Dear Mr Driscoll, I would like to express to Speaker Unruh, the members of the Assembly and yourself my sincerest appreciation for the tribute so graciously accorded the memory of my beloved husband

It was indeed wonderfully thoughtful of the Speaker, all the gentlemen and your kind self to have sent so beautiful a scroll. I shall treasure it and its message always

MR. JOAD GOES TO WASHINGTON

By Arthur Hoppe

"HOW'D IT GO, *Jud?*" Mrs *Jud* Joad asked anxiously as her husband sank down on the bench in the little park across from Poverty Corps headquarters. "Was they glad to see you?"

"To tell the truth, Maude," said Mr Joad, "I don't rightly know whether it was worth the long trek up here from Appalachia Corners. Oh, they was mighty glad to see me I walks right in and tells this pert young lady who I am and what I want.

"'I seen by the papers,' I says, 'that you are recruiting poverty fighters for the War on Poverty,' I says 'At $20,000 a year on up. I am an old man,' I says, 'but I am not too old to fight'"

"OH, JUD, that took grit," said Mrs Joad, squeezing his arm "Well," said Mr Joad, "pretty soon this smart-looking young fellow in shirtsleeves comes out He looks at me and says, 'My Gawd!" Then pretty soon there's a whole passel of these young fellows standing around, staring. 'It's a genuine victim,' says one, kinda awed like You could tell they never seen the likes before. I was mighty proud.

"'Let's take him in to see Sarge,' says one 'It might be worth a couple of columns in the dailies' So's they take me in to see their sergeant, who's right nice 'What can I do for you?' he says

"Well, I tells him all about my fighting poverty from the Texas dust bowl to the piney woods of Georgia, man and boy for nigh on 70 years. 'So,' I says, 'figuring my country needed my vast experience, I come to fight for you And I'll settle for half pay'

"'You are a patriotic American,' says he 'But we got 12 different programs going at the moment Now, drawing on your vast experience, which would you say was the best way to fight poverty?' I give this a couple seconds' thought and then I tell him 'With money,' I says

"'By Gawd,' says he, 'you and I think alike That's just what I been telling them up on Capitol Hill You got the right out-look to be a member of our team'

"'I ain't much at sports,' says I 'No,' he says, 'I mean fighting poverty Just you look over this here list of jobs and see which one suits you best' So's I do, but none make much sense Like 'Community Services Planner' and 'Public Relations Co-ordinator' But finally I seen one 'Pilot Program Director — $22,500' 'That one,' says I 'Never been up in no aeroplane, but I ain't too old to larn'

"'Well,' says he, 'we'll give you the usual tests and interviews and see how you do' So's they give me all these tests and

"Jud," said Mrs Joad impatiently, "stop frittering and tell me, did you get the job fighting poverty or no?" Mr. Joad shook his head sadly "Nope," he said "I ain't qualified"

"WELL, DON'T take it too hard, Jud," said Mrs Joad, patting his shoulder "I don't," he said "The sergeant bucked me up He says I should go home and fight at the community level On a volunteer basis And while he didn't exactly promise, I figure he may land me one of them jobs yet Soon as I get a little more experience"

House Resolution No. 373

Relating to "Freedom of Information" study

WHEREAS, The Attorney General of the United States has announced a new policy that forbids the disclosure of pre-trial information in federal criminal cases by all Justice Department employees, including prosecutors and the FBI, in an attempt "to strike a balance between the constitutional guarantees of a 'Free Press' and a 'Fair Trial'"; and

WHEREAS, A Los Angeles County Superior Court Judge has ruled that "a prosecutor has the freedom to comment factually to the press on pending criminal cases"; and

WHEREAS, Controversy and uncertainty prevails in the State of California among the members of the judiciary, bar associations, the Legislature and law enforcement agencies over the multiplicity of proposals submitted to resolve presumed conflict between the constitutional guarantees of "Free Press" and "Fair Trial"; and

WHEREAS, In the State of California representatives of all news media that include press associations, radio and television stations and networks and newspapers as well as periodicals are in contention that constitutional guarantees of "Free Press" are in danger of serious and unwarranted abridgement; and

WHEREAS, A section of the Revised Code of Evidence of the State of California, in its pre-amended form, sought to establish that news reporters could no longer retain established immunity from contempt proceedings for declining to disclose sources of information; and

WHEREAS, The Judicial Council of California has deemed it appropriate to recommend that segments of the news gathering and dissemination profession that are required to utilize sound recording and photographic instruments and devices in the performance of their assigned tasks be denied access to courts, corridors and environs except for "ceremonial" and "educational" purposes; and

WHEREAS, The First Amendment of the Constitution of the United States establishes a continuing and undeniable "Free Press"; and

WHEREAS, The Sixth Amendment to the Constitution of the United States provides a "Fair Trial" guarantee in the "Right to a Speedy and Public Trial", and

WHEREAS, Article I, Section 9 of the Constitution of the State of California contains a "Free Press" guarantee not unlike the provision established by the First Amendment of the Constitution of the United States, and

House Resolution No. 374

Relating to alcoholic rehabilitation

WHEREAS, Alcohol misuse and alcoholism is continuing to cause untold misery and great economic waste among the people of the State of California; and

WHEREAS, Alcohol misuse and alcoholism contribute in great amount to the burden of law enforcement, the courts and custodial facilities in California at the state, county and municipal levels; and

WHEREAS, Interim studies of the Alcoholism and Rehabilitation Sub-Committee of the Assembly Interim Committee on Judiciary disclosed that alcohol misuse among operators of motor vehicles in the State of California was responsible for an annual loss to the insurance carriers in excess of $100,000,000; and

WHEREAS, The Legislative Analyst has estimated that state "costs" attributable to alcoholism and alcohol misuse were in excess of $42,000,000 in the 1963-1964 fiscal year; and

WHEREAS, Interim studies of the alcoholism subcommittee further revealed that a fragmentary survey of alcohol-related "costs" by the League of California Cities and the California County Supervisors' Association established an annual financial burden in excess of $120,000,000 to the cities and counties of the State of California, and

WHEREAS, Testimony to the alcoholism subcommittee by a spokesman for the State Department of Education indicated the need for additional funds to secure added staff and prepare more effective instructional manuals to teach the harmful effects of alcohol on the human system at all grade levels in conformity with the state Education Code, and

WHEREAS, The alcoholism subcommittee also learned that the Alcoholic Rehabilitation Program of the State of California, assigned by the Legislature to the Department of Public Health, has acquired a staff of 28.5 persons, is spending more than a million dollars annually in the process of financing no more than eight out-patient clinics throughout the state, expended almost $600 per "person treated" during the 1956-1963 fiscal years, permitted a lapse of nine months in one facility without "treatment" of a single "person" while funds continued to be expended, and demonstrated no "recovery" accomplishments in any area of the state, and

WHEREAS, The Alcoholism Treatment Center at the Presbyterian Medical Center in San Francisco, the California community deemed first in ratio of alcohol sales and alcoholism, was denied continued state support by the Department of Public Health despite the outstanding record of accomplishment achieved by the clinic at Presbyterian, according to information and facts personally established by the alcoholism subcommittee chairman and an interim hearing held in San Francisco; and

WHEREAS, The Director of the State Department of Rehabilitation informed the alcoholism study subcommittee that $1.04 of federal funds would be available for each $1 of state funds to provide "vocational rehabilitation" for the alcoholic, a chronic need, and that no added administrative staff would be needed by the Department of Rehabilitation to assume responsibility for the alcoholic rehabilitation program in the 40 cities the department has staff personnel if the Legislature determined that the Alcoholic Rehabilitation Program be reassigned; and

WHEREAS, The Legislative Analyst has indicated that "The results achieved by this program (The Department of Public Health) do not appear to have justified the expenditure" and consideration should be given to transferring the responsibility to the Department of Mental Hygiene, Department of Rehabilitation or to a newly created agency; and

WHEREAS, Legislation (A.B 22, by Assemblyman Willson) has been introduced to transfer the Alcoholic Rehabilitation Program to the Department of Rehabilitation for reason of an anticipated annual economy in excess of $600,000 plus the anticipation of more meaningful results from an agency that has staff in 40 cities of the state compared to the current out-patient clinical program in 8 cities; and

WHEREAS, An Assembly Resolution to provide emergency interim funds for the San Francisco Alcohol Clinic has been introduced and has received virtually unanimous support in the House, was given a "Do Pass" by the Senate Committee on Governmental Efficiency and is awaiting approval by the Senate Finance Committee and the Senate membership; now, therefore, be it

The following resolutions were offered:

By Assemblyman Biddle:

House Resolution No. 383

Relative to county officers

WHEREAS, Section 5 of Article XI of the Constitution of the State of California has provided that the salaries of the members of the board of supervisors, of the county auditors and of the district attorneys shall be fixed and determined by the enactment of state laws fixing the salaries of said officers, and

WHEREAS, It has been made the duty of the grand jury by Section 927 of the Penal Code to make a study of the salaries of certain officers and employees of the general law counties of the State of California, and

WHEREAS, In the interest of uniformity the salaries of said officers should be fixed on a uniform basis and on a definite scale throughout the State of California and that the uniformity should be determined by studies to be made at state level rather than at county level, and

WHEREAS, The grand jury is only required to investigate and report upon the needs for adjustment of salaries of such officers and the final determination for the fixing of the salaries of said officers is determined by Section 5 of Article XI of the California Constitution which requires that the Legislature shall regulate the compensation of boards of supervisors, district attorneys and auditors in the respective counties and for this purpose may classify counties by population, and the boards of supervisors are only required to regulate the compensation of all county officers, other than boards of supervisors, district attorneys, auditors and judges of the municipal courts; and

WHEREAS, It has come to the attention of the Legislature that there is a great lack of conformity in the salaries of the county officers that are set by the Legislature and the possibility of setting a fair and adequate scale to be applied uniformally throughout the state should be studied by the Legislature, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is hereby directed to assign to an appropriate interim committee for study the subject of uniform salary scales for county officers whose salaries are set by the Legislature and to direct such interim committee to report its findings and recommendations to the Legislature no later than the fifth legislative day of the 1967 Regular Session.

By Assemblyman Warren:

House Resolution No. 384

Relative to county service areas

WHEREAS, Counties of the State of California, and Los Angeles County in particular, are rendering extensive municipal services to persons living within urbanized unincorporated areas and also, pursuant to contract, to persons living within cities, and

WHEREAS, For many years there has been a dispute as to whether charges made to cities by the County of Los Angeles for the performance of contractual services are sufficient to reimburse the county for the cost of the services rendered; and

WHEREAS, Section 25210.1 of the Government Code of the State of California states that "the Legislature recognizes the duty of counties as instrumentalities of state government to adequately meet the needs of such areas for extended government services and also recognizes that such areas should pay for the extended services which are provided;" now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Rules Committee is directed to assign to an appropriate interim committee for study the subject of the extent to which municipal services are provided by county governments, the adequacy of the charges made to urbanized unincorporated areas where such services are performed pursuant to contracts with those areas, and the extent to which the cost of rendering municipal services to urbanized unincorporated areas is borne by the general county taxpayer, and to require such interim committee to report its findings and recommendations for legislation to the Assembly not later than the fifth legislative day of the 1967 Regular Session

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules.

By Assemblyman Dannemeyer:

House Resolution No. 385

Relative to winter sport resorts

WHEREAS, Snow skiing is one of the fastest growing winter sports in California, with approximately one million Californians now enjoying that form of activity, and

WHEREAS, With the longest ski season in the world, California attracts snow skiers from all over the world; and

WHEREAS, Despite a proliferation of snow skiing and other winter sport resorts, sanitation and safety regulations applicable to such resorts are inadequate; and

WHEREAS, There is a consequent need for a study of this subject in order to determine what laws or regulations should be adopted for the protection of all those who use such resorts; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to refer for study to an appropriate interim committee the subject of the licensing and regulation of winter sport resorts to determine what can be done by law or regulation to insure the adequacy of their facilities and operations, and such interim committee shall report its findings to the Assembly no later than the fifth legislative day of the 1967 Regular Session of the Legislature

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules.

By Assemblyman Zenovich:

House Resolution No. 386

Relative to unemployment

WHEREAS, The Department of Employment is charged with the administration of the unemployment insurance law and with providing employment services to the people of the State of California, and

WHEREAS, Since 1955, no study has been made of the administration of the unemployment insurance law by the Department of Employment and the coordination of insurance and employment services; and

WHEREAS, There is increasing evidence of the existence of so-called "hard core" unemployment which is increasingly being caused by technological factors and does not result from the traditional business cycle; and

WHEREAS, The Department of Employment is being charged with certain administrative responsibilities under federal programs to reduce this "hard core" unemployment as provided in the Economic Opportunity Act of 1964, the Manpower Development and Training Act of 1964 and the Area Redevelopment Act of 1964; and

WHEREAS, Covered employment under the unemployment insurance law has increased from 3.5 million persons in 1955 to 4.6 million in 1964; and

WHEREAS, Employer contributions into the unemployment insurance fund have increased from $145 million in 1955 to $503 million in 1964 and benefits paid have increased in the same period from $102 million to $511 million; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to assign to an appropriate interim committee for study the subjects of the Department of Employment's administration of the unemployment insurance law, the employment services offered by the department, the standards and procedures on the basis of which persons are deemed eligible for unemployment insurance benefits, the efficiency of the employment services in substantially reducing the number of persons receiving unemployment insurance benefits and the duration of the period for which they receive such benefits, the impact of recently-adopted national antipoverty programs requiring the Department of Employment's participation on the administration of the established services of the Department of Employment, and to direct such interim committee to report its findings and recommendations to the Assembly not later than the fifth legislative day of the 1967 Regular Session.

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules.

By Assemblyman Donovan:

Relating to restricted drivers' licenses for older adults

WHEREAS, There is a need for the older adults to operate vehicles within the proximity of their homes in order to take care of their needs; and

WHEREAS, At present there is no provision to enable Department of Motor Vehicles to issue to such older persons restricted licenses when in the department's judgment an unrestricted license should not be issued, now, therefore, be it

Resolved by the Assembly of the State of California, That the Department of Motor Vehicles is requested to study the feasibility of issuing restricted drivers' licenses to older adults (including such possible restrictions as limiting the driving of such persons to an area within 25 miles of their residences and prohibiting such persons from driving on freeways) when in the department's judgment unrestricted licenses should not be issued; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Director of the Department of Motor Vehicles

By Assemblyman Mills:

House Resolution No. 399

Relative to an interim study of the imposition of taxes on California's commercial fishing vessels.

WHEREAS, Other coastal states and Puerto Rico exempt commercial fishing vessels operating on the high seas entirely from personal property taxation or impose a minimum tax on such vessels, which handicaps California's fishing fleet in its efforts to be competitive with fishing vessels registered outside the state; and

WHEREAS, It is inequitable to require California's fishing vessels to pay more taxes than fishing vessels from other states and other countries receiving equal benefit from California's ports, and

WHEREAS, The reason for the additional taxes imposed on California's fishing fleet is difficult to discern, as no other group of fishing vessels stay in port less than the California fleet; and

WHEREAS, Many commercial fishing vessels have already left California to be registered in other states and Puerto Rico and are continuing to do so, which operates to the detriment of California's economy, and there are indications that the revenue loss resulting from an exemption or lower tax on fishing vessels would be nominal when compared to the benefits to be derived from a policy that would induce vessel owners to operate from California on a regular basis; and

WHEREAS, There is need for a thorough study of the present policy of taxing commercial fishing vessels with a view of formulating a more equitable method of taxing vessels registered in this state to enable California's fleet to compete effectively with vessels registered elsewhere, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to assign the subject matter of this resolution to an appropriate interim committee for study, and that such committee report its findings and recommendations to this body not later than the fifth legislative day of the 1967 Regular Session

House Resolution No. 406

Relating to the dangers of antibiotic drugs

WHEREAS, The Members of the Assembly of the State of California have been cognizant that there has been an increase in the use and prescription of drugs which can be dangerous, and sometimes fatal, to persons, if they are improperly administered, and

WHEREAS, There is a necessity that laws be enacted governing the use, the manner of prescribing, and the place of use of such drugs; and

WHEREAS, Since 1929 when penicillin was discovered by Dr. Alexander Fleming of England, research has developed 25 different antibiotic drugs now commercially available for treatment of disease in man, including chloromycetin, a broad-spectrum antibiotic used in the treatment of typhoid fever, influenzal meningitis, as well as severe salmonella infections, and for other life-threatening infections, as prescribed by physicians, and

WHEREAS, In recent years there have been reports that use, or perhaps misuse, of antibiotic drugs has had fatal or near fatal results, and, in particular, chloromycetin has been mentioned as a cause of aplastic anemia, a blood disorder in which the bone marrow is affected and production of blood cells is suppressed and which almost always results in death; and

WHEREAS, In its report to the Senate in January, 1963, the Senate Fact Finding Committee on Public Health and Safety conservatively estimated that 60 to 80 deaths result from aplastic anemia annually in California; and

WHEREAS, There is need for continuing investigation of fatal aplastic anemia and of antibiotic drugs, particularly chloromycetin; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly urges as follows

1. That the California Medical Association, the American Medical Association, the California State Dental Association, and the Southern California State Dental Association take immediate steps to better inform and to better police their members directly and through their various county units in regard to the drug chloromycetin; that a program of education be undertaken, with proper warnings against use of this drug for minor infections, as specified by the Food and Drug Administration; that a program to improve the reporting of aplastic anemia cases, to emphasize the need for more thorough and more frequent blood and bone marrow checks, be undertaken; that the C M A. and A M A investigate and report on any and all prescription drugs of a dangerous or toxic nature at regular intervals, both to physicians and pharmacists;

2 That steps be taken by the medical profession and by the pharmacists to provide that there shall be no refill of any prescription of chloromycetin unless the patient and the physician consult and the physician writes a new prescription; that, where called for, the physician should be obligated to repeat laboratory testing of the patient before a new prescription is written,

3 That the State Department of Public Health should be authorized to keep a closer check on all antibiotic drugs which are known to have possible toxic reactions, and should proceed as necessary in order to protect the public interest in all phases of the testing, prescribing and use related to such drugs,

4 That the State Department of Public Health is requested to continue its investigation of fatal aplastic anemia in this state, including investigation of conditions suspected of being aplastic anemia, though reported otherwise, and of deaths thought to be due to use of chloromycetin and related causes, and to report thereon to the Assembly, including its recommendations as to needed legislation, by the 5th calendar day of the 1967 Regular Session of the Legislature; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the Director of the State Department of Public Health, the Secretary of the California Medical Association, the Secretary of the American Medical Association, the Secretary of the California State Dental Association, the Secretary of the Southern California State Dental Association, the Secretary of the State Pharmaceutical Association, and the President of the State Board of Pharmacy

RESOLUTIONS

The following resolution was offered:

By Assemblymen Burton, Brown, Foran, Marks, Meyers, and Unruh

House Resolution No. 413

Relating to Jack Rosenbaum

WHEREAS, An outstanding reporter and columnist is to be honored with a grand testimonial dinner to be held in San Francisco to commemorate his lifelong career as one of this state's most talented and worthy members of the journalistic profession, and

WHEREAS, Jack Rosenbaum has served his readers as their "Man About Town" for nearly seventeen years—his column captures the mood of the day and the trials of our times with a warmth, simplicity, and keen insight that lifts the spirits and stirs curiosity to lighten the routine of daily life, and

WHEREAS, A "South of Market boy," Jack launched his career into journalism as a newsboy selling daily issues of *The Call* and *The News* on the corner where the Golden Gate Theater now stands, and

WHEREAS, A graduate of Poly High and the University of California, Jack's first efforts as a reporter earned him $10 a week as a member of the staff of *The News*, where his inquisitive mind, sense of fair play, and fondness for people eventually won him a place as a columnist writing "Sportsman About Town," the forerunner of his now renowned "Man About Town" column, and

WHEREAS, A reporter as well as a columnist, he dearly loves scoops, and he gets them, but his keen sense of fair play has developed to a point where he frequently kills choice items, a trait that surprisingly is found in a man who has also ignited more page one headlines than any one person in San Francisco, and

WHEREAS, A quiet crusader who attains warmly rewarding results with his sensitive approach to the little man's problems and who inspects the special quirks and idioms of high cafe society, Jack has won many honors over the years, including, in 1955, the coveted Press Club Award for the best feature story of the year—a column paying tribute to his late father titled "The Governor" and termed by one expert as "the finest writing that heart and head could put on paper", now, therefore, be it

Resolved by the Assembly of the State of California, That the Members join the illustrious "Committee for the Testimonial Dinner Honoring Jack Rosenbaum" in paying tribute to a great man with a warm heart who by means of the printed word has pleased and enlightened his thousands of devoted fans throughout this state, and be it further

House Resolution No. 416

Relating to the Press-Legislature Golf Tournament

WHEREAS, The Capitol Press Corps in the State of California has won the reputation of being a group of journalists who not only report on the activities of the California Legislature with great accuracy, conciseness, fairness and an occasional flair, but also a group devoted to good fellowship and, above all, good sportsmanship and generosity; and

WHEREAS, Since the mid-century mark, the Capitol Press Corps has favored the California Legislature during each of its biennial sessions by extending an invitation to its members to participate in the Press-Legislature Golf Tournament, and

WHEREAS, Over those years, the Legislature, while disporting itself with honor and aplomb on the field of competition, has yet to win the coveted cup of victory and the many honors thereto attending, and

WHEREAS, Despite the fact the golf scores of the members of the California Legislature would appear to be exceeded only by the number of important, significant and often revolutionary bills introduced by them, the Capitol Press Corps again has extended the friendly challenge, or invitation, to participate in the 1965 renewal of this now-famous golfing competition, and

WHEREAS, With the addition of several new members in the California Legislature, hope springs eternal that Pattee's temper might hold, that McMillan's putting might improve, that Collier's drives won't hook or slice, that a miracle might thereby be wrought and that 1965 might, indeed, be the year in which the California Legislature matches its legislative feats with similar achievements on the field of competition; now, therefore, be it

Resolved, That the Assembly of the State of California does hereby accept this challenge or invitation, and the generous offer of the aforementioned Capitol Press Corps, and does hereby agree to participate in this hallowed sporting event, to be staged at the Valley Hi Country Club in Sacramento, on the seventh day of May, 1965; and be it further

Resolved, That the Assembly urges as many of its members as possible to be on hand for the 12 o'clock noon shotgun start on May 7 at the Valley Hi Country Club

By Assemblyman Rumford:

House Resolution No. 441

Relative to a study of compulsory enrichment of refined flours and bread products

WHEREAS, Thirty of the fifty states have some kind of compulsory flour, bread or cereal enrichment laws California is among those that do not During World War II, it was realized that compulsory enrichment would help protect the health of both the fighting forces and the civilian population. The War Food Order No 1 went into effect in 1943 and required that all white flours, breads, rolls and buns be enriched in accordance with the Food and Drug Administration's standards Following the cancellation of this order in 1946, compulsory enrichment was left to the individual states and thirty of them have enacted such legislation In the Far West, only Washington, Alaska and Hawaii have such laws; and

WHEREAS, During the refining of flours and cereals, some valuable nutrients found in the germ and bran are removed The Federal enrichment standards provide that three vitamins (thiamine, riboflavin and niacin) and one mineral (iron)

be added to white breads and flours in specified amounts that restore these particular nutrients to approximately the original levels found in the whole grain. The addition of these nutrients in no way changes the flavor or baking characteristics of the flour. The Federal standards when promulgated in 1941 and 1943 had the support of the National Research Council, the U S Public Health Service, the American Medical Association and the American Baker's Association; and

WHEREAS, Cereals and breads account for about twenty percent of the food calories in American diets and furnish nearly all of the dietary thiamine. It has been argued that it would be better to persuade people to eat whole grain breads and cereals than to enrich bread and flour It has also been pointed out that enrichment does not restore all the nutrients lost in processing although it does restore the most important ones Unfortunately, vigorous educational efforts by nutritionists over the years have not resulted in an increase in the consumption of whole grains. Approximately ninety percent of the grains used as human food in this country are refined, and

WHEREAS, The wartime enrichment program is credited with major improvements in the health of the American people. Thiamine, riboflavin, niacin and iron deficiencies have decreased strikingly Some authorities believe that the great decrease in pellagra and beriberi is due to enrichment, particularly the enrichment of corn in the southern states The present status of health in regard to these nutrients is not known with exactitude. However, since some breads and flours are enriched even in states without compulsory enrichment laws, it seems likely that the health of the average citizen has continued at an improved level; and

WHEREAS, In California, the regular loaves of white bread are mostly voluntarily enriched The bread products that generally are not enriched are (1) specialty breads (wheat, French, raisin, soy, cinnamon, potato, oatmeal, frozen unbaked doughs, etc), (2) rolls (Parkerhouse, sweet, hard, bagels, croissants, English muffins, hamburger and hot dog buns, etc), and (3) doughnuts, bread sticks and other more unusual bread products Also most refined breakfast cereals, rice, paste and corn products are not enriched, and

WHEREAS, From a public health standpoint, many people believe that compulsory enrichment would benefit California citizens Certain groups may be consuming a large part of their cereals in an unenriched form Low income groups, including minorities and persons on pensions, often depend heavily on cereals since these are by far the cheapest source of calories Ethnic groups using rice, paste products or corn in large amounts would be helped if these foods were all enriched Teenagers may consume much of their bread in the form of rolls On the average teenage girls get less than the recommended amounts of iron in their diets and this suboptimal level is exacerbated by early marriage and childbearing; and

WHEREAS, The cost of enrichment is very modest—about three cents for a hundred sixteen-ounce loaves of bread The cost of enriched bread at present is no higher than unenriched There should be no justification for an increase in the price of bread or cereals because of enrichment California bread prices are presently higher than those in most states, and

WHEREAS, The simplest way to accomplish this improvement would be to amend the present voluntary enrichment section of the California Pure Foods Act to require that all refined flours and cereals sold in stores and products made from them be enriched An alternate way of accomplishing the same thing would be to specify the enrichment of certain products This latter method would probably entail more complicated enforcement procedures, and

WHEREAS, Enactment of legislation without enforcement provisions would be most unwise, if not futile. Since only a small proportion of bread products produced within a state moves in interstate commerce, control of enrichment practices is primarily a state problem Most large producers of bread and family flour who ship in interstate commerce make enriched products because they may sell these in states with compulsory enrichment laws It is the smaller bakeries and flour mills that are most likely to neglect it; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Rules Committee is directed to refer the problem of a compulsory bread or cereal enrichment law to an appropriate interim committee for study including a study of whether some type of enrichment program is needed and, if it is needed, how best to implement it, and which bread or cereal products need enrichment, how best to enforce the proposed legislation and what, if any, appropriations are required for enforcement, and to report to the Legislature not later than the fifth legislative day of the 1967 Regular Session.

Resolution read, and referred by the Acting Speaker to the Committee on Rules.

By Assemblyman Zenovich.

House Resolution No. 442

Relative to an interim study of consumer credit regulation

WHEREAS, The State of California has adopted extensive licensing and regulatory provisions governing consumer credit transactions, and

WHEREAS, State banks, personal property brokers, industrial loan companies, credit unions, pawnbrokers, real estate loan brokers, small loan brokers and lenders, and savings and loan associations all operate subject to state regulations, and

WHEREAS, Certain "contract acceptance" companies in effect extend consumer credit by the purchase of retail installment contracts from retail merchants, home improvement contractors and others without being subject to licensing or supervision by reason of these credit activities; and

WHEREAS, The credit activities of "contract acceptance" companies have a significant impact upon the economy and well-being of this state; and

WHEREAS, Most fraudulent activities in the sales of home improvement contracts, aluminum siding, food freezers and other personal property and services on credit are financed by a small but significant number of unlicensed and unregulated "contract acceptance" companies, and

WHEREAS, Such fraudulent activities aggravate unstable conditions existing in the consumer credit segment of the economy resulting in great financial hardships to the people of this state and work toward the detriment of licensed and regulated lenders of consumer credit; now, therefore, be it

Resolved by the Assembly of the State of California, That the Rules Committee is hereby directed to assign to an appropriate interim committee the study and investigation of all facts relating to the financing of sales of personal property and personal services by unlicensed and unregulated finance companies and contract acceptance companies, and to direct such interim committee to report thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session.

Resolution read, and referred by the Acting Speaker to the Committee on Rules.

Almighty and Everlasting God, As we begin to live this brand new day which Thou hast given us, grant that by all our thoughts, words, and deeds we may keep it bright and clean and wholesome Help us to be true to our convictions without simply being obstinate; to be tolerant of other men's opinions without compromising our principles, to be men of our word and not just wordy men, to be leaders whose eyes are on the stars, but whose feet stand solidly on the ground, and to be determined that the affairs of our state may never become a sorry state of affairs In short, O God, make us the kind of men who use our time finding solutions instead of creating problems, producing answers instead of just asking questions, and providing action instead of merely making small talk To this end guide us, sustain us, and strengthen us, through Jesus Christ, Thy Son, our Lord.—AMEN.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No 61:

Governor's Office
Sacramento, March 2, 1965

To the Honorable Members of the Senate and Assembly

Senate Bill No. 61, as amended February 17, 1965, "An act to amend Section 989 of the Military and Veterans Code, relating to noninsurable losses to property being purchased under the veterans' farm and home purchase program, making appropriation therefore, and declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of the term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await final enactment of the Budget Bill. The facts constituting such a necessity are: Storms and floods during December 1964 and January 1965 have caused severe damage to homes and farms in the areas affected that are being purchased under the Veterans' Farm and Home Purchase Act of 1943 and which could not be insured against such hazards This law will assist such purchasers in repairing, restoring or replacing their property; and in order that they may do so at the earliest time possible, it is essential that it go into effect without delay

I, therefore, recommend consideration of Senate Bill No 61, as amended February 17, 1965, as an urgency measure

Sincerely

EDMUND G. BROWN, Governor

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Knox was granted unanimous consent that the following statements by Assemblyman Pearce Young be printed in the Journal:

Opening Statement of Assemblyman Pearce Young, Chairman of the Criminal Procedure Committee, at the April 20th Hearing on Obscenity

The Chair wishes to announce that two evenings have been set aside for our Committee Hearings on Obscenity. Tonight's hearing will be devoted to Penal Code Section 311, wherein lies our present definition of obscenity. Next Tuesday night, on April 27th, our hearings will be devoted to bills which would control the sale and distribution of obscene materials to minors Before we begin tonight's hearing, I would like to make a few remarks and observations concerning the general subject matter.

The area of the law in which we will deal is a most sensitive one—sensitive with respect to public opinion and sensitive with respect to the constitutional rights we all enjoy as citizens of this great country As Chairman of this Committee, as a lawyer, and as a former writer and teacher of English Literature, I feel acutely aware of the problems we face in drafting or re-drafting any statute which would define obscenity.

That we need laws to control filth in a decent and orderly society is, of course, apparent to all of us. That we need to strengthen our present laws in this regard is apparent to many of us, including myself, but not so apparent to others

However, I am confident that each member of this Committee shares my contempt for the smut peddlers who trade their pen for an easy dollar and who prey upon the immature emotional responses of their readers These are panderers in the true sense of the word and I, for one, would do everything possible to eliminate their traffic in filth. While great literature dignifies and enobles the human spirit, these twisted individuals degrade man and reduce human emotions to the mere satisfaction of lust and perversion

Although there is no general agreement that obscene materials are the cause of deviant conduct, their very prevalence are at least symptoms of a moral decadence in our society A morbid preoccupation with obscenity, like alcoholism, often may be a symptom of deeper hidden causes—the breakup of the home and the family as the fundamental unit in our society and, finally, the decline of religious faith as a cohesive and stabilizing force.

But as we begin our deliberations this evening, I would remind you that we are confronted with the First Amendment to the United States Constitution, which defines one of our most precious rights—the right of free speech. This is the same right which allows all of us to enjoy a free press, the free and critical exchange of ideas, and, indeed, to criticize our representatives in government

I wish to make it clear that we, in the Legislature, are not free to enact into law anything we think is desirable to control obscene material —we must work within the framework of the First Amendment as it has been interpreted by the courts of the land, and particularly, by the Supreme Court of this country In this constitutionally delicate area touching upon the expression of ideas, we must move slowly and deliberately to make sure that there shall be no infringement upon constitutionally protected rights

We all know that this is a difficult area I am sure that most of you believe that you could formulate a satisfactory definition of obscenity. Actually, that is not the question The question is the formulation of a definition which meets the demands of the Constitution. I think the problem was well stated by Justice Stewart in his concurring opinion in the case of *Jacobellis v. Ohio* when he pointed out that only hard-core pornography could be constitutionally proscribed; admitting that perhaps the terms "hard-core pornography" could never be defined, he then said: "but I know it when I see it "

I imagine we all know pornography when we see it The problem is how to describe it That is the problem we shall consider tonight and I hope that we shall do so in the true spirit of inquiry.

In conclusion I would like to quote the last paragraph from Justice Tobriner's opinion in the Zeitlin case

"Indeed, a legal proscription cannot in any event constrict artistic creation Man's drive for self-expression, which over the centuries has built his monuments, does not stay within set bounds; the creations which yesterday were the detested and the obscene become the classics of today The quicksilver of creativity will not be solidified by legal pronouncement, it will necessarily flow into new and sometimes frightening fields If, indeed, the courts try to forbid new and exotic expression they will surely and fortunately fail The new forms of expression, even though formally banned, will, as they always have, remain alive in man's consciousness The court-made excommunication, if it is too wide or if it interferes with true creativity, will be rejected like incantations of forgotten witch-doctors Courts must therefore move here with utmost caution, they tread in a field where a lack of restraint can only invite defeat and only impair man's most precious potentiality: his capacity for self-expression " (Zeitlin v Arnebergh, 59 C.2d 901, at 922 (1963))

Opening Statement of Assemblyman Pearce Young, Chairman of the Criminal Procedure Committee, at the April 27th Hearing on Obscenity

The Chair would like to welcome tonight's witnesses and the audience to the second of two evenings this Committee has reserved to hear bills on the general subject of obscenity Last Tuesday evening we scheduled those bills which dealt with the problem of defining obscenity Tonight we have scheduled those which would control obscene material in the hands of minors Also, we have several holdover bills in the definition area

However, before we begin tonight's hearing, the Chair would like to make a few remarks concerning last week's testimony and of the law and the facts as of this point in time I do this because I have heard more than one person ask "How can any legislator vote against bills which would regulate, control, or abolish obscenity?" This is an honest question which deserves an honest answer.

First of all, I am confident that no legislator would vote against such a law provided he is convinced that the present law is not adequate to meet the problem and that the law which is proposed satisfies the requirements of the constitution as defined by the Supreme Court of this land Now let me amplify this further.

With respect to the need for new legislation or changes in the existing law, there is an honest difference of opinion among the members of this Committee Several members feel that law enforcement officials and prosecuting attorneys in particular have not done an adequate job in seeking convictions under the present law. This attitude was somewhat re-enforced by testimony we received last Tuesday on A B. 1313 There are others on the Committee including myself who feel that law enforcement does have a problem under the present definition

of obscenity and that there is an area in which legislation would be in the best interests of the people. In any event, I would like to announce tonight that I intend to introduce a resolution this Session which will ask for an interim study by this Committee of the number of prosecutions for obscenity in this State, the kind of material upon which the prosecutions are based and the record of convictions. I am convinced that such a study would help to settle the question of whether or not the present law is inadequate.

Assuming that the legislator is satisfied that there is a need for a change in the existing law his next question is whether or not the new bill is constitutional as defined by that third branch of our government, the courts. This problem is the most important, the most complex and, therefore, the least understandable to the average person. It is particularly difficult for the lawyer-legislator because if he has personal and professional integrity he is deeply committed to the system of laws and the Constitution under which we Americans enjoy our most cherished freedoms.

Now where are we with respect to the law and the Constitution. The Supreme Court has told us that everything except "hard-core pornography" is protected by the First Amendment. This is the law of the *Roth* and the *Jacobellis* cases and it is fundamental to any bills we might consider which would re-define obscenity.

Now where are we with respect to California law? Many of the bills before this Committee would strike the language "and is matter which is utterly without redeeming social importance" from Penal Code Section 311. Here again there is an honest difference of opinion. Many legal experts, including our own legislative counsel, advise us that this language is an inherent part of the Supreme Court's definition and that striking it would result in a statute that is unconstitutional. Other experts including those who testified for Assemblyman Barnes disagree and argue that it is not essential to the Supreme Court's definition. With these conflicting opinions the legislator must make a decision based upon his evaluation of those opinions and the cases as he understands them. The important point is that he is not free to enact any law he might favor since his area of choice has been circumscribed and limited by the courts.

Finally, I would like to say that the laws we enact here in Sacramento will not suddenly banish obscenity nor eliminate vice. There is an old saying here in the Capitol that we cannot legislate morality. But if we cannot legislate morality we should at least work long and hard to provide the legal tools whereby in a decent and orderly society we can live in harmony with each other

The ultimate solutions were expressed most eloquently by Assemblyman Barnes last Tuesday when he said that they lie in the church, the home, the family. Perhaps they also lie in man's own individual conscience.

Mr Barnes was granted unanimous consent that he be recorded as voting "No," instead of "Aye," on Assembly Bill No 1580.

House Resolution No. 444

Relative to commending Jerry McCain and Ralph Villers

WHEREAS, The hero is a fast diminishing breed of man in a society that is sometimes noted for apathy rather than involvement, and

WHEREAS, Saving the life of another has always been, and still is, the highest form of personal heroism; and

WHEREAS, On September 30, 1964, Ralph Villers chose to become involved, and by doing so, saved the life of one of his fellow men; and

WHEREAS, When a Model A Ford that had been following Mr Villers on State Highway Route 1 near Carmel suddenly jumped a divider strip and plowed into a light standard, Mr. Villers immediately turned his car around and arrived at the scene of the accident in time to stop the bleeding of the young driver who had severed his jugular vein in the accident, thereby saving the boy's life, and

WHEREAS, An equally unselfish act of heroism was performed by Jerry McCain who with a companion saved the lives of three seriously injured persons stranded on a rocky ledge 650 feet above the crashing Pacific surf, and

WHEREAS, The three victims were thrown from a car as it careened off State Highway Route 1 near the Monterey-San Luis Obispo County line, and

WHEREAS, During a dramatic four-hour rescue operation, Mr McCain risked his own life by lowering himself on a rope 120 feet down the jagged cliff to reach the injured persons to whom he then applied first aid and kept from falling into the ocean, and

WHEREAS, As a direct result of the valiant efforts of Mr. McCain, the lives of all three victims were saved, and

WHEREAS, Both Jerry McCain and Ralph Villers are employees of the San Luis Obispo County District of Pacific Telephone Company which is a part of the Bell System, and

WHEREAS, The Bell System has honored Ralph Villers and Jerry McCain for their courageous and heroic acts by presenting them with the Vail Bronze Medal and Vail Silver Medal, respectively, a tribute to the memory of Theodore N Vail, the first president of the American Telephone and Telegraph Company; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members take this opportunity to commend Mr McCain and Mr Villers for their heroic and unselfish acts which have resulted in the saving of the lives of some of their fellow citizens, and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit suitably prepared copies of this resolution to Jerry McCain and Ralph Villers

RESOLUTIONS

The following resolutions were offered

By Assemblyman Burton:

House Resolution No. 446

Relating to fluid milk pricing

WHEREAS, Milk is one of the finest and most necessary foods for all persons regardless of age, but particularly for the young, and

WHEREAS, In order to provide its maximum benefits milk must be fresh and readily available to consumers; and

WHEREAS, Small neighborhood stores are often the only practical supply of fresh milk to many persons, including those of lower income who cannot travel to more centralized larger outlets; and

WHEREAS, Elaborate and often complicated technical provisions of law have been enacted to authorize the Director of Agriculture to stabilize the marketing of fluid milk and to insure a continuous and adequate supply of pure, fresh wholesome milk to the consumer at fair and reasonable prices; and

WHEREAS, Such provisions can be meaningless if small, local, convenient outlets for such milk are not maintained close to the consumers; and

WHEREAS, Such smaller outlets must be given some volume or limited service discounts or they cannot compete with the larger stores and their loss can seriously endanger the stability and availability of an adequate supply of milk to the consumer, and

WHEREAS, Discounts were given by Wholesale Milk Price Discount Zone I in San Francisco by San Francisco Order No. 6 for some time to orders between $15 and $30, which greatly aided the small retailer without undue hardship on anyone, but a recent decision of the Director of Agriculture for this zone would discontinue such discounts and thereby cause considerable loss to those outlets involved; now, therefore, be it

Resolved by the Assembly of the State of California, That the Director of Agriculture is directed to reconsider his decision to discontinue discounts on smaller orders for fluid milk and to reinstate proper discounts on these smaller orders, and, be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the Director of Agriculture

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules.

By Assemblyman Monagan:

House Resolution No. 447

Relative to a study of the financing of California's public institutions of higher education

WHEREAS, California's great system of public higher education is unparalleled in the Nation; and

WHEREAS, No other state offers such excellence and extensive opportunity as that provided by the University of California, the California State Colleges, and the junior colleges; and

WHEREAS, This has been achieved by a combination of farsighted academic and governmental leadership, plus the support of the people of California, who have unstintingly invested billions in higher education, and

WHEREAS, All evidence gathered to date points to a continued increase in the demand of the people of California for opportunity to participate in higher education, a chance for all who have the capacity and willingness to profit by college instruction; and

WHEREAS, The Legislature, in its wisdom and foresight, enacted the Donahoe Act of 1960 to meet the problem of providing college-level educational opportunities for the expected "tidal wave" of students within the limits of future state resources; and

WHEREAS, This compact is the root of the Master Plan and provides for cooperation rather than unbridled competition, with proper recognition of the interests of the taxpayer, the budget priorities, and the institutions themselves, and

WHEREAS, The University of California now draws its young people from the top eighth of the high school graduates, the California State Colleges from the top third, and the junior colleges must accept all high school graduates, and

WHEREAS, The Master Plan's delineation of function by higher education segment also affects the distribution of public funds appropriated by the Legislature for support of public higher education, and

WHEREAS, The Master Plan envisioned that the California State Colleges shall be the major public source of undergraduate education in California, and it has become apparent that the state colleges now carry the principal load in providing education through the bachelor's degree, and produce the biggest supply of public school teachers; and

WHEREAS, Soaring enrollments and rising costs have pointed up the inescapable fact that continued pressure on the tax dollar has finally challenged even the resources of this state and an adjustment in the tax structure and/or an additional source of revenue appears to be required, and

WHEREAS, The Legislature has a continuing interest in being satisfied that there is a careful measurement of what the educational needs of the three segments of public higher education are and as to the dimension of the state's financial resources, in order to arrive at an equitable balance of state support; and

WHEREAS, According to a recent California survey, " the current explosion in college enrollments is only a bubble compared to what is coming in the near future Today 99% of all parents with children 18 years or younger want to see their children go to college What is more, 82% say it is 'extremely important' for their children to get there.", and

WHEREAS, There have been widespread reports from the state colleges that either the quality of instruction or the quantity of students served must be diminished unless a greater level of financial support is approved by the Legislature; and

WHEREAS, The Legislature fully recognizes that how well we manage the enormous investment which must be made in public higher education in the years just ahead may well determine the future of California which has earned the enviable reputation as the Number One education state in the Nation, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Rules Committee is directed to assign to an appropriate interim committee the study of resident tuition fees in the University of California and the California State Colleges, the basic functions and the concurrent responsibilities of the three segments of public higher education as authorized by the Donahoe Act of 1960; and to carefully investigate California's ability to underwrite the mounting cost of public higher education and the degree to which the state's financial obligations to public higher education are being met effectively, consistent with the spirit of the Master Plan for Higher Education; and be it further

Resolved, That the appropriate interim committee is directed to determine the extent to which evidence exists to substantiate the widespread reports that a more equitable method must be found for dividing the available public funds among the

three segments of California's public instructions of higher education, and to report its findings and recommendations to the Legislature not later than the fifth legislative day of the 1967 Regular Session

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

Hon. Pauline L. Davis Presiding

At 12 08 p m, Hon Pauline L Davis, 2nd District, presiding

By Assemblyman Deukmejian:

House Resolution No. 448

Relative to an interim study of the causes of boating accidents

WHEREAS, Boating is a recreation enjoyed by millions of Americans and their families, and

WHEREAS, The number of boats on California waters has increased markedly in the past few years and is expected to increase markedly in the future without a proportionate increase in water area, and

WHEREAS, This increase in the number of boats is accompanied by a like increase in new boaters with increased risks due to the greater concentration of boats on our waters and operation of many boats by the relatively inexperienced, and

WHEREAS, Statistics and surveys now available show a substantial number of deaths, injuries, and property damage presently occurring attributable to participation in boating and related recreational activities; and

WHEREAS, Great concern over this increase in accident producing factors has been expressed by the boating industry, boating safety organizations, boating clubs, and the general population who urge that the problem be comprehensively studied with a view toward developing preventive measures; now, therefore, be it

Resolved by the Assembly of the State of California, That the Committee on Rules is directed to assign to an appropriate interim committee for study the causes of boating accidents, to prepare recommendations for remedial action therefor, and to report its findings and recommendations for legislation to the Legislature not later than the fifth legislative day of the 1967 Regular Session

Resolution read, and referred by the Acting Speaker to the Committee on Rules

By Assemblyman Dannemeyer:

House Resolution No. 449

Relative to ownership of hospitals and the practice of medicine

WHEREAS, It has been reported that conflicts of interest may develop in situations where a physician owns an interest in the hospital to which he sends his own patients, and

WHEREAS, Such conflicts of interest, if found to exist, might have a deleterious impact upon the practice of medicine as well as upon the quality of medical services rendered to the public: now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to assign to an appropriate interim committee for study the subject of the impact on the practice of medicine resulting from the ownership by physicians of hospitals in metropolitan areas, and to direct such interim committee to report thereon to the Legislature not later than the fifth legislative day of the 1967 Regular Session of the Legislature

Resolution read, and referred by the Acting Speaker to the Committee on Rules

House Resolution No. 450

Relative to Paul Sansom

WHEREAS, His unfailing courtesy and conscientious attention to his various duties have been missed during these recent hectic days, and

WHEREAS, The Members hope soon to see his smiling face at the Capitol, now, therefore, be it

Resolved by the Assembly of the State of California, That the Members hereby send their best wishes to Paul Sansom for a speedy recovery, and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit to Paul Sansom a suitably prepared copy of this resolution

PRAYER

The following prayer was offered by the Chaplain, Rev. Robert R. Ferguson:

God, our Father, In the midst of all the great issues and huge budgets and vast planning, may we realize we are very small children in need of Thy love. Often we stay aboard the merry-go-round of life so we do not have to look deeply within to see our poverty of spirit. May we never think so strongly of things, that the compassion for the individual gets effaced from our thought.

As a great man said,

"Holding a beggar's child
Against my heart,
Through blinding tears I see
That as I love this tiny, piteous thing,
So God loves me"—AMEN

House Resolution No. 454

Relating to compensating the Philippine Scouts for their services rendered in World War II

WHEREAS, The Philippine Scouts units serving with the United States Army rendered heroic and invaluable services in behalf of the United States of America and the Free World during World War II, and suffered particular hardship and cruelties in the early days of that conflict when their homeland was overrun by the hostile forces of the common enemy; and

WHEREAS, The Philippine Scouts served side by side with American troops and conducted themselves with great valor and distinction in the campaigns in the Philippine Islands, and particularly in the battles on the Bataan Peninsula and at the Island of Corregidor; and

WHEREAS, During these campaigns and prior thereto the Philippine Scouts were compensated pursuant to pay scales fixed by the Government of the United States with levels of remuneration substantially lower than those prescribed for other soldiers serving with the United States Army, with the result that the compensation received by these brave men was not commensurate with the extraordinary service they rendered; and

WHEREAS, Action taken by the Congress of the United States, through enactment of Public Law 607 of the 77th Congress on June 16, 1942, to raise pay scales applicable to the Philippine Scouts to levels of equality with those of other soldiers serving with the United States Army were never fully effectuated in respect to services rendered by those men in the early campaigns in the Philippine Islands; and

WHEREAS, Many important and prominent personages, including the former commander in the Philippine area, the late General Douglas MacArthur, have commented upon and urged that appropriate actions be undertaken to effect the long overdue adjustments in compensations earned by the men who served in the Philippine Scouts during those critical days; and

WHEREAS, There is presently a bill in Congress, to provide benefits for members and survivors of members of the Philippine Scouts on the same basis as such benefits are provided for other members of the armed forces of the United States and their survivors, now, therefore, be it

Resolved by the Assembly of the State of California, That the Congress of the United States is respectfully requested to enact the pending bill into law to compensate those Philippine Scouts who served in World War II for the lesser wage and salary amounts paid them at that time; and be it further

Resolved, That the Armed Forces Committee is strongly urged to schedule an early hearing on the pending bill so that action may be taken on the bill as soon as possible, and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California

has the humility to realize it knows so little Give us ever open minds, sensitive spirits, and good will toward our colleagues, lest we strangle ourselves in the cocoon of our own prejudices While we pray for light, may we ever open our eyes to see the truth and follow it. We pray in our Lord's Name—AMEN

MESSAGES FROM THE GOVERNOR

The following message from the Governor was received, and read:

Statement of

Governor Edmund G. Brown

on

RECREATION DEVELOPMENT

To the Senate and Assembly of the Legislature of California:

Last November, the voters of California by a resounding margin of more than 1,500,000 votes approved the historic State Beach, Park, Recreational and Historical Facilities Bond Act of 1964.

In so doing, they expressed their strong mandate to the Governor and to the Legislature to provide increasing outdoor recreation opportunities for California's rapidly growing population.

The bond issue, totaling $150 million, is the largest of its kind ever approved by the voters of any state. We now have the opportunity and the responsibility of making the first expenditures under the program for important additions to our beaches and parks system

Of the total bond issue, the act provides that $85 million is to be devoted to the acquisition of property for the state park system. This will enable us to acquire precious open space that has been rapidly disappearing from the California landscape, particularly near our heavily populated urban centers

In addition, it provides $40 million for grants to local governments for acquisition and development of property for park and beach purposes It provides $20 million for minimum development of state park system property acquired through the bond act. It provides $5 million for Wildlife Conservation Board acquisition and development projects

This message will propose acquisition by the state of 16 major beach and park projects from Del Norte County in the north to San Diego in the south at an estimated cost of $68,359,450

It will propose Wildlife Conservation Board projects estimated to cost $2 5 million, as the first phase of this program and it will outline our progress under the $40 million local grant section of the bond act

All of these projects are urgent All are necessary if we are to accommodate the increasing number of people enjoying outdoor recreation in California All of the proposed lands will be more expensive to acquire tomorrow than they are today All could be lost to the subdivider's bulldozer if we delay

I am sure the Legislature shares my belief that we hold our precious natural heritage in trust for future generations It is not ours to squander or destroy I know you share my belief, too, that we must invest the bond funds wisely and for the benefit of all the people of the state

What we do or fail to do now will be a reflection of our values for future generations to see Our children will judge whether we acted to preserve our resources or stood by and permitted growth to destroy the grandeur of California

The 16 state beach and park acquisition projects I propose for inclusion in the 1965–66 Budget Bill will preserve for recreational development

- 37,160 acres of scenic land and water area
- 31 8 miles of precious ocean shoreline with 10 miles of sandy beach
- 1 3 miles of lakefront and more than 38 miles of rivers and sloughs

When fully developed, the projects will provide·

- 7,461 family camping spaces.
- 5,719 family picnicking spaces
- Many miles of hiking and riding trails
- 17,185 parking spaces for those enjoying our beaches and parks system

The total cost of the first stage of our program is estimated at $68 3 million It will leave more than $16 5 million for later acquisitions

I will describe each of the proposed projects in this message But first, I want to indicate the measure of our responsibility to develop our recreation potential and the magnitude of the task ahead

California's relentless population explosion is a familiar story to all of us But dramatic as it is, it is dwarfed by our recreation explosion

Our population today is more than 18,500,000 In a little more than two decades it will double But in the same time, the demand for recreation in California will increase more than fourfold

The reasons· more people, with more money and more leisure time and ever-increasing mobility

Last year more than 80 million people deluged California's state beaches and parks—more than the combined population of California, New York, New Jersey, Pennsylvania, Michigan, Illinois, Ohio and Texas

The number of visitors to our state parks alone increased 10 percent to an astonishing total of 31 4 million, nearly twice our total population

Since 1940, small craft registrations have increased from 10,000 to 330,000, auto registrations are up from 2 5 million to more than 7 million Our winter sports areas are closing out the heaviest season in history.

And we are drawing increasing numbers of visitors from other states to our beaches, our deserts, our mountain lakes and our parks In the last four years the number of cars entering California with out-of-state license plates increased 40 percent

This recreation explosion brings economic benefits to our state in tourist spending and commercial investment in our recreation areas But it strains the capacity of our system of beaches and parks to the bursting point

Since 1959, California has pursued one of the most ambitious and effective recreation development plans in the nation We are proud of the fact, for example, that since that year we have built 3,200 campsites, more than the total built during the three decades prior to this administration.

Yet last year we turned away hundreds of thousands of visitors from our state parks and beaches because of overcrowding or inadequate parking facilities.

Meanwhile, the price of land in California is rising year by year. The average annual increase in land value in our state is 10 percent. But the price of lands best suited for outdoor recreation is skyrocketing. In the six years since the state acquired three much-needed park sites in Riverside, Marin and Shasta Counties, for example, the market value has more than doubled.

In recognition of these trends—of people and of prices—Californians responded overwhelming in favor of last year's bond act.

It is now my duty to propose those projects deemed to be most urgent and necessary.

All have been approved by the Park Commission, as the bond act requires.

The priorities encompass a number of criteria. One is the urgent need to acquire key public recreation lands before they are priced beyond reach or lost to other uses. The other is our responsibility to purchase the greatest possible public benefit with every dollar provided by the bond act.

They also include such factors as project location in relation to user demand, the size of the project; estimates of direct and indirect capital costs, estimates of anticipated operating costs and compliance with the concept of orderly statewide development.

Of the total $68.3 million for state land acquisition, $34.5 million—or more than half—is proposed for southern California counties. Some $31.9 million of this amount is proposed for the state's most populous county, Los Angeles and the nearby western end of the Santa Monica Mountains.

Thus, the priorities have a meaningful correlation both to need and population distribution.

My proposals for state acquisition:

1. Point Mugu Project. This project calls for creation of a beautiful new 7,350-acre state park in the Santa Monica Mountains and along the coastline close to the Los Angeles County metropolitan basin. Situated near the Los Angeles-Ventura County line, this area combines an excellent ocean beach with sycamore and oak-filled canyons and superbly scenic uplands for camping, picnicking, hiking and riding.

Plans call for 2,330 camping units, 800 picnic units, and beach parking for 3,000 cars within the project. It is estimated this new state park will annually serve more than 6 million visitor days. This represents California's last chance to preserve a major natural area of state park quality near the densely populated Los Angeles area.

2. Rustic-Sullivan Canyons Project. I propose that the state acquire at least 2,000 acres in these areas to be developed as part of a major public recreation area in the Santa Monica Mountains above west Los Angeles.

The canyons lend themselves to development for picnicking, riding and hiking with a concentrated trailer camp development near their base.

The project area, adjacent to and extending north from Will Rogers State Park, lies near the heart of a potentially magnificent and much larger mountain park and open space area of several thousand acres.

The concept of a major development of this size in the Santa Monica Mountains is bold and imaginative, and I endorse it without reservation. But it is beyond the resources of any single government entity.

The cost of acquiring 16,000 acres, for example, is estimated at $93 million, or more than the entire amount for acquisition in the bond act.

I therefore propose to coordinate development of the Rustic-Sullivan Canyons project under a tri-part plan involving the state and the City and County of Los Angeles.

I propose that state development be tied directly to Los Angeles city and county plans for contiguous or nearby projects. These include county plans for a 1,700-acre regional park on a reclamation site in the upper portions of the canyon near Mulholland Drive, for a 342-acre regional park on reclamation lands near the intersection of the San Diego Freeway and Mulholland Drive, and a 660-acre expansion of Sylvia Park east of Topanga Canyon Boulevard. Several thousand acres of open space land would be made available to the city by large landowners in the area.

They also include City of Los Angeles proposals for extensive open space along Mulholland Drive, with a major scenic drive extending from the San Diego Freeway west along the Santa Monica Mountains' crest. State acquisition would proceed once agreement has been reached on all elements of the joint plan.

In addition, the city has applied for local grants under the bond act program to expand three other recreation facilities in the area—Crestwood Regional Park, Potrero-Palisades Regional Park and Will Rogers State Beach Park.

3. Sugar Pine Point Project. I propose acquisition of 2,260 acres to create a new state park on the west shore of incomparable Lake Tahoe. The new park will have 9,200 feet of lake front at the northern edge of Meeks Bay. It will have the potential for 1,200 family camping units, 10 group camps, 500 picnic units and additional parking for 300 cars near the beach.

This may be our last opportunity to acquire a park site of such high quality at Lake Tahoe, where two existing state parks now too often hang out the "Sorry, Full" sign, turning away thousands of would-be campers each summer.

4. Delta Meadows Project. This will be a new state park, just off the Sacramento River, 28 miles below Sacramento It will provide a major boating area on its 14 miles of waterways, and will preserve for the public the last significant remnant of natural delta area in the Sacramento-San Joaquin Delta region On its 1,265 acres of land, the park will have the potential for 245 camping units, 210 picnic units, and the capacity to serve 327,000 people annually

5. Camp Pendleton-San Onofre Beach Project, in northern San Diego County, will provide a new mile-long public beach and 182 acres of upland camping area under a 50-year, renewable lease from the Marine Corps In addition to outstanding year-round swimming and surfing, the project will offer the potential for 400 camping units, 100 picnic units, and an annual attendance of nearly a million Californians

6. Huntington State Beach Expansion Project. This project, in Orange County, some 30 miles from Los Angeles, involves state acquisition of 34 acres of land vital for parking facilities that will enable full use of the beach

7. Lower Feather River Project near Nicolaus, midway between Sacramento and Marysville, is to be a new 5,830-acre state park with 14 miles of river and the potential for 1,140 camping units, 640 picnic units, and an annual capacity of 1,900,000

The area offers excellent fishing and boating, miles of swimming beaches, and river-bottom woods for camping The bulk of the area is in private lands to be acquired in fee, with a lease-back of some agricultural lands not immediately needed for recreational use

This project is planned as the first of a series of major parks along our highly scenic California Valley rivers

8. Mt. Tamalpais State Park Expansion Project. This will be a major step forward on the long-range plan for a single state park in Marin County extending from the Golden Gate to Point Reyes National Seashore This project involves state acquisition of 3,212 acres of private land, including 4½ miles of ocean front, with the potential of 660 new camping units and 400 new picnic units

The project is considered the best opportunity of providing high-quality outdoor recreation to meet the population pressures generated in the San Francisco Bay metropolitan area

9. Marin Headlands State Park Expansion Project is also a part of the plan to create a continuous state park from the Golden Gate to Point Reyes National Seashore

Expansion of this and the Mt Tamalpais project would join the two parks and encompass thousands of acres of virgin mountains, rolling hills, forested canyons, clear streams and lakes and unspoiled beaches only minutes from downtown San Francisco

The Marin Headlands extension involves purchase of 320 acres of federal surplus property and the proposed lease of 2,964 acres of additional federal property

The project would include 5,000 feet of ocean front and the potential for 990 picnic units, 202 camping units and an annual capacity of 1,236,000 visitors

10. Pfeiffer-Big Sur State Park Expansion Project, in a highly scenic area of the ruggedly beautiful Monterey County coast, involves state acquisition of 2,140 acres of private land with three miles of ocean front. To this beautiful state park, now heavily used by persons from throughout California, this acquisition would make possible the addition of 405 new camping units, 240 new picnic units, and the capacity to handle 1,180,000 additional visitors annually

11. Old Sacramento Historic Project involves acquisition in fee, as a new state historic park, of nine acres with 700 feet of frontage on the Sacramento River.

The extent of the project was determined by the location of buildings and sites within the area that are of statewide historical significance. This new state park will be within the Old Sacramento National Historic Landmark area to be reconstructed by the Sacramento Redevelopment Agency as a waterfront community reflecting the spirit of the early gold mining period It is anticipated that when fully developed, some 2,400,000 persons will visit the area annually.

12. Malibu Lagoon State Beach Expansion Project, on the coast of Los Angeles County, involves state acquisition in fee of 11 6 acres of land with 1,090 feet of ocean front This project represents one of the last opportunities to meet public beach needs in southern California It will connect two presently separated portions of state beach and enable the development of 20 additional picnic units, ample parking space and other facilities.

Development will be by the County of Los Angeles It is estimated that 396,000 visitors a year will use the project when fully developed

13. Fort Funston Project, on the ocean front of southwest San Francisco, would be purchased from the City and County of San Francisco for development as a beach unit of the state park system.

Limited to land now owned by the city and county, the project involves 116 acres with 3,950 feet of beach front It is estimated the project will serve 396,000 persons annually, relieving the pressure on the area's heavily crowded public beaches.

14. North Coast Redwoods Project. This project will add $10 million worth of redwood land to five existing state redwood parks on the north coast at a cost of only $5 million to the state

The Save-the-Redwoods League, which since its inception in 1918 has generously contributed $10 million for the purchase of state redwood park lands, has pledged an additional $5 million, on a matching basis, for these additions

The funds would be applied to the purchase of 11,356 acres of prime redwood land as follows

● 735 acres of primeval redwood flats along three miles of the Smith River at 9,539-acre Jedediah Smith Redwoods State Park in Del Norte County

● 1,446 acres at 5,932-acre Del Norte Coast Redwoods State Park—1,000 acres at the northwest end, with four miles of ocean front and two miles of excellent sand beach, and 446 acres of privately owned redwood land in the center of the park

● 3,030 acres at Prairie Creek Redwood State Park in Humboldt County This includes 2,100 acres and more than four miles of ocean front in the Gold Bluffs and Fern Canyon areas, 160 acres of private holdings in the park interior; and 770 acres at the south end of the park, including some primeval and cutover lands suitable for extensive campground development

● 235 acres along the Van Duzen River to more than double the size of 149-acre Grizzly Creek Redwood State Park in Humboldt County

● 5,980 acres at 38,246-acre Humboldt Redwoods State Park Included are 1,480 acres to extend the Avenue of the Giants some seven miles through primeval redwood and permit extensive development for camping and access to the Eel River, 2,500 acres to bring the entire Bull Creek watershed under park ownership and provide extensive development for camping, picnicking and swimming, and 2,000 acres of private holdings in the interior of the park

15. Santa Monica State Beach Project. This project will expand the existing Santa Monica State Beach parking area by 3 5 acres to accommodate 560 additional cars and provide additional sanitary facilities

This section of beach is listed as first priority in the Los Angeles County Master Plan of Shoreline Development and has long been in the acquisition plans of the State Department of Beaches and Parks

State beaches in this area last year served an estimated 45 million visitors But thousands were turned away because of inadequate parking facilities The section of beach included in this project is considered one of the most critical recreation needs of the metropolitan Los Angeles area

16. In addition, the Park Commission has approved and recommended to the Resources Administrator acquisition of some 1,000 acres of land for the Coyote River Valley Parkway project in Santa Clara County This land would enable completion of a 17-mile chain of park facilities extending along the Coyote River from Kelly regional park in San Jose to Anderson Reservoir

The state would allocate $4 5 million when matched by Santa Clara County and the City of San Jose to provide a total of $9 million for the project

Details on this project will be furnished when staff studies are completed

I am able to submit these proposals at this early date because, anticipating passage of the bond act, we began work on project studies as early as July of last year

I turn now to the local grants provisions of the bond act

The Department of Parks and Recreation has received 11 applications for portions of the $40 million made available by this section of the act They include seven from the City of Los Angeles, one from the City of Long Beach, and three from Santa Clara County These are now being studied and processed and will be submitted to the Legislature for inclusion in the budget as they are approved Many others are expected in the months ahead

The major push in the local grant program is expected in its second and third year as local communities complete and adopt the recreation planning requirements of the bond act

These provisions, requiring adoption of master or general plans to qualify for recreation grants, will greatly accelerate the local planning process and make possible better coordinated recreation development throughout California

Finally, I ask your approval of my proposals under the wildlife conservation provisions of the bond act Of the $5 million allocated for these projects, an estimated $2 5 million will be required for the seven top priority projects I submit to you now.

Included are a new trout hatchery in the Sacramento Valley; reconstruction and enlargement of an existing trout hatchery in Ventura County, expansion of an existing trout hatchery in the San Joaquin Valley; expansion of two major waterfowl management areas in the San Joaquin Valley; enlargement of a winter deer range in Tehama County; expansion of a wildlife area in the Sierra foothills of Yuba County; and the construction of artificial ocean-fishing reefs around seven public piers on the southern California coast

There is good reason for this program's first-year emphasis on trout production California has nearly 18,000 miles of trout streams, 4,000 trout lakes or reservoirs, and new reservoirs that will require stocking with trout are continually being planned and constructed. The trout now lures hundreds of thousands of Californians annually. The number of trout fishermen is expected to nearly double by 1980. The hatchery projects I am submitting to you now will enable a 34 percent increase in trout production at an increase of only 6½ percent in operating costs

In the order of their priority rating, these are my recommendations

1. **American River Hatchery project,** a new and modern trout hatchery to be located at Nimbus Dam, near Folsom, in Sacramento County. This is the closest feasible location for a major production hatchery that will serve the central Sierra and central Coast Range The project requires either long-term lease or acquisition of the site from the U S Bureau of Reclamation. This hatchery is planned to produce six million fingerling rainbow trout annually for new and existing reservoirs, and one million catchable-size trout to maintain fishing quality in the streams and other trout waters of this region

2. **Fillmore Hatchery project,** near Fillmore in Ventura County, a project to double present trout production at this installation which helps meet the heavy and growing recreational demands in southern California Annual production is planned at 200,000 pounds, or one million trout of catchable size, at a 41 percent increase over present operating costs The project would acquire in fee the hatchery site now under lease.

3. **San Joaquin Hatchery project,** near Fresno, to add eight brookstock ponds and facilities to produce 10 million trout eggs annually at an existing hatchery When completed this project will play a key role in an integrated, statewide system to produce the trout needed to meet the demands of a growing population From this central hatchery, eggs will be provided for rearing at other hatcheries throughout the state No land acquisition is involved in this project

4. **Los Banos and Mendota Waterfowl Areas project,** in the grasslands area of northern San Joaquin Valley, involves the acquisition in fee, on a willing sale basis, of 675 acres of existing or potential marshland for enlarging present state waterfowl management areas This project's primary purpose is the preservation and development of waterfowl habitat important to this valuable resource and its high recreational use User demands for these two areas are statewide, but are greatest from population centers in the San Joaquin Valley and San Francisco Bay area

5. **Tehama Winter Deer Range project,** approximately 15 miles east of Red Bluff in Tehama County, is primarily for the preservation of deer and upland game habitat that has a high recreational use demand and potential The project would enlarge an existing state wildlife area by acquiring in fee approximately 3240 acres of land User demands arise from throughout northern California, including Sacramento Valley and the San Francisco Bay area

6. **Spenceville Wildlife Area project,** in the Sierra foothills 10 miles east of Marysville, Yuba County, will involve acquisition in fee of 584 acres of surplus federal lands of high recreational values based on upland game and stream fishing for trout This project will in effect be an expansion of a present 10,527-acre wildlife management area on what was formerly Beale Air Force Base lands User demands for the project area arise from throughout the Sacramento and San Joaquin Valleys and the San Francisco Bay area

7. **Artificial Reefs project** calls for use of approximately 25,000 tons of quarry rock to construct fish-attracting reefs in conjunction with seven important public fishing piers at Venice, Manhattan Beach, Hermosa Beach, Seal Beach, Huntington Beach, San Clemente, and Oceanside These reefs will both increase and concentrate natural production of game fishes in the vicinity of the piers, providing additional recreation near the dense population centers of southern California

The broad benefits of the first-year Wildlife Conservation Board program under the bond act will be expanded by projects now in planning or pilot operation to determine their feasibility for submission in 1966 Without question, the bond act program is providing the sportsmen of California one of the greatest boosts in outdoor recreational opportunities in the history of the state

This session of the Legislature, by approving the Flood Relief Act of 1965, has provided a magnificent example of friendship, cooperation and compassion uniting the northern and southern sections of our great state

In voting their overwhelming approval, members of both houses of the Legislature, from northern and southern districts alike, rejected purely sectional interests They acted in the best interests of all Californians.

In so doing, they recognized the fact that a disaster loss anywhere in the state is ultimately felt everywhere in the state.

I ask now that we recognize the fact that when we preserve and develop our natural heritage anywhere in California, we do so for all Californians

Modern technology and modern mobility have reduced the distances of this vast state to fractions of what they were in an earlier day. All Californians today can enjoy the magnificent beaches of southern California or the splendors of the northern Sierra.

I ask that we do not now jeopardize our bond act program by regional bickering or sectional selfishness Time is too short The needs are too urgent

Wallace Stegner, of Stanford University, historian, author and educator, eloquently expressed the urgency of our task when he said

"Something will have gone out of us as a people if we ever let the remaining wilderness be destroyed, if we permit the last virgin forest to be turned into comic books and plastic cigarette cases; if we drive the few remaining members of the wild species into zoos or to extinction; if we pollute the last clear air and dirty the last clean streams and push our paved roads through the last of the silence, so that never again will Americans be free in their own country from the noise, the exhausts, the stinks of human and automotive wastes, and so that never again can we have the chance to see ourselves single, separate, vertical and individual in the world, part of the environment of trees and rocks and soil, brother to the other animals, part of the natural world and competent to belong in it"

Respectfully submitted,

EDMUND G. BROWN, Governor

April 19, 1965
