Any person resisting a humane officer in the performance of his duty as provided in this section, shall be guilty of a misdemeanor. SEC. 4. Section 13591 of said code is amended to read:

Employees

13591. In any school district situated wholly within the boundaries of a city having a population of more than five hundred thousand (500,000) but not exceeding five hundred fifty thousand (550,000) as determined by the 1920 federal census, the janitors and other employees of the school district shall be employed in the same manner and under the same conditions as teachers are employed by the district and when employed shall be removed only for cause and after charges have been filed and heard by the board of education.

All employees who have been in the service of the school district continuously for a period of one year prior to July 27, 1917, shall be deemed to have been so employed.

In districts situated within or partly within cities having a population of over five hundred thousand (500,000) as determined by the 1920 federal census any board of education may establish a fund in the county treasury for the purpose of covering fire losses to school property in lieu of carrying fire insurance in admitted insurers as provided in Section 15802 of this code. In such fund shall be placed such sums, to be provided in the budget of the district, as will create an amount which, together with investments made from such fund, will be sufficient in the judgment of the board of education upon the advice of competent actuaries to protect such board of education against losses by fire on all or any part of the school property within its jurisdiction. Nothing contained herein shall be construed as prohibiting the board of education from providing protection against fire losses partly by means of such fund and partly by means of fire insurance written by admitted insurers as provided in Section 15802 of this code.

Such fund shall be considered as separate and apart from all other funds of the district and the balance therein shall not be considered as being part of the working cash of the district in compiling annual budgets or fixing annual tax rates.

Warrants shall not be drawn on or transfers made from the fund so created except to reimburse the district for losses by fire and then only after resolution duly adopted by the board of education based upon findings by competent appraisers.

The cash placed in such fund may be invested and reinvested by the county treasurer with the advice and consent of the board of education in securities which are legal investments for surplus county funds in this State. The income derived from such investments together with interest earned on uninvested funds shall be considered revenue of and be deposited in such fund.

The county treasurer shall make quarterly reports to the board of education as to the condition of the fund, using as a

basis for such report the cost or market value, whichever may be the lower, of the securities held as investments plus the cash in such fund.

Principal sum of bond

17827. The principal sum of the bond required by Section 17826 shall be determined in accordance with the following schedule:

If any person fails to file a claim

with the commissioner within such three months period, the commissioner shall thereupon be relieved of further duty or action hereunder on behalf of such person until such time as complaints involving the alleged default of the trading stamp company to redeem trading stamps have been again filed with the commissioner.

The publication shall also give notice of the time and place that the commissioner will hold a hearing to consider any evidence concerning the alleged default of the trading stamp company.

The costs incurred by the commissioner in performing the duties set forth in Sections 17829, 17830, 17831, and 17832 shall constitute a proper charge against the trading stamp company which has defaulted, or, in the event of the trading stamp company's failure to pay, against the bond filed by that company, and shall constitute a prior claim against such company or such bond, except that in no event shall the surety be liable for such charge and all other valid claims, as an aggregate in excess of the principal sum of the bond.

Grounds for license denial

17834. The conviction of a felony involving moral turpitude of an applicant for license, or a partner, officer or director thereof, constitutes grounds for the denial of a license.

Surviving partners

17835. A surviving member or members of a licensed copartnership by reason of death shall be entitled to continue in business under such license, until the expiration date thereof, if the surviving member or members shall continue to comply

with the provisions of this chapter and if notice is given to the commissioner within 30 days after death of the member.

Upon the filing of any complaint or complaints involving the alleged failure of a trading stamp company to redeem trading stamps, the commissioner shall request the trading stamp company in writing by certified mail, mailed to the company's last address of record with the commissioner, to redeem the trading stamps in cash on or before 10 days from the date on which the request is mailed.

If the amount demanded is paid, the commissioner shall make an equitable distribution of the amount to the persons who filed pursuant to this section, and shall forthwith forward the redeemed stamps to the trading stamp company.

If the trading stamp company fails to redeem the trading stamps within the specified time, the commissioner shall publish notice of such fact in three consecutive publications of one or more newspapers of general circulation published in the Cities of Sacramento, San Francisco and Los Angeles, and therein advise that any additional claim may be filed with him, together with the trading stamps upon which the claim is based, within three months after the date of the first such publication. Retailers in possession of trading stamps for issuance to their customers shall also be deemed rightful holders entitled to make such claims. If any person fails to file a claim with the commissioner within such three months period, the commissioner shall thereupon be relieved of further duty or action hereunder on behalf of such person until such time as complaints involving the alleged default of the trading stamp company to redeem trading stamps have been again filed with the commissioner.

If the amount demanded is paid within 10 days of the making of the demand, the commissioner shall make an equitable distribution of the amount to persons who filed pursuant to this section and shall forthwith forward the redeemed stamps to the trading stamp company.

If the amount demanded is not paid within 10 days of the making of the demand, the commissioner may bring an action in a court of competent jurisdiction against the trading stamp company and its surety to recover, on behalf of the complainants, the value of the unredeemed stamps.

The costs incurred by the commissioner in performing the duties set forth in this section shall constitute a proper charge against the trading stamp company which has defaulted, or, in the event of the trading stamp company's failure to pay, against the bond filed by that company, and shall constitute a prior claim against such company or such bond, except that in no event shall the surety be liable for such charge and all other valid claims as an aggregate in excess of the principal sum of the bond.

[Approved by Governor July 23, 1959. Filed with Secretary of State July 23, 1959.]

In effect September 18, 1959

The people of the State of California do enact as follows:

SECTION 1. Section 19577 of the Education Code as enacted at the 1959 Regular Session is amended to read:

19577. Notwithstanding any other provisions of this chapter (Sections 19551 to 19689, inclusive), a district which applies for an apportionment for the purchase of a site or comprehensive master plan, or for the cost of the preparation of plans and specifications, which is not a part of a construction project, shall make a separate application for such site, comprehensive master plan, or plans and specifications in the same manner as prescribed by Section 19571.

All of the provisions of this chapter (Sections 19551 to 19689, inclusive) apply to such application and apportionment except that:

(a) If the Department of Education determines that within five years in the case of an application for an elementary grade level maintained by the district, or within seven years, in the case of an application for a high school grade level maintained by the district, from the date of the application for the site or comprehensive master plan, or for the plans and specifications, there will be sufficient enrollment in the district to show the need of such site or comprehensive master plan, or for the plans and specifications, it may approve the application. The board may modify a determination respecting future enrollment in connection with an application for an elementary grade level maintained by the district to utilize a period of seven years from the date of the application if it is necessary to meet the emergency conditions existing in that certain district due to a rapid increase in the enrollment of pupils, or due to the scarcity of land within the district, or both. Any application referred to the board pursuant to this section may be either approved in whole or in part, not exceeding the amount applied for, as the board may deem appropriate, pursuant to Sections 19571 and 19576, except that the board may approve additional portions of an application and make an additional apportionment or apportionments within five years of the original approval without requiring a district to issue additional bonds. No additional approval pursuant to the original application or apportionment thereunder may be made unless the board first has investigated and determined the necessity of such additional approval or apportionment, and has received a report thereon from the Department of Education. Any provision of Section 19571 inconsistent with this

section shall not apply to such application. As used in this section, an "elementary grade level maintained by the district" is a grade level composed of the grades and maintained by the districts specified in (1) of subdivision (e) of Section 19553. As used in this section a "high school grade level maintained by the district" is a grade level composed of the grades and maintained by the districts specified in (2) of subdivision (e) of Section 19553.

(b) Section 19556 does not apply.

(c) An application for a site pursuant to this section may include an amount for the preparation of plans and specifications for school facilities and for the development of the site, which will conform to those eligible for construction under this chapter (Sections 19551 to 19689, inclusive).

(d) If the application is approved and an apportionment granted therefor the district shall repay the full amount of such apportionment and the interest thereon. The repayment of the apportionment for a site or comprehensive master plan, and the interest thereon, may be over a period of years, not to exceed 30 years from the first day of January of the fiscal year next succeeding the fiscal year in which such apportionment became final. The repayment of the apportionment for plans and specifications, and the interest thereon, may be over a period of years, not to exceed 30 years from the first day of January of the second fiscal year succeeding the fiscal year in which such apportionment became final. The number of years allowed for repayment shall be determined by the board at the time it fixes interest on the apportionment. Such repayment is in addition to any other repayment required under this chapter (Sections 19551 to 19689, inclusive). If an apportionment is granted pursuant to this section for a site and such site is subsequently used in a construction project for which an apportionment is received under other provisions of this chapter (Sections 19551 to 19689, inclusive), or if an apportionment is granted pursuant to this section for plans and specifications and such plans and specifications are subsequently used in a construction project for which an apportionment is received under other provisions of this chapter (Sections 19551 to 19689, inclusive), the district shall not be required to make any further repayments for the site, or the plans and specifications, as the case may be, pursuant to this section and the unpaid balance of the apportionment and interest owing on the apportionment for the site, or the plans and specifications, as the case may be, pursuant to this section shall be added to the principal amount of the apportionment and accrued interest thereon for the construction project.

The interpretation by the board of the word "used" in the preceding paragraph and whether or not the district has complied therewith shall be conclusive upon the district affected, after a hearing and finding of the State Allocation Board.

CHAPTER 2178

An act to add Article 13.5 (commencing at Section 997) to Chapter 1, Part 2, Division 1 of the Insurance Code, relating to the reserves of disability insurers.

[Approved by Governor July 23, 1959. Filed with Secretary of State July 23, 1959.]

In effect September 18, 1959

The people of the State of California do enact as follows:

SECTION 1. Article 13.5 (commencing at Section 997) is added to Chapter 1, Part 2, Division 1 of the Insurance Code, to read:

Article 13.5. Disability Insurance Reserves

997. (a) For statement purposes as defined in Article 10, for insolvency calculations as defined in Article 13, and for the valuation of the liabilities of insurers for all other purposes, every admitted insurer shall maintain an active life reserve which shall place a sound value on its liabilities under all disability policies and which shall not be less than the reserve according to the standards set forth in regulations issued by the commissioner and, in no event, less in the aggregate than the pro rata gross unearned premium reserve for such policies. The promulgation of such regulations by the commissioner or any changes or amendments thereof shall be in accordance with the procedure provided in Chapter 4 of Part 1, Division 3, Title 2 of the Government Code.

Subsections (b), (c) and (d) of this section shall control the amounts of reserves and liabilities, other than for specific claim losses, upon all individual disability policies until the effective date of regulations issued by the commissioner as provided in the next preceding paragraph. Such regulations, in lieu of subsections (b), (c) and (d) of this section, shall control the amounts of such reserves and liabilities during the time such regulations continue in force. In the event such regulations shall cease to be in effect, such reserves and liabilities again shall be controlled by subsections (b), (c) and (d) of this section during the time no such regulations shall be in force.

(b) Every admitted insurer which issues one or more of the following three types of individual disability policies shall maintain a reserve not less than the minimum reserve required under the provisions of this subsection (b):

(1) Policies which are guaranteed renewable for life or to a specified age at guaranteed premium rates.

(2) Policies which are guaranteed renewable for life or to a specified age but under which the insurer has reserved the right to change the scale of premiums.

(3) Policies, other than those described in type (1) of subsection (c), in which the insurer has reserved the right to cancel or to refuse renewal for one or more reasons, but has

agreed implicitly or explicitly that, prior to a specified time or age, it will not cancel or decline renewal solely because of deterioration of health after issue.

During the period within which the renewability of the policy is guaranteed or the insurer's right to cancel the policy or to refuse renewal thereof is limited, the minimum reserve shall be an amount computed on the basis of two-year preliminary term tabular mean reserves employing the following assumptions:

Mortality: 1958 Commissioners Standard Ordinary Table or 1941 Commissioners Standard Ordinary Table or American Men Ultimate Table.

Interest: 3½ percent.

Morbidity or other contingency:

Disability due to Accident and Sickness—Conference Modification of Class (3) Disability Table (1926).

Hospital Expense Benefits due to Accident and Sickness—1956 Inter-company Hospital Table.

Surgical Expense Benefits due to Accident and Sickness—1956 Inter-company Surgical Table.

For other benefits not specified above, each company shall establish reserves that place a sound value on the liabilities under such benefit.

Such mean reserves shall be diminished or offset by appropriate credit for the valuation net deferred premiums. In no event, however, shall the aggregate reserves for all policies valued on the mean reserve basis, diminished by any credit for deferred premiums, be less than the gross pro rata unearned premiums under such policies.

Negative reserves for any benefit may be offset against positive reserves for other benefits in the same individual or family policy, but if all benefits of such policy collectively develop a negative reserve, credit shall not be taken for such amount.

(c) Every admitted insurer which issues one or more of the following types of individual disability policies shall maintain the minimum unearned premium reserve required under the provisions of this subsection (c):

(1) Selected group disability policies issued under or subject to an agreement that, except for stated reasons, the insurer will not cancel or refuse to renew the coverage of individual insureds prior to a specified age unless all coverage under the same group is terminated.

(2) Any type of individual disability policy not included in one of the three types described in subdivision (b) and not included in type (1) of this subsection (c).

The minimum unearned premium reserve shall be the pro rata unearned portion of gross premiums in force and, subject to the limitations contained in Sections 922.2 to 922.8 inclusive, shall be reduced by premiums paid or credited for risks reinsured in solvent insurers.

(d) Provided the reserve on all policies to which the method or basis is applied is not less in the aggregate than the required

amount determined according to the applicable standards specified in subsections (b) and (c), an insurer may use any reasonable assumptions as to the interest rate, mortality rates or the rates of morbidity or other contingency, and may introduce an assumption as to the voluntary termination of policies. Also, subject to the preceding conditions, the insurer may employ methods other than the methods stated in subsections (b) and (c) in determining a sound value of its liabilities under such policies, including but not limited to the following: (1) the use of midterminal reserves in addition to either the gross pro rata unearned premium reserves described in subsection (c) or the net pro rata unearned premium reserve; (2) optional use of either the level premium, the one-year preliminary term or the two-year preliminary term method; (3) prospective valuation on the basis of actual gross premiums with reasonable allowance for future expense; (4) the use of approximations such as those involving age groupings, groupings of several years of issue, average amounts of indemnity; (5) the computation of the reserve for one policy benefit as a percentage of, or by other relation to, the aggregate policy reserves, exclusive of the benefit or benefits so valued; (6) the use of a composite annual claim cost for all or any combination of the benefits included in the policies valued.

For statement purposes the net reserve liability for active lives may be shown as the mean reserve with offsetting asset items for net unpaid and deferred premiums or it may be shown as the excess of the mean reserve over the amount of net unpaid and deferred premiums, or, regardless of the underlying method of calculation, it may be divided between the gross pro rata unearned premium reserve and a balancing item for the "additional reserve."

CHAPTER 2179

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 4, 1958, a proposal to amend the charter of said city and county by adding Section 165.6 thereto, reading as follows:

Social Security Coverage

Social security coverage

Section 165.6. The board of supervisors may enact, by a vote of three-fourths of its members, an ordinance or ordinances prescribing the conditions according to which any and all employees of the San Francisco Unified School District and employees of the City and County of San Francisco, other than members of the fire and police departments as defined in section 162, may be covered under the Federal Old-Age and Survivors Disability Insurance provisions of the Federal Social Security Act, subject to the provisions of this section. "City and county" as hereinafter used shall mean the City and County of San Francisco and the San Francisco Unified School District.

(A) Any member of the San Francisco City and County Employees' Retirement System, hereinafter referred to as the system, who becomes covered by the Federal Old-Age and Survivors Disability Insurance provisions of the Federal Social Security Act, hereinafter referred to as the Act, on account of service rendered by him to the city and county, shall have the allowance payable by the system to him upon retirement for disability after attaining age 55, or for service, reduced in the following manner:

While payable to said member, and effective (1) when he attains the retirement age as defined from time to time in the Act, said age to be analogous to the retirement age of 65 years

for men and 62 years for women in the Act on the effective date of this section, or (2) on the effective date of his retirement under the system, whichever is later, by an amount which shall bear the same ratio to one-half of the primary old age insurance benefits under the Act paid to him or payable upon being applied for, or that would be payable if he had not disqualified himself to receive them, under the Act as in effect on the effective date hereof, or as the Act may hereafter be amended or supplemented before the effective date of such reduction, as the salary paid to him on account of service credited to him under the system and entering into the determination of said primary benefit bears to the total of his salary, from whatever source, entering into said determination; provided, however, that the amount of the reduction under this paragraph shall not exceed the portion of the retirement allowance, prior to modification under an option provided by ordinance, which is not derived from contributions of said member.

(B) Every such member shall continue to contribute to the system the normal contributions required of him, except that he shall have the right to reduce his normal contributions under the system at his option to be exercised by an election on the system's form, said election to be effective on the first day of the month next following its filing in the system's office. Such reduction of normal contributions shall apply only to time during which said member is covered under the Act, and after the effective date of this section, hereby fixed as the first day of the month next following its ratification by the State Legislature, and the amount of said reduction, which may be changed from time to time by said member, in accordance with rules and regulations of the retirement board, shall not be more than the amount of said member's contribution under the Act.

Any allowance payable to or on account of such member by the system shall be reduced in addition to the reduction in the preceding paragraph (A), on the effective date of said allowance by the actuarial equivalent on that date of the normal contributions, including interest to said date, with which said member would have been but was not credited under the system because of said reduction in his normal contributions and because of amounts paid from such member's accumulated contributions for the retroactive period hereinafter provided for, and any continuation of said allowance shall be based on such reduced allowance but said allowance shall not be affected otherwise by the member's reduction of his normal contributions. Said member shall have the right to contribute amounts, which shall be administered as additional contributions, to replace all or part of such reduction in his retirement allowance.

(C) The reductions in allowances and contributions of members shall be made as provided in the foregoing paragraphs, notwithstanding any provisions in the charter to the contrary.

(D) Every employee covered by the agreement providing coverage under the Act shall be liable for the employee contributions required by the Act.

(E) The effective date of coverage under the Act may be made retroactive to such date as the board of supervisors may determine. Contributions required under the Act of each member for time included by the retroactive application shall be paid from such member's accumulated contributions held by the system on account of his compensation not in excess of the maximum compensation taxable under the Act for such retroactive time. If the required contributions under the Act exceed the member's accumulated contributions held by the system so determined, the additional contributions under the Act equal to the excess shall be paid by the member. Contributions required under the Act of the employer on account of such retroactive period shall be paid from funds held by the system on account of active members and derived from contributions of the city and county.

(F) Any member who is covered by section 210 (1) of the Act on the effective date of the agreement between the state and federal government to extend coverage to the members of the system under the Act shall not be subject to this section unless he elect to be covered in accordance with this section, such election to be on a form furnished by the system and to be filed in the office of the system not later than one hundred eighty (180) days after the effective date of such agreement. Such election shall be irrevocable. Such election shall fix the status of the member under such coverage as the same in all respects as if he had not been covered under section 210 (1), except that there shall be no adjustment of the member's accumulated contributions or of the funds held by the system, and derived from contributions of the city and county, on account of social security tax for such retroactive period.

Each member who enters the employ of the municipal railway after the effective date of the agreement between the state and federal government to extend coverage to other members of the system under the Act shall be covered under the Act in accordance with the terms of this section and the ordinance or ordinances enacted pursuant thereto.

(G) The sum of the member's allowance under the system, prior to modification under an option provided by ordinance, or as provided for in this paragraph, and his primary benefit under the Act, payable after attainment of the minimum age of qualification for such primary benefit, shall not be less than the allowance which he would have received under the system, assuming that he had not been covered under the Act. Provision shall be made for modification of the member's retirement allowance at his option, if he retires before he attains such minimum age, in such manner that will make his increased monthly retirement allowance under the system prior to attainment of such age equal to the sum of his decreased monthly allowance after attainment of such age, and his primary benefit

under the Act, upon the basis of an estimated primary benefit under the Act, subject to the requirement that the amounts of the increase and decrease in the monthly allowance shall be actuarially equivalent, and that the increase shall not be modified under an option provided by ordinance.

(H) Words used in the masculine gender shall include the feminine and neuter genders, and singular numbers shall include the plural and the plural the singular.

(I) The contribution rates of the city and county applicable to various memberships under section 165.2 shall be adjusted to rates determined by the actuary according to methods stated in paragraph 5, subsection (H) of section 165.2.

(J) The board of supervisors shall submit to the eligible employees for purposes of referendum as defined in the Act the question as to whether they desire coverage under the Act in accordance with conditions prescribed in this section.

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the following Rules be adopted as the Joint Rules for the 1959 Regular Session:

JOINT RULES OF THE SENATE AND ASSEMBLY

COMMITTEES AND COMMITTEE MEETINGS

Standing Committees

1. Each house shall appoint such standing committees as the business of the house may require, the committees, the number of members and the manner of selection to be determined by the Rules of each house.

Joint Committees

2. The Rules Committee of each house shall constitute the Joint Standing Committee on Joint Rules of the Senate and the Assembly.

Joint Meeting of Committees

3. Whenever any bill has been referred by the Senate to one of its committees, and the same or a like bill has been referred by the Assembly to one of its committees, the chairmen of the respective committees, when in their judgment the interests of legislation or the expedition of business will be better served thereby, shall arrange for a joint meeting of their committees for the consideration of such bill.

Effect of Adoption of Joint Rules

3.5. The adoption of the Joint Rules for any budget session or extraordinary session shall not be construed as modifying or rescinding the Joint Rules of the Senate and Assembly for any previous session, nor as affecting in any way the status or powers of the interim committees created by those rules.

BILLS AND RESOLUTIONS

Definition of Word Bill

4. Whenever the word "bill" is used in these Rules, it shall include constitutional amendments, concurrent and joint resolutions.

Concurrent and Joint Resolutions

5. Concurrent resolutions relate to matters to be treated by both houses of the Legislature.

Joint resolutions are those which relate to matters connected with the Federal Government.

Resolutions Treated as Bills

6. Constitutional amendments, concurrent and joint resolutions shall be treated in all respects as bills; except that they shall be given only one formal reading in each house and that they shall not be deemed bills within the meaning of Section 2 of Article IV of the Constitution, and shall not be referred to the Committee on Introduction of Bills, and except as provided in Rule 24. As in the case of bills, they shall be engrossed in the house in which they originate before being voted upon.

Preparation and Introduction of Bills

Title of Bill

7. The title of every bill introduced shall convey an accurate idea of the contents of the bill and shall be indicative of the scope of the act and the object to be accomplished. In amending a code section, the mere reference to the section by number shall not be deemed sufficient.

Division of Bill Into Sections

8. A bill amending more than one section of an existing law shall contain a separate section for each section amended.

Bills which are not amendatory of existing laws shall be divided into short sections, where this can be done without destroying the sense of any particular section, to the end that future amendments may be made without the necessity of setting forth and repeating sections of unnecessary length.

Digest of Bills Introduced

8.5. No bill shall be introduced unless it is contained in a cover attached by the Legislative Counsel and unless it is accompanied by a digest, prepared and attached to the bill by the Legislative Counsel, showing the changes in the existing law which are proposed by the bill. If any bill is presented to the Secretary of the Senate or Chief Clerk of the Assembly for introduction which does not comply with the foregoing requirements of this rule the Secretary or Chief Clerk shall return it to the member who presented it.

The digest shall be printed on the bill as introduced in distinctive type upon the lower part of the first page thereof.

Restrictions as to Amendments

9. A substitute or amendment must relate to the same subject as the original bill, constitutional amendment or resolution under consideration.

Changes in Existing Law to Be Marked by Author

10. In a bill amending a code section or a general law, any new matter shall be underlined and any matter to be omitted shall be in type bearing a horizontal line through the center and commonly known as "strikeout" type. When printed the new matter shall be printed in italics, and the matter to be omitted shall be printed in "strikeout" type.

In any amendment to a bill which sets out for the first time a section being amended, any new matter to be added and any matter to be omitted shall be indicated by the author and shall be printed in the same manner as though the section as amended were a part of the original bill and was being printed for the first time.

Introduction of Departmental Bills

Unless otherwise provided for, the total number of each bill to be printed shall be not more than 2,500.

13.1. The Legislative Counsel shall provide for the compilation and periodic publication of the digests mentioned in Rule 8.5 in separate pamphlets for each house. The costs of such printing shall be paid from the legislative printing appropriation.

Such History shall show the action taken upon each measure up to and including the legislative day preceding its issuance. For each legislative day intervening there shall be printed a Supplementary History showing the action taken upon any measure since the issuance of the complete History.

Authority for Printing Orders

18. The State Printer shall not print for use of either house nor charge to legislative printing any matter other than provided by law or by the Rules, except upon a written order signed by the Secretary of the Senate or the Chief Clerk of the Assembly. The Secretary of the Senate and the Chief Clerk of the Assembly may, when necessity requires it, order certain matter printed in advance of the regular order, by the issuance of a rush order.

The Secretary of the Senate and the Chief Clerk of the Assembly are hereby authorized and directed between sessions to order and distribute for the members stationery and legislative publications for which there is a demand, and, subject to the rules of their respective houses, to approve the bills covering such orders. Action in One House on Bill Transmitted From the Other

The procedure of referring bills to committees shall be determined by the respective houses.

Messages to Be in Writing Under Proper Signatures

22. Notice of the action of either house to the other shall be in writing and under the signature of the Secretary of the Senate or the Chief Clerk of the Assembly from which such message is to be conveyed. A receipt shall be taken from the officer to whom such message is delivered.

Passage and Enrolling of Bills

Passage of Bills Preceding Final Adjournment

23. No Senate bill shall be passed by the Senate within 15 days, and no Assembly bill shall be passed by the Assembly within 10 days prior to the adjournment sine die of the two houses of the Legislature at a general session or within one day prior to the adjournment sine die of the two houses of the Legislature at a budget session, unless permission to vote on such bill shall be granted by a three-fourths vote of the house of its origin after being recommended by the Committee on Rules (if it be a Senate bill) or by the Speaker of the Assembly (if it be an Assembly bill).

Enrollment of Bill After Passage

24. After a bill has passed both houses it shall be printed in enrolled form, omitting symbols indicating amendments, and shall be compared by the Engrossing and Enrolling Clerk and the proper committee of the house where it originated to determine that it is in the form approved by the houses. The enrolled bill shall thereupon be signed by the presiding officers of both houses and the Secretary of the Senate and Chief Clerk of the Assembly and presented without delay to the Governor. The committee shall report the time of presentation of the bill to the Governor to the house and the record shall be entered in the Journal. After enrollment and signature by the officers of the Legislature, constitutional amendments, concurrent and joint resolutions shall be filed without delay in the Office of the Secretary of State and the time of filing shall be reported to the house and the record entered in the Journal.

Amendments and Conferences

Amendments to Amended Bills Must Be Attached

25. Whenever a bill or resolution which shall have been passed in one house shall be amended in the other, it shall immediately be reprinted as amended by the house making such amendment or amendments. Two copies of such amendment or amendments shall be attached to the bill or resolution so amended, and endorsed "adopted" and such amendment or

amendments, if concurred in by the house in which such bill or resolution originated, shall be endorsed "concurred in," and such endorsement shall be signed by the Secretary or Assistant Secretary of the Senate, or the Chief Clerk or Assistant Clerk of the Assembly as the case may be; provided, however, that an amendment to the title of a bill adopted after the passage of such bill shall not necessitate reprinting, but such amendment must be concurred in by the house in which such bill originated.

To Concur or Refuse to Concur in Amendments

26. In case the Senate amend and pass an Assembly bill, or the Assembly amend and pass a Senate bill, the Senate (if it be a Senate bill) or the Assembly (if it be an Assembly bill) must either "concur" or "refuse to concur" in the amendments. If the Senate concur (if it be a Senate bill), or the Assembly concur (if it be an Assembly bill), the Secretary or Chief Clerk shall notify the house making the amendments and the bill shall be ordered to enrollment.

Concurring in Amendments Adding Urgency Section

27. When a bill which has been passed in one house is amended in the other by the addition of a section providing that the act shall take effect immediately as an urgency measure, and is returned to the house in which it originated for concurrence in the amendment or amendments thereto, the procedure and vote thereon shall be as follows:

The presiding officer shall first direct that the urgency section be read and put to a vote. If two-thirds of the members elected to the house vote in the affirmative the presiding officer shall then direct that the question of whether the house shall concur in the amendment or amendments shall be put to a vote. If two-thirds of all the members elected to the house vote in the affirmative, concurrence in the amendments shall be effective.

If the affirmative vote on either of such questions is less than two-thirds of all the members elected to such house, the effect is a refusal to concur in the amendment or amendments, and the procedure thereupon shall be as provided in Joint Rule No. 28.

When Senate or Assembly Refuse to Concur

28. If the Senate or the Assembly refuse to concur in the amendments, the Committee on Rules (if it be a Senate bill) or the Speaker of the Assembly (if it be an Assembly bill) shall appoint a committee of three (3) on conference and the Secretary or the Chief Clerk shall immediately notify the other house of the action taken and request the appointment of a like committee. Two of the members comprising such committee from each house shall be selected from those voting with the

majority on the point about which the difference has arisen, and the other member from each house of such committee shall be selected from the minority, in the event there is a minority vote. The first Senator named on the conference committee shall act as chairman of the committee from the Senate, and the first Assemblyman named on such committee shall act as chairman of the committee from the Assembly and the chairman thus selected shall arrange the time and place of all meetings and prepare or direct the preparation of reports. The committee on conference shall report to both the Senate and the Assembly.

Report of Committee on Conference

29. The report of the committee on conference shall not be subject to amendment, and if either house refuse to adopt such report the conferees may be discharged and other conferees appointed; provided, however, that no more than three different conference committees shall be appointed on any one bill.

It shall require the affirmative vote of not less than two of the Senate Members and two of the Assembly Members constituting the committee to agree upon a report. No member who has served on a committee on conference shall be appointed a member of another committee on conference on the same bill.

The report of a conference committee shall be in writing, and a copy of any amendments proposed in the report shall be placed on the desk of each member of the house before it is acted upon by the house.

When Conference Committee Report Is in Order

30. The presentation of the report of a committee on conference shall always be in order, except when a question of order or a motion to adjourn is pending, or during roll call, and, when received, the question of proceeding to the consideration of the report, if raised, shall be immediately passed upon, and shall be determined without debate.

Conference Committee Reports on Urgency Measures

30.5. When the report of a committee on conference recommends the amendment of a bill by the addition of a section providing that the act shall take effect immediately as an urgency measure, the procedure and the vote thereon shall be as follows:

The presiding officer shall first direct that the urgency section be read and put to a vote. If two-thirds of the members elected to the house vote in the affirmative the presiding officer shall then direct that the question of whether the house shall adopt the report of the committee on conference shall be put

to a vote. If two-thirds of all the members elected to the house vote in the affirmative, the adoption of the report and the amendments proposed thereby shall be effective.

If the affirmative vote on either of such questions is less than two-thirds of all the members elected to such house, the effect is a refusal to adopt the report of the committee on conference.

Miscellaneous Provisions

31. All relations between the houses which are not covered by these Rules shall be governed by Mason's Manual.

Press Rules

32. (a) Persons desiring privileges of accredited press representatives shall make application to the Speaker of the Assembly, as required by Rule 24 of Assembly Rules, and to the Committee on Rules of the Senate, as required by Rule 13 of Senate Rules; and shall state in writing the names of the daily newspapers or news associations by which they are employed, and what other occupations or employment they may have, if any; and they shall further declare that they are not employed, directly or indirectly, to assist in the prosecution of the legislative business of any person, corporation or association, and will not become so employed while retaining the privilege of accredited press representatives.

If either house shall violate a joint rule a question of order may be raised in the other house and decided in the same manner as in the case of the violation of the Rules of such house; and if it shall be decided that the Joint Rules have been violated, the bill involving such violations shall be returned to the house in which it originated, and such disputed matter be considered in like manner as in conference committee.

34. Whenever the Legislative Counsel issues an opinion to any person other than the first named author analyzing the constitutionality, operation or effect of a pending bill or other legislative measure, he is authorized and instructed to deliver two copies of the opinion to the first named author as promptly as feasible after the delivery of the original opinion and also to deliver a copy to any other author of the bill or measure who so requests.

Resolutions Prepared by Legislative Counsel

34.1. Whenever the Legislative Counsel has been requested to draft a resolution commemorating or taking note of any event, or a resolution congratulating or expressing sympathy toward any person, and subsequently receives a similar request from another Member of the Legislature, he shall inform each subsequent requester that such a resolution is being, or has been, prepared, and shall furnish such subsequent requester with the name of the member for whom the resolution was, or is being, prepared.

The resolution providing for the appointment of a committee shall state the purpose of the committee, and the scope of the subject concerning which it is to act and may authorize it to act either during sessions of the Legislature or, when such authorization may lawfully be made, after final adjournment.

In the exercise of the power granted by this rule, each committee may appoint a secretary and adopt and amend such rules governing its procedure (including the fixing of its own quorum and the number of votes necessary to take action on any matter) as may appear necessary and proper to carry out the powers granted and duties imposed under this rule. It may employ such clerical, legal and technical assistants as may appear necessary.

committee, shall serve any and all subpoenas, orders and other process that may be issued by the committee, when directed to do so by the chairman or by a majority of the membership of the committee.

Every department, commission, board, agency, officer and employee of the State Government, including the Legislative Counsel and the Attorney General and their subordinates, and of every political subdivision, county, city, or public district of or in this State, shall give and furnish to these committees and to their subcommittees upon request such information, records and documents as the committees deem necessary or proper for the achievement of the purposes for which each such committee was created.

Each such committee may meet at any time during the period in which it is authorized to act, even though the Legislature is in session, either, at the State Capitol or at any other place in the State of California, in public or executive session, and do any and all things necessary or convenient to enable it to exercise the powers and perform the duties herein granted to it or accomplish the objects and purposes of the resolution creating it. Each such committee may expend such money as may be made available to it for such purpose but no committee shall incur any indebtedness unless money shall have been first made available therefor.

The chairman of any such committee may appoint subcommittees and chairman thereof for the purpose of more expeditiously handling and considering matters referred to it, and such subcommittees and the chairman thereof shall have all the powers and authority herein conferred upon the committee and its chairman. The chairman of such subcommittee shall audit the expense claims of the members of such subcommittees and other claims and the expenses incurred by it and shall certify the amount thereof to the chairman of the committee who shall, if he approves the same, certify the amount thereof to the Controller, and the Controller shall draw his warrant

therefor upon such certification, and the Treasurer shall pay the same. Whenever such committee or any subcommittee thereof is authorized to leave the State of California in the performance of its duties, then such committee or subcommittee shall, while out of the State, have the same authority as if it were acting and functioning within the State, and the members therof shall be entitled to receive the same expense allowances as if the committee were functioning within the State.

Notwithstanding any provision of this rule, if the standing rules of either house require that expense claims of members of committees be audited or approved, after approval of the committee chairman, by another agency of either house, the Controller shall draw his warrants only upon the certification of such other agency.

Except salary claims of employees clearly subject to federal withheld tax and the requirement as to loyalty oaths, claims presented for services or pursuant to contract shall refer to the agreement, the terms of which shall be made available to the Controller.

Appointment of Committees

36.5. The provisions of this rule shall apply whenever a joint interim committee is created by a statute or resolution which either provides that appointments be made and vacancies be filled in the manner provided for in the Joint Rules, or which makes no provision for the appointment of members or the filling of vacancies.

The Senate members of the committee shall be appointed by the Senate Committee on Rules; the Assembly members of the committee shall be appointed by the Speaker; and vacancies occurring in the membership of the committee shall be filled by the respective appointing powers. The members appointed shall hold over until their successors are regularly selected.

The committee shall have the authority to make rules to govern its own proceedings and its employees. It may also create subcommittees from its membership, assigning to its subcommittees any study, inquiry, investigation or hearing which the committee itself has authority to undertake or hold, and the subcommittee for the purpose of this assignment shall have and may exercise all the powers conferred upon the committee, limited only by the expressed terms of any rule or resolution of the committee defining the powers and duties of the subcommittee. Such powers may be withdrawn or terminated at any time by the committee.

The Legislative Budget Committee may render services to any investigating committee of the Legislature pursuant to contract between the Legislative Budget Committee and the

committee for which the services are to be performed. The contract may provide for payment to the Legislative Budget Committee of the cost of such services from the funds appropriated to the contracting investigating committee. All legislative investigating committees are authorized to enter such contracts with the Legislative Budget Committee. Money received by the Legislative Budget Committee pursuant to any such agreement shall be in augmentation of the current appropriation for the support of the Legislative Budget Committee.

The provisions of Joint Rule 36 above shall apply to the Legislative Budget Committee, and it shall have all the authority provided in such rule or in Article IV, Section 37, of the Constitution.

The committee shall have authority to appoint a Legislative Analyst, to fix his compensation and to prescribe his duties, and to appoint such other clerical and technical employees as may appear necessary. The duties of the Legislative Analyst shall be as follows:

The committee may meet either during sessions of the Legislature, any recess thereof, or after final adjournment, and may meet or conduct business at any place within the State of California.

The members of the committee shall serve without compensation but shall be entitled to actual and necessary expenses including expenses for living accommodations and meals incurred in connection with their services on the committee, or in lieu of such expenses for accommodations and meals they shall be entitled to the same allowance as members of other committees authorized to function after adjournment. The

chairman of the committee or, in the event of his inability to act, the vice chairman shall audit and approve the expenses of members of the committee or salaries of the employees, and all other expenses incurred in connection with the performance of its duties by the committee, and the chairman shall certify the amount approved to the Controller, and the Controller shall draw his warrants upon the certification of the chairman, and the Treasurer shall pay the same to the chairman of the committee to be disbursed by him.

On and after the commencement of a succeeding general session those members of the committee who continue to be Members of the Senate and Assembly, respectively, continue as members of the committee until their successors are appointed, and the committee continues with all its powers, duties, authority, records, papers, personnel and staff, and all funds theretofore made available for its use.

Upon the conclusion of its work, any Assembly, Senate, or joint committee (other than a standing committee) shall deliver to the Legislative Analyst for use and custody, available to the Members of the Legislature, all documents, data, reports and other materials that have come into the possession of such committee and which are not included within the final report of such committee to the Assembly, Senate, or the Legislature, as the case may be.

But, except as hereinabove provided, neither the Legislative Analyst nor any employee of the committee shall reveal to any person not a member of or employed by the committee the contents or nature of any matter or the author of any request, except with the permission of the committee or legislator making such request, or under the express direction of the Legislative Budget Committee.

The Legislative Analyst, upon the receipt of a request from any committee or Member of the Legislature, shall at once secure the consent of the committee without disclosing the nature of the request or the name of the requester to provide the requesting committee or legislator with the service or information requested, and thereupon shall notify the requester or committee or legislator that he is authorized to provide the information, and shall inform the committee or legislator the approximate date when this information will be available. Should there be any material delay he shall subsequently communicate this fact to the requester. In the event the committee refuses such authorization, he shall inform such requester forthwith.

Registration of Legislative Representatives

In addition to the duties hereinabove prescribed the Legislative Analyst is directed, so long as he is designated to be "clerk" or "secretary" pursuant to; Section 9900(d) of the Government Code, to assign one or more members of his staff to carry out the filing duties imposed by Sections 9900 through 9907 of the Government Code, but he shall undertake no duties which are not specifically authorized by the Joint Rules, by contracts entered into pursuant to such rules, or by direction of the Legislative Budget Committee.

The committee has a continuing existence and may meet, act, and conduct its business at any place within the State, during sessions of the Legislature or any recess thereof, and in the interim period between sessions.

Bonds which are payable out of such revenues as may be specified in such bonds, may be issued when the Council by ordinance shall have established a procedure for the issuance of such bonds. Such bonds, payable out of such revenues, shall not constitute an indebtedness of the City. No such bonds payable out of any revenues of the City or of any department thereof, shall be issued without the assent of a majority of the voters voting upon the proposition of issuing the same, at an election at which such proposition shall have been duly submitted to the qualified electors of the City.

All such claims shall be approved or rejected in writing by order of the Council and the date thereof given.

All other demands against the City must be in writing and may be in the form of a bill, invoice, payroll, or formal demand. Each such demand shall be presented to the Director of Finance within ninety days after the last item of the account or claim accrued. The Director of Finance shall examine the same. If the amount thereof is legally due and there remains on his books an unexhausted balance of an appropriation against which the same may be charged, he shall approve such demand and draw his warrant on the City Treasurer therefor, payable out of the proper fund. Otherwise he shall reject it. Objections of the Director of Finance may be overruled by the Council and the warrant ordered drawn

The Director of Finance shall transmit such demand, with his approval or rejection thereof endorsed thereon, and warrant, if any, to the City Manager. If a demand is one for an item included within an approved budget appropriation, it shall require the approval of the City Manager, otherwise it shall require the approval of the Council, following the adoption by it of an amendment to the budget authorizing such payment. Any person dissatisfied with the refusal of the City Manager to approve any demand, in whole or in part, may present the same to the Council which, after examining into the matter, may approve or reject the demand in whole or in part.

PROPOSITION A

Amend Section 90.1 of Article VII of the Charter of The City of San Diego to read as follows:

Definitions

"Section 90.1.

Subdivision 1.

Unless the context otherwise requires, the definitions set forth in this subdivision govern the construction of this section.

'City' means The City of San Diego.

'This section' means this amended Section 90.1.

'Waterworks' means all facilities, property and works of the City for the development, obtaining, conservation, production, storage, treatment, transmission, furnishing and distribution of water for public and private use (whether located within or without the City) and shall comprise the public utility system of the City for water purposes, as mentioned in Section 1 of this Charter.

'Revenues' includes all moneys received from rates, tolls or charges for water or for service from the waterworks or any part thereof, and all other income and receipts derived from the use of or operation of the waterworks or any part thereof, or otherwise arising from the waterworks or any part thereof, or any other income of the Water Department, and includes interest on all funds derived from or established for the waterworks. 'Revenues' shall not be construed to include taxes or assessments.

'Water rates' means rates, tolls or charges for water or for service by the waterworks or any part thereof.

Subdivision 2.

Revenue bonds

Revenue bonds to provide money for the acquisition and construction of additions to and extensions and improvements of the waterworks of the City and the reconstruction and replacement of parts of such waterworks and the acquisition of all lands, easements, rights and property necessary for such purposes, may be issued as provided in this section. Any issue of revenue bonds may be for any or all of said purposes. Such revenue bonds, hereinafter sometimes called 'bonds' or 'revenue bonds' shall not constitute an indebtedness of the City but shall constitute obligations which shall be payable, principal and interest and any premiums upon the redemption thereof

prior to maturity, only from a special fund which shall consist of such revenues of the Water Department as are in excess of the amount needed to operate and maintain the Water Department (and said special fund is presently designated and is sometimes hereinafter in this section called the 'Water Department Revenue Bond Fund'); provided, however, that this shall not preclude the payment or redemption of such bonds from the proceeds of refunding bonds issued to refund said revenue bonds or the use of accrued interest and premiums paid upon the sale and delivery of the revenue bonds for the payment of principal thereof or interest thereon. Refunding revenue bonds for the purpose of refunding any revenue bonds issued under this section may be issued as provided in this section and shall be payable only from the fund from which the revenue bonds to be refunded are payable. No restriction or limitation upon or procedure for the issuance of bonds in other sections of this Charter shall apply to revenue bonds issued under this section (including refunding revenue bonds) and this section shall constitute complete authority for the issuance of such revenue bonds (including such refunding revenue bonds) and no action or proceeding not required by this section shall be necessary for the valid authorization and issuance of such revenue bonds. No revenue bond issued under this section or any interest payable thereon shall be or become an obligation chargeable or enforceable against any of the tax revenues of the City or any other revenues of the City except such revenues of the Water Department as are in excess of the amount needed to operate and maintain the Water Department.

Subdivision 3.

The limitations upon bonded indebtedness of The City of San Diego contained in sections 76 and 90 of this Charter or in any other section or provision thereof shall not apply to revenue bonds issued under the provisions of this section and payable exclusively from the fund mentioned in subdivision 2 hereof derived from revenues from the waterworks of the City and not payable from taxes levied by the City. Waterworks revenue bonds payable from a special fund derived from revenues of the Water Department shall not be deemed indebtedness of the City within the meaning of the debt limitation provisions contained in sections 76 and 90 of this Charter or in any other section thereof.

Subdivision 4.

(a) To provide money for the acquisition and construction of additions to and extensions and improvements of the waterworks of the City and the reconstruction and replacement of parts of such waterworks and the acquisition of all lands, easements, rights and property necessary for such purposes, the Council may issue, in one issue or in separate issues or series from time to time, under this section, revenue bonds not to exceed $11,000,000 in total principal amount. All waterworks revenue bonds in excess of said sum of $11,000,000 shall

be authorized by proceedings taken in the manner hereinafter provided in paragraph (b) of this subdivision.

(b) Except as provided in paragraph (a) of this subdivision, revenue bonds payable from revenues of the Water Department may be authorized only in the manner provided in this paragraph (b).

The first step in the proceedings shall be a recommendation by the City Manager, which recommendation shall state generally the purposes of the proposed revenue bond issue and the principal amount thereof and his recommendation that revenue bonds be issued hereunder. Such recommendation need not be in any particular form.

After the recommendation by the City Manager has been received by the Council it may adopt an ordinance finding the need for the issuance of revenue bonds under this section in the amount and for the purposes set forth in the recommendation of the City Manager. The Council, by said ordinance, shall submit to the qualified voters of the City, at an election held for that purpose, the question of issuing revenue bonds pursuant to this section to provide moneys for the purposes stated in the recommendation of the City Manager.

The Council, by a vote of two-thirds of the members thereof, may adopt a resolution stating that it determines to proceed under this section without a recommendation by the City Manager and in that case such resolution shall constitute the first step in the proceeding. Any such resolution also shall state generally the purposes of the proposed revenue bond issue and the principal amount thereof, and in the event such resolution is adopted no recommendation of the City Manager shall be required and the ordinance calling the election shall find the need for the issuance of revenue bonds under this section in the amount and for the purposes stated in such resolution In the event the Council adopts a resolution to proceed without the recommendation by the City Manager, the ordinance calling the election may be adopted only by a vote of at least two-thirds of the members of the Council and at a meeting subsequent to that at which the resolution was adopted.

The ordinance calling the election shall:

(a) state the purposes for which the bonds are to be issued;

(b) state the principal amount of the bonds;

(c) state the maximum rate of interest on the bonds, which shall not exceed six per cent per annum, payable semiannually;

(d) call the election and fix the election date;

(e) fix the manner of holding the election;

(f) fix the manner of voting for or against the issuance of the bonds

In all particulars not stated in said ordinance the election shall be held and the votes canvassed in the manner provided by law for general municipal elections in the City.

Any special election called for the purpose of voting upon a proposition of issuing bonds under this section may be con-

solidated with any municipal primary election or any general City election or any other election at which all of the qualified voters residing within the City are entitled to vote. Such consolidation may be made in any manner authorized under the Elections Code of the State of California or under the Elections Code of the City.

The ordinance shall be published once a week for two succeeding weeks in the official newspaper of the City, the first publication to be at least 21 days prior to the election. No other notice of such election need be given. If a majority of the voters voting on the proposition of issuing the bonds vote in favor of the issuance thereof bonds in an amount not exceeding the amount stated in the ordinance calling the election may be issued.

No error, irregularity or omission in the election or in any of the proceedings prior thereto which does not affect the substantial rights of the electors of the City or the voters voting at the election at which any revenue bonds are authorized under this section shall invalidate the election.

Subdivision 5.

(a) The Council may issue all bonds authorized at an election or all bonds authorized under paragraph (a) of subdivision 4 of this section in one issue or may divide the principal amount thereof into two or more series and fix different dates of issuance and maturities for the bonds of each series. The Council shall provide for any issue or series of bonds (if issued in series) by ordinance. The Council shall in said ordinance fix the date of issuance and the dates of maturity of each issue or series of bonds; provided, however, that no bond shall run more than 40 years from its date. Any ordinance providing for the issuance of bonds hereunder shall recite the objects and purposes for which the bonds are to be issued, the principal amount of the bonds to be issued pursuant to such ordinance, and the maximum rate of interest to be payable thereon, not to exceed six per cent per annum, payable semiannually.

(b) Said bonds shall be issued in negotiable form and shall be negotiable. The recitals of regularity of proceedings in any revenue bond issued and sold under this section shall be conclusive evidence of compliance with the provisions of this Charter and of the validity of such bond and no bona fide purchaser of such bond containing the recital permitted by this section shall be required to see to the existence of any fact or to the performance of any condition or to the taking of any proceedings required prior to the actual issuance and delivery of said bonds or to the application of the purchase price paid for said bonds.

Subdivision 6.

In any ordinance providing for the issuance of revenue bonds under this section the Council may fix the terms and conditions thereof (including covenants) and may in any article, section, sentence or clause thereof make such provision

(including covenant) as it may deem necessary or desirable to facilitate the issuance and sale of the bonds or for the protection or security of the holders thereof, including, without affecting the generality of the foregoing, any or all of the following:

(a) The denomination or denominations of the bonds, the medium of payment thereof, the place or places of payment thereof, which may be within or without the State of California, the form of said bonds (including recitals of regularity) and of interest coupons pertaining thereto, the form, denomination and conditions of any temporary bonds or interim certificates (which temporary bonds or interim certificates may be issued without interest coupons), and the manual (one signature must be manual) and facsimile signatures to be affixed to said bonds (definitive or temporary) or interim certificates, and the facsimile signature to be affixed to interest coupons,

(b) Provisions for the call and redemption prior to maturity of any part of or all of said bonds and the premiums to be paid upon such call and redemption;

(c) Said bonds shall be designated 'Waterworks Revenue Bonds' and each bond shall state on its face that it does not constitute an indebtedness of The City of San Diego but is an obligation payable, principal and interest, and premiums, if any, upon the redemption thereof, only from a special fund which shall consist of such revenues of the Water Department as are in excess of the amount needed to operate and maintain the Water Department; provided, however, that the foregoing statement shall not preclude the payment or the redemption of said bonds from the proceeds of refunding bonds or the payment thereof from premium and accrued interest obtained upon the sale of the bonds. (j) Limitations upon the issuance of any additional bonds payable out of the revenues of the Water Department, but no bonds shall be issued pursuant to this section or under any other provision of the Charter or any other law having any priority in payment of principal or interest out of the revenues of the Water Department over any revenue bonds theretofore or thereafter issued and payable out of such revenues;

(k) Provisions whereby the consent or agreement of a stated percentage or number of the holders of the bonds may bind all holders to modifications of such provisions of the ordinance, resolution or order authorizing or providing for the issuance of such bonds or the sale thereof as may be stated in such ordinance or to a refunding of said bonds and to calls or exchanges in connection with such refunding;

Any revenue bonds issued hereunder may be sold at a fixed rate of interest or the bidders may be invited to state the rate or rates of interest at which they will purchase said bonds, but no rate of interest on any of the bonds shall exceed six per cent per annum, payable semiannually. If the bidders are invited to state the interest rate or rates, then upon the acceptance of a bid the Council shall by resolution or order, which shall not be subject to referendum, fix such interest rate or rates as have been bid by the successful bidder as the rate or rates of interest on bonds sold. Said bonds shall be sold for not less than par and accrued interest to date of delivery.

Subdivision 9.

The proceeds from the sale of bonds issued hereunder (except premium and accrued interest which shall be paid into the bond service or other fund designated or established for the payment of principal and interest of the bonds) shall be paid into the construction fund designated by the ordinance providing for the issuance of said bonds and shall be applied exclusively to the objects and purposes set forth in such ordinance; provided, however, (1) that the Water Department Revenue Bond Fund from which the bonds are payable may be reimbursed from such proceeds for expenditures for purposes for which the bonds were issued made from such fund after the issuance of the bonds has been authorized at the election thereon, (2) that said proceeds may be used for the payment of interest on said bonds during the period of acquisition and construction and for the first six months thereafter; and (3) that when the objects and purposes for which the bonds are issued have been accomplished any remaining unexpended funds derived from the sale of the bonds shall be used for the payment of principal and interest of said revenue bonds or for the redemption of any callable bonds thereof.

Subdivision 11.

To the extent that any provision of any ordinance authorizing the issuance of revenue bonds pursuant to this section or any provision of any ordinance, resolution or order pertaining to such revenue bonds adopted pursuant to the authority of this section is inconsistent with any of the provisions of any other section of this Charter the provisions of such ordinance, resolution or order shall control so long as any of the bonds or coupons to which the same pertain are outstanding and unpaid. No bond shall be deemed to be outstanding and unpaid within the meaning of this section if moneys for the purpose of paying the same or redeeming the same prior to maturity and sufficient therefor have been irrevocably set aside in a bond service fund, sinking fund, redemption fund, or other trust fund created to insure the payment or redemption thereof.

The Council is authorized to take any and all steps and proceedings necessary or convenient for the authorization, issuance and sale of revenue bonds under this section and for the payment or redemption thereof.'

[Filed with Secretary of State, March 3, 1959.]

WHEREAS, As expressed in Assembly Joint Resolution No. 2 of the 1958 Regular Session (Res. Ch. 59, Stats. 1958) ". . . The tuna fishing industry and the tuna canning industry are major industries of the State of California and are the chief contributing factor in maintaining California's position as the leading fishery state in the Nation; and . . . The tuna fishing industry has lost a large share of its market to the severe competition from imported tuna which is introduced into this State in many forms and which is produced under standards far lower than those rightfully employed by California fishermen . . ."; and

WHEREAS, The recent increased importation of preprocessed or selectively cut portions of tuna, such as merely the loin of the fish or a cut known as "rounds" which is already in the proper shape for canning, has greatly intensified this problem not only for the fishermen and cannery owners and employees

but also the citizens of this State generally through the possible loss of this important industry; and

Section 1003. Grant to Be in Lieu of All Other Franchises. Any franchise granted by the City hereunder with respect to any given utility service shall be in lieu of all other franchises, rights or privileges owned by the grantee, or by any successor of the grantee to any right under such franchise granted hereunder, for the rendering of such utility service within the limits of the City as they now or may hereafter exist except any franchise derived under Section 19 of Article XI of the Constitution of California as said section existed prior to the amendment thereof adopted October 10, 1911. The acceptance of any franchise hereunder shall operate as an abandonment of all such other franchises, rights and privileges within the limits of the City as such limits shall at any time exist.

Any franchise granted hereunder shall not become effective until written acceptance thereof shall have been filed by the grantee thereof with the City Clerk. Such acceptance shall be filed within ten days after the adoption of the ordinance granting the franchise, or any extension thereof granted by the City Council, and when so filed such acceptance shall constitute a continuing agreement of such grantee that if and when the City shall thereafter annex, or consolidate with additional territory, any and all franchises, rights and privileges owned by the grantee therein, except a franchise derived under said constitutional provision, shall likewise be deemed to be abandoned within the limits of such additional territory. No grant of any franchise may be transferred or assigned by the grantee except by consent in writing of the City Council and unless the transferee or assignee thereof shall covenant and agree to perform and be bound by each and all of the terms and conditions imposed in the grant or by procedural ordinance and by this Charter.

Eminent domain

Section 1004. Eminent Domain. No franchise grant shall in any way, or to any extent, impair or affect the right of the City to acquire the property of the grantee thereof either by purchase or through the exercise of the right of eminent domain, and nothing therein contained shall be construed to contract away or to modify or to abridge, either for a term or in perpetuity, the City's right of eminent domain with respect to any public utility.

Duties of grantees

Section 1005. Duties of Grantees. By its acceptance of any franchise hereunder, the grantee shall covenant and agree to perform and be bound by each and all of the terms and conditions imposed in the grant or by procedural ordinance and shall further agree to:

(a) Comply with all lawful ordinances, rules and regulations theretofore adopted by the City Council in the exercise of its authority governing the construction, maintenance and operation of its plants, work or equipment.

(b) Pay to the City on demand the cost of all repairs to public property made necessary by any of the operations of the grantee under such franchise.

(c) Indemnify and hold harmless the City and its officers from any and all liability for damages proximately resulting from any operations under such franchise.

(d) Remove and relocate without expense to the City any facilities installed, used and maintained under the franchise if and when made necessary by any lawful change of grade, alignment or width of any public street, way, alley or place, including the construction of any subway or viaduct, or if the public health, comfort, welfare, convenience or safety so demands.

(e) Pay the City during the life of the franchise a percentage, to be specified in the grant, of the gross annual receipts of the grantee within the limits of the City, or such other compensation as the City Council may prescribe in the grant.

Exercising rights without franchise

Section 1006. Exercising Rights Without Franchise. The exercise by any person firm or corporation of any privilege for which a franchise is required, without possessing a valid and existing franchise therefor, shall be a misdemeanor and shall be punishable in the same manner as violations of this Charter are punishable and each day that such condition continues to exist shall constitute a separate violation.

[Filed with Secretary of State, March 12, 1959]

WHEREAS, It is a fundamental tenet of the democratic process of our republican form of government that citizens have the right, privilege and duty to express their choices on the composition and policies of that government by ballot; in order to translate properly the intention of each voter it follows that this voting process must be accurate, efficient, convenient, prompt, infallible and conclusive; and

WHEREAS, The Department of Public Works and California Highway Commission failed to comply with said request of the Legislature, and include construction moneys in the 1958-59 Highway Budget, because rights-of-way had not been acquired, and sufficient planning and design of said freeway had not been accomplished; and

WHEREAS, Adequate moneys have been budgeted and allocated for the said acquisition of highways in the 1959-60 Budget, and design and plans now made, for the early construction of said freeway; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Department of Public Works and the California Highway Commission are requested to include in the 1960-61 State Highway Budget the necessary allocations of money for the construction and completion of said highway, Route 23, between Soledad Junction and Palmdale, as a four-lane freeway, and proceed without delay to the acquisition of all necessary rights-of-way and the processing of contracts between the Division of Highways and the County of Los Angeles and the construction of said freeway; and be it further

WHEREAS, The Benicia State Capitol State Historical Monument, because of its historical significance, has become an outstanding educational and tourist attraction worthy of the attention of all the citizens of this State; and

WHEREAS, The motoring public has become confused and traffic conditions have become congested as a result of a lack of signs designating the best routes to the park and monument, some of which lie over secondary routes; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Department of Public Works

is requested to erect signs at convenient and proper locations on state highways at intersections with state highways and with local highways directing traffic to and from the Hearst Memorial State Park and the Benicia State Capitol State Historical Monument; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit copies of this resolution to the Department of Public Works.

CHAPTER 103

Assembly Concurrent Resolution No. 94—Relating to St. Patrick's Day.

[Filed with Secretary of State, March 18, 1959.]

WHEREAS, On this seventeenth day of March, 1959, throughout the entire world, those of Irish birth and those of Irish heritage, and, yes, even those of other races, celebrate St. Patrick's Day in honor of a scholar, a servant of God, and a man whose memory survives in American minds as a gracious symbol of understanding; and

WHEREAS, Everywhere beneath the sun—under blue vault of heaven—whether under the humble and contented roof of the home of the weary exile, or on the sea, or in the marts of trade and industry, or in any other place where Irish blood pulses in the veins of a generous Celt, the memory of this great saint gives rise to thoughts of a far-off yesterday; and

WHEREAS, On this St. Patrick's Day, 1959, we again commemorate the life of an ancient race and an illustrious saint who dedicated himself to tolerance, faith in God, and preaching of Christianity to the peoples of Ireland in the early days of paganism; and

WHEREAS, While we honor the patron saint of Ireland, it is the hope of all who hold St. Patrick as a happy symbol of American tolerance that the men and women of this Nation and those of Irish heritage, whatever their creed or race or color, shall remain before the world as sons and daughters of one national family; and

WHEREAS, The Legislature of the State of California thus deems it fitting and proper that the patron saint of Ireland be so honored and revered; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That this body, along with the citizens of the State of California, of America, and of the world, pay homage during its daily deliberation to that great scholar and man of God, St. Patrick, the patron saint of Ireland.

CHAPTER 104

Assembly Joint Resolution No. 12—Relative to enactment of a National Food Allotment Stamp Plan.

[Filed with Secretary of State, March 19, 1959.]

WHEREAS, Reports from County Welfare Departments in California show an increasing number of low income families, especially those engaged in agricultural occupations at both the farm and processing level, forced to resort to appeals to public assistance agencies to provide food as well as other necessities during the winter and spring; and

WHEREAS, Surplus foods furnished by the United States Department of Agriculture are available to public assistance recipients in only a limited number of counties and even where available do not provide a balanced diet, merely furnishing flour, cornmeal, dry skim milk powder, rice and sometimes butter; and

WHEREAS, Retail prices for food continue to rise along with the cost of all other living items; unemployment reached 317,000 in December representing 5.3 percent of the California labor force; many counties, faced with welfare department deficits, are refusing supplementary food allotments to employables or those drawing unemployment compensation benefits which are totally inadequate for large families and for which thousands of other families are ineligible, to say nothing of the growing thousands who have exhausted their benefits yet cannot find jobs; and

WHEREAS, There is a constant surplus of farm commodities forcing down the price paid to California farmers which commodities are bitterly needed by the unemployed here and nationally, now numbering more than four million; and

WHEREAS, A National Food Allotment Stamp Plan would distribute these surpluses, as they arise, through retail channels, upgrading the diets of those most in need, increasing prices to farmers and stimulating retail sales; and

WHEREAS, The State Department of Social Welfare, the California Association for Health and Welfare, the California Institute of Social Welfare, the organized labor movement, county welfare directors, farmers and city people through community and civic organizations favor re-establishment of this means for getting surplus foods to hungry people; and

WHEREAS, A number of measures to establish a National Food Stamp Program have been introduced in the Eighty-sixth Congress; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to enact a National Food Allotment Stamp Plan as a means toward strengthening our national health and developing a more equitable distribution of the abundance which California and the Nation's farmers are in a position to provide and to

make such food available in addition to, and not in place of, any welfare assistance (financial or otherwise) granted needy persons; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 105

Senate Concurrent Resolution No. 11—Relative to highway improvements by the Department of Public Works.

[Filed with Secretary of State, March 20, 1959]

WHEREAS, The white lines employed on our state highways as lane dividers are virtually impossible to see in times of bad weather, and particularly in the reflection of headlamps upon the wet pavement; and

WHEREAS, The lack of visibility of these lines has resulted directly in the loss of lives and injury to persons and property, and has indirectly resulted in a far greater number of accidents and injuries by slowing down traffic and creating traffic jams; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Department of Public Works, and the Division of Highways in particular, is requested to study the effectiveness of highway white lines and seek to improve their bad weather visibility. It is requested that the study include comparison of the different types of paint, including reflectorizing paint, reflectorizing material, or mechanical substitutes for the white lines. It is further requested that the study include a consideration of recessed illuminated highway dividing strips; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit copies of this resolution to the Department of Public Works and its Division of Highways.

CHAPTER 106

Assembly Concurrent Resolution No. 41—Relative to public lands in South Humboldt Bay.

[Filed with Secretary of State, March 24, 1959]

WHEREAS, Section 25 of Article I of the California Constitution declared the right of the people of this State to fish upon and from the public lands of the State and in the waters thereof; and

WHEREAS, Section 2 of Article XV of the California Constitution declares the principle of public access to navigable waters of the State for a public purpose; and

WHEREAS, The ever-increasing population of this State is in need of proper areas for fishing and clam digging, and available public lands should be so designated in order to meet this need; and

WHEREAS, South Humboldt Bay is an excellent area for fishing and clam digging, but due to the extremely confused state of claims of land ownerships in this area the public is not certain which areas are open to them as public lands and which areas are in private ownership; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the State Lands Commission is requested to determine the ownership and extent of the state-owned tide and submerged lands in South Humboldt Bay, and report such ownership to the Legislature not later than the fifth day of the 1960 Budget Session; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the State Lands Commission.

CHAPTER 107

Senate Joint Resolution No. 11—Relative to federal highway legislation.

[Filed with Secretary of State, March 24, 1959.]

WHEREAS, The California Legislature, by the adoption of Senate Joint Resolution No. 28 (Chapter 126 of Resolutions, Statutes of 1955), and Senate Joint Resolution No. 4 (Chapter 24 of Resolutions, Statutes of 1956 Regular Session), and Assembly Joint Resolution No. 4 (Chapter 11 of Resolutions, Statutes of 1956 First Extraordinary Session), urged the enactment of federal highway legislation substantially as set forth in the Federal-Aid Highway Act of 1956 except for the provision limiting the apportionments for each fiscal year for the National System of Interstate and Defense Highways to the amounts available in the Highway Trust Fund as provided in Section 209(g) of the act approved June 29, 1956; and

WHEREAS, It now appears that in the absence of federal legislation during the current session, due to said provision, there will be no funds available for apportionment for expenditure upon the National System of Interstate and Defense Highways during the fiscal year commencing July 1, 1960, and ending June 30, 1961, and only a very small amount would be available for the National System of Interstate and Defense Highways during the succeeding fiscal year; and

WHEREAS, As pointed out in the resolutions adopted by the California Legislature above referred to, one of the essentials of a successful program is a system of financing which permits

long-range planning, with a definite and certain apportionment formula to permit construction in an orderly manner; and

WHEREAS, The failure to provide for the continuance of progress on the National System of Interstate and Defense Highways for a period of two fiscal years would not only prevent the orderly prosecution of work already planned but would seriously disrupt the organization of the California Division of Highways and in all probability would have the same results in many other states so that the completion of said National System of Interstate and Defense Highways would be delayed much longer than two years; and

WHEREAS, The economy of California depends upon the completion of an adequate highway system therein, including as an integral part the National System of Interstate and Defense Highways, and it was for the reason that the federal-aid highway program was so written as to assure the completion of the interstate system that the Legislature of California indicated its support therefor; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Congress is urged to provide for the continuance of the federal-aid highway program as set forth in the Federal-Aid Highway Act of 1956 with the exception of the provision contained in Section 209(g) thereof, including the approval of the cost estimates submitted to the Congress by the Bureau of Public Roads of the Department of Commerce as a basis for apportionment for the fiscal year ending June 30, 1962; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the President and Vice President of the United States, the chairmen of the appropriate committees of the Congress, and to each Senator and Representative from the State of California in the Congress of the United States.

CHAPTER 109

Senate Concurrent Resolution No. 25—Relative to the appointment of the State Controller as accounting officer for the Legislature for tax and other purposes.

[Filed with Secretary of State, March 25, 1959.]

WHEREAS, Each department of the government of this State is accountable to the Federal Government for the payment of the withheld tax which is deducted from the salaries of the officers and employees of such departments, and discharges its responsibility in this respect through its own fiscal officer; and

WHEREAS, The State Controller has customarily been designated by concurrent resolution as accounting officer of the Legislature for such purposes, and has been designated by statute to make deductions under the Legislators' Retirement Law; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the State Controller be and he is hereby designated as the accounting officer for the Legislature and each house thereof, and authorized to maintain accounts of amounts paid to the Members of the Legislature, attaches thereof, and attaches and employees of such committees of the Legislature as may from time to time exist for purposes of making deductions and filing returns with the Federal Government in connection with the withheld tax or any other tax that may provide for salary deductions, and for purposes of making deductions and filing returns of retirement and other deductions provided by law, and other purposes; and be it further

Resolved, That there is hereby made available from the Contingent Funds of the Senate and Assembly, equally, amounts for the purpose of defraying expenses of the Controller in carrying out the duties imposed upon him by this resolution, as determined by the Rules Committees of the Senate and Assembly; to be disbursed, after approval by the chairman of the Rules Committee of the Senate and the Chairman of the Rules Committee of the Assembly, upon warrants drawn by the State Controller upon the State Treasurer; and be it further

Resolved, That this resolution shall become effective February 1, 1959, and shall be of no further force or effect after January 31, 1961.

CHAPTER 110

Assembly Concurrent Resolution No. 91—Relative to augmenting the funds of the Joint Interim Committee on the Special Education and Rehabilitation of Handicapped Children and Adults.

WHEREAS, The Redwood Highway has long ceased to provide adequate access for the people of the area, for the millions of tourists from throughout the State and Nation who come to enjoy this vacation and sportsman's paradise, and for commercial and industrial activities; and

CHAPTER 135

Assembly Joint Resolution No. 8—Relative to the selection of the City of Antioch as a site for an experimental saline water conversion plant.

[Filed with Secretary of State, April 21, 1959.]

WHEREAS, Contra Costa County has experienced a 265 percent growth of population in the last 18 years, with an attendant increase of industrial development, which industrial development has greatly manifested itself in the general vicinity of the City of Antioch; and

WHEREAS, The northerly shore of Contra Costa County, upon which the City of Antioch and its extensive industrial developments are situated, has historically enjoyed an available supply of fresh water throughout most of the year; and

WHEREAS, That supply has steadily deteriorated, due to salt water intrusion, caused by upstream water diversions and storage on the Sacramento and San Joaquin Rivers and their tributaries, with the attendant threat to growth of municipal communities and industrial developments in Contra Costa County; and

WHEREAS, The United States Bureau of Reclamation has taken the position that salinity control is not a proper function of the Central Valley Project, has only tacitly agreed that releases from Shasta Dam, the only present means of controlling salinity encroachment and brackish conditions, will not be diminished until Contra Costa County finds another solution to its problem; and

WHEREAS, Economical conversion of brackish to fresh water could solve this county's problem by supplying an adequate amount of water for domestic, agricultural and industrial uses as replacement for water lost through upstream diversions; and

WHEREAS, The Antioch site is an ideal one for a conversion plant since the seasonal variations in salinity of offshore water and the many varied uses in and near Antioch for fresh water, will provide ideal conditions for making economic analysis of the conversion process; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States, and the United States Department of the Interior, to take such action as may be necessary for the selection of the City of Antioch as a site for an experimental saline brackish water conversion plant and that the program be augmented to provide for an additional saline brackish water conversion plant to be located in California; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the Secretary of the Interior.

CHAPTER 136

Assembly Joint Resolution No. 29—Relative to the dredging of Redwood City Harbor.

[Filed with Secretary of State, April 21, 1959.]

WHEREAS, In 1945 the United States Congress in the River and Harbor Act of March 2, 1945, authorized the improvement of the Redwood City Harbor to be accomplished by deepening the channel across San Bruno Shoal, deepening the entrance channel from the bay to the harbor, and enlarging the existing turning basin; and

WHEREAS, The importance of the Port of Redwood City to the San Francisco Bay area is illustrated by the fact that the statistics of the United States Army Engineers show the total ocean commerce handled at the Port of Redwood City to be 46 percent as large as that handled at the Port of San Francisco and for outbound ocean commerce alone the statistics show that the tonnage handled at the Port of Redwood City was 94 percent of that handled at the Port of San Francisco; and

WHEREAS, Since the approval by Congress of these proposed channel improvement large sums of money have been expended by the Port of Redwood City out of its earnings in contemplation of these authorized improvements and also large sums of money have been expended by private industry in contemplation of these improvements, including an investment of about one million dollars by the Leslie Salt Company in providing facilities for the expeditious loading of salt, in bulk, to vessels, which facilities through contractual arrangement with the Port of Redwood City are to be made available to the port for the loading by direct movement between rail cars and vessels of commodities in bulk other than salt; and

WHEREAS, The cargo tonnage now handled at the port, 3,037,461 tons in 1958, far exceeds what was considered prospective when the improvement project for the harbor was approved by Congress in 1945 by a ratio of nearly three to one; the number of deep-draft vessels now calling at the port, 151 in 1958, far exceeds the number that was contemplated at the time of the 1945 authorization; and an additional 2,175 barges loaded with cargo transited the port's channel during 1958; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Congress of the United States is respectfully requested to take all necessary steps to provide for the immediately construction of the improvements provided for in the 1945 authorization for improvements for the Port of Redwood City; and, be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

WHEREAS, Mr. Coblentz, a native of San Francisco, began his newspaper career at the age of 18 as a cub reporter on the San Francisco waterfront; and

WHEREAS, Subsequent to the 1906 earthquake Mr. Coblentz joined with three others to publish the first reports of the event; and

WHEREAS, Edmond Coblentz established an outstanding professional reputation in various editorial positions on San Francisco and New York newspapers and was the author of two books; and

WHEREAS, His great interest in California history led Mr. Coblentz to cause the restoration of the home of General Smith, the first military Governor of California, which has been designated as a state historical monument; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature takes this opportunity to express its sincere condolences to the family of Edmond D. Coblentz and to honor his life of achievement; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit suitably prepared copies of this resolution to Mrs. Lolita Coblentz, his widow, to Mrs. Denise Russell, his daughter, to Mr. Z. CHAPTER 144

Assembly Joint Resolution No. 28—Relative to a congressional investigation of unnecessary sonic booms in populated areas in California.

[Filed with Secretary of State, April 30, 1959.]

WHEREAS, There has been an increasing number of reports of sonic booms caused by high-powered, high-speed jet aircraft, the most recent of which was a report of successive sonic booms in the San Francisco Bay area on April 7 and 8, 1959, all of which were of sufficient intensity to actuate the seismograph at the University of California; and

WHEREAS, When blasted in congested or inhabited districts, sonic booms, at the very least, inconvenience and disturb the repose or peace of mind of many persons in such areas; and

WHEREAS, In addition to this, sonic booms in many areas in California have been strong enough to damage homes and other property and loud enough to cause extreme fright or shock among many persons subject to their explosive qualities; and

WHEREAS, Medical spokesmen have stated that the fright or shock generated by sonic booms may trigger the onset of coronary diseases or other afflictions intensified by sudden fear or shock; and

WHEREAS, Such intense sonic booms can frequently disrupt the usual emergency channels of communication, as was the case in the San Francisco Bay area recently when police telephone lines were jammed and rendered useless for their normal function by persons calling to inquire as to the cause of the "tremendous explosion"; and

WHEREAS, It is recognized by this Legislature that sonic booms occur in the tactical operations practiced by the Armed Forces, and that such practice is necessary for the defense of our Nation, but it is also recognized that operational training in the type of maneuvers in which sonic booms occur is generally not necessary over densely populated areas because such training is easily conducted in uninhabited regions; and

WHEREAS, It appears clear that as aviation technology advances the frequency of sonic booms will increase, as will the property damage, physical discomfort and mental suffering necessarily accompanying such explosions; and

WHEREAS, There is evidence that the Armed Services of the United States do not fully recognize their public responsibility to minimize the force and frequency of sonic booms and to reimburse citizens for damage caused by such blasts, although the U. S. Air Force has taken steps to settle claims for property damage caused by sonic booms originating from its aircraft; and

WHEREAS, It is the sincere belief of the Legislature of the State of California that no suitable solution will be found for

this problem until the Congress of the United States undertakes an investigation to determine the identity of the agencies causing unnecessary sonic booms, and to find methods for alleviating the frequency and force of such explosions over population centers; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to undertake an immediate investigation of sonic booms caused by military aircraft operating over populated areas, and the property damage and danger of physical injury caused thereby, with a view toward developing methods for mitigating this unfortunate and dangerous situation; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 145

Assembly Joint Resolution No. 22—Relative to nuclear weapons test explosions under an adequate inspection system.

[Filed with Secretary of State, May 5, 1959.]

WHEREAS, Representatives of the United States are negotiating with representatives of the Soviet Union and Great Britain toward an international treaty to end nuclear weapons test explosions under an adequate inspection system; and

WHEREAS, A conference of scientists and technicians representative of these governments and others have previously concurred on the feasibility of monitoring such a system of controls; and

WHEREAS, There is now tentative agreement on seven articles in a proposed treaty to set up worldwide inspection posts; and

WHEREAS, Such inspection posts could be established in strategically nonsensitive areas within a nation's boundaries, to avoid infringement of national rights; and

WHEREAS, The successful negotiation of a treaty to end nuclear weapons test explosions under adequate inspection would be a positive first step toward disarmament by all nations, a policy which is the goal of the United States and the hope of all mankind; and

WHEREAS, Such action would reduce the hazard of radioactive fallout and would aid in preventing the emergence of many new nations armed with atomic and hydrogen bombs and would further set the stage for additional international control and reduction of weapons of mass destruction; and

WHEREAS, The sincere and constructive efforts of the national administration to achieve agreement in this critical area, coupled with its firm and unequivocal stand against totalitarianism wherever it may occur constitutes the world's best hope for achieving a lasting peace; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the United States Government be commended and encouraged in its efforts to negotiate an end to nuclear weapons test explosions as a significant development toward which men from every corner of the earth look with hope; and be it further

Resolved, That such a treaty should provide for effective international control over any experimental nuclear explosions designed to provide scientific information for peaceful purposes, in order to prevent improper use of such explosions for other than peaceful purposes.

Resolved, That the Chief Clerk of the Assembly is directed to transmit suitably prepared copies of this resolution to the President of the United States, to the Secretary of State of the United States, to the Secretary General of the United Nations and to each Senator and Representative in the Congress of the United States from the State of California.

CHAPTER 146

Assembly Joint Resolution No. 24—Relative to requesting Congress to enact S. 910 of the Eighty-sixth Congress.

[Filed with Secretary of State, May 5, 1959.]

WHEREAS, The problems of western states and their counties and cities arising from the vast federal ownership of property in the West have demanded solution for almost 15 years; and

WHEREAS, The Congress of the United States has not yet acted with respect to instituting the needed system of payments in lieu of taxes on federal property which would partially solve these problems; and

WHEREAS, There is pending before the Eighty-sixth Congress S. 910, sponsored by a large number of United States Senators, aware of the need for some system of payments in lieu of taxes; and

WHEREAS, The provisions of S. 910 provide only a modest beginning solution of these problems and will not be burdensome upon the Federal Treasury; and

WHEREAS, S. 910 would also create the long-needed Federal Commission on Payments in Lieu of Taxes to recommend a permanent solution to the problems of hardships caused state and local governments by federal land ownership; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Congress of the United States is re-

spectfully memorialized to enact S. 910 during the first session of the Eighty-sixth Congress; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

WHEREAS, Public meetings of this nature are frequently held, or decisions of this type frequently made of which the affected Members of the Legislature are not informed; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That when a decision or discussion, other than minor matters, emergency matters or neces-

We, Charles W. Petit, Mayor of the City of San Buenaventura, California, and Charles W. Reiman, City Controller and Ex-Officio City Clerk of said City, do hereby certify and declare as follows:

That the City of San Buenaventura, a municipal corporation in the County of Ventura, State of California, is now, and was at all times herein mentioned: (a) a city containing a population of more than three thousand five hundred, but less than fifty thousand inhabitants as ascertained by the last preceding census taken under the authority of the Congress of the United States; (b) a city organized and existing under a freeholders' charter, adopted under the provisions of Section 8 of Article XI of the Constitution of the State of California, which charter was heretofore duly ratified by a majority of the qualified electors of said City at an election duly held for that purpose on the 7th day of January, 1932, and approved by the Legislature of the State of California by concurrent resolution filed with the Secretary of State on the 26th day of January, 1933, (Statutes of 1933, p. 2870).

That in accordance with the provisions of Section 8 of Article XI of the Constitution of the State of California, the Council of the City of San Buenaventura, being the legislative body of said City, on its own motion, by Ordinance No. 1042, duly and regularly submitted to the qualified electors of said City a certain proposal for the amendment of the charter of said City to be voted on by said qualified electors at the general municipal election called and held for that purpose in said City on the 14th day of April, 1959.

The City shall reserve the mineral rights on such property. Ventura Port District is hereby found and declared to be carrying out the purposes for which the City is authorized to appoint Harbor Commissioners and to create or be part of a harbor district under the provi-

sions of Section 1 of this Article, and the creation of said port district and the inclusion of the City therein is hereby approved and ratified."

We further certify that we have compared the text of the foregoing amendment to the charter of the City of San Buenaventura with the original proposals submitting the same to the electors of said City, and find that the foregoing is a full, true, correct and exact copy of said amendment. That as to said amendment, this certificate shall be taken as a full and complete certification of the regularity of all proceedings had and done in connection therewith.

The Council shall annually set aside from the net income of each of its revenue producing public utilities (after providing for the payment of principal, interest, reserve fund, and sinking fund requirements of any revenue bonds and for maintenance and operation of such public utility), as a separate depreciation fund for each of them, a sum which, according to the estimate of the City Manager, and approved by the Council, shall be sufficient to meet the normal depreciation of such public utility. Such depreciation funds shall be used only for the replacement, betterment and extension of the plants, facilities, and equipment of said public utilities respectively, and for the payment of principal of and interest on, or retirement prior to maturity of, any bonds of the City to the extent that the proceeds thereof have been applied to such replacement, betterment or extension. None of the surplus earnings of any such public utility, including the sewer and sewage disposal system, shall be transferred from any such public utility without a majority vote of the qualified electors of the City at an election at which such a proposition shall be submitted to them; provided, however, that while ordinance No. 1497, or any amendment thereof is in effect, revenue of the City water system may be used as therein prescribed; provided, further, that surplus funds of the water department may be borrowed for temporary replenishment of the general fund of the City during the first five months of any fiscal year by a vote of five members of the Council, but all sums so borrowed must be

repaid during the same fiscal year in which such borrowing occurs."

And we and each of us further certify that we have compared the foregoing proposed and ratified amendment to the charter of the City of Santa Cruz with the original proposal submitting the same to the electors of said City and find that the foregoing is a full, true and correct copy of said amendment.

IN WITNESS WHEREOF, we have hereunto set our hands and caused the seal of the City of Santa Cruz to be affixed hereto this twenty-second day of April, 1959.

CERTIFICATE OF AMENDMENTS TO THE CHARTER OF THE CITY OF LOS ANGELES, CALIFORNIA

State of California
County of Los Angeles } ss.
City of Los Angeles

We, John S. Gibson, Jr., President of the Council of The City of Los Angeles, and Walter C. Peterson, City Clerk of The City of Los Angeles, do hereby certify and declare as follows:

That said, The City of Los Angeles, in the County of Los Angeles, in the State of California, is now, and was at all times herein mentioned: (a) a city containing a population of more than one million nine hundred thousand inhabitants as ascertained by the last preceding census taken under the

authority of the Congress of the United States; (b) a city organized and existing under a freeholders' charter, adopted under the provisions of Section 8, Article XI of the Constitution of the State of California, which charter was heretofore duly ratified by a majority of the electors of said City at a special election held for that purpose on the 6th day of May, 1924, and approved by the Legislature of the State of California by concurrent resolution filed with the Secretary of State on the 26th day of January, 1925 (Senate Concurrent Resolution No. 2, Chapter No. 5, Statutes 1925, p. 1024).

That in accordance with the provisions of Article XI, Section 8, of the Constitution of the State of California, the Council of The City of Los Angeles, being the legislative body of said City, on its own motion, duly and regularly submitted to the qualified electors of The City of Los Angeles certain proposals for the amendment of the Charter of said City to be voted upon by said qualified electors at a certain general municipal election held on the 7th day of April, 1959, all as required by law, which said proposals were designated as proposed charter amendments 1, 2, 5, 6, 7 and 8, respectively.

That on the 23rd day of February, 1959, the said proposed amendments were published and advertised in accordance with Section 8 of Article XI of the Constitution, in each and every edition of said day of February 23, 1959, in "The Los Angeles Daily Journal", a daily newspaper of general circulation printed and circulated in said City, and being the official newspaper for said purpose; all as shown by the affidavit of publication on file in the office of the City Clerk of said City.

That copies of said proposed charter amendments were printed in convenient pamphlet form in type of ten-point, and were mailed to each of the qualified electors of said City; and copies thereof could be had upon application therefor at the office of the City Clerk on and from February 23, 1959, to and including April 7, 1959; and a notice was advertised and published on and from February 23, 1959, to and including April 7, 1959, in "The Los Angeles Daily Journal", a newspaper of general circulation in said City, that copies thereof might be had at the office of the City Clerk of said City upon application therefor.

Such proposed charter amendments were submitted to the electors of said City for adoption and ratification at a general municipal election held on April 7, 1959, which was not less than forty, nor more than sixty, days after completion of the advertising in the official paper of the proposed charter amendments aforesaid.

At said election a majority of the qualified electors voting upon each of the proposed charter amendments voted in favor thereof and adopted and ratified the same, as appears by the official canvass of the returns thereof by the City Clerk of The City of Los Angeles, heretofore certified by him to the Council of said City, and the declaration of the Council of the said The City of Los Angeles, which pursuant to law

met on April 17, 1959, at its usual time and place of meeting, and duly declared the result of said canvass of the returns of said election, as certified by the said City Clerk.

That the said amendments to the Charter of The City of Los Angeles, so adopted and ratified by the qualified electors of said City, and which shall be submitted to the Legislature for approval or rejection, are in words and figures as follows:

CHARTER AMENDMENT No. 1

Sections 180 and 186 of the Charter of The City of Los Angeles are amended and Sections 186.1 and 186.2 are added thereto, to read:

Fire and police pension system

Sec. 180. The Board of Pension Commissioners shall administer the fire and police pension system of the city, and have exclusive control of the administration and investment of the fire and police pension fund which is hereinafter created and established; provided, however, that any money in such fund shall be kept on deposit in the City Treasury or be invested as herein provided. In making investment of moneys in said fund and in continuing to hold property in which such moneys are invested, the board shall exercise the same degree of judgment, care, good faith, reasonable prudence, discretion and intelligence as is required of a trustee by the provisions of Subdivisions (1) and (2) of Section 2261 of the California Civil Code, as amended to November 4, 1958 but not subsequent thereto. The board may invest not more than thirty-five percent of the fund in equity-type securities, such as common and preferred stocks but not limited thereto, determined on a cost basis, and sixty-five percent or more of the fund in debt-type securities, such as bonds and debentures but not limited thereto, determined on a cost basis. The board shall retain competent investment counsel to guide it in its investments and such counsel shall be a member in good standing of the Investment Counsel Association of America or a similar association with equivalent standards of membership.

The board shall also in its investments be governed by the following standards:

Equity-type securities - common.

To be eligible, stocks shall be registered on a national securities exchange and as provided in the Federal Securities Exchange Act, any amendment thereto or any subsequent legislation in place thereof, except for stocks of banks which are members of the Federal Deposit Insurance Corporation or any successor thereof, life insurance companies, and fire or casualty insurance companies. Further, any stock to be eligible shall have paid dividends for not less than five consecutive years next preceding the date of investment. Not more than two percent of the fund, determined on a cost basis, shall be invested in the common stock of a single corporation nor shall the total number of shares held in any single corporation

exceed five percent of the issued and outstanding common shares of such corporation.

Equity type securities - preferred.

To be eligible, the issuing corporation, for a period of not less than three years next preceding the date of investment, shall have had net income, before fixed charges and taxes on income, equal to at least one and one-half times the sum of the average annual fixed charges plus preferred dividend requirements for such period (as used herein, fixed charges shall mean interest on funded or unfunded debt, amortization of debt discount and expense, and expense and rentals for leased property and, in the case of consolidated earnings statements of parent and subsidiary corporations shall include all fixed charges and preferred dividend requirements, if any such stock be held by others than the consolidated companies, of the subsidiaries); the issuing corporation shall not have defaulted in the payment of the principal or interest on any of its bonds or other evidence of indebtedness at any time during five years prior to the date of investment and, at the date of investment, shall not be in arrears in the payment of preferred stock dividends.

Debt-type securities.

To be eligible, such securities shall at the date of investment be rated, either provisionally or finally, within the three highest classifications established by at least two standard rating services, or be legal for investment by savings banks or pension and retirement funds under the provisions of the Financial Code of the State of California.

The board may adopt rules and regulations, and may change or amend the same, with respect to its investment policies which, however, shall be subject to the above limitations and not inconsistent with the provisions of this section. Such bonds or other securities purchased as aforesaid shall be placed in the custody of the Treasurer, who is hereby directed to act as a depository for such bonds and securities. All interest and earnings from such investments shall accrue and be deposited to the credit of the fire and police pension fund.

Fire and police pension fund

Sec. 186. For the purpose of providing for the payment of pensions, the expense of said Department of Pensions, and maintaining a reserve for said purposes henceforth, a fund is hereby created, to be known as the fire and police pension fund, which shall consist of all moneys heretofore paid into and all moneys, property and investments now in the fire and police pension fund, and all moneys hereafter paid into said fund in accordance with the provisions of this charter.

In addition to the receipts from taxes levied pursuant to the provisions of Section 186.2 and the deductions from the salaries of the members of the Fire and Police Departments as provided for in Section 186-½ hereof, there shall be paid into said fire and police pension fund the following moneys, to wit:

(a) All interest and earnings from the investment of said funds;

(b) All contributions and donations to the Fire and Police Departments for services by any member or members thereof, except amounts of money donated to provide for any medal or permanent competitive award;

(c) All fines imposed upon members of the Fire and Police Departments for violations of rules and regulations of said departments;

(d) All proceeds from the sale of unclaimed property.

Same Maintained on a reserve basis

Sec. 186.1. Said fire and police pension fund shall be maintained on a reserve basis which, for the purpose of this article, shall mean one which provides for the accumulation and maintenance of a fund which will at all times be equal to the difference between the present value of the obligations assumed and the present value of the money to be received for paying such obligations, where such present values are estimated in accordance with accepted actuarial methods, and on the basis of an assumed rate of interest and the mathematical probabilities of the occurence of such contingencies as affect both the payment of the assumed obligations and the receipt of money with which they are to be paid in accordance with the provisions of Sections 186.2 and 186-½.

The Board of Pension Commissioners shall, as soon as practicable after the effective date of this section, secure an actuarial valuation showing the cost of maintaining said fire and police pension system and fund on such reserve basis and shall at intervals of not to exceed five years thereafter, cause to be made an actuarial investigation including, but not limited to, the mortality, service and compensation experience of the members and beneficiaries and shall further cause to be made annually an actuarial valuation of the assets and liabilities of said fund.

The assumed rate of interest with respect to the first actuarial valuation shall be four percent per annum. Thereafter, the board shall from time to time, with the advice of the investment counselor, establish such rate as in its judgment seems proper in the light of the experience and prospective earnings on the investments of the fund.

Said board shall retain a consulting actuary for the purpose of making the necessary actuarial studies and reports on the required investigations and valuations and shall keep in convenient form such data as may be necessary for said purposes. Such actuary shall be a Fellow in good standing of the Society of Actuaries or have equivalent membership status in a similar organization with equivalent standards of membership.

With the advice of the consulting actuary and the investment counselor, the board shall, for the purpose of the actuarial valuations, provide by rule for the manner and the extent to which any unrealized profits or losses in the equity-type investments of the fund shall be taken into account.

Annual report on cost of fund

Sec. 186.2. Said board shall annually prepare and transmit to the Mayor, Council and Controller a budget setting forth the estimated cost of maintaining said pension fund, which said budget shall include therein separate items as follows:

(1) A sum equal to that percentage of the salaries of all members of said pension system shown in the last rendered actuarial valuation to be required to cover the entry age cost to be paid by the City on account of new entrants into the system, said entry age cost being defined as the level percentage of compensation of new entrants which must be paid into the fund from their date of entry in order to provide the benefits under the system, less the contributions to be made by such new entrants during the period of their membership as provided in Section 186-½; provided, however, that should the board be unable or deem it to be impracticable to obtain, subsequent to the effective date of this section, an actuarial valuation in time for it to prepare and transmit a budget based thereon, as hereinabove provided, for the fiscal year 1959-1960, then, and in that event, the board shall include in the budget for said fiscal year a sum equal to 11.6 percent of the estimated total payrolls of the Fire and Police Departments for those members of said departments included within the pension provisions of this article for said fiscal year.

(2) A sum equal to that percentage of the salaries of all members of said pension system shown in the last rendered actuarial valuation to be required to amortize the unfunded liabilities of the system; said unfunded liabilities being defined as the present value of all of the assumed obligations of the system, less the present value of the future contributions to be made by the City under the preceding subsection and by the members under Section 186-½, plus the assets of the pension fund. The amortization period shall be fifty years beginning with the fiscal year immediately succeeding the effective date of this section, with a ten-year modification program whereby there will be no contribution on account of such amortization during the first year; a contribution of one-tenth of the ultimate contribution for such amortization in the second year, and increasing thereafter by one-tenth of such ultimate contribution each year so that in the eleventh and all subsequent years the full amortization payment will be made.

(3) Administration expense.

For the purpose of providing funds to meet the budget of said fire and police pension fund the Council or Controller shall annually levy, in addition to all other taxes levied by the City, a tax clearly sufficient to provide the total amount of all items in said budget.

Charter Amendment No. 2

That the Charter be amended by adding a new Section 146 to read as follows:

Sec. 146. Harbor Revenue Bonds.

Harbor Revenue Bonds

Subsection (a). Harbor Revenue Bonds not to constitute indebtedness of City. Bonds issued by the Harbor Department under the provisions of this Section 146 shall not constitute or evidence indebtedness of the city, but shall constitute and evidence only indebtedness of the Harbor Department payable in the manner provided in this Section 146, and not otherwise.

Subsec. (b). Power to borrow money, issue revenue bonds and refund indebtedness.

Subd. (1). The Harbor Department shall have the power to borrow money from time to time for the purpose of acquiring, providing for, erecting, constructing, reconstructing, replacing, extending, or improving such improvements, utilities, structures, watercraft, appliances, facilities and services as the Board of Harbor Commissioners may deem necessary or convenient for the promotion or accommodation of commerce, navigation or fishery, or for any use in connection therewith, or upon the lands and waters, or interests therein, in the possesesion and under the management, supervision and control of said Board, or for the payment of the cost of acquiring or taking such real property or any interest therein that the Board may deem necessary or convenient for such purposes; and the Harbor Department shall have the power to issue and to sell bonds, as hereinafter defined, to evidence the indebtedness created by such borrowing.

Subd. (2). The Harbor Department shall also have the power to refund from time to time, whether at or prior to maturity, any outstanding indebtedness evidenced by bonds of the Department payable out of the harbor revenue fund or evidenced by bonds of the city serviced out of the harbor revenue fund, and to issue, and to sell or exchange, bonds so to refund such indebtedness. Refunding bonds which are to be sold may be issued and sold at such time in advance of the time at which the bonds to be redeemed or paid out of the proceeds of such refunding bonds are to be so redeemed or paid as the Board of Harbor Commissioners may determine.

Subsec. (c). Definitions.

The following terms, whenever used in this Section 146, shall have the following meanings, respectively, unless otherwise clearly indicated by the context:

"Bonds" shall include "notes, certificates, and other evidences of indebtedness";

"Refund" shall include "extend" and "renew";

"Bonds of the Department payable out of the harbor revenue fund", and terms of similar import, shall mean only bonds issued by the Harbor Department pursuant to the provisions of this Section 146, and by their terms payable solely out of the harbor revenue fund;

"Bonds of the City serviced out of the harbor revenue fund", and terms of similar import, shall mean only general obligation bonds issued by the city, provision for the pay-

ment of which out of the harbor revenue fund may be made pursuant to the terms of this charter and of the applicable grant or grants of tidelands and submerged lands to the city by the State of California;

"Assented to by the voters" shall mean that the proposition indicated by the context shall have been submitted to the electors of the city, and shall have been assented to by a majority of those electors who shall have voted upon that proposition at the election; and

"Payments on principal" shall mean payments on account of the principal of bonds, whether upon maturity or by payments into a sinking fund on account of principal, and shall include premiums required to be paid on the mandatory redemption of sinking fund bonds.

Subsec. (d). Bonds to be payable solely from harbor revenue fund.

Subd. (1). All bonds issued by the Harbor Department pursuant to this Section 146 shall be, and shall recite upon their face that they are, payable both as to principal and interest, and as to any premiums upon the redemption thereof, out of the harbor revenue fund, and not out of any other fund or moneys of the Department or the city.

Subd. (2). The provisions of the preceding subdivision (1) shall not preclude:

Clause (i)—the payment of any such principal, interest or premiums through appropriate reserve funds or special trust accounts, established as hereinafter in this Section 146 provided;

Clause (ii)—the payment of interest on or principal of bonds of any such issue out of sums received as premiums or accrued interest on the sale of that issue;

Clause (iii)—the payment of any such principal or premiums out of the proceeds of the sale of refunding bonds issued for that purpose;

Clause (iv)—the payment out of the proceeds of any bonds of the whole or a part of the interest accruing on said bonds during the period of the performance of work to be paid for out of such proceeds; or

Clause (v)—the payment of any such principal, interest or premiums by the purchasers of any such bonds, or by any entity, public or private, other than the city, the Harbor Department or any other department of the city, in any case where any such purchaser or entity may have guaranteed such payment.

Subd. (3). In addition to the purposes specified in Section 145 of this charter, money in, or belonging to, the harbor revenue fund may be appropriated and used for the payment, either directly or through appropriate reserve or separate funds or trust accounts, and whether at maturity, or upon redemption prior to maturity, of the principal of any bonds of the Department which by their terms are payable out of the harbor revenue fund and of bonds of the city serviced out

of that fund, and for the purchase of any such bonds, and for the payment of interest upon any such bonds, and of premiums due upon the redemption thereof, and for the payment of all costs and charges incident to any of the matters and things authorized by this Section 146.

Subsec. (e). Orders of Board authorizing bonds and proceedings therefor.

Subd. (1). Whenever the Department shall propose to exercise the power to borrow money, or to refund indebtedness, pursuant to this Section 146, the Board of Harbor Commissioners shall adopt an order authorizing the issuance of bonds for such purpose, which order shall specify:

Clause (i)—the purpose for which the proposed bonds are to be issued;

Clause (ii)—the maximum principal amount of the bonds proposed to be issued;

Clause (iii)—the maximum term for which any of said bonds are to run;

Clause (iv)—the maximum interest cost, to be determined in the manner specified in said order, to be incurred through the issuance of such bonds;

Clause (v)—the maximum premium, if any, to be payable on the redemption of any such bonds;

Clause (vi)—whether or not such bonds are to be in negotiable form; and

Clause (vii)—the limits within which, in connection with the issuance of such bonds, restrictions may be imposed upon the incurring of additional indebtedness payable out of the harbor revenue fund or upon future transfers out of said harbor revenue fund, under Section 382 of this charter.

Subd. (2). Certified copies of such order shall be transmitted to the offices of the Mayor and of the City Clerk, and the City Clerk shall forthwith present the said order to the Council. At any time within such period as may be specified in said order, which shall be not less than thirty days from and after the receipt of such certified copies at such offices, respectively, the Mayor, by writing, or the Council, by majority vote, may disapprove such order. If neither the Mayor nor the Council shall so disapprove said order within the period so specified, said order shall thereupon be published once in the same manner as ordinances of the city. If the Mayor shall disapprove said order within said period, he shall forthwith advise the Council and the Board of Harbor Commissioners, in writing, of such disapproval. The Council shall thereupon consider such disapproval in the same manner as upon the reconsideration of an ordinance notwithstanding the veto of the Mayor, and if upon such consideration the Council shall, by the votes of two-thirds of the whole Council, determine that the Mayor's disapproval should be overruled, such disapproval by the Mayor shall be of no effect, and the said order of the Board of Harbor Commissioners shall thereupon be published once in the same manner as ordinances of the city.

Subd. 3. Anything in the preceding subdivisions of this subsection (e) of this Section 146 notwithstanding, in the cases of (i) refunding bonds, or (ii) bonds where the proposition of issuing the same is to be submitted to the voters for their assent pursuant to any other provisions of this Section 146, or (iii) notes or other evidences of indebtedness to be issued pursuant to subsection (r) of this Section 146, the order of the Board of Harbor Commissioners adopted pursuant to subdivision (1) of this subsection (e) shall upon its adoption by the Board, be forthwith published once in the same manner as ordinances of the city, and the transmission of such order to the offices of the Mayor and City Clerk shall be for information only, and it shall not be subject to disapproval by the Mayor or Council, provided, however, that any such order may, by its terms, be made subject to disapproval by the Mayor or Council with the effect provided in subdivision (2) of this subsection (e). If any order transmitted pursuant to this subdivision (3) shall contain a request that the Council submit to the voters of the city the proposition of assenting to the issuance of the bonds therein specified, pursuant to subsection (q) of this Section 146, the Council shall proceed as in said subsection (q) provided.

Subd. 4. Every such order, adopted by the Board of Harbor Commissioners pursuant to any of the preceding subdivisions of this subsection (e), shall, when published, be subject to the right of referendum before the same shall become effective. At any time within thirty days after such publication a referendary petition, demanding the submission of such order to a vote of the qualified electors of the city for their assent to the issuance of the therein proposed bonds, may be filed with the City Clerk. Except as in this Section 146 otherwise expressly provided, all of the provisions of this charter relating to referendum with respect to ordinances shall apply to any referendum under the provisions of this subsection (e). Upon presentation to the Council by the City Clerk of a referendary petition, the order which is the subject thereof shall be of no effect unless and until the same shall have been assented to by the voters.

Subd. 5. If no such referendary petition is presented within the aforesaid period of thirty days, then upon the expiration of said period, or if the proposition of issuing the bonds specified in the order of the Board of Harbor Commissioners adopted pursuant to subdivision (1) of this subsection (e) shall have been assented to by the voters, whether upon referendum pursuant to this subsection (e), or pursuant to any other provisions of this Section 146, then upon such proposition having been so assented to, the said order shall take full and final effect, and the Board of Harbor Commissioners may proceed in accordance with the provisions of this Section 146 and issue bonds within the terms of said order.

Subsec. (f). Determination and limitation of amounts of issues.

Subd. (1). Whenever the Harbor Department shall exercise the power to borrow money, or to refund indebtedness, pursuant to this Section 146, the Board of Harbor Commissioners shall by order determine the amount or amounts required for the purposes for which the money is to be borrowed or required for such refunding.

Subd. (2). Whenever the Harbor Department shall exercise the power to borrow money pursuant to this Section 146, the Board of Harbor Commissioners may authorize the issuance of bonds in any amount which, when added to the aggregate amount of bonds of the Harbor Department issued pursuant to this Section 146 and outstanding at the time of the acceptance of a proposal for the purchase of the bonds so authorized and payable out of the harbor revenue fund, shall not exceed by more than 25% the amount of the surplus (including surplus arising from contributions in aid of construction) derived from the operation and conduct of the Harbor Department, as of the end of the last fiscal year which ended not less than four months prior to the making of the finding and determination provided for in clause (i) of subdivision (1) of subsection (p) of this Section 146.

Subd. (3). The limitation prescribed in subdivision (2) of this subsection (f) shall not be applicable to the issuance of any refunding bonds pursuant to this Section 146, and the amount of any issue of such refunding bonds may equal, but shall not exceed, the amount required for the payment or redemption of the bonds to be refunded thereby, including the premiums, if any, due upon such redemption, but excluding any interest due upon such redemption.

Subd. (4). The limitation prescribed in subdivision (2) of this subsection (f) shall not be applicable to the issuance of any bonds whenever the proposition of such issuance shall have been assented to by the voters.

Subd. (5). Any bond for the payment and discharge of which, upon maturity or upon redemption prior to maturity, provision has been made through the setting apart in a reserve fund or special trust account created pursuant to subsection (j) of this Section 146 to insure the payment thereof, of moneys sufficient for that purpose, or through the irrevocable segregation for that purpose, in some sinking fund or other fund or trust account, of moneys sufficient therefor, shall be deemed to be no longer outstanding within the meaning of any provision of this Section 146.

Subsec. (g). Bonds to be serial or sinking fund, and time of payment thereof.

Subd. (1). Except as otherwise shall have been assented to by the voters, each issue of bonds issued pursuant to this Section 146, other than refunding bonds, shall conform to the following requirements:

Clause (i)—such bonds shall be serial bonds or sinking fund bonds, or a combination of serial and sinking fund bonds;

Clause (ii)—provision shall be made for the retirement of such bonds through annual payments on principal, and such payments shall begin not more than eight years, and end not more than forty years, after the date of such bonds; and

Clause (iii)—the amounts of such annual payments on principal shall be such that no such annual payment which shall become due eight years, or more, after the date of such bonds shall be less than 50% of any subsequent such annual payment.

Subd. (2). Each issue of refunding bonds issued pursuant to this Section 146 shall conform to the following requirements:

Clause (i)—such bonds shall be serial bonds or sinking fund bonds, or a combination of serial and sinking fund bonds;

Clause (ii)—provision shall be made for the retirement of such bonds through payments on principal as follows:

(x) If the order authorizing the issuance of such bonds pursuant to subdivision (1) of subsection (e) of this Section 146 be not made subject to the disapproval of the Mayor and Council, then such payments shall be at such times and in such amounts that at no time shall the amount of principal remaining outstanding be greater than if the payments on such refunding issue had been proportional to the payments on principal prescribed for the bonds to be refunded thereby;

(y) If such order be made subject to the disapproval of the Mayor and Council, then payments may be as prescribed in (x) above, or annual payments shall be provided which shall begin not later than the date of the annual payment next due upon the bonds to be refunded and end not more than forty years after the date of the incurring of the original indebtedness, and the amount of such annual payments shall be such that no such annual payment shall be less than 50% of any subsequent annual payments;

(z) If the proposition of issuing such refunding bonds shall have been assented to by the voters, then the times and amounts of payments may be such as shall be within the terms of such assent.

Subsec. (h). Powers of Board.

Subd. (1). The Board of Harbor Commissioners shall have power to determine all the terms and conditions of the issuance and sale of bonds pursuant to this Section 146, excepting only as such power is limited by express provisions of said section

Subd. (2). Without limiting in any way the generality of such power, the Board of Harbor Commissioners is expressly authorized, in its discretion, to provide, in connection with any issue of such bonds:

Clause (i)—for such bonds being in such amounts, of such denominations, payable at such times, and in such form as the Board may determine;

Clause (ii)—for such bonds being negotiable or non-negotiable;

Clause (iii)—for such bonds and the interest thereon, and premiums, if any, due upon the redemption of any thereof, being payable or collectible at any place or places, within or without the State of California, and without such presentation and approval of demands as is elsewhere in this charter provided for with respect to other claims against the city, the Board of Harbor Commissioners or the Harbor Department;

Clause (iv)—for such bonds being payable to bearer or only to the registered holder, either as to principal alone, or as to both principal and interest; for such bonds being with or without coupons; for such bonds being non-registerable, or registerable, either as to principal alone, or as to both principal and interest; for such bonds being exchangeable or non-exchangeable, convertible or nonconvertible; and for the reissuance of bonds or coupons which have been surrendered and preserved, or for the issuance of new bonds or coupons in the place of bonds or coupons which have been surrendered and cancelled, wherever appropriate as incident to the discharge of any bond from registration, or to any exchange or conversion of any bond; all on such terms and conditions, and at such place or places, within or without the State of California, as the Board may determine;

Clause (v)—for such bonds being redeemable, either at the option of the Harbor Department, or in the operation of any sinking fund provided for the issue, at such price or prices and in such manner as the Board may determine, whether or not involving the payment of a premium upon such redemption; provided, however, that every bond, the maturity date of which is more than ten years after its date, shall by its terms be subject to redemption at a date not more than ten years from its date, and thereafter at intervals not exceeding one year;

Clause (vi)—for the issuance by the Harbor Department of a duplicate, in the manner and on such terms and conditions as the Board may determine, in the event any bond, temporary bond, coupon or interim receipt of any such issue is lost, destroyed or mutilated;

Clause (vii)—for the appointment and payment of fiscal, paying, sinking fund or other agents, or of trustees or registrars;

Clause (viii)—for the appointment of the Treasurer of the city to act as such fiscal, paying, sinking fund or other agent;

Clause (ix)—for the custody by the Harbor Department of bonds and coupons whether pending delivery or after purchase or surrender; for the delivery by the Harbor Department of bonds and coupons to the purchaser thereof; for the receipt by the Harbor Department of the proceeds of the sale and for the depositing of such proceeds in the proper fund or funds;

Clause (x)—for the sale of any such bonds and the terms upon which they may be offered for sale; provided, however, that each issue of bonds pursuant to this Section 146 shall

be offered for sale on competitive bidding, pursuant to a notice inviting proposals for the purchase of such bonds, published at least twice, the first publication to be at least five (5) days prior to the time fixed for the receipt of proposals, in one newspaper published and of general circulation in the City of Los Angeles (and, if the Board in its discretion shall so determine, said notice may be published elsewhere than in said city in such manner and to such extent as the Board may deem desirable); and that such bonds shall be sold to the bidder making a bid conforming to the terms of the offering, and which, on the basis of the lowest interest cost, determined in the manner specified in the resolution adopted pursuant to subdivision (1) of subsection (e) of this Section 146, is the best bid, but the Board shall reserve the right to reject any and all bids; provided, further, that in the case of refunding bonds the Board may provide for the refunding being made, in whole or in part, by the exchange of such refunding bonds for the bonds to be refunded;

Clause (xi)—for the issuance of interim receipts or of temporary bonds, in such form as the Board may prescribe, pending the issuance of definitive bonds;

Clause (xii)—for any signatures to such bonds and to any coupons thereto attached, and to any interim receipts and temporary bonds, being by facsimile, except that as to any such bonds, interim receipts and temporary bonds, but not as to any such coupons, at least one signature shall be by autograph;

Clause (xiii)—for restrictions on the incurring of additional indebtedness of the Harbor Department payable out of the harbor revenue fund;

Clause (xiv)—for restrictions on future transfers under Section 382 of this charter out of the harbor revenue fund;

Clause (xv)—for covenants with the holders of bonds to the same effect as set forth in clauses (i) to (iv), inclusive, of subsection (m) of this Section 146, which covenants shall not be subject to alteration or repeal, except as in subsection (n) of this Section 146 provided;

Clause (xvi)—for the issuance and distribution in such form as the Board may determine of official statements respecting proposed issues of bonds and the properties, operations and finances of the Harbor Department, for the information of prospective purchasers of such bonds; and, in any case where any proposition is to be submitted to the voters for their assent, whether by referendum or pursuant to any provision of this Section 146, for the issuance, distribution, dissemination and publication of factual statements respecting such proposed issues of bonds, and such properties, operations and finances, for the information of such voters; and

Clause (xvii)—for the making of contracts, or the placing of orders, for the engraving or printing of any bonds, whether definitive or temporary, or of interim receipts, authorized by

this Section 146, or for any printing incident to the offering or issuance of any such bonds, without advertising for bids, in any case where, because of limitations of time, or requirements as to quality of work, or as to security in the control or custody of plates, or any similar cause, the Board may deem it to be in the public interest so to do, anything in this charter to the contrary notwithstanding, but in so doing the Board shall, if practicable, obtain or cause to be obtained competitive bids, formal or informal, from bidders who can perform work of the required quality within the required time, and, in the case of engraving, who are of proper responsibility and who have adequate facilities for the control and safekeeping of the engraved plates.

Subsec. (i). Money in harbor revenue fund may be invested.

Money in, or belonging to, the harbor revenue fund, in the discretion of the Board of Harbor Commissioners, may be invested in bonds or other evidences of indebtedness of the United States, the State of California, or of any political subdivision thereof, or of the Harbor Department. Any such bonds or other evidences of indebtedness acquired through such investment may be resold at any time. In making any such investment in, or sale of, bonds the Board shall, if practicable, obtain or cause to be obtained competitive bids, formal or informal, for the sale or purchase of such bonds. Any interest or any increment received by reason of such investment, and the proceeds of any such resale, shall be placed in the harbor revenue fund. Any bond of the Harbor Department so acquired which is payable out of the harbor revenue fund may be cancelled, either in satisfaction of sinking fund obligations, or otherwise, and any bond so cancelled shall no longer be deemed to be outstanding for any purpose.

Subsec. (j). Reserve funds and special trust accounts to insure payment of bonds.

Subd. (1). In connection with the exercise of the power to borrow money, to issue bonds, and to refund indebtedness, pursuant to this Section 146, the Board of Harbor Commissioners is empowered to and may, from time to time, establish and maintain a reserve fund or funds in the City Treasury, or a special trust account or accounts with an agent or agents designated by said Board pursuant to clause (vii) of subdivision (2) of subsection (h) of this Section 146, as a sinking fund or otherwise, to insure the payment, when due or payable, whether at maturity or upon redemption, of the principal of, and interest on, bonds issued as aforesaid, including premiums, if any, due upon the redemption of any thereof, or for any of said purposes. Money in any such reserve fund may be used for the purchase of bonds of the issue in connection with which it was established, for cancellation and retirement pursuant to any mandatory requirement of the redemption of sinking fund bonds. Each such fund or account shall be established and maintained out of

the harbor revenue fund or out of any moneys which under the terms of subdivision (2) of subsection (d) of this Section 146 are applicable to the purpose, through transfers or payments made at such times and in such amounts as the Board of Harbor Commissioners may direct.

Subd (2). Money set aside and placed in any such reserve fund or special trust account shall remain therein until from time to time expended for the purposes thereof, and shall not be used for any other purpose whatsoever, except for temporary investment thereof as provided in subsection (1) of this Section 146; provided, however:

Clause (i)—that money may be paid or transferred from any such fund or account in furtherance of the purpose of its establishment, to any other such fund or account established for a like purpose in connection with the same issue of bonds, to such extent as may be required or permitted under the terms of the order authorizing that issue; and

Clause (ii)—that all money remaining in any such fund or account in excess of the amount required to make provision for the payment in full of the principal of, and interest on, the bonds with respect to which it was established, including premiums, if any, due upon the redemption of any thereof, may be returned and transferred to the harbor revenue fund or other fund out of which such reserve fund or special account was established.

Subd. (3). Money in any such reserve fund shall be drawn therefrom only upon demands authenticated by the signature of the chief accounting employee of the Harbor Department; provided, however, that the Board of Harbor Commissioners may, in its discretion, direct and authorize the payment from such reserve fund, by the Treasurer, without such authenticated demand, (i) of bonds of the issue in connection with which such reserve fund is so established when due upon maturity or call, or of coupons pertaining to bonds of such issue when due, but only upon presentation and surrender of such bonds or coupons, (ii) of interest upon registered bonds of such issue when due, or (iii) of premiums, if any, due upon the redemption of any such bonds.

Subd. (4). Money in any such special trust account shall be drawn therefrom only in accordance with directions given or authorized by the Board of Harbor Commissioners.

Subsec. (k). Application of proceeds from sale of bonds.

Subd. (1). All sums received as premiums or accrued interest on the sale of any issue of bonds issued pursuant to this Section 146 shall be applied to the payment of interest on or principal of bonds of that issue.

Subd. (2). All sums received as principal on the sale of any issue of bonds shall be applied to the purposes for which such bonds were issued.

Subd. (3). The Board of Harbor Commissioners is empowered to and may from time to time establish and maintain a separate fund or funds in the City Treasury for the purpose

of insuring the application of such proceeds received as principal on the sale of any issue of bonds to the purposes for which the same were issued.

Subd. (4). Money set aside and placed in any such separate fund shall remain therein until from time to time expended for the purposes for which such bonds were issued, including the reimbursement of other funds of the Harbor Department for expenditures therefrom for purposes for which such bonds were issued, made after such issuance was authorized, and shall not be used for any other purpose whatsoever, except for temporary investment thereof as provided in subsection (1) of this Section 146; provided, however, that money may be paid or transferred from any such separate fund, in furtherance of the purpose of its establishment, to any other such separate fund established for a like purpose in connection with the same issue of bonds.

Subd. (5). Money in any such separate fund shall be drawn therefrom only upon demands authenticated by the signature of the chief accounting employee of the Harbor Department.

Subd. (6). If the Board of Harbor Commissioners shall determine by order that the expenditure of the whole or any portion of the said principal sum of any issue of bonds for the purpose for which such bonds were issued is impracticable or unwise, the Board may:

Clause (i)—apply such money or any part thereof to the purchase of bonds of that issue, or to the payment of any such bonds, at maturity or on redemption, or to the payment of interest thereon or of premiums due on the redemption thereof; or

Clause (ii)—apply such money or any part thereof to any new purpose which is within the purposes for which bonds might be issued under the terms of this Section 146; provided, however, that before applying any of such money to such new purpose the Board shall adopt an order specifying such new purpose, the amount of such money to be applied thereto, and authorizing such application, which order shall be subject to the same procedures, and take final effect only in the same manner, as if it were an order adopted pursuant to subdivision (1) of subsection (e) of this Section 146, authorizing the issuance of bonds for such new purpose, and such order authorizing such application to such new purpose, when it shall have taken final effect under such procedures, shall be sufficient authority for the application of such money to such new purpose.

Subd. (7). If any excess of the principal sum of the proceeds of any issue of bonds shall remain unexpended after the full accomplishment of the purpose for which such bonds were issued, the Board, by order, may direct that the same shall be applied to the purchase of bonds of that issue, or to the payment of any such bonds, at maturity or on redemption, or to the payment of interest thereon or of premiums due on the redemption thereof, or, subject to the procedure set

forth in clause (ii) of subdivision (6) of this subsection, that it shall be transferred to the harbor revenue fund and may thereupon be appropriated and used for any of the purposes provided for in Section 145 of this charter.

Subsec. (l). Money in reserve funds, separate funds or trust accounts may be invested.

Subd. (1). Pending use for the purposes for which any reserve fund or special trust account established pursuant to subsection (j), or any separate fund established pursuant to subsection (k) of this Section 146 was so established, money set aside and placed therein may, when and to such extent and in such manner as may be directed by the said Board of Harbor Commissioners and as may be consistent with the provisions of any orders of said Board constituting a part of the proceedings for the issuance of the issue of bonds in connection with which such fund or account was created, be invested in bonds or other evidences of indebtedness of the United States, the State of California, or of any political subdivision thereof, or of the Harbor Department. Any such bonds or other evidences of indebtedness acquired through such investment may be resold at any time. In making any such investment in, or sale of, bonds the Board shall, if practicable, obtain or cause to be obtained competitive bids, formal or informal, for the sale or purchase of such bonds.

Subd. (2). Any bonds or other securities so purchased shall constitute a part of such reserve fund, special trust account or separate fund, and any interest or any increment received by reason of such investment and the proceeds of any such resale shall be placed in, and constitute a part of, such fund or account.

Subsec. (m). Obligations to Bondholders.

Subd. (1). So long as any bonds of the Harbor Department payable out of the harbor revenue fund shall be outstanding and unpaid, or so long as provision has not been made for the full payment and discharge of all such outstanding bonds, upon maturity, or upon redemption prior to maturity, through the setting apart in a reserve fund or special trust account created pursuant to subsection (j) of this Section 146 to insure the payment thereof, of money sufficient for that purpose, or through other irrevocable allocation to that purpose of money sufficient therefor:

Clause (i)—the Board of Harbor Commissioners shall fix rates, tolls and charges, rentals for leases, permits and franchises, and compensations or fees for franchises and licenses, subject to the approval of or submission to the Council only in those instances and in such manner as may be provided elsewhere in this charter, and collect such charges, rentals, compensations and fees, such as to provide revenues at least sufficient to pay, as the same shall become due, the principal and interest on all such bonds so outstanding payable out of the harbor revenue fund, including premiums, if any, due upon the redemption of any thereof, in addition

to paying, as the same shall become due, the necessary expenses of conducting the Harbor Department, including the operation, promotion and maintenance of all harbor or port improvements, works, utilities, appliances, facilities, services and watercraft, owned, controlled or operated by the city for the promotion and accommodation of commerce, navigation and fishery, or used in connection therewith, and all other obligations and indebtedness payable out of the harbor revenue fund, and during such period the Council shall, when its approval is required by this charter, approve rates, tolls, charges, rentals, compensations and fees so fixed by said Board, sufficient for the purposes aforesaid; no ordinance adopted by the Council approving any rate, toll, charge, rental, compensation or fee so fixed by said Board shall be subject to referendum;

Clause (ii)—no bonds of the Harbor Department payable out of the harbor revenue fund shall be issued having any priority with respect to payment of principal or interest out of that fund over bonds theretofore or thereafter issued and payable out of that fund; no transfer of money shall be made out of the harbor revenue fund in any one fiscal year for the purpose of paying the principal of or interest on any bonds of the city serviced out of the harbor revenue fund unless and until the principal of and interest on bonds of the Harbor Department payable out of the harbor revenue fund, due and payable in that fiscal year, have been paid;

Clause (iii)—the property of the city which is under the management, supervision and control of the Board of Harbor Commissioners shall not be sold or otherwise disposed of, as a whole or substantially as a whole, unless such sale or other disposition be so arranged as to provide for a continuance of payments into the harbor revenue fund sufficient in amount to permit payment therefrom of principal of, and interest on, and premiums, if any, due upon the redemption of, all bonds payable out of that fund, or to provide for such payments into some other fund charged with such payments; and

Clause (iv)—no indebtedness payable out of the harbor revenue fund shall be created, no bonds of the city serviced out of that fund, and no transfer out of that fund to other funds of the city shall be made, in contravention of the provisions of any orders heretofore adopted by the Board in connection with the authorization of any bonds payable out of the harbor revenue fund, or in contravention of any restrictions duly imposed pursuant to clauses (xiii) or (xiv) of subdivision (2) of subsection (h) of this Section 146.

Subd. (2). Anything in this subsection (m) to the contrary notwithstanding, the Board, in any order constituting a part of the proceedings for the issuance of any issue of bonds under this Section 146, may determine that the holders of the bonds of that issue are not to be entitled to the benefits of or to enforce any or all of the provisions of this subsection (m), and to that end the Board, in such order, shall specify the provi-

sions of this subsection (m) to the benefits of which the holders of the bonds of that issue shall be entitled; and the holders of the bonds of that issue shall not be entitled to the benefits of or to enforce any of the provisions of this subsection (m) not so specified.

Subsec. (n). Consents of bondholders.

Subd. (1). Any act consented to by the holders of 60% in aggregate principal amount of the outstanding bonds (exclusive of any bonds held by the city or any department or fund of the city) of any issue of bonds issued under this Section 146, pursuant to provisions for such consents contained in any order of the Board of Harbor Commissioners constituting a part of the proceedings for the issuance of such bonds, shall not, as to the bonds of that issue, be deemed an infringement of any of the provisions of subsection (m) of this Section 146, or of any covenant made pursuant thereto, whatever the character of such act may be.

Subd. (2). In any case where sinking fund bonds shall have been issued under this Section 146, and where any order of the Board of Harbor Commissioners constituting a part of the proceedings for the issuance of such bonds shall have provided that any annual payment into the sinking fund, or the application of money in said sinking fund to any annual or other retirement of such bonds, required by the terms of their issuance, might be omitted, postponed or reduced in amount, if consented to by the holders of 60% in aggregate principal amount of the outstanding bonds (exclusive of any bonds held by the city or any department or fund of the city) of that issue, pursuant to provisions for such consents contained in any such order, and where such omission, postponement or reduction has been so consented to, such omission, postponement or reduction shall not be deemed an infringement of any provision of this Section 146, or of any order under which such bonds may have been issued.

Subsec. (o). Orders authorizing bonds constitute enforceable contracts.

The provisions of any order of the Board of Harbor Commissioners constituting a part of the proceedings for the issuance of any bonds under this Section 146, when so declared by its terms, or by the terms of any other such order, shall constitute a contract between the Harbor Department and the holders of such bonds, and the provisions thereof shall be enforceable by mandamus or any other appropriate suit, action or proceeding at law or in equity in any court of competent jurisdiction.

Subsec. (p). Determination of facts and findings by Board.

Subd. (1). After accepting a proposal for the purchase of each issue of bonds to be issued pursuant to this Section 146 (except in the case of the exchange of refunding bonds for bonds to be refunded thereby, in which case it shall be after authorizing such exchange) and prior to the issuance thereof, the Board of Harbor Commissioners, after satisfying itself

respecting the relevant facts, shall, by order, find and determine:

Clause (i)—the amount of surplus (including surplus arising from contributions in aid of construction) derived from the operation and conduct of the Harbor Department as of the end of the last fiscal year which ended not less than four months prior to the making of such finding and determination, and that the ascertainment of such surplus has been in accordance with sound accounting practices; provided, however, that such finding and determination need not be made in the case of the authorization of refunding bonds, or in any case where the voters have assented to the issuance of bonds in excess of the limitation specified in subdivision (2) of subsection (f) of this Section 146;

Clause (ii)—that the amount of bonds of the Harbor Department payable out of the harbor revenue fund and outstanding at the time of the acceptance of such proposal does not exceed an amount stated in said finding and determination; subject, however, to the same proviso as in the next preceding clause (i);

Clause (iii)—that the order or orders authorizing such issue of bonds in all respects conforms or conform with the provisions of this Section 146;

Clause (iv)—that the indebtedness to be evidenced by such issue of bonds, together with all other indebtedness of the Harbor Department and of the city pertaining to the municipal works for or on account of which such bonds are to be issued, is within every debt or other limit prescribed by the Constitution and statutes of the State of California and this charter; and

Clause (v)—that upon the issuance of such bonds any and all acts, conditions and things required to exist, to happen and to be performed, precedent to and in the issuance thereof, will exist, will have happened and will have been performed, in due time, form and manner, as required by the Constitution and statutes of the State of California and this charter.

Subd. (2). The Board of Harbor Commissioners may also, by order, find and determine any other facts relevant to the legality of the issue.

Subd. (3). The Board of Harbor Commissioners, by order adopted in connection with any issue of bonds pursuant to this Section 146, may direct that there shall be included in each of the bonds of that issue a certification and recital that any and all acts, conditions and things required to exist, to happen and to be performed, precedent to and in the incurring of the indebtedness evidenced by that bond, and in the issuing of said bond, exist, have happened and have been performed in due time, form and manner, as required by the Constitution and statutes of the State of California and this charter, and that said bond, together with all other indebtedness of the Harbor Department and of the city pertaining to the municipal works for or on account of which the indebtedness evidenced

by said bond was incurred, is within every debt and other limit prescribed by the Constitution and statutes of the State of California and this charter.

Subd. (4). From and after the issuance of any issue of bonds, the findings and determinations of the Board of Harbor Commissioners respecting that issue made pursuant to this subsection (p) shall be conclusive evidence of the existence of the facts so found and determined in any action or proceeding in any court in which the validity of such bonds is at issue, and no bona fide purchaser of any such bond containing the certification and recital permitted by this subsection (p) shall be required to see to the existence of any fact, or to the performance of any condition, or the taking of any proceeding, required prior to such issue, or to the application of the purchase price paid for such bonds.

Subd. (5). Bonds shall be deemed to be issued, within the meaning of this subsection (p) whenever the definitive bonds, or any temporary bonds or interim receipts exchangeable therefor, have been delivered to the purchasers thereof, and the purchase price thereof received, or in the case of bonds to be refunded through exchange, whenever such exchange has been made.

Subsec. (q). Elections.

Subd. (1). The Board of Harbor Commissioners at any time may adopt a resolution requesting the Council to submit to the voters of the city the proposition of assenting to any proposed action of the Board in any case where such assent is required or permitted by the terms of this Section 146, or in any case where the Board may deem such submission to be desirable. Such resolution may request such submission at any specified municipal election, the time for which is controlled by any provision of this charter, or of any other law, or of any ordinance of the city, or at any special election to be held for some other purpose, the time for the holding of which has then been duly fixed; provided, however, that no election shall be so specified which is to be held less than forty days after the filing of a certified copy of such resolution with the City Clerk. Instead of so specifying any such election, such resolution may request the Council to call a special election for the submission of such proposition and to fix the time for holding the same. Any such resolution shall authorize the payment out of the harbor revenue fund of the Harbor Department to the general fund of the city of the entire cost to the city of such election, if such proposition shall be submitted at an election called solely for that purpose, otherwise of the proper proportionate part of such cost pertaining to such proposition, such payment to be made upon presentation of the statement provided for in subdivision (3) of this subsection (q). Upon the adoption of any such resolution the Board of Harbor Commissioners shall cause a certified copy thereof to be filed with the City Clerk.

Subd. (2). Promptly upon the receipt of such certified copy the City Clerk shall present the same to the Council. If such resolution specifies an election at which such submission is requested, the Council shall submit such proposition at the election so specified. If such resolution requests the Council to call and fix the time for such election, the Council shall call a special election for the purpose of submitting such proposition, such election to be held not less than forty nor more than sixty days after the filing with the City Clerk of such certified copy of such resolution, unless an election for some other purpose is to be held not less than forty nor more than ninety days after such filing, in which event the Council shall submit such proposition at such election. Any proposition to be submitted in accordance with the provisions of this subsection (q) may be submitted at any municipal election, whether the same be the primary nominating election, the general municipal election, or a special election, and whether or not consolidated or held concurrently with any other municipal, state or county election. The Council shall do, or cause to be done, any and all things necessary to make such submission at the election indicated by the resolution of the Board of Harbor Commissioners and to determine and certify to said Board the result thereof.

Subd. (3). As soon as practicable after the holding of any such election, the City Clerk shall prepare, and submit to the Council for approval, and upon such approval shall present to the Board of Harbor Commissioners, or to such officer of the Harbor Department as may have been designated in the resolution requesting such submission, a statement of the entire cost to the city of such election, if held solely for the submission of such proposition, otherwise of the proper proportionate part of such cost pertaining to such proposition. Upon the receipt of such statement the amount of such cost, or of such proper proportionate part thereof, shall be paid from the harbor revenue fund of the Harbor Department to the general fund of the city.

Subsec. (r). Short term borrowing.

Subd. (1). The Harbor Department shall also have the power to borrow money from time to time for any or all of the purposes specified in subsection (b) of this Section 146, and to issue and sell notes, or other evidences, to evidence the indebtedness created by such borrowing, without the submission to the voters of the proposition of so doing, and without the approval by the Mayor or the Council of the order provided for in subsection (e) of this Section 146, whenever the Board of Harbor Commissioners shall find and determine that the public interest and necessity require the exercise of that power.

Subd. (2). All notes or other evidences of indebtedness issued under the authority of this subsection (r) shall contain upon their face a recital that they are so issued and shall be payable in not to exceed five years from their date.

Subd. (3). No amount shall be borrowed under the authority of this subsection (r) which when added to the amount of all other notes or other evidences of indebtedness issued under this subsection and then outstanding shall exceed 50% of the gross revenues from the operation and conduct of the Harbor Department during the preceding fiscal year.

Subd. (4). All of the provisions of this Section 146 not inconsistent with the terms of this subsection (r), and not by their terms made inapplicable thereto, shall apply to all notes or other evidences, issued under the authority of this subsection (r).

Subsec. (s). Miscellaneous provisions.

Subd. (1). Unless otherwise clearly indicated by the context, all of the provisions of this Section 146 shall be understood as relating only to bonds issued under this Section 146.

Subd. (2). This Section 146 is complete authority for the issuance of bonds thereunder, and no action or proceeding not required by this section shall be necessary for the valid authorization and issuance of such bonds.

Subd. (3). The validity of bonds reciting that they have been issued pursuant to this Section 146 shall not be affected by any provision or limitation contained in any other section or sections of this charter.

Charter Amendment No. 5

Repeal

Section 97.1 is hereby repealed, and Section 97 is amended to read as follows:

Prior submission to city planning commission

Sec. 97. (1) No ordinance, order or resolution shall be adopted by the council authorizing, ordering or involving any of the following enumerated matters, unless and until such ordinance, order or resolution shall have first been submitted to the City Planning Commission for report and recommendation concerning the relation of the matter involved to and its effect upon any portion of the master plan of the City or any plans being prepared by said department:

(a) The acquisition, establishing, opening, widening, narrowing, straightening, abandoning or vacating of any public street, road, highway, alley, square, park, playground, airport, public building site, or other public way, ground or open space;

(b) The location, appearance, and width of any bridge, viaduct, subway, tunnel or elevated roadway for the use of pedestrian or vehicular traffic, or the location and appearance of any public building.

It shall be the duty of the City Planning Commission within fifty (50) days from the receipt of any such proposed ordinance, order or resolution, to make and file its report and recommendation thereon with the Council, and should said Commission recommend against the approval thereof, the Council may adopt same only upon a two-thirds vote of the whole of said Council. Should the City Planning Commission

recommend approval or fail to make any recommendation within the time mentioned herein, said Council may adopt such ordinance, order or resolution by a majority vote of the whole Council. The City Planning Commission may authorize the Director of Planning to report upon and approve for it those proposed ordinances, orders or resolutions which he finds conform with the latest approved applicable portion of the master plan within the time and with the same effect as if the Commission were to act directly thereon.

(2) No ordinance, order or resolution shall be adopted by the Council involving (i) the creation or change of any zones or districts for the purpose of regulating the use of land, density of population, the height, bulk, location or use of buildings or structures therein, or the size of yards, open spaces or setbacks adjacent to buildings or structures, or (ii) the establishment, change or repeal of regulations applying within any of said zones, districts, yards, open spaces, or setbacks, unless and until it shall have first been submitted to the City Planning Commission for report and recommendation concerning the following:

(a) Its relation to and effect upon any portion of the master plan of the City or any plans being prepared by the Department of City Planning, and

(b) Whether its adoption will be in conformity with public necessity, convenience, general welfare and good zoning practice.

Proceedings for the creation or change of any of said zones or districts or the establishment, change or repeal of any regulations applying therein, may be initiated by the filing of an application with the City Planning Commission as provided for by ordinance, or by the Council or the City Planning Commission.

When a proceeding involving any of the matters mentioned in paragraph (2) hereof is initiated by the Council, it shall be the duty of the City Planning Commission to make and file its report and recommendations thereon with the Council within fifty (50) days of receiving same or within such additional time as the Council may specify. Should the Commission recommend approval of the matter involved, in whole or in part, or fail to make any recommendations within the time limit specified herein, an ordinance, order or resolution in conformity therewith shall be prepared and presented to the Council, which may adopt same by majority vote of the whole Council. Should the Commission recommend against the approval thereof, the Council may adopt an ordinance, order or resolution effectuating same only upon a two-thirds vote of the whole of the Council.

When an application involving any of the proceedings mentioned in paragraph (2) hereof is filed with the City Planning Commission, it shall be the duty of the Commission to act thereon within fifty (50) days of the date of such filing. This period may be extended for an additional period of not to

exceed twenty-one (21) days by mutual consent of the applicant and the Commission. The Council may, by ordinance, prescribe time limits, conditions and procedures under which the Commission may withhold action on any application for change of zone beyond the periods hereinabove specified when the application pertains to land located within an area in which the Commission is conducting a general survey or study. Should the Commission recommend approval of the matter involved, in whole or in part, or fail to make any recommendations within the above specified period, an ordinance, order or resolution in conformity therewith shall be prepared and presented to the Council which may adopt same by majority vote of the whole Council. Should the Commission recommend against the approval thereof, in whole or in part, its action thereon shall be final except that an appeal may be taken to the Council within the time and in the manner prescribed by ordinance. The Council shall review the action of the Commission and may adopt an ordinance, order or resolution effectuating same only upon a two-thirds vote of the whole of the Council.

(3) In complying with the provisions of this section, the City Planning Commission shall hold such hearing or hearings as it may determine, or as may be required by ordinance, or may direct an examiner to conduct such hearings for it. The Director of Planning shall make such investigations relative to all matters mentioned in this section as the City Planning Commission may direct and shall file his reports thereon with the Commission.

Charter Amendment No. 6

Subsection (c) of Section 109 of the Charter of the City of Los Angeles is amended to read as follows:

Probationary period for candidates

WHEREAS, On the twenty-first day of July, 1868, the Congress adopted and transmitted to the Department of State of the United States, a concurrent resolution declaring that the requisite number of three-fourths of the States of the Union had ratified the said Fourteenth Amendment to the Constitution of the United States and that the said Fourteenth Amendment was thereby declared to be a part of the Constitution of the United States; and

WHEREAS, The Legislature of the State of California has not heretofore ratified said amendment; and

WHEREAS, The said Fourteenth Amendment has long been a vital part of the Constitution of the United States and should be ratified by the State of California to show the concurrence of this great State with the principles therein enunciated; and

CHAPTER 159

Assembly Joint Resolution No. 16—Relative to the Auburn Dam on the American River.

[Filed with Secretary of State, May 12, 1959.]

WHEREAS, There is presently pending before the Congress of the United States legislation introduced by Senators Clair Engle and Thomas H. Kuchel and by Congressmen Harold T. Johnson and John E. Moss Jr. to authorize the multiple-purpose Auburn Dam on the American River above Folsom Lake for construction by the United States Bureau of Reclamation, as a part of the Central Valley Project; and

WHEREAS, The multiple-purpose project of the Auburn Dam will furnish additional water which can be used in the American River watershed, the Sacramento-San Joaquin Delta region, the San Joaquin Valley, and areas to the south; and

WHEREAS, The project will produce additional electric power which can be employed to pump water to areas of deficiency in the statewide water program; and

WHEREAS, The proposed Auburn Dam is a part of the California Water Plan and the project as outlined in the legislation would complement the State's efforts to meet the water requirements of California's rapidly expanding population; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to approve, as soon as possible, the legislation now pending to authorize the Auburn Dam; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to W. A. Dexheimer, Commissioner of Reclamation, to Harvey O. Banks, Director of the Department of Water Resources of the State of California, and to B. W. Cassidy, Chairman of the Auburn Dam Project Committee.

CHAPTER 160

Senate Joint Resolution No. 14—Relative to federal highway legislation.

[Filed with Secretary of State, May 13, 1959.]

WHEREAS, The California Legislature has previously urged the enactment of federal highway legislation substantially as set forth in the Federal-Aid Highway Act of 1956 except for

the provision limiting the apportionments for each fiscal year for the National System of Interstate and Defense Highways to the amounts available in the Highway Trust Fund as provided in Section 209(g) of the act approved June 29, 1956; and

WHEREAS, It now appears that in the absence of federal legislation during the current session, due to said provision, there will be no funds available for apportionment for expenditure upon the National System of Interstate and Defense Highways during the fiscal year commencing July 1, 1960, and ending June 30, 1961, and only a very small amount would be available for the National System of Interstate and Defense Highways during the succeeding fiscal year; and

WHEREAS, As a part of its long-range planning the Division of Highways of the Department of Public Works of the State of California has designed and prepared plans and specifications for a toll bridge spanning Carquinez Strait, and approaches, connecting the Cities of Martinez and Benicia, certain of the approaches being included in said National System of Interstate and Defense Highways; and

WHEREAS, The California Toll Bridge Authority has authorized the issuance of, and is in a position to offer for sale, revenue bonds in an amount sufficient to finance the construction of said bridge and certain minimum approaches, no portion of the cost of which is to be paid by the Federal Government; and

WHEREAS, In order to gain the fullest and most effective use of said bridge it is essential that the approaches constituting a part of said National System of Interstate and Defense Highways and which will be financed by state and federal highway funds, and not from bond proceeds, be constructed concurrently with the construction of said bridge; and

WHEREAS, This project is an outstanding example of the manner in which the orderly prosecution of work already planned will be disrupted by a failure to provide for the continuance of progress on the National System of Interstate and Defense Highways; and

WHEREAS, The completion of said bridge and all approaches thereto is a matter of vital concern to the people of the State of California; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Congress is urged to provide for the continuance of the federal-aid highway program as set forth in the Federal-Aid Highway Act of 1956 with the exception of the provision contained in Section 209(g) thereof, including the approval of the cost estimates submitted to the Congress by the Bureau of Public Roads of the Department of Commerce as a basis for the apportionment for the fiscal year ending June 30, 1962, to the end that the Benicia-Martinez Bridge project, as well as all other projects now ready for construction, will not be delayed and the orderly prosecution of planning and construction of the National System of Inter-

state and Defense Highways will not be disrupted; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the President and Vice President of the United States, the chairmen of the appropriate committees of the Congress, and to each Senator and Representative from the State of California in the Congress of the United States.

CHAPTER 161

Senate Joint Resolution No. 17—Relative to legislation concerning wilderness areas.

[Filed with Secretary of State, May 13, 1959]

WHEREAS, It has come to the attention of the Legislature that there is pending before the Congress of the United States legislation whereby the Congress would give sanction to the designation as wilderness of millions of acres of federally owned and controlled public lands; and

WHEREAS, It appears that such legislation could conservatively encompass at least 17,400,000 acres of such land in the State of California, constituting 17 percent of the total area of the State, in the designation of which the State Government would have no say whatsoever; and

WHEREAS, The continued growth and prosperity of the State of California and the other western states depend on the development of federal lands within the states on a multiple-use basis; and

WHEREAS, Such legislation could impair present and future payments to the State of California and the other western states in lieu of taxes on federal land, now amounting, in the case of the State of California, to the sum of $8,865,673; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to withhold all legislative action sanctioning the designation of additional wilderness of vast areas of federal lands until the National Outdoor Recreation Resources Review Commission can present its recommendations on an orderly procedure for future beneficial use of all national recreation lands, including wilderness areas; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to the United States Secretary of the Interior, and to the United States Secretary of Agriculture.

CHAPTER 162

Senate Joint Resolution No. 6—Relative to more than two terms for the President of the United States.

[Filed with Secretary of State, May 13, 1959.]

WHEREAS, The Twenty-second Amendment to the Constitution of the United States now prohibits a person from being elected more than twice to the Office of President of the United States, or from being elected more than once if he has served for more than two years of a term to which some other person was elected President; and

WHEREAS, The holder of an elective public office is deprived of much, if not most, of his political effectiveness, when it is definitely known that he will not be a candidate for re-election; and

WHEREAS, Consequently, the Twenty-second Amendment to the Constitution of the United States materially and substantially reduces the political effectiveness and national leadership of the President of the United States during his second term in office; and

WHEREAS, The undesirability of this mandatory restriction on the tenure in office of the President of the United States has been publicly recognized by the present incumbent of that office, Dwight D. Eisenhower, who is the first President to be so restricted in his tenure of office, and

WHEREAS, The two-term tradition started by our illustrious first President, George Washington, was followed in practice for over 140 years and provided an effective discretionary safeguard against a President holding office for too long a time; and

WHEREAS, It should therefore be left to the electorate in their political wisdom to decide whether or not in a particular instance the two-term tradition should be followed and the President of the United States should be free to seek re-election to more than two terms, if he so desires; now, therefore, be it

Add Subsections (3¼), (4½), (4¾) and (5¼) to Section 33 of the Charter to read as follows:

Retirement System

Sec. 33 (3¼). Notwithstanding the provisions of Subsection (3) of Section 33 to the contrary, the provisions of this subsection shall apply to the Retirement System. The Retirement System also shall provide for retirement for disability after ten years of service credited under the System, and before age 60, and for death benefits for members of the System. The City Council also shall provide that a member retiring may elect before the first payment of his retirement allowance is made, and that a member may elect at any time before retirement, but only after qualification for service retirement, as provided in Subsection (5¼) of this section, to receive the actuarial equivalent of the portion or all of his allowance, as the case may be, which would not be continued automatically regardless of dependents then living, in a lesser allowance to be received by him throughout his life and in other benefits payable after his death to another person, including an allowance throughout the life of such person. The amounts payable under options two (2) or three (3) as stated in Ordinance No. 713 C. M. S., which were elected prior to the effective date of Subsection (4½) of this section, by a person who is living on that date, shall be adjusted to amounts calculated as if the provisions of that subsection had been in effect at the date of his retirement, but no adjustment shall be made because of payments made prior to such effective date.

This Subsection shall become effective on July 1, 1959, or the first day of the month next following approval by the Legislature, whichever is later.

CONTINUATION OF RETIREMENT ALLOWANCES AFTER DEATH.

Survivor's allowance

Sec. 33 (4½). Upon the death of a person after his retirement, including persons receiving allowances on the effective date of this subsection, one-half of his retirement allowance as it was at death, before modification under an option, shall be continued throughout life or until remarriage, to his surviving spouse. If there be no surviving spouse entitled to an allowance hereunder, or if the surviving spouse so entitled die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which a surviving spouse would have received, or which the surviving spouse would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving spouse and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving spouse otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving spouse, unless she was married to the member at least one year prior to retirement. Contributions necessary for the payment of the continuance of one-half of allowances of persons who are receiving allowances on the effective date of this subsection, shall be provided from the reserves held by the Retirement System on account of active members, the necessary amount being transferred upon said effective date from said reserves to the reserves held by the Retirement System to meet obligations on account of benefits that have been granted.

This Subsection shall become effective on July 1, 1959, or the first day of the month next following approval by the Legislature, whichever is later.

ALLOWANCE UPON DEATH AFTER QUALIFICATION FOR BUT BEFORE SERVICE RETIREMENT.

Survivor's allowances

Sec. 33 (4¾). Upon the death before retirement of a member who is qualified for service retirement under Subsection (3) of this section by attainment of the age of at least fifty-two (52) years with credit for twenty (20) or more years of service, or at least sixty (60) years with credit for ten (10) or more years of service, and on account of whose death the benefit provided for in accordance with such subsection, is otherwise payable, a monthly allowance equal to one-half of the monthly retirement allowance prior to modification under options provided for in accordance with such subsection, which the member would have been entitled to receive if he had retired for service on the date of his death, shall be payable:

(a) To the member's widow, or to the member's widower who was receiving at least one-half of his support from the member at the time of the member's death, and with respect to both widow and widower, who was married to such member prior to the occurrence of the injury or onset of the illness which resulted in death; or

(b) If there is no qualifying surviving spouse, or if such spouse dies or remarries, to unmarried children, including stepchildren, of the member, who are under 18 years of age.

The allowance payable under this subsection shall be in lieu of the death benefit provided for in accordance with Subsection (3), except for the accumulated additional contributions included therein, but a person qualifying for the allowance or such person's guardian may elect, before the first payment on account of it, to receive such death benefit in lieu of the allowance. The member's accumulated additional contributions shall be paid to the person qualifying for the allowance, and the remainder of the accumulated contributions of the member shall be applied toward providing the allowance, and the balance not so provided shall be payable from contributions of the City.

The allowance shall begin to accrue on the day next following the date of death of the member, and payments to the surviving spouse shall continue only until death or remarriage, and to or on account of children with respect to each child, until the attainment of age 18, death or prior marriage. If payment of the allowance provided by this subsection is stopped because of remarriage of the surviving spouse, or the attainment of the age of 18 years by, or the death or marriage of, a child, before the sum of the monthly payments made equals the death benefit provided for in accordance with Subsection (3), exclusive of accumulated additional contributions, a lump sum equal to the difference shall be paid to the remarried spouse, or if there is no such spouse, to the surviving children of the member, share and share alike.

This Subsection shall become effective on July 1, 1959, or the first day of the month next following approval by the Legislature, whichever is later.

Irrevocable Option Election after Qualification for but before Service Retirement

Irrevocable option

Sec. 33 (5¼). Any member who has qualified for service retirement under Subsection (3) of this section by attainment of the age of at least fifty-two (52) years, with credit for twenty (20) or more years of City service, or at least sixty (60) years, with credit for ten (10) or more years of City service, may elect as provided in Subsection (3¼) and without right of revocation or change after approval of the election by the Retirement Board, to receive the actuarial equivalent as of the date of his retirement, of the retirement allowance payable to him when and if he retires for service or disability, in

a reduced retirement allowance according to the provisions of either Option 2 or Option 3, as stated in Ordinance No. 713 C.M.S. If such a member at the time of making the election has a living spouse who would qualify for an allowance under Subsection (4¾) of this section, the election under this subsection shall be invalid and of no effect unless and until the consent of such spouse to it is filed at the office of the Retirement System.

Upon such member's death at least thirty (30) days after the date upon which the election is received in the office of the Retirement System, and prior to the effective date of his retirement, the person who was nominated by him under the option he elected and who survives him, shall receive an allowance calculated under such option, upon the assumption that such member retired for service on the date of his death and died immediately thereafter. The payment of such allowance to such person shall be in lieu of both the death benefit provided for in accordance with Subsection (3¼), and the allowance provided by Subsection (4¾), and no such death benefit or such allowance shall be paid on account of such death to any person or beneficiary, regardless of whether the person nominated under the option elected survives the member.

If such member subsequently retires for service or disability, he shall receive, regardless of whether the person nominated by him under the option elected is then living, a reduced allowance according to the provisions of Subsection (3) and the option elected. The amount of the allowance prior to optional modification shall be calculated on the basis of the member's age at death before retirement, or at retirement, as the case may be, but the reduction of such allowance under the option elected shall be based on the ages of such member and the person nominated by him under such option at the effective date of such election.

This Subsection shall become effective on July 1, 1959, or the first day of the month next following approval by the Legislature, whichever is later.

Amend paragraph (a) of Subsection (4) of Section 33 of the Charter to read as follows:

Sec. 33 (4) (a). The normal rate of contribution of each member as determined by the actuary and approved by the Board and to be effective on the effective date hereof shall be based on his nearest age at the effective date of his membership in the Retirement System, and if effective from the effective date of his membership, shall be such as, on the average for such member, will provide, assuming service without interruption from said effective date until retirement, one-half of the portion of the service retirement allowance which is based on such service, and to which he would be entitled if retired at age 60, but not including automatic continuance to dependents. The actual amount of annuity including such continuance, however, provided for a member upon retirement, shall be the actuarial equivalent of his accumulated contributions. The nor- Normal rate of contribution

mal rate established for age 59 shall be the rate for any member who has attained a greater age before entrance into the System, and that established for age twenty shall be the rate for any member who enters the System at a lesser age. Members' normal rates of contributions shall be changed by the Board on the basis of the periodical actuarial valuation and investigation provided by the Charter. No adjustment shall be included in members' normal rates because of time during which they have contributed at different rates.

This amendment shall become effective on July 1, 1959, or the first day of the month next following approval by the Legislature, whichever is later.

Add Section 91e to the Charter to read as follows:

Applicability Police Department

Sec. 91e. Notwithstanding any other provision of this Charter to the contrary, the provisions of this section shall apply to the Police Department. The position of Captain of Inspectors shall hereafter be filled by such officer of the Police Department having the rank of Captain of Police as the Chief of Police shall from time to time designate and assign thereto, and while so assigned he shall receive the salary attached to the rank of Captain of Police.

Any pension payment payable under this Charter by virtue of retirement of a Captain of Inspectors prior to the effective date of this section shall be increased or decreased by a sum determined by applying the percentage of compensation by which such payment is computed to the increase or decrease of the salary attached to the rank and position of Captain of Police.

Add Section 6½ to the Charter to read as follows:

ARGUMENTS CONCERNING CITY MEASURES.

Arguments concerning city measures

Sec. 6½. The provisions of the California Elections Code authorizing arguments for and against any county measure to be printed and submitted to the qualified electors shall apply to any proposed City Charter or proposed Charter amendment, or any other question or proposition submitted to the voters of the City at any general or special City election, except as otherwise specifically provided in this Charter or by the law governing such City measure. Provisions in said Elections Code referred to "county" shall apply to "city", referring to "board of supervisors" shall apply to "city council" and referring to "county clerk" shall apply to "city clerk".

And we further certify that we have compared the foregoing proposed and ratified amendments to the Charter of the City of Oakland with the original proposals submitting the same to the electors of said City, and find that the foregoing is a full, true and correct and exact copy thereof.

IN WITNESS WHEREOF, we have hereunto set our hands and caused the seal of the said City of Oakland to be affixed hereto this twenty-ninth day of April, 1959.

CHAPTER 174

Assembly Concurrent Resolution No. 113—Relative to the appointment of a music committee.

[Filed with Secretary of State, May 20, 1959.]

WHEREAS, Music has long been recognized as a universal language and a basic human need; and

WHEREAS, Creative efforts must find expression and competition in order to maintain incentive and achieve success; and

WHEREAS, There is substantial agreement that there is too little new melodious music of merit being performed for general listening; and

WHEREAS, Music has been recognized by law enforcement officials as a positive influence for good or bad; and

WHEREAS, Population, important industry, business and major baseball have moved westward, there is not a major publishing house on the Pacific Coast. This places western composers at a decided disadvantage; and

WHEREAS, The California Legislature is concerned with expanding economy, it, therefore, recognizes the economic importance of an expanded music business on the West Coast; and

WHEREAS, Propaganda is widespread that successful music must emanate from the East, and reports are numerous of eastern publishers who will not consider music by new composers, stating that they have their own composers; and

WHEREAS, Millions are spent for excellent public and private music instruction, that which reaches the public shows too little quality for the money and effort expended, in the opinion of many; and

WHEREAS, Many of the creative musical great throughout the ages have gained world renown, and their works became immortal because of the support and encouragement of their respective governments; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Governor of the State of California is hereby requested to appoint a committee of fifteen (15) charged with the duty of seeking the co-operation of radio, television, press, music publishers, music retailers, record companies, private and public music teachers and music associations for the purposes specified in the "whereas" clauses of this resolution, and to designate said committee as the Committee to Encourage Selection, Performance and Publication of Music of Merit by Western Composers; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit a copy of this resolution to the Governor.

CHAPTER 175

Senate Concurrent Resolution No. 65—Relative to the long-suffering of the American people at the hands of press agents promoting special weeks.

[Filed with Secretary of State, May 20, 1959.]

WHEREAS, Fifty years ago the raisin was a quiet, unobtrusive delicacy whose nutritional qualities were known but to few; and

WHEREAS, In the year 1909 there was conceived in the mind of man a device known as the special food week, which was looked upon as a vehicle of great potential for promoting the sale of special products; and

WHEREAS, In that year of 1909 the first special week was born and christened Raisin Week; and

WHEREAS, Since then there has been an endless variety of special weeks until today there are more weeks than there are weeks in a year, including Save the Pun Week, Return the Borrowed Books Week, Let's Go Fishing Week, and International Pizza Week; and

WHEREAS, The millions of words of imperishable prose which have been written by thousands of press agents extolling those worthy causes have been a source of great and nearly unbearable suffering to the American public; and

WHEREAS, The tender, delicious, economical and nutritious raisin is the cause of it all; and

WHEREAS, May 3d through May 9th will mark the golden anniversary of Raisin Week; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature of the State of California does hereby acknowledge that although raisins are known the world over to be a food of most excellent taste and unsurpassed nutritional quality, it is devoutly to be hoped that the passing of time will see a decline in the number of special weeks and an increase in the worldwide consumption of California raisins; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit suitably prepared copies of this resolution to the California Raisin Advisory Board.

CHAPTER 176

Assembly Concurrent Resolution No. 98—Relative to the planting of salmon in the Salinas River.

WHEREAS, The salmon resources of this State are greatly in need of protection and enhancement and action should be taken to investigate every opportunity to add to the potential inland waters available to these fish; and

WHEREAS, The establishment of new areas for salmon and salmon spawning will benefit both sport and commercial fishermen who are presently greatly disturbed over the increased areas made unavailable to spawning salmon; and

WHEREAS, Many streams which previously were unsuitable for such anadromous fish because of undesirous water conditions, particulary late in the summer, through upstream water development now are ideal habitat for such fish; and

WHEREAS, The Salinas River would now seem to be an ideal stream for salmon which could be developed into a real contributor to this vital fishery resource; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Department of Fish and Game is hereby directed to make a survey of the Salinas River

to determine if it may feasibly be planted with salmon in order to establish it as a salmon river; and be it further

CHAPTER 177

Assembly Joint Resolution No. 1—Relative to military closures.

[Filed with Secretary of State, May 22, 1959.]

WHEREAS, Federal governmental closing of an ever increasing area of most productive fishing waters for security reasons and for training and practice areas for the Armed Forces is creating a serious problem as to the use of California fishing waters; and

WHEREAS, Often the reasons for such closures are not apparent and fishermen, who otherwise respect the necessity of activities for national defense, believe such closures to be an unnecessary infringement on their activities; and

WHEREAS, While some notice is given to closures in the Coast Guard's Notice to Mariners, many people are unaware of the exact hours or areas closed and misunderstandings as to the need for such closures and their exact extent often cause unnecessary problems; and

WHEREAS, Closer co-operation between the military authorities and the fishermen would provide not only better enforcement of the closures and protect the fishermen involved but would afford an opportunity for the military authorities to consider the possible effects that any proposed closures would have on fishing in these areas of California; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Congress of the United States and the Secretary of Defense are requested to take all steps necessary to insure that prior to the closing of any area to fishermen by the military authorities, that a public hearing be held in the area affected, except when such closing is a matter of extreme urgency, and that all such closures be limited to those areas and times when such closing is vital to our national defense with the reasons for such closing being made public whenever compatible with security restrictions; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Secretary of Defense, and to each Senator and Representative from California in the Congress of the United States, and to the Interstate Co-operation Committee of the California Senate.

CHAPTER 178

Assembly Joint Resolution No. 34—Relative to the Long Range Program for the National Forests.

[Filed with Secretary of State, May 22, 1959.]

WHEREAS, Hearings will be held before the Committee on Agriculture of the House of Representatives on May 14th and 15th, 1959 relative to the adoption of legislation relative to the establishment of a "Long Range Program for the National Forests"; and

WHEREAS, One-fifth of the area of the State of California is within National Forests; and

WHEREAS, The bulk of California's water producing areas is located within National Forests; and

WHEREAS, One-half of the timber producing areas in California is located within National Forests; and

WHEREAS, A large proportion of the hunting or fishing area open to the general public of California is within National Forests; and

WHEREAS, The bulk of the land available to Californians for outdoor recreational facilities is located within National Forests; and

WHEREAS, The "Long Range Program for the National Forests" would establish a program for the maximum development for utilization of National Forests lands; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to undertake the proposed "Long Range Program for the National Forests"; and be it further

Resolved, That the Legislature of the State of California urges the Government of the United States to redeem its proper responsibility as to the development, protection, reparation, and administration of the public and natural resources including the National Forests; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the President and Vice-President of the United States, to the Speaker of the House of Representatives, to Representative George M. Grant, Chairman of the Subcommittee on Forests of the Committee on Agriculture of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 179

Senate Concurrent Resolution No. 43—Relative to state employee parking facilities.

[Filed with Secretary of State, May 26, 1959.]

WHEREAS, There is a lack of public transportation available to many state employees who live in areas remote from the office or institution at which they work; and

WHEREAS, Public transportation either does not service such state office or institution areas or service is so infrequent as to impose an unreasonable hardship upon such employees; and

WHEREAS, In some areas there is virtually no adequate public transportation available; and

WHEREAS, A number of cities in California have zoning requirements or building codes governing construction of new buildings which require provision for parking space, such as, the City of Los Angeles, which requires that for each 1,000 square feet of floor area in a government building, one parking stall for employees shall be provided, and the many other cities with similar requirements; and

WHEREAS, Although the State Architect does not formally recognize local ordinances, they, nevertheless, in many cases, are considered when new buildings are planned; and

WHEREAS, There appears to be no generally known consistent policy established for state agencies to follow in deciding whether or not and how to provide parking for state employees; and

WHEREAS, Current lack of sufficient advance planning has resulted in mounting parking problems for our state employees; and

WHEREAS, A poll of over 350 business concerns in the Los Angeles and San Francisco areas, representing over 200,000 employees, established that:

(a) Four out of five metropolitan area employers provide employee parking.

(b) Over 80 percent of it is free.

(c) The majority of the few who pay for parking are charged $10 per month, or less.

(d) More than three out of four employers expressed the opinion that parking, either free or at nominal cost, is essential to successful recruiting and maintenance of satisfactory employee-employer relations; and

WHEREAS, It is apparent that some state agencies consider employee parking essential, while others do not sufficiently consider the problem; and

WHEREAS, The use by employees of "ride pools" should be encouraged, now and in the future, yet this often fails to furnish a sufficient answer to the problem; and

WHEREAS, Recruitment and employee morale are adversely affected by lack of adequate, reasonably priced parking; and

WHEREAS, It is urgently desirable for the guidance of all concerned that this Legislature establish a statewide policy applicable to state employee parking; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That it is the policy of the State of California to recognize the problem of state employee parking; that adequate and economical public or private parking facilities should be available, or made available, to our state employees who reasonably require use of private automobiles for transportation to and from their places of employment; that a system of fees shall be established and maintained which is designed to meet as nearly as is feasible to do so the total statewide cost of developing and operating the parking facilities; and be it further

Resolved, That the Department of Finance, the State Architect, and all state agencies are requested to include in future plans for state facilities, provision for state employee private car parking when developing specifications for the construction or hiring of building space for the housing of state agencies.

WHEREAS, The project was given formal authorization in 1949 by a finding of feasibility by the Secretary of the Interior, received its first appropriation in 1949 and first construction appropriation in 1952, and concurrence in authorization was recommended by committees of both houses of the Congress in 1953; and

WHEREAS, Construction was commenced in September, 1953, when ground was broken for the dam by Governor Earl Warren and State Senator Luther E. Gibson, work on the main dam (which has a height of 304 feet, and a length at its crest of 1,000 feet) was completed in 1957 in time to prevent serious flooding in the area downstream, including the City of Winters, and the total project was completed in 1959 at a cost of $37,200,000; and

WHEREAS, The first loan of its kind was extended by the United States to the Solano Irrigation District for construction of the irrigation distribution system in an additional amount of $12,300,000 and the first unit of that system has just been completed; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature does extend its congratulations to the County of Solano, the cities of that county, the Solano Irrigation District, and the people of Solano County on the memorable occasion of the first delivery of water from the Monticello Dam; and be it further

WHEREAS, It has come to the attention of the Legislature, by reason of the pendency in the Supreme Court of California of the case of STATE BOARD OF EDUCATION v. LEVIT, that Section 13370 of the Government Code has been treated as if it were unconstitutional for over 20 years by the State Board of Education, by former Directors of Finance and by former Controllers without any decision to that effect having been sought or rendered in a court of law; and

WHEREAS, Authorities of the State of California and the County of San Diego, as early as 1948, brought to the attention of the International Boundary and Water Commission the critical problem presented by this discharge of sewage and in 1952 the Legislature of the State of California, in Assembly Joint Resolution No. 16 of the 1952 First Extraordinary Session (Res. Ch. 33, Stats. 1952 (1st Ex Sess.)) respectfully urged the Secretary of State of the United States and the United States Section of the International Boundary and Water Commission to expedite a solution of this problem; and

WHEREAS, Split-second disaster could arise in California due to these ever-increasing destructive forces created by man; and

WHEREAS, To provide a system of criminal procedure in the courts during periods of disaster is an immediate need that should be provided for and resolved by the Legislature of the State of California; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Judicial Council is requested to survey the area of legislation which is necessary to provide for a system of criminal procedure in the courts of California during periods of disaster such as would follow an enemy attack; that the Judicial Council is requested to seek the co-operation and recommendations of the state and local bar associations; and that the Judicial Council's report and recommendations as to basic legislation necessary in this field be submitted to the Legislature not later than February 1, 1960, so that legislative action may be taken as early as possible thereafter; and be it further

That the returns of said election were in accordance with the law in such cases made and provided, duly and regularly canvassed and certified to, and it was duly found, determined and declared by the proper officers thereunto duly and properly authorized, that the amendments to the Charter of the City of Berkeley hereinafter set forth were ratified by a majority of the electors of said City voting thereon; that the Council of said City did by its Resolution No. 37, 282-N.S. duly declare the results of said election as determined by the canvass of the returns thereof.

If rejected in part, suit may be brought to recover the whole. Nor shall suit be brought against the City or any officer, board or commission thereof upon any claim or demand which has been approved and audited; provided, that nothing herein shall be construed so as to deprive the holder of any demand of his right to resort to writ of mandamus or other proceeding against the City Council or any officer, board or commission to compel him or it to act upon such claim or demand, or to pay the same when audited.

Section 62. Money to meet warrants or checks.

[Filed with Secretary of State, June 3, 1959.]

WHEREAS, The Chambers Lodge Post Office, an historic landmark on Lake Tahoe, is one of the first in the area and is actually located on the pier where it originally handled the mail directly from the famous lake steamer the Tahoe and had for years been served by mail boats and in turn distributed mail to residents of the area; and

WHEREAS, Chambers Lodge is also the commercial seaplane base for airplanes servicing the Lake Tahoe area from San Francisco and the East Bay area; and

WHEREAS, The opening of a new subdivision of over 1,000 new homesites adjacent to Chambers Lodge makes the availability of Chambers Lodge Post Office essential; now, therefore, be it

CHAPTER 190

Senate Joint Resolution No. 26—Relative to the Army Language School at Monterey.

[Filed with Secretary of State, June 3, 1959]

WHEREAS, The startling fact exists that the United States, in trying to win friends all over the globe, is unable to communicate with three-fourths of the world's population in their native tongue, due to a deplorable lack of preparation in foreign languages; and

WHEREAS, The Russians teach foreign languages in grade schools and require all high schools to take a foreign language course, as contrasted with the fact that less than 15 percent of our eight million high school students in this Country are currently studying foreign languages; and

WHEREAS, One of the world's outstanding and our government's largest school for the teaching of foreign languages has since the early days of World War II been conducted by the United States Army at the Presidio of Monterey, California, where 28 languages are taught by native instructors to members of the Armed Forces; and

WHEREAS, The Air Force, which trains a great many men at this school in the Russian language, has announced its decision to withdraw from the Army Language School as of July 1st, and to send its officers and men elsewhere; and

WHEREAS, The needless duplication of effort and additional expense caused by this decision to withdraw Air Force students will cause a serious disruption of the proficiency of the excellent Army Language School; and

WHEREAS, The time has come to make greater, not less, use of the Army Language School at Monterey by all branches of the government concerned with sending personnel on overseas missions; and

WHEREAS, The Army Language School is fully equipped to accommodate twice the number of students now being trained; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to

A. Urge the Air Force of the United States to reverse its decision with respect to the training of students at the Army Language School in Monterey, and

B. Immediately study the need for unification of the government language teaching program for all branches of the Government and the desirability of concentrating said program at the Army Language School at the Presidio of Monterey; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit suitably prepared copies of this resolution to the President and Vice President of the United States, the Secretary of State, the Secretary of Defense, and the Secretaries of the Army, Navy, and the Air Force.

CHAPTER 192

Assembly Concurrent Resolution No. 108—Relative to merit awards to state employees.

[Filed with Secretary of State, June 5, 1959]

WHEREAS, Section 13926 of the Government Code provides awards may be made to state employees in excess of one hundred fifty dollars ($150) when such awards are approved by concurrent resolution of the Legislature; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Maynard L. Young, Division of Highways, for a suggestion that results in annual savings of two thousand two hundred fifty dollars ($2,250) by recommending the use of standard quantity table sheets for determining pay quantities of drainage structures being constructed by the Division of Highways; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to May Lee, Department of Finance, for a suggestion that effects annual savings of four thousand six hundred seventy-eight dollars ($4,678) by using, in legal advertising, a two-line minimum advertisement to obtain a lower rate. This applies to newspapers which do not have such legal rates. By the insertion of this two-line minimum advertisement on those days on which the full legal advertisement does not appear a lower consecutive rate is secured which is less than would be charged, at the one-time rate, for the three consecutive weekly legal notices required by law; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Violet Bergman, Franchise Tax Board, for a suggestion that results in net annual savings of eleven thousand five hundred sixty-six dollars ($11,566) for recommending the use of interest computation charts to be used in computing interest on delinquent income tax returns and on jeopardy assessments rather than leaving the interest to be figured by the taxpayers; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Frank F. Meisenbach and Ralph J. Doyle, San Francisco Port Authority, for a suggestion which resulted in net annual savings of six thousand seven hundred forty dollars ($6,740) for developing a method that enables the closing chains on clamshell-type dredge buckets to be replaced with less expensive steel cables. In addition they replaced a crossbar, a complicated steel casting costing two hundred forty dollars ($240) each, with a simple triangular piece of steel thus reducing by one-half the load carried on the wire cables. The revised procedure adds a safety feature to this operation as it enables the changing of the closing chains to be made on the deck of a scow instead of 12 or 15 feet off the deck of a moving scow; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Lester C. Stephens, Department of Mental Hygiene, for the design and use of a laundry sorting bin which effected total savings of two thousand nine hundred eighty-eight dollars ($2,988) which is equivalent to the salary of one laundry assistant; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Lionel A. Blanchard, Department of Motor Vehicles, for a suggestion that effects annual savings of four thousand five hundred ninety-nine dollars ($4,599) for recommending that all vehicle registration cards and plates surrendered in compliance with Order of Security Requirements or Suspension be transferred to Unit 17 from the Financial Responsibility Section; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Stanley E. Bruns, Department of Motor Vehicles, for a suggestion that results in annual savings of six thousand seven hundred eighteen dollars ($6,718) by developing recordings to give oral drivers license tests. This has been placed in 40 different offices and enables drivers examiners to handle a greater workload and is particularly effective in handling non-English-reading applicants for drivers licenses; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Earl R. Lapham, Department of Mental Hygiene, for a suggestion that results in annual savings of two thousand five hundred dollars ($2,500) by designing a shirt that withstands considerable rough treatment by destructive mental patients; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Glen A. Wallis, Division of Highways, for a suggestion resulting in annual savings of five thousand nine hundred twenty dollars ($5,920) for developing a method of computing construction material quantities through the use of electronic computers; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Stuart C. Dodge, Department of Motor Vehicles, that results in annual savings of four thousand two hundred eighty-two dollars ($4,282) for a revised method of handling single claims involving motor vehicle accidents; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Louis W. Jenks, Department of Education, for an improvement in the steam pressure heating system used at the School for the Deaf and Blind in Berkeley effecting substantial fuel economies amounting to two thousand forty-three dollars ($2,043) annually; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Gladys Burrows and Walter Lillard, Board of Equalization, for a suggestion resulting in annual savings of six thousand thirty dollars ($6,030) through the use of special window envelopes to visually present a precoded number to enable rapid classification and sorting of

sales tax returns without removing them from the envelope; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Andrew B. Schoellkopf, Division of Highways, for a suggestion that has resulted in net added interest earnings of one hundred forty thousand one hundred seventy-six dollars annually ($140,176) to the Condemnation Deposit Fund by recommending that the necessary legislation be introduced to permit the setting up of such a deposit fund in the State Treasury rather than placing the amounts on deposit with the courts, which method resulted in new interest earnings accruing to the State; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to George Tsumura, Franchise Tax Board, for a suggestion that results in annual savings of two thousand six hundred sixty-six dollars ($2,666) by recommending that lower paid clerical personnel prepare tax forms used in auditing income tax returns, rather than having them prepared by auditors at higher salary rates; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Murrie J. Gray, Department of Motor Vehicles, for a suggestion that results in annual savings of ten thousand two hundred forty-one dollars ($10,241) by proposing a revised procedure which eliminates proof reading and checking of drivers licenses by the reproduction section and resulted in the elimination of two clerical positions formerly assigned to this activity; and

WHEREAS, The suggestions of these employees has resulted in recurring savings and increased interest earnings amounting to two hundred thirteen thousand three hundred ninety-seven dollars ($213,397) annually; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the following additional awards are hereby authorized subject to the approval of the State Board of Control to the employees named:

CERTIFICATE OF RATIFICATION BY ELECTORS
OF THE CITY OF NAPA
OF A CERTAIN CHARTER AMENDMENT

STATE OF CALIFORNIA
COUNTY OF NAPA } ss
CITY OF NAPA

We, the undersigned, Joe Greco, Mayor of the City of Napa, and Allen R. Thorpe, City Clerk of the City of Napa, do hereby certify and declare as follows:

That the City of Napa, County of Napa, State of California, is a city containing a population of more than three thousand five hundred (3,500) and less than fifty thousand (50,000) inhabitants as ascertained by the last preceding census taken under the authority of the Congress of the United States, and ever since the year 1915 has been and is now organized, existing and acting under a freeholders charter adopted under and by virtue of Section 8 of Article XI, of the Constitution of the State of California, which charter was duly ratified by the qualified electors of said city at a special election held for that purpose on the sixteenth day of December, 1914, and approved by the Legislature of the State of California by concurrent resolution filed with the Secretary of State on the twenty-eighth day of January, 1915 (Statutes of 1915, page 1591).

That in accordance with the provisions of Section 8 of Article XI of the Constitution of the State of California, the City Council of the City of Napa, being the legislative body of said city, on its own motion, by its Resolution No. 1502, adopted on March 16, 1959, duly and regularly proposed and submitted to the qualified electors of said City a certain proposal for the amendment of the Charter of said City, to be voted on by said qualified electors at a special municipal char-

ter amendment election, consolidated by said Resolution No. 1502 with the general municipal election held in said City on May 4, 1959.

That said proposed amendment was published and advertised for the time and in the manner prescribed in Section 8 of Article XI of the Constitution of the State of California, viz., on the twentieth day of March, 1959, in THE NAPA REGISTER, the official newspaper of said City of Napa, a newspaper of general circulation printed and published in said City of Napa, and in each edition thereof during said day of publication.

That said general municipal election and said special municipal charter amendment election consolidated therewith were duly called, held and conducted in the time, form and manner required by the Charter of said City and by law on said fourth day of May, 1959, which day was not less than forty (40) and not more than sixty (60) days after the completion of said publication and advertisement of said proposed amendment in said THE NAPA REGISTER.

That a majority of the qualified voters voting on said amendment voted in favor of the ratification of and did ratify said proposed amendment to said charter.

That the City Council of said City of Napa on May 12, 1959, officially canvassed all ballots cast at said general municipal election and said special municipal charter amendment election consolidated therewith as aforesaid, and did, by resolution, duly find and declare that a majority of the qualified voters voting on said charter amendment, voted in favor thereof and that said charter amendment was ratified.

That said charter amendment so ratified by the majority of the qualified voters of said city voting at said special municipal charter amendment election was to amend Section 95 of the charter of the City of Napa in the words and figures following, to wit:

"Section 95. The tax levy authorized by the city council to meet the municipal expenses for each fiscal year shall not exceed, except as in this charter otherwise provided, the maximum rate of $1.50 on each $100 of the assessed value of real and personal property within the city and the city council in making said levy shall apportion (a) not less than ten cents to the library fund, unless the estimate of the board of library trustees calls for a less amount, and (b) not less than four cents to the recreation fund to be used and applied to the cost and expense of maintaining and operating public parks, playgrounds and recreational facilities of the city; provided, however, that in the event any bonded indebtedness of the city is authorized at a special bond election on May 4, 1959 and thereafter incurred in whole or in part, then so long as any bonds so authorized shall be outstanding said maximum rate of $1.50 shall be reduced for each fiscal year in which any tax is levied pursuant to this charter for payment of the principal of and interest on such outstanding bonds, by an amount equal to the rate of bond tax so levied, and in any such fiscal year the

Tax levy

amount of money which would have been raised by the tax levy pursuant to this section had said maximum rate of $1.50 not been so reduced shall be provided by the city from any other source of available moneys; provided, further, that no reduction in the maximum tax rate pursuant to the foregoing proviso shall be deemed to be a limitation on the right and obligation of the city to levy taxes without limitation of rate or amount (except for any intangible personal property which is taxable at limited rates) for the payment of the principal of and interest on all bonded indebtedness of the city at any time outstanding."

And we and each of us further certify that we have compared the foregoing proposed and ratified amendment to the charter of the City of Napa with the original proposal submitting the same to the electors of said City and find that the foregoing is a full, true and correct copy of said amendment.

IN WITNESS WHEREOF, We have hereunto set our hands and caused the seal of the City of Napa to be affixed hereto this twenty-fifth day of May, 1959.

JOE GRECO
(SEAL) Mayor of the City of Napa

Contributions to the Retirement System necessary for the payment of the increases in the retirement allowance provided in this section, shall be provided, with respect to the portion of the increases based on service rendered after March 31, 1935, by members under Section 175, from the reserves held by the Retirement System on account of members under Sections 175.1 and 175.13, the necessary amount being transferred upon said effective date from said reserves to the reserves held by the Retirement System to meet the obligations on account of allowances that have been granted. The contribution being required of the City currently, as a percentage of compensation of members under Sections 175.1 and 175.13 shall be increased by a percentage determined by the actuary as necessary to replace the reserves so transferred. Contributions to the Retirement System necessary for the payment of said increases with respect to the

Proposal B

To amend Article XX of the Charter of the City of Sacramento by adding a new Section 175.12.5, to read as follows:

Social Security Coverage

Social security coverage

Sec. 175.12.5. The Council of the City of Sacramento may enact by a vote of three-fourths of its members, an ordinance or ordinances prescribing the conditions according to which any and all employees of the City of Sacramento, other than members of the Fire and Police Departments, as defined in Section 170, may be covered under the Federal Old Age, Survivors and Disability Insurance provisions of the Federal Social Security Act, subject to the provisions of this section. "City," as hereinafter used shall mean the City of Sacramento.

(a) Any member of the Sacramento City Employees' Retirement System, hereinafter referred to as the System, who becomes covered by the Federal Old Age, Survivors and Disability Insurance provisions of the Federal Social Security Act, hereinafter referred to as the Act, on account of service rendered by him to the City, shall have the allowance payable by the System to him upon retirement for disability after attaining age 55, or for service, reduced in the following manner:

While payable to said member, and effective (1) when he attains the retirement age as defined from time to time in the Act, said age to be analogous to the retirement age of 65 years for men and 62 years for women in the Act on the effective date of this section, or (2) on the effective date of his retirement under the System, whichever is later, by an amount which shall bear the same ratio to one-half of the Old Age primary insurance amount under the Act paid to him or payable upon being applied for, or that would be payable if he had not disqualified himself to receive it, under the Act as in effect on the effective date hereof, or as the Act may hereafter

be amended or supplemented before the effective date of such reduction, as the salary which was paid to him on account of service credited to him under the System and which was a basis for contributions paid under the Act, but regardless of whether such salary was included in the calculation of such member's said primary amount, bears to the sum of such salary and other salary, from whatever source, which entered into said calculations; provided, however, that the amount of the reduction under this paragraph shall not exceed the portion of the retirement allowance, prior to modification under an option provided by ordinance in accordance with Section 175.3, which is not derived from contributions of said member. If such member's Old Age primary insurance amount is decreased after the effective date of such reduction in his retirement allowance, the reduction in the allowance shall be recalculated on the basis of the decreased primary insurance amount.

(b) Every such member shall continue to contribute to the System the normal contributions required of him, except that he shall have the right to reduce his normal contributions to the System at his option to be exercised by an election on the System's form, said election to be effective on the first day of the month next following its filing in the System's office. Such reduction of normal contributions shall apply only to time during which said member is covered under the Act, and after the effective date of this section, hereby fixed as the first day of the month next following its ratification by the State Legislature. The amount of said reduction, which may be changed from time to time by said member, in accordance with rules and regulations of the Retirement Board, shall not be more than the amount of said member's contribution under the Act.

Any allowance payable to or on account of such member by the System shall be reduced in addition to the reduction in the preceding paragraph (a), on the effective date of said allowance, by the actuarial equivalent on that date of the normal contributions including interest to said date, with which said member would have been but was not credited under the System because of said reduction in his normal contributions and because of amounts paid from such member's accumulated contributions for the retroactive period hereinafter provided for, and any continuation of said allowance shall be based on such reduced allowance but said allowance shall not be affected otherwise by the member's reduction of his normal contributions. Prior to or at the time of retirement, said member shall have the right to make contributions in one sum or installments, to replace all or part of such reduction with interest, in his normal contributions and his retirement allowance. Such contributions shall be considered to be and administered as additional contributions.

(c) The reductions in allowances and contributions of members shall be made as provided in the foregoing paragraphs of this section, notwithstanding any provisions in the charter to the contrary.

(d) Every employee covered by the agreement providing coverage under the Act shall be liable for the employee contributions required by the Act.

(e) The effective date of coverage under the Act may be made retroactive to such date as the Council may determine. Contributions required under the Act of each member for time included by the retroactive application shall be paid from such member's accumulated contributions held by the System on account of his compensation not in excess of the maximum compensation taxable under the Act for such retroactive time. If the required contributions under the Act exceed the member's accumulated contributions held by the System so determined, the additional contributions under the Act equal to the excess shall be paid by the member. Contributions required under the Act of the employer on account of such retroactive period shall be paid from funds held by the System on account of active members and derived from contributions of the city.

(f) The sum of the member's allowance under the System prior to modification under an option provided by ordinance in accordance with Section 175.3, or as provided for in this paragraph and his primary benefit under the Act, payable after attainment of the minimum age of qualification for such primary benefit, shall not be less than the allowance which he would have received under the System assuming that he had not been covered under the Act. Provision shall be made for modification of the member's retirement allowance at his option, if he retires before he attains such minimum age, in such manner that will make his increased monthly retirement allowance under the System prior to attainment of such age, equal to the sum of his decreased monthly allowance after attainment of such age, and his primary insurance amount under the Act, as estimated at the time of retirement, subject to the requirement that the amounts of the increase and decrease in the monthly allowance shall be actuarially equivalent, and that the increase shall not be modified under an option so provided by ordinance.

(g) Words used in the masculine gender shall include the feminine and neuter genders, and singular numbers shall include the plural and the plural the singular.

(h) The contribution rate or rates of the City applicable to memberships under Sections 175.1 and 175.13 shall be adjusted to a rate or rates determined by the actuary according to the methods stated in paragraph 5 of each of Sections 175.9 and 175.23.

(i) The Council shall submit to the eligible employees for purposes of referendum as defined in the Act the question as to whether they desire coverage under the Act in accordance with conditions prescribed in this section.

(j) The powers of the Council granted in Section 167 shall include the authority to make such adjustments in the Retirement System by a vote of three-fourths of its members, as are

not made by this section, but as required because of changes in the Act, to carry out the purposes of this section.

PROPOSAL C

To amend Article XX, Sections 175.17 and 175.18 of the Charter of the City of Sacramento to read as follows:

Sec. 175.17. If a member of the Fire or Police Department shall die before retirement by reason of an injury received in, or illness caused by the performance of his duty, a death allowance shall be paid, beginning on the day next following the date of death, to his surviving wife throughout her life or until her remarriage. If the member, at the time of death, was qualified for service retirement, but had not retired, the allowance payable shall be equal to the retirement allowance which the member would have received if he had been retired for service on the day of death, but such allowance shall not be less than fifty percent of his final compensation. If death occurs prior to qualification for service retirement, the allowance payable shall be equal to fifty percent of his final compensation. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, until every child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining age eighteen. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving widow otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife following the death of a member unless she was married to the member prior to the date of the injury or onset of the illness which results in death. Death benefits

Sec. 175.18. Upon the death of a member after qualification for retirement for service by attaining an age of at least fifty-five years with at least twenty years of service, or after retirement for service or because of disability which resulted from injury received in, or illness caused by the performance of duty, and if no allowance is payable under Section 175 17, one-half of the retirement allowance which he would have been entitled to if he had retired at the time of death, or one-half his retirement allowance, as the case may be, shall be continued throughout life or until remarriage, to his surviving wife. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under Same

said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving wife otherwise would have received, during such dependency. The surviving wife, in the event of death of the member after such qualification for but before service retirement, may elect before the first payment of the allowance, to receive regardless of the estate or designated beneficiary, the benefit provided in Section 175.20 in lieu of the allowance which otherwise would be continued to her under this section. If there be no surviving wife, the guardian of the child or children under age of eighteen, may make such election, and if there be no such children, the dependent parent or parents may make such election. No allowance, however, shall be paid under this section to a surviving wife unless she was married to the member prior to the date of the injury or onset of the illness which results in death prior to retirement, or if death occurs after retirement, unless she was married to the member at least one year prior to retirement

And we further certify that we have compared the foregoing proposed and ratified amendments to the Charter of the City of Sacramento with the original proposals submitting the same to the electors of said City, and find that the foregoing is a full, true, and correct and exact copy of each thereof.

CHAPTER 199

Assembly Joint Resolution No. 21—Relative to state-federal relations in water development.

[Filed with Secretary of State, June 12, 1959.]

WHEREAS, Despite the existence of several congressional acts recognizing the primary interest and responsibility of the states for the control and co-ordination of water uses within their boundaries, several judicial decisions within the past 15 years have cast doubt upon the authority of the states in this respect; and

WHEREAS, These judicial decisions have suggested the possibility of unlimited federal prerogatives with respect to water rights, which possibility casts doubt on the basis of vested water rights and weakens the ability of the states to successfully co-ordinate water development; and

WHEREAS, Over the years the traditional role of the states in the administration, conservation, and utilization of their water resources has resulted in the most efficient, harmonious, and complete development of the water resources; and

WHEREAS, The compliance by federal agencies with the water laws of the states in accordance with existing congressional acts has not jeopardized any of the legitimate interests of the Federal Government; and

WHEREAS, The doubts raised by the recent judicial decisions as to the basis and validity of vested water rights and as to the proper delegation of authority between the federal and state governments will, unless corrected by congressional action, tend to delay urgently needed water development and to discourage states and private entities in their efforts to conserve and control the water resources of the states; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to reaffirm and restate in unmistakable and effective

terms the principle that the states have primary responsibility and authority for the administration of their water rights, thereby eliminating the doubts created by recent judicial decisions, clarifying the relationship of the federal and state governments in the field of water resources development, minimizing litigation and delay, and allowing water development by both the federal and state governments to proceed on a harmonious basis; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Chairmen of the United States Senate and House Committees on Interior and Insular Affairs, and to each Senator and Representative from California in the Congress of the United States.

WHEREAS, In order to meet the crisis in higher education, a master plan for the orderly development of the facilities and curriculum of higher education must be prepared and carried out; and

WHEREAS, In order to marshal the forces of the State to meet the impact of tremendous growth in student population at the college and university level and to meet the obligation of the State to provide the students with the education to which they are entitled and which is necessary for the future welfare of the State and Nation, such master plan must be comprehensive and must provide not only for the expansion and development of higher education facilities and curriculum on a statewide basis, but must also provide for the integration and avoidance of unnecessary duplication of both physical facilities and curriculum, and for the establishment of standards, or the improvement of established standards, for admission and performance; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Liaison Committee of the State Board of Education and the Regents of the University of California are requested to prepare a master plan for the

[Filed with Secretary of State, June 12, 1959.]

WHEREAS, Proceedings have been taken and had for the adoption and ratification of one amendment, hereinafter set forth, to the charter of the City of Los Angeles, a municipal corporation, in the County of Los Angeles, State of California, as set out in the certificate of the president of the city council and the city clerk of said city, as follows:

CERTIFICATE OF AMENDMENT TO THE CHARTER OF THE CITY OF LOS ANGELES, CALIFORNIA

State of California
County of Los Angeles } ss.
City of Los Angeles

We, John S. Gibson, Jr., President of the Council of The City of Los Angeles, and Walter C. Peterson, City Clerk of The City of Los Angeles, do hereby certify and declare as follows:

That said, The City of Los Angeles, in the County of Los Angeles, in the State of California, is now, and was at all times herein mentioned: (a) a city containing a population of more than one million nine hundred thousand inhabitants as ascertained by the last preceding census taken under the authority of the Congress of the United States; (b) a city organized and existing under a freeholders' charter, adopted under the provisions of Section 8, Article XI of the Constitution of the State of California, which charter was heretofore duly ratified by a majority of the electors of said City at a special election held for that purpose on the 6th day of May, 1924, and approved by the Legislature of the State of California by concurrent resolution filed with the Secretary of State on the 26th day of January, 1925 (Senate Concurrent Resolution No. 2, Chapter No. 5, Statutes 1925, p. 1024).

That in accordance with the provisions of Article XI, Section 8, of the Constitution of the State of California, the Council of The City of Los Angeles, being the legislative body of said City, on its own motion, duly and regularly submitted to the qualified electors of The City of Los Angeles a certain proposal for the amendment of the Charter of said City to be voted upon by said qualified electors at a certain general municipal election held on the 26th day of May, 1959,

all as required by law, which said proposal was designated as proposed charter amendment No. 3.

That on the 14th day of April, 1959, the said proposed amendment was published and advertised in accordance with Section 8 of Article XI of the Constitution, in each and every edition of said day of April 14, 1959, in "The Los Angeles Daily Journal", a daily newspaper of general circulation printed and circulated in said City, and being the official newspaper for said purpose; all as shown by the affidavit of publication on file in the office of the City Clerk of said City.

That copies of said proposed charter amendment were printed in convenient pamphlet form in type of ten-point, and were mailed to each of the qualified electors of said City; and copies thereof could be had upon application therefor at the office of the City Clerk on and from April 14, 1959, to and including May 26, 1959; and a notice was advertised and published on and from April 14, 1959, to and including May 26, 1959, in "The Los Angeles Daily Journal," a newspaper of general circulation in said City, that copies thereof might be had at the office of the City Clerk of said City upon application therefor.

Such proposed charter amendment was submitted to the electors of said City for adoption and ratification at a general municipal election held on May 26, 1959, which was not less than forty, nor more than sixty, days after completion of the advertising in the official paper of the proposed charter amendment aforesaid.

At said election a majority of the qualified electors voting upon said proposed charter amendment voted in favor thereof and adopted and ratified the same, as appears by the official canvass of the returns thereof by the City Clerk of The City of Los Angeles, heretofore certified by him to the Council of said City, and the declaration of the Council of the said The City of Los Angeles, which pursuant to law met on June 4, 1959, at its usual time and place of meeting, and duly declared the result of said canvass of the returns of said election, as certified by the said City Clerk.

That said amendment to the Charter of The City of Los Angeles, so adopted and ratified by the qualified electors of said City, and which shall be submitted to the Legislature for approval or rejection, is in words and figures as follows:

Charter Amendment No. 3

Sections 9, 23 and 25 of the Charter of The City of Los Angeles relative to officers of the City, are amended to read:

Vacancies and appointments

Sec. 9. An office becomes vacant when the incumbent thereof dies, resigns, is adjudged insane, convicted of a felony, or of an offense involving a violation of his official duties, or is removed from office, or shall have been absent from the city without the consent of the Council for more than sixty con-

secutive days, or ceases to be a resident of the city, where residence therein is made a qualification for the office. Should any officer fail to qualify within ten days from the time he receives his certificate of election or appointment, the office to which he was elected or appointed shall be deemed vacant for the purpose of filling the same by appointment.

The City Controller and the City Attorney each shall appoint an assistant or deputy, who thereby shall become the acting incumbent in case of any vacancy in such office as hereinabove provided, or otherwise. Such acting incumbent shall serve as City Controller or as City Attorney, respectively, until the Council appoints a successor for the unexpired balance of the term. Such appointment made by the Controller or the City Attorney shall be in writing filed with the City Clerk and may be changed from time to time. Any person so appointed must possess the qualifications prescribed for such office and shall take the oath prescribed by Sec. 13 of this Charter before assuming his duties as acting incumbent.

The Treasurer, City Engineer, City Clerk, Secretary of the Board of Public Works, Purchasing Agent, and City Administrative Officer, for their respective offices, also shall designate, in like manner, the assistant or deputy who, upon taking the oath of office, shall serve as acting incumbent of the office in case of any vacancy in such office, until an appointment thereto is made in the manner specifically prescribed for such offices.

Council as judge of its membership

Sec. 23. (a) The Council shall be the judge of the election and qualification of its members. The Council shall have power to prescribe the rules of its proceedings and to preserve order at its meetings and may punish contemptuous or disorderly conduct in its presence by a fine not exceeding fifty dollars ($50.00), or by imprisonment of not exceeding ten days, or by both such fine and imprisonment.

(b) The Council shall elect one of its members as presiding officer, who shall be styled the "President of the Council". In case of any vacancy in the office of Mayor pending appointment and qualification of a successor, or in case of sickness of the Mayor, his absence from the City, or disability, the President of the Council shall act as Mayor of this City. The President of the Council, while acting as Mayor, shall not lose his rights as a member of the Council.

(c) The Council shall elect one of its members "President Pro Tempore" who shall act as presiding officer in the absence of the President of the Council and, in case of sickness, absence from the City, or disability of the President of the Council, or of vacancy in the office of President of the Council, shall exercise the powers and duties that devolve upon and retain all rights which remain in the President of the Council under the provisions of this section.

Quorum of the Council

Sec. 25. Two-thirds of the members of the Council shall constitute a quorum, except that if the Council shall consist of eleven members, seven shall constitute a quorum for the transaction of business; but a smaller number may adjourn

from time to time until a quorum be present, and may compel the attendance of absentees; and nothing in this charter shall prevent a smaller number from transacting business by majority vote of members present to the extent necessary to fill vacancies in the membership of the Council in the manner provided in Section 267 where no quorum can be assembled except by filling such vacancies. Except as otherwise in this charter provided, action by the Council shall be taken by a majority vote of the entire membership of the Council. Whenever in this charter a certain proportion of the Council is required for the performance of any act, except as otherwise provided, it shall mean such proportion of the entire membership of the Council.

We further certify that we have compared the text of the foregoing amendment with the original proposal submitting the same to the electors of said City and find that the foregoing is a full, true, correct, complete and exact copy thereof. That as to said amendment, this certificate shall be taken as a full and complete certification of the regularity of all proceedings had and done in connection therewith.

In witness whereof, we have hereunto set our hands and have caused the corporate seal of the The City of Los Angeles to be affixed hereto this 4th day of June, 1959.

Resolved by the Assembly of the State of California, the Senate concurring, a majority of all of the members elected to each house voting therefor and concurring therein, That said amendment to the charter of the City of Los Angeles as proposed to and adopted and ratified by the electors of said city, and as hereinbefore fully set forth, be and the same is hereby approved as a whole, without amendment or alteration, for and as an amendment to and as a part of the charter of the said the City of Los Angeles.

Senate Joint Resolution No. 27—Relative to protection of the North Pacific fisheries.

[Filed with Secretary of State, June 12, 1959.]

WHEREAS, Conservation of the fisheries industries of the North Pacific Ocean, including the Bering Sea, is a matter of great importance to the entire United States and particularly to the states bordering upon the Pacific Ocean, including Alaska and California; and

WHEREAS, A serious threat to the fisheries has arisen since the conclusion of World War II by the fishing of this area by other nations without regard to preservation of the fish resources; and

WHEREAS, Such unrestricted fishing can result in not only the destruction of the fishing industry of the State of Alaska, but also of other states bordering on the Pacific Ocean, since the North Pacific area is the breeding and rearing ground for many of the fish taken off the coasts of Oregon, Washington, and California; and

WHEREAS, It has been brought to the attention of this Legislature by Senator Bob Logan, State Senator of the State of Alaska, that the first Legislature of the State of Alaska in Senate Joint Resolution No. 10 has requested that this problem be met by a treaty between the United States, Canada, Japan, and Russia; and

WHEREAS, Such a treaty could provide the most urgently needed protection to properly conserve these fish resources, not only for the United States but also for the other nations involved in the fishing area; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President of the United States to do all in his power to bring about a treaty between the United States, Canada, Japan, and Russia to properly protect the fish resources of the North Pacific Ocean, and the Congress of the United States is respectfully memorialized to take all appropriate action in aid of the successful negotiation of such a treaty; and, be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States, and to the Pacific Marine Fisheries Commission.

WHEREAS, On that occasion the officials of that base did conduct the Members of the Legislature on an extensive tour of the facilities of this major installation which forms such a vital part of the defenses provided for our State and Nation by the United States Air Force; and

WHEREAS, During this four hour visit, the officials of the various commands at the Travis Air Force Base, did provide a great deal of valued information to the Legislature on the accomplishment of the mission of the various component commands at that base, and on the impact of the base and its activities and personnel on the economy and operation of the civilian communities and counties surrounding it; and

WHEREAS, The Members of the Legislature were given an opportunity to inspect the Transport Coordination Center of the Western Transport Air Force, Military Air Transport Service which controls the operation of all military transport aircraft from the Mississippi River westward to Saudi Arabia, and to examine and inspect various equipment operated from the Travis Air Force Base, including a C-133 Globemaster transport, a C-131 air medical evacuation transport, a F-102 jet fighter, a B-52 strato-jet bomber, and an Army Nike-Hercules anti-aircraft missile; and

WHEREAS, The Legislature is appreciative of the opportunity to learn of this Air Force operation at first hand, and of the gracious hospitality extended to its members; now, therefore, be it

CHAPTER 206

Senate Concurrent Resolution No. 32—Relative to a study to be made of problems arising from automobile accident litigation.

[Filed with Secretary of State, June 15, 1959.]

WHEREAS, In many of our metropolitan trial courts the number of civil cases has increased beyond the present capacity of the courts to dispose of them and the backlog of cases has grown to the point that many litigants are compelled to wait their turn for as long as 16 or 18 months after their case is ready to be tried before it can be heard; and

WHEREAS, The great majority of cases comprising this logjam in the courts arose from motor vehicle accidents, the number of automobiles in use on the highways of this State is rapidly increasing year by year, and the social and economic loss to the people of the State resulting from personal injuries, loss of life, and property damage occasioned by such accidents is very severe; and

WHEREAS, The long delays in the courts are causing financial distress to needy litigants and are making it more difficult to establish the true cause of accidents, and there has been much public criticism of the cost, delay, inadequacy and often inequitable results of the present system; and

WHEREAS, The Governor of this State, in his message to the 1959 Legislature, suggested that the time has come to weigh the wisdom of establishing an automobile accident commission, modeled after the Industrial Accident Commission, to hear and determine cases arising from automobile accidents, and other solutions have been suggested for the purpose of alleviating some of the harsh results of the existing system and reducing the costs of automobile accident litigation, such as substituting the doctrine of comparative negligence for that of contributory negligence, establishing liability without fault, and restricting contingent fees of attorneys; and

WHEREAS, The nature and complexity of these problems and their proposed solutions require a comprehensive and thorough study of these matters, and of other similar proposals, to determine their respective values and to prepare adequate legislation; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the subject matter of this resolution is assigned to the Joint Committee on Legislative Organization for further assignment by it to an appropriate single house or joint interim committee, which committee is directed to report on such subject matter not later than the fifth calendar day of the 1961 Regular Session of the Legislature.

CHAPTER 207

Senate Concurrent Resolution No. 60—Relative to a study of farm vehicle registration problems.

[Filed with Secretary of State, June 15, 1959.]

WHEREAS, Vehicles driven in connection with agricultural operations do not make the same use of the highways in this State as do other types of vehicles; and

WHEREAS, Implements of husbandry are presently exempted from vehicle registration requirements; and

WHEREAS, The distinction between implements of husbandry and vehicles subject to registration is not clearly defined in all areas; and

WHEREAS, The lack of consistent and definite legislation in this field has operated as a hardship upon the farmers of this State and upon law enforcement officials; and

WHEREAS, In several of the other states farm vehicles and implements of husbandry are treated as a separate subject for purposes of registration and registration fees; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the subject matter of this resolution is assigned to the Joint Committee on Legislative Organization for further assignment by it to an appropriate single house or joint interim committee, which committee is directed to report on such subject matter not later than the fifth calendar day of the 1961 Regular Session of the Legislature.

CHAPTER 208

Senate Concurrent Resolution No. 62—Relative to city streets and county roads.

[Filed with Secretary of State, June 15, 1959.]

WHEREAS, City street and county road deficiencies, as impartially reviewed by the Senate Interim Committee on Highways, Streets, and Bridges in 1954 and 1956, and more recently as reported by counties and cities for the Federal "210" Study, exceed the deficiencies of the State Highway System; and

WHEREAS, The Southern California Research Council sponsored by Pomona and Occidental College has found:

1. That the physical plan needed by the expanding population in Los Angeles County alone between now and 1970 requires funds equal to $13,290 for each family;

2. That $10,200 per family is needed solely for county roads and city streets exclusive of state highways or freeways;

3. That water supply, flood control, sewage, schools, hospitals, parks, and recreation, together, require only $3,090 per family; and

4. That between now and 1970 seven and one-half billion dollars will be required to correct city street and county road deficiencies within Los Angeles County alone, which represents approximately 40 percent of the total county road and city street needs in California; and

WHEREAS, Estimated costs of correcting city street and county road deficiencies within the State, determined in accordance with minimum standards approved by the Senate Interim Committee on Highways, Streets and Bridges for the Federal "210" Study exceed seventeen and one-half billion dollars; and

WHEREAS, Cities now receive only 6 percent of the total state and federal highway user revenues, and the counties receive only 15.8 percent thereof; and

WHEREAS, The greatest percentage of expenditures for city streets and county roads now come from local property taxes and other nonhighway user revenues; and

WHEREAS, It will take more than 148 years to correct city street deficiencies and 78 years to correct county road deficiencies with existing sources of revenue; and

WHEREAS, The State will require all existing state and federal revenue to correct deficiencies in the State Highway and Freeway System; and

WHEREAS, There is a great demonstrable need for additional revenue to meet city street and county road deficiencies; and

WHEREAS, Equal consideration must be given to city streets and county roads along with state highways and freeways, and all deficiencies on all three systems must be corrected at a substantially comparable rate in order to have a complete transportation system; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, as follows:

1. The Department of Public Works is requested to undertake an analysis which will audit city street and county road deficiency reports to bring such reports up to date and make future projections thereof insofar as such projections are practicable within the time available for the study;

2. The Department of Public Works is requested to defray such additional costs as may be required by the analysis, with the money available from state and federal highway planning funds;

3. Agencies of the State Government and the cities and counties of the State are requested to co-operate with the Department of Public Works in the conduct of the analysis and to furnish such necessary data or information at their own expense when requested by the department if the city or county either has such data or information available or is equipped to obtain such data or information;

4. The Speaker of the Assembly and the President pro Tempore of the Senate are requested jointly to appoint a committee of 14 members, to consist of officials of cities and counties and others interested in street, road and highway problems, to act in an advisory capacity to the Department of Public Works, and the department is directed to co-operate and confer with the advisory committee so appointed;

5. The Department of Public Works shall employ by contract or otherwise such engineering consultants or other specialists as it deems may be needed for the conduct of the study and the preparation of the report.

6. Such analysis shall include a report on the advisability of legislative consideration of a 1 cent increase in the state gasoline tax, and whether such additional tax revenue should be divided 60 percent to cities and 40 percent to the counties of the State, together with alternative recommendations, if any;

7. The Speaker of the Assembly and the President pro Tempore of the Senate shall refer the subject matter of this resolution to the appropriate joint interim committee which may deal with highway transportation problems, if such committee is created at this session of the Legislature, or if no such committee is created, then the subject matter shall be referred to the appropriate interim committee of each of the respective houses by the Speaker and the President pro Tempore respectively;

8. The Department of Public Works is requested to report from time to time on the progress of its analysis to the appropriate interim committee or committees as designated under the proceedings of the preceding paragraph and to submit a report on the subject matter of this resolution to the appropriate committee or committees not later than August 1, 1960; and be it further

Resolved, That the Secretary of the Senate shall transmit a copy of this resolution to the Department of Public Works.

CHAPTER 209

[Filed with Secretary of State, June 15, 1959.]

WHEREAS, There are 279 aged and disabled veterans now on the waiting list at the Veterans Home of California who are suffering with serious chronic disabilities requiring nursing care and medical treatment, many of whom have been waiting for 18 months to be admitted; and

WHEREAS, There are no vacancies in Federal Veterans Administration hospitals in California to care for the "older veteran," who requires long-term care; and

WHEREAS, This State's planned five-year building program includes facilities to care for such cases, and would have first priority if funds were available; and

WHEREAS, There are 33 state veterans homes and hospitals in our Country; and

WHEREAS, Existing facilities for hospital and domiciliary care are wholly inadequate to care for the ever increasing "older veteran" suffering with serious chronic disabilities requiring nursing and medical care; and

WHEREAS, New construction, modernization, additions and improvements of hospital and domiciliary buildings are urgently needed to replace old and obsolete structures and to provide new facilities; and

WHEREAS, The Federal Government has, since 1884, recognized its responsibility to veterans maintained by the states through federal aid subsidies to finance, in part, day-by-day operating expenses, which do not include capital outlay expenditures; and

WHEREAS, The states, alone, cannot finance the cost of providing hospital or domiciliary buildings; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of this State respectfully memorializes the Congress of the United States to enact legislation and to appropriate money to provide states with federal aid subsidies to finance, in part, the construction, modernization, additions and improvements at state operated veterans' homes; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Administrator of Veterans Affairs, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 210

Assembly Joint Resolution No. 18—Memorializing Congress to increase federal aid to state veterans homes.

[Filed with Secretary of State, June 16, 1959.]

WHEREAS, The actual cost of maintaining a veteran at the Veterans Home of California has increased from $1,520 per capita, for the fiscal year ending June 30, 1954, to $2,087 per capita, for the year ending June 30, 1958, an increase of $567, or more than 37 percent; and

WHEREAS, The budgeted per capita estimated cost for the current fiscal year ending June 30, 1959, is $2,228, and for the succeeding fiscal year ending June 30, 1960, $2,276; and

WHEREAS, There has been no adjustment in the federal aid allowance of $700 per annum, since September 1, 1954; and

WHEREAS, The same problem confronts the great majority of states operating the 33 state veterans homes in our Country, which received from the Federal Government only 32 percent reimbursement for operating expenses during the year ending June 30, 1958; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of this State respectfully memorializes the Congress of the United States to enact legislation and appropriate money at this session of the Eighty-sixth Congress to increase federal aid payments to states operating veterans homes from $700 to $1,000 per annum, or one-half of the per capita cost, whichever is the lesser amount, for each veteran maintained, who meets eligibility requirements for admission to a Federal Veterans Administration home or hospital; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Administrator of Veterans Affairs, and to each Senator and Representative from California in the Congress of the United States.

Senate Joint Resolution No. 19—Relative to a minimum wage law for agricultural workers.

[Filed with Secretary of State, June 23, 1959.]

WHEREAS, Agricultural workers of the Nation form a most important part of our national economy; and

WHEREAS, In recent years agricultural workers in many regions of the United States, including certain areas of California, are reported to have earned a disproportionate and extremely low annual wage as compared with other workers; and

WHEREAS, California farmers must compete in the sale of farm products with other states having not only a more favorable freight rate, but which in addition pay wages to their farm workers far less than those paid in California, thus putting California agriculture at a tremendous disadvantage in the national competitive market of farm products; and

WHEREAS, In these regions it is reported that the agricultural worker's income has failed to keep pace with the rising costs of living; and

WHEREAS, The health and welfare of our Nation depend to a great extent on the food that is produced by our farms, and without sufficient workers the farms cannot prosper and maintain for the people of this Country the high standard of living to which they are accustomed; and

WHEREAS, The Federal Government has not enacted a minimum wage law that applies to the agricultural workers of the Country; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to enact a minimum wage law for the agricultural workers of the Nation; and be it further

WHEREAS, The imposition of taxes of this nature has traditionally been a federal and state function and existing state and federal taxes at the present time impose taxes upon the estates of deceased persons; and

WHEREAS, The enactment of such ordinances would impose unequal burdens upon the estates of deceased persons in this State, since general law cities do not have the power to impose such taxes; and

WHEREAS, The imposition of additional taxes in this field by chartered cities is not in the best interests of the State; now, therefore be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Members of this Legislature urge and recommend that chartered cities of this State refrain from imposing inheritance or other death taxes upon the residents thereof; and be it further

[Filed with Secretary of State, June 24, 1959.]

WHEREAS, It has recently been suggested that Russia may attempt to develop a single currency backed by gold to be used throughout its satellite countries and in general for world trading; and

WHEREAS, The creation of such a gold ruble could greatly handicap the United States in its international activities, particularly in view of the fact that the American dollar backed by gold is one of the most stable currencies in the world giving the United States a great advantage in its economic competition with communist nations; and

WHEREAS, The fixing of the price of gold by the Federal Government in 1934 at the arbitrary figure of $35 per fine ounce and maintaining this rigid figure in spite of the fact that the costs of producing gold in the United States have greatly increased, has resulted in many of the gold mines of this Country and particularly of this State in the Mother Lode area being forced to cease operations; and

WHEREAS, This loss of gold production has had a serious detrimental economic effect on the areas involved through loss of this important industry and also has resulted in an ever decreasing gold balance in our Federal Treasury; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Congress of the United States is respectfully requested to remove the restrictions on the price of gold and to thus allow it to be priced as any other commodity in a free market; and be it further

Resolved, That the Chief Clerk of the Assembly be directed to transmit suitably prepared copies of this resolution to the Vice President of the United States, to the Speaker of the House of Representatives and to each member of Congress representing California.

[Filed with Secretary of State, June 24, 1959.]

WHEREAS, Under federal law, persons in this Country may adopt foreign-born children; and

WHEREAS, To safeguard the future of these children it is necessary that the homes of persons seeking to adopt them be

investigated to determine whether the proposed homes are suitable for the children; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to appropriate money for use by the various states in the investigation and approval of homes of persons applying to adopt foreign-born children; and be it further

WHEREAS, An abundant supply of low-cost electrical power will be essential to transport such water so that it can be delivered at a price commensurate with the benefits to be derived, particularly in Southern California; and

WHEREAS, The lowest price for needed electrical power would be obtainable from publicly constructed and operated power generating facilities; and

WHEREAS, There is legislation before the Congress of the United States, sponsored by United States Senators Thomas H. Kuchel and Clair Engle, to provide for public construction and operation of the hydroelectric power facilities of the Trinity River Project; and

WHEREAS, The Trinity River Project is the most immediate potential source of low-cost hydroelectric power to operate the pumps vitally needed to move water to areas of deficiency in California; and

WHEREAS, The Federal Administration is opposing the Kuchel-Engle legislation and instead is favoring legislation to authorize private construction and operation of the Trinity River Project hydroelectric facilities; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Congress of the United States is respectfully memorialized to enact legislation to provide for public, rather than private, construction and operation of the hydroelectric facilities of the Trinity River Project; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the President or Vice President of the United States, to the Speaker of the House of Representatives and to each Senator and Representative from California in the Congress of the United States.

WHEREAS, There is no present procedure whereby such funds and property may be discovered by the United States and reported to the states and territories, thereby facilitating the

effective and efficient recovery of such funds and property by the states and territories; and

WHEREAS, A bill was introduced in the First Session of the Eighty-sixth Congress as S. 1846, which bill would establish procedures for the discovery and report of all such funds and property to the interested states and territories; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to enact S. 1846 into law, thereby facilitating the several states and territories in the effective and efficient recovery of unclaimed funds and property in the custody of federal officers, agencies and departments; and be it further

CHAPTER 254

Senate Constitutional Amendment No. 14—A resolution to propose to the people of the State of California an amendment to the Constitution of said State by amending Section 1a of, and by adding Sections 1b, 1c, 10b, and 26a to, Article VI of said Constitution, relating to the administration of justice, including removal and retirement of judges, the membership and duties of the Commission on Judicial Qualifications, Judicial Council and State Bar, and the renaming of the Commission on Qualifications.

[Filed with Secretary of State, July 1, 1959.]

Resolved by the Senate, the Assembly concurring, That the Legislature of the State of California at its 1959 Regular Session, commencing on the fifth day of January, 1959, two-thirds of all members elected to each of the two houses of the Legislature voting in favor thereof, hereby proposes to the people of the State of California that the Constitution of the State be amended as follows:

First—That Section 1a of Article VI is amended to read:

SEC. 1a. There shall be a Judicial Council. It shall consist of: (i) the Chief Justice or Acting Chief Justice; (ii) one associate justice of the Supreme Court, three justices of district courts of appeal, four judges of superior courts, two judges of municipal courts, and one judge of a justice court, designated by the Chief Justice for terms of two years; (iii) four members of the State Bar of California appointed by the Board of Governors of the State Bar for terms of two years, two of the first such appointees to be appointed for one year and two for two years; and (iv) one member of each house of the Legislature designated as provided by the respective house. If any judge so designated shall cease to be a judge of the court from which he is selected, his designation shall forthwith terminate. If any member of the State Bar so appointed shall cease to be a member of the State Bar, his appointment shall forthwith terminate, and the Board of Governors of the State Bar shall fill the vacancy in his unexpired term. If any member of the Legislature so designated shall cease to be a member of the house from which designated, his designation shall forthwith terminate, and a new designation shall be made in the manner provided by the respective house. The Chief Justice or Acting Chief Justice shall be chairman and the Clerk of the Supreme Court shall serve as secretary. The council may appoint an administrative director of the courts, who shall hold office at its pleasure and shall perform such of the duties of the council and of its chairman, other than to adopt or amend rules of practice and procedure, as may be delegated to him. No act of the council shall be valid unless concurred in by a majority of its members.

The Judicial Council shall from time to time:

(1) Meet at the call of the chairman or as otherwise provided by it.

(2) Survey the condition of business in the several courts with a view to simplifying and improving the administration of justice.

(3) Submit such suggestions to the several courts as may seem in the interest of uniformity and the expedition of business.

(4) Report to the Governor and Legislature at the commencement of each regular session with such recommendations as it may deem proper.

(5) Submit to the Legislature, at each general session thereof, its recommendations with reference to amendments of, or changes in, existing laws relating to practice and procedure.

(6) Adopt or amend rules of practice and procedure for the several courts not inconsistent with laws that are now or that may hereafter be in force.

(7) Exercise such other functions as may be provided by law.

The chairman shall seek to expedite judicial business and to equalize the work of the judges, and shall provide for the assignment of any judge to another court of a like or higher jurisdiction to assist a court or judge whose calendar is congested, to act for a judge who is disqualified or unable to act, or to sit and hold court where a vacancy in the office of judge has occurred. A judge may likewise be assigned with his consent to a court of lower jurisdiction, and a retired judge may similarly be assigned with his consent to any court.

The judges shall co-operate with the council, shall sit and hold court as assigned, and shall report to the chairman at such times and in such manner as he shall request respecting the condition, and manner of disposal, of judicial business in their respective courts.

No member of the council shall receive any compensation for his services as such, but shall be allowed his necessary expenses for travel, board and lodging incurred in the performance of his duties as such. Any judge assigned to a court wherein a judge's compensation is greater than his own shall receive while sitting therein the compensation of a judge thereof. The extra compensation shall be paid in such manner as may be provided by law. Any judge assigned to a court in a county other than that in which he regularly sits shall be allowed his necessary expenses for travel, board and lodging incurred in the discharge of the assignment.

Second—That Section 1b is added to Article VI, to read:

SEC. 1b. There shall be a Commission on Judicial Qualifications. It shall consist of: (i) Two justices of district courts of appeal, two judges of superior courts, and one judge of a municipal court, each selected by the Supreme Court for a four-year term; (ii) two members of the State Bar, who shall have practiced law in this State for at least 10 years and who

shall be appointed by the Board of Governors of the State Bar for a four-year term; and (iii) two citizens, neither of whom shall be a justice or judge of any court, active or retired, nor a member of the State Bar, and who shall be appointed by the Governor for a four-year term. Every appointment made by the Governor to the commission shall be subject to the advice and consent of a majority of members elected to the Senate, except that if a vacancy occurs when the Legislature is not in session, the Governor may issue an interim commission which shall expire on the last day of the next regular or special session of the Legislature. Whenever a member selected under subdivision (i) ceases to be a member of the commission or a justice or judge of the court from which he was selected, his membership shall forthwith terminate and the Supreme Court shall select a successor for a four-year term; and whenever a member appointed under subdivision (ii) ceases to be a member of the commission or of the State Bar, his membership shall forthwith terminate and the Board of Governors of the State Bar shall appoint a successor for a four-year term; and whenever a member appointed under subdivision (iii) ceases to be a member of the commission or becomes a justice or judge of any court or a member of the State Bar, his membership shall forthwith terminate and the Governor shall appoint a successor for a four-year term. No member of the commission shall receive any compensation for his services as such, but shall be allowed his necessary expenses for travel, board and lodging incurred in the performance of his duties as such.

No act of the commission shall be valid unless concurred in by a majority of its members. The commission shall select one of its members to serve as chairman.

Third—That Section 1c is added to Article VI, to read:

SEC. 1c. The State Bar of California is a public corporation with perpetual existence and succession. Every person admitted and licensed to practice law in this State is and shall be a member of the State Bar except while holding office as a justice or judge of a court of record.

Fourth—That Section 10b is added to Article VI, to read:

SEC. 10b. A justice or judge of any court of this State, in accordance with the procedure prescribed in this section, may be removed for willful misconduct in office or willful and persistent failure to perform his duties or habitual intemperance, or he may be retired for disability seriously interfering with the performance of his duties, which is, or is likely to become, of a permanent character. The Commission on Judicial Qualifications may, after such investigation as the commission deems necessary, order a hearing to be held before it concerning the removal or retirement of a justice or a judge, or the commission may in its discretion request the Supreme Court to appoint three special masters, who shall be justices or judges of courts of record, to hear and take evidence in any such matter, and to report thereon to the commission. If, after hearing, or

after considering the record and report of the masters, the commission finds good cause therefor, it shall recommend to the Supreme Court the removal or retirement, as the case may be, of the justice or judge

The Supreme Court shall review the record of the proceedings on the law and facts and in its discretion may permit the introduction of additional evidence and shall order removal or retirement, as it finds just and proper, or wholly reject the recommendation. Upon an order for retirement, the justice or judge shall thereby be retired with the same rights and privileges as if he retired pursuant to statute. Upon an order for removal, the justice or judge shall thereby be removed from office, and his salary shall cease from the date of such order.

All papers filed with and proceedings before the Commission on Judicial Qualifications or masters appointed by the Supreme Court, pursuant to this section, shall be confidential, and the filing of papers with and the giving of testimony before the commission or the masters shall be privileged; but no other publication of such papers or proceedings shall be privileged in any action for defamation except that (a) the record filed by the commission in the Supreme Court continues privileged and upon such filing loses its confidential character and (b) a writing which was privileged prior to its filing with the commission or the masters does not lose such privilege by such filing. The Judicial Council shall by rule provide for procedure under this section before the Commission on Judicial Qualifications, the masters, and the Supreme Court. A justice or judge who is a member of the commission or Supreme Court shall not participate in any proceedings involving his own removal or retirement.

This section is alternative to, and cumulative with, the methods of removal of justices and judges provided in Sections 10 and 10a of this article, Sections 17 and 18 of Article IV, and Article XXIII, of this Constitution.

Fifth—That Section 26a is added to Article VI, to read:

SEC. 26a. The "Commission on Qualifications" created by Section 26 of this article is renamed and henceforth shall be known as the "Commission on Judicial Appointments."

CHAPTER 255

[Filed with Secretary of State, July 1, 1959.]

Resolved by the Senate, the Assembly concurring, That the Legislature of the State of California at its 1959 Regular Ses-

(b) The property to the amount of one thousand dollars ($1,000) of the surviving resident spouse in this State, or if there be no such surviving spouse, of the widowed mother resident in this State, of every person who has so served and has died, and the property to the amount of one thousand dollars ($1,000) of pensioned surviving spouses, fathers, and mothers, resident in this State, of persons described herein who have so served in the Armed Forces of the United States, shall be exempt from taxation; provided, this exemption shall not apply to any surviving spouse, father or mother described in this subdivision owning property of the value of ten thousand dollars ($10,000) or more

(c) All real property owned by the Ladies of the Grand Army of the Republic and all property owned by the California Soldiers Widows Home Association shall be exempt from taxation.

No person described herein who has served in the Armed Forces of the United States shall be eligible for such exemption unless he was a resident of California at the time of his entry into such Armed Forces, or unless he was a resident of California at the effective date of the amendment of this section as proposed at the 1959 Regular Session of the Legislature.

No surviving spouse, father or mother of such person described herein who has served in the Armed Forces of the United States shall be eligible for such exemption unless such described person was eligible for such exemption at the time

of his death, and unless such surviving spouse, father or mother of such described person was a resident at the time of the application for such exemption.

Second—That Section 1¼a be added to Article XIII, to read:

SEC. 1¼a. The Legislature may exempt from taxation, in whole or in part, the property, constituting a home, of every resident of this State who, by reason of his military or naval service, is qualified for the exemption provided in subdivision (a) of Section 1¼ of this article, without regard to any limitation contained therein on the value of property owned by such person or his spouse, and who, by reason of a permanent and total service-connected disability incurred in such military or naval service due to the loss, or loss of use, as the result of amputation, ankylosis, progressive muscular dystrophies, or paralysis, of both lower extremities, such as to preclude locomotion without the aid of braces, crutches, canes, or a wheelchair, has received assistance from the Government of the United States in the acquisition of such property; except that such exemption shall not extend to more than one home nor exceed five thousand dollars ($5,000) for any person or for any person and his spouse. This exemption shall be in lieu of the exemption provided in subdivision (a) of Section 1¼ of this article.

Where such totally disabled person sells or otherwise disposes of such property and thereafter acquires, with or without the assistance of the Government of the United States, any other property which such totally disabled person occupies habitually as a home, the exemption allowed pursuant to the first paragraph of this section shall be allowed to such other property.

CHAPTER 256

[Filed with Secretary of State, July 1, 1959.]

WHEREAS, Congress has authorized demonstration sea water conversion plants at various locations in the United States and its possessions, one such location being designated as the West Coast of the United States in Public Law 85-883 of September 2, 1958; and

WHEREAS, The City of San Diego and the County of San Diego have, over a period of the last 15 years, diligently pursued efforts to induce the Federal Government to enter into the sea water conversion program; and

WHEREAS, The City of San Diego has for the past several years made exemplary progress in this field by activating a sea water conversion commission, an adjunct of the city government, comprising 12 members of the San Diego community who are experts in the fields of physics, nuclear energy, chemistry and engineering; and

WHEREAS, The application of the City of San Diego to the Saline Water Division of the United States Department of the Interior recites in detail that the City of San Diego is ready, willing and able to provide adequate land area in close proximity to the ocean at more than one location within the San Diego area, and the city has fully met all of the requirements as stated in criteria of the Saline Water Division of the Department of the Interior as to the location of a demonstration sea water conversion plant; and

WHEREAS, The Governor of California has been called upon to assist the Department of the Interior in site examinations and feasibility studies of such locations, and through the State Department of Water Resources such reports have been made to the Department of the Interior declaring the San Diego sites to be feasible; and

WHEREAS, The City of San Diego is supported in its application by nine cities in San Diego County as well as numerous chambers of commerce and civic organizations throughout the county, and the League of California Cities has memorialized the Department of the Interior to locate such demonstration sea water conversion plant in the Southern California area on the grounds that it is the most arid area of the State; and

WHEREAS, The City of San Diego is willing and able to participate in the program by financing a portion of the construction costs; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Department of the Interior is respectfully requested to consider the City of San Diego's proposal for the location of a demonstration sea water conversion plant in the San Diego area under the terms and provisions of the federal law; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the Secretary of the Interior.

CHAPTER 258

Senate Joint Resolution No. 28—Relative to the cessation of services by the Federal Bureau of Indian Affairs.

[Filed with Secretary of State, July 1, 1959.]

WHEREAS, Effective May 31, 1959, the Federal Bureau of Indian Affairs has ceased to provide its Relocation and Adult Vocational Training Services to needy California Indians who could qualify to receive them; and

WHEREAS, Many applications have been submitted to the Bureau of Indian Affairs and have been set aside by it due to insufficient funds having been allocated to it; and

WHEREAS, The California educational system does not have sufficient facilities which are adequate to replace the federal program; and

WHEREAS, California will now be the only state in the United States with a substantial Indian population in which the federal program is not operating; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the United States Department of

the Interior, through the Bureau of Indian Affairs, to continue the operation of its Relocation and Adult Vocational Training Services for needy California Indians; and be it further

Hill, Area Director of the Bureau of Indian Affairs, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 259

Senate Joint Resolution No. 21—Relating to the construction of roads by federal agencies.

[Filed with Secretary of State, July 1, 1959.]

WHEREAS, Within the boundaries of the State of California there are large areas lying within the jurisdiction of the National Park Service and within the jurisdiction of the United States Forest Service; and

WHEREAS, These national agencies have the duty and responsibility of the care, protection, management, and proper development of the lands lying within their respective jurisdictions; and

WHEREAS, A large portion of these lands are areas of magnificent scenery, including many Yosemite-like valleys, mighty mountain peaks, beautiful meadows, with many streams and waterfalls, as well as vast stands of timber and mineral deposits; and

WHEREAS, A portion of those areas are now opened or eventually will be properly opened by roads to permit reasonable recreational enjoyment and, in some places, utilitarian uses; and

WHEREAS, The citizens of the State of California are vitally interested in the access facilities provided for admission into those portions of this territory which are properly opened or to be eventually opened to vehicular traffic; and

WHEREAS, A mountain road cannot be built into these lands without some disturbance of the natural growth and some "scarring" of the hillsides; and

WHEREAS, If the construction of future roads and required reconstruction of present roads is done to proper standards of design and full consideration of location, alignment, and landscaping, a minimum amount of unavoidable "scarring" will result and the natural return of the overgrowth through the years will materially obliterate the major portion of that "scarring"; and

WHEREAS, If such roads should be under-designed and constructed on such plans, unnecessary traffic hazards would result, and future early reconstruction would be required, thus producing new and unnecessary additional "scarrings" on the slopes and fills coincident with such work; and

WHEREAS, The people of the State of California and the citizens of the United States all have a vital interest in this problem and the adjustment of the necessary reasonable use and the disturbance of the present natural beauties of the areas, the safety of our travelers, and the display of these wonderlands; now, therefore be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully urges the Government of the United States and particularly the National Park Service, the National Forest Service, and the Bureau of Public Roads, in the matter of planning, designing, construction and reconstruction of any roads which they determine to be proper and reasonably necessary for the administration and safe public use, to be guided by the following recommendations:

1. All such roads should be constructed or reconstructed to the desirable design standards as adopted by the American Association of State Highway Officials, commensurate with future traffic needs for safe two-lane roads.

2. The National Park Service, National Forest Service and the Bureau of Public Roads, within the standards outlined above, should jointly cooperate in the design of such roads with the prime responsibility for engineering and construction to be under the Bureau of Public Roads under procedure existing as of February 15, 1959. Further, any such design should employ adequate and proper landscaping architectural and geographical design principles which will insure the protection and enhancement of the natural beauty of the national forest and national park area through which such a road may pass without resorting to sub-standard highway design.

3. Consideration should be given to include in any designed road safety turnouts where deemed necessary for the safety of the motoring public and 'Vista Points' where feasible and appropriate so that the scenery of the area may be safely viewed from off the traveled right of way.

4. The Federal Government should continue to allot reasonable amounts of money to these agencies for the planning, location, design and landscaping aspects connected with each project to the end that the maximum aesthetic values, as well as the utilitarian values, be retained; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit copies of this resolution to: Honorable Thomas H. Kuchel; Honorable Clair Engle; Honorable Fred A. Seaton, Secretary of the Interior; Honorable Ezra Taft Benson, Secretary of Agriculture; Honorable Conrad Wirth, Director, National Parks; Honorable Richard E. McArdle, Chief, United States Forest Service; Honorable B. D. Tallamy, Federal Highway Administrator; Honorable Ellis L. Armstrong, Commissioner of Public Roads; and to the Members of the California Delegation of the United States House of Representatives.

CHAPTER 260

Senate Joint Resolution No. 20—Relative to memorializing Congress to enact legislation prohibiting subliminal radio and television messages.

[Filed with Secretary of State, July 1, 1959.]

WHEREAS, Subliminal radio and television messages are perceptible only to the subconscious mind and the listener or viewer is consciously unaware of such messages except subliminally; and

WHEREAS, The policy of this State is opposed to radio and television transmissions of subliminal messages in that such practices are detrimental to the public good, safety, and general welfare of the citizens of this State; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes Congress to consider the feasibility of enacting legislation prohibiting radio and television transmissions of subliminal messages; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit copies of this resolution to the President of the United States, to the President of the Senate in the Congress of the United States, to the Speaker of the House of Representatives in the Congress of the United States, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 261

Senate Joint Resolution No. 16—Relative to the construction of the Tehama-Colusa Canal of the Sacramento Valley Canals Project.

[Filed with Secretary of State, July 1, 1959.]

WHEREAS, With soon-to-be-completed annexations, eight water districts will contain some 86,000 acres along the proposed route of the Tehama-Colusa Canal of the Sacramento Valley Canals Project; and

WHEREAS, The eight districts have recently and unanimously adopted resolutions reaffirming the districts' intent to execute water contracts with the United States Bureau of Reclamation as soon as money to start the Tehama-Colusa Canal has been appropriated; and

WHEREAS, The Tehama-Colusa Canal is not a new project but on the other hand is a continuation of the Sacramento Valley Canals Project already begun with the construction of the Corning Canal; and

WHEREAS, A United States Bureau of Reclamation study indicates that irrigation of the now dry farmed land adjacent

to the canal will increase the per acre value of crop production more than fivefold; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to appropriate sufficient funds to construct the Tehama-Colusa Canal of the Sacramento Valley Canals Project; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 262

Senate Concurrent Resolution No. 57—Relative to public transportation planning and development.

[Filed with Secretary of State, July 1, 1959.]

WHEREAS, Notwithstanding the excellent rate of progress currently being made in developing adequate, safe, and economical highway facilities throughout California, motor vehicle congestion continues to be a vexing problem for the motoring public as well as the general public in certain of the metropolitan areas of the State, which problem threatens to become more critical as the population and economy of California continue to expand and may even involve the necessity of restrictions on the use of motor vehicles in such areas unless ameliorative steps are immediately undertaken; and

WHEREAS, Growing pressure is now developing to find supplementary means of moving people in certain metropolitan areas other than by the exclusive use of private motor vehicles, so as to relieve highways and streets of a portion of the traffic that is now causing excessive congestion and is making the movement of motor vehicles increasingly difficult; and

WHEREAS, Mass public transportation such as the proposed rail rapid transit plan of the San Francisco Bay Area Rapid Transit District, created by the Legislature in 1957, offers hope of relieving traffic congestion in that area; and this, in turn, may lead to the establishment of similar systems of mass public transportation in other metropolitan areas of the State; and

WHEREAS, There is no provision of law at the present time which requires the co-ordinated planning and development of different methods of transporting people in metropolitan areas, which situation might lead to overlapping and duplication of effort and expense on the part of various governmental agencies engaged in providing transportation facilities for the public; and

WHEREAS, It is thought that the needed co-operative effort among various types of public transportation agencies can be accomplished through voluntary means, pending a detailed study of the need for specific legislation making co-ordination mandatory; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That all state and local governmental agencies having jurisdiction over the planning, development, construction, and operation of public transportation facilities including freeways, highways, toll bridges, roads, streets, vehicular parking, motor transit, rail transit, rail rapid transit, and such other public facilities as relate to the movement of people, are hereby urged to co-operate voluntarily in the joint exercise of their powers as is now permitted by law, in planning and developing public transportation facilities to the end that optimum safety, convenience, efficiency, and economy in the movement of people in metropolitan areas may be achieved; and be it further

Resolved, That the Secretary of the Senate be directed to transmit copies of this resolution to all state and local governmental agencies having jurisdiction over the planning, development, construction, and operation of public transportation facilities including freeways, highways, toll bridges, roads, streets, vehicular parking, motor transit, rail transit, rail rapid transit, and such other public facilities as relate to the movement of people.
