CHAPTER 1061

An act to add Section 55187 to the Water Code, relating to a validation procedure for the acts and proceedings of the formation of county waterworks districts and authorization of bonds therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 28, 1963. Filed with Secretary of State June 29, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 55187 is added to the Water Code, to read:

55187. All acts and proceedings heretofore taken by or on behalf of a county waterworks district for the formation of a district or for the annexation to an existing district and for the authorization, issuance, sale, or exchange of bonds of the district or for the annexed territory may be confirmed, validated, and declared legally effective in the manner provided in this section.

The board may instruct the clerk of the board to mail a notice to all owners of property within the county waterworks district, as their names and addresses appear on the last equalized county assessment roll, or as known to the clerk. Such notice shall include the name of the district, the date the district was ordered formed or the date of the annexation to an existing district, the amount of bonds authorized, and a statement that, commencing with the date of mailing of said notice there shall be a 60-calendar-day period during which period any property owner may file an action contesting the validity of the district's formation, the annexation to an existing district or the bond authorization. The clerk shall make and file, with the board a certificate of mailing of the notices. The board may order the clerk to include such other additional information that it deems pertinent.

If no action is filed during the 60-day period, the district's formation or the annexation to an existing district and the bond authorization are valid and uncontestable.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A recent United States Supreme Court decision has cast doubt on the validity of several county waterworks district formations, annexations to existing districts, and bond issues authorized for said districts and for said annexed territories where each and every property owner was not notified in writing of the proposed formation or annexation and bond issue prior to the public hearings on the formation or annexation

and the election on the bond issue. This legislation is required to allow such districts to sell bonds and to undertake the providing of water within their territories.

(c). To pay the costs of constructing, maintaining, and operating facilities which will conserve water for distribution, or which will distribute water within such zone or zones, including facilities for surface storage, ground water recharge, surface distribution, and drainage of waste or return flow from such water.

(d) To pay the principal or interest of any bonded indebtedness or other obligations incurred by the district on behalf of such zone or zones for any of the purposes set forth in subdivisions (a), (b), and (c) of this section.

The district may apply to any one or more of the purposes set forth in subdivisions (a), (b), (c), and (d) of this section any or all revenues received by the district from the furnishing, selling, or leasing of any water, service or facilities pursuant to this act.

SEC. 8. Section 4.4 is added to said act, to read:

Sec. 4.4. Within six months after the last date of publication of the notice provided for in Section 4.2 of this act, all water-producing facilities located within the boundaries of such zone or zones shall be registered with the district. Any new water-producing facility, constructed or re-established after such date, shall be registered with the district within 30 days after the completion or re-establishment thereof.

Failure to register any water-producing facility is a misdemeanor punishable by a fine of not to exceed five hundred dollars ($500), or imprisonment in the county jail for not to exceed six months, or by both such fine and imprisonment.

In addition to other information which the district may determine is necessary and may require in the registration form provided, there shall also be given information as to the owner or owners of the land upon which each water-producing facility is located, a general description and location of each water-producing facility, the name and address of the person charged with the operation of each water-producing facility, and the name or names and addresses of all persons owning or claiming to own an interest in the water-producing facility.

SEC. 9. Section 4.5 is added to said act, to read:

Sec. 4.5. After adoption of the resolution provided for in Section 4.2 of this act, the district engineer shall annually prepare an investigation and report upon ground water conditions of the district and the zones thereof. The investigation and report shall include, among other information which the dis-

trict may desire, information on ground water conditions and the availability of surface and ground water in the district and recommendations of the district engineer as to whether a ground water charge or charges shall be levied and what such charges shall be during the ensuing water year.

SEC. 10. Section 4.6 is added to said act, to read:

Sec. 4.6. On the second Monday in December of each year the engineering investigation and report shall be delivered to the clerk of the district board in writing. Said clerk shall publish, pursuant to Section 6061 of the Government Code, a notice of the receipt of such report and of the public hearing to be held on the second Monday of January in a newspaper of general circulation printed and published within the district, at least 10 days prior to the date at which the public hearing regarding said engineering investigation and report shall be held, and shall also mail a copy of said notice to each city in the district. Said notice, among other information which the district may provide therein, shall contain an invitation to all operators of water-producing facilities within the district to call at the offices of the district to examine said engineering investigation and report.

There shall be held by the board on the second Monday of January of each year, in the chambers of the board, a public hearing at which time any operator of a water-producing facility within the district, or any person interested in the condition of the ground water supplies or the surface water supplies of the district, may in person, or by representative, appear and submit evidence concerning the ground water conditions and the surface water supplies of the district. Appearances also may be made supporting or protesting said written engineering investigation and report.

SEC. 11. Section 4.7 is added to said act, to read:

Sec. 4.7. Within five weeks from the close of said hearing, the board shall determine whether or not, in the interests of the most beneficial conjunctive operation of the ground water and surface water supplies of the district, a ground water charge or charges should be levied in any zone or zones. If the board determines that a ground water charge or charges should be levied, it shall levy, assess, and affix such charge or charges against all persons operating ground water-producing facilities within such zone or zones during the ensuing water year. The charges may be different in different zones, but within each zone the charges shall be computed at a fixed and uniform rate per acre-foot for agricultural water, and at a fixed and uniform rate per acre-foot for all water other than agricultural water; provided, that with respect to small water-producing facilities which have a discharge opening not greater than a size specified by the board and which do not provide water for an area in excess of that specified by the board, for administrative convenience the board may provide either for a flat annual charge or for no charge in lieu of a charge com-

puted at such fixed and uniform rate. Such fixed and uniform rate shall not exceed two dollars ($2) per acre-foot.

Any ground water charge levied pursuant to this section shall be in addition to any general tax or assessment levied within the district or any zone or zones thereof.

Clerical errors occurring or appearing in the name of any person or in the description of the water-producing facility where the production of water therefrom is otherwise properly charged, or in the making or extension of any charge upon the records, which do not affect the substantial rights of the assessee or assessees, shall not invalidate the ground water charge.

SEC. 12. Section 4.8 is added to said act, to read:

Sec. 4.8. The district, after the levying of the ground water charge, shall give notice thereof to each operator of each water-producing facility in the zone or zones as disclosed by the records of said district, which notice shall state the rate for each class of water of the ground water charge for each acre-foot of water to be produced during the ensuing water year. Said notice may be sent by postal card or by other first-class mail and with postage prepaid by the district.

SEC. 13. Section 4.9 is added to said act, to read:

Sec. 4.9. The district shall have the right to enter onto any property in the district to ascertain whether water-producing facilities are located thereon and to make such tests and measurements and otherwise obtain such information as in the judgment of the board may be useful in determining the quantities of ground water produced by any such facilities and used. Without limiting the generality of the foregoing, such information may include the size, type and efficiency of the water-producing facility, the pumping level of such facility, the type of water use, the number of acres and types of crops irrigated, the number of people served, and any other relevant data.

The owner or operator of each water-producing facility shall furnish to the district from time to time, as may be required by the district, the records, notices or bills, or duplicates thereof, respecting the amount of electric power used in operating such facility, as received by such owner or operator from the utility or agency which furnishes such electric power.

SEC. 14. Section 4.10 is added to said act, to read:

Sec. 4.10. On the basis of the information acquired pursuant to Section 4.9 of this act and any other relevant information and utilizing such methods of determination and computation as the board determines to be reasonable in the circumstances, the district shall periodically determine the amount of water produced by each water-producing facility and used since the previous determination thereof, and shall compute the ground water charge payable therefor. The district shall send a bill for such charge by certified mail, with postage prepaid by the district, addressed to the operator of each such facility at his address as disclosed by the records

of the district. If such bill is not paid within 30 days after mailing thereof, the district shall charge interest at the rate of one percent (1%) each month thereafter on the delinquent amount until paid.

SEC. 15. Section 4.11 is added to said act, to read:

Sec. 4.11. The district shall prepare each year a record called "The Record of Water Production and Ground Water Charges" in which shall be entered a general description of the property upon which each water-producing facility is located, and identifying number or code which is assigned to such facility, the annual water production for each class of water produced from each water-producing facility, and the ground water charge for each class of water.

SEC. 16. Section 4.12 is added to said act, to read:

Sec. 4.12. The superior court of the county in which the district lies may issue a temporary restraining order upon the filing by the district with said court of a petition or complaint setting forth that the person named therein as defendant is the operator of a water-producing facility which has not been registered with the district or that such defendant is delinquent in the payment of a ground water charge. Such temporary restraining order shall be returnable to said court on or before 10 days after its issuance.

The court may issue and grant an injunction restraining and prohibiting the named defendant from the operation of any water-producing facility when it is established at the hearing that the defendant has failed to register such water-producing facility with the district or that the defendant is delinquent in payment of ground water charges thereon. Such court may provide that the injunction so made and issued shall be stayed for a period not to exceed 10 days to permit the defendant to register the water-producing facility or to pay the delinquent ground water charge.

Service of process is completed by posting a copy of the summons and complaint upon the water-producing facility or the parcel of land upon which it is located and by personal service upon the named defendant.

The right to proceed for injunctive relief granted herein is an additional right to those which may be provided elsewhere in this act or otherwise allowed by law. The procedure provided in Chapter 3 (commencing with Section 525), Title 7, Part 2 of the Code of Civil Procedure, regarding injunctions shall be followed except insofar as it may herein be otherwise provided. The district shall not be required to provide an undertaking or bond as a condition to granting injunctive relief.

SEC. 17. Section 4.13 is added to said act, to read:

Sec. 4.13. The determination of the ground water charge as set forth in the bills mailed by the district as provided in Section 4.10 of this act shall be conclusive unless within 10 days after mailing of such bill, a written protest is filed with the board by the owner or operator of the water-producing

facility, setting forth the ground or grounds of protest. Upon the filing of such protest, the board thereafter shall hold a hearing at which time the total amount of the water produced and used and the ground water charge thereon shall be determined, which shall be conclusive if based upon substantial evidence. A notice of such hearing shall be mailed to the protestant at least 10 days before the date fixed for the hearing. Notice of the determination by the board shall be mailed to each protestant, who shall then have 20 days from the date of mailing to pay the ground water charge and any interests or penalties provided by the provisions of this act.

Notice as required in this section shall be given by certified mail, postage prepaid, addressed to the person on whom it is served at his name and address as disclosed by the records of the district. The service is complete at the time of deposit.

SEC. 18. Section 4.14 is added to said act, to read:

Sec. 4.14. The district may bring a suit in the court having jurisdiction against any operator of a water-producing facility within the district for the collection of any delinquent ground water charge. The court having jurisdiction of said suit, may, in addition to allowing recovery of costs to said district as allowed by law, fix and allow as part of the judgment interest and penalties as provided in Section 4.9. Should the district, as a provisional remedy in bringing such suit, seek an attachment against the property of any named defendant therein, the district shall not be required to provide a bond or undertaking as is otherwise provided for in Chapter 4 (commencing with Section 537), Title 7, Part 2 of the Code of Civil Procedure.

SEC. 19. Section 4.15 is added to said act, to read:

Sec. 4.15. It shall be unlawful to produce water from any water-producing facility required to be registered pursuant to the terms of this act unless such water-producing facility has been registered with the district within the time required by the provisions of this act.

Violation of this provision shall be punishable by a fine not to exceed five hundred dollars ($500), or imprisonment in the county jail for not to exceed six months, or by both such fine and imprisonment. Each day of operation in violation hereof shall constitute a separate offense.

SEC. 20. Section 4.16 is added to said act, to read:

Sec. 4.16. Any person who injures, alters, removes, resets, adjusts, manipulates, obstructs or in any manner interferes or tampers with or procures or causes or directs any person to injure, alter, remove, reset, adjust, manipulate, obstruct or in any manner interfere or tamper with any water-measuring device affixed to any water-producing facility, so as to cause said water-measuring device to improperly or inaccurately measure and record said water production, is guilty of a misdemeanor and is punishable by a fine not to exceed five hundred dollars ($500), or imprisonment in the county jail not to exceed six months, or by both such fine and imprisonment.

SEC. 21. Section 5 of said act is amended to read:

Sec. 5. There is a district board of directors of five members appointed by the board of supervisors of Yolo County which shall exercise the powers of the district enumerated in this act, except as otherwise provided, and may perform all other acts necessary or proper, in their discretion, to accomplish the purposes of this act. Said directors shall be residents of the district.

Of the members first appointed, one shall be appointed to serve for a term of one year, one for a term of two years, one for a term of three years, and two for a term of four years. Thereafter all members shall be appointed for a term of four years. Any member of the board of directors may be removed from office at any time, with or without cause, by the board of supervisors, a majority of the entire membership concurring. All vacancies in the membership of the board of directors shall be immediately filled by appointment by the board of supervisors for the unexpired portion of the term in which they occur.

The board of directors may adopt and enforce reasonable rules and regulations for the administration and government of the district and to facilitate the exercise of its powers and duties herein set forth and may employ and fix the compensation of all necessary agents and employees to look after the performance of any work or improvement provided in this act. Each member of the board of directors shall serve without compensation, but shall be allowed his actual, necessary, and reasonable expenses incurred in carrying out his duties under this act The directors shall elect a chairman, who shall preside at all meetings of the board and in case of his absence or inability to act, the members present must, by an order entered in their minutes, select one of their number to act as chairman temporarily. Any member of the board may administer oaths, when necessary in the performance of his official duties. A majority of the members of the board shall constitute a quorum for the transaction of business, and no act of the board shall be valid or binding unless a majority of all members present concur therein.

No director of the district shall in any manner be interested, directly or indirectly, in any contract awarded or to be awarded by the board, or in the profits to be derived therefrom; and for any violation of this provision, such person shall be guilty of a misdemeanor, and upon conviction thereof shall forfeit his office. This section shall not be construed to apply to any contract made with a corporation for its general benefit where such a director is a minority stockholder therein.

SEC. 22. Section 27.5 is added to said act, to read:

Sec. 27.5. So far as possible, the board shall fix the rates and charges (including the ground water charge) for water, service and benefit from its operation so as to pay such portion of the expenses of the district as the board determines to be

justly apportionable to the furnishing of such water, service and benefit. The expenses to be paid include:

(a) The operating expenses of the district.

(b) Provision for a fund for repairs and depreciation of works owned or operated by the district.

(c) The interest on any bonded debt.

(d) Provision for a fund for payment of the principal of the bonded debt as it becomes due.

(e) Any other costs and expenses of constructing, maintaining, operating, purchasing or leasing works used in providing such water, service and benefit.

It is intended by this section that such rates and charges for water, service and benefit shall be fixed so as to be sufficient to pay the interest and principal of any bonded debt incurred to finance the construction and acquisition of the works which provide such water, service and benefit; provided, that this section shall in no way impair the district's general obligation to bondholders to pay the interest and principal of bonds authorized under Section 16 of this act.

SEC. 23. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Yolo County Flood Control and Water Conservation District is planning the construction of the Cache Creek Project to provide an urgently needed supplemental water supply for said district and it is necessary to revise the boundaries of said district and to proceed with an election on the issuance of bonds to finance said project at the earliest possible date. Unless this act takes effect immediately, this urgently needed water project will be delayed.

CHAPTER 1063

An act to amend Section 24834 of the Revenue and Taxation Code, relating to the taxation of banks, corporations, associations, and Massachusetts trusts, to take effect immediately.

[Approved by Governor June 28, 1963. Filed with Secretary of State June 29, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 24834 of the Revenue and Taxation Code is amended to read:

24834. For purposes of this section and Section 24833—

(a) The term "gross income from the property" means, in the case of a property other than an oil or gas well, the gross income from mining.

(b) The term "mining" includes not merely the extraction of the ores or minerals from the ground but also the treatment processes considered as mining described in paragraph (d) (and the treatment processes necessary or incidental thereto), and so much of the transportation of ores or minerals (whether or not by common carrier) from the point of extraction from the ground to the plants or mills in which such treatment processes are applied thereto as is not in excess of 50 miles unless the Franchise Tax Board finds that the physical and other requirements are such that the ore or mineral must be transported a greater distance to such plants or mills.

(c) The term "extraction of the ores or minerals from the ground" includes the extraction by mine owners or operators of ores or minerals from the waste or residue of prior mining. The preceding sentence shall not apply to any such extraction of the mineral or ore by a purchaser of such waste or residue or of the rights to extract ores or minerals therefrom.

(d) The following treatment processes where applied by the mine owner or operator shall be considered as mining to the extent they are applied to the ore or mineral in respect of which it is entitled to a deduction for depletion under Section 24833, 24834 and 24835:

(1) In the case of coal—cleaning, breaking, sizing, dust allaying, treating to prevent freezing, and loading for shipment;

(2) In the case of sulfur recovered by the Frasch process—cleaning, pumping to vats, cooling, breaking, and loading for shipment;

(3) In the case of iron ore, bauxite, ball and sagger clay, rock asphalt, and ores or minerals which are customarily sold in the form of a crude mineral product—sorting, concentrating, sintering, and substantially equivalent processes to bring to shipping grade and form, and loading for shipment;

(4) In the case of lead, zinc, copper, gold, silver, uranium, or fluorspar ores, potash, and ores or minerals which are not customarily sold in the form of the crude mineral product—crushing, grinding, and beneficiation by concentration (gravity, flotation, amalgamation, electrostatic, or magnetic), cyanidation, leaching, crystallization, precipitation (but not including electrolytic deposition, roasting, thermal or electric smelting, or refining), or by substantially equivalent processes or combination of processes used in the separation or extraction of the product or products from the ore or the mineral or minerals from other material from the mine or other natural deposit;

(5) The pulverization of talc, the burning of magnesite, the sintering and nodulizing of phosphate rock, and the furnishing of quicksilver ores:

(6) In the case of calcium carbonates and other minerals when used in making cement—all processes (other than preheating of the kiln feed) applied prior to the introduction of the kiln feed into the kiln, but not including any subsequent process;

(7) In the case of clay used, or sold for use, in the manufacture of building or paving brick, drainage and roofing tile, sewer pipe, flowerpots and kindred products—crushing, grinding, and separating the mineral from waste, but not including any subsequent process; and

(8) Any other treatment process provided for by regulations prescribed by the Franchise Tax Board which, with respect to the particular ore or mineral, is not inconsistent with the preceding provisions of this paragraph.

(e) Unless such processes are otherwise provided for in subdivision (d) (or are necessary or incidental to processes so provided for), the following treatment processes shall not be considered as "mining": electrolytic deposition, roasting, calcining, thermal or electric smelting, refining, polishing, fine pulverization, blending with other materials, treatment effecting a chemical change, thermal action, and molding or shaping.

SEC. 2. The provisions of this bill shall be applicable only with respect to income years beginning after December 31, 1962. The determination as to the treatment processes which shall be considered as mining for any income year beginning before January 1, 1963, shall be made as if Section 24834 had not been amended at the 1963 Regular Session of the Legislature and without inferences drawn from the fact that such amendments were not expressly made applicable with respect to income years beginning before January 1, 1963.

SEC. 3. This act provides for a tax levy within the meaning of Article IV of the Constitution, and shall go into effect immediately.

CHAPTER 1064

An act to amend Sections 58902, 58904 and 58905 of the Government Code, relating to notice of formation or change in boundaries of districts, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 28, 1963. Filed with Secretary of State June 29, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 58902 of the Government Code is amended to read:

58902. Except as herein otherwise provided, this chapter shall apply to all districts This chapter shall not apply to any boundary change which is approved by all of the owners of real property proposed to be included within, or proposed to be excluded from, the district, nor to any proceeding commenced or conducted with respect to forming a metropolitan water district or separation of grade district or changing the boundaries thereof.

SEC. 2. Section 58904 of said code is amended to read:

58904. The notice of filing or other submission of the proposal shall contain the matters specified by the law under which the proposal is made. In lieu thereof it shall be sufficient if the notice of filing or other submission of the proposal shall contain the following:

(a) The nature of the proposal.

(b) A general description or map of the territory included in the proposal.

(c) The time and place of the first public hearing on the proposal if a public hearing is required by other provisions of law to be held upon the proposal, or the time and place upon which the supervising authority will take initial action upon the proposal.

SEC. 3. Section 58905 of said code is amended to read:

58905. Every owner of real property, including property assessed by the State under Section 14, Article XIII of the Constitution, is hereby authorized to file a statement each fiscal year with the county assessor, showing his name, address, and a description of the property owned by him, together with a request that a notice of all proposals affecting such property shall be mailed to him at such address. The statement and request shall be effective only for the fiscal year in which it was filed. The fee for filing a statement and request is one dollar and fifty cents ($1.50). The property owner shall furnish a copy of the statement and request to the clerk of any supervising authority having a request for same on file with the county assessor, and this chapter shall be ineffective with respect to the actions of that supervising authority unless its clerk shall have received a copy of the statement and request.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Recent experience has shown that it is desirable in the formation of local agencies or special taxing districts therein for notice to be mailed to property owners whose property may be included within such local agencies or special taxing districts and consequently subjected to taxes therefor. Many of these local agencies and special taxing districts involve water, sewer and other public health and safety facilities. This act will aid local agencies to give such mailed notice and so will aid in the solution of public health and safety problems in this State.

CHAPTER 1065

An act to add Article 6 (commencing with Section 53520) to Chapter 3, Part 1, Division 2, Title 5 of the Government Code, relating to notice by mail of hearings of local agencies, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 28, 1963. Filed with Secretary of State June 29, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Article 6 (commencing with Section 53520) is added to Chapter 3, Part 1, Division 2, Title 5 of the Government Code, to read:

Article 6. Notice by Mail

53520. As used in this article "local agency" means county, city, city and county, public district or any public or municipal corporation, public agency or public authority.

53521. Whenever by any law of this State a local agency is required to give notice by posting or publication of a hearing on the formation of a local agency or an improvement district, zone or special taxing district within a local agency, or on the issuance of bonds or other evidences of indebtedness by or for any of the foregoing, the local agency may, in its discretion, cause additional notice of such hearing to be given by mail as follows:

(a) By mailing such notice, postage prepaid, to all persons owning real property which will be within such local agency, improvement district, zone or other special taxing district when the same is formed, or which will or may be taxed or assessed for the payment of bonds or other evidences of indebtedness issued by or for any thereof, whose names and addresses appear on the last equalized county assessment roll (including the roll of state-assessed property) or are known to the clerk or secretary of the local agency.

(b) Such notice shall be mailed at least fifteen (15) days prior to the date fixed for the hearing.

53522. The clerk or secretary of the local agency shall, upon the completion of the mailing of the notice, file with the legislative body of the local agency an affidavit setting forth the time and manner of such mailing.

53523. The failure of any addressee of any mailed notice to receive the same shall not affect in any way whatsoever the validity of the proceedings including such hearing nor prevent the legislative body of the local agency from proceeding with any hearing so noticed.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution and shall, therefore, go into immediate

effect. A statement of the facts constituting such necessity is as follows:

Recent experience has shown that it is desirable in the formation of local agencies or special taxing districts therein for notice to be mailed to property owners whose property may be included within such local agencies or special taxing districts and consequently subjected to taxes therefor. Many of these local agencies and special taxing districts involve water, sewer and other public health and safety facilities. This act will enable local agencies to give such mailed notice and so will aid in the solution of public health and safety problems in this State.

CHAPTER 1066

An act to amend Section 23432 of the Business and Professions Code, relating to alcoholic beverages.

[Approved by Governor June 29, 1963. Filed with Secretary of State July 1, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 23432 of the Business and Professions Code is amended to read:

23432. Any club which holds an onsale general license which was originally issued to it prior to April 1, 1947, and which transfers its onsale general license to another person shall not be eligible to apply for a club license for a period of at least one year following the date of the transfer of its onsale general license.

CHAPTER 1067

An act to add Section 1509.95 to the Military and Veterans Code, and to amend Section 4011 of the Penal Code, relating to removal of prisoners in the event of disaster.

[Approved by Governor June 29, 1963. Filed with Secretary of State July 1, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 1509.95 is added to the Military and Veterans Code, to read:

1509.95. In any case in which fire, flood, enemy attack, or other disaster endangering the lives of inmates of a state, county, or city penal or correctional institution has occurred or is imminent, the person in charge of the institution may remove the inmates from the institution. He shall, if possible remove them to a safe and convenient place and there confine them as long as may be necessary to avoid the danger, or, if

that is not possible, may release them. Such person shall not be held liable, civilly or criminally, for acts performed pursuant to this section.

SEC. 2. Section 4011 of the Penal Code is amended to read:

4011. (a) When it is made to appear to a judge of the superior court by affidavit of the sheriff or district attorney and oral testimony that a prisoner confined in any city or county jail requires medical or surgical treatment necessitating hospitalization, which treatment cannot be furnished or supplied at said city or county jail, the court in its discretion may order the removal of such person or persons from said city or county jail to the county hospital in said county; provided, if there is no county hospital in said county, then to any hospital designated by said court; and it shall be the duty of the sheriff to maintain the necessary guards for the safekeeping of such prisoner, the expense of which shall be a charge against the county.

(b) The cost of such medical services and such hospital care and treatment shall be charged against the county subject to subsections (d) and (e), in the case of a prisoner in or taken from the county jail, or against the city in the case of a prisoner in or taken from the city jail, and the city or county may recover the same by appropriate action from the person so served or cared for, or any person or agency responsible for his care and maintenance. If the prisoner is in the county jail under contract with a city or under some other arrangement with the city to keep the city prisoner in the county jail, then the city shall be charged, subject to subsections (d) and (e), for the prisoner's care and maintenance with the same right of recovery against any responsible person or any other agency.

(c) When such prisoner is poor and indigent the cost of such medical services and such hospital care and treatment shall, in the case of persons removed from the city jail be paid out of the general fund of such city, and in the case of persons removed from the county jail to a hospital other than a county hospital, such cost shall be paid out of the general fund of such county or city and county. In the case of city jail prisoners removed to the county hospital, the cost of such hospital care and treatment to be paid by the city to the county, shall be the rate per day fixed by the board of supervisors of such county. The said board of supervisors may, but need not, fix different rates for different classes of patients, or for different wards, and any and all such rates may be changed by the said board of supervisors at any time, but shall at all times approximate as nearly as may be, the average actual cost to the county of such hospital care and treatment either in such wards or for such classes of patients or otherwise.

(d) In the event such prisoner is financially able to pay for his care, support and maintenance, the medical superintendent of said hospital other than a county hospital may, with the approval of said judge of the superior court, enter into a

special agreement with such person, or with his relatives or friends, for his care, support, maintenance, and other hospital expenses.

Any prisoner may decline such care or treatment and provide other care and treatment for himself at his own expense.

CHAPTER 1068

An act to amend Section 19563 of the Education Code, relating to school district public works.

[Approved by Governor June 29, 1963. Filed with Secretary of State July 1, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 19563 of the Education Code is amended to read as follows:

19563. In making applications for, and in expending apportionments of funds under this chapter, a school district acts as an agent of the State and all sites purchased and improved, all equipment purchased, and all buildings constructed, reconstructed, altered, or added to through the expenditure of funds apportioned under this chapter, are declared to be, and are, the property of the State.

The Director of Finance shall file with the county recorder of the county in which any site purchased or improved through the expenditure of funds apportioned under this chapter is located a certificate, properly acknowledged, indicating the State's interest in real property of the district by virtue of this section, without the necessity of particularizing such real property. The recorder shall record and index the certificate in the same manner as abstracts of judgments and the certificate shall constitute constructive notice of the State's interest in the particular real property affected. Such certificate shall as to any party thereafter acquiring real property or any interest therein in the county from said school district have the same force, effect and priority as if it had been a judgment lien imposed upon real property which was not exempt from execution. Such effect shall commence upon recordation and continue until the certificate is discharged or released as provided herein.

25450.2. The governing board of the petitioning district may prepare a petition for the formation of a junior college district coterminous with the boundaries of the petitioning district. The petition may include a provision for the transfer

of all or part of the real and personal property of the petitioning district used for junior college purposes to the proposed junior college district. The petition shall be submitted to the county committee on school district organization of the county or counties in which the petitioning district is located for review by the committee. The board shall not restore such license to good standing until it shall receive competent evidence of restoration to or declaration of sanity and until it is satisfied that, with due regard for the public interest, said person's right to practice may be safely reinstated; provided, that in the case of a commitment to a state hospital or other mental hospital, receipt of a certificate of discharge from such hospital and the certificate of the superintendent

of said hospital that the licensee is restored to mental competency, shall constitute competent evidence of restoration to sanity. Before reinstating such person, the board may require the person to pass an oral examination to determine his present fitness to resume his practice.

CHAPTER 1072

An act to amend Section 4986 of the Revenue and Taxation Code, relating to the cancellation of property taxes.

[Approved by Governor June 29, 1963. Filed with Secretary of State July 1, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 4986 of the Revenue and Taxation Code is amended to read:

4986. (1) All or any portion of any uncollected tax, penalty, or costs, heretofore or hereafter levied, may, on satisfactory proof, be canceled by the auditor on order of the board of supervisors with the written consent of the county legal advisor if it was levied or charged:

(a) More than once.

(b) Erroneously or illegally.

(c) On a portion of an assessment in excess of the cash value of the property by reason of the assessor's clerical error.

(d) On improvements when the improvements did not exist on the lien date.

(e) On property annexed after the lien date by the public entity owning it.

(f) On property acquired prior to September 18, 1959, by the United States of America, the State, or by any county, city, school district or other political subdivision and which, because of such public ownership, became not subject to sale for delinquent taxes.

(2) (a) On property acquired after the lien date by the United States of America, if such property upon such acquisition becomes exempt from taxation under the laws of the United States, or by the State or by any county, city, school district or other public entity, and because of such public ownership becomes not subject to sale for delinquent taxes, no cancellation shall be made in respect of all or any portion of any such unpaid tax, or penalties or costs, but such tax, together with such penalties and costs as may have accrued thereon while on the secured roll, shall be transferred to the unsecured roll pursuant to Section 2921.5 of this code, and collection thereof shall be made and had as provided therein, except that the statute of limitations on any suit brought to collect such taxes and penalties shall commence to run from the date of transfer of such taxes, penalties and costs to the

unsecured roll, which date shall be entered on the unsecured roll by the auditor opposite the name of the assessee at the time such transfer is made. The foregoing toll of the statute of limitations shall apply retroactively to all such unpaid taxes and penalties so transferred, the delinquent dates of which are prior to the effective date of the amendment of this section at the 1959 Regular Session.

If any property described in this subdivision is acquired by a negotiated purchase and sale, gift, or devise after the lien date but prior to the commencement of the fiscal year for which current taxes are a lien on the property, the amount of such current taxes shall be canceled and neither the person from whom the property was acquired nor the public entity shall be liable for the payment of such taxes. If, however, the property is so acquired after the commencement of the fiscal year for which the current taxes are a lien on the property, that portion only of such current taxes, together with any allocable penalties and costs thereon, which are properly allocable to that part of the fiscal year which ends on the day before the date of acquisition of the property, shall be transferred to the unsecured roll and be collectible from the person from whom the property was acquired. The portion of such taxes, together with any penalties and costs thereon, which are allocable to that part of the fiscal year which begins on the date of the acquisition of the property, shall be canceled and shall not be collectible either from the person from whom the property was acquired nor from the public entity.

In no event shall any transfer of unpaid taxes, penalties or costs be made with respect to property which has been tax-deeded to the State for delinquency.

For purposes of this subdivision (a) if proceedings for acquisition of the property by eminent domain have not been commenced, the date of acquisition shall be the date that the conveyance is recorded in the name of the public entity or the date of actual possession by the public entity, whichever is earlier. If proceedings to acquire the property by eminent domain have been commenced and an order of immediate possession obtained prior to acquisition of the property by deed, the date of acquisition shall be the date upon or after which the plaintiff may take possession as authorized by such order of immediate possession.

(b) If at the time exemption from sale attaches to land or improvements acquired by a public entity the purchase price thereof is deposited in the registry of a court in an eminent domain proceeding, all delinquent taxes, penalties and costs which were or are a lien against such land or improvements and the pro rata share of the current taxes, penalties and costs which are a lien against such land or improvements, prorated for the fiscal year for which such current taxes, penalties and costs are or will be due and payable, shall be paid out of the award. The date for such proration shall be at the time title was transferred to, or possession was taken by, the

public entity, whichever time the court determines to have first occurred. If the amount of the current tax is not ascertainable at the time the proration is made the same shall be estimated and computed by the court based upon the last equalized assessed value of the property in its entirety regardless of any segregation which may occur by reason of the taking, and the tax rate levied on the property for the immediate prior year. The court shall further order canceled the public entity's portion of any prorated current tax. The subject of the amount of the taxes which may be due on the property shall not be considered relevant on any issue in the condemnation action, and the mention of said subject, either on the voir dire examination of jurors, or during the examination of witnesses, or as a part of the court's instructions to the jury, or in argument of counsel, or otherwise, shall constitute grounds for a mistrial in any such action.

No cancellation under paragraph (b) of subdivision (1) of this section shall be made in respect of all or any portion of any tax, or penalties or costs attached thereto, collectible by county officers on behalf of a municipal corporation without the written consent of the city attorney thereof.

For the purpose of this subdivision the date of possession shall be the date after which the plaintiff may take possession as authorized by order of the court or as authorized by a declaration of taking.

[Approved by Governor June 29, 1963. Filed with Secretary of State July 1, 1963.]

An act to add Section 13339 to the Education Code, relating to the employment of persons to serve as reader assistants to teachers.

[Approved by Governor June 29, 1963. Filed with Secretary of State July 1, 1963.]

The governing board may pay such hourly or unit compensation rates as it deems proper for the services rendered. It is the intent of the Legislature in enacting this section not to

authorize an increase in the number of pupils who may be assigned to any class, but to provide an opportunity for improvement in the quality of student writing through more frequent assignments of compositions made possible by the employment of suitably trained persons to assist the instructor in the careful marking and analysis of the written work. Furthermore, the means adopted for employing persons as reader assistants is not intended as an encroachment upon the merit system of public employment, but is adopted as the most practical arrangement, since most work of such nature will be done as part-time work and in the home.

A metes and bounds description shall not be required if the property can be otherwise described in a manner sufficient to identify it on the last equalized assessment roll. As used in this article, "owner" means the owner as shown on the last equalized assessment roll, except that the person entitled to be shown as owner on the current assessment roll shall be deemed the owner, and except that, where the property affected is subject to a recorded written agreement to buy, the purchaser under such agreement to buy shall be deemed the owner. Protests may be made or withdrawn on behalf of the owner by an agent authorized in writing by the owner to act as agent with respect to such land, except that protest may be made or withdrawn on behalf of a private corporation which is an owner of property by any officer or employee of the corporation without written authorization by the corporation to act as agent or make such protest.

35413. Protests may be filed by the owner of any property included within the territory proposed to be annexed. The city council may continue the hearing from time to time and the owner of any property may at any time withdraw the protest on his property. For the purposes of this section, the "owner" shall mean the person shown on the last equalized assessment roll, or the person owning the equitable interest in the subject real property.

35414. The city legislative body shall find and declare by resolution adopted at the hearing or within 10 days after the hearing on protests whether or not a majority protest has been made. If it does not adopt such a resolution within such period, it shall be deemed to have adopted on the 10th day a resolution that a majority protest has been made.

If a resolution is adopted or deemed adopted finding and declaring that a protest is made by the owners of real property within the territory proposed to be annexed the assessed value of which, as shown by the last equalized assessment roll, consitutes more than one-half of the total assessed value of the real property within the territory proposed to be annexed, no further proceedings for the annexation of any of the same territory to the city shall be taken for one year after the date of the adoption of the resolution.

35415. If the city legislative body finds by resolution adopted pursuant to Section 35414 that a majority protest has not been made, the legislative body shall approve or disapprove the annexation by ordinance adopted within 60 days after the hearing on protests. If the legislative body fails to adopt the ordinance within such period, it shall be deemed to have adopted, on the 60th day of such period, an ordinance disapproving the annexation.

35416. As an alternative to the foregoing proceedings, in the event that all of the owners of land located within an enclosed territory request or consent in writing to annexation of said land to the city, the city legislative body may, after complying with Section 35002, adopt an ordinance annexing said land to the city. Such written request shall not be deemed a petition within the meaning of Section 35002.

35417. When an ordinance approving annexation becomes effective, the clerk of the legislative body shall immediately prepare under seal a certified copy of the ordinance, giving the date of its passage, and transmit it to the Secretary of State.

35418. Upon receipt of the certified copy of the ordinance, the Secretary of State shall file it and transmit certificates of filing to the clerk of the city legislative body and the board of supervisors of the county in which the city is situated.

35419. From the date of filing by the Secretary of State, annexation proceedings are complete. The annexed territory is a part of the city from the date fixed by the legislative body in the resolution described in Section 35409, but not later than one year after the date of filing by the Secretary of State or the due date of property taxes levied by the city in the territory, whichever occurs first, except that for the purpose of compliance with Sections 34080 and 54900 of this code, and any action required for the assessment and levy of property taxes, the territory shall be deemed part of the city from the date of filing by the Secretary of State. If no date is fixed by the legislative body in the resolution described in Section 35409, the territory is a part of the city for all purposes from the date of filing by the Secretary of State or the date of the filing of the affidavit with the recorder of the county pursuant to Section 34080, whichever occurs later.

35420. All proper expenses of proceedings for annexation pursuant to this article shall be paid by the city annexing or attempting to annex the territory.

35421. Where territory is annexed to a city divided into wards, or to a city which later divides itself into wards, the legislative body, by ordinance, shall alter the boundaries of the city wards to include the annexed territory in one or more wards adjoining the territory, or make one or more additional wards out of the annexed territory. The number of wards shall not be increased to exceed the number which the city is allowed by law.

35422. In altering the boundaries of wards, or creating new wards, each ward shall contain, as nearly as possible, an equal number of inhabitants eligible to citizenship.

35423. Any proceeding held pursuant to this article does not alter or affect the boundaries of any senatorial or assembly district.

CHAPTER 1108

An act to add Chapter 4 (commencing with Section 8600) to Division 6 of the Elections Code, relating to the endorsement of candidates.

[Approved by Governor June 29, 1963. Filed with Secretary of State July 1, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 4 (commencing with Section 8600) is added to Division 6 of the Elections Code, to read:

CHAPTER 4. ENDORSEMENT OF CANDIDATES FOR PARTISAN OFFICES

8600. This chapter shall be known and may be cited as the Truth in Endorsements Law.

8601. The Legislature hereby finds the following to be true:

(1) The major political parties have become an integral part of the American governmental system requiring regulation as to their structure, governing bodies, and functions by state government in the public interest.

(2) The Legislature has found it necessary and appropriate in the regulation of political parties to create and provide for the convening of state conventions, state central committees, and county central committees for parties qualified by law to participate in the direct primary election, by statute.

(3) Over the several years preceding the adoption of this section organizations of electors using as a part of their names the name of a political party qualified to participate in the direct primary election have endorsed candidates for nomination of that party for partisan office in the direct primary election and have publicized and promulgated such endorsements in a manner which has resulted in considerable public doubt and confusion as to whether such endorsements are those of a private group of citizens or of an official governing body of a political party.

(4) The voting public is entitled to protection by law from deception in political campaigns in the same manner and for

the same reasons that it is entitled to protection from deception by advertisers of commercial products.

8602. The state convention, state central committee, and the county central committee in each county are the official governing bodies of a party qualified to participate in the direct primary election. The state convention, state central committee, and the county central committee in each county shall not endorse, support, or oppose, any candidate for nomination by that party for partisan office in the direct primary election. No candidate for such nomination shall claim, nor shall any other person claim on his behalf, that he is the official candidate or the officially endorsed candidate of that party.

8603. Every advertisement, bill, placard, pamphlet or other printed or duplicated matter having reference to any candidate for nomination for partisan office in the direct primary election, which contains a statement or words to the effect that the candidate has been endorsed or is being supported by a political party, political party organization, or organization using as a part of its name the name of a political party or derivative thereof, shall bear on each surface, page, or fold thereof on which such statement or words appear, or on the front and back surface thereof, in type or lettering at least half as large as the type or lettering of such statement or words or in 10-point roman type, whichever is larger, in a printed or drawn box and set apart from any other printed matter, the following statement:

NOTICE TO VOTERS
(Required by law)

The endorsement hereon is by an unofficial political group. Official organizations of the (name) Party are prohibited by law from endorsing candidates in primary elections.

Nothing in this section shall be construed to apply to any news item, comment, or article, for which no consideration, direct or indirect, is paid by or on behalf of any candidate or committee, and which is published in any regularly published newspaper or magazine which in the ordinary course of business publishes political news items, comments, or articles.

8604. Notwithstanding any provision of Section 8603, in the case of any post card published and circulated by or in behalf of any committee or organization using as a part of its name the name of qualified political party or derivative thereof, which post card is not folded and consists of only two surfaces, on one or both of which surfaces appear a statement or words as described in Section 8603 with reference to a candidate or group of candidates in the direct primary election, the requirements of Section 8603 shall be satisfied if there

is printed on both surfaces thereof the words "published by", followed by the name of the committee or organization printed in not less than 10-point boldface type, followed by the words " , an unofficial political group" printed in not less than 10-point boldface type, provided that this section shall not be construed so as to modify the requirements of Section 11592, and further provided that this section shall not apply to any matter which bears the word "official" followed by the name of the party or derivative thereof, or the words "officially endorsed", or to any matter which violates the provisions of Section 8602.

8605. The requirements of Section 8603 shall apply to any paid political advertisement intended for broadcast or telecast by radio or television, except that the "Notice to Voters" required by Section 8603 shall be read in full instead of printed.

8606. In addition to any other penalty, no payment shall be made or allowed to any person in consideration for his having prepared, printed, published, or circulated, or assisted in the preparation, printing, publishing, or circulating of any advertisement, bill, placard, poster, or other printed or duplicated matter in violation of Section 8603. Any person who knowingly pays or receives a payment in violation of this section is guilty of a misdemeanor.

The superior court, in any case brought before it by any registered voter, may issue a temporary or permanent restraining order or injunction against the publication, printing, circulation, posting, broadcasting, or telecasting of any matter in violation of this chapter, and all cases of this nature shall be in a preferred position for purposes of trial and appeal, so as to assure the speedy disposition thereof.

When land or property is temporarily unnecessary for park purposes, it may be leased for nonpark purposes for a term not exceeding 25 years with an express provision in the lease that should the board by ordinance determine to use the lands for park or other district purposes, the lease shall thereby be terminated. [Approved by Governor June 29, 1963. Filed with Secretary of State July 1, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 57 is added to the Elections Code, to read:

57. No person shall be considered a legally qualified candidate for any office or party nomination for a partisan office under the laws of this State unless he has filed a declaration of candidacy or declaration of acceptance of nomination with the proper official for the particular election or primary, or is entitled to have his name placed on a general election ballot by reason of having been nominated at a primary election

or having been selected to fill a vacancy on the general election ballot as provided in Section 6655 of this code.

This section shall not be construed to prevent a voter from writing in the name of any person for an office at a primary or general election, or from having such vote counted.

It is the intent of the Legislature, in enacting this section, to enable the Federal Communications Commission to determine who is a "legally qualified candidate" in this State for the purposes of administering the provisions of Section 315 of the Communications Act of 1934.

CHAPTER 1119

An act to add Section 70046.2 to the Government Code, relating to compensation of official reporters and fees.

SECTION 1. Section 70046.2 is added to the Government Code, to read:

70046.2. In a county with a population of over 350,000 and not over 390,000, as determined by the 1960 federal decennial census, each reporter shall be paid an annual salary of nine thousand six hundred dollars ($9,600) and each pro tempore reporter shall be paid thirty-five dollars ($35) per day for the days he actually is on duty under order of the court. In such a county, the fee required by Section 70053 shall be seven dollars and fifty cents ($7.50).

CHAPTER 1120

An act to amend Section 689b of the Code of Civil Procedure, relating to execution of civil judgments.

[Approved by Governor June 29, 1963. Filed with Secretary of State July 1, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 689b of the Code of Civil Procedure is amended to read:

689b. (1) Where the property levied upon is a vehicle required to be registered with the Department of Motor Vehicles or a vessel required to be registered with the Division of Small Craft Harbors, the officer shall forthwith determine from the department or division, as the case may be, the name and address of the legal owner of the vehicle or vessel and shall notify

any such legal owner who is not also the registered owner of such vehicle or vessel of the levy by registered mail or certified mail or personal service.

(2) A seller or mortgagee may file with the officer levying on personal property a verified written claim, together with a copy thereof, containing a detailed statement of the sales contract or mortgage and the total amount of sums due or to accrue to him under the contract or mortgage, above setoffs, with interest to date of tender, and also stating therein his address within this State for the purpose of permitting service by mail upon him of any notice in connection with said claim. The officer making the levy may demand and exact the payment or undertaking herein provided for, notwithstanding any defect, informality or insufficiency of the verified claim delivered to him.

(3) Within five days after being served with such verified claim the officer levying on such property must make demand by registered mail or certified mail on the plaintiff or his attorney for the amount of the claimed debt and interest due to date of tender or the delivery to the officer of an undertaking and statement as hereinafter provided, which demand shall include the copy of such claim.

(4) Within five days after receipt by the plaintiff or his attorney of such officer's demand the plaintiff shall deposit with the officer the amount of such debt and interest or deliver the undertaking and statement hereinafter provided, or the levying officer must release the property.

(5) Within five days after receipt by him of such deposit the officer must pay or tender same to the seller or mortgagee; provided, that should such deposit be made by check the officer shall be allowed a reasonable time for check to clear.

(6) If the tender is accepted, all right, title, and interest of the seller or mortgagee in the property levied upon shall pass to the party to the action making the payment.

(7) If the tender is refused, the amount thereof shall be deposited with the county treasurer, payable to the order of the seller or mortgagee.

(8) Until such payment or deposit covering such claim is made, or the undertaking and statement herein provided delivered to the officer, the property cannot be sold under the levy; but when made (and also in case the seller or mortgagee fails to render his claim within 30 days after the personal service upon him of a written demand therefor, which service must be attested by the certificate of the serving officer, filed before the sale with the papers of the action wherein the attachment or execution was issued), then the officer must retain the property, and, in the case of an execution sell it in the manner provided by law, free of all liens or claims of the seller or mortgagee. Such written demand of the levying officer may be served by him, or for him by any sheriff, marshal, or constable whose office is closer to the place of service,

and whose fees and mileage shall be paid out of the prepaid fees in the possession of the levying officer.

(9) When an attachment or execution creditor presents to the officer, within the time allowed from the officer's demand, a verified statement that the sales contract or mortgage is void or invalid for the reasons specified therein, and delivers to the officer a good and sufficient undertaking in double the amount of the indebtedness claimed by the seller or mortgagee or double the value of the personal property as the officer may determine and require, the officer shall retain the property and in case of an execution sell it in the manner provided by law, free of all liens or claims of the seller or mortgagee.

The undertaking shall be made to the seller or mortgagee and shall indemnify him for the taking of the property against loss, liability, damages, costs and counsel fees. Exceptions to the sufficiency of the sureties and their justification may be had and taken in the same manner as upon an undertaking on attachment.

If such undertaking be given, such officer shall not be liable for damages to any such claimant for the taking, keeping, or sale of such property in accordance with the provisions of this code.

(10) Whenever a verified claim herein is delivered to the officer as herein provided, upon levy of execution or attachment (whether any undertaking hereinabove mentioned be given or not), the plaintiff, or the person in whose favor the writ runs, the claimant, or any one or more such joint claimants, shall be entitled to a hearing in the court in which the action is pending or from which the writ issued for the purpose of determining the validity of such sales contract or chattel mortgage. Such hearing may be had and taken, and stay of execution or other order made in the same manner as on third party claims under Section 689 of this code. At the conclusion of the hearing the court shall give judgment determining the validity of the claim under the sales contract or chattel mortgage which shall be conclusive between the claimant and the plaintiff, or other person in whose favor the writ runs. The court in which the action is pending, or which issued such writ, shall have original jurisdiction in all proceedings under this section.

If the property shall have been released by the officer for want of an undertaking or payment, and final judgment shall go for the plaintiff or other person in whose favor the writ runs, the officer shall retake the property on such writ, if the writ shall still be in his hands, or if the writ shall have been returned, another writ may be issued on which the officer may take such property.

County Salary Ordinance, in addition to any regular annual increase for length of service.

It is the intent of the Legislature, in enacting this section, that the salaries of the clerk and marshal of the municipal court and of their assistants and deputies shall be increased by the amounts hereinabove specified for the respective officers, assistants and deputies each and every time that a general salary increase is granted for permanent county monthly salaried employees during the time this section is in effect. CHAPTER 1143

An act to add Section 27456 to the Education Code, relating to dissolution of boards of library trustees.

[Approved by Governor July 5, 1963. Filed with Secretary of State July 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 27456 is added to the Education Code, to read:

27456. Whenever the governing bodies of two or more cities or counties consolidate their existing public library services, as a joint exercise of powers under Chapter 5 (commencing with Section 6500), Division 7, Title 1 of the Government Code, and the ownership or management of the cities' and counties' library facilities and other library assets are turned over to a newly formed joint agency, any boards of public library trustees existing prior to the consolidation, may be dissolved by ordinance.

CHAPTER 1144

An act to amend Section 31478 of the Government Code, relating to the County Employees Retirement Law of 1937.

[Approved by Governor July 5, 1963. Filed with Secretary of State July 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 31478 of the Government Code is amended to read:

31478. "Public agency" means the United States of America, this State, or any department or agency of either, or any county, or any city, public corporation, municipal corporation, or public district, which city, public corporation, municipal corporation, or public district is situated in whole or in part within the county.

Section 31468 does not apply to this section.

CHAPTER 1145

An act to amend Section 31304 of the Water Code, relating to county water districts, declaring the urgency thereof, to take effect immediately

[Approved by Governor July 5, 1963. Filed with Secretary of State July 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 31304 of the Water Code is amended to read:

31304. The district may issue negotiable promissory notes bearing interest at a rate not exceeding 6 percent per annum; provided, however, that said notes shall be general obligations of the district payable from revenues and taxes, unless paid from other available funds of the district, in the same manner as bonds of said district; and provided further, that the maturity shall not be later than five years from the date thereof and that the total aggregate amount of such notes outstanding at any one time shall not exceed 2 percent of the assessed valuation of the taxable property in the district or, if said assessed valuation is not obtainable, 2 percent of the county auditor's estimate of the assessed valuation of the taxable property in the district evidenced by this certificate; and provided further, that a district which has been formed for less than 18 months may borrow not exceeding twenty-five thousand dollars ($25,000), and no district shall borrow for purposes other than flood control in excess of five hundred thousand dollars ($500,000).

SEC. 2 This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The rapid rate of population expansion in California and the rising costs in the acquisition of necessary and required lands for flood control and protective works, as well as the costs of the construction of those works, makes it not only hazardous but practicably impossible to provide adequate storm water protection on a piecemeal basis relying on current taxes and revenues; any delay in acquiring the required and necessary lands simply means an increase in the costs of said lands, and also protracted delays in the construction of necessary flood control and protective works, as well as increasing the ultimate costs of those works.

In order to provide for an efficient and immediate solution of the existing situation, and to permit the forthwith acquisition of the necessary lands so that construction work may efficiently go forward with the greatest economy to the people, and to conserve surface waters which otherwise cannot be put to beneficial use, it is necessary that this act take effect immediately.

CHAPTER 1146

An act to amend Section 17688 of the Revenue and Taxation Code, relating to personal income taxes, to take effect immediately.

[Approved by Governor July 5, 1963. Filed with Secretary of State July 8, 1963]

The people of the State of California do enact as follows:

SECTION 1. Section 17688 of the Revenue and Taxation Code is amended to read:

17688. For purposes of this section and Section 17687—

(a) The term "gross income from the property" means, in the case of a property other than an oil or gas well, the gross income from mining.

(b) The term "mining" includes not merely the extraction of the ores or minerals from the ground but also the treatment processes considered as mining described in paragraph (d) (and the treatment processes necessary or incidental thereto), and so much of the transportation of ores or minerals (whether or not by common carrier) from the point of extraction from the ground to the plants or mills in which such treatment processes are applied thereto as is not in excess of 50 miles unless the Franchise Tax Board finds that the physical and other requirements are such that the ore or mineral must be transported a greater distance to such plants or mills.

(c) The term "extraction of the ores or minerals from the ground" includes the extraction by mine owners or operators of ores or minerals from the waste or residue of prior mining. The preceding sentence shall not apply to any such extraction of the mineral or ore by a purchaser of such waste or residue or of the rights to extract ores or minerals therefrom.

(d) The following treatment processes where applied by the mine owner or operator shall be considered as mining to the extent they are applied to the ore or mineral in respect of which he is entitled to a deduction for depletion under Sections 17681, 17687 and 17688:

(1) In the case of coal—cleaning, breaking, sizing, dust allaying, treating to prevent freezing, and loading for shipment;

(2) In the case of sulfur recovered by the Frasch process—cleaning, pumping to vats, cooling, breaking, and loading for shipment;

(3) In the case of iron ore, bauxite, ball and sagger clay, rock asphalt, and ores or minerals which are customarily sold in the form of a crude mineral product—sorting, concentrating, sintering, and substantially equivalent processes to bring to shipping grade and form, and loading for shipment;

(4) In the case of lead, zinc, copper, gold, silver, uranium, or fluorspar ores, potash, and ores or minerals which are not customarily sold in the form of the crude mineral product—

crushing, grinding, and beneficiation by concentration (gravity, flotation, amalgamation, electrostatic, or magnetic), cyanidation, leaching, crystallization, precipitation (but not including electrolytic deposition, roasting, thermal or electric smelting, or refining), or by substantially equivalent processes or combination of processes used in the separation or extraction of the product or products from the ore or the mineral or minerals from other material from the mine or other natural deposit;

(5) The pulverization of talc, the burning of magnesite, the sintering and nodulizing of phosphate rock, and the furnacing of quicksilver ores;

(6) In the case of calcium carbonates and other minerals when used in making cement—all processes (other than preheating of the kiln feed) applied prior to the introduction of the kiln feed into the kiln, but not including any subsequent process;

(7) In the case of clay used, or sold for use, in the manufacture of building or paving brick, drainage and roofing tile, sewer pipe, flowerpots and kindred products—crushing, grinding, and separating the mineral from waste, but not including any subsequent process; and

(8) Any other treatment process provided for by regulations prescribed by the Franchise Tax Board which, with respect to the particular ore or mineral, is not inconsistent with the preceding provisions of this paragraph.

(e) Unless such processes are otherwise provided for in subdivision (d) (or are necessary or incidental to processes so provided for), the following treatment processes shall not be considered as "mining": electrolytic deposition, roasting, calcining, thermal or electric smelting, refining, polishing, fine pulverization, blending with other materials, treatment effecting a chemical change, thermal action, and molding or shaping.

SEC. 2. The provisions of this bill shall be applicable only with respect to taxable years beginning after December 31, 1962. The determination as to the treatment processes which shall be considered as mining for any taxable year beginning before January 1, 1963, shall be made as if Section 17688 had not been amended at the 1963 Regular Session of the Legislature and without inferences drawn from the fact that such amendments were not expressly made applicable with respect to taxable years beginning before January 1, 1963.

SEC. 3. This act provides for a tax levy within the meaning of Article IV of the Constitution, and shall go into effect immediately.

SEC. 2. Section 131.5 of said code is repealed.

CHAPTER 1148

[Approved by Governor July 5, 1963. Filed with Secretary of State July 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 349.3 is added to the Code of Civil Procedure, to read:

any action unless such action shall have been brought within six months from the delinquency date of the first taxes or ad valorem assessments (or the first installment thereof, if payable in installments) levied subsequent to the date of completion of said acts or proceedings and levied by or for any such city, county, city and county, special district, public corporation or other public entity, or for any such improvement district or zone. Unless an action is commenced within said period all said acts or proceedings shall be held valid and in every respect legal and incontestable.

This section shall not supersede any existing statute prescribing a shorter or longer period of limitation than that specified herein.

SEC. 2. With respect to any acts or proceedings mentioned in Section 1 of this act which are taken prior to the effective date of such act, an action contesting the validity of any such acts or proceedings (which action is not already barred by laches or an existing statute of limitations) must be commenced within the period specified in this act or within six months from the effective date of this act, whichever may be later.

SEC. 3 Section 349.4 is added to the Code of Civil Procedure, to read:

349.4. All acts and proceedings heretofore taken under color of law for the formation, organization or incorporation of, or for any change in the territorial boundaries of, any city, county, city and county, special district, public corporation or other public entity, or improvement district, annexed area or zone within any of the foregoing, and for the authorization, issuance, sale, or exchange of bonds of the entity or the territory thereof may be confirmed, validated, and declared legally effective in the manner provided in this section.

The legislative body of the entity may instruct its clerk or secretary to mail a notice to all owners of property within the entity, within the improvement district or zone, or within the annexed area, as the case may be, as their names and addresses appear on the last equalized county assessment roll, or as known to the clerk or secretary. Such notice shall include the name of the entity, the date the entity or the zone or improvement district therein was ordered formed or its territory changed by annexation or otherwise, as the case may be, the amount of bonds authorized, if any, and a statement that commencing with the date of mailing of said notice there shall be a 60-calendar-day period during which period any property owner may file an action contesting the validity of the formation of the entity, or of such improvement district or zone, or of such change of boundaries by annexation or otherwise, as the case may be, or the validity of the bond authorization, if any. The clerk or secretary shall make and file with the legislative body of the entity a certificate of mailing of the notices. To assist in the issuance of bonds for water, sewer and other public health and safety facilities it is desirable that the validity of the particular public agency involved in the issuance of such bonds be established beyond any doubt. This act will establish reasonable periods after which the formation of such public agencies and special taxing districts therein cannot be contested. 8761. A copy of the order of the council determining the assessments remaining unpaid and providing for the issuance of bonds shall be filed in the office of the auditor, who shall annually make a record in his office showing the several installments of principal and interest on said assessments which are to be collected for the forthcoming year during the term of the bonds.

8762. An annual installment of the unpaid assessments shall be payable and be collected in each year corresponding in amount to the amount of bonds unpaid and to accrue that year, and which shall be sufficient to pay the bonds when due.

8763. An annual installment of interest on the unpaid assessments shall be payable and be collected in each year corresponding in amount to the amount of interest which will accrue on the bonds outstanding for said year, and which shall be sufficient to pay the interest coupons thereof which shall become due in the next succeeding January and July.

8764. When the first interest coupon is for interest for a longer period than six months, the auditor shall enter the amount thereof in the column on his assessment roll provided for the first installment, and the balance in the column provided for the second installment, of said assessment.

In fixing the minimum wholesale price to be paid distributors by such persons, the director shall take into consideration such legal requirements and other reasonably necessary factors and distribution costs peculiarly affecting service to such persons, and if the director reasonably determines that such reasonably necessary factors and costs require that the minimum wholesale prices to be paid distributors by such persons vary from the minimum prices established for other wholesale customers, the prices established to be paid by such persons may vary accordingly. The prices established to be paid by such persons for milk sold in containers designed for use in milk-dispensing devices approved for such use by the director under Section 461 may vary from any of the minimum wholesale prices referred to in this section if the director reasonably determines that the necessary factors and costs involved in such sales require that these prices vary from any of the minimum wholesale prices referred to in this section. Minimum wholesale price schedules for fluid milk, fluid cream, or both, established by the director, may provide for quantity discounts, such discounts to be no more than those which give full effect to cost differences in respect to single deliveries of varying quantities of fluid milk, fluid cream, or both, to wholesale customers. Minimum retail price schedules for fluid milk, fluid cream, or both, established by the director for home delivery, may provide for either quantity discounts or delivery service charges, such discounts or service charges to be no more than those which give full effect to cost differences in respect to the home delivery of single orders of varying quantities of fluid milk, fluid cream, or both, to retail consumers. been assented to in writing by the handlers engaged in the marketing activity or activities regulated by such marketing order who handle not less than sixty-five percent (65%) of the volume of the agricultural commodity regulated thereby which is processed or distributed within the area defined in such marketing order or amendment thereto, or that such marketing order or amendment thereto has been assented to in writing by not less than sixty-five percent (65%) of the number of handlers engaged in the marketing activity or activities regulated by such marketing order; provided, however, that any marketing order or major amendment thereto directly affecting processors engaged in the operation of canning of fresh fruits or vegetables or canning or packing of dried fruits shall not be made effective by the director unless and until the director finds that such marketing order or amendment thereto has been assented to in writing by such processors engaged in the marketing activity or activities regulated by such marketing order or amendment thereto who processed not less than sixty-five percent (65%) of the volume of such agricultural commodity which is processed within the area defined in such marketing order or amendment thereto and by sixty-five percent (65%) of the number of such processors engaged in the marketing activity or activities regulated by such marketing order or amendment thereto.

(2) No marketing order or major amendment thereto, directly affecting producers or producer marketing, issued pursuant to this chapter, shall be made effective by the director unless and until the director finds one or more of the following: (A) that such marketing order or amendment thereto has been assented to in writing by not less than sixty-five percent (65%) of the producers who are engaged, within the area specified in such marketing order or amendment thereto, in the production for market or engaged in such producer marketing, of not less than fifty-one percent (51%) of the agricultural commodity specified therein in commercial quantities, or (B) that such marketing order or amendment thereto has been assented to in writing by producers who produce not less than sixty-five percent (65%) of the volume of such agricultural commodity and by fifty-one percent (51%) of the total number of producers so engaged, or (C) that such marketing order or amendment thereto has been approved by producers in a referendum among producers directly affected. The director may make the finding: (i) if the valid votes cast in such referendum represent not less than forty percent (40%) of the total number of producers of said commodity of record with the department, and (ii) if the producers who cast ballots in the referendum in favor of the marketing order or amendment represent not less than sixty-five percent (65%) of the total number of producers who cast ballots in the referendum and marketed not less than fifty-one percent (51%) of the total quantity of said commodity marketed in the next preceding marketing season by all of the producers who cast ballots in the referendum or

if the producers who cast ballots in the referendum in favor of the marketing order or amendment represent not less than fifty-one percent (51%) of the total number of producers who cast ballots in the referendum and marketed not less than sixty-five percent (65%) of the total quantity of said commodity marketed in the next preceding marketing season by all of the producers who cast ballots in the referendum.

Whenever any marketing order or any major amendment to any marketing order is issued by the director for the approval of producers, he shall determine whether the approval of producers shall be by written assents or by referendum. If the director determines that a referendum shall be had, he shall establish a referendum period not to exceed thirty (30) days. If the director determines that the referendum period so established does not provide sufficient time for the balloting he may extend the referendum period not more than fifteen (15) additional days. At the close of the referendum period, the director shall count and tabulate the ballots filed during the referendum period. If from the tabulation the director finds that the number of producers voting in the referendum and that the number of producers voting in favor of the marketing order or amendment thereto are sufficient for him to make the finding that producers directly affected have approved the marketing order or amendment, the director may make the marketing order or amendment thereto effective. If he finds from the tabulation of such referendum that the number of producers who have voted in the referendum or the number of producers who have voted in favor of such marketing order or amendment thereto is not sufficient for him to make the finding that producers directly affected have approved the marketing order or amendment thereto he shall not make the marketing order or amendment effective. The director is authorized to prescribe such additional procedures as may be necessary to conduct the referendum.

(3) In finding whether such marketing order or major amendment thereto is assented to in writing or approved or favored by producers pursuant to the provisions of this chapter, the director shall consider the approval of any nonprofit agricultural co-operative marketing association, which is authorized by its members so to assent, as being the assent, approval or favor of the producers who are members of, or stockholders in, such nonprofit agricultural co-operative marketing association.

(4) At each public hearing upon a marketing order or a major amendment thereto, the director shall receive testimony or evidence relative to the period of time which may be necessarily required for the filing, checking, and tabulating of written assents prescribed in this section. At the conclusion of each such hearing the director shall make a finding, based upon the evidence and testimony so received, with respect to the period of time which may be reasonably and necessarily required for such filing, checking and tabulating. On the basis

of such finding the director shall fix and limit the period during which such assents may be received by the director and such period shall be announced by the director at the time of mailing of assent forms to producers and handlers affected; provided, however, that if the director finds that an extension of such period is reasonably warranted he may extend such period for receiving assents.

At a public hearing held to consider a proposed marketing order or major amendments to an existing marketing order which directly affects producers or producer marketing, the director shall also receive testimony or evidence from which he can determine whether the assent, approval or favor of such producers shall be determined by written assents or by referendum as hereinabove prescribed. Upon the conclusion of any hearing which involves a marketing order or a major amendment thereto directly affecting producers or producer marketing, the director shall make a finding, based upon testimony and evidence received, whether producer assent, approval or favor shall be determined by written assents or by referendum. If the director finds that a referendum shall be had, he shall direct that a referendum be held in accordance with the provisions of subdivision (a) (2) of this section. If a referendum is conducted, the director shall not be required, with respect to the assent, approval or favor of producers, to make a finding concerning or fix and limit the period during which assents may be received by the director.

(b) Subject to the provisions, restrictions and limitations imposed herein, the director may issue marketing orders regulating producer marketing, the processing, distributing or handling in any manner of agricultural commodities by any and all persons engaged in such producer marketing, processing, distributing or handling of such agricultural commodities within this State.

(c) The director shall suspend or terminate any marketing order, whenever he finds, after a public hearing duly noticed and held in accordance with the provisions of Section 1300.13 of this chapter, that such marketing order is contrary to or does not tend to effectuate the declared purposes or provisions of this chapter within the standards and subject to the limitations and restrictions herein imposed. The director shall terminate such marketing order if he finds that the termination of any marketing order is requested in writing, within a 90-day period, by at least 51 percent of the producers directly affected who produce at least 51 percent of the volume of the product, or by at least 51 percent of the handlers directly affected who handle at least 51 percent of the volume of the product. If at least 25 percent of the producers producing at least 25 percent of the product and at least 25 percent of the handlers handling at least 25 percent of the product request, within a 90-day period, that such marketing order be submitted for reapproval, the director shall hold a hearing on the question of the reapproval of such marketing order, and after determining whether

such reapproval shall be by assent or referendum, shall resubmit the marketing order for reapproval of those producers and handlers directly affected as provided in this section within 120 days of the receipt of the original request. If the director finds that such marketing order is not reapproved, he shall declare such order terminated. An order shall be considered reapproved if it has been assented to or favored at a referendum in the same manner as is required for a new marketing order. In addition, at any time the director finds that a substantial number of persons directly affected by an order are in opposition to it, he shall hold a hearing on the question of the termination, suspension, amendment, or reapproval of such order, and shall, not more than 60 days after such hearing, terminate, suspend or submit for amendment or reapproval such order, or make a finding that there is not sufficient opposition to the order to warrant any action. No marketing order shall be submitted for reapproval until one year after the original enactment, or within one year of any prior approval. No suspension or termination shall become effective until the expiration of the marketing season then current.

(d) Upon the recommendation of not less than seventy-five percent (75%) of the producer members or handler members of the advisory board, or not less than seventy-five percent (75%) of each group if both are represented upon the advisory board, the director may make effective minor amendments to a marketing order. The director may require a public hearing upon minor amendments if in his opinion the substance of such minor amendments so warrant; the director shall, however, not be required to submit minor amendments for written assents or referendum approval.

In making effective major amendments to a marketing order the director shall follow the same procedures prescribed in this chapter for the institution of a marketing order. For the purposes of this chapter a major amendment to a marketing order shall include but not be limited to any amendment which adds to or deletes from any such marketing order any of the following types of regulations or authorizations:

(1) Authority for determining the existence and extent of the surplus of any agricultural commodity or of any grade, size or quality thereof and providing for the control and disposition of such surplus and for equalizing the burden of such surplus elimination and shall also include the establishment of a stabilization fund for equalizing surplus obligations.

(2) Authority for limiting the total quantity of any agricultural commodity or of any grade, size or quality thereof which may be prepared for market or marketed within the State of California.

(3) Authority for allotting the quantity of any agricultural commodity or of any grade, size or quality thereof which any handler may purchase or acquire from or handle on behalf

of any and all producers thereof within the State of California.

(4) Authority for allotting the quantity of any agricultural commodity or of any grade, size or quality thereof which any handler may process, distribute or handle within the State of California.

(5) Authority for regulating the period or periods during which any agricultural commodity or any grade, size or quality of such commodity may be processed, distributed or otherwise marketed within the State of California.

(6) Authority for the establishment of surplus, stabilization, or byproduct pools for any agricultural commodity or of any grade, size, quality or condition thereof.

(7) Authority for the establishment of uniform grading and inspection of any agricultural commodity and the establishment of grading standards of quality, condition, size or pack of such commodity.

(8) Authority for the establishment of plans for advertising and sales promotion of any agricultural commodity.

(9) Authority to prohibit unfair trade practices.

(10) Authority for the establishment of production adjustment requirements and benefit payments relating thereto.

(11) Authority for carrying out research studies in the production, processing or distribution of any agricultural commodity.

(12) Authority to increase an assessment rate beyond the maximum rate authorized by the marketing order in effect.

(13) Authority to extend the application of the provisions of any marketing order to portions or uses of an agricultural commodity not previously subject to such provisions or to restrict or extend the application of such provisions upon the producers or handlers of such portions or uses of any such commodity.

Modification of any provisions of any marketing order in effect for the purpose of clarifying the meaning or application of such provisions or modifying administrative procedures for carrying out such provisions are hereby declared not to be a major amendment of such marketing order.

(e) Upon issuance of any order making effective a marketing order, or any suspension, amendment or termination thereof, a notice thereof shall be posted on a public bulletin board to be maintained by the director in his office and a copy of such notice shall be published pursuant to Section 6061 of the Government Code in the capital of the State and in such other localities as the director may prescribe. No marketing order or any suspension, amendment or termination thereof shall become effective until the termination of a period of five (5) days from the date of such posting and publication. It shall also be the duty of the director to mail a copy of the notice of said issuance to all persons, directly affected by the terms of such marketing order, suspension, amendment or termination, whose names and addresses may be on file in the

office of the director and to every person who files in the office of the director a written request for such notice.

(f) The director shall have power, consistent with this chapter and in accordance with the provisions of marketing orders and agreements made effective hereunder, to establish such general rules and regulations for uniform application to all marketing orders and marketing agreements issued hereunder as may be necessary to facilitate the administration and enforcement of such marketing orders and agreements. The provisions of paragraph (e) of this section relative to posting, publication, and time of taking effect shall be applicable to any such general rule or regulation established pursuant to this paragraph and applicable to marketing orders generally. Such notice shall be mailed to the advisory board for each marketing order or marketing agreement in active operation.

(g) Upon recommendation of the advisory board concerned, the director shall have power, consistent with this chapter, to establish administrative rules and regulations for each marketing order or marketing agreement issued and made effective as may be necessary to facilitate the administration and enforcement of each such order or agreement. The provisions of paragraph (e) of this section relative to posting, publication, mailing of notice and time of taking effect shall be applicable to any such administrative rules and regulations.

(h) Upon recommendation of the advisory board concerned, the director may, without prior notice to and public hearing for the producers or handlers of the commodity directly affected, issue and make effective seasonal marketing regulations or modifications thereof; provided, that the marketing order, or agreement concerned, made effective after due notice, public hearing and written assent as required by this act, (1) provides for the issuance or modification of such seasonal marketing regulations without requiring such prior notice and public hearing and (2) sets forth the limits within which such seasonal marketing regulations may be made effective or subsequently modified by the director; and provided further, that the director finds that such seasonal marketing regulations or modifications thereof are reasonable and proper and a practical means of carrying out the marketing provisions authorized in such marketing order or agreement and will effectuate the declared purposes and policies of the act with respect to such agricultural commodity. Notice of the issuance and the effective date of any such seasonal marketing regulations or modifications thereof shall be given by the director to all producers and handlers directly affected by any such regulations in the manner and within the time specified in the applicable marketing order or agreement or as specified in the administrative rules and regulations made effective for such marketing order or agreement pursuant to paragraph (g) hereof.

It is recognized that with respect to some agricultural commodities, marketing, weather and other conditions may change so rapidly as to require changes in seasonal marketing regulations from week to week or oftener.

It is intended that the provisions of this subsection be interpreted liberally so that the director may be enabled to carry out the marketing regulations and procedures authorized herein in a practical and effective manner.

The people of the State of California do enact as follows:

SECTION 1. Section 1192.1 of the Code of Civil Procedure is amended to read:

1192.1. (a) Any materialman or person furnishing materials, provisions, provender, or other supplies used in, upon, for, or about the performance of work contracted to be executed or performed to which Chapter 3 of Division 5, Title 1 of the Government Code applies, except the prime contractor, or any person, excluding the prime contractor, renting or hiring teams or implements or machinery for or contributing to the work to be done, or any person, except the prime contractor, who performed work or labor upon the same or any person, except the prime contractor, who supplies both work and materials, and whose claim has not been paid by the contractor or person to whom the contract has been awarded, or by the subcontractors of the contractor or person, may at any time, after he has furnished material or ceased to perform labor, or both, and before the expiration of the periods within

which claims of lien must be filed for record as prescribed by this section or by Section 1193.1, file with the public agency, body or officer by whom the contract was awarded, or with the controller, auditor, or other public disbursing officer whose duty it is to make payments under the provisions of such contract, a verified statement of such claims, together with a statement that the same have not been paid.

(b) Except as to contracts awarded under the State Contract Act, Chapter 3, Part 5, Division 3, Title 2 of the Government Code, a cessation of labor on any work of improvement at any time after the commencement thereof, for a continuous period of 30 days or more, shall be deemed a completion of the contract, structure, or work of improvement. Within 10 days after the acceptance of completion by resolution, minute order or other official act of the awarding authority of any contract, structure, or work of improvement to which Chapter 3 of Division 5, Title 1 of the Government Code applies, the State, or any public board, commission, or officer thereof, or any political subdivision thereof, may file for record in the office of the county recorder of the county or counties where the property is situated a notice setting forth the date when the project was accepted or on which cessation from labor occurred, together with the name of the State or such public board, commission, or officer thereof, or such political subdivision thereof, and a description of the property or public work or structure sufficient for identification, and the name of the contractor or contractors, and the names of the sureties, if any. The notice shall be verified by some officer of the State or some member of such board, commission, or officer thereof, or of such political subdivision thereof. If the notice is not so filed, the failure to do so has the same effect as is provided in Section 1193.1 with reference to the "owner." In the case of any contract awarded under the provisions of the State Contract Act, such notice of completion, if filed, shall be filed within 10 days after acceptance of the project, and as to such contracts, verified statements of claims may be filed at any time after the claimant has furnished materials or ceased to perform labor, or both, and before the expiration of 30 days from the filing for record of such notice, or if such notice is not so filed, before the expiration of 90 days after the acceptance of the project.

(c) Actions against the State, public board, commission, or officer thereof, or the political subdivision of the State, or the disbursing officer whose duty it is to make payments under the provisions of the contract for the public improvement in question, brought by any claimant who has filed claim under this section, or his assign, shall be governed by the provisions of Sections 1190.1 and 1197.1 and the verified notice provided for in those sections is equivalent for all purposes to the verified claim provided for herein.

(d) No assignment by the contractor of the whole or any part of the money due him or to be due him under the contract, or for "extras" in connection therewith, whether made before a verified claim is filed as provided for herein or after the claim is filed, takes priority over claims filed under this section and such assignment has no binding force insofar as the rights of the claimants who file claims hereunder, or their assigns, are concerned.

(e) This section does not prohibit the payment of any money to the contractor or his assigns, so long as no verified claim is on file before the disbursing officer has actually surrendered possession of the warrant, checks, bonds, or money or the payment to the contractor or his assigns of any money due him or his assigns over and above the total amount of the claims filed at that time plus such interest and court costs as might be reasonably anticipated in connection with the claims.

(f) If the contractor, subcontractor, or other person against whom any claim is filed as provided in this section disputes the correctness or validity of any claim so filed, the controller, auditor, or other public disbursing officer whose duty it is to make payments under the provisions of such contract or the commissioner, managers, trustees, officers, board of supervisors, board of trustees, common council, or other body by whom the contract for the improvement was awarded, in its or his discretion, may permit the contractor to whom the contract was awarded to deliver to such board, commission, or officer a bond executed by some corporation authorized to issue surety bonds in the State of California, in a penal sum equal to one and one-fourth times the amount of the claim, which bond shall guarantee the payment of any sum which the claimant may recover on the claim together with his costs of suit in the action, if he recovers therein. Upon the filing of the bond by and with the consent of such board, commission or officer, then such board, commission or officer shall not withhold any moneys from the contractor on account of the claim. The sureties upon the bond are jointly and severally liable to the claimant with the sureties upon the contractor's bond given in accordance with Chapter 3 of Division 5, Title 1 of the Government Code.

SEC. 2. It is the purpose of this act to clarify and declare the prior legislative intent as to the meaning of the section which this act amends, and not to make any substantive changes therein.

1300.15. (a) (1) Any marketing order issued pursuant to this chapter shall provide for the establishment of an advisory board to assist the director in the administration of any marketing order. The members of the board shall be appointed by the director and may hold office at the pleasure of the director; provided that a marketing order may provide for the appointment of members from nominations made by the producers and handlers and may also provide for the method of selecting such nominees. If the marketing order affects directly only producers of a particular commodity the members of the board shall be producers. If the marketing order affects directly only handlers of a particular commodity the members of the board shall be handlers.

If the marketing order affects directly both producers and handlers of a particular commodity, such board shall be composed of both producers and handlers. The number of pro-

ducers or handlers upon any such board shall be of such number of producers or handlers as the director finds is necessary to assist properly in the administration of such order. Upon the recommendation of the board, the director may appoint one person who is neither a producer nor a handler to represent the Department of Agriculture or the public generally.

(2) No member of any such board shall receive a salary but each shall be entitled to his actual expenses incurred while engaged in performing his duties herein authorized. The director may authorize such board: to enter into contracts or agreements, to employ necessary personnel including attorneys engaged in the private practice of the law, fix their compensation and terms of employment; and to incur such expenses, to be paid by the director from moneys collected as herein provided, as the director may deem necessary and proper to enable such board properly to perform such of its duties as are authorized herein. The duties of any such board shall be administrative only and may include only the following:

a. Subject to the approval of the director to administer such marketing order.

b. To recommend to the director administrative rules and regulations relating to the marketing order.

c. To receive and report to the director complaints of violations of the marketing order.

d. To recommend to the director amendments to the marketing order.

e. To assist the director in the assessment of members of the industry and in the collection of funds to cover expenses incurred by the director in the administration of the marketing order.

f. To assist the director in the collection of such necessary information and data as the director may deem necessary to the proper administration of this chapter.

(3) In addition to the advisory board there may be established one or more special committees or subcommittees to assist the advisory board in carrying out its duties and functions. Upon approval of the director each advisory board may establish committees or subcommittees to carry out assigned duties and functions and designate the members or alternate members of the board to serve upon such committees. If the marketing order so authorizes or upon the recommendation of the board, the director may authorize the establishment of special committees or subcommittees of persons who are not members or alternate members of the board to perform specific duties and functions; provided, that the members and alternate members of any such special committee or subcommittee shall be appointed by the director.

The board may at any time invite any persons to their meetings to serve in an advisory capacity and the director may, when requested by the board, pay necessary expenses to such persons at rates not to exceed those granted to board members.

Any action of any committee, special committee or subcommittee of the board shall be subject to final approval by the board. Members and alternate members of any committee, special committee or subcommittee whether by appointment or approval of the director shall be entitled to reimbursement for actual expenses incurred while acting in their authorized capacities.

(1) Provisions for determining the existence and extent of the surplus of any agricultural commodity, or of any grade, size or quality thereof, and providing for the control and disposition of such surplus, and for equalizing the burden of such surplus elimination or control among the producers, processors, distributors or other handlers affected. Notwithstanding any other appropriate means of equalizing the burden of surplus control and the elimination thereof as provided in this chapter, provision may be made for the creation of a stabilization fund to be used for purchasing or otherwise acquiring any portion of the surplus of any agricultural commodity either in fresh or processed form, except when processed in hermetically sealed containers, and for the diversion of such surplus quantity of such commodity so acquired into noncompetitive or byproducts uses or for disposing of such surplus in noncommercial channels. Moneys for such stabilization fund shall be provided by means of the establishment of an assessment rate for such purpose levied upon producers or handlers or upon both producers and handlers Such assessment rate shall be based upon the units in which such agricultural commodity is handled or marketed or upon any other uniform basis which the director determines to be reasonable and equitable. For convenience of collection, the director may collect any producer assessments from handlers of such commodity. Handlers paying such assessments for and on behalf of any producers are authorized to deduct such producer assessments from any moneys owed by such handlers to such producers.

(2) Provisions for limiting the total quantity of any agricultural commodity, or of any grade, size or quality thereof, which may be marketed by producers or processed, distributed or otherwise handled within this State during any specified period or periods, by any and all persons engaged in such producer marketing, processing, distributing or handling; provided, that any such limitation shall be applied under a uniform rule applicable to all such persons so regulated. The total quantity of any such commodity so regulated and permitted

to be marketed by producers, processed, distributed or otherwise handled, shall not be less than the quantity which the director finds is reasonably necessary to supply the market demands of consumers of such commodity.

(3) Provisions for allotting the quantity of any agricultural commodity, or of any grade, size or quality thereof, which each handler may purchase or acquire from, or handle on behalf of, any and all producers thereof, within this State during any specified period or periods under a uniform rule, applicable to all handlers so regulated based upon the amounts produced or sold by such producers in a prior period which the director finds to be representative, or upon the current season's production or sales of such producers, or both, to the end that the total quantity of such commodity or of any grade, size or quality thereof, so purchased or handled within this State shall be apportioned equitably among the producers thereof.

(4) Provisions for allotting the quantity of any agricultural commodity, or of any grade, size or quality thereof, which each handler may process, distribute or handle within this State under a uniform rule, applicable to all handlers so regulated, based upon the quantities of such commodity or of any grade, size or quality thereof of the current season's crop which each such handler has available for such processing, distribution or handling, or upon the quantities of such commodity or of any grade, size or quality thereof so processed, distributed or handled by each such handler in a prior period which the director finds to be representative, or based upon both, to the end that the total quantity of such commodity or any grade, size or quality thereof, processed, distributed or handled within this State during any specified period or periods shall be equitably apportioned among all such handlers thereof.

(5) Provisions regulating the period, or periods, during which any agricultural commodity, or any grade, size or quality of such commodity, may be processed, distributed or otherwise marketed within this State by any and all persons engaged in such processing, distributing or marketing within this State; provided, that the total quantity of such commodity so regulated and permitted to be processed, distributed or otherwise marketed during such period or periods, shall not be less than the quantity which the director finds is necessary to reasonably supply the needs of consumers of such commodity.

(6) Provisions for the establishment of surplus, stabilization, or byproduct pools for any agricultural commodity or of any grade, size, quality or condition thereof, and providing for the sale of the commodity in any such pool and for the equitable distribution among the persons participating therein of the net returns derived from the sale of such commodity. Whenever the marketing order authorizes the establishment of any such pool or pools the advisory board shall have power to receive such commodity from each producer or handler and to handle the same according to the grade, size, quality or con-

dition thereof and to account to each producer or handler participating therein upon a pro rata basis for the net proceeds derived from the sale thereof.

The contents of any surplus pool shall not be marketed by the board in any form which would compete directly with that portion of the commodity which is marketed in regular channels of trade. However, any portion of any surplus pool may be transferred by the board upon any gratuitous basis to charitable organizations and other similar agencies under proper safeguards to insure that none of such commodity shall compete directly with the unrestricted portion of such commodity. The board may dispose of the contents of a stabilization pool in the regular marketing channels in such manner and at such times as the board deems advisable, consistent with the maintenance of stabilized marketing conditions for such commodity. The board may dispose of the contents of any byproduct pool only for byproducts or for other similar purposes under proper safeguards to prevent such portion of the commodity so disposed of from directly competing with that part of the commodity which is marketed in the usual form or in the regular channels of trade.

Whenever the marketing order authorizes the establishment of a surplus, stabilization, or byproduct pool, the board shall have authority to arrange for and operate any necessary facilities for the storing, financing, grading, packing, servicing, processing, preparing for market, selling, and disposing of the contents of any pools provided for in this section; provided, however, the board shall not have authority to engage in commercial warehousing.

The board shall have power to pledge all of the commodity in any such pools with banks or other lending agencies for the purpose of obtaining loans thereon. The board shall have title, for the purpose of financing and handling, to all of the commodity in any such pools.

Whenever the marketing order authorizes the establishment of any type of pool authorized in this section, the board shall have authority to create, by a uniform assessment upon producers, or upon some other uniform and equitable basis, maintain, and disburse an equalization fund to be used for the removal of any inequalities between producers or handlers participating in any pool resulting from errors in estimating production or surplus or for indemnifying producers whose production, in whole or in part, is diverted in green form or otherwise from normal marketing outlets or diverted to byproducts, relief, or other noncompetitive purposes pursuant to the provisions of the marketing order.

(7) Provisions establishing or providing for establishing with respect to any agricultural commodity either as delivered by producers to handlers or processors, or as handled, processed, or otherwise prepared for market, or as marketed by producers, handlers or processors: (A) grading standards of

quality, condition, size, maturity or pack, which standards may include minimum standards provided the standards so established shall not be established below any minimum standards prescribed by law for such commodity; and (B) uniform inspection and grading of such commodity in accordance with the standards so established.

(8) Provisions for the establishment of plans for advertising and sales promotion to maintain present markets or to create new or larger markets for agricultural commodities grown in the State of California, or for the prevention, modification or removal of trade barriers which obstruct the free flow of agricultural commodities to market. The director is hereby authorized to prepare, issue, administer and enforce plans for promoting the sale of any agricultural commodity.

Provided, that any such plan shall be directed toward increasing the sale of agricultural commodities without reference to any private brand or trade name used by any handler with respect to the agricultural commodity regulated by the marketing order except the use of wine when other than private brands or private trade names are unavailable.

Provided further, that no advertising or sales promotion program shall be issued by the director which shall make use of false or unwarranted claims in behalf of any such product, or disparage the quality, value, sale or use of any other agricultural commodity.

(9) Provisions relating to the prohibition of unfair trade practices. In addition to the unfair trade practices, now prohibited by law, applicable to the processing, distribution or handling of agricultural commodities within this State, the director is hereby authorized to include in any marketing order issued hereunder provisions designed to correct any trade practice affecting the processing, distributing or handling of any agricultural commodity within this State which the director finds, after a hearing thereupon in which all interested persons are given an opportunity to be heard, is unfair and detrimental to the effectuation of the declared purposes of this chapter.

(10) Provisions for the application for, review, certification and equitable payment of, production adjustment benefits to growers from funds collected for such purpose on a uniform basis from all commercial growers of any agricultural commodity in the State, for which production adjustment payments are made. Such funds may be supplemented by funds, if any, received from federal, state or other agencies for such purpose.

No program of production adjustment adopted hereunder shall authorize payments for the removal of acreages of trees or vines of the species, variety or varieties specified in the program which have, during the three years immediately preceding the date of application, produced an annual yield per acre in excess of the comparably computed average yield from

bearing trees or vines of the same species, variety or varieties for the State as a whole, such yields and averages to be determined by the director from statistical data compiled by state or federal agencies or such other data as the director deems to be representative and reliable.

(11) Provisions for carrying on research studies in the production, processing or distribution of any agricultural commodity and for the expenditure of moneys for such purposes. In any research in production or processing carried on hereunder, the Dean of the College of Agriculture of the University of California and the advisory board provided for in Section 1300.15 hereof shall co-operate in selecting the research project or projects to be carried on from time to time. Insofar as practicable such projects shall be carried out by said college of agriculture, but if the dean of said college and the advisory board determine that the college has no facilities for a particular project or that some other research agency has better facilities therefor, the project may be carried out by other research agencies selected by the dean and the advisory board.

(12) Provisions establishing or providing authority for establishing, for any agricultural commodity, either as such commodity is produced or is delivered by producers to handlers, or as handled or otherwise prepared for market, or as marketed by producers or handlers, an educational program designed to acquaint producers, handlers or other interested persons with quality improvement, including sanitation practices, procedures or methods as applied to such commodity.

(13) Provisions establishing or providing authority for establishing, and for regulating the permissive use of an official board brand, trade name, or label, or other distinctive designation of grade, quality or condition, other than grade or quality designations in effect pursuant to state or federal grade standards, for any agricultural commodity, other than wine, either as such commodity is produced or is delivered by producers to handlers, or as handled or otherwise prepared for market, or marketed by producers or handlers. As provided in subdivision (k) of Section 1300.19 of this chapter, the permissive use of any such official board brand, trade name, or label or other distinctive designation of quality shall be limited to producers and handlers of the commodity who are participating in the marketing agreement or order, and who are in compliance with the provisions thereof and with any rules or regulations promulgated thereunder. Any official brand or trade name established pursuant to this paragraph shall not be construed as a private brand or trade name with respect to paragraph (8) of subdivision (b) of this section.

(c) In addition to authority to issue marketing orders regulating the processing or preparation for marketing of any or all portions of any agricultural commodity processed within this State, and in addition to authority to issue marketing orders regulating the distribution of any or all portions

of any agricultural commodity within this State and subject to the legislative restrictions and limitations of Section 1300.14 of this chapter, the director may also issue marketing orders regulating the handling, processing, preparation for marketing or marketing of any or all portions of any agricultural commodity produced in this State for which marketing regulatory powers are not being exercised by the federal government under the provisions of the Marketing Agreement Act of 1937, as amended, being Public Law No. 137, 75th Congress, Chapter 296, First Session, 7 U.S.C.A. 674, 50 Statute 249.

CHAPTER 1191

An act to add Section 584.2 to the Probate Code, relating to executors and administrators.

[Approved by Governor July 5, 1963. Filed with Secretary of State July 8, 1963.]

SECTION 1. Section 584.2 is added to the Probate Code, to read:

The petition for such an order shall be filed with the clerk who shall set the same for hearing by the court and shall give notice thereof for the period and in the manner required by Section 1200 of this code, but the court may order the notice to be given for a shorter period, or dispensed with.

CHAPTER 1192

An act to add Section 54917 to the Government Code, relating to street lighting, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 5, 1963. Filed with Secretary of State July 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 54917 is added to the Government Code, to read:

54917. Notwithstanding Sections 54902 and 54903, any street lighting maintenance district formed under Chapter 26 (commencing with Section 5820), Part 3, Division 7 of the Streets and Highways Code during the fiscal year 1962-63 may file the statement and map or plat required by Section 54900 on or before May 15, 1963.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A question has arisen as to the validity of any tax that may be levied for the 1963-64 fiscal year by a street lighting mainte-

nance district to be formed by the early part of May, 1963. Those directly concerned have been reasonably unaware that a statement and map or plat of the district was required to be filed with the county assessor and the State Board of Equalization as a condition to levying taxes for district purposes for the fiscal year 1963-64.

Unless such failure to file the statement and map or plat is corrected in accordance with this act, the district will be without power to levy taxes or assessments in the area affected and services in said district will be seriously curtailed and the district will lose the opportunity of completing necessary public works.

CHAPTER 1193

An act to add Section 23010.3 to the Government Code, relating to sanitary sewers, storm sewers, and drainage.

[Approved by Governor July 5, 1963. Filed with Secretary of State July 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 23010.3 is added to the Government Code, to read:

23010.3. Upon adoption of an authorizing resolution by the board of supervisors, in connection with the construction of any sanitary sewer, storm sewer, or drainage improvements a county may expend any of its available funds for the purpose of increasing the size of any conveyance works in excess of the size required for the current project, if the board of supervisors first finds and declares in the aforementioned resolution, (a) that there is an area outside the area to be served by the current project which may in the future utilize the conveyance works which are to be increased in size; (b) that the increased size in the conveyance works for the current project is necessary to serve the outside area in the future; and (c) that the board of supervisors will have the right in the future to use, or permit the use of, the conveyance works which are to be increased in size for the benefit of the outside area.

The provisions of this section shall be applicable in cases in which improvements are to be constructed by any of the following:

(a) A county pursuant to "The Improvement Act of 1911," Division 7 (commencing with Section 5000) of the Streets and Highways Code.

(b) A county pursuant to the "Municipal Improvement Act of 1913," Division 12 (commencing with Section 10000) of the Streets and Highways Code.

(c) A county in any other manner.

(d) Any district which is governed by the board of supervisors of the county in which the work is to be performed.

(e) Any district, not governed by the board of supervisors of the county in which the work is to be performed, with which the board of supervisors has contracted so as to assure the right of the county to use the conveyance works, which are to be increased in size, for the future benefit of the outside area.

(f) Any incorporated city with which the board of supervisors has contracted so as to assure the right of the county to use the conveyance works, which are to be increased in size, for the future benefit of the outside area.

(g) Any person if the works when completed are to be dedicated or conveyed to the county or to a district governed by the board of supervisors of the county in which the work is to be performed.

The board of supervisors may impose a connection fee upon any person or district in the outside area to be paid to the county as a condition to connecting to any conveyance works which have been increased in size pursuant to this section. The connection fee shall be a prorated share of the total cost of the construction of the increased capacity of the conveyance works based upon the ratio which the estimated discharge from the person or district in the outside area bears to the total increased capacity of the conveyance works. In computing the total cost of the increased capacity the board of supervisors may include an amount attributable to interest. Interest shall not exceed 4 percent per annum from the date of completion of the construction of conveyance works to the date of connection.

This section shall not decrease or limit any other power vested in counties and boards of supervisors.

CHAPTER 1194

An act to add Section 8951.1 to the Education Code, relating to the public school system, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 5, 1963. Filed with Secretary of State July 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 8951.1 is added to the Education Code, to read:

8951.1. For purposes of Section 8951 the average daily attendance of the elementary schools of the district shall be computed by excluding the average daily attendance of pupils attending the seventh and eighth grades of a junior high school maintained by a high school district.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV, Section 1 of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Eligibility of a school district for participation in special training schools or classes for mentally retarded minors established and maintained by the county superintendent of schools pursuant to Section 8951 of the Education Code should be determined under this act prior to adoption of school district budgets for the school year 1963-64, in order to give to the mentally retarded children of such district the educational opportunities which are extended to them by this act as soon as possible in the ensuing school year, rather than one year thereafter. It is therefore essential that this act go into immediate effect.

CHAPTER 1195

An act to amend Section 6815 of the Public Resources Code, relating to leasing for oil and gas.

[Approved by Governor July 7, 1963. Filed with Secretary of State July 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 6815 of the Public Resources Code is amended to read:

6815. Whenever it appears to the commission that wells drilled upon private lands are draining or may drain oil or gas from lands owned by the State, or where the provisions of Section 6827 are deemed by the commission to be impracticable in the particular case by reason of the small size, or irregular configuration of the property, or its inaccessibility from surface drillsites reasonably available or obtainable, the commission, in lieu of following the provisions of Section 6827, may negotiate and enter into agreements with the owners or operators of such wells on private lands for the payment of compensation to the State for such drainage, or may negotiate and enter into leases for the development of the state lands through drilling from adjoining lands only. This section shall not apply to lands underlying the Pacific Ocean and its bays and harbors.

7052. Lands may be leased in tracts of such size and shape as the governing body may determine. Before executing a lease of any such property, the governing body shall in open meeting, by not less than a two-thirds vote of its members, adopt a resolution declaring its intention to lease the property. The resolution shall describe the property proposed to be leased in such manner as to identify it, specify the minimum rental and term for which it will be leased, the form of the lease or agreement, and one variable, biddable factor, on which bids will be received, and fix a time not less than three weeks thereafter and place for a public meeting of said governing body, at which meeting sealed proposals to lease will be received and considered. The resolution shall, before the date of such meeting, be published once a week for three successive weeks in one or more newspapers of general circulation in the county where the property is situated.

This section shall not apply to the renewal or extension for a fixed term not exceeding the original term of leases or operating agreements initially issued for a fixed term.

The State Lands Commission may in its discretion exempt particular leases or operating agreements from the procedure required by this section and Section 7053 where by reason of the small size of the property or drainage, actual or imminent, such procedure would in the judgment of the State Lands Commission in the particular case be impractical.

SEC. 2. Section 7061 of said code is amended to read:

7061. The provisions of Sections 7058.5 to 7059, inclusive, shall be applicable to all general-law cities and shall be applicable to general-law and chartered cities with respect to tide or submerged lands granted in trust to such cities by the State where mineral rights have not been reserved to the State. Section 7060 shall be applicable to both general-law and chartered cities only with respect to tide or submerged lands granted in trust to such cities by the State, where mineral rights have not been reserved to the State. The provisions of Sections 7058.5 to 7060, inclusive, shall not apply to activities regulated by Chapter 29 of the Statutes of the 1956 First Extraordinary Session.

The State Lands Commission may in its discretion exempt particular leases or operating agreements from the procedure

required by Sections 7058.5 and 7059 where by reason of the small size of the property or drainage, actual or imminent, such procedure would in the judgment of the State Lands Commission in the particular case be impractical.

The rate shall be such as will produce, after due allowance for delinquency, and as applicable, after due allowance for disputed tax revenues anticipated to be impounded pursuant to Section 26906.1 of this code, the amount determined as necessary to be raised by taxation on the secured roll.

The allowance for delinquency shall be as fixed by law or by the board. The allowance for disputed tax revenues shall be as fixed by the board. The final determination for either or both allowances may be made at the same time as tax rates are fixed.

The amount to be raised by taxation on the secured roll is found by deducting from the total appropriations and reserve requirements of a fund, the respective total of:

(a) The amount of estimated revenue from other sources, including taxes anticipated on the unsecured roll, and

(b) The fund balance-available.

The amount of revenue from other sources and of the fund balance-available may be re-estimated at the time of fixing the tax rates and may be increased or decreased by the board and the amounts so determined by the board are conclusive and final.

29101. After fixing the rates and as an integral part of the procedures pertaining thereto, the board shall levy the taxes upon the taxable property of the county in specific sums in terms of the rates so fixed. Each rate is upon each one hundred dollars ($100) of assessed valuation of property and only upon property which is legally subject to such tax. The tax shall not exceed the amount specified in the budget, as finally determined by the board, as necessary to be raised on the secured roll after due allowance for delinquency and for disputed tax revenues.

29102. Unless otherwise provided by law, the authority and duties of the county board of supervisors with respect to the fixing of tax rates and the levying of taxes prescribed in this article shall have application to school districts and to special districts, or zones or improvement districts thereof, whose affairs and finances are not under the supervision and control of the county board of supervisors but for which a tax levy is carried on the regular county assessment roll.

29103. It shall be the responsibility of the auditor to calculate the several tax rates for the board's action thereon in accordance with the board's final determination of the various applicable factors as provided in this chapter.

29104. If in the calculation of any tax rate a fraction of a cent occurs, the board may adopt a rate ending in the next higher cent for a fund, or for a group of funds having the same tax base so that the total rate to be entered on the roll, for the computation of the total of taxes for this group, will end in a full cent. If the aggregate rate for the group of funds is fixed at the next higher full cent, then the fractional rates for each fund within this group shall be adjusted to equal the full cent aggregate rate for the group. Any excess of the amount of actual taxes levied as computed and entered on the secured roll, arising from the use of a full cent rate, over the amount as finally determined by the board as necessary to be raised on the secured roll for each fund or group of funds, after due allowances for delinquency and for disputed tax revenues anticipated to be impounded pursuant to Section 26906.1 of this code, is not a violation of this article.

Any cash collections resulting from such excess or from an excess resulting from any other cause shall not invalidate the levies.

29105. If the appropriations and reserves as adopted for any fund require a tax rate levy greater than the legal limit as determined by the equalized valuations as shown on the assessment roll, the appropriations or reserves, or both, shall be decreased by the board so as to come within the legal requirements, and the revised amounts constitute the appropriations and reserves for the period.

29106. The resolution fixing tax rates shall specify the title or name of each entity or fund with its corresponding rate as finally determined by the board, to be levied on the secured roll. The entity or fund may be designated in any manner sufficient to identify it.

29107. The tax rates for property not sufficiently secured as provided in Article XIII, Section 9a of the Constitution are levied in the amounts therein provided and need not be formally levied by the board.

29108. The auditor shall forward a copy of the final budget document to the State Controller not later than November 1st of each year.

29109. Within three days after the rates of county taxation have been fixed, the auditor shall forward to the State Controller, in such form as the Controller directs, a statement of the rates of taxation and the amounts of taxes to be levied for county purposes.

On or before October 16th of each year, the auditor shall forward to the State Controller, in such form as the Controller directs, a statement of the rates of taxation, the assessed valuation as shown on the current equalized assessment roll and the amount of taxes to be levied for (1) each school district or portion thereof within the county, and (2) each special district, or subdistrict or zone thereof, or portion thereof within the county, for which a tax levy is carried on the regular county assessment roll.

If the auditor, after receipt of written notice from the State Controller fails to transmit either of the statements within 10 days, he shall forfeit to the State, one thousand dollars ($1,000) to be recovered in an action brought by the Attorney General, in the name of the Controller.

Article 6. Appropriations and Transfers

29120. Except as otherwise provided by law, the board and every other county or special district official and person shall be limited in the making of expenditures or the incurring of liabilities to the amount of the appropriations allowed by the budget or as thereafter revised by addition, cancellation or transfer.

29121. Except as otherwise provided by law, warrants issued, expenditures made, or liabilities incurred in excess of any of the budget appropriations are not a liability of the county or special district, but the official making or incurring the expenditure in an amount known by him to be in excess of the unencumbered balance of the appropriation against which it is drawn is liable therefor personally and upon his official bond.

29122. The board shall approve no claim and the auditor shall issue no warrant for any expenditure in excess of the budget appropriation therefor, except upon an order of a court of competent jurisdiction, for an emergency, or as otherwise provided by law. Provided, further, with respect to a newly created special district, whenever it is desired to commence operations prior to the time for adoption of a budget for said district, any money advanced or transferred to such district under authority of law is hereby appropriated for the payment of expenses of the district until such time as a budget is formally adopted and becomes effective for such district.

29123. Relative to an expenditure program to be financed from a bond issue, no expenditure shall be made or obligations incurred therefor, except such preliminary expenditures as are provided by law, until the bonds have been duly authorized and sold.

29124. If at the beginning of any fiscal year, the appropriations applicable to that year have not been finally determined and adopted, the auditor shall approve payments for the support of the various budget units in accordance with the following authorizations which shall have progressive application:

(a) The several amounts set forth in the proposed budget for the objects and purposes therein specified, except for expenditures for fixed assets and for new permanent employee positions, are deemed appropriated until the adoption of the final budget.

(b) If the proposed budget has not been approved by the board, the amounts deemed appropriated shall be based on the budget of the preceding year, excluding fixed assets.

29125. Transfers and revisions may be made with respect to the appropriations as specified in the resolution of adoption of the budget, except with respect to transfers from the appropriations for contingencies, by an action formally adopted by the board at a regular or special meeting and entered in its minutes. The board may designate a county official to approve transfers and revisions within an appropriation.

29126. At any regular or special meeting the board may cancel any appropriation in whole or in part that is not needed and transfer the amount canceled to the appropriation for contingencies of the fund from which the appropriation was originally made if there is one, or to any appropriation for contingencies account, or fund, to which the amount canceled may be properly transferred. If there is no appropriation for contingencies in the respective fund, the board may establish one.

29127. After adopting a resolution stating the facts constituting the emergency by a four-fifths vote of the board at any regular or special meeting, of the time and place of which all members have had reasonable notice, the board may appropriate and make the expenditure necessary to meet an emergency in any of the following cases:

(a) Upon the happening of an emergency caused by war, fire, failure or the imminent failure of a water system or supply, flood, explosion, storm, earthquake, epidemic, riot or insurrection.

(b) For the immediate preservation of order or of public health.

(c) For the restoration to a condition of usefulness of any public property, the usefulness of which has been destroyed by accident.

(d) For the relief of a stricken community overtaken by calamity.

(e) For the settlement of approved claims for personal injuries or property damages, exclusive of claims arising from the operation of any public utilities owned by the county.

(f) To meet mandatory expenditures required by law.

29128. All emergency expenditures shall be paid by warrant from any money in the county treasury in any fund from which the expenditure may properly be paid.

29129. If, at any time, there is insufficient money in the treasury to pay any such warrants, they shall be registered, bear interest and be called in the same manner as other county or special district warrants.

29130. Balances in appropriations for contingencies, including accretions from cancellation of specific appropriations and, amounts received from subventions, grants, gifts or donations which are either in excess of anticipated or are not specifically set forth in the budget and, revenues derived from services provided under contract or agreement which are not specifically set forth in the budget, may be made available for specific appropriation by a four-fifths vote of the board at any regular or special meeting of which all members have had reasonable notice.

29131. The auditor shall submit to the board and such other officials as the board may designate a statement showing such information with respect to the condition of each separate budget appropriation and to the condition of the estimated revenues, as the board requires.

Article 7. Miscellaneous

29140. The budget document in which the proposed and the final budget, respectively, of the county are presented shall include a special statement showing the status of the expenditures from bond funds. The statement shall set forth the total estimated cost, and the total actual expenditures to date of each project, appropriately identified, and the fund from which financed.

29141. The budget document in which the proposed and final budget, respectively, of the county are presented shall include, for informational purposes only, a special statement showing the managerial budget of each service activity financed by a working capital fund established pursuant to the provisions of Section 25260 of this code. The statement shall set forth the expected operations of the activity in such detail for revenues and expenditures as will adequately display the nature and the approximate size of its operations. Comparative data as prescribed in Section 29021 of this chapter shall be provided.

29142. Notwithstanding the provisions of any other statute or code providing to the contrary, when taxes or assessments are collected by the county for any special district, or zone or improvement district thereof, but excluding a school district, the board of supervisors may provide for a collection fee for such services which when collected shall belong to the county and shall be deposited to the credit of the general fund, and shall cover the expense and compensation of such officials

of the county in the collection of such taxes and of the interest or penalties thereon, subject to the following:

(a) For taxes covering debt service requirements on any bond or bonds authorized and issued by any such district, the tax rate fixed to raise such amounts may be fixed by the board of supervisors to include also a percentage of such amounts up to one-fourth of 1 percent thereof.

(b) For taxes covering all purposes of such districts, other than debt service requirements on bonds, the amount of the collection fees, if any, to be charged by the county shall be fixed by agreement between the board of supervisors and the governing board of such district and shall not exceed one-fourth of 1 percent of all money collected. The tax rate fixed to raise such amounts whether fixed by the board of supervisors or by the governing board of the special district, shall be fixed to include also the percentages of such amounts pursuant to the agreement.

29143. Any unencumbered balance remaining to the credit of any appropriation shall lapse at the end of the fiscal year and shall revert to the available balance of the fund from which appropriated.

3110. The proposed boundaries of the assessment district to be assessed in proceedings shall be described by resolution or ordinance adopted by the legislative body prior to the hearing on the formation or extent of such district. Notice is further given that upon the recording of this notice in the office of the county recorder, the several assessments assessed as shown in said filed diagram and assessment shall become a lien upon the lots or portions of lots assessed, respectively.

Reference is made to the diagram and assessment on file in the office of the _____ of the said city.

Dated: _____

If the assessment district is located in two or more counties, the notice above set forth, in lieu of the paragraph following the description of the property, shall state:

Notice is further given that the above-described real property is located in the counties of _____ and _____ and upon the recording of this notice in the office of the county recorder of all such counties, effective upon the date of the last such recording, the several assessments as shown in said filed diagram and assessment shall become a lien upon the lots or portions of lots assessed, respectively.

3115. From the date of such recording in the office of the county recorder, or if the assessment district is located in two or more counties then from the date of such recording in the office of the county recorder wherein a notice is last recorded, all persons shall be deemed to have notice of the contents of such assessment. Immediately upon such recording in the office of the county recorder, or if the assessment district is located in two or more counties, then upon the recording of such notice in the offices of the county recorders of all such counties, effective upon the date of the last of such recordings each of such assessments shall thereupon be a lien upon the property against which it is made, and unless sooner discharged such lien shall so continue for the period of four years from the

date of said recordation, or in the event bonds are issued to represent said assessment, then such lien shall continue until the expiration of four years after the due date of the last installment upon said bonds or of the last principal coupon attached thereto.

The certificate of the clerk of the legislative body attached to such resolution shall include a reference to the date of the resolution of abandonment, the date of the original resolution of intention, and the date the map of the assessment district pertaining thereto was filed with the county clerk. PART 3. RECORDATION OF NOTICE OF PENDENCY OF SALE OR FORECLOSURE

3120. Where there is a delinquency in payment of principal and interest due upon a special assessment or bond and a sale or foreclosure is commenced, notice of the pendency of such sale or foreclosure shall be filed as provided in this part.

3121. Not later than 10 days after (1) making demand upon or application to the treasurer or other officer of the city to sell property for such delinquency or (2) commencing an action or proceeding in any court to foreclose the lien of such special assessment or bond, the assessment lienholder shall file with the county recorder a notice of pendency of such sale or foreclosure.

3122. The notice of pendency shall contain the name of the assessment lienholder, shall state that a sale or foreclosure, as the case may be, has been commenced, shall refer to and identify such sale or foreclosure and shall describe the property affected thereby.

3123. Such notice of pendency shall be in addition to any notice required to be given by the principal act or bond act pursuant to which such sale or foreclosure is being taken.

3124. This part shall not apply where the principal act or bond act provides that payments of principal and interest due upon a special assessment or bond shall be collected and enforced for delinquency in the same manner and at the same times as general taxes of the city on real property.

SEC. 3. Section 4289 of said code is amended to read:

4289. The clerk shall thereupon deliver to the street superintendent the assessment and diagram as confirmed by the

legislative body, with his certificate of such confirmation and of the date thereof. The street superintendent shall thereupon record such assessment and diagram in his office, in a suitable book to be kept for that purpose, and append thereto his certificate of the date of such recording.

Immediately thereafter the street superintendent shall record a notice of assessment as provided for in Section 3114, whereupon the assessment shall attach as a lien upon the property assessed as provided in Section 3115.

SEC. 4. Section 5372 of said code is amended to read:

5372. The warrant, diagram and assessment shall be recorded in the office of the superintendent of streets and may be recorded at any hour of the calendar day. Immediately thereafter the superintendent of streets shall record a notice of assessment, as provided for in Section 3114, whereupon said assessment shall attach as a lien upon the property assessed, as provided in Section 3115.

SEC. 5. Section 10311.5 is added to said code, to read:

10311.5. If the proposed improvement includes the acquisition of any improvements constructed pursuant to the provisions of the Subdivision Map Act (commencing at Section 11500, Business and Professions Code) and such improvements were financed, in whole or in part, from the proceeds of any loan secured by a mortgage or deed of trust upon any lands within the proposed assessment district, upon submission of evidence, satisfactory to the legislative body, of the foregoing, the mortgagee or beneficiary under any such mortgage or deed of trust may protest in the same manner and to the same extent as the owner of such lands.

Any contract by a city for the acquisition of any such improvements shall provide that, in the absence of contrary written instructions by any such mortgagee or beneficiary, the purchase price for said improvements shall be paid to the owner and to the mortgagee or beneficiary, as their interests may appear.

SEC. 6. Section 10401 of said code is amended to read:

10401. Upon the passage of the resolution provided for in Section 10312, the clerk of the legislative body shall, if bonds are to be issued, transmit to the superintendent of streets, or if no bonds are to be issued, to the city tax collector the diagram and assessment provided for in subdivisions (d) and (e) of Section 10204, and any modifications or corrections made by said legislative body. If other than a municipal corporation is conducting the proceeding, the diagram and assessment shall be transmitted to and recorded by the corresponding officer of the entity conducting the proceeding, which officer shall be the county surveyor if a county is conducting the proceeding, and such officer shall perform the duties provided in this division for the tax collector. If neither a mu-

nicipal corporation nor a county is conducting the proceeding, a certified copy of the diagram and assessment shall be recorded with the county surveyor if all or any part of the improvement district is in unincorporated territory, and with the superintendent of streets or tax collector of the city if all or any part of the improvement district is in an incorporated territory.

SEC. 7. Section 10402 of said code is amended to read:

10402. The tax collector shall record the diagram and assessment received pursuant to Section 10401 in a substantial book to be kept for that purpose in his office. Upon the date of recordation with the tax collector or, if a certified copy is recorded with the county surveyor or the superintendent of streets of the city or both as provided in Section 10401, then upon the date of such recordation, the assessment becomes due and payable.

SEC. 8. Section 10402.5 is added to said code, to read:

10402.5. Upon the passage of the resolution provided for in Section 10312, the superintendent of streets or the city tax collector, as the case may be, shall record a notice of assessment, as provided for in Section 3114, whereupon the said assessment shall attach as a lien upon the property assessed, as provided in Section 3115.

SEC. 9. Section 10428 of said code is amended to read:

10428. From the date of the recordation pursuant to Sections 3114 and 3115, each special assessment levied under this division is a lien upon the land upon which it is levied. This lien is paramount to all other liens, except prior assessments and taxation, and, unless sooner discharged, such lien shall continue for a period of four years from the date of said recordation, or in the event bonds are issued to represent said assessment, then such lien shall continue until the expiration of four years after the due date of the last installment upon said bonds or of the last principal coupon attached thereto. All persons shall have constructive notice of this lien from such date of the recordation.

SEC. 10. This act shall apply only to proceedings where the resolution or ordinance of intention shall have been adopted on or after the effective date of this act.

SEC. 11. The Legislature declares that the addition of Division 4.5 and Sections 28042, 10311.5 and 10402.5 to, and the amendments to Sections 4289, 5372, 10401, 10402 and 10428 of, the Streets and Highways Code effected by this act are to implement the recommendations contained in Volume 6, Number 20, of the Final Report of Assembly Interim Committee on Municipal and County Government, dated December 18, 1962.

The people of the State of California do enact as follows:

SECTION 1. Section 18060 of the Education Code is amended to read:

18060. (a) In addition to all other amounts allowed to a school district under this article (commencing at Section 18051), the Superintendent of Public Instruction shall allow to each school district an amount equal to the current expense of the district during the preceding fiscal year of transporting blind, deaf, aphasic, cerebral palsied, orthopedically handicapped and other physically impaired minor pupils handicapped in mobility and including mentally retarded minors who come within the provisions of Section 6903, to and from special day classes but not in excess of four hundred seventy-five dollars ($475) for each unit of average daily attendance of such pupils during the next preceding fiscal year resulting from the attendance of such pupils on the special day classes to and from which they were transported by the district.

(b) The Superintendent of Public Instruction shall allow to the county school service fund of each county an amount equal to the current expense of the county superintendent of schools during the preceding fiscal year of transporting blind, deaf, aphasic, cerebral palsied, orthopedically handicapped and other physically impaired minor pupils handicapped in mobility and including mentally retarded minors who come within the provisions of Section 6903, to and from special day classes but not in excess of four hundred seventy-five dollars ($475) for each unit of average daily attendance during the next preceding year resulting from the attendance of such pupils on the special day classes to and from which they were transported by the county superintendent of schools.

(c) As used in this section, "physically impaired minor pupils handicapped in mobility" means those children who are deemed eligible for special class placement as defined by the State Board of Education.

CHAPTER 1212

An act to amend Section 3271 of the Unemployment Insurance Code, relating to unemployment compensation disability insurance.

[Approved by Governor July 7, 1963. Filed with Secretary of State July 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 3271 of the Unemployment Insurance Code is amended to read:

3271. Until January 1, 1966, the director shall approve any amendment to a voluntary plan adjusting the provisions thereof as to periods after the effective date of the amendment as to which he finds that the plan as amended will conform to the standards set forth in Section 3254 and that either of the following exist:

(a) A majority of the employees covered by the plan have consented in writing to the amendment.

(b) All of the employees covered by the plan who are adversely affected by the amendment have consented in writing to the amendment.

(c) The insurer of such plan, if any, has certified to the director that notice of the amendment either separately or as a part of a new certificate or statement of coverage, has, at least 10 days prior to the effective date of the proposed amendment, been delivered to the employer for distribution to his employees within 10 days thereafter and has further certified that such notice specifically included notification to the employees covered by the plan of their right to withdraw from the plan.

Nothing contained in this section is intended to deny or limit the right of the director to make regulations supplementary thereto, nor on the general subject of requirements for amendments of voluntary plans subsequent to January 1, 1966.

CHAPTER 1213

An act to add Section 14 to Chapter 63 of the Statutes of 1880, relating to protection districts.

[Approved by Governor July 7, 1963. Filed with Secretary of State July 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 14 is added to Chapter 63 of the Statutes of 1880, to read:

14. The trustees of any district organized under this act or the owners in fee of one or more parcels within a district organ-

ized under this act, if such parcels are outside the protection of the levees of the district, may jointly or severally file with the board of supervisors praying that such parcels be excluded from the district.

The petition shall state the name of the district, the grounds upon which it is claimed that the lands be excluded from the district and shall describe the boundaries of the land of petitioners which it is desired to exclude. The petition shall be acknowledged in the manner required for the recordation of a conveyance of land, and the acknowledgment shall have the same effect as evidence as the acknowledgment of a conveyance of land.

The clerk of the board of supervisors shall publish a notice of the filing of the petition and hearing thereof once a week for at least two weeks in a newspaper of general circulation published in the county. Such notice shall contain the names of the petitioners, a general description of the lands mentioned in the petition and a brief description of the prayer of the petition. If any portion of the land to be excluded is located in two or more counties, such notice shall be published in a newspaper published within each of the counties wherein such land is located. If no newspaper is published in a county wherein publication is required, the notice shall be posted for two weeks in at least three public places in the district, one of the notices being posted on the lands proposed to be excluded.

In addition to the notice by publication or posting, the clerk of the board of supervisors shall, at least 10 days before the day set for hearing, mail a notice, postage prepaid, to the address of each known person owning property within the district and to all other persons deemed by the board of supervisors to have a distinct pecuniary interest in the matter. Such notice shall state that a petition has been filed, the names of the petitioners, shall contain a full description of the lands mentioned in the petition, shall describe the nature of the prayer of the petitioners, and shall state the date, time and location of the hearing of the petition.

The hearing shall be held at a regular meeting of the board of supervisors. At the hearing the board of supervisors shall hear the petition and all evidence, proofs or objections for or against granting of the petition. If the board of supervisors determines that the evidence sustains the petition and that it is for the best interests of the district that the lands, or some portion thereof, be excluded therefrom, the board of supervisors shall forthwith make an order that such lands be excluded from the district. If the exclusion of land from the district results in a change of boundaries of the district, the board of supervisors shall order an entry describing the new boundaries to be made in its books. A copy of the entry in the minutes of the board of supervisors excluding land shall be certified by the clerk of the board of supervisors and shall be

filed in the recorder's office in each county within which are situated any of the lands of the district.

The holders of bonds of the district at the time of the filing of the petition may consent in writing to the exclusion of lands mentioned in the petition. Such consent shall be acknowledged in the manner required for a conveyance of land, and the acknowledgement shall be filed with the clerk of the board of supervisors and recorded in the minutes thereof. A copy of such minutes, certified by the clerk, shall be recorded in the office of the county recorder of each of the counties wherein the lands to be excluded are situated, and shall be admissible in evidence with the same effect as the bondholders' consent. When the bondholders' consent has been filed as provided herein and the lands, or any portion thereof, are thereafter excluded from the district, the lands so excluded shall be released from the lien of the outstanding bonds.

Except when the bondholders have consented as provided herein, any land excluded from a district shall be held subject to liens and shall be charged with the payment of all outstanding obligations at the time of the filing of the petition for exclusion. at each of its sessions. The report shall list the state building construction projects initiated or completed since the last report, shall set forth the commission's appraisal of the degree to which such projects conform to the official master plan and shall incorporate the report made to it by the Director of Finance relating to his acquisition and improvement of real property in the City of Sacramento. The commission may include in its report such recommendations for revisions of the plan as from time to time become necessary or desirable for the orderly development of the Capitol area.

SEC. 2. Notwithstanding the provisions of Section 13471 of the Government Code, the Director of Finance is hereby authorized to invest and there is hereby appropriated the sum of thirteen million dollars ($13,000,000), or so much thereof as may be necessary, from the School Land Fund for the acquisition and improvement of real property in the City of Sacramento and within the boundaries of the Capitol Area Plan as approved and adopted by the Legislature for use as parking lots and as sites for state buildings and other improvements consistent with the Capitol Area Plan. The real property shall be acquired under the provisions of the Property Acquisition Law except that the Director of Finance shall have jurisdiction and control of the real property and shall hold and possess the real property as trustee for the benefit of the School Land Fund and for the purpose of liquidating said investment and paying interest thereon as hereinafter provided. Improvements constructed under this section shall be limited to the construction of parking facilities and the repair and alteration of improvements existing on the land at the time of purchase by the State.

SEC. 3. The appropriation may be expended for the payment of all costs and expenses, including administrative costs, incurred in connection with the acquisition or improvement of the real property. In no event shall reimbursement for administrative costs under this section exceed 10 percent of all other costs and expenses under the section.

SEC. 4. The Director of Finance may lease all or any portion of the real property on such terms and conditions as he may determine and shall maintain, improve, and care for such property in order to secure rent therefrom. The director may sell, remove, or demolish buildings or other structures on the property when he deems it desirable to do so. If the director leases all or any portion of the real property to any private person for other than parking, twenty-four percent (24%) of the money received as rental under any such lease shall be deposited in the "State Properties Rental Fund" created by Section 4.5. Except for any money required to be deposited in the "State Properties Rental Fund," all moneys collected pursuant to this section shall be deposited in the Special Deposit Fund for the purposes set forth in Section 5 of this act.

SEC. 4.5. There is hereby created in the State Treasury the "State Properties Rental Fund."

The Director of Finance shall, not later than the first day of November next following the close of any fiscal year after the effective date of this act, pay the rents deposited in the "State Properties Rental Fund" to the County of Sacramento. The director shall notify the county of the rental and location of each piece of rental property for which rents are deposited in the fund.

The county shall distribute any payment received by it pursuant to this section to itself, to each revenue district for which the county assesses and collects real property taxes or assessments, and to every other taxing agency within the county in which the property is situated. The amount distributable to the county and each such revenue district or other taxing agency shall be proportionate to the ratio which the amount of the taxes and assessments of each on similar real property similarly situated within that part of the county embracing the smallest in area of the revenue districts or other taxing agencies other than the county, levied for the fiscal year next preceding, bears to the combined amount of the taxes and assessments of all such districts and agencies, including the county, on such property levied for that year. The county auditor shall determine and certify the amounts distributable to the board of supervisors, which shall thereupon order the making of the distribution.

Any money distributed pursuant to this section to the county, or revenue district or other taxing agency shall be deposited to the credit of the same fund as any taxes or assessments on any taxable similar real property similarly situated.

Where the county receives a payment pursuant to this section in an amount of twenty-five dollars ($25) or less in respect to any parcel of leased property, all of such payment shall be distributed to the county for deposit in the county general fund.

As used in this section, the terms "taxing agency" and "revenue district" have the same meanings given them in the Revenue and Taxation Code.

The money received by the respective jurisdictions under this section may be expended by them for any proper state purpose not prohibited by the State Constitution.

SEC. 5. All costs or expenses, including administrative costs, incurred in maintaining, improving and caring for such real property or in demolishing, selling, or removing improvements therefrom, may be reimbursed or paid from moneys received pursuant to Section 4 of this act. After making the reimbursement or payment of such costs, upon order of the Director of Finance the remaining moneys received pursuant to said Section 4 shall be deposited as hereinafter provided in the School Land Fund and the State School Fund until the total of all moneys withdrawn pursuant to this act plus an

amount equal to 4 percent per annum on the unpaid balances compounded and computed annually, has been deposited. Thereafter, moneys accruing, if any, shall be deposited in the General Fund and the Director of Finance shall have jurisdiction and control of the real property free of any trust or other obligations. Deposits of moneys in the School Land Fund and the State School Fund shall be made as follows: First, such sums as are necessary to pay the amount previously compounded and computed based on said 4 percent shall be deposited in the State School Fund; the remaining moneys, if any, shall be deposited in the School Land Fund.

SEC. 6. The appropriation made by this act shall be available for expenditure without regard to fiscal years.

SEC. 7. The Director of Finance shall submit an annual report to the Capitol Building and Planning Commission which shall fully report all the acquisitions, prices paid, improvements made and revenues received on account of his activities authorized by this act. Such report shall also include a statement of all costs and expenses, including administrative costs, incurred under this act. The director's report shall be made a part of the annual report submitted to the Legislature by the commission.

SEC. 8. Notwithstanding any of the provisions of this act, at least 80 percent of the moneys appropriated by Section 2 and expended under the terms of this act shall be so expended as to acquire real property outward from the core of existing state ownerships within the Capitol Area Plan. Further, such expenditures for real property shall be so phased as to achieve a compact, contiguous, and generally rectangular pattern of state ownership during the acquisition program.

Section 644 of the Penal Code shall not apply to any person who has been placed in the Medical Facility, the Correctional Training Facility at Soledad, the California Institution for Women at Corona, the California Rehabilitation Center, the Medical Correctional Institution, or the California Institution for Men by the Youth Authority pursuant to this section, in respect to the time he remains therein under such placement.

If the object, building, structure, or premises are decontaminated, the normal use or occupancy of the object, building, structure, or premises may be resumed.

If the person who has control of the object, building, structure, or premises fails to comply with the department's order, the department may impound or seize the object, building, structure, or premises.

After the department has impounded or seized an object, building, structure, or premises, the department may decontaminate the object, building, structure, or premises or cause such decontamination. If the person who has control of the object, building, structure, or premises was responsible for its contamination, then the department may require that person to pay any reasonable and necessary costs which are incurred by the department in seizing and decontaminating or disposing of the object, building, structure, or premises and may maintain any action which may be necessary to recover such costs.

If the contamination of the object, building, structure, or premises resulted from the negligence of, or as a result of an ultrahazardous activity of, another person, persons, or corporation, then the department may require that person, persons, or corporation to pay any reasonable and necessary costs which are incurred by the department in seizing and decontaminating or disposing of the object, building, structure, or premises and may maintain any action which may be necessary to recover such costs.

The term "decontamination," as used in this section, means the reduction of the level of contamination from radioactive material to the level which the department determines is rea-

The board of directors of any domestic insurer may at any time adopt emergency bylaws, subject to repeal or change by action of those having power to adopt regular bylaws for the insurer, which shall be operative during such a national emergency and which may, notwithstanding any different provisions of the regular bylaws, or of the applicable statutes, or of the insurer's charter, make any provision that may be reasonably necessary for the operation of the insurer during the period of such emergency.

The contract may provide for reasonable collection costs and fees in the event of delinquency.

(d) Any provision in any conditional sale contract for the sale of a motor vehicle to the contrary notwithstanding, the buyer shall have the privilege of paying at any time in full the indebtedness evidenced by the contract. Whenever an indebtedness is liquidated prior to maturity by prepayment or refinancing, or upon surrender or repossession and resale of the motor vehicle, the holder shall thereupon refund to the buyer the unearned portion of the finance charge. The refund may be made in cash or credited to the amount due on the

obligation of the buyer. The amount of the refund shall represent at least as great a proportion of the finance charge, after first deducting therefrom twenty-five dollars ($25), as the sum of the periodic time balances payable more than 15 days after the date of prepayment (or other event entitling the buyer to the refund) bears to the sum of all of the periodic time balances under the schedule of installments in the contract. The provisions of this subdivision shall not impair the right of the seller or his assignee to receive delinquency charges on delinquent installments and reasonable costs and fees as provided in subdivision (c) of this section. Where the amount of such refund is less than one dollar ($1), no refund need be made.

(e) The contract shall also include any promise by the seller or anyone with his knowledge, made as an inducement to the buyer to become a party to the conditional sale contract or made incidental to negotiations relating thereto, to compensate the buyer for referring customers or prospective customers to the seller or for referring the seller to such customers or prospective customers.

In any case in which, pursuant to this subsection, the contract contains a promise to compensate the buyer for referring customers or prospective customers to the seller or the seller to such customers, the contract must contain a provision to the effect that the outstanding balance at any time is reduced by any amount of compensation owing pursuant to such promise.

The people of the State of California do enact as follows:

SECTION 1. Section 5003 of the Public Resources Code is amended to read:

5003. The department shall administer, protect, and develop the state park system for the use and enjoyment of the public. The department may establish rules and regulations not inconsistent with law for the government and administration of the state park system. It may enter into contracts with agencies of the United States, cities, counties, or other subdivisions of the State, for the care and maintenance of park areas, and it may expend all moneys of the department, from whatever source derived, for the care, protection, supervision, extension and improvement or development of the state park system.

It may, with the approval of the Department of Finance, enter into contracts with a regional park district for the care and maintenance of, to maintain and operate concessions within, and to act in the management of, any beaches, parks, public campgrounds, monument site, landmark site, site of historical interest, or other state park areas under its control.

SEC. 2. Article 1.5 (commencing with Section 5019.10) is added to Chapter 1 of Division 5 of the Public Resources Code, to read:

Article 1.5. Concession Contracts

5019.10. The Department of Parks and Recreation may enter into contracts with persons, firms or corporations to maintain and operate concessions within the state park areas for the safety and convenience of the general public in the use and enjoyment of the state park system. The department shall

obtain the approval of the Department of Finance before entering into any such contract if the contract would authorize occupancy of property owned or controlled by the State for a period of more than one year.

5019.11. All concession contracts authorizing occupancy of property owned or controlled by the State for a period of more than two years shall be awarded to the best responsible bidder pursuant to the bid procedures of this article. "Best responsible bidder" means the responsible bidder determined by the department to be the bidder whose bid will be in the best interest of the State and who will operate the concession consistent with the contract and in the interest of the public.

5019.12. Before entering into any contract authorizing occupancy for a period of more than two years of property owned or controlled by the State, the department shall prepare an accurate summary of the concession, which shall include a description of the nature and term of the concession, the extent of rights to be granted, the duties and obligations of the concessionaire (including payment, if any, for utilities), minimum rates and guaranties to the State, and such other items as may be necessary to permit bidding solely on the basis of rates to be paid to the State.

5019.13. Public notice to bidders shall be given of all contracts authorizing occupancy for a period of more than two years of property owned or controlled by the State as follows:

(a) Once a week for two consecutive weeks in at least one newspaper of general circulation published in each of the five most populous counties in the State.

(b) Once a week for two consecutive weeks in a newspaper of general circulation in the county in which the concession is to operate.

(c) If the director determines that, in view of the type of concession involved, the public interest would be best served by the solicitation of bids from out-of-state bidders, he shall give such additional notice as he finds is best suited to attract bids from out-of-state bidders.

5019.14. The notices shall state the time and place for the receiving and opening of sealed bids and describe in general terms the concession to be operated.

5019.15. The department shall require from prospective bidders answers to questions contained in a standard form of questionnaire and financial statement including a complete statement of the prospective bidder's financial ability and experience in maintaining and operating similar or related concessions or business activities. When completed, the questionnaire and financial statement shall be verified under oath by the bidder in the manner in which pleadings in civil actions are verified.

5019.16. The questionnaires and financial statements are not public records and are not open to public inspection.

5019.17. All bids shall be presented under sealed cover.

5019.18. Whether or not bids are opened exactly at the time fixed in the public notice for opening bids, a bid shall not be received after that time.

5019.19. Any bid may be withdrawn at any time prior to the time fixed in the public notice for the opening of bids only by written request for the withdrawal of the bid filed with the Director of Parks and Recreation. The request shall be executed by the bidder or by duly authorized representatives. The withdrawal of a bid does not prejudice the right of a bidder to file a new bid.

This section does not authorize the withdrawal of any bid after the time fixed in the public notice for the opening of bids.

5019.20. On the day named in the public notice the department shall publicly open the sealed bids, and on the same date shall furnish copies thereof, together with the questionnaires and financial statements relating thereto, to the Auditor General. The department shall carefully study and analyze all such bids and, on or after the 31st day after the bids are opened, shall award the contract to the person then determined to be the best responsible bidder.

5019.21. If the director deems it is for the best interests of the State, he may, on the refusal or failure of the successful bidder to execute the contract, award it to the second best responsible bidder.

If the second best responsible bidder fails or refuses to execute the contract, the director may likewise award it to the third best responsible bidder.

5019.22. If the director deems the acceptance of the best responsible bid is not for the best interests of the State, he may reject all bids and advertise for other bids in the manner required by this article.

5019.23. If the director deems it is for the best interests of the State he may, subject to the review of the State Park Commission, negotiate a contract when one or more of the following conditions exist:

(a) The bid process as prescribed in this article has failed to produce a responsible bidder, or

(b) It constitutes an extension of an existing contract obtained through the process required by this article, for the purpose of construction of substantial additional facilities by the concessioner, or

(c) Lands administered by the department and lands under the legal control of the prospective concessioner are so situated that the concession is dependent upon the use of such contiguous public and private lands

5019 24. A bidder shall not be relieved of his bid nor shall any change be made in his bid because of mistakes.

5019.25. Every contract awarded as to which bids are required under this article shall be submitted to the Attorney General Such a contract is not binding on the State until the Attorney General finds it to be in accordance with the requirements of this article, and endorses such finding thereon.

5019.26. The Auditor General shall ascertain, study and analyze all facts relating to contracts, financial statements, and questionnaires made or submitted pursuant to this article, and report annually thereon to the Legislature to the end that the Legislature will be informed as to the adequacy of such contracts, financial statements and questionnaires in accordance with generally accepted accounting principles, and shall include in his reports his recommendations for appropriate legislation.

SECTION 1. Article 5 (commencing with Section 760) is added to Chapter 5 of Division 3 of the Harbors and Navigation Code, to read:

Article 5. For-hire Vessel Operators' Licenses

760. As used in this article, "for-hire vessel" includes any vessel propelled by machinery carrying more than three passengers for hire, except the following:

(a) A seaplane on the water.

(b) A watercraft specifically designed to operate on a permanently fixed course, the movement of which is restricted to or guided on such permanently fixed course by means of a mechanical device on a fixed track or arm to which the watercraft is attached or by which the watercraft is controlled, or by means of a mechanical device attached to the watercraft itself.

761. No for-hire vessel, while carrying passengers for hire, shall be operated or navigated on the waters of this State except by a person who holds a valid license issued by the division pursuant to the provisions of this article. This requirement, however, shall not apply to persons who operate a for-hire vessel on waters of this State which have been declared to be navigable by agencies of the federal government.

762. An applicant for an operator's license shall submit his written verified application to the division. The application shall be in such form and contain such information as the division requires.

764. Upon application for an operator's license, the division shall require an examination of the applicant. The commission shall adopt rules and regulations establishing the requirements for the examination which will demonstrate to the division the applicant's competency in the operation of vessels.

If an applicant presents a valid operator's license issued pursuant to the provisions of the federal Motorboat Act of 1940 (Title 46, U.S.C., Section 526f) or the federal act of May 10, 1956 (Title 46, U.S.C. 390-390g), the division may issue an operator's license without requiring an examination.

765. The examination may include a test of the applicant's knowledge of safety rules, an actual demonstration of his ability to exercise ordinary and reasonable control in operating a vessel, and his mental and physical fitness. The examination may also include an inspection of the for-hire vessel.

766. Upon completion of the examination, the division may, with or without hearing, issue the operator's license or issue it for the partial exercise only of the privilege sought, and may attach to the exercise of the rights granted by the license such terms and conditions as, in its judgment, the public safety requires.

If the division refuses to grant an operator's license the proceedings shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and in all cases the division shall have all the powers granted therein.

767. An operator's license issued by the division pursuant to the provisions of this article shall be valid for five years from the date of issuance or renewal and may be renewed every five years thereafter unless suspended or revoked pursuant to Section 768. The commission may adopt rules and regulations establishing the requirements for renewal of any license issued under this article, including therein requirements for acuity of vision, color sense and general physical condition.

768. (a) The division may suspend or revoke any license issued pursuant to this article on a finding that the licensee has violated any of the provisions in Chapter 5 (commencing with Section 650) of Division 3 of the Harbors and Navigation Code, or has violated any of the regulations promulgated pursuant to carrying out the provisions of this article. The division may also revoke any license issued pursuant to this article upon any of the grounds which authorize the refusal to issue a license.

If the division suspends or revokes an operator's license, the proceedings shall be in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and in all cases the division shall have all the powers granted therein.

(b) The period of time for suspension during which the person may not apply for his license shall be determined by the division. The division shall not renew an operator's license which has been revoked until the expiration of one year after the date of such revocation unless the revocation was for a cause which has been removed.

769. The division shall be responsible for administering the licensing of operators of for-hire vessels and for enforcing the provisions of this article.

770. The commission may make rules and regulations to carry out the provisions of this article.

771. It is unlawful and constitutes a misdemeanor for any person to violate, or to fail to comply with, any provision of this article after April 1, 1964.

772. The authority and power granted to the division in this article shall not be construed to conflict with or diminish in any manner the jurisdiction of the Public Utilities Commission over for-hire vessels or common carriers, as those terms are defined in the Public Utilities Code.

SEC. 2. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 3. This act shall be operative on January 1, 1964.

[Approved by Governor July 9, 1963. Filed with Secretary of State July 11, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 265 of the Revenue and Taxation Code is amended to read:

265. Any tax or penalty or interest thereon for any fiscal year commencing during the calendar year 1962 on property owned by an educational institution of collegiate grade, acquired by it during that fiscal year and of a kind that might

qualify for the college exemption, shall be canceled pursuant to Article 1 (commencing with Section 4986) of Chapter 4 of Part 9 of this division as if it had been levied or charged erroneously and, if paid, a refund thereof shall be made pursuant to Article 1 (commencing with Section 5096) of Chapter 5 of Part 9 of this division as if it had been erroneously collected.

This act will remedy that situation, and in doing so the public policy of the State for the exemption of property owned by educational institutions of collegiate grade, as expressed in Section 1a of Article XIII of the Constitution, will be subserved and the State as a whole will benefit.

[Approved by Governor July 11, 1963. Filed with Secretary of State July 12, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 757 of the Revenue and Taxation Code is amended to read:

757. The board shall also immediately transmit to the auditor of each city which has not elected to transfer its assessment and tax collection functions to the assessor and tax collector of the county a roll showing the assessments made by the board in the city and in each district for which the city assesses property and collects taxes or assessments.

SEC. 2. Section 759 is added to said code, to read:

759. In lieu of complying with the provisions of Section 756, the board may, upon receipt by July 1 of a written request from a county auditor who has the approval of the board of supervisors, transmit to the auditor immediately after the first Monday in August an estimate of the total assessed value of state assessed property in the county and in each revenue district in the county. Such an estimate need not be made for a revenue district that did not levy a tax or assessment during the preceding year unless the board receives a notice in writing of a proposed levy, in which case the board shall furnish, as part of the original estimate or by way of a statement of changes, an estimate of the total assessed value of state assessed property in the district.

The estimates shall be regarded as establishing the total assessed value of state assessed property in the county and district for the purpose of determining the tax rate of such county and district, subject only to changes transmitted immediately after the third Monday in August. If there are no changes, the board shall at that time confirm its estimates.

SEC. 3. *Section 760 is added to said code, to read:*

760. When proceeding under Section 759, the board shall transmit to the tax collector, on or before October 1, a roll which shows assessments made by it and which has been extended, by the use of the rates of taxes and ad valorem special assessments forwarded to the board by the county auditor under Section 2152, to show the amount of tax or special assessment due with respect to each assessment. The board shall reject fractions of a cent and shall reject any cent not evenly divisible by two when dividing a tax or special assessment into equal installments. Upon delivery of the board roll to the tax collector, the secretary of the board shall certify to the auditor the total amount of the taxes and ad valorem special assessments set forth therein.

On or before November 1 the board may, upon receipt by July 1 of a written request from a county tax collector who has the approval of the board of supervisors, prepare and deliver or mail to assessees on a board roll which it has extended appropriate tax bills in the name of the local taxing agency. Each tax bill shall indicate the name and address of the official to whom the tax should be remitted.

SEC. 4. Section 761 is added to said code, to read:

761. Whenever locally assessable property in a city is not assessed by the county assessor for city purposes but a separate city roll is used, the board, upon receipt by July 1 of a written request from a city auditor who has the approval of the city legislative body, may, in lieu of complying with the provisions of Section 757, transmit to the auditor immediately after the first Monday in August the estimate of the total assessed value of state assessed property in the city that is supplied to the county auditor under Section 759. Immediately after the third Monday in August, the board shall confirm or modify any such estimate and shall certify to the city auditor the total value at which it has assessed property for city tax purposes in the city and in each area within the city wherein a separate city tax or ad valorem special assessment rate is applicable.

As soon as the city tax rate or rates are fixed by the city legislative body, the city auditor shall certify them to the board and the board shall then proceed with the computation and entry of the taxes and ad valorem special assessments. The board shall reject fractions of a cent and shall reject any cent not evenly divisible by two when dividing a tax or special assessment into equal installments. On or before October 1 the board shall deliver an extended roll to the city tax collector, and the secretary of the board shall certify to the city auditor the total amount of the taxes and ad valorem special assessments set forth therein.

On or before November 1 the board may, upon receipt by July 1 of a written request from a city tax collector who has the approval of the city legislative body, prepare and deliver or mail to assessees on a board roll which it has extended ap-

propriate tax bills in the name of the local taxing agency. Each tax bill shall indicate the name and address of the official to whom the tax should be remitted.

SEC. 5. Section 762 is added to said code, to read:

762. To a roll delivered by the board under the provisions of Section 760 or 761, the secretary of the board shall affix an affidavit, subscribed by him, as follows:

"I, _____, Secretary of the State Board of Equalization, swear that this board roll sets forth the assessments of all state-assessed property for the purpose of taxation in the _____ of _____ as of noon of the first Monday in March, _____, made by the State Board of Equalization in accordance with the requirements of Section 14 of Article XIII of the Constitution of California and Division 1 of the Revenue and Taxation Code of said State; I further swear that said board has reckoned on said roll in accordance with the rates certified by the auditor the respective sums due as taxes and ad valorem special assessments and has added the columns of valuations and taxes or ad valorem special assessments, as required by law."

SEC. 6. Article 2 (commencing with Section 791) of Chapter 4 of Part 2 of Division 1 of said code is repealed.

SEC. 7. Section 2152 of said code is amended to read:

2152. The auditor shall then:

(a) Compute and enter in a separate column on the roll the respective sums in dollars and cents, rejecting the fractions of a cent, to be paid as a tax on the property listed. Notwithstanding any contrary provisions elsewhere set forth in the law, all rates applicable to any assessment may be combined into a single figure for purposes of computation and extension of the roll.

(b) Place in other columns the respective amounts due in installments.

(c) Foot each column, showing the totals.

Provided, however, that if the assessment roll is a machine-prepared roll the above prescribed computations and entries may be made and entered upon a newly prepared roll which shall incorporate the adjustments authorized by the local board of equalization.

(d) When appropriate because of the provisions of Section 759, certify to the board the rates of taxes and ad valorem special assessments which have been fixed by the local board and which he is using to extend the local roll.

SEC. 8. Section 2603 of said code is amended to read:

2603. At the time the auditor delivers the local assessment roll to the tax collector, he shall charge the collector with the taxes extended thereon, together with the taxes extended on the board roll, whether delivered by him under Section 2601 or by the board under Section 760.

22157. Notwithstanding Section 22009.1 of this part, the State Employees' Retirement System, with respect to employees of school districts whose employees who are members are not already covered under the federal system, in which the average daily attendance of all districts combined is in excess of 400,000, and which are governed by the same governing board in positions covered pursuant to the contract of said governing board, shall constitute a retirement system. The board shall divide said retirement system and each part thereof shall constitute a retirement system as defined in subdivision (*l*) of Section 22009.1 of this part.

The division shall be conducted in accordance with this article, except that election among members of the system shall not be required. It shall be conducted at a time to be determined by the board, so as to permit the division and modification of the agreement with the system to include members of the system, no later than December 31, 1963.

SEC. 2. Section 22214 is added to said code, to read:

22214. Notwithstanding any other provisions of this part (commencing with Section 22000), the board shall execute a modification of the agreement in conformity with the provisions of Section 218 of the Social Security Act and applicable federal regulations adopted pursuant thereto to include services in positions covered by the retirement system, as defined in subdivision *l*(1) of Section 22009.1 established by division of the retirement system, defined in Section 22157 of this part. SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There are a number of older employees who will be able to receive benefits under the Federal Social Security Act if the public agency's retirement system can be integrated with the federal program, prior to the retirement of those older employees. Since compulsory retirement provisions make it impossible for some of these employees to delay retirement until these provisions take effect, it is necessary that this measure take effect immediately to allow these employees to receive benefits under the federal program.

SECTION 1. Section 206 of the Code of Civil Procedure is amended to read:

206. The list of trial jurors made in a county of the first class shall contain the number of persons which has been designated by the court in its order. The names for the trial jury list shall be selected from the different wards or judicial districts of the respective counties in proportion to the number of inhabitants therein, as nearly as the same can be estimated by the persons making the lists. The trial jury list shall be kept separate and distinct from the grand jury list. In a county of the first class, where sessions of the superior court are held in cities other than the county seat, the names for such list to serve in the city shall all be selected from the district in which the city is located and no names from such district shall be selected to serve as trial jurors for any other part of the county, other than in the county seat.

SEC. 2. Section 204 of said code is amended to read:

204. During January in each year, the superior court of each county shall make an order designating the estimated number of trial jurors that will, in the opinion of the court, be required for the transaction of the business of the court, and the trial of causes therein, during the ensuing year. Immediately after such order is made, the board of supervisors shall select, pursuant to Sections 205 and 206, a list of men and women to serve as trial jurors in the superior court of the county during the ensuing year, or until a new list of jurors is provided.

In counties having a population of 80,000 inhabitants or over, such selection shall be made by a majority of the judges of the superior court; except that in counties of the first class, where a session or sessions of the superior court are held in cities other than the county seat, the judge presiding in each district may, during January of each year or in the December immediately preceding, make an order designating the estimated number of trial jurors that will, in his opinion, be required for the transaction of the business of the court within the district and the trial of causes therein during the ensuing year, or until new lists of jurors are provided. The judge shall make such selections and listings of men and women suitable and competent to serve as jurors from men and women residing in the judicial district in which the city is located.

In counties having a population of 300,000 inhabitants or over, a majority of the judges of the superior court shall, in January and July of each year or in the December or June immediately preceding, make the order designating the number of trial jurors and the selections and listings of men and women suitable and competent to serve as trial jurors.

CHAPTER 1413

An act to amend Section 231 of the Civil Code, relating to action to determine paternity.

[Approved by Governor July 11, 1963. Filed with Secretary of State July 12, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 231 of the Civil Code is amended to read:

231. An action may be brought for the purpose of having declared the existence or nonexistence between the parties of the relation of parent and child, by birth or adoption.

The district attorney may also bring an action under this section in any other case in which he believes that the interests of justice will be served thereby.

CHAPTER 1414

An act to add Sections 19.6, 19.7, 19.8, 19.9, 19.10, 19.11, 19.12, 19.13, 19.14, 19.15, 19.16, 19.17, 19.18, 19.19 and 19.20 to the Water Conservation Act of 1931 (Chapter 1020 of the Statutes of 1931), relating to ground water extraction charges.

[Approved by Governor July 11, 1963. Filed with Secretary of State July 12, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 19.6 is added to the Water Conservation Act of 1931 (Chapter 1020 of the Statutes of 1931), to read:

Sec. 19.6. The board shall have the power, in addition to the powers enumerated elsewhere in this act, to levy and collect a ground water charge for the production of water from the ground water supplies within the district or within a zone or zones thereof.

The provisions of Sections 19.10, 19.11 and 19.12 shall apply only to districts or zones in which a ground water charge is levied.

SEC. 2. Section 19.7 is added to said act, to read:

Sec. 19.7. As used in connection with the ground water charge, the following words shall mean:

"Person" or "operator" means public agencies, federal, state, and local, private corporations, firms, partnerships, individuals, or groups of individuals, whether legally organized or not; "owner" or "operator" also means the person to whom a water-producing facility is assessed by the county assessor of the county or counties in which the district is organized, or, if not separately assessed, the person who owns the land upon which a water-producing facility is located.

"Ground water" means all water beneath the earth's surface, but does not include water which is produced with oil in the production of oil and gas, or in a bona fide mining operation, or during construction operations, or from gravity or artesian springs.

"Production" or "producing" means the act of extracting ground water by pumping or otherwise.

"Water-producing facility" means any device or method, mechanical or otherwise, for the production of water from the ground water supplies within the district.

"Accumulated overdraft" means the amount of water necessary to be replaced in the intake areas of the ground water basins within the district or any zone or zones thereof to prevent the landward movement of salt water into the fresh ground water body, or to prevent subsidence of the land within the district or any zone or zones thereof, as determined by the board from time to time.

"Annual overdraft" means the amount, determined by the board, by which the production of water from ground water supplies within the district or any zone or zones thereof during the water year exceeds the natural replenishment of such ground water supplies in such water year.

"Water year" means July 1st of one calendar year to June 30th of the following calendar year.

"Agricultural water" means water first used on lands in the production of plant crops or livestock for market.

SEC. 3. Section 19.8 is added to said act, to read:

Sec. 19.8. Prior to the establishment of any ground water charge the board shall establish a zone or zones within the district within which the ground water charge will be effective. Said zone or zones shall be established and may be amended to the extent and in the manner prescribed in this act. A zone may include the entire district.

Ground water charges levied pursuant to this act are declared to be in furtherance of district activities in the protection and augmentation of the water supplies for users within the district or a zone or zones thereof which are necessary for the public health, welfare and safety of the people of this State. The ground water charges are authorized to be levied upon the production of ground water from all water-producing

facilities, whether public or private, within the district or a zone or zones thereof for the benefit of all who rely directly or indirectly upon the ground water supplies of the district or a zone or zones thereof and water imported into the district or a zone or zones thereof.

The proceeds of ground water charges levied and collected upon the production of water from ground water supplies within the district or a zone or zones thereof are authorized and shall be used exclusively by the board for the district purposes authorized by this act.

SEC. 4. Section 19.9 is added to said act, to read:

Sec. 19.9. Within six months after the date of establishing such zone or zones all water-producing facilities located within the boundaries of such zone or zones shall be registered with the district and, if required by the board, measured with a water-measuring device satisfactory to the district, installed by the district, or at the district's option, by the operator thereof. Any new water-producing facility, constructed or re-established after such date, shall be registered with the district and, if required by the board, measured with a water-measuring device satisfactory to the district within 30 days after the completion or re-establishment thereof. Any water-measuring device required by and satisfactory to any other public agency or county or district or zone thereof, the boundaries of which substantially contain the area of the district may be declared by the board to be sufficient compliance herewith.

Failure to register any water-producing facility, as required by this section, is a misdemeanor punishable by a fine of not to exceed five hundred dollars ($500), or imprisonment in the county jail for not to exceed six months, or by both such fine and imprisonment.

In addition to other information which the district may determine is necessary and may require in the registration form provided, there shall also be given information as to the owner or owners of the land upon which each water-producing facility is located, a general description and location of each water-producing facility, the name and address of the person charged with the operation of each water-producing facility, and the name or names and addresses of all persons owning or claiming to own an interest in the water-producing facility.

SEC. 5. Section 19.10 is added to said act, to read:

Sec. 19.10. The district shall annually cause to be made an investigation and report upon ground water conditions of the district. The investigation and report shall include, among other information which the district may desire, information for the consideration of the board in its determination of the annual overdraft, information for the consideration of the board in its determination of the accumulated overdraft as of the last day of the preceding water year, a report as to the total production of water from the ground water supplies

of the district for the preceding water year, an estimate of the annual overdraft for the current water year and for the ensuing water year, the amount of water the district is obligated to purchase during the ensuing water year, and a recommendation as to the quantity of water needed for surface delivery and for replenishment of the ground water supplies of the district for the ensuing year.

SEC. 6. Section 19.11 is added to said act, to read:

Sec. 19.11. On the second Tuesday in March of each year the engineering investigation and report shall be delivered to the secretary of the district board in writing. Said secretary shall publish, pursuant to Section 6061 of the Government Code, a notice of the receipt of such report and of the public hearing to be held on the second Tuesday of April in a newspaper of general circulation printed and published within the district, at least 10 days prior to the date at which the public hearing regarding said engineering investigation and report shall be held. Said notice, among other information which the district may provide therein, shall contain an invitation to all operators of water-producing facilities within the district to call at the offices of the district to examine said engineering investigation and report.

There shall be held by the board on the second Tuesday of April of each year, in the regular meeting place of the board, a public hearing at which time any operator of a water-producing facility within the district, or any person interested in the condition of the ground water supplies or the surface water supplies of the district, may in person, or by representative, appear and submit evidence concerning the ground water conditions and the surface water supplies of the district. Appearances also may be made supporting or protesting said written engineering investigation and report. The board shall, before the levy of the ground water charge, find and determine the average annual overdraft for the immediate past 10 water years; the estimated annual overdraft for the current water year; the estimated annual overdraft for the ensuing water year; the accumulated overdraft as of the last day of the preceding water year; the estimated accumulated overdraft as of the last day of the current water year; the estimated amount of agricultural water to be withdrawn from the ground water supplies of the district for the ensuing water year; the amount of water other than agricultural water to be drawn from the ground water supplies of the district for the ensuing water year; the estimated amount of water necessary for surface distribution for the ensuing water year; the amount of water which is necessary for the replenishment of the ground water supplies of the district; and the amount of water the district is obligated by contract to purchase.

Said findings and determinations by the board shall be conclusive and binding upon all persons and parties.

SEC. 7. Section 19.12 is added to said act, to read:

Sec. 19.12. Prior to the end of the water year in which said hearing is held, and based upon the findings and determinations from said hearing, the board shall determine whether or not a ground water charge should be levied in any zone or zones. If the board determines that a ground water charge should be levied, it shall levy, assess, and affix such charge or charges against all persons operating ground water-producing facilities within such zone or zones during the ensuing water year. The charge shall be computed at a fixed and uniform rate per acre-foot for agricultural water, and at a fixed and uniform rate per acre-foot for all water other than agricultural water. Different rates may be established in different zones; provided, however, that in each zone the rate for agricultural water shall be fixed and uniform and the rate for water other than agricultural water shall be fixed and uniform.

In addition to the information required to be given by the board to the board or boards of supervisors and the auditor or auditors pursuant to Section 28 of this act the board shall at the same time annually furnish the board of supervisors and the auditor of the county where the district is situated, or if the district is not entirely within one county then, as in this act provided, to the supervisors and auditors of each county in which any portion of the district is situated, the estimated sum of a ground water charge which the board intends to levy in any zone or zones which sum shall be deducted from the assessments provided to be levied annually in any zone or zones pursuant to Section 30 of this act, first from the assessment of the amount reported to them as required for district purposes other than that required to pay principal and interest of district bonds and second from the assessment to raise the amount reported to them as required for bond service.

Any ground water charge in any year shall be established at a fixed and uniform rate for each acre-foot for water other than agricultural water which is not less than three times nor more than five times the fixed and uniform rate established for agricultural water; provided, that in any county which has a population of 503,000 and under 600,000, any ground water charge in any year shall be established at a fixed and uniform rate for each acre-foot for water other than agricultural water in such proportion to the fixed and uniform rate established for agricultural water as the board shall determine.

Any ground water charge levied pursuant to this section shall be in addition to any general tax or assessment levied within the district or a zone or zones thereof, provided, that the board shall by the 10th day of July of each year determine the amount of money needed for the purposes of the district for the ensuing fiscal year as provided in Section 28 of this act, and any ground water charge levied by the district in any zone or zones shall be fixed at rates which will, together with any sums raised in the ensuing fiscal year by any general tax or

assessment in such zone or zones, produce funds for district purposes not in excess of the maximum which the district could have raised by such general tax or assessment under this act in such zone or zones without the addition of any ground water charge. If in any fiscal year the sum of ground water charges and of any general tax or assessment levied and collected by the district shall in fact produce revenues from such zone or zones in excess of the maximum to which the district is limited under this act then the excess amount so collected shall be deducted by the board from the amount of money to be raised in the following fiscal year from such zone or zones.

Clerical errors occurring or appearing in the name of any person or in the description of the water-producing facility where the production of water therefrom is otherwise properly charged, or in the making or extension of any charge upon the records which do not affect the substantial rights of the assessee or assessees, shall not invalidate the ground water charge.

SEC. 8. Section 19.13 is added to said act, to read:

Sec. 19.13. The district, after the levying of the ground water charge, shall give notice thereof to each operator of each water-producing facility in the zone or zones as disclosed by the records of said district, which notice shall state the rate for each class of water of the ground water charge for each acre-foot of water to be produced during the ensuing water year. Said notice may be sent by postal card or by other first-class mail and with postage prepaid by the district.

SEC. 9. Section 19.14 is added to said act, to read:

Sec. 19.14. After the establishment of a ground water charge, each operator of a water-producing facility within the affected zone or zones of the district, until such time as said water-producing facility has been permanently abandoned, shall file with the district, on or before the 31st day of January and on or before the 31st day of July in each year, a statement setting forth the total production in acre-feet of water for the preceding six-months period (excluding the month in which the statement is due), a general description or number locating each water-producing facility and the method or basis of the computation of such water production. If no water has been produced from said water-producing facility during the preceding six-months period, said statement shall be filed as provided for herein, setting forth that no water has been produced during said period. Said statement shall be verified by a written declaration that it is made under the penalties of perjury. The ground water charge is payable to the district on or before the last date upon which the water production statements shall be filed, and is computed by multiplying the production in acre-feet of water for each classification as disclosed in the statement by the ground water charge for each classification of water. At such time as any said water-producing

facility has been permanently abandoned, the operator thereof shall give written notice of such abandonment to the district. If any operator of a water-producing facility shall fail to pay the ground water charge when due, the district shall charge interest at the rate of one percent (1%) each month on the delinquent amount of the ground water charge.

Should any operator of a water-producing facility fail to register each water-producing facility, or fail to file the water production statements as required by this act, the district shall, in addition to charging interest as provided herein, assess a penalty charge against such operator in an amount of ten percent (10%) of the amount found by said district to be due.

The board may, at the time of fixing the ground water charge, establish a method or methods to be used in computing the amount of water produced from a water-producing facility which is not measured by a measuring device. Such methods may be based upon any or all or a combination of some of the following criteria: size of water-producing facility discharge opening, area served by the water-producing facility, number of persons served by the water-producing facility, use of land served by the water-producing facility, crops grown on land served by the water-producing facility, or any other criteria which may be used to determine with reasonable accuracy the amount of water produced from such water-producing facility.

SEC. 10. Section 19.15 is added to said act, to read:

Sec. 19.15. Upon good cause shown, an amended statement of water production may be filed or a correction of the records may be made at any time prior to the final date for filing the next semiannual water production statement.

SEC. 11. Section 19.16 is added to said act, to read:

Sec. 19.16. The superior court of the county in which a water-producing facility within the district lies may issue a temporary restraining order upon the filing by the district with said court of a petition or complaint setting forth that the person named therein as defendant is the operator of a water-producing facility which has not been registered with the district, or that such defendant is delinquent in the payment of a ground water charge. Such temporary restraining order shall be returnable to said court on or before 10 days after its issuance.

The court may issue and grant an injunction restraining and prohibiting the named defendant from the operation of any water-producing facility when it is established at the hearing that the defendant has failed to register such water-producing facility with the district, or that the defendant is delinquent in payment of ground water charges thereon. Such court may provide that the injunction so made and issued shall be stayed for a period not to exceed 10 days to permit the defendant to register the water-producing facility or to pay the delinquent ground water charge.

Service of process is completed by posting a copy of the summons and complaint upon the water-producing facility or the parcel of land upon which it is located and by personal service upon the named defendant.

The right to proceed for injunctive relief granted herein is an additional right to those which may be provided elsewhere in this act or otherwise allowed by law. The procedure provided in Chapter 3 (commencing with Section 525), Title 7, Part 2, of the Code of Civil Procedure, regarding injunctions shall be followed except insofar as it may herein be otherwise provided. The district shall not be required to provide an undertaking or bond as a condition to granting injunctive relief.

SEC. 12. Section 19.17 is added to said act, to read:

Sec. 19.17. If the district has probable cause to believe that the production of water from any water-producing facility is in excess of that disclosed by the sworn statements covering such water-producing facility, or if no statements are filed covering any water-producing facility, the district may cause an investigation and report to be made concerning the production of water from each such water-producing facility. The district may fix the amount of water production from any such water-producing facility at an amount not to exceed the maximum production capacity of such water-producing facility; provided, however, where a water-measuring device is permanently attached thereto, the record of production, as disclosed by such water-measuring device, shall be presumed to be accurate and the burden is upon the district to establish to the contrary.

After such determination has been made by the district, a written notice thereof shall be mailed to the person operating such water-producing facility at his address as shown by the district's records. Any such determination made by the district shall be conclusive on all persons having an interest in such water-producing facility, and the ground water charge, interest and penalties thereon, shall be paid forthwith, unless such person files with the board within 10 days after the mailing of such notice, a written protest setting forth the ground or grounds for protesting the amount of production so fixed. Upon the filing of such protest, the board thereafter shall hold a hearing at which time the total amount of the water production and the ground water charge thereon shall be determined, which shall be conclusive if based upon substantial evidence. A notice of such hearing shall be mailed to the protestant at least 10 days before the date fixed for the hearing. Notice of the determination by the board shall be mailed to each protestant, who shall have 10 days from the date of mailing to pay the ground water charge, interest or penalties provided by the provisions of this act.

Notice as required in this section shall be given by deposit thereof in any postal facility regularly maintained by the

government of the United States in a sealed envelope with postage paid, addressed to the person on whom it is served at his name and address as disclosed by the records of the district. The service is complete at the time of deposit.

SEC. 13. Section 19.18 is added to said act, to read:

Sec. 19.18. The district may bring a suit in the court having jurisdiction against any operator of a water-producing facility within the district for the collection of any delinquent ground water charge. The court having jurisdiction of said suit, may, in addition to allowing recovery of costs to said district as allowed by law, fix and allow as part of the judgment interest and penalties as provided in Section 19.14. Should the district, as a provisional remedy in bringing such suit, seek an attachment against the property of any named defendant therein, the district shall not be required to provide a bond or undertaking as is otherwise provided for in the Code of Civil Procedure of the State of California in Chapter 4 (commencing with Section 537), Title 7, Part 2, thereof.

SEC. 14. Section 19.19 is added to said act, to read:

Sec. 19.19. It shall be unlawful to produce water from any water-producing facility required to be registered pursuant to the terms of this act unless such water-producing facility has been registered with the district within the time required by the provisions of this act and, if required by the board, has a water-measuring device affixed thereto capable of registering the accumulated amount of water produced therefrom.

Violation of this provision shall be punishable by a fine not to exceed five hundred dollars ($500), or imprisonment in the county jail for not to exceed six months, or by both such fine and imprisonment. Each day of operation in violation thereof shall constitute a separate offense.

SEC. 15. Section 19.20 is added to said act, to read:

Sec. 19.20. Any person who injures, alters, removes, resets, adjusts, manipulates, obstructs or in any manner interferes or tampers with or procures or causes or directs any person to injure, alter, remove, reset, adjust, manipulate, obstruct or in any manner interfere or tamper with any water-measuring device affixed to any water-producing facility as required by this act, so as to cause said water-measuring device to improperly or inaccurately measure and record said water production, or any person who with intent to evade any provision or requirement of this act files with the district any false or fraudulent water production statement is guilty of a misdemeanor and is punishable by a fine not to exceed five hundred dollars ($500), or imprisonment in the county jail not to exceed six months, or by both such fine and imprisonment.

SEC. 5. If any provisions of this act or its application to any person or circumstances is held invalid, the remainder of the act and the application of its provisions to other persons or circumstances is not affected.

CHAPTER 1416

An act to validate certain acts of taxing agencies and revenue districts and of their officers, relating to property taxation, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 12, 1963. Filed with Secretary of State July 12, 1963.]

The people of the State of California do enact as follows:

SECTION 1. As used in this act "taxing agency" includes the State, county, and city. "Taxing agency" also includes every district that assesses property for taxation purposes and levies taxes or assessments on the property so assessed.

SEC. 2. As used in this act "revenue district" includes every city and district for which the county officers assess property and collect taxes or assessments.

SEC. 6. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The peace, health and safety of the citizens of the State require the orderly and unhampered functioning of public bodies and such functioning depends on the validity of the acts and proceedings pertaining to the budgets, taxes, and assessments of public bodies, and it is therefore imperative and essential that such matters be validated.

CHAPTER 1417

An act to add Chapter 5 (commencing with Section 10600) to Part 2, Division 2, Title 2 of the Government Code, relating to creation of a Joint Legislative Retirement Committee.

[Approved by Governor July 12, 1963. Filed with Secretary of State July 12, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5 (commencing with Section 10600) is added to Part 2, Division 2, Title 2 of the Government Code, to read:

CHAPTER 5. JOINT LEGISLATIVE RETIREMENT COMMITTEE

10600. The Legislature finds that the retirement of officers and employees of the State, school districts, and many cities, counties, and public jurisdictions in the State, is provided under several independently administered and highly complex and technical statutes, and that development and change in such systems are interrelated and have important long-range implications both with respect to cost and to the rights of public employees. The Legislature recognizes the need of coordination of such change and development and for continuing study and analysis of such systems and legislation affecting them.

Therefore, it is the desire of the Legislature to provide for such continuing study and analysis by a joint legislative committee.

10601. The Joint Legislative Retirement Committee is hereby created The committee shall study and review the benefits, programs, actuarial condition, practices, investments and procedures of, and all legislation relating to the retirement systems for public officers and employees in this State and the trends and developments in the field of retirement, and make reports and recommendations thereon to the Legislature and to the houses thereof. The committee has a continuing existence and may meet, act, and conduct its business at any place within this State during the sessions of the Legislature or any recess thereof, and in the interim period between sessions.

10602. The committee shall consist of three Members of the Senate and three Members of the Assembly who shall be selected in the manner provided for in the Joint Rules of the Senate and Assembly. The committee shall elect its own chairman. Vacancies occurring in the membership of the committee between general sessions of the Legislature shall be filled in the manner provided for in the Joint Rules of the Senate and Assembly. A vacancy shall be deemed to exist as to any member of the committee whose term is expiring whenever such member is not re-elected at the general election.

10603. The committee is authorized to make rules governing its own proceedings and to create subcommittees from its membership and assign to such subcommittees any study, inquiry, investigation, or hearing which the committee itself has authority to undertake or hold. The provisions of Rule 36 of the Joint Rules of the Senate and Assembly relating to investigating committees shall apply to the committee, and it shall have such powers, duties and responsibilities as the Joint Rules of the Senate and Assembly shall from time to time prescribe, and all the powers conferred upon committees by Section 37, Article IV, of the Constitution.

10604. The committee shall have authority to appoint and fix the salary of such professional and other employees as may be necessary. Funds for the support of the committee shall be provided from the Contingent Funds of the Assembly and the Senate in the same manner that such funds are made available to other joint committees of the Legislature.

CHAPTER 1418

An act to add Section 5006.2 to the Public Resources Code, relating to the state park system.

[Approved by Governor July 12, 1963. Filed with Secretary of State July 12, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 5006.2 is added to the Public Resources Code, to read as follows:

5006.2. The Director of Parks and Recreation with the consent of the Director of Finance may acquire by gift, purchase or condemnation any interest, including options, in those properties known as Aptos Forest, Santa Cruz County, more particularly described in that deed from Agnes K. Marks, et al., to the Nature Conservancy, a nonprofit corporation of District of Columbia, recorded August 3, 1962 in Book 1487, page 11, Official Records of Santa Cruz County, upon such terms and conditions he may see fit for proper development, use and control of the area as a state park.

When such properties are so acquired, they shall be included in the state park system under the exclusive control of the officers administering the state park system, provided that the Director of Parks and Recreation shall have no authority, under other provisions of law except by permission of the Legislature, to grant, give, or suffer easements, permits, leases, rights, or rights-of-way therein other than those necessary for the orderly development, use, and control of the park. Where under other provisions of law park property may be taken by

eminent domain, it shall not be deemed to include any part or interest in the above-described property except by specific permission of the Legislature.

Said fees from both broker and saleman licensees shall be paid

into the State Treasury and credited to the Real Estate Education, Research and Recovery Fund, and said deposits shall be allocated solely for the purposes provided in this article.

10471. When any aggrieved person obtains a final judgment in any court of competent jurisdiction against any person licensed under this part, upon grounds of fraud, misrepresentation or deceit with reference to any transaction for which a license is required under this part and which cause of action occurred on or after July 1, 1964, the aggrieved person may, upon termination of all proceedings including reviews and repeals in connection with the judgment, file a verified application in the court in which the judgment was entered for an order directing payment out of the Real Estate Education, Research and Recovery Fund of the amount of actual damages up to the sum of ten thousand dollars ($10,000) of the amount unpaid upon the judgment.

A copy of the verified application must be served upon the commissioner and a certificate or affidavit of such service filed with the court.

10472. The court shall proceed upon such application 30 days after service of the application upon the Real Estate Commissioner, and, upon the hearing thereof, the aggrieved person shall be required to show:

(a) He is not a spouse of debtor, or the personal representative of such spouse.

(b) He has complied with all the requirements of this article.

(c) He has obtained a judgment as set out in Section 10471, stating the amount thereof and the amount owing thereon at the date of the application.

(d) He has caused to be issued a writ of execution upon said judgment and the officer executing the same has made a return showing that no personal or real property of the judgment debtor liable to be levied upon in satisfaction of the judgment could be found, or that the amount realized on the sale of them or of such of them as were found, under said execution, was insufficient to satisfy the judgment, stating the amount so realized and the balance remaining due on the judgment after application thereon of the amount realized.

(e) He has obtained issuance of an order pursuant to Section 714 of the Code of Civil Procedure and examined the judgment debtor under oath concerning his property.

(f) He has made all reasonable searches and inquiries to ascertain whether the judgment debtor is possessed of real or personal property or other assets, liable to be sold or applied in satisfaction of the judgment.

(g) That by such search he has discovered no personal or real property or other assets liable to be sold or applied, or that he has discovered certain of them, describing them, owned by the judgment debtor and liable to be so applied, and that he has taken all necessary action and proceedings for the

realization thereof, and that the amount thereby realized was insufficient to satisfy the judgment, stating the amount so realized and the balance remaining due on the judgment after application of the amount realized.

(h) That he is making said application no more than one year after the termination of all proceedings, including reviews and appeals, in connection with the judgment.

(i) That he has posted a bond to guarantee court costs, including reasonable attorney's fees, should his application be denied, in the amount of 10 percent of the actual damages he seeks from the Real Estate Education, Research and Recovery Fund.

10473. Whenever the court proceeds upon an application as set forth in Section 10471, the commissioner shall have the right to answer and defend any such action against the Real Estate Education, Research and Recovery Fund on behalf of the fund and in the name of the defendant and shall have recourse to any appropriate method of review on behalf of the fund to include examination of witnesses, introduction of evidence and such other action as may be appropriate before the court.

The judgment set forth in the application shall be considered the only prima facie evidence and the findings of fact therein shall not be conclusive for the purposes of this article.

The commissioner may, subject to court approval, compromise a claim based upon the application of an aggrieved party. He shall not be bound by any prior compromise of the judgment debtor.

10474. If the court finds after the hearing that said claim should be levied against the portion of the fund allocated for the purpose of carrying out the provisions of this article, the court shall enter an order directed to the commissioner requiring payment from the Real Estate Education, Research and Recovery Fund of whatever sum it shall find to be payable upon the claim pursuant to the provisions of and in accordance with the limitations contained in this article.

Notwithstanding any other provision of this article, the liability of that portion of the Real Estate Education, Research and Recovery Fund allocated for the purposes of this article shall not exceed twenty thousand dollars ($20,000) for any one licensee.

10475. Should the commissioner pay from the Real Estate Education, Research and Recovery Fund any amount in settlement of a claim or toward satisfaction of a judgment against a licensed broker or salesman, the license of the broker or salesman shall be automatically suspended upon the effective date of an order by the court as set forth herein authorizing payment from the Real Estate Education, Research and Recovery Fund. No such broker or salesman shall be granted reinstatement until he has repaid in full, plus interest at the rate of

4 percent a year, the amount paid from the Real Estate Education, Research and Recovery Fund on his account. A discharge in bankruptcy shall not relieve a person from the penalties and disabilities provided in this article.

10476. If, at any time, the money deposited in the Real Estate Education, Research and Recovery Fund and allocated for purposes other than real estate education and research is insufficient to satisfy any duly authorized claim or portion thereof, the commissioner shall, when sufficient money has been deposited in the Real Estate Education, Research and Recovery Fund, satisfy such unpaid claims or portions thereof, in the order that such claims or portions thereof were originally filed, plus accumulated interest at the rate of 4 percent a year.

10477. Any sums received by the commissioner pursuant to any provisions of this article shall be deposited in the State Treasury and credited to the Real Estate Education, Research and Recovery Fund, and said sums shall be allocated exclusively for the purposes provided in this article.

10478. It shall be unlawful for any person or the agent of any person to file with the Real Estate Commissioner any notice, statement, or other document required under the provisions of this article which is false or untrue or contains any willful, material misstatement of fact. Such conduct shall constitute a public offense punishable by imprisonment in the county jail for a period of not more than one year or a fine of not more than one thousand dollars ($1,000), or both.

10479. When, upon the order of the court, the commissioner has paid from the Real Estate Education, Research and Recovery Fund any sum to the judgment creditor, the commissioner shall be subrogated to all of the rights of the judgment creditor and the judgment creditor shall assign all his right, title and interest in the judgment to the commissioner and any amount and interest so recovered by the Real Estate Commissioner on the judgment shall be deposited to the fund.

10480. The failure of an aggrieved person to comply with all of the provisions of this article shall constitute a waiver of any rights hereunder.

10481. The bond referred to in Section 10472 shall be issued by an admitted corporate surety insurer approved by the commissioner and running to the commissioner and the Real Estate Education, Research and Recovery Fund of the State of California. The bond shall be conditioned that the applicant has complied with the provisions of this article and to guarantee court costs and reasonable attorney's fees required by the commissioner to defend the action. Recovery against said bond shall be authorized by the court if, after proceeding upon an application as provided herein, the court finds in favor of the commissioner on behalf of the Real Estate Education, Research and Recovery Fund.

10482. In lieu of the bond referred to in Section 10472, the applicant may post a cash bond in a like amount, or bonds

issued by the United States or the State of California in the principal amount of at least 15 percent in excess of that which would be required in cash; said cash or United States or California bonds shall be deposited with the court.

10483. Nothing contained herein shall limit the authority of the commissioner to take disciplinary action against any licensee for a violation of any of the provisions of the Real Estate Law, or of Chapter 1 of Part 2 of this division, or of the rules and regulations of the commissioner; nor shall the repayment in full of all obligations to the Real Estate Education, Research and Recovery Fund by any licensee nullify or modify the effect of any other disciplinary proceeding brought pursuant to the provisions of the Real Estate Law.

(1) The purpose of the contribution is to enable the citizens of the county to enjoy greater educational and cultural advantages.

(2) A substantial number of the residents of the county live within the reception area of the station.

(3) The station regularly broadcasts programs which have educational or cultural significance.

(4) The contribution is to the general funds of the station and not for or in connection with any particular program.

(5) The contribution is not accompanied, directly or indirectly, by any direction of, sponsorship of, control of, or restriction of any program or the content of any program.

This section does not in any way restrict the power of the board of supervisors to provide for expenditures for other authorized purposes including, but not limited to, the purposes specified in Sections 26100, 26103, 26106, 26152, or 26153.

CHAPTER 1433

An act to amend Section 9260 of, and to add Sections 8008 and 8009 to, the Vehicle Code, relating to reciprocity permits.

[Approved by Governor July 13, 1963. Filed with Secretary of State July 16, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 8008 is added to the Vehicle Code, to read:

8008. Whenever the commission has entered into agreements or arrangements regarding the administration and control of proportional registration in this State of fleets of vehicles registered in foreign states or jurisdictions which agreements or arrangements also grant registration reciprocity for vehicles from such states which are not included in fleets eligible for proportional registration, the commission may, by regulation, require that vehicles operated in this State under a claim of registration exemption by virtue of such reciprocity be identified by a reciprocity permit. Any reciprocity permit

regulation shall be administered by the department and shall be so designed as to enable the department to determine which vehicles operated in this State under such agreements or arrangements are validly entitled to reciprocal registration exemption. The *reciprocity permit*, when required, shall be carried in the cab of the motor vehicle for which it was issued or, if a nonmotor vehicle, may be carried thereon or in the cab of the vehicle supplying the motive power therefor. In default thereof the owner of the vehicle shall be guilty of a misdemeanor and the vehicle shall either be registered in this State or qualified under statutory provisions for temporary registration or trip permit.

Whenever the department has determined that a holder of a reciprocity permit or applicant therefor is not entitled to reciprocal registration exemption such permit shall either be canceled or the department shall refuse its issuance and vehicles of such permittee or applicant shall be required to comply with the vehicle registration laws of this State.

SEC. 2. Section 8009 is added to said code, to read:

8009. The commission may, by regulation, provide that any proportional registration applicant who is an authorized common carrier holding a certificate of public convenience and necessity issued by the United States Interstate Commerce Commission who is engaged in interchange of trailers to facilitate the through movement of freight under rules promulgated by said Interstate Commerce Commission may make application to the department to be permitted to operate interchanged trailers without adding such vehicles to his proportional registration application. Such permission shall not be granted by the department unless it is satisfied that an applicant is so qualified and that the permission to interchange equipment will not be used to augment or extend the operational privileges of any proportionally registered fleet without due payment therefor. To that end, each such permittee shall maintain records and shall upon annual renewal of fleet registration submit a report of the use of interchange trailers during the preceding year and make appropriate payment therefor as established by the commission in those cases where the annual average utilization of trailers exceeds the number of trailers for which registration is requested or where such utilization involves interchange with operations conducted exclusively within this State.

The department shall supply the commissioner of the California Highway Patrol with information identifying each applicant for which an interchange permit has been granted.

SEC. 3. Section 9260 of said code is amended to read:

9260. (a) The fee for a temporary registration issued under Section 4004 is one-tenth of the annual fees in Division 3 (commencing with Section 4000) of this code and Part 5 (commencing with Section 10701) of Division 2 of the Revenue

and Taxation Code, for each 30-day period that the vehicle is to be operated in this State.

(b) A fee of five dollars ($5) shall be paid for each reciprocity permit issued under Section 8008.

SEC. 4. Section 9260 of said code is amended to read:

9260. (a) The fee for a temporary registration issued under Section 4004 is one-tenth of the annual fees in Division 3 (commencing with Section 4000) of this code and Part 5 (commencing with Section 10701) of Division 2 of the Revenue and Taxation Code, for each 30-day period that the vehicle is to be operated in this State.

(b) The fee for a trip permit issued under Section 4004 is five dollars ($5) for each vehicle.

(c) A fee of five dollars ($5) shall be paid for each reciprocity permit issued under Section 8008.

SEC. 5. Section 4 of this act shall become operative only if the Section 9260 of the Vehicle Code as proposed by Senate Bill No. 1091 is enacted by the Legislature at its 1963 Regular Session, and in such case at the same time as Senate Bill No. 1091 takes effect, at which time Section 9260 of the Vehicle Code as amended by Section 3 of this act is repealed.

CHAPTER 1434

An act to amend Section 23618 of the Education Code, relating to the state colleges.

[Approved by Governor July 13, 1963. Filed with Secretary of State July 16, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 23618 of the Education Code is amended to read:

23618. The trustees may budget an amount to be expended in accordance with rules and regulations adopted by the State Board of Control for use in carrying out the community relation responsibilities of the president of each state college and of the chancellor, as defined by the trustees.

CHAPTER 1435

An act to authorize a loan from the California Water Fund to the Merced Irrigation District in connection with the Merced River Development, prescribing the terms and conditions upon which such loan shall be made, and making an appropriation therefor.

[Approved by Governor July 13, 1963. Filed with Secretary of State July 16, 1963.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature of the State of California finds that:

(a) The Board of Directors of Merced Irrigation District has over a period of years studied and investigated the feasibility of a proposed multipurpose project, including the proposed Bagby, New Exchequer and Snelling Dams and Reservoirs, for the further development, control and conservation of the water supply of the Merced River primarily for agricultural, flood control and power production purposes. Said project is designated by the district as the Merced River Development. This project involves the development of new basic water supplies which are a necessary and integral part of an overall water development without which the public health, safety and welfare may be jeopardized, both within the district and in adjoining areas subject to flooding by the Merced River.

(b) The State Water Rights Board of the State of California has duly authorized the issuance of permits to the district to appropriate and store water for the Merced River Development, and the district has applied to the Federal Power Commission for a permit to develop power from such water to assist in the payment of the cost of the Merced River Development.

(c) Full and adequate engineering reports, surveys, examinations and drawings have been prepared by Tudor Engineering Company, the Department of Water Resources of the State of California and the staff of the California Districts Securities Commission, from all of which full and adequate information has been obtained which is now available to or on file with the Department of Water Resources of the State of California covering all phases of the feasibility of the Merced River Development.

(d) The government of the United States has duly investigated the feasibility of the Merced River Development through the report of the Corps of Engineers and the Committee on Public Works of the Senate of the United States; and by Section 204 of the Flood Control Act of 1960 (Public Law 86-645) has authorized an appropriation of a currently estimated twelve million four hundred twenty thousand dollars ($12,420,000), and not exceeding nineteen million nine hundred thousand dollars ($19,900,000), to the Merced Irrigation District for the flood control benefits of said project.

(e) Merced Irrigation District duly called and held on June 20, 1961, an election for the issuance of revenue bonds in the principal amount of one hundred thirty million dollars ($130,000,000) for the purpose of financing the Merced River Development. Much more than a majority of the qualified electors of the Merced Irrigation District voting at said election voted in favor of the issuance of said revenue bonds. Said vote was 4,658 yes and 380 no. Said bonds were and now are duly authorized to be issued and sold in whole or in part for the purpose of financing the Merced River Development.

(f) The Merced River Development will be financed primarily by the above-mentioned bonds payable from revenues

received from the sale of electric power. The remainder of the cost will be covered by the above-mentioned flood control monetary contribution. However, since this federal flood control monetary contribution will not, under Section 204 of the Flood Control Act of 1960, be paid in advance, but will be paid as reimbursement for certain construction expenditures from time to time during the period of construction of the project, and since the Merced Irrigation District will be unable to market satisfactorily the revenue bonds without the amount of the federal flood control monetary contribution on hand, it is necessary for the district to obtain an authorization and a commitment for a loan as provided in this act. On the basis of a cash flow study recently completed by the Merced Irrigation District, it is estimated that the total amount which might be required from the State pursuant to a loan in the unlikely event that the federal government does not make the above-mentioned flood control monetary contribution in timely fashion, or in the full amount authorized, will not exceed eight million dollars ($8,000,000), and will not be required for expenditure until the 1966-67 and 1967-68 fiscal years. If the federal government makes said contribution in timely fashion, and in the full amount authorized, no money from the State will be required.

SEC. 2. The sum of eight million dollars ($8,000,000) is hereby appropriated from the California Water Fund to the Department of Water Resources for expenditure in making a loan to the Merced Irrigation District of such amount as may be needed by the district, but not exceeding the amount of eight million dollars ($8,000,000), for use in assisting in the financing of the Merced River development. Such loan shall be made pursuant to a contract between the Department of Water Resources and the Merced Irrigation District authorizing such loan, which contract shall be subject to approval by the Department of Finance and the California Districts Securities Commission. Money authorized to be loaned under such contract shall be available for advance to the district, if needed, at the time upon which the district shall deliver its first series of revenue bonds, in such amounts as may be required, together with the proceeds of said bonds, to assure payment of all project costs then approved by the California Districts Securities Commission; provided, that in no event shall said loan be made to the district until the district has entered into a contract with the United States pursuant to Section 204 of the Flood Control Act of 1960 (Public Law 86-645). Nothing herein contained shall prevent further advances within the limit of the maximum herein authorized, if required to meet additional project costs approved by the California Districts Securities Commission. Such advances shall be made in accordance with terms and conditions specified in the contract authorizing the loan. Money received by the district under such loan shall be expended by it only upon expenditure orders made by the California Districts Securities Commission.

The Department of Water Resources shall require the payment of interest on each advance made to the district at a rate equal to the net interest cost to the State on the last sale of general obligation bonds of the State that occurred prior to the time the advance was made; provided, that when the applicable net interest cost to the State is in a multiple of one-quarter of 1 percent, the interest rate on the loan shall be at the multiple of one-quarter of 1 percent next above the applicable net interest cost.

SEC. 3. The terms and conditions upon which said loan shall be made to Merced Irrigation District are hereby prescribed by the Legislature as follows:

(a) No additional feasibility report or other reports shall be required as a condition to the making of such loan.

(b) No additional election shall be required to be held in the Merced Irrigation District to authorize the execution of the contract for the loan hereby authorized.

(c) Merced Irrigation District need not take any action nor do any thing to qualify for the loan herein authorized other than to enter into a contract with the Department of Water Resources for the determination of the amount of the loan.

(d) Advances made to the Merced Irrigation District under said loan shall be secured, as to both principal and interest, by the moneys received by the Merced Irrigation District under flood control appropriations made pursuant to Public Law 86-645 and the Merced Irrigation District shall apply such receipts exclusively to the repayment of advances made under the loan herein authorized. After full payment of advances made under the loan herein authorized has been made the Merced Irrigation District may keep and retain any additional flood control appropriations for its own uses and purposes.

(e) In the event that the federal government does not make the flood control monetary contribution currently authorized in whole or in part, and, as a result thereof, the Merced Irrigation District does not have sufficient funds to repay the principal and interest on advances made under the loan herein authorized, the district shall be obligated to repay such principal and interest to the State, and the terms and conditions of such repayment shall be as specified in a supplemental contract thereafter to be entered into between the district and the Department of Water Resources and approved by the Department of Finance and the California Districts Securities Commission.

(f) The Department of Water Resources shall include such further terms and conditions in the contract with the Merced Irrigation District as may be determined to be necessary or desirable to implement the provisions of this act.

(g) All funds received by the Department of Water Resources in repayment of the principal and interest on advances made to the district under the loan herein authorized shall be deposited in the California Water Fund.

CHAPTER 1436

An act to amend Section 18810 of the Financial Code, relating to industrial loan companies.

[Approved by Governor July 13, 1963. Filed with Secretary of State July 16, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 18810 of the Financial Code is amended to read:

18810. Each industrial loan company shall pay to the commissioner in advance its pro rata share of all costs and expenses, reasonably incurred in the administration of this division, as estimated by the commissioner for the ensuing year. The pro rata share shall be the proportion which a company's assets bear to the aggregate assets of all companies as shown by the latest annual reports of such companies to the commissioner. The pro rata share shall not include the costs of annual or special examinations provided for in Sections 18808 and 18809, unless they cannot be collected from the company examined.

Upon payment of such assessment, and if the company is otherwise in compliance with the requirements of this division with respect to the doing of business, the commissioner shall issue to the company an annual license, authorizing the company, subject to the provisions of this division, to transact business for the ensuing year. Said license is subject to revocation or modification for any of the reasons and upon the same terms and conditions as the authority of the company to transact business may be revoked or modified by the commissioner for cause according to the provisions of this division.

Upon receiving a written request for such withdrawal or exchange, and satisfactory proof of the facts warranting the same, the commissioner shall forthwith deliver to the State Treasurer a written order directing the withdrawal or exchange of such securities so as to conform with the provisions of this section. The State Treasurer shall comply with such written order. One year from the date of such notice to the commissioner, if the commissioner is satisfied with the compliance with the terms of this chapter, he shall notify the State Treasurer and the State Treasurer shall return to the trading stamp company all of the money or securities deposited by it.

SEC. 10. Section 17766 of said code is amended to read:

17766. If a company fails to redeem any of its trading stamps, any rightful holder of such trading stamps may file a complaint with the commissioner within three months after such failure to redeem. The presentation of unredeemed stamps of a minimum cash redemption value of one dollar ($1) to the commissioner shall be sufficient to constitute the filing of a complaint. The complaint shall be accompanied by the unredeemed stamps.

Upon the filing of any complaint or complaints involving the alleged failure of a trading stamp company to redeem trading stamps, the commissioner shall request the trading stamp company in writing by certified mail, mailed to the company's last address of record with the commissioner, to redeem the trading stamps in cash on or before 10 days from the date on which the request is mailed.

If the amount demanded is paid, the commissioner shall make an equitable distribution of the amount to the persons who filed pursuant to this section, and shall forthwith forward the redeemed stamps to the trading stamp company.

SEC. 11. Section 17766.1 is added to said code, to read:

17766.1. If the trading stamp company fails to redeem the trading stamps within the specified time, the commissioner shall publish notice of such fact in three consecutive publications of one or more newspapers of general circulation published in the Cities of Sacramento, San Francisco and Los

Angeles, and therein advise that any additional claim may be filed with him, together with the trading stamps upon which the claim is based, within three months after the date of the first such publication. The presentation of unredeemed stamps of a minimum cash redemption value of one dollar ($1) to the commissioner shall be sufficient to constitute the filing of a claim. Merchants in possession of trading stamps for issuance to their customers, or trading stamps which they have redeemed for their customers if such redemption is accomplished in accordance with Section 17761, shall also be deemed rightful holders entitled to make such claims. If any person fails to file a claim with the commissioner within such three months period, the commissioner shall thereupon be relieved of further duty or action hereunder on behalf of such person until such time as complaints involving the alleged default of the trading stamp company to redeem trading stamps have been again filed with the commissioner.

The publication shall also give notice of the time and place that the commissioner will hold a hearing to consider any evidence concerning the alleged default of the trading stamp company.

Within 30 days after the expiration of the claim period prescribed in this section, the commissioner shall notify the trading stamp company in writing by certified mail, mailed to the company's last address of record with the commissioner, and, if a bond has been filed, the surety on company's bond in writing by certified mail, mailed to the address shown on the bond inviting it to appear at a hearing before the commissioner to present any relevant evidence concerning the trading stamp company's alleged failure to redeem the trading stamps.

SEC. 12. Section 17766.2 is added to said code, to read:

17766.2. If at the hearing provided for in Section 17766.1, which may be held at any time after 20 days from the date notification is mailed, the commissioner finds that the trading stamp company has defaulted in the redemption of its trading stamps, the commissioner shall demand cash payment from the company in an amount sufficient to satisfy all valid claims filed with him.

If the amount demanded is paid within 10 days of the making of the demand, the commissioner shall make an equitable distribution of the amount to persons who filed pursuant to Sections 17766 and 17766.1 and shall forthwith forward the redeemed stamps to the trading stamp company.

If the amount demanded is not paid within 10 days of the making of the demand, the commissioner may bring an action in a court of competent jurisdiction against the trading stamp company and its surety to recover, on behalf of the complainants, the value of the unredeemed stamps. If no surety bond has been filed, the commissioner may bring such an action in

a court of competent jurisdiction against the trading stamp company and, if necessary, name the State Treasurer to provide for the release of the money or securities on deposit with him.

SEC. 13. Section 17766.3 is added to said code, to read:

17766.3. The costs incurred by the commissioner in performing the duties set forth in Sections 17766, 17766.1, and 17766.2 shall constitute a proper charge against the trading stamp company which has defaulted, or, in the event of the trading stamp company's failure to pay, against the bond filed by that company or if no bond is filed against the money or securities filed with the State Treasurer. The costs shall constitute a prior claim against such company, the bond, or the money or securities filed with the State Treasurer, except that in no event shall the surety be liable for such charge and all other valid claims as an aggregate in excess of the principal sum of the bond.

SEC. 14. Section 17766.4 is added to said code, to read:

17766.4. Any person who willfully files a false claim with the commissioner against a trading stamp company is guilty of a misdemeanor.

SEC 15. Section 17768 of said code is amended to read:

17768. In the event that any trading stamp company should cease to comply with the provisions of Section 17765, or should fail to deposit the additional money or securities with the State Treasurer as may be required by the commissioner under the provisions of Section 17765.4, the license and all rights, powers, and privileges conferred by it to the company shall be automatically suspended.

SEC. 16. Section 17773 of said code is repealed.

SEC. 17. Section 17773 is added to said code, to read:

17773. The principal sum of the bond required by this chapter shall be fifteen thousand dollars ($15,000) for each one hundred thousand dollars ($100,000), or fraction thereof, of the company's gross income from the trading stamp business in this State in the company's last fiscal year, except that:

(a) If the company has not previously done business as a trading stamp company in this State, or if the gross income from said business was less than sixty-five thousand dollars ($65,000) during its last fiscal year, the principal sum shall be ten thousand dollars ($10,000).

(b) The maximum bond required to be filed under any circumstances shall be one hundred fifty thousand dollars ($150,000).

SEC 18. Sections 16 and 17 of this act shall become operative on July 1, 1964.

The pump or water pressure required in this section shall be capable of applying a minimum of 40 pounds pressure at the nozzle on 200 feet of hose, such nozzle to be one-fourth inch or larger in diameter. Where two steam-operated engines or steam equipment are customarily operated within 100 feet of each other, only one engine or piece of equipment need be equipped with pump and hose; provided, however, that the provisions of this section shall not apply to internal combustion engines nor to steam or other locomotives being used in the business of a common carrier by railroad. These requirements are applicable during the time of the year and in those areas where and when burning permits are required as provided for in this article.

SEC. 4. Section 4158 of said code is amended to read:

4158. No person, copartnership, firm, corporation, or company, shall use or operate any gasoline-powered saw on or near any forest- or brush-covered land, unless such saw is operated at least 50 feet from any flammable material, without providing and maintaining at locations of use or operation of said equipment, for firefighting purposes, one serviceable fire extinguisher or, in lieu thereof, one serviceable shovel. These requirements are applicable during the time of the year and in those areas where and when burning permits are required as provided for in this article.

SEC. 5. Section 4161 of said code is repealed.

SEC. 6. Section 4165 of said code is amended to read:

4165. Outside the exterior boundaries of incorporated cities every processor of forest products shall exercise due diligence in the disposal of flammable material incident to such processing, so that said material does not cause the inception or spread of uncontrolled fire. Every person, copartnership, firm, corporation or company operating a sawmill or plant engaged in the processing or converting of forest products into lumber, shook, ties, poles, posts, veneer, shakes, shingles, planed or milled products, shall dispose of flammable material incident to such operation. Whenever such flammable material is not to be used as fuel, or as a byproduct of the operation, it shall be disposed of by burning. Such disposal of waste flammable material shall be made by means of fire in any of the following ways:

(1) In an enclosed device effective in preventing the spread of sparks or fire, situated in an area cleared of grass, grain, brush, slash, litter and snags for a distance of 100 feet surrounding the device.

(2) In an area which is cleared of grass, grain, brush, slash, litter, snags and forest cover for a distance of 400 feet from the periphery of said fire and for any greater distance necessary to provide 100 feet of such cleared area around any lumber pile or structure which may be situated within 400 feet of the said fire; except that living trees beyond 100 feet from the periphery of the fire may be left standing within the area if all limbs within 10 feet of the ground are removed. Said disposal by fire in the cleared area shall be the responsibility of the operator or landowner or jointly and shall be in conformance with the provisions of Section 4153 of this code and all other provisions of law.

(3) Waste flammable material may be accumulated in a pile which shall be disposed of by fire at a date not later than the following April 1st after the beginning of the accumulation of such waste material and at a time when weather and the condition of surrounding vegetation are favorable to preventing the spread of fire; provided, however, at all times for the duration of the accumulation, the area surrounding such piles shall be cleared and kept clear of all inflammable vegeta-

tion and debris, including trees, snags, brush, grass, slash, and litter by either of the following methods: (a) to a distance of 150 feet from the periphery of the piles of waste material and all structures and lumber piles which are situated within 50 feet of said waste material piles, or (b) by a similar clearing surrounding the said waste material piles and said structures and lumber piles for a distance of 100 feet; provided, there shall also be kept and maintained at all times a firebreak 10 feet or more in width cleared of all flammable material and constructed in a continuous line surrounding the accumulation at a distance of not less than 50 feet nor more than 300 feet from the periphery of the clearing surrounding the accumulation, and; provided further, that all snags and dead trees between the firebreak and the periphery of the clearing shall be felled. Said disposal by fire shall be a responsibility of the operator or landowner or jointly and shall be made in conformance with Section 4153 of this code and all other provisions of law.

Any accumulation of waste material in violation of the provisions of this section is a public nuisance. Every person, copartnership, firm, corporation, or company that permits or allows such public nuisance to exist upon property owned, occupied, or leased by him, or it, after reasonable notice in writing from the State Forester, or the district attorney, to remove, discontinue, or abate such nuisance, has been served upon him or it, is guilty of a misdemeanor, and the existence of such nuisance for each and every day after the date specified in such notice for removal, discontinuance, or abatement is a separate and distinct offense.

4167. No person, copartnership, firm, corporation, or company shall use or operate in or on any forest-, brush-, or grass-covered land constituting flammable vegetation, any engine, machine, equipment, or any steam, oil, diesel or gasoline-operated stationary or mobile equipment from which a spark or fire may originate unless such equipment is provided with an effective device or spark arrester as a part of the exhaust system which will prevent the escape of fire or sparks, and unless such person uses every reasonable precaution to prevent the causing of fire thereby. Motor trucks and passenger-carrying motor vehicles are not subject to the provisions of this paragraph.

Provided, further, that all mobile equipment, including trucks, tractors, bulldozers and other mobile equipment engaged in lumbering, logging, and other industrial operations in any forest-, brush-, grass- or grain-covered land, shall also be equipped with and carry at all times a serviceable shovel for use in the prevention and suppression of fire, except that mobile equipment used in the business of a common carrier by railroad does not have to be equipped with or to carry a shovel

for use in the prevention and suppression of fire. These requirements are applicable during the time of the year and in those areas where and when burning permits are required as provided for in this article.

CHAPTER 1468

An act to amend Sections 595 and 1054.1 of the Code of Civil Procedure, relating to continuances in judicial and administrative proceedings.

[Approved by Governor July 13, 1963. Filed with Secretary of State July 16, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 595 of the Code of Civil Procedure is amended to read:

595. The trial of any civil action, or proceeding in a court, or of any administrative proceeding before a state board or commission or officer, irrespective of the date of the filing thereof or when it became at issue, or the hearing of any motion, demurrer, or other proceeding, shall be postponed when it appears to the court, board, commission, or officer before which such action or proceeding is pending that either a party thereto, or any attorney of record therein (whether he became an attorney of record before or after the commencement of a legislative session or before or after his appointment to a legislative committee), or a principal witness, is a Member of the Legislature of this State and that the Legislature is in session or in recess (not exceeding a recess of forty (40) days) or that a legislative interim committee of which he is a duly appointed member is meeting, or is to meet within a period which the court finds does not exceed the time reasonably necessary to enable the member to reach the committee meeting by the ordinary mode of travel. When the Legislature is in session or in recess such action or proceeding shall not, without the consent of the attorney of record therein, be brought on for trial or hearing before the expiration of thirty (30) days next following final adjournment of the Legislature or the commencement of a recess of more than forty (40) days. If a date is available during recess, continuance shall be given if possible to such earlier date. When a legislative com-

mittee is meeting or is to meet within a period which the court finds does not exceed the time reasonably necessary to enable the member to reach the committee meeting by the ordinary mode of travel, such action or proceeding shall not, without the consent of the attorney of record therein, be brought on for trial or hearing before the expiration of such period necessary following the adjournment or recess of the committee meeting as the court finds is reasonably necessary to enable the member to reach the place of trial or hearing by the ordinary mode of travel from the place of the committee meeting, unless at the expiration of that period the Legislature is to be in session; and in that case the action or proceeding shall not, without such consent, be brought on for trial or hearing before the expiration of thirty (30) days next following final adjournment or the commencement of a recess of more than forty (40) days. If a date is available during the recess, continuance shall be given to such earlier date. However, any postponement granted under the provisions of this paragraph shall suspend for the same period of time as the postponement, the running of any period of time for any ruling or proceeding by a court, board, commission, or officer, or for the performance by any party of any act affected by said postponement.

A motion to postpone a trial on the ground of the absence of evidence can only be made upon affidavit showing the materiality of the evidence expected to be obtained, and that due diligence has been used to procure it. The court may require the moving party, where application is made on account of the absence of a material witness, to state upon affidavit the evidence which he expects to obtain; and if the adverse party thereupon admits that such evidence would be given, and that it be considered as actually given on the trial, or offered and overruled as improper, the trial must not be postponed.

In all cases, the court shall postpone a trial, or the hearing of any motion or demurrer, for a period not to exceed thirty (30) days, when all attorneys of record of parties who have appeared in the action agree in writing to such postponement.

In actions involving the title to mining claims, or involving trespass for damage upon mining claims, if it be made to appear to the satisfaction of the court that, in order that justice may be done and the action fairly tried on its merits, it is necessary that further developments should be made, underground or upon the surface of the mining claims involved in such action, the court shall grant the postponement of the trial of the action, giving the party a reasonable time in which to prepare for trial and to do said development work.

SEC. 2. Section 1054.1 of said code is amended to read:

1054.1. When an act to be done in any action or proceeding in any court of this State or before any state administrative agency, as provided by law or rule, relates to the pleadings in the action, or the undertakings to be filed, or

the justification of sureties, or the preparation of bills of exceptions, or of amendments thereto, or to the service of notices other than of appeal and of intention to move for a new trial, the time allowed therefor, unless otherwise expressly provided, shall be extended by the judges of the court or by the agency in which the action or proceeding is pending, or by the judge who presided at the trial of said action, when it appears to the judge of any court or to the agency to whom such application is made that an attorney of record for the party applying for such extension is a Member of the Legislature of this State, and that the Legislature is in session or in recess not exceeding a recess of forty (40) days or that a legislative committee of which he is a duly appointed member is meeting or is to meet within a period which the court or agency finds does not exceed the time reasonably necessary to enable the member to reach the committee meeting by the ordinary mode of travel. When the Legislature is in session or in recess, extension shall be to a date not less than thirty (30) days next following the final adjournment of the Legislature or the commencement of a recess of more than forty (40) days. If a date is available during recess, extension shall be to such earlier date. When a legislative committee is meeting or is to meet within a period which the court or agency finds does not exceed the time reasonably necessary to enable the member to reach the committee meeting by the ordinary mode of travel, extension shall be for such period as the court or agency finds will be reasonably necessary to enable the member to perform the act to be done in the action or proceeding, unless said extension would expire when the Legislature is to be in session; and in that case the extension shall be to a date not less than thirty (30) days following the final adjournment of the Legislature or the commencement of a recess of more than forty (40) days. If such act may be reasonably done by the member within such recess, continuance shall be to such earlier date. However, any postponement granted under the provisions of this section shall suspend for the same period of time as the postponement, the running of any period of time for any ruling or proceeding by a court, board, commission, or officer, or for the performance by any party of any act affected by said postponement.

Whenever any public or private corporation, board or association in this State has entered into an agreement for and holds a policy in any county mutual insurer operating under this chapter, any officer, stockholder or trustee of any such corporation, board or association may be recognized as acting for or on its behalf for the purpose of such membership, but shall not be personally liable upon such contract of insurance by reason of acting in such representative capacity. The right of any corporation organ-

ized under the laws of this State to participate as a member of such county mutual insurer is hereby declared to be incidental to the purpose for which such corporation is organized and as much granted as the rights and powers expressly conferred.

SECTION 1. Title 3A is added to Part 2 of the Code of Civil Procedure, to read:

TITLE 3A. VEXATIOUS LITIGANTS

391. As used in this title, the following terms have the following meanings:

(a) "Litigation" means any civil action or proceeding, commenced, maintained or pending in any court of this State.

(b) "Vexatious litigant" means any person:

(1) Who, in the immediately preceding seven-year period has commenced, prosecuted or maintained in propria persona at least five litigations other than in a small claims court that have been (i) finally determined adversely to him; or (ii) unjustifiably permitted to remain pending at least two years without having been brought to trial or hearing; or

(2) Who, after a litigation has been finally determined against him, repeatedly relitigates or attempts to relitigate, in propria persona, either (i) the validity of such determination against the same defendant or defendants as to whom the litigation was finally determined or (ii) the cause of action, claim, controversy, or any of the issues of fact or law, determined or concluded by such final determination against the same defendant or defendants as to whom the litigation was finally determined.

(c) "Security" means cash, undertaking by a surety, or other security, of such nature and in such amount as may be fixed by the court, to assure payment, to the party for whose benefit such security is required to be furnished, of such party's reasonable expenses, including attorney's fees and not limited to taxable costs, incurred in or in connection with a litigation instituted, caused to be instituted, or maintained or caused to be maintained by a vexatious litigant.

(d) "Plaintiff" means the person who commences, institutes or maintains a litigation or causes it to be commenced, instituted or maintained.

(e) "Defendant" means a person (including corporation, association, partnership and firm) against whom a litigation is brought or maintained or sought to be brought or maintained.

In any litigation, at any time within 30 days after service of summons or other and equivalent process upon him, a defendant may move the court, upon notice and hearing, for an order requiring the plaintiff to furnish security. The motion must be based upon the ground, and supported by a showing, that the plaintiff is a vexatious litigant and that there is not a reasonable probability that he will prevail in the litigation against the moving defendant.

391.2. At the hearing upon such motion the court shall consider such evidence, written or oral, by witnesses or affidavit, as may be material to the ground of the motion. No determination made by the court in determining or ruling upon the motion shall be or be deemed to be a determination of any issue in the litigation or of the merits thereof.

391.3. If, after hearing the evidence upon the motion, the court determines that the plaintiff is a vexatious litigant and that there is no reasonable probability that he will prevail in the litigation against the moving defendant, the court shall order the plaintiff to furnish, for the benefit of such moving defendant, security of such nature, in such amount, and within such time, as the court shall fix. The amount of such security may thereafter from time to time be increased or decreased in the court's discretion upon a showing that the security provided has or may become inadequate or excessive.

391.4. When security that has been ordered furnished is not furnished as ordered, the litigation shall be dismissed as to the defendant for whose benefit it was ordered furnished.

391.5. Upon the termination of the litigation the defendant shall have recourse to the security in such amount as the court shall determine.

391.6. When a motion pursuant to Section 391.1 is filed the litigation is stayed, and the moving defendant need not plead, until 10 days after the motion shall have been denied, or if granted, until 10 days after the required security has been furnished and the moving defendant given written notice thereof.

During said thirty (30) days, and, if request for hearing be filed until the termination of such proceeding, the insurer may continue the use of the underwriter's name and the issuance of policies thereunder provided timely renewal application has been filed and the filing fee paid.

The grant of tide and submerged lands to the Crescent City Harbor District made by this act shall not affect the terms of any franchise or lease presently in effect or any extensions of a lease now provided for in an existing lease.

(b) That said lands shall be improved by said district without expense to the State, and shall always remain available for public use for all purposes of commerce and navigation, and the State of California shall have at all times, the right to use, without charge, all wharves, docks, piers, slips, quays, and other improvements and facilities constructed on said lands, or any part thereof, for any vessel or other water or aircraft, or railroad, owned or operated by the State of California.

without expense to the State, and if the State Lands Commission determines that the district has failed to improve said lands as herein required, all right, title, and interest of said district in and to all lands granted by this act shall cease and said lands shall revert and rest in the State.

SEC. 2. If any provision of this act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 3. Nothing contained in this act shall preclude the district from accepting and retaining any grant of funds from the State made available for the purpose of aiding in the development of said lands for any public purpose not inconsistent with the promotion and accommodation of commerce and navigation, or shall preclude the State from expending funds for the purpose of aiding in such development.

An act to amend Section 3 of the Municipal Water District Act of 1911, and to amend Sections 71121 and 71162 as added to the Water Code by Senate Bill No. 15, relating to municipal water districts.

[Approved by Governor July 13, 1963. Filed with Secretary of State July 16, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 3 of the Municipal Water District Act of 1911 is amended to read:

Sec. 3. A petition, which may consist of any number of separate instruments, shall be filed with the county clerk of the county in which the proposed municipal water district is located, signed by voters equal in number to at least 10 per centum of the voters registered within the boundaries of the proposed district 30 days prior to the date the petition is filed; provided, that where one or more cities are included in such proposed district, such petition must be signed by at least 10 per centum of the voters of each such city registered to vote 30 days prior to the date the petition is filed. Such petition shall set forth and describe the boundaries of such proposed district, and shall contain a prayer that such proposed district be incorporated under the provisions of this act.

Within 10 days of the date of the filing of such petition, the county clerk shall examine the same and ascertain whether or not said petition is signed by the requisite number of voters; and if requested by the county clerk, the board of supervisors shall authorize him to employ persons specially for that purpose, in addition to the persons regularly employed in his office, and shall provide for their compensation. When the county clerk has completed his examination of the petition, he shall attach to the same his certificate, properly dated, showing the result of such examination; and if from such examination he shall find that said petition is signed by the requisite number of voters residing within the boundaries of such proposed district, and within the boundaries of each city included

therein, or is not so signed, he shall certify that the same is sufficient or insufficient, as the case may be.

If by the certificate of the county clerk the petition is found to be insufficient, he shall also certify to the number of voters required to make such petition sufficient, and it may be amended by filing a supplemental petition or petitions within 10 days from the date of such certificate. The county clerk shall, within 10 days after the filing of such supplemental petition or petitions, make like examination of the same and certify to the result of such examination as hereinbefore provided.

If his certificate shall show any such petition, or such petition as amended, to be insufficient, it shall be filed by him with the board of supervisors and kept as a public record, without prejudice, however, to the filing of a new petition to the same effect. But if, by the certificate of the county clerk, such petition, or such petition as amended, is shown to be sufficient, the county clerk shall present the same to the board of supervisors without delay.

If any supplemental petition be filed, all the signatures appended to the petition and to the supplemental petition or petitions shall be considered in determining the number of voters signing the petition.

After an election for the incorporation of such proposed district the sufficiency of such petition in any respect shall not be subject to judicial review or be otherwise questioned.

If the county in which such proposed district is located shall have a registrar of voters other than the county clerk, upon the filing of the petition herein mentioned with the county clerk, he shall forthwith deliver the same to such registrar of voters, who shall perform the duties herein required to be performed by the county clerk respecting the examination and certification of such petition; and said registrar of voters shall return said petition, immediately upon the completion of such examination, together with his certificate showing the result of such examination, to the county clerk, who shall thereupon present such petition, together with the certificate of the registrar of voters attached thereto to the board of supervisors.

When such petition is presented, the board of supervisors shall make an order dividing the district into five divisions, according to and based upon the population as estimated by the board of supervisors from the register of voters used at the last general election, in such manner as to equalize, as nearly as practicable, the population in the respective divisions. Such divisions shall be numbered first, second, third, fourth, and fifth, and one director, who shall be a resident thereof, shall be elected for each division by the voters thereof and shall take office as hereinafter provided.

When such order dividing the proposed district into five divisions is made, the board of supervisors shall call and provide for the holding of an election to be held in said proposed

district for the purpose of determining whether or not the same shall be incorporated and for the purpose of electing the first board of directors if the district is incorporated. The date of the election shall be not less than 90 days nor more than 120 days from the date of adoption of the resolution or ordinance calling the election. The notice of such election shall describe the boundaries of the proposed district and of the divisions thereof as so established and shall state the proposed name of the proposed district (which name shall contain the words "_____ Municipal Water District"), and shall state that the first directors will be elected at such election, who shall take office if the district is incorporated, and shall set forth the names of the candidates for the offices of directors from the respective divisions. Such notice of election shall be published once, not less than one week and not more than four weeks prior to such election in at least one, but not to exceed three newspapers printed and published in said county.

At such election the first directors shall be elected and the following measure shall be submitted: "Shall the proposition to organize _____ Municipal Water District under the Municipal Water District Act of 1911 as amended, be adopted?" The candidates shall declare their candidacy and shall be nominated, the election shall be held and conducted, the vote canvassed, the result declared and the certificates of election issued in accordance with the provisions of the Elections Code, so far as they may be applicable, except as in this act otherwise provided. No person shall be entitled to vote at any election under the provisions of this act unless such person possesses all the qualifications required of voters under the Elections Code. For purposes of this election the board of supervisors may consolidate election precincts of one or more divisions.

Within seven days after such election the vote shall be canvassed by the board of supervisors. If a majority of the votes cast at such election shall be in favor of organizing such municipal water district, said board shall by an order entered on its minutes declare the territory included within the proposed boundaries duly organized as a municipal water district under the name theretofore designated, and the county clerk shall immediately cause to be filed with the Secretary of State and shall cause to be recorded in the office of the county recorder of the county in which said district is situated, each, a certificate stating that such a proposition was adopted. If a majority of the votes cast at such election are in favor of organizing such district, the persons voted for as directors who received the highest number of votes within the respective divisions shall be duly elected as directors of the district.

Upon the receipt of such last-mentioned certificate the Secretary of State shall, within 10 days, issue his certificate reciting that the municipal water district (naming it) has been

duly incorporated according to the laws of the State of California. A copy of such certificate shall be transmitted to and filed with the county clerk of the county in which such municipal water district is situated. From and after the date of filing said certificate with the Secretary of State, the district named therein shall be deemed incorporated as a municipal water district, with all the rights, privileges and powers set forth in this act, and necessarily incident thereto.

In case less than a majority of the votes cast are in favor of said proposition the organization fails, but without prejudice to renewing proceedings at any time after six months from date of said election.

SEC. 2. Section 71121, as added to the Water Code by Senate Bill No. 15, is amended to read:

71121. The formation petition shall be signed by voters equal in number to at least 10 per centum of the voters registered within the boundaries of the proposed district 30 days prior to the date the petition is filed. If one or more cities are included in the proposed district, the formation petition shall, in addition, be signed by at least 10 percent of the voters of each such city registered to vote 30 days prior to the date the petition is filed.

SEC. 3. Section 71162, as added to the Water Code by Senate Bill No. 15, is amended to read:

71162. The formation election shall be held not less than 90 days nor more than 120 days from the date of adoption of the resolution or ordinance calling the election.

For purposes of this election the board of supervisors may consolidate election precincts of one or more divisions.

SEC. 4. Sections 2 and 3 of this act shall become operative only if Senate Bill No. 15 is enacted by the Legislature at its 1963 Regular Session, and in such case at the same time as Senate Bill No. 15 takes effect; at which time Section 3 of the Municipal Water District Act of 1911 as amended by Section 1 of this act is repealed.

It also includes all real and personal property, assets, cash or other funds held or used in connection with the acquisition, operation, or disposition of a farm labor center.

36056. Any housing authority may adopt a resolution stating the need for and, with the concurrence of the local governing body, may acquire through purchase or gift any farm labor center within its area of operation and own, operate, construct, reconstruct, repair, replace, maintain, and dispose of such centers pursuant to this part.

36057. Every housing authority shall have all the powers necessary or convenient to carry out the purposes of this part, including the powers granted by this part and any other provision of law. It is the purpose and intent of this part to do any and all things necessary or desirable to secure the financial aid or co-operation of the federal government in the undertaking, construction, maintenance, operation, or financing of any farm labor center.

36058 Within its area of operation and with reference to farm labor centers, a housing authority may arrange and contract for the furnishing by any person or agency, public or private, of services, privileges, works, or facilities for or in connection with its farm labor center, and notwithstanding anything to the contrary contained in this part or in any other provision of law, may include in any contract let in connection with a farm labor center, stipulations requiring that the contractor and any subcontractors comply with requirements as to minimum wages and maximum hours of labor.

36059. Within its area of operation, and with reference to farm labor centers, a housing authority may:

(a) Own, hold, and improve real or personal property.

(b) Purchase, lease, obtain options upon, acquire by gift, bequest, devise, or otherwise, any real or personal property or any interest therein.

(c) Accept grants from any person or agency, public or private.

(d) Borrow money and pledge any property, real or personal, as security.

(e) Contract with any person or agency, public or private, with regard to operation of the farm labor centers.

(f) Sell, lease, exchange, transfer, assign, purchase, or dispose of any real or personal property or interest therein.

(g) Insure or provide for the insurance of any real or personal property or operations of any farm labor centers against any risks or hazards.

(h) Employ such officers and employees, permanent and temporary, as may be required, determine their qualifications, duties and compensation, and delegate to one or more of them

such powers or duties as may be necessary for the acquisition of any farm labor center.

(i) Acquire any real property by eminent domain after adopting a resolution declaring that the acquisition of the real property is necessary for the purposes of the housing authority.

(j) Lease or rent any dwellings, accommodations, lands, buildings, structures, or facilities embraced in any farm labor center, and, subject to the requirements for occupancy contained in this part, establish the rents and charges therefor.

36060. It is hereby declared to be the policy of the State that each housing authority shall manage and operate its farm labor centers in an efficient manner and that it shall establish the rentals for dwelling at rents sufficient to cover costs of operation and maintenance, including amounts necessary for payments in lieu of taxes and creation of necessary reserves, and the payment of currently maturing installments of principal and interest on any indebtedness incurred in connection with the acquisition, construction, or improvement of such farm labor center.

36061. Each housing authority shall establish reserves which it determines to be reasonable for the maintenance, improvement, and expansion of the farm labor center and its eventual disposition.

36062. Each housing authority shall admit to occupancy in a farm labor center only single persons and families whose principal source of income is derived from agricultural work and employees of the authority whose residence on the center is necessary to its efficient operation; and such persons, families, and employees, if they qualify for admission under these standards, may be admitted to such occupancy without regard to whether or not they have low incomes. "Agricultural work" means work performed on a farm or in the handling, packing, processing, freezing, canning, or shipping of agricultural produce of the immediate area.

36063. A farm labor center is declared to be public property used for essential public and governmental purposes and is for a public use and purpose and involves a governmental function of state concern. As a matter of legislative determination, it is hereby found and declared that the properties involved in farm labor centers are of such character and shall be exempt from taxation. A housing authority may make payments in lieu of taxes out of revenues of such farm labor center to the taxing bodies, except that in no event shall such payments in lieu of taxes to any taxing body exceed in any year the amount which would be received by the taxing body in taxes from the farm labor center if the farm labor center were privately owned and subject to taxation, provided that no such payments shall be made which will result in reducing reserves below the established maximum.

36064. A housing authority may borrow money from private sources, the state, county, or federal government, and issue its notes and encumber its assets as security by means

of deeds of trust. The obligation of the authority is limited to the security on the deed of trust.

36065. The members of the housing authority, or any person executing a note authorized by this part, shall not be liable personally on any such note by reason of the issuance thereof hereunder.

36066. Any farm labor center may be disposed of in whole or in part by the housing authority after the commissioners of the housing authority determine by resolution with the concurrence of the local governing body that the need for the operation of the housing, or any part thereof, pursuant to the provisions of this part, no longer exists.

36067. Every acquisition of, transfer to, and contract for the acquisition of, a farm labor center or part thereof by a housing authority from the federal government and the operation and disposal of such farm labor center by the housing authority heretofore completed, executed, made, or done, which acquisition, operation, or disposal of a farm labor center conforms to the requirements of this part is hereby validated, confirmed, ratified and declared legally effective, and all acts and proceedings heretofore taken by or on behalf of any housing authority for such acquisition, contract for the acquisition, or the operation or disposal of a farm labor center are hereby confirmed, validated and declared legally effective. This part shall be construed to supply such legislative authorization as might have been necessary to authorize such acquisition, contract for acquisition, operation, or disposal of a farm labor center by a housing authority.

36068. Anything in this part to the contrary notwithstanding, any farm labor center heretofore or hereafter acquired by a housing authority as a low rent housing project in accordance with the provisions of Article XXXIV of the Constitution of the State of California and following an election held for that purpose in the manner provided in that article, shall be deemed to be a "housing project" as defined by Section 34212 of this code and shall be operated by the housing authority so acquiring the same under and pursuant to the Housing Authorities Law of the State of California, and shall not be deemed to be or operated as a farm labor center under this part.

CHAPTER 1524

An act to amend Section 10202.8 of the Insurance Code, relating to group life policies.

[Approved by Governor July 13, 1963 Filed with Secretary of State July 16, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 10202.8 of the Insurance Code is amended to read:

10202.8. A group life policy conforming to all the following conditions may be issued to the trustees of a fund established by one employer, or by two or more employers in the same industry, or by an association of employers in the same industry, or by one or more labor unions, or by one or more employers and one or more labor unions, or by an association of employers and one or more labor unions, to insure employees of the employers or members of the unions for the benefit of persons other than the employers or the unions:

(a) The persons eligible for insurance shall be all of the employees of the employers or all of the members of the unions, or all of any class or classes thereof determined by conditions pertaining to their employment, or to membership in the unions, or to both. The policy may provide that the term "employees" shall include retired employees, and the individual proprietor or partners if an employer is an individual proprietor or a partnership. No director of a corporate employer shall be eligible for insurance under the policy unless such person is otherwise eligible as a bona fide employee of the corporation by performing services other than the usual duties of a director. No individual proprietor or partner shall be eligible for insurance under the policy unless he is actively engaged in and devotes a substantial part of his time to the conduct of the business of the proprietor or partnership. The policy may provide that the term "employees" shall include the trustees or their employees, or both, if their duties are principally connected with such trusteeship.

(b) The premium for the policy shall be paid by the trustees either: (a) wholly from funds contributed by the employer or employers of the insured persons, or by the union or unions, or by both; or (b) partly from such funds and partly from funds contributed by either all of the insured persons or by one or

more classes thereof. No policy may be issued on which the entire premium is to be derived from funds contributed by the insured persons specifically for their insurance.

A policy on which part of the premium is to be derived from funds contributed by all of the insured persons may be placed in force only if at least 75 percent of the then eligible employees of any employer unit participating in the trust, or 75 percent of the then eligible members of any participating union if no employer unit is participating in the trust, elect to make the required contributions. A policy on which no part of the premium is to be derived from funds contributed by the insured persons must insure all eligible persons. A policy on which part of the premium is to be derived from funds contributed by one or more classes of insured persons but not from all the insured persons, must insure all eligible persons from whom no contributions are required and must extend insurance to each class from whom contributions are required when 75 percent of the then eligible persons of any such class elect to make the required contributions. Any eligible person as to whom evidence of individual insurability is not satisfactory to the insurer shall be excluded.

(c) The policy must cover at the date of issue at least 50 persons. If the fund is established by the members of an association of employers the policy may be issued only if (i) either (a) the participating employers constitute at date of issue at least 60 percent of those employer members whose employees are not already covered for group life insurance or (b) the total number of persons covered at date of issue exceed 600; and (ii) the policy shall not require that, if an employer participating in the association for a period of three years discontinues such membership, the insurance of his employees shall cease solely by reason of such discontinuance.

(d) The amounts of insurance under the policy must be based upon some plan precluding individual selection by the insured persons or by the trustees, employers or unions. No policy may be issued which provides term insurance on any person which together with any other term insurance under any group life insurance policy or policies issued to the employers, or any of them, or to the trustee of a fund established in whole or in part by the employers, or any of them, exceeds fifty thousand dollars ($50,000).

Such insurance may be issued with or without medical examination. For the purpose of this section the word "industry" shall not include licensed professions, such as medicine, dentistry, pharmacy, law and accountancy.

obtaining the approval of the State Board of Control, may credit such amount on any amounts then due from the operator under this part, and the balance may be refunded to the operator, or his successors, administrators, executors, or assigns, or to the person from whom it was collected.

SEC. 10. Section 10256 of said code is amended to read:

10256. The board shall examine the claim and, if it is satisfied that a refund is due, shall set forth that fact in its records and certify to the State Board of Control the amount thereof. If approved by the State Board of Control, the amount shall be credited by the board on any taxes then due from the operator under this part, and the balance shall be refunded to the operator, his successors, administrators, executors, or assigns.

If the State Board of Control approves, it shall authorize the cancellation of the amount upon the records of the board and the Controller. The board shall mail a notice to the insurer of any cancellation authorized.

SEC. 16. Section 12977 of said code is amended to read:

If approved by the Board of Control, the excess shall be certified to the Controller for credit or refund. In the case, however, of a determination by the board that an amount not exceeding two hundred fifty dollars ($250) was not required to be paid under this part, the board without obtaining approval of the State Board of Control may certify the amount to the Controller for credit or refund. If a petition indicating that a write-in campaign will be conducted for the office at the general election, signed by 100 registered voters qualified to vote with respect to the office, is filed with the county clerk or registrar of voters not less than 45 days before the general election, the name of the incumbent shall be placed on the general election ballot if it has not appeared on the direct primary election ballot.

SECTION 1. Section 224 is added to the Elections Code, to read:

224. In lieu of executing a new affidavit of registration, the county clerk shall accept a post office change of address card form, as evidence that a voter has moved from one address to another within the same county, if the signature on the post office change of address card form is the same as appears on the affidavit of registration of the voter.

On receipt of this card, the clerk shall compare the signature on the card with that appearing on the affidavit of registration of the voter, and, if he finds that the signatures are the same, shall notify the voter by first-class mail that according to the records on file in the United States Post Office, he has recently filed a notice to have his mail forwarded to a new address and that the records on file in his county indicate that he is still registered from his old address and that his affidavit of registration has been placed in a suspension file.

Enclosed with the letter shall be a postcard, prepaid and preaddressed by the clerk, to be filled out by the voter, notifying the clerk whether his change of address is temporary or perma-

Upon receipt of this postcard, the clerk shall either restore the affidavit to the original precinct or to the new precinct covered by the change of address; and if it is a permanent change of address, the clerk shall write on the front or the back of the voter's affidavit the new address and transfer the affidavit to the proper precinct register.

If the postcard is not returned to the clerk within 30 days of the date of mailing, or 40 days prior to the next succeeding election, whichever first occurs, the voter's registration shall be removed from the suspension file and canceled. No notice and postcard shall be mailed by the clerk between the close of registration and the day of election.

Only the address may be changed by the procedure set forth in this section. To change his political affiliation from one party to another or to change his occupational designation, the voter shall execute a new affidavit of registration or the affidavit set forth in Section 313, as the case may be.

SEC. 2. Section 381 of the Elections Code is amended to read:

381. Cancellation is made by writing or stamping on the affidavit of registration the word "canceled," the reason the affidavit was canceled, and the date of cancellation.

Except as provided in Section 224, whenever a voter transfers his registration from one precinct to another precinct in the same county, or reregisters in another precinct in the same county as shown by the new affidavit of registration, the county clerk shall immediately cancel both the original and the duplicate affidavit of registration from the precinct in which the voter was first registered, and shall remove the original from the precinct book and the duplicate from the files.

Whenever a voter removes from one county to another county and registers in the latter county, the county clerk of the county in which he was first registered, upon being informed of his removal either by the voter personally or by receipt of an affidavit of cancellation, shall likewise cancel his registration and remove the original and duplicate affidavit of registration in that county.

All canceled affidavits of registration shall be preserved by the county clerk as required in Section 421 of this code.

The county clerk in distributing to each precinct the three indexes of registration, as required by this chapter, shall cross out of those indexes the names of all voters whose affidavits of registration from the precinct have been canceled.

At the time of submitting such petition to the county board of supervisors, the governing board of the elementary school district shall also submit copies of the petition to the governing board of the high school district or the unified school district to which joinder is being sought. Within 60 days following the date upon which the petition was submitted to the county board of supervisors, that board shall issue an order effecting the joinder of the elementary school district to the high school district or unified school district, unless a formally adopted written protest to such joinder has in the meantime been submitted to the board of supervisors by the governing board of such high school district or unified school district.

If the elementary district, as a result of being excluded from the unification, becomes a unified district because its boundaries are coterminous with the boundaries of a high school district, it shall automatically again become an elementary district upon joining a contiguous high school district pursuant to this section.

A notice of assignment shall be in writing addressed to the buyer at the address shown on the contract and shall: identify the contract; state the name of the seller and buyer; describe the goods and/or services; state the time balance and the number and amounts of the installments. The notice of assignment shall contain the following warning to the buyer:

You have 15 days within which to notify us of any claims or defenses which you may have against the seller. If you have any complaints or objections to make, you should notify us at this time.

Nothing contained in this section shall be construed as modifying or restricting rights, equities or defenses afforded under Section 1459 of this code or Section 368 of the Code of Civil Procedure with respect to transactions regulated by this chapter.

(a) The entire agreement of the parties with respect to the cost and terms of payment for the goods and services, including any promissory notes or any other evidences of indebtedness between the parties relating to the transaction, and including any promise, whether made in writing or orally, by the seller, made as an inducement to the buyer to become a party to the contract or which is part of the contract or which is made incidental to negotiations between the seller and the buyer with respect to the sale of the goods or services that are the subject of the contract, that the seller will compensate the buyer for referring customers or prospective customers to the seller for goods or services which the seller has for sale or for referring the seller to such customers or prospective customers. In any case in which, pursuant to the preceding provisions, the contract contains a promise to compensate the buyer for referring customers or prospective customers to the seller or the seller to such customers, the contract must contain a provision to the effect that the amount otherwise owing under the contract at any time is reduced by the amount of compensation owing pursuant to such promise.

(b) Either at the top of the contract or directly above the space reserved for the signature of the buyer, the words "Security Agreement" or "Lien Contract," as the case may be, shall appear in at least 10-point bold type where a security

If the contract is contained in more than one document, one such document shall be an original document signed by the retail buyer, stated to be applicable to purchases of goods or services to be made by the retail buyer from time to time. In such case such document, together with the sales slip, account book or other written statement relating to each purchase, shall set forth all of the information required by Section 1803.3 and shall constitute a separate retail installment contract for each purchase. On each succeeding purchase pursuant to such original document, the sales slip, account book or other written statement may at the option of the seller constitute the memorandum required by Section 1808.3.

Gorgonio Pass or 17½ percent if grown north and west of the San Gorgonio Pass, but shall be considered mature regardless of where grown in the State if they so test not less than 16½ percent and if the juice contains soluble solids equal to or in excess of 22 parts to every part of acid contained in the juice (the acidity of the juice to be calculated as tartaric acid without water of crystallization); however, the varieties Emperor, Gros Colman, Bleu Grau, Drodelabi, Fresno Beauty, Servian Blue, Pierce Isabella, Pierce, Isabella Regia, California Concord, Concord, Dattier de Beyrouth, Red Malaga, Khalili, Persian 23, Dizmar, Ribier, Delight, Perlette and Queen shall so test not less than 16 percent and the varieties Olivette Blanche, Ladyfinger, Rish Baba, and Khandahar shall so test not less than 15 percent; however, the Blackrose, Cardinal, and Exotic varieties shall so test either not less than 16 percent or not less than 15 percent if the juice contains soluble solids equal to or in excess of 25 parts to every part of acid contained in the juice (the acidity of the juice to be calculated as tartaric acid without water of crystallization).

"Mature" in the case of all other varieties shall mean that the average or composite test of all the grapes in any container or bulk lot shall be not less than 17 percent soluble solids in juice, as determined by the Balling or Brix scale hydrometer; however, white varieties of the Muscat type shall test not less than 18 percent and the variety Burger shall test not less than 16 percent.

In the event that the maturity standard fixed for the Malaga variety of grapes produced in that area northwest of the San Gorgonio Pass should be declared void, it is the intent of the Legislature that the other maturity standards prescribed in this section shall prevail.

Any varieties included in group A may be placed in the standard for juice grapes and other varieties may be placed in the standard established for table grapes, but regardless of standard, the maturity of varieties included in group A shall be determined by testing the juice from entire bunches representative of the least mature grapes in any container and constituting not less than 10 percent by weight of the contents of the container. The maturity of all varieties not included in group A shall be determined by testing the juice from a composite sample representative of the average of the grapes in any container or bulk lot. The standards provided by this section are minimum standards, and the tolerances allowed by Sections 800 and 801 shall not be applied to any test made in accordance with this section for the purpose of determining whether any lot of grapes complies with the maturity standard for the variety; however, no lot of grapes of the varieties classified in group A shall be considered as failing to meet the maturity requirements of this section because the sample of grapes from one container fails to meet the required test.

(b) "Waterberry" means a disease characterized by a watery, soft or flabby condition of the berries. Such affected berries are low in sugar content, have tender skins and are very easily crushed.

[Approved by Governor July 13, 1963. Filed with Secretary of State July 16, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 12.2 is added to the Alameda County Flood Control and Water Conservation District Act (Chapter 1275, Statutes of 1949), to read:

Sec. 12.2. The board of supervisors, by resolution thereof adopted from time to time, may establish special drainage areas within the district without reference to the boundaries of other zones or special drainage areas, setting forth in such resolutions descriptions thereof by metes and bounds and entitling each of such areas by an area designation or number,

and institute drainage plans for the specific benefit of such areas.

Before acquiring authority to proceed with the establishment of any special drainage area, the exterior boundaries of which will include any land lying within the exterior boundary of any chartered or incorporated city within the district, the board shall first obtain the concurrence of such city by a resolution or ordinance adopted by a majority of the members of the city council of such city.

A special drainage area may include all lands contributing to the drainage requirements of an area, excluding such lands as are already developed or those adequately served by existing local drainage facilities serving the area at the time of the adoption of a plan for additional drainage facilities.

Whenever drainage facilities, conforming to the instituted drainage plan, are required in the development of any land within a special drainage area and where, in the opinion of the board, it is necessary that other facilities be constructed which can be, or will be, used for the benefit of other property in the drainage area, and such drainage facilities are dedicated to the public, the board may contract with the developer and agree to reimburse, and may reimburse him, for all or any portion of such drainage facilities. Such contract shall provide that the board may collect a reasonable charge from any person, corporation or agency using such facilities for the benefit of other property in the special drainage area.

Fees may be collected pursuant to this section for payment of all or any portion of any such drainage facility costs if the costs, whether actual or estimated, are based upon findings by the board, that development of property within the planned special drainage area will require construction of the facilities described in the drainage plan, and that fees are fairly apportioned within the local drainage area on the basis of benefits conferred on property within the area. The fee as to any property within the special drainage area may be charged as a condition precedent to the development of such property, and no building permit therefor shall be issued until payment thereof, and said fee shall not exceed the pro rata share of the amount of the total actual or estimated costs of all such drainage facilities within the special drainage area which would be assessable on such property if such costs were apportioned uniformly on a per-acre basis, excluding, however, such property within the area as, in the opinion of the board, is incapable of development.

The fees collected by the district, pursuant to this section, shall be paid into a special drainage facilities fund. A separate fund shall be established for each special drainage area. Any money placed in such fund shall be expended solely for land acquisition and construction or reimbursement for the same, in whole or in part, of local drainage facilities within the planned special drainage area from which the fees comprising the fund were collected.

The term "developer," as used herein, shall include a subdivider, industrial developer, or any person, corporation, district, public or private agency, or group that may participate in the special drainage facilities constructed pursuant to this section.

Any drainage facilities constructed in any special drainage area may be installed by the developer at his sole cost and expense in accordance with plans and specifications prepared or approved by the district, by the district with its own funds, or by the district with funds supplied by the developer, and the cost thereof may be collected and repaid, in whole or in part, in the manner provided for in this section.

PART 2. LIABILITY OF PUBLIC ENTITIES AND PUBLIC EMPLOYEES

Article 1. Scope of Part

814. Nothing in this part affects liability based on contract or the right to obtain relief other than money or damages against a public entity or public employee.

814.2. Nothing in this part shall be construed to impliedly repeal any provision of Division 4 (commencing with Section

3201) or Division 4.5 (commencing with Section 6100) of the Labor Code.

Article 2. Liability of Public Entities

815. Except as otherwise provided by statute:

(a) A public entity is not liable for an injury, whether such injury arises out of an act or omission of the public entity or a public employee or any other person.

(b) The liability of a public entity established by this part (commencing with Section 814) is subject to any immunity of the public entity provided by statute, including this part, and is subject to any defenses that would be available to the public entity if it were a private person.

815.2. (a) A public entity is liable for injury proximately caused by an act or omission of an employee of the public entity within the scope of his employment if the act or omission would, apart from this section, have given rise to a cause of action against that employee or his personal representative.

(b) Except as otherwise provided by statute, a public entity is not liable for an injury resulting from an act or omission of an employee of the public entity where the employee is immune from liability.

815.4. A public entity is liable for injury proximately caused by a tortious act or omission of an independent contractor of the public entity to the same extent that the public entity would be subject to such liability if it were a private person. Nothing in this section subjects a public entity to liability for the act or omission of an independent contractor if the public entity would not have been liable for the injury had the act or omission been that of an employee of the public entity.

815.6. Where a public entity is under a mandatory duty imposed by an enactment that is designed to protect against the risk of a particular kind of injury, the public entity is liable for an injury of that kind proximately caused by its failure to discharge the duty unless the public entity establishes that it exercised reasonable diligence to discharge the duty.

818. Notwithstanding any other provision of law, a public entity is not liable for damages awarded under Section 3294 of the Civil Code or other damages imposed primarily for the sake of example and by way of punishing the defendant.

818.2. A public entity is not liable for an injury caused by adopting or failing to adopt an enactment or by failing to enforce any law.

818.4. A public entity is not liable for an injury caused by the issuance, denial, suspension or revocation of, or by the failure or refusal to issue, deny, suspend or revoke, any permit, license, certificate, approval, order, or similar authorization where the public entity or an employee of the public entity

is authorized by enactment to determine whether or not such authorization should be issued, denied, suspended or revoked.

818.6. A public entity is not liable for injury caused by its failure to make an inspection, or by reason of making an inadequate or negligent inspection, of any property, other than its property (as defined in subdivision (c) of Section 830), for the purpose of determining whether the property complies with or violates any enactment or contains or constitutes a hazard to health or safety.

818.8. A public entity is not liable for an injury caused by misrepresentation by an employee of the public entity, whether or not such misrepresentation be negligent or intentional.

Article 3. Liability of Public Employees

820. (a) Except as otherwise provided by statute (including Section 820.2), a public employee is liable for injury caused by his act or omission to the same extent as a private person.

(b) The liability of a public employee established by this part (commencing with Section 814) is subject to any defenses that would be available to the public employee if he were a private person.

820.2. Except as otherwise provided by statute, a public employee is not liable for an injury resulting from his act or omission where the act or omission was the result of the exercise of the discretion vested in him, whether or not such discretion be abused.

820.4. A public employee is not liable for his act or omission, exercising due care, in the execution or enforcement of any law. Nothing in this section exonerates a public employee from liability for false arrest or false imprisonment.

820.6. If a public employee acts in good faith, without malice, and under the apparent authority of an enactment that is unconstitutional, invalid or inapplicable, he is not liable for an injury caused thereby except to the extent that he would have been liable had the enactment been constitutional, valid and applicable.

820.8. Except as otherwise provided by statute, a public employee is not liable for an injury caused by the act or omission of another person. Nothing in this section exonerates a public employee from liability for injury proximately caused by his own negligent or wrongful act or omission.

821. A public employee is not liable for an injury caused by his adoption of or failure to adopt an enactment or by his failure to enforce an enactment.

821.2. A public employee is not liable for an injury caused by his issuance, denial, suspension or revocation of, or by his failure or refusal to issue, deny, suspend or revoke, any permit, license, certificate, approval, order, or similar authorization where he is authorized by enactment to determine whether

or not such authorization should be issued, denied, suspended or revoked.

821.4. A public employee is not liable for injury caused by his failure to make an inspection, or by reason of making an inadequate or negligent inspection, of any property, other than the property (as defined in subdivision (c) of Section 830) of the public entity employing the public employee, for the purpose of determining whether the property complies with or violates any enactment or contains or constitutes a hazard to health or safety.

821.6. A public employee is not liable for injury caused by his instituting or prosecuting any judicial or administrative proceeding within the scope of his employment, even if he acts maliciously and without probable cause.

821.8. A public employee is not liable for an injury arising out of his entry upon any property where such entry is expressly or impliedly authorized by law. Nothing in this section exonerates a public employee from liability for an injury proximately caused by his own negligent or wrongful act or omission.

822. A public employee is not liable for money stolen from his official custody. Nothing in this section exonerates a public employee from liability if the loss was sustained as a result of his own negligent or wrongful act or omission.

822.2. A public employee acting in the scope of his employment is not liable for an injury caused by his misrepresentation, whether or not such misrepresentation be negligent or intentional, unless he is guilty of actual fraud, corruption or actual malice.

Article 4. Indemnification of Public Employees

825. If an employee or former employee of a public entity requests the public entity to defend him against any claim or action against him for an injury arising out of an act or omission occurring within the scope of his employment as an employee of the public entity and such request is made in writing not less than 10 days before the day of trial, the public entity shall pay any judgment based thereon or any compromise or settlement of the claim or action to which the public entity has agreed.

If the public entity conducts the defense of an employee or former employee against any claim or action, the public entity shall pay any judgment based thereon or any compromise or settlement of the claim or action to which the public entity has agreed; but, where the public entity conducted such defense pursuant to an agreement with the employee or former employee reserving the rights of the public entity not to pay the judgment, compromise or settlement until it is established that the injury arose out of an act or omission occurring within the scope of his employment as an employee of the public entity, the public entity is required to pay the judgment,

compromise or settlement only if it is established that the injury arose out of an act or omission occurring in the scope of his employment as an employee of the public entity.

Nothing in this section authorizes a public entity to pay such part of a claim or judgment as is for punitive or exemplary damages.

825.2. (a) Subject to subdivision (b), if an employee or former employee of a public entity pays any claim or judgment against him, or any portion thereof, that the public entity is required to pay under Section 825, he is entitled to recover the amount of such payment from the public entity.

(b) If the public entity did not conduct his defense against the action or claim, or if the public entity conducted such defense pursuant to an agreement with him reserving the rights of the public entity against him, an employee or former employee of a public entity may recover from the public entity under subdivision (a) only if he establishes that the act or omission upon which the claim or judgment is based occurred within the scope of his employment as an employee of the public entity and the public entity fails to establish that he acted or failed to act because of actual fraud, corruption or actual malice.

825.4. Except as provided in Section 825.6, if a public entity pays any claim or judgment against itself or against an employee or former employee of the public entity, or any portion thereof, for an injury arising out of an act or omission of the employee or former employee of the public entity, he is not liable to indemnify the public entity.

825.6. (a) If a public entity pays any claim or judgment, or any portion thereof, either against itself or against an employee or former employee of the public entity, for an injury arising out of an act or omission of the employee or former employee of the public entity, the public entity may recover from the employee or former employee the amount of such payment if he acted or failed to act because of actual fraud, corruption or actual malice. Except as provided in subdivision (b), a public entity may not recover any payments made upon a judgment or claim against an employee or former employee if the public entity conducted his defense against the action or claim.

(b) If a public entity pays any claim or judgment, or any portion thereof, against an employee or former employee of the public entity for an injury arising out of his act or omission, and if the public entity conducted his defense against the claim or action pursuant to an agreement with him reserving the rights of the public entity against him, the public entity may recover the amount of such payment from him unless he establishes that the act or omission upon which the claim or judgment is based occurred within the scope of his employment as an employee of the public entity and the public entity fails to establish that he acted or failed to act because of actual fraud, corruption or actual malice.

CHAPTER 2. DANGEROUS CONDITIONS OF PUBLIC PROPERTY

Article 1. General

830. As used in this chapter:

(a) "Dangerous condition" means a condition of property that creates a substantial (as distinguished from a minor, trivial or insignificant) risk of injury when such property or adjacent property is used with due care in a manner in which it is reasonably foreseeable that it will be used.

(b) "Protect against" includes repairing, remedying or correcting a dangerous condition, providing safeguards against a dangerous condition, or warning of a dangerous condition.

(c) "Property of a public entity" and "public property" mean real or personal property owned or controlled by the public entity, but do not include easements, encroachments and other property that are located on the property of the public entity but are not owned or controlled by the public entity.

830.2. A condition is not a dangerous condition within the meaning of this chapter if the trial or appellate court, viewing the evidence most favorably to the plaintiff, determines as a matter of law that the risk created by the condition was of such a minor, trivial or insignificant nature in view of the surrounding circumstances that no reasonable person would conclude that the condition created a substantial risk of injury when such property or adjacent property was used with due care in a manner in which it was reasonably foreseeable that it would be used.

830.4. A condition is not a dangerous condition within the meaning of this chapter merely because of the failure to provide regulatory traffic control signals, stop signs, yield right-of-way signs, or speed restriction signs, as described by the Vehicle Code, or distinctive roadway markings as described in Section 21460 of the Vehicle Code.

830.5. (a) Except where the doctrine of res ipsa loquitur is applicable, the happening of the accident which results in the injury is not in and of itself evidence that public property was in a dangerous condition.

(b) The fact that action was taken after an injury occurred to protect against a condition of public property is not evidence that the public property was in a dangerous condition at the time of the injury

830.6. Neither a public entity nor a public employee is liable under this chapter for an injury caused by the plan or design of a construction of, or an improvement to, public property where such plan or design has been approved in advance of the construction or improvement by the legislative body of the public entity or by some other body or employee exercising discretionary authority to give such approval or where such plan or design is prepared in conformity with standards previously so approved, if the trial or appellate court determines that there is any substantial evidence upon

the basis of which (a) a reasonable public employee could have adopted the plan or design or the standards therefor or (b) a reasonable legislative body or other body or employee could have approved the plan or design or the standards therefor.

830.8. Neither a public entity nor a public employee is liable under this chapter for an injury caused by the failure to provide traffic or warning signals, signs, markings or devices described in the Vehicle Code. Nothing in this section exonerates a public entity or public employee from liability for injury proximately caused by such failure if a signal, sign, marking or device (other than one described in Section 830.4) was necessary to warn of a dangerous condition which endangered the safe movement of traffic and which would not be reasonably apparent to, and would not have been anticipated by, a person exercising due care.

831. Neither a public entity nor a public employee is liable for an injury caused by the effect on the use of streets and highways of weather conditions as such Nothing in this section exonerates a public entity or public employee from liability for injury proximately caused by such effect if it would not be reasonably apparent to, and would not be anticipated by, a person exercising due care. For the purpose of this section, the effect on the use of streets and highways of weather conditions includes the effect of fog, wind, rain, flood, ice or snow but does not include physical damage to or deterioration of streets and highways resulting from weather conditions.

831.2. Neither a public entity nor a public employee is liable for an injury caused by a natural condition of any unimproved public property, including but not limited to any natural condition of any lake, stream, bay, river or beach.

831.4. Neither a public entity nor a public employee is liable for an injury caused by a condition of:

(a) Any unpaved road which provides access to fishing, hunting or primitive camping, recreational or scenic areas and which is not a (1) city street or highway or (2) county, state or federal highway or (3) public street or highway of a joint highway district, boulevard district, bridge and highway district or similar district formed for the improvement or building of public streets or highways.

(b) Any hiking, riding, fishing or hunting trail.

831.6. Neither the State nor an employee of the State is liable under this chapter for any injury caused by a condition of the unimproved and unoccupied portions of:

(a) The ungranted tidelands and submerged lands, and the beds of navigable rivers, streams, lakes, bays, estuaries, inlets and straits, owned by the State.

(b) The unsold portions of the 16th and 36th sections of school lands, the unsold portions of the 500,000 acres granted to the State for school purposes, and the unsold portions of the

listed lands selected of the United States in lieu of the 16th and 36th sections and losses to the school grant.

831.8. (a) Subject to subdivisions (c) and (d), neither a public entity nor a public employee is liable under this chapter for an injury caused by the condition of a reservoir if at the time of the injury the person injured was using the property for any purpose other than that for which the public entity intended or permitted the property to be used.

(b) Subject to subdivisions (c) and (d), neither an irrigation district nor an employee thereof nor the State nor a state employee is liable under this chapter for an injury caused by the condition of canals, conduits or drains used for the distribution of water if at the time of the injury the person injured was using the property for any purpose other than that for which the district or State intended it to be used.

(c) Nothing in this section exonerates a public entity or a public employee from liability for injury proximately caused by a dangerous condition of property if:

(1) The injured person was not guilty of a criminal offense under Article 1 (commencing with Section 552) of Chapter 12 of Title 13 of Part 1 of the Penal Code in entering on or using the property;

(2) The condition created a substantial and unreasonable risk of death or serious bodily harm when such property or adjacent property was used with due care in a manner in which it was reasonably foreseeable that it would be used;

(3) The dangerous character of the condition was not reasonably apparent to, and would not have been anticipated by, a mature, reasonable person using the property with due care; and

(4) The public entity or the public employee had actual knowledge of the condition and knew or should have known of its dangerous character a sufficient time prior to the injury to have taken measures to protect against the condition.

(d) Nothing in this section exonerates a public entity or a public employee from liability for injury proximately caused by a dangerous condition of property if:

(1) The person injured was less than 12 years of age;

(2) The dangerous condition created a substantial and unreasonable risk of death or serious bodily harm to children under 12 years of age using the property or adjacent property with due care in a manner in which it was reasonably foreseeable that it would be used;

(3) The person injured, because of his immaturity, did not discover the condition or did not appreciate its dangerous character; and

(4) The public entity or the public employee had actual knowledge of the condition and knew or should have known of its dangerous character a sufficient time prior to the injury to have taken measures to protect against the condition.

Article 2. Liability of Public Entities

835. Except as provided by statute, a public entity is liable for injury caused by a dangerous condition of its property if the plaintiff establishes that the property was in a dangerous condition at the time of the injury, that the injury was proximately caused by the dangerous condition, that the dangerous condition created a reasonably foreseeable risk of the kind of injury which was incurred, and that either:

(a) A negligent or wrongful act or omission of an employee of the public entity within the scope of his employment created the dangerous condition; or

(b) The public entity had actual or constructive notice of the dangerous condition under Section 835.2 a sufficient time prior to the injury to have taken measures to protect against the dangerous condition.

835.2. (a) A public entity had actual notice of a dangerous condition within the meaning of subdivision (b) of Section 835 if it had actual knowledge of the existence of the condition and knew or should have known of its dangerous character.

(b) A public entity had constructive notice of a dangerous condition within the meaning of subdivision (b) of Section 835 only if the plaintiff establishes that the condition had existed for such a period of time and was of such an obvious nature that the public entity, in the exercise of due care, should have discovered the condition and its dangerous character. On the issue of due care, admissible evidence includes but is not limited to evidence as to:

(1) Whether the existence of the condition and its dangerous character would have been discovered by an inspection system that was reasonably adequate (considering the practicability and cost of inspection weighed against the likelihood and magnitude of the potential danger to which failure to inspect would give rise) to inform the public entity whether the property was safe for the use or uses for which the public entity used or intended others to use the public property and for uses that the public entity actually knew others were making of the public property or adjacent property.

(2) Whether the public entity maintained and operated such an inspection system with due care and did not discover the condition.

835.4. (a) A public entity is not liable under subdivision (a) of Section 835 for injury caused by a condition of its property if the public entity establishes that the act or omission that created the condition was reasonable. The reasonableness of the act or omission that created the condition shall be determined by weighing the probability and gravity of potential injury to persons and property foreseeably exposed to the risk of injury against the practicability and cost of taking alternative action that would not create the risk of injury or of protecting against the risk of injury.

(b) A public entity is not liable under subdivision (b) of Section 835 for injury caused by a dangerous condition of its property if the public entity establishes that the action it took to protect against the risk of injury created by the condition or its failure to take such action was reasonable. The reasonableness of the action or inaction of the public entity shall be determined by taking into consideration the time and opportunity it had to take action and by weighing the probability and gravity of potential injury to persons and property foreseeably exposed to the risk of injury against the practicability and cost of protecting against the risk of such injury.

Article 3. Liability of Public Employees

840. Except as provided in this article, a public employee is not liable for injury caused by a condition of public property where such condition exists because of any act or omission of such employee within the scope of his employment. The liability established by this article is subject to any immunity of the public employee provided by statute and is subject to any defenses that would be available to the public employee if he were a private person.

840.2. An employee of a public entity is liable for injury caused by a dangerous condition of public property if the plaintiff establishes that the property of the public entity was in a dangerous condition at the time of the injury, that the injury was proximately caused by the dangerous condition, that the dangerous condition created a reasonably foreseeable risk of the kind of injury which was incurred, and that either:

(a) The dangerous condition was directly attributable wholly or in substantial part to a negligent or wrongful act of the employee and the employee had the authority and the funds and other means immediately available to take alternative action which would not have created the dangerous condition; or

(b) The employee had the authority and it was his responsibility to take adequate measures to protect against the dangerous condition at the expense of the public entity and the funds and other means for doing so were immediately available to him, and he had actual or constructive notice of the dangerous condition under Section 840.4 a sufficient time prior to the injury to have taken measures to protect against the dangerous condition.

840.4. (a) A public employee had actual notice of a dangerous condition within the meaning of subdivision (b) of Section 840.2 if he had actual personal knowledge of the existence of the condition and knew or should have known of its dangerous character.

(b) A public employee had constructive notice of a dangerous condition within the meaning of subdivision (b) of Section 840.2 only if the plaintiff establishes (1) that the

public employee had the authority and it was his responsibility as a public employee to inspect the property of the public entity or to see that inspections were made to determine whether dangerous conditions existed in the public property, (2) that the funds and other means for making such inspections or for seeing that such inspections were made were immediately available to the public employee, and (3) that the dangerous condition had existed for such a period of time and was of such an obvious nature that the public employee, in the exercise of his authority and responsibility with due care, should have discovered the condition and its dangerous character.

840.6. (a) A public employee is not liable under subdivision (a) of Section 840.2 for injury caused by a dangerous condition of public property if he establishes that the act or omission that created the condition was reasonable. The reasonableness of the act or omission that created the condition shall be determined by weighing the probability and gravity of potential injury to persons and property foreseeably exposed to the risk of injury against the practicability and cost of taking alternative action that would not create the risk of injury or of protecting against the risk of injury.

(b) A public employee is not liable under subdivision (b) of Section 840.2 for injury caused by a dangerous condition of public property if he establishes that the action taken to protect against the risk of injury created by the condition or the failure to take such action was reasonable. The reasonableness of the inaction or action shall be determined by taking into consideration the time and opportunity the public employee had to take action and by weighing the probability and gravity of potential injury to persons and property foreseeably exposed to the risk of injury against the practicability and cost of protecting against the risk of such injury.

CHAPTER 3. POLICE AND CORRECTIONAL ACTIVITIES

844. As used in this chapter, "prisoner" includes an inmate of a prison, jail or penal or correctional facility.

844.6. (a) Notwithstanding any other provisions of law, except as provided in subdivisions (b), (c), and (d) of this section, a public entity is not liable for:

(1) An injury proximately caused by any prisoner.

(2) An injury to any prisoner.

(b) Nothing in this section affects the liability of a public entity under Article 1 (commencing with Section 17000) of Chapter 1 of Division 9 of the Vehicle Code.

(c) Nothing in this section prevents a person, other than a prisoner, from recovering from the public entity for an injury resulting from the dangerous condition of public property under Chapter 2 (commencing with Section 830) of this part.

(d) Nothing in this section exonerates a public employee from liability for injury proximately caused by his negligent or wrongful act or omission. The public entity may but is not required to pay any judgment, compromise or settlement, or may but is not required to indemnify any public employee, in any case where the public entity is immune from liability under this section; except that the public entity shall pay, as provided in Article 4 (commencing with Section 825) of Chapter 1 of this part, any judgment based on a claim against a public employee licensed in one of the healing arts under Division 2 (commencing with Section 500) of the Business and Professions Code for malpractice arising from an act or omission in the scope of his employment, and shall pay any compromise or settlement of a claim or action based on such malpractice to which the public entity has agreed.

845. Neither a public entity nor a public employee is liable for failure to establish a police department or otherwise provide police protection service or, if police protection service is provided, for failure to provide sufficient police protection service.

845.2. Except as provided in Chapter 2 (commencing with Section 830), neither a public entity nor a public employee is liable for failure to provide a prison, jail or penal or correctional facility or, if such facility is provided, for failure to provide sufficient equipment, personnel or facilities therein.

845.4. Neither a public entity nor a public employee acting within the scope of his employment is liable for interfering with the right of a prisoner to obtain a judicial determination or review of the legality of his confinement; but a public employee, and the public entity where the employee is acting within the scope of his employment, is liable for injury proximately caused by the employee's intentional and unjustifiable interference with such right, but no action for such injury may be commenced until it has first been determined that the confinement was illegal.

845.6. Neither a public entity nor a public employee is liable for injury proximately caused by the failure of the employee to furnish or obtain medical care for a prisoner in his custody; but, except as otherwise provided by Sections 855.8 and 856, a public employee, and the public entity where the employee is acting within the scope of his employment, is liable if the employee knows or has reason to know that the prisoner is in need of immediate medical care and he fails to take reasonable action to summon such medical care. Nothing in this section exonerates a public employee licensed in one of the healing arts under Division 2 (commencing with Section 500) of the Business and Professions Code from liability for injury proximately caused by malpractice or exonerates the public entity from liability for injury proximately caused by such malpractice.

845.8. Neither a public entity nor a public employee is liable for:

(a) Any injury resulting from determining whether to parole or release a prisoner or from determining the terms and conditions of his parole or release or from determining whether to revoke his parole or release.

(b) Any injury caused by an escaping or escaped prisoner.

846. Neither a public entity nor a public employee is liable for injury caused by the failure to make an arrest or by the failure to retain an arrested person in custody.

CHAPTER 4. FIRE PROTECTION

850. Neither a public entity nor a public employee is liable for failure to establish a fire department or otherwise to provide fire protection service.

850.2. Neither a public entity that has undertaken to provide fire protection service, nor an employee of such a public entity, is liable for any injury resulting from the failure to provide or maintain sufficient personnel, equipment or other fire protection facilities.

850.4. Neither a public entity, nor a public employee acting in the scope of his employment, is liable for any injury resulting from the condition of fire protection or firefighting equipment or facilities or, except as provided in Article 1 (commencing with Section 17000) of Chapter 1 of Division 9 of the Vehicle Code, for any injury caused in fighting fires.

850.6. Whenever a public entity, pursuant to a call for assistance from another public entity, provides fire protection or firefighting service outside of the area regularly served and protected by the public entity providing such service, the public entity providing such service is liable for any injury for which liability is imposed by statute caused by its act or omission or the act or omission of its employee occurring in the performance of such fire protection or firefighting service. Notwithstanding any other law, the public entity calling for assistance is not liable for any act or omission of the public entity providing the assistance or for any act or omission of an employee of the public entity providing the assistance; but the public entity providing such service and the public entity calling for assistance may by agreement determine the extent, if any, to which the public entity calling for assistance will be required to indemnify the public entity providing the assistance.

850.8. Any member of an organized fire department, fire protection district, or other firefighting unit of either the State or any political subdivision, any employee of the Division of Forestry, or any other public employee when acting in the scope of his employment, may transport or arrange for the transportation of any person injured by a fire, or by a fire protection operation, to a physician and surgeon or hospital if the injured person does not object to such transportation.

Neither a public entity nor a public employee is liable for any injury sustained by the injured person as a result of or in connection with such transportation or for any medical, ambulance or hospital bills incurred by or in behalf of the injured person or for any other damages, but a public employee is liable for injury proximately caused by his willful misconduct in transporting the injured person or arranging for such transportation.

CHAPTER 5. MEDICAL, HOSPITAL AND PUBLIC HEALTH ACTIVITIES

854. As used in this chapter, unless the context otherwise requires, "medical facility" includes a hospital, infirmary, clinic, dispensary, mental institution, or similar facility.

854.2. As used in this chapter, "mental institution" means any facility for the care or treatment of persons committed for mental illness or addiction.

854.4. As used in this chapter, "mental illness or addiction" means mental illness, mental disorder bordering on mental illness, mental deficiency, epilepsy, habit forming drug addiction, narcotic drug addiction, dipsomania or inebriety, sexual psychopathy, or such mental abnormality as to evidence utter lack of power to control sexual impulses.

854.8. (a) Notwithstanding any other provision of law, except as provided in subdivisions (b), (c) and (d) of this section, a public entity is not liable for:

(1) An injury proximately caused by any person committed or admitted to a mental institution.

(2) An injury to any person committed or admitted to a mental institution.

(b) Nothing in this section affects the liability of a public entity under Article 1 (commencing with Section 17000) of Chapter 1 of Division 9 of the Vehicle Code.

(c) Nothing in this section prevents a person, other than a person committed or admitted to a mental institution, from recovering from the public entity for an injury resulting from the dangerous condition of public property under Chapter 2 (commencing with Section 830) of this part.

(d) Nothing in this section exonerates a public employee from liability for injury proximately caused by his negligent or wrongful act or omission. The public entity may but is not required to pay any judgment, compromise or settlement, or may but is not required to indemnify any public employee, in any case where the public entity is immune from liability under this section; except that the public entity shall pay, as provided in Article 4 (commencing with Section 825) of Chapter 1 of this part, any judgment based on a claim against a public employee licensed in one of the healing arts under Division 2 (commencing with Section 500) of the Business and Professions Code for malpractice arising from an act or

omission in the scope of his employment, and shall pay any compromise or settlement of a claim or action based on such malpractice to which the public entity has agreed.

855. (a) A public entity that operates or maintains any medical facility that is subject to regulation by the State Department of Public Health or the State Department of Mental Hygiene is liable for injury proximately caused by the failure of the public entity to provide adequate or sufficient equipment, personnel or facilities required by any statute or any regulation of the State Department of Public Health or the State Department of Mental Hygiene prescribing minimum standards for equipment, personnel or facilities, unless the public entity establishes that it exercised reasonable diligence to comply with the applicable statute or regulation.

(b) A public entity that operates or maintains any medical facility that is not subject to regulation by the State Department of Public Health or the State Department of Mental Hygiene is liable for injury proximately caused by the failure of the public entity to provide adequate or sufficient equipment, personnel or facilities substantially equivalent to those required by any statute or any regulation of the State Department of Public Health or the State Department of Mental Hygiene prescribing minimum standards for equipment, personnel or facilities applicable to a public medical facility of the same character and class, unless the public entity establishes that it exercised reasonable diligence to conform with such minimum standards.

(c) Nothing in this section confers authority upon, or augments the authority of, the State Department of Public Health or the State Department of Mental Hygiene to adopt, administer or enforce any regulation. Any regulation establishing minimum standards for equipment, personnel or facilities in any medical facility operated or maintained by a public entity, to be effective, must be within the scope of authority conferred by law.

855.2. Neither a public entity nor a public employee acting within the scope of his employment is liable for interfering with the right of an inmate of a medical facility operated or maintained by a public entity to obtain a judicial determination or review of the legality of his confinement; but a public employee, and the public entity where the employee is acting within the scope of his employment, is liable for injury proximately caused by the employee's intentional and unjustifiable interference with such right, but no action for such injury may be commenced until it has first been determined that the confinement was illegal.

855.4. (a) Neither a public entity nor a public employee is liable for an injury resulting from the decision to perform or not to perform any act to promote the public health of the community by preventing disease or controlling the communication of disease within the community if the decision whether

the act was or was not to be performed was the result of the exercise of discretion vested in the public entity or the public employee, whether or not such discretion be abused.

(b) Neither a public entity nor a public employee is liable for an injury caused by an act or omission in carrying out with due care a decision described in subdivision (a).

855.6. Except for an examination or diagnosis for the purpose of treatment, neither a public entity nor a public employee acting within the scope of his employment is liable for injury caused by the failure to make a physical or mental examination, or to make an adequate physical or mental examination, of any person for the purpose of determining whether such person has a disease or physical or mental condition that would constitute a hazard to the health or safety of himself or others.

855.8. (a) Neither a public entity nor a public employee acting within the scope of his employment is liable for injury resulting from diagnosing or failing to diagnose that a person is afflicted with mental illness or addiction or from failing to prescribe for mental illness or addiction.

(b) A public employee acting within the scope of his employment is not liable for administering with due care the treatment prescribed for mental illness or addiction.

(c) Nothing in this section exonerates a public employee who has undertaken to prescribe for mental illness or addiction from liability for injury proximately caused by his negligence or by his wrongful act in so prescribing.

(d) Nothing in this section exonerates a public employee from liability for injury proximately caused by his negligent or wrongful act or omission in administering any treatment prescribed for mental illness or addiction.

856. (a) Neither a public entity nor a public employee acting within the scope of his employment is liable for any injury resulting from determining in accordance with any applicable enactment:

(1) Whether to confine a person for mental illness or addiction.

(2) The terms and conditions of confinement for mental illness or addiction in a medical facility operated or maintained by a public entity.

(3) Whether to parole or release a person from confinement for mental illness or addiction in a medical facility operated or maintained by a public entity.

(b) A public employee is not liable for carrying out with due care a determination described in subdivision (a).

(c) Nothing in this section exonerates a public employee from liability for injury proximately caused by his negligent or wrongful act or omission in carrying out or failing to carry out:

(1) A determination to confine or not to confine a person for mental illness or addiction.

(2) The terms or conditions of confinement of a person for mental illness or addiction in a medical facility operated or maintained by a public entity.

(3) A determination to parole or release a person from confinement for mental illness or addiction in a medical facility operated or maintained by a public entity.

856.2. Neither a public entity nor a public employee is liable for an injury caused by an escaping or escaped person who has been committed for mental illness or addiction.

856.4. Except as provided in Section 815.6, neither a public entity nor a public employee acting in the scope of his employment is liable for an injury resulting from the failure to admit a person to a public medical facility.

CHAPTER 6. ADMINISTRATION OF TAX LAWS

860. As used in this chapter, "tax" includes a tax, assessment, fee or charge.

860.2. Neither a public entity nor a public employee is liable for an injury caused by:

(a) Instituting any judicial or administrative proceeding or action for or incidental to the assessment or collection of a tax.

(b) An act or omission in the interpretation or application of any law relating to a tax.

860.4. Nothing in this chapter affects any law relating to refund, rebate, exemption, cancellation, amendment or adjustment of taxes.

CHAPTER 21. TORT LIABILITY UNDER AGREEMENTS BETWEEN PUBLIC ENTITIES

895. As used in this chapter "agreement" means a joint powers agreement entered into pursuant to Chapter 5 (commencing with Section 6500) of Division 7 of Title 1 of the Government Code, an agreement to transfer the functions of a public entity or an employee thereof to another public entity pursuant to Part 2 (commencing with Section 51300) of Division 1 of Title 5 of the Government Code, and any other agreement under which a public entity undertakes to perform any function, service or act with or for any other public entity or employee thereof with its consent, whether such agreement is expressed by resolution, contract, ordinance or in any other manner provided by law; but "agreement" does not include an agreement between public entities which is designed to implement the disbursement or subvention of public funds from one of the public entities to the other, whether or not it provides standards or controls governing the expenditure of such funds.

895.2. Whenever any public entities enter into an agreement, they are jointly and severally liable upon any liability

which is imposed by any law other than this chapter upon any one of the entities or upon any entity created by the agreement for injury caused by a negligent or wrongful act or omission occurring in the performance of such agreement.

Notwithstanding any other law, if a judgment is recovered against a public entity for injury caused in the performance of an agreement, the time within which a claim for such injury may be presented or an action commenced against any other public entity that is subject to the liability determined by the judgment under the provisions of this section begins to run when the judgment is rendered.

895.4. As part of any agreement, the public entities may provide for contribution or indemnification by any or all of the public entities that are parties to the agreement upon any liability arising out of the performance of the agreement.

895.6. Unless the public entities that are parties to an agreement otherwise provide in the agreement, if a public entity is held liable upon any judgment for damages caused by a negligent or wrongful act or omission occurring in the performance of the agreement and pays in excess of its pro rata share in satisfaction of such judgment, such public entity is entitled to contribution from each of the other public entities that are parties to the agreement. The pro rata share of each public entity is determined by dividing the total amount of the judgment by the number of public entities that are parties to the agreement. The right of contribution is limited to the amount paid in satisfaction of the judgment in excess of the pro rata share of the public entity so paying. No public entity may be compelled to make contribution beyond its own pro rata share of the entire judgment.

895.8. Except for Section 895.6, this chapter applies to any agreement between public entities, whether entered into before or after the effective date of this chapter. Section 895.6 applies to any agreement between public entities entered into, or renewed, modified, or extended, after the effective date of this chapter.

SEC. 2. Section 340 of the Code of Civil Procedure is amended to read:

340. Within one year:

1. An action upon a statute for a penalty or forfeiture, when the action is given to an individual, or to an individual and the State, except when the statute imposing it prescribes a different limitation;

2. An action upon a statute, or upon an undertaking in a criminal action, for a forfeiture or penalty to the people of this State;

3. An action for libel, slander, assault, battery, false imprisonment, seduction of a person below the age of legal consent, or for injury to or for the death of one caused by the wrongful act or neglect of another, or by a depositor against a bank for the payment of a forged or raised check, or a check

that bears a forged or unauthorized endorsement, or against any person who boards or feeds an animal or fowl or who engages in the practice of veterinary medicine as defined in Business and Professions Code Section 4826, for such person's neglect resulting in injury or death to an animal or fowl in the course of boarding or feeding such animal or fowl or in the course of the practice of veterinary medicine on such animal or fowl;

4. An action against a sheriff or other officer for the escape of a prisoner arrested or imprisoned on civil process;

5. An action against an officer to recover damages for the seizure of any property for a statutory forfeiture to the State, or for the detention of, or injury to property so seized, or for damages done to any person in making any such seizure.

SEC. 3. Section 1095 of the Code of Civil Procedure is amended to read:

1095. For the purpose of this section, "public entity" includes the State, a county, city, district or other public agency or public corporation. For the purpose of this section, "officer" includes officer, agent or employee.

The State, or its agents in charge of such public use, may enter upon the land and make examinations, surveys, and maps thereof.

CHAPTER 6. DEFENSE OF PUBLIC EMPLOYEES

Article 1. Definitions

992.1. Unless the provision or context otherwise requires, the definitions contained in this article govern the construction of this chapter.

992.2. "Employee" includes an officer, employee or servant, but does not include an independent contractor.

992.3. "Employment" includes office or employment.

992.4. "Enactment" means a constitutional provision, statute, charter provision, ordinance or regulation.

992.5. "Public entity" includes the State, the Regents of the University of California, a county, city, district, public authority, public agency, and any other political subdivision or public corporation in the State.

992.6. "Regulation" means a rule, regulation, order or standard, having the force of law, adopted by an employee or agency of the United States or of a public entity pursuant to authority vested by constitution, statute, charter or ordinance in such employee or agency to implement, interpret or make specific the law enforced or administered by the employee or agency.

Article 2. Defense of Actions and Proceedings Against Public Employees

995. Except as otherwise provided in Sections 995.2 and 995.4, upon request of an employee or former employee, a public entity shall provide for the defense of any civil action or proceeding brought against him, in his official or individual capacity or both, on account of an act or omission in the scope of his employment as an employee of the public entity.

For the purposes of this chapter, a cross-action, counterclaim or cross-complaint against an employee or former employee shall be deemed to be a civil action or proceeding brought against him.

995.2. A public entity may refuse to provide for the defense of an action or proceeding brought against an employee or former employee if the public entity determines that:

(a) The act or omission was not within the scope of his employment; or

(b) He acted or failed to act because of actual fraud, corruption or actual malice; or

(c) The defense of the action or proceeding by the public entity would create a conflict of interest between the public entity and the employee or former employee.

995.4. A public entity may, but is not required to, provide for the defense of:

(a) An action or proceeding brought by the public entity to remove, suspend or otherwise penalize its own employee or former employee, or an appeal to a court from an administrative proceeding by the public entity to remove, suspend or otherwise penalize its own employee or former employee.

(b) An action or proceeding brought by the public entity against its own employee or former employee as an individual and not in his official capacity, or an appeal therefrom.

995.6. A public entity is not required to provide for the defense of an administrative proceeding brought against an employee or former employee, but a public entity may provide for the defense of an administrative proceeding brought against an employee or former employee if:

(a) The administrative proceeding is brought on account of an act or omission in the scope of his employment as an employee of the public entity; and

(b) The public entity determines that such defense would be in the best interests of the public entity and that the employee or former employee acted, or failed to act, in good faith, without actual malice and in the apparent interests of the public entity.

995.8. A public entity is not required to provide for the defense of a criminal action or proceeding (including a proceeding to remove an officer under Sections 3060 to 3073, inclusive, of the Government Code) brought against an employee or former employee, but a public entity may provide for the defense of a criminal action or proceeding (including a proceeding to remove an officer under Sections 3060 to 3073, inclusive, of the Government Code) brought against an employee or former employee if:

(a) The criminal action or proceeding is brought on account of an act or omission in the scope of his employment as an employee of the public entity; and

(b) The public entity determines that such defense would be in the best interests of the public entity and that the employee or former employee acted, or failed to act, in good faith, without actual malice and in the apparent interests of the public entity.

996. A public entity may provide for a defense pursuant to this chapter by its own attorney or by employing other counsel for this purpose or by purchasing insurance which requires that the insurer provide the defense. All of the expenses of providing a defense pursuant to this chapter are proper charges against a public entity. A public entity has no right to recover such expenses from the employee or former employee defended.

996.4. If after request a public entity fails or refuses to provide an employee or former employee with a defense against a civil action or proceeding brought against him and the employee retains his own counsel to defend the action or proceeding, he is entitled to recover from the public entity such reasonable attorney's fees, costs and expenses as are necessarily incurred by him in defending the action or proceeding if the action or proceeding arose out of an act or omission in the scope of his employment as an employee of the public entity, but he is not entitled to such reimbursement if the public entity establishes (a) that he acted or failed to act because of actual fraud, corruption or actual malice, or (b) that the action or proceeding is one described in Section 995.4.

Nothing in this section shall be construed to deprive an employee or former employee of the right to petition for a writ of mandate to compel the public entity or the governing body or an employee thereof to perform the duties imposed by this chapter.

996.6. The rights of an employee or former employee under this chapter are in addition to and not in lieu of any rights he may have under any contract or under any other enactment providing for his defense.

SEC. 3. Section 2001 of the Government Code is repealed.

SEC. 4. Section 2002.5 of the Government Code is amended to read:
