REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Stanton was granted unanimous consent that the following editorial be printed in the Journal:

The Sacramento Bee

May 24, 1965

PAULEY STATEMENTS ARE IRRESPONSIBLE, FOOLISH

The irresponsible and foolish statements made by Edwin W. Pauley, a regent of the University of California, reveal such a gross lack of understanding of the process of education and simple fair play it is truly appalling to think such a man is on the board of regents

Pauley, a wealthy Los Angeles oil man, cited a rumor that four faculty members who will participate in an experimental teaching program at Berkeley believe in Marxism

When asked whether he knew the names of the four, he admitted he did not know who they are but was just repeating what he had been told by some other faculty members

Pauley even had the temerity to say the teachers in question should write letters to him stating they believe in the Capitalist system What monumental gall

He then expounded the theory that the 'American way of life" is "the Capitalist system" and that is what the university should be teaching

---

What a frighteningly wrong view of the university Teaching about the Capitalist system is not the university's function Rather it's obligation is to offer a complete education, making available all the knowledge and theories which have been accumulated over the ages

Furthermore, there is nothing evil about a man being a Marxist. Harold Wilson, the prime minister of England, is a Marxist as are all Socialists. There is nothing subversive about Socialists whether they be English, Swedish or American.

It is misleading to attempt to swathe the Capitalist system with the American Flag and by implication ascribe disloyalty to Socialists There is nothing in the American Constitution which says this is a Capitalist nation. Our economic system has developed over the years and is a mixture of many ingredients, including old style Capitalism and a large dose of the platform of the Socialist Party from a few years back

---

If the university ever adopts the Pauley idea that it should use only teachers who endorse Capitalism then it may as well close up. It no longer will be an educational institution

Such an institution as Pauley envisions would bar most of the great teachers of the ages Would a Thoreau, an Emerson or a Walt Whitman write such a letter to a Ed Pauley? Would a Thomas Paine, a George Bernard Shaw, a Gandhi or a Christ? Certainly not

A university must be a forum for all views and knowledge. It cannot survive if it is put into a mental straitjacket designed solely to support the economic and political theories of the likes of Ed Pauley

Veto Message

State of California, Governor's Office
Sacramento, May 22, 1965

To the Honorable Members of the Assembly
State of California, Sacramento, California

Greetings I am returning herewith, without my signature, Assembly Bill No 703 entitled "An act to amend Section 7053 of the Business and Professions Code, relating to contractors"

There can be no doubt that the public is entitled to competent workmanship Local jurisdiction may not have the technical staff or funds available to provide up-to-date technically correct examinations This would limit the effectiveness of the present state apprenticeship program by subjecting apprentices to examinations for which there is no guarantee of content validity

To permit local licensing of competency without establishing statewide standards will result in a multiplicity of non-uniform licensing examinations which will create artificially restrictive barriers, hamper the flow of economy, and increase costs to the consumer without the corresponding benefits

Competency examinations should be a matter of statewide activity and concern I am willing to explore this matter with all interested parties

Accordingly, I am returning the bill without my signature

Respectfully submitted,

EDMUND G BROWN, Governor

PRAYER

The following prayer was offered by the Chaplain, Rev Robert R Ferguson

Eternal God, We confess we so often use our agility to avoid responsibility Help us with the rush of constant pressures not to follow the lower levels and the easy escapes Guide us lest we hurt those deeply upon whom we are most dependent Through chance, or providence, we are here to do strategic work, and are challenged by issues far beyond our limited knowledge Give to this Assembly humility of spirit, yet tenacity and acumen of intellect, that they may rise to new heights because of the mountainous issues before them May each have a serenity of spirit which keeps them from frustrations, and enables the making of hot decisions calmly In the Name of Christ our Lord —AMEN

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No 294:

State of California, Governor's Office

To the Honorable Members of the Assembly and Senate:

Assembly Bill No. 294, "An act to add Sections 103 8 and 103 9 to the Streets and Highways Code, relating to relocation assistance,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

Amendment No. 1

Strike out lines 1 and 2 of the title of the printed bill, and insert "An act to add Article 6 5 (commencing with Section 4287) to Chapter 17, Division 6 of the Agricultural Code, relating to milk, and making an appropriation therefor"

Amendment No. 2

On page 1, strike out line 1, and insert

"SECTION 1 Article 6 5 (commencing with Section 4287) is added to Chapter 17, Division 6 of the Agricultural Code, to read

Article 6 5 Standby Equalization Fund

4287 The production and distribution of fluid milk and fluid cream is hereby declared to be a business affected with a public interest The provisions of this article are enacted in the exercise of the police powers of this state for the purpose of protecting the health and welfare of the people of this state

4287 1 It is hereby declared that fluid milk and fluid cream are necessary articles of food for human consumption, that the production and maintenance of an adequate supply of healthful milk of proper chemical and physical content, free from contamination, is vital to public health and welfare, and that the production, transportation, processing, storage, distribution and sale of fluid milk and fluid cream in the State of California is an industry, in whole and in part, affecting public health and welfare, that unfair, unjust, destructive and demoralizing trade practices have appeared within this industry and these practices constitute a menace to the health and welfare of the inhabitants of this state by threatening the stability of this industry and by thereby endangering the assurance to the people of the State of California of the maintenance of an adequate supply of this necessary commodity; that it is a policy of this state to promote, foster and encourage the intelligent production and orderly marketing of commodities necessary to its citizens, including fluid milk and fluid cream, and to eliminate speculation, waste, improper marketing, unfair and destructive trade practices, and improper accounting for milk purchased from producers

4287 2 It is recognized by the Legislature that currently the powers conferred upon the director by Chapter 17 (commencing with Section 4200) of Division 6 are inadequate to enable the dairy industry to correct existing evils, develop and maintain satisfactory marketing conditions, and bring about and maintain a reasonable

amount of stability and prosperity in the production of fluid milk and fluid cream, and that to accomplish these purposes, and particularly to insure to consumers within California, an adequate and continuous supply of pure, fresh and wholesome milk at fair and reasonable prices, including a reasonable estimate of the additional supply which is needed to provide for normal fluctuations in production and in consumer demand for such products (hereafter referred to as "standby") such powers must be supplemented by the powers conferred in this chapter upon the director to equalize fairly and equitably the compensation to producers for the cost of producing and maintaining the necessary standby production

In this connection the Legislature declares that while the cost of producing the necessary standby quantity of fluid milk is one of the factors taken into consideration in the establishment of the Class 1 price to producers for fluid milk, that to the extent that the standby cost of production is reflected in the Class 1 price, producers with relatively low Class 1 usage are not fairly compensated for the production of standby. Also, the Legislature declares and finds that all market milk produced in the state and utilized for Class 2 or Class 3 usages is potentially available as standby milk to meet necessary standby requirements and that it is impractical to determine which producer's milk produced in excess of his Class 1 usage or what quantity of any producer's milk in excess of his Class 1 usage, constitutes the true and necessary standby supply

The Legislature further declares that since the enactment into law of this Chapter in 1935, the general equality among producers in receiving payment for the necessary cost in producing the necessary standby, has been replaced by a great inequality whereby the producers with the lowest percentage of Class 1 usage payment, while producing the greatest amount of fluid milk available for standby requirements, are receiving the least compensation for their standby production and that on the other hand, producers with the highest percentage of Class 1 usage payment are producing the smallest amount of milk available for standby requirements while they are receiving the most payment for producing the necessary standby production, and as a consequence, if the substantial inequality of payment to producers for producing the necessary standby quantity of fluid milk is not eliminated, it will destroy the stability and endanger the prosperity generally of the production segment of the dairy industry, and seriously endanger the permanent continuation of the adequate supply of pure, fresh and wholesome milk Accordingly, the Legislature hereby declares that to effectuate the purpose previously stated in this article and chapter, it is now necessary that the pricing powers conferred upon the director by this chapter be supplemented by the powers conferred upon him by this article

4287 3 *In effectuating the purposes of this article, the director shall establish a* standby fund for the purpose of equalizing among producers the necessary cost of producing the necessary standby requirement of fluid milk The necessary standby cost base is declared to be twenty-five cents ($0 25) per hundredweight for milk testing 3 8 percent milk fat.

On the basis of the above standby cost factor, each distributor of fluid milk shall deduct from the Class 1 payment to producers each month for fluid milk as required by Chapter 17, and pay to the director to the credit of the standby equalization fund the following amounts four cents ($0 04) per pound for each pound of milk fat utilized by the distributor for Class 1 purposes and 10 cents ($0 10) per hundredweight for each hundredweight of skim milk component utilized for Class 1 purposes

The director may, from time to time, revise the standby cost base and the required payments to the Standby Equalization Fund Any such revision shall be by order of the director following a public hearing or hearings called for the purpose of revising such standby cost base and the payments to the fund Any such revision shall be based on data and evidence presented by interested parties at said hearing including data and evidence on the cost of producing standby milk presented by the director or his representatives at said hearing Any such hearing shall comply with the notice and other procedures as provided in Section 4273

4287 4 All money received by the director pursuant to this article for the Standby Equalization Fund shall be deposited in a bank or banks or other depository approved by the Director of General Services Funds so collected shall be deposited and disbursed in conformity with the provisions of this article and any rules and regulations issued by the director for the purpose of carrying out the provisions of this article The expenditures of such funds shall be exempt from the provisions of Section 9256 of the Government Code

4287 5 All moneys collected by the director pursuant to this article are hereby appropriated to the Department of Agriculture to carry out the duties imposed upon the director under the provisions of this article The appropriation herein made shall be exempted from the operation of Section 16304 of the Government Code The moneys collected by the director pursuant to this article shall be disbursed by the director only for the purposes of this article, including necessary expenses incurred by the director to carry out the purposes of this article The director shall maintain a reserve within the Standby Equalization Fund to meet contingencies in carrying

out the purposes of the article and to cover the costs of carrying out the purposes of this article The reserve balance at the end of each month shall not exceed 5 percent of the amount received during the month The director shall pay from the reserve balance each month, to the Department of Agriculture Fund an amount to cover the necessary costs incurred in carrying out the purposes of the article

4287 6 Except as otherwise provided, the money received by the director under this article for the Standby Equalization Fund shall be paid to all milk producers in the state subject to a stabilization and marketing plan as follows

The total amount of money received for milk fat utilized for Class 1 purposes shall be paid monthly to producers on a pro rata basis for each pound of milk fat of each producer utilized for Class 2 or Class 3 purposes and the total amount of money paid to the director for skim milk utilized for Class 1 purposes shall be paid to producers on a pro rata basis for each hundredweight of skim milk component of each producer utilized for Class 2 or Class 3 purposes

4287 7 Payments to producers from the Standby Equalization Fund may be made through a distributor as agent for the director for producers delivering milk to such distributor provided that such distributor complies with requirements specified by the director for making such payments

4287 8 A producer-distributor who sells only milk produced by him is exempt from all of the provisions of this article except for such reports as the director may require for the proper enforcement of the article A producer-distributor is not exempt from this article for any Class 1 usage of fluid milk during any month in which he purchases unprocessed fluid milk from another producer

4287 9 The director may exempt all producers in a marketing area who market their milk in the area and all distributors in such marketing area from the provisions of this article if he finds that the purposes of this article are generally being accomplished in the marketing area Such exemption may be made only for a marketing area wherein the director finds that substantially all fluid milk produced in the area is marketed by producers to distributors at plants within the marketing area and substantially all milk sold in the marketing area is produced by producers in the area and a further finding that payment for the cost of producing the necessary standby production for the area is generally equal among producers in the area

The exemption authorized by this section may be made by the director only after a public hearing is held in the area by the director and the appropriate findings are made by the director following such hearing

4288 All provisions of this chapter relating to the power of the director, reports and statistics, penalties, disciplinary proceedings, and construction and interpretations shall be applicable to this article"

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No. 2399.

State of California, Governor's Office
Sacramento, May 17, 1965

To the Honorable Members of the Assembly and Senate:

Assembly Bill No. 2399, "An act to amend Sections 158, 200, 204, 205, 401, 402, 405, 1721, 2454, 2456, 2693, 2694, 2893, 2812, 2982, 3148, 3149, 3151, 4236, 4324, 4414, 4546, 4903, 4904, 4905, 5132, 5133, 5601, 5682, 6629, 6797, 6955, 7135, 7136, 7440, 7581, 7727, 8030, 8676, 8967, 9037, 9575, 9769, 9870, 9871, 17845, 18632, 19174 of, to add Sections 206, 406, 1723 5, 2458 5, 2715 5, 2810, 2896, 3153, 4417, 4906, 5136, 5605, 5684, 6631.5, 6800, 6957, 7138, 7443 1, 7584, 7730, 8032, 8677, 8968.5, 9040, 9576, 9771, 9872, 17846, 19175 to, and to repeal Sections 202, 203, 1722, 2457, 2810, 2814, 2890, 2894, 2983, 3145, 4547, 5602, 5603, 5683, 9038, 9575 6, 9770, 9872, 9874, 17846, and 18637 of, the Business and Professions Code, relating to state funds, and declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

The facts constituting such necessity are: This act provides for the merger of several special funds into a single special fund, and is designed to operate in conjunction with an appropriation in the Budget Act out of such single fund It is essential, therefore, that the act become operative at the same time as the Budget Act and that it go into effect immediately

I, therefore, recommend consideration of Assembly Bill No. 2399, as an emergency measure

Respectfully submitted,

EDMUND G. BROWN, Governor

RESOLUTIONS

The following resolutions were offered

By Assemblyman Dannemeyer

House Resolution No. 550

Relative to commending Clifford Rothrock, Paul W. Cook and the Kiwanis Club of Greater Anaheim

WHEREAS, Clifford Rothrock, Vice Principal of Savanna High School in Anaheim, is the founder of the Service Gents Program, and

WHEREAS, This program was instituted on behalf of young boys on the verge of dropping out of high school, and to invite them to become members of the Service Gents Club and thereby motivate them to remain in school, and

WHEREAS, Paul W Cook, Superintendent of Schools of the Anaheim Union High School District, was of great assistance in this program, and

WHEREAS, The program is sponsored by the Kiwanis Club of Greater Anaheim, now, therefore, be it

Resolved by the Assembly of the State of California, That the Members commend Clifford Rothrock, Paul W Cook, and the Kiwanis Club of Greater Anaheim for establishing and carrying out the Service Gents Program and for their consequent assistance to the youth of the state, and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit suitably prepared copies of this resolution to Messrs Rothrock and Cook and the Kiwanis Club of Greater Anaheim

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

By Assemblywoman Davis:

House Resolution No. 551

Relative to territory included in zones established for purposes of administration of the laws governing licensed pheasant and game bird clubs

WHEREAS, The Legislature, at its 1965 Regular Session, has enacted legislation revising the boundary of Zones A and B established by law for purposes of administration of the laws governing the operations of licensed pheasant and other game bird clubs, and such revision of the boundaries has involved the inclusion in Zone B (and exclusion from Zone A) of a substantial area in western Fresno County situated, more particularly, south and west of the City of Mendota, and

WHEREAS, There exists, nevertheless, a considerable uncertainty and conflict in expert opinion concerning whether this territory is properly includable in Zone B, and

WHEREAS, While this territory in western Fresno County has been included in Zone B on the basis of its unsuitability as natural habitat for pheasants and like game birds, a seemingly contradictory situation has arisen in that one or more depredation hunts have been conducted therein to reduce the alleged over population of pheasants and the depredations caused by those game birds, now, therefore, be it

Resolved by the Assembly of the State of California, That the Department of Fish and Game in the Resources Agency is directed to undertake a comprehensive study of that territory in western Fresno County situated south and west of the City of Mendota which was included in Zone B by the Legislature at the 1965 Regular Session, for purposes of providing the Legislature with information which will enable it to make an informed determination concerning whether or not that territory is properly includable in Zone B; and be it further

Resolved, That the Department of Fish and Game, in making such study, shall consider, also, the effects upon unattached hunters which the inclusion of this territory in Zone B will have, particularly with reference to the establishment of private hunting clubs and the assessment of fees by such clubs within the territory; and be it further

Resolved, That the Department of Fish and Game shall report the results of its study, including therein its recommendations, to the Assembly Interim Committee on Conservation and Wildlife on or before September 1, 1966.

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules.

By Assemblymen Mulford, Waldie, and Monagan:

House Resolution No. 552

Relative to the operation of the Legislature

WHEREAS, California now has the largest population of any state in the union, and its budget is second only to that of the United States Government, and

WHEREAS, Due to the enormous and rapid growth in the state's population, the Legislature is confronted with an overwhelming burden in formulating programs that will provide essential services to the people of the state within the scope of the state's financial resources, and

WHEREAS, It is virtually impossible for the Legislature, with the present facilities available to it, to perform the tasks imposed upon it with the efficiency and economy that is so vitally necessary in the enactment of sound and constructive legislation; and

WHEREAS, Members of the Legislature, who under our present system serve only on a part-time basis, are called upon to devote many hours each day in the performance of legislative duties, and have little time to devote to their families, their business interests, or their own well-being, and

WHEREAS, The situation is now so grave that it is now generally accepted that legislative sessions will have to be extended to annual session and the Constitutional Revision Commission is including such a proposal in its draft of a revised Constitution; and

WHEREAS, Not only are the present working conditions detrimental to Members of the Legislature, they also impose severe hardship on members of the staff and on persons employed in the various agencies established to provide vital services to the Legislature, and

WHEREAS, A difficult situation confronts the staff of the Legislative Counsel, Legislative Analyst, the Auditor General, the Legislative Reference Service, the Bill Room, the Sergeants-at-Arms, and all who are employed to serve the Legislature, because of the many hours of overtime required of them; and

WHEREAS, Because of the demands placed upon them and their dedication to their duties, the staff and personnel of the agencies mentioned endanger their health and work themselves into a state of fatigue that severely handicaps them in the performance of tasks which often call for the utmost concentration and attention to detail, and

WHEREAS, The physical facilities available in the State Capitol are also inadequate, since the majority of the members do not have sufficient office space or personnel to assist them, there are no facilities for rest and exercise, and there is no satisfactory eating facility available in the building, and

WHEREAS, A problem confronts those Members who represent large constituencies and who represent districts near Sacramento, since their workload is considerably heavier than that of some other Members, and yet they are not provided with the necessary additional staff or facilities to cope with the additional burden imposed on them, and

WHEREAS, In view of the problems outlined in this resolution, it is urgently necessary that a committee be established to conduct an immediate study of these problems, so that the exact extent of the problems can be ascertained and solutions devised, now, therefore, be it

Resolved by the Assembly of the State of California, as follows

1 The Assembly Interim Committee on Legislative Operations is hereby created and authorized and directed to ascertain, study and analyze all facts relating to the operations of the Legislature during legislative sessions, which study shall include a review of the following matters as applied to the Legislature, its staff, and the staffs of the agencies mentioned in this resolution

(a) Workload.
(b) Employees
(c) Office procedures and facilities
(d) Office space
(e) Hours of work

In considering recommendations for facilities that might be needed to bring the working conditions of the legislators and legislative employees into a "livable" condition, the committee shall consider the need for

(a) Additional office space and facilities, particularly for the members from heavily populated districts and districts near Sacramento, including ways and means of securing the same

(b) Additional staff

By Assemblyman Garrigus:

House Resolution No. 553

Relating to an interim study of the qualifications for tenure in public education institutions of higher education

WHEREAS, Colleges and universities throughout the nation require that the continued employment of an academic teacher as a professor be contingent upon the publication by the teacher of a work of research, or some other "significant contribution" to the subject knowledge in his particular field of endeavor; and

WHEREAS, California shares this system insofar as its higher education system is concerned; and

WHEREAS, Many academicians and lay people have long criticized this so-called doctrine of "publish or perish" practiced at our college and university campuses as an incomplete measurement of the academic worth of an individual teacher; and

WHEREAS, A good teacher is not necessarily a good writer, and a fine writer and researcher may make an extremely poor teacher; and

WHEREAS, The primary purpose of higher education is, or should be, the instilling of knowledge and reasoning ability in students, now, therefore, be it

Resolved by the Assembly of the State of California, That the Rules Committee assign to an appropriate interim committee for study the subject of the existence and effectiveness of the so-called "publish or perish" doctrine in California higher education and other methods which might be used in measuring the quality of teachers in determining whether or not they shall be granted tenure; and be it further

Resolved, That such interim committee report to the Assembly its findings and recommendations thereon no later than the fifth legislative day of the 1967 Regular Session

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

74450 The provisions of this chapter apply only to districts within Ventura County

74451 Except as provided in this chapter every district within Ventura County shall be governed by the provisions of this division

74461 Such change may be initiated by the board by resolution or may be initiated by a petition signed by not less than 5 percent of the electors of the district Such resolution or petition shall state the new number of members of the board or the new basis for dividing the district into divisions based either on area or population

74462 If the divisions are based on population, the population of each as determined by the last published decennial federal census shall be substantially equal in population In no event shall the total population of any combination of divisions comprising a majority of the number of divisions of the district equal less than one-half of the population of the district In no event shall the largest division exceed the population of the smallest division by a ratio exceeding 2 to 1

In establishing the boundaries of the divisions consideration may be given to the following factors topography, geography, cohesiveness, contiguity, compactness of territory, and community of interests of the divisions

74463 When such change has been initiated the board within 60 days thereafter shall submit to the board of supervisors its report thereon containing a map or description of recommended division boundaries in accordance with this Division 21

74464. Within 40 days after receipt of the report of the board, the board of supervisors may change the division boundaries recommended by the board provided such change is in accordance with such resolution or petition and this chapter and shall fix the time and place of a hearing by the board not less than 30 nor more than 60 days thereafter

74466 The board of supervisors shall hear all interested persons and may adjourn the hearing from time to time Following such hearing the board of supervisors may further change the proposed division boundaries provided such change is in accordance with this chapter and the resolution and petition. The board of supervisors shall make an order describing the proposed divisions of the district, numbering such divisions consecutively, and directing that such proposed redivision be submitted to the electors of the district at a special election to be consolidated with the next district general election to be held not earlier than 120 days thereafter

74467. The election on the proposed redivision of the district shall be held in the same manner as elections for the formation of a district so far as applicable No particular form of ballot shall be required except that the ballot shall contain the words "_____ Water Conservation District Representation to Be Based on (Population) (Area) Rather than on (Area) (Population)—Yes—No" or "_____ Water Conservation District Directors to Be (Increased) (Decreased) from _____ to _____—Yes—No." or both, or words equivalent thereto Any proposed redivision or change in number of directors shall become effective if a majority of the electors voting in the election vote "Yes" thereon

74468. Directors to fill vacancies in new divisions in the event the redivision is approved by the voters shall be nominated and elected at the same election in the same manner as for election of directors of a district so far as applicable If one

incumbent director resides within a proposed new division his term of office shall not be affected by the approval of the redivision by the voters of the district If two or more incumbent directors reside within a proposed new division, the term of office of each of them will terminate on the approval of such redivision unless only one is duly nominated, in which case his term of office shall not be affected by the approval of such redivision A candidate who is a director of the district shall be permitted to have the word "Incumbent' or words equivalent thereto placed after his name on the ballot

74470. If the board of supervisors, at any time after making an order as provided by Section 74466 and prior to the election on the proposed redivision of the district, finds that it is in the public interest to do so, it may appoint not more than two electors of the district as temporary additional directors of the district The number of temporary additional directors thus appointed shall be irrespective of the number of existing divisions of the district and of the number of proposed new divisions of the district Such temporary additional directors shall have all of the powers, rights and privileges of elected directors and shall hold office until the election on the proposed redivision of the district

SEC 2 The Legislature hereby finds and declares that facts and circumstances exist in Ventura County peculiar to that county which necessitates the special procedure provided by this act for redividing water conservation districts within Ventura County including, but not limited to, the general location of this district and its proximity to the ocean, the extremely rapid changes in geographic and economic distribution of the elements which are involved in the activities of the district, and the problem of salt water intrusion which the entire district is engaged in combating although it is basically an urban problem"

House Resolution No. 505, as amended

By Assemblymen Young, Barnes, Beilenson, Biddle, Crown, Deukmejian, Knox, Winton, and Zenovich

House Resolution No. 505

Relating to a study of pornography and violence

WHEREAS, Widespread concern has been expressed for revitalizing in the consciousness of the people of California a sense of community standards of good taste and behavior, and

WHEREAS, There are many symptoms of the breakdown of those standards in many segments of our California society, and

WHEREAS, Among those symptoms is an apparently growing amount of smutty and pornographic materials available in various forms to the very young of the state, and

WHEREAS, Another symptom of this breakdown is the increasing popularity of dramatizations of violence on our mass communications media aimed, apparently, at the younger audiences, and

WHEREAS, There is little consensus among knowledgeable persons about what the actual effect of this pornography and violence may be on the intellectual and emotional development of our young people, and

WHEREAS, Whatever the effect of these materials, there is evidence that the publication and dissemination of smutty materials has reached the level of a multimillion dollar industry and that at least part of that industry is located in California, and

WHEREAS, There is little or no statistical information presently available to allow a meaningful evaluation of prosecutions under the existing California obscenity statute, Penal Code Sections 311-312; and

WHEREAS, The United States Congress has concerned itself with a number of studies in this area; especially concerning the depiction of crime and violence by the communications media and its effect on young people, but the Legislature of the State of California has never devoted itself to a full-scale and in-depth study of the effects of pornography and depiction of violence on the young people of the state; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to assign to the appropriate committee for study the subject of the presence of pornography and depiction of violence within the state; and be it further

Resolved, That this study shall include, but not be limited to a determination of the effect of pornographic materials upon the intellectual and emotional development of California's young people, the degree to which juvenile crime and related aspects of juvenile behavior may be linked to the consumption of pornographic materials by minors, the degree to which depictions of violence may affect juvenile behavior, the availability of all such materials to the public in general and, especially, to minors, the extent to which the business of writing, publishing and disseminating pornographic materials is established in the State of California and the extent to which the communications media are used to depict violence and other antisocial behavior in formats designed primarily for young people; and be it further

Resolved, That this study shall also include but not be limited to an extensive investigation and evaluation of prosecutions under the existing Penal Code Sections 311-312, since their enactment in 1961; and be it further

Resolved, That this part of the study shall include the number of complaints filed under these sections by district, city and other local prosecuting attorneys, the number of such complaints that were carried to trial, the results of these trials and a description of the types of materials against which these complaints were drawn, and be it further

Resolved, That this part of the study shall also include an evaluation of the present obscenity statute by the prosecuting attorneys and the defense attorneys who have participated in cases involving the statute; and be it further

Resolved, That the Assembly Committee on Rules shall direct the committee to which this subject is assigned, to report its findings and recommendations to the Assembly no later than the fifth legislative day of the 1967 Regular Session of the Legislature

Resolution, as amended, referred to the Committee on Rules and the subject matter to be referred to the Committee on Rules for assignment to the proper interim committee for study.

Eternal God, On this Memorial Day, while thinking of legislation, the big race, and pleasure, may we not forget those who have lived courageously and died triumphantly These our dead can be like a cloud of witnesses to us. May we who live as a result of their sacrifices not cherish merely a fleeting memory, but may we have dedicated devotion and action. As ominous clouds still loom and our men still die in distant lands, may we endeavor to be as efficient and sacrificing here as they are there. We pray in the name of the Prince of Peace.—AMEN.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No 235·

State of California, Governor's Office
Sacramento, May 6, 1965

To the Honorable Members of the Senate and Assembly:

Senate Bill No. 235, as amended May 6, 1965, "An act authorizing the Department of Water Resources to repair and restore the Daguerre Point Debris Dam on the Yuba River, and declaring the urgency thereof, to take effect immediately."

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

The facts constituting such necessity are Floods of December, 1964, severely damaged the north abutment of Daguerre Point Dam, which was recently reconstructed by the United States Army Corps of Engineers Repair of the damaged north abutment is necessary to protect the dam from destruction In order that the dam may be repaired at the earliest possible time, thereby avoiding serious damage to public and private property, it is essential that this act go into effect immediately

I, therefore, recommend consideration of Senate Bill No 235, as amended May 6, 1965, as an emergency measure

Respectfully submitted,

EDMUND G BROWN, Governor

House Resolution No. 567

Relative to motor vehicle air pollution control

WHEREAS, The State of California has acquired a status of world-wide leadership in its pioneering efforts to control and reduce photochemical smog caused by emissions from internal combustion engines used in motor vehicles, and

WHEREAS, These pioneering efforts in motor vehicle air pollution control have resulted in a recognized present and projected decrease in hydrocarbon emission from motor vehicles, and

WHEREAS, This pioneering effort to bring about a clean and wholesome atmosphere for its citizens properly depends upon the research and evaluation of all new and scientific engineering achievements and the development of new techniques for the control of this source of air pollution, and

WHEREAS, The primary emphasis in motor vehicle air pollution control heretofore has been directed toward hydrocarbon and carbon monoxide emissions from motor vehicles, and

WHEREAS, Legislation is pending which would require the motoring public to install additional devices on their automobiles at a very great cost and expense for the primary control of hydrocarbon emissions, and

WHEREAS, Eminent scientific authority has also indicated that efforts made to reduce hydrocarbon emissions without reducing nitrogen oxides may raise the ratio of nitrogen oxides in the atmosphere, and

WHEREAS, These same scientific sources have also indicated that increased ratios of nitrogen oxides in the atmosphere may be more noxious and more dangerous to life and health than hydrocarbons, and

WHEREAS, Public support for California's continued leadership in air pollution control must of necessity progress on a basis that has properly evaluated all recognized scientific theories dealing with various motor vehicle emissions that contribute to air pollution, and

WHEREAS, The State Department of Public Health has the responsibility under law for establishing standards of ambient air quality and is now in the process of establishing standards for emissions of nitrogen oxides, now, therefore be it

Resolved by the Assembly of the State of California, That the Members urge the State Department of Public Health, in addition to establishing standards for nitrogen oxides, to also determine and evaluate the effect that control and diminishment of hydrocarbon emissions will have upon emission of nitrogen oxides and the effect, if any, that the singular control of hydrocarbon emissions will have on reduction of air pollution for the health and safety of its citizens, and report its findings thereon to the Legislature not later than February 1, 1966, and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the Director of the State Department of Public Health

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules.

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is hereby directed to assign to an appropriate interim committee a study of the problems related to different types of health insurance plans with a view toward correcting deficiencies in present practices and to direct such committee to report its findings and recommendations thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session

CHAPTER 2 1 OUTDOOR ADVERTISING ON STATE HIGHWAYS

Article 1 Declaration of Policy

5350 The Legislature finds and declares that

(a) The economy of the state and of many areas and regions within the state is peculiarly and substantially dependent upon the scenic resources which attract great numbers of tourists and which give great pleasure and instruction to these tourists and to the motoring public generally, the income from whose presence is a vital factor in the healthy economic growth and development of the state and these areas and regions, and that there is a compelling economic necessity to protect and preserve these scenic resources in the interest of the general welfare of the people of this state through the limitation of the amount and types of outdoor advertising

(b) The urban landscapes provided by the extensive and continuing growth and development of many communities of the state and by the unique or distinctive topographic or geographic characteristics of the sites or locations of said communities, and the otherwise necessary elevated highway facilities in such communities afford inspiring and instructive panorama of such urban landscapes, and such views, both day and night, constitute scenic and cultural resources in their own right, and that there exist compelling economic and esthetic reasons to protect and preserve these resources in the interest of the general welfare of the people of this state

(c) In addition to fulfilling the above purposes, it is the intent and purpose of this chapter to prevent unreasonable distraction of motor vehicle operators, to prevent confusion with regard to traffic lights, signs or signals or other interference with the effectiveness of traffic regulations, to promote maximum safety, comfort and well-being of the users of the state highways; and to protect the public investment in state highways

5351 The Legislature further finds and declares that the safety and general welfare of the people of this state require the provision of adequate and comprehensive information to the motoring public respecting comfort and convenience facilities, certain commercial services, emergency services, and places of scenic, cultural or historical importance, and that such information is a matter of statewide concern and should be provided in a uniform and consistent manner along the state highway system, and that the methods and devices used to provide such information should be integrated to the maximum degree possible with the official signing methods and devices provided on or adjacent to said highway systems pursuant to federal or state law

5352 It is declared to be the intent of the Legislature in enacting this chapter to establish minimum standards with respect to the regulation of outdoor advertising The governing body of any city, county, or city and county may enact ordinances, including but not limited to land use or zoning ordinances, imposing restrictions on outdoor advertising equal to or greater than those imposed by this chapter

5353 The provisions of this chapter pertaining to the restriction, regulation, control, and licensing of outdoor advertising on lands adjoining the state highways in California shall not be construed so as to limit the power of any city, county, or city and county to regulate advertising in any manner permitted by law along streets or highways other than state highways

The provisions of this chapter shall govern outdoor advertising along state highways, other than interstate highways and landscaped freeways Outdoor advertising along interstate highways and landscaped freeways shall continue to be governed by Chapter 2 (commencing with Section 5200) of this division.

To the Honorable Members of the Assembly and Senate

Assembly Bill No. 1258, "An act to amend Sections 6762 and 18221 of the Education Code, relating to educationally handicapped minors, and making an appropriation therefor,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

I, therefore, recommend consideration of Assembly Bill No. 1258 as an emergency measure

ANTI-CAPITALISM IRRESPONSIBILITY

Edwin H Pauley, member of the Board of Regents of the University of California with a long public career, has been attacked because he expressed the view that faculty members should believe in the capitalist system.

Democratic elements have headlined that Pauley was guilty of "irresponsible, foolish' statements and charged that he has a gross lack of understanding of the educational process and of fair play The intemperate indulgence in such language indicates that the description might better fit its makers.

Part of the complaint is that Pauley had voiced concern about four faculty members at Berkeley having Marxist or pro-Communist leanings without knowing their names FBI Director J Edgar Hoover previously had spoken of these four, and his utterance is justification enough for concern even without knowing the identity of the specific four

Efforts to cope with a problem in its general ramifications should not depend upon ability to pinpoint each and every person who might be contributing to the situation. Awareness of the condition warrants the wish to do something remedial.

More basic is the claim that the university's function is not to teach about the capitalist system This attitude blinds itself to United States' history and to this country's present eminence as the product of that self-same capitalist system

It a university is not to teach about our free enterprise system, who is? Yet, the very sources that say a university should not teach the meaning of this heritage urge that teaching of other concepts, such as Marxism, is proper

In this contradiction is a peculiar form of apology for what America is and stands for It is nearly self-hate Strangely, such self-abasement is usually espoused by those claiming to be liberal Democrats, whereas it is neither liberal nor in furtherance of democracy

This perverse attitude insists that young people elsewhere may properly be inculcated with the philosophies of their lands and trained in the dialectics of their ideologies—but that Americans uniquely must be left ignorant of their heritage and unable to express themselves about the basic system that contributed so much to our present greatness, prosperity and liberties

The capitalist system today is not what it was a century, or even a generation, ago That is has fluidity, is not inflexible, is able to borrow from other approaches, manifests its continuing significance and emphasizes why our youth should be helped to achieve appreciation of it

Understanding of capitalism does not negate knowledge of other systems as well An awareness of all the alternatives is necessary for ability to strengthen our way of life—and makes it look all the better in comparison with other concepts that are more hidebound

Capitalism as a broadening system, able to be modified to meeting changing times, can be maintained only if each generation is given insight into its fundamentals, background and expanding possibilities But this continuity and growth can never be achieved unless students are afforded understanding by instructors who believe in what they are teaching

This need is axiomatic in other countries It is no less essential here To want people to teach the values of our capitalistic free enterprise system with conviction is neither irresponsible nor foolish

Unemployment Benefits in Trade Disputes – # 21679

Dear Mr Mills

QUESTION

You have asked whether Assembly Bill No 2440, as the bill would read if amended by the amendments prepared under our Request No 21680, would in any manner change the eligibility requirements of Section 1262 of the Unemployment Insurance Code, relating to unemployment insurance benefits in trade disputes

OPINION

We do not think that the bill, as so amended, would in any manner change the eligibility requirements of Section 1262

ANALYSIS

Section 1262 of the Unemployment Insurance Code provides

"1262 An individual is not eligible for unemployment compensation benefits, and no such benefit shall be payable to him, if he left his work because of a trade dispute Such individual shall remain ineligible for the period during which he continues out of work by reason of the fact that the trade dispute is still in active progress in the establishment in which he was employed."

A B 2440, if amended as proposed, would, generally speaking, add a Section 1262 5 to the Unemployment Insurance Code* and authorize the Department of Employment whenever it learns that a trade dispute is in progress to conduct a preliminary investigation and make a preliminary determination as to whether or not any class or classes of employees involved in the dispute may be, or are, ineligible to receive unemployment insurance benefits because they have left work because of the dispute (Subd (a)) The bill would also establish procedures whereby persons concerned would be notified of the department's determination (Subds (b), (c)) and establish procedures for appeals from the department's determination (Subds. (d)-(g)) and for payment of benefits during appeals (Subd (h))

*Provisions referred to hereafter would be in Section 1262 5, U I C , as it would be added by the bill

We think it is clear that the bill, if amended as proposed, would concern the department's procedures in making its determination as to eligibility for benefits in trade disputes under Section 1262 of the Unemployment Insurance Code

We find nothing in the bill, as it would be amended by the proposed amendments, which we think would cause a court to conclude that the Legislature intended by enacting the bill to change the eligibility requirements of Section 1262 in any manner.

Very truly yours,

GEORGE H. MURPHY

RESOLUTIONS

The following resolutions were offered:

By Assemblyman Mulford

House Resolution No. 579

Relative to anti-Semitic persecution in the Soviet Union

WHEREAS, Recent events have emphasized the need for the efforts of the leaders of American Jewry directed to awakening public opinion to the continuing oppression of Jews living under Soviet rule, and

WHEREAS, There is now an abundance of evidence indicating a Soviet policy of repression singling out the Jews for inordinately harsh punishment for alleged economic offenses, for systematic restriction on religious observances by those of the the Jewish faith and by a denial to those Jews within Russia of any opportunity for reunion with their families in other countries, and

WHEREAS, A resolution, with 67 coauthors, calling attention to the plight of Soviet Jewry was recently introduced in the United States Senate, the result of a nationwide effort to focus public attention on these outrages, now, therefore, be it

Resolved by the Assembly of the State of California, That the members thereof appeal to the conscience of liberty-loving Californians and urge them to study and discuss the facts individually and within their organizations, and as individuals and through their organizations to raise a public protest to the end that the Soviet Union will alter its anti-Semitic policy and give its Jewish citizens rights and protection equal to those enjoyed by other Soviet citizens

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

By Assemblyman Mulford:

House Resolution No. 580

Relative to an interim study of the taxes imposed on working women

WHEREAS, In virtually all cases, taxes are imposed upon men and women equally in California, and

WHEREAS, The Legislature has recognized in some instances that expenses of working women are sometimes greater than those of men who are gainfully employed, as, for example, by allowing working mothers a deduction for personal income tax purposes for money expended to provide care for their young children, and

WHEREAS, The electorate has also indicated that it is aware of the fact that financial burdens sometimes fall unequally on women by approving Proposition No 5 at the General Election on Tuesday, November 3, 1964, which increased the property exemption of widows of veterans from five to ten thousand dollars, and

WHEREAS, A thorough study is needed to evaluate the additional expenses incurred by women who are employed outside the home to determine, among other things, which of such expenses are a necessary incident of employment and which might be considered as appropriate expenses to allow as a deduction for income tax purposes; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Rules Committee is directed to assign to the appropriate interim committee the subject matter of this resolution for study, and the committee shall report its findings and recommendations to the Assembly not later than the fifth legislative day of the 1967 Session of the Legislature

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules.

By Mr. Belotti:

House Resolution No. 581

Relating to the California fishing industry

WHEREAS, The commercial and sport fishing industries are important to all citizens of California by providing jobs, food, recreation and other economic benefits, and

WHEREAS, There is a need to sustain this important industry by maintaining and increasing the marine and anadromous fish populations along the California coast; and

WHEREAS, The total catch of the California fishing industry in recent years has declined, and

WHEREAS, The increasing foreign fishing competition is a potential threat to the continued existence of the California fishing industry, and

WHEREAS, To increase the catch and to meet the foreign competition there is a need to develop new fishing methods, new ways to process the catch, and to increase the population of certain marine species by scientific management, and anadromous species by hatchery production and other artificial methods; and

WHEREAS, The necessary funds have not been provided for research or development of new programs such as the above; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to refer to an appropriate interim committee for study the subject of the economic condition of the California fishing industry and the means to finance new programs to aid the industry such as developing new fishing methods, locating new areas and species for fishing, developing new ways to process the catch, finding ways to maintain or enhance the populations of marine fish species, enhancing anadromous species by hatchery production or other artificial means and to direct the committee to report its findings to the Legislature no later than the 5th legislative day of the 1967 Regular Session of the Legislature

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules.

By Assemblywoman Davis:

House Resolution No. 582

Relative to Davis-Grunsky Act loans

WHEREAS, Loans which are made under the Davis-Grunsky Act to public agencies for multipurpose projects not only benefit directly the agencies and areas in which the projects are located, but also have many varied secondary, or indirect, benefits to such agencies and areas and to the state, and

WHEREAS, In considering applications for loans, it would appear that some consideration should be given to these secondary, or indirect, benefits; and

WHEREAS, There would also appear to be a necessity for a lowering of the interest rate on the loans, or otherwise liberalizing the loan provisions under the Davis-Grunsky Act, to enable additional public agencies to secure loans for projects which are vital not only to the areas in which such agencies are located, but also to the entire state; and

WHEREAS, Finally, an evaluation should be made of the criteria by which the Department of Water Resources allocates costs with regard to Davis-Grunsky Act projects; now, therefore, be it

Resolved by the Assembly of the State of California, That the Committee on Rules is directed to assign to an appropriate interim committee for study the subject of the Davis-Grunsky Act, including but not limited to the possibility of consideration of secondary, or indirect benefits with respect to loans under the act, the

possibility of lowering the interest rate or otherwise liberalizing the loan provision under the act, and the evaluation of the criteria by which the Department of Water Resources allocates costs with regard to Davis-Grunsky Act projects, and to direct such committee to report its findings thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature.

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

By Assemblyman Gonsalves:

House Resolution No. 583

WHEREAS, This is the first time in the history of the conference that a team has gone undefeated in conference play; and

WHEREAS, The overall record of the team was 38 wins; including 22 straight wins, and six losses, and

WHEREAS, Winning first team all-league honors for their stellar play were John Treece; Craig Scoggins, Mike Paul, Bob Vaughn, and Seiran Stepanian, and

House Resolution No. 584

Relative to the State School Building Aid program

WHEREAS, For many years the state has aided, according to need, certain school districts in maintaining their construction programs through a system of state loans for that purpose, and

WHEREAS, Due to the forgiveness factor embodied in the State School Building Aid program, the state presently is paying approximately 40 percent of the total cost of such local school construction, and

WHEREAS, Assembly Bill 145 of the 1964 First Extraordinary Session of the Legislature contained a major item of new state policy in that it applied financial penalties to school districts with excessive class sizes, consequently raising a question of harmonizing the State School Building Aid program with this new law, and

WHEREAS, While the state has for a number of years financed this building loan program through bond revenues, the cost of bond financing has risen to the point where the value received in actual construction of school buildings will soon be exceeded by the cost of servicing the bonds, and

WHEREAS, Reports have come to the attention of the Members of the Legislature that many school buildings constructed under the state aid program have been extravagantly planned, designed and constructed, and it has further been alleged that the fullest use is not made in these structures of all the available space, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to assign to an appropriate interim committee a major study of the State School Building Aid program, a projection of the needs of the program in future years together with an estimate of the total cost involved, the methods which could be used in the future to finance the program, the equity and efficiency of the building standards used in the present program by the State Allocation Board, the probable effects of Assembly Bill 145 of the 1964 First Extraordinary Session on the program, and any other subjects of study pertinent thereto, and be it further

Resolved, That such interim committee be directed to present its findings, together with any recommendations for changes in the program, to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules
