property and to cultivate, care for and preserve the same and, when necessary, harvest, pack and sell such property. Any sale of such property shall be made in the same manner that property is sold under execution and the proceeds must be retained by the sheriff to be applied to the satisfaction of any judgment which may be recovered in the action in which said writ is issued. The court

shall order said applicant to pay such expenses in advance if the court may deem it proper, or may direct that the whole or any part of such expenses be paid from the proceeds of any sale of such property.

3. Personal property, capable of manual delivery, in the possession of the defendant, must be attached by taking it into custody.

4. Stocks or shares, or interest in stocks or shares, of any corporation or company, must be attached by leaving with the president, vice president or other head of the same, or the secretary, assistant secretary, cashier, assistant cashier, or any managing agent, thereof, a copy of the writ, and a notice stating that the stock or interest of the defendant is attached, in pursuance of such writ.

5. In cases where the sheriff, constable, or marshal is instructed to take into possession personal property capable of manual delivery, whether the same is to be placed in a warehouse or in custody of a keeper, the sheriff, constable or marshal shall require, as a prerequisite to the taking of such property, that in addition to written instructions the plaintiff or his attorney of record deposit with the sheriff, constable or marshal, a sum of money sufficient to pay the expenses of taking and keeping safely said property for a period not to exceed 15 days. In the event that a further detention of said property is required, the sheriff, constable or marshal must, from time to time, make written demand upon the plaintiff or his attorney for further deposits to cover estimated expenses for periods not to exceed five days each. Such demand must be served as provided in Section 1011 of this code, or by depositing such notice in the post office in a sealed envelope, as first-class registered mail, postage prepaid, addressed to the person on whom it is served at his last known office or place of residence. In the event that the money so demanded is not paid, the sheriff, constable or marshal shall release the property to the person or persons from whom the same was taken. There shall be no liability upon the part of the sheriff, constable or marshal to take or hold personal property unless the provisions of this section shall have been fully complied with. There shall be no liability upon the part of the sheriff, constable or marshal, either to the plaintiff or the defendant for loss by fire, theft, injury or damage of any kind to personal property capable of manual delivery while in the possession of the sheriff, constable or marshal either in a warehouse or in the custody of a keeper or en route to or from a warehouse unless the sheriff, constable or marshal shall be negligent in his care or handling of the property.

6. Debts and credits and other personal property not capable of manual delivery must be attached by leaving with the persons owing such debts, or having in his possession, or under his control, such credits and other personal property, or with his agent or, in the case of a corporation, with the

president of the corporation, vice president, secretary, assistant secretary, cashier, or managing agent thereof, a copy of the writ, and, if the demand as stated in the writ does not exceed three hundred dollars ($300) exclusive of interest, attorney's fees and costs, a copy of the complaint in the action from which the writ issued, and, in every case, a notice that the debts owing by him to the defendant, or the credits and other personal property in his possession, or under his control, belonging to the defendant, are attached in pursuance of such writ; provided, that debts owing to defendant arising from personal services rendered at any time within 30 days next preceding the levy of attachment such attachment is subject to the provisions of Section 690.11 of the Code of Civil Procedure; provided, however, that debts owing to the defendant by any of the following financial institutions: (a) banks; (b) savings and loan associations; (c) title insurance companies or underwritten title companies (as defined in Section 12402 of the Insurance Code); (d) industrial loan companies (as defined in Section 18003 of the Financial Code), maintaining branch offices, or credits or other personal property whether or not the same is capable of manual delivery, belonging to the defendant and in the possession of or under the control of such financial institution must be attached by leaving a copy of the writ and the notice, together with a copy of the complaint if required hereunder, with the manager or other officer of such financial institution at the office or branch thereof at which the account evidencing such indebtedness of the defendant is carried, or at which such financial institution has credits or other personal property belonging to the defendant in its possession or under its control; and no attachment shall be effective as to any debt owing by such financial institution if the account evidencing such indebtedness is carried at an office or branch thereof not so served, or as to any credits or other personal property in its possession or under its control at any office or branch thereof not so served. Whenever wages have been attached under the provisions of this subdivision, the notice described above shall state the provisions of Section 690.11 of this code, and shall state that the debtor, to avail himself of an exemption of more than one-half of his wages earned the preceding 30 days, must file an affidavit with the levying officer as provided in Section 690.26 of this code.

7. Checks, drafts, money orders and other orders for the withdrawal of money from a banking corporation or association, which are in the possession of and payable to the defendant or judgment debtor on demand, must be attached by taking the same into custody, and the sheriff, constable, or marshal, to whom the writ is directed and delivered, shall promptly thereafter endorse the same and present, or cause the same to be presented, for payment. The sheriff, constable, or marshal shall endorse such check, draft, money order or other order for the withdrawal of money by writing the name of the defendant or judgment debtor thereon and the name

and official title of the officer making the levy with the statement that such endorsement is made pursuant to levy of writ of attachment or execution and giving the title of court and cause in which such writ was issued, and such endorsement shall be sufficient endorsement and no banking corporation or association on which said check, draft, money order or other order for the withdrawal of money is drawn shall incur any liability to any person, firm or corporation by reason of paying to such officer such check, draft, money order or other order for withdrawal of money by reason of such endorsement, nor shall the officer making the levy incur any liability by reason of his endorsing and presenting for and obtaining payment of such check, draft, money order or other order for the payment of money; provided, however, that the funds or credit resulting from the payment of such check, draft, money order or other order for withdrawal of money shall be held by said officer subject to the levy of said writ of attachment or execution. If it appear from the face of such check, draft, money order or other order for the withdrawal of money that the same has been tendered to the defendant or judgment debtor in satisfaction of a claim or demand and that endorsement thereof shall be considered a release and satisfaction by defendant or judgment debtor of such claim or demand, then, in such event, the officer making the levy shall not endorse said check, draft, money order or other order for the withdrawal of money unless the defendant or judgment debtor shall first endorse the same to the officer making the levy; provided, however, that if said defendant shall not endorse said check, draft, money order or other order for withdrawal of money to the officer making the levy, said officer may thereafter hold such check, draft, money order or other order for the withdrawal of money subject to such levy and shall incur no liability to the defendant or judgment debtor or to any other person, firm or corporation for delay in presentment of the same for payment.

1203.1. The court or judge thereof, in the order granting probation, may suspend the imposing, or the execution of the sentence and may direct that such suspension may continue for such period of time not exceeding the maximum possible term of such sentence, except as hereinafter set forth, and upon such terms and conditions as it shall determine. The court, or judge thereof, in the order granting probation and as a condition thereof may imprison the defendant in the county jail for a period not exceeding the maximum time fixed by law in the instant case; provided, however, that where the maximum possible term of such sentence is five years or less, then such period of suspension of imposition or execution of sentence may, in the discretion of the court, continue for not over five years; may fine the defendant in such sum not to exceed the maximum fine provided by law in such case; or may in connection with granting probation, impose either imprisonment in county jail, or fine, or both, or neither; may provide for reparation in proper cases; and may require bonds for the faithful observance and performance of any or all of the conditions of probation. In all cases of probation the court is authorized to require as a condition of probation that the probationer go to work and earn money for the support of his dependents or to pay any fine imposed or reparation condition, to keep an account of his earnings, to report the same to the probation officer and apply such earnings as directed by the court.

In all such cases if as a condition of probation a judge of the superior court sitting by authority of law elsewhere than at the county seat requires a convicted person to serve sentence at intermittent periods such sentence may be served on the order of the judge at the city jail nearest to the place at which the court is sitting, and the cost of his maintenance shall be a county charge.

Upon the defendant being released from the county jail under the terms of probation as originally granted or any modification subsequently made, and in all cases where confinement in a county jail has not been a condition of the grant of probation, the court shall place the defendant or probationer in and under the charge of the probation officer of the court, for the period or term fixed for probation; provided, however, that upon the payment of any fine imposed and the fulfillment of all conditions of probation, probation shall cease at the end of the term of probation, or sooner, in the event of modification. SECTION 1. Section 20803 of the Education Code is amended to read:

20803. Any maximum rate of tax for any district may be increased and, having been increased, may be decreased by an amount equal to or less than the amount of such increase, by a majority vote of the qualified electors of the school district at an election which may be ordered by the governing board of the school district of its own motion and shall be ordered within 90 days after the filing with the governing board of a petition signed by not less than 10 percent of the registered voters of the district, requesting that an election be ordered, unless the petitioners request that the election be consolidated with the annual election for members of the governing board, or that the election be consolidated with the general election.

Any decrease in an increased maximum tax rate pursuant to this section shall not be in an amount which will reduce the tax rate for the district below the maximum specified in Section 20751. The governing board shall determine whether the increase or decrease shall remain in effect for a specified or unspecified period of time, unless the petition filed by the electors provides for a specified or unspecified period of time. If a specified period is provided for in the petition or determined upon by the governing board, such period shall be stated on the ballot.

Pursuant to the order of the governing board, the election shall be called, held, and conducted by the county superintendent of schools, in as nearly the same manner as is practicable as are elections for the issuance of school district bonds, except that notices of the election shall be signed by the county superintendent of schools which officer shall also canvass the returns of said election. If there is a newspaper of general circulation published in the county in which any part of the district is situated, the notice shall be published therein pursuant to Section 6063 of the Government Code. In addition, except when the election is completely consolidated with another election in which the electors are notified by mail of their polling place, the time of election, and receive a sample ballot for the election and the governing board of the district in which the election is held orders otherwise, the county clerk, or the registrar of voters if such office has been established, of the county in which the majority of the territory of the district

is located, shall, at least 10 days before the day fixed for the election, mail to each registered voter residing within the district, a card designating the polling place and time of the election and stating the purposes of the election. Such statement shall contain only the following:

(a) The amount of the proposed decrease or increase in the maximum tax rate. If the proposed increase is a continuation of a previously authorized tax rate that fact shall be so stated.

(b) A brief summary of the issues involved.

At least 60 days before the date of the election the governing board of the school district shall furnish the county clerk or registrar of voters with a list of precincts established for the election and the polling place in each such precinct, together with a copy of the statement of the purposes of the election in the form in which it is to appear on the card. The same information shall be furnished the county superintendent of schools by the governing board of the district for all maximum tax increase or decrease elections ordered by it.

The costs incurred by the county clerk or registrar of voters and the county superintendent of schools in connection with this section shall be paid out of the funds of the district.

Except as otherwise herein provided, the ballot used in the election shall contain substantially the words "Shall the proposed (increase decrease) in the maximum tax rates from _____ to _____, (such rate to be in effect in the _____ school district for the school year (or years) 19___ to 19___,) be authorized?" Opposite such words, in separate lines, the words "Yes" and "No" shall be printed, with a voting square opposite each such word. If, at any prior election held in the district, the maximum tax rate of the district was increased for a specified period of time, and if the election is called for the purpose of continuing in effect the previously authorized increase in the maximum tax rate of the district, the words to appear on the ballot shall be "Continuation of existing maximum tax rate of _____ for the school years 19___ to 19___, yes" and "Continuation of existing maximum tax rate of _____ for the school years 19___ to 19___, no" or words of similar import. Each voter shall stamp or print a cross in the voting square after the answer he desires to give.

Whenever the maximum tax rate of a school district is increased for either a specified or unspecified period of time and during such period an election is called for the purpose of further increasing the maximum tax rate of the district, the ballot used in the election shall show only the authorized maximum tax rate of the district in effect at the time of the election and the proposed maximum tax rate.

If an election for a decrease in an increased maximum tax rate of a district is held in any year prior to or concurrently with the district election for governing board members, any decrease adopted at such election shall become effective on July 1st following the election. If an election for a decrease

in an increased tax rate of a district is held in any year after the date of the district election for governing board members, any decrease adopted at such election shall not become effective until July 1st of the next succeeding year.

[Approved by Governor June 16, 1959. Filed with Secretary of State June 16, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 134 of the Revenue and Taxation Code is amended to read:

"Unsecured property"

134. "Unsecured property" is property:

(a) The taxes on which are not a lien on real property sufficient, in the opinion of the assessor, to secure payment of the taxes.

(b) The taxes on which were secured by real estate on the lien date and which real estate was later acquired by the United States of America, the State, or by any county, city, school district or other public agency and the taxes transferred to the unsecured roll pursuant to Section 4986 of this code.

SEC. 2. Section 2921.5 of said code is amended to read:

Transfer of taxes

2921.5. Taxes on unsecured property as defined in Section 134, subparagraph (b) of this code shall be transferred from the "secured roll" to the "unsecured roll" of the corresponding year by the county auditor on order of the board of supervisors with the written consent of the district attorney pursuant to Section 4986 of this code at the same time the taxes

are canceled on the real estate, and shall be collected in the same manner as other delinquent taxes on the "unsecured roll"; provided, that no delinquent penalty shall attach to such taxes so transferred, except to those taxes which carried delinquent penalty on the secured roll at the time the real estate involved was acquired by a public agency.

SEC. 3. Section 4986 of said code is amended to read:

Cancellation of taxes, etc

4986. (1) All or any portion of any uncollected tax, penalty, or costs, heretofore or hereafter levied, may, on satisfactory proof, be canceled by the auditor on order of the board of supervisors with the written consent of the district attorney if it was levied or charged:

(a) More than once.

(b) Erroneously or illegally.

(c) On a portion of an assessment in excess of the cash value of the property by reason of the assessor's clerical error.

(d) On improvements when the improvements did not exist on the lien date.

(2) (a) On property acquired after the lien date by the United States of America, if such property upon such acquisition becomes exempt from taxation under the laws of the United States, or by the State or by any county, city, school district or other public agency, and because of such public ownership becomes not subject to sale for delinquent taxes, and on property annexed after the lien date by the city owning it, no cancellation shall be made in respect of all or any portion of any such unpaid tax, or penalties or costs, but such tax, together with such penalties and costs as may have accrued thereon while on the secured roll, shall be transferred to the unsecured roll pursuant to Section 2921.5 of this code, and collection thereof shall be made and had as provided therein, except that the statute of limitations on any suit brought to collect such taxes and penalties shall commence to run from the date of transfer of such taxes, penalties and costs to the unsecured roll, which date shall be entered on the unsecured roll by the auditor opposite the name of the assessee at the time such transfer is made. The foregoing toll of the statute of limitations shall apply retroactively to all such unpaid taxes and penalties so transferred, the delinquent dates of which are prior to the effective date of the amendment of this section at the 1959 Regular Session.

If any property described in this subdivision is acquired by a negotiated purchase and sale after the lien date but prior to the commencement of the fiscal year for which current taxes are a lien on the property, the amount of such current taxes shall not be transferred to the unsecured roll, and neither the person from whom the property was acquired nor the public agency shall be liable for the payment of such taxes. If, however, the property is so acquired after the commencement of the fiscal year for which the current taxes are a lien on the property, that portion only of such current taxes, together with any allocable penalties and costs thereon, which are properly

allocable to that part of the fiscal year which ends on the day before the date of acquisition of the property, shall be transferred to the unsecured roll and be collectible from the person from whom the property was acquired. The portion of such taxes, together with any penalties and costs thereon, which are allocable to that part of the fiscal year which begins on the date of the acquisition of the property, shall not be transferred to the unsecured roll nor be collectible either from the person from whom the property was acquired nor from the public agency.

In no event shall any transfer of unpaid taxes, penalties or costs be made with respect to property which has been tax-deeded to the State for delinquency.

(b) If at the time exemption from sale attaches to land or improvements acquired by a public agency the purchase price thereof is deposited in the registry of a court in an eminent domain proceeding, all delinquent taxes, penalties and costs which were or are a lien against such land or improvements and the pro rata share of the current taxes, penalties and costs which are a lien against such land or improvements, prorated for the fiscal year for which such current taxes, penalties and costs are or will be due and payable, shall be paid out of the award. The date for such proration shall be at the time title was transferred to, or possession was taken by, the public agency, whichever time the court determines to have first occurred. If the amount of the current tax is not ascertainable at the time the proration is made the same shall be estimated and computed by the court based upon the last equalized assessed value of the property in its entirety regardless of any segregation which may occur by reason of the taking, and the tax rate levied on the property for the immediate prior year. The court shall further order canceled the public agency's portion of any prorated current tax. The subject of the amount of the taxes which may be due on the property shall not be considered relevant on any issue in the condemnation action, and the mention of said subject, either on the voir dire examination of jurors, or during the examination of witnesses, or as a part of the court's instructions to the jury, or in argument of counsel, or otherwise, shall constitute grounds for a mistrial in any such action.

No cancellation under paragraph (b) of subdivision (1) of this section shall be made in respect of all or any portion of any tax, or penalties or costs attached thereto, collectible by county officers on behalf of a municipal corporation without the written consent of the city attorney thereof.

(b) A life income consisting of his service retirement annuity plus such pension as may be provided by the actuarial value of his current and prior service pensions remaining after providing the temporary annuity in (a).

The temporary annuity under (a) shall not be subject to further optional settlement under this article and shall be payable monthly until the retired member attains or would

This section shall not apply to an allowance based on service with respect to which a member is subject to either Section 21252.5 or Section 21250.5.

The amount by which such retroactive employee contributions for a member charged to the account of the employer exceeds the amount transferred from the employee account shall constitute an indebtedness of the member to the employer and a lien on any salary or wages payable to such employee or on his account. If said contract is or has been amended to provide for the payment of retroactive employee and employer contributions in the manner provided in this section, it may be further amended to provide that the amount by which (1) the total normal contributions of each member for the period subsequent to the effective date of coverage under the federal system less the total normal contributions which would have been credited to the account of such member had the reduced rate of contribution provided in the amended contract with the public agency been in effect from and after the aforesaid date of coverage exceeds (2) the employee federal contributions for such member for the period after said date of coverage shall be paid to such member.

In order that the benefits of the federal system of Old-Age, Survivors and Disability Insurance, if such benefits are made available to employees of a contracting agency, will not be denied to those employees who are in need thereof by reason of the arbitrary age fixed for compulsory retirement under the state system, it is necessary that this act take effect immediately.

Suspension of license

30144. The license of any distributor shall be automatically suspended upon cancellation of his bond, or if the bond becomes void or unenforceable for any reason, or if the distributor fails to pay any taxes or penalties due under this part. The license shall be automatically reinstated if the distributor files a valid bond, or pays his delinquent taxes, as the case may be.

Upon the petition of any distributor whose license has been suspended under this section, a hearing shall be afforded him after five days' notice of the time and place of hearing.

Deposit in lieu of bond

30145. In lieu of a bond or bonds a distributor, under such conditions as the board may prescribe, may deposit with the State Treasurer an amount of lawful money equivalent to the amount of the bond or bonds or he may deposit bonds or other obligations of the United States, the State of California, or any county or city and county of this State of an actual market value not less than the amount of the bond or bonds fixed by the board.

Payment of delinquencies from deposit

30146. Upon receipt of a certificate of the board setting forth the amount of a distributor's delinquencies, the State Treasurer shall pay to the board the amount so certified from the money deposited with him by the distributor or from the amounts received from the sale of bonds or other obligations deposited with the Treasurer by the distributor. Securities deposited with the State Treasurer which have a prevailing market price may be sold by him for the purposes of this section at private sale at a price not lower than the prevailing market price thereof.

Issuance of license

30147. Upon receipt of a completed application and such bonds or other security as may be required by the board under this part, the board shall issue to the applicant a license as a distributor. A separate license shall be issued for each place of business of the distributor within the State. A license is valid only for engaging in business as a distributor at the place designated thereon, and it shall at all times be conspicuously displayed at the place for which issued. The license is not transferable and is valid until canceled, suspended, or revoked.

Revocation of license

30148. Whenever any distributor fails to comply with any provision of this part or any rule or regulation of the board prescribed and adopted under this part, the board upon hearing, after giving the distributor at least 10 days' notice in writing specifying the time and place of hearing and requiring him to show cause why his license should not be revoked, may revoke the license held by him. The notice may be served personally or by mail in the manner prescribed for service of notice of a deficiency determination. The board shall not issue

a new license to a distributor whose license has been revoked unless it is satisfied that he will comply with the provisions of this part and the rules and regulations of the board.

Misdemeanor

30149. Any person required to obtain a license as a distributor under this chapter who engages in business as a distributor without a license or after a license has been canceled, suspended, or revoked, and each officer of any corporation which so engages in business, is guilty of a misdemeanor.

Article 2. Registration

Registration

30161. Every distributor, except one to whom a license is issued under Article 1 of this chapter, required under Section 30108 to collect the tax imposed under this part from a purchaser shall register with the board and give the names and addresses of all agents operating in this State, the location of all distribution or sales houses or offices or other places of business in this State, and such other information as the board may require.

CHAPTER 4. DETERMINATIONS

Article 1. Reports and Payments

Date due

30181. When the tax imposed under Article 1 of Chapter 2 of this part is not paid through the use of stamps or meter impressions, the tax shall be due and payable monthly on or before the fifteenth day of the month following the calendar month in which a distribution of cigarettes occurs.

Report Distributors

30182. On or before the fifteenth day of each month, every distributor shall file on forms prescribed by the board a report respecting his distributions of cigarettes and purchases of stamps during the preceding month and such other information as the board may require to carry out the purposes of this part.

Same

30183. On or before the fifteenth day of each month every distributor required under Section 30108 to collect any tax during the preceding month shall file a report with the board on forms prescribed by the board showing the number of cigarettes with respect to which he was required to collect the tax and such other information as the board may require to carry out the purposes of this part.

Payment

30184. The distributor shall submit with each report a remittance payable to the board for the amount of tax due.

Extension

30185. The board for good cause may extend for not to exceed 30 days the time for making any report or paying any amount of tax required under this part. The extension may be granted at any time provided a request therefor is filed with the board within or prior to the period for which the extension may be granted.

Any person to whom an extension is granted shall pay, in addition to the amount of tax, interest at the rate of one-half of 1 percent per month, or fraction thereof, from the

date on which the amount of tax would have been due without the extension to the date of payment.

Report: Common carriers, etc.

30186. On or before the fifteenth day of each month the common carriers and authorized persons specified in Section 30104 shall file with the board a report of the sales of cigarettes made by them on the facilities of the carriers in California in the preceding calendar month in such detail and form as the board may prescribe, submitting with the report the amount of the tax due under Section 30104.

Same. Consumer or user

30187. Every consumer or user subject to the tax resulting from a distribution of cigarettes within the meaning of subdivision (d) of Section 30008 from whom the tax has not been collected under Section 30108 shall on or before the fifteenth day of the month following receipt of cigarettes file with the board a report of the amount of cigarettes received by him in the preceding calendar month in such detail and form as the board may prescribe, submitting with the report the amount of tax due.

Article 1.5. Stamps

Stamps or metering machines

30191. Except as otherwise provided in this part, the tax imposed by this part with respect to cigarettes shall be prepaid through the use of stamps furnished and sold by the board or through the use of metering machines approved by the board. Stamps and meter impressions shall be of such designs, specifications and denominations as may be prescribed by the board. When a metering machine is used by a distributor, the tax shall be prepaid by the distributor and the meter on the machine shall be sealed by the board and used only in accordance with regulations prescribed by it. Notwithstanding any other provision of this part, the board by regulation may provide that the tax imposed by this part with respect to cigarettes shall be paid without the use of stamps or meter impressions in connection with a particular type of transaction.

Regulations

30192. The board shall prescribe by regulation the method and manner in which stamps or meter impressions are to be affixed to packages of cigarettes. A distributor shall not sell to or exchange with another distributor any stamps issued by the board.

Affixed to each package

30193. An appropriate stamp shall be affixed to or an appropriate meter impression shall be made on each package of cigarettes prior to the distribution of the cigarettes. The board by regulation may provide for the cancellation of stamps or meter impressions.

Allowance for costs

30194. A distributor shall be allowed, as a refund on his payments for stamps and prepayments for use of meter impressions, the amount of his necessary costs incurred in affixing the stamps or meter impressions to packages of cigarettes. The amount of such refund shall not exceed a maximum allowance of 2 percent of the face value of the stamps and meter impressions affixed by the distributor. The board shall prescribe rules and regulations for determination of the necessary costs in-

curred in affixing stamps or meter impressions to packages of cigarettes, and the rules and regulations shall include but not be limited to provisions for the apportionment of capital outlay and overhead costs.

Claims for refund of costs

30195. Claims for refund of costs for affixing stamps or meter impressions shall be filed with the board in such form as the board may prescribe. A distributor may file no more than one claim for refund of costs in each calendar month. No such refund shall be allowed or approved unless the claim therefor is filed with the board within three years from the last day of the month for which the costs were incurred. Failure to file a claim for refund of costs within the time prescribed in this section constitutes a waiver of any claim against the State on account of the costs.

Same

30196. When approved by the board a claim for refund of costs for affixing stamps or meter impressions shall be paid from the Cigarette Tax Fund upon order of the State Controller.

Redetermination of refund

30197. At any time within three years of the date of payment of the warrant of the State Controller for refund of costs for affixing stamps or meter impressions, the board may redetermine the amount of the refund. If the board determines that the amount of refund was excessive it shall proceed in the manner prescribed in this part for deficiency determinations. If the amount determined as an excessive refund is not paid when it becomes final the amount shall be deducted by the board from any subsequent refunds allowed the distributor, and if not fully paid in this manner it shall constitute an erroneous refund and be recoverable as such.

Article 2. Deficiency Determinations

Deficiency determination

30201. If the board is dissatisfied with the report filed by any person, it may compute and determine the amount to be paid upon the basis of any information available to it. One or more deficiency determinations may be made of the amount of tax due for one or for more than one month.

Interest

30202. The amount of the determination, exclusive of penalties, shall bear interest at the rate of one-half of 1 percent per month, or fraction thereof, from the fifteenth day after the close of the month for which the amount of the tax, or any portion thereof, should have been reported until the date of payment.

Offsets

30203. In making a determination the board may offset overpayments for a month or months against underpayments for another month or months and against the interest and penalties on the underpayments.

Penalty

30204. If any part of the deficiency for which a deficiency determination is made is due to negligence or intentional disregard of this part or the rules and regulations adopted under this part, a penalty of 10 percent of the amount of the determination shall be added thereto.

Same

30205. If any part of the deficiency for which a deficiency determination is made is due to fraud or an intent to evade this part or the rules and regulations adopted under this part, a penalty of 25 percent of the amount of the determination shall be added thereto.

Notice

30206. The board shall give the person written notice of its determination. The notice may be served personally or by mail; if by mail, service shall be made pursuant to Section 1013 of the Code of Civil Procedure and shall be addressed to the person at his address as it appears in the records of the board, but the service shall be deemed complete at the time of deposit of the notice in the mail without extension of time on account of the distance between the place of deposit and the place of address.

Limitation

30207. Except in the case of fraud, intent to evade the tax, or failure to make a report, every notice of a deficiency determination shall be given within three years after the date when the amount should have been reported.

Article 3. Determinations If No Report Made

Determination

30221. If any person fails to make a report, the board shall make an estimate of the number of cigarettes distributed, sold or received by him. The estimate shall be made for the month or months in respect to which the person failed to make a report and shall be based upon any information available to the board. Upon the basis of this estimate the board shall compute and determine the amount required to be paid to the State, adding to the sum thus fixed a penalty equal to 10 percent thereof. One or more determinations may be made for one or for more than one month.

Offsets

30222. In making a determination the board may offset overpayments for a month or months against underpayments for another month or months and against interest and penalties on the underpayments.

Interest

30223. The amount of the determination, exclusive of penalties, shall bear interest at the rate of one-half of 1 percent per month, or fraction thereof, from the fifteenth day after the close of the month for which the amount, or any portion thereof, should have been reported until the date of payment.

Penalty

30224. If the failure of a person to file a report is due to fraud or an intent to evade the tax, a penalty of 25 percent of the amount required to be paid by the person, exclusive of penalties, shall be added thereto in addition to the 10 percent penalty provided in Section 30221.

Notice

30225. Promptly after making its determination the board shall give to the person written notice of its estimate and determination, and of the penalty, the notice to be served personally or by mail in the manner prescribed for service of notice of a deficiency determination.

Article 4. Jeopardy Determinations

30241. If the board believes that the collection of any amount of tax required to be paid by any person under this part will be jeopardized by delay, it shall thereupon make a determination of the amount of tax, noting that fact upon the determination. The amount determined is immediately due and payable. Jeopardy determinations

30242. If the amount of the tax, interest, and penalty specified in the jeopardy determination is not paid within 10 days after service upon the person of notice of the determination, the determination becomes final, unless a petition for redetermination is filed within the 10 days, and the delinquency penalty and interest provided in Article 6 of this chapter shall attach to the amount specified. Same

30243. The person against whom a jeopardy determination is made may petition for the redetermination thereof pursuant to Article 5 of this chapter. He shall, however, file the petition for redetermination with the board within 10 days after the service upon him of notice of the determination. The person shall at the time of filing the petition for redetermination deposit with the board such security as it may deem necessary to insure compliance with this part. The security may be sold by the board at public sale if it becomes necessary in order to recover any amount due under this part. Notice of the sale may be served upon the person who deposited the security personally or by mail in the same manner as prescribed for service of notice by Section 30206. Upon any such sale, the surplus, if any, above the amount due under this part shall be returned to the person who deposited the security. Petition for redetermination

Article 5. Redeterminations

30261. Any person against whom a determination is made under Article 2 or 3 of this chapter may petition for a redetermination within 30 days after service upon the person of notice thereof. If a petition for redetermination is not filed within the 30-day period, the determination becomes final at the expiration of the period. Same

30262. If a petition for redetermination is filed within the 30-day period, the board shall reconsider the determination and, if the person has so requested in his petition, shall grant him an oral hearing and shall give him at least 10 days' notice of the time and place of the hearing. The board may continue the hearing from time to time as may be necessary. Reconsideration and hearing

30263. The order or decision of the board upon a petition for redetermination becomes final 30 days after mailing of notice thereof. Order

30264. All determinations made by the board under Article 2 or 3 of this chapter are due and payable at the time they become final. If they are not paid when due and payable, a Penalty

penalty of 10 percent of the amount of the determination, exclusive of interest and penalties, shall be added thereto.

Notice

30265. Any notice required by this article shall be served personally or by mail in the manner prescribed for service of notice of a deficiency determination.

Article 6. Interest and Penalties

Interest and penalties

30281. Any person who fails to pay any tax, except a tax determined by the board under Article 2 or 3 of this chapter, within the time required shall pay a penalty of 10 percent of the amount of the tax, in addition to the tax, plus interest at the rate of one-half of 1 percent per month, or fraction thereof, from the date on which the tax became due and payable until the date of payment.

Chapter 5. Collection of Tax

Article 1. Suit for Tax

Suit for tax

30301. At any time within three years after any amount of tax becomes due and payable, and at any time within three years after the last recording of a certificate under Section 30322, the board may transmit notice of the delinquency to the Attorney General, who shall at once proceed by appropriate legal action to collect all sums due the State.

Attachment

30302. In the action a writ of attachment may issue, and no bond or affidavit previous to the issuing of the attachment is required.

Evidence

30303. In the action a certificate by the board showing the delinquency shall be prima facie evidence of the determination of the tax or the amount of the tax, of the delinquency of the amount of tax, interest, and penalty set forth, and of compliance by the board with all provisions of this part in relation to the computation and determination of the tax.

Article 1.5. Notice to Withhold

Notice to withhold

30311. If any person is delinquent in the payment of the amount required to be paid by him or in the event a determination has been made against him which remains unpaid, the board may, not later than three years after the payment became delinquent, or within three years after the last recording of a certificate under Section 30322, give notice thereof personally or by registered mail to all persons, including any officer or department of the State or any political subdivision or agency of the State, having in their possession or under their control any credits or other personal property belonging to the delinquent, or person against whom a determination has been made which remains unpaid, or owing any debts to the delinquent or such person. In the case of any state officer, department or agency, the notice shall be given to such officer.

department or agency prior to the time it presents the claim of the delinquent taxpayer to the State Controller.

30312. After receiving the notice the persons so notified shall neither transfer nor make any other disposition of the credits, other personal property, or debts in their possession or under their control at the time they receive the notice until the board consents to a transfer or disposition or until 60 days elapse after the receipt of the notice, whichever period expires the earlier. Prohibition

30313. All persons so notified shall forthwith after receipt of the notice advise the board of all such credits, other personal property, or debts in their possession, under their control, or owing by them. If such notice seeks to prevent the transfer or other disposition of a deposit in a bank or other credits or personal property in the possession or under the control of a bank, the notice to be effective shall be delivered or mailed to the branch or office of such bank at which such deposit is carried or at which such credits or personal property is held. Report

30314. If, during the effective period of the notice to withhold, any person so notified makes any transfer or disposition of the property or debts required to be withheld hereunder, to the extent of the value of the property or the amount of the debts thus transferred or paid he shall be liable to the State for any indebtedness due under this part from the person with respect to whose obligation the notice was given if solely by reason of such transfer or disposition the State is unable to recover the indebtedness of the person with respect to whose obligation the notice was given. Liability

Article 2. Priority and Lien of Tax

30321. The amounts required to be paid by any person under this part together with interest and penalties shall be satisfied first in any of the following cases: Priorities

(a) Whenever the person is insolvent.

(b) Whenever the person makes a voluntary assignment of his assets.

(c) Whenever the estate of the person in the hands of executors, administrators, or heirs is insufficient to pay all the debts due from the deceased.

(d) Whenever the estate and effects of an absconding, concealed, or absent person required to pay any amount under this part are levied upon by process of law.

This section does not give the State a preference over any recorded lien which attached prior to the date when the amounts required to be paid became a lien.

The preference given to the State by this section shall be subordinate to the preferences given to claims for personal services by Sections 1204 and 1206 of the Code of Civil Procedure.

30322. If any amount required to be paid to the State under this part is not paid when due, the board may within three years after the amount is due file for record in the office of any Lien

county recorder a certificate specifying the amount, interest, and penalty due, the name and address as it appears on the records of the board of the person liable for the same, and the fact that the board has complied with all provisions of this part in the determination of the amount required to be paid. From the time of the filing for record, the amount required to be paid together with interest and penalty constitutes a lien upon all real property in the county owned by the person or afterwards and before the lien expires acquired by him. The lien has the force, effect, and priority of a judgment lien and shall continue for five years from the time of the filing of the certificate unless sooner released or otherwise discharged. The lien may, within five years from the date of the filing of the certificate or within five years from the date of the last extension of the lien in the manner herein provided, be extended by filing for record a new certificate in the office of the county recorder of any county and from the time of such filing the lien shall be extended to the real property in such county for five years unless sooner released or otherwise discharged.

Release or subordination of lien

30323. The board may at any time release all or any portion of the property subject to any lien provided for in this part from the lien or subordinate the lien to other liens and encumbrances if it determines that the amount, interest, and penalties are sufficiently secured by a lien on other property or that the release or subordination of the lien will not jeopardize the collection of the amount, interest, and penalties.

Evidence

30324. A certificate by the board to the effect that any property has been released from the lien or that the lien has been subordinated to other liens and encumbrances shall be conclusive evidence that the property has been released or that the lien has been subordinated as provided in the certificate.

Article 3. Warrant for Collection of Tax

Warrant

30341. At any time within three years after any person is delinquent in the payment of any amount herein required to be paid, or within three years after the last recording of a certificate under Section 30322, the board or its authorized representative may issue a warrant for the enforcement of any liens and for the collection of any amount required to be paid to the State under this part. The warrant shall be directed to any sheriff, marshal or constable and shall have the same effect as a writ of execution. The warrant shall be levied and sale made pursuant to it in the same manner and with the same effect as a levy and a sale pursuant to a writ of execution.

Payment of fees

30342. The board shall pay the sheriff, marshal or constable, upon the completion of his services pursuant to a warrant, the same fees, commissions, and expenses for his services as are provided by law for similar services pursuant to a writ of execution. The board, and not the court, shall approve the fees for publication in a newspaper.

30343. The fees, commissions, and expenses are the obligation of the person required to pay any amount under this part and may be collected from him by virtue of the warrant or in any other manner provided in this part for the collection of the tax. Liability for fees

Article 4. Miscellaneous Provisions

30351. The remedies of the State provided for in this chapter are cumulative, and no action taken by the board or Attorney General constitutes an election by the State to pursue any remedy to the exclusion of any other remedy for which provision is made in this part. Cumulative remedies

30352. In all proceedings under this chapter the board may act on behalf of the people of the State of California. State representation

CHAPTER 6. OVERPAYMENTS AND REFUNDS

Article 1. Claim for Refund

30361. If the board determines that any amount not required to be paid under this part has been paid more than once or has been erroneously or illegally collected or computed, the board shall set forth that fact in its records and certify to the State Board of Control the amount collected in excess of the amount legally due and the person from whom it was collected or by whom it was paid. If approved by the State Board of Control, the excess amount collected or paid shall be credited on any amounts then due and payable from the person under this part, and the balance shall be refunded to the person, or his successors, administrators, executors, or assigns. Refunds and credits

In the case, however, of a determination by the State Board of Equalization that an amount not exceeding one hundred dollars ($100) was not required to be paid under this part, the State Board of Equalization, without obtaining approval of the State Board of Control, may credit such amount on any amounts then due and payable under this part from the person by whom the amount was paid and shall refund the balance to the person or his successors, administrators or executors.

30362. No refund shall be allowed or approved after three years from the fifteenth day after the close of the monthly period for which the overpayment was made, or, with respect to a determination made under Chapter 4 of this part, after six months from the date the determination becomes final, or after six months from the date of overpayment, whichever period expires the later, unless a claim therefor is filed with the board within such period. No credit shall be approved or allowed after the expiration of such period unless a claim for credit is filed with the board within such period. Limitations

30363. Every claim for refund or credit shall be in writing and shall state the specific grounds upon which it is founded. Requirements

Waiver

30364. Failure to file a claim within the time prescribed in this article constitutes a waiver of all demands against the State on account of the overpayment.

Notice of disallowance

30365. Within 30 days after disallowing any claim in whole or in part, the board shall serve written notice of its action on the claimant in the manner prescribed for the service of a notice of a deficiency determination.

Interest

30366. Interest shall be computed, allowed, and paid upon any overpayment of any amount of tax at the rate of one-half of 1 percent per month from the fifteenth day of the calendar month following the monthly period for which the overpayment was made, but no refund or credit shall be made of any interest imposed upon the claimant with respect to the amount being refunded or credited.

The interest shall be paid:

(a) In the case of a refund, to the fifteenth day of the calendar month following the date upon which the claimant is notified by the board that a claim may be filed or the date upon which the claim is certified to the State Board of Control, whichever date is the earlier.

(b) In the case of a credit, to the same date as that to which interest is computed on the tax or amount against which the credit is applied.

Limitation

30367. If the board determines that any overpayment has been made intentionally or by reason of carelessness, it shall not allow any interest thereon.

Article 1.5. Refunds on Stamps or Meter Impressions

The court may call upon the services of any public or private agency in making placement and providing supervision and may commit such person for such time as the court deems fit, but not beyond the time during which the court retains jurisdiction as prescribed by the provisions of Section 750 of this code, to the care of any of the following persons, associations, corporations, or institutions, as herein prescribed:

Whenever the court makes such commitment to the County Department of Public Welfare, the welfare director or his deputies shall have direct access to the court in all matters pertaining to the welfare of children so committed and shall make reports to the court in such matters as the court may require.

Before any such person is conveyed to any such institution or department it shall be ascertained from the superintendent or director thereof that such person can be received.

The department shall review the California Freeway and Expressway System and shall report to the Legislature at or prior to the 1963 Regular Session and each four years thereafter, through such interim committee or committees as may be designated by legislative resolution, as to the progress made in developing the system and as to revisions that should be made in the system. Such studies shall be made without regard to whether particular routes are included in the State Highway System. Succeeding general district elections

61402. Succeeding general district elections shall be held on the same day as general elections in general law cities, or may be consolidated with the succeeding state direct primaries.

SEC. 4. Section 61402.5 is added to said code, to read:

Consolidated elections

61402.5. If the general district election is consolidated with the state direct primary, the district shall not later than the first day on which a candidate for a judicial office may file his declaration of intention to become a candidate as provided for in Article 1 (commencing with Section 10600) of Chapter 3 of Division 12 of the Elections Code, file with the board of supervisors, and a copy with the county clerk or registrar of voters, a resolution of its governing board requesting the board of supervisors to grant permission to consolidate the general district election with the state direct primary. The resolution shall set forth the number of vacancies to be filled at that election and it shall contain the names of those incumbent directors who then hold the offices at the time the resolution is filed.

If such permission is granted then only one form of ballot shall be used. Candidates shall declare their candidacy and shall be nominated, election returns shall be canvassed, the election shall be held and conducted, the results shall be declared, and the certificates of election shall be issued, in the same manner as the declaration of candidacy, nomination, election, canvassing of returns, declaration of results, and issuance of certificates of election for county officers are made, declared, held, conducted, and issued, provided that if there is but one person to be elected to an office, the candidate receiving the highest number of votes cast for the candidates for that office shall be declared elected, or, if there are two or more persons to be elected to an office, those candidates equal in number to the number to be elected who receive the highest number of votes for the office shall be declared elected.

If, on the sixty-fifth day prior to the day fixed for the district general election, only one person has been nominated for each office of member of the board of directors to be filled at *that election*, or if no person has been nominated for any one or more of said offices, said board of directors shall by resolu-

tion entered in their minutes order that an election shall not be held, and shall immediately request that the board of supervisors, at a regular or special meeting held prior to the day of election, appoint, and the board of supervisors shall thereupon appoint, to the office or offices the person or persons who have been nominated, or if no person or persons have been nominated, any qualified person or persons. The person appointed shall qualify and take office and serve exactly as if elected at a district general election.

In such case, the publication provided for in Article 6 (commencing with Section 2699) of Chapter 2 of Division 5 of the Elections Code shall, instead of calling an election, state that no election is to be held but that the board of supervisors will either appoint those nominated for the positions of directors or appoint a qualified person or persons to the office or offices for which no one has been nominated, as the circumstances may warrant.

The district shall bear any additional costs of the election caused by the consolidation.

SEC. 5. Section 61402.6 is added to said code, to read:

Provisions applicable

61402.6. If the election is not consolidated with the state direct primary and is held on the same day as specified in the Government Code for the holding of general elections in general law cities, Section 61402.5 of this code pertaining to the conduct of the consolidated election shall not be applicable to the manner of conduct of the general district election and all remaining sections of this chapter and of Chapter 2 (commencing with Section 61430) of this part shall control.

SEC. 6. Section 61403 of said code is amended to read:

Nomination petitions

61403. Nominations for the office of director shall be made by petition of five or more registered electors filed with the secretary not earlier than 75 days nor later than 12 o'clock noon on the fifty-fourth day before the election.

The secretary shall publish notice pursuant to Section 6066 of this code that such petitions may be received. Notice shall be published at least seven days prior to the final date for receiving petitions.

SEC. 7. Section 61430 of said code is amended to read:

Election not held

61430. If on the fiftieth day prior to a general district election one person only has been nominated for each of the positions of director to be filled at that election, or if no person has been so nominated for any one or more of said offices, and a petition signed by 5 percent of the voters requesting that the election be held has not been presented to the board, an election shall not be held.

SEC. 8. Section 61431 of said code is amended to read:

Publication

61431. In such case the publication provided for in Section 61405 shall instead of calling an election state that no election is to be held but that the board of supervisors will appoint those nominated for the positions of director; if no person has been nominated for said position, the board of supervisors will appoint any qualified person or persons.

SEC. 9. Section 61432 of said code is amended to read:

Appointment in lieu of election

61432. If pursuant to Section 61430 a district election is not held, the board of supervisors of the county in which the district, or the largest part thereof in area, is situated shall at its next regular meeting appoint to the positions of directors those persons nominated, or if no persons have been nominated for said positions, the board of supervisors shall appoint any qualified person or persons, and such person or persons shall qualify, take office, and serve exactly as if elected at a general district election.

CHAPTER 1079

An act to amend Sections 4730, 4845.20, 4845.21, 4845.32, and 4845.34 of, to amend and renumber Sections 4845.31 and 4845.35 of, and to add Sections 4845.31 and 4845.35 to, the Health and Safety Code, relating to county sanitation districts.

In effect September 18, 1959

[Approved by Governor June 19, 1959. Filed with Secretary of State June 19, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 4730 of the Health and Safety Code is amended to read:

Governing body

4730. The governing body of a sanitation district is a board of directors of not less than three members. The presiding officer of the governing body of each city, the whole or part of which is included in the sanitation district, is a member of the board. A member of the governing body of each sanitary district, the whole or part of which is included in the sanitation district, is a member of the board.

If the sanitation district includes territory which is unincorporated and not included in a sanitary district, then the presiding officer of the county board of supervisors is a member of the board.

The governing body of each city and the board of supervisors shall each select one of its members, other than its presiding officer, as an alternate director to act as a member of the district board in place of the presiding officer during his absence, inability or refusal to act.

If the sanitation district includes unincorporated territory and all or part of one city and no sanitary district, or unincorporated territory and one sanitary district and no city, then the presiding officer and one other member of the board of supervisors are members of the board, unless the population included in the city or sanitary district is more than half of the population of the whole sanitation district, in which case the presiding officer of the board of supervisors and the presiding officer and one other member of the governing body of the city or two members of the governing body of the sanitary district, as the case may be, constitute the board of directors.

If the total number of cities and sanitary districts included in the sanitation district in whole or in part is two and if the sanitation district does not include any territory not in cities or sanitary districts, then the district board includes the presiding officer and one other member of the governing body of the city or two members of the governing body of the sanitary district having the greatest population and the presiding officer of the governing body of the city or one member of the governing body of the sanitary district having the least population.

If the total number of cities and of sanitary districts wholly or in part within the sanitation district is two or more, and if, in addition, the district contains unincorporated territory, then the district board includes the presiding officer of the board of supervisors, the presiding officer of the governing board of each city, and a member of the governing board of each sanitary district.

If the district includes no territory which is in cities or sanitary districts, then the county board of supervisors is the board of directors of the district.

If the territory of the district lies wholly within a city, the legislative body of said city is the board of directors of the district.

A city within a sanitation district, the sewered portion of which city lies entirely within a sanitary district, shall have no representation on the board.

Notwithstanding the foregoing provisions of this section, whenever a sanitation district includes unincorporated territory and all or part of one city and no sanitary district, the governing body of such city may designate the board of supervisors of the county as the district board of directors, unless the population of the incorporated portion of the sanitation district is more than half of the population of the whole district. If the population of the incorporated portion of the sanitation district is more than half of the population of the whole district, the board of supervisors of the county may designate the governing body of the city as the district board of directors.

The term "sanitary district" as used in this section shall mean a sanitary district formed prior to the formation of the sanitation district in which it is included in whole or in part.

SEC. 2. Section 4845.20 of said code is amended to read:

Withdrawal of unincorporated territory from district

4845.20. All or any portion of the unincorporated territory within a district, or all or any portion of territory within a district which territory was, subsequent to the formation of the district, included within a city by annexation, incorporation, or otherwise, may be withdrawn from the district when all of the following conditions exist:

(a) The district has been in existence for at least one year;

(b) In the event the district has indebtedness evidenced by bonds and the indebtedness is outstanding and owing on the date of the election or upon receipt of the verified petition, or upon the adoption of the resolution, by the board of supervisors, the property within any territory withdrawing from the district shall nevertheless be liable for assessment and payment of the tax for its pro rata share thereof, except as otherwise provided in Section 4845 37.

Provided, however, that no portion of a city shall be withdrawn from a sanitation district under the provisions of this article if such city is in its entirety within one or more sanitation districts.

SEC. 3. Section 4845.21 of said code is amended to read:

Election

4845.21. The withdrawal may be effected by the vote of majority of the qualified electors of the territory seeking to withdraw voting at an election on the proposition to withdraw, in which case the election procedure as hereafter provided in Sections 4845.22 to and including Section 4845.28 shall be followed, or by verified petition presented to the board of supervisors in the manner as hereafter provided in this article, or by resolution of intention of the board of supervisors as hereafter provided in this article.

SEC. 4. Section 4845.31 of said code is amended and renumbered to read:

Petition

4845.30. A verified petition signed by the owners of real property in the portion to be excluded, said owners owning more than fifty percent (50%) in value of the assessed real property, shall be presented to the board of supervisors of the county within which the district is located. Said petition shall contain the following:

(a) A legal description of the area to be withdrawn together with a map thereof;

(b) The amount of indebtedness of a district presently outstanding, if any;

(c) Factual data establishing that the exclusion will not interfere with the operation of the sewage system in the balance of the district;

(d) A statement by the county assessor of said county that the petition appears to be signed by the owners of more than 50 percent of value of the assessed real property of the area described in the petition as appears from the current assessment roll of the county or city within which the area to be withdrawn is situated.

SEC. 5. Section 4845.31 is added to said code, to read:

Initiation of proceedings by resolution

4845.31. In lieu of a petition for withdrawal, a board of supervisors desiring to exclude a part of a district may initiate proceedings by adopting a resolution of its intention to exclude certain designated territory from the district. The resolution shall contain a statement of the intention to exclude a part of the district and a legal description of the area to be excluded.

SEC. 6. Section 4845.32 of said code is amended to read:

Hearing and notice

4845 32. Upon receipt of such petition, or upon the adoption of such resolution of intention, the board of supervisors shall set the same for hearing on a day not less than 20 days nor more than 35 days thereafter. The clerk of the board of supervisors shall cause a notice of the hearing, which shall contain a description of the property to be excluded, to be published once prior to the date fixed for such hearing, in a newspaper of general circulation circulated within the district and within the area proposed to be withdrawn which the board deems most likely to give notice to the inhabitants thereof and of the district as a whole or, if no such newspaper exists, the clerk shall cause such notice to be posted in three public places within the area proposed to be excluded.

SEC. 7. Section 4845.34 of said code is amended to read:

Finding re withdrawal

4845.34. At the time designated, the board of supervisors shall hear the petition, if any, or the resolution of intention, and any person interested therein and may adjourn the hearing from time to time not to exceed 60 days. The board of supervisors, if it finds that the portion of the district sought, or intended, to be withdrawn will not be benefited by remaining in the district, and that the territory not sought, or intended, to be withdrawn will be benefited by continuing as a district, may upon the conclusion of final hearing upon said petition, or said resolution of intention, grant or order such withdrawal, describing the area withdrawn, from the district; and subject to Sections 54900 to 54903, inclusive, of the Government Code said portion thereafter is no longer a portion of the district for any purpose, except that in the event district indebtedness or district expense is outstanding and owing on the date of the order granting or ordering said exclusion, the property within any territory so excluded from the district shall nevertheless remain liable for assessment and payment of the tax for its pro rata share thereof until the extingishment of said indebtedness or expense, except as otherwise provided in Section 4845.37.

SEC. 8. Section 4845.35 of said code is amended and renumbered to read:

Territory included within city

4845.37. Territory included within a city by annexation, incorporation, or otherwise may be withdrawn from the district through any of the procedures specified in this article, without the territory, subsequent to withdrawal, being subject to any further taxes by the district for the payment of maintenance, operating, or expenses other than the payment of principal and interest on bonds outstanding at the time of withdrawal, if the board of supervisors finds, at a hearing held after a petition for withdrawal is presented to the board pursuant to Section 4845.22 and prior to calling an election for withdrawal pursuant to Section 4845.23 or at the hearing required by Section 4845.34, by a resolution duly adopted, that the territory proposed to be withdrawn is not benefited by any services performed by the district.

SEC. 9. Section 4845.35 is added to said code, to read:

Objection to withdrawal

4845.35. If the area is proposed to be excluded by resolution of intention of the board of supervisors pursuant to Section 4845.31, and if written objection to the withdrawal of the territory signed by the owners of more than 50 percent in value of the assessed real property in the portion to be excluded is filed with the board of supervisors, the board of supervisors shall adopt an order abandoning the proposed exclusion without prejudice to further proceedings under this article.

Operative date, Effect Stats 1959, Ch. 2

SEC. 3. Section 1 of this act becomes operative when the Education Code enacted by the Legislature at its 1959 Regular Session takes effect, at which time Section 2421 5 of the Education Code, as amended by Section 2 of this act is repealed.

Urgency

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There are a number of city annexations pending wherein long "fingers" are being extended out from the annexing city to reach territory with high assessed valuations, which territory is annexed to the city for school and other purposes. Such a procedure has a serious financial impact upon small, outlying school districts to the detriment of the educational program offered by such districts to the children therein. Such outlying districts have at present no way of effectively objecting to this drastic reduction of their tax base and accompanying reduction in the educational program of the districts. To prevent the lowering of the quality and scope of the educational program offered children of these districts, it is necessary that this act take effect immediately.

SEC. 19. Section 33747 of said code is amended to read:

Amendments

33747. If at any time after the adoption of a redevelopment plan for a project area by the legislative body, it becomes necessary or desirable to amend or modify such plan, the legislative body may amend such plan upon the recommendation of the agency.

Before recommending amendment of the plan the agency shall hold a public hearing on the proposed amendment. Notice of such hearing shall be published pursuant to Section 6063 of the Government Code prior to the date of hearing in a newspaper of general circulation, printed and published in the community, or, if there is none, in a newspaper selected by the agency. The notice of hearing shall include a legal description of the boundaries of the area designated in the plan to be amended and a general statement of the purpose of the amendment. Copies of the notices shall be mailed to the last known assessee of each parcel of land within such boundaries, at his last known address as shown by the records of the assessor for the community, and to persons, firms, or corporations which have acquired property within such boundaries from the agency, at his last known address as shown by the records of the agency. The notice shall be mailed both by first class mail and by certified mail with return receipt requested. After receiving the recommendation of the agency concerning such changes in the plan, and not sooner than 30 days after the submission of changes to the planning commission, the legislative body shall hold a public hearing on the proposed amendment, notice of which hearing shall be published in a newspaper in the manner and at the times designated above for notice of hearing by the agency. If after such hearing the legislative body determines that the amendments in the plan, proposed by the agency, are necessary or desirable, the legislative body shall adopt an ordinance amending the ordinance adopting the plans thus amended.

Amendments to a plan adopted pursuant to this section shall be recorded in compliance with Section 27295 of the Government Code as promptly as practicable following adoption by the legislative body.

SEC. 20. Section 33850 of said code is amended to read:

Administrative expenses

33850. At any time after the agency created for any community becomes authorized to transact business and exercise its powers, the legislative body of the community may appropriate to the agency such amounts as the legislative body deems necessary for the administrative expenses and overhead of the agency. The money appropriated may be paid to the agency as a grant to defray the expenses and overhead, or as a loan to be repaid upon such terms and conditions as the legislative body may provide.

In addition to the common understanding and usual interpretation of the term, "administrative expense" includes, but is not limited to, expenses of redevelopment planning and dissemination of redevelopment information.

SEC. 21. Section 33980 of said code is amended to read:

Urban renewal project

33980. In connection with the planning and undertaking of any urban renewal project, the agency, the community, the legislative body, the planning commission, and all public officers, agencies and bodies shall have all the powers, duties, rights, privileges and immunities which they have in respect to a redevelopment plan or a redevelopment project, in the same manner as though all the provisions of this part applicable to a redevelopment plan or a redevelopment project were applicable to an urban renewal plan or an urban renewal project.

Repeals

SEC 22. Section 33280, Articles 4 (commencing at Section 33530) and 5 (commencing at Section 33560) of Chapter 3 of Part 1 of Division 24, and Section 33982 of said code are repealed.

SEC 23. Section 33049 is added to said code, to read:

State policy

33049. It is hereby declared to be the policy of the State that in undertaking community redevelopment or urban renewal projects under this part (commencing at Section 33000) there shall be no discrimination because of race, color, religion, national origin, or ancestry.

Applicability

SEC 24. This act shall be applicable to redevelopment plans or projects and urban renewal plans or projects commenced after its effective date, and to such plans or projects commenced prior to its effective date on which no agency hearing has been held.

Urgency

SEC 25. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The redevelopment of blighted areas is being unnecessarily delayed and property in project areas subjected to possible condemnation but not actually condemned for long periods

of time by the present cumbersome procedure required by law. This act provides a shorter procedure for the benefit of property in project areas.

In order that projects that are urgently needed for the protection of the public peace, health, and safety may be undertaken without further delay, it is imperative that this act take effect immediately.

Emergency within the meaning of this section means an unpredictable or unavoidable occurrence at unscheduled intervals, requiring immediate action. CHAPTER 1105

An act to amend Sections 11529, 11532, 11532.3 and 11532.7 of the Insurance Code, relating to mutualized insurers.

In effect September 18, 1959

[Approved by Governor June 19, 1959. Filed with Secretary of State June 19, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 11529 of the Insurance Code is amended to read:

Acquisition of own stock

11529. In carrying out any such plan, the insurer may acquire any shares of its own stock by gift, bequest or purchase. Any shares so acquired shall, unless as a result of such acquisition all of the shares of the insurer shall have been acquired, be acquired in trust for the policyholders of the class or classes for whose benefit the plan provides that the stock of the insurer shall be acquired as hereinafter provided. Such shares shall be assigned and transferred on the books of such insurer to three or more trustees appointed by the insurer and approved by the commissioner under a trust agreement approved by the commissioner. Such trustees shall hold such stock in trust until all of the outstanding shares of capital stock of such insurer have been acquired, but for not longer than 30 years with such extensions of not more than five years each as may be granted by the commissioner. Such extensions may be granted by the commissioner if the plan so provides and if in his opinion the plan of acquisition of all of such stock can be completed within a reasonable period. Such trustees shall vote such stock at all corporate meetings at which stockholders have the right to vote. When all of the outstanding shares of capital stock of such insurer have been acquired, all said shares shall be canceled, the certificate of amendment of

the insurer's articles of incorporation giving effect thereto shall be filed in accordance with the provisions of Article 3, Chapter 1, Part 8, Division 1, Title 1, of the Corporations Code, and the insurer shall become a nonstock corporation for the profit of its members and such trust shall thereupon terminate. Thereafter such corporation shall be conducted for the mutual benefit, ratably, of its policyholders of the class or classes for whose benefit the stock was acquired and shall have power to issue nonassessable policies on a reserve basis subject to all provisions of law applicable to incorporated life insurers or life and disability insurers, as the case may be, issuing nonassessable policies on a reserve basis. Policies so issued may be upon the basis of full or partial participation therein as agreed between the insurer and the insured.

Upon the termination of any such voting trust, either in accordance with its terms or as hereinabove provided, such plan of mutualization shall terminate, unless theretofore completed. Upon such termination, unless the plan of mutualization provides for the disposition of the shares acquired by the insurer under such plan or for the disposition of the proceeds thereof, the shares held by such trustees shall be disposed of in accordance with an order of the superior court of the county in which is located the principal office of such insurer, made upon a verified application of the commissioner.

SEC. 2. Section 11532 of the Insurance Code is amended to read:

Rights, etc., after mutualization

11532. Such insurer, after mutualization, shall be a continuation of the original insurer, and such mutualization shall not affect such insurer's certificate of authority nor existing suits, rights or contracts except as provided in said plan for the acquisition of the outstanding shares of the capital stock of such insurer, approved as provided in this chapter. Such insurer, after mutualization, shall exercise all the rights and powers and perform all the duties conferred or imposed by law upon insurers writing the classes of insurance written by it, and to protect rights and contracts existing prior to mutualization, subject to the effect of said plan. The board of directors of such insurer, prior to mutualization, may adopt amendments to its bylaws to take effect upon mutualization.

SEC. 3. Section 11532.3 of said code is amended to read:

Notice of meetings

11532.3. Notice of all meetings of members whether annual or special shall be given in writing to the members entitled to vote by the secretary, or an assistant secretary, or other person charged with that duty, or if there be no such officer, or in case of his neglect or refusal, by any director or member. At the option of the insurer such notice may be imprinted on premium notices or receipts or on both.

A notice may be given by such insurer to any member either personally, or by mail, or other means of written communication, charges prepaid, addressed to such member at his address appearing on the books of the insurer, or given by

him to the insurer for the purpose of notice. If a member gives no address, notice shall be deemed to have been given him if sent by mail or other means of written communication addressed to the place where the principal office of the insurer is situated, or if published at least once in some newspaper of general circulation in the county in which said office is located.

Notice of any meeting of members shall be sent to each member entitled thereto not less than seven days before such meeting, unless the bylaws provide otherwise.

Notice of any meeting of members shall specify the place, the day, and the hour of the meeting and the general nature of the business to be transacted.

(b) If in any one income year the cost of Section 24349 property with respect to which the taxpayer may elect an allowance under subsection (a) for such taxable year exceeds ten thousand dollars ($10,000), then subsection (a) shall apply with respect to those items selected by the taxpayer, but only to the extent of an aggregate cost of ten thousand dollars ($10,000).

(c) (1) The election under this section for any income year shall be made within the time prescribed by law (including extensions thereof) for filing the return for such income year. The election shall be made in such manner as the Franchise Tax Board may by regulations prescribe.

(C) With a useful life (determined at the time of such acquisition) of six years or more.

(2) For purposes of paragraph (1), the term "purchase" means any acquisition of property, but only if—

(A) The property is not acquired from a person whose relationship to the person acquiring it would result in the disallowance of losses under Sections 24427 through 24429 (but, in applying Sections 24428 and 24429 for purposes of this section, paragraph (d) of Section 24429 shall be treated as providing that the family of an individual shall include only his spouse, ancestors, and lineal descendants),

(A) All members of an affiliated group shall be treated as one taxpayer, and

(B) The Franchise Tax Board shall apportion the dollar limitation contained in such subsection (b) among the members of such affiliated group in such manner as it shall by regulations prescribe.

(e) The Franchise Tax Board shall prescribe such regulations as may be necessary to carry out the purposes of this section.

SEC. 15. Section 24356.1 is added to said code, to read:

Election; definitions

24356.1. (a) Any taxpayer who held retirement-straight line property on his 1959 adjustment date may elect to have this section apply. Such an election shall be made at such time and in such manner as the Franchise Tax Board shall prescribe. Any election under this section shall be irrevocable and shall apply to all retirement-straight line property as hereinafter provided in this section (including such property for periods when held by predecessors of the taxpayer).

(b) For purposes of this section, the term "retirement-straight line property" means any property of a kind or class with respect to which the taxpayer or a predecessor (under the terms and conditions prescribed for it by the Franchise Tax Board) for any income year beginning after December 31, 1940, and before January 1, 1959, changed from the retirement to the straight line method of computing the allowance of deductions for depreciation.

(c) If the taxpayer has made an election under this section, then in determining the adjusted basis on the 1959 adjustment date of all retirement-straight line property held by the taxpayer, in lieu of the adjustment for depreciation provided in Section 24916(b)(1) or (2) the following adjustments shall be made (effective as of its 1959 adjustment date) in respect of all periods before the 1959 adjustment date:

(1) For depreciation sustained before March 1, 1913, on retirement-straight line property held by the taxpayer or a

predecessor on such date for which cost was or is claimed as basis and which either—

(A) Was retired by the taxpayer or a predecessor before the changeover date, but only if (i) a deduction was allowed in computing net income by reason of such retirement, and (ii) such deduction was computed on the basis of cost without adjustment for depreciation sustained before March 1, 1913. In the case of any such property retired during any income year beginning after December 31, 1929, the adjustment under this subparagraph shall not exceed that portion of the amount attributable to depreciation sustained before March 1, 1913, which resulted or would have resulted, had the taxpayer been subject to this part during such years (by reason of the deduction so allowed) in a reduction in taxes under this part or prior tax laws.

(B) Was held by the taxpayer or a predecessor on the changeover date. This subparagraph shall not apply to property to which paragraph (2) applies.

The adjustment determined under this paragraph shall be allocated (in the manner prescribed by the Franchise Tax Board) among all retirement-straight line property held by the taxpayer on its 1959 adjustment date.

(2) For that portion of the reserve prescribed by the Commissioner of Internal Revenue and which was also adopted by the Franchise Tax Board in connection with the changeover which was applicable to property—

(A) Sold, or

(B) With respect to which a deduction was allowed for tax purposes by reason of casualty or "abnormal" retirement in the nature of special obsolescence, if such sale occurred in, or such deduction was allowed for a period on or after the changeover date and before the taxpayer's 1959 adjustment date.

(3) For depreciation allowable, under the terms and conditions prescribed by the commissioner which terms and conditions are equally applicable under this part in connection with the changeover, for all periods on and after the changeover date and before the taxpayer's 1959 adjustment date.

This subsection shall apply only with respect to income years beginning after December 31, 1958.

(d) If the taxpayer has made an election under this section, then in determining the adjusted basis of any retirement-straight line property as of any time on or after the changeover date and before the taxpayer's 1959 adjustment date, in lieu of the adjustments for depreciation provided in Section 24916(b)(1) or (2) and the corresponding provisions of prior laws, the following adjustments shall be made:

(1) For the amount of the reserve prescribed by the commissioner (and determined by the Franchise Tax Board to be applicable under this part) in connection with the changeover.

(2) For the depreciation allowable under the terms and conditions prescribed by the commissioner (and determined

by the Franchise Tax Board to be applicable under this part) in connection with the changeover.

This subsection shall apply only with respect to income years beginning on or after the changeover date and before the taxpayer's 1959 adjustment date.

(e) For purposes of this section—

(3) The term "changeover date" means the first day of the first income year for which the changeover was effective.

(4) The term "1959 adjustment date" means, in the case of any taxpayer, the first day of his first income year beginning after December 31, 1958.

(5) The term "predecessor" means any person from whom property of a kind or class to which this section refers was acquired, if the basis of such property is determined by reference to its basis in the hands of such person. Where a series of transfers of property has occurred and where in each instance the basis of the property was determined by reference to its basis in the hands of the prior holder, the term includes each such prior holder.

(6) The term "commissioner" means the Commissioner of Internal Revenue.

SEC. 16. Section 24575.1 is added to said code, to read:

Adjusted basis of retirement-straight line property

24575.1. (a) (1) If the taxpayer has acquired property in a transaction described in Section 24577 or 24578(b), and if any such property constitutes retirement-straight line property, then, in determining the adjusted basis of all retirement-straight line property held by the taxpayer on his adjustment date, adjustment shall be made (in lieu of the adjustment provided in Section 1016(b)(1) and (2)) for depreciation sustained before March 1, 1913, on retirement-straight line property which was held on such date for which cost was or is claimed as basis, and which either—

(A) Was retired before the acquisition of the retirement-straight line property by the taxpayer, but only if a deduction was allowed in computing net income by reason of such retirement, and such deduction was computed on the basis of cost without adjustment for depreciation sustained before March 1, 1913. In the case of any such property retired during any income year beginning after December 31, 1929, the adjustment under this subparagraph shall not exceed that portion of the amount attributable to depreciation sustained before March 1, 1913, which resulted or would have resulted, had the taxpayer been subject to this part during such years, (by reason of the deduction so allowed) in a reduction in taxes under this part or prior tax laws

(B) Was acquired by the taxpayer

The adjustment determined under this paragraph shall be allocated (in the manner prescribed by the Franchise Tax Board) among all retirement-straight line property held by the taxpayer on his adjustment date. Such adjustment shall apply to all periods on and after the adjustment date.

(2) For purposes of this subsection, the term "retirement-straight line property" means any property of a kind or class with respect to which (A) the corporation transferring such property to the taxpayer was using (at the time of transfer) the retirement method of computing the allowance of deductions for depreciation, and (B) the acquiring corporation has adopted any other method of computing such allowance.

(3) For purposes of this subsection:

(A) The term "depreciation" means exhaustion, wear and tear, and obsolescence.

(b) In the case of any kind or class of property, the term "adjustment date" means whichever of the following is the later:

(i) The first day of the taxpayer's first income year beginning after December 31, 1958, or

(ii) The first day of the first income year after enactment of this section in which the taxpayer uses a method of computing the allowance of deductions for depreciation other than the retirement method.

SEC. 16.5. Section 25552 of said code is amended to read:

Rate of tax

25552. In the case of taxpayers subject to the tax imposed by Article 3 of Chapter 2, there shall be due and payable, on or before the fifteenth day of the third month following the close of the income year, from each such taxpayer as a first installment of the tax a percentage of its net income as disclosed by its return, which is equal to that percentage of the net income of corporations subject to the tax imposed by Article 2 of Chapter 2 which is required to be paid to this State as a franchise tax according to or measured by net income. The first installment of the tax on financial corporations shall not be less than the minimum tax of one hundred dollars ($100).

SEC. 17. Section 25552b of said code is amended to read:

Sum of installments

25552b. The sum of the first and second installments, provided for in Sections 25552 and 25552a, shall not exceed 9.5 percent of the net income of each such taxpayer subject to the tax imposed by Article 3 of Chapter 2. The offset provided for in Sections 23185 to 23185b, inclusive, shall be applied to the second installment.

Effective date of rate changes; computation

SEC. 18. The provisions of this act effecting changes in the computation of taxes shall be applied in the computation of taxes for all income years ending after December 31, 1958. Provided, however, that in the case of banks and financial corporations the maximum rate provided for by Section 23186 determined upon the basis of net income of corporations taxable under Section 23151 for the calendar year 1958 or fiscal years ended during such calendar year shall not exceed 8

percent. Banks and corporations whose income year began prior to January 1, 1959, and ends on or before November 30, 1959, shall compute their tax by applying the rate in effect as of December 31, 1958, and the rate provided for by this act on and after such date, to their net income for the entire year in accordance with the method prescribed by Section 24251. In determining net income, the depreciation deduction shall be determined as if the bank or corporation's income year began January 1, 1959.

If a corporation's income year ended on or before the effective date of this act the minimum tax shall be twenty-five dollars ($25); if its income year ends after such date the minimum tax shall be one hundred dollars ($100).

Any tax, for a taxable year specified in this act, in addition to that disclosed by the return, made necessary solely by amendments to this act, shall accrue on January 1, 1959, and shall be due and payable within 10 days from the date of notice and demand from the Franchise Tax Board, or on or before the fifteenth day of the ninth month following the close of the income year as defined in Section 23042, whichever is later. If not so paid, interest shall be added thereto in the manner provided by Section 25901. Such tax shall not be considered a deficiency assessment within the meaning of Article 1 of Chapter 20 (commencing with Section 25661).

50247. The cost of abatement upon each parcel of land constitutes a special assessment against that parcel. After the assessment is made and confirmed, it is a lien on the parcel. Such lien attaches upon recordation in the office of the county recorder of the county in which the property is situated of a certified copy of the resolution of confirmation.

Tax assessment

50248. After confirmation of the report, a copy shall be given to the assessor and tax collector of the local agency, who shall add the amount of the assessment to the next regular tax bill levied against the parcel for local agency purposes.

Report

50249. If the county assessor and the tax collector assess property and collect taxes for the city, a certified copy of the report shall be filed with the county auditor on or before August 10th. The descriptions of the parcels reported shall be those used for the same parcels on the county assessor's map books for the current year.

County auditor

50250. The county auditor shall enter each assessment on the county tax roll opposite the parcel of land.

Time of collection

50251. The amount of the assessment shall be collected at the time and in the manner of ordinary local agency taxes. If

delinquent, the amount is subject to the same penalties and procedure of foreclosure and sale provided for ordinary local agency taxes.

50252. As an alternative method the county tax collector in his discretion may collect the assessments without reference to the general taxes by issuing separate bills and receipts for the assessments. Alternative method

50253. Laws relating to the levy, collection, and enforcement of county taxes apply to such special assessment taxes. Procedure

50254. The superintendent may receive the amount due on the abatement cost and issue receipts at any time after the confirmation of the report and until 10 days before a copy is given to the local agency assessor and tax collector, or, where a certified copy is filed with the county auditor, until August 1st following the confirmation of the report. Payment

50255. The legislative body may order refunded all or part of a tax paid pursuant to this article if it finds that all or part of the tax has been erroneously levied. A tax or part shall not be refunded unless a claim is filed with the clerk of the legislative body on or before March 1st after the tax became due and payable. The claim shall be verified by the person who paid the tax, or his guardian, executor, or administrator. Refunds

CHAPTER 1147

An act to amend Section 689b of the Code of Civil Procedure, relating to attachment and execution.

In effect September 18, 1959

[Approved by Governor June 24, 1959. Filed with Secretary of State June 25, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 689b of the Code of Civil Procedure is amended to read:

689b. (1) Where the property levied upon is a vehicle required to be registered with the Department of Motor Vehicles, the officer shall forthwith determine from the department the name and address of the legal owner of the vehicle and shall notify any such legal owner who is not also the registered owner of such vehicle of the levy by registered mail or certified mail or personal service.

(2) A seller or mortgagee may file with the officer levying on personal property a verified written claim, together with a copy thereof, containing a detailed statement of the sales contract or mortgage and the total amount of sums due or to accrue to him under the contract or mortgage, above set-offs, with interest to date of tender, and also stating therein his address within this State for the purpose of permitting service by mail upon him of any notice in connection with said claim. The officer making the levy may demand and exact the payment or undertaking herein provided for, notwithstanding any defect, informality or insufficiency of the verified claim delivered to him.

(3) Within five days after being served with such verified claim the officer levying on such property must make demand by registered mail or certified mail on the plaintiff or his attorney for the amount of the claimed debt and interest due to date of tender or the delivery to the officer of an undertaking and statement as hereinafter provided, which demand shall include the copy of such claim.

(4) Within five days after receipt by the plaintiff or his attorney of such officer's demand the plaintiff shall deposit with the officer the amount of such debt and interest or deliver the undertaking and statement hereinafter provided, or the levying officer must release the property.

(5) Within five days after receipt by him of such deposit the officer must pay or tender same to the seller or mortgagee; provided, that should such deposit be made by check the officer shall be allowed a reasonable time for check to clear.

(6) In the case of a sales contract, if the tender is accepted, all right, title, and interest of the seller in the property levied upon shall pass to the party to the action making the payment.

(7) If the tender is refused, the amount thereof shall be deposited with the county treasurer, payable to the order of the seller or mortgagee.

(8) Until such payment or deposit covering such claim is made, or the undertaking and statement herein provided delivered to the officer, the property cannot be sold under the levy; but when made (and also in case the seller or mortgagee fails to render his claim within 30 days after the personal service upon him of a written demand therefor, which service must be attested by the certificate of the serving officer, filed before the sale with the papers of the action wherein the attachment or execution was issued), then the officer must retain the property, and, in the case of an execution sell it in the manner provided by law, free of all liens or claims of the seller or mortgagee. Such written demand of the levying officer may be served by him, or for him by any sheriff, marshal, or constable whose office is closer to the place of service, and whose fees and mileage shall be paid out of the prepaid fees in the possession of the levying officer.

(9) When an attachment or execution creditor presents to the officer, within the time allowed from the officer's demand, a verified statement that the sales contract or mortgage is void or invalid for the reasons specified therein, and delivers to the officer a good and sufficient undertaking in double the amount of the indebtedness claimed by the seller or mortgagee or double the value of the personal property as the officer may determine and require, the officer shall retain the property and in case of an execution sell it in the manner provided by law, free of all liens or claims of the seller or mortgagee.

The undertaking shall be made to the seller or mortgagee and shall indemnify him for the taking of the property against loss, liability, damages, costs and counsel fees. Exceptions to the sufficiency of the sureties and their justification may be had and taken in the same manner as upon an undertaking on attachment.

If such undertaking be given, such officer shall not be liable for damages to any such claimant for the taking, keeping, or sale of such property in accordance with the provisions of this code.

(10) Whenever a verified claim herein is delivered to the officer as herein provided, upon levy of execution or attachment (whether any undertaking hereinabove mentioned be given or not), the plaintiff, or the person in whose favor the writ runs, the claimant, or any one or more such joint claimants, shall be entitled to a hearing in the court in which the action is pending or from which the writ issued for the purpose of determining the validity of such sales contract or chattel mortgage. Such hearing may be had and taken, and stay of execution or other order made in the same manner as on third party claims under Section 689 of this code. At the conclusion of the hearing the court shall give judgment determining the validity of the claim under the sales contract or chattel mortgage which shall be conclusive between the claimant and the plaintiff, or other person in whose favor the writ runs. The court in which the action is pending, or which

issued such writ, shall have original jurisdiction in all proceedings under this section.

If the property shall have been released by the officer for want of an undertaking or payment, and final judgment shall go for the plaintiff or other person in whose favor the writ runs, the officer shall retake the property on such writ, if the writ shall still be in his hands, or if the writ shall have been returned, another writ may be issued on which the officer may take such property.

Any determination made by the Director of Finance under this section may be redetermined by him, from time to time, until the project for which the apportionment was made has been completed, and the final cost thereof determined and the final determination has been made pursuant to such final cost. The Director of Finance shall promptly notify the State Controller, the governing board of the state-aided district and of the acquiring district, the superintendent of schools, the auditor, and the treasurer of the counties having jurisdiction over said districts of each determination and redetermination made by him under this section. Property statement. Personal property

SEC. 2. Section 531 of said code is amended to read:

Property escaping assessment

531. If any property belonging on the local roll has escaped assessment, the assessor shall assess the property on discovery at its value on the lien date for the year for which it escaped assessment. When the property is real property it shall be assessed as property escaping assessment only if:

(a) The property is owned or controlled by the same person who owned or controlled it for the year for which it escaped assessment, or

If the assessor requires an assessee to describe personal property in such detail as shows the cost thereof but the assessee omits to report the cost of the property accurately, notwithstanding that this information is available to the assessee, to the extent that this omission on the part of the assessee causes the assessor not to assess the property or to assess it at a lower valuation than he would enter upon the roll were the cost reported to him accurately, that portion of the property as to which the cost is unreported, in whole or in part, may be assessed as property that has escaped assessment.

SEC. 4. Section 1061.1 is added to said code, to read:

Taxable credits or deductible debts

1061.1. Any understatement of taxable credits or overstatement of deductible debts made in the property statement or otherwise in writing to the assessor shall constitute a failure or neglect to return intangibles in the property statement, but the penalties imposed by Sections 1062 and 2922 shall not apply if solvent credits were erroneously assessed as possessory interests in tangible personal property, nor shall these

penalties apply if in good faith an assessee claims as deductible debts amounts that are subsequently found not to be deductible.

SEC. 5. The amendments and additions made by this act do not constitute a change in, but are declaratory of, the pre-existing law, and said amendments and additions shall apply to escape assessments made prior to its effective date.

(b) An act which will not sustain an independent action for damages against such other employee under subsections (1), (2), or (3) of subdivision (a) of this section may nevertheless be the basis of a finding of serious and willful misconduct under Section 4553 or 4553.1, if (1) such other employee is established to be one through whom the employer may be charged under Section 4553; (2) such act of such other employee shall be established to have been the proximate cause of the injury or death; and (3) such act is established to have been of a nature, kind, and degree sufficient to support a finding of serious and willful misconduct under Section 4553 or 4553.1.

(c) In no event, either by legal action or by agreement whether entered into by such other employee or on his behalf, shall the employer be held liable, directly or indirectly, for damages awarded against, or for a liability incurred by such other employee under subsections (1), (2), or (3) of subdivision (a) of this section.

(d) No employee shall be held liable, directly or indirectly, to his employer, for injury or death of a coemployee except where the injured employee or his dependents obtain a recovery under subdivision (a) of this section.

SEC. 2. Section 4453 of said code is amended to read:

Average annual earnings

4453. In computing average annual earnings for the purposes of temporary disability indemnity only, the average weekly earnings shall be taken at not less than thirty dollars and seventy-seven cents ($30.77) nor more than one hundred dollars ($100). In computing average annual earnings for purposes of permanent disability indemnity, the average weekly earnings shall be taken at not less than thirty dollars and seventy-seven cents ($30.77) nor more than eighty dollars and seventy-seven cents ($80.77). Between these limits the average weekly earnings, except as provided in Sections 4456 to 4459, shall be arrived at as follows:

(a) Where the employment is for 30 or more hours a week and for five or more working days a week, the average weekly earnings shall be 95 percent of the number of working days a week times the daily earnings at the time of the injury.

(b) Where the employee is working for two or more employers at or about the time of the injury, the average weekly earnings shall be taken as 95 percent of the aggregate of such earnings from all employments computed in terms of one week; but the earnings from employments other than the employment in which the injury occurred shall not be taken at a higher rate than the hourly rate paid at the time of the injury.

(c) If the earnings are at an irregular rate, such as piecework, or on a commission basis, or are specified to be by the

week, month, or other period, then the average weekly earnings mentioned in subdivision (a) above shall be taken as 95 percent of the actual weekly earnings averaged for such period of time, not exceeding one year, as may conveniently be taken to determine an average weekly rate of pay.

(d) Where the employment is for less than 30 hours per week, or where for any reason the foregoing methods of arriving at the average weekly earnings cannot reasonably and fairly be applied, the average weekly earnings shall be taken at 95 percent of the sum which reasonably represents the average weekly earning capacity of the injured employee at the time of his injury, due consideration being given to his actual earnings from all sources and employments.

SEC. 3. Section 4455 of said code is amended to read:

Average weekly earnings. Minors

4455. If the injured employee is under 21 years of age, and his incapacity is permanent, his average weekly earnings shall be deemed, within the limits fixed in Section 4453, to be the weekly sum which under ordinary circumstances he would probably be able to earn at the age of 21 years, in the occupation in which he was employed at the time of the injury or in any occupation to which he would reasonably have been promoted if he had not been injured. If such probable earnings at the age of 21 years cannot reasonably be determined, his average weekly earnings shall be taken at eighty dollars and seventy-seven cents ($80.77).

SEC. 4. Section 4460 of said code is amended to read:

Average weekly earnings

4460. For the purpose of computing the temporary disability indemnity payable to any employee who sustains an original injury causing temporary disability, the maximum average weekly earnings shall be taken at one hundred dollars ($100). For the purpose of computing the permanent disability indemnity payable to any employee who sustains an original injury causing permanent disability, the maximum average weekly earnings shall be taken at eighty dollars and seventy-seven cents ($80.77).

Every computation made pursuant to this section as last amended shall be made only with reference to temporary disability or such permanent disability resulting from an original injury sustained after the act last amending this section becomes effective; provided, however, that all rights presently existing under this section shall be continued in force.

SEC. 5. Section 4553 of said code is amended to read:

Compensation: Increase of recoverable amount

4553. The amount of compensation otherwise recoverable shall be increased one-half where the employee is injured by reason of the serious and willful misconduct of any of the following:

(a) The employer, or his managing representative.

(b) If the employer is a partnership, on the part of one of the partners or a managing representative or general superintendent thereof.

(c) If the employer is a corporation, on the part of an executive, managing officer, or general superintendent thereof.

But such increase of award shall in no event exceed seven thousand five hundred dollars ($7,500); together with costs and expenses incident to procurement of such award, not to exceed two hundred fifty dollars ($250).

SEC. 6. Section 4553.1 is added to said code, to read:

Findings re serious and willful misconduct

4553.1. In order to support a holding of serious and willful misconduct by an employer based upon violation of a safety order, the commission must specifically find:

(1) That the safety order was established as having been known to a particular identified and named person or persons, either the employer or a representative of the employer designated by Section 4553;

(2) That the violation was established to have been committed by a particular identified and named person or persons, either the employer or a representative of the employer designated by Section 4553;

(3) That the condition making the safety order applicable at the time of the injury or death was established to have been known to a particular identified and named person or persons, either the employer or a representative of the employer designated by Section 4553;

(4) The specific manner in which the order was violated; and

(5) That the violation of such safety order did proximately cause the injury or death, and the specific manner in which the violation constituted such proximate cause.

SEC. 7. Section 4554 of said code is amended to read:

Failure to secure payment of compensation

4554. In case of the willful failure by an employer to secure the payment of compensation, the amount of compensation otherwise recoverable for injury or death as provided in this division shall be increased 10 percent. Failure of the employer to secure the payment of compensation as provided in Article 1 (commencing at Section 3700) of Chapter 4 of Part 1 of this division is prima facie evidence of willfulness on his part.

SEC. 8. Section 4555.5 is added to said code, to read:

Costs: Petition to reduce award

4555.5. Whenever a petition to reduce an award, based upon a permanent disability rating which has become final, is denied, the commission may order the petitioner to pay to the injured employee all costs incident to the furnishing of X-rays, laboratory services, medical reports, and medical testimony incurred by such employee in connection with the proceeding on such petition.

SEC. 9. Section 4600 of said code is amended to read:

Employer's liability

4600. Medical, surgical, and hospital treatment, including nursing, medicines, medical and surgical supplies, crutches, and apparatus, including artificial members, which is reasonably required to cure or relieve from the effects of the injury shall be provided by the employer. In the case of his neglect or refusal seasonably to do so, the employer is liable for the reasonable expense incurred by or on behalf of the employee in providing treatment.

In accordance with the rules of practice and procedure of the commission, the employee, or the dependents of a deceased employee, shall be reimbursed for expenses reasonably, actually, and necessarily incurred for X-rays, laboratory fees, medical reports, and medical testimony to prove a contested claim. The reasonableness of and necessity for incurring such expenses to prove a contested claim shall be determined with respect to the time when such expenses were actually incurred. Expenses of medical testimony shall be presumed reasonable if in conformity with the fee schedule charges provided for impartial medical experts appointed by the commission.

Where at the request of the employer, the employer's insurance carrier, the commission, or any commissioner or referee, the employee submits to examination by a physician, he shall be entitled to receive in addition to all other benefits herein provided all reasonable expenses of transportation, meals and lodging incident to reporting for such examination, together with one day of temporary disability indemnity for each day of wages lost in submitting to such an examination.

SEC. 10. Section 4601 of said code is amended to read:

Change of physicians

4601. If the employee so requests, the employer shall tender him one change of physicians. Upon request of the employee for a change of physicians, 14 days shall be the maximum amount of time permitted by law for the employer or insurance carrier to nominate at least three additional practicing physicians competent to treat the particular case from among whom the employee may choose. In the event the employee is not so notified, the employee may select a physician of his choice and the employer or insurance carrier shall be liable to pay the reasonable cost of treatment. The employee is also entitled, in any serious case, upon request, to the services of a consulting physician of his own choice at the expense of the employer. All of such treatment shall be at the expense of the employer.

SEC. 11. Section 4650 of said code is amended to read:

Disability payments

4650. If an injury causes temporary disability, a disability payment shall be made for one week in advance as wages on the eighth day after the injured employee leaves work as a result of the injury; provided, that in case the injury causes disability of more than 49 days or necessitates hospitalization the disability payment shall be made from the first day the injured employee leaves work or is hospitalized as result of the injury. If the injury causes permanent disability, a disability payment shall be made for one week in advance as wages on the eighth day after the injury becomes permanent or the date of last payment for temporary disability, whichever date first occurs.

SEC. 12. Section 4656 of said code is amended to read:

Aggregate disability payments Limit

4656. Aggregate disability payments for a single injury causing temporary disability shall not extend for more than 240 compensable weeks within a period of five years from the date of the injury.

SEC. 13. Section 4658 of said code is amended to read:

Computation of disability payment

4658. If the injury causes permanent disability, the percentage of disability to total disability shall be determined and the disability payment computed and allowed according to the following schedule:

Percentage of permanent disability incurred	Number of weeks for which 65 percent of average weekly earnings allowed	Percentage of average weekly earnings allowed for remainder of life after period for which 65 percent of average weekly earnings allowed
1	4	0
10	40	0

70	280	15
80	320	30
90	360	45
100	400	60

SEC. 14. Section 4659 of said code is amended to read:

Other method of computation

4659. The payment for permanent disabilities intermediate to those fixed by the foregoing schedule shall be computed and allowed as follows:

(a) Sixty-five percent of the average weekly earnings for four weeks for each 1 percent of disability.

(b) If 70 percent or over, 1.5 percent of the average weekly earnings for each 1 percent of disability in excess of 60 percent to be paid during the remainder of life, after payment for the maximum number of weeks specified in the foregoing schedule has been made.

SEC. 15. Section 4701 of said code is amended to read:

Employer's liabilities

4701. Where an injury causes death, either with or without disability, the employer shall be liable, in addition to any other benefits provided by this division, for:

(a) Reasonable expenses of the employee's burial, not exceeding six hundred dollars ($600).

(b) A death benefit, to be allowed to the dependents when the employee leaves any person dependent upon him for support.

SEC. 16. Section 4702 of said code is amended to read:

Sum of death benefits

4702. Except as provided in the next paragraph, the death benefit in cases of total dependency, when added to all accrued disability indemnity, shall be the sum of seventeen thousand five hundred dollars ($17,500) except in the case of a surviving widow and one or more dependent minor children, in which case the death benefit shall be twenty thousand five hundred dollars ($20,500) and except as otherwise provided in Sections 4553 and 4554. In cases of partial dependency the death benefit shall be a sum equal to four times the amount annually

Disability indemnity shall not be deducted from the death benefit and shall be paid in addition to the death benefit when the original injury resulting in death occurs after the effective date of the amendment to this section adopted at the 1949 Regular Session of the Legislature.

Every computation made pursuant to this section shall be made only with reference to death resulting from an original injury sustained after this section as amended during the 1959 Regular Session of the Legislature becomes effective; provided, however, that all rights presently existing under this section shall be continued in force.

The people of the State of California do enact as follows:

SECTION 1. Section 15803 of the Education Code as enacted by the Legislature at its 1959 Regular Session is amended to read:

15803. In districts situated within or partly within cities of the first class or of the first and one-half class any board of education may establish a fund in the county treasury for the purpose of covering fire losses to school property in lieu of carrying fire insurance in admitted insurers as provided in Section 15802 of this code. In such fund shall be placed such sums, to be provided in the budget of the district, as will create an amount which, together with investments made from such fund, will be sufficient in the judgment of the board of education upon the advice of competent actuaries to protect such board of education against losses by fire on all or any part of the school property within its jurisdiction. Nothing contained herein shall be construed as prohibiting the board of education from providing protection against fire losses partly by means of such fund and partly by means of fire insurance written by admitted insurers as provided in Section 15802 of this code.

Such fund shall be considered as separate and apart from all other funds of the district and the balance therein shall not be considered as being part of the working cash of the district in compiling annual budgets or fixing annual tax rates.

Warrants shall not be drawn on or transfers made from the fund so created except to reimburse the district for losses by fire and then only after resolution duly adopted by the board of education based upon findings by competent appraisers.

The cash placed in such fund may be invested and reinvested by the county treasurer with the advice and consent of the board of education in securities which are legal investments for surplus county funds in this State. The income derived from such investments together with interest earned on uninvested funds shall be considered revenue of and be deposited in such fund.

The county treasurer shall make quarterly reports to the board of education as to the condition of the fund, using as a basis for such report the cost or market value, whichever may be the lower, of the securities held as investments plus the cash in such fund.

SEC. 2. The amendment of this section made by the 1959 Regular Session of the Legislature does not constitute a change in, but is a restatement of, the pre-existing law, without substantive change.

CHAPTER 1208

An act to amend Section 5500.5 of the Labor Code, relating to workmen's compensation.

[Approved by Governor June 24, 1959. Filed with Secretary of State June 26, 1959.]

In effect September 18, 1959

The people of the State of California do enact as follows:

SECTION 1. Section 5500.5 of the Labor Code is amended to read:

5500.5. Where a claim for compensation benefits is made on account of an occupational disease which may have arisen out of more than one employment, the application shall state the names and addresses of all employers, the places of employment, and the approximate periods of employment where the employee was exposed to the hazards of the occupational disease. If the application is not so prepared or omits necessary and proper employers, any interested party, at or prior to the first hearing, may request the commission to join as defendant any necessary or proper party. If such request is made prior to the first hearing on the application, the commission shall forthwith join the employer as a party defendant and cause a copy of the application together with a notice of the time and place of hearing to be served upon such omitted employer; provided, such notice can be given within the time specified in this division. If such notice cannot be timely given or if the motion for joinder is made at the time of the first hearing, then the commission, panel, commissioner, or referee before whom the hearing is held, if it is found that the omitted employer named is a necessary or proper party, may order a joinder of such party and continue the hearing so that proper notice may be given to the party or parties so joined. Only one continuance shall be allowed for the purpose of joining additional parties. Subsequent to the first hearing the commission shall join as a party defendant any additional employer when it appears that such employer is a proper party, but the liability of such employer shall not be determined until supplemental proceedings are instituted.

In any case involving a claim of occupational disease contracted as a result of more than one employment, the employee making the claim, or his dependents, may elect to proceed against any one or more of the employers named in the application. Where such an election is made, the employee must successfully prove his claim against any one of the employers named, and any award which the commission shall issue awarding compensation benefits shall be a joint and several award as against any two or more employers who may be held liable for compensation benefits. If, during the pendency of any claim wherein the employee or his dependents has made an election to proceed against one or more employers, it should appear that there is another proper party not yet joined, such additional party shall be joined as a defendant by the commission on the motion of any party in interest, but the liability of such employer shall not be determined until supplemental proceedings are instituted. Any employer joined as a defendant subsequent to the first hearing or subsequent to the election provided herein shall not be entitled to participate in any of the proceedings prior to the commission's final decision, nor to any continuance or further proceedings, but may be permitted to ascertain from the employee or his dependents such information as will enable the employer to determine the time,

place, and duration of the alleged employment. On supplemental proceedings, however, the right of the employer to full and complete examination or cross-examination shall not be restricted.

At any time within one year after the commission has made an award for compensation benefits in connection with an occupational disease, any employer held liable under such award may institute proceedings before the commission for the purpose of determining an apportionment of liability or right of contribution. Such a proceeding shall not diminish, restrict, or alter in any way the recovery previously allowed the employee or his dependents, but shall be limited to a determination of the respective contribution rights, interests or liabilities of all the employers joined in the proceeding, either initially or supplementally; provided, however, if the commission finds on supplemental proceedings for the purpose of determining an apportionment of liability or of a right of contribution that an employer previously held liable in fact has no liability, it may dismiss such employer and amend its original award in such manner as may be required.

In any proceeding before the commission for the purpose of determining an apportionment of liability or of a right of contribution where any employee incurred a disability or death resulting from silicosis in underground metal mining operations, the determination of the respective rights and interests of all of the employers joined in the proceedings either initially or supplementally shall be as follows:

(a) All employers whose underground metal mining operations resulted in a silicotic exposure during the period of the employee's employment in such operations shall be jointly and severally liable for the payment of compensation and of medical, surgical, legal and hospital expense which may be awarded to the employee or his estate or dependents as the result of disability or death resulting from or aggravated by such exposure.

(b) In making its determination in the supplemental proceeding for the purpose of determining an apportionment of liability or of a right of contribution of percentage liabilities of the various employers engaged in underground metal mining operations the commission shall consider as a rebuttal presumption that employment in underground work in any mine for a continuous period of more than three calendar months will result in a silicotic exposure for the employee so employed during the period of employment if the underground metal mine was driven or sunk in rock having a composition which will result in dissemination of silica or silicotic dust particles when drilled, blasted or transported.

Any employer shall be entitled to rebut such presumption by showing to the satisfaction of the commission, or its referee, that the mining methods used by the employer in the employee's place of employment did not result during his employment in the creation of silica dust in sufficient amount

or concentration to constitute a silicotic hazard. Dust counts, competently made, at such intervals and in such locations as meet the requirements of the Division of Industrial Safety for safe working conditions may be received as evidence of the amount and concentration of silica dust in the workings where such counts have been made at the time when they were made. The commission may from time to time, as its experience may indicate proper, promulgate orders as to the frequency with which such dust counts shall be taken in different types of workings in order to justify their acceptance as evidence of the existence or nonexistence of a silicotic hazard in the property where they have been taken.

The amendments to this section adopted at the 1959 Regular Session of the Legislature shall operate retroactively, and shall apply retrospectively to any cases pending before the Industrial Accident Commission or courts. From and after the date this section becomes effective no payment shall be made out of the fund used for payment of the additional compensation provided for in Section 4751 of this code, or out of any other state funds, in satisfaction of any liability heretofore incurred or hereafter incurred, except awards which have become final without regard to the continuing jurisdiction of the commission on said effective date, and the State and its funds shall be without liability therefor. This paragraph shall not in any way effect a reduction in any benefit conferred or which may be conferred upon any injured employee or his dependents.

CHAPTER 1250

An act to amend Section 5580 of the Business and Professions Code, relating to the practice of architecture, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 24, 1959. Filed with Secretary of State June 29, 1959.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 5580 of the Business and Professions Code is amended to read:

5580. The fact that the holder of a certificate is impersonating an architect or former architect of the same or similar name, or is practicing under an assumed, fictitious or corporate name, constitutes a ground for disciplinary action. Nothing in this section shall prevent a corporation from furnishing or supplying by contract architectural services by and under the direct supervision of a certificated architect or architects.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

It is not clear under the present wording of Section 5580 of the Business and Professions Code whether or not the Legislature was attempting to prohibit the furnishing or supplying by a corporation by contract of architectural services by and under the direct supervision of a certificated architect or architects.

Previous to the enactment of this section the Supreme Court of this State had on several occasions held that the furnishing or supplying of architectural services in this manner was not prohibited by law.

At the present time contracts for architectural services in connection with the construction of many public buildings for state, county, school district and hospital district purposes have been entered into by such corporations and a serious question arises as to whether public funds are being properly expended in paying the fees of the architects involved.

The amendment made by this bill to Section 5580 of the Business and Professions Code would clarify the language contained in that section and would thus resolve the questions which have arisen regarding contracts by corporations for architectural services.

SEC 4 Section 6999 is added to Article 1 of Chapter 15 of Division 3 of said code, to read:

Principles and policies

6999. It is the intent of the Legislature that the administration of the laws governing the financial support of the Public School System in this State be conducted within the purview of the following principles and policies:

The system of public school support should be designed to strengthen and encourage local responsibility for control of public education. Local school districts should be so organized that they can facilitate the provision of full educational opportunities for all who attend the public schools. Local control is best accomplished by the development of strong, vigorous, and properly organized local school administrative units. It is the State's responsibility to create or facilitate the creation of local school districts of sufficient size to properly discharge local responsibilities and to spend the tax dollar effectively.

Effective local control requires that all local administrative units contribute to the support of school budgets in proportion to their respective abilities, and that all have such flexibility in their taxing programs as will readily permit of progress in the improvement of the educational program. Effective local control requires a local taxing power, and a local tax base which is not unduly restricted or overburdened.

The system of public school support should assure that state and local funds are adequate for the support of a realistic foundation program. It is unrealistic and unfair to the less wealthy districts to provide for only a part of the financing necessary for an adequate educational program.

The system of public school support should permit and encourage local school districts to provide and support improved educational programs. Improvement of programs in particular districts is in the interests of the State as a whole as well as of the people in individual districts, since the excellence of the programs in some districts will tend to bring about program improvement in other districts.

The system of public school support should make provision for the apportionment of state funds to local school districts on a strictly objective basis that can be computed as well by the local districts as by the State. The principle of local responsibility requires that the granting of discretionary powers to state officials over the distribution of state aid be avoided.

The system of public school support should effect a partnership between the State and each local district, with each participating in accordance with its relative ability. The respective abilities should be combined to provide a financial plan between the State and the local school district that may be known as the foundation program for public school support.

The system of public school support should provide, through the foundation program, for essential educational opportunities for all who attend the public schools. Provision should be made in the system for adequate financing of all educational services.

The system of public school support should provide for both guaranteed minimum support and equalization support from state funds. State support should be extended to all local districts regardless of wealth, for this not only develops a sense of broader responsibility, but also creates flexibility taxwise permitting the exercise of local initiative. State support should, to assure equal educational opportunity, provide for as large a measure of equalization as possible among districts. The taxing power of the State should be utilized to raise the level of educational opportunity in the financially weakest districts of the State.

The system of public school support should provide for an equitable system of state and local sharing in the foundation program. The degree of local sharing should be based, as nearly as possible, on the true ability of the local district, so that each may contribute uniformly to the foundation program.

7091. The Superintendent of Public Instruction shall compare the total of the amounts allowed to, and computed for, each elementary district pursuant to Articles 7 and 10 of this chapter with the amount of the foundation program of school support computed for each such district pursuant to Article 4 of this chapter.

Notwithstanding anything in this article to the contrary, the amount computed for any elementary school district under this article shall be not less than it would have been had the foundation program of school support for such district under Article 4 of this chapter been computed by multiplying the number of units of average daily attendance in the district during the preceding fiscal year as computed under Sections 6911 and 6944 by two hundred ninety-nine dollars ($299) if the total average daily attendance of the district during the preceding fiscal year was less than 901, exclusive of the pupils attending the seventh and eighth grades of a junior high school, or by three hundred nine dollars ($309) if the total average daily attendance of the district during the preceding fiscal year was 901 or more, exclusive of the pupils attending the seventh and eighth grades of a junior high school, and had the tax used in making the computation for the district under Article 10 of this chapter been one dollar and thirty-five cents ($1.35).

Year 1955-56, to an elementary school district having an average daily attendance during the preceding fiscal year of less than 101, exclusive of pupils attending the seventh and eighth grades of a junior high school, shall not be more than the amount that would have been computed under Section 7091 had the foundation program for the district been computed under Section 7032.1, except that to this allowance shall be added an amount for the Fiscal Year 1955-56 equal to 80 percent, reduced by an additional 20 percent in each the subsequent fiscal years, of the difference between the allowance computed for the district under Section 7091 and the amount that would have been computed for the district under Section 7091 had the foundation program for the district been computed under Section 7032.1 except as to any elementary school district determined to be a necessary school district by the existence of any one or more of the following conditions:

(a) If as many as five pupils residing in the district and attending grades kindergarten to eight, inclusive, exclusive of pupils attending the seventh and eighth grades of a junior high school would be required to travel more than 10 miles one way from a point on a well-traveled road nearest their home to the nearest other public elementary school, or

(b) If as many as 15 pupils residing in the district and attending grades kindergarten to eight, inclusive, exclusive of pupils attending the seventh and eighth grades of a junior high school would be required to travel more than five miles one way from a point on a well-traveled road nearest their home to the nearest other public elementary school.

If topographical or other conditions exist in a district which would impose unusual hardships if the number of miles specified were required to be traveled or if during the fiscal year the roads which would be traveled have been impassable for more than an average of two weeks per year for the preceding five years, the governing board of the district may, on or before April 1st, request the Superintendent of Public Instruction, in writing, for an exemption from such requirements or for a reduction in the miles required. The request shall be accompanied by a statement of the conditions upon which such request is based, giving such information in such form as the Superintendent of Public Instruction may require.

This section shall have no force or effect after June 30, 1960.

SEC. 30. Section 7092.1 of said code is amended to read:

High school districts

7092.1. Notwithstanding anything in this article to the contrary, the amount computed for any high school district under this article shall be not less than it would have been had the foundation program of school support for such district under Article 4 of this chapter been computed by multiplying the number of units of average daily attendance in the district

during the preceding fiscal year as computed under Sections 6943 and 6962 by three hundred ninety-four dollars ($394) if the total average daily attendance of the district during the preceding fiscal year was less than 301, or by four hundred four dollars ($404) if the total average daily attendance of the district during the preceding fiscal year was 301 or more, and had the tax used in making the computation for the district under Article 10 of this chapter been eighty-five cents ($0.85).

The amount allowed under this article to a high school district having an average daily attendance during the preceding fiscal year of less than 301, to which Section 7037.02 is applicable, shall not be more than the amount computed under Section 7092, except that for the first year succeeding the year in which Section 7037 02 became applicable to this allowance shall be added an amount equal to 80 percent, reduced by an additional 20 percent in each of the subsequent fiscal years, of the difference between the allowance computed for the district under Section 7092 and the amount that would have been computed for the district under Section 7092 had the foundation program been computed under Section 7037.1 without regard to the required number of certificated employees employed.

SEC. 31. Section 7092 6 is added to said code, to read:

(a) 60 or fewer pupils ..... July 1, 1962
(b) 61 to 120 pupils ..... July 1, 1963

SEC. 57. Section 17300 is added to said code, to read:

Principles and policies

17300. It is the intent of the Legislature that the administration of the laws governing the financial support of the Public School System in this State be conducted within the purview of the following principles and policies:

The system of public school support should be designed to strengthen and encourage local responsibility for control of public education. Local school districts should be so organized

that they can facilitate the provision of full educational opportunities for all who attend the public schools. Local control is best accomplished by the development of strong, vigorous, and properly organized local school administrative units. It is the State's responsibility to create or facilitate the creation of local school districts of sufficient size to properly discharge local responsibilities and to spend the tax dollar effectively.

Effective local control requires that all local administrative units contribute to the support of school budgets in proportion to their respective abilities, and that all have such flexibility in their taxing programs as will readily permit of progress in the improvement of the educational program. Effective local control requires a local taxing power, and a local tax base which is not unduly restricted or overburdened.

The system of public school support should assure that state and local funds are adequate for the support of a realistic foundation program. It is unrealistic and unfair to the less wealthy districts to provide for only a part of the financing necessary for an adequate educational program.

The system of public school support should permit and encourage local school districts to provide and support improved educational programs. Improvement of programs in particular districts is in the interests of the State as a whole as well as of the people in individual districts, since the excellence of the programs in some districts will tend to bring about program improvement in other districts.

The system of public school support should make provision for the apportionment of state funds to local school districts on a strictly objective basis that can be computed as well by the local districts as by the State. The principle of local responsibility requires that the granting of discretionary powers to state officials over the distribution of state aid be avoided.

The system of public school support should effect a partnership between the State and each local district, with each participating in accordance with its relative ability. The respective abilities should be combined to provide a financial plan between the State and the local school district that may be known as the foundation program for public school support.

The system of public school support should provide, through the foundation program, for essential educational opportunities for all who attend the public schools. Provision should be made in the system for adequate financing of all educational services.

The system of public school support should provide for both guaranteed minimum support and equalization support from state funds. State support should be extended to all local districts regardless of wealth, for this not only develops a sense of broader responsibility, but also creates flexibility taxwise permitting the exercise of local initiative. State support should, to assure equal educational opportunity, provide for as large a measure of equalization as possible among districts. The taxing power of the State should be utilized to raise the

level of educational opportunity in the financially weakest districts of the State.

The system of public school support should provide for an equitable system of state and local sharing in the foundation program. The degree of local sharing should be based, as nearly as possible, on the true ability of the local district, so that each may contribute uniformly to the foundation program.

The Superintendent of Public Instruction shall allow for each period for each district which was in existence for all purposes during the preceding fiscal year an amount equal to the difference between (1) the amount of basic state aid

and state equalization aid which was apportioned on account of average daily attendance in the regular day classes in such district during the preceding fiscal year and (2) the amount of basic state aid and state equalization aid which would have been apportioned had the total average daily attendance in the regular day classes in such district during such year been equal to the total average daily attendance during the period of the current year, multiplied for the first period by the ratio of days the regular day schools of the district were maintained during said period of the then current fiscal year to 175, and for the second period by the ratio of the difference between 175 and the days the regular day schools of the district were maintained during the first period of the current fiscal year to 175.

If, by the tenth day of November of any current fiscal year, an additional certificated employee or additional certificated employees are hired for a school in a district from which such a withholding was made, and the school then fully meets the requirements of the appropriate subdivision of Section 17664, the Superintendent of Public Instruction shall apportion, at the time the apportionment under Section 17405 is made to the district, the amount withheld. (a) Not less than 65 percent of the foundation program for elementary school attendance in elementary districts with an average daily attendance during the preceding year of less than 101, exclusive of pupils attending the seventh and eighth grades of a junior high school, as such foundation program is actually computed for apportionments in the same fiscal year pursuant to Article 2 (Sections 17651 to 17667, inclusive) of Chapter 3 of this division, or pursuant to Section 17901, if the foundation program for such district is computed pursuant to Section 17901, whichever is the case for the particular district, or 65 percent of the total state basic and equalization aid plus the amount which would be raised by the levy of the maximum tax rate prescribed for the district by Section 20751 on each one hundred dollars ($100) of assessed valuation of the district during the current fiscal year, reduced by the amount chargeable to the district for tuition for interdistrict attendance, pursuant to Section 5659, if such amount is less than the amount computed on the basis of the foundation program.

(b) Not less than 65 percent of the foundation program for elementary school attendance of an elementary district with an average daily attendance during the preceding year of 101 or

more, exclusive of the average daily attendance of pupils attending the seventh and eighth grades of a junior high school, as such foundation program would be computed for apportionments in the same fiscal year pursuant to Article 2 (Sections 17651 to 17667, inclusive, whichever are in effect) of Chapter 3, or as it would be computed pursuant to Section 17901.1 for apportionments in the same fiscal year, whichever is the larger amount; but if an amount computed by determining 65 percent of the total basic and equalization aid plus the amount which would be raised by the levy of the maximum tax rate prescribed for the district by Section 20751 on each one hundred dollars ($100) of assessed valuation of the district during the current fiscal year, reduced by the amount chargeable to the district for tuition for interdistrict attendance, pursuant to Section 5659, is less than the larger of the two amounts computed on the basis of the foundation program, such amount shall be used in lieu of the amount computed on the basis of the foundation program.

(c) Not less than 65 percent of the foundation program for high school attendance in high school districts with an average daily attendance during the preceding year of less than 267, as such foundation program is actually computed for apportionments in the same fiscal year pursuant to Article 2 (Sections 17651 to 17667, inclusive) of Chapter 3 of this division, or pursuant to Section 17903, if the foundation program for such district is computed pursuant to Section 17903, whichever is the case for the particular district, or 65 percent of the total state basic and equalization aid plus the amount which would be raised by the levy of the maximum tax rate prescribed for the district by Section 20751 on each one hundred dollars ($100) of assessed valuation of the district during the current fiscal year, increased by amounts received as tuition payments for interdistrict attendance, if such amount is less than the amount computed on the basis of the foundation program.

(d) Not less than 65 percent of the foundation program for high school attendance in a high school district which had an average daily attendance during the preceding year of 267 or more, which would be computed for apportionments in the same fiscal year pursuant to Article 2 (Sections 17651 to 17667, inclusive) of Chapter 3 of this division, or which would be computed for apportionments in the same fiscal year pursuant to Section 17903, whichever is the larger amount; but if an amount computed by determining 65 percent of the total basic and equalization aid plus the amount which would be raised by the levy of the maximum tax rate prescribed for the district by Section 20751 on each one hundred dollars ($100) of assessed valuation of the district during the current fiscal year, increased by amounts received as tuition payments for interdistrict attendance, is less than the larger of the two amounts computed on the basis of the foundation program, such amount shall be used in lieu of the amount computed on the basis of the foundation program.

(e) Not less than 65 percent of the foundation program computed for apportionments in the same fiscal year for junior college attendance, or 65 percent of the total state basic and equalization aid plus the amount which would be raised by the levy of the maximum tax rate prescribed for the district by Section 20751 on each one hundred dollars ($100) of assessed valuation of the district during the current fiscal year, increased by amounts received as tuition payments for interdistrict attendance and reduced by amounts of interdistrict attendance payments chargeable to it, if such amount is less than the amount computed on the basis of the foundation program.

(f) In addition to the above amounts, as determined for each district, not less than 65 percent of the apportionments for growth computed for the district during the preceding fiscal year, and not less than 65 percent of the apportionments computed pursuant to Sections 17951 and 17411 during the same fiscal year.

The terms "elementary district," "high school district" and "elementary school attendance," "high school attendance," and "junior college attendance," as used in this section, have the same meanings as if used in Sections 11256, 11257, and 17251, Sections 17401 to 17417, inclusive, and Sections 17601 to 18460, inclusive

In the event it appears to the governing board of a school district that the application of the preceding paragraphs of this section during a fiscal year would result in serious hardship to the district, or in the payment of salaries to persons employed by the district in positions requiring certification qualifications substantially in excess of the salaries paid persons employed in positions requiring certification qualifications by other districts of comparable type and functioning under comparable conditions, the board may, with the written approval of the county superintendent of schools having jurisdiction over the district apply to the Superintendent of Public Instruction in writing not later than July 15th of the succeeding fiscal year for exemption from the requirements of the preceding paragraphs of this section for the fiscal year on account of which the application is made. Upon receipt of such application, duly approved, the Superintendent of Public Instruction may grant the district exemption, to the extent deemed necessary by him, from such requirements for the fiscal year on account of which the application is made.

If any portion of the money is not expended as required by this section and is not exempted by the Superintendent of Public Instruction, the county superintendent of schools having jurisdiction over the district shall add such portion to the amount required to be expended for salaries or tuition for the next succeeding fiscal year or he may transfer 80 percent of such amount to the county school service fund pursuant to Section 20104.

CHAPTER 1252

An act to add Section 7141.5 to the Education Code, and to add Section 17252 to the Education Code as enacted at the 1959 Regular Session, relating to the duties of county superintendents of schools and county auditors in respect to state apportionments for school districts, and declaring the urgency thereof to take effect immediately.

In effect immediately

[Approved by Governor June 29, 1959. Filed with Secretary of State June 29, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 7141.5 is added to the Education Code, to read:

Revised reports

7141.5. The governing board of any school district may, to obtain adjustments in amounts specified as the total assessed valuation of property in the district where nonassessable possessory interests in personal property were included, request the county auditor and the county superintendent of schools to prepare, before June 30, 1959, revisions of all reports and information which those officers are required to file with the Superintendent of Public Instruction relating to the assessed valuation of property within the district during the 1958-1959 Fiscal Year for purposes of computing state apportionments for the district. Upon the receipt of such a request the county auditor and the county superintendent of schools shall revise all such reports and information to eliminate any items of assessment involving nonassessable possessory interests in personal property, and shall, irrespective of whether or not the reports and information have previously been filed with the Superintendent of Public Instruction, file with that officer the revisions thereof on or before June 30, 1959. The Superintendent of Public Instruction shall utilize, in computing state apportionments to the district for the 1959-1960 Fiscal Year,

the assessed valuation arrived at in the revision of such reports and information.

SEC. 2. Section 17252 is added to the Education Code as enacted at the 1959 Regular Session, to read:

17252. The governing board of any school district may, to obtain adjustments in amounts specified as the total assessed valuation of property in the district where nonassessable possessory interests in personal property were included, request the county auditor and the county superintendent of schools to prepare, before June 30, 1959, revisions of all reports and information which those officers are required to file with the Superintendent of Public Instruction relating to the assessed valuation of property within the district during the 1958-1959 Fiscal Year for purposes of computing state apportionments for the district. Upon the receipt of such a request the county auditor and the county superintendent of schools shall revise all such reports and information to eliminate any items of assessment involving nonassessable possessory interests in personal property, and shall, irrespective of whether or not the reports and information have previously been filed with the Superintendent of Public Instruction, file with that officer the revisions thereof on or before June 30, 1959. The Superintendent of Public Instruction shall utilize, in computing state apportionments to the district for the 1959-1960 Fiscal Year, the assessed valuation arrived at in the revision of such reports and information. Same

SEC. 3. Section 2 of this act shall become operative at the same time as the Education Code enacted by the Legislature at its 1959 Regular Session takes effect, at which time Section 7141.5 added to the Education Code by Section 1 of this act is repealed. Effect. Stats 1959, Ch. 2

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

Recent judicial decisions of the appellate courts of this State have held invalid under the State Constitution and the applicable statutory laws, the assessment of possessory interests in certain types of personal property. School districts which had been in expectation of the receipt of revenues from the taxation of such property are now confronted with prospects of realizing substantially lower tax revenues than had been expected. Since apportionments of state aid to school districts are computed, in large measure, in accordance with the assessed valuation of property in the districts and local ability to provide financial support, it is essential that immediate action to adjust total assessed valuations of property within districts be permitted, and it is necessary, therefore, that provisions of this act take effect immediately.

CHAPTER 1253

1532. All sales must be for cash or for part cash and part deferred payments, the credit in no case to exceed 10 years from the date of sale, and the terms being subject to the approval of the court. When real property is sold upon deferred payments, the guardian must demand and receive from the purchasers, notes, and a mortgage or deed of trust on the property sold, with such additional security as the court deems necessary and sufficient to secure the prompt payment of the amounts so deferred, and the interest thereon. The mortgage or deed of trust herein provided for shall be subject only to encumbrances existing at date of sale and such other encumbrances as the court shall approve.

Where property sold by the guardian for part cash and part deferred payments consists of an undivided interest in real or personal property, a joint tenancy interest, or any other interest therein less than the entire ownership, and the owner or owners of the remaining interests therein join in such sale, the note and deed of trust or mortgage may be made to the ward and such others having an interest in such property. SEC. 2. A new Article 7 (commencing with Section 12580) is added to Chapter 6 of Part 2 of Division 3 of Title 2 of said code, to read:

Article 7. Uniform Supervision of Trustees for Charitable Purposes Act

Short title

12580. This article may be cited as the Uniform Supervision of Trustees for Charitable Purposes Act.

Urgency

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Tremendous sums of money are given each year for charitable purposes. A considerable amount of these funds will be diverted or wasted unless these provisions of the Uniform Supervision of Trustees for Charitable Purposes Act are continued on a permanent basis.

The proper supervision of the administration of charitable trusts lends encouragement to donors to create trusts to benefit the people of California.

Unless this measure is to have immediate effect, the Uniform Supervision of Trustees for Charitable Purposes Act will terminate on July 1, 1959, with the possible loss of funds intended to preserve the health, safety, and welfare of the people of California.

Capital Outlay and Savings Fund abolished

16407. The Capital Outlay and Savings Fund in the State Treasury is abolished. All money credited to the Capital Outlay and Savings Fund is transferred to the General Fund. All appropriations heretofore made from the Capital Outlay and Savings Fund shall be payable, for the same purposes and periods, from the General Fund.

SEC. 3. Section 16408 of said code is amended to read:

Transfer of unexpended balance

16408. The unexpended balance in any appropriation heretofore made payable from the Capital Outlay and Savings

Repeals

SEC. 5. Sections 15750, 15751, 15772, 15794, 15795, 15796, 15797, 15798, 16407.1, 16407.2 and 16407.4 of said code are repealed.

Operative date

SEC. 6. This act shall become operative July 1, 1959.

Urgency

SEC. 7. This act is an urgency measure necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The accounts of the State are kept and reported on a fiscal-year basis. If a change in funding is made during the course of a fiscal year, it results in the expenditures being reported partially from one fund and partially from another. This destroys the continuity of recording for year-by-year comparisons From an operating standpoint also, there is less work involved in making the transition if it can be done at the start of a fiscal year.

CHAPTER 1260

An act to amend Section 5003 of the Public Utilities Code, relating to transportation fees, to take effect immediately, tax levy.

In effect immediately

[Approved by Governor June 30, 1959. Filed with Secretary of State June 30, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 5003 of the Public Utilities Code is amended to read:

5003. Every railroad corporation, express corporation, freight forwarder, and every person or corporation operating vessels, as these terms are defined in Part 1 (commencing at Section 201) of Division 1, and every motor transportation broker, as the term is defined in the Motor Transportation Brokers' Act, and every person or corporation owning or operating motor vehicles in the transportation of property for hire upon the public highways under the jurisdiction of the commission shall, between the first and fifteenth days of January, April, July, and October of each year, file with the commission a statement showing the gross operating revenue derived by such person or corporation from the transportation of property for the preceding three calendar months, and shall at the time of filing such report pay to the commission a fee of four dollars ($4) for each quarter, together with one-third of 1 percent of the amount of such gross operating revenue.

SEC. 2. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

SEC. 3. This act shall be operative until July 1, 1964, at which time Section 5003 of the Public Utilities Code is repealed.

CHAPTER 1261

An act to repeal Section 6 of Chapter 9 of the 1958 Regular Session, relating to transportation fees.

In effect September 18, 1959

[Approved by Governor June 30, 1959. Filed with Secretary of State June 30, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 6 of Chapter 9 of the 1958 Regular Session is repealed.

CHAPTER 1262

An act to add Section 1885 to the Code of Civil Procedure, relating to interpreters for deaf parties in civil and criminal actions and proceedings, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1959. Filed with Secretary of State June 30, 1959.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 1885 is added to the Code of Civil Procedure, to read:

1885. (a) In all criminal prosecutions, where the accused is a deaf person, he shall have all of the proceedings of the trial interpreted to him in a language that he can understand by a qualified interpreter appointed by the court.

(b) In all cases where the mental condition of a person is being considered and where such person may be committed to a mental institution, and where such person is a deaf person, all of the court proceedings, pertaining to him, shall be interpreted to him in a language that he understands by a qualified interpreter appointed by the court.

(c) An interpreter who shall be appointed under the terms of this section shall be required to take an oath that he will make a true interpretation to the person accused or being examined of all the proceedings of his case in a language that he understands; and that he will repeat such person's answers to questions to counsel, court, or jury, in the English language, with his best skill and judgment.

(d) Interpreters appointed under this section shall be paid for their services a reasonable sum to be determined by the court, which shall be a charge against the county.

(e) As used in this section, "deaf person" means a person with a hearing loss so great as to prevent his understanding normal spoken language with or without a hearing aid.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

It is a fundamental part of due process that an accused or a person sought to be committed for mental illness be present at the proceedings in which he is the accused or at which his competency is in question. This is premised partly on the reasonable assumption that if he is present and aware of what is transpiring, he may be able to present good reasons why he should not be convicted or committed. Plainly this is not possible when a person is deaf and cannot hear what is going on. So long as this situation is allowed to continue, grave injustices may be done. It is therefore imperative that this act, providing interpreters for deaf persons, go into immediate effect.

CHAPTER 1263

An act to appropriate one hundred thousand dollars ($100,000) to be expended pursuant to Chapter 13 of Division 10 of the Education Code, relating to the National Defense Education Act of 1958, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1959. Filed with Secretary of State June 30, 1959.]

The people of the State of California do enact as follows:

SECTION 1. The sum of one hundred thousand dollars ($100,000) is hereby appropriated from the General Fund without regard to fiscal years to be expended for the purpose of making all or part of the contributions payable to student loan funds pursuant to agreements entered into under Title II of the Act of Congress cited as the National Defense Education Act of 1958 on behalf of the following institutions of higher education, the appropriation to be allocated by the Director of Education in approximately the sums specified opposite the name of the respective institution:

State College for Alameda County	$2,000
California State Polytechnic College	15,000
Chico State College	3,000
Fresno State College	3,300
Humboldt State College	2,000
Long Beach State College	7,000
Los Angeles State College of Applied Arts and Sciences	12,000
Orange County State College	2,000
Sacramento State College	8,400
San Diego State College	15,500
San Fernando Valley State College	4,300
San Francisco State College	12,000
San Jose State College	12,000
California Maritime Academy	1,500

SEC. 2. It is in the interests of the State and of the people thereof for the State to provide money for student loan funds in public institutions of higher learning on the basis of an amount equal to not less than one-ninth of federal capital contributions to such student loan funds as provided by the National Defense Education Act of 1958 for needy students at these publicly supported institutions.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The United States Commissioner of Education has allotted money under the act to the State for the Fiscal Year 1958-59, and it is necessary that this measure become effective immediately in order that the needy students of state colleges may receive loans under Title II of the act for the second semester, which at most state colleges begins about February 1, 1959.

CHAPTER 1264

An act to add Section 69749.2 to the Government Code, relating to sessions of the superior court, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1959. Filed with Secretary of State June 30, 1959.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 69749.2 is added to the Government Code, to read:

69749.2. Except in those cities in which sessions of the superior court are required by law to be held and in which sessions were being held on the effective date of this section, no sessions of the superior court shall be held prior to the ninety-first day after the adjournment of the 1959 Session of the Legislature in any city meeting the requirements of this article unless the board of supervisors by resolution provides an earlier date upon which such sessions may be held.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The public peace, health and safety are dependent upon the establishment of sufficient courts for the convenient and timely administration of justice. County officers, and judges of the superior courts, are charged with the responsibility of providing the most reasonable and efficient facilities and personnel possible for the efficient and timely administration of justice within their respective counties, consistent with their responsibility to the electors and taxpayers thereof for the costs thereof. The solution of these problems is very complex and difficult in the counties affected by this act, because of the tremendous influx of population and the accelerated growth and development therein. Satisfactory solution of these problems in such counties cannot be effected without the benefit of the final action of the Legislature on legislation being considered at this session of the Legislature affecting the jurisdiction and sessions of the superior court, the jurisdiction and abolition of courts inferior thereto, the officers and attaches thereof, and other legislation affecting such courts and the costs of maintenance thereof.

CHAPTER 1265

Fresh peaches shall be mature but not overripe; free from insect injury which has penetrated or damaged the flesh, split pits which are open at the stem end, and from mold, brown rot, and decay, and free from serious damage, due to cuts or skin breaks, growth cracks, bruises, scab, rust, blight, disease, hail, or other causes. Damage to any one peach is not serious unless it causes a waste of 10 percent, by weight, of the individual peach.

Not more than 10 percent, by count, of the peaches in any one container or bulk lot may be below these requirements, but not to exceed one-half of this tolerance shall be allowed for any one cause.

Packed peaches shall not vary in size between the fruits, in any one container, more than three-eighths of an inch in diameter, when measured through the widest portion of the cross section.

All containers of fresh peaches shall bear upon them in plain sight and in plain letters on one outside end: the name of the person who first authorized the packing of the peaches or the name under which such packer is engaged in business, together with a sufficiently explicit address to permit ready location of such packer; the name of the variety, if known, and when not known the words "unknown variety"; the size description, when the peaches are packed in the four-basket crate, or the count when wrapped and packed throughout, in straight side containers in uniform layers and rows.

In the case of the four-basket crate the numerical description of the pack in the top layer of the baskets shall be used to designate size. When the count is used to designate the contents of the container a variation of four peaches more or less than the number stated shall be allowed.

Peaches, when packed, shall be in standard containers numbers 1, 1A, 5, 6, 7, 8, 9, 9A, 9B, 12B, 22D, 25, 26, 27, 27A, 27B, or 27C. Containers of peaches placed in molded forms shall be

marked with the exact number of peaches placed therein, and may be packed in standard container number 31. Other size containers may be used if conspicuously marked on the outside of the end which bears any marks intended to describe the contents of such container, in letters not less than one-half inch in height, "irregular container."

SEC. 2. Section 803.5 of said code is amended to read:

803.5. Nectarines shall be mature, but not overripe; free from insect injury which has penetrated or damaged the flesh, split pits which are open at the stem end; and from mold, brown rot, and decay which has affected the edible portion; and free from serious damage due to skin breaks or cuts, growth cracks, bruises, or other causes. Damage to any one nectarine is not serious unless it causes a waste of 10 percent, by weight, of the individual nectarine. Nectarines

Nectarines shall not be considered mature unless at the time of picking (a) an aggregate area of at least one inch in diameter of the surface of the individual fruit has broken from green or dark green to a distinct flecking of light green or a light green indicating equivalent maturity, or (b) the shoulders and suture are well developed and filled out.

Except in the case of nectarines affected by split pits which are visible, not more than 10 percent, by count, of the nectarines in any one container or bulk lot may be below these requirements, but not to exceed one-half of this tolerance shall be allowed for any one cause. All containers of fresh nectarines shall bear upon them in plain sight and in plain letters on one outside end: the name of the person who first authorized the packing of the nectarines or the name under which such packer is engaged in business, together with a sufficiently explicit address to permit ready location of such packer; the name of the variety, if known, and when not known the words "unknown variety"; the size description, when the nectarines are packed in the four-basket crate, or the count, when wrapped and packed throughout, in straight-side containers in uniform layers and rows.

In the case of the four-basket crate the numerical description of the pack in the top layer of the basket shall be used to designate size. When the count is used to designate the contents of the container a variation of four nectarines more or less than the number stated shall be allowed.

Nectarines, when packed, shall be in standard containers numbers 1, 1A, 5, 6, 7, 8, 9, 9A, 9B, 12B, 12C, 22B, 22D, 25,

Other size containers may be used if conspicuously marked on the outside of the end which bears any marks intended to describe the contents of such container, in letters not less than one-half inch in height, "irregular container."

In lieu of the size designations required by Section 806 to be marked on containers of plums or fresh prunes, standard container number 9c may be marked with the row size of the plums or fresh prunes in the container followed by the term "row size," all in like size type. "Row size" as used in this section shall mean that number of plums or fresh prunes, representative of the variations in size of the plums in the container, which would tightly pack laterally across the side of a tray used to hold the top layer which distance shall not be less than 12 inches or the number of plums or fresh prunes whose aggregate width will equal 12 inches. The row size measurements of plums or fresh prunes shall be established with the stem end downward and utilizing the widest portion of cross section at a right angle to a straight line drawn from stem end to the distal end thereof.

SEC. 3. Section 14372 of said code is amended to read:

Retirement after prior retirement

14372. When a member who has been retired and has thereafter re-entered membership in the Retirement System, subsequently retires and the prior and subsequent retirements were either both for service or disability or if the prior retirement was for service and the subsequent retirement is for disability, he shall not receive the full retirement annuities specified in subdivision (b) of Section 14355, or 14369, according to whether retirement is for service or disability, but shall receive (1) an annuity, based upon his salary earned in service from the date of re-entry into the retirement system to the date of his subsequent retirement, and calculated under Section 14355 or 14369, as the case may be, plus (2) annuities equal to the annuities he received next preceding his re-entry into membership, adjusted according to any change in the provisions gov-

If the member renders five years of service after his re-entry into membership, the salary earnable by him after his re-entry shall be used in the calculation of benefits due for service rendered prior to such re-entry into membership.

Such a member likewise shall not receive the full retirement salary specified in subdivision (a) of Section 14355 or 14369, according to whether retirement is for service or disability, but shall receive (1) a retirement salary, based upon his credited service from the date of re-entry into the Retirement System to the date of his subsequent retirement, and calculated under Section 14355 or 14369, as the case may be, plus (2) a retirement salary equal to the retirement salary he received next preceding his re-entry into membership, adjusted according to any change in the provisions governing the calculation of retirement allowances made after said re-entry and applicable to allowances being paid at the date of the change; provided, that such subsequent retirement occurs before he renders after his re-entry, at least one year of service credited under the retirement system; otherwise, plus (3) a retirement salary based on the same service as that upon which the retirement salary he received next preceding said re-entry was based, but calculated under Section 14355, or 14369, as the case may be, on the basis of an age, taken to the preceding completed quarter year, and determined by deducting from his age at his subsequent retirement, the aggregate time during which he was under retirement.

The accounts of the State are kept and reported on a fiscal year basis. If a change in funding is made during the course of a fiscal year, it results in the expenditures being reported partially from one fund and partially from another. This destroys the continuity of recording for year by year comparisons. From an operating standpoint also, the amount of work involved in making the transition is less if it can be done at the start of a fiscal year.

Each fiscal year budget shall provide for a salary savings reserve to which shall be transferred on a document initiated by the agency and submitted to the Department of Finance the unencumbered balance remaining in each allotment for salaries and wages at the close of each quarter or other period of time covered by the allotment. The unencumbered balance remaining in each budget allotment for salaries and wages shall be computed by deducting from the amount of the allotment the expenditures and accrued obligations for salaries and wages chargeable to such allotment for the period covered thereby. The amount in the salary savings reserve shall not be available for expenditure except upon transfer to allotments for salaries and wages approved by the Department of Finance. There exists an extreme shortage of physical facilities for the operation of the custodial, mental treatment, educational, administrative, military and other agencies of the State Government, the present facilities being entirely inadequate due to great increases in population and added governmental responsibilities. The capital outlay appropriations in this budget are all in continuation of an existing program to remedy the aforesaid shortage of facilities and to promote and sustain the economy of the State. If they are not available for expenditure on July 1, 1959, the existing program will be delayed. The expeditious correction of such condition and the efficient operation of the State's business require the immediate availability of the new capital outlay appropriation and the uninterrupted availability of reappropriated capital outlay items contained in this measure. It is therefore necessary that this act go into immediate effect.

Article II

This agreement shall become operative immediately as to those states executing it whenever two or more of the compacting states have executed it in the form that is in accordance with the laws of the executing state and the Congress has given its consent.

To that end the commission shall draft and, after consultation with the advisory committee hereinafter authorized, recommend to the governors and legislative branches of the various signatory states hereto legislation dealing with the conservation of the marine, shell, and anadromous fisheries in all of those areas of the Pacific Ocean over which the compacting states jointly or separately now have or may hereafter acquire jurisdiction. An advisory committee to be representative of the commercial fishermen, commercial fishing industry and such other interests of each state as the commission deems advisable shall be established by the commission as soon as practicable for the purpose of advising the commission upon such recommendations as it may desire to make.

Article VIII

Nothing in this compact shall be construed to limit the powers of any state or to repeal or prevent the enactment of any legislation or the enforcement of any requirement by any state imposing additional conditions and restrictions to conserve its fisheries.

Article IX

Continued absence of representation or of any representative on the commission from any state party hereto, shall be brought to the attention of the governor thereof.

Article X

The states agree to make available annual funds for the support of the commission in proportion to the primary market value of the products of their fisheries as recorded in the latest published reports (five-year average); provided, no state, other than Idaho or Montana, shall contribute less than two thousand dollars ($2,000) per annum and the annual contribution of each state above the minimum shall be figured to the nearest one hundred dollars ($100).

Article XII

The State of Alaska, the State of Hawaii, or any state having rivers or streams tributary to the Pacific Ocean may become a contracting state by enactment of the Pacific Marine Fisheries Compact. Upon admission of any new state to the compact the purposes of the compact and the duties of the commission shall extend to the development of a joint program for the conservation, protection and prevention of physical waste of fisheries in which the contracting states are mutually concerned, and to all waters of the newly admitted state necessary to develop such a program. This article shall become effective upon its enactment by the other compacting states and upon consent and approval of Congress by virtue of the authority vested in it under Article I, Section 10, of the Constitution of the United States.

SECTION 1. Section 26465 is added to the Health and Safety Code, to read:

26465. The term "food additive" means any substance the intended use of which results or may reasonably be expected to result, directly or indirectly, in its becoming a component or otherwise affecting the characteristics of any food (in-

"Food additive"

cluding any substance intended for use in producing, manufacturing, packing, processing, preparing, treating, packaging, transporting, or holding food; and including any source of radiation intended for any such use), if such substance is not generally recognized, among experts qualified by scientific training and experience to evaluate its safety, as having been adequately shown through scientific procedures (or, in the case of a substance used in food prior to January 1, 1958, through either scientific procedures or experience based on common use in food) to be safe under the conditions of its intended use.

The term "food additive" does not include any of the following:

SEC. 2. Section 26466 is added to said code, to read:

"Safe"

26466. "Safe," as used in this chapter, has reference to the health of man or animal as used in the Food Additives Amendment of 1958 (Public Law 85-929; 72 Stat. 1784).

The term "pesticide chemical" means any economic poison as defined in Section 1061 of the Agricultural Code.

The term "raw agricultural commodity" means any food in its raw or natural state, including all fruits that are washed, colored or otherwise treated in their unpeeled, natural form prior to marketing.

SEC. 3. Section 26470 of said code is amended to read:

Adulterated food

26470. A food shall be deemed to be adulterated:

(1) If it bears or contains any poisonous or deleterious substance which may render it injurious to health; but in case the substance is not an added substance such food shall not be considered adulterated under this clause if the quantity of such substance in such food does not ordinarily render it injurious to health; or

(2) If it bears or contains any added poisonous or added deleterious substance which is unsafe within the meaning of Section 26471; or

(3) If it consists in whole or in part of a diseased, contaminated, filthy, putrid or decomposed substance, or if it is otherwise unfit for food; or

(4) If it has been produced, prepared, packed or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered diseased, unwholesome or injurious to health; or

(5) If it is a diseased animal or the product of a diseased animal or an animal which has died otherwise than by slaughter, or which has been fed upon the uncooked offal from a slaughterhouse; or

(6) If its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health.

(7) If it is a canned poultry product or products containing poultry meat which does not comply with any standards of freshness and purity prescribed by the board under Article 6 of this chapter, notwithstanding a compliance with the labeling requirements of Section 26494.

(8) If it is, bears, or contains any food additive which is unsafe within the meaning of the Food Additives Amendment of 1958 (Public Law 85-929; 72 Stat. 1784).

Rules and regulations

26542.1. The board may promulgate rules and regulations prescribing the conditions under which food additives may be safely used. When a food additive is permitted and its intended use is in conformity with regulations established by the board, it shall not be considered adulterated within the meaning of subdivisions (1), (2), or (8) of Section 26470.

Urgency

SEC. 5. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Federal Government has recently amended the Federal Food, Drug, and Cosmetic Act by the Food Additives Amend-

ment of 1958 (Public Law 85-929; 72 Stat. 1784). This law will prohibit the use in food of additives which have not been adequately tested to establish their safety. Such amendment governs interstate commerce in foods; however, there is no corresponding legislation controlling the use of additives in food in intrastate commerce. Many manufacturers and food processors in California intrastate commerce use additives in foods, but there is no present means of controlling the use of additives which may be unsafe to the public's health.

In order that the health of California's millions of people will be protected and not continually endangered by the use of unsafe additives in food, it is necessary that this act take effect immediately.

23804. A violation of a condition placed upon a license pursuant to this article shall constitute the exercising of a privilege or the performing of an act for which a license is required without the authority thereof and shall be grounds for the suspension or revocation of such license. Suspension or revocation

23805. The proceedings specified in Section 23800(a), (b) and (c) shall be conducted in the same manner as is required for other proceedings involving petitions, protests or accusations, and the right of a respondent in such proceedings to appeal shall include the right to appeal from an order imposing conditions upon the licenses involved in the proceedings. [Approved by Governor June 30, 1959. Filed with Secretary of State July 1, 1959.]

In effect September 18, 1959

The people of the State of California do enact as follows:

SECTION 1. Section 1461 of the Probate Code is amended to read:

1461. Any relative or friend may file a verified petition alleging that a person is insane or incompetent, and setting forth the names and residences, so far as they are known to the petitioner, of the relatives of the alleged insane or incompetent person within the second degree residing within or without the State. The clerk shall set the petition for hearing by the court and issue a citation directed to the alleged insane or incompetent person setting forth the time and place of hearing so fixed by him.

If the alleged insane or incompetent person is within the State the citation and a copy of the petition shall be personally served on him in the same manner as provided by law for the service of summons. If the alleged insane or incompetent per-

son is not within the State the citation and a copy of the petition shall be delivered to him, personally. In all cases service shall be made on the alleged insane or incompetent person at least 10 days before the time of hearing unless the time is shortened by the court for good cause shown.

Notice of the nature of the proceedings and of the time and place of the hearing shall be mailed by the petitioner to each of the relatives of the alleged insane or incompetent person named in the petition at least 15 days before the time of hearing unless the time is shortened by the court for good cause shown. The court may order that similar notice be given to other persons in such manner as the court may direct. Any relative or friend of the alleged insane or incompetent person may appear and oppose the petition.

If the alleged insane or incompetent person is within the State and is able to attend, he must be produced at the hearing, and if he is not able to attend by reason of physical inability or by reason that the presence of such person in court would retard or impair the recovery of such person or would increase his mental debility, such inability or harmful effect must be evidenced by the affidavit of a duly licensed physician or surgeon, or other duly licensed medical practitioner, unless such alleged insane or incompetent person is a patient at a county or state hospital in this State in which case the affidavit shall be by the medical director or medical superintendent or acting medical director or medical superintendent of such county or state hospital.

If the alleged insane or incompetent person is not within the State and if the court determines that his attendance at the hearing is necessary in the interest of justice, the court may order him to be produced at the hearing upon penalty of dismissing the petition if he is not produced. If such an order is made and it is contended that the alleged insane or incompetent person is not able to attend by reason of physical inability or by reason that the presence of such person in court would retard or impair the recovery of such person or would increase his mental debility, such inability or harmful effect must be evidenced by the affidavit of a duly licensed physician or surgeon, or other duly licensed medical practitioner, unless such alleged insane or incompetent person is a patient at a county or state hospital in which case the affidavit shall be by the medical director or medical superintendent or acting medical director or medical superintendent of such county or state hospital.

All affidavits provided by this section shall be prima facie evidence of the facts contained therein.

Number of districts

69641. The board of supervisors of any county, which has a population of not less than 4,000,000 as determined upon the basis of the last preceding census taken under the authority of the Congress or the Legislature, by ordinance may divide such county into not more than nine superior court districts within which one or more sessions of the superior court shall be held.

Superior court designation

69642. In the ordinance creating districts, or in a subsequent ordinance, the board of supervisors may designate one or more locations within each district at which sessions of the superior court shall be held.

Change of boundaries

69643. Whenever the board of supervisors finds that changes in population make necessary or expedient the change of boundaries of any district, the change of, addition of, or elimination of any location at which sessions of the superior court are to be held, or the creation of new districts, it may make such changes by ordinance.

Minimum population

69644. An ordinance creating or changing the boundaries of any district shall not result in any district having an estimated population of less than 350,000.

Maximum number of districts

69645. An ordinance creating additional districts shall not result in more than 11 districts in the county.

Approval

69646. The designation, addition, elimination or change of the location of sessions of the superior court shall first be approved by a majority of the judges of the superior court of the county and shall be effected by ordinance of the board of supervisors.

Facilities

69647. Whenever the board of supervisors designates, adds, or changes the location for the holding of sessions of the superior court in any district it shall provide housing, personnel, and facilities for the superior court at such location as provided by Section 68073. The adequacy of the court's quarters, including the plans for the number and design of the courtrooms, chambers and related facilities first shall be ap-

proved by a majority of the judges of the superior court of the county.

69648. Whenever, pursuant to this article or Section 68099, in the assignment of the business of the superior court it becomes necessary for a judge, clerk, deputy clerk, or court reporter who is regularly assigned to duty at a location in one district to travel to another location in the same or another district, for temporary attendance at a session of the superior court, he shall be allowed his necessary expenses in going to, returning from, and attending upon the business of such court. Such expense is a charge against the treasury of the county and shall be paid out of the general fund.

Expenses of court personnel

Whenever a judge of a municipal court within a county is assigned to sit as a judge of the superior court of the said county, he shall be regularly assigned to duty at a location within one of the districts by the presiding judge, and shall thereupon be entitled to the benefits of this section.

69649. When a majority of the judges of the superior court deem it necessary or advisable, by order filed with the county clerk and published as they may prescribe, they may direct that a session of the court be held at least once a week at any designated place in a district, not less than 30 miles distant from the nearest regular location of the sessions of the superior court in that district, measured by airline. The majority of the judges may limit the type of judicial proceedings which may be heard by the court at such place to probate, guardianship and domestic relations matters, including but not limited to orders to show cause proceedings in domestic relations matters.

Judicial action limitations

69650. At the next succeeding general session of the Legislature following division of a county into districts, or following any change in the boundaries of a district, the Legislature may change the boundaries of the district if it deems such action advisable.

15. The powers hereinabove granted shall include the design, construction, or maintenance of any levees, seawalls, groins, breakwaters, jetties, outlets, channels, harbors, basins, or other work pertaining thereto, in such manner as to render them adaptable and useful to shoreline, beach, harbor, navigation, park or marina development or use, and to do such work in co-operation with any other public or quasi-public agency or corporation concerned with such development or use.

Name of district

33216. The name of the new district which succeeds the preceding districts and the city water system is "Costa Mesa County Water District."

Public agency

33217. The new district is a public agency of the State and shall in all respects be operated, managed and governed

as provided by law for county water districts generally; except that until the existing bonded debt of the merged and dissolved district is paid in full, no general obligation bonds shall be voted nor shall any debt be incurred for any district-wide reservoir purpose, except after a hearing and finding by the board of directors of the area and degree of benefit and the creation of special assessment districts based upon such determination.

Districts dissolved

33218. The Newport Heights Irrigation District, Fairview County Water District, the Newport Mesa County Water District, and the Newport Mesa Irrigation District are hereby dissolved and for all purposes shall cease to exist as herein provided. The Costa Mesa County Water District shall and does hereby succeed to all the properties and rights of said districts, and the water system, facilities, and appurtenances of the City of Costa Mesa.

Date of merger

33219. The dissolution of the Fairview County Water District, the Newport Mesa County Water District, the Newport Heights Irrigation District, and the Newport Mesa Irrigation District, and their merger into the Costa Mesa County Water District, shall occur and be considered completed for all purposes on the first day of the second month following the sixty-first day after the effective date of this part, unless there has been filed with any of the districts or the City of Costa Mesa a petition signed by at least 5 percent of the registered voters of the area comprising all of the districts and the City of Costa Mesa requesting that an election be held for the purpose of approving or disapproving the dissolution, merger and creation of the new district by popular vote. If such petition is filed and found to be valid, the election shall be held as quickly as possible and pursuant to the general provisions for holding elections as provided for county water districts, beginning with Section 30700 of the Water Code. The certification of the results of the election, if held, shall determine whether the dissolution, merger and creation of the new Costa Mesa County Water District has been accomplished.

Resolutions approving dissolution

33220. The boards of directors of the Newport Heights Irrigation District, Fairview County Water District, the Newport Mesa County Water District, and the city council of the City of Costa Mesa, may adopt, any time prior to the first day of the second month following the sixty-first day after this part becomes effective, resolutions approving the dissolution of their districts and merger into the Costa Mesa County Water District pursuant to the provisions of this part. The failure of any of these districts or the city to adopt such a resolution shall not prevent the dissolution, merger and creation of the Costa Mesa County Water District, but shall only prevent the dissolution, merger and transfer of such district or city system as provided in this part. The territory of any district or city not adopting such resolution shall be excluded from Section 33215 hereof and shall not be part of the Costa Mesa County Water District as provided in this part.

Newport Mesa Irrigation District dissolved

33221. As the Newport Mesa Irrigation District has been inactive for a number of years by reason of the formation of an overlapping district known as the Newport Mesa County Water District, action by its directors, if any, shall not be necessary for approval of this part. The Newport Mesa Irrigation District is hereby dissolved and any property of the Newport Mesa Irrigation District not already transferred to the Newport Mesa County Water District is hereby transferred.

Date of dissolution and merger

33222. On the first day of the second month following the sixty-first day after the effective date of this part, and if the districts and the city have adopted the resolutions approving this part as herein provided, and if no petition bearing at least 5 percent of the signatures of the registered voters of the area in the districts and the city has been filed requesting an election, the dissolution of the named districts and their merger into and the formation of the new Costa Mesa County Water District shall occur without further action by any of the districts or the city. All of the facilities, properties, assets and liabilities of all the districts are hereby transferred on such date to the Costa Mesa County Water District. The water system and its appurtenances of the City of Costa Mesa are, pursuant to the city's resolution approving same, transferred as of that date to the Costa Mesa County Water District.

Recording of resolutions

33223. The boards of directors of the Newport Heights Irrigation District, Fairview County Water District, and Newport Mesa County Water District, and the City Council of the City of Costa Mesa, shall cause to be recorded with the Recorder of Orange County a certified copy of their resolutions approving the dissolution, merger and creation of the Costa Mesa County Water District as provided in this part. Said resolutions for recording shall include the boundary description of the district or city adopting.

Assessments and debts continued

33224. Any assessments levied by or on behalf of the districts, or any bills or statements rendered by or on behalf of the districts, being dissolved and merged into the new Costa Mesa County Water District shall continue to be a debt or obligation of the person or property against whom levied, assessed or rendered.

CHAPTER 3. OPERATION OF NEW DISTRICT

Operation of new district

33240. Except as in this part expressly provided, the new Costa Mesa County Water District shall be in all respects operated, managed and governed, its directors and officers shall be elected or appointed, and its revenue shall be raised and expended, as provided by law for county water districts generally.

Actions pending

33241. Any and all actions and proceedings pending by or against any of the districts dissolved hereby at the time of their dissolution and merger into the new district may be prosecuted to final judgment for or against said districts, or

the new Costa Mesa County Water District may be substituted as a party.

Actions after dissolution-ment

33242. After the effective date of the dissolution and merger of the districts into the new Costa Mesa County Water District, no action or proceeding shall be brought for or against the dissolved and merged districts or their directors or officers or employees, but shall be prosecuted by or against the Costa Mesa County Water District.

Debts assumed

33243. All outstanding bonded and other indebtednesses of the dissolved and merged districts are hereby assumed by the Costa Mesa County Water District, and all bondholders and creditors of such districts may enforce any rights they may have against the Costa Mesa County Water District in like manner as if the districts had not been dissolved and merged into the Costa Mesa County Water District. All property subject to taxation or assessment for the payment of the principal of or interest on any such outstanding bonded and other indebtedness shall, until such principal and interest is paid or provision is made for the payment thereof, continue to be subject to such taxation or assessment as fully as though said districts had not been merged or dissolved, and all provisions of law which could have been used against the legislative bodies and officers of the merged or dissolved districts to compel the levy and collection of such taxes or assessments had the merger or dissolution not occurred can be used against the board of directors and officers of the Costa Mesa County Water District. As the City of Costa Mesa has no present bonded indebtedness, the new Costa Mesa County Water District is not assuming any present or future indebtedness of the City of Costa Mesa.

Transfer of funds

33244. Upon the dissolution of the named districts, their merger into the Costa Mesa County Water District, and the transfer of the water system by the City of Costa Mesa to the Costa Mesa County Water District as in this part provided, there shall be transferred to the General Fund of the Costa Mesa County Water District a sum equal to three dollars ($3) for each connected consumer by each of the districts and the City of Costa Mesa. All other funds of the district shall be transferred to special accounts for the payment of bond principal and interest of the respective assessment districts as provided in this part. Any surplus remaining after the payment of all bonded indebtedness or after setting aside sufficient funds to pay all bonded indebtedness shall remain in the special fund for the benefit of the territory of the district from which the funds were collected, and shall be used from time to time, until expended, for capital improvements within such territory.

Appointment of directors

33245. The boards of directors of the Newport Heights Irrigation District, the Fairview County Water District, and the Newport Mesa County Water District, and the city council of the City of Costa Mesa, shall, on or before the first day of the first month following the sixty-first day after this part

becomes effective, appoint by resolution a director to serve as a director of the Costa Mesa County Water District. The four directors so appointed shall, within 60 days thereafter, appoint the fifth director. If they for any reason should fail to appoint such a director within the time allowed, the board of supervisors of the County of Orange shall appoint such director. If any of the districts or the city fail to appoint a director as herein provided, the directors who are appointed as herein provided shall consider such office vacant and make an appointment therefor. The directors so appointed shall proceed as provided in Water Code Sections 30520 and following, to organize the board, elect officers, and proceed to govern the affairs of the Costa Mesa County Water District. Any director so appointed must qualify as provided by county water district law, and the first directors shall classify themselves by lot as provided in Water Code Section 30501.

Appraisal of assets

33246. The board of directors of the Costa Mesa County Water District shall, as soon as possible after the formation of the district, cause an appraisal to be made of all operating (other than pipelines, wells, reservoirs and appurtenances) and non-operating assets acquired from each district and the city. The non-operating assets shall be sold as soon as practicable and the proceeds therefrom credited to the district or city from which received. The operating assets necessary for the proper functioning of the integrated system shall be retained and all surplus operating property shall be sold and the proceeds therefrom credited to the agency from which received. It is the intention of the Legislature that the Costa Mesa County Water District equalize as much as reasonably possible the contribution of retained operating property (other than pipelines, wells, reservoirs and appurtenances) by each of the agencies.

Resolution adopting divisions

33247. The Board of Directors of the Costa Mesa County Water District shall, within one year after their appointment, adopt a resolution dividing the Costa Mesa County Water District into five divisions as nearly equal in acreage as practicable for the purpose of electing directors thereafter by divisions, as provided in Article 1 (commencing at Section 30730) of Chapter 2, Part 4, Division 12 of the Water Code.

Execution of documents

33248. The districts and the city shall, pursuant to this part, execute any and all documents necessary to complete the transfer of assets as herein provided.

Enforcement of Ordinance No 122

33249 The Board of Directors of the Costa Mesa County Water District shall enforce the same or similar provisions as Ordinance No. 122 of the City of Costa Mesa, respecting extension of water mains and costs thereof and the requirement of annexation to the City of Costa Mesa for water service in the area formerly served by the city system and the contiguous area northerly and easterly thereof, until the full amount of the funds advanced or hereafter advanced by the city for mainline extension, reservoir or well purposes has been collected and refunded to the city.

33250. Land may be added to the Costa Mesa County Water District or excluded therefrom, and all other actions or proceedings may be carried on by the Costa Mesa County Water District in the same manner as provided by the county water district law. Additions

CHAPTER 1378

An act to amend Section 69600 of the Government Code, relating to the superior court judges for the County of Santa Clara.

[Approved by Governor June 30, 1959. Filed with Secretary of State July 1, 1959.] In effect September 18, 1959

The people of the State of California do enact as follows:

SECTION 1. Section 69600 of the Government Code is amended to read:

69600. In the County of Santa Clara there shall be 12 judges of the superior court.

CHAPTER 1379

An act to add Section 269 to the Revenue and Taxation Code, relating to the welfare exemption, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1959. Filed with Secretary of State July 1, 1959.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 269 is added to the Revenue and Taxation Code, to read:

269. Any tax or penalty or interest thereon for any fiscal year commencing during the calendar year 1957 on property owned by any educational institution which was acquired by it during that calendar year after the lien date in that year but prior to the commencement of such fiscal year, and of a kind that presently qualifies for the welfare exemption and that would have so qualified for such fiscal year had it been owned by such institution on such lien date, shall be canceled pursuant to Article 1 (commencing with Section 4986) of Chapter 4 of Part 9 of this division as if it had been levied or charged erroneously and, if paid, a refund thereof shall be made pursuant to Article 1 (commencing with Section 5096) of Chapter 5 of Part 9 of this division as if it had been erroneously collected.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Some educational institutions purchased property during the 1957 calendar year, after the lien date for that year, which property was taxed for the Fiscal Year 1957-58, although it would have been exempt from taxation for that year by reason of the welfare exemption had it been acquired prior to such lien date. If required to meet such tax obligation, the ability of such institutions to function effectively will be seriously impaired, to the great detriment of our State. This act will remedy that situation, and in doing so the public policy of the State for the exemption of property owned by educational institutions, as expressed in Section 1c of Article XIII of the Constitution, will be subserved and the State as a whole will benefit.

CHAPTER 1380

An act to validate certain actions relating to the annexation of property to cities and to the zoning of such property, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor June 30, 1959. Filed with Secretary of State July 1, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Whenever heretofore there has been submitted to the electors of any general law city at an election therein a proposition for the adoption of an ordinance annexing, or purporting to annex, uninhabited territory to such city, which ordinance places, or purports to place, such territory in a particular district for zoning purposes or otherwise zones, or purports to zone, such territory for particular uses, and a majority of the votes cast upon such proposition were in favor of the adoption of such ordinance, and a certified copy of such ordinance has been filed with the Secretary of State, such ordinance is hereby confirmed, validated and declared legally effective, and such territory is hereby declared to be legally annexed to such city and to be legally zoned for the particular uses specified in such ordinance.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The peace, health and safety of the citizens of such cities and of the State require the orderly and unhampered functioning of the public bodies of such cities and such functioning depends upon the validity of the organization and boundaries of such public bodies, and upon the validity of acts and proceedings, particularly annexation proceedings, including the zoning of the property annexed, and it is therefore imperative and essential that such matters be validated so that during the period before this act would otherwise become effective:

(1) Citizens of such cities and particularly those residing in the territory so annexed and zoned can be afforded the protection of the police, fire, safety, sanitary and other regulations and protections provided by public bodies and by such cities;

(2) Public works and construction by such cities can be commenced and continued without delay or restriction, to provide sewers, waterworks, schools, storm drains, flood control works, sanitary facilities, electric and other utility works, firehouses and facilities, police stations and facilities, streets, hospitals and other works, structures, improvements and facilities required by such cities for the public peace, health and safety, and immediately needed by reason of any such annexation;

(3) Such cities can issue and sell bonds for the purpose of providing such works, structures, improvements and facilities so required by such cities by reason of such annexation and zoning of the territory annexed which may or cannot be sold because of defects in the organization or boundaries of some such city or in the acts or proceedings for the annexation or zoning of the territory annexed, which defects will be cured by this act.

CHAPTER 1381

An act to amend Section 69599.5 of the Government Code, relating to superior courts.

[Approved by Governor June 30, 1959. Filed with Secretary of State July 1, 1959.]

In effect September 18, 1959

The people of the State of California do enact as follows:

SECTION 1. Section 69599.5 of the Government Code is amended to read:

69599.5. In the County of Santa Barbara there shall be three judges of the superior court.

CHAPTER 1382

An act to add Section 542 to the Streets and Highways Code, relating to state highways, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1959. Filed with Secretary of State July 1, 1959.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 542 is added to the Streets and Highways Code, to read:

542. Route 242 is from Route 6 between Harbor Boulevard and the Yolo Causeway west of Sacramento to Route 3 near Watt Avenue.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Federal Bureau of Public Roads has approved a circumferential freeway around the City of Sacramento to be included in the Federal Interstate System of Highways. It is necessary that a new route be added to the State Highway System for all of this freeway in order that expenditures may be legally made for the planning of this addition to the interstate system. It is essential that such addition be made at the earliest possible date. It is therefore necessary that this act take effect immediately.

73821. There shall be three judges.

SEC. 2. Section 73822 of said code is amended to read:

CHAPTER 1403

An act to add Section 7032 to the Business and Professions Code, relating to contractors, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1959. Filed with Secretary of State July 1, 1959.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 7032 is added to the Business and Professions Code, to read:

7032. Nothing in this chapter shall limit the power of a city or county to regulate the quality and character of installations made by contractors through a system of permits and inspections which are designed to secure compliance with and aid in the enforcement of applicable state and local building laws, or to enforce other local laws necessary for the protection of the public health and safety. Nothing in this chapter shall limit the power of a city or county to adopt any system of permits requiring submission to and approval by the city or county of plans and specifications for an installation prior to the commencement of construction of the installation.

Nothing contained in this section shall be construed as authorizing a city or county to enact regulations relating to the qualifications necessary to engage in the business of contracting.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The protection of persons and property in this State requires that electrical, plumbing, heating, structural and other installations in buildings erected within the State of California meet reasonable standards of safety. Pursuant to the plan adopted by this Legislature in the State Housing Act, this protection has been provided by the enforcement on the local level of appropriate state and local building, electrical, plumbing and other laws through a permit system. A recent decision of the California Supreme Court, construing the Contractors State License Act, has been interpreted by some judges as prohibiting local governments from using a permit system for the enforcement of such building laws where work is to be performed by a state-licensed contractor. There is danger that a large number of installations will be made without adequate supervision unless the power of local governments to use a permit system is immediately clarified and confirmed by the adoption of this act.

CHAPTER 1404

An act to amend Sections 321 and 323 of the Agricultural Code, relating to foreign cold storage meat.

The director shall cause all such meat to be inspected upon arrival, and shall establish such bacteriological or chemical standards as he deems proper to determine the wholesomeness and fitness of such meat for human consumption; any meats found unfit for human consumption shall be marked conspicuously with the words "unfit for human consumption," and the sale thereof for human food is prohibited. All meats inspected and passed for food, as provided in this article, shall be marked with a tag or brand of such size and design as shall be promulgated by the rules and regulations established by the director for the enforcement of this article, and shall bear the words "foreign cold storage meat inspected and passed by the State Department of Agriculture." In enacting this chapter, it is the purpose of the Legislature to declare the existence of a California Conservation Camp program in the furtherance of that interest, and to provide for the training and use of the inmates and wards assigned to conservation camps in the development of public conservation facilities and work programs.

It is the policy of this State to require the inmates and wards assigned to such camps to perform public conservation projects including, but not limited to, forest fire prevention and control, forest and watershed management, recreation, fish and game management, soil conservation and forest and watershed revegetation.

In order to effect the maximum possible conservation and development of natural resources for the benefit of the people of this State, whenever reasonably possible, conservation projects of a multiple purpose nature shall be undertaken by the California Conservation Camps. The conditions of work to be performed under such contracts or agreements shall be consistent with the requirements, as determined by the Director of Corrections and the Director of the Youth Authority, for maintaining control of inmates or wards committed to their respective custody. The peace, health and safety of the citizens of the State require the orderly and unhampered functioning of public bodies and such functioning depends upon the validity of the organization, boundaries, and governing officers or boards of public bodies, and upon the validity of acts, proceedings, and bonds of public bodies, and it is therefore imperative and essential that such matters be validated so that during the period before this act would otherwise become effective:

(1) Citizens of the State can be afforded the protection of the police, fire, safety, sanitary, and other regulations and protections provided by public bodies;

(2) Public works and construction by public bodies can be commenced and continued without delay or restriction, to provide sewers, waterworks, schools, storm drains, flood control works, sanitary facilities, electric and other utility works, firehouses and facilities, police stations and facilities, streets, hospitals, and other works, structures, improvements, and facilities required for the public peace, health and safety, and immediately needed to provide for an increased population;

(3) Public bodies can issue and sell bonds heretofore authorized for the purpose of providing sewers, waterworks, schools, storm drains, flood control works, sanitary facilities, electric and other utility works, firehouses and facilities, police stations and facilities, streets, hospitals, and other works, structures, improvements, and facilities required for the public peace, health and safety and immediately needed to provide for an increased population, which cannot now be sold because of defects in the organization or boundaries of some public body or in the authorization of such bonds, which defects will be cured by this act.

Liability for damage

661. (a) The owner of a vessel shall be liable for any injury or damage occasioned by the negligent operation of such vessel, whether such negligence consists of a violation of the provisions of the statutes of this State, or neglecting to observe such ordinary care and such operation as the rules of the common law require. The owner shall not be liable, however, unless such vessel is being used with his or her express or implied consent. It shall be presumed that such vessel is being operated with the knowledge and consent of the owner, if at the time of the injury or damage, it is under the control of his or her spouse, father, mother, brother, sister, son, daughter, or other immediate member of the owner's family. Nothing contained in this chapter shall be construed to relieve any other person from any liability which he would otherwise have, but nothing contained in this chapter shall be construed to authorize or permit any recovery in excess of injury or damage actually incurred.

(c) In any action against an owner under this section the operator of the vessel shall be made a party defendant if personal service of process can be had upon the operator within this State. Upon recovery of judgment, recourse shall first be had against the property of the operator so served.

(d) In the event a recovery is had under the provisions of this section against an owner, such owner is subrogated to all the rights of the person injured or whose property has been injured and may recover from such operator the total amount of any judgment and costs recovered against such owner. If the bailee of an owner with the permission, express or implied, of the owner permits another to operate the vessel of the owner, then such bailee and such operator shall both be deemed operators of the vessel of the owner within the meaning of subdivisions (c) and (d) of this section.

(e) Where two or more persons are injured or killed in one accident, the owner may settle and pay any bona fide claim or claims for damages arising out of personal injuries or death, whether reduced to judgment or not, and such payments shall diminish to the extent thereof the owner's total liability on account of such accident; and payments so made aggregating the full sum of twenty thousand dollars ($20,000) shall extinguish all liability of the owner hereunder to such

claimants and all other persons on account of such accident, which liability may exist pursuant to this section, and not arising through the negligence of the owner nor through the relationship of principal and agent or master and servant.

(f) No action provided for in this section shall abate by reason of the death of any injured person or of any person liable or responsible under the provisions of this section; except, that in any action for physical injury contemplated by this section by the executor, administrator or personal representative of any deceased person, the damages recoverable shall be the same as those recoverable under Section 956 of the Civil Code.

The defendant may, prior to the date upon which he promised to appear in court, deposit with the magistrate the amount of bail thus set. Thereafter, at the time when the case is called for arraignment before the magistrate, if the defendant shall not appear, either in person or by counsel, the magistrate may declare the bail forfeited, and may in his discretion order that no further proceedings shall be had in such case.

Upon the making of such order that no further proceedings be had, all sums deposited as bail shall forthwith be paid into the county treasury for distribution pursuant to Section 1463 of the Penal Code.

(f) No warrant shall issue on such charge for the arrest of a person who has given such written promise to appear in court, unless and until he has violated such promise or has failed to deposit bail, to appear for arraignment, trial or judgment, or to comply with the terms and provisions of the judgment, as required by law.

The officer making the levy may demand and exact the payment or undertaking herein provided for, notwithstanding any defect, informality or insufficiency of the verified claim delivered to him.

(3) Within five days after being served with such verified claim the officer levying on such property must make demand by registered mail or certified mail on the plaintiff or his attorney for the amount of the claimed debt and interest due to date of tender or the delivery to the officer of an undertaking and statement as hereinafter provided, which demand shall include the copy of such claim.

(4) Within five days after receipt by the plaintiff or his attorney of such officer's demand the plaintiff shall deposit with the officer the amount of such debt and interest or deliver the undertaking and statement hereinafter provided, or the levying officer must release the property.

(7) If the tender is refused, the amount thereof shall be deposited with the county treasurer, payable to the order of the seller or mortgagee.

(8) Until such payment or deposit covering such claim is made, or the undertaking and statement herein provided delivered to the officer, the property cannot be sold under the levy; but when made (and also in case the seller or mortgagee fails to render his claim within 30 days after the personal service upon him of a written demand therefor, which service must be attested by the certificate of the serving officer, filed before the sale with the papers of the action wherein the attachment or execution was issued), then the officer must retain the property, and, in the case of an execution sell it in the manner provided by law, free of all liens or claims of the seller or mortgagee. Such written demand of the levying officer may be served by him, or for him by any sheriff, marshal, or constable whose office is closer to the place of service, and whose fees and mileage shall be paid out of the prepaid fees in the possession of the levying officer.

(9) When an attachment or execution creditor presents to the officer, within the time allowed from the officer's demand, a verified statement that the sales contract or mortgage is void or invalid for the reasons specified therein, and delivers to the officer a good and sufficient undertaking in double the amount of the indebtedness claimed by the seller or mortgagee or double the value of the personal property as the officer may determine and require, the officer shall retain the property and in case of an execution sell it in the manner provided by law, free of all liens or claims of the seller or mortgagee.

The undertaking shall be made to the seller or mortgagee and shall indemnify him for the taking of the property against loss, liability, damages, costs and counsel fees. Exceptions to the sufficiency of the sureties and their justification may be had and taken in the same manner as upon an undertaking on attachment.

If such undertaking be given, such officer shall not be liable for damages to any such claimant for the taking, keeping, or sale of such property in accordance with the provisions of this code.

(10) Whenever a verified claim herein is delivered to the officer as herein provided, upon levy of execution or attachment (whether any undertaking hereinabove mentioned be given or not), the plaintiff, or the person in whose favor the writ runs, the claimant, or any one or more such joint claimants, shall be entitled to a hearing in the court in which the action is pending or from which the writ issued for the purpose of determining the validity of such sales contract or chattel mortgage. Such hearing may be had and taken, and stay of execution or other order made in the same manner as on third party claims under Section 689 of this code. At the conclusion of the hearing the court shall give judgment determining the validity of the claim under the sales contract or chattel mortgage which shall be conclusive between the claimant and the plaintiff, or other person in whose favor the writ runs. The court in which the action is pending, or which issued such

writ, shall have original jurisdiction in all proceedings under this section.

If the property shall have been released by the officer for want of an undertaking or payment, and final judgment shall go for the plaintiff or other person in whose favor the writ runs, the officer shall retake the property on such writ, if the writ shall still be in his hands, or if the writ shall have been returned, another writ may be issued on which the officer may take such property.

CHAPTER 1463

An act to amend Sections 1208 and 4532 of the Penal Code, relating to the offense of failure of a prisoner released from jail during working hours to return to the jail.

[Approved by Governor July 3, 1959. Filed with Secretary of State July 6, 1959.] In effect September 18, 1959

The people of the State of California do enact as follows:

SECTION 1. Section 1208 of the Penal Code is amended to read:

1208. (a) The provisions of this section shall be operative in any county in which the board of supervisors by ordinance finds, on the basis of employment conditions, the state of the county jail facilities, and other pertinent circumstances, that the operation of this section in that county is feasible. In such ordinance the board shall prescribe whether the sheriff or the probation officer shall perform the functions of the work furlough administrator. "Work Furlough Rehabilitation Law"

(b) When a person is convicted of a misdemeanor and sentenced to the county jail, or is imprisoned therein for nonpayment of a fine, for contempt, or as a condition of probation for any criminal offense, the court may direct that such person be permitted to continue in his regular employment, if that is

compatible with the requirements of subdivision (d), or may authorize the person to secure employment for himself in the county.

(c) If the court so directs that the prisoner be permitted to continue in his regular employment, the work furlough administrator shall arrange for a continuation of such employment so far as possible without interruption. If the prisoner does not have regular employment, and the court has authorized the prisoner to secure employment for himself, the prisoner may do so. Any employment so secured must be suitable for the prisoner. Such employment must be at a wage at least as high as the prevailing wage for similar work in the area where the work is performed and in accordance with the prevailing working conditions in such area. In no event may any such employment be permitted where there is a labor dispute in the establishment in which the prisoner is, or is to be, employed.

(d) Whenever the prisoner is not employed and between the hours or periods of employment, he shall be confined in the jail unless the court directs otherwise.

(e) The earnings of the prisoner shall be collected by the work furlough administrator, and it shall be the duty of the prisoner's employer to transmit such wages to the administrator at the latter's request. Earnings levied upon pursuant to writ of attachment or execution or in other lawful manner shall not be transmitted to the administrator. If the administrator has requested transmittal of earnings prior to levy, such request shall have priority. In a case in which the functions of the administrator are performed by a sheriff, and such sheriff receives a writ of attachment or execution for the earnings of a prisoner subject to this section but has not yet requested transmittal of the prisoner's earnings pursuant to this section, he shall first levy on the earnings pursuant to the writ. When an employer transmits such earnings to the administrator pursuant to this subdivision he shall have no liability to the prisoner for such earnings. From such earnings the administrator shall pay the prisoner's board and personal expenses, both inside and outside the jail, and shall deduct so much of the costs of administration of this section as is allocable to such prisoner, and, to the extent directed by the court, shall pay the support of the prisoner's dependents, if any. If sufficient funds are available after making the foregoing payments, the administrator may, with the consent of the prisoner, pay, in whole or in part, the pre-existing debts of the prisoner. Any balance shall be retained until the prisoner's discharge and thereupon shall be paid to him.

(f) The prisoner shall be eligible for time credits pursuant to Sections 4018, 4019, and 4019.2.

(g) In the event the prisoner violates the conditions laid down for his conduct, custody, or employment, the work furlough administrator shall report such fact to the court which directed or authorized employment pursuant to this section.

and the court may then order such prisoner returned to it and, if it finds that the violation has occurred, may order the balance of the prisoner's sentence to be spent in actual confinement.

(h) Willful failure of the prisoner to return to the place of confinement not later than the expiration of any period during which he is authorized to be away from the place of confinement pursuant to this section is punishable as provided in Section 4532 of the Penal Code.

(i) This section shall be known and may be cited as the "Work Furlough Rehabilitation Law."

SEC. 2. Section 4532 of said code is amended to read:

Same Punishment

4532. (a) Every prisoner formally charged with or convicted of a misdemeanor who is confined in any county or city jail or prison or industrial farm or industrial road camp or who is engaged on any county road or other county work or who is in the lawful custody of any officer or person, or who is employed or authorized to secure employment away from the place of confinement, pursuant to the Work Furlough Rehabilitation Law (Section 1208), and who thereafter escapes or attempts to escape from such county or city jail, prison, industrial farm or industrial road camp or from the custody of the officer or person in charge of him while engaged on or going to or returning from such county work or from the custody of any officer or person in whose lawful custody he is, is guilty of a felony and, if such escape or attempt to escape was not by force or violence, is punishable by imprisonment in the state prison for not less than six months nor more than five years, regardless of any prior convictions, or in the county jail not exceeding one year; provided, however, that if such escape or attempt to escape is by force or violence, such person is guilty of a felony and is punishable by imprisonment in the state prison not exceeding 10 years, or in the county jail not exceeding one year; provided, that when said second term of imprisonment is to be served in the county jail it shall commence from the time such prisoner would otherwise have been discharged from said jail.

The willful failure of a prisoner employed or authorized to secure employment pursuant to the Work Furlough Rehabilitation Law (Section 1208) to return to the place of confinement not later than the expiration of a period during which, pursuant to that law, he is authorized to be away from such place of confinement, is an escape from such place of confinement punishable as provided in this subdivision.

A conviction of violation of this subdivision, not by force or violence, shall not be charged as a prior felony conviction in any subsequent prosecution for a public offense.

(b) Every prisoner charged with or convicted of a felony who is confined in any county or city jail or prison or industrial farm or industrial road camp or who is engaged on any county road or other county work or who is in the lawful custody of any officer or person, who escapes or attempts to escape

from such county or city jail, prison, industrial farm or industrial road camp or from the custody of the officer or person in charge of him while engaged on or going to or returning from such county work or from the custody of any officer or person in whose lawful custody he is, is guilty of a felony and is punishable by imprisonment in the state prison not exceeding 10 years, or in the county jail not exceeding one year; provided, that when said second term of imprisonment is to be served in the county jail it shall commence from the time such prisoner would otherwise have been discharged from said jail.

CHAPTER 1464

An act to add Section 7062 to the Public Resources Code, relating to the production of oil, gas or other hydrocarbons.

In effect September 18, 1959

[Approved by Governor July 3, 1959. Filed with Secretary of State July 6, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 7062 is added to the Public Resources Code, to read:

7062. (a) On or before October 1st of each year, each city shall cause to be made and filed with the State Lands Commission a detailed statement of all revenue and expenditures thereof from any operating agreement or other type of lease or agreement for the production of oil, gas, or other hydrocarbons, including obligations incurred but not yet paid. Said statement shall cover the fiscal year preceding its submission and shall show the project or operation for which each such expenditure or obligation is made or incurred.

(b) In addition to the other powers and duties specifically delegated to it, the State Lands Commission shall have authority to examine financial and operating records of any city relating to the production and sale of oil, gas, and other hydrocarbons under any operating agreement or other type of lease or agreement for the production of oil, gas, or other hydrocarbons and to conduct such other investigations and studies as it may deem necessary in connection therewith.

The provisions of this section shall be applicable only with respect to tide or submerged lands granted in trust to cities by the State. The provisions of this section shall not apply to activities regulated by Chapter 29 of the Statutes of the 1956 First Extraordinary Session.

CHAPTER 1465

An act to add Section 7054.5 to, and to amend Section 7052 of, the Public Resources Code, relating to oil, gas, and mineral leases by public agencies.

[Approved by Governor July 3, 1959. Filed with Secretary of State July 6, 1959.]

In effect September 18, 1959

The people of the State of California do enact as follows:

SECTION 1. Section 7054.5 is added to the Public Resources Code, to read:

Approval of lease, etc.

7054.5. No lease or modification thereof or amendment thereto for the production, extraction, or removal of minerals, oil, gas, or other hydrocarbons from tide or submerged lands which have been granted by the State to a public agency in trust wherein the State has not reserved the minerals, shall be effective or shall be delivered to the lessee unless and until it has been approved by the State Lands Commission.

Prior to adopting the resolution provided for by Section 7052, the governing body may petition the State Lands Commission for approval of the form of the resolution.

When any public agency mentioned in Section 7056 has the right to designate drill sites or areas for the production of oil, gas or other hydrocarbons from tide or submerged lands pursuant to leases, operating agreements, other agreements, or modifications or amendments thereof, which are otherwise authorized by law, then such public agencies must first obtain the approval of the State Lands Commission before designating such drill sites or areas. Such designation and approval shall, as far as possible, conform to the legal requirements, policies and regulations applicable to the development of state-owned or controlled tide or submerged lands for the production of oil, gas or other hydrocarbons.

SEC. 2. Section 7052 of said code is amended to read:

Resolution of intention to lease

7052. Lands may be leased in tracts of such size and shape as the governing body may determine. Before executing a lease of any such property, the governing body shall in open meeting, by not less than a two-thirds vote of its members, adopt a resolution declaring its intention to lease the property. The resolution shall describe the property proposed to be leased in such manner as to identify it, specify the minimum rental and term for which it will be leased, the form of the lease or agreement, and one variable, biddable factor, on which bids will be received, and fix a time not less than three weeks thereafter and place for a public meeting of said governing body, at which meeting sealed proposals to lease will be received and considered. The resolution shall, before the date of such meeting, be published once a week for three successive weeks in one or more newspapers of general circulation in the county where the property is situated.

This section shall not apply to the renewal or extension for a fixed term not exceeding the original term of leases or operating agreements initially issued for a fixed term.

The State Lands Commission may in its discretion exempt particular leases or operating agreements from the procedure required by this section and Section 7053 where by reason of the small size of the property or drainage from offset wells such procedure would in the judgment of the State Lands Commission in the particular case be impracticable.

CHAPTER 1466

An act to amend Sections 2981 and 2982 of the Civil Code, relating to conditional sales.

In effect September 18, 1959

[Approved by Governor July 3, 1959. Filed with Secretary of State July 6, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 2981 of the Civil Code is amended to read:

Definitions

2981. As used in this section and in Section 2982 of the Civil Code, unless the context otherwise requires:

(a) "Conditional sale contract" shall mean:

2. Any contract for the bailment or leasing of a motor vehicle, with or without accessories, by which the bailee or lessee agrees to pay as compensation a sum substantially equivalent to the value of the property, and by which it is agreed that the bailee or lessee is bound to become, or has the option of becoming, the owner of the property upon full compliance with the terms of the contract.

3. Any contract for the sale of a motor vehicle, with or without accessories, under which possession is delivered to the buyer, and a lien on the property is to vest in the seller as security for the payment of part or all of the price, or for the performance of any other condition.

(b) "Seller" shall mean the person who sells or leases the property under a conditional sale contract.

(c) "Buyer" shall mean the person who buys or hires property under a conditional sale contract, or any legal successor in interest of such person.

(d) "Person" shall mean and include an individual, company, firm, association, partnership, trust, corporation, or other legal entity.

(e) "Cash price" shall mean the amount for which the seller would sell and transfer to the buyer unqualified title

to the personal property described in the conditional sale contract, if such property were sold for cash at the seller's place of business on the date such contract is executed, and includes any applicable sales taxes.

(f) "Down payment" shall mean that part of the cash price which the buyer pays or agrees to pay to the seller in cash or property value or money's worth at or prior to delivery by the seller to the buyer of the personal property described in the conditional sale contract.

(g) "Unpaid balance" shall mean the difference between (e) and (f), plus all insurance premiums (except for credit life or disability insurance when the amount thereof is included in the time price differential), and all fees paid or to be paid to any public officer, in connection with the transaction, which are included in the contract balance.

(h) "Time price differential" shall mean any amount which the buyer agrees to pay to the seller in excess of the unpaid balance.

(i) "Contract balance" shall mean the amount unpaid under the conditional sale contract, which the buyer agrees to pay in installments as originally provided therein, and shall not include amounts for which the buyer may later become obligated under the terms of the contract in connection with insurance, repairs to or preservation of the motor vehicle, preservation of the security interest therein, or otherwise.

(j) "Motor vehicle" shall mean any vehicle required to be registered under the Vehicle Code.

SEC. 2. Section 2982 of said code is amended to read:

Conditional sales contract Contents

2982. (a) Every conditional sale contract for the sale of a motor vehicle, with or without accessories, shall be in writing, and, if printed, shall be printed in type no smaller than six point, and shall contain all of the agreements between the buyer and the seller relating to the personal property described therein. It shall be signed by the buyer or his authorized representative and by the seller or its authorized representative, and when so executed an exact copy thereof shall be delivered by the seller to the buyer at the time of its execution. It shall recite the following separate items as such, in the following order:

1. The cash price of the personal property described in the conditional sale contract.

2. The amount of the buyer's down payment, and whether made in cash or represented by the net agreed value of described property traded in, or both, together with a statement of the respective amounts credited for cash and for such property. As soon as received by the dealer the dealer shall refund to the buyer or credit to the buyer on the next payment due the amount realized on any insurance policy, or rights thereunder, assigned to the seller by the buyer in connection with the conditional sale. Failure of the dealer to comply with the foregoing provision shall in no way affect the validity or enforceability of the conditional sale contract.

3. The amount unpaid on the cash price, which is the difference between Items 1 and 2.

4. The cost to the buyer of any insurance, the premium for which is included in the contract balance; provided, any such cost for credit life or disability insurance may be included in the time price differential if separately stated on the face of the contract.

5. A description and itemization of amounts, if any, which will actually be paid by the seller or his assignee to any public officer as fees in connection with the transaction, which are included in the contract balance.

6. The amount of the unpaid balance, which is the sum of Items 3, 4, and 5.

7. The amount of the time price differential.

8. The contract balance owed by the buyer to the seller, which is the sum of Items 6 and 7.

9. The number of installments required to pay the contract balance, the amount of each installment, and the date for payment of the installments.

10. The names and addresses of all persons to whom the notice required under subdivision (g) of this section is to be sent.

(b) If any charge for insurance is included in the contract balance, an insurance policy or policies or a certificate of insurance under a master policy shall be issued and the seller shall within 30 days after the execution of the conditional sale contract send or cause to be sent to the buyer the original or an exact copy of such policy or policies or certificate.

(c) The amount of the time price differential in any conditional sale contract for the sale of a motor vehicle, with or without accessories, shall not exceed 1 percent of the unpaid balance multiplied by the number of months, including any excess fraction thereof as one month, elapsing between the date of such contract and the due date of the last installment, or twenty-five dollars ($25), whichever is greater; provided, that such contract may provide for interest on any delinquent installment from and after the date of delinquency, and for reasonable collection costs and fees in the event of delinquency.

(d) Any provision in any conditional sale contract for the sale of a motor vehicle to the contrary notwithstanding, the buyer may satisfy in full the indebtedness evidenced by such contract at any time before the final maturity thereof, and in so satisfying such indebtedness shall receive a refund credit thereon for such anticipation of payments. The amount of such refund shall represent at least as great a proportion of the time price differential, after first deducting from such time price differential a minimum charge of not to exceed twenty-five dollars ($25), as the sum of the periodic time balances after the month in which such contract is paid in full bears to the sum of all of the periodic time balances under the schedule of payments in the contract, both sums to be determined according to the monthly balances which would result if the indebted-

ness were paid according to the terms of the contract; provided, however, that the provisions of this subsection shall not impair the right of the seller or his assignee to receive a minimum time price differential of twenty-five dollars ($25), or to receive interest on delinquent installments or reasonable collection costs and fees, as provided in subsection (c) of this section; and provided further, that where the amount of such refund credit would be less than one dollar ($1), no refund need be made.

(e) If the seller, except as the result of an accidental or bona fide error in computation, shall violate any provision of subdivisions (c) or (d) of this section, the conditional sale contract shall not be enforceable, except by a bona fide purchaser for value, and the buyer may recover from the seller in a civil action the total amount paid on the contract balance by the buyer to the seller or his assignee pursuant to the terms of such contract.

(f) If the holder of such contract, except as the result of an accidental or bona fide error in computation, shall violate any provision of subdivision (d) of this section, the buyer may recover from such holder in a civil action the total amount paid on the contract balance by the buyer to such holder pursuant to the terms of such contract.

(g) Any provision in any conditional sale contract for the sale of a motor vehicle to the contrary notwithstanding, at least five days' written notice of intent to sell a repossessed motor vehicle must be given to all persons liable on the contract. Such notice may be given by mail and need be given only to such persons as have furnished the seller or his assignee with an address to which such notice may be sent. During the period of five days after such notice is sent, the person or persons liable on the contract may pay in full the indebtedness evidenced by such contract. Such persons shall be liable for any deficiency after sale of the repossessed motor vehicle only if notice has been given pursuant to this subdivision.

(h) No such contract shall contain any provision by which, in the absence of default by the buyer in the performance of any of his obligations under the contract, the holder may accelerate the maturity of any part or all of the amount owing thereunder or repossess the motor vehicle.

CHAPTER 1467

An act to amend Section 14549 of the Health and Safety Code, relating to county fire protection districts.

SECTION 1. Section 14549 of the Health and Safety Code is amended to read:

14549. Upon the withdrawal of any territory of a district, by inclusion within a city:

(a) If the assessed value of the real property within the area withdrawn represents one-half of 1 percent, or less, of the total assessed value of the real property within the district prior to the withdrawal, as determined from the last equalized assessment roll of the property within the district, all of the property and assets of the district shall be retained by the district.

(b) If the assessed value of the real property in the area withdrawn exceeds the amount prescribed by subdivision (a), the city and the district shall have six months from the effective date of the withdrawal in which, after giving consideration to all factors involved, including population, assessed valuation, the effect of the annexation or change of boundaries on the remaining portion of the district, the length of time the portion being withdrawn has paid taxes and the total amount of such taxes paid, and such other matters as should be considered in arriving at an equitable distribution, they may establish a mutually agreeable basis for the distribution of the property and assets of the district between the city and the remaining district. If, within such period a mutually agreeable basis is reached, the property and assets of the district shall be distributed between the city and the remaining district upon such basis.

(c) If, under the provisions of subdivision (b), no mutually agreeable basis for the distribution of the property and assets of the district is reached within the six month period, on the date the district ceases to furnish fire protection service to the area withdrawn or upon the end of the six month period, whichever is the last to occur, all of the property and unencumbered funds of the district shall be divided between the city and the remaining district in proportion to the average assessed value of the real property within the area withdrawn to the average assessed value of the real property within the entire district during the five year period prior to the effective date of the withdrawal, as determined from the equalized assessment rolls for such period.

All funds and property received by the city shall be used exclusively and directly for the prevention and extinguishment of fires; provided, that nothing herein shall prevent the sale of property not needed for such purposes for its fair market value if the funds derived from such sale are used solely for such purposes.

For the purpose of this section, the unencumbered funds are the sum of money, uncollected taxes, and other uncollected amounts in excess of an amount sufficient to pay all claims and accounts against the district, but shall not include funds necessary for the maintenance and operation of the district for any period for which the district has the duty to provide fire protection services within the area withdrawn.

In effect September 18, 1959

[Approved by Governor July 3, 1959. Filed with Secretary of State July 6, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 396 of the Code of Civil Procedure is amended to read:

Transfer of proceedings

396. If an action or proceeding is commenced in a court which lacks jurisdiction of the subject matter thereof, as determined by the complaint or petition, if there is a court of this State which has such jurisdiction, the action or proceeding shall not be dismissed (except as provided in Section 581b, and as provided in subdivision 1 of Section 581 of this code) but shall, on the application of either party, or on the court's own motion, be transferred to a court having jurisdiction of the subject matter which may be agreed upon by the parties, or, if they do not agree, to a court having such jurisdiction which is designated by law as a proper court for the trial or determination thereof, and it shall thereupon be entered and prosecuted in the court to which it is transferred as if it had been commenced therein, all prior proceedings being saved.

In any such case, if summons is served prior to the filing of the action or proceeding in the court to which it is transferred, as to any defendant, so served, who has not appeared in the action or proceeding, the time to answer or otherwise plead shall date from service upon such defendant of written notice of the filing of such action or proceeding in the court to which it is transferred.

If an action or proceeding is commenced in or transferred to a court which has jurisdiction of the subject matter thereof as determined by the complaint or petition, and it thereafter appears from the verified pleadings, or at the trial, or hearing, that the determination of the action or proceeding, or of a counterclaim, or of a cross-complaint, will necessarily involve the determination of questions not within the jurisdiction of the court, in which the action or proceeding is pending, the court, whenever such lack of jurisdiction appears, must suspend all further proceedings therein and transfer the action or proceeding and certify the pleadings (or if the pleadings be oral, a transcript of the same), and all papers and proceedings therein, to a court having jurisdiction thereof which may be agreed upon by the parties, or, if they do not agree, to a court having such jurisdiction which is designated by law as a proper court for the trial or determination thereof.

An action or proceeding which is transferred under the provisions of this section shall be deemed to have been commenced at the time the complaint or petition was filed in the court from which it was originally transferred.

Nothing herein shall be construed to preclude or affect the right to amend the pleadings as provided in this code.

Nothing herein shall be construed to require the superior court to transfer any action or proceeding because the judgment to be rendered, as determined at the trial or hearing, is one which might have been rendered by a municipal or justice court in the same county or city and county.

In any case where the lack of jurisdiction is due solely to an excess in the amount of the demand, the excess may be remitted and the action may continue in the court where it is pending.

Upon the making of an order for such transfer, proceedings shall be had as provided in Section 399 of this code, the costs and fees thereof, and of filing the case in the court to which transferred, to be paid by the plaintiff unless the court ordering the transfer shall otherwise direct. If the party obligated to pay such costs and fees shall fail to do so within the time specifically provided, or, if none, then within five (5) days after service of notice of the order for transfer or as to costs and fees, then any party may pay such costs and fees and, if other than a party originally obligated to do so, shall be entitled to credit therefor or recovery thereof, in the same manner as is provided in Section 399.

SEC. 2. Section 399 of said code is amended to read:

Payment of costs and fees

399. When an order is made transferring an action or proceeding under any of the provisions of this title, the clerk, or the judge where there is no clerk, must, upon payment of the costs and fees, transmit the pleadings and papers therein (or if the pleadings be oral a transcript of the same) to the clerk (or to the judge where there is no clerk) of the court to which the same is transferred. When the transfer is sought on any ground specified in subdivisions 2, 3, 4 and 5 of Section 397 of this code, the costs and fees thereof, and of filing the papers in the court to which the transfer is ordered, shall be paid at the time the notice of motion is filed, by the party making the motion for the transfer. When the transfer is sought solely, or is ordered, because the action or proceeding was commenced in a court other than that designated as proper by the provisions of this title, such costs and fees must be paid by the plaintiff before such transfer is made; and if, in any such case, the defendant has paid such costs and fees at the time of filing his notice of motion, the same shall be repaid to him, upon the making of such order. If such costs and fees have not been so paid by the plaintiff within five days after service of notice of such order, then any other party interested therein, whether named in the complaint as a party or not, may pay such costs and fees, and the clerk shall thereupon transmit the papers and pleadings therein as if such costs and fees had been originally paid by the plaintiff, and the same shall be a proper item of costs of the party so paying the same, recoverable by such party in the event he prevails in the action; otherwise, the same shall be offset against and deducted from the amount, if any, awarded the plaintiff in the event the plaintiff prevails against such party in such action. The court to which an action or proceeding is transferred under the provisions of this title shall have and exercise over the same the like jurisdiction as if it had been originally commenced therein, all prior proceedings being saved, and said court may require such amendment of the pleadings, the filing and service of such amended, additional or supplemental pleadings, and the giving of such notice, as may be necessary for the proper presentation and determination of the action or proceeding in said court.

SECTION 1. Section 12205 of the Financial Code is amended to read:

Maintenance of assets

12205. A licensee who does not qualify to make use of agencies in the conduct of its business at all times shall maintain assets at least ten thousand dollars ($10,000) in excess of its liabilities, including liquid assets at least five thousand dollars ($5,000) in excess of its liabilities on account of moneys received in the business of selling checks or receiving money for the purpose of paying bills, invoices, or accounts. A licensee is qualified to make use of agencies in the conduct of its business if at all times it shall have paid in capital of at least fifty thousand dollars ($50,000) and it shall maintain assets at least fifty thousand dollars ($50,000) in excess of its liabilities, including liquid assets at least five thousand dollars ($5,000) in excess of its liabilities on account of moneys received in the business of selling checks or receiving money for the purpose of paying bills, invoices or accounts. The commissioner may determine by general rule what assets are liquid assets within the meaning of this section and may determine by specific ruling or demand that a particular asset is or is not a liquid asset within the meaning of this section.

SEC. 2. Section 12206 of said code is amended to read:

Bond

12206. If the applicant is to engage in the business of check selling or receiving money for the purpose of paying bills, invoices or accounts of an obligor, the applicant shall file with the commissioner concurrently with its application for a license, a bond to be approved by the commissioner, in which the applicant is the obligor, in the sum of ten thousand dollars ($10,000) or such larger sum as the applicant or licensee may desire to file.

SEC. 3. Section 12300.3 of said code is amended to read:

Trust funds

12300.3. All funds received by a licensee or his agents from the sale of checks, drafts, money orders, or other commercial paper serving the same purpose and for the purpose of paying bills, invoices, or accounts of an obligor shall constitute trust funds owned by and belonging to the person from whom they were received. All such money received by an agent of a licensee shall be separated from the funds of the agent not later than the end of the third business day following receipt by such agent. All such funds received by a licensee shall be separated from the funds of the licensee not later than the end of the next business day following receipt by such licensee. All such funds shall thereafter be kept separate and apart at all times from funds belonging to the licensee or any of its officers, employees or agents and may be used for no purpose other than paying bills of said persons, or paying checks, drafts, money orders, or other commercial paper sold by the licensee. All such trust funds received at the main or branch offices of a licensee shall be deposited in a bank or banks in an account or accounts in the name of the licensee designated "trust account," or by some other appropriate name indicating that the funds are not the funds of the licensee or of its officers, employees, or agents, on or before the close of the next business day following receipt. Funds received by an agent of a licensee must be deposited in such account on or before the close of the third business day following receipt by the agent.

Prior to separation and deposit by the licensee such funds may only be used by the licensee for the making of change or the cashing of checks in the normal course of its business, and then only to the extent of the amount of the bond which has been filed under Section 12206. Such funds are not subject to attachment, levy of execution or sequestration by order of court except by a payee or bona fide assignee, or bona fide holder in due course of a check, draft, or money order sold by a licensee, or except by an obligor for whom a licensee is acting as an agent in paying bills. Funds in said account, together with funds and checks on hand and in the hands of agents held for the account of the licensee, at all times shall be at least equal to the aggregate liability of the licensee on account of checks sold and bills, invoices, and accounts accepted for payment.

After separation and deposit such funds also may be used by a licensee for the cashing of checks in the normal course of its business provided such licensee has on file with the commissioner a bond containing the provisions and conditions set forth in Section 12207 through 12213, inclusive, of this code in an amount equal to the total liability of the licensee for money received by a licensee or his agents from the sale of checks, drafts, money orders, or other commercial paper serving the same purpose and for the purpose of paying bills, invoices, or accounts of an obligor as shown by audit on

the last day of the previous business year of the licensee, or as at any other more recent date as determined by the commissioner.

Nothing in this law shall be construed to prevent a purchaser, a holder in due course, the payee of a check, draft or money order sold by the licensee in the usual course of his business, or an obligor for whom the licensee is acting as an agent in paying bills of the obligor, from taking any legal action necessary to enforce any claims which said purchaser, holder in due course, payee, or obligor may desire to take including the right to levy attachment or execution.

In the event a license under this law shall be suspended or terminated the licensee shall immediately deposit in said trust account an amount which with funds therein contained shall be equal to the outstanding checks sold and bills unpaid.

A licensee may establish branch offices or agencies if it is qualified under the provisions of Section 12205 and if it expressly assumes responsibility for the acts of any person selling checks or cashing checks, drafts, or money orders for the licensee or accepting money in its name or on its behalf at such place of business. There shall be posted in a prominent place in each branch office or agency a sign stating that the place of business is a branch office or agency of the licensee. [Approved by Governor July 3, 1959. Filed with Secretary of State July 6, 1959.]

In effect September 18, 1959

The people of the State of California do enact as follows:

SECTION 1. Article 6 (commencing at Section 54150) of Chapter 5 of Part 1 of Division 2 of Title 5 of the Government Code is repealed.

Repeal

SEC. 2. Article 6 (commencing at Section 54150) is added to Chapter 5 of Part 1 of Division 2 of Title 5 of the Government Code, to read:

Article 6. Flood Relief

Short title

54150. This article shall be known and may be cited as the Emergency Flood Relief Law.

"Local agency"

54151. "Local agency" means any city, city and county, county, or public district.

"Project"

54152. "Project" means the repair or restoration, or both, other than normal maintenance, or the replacement of public real property, including but not limited to buildings, levees, flood control works, channels, irrigation works, city streets, county roads, bridges, and other public works that are damaged or destroyed by storm and flood or flood conditions, occurring during any specified period of time for which an appropriation is made by the Legislature. The completion of all or part of a project prior to application for funds hereunder shall not disqualify such project or any part thereof.

Administration and jurisdiction

54153. The Department of Finance, Department of Water Resources, and Department of Public Works shall administer this article as provided herein. The Department of Water Resources shall have jurisdiction over levees, flood control works, channels, irrigation works, and other similar projects, and the Department of Public Works shall have jurisdiction over all other projects. In the event of dual jurisdiction over any particular project, the two departments shall agree as to which shall assume jurisdiction and responsibility therefor.

Services and duties

54154. In addition to duties conferred by this article, state agencies, when requested by the Department of Finance, shall render services and perform duties necessary to carry out the purposes of this article.

Allocations

54155. Whenever funds are available for the purposes of this article, the Department of Finance shall make allocations therefrom in such amounts as it determines to be necessary to the Department of Water Resources and the Department of Public Works for expenditure for making the investigations, estimates, and reports required by this article. Such allocations may also be made to provide for preliminary investigations, estimates, and reports, or to reimburse the departments for expenditures made in anticipation of actual applications by local agencies. Allocations may also be made for the purpose of making such investigations, estimates, and reports as may be necessary to enable local agencies to obtain federal aid for flood relief purposes, regardless of whether or not such aid is available for projects that are eligible for state allocations pursuant to this article. The Department of Finance may allocate to any state agency, including the Department of Finance, from such funds, or other funds avail-

able therefor, such amounts as are necessary to administer the provisions of this article.

Same

54156. From any state money made available to it for that purpose, and subject to the conditions specified in Section 54157, the Department of Finance shall allocate funds to meet the cost of any one or more projects as defined in this article.

Same: Requisites

54157. (1) Except as provided in Section 54155, no money shall be allocated by the Department of Finance unless and until:

(a) A local agency has applied to the Department of Finance for an allocation of funds, and the Department of Water Resources or the Department of Public Works has first investigated and reported upon the proposed work, has found it to be a matter of general public and state interest and concern, has estimated the cost of the work and filed its report thereon with the Department of Finance, and the Department of Finance has approved the expenditure and purpose. The estimate of cost of the work may include expenditures made by the local agency for such work prior to the making of such estimate.

(b) The local agency has executed an agreement in such form as the Department of Water Resources or the Department of Public Works, as the case may be, prescribes. Such agreement shall be subject to the approval of the Department of Finance. Such agreement shall provide for the performance of the work by the local agency or by the Department of Water Resources or the Department of Public Works, the methods of handling the funds allocated hereunder and the matching funds provided by the local agency. It shall also contain such other provisions as are deemed necessary to assure completion of the work included in the project and the proper expenditure of funds as provided herein.

(c) Moneys as prescribed by the Department of Finance are made available by or on behalf of the agency in control of the damaged or destroyed facility or facilities.

(2) Allocations of funds under this article shall be made as follows:

(a) As to street, highway, and bridge projects, the Department of Finance shall determine the respective amounts which the State and the local agency shall contribute, using the following criteria as a guide:

(i) The State shall make no allocation as to that portion of the damage equal to 10 percent or less of the total amount apportioned by the State to the local agency from the Highway Users Tax Fund during the previous fiscal year.

(ii) As to damage exceeding 10 percent but not exceeding 50 percent of such amount apportioned, the State shall allocate 60 percent of the cost.

(iii) As to damage exceeding 50 percent but not exceeding 150 percent of such amount apportioned, the State shall allocate 80 percent of the cost.

(iv) As to damage over 150 percent of such amount apportioned, the State shall allocate 95 percent of the cost.

(b) As to other types of projects, the Department of Finance shall determine the respective amounts which the State and the local agency shall contribute, using the following criteria as a guide:

(i) The State shall make no allocation as to that portion of the damage equal to 10 percent or less of the revenue, exclusive of funds received from any federal or state agency, of the local agency during the previous fiscal year as determined by the Department of Finance.

(ii) As to damage exceeding 10 percent but not exceeding 50 percent of such revenue, the State shall allocate 60 percent of the cost.

(iii) As to damage exceeding 50 percent but not exceeding 150 percent of such revenue, the State shall allocate 80 percent of the cost.

(iv) As to damage over 150 percent of such revenue, the State shall allocate 95 percent of the cost.

(c) Expenditures incurred by a local agency prior to the effective date of the allocation for work otherwise eligible may be considered in determining the rate of contribution between the State and the local agency under the above criteria.

Same: Federal assistance

54158. When the United States or any agency thereof is to provide funds for any portion of the cost of a project, the amount so provided shall be deducted from the cost of the project in determining the amount to be allocated by the State and the amount to be contributed by the local agency under Section 54157. It shall not be required that the funds to be provided from federal sources shall be paid into the State Treasury, but the Department of Water Resources or the Department of Public Works may proceed with the work when the department concerned has received assurance, adequate in the opinion of the Department of Finance, that the federal matching funds will be made available for expenditure for the work, or for reimbursement to the State for performance thereof.

Replacement of damaged facilities

54159. Whenever the local agency and the Department of Water Resources or the Department of Public Works determine that the general public and state interest will be better served by replacing a damaged or destroyed facility with a facility that will more adequately serve the present and future public needs than would be accomplished merely by repairing or restoring the damaged or destroyed facility, the Department of Finance may authorize such replacement, but the cost of the betterment of the facility, to the extent that it exceeds the cost of repairing or restoring the damaged or destroyed facility, shall be borne and contributed by the local agency, and such excess cost shall be excluded in determining the amount to be allocated by the State.

Local agency contributions

54160. If the Department of Finance determines that the local agency is financially unable to meet the matching re-

quirements set forth in Section 54157, the department may, out of any state money made available to it for that purpose, authorize the completion of the project or projects. The local agency shall be required by the department to make its contribution by means of deferred payments, such payments to be made in such amounts and at such times as may be provided by the agreement executed in connection with the application but in any event providing full repayment within 10 years, such repayment to include a charge to be fixed by the department in an amount estimated by it to equal the revenue which the State would have derived by investing the total deferred payment at the interest rate prevailing for legal state investments.

Same

54161. If the Department of Finance determines that the local agency is financially unable to provide funds for replacing a facility pursuant to Section 54159, the department may, out of any state money made available to it for that purpose, authorize the completion of the project or projects. The local agency shall be required by the department to make its contribution by means of deferred payments, such payments to be made in such amounts and at such times as may be provided by the agreement executed in connection with the application but in any event providing full repayment within 10 years, such repayment to include a charge to be fixed by the department in an amount estimated by it to equal the revenue which the State would have derived by investing the total deferred payment at the interest rate prevailing for legal state investments.

Deferred payments

54162. Deferred payments made by a local agency pursuant to Section 54160 or 54161 shall be made by the agency:

(1) Out of the current revenues of the agency.

(2) If the current revenues of a city, county, or city and county, prove insufficient to enable the agency to meet such payments, the Department of Finance may order the Controller to withhold from the agency funds which the agency would be entitled to under the Alcoholic Beverage Control Law or, as to street, highway, or bridge projects, from the Motor Vehicle License Fee Fund to the extent necessary to meet the deficiency.

Such sums shall be credited to the funds in the State Treasury from which advances of the amounts required to be furnished by the local agency were made.

Applicable law

54163. Any work performed by the Department of Water Resources or the Department of Public Works pursuant to an agreement with a local agency shall be subject to the State Contract Act. Work performed by a local agency shall be subject to the law governing the performance of such work by the local agency. Neither the State nor any officer or employee thereof shall have any responsibility in connection with any work performed by a local agency.

Reimbursement of local agencies

54164. When certified by the Department of Water Resources or the Department of Public Works, claims of local

agencies for state reimbursement shall be presented to the State Controller for payment out of funds made available therefor. The State Controller shall make such audit as he deems necessary, before or after disbursement, for the purpose of determining that such reimbursement is for expenditures made for the purposes and under the conditions authorized under this article.

Effect. Stats. 1957, Ch. 2

SEC. 3. Section 2 of this act shall become operative at the same time as the Education Code as enacted by the Legislature at its 1959 Regular Session, at which time Section 20542 of the Education Code as amended by Section 1 of this act is repealed.

Urgency

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There exists a shortage of parking and student activity facilities on the campuses of the various state colleges. The Federal Government is offering to guarantee the purchase of revenue bonds for such purposes at a favorable rate of interest. The State is currently constructing residence halls partially financed from this source. To insure that these presently financed facilities can be kept completely filled so as to insure repayment of the loans, parking facilities are needed and can be financed within the amount of the original loan. These parking facilities for dormitory residents should be available as close to the time the residence halls are completed as possible. The estimated completion date of most of the residence halls is September 1, 1959. Therefore it is necessary to commence work on the parking facilities by July 1, 1959.

necessary or are requested by interested parties shall be in attendance.

Notice of the hearing shall be published at least once, and at least thirty (30) days prior to the hearing, in a newspaper of general circulation which is printed and published in the county, or in one of the counties, in which the area lies. CHAPTER 1521

An act to add Section 438 to the Government Code, relating to United States Flags.

In effect September 18, 1959

[Approved by Governor July 3, 1959. Filed with Secretary of State July 6, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 438 is added to the Government Code, to read:

CHAPTER 1522

An act to add Section 30700.7 to the Water Code, relating to county water districts.

In effect September 18, 1959

[Approved by Governor July 3, 1959. Filed with Secretary of State July 6, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 30700.7 is added to the Water Code, to read:

30700.7. (a) District elections in the Kings County Water District shall be conducted pursuant to the provisions of subdivision (b) of this section, rather than in accordance with Section 30700, with respect to the qualifications of voters and the number of votes to be cast by each voter.

(b) Qualified voters shall be only those persons whose names appear in the last Great Register of the county or counties in which the district is located and who own real property within the district. Every qualified voter shall be entitled to one vote for the first acre, or fraction thereof,

that he owns, and an additional vote for each additional acre, or fraction thereof.

(c) The special provisions of this section are necessary because in the Kings County Water District a substantial portion of the parcels of land therein in separate ownership are less than one acre in size, thereby creating a disproportionate number of votes per acre as compared to the benefit received by each acre of land. This problem is not common to all districts formed under the County Water District Law (Division 12 (commencing at Section 30000) of the Water Code). It is therefore hereby declared that a general law cannot be made applicable and that the enactment of this section as a special law is necessary to effectuate the solution of problems existing in the Kings County Water District.

CHAPTER 1523

An act to amend Section 104.5 of the Welfare and Institutions Code, relating to proceedings before the State Social Welfare Board.

[Approved by Governor July 3, 1959. Filed with Secretary of State July 6, 1959]

In effect September 18, 1959

The people of the State of California do enact as follows:

SECTION 1. Section 104.5 of the Welfare and Institutions Code is amended to read:

104.5. (a) Whenever any appeal to, or hearing before, the board is otherwise authorized by law, the appeal shall be made, or the hearing applied for, within six months after the order or other action complained of. Within six months after the board's original order or decision, any interested party may apply for a rehearing or the board may on its own motion order a rehearing. Any such appeal, hearing, or rehearing may be heard by the board, or a referee designated by the board.

(b) The board or referee conducting an appeal, hearing, or rehearing shall have all the powers and authority conferred upon the head of a department in Article 2 of Chapter 2 of Part 1 of Division 3 of Title 2 of the Government Code.

(c) If an appeal, hearing, or rehearing is not heard by the board, a report of the proceedings shall be prepared by the referee conducting it and the report, together with any data the party appealing may desire, shall be presented to the board for final decision. The department shall mail a copy of the final decision promptly to each party. Only the board may make such final decision.

(d) The department shall set the appeal for a hearing to be commenced within 45 days after the appeal is filed. The referee or the board may, upon good cause shown, continue the hearing for a period not to exceed 30 days. If heard by a

referee his report shall be filed promptly. Within 90 days after the conclusion of the hearing or the filing of the report by the referee the board shall render its decision. Failure to meet such time limits shall not invalidate such decision.

(e) This section shall not apply to proceedings conducted in accordance with Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code.

CHAPTER 1524

An act to add Section 11612.5 to the Business and Professions Code, relating to subdivision maps.

In effect September 18, 1959

[Approved by Governor July 3, 1959. Filed with Secretary of State July 6, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 11612.5 is added to the Business and Professions Code, to read:

11612.5. Any city or county may, by ordinance, provide that the subdivider may elect to install the improvements required under this chapter, from time to time, in a portion or portions of the premises covered by the subdivision map and in so doing the following procedure shall be followed:

(a) At the time the subdivision map is accepted by the governing body for recording, the subdivider shall deliver to the clerk of the governing body written instructions addressed to the escrow holder referred to in this section together with a deed to all of the premises except that portion thereof in which the improvements have been or are to be immediately installed in accordance with the contract simultaneously delivered to the governing body, covering the entire subdivision.

(b) The deed shall name as grantee, a corporation which is in the practice of handling escrows, approved by the governing body.

(c) Immediately following acceptance of the subdivision map by the governing body, the instructions and deed shall be immediately delivered by the clerk to the grantee, and which instructions shall authorize and instruct the escrow title holder to: (1) record the deed immediately following the recording of the subdivision map, (2) convey from time to time to the subdivider any portion or all of the remainder of the subdivision premises, when the governing body has approved by resolution the delivery of any such conveyance or conveyances and (3) institute proceedings to rescind any portion of the subdivision map as provided for in subdivision (i) of this section.

(d) The governing body shall, as a condition precedent to the approval, require an additional bond or deposit of funds to cover the installation of the improvements provided for in the original contract for improvements on that portion of the

premises so conveyed to the subdivider, in like manner as provided for in this chapter.

(e) The governing body in accepting the final map for recording, shall require the bond or deposit of money or securities on only that portion of the subdivision premises which the subdivider has elected to immediately improve, as that portion is described in a declaration of immediate improvement which the subdivider shall submit to the governing body. At the time the final map is accepted by the governing body, the plans and specifications for the contracted improvements shall cover the whole subdivision as designated on the final map.

(f) The original contract between the subdivider and the governing body may, on demand of the governing body, set a limit on the time that the contracted improvements shall be installed and completed on portions or all of the subdivision. The time limit so set for improvement completion shall be not less than two years for each portion of the premises selected for that purpose following acceptance of the declaration of improvement by the governing body; provided, that the governing body may require the improvements contracted for to be completed on the whole subdivision or that the improvements are started on the last portion of the subdivision, with bond thereon on file with the governing body, in not less than four years from the date of acceptance by the governing body of the subdivision map.

(g) The written instructions under subdivision (c) of this section, may, on demand of the governing body, provide that on written notice of a resolution by the governing body directed to the escrow holder of title, the escrow holder shall immediately proceed to rescind that portion of the subdivision map which designates that portion of the subdivision in which the improvements have not been installed in compliance with the terms of the contract, plans and specifications on file with the governing body.

(h) The holder of title to the premises on which the improvements have not been completed, shall, on the demand of the governing body, institute the rescission proceedings to completion.

(i) In the event the necessary rescission proceedings are not completed within the time limit set by the governing body order, the attorney for the governing body shall, on the order of the governing body and under the name of the record owner, institute the proceedings for rescission.

The map rescission proceedings provided for in this section may follow subdivision (b) of Section 11537 of this chapter or Chapter 4 (commencing at Section 11700) of Part 2 of Division 4 of this code, to effect vacation of any portion of the final recorded map, causing the portions of the premises so effected to revert to acreage.

(j) Reasonable attorneys fees and costs in the institution of the rescission proceedings, including the cost of recording any document of rescission, shall be a lien on the premises covered

by the rescission when a verified claim of lien is recorded by the attorney for the governing body or by the escrow titleholder.

(k) Nothing in this section shall prevent the subdivider or his successors from instituting legal proceedings for the map rescission on that portion of the subdivision in which the improvements contracted for have not been completed.

(*l*) Following the rescission the escrow titleholder shall convey title to the premises covered by the decree to the party entitled thereto.
