REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Hinckley was granted unanimous consent that the following memorandum be printed in the Journal.

San Bernardino County Bar Association
San Bernardino, May 3, 1965

MEMORANDUM

Legislators Representing All Areas of California:

Reasons Why a Sixth District Court of Appeal (AB 2987) Should Be Created, Rather Than an Additional Division for the Fourth District Court of Appeal (AB 1032)

AB 2987 (Quimby and Hinckley), to create a Sixth District Court of Appeal for San Bernardino, Riverside and Inyo Counties, was introduced April 22, 1965 and has been referred to the Assembly Judiciary Committee

The bill is designed to give immediate relief for the critically high backlog in civil and criminal appeals matters in the Fourth District Court of Appeal (DCA), in accordance with the existing statewide appellate courts system San Bernardino County Bar Association, by unanimous vote of its members at a regular meeting, adopted its Resolution urging introduction and passage of this bill The Resolution authorizes representatives of the Association to appear and to support creation of a Sixth and new "district" court (The needed appellate court facilities are located at San Bernardino, hence our particular interest)

AB 2987 contrasts with the present form of AB 1032 (pending in the Assembly Ways and Means Committee), in that AB 1032 seeks to create a second "division" of the existing Fourth DCA at San Bernardino (a complete novelty in California appellate courts), while AB 2987 follows long established past practice in creating a new court for the burgeoning Inland Empire of Southern California

The new "district" court can be created by appropriate amendment of AB 1032 or by passage of AB 2987 The pros and cons should be heard by the Legislature

Here are the reasons—for a new court (AB 2987) (not a division)—and all are vital and important to each member of the Legislature

(1) *AB 1032 seeks to change the historic plan of the Legislature.* The Constitution established a plan for separate District Courts of Appeal throughout the state, with definite territorial jurisdictional limits for each court, which will have its sessions at a specified city, and, where increasing populations in particular areas (such as Los Angeles or the Bay District) have been the causes in one way or another of excessive appellate workloads, the Legislature in the past has created new "divisions" of the existing courts, sitting in the same cities and under the same roofs (Thus, the DCA at Los Angeles has four divisions, all in the same building at Los Angeles) Where the increased appellate workload has come in substantial part from outside the metropolitan center at which the existing appellate court was seated, the Legislature, historically, has created a new district court (Thus, the Third DCA is at Sacramento, the Fourth at San Diego, and the Fifth at Fresno)

At present, where new divisions have been added, they are located with existing divisions because the courts from which the heavy appeals load originated (the County Superior Courts) and the lawyers and others interested were in the immediate vicinity. Where new district courts of appeal have been created, they have been seated distant from the existing DCA's because they were designed and intended to serve the outer or distant areas from which their appellate workload was forthcoming

The latter is the case here, and AB 2987 follows the historic plan of the Legislature

But, AB 1032 seeks to create a new plan—a novelty—and thus establishing a statewide precedent for (a) all future added courts of appeal to be mere divisions of existing courts, not independent and vital new courts responsive to their own electorate; and (b) changing some or all but one or two of the existing DCA's in California back to divisions of one or two all-powerful DCA's.

San Bernardino, Riverside and Inyo Counties (and possibly Orange County with them, if the Legislature should desire) have had such a marked increase in population and in the incidence of appeals matters that their situation cries out for relief—*but this should not be afforded them as cast-offs or guinea pigs subjected to an unusual and irregular arrangement, differing from that found elsewhere in the state*

AB 1032, if passed, can be pointed to as a precedent for all future new appellate courts and for revising most of the existing ones We would not think this was intended

(2) *The appellate backlog and workload of the six counties presently forming the Fourth DCA, and the present and natural future sources of the same, cry out for relief*

The present arrangement is wholly inadequate It now requires at least 16 months or more from the time a civil appeal is fully briefed and ready to be placed on the present court's calendar for hearing, until the time an opinion is filed The Justices have done a magnificent job in their attempts to control the backlog but should not be expected to exhaust themselves with no possible chance to stem the constantly increasing tide of appeals matters

Beginning with the fiscal year 1961–62 (we begin July 1, 1961 because the Fifth District was carved out of the Fourth and Third DCA's about September, 1961) we find that the appellate filings of the Fourth have been

Year	*Filings*	
1961–62	403 *	* (For comparative purposes this figure should be somewhat lower because of inclusion in the figure given of appeals for at least 2½ months from four counties eventually shifted to the new Fifth DCA)
1962–63	458	
1963–64	546	

And since 10 full months of the current fiscal year (1964–65) have passed, we note that the filings records made available to us show for the first 10/12's of the last full fiscal year, with a logical extension to show what may be expected in the full current year, as follows

Year	*Filings*	*Full Year Filings*
1963–64	(372 + 60)	546 (actual)
(June through April)	432	
1964–65	536 (=10/12's)	643 (=12/12's)
(June through April)		

When the Fourth DCA was created back in the late 20's, the population of the counties assigned to it (they included Kern, Tulare, Kings and Fresno, as well as San Diego, Imperial, Orange, Riverside, San Bernardino and Inyo) was 840,493 (per U S Census) Today the population of only the six counties remaining in the Fourth DCA is placed by the Department of Finance at 3,483,200, and the predicted population for 1970 is 4 269,000 people'

If the new DCA had jurisdiction over appeals from the three counties of Riverside, San Bernardino and Inyo, the geographical area would be such as had a 1960 population of 821,466 (1960 was about the year in which the occurrences which gave rise to the majority of the appellate matters making up the 1963–64 fiscal year workload of the Fourth DCA could have transpired). However, the present population of these three counties, according to the Department of Finance, is 1,036,200 and the predicted figure for 1970 is 1,240,800—50 percent greater than the population which gave rise to the court's present workload'

The 1930 to 1980 population figures for these three counties (U S. Census and Department of Finance) are:

Year	*Population*
1930	221,479
1940	274,257
1950	465,346
1960	821,466
1965	1,036,200
1970	1,240,800
1975	1,263,100
1980	1,703,800

The San Bernardino section of the present Fourth DCA (the court holds regular sessions at San Bernardino by statute) has a backlog (excluding Orange County matters) of some 43 uncalendared civil appeals alone, plus about 35 uncalendared criminal appeals. About 300 filings per year are considered by informed persons as

a sufficient workload for a regular district court of appeal of three justices, and 400 is considered as so excessive as to require urgent consideration of creation of a new court of three additional justices.

What will be the workload of the new court? At the very outset it would have the uncalendared San Bernardino section matters (not including Orange County matters) transferred to it—a total, ready for immediate calendar and hearing, of about 43 civil appeals and 35 criminal appeals (This is in spite of about 43 already transferred by stipulation to the Fifth District) Riverside, San Bernardino and Inyo appeals matters numbered 152 in 1962–63 and 247 in 1963–64. At the end of 10 full months in 1964–65 they totalled 200, so that for the full year about 240–244 or more must be expected. And, with the new court not becoming effective until the last part of 1965 or the first of 1966, it can be seen quite easily that its three justices would more than have their hands full from the very first—for they would be starting with a transferred backlog of 78 or so appeals (43+35), ready to hear and decide. And the trend of increasing numbers of appeals would continue to increase the new court's flow of work, so that for the calendar year 1966, the first year of the court, its burden would be well over 300 *new* matters, plus the backlog of 78 appeals.

This to-be-expected workload is demonstrated not only by the population increase but also by what is happening in the Superior Courts of the counties of Riverside and San Bernardino.

Superior Courts

County	*Total Filings per Fiscal Year*			*Estimated*
	1961–62	*1962–63*	*1963–64*	*1964–65*
San Bernardino	9,600	10,964	11,930	13,322
Riverside	6,727	7,371	8,919	8,974

NOTE The trend indicated by the last figures is in full swing In the first 10 months, only, of 1964–65 the filings for San Bernardino County were 11,102 (indicating a total for the year of 13,322) and for Riverside County of 7,478 (indicating a total for the year of 8,974)

Relief is needed!!

(3) *Creating a Division will Deprive the People of Three Counties of any Practical Voice in the Selection or Rejection of the Justices of the Court*

This is quite serious The precedent, if established, can be extended throughout the state to the great political loss of the people in many vast areas The change cannot be considered lightly

If a new division is created, all appeals must be taken to the Fourth DCA The appellants, the people, the lawyers, the Legislature, will have no control over the answer to the question as to which division will hear particular matters. (The situation worsens as a third and fourth division are later added) Thus, an appeal from Inyo or San Bernardino County can be assigned to the San Diego division, and one from Imperial to San Bernardino However, if the new court is a "district" court of appeal, all concerned will know where the appeal will go and which three Justices will consider it

Justices of a District Court of Appeal come from any county in the district, by tradition and practice However, a separate "division" at San Bernardino could easily have its justices appointed from San Diego or Imperial Counties A *district* court for the three counties would find its justices coming from the three counties of the court—a natural and politically proper arrangement

Control of the identities of justices of district courts of appeal is originally in the Governor, who appoints them, but ultimately the control is (or should be) in the people, who may negative the selection or exercise the right of recall If a division is created, the people of Inyo, San Bernardino and Riverside Counties would have little or no effectiveness at the polls against the population weight of the other three counties—especially if the undesired incumbent is from, let us say, the more heavily populated county

(4) *The Court Should Have Independence and Be the Pride of the Three Counties*

These three counties should not be shortchanged by the establishment of the novelty "division" court The court, if a "district", will be close to the people and the lower courts and their judges—and this is the *best* justice

We know there could be excellent justices from any county of the six selected for the court, but the greatest pride and work of the court and its staff, and the truest response of the court to the people of these three northern counties, will be distilled by creation of a district court Such a court will avoid the unnecessary expenditures of professional time and the expense of extra travel, maintenance of confusing duplicate filing systems, voluminous duplicate appeals indexes, records and briefs, all of which will be required if a "division" is created.

CONCLUSION

The precedent is for a new *district* court of appeal A new "division" would be an experiment and a novelty, and no logical reason can later be offered for not extend-

ing the experiment to all parts of the state A "division" court such as proposed by AB 1032 is not according to the constitutional plan, and will operate to the political detriment of the people of Inyo, Riverside and San Bernardino Counties, and quite possibly Orange and Imperial Counties as well

San Bernardino, Riverside and Inyo Counties would welcome Orange County with them as part of the new district court of appeal, should the Legislature conclude this the wise course

MESSAGES FROM THE GOVERNOR

The following message from the Governor was received, and read:

Message of Governor Edmund G. Brown on MENTAL RETARDATION

To the Senate and Assembly of the Legislature of California

In large measure, this special report and message to the Legislature on mental retardation is a result of the concerns of the late John Fitzgerald Kennedy

He focused the attention of the nation on the unmet needs of our mentally retarded citizens He stimulated the growth of a national awareness of society's responsibility to help every mentally retarded child grow to his full potential and to work for the means of knowledge to prevent this tragic disease

He voiced a national consensus to act on those responsibilities Upon assuming the presidency, Lyndon Johnson reaffirmed his determination to translate that consensus into action He asked the nation's support as he moved ahead vigorously and effectively

Responding to his call, California—as in so many other fields of human concern—led the way

Just a few months after President Kennedy's Panel on Mental Retardation submitted its report, the Legislature created a Study Commission on Mental Retardation and I appointed its members

The pioneering work of this commission is now before us for action We owe our gratitude to the fine men and women of this commission for the earnestness, devotion and intelligence with which they did the job we gave them

They worked for hundreds of hours, attended many meetings and two all-day hearings in different parts of the state When they had formed tentative recommendations, they took them to the people in a series of six regional workshops In all, more than 1,800 professional people, parents and interested citizens joined the commission in its work We owe these individuals, too, a debt of thanks

Our gratitude to the commission members stems not as much from the diligence with which they worked as from what their report, "The Undeveloped Resource," has done to strengthen the people of California in their resolve to be of assistance to the mentally retarded and their families

The commission has given us a clear, unemotional, documented look at the problem of mental retardation It has given us a compassionate insight into the effect that problem works in the lives of hundreds of thousands of Californians

It is upon these facts and these insights I base this message It contains my recommendations for the allocation of the $2½ million I pledged in my budget message for implementation of an action program in this area of grave social concern

The Challenge

Retardation affects the entire age range with impact ranging from mild to severe The Study Commission estimates there are at least 340,000 retarded persons in California today and predicts the total will rise to 400,000 by 1970

A generation ago, there was only one answer to the problem of a retarded child in the home put him in an institution Today, there is an alternative: services closer to home and family

In many cases, such services offer more hope to the retarded person and his family and cost the state less than institutional care

But this alternative has not been sufficiently developed Even today, some 13,000 mentally retarded persons are congregated in our state hospitals and 2,000 more await admission Their families wait with them, with a mounting sense of despair Some 55,000 retarded children attend special classes in the public schools under mandatory education laws The Department of Education says they represent less than 65 percent of the children who *should* be in such special programs The conclusion is clear we can help the retarded, their families, the taxpayers and society as a whole if we develop additional home care, preschool training, special education, vocational training and supervision, and alternate types of living arrangements for mildly and moderately retarded adults

Financing such an ambitious program need not be as expensive to the state as it appears The federal government is willing to help fund many programs, from construction of facilities for the mentally retarded, to welfare, rehabilitation and other services, ranging up to three dollars for every one dollar the state or the community invests

I realize we cannot afford all the recommendations of the Study Commission this year But I believe we can—and must—make an important beginning

Meeting the Need

Our concern for the mentally retarded is a measure of our adherence to one of the oldest and deepest tenets of western civilization a reverence for human life and human potential As we prize the life of the handicapped person and seek to help him develop to the limit of his capacity, we prove our right to be called civilized Our major means toward this goal should be education and rehabilitation, not merely protection and custody Society's as well as the individual's interest can be served here if the retarded can become more self-sufficient and productive, some may become taxpayers and more active participants in our society In any event they will require less expensive services from society than if they were totally dependent

Achieving these worthy ends for the individual and for society will involve a wide range of state departments and programs the Department of Mental Hygiene, with its state hospitals and program of community services, the Department of Education, with its relationship to the thousands of special classes throughout the state, the Department of Social Welfare through its program of Aid to the Disabled and other public assistance, the Department of Employment with its services to handicapped job seekers, the Department of Rehabilitation through its concern for developing the potential of the retarded for the competitive labor market and providing the services they require in sheltered workshops, the Department of Public Health through its Bureau of Crippled Children Services and other units

The first requirement of humane and effective help to the mentally retarded and their families is four pronged:

1 Locating the mentally retarded through case finding
2 Diagnosing the extent and severity of the case
3 Referral to appropriate treatment
4 Counseling with the families of the mentally retarded on a continuing basis to help them make the best use of available services for themselves and their loved ones

The work of the President's Panel on Mental Retardation and our own Study Commission agree on these points They are further confirmed by the independent investigations of the Subcommittee on Mental Health Services of the Assembly Interim Committee on Ways and Means

These joint conclusions are embodied in AB 601 now before the Legislature I strongly support this measure and urge your approval of it

If you enact this legislation, the State Department of Public Health will contract for the establishment of regional centers to provide diagnosis by qualified teams of professional persons, skilled counseling with families, and assistance in obtaining appropriate services for the mentally retarded

As part of the diagnostic and counseling service, the regional center will assist the family to find and use whatever state or community services are appropriate to the needs of the retarded individual It will give families greater freedom of choice among the types of care available In those cases where the retarded person would otherwise go to a state hospital, the regional center will provide state funds, made available through the Department of Public Health, to vendors of alternative services

Eventually, there may be a need for as many as 10 regional diagnostic and counseling centers throughout California to achieve the vision of the subcommittee and the Study Commission of a network of centers available to every California family within a two-hour drive For the fiscal year immediately ahead, I recommend the establishment of two Operation of the centers during fiscal year 1965-66 will require $300,000 When they are in full operation, it is probable that the two centers together will spend an additional $1,200,000 a year to purchase services for retarded persons and provide supervision of those services This should provide more than 700 placements in private care facilities

The Department of Public Health aids the mentally retarded and the potentially retarded in other ways through the Bureau of Crippled Children Services, the Bureau of Maternal and Child Health, and the Hereditary Defects Unit The department's budget requests for continuance of these services are the absolute minimum we can do in these areas and still meet our responsibilities

To better meet them, I urge the enactment of a bill which will put to use the scientific knowledge of the Department of Public Health already available for the prevention of mental retardation AB 72 directs the department to design tests and regulations for the early detection of phenylketonuria (PKU) and other preventable heritable disorders Such tests can avert the personal tragedy and loss to society caused by preventable mental retardation

Hospitalization of the Retarded

The primary function of our state hospitals for the mentally retarded should be to offer to those who need it direct medical and psychiatric services and intensive nursing care under medical supervision

Presently, our hospitals are hindered in this work.

There are 2,000 retarded persons—most of them children and most of them severely handicapped—now awaiting admission to our state hospitals so they may get such care and services

Too frequently, their places are occupied by retarded persons whose needs are not for true hospital care and could be better met elsewhere

The Department of Mental Hygiene predicts approximately 1,000 hospital beds will become available during fiscal 1965–66 due to departures for home leave, family care placement and other actions. Additionally, 200 new beds at Sonoma State Hospital will further reduce the waiting list

But recent experience suggests that the hospital waiting list will continue to grow at the rate of 1,800 persons a year

The size of the waiting list and the population pressures within the hospitals constitute a crisis which we must move vigorously to solve

Part of the solution is the development of effective alternatives to hospital placement

- The establishment of the regional diagnostic and referral centers which I have urged will aid in this task But there is more we must do
- The budget before you appropriates $250,000 for care in private institutions of 120 patients, who otherwise would be in state hospitals

I recommend doubling that amount to allow for placement in private nursing care institutions of an additional 120 patients, most of them severely handicapped children

The future annual cost of private care for these 240 patients will be $500,000 This investment in private care will provide adequate, appropriate care for them, will help relieve crowding in our state hospitals, will help to reduce the waiting list, and will make unnecessary the construction of 120 additional state hospital beds at an estimated cost of $1,800,000

With the development of alternative methods of care, the Department of Mental Hygiene will admit to the state hospitals only those persons who need the true hospital services I have described

Hospital Construction

I have said development of alternative care is part of the solution to the problem of the waiting list and hospital crowding

Despite that effort and the expansion of private placement, there will be a need for new hospital construction in the years immediately ahead for two main reasons:

1 Our continuing, phenomenal population growth will mean an increase in the number of mentally retarded persons requiring hospital care

2 The advance of medicine has meant an increase in the life expectancy of the severely handicapped

Assuming the development of alternative methods of care of which I have spoken, it has been estimated that by 1970 we will need 2,000 more hospital beds to care for this expanded mentally retarded population

The Legislature has given the Department of Mental Hygiene $75,000 for architectural planning of a new 350 bed hospital in the South Peninsula area My capital outlay budget proposes an additional $300,000 for the next steps in planning this hospital

On this point, let me assure you we will construct no more large "warehouses" for the mentally retarded Instead, we will build the smaller hospitals which, by size and location better serve the retarded and are more efficient and economical to operate

Residential Training and Rehabilitation Centers

As the state hospitals become truly and exclusively medical institutions and as community facilities are developed further for those who should and can remain in or near their own homes, a significant gap in the continuum of services remains. It is a state facility for the retarded who need training and rehabilitation in a residential setting but whose needs are not primarily medical

Here is a matter of great human concern With our help, many mentally retarded Californians and their families can exchange the torment of hopelessness and despair for the satisfaction of a life lived to its fullest capacity To extend this help, I propose the establishment of residential centers housing no more than 500 persons each in small cottage units Their primary focus will be on training and rehabilitation I ask that you give the Department of Rehabilitation authority to establish and provide this service by approving AB 2855

There are about 3,000 young people and adults occupying beds in our state hospitals or on the hospital waiting lists who could benefit from training and rehabilitation in such a protected environment

Financing may be accomplished in large part with federal funds Operation of the centers can be paid for with 50 percent federal matching funds under present law, and if amendments now pending to the Federal Vocational Rehabilitation Act are adopted, the federal share may go up to 75 percent

To launch this new departure in services to the mentally retarded, I am requesting $300,000 of bond funds in the Department of Rehabilitation budget for working drawings

In another area, the Department of Rehabilitation has moved toward closer cooperation between rehabilitation counselors and local school officials in working with retarded and handicapped youngsters while they are still in school You will make it possible to extend these efforts by approving the expenditure of $750,000 of federal funds by the Department of Rehabilitation for additional counselors This expenditure involves no cost to the state The budget provides a like amount for placement of rehabilitation counselors in the Department of Mental Hygiene to serve the mentally ill and those retarded who have a reasonable prospect of vocational training and return to community living

Administration of Programs

The Department of Mental Hygiene has developed and I have approved plans for establishment of a Division of Retardation Services to achieve more effective program direction By consolidating headquarters management of the various retardation services and by organizing and staffing field services on a geographic basis in order to provide continuity of care and maximum benefit for the patient and his family, we can better develop our "undeveloped resource"

Responsibilities of the new division will include inpatient care in the state hospitals, outpatient services for department patients, and continued development of such programs as family care and private institution placement, brief hospitalization for crisis situations, and day treatment programs Outpatient services will include medical screening of referrals for hospital admission, including referrals from the regional diagnostic and counseling centers, plus medical services required for patients placed in family care homes, on home leave, or in private institutions

To fund this major improvement in the ability of the department to serve the mentally retarded, I am requesting $825,000 for fiscal 1965-66 During your hearings of this request, the administration will present the plan in complete detail We also will spell out our request for an additional $44,000 for the Bureau of Private Institutions to provide licensing and inspection of the private facilities in which the mentally retarded are placed

Efficient administration of sound programs depends heavily upon continuing evaluation of problems and how they are being met It depends, too, upon continuing planning to meet new problems with the new knowledge and techniques being developed out of research and experience throughout the nation

To fill this important function, I propose the creation within the Health and Welfare Agency of a program coordinator and a board advisory to the agency

Through this mechanism, we can funnel into our program efforts advance planning and evaluation based upon the best available knowledge and the coordination among the departments of state government necessary for the best use of the resources we make available

To finance this activity, I am requesting $100,000

Education of the Mentally Retarded

In 1959 you authorized the establishment of four pilot child care centers for retarded children who did not qualify for admission to special classes in the public schools Since that time, programs have been established in Stockton, Oakland, San Jose and Seaside and have proved their value Legislation has been introduced to rename the centers "development centers for handicapped minors," to make the program permanent and to remove the limit of four I endorse such action as a high priority and I urge the enactment of the bill and the appropriation of a total of $250,000 to finance the centers in fiscal year 1965-66, which would double the existing program

SB 1119 has been introduced to create appropriate four-year high school programs for "educable" retarded youths The bill requires no additional funds I urge its passage

To strengthen our ability in special education, I request the appropriation of $50,000 for development of curriculum in classes designed for "educable" and trainable retarded and support AB 451 which aims at this purpose

CONCLUSION

The recommendations I have made to you in this special message are an index of my concern that state government meet its responsibilities to the mentally retarded and their families, to our society, and to our moral commitment to humanity. They comprise what I consider to be a bold and imaginative step toward the fulfillment of those obligations within the requirements of fiscal responsibility

Beyond these recommendations lies a substantial agenda of unfinished business and unmet need which must continue to have our attention and concern

Between now and the next general session of the Legislature, my administration will be working with legislators, with the parents groups, whose selflessness and dedication have done so much to better the lives of the retarded, and with all concerned citizens on action to complete that agenda

To recapitulate the budget implications of the foregoing recommendations, here are the items which I believe merit action at this session

MESSAGES FROM THE GOVERNOR

The following veto message from the Governor was received, and read.

Veto Message

State of California, Governor's Office
Sacramento, May 11, 1965

To the Honorable Members of the Assembly
State of California, Sacramento, California

Greetings I am returning herewith, without my signature, Assembly Bill No 1160 entitled "An act to add Chapter 4 (commencing with Section 30910) to Division 17 of the Streets and Highways Code, relating to the Folsom Lake Access Road and Bridge Authority"

While I appreciate the problem of adequate access to areas surrounding Folsom Lake, I do not believe that the solution rests in the creation of a special access road authority with revenue-raising powers It is poor public policy to create such an authority without clear-cut limitations and controls

To do so in this case, and in similar situations in the future, would lead to an unwarranted proliferation of public agencies Special toll districts are not proper alternatives to our system of free public highways

Accordingly, I am returning the bill without my signature

Respectfully submitted,

EDMUND G BROWN, Governor

WILLSON, Chairman

SECOND READING OF BILLS—AUTHOR'S AMENDMENTS

Assembly Bill No. 337—An act to repeal Sections 89 and 134 of the Civil Code, and to amend Section 426a of the Code of Civil Procedure and to amend Section 26859 of the Government Code and to amend Section 10000 of, and to repeal and add Chapter 6 5 (commencing with Section 10360) of Division 9 of, and to add Article 4 (commencing with Section 10620) to Chapter 12 of Division 9 of, and to add Sections 10000 1, 10038, and 10584 to, the Health and Safety Code, relating to vital statistics, and making an appropriation.

Bill read second time

Consideration of Author's Amendments

The following amendments, pursuant to the Assembly Rules, were read, and adopted:

Amendment No. 1

On page 1, strike out line 1 of the printed bill, as amended in Assembly April 20, 1965, and insert

"SECTION 1 The Legislature finds and declares that adequate, accurate and accessible information about divorces, annulments, and legal separations which occur in this state is of vital importance to the persons involved, legislators who must make important decisions relating thereto, and scholars and researchers attempting to aid in the solution of marriage and divorce problems through collection and analysis of relevant data

The Legislature recognizes that California is one of a small minority of states which keep such minimal records concerning divorce that they are ineligible to participate in the Divorce Registration Area established by the National Office of Vital Statistics as a comprehensive program aimed at improving vital statistics collection throughout the country concerning vital events in the lives of our people, such as birth, marriage, death and divorce The result is that California does not have basic vital statistics information about divorces occurring within the state The present system does not serve effectively either the purpose of a statewide index or to furnish basic vital statistics data regarding divorce

It is the intent and purpose of the Legislature to upgrade California's information gathering procedures in order to bring more information into accessibility for the legal and other professions which need this data and to make possible more enlightened and detailed studies of the divorce phenomenon as an aid to remedial legislation The procedures set forth herein, creating a Certificate of Divorce Registry, represent no innovation, but merely the extension of long established methods and procedures for obtaining basic vital statistics data The Legislature recognizes, however, that the completion of a birth or marriage certificate is usually a happy occasion in the lives of the persons concerned, that the information furnished on the death certificate seldom may be detrimental to the deceased or survivors, but that the execution of the certificate of divorce occurs at a time of great trauma for the parties involved and, because of the adversary nature of divorce litigation, may be used to their detriment if not properly protected For these reasons, intent of the Legislature is to encourage the furnishing of accurate and truthful data by protecting the information so furnished Accordingly such data is expressly deemed confidential and shall not be made available to anyone except those expressly authorized by the Legislature in this legislation

SEC 1 5. Section 89 of the Civil Code is repealed "

Amendment No. 2

On page 1, strike out lines 12 to 17 inclusive; and on page 2 strike out lines 1 and 2, and insert "of the Health and Safety Code The clerk shall accept the complaint for filing, whether or not said information is then furnished. At any time after

the filing of the complaint, the defendant may also furnish such information, whether or not it has been first furnished by the plaintiff The clerk shall take all ministerial steps required of him in the action, whether or not such information has been furnished, but the clerk shall advise the court, at the time set for any hearing, if at such time no party has furnished such information In such cases, the court may decline to hear any matter encompassed within the action if good cause for such failure to furnish information has not been shown

The court's inquiry in such cases shall be confined solely to the question of the existence of good cause for not furnishing the information, and such report and the contents thereof shall not be admissible in evidence and shall not be furnished to the court"

Amendment No. 3

On page 2, strike out lines 15 to 20, inclusive

Amendment No. 4

On page 3, line 15, after "10361", insert "(a)".

Amendment No. 5

On page 3, line 20, strike out ", legislative"

On page 3, line 23, after "without", insert "substantial".

Amendment No. 7

On page 3 between lines 24 and 25, insert

"(b) All information and reports required to be filed and prepared under the authority of this division shall be made available to any duly constituted legislative committee of the State Legislature upon the request of such committee"

Amendment No. 8

Amendment No. 9

On page 5, line 28, after "1966", insert ", and shall remain in effect until December 31, 1969".

Bill ordered reprinted, re-engrossed, and to be re-referred to the Committee on Judiciary

Statement Ordered Printed in the Journal

The following statement was ordered printed in the Journal:

Congressman James B Utt today blasted the Administration for its inept handling of the farm labor in California The following are his remarks in the House today:

"Mr Speaker·

"I take this opportunity to call the attention to the members of the House to the desperate crisis faced by the small specialty crop farmer Millions of dollars worth of strawberries and other specialty crops are rotting and being plowed under The situation has reached catastrophic proportions Agriculture is California's largest industry and California economy will suffer at least a billion dollar loss in 1965 due to the inability of the farmer to secure labor to harvest his crops In one small area, 40,000 crates of strawberries will rot on the vine each day In my own district, the daily losses are greater It costs $2,500 to produce one acre of strawberries So for each 20 acres of strawberries, there is a $50,000 loss to the farmer. There are also losses suffered by the carriers, packers, truckers and manufacturers of containers Last year the labor costs of one of the growers in my district were $250,000, $90,000 of which was paid to braceros and $160,000 was paid to American workmen There will be no such payroll this year. I have done all that I can to get relief from Secretary Wirtz and from Governor Brown Secretary Wirtz does not even acknowledge my telegrams I have proposed the following remedies.

"(1) I have requested President Johnson to declare the agricultural areas of California as disaster areas and to transfer one billion dollars from unexpended, unobligated funds in the foreign aid accounts to be made available to the small farmer and worker in California who have suffered losses because of this man-made disaster

"I have here pictures of rotting strawberries and of a farmer plowing up his strawberry patch This condition also exists in asparagus and other needed agricultural products

"Again I say, this is a manmade catastrophe but it is just as deadly as a tornado, an earthquake or a flood and could have been avoided by an Administration with a heart"

Relative to an interim study of the restoration of osteopathic licensure

WHEREAS, Duly qualified members of the osteopathic profession have enjoyed the privileges of licensure in the State of California since before 1900; and

WHEREAS, The merger of the two private professional associations of physicians that took place in 1962 will not be damaged in any way by the re-establishment of licensure of osteopathic physicians and surgeons; and

WHEREAS, By the enactment of the referendum measure appearing on the November, 1962, ballot as Proposition No. 22, the electorate of the State of California directed the Legislature to henceforth make indicated and necessary changes in the laws regarding osteopathic licensure; and

WHEREAS, The osteopathic profession enjoys complete recognition on an equal basis with the medical profession in all federal programs relating to health services; and

WHEREAS, Current graduates of the five accredited osteopathic colleges in the United States enjoy the privilege of licensure in all of the states, excepting California; and

WHEREAS, At the present time there is no provision under California law for the licensure of current graduates of the five accredited osteopathic colleges; and

WHEREAS, It is proper that the complexities of these matters receive official investigation before the presentation of proposed legislation to the Legislature of the State of California, now, therefore, be it

Resolved by the Assembly of the State of California, That this matter be referred to the Rules Committee for assignment to the appropriate committee for interim study, which committee shall report thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature.

Before Thee, Father, in righteousness and humility,
With Thee, Brother, in faith and courage,
In Thee, Spirit, in stillness
Thine—for Thy will is our destiny.

Office of the President, May 11, 1965

California Legislature, State Capitol
Sacramento, California

Dear Mr Unruh I trust that you can appropriately extend to the Assembly my personal appreciation and that of my colleagues at Fresno State College for the resolution which the Assembly issued on the occasion of my inauguration as the fourth president of Fresno State College.

It is my hope and confident expectation that this institution will continue the high quality of service which it has historically provided for the people of the State of California.

The following communication was presented by the Speaker pro Tempore, and ordered printed in the Journal:

28175 Ruus Road
Hayward, May 12, 1965

Mr Carlos Bee
State Capitol Building
Sacramento, California

Dear Sir. This is a letter from a very happy person

I've had a nervous breakdown and had a stay at Agnews State Hospital and I'm now considered stable and "have been for a long time" to quote my psychiatric social worker, Mrs James

The care I've had has just been wonderful Because I've been divorced and without alimony I've had to depend on the aid of the State for hospitalization and rehabilitation The attention I've received couldn't be better if I could afford to pay a very good price

My social worker referred me to the "State Rehabilitation" service where I was given aptitude tests and then training for office work, also they sponsored some very much needed glasses Mr. Meek is my present counselor there.

At present I m referred to the Department of Employment, Oakland Adult Project #568—to be helped in finding a position The help I'm receiving is just lovely—as soon as a job fits my needs, I know they will place me on it They are more than accommodating

After a few months of training that I took through the State Rehabilitation I was placed on a temporary job and did very satisfactory work, so I have some experience along with my training to offer when I look for a job. It has been seven years prior to this that I held a position in an office I did another type of work that didn't pay as well in that interim period

These details are given just to let you know how careful everyone has been to help me in my readjustment

Because all of this I've written about has been sponsored by State funds, I thought you should know and would be pleased to know of the excellent work they are doing through the Mental Hygiene and the other branches of help I've mentioned

I couldn't forget to mention my fine doctor, Dr Hansen He certainly is a skilled psychiatrist There have been others, but he has been the latest

This is the best way I can think of to thank them because I know that you have their interest at heart

Sincerely,

MARIE F McCALL

RESOLUTIONS

The following resolution was offered.

By Assemblyman Monagan

House Resolution No 486

Relative to the inception times of insurance policies

WHEREAS, Some insurance policies, such as the Standard Fire Policy, take effect at noon, while others such as the usual auto policy take effect at 12 01 a m , and still others do not have an inception time established by the nature of the policy, but must be individually examined , and

WHEREAS, When a member of the public buys an insurance policy to be effective on a certain day, he will ordinarily expect that it will be effective for the whole day , and

WHEREAS, There is a danger in having many specially designed policy inception times in that it is possible for an insured to change from a policy issued by one company to a policy issued by another and have a 12 hour lapse in coverage , and

WHEREAS, The public should be protected from the application of a technicality which could seriously injure an individual insurance buyer , and

WHEREAS, The insurance industry should assume the responsibility for establishing the time of day at which insurance policies take effect in order to protect the insuring public , and

WHEREAS, The National Association of Insurance Commissioners is a responsible association of insurance industry regulatory officers, now, therefore, be it

Resolved by the Assembly of the State of California, That the Members thereof urge the National Association of Insurance Commissioners to consider and work for the adoption by the insurance industry of uniform inception times for all insurance policies , and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to each member of the National Association of Insurance Commissioners

PRAYER

Upon invitation of Speaker pro Tempore Bee, the following prayer was offered by Honorable Carley V Porter, Member of the Assembly, 38th District.

Lets us pray, As we enter the closing week, of this session, we have by now suffered some defeats and frustrations, and we may have won some victories. Let us not fret about the defeats or frustrations for they will fade and pass from our memory In our moments of victory let us guard against suffering personal conceit, always remembering that whatever good we may do here is only good when it is pleasing in the sight of our Lord We do not own these positions of responsibility which allow us to make decisions affecting the lives of our people They are only loaned to us temporarily by those who have entrusted us to make their laws Be with us, our Father, in our lawmaking and let us always remember that Thy Son, the King of Peace, was the greatest of all lawmakers —AMEN

Article 3 Provisions for Increase and Decrease of Maximum Tax Rates of School Districts

20803 Any maximum rate of tax for any district may be increased and, having been increased, may be decreased by an amount equal to or less than the amount of such increase, by a majority vote of the qualified electors of the school district at an election which may be ordered by the governing board of the school district of its own motion and shall be ordered within 90 days after the filing with the governing board of a petition signed by not less than 10 percent of the registered voters of the

district, requesting that an election be ordered, unless the petitioners request that the election be consolidated with the annual election for members of the governing board, or that the election be consolidated with the general election

Any decrease in an increased maximum tax rate pursuant to this section shall not be in an amount which will reduce the tax rate for the district below the maximum specified in Section 20775. The governing board shall determine whether the increase or decrease shall remain in effect for a specified or unspecified period of time, unless the petition filed by the electors provides for a specified or unspecified period of time. If a specified period is provided for in the petition or determined upon by the governing board, such period shall be stated on the ballot.

Pursuant to the order of the governing board, the election shall be called, held, and conducted by the county superintendent of schools, as nearly as is practicable in accordance with the provisions of Chapter 6 of Division 4 of this code. The statement of the purposes of the election in the said notice of election shall contain only the following:

(a) The amount of the proposed decrease or increase in the maximum tax rate. If the proposed increase is a continuation of a previously authorized tax rate that fact shall be so stated.

(b) A brief summary of the issues involved.

The specification of the election order shall contain the text of the statement of the purposes of the election in the form in which it is to appear on the said notice of election. The same information shall be furnished the county superintendent of schools by the governing board of the district for all maximum tax increase or decrease elections ordered by it.

The costs incurred by the county clerk or registrar of voters and the county superintendent of schools in connection with this section shall be paid out of the funds of the district.

Except as otherwise herein provided, the ballot used in the election shall contain substantially the words "Shall the proposed (increase decrease) in the maximum tax rates from _____ to _____, (such rate to be in effect in the _____ school district for the school year (or years) 19___ to 19___) be authorized?" Opposite such words, in separate lines, the words "Yes" and "No" shall be printed, with a voting square opposite each such word. If, at any prior election held in the district, the maximum tax rate of the district was increased for a specified period of time, and if the election is called for the purpose of continuing in effect the previously authorized increase in the maximum tax rate of the district, the words to appear on the ballot shall be "Continuation of existing maximum tax rate of _____ for the school years 19___ to 19___, yes" and "Continuation of existing maximum tax rate of _____ for the school years 19___ to 19___, no" or words of similar import. Each voter shall stamp or print a cross in **the voting square after the answer he desires to give.**

If a proposal is submitted to the electors under this section for an increase or decrease in the maximum tax rate, the ballot shall show the maximum tax rate of the district which will be in effect if the proposal is defeated. If a proposal is submitted to the electors under this section for the continuation of a prior increase authorized for a specified time, the ballot shall show the maximum tax rate which will be in effect in the district at the end of such specified time if the proposal is defeated. If a proposal is submitted to the electors under this section for an additional increase while a prior authorized increase is still in effect, the ballot shall show the maximum rate which will be in effect in the district if the proposal is defeated, and, if the prior authorized increase is for a specified time, the ballot shall also show the maximum tax rate which will be in effect in the district at the end of such specified time if the proposal is defeated.

If an election for a decrease in an increased maximum tax rate of a district is held in any year prior to or concurrently with the district election for governing board members, any decrease adopted at such election shall become effective on July 1st following the election. If an election for a decrease in an increased tax rate of a district is held in any year after the date of the district election for governing board members, any decrease adopted at such election shall not become effective until July 1st of the next succeeding year.

20804. Any such increase in tax rates shall remain in effect only for the period specified on the ballot, if such period was specified by the governing board.

20804.1. When either a separate high school district, the boundaries of which are not coterminous with a junior college district, or a unified school district, operates a junior college and has, pursuant to the provisions of Section 20803, increased the maximum tax rate otherwise applicable to the district, and thereafter, while such increased tax rate continues in effect, ceases to operate the junior college, the maximum tax rate as so increased shall, beginning with the school year in which the district ceases to operate the junior college, be reduced by thirty-five cents ($0.35) on each one hundred dollars ($100) of assessed valuation.

20804.3. Notwithstanding any provision of law to the contrary, no election for the purpose of increasing or decreasing any maximum tax rate for any school dis-

trict shall be held within 45 days before a statewide election or within 45 days after a statewide election unless conducted at the same time as such statewide election, subject to the provisions of Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code

20805 Any election called pursuant to Sections 20801 to 20804, inclusive, may be consolidated with any other election pursuant to the provisions of Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code"

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Mulford was granted unanimous consent that the following Opinion of Legislative Counsel be printed in the Journal:

Opinion of Legislative Counsel

Office of Legislative Counsel
Sacramento, April 30, 1965

Honorable Alfred H. Song
Assembly Chamber

A.B. 1920: University of California—No. 17766

QUESTION

Dear Mr. Song: You ask us to consider the constitutionality of Assembly Bill No. 1920, of the 1965 Regular Session of the Legislature, as amended in the Assembly on April 29, 1965 by reviewing various arguments against its constitutionality.

OPINION AND ANALYSIS

Assembly Bill No. 1920 of the 1965 Regular Session of the Legislature, as amended in the Assembly on April 29, 1965, adds Section 602.7 to the Penal Code, to read:

"602.7 (a) In any case in which *a person who is not a student or officer or employee* of a state college or state university, and who is not required by his employment to be on the campus or any other facility owned, operated or controlled by the governing board of any such state college or state university, enters such campus or facility, and *it reasonably appears* to the chief administrative officer of such campus or facility, or to an officer or employee designated by him to maintain order on such campus or facility that such person is committing any act *likely to interfere with the peaceful conduct of the activities of such campus* or facility or has entered such campus or facility for the purpose of committing any such act, the chief administrative officer or officer or employee designated by him to maintain order on such campus or facility may direct such person to leave such campus or facility, and if such person fails to do so, he is guilty of a misdemeanor. (Emphasis added)

"(b) As used in this section:

"(1) 'State university' means the University of California, and includes any affiliated institution thereof and any campus or facility

owned, operated or controlled by the Regents of the University of California

"(2) 'State college' means any California state college administered by the Trustees of the California State Colleges

"(3) 'Chief administrative officer' means the president of a state college or the officer designated by the Regents of the University of California or pursuant to authority granted by the Regents of the University of California to administer and be the officer in charge of a campus or other facility owned, operated or controlled by the Regents of the University of California" (Emphasis added)

We know of no constitutional principle guaranteeing to the public access to all publicly owned property, or, particularly property devoted to the use of a publicly owned college or university.

With respect to the University of California, the State Constitution declares that the title to the property of the University is vested in the Regents which is given all powers necessary or convenient for the effective administration of the university and its property subject only to laws of general statewide concern (Cal. Const. Art. IX, Sec. 9; *Tolman* v. *Underhill* (1952), 39 Cal. 2d 708).

Moreover, we have found a statute prohibiting trespass on University of California property which has been law in California since 1929 (Ch 514, Stats. 1929). This statute was codified in 1955 as Article 3 (Sections 558 and 558 1) of Chapter 13, Title 13, Part 1 of the Penal Code (Ch. 41, Stats. 1955), to read

"Article 3. Trespass on Property Belonging to the University of California

"558. Every person other than an officer, employee or student of the University of California, or licensee of the Regents of the University of California, is forbidden to enter upon those lands bordering on the Pacific Ocean in San Diego County, which were granted by Section 1 of Chapter 514 of the Statutes of 1929 to the Regents of the University of California for the uses and purposes of the University of California in connection with scientific research and investigation at the Scripps Institution of Oceanography, or upon state waters adjacent thereto, or to trespass upon the same, or to interfere with the exclusive possession, occupation, and use thereof by the Regents of the University of California

"Nothing herein contained shall be deemed or construed to affect in any manner the rights of navigation and fishery reserved to the people by the Constitution

"558 1 Every person who violates any of the provisions of Section 558 is guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than three hundred dollars ($300) or by imprisonment for not more than 30 days, or by both such fine and imprisonment."

We are aware of no cases in which this statute has been challenged on constitutional grounds in the many years that it has been on the books.

If a statute allowed an agent or officer of a state college or university to "indiscriminately" order the public off the campus and if by "indiscriminately" it is meant that the statute is such that it authorizes the sweeping exclusion of all members of the public, we do not think that it would be invalid because of such broad scope Particularly we do not think that such a broad statute would be deemed arbitrary and capricious It would seem to be within the discretion of the Legislature to conclude, and to implement its conclusion, that the work of a college or university is best carried out without distractions that might result from presence of members of the public

The statute before us however does not authorize "indiscriminate" action, but rather it spells out a basis on which the authorities shall determine who shall be ordered to leave and who shall not. A fortiori, we think such a statute would be upheld

It is contended, however, that the standards proposed in A B 1920, establish subjective rather than objective tests as a basis for enforcing a campus trespass statute, thereby rendering the bill unconstitutional as an arbitrary and capricious deprivation of liberty without due process of law

The standard by which the actions of campus officers are to be guided under A B 1920 is the well known reasonable man test embodied in the terms "it reasonably appears," and "likely to interfere with the peaceful conduct of the activities" (see generally 41 Harvard L R 1). The term "likely" had been held to mean probable rather than possible (See *Nevis* v *Pacific Gas & Electric Co* (1954), 43 Cal 2d 626, 632, *Hay* v *Tormich* (1926) 199 Cal 545, 554, *Horning* v. *Gerlach* (1934), 139 Cal. App 470, 473) The tests of reasonableness and probability are objective rather than subjective standards (41 Harv. L R 1, 8, Prosser, *Law of Torts*, p 124) Thus in a proper set of circumstances a court will have familiar yardsticks by which to guage the conduct of officers enforcing the provisions of A B. 1920 to determine whether the law has been arbitrarily enforced.

Thus, although constitutional rights may be denied by the manner of enforcing a law, it is generally held that officers will obey the constitution and that it is not assumed that they will act arbitrarily, capriciously or maliciously or in such manner as to produce inequity. (See, generally 16 Am Jur 2d "Const Law" Sec 151; 16 C J S. "Const Law" Sec 100, p 468) Therefore, it is our opinion that A B 1920 on its face would be held to be constitutional if challenged on such due process grounds

It is also contended that the power to request outside persons to leave campus, even if limited by a standard of reasonableness with respect to the conduct of the officers, violates the right of free speech

Again, it is our opinion that no such constitutional problem arises on the face of the provisions of A B. 1920.

We have previously noted that we know of no right of the public to go onto state university or state college property because it is publicly owned. We know of no authority placing such property in the same class as streets for purposes of speech or other purposes relevant to this opinion. However, as indicated below, even speech on the streets is subject to regulation.

Freedom of speech is not an unlimited right It is well established that speech may be regulated as to time, place and manner, though not as to content except insofar as the clear and present danger test applies (*Hague v CIO* (1938), 83 L Ed 1423, 1436-1437)

The recent U S Supreme Court decisions in the *Cox* cases present a fine summary of free speech and due process issues applicable to the problem presented here (*Cox v Louisiana* 13 L Ed 2d 471, 483–486; *Cox v Louisiana* 13 L Ed 2d 487, 490–492, hereafter referred to as *Cox I* and *Cox II*)

In these cases, Cox, a civil rights leader, was convicted of breach of the peace, obstructing public passages and picketing before a courthouse under various Louisiana penal statutes

The Supreme Court reversed all the convictions on the basis that as applied to Cox in the particular case, his free speech, lawful assembly and due process rights were infringed The court also held that the breach of peace statute, as construed by the Louisiana courts was unconstitutionally vague on its face, but this part of the decision is not applicable here

The court stated the guidelines for determining the validity of statutes challenged on free speech or due process grounds, emphasizing the difference between the validity of a statute on its face and the validity of a statute as applied in a particular case

On pages 484 to 486 of *Cox I*, the court, after citing a long line of leading First Amendment cases, said

> "From these decisions certain clear principles emerge The rights of free speech and assembly, while fundamental in our democratic society, still do not mean that everyone with opinions or beliefs to express may address a group at any public place and at any time The constitutional guarantee of liberty implies the existence of an organized society maintaining public order, without which liberty itself would be lost in the excesses of anarchy The control of travel on the streets is a clear example of governmental responsibility to insure this necessary order A restriction in that relation, designed to promote the public convenience in the interest of all, and not susceptible to abuses of discriminatory application, cannot be disregarded by the attempted exercise of some civil right which, in other circumstances, would be entitled to protection One would not be justified in ignoring the familiar red light because this was thought to be a means of social protest Nor could one, contrary to traffic regulations, insist upon a street meeting in the middle of Times Square at the rush hour as a form of freedom of speech or assembly Governmental authorities have the duty and responsibility to keep their streets open and available for movement A group of demonstrators could not insist upon the right to cordon off a street, or entrance to a public or private building, and allow no one to pass who did not agree to listen to their exhortations (cases cited)
>
> "We emphatically reject the notion urged by appellant that the First and Fourteenth Amendments afford the same kind of freedom to those who would communicate ideas by conduct such as patrolling, marching, and picketing on streets and highways, as these

amendments afford to those who communicate ideas by pure speech.

We reaffirm the statement of the Court in Giboney v Empire Storage & Ice Co, supra, 336 US at 502, 93 L ed at 843, that "it has never been deemed an abridgment of freedom of speech or press to make a course of conduct illegal merely because the conduct was in part initiated, evidenced, or carried out by means of language, either spoken, written, or printed"

"It is, of course, undisputed that appropriate, limited discretion, under properly drawn statutes or ordinances, concerning the time, place, duration, or manner of use of the streets for public assemblies may be vested in administrative officials, provided that such limited discretion is "exercised with 'uniformity of method of treatment upon the facts of each application, free from improper or inappropriate considerations and from unfair discrimination' [and with] a 'systematic, consistent and just order of treatment, with reference to the convenience of public use of the highways' *Cox* v *New Hampshire*, supra, 312 US at 576, 85 L Ed at 105, 133 ALR 1396 See *Poulos* v *New Hampshire*, supra"

In *Cox II*, though reversing the conviction because of an improper enforcement of the law, the court held that a statute prohibiting picketing in or near a courthouse for the purpose of interfering with the administration of justice, was valid on its face, this because it is a legitimate governmental objective to regulate conduct which interferes with the orderly administration of justice, even if the conduct is intertwined with or initiated by expression or association (*Cox II*, p 491)

Similarly, it is our opinion that a court would hold that it is a legitimate public purpose for the Legislature to determine that conduct which is likely to interfere with the orderly progress of campus activities be subject to appropriate regulation

In such case, and even assuming that there is some right of the public to come onto such a campus to express itself, we find it difficult to understand how any person may be said to have an unrestricted right to enter upon a university or college campus and speak without limitations as to time, place and manner being provided for by the campus administration Of course, the purpose of the regulation of speech must not be arbitrary or unreasonable (*Konigsberg* v *State Bar of California* (1958), 6 L Ed 2d 105) In this regard, we view the orderly conduct of campus activities as an eminently reasonable basis upon which to regulate the noncontent aspects of speech Therefore, we conclude that on its face A B 1920 would be upheld against a free speech challenge

We understand also that A B 1920 has been challenged as an unconstitutional denial of equal protection of the laws under the fourteenth amendment

Judicial inquiry under the Equal Protection clause requires a determination of whether all the members of a class are treated equally before the law and also whether the classifications drawn in a statute are reasonable in light of its purpose (*Carrington* v *Rash* (1965) 13 L Ed 2d 675, 678, *McLaughlin* v *Florida* (1965) 13 L Ed 2d 222, 228)

There is nothing in A B 1920 which on its face indicates that any of the members of the class of persons described in the bill are to be treated differently than any other member of such a class.

It is our opinion also, that it is reasonable to establish as a class, persons other than students, officers or employees of a state college or a state university, in light of the object of such a classification, namely, the preservation of the peaceful conduct of campus activities of which students, officers and employees of a campus form an integral part, which cannot be said to be the case with persons generally (See also Pen. C Sec 558 set out on p 2 of this opinion, establishing a similar classification)

Our conclusion with respect to the issue of equal protection is supported by the following language of the United States Supreme Court in the *McLaughlin* case (supra, at p 228):

> "Normally, the widest discretion is allowed the legislative judgment in determining whether to attack some rather than all of the manifestations of the evil aimed at, and normally that judgment is given the benefit of every conceivable circumstance which might suffice to characterize the classification as reasonable rather than arbitrary and invidious"

Very truly yours,

[House Resolution No 42]

~~Relating to the proposed Simi Valley and Whitnall Freeways in Los Angeles County~~

~~WHEREAS, Two basically east-west freeway routes are proposed by the Division of Highways, namely the proposed Simi Valley Freeway (Route 118) and the proposed Whitnall Freeway (Route 61); and~~

~~WHEREAS, It is felt that combining a portion of the two routes into one could result in a savings to the taxpayers of approximately $1,000,000 per year or more by removal of only half as many taxable properties from the tax rolls in addition to the savings in the initial expenditures for two freeways; and~~

~~*Resolved by the Assembly of the State of California,* That the Division of Highways of the Department of Public Works is requested to make a study as to the feasibility of combining a portion of the proposed Simi Valley Freeway (Route 118) and the proposed Whitnall Freeway (Route 61) in Los Angeles County, the combined portion to be from approximately Topanga Canyon on the west to approximately the Golden State Freeway on the east, and to report its findings thereon to the Legislature not later than July 1, 1965.~~

~~The scope and detail of such feasibility study shall be as complete as the limited time period involved will allow but should be sufficiently complete as to determine whether or not this proposal should be further studied in depth.~~

Veto Message

State of California, Governor's Office
Sacramento, May 18, 1965

To the Honorable Members of the Assembly
State of California, Sacramento, California

Greetings I am returning herewith, without my signature, Assembly Bill No 172 entitled, "An act relating to state contracts, declaring the urgency thereof, to take effect immediately"

While I can fully appreciate the problems that have been created by the around-the-clock operation of heavy trucks through Buena Park and Fullerton, I do not feel that future problems of this nature should be solved through the passage of special legislation that raises serious Constitutional questions I have received assurances from the Department of Public Works that future contracts for state highway projects involving the pits and quarries mentioned in Assembly Bill No 172 will contain provisions prohibiting night hauling from these material sites

Accordingingly, I am returning the bill without my signature

Respectfully submitted,

EDMUND G BROWN, Governor

~~802. As applied to grapes.~~

~~(a) "Mature" means that each bunch of the varieties classified above in group A shall test not less than 17 percent soluble solids in juice, as determined by the Balling or Brix scale hydrometer; however, in view of differences in climate conditions prevailing north and west of San Gorgonio Pass, which results in the Malaga variety of grapes grown~~

~~in that area having, at maturity, a higher percentage of soluble solids than mature grapes of this variety grown in the area south and east of San Gorgonio Pass. Malaga grapes produced in the area north and west of San Gorgonio Pass shall so test not less than 18 percent; however, Beauty Seedless variety shall so test not less than 16 percent if grown south and east of San Gorgonio Pass and Thompson Seedless variety shall so test not less than 17 percent if grown south and east of San Gorgonio Pass or 17½ percent if grown north and west of the San Gorgonio Pass, but shall be considered mature regardless of where grown in the State if they so test not less than 16½ percent and if the juice contains soluble solids equal to or in excess of 22 parts to every part of acid contained in the juice (the acidity of the juice to be calculated as tartaric acid without water of crystallization), however, the varieties Emperor, Gros Colman, Bleu Gran, Prodelabi, Fresno Beauty, Servian Blue, Pierce Isabella, Pierce, Isabella Regia, California Concord, Concord, Dattier de Beyrouth, Red Malaga, Khalili Persian 23, Diznar, Ribier, Delight, Perlette and Queen shall so test not less than 16 percent and the varieties Olivette Blanche, Ladyfinger, Rish Baba, and Khandahar shall so test not less than 15 percent; however, the Blackrose, Cardinal, and Exotic varieties shall so test either not less than 16 percent or not less than 15 percent if the juice contains soluble solids equal to or in excess of 25 parts to every part of acid contained in the juice (the acidity of the juice to be calculated as tartaric acid without water of crystallization), except the Cardinal variety when grown south and east of San Gorgonio Pass shall test not less than 15 percent on the Balling or Brix scale hydrometer.~~

~~"Mature" in the case of all other varieties shall mean that the average or composite test of all the grapes in any container or bulk lot shall be not less than 17 percent soluble solids in juice, as determined by the Balling or Brix scale hydrometer; however, white varieties of the Muscat type shall test not less than 18 percent and the variety Burger shall test not less than 16 percent.~~

~~In the event that the maturity standard fixed for the Malaga variety of grapes produced in that area north and west of the San Gorgonio Pass should be declared void, it is the intent of the Legislature that the other maturity standards prescribed in this section shall prevail.~~

~~Any varieties included in group A may be placed in the standard for juice grapes and other varieties may be placed in the standard established for table grapes, but regardless of standard, the maturity of varieties included in group A shall be determined by testing the juice from entire bunches representative of the least mature grapes in any container and constituting not less than 10 percent by weight of the contents of the container. The maturity of all varieties not included in group A shall be determined by testing the juice from a composite sample representative of the average of the grapes in any container or bulk lot. The standards provided by this section are minimum standards, and the tolerances allowed by Sections 809 and 801 shall not be applied to any test made in accordance with this section for the purpose of determining whether any lot of grapes complies with the~~

~~maturity standard for the variety; however, no lot of grapes of the varieties classified in group A shall be considered as failing to meet the maturity requirements of this section because the sample of grapes from one container fails to meet the required test.~~

~~(b) "Waterberry" means a disease characterized by a watery, soft or flabby condition of the berries. Such affected berries are low in sugar content, have tender skins and are very easily crushed.~~

~~(c) "Redberry" means a condition closely resembling waterberry generally found in black varieties. Such grapes show a red or brownish-red color in addition to the general characteristics of waterberry.~~

~~(d) "Raisined berries" means grape berries which are fully cured, resembling raisins, which do not contain sufficient juice to drop from the berry under ordinary pressure between thumb and finger.~~

~~(e) "Sunburned or dried berries" means grapes which show complete drying out, from any cause, of part or all of any individual berries.~~

~~(f) "Severe freezing injury" means damage affecting the pulp of the berries.~~

SEC 2 5 Section 802 is added to said code, to read.

802 "Mature" means, as applied to grapes, that all varieties shall test not less than 17 percent soluble solids in juice, as determined by the Balling or Brix scale hydrometer or standard hand refractometer, except that the following varieties shall be considered mature when they test not less than that percent of soluble solids specified below:

Percent of soluble solids	Variety	
18	All white varieties of Muscat type	
	Malaga grown north and west of San Gorgonio Pass	
17½	Thompson Seedless grown north and west of San Gorgonio Pass	
16	Beauty Seedless grown south and east of San Gorgonio Pass	
	Cardinal grown north and west of San Gorgonio Pass	
	Burger	Concord
	Emperor	Dattier de Beyrouth

	Isabella Regia	Queen
	California Concord	Blackrose
15	Cardinal grown south and east of San Gorgonio Pass	
	Ladyfinger	Olivette Blanche
	Rish Baba	Exotic
	Khandahar	

In addition, all varieties of grapes in group A as defined in Section 799 shall also be considered mature if the juice contains soluble solids equal to or in excess of 20 parts to every part of acid contained in the

juice (the acidity of the juice to be calculated as tartaric acid without water of crystallization).

It is hereby declared that the differences in climatic condition that exist north and west of San Gorgonio Pass cause Malaga, Thompson Seedless, Beauty Seedless and Cardinal varieties grown there to have, at maturity, a higher percentage of soluble solids than mature grapes of these varieties grown south and east of San Gorgonio Pass

SEC 2 6 Section 802 1 is added to said code, to read·

House Resolution No. 505

Relating to a study of pornography and violence

WHEREAS, Widespread concern has been expressed for revitalizing in the consciousness of the people of California a sense of community standards of good taste and behavior, and

WHEREAS, There are many symptoms of the breakdown of those standards in many segments of our California society, and

WHEREAS, Among those symptoms is an apparently growing amount of smutty and pornographic materials available in various forms to the very young of the state, and

WHEREAS, Another symptom of this breakdown is the increasing popularity of dramatizations of violence on our mass communications media aimed, apparently, at the younger audiences, and

WHEREAS, There is little consensus among knowledgeable persons about what the actual effect of this pornography and violence may be on the intellectual and emotional development of our young people, and

WHEREAS, Whatever the effect of these materials, there is evidence that the publication and dissemination of smutty materials has reached the level of a multimillion dollar industry and that at least part of that industry is located in California, and

WHEREAS, There is little or no statistical information presently available to allow a meaningful evaluation of prosecutions under the existing California obscenity statute, Penal Code Sections 311-312, and

WHEREAS, The United States Congress has concerned itself with a number of studies in this area, especially concerning the depiction of crime and violence by the communications media and its effect on young people, but the Legislature of the State of California has never devoted itself to a full-scale and in-depth study of the effects of pornography and depiction of violence on the young people of the state, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Criminal Procedure is directed to conduct a study of the presence of pornography and depiction of violence within the state, and be it further

Resolved, That this study shall include, but not be limited to a determination of the effect of pornographic materials upon the intellectual and emotional development of California's young people, the degree to which juvenile crime and related aspects of juvenile behavior may be linked to the consumption of pornographic materials by minors, the degree to which depictions of violence may affect juvenile behavior, the availability of all such materials to the public in general and, especially, to minors, the extent to which the business of writing, publishing and disseminating pornographic materials is established in the State of California and the extent to which the communications media are used to depict violence and other antisocial behavior in formats designed primarily for young people, and be it further

Resolved, That this study shall also include but not be limited to an extensive investigation and evaluation of prosecutions under the existing Penal Code Sections 311-312, since their enactment in 1961, and be it further

Resolved, That this part of the study shall include the number of complaints filed under these sections by district, city and other local prosecuting attorneys, the number of such complaints that were carried to trial the results of these trials and a description of the types of materials against which these complaints were drawn, and be it further

Resolved That this part of the study shall also include an evaluation of the present obscenity statute by the prosecuting attorneys and the defense attorneys who have participated in cases involving the statute, and be it further

Resolved, That the committee shall report its findings and recommendations to the Assembly no later than the fifth legislative day of the 1967 Regular Session of the Legislature

Resolution read, and referred by the Acting Speaker to the Committee on Rules

By Assemblyman Fenton:

House Resolution No. 506

House Resolution No. 507

Relative to the heroism of Rear Admiral Leslie E Gehres

WHEREAS, During times of war the United States has been blessed with courageous men who unselfishly risk their lives in heroic acts to protect their nation and fellow men, and

WHEREAS, One such hero is Rear Admiral Leslie E Gehres, United States Navy Retired, who, on March 9, 1945, as captain of the aircraft carrier U S S Franklin, refused to abandon his ship which had been severely damaged by an enemy Japanese aircraft, and

WHEREAS, Though hundreds of men had been killed or injured as a result of the damages to the U S S Franklin and though most persons thought it impossible to save the ship, Admiral Gehres, in spite of authorization to abandon ship, stayed on with a skeleton crew and managed to control the fires and sufficiently stabilize the ship so as to allow her to sail back to port for repairs, and

WHEREAS, As a result of the heroic efforts of Admiral Gehres and his men, the lives of many men who were trapped below the decks of the carrier were saved, and

WHEREAS, Twenty years have passed since the nation learned of one of the most heroic acts of World War II, now, therefore, be it

Resolved by the Assembly of the State of California, That the Members wish to take this opportunity to commemorate the heroism of Admiral Gehres; and be it further

"SECTION 1 Section 12880 of the Water Code is amended to read

12880 In furtherance of the development, control and conservation of the water resources of the state and the State Water Resources Development System it is the policy of the state to provide financial assistance to public agencies for the construction of water projects to meet local requirements in which there is a statewide interest by making grants or loans, or both, and by participating in the construction and operation of water projects, and also to provide financial assistance to public agencies for the preparation of certain feasibility reports on such water projects by making loans, in accordance with this chapter

(a) As used in this chapter, "project" means any construction or improvement by a public agency for the diversion, storage, or distribution of water primarily for domestic, municipal, agricultural, industrial, recreation, fish and wildlife enhancement, flood control, or power production purposes "Public agency" means any city, county, district or other political subdivision of the state "Feasibility report" means such report on the feasibility of a public agency's proposed project as the department may require the public agency to file with the department in support of an application by the public agency under this chapter for a loan for the construction of the proposed project.

(b) The proposed project may be approved for assistance only if it is determined that the project substantially conforms to the California Water Plan, is engineeringly feasible, economically justified, and, if a loan is proposed, that there is reasonable assurance, commensurate with the need for the proposed project, that the public agency can

repay it The potential future growth and development of the area shall be taken into consideration in the calculation of the benefits for the determination of the economic justification of a proposed project In the case of a grant for recreation or fish and wildlife enhancement, or both, the determination of economic justification of the proposed project may, in the department's discretion, be limited to a determination of the economic justification of the recreation and fish and wildlife enhancement functions of the project Such factors as the public health, safety, and welfare shall be taken into consideration in determining the need for a proposed project A loan for the preparation of a proposed feasibility report on a proposed project may be approved only if it is determined that there is reasonable assurance that the public agency can repay the loan and only if the agency receives a favorable written reply from the department on a written request for a preliminary determination of eligibility for a loan for the construction of the proposed project filed with the department by the agency under the regulations of the department promulgated pursuant to this chapter.

(c) Grants in furtherance of a project that involves the development of a new water supply may be made for the following purposes·

(1) For the part of the construction cost of the proposed project properly allocated to the enhancement of fish and wildlife, provided, that a grant for such part shall not exceed fifty percent (50%) of the construction cost

(2) For the part of the construction cost of any dam and reservoir of the proposed project properly allocated to recreational functions of statewide interest, provided, that a grant for such part shall not exceed fifty percent (50%) of the construction cost, and provided further, that the total grant under paragraphs (1) and (2) of this subdivision for any one project shall not exceed seventy-five percent (75%) of the construction cost of the project Such construction costs may include expenditures for lands located above the high waterline of reservoirs which are necessary or desirable for public recreation in connection with the reservoir

(3) For the construction of initial water supply and sanitary facilities which are needed for public recreational use of each proposed dam and reservoir of the proposed project A grant for the purpose specified in this paragraph (3) shall not be subject to the limitation contained in Section 12885 on grants for the purposes specified in paragraphs (1) and (2) of this subdivision and shall not be included in computing the total amount which may be granted to a public agency in connection with a project for such purposes A grant for the purpose specified in this paragraph (3) shall not exceed one-fourth of the total amount granted to a public agency in connection with a project for the purposes specified in paragraphs (1) or (2), or both, of this subdivision

(d) Loans may be made only for projects primarily for domestic, municipal, agricultural, industrial, recreation, or fish and wildlife enhancement purposes Such loans may be made for all or any part of the construction cost of any such project but in no event shall any such loan be in an amount which is greater than the portion of the construction cost of the project which the department finds to be be-

yond the reasonable ability of the public agency to finance from other sources Such loans shall be repayable over a period not to exceed ~~50~~ *75* years A period of development of not exceeding 10 years may be allowed within such maximum ~~50-year~~ *75-year* repayment period, during which no payments on the principal of *or* the interest on such loans shall be required, when in the department's judgment such development period is justified under the circumstances If the payment of interest is deferred pursuant to this subdivision, interest shall be charged on the interest amounts for which payment is deferred at the same rate as the rate of interest charged on the principal amount of the particular loan The accrued interest may, at the option of the public agency, be paid in annual installments during the remainder of the loan repayment period at the same rate of interest as is charged on the principal amount of the loan.

(e) Loans may be made for all or any part of the cost of the preparation of proposed feasibility reports on proposed projects, but in no event shall any such loan be in an amount which is greater than the portion of the cost of the preparation of the proposed feasibility report which the department finds to be beyond the reasonable ability of the public agency to finance from other sources Such loans shall be repayable over a period not to exceed 10 years

(f) If in order to accomplish the objectives of this chapter it is necessary to construct a project that is larger than one which a public agency proposes to construct, the state may participate in planning, designing, constructing, operating and maintaining the project, and in so participating shall finance those costs of the project allocated to the state, on terms agreed upon with the agency, to the end that the project shall accomplish the maximum water development objectives at a minimum total expenditure In participating in a project under this subdivision (f), the department may perform all or part of the planning, designing, construction, operation or maintenance of the project on terms agreed upon with the agency

The department is authorized, following receipt of an application for state participation from a public agency, to participate under this subdivision (f) on behalf of the state in any project that is larger than the one which the public agency proposes to construct and that is primarily for domestic, municipal, agricultural, industrial, recreational or fish and wildlife enhancement purposes and in so participating shall finance those costs of such project that are allocated to the state, on terms agreed upon with the public agency, subject to the prior approval of the California Water Commission, and to expend for participation in the planning, designing, and construction of any one project an amount not exceeding one million dollars ($1,000,000) from moneys available for such participation, including but not limited to, the moneys appropriated by the California Water Resources Development Bond Act (Chapter 8 (commencing with Section 12930) of Part 6 of Division 6 of the Water Code) for provision for water development facilities for local areas as provided in this Chapter 5 Expenditures by the department in excess of one million dollars ($1,000,000) for the planning, designing, and construction of any one project may be made only upon specific authorization of the Legislature.

The department is authorized to make loans and grants to public agencies pursuant to the provisions of this chapter for projects in which the department participates under this subdivision (f)

(g) Applications for loans or grants or financial participation by the state under this chapter shall be made to the department in such form and with such supporting material as may be prescribed by the department Supporting material with respect to the ability of a public agency to repay the loan and to the reasonable ability to finance the proposed project from other sources may be supplied by the county assessor and the county engineer A report on each application shall be prepared by the department and filed with the Legislature In such reports the departments shall make findings as to the nature and extent of the statewide interest in the project, the public necessity for the project, the urgency of the need, and the engineering feasibility, economic justification, and financial feasibility of the project, provided, that in the case of reports on applications for loans for the preparation of proposed feasibility reports, in lieu of the above findings, the department shall make findings with respect to the public necessity for and urgency of need of the proposed project and the ability of the applicant to repay the requested loan for the preparation of the proposed feasibility report

(h) Notwithstanding any provision of law to the contrary, every public agency empowered by law to construct and operate a project, as defined in subdivision (a) of this section, is hereby granted, in addition to and not in derogation or limitation of the powers conferred upon the public agency by any other law, the power

(1) To borrow money from and repay the same with interest to the state in accordance with this chapter on behalf of the entire public agency or of any portion or portions thereof for which the law applicable to the agency authorizes an indebtedness or liability to be incurred, including any improvement district, distribution district, or zone within the public agency, notwithstanding any debt limitation or other provision in the law applicable to such agency which might otherwise preclude or limit such borrowing

(2) To enter into a contract with the department, on behalf of the entire public agency, or of any portion or portions thereof referred to in paragraph (1) of this subdivision (h), for a loan or grant under this chapter or for participation by the state in a local project under subdivision (f) of this section and to use the loan or grant contracted for as an additional or alternative means of financing the project proposed by the public agency

(3) To comply with the provisions of any contract entered into with the department under this chapter, including any provision which obligates the public agency, or any specified portion or portions thereof, to meet all commitments, financial or otherwise, undertaken by the public agency in such contract notwithstanding any individual default by its constituents or others in the payment to the public agency of taxes, assessments, tolls, or other charges levied by the public agency

(4) To include recreation and enhancement of fish and wildlife, or either of them, as functions of a project which the public agency is empowered by law to construct and operate, and to construct and operate the project for such recreation and enhancement of fish and

wildlife functions, or either of them, in accordance with the provisions of a grant contract entered into with the department, including provisions for public use of the project facilities for fishing and other recreational activities

(5) To construct and operate such onshore recreational facilities, fish and wildlife enhancement facilities or other facilities as the department or the Legislature may require in connection with a grant to the public agency under this chapter, and to construct and operate such facilities in accordance with the provisions of a grant contract entered into with the department, including provisions for public use of such facilities for fishing and other recreational activities

(6) To annually levy or cause to be levied upon all property in the public agency, or in any portion or portions thereof, subject to taxation or assessment by the public agency an ad valorem tax or assessment, based upon the assessed valuation of such property, necessary and sufficient to meet all commitments, financial or otherwise, of the public agency that are set forth in any contract which the agency enters into with the department under this chapter, in addition to any other taxes or assessments which the public agency is authorized to levy or cause to be levied on such property and notwithstanding any provision in the law applicable to such agency which might otherwise preclude or limit such taxing or assessing. Where the law applicable to such public agency does not set forth a procedure for levying and collecting taxes or assessments on an ad valorem basis, such public agency shall utilize the procedure for levying and collecting taxes for the payment of principal and interest on general obligation bonds of municipal water districts, set forth in the Municipal Water District ~~Act~~ *Law* of 1911 ~~(Chapter 671, Statutes of 1911)~~ *(commencing with Section 71000) of this code*, as it may now or hereafter be amended, for the purpose of levying and collecting taxes or assessments necessary and sufficient to meet commitments in a contract entered into under this chapter

(7) To make charges for the furnishing of services from the project for which the public agency receives financial assistance under this chapter and to pledge and use any or all revenues received from the collection of such charges for the purpose of meeting the commitments, financial or otherwise, of the public agency that are set forth in any contract which the public agency enters into with the department under this chapter.

(8) To perform all acts and do all things that are necessary or convenient to carry out the above powers

(i) Except in the case of a grant to a public agency where the applicable law contains provisions for the election of the members of the governing body of the agency or where a county board of supervisors acts as the governing body of the agency, before a public agency may enter into a contract with the department for a construction loan or a grant under this chapter, the public agency shall hold an election on the proposition of whether or not the public agency shall enter into the proposed contract and more than 50 percent of the votes cast at such election must be in favor of such proposition, provided, that if a higher percentage of favorable votes is required for the issuance of any bonds by the public agency or is required by the Constitution

before the public agency may incur an indebtedness, such higher percentage shall apply in lieu of the percentage set forth in this subdivision. Such election shall be held in accordance with the following provisions:

(1) The procedure for holding an election on the incurring of bonded indebtedness by such public agency shall be utilized for an election on the proposed contract as nearly as the same may be applicable. Where the law applicable to such agency does not contain such bond election procedure, the procedure set forth in the Revenue Bond Law of 1941 (Chapter 6 (commencing with Section 54300) Part 1, Division 2, Title 5 of the Government Code), as it may now or hereafter be amended, shall be utilized as nearly as the same may be applicable

(2) No particular form of ballot is required

(3) The notice of the election shall include a statement of the time and place of the election, the purpose of the election, the general purpose of the contract, and the maximum amount of money to be borrowed from the state under the contract.

(4) The ballots for the election shall contain a brief statement of the general purpose of the contract substantially as stated in the notice of the election, shall state the maximum amount of money to be borrowed from the state under the contract, and shall contain the words "Execution of contract—Yes" and "Execution of contract—No."

(5) The election shall be held in the entire public agency except where the public agency proposes to contract with the department on behalf of a specified portion, or of specified portions, of the public agency, in which case the election shall be held in such portion or portions of the public agency only.

(j) Every public agency is hereby granted the power to bring an action in the superior court of the county in which the office of such agency is situated to determine the validity of any contract made with the department under this chapter and the authority of the public agency to enter into the contract The action shall be had as in the case of the judicial determination of the validity of the public agency's bonds, as nearly as the same may be applicable, and with like effect Where the law applicable to such agency does not set forth a procedure for the judicial determination of the validity of the public agency's bonds, the action shall be had as in the case of the judicial determination of the general obligation bonds of irrigation districts under the Irrigation District Law (Division 11 (commencing with Section 20500) of this code), as it may now or hereafter be amended, as nearly as the same may be applicable, and with like effect

SEC. 2 Section 12884 of said code is amended to read.

12884. The department shall require the payment of interest on each loan that is made pursuant to this chapter after September 19, 1963, at a rate equal to the average, as determined by the department, of the net interest costs to the state on the sales of general obligation bonds of the state that occurred during the period from January 1, 1962, inclusive, through the calendar year immediately preceding the calendar year in which the application is filed if the application is filed prior to the year 1968 or that occurred during the period of five calendar years immediately preceding the year in which the application is

filed if the application is filed after the year 1967; provided, that when the applicable average of the net interest costs to the state is not a multiple of one-tenth of 1 percent, the interest rate on the loan shall be at the multiple of one-tenth of 1 percent next above the applicable average of the net interest costs.

If a public agency cannot qualify for a loan with the interest rate as so fixed but could qualify with a lower interest rate, the department may provide for a lower interest rate, but in no event to be lower than 2½ percent per annum.

If a loan is granted at a lower interest rate, then in 20 years and every 10 years thereafter, the department may review the economic conditions in the area involved and, if it determines that the public agency is then able to pay a higher interest rate, it may raise the interest rate but in no event higher than the public agency would originally have been required to pay"

Amendment No. 3

On page 1, strike out lines 2 to 17, inclusive, and strike out page 2.

Bill ordered reprinted, engrossed, and to be re-referred to the Committee on Water.

MESSAGES FROM THE GOVERNOR

The following veto message from the Governor was received, and read.

Veto Message

State of California, Governor's Office
Sacramento, May 19, 1965

To the Honorable Members of the Assembly
State of California, Sacramento, California

Greetings I am returning herewith, without my signature, Assembly Bill No. 549 entitled "An act to add Article 2 5 (commencing with Section 12361) to Chapter 1 of Part 6 of Division 2 of the Insurance Code, relating to title insurers."

There can be no doubt that the public is entitled to economical and reliable title evidencing services, and that the importance of the title insurance industry warrants licensing and supervision by the Department of Insurance. On the other hand, this measure would tend to promote monopoly conditions by restricting the entrance of new companies into the title insurance field through the imposition of costly title plant requirements.

Accordingly, I am returning the bill without my signature

Respectfully submitted,

EDMUND G BROWN, Governor

Receipt of Veto Message

I acknowledge receipt this 19th day of May, 1965, at 5 o'clock p m. of Assembly Bill No. 549 without the Governor's signature, together with a statement of his objections thereto signed by the Governor, delivered to me personally by Gino Lera, Assistant Legislative Secretary to the Governor.

RESOLUTIONS

The following resolutions were offered:

By Assemblyman Willson

House Resolution No. 509

Relative to the continuation of a study of California's marriage and divorce laws and the Special Legislative Advisory Committee on Family Life and Law

WHEREAS, The family is the basic social institution of our society, and

WHEREAS, The family exercises a paramount influence on the type of individuals it develops for society, and

WHEREAS, Inadequate families tend to seriously damage their offspring in their ability to function adequately in society and constitute a major cause of both juvenile and adult delinquency, and

WHEREAS, Family disruption and divorce is prohibitively expensive in both dollars and human suffering, with many millions of dollars expended annually in this state, from both public and private funds, as a direct result of family failure, and

WHEREAS, The incidence of divorce and family instability appears to be appreciably higher in this state than elsewhere in the nation or in the world constituting a substantial portion of all litigation in this state, and adversely affecting the operations of business and industry in all areas, and

WHEREAS, The available sociological evidence documents a continuing trend towards ever more youthful marriage and parenthood, with an accompanying increase in the divorce rate and its adverse effects on substantial numbers of children, and

WHEREAS, The increased incidence of youthful motherhood produces an accompanying increase in infant mortality as well as the birth of mentally retarded and physically deformed children who frequently are totally dependent upon the financial resources of the state for their lifetime subsistence, and

WHEREAS, The incidence of illegitimacy and venereal disease is at an alarming level, and

WHEREAS, The people in this state have expressed serious concern about stabilizing and strengthening family relations, and

WHEREAS, A need for examination and analysis of existing laws in the field of domestic relations was realized at the 1963 Regular Session, and

WHEREAS, Pursuant to that realization several resolutions were introduced to accomplish such purposes, and

WHEREAS, Several conferences and hearings on the general problems relating to marriage, divorce and family stability documented the existence of a critical situation in the basic social institution of our country, and

WHEREAS, An initial legislative program has been developed for the 1965 session to remedy some of the most troublesome problems in this state's marriage and divorce laws; and

WHEREAS, A firm foundation has been established for substantial remedial legislation for the 1967 Regular Session, and

WHEREAS, The need for this re-examination and the high quality of the present study has been reflected by commendatory communications from throughout the country; and

WHEREAS, It is the desire of this Legislature to seek the resolution of social problems and combat the evils apparent, and

WHEREAS, The Governor has also shown great concern for this matter as evidenced by his public statements and considers it to be one of the urgent areas in need of study and remedial action, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Rules Committee is directed to assign a study of this state's marriage and divorce laws with a view toward the preparation of a program of remedial legislation to an appropriate interim committee. To assist and advise such interim committee in its deliberations in the field of domestic relations, the Speaker of the Assembly is authorized to appoint a Special Legislative Advisory Committee on Family Life and Law, which committee shall report its findings and recommendations to such interim

committee not later than the fifth legislative day of the 1967 Regular Session, including its recommendations for appropriate legislation The members of the special committee shall serve without compensation or expenses, unless reimbursement for travel and expenses in attending meetings is authorized pursuant to other acts of the Legislature or Assembly The interim committee shall provide the special committee with the necessary staff, equipment and supplies to carry on its work. The existence of the special committee shall terminate 90 days after the termination of the 1967 Regular Session of the Legislature.

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules.

By Assemblyman Mulford

House Resolution No. 510

Relative to an interim study of private educational institutions

WHEREAS, Under present provisions of law, private educational institutions are subject to limited state supervision or regulation, and

WHEREAS, The number of private educational institutions is increasing with the expansion of the population of this state, and

WHEREAS, The education of the youth of this state is of vital interest to the people of this state, whether educated in public or private educational institutions, and

WHEREAS, Private educational institutions and the educational programs offered by them, should be continually reviewed by the Legislature to insure the best interests of the people of this state, now, therefore, be it

Resolved by the Assembly of the State of California, That the Rules Committee is directed to assign to an appropriate interim committee the study of the state supervision or regulation of private educational institutions and the educational programs offered by them, including but not limited to, the adequacy of present state regulations and the extent to which the state should supervise or regulate such institutions and their educational programs; and be it further

Resolved, That such interim committee be directed to report its findings together with its recommendations for legislation, if any, to the Assembly no later than the fifth legislative day of the 1966 Regular Session of the Legislature

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

By Assemblyman Young

House Resolution No. 511

Relative to commending Miss Ivy Loeber

WHEREAS Miss Ivy Loeber has devoted her lifetime to preserving and protecting, through research and teaching, the heritage and history of the Napa Valley and the State of California; and

WHEREAS, She is herself a native Californian, born in St Helena in 1880, of pioneer stock and

WHEREAS, In 1912 she was the successful candidate for Queen of the Vintage and was the lead in the play "St Helena," an allegory which told the story of the vine and the grape, and

WHEREAS, She has throughout her life maintained and practiced a good religious life including teaching Sunday School from 16 until 60, a total of 44 years; and

WHEREAS, During that time she favorably influenced the lives of many young people who expressed their appreciation by conferring on her 23 times the role of Godparent, and

WHEREAS, She is the Napa County Historian, one of the organizers and president for many years of the Napa County Historical Society, and a charter member of the Conference of California Historical Societies; and was Chairman of the Committee on California History and Landmarks of the California Federation of Women's Clubs, and as such chairman was instrumental in obtaining the approval of some 22 historical landmarks, and

WHEREAS, She wrote the St Helena Centennial Pageant in 1954; and

WHEREAS, Her attributes are acknowledged by such diverse titles as a Girl of the Golden West, Honorable Widow of the Greybeards of E Clampus Vitus, and one of the last of the "grande dames" of Napa County; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members commend Miss Ivy Loeber for her long and outstanding record of service and her many invaluable contributions to our American Way of Life and to the richness of California's culture; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a suitably prepared copy of this resolution to Miss Ivy Loeber

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

House Resolution No. 512

Relative to unemployment insurance

WHEREAS, A serious question has arisen respecting the intent of the Legislature in enacting Section 1030 5 of the Unemployment Insurance Code concerning the penalizing of false statements or representations, and failures to report material facts, by employers under the unemployment insurance law, and

WHEREAS, The Department of Employment has concluded that a showing of an intent by an employer to defraud his employees is not required in order to justify imposing a penalty under these provisions, however, it is contended by others that such an intent is required, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to assign to an appropriate interim committee for study the subject matter of Section 1030 5 of the Unemployment Insurance Code and to require such interim committee to report its findings and recommendations thereon to the Assembly not later than the fifth legislative day of the 1957 Regular Session

Payment for services to hospitals and other facilities shall be predicated on the basis of the reasonable cost of the service rendered by such hospitals and other facilities, as determined in accordance with regulations establishing the methods to be used and the items to be included, in determining the payment formula for various types or classes of such hospitals and other facilities. In prescribing such regulations, the department shall consider, among other things, the principles generally applied by state organizations representing such hospitals or other facilities or by established prepayment organizations which have developed such principles, in determining the method or methods to be used in arriving at the payment formula. Such regulations may provide for determination of the cost of services on a per diem, per unit, per capita or other basis, and for the use of different methods in different circumstances where such methods reasonably reflect the costs. No contract entered into pursuant to this subdivision shall deny to eligible persons free choice of physicians willing to provide services under the terms of such contract.

(b) Notwithstanding subdivision (a) of this section, the State Department of Social Welfare may contract for one or more indemnity or service-type partial or full prepayment or group payment programs to provide medical care or any aspect thereof, with any agency or organization qualified under the first paragraph of this section. *Contracts entered into by the department shall provide that premiums of insurance carriers and plans shall be based upon the reasonable charges or costs of the providers of health care services. 2 Take such actions as may be required to assure that, where payment for service is on a charge basis, such charge will be reasonable and not higher than any charge applicable, for an equivalent service and under comparable circumstances, to other policyholders and subscribers of the carrier or the plan;

3 Provide basic health care benefits, where needed and when needed, as defined by the department;

4 Not charge to any family person or adult, as defined in Section 4501, part or all of any enrollment fee, extra charges, or premiums for care provided under this chapter;

Such policies and regulations shall include rates for payment for services rendered to recipients or for payment to contractors with respect to contracts entered into in accordance with the provisions of Section 1551 Standards for costs shall be based on payments of the reasonable cost for such services

In establishing the scope of services to be provided, the director shall provide at least for a minimum coverage as defined in Section 4501, paragraph (h), and insofar as possible shall include other health care and related remedial or preventive services giving priority to those services which are considered to have the greatest value in preventing or reducing the likelihood of future high cost medical services

O God and Father of us all, We pause to recognize Thy sovereign rule over all of our lives and over the entire universe At this very moment help us to be conscious that Thou cannot be summed up as the total of our thoughts and feelings, but that Thou art the very source and sustainer of our best human efforts May these elected servants be aware that first and foremost they represent Thy interests in a state functioning for justice with mercy, peace with discipline, and industry with honest effort We would seek Thy forgiveness for those occasions when we have placed self before the welfare of others, for clinging to prejudices, for rejecting the hard right for the easy wrong May we know that salvation, a new beginning, is always possible for those who believe in Thee May we, dear Lord, the privileged inhabitants of this land of opportunity, honor the faith held by the Fathers of the Constitution to make real the dignity of every man to be known as a beloved child of Thine Hear our prayers this day, we ask in the name of Thy Son, Jesus Christ —AMEN

House Resolution No. 42, as Amended

By Assemblyman Cusanovich

House Resolution No. 42

Relating to the proposed Simi Valley and Whitnall Freeways in Los Angeles County

WHEREAS, Two basically east-west freeway routes are proposed by the Division of Highways, namely the proposed Simi Valley Freeway (Route 118) and the proposed Whitnall Freeway (Route 64); and

WHEREAS, It is felt that combining a portion of the two routes into one could result in a savings to the taxpayers of approximately $1,000,000 per year or more by removal of only half as many taxable properties from the tax rolls in addition to the savings in the initial expenditures for two freeways; and

WHEREAS, It is felt that the Division of Highways has not considered what savings may result to the taxpayers by combining the said freeways with regard to acquisition and construction costs; and

WHEREAS, It is felt that the one combined freeway could serve the needs of the people of the State of California equally as well as the two proposed freeways; now, therefore, be it

Resolved by the Assembly of the State of California, That the Division of Highways of the Department of Public Works is requested to make a study as to the feasibility of combining a portion of the proposed Simi Valley Freeway (Route 118) and the proposed Whitnall Freeway (Route 64) in Los Angeles County, the combined portion to be from approximately Topanga Canyon on the west to approximately the Golden State Freeway on the east, and to report its findings therein to the Legislature not later than July 1, 1965

The scope and detail of such feasibility study shall be as complete as the limited time period involved will allow but should be sufficiently complete as to determine whether or not this proposal should be further studied in depth

Resolved, That the Division of Highways be requested to refrain from acquiring property prior to July 1, 1965 on that portion of Route 118 from the vicinity of De Soto Avenue to Route 210 near Hansen Dam and on that portion of Route 64 involved in the study, except that such property may be acquired during such time in hardship cases and for right-of-way protection purposes It is understood that this resolution is not intended to delay in any way the completion of the budgeted freeway construction project on Route 118 west of De Soto Avenue through the Santa Susana Pass

Resolved, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the Director of Public Works

Resolution, as amended, re-referred to the Committee on Ways and Means.

PRAYER

The following prayer was offered by the Chaplain, Rev Robert R Ferguson·

God, our Loving Father, In the midst of the varied and confusing patterns of life, give us a few constants by which to set our daily compass Let us live by work May we not shun difficult and tedious tasks. Guide us that we not scratch merely the

surface of issues, but plow deeply Let us live by thought May we not blunt our minds through foolish action, but ever be questing, may we be alive to new truth while not forsaking the old, merely because of age Let us live by joy, which is too deep to be drowned by turbulent surface waves, joy which is Thy gift enabling us to have no hangover for past sins which are forgiven, and to receive the Abundant Life which is ever near In our Master's Name—AMEN.
