Application for apportionment

8740 1. If any lot or parcel of land upon which there is an unpaid assessment represented by bonds issued under this division is subdivided, or the ownership of a portion of such lot or parcel of land is transferred to another person, the owner of any interest in any of the lots or parcels into which the original lot or parcel has been divided shall file an application in writing with the street superintendent. The application shall indicate how the original lot or parcel has been divided or transferred, request the street superintendent to

Apportionment

Recordation, etc.

8740.3. When the apportionment has been made an application signed by all persons owning an interest in the original lot or parcel of land may be filed with the street superintendent requesting that the assessment as apportioned be recorded.

The street superintendent shall send to the original purchaser of any bonds which may be outstanding a notice by certified or registered mail that an apportionment of an assessment has been made and the numbers and amounts thereof and stating that, unless a request for a hearing is received within 14 days from the date of mailing of the notice, such apportioned assessments shall be recorded. In the event that a request for hearing shall be received, a report shall be filed and hearing shall be fixed, noticed and held, all in accordance with Part 10 (commencing at Section 8730) of this division.

Amendment of recorded diagram and assessment

8740.4. When the street superintendent has ascertained that the application is signed by all the necessary persons, and that no request for a hearing has been received, he shall thereupon amend the recorded diagram and assessment to conform to such division and apportionment and assign new assessment numbers to each separate part of the original lot or parcel of land.

Filing

8740.5. The street superintendent shall file the amended assessment with the auditor, who shall annually thereafter enter upon the assessment roll the installments becoming due on each component part of the original parcel opposite a description of the respective parcels so assessed.

When a city is conducting the proceedings and collections upon the assessments are made by county officials, the street superintendent shall transmit a copy of the amended assessment to the county auditor.

1. A general description of the work proposed to be done, together with general plans, profiles, cross sections, and general specifications relating thereto, on each project or work of improvement.

2. A general description of the lands, rights-of-way, easements and property proposed to be taken, acquired or injured in carrying out said work.

3. 4. An estimate of the cost of each project or work of improvement, including an estimate of the cost of lands, rights-of-way, easements and property proposed to be taken, acquired or injured in carrying out said project or work of improvement, and also of all incidental expenses incurred or likely to be incurred in connection therewith, including legal,

clerical, engineering, superintendence, inspection, printing and advertising, and stating the total amount of bonds, if any, necessary to be issued to pay for the same.

Such engineer or engineers shall from time to time and as directed by the board file with the board supplementary, amendatory and additional reports and recommendations, as necessity and convenience may require.

SEC. 5. Section 12 of said act is amended to read:

Sec. 12. The board may institute proceedings for the formation of single zones and also institute projects for single zones and joint projects for two or more zones that may involve the financing, constructing, maintaining, operating, extending, repairing or otherwise improving any work or improvement of common benefit to such zone or participating zones. The board may also institute separate projects for operation and maintenance of works or improvements for any such zones whether such works or improvements have been constructed by the board or by the State of California or the Federal Government or by any agency or authority or either, or both of them. Any such zone shall include, as far as practicable, all lands which will be benefited by any project proposed for such zone. Proceedings for the formation of any zone and for the establishment of any project for such zone may be conducted jointly. For the purpose of establishing any such zone or participating zones or of acquiring authority to proceed with any such project, the board shall adopt a resolution specifying its intention to establish such zone or zones or to undertake such project, or both thereof, together with the engineering and other estimates of the cost of same to be borne by the particular zone and in the case of participating zones the proportionate cost to be borne by each of the participating zones and fixing a time and place for public hearing of said resolution; and said resolution shall refer to a map or maps showing the boundaries of each such zone and the general location and general construction of said project. Said resolution shall also describe the boundaries of any zone proposed to be established; otherwise adequate reference to any established zone involving such project shall be sufficient. Notice of such hearing shall be given by publication pursuant to Section 6066 of the Government Code in a newspaper of general circulation, circulated in such zone or each of said participating zones, if there be such newspaper, and if there be no such newspaper then by posting notice for two consecutive weeks prior to said hearing in five public places designated by the board, in such zone or in each of said participating zones. Publication shall be completed at least seven days before the date of the hearing. Said notice shall contain a copy of said resolution. Said notice must designate a public place in such zone or in each of said participating zones where a copy or copies of the map or maps of each proposed single zone and any project for a single zone or the joint project for participating zones may be seen by any interested person, and said map

must be posted in each of said public places so designated in said notice at least two weeks prior to said hearing.

At the time and place fixed for the hearing, or at any time to which said hearing may be continued, the board shall consider all written and oral objections to the proposed zone or project.

If it is shown that any land is improperly included in the boundaries proposed for the zone the board, in its order for formation of the zone, shall exclude such land therefrom. If the board shall conclude that lands that will be benefited by the zone are improperly omitted from the proposed zone and the owners thereof have not appeared at the hearing the board shall continue the hearing and direct that notice be given to the nonappearing landowners to appear before the board and show cause why their lands should not be included in the proposed zone. Such notice shall be given either by publication or posting in the same manner and for the same period as the original notice of hearing or by personal service on each such landowner. Any personal service shall be made at least three days prior to the date fixed for further hearing. Proof of the notice given must be filed with the clerk of the board on or before the day to which the hearing is continued.

The board may continue the hearing from time to time, by order entered upon its minutes, to the end that a full hearing may be had.

If an order for formation of the zone is made at the conclusion of the hearing such order shall describe the exterior boundaries of the zone as determined by the board, shall be be signed by the chairman of the board and attested by the clerk thereof and be recorded by the county recorder in his official records.

Upon the conclusion of the hearing the board may abandon the proposed zone or project or proceed with the same, unless prior to the conclusion of said hearing a written protest against the proposed zone or project signed by a majority in number of the holders of title to real property, or assessable rights therein, or evidence of title thereto, representing one-half or more of the assessed valuation of the real property within such zone or within any of the participating zones, be filed with the board, in which event further proceedings relating to such zone or project must be suspended for not less than six months following the date of the conclusion of said hearing, or said proceeding may be abandoned in the discretion of the board.

In all matters in this section referred to, the last equalized assessment roll of the County of Lake next preceding the filing of the protest shall be prima facie evidence as to the ownership of real property, the names and numbers of the persons who are the holders of title or evidence of title, or assessable rights therein, and as to the assessed valuation of real property within the zone or within any of the participating zones for which the project was initiated.

Executors, administrators, special administrators, and guardians may sign the protest provided for in this act on behalf of the estate represented by them. If the property is assessed in the name of such representatives, that fact shall establish the right of such representatives to sign the protest; if assessed in the name of the decedent, minor or incompetent person, certified copies of the letters or such other evidence as may be satisfactory to the board must be produced.

Where real property appears to be owned in common or jointly or by a partnership, or where letters of representatives of decedents, minors or guardians are joint, only one of the owners or representatives or partners may sign the protest for all joint owners or representatives or partners; provided, that the party claiming the right to protest for all produces the written consent of his co-owners or representatives or partners so to do, duly acknowledged by the consenting co-owners or representatives or partners in the manner that deeds of real property are required to be acknowledged to entitle such deeds to be recorded in the recorder's office of the county. Any joint owner or partner or tenant in common may sign and thus be counted independently for his proportionate share of the assessed valuation of any such real property as shall be determined by division of such valuation by the number of jointly interested owners thereof.

Where real property is assessed in the name of a trustee or trustees, such trustee or trustees shall be deemed to be the person entitled to sign the protest, and if assessed in the name of more than one trustee the right to sign the protest shall be determined in like manner as above provided with respect to co-owners.

The protest of any public or quasi-public corporation, private corporation or unincorporated association, may be signed by any person authorized by the board of directors or trustees or other managing body thereof, which authorization shall be in writing; and a proxy executed by an officer or officers thereof, attested by its seal and duly acknowledged, shall constitute sufficient evidence of such authority, and shall be filed with the board.

The owner of any real property or interest therein, appearing upon the assessment roll, which has been assessed in the wrong name or to unknown owners, or which has passed from the owner appearing as such on the last equalized assessment roll, since the same was made, shall be entitled to sign the protest represented thereby, either by the production of a proxy from such former owner, or by furnishing evidence of his ownership by a conveyance duly acknowledged showing the title to be vested in the person claiming the right to sign the protest, accompanied by a certificate of a competent searcher of titles, certifying that a search of the official records of the county, since the date of the conveyance, discloses no conveyance or transfer out from the grantee or transferee named in the conveyance.

Where the real property has been contracted to be sold, the vendee shall be entitled to sign the protest, unless such real property is assessed in the name of the vendor, in which event the vendor shall be entitled to so do.

The board shall likewise be entitled to inquire and take evidence for the purpose of identifying any person claiming the right to sign the protest as being the person shown on the assessment roll or otherwise as entitled thereto. And, unless satisfactory evidence is furnished, the right to sign said protest may be denied.

In its resolution of intention on the institution of any project for operation and maintenance of works or improvements for any zone and in the order of adoption of such project the board shall fix a total sum that it will raise annually thereafter by assessments under Section 13.1 to pay the expenses of such operation and maintenance and the County of Lake shall pay any expenses incurred for such purposes which are in excess of said sum; and where any zone has already been formed prior to this enactment, the board, after notice of hearing therefor in the manner provided in this section, may likewise fix a total sum that it will raise annually for the same purposes for such zone, and thereafter in respect of such zone, the County of Lake shall pay any expenses incurred for such purposes which are in excess of said sum.

After any zone has been established the board may include additional lands therein or exclude lands therefrom through and by the procedures which are prescribed in Sections 53620 to 53678, inclusive, of the Water Code, insofar as they are consistent with this act, and said sections are hereby incorporated in and made a part of this act and shall be applicable and be adjusted and applied under this act to the full possible extent thereof as though expressly enacted, originally, as part of this act.

SEC. 6. Section 13 of said act is amended to read:

Sec. 13. The board shall have power, in any year:

1. To levy ad valorem taxes or assessments upon all real property in the district to pay the general administrative costs and expenses of the district, and to carry out any of the objects or purposes of this act of common benefit to the district; provided, however, that said ad valorem tax or assessments shall not exceed ten cents ($0.10) on each one hundred dollars ($100) of assessed valuation; and

2. To levy ad valorem taxes or assessments upon all real property in each or any of said zones and participating zones to pay the cost and expenses of carrying out, constructing, maintaining, operating, extending, repairing or otherwise improving any or all works or improvements established or to be established within or on behalf of said respective zones, according to the benefits derived or to be derived by said respective zones. It is declared that for the purposes of any tax or assessment levied under this subdivision, all property within a given zone is equally benefited.

3. To levy assessments upon all real property in each or any of said zones, according to the special benefits derived or to be derived by such properties, to pay the cost and expenses of carrying out any of the objects or purposes of this act of special benefit to such properties, including the constructing, maintaining, operating, extending, repairing or otherwise improving any or all works of improvement established or to be established within or on behalf of said respective zone or zones.

In the event of project co-operation with any of the governmental bodies as authorized in subdivision 6 of Section 5 of this act, and requiring the making of a contract with any such governmental body for the purposes set forth in said subdivision 6 by the terms of which work other than operation and maintenance is to be performed by any such governmental body in any specified zone or participating zones, for the particular benefit thereof, and by said proposed contract the district is to pay to such governmental body, a sum of money in consideration or subvention for the performance of said work by such governmental body, the board may, after proceedings in the manner prescribed in Section 12 of this act, levy and collect either an ad valorem tax or assessment or a special benefit assessment upon the real property in such zone, or participating zones, whereby to raise funds to enable the district to make such payment, in addition to other taxes or assessments herein otherwise provided for.

Said ad valorem taxes or assessments shall be levied and collected together with, and not separately from, taxes for county purposes, and the revenues derived from said ad valorem taxes or assessments shall be paid into the county treasury to the credit of said district, or the proper zone or zones thereof.

Said special benefit assessments may be levied and collected as provided in Sections 51230 to 51260, inclusive, 51500 to 51522, inclusive, 51600 to 51654, inclusive, and 51660 to 51894, inclusive, of the Water Code; and said sections of the Water Code, insofar as they are consistent with this act, are hereby incorporated in and made a part of this act and in the proper case shall be applicable and be adjusted and applied under this act to the full possible extent thereof as though expressly enacted, originally, as part of this act.

The board shall have the power to control and order the expenditure for said purposes of all funds so raised; provided, however, that no revenues, or portions thereof, derived in any zone from the taxes or assessments levied under the provisions of subdivision 2 or 3 of this section shall be expended for constructing, maintaining, operating, extending, repairing, or otherwise improving any works or improvements located in any other zone , except in the case of joint projects, or for projects authorized or established outside such zone, or zones, but for the benefit thereof. In cases of projects joint to two or more zones, such zones will become, and shall be referred to as,

participating zones. The total amount that may be taxed or assessed against any zone annually for operation and maintenance expenses shall not exceed the amount established in the order prescribed in Section 12 hereof and any expenses in excess of such limitation shall be borne by the County of Lake; but this provision shall not prevent the County of Lake from agreeing to carry a larger share of such expenses.

SEC. 7. Section 13 1 is added to said act, to read:

Sec. 13.1. Where, pursuant to Section 12, a zone has been established and the project adopted therefor is that of operation and maintenance of works or improvements for such zone which have been constructed by the State of California or the Federal Government or any agency or authority of either or both of them other than the board and the board has been requested in writing to provide such operation and maintenance of such works or improvements by said zone, funds for such purpose shall be raised by assessment in the manner, and only in the manner, herein provided, namely:

(1) The board shall appoint three valuation assessment commissioners who have no interest in any real property within the zone and each of whom, before entering upon his duties, shall make and subscribe an oath that he is not in any manner interested in any real property within the zone, directly or indirectly, and that he will perform the duties of a commissioner to the best of his ability. At least one of the commissioners shall be a civil engineer who has had experience in the establishment of valuation assessments in reclamation districts.

(2) The commissioners shall view and fix upon the real property in the zone an assessment valuation at a per acre rate for each parcel which is in proportion to the benefits to be derived from the continuance in operation and maintenance of such works or improvements.

(3) The commissioners shall prepare an operation and maintenance assessment roll in duplicate containing the following information in separate columns:

(a) A description of each parcel assessed by legal subdivisions, swampland surveys, or other boundaries sufficient to identify the same.

(b) The number of acres, or part of an acre, in each parcel.

(c) The names of the owners of each parcel, if known, and if unknown, that fact.

(d) The assessment valuation per acre rate of each parcel assessed.

(e) The total assessment valuation of each parcel.

(f) A blank column for rate to be fixed as shown hereinafter.

(g) A blank column for amount of assessment to be computed as shown hereinafter.

The board, by resolution, may direct the assessment commissioners, in the preparation of the valuation assessment roll, to divide the zone into numbered subzones which shall be described in such resolution. In such case the assessment valua-

tions on the lands in each subzone shall be separately grouped on such assessment roll under the proper number for each such zone. Before assessment valuations are placed by the assessment commissioner on any real property within any subzone they shall first ascertain and fix the comparative shares of any operation and maintenance assessment on the entire zone which shall be borne by each subzone and only thereafter shall establish the assessment valuations upon the real property in each zone.

(4) No error in the name of the owner or supposed owner of any parcel assessed, and no error in any other particular, shall render the assessment thereof invalid.

(5) Such assessment valuations shall be used as a basis for levying assessments against the parcels described in such assessment roll for the purpose of raising such funds, including expenses of levying, calling and collecting such assessments.

(6) The assessment roll shall be filed with the clerk of the board. Thereupon the board shall appoint a time when it will meet for the purpose of hearing objections thereto.

(7) No objection to any assessment valuations on such roll shall be considered by the board, or allowed in any other action or proceeding, unless the objection is made in writing to the board either before or on the hearing.

(8) Notice of the hearing shall be given by publication once a week for two successive weeks in some newspaper of general circulation published in the principal county and having circulation within such zone.

(9) At the hearing, the board shall hear any evidence offered in support of the written objections and may modify or amend the assessment valuations.

(10) The board shall then make an order approving the assessment valuation or any modification thereof and shall endorse the order on the assessment roll. The endorsement shall be signed by the chairman of the board and attested by the clerk thereof.

(11) The decision of the board in approving the assessment roll is final, and thereafter the endorsed assessment roll is conclusive evidence that the assessment valuations were determined and fixed according to law, except in an action commenced pursuant to subdivision (12) of this section.

(12) Within 30 days after an operation and maintenance assessment roll is approved by the board any person aggrieved by the decision may commence an action in the superior court of the principal county to have the assessment valuations corrected, modified or annulled.

(13) If the action is not commenced within 30 days after approval of the operation and maintenance assessment roll, no action or defense shall thereafter be maintained attacking the legality of the assessment valuations therein.

(14) When the board determines that it is necessary to raise any sum for a purpose specified in subdivision (5) of this section it shall, by order entered in its minutes, state the

total amount necessary to be raised and fix a rate designating the number of cents to be levied on each one hundred dollars ($100) of assessment valuation shown on the operation and maintenance assessment roll.

(15) In lieu of completing the operation and maintenance assessment roll, the board may, following each levy of assessment, cause a supplement to be prepared and filed with the county treasurer setting forth the rate and total assessment as determined by the board, and when so filed it shall be deemed a part of the original operation and maintenance assessment roll to the same extent and purpose as if said rate and total assessment had actually been inserted in said original operation and maintenance assessment roll.

(16) The board, by order entered upon its minutes and endorsed on or made a part of the operation and maintenance assessment roll or supplement, may direct that the payment of the assessment be made in one installment or in more than one annual or semiannual installment over a period not to exceed five years.

(17) If the board orders payment of the total assessment inserted in column (g) in installments over a period of years, the due date and the amount of each installment shall be endorsed by, or under the direction of, the board, on the operation and maintenance assessment roll or supplement.

(18) When the operation and maintenance assessment roll or supplement has been completed by inserting the rate and assessment in columns (f) and (g), and an order has been entered providing for the payment of all or any part thereof, it shall be filed forthwith in the office of the county treasurer.

(19) An assessment levy is a lien upon the parcels against which it is levied from the date the completed operation and maintenance assessment roll or supplement is filed in the office of the county treasurer until paid, and bears interest until paid from a date 60 days from the date of such filing.

(20) The rate of interest on unpaid operation and maintenance assessments is 7 percent per year unless the board, by resolution, adopts a lesser rate and files a certified copy of the resolution with the county treasurer for insertion in the operation and maintenance assessment roll.

(21) Additional operation and maintenance assessment levies may be made by the board, as required, so long as the operation and maintenance assessment roll remains in effect.

(22) The operation and maintenance assessment roll shall be returned to and held by the board except during such periods as it is filed in the office of the county treasurer during the period of assessment or installment collections or while any warrants of the district payable from such assessment levy are outstanding and unpaid. Such operation and maintenance assessment roll shall be the original roll, or a copy thereof, certified by the secretary of the board as correctly setting forth the subject matter of the original roll, together with all

reapportioned assessment valuations of all subdivisions of any original assessment parcel.

(23) The operation and maintenance assessment roll shall be used for the purposes specified in subdivision (5) of this section until the board, on its own motion or on petition by landowners representing at least 15 percent of the zone lands, makes an order directing the valuation assessment commissioners who made the original operation and maintenance assessment roll or new valuation assessment commissioners, to be named in the order, to prepare a new operation and maintenance assessment roll.

(24) Valuation assessment commissioners appointed to prepare a new operation and maintenance assessment roll shall have the same qualifications and take the same oath as the original assessment commissioners.

(25) The new operation and maintenance assessment roll when prepared by the valuation assessment commissioners shall be filed with the clerk of the board and shall be subject to the same provisions as an original operation and maintenance assessment roll.

(26) No bonds shall be issued for funds for the payment of the principal or interest of any bonded indebtedness of the zone raised on the basis of operation and maintenance assessments.

(27) When the board has ordered an operation and maintenance assessment levy and has fixed the installments, the secretary shall enter in the minutes of the board a notice in substantially the following form:

(Name of zone, location of principal place of business.)

Notice is hereby given that at a meeting of the Board of the Lake County Flood Control and Water Conservation District held on the (date) an installment of (amount) was ordered paid within 60 days from (date assessment levy will be filed in the office of county treasurer) to _____, at _____. Any installment which shall remain unpaid on the (day fixed) will be delinquent, together with accrued interest (if any be due) and 10 percent will be added thereto and collected for the use of the zone.

(28) The notice shall be personally served upon each owner of land in the zone, or in lieu of personal service, shall be mailed to the owner at his place of residence, if known or entered upon the assessment roll of the county, and if not known, at the place where the principal office of the zone is situated, or be published once a week for two weeks successively in some newspaper having circulation within the zone and, if no such newspaper has circulation within the zone, then published in a newspaper of general circulation which is published in the county seat of the county.

(29) The county treasurer shall, immediately following the expiration of the period of 60 days from the date of the order, report all payments of assessments on each parcel and shall

also report all parcels which are delinquent, and the amount of delinquencies thereon.

(30) All money collected on such assessment, including interest and penalties derived by sale or otherwise, from original and additional assessments shall be placed by the county treasurer to the credit of the zone in a special fund designated "maintenance fund" of the zone.

(31) When the operation and maintenance assessment levy is to be paid in more than one installment the secretary shall give notice for 60 days immediately preceding the due date of each installment in substantially the form prescribed in subdivision (27) of this section.

(32) The maintenance fund shall be disbursed only upon warrants of the board drawn in payment of the cost or expense of maintenance and operation of the works or improvements of the zone and of levying, calling and collecting assessments.

(33) In other matters appertaining to the levy, call and enforcement of such assessments and the dispositions of funds collected thereby and of any real property acquired thereunder the following sections of the Water Code, namely Sections 51600 to 51618, inclusive, Sections 51660 to 51757, inclusive, and Sections 51890 to 51894, inclusive, are, insofar as they are consistent with this act, hereby incorporated herein and made a part of this act and shall be applicable and be adjusted and applied under this act to the full, possible extent thereof as though expressly enacted, originally, as part of this act.

(34) In any assessment under this section the board, to provide a reserve fund for use in emergencies, may include not more than an additional 10 percent of the amount which the board shall establish under subparagraph (14) of this section.

(35) The total amount of all assessments levied in any year for operation and maintenance charges and a reserve fund on the basis of benefits received shall not exceed an amount equal to the sum which can be produced by a rate of one dollar and fifty cents ($1.50) per one hundred dollars ($100) on the total of the assessed valuations of the lands in the zone as such valuations appear on the last equalized county assessment roll of the County of Lake.

(36) Operation and maintenance assessments under this section of the act shall be known and designated as special benefit assessments to distinguish them from ad valorem taxes or assessments.

(37) All expenses in levying, calling and collecting assessments under this section shall be charged to the zone.

SEC. 8. Section 14 of said act is amended to read:

Sec. 14. (1) Whenever the board determines that a bonded indebtedness should be incurred to pay the cost of any work or improvement in any zone or zones, the board may by resolution, determine and declare the respective amounts of bonds necessary to be issued in each zone in order to raise the amount of money necessary for each work or improvement and the denomination and the maximum rate of interest of said bonds.

The board shall cause a copy of the resolution, duly certified by the clerk, to be filed for record in the Office of the Recorder of Lake County within five (5) days after its issuance. From and after said filing of said copy of said resolution the board shall be deemed vested with the authority to proceed with the bond election.

(2) After the filing for record of the resolution specified in subdivision (1) of this section, the board may call a special bond election in said zone or participating zones at which shall be submitted to the qualified electors of said zone or participating zones the question whether or not bonds shall be issued in the amount or amounts determined in said resolution and for the purpose or purposes therein stated. To the extent the legally available revenues are, or in the judgment of the board are likely to be, inadequate to pay the principal of and interest on any of such bonds as they become due, then said bonds and the interest thereon shall be paid from revenue derived from annual taxes or assessments levied upon the real property situated within the zone or participating zones, and all such property shall be and remain liable to be taxed or assessed for such payments as provided in this act.

(3) Said board shall call such special bond election by ordinance and not otherwise and submit to the qualified electors of said zone or participating zones, the proposition of incurring a bonded debt in said zone or participating zones in the amount and for the purposes stated in said resolution and shall recite therein the objects and purposes for which the indebtedness is proposed to be incurred; provided, that it shall be sufficient to give a brief, general description of such objects and purposes, and refer to the recorded copy of such resolution adopted by said board, and on file for particulars; and said ordinance shall also state the estimated cost of the proposed work and improvements, the amount of debt to be incurred therefor, the maximum term the bonds to be issued shall run before maturity, which term shall not exceed 40 years from the date thereof or any series thereof, and the maximum rate of interest to be paid on said indebtedness, and shall fix the date on which such special election shall be held, and the form and contents of the ballot to be used. The rate of interest to be paid on such indebtedness shall not exceed six percent (6%) per annum. For the purposes of said election, said board shall in said ordinance establish special bond election precincts within the boundaries of each zone and participating zone and may form election precincts by consolidating the precincts established for general elections in said district to a number not exceeding six general precincts for each such special bond election precinct, and shall designate a polling place and appoint one inspector, one judge and one clerk for each of such special bond election precincts.

In all particulars not recited in said ordinance, such special bond election shall be held as nearly as practicable in conformity with the general election laws of the State.

Said ordinance calling for such special bond election shall, prior to the date set for such election, be published pursuant to Section 6062 of the Government Code in a newspaper of general circulation circulated in each zone and participating zone affected. The last publication of such ordinance must be at least fourteen (14) days before said election, and if there be no such newspaper, then such ordinance shall be posted in five public places designated by the board, in each zone and participating zone for at least thirty (30) days before the date fixed for such election. No other notice of such election need be given nor need polling place cards be issued.

Any defect or irregularity in the proceedings prior to the calling of such special bond election shall not affect the validity of the bonds authorized by said election. Where a project affects a single zone only, if at such election two-thirds ($\frac{2}{3}$) of the votes cast in said zone on the proposition of incurring a bonded indebtedness are in favor thereof, then bonds for such zone for the amount stated in such proceedings shall be issued and sold as in this act provided. Where the incurring of bonded indebtedness by participating zones is to be determined at such election, no bonds for any of such participating zones shall be issued or sold unless two-thirds ($\frac{2}{3}$) of the votes cast on the proposition in each such participating zone are in favor of incurring the bonded indebtedness to be undertaken by such zone.

SEC. 9. Section 15 of said act is amended to read:

Sec. 15. The board shall, subject to the provisions of this act, prescribe by resolution the form of said bonds, which must include a designation of the zone or participating zone affected, the form of the interest coupons attached thereto, and fix the date of the bonds. The board may divide the principal amount of any issue into two or more series and fix different dates for the bonds of each series. The bonds of one series may be made payable at different times from those of any other series. The board may provide for redemption of bonds before maturity at prices determined by it. A bond shall not be subject to call or redemption prior to maturity unless it contains a recital to that effect. Said bonds and the interest thereon shall be payable annually or semiannually at the discretion of the board on a day and date, and at a place to be fixed by said board.

The bonds shall be issued in such denomination as the board may determine, except that no bonds shall be of a less denomination than one hundred dollars ($100), nor of a greater denomination than one thousand dollars ($1,000), and shall be payable on the days and at the place fixed in said bonds, and with interest at the rate specified in such bonds, which rate shall not be in excess of six percent (6%) per annum, and shall be made payable annually or semiannually, and said bonds shall be numbered consecutively and shall be signed by the chairman of the board, and countersigned by the auditor of said district, and the seal of said district shall be affixed thereto by the clerk of the board. The interest coupons of said

bonds shall be numbered consecutively and signed by the said auditor by his engraved or lithographed signature. In case any such officers whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such bonds and coupons, and signatures or countersignatures shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery of the bonds.

SEC. 10. Section 17 of said act is amended to read:

Sec. 17. To the extent the legally available revenues are inadequate, said bonds and the interest thereon shall be paid by revenue derived from an annual tax or assessment upon all real property within said zone, and all real property in said zone shall be and remain liable to be taxed or assessed for such payments as hereinafter provided. No zone nor the real property therein shall be liable for the bonded indebtedness of any other zone, nor shall any moneys derived from taxation or assessments in any of the several zones be used in payment of principal or interest or otherwise of the bonded indebtedness chargeable to any other zone.

SEC. 11. Section 18 of said act is amended to read:

Sec. 18. The board shall levy a tax or assessment each year upon all real property in the zone of issuance sufficient to pay the interest and such portion of the principal of said bonds as is due or to become due before the time for making the next general tax levy. Such taxes or assessments shall be levied and collected in the respective zones of issuance together with and not separately from taxes for county purposes, and when collected shall be paid into the county treasury of said Lake County to the credit of the zone of issuance and be used for the payment of the principal and interest on said bonds, and for no other purpose. The principal and interest on said bonds shall be payable at the office of the County Treasurer of Lake County and such other places as may be designated by the board.

SEC. 13. Section 20 of said act is amended to read:

Sec. 20. The total amount of taxes and assessments levied on real property within any zone, exclusive of taxes levied to pay the principal of and interest on bonded indebtedness, shall not exceed one dollar and fifty cents ($1.50) on each one hundred dollars ($100) of the assessed values of real property within the zone.

SEC. 14. Section 20.1 is added to said act, to read:

Sec. 20.1. The district may issue bonds pursuant to the Revenue Bond Law of 1941 (Chapter 6 (commencing at Section 54300), Part 1, Division 2, Title 5, Government Code) for any of the purposes hereinabove set forth. Such bonds may be certified as legal investments in accordance with the provisions of Division 10 (commencing at Section 20000) of the Water Code.

SEC. 15. Section 29 of said act is amended to read:

Sec. 29. The board may, by resolution entered in its minutes, order the funding or refunding of such bonds at, after, or before maturity. The bonds shall be issued in denominations of not less than one hundred dollars ($100) nor more than one thousand dollars ($1,000) each, have not more than forty (40) years to run, and bear a rate of interest not to exceed six percent (6%) a year, payable semiannually; provided, that all bonds issued to fund or refund outstanding bonds shall bear a lower average interest rate, computed from their date to their respective maturity dates, than the average interest rate so computed, of the bonds to be funded or refunded. The bonds shall be serial bonds, shall mature not more than 40 years from their date and shall be payable at such places as the board may designate in the bonds. The bonds may be sold in the manner provided by the board, to the highest bidder, at not less than par and accrued interest, or may be exchanged for outstanding bonds as hereinafter provided. The proceeds of any sale for cash shall be credited to the funding fund and applied only to refunding the indebtedness for which the bonds are issued. Any proceeds of the refunding bonds remaining after the indebtedness has been paid shall be deposited in the fund established for the payment of principal and interest on the refunding bonds and used only for the purpose of paying such principal or interest as it matures. The refunding bonds and the interest thereon shall be payable from taxes levied therefor as provided in Section 18. The proceeds from the sale of the refunding bonds shall be applied to the refunding of the indebtedness for which the bonds were issued or the bonds may be exchanged at their par value for the evidences of indebtedness to be refunded at their par value. When any bonds are funded or refunded as provided herein, the treasurer shall cancel them by endorsing on their faces the amount for which they are received, "canceled" and the date of cancellation. The resolution shall also fix the form of the interest coupons attached to said refunding bonds.

The refunding bonds shall be signed by the chairman of the board or such other member of the board as said board may by resolution designate, and shall be countersigned by the treasurer of the district, and the seal of said district shall be affixed thereto. The interest coupons shall be numbered consecutively and signed by the treasurer of said district by his engraved or lithographed signature. In case any officer whose signature or countersignature appears on said bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such signature or countersignature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery of the bonds.

Each refunding bond may be exchanged for its corresponding outstanding bond as the board by agreement with the holder of such outstanding bond may determine, except that

in effecting such exchange, any and all matured coupons on said refunding bonds shall be detached and canceled and the principal and accrued interest of both issues shall be accepted at par value and the district shall pay said holder in cash out of moneys in the bond interest fund of the district an amount equal to the difference between the interest on the outstanding bond and on the refunding bond accrued to the date of such exchange.

The refunding bonds shall also be legal investments for fiduciaries and others as provided in Section 22.

SEC. 16. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Federal Government has undertaken the construction of flood control and water conservation projects and works within the Lake County Flood Control and Water Conservation District which are necessary for flood control and water conservation therein. The construction of such projects and works will be interrupted or halted unless the Lake County Flood Control and Water Conservation District is enabled under the provisions of this act to participate in the construction of such projects and works and in the operation and maintenance thereof. Unless said projects and works are completed at the earliest possible time and thereafter maintained and operated, large areas of said district will be in danger of disastrous floods and the resulting loss of property. It is therefore essential that this act go into immediate effect.

CHAPTER 1533

An act to amend Section 4009 of the Public Resources Code, relating to the appointment of voluntary firewardens, and declaring the urgency thereof, to take effect immediately.

Any United States Forest Service employee within the State of California, whenever he accepts the duties and responsi-

bilities of a firewarden, may be appointed a voluntary firewarden, and shall have all the powers given to firewardens by this article.

Such firewardens shall not have authority to obligate the State for the payment of any money unless specifically so authorized by the State Forester.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

It is essential, in order to maintain the public peace and safety and to protect forest-covered lands of this State that the State Forester be free to designate any or all United States Forest Service employees to act as peace officers. This act is designed to accomplish this purpose by allowing the State Forester to duly appoint United States Forest Service employees as voluntary firewardens thus making them eligible for designation as peace officers pursuant to Section 4011 of the Public Resources Code. In order that the State Forester have the power to make the appointments and designations at the earliest moment, it is necessary that this act go into immediate effect.

In effect September 18, 1959

[Approved by Governor July 3, 1959. Filed with Secretary of State July 6, 1959.]

The people of the State of California do enact as follows:

(a) He shall determine the amount of the bonded indebtedness that was incurred by the district for each grade level, when bonds were issued and sold for purposes of more than one grade level. When one or more additional apportionments have been made to a grade level of a school district, conditioned upon the issuance and sale of additional bonds of the district, the Director of Finance shall determine and include in the eligible bonded debt service and in his certificate the amount raised and to be raised by the district during the current fiscal year for the payment of principal and interest on that portion of the additional bonded indebtedness of the district that was incurred for each such grade level as a condition to receiving such additional apportionment.

(c) If the Director of Finance determines in any fiscal year that the amount certified to the State Controller as the eligible bonded debt service during the last preceding fiscal year is less than the amount actually raised by the district for the repayment of principal and interest of the bonded indebtedness referred to in subdivision (d) of Section 19430 and subdivision (a) of this section, then the Director of Finance shall add to the amount determined as the eligible bonded debt service for the current fiscal year an amount equal to the difference between the amount actually raised by the district during the preceding fiscal year for the repayment of such bonded indebtedness and the amount so certified by the Director of Finance.

(c) The total repayment from each district is the sum of the annual repayments determined for each grade level of the district under this section.

(b) Whenever, after July 1, 1955, the county auditor notifies the Superintendent of Public Instruction and the Controller of the release of impounded tax revenues to the school district, the Controller shall add to the annual repayment of the district, for the first fiscal year or second fiscal year next succeeding that in which such notification of release was made, that amount by which the annual repayment of the district for a previous fiscal year was reduced by reason of the exclusion of assessed valuation with respect to tax revenues impounded and thereafter released.

(c) The amount of annual repayment and deduction, increased or reduced as required by this section, shall be the amount deducted by the Controller for the purposes of Sections 19436, 19442, and 19443 for the fiscal year in which such increase or reduction occurs.

authorized to issue such bonds and that such bonds when issued will be valid, said judgment shall permanently enjoin the institution by any person of any action or proceeding raising any issue as to which said judgment is binding and conclusive.

CHAPTER 1551

An act relating to certain lands located within the subsidence area of a portion of the Long Beach Harbor District and providing for the extension, amendment and modification of existing contracts, royalty arrangements and other agreements, for the production of oil, gas and other hydrocarbon substances from such lands, and declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor July 3, 1959. Filed with Secretary of State July 6, 1959.]

The people of the State of California do enact as follows:

SECTION 1. The State has asserted as against the City of Long Beach claims that certain lands, easements, or well sites lying within the boundaries of the Long Beach Harbor District (as such boundaries were defined on April 1, 1956), and the revenues or the other things of value derived by the City of Long Beach therefrom, are or may be subject to the terms, provisions, conditions, trusts or rights declared by Chapter 676, Statutes of 1911, Chapter 102, Statutes of 1925, Chapter 158, Statutes of 1935, Chapter 915, Statutes of 1951, or Chapter 29, Statutes of 1956 (First Extraordinary Session) (hereinafter referred to as the Acts of 1911, 1925, 1935, 1951, and 1956), which claims are denied by the city. Such lands or portions thereof are located within that segment of the Wilmington Oil Field designated as Fault Block IV, as said Fault Block IV descriptive boundaries are set forth in the officially published Findings of Fact and Orders of the State Oil and Gas Supervisor, dated February 26, 1959, and are the subject of presently existing contracts or royalty arrangements between the City of Long Beach and the following oil operators: The Termo Company-Oakes-Combs Group, General American Oil Company of Texas, Signal Oil and Gas Company, Hancock Oil Company, D. D. Dunlap Oil Company and Royalty Service Corporation, Ltd., hereinafter called "enumerated oil operators." Said contracts or royalty arrangements provide for the production of oil and gas therefrom, which contracts or royalty arrangements will expire by their terms within the next five years or thereafter. Such lands are

located within a subsidence area, as fixed and established pursuant to Section 3336 of the Public Resources Code, and it is necessary in aid of the legislative declarations contained in Article 5.5 (commencing at Section 3315), Chapter 1, Division 3 of the Public Resources Code, that the City of Long Beach be empowered and authorized to extend, amend, and modify such contracts or royalty arrangements in order to make it feasible for the city and the enumerated oil operators, their successors or assigns, to enter into unit or co-operative agreements providing for the repressuring of a portion or all of such lands in order to arrest or ameliorate subsidence. The repressuring of such lands and adjacent lands cannot be delayed pending determination of the claims of the State.

SEC. 2. To the extent, if at all, that said lands, or portions thereof, located within said Fault Block IV, are or may be subject to the provisions of the aforesaid Acts of 1911, 1925, 1935, 1951, and 1956, or any of them, the City of Long Beach may extend the presently existing contracts or royalty arrangements between the City of Long Beach and any or all of the enumerated oil operators, their successors or assigns (together with any presently existing agreements providing for the use of surface drill sites or drill-through easements incidental thereto), without competitive bidding, for a period or periods not to exceed 25 years, and may negotiate and agree to, without competitive bidding, such other changes, amendments, or modifications in terms and conditions thereof, including but not limited to such changes in financial terms thereof, as may be necessary or appropriate to enter into unit or co-operative agreements in order to achieve the repressuring of the lands; provided, that no such extension, amendment, or modification shall be effective unless and until approved by the State Lands Commission on behalf of the State; and provided, further, that nothing herein shall authorize the extension, without competitive bidding, of the terms of those certain tideland drilling and operating contracts covering those portions of the Long Beach tidelands designated, known, and described as Parcel "A," recorded August 15, 1947, in Book 24847 at page 252, Parcels "W," "X," "Y," and "Z," recorded March 29, 1939, in Book 16537 at page 8, in Book 16526 at page 38, in Book 16446 at page 343 and in Book 16512 at page 109, respectively; as Parcel "Z-1," recorded January 9, 1942, in Book 19076 at page 50; and as Parcel "J," recorded December 18, 1944, in Book 21499 at page 196, all in the Official Records in the office of the County Recorder of Los Angeles County.

SEC. 3. Nothing in this act, or any action by the city, the enumerated oil operators, their successors or assigns, or the State Lands Commission pursuant to this act, shall be construed as an express or implied declaration or admission that the lands, easements, well sites, things of value, or any portion thereof, or the revenues therefrom are or are not subject to the terms, provisions, conditions, trusts, or rights declared in the Acts of 1911, 1925, 1935, 1951, and 1956, or any of them.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act is designed to facilitate the making of unit and co-operative agreements providing for the repressuring of all or a portion of the lands within the boundaries of the Long Beach Harbor District where there has been subsidence endangering life, property, and health and thereby alleviate the dangerous subsidence problem. It is therefore essential that this act go into immediate effect.

CHAPTER 1557

An act to amend Section 13275 of, to add Section 12915 to, and to repeal Sections 917, 13276, 13584, and 13585 of, the Education Code, as enacted by the Legislature at its 1959 Regular Session, relating to public school employees.

In effect September 18, 1959

[Approved by Governor July 3, 1959. Filed with Secretary of State July 6, 1959.]

The people of the State of California do enact as follows:

Repeal

SECTION 1. Section 917 of the Education Code is repealed.

SEC. 2. Section 12915 is added to said code, to read:

Tuberculosis examinations

12915. No person shall be initially employed by a school district in a certificated or classified position unless the person has submitted to an examination within the past two years to determine that he is free of active tuberculosis, by a physician and surgeon licensed under Chapter 5 (commencing at Section 2000) of Division 2 of the Business and Professions Code. This examination shall consist of an X-ray of the lungs, or an approved intradermal tuberculin test, which, if positive, shall be followed by an X-ray of the lungs.

The X-ray film may be taken by a competent and qualified X-ray technician if the X-ray film is subsequently interpreted by a physician and surgeon licensed under Chapter 5 of Division 2 of the Business and Professions Code.

Thereafter all employees shall be required to undergo the foregoing examination at least once in each two years, or oftener if the governing board so determines by rule.

After such examination, each employee shall cause to be on file with the district superintendent of schools a certificate from the examining physician and surgeon showing the employee was examined and found free from active tuberculosis. The county board of education may require, by rule, that all such certificates be filed in the office of the county superintendent of schools or shall require such files be maintained in the office of the county superintendent of schools if a majority of the governing boards of the districts within such county so petition the county board of education, except that in either case a district or districts with a common board having an average daily attendance of 60,000 or more may elect to maintain the files for its employees in that district. "Certificate" as used herein means a certificate signed by the examining physi-

cian and surgeon or a notice from a public health agency or unit of the Tuberculosis Association which indicates freedom from active tuberculosis. The latter, regardless of form, will constitute evidence of compliance with this section. Nothing in this section shall prevent the governing board from establishing a rule requiring a more extensive physical examination than required by this section but such rule shall provide for reimbursement on the same basis as hereinafter required.

This examination is a condition of initial employment and the expense incident thereto shall be borne by the applicant unless otherwise provided by rules of the governing board. However, the board may, if an applicant is accepted for employment, reimburse such person in a like manner hereinafter prescribed for employees.

The governing board of each district shall reimburse the employee for the cost, if any, of this examination. The board may provide for the examination required by this section or may establish a reasonable fee for such examination that is reimbursable to employees of the district complying with the provisions of this section.

At the discretion of the governing board this section shall not apply to those employees not requiring certification qualifications who are employed for any period of time less than a school year whose functions do not require frequent or prolonged contact with pupils.

The governing board may, however, require such examination and may as a contract condition require the examination of persons employed for construction or repair work if the board believes the presence of such persons in and around school premises would constitute a health hazard to pupils.

The provisions of this section shall not apply to any employee who files an affidavit stating that he adheres to the faith or teachings of any well-recognized religious sect, denomination, or organization and in accordance with its creed, tenets, or principles depends for healing upon prayer in the practice of religion and that to the best of his knowledge and belief he is free from active tuberculosis. If at any time there should be probable cause to believe that such affiant is afflicted with active tuberculosis, he may be excluded from service until the governing board of the employing district is satisfied that he is not so afflicted.

SEC. 3. Section 13275 of said code is amended to read:

Registration of certification

13275. Each person employed by the governing board of a school district for a position requiring certification qualifications must, not later than 60 days after the date fixed by the governing board of the district for the commencement of his service, register in the manner prescribed by Section 13157 a valid certification document, issued on or before said date, authorizing him to serve in the position for which he was employed, and must, not later than 60 days after the renewal thereof, register the renewed certification document in the manner prescribed by Section 13157. If any person so em-

ployed is the holder of a California state college, or state teachers college, diploma accompanied by the certificate of the State Board of Education, or of an educational or life diploma of this State, and has presented the same to, and has had his name recorded by, the county superintendent of schools of the county as heretofore provided by this code, such person shall be deemed to have registered such diploma under Section 13157.

Repeal

SEC. 4. Sections 13276, 13584, and 13585 of said code are repealed.

CHAPTER 1558

An act to add Chapter 5C (commencing with Section 853.6) to Title 3, Part 2, of the Penal Code, relating to citations for misdemeanors under state law.

In effect September 18, 1959

[Approved by Governor July 3, 1959. Filed with Secretary of State July 6, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5C (commencing with Section 853.6) is added to Title 3, Part 2, of the Penal Code, to read:

CHAPTER 5C. CITATIONS FOR MISDEMEANORS UNDER STATE LAW

Procedure

853.6. (a) In any case in which a person is arrested for an offense declared by state law to be a misdemeanor, and does not demand to be taken before a magistrate, the arresting officer may, instead of taking such person before a magistrate, follow the procedure prescribed by this chapter. The arresting officer shall prepare in duplicate a written notice to appear in court, containing the name and address of such person, the offense charged, and the time and place where and when such person shall appear in court.

(b) The time specified in the notice to appear must be at least five (5) days after arrest.

(c) The place specified in the notice shall be the court of the magistrate before whom the person would be taken if the requirement of taking an arrested person before a magistrate were complied with.

(d) The officer shall deliver one copy of the notice to appear to the arrested person, and the arrested person, in order to secure release, must give his written promise so to appear in court by signing the duplicate notice which shall be retained by the officer. Thereupon the arresting officer shall forthwith release the person arrested from custody.

(e) The officer shall, as soon as practicable, file the duplicate notice with the magistrate specified therein. Thereupon the magistrate shall fix the amount of bail which in his judgment,

in accordance with the provisions of Section 1275 of the Penal Code, will be reasonable and sufficient for the appearance of the defendant and shall indorse upon the notice a statement signed by him in the form set forth in Section 815a of this code. The defendant may, prior to the date upon which he promised to appear in court, deposit with the magistrate the amount of bail thus set. Thereafter, at the time when the case is called for arraignment before the magistrate, if the defendant shall not appear, either in person or by counsel, the magistrate may declare the bail forfeited, and may in his discretion order that no further proceedings shall be had in such case.

Upon the making of such order that no further proceedings be had, all sums deposited as bail shall forthwith be paid into the county treasury for distribution pursuant to Section 1463 of this code.

(f) No warrant shall issue on such charge for the arrest of a person who has given such written promise to appear in court, unless and until he has violated such promise or has failed to deposit bail, to appear for arraignment, trial or judgment, or to comply with the terms and provisions of the judgment, as required by law.

Misdemeanor

853.7. Any person who willfully violates his written promise to appear in court is guilty of a misdemeanor, regardless of the disposition of the charge upon which he was originally arrested.

Warrant for arrest

853.8. When a person signs a written promise to appear at the time and place specified in the written promise to appear and has not posted bail as provided in Section 853.6, the magistrate shall issue and have delivered for execution a warrant for his arrest within twenty (20) days after his failure to appear as promised.

Said board may enter into and do all acts necessary or proper for the performance of any agreements with the United States or any state, county or district of any kind, public or private corporation, association, firm or individual, or any number of them, for the joint acquisition, construction, leasing, ownership, disposition, use, management, maintenance, repair or operation of any levees, works or other property of any kind which might lawfully be acquired or owned by the district, and may acquire the right to store water in any reservoir or to carry water through any canal, ditch or conduit not owned or controlled by the district, and may grant to any owner or lessee, the right to the use of any water, the right to store such water in any reservoir of the district, or to carry such water through any canal, ditch or conduit of the district. mutual water company are within this district, and may contract for supplying such lands with water through such mutual water companies.

The board is authorized and empowered to take conveyances, leases, contracts or other assurances for all property acquired by it under the provisions of this act, in the name of this district, to and for the uses and purposes herein expressed, and to institute and maintain any and all actions and proceedings, suits at law or in equity, necessary or proper in order to fully carry out the provisions of this act, and to enforce, maintain, protect or preserve any and all rights, privileges and immunities created by this act or acquired in pursuance thereof, and may appear and defend in person or by attorneys in the name of such irrigation district.

5. The legal title to all property acquired under the provisions of this act shall immediately, by operation of law, vest in the district, and shall be held by the district in trust for, and is hereby dedicated and set apart to, the uses and purposes set forth in this act. And said board is hereby authorized and directed to hold, use, manage, keep and possess, said property as herein provided. The board may determine by resolution duly entered upon its minutes, that any property, real or personal, held by such irrigation district, is no longer necessary to be held for the uses and purposes thereof, and may thereafter sell such property, and a conveyance of any property held by this district, executed by the president and secretary thereof, in accordance with the resolution of the board of trustees of such district, when sold for a valuable consideration, shall convey a good title to the property so conveyed.

6. It shall be the duty of the board of trustees to establish suitable bylaws, rules and regulations for the distribution and use of water among the owners of lands, which must be printed in convenient form for the use of the district. Said board may fix and collect rates of tolls and charges, for the purposes, and in the manner in this act provided.

Said board may provide, by uniform rules and regulations, that water shall not be furnished to persons against whom, or for use upon land on which, there are delinquent water tolls or charges or delinquent district taxes.

7. When the board of trustees deems it advisable for the best interests of the district and the convenience of the electors thereof, it may at any time, but not less than 60 days before an election is to be held in the district, divide the district into divisions or precincts for election purposes, but such divisions shall be made as nearly equal in area or population as may be practicable. The boundaries of the divisions and precincts or any subsequent changes therein must be shown on the minutes of the board Should the district be divided into divisions or precincts by the board of trustees for the purpose of holding elections thereafter, any property owner owning property in one or more precincts or divisions, must cast the ballots represented by his respective parcels in each precinct where such

parcels are situate respectively, and if any such parcel lies partly in one precinct and partly in another, he may cast the ballots represented thereby in either, but before doing so he must notify the election board in the other precinct of his intention to do so, in order that the election board may note the ballots represented by said land as having been voted.

8. After the first election of trustees held in pursuance of the provisions of this act, all subsequent regular elections shall be called annually at the times fixed for the holding of the annual election, and the trustees shall cause notice of such election to be given for the period and in the manner hereinbefore prescribed in reference to the first election, and the trustees shall perform all the duties in respect to giving notice of the election, establishing election boards, providing the ballots and assessment roll records necessary for conducting the election, designating voting places, causing the returns to be canvassed, and the results declared, which have been imposed upon the supervisors in respect to the first election.

Likewise, the board of trustees shall perform all the acts necessary for calling and conducting special elections provided for in this act.

In all elections for trustees the persons receiving the highest number of votes shall be deemed elected for the office to be filled; provided, that if among the persons receiving the highest number of votes there shall be so many persons who are not resident in said district that the aggregate number of trustees whose terms have not expired who are not resident in said district added to such number of nonresident persons voted for shall exceed three, then the nonresident or nonresidents having the lowest number of votes shall be deemed not elected and the person or persons receiving the next highest number of votes who are resident in said district shall be deemed elected, so that not less than a majority of the trustees shall be residents of the district. If an election is not held as herein provided, then upon the filing of a petition with the secretary of the board of trustees, signed by property owners owning real property assessed upon the last preceding equalized assessment roll at not less than the aggregate of five thousand dollars ($5,000), requesting that a special election be called for the election of officers, the trustees of such district shall thereupon call a special election for the election of such officers, such election to be held within not less than 40 days after the filing of such petition.

Each member of the board of trustees shall qualify by executing an official bond in the sum of ten thousand dollars ($10,000) on or before noon of the twentieth day following his election, which bond shall thereafter be approved by a judge of the Superior Court of Riverside County, and be recorded in the office of the county recorder thereof, and filed with the secretary of the board. All official bonds herein provided for shall be in the form prescribed by law for the

official bonds of the county officers, and premium thereof may be paid by the district.

9. Said board of trustees shall have the power at any time that, in its judgment, as declared by order entered in its minutes, the expenditure of money is absolutely necessary to the welfare of the district and the accomplishment of the purposes of this act, and there is no money in the fund of said district to make such necessary expenditures or the money in said funds is insufficient to make such necessary expenditure, to borrow for any period of time, not exceeding one year, such sum, not exceeding one hundred thousand dollars ($100,000) as may be necessary to make such expenditure, and may evidence such indebtedness by the note or notes of said district, executed by its president and secretary, and bearing interest at not more than 7 percent per annum.

10. The board of trustees shall also have power generally to perform all other such acts as shall be necessary to fully carry out the purpose of this act.

SEC. 2. Section 28½h of said act is amended to read:

Sec. 28½h. At any time after taxes are due and prior to the date when the last installment of taxes becomes delinquent, any person, firm or corporation claiming an interest in any lot, piece or parcel or fractional part of land, which lot, piece, parcel or fractional part does not have a separate valuation on the assessment roll, may have such lot, piece, parcel or fractional part segregated and separately valued on said roll in the manner hereinafter set out.

Each applicant for segregation shall file with the officer then having custody of the assessment roll an application for segregation. Such officer shall forthwith submit a description of said lot, piece, parcel or fractional part of land, together with the proposed segregation, to the assessor who must place a separate valuation on each of the proposed segregations. The aggregate amount of assessed valuation of the parcels so segregated shall remain the same as before such segregation. The assessor must transmit such valuations to the officer then having custody of the assessment roll who shall cause a description of the property, together with separate valuations, to be entered on the assessment roll and compute and extend the tax and penalties, if any, and cancel the original description, valuation and tax and penalties, if any. Thereafter taxes, including proportionate accrued penalties, if any, on each segregated lot, piece, parcel or fractional part may be paid separately from the whole assessment. The officer to whom application for segregation is made shall collect a fee of two dollars ($2) for each lot, piece, parcel or fractional part separately valued and pay such fees over to the district.

CHAPTER 1560

An act relating to the further use and development of certain tide and submerged lands heretofore conveyed in trust to the City of Long Beach, and providing for the government, management and control thereof.

In effect September 18, 1959

[Approved by Governor July 3, 1959. Filed with Secretary of State July 6, 1959.]

The people of the State of California do enact as follows:

SECTION 1. As used in this act, "tide and submerged lands" means those certain tide and submerged lands heretofore conveyed to the City of Long Beach upon certain trusts and conditions by Chapter 676, Statutes of 1911, Chapter 102, Statutes of 1925 and Chapter 158, Statutes of 1935.

SEC. 2. Without limiting in any way the scope or generality of the uses and purposes heretofore authorized and prescribed in paragraph (a) of Section 1 of each of the respective acts hereinabove referred to, but in addition thereto, said city, or its successors, may devote so much of said tide and submerged lands as it finds is not required for and will not interfere with the uses and purposes so authorized and prescribed in each of said paragraphs (a), to such further use and development as will, in its finding, yield maximum profits to be used by said city in the furtherance of the trust uses and purposes. The city may, in devoting such property to any such additional use or development, as provided in this section, enter into agreements, contracts or leases with respect thereto; provided, (1) that no such agreement, contract or lease shall be for a term exceeding 50 years, subject, however, to the right of renewal thereof by the city for a further term not to exceed 25 years; and (2) that all such agreements, contracts or leases shall be made upon competitive bids after such public advertising, inviting proposals or bids therefor, as said city, or its successors, deem sufficient. Any such agreement, contract or lease shall be awarded to the person whose bid will yield the aforesaid maximum profits, taking into consideration the proposed term.

SEC. 3. This act shall not apply to any present or future contracts, royalty arrangements, or other agreements between the city (or any department, board or agency thereof) and any other person, firm, corporation or association, relating to the drilling for, developing, extracting, processing, taking or removing, or disposition of oil, gas, or other hydrocarbons derived from said tide and submerged lands, or to any revenues from any such contracts, royalty arrangements, or other agreements, or to any agreements which are authorized by Article 5.5 (commencing at Section 3315) of Chapter 1, Division 3, of the Public Resources Code or by Section 6879 or Section 7058 of said code, as said statutes now exist or may be hereafter amended. Notwithstanding anything in this act,

the obligations of the City of Long Beach with respect to the accounting and disposition of revenues received by it from the extraction or sale of oil, gas and other hydrocarbon substances derived from said tide and submerged lands, or from the unit or cooperative development of said lands with other lands, shall be as defined by Chapter 29, Statutes First Extraordinary Session 1956, and the Decree and Judgment of the Superior Court of the State of California in and for the County of Los Angeles filed September 7, 1956, and entered September 11, 1956, in the case of People of the State of California, et al. v. City of Long Beach, et al., No. 649466.

Members of the first board of directors so constituted shall convene at the call of the clerk of the board of supervisors in the meeting room of the board of supervisors at the county seat of said county, and immediately upon convening, such board of directors shall elect from its membership a chairman, a vice chairman, and a secretary, who shall serve for a period of two years, or until their respective successors shall be elected and qualified.

In effect September 18, 1959

[Approved by Governor July 6, 1959. Filed with Secretary of State July 7, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 2016 of the Code of Civil Procedure is amended to read:

Depositions

2016. (a) Any party may take the testimony of any person, including a party, by deposition upon oral examination or written interrogatories for the purpose of discovery or for use as evidence in the action or for both purposes. Such depositions may be taken in an action at any time after the service of the summons or the appearance of the defendant, and in a special proceeding after a question of fact has arisen therein. After commencement of the action, the deposition may be taken without leave of court, except that leave of court, granted with or without notice, and for good cause shown, must be obtained if the notice of the taking of the deposition is served by the plaintiff within 20 days after service of the summons on, or appearance of, the defendant. The attendance of witnesses may be compelled by the use of subpoena as provided in Chapter 2 (commencing with Section 1985), Title 3, Part 4 of this code.

(b) Unless otherwise ordered by the court as provided by subdivision (b) or (d) of Section 2019 of this code, the deponent may be examined regarding any matter, not privileged, which is relevant to the subject matter involved in the pending action, whether it relates to the claim or defense of the examining party, or to the claim or defense of any other party, including the existence, description, nature, custody, condition and location of any books, documents, or other tangible things and the identity and location of persons having knowledge of relevant facts. It is not ground for objection that the testimony will be inadmissible at the trial if the testimony sought appears reasonably calculated to lead to the discovery of admissible evidence. All matters which are privileged against disclosure upon the trial under the law of this State are privileged against disclosure through any discovery procedure. This article shall not be construed to change the law of this State with respect to the existence of any privilege, whether provided for by statute or judicial decision, nor shall it be construed to incorporate by reference any judicial decisions on privilege of any other jurisdiction.

(c) Examination and cross-examination of deponents may proceed as permitted at the trial under the provisions of this code.

(d) At the trial or upon the hearing of a motion or an interlocutory proceeding, any part or all of a deposition, so far as admissible under the rules of evidence, may be used against any party who was present or represented at the taking of the deposition or who had due notice thereof, in accordance with any one of the following provisions:

(1) Any deposition may be used by any party for the purpose of contradicting or impeaching the testimony of deponent as a witness.

(2) The deposition of a party to the record of any civil action or proceeding or of a person for whose immediate benefit said action or proceeding is prosecuted or defended, or of anyone who at the time of taking the deposition was an officer, director, superintendent, member, agent, employee, or managing agent of any such party or person may be used by an adverse party for any purpose.

(3) The deposition of a witness, whether or not a party, may be used by any party for any purpose if the court finds: (i) that the witness is dead; or (ii) that the witness is at a greater distance than 150 miles from the place of trial or hearing, or is out of the State, unless it appears that the absence of the witness was procured by the party offering the deposition; or (iii) that the witness is unable to attend or testify because of age, sickness, infirmity, or imprisonment; or (iv) that the party offering the deposition has been unable to procure the attendance of the witness by subpoena; or (v) upon application and notice, that such exceptional circumstances exist as to make it desirable, in the interest of justice and with due regard to the importance of presenting the testimony of witnesses orally in open court, to allow the deposition to be used.

(4) Subject to the requirements of this section, a party may offer in evidence all or any part of a deposition, and if such party introduces only part of such deposition, any party may introduce any other parts.

Substitution of parties does not affect the right to use depositions previously taken; and, when an action in any court of the United States or of any state has been dismissed and another action involving the same subject matter is afterward brought between the same parties or their representatives or successors in interest, all depositions lawfully taken and duly filed in the former action may be used in the latter as if originally taken therefor.

(e) Subject to the provisions of subdivision (c) of Section 2021 of this code, objection may be made at the trial or hearing to receiving in evidence any deposition or part thereof for any reason which would require the exclusion of the evidence if the witness were then present and testifying.

(f) A party shall not be deemed to make a person his own witness for any purpose by taking his deposition. Except where the deposition is used under the provisions of paragraph (2) of subdivision (d) of this section, the introduction in evidence of the deposition or any part thereof for any purpose other

than that of contradicting or impeaching the deponent, or for explaining or clarifying portions of the said deposition offered by an adverse party, makes the deponent the witness of the party introducing the deposition, as to the portions of the deposition introduced by said party. At the trial or hearing any party may rebut any relevant evidence contained in a deposition whether introduced by him or by another party.

SEC 2. Section 2019 of said code is amended to read:

Same

2019. (a) (1) A party desiring to take the deposition of any person upon oral examination shall give notice in writing to every other party to the action. The notice shall state the time and place for taking the deposition and the name and address of each person to be examined, if known, and, if the name is not known, a general description sufficient to identify him or the particular class or group to which he belongs. Such notice must be at least 10 days, adding also one day for every 100 miles of the distance of the place of examination from the residence of the person to whom the notice is given, except that on motion of any party, with or without notice, and for good cause shown, the court may enlarge or shorten the time. Service of such notice or motion may be made upon any party or his attorney in the manner provided in Chapter 5, Title 14, Part 2 (commencing at Section 1010), of this code.

(2) If the parties so stipulate in writing, depositions may be taken before any person, at any time or place, upon any notice, and in any manner and when so taken may be used like other depositions.

(3) If an adverse party is in default for not appearing within the time allowed by the law or the court, or if, in a special proceeding, some or all of the parties interested have not appeared, a deposition may be taken without the giving of any notice to the party so in default or not appearing; and in any case on motion of any party, with or without notice, and for good cause shown, the court may authorize the taking of a deposition without the giving of notice to parties who have not been served with summons.

(4) In the case of depositions of a party to the record of any civil action or proceeding or of any one who at the time of taking the deposition is an officer, director or managing agent of any such party, the service of a subpoena upon any such deponent is not required if proper notice of the taking of such deposition is given to the attorney for such party or to the party, if he has no attorney. In the case of depositions of a person for whose immediate benefit an action or proceeding is prosecuted or defended or of any one who at the time of taking the deposition is an officer, director or managing agent of any such person, the service of a subpoena upon any such deponent is not required if proper notice of the taking of such deposition is given to the attorney of the party prosecuting or defending the action or proceeding for the immediate benefit

of the deponent or to such party, if he has no attorney. A notice to take the deposition of a person described in this subdivision (4) cannot require the attendance of such person at a place more than 150 miles from the residence of such person, unless the party desiring to take such deposition first obtains an order pursuant to the provisions of Section 2019(b)(2) of this code.

(b) (1) After notice is served for taking a deposition by oral examination, upon motion seasonably made by any party or by the person to be examined and upon notice and for good cause shown, the court in which the action is pending may make an order that the deposition shall not be taken, or that it may be taken only at some designated time or place other than stated in the notice, or that it shall not be taken except by allowing written interrogatories by one or more parties, or that certain matters shall not be inquired into, or that the scope of the examination shall be limited to certain matters, or that the examination shall be held with no one present except the parties to the action and their officers or counsel, or that after being sealed the deposition shall be opened only by order of the court, or that secret processes, developments, or research need not be disclosed, or that the parties shall simultaneously file specified documents or information enclosed in sealed envelopes to be opened as directed by the court; or the court may make any other order which justice requires to protect the party or witness from annoyance, embarrassment, or oppression In granting or refusing such order the court may impose upon either party or upon the witness the requirement to pay such costs and expenses, including attorney's fees, as the court may deem reasonable.

(2) Notwithstanding Section 1989, the court may, upon motion on 10 days' written notice and for good cause shown, make an order requiring a deponent who is a party to the record of any civil action or proceeding or is a person for whose immediate benefit said action is prosecuted or defended or is at the time of the taking of the deposition an officer, director or managing agent of any such party or person to attend a deposition at a place more than 150 miles from the residence of such deponent. In granting or refusing such order, the court shall consider whether the moving party selected the forum, whether the deponent will be present at the trial, the convenience of the deponent, the suitability of discovery through a deposition by written interrogatories or other discovery methods, the number of depositions sought under this section, the expense to the parties of requiring the deposition to be taken within 150 miles of the residence of the deponent, the whereabouts of the deponent at the time the deposition is scheduled to be taken, and all other factors tending to show whether or not the interests of justice and the convenience of the parties and witnesses will be served by requiring the deponent to appear for his deposition at a place more than 150 miles from his residence. Such order may provide that the

party desiring to take such deposition shall pay the reasonable expenses incurred by the deponent in attending such deposition and that he furnish an undertaking approved by the court to secure such payment and may contain such other terms and conditions as are equitable and just.

(c) The officer before whom the deposition is to be taken shall put the witness on oath and shall personally, or by someone acting under his direction and in his presence, record the testimony of the witness. The testimony shall be taken stenographically and transcribed unless the parties agree otherwise. All objections made at the time of the examination to the qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented, or to the conduct of any party, and any other objection to the proceedings, shall be noted by the officer upon the deposition. Evidence objected to shall be taken subject to the objections. In lieu of participating in the oral examination, parties served with notice of taking a deposition may transmit written interrogatories to the officer, who shall propound them to the witness and record the answers verbatim.

(d) At any time during the taking of the deposition, on motion of any party or of the deponent and upon a showing that the examination is being conducted in bad faith or in such manner as unreasonably to annoy, embarrass, or oppress the deponent or party, the court in which the action is pending or the superior court in the county where the deposition is being taken may order the officer conducting the examination to cease forthwith from taking the deposition, or may limit the scope and manner of the taking of the deposition as provided in subdivision (b) of this section. If the order made terminates the examination, it shall be resumed thereafter only upon the order of the court in which the action is pending. Upon demand of the objecting party or deponent, the taking of the deposition shall be suspended for the time necessary to make a motion for an order. In granting or refusing such order the court may impose upon either party or upon the witness the requirement to pay such costs or expenses, including attorney's fees, as the court may deem reasonable.

(e) When the testimony is fully transcribed the deposition shall be submitted to the witness for examination and shall be read to or by him, unless such examination and reading are waived by the witness and by the parties. Any changes in form or substance which the witness desires to make shall be entered upon the deposition. The deposition shall then be signed by the witness, unless the parties by stipulation waive the signing or the witness is ill or cannot be found or refuses to sign. If the deposition is not signed by the witness, the officer shall sign it and state on the record the fact of the waiver or of the illness or absence of the witness or the fact of the refusal to sign together with the reason, if any, given therefor; and the deposition may then be used as fully as though signed, unless on a motion to suppress under subdivision (d) of Section 2021

of this code the court holds that the reasons given for the refusal to sign require rejection of the deposition in whole or in part.

(f) (1) The officer shall certify on the deposition that the witness was duly sworn by him and that the deposition is a true record of the testimony given by the witness. He shall then securely seal the deposition in a envelope indorsed with the title of the action and marked "Deposition of (here insert name of witness)" and shall promptly file it with the court in which the action is pending or send it by registered mail to the clerk thereof for filing.

(2) Upon payment of reasonable charges therefor, the officer shall furnish a copy of the deposition to any party or to the deponent.

(3) The party taking the deposition shall give prompt notice of its filing to all other parties.

(g) (1) If the party giving the notice of the taking of a deposition fails to attend and proceed therewith and another party attends in person or by attorney pursuant to the notice, the court may order the party giving the notice to pay such other party the amount of the reasonable expenses incurred by him and his attorney in so attending, including reasonable attorney's fees.

(2) If the party giving the notice of the taking of a deposition of a witness fails to serve a subpoena upon him and the witness because of such failure does not attend, and if another party attends in person or by attorney because he expects the deposition of that witness to be taken, the court may order the party giving the notice to pay to such other party the amount of the reasonable expenses incurred by him and his attorney in so attending, including reasonable attorney's fees.

SEC. 3. Section 2020 of said code is amended to read:

Deposition upon written interrogatories

2020. (a) A party desiring to take the deposition of any person upon written interrogatories shall serve them upon every other party with a notice stating the name and address of the person who is to answer them and the name or descriptive title and address of the officer before whom the deposition is to be taken. Within 10 days thereafter a party so served may serve cross-interrogatories upon the party proposing to take the deposition. Within five days thereafter the latter may serve redirect interrogatories upon a party who has served cross-interrogatories. Within five days after being served with redirect interrogatories, a party may serve recross-interrogatories upon the party proposing to take the deposition.

(b) A copy of the notice and copies of all interrogatories served shall be delivered by the party taking the deposition to the officer designated in the notice, who shall proceed promptly, in the manner provided by subdivisions (c), (e) and (f) of Section 2019 of this code, to take the testimony of the witness in response to the interrogatories and to prepare, certify, and file or mail the deposition, attaching thereto the copy of the notice and the interrogatories received by him.

(c) When the deposition is filed the party taking it shall promptly give notice thereof to all other parties.

(d) After the service of interrogatories and prior to the taking of the testimony of the deponent, the court in which the action is pending, on motion promptly made by a party or a deponent, upon notice and good cause shown, may make any order specified in Section 2019 of this code which is appropriate and just or an order that the deposition shall not be taken before the officer designated in the notice or that it shall not be taken except by allowing oral examination by one or more parties.

(e) Service of any interrogatories, notices, motions, or orders under this section may be made upon any party or his attorney in the manner provided in Chapter 5, Title 14, Part 2 (commencing at Section 1010) of this code.

SEC 4. Section 2021 of said code is amended to read:

Waiver of errors and irregularities

2021. (a) All errors and irregularities in the notice for taking a deposition are waived unless written objection is promptly served upon the party giving the notice.

(b) Objection to taking a deposition because of disqualification of the officer before whom it is to be taken is waived unless made before the taking of the deposition begins or as soon thereafter as the disqualification becomes known or could be discovered with reasonable diligence.

(c) (1) Objections to the competency of a witness or to the competency, relevancy, or materiality of testimony are not waived by failure to make them before or during the taking of the deposition, unless the ground of the objection is one which might have been obviated or removed if presented at that time.

(2) Errors and irregularities occurring at the oral examination in the manner of taking the deposition, in the form of the questions or answers, in the oath or affirmation, or in the conduct of parties and errors of any kind which might be obviated, removed, or cured if promptly presented, are waived unless seasonable objection thereto is made at the taking of the deposition.

(3) Objections to the form of written interrogatories submitted under Section 2020 or Section 2025 of this code are waived unless such objections, together with a notice of hearing thereon, are served in writing upon the party propounding them within the time allowed for serving the succeeding cross or other interrogatories and within three days after service of the last interrogatories authorized.

(d) Errors and irregularities in the manner in which the testimony is transcribed or the deposition is prepared, signed, certified, sealed, indorsed, transmitted, filed, or otherwise dealt with by the officer under Sections 2019 and 2020 of this code are waived unless a motion to suppress the deposition or some part thereof is made with reasonable promptness after such defect is, or with due diligence might have been, ascertained.

SEC. 5. Section 2023 is added to the Code of Civil Procedure, to read:

2023. Whenever any mandate, writ or commission is issued out of any court of record in any other state, territory, district or foreign jurisdiction, or whenever, upon notice or agreement, it is required to take the testimony of a witness or witnesses in this State, witnesses may be compelled to appear and testify in the same manner and by the same process and proceedings as may be employed for the purpose of taking testimony in proceedings pending in this State. Subpoena of witnesses for out-of-state proceedings

A subpoena re deposition or a subpoena duces tecum re deposition directed to any such witness shall be issued by the clerk of the superior court if it appears by affidavit filed:

(1) That the witness resides within 150 miles from the court issuing such subpoena and from the place at which his attendance is required;

(2) That the testimony of such witness or the documents described in any such subpoena duces tecum are relevant to the subject matter involved in the action or proceeding; and

(3) That under the law of the state, territory, district or foreign jurisdiction in which the action or proceeding is pending, the deposition of a witness taken under such circumstances may be used in such action or proceeding.

SEC. 6. Section 2024 of said code is amended to read:

2024. The deposition of a witness out of this State may be taken upon a commission issued from the court under the seal of the court, upon an order of the court, or a judge or a justice thereof, on the application of any party, upon 10 days' previous notice to the other. If the court is a justice court, the commission must have attached to it a certificate of the clerk of the superior court of the county in which such justice court is held, under the seal of such superior court, to the effect that the person issuing the same was an acting judge at the date of commission. If issued to any place within the United States, it may be directed to a person agreed upon by the parties, or if they do not agree, to any notary public, judge or commissioner selected by the court or judge or justice issuing it. If issued to any country out of the United States, it may be directed to a secretary of embassy or legation, consul general, consul, vice consul, or consular agent of the United States, or to a person appointed by the court in which the action is pending, or to a judge of a court of record in such country, or to any one agreed upon by the parties. Depositions of out-of-state witnesses

SEC. 7. Section 2025 of said code is amended to read:

2025. The party moving for the commission under the provisions of Section 2024 of this code must, unless it is waived by the other party, attach to the notice of the motion the interrogatories upon which he desires it to be taken. On the hearing of the motion, the other party must propose such cross-interrogatories as he may desire. If the parties do not agree as to the form of the interrogatories, the court must settle their form, but such agreement or settlement does not Same Interrogatories

preclude either party, when the deposition is offered in evidence, from interposing any objection to any interrogatory which is available to him under the provisions of Sections 2016 and 2021 of this code. The settlement of interrogatories may be had at the time of the hearing of the motion, or at any other time which the court may appoint; but the moving party must, if he request it, be allowed five days within which to propose such redirect interrogatories as the cross-interrogatories proposed render proper. When agreed upon or settled, the interrogatories must be annexed to the commission.

SEC. 8. Section 2026 of said code is amended to read:

Evidence from nonresident witnesses

2026. When a party shall desire to take the evidence of a nonresident witness, to be used in any cause pending in this State, the party desiring the same (or where notice shall have been given that a commission to take the testimony of a nonresident witness will be applied for, the opposite party, upon giving the other five days' notice in writing of his election so to do), may have a commission directed in the same manner as provided in Section 2024 of this code to take such evidence, upon interrogatories to be propounded to the witness orally, upon the taking of which each party may appear before the commissioner, in person or by attorney, and interrogate the witness.

The party desiring such testimony shall give to the other the following notice of the time and place of taking the same, to wit: 10 days, and one day in addition thereto (Sundays included) for every 300 miles' travel from the place of holding the court to the place where such deposition is to be taken.

The provisions of subdivision (g) of Section 2019 shall apply to depositions taken under this section.

SEC. 9. Section 2030 of said code is amended to read:

Written interrogatories

2030. (a) Any party may file and serve upon any adverse party written interrogatories to be answered by the party served or, if the party served is a public or private corporation or a partnership or association, or body politic, by any officer or agent, who shall furnish such information as is available to the party. Interrogatories may be served upon any adverse party at any time after service of the summons or the appearance of such adverse party and without leave of court, except that, if service of interrogatories is made by the plaintiff within 10 days after such service of summons or appearance, leave of court granted with or without notice must first be obtained. The interrogatories shall be answered separately and fully in writing under oath. The answers shall be signed by the person making them; and the party upon whom the interrogatories have been served shall file and serve a copy of the answers on the party submitting the interrogatories within 15 days after the service of the interrogatories, unless the court, on motion and notice and for good cause shown, enlarges or shortens the time. Within 10 days after service of interrogatories a party may file and serve written objections thereto together with a notice of hearing the objections at the earliest

practicable time. Answers to interrogatories to which objection is made shall be deferred until the objections are determined. No party may serve more than one set of interrogatories to be answered by the same adverse party, except with leave of court obtained on motion after notice.

(b) Interrogatories may relate to any matters which can be inquired into under subdivision (b) of Section 2016 of this code, and the answers may be used to the same extent as provided in subdivision (d) of Section 2016 of this code for the use of the deposition of a party. Interrogatories may be served after a deposition has been taken, and a deposition may be sought after interrogatories have been answered, but the court, on motion of the deponent or the party interrogated, may make such protective order as justice may require. The number of interrogatories or of sets of interrogatories to be served is not limited except as above provided and except as justice requires to protect the party from annoyance, expense, embarrassment or oppression. The provisions of subdivision (b) of Section 2019 of this code are applicable for the protection of the party from whom answers to interrogatories are sought under this section.

(c) Where the answer to any interrogatory may be derived or ascertained from the business records of the party to whom such interrogatory is addressed or from an examination, audit or inspection of such business records, or from a compilation, abstract or summary based thereon, it shall be a sufficient answer to such interrogatory to specify the records from which the answer may be derived or ascertained and to afford to the party by whom the interrogatory was proposed reasonable opportunity to examine, audit or inspect such records and to make copies thereof or compilations, abstracts or summaries therefrom.

(d) Service of interrogatories under this section may be made upon any party or his attorney in the manner provided in Chapter 5, Title 14, Part 2 (commencing at Section 1010) of this code.

SEC. 10. Section 2032 of said code is amended to read:

Medical examinations

2032. (a) In an action in which the mental or physical condition or the blood relationship of a party, or of an agent or a person in the custody or under the legal control of a party, is in controversy, the court in which the action is pending may order the party to submit to a physical or mental or blood examination by a physician or to produce for such examination his agent or the person in his custody or legal control. The order may be made only on motion for good cause shown and upon notice to the person to be examined and to all parties and shall specify the time, place, manner, conditions, and scope of the examination and the person or persons by whom it is to be made.

(b) (1) If requested by the party against whom an order is made under subdivision (a) of this section or the person examined, the party causing the examination to be made shall

deliver to him a copy of a detailed written report of the examining physician setting out his findings and conclusions, together with like reports of all earlier examinations of the same condition After such request and delivery the party causing the examination to be made shall be entitled upon request to receive from the party or persons examined a like report of any examination, previously or thereafter made, of the same condition. If the party or person examined refuses to deliver such report the court on motion and notice may make an order requiring delivery on such terms as are just, and if a physician fails or refuses to make such a report the court may exclude his testimony if offered at the trial.

(2) By requesting and obtaining a report of the examination so ordered or by taking the deposition of the examiner, the party against whom an order is made under subdivision (a) of this section or the person examined waives any privilege he may have in that action or any other involving the same controversy, regarding the testimony of every other person who has examined or may thereafter examine him in respect of the same condition.

(3) Unless otherwise agreed, the provisions of subdivisions (b)(1) and (2) of this section shall be applicable in cases where an examination is made pursuant to stipulation.

(c) Service upon a party of any notice, motion or order made under this section may be made upon any party or his attorney in the manner provided in Chapter 5, Title 14, Part 2 (commencing at Section 1010) of this code.

SEC. 11. Section 2033 of said code is amended to read:

Genuineness of documents

2033. (a) After service of summons or the appearance of a party, any other party who has appeared in the action may file and serve upon such party who has been served or who has appeared a written request for the admission by the latter of the genuineness of any relevant documents described in the request or of the truth of any relevant matters of fact set forth in the request. If a plaintiff desires to serve a request within 10 days after such service of summons or appearance, leave of court, granted with or without notice, must be obtained. Copies of the documents shall be served with the request unless copies have already been furnished, and upon request the originals shall be made available for inspection. Each of the matters of which an admission is requested shall be deemed admitted unless, within a period designated in the request, not less than 10 days after service thereof or within such shorter or longer time as the court may allow on motion and notice, the party to whom the request is directed files and serves upon the party requesting the admission either (1) a sworn statement denying specifically the matters of which an admission is requested or setting forth in detail the reasons why he cannot truthfully admit or deny those matters or (2) written objections on the ground that some or all of the requested admissions are privileged or irrelevant or that the request is otherwise improper in whole or in part, together

with a notice of hearing the objections at the earliest practicable time. If written objections to a part of the request are made, the remainder of the request shall be answered within the period designated in the request. A denial shall fairly meet the substance of the requested admission, and when good faith requires that a party deny only a part or a qualification of a matter of which an admission is requested, he shall specify so much of it as is true and deny only the remainder. The number of requests for admissions or of sets of requests for admissions to be served is not limited except as justice requires to protect the party from annoyance, expense, embarrassment or oppression. The provisions of subdivision (b) of Section 2019 of this code are applicable for the protection of the party from whom admissions are requested under this section.

(b) Any admission made by a party pursuant to such request is for the purpose of the pending action only and neither constitutes an admission by him for any other purpose nor may be used against him in any other action.

(c) Service upon a party of any notice, motion, request or order under this section may be made upon any party or his attorney in the manner provided in Chapter 5, Title 14, Part 2 (commencing at Section 1010) of this code.

SEC. 12. Section 2034 of said code is amended to read:

Refusal to answer questions, etc

2034. (a) If a party or other deponent refuses to answer any question propounded upon examination during the taking of a deposition, the examination shall be completed on other matters or adjourned, as the proponent of the question may prefer. Such proponent, on reasonable notice to all persons affected thereby, may apply to the court in which the action is pending (if the deponent is a party or otherwise subject to the jurisdiction of such court), or if such court does not have jurisdiction over the deponent, to the superior court of the county in which the deposition is taken for an order compelling an answer. Such motion may also be made, without further notice, if the proponent notifies the refusing party or other deponent at the time of such refusal that the proponent will apply to the court for an order pursuant to this subdivision of this section, at a specified time not less than 10 nor more than 30 days from the date of such refusal, in which event the officer before whom the deposition is taken shall direct the refusing party or other deponent to attend a session of said court at said time Not less than five days prior to the hearing on any such motion, the proponent must lodge with the court the original transcript of such deposition. Upon the refusal of a party to answer any interrogatory submitted under Section 2030 of this code, the proponent of the question may on like notice make like application for such an order. Upon the refusal of a party to admit or deny the genuineness of any documents or the truth of any matters of fact, after having been served with a request under Section 2033 of this code, the party serving such request may on like notice make like application for an order requiring further answers to such request

or, in the alternative, for an order that the genuineness of said documents or the truth of said matters of fact be deemed admitted for the purpose of the action. If the motion is granted and if the court finds that the refusal was without substantial justification the court may require the refusing party or deponent and the party or attorney advising the refusal or either of them to pay to the examining party the amount of the reasonable expenses incurred in obtaining the order, including reasonable attorney's fees. If the motion is denied and if the court finds that the motion was made without substantial justification, the court may require the examining party or the attorney advising the motion or both of them to pay to the refusing party or witness the amount of the reasonable expenses incurred in opposing the motion including reasonable attorney's fees.

(b) (1) The court may punish as a contempt (i) the refusal of any person to obey a subpoena issued by that court to attend a deposition or to be sworn as a witness, or (ii) the refusal of any person to attend a session of court (either personally or by his attorney) after having been directed to attend in the manner provided in subdivision (a) of this section, or (iii) the refusal of any person to obey any order made by the court under subdivision (a) of this section.

(2) If any party or person for whose immediate benefit the action or proceeding is prosecuted or defended, or an officer, director, superintendent, member, agent, employee or managing agent of any such party or person refuses to obey an order made under subdivision (a) of this section, or if any party or an officer or managing agent of a party refuses to obey an order made under Sections 2019, 2031 or 2032 of this code, the court may make such orders in regard to the refusal as are just, and among others the following:

(i) An order that the matters regarding which the questions were asked, or the character or description of the thing or land, or the contents of the paper, or the physical or mental or blood condition of the person sought to be examined, or any other designated facts shall be taken to be established for the purposes of the action in accordance with the claim of the party obtaining the order;

(ii) An order refusing to allow the disobedient party to support or oppose designated claims or defenses, or prohibiting him from introducing in evidence designated documents or things or items of testimony, or from introducing evidence of the physical or mental or blood condition of the person sought to be examined;

(iii) An order striking out pleadings or parts thereof, or staying further proceedings until the order is obeyed, or dismissing the action or proceeding or any part thereof, or rendering a judgment by default against the disobedient party;

(iv) An order requiring the disobedient party or the attorney advising such disobedience to pay to the party obtaining

an order under this section the reasonable expenses incurred in obtaining the order, including reasonable attorney's fees.

(v) In lieu of any of the foregoing orders or in addition thereto, an order directing the arrest of any party or agent of a party for disobeying any of such orders except an order to submit to a physical or mental or blood examination;

(vi) Where a party has failed to comply with an order under subdivision (a) of Section 2032 of this code requiring him to produce another for examination, such orders as are listed in (i), (ii), and (iii) of this subdivision of this section, unless the party failing to comply shows that he is unable to produce such person for examination.

(c) If a party, after being served with a request under Section 2033 of this code to admit the genuineness of any documents or the truth of any matters of fact, serves a sworn denial thereof and if the party requesting the admissions thereafter proves the genuineness of any such document or the truth of any such matter of fact, he may apply to the court in the same action for an order requiring the other party to pay him the reasonable expenses incurred in making such proof, including reasonable attorney's fees. If the court finds that there were no good reasons for the denial and that the admissions sought were of substantial importance, the order shall be made.

(d) If a party or a person for whose immediate benefit the action or proceeding is prosecuted or defended or anyone who at the time the deposition is set is an officer, director, or managing agent of any such party or person willfully fails to appear before the officer who is to take his deposition, after said party or his attorney has been served with a proper notice in accordance with the provisions of subdivision (a)(4) of Section 2019 of this code, or if a party or an officer or managing agent of a party willfully fails to serve answers to interrogatories submitted under Section 2030 of this code, after proper service of such interrogatories, the court on motion and notice may strike out all or any part of any pleading of that party, or dismiss the action or proceeding or any part thereof, or enter a judgment by default against that party, or impose such other penalties of a lesser nature as the court may deem just, and may order that party or his attorney to pay to the moving party the reasonable expenses in making such motion, including reasonable attorney's fees.

SEC. 13. Section 1991.1 is added to the Code of Civil Procedure, to read:

Disobedience to a subpoena

1991.1. Disobedience to a subpoena requiring attendance of a witness before an officer out of court in a deposition taken pursuant to Article 3, Chapter 3, Title 3, Part 4 (commencing at Section 2016), or refusal to be sworn as a witness at such deposition, may be punished as contempt, as provided in Section 2034, without the necessity of a prior order of court directing compliance by the witness.

SEC. 14. Section 1991.2 is added to the Code of Civil Procedure, to read:

Sections applicable

1991.2. On and after the ninety-first day after adjournment of the 1959 Regular Session, the provisions of Section 1991 shall not apply to any act or omission thereafter occurring in a deposition taken pursuant to Article 3, Chapter 3, Title 3, Part 4 (commencing at Section 2016) but the provisions of Section 2034 shall be exclusively applicable.

CHAPTER 1592

An act to add Section 30610 to the Streets and Highways Code, relating to the San Francisco-Oakland Bay Bridge.

In effect September 18, 1959

[Approved by Governor July 6, 1959. Filed with Secretary of State July 7, 1959.]

If any officer whose signature or countersignature appears on any bonds or coupons ceases to be an officer before the delivery of the bonds to the purchaser, the signature or countersignature either on the bonds or the coupons, or on both, is nevertheless valid and sufficient for all purposes the same as if the officer had remained in office until the delivery of the bonds, and the signature upon the coupons of the person who is treasurer at the date of the bonds, is valid although the bonds themselves may be attested by a different person who is treasurer at the time of delivery of the bonds.

Bids

7224. Before selling the bonds, or any part thereof, the board shall give notice inviting sealed bids in such manner as it may prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. 7225. The proceeds from the sale of the bonds shall be paid into the treasury of the district and placed to the credit of a special improvement fund and expended only for the purpose for which the indebtedness was created; however, when the purpose has been accomplished, any moneys remaining in the

special improvement fund may be transferred to the fund to be used for the payment of the principal of and interest on the bonds.

Limitation of actions

7226. Any action or proceeding, wherein the validity of any such bonds or of proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of the issuance thereof; otherwise said bonds and all proceedings in relation thereto shall be held to be valid and in every respect legal and incontestable.

If such provision is so inserted and if the bonds are authorized by a fifty-one percent (51%) favorable vote, the board may insert in the ordinance or resolution providing for the issuance of such bonds a provision for such limited tax levy and such terms, conditions and covenants as may be necessary or convenient for the carrying out of such provision. to be levied, as herein provided sufficient to pay the interest and principal as will become due before the proceeds of a tax levied at the next general tax levy will be available.

CHAPTER 1605

An act to add Section 8961.5 to the Health and Safety Code, relating to public cemetery districts, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 6, 1959. Filed with Secretary of State July 7, 1959.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 8961.5 is added to the Health and Safety Code, to read:

8961.5. No deposit is required in the endowment care fund of a district for any burial in a cemetery of the district if the endowment care fund of the district was established and created subsequent to September 11, 1957, and the board of trustees of the district adopt a resolution declaring that such deposits shall not be required

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect The facts constituting such necessity are:

Several public cemetery districts established endowment care funds due to a misinterpretation of a 1957 statute. Since, where an endowment care fund is established, the law requires that a deposit be made in the fund for burials in a cemetery, this has increased the costs of the burial of decedents who, as taxpayers of a district, supported the maintenance of the district cemetery for years. To eliminate this charge before additional decedents are buried in these district cemeteries, it is necessary that this act take effect immediately.

SEC. 2. Section 5722 is added to said code, to read:

5722. Facilities are presently being completed for an opportunity work center for the blind in Los Angeles. It is necessary to place such opportunity work center in operation at the earliest possible date in order to permit transfer thereto of less efficient blind workers now using the facilities of the Los Angeles production center of the California Industries for the Blind and thus provide work opportunity for more efficient blind workers at said production center. The law now requires a local sponsor for each opportunity work center for the blind. Great delays have been encountered in obtaining suitable sponsors. This measure will eliminate the requirement of obtaining a local sponsor. The avoidance of delay in placing the opportunity work centers in operation will contribute to the expeditious and efficient employment of the blind.

The people of the State of California do enact as follows:

SECTION 1. Chapter 12 (commencing at Section 6950) is added to Division 7 of Title 1 of the Government Code, to read:

CHAPTER 12. PURCHASE OF INTERESTS AND RIGHTS IN REAL PROPERTY

Legislative intent

6950. It is the intent of the Legislature in enacting this chapter to provide a means whereby any county or city may acquire, by purchase, gift, grant, bequest, devise, lease or otherwise, and through the expenditure of public funds, the fee or any lesser interest or right in real property in order to preserve, through limitation of their future use, open spaces and areas for public use and enjoyment.

Purpose

6951. The Legislature finds that the rapid growth and spread of urban development is encroaching upon, or eliminating, many open areas and spaces of varied size and character, including many having significant scenic or esthetic values, which areas and spaces if preserved and maintained in their present open state would constitute important physical, social, esthetic or economic assets to existing or impending urban and metropolitan development.

Same

6952. The Legislature hereby declares that it is necessary for sound and proper urban and metropolitan development, and in the public interest of the people of this State for any county or city to expend or advance public funds for, or to accept by, purchase, gift, grant, bequest, devise, lease or otherwise, the fee or any lesser interest or right in real property to acquire, maintain, improve, protect, limit the future use of or otherwise conserve open spaces and areas within their respective jurisdictions.

Public purpose

6953. The Legislature further declares that the acquisition of interests or rights in real property for the preservation of open spaces and areas constitutes a public purpose for which public funds may be expended or advanced, and that any county or city may acquire, by purchase, gift, grant, bequest, devise, lease or otherwise, the fee or any lesser interest, development right, easement, covenant or other contractual right necessary to achieve the purposes of this chapter. Any county or city may also acquire the fee to any property for the purpose of conveying or leasing said property back to its original

owner or other person under such covenants or other contractual arrangements as will limit the future use of the property in accordance with the purposes of this chapter.

"Open space" or "open area"

6954. For the purposes of this chapter an "open space" or "open area" is any space or area characterized by (1) great natural scenic beauty or (2) whose existing openness, natural condition, or present state of use, if retained, would enhance the present or potential value of abutting or surrounding urban development, or would maintain or enhance the conservation of natural or scenic resources.

In effect September 18, 1959

[Approved by Governor July 7, 1959. Filed with Secretary of State July 8, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Article 5.9 is added to Chapter 1, Part 2, Division 1 of the Insurance Code, to read:

Article 5.9. Credit Life and Disability Insurance

Purpose

779.1. The purpose of this article is to promote the public welfare by regulating credit life insurance and credit disability insurance. Nothing in this article is intended to prohibit or discourage reasonable competition. The provisions of this article shall be liberally construed.

Applicability; definitions

779.2. All life insurance and all disability insurance sold in connection with loans or other credit transactions shall be subject to the provisions of this article except such insurance

sold in connection with a loan or other credit transaction of more than five years duration. Nothing in this article shall be construed to relieve any person from compliance with any other applicable law of this State.

For the purpose of this article:

(1) "Credit life insurance" means insurance on the life of a debtor pursuant to or in connection with a specific loan or other credit transaction, exclusive of any such insurance procured at no expense to the debtor. Insurance shall be deemed procured at no expense to the debtor unless the cost of the credit transaction to the debtor varies depending on whether or not the insurance is procured;

(2) "Credit disability insurance" means insurance on a debtor to provide indemnity for payments becoming due on a specific loan or other credit transaction while the debtor is disabled as defined in the policy;

(3) "Creditor" means the lender of money or vendor or lessor of goods, services, property, rights or privileges, for which payment is arranged through a credit transaction or any successor to the right, title or interest of any such lender, vendor or lessor, and an affiliate, associate or subsidiary of any of them or any director, officer or employee of any of them or any other person in any way associated with any of them;

(4) "Debtor" means a borrower of money or a purchaser or lessee of goods, services, property, rights or privileges for which payment is arranged through a credit transaction.

(5) "Indebtedness" means the total amount payable by a debtor to a creditor in connection with a loan or other credit transaction.

Issuance of insurance

779.3. Credit life insurance and credit disability insurance shall be issued only in the following forms:

(a) Individual policies of life insurance issued to debtors on the term plan;

(b) Individual policies of disability insurance issued to debtors on a term plan or disability benefit provisions in individual policies of credit life insurance;

(c) Group policies of life insurance issued to creditors providing insurance upon the lives of debtors on the term plan;

(d) Group policies of disability insurance issued to creditors on a term plan insuring debtors or disability benefit provisions in group credit life insurance policies to provide such coverage.

Amount of insurance

779.4. The amount of credit life insurance and credit disability insurance shall not exceed the following:

(a) The amount of credit life insurance shall not exceed the initial indebtedness or the indebtedness existing at the date of claim, whichever is greater. Where an indebtedness repayable in substantially equal installments is secured by an individual policy of credit life insurance the amount of insurance shall at no time exceed the scheduled amount of indebtedness and,

where secured by a group policy of credit life insurance shall at no time exceed the amount of unpaid indebtedness.

(b) The amount of periodic indemnity payable by credit disability insurance in the event of disability, as defined in the policy, shall not exceed the aggregate of the periodic scheduled unpaid installments of indebtedness and shall not exceed the original indebtedness divided by the number of periodic installments.

Term

779.5. The term of any credit life insurance or credit disability insurance shall, subject to acceptance by the insurer, commence on the date when the debtor becomes obligated to the creditor, except that, where a group policy provides coverage with respect to existing obligations, the insurance on a debtor with respect to such indebtedness shall commence on the effective date of the policy. The term of such insurance shall not extend more than 15 days beyond the scheduled maturity date of the indebtedness except when extended without additional cost to the debtor. If the indebtedness is discharged due to renewal or refinancing prior to the scheduled maturity date, the insurance in force shall be terminated before any new insurance may be issued in connection with the renewed or refinanced indebtedness. In all cases of termination prior to scheduled maturity, a refund shall be paid or credited as provided in Section 779.14.

Individual policy

779.6. Notwithstanding the provisions of Section 10203.5, all credit life insurance and credit disability insurance subject to this article shall be evidenced by an individual policy, or in the case of group insurance by a certificate of insurance, which individual policy or group certificate of insurance shall be delivered to the debtor.

Each individual policy or group certificate of credit life insurance or of credit disability insurance or any combination thereof shall, in addition to other requirements of law, set forth the name and home office address of the insurer, the name or names of the debtor, the premium or amount of payment, if any, by the debtor separately for credit life insurance and credit disability insurance, a description of the coverage including the amount and term thereof, and any exceptions, limitations or restrictions, and shall state that the benefits shall be paid to the creditor holding the indebtedness to reduce or extinguish the unpaid indebtedness and, wherever the amount of insurance may exceed the unpaid indebtedness, that any such excess shall be payable to a beneficiary, other than the creditor, named by the debtor or to his estate. Said individual policy or group certificate of insurance shall be delivered to the insured debtor at the time the indebtedness is incurred except as hereinafter provided.

Delivery of documents

779.7. If a creditor requires a debtor to make any payment for credit life insurance or credit disability insurance, and an individual policy or group certificate of insurance is not delivered to the debtor at the time the indebtedness is incurred, a copy of the application for such policy or a notice

of proposed insurance, signed by the debtor and setting forth the name and home office address of the insurer, the name or names of the debtor, the premium or amount of payment by the debtor separately for credit life insurance and credit disability insurance, the amount, term and a brief description of the coverage provided, shall be delivered to the debtor at the time such indebtedness is incurred. The copy of the application for, or notice of proposed insurance shall refer exclusively to insurance coverage, and shall be separate and apart from the loan, sale or other credit statement of account, instrument or agreement, unless the information required by this subsection is prominently set forth therein. Upon acceptance of the insurance by the insurer and within thirty (30) days of the date upon which the indebtedness is incurred, the insurer shall cause the individual policy or group certificate of insurance to be delivered to the debtor. Said application or notice of proposed insurance shall state that upon acceptance by the insurer, the insurance shall become effective as of the date the indebtedness is incurred. A debtor shall not be deemed to be required to make any payment for credit life insurance or credit disability insurance unless the cost of the credit transaction to the debtor varies depending upon whether or not such insurance is procured.

Filing with commissioner

779.8. All policies, certificates of insurance, notices of proposed insurance, applications for insurance, endorsements and riders shall be filed with the commissioner of the state in which the policy is issued.

Disapproval

779.9. The commissioner shall within 30 days after the filing of any such policies, certificates of insurance, notices of proposed insurance, applications for insurance, endorsements and riders, disapprove any such form if the benefits provided therein are not reasonable in relation to the premium charge, or if it contains provisions which are unjust, unfair, inequitable, misleading, deceptive or encourage misrepresentation of the coverage, or are contrary to any provision of the Insurance Code or of any rule or regulation promulgated thereunder.

Applicable law

779.10. The provisions of Sections 10290 and 10291 relating to the filing, approval and disapproval of disability policy forms shall be applicable to forms, whether of life or disability insurance, required by this article to be filed with or approved by the commissioner.

Same

Judicial review

779.12. Any order or final determination of the commissioner under the provisions of Sections 779.8 to 779.11, both inclusive, shall be subject to judicial review.

Schedule of premium rates

779.13. Each insurer issuing credit life insurance or credit disability insurance shall file with the commissioner its schedules of premium rates for use in connection with such insur-

ance. Any insurer may revise such schedules from time to time, and shall file such revised schedules with the commissioner. No insurer shall issue any credit life insurance policy or credit disability insurance policy for which the premium rate exceeds that determined by the schedules of such insurer as then on file with the commissioner. The commissioner may require the filing of the schedule of premium rates for use in connection with and as a part of the specific policy filings as provided by Section 779.8.

Refund on prior terminations

779.14. Each individual policy, group certificates or notices of proposed insurance shall provide that in the event of termination of the insurance prior to the scheduled maturity date of the indebtedness, any refund of an amount paid by the debtor for insurance shall be paid promptly to the person entitled thereto or credited to the next payment or payments due on the indebtedness; provided, however, that the commissioner shall prescribe a minimum refund and no refund which would be less than such minimum need be made. The formula to be used in computing such refund shall be filed with and approved by the commissioner.

Notice and credit

779.15. If a creditor requires a debtor to make any payment for credit life insurance or credit disability insurance and an individual policy or group certificate of insurance is not issued, the creditor shall immediately give written notice to such debtor and shall promptly make an appropriate credit to the next payments due on the account.

Amount charged

779.16. The amount charged by the creditor to the debtor for any credit life or credit disability insurance shall not exceed the premium rate filed with the commissioner for the coverage provided.

Exceptions

779.17. Nothing in this act shall be construed to authorize any charge now prohibited under any statute or rule governing credit transactions, irrespective of whether the same is contained in this code or made pursuant thereto.

Delivery of insurance in this State

779.18. All policies of credit life insurance and credit disability insurance shall be delivered or issued for delivery in this State only by an admitted insurer, and shall be issued only through holders of certificates, licenses or authorizations issued by the commissioner. All claims shall be paid either by draft drawn upon the insurer or by check of the insurer to the order of the claimant to whom payment of the claim is due pursuant to the policy provisions, or upon direction of such claimant to one specified.

No plan or arrangement shall be used whereby any person, firm or corporation other than the insurer or its designated

claim representative shall be authorized to settle or adjust claims. The creditor shall not be designated as claim representative for the insurer in adjusting claims; provided, that a group policyholder may, by arrangement with the group insurer, draw drafts or checks in payment of claims due to the group policyholder subject to audit and review by the insurer.

Security

779.20. When credit life insurance or credit disability insurance is required as additional security for any indebtedness, the debtor shall, upon request to the creditor, have the option of furnishing the required amount of insurance through existing policies of insurance owned or controlled by him or of procuring and furnishing the required coverage through any insurer authorized to transact an insurance business within this State. This section shall not prevent the creditor from exercising his right to approve or disapprove of the insurer furnishing the credit insurance.

Rules and regulations

779.21. The commissioner may adopt, pursuant to the provisions of Chapter 5 of Part 1 of Divisions 3 of Title 2 of the Government Code, such reasonable rules and regulations as may be necessary to carry out the provisions of this article.

Revocation, etc., of license

779.22. The commissioner, in his discretion, may revoke or suspend the license or certificate of authority of any person guilty of a violation of any provisions of this article or any rules and regulations adopted pursuant thereto. In addition to any other penalty provided by law, any person who violates an order of the commissioner after it has become final, and while such order is in effect, shall, upon proof thereof to the satisfaction of the court, forfeit and pay to the State of California a sum not to exceed two hundred fifty dollars ($250) which may be recovered in a civil action, except that if such violation is found to be willful, the amount of such penalty shall be a sum not to exceed one thousand dollars ($1,000).

Violations

779.23. Whenever the commissioner finds that there has been a violation by an insurer of this article or any rules or regulations issued pursuant thereto, he shall proceed as provided in Section 701. Whenever the commissioner finds that there has been such a violation by any licensee other than an insurer, he shall proceed as provided in Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code.

The people of the State of California do enact as follows:

SECTION 1. Section 22050 of the Financial Code is amended to read:

22050. This division does not apply to any person doing business under any law of this State or of the United States relating to banks, trust companies, building and loan associations, industrial loan companies, credit unions, small business investment companies, or licensed pawnbrokers. SEC. 2. Section 22458.1 is added to said code, reading as follows:

22458.1. Credit life insurance on the life of a borrower shall not be deemed to be a collateral sale, purchase, or agreement within the terms of Sections 22004, 22456 or 22457 when such insurance is provided in accordance with the provisions of the Insurance Code and this section. Credit life insurance

(a) A licensee may provide insurance on the life of one or more borrowers with his or her consent, the form to be approved by the commissioner and in an amount not in excess of the amount of the indebtedness and may collect from the borrower an amount not in excess of that permitted by subdivision (d) of this section. If the loan is prepaid in full by cash, a new loan, refinancing or otherwise (except by said

insurance) before the final installment date, the borrower shall receive a rebate of said amount computed in accordance with the method established in Section 22480 or in accordance with the formula approved by the Commissioner of Insurance pursuant to Section 779.14 of the Insurance Code, whichever would result in a greater rebate to the borrower. When charges for the loan are precomputed in accordance with Section 22480, any required rebate and any permitted deferment charge may be computed on the combined total of the precomputed charge and the life insurance charge. Only one such amount may be collected in connection with any loan contract irrespective of the number of borrowers, and only one borrower need be insured. Such amount may be deducted from the principal of the loan. If the insured borrower dies during the term of the loan contract, the insurance must be sufficient to pay the total amount due on the loan (excluding unearned charges) outstanding on the date of his death without any exception, reservation or limitation. The insurance shall be in force as soon as the loan is made. No premium or identifiable charge shall be collected for any risk other than death.

(b) No licensee shall decline new or existing insurance which meets or exceeds the standards set forth in this section, nor prevent any borrower from obtaining such insurance coverage from other sources. A licensee shall not require credit life insurance as a condition of making a loan.

(c) If a borrower procures such insurance by or through a licensee, the statement required by Section 22473 shall disclose the cost thereof to the borrower, and the licensee shall deliver or cause to be delivered to the borrower a copy of the policy, certificate, or other evidence thereof, within a reasonable time.

(d) The amount charged to the borrower for such insurance shall not exceed the amount provided in (1) or (2) following, whichever is less:

(1) The premium rate filed with the Commissioner of Insurance for the coverage provided pursuant to Article 5.9 of Chapter 1, Part 2, Division 1 of the Insurance Code and which has not been disapproved by him, or

(2) Fifty cents ($0.50) per year per one hundred dollars ($100) of indebtedness (and in the same proportion for longer or shorter maturities and larger or smaller amounts) or such different maximum as shall have been fixed by the Commissioner of Insurance by a valid and effective regulation adopted on or after December 31, 1961 and applicable to all licensees under the Personal Property Broker Law.

(e) Each two years beginning in 1961, the commissioner shall, not later than 90 days after the date when licensees are required to file annual reports pursuant to Section 22408, compile and send to the Commissioner of Insurance the total dollar amount of all death claims paid on insured borrowers together with data from which the amounts at risk may be calculated, the sum of the total charges col-

lected by such licensees for such insurance and data as to the actual costs to such licensees for providing and servicing such insurance (excluding any sums paid to or received from insurance companies) for each of the 12 months during each of the preceding years being reported upon. The Commissioner of Insurance shall study the data so furnished by the Commissioner of Corporations together with any trend factors established by other California credit life insurance experience and shall promulgate and establish a general regulation fixing the maximum which may be charged for such insurance by licensees hereunder having due regard to the relation of the total amount of death claims paid to the amounts at risk during the same period, and a reasonable margin for contingencies and cost and compensation to licensees for providing and servicing such insurance, plus the premium taxes payable on the probable premiums to be charged by insurers, plus the probable, but not unreasonable, mark-up to be added by insurers to the risk cost. Any such changed maximum rate of premium or identifiable charge shall not affect any insurance then in force on borrowers. Any regulation under this section shall be adopted after a hearing and in accordance with Title 2, Division 3, Part 1, Chapter 4 of the Government Code.

CHAPTER 1675

An act to amend Section 13739 of the Education Code, as enacted by the Legislature at its 1959 Regular Session, relating to probationary period for noncertificated school district employees.

The rights of appeal from disciplinary action during the probationary period shall be in accordance with the provisions of Section 13743.

CHAPTER 1676

An act to add Section 31557.2 to the Government Code, relating to the retirement of public officers and employees, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 7, 1959. Filed with Secretary of State July 8, 1959.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 31557.2 is added to said code, to read:

31557.2. Any action heretofore taken by the governing body of a district under Section 31557, or under color of that section, is hereby confirmed and validated and made fully effective. Membership in the association of any officers and employees of any district who were included in the association by such action of the governing body, is hereby validated and confirmed and made fully effective as of the time of such inclusion.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order for certain district officers and employees to be included in the Federal Old Age Insurance and Survivors' Benefit Program, it is necessary that such officers and employees be members of a public retirement system. The procedure for their inclusion in a county retirement system is prescribed by Government Code Section 31557. Many such officers and employees who have been included in a county retirement system under that section have been contributing as county members for several years. However, in some cases there is a possibility that the action for their inclusion under Section 31557 in some minor detail did not conform strictly to the procedure prescribed in Section 31557. While it is extremely doubtful that such minor defect would invalidate the inclusion of such employees in the county retirement system, the defect may cause a delay in the pending actions for the inclusion of such officers and employees in the federal program and such delay may result in the loss to the officers and employees of the benefits

of the federal program. In order to prevent such delay and possible loss of benefits to district officers and employees who have been contributing as members of a county retirement system for a substantial period of time it is necessary that this act take effect immediately.

CHAPTER 1677

An act to add Sections 31641.6 and 31807 to, and to repeal Section 31807 of, the Government Code, relating to county employees' retirement.

In effect September 18, 1959

[Approved by Governor July 7, 1959. Filed with Secretary of State July 8, 1959.]

The people of the State of California do enact as follows:

Repeal

SECTION 1. Section 31807 of the Government Code is repealed.

SEC. 2. Section 31807 is added to said code, to read:

Amount of retirement allowance

31807. The retirement allowance payable under Section 31808 or Section 31809 of this code, whichever is applicable, to a person who was a member on the effective date of this article in any county pursuant to this article if not fully insured for old age payments under the federal system at time of retirement shall be not less than that amount for which he would have been eligible if this article were not applicable to the member.

Annual estimate of changes

1817. The board shall annually estimate any change that may have occurred in the full cash value of locally assessable tangible property between the lien date of the roll for which the last survey was made pursuant to Section 1815 and the lien date of the current roll. The board shall use as the basis for such estimate data on school enrollment, retail sales, wages, or other factors reasonably indicative of change or lack of change in the total full cash value of the property. The relationship between the total assessed value of the tangible property on the current local roll and the total full cash value of locally assessable tangible property so estimated shall be computed for each county of the State by the third Monday in July of each year. The board shall transmit promptly to each county assessor a statement of its determination relating to his county.

The tabulations shall show, in such a way as to prevent identification of individual parcels, the ratio of assessed to full cash value of each parcel of such tangible property in the sample of any survey in the county made in the last year pursuant to Section 1815. The tabulations shall also show the derivation of the total full cash value of the locally assessable tangible property on the current roll from the total full cash value of the locally assessable tangible property on the roll of a prior year pursuant to Section 1817. All such tabulations shall be open for inspection by all persons interested. Tabulations of ratio

SEC. 11. Section 1819 is added to said code, to read:

1819. As soon as tabulations have been made pursuant to Section 1818, but not later than August 1st, the board shall give the assessor of each county a reasonable opportunity to examine and discuss with it that portion of the tabulations affecting property in his county. After making any adjustment it deems appropriate as the result of such discussion, but not later than September 2d, the board shall make available for public inspection all such tabulations and shall publish the ratio of assessed to full cash value of locally assessable tangible property for each county. Examination and discussion

SEC. 12. Section 1820 is added to said code, to read:

Nothing herein shall prohibit disclosure of appraisal data by the assessor to the assessee of the property to which the data relate. Nonpublic data

SEC. 13. Section 1821 is added to said code, to read:

1821. Equalization by the board of the valuation of taxable property in counties for the purposes of taxation shall be by raising or lowering the value of locally assessable tangible property entered upon the secured roll by the assessor of the county in accordance with Section 9, Article XIII of the State Constitution. The application shall show the facts claimed to require action of Review

the board, and a copy thereof shall be filed with the assessor whose assessment is questioned.

SEC. 15. Section 1823 is added to said code, to read:

Final equalization

1823. The final action of the board in equalizing an assessment or a local roll shall be performed only at the State Capitol. On September 2d of each year, the secretary of the board shall transmit to each county auditor and the board of supervisors and each city council involved a preliminary statement of:

(a) Any changes that the board proposes to make in the local roll.

(b) The per centum that the board proposes to add to or deduct from the valuation of the roll.

Upon the request of any county that receives such a statement which desires to be heard with respect to the statement, an opportunity for such a hearing shall be afforded by the board. The request shall be submitted in writing by the board of supervisors prior to September 10th. The board shall consider all pertinent evidence offered at the hearing, and if such evidence warrants a change in the statement, it shall so find and alter the statement accordingly. Otherwise, the statement shall remain unchanged.

The preliminary statement shall become final on September 10th if no hearing is requested. If a hearing is requested the final determination shall be made by the board and the auditor shall be notified not later than September 25th.

SEC. 16. Section 1824 is added to said code, to read:

Auditor's duties

1824. As soon as the statement becomes final, the auditor shall enter the corresponding changes in a column provided with a proper heading on the roll, counting any fractional sum when more than five dollars ($5) as ten dollars ($10), and omitting it when five dollars ($5) or less, so that no separate valuation contains a fraction of ten dollars ($10), and he shall add the column to show the total value of the property in the county as corrected by the board.

SEC. 17. Section 1825 is added to said code, to read:

Adjustment of rates

1825. If the statement submitted by the board to any county or city pursuant to Section 1823 requires an increase or decrease in the valuation of property shown on the county's or city's secured roll, the board of supervisors shall adjust the rates of county and district taxes previously levied, or the city council shall adjust the rates of city and district taxes previously levied, so that no greater revenue will be produced for the current fiscal year for county, city and district purposes than was anticipated on the date of such levy. Any adjustment necessitated by a decrease in the valuation of the property may be made irrespective of any tax rate limitation prescribed elsewhere in the law.

A statement of the rates of taxation thus adjusted shall be transmitted by the clerk of the board of supervisors or of the city council to the State Controller within three days after the date of such adjustment.

SEC. 18. In making any determinations under Section 1817 of the Revenue and Taxation Code in the years 1960, 1961, and 1962, the board shall use for any county the latest comparable survey previously made by it for the county in lieu of a survey made pursuant to Section 1815 of that code. In accordance with this policy, criminal cases shall be given precedence over, and set for trial and heard without regard to the pendency of, any civil matters or proceedings.

No continuance of a criminal trial shall be granted except upon affirmative proof in open court, upon reasonable notice, that the ends of justice require a continuance. Provided, that upon a showing that the attorney of record at the time of the defendant's first appearance in the superior court is a Member of the Legislature of this State and that the Legislature is in session or that a legislative interim committee of which the attorney is a duly appointed member is meeting or is to meet within the next seven days, the defendant shall be entitled to a reasonable continuance not to exceed 30 days. No continuance shall be granted for any longer time than it is affirmatively proved the ends of justice require. Whenever any continuance is granted, the facts proved which require the continuance shall be entered upon the minutes of the court or, in a justice court, upon the docket. 3. When a defendant in a misdemeanor case in an inferior court is not brought to trial within 30 days after he is arrested and brought within the jurisdiction of the court or, in case the cause is to be tried again following a mistrial, an order granting a new trial from which an appeal is not taken, or an appeal from the inferior court, within 30 days after such mistrial has been declared, after entry of the order granting the new trial, or after the remittitur is filed in the trial court or, if the new trial is to be held in the superior court, within 30 days after the judgment on appeal becomes final; except that an action shall not be dismissed under this subdivision

if it is set for trial on a date beyond the 30-day period at the request of the defendant or with his consent, express or implied, or because of his neglect or failure to appear and if the defendant is brought to trial on the date so set for trial or within 10 days thereafter.

A redevelopment agency or housing authority which has acquired by purchase or gift any temporary housing project or projects, including temporary veterans' emergency housing projects, from the Federal Government or its assigns may, with respect to any such projects only, enter into a contract with any school district to provide for the furnishing of improvements, services, and facilities by the school district for the benefit of the housing project.

Contents of contract

Limitations

34605. The provisions of this part pertain to temporary housing projects only and may not be applied to permanent low-rent housing projects.

Effective period

34606. This part shall remain in effect until the ninety-first day after final adjournment of the 1961 Regular Session of the Legislature. While this part is in effect, it supersedes any existing provisions of law which are in conflict with this part, but such provisions will not be repealed by this part and after this part is no longer effective, they shall have the same force as though this part had not been enacted; and this part shall not constitute a precedent.

[Approved by Governor July 9, 1959. Filed with Secretary of State July 10, 1959.]

In effect September 18, 1959

The people of the State of California do enact as follows:

SECTION 1. Section 575.1 is added to the Welfare and Institutions Code, to read:

575.1. In counties having three or more judges a referee of a juvenile court may be appointed. Appointment of a referee

(a) The office of referee of a juvenile court is exempt from civil service.

(b) The salary of a juvenile court referee shall be fixed by the board of supervisors, with such annual increments, if any, as may be provided for in the county's civil service system for county employees with commensurate duties and responsibilities. The referee shall also receive such actual and necessary traveling expenses as he may incur in the performance of his duties.

(c) A juvenile court referee shall hold office at the pleasure of the juvenile court judge who appointed him, and his term of office shall continue only so long as that judge holds the office of juvenile court judge. This subdivision shall not preclude the reappointment of a juvenile court referee by a succeeding juvenile court judge.

(d) Where such county has more than one juvenile court judge, the juvenile court referee shall be appointed by the juvenile court judge who has seniority in time served in that capacity.

(e) Persons appointed as referee shall have a broad background in and ability for appraisal of juvenile law offenders and delinquency, the circumstances of delinquency, and evaluation of the individual's progress towards reformation. Insofar as practicable the referee shall have experience and interest in youth correctional work as well as experience and background in one of the following fields of correction: sociology, law, education or probation.

This section shall not apply to counties of the first, second and third classes.

SEC. 2. Section 576 of said code is amended to read:

576. Each referee appointed by the judge of the juvenile court shall have the usual powers of referees in chancery cases in all cases referred to him by the court, and he shall have such additional powers as may be given him upon such reference. The referee shall hear the testimony of witnesses and shall certify to the judge of the juvenile court his findings, together with his recommendation as to the judgment or order to be made in the case in question. Where a case is submitted to a Powers

referee without any previous order having been made for temporary custody of a person subject to the jurisdiction of the court, the referee shall also, from time to time, recommend to the court such orders for temporary custody as seem necessary.

SEC. 3. Section 578 of said code is amended to read:

Utilization of findings and recommendations

578. Upon the presentation of the findings and recommendations of the referee, the court may make such order in the case as it deems proper, or, after such notice as it deems proper to the persons interested in the case, may hear additional testimony or evidence and may approve or set aside the findings and recommendations of the referee, or may re-refer the case for the taking of further testimony or the making of further recommendations by the referee.

Repeals

SEC. 4. Sections 577 and 578.1 of said code are repealed.

CHAPTER 1723

An act to add Section 752 to the Welfare and Institutions Code, relating to the expunging of juvenile court records and other records relating to wards of the juvenile court.

In effect September 18, 1959

[Approved by Governor July 9, 1959. Filed with Secretary of State July 10, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 752 is added to the Welfare and Institutions Code, to read:

752. In any case in which a person became a ward of the juvenile court for the reasons described in subdivisions (f), (g), (h), (i), (j), (k), (m), or (n) of Section 700, or any other reason involving misconduct by such person, such person, or the county probation officer, may, five years or more after the jurisdiction of the juvenile court has terminated as to such person, petition the court for expungement of the records, including records of arrest, relating to such person's case, in the custody of the juvenile court and probation officer and such other agencies, including law enforcement agencies, and public officials, as petitioner alleges, in his petition, to have custody of such records. The court shall notify the district attorney of the county and the county probation officer, if he is not the petitioner, of the petition, and such district attorney or probation officer or any of their deputies or any other person having relevant evidence may testify at the hearing on the petition. If, after hearing, the court finds that since such termination of jurisdiction he has not been convicted of a felony or of any misdemeanor involving moral turpitude and that rehabilitation has been attained to the satisfaction of the court, it shall order expunged all records, papers, and exhibits in such person's case in the custody of the juvenile court, including the juvenile court record, minute book entries, and entries on dockets, and other records relating to the case, in the custody of such

other agencies and officials as are named in the order. Thereafter the proceedings in such case shall be deemed never to have occurred. The court shall send a copy of the order to each agency and official named therein, and each such agency and official shall expunge records in its custody as directed by the order.

CHAPTER 1724

SECTION 1. Division 3.5 (commencing with Section 700) is added to Title 1 of the Government Code, to read:

DIVISION 3.5. CLAIMS AGAINST THE STATE, LOCAL PUBLIC ENTITIES AND OFFICERS AND EMPLOYEES

CHAPTER 2. CLAIMS AGAINST LOCAL PUBLIC ENTITIES

Article 1. General

"Local public entity"

700. As used in this chapter, "local public entity" includes any county or city and any district, local authority or other political subdivision of the State but does not include the State or any office, officer, department, division, bureau, board, commission or agency thereof claims against which are paid by warrants drawn by the Controller.

Adoption of constitutional amendment

701. Until the adoption by the people of an amendment to the Constitution of the State of California confirming the authority of the Legislature to prescribe procedures governing the presentation, consideration and enforcement of claims against chartered counties, chartered cities and counties and chartered cities and against officers, agents and employees thereof, this chapter shall not apply to causes of action founded on contract against a chartered city and county or chartered city while it has an applicable claims procedure prescribed by charter or pursuant thereto.

Causes of action affected

702. This chapter applies only to claims relating to causes of action which accrue subsequent to its effective date.

Exemptions

703. Articles 1 and 2 of this chapter apply to all claims for money or damages against local public entities except:

(a) Claims under the Revenue and Taxation Code or other statute prescribing procedures for the refund, rebate, exemption, cancellation, amendment, modification or adjustment of

any tax, assessment, fee or charge or any portion thereof, or of any penalties, costs or charges related thereto.

(b) Claims in connection with which the filing of a notice of lien, statement of claim, or stop notice is required under any provision of law relating to mechanics', laborers' or materialmen's liens.

(c) Claims by public officers and employees for fees, salaries, wages, mileage or other expenses and allowances.

(d) Claims for which the workmen's compensation authorized by Division 4 (commencing with Section 3201) of the Labor Code is the exclusive remedy.

(e) Applications or claims for any form of public assistance under the Welfare and Institutions Code or other provisions of law relating to public assistance programs, and claims for goods, services, provisions or other assistance rendered for or on behalf of any recipient of any form of public assistance.

(f) Applications or claims for money or benefits under any public retirement or pension system.

(g) Claims for principal or interest upon any bonds, notes, warrants, or other evidences of indebtedness.

(h) Claims which relate to a special assessment constituting a specific lien against the property assessed and which are payable from the proceeds of such an assessment, by offset of a claim for damages against it or by delivery of any warrant or bonds representing it.

(i) Claims by the State or a department or agency thereof or by another local public entity.

(j) Claims arising under any provision of the Unemployment Insurance Code, including but not limited to claims for money or benefits, or for refunds or credits of employer or worker contributions, penalties or interest, or for refunds to workers of deductions from wages in excess of the amount prescribed.

(k) Claims for the recovery of penalties or forfeitures made pursuant to Article 1 of Chapter 1 of Part 7 of Division 2 of the Labor Code (commencing at Section 1720).

Claim made under prior law

704. A claim against a local public entity presented in substantial compliance with any other applicable claims procedure established by or pursuant to a statute, charter or ordinance in effect immediately prior to the effective date of this chapter shall satisfy the requirements of Articles 1 and 2 of this chapter, if such compliance takes place before the repeal of such statute, charter or ordinance or before July 1, 1964, whichever occurs first. Section 716 is applicable to claims governed by this section.

Claim procedure as established by agreement

705. The governing body of a local public entity may include in any written agreement to which the entity, its governing body, or any board or officer thereof in an official capacity is a party, provisions governing the presentation, by or on behalf of any party thereto, of any or all claims arising

out of or related to the agreement and the consideration and payment of such claims. The written agreement may incorporate by reference claim provisions set forth in a specifically identified ordinance or resolution theretofore adopted by the governing body. A claims procedure established by an agreement made pursuant to this section exclusively governs the claims to which it relates, except that the agreement may not require a shorter time for presentation of claims than the time provided in Section 715, and that Section 716 is applicable to all such claims.

Article 2. Presentation, Consideration and Enforcement of Claims

Necessity of written claim

710. No suit for money or damages may be brought against a local public entity on a cause of action for which this chapter requires a claim to be presented until a written claim therefor has been presented to the entity in conformity with the provisions of this article.

Contents

711. A claim shall be presented by the claimant or by a person acting on his behalf and shall show:

(a) The name and post office address of the claimant;

(b) The post office address to which the person presenting the claim desires notices to be sent;

(c) The date, place and other circumstances of the occurrence or transaction which gave rise to the claim asserted;

(d) A general description of the indebtedness, obligation, injury, damage or loss incurred so far as it may be known at the time of presentation of the claim; and

(e) The amount claimed as of the date of presentation of the claim, together with the basis of computation thereof.

The claim shall be signed by the claimant or by some person on his behalf.

A claim may be amended at any time, and the amendment shall be considered a part of the original claim for all purposes.

Insufficiency of claim. Notice

712. If in the opinion of the governing body of the local public entity a claim as presented fails to comply substantially with the requirements of Section 711 the governing body may, at any time within fifty (50) days after the claim is presented, give written notice of its insufficiency, stating with particularity the defects or omissions therein.

Such notice may be given by mailing it to the address, if any, stated in the claim as the address to which the person presenting the claim desires notices to be sent. If no such address is stated in the claim, the notice may be mailed to the address, if any, of the claimant as stated in the claim.

The governing body may not take action on the claim for a period of twenty (20) days after such notice is given. A failure or refusal to amend the claim shall not constitute a defense to any action brought upon the cause of action for which the claim was presented if the court finds that the claim as presented complied substantially with Section 711.

Waiver of defense

713. Any defense based upon a defect or omission in a claim as presented is waived by failure of the governing body to mail notice of insufficiency with respect to such defect or omission as provided in Section 712, except that no notice need be mailed and no waiver shall result when the claim as presented fails to state either an address to which the person presenting the claim desires notices to be sent or an address of the claimant.

Presentment of claim

714. A claim may be presented to a local public entity (1) by delivering the claim to the clerk, secretary or auditor thereof within the period of time prescribed by Section 715 or (2) by mailing the claim to such clerk, secretary or auditor or to the governing body at its principal office not later than the last day of such period. A claim shall be deemed to have been presented in compliance with this section even though it is not delivered or mailed as provided herein if it is actually received by the clerk, secretary, auditor or governing body within the time prescribed.

Time of presentment

715. A claim relating to a cause of action for death or for physical injury to the person or to personal property or growing crops shall be presented as provided in Section 714 not later than the one hundredth day after the accrual of the cause of action. A claim relating to any other cause of action shall be presented as provided in Section 714 not later than one year after the accrual of the cause of action.

For the purpose of computing the time limit prescribed by this section, the date of accrual of a cause of action to which a claim relates is the date upon which the cause of action accrued within the meaning of the applicable statute of limitations.

Persons under disability

716. The superior court of the county in which the local public entity has its principal office shall grant leave to present a claim after the expiration of the time specified in Section 715 if the entity against which the claim is made will not be unduly prejudiced thereby, where no claim was presented during such time and where:

(a) Claimant was a minor during all of such time; or

(b) Claimant was physically or mentally incapacitated during all of such time and by reason of such disability failed to present a claim during such time; or

(c) Claimant died before the expiration of such time.

Application for such leave must be made by verified petition showing the reason for the delay. A copy of the proposed claim shall be attached to the petition. The petition shall be filed within a reasonable time, not to exceed one year, after the time specified in Section 715 has expired. A copy of the petition and the proposed claim and a written notice of the time and place of hearing thereof shall be served on the clerk or secretary or governing body of the local public entity not less than 10 days before such hearing. The application shall be determined upon the basis of the verified petition, any affidavits in support of or in opposition thereto, and any additional evidence received at such hearing.

717. The governing body shall act on a claim in one of the following ways: Action on claim

(a) If the governing body finds the claim is not a proper charge against the local public entity, it shall reject the claim.

(b) If the governing body finds the claim is a proper charge against the local public entity and is for an amount justly due, it shall allow the claim.

(c) If the governing body finds the claim is a proper charge against the local public entity but is for an amount greater than is justly due, it shall either reject the claim or allow it in the amount justly due and reject it as to the balance. If the governing body allows the claim in part and rejects it in part it may require the claimant, if he accepts the amount allowed, to accept it in settlement of the entire claim.

Notice of any action taken under this section rejecting a claim in whole or in part shall be given in writing by the clerk, secretary or auditor of the local public entity to the person who presented the claim.

718. Where this chapter requires that a claim be presented to the local public entity and a claim is presented and action thereon is taken by the governing body: Allowance of claim

(a) If the claim is allowed in full and the claimant accepts the amount allowed no suit may be maintained on any part of the cause of action to which the claim relates.

(b) If the claim is allowed in part and the claimant accepts the amount allowed, no suit may be maintained on that part of the cause of action which is represented by the allowed portion of the claim.

(c) If the claim is allowed in part no suit may be maintained against such entity on any portion of the cause of action where, pursuant to a requirement of the governing body to such effect, the claimant has accepted the amount allowed in settlement of the entire claim.

Nothing in this article shall be construed to deprive a claimant of the right to resort to writ of mandamus or other proceeding against the local public entity or the governing body or any officer thereof to compel it or him to pay the claim when and to the extent that it has been allowed.

719. Except where a different statute of limitations is specifically applicable to a local public entity, any suit brought against a local public entity on a cause of action for which this chapter requires a claim to be presented must be commenced within the period of time prescribed by the statute of limitations which would be applicable thereto if the suit were being brought against a private party. Statute of limitations

720. Nothing in this chapter shall prohibit the governing body of a local public entity from compromising any suit based on a cause of action for which this chapter requires a claim to be presented. Compromising claim

Article 3. Claims Procedures Established by Local Public Entities

Claims procedures established by local public entities

730. Claims against a local public entity for money or damages which are excepted by Section 703 from Articles 1 and 2 of this chapter, and which are not governed by any other statutes or regulations expressly relating thereto, shall be governed by the procedure prescribed in any charter, ordinance or regulation adopted by the local public entity. The procedure so prescribed may include a requirement that a claim be presented as a prerequisite to suit thereon, but may not require a shorter time for presentation of any claim than the time provided in Section 715 of this code, and Section 716 of this code shall be applicable to all claims governed thereby.

Repeal

SEC. 2. Section 342 of the Code of Civil Procedure is hereby repealed.

SEC. 3. Section 313 is added to the Code of Civil Procedure, to read:

General procedure

313. The general procedure for the presentation of claims as a prerequisite to commencement of actions for money or damages against the State of California, counties, cities, cities and counties, districts, local authorities, and other political subdivisions of the State, and against the officers and employees thereof, is prescribed by Division 3.5 (commencing with Section 600) of Title 1 of the Government Code.

Prior claims

SEC. 4. Nothing in this act shall be deemed to allow suit or reinstate claims which have been denied or barred prior to the effective date of this act, including but not limited to claims under the Revenue and Taxation Code which have been denied or barred by the provisions of the Government Code.

[Approved by Governor July 9, 1959. Filed with Secretary of State July 10, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 3 of Chapter 349 of the Statutes of 1873-74 is amended to read:

Sec. 3. The term of office of directors of the district shall be four years. At the general election for the election of state and county officers to be held next after the effective date of this act and at the general election to be held each fourth year thereafter three directors (who shall hold office for four years after the first Monday in March following their election and until their successors have been elected and qualify) shall be elected.

The directors shall each, within 10 days after their election, take the usual oath of office, and at their first meeting shall elect a chairman and a clerk from their number. A majority of the members of the board of directors shall constitute a quorum for the transaction of any business. The board of directors are hereby constituted and declared to be the legal representatives and successors to the Board of Supervisors of Sutter County, in all matters appertaining to Levee District No. 1, and are hereby authorized to take absolute charge, control and possession of all levees, or other works of reclamation, and all property, real and personal, belonging to said district, and to perform all the duties appertaining to said levee district heretofore devolving on said board of supervisors, except as herein provided. Each director of said district shall, before taking office and within 10 days after his election or appointment, file a bond in the sum of five hundred dollars ($500), with sufficient sureties, conditions for the faithful performance of his official duties, said bond to be approved by the judge of the superior court of said Sutter County and to be filed in the office of the county clerk of said county. The board of directors of said district shall, in addition to the duties now required of them by law, keep all necessary and proper books of account in which shall be entered all receipts and expenditures, with the source and nature of the same, for or on behalf of said district, and shall keep a minute book in which shall be entered the proceedings of each meeting of said board. The books and accounts of the district shall be experted once a year and the said board shall annually publish, in a newspaper printed and published in said district, a complete statistical report showing in detail the financial transactions for and on behalf of the district for the preceding year and the financial condition of the district. The board shall keep an office in said district for the transaction of the business thereof, and all books, maps, records, papers and contracts relating to the affairs of the district shall at all times be open to the inspection of the taxpayers of the district and all persons interested therein. The board shall hold regular meetings on the second Monday of each and every month and special meetings may be held at any time, all of the members of the board being present; or special meetings may be ordered by a majority of the board by an order in writing signed by the members calling such meeting. At least one day's notice of such special meeting must be given, personally or by mail, to the members not joining in the order. All meetings must be held at the office of the board. No member of the board shall be interested, directly or indirectly, in any property purchased for the use of the district, nor in the purchase or sale of any property belonging to the district, nor in any contract made by the board, or other person, on behalf of the district, for the construction or repair of any levee or other improvement for the district. The board shall annually cause to be prepared, and shall adopt, plans

and specifications of all necessary repairs to the levees of said district and of any new levees to be constructed and all other works of improvement for the benefit of the district, and shall divide such work into convenient sections. Said plans and specifications shall be filed in the office of the board not later than the first day of July of each year and shall be subject to inspection by any person interested therein for at least two weeks prior to the letting of any contract for work in accordance with such plans and specifications. If the cost of repair or construction in any one of said sections will exceed the sum of five hundred dollars ($500) the board must, not later than the first day of July in each year, give notice by publication at least once a week for two consecutive weeks in one or more newspapers printed and published in said Sutter County, that sealed proposals will be received and opened at the office of said board, at a time in said notice specified, for the construction of repairs, new levees and other works of improvement in each separate section of said work, and for the whole work, in accordance with said plans and specifications. At the time and place specified in said notice the board shall publicly open said bids and let the contract or contracts to the lowest responsible bidder or bidders; provided, however, that the board may reject any and all bids. If any or all such bids are rejected the board shall immediately readvertise for bids, as in the first instance, for such work as has not been let and upon the opening and consideration of such new bids the board shall have the right to reject any or all of them and have such work done by day's work. Every person, firm or corporation to whom a contract shall be awarded shall enter into a bond with sufficient sureties, to be approved by the board, in a sum equal to one-half of the contract price, conditioned for the faithful performance of said contract in accordance with said plans and specifications. In cases of great emergency the board may, by the unanimous consent of all the members, proceed at once to replace or repair any and all levees in the district without notice.

In case of vacancy in the office of any director or directors of said district by reason of death, resignation or other cause (whether the same shall occur before or after the effective date of this act), the board of supervisors of Sutter County shall have power to fill the same by appointment. The person or persons so appointed to fill such vacancy or vacancies shall hold office until the first Monday in March following the next election in the district at which directors are to be elected and until his or their successor or successors have been elected and qualify.

for the purpose of determining whether the alleged methods, acts or practices or any of them should be declared to be unfair or deceptive within the meaning of this article.

The hearings provided by this section shall be conducted in accordance with the Administrative Procedure Act, Chapter 5 (commencing at Section 11500) of Part 1, Division 3, Title 2 of the Government Code, and the commissioner shall have all the powers granted therein. The court shall have jurisdiction of the proceeding and shall have power to make and enter appropriate orders in connection therewith and to issue such writs as are ancillary to its jurisdiction or are necessary in its judgment to prevent injury to the public pendente lite.

(c) A transcript of the proceedings before the commissioner, including all evidence taken and the report and findings shall be filed with such petition. If either party shall apply to the court for leave to adduce additional evidence and shall show, to the satisfaction of the court, that such additional evidence is material and there were reasonable grounds for the failure to adduce such evidence in the proceeding before the commissioner, the court may order such additional evidence to be taken before the commissioner and to be adduced upon the hearing in such manner and upon such terms and conditions as to the court may seem proper. The commissioner may modify his findings of fact or make new findings by reason of the additional evidence so taken, and he shall file such modified or new findings with the return of such additional evidence.

(d) If the court finds that the method of competition complained of is unfair or that the act or practice complained of is unfair or deceptive, that the proceeding by the commissioner with respect thereto is to the interest of the public and that the findings of the commissioner are supported by the weight of the evidence, it shall issue its order enjoining and restraining the continuance of such method of competition, act or practice.

Violation of cease and desist order

790.07. Whenever the commissioner shall have reason to believe that any person has violated a cease and desist order issued pursuant to Section 790.05 or a court order issued pursuant to Section 790 06, after such order has become final, and while such order is still in effect, the commissioner may, after a hearing at which it is determined that such violation was

This bill will help alleviate that situation.

SECTION 1. Section 12880 of the Water Code is amended to read:

12880. In furtherance of the development, control and conservation of the water resources of the State and the

State aid to local agencies

State Water Resources Development System it is the policy of the State to provide financial assistance to public agencies for the construction of water projects to meet local requirements in which there is a statewide interest by making grants or loans, or both, and by participating in the construction and operation of water projects, in accordance with this chapter.

(a) As used in this chapter, "project" means any construction or improvement by a public agency for the diversion, storage, or distribution of water primarily for domestic, municipal, agricultural, industrial, flood control or power production purposes. "Public agency" means any city, county, district or other political subdivision of the State.

(b) The proposed project may be approved for assistance only if it is determined that the project substantially conforms to The California Water Plan, is engineeringly feasible, economically justified, and, if a loan is proposed, that there is reasonable assurance that the public agency can repay it.

(c) Grants in furtherance of a project may be made for the following purposes:

(1) For the part of the construction cost of the proposed project properly allocated to the enhancement of fish and wildlife incidental to the primary functions of the project.

(2) For the part of the construction cost of the dam and reservoir of the proposed project properly allocated to recreational functions of statewide interest that are incidental to the primary functions of the project.

(e) Loans shall be repayable over a period not to exceed 50 years, excluding a limited period of development when justified under the circumstances.

(f) If in order to accomplish the objectives of this chapter it is necessary to construct a project that is beyond the requirements of the public agency constructing the project, the State may participate in planning, designing, constructing, operating and maintaining the project, and in financing those costs of the project in excess of the costs necessary to meet the requirements of the public agency, on terms agreed upon with the agency, to the end that the project shall accomplish the maximum water development objectives at a minimum total expenditure.

(g) Applications for loans or grants or financial participation by the State shall be made to the department in such form and with such supporting material as may be prescribed by the department. A report on each application shall be prepared by the department and filed with the Legislature. In such reports the department shall make findings as to the nature and extent

of the statewide interest in the project, the public necessity for the project, the urgency of the need, and the engineering feasibility, economic justification, and financial feasibility of the project.

(h) Nothing contained in this chapter shall be construed to expand the powers of any public agency otherwise granted by law.

Legislative declaration

30770. It is hereby declared to be the policy of the Legislature to take the action necessary to relieve effectively the vehicular congestion on the San Francisco-Oakland Bay Bridge and to thus insure the free-flowing movement of people and goods between the east and the west side of San Francisco Bay and to provide a main link in a system of rapid transit designed to ultimately serve the peoples of the Counties of Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano and Sonoma.

Further, the Legislature finds that the relief of vehicular congestion on the San Francisco-Oakland Bay Bridge can be obtained most efficiently and at the least cost in public funds and with the greatest promotion and accommodation of commerce and navigation through providing an underwater rapid transit tube connecting the east and west sides of San Francisco Bay accommodating facilities for rapid transit which will co-ordinate with and supplement the San Francisco-Oakland Bay Bridge, relieve congestion thereon and make possible the most efficient and economical movement of persons, property and traffic across San Francisco Bay.

The San Francisco terminus of the underwater portion of such rapid transit tube shall be located westward of the shoreline of San Francisco Bay as close thereto as may be reasonably practicable between Howard and Jackson Streets in the City and County of San Francisco. The Alameda County terminus shall be the Southern Pacific mole or as close thereto as may be reasonably practicable.

(c) "Approaches" means all facilities between each of the aforesaid termini and the first station thereafter for the discharge of passengers.

(d) "Authority" means the California Toll Bridge Authority.

No use of such funds shall be made nor construction of the rapid transit tube commenced, however, unless or until the federal law permits the authority to collect tolls upon the existing San Francisco-Oakland Bay Bridge for the purpose of paying the costs of engineering and planning, including the aforesaid engineering expenses, and the construction of such rapid transit tube and the voters of the district have approved the issuance of general obligation bonds as provided for in Section 30775.

It is hereby declared to be the intent of the Legislature that the aforesaid engineering work shall be commenced as soon as the federal law permits the collection of tolls upon the existing Bay Bridge for the aforesaid purpose and that construction of the rapid transit tube shall commence as soon as possible after the completion of the aforesaid engineering work and the approval by the voters of the issuance of general obligation bonds referred to in Section 30775.

Recommendations of district

30775. The authority shall issue revenue bonds pursuant to the California Toll Bridge Authority Act (Chapter 1 (commencing at Section 30000) of this division) for the construction of the rapid transit tube and the department shall construct the rapid transit tube; but the issuance of revenue bonds shall be contingent upon, and shall be accomplished promptly after, the approval by the voters of the district of a proposition for the issuance of general obligation bonds of the district to finance acquisition or construction of such transit facilities as the board of directors of the district, whose determination shall be final, determines to be the entire regional rapid transit system, other than the rapid transit tube and its approaches, that should be acquired or constructed pursuant to Section 28764 of the Public Utilities Code at the time the rapid transit tube is constructed; provided that said issuance of general obligation bonds shall be in an amount that,

combined with any other financing then provided for to the district, will equal at least five hundred million dollars ($500,000,000).

30776. All the provisions of the California Toll Bridge Authority Act (Chapter 1 (commencing at Section 30000) of this division) applicable to toll highway crossings shall apply to the activities of the department and the authority in connection with the rapid transit tube insofar as they are not inconsistent with the provisions of this article. The provisions of said act shall not apply to the district and shall not require or permit the fixing of a toll by the department or the authority for the use of the rapid transit tube. The district shall have the sole and exclusive right to the use of the rapid transit tube in the absence of an agreement between the district and any other party for any use by such other party on payment of appropriate compensation to the district. The costs of the approaches of the rapid transit tube, including but not limited to the portion of all financing costs attributable to such approaches, shall be reimbursed to the authority by the district in accordance with Section 29081 of the Public Utilities Code, over a period to be fixed by agreement between the district and the authority at not less than the estimated period for retirement of said revenue bonds and not longer than the full term of such bonds having the latest maturity. Such reimbursement shall be in equal annual installments or in such installments as may be agreed upon. The district at its option may anticipate any of such installments in whole or in part. No other payments shall be required of the district for the use of the rapid transit tube. Pledge of tolls for construction of tube

In the event the voters of the district have not approved the issuance of such bonds by November 30, 1962, the accumulated tolls or revenues from the San Francisco-Oakland Bay Bridge shall immediately be used to finance a vehicular crossing of San Francisco Bay from a point south of the San Francisco-Oakland Bay Bridge to an eastern terminus in Alameda County. A portion of such accumulated tolls and revenues may be used to finance engineering studies by the department to determine the most appropriate termini for, and the approaches to, the crossing.

Repairs, maintenance, etc

30780. The rapid transit tube shall be repaired, maintained and operated, and insured against such risks and in such amount as the district deems proper by or at the expense of the district.

Legislative declaration

30781. The Legislature finds that the rapid transit tube would further the promotion and accommodation of commerce and navigation.

Compensation for San Francisco Port Authority

The tube and approaches shall be so located and constructed as to interfere as little as reasonably practicable with the operation and traffic of the San Francisco Port Authority The San Francisco Port Authority shall be entitled to just compensation for any taking or damage to its interest in improvements, betterments or structures caused by such location and construction.

CHAPTER 1763

An act to amend Sections 189 and 190 of the Streets and Highways Code, relating to grade separations.

[Approved by Governor July 10, 1959. Filed with Secretary of State July 13, 1959.]

In effect September 18, 1959

The people of the State of California do enact as follows:

SECTION 1. Section 189 of the Streets and Highways Code is amended to read:

Grade separation construction Priority

189. On or before the first day of each year the Public Utilities Commission shall establish and furnish to the Department of Public Works a list of crossings at grade in separation of grade districts, of city streets or county roads and the tracks of any railroad corporation or corporations, and of existing grade separations in need of alteration or reconstruction in the order of priority which in the judgment of the commission justifies the elimination of the crossing at grade by the erection or construction of separation structures or justifies the alteration or reconstruction of existing grade separations The commission shall include in such listing only such crossings which in its judgment are most urgently in need of separation or alteration, taking into consideration the possibility of financing the same under the provisions of this code.

SEC. 2. Section 190 of said Code is amended to read:

Same Allocations

190. In each annual budget report prepared by the commission and the department under Section 143 1 of this code, commencing with the 1958-59 Fiscal Year, the sum of five million dollars ($5,000,000) shall be set aside for allocations to grade separation projects, including the elimination of grade crossings and the alteration or reconstruction of grade separations, of separation of grade districts, cities, cities and counties, and counties on county roads or city streets as provided in Sections 189-191, inclusive, of this code. An allocation shall be made of one-half of the estimated cost, after deducting therefrom any contribution to be made by the railroad corporations involved, towards any project which qualifies therefor under the provisions of said sections, except that in no event shall allocations in any one fiscal year in excess of a total of five million dollars ($5,000,000) be made, and in no event shall allocations be made to projects for the alteration or reconstruction of grade separations unless the affected railroad or railroads have agreed, or have been required by decision of the Public Utilities Commission, to contribute not less than 10 percent of the cost of such alteration or reconstruction project. An allocation shall be made only when the affected local agency or agencies furnish evidence to the department that all necessary orders of the Public Utilities Commission have been obtained, that all necessary agreements with affected railroad or railroads have been executed, that

sufficient funds from the local agency or agencies are available and that all other matters prerequisite to awarding the construction contract within a period of six months have been or can be taken care of within that time. Funds of a local agency shall be deemed available for purposes of this section to the extent of the amount of any general obligation bonds authorized but unsold if all proceedings prior to the issuance and sale of the bonds have been validly taken and if the bonds may be validly issued and sold by the local agency at any time, even though at the time of allocation under this section the bonds have not been issued or sold. Where such bond proceedings have been taken, if the bonds are not issued and sold within six months after the time of such allocation, or by the following October 1st, whichever first occurs, the commission may order the allocation canceled, and revert the amount thereof to the State Highway Fund, for reallocation to another eligible project, or for use on state highways if no other project is or becomes eligible on or before the following October 1st. In any event, regardless of the method proposed by the local agency for the financing of its share of the project cost, if after an allocation has been made, the construction contract has not been awarded within one year, the commission may order the allocation canceled and the funds allocated shall revert to the State Highway Fund for use on state highways.

The department and the commission may make allocations from a succeeding fiscal year's sum of five million dollars ($5,000,000) on and after January 1st preceding the beginning of such fiscal year. Engineering costs expended by a local agency or agencies prior to an allocation of funds for a project shall be included in the total cost thereof, even though expended prior to an allocation of state funds.

The department and the commission may revert as of October 1st of each fiscal year any unallocated amount from the annual sum of five million dollars ($5,000,000) for that fiscal year.

Such project may be constructed by the local agency or agencies concerned, or, by agreement between the local agency or agencies and the department, the department may acquire the necessary rights-of-way in the name of the local agency or agencies, execute agreements with railroad corporations, present necessary applications to the Public Utilities Commission and perform all other acts to complete the project. Construction work by the department shall be subject to the State Contract Act. Agreements between the department and local agencies are authorized relative to the handling and accounting of funds, including the making of advancements thereof so as to permit prompt payment for the work accomplished, and relative to any other phase of the work.

In the event the actual cost is less than that estimated, the allocation shall be reduced accordingly. If the actual cost exceeds that estimated, the allocation may be increased proportionately by the department and the commission, from the

funds made available for the current or subsequent fiscal years. If more projects comply with the requirements hereof in a single year than can be financed from the sum of five million dollars ($5,000,000), allocations shall be made only to those highest on the priority list submitted by the Public Utilities Commission. Allocations to specific projects by the department shall remain available until expended. As used in this section, "local agency" includes a separation of grade district, as well as a city, city and county, or county.

[Approved by Governor July 10, 1959. Filed with Secretary of State July 13, 1959.]

In effect September 18, 1959

The people of the State of California do enact as follows:

SECTION 1. Part 4.5 (commencing at Section 12200) is added to Division 6 of the Water Code, to read:

PART 4.5. SACRAMENTO-SAN JOAQUIN DELTA

CHAPTER 1. GENERAL POLICY

Legislative declaration

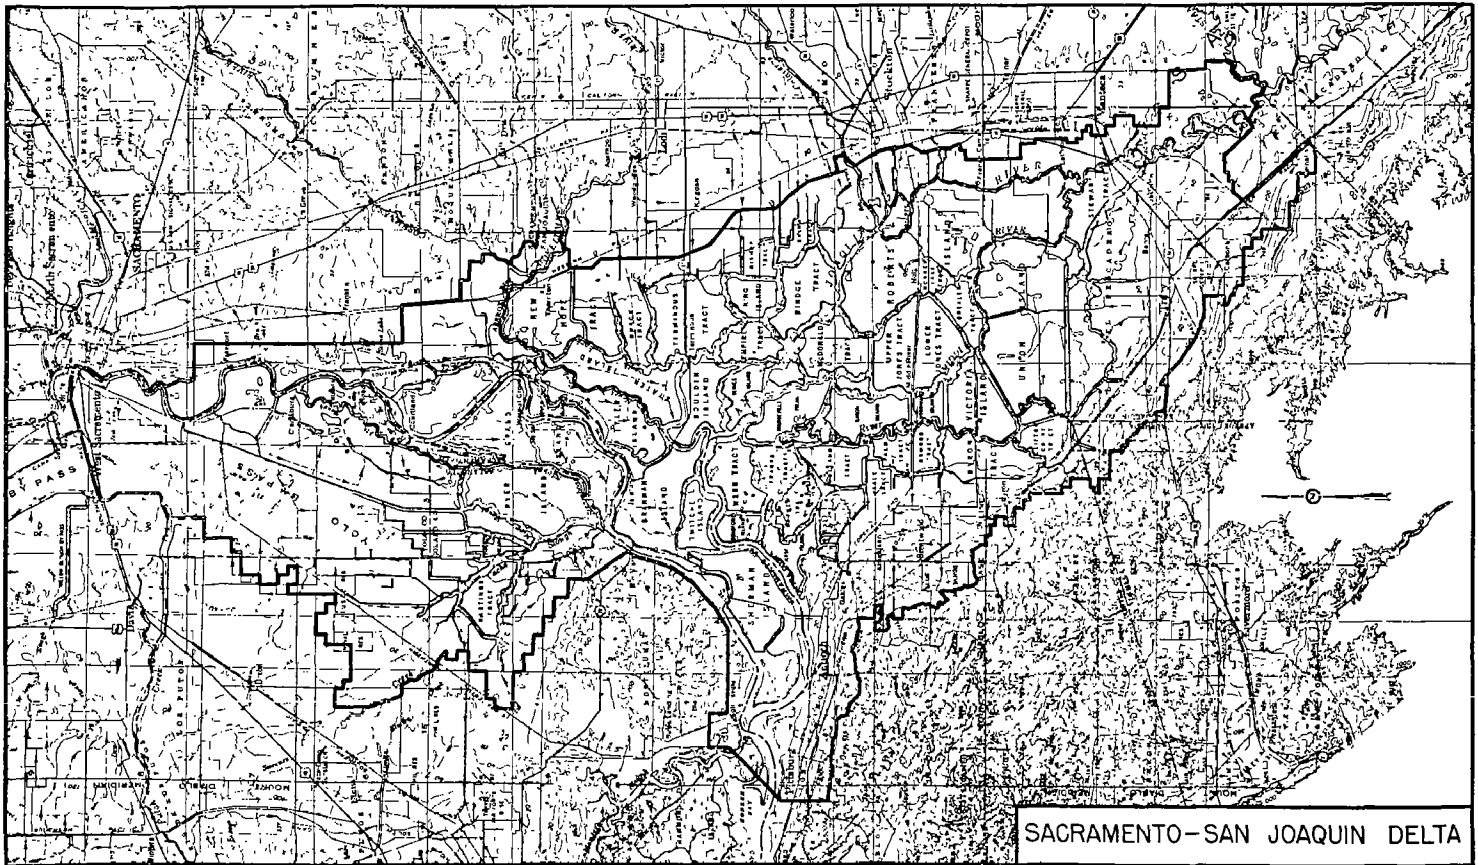
12200. The Legislature hereby finds that the water problems of the Sacramento-San Joaquin Delta are unique within the State; the Sacramento and San Joaquin Rivers join at the Sacramento-San Joaquin Delta to discharge their fresh water flows into Suisun, San Pablo and San Francisco Bays and thence into the Pacific Ocean; the merging of fresh water with saline bay waters and drainage waters and the withdrawal of fresh water for beneficial uses creates an acute problem of salinity intrusion into the vast network of channels and sloughs of the Delta; the State Water Resources Development System has as one of its objectives the transfer of waters from water-surplus areas in the Sacramento Valley and the north coastal area to water-deficient areas to the south and west of the Sacramento-San Joaquin Delta via the Delta; water surplus to the needs of the areas in which it originates is gathered in the Delta and thereby provides a common source of fresh water supply for water-deficient areas. It is, therefore, hereby declared that a general law cannot be made applicable to said Delta and that the enactment of this law is necessary for the protection, conservation, development, control and use of the waters in the Delta for the public good.

Same

12201. The Legislature finds that the maintenance of an adequate water supply in the Delta sufficient to maintain and expand agriculture, industry, urban, and recreational development in the Delta area as set forth in Section 12220, Chapter 2, of this part, and to provide a common source of fresh water for export to areas of water deficiency is necessary to the peace, health, safety and welfare of the people of the State, except that delivery of such water shall be subject to the provisions of Section 10505 and Sections 11460 to 11463, inclusive, of this code.

Salinity control

12202. Among the functions to be provided by the State Water Resources Development System, in coordination with the activities of the United States in providing salinity control



DEPARTMENT OF WATER RESOURCES, MAY 26, 1959

for the Delta through operation of the Federal Central Valley Project, shall be the provision of salinity control and an adequate water supply for the users of water in the Sacramento-San Joaquin Delta. If it is determined to be in the public interest to provide a substitute water supply to the users in said Delta in lieu of that which would be provided as a result of salinity control no added financial burden shall be placed upon said Delta water users solely by virtue of such substitution. Delivery of said substitute water supply shall be subject to the provisions of Section 10505 and Sections 11460 to 11463, inclusive, of this code.

Legislative declaration

12203. It is hereby declared to be the policy of the State that no person, corporation or public or private agency or the State or the United States should divert water from the channels of the Sacramento-San Joaquin Delta to which the users within said Delta are entitled.

Export water

12204. In determining the availability of water for export from the Sacramento-San Joaquin Delta no water shall be exported which is necessary to meet the requirements of Sections 12202 and 12203 of this chapter.

Legislative declaration

12205. It is the policy of the State that the operation and management of releases from storage into the Sacramento-San Joaquin Delta of water for use outside the area in which such water originates shall be integrated to the maximum extent possible in order to permit the fulfillment of the objectives of this part.

CHAPTER 2. THE DELTA

"Sacramento-San Joaquin Delta"

12220. The Sacramento-San Joaquin Delta shall include all the lands within the area bounded as follows, and as shown on the attached map prepared by the Department of Water Resources titled "Sacramento-San Joaquin Delta," dated May 26, 1959:

The people of the State of California do enact as follows:

SECTION 1. Section 13603 is added to the Education Code, to read:

Salary payment in 12 monthly installments

13603. The governing board of any school district not paying the annual or monthly salaries of persons employed by the district in 12 equal monthly payments may withhold, upon election by the individual employee, from each payment made to such employee an amount as follows:

(a) For an employee employed 11 months of a year an amount equal to $8\frac{1}{3}$ percent thereof and the total amount deducted to be paid not later than the tenth day of September next succeeding.

(b) For an employee employed 10 months of a year an amount equal to $16\frac{2}{3}$ percent thereof and the total amount deducted to be paid in two equal monthly installments not later than the tenth day of August and the tenth day of September next succeeding.

(c) For an employee employed nine months a year an amount equal to 25 percent thereof and the total amount deducted to be paid in three equal monthly installments not later than the tenth day of July, the tenth day of August and the tenth day of September next succeeding.

If the provisions of Section 21114 or 21114.1 are made applicable to any district the provisions of this section shall apply except that the amount deducted from each regular pay period and ultimate dates for payment of the amount deducted shall be computed and set in accordance with the system adopted under Section 21114 or 21114.1.

Once an employee has elected to be brought under the provisions of this section such election shall not be revocable until the commencement of the next ensuing fiscal year. However, in the event any employee leaves the service of the district by death or otherwise before receiving such moneys as may be due him, the amount due him shall be paid within 30 days of the last working day to him or any other person entitled thereto by law.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 5 (commencing at Section 13701) of this chapter.

SEC. 2. Section 13651.1 is added to said code, to read:

Time off for sick leave

13651.1. Every classified employee employed five days a week by a school district shall be entitled to 12 days leave of absence for illness or injury and such additional days, in addition thereto, as the governing board may allow for illness or injury, exclusive of all days he is not required to render service to the district, with full pay for a fiscal year of service.

A classified employee, employed five days a week, who is employed for less than a full fiscal year is entitled to that proportion of 12 days leave of absence for illness or injury as the number of months he is employed bears to 12 and the proportionate amount, consistent with this formula, of such additional days, in addition thereto, authorized by the governing board for classified employees employed five days a week for a full fiscal year of service.

A classified employee employed less than five days per week shall be entitled, for a fiscal year of service, to that proportion of 12 days leave of absence for illness or injury as the number of days he is employed per week bears to five and is entitled to the proportionate amount, consistent with this formula, of such additional days, in addition thereto, authorized by the governing board for classified employees employed five days a week for a full fiscal year of service. When such persons are employed for less than a full fiscal year of service this and the preceding paragraph shall determine that proportion of leave of absence for illness or injury to which they are entitled.

Pay for any day of such absence shall be the same as the pay which would have been received had the employee served during the day. Credit for leave of absence need not be accrued prior to taking such leave by the employee and such leave of absence may be taken at any time during the year. However, a new employee of a district shall not be eligible to take more than six days, or the proportionate amount to which he may be entitled under this section, until the first day of the calen-

dar month after completion of six months of active service with the district.

If such employee does not take the full amount of leave allowed in any year under this section the amount not taken shall be accumulated from year to year with such additional days as the governing board may allow.

The governing board of each school district shall adopt rules and regulations requiring and prescribing the manner of proof of illness or injury for the purpose of this section. Such rules and regulations shall not discriminate against evidence of treatment and the need therefor by the practice of the religion of any well-recognized religious sect, denomination or organization.

A school district which has adopted a merit system as provided in Article 5 (commencing at Section 13701) of this chapter and which adopts and maintains in effect provisions for paid leaves of absence for illness or injury for classified employees, including classified employees not serving in positions under the merit system, in accordance with the prevailing community practice as determined by a survey made under the direction of the personnel commission of the district, may substitute such provisions for paid leaves of absence for the benefits contained herein; provided, that the leave of absence rules for illness or injury have been approved by the board of education and the personnel commission of the district.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 5 (commencing at Section 13701) of this chapter.

The people of the State of California do enact as follows:

SECTION 1. Section 30350 of the Streets and Highways Code is amended to read:

Prohibition against competing facilities

30350. As long as any of the bonds issued pursuant to this chapter for the acquisition, construction, enlargement, extension or change in design or structure of any toll bridge or other highway crossing are outstanding and unpaid, there shall not be erected, constructed or maintained any other bridge, subway, tunnel, or other crossing over, under, through, or across

the waters over which such bridge or other highway crossing is located or constructed, connecting or adjoining directly or indirectly the lands or extensions thereof or abutments thereon on both sides of the waters spanned or crossed by such bridge or other highway crossing within a distance of 10 miles from either side of such bridge or highway crossing, excepting bridges or other highway crossings actually in existence and being maintained, or for which there was outstanding an existing and lawfully issued franchise, at the time of the acquisition or location of the toll bridge or other highway crossing and prior to the time of the authorization of the revenue bonds.

Where a distance of less than 10 miles has been specified in any bond resolution containing the obligations of the authority in connection with any bonds theretofore issued, the department and the authority may construct new bridges or other highway crossings within less than 10 miles of the bridge or other highway crossing for which bonds are outstanding, but the provisions of any bond resolution adopted, prior to January 1, 1955, or similar provisions in any bond resolution thereafter adopted, in connection with the issuance of such bonds shall be observed.

SEC. 2. Article 5 (commencing at Section 30770) is added to Chapter 2 of Division 17 of said code, to read:

Article 5. San Mateo-Hayward and Dumbarton Bridges

San Mateo-Hayward and Dumbarton Bridges

30770. (a) The San Mateo-Hayward Bridge is the bridge, together with necessary approaches, across San Francisco Bay connecting the County of San Mateo near the City of San Mateo with the County of Alameda near Mt. Eden.

(b) The Dumbarton Bridge is the vehicle bridge across San Francisco Bay, together with necessary approaches, connecting the County of San Mateo near Menlo Park with the County of Alameda near Fremont.

Improvements authorized

30771. The department is authorized to modify, improve, reconstruct, and remodel the San Mateo-Hayward Bridge as is necessary to adequately handle anticipated traffic and permit the collection of tolls.

Issuance of bonds

30772. For the purpose of obtaining funds to carry out the provisions of this article, the authority is authorized to issue revenue bonds. Except as herein otherwise provided, the provisions of the California Toll Bridge Authority Act are hereby made applicable to such revenue bonds, and the authority and the department are authorized to do any and all things pursuant to law necessary to finance, reconstruct and improve the San Mateo-Hayward Bridge and to refinance the Dumbarton Bridge. The authority may authorize the issuance of bonds in series in an amount estimated to be sufficient to complete the entire work authorized hereunder in successive stages. The authority may insert in the bond indenture or

resolution authorizing such bonds such conditions as it deems necessary.

Single unit operation

30773. The department is authorized to operate the San Mateo-Hayward and Dumbarton Bridges as a single unit, and shall continue to collect tolls on both bridges for purposes of paying any bonded indebtedness presently outstanding or which may be incurred pursuant to this article. Subsequent to a refinancing of any outstanding bonded indebtedness on both bridges the revenues of each need not be accounted for separately but may be allocated as security for all of the bonds issued pursuant to this article. Such tolls shall be used and applied as may be provided in a bond indenture or resolution of the authority authorizing the issuance of bonds for (a) the payment of principal and interest on said bonds; (b) the creation, establishment and maintenance of reserve and other funds for the protection or retirement of such bonds; (c) operation and insurance expenses; (d) the repayment of the State Highway Fund for moneys expended pursuant to Chapter 2416 of the Statutes of 1957; and (e) any other charges in connection with the reconstruction, improvement, operation, insuring, maintenance, and financing of the San Mateo-Hayward Bridge and the refinancing of the Dumbarton Bridge as may be determined by the authority, including the establishment of rehabilitation and improvement funds for further rehabilitation and improvement of the San Mateo-Hayward Bridge and the Dumbarton Bridge.

Alternative method of financing

30774. As an alternative method of financing, the California Toll Bridge Authority may pay for the costs of the reconstruction and improvement work on the San Mateo-Hayward Bridge or the Dumbarton Bridge, including repayment to the State Highway Fund for funds advanced for studies, from any funds now on hand or from future revenues of the San Francisco-Oakland Bay Bridge up to and including December 31, 1962, insofar as such funds are determined by the authority to be available after providing for the payment for the work necessary to complete the reconstruction of the San Francisco-Oakland Bay Bridge as authorized by Section 30609. In the event the work is so financed the authority shall continue to assess, and the department shall collect, tolls on the San Mateo-Hayward and Dumbarton Bridges after the repayment of all bonds secured thereby at rates equal to or in excess of those payable on the San Francisco-Oakland Bay Bridge. All revenues so collected shall be paid into the same fund as revenues of the San Francisco-Oakland Bay Bridge and shall be available for expenditure for the same purposes as the revenues from the San Francisco-Oakland Bay Bridge, including the pledging thereof as security for future issues of revenue bonds that may be authorized by the authority.

Cost of operation

30775. The cost of operation of both bridges, including the cost of insurance against loss of tolls or other revenue therefrom, shall be paid from the tolls and revenue received from the use and operation of said bridges. The cost of physical

maintenance, including the cost of insurance of said bridges against all risks, shall be paid by the department as provided in Section 188.3 of this code.

Urgency

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There presently exists a hazardous traffic condition on the San Mateo-Hayward and Dumbarton Bridges, brought about by a greatly increased use of these bridges beyond the intended capacities of these bridges, which results in unnecessary injury to persons and property. It is necessary to improve these bridges to meet present-day standards for vehicular traffic to remedy this situation. Such improvement is provided for by this bill and will result in the saving of lives and property.

Use of factor in allocations to districts

17262. Any state department, board, or agency which allocates funds to any school district on the basis of the assessed valuation of property within the district, or which makes any computation on this basis for school building fund repayment purposes, first shall modify that part of the valuation of the district shown upon the local roll by application of the factor certified for that roll as required in Section 17261. If a district is located in more than one county, this modification shall be made by applying the factor appropriate for the assessed value of the property upon the local roll of each county within which the district is located.

Tax rate increase

17263. Notwithstanding any other provision of this code, whenever the assessed valuation of the district has been modified upward under Section 17262, the maximum general fund tax rate of that district as determined by Sections 20751 or 20803 shall be increased sufficiently to provide the funds required to offset the decrease in school equalization aid resulting from such modification of the assessed value of the district.

Date of initial applicability

17264. The provisions of Sections 17262 and 17263 shall be applicable initially to funds made available to, repayments from, or tax rates of school districts during the fiscal year beginning July 1, 1960, as a result of modification of the assessed valuations of such districts determined as of the first Monday in March 1959. In succeeding fiscal years, these provisions shall apply in a like manner.

Legislative declaration

17265. The Legislature hereby declares that its sole motive in enacting this chapter is to provide a reasonable and equitable method for ascertaining the value of property located within school districts for use in connection with the administration of state laws providing for the allocation of state funds to such districts for school purposes on the basis of value. The Legislature hereby further declares that in enacting this chapter it has no intention to affect in any way, whether directly or indirectly, any determination of the assessed value of property for tax purposes; and that it has no intention by such enactment to modify any phase or aspect of the process of property taxation in any respect whatsoever, except to the limited extent necessary for tax levy adjustment purposes in accordance with this chapter. The certification with respect to the factor applicable to the assessed value of tangible property on the local roll of any county to conform that value to the statewide average assessment level shall not be construed as a finding of the State Board of Equalization concerning the relationship between the assessed value of locally assessed property in that county to the market value thereof, but shall be regarded only as a report of the staff of that board for the purposes specified in this chapter.

(c) "Person" includes any individual, partnership, corporation, unincorporated association, or other legal entity.

Authorized agreements

1602. The Controller is authorized to enter into agreements establishing the time and manner for payments of this State's proportionate share of the actual and necessary cost incurred by the United States in examining records and reporting information to this State as such share of such cost shall be determined pursuant to federal law. Said agreements may provide for single payments at stated times over a period of years. The State Controller shall make all payments at the time and in the manner provided in said agreements.

Claim against United States

1603. The State hereby undertakes to hold the United States harmless against any claim concerning property delivered to the custody of the State in accordance with the provisions of this chapter. In the event an action or proceeding on such claim is brought against the United States the Attorney General shall intervene therein. The State consents to suit by such claimant in such contingency and any defense in favor of the United States shall be available to and urged by the State.

If the last known address of an owner is in this State, any other owner's address which is unknown shall be presumed to be in this State. If the last known addresses of owners are in this State and in one or more other states, the addresses of other owners whose addresses are unknown shall be presumed to be within this State if the federal agency having custody of the unclaimed property initially acquired possession in this State If the records of the United States do not disclose the address of any owner of unclaimed property, such address shall be presumed to be within this State if the federal agency having custody of such property initially acquired possession in this State. All addresses presumed to be within this State are presumed to be within the County of Sacramento. For the purposes of this chapter, it shall be presumed that the situs of unclaimed property is in this State if the last known or presumed address of the owner is in this State.

Cost of examining records

1605. The Governor shall certify to the Comptroller General or other proper officer of the United States that the law of this State provides effective means whereby the United States shall be compensated at reasonable times for this State's proportionate share of the actual and necessary cost of examining records and for reporting information and whereby the United States shall be held harmless in the event of claim for property delivered to this State in accordance with the provisions of this chapter.

Such certification shall be made on the thirtieth day of June next following the effective date of any federal statute requiring such certification.

Request for report

1606. On the thirtieth day of June next following the date of certification by the Governor, and annually thereafter, the Controller shall request the Comptroller General or other proper officer of the United States to report all previously unreported information relating to unclaimed property as determined by that officer pursuant to federal law.

Copies of report

1607. When a report is received from the Comptroller General or other proper officer of the United States, the Controller shall prepare and forward a copy thereof to the county clerk of each county within this State and the said clerk shall post such copy at the courthouse for a period of 60 days. Any person asserting an interest in property mentioned in the report may elect to claim against the United States under the laws of the United States, in which event and within 90 days following the date of initial posting by the county clerk such person shall notify the State Controller of his asserted interest and intention to so claim. The Controller shall omit such property from any claim by the State until such time as the asserted interest may be finally determined against the claimant. Such interest shall not thereafter be asserted against the State.

Effect of time lapse

1608. The expiration of any period of time specified by statute or court order, during which an action or proceeding may be commenced or enforced to obtain payment of a claim for funds or delivery of property shall not affect the right of this State to acquire possession of unclaimed property in accordance with the provisions of this chapter.

Petition

1609. Within 120 days following the date of initial posting by the county clerk, the Attorney General shall commence a proceeding by filing a petition to determine the State's right to custody of all property mentioned in such report and unclaimed within the time and in the manner provided by Section 1607. The proceeding shall be commenced and heard in the superior court in the County of Sacramento and venue shall not be affected by the provisions of Section 401, Code of Civil Procedure.

The petition shall name as respondents all persons known to have been interested and "all persons unknown claiming any title or interest in or to the property described or referred to in the petition." If the records of the United States fail to disclose with reasonable certainty the identity or number of owners or claimants of specific funds or other personal property, or the extent of their interests therein, such persons may be designated and described as a class, to wit, as "all unknown owners or claimants to the funds or property mentioned in or affected by _____," and, as the case may be, the petition shall identify and set forth the court actions or proceedings to the credit of which such funds or other property are held, or the accounts or other identifying references under which they are carried upon the records of the United States. The petition

shall describe or refer to the property, and may include one or more items, as the Attorney General may be advised, without prejudice to his right to commence subsequent proceedings relating to other items not included. The petition shall also state the name of the owner and his last address as known or as presumed under this chapter, and shall set forth the facts and c rcumstances by virtue of which it is claimed that such funds or property are subject to custody by the State. Any number of respondents may be joined whether they reside in the same or different counties, and any number of causes of action may be joined and need not be separately stated.

Summons and process, notice

1610. No summons or other process shall issue to direct the appearance and answer of a respondent. Commencing within five days after filing petition, notice of the proceeding shall be published once each week for three consecutive weeks in a newspaper of general circulation published within the County of Sacramento. At the time the notice is first published, a copy of the petition and notice shall be posted at the courthouse in the county where each defendant was last known or presumed to have had an address. Such petition and such notice shall remain posted for 45 days. The notice of proceeding shall advise that the State seeks custody of unclaimed property held by the United States. The names but not the addresses of the respondents shall be contained in the notice with a statement that such persons are believed to live or to have lived within the State and are believed to be or to have been owners of the unclaimed property. The notice shall not contain a description of the unclaimed property but shall advise that such description together with the last known or presumed addresses of owners may be determined by examining the petition filed in the proceeding. The petition and its place of filing shall be sufficiently identified and described. The notice shall advise that persons claiming an interest must answer the petition within the time prescribed by law, which time shall be stated, if they elect to pursue their claims against the United States, otherwise their rights to property shall be preserved subject to delayed delivery as provided by law. The notice shall advise that Section 1611, Code of Civil Procedure, should be consulted for the time, form, and costs of an answer.

The notice shall be deemed completed 45 days after the date of first publication, whereupon the court shall have full and complete jurisdiction over the property described in the petition and not claimed within the time or in the manner provided in Section 1611, and shall have full and complete jurisdiction to determine the right of the State to custody and to render an appropriate judgment therefor.

Answer to petition

1611. Any person, whether or not named in the petition, may within 15 days after completion of notice respond to the petition by answer describing the property, asserting an interest as owner or successor, and declaring an intention to claim the same from the United States under the laws of the

United States. Such answer shall not be filed unless accompanied by the sum of ten dollars ($10) for deposit in court, and no other answer or response shall be filed by or on behalf of a claimant. The court shall strike from the petition and dismiss from the proceeding all property described in the answer. The funds on deposit shall be transmitted by the court to the Controller and shall be received for deposit in the abandoned property account in the Unclaimed Property Fund as total reimbursement for costs and services expended on behalf of the claimant. Such dismissal shall be without prejudice to a subsequent petition should it appear that the claimant is not entitled to the property, and the interest asserted in said answer shall not thereafter be asserted against the State.

Judgment

1612. Within 20 days following expiration of time for filing answer under Section 1611, the Attorney General shall apply to the court for a judgment relating to all property set forth in the petition and not claimed by answer. The court shall find that such property appears to be or to have been owned by persons residing within this State and remains unclaimed by such persons. The court shall declare that the property, which shall be described, is subject to custody of the State and shall be delivered to and received by the State of California to be retained until such time as it may be claimed pursuant to law.

Request for delivery or payment

1613. The Controller shall request delivery or payment of all unclaimed property described in the judgment declaring the right of the State to receive custody of such property. The request shall be accompanied by a certified copy of said judgment and shall be directed to such officer, agency, or department of the United States as may be designated for such purposes by federal law. The Controller shall furnish receipts for all property delivered or paid.

Deposit or sale

1614. Property received under this chapter shall be deposited or sold by the State Controller as though received under the Uniform Disposition of Unclaimed Property Act. Thereafter, claims shall be made in the manner provided in Chapter 7 of Title 10 of Part 3 of this code.

An act to amend Section 1356 and to repeal Sections 1460 to 1475 and 1478 to 1578, inclusive, and to add Chapter 7 (commencing with Section 1500) to Title 10 of Part 3 of the Code of Civil Procedure, relating to disposition of unclaimed property.

In effect September 18, 1959

[Approved by Governor July 11, 1959. Filed with Secretary of State July 13, 1959.]

The people of the State of California do enact as follows:

Repeal

SECTION 1. Sections 1460 to 1475 and 1478 to 1578, inclusive, of the Code of Civil Procedure are repealed.

SEC. 2. Chapter 7 (commencing with Section 1500) is added to Title 10 of Part 3 of said code, to read:

CHAPTER 7. UNIFORM DISPOSITION OF UNCLAIMED PROPERTY ACT

Property presumed abandoned

1502. The following property held or owing by a banking or financial organization or business association is presumed abandoned:

(a) Any demand, savings, or matured time deposit made in this State with a banking organization, together with any interest or dividends thereon, excluding any reasonable service charges which may lawfully be withheld and which do not exceed those set forth in schedules filed by the banking organization from time to time with the State Controller, unless the owner has, within 15 years:

(1) Increased or decreased the amount of the deposit, or presented the passbook or other similar evidence of the deposit for the crediting of interest; or

(2) Corresponded in writing with the banking organization concerning the deposit; or

(3) Otherwise indicated an interest in the deposit as evidenced by a memorandum on file with the banking organization.

(b) Any funds paid in this State toward the purchase of shares or other interest in a financial organization or any deposit made therewith in this State, and any interest or dividends thereon, excluding any reasonable service charges which may lawfully be withheld and which do not exceed those set forth in schedules filed by the financial organization from time to time with the State Controller, unless the owner has within 15 years:

(1) Increased or decreased the amount of the funds or deposit, or presented an appropriate record for the crediting of interest or dividends; or

(2) Corresponded in writing with the financial organization concerning the funds or deposit; or

(3) Otherwise indicated an interest in the funds or deposit as evidenced by a memorandum on file with the financial organization.

(c) Any sum payable on travelers checks issued in this State by a business association maintaining its principal place of business in this State, or issued in this State by a banking or financial organization, that has been outstanding for more than 15 years from the date of its issuance, unless the owner has within 15 years corresponded in writing with the business association or banking or financial organization concerning it, or otherwise indicated an interest as evidenced by a memorandum on file with such organization or association.

(d) Any sum payable on any other written instruments issued in this State on which a banking or financial organization is directly liable, including, by way of illustration but not of limitation, drafts, certified checks, and money orders, that has been outstanding for more than seven years from the date it was payable, or from the date of its issuance if payable on demand, excluding any charges that may lawfully be withheld, unless the owner has within seven years corresponded in writing with the banking or financial organization concerning it, or otherwise indicated an interest as evidenced by a memorandum on file with the banking or financial organization.

(e) Any funds or other personal property of obvious commercial value, tangible or intangible, after discharge of any lien or liens for storage charges, removed from a safe deposit box or any other safekeeping repository or agency or collateral deposit box in this State on which the lease or rental period has expired due to nonpayment of rental charges or other reason, that have been unclaimed by the owner for more than seven years from the date on which the lease or rental period expired.

Nothing in this section shall be construed to relate to any instrument held or payable only outside the limits of the United States or payable only in currency other than United States currency, nor to any funds held only in or payable only in a foreign country.

Same: Unclaimed funds

1503. (a) Unclaimed funds, as defined in this section, held and owing by a life insurance corporation shall be presumed abandoned if the last known address, according to the records of the corporation, of the person entitled to the funds is within this State. If a person other than the insured or annuitant is entitled to the funds and no address of such person is known to the corporation or if it is not definite and certain from the records of the corporation what person is entitled to the funds, it is presumed that the last known address of the person entitled to the funds is the same as the last

known address of the insured or annuitant according to the records of the corporation.

(b) "Unclaimed funds," as used in this section, means all moneys held and owing by any life insurance corporation unclaimed and unpaid for more than seven years after the moneys became due and payable as established from the records of the corporation under any life or endowment insurance policy or annuity contract which has matured or terminated. A life insurance policy not matured by actual proof of the death of the insured is deemed to be matured and the proceeds thereof are deemed to be due and payable if such policy was in force when the insured attained the limiting age under the mortality table on which the reserve is based, unless the person appearing entitled thereto has within the preceding seven years, (1) assigned, readjusted, or paid premiums on the policy, or subjected the policy to loan, or (2) corresponded in writing with the life insurance corporation concerning the policy. Moneys otherwise payable according to the records of the corporation are deemed due and payable although the policy or contract has not been surrendered as required.

Same: Unclaimed sums

1504. (a) Any dividend, profit, distribution, interest, payment on principal, or other sum held or owing by a business association for or to a shareholder, certificate holder, member, bondholder, or other security holder, or a participating patron of a co-operative, who has not claimed it, or corresponded in writing with the business association concerning it, within seven years after the date prescribed for payment or delivery, is presumed abandoned if:

(1) It is held or owing by a business association organized under the laws of or created in this State; or

(2) It is held or owing by a business association doing business in this State, but not organized under the laws of or created in this State, and the records of the business association indicate that the last known address of the person entitled thereto is in this State.

(b) Any intangible interest in a business association, as evidenced by the stock records or membership records of the association, owned by a person who has not claimed a dividend presumed abandoned under paragraph (a) of this section, and who has not corresponded in writing with the business association concerning such interest for 15 years following the time such dividend was presumed abandoned, is presumed abandoned if:

(1) The business association was organized under the laws of or created in this State; or

(2) The business association is doing business in this State but was not organized under the laws of or created in this State, and the records of the business association indicate that the last known address of the person entitled to such interest is in this State.

For the purposes of this chapter the business association with respect to such interest shall be deemed a holder.

Same
Intangible property from voluntary dissolution

1505. All intangible personal property distributable in the course of a voluntary dissolution of a business association, banking organization, or financial organization organized under the laws of or created in this State, that is unclaimed by the owner within two years after the date for final distribution, is presumed abandoned.

Same: Property held in fiduciary capacity

1506. All intangible personal property and any income or increment thereon, held in a fiduciary capacity for the benefit of another person is presumed abandoned unless the owner has, within seven years after it becomes payable or distributable, increased or decreased the principal, accepted payment of principal or income, corresponded in writing concerning the property, or otherwise indicated an interest as evidenced by a memorandum on file with the fiduciary:

(a) If the property is held by a business association, banking organization, or financial organization organized under the laws of or created in this State; or

(b) If it is held by a business association, banking organization, or financial organization doing business in this State, but not organized under the laws of or created in this State, and the records of the business association, banking organization, or financial organization indicate that the last known address of the person entitled thereto is in this State; or

(c) If it is held in this State by another person.

Same
Property held by public authority

1507. Subject to the provisions of Section 1526, all intangible personal property held for the owner by any court, public corporation, public authority, or public officer of this State, or a political subdivision thereof, that has remained unclaimed by the owner for more than seven years is presumed abandoned.

Same
Property held in this State in holder's business

1508. All intangible personal property, except property of the classes mentioned in Sections 1502, 1503, 1504, 1505, 1506, and 1507 of this code, including any income or increment thereon and deducting any lawful charges, that is held or owing in this State in the ordinary course of the holder's business and has remained unclaimed by the owner for more than seven years after it became payable or distributable is presumed abandoned.

Same
Specific property

1509 If specific property which is subject to the provisions of Sections 1502, 1504, 1505, 1506, and 1508 of this code is held for or owed or distributable to an owner whose last known address is in another state by a holder who is subject to the jurisdiction of that state, the specific property is not presumed abandoned in this State and subject to this chapter if:

(a) It may be claimed as abandoned or escheated under the laws of such other state; and

(b) The laws of such other state make reciprocal provision that similar specific property is not presumed abandoned or escheatable by such other state when held for or owed or distributable to an owner whose last known address is within this State by a holder who is subject to the jurisdiction of this State.

1510. (a) Every person holding funds or other property, tangible or intangible, presumed abandoned under this chapter shall report to the State Controller with respect to the property as hereinafter provided. Report to State Controller

(b) The report shall be verified and shall include:

(1) The name, if known, and last known address, if any, of each person appearing from the records of the holder to be the owner of any property of value of ten dollars ($10) or more presumed abandoned under this chapter;

(2) In case of unclaimed funds of life insurance corporations, the full name of the insured or annuitant and his last known address according to the life insurance corporation's records;

(3) In case of money or other personal property removed from a safe deposit box or other repository or agency, reference to all money and only such other property as has obvious commercial value. The report shall set forth any amounts owing to the holder for unpaid rent and for the cost of opening the safe deposit box.

(4) The nature and identifying number, if any, or description of the property and the amount appearing from the records to be due, except that items of value under ten dollars ($10) each may be reported in aggregate;

(5) The date when the property became payable, demandable, or returnable, and the date of the last transaction with the owner with respect to the property; and

(6) Other information which the State Controller prescribes by rule as necessary for the administration of this chapter.

(c) If the person holding property presumed abandoned is a successor to other persons who previously held the property for the owner, or if the holder has changed his name while holding the property, he shall file with his report all prior known names and addresses of each holder of the property.

(d) The report shall be filed before November 1st of each year as of June 30th or fiscal year-end next preceding, but the report of life insurance corporations shall be filed before May 1st of each year as of December 31st next preceding. The State Controller may postpone the reporting date upon his own motion or upon written request by any person required to file a report.

(e) If the holder of property presumed abandoned under this chapter knows the whereabouts of the owner and if the owner's claim has not been barred by the statute of limitations, the holder shall, before filing the annual report, communicate with the owner and take necessary steps to prevent abandonment from being presumed. The holder shall exercise reasonable diligence to ascertain the whereabouts of the owner.

(f) Verification, if made by a partnership, shall be executed by a partner; if made by an unincorporated association or private corporation, by an officer; and if made by a public corporation, by its chief fiscal officer.

(g) The initial report filed under this chapter shall include all items of property held for another person which are ascertainable from the available records of the holder, which items of property would have been presumed abandoned if this chapter had been in effect at and after the time such property first became payable, demandable or returnable; provided, that only such moneys which first became unclaimed funds, as that term is defined in this chapter, within three years preceding the effective date of this chapter must be included within the initial report and any other moneys constituting unclaimed funds as thus defined may be included within the initial or any subsequent report and if so included the holder shall be entitled to the protection afforded by Section 1513. All items of property, less proper charges and offsets, other than unclaimed funds, which on January 1, 1949 appeared from the available records to be held for another person and were thereafter without notice to the owner or without prior approval of any regulatory or licensing authority of this State transferred or credited by the holder directly to capital or surplus or undivided profits shall be deemed to be subject to the provisions of this chapter and shall be included within the initial report.

Published notice

1511. (a) Within 120 days from the final date for filing the reports required by Section 1510, the State Controller shall cause notice to be published at least once each week for two successive weeks in an English language newspaper of general circulation in the county in this State in which is located the last known address of any person to be named in the notice. If no address is listed or if the address is outside this State, the notice shall be published in the county in which the holder of the abandoned property has his principal place of business within this State.

(b) The published notice shall be entitled "notice of names of persons appearing to be owners of abandoned property," and shall contain:

(1) The names in alphabetical order and last known addresses, if any, of persons listed in the report and entitled to notice within the county as hereinbefore specified.

(2) A statement that information concerning the amount or description of the property and the name and address of the holder may be obtained by any persons possessing an interest in the property by addressing an inquiry to the State Controller.

(3) A statement that if proof of claim is not presented by the owner to the holder and if the owner's right to receive the property is not established to the holder's satisfaction within 65 days from the date of the second published notice, the abandoned property will be placed not later than 85 days after such publication date in the custody of the State Controller and all further claims must thereafter be directed to the State Controller.

(c) The State Controller is not required to publish in such notice any item of less than twenty-five dollars ($25) unless he deems such publication to be in the public interest.

(d) Within 120 days from the receipt of the report required by Section 1510, the State Controller shall mail a notice to each person having an address listed therein who appears to be entitled to property of the value of twenty-five dollars ($25) or more presumed abandoned under this chapter.

(e) The mailed notice shall contain:

(1) A statement that, according to a report filed with the State Controller, property is being held to which the addressee appears entitled.

(2) The name and address of the person holding the property and any necessary information regarding changes of name and address of the holder.

(3) A statement that, if satisfactory proof of claim is not presented by the owner to the holder by the date specified in the published notice the property will be placed in the custody of the State Controller and all further claims must be directed to the State Controller.

Payment on delivery of abandoned property to State Controller

1512. Every person who has filed a report as provided by Section 1510 shall, within seven months from the final date for filing reports as required by Section 1510, pay or deliver to the State Controller all abandoned property specified in the report; provided, that property of no obvious commercial value may be destroyed or disposed of as provided in Section 1521(b), notwithstanding such property may be specified in the report; and provided further, that if the owner establishes his right to receive any abandoned property to the satisfaction of the holder within the time specified in Section 1511, or if it appears that for some other reason the presumption of abandonment is erroneous, the holder need not pay or deliver the property, which will no longer be presumed abandoned, to the State Controller, but in lieu thereof shall file with the State Controller a written explanation of the proof of claim or of the error in the presumption of abandonment. The holder of any interest under Section 1504(b) shall deliver a duplicate certificate to the State Controller and no bond shall be required therefor.

Custody of State

1513. Upon the payment or delivery of abandoned property to the State Controller, the State shall assume custody and shall be responsible for the safekeeping thereof. Any person who pays or delivers abandoned property to the State Controller under this chapter is relieved of all liability to the extent of the value of the property so paid or delivered for any claim which then exists or which thereafter may arise or be made in respect to the property. Property removed from a safe deposit box or other repository shall be received by the State Controller subject to any valid lien of the holder for rent and other charges, such rent and other charges to be paid out of the proceeds remaining after the State Controller has deducted therefrom his selling cost. Any holder who has paid

moneys to the State Controller pursuant to this chapter may make payment to any person appearing to such holder to be entitled thereto, and upon filing proof of such payment and proof that the payee was entitled thereto, the State Controller shall forthwith reimburse the holder for the payment.

Income

1514. When property is paid or delivered to the State Controller under this chapter, the owner is not entitled to receive income or other increments accruing thereafter.

Expiration of time

1515. The expiration of any period of time specified by statute or court order, during which an action or proceeding may be commenced or enforced to obtain payment of a claim for money or recovery of property, shall not prevent the money or property from being presumed abandoned property, nor affect any duty to file a report required by this chapter or to pay or deliver abandoned property to the State Controller.

Public sale

1516. (a) All abandoned property other than money and securities listed on any established stock exchange delivered to the State Controller under this chapter shall within one year after the delivery be sold by the State Controller to the highest bidder at public sale in whatever city in the State affords in his judgment the most favorable market for the property involved. The State Controller may decline the highest bid and reoffer the property for sale if he considers the price bid insufficient. He need not offer any property for sale if, in his opinion, the probable cost of sale exceeds the value of the property.

(b) Any sale held under this section shall be preceded by a single publication of notice thereof, at least three weeks in advance of sale in an English language newspaper of general circulation in the county where the property is to be sold.

(c) The purchaser at any sale conducted by the State Controller pursuant to this chapter shall receive title to the property purchased, free from all claims of the owner or prior holder thereof and of all persons claiming through or under them. The State Controller shall execute all documents necessary to complete the transfer of title.

Unclaimed Property Fund

1517. (a) All money received under this chapter, including the proceeds from the sale of property under Section 1516, shall be deposited in the Unclaimed Property Fund in an account titled "Abandoned Property."

(b) All money in the abandoned property account in the Unclaimed Property Fund is hereby continuously appropriated to the State Controller, without regard to fiscal years, for expenditure for the following purposes:

(1) For payment of claims allowed by the State Controller under the provisions of Section 1519;

(2) For refund, to the person making such deposit, of amounts, including overpayments, deposited in error in such fund;

(3) For payment of the cost of appraisals incurred by the State Controller covering property held in the name of an account in such fund;

(4) For payment of the cost incurred by the State Controller covering the purchase of lost instrument indemnity bonds, or for payment to the person entitled thereto, for any unpaid lawful charges or costs which arose from holding any specific property or any specific funds which were delivered or paid to the State Controller, or which arose from complying with this chapter with respect to such property or funds;

(5) For payment of amounts required to be paid by the State as trustee, bailee, or successor in interest to the preceding owner;

(6) For payment of costs incurred by the State Controller for the repair, maintenance and upkeep of property held in the name of an account in such fund;

(7) For payment of costs of official advertising in connection with the sale of property held in the name of an account in such fund;

(8) For transfer to the General Fund as provided in paragraph (c) of this section.

(c) At the end of each month, or oftener if he deems it advisable, the State Controller shall transfer all money in the abandoned property account in excess of fifty thousand dollars ($50,000), to the General Fund. Before making this transfer, he shall record the name and last known address of each person appearing from the holders' reports to be entitled to the abandoned property and of the name and last known address of each insured person or annuitant, and with respect to each policy or contract listed in the report of a life insurance corporation, its number, and the name of the corporation. The record shall be available for public inspection at all reasonable business hours.

Verified claim

1518. Any person claiming an interest in any property delivered to the State under this chapter may file a personally verified claim thereto or to the proceeds from the sale thereof on the form prescribed by the State Controller.

Hearing

1519. (a) The State Controller shall consider any claim filed under this chapter and may hold a hearing and receive evidence concerning it. If a hearing is held he shall prepare a finding and a decision in writing on each claim filed, stating the substance of any evidence heard by him and the reasons for his decision. The decision shall be a public record.

(b) There shall be deducted by the State Controller from the amount of any allowed and approved claim under this section, 1 percent of the total amount of such claim, but in no event less than ten dollars ($10), for each individual share claimed, as a service charge for the receipt, accounting for, and management of the money or other property claimed and for the processing of the claim filed to recover the same.

Petition in superior court

1520. Any person aggrieved by a decision of the State Controller or as to whose claim the Controller has failed to

act within 90 days after the filing of the claim, may file a petition to establish his claim in the superior court in any county or city and county in which the Attorney General has an office. The proceeding shall be brought within 90 days after the decision of the State Controller or within 180 days from the filing of the claim if the State Controller fails to act. A copy of the petition and of a notice of hearing shall be served upon the State Controller and the Attorney General and the Attorney General shall have not less than 30 days within which to respond by answer. In lieu of answer, the Attorney General may file a statement of noninterest whereupon the petitioner shall present to the court his prima facie proof of entitlement. The proceeding shall be tried without a jury. If judgment is awarded in favor of petitioner, the State Controller shall make payment subject to any charges provided by Section 1519(b). No costs of trial shall be allowed for or against the petitioner.

Refusal to receive

1521. (a) The State Controller, after receiving reports of property deemed abandoned pursuant to this chapter, may decline to receive any property reported which he deems to have a value less than the cost of giving notice and holding sale, or he may, if he deems it desirable because of the small sum involved, postpone taking possession until a sufficient sum accumulates.

(b) All property not reportable or deliverable under this chapter for want of obvious commercial value shall be retained by the holder as agent for the State of California until such time as the State Controller shall authorize such agent to destroy or otherwise dispose of the property. When the property is destroyed or disposed of in accordance with the State Controller's authorization, no action or proceeding shall be brought or maintained against the State or any officer thereof or against the holder as agent or otherwise for or on account of any action taken by the holder pursuant to this chapter with respect to such property. If the holder has not received any such direction within seven years after the final date for filing a report under Section 1510, the holder at his option may destroy or otherwise dispose of the property without the consent or direction of the State Controller.

(c) If the property is claimed by the owner or by his successor in interest at any time before the holder has destroyed or otherwise disposed of the property as provided in subdivision (b), the holder may pay or deliver the property against a written proof of claim and payment of any delinquent rent and other charges owing to the holder, and the holder shall notify the State Controller of such payment or delivery and file a copy of such proof of claim with the State Controller.

Examination of records

1522. The State Controller may at reasonable times and upon reasonable notice examine the records of any person if he has reason to believe that such person has failed to report property that should have been reported pursuant to this chapter.

When requested by the State Controller, such examination shall be conducted by any licensing or regulating agency otherwise empowered by the laws of this State to examine the records of the holder. For the purpose of determining compliance with this chapter, the Superintendent of Banks and the Savings and Loan Commissioner are hereby respectively vested with full authority to examine the records of any banking organization and any savings and loan association doing business within this State but not organized under the laws of or created in this State.

Refusal to deliver

1523. If any person refuses to deliver property to the State Controller as required under this chapter, the State Controller shall bring an action in a court of appropriate jurisdiction to enforce such delivery.

Fines

1524. (a) Any person who willfully fails to render any report or perform other duties required under this chapter shall be punished by a fine of ten dollars ($10) for each day such report is withheld, but not more than one thousand dollars ($1,000).

(b) Any person who willfully refuses to pay or deliver abandoned property to the State Controller as required under this chapter shall be punished by a fine of not less than five hundred dollars ($500) nor more than five thousand dollars ($5,000), or imprisonment for not more than six months, or both, in the discretion of the court.

Rules and regulations

1525. The State Controller is hereby authorized to make necessary rules and regulations to carry out the provisions of this chapter.

Not applicable

1526. This chapter shall not apply to any property that has been presumed abandoned or escheated under the laws of another state prior to the effective date of this chapter; nor shall this chapter apply to any property in the official custody of a municipal utility district; nor to a local agency if such property may be transferred to the General Fund under the provisions of Sections 50050-50053 of the Government Code.

1527. No agreement entered within nine months after the date of filing report under Section 1510(d) shall be valid if any person thereby undertakes to locate property reported under Section 1510 for a fee or other compensation exceeding 10 percent of the value of recoverable property unless the agreement is in writing and signed by the owner and discloses the nature and value of the property and the name and address of the holder thereof, as such facts are so reported; provided, that nothing herein shall be construed to prevent an owner from asserting, at any time, that any agreement to locate property is based upon an excessive or unjust consideration.

Applicability

SEC. 3. Notwithstanding the express or implied repeal of any provision of law by enactment of this act, such law shall be deemed effective (as though this act were not enacted) in all particulars expressed by such law concerning escheated or

permanently escheated funds or other property paid or delivered to the State or funds or other property in the process of payment or delivery to the State at the time this act becomes effective; provided, that any such funds or other property not permanently escheated at the time this act becomes effective shall be deemed to have been received by the State under Section 2 of this act and may be recovered in the manner prescribed therein. Nor shall any such repeal in any way affect the liability of any holder who shall have complied with such law prior to its repeal or as such law is deemed effective by the provisions of this section, and such holder shall be exonerated from liability as though this act had not been enacted.

Severability of provisions

SEC. 4. If any provision of this act or the application thereof to any person or circumstances is held invalid, the invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Unclaimed Property Fund

SEC. 5. All money held in the Unclaimed Property Fund on the effective date of this act, other than money derived from the estates of deceased persons, shall be transferred to the credit of the abandoned property account in the Unclaimed Property Fund.

All money held in the Unclaimed Property Fund on the effective date of this act, which was derived from the estates of deceased persons, shall be transferred to the credit of the estates of deceased persons account in the Unclaimed Property Fund.

All property, real or personal, held in the name of the Unclaimed Property Fund on the effective date of this act, shall continue to be held in the name of said fund, and shall be held in the name of the estates of deceased persons account or in the name of the abandoned property account, according to its origin.

SEC. 6. Section 1356 of the Code of Civil Procedure is amended to read:

Deduction

1356. There shall be deducted by the State Controller from the amount of any allowed and approved claim filed by any claimant under the provisions of this chapter 1 percent of the total amount of such claim, but in no event less than ten dollars ($10), as a service charge for the receipt, accounting for, and management of the money or other property claimed, and for the processing of the claim filed to recover the same. On order of the State Controller, the amount of such service charge shall be transferred from the Unclaimed Property Fund to the School Land Fund. The amount of any service charge transferred to the School Land Fund shall be subject to the provisions of Section 1335 with the same force and effect as if said amount had been paid to the claimant from whose claim such service charge was deducted.

CHAPTER 1810

An act to amend Sections 27903 and 27904 of, and to add Division 14.5 (commencing at Section 33000) to, the Vehicle Code, as enacted by the Legislature at the 1959 Regular Session, relating to the transportation of radioactive materials.

[Approved by Governor July 11, 1959. Filed with Secretary of State July 13, 1959.]

In effect September 18, 1959

The people of the State of California do enact as follows:

SECTION 1. Section 27903 of the Vehicle Code, as enacted by the Legislature at the 1959 Regular Session, is amended to read:

Cargo designated

27903. No person shall operate any vehicle transporting any explosive substance, poisonous gases, flammable liquids, liquefied petroleum gases, or radioactive materials unless at the time of such transportation there is displayed upon each side and the rear of the exterior of the vehicle a sign upon which shall appear the word "explosives," or "poisonous gases," or "flammables," or "radioactive materials," whichever may correctly designate the cargo, in letters not less than three inches in height upon a background of sharply contrasting color.

SEC. 2. Section 27904 of said code is amended to read:

Not applicable

27904. Section 27903 does not apply if each vehicle transporting the explosive, poisonous, or flammable cargo has prominently displayed on each side and the rear of the vehicle a trademark, trade name, other designating mark, or a legend, substantially descriptive of the type of cargo of the vehicle and generally known to the public as being applied to the explosive substance, poisonous gases, flammable liquids, or liquefied petroleum gases.

License procedure

19481. No license to conduct a horse racing meeting may be granted under this article unless the applicant's liability for workmen's compensation is secured in accordance with Division 4 of the Labor Code. Workmen's compensation

Financial interest in meeting

19483. No license to conduct a horse racing meeting at any track shall be issued to any person having any financial interest in the conduct of any horse racing meeting by any other person at any other track in this State.

the meeting or any remaining portion thereof may be conducted at any other track specified by the board in the same area. The board may specify any other track within the area for the conduct of the meeting, whether or not such conduct would result in increasing the number of racing days in the county or area in which such track is situated. Before any other track is so specified, the board shall obtain the consents of the person licensed to conduct a meeting at the track which has become unsuitable for racing and of the owners and operators licensed to conduct a meeting at such other track.

Each application for a license to conduct a horse racing meeting shall be accompanied by a deposit to secure the payment of any license fee imposed by this article, in the form of a certified check payable to the Treasurer of the State of California, in the applicable amount specified below:

19497. Any person who is licensed to conduct a horse racing meeting at any place, track or inclosure which is leased by him from the State, shall not transfer any such property to any other person, whether licensed under this chapter or not, for the purpose of furnishing such other person a place, track or inclosure at which it may conduct a horse racing meeting, unless such transfer is first submitted to the Department of Finance and the department finds that its terms and provisions are just and reasonable and approves of it.

As used in this section, "transfer" includes any sublease, permit to use, license to use, and any other transaction or arrangement of any kind or nature whereby any right to the use or possession of property, or any part thereof, for the purpose of conducting a horse racing meeting is conferred upon any person.

SECTION 1. Section 7306 of the Revenue and Taxation Code is amended to read:

"Distributor"

7306. "Distributor" includes every person who, within the meaning of the term "distribution" as defined in this chapter, distributes motor vehicle fuel and also includes every person who refines, manufactures, produces, blends or compounds motor vehicle fuel in this State and every person who imports motor vehicle fuel into this State or who receives in this State motor vehicle fuel of which there has been no prior taxable distribution by a distributor licensed under this part, and any aircraft manufacturer, or certificated or licensed carrier by air, who files with the board an application for a license to engage in business as a distributor and to whom the board issues such a license. "Distributor" does not include any person who brings motor vehicle fuel into this State in the usual and ordinary supply tank connected to the engine of a motor vehicle if such fuel is not removed from the tank except as used for the propulsion of such engine, except to the extent such person acquires the fuel tax free for export or claims a refund of tax paid on account of exportation from the state from which such fuel is transported into this State. Distribu-

tor does not include any person who shall import into this State motor vehicle fuel in individual quantities of 500 gallons or less purchased from a distributor licensed under this part and who shall assume liability for the tax imposed by this part with respect to the fuel so imported.

SEC. 2. Section 7352 of said code is amended to read:

Presumption of distribution

7352. For the purpose of the proper administration of this part and to prevent evasion of the license tax, unless the contrary is established, it shall be presumed that all motor vehicle fuel refined, manufactured, produced, blended, or compounded in this State or imported into this State and no longer in the possession of the distributor has been distributed. This presumption cannot be overcome by proof that the motor vehicle fuel has been converted to his own use by any person to whom the distributor has entrusted the control or possession of the fuel either as bailee, consignee, employee, or agent; provided, however, any such person causing a distribution by the act of converting to his own use any fuel so entrusted to him, as well as any other person receiving such fuel with the knowledge that it was so converted, shall be jointly and severally liable with the distributor for payment of the tax imposed upon such distribution, and all such persons shall be considered as distributors for the purpose of Chapter 5 (commencing at Section 7651) or 6 (commencing at Section 7851) of this part.

SEC. 3. Section 7402 of said code is amended to read:

Export certificate

7402. In support of any exemption from license taxes claimed under this chapter on account of the exportation of motor vehicle fuel, every distributor shall execute and file with the board an export certificate in such form as shall be prescribed by the board. The certificate shall be made under penalty of perjury by a person having knowledge of the fact of the exportation of the fuel from the State.

SEC. 4. Section 7403 of said code is amended to read:

Period of filing

7403. All export certificates required to be filed with the board under Section 7402 shall be completed and be filed with the board within 90 days after the close of the calendar month in which the fuel is exported. Failure to file the certificate within the time required by this section shall not preclude the distributor from filing a claim for refund under Article 2 (commencing at Section 8126), Chapter 7, of this part with respect to the tax paid by the distributor on motor vehicle fuel which has been exported.

Repeal

SEC. 5. Section 7405 of said code is repealed.

SEC. 6. Section 7407 of said code is amended to read:

Extension of filing period

7407. The board may extend for good cause for not to exceed six months the time for filing certificates of export as fixed in Section 7403. The extension may be granted at any time; provided a request therefor is filed with the board within or prior to the period for which the extension may be granted.

SEC. 7. Section 7451 of said code is amended to read:

Application for license

7451. Every person before becoming a distributor shall apply to the board for a license authorizing the person to engage in business as a distributor. A distributor's license shall be issued only to a person who is a distributor of motor vehicle fuel within the meaning of the word "distribution" as defined in Section 7305, or who is an aircraft manufacturer, or certificated or licensed carrier by air. If an applicant for a license applies therefor to become authorized to distribute motor vehicle fuel under subsection (c) or (d) of Section 7305 of this part and is not engaged in refining, manufacturing, or producing motor vehicle fuel in this State, the board may limit the authorization granted by the license issued to such person to transactions under subsection (c) or (d) of Section 7305 of this part and the provisions of Section 7401(c) of this part shall not be applicable to the person whose license is so limited. It is unlawful for any person to be a distributor without first securing a license.

SEC. 8. Section 7506.5 is added to said code, to read:

Revocation of license

7506.5. The board may revoke any distributor's license held by a person who does not engage in, or who discontinues, the distribution of motor vehicle fuel within the meaning of "distribution" as defined in Section 7305.

SEC. 9. Section 7656 of said code is amended to read:

Extension of time periods

7656. The board for good cause may extend for not to exceed 30 days the time for making any report or return or paying any tax required under this part. The extension may be granted at any time; provided, a request therefor is filed with the board within or prior to the period for which the extension may be granted.

Any distributor to whom an extension is granted shall pay, in addition to the tax, interest at the rate of one-half of 1 percent per month, or fraction thereof, from the date on which the tax would have been due without the extension to the date of payment.

SEC. 10. Section 7727 of said code is amended to read:

Determination of license tax, penalties

7727. The board shall forthwith ascertain as best it may the amount of the distributions and shall determine immediately the license tax on the amount, adding to the license tax a penalty of 50 percent of the amount of the tax, and shall give the unlicensed distributor notice of this determination as prescribed by Section 7493; provided, however, that where the board shall determine that failure to secure a license was due to reasonable cause, such penalty may be waived. Provisions of Sections 7699 and 7700 shall be applicable with respect to the finality of the determination and the right of the unlicensed distributor to petition for a redetermination.

SEC. 11. Section 8102 of said code is amended to read:

Claim for refund

8102. The claimant of a refund shall present to the Controller a claim supported by the original invoice showing the purchase. The claim shall state the total amount of the fuel purchased by the claimant and the manner and the equipment

in which the claimant has used the fuel. The claim shall not be under oath but shall contain, or be accompanied by, a written declaration that it is made under the penalties of perjury.

SEC. 12. Section 8252 of said code is amended to read:

Necessary assistance employable by board

8252. The board may employ attorneys, accountants, auditors, investigators, and other expert and clerical assistance necessary to enforce its powers and perform its duties under this part. In enforcing this part the board and its authorized representatives have the powers conferred by law upon peace officers.

SEC. 13. Section 8255 is added to said code, to read:

Information furnished

8255. Upon request from the officials to whom is entrusted the enforcement of the motor fuel tax law of another government the board or the Controller may furnish to such officials such information in the possession of the board or the Controller which is deemed essential to the enforcement of the motor fuel tax laws.

Any information so furnished shall not be used for any purpose other than that for which it was furnished.

Thereafter appointments to the office shall be made by the board of supervisors on the basis of merit and fitness according to civil service rules and regulations adopted prior to the submission of the question to the electors. The director of finance may be removed or suspended for cause as provided in the civil service rules and regulations.

(a) That a bid of some other person represents an offer made in open competition; or

(b) That the policy provisions of such insurer governing bids for the repair of vehicles or other property insured under the policy have been complied with in good faith.

CHAPTER 1908

An act to amend Section 820 of the Streets and Highways Code, relating to federal aid on public highways, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 16, 1959. Filed with Secretary of State July 17, 1959.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 820 of the Streets and Highways Code is amended to read:

820. The State of California assents to the provisions of the Federal Highway Act, as amended and supplemented. All work done under the provisions of said act or other acts of Congress relative to federal aid, or other cooperative highway work, or to emergency construction of public highways with funds apportioned by the Government of the United States, shall be performed as required under acts of Congress and the rules and regulations promulgated thereunder. Laws of this State inconsistent with such laws, or rules and regulations of the United States, shall not apply to such work, to the extent of such inconsistency.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Congress of the United States enacts certain acts and the Bureau of Public Roads promulgates rules and regulations under such acts which pertain to federal highway aid and which are sometimes inconsistent with laws of the State of California. It is necessary that the State of California comply with these acts and rules and regulations in order to receive Federal Aid Highway Funds, which now amount to approximately three hundred million dollars ($300,000,000) annually. There is an implication in Section 820 as it now exists that the section may apply only to those federal acts and rules and regulations which were in effect at the time the section was last amended. It is essential that the State also comply with such acts and rules and regulations which have been enacted or promulgated since that time. It is therefore necessary that this act take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. The sum of two hundred thirteen thousand dollars ($213,000) is hereby appropriated from the California Water Fund for expenditure for water pollution studies and investigations in accordance with the following schedule:

(b) Eighty-three thousand dollars ($83,000), or so much thereof as may be necessary, to the University of California for expenditure by it for studies and investigations of pollution in the San Francisco Bay area.

Such an action shall be in the nature of a proceeding in rem and jurisdiction of all parties interested may be had by publication of summons for at least once a week for three weeks in some newspaper of general circulation published in the county where the action is pending, such paper to be designated by the court having jurisdiction of the action. Jurisdiction shall be complete within 10 days after the publication of summons in the manner provided herein. Anyone interested may at any time before the expiration of said 10 days appear

and by proper proceedings contest the validity of such proceedings and bond issue or uphold the same. The action shall be speedily tried and judgment rendered declaring the matter so contested either valid or invalid. Either party shall have the right to appeal to the Supreme Court at any time within 30 days after the rendition of such judgment, which appeal must be heard and determined within three months from the time of taking such appeal. The motion for a new trial of any such action must be heard and determined within 10 days from the filing of the notice of intention to move for a new trial. The court hearing the action, in inquiring into the regularity, legality or correctness of the proceedings and of the contract made or proposed to be made, must disregard any error, irregularity or omission which does not affect the substantial rights of the parties to said action or proceeding. All rules of pleadings and practice provided by the Code of Civil Procedure are applicable to such action. All costs of such actions may be allowed and apportioned between the parties or taxed to the losing party in the discretion of the court. If the validity of the proceedings or bond issue is sustained, the validity of such proceedings or issue shall not thereafter be contested in any action, suit or proceeding, and the judgment entered in the action herein provided for shall be conclusive evidence of the validity of such bond issue and of all proceedings prior thereto. In such action, all findings, conclusions and determinations of the legislative body which conducted the proceedings shall be conclusive in the absence of actual fraud.

It is the intent of the Legislature that the Economic Development Agency created by this act shall provide the leadership and co-ordination of public and private effort necessary to the full realization of the economic potential of the State. The Economic Development Agency shall ordinarily supplement the work of existing agencies, but it may initiate action on its own behalf when the problems posed are not, in the agency's judgment, being adequately solved elsewhere.

CHAPTER 2.6. SAN JOAQUIN VALLEY AIR POLLUTION CONTROL DISTRICT

Article 1. Short Title

Short title

24375. This chapter may be cited and shall be known as the San Joaquin Valley Air Pollution Control Law.

Article 2. Declaration of Policy

Declaration of policy

24375.01. The Legislature finds and declares that the people of the State of California have a primary interest in atmospheric purity and freedom of the air from any air contaminants and that there is pollution of the atmosphere in certain portions of the State which is detrimental to the public peace, health, safety, and welfare of the people of the State.

24375.02. The Legislature further finds and declares: Same

(a) That in portions of the State the air is polluted with smoke, charred paper, dust, soot, grime, carbon, noxious acids, fumes, gases, odors, particulate matter, and other air contaminants.

(b) That it is not practical or feasible to prevent or reduce such air contaminants by local county and city ordinances exclusively.

(c) That it is necessary, therefore, to provide for air pollution control districts in those portions of the State where regulations are necessary and feasible to reduce air contaminants in order to safeguard life, health, property and the public welfare and to make possible the comfortable enjoyment of life and property.

24375.03. The problems of air pollution are primarily regional and dependent upon factors of weather, topography, population, transportation, methods of waste disposal, and agricultural and industrial development. These factors vary greatly from area to area. The San Joaquin Valley area presents a special problem, distinct from that found in the remainder of the State. This chapter is enacted to provide a special district to control and suppress air pollution in that area. Special law

Since the problem requiring this legislation is local and special due to atmospheric and geographic conditions, a general law cannot now be made applicable so as to insure its effective alleviation. It is necessary, therefore, to create, by special law, an air pollution control district which includes an area lying within the boundaries of Fresno, Kern, Kings, Madera, Merced, San Joaquin, Stanislaus, and Tulare Counties.

Article 3. Definitions

24375.05. "District," as used in this chapter, means the San Joaquin Valley Air Pollution Control District. "District"

24375.06. "Board," as used in this chapter, means the board of directors of the district. "Board"

24375.07. "Control officer," as used in this chapter, means the air pollution control officer of the district. "Control officer"

"Air contaminant," as used in this chapter, includes smoke, charred paper, dust, soot, grime, carbon, noxious acids, fumes, gases, mist, odors, or particulate matter, or any combination thereof. "Air contaminant"

Article 4. Creation of District

24375.10. An air pollution control district is hereby created, which shall be called the San Joaquin Valley Air Pollution Control District and shall comprise the area lying within the boundaries of Fresno, Kings, Madera, Merced, San Joaquin, Stanislaus, and Tulare Counties, and all of the area within Kern County except that lying within the boundaries of the China Lake, Indian Wells Valley Union, Johannesburg, San Joaquin Valley Air Pollution Control District

At least two weeks prior to the date of each meeting the county clerk of each county shall give notice of such meeting to each member of the city selection committee of such county. The meeting of the city selection committee of each county shall be conducted in the presence of the county clerk of such county who shall act as the recording officer for the meeting. Such determination shall be based on surveys and studies made by the district and such other information as may be available to the district. The determination shall be made only after the board has considered the matter at a public hearing at which all interested persons are afforded the opportunity to appear and urge or oppose adoption of the resolution. The board shall give notice of its intention to adopt the resolution and give notice of the hearing by publication pursuant to Section 6061 of the Government Code in a newspaper of general circulation in each of the counties within the district not less than 10 days prior to the hearing. The notice shall contain the time and place of the hearing and such other information as may be necessary to reasonably apprise the people within the district of the nature and purpose of the meeting. The hearing may be adjourned from time to time in order to permit presentation of all pertinent testimony.

Upon the conclusion of the hearing, if the board determines it to be necessary to adopt rules and regulations to control the release of air contaminants, the board shall so declare by resolution.

or degree of air contaminants which are or may be discharged by such source, and may require that such disclosures be certified by a professional engineer registered in the State. In addition to such report, the control officer may designate and employ a registered professional engineer of his choice to make an independent study and report as to the nature, extent, quantity, and degree of any air contaminants which are or may be discharged from the source. An engineer so designated is authorized to inspect any article, machine, equipment or other contrivance necessary to make the inspection and report.

Failure to furnish information, etc.

24375.75. If any person within a reasonable time willfully fails or refuses to furnish to the control officer information or analyses requested by such control officer, or if the control officer finds that any order, rule or regulation of the board is being violated after a reasonable time has been allowed for compliance, the control officer shall notify the hearing board of such facts and request a public hearing on the matter.

Hearing

24375.76. Within 30 days after the control officer has requested a public hearing, the hearing board shall hold such a hearing and give notice of the time and place of such hearing to the person cited, to the control officer, to each board of supervisors and city council in the district, to the board of directors, and to such other persons as the hearing board deems should be notified, not less than 10 days before the date of the public hearing.

Article 11. Variances

Variances

24375.80. The provisions of this chapter do not prohibit the discharge of air contaminants to a greater extent or for a longer time, or both, than permitted by Article 9 (commencing at Section 24375.55) or 10 (commencing at Section 24375.70) of this chapter or by rules, regulations, or orders of the board, if not of a greater extent or longer time than the hearing board or a court after a hearing before the hearing board finds necessary pursuant to the provisions of this article.

Hearings

24375.81. The hearing board on its own motion or at the request of any person may hold a hearing to determine under what conditions and to what extent a variance from the requirements established by Article 10 (commencing at Section 24375.70) of this chapter or by rules, regulations, or orders of the board is necessary and will be permitted.

Notice of hearing

24375.85. If the hearing board finds that because of conditions beyond control compliance with Article 10 (commencing at Section 24375.70) of this chapter or with any rule, regulation, or order of the air pollution control board will result in an arbitrary and unreasonable taking of property or in the practical closing and elimination of any lawful business, occupation or activity, in either case without a sufficient corresponding benefit or advantage to the people in the reduction of air contamination, it shall prescribe other and different requirements not more onerous applicable to plants and equipment operated either by named classes of industries or persons, or to the operation of separate persons; provided, however, that no variance may permit or authorize the maintenance of a nuisance. Granting of variances

In determining under what conditions and to what extent a variance from said requirements is necessary and will be permitted, the hearing board shall exercise a wide discretion in weighing the equities involved and the advantages and disadvantages to the residents of the district and to any lawful business, occupation or activity involved, resulting from requiring compliance with said requirements or resulting from granting a variance.

Before granting any variance, the hearing board shall find by resolution that:

(a) The variance is necessary for the applicant to enjoy property rights that would be denied him by the strict application of the rules and regulations, which would not be denied generally as a result of the same standard of enforcement in other situations.

(b) Undue hardship would result from strict application of the rules and regulations that would not accrue generally as a result of the same standard of enforcement in other situations.

(c) The effect of the variance upon the health, safety, and general welfare of the community, district, or area was considered.

24375.86. The hearing board may revoke or modify by written order, after a public hearing held upon not less than 10 days' notice, any order permitting a variance. Revocation, etc., of variances

Effective time of variances

24375.89. The hearing board in making any order permitting a variance may specify the time during which such order will be effective, in no event to exceed one year.

Locally granted variances

24375.90. If any local county or city ordinance has provided regulations similar to those in Article 10 (commencing at Section 24375.70) of this chapter or to any order, regulation, or rule prescribed by the board, and has provided for the granting of variances, and pursuant to such local ordinance a variance has been granted prior to notification of the district, such variance shall be continued as a variance of the hearing board for the time specified therein or one year whichever is shorter or until and unless prior to the expiration of such time the hearing board modifies or revokes such variance as provided in this article.

The subpoena may require such person to produce

Whenever the hearing board finds that any person is in violation of any order, rule or regulation of the board, and that no variance is justified, and that reasonable time has been allowed for compliance, the hearing board shall certify such facts to the district attorney for the county in which the discharge originates, whereupon such district attorney shall petition the superior court in and for the county for the issuance of an injunction restraining such person or persons from continuing any activity causing or threatening a pollution or nuisance. The district attorney may, but is not required to, associate in the prosecution of such action, the counsel for the board. The court shall thereupon issue an order directing the person to appear before the court and show cause why the injunction should not be issued. A local ordinance may require the payment of a fee as a condition of approval of a final subdivision map for purposes of defraying the actual or estimated costs of constructing planned drainage facilities for the removal of surface and storm waters from local or neighborhood drainage areas.

Such local ordinances may require payment of fees pursuant to this section if:

(1) The ordinance has been in effect for a period of 30 days prior to the filing of the tentative map of any subdivision for which payment of a fee is required;

(3) The drainage plan, in the case of a city, situated in a county having a countywide general drainage plan, has been determined by resolution of the governing body of the county to be in conformity with the county drainage plan;

(4) The costs, whether actual or estimated, are based upon findings by the governing body that subdivision and development of property within the planned local drainage area will require construction of the facilities described in the drainage plan, and that the fees are fairly apportioned within the local drainage area either on the basis of benefits conferred on property proposed for subdivision or on the need for local

drainage facilities created by the proposed subdivision and development of other property within the local drainage area;

(5) The fee as to any property proposed for subdivision within a local drainage area does not exceed the pro rata share of the amount of the total actual or estimated costs of all facilities within the local drainage area which would be assessable on such property if such costs were apportioned uniformly on a per acre basis.

(6) The drainage facilities planned are in addition to existing local drainage facilities serving the area at the time of the adoption of the drainage plan for the area.

Fees required by an ordinance adopted pursuant to this section shall be paid into a "planned local drainage facilities fund." A separate fund shall be established for each local drainage area. Moneys in such fund shall be expended solely for the construction or reimbursement for construction of local drainage facilities within the planned local drainage area from which the fees comprising the fund were collected. An ordinance adopted pursuant to this section may provide for the acceptance of cash or other consideration in lieu of the payment of fees.

A county or city imposing fees pursuant to this section may advance money from its general fund to pay the costs of constructing drainage facilities within a local drainage area and reimburse the general fund for such advances from the planned local drainage facilities fund for the local drainage area in which the drainage facilities were constructed.

A county or city imposing fees pursuant to this section may incur an indebtedness for the construction of drainage facilities within a local drainage area; provided that the sole security for repayment of such indebtedness shall be moneys in the planned local drainage facilities fund.

In effect September 18, 1959

[Approved by Governor July 16, 1959. Filed with Secretary of State July 17, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 15007 of the Education Code is amended to read:

Sewerage, water, etc., facilities

15007. Where a city, district, or other political corporation or subdivision of the State is authorized by law to furnish sewerage, water, or other utility facilities to a school district and is not required to provide for the installation thereof to such school district at its own expense, it may enter into an agreement with such school district whereby the cost of installation will be paid by the school district under such terms as the parties may agree to, with reimbursement from charges made or to be made to other users of such facilities as may be agreed upon between the parties, save insofar as other provisions of law control the terms of such reimbursement. Any agreement made prior to September 11, 1957, between a school district and any of the aforesaid entities, which is otherwise in accordance with this section shall be deemed to be as valid and effective as if such agreement had been entered into subsequent to September 11, 1957.

The governing body of any entity mentioned in the preceding paragraph may by contract reimburse a school district for such portion of such utility facilities as it deems constructed for the benefit of or usable by persons outside of the school site, provided such facilities are dedicated by the school district to the public. Such contract shall provide that the governing body may collect from any person using such facilities, for the benefit of property not within the school site, a reasonable charge for such use. The term "person" herein shall have the same meaning as in Section 11545 of the Business and Professions Code.

SEC. 2. Section 19559.5 is added to said code, to read:

Disposition of replaced property

19559.5. The board shall prescribe instructions specifying the manner in which property, real or personal, being replaced through the apportionment, shall be disposed of, and compliance with the instructions shall be a condition upon the making of the apportionment. The net proceeds derived from such a disposition shall be contributed in reduction of any apportionment. Any school district affected shall comply with instructions prescribed by the board. The board may require a district to transfer to the State, by any instruments deemed appropriate by the board, title to any such property, where-

upon, the board shall dispose of the property in any manner it deems appropriate to insure the highest return to the State, and apply the proceeds therefrom in reduction of apportionments to the district. The district affected shall do all things deemed necessary by the board to implement such disposition. The provisions of this section shall be applicable to property replaced by apportionments heretofore or hereafter made under this chapter or under Chapter 8 of Division 14 of this code.

SEC. 3. Section 19577 of said code is amended to read:

Application: Site, etc., not part of construction project

19577. Notwithstanding any other provisions of this chapter (Sections 19551 to 19689, inclusive), a district which applies for an apportionment for the purchase of a site or comprehensive master plan, or for the cost of the preparation of plans and specifications, which is not a part of a construction project, shall make a separate application for such site, comprehensive master plan, or plans and specifications in the same manner as prescribed by Section 19571.

All of the provisions of this chapter (Sections 19551 to 19689, inclusive) apply to such application and apportionment except that:

(a) If the Department of Education determines that within five years in the case of an application for an elementary grade level maintained by the district, or within seven years in the case of an application for a high school grade level maintained by the district, from the date of the application for the site or comprehensive master plan, or for the plans and specifications, there will be sufficient enrollment in the district to show the need of such site or comprehensive master plan, or for the plans and specifications, it may approve the application. Any application referred to the board pursuant to this section may be either approved in whole or in part, not exceeding the amount applied for, as the board may deem appropriate, pursuant to Sections 19571 and 19576, except that the board may approve additional portions of an application and make an additional apportionment or apportionments within five years of the original approval without requiring a district to issue additional bonds. No additional approval pursuant to the original application or apportionment thereunder may be made unless the board first has investigated and determined the necessity of such additional approval or apportionment, and has received a report thereon from the Department of Education. Any provision of Section 19571 inconsistent with this section shall not apply to such application. As used in this section, an "elementary grade level maintained by the district" is a grade level composed of the grades and maintained by the districts specified in (1) of subdivision (e) of Section 19553. As used in this section a "high school grade level maintained by the district" is a grade level composed of the grades and maintained by the districts specified in (2) of subdivision (e) of Section 19553.

(b) Section 19556 does not apply.

(c) An application for a site pursuant to this section may include an amount for the preparation of plans and specifications for school facilities and for the development of the site, which will conform to those eligible for construction under this chapter (Sections 19551 to 19689, inclusive).

(d) If the application is approved and an apportionment granted therefor the district shall repay the full amount of such apportionment and the interest thereon. The repayment of the apportionment for a site or comprehensive master plan, and the interest thereon, may be over a period of years, not to exceed 30 years from the first day of January of the fiscal year next succeeding the fiscal year in which such apportionment became final. The repayment of the apportionment for plans and specifications, and the interest thereon, may be over a period of years, not to exceed 30 years from the first day of January of the second fiscal year succeeding the fiscal year in which such apportionment became final. The number of years allowed for repayment shall be determined by the board at the time it fixes interest on the apportionment. Such repayment is in addition to any other repayment required under this chapter (Sections 19551 to 19689, inclusive). If an apportionment is granted pursuant to this section for a site and such site is subsequently used in a construction project for which an apportionment is received under other provisions of this chapter (Sections 19551 to 19689, inclusive), or if an apportionment is granted pursuant to this section for plans and specifications and such plans and specifications are subsequently used in a construction project for which an apportionment is received under other provisions of this chapter (Sections 19551 to 19689, inclusive), the district shall not be required to make any further repayments for the site, or the plans and specifications, as the case may be, pursuant to this section and the unpaid balance of the apportionment and interest owing on the apportionment for the site, or the plans and specifications, as the case may be, pursuant to this section shall be added to the principal amount of the apportionment and accrued interest thereon for the construction project.

The interpretation by the board of the word "used" in the preceding paragraph and whether or not the district has complied therewith shall be conclusive upon the district affected, after a hearing and finding of the State Allocation Board.

SEC. 4. Section 19632 of said code is amended to read:

Failure to use property for specified purposes

19632. Whenever a school district receives or has received an apportionment for or toward the purchase or improvement of realty or personalty (hereafter referred to as "property") and within five years from the date of the written authorization from a duly authorized representative of the board for the expenditure therefor from state funds or from contributable district funds, sells, leases, exchanges or otherwise disposes of such property or any portion thereof without the consent of the board, the board may demand the return of the state apportionment or such portion thereof it deems proper, plus accrued

interest at the prescribed rate, less any repayment made prior to such demand by the district on account of said apportionment. A district may not at any time while an apportionment remains unpaid or noncanceled, dispose of any property acquired therefrom without the consent of the board, excepting transfers provided for by Article 6, Chapter 2, Division 12 of the Education Code, and existing improvements on an acquired site. Such consent may be subject to such conditions as may be imposed, which may include the application of the consideration received in reduction of any apportionments previously made to the district. Any property into which the consideration from such disposition is converted shall be and remain the property of the State as if an apportionment had originally been authorized therefor.

Whenever, in the judgment of the board, a district fails to use property for the purpose or purposes for which an apportionment has been made, within not less than one nor more than five years from the aforesaid authorization, as the board shall determine, the board may demand back the return of the apportionment, or portion thereof, with interest, as specified in the preceding paragraph. The board's interpretation of such "use" in any instance, and whether or not the district has complied therewith, shall be conclusive upon the district effected after a hearing and finding of the board. In addition to the foregoing, the board may at any time subsequent to the expiration of the last mentioned period, while an apportionment remains unpaid or uncanceled, determine that a site or portion thereof, purchased in whole or in part with said apportionment is not being used for the purpose or purposes for which such apportionment was made, which determination shall be conclusive upon the district after a hearing and finding of the board. Pursuant to such determination, the board may direct the sale or other disposition of such site or portion thereof by the State or by the district and apply the proceeds, after deducting expenses it determines necessary to facilitate such disposition, in reduction of said apportionment, plus accrued interest. Any excess shall be applied in reduction of any other unpaid or noncanceled apportionments, plus interest, as the board shall direct, any remaining proceeds thereafter being payable to the district. For the purposes of such determination of disposition, the district shall, whenever directed by the board, convey record title to such site or portion thereof to the State and/or do any other acts deemed necessary by the board to facilitate such disposition or implement the terms thereof. Any disposition authorized to be made hereunder by the district shall be made in accordance with the procedure prescribed by the Education Code for the disposition of unneeded school property, otherwise as directed by the board, provided that the consideration to be received shall be subject to the approval of the board or its delegate for that purpose.

Written notice of any demand prescribed by this section, setting forth the amount due the State pursuant thereto, shall be furnished by the board to the governing board of the school district, the county superintendent of schools, the county auditor, the county treasurer of the county whose county has jurisdiction over the school district, and the State Controller. Upon receipt of such notice and demand, the governing board of the school district shall, at the time of the next county settlement following receipt of such notice, order the county treasurer to pay to the State Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in such notice. Such amount shall, upon order of the State Controller, be deposited in the State Treasury to the credit of the State School Building Aid Fund, to be reapportioned by the board.

Whenever a school district receives or has received an apportionment under this chapter (Sections 19551 to 19689, inclusive) for the purchase of a site which contains existing improvements, the board may require the district to dispose of such existing improvements as a condition of receiving an apportionment in such manner as the board deems proper, and contribute the net proceeds therefrom or the value of any consideration received therefor, in reduction of any apportionment. In the event that the district is not so required to dispose of such existing improvements but after receiving such apportionment subsequently disposes thereof, the net proceeds therefrom or the value of the consideration received therefor, shall be contributed by the district in reduction of any remaining indebtedness to the State under this chapter (Sections 19551 to 19689, inclusive) or Chapter 8 (Sections 19401 to 19486, inclusive) of this division of the Education Code.

Where a district has been unable to use any building site acquired by an apportionment under this chapter (Sections 19551 to 19689, inclusive) because of the delay of the board in acting upon its application for an apportionment for the planning and construction of school buildings on such site, the board may withhold demand for repayment of the apportionment for such building site for a period of not less than one or more than three years after approval of the apportionment for planning and construction.

It shall be the duty of such governing body and county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the State.

Whenever the consent of the board is required in this section, it may be given by written authorization of its authorized representative for that purpose. The provisions of this section, including the term "apportionment" or "apportionments," shall be deemed to be applicable to apportionments heretofore or hereafter made under this chapter (Sections 19551 to 19689, inclusive) or Chapter 8 (Sections 19401 to 19486, inclusive) of Division 14 of the Education Code.

SEC. 5. Section 11544 of the Business and Professions Code is amended to read:

11544. Whenever the governing body has reimbursed or agreed to reimburse a subdivider or school district for the construction of a lateral or other facility, or any facilities contemplated by Section 15007 of the Education Code, which can or will be used by persons for the benefit of property other than that being subdivided by such subdivider, or for the benefit of property outside of a school site belonging to the school district, such governing body may impose and collect for such use a reasonable charge.

Charge for reimbursement

CHAPTER 1953

An act to amend Section 11601 of the Business and Professions Code, relating to subdivisions, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor July 16, 1959. Filed with Secretary of State July 17, 1959.]

The people of the State of California do enact as follows:

SECTION 1. Section 11601 of the Business and Professions Code is amended to read:

11601. Whenever any part of the subdivision is subject to a lien for taxes or special assessments collected as taxes which are not yet payable, the final map shall not be recorded until the owner or subdivider executes and files with the board of supervisors of the county wherein any part of the subdivision is located, a good and sufficient bond to be approved by the board and by its terms made to inure to the benefit of the

county and conditioned upon the payment of all state, county, municipal and local taxes and the current installment of principal and interest of all special assessments collected as taxes, which at the time the final map is recorded are a lien against the property, but which are not yet payable. In lieu of a bond, a deposit may be made of money or negotiable bonds in the same amount, and of the kind approved for securing deposits of public money.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There is presently an unprecedented population growth within the State and within the cities therein. With it has come an urgent need for housing and adequate commercial and industrial facilities in order to maintain a high level of employment and standards of living. This need has been countered by a tremendous increase in the number of both large and small parcels of land which are being subdivided every day throughout the State. It has also resulted in the greatly expanded use of laws which provide for certain improvements to be constructed pursuant to special assessments which are collected as taxes, thus enabling more rapid development than might otherwise be possible. The use of these laws and the ability to keep pace with growth has, however, been seriously restricted by the present requirement that a bond be filed or money paid in the full amount of such assessment before the final subdivision map may be recorded, notwithstanding the bondholder has already accepted the land as his sole source of security prior thereto. Bonds for a 10 to 25 year obligation may only be obtained from a few insurance companies and at prohibitive cost. It is necessary that subdivisions be able to develop as rapidly and economically as possible in order to assure the continued orderly development of the State.

18200.6. If an industrial loan company desires to change its place of business to a street address other than that designated in its authorization, it shall give written notice to the commissioner who shall issue his written authorization of such change, provided the commissioner finds such change of place of business would not justify a negative finding with respect to any matters set forth in Section 18200.3.
