When displayed on the premises in such a manner as to be plainly visible, such license shall serve as evidence that the prescribed license fee has been paid to the expiration of the indicated fiscal year, and no additional fee shall be required during said period because of a change in ownership.

20769. The motor fuel pump license shall be of a form prescribed by the department, and shall have stated upon it the fiscal year to which same is applicable, the fee paid, together with such wording as the department may require for clear and proper identification.

20770. It is unlawful to remove any valid motor fuel pump license from the premises which has been licensed.

20771. It is unlawful to display or use any license, tag, label or design, indicating or tending to indicate that same is a motor fuel pump license, except a valid license issued by the department under the provisions of this article.

20772. In the event that a motor fuel pump license has been lost, destroyed or stolen, the department shall, upon application of the owner or operator of the motor fuel pumps or other dispensing devices for which such license was used or intended to be used, issue a letter of certification that the prescribed fees have been paid. Such certification shall serve as proof of payment until the end of the fiscal year.

20773. After July 31st of any fiscal year and until the last day of June of said fiscal year no sealer shall issue a certificate of accuracy or a seal of accuracy for any pump, container or other dispensing device from which is dispensed at retail any petroleum product for use as fuel for internal combustion engines unless such pump, container or other dispensing device shall have been licensed as provided for in this article.

20774. On and after the first day of August and until the last day of June of any fiscal year the department, or a sealer, may close and seal outlets and inlets of any pump, container or other dispensing device from which is sold at retail gasoline, liquefied petroleum gas, diesel fuel, distillate, outboard motor fuel or other petroleum products for use as fuel for internal combustion engines, unless such pump, container or other dispensing device shall have been licensed as provided for in this article.

Presentation of valid proof, by the owner or operator, that the license has been applied for shall be sufficient evidence of compliance with the provisions of this article and the provisions of Sections 20773 and 20774 shall be disregarded.

20775. It is unlawful for any person, other than the department or a sealer, to break, mutilate or destroy any seal or seals placed upon the outlets or inlets of any pump or other dispensing device as provided by this article.

20776. Any person who violates any of the provisions of this article is guilty of a misdemeanor, and is guilty of a separate offense for each day during any portion of which any violation of this article is committed, continued or permitted by such person.

20777. All license fees collected under the provisions of this article shall be credited to the Department of Agriculture Fund, to be expended for the administration and enforcement of this chapter.

Article 3. Standards for Gasoline

20780. Gasoline, as defined in this chapter, means any liquid petroleum product which conforms to the specifications of this article. Subject to the provisions of Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code, the department shall have the authority to promulgate and enforce such rules and regulations as are necessary to carry out the provisions of this article. In promulgating such rules and regulations, the department shall adopt standards as set forth in American Society for Testing and Materials D-439, except that vapor pressure specifications shall be omitted and a distillation end point specification of 437 degrees Fahrenheit maximum shall be added.

20781. It is unlawful for any person to sell, offer for sale, assist in the sale of, permit to be sold or offered for sale, or deliver or offer to deliver to any premises for the purpose of sale, any product as or purporting to be "gasoline," unless the product conforms to the specifications of this article.

20782. It is unlawful for any person to sell, offer for sale, or cause or permit to be sold or offered for sale, or deliver or offer for delivery, any petroleum product as a fuel for internal combustion engines at any place where petroleum products are kept or stored for sale, which does not conform to the requirements of this article, unless and until there shall be firmly attached to or painted upon each container, receptacle, pump, and inlet end of the fill-pipe of each underground storage tank, from which or into which such petroleum product is drawn or poured for sale or delivery, a sign or label, plainly visible, comprising the brand, trademark or trade name of such fuel, or the words "no brand," which words shall be in letters of gothic type with a stroke of not less than one-eighth inch in width and not less than one inch in height, and also the words "not gasoline" in red letters of gothic type with a stroke of not less than one-half inch in width and not less than three inches in height, on a white background and not less than twice the size of any other letters or words appearing on or near the label or sign.

The provisions of this article, as to the words "not gasoline," shall not apply to signs or labels used in connection with the sale or delivery of distillate, kerosene, jet or turbine fuel, diesel fuel, liquefied petroleum gas, or motor fuel comprised of mixture of gasoline and lubricating oil properly labeled in accordance with the provisions of Article 6 of this chapter.

20783. The sign or label required by this article to be attached to the inlet end of the fill-pipe of an underground storage tank shall consist of a tag or plate firmly attached or affixed and plainly visible while the tank is being filled. The letters on such sign or label may be of any convenient size.

Article 4. Standards for Lubricating Oils

20800. Crankcase drainings, lube-distillate, or any other product shall not be sold, offered for sale, delivered, offered for delivery or stored as a motor oil or lubricating oil for use in an internal combustion engine unless such product conforms to the following specifications:

(a) It shall be free from water and suspended matter when tested by means of centrifuge, in accordance with the standard test therefor.

(b) The flash points for the various S.A.E. (Society of Automotive Engineers) classifications shall not be less than the following when tested in accordance with the standard method of test for flash and fire points by means of the Cleveland open cup:

Viscosity classification	Viscosity SSU at 210° F.	Minimum flash degrees Fahrenheit
SAE 5W		305
SAE 10W		335
SAE 20W		345
SAE 20		345
SAE 30		355
SAE 40		375
SAE 50		400
Grade 60	110 to less than 125	435
Grade 70	125 to less than 150	470

20801. Except as provided in this article if any lubricating or motor oil sold, or offered for sale or delivery, has been previously used for the lubrication of internal combustion engines or any gearing or shafting attached to or connected thereto, or for any other lubricating purposes, or has been rerun or filtered, redistilled or reclaimed, the container shall bear a superimposed sign or label of rectangular shape not less than 4 by 6 inches containing the words "reclaimed motor oil" or "lubricating oil, reclaimed," in red letters of gothic type over a white background with a stroke of not less than one-eighth inch in width and not less than three-fourths inch in height.

On all containers of one gallon or less, a superimposed sign or label of rectangular shape of not less than 2 by 3 inches containing the words "reclaimed motor oil" or "lubricating oil, reclaimed," in red letters of gothic type over a white background with a stroke of not less than one-sixteenth inch in width and not less than one-half inch in height shall be sufficient.

20802. If any reclaimed, rerun or redistilled oil is used in blending or compounding in other petroleum products being sold, offered or kept or stored for sale, the fact of such blending or compounding shall be indicated on all containers as re-

quired by this article for containers of unblended reclaimed, rerun or redistilled lubricating oil.

20803. The sign or label required by this article to be attached to the inlet end of the fill-pipe of an underground storage tank shall consist of a metal tag firmly attached or affixed and plainly visible while the tank is being filled.

The letters on such sign or label may be any convenient size.

20804. Where bottles used for dispensing lubricating or motor oil, either unused or reclaimed, are kept in baskets, stands or racks it is sufficient to label each such basket, stand or rack in lieu of labeling each bottle therein. All bottles kept in such baskets, stand or rack as provided in this article shall contain a product of the same brand, quality and viscosity rating.

20805. No bottles containing reclaimed lubricating or motor oil shall be kept or commingled in any basket, stand or rack containing any bottles used to dispense unused lubricating or motor oils.

20806. Every person who buys, sells, offers for sale, or who stores lubricating oil or motor oil which is required by Section 20801 to be labeled "reclaimed motor oil" or "lubricating oil, reclaimed," shall make and keep for one year a separate record of each such purchase, sale or storage.

Said record shall include the name and address of the person from whom such oil was purchased or to whom such oil was sold, together with the date of such purchase or sale and the quantity thereof in terms of the United States gallon or a binary submultiple of the gallon.

All records required by this section shall be open at all times during business hours to inspection by an official authorized to enforce the provisions of this chapter. Refusal or failure to keep such records or to permit the inspection thereof is a misdemeanor.

The provisions of this section do not apply to the retail sale of such oil in quantities of five gallons or less to any one person.

Article 5. Price Indications on Petroleum Dispensing Apparatus

20820. No person shall sell, offer for sale, or advertise for sale, at retail to the general public, any gasoline or other motor vehicle fuel from any place of business in this State by use of or through or from any dispensing apparatus, unless there is displayed on such dispensing apparatus in a conspicuous place at least one sign showing the actual total price per gallon of all gasoline or other motor vehicle fuel sold, offered for sale, or advertised for sale therefrom. The actual total price per gallon shall include fuel taxes and where sales tax is to be added the sign shall so state and show the rate and tax base.

20820.1. Any person who sells or offers for sale any gasoline or other motor vehicle fuel from any place of business in this State by use of, or through, or from any dispensing apparatus, who offers trading stamps to his customers shall display upon the dispensing apparatus a sticker, decal, or sign affixed thereto, setting forth the number of trading stamps that will be given with each ten-cent ($0.10) purchase or multiple thereof.

20821. Each sign required by this article shall be placed in a conspicuous place on the dispensing apparatus and if service of gasoline or other motor vehicle fuel may be made from more than one side of such dispensing apparatus the sign shall be so placed as to be visible from at least two sides of the dispensing apparatus.

20822. Each sign required by this article shall be not less than five inches nor more than eight inches in height and shall be not less than eight inches nor more than 12 inches in width.

20823. All letters, figures or numerals on each sign required by this article, however affixed, marked, imprinted, placed or embossed, shall be at least three-fourths of an inch in height and all lines or marks used in the making or forming of all such letters, figures or numerals which are a part of the sign shall be at least one-eighth of an inch in width.

20824. All letters, figures or numerals which are part of any sign required by this article shall be plainly legible, and of like color or tint and such color or tint shall contrast with the background and other parts of the sign.

20825. For the purpose of this article a fraction is considered one numeral.

20826. A price indicator used in connection with a computing meter pump or a pump designed to compute price fulfills the requirements of this article; provided, all letters, figures or numerals used to designate the total fuel-tax-included price per gallon are clear and distinct and so located as to be plainly discernible to the purchaser and, provided further, that where sales tax is to be added a sign so stating and designating the rate and tax base shall be conspicuously displayed on the dispensing apparatus.

20826.5. No person shall display on any dispensing apparatus from which gasoline or other motor vehicle fuel is being offered for sale or sold, any sign referring to the price of such gasoline or other motor vehicle fuel, which shall include a price indicator used in connection with a computing meter pump or a pump designed to compute price, unless such sign is limited to the actual total price per gallon of all gasoline or other motor vehicle fuel, as prescribed in Sections 20820 and 20826 of this article.

20827. It is unlawful for any person, firm, corporation or association, or any employee thereof to make or disseminate or cause to be made or disseminated before the public in this State, in any newspaper or other publication, or any advertising device, or by public outcry or proclamation, or in any

other manner or means whatever, any statement relative to price, discount or saving of any motor vehicle fuel which comes under the provisions of this article, which is false, deceptive or misleading in any particular and which is known or which by the exercise of reasonable care should be known, to be untrue, false or misleading.

Article 6. Labeling

20840. It is unlawful for any person to sell, offer for sale, assist in the sale of, permit to be sold or offered for sale, or deliver or offer for delivery, for internal combustion engines any gasoline, distillate, kerosene, diesel fuel, outboard motor fuel, or other motor fuel or any oil represented as lubricating or motor oil at any place where petroleum products are kept or stored for sale, unless and until there is firmly attached to or painted upon each container, receptacle, pump, and inlet end of the fill-pipe of each underground storage tank, from which or into which such product is drawn or poured out for sale or delivery, a sign or label plainly visible consisting of the name of such product or motor fuel in letters not less than one-half of an inch in height, together with the brand, trademark or trade name of such product, which word or words shall also be in letters of not less than one-half of an inch in height. When such sign or label is used in connection with "lubricating oil" or "motor oil," the sign or label shall also have in letters and numerals, plainly visible and not less than one-half of an inch in height, the viscosity grade classification number of the "lubricating oil" or "motor oil."

The Society of Automotive Engineers grade classification number shall be determined in accordance with the Society of Automotive Engineers latest recommended practice of crankcase oil classification, and shall be preceded by the letters "S.A.E." Lubricating oil or motor oil falling within more than one S.A.E. grade classification shall be labeled to show the grade or grades for which the supplier intends it for use.

On any container with a net content of one United States gallon or less the brand, trademark or trade name, and the S.A.E. grade classification number or other grade classification number and the words "motor oil" or "lubricating oil" may be painted, printed, embossed or otherwise firmly affixed on such container in letters and numerals not less than one-sixteenth inch in width and not less than one-fourth inch in height, and such designation shall constitute compliance with the provisions of this section.

20841. If any gasoline has no brand, trademark or trade name, each sign or label required by this article shall consist of the words, in letters of gothic type with a stroke of not less than one-half inch in width, and not less than three inches in height, "gasoline, no brand." Such sign or label shall consist of red letters upon a white background.

20842. If any lubricating or motor oil has no brand, trademark or trade name, each sign or label required by this article therefor shall consist of the words, in letters of gothic type with a stroke of not less than one-half inch in width, and not less than three inches in height, "lubricating oil, no brand," "motor oil, no brand." Such sign shall consist of red letters upon a white background.

20843. If lubricating or motor oil is reclaimed used oil, each sign or label required by this article shall also include the words "reclaimed lubricating oil" or "reclaimed motor oil." Such sign shall consist of red letters upon a white background.

20844. Letters of gothic type with a stroke of not less than one-sixteenth inch in width and not less than one-half inch in height shall be sufficient on all containers with a capacity of one gallon or less to meet the requirements of this article.

20846. The provisions of this article as to size of letters shall not apply to signs or labels at the inlet end of any underground storage tank, which letters may be of any convenient size but such letters shall be plainly visible while such underground storage tank is being filled.

20847. Whenever any pump, receptacle or other container is maintained or used to serve more than one driveway, the signs or labels required by this chapter shall be placed upon both sides of such pump, receptacle or other container so that one set of signs or labels shall be clearly visible from each such driveway.

Wherever any pump, receptacle or other container is maintained or used to serve only one driveway, the signs or labels required by this chapter shall be upon the side of such pump, receptacle or other container adjacent to such driveway.

20848. Small hand measures used for delivery of petroleum products, and filled in the presence of the customer, need not be labeled in accordance with this chapter if the receptacle, container or pump from which petroleum products are drawn or poured into such hand measures is properly labeled as required by this chapter.

20849. It is unlawful for any person to deposit or deliver, or permit to be deposited or delivered, into any tank, pump, container or receptacle, or into any bottle or bottles kept in a basket, stand or rack, at any place where petroleum products are kept or stored for sale, any gasoline or other motor fuel, or any distillate, kerosene, lubricating oil or motor oil, other than that indicated by the brand, trademark, trade name, and in the case of lubricating oil or motor oil, the S A E. classification number or other viscosity grade classification number displayed on the tank, pump, container, receptacle, bottle, basket, stand or rack, or the inlet end of the underground storage tank, except as provided in this chapter.

20850. Subject to the provisions of this chapter relating to tank vehicles, it is unlawful for any person to attach or connect, or cause or permit to be attached or connected, any pump, container or other device, used for or in the drawing, pouring, or delivery of any petroleum product referred to in this chapter, and intended for sale, to or with any tank or receptacle containing any petroleum product or any liquid other than the one described on the label, tag or sign attached or affixed to such pump, container or other device.

20851. Subject to the provisions of this chapter relating to tank vehicles, it is unlawful for any person in making any sale, to pump, draw, furnish or deliver, or to cause or permit to be pumped, drawn, furnished or delivered, by means of, or through, any pump or other device, any product other than the one described on the label, tag or sign attached or affixed to such pump or other device.

20852. The use of pumps or other devices which are capable of withdrawing gasoline from each of two tanks containing different qualities of the same petroleum product and dispensing them as a single combined product shall be authorized when the department determines that all of the following conditions exist:

(a) The device mechanism accurately measures the quantities of the gasoline being simultaneously withdrawn from each of the two tanks and the quantity dispensed.

(b) The device mechanism accurately and visibly records and displays the resulting combined quality, the total quantity, the price per gallon for the particular quality combination being dispensed, and the total price of the quantity of gasoline dispensed at the particular sale.

(c) The device has a locking selector mechanism which prevents the changing of the proportion of the two qualities being combined during the dispensing of the desired quantity.

The provisions of this section shall not supersede any other provisions in this chapter, except that they shall supersede the provisions of Sections 20782, 20783, 20840, 20846, 20849, 20850, 20851, and 20930 to the extent necessary to authorize the operation of a blending type of pump connected to two tanks containing two different products, or two different grades of the same product, which, when blended together in different proportions, will produce gasolines of different octane rating, each blend of which shall meet the specifications for gasoline as required by this chapter.

20853. The use of pumps or other devices which are capable of withdrawing gasoline from one tank containing gasoline and another tank containing motor oil and dispensing them as a single combined product and of withdrawing gasoline alone from the tank containing gasoline shall be authorized when the department determines that all of the following conditions exist:

(a) The device mechanism accurately measures the quantities being simultaneously withdrawn for dispensing as a com-

bined product from each of the two tanks when the combined product is dispensed and the quantity being dispensed from the gasoline tank alone when gasoline alone is dispensed.

(b) The device mechanism accurately and visibly records and displays the ratio of gasoline to motor oil, the quantity of each ingredient being dispensed, the price per gallon for the gasoline being dispensed, and the price per quart for any motor oil being dispensed.

(c) The device mechanism prevents the changing of the ratio of gasoline to motor oil during dispensing.

(d) There is firmly attached to or painted upon the device mechanism a sign or label plainly visible consisting of the word or words in letters not less than one-half of an inch in height "outboard motor fuel" together with the brand, trademark or trade name of such product, which word or words shall also be in letters of not less than one-half of an inch in height.

The provisions of this section shall not supersede any other provisions in this chapter, except that they shall supersede such other provisions including Sections 20782, 20783, 20840, 20846, 20849, 20850, 20851, and 20930 to the extent necessary to authorize the operation of the above-described blending type of pump connected to two tanks, one containing motor oil and the other gasoline, provided that the motor oil shall in its separate state meet the specifications for lubricating oil as required by Section 20800 and that the gasoline shall in its separate state meet the specifications for gasoline as required by Section 20780.

Article 7. Tank Vehicles

20860. It is unlawful for any person to transport in any tank vehicle, for the purpose of sale, or for delivery to any place where petroleum products are kept or stored for sale, any petroleum products as a fuel for internal combustion engines, distillate, kerosene or any oil represented as lubricating or motor oil for internal combustion engines, unless and until there is compliance with either of the following:

(a) There shall be firmly attached to or affixed at each outlet faucet or valve of each such tank vehicle, a metal tag, plate or label, on which is displayed in letters not less than one-half inch in height, the name of the particular product in the tank compartment of the tank vehicle with which such valve or faucet is connected and the brand, trademark or trade name of such product, or the words "no brand," and in the case of lubricating oil or motor oil, the S.A.E. classification shall also be displayed in letters and numerals not less than one-half inch in height.

(b) The tank vehicle shall be equipped with a meter conforming to the provisions of this article relating to meters.

20862. If a tank vehicle is equipped with a meter for the purpose of measuring the quantities of different grades, brands or trade names of a product withdrawn from more than one compartment, then means shall be provided whereby there will

be a clear and easily legible indication of the grade, brand, or trade name of the product which is being measured by the meter.

20862.5. In the event that a tank vehicle is equipped with a meter or meters for the purpose of measuring the quantity of motor oil withdrawn from the tank vehicle, no such meter shall be alternately used for the measurement of different grades, brands, or trade names of a motor oil for delivery at any place of business from which is being sold at retail any petroleum product mentioned in this chapter.

20863. The device used for the indication of grade, brand or trade name as required by this article shall be so interlocked or interconnected with the valve or other device with which the selection of product is controlled, that any change in position of the controlling or selecting device shall automatically indicate the grade, brand, or trade name of the product which has been selected for measurement and delivery. Such device shall not permit the flow of products of different grades, brands or trade names at any given time.

This section shall not prohibit the use of an unloading position on the selecting device or mechanism. Said unloading position shall be used only when all compartments contain a single grade of a product. It shall be further provided that when there is such a position on the selecting device adequate means shall be provided to prevent the indicator of the selecting device being placed in the unloading position unless the operator commits a deliberate act such as the removal of a pin or the turn of a valve or some other deliberate act. This device, or position on the selecting mechanism, shall also indicate the grade, brand or trade name of the product being selected for measurement.

20864. Nothing in this chapter prohibits the use of a single meter, with its accessory devices and without a controlling or selecting mechanism, for the purpose of measuring the contents of one compartment only, or of two or more compartments if, or when, a product of a single grade, brand, or trade name is carried in all such compartments at any one time.

20865. (a) In the event that the compartments of a tank vehicle are connected to a common outlet, no compartment so connected shall contain a product different than the product as contained in any other compartment unless adequate provision is made to avoid intermixture.

(b) In the event that a tank vehicle is equipped with a meter, or meters, for the purpose of measuring the quantity of fluid withdrawn from the tank vehicle, no such meter shall be alternately used for the measurement of different products.

This section does not prohibit transporting two or more grades of gasoline, or of other motor fuel, or of distillate, or of kerosene, or of burner oil, at any one time in all compartments whose contents are to be measured by the one meter.

In the application of this section to deliveries to the fuel tank of any aircraft, it is unlawful to handle gasolines specifically

refined or manufactured for the operation of aircraft engines and gasolines not specifically refined or manufactured for the operation of aircraft engines through the same meter.

20866. It is unlawful for any person to operate a tank vehicle equipped with a meter for the purpose of measuring the quantities of products of different grades, brands or trade names withdrawn from any one or more compartments:

(a) If the quantity contained within the meter and its accessory devices on the discharge side of the controlling or selecting mechanism is greater than four gallons where the meter discharge is designed for two-inch or smaller standard pipe size.

Where the quantity which is contained on the discharge side of the controlling or selecting mechanism is 4 gallons or less, it is unlawful to make a delivery of less than 50 gallons to any person who is engaged in the business of selling at retail gasoline or other motor fuel, unless, when such delivery of less than 50 gallons is made, such quantity of gasoline or other motor fuel other than which is to be delivered, as may remain from a previous delivery shall be cleared from the discharge side of the controlling or selecting mechanism.

(b) If the quantity contained within the meter and its accessory devices on the discharge side of the controlling or selecting mechanism is greater than 8 gallons where the meter discharge is designed for a standard pipe size in excess of 2 inches and not greater than 2½ inches.

Where the quantity which is contained on the discharge side of the controlling or selecting mechanism is more than 4 gallons and not greater than 8 gallons, it is unlawful to make a delivery of less than 100 gallons to any person who is engaged in the business of selling at retail gasoline or other motor fuel, unless, when such delivery of less than 100 gallons is made, such quantity of gasoline or other motor fuel other than which is to be delivered, as may remain from a previous delivery shall be cleared from the discharge side of the controlling or selecting mechanism.

(c) If the quantity contained within the meter and its accessory devices on the discharge side of the controlling or selecting mechanism is greater than 12 gallons where the meter discharge is designed for a standard pipe size in excess of 2½ inches and less than 4 inches.

Where the quantity which is contained on the discharge side of the controlling or selecting mechanism is more than 8 gallons and not greater than 12 gallons, it is unlawful to make a delivery of less than 150 gallons to any person who is engaged in the business of selling at retail gasoline or other motor fuel, unless, when such delivery of less than 150 gallons is made, such quantity of gasoline or other motor fuel other than which is to be delivered, as may remain from a previous delivery shall be cleared from the discharge side of the controlling or selecting mechanism.

(d) If the quantity contained within the meter and its accessory devices on the discharge side of the controlling or selecting mechanism is greater than 16 gallons where the meter discharge is designed for a standard pipe size of 4 inches or more.

Where the quantity which is contained on the discharge side of the controlling or selecting mechanism is more than 12 gallons, it is unlawful to make a delivery of less than 200 gallons to any person who is engaged in the business of selling at retail gasoline or other motor fuel, unless, when such delivery of less than 200 gallons is made, such quantity of gasoline or other motor fuel other than which is to be delivered, as may remain from a previous delivery shall be cleared from the discharge side of the controlling or selecting mechanism.

20867. If a tank vehicle is equipped to make deliveries through the medium of pump and hose in connection with a meter for the purpose of measuring the quantities of different grades, brands or trade names of a product from any one or two or more compartments, there shall be no limitation on the quantity of the grade, brand or trade name of the product which may be contained within the pumps, meter, accessory devices and hose on the discharge side of the controlling or selecting mechanism except that the pump and hose shall be cleared of such quantity of the grade, brand or trade name other than that which is to be delivered as may remain on the discharge side of the controlling or selecting mechanism from a former delivery. The grade, brand or trade name of the product thus cleared may be returned to its appropriate compartment by means of the pump.

20868. If a single meter with its accessory devices, and without a controlling or selecting mechanism, is used for the purpose of measuring the contents of one compartment only, or of two or more compartments, it is required that if such volume of liquid as may be retained in the meter and its accessory devices on the discharge side of the controlling or selecting mechanism shall exceed 4 gallons where the meter is designed for a 2-inch or smaller standard pipe size, or 8 gallons where the meter is designed for a standard pipe size in excess of 2 inches and not greater than 2½ inches, or 12 gallons where the meter is designed for a standard pipe size in excess of 2½ inches and less than 4 inches, or 16 gallons where the meter is designed for a standard pipe size of 4 inches or larger, the quantity so remaining shall be replaced whenever a change is made in the grade, brand or trade name of a product which is carried in such compartment or compartments.

20869. Whenever a change is made in the petroleum product carried in any compartment, the entire contents of its discharge piping and devices shall be replaced and the discharge piping and devices flushed with the product intended for delivery.

Article 8. Price Sign Advertising

20880. (a) Nothing in this article shall be construed to apply to the price signs referred to in Article 5 of this chapter; provided, however, that any numerals designating the net tax-included price per gallon for a particular brand or trade name of gasoline or motor vehicle fuel permitted under the provisions of Article 5 of this chapter, unless otherwise stated herein, shall be identical in numerical value with numerals designating the net tax-included price per gallon for the same brand or trade name of gasoline or other motor vehicle fuel permitted under the provisions of this Article 8.

(b) No person shall keep, maintain or display on or near the premises of any place of business in this State any advertising medium, which indicates or shows or advertises the price of gasoline or other motor vehicle fuel sold, offered for sale or advertised for sale from such premises, unless the actual price per gallon of gasoline or other motor vehicle fuel including taxes is also shown on such advertising medium, together with the word or words "gasoline" or "motor fuel" and the trade name or brand of the gasoline or other motor vehicle fuel product advertised for sale by such advertising medium.

(c) No person offering for sale or selling any gasoline or motor vehicle fuel from any place of business in the State of California shall post or display a sign or statement or other advertising medium reading, in substance, "save" a designated amount, or a designated amount per gallon, such as "save 5 cents" or "save 5 cents per gallon", or using the expression "off" a designated amount, such as "5 cents off" or "5 cents less", or "discount" of a given amount, such as "5 cents discount", or otherwise using the words "save", "off", "discount", "less", "below", or any of them, or a word or words of similar meaning or other phraseology indicating a reduced price, unless there is posted and displayed in letters and numerals of at least equal size and as part of the same sign, statement or other advertising medium, the total price, or prices per gallon, including all taxes from which such reduction will be made, the reduction given and the total net price per gallon, including all taxes, at which gasoline or other motor vehicle fuel is being sold or offered for sale. Words shall be used to explain the reduced price, the amount of reduction, and the price from which the reduction is made. Such words shall be clearly shown in letters at least half the size of the numerals indicating price.

But if at any time within 90 days after such entry in the minutes, the defendant and his bail appear, and

satisfactorily excuse the defendant's neglect or show to the satisfaction of the court that the absence of the defendant was not with the connivance of the bail, the court shall direct the forfeiture of the undertaking or the deposit to be discharged upon such terms as may be just. If benefits are based on wages paid by two or more nonprofit organizations, the benefits shall be borne by each of the nonprofit organizations in the proportion that the total wages paid to the individual in employment by each nonprofit organization bears to the total wages paid to the individual in employment by all nonprofit organizations during the base period. The members of the joint account may elect either to share the additional cost to the Unemployment Fund of the benefits paid with respect to employment for such members, or to share the cost of benefits paid with respect to employment for such members and charged to the joint account in accordance with Section 1026. The director shall prescribe authorized regulations for the establishment, maintenance, and dissolution of joint accounts, and for the rate or amount, time, manner, and method of payment of contributions by the members of joint accounts, on an additional cost basis and on the alternative basis of the cost of benefits charged in accordance with Section 1026. Sec-

(d) In making the payments prescribed by subdivision (c) (1) of this section, and by subdivision (c)(3) of this section for a joint account on an additional cost basis, there shall be paid or credited to the Unemployment Fund, either in advance or by way of reimbursement, as may be determined by the director, such sums as he estimates the Unemployment Fund will be entitled to receive from each nonprofit organization on an additional cost basis under this section for each calendar quarter, reduced or increased by any sum by which he finds that his estimates for any prior calendar quarter were greater or less than the amounts which should have been paid to the fund. Such estimates may be made upon the basis of such statistical sampling, or other method as may be determined by the director.

Upon making such determination, the director shall certify to the nonprofit organization the amount determined with respect to it. The contributions due from the nonprofit organization shall be paid to the Unemployment Fund by the nonprofit organization.

(e) After the termination of any election under this section, nonprofit organizations shall remain liable for their proportionate share of the additional cost of benefits paid, or of the cost of benefits paid and charged to their accounts in accordance with Section 1026, which are based on wages paid for services during the period of the election.

(1) Service performed in any calendar quarter in the employ of any such nonprofit organization exempt from federal income tax if the remuneration for such service is less than fifty dollars ($50).

(2) Service performed in the employ of a school, college, or university, if such service is performed by a student who is enrolled and is regularly attending classes at such school, college, or university.

(3) Service performed as a student nurse in the employ of a hospital or a nurses' training school by an individual who is enrolled and is regularly attending classes in a nurses' training school chartered or approved pursuant to state law.

(c) In lieu of the contributions required of employers except as provided by Section 714, each nonprofit organization that has elected coverage under this section may elect any one of the following:

(1) To pay into the Unemployment Fund in the State Treasury at the times and in the manner provided in subdivision (d) of this section, an amount equal to the additional cost to the Unemployment Fund of the benefits paid with re-

spect to employment for the nonprofit organization. Benefits otherwise payable irrespective of this section shall be charged to employers' accounts in accordance with other sections of this division, but the additional cost to the Unemployment Fund of the benefits paid pursuant to this section shall be borne solely by the appropriate nonprofit organization. If benefits are based on wages paid by two or more nonprofit organizations, the benefits shall be borne by each of the nonprofit organizations in the proportion that the total wages paid to the individual in employment by each nonprofit organization bears to the total wages paid to the individual in employment by all nonprofit organizations during the base period. "Total wages paid" as used in this subdivision include taxable wages as well as wages which would be taxable except for the limitation on taxable wages provided under Section 930.

(2) To pay into the Unemployment Fund the cost of benefits paid with respect to employment for the nonprofit organization and charged to its account in accordance with Section 1026, pursuant to authorized regulations which shall prescribe the rate or amount, time, manner, and method of payment of contributions and the extent to which the reserve account elements of any nonprofit organization that has made contributions pursuant to an elective coverage agreement either under Section 702 or this section may be included in its account under this subdivision (c)(2). Sections 712, 1030, 1031, and 1032 shall not apply to an election under this subdivision (c)(2).

(3) Two or more nonprofit organizations that have elected coverage under this section may, pursuant to authorized regulations, file an application with the director for the establishment of a joint account for the purpose of determining the rate of contributions they shall pay into the Unemployment Fund to reimburse the fund for benefits paid with respect to employment for such nonprofit organizations. The members of the joint account may elect either to share the additional cost to the Unemployment Fund of the benefits paid with respect to employment for such members, or to share the cost of benefits paid with respect to employment for such members and charged to the joint account in accordance with Section 1026. The director shall prescribe authorized regulations for the establishment, maintenance, and dissolution of joint accounts, and for the rate or amount, time, manner, and method of payment of contributions by the members of joint accounts, on an additional cost basis and on the alternative basis of the cost of benefits charged in accordance with Section 1026. Section 712 shall not apply to any joint account established pursuant to this subdivision, but the director may by authorized regulations prescribe the extent to which the reserve account elements of any nonprofit organization that has made contributions pursuant to an elective coverage agreement either under Section 702 or this section may be included in the joint account. Sec-

tions 1030, 1031, and 1032 shall not apply to any joint account established pursuant to this subdivision.

(d) In making the payments prescribed by subdivision (c) (1) of this section, and by subdivision (c)(3) of this section for a joint account on an additional cost basis, there shall be paid or credited to the Unemployment Fund, either in advance or by way of reimbursement, as may be determined by the director, such sums as he estimates the Unemployment Fund will be entitled to receive from each nonprofit organization on an additional cost basis under this section for each calendar quarter, reduced or increased by any sum by which he finds that his estimates for any prior calendar quarter were greater or less than the amounts which should have been paid to the fund. Such estimates may be made upon the basis of such statistical sampling, or other method as may be determined by the director.

Upon making such determination, the director shall certify to the nonprofit organization the amount determined with respect to it. The contributions due from the nonprofit organization shall be paid to the Unemployment Fund by the nonprofit organization.

(e) After the termination of any election under this section, nonprofit organizations shall remain liable for their proportionate share of the additional cost of benefits paid, or of the cost of benefits paid and charged to their accounts in accordance with Section 1026, which are based on wages paid for services during the period of the election.

(f) Except as inconsistent with the provisions of this section, the provisions of this division and authorized regulations shall apply to any matter arising pursuant to this section.

SEC. 3. Section 930.5 of said code is amended to read:

930.5. If an employer during any calendar year acquires substantially all the property used in a trade or business of another employer, or used in a separate unit of a trade or business of such other employer, and immediately after the acquisition employs in his trade or business an individual who immediately prior to the acquisition was employed in the trade or business of the employer from whom the property was acquired, then, for the purpose of determining whether the acquiring employer has paid remuneration with respect to employment in excess of the limitation prescribed by Section 930, or the limitation prescribed by Section 985, to such individual during such calendar year, any remuneration with respect to employment paid to such individual by the employer from whom the property was acquired during such calendar year and prior to such acquisition shall be considered as having been paid by the acquiring employer. As used in this section "remuneration" does not include the remuneration referred to in Sections 931, 932, 933, 934, 935, 936, and 937.

939. Sections 931, 932, 933, 934, 935, 936, and 937 shall be operative only during such time as the respective type or types of payments set forth in those sections are similarly excluded from the definition of wages contained in the Federal Unemployment Tax Act.

SEC. 6. Section 1052 of said code is amended to read:

1052. Upon receipt of the application the separate account, actual contribution and benefit experience and payrolls of the predecessor or that part thereof, as determined by authorized regulations, which pertains to the organization, trade, or business, or portion thereof acquired, shall be transferred to the successor employer for the purpose of determining its rate of contribution after such acquisition with the same effect for such purpose as if the operations of the predecessor had at all times been carried on by the successor. Such separate account shall be transferred by the director to the successor employer and, as of the date of the acquisition, shall become the separate account or part of the separate account, as the case may be, of the successor employer, and the benefits thereafter chargeable to the predecessor employer on account of employment relating to the transferred organization, trade, or business or transferred portion thereof prior to the date of the acquisition shall be charged to the separate account. This section shall not apply to any acquisition which is determined by the director to have been made solely or primarily for the purpose of obtaining a more favorable rate of contributions under Sections 977, 978 or 979.

SEC. 7. Section 1137 of said code is amended to read:

1137. If the director finds that the collection of any contributions will be jeopardized by delay he shall thereupon make an assessment of such contributions, noting upon the assessment that it is a jeopardy assessment levied under this section. The director may in levying the assessment demand a deposit of such security as he deems necessary to insure compliance with this division. The amount of such assessment shall be immediately due and payable, whether or not the time otherwise allowed by law or authorized regulations has expired. If the amount of contribution, interest and penalty specified in the jeopardy assessment is not paid within 15 days after the service upon the employer of notice of the assessment, such assessment is final unless a petition for reassessment is filed with a referee within that time. The penalties and interest provided in Sections 1126, 1127, 1128, 1129 and 1135 in respect to assessments shall attach to the amount of the contributions specified in the jeopardy assessment.

SEC. 8. Section 1138 of said code is amended to read:

1138. The employer against whom a jeopardy assessment is levied may within 15 days after the service of the notice of the assessment, file a petition to a referee for the reassessment thereof. The petition for reassessment shall not be valid unless the employer deposits with the director, within 15 days after

the service upon the employer of notice of the assessment accompanied by demand for deposit, such security as the director deems necessary to insure compliance with this division. If a valid petition for reassessment is filed within the time prescribed, Section 1134 shall apply to the review and hearing before the referee and the Appeals Board.

SEC. 9. Section 1337 of said code is amended to read:

1337. The decision of the Appeals Board on an appeal from the decision of a referee must be rendered within 60 days after the filing of the appeal unless the board requires the taking of further evidence. If the Appeals Board requires the taking of further evidence, the hearing shall be commenced within 60 days after the filing of the appeal, and the decision of the board shall be filed within 60 days after completion of the hearing.

Payment of such bounties shall be made from the Fish and Game Preservation Fund.

This section shall not be operative from October 1, 1963 to October 1, 1967.

CHAPTER 2023

An act to amend Sections 12880 and 12885 of the Water Code, relating to the Davis-Grunsky Act.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 12880 of the Water Code is amended to read:

12880. In furtherance of the development, control and conservation of the water resources of the State and the State Water Resources Development System it is the policy of the State to provide financial assistance to public agencies for the construction of water projects to meet local requirements in which there is a statewide interest by making grants or loans, or both, and by participating in the construction and operation of water projects, and also to provide financial assistance to public agencies for the preparation of certain feasibility reports on such water projects by making loans, in accordance with this chapter.

(a) As used in this chapter, "project" means any construction or improvement by a public agency for the diversion, storage, or distribution of water primarily for domestic, municipal, agricultural, industrial, recreation, fish and wildlife enhancement, flood control, or power production purposes. "Public agency" means any city, county, district or other political subdivision of the State. "Feasibility report" means such report on the feasibility of a public agency's proposed project as the department may require the public agency to file with the department in support of an application by the public agency under this chapter for a loan for the construction of the proposed project.

(b) The proposed project may be approved for assistance only if it is determined that the project substantially conforms to the California Water Plan, is engineeringly feasible, economically justified, and, if a loan is proposed, that there is reasonable assurance, commensurate with the need for the proposed project, that the public agency can repay it. The potential future growth and development of the area shall be taken into consideration in the calculation of the benefits for the determination of the economic justification of a proposed project. In the case of a grant for recreation or fish and wildlife enhancement, or both, the determination of economic justification of the proposed project may, in the department's discretion, be limited to a determination of the economic justification of the recreation and fish and wildlife enhancement functions of the project. Such factors as the public health, safety, and welfare shall be taken into consideration in determining the need for a proposed project. A loan for the preparation of a proposed feasibility report on a proposed

project may be approved only if it is determined that there is reasonable assurance that the public agency can repay the loan and only if the agency receives a favorable written reply from the department on a written request for a preliminary determination of eligibility for a loan for the construction of the proposed project filed with the department by the agency under the regulations of the department promulgated pursuant to this chapter.

(c) Grants in furtherance of a project that involves the development of a new water supply may be made for the following purposes:

(1) For the part of the construction cost of the proposed project properly allocated to the enhancement of fish and wildlife; provided, that a grant for such part shall not exceed fifty percent (50%) of the construction cost.

(2) For the part of the construction cost of any dam and reservoir of the proposed project properly allocated to recreational functions of statewide interest; provided, that a grant for such part shall not exceed fifty percent (50%) of the construction cost, and provided further, that the total grant under paragraphs (1) and (2) of this subdivision for any one project shall not exceed seventy-five percent (75%) of the construction cost of the project. Such construction costs may include expenditures for lands located above the high waterline of reservoirs which are necessary or desirable for public recreation in connection with the reservoir.

(3) For the construction of initial water supply and sanitary facilities which are needed for public recreational use of each proposed dam and reservoir of the proposed project. A grant for the purpose specified in this paragraph (3) shall not be subject to the limitation contained in Section 12885 on grants for the purposes specified in paragraphs (1) and (2) of this subdivision and shall not be included in computing the total amount which may be granted to a public agency in connection with a project for such purposes. A grant for the purpose specified in this paragraph (3) shall not exceed one-fourth of the total amount granted to a public agency in connection with a project for the purposes specified in paragraphs (1) or (2), or both, of this subdivision.

(d) Loans may be made only for projects primarily for domestic, municipal, agricultural, industrial, recreation, or fish and wildlife enhancement purposes. Such loans may be made for all or any part of the construction cost of any such project but in no event shall any such loan be in an amount which is greater than the portion of the construction cost of the project which the department finds to be beyond the reasonable ability of the public agency to finance from other sources. Such loans shall be repayable over a period not to exceed 50 years. A period of development of not exceeding 10 years may be allowed within such maximum 50-year repayment period, during which no payments on the principal of or the interest on such loans shall be required, when in the de-

partment's judgment such development period is justified under the circumstances. If the payment of interest is deferred pursuant to this subdivision, interest shall be charged on the interest amounts for which payment is deferred at the same rate as the rate of interest charged on the principal amount of the particular loan. The accrued interest may, at the option of the public agency, be paid in annual installments during the remainder of the loan repayment period at the same rate of interest as is charged on the principal amount of the loan.

(e) Loans may be made for all or any part of the cost of the preparation of proposed feasibility reports on proposed projects, but in no event shall any such loan be in an amount which is greater than the portion of the cost of the preparation of the proposed feasibility report which the department finds to be beyond the reasonable ability of the public agency to finance from other sources. Such loans shall be repayable over a period not to exceed 10 years.

(f) If in order to accomplish the objectives of this chapter it is necessary to construct a project that is larger than one which a public agency proposes to construct, the State may participate in planning, designing, constructing, operating and maintaining the project, and in so participating shall finance those costs of the project allocated to the State, on terms agreed upon with the agency, to the end that the project shall accomplish the maximum water development objectives at a minimum total expenditure. In participating in a project under this subdivision (f), the department may perform all or part of the planning, designing, construction, operation or maintenance of the project on terms agreed upon with the agency.

The department is authorized, following receipt of an application for state participation from a public agency, to participate under this subdivision (f) on behalf of the State in any project that is larger than the one which the public agency proposes to construct and that is primarily for domestic, municipal, agricultural, industrial, recreational or fish and wildlife enhancement purposes and in so participating shall finance those costs of such project that are allocated to the State, on terms agreed upon with the public agency, subject to the prior approval of the California Water Commission, and to expend for participation in the planning, designing, and construction of any one project an amount not exceeding one million dollars ($1,000,000) from moneys available for such participation, including but not limited to, the moneys appropriated by the California Water Resources Development Bond Act (Chapter 8 (commencing with Section 12930) of Part 6 of Division 6 of the Water Code) for provision for water development facilities for local areas as provided in this Chapter 5. Expenditures by the department in excess of one million dollars ($1,000,000) for the planning, designing, and construction of any one project may be made only upon specific authorization of the Legislature.

The department is authorized to make loans and grants to public agencies pursuant to the provisions of this chapter for projects in which the department participates under this subdivision (f).

(g) Applications for loans or grants or financial participation by the State under this chapter shall be made to the department in such form and with such supporting material as may be prescribed by the department. Supporting material with respect to the ability of a public agency to repay the loan and to the reasonable ability to finance the proposed project from other sources may be supplied by the county assessor and the county engineer. A report on each application shall be prepared by the department and filed with the Legislature. In such reports the departments shall make findings as to the nature and extent of the statewide interest in the project, the public necessity for the project, the urgency of the need, and the engineering feasibility, economic justification, and financial feasibility of the project; provided, that in the case of reports on applications for loans for the preparation of proposed feasibility reports, in lieu of the above findings, the department shall make findings with respect to the public necessity for and urgency of need of the proposed project and the ability of the applicant to repay the requested loan for the preparation of the proposed feasibility report.

(h) Notwithstanding any provision of law to the contrary, every public agency empowered by law to construct and operate a project, as defined in subdivision (a) of this section, is hereby granted, in addition to and not in derogation or limitation of the powers conferred upon the public agency by any other law, the power:

(1) To borrow money from and repay the same with interest to the State in accordance with this chapter on behalf of the entire public agency or of any portion or portions thereof for which the law applicable to the agency authorizes an indebtedness or liability to be incurred, including any improvement district, distribution district, or zone within the public agency, notwithstanding any debt limitation or other provision in the law applicable to such agency which might otherwise preclude or limit such borrowing.

(2) To enter into a contract with the department, on behalf of the entire public agency, or of any portion or portions thereof referred to in paragraph (1) of this subdivision (h), for a loan or grant under this chapter or for participation by the State in a local project under subdivision (f) of this section and to use the loan or grant contracted for as an additional or alternative means of financing the project proposed by the public agency.

(3) To comply with the provisions of any contract entered into with the department under this chapter, including any provision which obligates the public agency, or any specified portion or portions thereof, to meet all commitments, financial or otherwise, undertaken by the public agency in such contract

notwithstanding any individual default by its constituents or others in the payment to the public agency of taxes, assessments, tolls, or other charges levied by the public agency.

(4) To include recreation and enhancement of fish and wildlife, or either of them, as functions of a project which the public agency is empowered by law to construct and operate, and to construct and operate the project for such recreation and enhancement of fish and wildlife functions, or either of them, in accordance with the provisions of a grant contract entered into with the department, including provisions for public use of the project facilities for fishing and other recreational activities.

(5) To construct and operate such onshore recreational facilities, fish and wildlife enhancement facilities or other facilities as the department or the Legislature may require in connection with a grant to the public agency under this chapter, and to construct and operate such facilities in accordance with the provisions of a grant contract entered into with the department, including provisions for public use of such facilities for fishing and other recreational activities.

(6) To annually levy or cause to be levied upon all property in the public agency, or in any portion or portions thereof, subject to taxation or assessment by the public agency an ad valorem tax or assessment, based upon the assessed valuation of such property, necessary and sufficient to meet all commitments, financial or otherwise, of the public agency that are set forth in any contract which the agency enters into with the department under this chapter, in addition to any other taxes or assessments which the public agency is authorized to levy or cause to be levied on such property and notwithstanding any provision in the law applicable to such agency which might otherwise preclude or limit such taxing or assessing. Where the law applicable to such public agency does not set forth a procedure for levying and collecting taxes or assessments on an ad valorem basis, such public agency shall utilize the procedure for levying and collecting taxes for the payment of principal and interest on general obligation bonds of municipal water districts, set forth in the Municipal Water District Act of 1911 (Chapter 671, Statutes of 1911), as it may now or hereafter be amended, for the purpose of levying and collecting taxes or assessments necessary and sufficient to meet commitments in a contract entered into under this chapter.

(7) To make charges for the furnishing of services from the project for which the public agency receives financial assistance under this chapter and to pledge and use any or all revenues received from the collection of such charges for the purpose of meeting the commitments, financial or otherwise, of the public agency that are set forth in any contract which

the public agency enters into with the department under this chapter.

(8) To perform all acts and do all things that are necessary or convenient to carry out the above powers.

Such election shall be held in accordance with the following provisions:

(1) The procedure for holding an election on the incurring of bonded indebtedness by such public agency shall be utilized for an election on the proposed contract as nearly as the same may be applicable. tract. The action shall be had as in the case of the judicial determination of the validity of the public agency's bonds, as nearly as the same may be applicable, and with like effect. Where the law applicable to such agency does not set forth a procedure for the judicial determination of the validity of the public agency's bonds, the action shall be had as in the case of the judicial determination of the general obligation bonds of irrigation districts under the Irrigation District Law (Division 11 (commencing with Section 20500) of this code), as it may now or hereafter be amended, as nearly as the same may be applicable, and with like effect.

The employee shall include in his gross income the amounts received under such contract for the year received as provided in Sections 17101 to 17108, inclusive.

(2) For purposes of this section, the exclusion allowance for any employee for the taxable year is an amount equal to the excess, if any, of—

(6) For purposes of this section if rights of the employee under an annuity contract described in subparagraphs (A) and (B) of paragraph (1) change from forfeitable to nonforfeitable rights, then the amount (determined without regard to this subsection) includable in gross income by reason of such change shall be treated as an amount contributed by the employer for such annuity contract as of the time such rights become nonforfeitable.

(b) If an annuity contract purchased by an employer for an employee is not subject to Section 17511 and the employee's rights under the contract are nonforfeitable, except for failure to pay future premiums, the amount contributed by the employer for such annuity contract on or after such rights become nonforfeitable shall be included in the gross income of the employee in the year in which the amount is contributed. The employee shall include in his gross income the amounts received under such contract for the year received as provided in Sections 17101 to 17108, inclusive.

(d) In the case of an individual who elects (in such manner and at such time as the Franchise Tax Board prescribes by regulations) to have the provisions of this subsection apply, an amount received or accrued to which this article applies shall be reduced, for purposes of computing the tax liability of the taxpayer under this part with respect to the amount so received or accrued, by an amount equal to that portion of (1) the amount of charitable contributions made by the taxpayer during the taxable year in which the amount is so received or accrued which are allowable as a deduction for such year under Sections 17214 and 17215 (determined without regard to this part), as (2) the amount received or accrued to which this part applies is of the adjusted gross income for the taxable year (determined without regard to this article). In any case in which the taxpayer elects to have the provisions of this subsection apply, no portion of the amount to which this part applies shall, for purposes of computing the limitation on tax under this part, be taken into account for purposes of computing the limitation under Section 17215 for the taxable year in which the amount to which this article applies is received or accrued.

SEC. 16. Section 17210 is added to said code, to read:

17210. (a) Under regulations prescribed by the Franchise Tax Board, a taxpayer may, for purposes of computing the allowance under Section 17208(a) with respect to personal property, reduce the amount taken into account as salvage value by an amount which does not exceed 10 percent of the basis of such property (as determined under Section 17211 as of the time as of which such salvage value is required to be determined).

(b) For purposes of this section, the term 'personal property' means depreciable personal property (other than livestock) with a useful life of three years or more acquired after December 31, 1962.

SEC. 17. Section 17216.2 is added to said code, to read:

17216.2. The amount of any charitable contribution taken into account under Sections 17214 and 17215 shall be reduced by the amount which would have been treated as gain to which Section 18211(a) applies if the property contributed had been

sold at its fair market value (determined at the time of such contribution).

SEC. 18. Section 17296 is added to said code, to read:

17296. No deduction shall be allowed under Section 17202 or 17252, for any traveling or entertainment expenses unless substantiated by adequate records or by sufficient evidence which corroborates the taxpayer's own statement.

SEC. 19. Section 17416 is added to said code, to read:

17416. For purposes of Section 17415, the determination of whether gain from the sale or exchange of property would under any provision of this part be considered as gain from the sale or exchange of property which is neither a capital asset nor property described in Section 18182 shall be made without regard to the application of Section 18211(a).

SEC. 20. Section 18211 is added to said code, to read:

18211. (a) (1) Except as otherwise provided in this section, if Section 18211 property is disposed of during a taxable year beginning after December 31, 1962, the amount by which the lower of—

(A) The recomputed basis of the property, or

(B) (i) In the case of a sale, exchange, or involuntary conversion, the amount realized, or

(ii) In the case of any other disposition, the fair market value of such property,

exceeds the adjusted basis of such property shall be treated as gain from the sale or exchange of property which is neither a capital asset nor property described in Sections 18181 and 18182. Such gain shall be recognized notwithstanding any other provision of this part.

(2) For purposes of this section, the term 'recomputed basis' means, with respect to any property, its adjusted basis recomputed by adding thereto all adjustments, attributable to periods after December 31, 1961, reflected in such adjusted basis on account of deductions (whether in respect of the same or other property) allowed or allowable to the taxpayer or to any other person for depreciation, or for amortization under Section 17212. For purposes of the preceding sentence, if the taxpayer can establish by adequate records or other sufficient evidence that the amount allowed for depreciation, or for amortization under Section 17212, for any period was less than the amount allowable, the amount added for such period shall be the amount allowed.

(3) For purposes of this section, the term 'Section 18211 property' means any property (other than livestock) which is or has been property of a character subject to the allowance for depreciation provided in Sections 17208 to 17211.5, inclusive, and is either—

(A) Personal property, or

(B) Other property (not including a building or its structural components) but only if such other property is tangible and has an adjusted basis in which there are reflected adjust-

(I) Was used as an integral part of manufacturing, production, or extraction or of furnishing transportation, communications, electrical energy, gas, water, or sewage disposal services, or

(II) Constituted research or storage facilities used in connection with any of the activities referred to in clause (i).

(b) (1) Subsection (a) shall not apply to a disposition by gift.

(2) Except as provided in Sections 17831 to 17837, inclusive, (relating to income in respect of a decedent), subsection (a) shall not apply to a transfer at death.

(3) If the basis of property in the hands of a transferee is determined by reference to its basis in the hands of the transferor by reason of the application of Section 17431, 17481, 17881, 17891, or Section 24502, 24521, or 24551 of the Bank and Corporation Tax Law, then the amount of gain taken into account by the transferor under subsection (a)(1) shall not exceed the amount of gain recognized to the transferor on the transfer of such property (determined without regard to this section) This paragraph shall not apply to a disposition to an organization which is exempt from the tax imposed by this chapter.

(4) If property is disposed of and gain (determined without regard to this section) is not recognized in whole or in part under Section 18081 or Sections 18082 to 18090.2, inclusive, then the amount of gain taken into account by the transferor under subsection (a)(1) shall not exceed the sum of—

(A) The amount of gain recognized on such disposition (determined without regard to this section), plus

(B) The fair market value of property acquired which is not Section 18211 property and which is not taken into account under subparagraph (A).

(5) Under regulations prescribed by the Franchise Tax Board, rules consistent with paragraphs (3) and (4) of this subsection shall apply in the case of transactions described in Section 18121 (relating to gain from sale or exchange to effectuate policies of FCC) or Sections 18131 to 18134, inclusive, (relating to exchanges in obedience to SEC orders).

(6) (A) For purposes of this section, the basis of Section 18211 property distributed by a partnership to a partner shall be deemed to be determined by reference to the adjusted basis of such property to the partnership.

(B) In the case of any property described in subparagraph (A), for purposes of computing the recomputed basis of such property the amount of the adjustments added back for periods before the distribution by the partnership shall be—

(i) The amount of the gain to which subsection (a) would have applied if such property had been sold by the partnership immediately before the distribution at its fair market value at such time, reduced by

(ii) The amount of such gain to which Section 17912 applied.

(c) The Franchise Tax Board shall prescribe such regulations as it may deem necessary to provide for adjustments to the basis of property to reflect gain recognized under subsection (a).

(d) This section shall apply notwithstanding any other provision of this part.

The district shall also have and may exercise the right to condemn any existing works or improvements in said district or along streams flowing into said district now or hereafter used to control flood or storm waters, or to protect any property in said district or along streams flowing into said district from damage from such flood or storm waters, and it is hereby declared that the use of the property, lands, rights-of-way, easements, or materials which may be condemned, taken or appro-

or channelways which may be built, maintained or operated by the State of California or the federal government or the district for the benefit of such zone; and the County of Lake is hereby authorized to enter into any such contract with the Lake County Flood Control and Water Conservation District.

15. To levy assessments in any zone, on the basis of benefits as provided in Section 13.1 hereof, to raise funds for payment of expenses of operation and maintenance of works or channelways in any such zone and the cost of levying, calling and collecting such assessments.

If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of 18 years, then the allowance which the surviving wife would have received had she lived and not re-

married shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age; provided, that no child shall receive any allowance after marrying or attaining the age of 18 years. Should said member leave no surviving wife and no children under the age of 18 years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving wife otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife unless she was married to the member at least one year prior to his retirement. If at the effective date of said retirement, said member has no wife, children or dependent parents, who would so qualify and if said member elects as provided in Section 21330 to have the actuarial equivalent of his retirement allowance applied to a lesser retirement allowance, in accordance with an optional settlement, no allowance shall be paid under this section.

SEC. 19. Section 21290.75 is added to said code, to read:

21290.75. Upon retirement for nonindustrial disability, a law enforcement member who has attained age 55 shall receive his service retirement allowance.

SEC. 20. Section 21330 of said code is amended to read:

21330. In lieu of the retirement allowance for his life alone, a member or retired member may elect, or revoke or change a previous election prior to the approval of the previous election, to have the actuarial equivalent of his retirement allowance as of the date of retirement applied to a lesser retirement allowance, in accordance with one of the optional settlements specified in this article. Said election or revocation or change thereof, with respect to patrol or law enforcement members, shall apply to all of the retirement allowance, if, at the effective date of retirement for service or for industrial disability, said member has no wife, children or dependent parents who would qualify for continuance of the allowance after the death of said member; or, if at retirement said member has a wife, children or dependent parents who would so qualify, then said election, or revocation, or change thereof shall apply only to the portion of the allowance which would not be continued after the member's death, regardless of dependents.

SEC. 21. Section 21330 5 is added to said code, to read:

21330.5. The lesser retirement allowance under an optional settlement elected at retirement for law enforcement members who are entitled to receive benefits under the federal system, shall be actuarially equivalent to that part of the retirement allowance which is subject to option pursuant to Section 21330 that would have been payable at retirement had no optional settlement been elected after taking into consideration the reduction in said allowance provided for in Section 20603.4. Upon the election of an optional settlement by a member who has not attained the federal retirement age the board shall estimate the federal benefit upon the basis of information

then available to it. If the death of such a member should occur before he has attained the federal retirement age payments under the optional settlement elected shall be as estimated. If such a member attains the federal retirement age, the board shall then recalculate the lesser retirement allowance payable under the optional settlement upon the basis of the age of the member and the beneficiary on the effective date of retirement, actuarial tables then in use and the federal benefit.

SEC. 22. Section 21363.75 is added to said code, to read:

21363.75. The special death benefit is also payable if the deceased was a law enforcement member, if his death was industrial, as determined by the Industrial Accident Commission, using the same procedure as in workmen's compensation hearings, and if there is a wife or child who qualifies under subdivision (b), Section 21364.

SEC. 23. Section 21364.7 of said code is amended to read:

21364.7. The special death benefit or the continued allowance under Section 21263 or 21263.1 payable if the deceased was a state member who was credited with service, compensation for which was subject to contribution under the federal system, shall be reduced during such time as his survivor or survivors are entitled to receive a survivor benefit under the federal system. The reduction shall be in the amount of the benefit to which there is entitlement under the federal system; provided, however, that it shall not exceed the amount of the benefit derived from contributions of the State.

SEC. 24. Section 15005 is added to said code, to read:

15005. Notwithstanding Section 18932 of the Government Code, the minimum age limit for any examination for the position of special agent shall be 21 years, and the maximum age limit shall be 40 years. The age limits set forth herein shall not affect civil service eligible lists in effect at the time this section becomes effective.

SEC. 25. This act shall become effective on October 1, 1963.

Regional planning for hospitals is complex and involves sensitive relationships between professional groups, institutions and government. State action on planning under this act will be based on advice from regional planning groups which represent consumer and professional viewpoints.

The purpose of this act is to encourage regional plans for hospitals where this planning is needed most urgently and where there is substantial local interest and support. The legislative intent is to provide appropriations to cover limited regional planning activity for not to exceed four regions which can be reviewed by the Legislature before extension of the planning program is authorized.

Any permit issued pursuant to this act to a person who held a permit to engage in timber operations under this code prior to February 1, 1964, may, within one year, be suspended or revoked not only for acts or omissions occurring after Feb-

ruary 1, 1964, which constitute grounds for suspension or revocation of a permit, but also for acts or omissions occurring within three years prior to the effective date of this act which would have been grounds for suspension or revocation of such previously issued permit.

4973. (a) As used in this section, the term "rules" means any provision of the forest practice rules, applicable forest management plan, or applicable alternate plan unless the context otherwise requires.

(b) The director may bring an action to enjoin the violation or threatened violation of the rules. Any such proceedings shall be in accordance with the provisions of Chapter 3 (commencing with Section 525), Title 7, Part 2, of the Code of Civil Procedure. If in such a proceeding it shall appear from facts shown by affidavit or verified complaint that any such violation has occurred or is threatened, the court may issue a temporary restraining order restraining and ordering the immediate discontinuance of any timber operation in which such violation has occurred or is threatened pending a hearing on the matter.

(c) If upon the hearing to show cause why a preliminary injunction should not be issued, or upon the hearing of any motion for a preliminary injunction, or if the court should find in any such action that any such defendant is violating, or has violated any rules, then the court may not only order the discontinuance of any timber operations in which such violation has occurred or is occurring, but may also enjoin any further timber operations by the defendant in this State until the violations complained of have been corrected or until satisfactory provisions have been approved by the court for the violations to be corrected by a specified date. Any defendant in such proceedings may enter into a written agreement with the director assuring that he will (1) resume operations in compliance with the rules and (2) correct the violations on such reasonable terms and conditions, including, but not limited to, the planting of a reasonable number of seedlings or young growth trees to restock cutover land, as the director may require to achieve maximum possible compliance with said rules under all of the circumstances. Upon approval by the court, any temporary restraining order, preliminary injunction or permanent injunction may include or be amended to include an order that any defendant entering into such an agreement comply with the terms of such agreement as a condition for engaging in any timber operations enjoined by such temporary restraining order, preliminary injunction or permanent injunction. The court may require a cash deposit or bond payable to the director in such amount as the court deems proper to insure correction of any such violation of the rules in accordance with such agreement or any other provisions required by the court. The court may make any other orders reasonable and necessary to carry out the intent of this section.

(d) Nothing contained in this section shall be construed to require as a condition for the bringing of any proceedings hereunder or the granting of an order in any such proceedings that the notice referred to in Section 4971 first be given to the timber operator.

SEC. 18. Section 4973.5 is added to said code, to read:

4973.5. The State Forester may take appropriate steps as are necessary and incur expenses to correct any violation of the forest practice rules, applicable forest management plan, or applicable alternate plan, including but not limited to the planting of a reasonable number of seedlings and young growth trees to restock cutover land. The expenses so incurred shall not exceed an average of forty dollars ($40) for each acre in violation.

Prior to taking such corrective action, the State Forester shall serve a written notice upon the timber operator and the timber owner by certified or registered mail to the last address of record of each. If the timber owner is unknown, then service of such notice may be made upon such owner by posting a copy of said notice upon the property where said violations exist. Said notice shall include a statement of the corrective

action to be taken, a date not less than 30 days from the date of service or posting of said notice by which such corrective action is to be taken, and a statement that if such corrective action is not taken on or before the date specified the State Forester may take such corrective action and charge the timber operator or the timber owner for the costs thereof pursuant to this section. Said notice shall also include a statement that if the timber operator or timber owner disagrees for any reason with the proposed corrective action or with the charging of said owner or operator with the costs thereof, he may within 10 days from the service or posting of said notice request of the State Forester a public hearing before the State Board of Forestry.

If said corrective action is not taken by the timber operator or the timber owner on or before the date specified in the notice, then the State Forester may take or contract for the taking of such corrective action and recover the expenses thereof as provided below; provided, however, that if a request is made for a public hearing within 10 days from the service or posting of said notice or if the service of said notice is made upon the timber owner by posting a copy thereof on the property, the State Forester shall not take any corrective action without further order by the board. Where the timber owner or the timber operator makes such request for public hearing, then the board after at least 15 days written notice shall hold a public hearing to hear the objections of said owner or operator or both to the proposed action. The board may, but need not, conduct such hearing in accordance with the applicable provisions of Chapter 5 (commencing with Section 11500), Part 1, Division 3, Title 2 of the Government Code. At the conclusion of the hearing, the board may make an order specifying the action to be taken by the timber owner or the timber operator to correct the violation, setting the time limits for such action, and authorizing the State Forester to take such action if the timber owner or timber operator does not do so within the specified time.

The expenses incurred by the State Forester in taking any corrective action pursuant to this section shall constitute a debt of the timber owner and the timber operator and if not paid by the timber operator within 10 days after written demand therefor may be recovered by the State Forester in a civil action against the timber owner or the timber operator or against both jointly. No action shall lie to recover expenses of correcting any violation occurring more than three years prior to commencement of such corrective action and no action to recover such expenses shall be commenced later than two years following the incurring of such expenses.

Neither the State Forester nor any person authorized by him to enter upon any lands for the purpose of administering this section nor any timber operator or timber owner shall be liable to civil action for trespass for acts necessary to carry out the provisions of this section.

SEC. 19. Section 4974 is added to said code, to read:

4974. The penalties and remedies which are prescribed in this article are concurrent and alternative to any other civil, criminal, or administrative rights, remedies, or penalties which are provided or allowed by law with respect to such violation.

SEC. 20. No action or proceeding commenced before this act takes effect, and no right accrued, is affected by any provision of this act, but all procedures thereafter taken therein shall conform to the provisions of this act so far as possible.

A premium finance agreement may contain a power of attorney or other authority enabling the company to cancel the insurance contract or contracts listed in the agreement in the event of default in the terms thereof. Upon the exercise of such right to cancel, the company shall mail to the insured, to his last known address or to the address shown on the premium finance agreement at least 10 days prior to cancellation, a notice of its intent to cancel the insurance contract or con-

tracts. The liability of a company to any person or corporation upon the exercise of such right or authority of cancellation shall be limited to the amount of the principal balance, except in the event of willful failure by the company to mail the notice required by this section.

18924. All statutory, regulatory and contractual restrictions providing that the insured or the insurer shall not cancel the insurance contract unless the insured or the insurer first satisfies such restrictions by giving a prescribed notice of cancellation to a governmental agency, the insurer, the insured, the holder of a security interest in the subject of the insurance, or other prescribed party, shall not be affected by the provisions of this division. However, any cancellation notice period required by such statutory, regulatory or contractual restriction shall not be cumulative to the period required by Sections 18921 or 18923. If cancellation of the insurance contract is initiated by the company under the terms of this division, the insurer shall (in accordance with the requirement for a prescribed notice), on behalf of itself or the insured, give such notice to the governmental agency, the holder of a security interest in the subject of the insurance or other prescribed party; and the insurer shall determine and calculate the effective date of cancellation (in accordance with the terms of that prescribed notice) from the date it receives the notice of request for cancellation from the company. In no instance shall the effective date of cancellation be prior to that established by the company.

18925 The insurer within a reasonable time after the effective date of cancellation shall return whatever gross unearned premiums or accrued dividends are payable under the insurance contract to the company, which financed the insurance contract, in trust for and in transit to the insured.

18926. At the time of mailing the notice required by Sections 18921 or 18923, the employee of the company who is doing the mailing shall prepare and sign an affidavit setting forth the following:

(a) The name and address of the employee doing the mailing.

(b) That the employee is over 18 years of age.

(c) The date and place of deposit in the mail.

(d) The addressee's name and address as shown on the envelope mailed.

(e) That the envelope was sealed and deposited in the mail with the postage thereon fully paid.

An affidavit of mailing, prepared as prescribed in this section, shall raise a rebuttable presumption that the notice was mailed to the addressee stated in the affidavit.

Article 3. General Provisions

18940. Unless the insured has notice of the assignment of a premium finance agreement, payment thereunder by him to the

last known assignee of the agreement shall be binding upon all subsequent assignees.

Assignment of the premium finance agreement shall not cut off any defenses which the insured would have against the company or an assignee of the agreement arising from obligations imposed by this division.

The obligations and rights of a premium finance agency, under this chapter, shall also apply to the assignee of a premium finance agreement.

18941. At any time during the term of the premium finance agreement, but not later than one (1) year after the last payment thereunder, the company shall upon written request of the insured, give or mail to him a written statement of the dates and amounts of payment, and the total amount, if any, unpaid thereunder. Such a statement shall be supplied once each year without charge; if any additional statement is requested, the company shall supply such statement at a charge not exceeding one dollar ($1) for each additional statement so supplied. Upon payment of a loan in full the company upon request shall return the premium finance agreement marked "Paid" to the insured.

18942. In the event that the insurance policy or policies which are the subject of a premium finance agreement are canceled by the insured or by the insurer, for any cause, the insured shall be entitled to receive a refund credit thereon. This refund credit shall be calculated in the same manner as prescribed in Section 18667, and shall be paid to the insured within a reasonable time.

18943. No filing of the premium finance agreement shall be necessary to perfect the validity of such agreement as a secured transaction as against creditors, subsequent purchasers, pledgees, encumbrancers, successors or assigns of the insured.

18944. In the event of any conflict in the provisions of this chapter with the provisions of any other chapter in this division, the provisions of this chapter shall control with regard to insurance premium financing

18945. Any down payment which is made and which is received by the company from the insured, or from the insurance producer on behalf of the insured, shall be held by the company in trust for and in transit to the insurer, and shall be paid to the insurer within a reasonable time.

18946. Any corporation organized as an industrial loan company other than a premium finance agency shall conduct any insurance premium financing business under the authority of this chapter and it shall be subject to all of the provisions of this chapter in respect to such business, as if it were organized hereunder except that no cumulative capitalization requirement shall be imposed.

18947. A premium finance agency shall not incorporate the words "industrial loan company" in its corporate name, on its loan forms, or in its advertising.

"Premium finance agency" means any industrial loan company incorporated under this division which, by the terms of its authority to engage in the industrial loan business, is not permitted to issue or sell investment certificates and its business is limited to that set forth in Chapter 7 (commencing with Section 18900) of this division.

SEC. 4. Section 18201 of said code is amended to read:

18201. The articles of incorporation of a corporation formed under this division shall include a statement that such corporation is incorporated under this division.

The articles of incorporation of any corporation formed under this division as a premium finance agency shall include reference to that fact.

SEC. 6. Section 18624.2 is added to said code, to read:

18624.2. An insurance premium finance agreement, as defined in Section 18903, may be prepared in the office of an insurance producer licensed by the Department of Insurance, and mailed or otherwise delivered to premium finance agency for acceptance without the office of the producer thereby being constituted a place of business of the company. A producer at whose office a premium finance agreement is so prepared who receives no compensation or fees, from the premium finance agency, in excess of his regular insurance commission for the preparation and handling of the premium finance agreement shall not be considered to be a broker of the company as that term is used in this division.

SEC. 7. Section 18669.1 is added to said code, to read:

Where in any fiscal year expenditures for increased mental health services specified in this chapter are made from local funds after the fiscal year prior to receipt of state aid for such mental health services, in excess of the sums spent in the fiscal year prior to receipt of state aid for such mental health services, and equal to or in excess of the sums spent by the local agency from locals funds for such mental health services in the year ending June 30, 1963, the total expenditures made for such increased services shall be shared at the rate of 75 percent state funds and 25 percent local funds. Local funds, as used in this section, shall be considered to include only funds derived

from the tax or revenue base of a city, county or local hospital district. The provisions of this paragraph shall apply only to mental health services which are first approved for receipt of state aid pursuant to this chapter prior to October 1, 1965.

For each mental health service which is first approved for receipt of state aid pursuant to this chapter subsequent to October 1, 1965, and subject to appropriation therefor, there shall be paid to each city, county, or local health district on account of expenditures subject to reimbursement by the State pursuant to Section 9030, 50 percent of the amount expended from local funds for such mental health service.

For the purpose of determining the expenditures to be reimbursed as provided in this section, there shall be deducted any fees received from patients or on behalf of a specified patient. If the total of the funds provided by the county, city, or local hospital district and the state reimbursement, in any fiscal year exceeds the total expenditures, the state reimbursement shall be reduced to the amount required to provide the balance of funds necessary to complete funding of the mental health program. Reimbursement shall be made on a quarterly basis, upon submission to the Director of Mental Hygiene such information as he may require.

SEC. 2.5. Section 9031 of said code is amended to read:

9031. The community mental health services provided herein shall consist of:

(a) Outpatient psychiatric clinics for those who are unable to obtain private care, including referrals by physicians and surgeons.

(b) Inpatient psychiatric services in general hospitals and in psychiatric hospitals which are affiliated as the psychiatric division of or with a general hospital for those who are unable to obtain private care, including referrals by physicians and surgeons.

(c) Rehabilitation services for patients with psychiatric illnesses for those who are unable to obtain private care, including referrals by physicians and surgeons.

(d) Informational services to the general public and educational services furnished by qualified mental health personnel to schools, courts, health and welfare agencies, probation departments, and other appropriate, public or private agencies or groups authorized in the approved plan for community mental health services.

(e) Psychiatric consultant services to public or private agencies for the promotion and co-ordination of services that preserve mental health and for the early recognition and management of conditions that might develop into psychiatric illnesses.

To be eligible for reimbursement, a city, county, local health district, or in the case of a joint community mental health serv-

ice two or more counties, shall first have established one or more of the facilities or services, provided for herein, in compliance with rules and regulations adopted by the State Department of Mental Hygiene under Section 9054.

Such inservice training as may be necessary in providing the foregoing services shall be proper items of expenditure in connection therewith.

SEC. 3. Section 9036 of said code is amended to read:

9036. Expenditures subject to reimbursement shall include expenditures for the items specified in Section 9031; salaries of personnel; approved facilities and services provided through contract; operation, maintenance and service costs; expenses incurred under this act by members of the California Conference of Local Health Officers or members of the Conference of Local Directors of Mental Health Services for attendance at regular meetings of such conferences; and such other expenditures as may be approved by the Director of Mental Hygiene. It shall not include expenditures for capital improvements; the purchase or construction of buildings except for such equipment items and remodeling expense as may be provided for in regulations of the Department of Mental Hygiene; compensation to members of a local mental health advisory board (except actual and necessary expenses incurred in the performance of official duties); or expenditures for a purpose for which state reimbursement is claimed under any other provision of law.

SEC. 4. Section 9037 of said code is amended to read:

9037. Reimbursement shall not be made for expenditures for treatment services furnished to patients who are able to obtain private care.

SEC. 5. Section 9038 of said code is repealed.

SEC. 6. Section 9054 of said code is amended to read:

9054. The State Department of Mental Hygiene shall administer this division and shall adopt standards for approval of local mental health services, rules and regulations necessary thereto; provided, however, that such standards, rules and regulations shall be adopted only after consultation with and approval by the California Conference of Local Mental Health Directors. Approval of such standards, rules and regulations shall be by majority vote of those present at an official session.

If the conference refuses or fails to approve standards, rules, or regulations submitted to it by the department for its approval, the department may submit such standards, rules, or regulations to the conference at its next semiannual meeting, and if the conference again refuses to approve them, the standards, rules, or regulations shall take effect immediately, notwithstanding the failure of the conference to approve them.

SEC. 7. This act shall become operative on October 1, 1963.

CHAPTER 2038

An act to add Sections 4016, 4017, 4018, 4019, 4100, 4105, 4106, 4107, 4108, 4109, 4110, 4150, 4153.1, 4159.5, 4161.5, 4167, 4169, and 4170 to, to add Article 2 (commencing with Section 4051) to Chapter 1 of, and to add Chapter 7 (commencing with Section 4850) and Chapter 10 (commencing with Section 4890) to, Division 4 of, to amend Sections 4101, 4151, and 4153 of, and to repeal Sections 4105 and 4167 of, the Public Resources Code, to add Chapter 4 (commencing with Section 14500) Part 5, Division 3, Title 2 of the Government Code, to amend Section 13002 of the Health and Safety Code, to add Section 101.6 to the Streets and Highways Code, and to add Section 1817 to, and amend Section 23111 of the Vehicle Code, relating to fire prevention and control.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature of the State of California hereby finds and declares that the unrestricted use of grass-, grain-, brush-, or forest-covered land within the State is a potential menace to life and property from fire and resulting erosion. It finds further that no objective evaluation of the needs of fire suppression forces can be made until full utilization of every approach to prevent fires from occurring has been accomplished. This act is designed as an aid for facilitating fire prevention and fire prevention law enforcement.

SEC. 2. Section 4016 is added to the Public Resources Code, to read:

4016. The burning of growing, dead, or downed vegetation is for a public purpose if the State Forester has determined that the burning of such vegetation is necessary for the prevention or suppression of forest fires.

SEC. 3. Section 4017 is added to said code, to read:

4017. Except as otherwise provided in this code "person" includes any agency of the State, county, city and county, city, district, or other local public agency, and any individual, firm, association, partnership, business trust, corporation, or company.

SEC. 4. Section 4018 is added to said code, to read:

4018. Counties, cities and counties, cities, and districts may adopt ordinances, rules, or regulations to provide fire prevention restrictions or regulations that are necessary to meet local conditions of weather, vegetation, or other fire hazards. Such ordinances, rules, or regulations may be more restrictive than state statutes in order to meet local fire hazard conditions.

SEC. 5. Section 4019 is added to said code, to read:

4019. Except as otherwise provided, the willful or negligent commission of any of the acts prohibited or the omission of

any of the acts required by Division 4 (commencing with Section 4000) of this code is a misdemeanor.

SEC. 6. Article 2 (commencing with Section 4051) is added to Chapter 1, Division 4 of said code, to read:

Article 2. Rubbish Dumps

4051. As used in this article "rubbish dump" means any accumulation for the purpose of disposal of any rubbish, rags, paper, boxes, crates, excelsior, petroleum products or the residue thereof, fallen timber, slash, limb wood, branches, brush, grass, leaves, litter, or other combustible or flammable materials. "Rubbish dump" does not include slash from timber operations or the temporary piling of flammable materials which have accumulated from clearing while the construction or operation is in progress in conjunction with public works, utility, or other industrial projects where such accumulation is located wholly within the exterior limits of such projects.

4052. A person shall not maintain, use or operate any rubbish dump outside of the exterior boundaries of any incorporated city on or after January 1, 1964, without obtaining a special permit from the State Forester and in strict accordance with the terms and conditions prescribed in the special permit. The State Forester may include in the terms of the special permit provisions for the prevention of uncontrolled fire. These terms may include but are not limited to the requirements set forth in Section 4053 of this code. The responsibility for obtaining the special permit for rubbish dumps shall be that of the owner or operator or jointly. Such special permit issued by the State Forester does not relieve such owner or operator from the duty of securing any other permit which is required by law or any rule or regulation.

4053. No rubbish dump shall be maintained or operated, without providing a clearance of flammables for a minimum distance of 150 feet from the periphery of the accumulation of such rubbish dump. If any structure or building is located within 150 feet of the periphery of the accumulation, the area within a minimum of 100 feet of the periphery of the structure or building shall also be maintained clear of all flammables.

4054. Any rubbish dump which is maintained or operated in violation of this article is a public nuisance.

SEC. 7. Section 4100 is added to Article 3, Chapter 1, Division 4 of said code, to read:

4100 As used in this article:

"Hazardous fire area" means any area which is designated by the State Board of Forestry or the State Forester to be a hazardous fire area pursuant to Section 4101.

SEC. 8. Section 4101 of said code is amended to read:

4101. (a) Upon the written petition of the owners or authorized agents of more than 50 percent of the land, including

public land, within the exterior boundaries of any area of not less than 10,000 acres in size, upon which a fire hazard exists due to the presence of flammable material or cover, the State Board of Forestry may designate such area as a "hazardous fire area," and shall declare the period during which the area shall be so designated.

(b) Whenever the State Forester determines that a fire hazard exists in any other area due to the presence of flammable material or cover, he may, by regulation, designate such area to be a "hazardous fire area." Such a regulation shall declare the period during which the area shall be so designated.

SEC. 9. Section 4105 of said code is repealed.

SEC. 10. Section 4105 is added to said code, to read:

4105. Any person who owns, leases, controls, operates, or maintains any building or structure in, upon, or adjoining any mountainous area or forest-, brush-, or grass-covered lands or land covered with flammable material shall at all times do all of the following:

(a) Maintain around and adjacent to such building or structure a firebreak made by removing and clearing away, for a distance of not less than 30 feet on each side thereof or to the property line, whichever is nearer, all flammable vegetation or other combustible growth. This subdivision does not apply to single specimens of trees, ornamental shrubbery, or similar plants which are used as ground cover, provided that they do not form a means of rapidly transmitting fire from the native growth to any building or structure.

(b) Maintain around and adjacent to any such building or structure additional fire protection or firebreak made by removing all brush, flammable vegetation, or combustible growth which is located from 30 feet to 100 feet from such building or structure or to the property line, whichever is nearer, as may be required by the State Forester when he finds that because of extra hazardous conditions a firebreak of only 30 feet around such building or structure is not sufficient to provide reasonable fire safety. Grass and other vegetation located more than 30 feet from such building or structure and less than 18 inches in height above the ground may be maintained where necessary to stabilize the soil and prevent erosion.

(c) Remove that portion of any tree which extends within 10 feet of the outlet of any chimney or stovepipe.

(d) Maintain any tree adjacent to or overhanging any building free of dead or dying wood.

(e) Maintain the roof of any structure free of leaves, needles, or other dead vegetative growth.

(f) Every chimney or stovepipe that is attached to any fireplace, stove, or other device that burns any solid or liquid fuel shall be provided and maintained at all times with a screen over the outlet. Such screen shall be constructed of nonflammable material with openings of not more than one-half inch in size.

SEC. 11. Section 4106 is added to said code, to read:

4106. Except as otherwise provided in Section 4110, any person who owns, controls, operates, or maintains any electrical transmission or distribution line upon any mountainous land, or forest-, brush-, or grass-covered land shall, during such times and in such areas as are determined to be necessary by the State Forester or the agency having primary responsibility for fire protection thereof, maintain around and adjacent to any pole or tower which supports a switch, fuse, transformer, lightning arrester, line junction, or dead end or corner pole, a firebreak which consists of a clearing of not less than 10 feet in each direction from the outer circumference of such pole or tower, provided, however, that this section does not apply to any line which is used exclusively as telephone, telegraph, telephone or telegraph messenger call, fire or alarm line, or other line which is classed as a communication circuit by the Public Utilities Commission. The State Forester or the agency having primary fire protection responsibility for the protection of such areas may permit exclusions from the requirements of this section based upon the specific circumstances involved.

SEC. 12. Section 4107 is added to said code, to read:

4107. Except as otherwise provided in Sections 4108 to 4110, inclusive, any person who owns, controls, operates, or maintains any electrical transmission or distribution line upon any mountainous land, or in forest-, brush-, or grass-covered land shall, during such times and in such areas as are determined to be necessary by the State Forester or the agency having primary responsibility for the fire protection thereof, maintain a clearance of the respective distances which are specified in this section in all directions between all vegetation and all conductors which are carrying electric current:

(a) For any line which is operating at 2,400 or more volts, but less than 72,000 volts, four feet.

(b) For any line which is operating at 72,000 or more volts, but less than 110,000 volts, six feet.

(c) For any line which is operating at 110,000 or more volts, 10 feet.

In all cases, such distance shall be sufficiently great to furnish the required clearance at any position of the wire, or conductor when the adjacent air temperature is 120 degrees Fahrenheit, or less. Dead trees, old decadent or rotten trees, trees weakened by decay or disease and trees or portions thereof that are leaning toward the line which may contact the line from the side or may fall on the line shall be felled, cut, or trimmed so as to remove such hazard. The State Forester or the agency having primary responsibility for the fire protection of such areas may permit exclusions from the requirements of this section based upon the specific circumstances involved.

SEC. 13. Section 4108 is added to said code, to read:

4108. No clearing to obtain line clearance is required when self-supporting aerial cable is used, except that forked trees,

leaning trees, and any other growth which may fall across the line and break it shall be removed.

SEC. 13.1. Section 4109 is added to said code, to read:

4109. A person is not required by Section 4106 or 4107 to maintain any clearing on any land where such person does not have the legal right to maintain such clearing, nor do such sections require any person to enter upon or to damage property which is owned by any other person without the consent of the owner of the property.

SEC. 13.2. Section 4110 is added to said code, to read:

4110. The provisions of Sections 4106 and 4107 shall not apply where the transmission or distribution line voltage is 750 volts or less.

SEC. 14. Section 4150 is added to Article 5, Chapter 1, Division 4 of said code, to read:

4150. For the purposes of this article, the State is divided into the following two zones:

(a) "Zone A" includes any county and any portion of any county which is south of the Mount Diablo base line, except the counties and the portions of the Counties of Alameda, Calaveras, Contra Costa, Marin, Mariposa, Mono, San Francisco, San Joaquin, Stanislaus, and Tuolumne which are south of such line.

(b) "Zone B" includes any county and portion of any county which is not included in Zone A.

SEC. 15. Section 4151 of said code is amended to read:

4151. A person shall not set fire or cause fire to be set to any forest, brush, or other flammable material which is on any land that is not his own, or under his legal control, without the permission of the owner, lessee, or agent of such land.

SEC. 16. Section 4153 of said code is amended to read:

4153. In those areas of the State which are classified as state responsibility lands for fire protection purposes and in those areas receiving fire protection by the State Forester by contract or upon federal lands administered by the United States Departments of Agriculture or Interior, a person shall not do any of the following, either upon his own land or on the property of another, at any time in Zone A, or in Zone B at any time between April 1st and December 1st of any year, or at any other time in Zone B during any year when the Director of Conservation has declared, by proclamation, that unusual fire hazard conditions exist in the area in which the property is located unless he has a written permit from the State Forester or his duly authorized representative or the authorized federal officer on federal lands administered by the United States Departments of Agriculture or Interior and in strict accordance with the terms of the permit:

(a) Burn brush, stumps, logs, fallen timber, fallows, slash, or grass-, brush-, or forest-covered land, or any other flammable material.

(b) Blast with dynamite, powder, or other explosives, or blasting agents of any kind in grass, brush, fallows, or forest-

covered land. This subdivision (b) shall not apply to blasting performed in connection with the construction of a highway or public utility facility, or a utility facility owned and operated by a public agency, where such blasting is performed wholly within the limits of the right-of-way of such highway or such public utility facility, or such utility facility owned and operated by a public agency, and where detonation is performed solely by electrical means.

SEC. 17. Section 4153.1 is added to said code, to read:

4153.1. Any violation of the terms of a burning permit which is issued pursuant to Section 4153 is prima facie evidence of noncompliance with the terms of the permit and renders the permit null and void.

SEC. 18. Section 4159.5 is added to said code, to read:

4159.5. The escape of any campfire from the control of any person who is maintaining the campfire is prima facie evidence that such person was negligent in maintaining the campfire.

SEC. 19. Section 4161.5 is added to said code, to read:

4161.5. If any fire originates from the operation or use of any engine, machine, barbecue, incinerator, railroad rolling stock, chimney, or any other device which may kindle a fire, the occurrence of the fire is prima facie evidence of negligence in the maintenance, operation, or use of such engine, machine, barbecue, incinerator, railroad rolling stock, chimney, or other device. If such fire escapes from the place where it originated and it can be determined which person's negligence caused such fire, such person is guilty of a misdemeanor.

SEC. 20. Section 4167 of said code is repealed.

SEC. 21. Section 4167 is added to said code, to read:

4167. Except as provided herein, no person shall use or operate any internal combustion engine which is operated on hydrocarbon fuels on any forest-, brush-, or grass-covered lands without providing, and maintaining in effective working order, a spark arrester attached to the exhaust system. For the purposes of this section, a spark arrester is a device constructed of nonflammable materials specifically for the purpose of removing and retaining carbon and other flammable particles over 0.0232 of an inch in size from the exhaust flow of an internal combustion engine that is operated by hydrocarbon fuels. Motor trucks, truck tractors, buses and passenger vehicles, except motorcycles, are not subject to the provisions of this paragraph provided the exhaust system is equipped with a muffler as defined in the Vehicle Code.

Provided, further, that spark arresters affixed to the exhaust system of engines or vehicles, as described in this section, shall not be placed or mounted in such a manner as to allow flames or heat therefrom to ignite any flammable material.

Provided, further, that all mobile equipment, including trucks, tractors, bulldozers and other mobile equipment engaged in lumbering, logging, and other industrial operations in any forest-, brush-, or grass-covered land, shall also be equipped with and carry at all times a serviceable shovel for

use in the prevention and suppression of fire, except that mobile equipment used in the business of a common carrier or railroad does not have to be equipped with or to carry a shovel for use in the prevention and suppression of fire.

SEC. 22. Section 4169 is added to said code, to read:

4169. A person shall not burn any flammable material in any incinerator upon any property unless both of the following requirements are complied with:

(a) The area within 10 feet of the periphery of the incinerator is maintained free and clear of all flammable material and vegetation.

(b) A screen constructed of a nonflammable material, with no greater than a ¼-inch mesh, is installed in the chimney and any other opening of the incinerator to prevent the escape of sparks and burning particles of material from the incinerator.

For the purposes of this article an incinerator means any device constructed of nonflammable materials for the purpose of burning therein trash, debris, and other flammable materials, excluding those devices regulated by Section 4165 of this code.

SEC. 23. Section 4170 is added to said code, to read:

4170. A reward of one hundred dollars ($100) shall be paid out of any state funds which are made available to the State Forester for such purpose to any person, other than a law enforcement officer, agent, or employee, whose information leads to the arrest and conviction of any person who willfully and maliciously sets fire to any property which is included within any area in which the financial responsibility for preventing and suppressing fires is primarily the responsibility of the State.

SEC. 24. Chapter 7 (commencing with Section 4850) is added to Division 4 of said code, to read:

CHAPTER 7. DIVISION OF FORESTRY BURNING CONTRACTS

4850. The State Forester, with the approval of the Director of Conservation and the Director of Finance, may enter into a contract with the owner or any other person who has legal control of any property which is included within any area in which the financial responsibility of preventing and suppressing forest fires is primarily the responsibility of the State, excluding those areas for which the State Forester has contracted forest fire protection to counties or the United States Forest Service, for the burning of any brush, vegetation, or structure which is situated upon such property for the purpose of preventing or suppressing forest fires.

4851. Any contract which is entered into by the State Forester pursuant to this chapter shall do all of the following:

(a) Absolve the State and its employees of liability for damages or costs which occur as a result of the burning of the brush, vegetation, or structure.

(b) Vest in the State Forester the final determination of the time and necessity of the burning of the brush, vegetation, or structure.

(c) Provide that the decision by the State Forester regarding the necessity of the burning of the brush, vegetation, or structure is to be based upon the benefits to be derived by such burning in preventing or suppressing forest fires and the risks and possible damage involved in conducting such burning.

(d) Require that only personnel of the Division of Forestry or personnel in its employ shall be used in conducting the burning of the brush, vegetation, or structure.

(e) Provide that prior to the burning the State Forester will submit an estimate of costs to the person contracting with the State. The person contracting with the State shall prior to the burning place on deposit with the State Forester an amount equal to the estimate of costs. Upon completion of the contract, the State Forester will determine the actual costs incurred by the State in performance of the contract and should this amount be less than that on deposit, return the balance to the person. Should the amount of actual costs be more than that amount on deposit, the State Forester shall submit an itemized statement showing the balance due and from which the person contracting with the State shall within 90 days make payment.

(f) Provide that the person contracting with the State Forester shall purchase a third party liability policy of insurance in an amount determined by the State Forester. A certificate of insurance covering this policy shall be attached to and become a part of the contract.

4852. Should the amount of moneys due the State not be paid as provided for in subdivision (e) of Section 4850 such amount shall become a lien upon the property.

(a) Notice of the lien shall be recorded by the State Forester in the office of the county recorder of the county in which the property is situated within one year.

(b) An action to foreclose the lien shall be commenced by the Attorney General in the name of the people of the State of California within six months after the lien is filed and recorded.

(c) When the property is sold, enough of the proceeds to satisfy the lien and the costs of the foreclosure shall be paid to the State and the surplus, if any, shall be paid to the owner of the property.

4853. Upon receipt of final payment of moneys due in performance of the contracts provided for in this chapter the State Forester shall deposit such moneys received in the General Fund of the State of California.

SEC. 25. Chapter 10 (commencing with Section 4890) is added to Division 4 of said code, to read:

CHAPTER 10. PUBLIC NUISANCES

4890. Any condition which exists upon any property which is included within any area in which the financial responsibility for preventing and suppressing forest fires is primarily the responsibility of the State that endangers public safety by creating a fire hazard, is a public nuisance. Whenever the State Forester determines that such a public nuisance exists, he shall notify the owner of the property to abate the public nuisance. If the owner is unknown, a copy of the notice shall be posted upon the property. The State Board of Forestry shall establish standards, based upon its determination of conditions which create an unreasonable hazard to life or property from fire, for what constitutes a hazardous condition in those instances not covered by state law. Such standards shall be established for each of the division's administrative districts after public hearing for which ample publicity is given.

4891. The notice shall be in writing and shall do all of the following:

(a) Describe the public nuisance.

(b) Specify the time within which the property owner is required to abate the public nuisance.

(c) State that, unless the public nuisance is abated within the time specified in the notice, the State Forester may abate the public nuisance and the costs of the abatement will be assessed against the property.

(d) State that the property owner may, within 15 days after the receipt or posting of the notice, request a hearing before the State Forester upon whether or not a public nuisance actually exists.

4892. If a property owner requests a hearing, the State Forester shall fix a time and a place for the hearing and notify the property owner. At the time and place of the hearing, the property owner may appear and be heard upon the question of whether or not a public nuisance actually exists upon property which he owns. The hearing shall be conducted in accordance with the provisions of Chapter 2 (commencing with Section 11180, Part 1, Division 3, Title 2 of the Government Code).

4893. If the State Forester determines, at the conclusion of the hearing, that a public nuisance actually exists upon property owned by the property owner, he shall order the property owner to abate the public nuisance within a specified time.

4894. If the public nuisance is not abated within the time specified in the notice to the property owner pursuant to Section 4890 or, if a hearing is not requested by the property owner, within the time specified in the order made by the State Forester pursuant to Section 4893, the State Forester may abate the public nuisance.

4895. Any costs which are incurred by the State Forester in abating any public nuisance pursuant to this chapter, are

a lien upon the property upon which the public nuisance existed when notice of the lien is filed and recorded as provided in Section 4896.

4896. Notice of the lien shall be recorded by the State Forester in the office of the county recorder of the county in which the property is situated within one year after the first item of expenditures by the State Forester or within 90 days after the completion of the work, whichever first occurs, and upon recordation of the notice of lien the lien shall have the same force, effect and priority as a judgment lien.

4897. An action to foreclose the lien shall be commenced by the Attorney General in the name of the people of the State of California within six months after the lien is filed and recorded.

4898. When the property is sold, enough of the proceeds to satisfy the lien and the costs of the foreclosure shall be paid to the State and the surplus, if any, shall be paid to the owner of the property, if known, and if not known, shall be paid into the court in which the lien was foreclosed for the use of the owner when he is ascertained.

SEC. 26. Chapter 4 (commencing with Section 14500) is added to Part 5, Division 3, Title 2 of the Government Code, to read:

CHAPTER 4. ADVISORY COMMITTEE ON THE TREATMENT OF RIGHTS-OF-WAY

14500. There is in the Department of Conservation an Advisory Committee on the Treatment of Rights-of-way. The committee shall be composed of representatives of appropriate industries, state and local fire services and agencies, and those responsible for the construction and maintenance of streets and highways in this State who shall be appointed by, and serve at the pleasure of, the Governor.

14501. As used in this chapter, "committee" means the Advisory Committee on the Treatment of Rights-of-way.

14502. The Governor shall select from among the members of the committee a chairman and a vice chairman.

14503. The committee shall meet at such times and such places as the chairman shall prescribe. All meetings of the committee shall be open and public and all persons shall be permitted to attend any meeting of the committee. The members of the committee shall serve without compensation but shall be reimbursed for any necessary expenses which are incurred pursuant to this chapter.

14504. The committee shall act as a clearinghouse for information regarding materials and methods which may be used for the treatment of utility, highway and railroad rights-of-way for fire prevention purposes and, when funds are made available for such purposes, may cause such materials and methods to be tested under any conditions which it may determine may be necessary, and may recommend the materials and

methods which it determines are the most effective in any area of the State.

14505. The committee may enter into such contracts or may incur such other expenses as may be necessary to enable it to carry out any of its functions pursuant to this chapter.

14506. The Departments of Conservation and Public Works and the State Fire Marshal's office and, upon request, other governmental departments and agencies, shall co-operate with the committee and furnish it with such assistance and facilities as it may require in carrying out its functions pursuant to this chapter.

SEC. 27. Section 13002 of the Health and Safety Code is amended to read:

13002. Every person is guilty of a misdemeanor who throws or discharges from any vehicle any litter or any lighted cigarette, cigar, ashes, or other flaming or glowing substance, or any substance or thing which may cause a fire.

"Litter," as used in this section, includes any substance which is mentioned in Section 23112 of the Vehicle Code.

Any person convicted under this section for throwing or discharging any litter or any flaming or glowing substance from any motor vehicle outside of a business or residence district is guilty of a misdemeanor.

SEC. 28. Section 101.6 is added to the Streets and Highways Code, to read:

101.6. The department shall design, place and maintain or cause to be placed and maintained at appropriate places along state highways signs which indicate the maximum penalty which may be prescribed for throwing or discharging any litter or any flammable or glowing substance from any vehicle outside of a business or residence district. County road commissioners shall place such signs along roads for which they are responsible.

SEC. 29. Section 1817 is added to the Vehicle Code, to read:

1817. Written allegations received by the department from members of the public identifying motor vehicles or other vehicles by license number from which flaming or glowing substance has been thrown, or discharged, shall be forwarded to the Division of Forestry of the Department of Conservation together with information as to the identity of the registered owner of the vehicle as shown by the records of the department.

SEC. 30. Section 23111 of said code is amended to read:

23111. Outside of a business or residence district no person in any vehicle and no pedestrian shall willfully or negligently throw or discharge from or upon any road or highway, public or private, any litter or any lighted cigarette, cigar, ashes, or any other flaming or glowing substance.

Any person convicted under this section for throwing or discharging any litter or any flaming or glowing substance is guilty of a misdemeanor.

SEC. 31. If any section, subsection, sentence, clause or phrase of this enactment is, for any reason, held unconstitutional such decision shall not affect the validity of the remaining portions of the act.

CHAPTER 2039

An act to add Section 5823.6 to the Public Resources Code, relating to small craft harbors.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 5823.6 is added to the Public Resources Code, to read:

5823.6. No city, county or district which has received, or is receiving, money under this division for the construction or improvement of small craft harbors of refuge shall, consistent with the intent of Section 5831, exclude the use of such harbor by commercial boats.

CHAPTER 2040

An act to add Division 4.6 (commencing with Section 6200) to the Labor Code, relating to the establishment of a Workmen's Compensation Study Commission, defining its powers, duties and responsibilities, and making an appropriation therefor.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature, in 1918, was empowered by a constitutional amendment to establish a complete system of workmen's compensation. The constitutional purpose underlying this system is that substantial justice be accomplished in all cases expeditiously, inexpensively, and without incumbrance of any character.

In enacting this division, the Legislature finds that since 1918, there has been a tremendous growth in the population of this State, which, together with the great industrial, social, economic, and technical progress which has occurred, has imposed new burdens on, and created new problems with respect to, the State's workmen's compensation system and has, there-

fore, made it advisable at this time that the system be reexamined.

Therefore, it is the purpose of the Legislature, in enacting this division, to authorize a study of the system to ascertain whether it is presently fully serving its original constitutional purpose and whether it may, in view of conditions which may be anticipated in this State, be expected to serve that purpose in the future; or whether, on the other hand, it has become so uncertain, discriminatory, expensive, and full of delay that it no longer effectively serves that purpose.

SEC. 2. Division 4.6 (commencing with Section 6200) is added to the Labor Code, to read:

DIVISION 4.6. THE WORKMEN'S COMPENSATION STUDY COMMISSION

CHAPTER 1. CREATION AND MEMBERSHIP

6200. There is in the State Government a Workmen's Compensation Study Commission, hereafter referred to in this division as the "commission." The commission shall consist of seven members appointed by the Governor, with the approval of the Senate, who shall be representative of the broad interests of this State and of those persons most directly concerned in workmen's compensation, but specifically including representatives of labor, employers, the medical and legal professions, the insurance industry, and the general public.

6201. Two Members of the Senate of the State of California appointed by the Committee on Rules of the Senate and two Members of the Assembly of the State of California appointed by the Speaker of the Assembly shall meet with the commission and participate in its activities to the extent that such participation is not incompatible with their respective positions as Members of the Legislature.

6202. The members of the commission, except the chairman, shall serve without other compensation but shall be reimbursed for all necessary expenses actually incurred in the performance of their duties.

6203. For the purposes of this division the members of the Legislature shall be considered a joint committee of the two houses of the Legislature and constitute an investigating committee on the subject of this division; and, as such, shall have the powers and duties imposed on such a committee by the Joint Rules of the Senate and Assembly and, in accordance with those rules, shall be allowed, out of the Contingent Funds of the Senate and the Assembly, their expenses incurred for mileage and other purposes in the exercise or performance of such powers or duties.

6204. The Governor shall select from among the members of the commission a chairman. The chairman shall serve as the executive officer of the commission and shall receive such

salary as may be fixed by the commission, subject to the provisions of Section 18004 of the Government Code.

6205. Four members of the commission shall constitute a quorum.

6206. The Governor shall summon the commission to its first meeting.

6207. All vacancies in the commission membership shall be filled in the same manner in which original appointments were made.

CHAPTER 2. PURPOSES AND DUTIES

6217. The commission shall conduct a study of, and make suggestions regarding, the workmen's compensation system as set forth in Division 4 (commencing with Section 3201) and Division 4.5 (commencing with Section 6100) of the Labor Code to determine whether the system most effective contributes to the original, fundamental purposes of the workmen's compensation laws, including relief from the consequences of injury; prompt, certain, and nonlitigious determination of rights under the law; and the rehabilitation and restoration of injured workers to gainful employment.

This study may include, but need not be limited to, a study of constitutional and statutory provisions and administrative regulations, procedures, and practices; a critical analysis of the permanent disability rating system and its actual effect upon injured workmen; a study leading to the establishment of guidelines to secure greater certainty in the disposition of cases involving physiological disorders as well as cases involving psychic disorders; and consideration of a first-class rehabilitation system to obtain maximum medical relief from the consequences of industrial injury and to encourage return to gainful employment.

The commission shall advise the Governor and the Legislature of its findings, conclusions, and suggestions, including recommendations in regard to proposed constitutional and statutory changes, improved administrative regulations, procedures, and practices, permanent disability rating schedules, and anything else in its opinion designed to further the accomplishment of the purposes of the workmen's compensation system in regard to restoring injured workmen to employment.

6218. The commission may submit to the Governor and the Legislature at such time, or times, as the commission deems necessary, interim reports of its activities.

6219. For the purposes of expenditures for the support of the commission, including the expenses of the members of the commission, the commission shall be deemed to be within the Department of Finance, but the commission shall not be subject to the control or direction of the Director of Finance.

6220. All meetings of the commission and all hearings held by the commission shall be open to the public.

CHAPTER 3. POWERS

6230. In carrying out its duties and responsibilities, the commission shall have all of the following powers:

(a) To meet at such times and places as it may deem proper.

(b) As a body or, on the authorization of the chairman, as a subcommittee composed of one or more members, to hold hearings at such times and places as it may deem proper.

(c) To issue subpoenas to compel the attendance of witnesses and the production of books, records, papers, accounts, reports, and documents.

(d) To administer oaths.

(e) To employ a secretary and such clerical, legal, and technical assistance as may appear necessary.

(f) To contract with and engage the services of one or more public or private research agencies, universities, or other institutions, whether located within or outside of this State, which would conduct research, prepare recommendations, or undertake the general administration and conduct of the study authorized by this division under the direction of the commission, or any of such activities, as the commission may determine, and to contract with such other individuals or agencies, public or private, as it deems necessary, for the rendition and affording of such services, facilities, studies, and reports to the commission as will best assist it to carry out its duties and responsibilities.

(g) To co-operate with, and to co-ordinate its work with, all state and federal agencies now or hereafter engaged in, or concerned with, rehabilitation and retraining insofar as such rehabilitation and retraining shall apply to the rehabilitation and retraining of industrially injured workers in this State and the operation of the workmen's compensation law.

(h) To co-operate with, and to secure the co-operation of, county, city, city and county, and other local law enforcement agencies in investigating any matter within the scope of its duties and responsibilities, and to direct the sheriff of any county or any marshal to serve subpoenas, orders, and other process.

(i) To certify to the superior court of any county in which proceedings are held the facts concerning the disobedience or resistance, by any person, of any lawful order, or the refusal of any person to respond to a subpoena, to take the oath or affirmation as a witness, or to be examined, or the misconduct of any person during a hearing; and to receive the assistance of the court in enforcing orders and process, in the manner prescribed by Section 11525 of the Government Code

(j) To co-operate with every department, agency, or instrumentality in the state government; and to secure directly from every department, agency, or instrumentality full co-operation, access to its records, and access to any information, suggestions, estimates, data, and statistics it may have available.

(k) To authorize its agents and employees to absent themselves from the State where necessary for the performance of their duties.

(*l*) To do any and all other things necessary or convenient to enable it fully and adequately to perform its duties and to exercise the powers expressly granted it.

CHAPTER 4. DURATION

6240. The commission shall be empowered to act and shall act until 90 days following the end of the 1965 Regular Session or such earlier time as its final report shall have been submitted to the Governor and to the Legislature, but not thereafter.

SEC. 3. The sum of one hundred thousand dollars ($100,000) is hereby appropriated out of any moneys in the State Treasury in the General Fund for the expenses of the commission.

CHAPTER 2041

An act to add Article 8 (commencing with Section 13575) to Chapter 2 of Division 10 of the Education Code, relating to school teachers, and making an appropriation therefor.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Article 8 (commencing with Section 13575) is added to Chapter 2 of Division 10 of the Education Code, to read:

Article 8. Exchange and Recruitment of Teachers

13575. This article shall be known as the "Foreign Language Teacher Exchange and Recruitment Law of 1963."

13575.1. The purposes of this article are to encourage and promote the temporary exchange of teachers between school districts in California and schools in foreign countries and to make available to California schools as teachers foreign-born persons and others who are especially qualified to provide instruction in one or more modern foreign languages in order that the schools of this State may comply with the requirement of the state law that foreign language instruction be given to pupils in grades six, seven, and eight as of July 1, 1965. It is the finding of the Legislature that California teachers will become more fluent in a foreign language and more knowledgeable about peoples of other countries and their environment by teaching service in a country where that language is used in daily life, and that it will be of substantial

benefit to California pupils beginning the study of a foreign language to be instructed by teachers who are fluent in the language and conversant with the attendant culture and are therefore able to instill and reinforce the appropriate speech habits early in the learning experience of the pupil. It is the purpose of the Legislature to encourage and enable California schools to benefit from the language abilities of citizens of foreign countries who are now or in the future may be residents of this State.

13575.2. The State Board of Education shall adopt rules and regulations under which teachers employed by California school districts may exchange positions with teachers in schools in other countries for a period of one year or less. The arrangements for such exchanges shall be made through the State Department of Education and in co-operation with the teacher exchange programs administered by agencies of the federal government. The first such exchanges shall take place during the 1964-1965 school year.

Grants from the federal government or any department or agency thereof may be accepted by the State and its agencies to be expended pursuant to the programs and plans enumerated in this article. The State Department of Education shall administer the teacher exchange program provided for in this article and shall do all acts necessary to carry out the purposes of this article.

13575.3. Teachers employed by California school districts desiring to participate in an exchange of positions under this article shall file with the Department of Education an application setting forth a plan of study to be completed during the year of service in a foreign country and shall agree to teach in a California school district for a minimum of two years following the year of exchange service.

13575.4. The exchange of teachers with a foreign country under the provisions of this article shall be conditioned upon the fact that the employing school district in California shall not be required to pay the salary of the teacher from the foreign country. Teachers employed by California school districts shall, while serving as teachers in a foreign country pursuant to this article, continue to receive from their employing school districts the full amounts of the regular salaries which would be payable to them if they were serving in the schools of the particular employing districts, and the district shall make all deductions provided by law for retirement purposes during such period.

The Department of Education may pay to the teachers from a foreign country employed by a school district in California under this article, part or all of the difference between the salary being paid them by their respective foreign employers and the salary being paid by the California school district to the particular teachers with whom they are exchanged, as the department shall determine to be appropriate in each instance;

except that no such payment to a foreign teacher shall exceed three thousand dollars ($3,000) in one school year nor shall such payments be made to more than 500 teachers from foreign countries in any one fiscal year.

The Department of Education may pay the travel expenses of teachers in the exchange program but such payments shall not be made to more than 500 California teachers and 500 teachers from foreign countries in any one fiscal year. Such payments shall be for the actual expense involved in travel to and from the exchange assignments or for one thousand dollars ($1,000), whichever is the lesser amount.

The State Board of Education shall establish minimum standards for credentials for such exchange teachers from a foreign country and shall provide for the issuance of such credentials to such teachers.

13575.5. The State Board of Education shall adopt rules and regulations providing for the recruitment of, and issuance of special credentials in the teaching of a foreign language to foreign-born persons or others having native fluency in a modern foreign language who are resident in the United States to teach foreign languages in the public schools of California. The issuance of special credentials in the teaching of foreign languages pursuant to this section shall be limited to 500 persons a year. The State Board of Education shall prescribe the minimum standards for such special credentials and shall provide for the renewal of such credentials. In issuing the credentials to any applicant the State Board of Education shall take into consideration fluency in the language to be taught, academic preparation, previous teaching experience, a knowledge of modern methods of foreign language instruction and a knowledge of peoples of other countries and their environment. No person shall be issued a special credential under this section unless he is a citizen as defined in Section 1940 of the Labor Code, or has declared his intention to become a citizen in the manner prescribed in subdivision (a) of Section 1944 of the Labor Code. The State Board of Education shall adopt rules and regulations which require the holder of a special credential issued under this section to undertake, within a reasonable time, a course of study which will enable the holder to become eligible for a standard teaching credential.

13575.6. The State Department of Education may contract with universities and colleges in this State accredited by the State Board of Education as a teacher education institution for furnishing refresher courses in which applicants for a special credential in the teaching of a foreign language issued under Section 13575.5 who have not had previous recent teaching experience may secure instruction in the teaching of a foreign language that will enable them to meet the standards prescribed by the State Board of Education.

Instruction in the teaching of foreign language pursuant to the provisions of this section shall be limited to 500 persons a year.

The State Department of Education may pay to each person enrolled in such a refresher course a stipend of seventy-five dollars ($75) a week for a total of six weeks or a stipend paid in some other manner but the total amount paid to an individual shall not exceed four hundred fifty dollars ($450).

13575.7. Sections 13272, 14001, and 14065 apply to exchange teachers

SEC. 2. There is hereby appropriated out of the General Fund in the State Treasury the sum of one hundred thousand dollars ($100,000) to the State Department of Education to be expended for administration of this article during the 1964-1965 and 1965-1966 fiscal years.

SEC. 3. This act shall become operative only on the date when federal grants-in-aid first become available for the purposes of this article.

CHAPTER 2042

An act to amend Section 21355 of the Vehicle Code, relating to stop signs.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 21355 of the Vehicle Code is amended to read:

21355. Stop signs erected under Section 21350, 21351, 21352, or 21354 may be erected either at or near the entrance to an intersection.

The Department of Public Works and local authorities in their respective jurisdictions may erect stop signs at any location so as to control traffic within an intersection.

When a required stop is to apply at the entrance to an intersection from a one-way street the roadway of which is 30 feet or more in width, stop signs shall be erected both on the left and the right sides of such one-way street at or near the entrance to the intersection.

Notwithstanding any other provision of this code, stop signs shall not be erected at any entrance to an intersection when such entrance is controlled by an official traffic control signal. Stop signs erected prior to the effective date of this provision and which are in place in contravention hereof shall be removed prior to January 1, 1965, by the Department of Public Works and local authorities in their respective jurisdictions.

CHAPTER 2043

An act to amend Section 5050 of the Public Resources Code, relating to Tamalpais State Park.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 5050 of the Public Resources Code is amended to read:

5050. In Tamalpais State Park, leases of buildings in the area at the foot of Steep Ravine shall be made by the department to the present occupants for a term of two years from the expiration of the existing leases at a reasonable rental and on such terms and conditions as determined by the department to be necessary to hold the State harmless on account of any damage arising out of the use of the buildings under such leases.

At the expiration of any such two-year lease, the lease shall be automatically renewed on a year-to-year basis, subject to the same annual rental and the same terms and conditions. The two-year lease or any subsequent year-to-year lease shall be terminated at its expiration if the Department of Finance, at least 30 days prior to the expiration of such period, notifies the tenant in writing that funds have been appropriated for an approved project in the state park which will require the removal in the following year of the building being occupied by the tenant.

Nothing in this section shall prevent the Department of Parks and Recreation from leasing any such building which is vacated by a tenant at the same rental and on the same terms and conditions as the lease to the former tenant.

CHAPTER 2044

An act to amend Section 1447 of the Health and Safety Code, relating to county medical facilities.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 1447 of the Health and Safety Code is amended to read:

1447. Notwithstanding any other provisions of the Welfare and Institutions Code, the county which is responsible for the payment of public assistance to any person or group of persons under Chapter 1 of Part 2 of Division 2, Chapter 1 of Division 3, or Division 5 of that code, and the needy relative in the

case of aid to needy children, shall provide the necessary hospital or medical care, or both, if otherwise qualified for such care. If a recipient of public assistance moves from one county to another county within this State to make his home, the county to which such recipient removes shall become responsible for providing medical or hospital care or both upon notification by the first county that such recipient has moved to the second county for the purpose of making his home in said county, provided that the recipient is otherwise qualified for such care, except that he need not meet the residence qualifications set forth in Section 2556 of the Welfare and Institutions Code.

SEC. 2. Nothing contained in this act shall affect the right of a county to demand payment from another county under Section 1475 of the Health and Safety Code.

CHAPTER 2045

An act to add Sections 31703.2 and 31703.3 to the Water Code, relating to county water districts.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 31703.2 is added to the Water Code, to read:

31703.2. Annually, the Sierra Lakes County Water District, Placer County, may request, and the board of supervisors shall levy a bond tax on land only in the district or improvement district benefited by the purposes of the bonded debt. The bond tax levied pursuant to this section constitutes a lien on all property, both land and improvements, located on the land benefited by the purposes of the bonded debt.

This special provision is necessary because of the benefit to undeveloped land within the Sierra Lakes County Water District by the availability of improvements in the area.

SEC. 2. Section 31703.3 is added to the Water Code, to read:

31703.3. Annually, the Circle Oaks County Water District, Napa County, may request, and the board of supervisors shall levy a bond tax on land only in the district or improvement district benefited by the purposes of the bonded debt. The bond tax levied pursuant to this section constitutes a lien on all property, both land and improvements, located on the land benefited by the purposes of the bonded debt.

This special provision is necessary because of the benefit to undeveloped land within the Circle Oaks County Water District by the availability of improvements in the area.

CHAPTER 2046

An act to amend Sections 26300 and 26306 of the Water Code, relating to irrigation district assessments.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963]

The people of the State of California do enact as follows:

SECTION 1. Section 26300 of the Water Code is amended to read:

26300. (a) Subject to the limitations of subdivision (b), a collector's deed conveys to the grantee free of all encumbrances the absolute title to the property described in it except when the land is owned by the United States or this State, in which case it is prima facie evidence of the right of possession.

(b) If the record title to minerals or to oil, gas or other hydrocarbon substances was held by one or more persons other than the owner of the land at the date of the assessment for which the property was sold, the collector's deed to the land shall not convey title to such minerals, oil, gas or other hydrocarbon substances; provided that the minerals, oil, gas or other hydrocarbon substances so held under separate ownership shall be subject to sale for delinquent assessments assessed to the owner of such substances, in the same manner as with respect to land.

SEC. 2. Section 26306 of said code is amended to read:

26306. The provisions of Sections 26304 and 26305 do not apply in the following cases:

(a) Where the assessments for which the property was sold were paid before the sale.

(b) Where the property was redeemed after the sale.

(c) Where the land was not subject to assessment at the time it was assessed.

(d) Where no assessments were due on the land at the time of the sale.

(e) Where fraud is established.

(f) Where the deed is void on its face.

(g) Where the owner of the land was at the time of the sale a minor or insane person, in which case the earliest time that the statute of limitations begins to run is when the disability is removed.

(h) In any action described in Section 26304 or 26305 based on the alleged ineffectiveness of the collector's deed to convey the title to minerals or to oil, gas or other hydrocarbon substances which was held by one or more persons other than the owner of the land on the date of the assessment for which the property was sold.

CHAPTER 2047

An act to amend Sections 16645.2, 16645.3, 16645.5, 16645.9 and 16645.11 of, and to add Sections 16645.12a and 16645.28 to, the Education Code, relating to child care centers, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 23, 1963 Filed with Secretary of State July 25, 1963]

The people of the State of California do enact as follows:

SECTION 1. Section 16645.2 of the Education Code is amended to read:

16645.2. The governing board of any school district or a county superintendent of schools with the approval of the county board of education is authorized to establish and maintain, upon the approval of the Superintendent of Public Instruction, one or more pilot child care centers for physically handicapped and mentally retarded children between 3 years and 16 years of age residing in, and in the custody of persons residing in, the district or county. The governing board or county superintendent shall determine the hours, days, and months during which the child care center is to be maintained.

Nothing in this section shall be construed as vesting in the county superintendent of schools any authority to alone effect the levy and collection of any county, school, or other local taxes for the support of any such pilot child care center for physically handicapped and mentally retarded children.

The establishment and maintenance of any pilot child care center for physically handicapped and mentally retarded children by the county superintendent of schools shall be undertaken subject to the prior approval of the county board of education, upon the application of one or more school districts under his jurisdiction, and such establishment and maintenance shall be upon such terms and conditions as may be provided for in a written contract entered into between the county superintendent of schools and the governing board of any such district. Not more than four pilot centers shall be established pursuant to this section.

SEC. 2. Section 16645.3 of said code is amended to read:

16645.3. As used in this article (commencing at Section 16645.1) "parent" includes any person having legal custody of a child, "child care center" means a child care center for mentally retarded and physically handicapped children, "governing board of any school district" includes a county board of education, and "school district" includes a county superintendent of schools, except as used in Section 16645.12 or unless a different meaning clearly appears from the context.

SEC. 3. Section 16645.5 of said code is amended to read:

16645.5. A governing board maintaining a child care center may accommodate in the center children residing in another district upon such terms and under such conditions as may be agreed upon by the governing boards of both districts. Such terms and conditions shall include the payment of the cost required or authorized to be paid from the district general fund or a special child care tax levied by the operating district. The amount shall be paid from any funds of the contracting school district available for that purpose.

SEC. 4. Section 16645.9 of said code is amended to read:

16645.9. The Superintendent of Public Instruction shall prepare a schedule of fees which shall be used by each school district and county superintendent for the charging of fees to parents. The fees shall be based on the financial status of the parents, with larger fees to be charged for children of families having larger incomes.

If the combined income of the parents having one child exceeds seven hundred fifty dollars ($750), or, where there is more than one child, if it exceeds seven hundred fifty dollars ($750) plus an additional sixty-six dollars ($66) for each additional child, the parents shall be charged the full cost of care of the child at the center. Fees for children of parents having lower incomes shall be fixed on a sliding scale basis. If it becomes necessary for the Superintendent of Public Instruction to adjust the fee schedule, any increase shall be made first in fees charged to those in the higher income brackets. The rate of increase in fees charged for children of families of different income levels need not be uniform as between the different income levels.

The fee schedule shall, so far as reasonably possible, be established on such basis and in accordance with such principles as the Superintendent of Public Instruction may determine to insure proper administration of the child care center program and to establish uniform budgetary and accounting procedures.

SEC. 5. Section 16645.11 of said code is amended to read:

16645.11. The Superintendent of Public Instruction shall apportion state funds to the districts in such amounts as will equal the difference between seventy cents ($0.70) and the average hourly fee per child collected as provided for in Section 16645 9 of this code, except that in no event shall the amount apportioned exceed sixty cents ($0 60) per hour per child.

SEC. 6. Section 16645.12a is added to said code, to read:

16645.12a. Any school district the governing board of which has entered into a contract with the county superintendent of schools for the establishment of a pilot child care center for physically handicapped and mentally retarded children pursuant to Section 16645.2 shall be deemed for the purpose of Section 16645.12 to be maintaining a child care center.

SEC. 7. Section 16645.28 is added to said code, to read:

16645.28. The governing board of any school district, or any county superintendent of schools, may provide for the transportation of children between their homes and the center attended by them as provided by a school district. The Superintendent of Public Instruction shall allow to each school district an amount equal to the current expense of transporting severely handicapped children, but not to exceed one-half the cost or two hundred dollars ($200), whichever is the lesser amount, for each unit of average weekly paid membership per year resulting from the attendance of such children transported between home and the child care center.

SEC. 8. There is appropriated from the General Fund to the Department of Education for use during the 1963-1964 fiscal year for the purpose of Article 2 (commencing with Section 16645 1), Chapter 5, Division 12 of the Education Code, the amount of eighty thousand six hundred seventy-two dollars ($80,672).

SEC. 9. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There is an urgent need for child care centers for physically handicapped and mentally retarded children in the smaller school districts. In order to give the county superintendent of schools adequate time to make necessary preparations for child care centers in their counties for the 1963-64 fiscal year, it is necessary that this act take effect immediately.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963]

The people of the State of California do enact as follows:

SECTION 1. Section 2841 of the Business and Professions Code is amended to read:

2841. There is hereby created in the Department of Professional and Vocational Standards a Board of Vocational Nurse Examiners of the State of California, consisting of 11 members

The people of the State of California do enact as follows:

SECTION 1. Chapter 12 (commencing with Section 4987) is added to Division 4 of the Public Resources Code, to read:

CHAPTER 12. YOUTH CONSERVATION AND TRAINING PROGRAM

Article 1. General Provisions and Purposes

4987. It is the intention of the Legislature in adopting the program provided by this chapter on a demonstration or pilot basis, to afford young men an opportunity to participate in work and activities which will permit them to develop the trades and attitudes necessary to become productive members of society, and while in the course of such work and training, to benefit the natural resources of the State. Work projects developed under this chapter shall be confined to natural resource conservation projects which serve a useful public purpose and do not result in the displacement of regular workers.

4988. There is in the Department of Conservation a Board of Directors for the California Youth Conservation and Training Program (hereafter referred to in this chapter as "the board"), composed of the Director of Conservation, the Superintendent of Public Instruction, the Director of Employment, the Director of Industrial Relations, and the Director of the Youth Authority. The Director of Conservation shall be chairman.

The board shall meet at least four times a year. The function of the board is to establish general policies governing a Youth Conservation and Training Program, which program shall involve the following essential elements:

(a) Procedures for the admission and discharge of young men qualifying for this program pursuant to the standards

specified in this chapter. In such procedures for discharge, to include referral of such participants who have completed their tenure in the program, through the offices and facilities of the Department of Employment to educational, training, or work in the competitive labor market; and in so doing, utilizing to the maximum extent possible any assistance which may be available under the Manpower Development and Training Act of 1962.

(b) Determination of the vocational instruction to be afforded and of the general conservation activities to be accomplished consistent with the provisions of this chapter.

(c) Allocation of the time of the participants to vocational training, conservation work, recreation, study, free time, visitation and such other activities to establish a well-ordered, pleasant and productive environment.

(d) Procedures for permitting such participants to engage in emergency fire suppression, disaster relief, rescue services and civil defense activities.

(e) Procedures for the handling of grievances and appeals, and of death or disability claims by or on behalf of any supervisorial personnel or participant.

(f) Procedures for the contracting by various agencies of government for the utilization of such participants.

(g) Such other procedures, standards, policies or considerations as are necessary to achieve the stated objective of this program.

Article 2. Procedures and Operations

4990. The program is established in the Division of Forestry of the Department of Conservation. Subject to policies established by the board, the State Forester shall be responsible for the administration of the program and shall provide facilities and a work program for the purpose of training youth conservation trainees in conservation and forest practices, and in such skills for which vocational training is available in the conduct of this program. The State Forester shall also provide the necessary personnel to instruct, supervise and train youth conservation trainees in these activities. The State Forester shall prepare and submit to the Director of Conservation reports of the activities of the program for such board, executive or legislative action as may be necessary.

To aid in accomplishing the purposes of the program all state departments and agencies shall afford full co-operation to the board in its administration of the provisions of this chapter.

4991. To qualify as a youth conservation trainee (hereafter referred to in this chapter as a "trainee") a young man shall meet each of the following conditions:

(a) Have attained the age of 16 years, but not the age of 22 years, and have secured any permission required by law by virtue of age.

(b) Have volunteered for the program through the Director of Employment as hereafter provided.

(c) Have never been convicted of a felony.

(d) Have passed such physical and mental aptitude test as required.

(e) Have thereafter been recommended for participation in the program by the Director of Employment.

4992. The Director of Employment, through the public employment service maintained within the Department of Employment, shall conduct such tests and make such determinations required in Section 4991 and shall establish, under direction of the board, and in co-operation with the state agencies represented by members of the board, lists of such qualified young men currently available for assignment to the program for a continuous period of six months.

Any young man whose name appears on any such list as available for assignment may apply to the State Forester for participation in the program as a trainee, and may thereupon be accepted by the State Forester for such participation.

The total period for which a trainee may participate in the program shall be one year.

4993. The conservation work to be afforded trainees under the demonstration program shall involve principally the improvement and protection of the forest and watershed lands in the State, through the construction and maintenance of firebreaks, fire control roads, truck trails, and related forms of fire suppression facilities. It shall involve also work in fire suppression, timber-stand improvement, reforestation, park development, fish and game habitat improvement, control of forest pests and diseases, and improvement of riding and hiking trails.

Article 3. Fiscal and Miscellaneous Matters

4996. The State Forester may enter into agreements with any agency of the federal government for the financial support of the program and shall conform the administration of the program in such a manner as may be necessary to qualify for such support under existing or subsequent federal legislation having the same or similar purpose or establishing the same or a similar program or for the purpose of aiding or supporting a state program as established by this chapter.

4996.5. (a) The county superintendent of schools, with the approval of the county board of education, of any county in which any camp or other facility maintained by the State Forester at which trainees reside is wholly or partially located may furnish education for the trainees in the camp at the request of the State Forester.

(b) The school attendance of such trainees shall be credited to the county school service fund of the county superintendent of schools providing the education for the trainees; and State School Fund apportionments on account of such attendance

shall be made to the fund in the amount, per unit of average daily attendance, equal to the foundation program computed per unit of average daily attendance for the high school district in which the camp or facility is situated.

4997. A trainee shall be deemed to be a resident of the high school district in which he lived at the time of his admission to the program and the excess cost for a school year of educating such trainee shall be paid by the high school district of which he is a resident to the county superintendent who is providing education for the trainees. The excess cost shall be determined by dividing the total current expense of education during such school year (for the maintenance of a high school level school or classes for trainees), by the total number of units of average daily attendance in such school or classes during such school year, less state and federal apportionments on account of such average daily attendance.

Average daily attendance of trainees shall be computed, for purposes of this chapter, by dividing the number of days such trainee attended the schools or classes by the number of days that the schools or classes were taught, except that with respect to a trainee attending such schools or classes for more than 175 days in a school year, the average daily attendance shall be computed by using the divisor of 175.

For purposes of computing average daily attendance 180 minutes of class attendance shall be deemed to constitute a school day, and no more than 15 hours of class time per week shall be considered.

Not later than July 15th of each year, the superintendent of schools of the county providing education for trainees shall forward his claim for the excess expense reimbursement to the high school district of residence of each trainee during the preceding school year, and the governing board of such high school district shall upon receipt thereof pay such claims.

The governing board of the high school district to which the claim is presented may include in its budget the amount necessary to pay the claim, and, if the amount is included in the budget, the board of supervisors shall levy a school district tax to raise the amount. The school district tax shall be in addition to any other school district tax authorized by law to be levied.

4998. A trainee shall:

(a) Receive sixty dollars ($60) per month, of which forty dollars ($40) per month will be retained until termination of his assignment to the program. Twenty percent (20%) of the youth trainees may receive added compensation up to an additional ten dollars ($10) per month for assigned leadership responsibilities. Subject to the approval of the Director of Finance, the amount of the stipends paid trainees may be adjusted as necessary to qualify for any federal grant that may become available for the purposes of the youth conservation trainee program.

(b) Be provided room, board, and work clothing, and medical attention including emergency dental care.

(c) Be provided with a one-thousand-dollar ($1,000) life insurance policy for assignee in case of an industrial death where no dependents can be shown.

(d) Have available to him schooling in basic learning skills.

4999. A trainee in the program shall not be entitled to sick leave, vacation, retirement or other benefits accorded state employees, but shall be entitled to the benefits under Division 4 (commencing with Section 3201) and Division 4.5 (commencing with Section 6100) of the Labor Code as though he were an employee of the State during membership in the program.

In case of emergency fire conditions or disaster, trainees may be required to work extra hours as well as on weekends and holidays.

SEC. 2. Chapter 12 (commencing with Section 4987), Division 4 of the Public Resources Code, as enacted by Section 1 of this act, shall be operative only until the 91st day after the final adjournment of the 1965 Regular Session of the Legislature, and thereafter shall have no force and effect.

SEC. 29. This act is an urgency measure necessary for the preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In O'Kane v. Catuira, et al., 212 A.C.A. 131, the District Court of Appeal, First Appellate District, Division Two, on January 21, 1963, held that Financial Code Sections 1800 and 1801, which require a license from the Superintendent of Banks to engage in the business of receiving money for the purpose of transmitting the same to a foreign county, are unconstitutional. This act is designed to eliminate the constitutional defects noted by the court.

It is imperative for the protection of the public that there be no interruption in the requirement that a license be obtained from the Superintendent of Banks to engage in such business.

(b) All moneys heretofore or hereafter collected by the director pursuant to this chapter shall be deposited in a bank or banks, or other depository, approved by the Director of Finance. Funds so collected shall be deposited and disbursed in conformity with appropriate rules and regulations prescribed by the director. The expenditure of such funds shall be exempt from the provisions of Section 603 of the Government Code. All such expenditures by the director shall be audited at least every two years by the Department of Finance and a copy of such audit shall be delivered within 30 days after the completion thereof to the Governor, the Director of Agriculture and the Controller. Any moneys in the State Treasury to the credit of the "State Dairy Products Trust Fund" shall be withdrawn and deposited in accordance with the provisions of this paragraph.

The moneys collected by the director pursuant to this chapter shall be disbursed by the director only for the necessary expenses incurred by the board and the director to carry out the purposes of this chapter, including the payment of refunds authorized hereunder. The director may disburse said funds in authorized activities related to particular dairy products without reference to the branches of the dairy industry from which said funds are derived.

(d) Moneys deposited by the director pursuant to this section, which the director determines are available for investment, may be invested or reinvested by the State Treasurer in any of the securities described in Article 1 (commencing with Section 16430), Chapter 3, Part 2, Division 4, Title 2 of the Government Code, or placed in a bank as provided in Chapter 4 (commencing with Section 16500), Part 2, Division 4, Title 2 of the Government Code, and handled in the same manner as money in the State Treasury. For such purposes such moneys may also be combined with funds determined by the director to be available for investment pursuant to Section 1300.17 of this code. CHAPTER 2054

An act to amend Section 1470 of the Civil Code, relating to transfer of obligations.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

(a) Such contiguous real property is particularly described in the lease;

(b) Such successive owners and persons having any such interest are in the lease expressed to be bound thereby for the benefit of the demised real property;

(c) The lease is recorded in the same manner as grants of real property, in the office of the recorder of each county in which such contiguous real property or some part thereof is situate. Such lease shall include therein the description of any such contiguous land described in any unrecorded instrument,

the contents of which unrecorded instrument are incorporated by reference in such recorded lease.

Where several persons are subject to the burden of any such covenant, it shall be apportioned among them pursuant to Section 1467, except that where only a portion of such contiguous real property is so affected thereby, such apportionment shall be only among the several owners of, and persons having any such interest in, such portion. This section shall apply to the mortgagee, trustee or beneficiary of a mortgage or deed of trust upon such contiguous real property or any part thereof while and only while he, in such capacity, is in possession thereof.

CHAPTER 2055

An act to add Article 6.7 (commencing with Section 795) to Chapter 1 of Part 2 of Division 1 of, and to amend Section 10270.4 of, the Insurance Code, relating to disability insurance.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Article 6.7 (commencing with Section 795) is added to Chapter 1 of Part 2 of Division 1 of the Insurance Code, to read:

Article 6.7. Joint Activities

795. It is the purpose of this article to provide a means of more adequately meeting the needs of persons who are 65 years of age or older and their spouses for insurance coverage against financial loss from accident or disease through the combined resources and experience of a number of insurers; to make possible the fullest extension of such coverage by encouraging insurers to combine their resources and experience and to exercise their collective efforts in the development and offering of policies of such insurance to all such applicants at costs lower than those generally available through individual insurers; and to regulate the joint activities herein authorized in accordance with the intent of Congress as expressed in the Act of Congress of March 9, 1945 (Public Law 15, 79th Congress), as amended.

795.1. Wherever used in this article, the following terms shall have the meanings hereinafter set forth or indicated, unless the context otherwise requires:

(a) "Association" means a voluntary unincorporated association formed for the purpose of enabling co-operative action to provide disability insurance in accordance with this article in this or any other state having legislation enabling the issuance of insurance of the type provided in this article.

(b) "Insurer" means any insurance company which is authorized to transact disability insurance in this State.

(c) "Extended health insurance" means hospital, surgical and medical expense insurance provided by a policy issued as provided by this article.

795.2. Notwithstanding any other provision of this code or any other law which may be inconsistent herewith, any insurer may join with one or more other insurers to plan, develop, underwrite, and offer and provide to any person who is 65 years of age or older and to the spouse of such person, extended health insurance against financial loss from accident or disease, or both. Such insurance may be offered, issued and administered jointly by two or more insurers by a group policy issued to a policyholder through an association formed for the purpose of offering, selling, issuing and administering such insurance. The policyholder may be an association, a trustee, or any other person. Any such policy may provide, among other things, that the benefits payable thereunder are subject to reduction if the individual insured has any other coverage providing hospital, surgical or medical benefits whether on an indemnity basis or a provision of service basis resulting in such insured being eligible for more than 100 percent of covered expenses which he is required to pay, and any insurer issuing individual policies providing extended hospital, surgical or medical benefits to persons 65 years of age and older and their spouses may also use such a policy provision. A master group policy issued to an association or to a trustee or any person appointed by an association for the purpose of providing the insurances described in this article shall be another form of group disability insurance.

Any form of policy approved by the commissioner for an association shall be offered throughout California to all persons 65 and older and their spouses, and the coverage of any person insured under such a form of policy shall not be cancelable except for nonpayment of premiums unless the coverage of all persons insured under such form of policy is also canceled.

795.3. Notwithstanding the provisions of Section 755.5 of this code, any person licensed to transact disability insurance as an insurance agent, insurance broker, insurance solicitor or life agent may transact extended health insurance and may be paid a commission thereon in accordance with commission schedules filed with the commissioner as required by Section 795.5 of this code.

795.4. Any association formed for the purposes of this article may hold title to property, may enter into contracts, and may limit the liability of its members to their respective pro rata shares of the liability of such association. Any such association may sue and be sued in its associate name and for such purpose only shall be treated as a domestic corporation. Service of process against such association, made upon a managing agent, any member thereof or any agent authorized by

appointment to receive service of process, shall have the same force and effect as if such service had been made upon all members of the association. Such association's books and records shall also be subject to examination under the provisions of Sections 730-738, inclusive, either separately or concurrently with examination of any of its member insurers.

795.5. The forms of the policies, applications, certificates or other evidence of insurance coverage, commission schedules and applicable premium rates relating thereto shall be filed with the commissioner. No such policy, contract, certificate or other evidence of insurance, application or other form shall be sold, issued or used and no endorsement shall be attached to or printed or stamped thereon unless the form thereof shall have been approved by the commissioner or 30 days shall have expired after such filing without written notice from the commissioner of disapproval thereof. The commissioner shall disapprove the forms for such insurance if he finds that they are unjust, unfair, inequitable, misleading or deceptive or that the rates are by reasonable assumptions excessive in relation to the benefits provided. In determining whether such rates by reasonable assumptions are excessive in relation to the benefits provided, the commissioner shall give due consideration to past and prospective claim experience, within and outside this State, and to fluctuations in such claim experience, to a reasonable risk charge, to contribution to surplus and contingency funds, to past and prospective expenses, both within and outside this State, and to all other relevant factors within and outside this State including any differing operating methods of the insurers joining in the issue of the policy. In exercising the powers conferred upon him by this section, the commissioner shall not be bound by any other requirement of this code with respect to standard provisions to be included in disability policies or forms.

The commissioner may, after hearing upon written notice, withdraw an approval previously given, upon such grounds as in his opinion would authorize disapproval upon original submission thereof. Any such withdrawal of approval after hearing shall be by notice in writing specifying the ground thereof and shall be effective at the expiration of such period, not less than 90 days after the giving of notice of withdrawal, as the commissioner shall in such notice prescribe.

If and when a program of hospital, surgical and medical benefits is enacted by the federal government or the State of California, the extended health insurance benefits provided by policies issued under this article shall be adjusted to avoid any duplication of benefits offered by the federal or state programs and the premium rates applicable thereto shall be adjusted to conform with the adjusted benefits.

The association shall submit an annual report to the Insurance Commissioner which shall become public information and shall provide information as to the number of persons insured,

the names of the insurers participating in the association with respect to insurance offered under this article and the calendar year experience applicable to such insurance offered under this article, including premiums earned, claims paid during the calendar year, the amount of claims reserve established, administrative expenses, commissions, promotional expenses, taxes, contingency reserve, other expenses, and profit and loss for the year. The commissioner shall require the association to provide any and all information concerning the operations of the association deemed relevant by him for inclusion in the report.

795.6. The articles of association of any association formed in accordance with this article, all amendments and supplements thereto, a designation in writing of a resident of this State as agent for the service of process, and a list of insurers who are members of the association and all supplements thereto shall be filed with the commissioner.

The name of any association or any advertising or promotional material used in connection with extended health insurance to be sold, offered, or issued, pursuant to this article shall not be such as to mislead or deceive the public.

795.7. No act done, action taken or agreement made pursuant to the authority conferred by this article shall constitute a violation of or grounds for prosecution or civil proceedings under any other law of this State heretofore or hereafter enacted which does not specifically refer to insurance.

SEC. 2. Section 10270.4 of the Insurance Code is amended to read:

10270.4. Any disability insurer may issue policies of group disability insurance and family expense disability insurance as defined in this article but shall not issue any form of policy of group disability insurance, or family expense disability insurance except as prescribed in this article and except as provided in Article 6.7 of Chapter 1 of Part 2 of Division 1. Provided, however, that during the calendar years of 1952 to 1956, inclusive, a policy of family expense disability insurance as defined in Section 10270 7 may either (1) contain the provisions required by Section 10270.8 and those promulgated by the commissioner pursuant to Sections 10270.9 and 10270.93 and be subject to this article and to Section 10291.5 or (2) be filed and approved under Article 2 of this chapter and be subject to such article and to Articles 3a, 4a and 5a of this chapter and contain the provision required by Section 10270.8(b). On and after January 1, 1957 the provisions of this article shall no longer relate to such policies except Section 10270.7 and subdivision (b) of Section 10270.8 and all of such policies shall be subject to the provisions set forth in alternative (2) above, except that such policies need not comply with subsection (c) of Section 10320 if they comply with Section 10270.7.

CHAPTER 2060

An act to add Article 6.5 (commencing with Section 6060) to Chapter 6 of Division 6 of the Education Code, relating to the public school system, and making an appropriation therefor.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Article 6.5 (commencing with Section 6060) is added to Chapter 6, Division 6 of the Education Code, to read:

Article 6.5 Special Programs or Classes in English for Elementary School Pupils

6060. The Legislature hereby finds, recognizes, and declares that an extraordinary situation exists with reference to language handicaps of many pupils in attendance at public elementary schools in the Counties of Imperial and San Diego In some of the public elementary schools in those counties, inordinately high percentages of the pupils, particularly at the lower grade levels, are unable to speak the English language, wholly aside from considerations of their inability to read and

write the same. Superimposed upon the responsibility of conduct of the regular elementary program in those schools, consequently, is the necessity of providing preliminary and concurrent work in mastering the rudiments of the English language for large numbers of pupils. Providing the specially trained personnel, and the supplies and equipment necessary for those purposes is found to entail an added financial burden upon the districts maintaining those schools which cannot, without undue hardship, be met through the established state and local system for support of the public schools.

The Legislature intends, by the provisions of this article, to establish a two-year pilot program under the general direction of the State Board of Education, and insofar as the State's direct financial participation is concerned, under the administration of the Superintendent of Public Instruction, which shall serve not only to afford some financial relief to the school districts in Imperial and San Diego Counties which are most severely affected by the problem in question, but which will serve to provide guidelines for the development of effective programs to meet such problems in the future.

6061. The governing board of any school district maintaining an elementary school in Imperial County or San Diego County may, pursuant to this article and the implementing rules and regulations of the State Board of Education and the Superintendent of Public Instruction, establish and maintain special programs or classes for which state financial assistance under this article may be provided, in speaking, reading, and writing the English language for foreign-born minors who are enrolled in an elementary school of the district and who are unable to speak, read, or write the English language to a degree of proficiency necessary to enable the pupil to benefit from the instruction in the regular day classes of the elementary school in which he is enrolled.

6062. The State Board of Education shall adopt rules and regulations prescribing standards for such special programs or classes and no school shall be eligible for an apportionment under this article on account of attendance in such special classes unless it meets such standards.

The standards prescribed by the State Board of Education shall extend to matters including identification of participating pupils, standards to govern the allowance and apportionment to districts with eligible programs of moneys appropriated by the Legislature for purposes of this article, the adequacy and effectiveness of programs in terms of competency of personnel and the availability of necessary equipment and facilities, and any other factors it may deem best suited to carrying out the intent and purpose of the Legislature in enacting this chapter.

6063. The Superintendent of Public Instruction shall compute the excess expense to school district of maintaining pro-

grams under this article, and shall allow to such districts in each fiscal year from moneys appropriated therefor, the amount of such excess expense but not to exceed fifty dollars ($50) per full school year participating pupil. Such allowances shall be made on a current basis commencing in the 1963-1964 fiscal year, and the amounts computed as allowable shall be apportioned to the school districts together with any of the apportionments from the State School Fund made pursuant to Article 3 (commencing with Section 17401) of Chapter 2 of Division 14, as the Superintendent of Public Instruction shall determine.

The Superintendent of Public Instruction may prescribe and require the submission of such reports as he may require for these purposes, and shall otherwise administer this article.

6064. The Department of Education shall, on or before the first legislative day in February, during the 1965 Regular Session, report to the Legislature on the operation and effect of the programs established pursuant to this article, including in the report its recommendations in connection therewith.

6065. The number of pupils in respect to whom allowances shall be provided in any school year under this article shall not exceed five hundred (500).

6066. This article shall remain operative until June 30, 1965, after which it shall be of no force or effect.

SEC. 2. There is hereby appropriated from the General Fund in the State Treasury to the Department of Education, for the 1963-1964 fiscal year, the sum of twenty-five thousand dollars ($25,000) for purposes of carrying out the provisions of Article 6.5 (commencing with Section 6060) of Chapter 6 of Division 6 of the Education Code.

CHAPTER 2061

An act to add Section 10129.5 to the Insurance Code, relating to annuity contracts.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 10129.5 is added to the Insurance Code, to read:

10129.5. Sections 10130 and 10131 do not apply to annuity contracts which are within the scope of Section 401(g) of the Internal Revenue Code of the United States.

CHAPTER 2062

An act to amend Section 1190 of the Insurance Code, relating to excess funds investments.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 1190 of the Insurance Code is amended to read:

1190. Any domestic incorporated insurer, which maintains in cash on hand or on deposit in a national or state bank, or in securities specified in Article 3 of this chapter, an amount equal to its required minimum paid-in capital, may invest the remainder of its assets in the purchase of, or loans upon the securities set forth in this article. Such investments are known as excess funds investments and are subject to the restrictions set forth in this article.

CHAPTER 2063

An act relating to the acquisition and improvement of real property in the City and County of San Francisco, making an appropriation and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding the provisions of Section 13471 of the Government Code, the Director of Finance is hereby authorized to invest and there is hereby appropriated the sum of three hundred thirty thousand dollars ($330,000) or so much thereof as may be necessary from the School Land Fund for the acquisition and improvement of real property located at the northwest corner of Hyde and McAllister Streets in the City and County of San Francisco for use as a state building. The real property shall be acquired under the provisions of the Property Acquisition Law except that the Director of Finance shall have jurisdiction and control of the real property and shall hold and possess the real property as trustee for the benefit of the School Land Fund and for the purpose of liquidating said investment and paying interest thereon as hereinafter provided.

SEC. 2. The appropriation may be expended for the payment of all costs and expenses, including administrative costs, incurred in connection with the acquisition or improvement of the real property.

SEC. 3. The Director of Finance may lease all or any portion of the real property on such terms and conditions as he may determine and shall maintain, improve, and care for such property in order to secure rent therefrom. All moneys collected pursuant to this section shall be deposited in the Special Deposit Fund for purposes set forth in Section 4 of this act.

SEC. 4. All costs or expenses, including administrative costs, incurred in maintaining, improving and caring for such real property may be reimbursed or paid from moneys received pursuant to Section 3 of this act. After making the reimbursement or payment of such costs, upon order of the director the remaining moneys received pursuant to said Section 3 shall be deposited as hereinafter provided in the School Land Fund and the State School Fund until the total of all moneys withdrawn pursuant to this act plus an amount equal to 4 percent per annum on the unpaid balances compounded and computed annually, has been deposited. Thereafter, moneys accruing shall be deposited in the General Fund and the Director of Finance shall have jurisdiction and control of the real property free of any trust or other obligations. Deposits of moneys in the School Land Fund and the State School Fund shall be made as follows: First, such sums as are necessary to pay the amount previously compounded and computed based on said 4 percent shall be deposited in the State School Fund; the remaining moneys, if any, shall be deposited in the School Land Fund.

SEC. 5. The appropriation made by this act shall be available for expenditure until June 30, 1964.

SEC. 6. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The civic center plan of the City and County of San Francisco calls for the immediate purchase of this property by the State and the failure of the State to immediately purchase this property could have an effect on the plan which would be detrimental to the public interest. Further, land value of this property is subject to rapid increase and the public interest will suffer if acquisition is not commenced immediately. It is, therefore, necessary in order to protect the public interest in the prompt and economical acquisition of these properties for state purposes that this act take effect immediately.

SEC. 4. The granted lands shall be improved and all improvements, betterments and structures thereon shall be made or erected by the city or its authorized agents or lessees, without expense to the State of California; provided, however, that nothing contained in this act shall preclude the city from accepting and expending any grant of funds from the State of California for the development of the granted lands for any public purpose not inconsistent with the trusts for commerce, navigation and fishery. In the management, conduct, operation and control of the granted lands or any improvements, betterments or structures thereon, the city and its successors shall make no discrimination in rates, tolls or charges for any use or service in connection therewith.

SEC. 6. There is hereby reserved to the people of the State of California the right to fish in the waters upon the granted lands with the right of convenient access to said waters over the granted lands for said purpose.

SEC. 7. There is hereby excepted and reserved to the State of California the following:

SEC. 9. The State Lands Commission shall, at the expense of the city, survey and monument the granted lands, prepare a metes and bounds description and plat of the granted lands, and record such description and plat in the office of the County Recorder of San Diego County.

SEC. 10. [Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 13.1 of Chapter 1544 of the Statutes of 1951 is amended to read:

Sec. 13.1. Where, pursuant to Section 12, a zone has been established and the project adopted therefor is that of operation and maintenance of works or improvements for such zone which have been constructed by the State of California or the federal government or any agency or authority of either or both of them other than the board and the board has been requested in writing to provide such operation and maintenance of such works or improvements by said zone, funds for such purpose may, at the discretion of the board, be raised by assessment in the manner herein provided, namely:

(1) The board shall appoint three valuation assessment commissioners who have no interest in any real property within the zone and each of whom, before entering upon his duties, shall make and subscribe an oath that he is not in any manner interested in any real property within the zone, directly or indirectly, and that he will perform the duties of a commis-

sioner to the best of his ability. At least one of the commissioners shall be a civil engineer who has had experience in the establishment of valuation assessments in reclamation districts. For purposes of satisfying this requirement it shall be sufficient that such civil engineer shall have had experience in assessment work in the zone covered in this act or assessment work in the district.

(2) The commissioners shall view and fix upon the real property in the zone an assessment valuation at a per acre rate for each parcel which is in proportion to the benefits to be derived from the continuance in operation and maintenance of such works or improvements.

(3) The commissioners shall prepare an operation and maintenance assessment roll in duplicate containing the following information in separate columns:

(a) A description of each parcel assessed by legal subdivisions, swampland surveys, or other boundaries sufficient to identify the same.

(b) The number of acres, or part of an acre, in each parcel.

(c) The names of the owners of each parcel, if known, and if unknown, that fact.

(d) The assessment valuation per acre rate of each parcel assessed.

(e) The total assessment valuation of each parcel.

(f) A blank column for rate to be fixed as shown hereinafter.

(g) A blank column for amount of assessment to be computed as shown hereinafter.

The board, by resolution, may direct the assessment commissioners, in the preparation of the valuation assessment roll, to divide the zone into numbered subzones which shall be described in such resolution. In such case the assessment valuations on the lands in each subzone shall be separately grouped on such assessment roll under the proper number for each such zone. Before assessment valuations are placed by the assessment commissioner on any real property within any subzone they shall first ascertain and fix the comparative shares of any operation and maintenance assessment on the entire zone which shall be borne by each subzone and only thereafter shall establish the assessment valuations upon the real property in each zone.

(4) No error in the name of the owner or supposed owner of any parcel assessed, and no error in any other particular, shall render the assessment thereof invalid.

(5) Such assessment valuations shall be used as a basis for levying assessments against the parcels described in such assessment roll for the purpose of raising such funds, including expenses of levying, calling and collecting such assessments.

(6) The assessment roll shall be filed with the clerk of the board. Thereupon the board shall appoint a time when it will meet for the purpose of hearing objections thereto.

(7) No objection to any assessment valuations on such roll shall be considered by the board, or allowed in any other action or proceeding, unless the objection is made in writing to the board either before or on the hearing.

(8) Notice of the hearing shall be given by publication once a week for two successive weeks in some newspaper of general circulation published in the principal county and having circulation within such zone.

(9) At the hearing, the board shall hear any evidence offered in support of the written objections and may modify or amend the assessment valuations.

(10) The board shall then make an order approving the assessment valuation or any modification thereof and shall endorse the order on the assessment roll. The endorsement shall be signed by the chairman of the board and attested by the clerk thereof.

(11) The decision of the board in approving the assessment roll is final, and thereafter the endorsed assessment roll is conclusive evidence that the assessment valuations were determined and fixed according to law, except in an action commenced pursuant to subdivision (12) of this section.

(12) Within 30 days after an operation and maintenance assessment roll is approved by the board any person aggrieved by the decision may commence an action in the superior court of the principal county to have the assessment valuations corrected, modified or annulled.

(13) If the action is not commenced within 30 days after approval of the operation and maintenance assessment roll, no action or defense shall thereafter be maintained attacking the legality of the assessment valuations therein.

(14) When the board determines that it is necessary to raise any sum for a purpose specified in subdivision (5) of this section it shall, by order entered in its minutes, state the total amount necessary to be raised and fix a rate designating the number of cents to be levied on each one hundred dollars ($100) of assessment valuation shown on the operation and maintenance assessment roll.

(15) In lieu of completing the operation and maintenance assessment roll, the board may, following each levy of assessment, cause a supplement to be prepared and filed with the county treasurer setting forth the rate and total assessment as determined by the board, and when so filed it shall be deemed a part of the original operation and maintenance assessment roll to the same extent and purpose as if said rate and total assessment had actually been inserted in said original operation and maintenance assessment roll.

(16) The board, by order entered upon its minutes and endorsed on or made a part of the operation and maintenance assessment roll or supplement, may direct that the payment of the assessment be made in one installment or in more than one annual or semiannual installment over a period not to exceed five years.

(17) If the board orders payment of the total assessment inserted in column (g) in installments over a period of years, the due date and the amount of each installment shall be endorsed by, or under the direction of, the board, on the operation and maintenance assessment roll or supplement.

(18) When the operation and maintenance assessment roll or supplement has been completed by inserting the rate and assessment in columns (f) and (g), and an order has been entered providing for the payment of all or any part thereof, it shall be filed forthwith in the office of the county treasurer.

(19) An assessment levy is a lien upon the parcels against which it is levied from the date the completed operation and maintenance assessment roll or supplement is filed in the office of the county treasurer until paid, and bears interest until paid from a date 60 days from the date of such filing.

(20) The rate of interest on unpaid operation and maintenance assessments is 7 percent per year unless the board, by resolution, adopts a lesser rate and files a certified copy of the resolution with the county treasurer for insertion in the operation and maintenance assessment roll.

(21) Additional operation and maintenance assessment levies may be made by the board, as required, so long as the operation and maintenance assessment roll remains in effect.

(22) The operation and maintenance assessment roll shall be returned to and held by the board except during such periods as it is filed in the office of the county treasurer during the period of assessment or installment collections or while any warrants of the district payable from such assessment levy are outstanding and unpaid. Such operation and maintenance assessment roll shall be the original roll, or a copy thereof, certified by the secretary of the board as correctly setting forth the subject matter of the original roll, together with all reapportioned assessment valuations of all subdivisions of any original assessment parcel.

(23) The operation and maintenance assessment roll shall be used for the purposes specified in subdivision (5) of this section until the board, on its own motion or on petition by landowners representing at least 15 percent of the zone lands, makes an order directing the valuation assessment commissioners who made the original operation and maintenance assessment roll or new valuation assessment commissioners, to be named in the order, to prepare a new operation and maintenance assessment roll.

(24) Valuation assessment commissioners appointed to prepare a new operation and maintenance assessment roll shall have the same qualifications and take the same oath as the original assessment commissioners.

(25) The new operation and maintenance assessment roll when prepared by the valuation assessment commissioners shall be filed with the clerk of the board and shall be subject to the same provisions as an original operation and maintenance assessment roll.

The board shall cause a copy of the resolution, duly certified by the clerk, to be filed for record in the office of the Recorder of Monterey County within five (5) days after its issuance. From and after said filing of said copy of said resolution the board shall be deemed vested with the authority to proceed with the bond election.

(3) Said board shall call such special bond election by ordinance and not otherwise and submit to the qualified elec-

The rate of interest to be paid on such indebtedness shall not exceed five percent (5%) per annum. For the purposes of said election, said board shall, in said ordinance, establish special bond election precincts within the boundaries of each zone and participating zone and may form election precincts by consolidating the precincts established for general elections in said district to a number not exceeding six general precincts for each such special bond election precinct and shall designate a polling place and appoint one inspector, one judge and one clerk for each of such special bond election precincts

SEC. 12. Section 17 of said act is amended to read:

Upon imposition of sentence hereunder the commitment shall be dated as of the date upon which probation was granted and if the defendant is then in a state prison for an offense committed subsequent to the one upon which he has been on probation, the term of imprisonment of such defendant under a commitment issued hereunder shall commence upon the date upon which defendant was delivered to prison under commitment for his subsequent offense, unless the court shall order that the sentence for the prior offense shall commence upon termination of the sentence for said subsequent offense. In the event the probation officer fails to report such commitment to the court or the court fails to impose sentence as herein provided, the court shall be deprived thereafter of all jurisdiction it may have retained in the granting of probation in said case.

The authority shall provide in the mutual agreement or in the exercise of eminent domain that the owners of the ferry shall through a process of collective bargaining pay operating, maintenance and toll collection personnel the actuarial value of accrued pension rights and in addition thereto, if such toll bridge, ferry, tube or other toll highway crossing is not to be operated by the authority, shall also provide for the payment of severance pay not exceeding one month's severance pay for each year of service up to and including 25 years to any of such personnel as are not offered employment by any state agency. The authority shall reimburse the owners for the amounts so paid respecting accrued pension rights but not exceeding the amounts which the owners could have been required to pay under any collective bargaining agreement in effect at the time the authority authorizes construction of the toll tube or other toll highway crossing, by applying to all operating, maintenance and toll collection personnel the formula of any collective bargaining agreement in effect on April 1, 1963. The authority shall also reimburse the owners for the amounts so paid respecting severance pay but not exceeding one month's pay for each year of service with the ferry, tube or other toll highway crossing up to and including 25 years. until such time as the authority and the department in their discretion deems it necessary or desirable to discontinue operations, in which event the authority shall authorize and direct the department to discontinue the toll bridge, ferry, tube, or other toll highway. An employee eligible for retirement under any collective bargaining agreement with the owners of a privately owned toll bridge, ferry, tube, or other highway crossing and accepts such retirement shall not be entitled to severance pay.

In the employment of personnel the department shall, insofar as possible, employ persons displaced from their usual positions with a privately owned toll bridge, ferry, tube, or other highway crossing, because of the operations of the authority and department, and pay said personnel at least the rates of pay which such persons received in private employment.

SEC. 25. Section 20497 of said code is amended to read:

20497. Any contract entered into under this part between the board and a public agency may be amended to, and any new contract may, provide a modification of benefits and adjustment of employee contribution rates under this part as may be agreed to by the board; provided, that the federal-state agreement is or has been, modified to include in the federal system employees of the agency in positions covered by this system.

Amendments to a contract under this section shall be made in the manner prescribed in this part for approval of contracts except that an election among employees shall not be required.

This section shall not apply to contracts under Chapter 4.5.

SEC. 26. Section 20582 of said code is amended to read:

20582. Sections 20457, 20458, 20492, 20496, 20497, 20560, 20561 and 20562 do not apply to contracts made pursuant to this chapter. The county superintendent of schools shall have no authority to exercise any election under any provision of this part (commencing at Section 20000) which applies to a contracting agency only on its election to be subject to it.

SEC. 27. Section 21156 of said code is amended to read:

21156. Notwithstanding Section 21150, any person retired under this part may, without reinstatement from retirement or any loss or interruption of benefits under this part, serve as an appointive member of the governing body of a contracting agency; provided, the compensation for such office does not exceed one hundred dollars ($100) per month.

SEC. 28. Section 21204 of said code is amended to read:

21204. A member may at any time designate a beneficiary to receive such benefits as may be payable to his beneficiary or estate under this part, by a writing filed with the board.

The designation, subject to such conditions as may be imposed by board rule, may be by class, in which case the mem-

bers of the class at the time of the member's death shall be entitled as beneficiaries. The designation shall also be subject to the board's conclusive determination, upon evidence satisfactory to it, of the existence, identity or other facts relating to entitlement of any person designated as beneficiary, and payment made by the system in reliance on any such determination made in good faith, notwithstanding that it may not have discovered a beneficiary otherwise entitled to share in the benefit, shall constitute a complete discharge and release of the system for further liability for the benefit.

SEC. 29. Section 21251.15 of said code is amended to read:

21251.15. For a state miscellaneous member or a local miscellaneous member other than one whose current service pension is computed according to Section 21252, or a local safety member subject to Section 21252.5, reinstated from service retirement, the current service pension, or current and prior service pensions under Section 21252.5, upon his service retirement subsequent to such reinstatement, shall be the sum of (1) a current service pension calculated on the basis of service rendered after reinstatement in accordance with the formula applicable to him in such service and membership, plus (2) his current service pension, or current and prior service pensions under Section 21252.5, as it was prior to his reinstatement, adjusted for any service on which such pension was based which was included in coverage of the federal system during reinstatement according to the formula applicable to such service in employment for which he was retired, and further adjusted according to any change after reinstatement in the provisions governing the calculation of his pension which would have applied to him had he continued in retirement but been subject to the formula applied in the first adjustment; provided, that such subsequent retirement occurs before he renders, after his reinstatement, at least one year of state service credited under this system; or if he has rendered one year or more of such state service after reinstatement, in lieu of (2), plus (3) a current service pension based on current service rendered prior to such reinstatement, calculated on the basis of the formula currently applicable to the employment in which the service was rendered but on the basis of an age taken to the preceding completed quarter year but not less than the minimum retirement age applicable to him at his last retirement and determined by deducting from his age at his subsequent retirement, the aggregate time during which he was under retirement. For such a member reinstated from nonindustrial disability retirement, the current service pension upon his service retirement after attaining an age one year less than the minimum age at which he could have retired without an actuarial discount because of age in the employment from which he was last retired, or upon his disability retirement after attaining such minimum age, and subsequent to such reinstatement, shall be calculated in the manners described in the preceding sentence, but

the age determined upon subsequent retirement after rendering at least one year of state service credited under the system shall not be taken at less than one year less than such minimum age if the subsequent retirement is for service, or such minimum age if the retirement is for disability.

The current service pension otherwise payable under this section to a member whose allowance prior to reinstatement was paid pursuant to his election under Section 21338 shall be reduced by the actuarial equivalent, on the date of retirement subsequent to reinstatement, of the amount (converted as below), if any, by which—

(a) The total amount, paid in the period during which a temporary annuity was included in the payments, said amount being reduced by the total amount that would have been payable during said period had said election not been made; exceeds

(b) The excess of the total amount that would have been payable, had said election not been made, during the time subsequent to said period and prior to reinstatement over the total amount actually paid during said time

The amount determined by the above formula shall be converted to an amount equaling the actuarial equivalent on the date of reinstatement and this latter amount shall be the basis of the actuarial equivalent, on the date of retirement subsequent to reinstatement.

Actuarial equivalents required by this section shall be based on the interest rate and mortality tables in use by this system on the date of retirement subsequent to reinstatement.

Notwithstanding this section, or any other provision of this part, the current service pension payable to any member subject to this section who rendered one year or more of state service credited under the system after reinstatement, or a member not subject to this section, on retirement for service subsequent to reinstatement from service retirement for any credited service for which a current service pension was paid prior to reinstatement shall not be less than the current service pension which would be payable on the date of such subsequent retirement had the member not been reinstated, adjusted, however, by any reduction under this section because of an election under Section 21338 and, for any service so credited which was included in coverage of the federal system during reinstatement, according to the formula applicable to such service in employment from which he was retired

SEC. 30. Section 21251.3 of said code is amended to read:

21251.3 Every current service pension, prior service pension, and disability retirement pension payable for time commencing on the effective date of this section to any member who was retired prior to said effective date is hereby increased to the amount it would be if the provisions of this part, as they

exist on said effective date, had been in effect on the date of the actual retirement of the member; but this section does not authorize any decrease in any such pension, nor does this section give any such retired member, or his successors in interest, any claim against the State for any increase in any pension paid or payable for time prior to its effective date. Calculation of pensions under this section shall be made on the basis of current interest rate and mortality tables.

This section shall apply only to a contracting agency which prior to October 1, 1963, had elected to be subject to it.

SEC. 31. Section 21261 of said code is amended to read:

21261. The prior service pension of a state miscellaneous or local miscellaneous member reinstated from service retirement, upon his subsequent service retirement, shall be in the same amount as his prior service pension prior to his reinstatement, adjusted for any service on which such pension was based which was included in coverage of the federal system during reinstatement according to the formula applicable to such service in employment from which he was retired, and further adjusted according to any change in the provisions governing the calculation of such pensions, using the formula applied in the first adjustment, made after such reinstatement and applicable to pensions being paid at the date of the change; provided, that such subsequent retirement occurs before he renders after his reinstatement at least one year of state service credited under this system; otherwise the prior service pension calculated on the basis of an age, taken to the preceding completed quarter year but not less than the minimum retirement age applicable to him at his last retirement, and determined by deducting from his age at his subsequent retirement, the aggregate time during which he was under retirement. For such a member reinstated from nonindustrial disability retirement, the prior service pension upon his service retirement after attaining an age one year less than the minimum age at which he could have retired without an actuarial discount because of age in the employment from which he was last retired, or upon his disability retirement after attaining such minimum age, and subsequent to such reinstatement, shall be calculated in the manners described in the preceding sentence, but the age determined upon subsequent retirement after rendering at least one year of state service, shall not be taken at less than one year less than such minimum age if the subsequent retirement is for service, or such minimum age if such retirement is for disability.

The prior service pension otherwise payable under this section to a member whose allowance prior to reinstatement was paid pursuant to his election under Section 21338 shall be reduced by the actuarial equivalent, on the date of retirement subsequent to reinstatement, of the amount, if any (converted as below), by which—

(a) The total amount paid in the period during which a temporary annuity was included in the payments, said amount being reduced by the total amount that would have been payable during said period had said election not been made; exceeds

(b) The excess of the total amount that would have been payable, had said election not been made, during the time subsequent to said period and prior to reinstatement over the total amount actually paid during said time.

The amount determined by the above formula shall be converted to an amount equaling the actuarial equivalent on the date of reinstatement. The latter amount shall be the basis of the actuarial equivalent, on the date of retirement subsequent to reinstatement.

Actuarial equivalents required by this section shall be based on the interest rate and mortality tables in use by this system on the date of retirement subsequent to reinstatement.

Notwithstanding this section, or any other provision of this part, the prior service pension payable to any member subject to this section who rendered one year or more of state service credited under the system after reinstatement, or a member not subject to this section, on retirement for service subsequent to reinstatement from service retirement for any credited service for which a prior service pension was paid prior to reinstatement shall not be less than the prior service pension which would be payable on the date of such subsequent retirement had the member not been reinstated, adjusted, however, by any reduction under this section because of an election under Section 21338 and, for any service so credited which was included in coverage of the federal system during reinstatement, according to the formula applicable to such service in employment from which he was retired.

SEC. 32. Section 21293.5 of said code is amended to read:

21293.5. The disability retirement allowance of a member who retires for industrial disability and who is credited with service as a member of the system, compensation for which was also subject to contribution under the federal system, shall be reduced by the amount of any retirement or disability benefit he is entitled to receive under the federal system. The reduction shall apply only during such time as he is entitled to receive the benefit under the federal system and shall not exceed the amount of the allowance derived from contributions of the State.

Notwithstanding the amendment to this section at the 1963 Regular Session of the Legislature, the disability retirement allowance of a member retired for industrial disability from employment held on October 1, 1963, and continuously thereafter to the date of retirement and in which his compensation was on that date subject to contribution under the federal system shall not be less than it would have been had this section not been so amended.

SEC. 33. Section 21364.7 of said code is amended to read:

21364.7. The special death benefit or the continued allowance under Section 21263 or 21264 payable if the deceased was a member who was credited with service, compensation for which was subject to contribution under the federal system, shall be reduced during such time as his survivor or survivors are entitled to receive a survivor benefit under the federal system. The reduction shall be in the amount of the benefit to which there is entitlement under the federal system; provided, however, that it shall not exceed the amount of the benefit derived from contributions of the State.

Notwithstanding the amendment to this section and the repeal of Section 21364.6 at the 1963 Regular Session of the Legislature, the special death benefit or continued allowance payable on death of a member in employment, or retired from employment, whichever the case may be, which the member held on October 1, 1963, and continuously thereafter to the date of death or retirement, and in which his compensation was on that date subject to contribution under the federal system, shall not be less than it would have been had this section not been so amended or Section 21364.6 repealed.

SEC. 34. Section 21364 7 of said code is amended to read:

21364.7. The special death benefit or the continued allowance under Section 21263, 21263 1, or 21264 payable if the deceased was a member who was credited with service, compensation for which was subject to contribution under the federal system, shall be reduced during such time as his survivor or survivors are entitled to receive a survivor benefit under the federal system. The reduction shall be in the amount of the benefit to which there is entitlement under the federal system; provided, however, that it shall not exceed the amount of the benefit derived from contributions of the State.

Notwithstanding the amendment to this section and the repeal of Section 21364 6 at the 1963 Regular Session of the Legislature, the special death benefit or continued allowance payable on death of a member in employment, or retired from employment, whichever the case may be, which the member held on October 1, 1963, and continuously thereafter to the date of death or retirement, and in which his compensation was on that date subject to contribution under the federal system, shall not be less than it would have been had this section not been so amended or Section 21364.6 repealed.

SEC 35 Section 17.5 and 34 of this act shall become operative only if Senate Bill 508 is enacted by the Legislature at its 1963 Regular Session, and in such case at the same time as Senate Bill No. 508 takes effect; at which time Sections 17 and 33 of this act shall become inoperative

SEC 36. This act shall become operative on October 1, 1963

CHAPTER 2099

An act to add Sections 21251.6, 20750.13, 20750.23, 20750.33, and 20750.43 to the Government Code, relating to the State Employees' Retirement System.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 21251.6 is added to the Government Code, to read:

21251.6 (a) Every retirement allowance exclusive of that portion purchased by the member's accumulated additional contributions payable for time commencing on the effective date of this section to or on account of any member who has retired on or prior to December 31, 1961, is hereby increased by a monthly amount which, when added to any other increases in such retirement allowance made by the Legislature at its 1963 Regular Session, except any increase resulting from an amendment of the provisions of this part relating to allowances upon ordinary disability retirement, equals the percentage of the retirement allowance set forth in the following table opposite the period during which the member's retirement became effective.

Period during which retirement became effective	Percentage
On or before July 1, 1957	10%
Twelve months ended July 1, 1958	8%
Twelve months ended July 1, 1959	6%
Twelve months ended July 1, 1960	4%
Eighteen months ended December 31, 1961	2%

No increase under this section shall exceed in the aggregate the sum of fifty dollars ($50) per month.

Where a member to or on account of whom an increased retirement allowance is payable under this section has elected pursuant to Article 4 of Chapter 9 of this part to have his retirement allowance modified in accordance with an optional settlement provided in Section 21333, Section 21334, or Section 21335, if both the retired member and his beneficiary are living on the effective date of this section, the increase provided by this section shall be an amount equal to the percentage of the allowance being paid to the retired person, and upon death of the retired person, or upon death of his beneficiary if a different allowance is payable to the retired person because of such death, an equal percentage of the amount then payable to the survivor; and if either such retired person or his beneficiary is not living on said effective date, then the increase provided under this section shall be an amount

equal to the percentage of the allowance being paid to the survivor. If such member has chosen to have the actuarial equivalent of his allowance paid as provided in Section 21338, the percentage increase provided herein shall be applied to the amount of the unmodified allowance and the life annuity portion of his allowance shall be increased in that amount.

The increase in each retirement allowance provided by this section shall be apportioned between the current service pension and the prior service pension of the retired member in the same proportions that the current service benefit and the prior service benefit bear to the total benefit, and shall be derived from contributions of the employer.

(b) Every special death benefit, survivor allowance under Section 21365.5 of this part, or allowance under Section 21263 or 21264 of this part payable for time commencing on the effective date of this section on account of the death of any member who dies on or prior to December 31, 1961, is hereby increased by a monthly amount which, when added to any other increases in such death benefit or allowance made by the Legislature at its 1963 Regular Session, equals the percentages of increase set forth in the table in subdivision (a) above, opposite the period during which the member's death occurred or, in the case of an allowance under Section 21263 or 21264 opposite the period during which the member's retirement became effective.

(c) This section does not authorize any decrease in any allowance or special death benefit, nor does this section give any retired member, or his successors in interest, or his beneficiary, or any payee of any special death benefit or allowance in respect to a deceased member any claim against the State for any increase in any allowance or special death benefit paid or payable for time prior to its effective date.

(d) This section shall not apply to any contracting agency, other than a county superintendent of schools, nor to allowances or special death benefits payable to or in respect to the retired or deceased employees of any contracting agency, unless and until the contracting agency elects to be subject to its provisions by amendment to its contract with the board, made as provided in Section 20461.5, except that an election among the employees is not required, or by express provision in its contract with the board.

Any increase in allowances provided by this section shall not take effect prior to the date the contract is amended to subject the contracting agency to the provisions of this section.

(e) The board shall compute the amount by which benefits paid pursuant to this section exceed the benefits which would otherwise be payable and shall charge any such excess against the contributions of the employer so that there shall be no increase in contributions of members by reason of benefits paid pursuant to this section.

SEC. 2. Section 20750.13 is added to said code, to read:

20750.13. The State's contribution to the Retirement Fund in respect to state miscellaneous members provided by any and all other provisions of this chapter is increased by a sum equal to fifteen-hundredths (0.15) of 1 percent of the compensation paid state miscellaneous members.

The people of the State of California do enact as follows:

SECTION 1. Section 9360.8 is added to the Government Code, to read:

9360.8 Notwithstanding any other provisions of this chapter the provisions of this section shall be applicable to all allowances granted by this chapter commencing with each installment paid or payable on or after January 1, 1964.

On or before January 1, 1964, the board shall adjust the amount of the allowances payable during the 1964 calendar year to reflect any increase in cost of living occurring between the 1963 calendar year and the 1955 calendar year, inclusive, and any increase resulting from such adjustment shall be payable commencing with each installment of allowances paid or payable on or after January 1, 1964. On or before January 15, 1965, and, on or before January 15 of each year thereafter, the amount of the allowances provided by this chapter shall be adjusted by the board to reflect any increase in cost of living occurring after January 1 of the immediately preceding calendar year. The average of the separate indices of the cost of living for Los Angeles and San Francisco, as published by the United States Bureau of Labor Statistics shall be used as the basis for determining the changes in the cost of living. The annual adjustment made on or before January 15, 1965 and made on or before January 15 of each calendar year thereafter shall correspond to the average annual change in the calendar year immediately preceding the year during which the adjustment shall be effective. The adjustment made on or before January 1, 1964, shall correspond to the total of the average annual changes in each calendar year from the 1955 calendar year to the 1963 calendar year, inclusive.

The adjustment provided by this section shall be made only if it operates to effect an increase over the allowance payable for the calendar year immediately preceding.

SEC. 2. Section 9359.1 of said code is amended to read:

9359.1. (a) The retirement allowance for a member all of whose credited service was rendered as a Member of the Senate or Assembly is an annual amount equal to five percent (5%) of the compensation payable, at the time payments of the allowance fall due, to incumbent Members of the Senate or Assembly, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed fifteen (15) years. In no event shall any retirement allowance payable under this chapter to any such member exceed the compensation payable to Members of the Legislature at the time the payment of the allowance is made, except that the retirement allowance of any such member who serves more than 15 years shall be increased by an amount equal to 3 percent of the compensation payable, at the time payment of the allowance falls due, to incumbent Members of the Senate or Assembly for each year or fraction of a year of service in excess of 15 years.

(b) The retirement allowance for a member all of whose credited service was rendered as an elective officer of the State whose office is provided for by the Constitution other than a judge (and other than a Member of the Senate or Assembly)

is an annual amount equal to five percent (5%) of the compensation payable at the time payments of the allowance fall due, to the officer holding the office which the retired member last held prior to his retirement, or five percent (5%) of the highest compensation fixed for such office during the member's last term or any subsequent term prior to his retirement, whichever is greater, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed eight (8) years.

(c) The retirement allowance for a member part of whose credited service was rendered as a Member of the Senate or Assembly and part of whose credited service was rendered as an elective officer of the State whose office is provided for by the Constitution other than a judge (and other than a Member of the Senate or Assembly) is an annual amount equal to five percent (5%) of all the compensation, at the time payment of the allowance falls due, to the officer holding the highest salaried office which the member held at any time during his service prior to retirement, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed eight (8) years. If, however, the member would be entitled to receive a greater allowance under subdivision (a) or subdivision (b) of this section if all of his credited service had been rendered as a Member of the Senate or Assembly or as an elective officer of the State whose office is provided for by the Constitution other than a judge (and other than a Member of the Senate or Assembly), then all of his credited service shall be deemed to have been rendered as a Member of the Senate or Assembly or as such other elective officer, and he shall receive a retirement allowance computed under subdivision (a) or subdivision (b) of this section, whichever is greater.

CHAPTER 2104

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 6903 of the Education Code is amended to read:

6903. The education of mentally retarded minors who do not come within the provisions of Section 6902, who are eight or more, and less than 18 years of age, and who may be expected to benefit from special educational facilities designed to educate and train them to further their individual acceptance, social adjustment, and economic usefulness in their homes and within a sheltered environment, shall be provided for in the manner set forth in Sections 6901 to 6913,

inclusive, and in Sections 8951 to 8956, inclusive. The education of such mentally retarded minors who are five or more and less than eight years of age may be provided for in the manner set forth in Sections 6901 to 6913, inclusive, and in Sections 8951 to 8956, inclusive.

Any such minor who becomes 18 years of age while in attendance upon a special training school or class shall be permitted to continue to attend thereon for the remainder of the time such school or class is maintained during the then current school year.

SEC. 2. Section 6904 of said code is amended to read:

6904. The governing board of any elementary or unified school district which has an average daily attendance of 900 or more in the elementary schools of the district, or any high school district which has an average daily attendance of 900 or more shall provide for the education in special training schools or classes of mentally retarded minors residing in the district who come within the provisions of Section 6902 and who are not in attendance upon other special training schools or classes maintained under the provisions of Sections 6901 to 6913, inclusive

The governing board of any elementary or unified school district which has an average daily attendance of 8,000 or more in the elementary schools of the district, and any unified or high school district which has an average daily attendance of 8,000 or more in the high schools of the district shall provide for the education in special training schools or classes of mentally retarded minors residing in the district who come within the provisions of Section 6903 and who are not in attendance upon other special training schools or classes maintained under the provisions of Sections 6901 to 6913, inclusive.

With the approval of the county superintendent of schools, the governing board of any elementary or unified school district which has an average daily attendance of less than 8,000 in the elementary schools of the district, and any unified or high school district which has an average daily attendance of less than 8,000 in the high schools of the district may provide for the education in special training schools or classes of mentally retarded minors residing in the district who come within the provisions of Section 6903 as may be admitted to such schools or classes.

The governing board of any elementary, unified or high school district, required to provide for the education in special training schools or classes of mentally retarded minors residing in the district who come within the provisions of Section 6903, may with the approval of the Superintendent of Public Instruction, enter into an agreement with a county superintendent of schools for the latter to provide for the education of such mentally retarded minors.

The governing boards of elementary, unified, and high school districts may enter into agreements for the education in special training schools or classes of mentally retarded minors

residing in the districts parties to such agreements providing such agreements are reported through the county superintendent of schools to the Superintendent of Public Instruction.

SEC. 3. Section 6913.1 of said code is amended to read:

6913.1. The maximum rate of school district tax for any school year is hereby increased by such amount as the governing board of any school district which maintains or has entered into an agreement with another school district for educational services or facilities, including the rental of property and purchase of equipment, for mentally retarded minors who come within the provisions of Sections 6902 and 6903 may include in its budget and the board of supervisors shall levy a school district tax necessary to raise such amount. No amounts shall be included in its budget for the purchase or improvement of school sites or the construction of school buildings.

If at the end of any school year there remains an unencumbered balance derived from the revenue of the increase in the tax rate hereby provided, such balance shall be used exclusively in the following fiscal year for the expenditures of the school district during that fiscal year required or authorized for the education of mentally retarded minors who come within the provisions of Sections 6902 and 6903.

SEC. 4. Section 8951 of said code is amended to read:

8951. (a) The county superintendent of schools shall establish and maintain special training schools or classes for mentally retarded minors who reside in the county and in elementary or unified school districts which have an average daily attendance of less than 901 in the elementary schools of the district and who come within the provisions of Section 6902. Such schools and classes shall be established at centrally located places, and the county superintendent of schools shall provide transportation to the pupils attending them. The district shall pay to the county school service fund of the county in which the district is located all costs of the education of such minors which are in excess of the amounts apportioned from the State School Fund for the average daily attendance of such minors.

Any elementary or unified school district which has an average daily attendance of less than 901 in elementary schools of the district, with the approval of the county superintendent of schools, may establish and maintain special training schools or classes for mentally retarded minors who come within the provisions of Section 6902.

(b) The county superintendent of schools may, with the approval of the county board of education, establish and maintain special training schools or classes for mentally retarded minors who reside in the county and who come within the provisions of Section 6902 and contract with an elementary or unified school district with an average daily attendance of 901 or more in the elementary schools of the district, or with a high school district with an average daily attendance of less

that 900, subject to such terms and conditions as may be agreed upon. The contract shall be approved by the county board of education and shall require the district to pay to the county school service fund of the county in which the district is located all costs of the education of such minors which are in excess of the amounts apportioned from the State School Fund for the average daily attendance of such minors.

Whenever a special training school or class is established under the provisions of this subdivision, the computations prescribed by Sections 17658 and 17663, or Sections 17658.1 and 17663.1, whichever are in effect, shall not apply.

(c) The county superintendent of schools shall establish and maintain special training schools or classes for mentally retarded minors who reside in the county and in elementary or unified school districts which have an average daily attendance of less than 8,000 in the elementary schools of the district and in unified or high school districts which have an average daily attendance of less than 8,000 in the high schools of the district and who come within the provisions of Section 6903. Such schools and classes shall be established at centrally located places, and the county superintendent of schools shall provide transportation to the pupils attending them. In an instance where it would be impracticable because of the transportation distances existing to bring a sufficient number of mentally retarded minors, within the meaning of Section 6903, together in one place to form a special training class, the county superintendent of schools upon the annual approval of the Superintendent of Public Instruction may defer compliance with the provisions of this section for the year in question.

Any elementary or unified school district which has an average daily attendance of less than 8,000 in elementary schools of the district and any unified or high school district which has an average daily attendance of less than 8,000 in high schools of the district, with the approval of the county superintendent of schools, may establish and maintain special training schools or classes for mentally retarded minors who come within the provisions of Section 6903.

A county superintendent of schools, required to provide for the education in special training schools or classes of mentally retarded minors residing in the district who come within the provisions of Section 6903, may with the approval of the Superintendent of Public Instruction enter into agreement with an elementary, unified or high school district for the latter to provide for the education of such mentally retarded minors.

SEC. 5. Section 8955.1 of said code is amended to read:

8955.1. The county superintendent of schools shall, with the approval of the county board of education, certify to the county auditor and the county board of supervisors, on or before July 15th of each year, the amount of money required to be raised by a county tax for the education of mentally retarded minors who come within the provisions of Section 6903 and for rental of property and the purchase of equipment by

the county superintendent of schools for special training schools or classes for such minors. The amount shall be determined by subtracting from the total cost of the education of such minors, including transportation, to the county superintendent of schools the total amount to be apportioned by the Superintendent of Public Instruction to the county school service fund for the education of such mentally retarded minors and by adding to the result the amount required for rental of property and the purchase of equipment. The board of supervisors may include in such amount a sum for capital outlay.

The board of supervisors shall, at the time of levying other county taxes, levy a tax in each school district for whom the county superintendent of schools maintains special training schools or classes pursuant to Section 6904 or 8951 for the education of mentally retarded minors who come within the provisions of Section 6903 upon the taxable property in such district sufficient to produce an amount equal to all costs of the education of such minors which are in excess of the amounts apportioned from the State School Fund for the average daily attendance of such minors. The amount received from this tax shall be deposited in the county school service fund.

SEC. 6. Section 17305.8 is added to said code, to read:

17305.8. In addition, the Controller shall transfer, as needed during each fiscal year, such additional amounts as are certified from time to time by the Superintendent of Public Instruction to be necessary to meet actual computed apportionments from the State School Fund for the purposes of Section 18060 and Articles 11, 12, and 13 (commencing with Sections 18102, 17152, and 18202, respectively) of Chapter 3 of this division in excess of the amount provided under subdivision (c) of Section 17303.5, but the additional amount provided by this section shall not exceed fourteen cents ($0.14) multiplied by the total average daily attendance credited to all kindergarten, elementary, high school, and junior college schools in the State and to county school tuition funds during the preceding school year, for the purposes of Section 18060, and Articles 11, 12, and 13 (commencing with Sections 18102, 18152, and 18202, respectively) of Chapter 3 of this division. Such amounts as are necessary to carry out the purposes of this section are appropriated from the General Fund and shall, in accordance with this section, be transferred therefrom to the State School Fund by the State Controller each fiscal year.

SEC. 7. This act shall become operative on July 1, 1964.

CHAPTER 2106

An act to amend Sections 8732 and 9351 of, and to add Sections 9155 and 9156 to, the Revenue and Taxation Code, relating to the Use Fuel Tax Law.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 8732 of the Revenue and Taxation Code is amended to read:

8732. A vendor of fuel the use of which is taxable under this part, who sells and delivers such fuel into a fuel tank shall, at the time of sale, collect the tax from the user and give to the user a receipt therefor in the manner and form prescribed by the board.

Vendors of fuel required by this section to collect tax from users shall not be required to make such collections on sales and deliveries to users who are authorized by the board, as hereinafter provided, to purchase fuel without payment of tax to a vendor.

The board may issue written authorization to a holder of a valid use fuel permit to purchase fuel from a vendor designated by the user without payment of the tax to the vendor when the board finds (1) that the user consistently is using the fuel in vehicles which are operated partly without this State or off the highways of this State, and (2) that to require collection of the tax from the user by the vendor would cause consistently recurring overpayments of the tax, and (3) that the revenue of the State with respect to the tax liability of such user is adequately secured. Such authorization may be revoked when any such condition no longer obtains.

SEC. 2. Section 9351 of said code is amended to read:

9351. Any person who places or causes to be placed fuel into any receptacle on a motor vehicle from which receptacle fuel is supplied for the propulsion of the vehicle is guilty of a misdemeanor unless such person is a vendor and has complied with the provisions of Section 8732 or such person is a user who holds a valid use fuel tax permit and uses the fuel placed in the receptacle.

SEC. 3. Section 9155 is added to said code, to read:

9155. Interest shall be paid upon any overpayment of any amount of tax at the rate of one-half of 1 percent per month from the last day of the calendar month following the period for which the overpayment was made; but no refund or credit shall be made of any interest imposed upon the person making the overpayment with respect to the amount being refunded or credited.

The interest shall be paid:

(a) In the case of a refund, to the last day of the calendar month following the date upon which the person making the

overpayment, if he has not already filed a claim, is notified by the board that a claim may be filed or the date upon which the claim is approved by the board, whichever date is the earlier.

(b) In the case of a credit, to the same date as that to which interest is computed on the tax or amount against which the credit is applied.

SEC. 4. Section 9156 is added to said code, to read:

9156. If the board determines that any overpayment has been made intentionally or by reason of carelessness, it shall not allow any interest thereon.

The total amount of reimbursement allowed for all such grants to any given employee undertaking such specialized preparation shall not exceed the product of the number of semester hours of specialized preparation required by law and State Board of Education regulations for the credential to teach the category of physically handicapped or mentally retarded pupils being sought and fifty dollars ($50). A judgment has been rendered against the State in the case of Shoemaker v. State of California (No. 238,691, Superior Court in and for the County of San Diego). CHAPTER 2115

An act to add Chapter 8.5 (commencing with Section 1389) to Title 10, Part 2 of the Penal Code, relating to the interstate agreement on detainers.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 8.5 (commencing with Section 1389) is added to Title 10, Part 2 of the Penal Code, to read:

CHAPTER 8.5. AGREEMENT ON DETAINERS

1389. The agreement on detainers is hereby enacted into law and entered into by this State with all other jurisdictions legally joining therein in the form substantially as follows:

The Agreement on Detainers

The contracting states solemnly agree that:

Article I

The party states find that charges outstanding against a prisoner, detainers based on untried indictments, informations or complaints, and difficulties in securing speedy trial of persons already incarcerated in other jurisdictions, produce uncertainties which obstruct programs of prisoner treatment and rehabilitation. Accordingly, it is the policy of the party states and the purpose of this agreement to encourage the expeditious and orderly disposition of such charges and determination of the proper status of any and all detainers based on untried indictments, informations or complaints. The party states also find that proceedings with reference to such charges and detainers, when emanating from another jurisdiction, cannot properly be had in the absence of cooperative procedures. It is the further purpose of this agreement to provide such cooperative procedures.

Article II

As used in this agreement:

(a) "State" shall mean a state of the United States; the United States of America; a territory or possession of the United States; the District of Columbia; the Commonwealth of Puerto Rico.

(b) "Sending state" shall mean a state in which a prisoner is incarcerated at the time that he initiates a request for final disposition pursuant to Article III hereof or at the time that a request for custody or availability is initiated pursuant to Article IV hereof.

(c) "Receiving state" shall mean the state in which trial is to be had on an indictment, information or complaint pursuant to Article III or Article IV hereof.

Article III

(a) Whenever a person has entered upon a term of imprisonment in a penal or correctional institution of a party state, and whenever during the continuance of the term of imprisonment there is pending in any other party state any untried indictment, information or complaint on the basis of which a detainer has been lodged against the prisoner, he shall be brought to trial within one hundred eighty days after he shall

have caused to be delivered to the prosecuting officer and the appropriate court of the prosecuting officer's jurisdiction written notice of the place of his imprisonment and his request for a final disposition to be made of the indictment, information or complaint: provided that for good cause shown in open court, the prisoner or his counsel being present, the court having jurisdiction of the matter may grant any necessary or reasonable continuance. The request of the prisoner shall be accompanied by a certificate of the appropriate official having custody of the prisoner, stating the term of commitment under which the prisoner is being held, the time already served, the time remaining to be served on the sentence, the amount of good time earned, the time of parole eligibility of the prisoner, and any decisions of the state parole agency relating to the prisoner.

(b) The written notice and request for final disposition referred to in paragraph (a) hereof shall be given or sent by the prisoner to the warden, commissioner of corrections or other official having custody of him, who shall promptly forward it together with the certificate to the appropriate prosecuting official and court by registered or certified mail, return receipt requested.

(c) The warden, commissioner of corrections or other official having custody of the prisoner shall promptly inform him of the source and contents of any detainer lodged against him and shall also inform him of his right to make a request for final disposition of the indictment, information or complaint on which the detainer is based.

(d) Any request for final disposition made by a prisoner pursuant to paragraph (a) hereof shall operate as a request for final disposition of all untried indictments, informations or complaints on the basis of which detainers have been lodged against the prisoner from the state to whose prosecuting official the request for final disposition is specifically directed. The warden, commissioner of corrections or other official having custody of the prisoner shall forthwith notify all appropriate prosecuting officers and courts in the several jurisdictions within the state to which the prisoner's request for final disposition is being sent of the proceeding being initiated by the prisoner. Any notification sent pursuant to this paragraph shall be accompanied by copies of the prisoner's written notice, request, and the certificate. If trial is not had on any indictment, information or complaint contemplated hereby prior to the return of the prisoner to the original place of imprisonment, such indictment, information or complaint shall not be of any further force or effect, and the court shall enter an order dismissing the same with prejudice.

(e) Any request for final disposition made by a prisoner pursuant to paragraph (a) hereof shall also be deemed to be a waiver of extradition with respect to any charge or proceeding contemplated thereby or included therein by reason of paragraph (d) hereof, and a waiver of extradition to the

receiving state to serve any sentence there imposed upon him, after completion of his term of imprisonment in the sending state. The request for final disposition shall also constitute a consent by the prisoner to the production of his body in any court where his presence may be required in order to effectuate the purposes of this agreement and a further consent voluntarily to be returned to the original place of imprisonment in accordance with the provisions of this agreement. Nothing in this paragraph shall prevent the imposition of a concurrent sentence if otherwise permitted by law.

(f) Escape from custody by the prisoner subsequent to his execution of the request for final disposition referred to in paragraph (a) hereof shall void the request.

Article IV

(a) The appropriate officer of the jurisdiction in which an untried indictment, information or complaint is pending shall be entitled to have a prisoner against whom he has lodged a detainer and who is serving a term of imprisonment in any party state made available in accordance with Article V (a) hereof upon presentation of a written request for temporary custody or availability to the appropriate authorities of the state in which the prisoner is incarcerated: provided that the court having jurisdiction of such indictment, information or complaint shall have duly approved, recorded and transmitted the request: and provided further that there shall be a period of thirty days after receipt by the appropriate authorities before the request be honored, within which period the governor of the sending state may disapprove the request for temporary custody or availability, either upon his own motion or upon motion of the prisoner.

(b) Upon receipt of the officer's written request as provided in paragraph (a) hereof, the appropriate authorities having the prisoner in custody shall furnish the officer with a certificate stating the term of commitment under which the prisoner is being held, the time already served, the time remaining to be served on the sentence, the amount of good time earned, the time of parole eligibility of the prisoner, and any decisions of the state parole agency relating to the prisoner. Said authorities simultaneously shall furnish all other officers and appropriate courts in the receiving state who have lodged detainers against the prisoner with similar certificates and with notices informing them of the request for custody or availability and of the reasons therefor.

(c) In respect of any proceeding made possible by this Article, trial shall be commenced within one hundred twenty days of the arrival of the prisoner in the receiving state, but for good cause shown in open court, the prisoner or his counsel being present, the court having jurisdiction of the matter may grant any necessary or reasonable continuance.

(d) Nothing contained in this Article shall be construed to deprive any prisoner of any right which he may have to contest the legality of his delivery as provided in paragraph (a) hereof, but such delivery may not be opposed or denied on the ground that the executive authority of the sending state has not affirmatively consented to or ordered such delivery.

(e) If trial is not had on any indictment, information or complaint contemplated hereby prior to the prisoner's being returned to the original place of imprisonment pursuant to Article V(e) hereof, such indictment, information or complaint shall not be of any further force or effect, and the court shall enter an order dismissing the same with prejudice.

Article V

(a) In response to a request made under Article III or Article IV hereof, the appropriate authority in a sending state shall offer to deliver temporary custody of such prisoner to the appropriate authority in the state where such indictment, information or complaint is pending against such person in order that speedy and efficient prosecution may be had. If the request for final disposition is made by the prisoner, the offer of temporary custody shall accompany the written notice provided for in Article III of this agreement. In the case of a federal prisoner, the appropriate authority in the receiving state shall be entitled to temporary custody as provided by this agreement or to the prisoner's presence in federal custody at the place for trial, whichever custodial arrangement may be approved by the custodian.

(b) The officer or other representative of a state accepting an offer of temporary custody shall present the following upon demand:

(1) Proper identification and evidence of his authority to act for the state into whose temporary custody the prisoner is to be given.

(2) A duly certified copy of the indictment, information or complaint on the basis of which the detainer has been lodged and on the basis of which the request for temporary custody of the prisoner has been made.

(c) If the appropriate authority shall refuse or fail to accept temporary custody of said person, or in the event that an action on the indictment, information or complaint on the basis of which the detainer has been lodged is not brought to trial within the period provided in Article III or Article IV hereof, the appropriate court of the jurisdiction where the indictment, information or complaint has been pending shall enter an order dismissing the same with prejudice, and any detainer based thereon shall cease to be of any force or effect.

(d) The temporary custody referred to in this agreement shall be only for the purpose of permitting prosecution on the charge or charges contained in one or more untried indictments, informations or complaints which form the basis of

the detainer or detainers or for prosecution on any other charge or charges arising out of the same transaction. Except for his attendance at court and while being transported to or from any place at which his presence may be required, the prisoner shall be held in a suitable jail or other facility regularly used for persons awaiting prosecution.

(e) At the earliest practicable time consonant with the purposes of this agreement, the prisoner shall be returned to the sending state.

(f) During the continuance of temporary custody or while the prisoner is otherwise being made available for trial as required by this agreement, time being served on the sentence shall continue to run but good time shall be earned by the prisoner only if, and to the extent that, the law and practice of the jurisdiction which imposed the sentence may allow.

(g) For all purposes other than that for which temporary custody as provided in this agreement is exercised, the prisoner shall be deemed to remain in the custody of and subject to the jurisdiction of the sending state and any escape from temporary custody may be dealt with in the same manner as an escape from the original place of imprisonment or in any other manner permitted by law.

(h) From the time that a party state receives custody of a prisoner pursuant to this agreement until such prisoner is returned to the territory and custody of the sending state, the state in which the one or more untried indictments, informations or complaints are pending or in which trial is being had shall be responsible for the prisoner and shall also pay all costs of transporting, caring for, keeping and returning the prisoner. The provisions of this paragraph shall govern unless the states concerned shall have entered into a supplementary agreement providing for a different allocation of costs and responsibilities as between or among themselves. Nothing herein contained shall be construed to alter or affect any internal relationship among the departments, agencies and officers of and in the government of a party state, or between a party state and its subdivisions, as to the payment of costs, or responsibilities therefor.

Article VI

(a) In determining the duration and expiration dates of the time periods provided in Articles III and IV of this agreement, the running of said time periods shall be tolled whenever and for as long as the prisoner is unable to stand trial, as determined by the court having jurisdiction of the matter.

(b) No provision of this agreement, and no remedy made available by this agreement, shall apply to any person who is adjudged to be mentally ill.

Article VII

Each state party to this agreement shall designate an officer who, acting jointly with like officers of other party states,

shall promulgate rules and regulations to carry out more effectively the terms and provisions of this agreement, and who shall provide, within and without the state, information necessary to the effective operation of this agreement.

Article VIII

This agreement shall enter into full force and effect as to a party state when such state has enacted the same into law. A state party to this agreement may withdraw herefrom by enacting a statute repealing the same. However, the withdrawal of any state shall not affect the status of any proceedings already initiated by inmates or by state officers at the time such withdrawal takes effect, nor shall it affect their rights in respect thereof.

Article IX

This agreement shall be liberally construed so as to effectuate its purposes. The provisions of this agreement shall be severable and if any phrase, clause, sentence or provision of this agreement is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this agreement shall be held contrary to the constitution of any state party hereto, the agreement shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

1389.1. The phrase "appropriate court" as used in the agreement on detainers shall, with reference to the courts of this State, means the court in which the indictment, information, or complaint is filed.

1389.2. All courts, departments, agencies, officers, and employees of this State and its political subdivisions are hereby directed to enforce the agreement on detainer and to co-operate with one another and with other states in enforcing the agreement and effectuating its purpose.

1389.3. Nothing in this chapter or in the agreement on detainers shall be construed to require the application of Section 644 to any person on account of any conviction had in a proceeding brought to final disposition by reason of the use of said agreement.

1389.4. Every person who has been imprisoned in a prison or institution in this State and who escapes while in the custody of an officer of this or another state in another state pursuant to the agreement on detainers is deemed to have violated Section 4530 and is punishable as provided therein.

1389.5. It shall be lawful and mandatory upon the warden or other official in charge of a penal or correctional institution in this State to give over the person of any inmate thereof

whenever so required by the operation of the agreement on detainer. Such official shall inform such inmate of his rights provided in paragraph (a) of Article IV of the Agreement on Detainers in Section 1389 of this code.

1389.6. The Administrator, Interstate Probation and Parole Compacts, shall administer this agreement.

1389.7. When, pursuant to the Agreement on Detainers, a person in actual confinement under sentence of another jurisdiction is brought before a California court and sentenced by the judge to serve a California sentence concurrently with the sentence of the other jurisdiction, the Adult Authority and Board of Trustees of the California Institution for Women, and the panels and members thereof, may meet in such other jurisdiction, or enter into co-operative arrangements with corresponding agencies in the other jurisdiction, as necessary to carry out the term-fixing and parole functions.

SEC 2. Copies of this act shall, upon enactment and filing with the Secretary of State, be transmitted by him to the governor of each state, the Attorney General and Secretary of State of the United States, and the Council of State Governments.

CHAPTER 2116

An act to amend Section 14694.5 of, and to add Section 14694.8 to, the Education Code, relating to school district retirement systems.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963]

The people of the State of California do enact as follows:

SECTION 1. Section 14694.5 of the Education Code is amended to read:

14694.5. Any school districts (unified and junior college) governed by the same governing board in which the average daily attendance of both districts combined is in excess of 400,000, shall develop a plan or plans for the discontinuance of both the unified and junior college district retirement systems established under this chapter (commencing at Section 14501) and the transfer of the district retirement systems' members to another retirement system. Any such plan or plans for discontinuance must be assented to by a majority of the active members of both of the retirement systems who vote on the proposition or propositions for discontinuance by expressing their desires with respect to the discontinuance of the systems in the manner, and evidenced in the form, prescribed by the governing board of the districts. The governing board of the districts shall, following such assent to the plan or plans for discontinuance, request the Legislature to enact the implementing legislation to effectuate such plan or plans thus

assented to, and to authorize the expenditure of the balance of the assets of both of the district retirement systems pursuant to the provisions of Section 14695 of this code.

In the event the Legislature enacts implementing legislation to effectuate a plan or plans for discontinuance, which plan or plans differ from the plan or plans for discontinuance developed by the governing board and assented to by a majority of the active members in the manner above provided in this section, such statutory plan or plans for discontinuance shall not become operative until assented to by a majority of the active members of both of the district retirement systems who vote on the proposition or propositions for discontinuance in the manner above provided in this section.

SEC. 2. Section 14694.8 is added to said code, to read:

14694.8. Any school districts (unified and junior college) governed by the same governing board, in which the average daily attendance of both districts combined is in excess of 400,000, shall submit to the active members of both systems a plan for the modification to improve benefits of both the unified and junior college district retirement systems established under this chapter (commencing with Section 14501). Such plan shall provide that the member of the retirement system shall, at the time of retirement, select one of the three following alternative courses of action:

(a) To withdraw his contributions from the unified or junior college district retirement system and transfer to the State Teachers' Retirement System pursuant to the procedures provided for by law.

(b) To remain under the unified or junior college district retirement system and receive from such district retirement system the annuity provided by his accumulated contributions as a member of such unified or junior college district retirement system, and receive a retirement allowance equal to that provided by the State Teachers' Retirement System formulae based only on such district service, minus the portions of the allowance which would have been provided by the annuity as defined in Section 13818 of this code if there had been no district retirement system. In addition he shall receive from the State Teachers' Retirement System benefits allowable from the Permanent Fund.

(c) To remain under the unified or junior college district retirement system and receive from such district retirement system the amount of benefits provided by employer contributions, as presently provided for under the rules of the unified or junior college district, plus the annuity provided by his contributions as a member of such unified or junior college district retirement system. In addition he shall receive from the State Teachers' Retirement System benefits allowable under the Permanent Fund.

This plan for modification to improve benefits must be assented to by a majority of the active members of both of

the retirement systems who vote on the proposition for modification to improve benefits.

The plan for modification to improve benefits shall be submitted to the active members of both of the retirement systems who will vote to express their desires as to approval or disapproval of the plan for modification to improve benefits. The governing board shall submit the plan for modification to improve benefits as an alternative plan, at the same time as it submits a plan or plans for the discontinuance of both the unified and junior college district retirement systems as provided in Section 14694.5, to the active members of both systems at the same time and shall prescribe the manner and form by which the active members may express their desires with respect to the plan or plans for discontinuance and the plan for modification to improve benefits.

The governing board shall submit the plan for modification to improve benefits, and the plan or plans for discontinuance, to the active members of both systems no later than November 30, 1963, for approval by such members at an election to be called and conducted by the governing board. The governing board shall report the results of such election to the Legislature no later than January 15, 1964 and shall request the Legislature to enact the implementing legislation to effectuate any such plan which may have been assented to.

In the event the Legislature enacts implementing legislation to effectuate a plan for modification to improve benefits, which plan differs from the plan developed by the governing board and assented to by a majority of the active members in the manner above provided in this section, such statutory plan for modification to improve benefits shall not become operative until assented to by the governing board and by a majority of the active members of both of the district retirement systems who vote on the proposition for modification to improve benefits in the manner above provided in this section.

An act to add Section 69752 of the Government Code, relating to sessions of superior courts

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 69752 is added to the Government Code, to read:

69752. Notwithstanding any other provision of this code, no superior court shall hold sessions in any city other than the county seat except with the approval of the board of supervisors.

The approval of the board of supervisors, under this section, shall not be required for the holding of sessions of the superior court in any city in which sessions of the superior court were being held on or before July 1, 1963.

CHAPTER 2118

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Article 5 (commencing with Section 53510) is added to Chapter 3, Part 1, Division 2, Title 5 of the Government Code, to read:

Article 5. Validating Proceedings

53511. A local agency may bring an action to determine the validity of its bonds, warrants, contracts, obligations or evidences of indebtedness pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Recent experience has shown that it is desirable to determine the validity of the formation, bonds, warrants, contracts, obligations, evidences of indebtedness and other matters of local agencies or special taxing districts. Many of said matters arise in connection with local agencies and special taxing districts involving water, sewer, and other public health and safety facilities. This act will aid the determination of the validity of said matters and so will aid in the solution of public health and safety problems in this State.

CHAPTER 2119

An act to add Section 13651.2 to the Education Code, relating to leaves of absence for classified school employees due to industrial accidents and illnesses.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 13651.2 is added to the Education Code, to read:

13651.2. Governing boards of school districts shall provide by rules or regulations for industrial accident or illness leaves of absence for employees who are a part of the classified service. Such rules or regulations shall include the following provisions:

(a) Allowable leave shall not be for less than 60 working days in any one fiscal year for the same accident.

(b) Allowable leave shall not be accumulative from year to year.

(c) Industrial accident or illness leave will commence on the first day of absence.

(d) Payment for wages lost on any day shall not, when added to an award granted the employee under the workmen's compensation laws of this State, exceed the normal wage for the day.

(e) Industrial accident leave will be reduced by one day for each day of authorized absence regardless of a compensation award made under workmen's compensation.

(f) When an industrial accident or illness occurs at a time when the full 60 days will overlap into the next fiscal year, the employee shall be entitled to only that amount remaining at the end of the fiscal year in which the injury or illness occurred, for the same illness or injury.

The industrial accident or illness leave of absence is to be used in lieu of entitlement acquired under Section 13651.1 of this code. When entitlement to industrial accident or illness leave has been exhausted, entitlement to other sick leave will then be used; but if an employee is receiving workmen's compensation he shall be entitled to use only so much of his accumulated or available sick leave, accumulated compensating time, vacation or other available leave which, when added to the workmen's compensation award, provide for a full day's wage or salary.

The governing board may, by rule or regulation, provide for such additional leave of absence, paid or unpaid, as it deems appropriate and during such leave the employee may return to his position without suffering any loss of status or benefits.

Periods of leave of absence, paid or unpaid, shall not be considered to be a break in service of the employee.

During all paid leaves of absence, whether industrial accident leave as provided in this section, sick leave, vacation, compensated time off or other available leave provided by law or the action of a governing board, the employee shall endorse to the district wage loss benefit checks received under the workmen's compensation laws of this State. The district, in turn, shall issue the employee appropriate warrants for payment of wages or salary and shall deduct normal retirement and other authorized contributions. Reduction of entitlement to leave shall be made only in accordance with this section.

When all available leaves of absence, paid or unpaid, have been exhausted and if the employee is not medically able to assume the duties of his position, he shall, if not placed in another position, be placed on a re-employment list for a period of 39 months. When available, during the 39-month period, he shall be employed in a vacant position in the class of his previous assignment over all other available candidates except for a re-employment list established because of lack of work or lack of funds, in which case he shall be listed in accordance with appropriate seniority regulations.

The governing board may require that an employee serve a specified period of employment not to exceed three years before he becomes eligible for the benefits provided in this section.

Any employee receiving benefits as a result of this section shall, during periods of injury or illness, remain within the State of California unless the governing board authorizes travel outside the State

An employee who has been placed on a re-employment list, as provided herein, who has been medically released for return to duty and who fails to accept an appropriate assignment shall be dismissed.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 5 (commencing with Section 13701) of this chapter.

CHAPTER 2120

An act to amend Section 18356 of the Education Code, relating to mentally retarded minors.

[Approved by Governor July 23, 1963 Filed with Secretary of State July 25, 1963]

The people of the State of California do enact as follows:

SECTION 1. Section 18356 of the Education Code is amended to read:

4100.5 This chapter does not apply to contracts for the construction, improvement or repair of streets or highways, including bridges.

SEC. 3. Section 4101 is added to said code, to read:

4101. The Legislature finds that the practices of bid shopping and bid peddling in connection with the construction, alteration, and repair of public improvements often result in poor quality of material and workmanship to the detriment of the public, deprive the public of the full benefits of fair competition among prime contractors and subcontractors, and lead to insolvencies, loss of wages to employees, and other evils.

SEC. 4. Section 4101 of said code is amended and renumbered to read:

4103. Nothing in this chapter limits or diminishes any rights or remedies, either legal or equitable, which:

(a) An original or substituted subcontractor may have against the prime contractor, his successors or assigns.

(b) The State or any county, city, body politic, or public agency may have against the prime contractor, his successors or assigns, including the right to take over and complete the contract.

4104 Any officer, department, board or commission taking bids for the construction of any public work or improvement shall provide in the specifications prepared for the work or improvement or in the general conditions under which bids will be received for the doing of the work incident to the public work or improvement that any person making a bid or offer to perform the work, shall, in his bid or offer, set forth:

(a) The name and the location of the place of business of each subcontractor who will perform work or labor or render service to the prime contractor in or about the construction of the work or improvement in an amount in excess of one-half of 1 percent of the prime contractor's total bid.

SEC 6 Section 4105 is added to said code, to read:

4105. Circumvention by a general contractor who bids as a prime contractor of the requirement under Section 4104 for him to list his subcontractors, by the device of listing another contractor who will in turn sublet portions constituting the majority of the work covered by the prime contract, shall be considered a violation of this chapter and shall subject such prime contractor to the penalties set forth in Sections 4110 and 4111.

SEC. 7. Section 4103 of said code is amended and renumbered to read:

4106. If a prime contractor fails to specify a subcontractor or if a prime contractor specifies more than one subcontractor for the same portion of work to be performed under the contract in excess of one-half of 1 percent of the prime contractor's total bid, he agrees that he is fully qualified to perform that portion himself, and that he shall perform that portion himself.

If after award of contract such prime contractor shall, except as provided for in Sections 4107 or 4109, subcontract any such portion of the work, such prime contractor shall be subject to the penalties named in Section 4111.

SEC. 8. Section 4104 of said code is amended and renumbered to read:

4107. No prime contractor whose bid is accepted shall:

(a) Substitute any person as subcontractor in place of the subcontractor listed in the original bid, except that the awarding authority may consent to the substitution of another person as a subcontractor, when the subcontractor listed in the bid after having had a reasonable opportunity to do so fails or refuses to execute a written contract, when such written contract, based upon the general terms, conditions, plans and specifications for the project involved or the terms of such subcontractor's written bid, is presented to him by the prime contractor, or becomes insolvent or fails or refuses to perform a written contract for the work or fails or refuses to meet the bond requirements of the prime contractor as set forth in Section 4108. Prior to approval of any such substitution the awarding authority shall give notice in writing of at least three working days to the listed subcontractor of the prime contractor's request to substitute another subcontractor unless such listed subcontractor has himself advised the awarding authority in writing that he has knowledge of the prime contractor's request. Such notice may be served by registered mail to the last known address of such subcontractor.

(b) Permit any such subcontract to be voluntarily assigned or transferred or allow it to be performed by anyone other than the original subcontractor listed in the original bid, without the consent of the awarding authority.

(c) Other than in the performance of "change orders" causing changes or deviations from the original contract, sublet or subcontract any portion of the work in excess of one-half of 1 percent of the prime contractor's total bid as to which his original bid did not designate a subcontractor.

SEC. 9. Section 4108 is added to said code, to read:

4108. (a) It shall be the responsibility of each subcontractor submitting bids to a prime contractor to be prepared to submit faithful performance and labor and materials bond or bonds if so requested by the prime contractor.

(b) In the event any subcontractor submitting a bid to a prime contractor does not, upon the request of the prime contractor and at the expense of the prime contractor at the established charge or premium therefor, furnish to such prime contractor a bond or bonds issued by an admitted surety wherein the prime contractor shall be named the obligee, guaranteeing prompt and faithful performance of such subcontract and the payment of all claims for labor and materials furnished or used in and about the work to be done and performed under such subcontract, the prime contractor may reject such bid and make a substitution of another subcontractor subject to the provisions of Section 4107. Such bond or bonds may be required at the expense of the subcontractor only if the prime contractor in his written or published request for subbids (1) specifies that the expense for such bond or bonds shall be borne by the subcontractor and (2) clearly specifies the amount and requirements of such bond or bonds.

SEC. 10. Section 4105 of said code is amended and renumbered to read:

4109. Subletting or subcontracting of any portion of the work in excess of one-half of 1 percent of the prime contractor's total bid as to which no subcontractor was designated in the original bid shall only be permitted in cases of public emergency or necessity, and then only after a finding reduced to writing as a public record of the awarding authority setting forth the facts constituting the emergency or necessity.

SEC. 11. Section 4106 of said code is amended and renumbered to read:

4110. A prime contractor violating any of the provisions of this chapter violates his contract and the awarding authority may excercise the option, in its own discretion, of (1) canceling his contract or (2) assessing the prime contractor a penalty in an amount not more than 10 percent of the amount of the subcontract involved, and this penalty shall be deposited in the fund out of which the prime contract is awarded, or (3) both canceling the contract and assessing the penalty.

4111. Violation of this chapter by a licensee under Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code constitutes grounds for disciplinary action by the Contractors State License Board, in addition to the penalties prescribed in Section 4110.

SEC. 13. Section 4107 of said code is amended and renumbered to read:

4112. The failure on the part of a contractor to comply with any provision of this chapter does not constitute a defense to the contractor in any action brought against him by a subcontractor.

SEC. 14. Section 4108 of said code is amended and renumbered to read:

4113. As used in this chapter, the word "subcontractor" shall have the meaning given to it by the provisions of Chapter 9 of Division 3 of the Business and Professions Code.

CHAPTER 2130

An act to amend Sections 17203 and 17415, and to add Chapter 6 (commencing with Section 17621) to Division 6, of the Financial Code, relating to escrow agents.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 17203 of the Financial Code is amended to read:

17203. The bond of an escrow agent shall be conditioned that the obligor will faithfully conform to and abide by the provisions of this division and all the rules and regulations made by the commissioner under this division. The bond shall be conditioned that the licensee will honestly and faithfully apply all funds received, will faithfully and honestly perform all obligations and undertakings under this division, and will pay to the State and any person all amounts which become due or owing to the State or to such person under the provisions of this division, including the costs in any conservatorship, or liquidation, whether by the commissioner or by a receiver. In determining the liability of the principal and the sureties under the bond, escrow money held in trust and any money recovered to restore any deficiency in the trust shall not be considered as an asset of the liquidation subject to assessment for the cost of the liquidation. The surety under such bond may pay the full amount of its liability thereunder to the commissioner or a conservator appointed by him pursuant to Chapter 6 of this division in lieu of payment to the State or persons having a cause of action against the obligor of the bond, and upon such payment the surety is completely released from further liability under such bond. The aggregate liability of the surety, for all claims shall, in no event exceed the penal sum of the bond.

SEC. 2. Section 17415 of said code is amended to read:

17415. If the commissioner, as a result of any examination or from any report made to him shall find that any person subject to this division is in an insolvent condition, is conducting escrow business in such an unsafe or injurious manner as to render further operations hazardous to the public or to customers, has permitted its tangible net worth to be lower than the minimum required by law, has failed to comply with the bonding requirements of Chapter 2 of this division, the commissioner may forthwith, by an order addressed to and served by registered mail on such person and on any other person having in his possession or control any escrowed funds, trust funds or other property deposited in escrow with said person, direct discontinuance of the disbursement of trust funds by said parties or any of them, the receipt of trust funds, the delivery or recording of documents received in escrow, or other business operations. No person having in his possession any such funds or documents shall be liable for failure to comply with such order unless he has received written notice of such order. The order shall remain in effect until set aside by the commissioner in whole or in part, the person has been adjudged bankrupt, or pursuant to Chapter 6 of this division the commission has assumed possession of the escrow agent.

SEC. 3. Chapter 6 (commencing with Section 17621) is added to Division 6 of said code, to read:

CHAPTER 6. LIQUIDATION AND CONSERVATORSHIP

Article 1. Possession by Commissioner

17621. Whenever it appears to the commissioner that any licensee subject to this division:

(a) Is in an insolvent condition;

(b) Is conducting escrow business in an unsafe or unauthorized manner;

(c) Has violated its charter or any law of the State of California;

(d) Refuses to submit its books, papers and affairs to the inspection of any examiner;

(e) Neglects or refuses to observe any order of the commissioner made pursuant to the provisions of this division, within the time specified therein, unless the enforcement of such order is restrained in a proceeding brought by the licensee;

(f) Or any officer of such licensee refuses to be examined upon oath touching the business of such licensee;

(g) Or any officer of such licensee, or attorney in fact of such licensee has embezzled, sequestered, or willfully diverted the assets or trust funds of such licensee;

(h) Has permitted its tangible net worth to be lower than the minimum required by law:

(i) Has failed to comply with the bonding requirements of Chapter 2 of this division

the commissioner shall dispatch a written notice and summary of findings, as referred to in Section 17415, to the principal officer of the licensee involved or to it's manager of record; and such licensee shall be afforded a reasonable opportunity to comply or otherwise effect such remedies as the commissioner may deem acceptable. However, should the licensee so notified fail to comply within five days of receipt of the notice, or as soon as it appears to the commissioner that no compliance is possible, or in the event prompt delivery of the prescribed written notice is impossible, the commissioner may forthwith take possession of the property and business of such licensee and retain possession until such licensee resumes business or its affairs be finally liquidated as provided in this chapter. The licensee, with the consent of the commissioner, may resume business upon such conditions as the commissioner may prescribe.

17622. Whenever the commissioner has taken possession of any licensee, such licensee, within 10 days after such taking, if it deems it is aggrieved thereby, may apply to the superior court in the county in which the head office of the licensee is located to enjoin further proceedings. The court, after citing the commissioner to show cause why further proceedings should not be enjoined and after a hearing and a determination of the facts upon the merits may dismiss such application or enjoin the commissioner from further proceeding and direct

him to surrender the property and business to the licensee, or make such further order as may be just.

17623. An appeal from a judgment enjoining the commissioner from further proceedings and directing him to surrender the business, property, and assets to the licensee does not operate as a stay of the judgment, unless the trial court in its discretion so orders. If an appeal from the judgment is taken by the commissioner no bond need be given. If the judgment dismisses the action an appeal therefrom does not operate as a stay of the judgment but the court rendering such judgment may, in its discretion enjoin the commissioner pending the appeal, from further proceedings and direct him, pending the appeal, to surrender such business, property, and assets to the licensee, if a bond is given as required by Section 943 of the Code of Civil Procedure.

17624. Whenever the commissioner demands possession of the property, business and assets of any licensee pursuant to this chapter, the refusal of any officer, agent, employee, or director of such licensee to comply with the demand is a misdemeanor, punishable by fine of not more than five hundred dollars ($500), or the imprisonment in the county jail for not more than 90 days, or by both such fine and imprisonment.

17625. If the commissioner's demand for the possession of the property, business and assets is not complied with within 24 hours after service of the demand, the commissioner may call to his assistance the sheriff of the county in which the principal place of business of such licensee is located, by giving the sheriff written demand the sheriff shall enforce the demands of the commissioner.

17626. When the commissioner takes possession of the property, business and assets of any licensee, such licensee or the president and secretary of such licensee shall make and deliver to the commissioner verified schedules of its property, assets, and funds held in escrow. The commissioner may at any time examine under oath any licensee, or any officer, director, agent, or employee of such licensee, to determine whether or not all such property, assets, and funds held in escrow have been transferred and delivered to his possession.

17627. The commissioner may issue subpoenas and require the attendance of parties for examination under this article as provided for in Sections 5253 and 5254 of this code.

17628. When the commissioner takes possession of the business, property, and assets of a licensee, he may appoint a custodian. The commissioner may require a good and sufficient bond from the custodian and place him in charge as his representative.

17629. When the commissioner takes possession of the property, business, and assets of a licensee, he may collect all money due to such licensee and give receipt therefor. The commissioner may do such other acts as are necessary or expedient to collect, conserve, or protect the licensee's business, property, and assets.

Article 2. Conservatorship

17630. If any facts occur which would entitle the commissioner under Section 17621 to take possession of the property, business and assets of a licensee the commissioner may appoint a conservator of a licensee and require of him such bond as the commissioner deems proper. The commissioner may also, upon the request of the board of directors of a licensee, appoint a conservator of such licensee and require of him such bond as the commissioner deems proper. The conservator, under the direction of the commissioner, shall take possession of the property, business and assets of the licensee and take such action as he may deem necessary to conserve the assets of such licensee pending further disposition of its business. The conservator shall retain such possession until the property, business and assets of the licensee are returned to the licensee or until further order of the commissioner.

17631. Subject to the other provisions of this article, a conservator, while in possession of the property, business and assets of a licensee, has the same powers and rights and is subject to the same duties and obligations as the commissioner while in possession of the property, business and assets of a licensee; and during such time the rights of a licensee and of all persons with respect thereto, subject to the other provisions of this article, are the same as if the commissioner had taken possession of such property, business and assets. A conservator, while in possession of the property, business and assets of a licensee, shall have all the rights, powers and privileges of the licensee, its officers and directors. All expenses of any such conservatorship shall be paid out of the assets of the licensee and shall be a lien thereon which shall be prior to any other lien. The conservator shall receive a salary, fixed by the commissioners, in an amount no greater than that which would be paid by the commissioner to a special deputy in charge of the liquidation of the licensee.

17632. Upon appointing a conservator the commissioner shall cause to be made and completed at the earliest possible date such an examination of the affairs of the licensee as shall be necessary to inform him as to its financial condition.

17633. A conservator, while in possession of the property, business and assets of a licensee, may call, upon the notice required by the licensee's bylaws, a meeting of the investors of the licensee who are entitled to vote, for any purpose, including without limitation the election of a board of directors, and upon the holding of a meeting for such purpose the terms of office of all directors shall expire, or may call, upon the notice required by the licensee's bylaws, a meeting of the board of directors for any purpose, including without limitation the filling of vacancies on the board of directors or the removal and election or the removal or election of officers. Each such meeting shall be supervised by the conservator.

17634. If the commissioner becomes satisfied that it may be done safely and in the public interest, he may terminate the conservatorship and permit the licensee for which a conservator was appointed to resume its business under direction of its board of directors, subject to such terms, conditions, restrictions and limitations as he may prescribe.

Article 3. Liquidation by the Commissioner

17635. If at any time after taking possession of the property and business of a licensee it shall appear to the commissioner that it would be futile to proceed as conservator with the conduct of the business of such person he may apply to the superior court of the county in which is located the principal office of such person in this State for an order to liquidate and wind up the business of said person. Upon a full hearing of such application, the court may make an order directing the winding up and liquidation of the business of such person by the commissioner, as liquidator.

17636. Whenever the commissioner has taken possession of the property and business of a licensee he may petition the superior court for the appointment of a receiver to liquidate the affairs of the licensee.

17637. The commissioner may appoint one or more special deputies to assist in the duties of liquidation and distribution under his direction and may also employ such special legal counsel, accountants, and assistants as may be needed and required and fix their salaries and compensation. All such salaries and compensation with other reasonable and necessary expenses as may be incurred in the liquidation shall be paid by the commissioner from the funds of the licensee in his hands. Such expenses shall include, among other things, that part of the salary of the commissioner and of his deputies, auditors, accountants, appraisers and other assistants, and that part of the general expenses of the commissioner's office, as fairly represent, in the opinion of the commissioner, the proportion properly attributable to such liquidation.

17638. In liquidating the affairs of a licensee the commissioner may:

(a) Collect all money due to, and claims of, the licensee and give receipt therefor.

(b) Approve and pay all just and equitable claims.

(c) Commence and prosecute all actions and proceedings necessary to enforce liquidation.

(d) Compound bad or doubtful debts or claims, borrow money, sell, convey, or transfer real or personal property, on order of the superior court of the county in this State in which the principal office of the licensee is located. The order shall be made after hearing and on such notice as the court prescribes.

17639. After the issuance of an order of liquidation under Section 17635, any of the following transactions occurring within four months prior to the application for such order shall

be voidable by the commissioner if such transaction has the effect of giving to or enabling any creditor of the licensee to obtain a preference over any other creditor, or to obtain a greater percentage of his debt than any other creditor:

(a) A transfer of property of the licensee.

(b) The creation of a lien upon the property of the licensee.

(c) The suffering of a judgment against such person.

17640. If the commissioner is in possession of the business, property, and assets of a licensee, whether or not he is liquidating the affairs of such licensee, the commissioner may:

(a) Apply to the superior court of the county in this State in which the principal office of the licensee is located for an order confirming any action taken by the commissioner, or authorizing the commissioner to do any act or execute any instrument not expressly authorized by this part. The order shall be given after a hearing on such notice as the court prescribes.

(b) Pay and discharge any secured claims against the licensee, whether or not such claims have been presented for payment. No secured claim shall be paid in an amount larger than the value of the security at the time of payment.

17641. Claims for damages resulting from the disaffirmance of an executory contract or lease by the commissioner may be filed and allowed. No claim of a landlord for damages resulting from the disaffirmance of an unexpired lease of real property or under any covenant of such lease shall be allowed in an amount exceeding the rent reserved by the lease, without acceleration, for the year succeeding the date of the surrender of the premises plus the amount of any unpaid accrued rent without acceleration. Any such claim must be filed within 30 days of the date of such disaffirmance.

17642. When the commissioner determines to liquidate a licensee, he shall cause an inventory of all the assets of the licensee to be made in duplicate, file the original with the court, and file the duplicate in his office.

17643. When the commissioner determines to liquidate a licensee he shall cause notice to be given by publication once a week for four successive weeks in some newspaper of general circulation published at or near the principal place of business in this State of such licensee, to all persons having claims against the licensee as creditors, investors, or otherwise, requiring them to present and file their claims and make legal proof thereof at a place and within a time designated in such publication. The time shall be not less than six months after the first publication. Within 10 days after the first publication the commissioner shall cause a copy of such notice to be mailed to all persons whose names appear of record upon the licensee's books as creditors, or as parties to an uncompleted escrow transaction.

17644. All claims, demands, or causes of action of creditors, and persons other than the parties to an escrow transaction against the licensee or against any property owned or held

by it in trust or otherwise, must be presented to the commissioner in writing, verified by the claimant, or someone in his behalf, within the period specified in the notice for the presentation of claims, whether or not an action is pending to enforce any such claim or demand. The commissioner shall not approve any claim not so presented, and any such claim, demand or cause of action not so presented is forever barred

17645. Upon the expiration of the time fixed for the presentation of claims, the commissioner shall prepare in duplicate a full and complete schedule of all claims presented, specifying by classes those that have been approved and those that have been disapproved and shall file the original with the court and the duplicate in his office.

17646. Not later than five days after the time of filing the schedule of claims with the court, written notice shall be mailed to all claimants whose claims have been rejected. Action to enforce the payment of or to establish any rejected claim must be brought and service had within four months from and after the date of filing of the schedule of claims with the proper court or all such actions are forever barred.

17647. Regardless of any law of this State, the judge of the superior court of the county in this State in which the principal office of the licensee is located, may whenever he deems it necessary or advisable, hold hearings relating to the sale, exchange, or other disposition of any real property or any personal property of the licensee regardless of the location of such property. The hearings shall be held at the county seat of any county in this State or at such places in the home county of such superior court at which sessions are held as provided in the Code of Civil Procedure.

17648. If it appears improbable that anything can be realized from any property of the licensee and that the cost of maintaining, preserving, or protecting the property would probably be lost, the court may direct the commissioner to abandon the property.

17649. For the purpose of executing and performing any of the powers and duties conferred upon him by this article, the commissioner may in the name of the licensee or in his own name prosecute and defend any suit or other legal proceeding and may in the name of the licensee or in his own name as commissioner execute, acknowledge, and deliver any and all deeds, assignments, releases, requests for reconveyance, and other instruments necessary and proper to effectuate any sale of real or personal property or other transaction in connection with the liquidation of the licensee. Any deed, assignment, release, request for reconveyance, or other instrument executed pursuant to this section is valid and effectual for all purposes as though it was executed by the officers of such licensee with the authority of its board of directors.

17650. If any real property of the licensee sold by the commissioner is located in a county other than the county in which the application to the court for permission to sell

the property was made, the commissioner shall cause a certified copy of the order authorizing or ratifying such sale to be recorded in the office of the recorder of the county in which the real property is located.

17651. When the commissioner has (a) fully liquidated all claims other than claims of stockholders, and (b) made due provision for any and all known but unclaimed liabilities, excepting claims of stockholders, and (c) paid all expenses of liquidation, then upon the written request of the holders of a majority of the stock of such licensee he shall deliver to the licensee or its trustees any surplus that then remains in his hands, together with all the records and effects. The licensee or its trustees shall have title to such surplus, records, and effects free from any claim of the commissioner.

17652. Upon the payment of a final dividend in liquidation, the commissioner shall prepare and file with the court a full and final statement of the liquidation, including a summary of the receipts and disbursements, and a duplicate of such statement shall be filed in the office of the commissioner. After hearing and approval by the court, the liquidation shall be closed.

17653. In making its order approving the commissioner's final statement of the liquidation of a licensee, the court shall determine the amounts of the liquidating dividends to which claimants and investors are entitled but which then remain unpaid or unclaimed in the hands of the commissioner. The order of the court shall direct the commissioner to deposit such amounts with the State Treasurer. All amounts so deposited shall be deemed to be deposited in the State Treasury under the provisions of Chapter 7 (commencing with Section 1500) of Title 10 of Part 3 of the Code of Civil Procedure, and shall be subject to claim or other disposition as provided in said chapter.

17654. The order of the court approving the final statement on liquidation shall provide for the destruction or other disposition of the books and records of the licensee or pertaining to the liquidation of the licensee, and the court may declare the licensee dissolved as a corporation.

SEC. 4. If any provision of this bill, or its application to any person or circumstance, is held invalid, the remainder of the bill, or the application of the provision to other persons or circumstances is not affected.

CHAPTER 2131

An act to amend Section 934 of the Unemployment Insurance Code, relating to unemployment insurance, and declaring the urgency thereof to take effect immediately.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 934 of the Unemployment Insurance Code is amended to read:

934. "Wages" does not include any payment made to, or on behalf of, an employee or his beneficiary:

(a) From or to a trust described in Section 401(a) of the Internal Revenue Code of 1954 which is exempt from tax under Section 501(a) of that code at the time of such payment unless such payment is made to an employee of the trust as remuneration for services rendered as an employee and not as a beneficiary of the trust.

(b) Under or to an annuity plan which, at the time of such payment, is a plan described in Section 403(a) of the Internal Revenue Code of 1954.

(c) Under or to a bond purchase plan which, at the time of such payment, is a qualified bond purchase plan described in Section 405(a) of the Internal Revenue Code of 1954.

SEC. 2. The provisions of Section 934 of the Unemployment Insurance Code as amended by this act shall apply to any payment made to, or on behalf of, an employee or his beneficiary: (1) from or to a trust described in subdivision (a) of Section 934; (2) under or to an annuity plan described in subdivision (b) of Section 934; and (3) under or to a bond purchase plan described in subdivision (c) of Section 934, if such trust, annuity plan or bond purchase plan is established after December 31, 1962. The provisions of Section 934 of the Unemployment Insurance Code prior to the amendments made by this act shall remain applicable to any payment made to, or on behalf of, an employee or his beneficiary: (1) from or to a trust described in subdivision (a) of Section 934 prior to the amendments made by this act; and (2) under or to an annuity plan described in subdivision (b) of Section 934 prior to the amendments made by this act, if such trust or annuity plan was established prior to January 1, 1963.

SEC. 3. No right or cause of action founded upon any provision of law amended by this act as the provisions existed prior to such amendment shall be abolished or impaired by this act.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under the provisions of Section 939 of the Unemployment Insurance Code, Section 934 (and several other sections) of the code ". . . shall be operative only during such time as the respective type or types of payments set forth in these sections are similarly excluded from the definition of wages contained in the Federal Unemployment Tax Act."

Public Law 87-792, 76 Stat. 809 [H.R. 10] approved October 10, 1962 included an amendment of the Federal Unemployment Tax Act, Section 3306(b)(5) of the Internal Revenue Code of 1954. The amended Section 3306(b)(5) is as follows:

"3306.

" * * * .

"(b) Wages.—For purposes of this chapter, the term "wages" means all remuneration for employment, including the cash value of all remuneration paid in any medium other than cash; except that such term shall not include—

" * * *

"(5) any payment made to, or on behalf of, an employee or his beneficiary—

"(A) from or to a trust described in section 401(a) which is exempt from tax under section 501(a) at the time of such payment unless such payment is made to an employee of the trust as remuneration for services rendered as such employee and not as a beneficiary of the trust, or

"(B) under or to an annuity plan which, at the time of such payment, is a plan described in section 403(a), or

"(C) under or to a bond purchase plan which, at the time of such payment, is a qualified bond purchase plan described in section 405(a)."

Section 8 of Public Law 87-792 provides: "The amendments made by this Act shall apply to taxable years beginning after December 31, 1962."

In order to maintain uniformity between Section 934 of the Unemployment Insurance Code and its counterpart, Section 3306(b)(5) of the Internal Revenue Code of 1954, and to avoid any possibility that Section 934 would become partially inoperative if not amended, it is necessary that this act become effective immediately.

CHAPTER 2134

An act to add Section 14128.1 to the Education Code, relating to the State Teachers' Retirement System, to take effect immediately, and declaring the urgency thereof.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 14128.1 is added to the Education Code, to read:

14128.1. Whenever the board determines that payments to a member who has applied for retirement, and who has expressed an interest in an option but has not made his final election as outlined in Sections 14363 and 14364, cannot be made until after the first day of the month following that month for which such payments are due, the board may present claims for advances on retirement allowances which would normally be due a retired member of the system estimated on preliminary information in the possession of the board, and the State Controller shall draw warrants in payment of such claims. If the member has expressed an interest in Option 2 or Option 3, the advance payment shall be in the amount of the monthly payment due on the assumption that the member had elected to modify his allowance under Option 2.

Any loss incurred in connection with an advance payment shall be a charge against the fund from which the payment was derived. Such advances to an individual may not be made in excess of the amount of Permanent Fund contributions and accumulated Retirement Annuity Fund contributions credited to his account and shall be a lien on said contributions until otherwise accounted for.

If a member receiving payments under this section has made an election of Option 2 or Option 3, and dies after 30 days from the date such election is received in the retirement office in Sacramento, the member shall be considered as a retired person on the date of death and his beneficiaries shall be entitled to the benefits provided in this chapter for payments ordinarily due on account of the death of a retired person. In the event of the death of a person receiving payments under this section who has not made such an election of Option 2 or Option 3, or if death occurs within 30 days from the date of filing such an election, the person shall be considered as an active member on the date of death and the benefits payable to beneficiaries, or to other persons as prescribed by law, shall be in the amounts which are ordinarily payable upon the death of an active member.

Warrants drawn pursuant to this section shall not be considered as warrants drawn in payment of retirement allowances pursuant to the provisions of Section 14363, and the member may make a final selection of an option following the mailing of warrants drawn pursuant to this section. If the member does not make his final election of an option within 30 days of the date of mailing by the board of a notice containing information on the prospective modified benefits as requested by the member, payments under this section shall be terminated.

If any such advances are more or less than the correct amount due to the member or beneficiary of the member receiving the advances, the difference between such correct amount and the advance shall be adjusted in subsequent payments to such retired member or beneficiary, or the State Controller may state an account with the member or beneficiary, pursuant to Government Code Section 12419.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There are approximately 260,000 members of the State Teachers' Retirement System and a considerable number of teachers will retire at the conclusion of the current school year ending in June 1963. Since many of these teachers will consider the election of optional settlements it is necessary that this measure take effect immediately so that the increased responsiveness of the system to the needs of retiring members will be available for these teachers.

CHAPTER 2135

An act to amend Sections 13851, 13852 and 13853 of the Education Code, relating to the Retirement Board of the State Teachers' Retirement System, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 13851 of the Education Code is amended to read:

13851. The retirement system shall be managed, except for the investment of funds, by the Teachers' Retirement Board. The members of the board shall be as follows:

(a) The Superintendent of Public Instruction.

(b) The Director of Finance.

(c) One member, who, at the time of appointment, is a member of the governing board of a school district.

(d) Three members of the State Teachers' Retirement System, at least two of whom at time of appointment are classroom teachers in grades kindergarten through 14.

(e) One official of a life insurance company appointed by the Governor for a term of four years, subject to confirmation by the Senate.

(f) One official of a bank appointed by the Governor for a term of four years, subject to confirmation by the Senate.

The members of the board provided by subdivisions (c) and (d) shall be appointed by the Governor from a list submitted by the Superintendent of Public Instruction. One member shall be appointed for a term expiring July 1, 1964. One member shall be appointed for a term expiring July 1, 1965. One member shall be appointed for a term expiring July 1, 1966. One member shall be appointed for a term expiring July 1, 1967. Successors to those appointed as stated above shall be appointed for four-year terms by the Governor from lists submitted by the Superintendent of Public Instruction.

At the first meeting of the Retirement Board, provided in this section, and annually thereafter, the members shall elect a chairman and vice chairman.

SEC. 2. Section 13852 of said code is amended to read:

13852. The board shall appoint an executive officer, who shall be the chief administrative officer of the retirement system. The board shall also appoint an actuary and other employees necessary to the administration of this system. The executive officer and the actuary may administer oaths.

SEC. 3. Section 13853 of said code is amended to read:

13853. The Retirement Board shall set policy and make rules and it has the sole power and authority to hear and determine all facts pertaining to application for benefits under the Retirement System or any matters pertaining to adminis-

tration thereof, except as to investment of funds. The Retirement Board shall meet at least once every calendar quarter or as often as the Retirement Board deems necessary.

The board may appoint a committee of two or more of its members to perform any act within the power of the board itself to perform. The board may also delegate authority to the executive officer to perform any such act. Except where the board, in delegating such authority, provides that the committee or the executive officer may act finally, all acts of the committee or the executive officer shall be reported to the board at its next regular meeting and shall be subject to review and ratification or reversal by the board.

The executive officer has the authority and responsibility for the administration of the system pursuant to the policies and rules adopted by the board. He may delegate to his subordinates any act or duty unless the board by motion or resolution recorded in its minutes has required him to act personally.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The State Teachers' Retirement System has 260,000 accounts and is paying benefits on 24,000 of these accounts and must separately account for three different funds. The system is now two years in arrears in posting to members' accounts which has resulted in a high percentage of errors. In addition retiring teachers have been required to wait as long as six months after applying for retirement to commence receiving benefits. The present board membership is taken from the members of the State Board of Education and the appointive members of the Retirement Investment Board who are already burdened with substantial other duties and lack sufficient time to devote to the administration of the retirement system.

CHAPTER 2136

An act to amend Sections 634, 5503, 5602 and 5355.5 of the Welfare and Institutions Code, relating to appointment of attorneys and fixing of their compensation by the court.

[Approved by Governor July 23, 1963 Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 634 of the Welfare and Institutions Code is amended to read:

634. When it appears to the court that the minor or his parent or guardian desires counsel but is indigent and cannot for that reason employ counsel, the court may appoint counsel.

In such a case the court must appoint counsel for the minor if he is charged with misconduct which would constitute a felony if committed by an adult. In any case in which it appears to the court that there is such a conflict of interest between a parent or guardian and child that one attorney could not properly represent both, the court may appoint counsel, in addition to counsel already employed by a parent or guardian or appointed by the court to represent the minor or parent or guardian. In a county where there is no public defender the court may fix the compensation to be paid by the county for service of such appointed counsel.

SEC. 2. Section 5503 of said code is amended to read:

5503. The person certified or alleged to be a mentally disordered sex offender shall be taken before a judge of the superior court of the county. The judge shall then inform him that he is certified or alleged to be a mentally disordered sex offender, and inform him of his rights to make a reply and to produce witnesses in relation thereto. (b) Every corporation or person, owning, controlling, operating, or managing any vessel engaged in the transportation of persons or property for compensation between points upon the inland waters of this State or upon the high seas between points within this State, except as provided in Section 212. "Inland waters" as used in this section includes all navigable waters within this State other than the high seas.

(c) Every "passenger stage corporation" operating within this State.

(d) Every highway common carrier, cement carrier, and every petroleum irregular route carrier operating within this State.

SEC. 2. Section 214.1 is added to said code, to read:

214.1. "Cement carrier" means every corporation or person operating within this State, engaged as a common carrier, other than a highway common carrier, for compensation in the ownership, control, operation or management of any motor vehicle loaded substantially to capacity with and transporting portland or similar cements in bulk or in packages over any public highway in this State.

SEC. 3. The heading of Article 4 (commencing with Section 1061) of Chapter 5 of Part 1 of Division 1 of said code is amended to read:

Article 4. Highway Common Carriers, Cement Carriers and Petroleum Irregular Route Carriers

SEC. 4. Section 1061 of said code is amended to read:

1061. No highway common carrier, cement carrier, or petroleum irregular route carrier, shall operate or cause to be operated any auto truck, or other self-propelled vehicle not operated on rails, for the transportation of property as a common carrier for compensation on any public highway in this State except in accordance with the provisions of this part.

SEC. 5. Section 1062 of said code is amended to read:

1062. The commission may:

(a) Supervise and regulate every highway common carrier, cement carrier, and petroleum irregular route carrier in this State.

(b) Fix the rates, fares, charges, classifications, and rules of each such carrier.

(c) Regulate the accounts, service, and safety of operations of each such carrier, and require the filing of annual and other reports and of other data by such carriers.

(d) Supervise and regulate such carriers in all other matters affecting the relationship between them and the shipping public.

The commission, by general order or otherwise, may prescribe rules applicable to any and all highway common carriers, cement carriers, and petroleum irregular route carriers. The commission, in the exercise of the jurisdiction conferred upon it by the Constitution of this State and by this part, may make orders and prescribe rules affecting highway common carriers, cement carriers, and petroleum irregular route carriers, notwithstanding the provisions of any ordinance or permit of any city, city and county, or county, and in case of conflict between any such order or rule and any such ordinance or permit, the order or rule of the commission shall prevail.

SEC. 6. Section 1063 of said code is amended to read:

1063. No highway common carrier, cement carrier, or petroleum irregular route carrier, shall begin to operate any auto truck, or other self-propelled vehicle, for the transportation of property for compensation on any public highway in this State without first having obtained from the commission a certificate declaring that public convenience and necessity require such operation. No such certificate shall be required of any highway common carrier as to the fixed termini between which or the route over which it was actually operating as a highway common carrier on July 26, 1917, and in good faith continuously thereafter, or for operations exclusively within the limits of a city or city and county, or for the performance of pickup, delivery, or transfer services by such carrier within such carrier's lawfully published pickup and delivery zones insofar as such pickup and delivery limits do not include territory in excess of three miles from the corporate limits of any city or three miles from the post office of any unincorporated point. The commission shall grant a certificate to operate as a cement carrier to any cement carrier as to the counties to and within which it was actually transporting cement as a cement carrier in good faith within one year prior to June 1, 1963, and continuously thereafter, provided such cement carrier applies to the commission for such certificate prior to December 31, 1963, and submits adequate proof of such prior operations. The delivery of one or more loads of cement either in bulk or in packages to a point in a particular county shall constitute adequate proof of such prior operations and shall entitle the applicant to authority to serve all points in said county from any and all points of origin. Any right, privilege, franchise, or permit held, owned, or obtained by any highway common carrier, cement carrier, or petroleum irregular route carrier, may be sold, leased, transferred, or inherited as other property, only upon authorization by the commission.

SEC. 7. Section 1064 of said code is amended to read:

1064. Each application for a certificate of public convenience and necessity made under the provisions of this article shall be accompanied by a fee of one hundred fifty dollars ($150).

Except in the case of cement carriers who seek a certificate on the basis of operations prior to June 1, 1963, and contin-

uously thereafter, as provided in Section 1063, the commission may, with or without hearing, issue the certificate as prayed for, or refuse to issue it, or issue it for the partial exercise only of the privilege sought, and may attach to the exercise of the rights granted by the certificate such terms and conditions as, in its judgment, the public convenience and necessity require. Provided proper application is timely filed, the commission shall issue a certificate to each cement carrier conforming to the proof of good faith operations produced by such cement carrier with respect to its operations prior to June 1, 1963, and continuously thereafter.

SEC 8. Section 1065.1 is added to said code, to read:

1065.1. Any certificate of public convenience and necessity issued to a cement carrier may be combined with one or more such certificates issued to another such carrier, or other such carriers so as to permit through service between any point which can lawfully be served under one such certificate and any point which can lawfully be served under such other certificate or certificates, when such certificates have come under common ownership pursuant to an order of the commission.

SEC. 9. Section 1066.1 is added to said code, to read:

1066.1. Joint through truckload rates on portland and similar cements may be established by and between any railroad and any cement carrier or highway common carrier having authority to transport such cements in truckload lots between any point or points which such cement carrier or highway common carrier is permitted to serve on the one hand, and any point or points served by any railroad joining in said joint through rates, on the other hand.

SEC. 10. Section 1067 of said code is amended to read:

1067. No petroleum irregular route carrier or cement carrier shall engage in any operation on any public highway in this State unless there is in force a certificate of public convenience and necessity issued by the commission, authorizing such operations.

SEC. 11. Section 1068.1 is added to said code, to read:

1068.1. The transportation of cement for compensation or hire as a business by means of a motor vehicle or motor vehicles loaded substantially to capacity with portland or similar cements over any public highway in this State is declared to be a highly specialized type of transportation. The provisions of this code relating thereto have been enacted for the limited purpose of providing necessary regulation for that specialized type of transportation only, and are not to be construed for any purpose as a precedent for the extension of such regulation to any other type of transportation not presently so restricted.

SEC. 12. Section 1073 of said code is amended to read:

1073. The commission may, upon its own motion, or upon application of any interested party, and after hearing, require any highway common carrier, cement carrier, or petroleum irregular route carrier to procure and maintain cargo insur-

ance in such amounts and upon such terms as the commission may determine.

SEC. 13. Section 1074 of said code is amended to read:

1074. Every highway common carrier, cement carrier and every petroleum irregular route carrier who engages subhaulers or leases equipment shall file with the commission a bond, the amount of which shall be determined by the commission but which shall be not less than two thousand dollars ($2,000), executed by a qualified surety insurer, subject to the approval of the commission, which bond shall secure the payment of the claims of subhaulers and lessors of the highway common carrier, cement carrier or petroleum irregular route carrier. The aggregate liability of the surety for all such claims shall, in no event, exceed the sum of such bond.

SEC. 14. Section 3502 of said code is amended to read:

3502. The use of the public highways for the transportation of property for compensation is a business affected with a public interest. It is the purpose of this chapter to preserve for the public the full benefit and use of public highways consistent with the needs of commerce without unnecessary congestion or wear and tear upon such highways; to secure to the people just and reasonable rates for transportation by carriers operating upon such highways; and to secure full and unrestricted flow of traffic by motor carriers over such highways which will adequately meet reasonable public demands by providing for the regulation of rates of all transportation agencies so that adequate and dependable service by all necessary transportation agencies shall be maintained and the full use of the highways preserved to the public. It is the further purpose of this chapter to eliminate, so far as reasonably possible, the excessive use of highways that has resulted from excessive crosshauling of portland and similar cements which has heretofore pertained, when they are hauled in a motor vehicle or motor vehicles loaded substantially to capacity with such commodity or commodities, since these commodities move in great volume in vehicles that are loaded substantially to the permissible gross weight limits provided by the Vehicle Code.

SEC. 15. Section 3513 of said code is amended to read:

3513. "Highway common carrier" means every highway carrier operating as a common carrier, other than a petroleum irregular route carrier or a cement carrier, subject to regulation as such by the commission under Part 1 of Division 1.

SEC. 16. Section 3515 of said code is amended to read:

3515. "Highway permit carrier" means every highway carrier other than a cement carrier, a highway common carrier or a petroleum irregular route carrier.

SEC. 17. Section 3517 of said code is amended to read:

3517. "Highway contract carrier" means every highway carrier other than (a) a highway common carrier, (b) a radial highway common carrier, (c) a petroleum contract carrier, (d) a petroleum irregular route carrier, (e) a cement contract carrier, or (f) a cement carrier.

SEC. 18. Section 3519 is added to said code, to read:

3519. "Cement contract carrier" means every corporation or person operating within this State engaged, other than as a common carrier, for compensation in the ownership, control, operation or management of any motor vehicle loaded substantially to capacity with and transporting portland or similar cements in bulk or in packages over any public highway in this State.

SEC. 19. Section 3541 of said code is amended to read:

3541. No highway carrier other than a highway common carrier, cement carrier or petroleum irregular route carrier shall engage in the business of the transportation of property for compensation by motor vehicle over any public highway in this State, except in accordance with the provisions of this chapter which is enacted under the power of the State to regulate the use of public highways.

SEC. 20. Section 3542.1 is added to said code, to read:

3542.1. No person or corporation shall engage or be permitted by the commission to engage in the transportation of portland or similar cements on any public highway, both as a cement carrier and as a cement contract carrier.

SEC. 21. Section 3546 of said code is amended to read:

3546. The commission may regulate the safety of operations of each cement contract carrier and petroleum contract carrier.

SEC. 22. Section 3575 of said code is amended to read:

3575 Every highway contract carrier, cement contract carrier and every radial highway common carrier who engages subhaulers or leases equipment shall file with the commission a bond, the amount of which shall be determined by the commission but which shall be not less than two thousand dollars ($2,000), executed by a qualified surety insurer, subject to the approval of the commission, which bond shall secure the payment of the claims of subhaulers and lessors of the highway carrier; provided, however, that the aggregate liability of the surety for all such claims shall, in no event, exceed the sum of such bond.

SEC. 23. Article 4.5 (commencing with Section 3620) is added to Chapter 1 of Division 2 of said code, to read:

Article 4.5. Cement Contract Carrier Permits

3620. The transportation of portland and similar cements in any motor vehicle or motor vehicles over any public highway in this State for compensation by means of a motor vehicle or motor vehicles loaded substantially to capacity with portland or similar cements is declared to be a highly specialized type of transportation. This article is enacted for the limited purpose of providing necessary regulation for this specialized type of transportation, only, and is not to be construed for any purpose as a precedent for the extension of such regulation to any other type of transportation.

3621. No cement contract carrier shall engage in the business of the transportation of portland or similar cements for compensation by motor vehicle over any public highway in this State by means of a motor vehicle or motor vehicles loaded substantially to capacity with portland or similar cements, whether in bulk or in packages, unless there is in force a permit issued by the commission authorizing such operations.

3622. Application for permits to operate as a cement contract carrier shall be in writing, verified under oath, and shall be in such form, contain such information, and be accompanied by proof of service upon such interested parties as the commission requires. Each application for a permit to operate as a cement contract carrier made under the provisions of this article shall be accompanied by a fee of one hundred fifty dollars ($150).

3623. Before a permit to operate as a cement contract carrier is issued the commission shall require the applicant to establish ability and reasonable financial responsibility to initiate the proposed operation. If the commission finds that the applicant possesses ability and financial responsibility sufficient to initiate the proposed operations as a cement contract carrier, and that the privilege sought will not endanger the safety of the public or interfere with the public use of the public highways or impair the condition or maintenance of them, directly or indirectly, or impair the service of previously certificated cement carriers or permitted cement contract carriers, and further finds that the applicant is a fit and proper person to receive such permit to operate as a cement contract carrier, then a permit may be granted upon such limitations, terms and conditions as the commission prescribes; otherwise it shall refuse to issue the permit requested. If the applicant was operating in good faith as a cement contract carrier within one year prior to June 1, 1963, and continuously thereafter, the commission shall grant a permit to such applicant to operate as a cement contract carrier as to the counties to and within which it was actually transporting cement as a cement contract carrier in good faith within one year prior to June 1, 1963, and continuously thereafter, provided such cement contract carrier applies to the commission for such permit prior to December 31, 1963, and submits adequate proof of such prior operations. The delivery of one or more loads of cement either in bulk or in packages to a point in a particular county shall constitute adequate proof of such prior operations and shall entitle the applicant to authority to serve all points in said county from any and all points of origin.

3624. A permit to operate as a cement contract carrier shall remain in effect until suspended or terminated by the commission, except that any such permit not exercised for a period of six (6) months shall lapse and terminate.

3625. No permit to operate as a cement contract carrier, pursuant to this article, shall be sold, leased, assigned or otherwise transferred or encumbered by the holder without first

having secured authorization therefor from the commission. Any sale, assignment, transfer or encumbrance of any permit to operate as a cement contract carrier made otherwise than in accordance with the order of the commission is void.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 202 of the Public Utilities Code is amended to read:

202. Neither this part nor any provision thereof, except when specifically so stated, shall apply to commerce with foreign nations or to interstate commerce, except insofar as such application is permitted under the Constitution and laws of the United States; but with reference to passenger stage corporations operating in interstate commerce between any point within this State and any point in any other state or in any foreign nation, the commission may prescribe such reasonable, uniform and nondiscriminatory rules in the interest and aid of public health, security, convenience, and general welfare as, in its opinion, are required by public convenience and necessity.

SEC. 2. Section 768 of said code is amended to read:

768. If such care was paid for, in part, out of state funds, the State and county shall share in the aid grant payable under this section and Section 4737 in the same ratio as they share in the payment of aid grants under Chapter 1 (commencing with Section 2000) of Division 3 of this code, and the State's share is hereby appropriated and shall be paid to the county in the same manner as is provided for old age assistance grants.

The income placed in his savings shall be considered personal property for the purpose of this chapter

The county welfare department, for good and sufficient reason, may extend the period during which a recipient may report a purchase under this section. [Approved by Governor July 23, 1963 Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 1451.5 is added to the Health and Safety Code, to read:

1451.5. The board may authorize payment for care provided, on or after January 1, 1962, to an indigent resident of the county in a hospital or medical facility located in another state, where that care is provided in an emergency or can be secured at a lesser expense than would be the case were the person to be transported to a comparable facility in this State.

SEC. 2. Section 29607 of the Government Code is amended to read:

29607. When authorized by the board of supervisors, expenses incurred by county authorities pursuant to Section 1451.5 of the Health and Safety Code or for temporary, emergency, or extended care or treatment of indigent patients of the county by local hospitals or any hospital maintained and operated by any county, the State, any state college, university, or other institution supported in whole or in part by taxation or exempted in whole or in part from taxation are county charges.

SEC. 3. Section 2020.002 of the Welfare and Institutions Code is amended to read:

2020.002. Any recipient whose need exceeds the amount of the maximum grant payable under Section 2020 shall be entitled to receive an additional amount as necessary to meet his need but in no event shall the sum of his grant and income exceed one hundred seventy dollars ($170) per month plus any adjustment reflecting cost-of-living changes subsequent to January 1, 1962.

The additional grant provided by this section is to provide additional aid to persons with needs arising because of circumstances and situations not common to all recipients and not included or adequately covered by the allowance provided by Section 2020.

In determining the amount of grant payable under this section no consideration shall be given to voluntary contributions or grants from other public sources, private agencies, friends or relatives when such contributions or grants meet the following conditions:

1. The service to be provided is designated by the State Social Welfare Board and is not covered by an assistance allowance under this chapter, and

2. The contribution or grant would not be available for expenditure by or in behalf of the recipient unless it is used in accordance with the conditions imposed by the donor.

SEC. 4. Section 3084.01 of said code is amended to read:

3084.01. Any recipient whose need exceeds the amount of the maximum grant payable under Section 3084 of this code shall be entitled to receive an additional amount as necessary to meet his need but in no event shall the sum of his grant and income exceed one hundred seventy dollars ($170) per month plus any adjustment reflecting cost-of-living changes subsequent to January 1, 1960.

In determining the amount of grant payable under this section no consideration shall be given to voluntary contributions or grants from other public sources, private agencies, friends or relatives when such contributions or grants meet the following conditions:

1. The service to be provided is designated by the State Social Welfare Board and is not covered by an assistance allowance under this chapter, and

2. The contribution or grant would not be available for expenditure by or in behalf of the recipient unless it is used in accordance with the conditions imposed by the donor.

SEC. 5. Section 3447 of said code is amended to read:

3447. Aid shall not be denied under the provisions of this chapter to any person who owns, in addition to property authorized by Chapter 6 (commencing with Section 450) of Division 1 of this code, personal or real property, or both, the county assessed valuation of which, less all encumbrances thereon of record, does not exceed five thousand dollars ($5,000). Aid shall not be denied under the provisions of this chapter to any blind person with a plan for achieving self-support on the ground that he owns personal property in addition to that authorized in Chapter 6 (commencing with Section 450) of Division 1 of this code; provided, that such additional property is necessary to implement his plan for achieving self-support; and provided that the county-assessed valuation of such additional personal property does not exceed five thousand dollars ($5,000).

The term "personal property," insofar as applicants or recipients of aid under this chapter are concerned, shall not include a policy or policies of life insurance on the life of the applicant or recipient which has or have been in effect at least five years prior to the date of application, if the value of the

policy or policies at maturity is in an amount not exceeding one thousand dollars ($1,000).

No life insurance policy shall be valued at more than its present surrender value to the applicant or recipient. Premiums paid on life insurance policies shall not be deemed income or resources of the applicant or recipient, whether or not the person by whom the premiums are paid is a responsible relative of the applicant or recipient, and no deduction therefor shall be made from the amount of aid granted to the recipient.

Funds for readers, or an educational scholarship, or both, which have been awarded by a high school, college, or university to any recipient of aid under this chapter while he is regularly attending any public school in this State, the University of California, or any other institution of higher learning in this State, shall not be deemed property, income, or resource of the recipient for any purpose and no deduction therefor shall be made from the recipient's amount of aid.

SEC. 6. Section 3472.01 of said code is amended to read:

3472.01. Any recipient whose need exceeds the amount of the maximum grant payable under Section 3472 of this code shall be entitled to receive an additional amount as necessary to meet his need but in no event shall the sum of his grant and income exceed one hundred seventy dollars ($170) per month plus any adjustment reflecting cost-of-living changes subsequent to January 1, 1960

The additional amount granted by this section is intended to provide additional aid to persons with needs arising because of circumstances and situations not common to all recipients, which are not included or not adequately covered by the allowance provided by Section 3472.

In determining the amount of grant payable under this section no consideration shall be given to voluntary contributions or grants from other public sources, private agencies, friends or relatives when such contributions or grants meet the following conditions:

1. The service to be provided is designated by the State Social Welfare Board and is not covered by an assistance allowance under this chapter, and

2. The contribution or grant would not be available for expenditure by or in behalf of the recipient unless it is used in accordance with the conditions imposed by the donor.

4726. The department may provide, by regulation, for the care and treatment, or both, of a recipient, pursuant to the provisions of Part 3 (commencing with Section 4500) or this part, by or in facilities in another state in those cases where out-of-state care or treatment is rendered on an emergency basis or is otherwise in the best interests of the recipient under the circumstances.

SEC 8. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety

within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Section 3447 of the Welfare and Institutions Code was amended by the Legislature at the current session to revise the property qualifications for recipients of aid to the potentially self-supporting blind, and the measure which effected the change (A.B. 58) contained an urgency clause. By inadvertence a change was included in the section that could lead to an interpretation entirely inconsistent with the Legislature's intention. This act will correct the language and clarify the legislative intent, and in order that it may operate to prevent any confusion in the administration of the section, it is essential that this act take effect immediately.

CHAPTER 2168

An act to amend Section 3447 of, and to add Sections 3047.5, 3447.2, 3447.3, and 3447.4 to, the Welfare and Institutions Code, relating to aid to the blind.

Aid shall not be denied under the provisions of this chapter to any blind person with a plan for achieving self-support on the ground that he owns personal property in addition to that authorized in Chapter 6 (commencing with Section 450) of Division 1 of this code; provided, that such additional property is necessary to implement his plan for achieving self-support; and provided, that the county-assessed valuation of such additional personal property does not exceed five thousand dollars ($5,000).

The property of the applicant shall not be considered in determining his eligibility for aid.

This section shall become operative if and when amendments to the federal statutes or rules and regulations of the Federal Security Agency take effect permitting this State to give effect to this section without thereby rendering this State ineligible to receive federal grants-in-aid for assistance or aid to the blind of this State, and to the extent to which those statutes or rules and regulations permit it to be given effect.

CHAPTER 2169

An act to amend Section 3447, and to repeal Sections 3430 and 3431, of and to add Sections 3447.2, 3447.3, and 3447.4 to, the Welfare and Institutions Code, relating to aid to the blind.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

SEC. 4. Section 3447.2 is added to said code, to read:

3447.2. The term "personal property" shall not include a policy or policies of life insurance on the life of the applicant or recipient which has or have been in effect at least five years prior to the date of application, if the value of the policy or policies at maturity is in an amount not exceeding one thousand dollars ($1,000).

Shelter contributions may be made only in multiples of twenty-five dollars ($25) per month, but not to exceed in any one year, 10 percent of his compensation composed of payments in cash, made to him by his employer, and upon which his other contributions were determined in part, for that year.

14155. If a person whose contributions have been returned re-enters the system he may elect to redeposit the contributions, excluding shelter contributions, returned to him after he has rendered two years of creditable service subsequent to his re-entry. Such redeposit shall include interest at the rates currently being used from time to time to credit interest on contributions to the Retirement Annuity Fund. For time prior to July 1, 1944, the interest shall be at 2½ percent compounded annually. (a) The Permanent Fund contributions, without interest, standing to the credit of his individual account, as having been made after July 1, 1935.

(b) The accumulated contributions standing to the credit of his individual account in the Retirement Annuity Fund.

From the amount determined under the sentence next preceding, there shall be deducted an amount equal to that portion of the benefit payable on account of said death by a local retirement system or the State Employees' Retirement System, which is provided from contributions of the employer, and is in addition to the portion of the benefit payable by said systems which is made up of the accumulated contributions of the member, and independently of any optional election made by said person at the time of his retirement, under which he received a reduced retirement allowance and a benefit was provided at his death.

(e) The accumulated shelter contributions standing to the credit of his account.

SEC. 11. Section 14355 of said code is amended to read:

14355. Upon retirement for service, a retired member shall receive a retirement allowance which shall consist of:

(a) A monthly retirement salary derived from the Permanent Fund, equal to the fraction of an amount which bears the same ratio to fifty dollars ($50) as the number of years of service credited, not to exceed 30 years, bears to 30 years, set

forth in Section 14359, opposite his age at retirement, taken to the preceding completed quarter year, in the column applicable to his sex. The retirement salary shall be subject to the deductions provided in Section 14106, if the member is not credited at the time of retirement with the total Permanent Fund contributions required of each member.

(b) A retirement annuity derived from the Retirement Annuity Fund based upon the number of years of service credited to him, less any service for which he is entitled to receive retirement benefits under a local retirement system, computed pursuant to Section 14359.

(c) An annuity which shall be the actuarial equivalent of the accumulated annuity deposits standing to the credit of his individual account at the time of his retirement.

Such retirement allowance, prior to modification under options in Section 14363, and exclusive of the annuity derived from accumulated annuity deposits, shall be at least an amount, by increase in the annuity under the Retirement Annuity Fund, based on service rendered prior to July 1, 1944, which, when added to the retirement allowance, prior to optional modification, the person is entitled to receive from a local retirement system, shall equal the retirement allowance prior to optional modification, to which the person would be entitled under this system if he were not entitled to any allowance from a local retirement system, minus one-half the retirement annuity on account of service rendered after June 30, 1944, to which the person would be so entitled, but for which he did not make annuity contributions. However, no amount shall be paid under this paragraph to any retired person who has the right to receive a retirement allowance from a local retirement system upon his subsequent attainment of a minimum age after the retired person attains that minimum age unless he affirmatively exercises his right to receive the retirement allowance from the local retirement system, and if such a retired person does so exercise his right, only if some amount is then payable under this paragraph.

(d) A "shelter annuity" which shall be the actuarial equivalent of the accumulated shelter contributions standing to the credit of his individual account at the time of his retirement.

SEC. 12. Section 14356 of said code is amended to read:

14356. The retirement allowance in Section 14355, exclusive of the annuities in subdivisions (c) and (d) of that section, but when added to the retirement allowance, prior to optional modification, the person is entitled to receive from a local retirement system, shall be, by increase in the annuity under the retirement annuity fund, at least seventy dollars ($70) per year, multiplied by the member's years of service, not to exceed forty (40); provided, the retired member is at least 60 years of age at the time of retirement. If retirement is at an age less than 60 years, the minimum retirement allowance under this section is an amount equal to a fraction of the minimum retirement allowance calculated under

the preceding sentence, said fraction being that set forth in Section 14359 opposite the member's age at retirement, taken to the preceding completed quarter-year, in the column applicable to the member's sex. For any member under retirement who re-enters membership in the retirement system and subsequently retires, the lesser age to be taken to the preceding quarter year, in the next preceding sentence, for calculating the minimum retirement allowance under this section, shall be determined by deducting from the member's age at the subsequent retirement, the aggregate time during which the member was under retirement prior to re-entry into membership in the system; provided, however, that the fraction to be taken at such adjusted lesser age shall not be less than nine-tenths if the subsequent and prior retirements were for disability. No retirement allowance shall be increased under this section to exceed, annually, 75 percent of the final compensation of the retired member.

SEC. 13. Section 14366 of said code is amended to read:

14366. Upon the death before retirement of a member who is qualified for service retirement under subsection (a) of Section 14301, and on account of whose death the benefit provided by Section 14251 is otherwise payable, or who could have qualified for service retirement under subsection (b) of Section 14301 at the time of his death, a monthly allowance equal to one-half of the monthly retirement allowance prior to modification under options in Section 14363, which the member would have been entitled to receive if he had retired for service on the date of his death, shall be payable:

(a) To the member's widow, or to the member's widower who was receiving at least one-half of his support from the member at the time of the member's death, and with respect to both widow and widower, who was married to such member prior to the occurrence of the injury or onset of the illness which resulted in death; provided, such widow or widower does not qualify for an allowance under Section 14365; or

(b) If there is no qualifying surviving spouse, or if such spouse dies or remarries, to unmarried children, including stepchildren, of the member, who are under 18 years of age.

The allowances payable under this section shall be in lieu of the death benefit provided by Section 14251 or by Section 14151, except for the accumulated annuity deposits and accumulated shelter contributions included therein, but a person qualifying for the allowance or such person's guardian may elect, before the first payment on account of it, to receive such death benefit in lieu of the allowance. The member's accumulated annuity deposits and accumulated shelter contributions shall be paid to the person qualifying for the allowance, and the remainder of the accumulated contributions of the member shall be applied toward providing the allowance, and the balance not so provided shall be payable from state contributions.

If the guardian of one or more children otherwise eligible to receive the allowance elects that such death benefit be paid in lieu thereof, there shall be paid to each such child an amount equal to what said child would have received as an allowance hereunder had the election not been made (disregarding interest and the probability of death or marriage), and under the assumption that each monthly allowance would have been divided equally among such unmarried children then under age 18, said amounts to be reduced proportionally if their total would otherwise be in excess of the amount of such death benefit. Any balance of such death benefit remaining after such payments have been made shall be paid to the surviving spouse of the member, or if none, to the surviving children of the member, share and share alike.

SEC. 14. Section 14369 of said code is amended to read:

14369. Upon retirement for disability, a member shall receive a retirement allowance which shall consist of:

(a) A retirement salary derived from the Permanent Fund, payable monthly, equal to the retirement salary calculated under subdivision (a) of Section 14355 if the member has attained the age 60 years at the effective date of his retirement; or if the member has not attained such age, a retirement salary payable monthly equal to ninety percent (90%) of an amount which bears the same ratio to fifty dollars ($50) as the number of years of service credited, not to exceed thirty (30) years, bears to 30 years. The retirement salary shall be subject to the deductions provided in Section 14106, if the member is not credited at the time of retirement with the total Permanent Fund contributions required of each member.

(b) A disability annuity, derived from the Retirement Annuity Fund, computed pursuant to Section 14370.

(c) An annuity which shall be the actuarial equivalent of the accumulated annuity deposits standing to the credit of his individual account at the time of his retirement.

Such retirement allowance, prior to modification under options in Section 14363, and exclusive of the annuity derived from accumulated annuity deposits, shall be at least an amount, by increase in the annuity under the Retirement Annuity Fund, which, when added to the retirement allowance, prior to optional modification, the person is entitled to receive from a local retirement system, shall equal the retirement allowance, prior to optional modification, to which the person would be entitled under this system if he were not entitled to any allowance from a local retirement system, minus one-half the retirement annuity on account of service rendered after June 30, 1944, to which the person would be so entitled, but for which he did not make annuity contributions. However, no amount shall be paid under this paragraph to any retired person who has the right to receive a retirement allowance from a local retirement system upon his subsequent attainment of a minimum age after the retired person attains that minimum age unless he affirmatively exercises his right to receive

the retirement allowance from the local retirement system, and if such a retired person does so exercise his right, only if some amount is then payable under this paragraph.

(d) A shelter annuity which shall be the actuarial equivalent of the accumulated shelter contributions standing to the credit of his individual account at the time of his retirement.

CHAPTER 2171

An act to add Section 14351.1 to, and to amend Section 14356 of, the Education Code, relating to the State Teachers' Retirement System, and making an appropriation therefor.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 14351.1 is added to the Education Code, to read:

14351.1. If the amount of any retirement allowance, before reduction under an option described in Section 14363 and exclusive of any annuity under the annuity deposit fund, payable to a person whose effective date of retirement is prior to January 1, 1964, is less than the amount it would have been had the provisions of Section 14356 as they exist on January 1, 1964, been in effect on July 1, 1956, or later effective date of his retirement, but not subject to the limit of 75 percent of final compensation if this effective date of retirement was prior to July 1, 1956, then his retirement allowance before reduction under such an option, shall be increased to said amount. The amount of increase for such person, shall be added to the amount of his monthly retirement allowance which was payable on December 31, 1963, and the increased allowance shall be payable for time commencing on January 1, 1964; provided, however, that if such person had elected either Option 2 or 3 described in Section 14363, and the beneficiary nominated thereunder is living on January 1, 1964, then the amount of increase, before being so added, shall be reduced under such option on the basis of ages on January 1, 1964, and mortality tables and interest rate in use under the system on January 1, 1964.

This section does not authorize any decrease in any retirement allowance, nor does this section give any retired member, or his successors in interest, any claim against the State for any increase in any retirement allowance paid or payable for time prior to January 1, 1964.

SEC. 2. Section 14356 of said code is amended to read:

14356. The retirement allowance in Section 14355, exclusive of the annuity in subdivision (c) of that section, but when added to the retirement allowance, prior to optional modification, the person is entitled to receive from a local retirement

system, shall be, by increase in the annuity under the retirement annuity fund, at least eighty dollars ($80) per year, multiplied by the member's years of service, not to exceed forty (40); provided, the retired member is at least 60 years of age at the time of retirement. If retirement is at an age less than 60 years, the minimum retirement allowance under this section is an amount equal to a fraction of the minimum retirement allowance calculated under the preceding sentence, said fraction being the fraction set forth in Section 14359 opposite the member's age at retirement, taken to the preceding completed quarter year, in the column applicable to the member's sex or as it may have been adjusted by the board in accordance with the provisions of said section, provided that if the fraction so taken is not less than .90, it shall also apply if retirement is for disability. For any member under retirement who re-enters membership in the retirement system and subsequently retires, the lesser age to be taken to the preceding quarter year, in the next preceding sentence, for calculating the minimum retirement allowance under this section, shall be determined by deducting from the member's age at the subsequent retirement, the aggregate time during which the member was under retirement prior to re-entry into membership in the system; provided, however, that the fraction to be taken at such adjusted lesser age shall not be less than nine-tenths if the subsequent and prior retirements were for disability. No retirement allowance shall be increased under this section to exceed, annually, 75 percent of the final compensation of the retired member.

SEC. 3. For the purposes of this act during the 1963-64 fiscal year there is appropriated nine hundred thirty-nine thousand dollars ($939,000) from the General Fund for transfer by the State Controller, upon order of the Department of Finance, to the Teachers' Retirement Fund for the State Teachers' Retirement System.

SEC. 4. This act shall become operative on January 1, 1964.

CHAPTER 2172

An act to amend Section 1090 of the Government Code, relating to public officers and employees.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 1090 of the Government Code is amended to read:

1090. Members of the Legislature, state, county, special district, judicial district, and city officers or employees shall not be financially interested in any contract made by them in

their official capacity, or by any body or board of which they are members. Nor shall state, county, special district, judicial district, and city officers or employees be purchasers at any sale or vendors at any purchase made by them in their official capacity.

CHAPTER 2173

An act to add Section 444 to, and to amend Section 425 of, the Welfare and Institutions Code, relating to public assistance.

[Approved by Governor July 23, 1963. Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 425 of the Welfare and Institutions Code is amended to read:

425. Unless otherwise stated, the provisions of this chapter shall apply to any public assistance program established by this code for which federal funds are received by this State, and shall also apply to the aid to the potentially self-supporting blind program established under Chapter 3 (commencing with Section 3400) of Part 1 of Division 5 of this code. The terms "applicant" and "recipient," as used in this chapter, refer to any person applying for or receiving aid under any such public assistance program.

Sections 433 through 437 and Section 444 do not apply to medical assistance for the aged as provided for in Chapter 1 (commencing with Section 4700) of Part 4 of Division 5 of this code.

SEC. 1.5. Section 444 is added to said code, to read:

444. In determining the amount of grants payable under a public assistance program, no consideration shall be given to voluntary contributions or grants from other public sources, private agencies, friends or relatives when such contributions or grants meet the following conditions:

1. The service to be provided is designated by the State Social Welfare Board and is not covered by an assistance allowance under the particular program, and

2. The contribution or grant would not be available for expenditure by or in behalf of the recipient unless it is used in accordance with the conditions imposed by the donor.

CHAPTER 2174

An act to amend Section 9359.1 and to amend and renumber Section 9306.8 as added by Assembly Bill No. 577 at the 1963 Regular Session of the Legislature, of the Government Code, relating to members of the Legislators' Retirement System.

[Approved by Governor July 23, 1963 Filed with Secretary of State July 25, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 9359.1 of the Government Code is amended to read:

9359.1. (a) The retirement allowance for a member all of whose credited service was rendered as a Member of the Senate or Assembly except as provided in subdivision (d) is an annual amount equal to five percent (5%) of the compensation payable, at the time payments of the allowance fall due, to incumbent Members of the Senate or Assembly, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed fifteen (15) years. In no event shall any retirement allowance payable under this chapter to any such member exceed the compensation payable to Members of the Legislature at the time the payment of the allowance is made, except that the retirement allowance of any such member who serves more than 15 years shall be increased by an amount equal to 3 percent of the compensation payable, at the time payment of the allowance falls due, to incumbent members of the Senate or Assembly for each year or fraction of a year in excess of 15 years.

(b) The retirement allowance for a member all of whose credited service was rendered as an elective officer of the State whose office is provided for by the Constitution other than a judge (and other than a Member of the Senate or Assembly) is an annual amount equal to five percent (5%) of the compensation payable at the time payments of the allowance fall due, to the officer holding the office which the retired member last held prior to his retirement, or five percent (5%) of the highest compensation fixed for such office during the member's last term or any subsequent term prior to his retirement, whichever is greater, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed eight (8) years.

(c) The retirement allowance for a member part of whose credited service was rendered as a Member of the Senate or Assembly and part of whose credited service was rendered as an elective officer of the State whose office is provided for by the Constitution, other than a judge (and other than a Member of the Senate or Assembly) is an annual amount equal to five percent (5%) of all the compensation, at the time payment

of the allowance falls due, to the officer holding the highest salaried office which the member held at any time during his service prior to retirement, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed eight (8) years. If, however, the member would be entitled to receive a greater allowance under subdivision (a), (b), or (d) of this section if all of his credited service had been rendered as a Member of the Senate or Assembly or as an elective officer of the State whose office is provided for by the Constitution other than a judge (and other than a Member of the Senate or Assembly), then all of his credited service shall be deemed to have been rendered as a Member of the Senate or Assembly or as such other elective officer, and he shall receive a retirement allowance computed under subdivision (a), (b), or (d) of this section, whichever is greater.

(d) The retirement allowance for a member, all of whose service was rendered as a Member of the Senate or Assembly, who is the surviving widow of a deceased Member of the Senate or Assembly and who becomes the immediate successor in office of such deceased Member of the Senate or Assembly is an annual amount equal to five percent (5%) of the compensation payable, at the time the payments of the allowance fall due, to incumbent Members of the Senate or Assembly, multiplied by the number of years of service with which the member is entitled to be credited at the time of retirement plus the number of years of service as a Member of the Senate or Assembly rendered by the member's deceased husband, not to exceed fifteen (15) years. In no event shall any retirement allowance payable under this chapter to any such member exceed the compensation payable to Members of the Legislature at the time the payment of the allowance is made, except that the retirement allowance of any such member, whose total service creditable under this subdivision is in excess of fifteen (15) years, shall be increased by an amount equal to 2 percent of the compensation payable, at the time payment of the allowance falls due, to incumbent Members of the Senate or Assembly for each year or fraction of a year in excess of fifteen (15) years This same computation of total service creditable shall be used as a basis in determining eligibility for retirement, under Sections 9359 and 9359.16, of a member described in this subdivision. Any member to whom this subdivision applies shall redeposit an amount equal to the contributions which were required to be contributed by her deceased spouse while he was a member of the system for his service, computed on the basis of the salary and rate of contribution in effect at the time such service was rendered, in the Legislators' Retirement Fund on account of the service of her deceased husband in order to use such service for the purposes of this section and Sections 9359 and 9359.16.

SEC. 2. Section 9360.8, as added to said code by Assembly Bill No. 577 at the 1963 Regular Session of the Legislature, is amended and renumbered to read:

9360.9. Notwithstanding any other provisions of this chapter the provisions of this section shall be applicable to all allowances granted by this chapter commencing with each installment paid or payable on or after January 1, 1964

On or before January 1, 1964, the board shall adjust the amount of the allowances payable during the 1964 calendar year to reflect any increase in cost of living occurring between the 1963 calendar year and the 1955 calendar year, inclusive, and any increase resulting from such adjustment shall be payable commencing with each installment of allowances paid or payable on or after January 1, 1964. On or before January 15, 1965, and, on or before January 15 of each year thereafter, the amount of the allowances provided by this chapter shall be adjusted by the board to reflect any increase in cost of living occurring after January 1 of the immediately preceding calendar year. The average of the separate indices of the cost of living for Los Angeles and San Francisco, as published by the United States Bureau of Labor Statistics shall be used as the basis for determining the changes in the cost of living. The cost of living increase shall equal or exceed 1 percent before any adjustment is made in the allowance. The calendar year 1954 shall be used as the base year in computing any annual adjustment. The annual adjustment made on or before January 15, 1965 and made on or before January 15 of each calendar year thereafter shall correspond to the average annual change in the calendar year immediately preceding the year during which the adjustment shall be effective. The adjustment made on or before January 1, 1964, shall correspond to the total of the average annual changes in each calendar year from the 1955 calendar year to the 1963 calendar year, inclusive.

The adjustment provided by this section shall be made only if it operates to effect an increase over the allowance payable for the calendar year immediately preceding.

459. If the county clerk maintains tabulating cards containing the information set forth in the affidavits of registration of voters, or sets forth that information on electronic data-processing tape, he shall provide, not less than 30 days prior to the general election, one set of those cards or a copy of the tape, applicable to voters of a political party, to the county central committee of that party for all voters allowed to participate in the subsequent general election, if the committee has requested the same at least six months prior to the

close of registration for the general election. The cards or tape shall be provided without charge.

The county clerk, upon demand of the chairman of a county central committee, and under the conditions set forth in the preceding paragraph, shall sell to the committee a set of cards or a copy of the tape applicable to voters of a political party other than the party represented by the committee for all voters prior to the subsequent general election. The charge made for the cards or tape shall be an amount sufficient to reimburse the county for the expense incurred in preparing and furnishing the cards or tape.

This section shall apply only to counties with a population of 5,000,000 or more.

CHAPTER 2180

An act to amend Sections 20004 and 20007 of, and to add Section 20006.5 to, the Education Code, relating to the Junior College Tax Relief Act, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 26, 1963. Filed with Secretary of State July 26, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 20004 of the Education Code is amended to read:

20004. A junior college district eligible for a tax relief grant may file with the State Department of Education one or more applications for a grant before January 1, 1965. The form of the application shall be prescribed by the Superintendent of Public Instruction. The Superintendent of Public Instruction shall examine and approve by March 1, 1965 all applications of junior college districts eligible for a tax relief grant under this chapter.

SEC. 2. Section 20006.5 is added to said code, to read:

20006.5. Notwithstanding any provision of this chapter to the contrary, an entitlement computed for a junior college district under Section 20006 may be transferred upon request of that district by the Superintendent of Public Instruction to another district which is either:

(a) A high school district the boundaries of which are coterminous with those of a junior college district which was effective for all purposes on July 1, 1961, provided that all of the following factors exist:

(1) Prior to the said date the high school district maintained a junior college.

(2) The high school district has bonds outstanding which were issued for junior college purposes and the proceeds of which have been expended by the high school district for such junior college purposes.

(3) The bonds have not been assumed by the junior college district.

(b) A junior college district which was formed subsequent to the computation of entitlements under Section 20006 and which includes all of the territory of the district requesting the transfer.

Subject to the particular conditions set forth in this section the benefits of this chapter shall apply in all respects to a high school district which no longer maintains a junior college at the time of any transfer of an entitlement or any application for an entitlement by any such high school district prior to the date prescribed by Section 20004.

SEC. 3. Section 20007 of said code is amended to read:

20007. Upon approving an application for a tax relief grant, the Superintendent of Public Instruction shall certify to the State Controller the amount of the tax relief grant approved for the junior college pursuant to this chapter. The State Controller shall thereupon draw his warrant on the State Treasurer in favor of the county treasurer of the county having jurisdiction over the district in accordance with the terms of the approved application. The warrant shall be paid from the General Fund in the State Treasury. All money received by the treasurer of any county pursuant to this section shall be immediately credited by the county treasurer to the interest and sinking fund, the special reserve fund, or the general fund of the junior college district or the high school district, whichever fund the Superintendent of Public Instruction shall specify in approving the application.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Certain junior college districts whose architectural plans for future construction are not quite complete are threatened with loss of their tax relief grant unless the time for approval of their applications is extended. Extension of the time would continue the availability of the relief until the districts' amended applications could be filed and approved. It is especially important also, to extend the time for approval of applications to provide relief for high school districts which have been operating junior colleges and have incurred bonded indebtedness for those purposes which have not been assumed by districts which have assumed the junior college operations. It is therefore necessary that this act take effect immediately.

CHAPTER 2181

SECTION 1. Section 5703.5 is added to the Labor Code, to read:

5703.5. The commission may at any time after an application is filed and prior to the expiration of its jurisdiction, upon the agreement of a party to pay the cost, direct the injured employee to be examined by a doctor selected by the commission or agreed upon by the parties to report upon any medical question pertinent to any matter then at issue before the commission.

PROPOSITION G

certain officers and employees of the Parking Authority of the City and County of San Francisco.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held November 6, 1962, a proposal to amend the Charter of said city and county by adding Section 158.4 to read as follows:

Section 158.4. Officers and employees of the Parking Authority of the city and county shall become members of the San Francisco City and County Employees' Retirement System under Section 165.2 on the effective date of this section, hereby declared to be the first day of the month next following its ratification by the Legislature, and thereupon shall be subject to all of the conditions applying to other members under that section inclusive of the provisions of Section 165.6 of the charter, except as herein otherwise provided; provided, however, that Members of such Authority are excluded from the San Francisco City and County Employees' Retirement System.

Service rendered to the said Parking Authority by persons prior to becoming members under this section on the effective date of this section, shall be credited under the Retirement System to such persons, subject to the terms and conditions provided herein. Said service shall only be credited to each of such persons if he elect, by written notice, on a form provided by the retirement system and filed in the office of the retirement board of said system prior to July 1, 1963, to receive credit for said service, and to pay into the retirement fund, at times and in the manner fixed by the Retirement Board, the following amounts: (1) an amount equal to the normal contributions he would have contributed, had he been a member of the retirement system under section 165.2, during the period in which said service was rendered, on the basis of compensation paid to him by the city and county on account of said service, and (2) an amount equal to the interest which would have been credited to his account on account of such contributions from the date upon which they would have been made, to the date of payment of such contributions to the retirement system; provided that any balance remaining unpaid at his retirement shall become due and payable forthwith. If any such person shall not so elect to receive credit for said service and to pay such amounts of contributions and interest, or having so elected, subsequently does not pay into the retirement fund such amounts at times and in the manner herein provided, and prior to the effective date of his retirement, he shall enter as a new member without credit for any of said service, any moneys theretofore received from him as payment on such amounts together with accumulated interest thereon shall be refunded to him, and the rate of his contribution shall be the normal rate provided in subsection (H) of Section 165.2 at his age on the effective date of this section, otherwise his

rate of contribution shall be the rate provided in said subsection (H) of Section 165.2 based on his age at the earliest date in the period for which said service is credited. Benefits, not provided by such amounts, granted to said persons on account of said service rendered prior to the effective date of membership under this section, shall be provided by contributions of the city and county.

Notwithstanding the foregoing provisions, any such officer or employee not already a member of the system and who is such an officer or employee on the effective date of this amendment, shall not become a member of the retirement system, unless he elects to be a member of said system, in writing, on a form provided by the retirement system and filed in the office of the retirement system prior to July 1, 1963; if he does not so elect he shall not be a member of the retirement system, and shall not be prevented from continuing in such employment by reason of the provisions of this section.

Proposition H

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 6, 1962, a proposal to amend the charter of said city and county by amending Sections 135.1 and 142 thereof, so that the same shall read as follows:

Non-Certificated Employees, in Public School Cafeterias, With Certain Exceptions, Subject to Civil Service.

Section 135.1. All non-certificated public school cafeteria employees of the San Francisco Unified School District, except those holding part-time positions, which are within the limitations as set forth in Section 142 (2) of this charter shall be governed by and shall be subject to the civil service and other provisions of this charter.

Positions

Section 142. All positions in all departments and offices of the city and county, including positions created by laws of the State of California, where the compensation is paid by the city and county, shall be included in the classified civil service of the city and county, and shall be filled from lists of eligibles prepared by the civil service commission, excepting (1) positions in which attorneys and physicians are employed in their professional capacity to perform only duties included in their professions, but exclusive of any administrative or

executive positions for which such professional status constitutes only part of the qualifications therefor; (2) inmate help or student nurses, or part-time services, where the compensation including the value of any allowances in addition thereto does not exceed one hundred fifty dollars ($150) per month.

Provided that for each fiscal year following the fiscal year in which this amendment becomes effective, the civil service commission shall adjust the one hundred fifty dollar ($150) maximum for part-time service as provided herein, in accordance with the average percentage increase or decrease approved for all classifications under the provisions of section 151 and 151.1 of this charter, and such adjusted rate shall be included in the annual salary ordinance.

Provided further that such part-time positions shall not be exempted from being filled from appropriate lists of civil service eligibles, except upon the recommendation of the appointing officer, who shall set forth the schedule of operations showing that the operations involved require the service of employees for not more than seventy (70) hours per month and approval of the civil service commission, including a certification that such part-time positions cannot practically be filled from existing eligible lists.

Provided further that any occupant of a part-time position on the effective date of this amendment who is occupying such position under certification from the appropriate list of civil service eligibles shall be continued in such position subject to the conditions of his current appointment.

These provisions shall not be used to split or divide any position into two or more units for the purpose of evading the provisions of this section.

(3) Persons employed in positions outside the city and county upon construction work being performed by the city and county when such positions are exempted from said classified civil service by an order of the civil service commission; and (4) persons employed in positions in any department for expert professional temporary services, and when such positions are exempted from said classified civil service for a specified period of said temporary service, by order of the civil service commission; and (5) such positions as, by other provisions in this charter, are specifically exempted from, or where the appointment is designated as exclusive of, the civil service provisions of this charter.

The civil service rights, acquired by persons under the provisions of the charter superseded by this charter, shall continue under this charter.

Where existing positions that have heretofore been exempt from civil service examinations are now made subject to examination by this charter, the incumbents of such positions who have held such positions for a period of one year continuously next preceding the time that this charter shall go into effect, shall be continued in their positions as if appointed

thereto after examination and certification from a list of eligibles and shall be governed thereafter by the provisions of this charter, provided, however, the provisions of this paragraph shall not apply to positions heretofore defined and classified by the civil service commission as "institutional help."

Any person holding a salaried office under the city and county, whether by election or appointment, who shall, during his term of office, hold or retain any other salaried office under the government of the United States, or of this state, or who shall hold any other salaried office connected with the government of the city and county, or who shall become a member of the legislature, shall be deemed to have thereby vacated the office held by him under the city and county.

An inspector or assistant inspector guilty of any offense or violation of the rules and regulations of the police department shall be subject to punishment as provided in section 155 of this charter; provided, however, that in addition to the punishments set forth in section 155, an inspector may be demoted to his civil service rank for any offense or violation set forth in said section and after trial and hearing before the police commission as set forth therein. The chief of police, in addition to the inspectors above provided for, shall detail any member of the department to serve as inspector of school traffic patrols who shall have rank and pay of inspector, subject to the provisions of this section.

The compensation for these ranks shall be determined as provided in section 35.5.1 and section 35.5 2 of this charter.

In determining years of service necessary for a police officer, woman protective officer and police patrol driver to receive the annual compensation as provided for herein, service rendered prior to the effective date of this amendment shall be given full credit and allowed.

The absence of any police officer, woman protective officer, or police patrol driver on military leave, as defined by section 153 of this charter, shall be reckoned a part of his service under the city and county, for the purpose of computing years of service in gaining added compensation as provided for herein.

Section 35.5 4. Notwithstanding the provisions of section 35.5.1 or of any other provisions of this charter, and effective on the first day of the month immediately following the date of ratification of this amendment by the state legislature, the monthly rate of compensation for the rank of assistant in-

On or before the first meeting in May of each year the Manager shall prepare and submit to the Council a budget of the expense of conducting the affairs of the City for the ensuing fiscal year. Departments not under the Manager shall submit their annual budget estimates to the Manager, or to such official as he may designate, and in such form as he shall require on or before April 15th for transmittal in proper form by the Manager to the Council. The budget shall include a summary outline of the fiscal policy of the City for the budget year, describing in connection therewith the important fea-

tures of the budget plan; a general budget summary setting forth the aggregate figures of the budget in such manner as to show the balanced relations between the total proposed expenditures and the total anticipated income and other means of financing the budget for the ensuing year, contrasted with the corresponding figures for the current year. The classification of the estimate shall be as nearly uniform as possible for the main divisions of all Departments and shall furnish necessary detailed fiscal information.

The Council shall provide for printing a reasonable number of copies of the estimate thus prepared, for distribution to citizens at least fifteen days before final passage. Copies shall also be furnished to the newspapers of the City and to each library thereof which is open to the public.

"Section 71. Preparation and Passage of Annual Appropriation Ordinance. Upon receipt of the Manager's estimate the Council shall prepare an appropriation ordinance using such estimate as a basis. The form, arrangement and itemization of the appropriation ordinance shall be determined and prescribed by the Auditor and Comptroller, and City Attorney. Provision shall be made by the Council for public hearings upon the appropriation ordinance either before a Committee of the Council or before the Council sitting as a committee of the whole. Following the public hearings the appropriation ordinances shall take the same course in the Council as other ordinances but shall not be passed before the first meeting of the Council in July. The Council may reduce or eliminate any item, may increase any amount or add any new item for personal services, contractual services, materials, supplies, and equipment for any Department. Upon final passage, the appropriation ordinance shall be published in the manner provided for the publication of other ordinances.

"Section 77. Capital Outlays Fund.

* * * * * * *

(Second paragraph) The moneys in the Capital Outlay Fund shall be used exclusively for the acquisition, construction and completion of permanent public improvements, including public buildings and the initial furnishing and equipping thereof, real property, water and sewer mains and extensions, and other improvements of permanent character, and also the replacement or reconstruction of the same, but not the repair or maintenance thereof, and shall not be used for any other purpose or transferred from said fund, except with the consent of two-thirds of the qualified electors of said City, voting at a general or special election.

* * * * * * *

"Section 91. General Reserve Fund. The Council shall create and maintain a permanent revolving fund, to be known

as the General Reserve Fund, for the purpose of keeping the payment of the running expenses of the City on a cash basis. Said fund shall be maintained in an amount sufficient to meet all legal demands against the treasury for the first four months or other necessary period of each fiscal year prior to the collection of taxes. This fund may be expended only in the event of a public emergency when it shall be determined by the affirmative vote of at least two-thirds of the members elected to the Council that such expenditures are necessary in order to insure the safety and lives and property of the City or its inhabitants.

"Section 92. Borrowing Money on Short Term Notes. If there is not sufficient cash reserve to meet current obligations, bonds or notes may be issued in anticipation of the collection of special assessments, and bonds, notes, or registered warrants on the treasury may be issued in anticipation of the collection of taxes, as authorized by the City Council by ordinance and shall not be deemed the creation of debt within the meaning of Section 90 of this Article. Nothing herein contained shall be construed to authorize the incurring of an obligation against the municipality in excess of that authorized to be incurred by the constitution of the State of California.

"Section 93. Loans and Advances. The City Council may from time to time authorize the advance of moneys in the treasury as a temporary loan to any tax-supported fund, which loan shall be repaid from the first property taxes received thereafter; provided, however, that such temporary loans shall not exceed the current property taxes receivable. It shall be lawful from time to time to advance money in the General Fund to any bond fund or to use any money in the General Fund for any purpose for which a loan shall have been authorized and bonds actually voted but not yet issued and sold, and the City officials need not sell said bonds until it is necessary to repay the General Fund advances or to replenish such loan fund or funds. That Section 34 of said Charter be amended to read as follows:

Section 34: The Auditor and Controller shall perform all the duties and shall have all the powers conferred by general law and this Charter. He shall be the chief accounting officer of the County and shall exercise general supervision over the accounts of all County, judicial district and school district officers, commissions, boards and employees of the County charged in any manner with the receipt, collection or disbursement of public funds, or of other funds, handled in their capacity as County officials or employees. He shall have the power, and it shall be his duty, to prescribe the method of installing, keeping and rendering accounts of, and the financial reports to be rendered by the several County, judicial district and school district officers, boards, commissions and employees of the County. He shall have full access to all books of account, all records, contracts, correspondence and all other documents and papers pertaining to financial transactions of the County and its departments.

Section 34.1: The Controller shall keep accounts showing the financial transactions of all departments, offices and other subdivisions of the County. Such accounts and accounting procedure shall be adequate to record: (1) all budgeted revenue and appropriations, together with additions or transfers thereto, and to show at all times the amount of encumbrances, expenditures or transfers therefrom and the balances therein; (2) all revenues accrued and liabilities incurred; (3) all cash receipts and disbursements; and (4) all transactions affecting the custody or disposition of values.

Section 34.2: The Controller shall determine, where practicable, the unit cost of work done by the County, for the purpose of determining whether similar work could be done under public contract at a lower cost. The Controller shall devise adequate systems of internal check of all departments and offices of the County relative to the custody, collection or disbursement of public funds.

Section 34.3: The Controller shall make a monthly report, not later than the 20th day of each month, showing a summary statement of revenues and expenditures for the preceding calendar month and for that portion of the fiscal year ending on the last day of such preceding month. Such statement shall be detailed as to assets, liabilities, income, expenditures, appropriations and funds in such manner as to show

the financial condition of the County and of each department, office, bureau or division thereof, for that portion of the fiscal year to and including the preceding calendar month, and with comparative figures for the similar period in the preceding fiscal year. The Controller shall, at the same time, prepare statements showing the cash position of the County and the unencumbered balance in each fund. A copy of each report and annual reports compiled therefrom, and special fiscal reports as requested, shall be transmitted to the Board of Supervisors and all department heads concerned and to two (2) local daily newspapers, and shall be kept on file in the Controller's office.

Section 34.4: The Controller shall audit the accounts of all County, judicial district and school district officers, boards, commissions and employees of the County charged in any manner with the custody, collection or disbursement of public or other funds. The Controller shall audit monthly all accounts and moneys coming into the hands of the County Treasurer. He shall make an audit of each public officer's revolving fund at least once each fiscal year.

When requested by the Board of Supervisors or any officer, board or commission for its own department, he shall audit the accounts of any such officer or department. On the death, resignation, removal, expiration of term or retirement of the head of any department or office, or any officer or employee charged with the receipt, collection or disbursement of public funds, he shall forthwith make an audit of the accounts of such department officer or employee, and file copies of his report of such audit with the County Clerk and the Board of Supervisors. If an elective officer is elected to succeed himself and qualifies, the required expiration of term audit may be omitted by the Controller, provided that the audit of that officer's accounts is made not later than the succeeding fiscal year.

Section 34.5: The Controller must at least once in every six (6) months examine all official bonds and investigate the sufficiency and solvency of the sureties thereon and forthwith report, in writing, the facts to the Board of Supervisors. Upon receipt of such report, the Board shall take such action as shall be necessary to protect the County, and may require new bonds and may suspend any officer or employee until a sufficient bond is filed and approved. The Board of Supervisors shall make similar periodic examination of the Controller's bond.

Section 34.6: The Board of Supervisors shall order an annual audit of the Controller's books of accounts, records and transactions, to be made by one or more certified public accountants. The report of such annual audit for the fiscal year shall be filed with the Clerk of the Board of Supervisors and shall be open to public inspection, and two copies thereof furnished to the Auditor and Controller.

Section 34.7: It shall be unlawful for any officer or employee of the County to refuse to permit the Controller, or his deputy, to have access to any books, accounts or records in the

custody of said officer or employee, for the purpose of making an audit or investigation as authorized by this Charter; or to refuse, neglect or fail to aid and assist such Controller in making such investigation or audit; or to refuse to comply with rules pertaining to systems or methods of accounting. Any officer or employee who refuses, wilfully hinders, obstructs, or prevents an audit or investigation, or compliance with rules as herein provided, shall be deemed guilty of misconduct in office. Upon written complaint of the Controller, filed with the Board of Supervisors, the Board of Supervisors shall, if such complaint is found true, immediately suspend such officer or employee from his office, without pay, and the said suspension without pay shall continue until the reasonable requests of said Controller for an investigation or audit shall have been fully complied with and until said Board of Supervisors shall order the suspension lifted.

BILLS AND RESOLUTIONS

Definition of Word Bill

4. Whenever the word "bill" is used in these rules, it shall include constitutional amendments, concurrent and joint resolutions

Concurrent and Joint Resolutions

5. Concurrent resolutions relate to matters to be treated by both houses of the Legislature.

Joint resolutions are those which relate to matters connected with the federal government.

Resolutions Treated as Bills

6. Constitutional amendments, concurrent and joint resolutions shall be treated in all respects as bills; except that they shall be given only one formal reading in each house and that they shall not be deemed bills within the meaning of Section 2 of Article IV of the Constitution, and shall not be referred to the Committee on Introduction of Bills, and except as provided in Rule 24. As in the case of bills, they shall be engrossed in the house in which they originate before being voted upon.

Preparation and Introduction of Bills

Title of Bill

7. The title of every bill introduced shall convey an accurate idea of the contents of the bill and shall be indicative of the scope of the act and the object to be accomplished. In amending a code section, the mere reference to the section by number shall not be deemed sufficient.

Division of Bill Into Sections

8. A bill amending more than one section of an existing law shall contain a separate section for each section amended.

Bills which are not amendatory of existing laws shall be divided into short sections, where this can be done without destroying the sense of any particular section, to the end that future amendments may be made without the necessity of setting forth and repeating sections of unnecessary length.

Introduction of Bills

8.3. No bill shall be introduced after the 110th calendar day of a general session except as follows:

(a) A written notice of intention to introduce a bill, a copy of the bill and a digest prepared pursuant to Rule 8.5 shall be filed with the Chief Clerk of the Assembly or the Secretary of the Senate, as the case may be, and shall be transmitted to the Rules Committee of the appropriate house The notice and digest shall be printed in the Journal of that house.

(b) The Rules Committee of the Assembly or Senate, as the case may be, shall determine whether there exists an urgent need for the introduction of the proposed bill.

(c) If the Rules Committee recommends that introduction of the proposed bill be permitted, the member may offer a resolution, without further reference thereof to committee, granting permission to introduce the bill. The adoption of the

resolution granting such permission shall require an affirmative recorded vote of two-thirds of the elected members of the house in which the request is made.

As used in this rule "bill" includes constitutional amendments but does not include joint or concurrent resolutions.

Digest of Bills Introduced

8.5. No bill shall be introduced unless it is contained in a cover attached by the Legislative Counsel and unless it is accompanied by a digest, prepared and attached to the bill by the Legislative Counsel, showing the changes in the existing law which are proposed by the bill. If any bill is presented to the Secretary of the Senate or Chief Clerk of the Assembly for introduction which does not comply with the foregoing requirements of this rule the Secretary or Chief Clerk shall return it to the member who presented it.

The digest shall be printed on the bill as introduced in distinctive type upon the lower part of the first page thereof. If a material error in the printed digest is brought to the attention of the Legislative Counsel, he shall prepare a corrected digest which shall show the changes made in the digest as provided in Joint Rule 10 for amendments to bills. He shall deliver the corrected digest to the Secretary or the Chief Clerk, as the case may be. If the correction warrants it in the opinion of the President pro Tempore of the Senate or the Speaker of the Assembly, a corrected print of the bill as introduced shall be ordered with the corrected digest printed thereon.

Restrictions as to Amendments

9. A substitute or amendment must relate to the same subject as the original bill, constitutional amendment or resolution under consideration.

Changes in Existing Law to Be Marked by Author

10. In a bill amending or repealing a code section or a general law, any new matter shall be underlined and any matter to be omitted shall be in type bearing a horizontal line through the center and commonly known as "strikeout" type. When printed the new matter shall be printed in italics, and the matter to be omitted shall be printed in "strikeout" type.

In any amendment to a bill which sets out for the first time a section being amended or repealed, any new matter to be added and any matter to be omitted shall be indicated by the author and shall be printed in the same manner as though the section as amended or repealed were a part of the original bill and was being printed for the first time.

When an entire code is repealed as part of a codification or recodification or when an entire title, part, division, chap-

ter or article of a code is repealed, the sections comprising such code, title, part, division, chapter, or article shall not be set forth in the bill or amendment in strikeout type.

Introduction of Departmental Bills

10.5. No departmental bill shall be introduced at the request of or on behalf of any state officer or agency except the Governor after the 30th calendar day of any general session. No departmental bill shall be introduced in both houses of the Legislature at any session.

Heading of Bills

10.7. No bill shall indicate in its heading or elsewhere that it was introduced at the request of a state agency or officer or any other person. No bill introduced after February 15, 1963, shall contain the words "By request" or words of similar import.

Consideration of Bills

10.8. At a general session, no bill shall be heard by any committee or acted upon by either house until 30 calendar days have elapsed following the date the bill was first introduced except this provision and the limitation contained in Section 2(a) of Article IV of the Constitution may be dispensed with as follows:

(a) A written request for such dispensation entitled "Request to Consider and Act on Bill Within 30 Calendar Days" shall be filed with the Chief Clerk of the Assembly or the Secretary of the Senate, as the case may be, printed in the Journal and transmitted to the Rules Committee of the appropriate house.

(b) The Rules Committee of the Assembly or Senate, as the case may be, shall determine whether there exists an urgent need for dispensing with the 30-calendar-day waiting period following the bill's introduction.

(c) If the Rules Committee recommends that said waiting period be dispensed with, the member may offer a resolution, without further reference thereof to committee, authorizing hearing and action upon the bill before the 30 calendar days have elapsed. The adoption of the resolution shall require an affirmative recorded vote of three-fourths of the elected members of the house in which the resolution is presented.

As used in this rule "bill" includes constitutional amendments but does not include joint or concurrent resolutions.

Printing of Amendments

11. All bills amended by either house shall be immediately reprinted; in case new matter is added by the amendment

such new matter shall be printed in italics in the printed bill, and in the case of matter being omitted, the matter to be omitted shall be printed in strikeout type. When a bill is amended in either house, the first or previous markings shall be omitted.

Printing and Distribution of Bills—Manner of Printing Bills

12. The State Printer shall observe the following directions in printing all bills, constitutional amendments, concurrent and joint resolutions:

(a) The body of such bills shall be printed in solid unspaced form in 10-point roman type so that the same type shall be used both before and after enrollment. Concurrent resolutions approving city or county charters or amendments thereto may be set in smaller type.

(b) All titles of bills shall be set in italics, statute form and the length of the lines used in the titles shall not exceed that of the body of the bill.

(c) The lines of all printed bills shall be numbered by page and not by sections, and amendments shall be identified by reference to title, page and line only.

Distribution of Legislative Publications

13. All requests by members for mailing or distribution of copies of the Weekly Histories, the Legislative Digest and the Legislative Index shall be filed with the Secretary of the Senate or the Chief Clerk of the Assembly. The Secretary of the Senate and the Chief Clerk of the Assembly shall order a sufficient number of copies of the Weekly Histories, the Legislative Digest and the Legislative Index to supply this list together with such number of bills and legislative publications as may be necessary for legislative requirements.

No complete list of bills shall be delivered except upon payment therefor of the sum of two hundred dollars ($200) at a general session or twenty-five dollars ($25) at a budget session. Not more than two copies of any bill or other legislative publication, nor more than a total of 100 bills or other legislative publications during a session, shall be distributed free to any person, office, or organization. The limitations imposed by this paragraph do not apply to Members of the Legislature, the President of the Senate, the Secretary of the Senate and the Chief Clerk of the Assembly for the proper functioning of their respective houses; the Legislative Counsel Bureau; Attorney General's office; Secretary of State's office; Controller's office; Governor's office; the Clerk of the Supreme Court; the clerk of the district court of appeal for each district; the Judi-

cial Council; the California Law Revision Commission; the State Library; the Library of Congress and to libraries of the University of California at Berkeley and at Los Angeles; and accredited members of the press. The State Printer shall fix the cost of such bills and publications, including postage, and such moneys as may be received by him shall, after deducting the cost of handling and mailing, be remitted on the first day of each month, one-half each to the Secretary of the Senate and the Chief Clerk of the Assembly for credit to legislative printing. Legislative publications heretofore distributed through the Bureau of Documents shall be distributed through the Bill Room. Unless otherwise provided for, the total number of each bill to be printed shall be not more than 2,500.

Legislative Digest and Legislative Index

13.1. The Legislative Counsel shall provide for the compilation and periodic publication of the digests mentioned in Rule 8.5 in separate pamphlets for each house. He shall also provide for the periodic publication of a cumulative Legislative Index which shall include tables of sections affected by pending legislation. The State Printer shall print the pamphlet digests (comprising the Legislative Digest) and the Legislative Index in such quantities, and at such times, as are determined by the Secretary of the Senate and the Chief Clerk of the Assembly. The costs of such printing shall be paid from the legislative printing appropriation.

Other Legislative Printing

14. The State Printer shall print in such quantity as directed by the Secretary of the Senate and the Chief Clerk of the Assembly, copies of the Journal of each day's proceedings of each house. At the end of the session he shall also print, as directed by the Secretary of the Senate and the Chief Clerk of the Assembly a sufficient number of copies properly paged after being corrected and indexed by the Secretary of the Senate and the Chief Clerk of the Assembly, to bind in book form as the Journal of the respective houses of the Legislature.

What Shall Be Printed in the Journal

15. The following shall always be printed in the Journal of each house:

(a) Messages from the Governor and messages from the other house, and the titles of all bills, joint and concurrent resolutions and constitutional amendments when introduced in, offered to, or acted upon by the house.

(b) Every vote taken in the house, and a statement of the contents of each petition, memorial or paper presented to the house.

(c) A true and accurate account of the proceedings of the house, when not acting as a Committee of the Whole.

16. A Daily File of bills ready for consideration shall be printed each legislative day for each house.

The material to be printed in the File and the form and arrangement shall be determined by the respective houses.

Printing of History

17. Each house shall cause to be printed, once each week, during the session, a complete History of all bills, constitutional amendments, concurrent, joint and house resolutions originating in or acted upon by the respective houses. A regular form shall be prescribed by the Secretary of the Senate and the Chief Clerk of the Assembly. Such History shall show the action taken upon each measure up to and including the legislative day preceding its issuance. For each legislative day intervening there shall be printed a Supplementary History showing the action taken upon any measure since the issuance of the complete History.

Authority for Printing Orders

18. The State Printer shall not print for use of either house nor charge to legislative printing any matter other than provided by law or by the rules, except upon a written order signed by the Secretary of the Senate or the Chief Clerk of the Assembly. The Secretary of the Senate and the Chief Clerk of the Assembly may, when necessity requires it, order certain matter printed in advance of the regular order, by the issuance of a rush order.

The Secretary of the Senate and the Chief Clerk of the Assembly are hereby authorized and directed between sessions to order and distribute for the members stationery and legislative publications for which there is a demand, and, subject to the rules of their respective houses, to approve the bills covering such orders. All bills for printing must be presented by the State Printer within 30 days after the completion of said printing.

Record of Bills

19. The Secretary of the Senate and the Chief Clerk of the Assembly shall keep a complete and accurate record of every action taken by the Senate and Assembly on every bill.

Secretary and Chief Clerk Shall Endorse Bills

20. The Secretary of the Senate and the Chief Clerk of the Assembly shall endorse on every original or engrossed bill a statement of any action taken by the Senate or Assembly concerning such bill.

Action in One House on Bill Transmitted From the Other

After a Bill Has Been Passed by the Senate or Assembly

21. When a bill has been passed by either house it shall be transmitted promptly to the other unless a motion to reconsider or a notice of motion to reconsider has been made or it is held pursuant to some rule or order of the house.

The procedure of referring bills to committees shall be determined by the respective houses.

Messages to Be in Writing Under Proper Signatures

22. Notice of the action of either house to the other shall be in writing and under the signature of the Secretary of the Senate or the Chief Clerk of the Assembly from which such message is to be conveyed. A receipt shall be taken from the officer to whom such message is delivered.

Uncontested Bills

22.1. Each standing committee may report an uncontested bill out of committee with the recommendation that it be placed on the consent calendar. The Secretary of the Senate and the Chief Clerk of the Assembly shall provide to each committee chairman appropriate forms for such report. As used in this rule, "uncontested bill" means a bill, except a revenue measure, which: (a) receives a do-pass or do-pass-as-amended recommendation from the committee to which it is referred, by unanimous vote of the members present; and (b) has no opposition expressed by any person present at the committee meeting with respect to the final version of the bill as approved by the committee; and (c) prior to final action by the committee has been requested, by the author, to be placed on the consent calendar.

Consent Calendar

22.2. Following their second reading and the adoption of any committee amendments thereto, if any, all bills certified by the committee chairman as uncontested bills shall be placed by the Secretary of the Senate or the Chief Clerk of the Assembly on the consent calendar, and shall be known as

"consent calendar bills." Any consent calendar bill which is amended from the floor shall cease to be a consent calendar bill and shall be replaced on the second reading file. Upon objection of any member to the placement or retention of any bill on the consent calendar, such bill shall cease to be a consent calendar bill and shall be replaced on the second reading file. No consent calendar bill shall be considered for adoption until the second legislative day following the day of its placement on the consent calendar.

Consideration of Bills on Consent Calendar

22 3. Bills on the consent calendar are not debatable, except that the President of the Senate or the Speaker of the Assembly shall allow a reasonable time for questions from the floor and shall permit the proponents of such bills to answer such questions. Immediately prior to voting on the first bill on the consent calendar, the President of the Senate or the Speaker of the Assembly shall call to the attention of the members the fact that the next rollcall will be the rollcall on the first bill on the consent calendar.

The consent calendar shall be considered as the last order of business on the Daily File.

Passage and Enrolling of Bills

Passage of Bills Preceding Final Adjournment

23. No Senate bill shall be passed by the Senate within 15 days, and no Assembly bill shall be passed by the Assembly within 10 days prior to the adjournment sine die of the two houses of the Legislature at a general session or within one day prior to the adjournment sine die of the two houses of the Legislature at a budget session, unless permission to vote on such bill shall be granted by a three-fourths vote of the house of its origin after being recommended by the Committee on Rules (if it be a Senate bill) or by the Speaker of the Assembly (if it be an Assembly bill).

Enrollment of Bill After Passage

24. After a bill has passed both houses it shall be printed in enrolled form, omitting symbols indicating amendments, and shall be compared by the Engrossing and Enrolling Clerk and the proper committee of the house where it originated to determine that it is in the form approved by the houses. The enrolled bill shall thereupon be signed by the presiding officers of both houses and the Secretary of the Senate and Chief Clerk of the Assembly and presented without delay to the Governor. The committee shall report the time of presentation of the bill to the Governor to the house and the record shall be entered in

the Journal. After enrollment and signature by the officers of the Legislature, constitutional amendments, concurrent and joint resolutions shall be filed without delay in the office of the Secretary of State and the time of filing shall be reported to the house and the record entered in the Journal.

AMENDMENTS AND CONFERENCES

Amendments to Amended Bills Must Be Attached

25. Whenever a bill or resolution which shall have been passed in one house shall be amended in the other, it shall immediately be reprinted as amended by the house making such amendment or amendments. Two copies of such amendment or amendments shall be attached to the bill or resolution so amended, and endorsed "adopted" and such amendment or amendments, if concurred in by the house in which such bill or resolution originated, shall be endorsed "concurred in," and such endorsement shall be signed by the Secretary or Assistant Secretary of the Senate, or the Chief Clerk or Assistant Clerk of the Assembly as the case may be; provided, however, that an amendment to the title of a bill adopted after the passage of such bill shall not necessitate reprinting, but such amendment must be concurred in by the house in which such bill originated.

To Concur or Refuse to Concur in Amendments

26. In case the Senate amend and pass an Assembly bill, or the Assembly amend and pass a Senate bill, the Senate (if it be a Senate bill) or the Assembly (if it be an Assembly bill) must either "concur" or "refuse to concur" in the amendments. If the Senate concur (if it be a Senate bill), or the Assembly concur (if it be an Assembly bill), the Secretary or Chief Clerk shall notify the house making the amendments and the bill shall be ordered to enrollment.

Concurring in Amendments Adding Urgency Section

27. When a bill which has been passed in one house is amended in the other by the addition of a section providing that the act shall take effect immediately as an urgency measure, and is returned to the house in which it originated for concurrence in the amendment or amendments thereto, the procedure and vote thereon shall be as follows:

The presiding officer shall first direct that the urgency section be read and put to a vote. If two-thirds of the members elected to the house vote in the affirmative the presiding officer shall then direct that the question of whether the house shall concur in the amendment or amendments shall be put to a vote. If two-thirds of all the members elected to the house vote

in the affirmative, concurrence in the amendments shall be effective.

If the affirmative vote on either of such questions is less than two-thirds of all the members elected to such house, the effect is a refusal to concur in the amendment or amendments, and the procedure thereupon shall be as provided in Joint Rule No. 28.

When Senate or Assembly Refuse to Concur

28. If the Senate or the Assembly refuse to concur in the amendments, the Committee on Rules (if it be a Senate bill) or the Speaker of the Assembly (if it be an Assembly bill) shall appoint a committee of three (3) on conference and the Secretary or the Chief Clerk shall immediately notify the other house of the action taken and request the appointment of a like committee. Two of the members comprising such committee from each house shall be selected from those voting with the majority on the point about which the difference has arisen, and the other member from each house of such committee shall be selected from the minority, in the event there is a minority vote. The first Senator named on the conference committee shall act as chairman of the committee from the Senate, and the first Assemblyman named on such committee shall act as chairman of the committee from the Assembly and the chairman thus selected shall arrange the time and place of all meetings and prepare or direct the preparation of reports. The committee on conference shall report to both the Senate and the Assembly.

Report of Committee on Conference

29. The report of the committee on conference shall not be subject to amendment, and if either house refuse to adopt such report the conferees may be discharged and other conferees appointed; provided, however, that no more than three different conference committees shall be appointed on any one bill.

It shall require the affirmative vote of not less than two of the Senate Members and two of the Assembly Members constituting the committee to agree upon a report. No member who has served on a committee on conference shall be appointed a member of another committee on conference on the same bill.

The report of a conference committee shall be in writing, and a copy of any amendments proposed in the report shall be placed on the desk of each member of the house before it is acted upon by the house.

When Conference Committee Report Is in Order

30. The presentation of the report of a committee on conference shall always be in order, except when a question of order

or a motion to adjourn is pending, or during rollcall, and, when received, the question of proceeding to the consideration of the report, if raised, shall be immediately passed upon, and shall be determined without debate.

Conference Committee Reports on Urgency Measures

30.5. When the report of a committee on conference recommends the amendment of a bill by the addition of a section providing that the act shall take effect immediately as an urgency measure, the procedure and the vote thereon shall be as follows:

The presiding officer shall first direct that the urgency section be read and put to a vote. If two-thirds of the members elected to the house vote in the affirmative the presiding officer shall then direct that the question of whether the house shall adopt the report of the committee on conference shall be put to a vote. If two-thirds of all the members elected to the house vote in the affirmative, the adoption of the report and the amendments proposed thereby shall be effective.

If the affirmative vote on either of such questions is less than two-thirds of all the members elected to such house, the effect is a refusal to adopt the report of the committee on conference.

Miscellaneous Provisions

Authority When Rules Do Not Govern

31. All relations between the houses which are not covered by these rules shall be governed by Mason's Manual.

Press Rules

32. (a) Persons desiring privileges of accredited press representatives shall make application to the Speaker of the Assembly, as required by Rule 43 of Assembly Rules, and to the Committee on Rules of the Senate, as required by Rule 13 of Senate Rules; and shall state in writing the names of the daily newspapers or news associations by which they are employed, and what other occupations or employment they may have, if any; and they shall further declare that they are not employed, directly or indirectly, to assist in the prosecution of the legislative business of any person, corporation or association, and will not become so employed while retaining the privilege of accredited press representatives

(b) The applications required by the above rule shall be authenticated in a manner that shall be satisfactory to the Standing Committee of the Capitol Correspondents Association which shall see that occupation of seats and desks in the Senate and the Assembly Chambers is confined to bona fide correspondents of reputable standing in their business, who

represent daily newspapers requiring a daily file of legislative news, or who represent news associations requiring daily telegraphic or radio service on legislative news. It shall be the duty of the standing committee at their discretion, to report violation of accredited press privileges to the Speaker of the Assembly, or to the Senate Committee on Rules, and pending action thereon the offending correspondent may be suspended by the standing committee.

(c) Persons engaged in other occupations whose chief attention is not given to newspaper correspondence or to newspaper associations requiring telegraphic service shall not be entitled to the privileges accorded accredited press representatives; and the press list in the Handbook of the California Legislature and the Senate and Assembly Histories shall be a list only of persons authenticated by the standing committee of correspondents.

(d) The press seats and desks in the Senate and Assembly Chambers shall be under the control of the standing committee of correspondents, subject to the approval and supervision of the Speaker of the Assembly and the Senate Committee on Rules. Press cards shall be issued by the President of the Senate and the Speaker of the Assembly only to correspondents properly accredited in accordance with the provisions of this rule.

(e) One or more rooms shall be assigned for the exclusive use of correspondents during the legislative session, which rooms shall be known as the Press Room. The Press Room shall be under the control of the Chief of the Bureau of Buildings and Grounds; provided, that all rules and regulations shall be approved by the Senate Committee on Rules and the Speaker of the Assembly.

Dispensing With Joint Rules

33. No joint rule shall be dispensed with except by a vote of two-thirds of each house; and Joint Rule No. 23 can be dispensed with only in the manner provided for in said joint rule. If either house shall violate a joint rule a question of order may be raised in the other house and decided in the same manner as in the case of the violation of the Rules of such house; and if it shall be decided that the Joint Rules have been violated, the bill involving such violations shall be returned to the house in which it originated, and such disputed matter be considered in like manner as in conference committee.

Opinions of Legislative Counsel

34. Whenever the Legislative Counsel issues an opinion to any person other than the first-named author analyzing the constitutionality, operation or effect of a bill or other legislative measure which is then pending before the Legislature or which was introduced at any session of the Legislature held within two years next preceding the date of the opinion and

was referred to an interim committee for study, or of any amendment made or proposed to be made to such bill or measure, he is authorized and instructed to deliver two copies of the opinion to the first-named author as promptly as feasible after the delivery of the original opinion and also to deliver a copy to any other author of the bill or measure who so requests.

Resolutions Prepared by Legislative Counsel

34.1. Whenever the Legislative Counsel has been requested to draft a resolution commemorating or taking note of any event, or a resolution congratulating or expressing sympathy toward any person, and subsequently receives a similar request from another Member of the Legislature, he shall inform each subsequent requester that such a resolution is being, or has been, prepared, and shall furnish such subsequent requester with the name of the member for whom the resolution was, or is being, prepared.

Memorial Resolutions Regarding Members and Former Members of the Legislature

34.2. Whenever the death of a Member of the Legislature or a former member whose service was particularly notable, or any other person who has rendered exceptional service to society or has been unusually prominent in public life occurs, a concurrent resolution may be used as a memorial resolution in respect thereto. In all other instances a Senate resolution or a House resolution, or both, shall be used as a memorial resolution with respect to the deaths of other persons. In all cases a Senate resolution or a House resolution, or both, shall be used to congratulate any person or organization upon the occurrence of any significant event or achievement.

Expense of Members

35. As provided in Section 23b of Article IV of the Constitution, each Member of the Legislature is allowed and reimbursed as the expenses necessarily incurred by him while attending regular and special and extraordinary sessions of the Legislature (including any recess of three days or less) an allowance authorized for other elected state officers at the time the expense is incurred.

Expense allowances for Members of the Senate and Assembly shall be approved and certified to the Controller by the Secretary of the Senate or the Chief Clerk of the Assembly respectively, weekly or as otherwise directed by either house, and upon certification by the Secretary or the Chief Clerk the Controller shall draw his warrants in payment of the allowances to the respective members.

Investigating Committees

36. In order to expedite the work of the Legislature either house, or both houses jointly, may by resolution or statute provide for the appointment of committees to ascertain facts and to make recommendations as to any subject within the scope of legislative regulation or control.

The resolution providing for the appointment of a committee shall state the purpose of the committee, and the scope of the subject concerning which it is to act and may authorize it to act either during sessions of the Legislature or, when such authorization may lawfully be made, after final adjournment

In the exercise of the power granted by this rule, each committee may appoint a secretary and adopt and amend such rules governing its procedure (including the fixing of its own quorum and the number of votes necessary to take action on any matter) as may appear necessary and proper to carry out the powers granted and duties imposed under this rule. It may employ such clerical, legal and technical assistants as may appear necessary.

Each such committee is authorized and empowered to summon and subpoena witnesses, require the production of papers, books, accounts, reports, documents, records and papers of every kind and description, to issue subpoenas and to take all necessary means to compel the attendance of witnesses and to procure testimony, oral and documentary.

Each member of such committees is authorized and empowered to administer oaths, and all of the provisions of Chapter 4, Part 1, Division 2, Title 2 of the Government Code, relating to the attendance and examination of witnesses before the Legislature and the committees thereof, shall apply to such committees.

The Sergeant at Arms of the Senate or Assembly, or such other person as may be designated by the chairman of the committee, shall serve any and all subpoenas, orders and other process that may be issued by the committee, when directed to do so by the chairman or by a majority of the membership of the committee.

Every department, commission, board, agency, officer and employee of the state government, including the Legislative Counsel and the Attorney General and their subordinates, and of every political subdivision, county, city, or public district of or in this State, shall give and furnish to these committees and to their subcommittees upon request such information, records and documents as the committees deem necessary or proper for the achievement of the purposes for which each such committee was created.

Each such committee may meet at any time during the period in which it is authorized to act, even though the Legislature is in session, either, at the State Capitol or at any other place in the State of California, in public or executive session,

and do any and all things necessary or convenient to enable it to exercise the powers and perform the duties herein granted to it or accomplish the objects and purposes of the resolution creating it Each such committee may expend such money as may be made available to it for such purpose but no committee shall incur any indebtedness unless money shall have been first made available therefor.

Members shall not be entitled to any salary because of membership on any such committee but shall be allowed mileage at the rate of fifteen cents ($0.15) per mile each way for travel both within and without the State incurred in connection with their services upon the committee and actual and necessary expenses for living accommodations and meals incurred in connection with their services upon the committee, or in lieu of such expenses for accommodations and meals, an allowance of twenty dollars ($20) per day. No expenses for accommodations or meals or any allowance in lieu thereof shall be allowed for a day when the member is entitled to reimbursement for expenses under Joint Rule No. 35. The chairman of each committee shall audit and approve the expense claims of the members of the committee including claims for mileage in connection with attendance on committee business, or in connection with specific assignments by the committee chairman, but excluding other types of mileage, and shall certify the amount approved to the Controller, and the Controller shall draw his warrants upon the certification of the chairman.

The chairman of any such committee may appoint subcommittees and chairman thereof for the purpose of more expeditiously handling and considering matters referred to it, and such subcommittees and the chairman thereof shall have all the powers and authority herein conferred upon the committee and its chairman. The chairman of such subcommittee shall audit the expense claims of the members of such subcommittees and other claims and the expenses incurred by it and shall certify the amount thereof to the chairman of the committee who shall, if he approves the same, certify the amount thereof to the Controller, and the Controller shall draw his warrant therefor upon such certification, and the Treasurer shall pay the same Whenever such committee or any subcommittee thereof is authorized to leave the State of California in the performance of its duties, then such committee or subcommittee shall, while out of the State, have the same authority as if it were acting and functioning within the State, and the members thereof shall be entitled to receive the same expense allowances as if the committee were functioning within the State.

This rule governs mileage only with respect to travel to and from committee meetings and with respect to travel necessary to carry out specific assignments made by the chairman of a committee. Such mileage is chargeable to the funds allocated to the specific committee for whom the travel was undertaken. Nothing in this rule shall prevent either house from providing

by rule or resolution for the payment of mileage at the same rate herein specified for travel incurred in connection with committee business generally, payable from the contingent funds of either house after approval by the Rules Committee of that house, or its authorized representative.

Notwithstanding any provision of this rule, if the standing rules of either house require that expense claims of members of committees be audited or approved, after approval of the committee chairman, by another agency of either house, the Controller shall draw his warrants only upon the certification of such other agency.

Except salary claims of employees clearly subject to federal withheld tax and the requirement as to loyalty oaths, claims presented for services or pursuant to contract shall refer to the agreement, the terms of which shall be made available to the Controller.

Expenses of Interim Committee Employees

36.1. Unless otherwise provided by respective house or committee rule or resolution, employees of legislative committees shall, when entitled to traveling expenses, be entitled to allowances in lieu of actual expenses for hotel accommodations, breakfast, lunch, and dinner, at the rates fixed by the Board of Control from time to time in limitation of reimbursement of expenses of state employees generally; provided, that if an allowance for hotel accommodations, breakfast, lunch and dinner is made by a committee at a rate in excess of those fixed by the Board of Control the chairman of the committee shall notify the Controller of that fact in writing.

Appointment of Committees

36.5. The provisions of this rule shall apply whenever a joint interim committee is created by a statute or resolution which either provides that appointments be made and vacancies be filled in the manner provided for in the Joint Rules, or which makes no provision for the appointment of members or the filling of vacancies.

The Senate members of the committee shall be appointed by the Senate Committee on Rules; the Assembly members of the committee shall be appointed by the Speaker; and vacancies occurring in the membership of the committee shall be filled by the respective appointing powers. The members appointed shall hold over until their successors are regularly selected.

[Filed with Secretary of State March 18, 1963]

WHEREAS, On this seventeenth day of March, 1963, throughout the entire world, those of Irish birth and those of Irish heritage and, yes, even those of other races, are filled with both gaiety and solemnity of heart; for, on this day, they celebrate St. Patrick's Day in honor of a scholar, a servant of God, and one whose memory survives in American minds as a gracious symbol of understanding; and

WHEREAS, To a pagan and warlike people he offered the nobler aspirations of charity and fraternal love, not to be fulfilled by the sword, and the histories of all peoples will not disclose another instance of as radical a change in the character of a whole nation as he wrought within his lifetime, and without the shedding of one drop of blood; and

WHEREAS, As a direct result of the labors of this young man, in a few years the renown of Irish learning and sanctity caused the outside world to refer to Ireland as the land of "saints and scholars" to which the crowned and other families of Europe and England sent their children for education; and

WHEREAS, When his footsteps were silenced forever, the young man, beloved by all today as St. Patrick, had left the Irish people a heritage of Christianity, a passionate love of liberty and freedom, and the priceless gifts of courage, generosity, and humor; and

WHEREAS, Proceedings have been had for the proposal, adoption and ratification of an amendment to the Charter of the City of Petaluma, a municipal corporation in the County of Sonoma, State of California, as hereinafter set forth in the certificate of the mayor and city clerk of the city, as follows:

CERTIFICATE OF AMENDMENT TO CHARTER OF THE CITY OF PETALUMA, CALIFORNIA

State of California
County of Sonoma

We, the undersigned Everett A. Matzen, Mayor of the City of Petaluma, and Gladys R. Wallin, City Clerk of the City of Petaluma, do hereby certify and declare as follows:

That the City of Petaluma is a Municipal Corporation in the County of Sonoma, State of California, and is now, and at all times hereinafter referred to, was a City containing a population of more than 3,500 inhabitants and less than 50,000 inhabitants as ascertained by the last preceding census taken under the authority of the Congress of the United States.

That said City of Petaluma is now organized, existing and acting under a Freeholders' Charter, adopted under and by virtue of Section 8, Article XI of the Constitution of the State of California, which Charter was duly ratified by the qualified electors of said City at an election duly held for that purpose on June 10, 1947, and approved by the Legislature of the State of California by concurrent Resolution No. 64 filed with the Secretary of State on June 20, 1947.

That in pursuance of Section 8, Article XI of the Constitution of the State of California and on its own motion, the Council of the City of Petaluma, being the legislative body of said City, duly and regularly submitted to the qualified electors

of said City of Petaluma, proposal for amendment of the Charter of said City to be voted upon by said qualified electors at a special election held in said City on the 22nd day of January, 1963.

That said proposed amendment was published and advertised in the form and manner and for the length of time, and in accordance with the provisions of Section 8, Article XI of the Constitution of the State of California, in the Argus Courier, a newspaper of general circulation printed and published at and within the City of Petaluma, County of Sonoma, State of California, and the official newspaper of said City. The publication of said proposed amendment was completed November 27, 1962, a date which was not less than forty (40) days and not more than sixty (60) days from the date of the election set and called for the 22nd day of January, 1963.

That the election at which said proposed charter amendment was voted upon was, by resolution, set and called for the 22nd day of January, 1963, which date was not less than fifty-four (54) days, nor more than seventy-five (75) days after the completion of the publication of the notice of said election and which date was not less than fifty-four (54) days and not more than seventy-five (75) days after the completion of said advertising in the official newspaper as aforesaid, said advertising having been completed on the 27th day of November, 1962.

That thereafter the City Council of the City of Petaluma did, in the manner provided by law, duly and regularly canvass the returns of said election and that said Council, by resolution adopted on the 18th day of February, 1963, declared the results of said election as determined from the canvass of the returns thereof.

That at said election held on the 22nd day of January, 1963, one (1) charter amendment was submitted to the electorate of the City of Petaluma and said proposed charter amendment was ratified and adopted by a majority of said City; that said proposed charter amendment so ratified by the electors of the City of Petaluma propose to amend Section 75 of the Charter of the City of Petaluma to read as follows:

"Section 75. The Council may by ordinance provide a procedure for the granting of franchises or leases or grant franchises pursuant to the procedure provided by the State law. Franchises or leases may be granted for the use of the streets, public places or property of the City upon such terms, conditions, restrictions and limitations as may be prescribed by ordinance, but no franchise or lease shall be granted without reserving to the City adequate compensation for the privilege conferred. Franchises or leases may be granted for a period of 50 years with the option to renew for an additional 25 years. No franchises or leases shall be granted for a longer period than herein specified except that franchises or leases granted to a public utility may be granted for a longer period provided

there is reserved to the City the right to take over at any time the portion of such utility located within the City without compensation for the value of franchise or lease granted."

That we have compared the foregoing amendment with the original proposal submitting the same to the electors of said City and find that the foregoing is a full, true, correct and exact copy thereof.

That in all matters and in all things pertaining to said Charter amendment, all the provisions of Section 8 of Article XI of the Constitution of the State of California, and the laws of said State, have been fully complied with in each and every particular.

In witness whereof, we have hereunto set our hands and caused the corporate seal of said City of Petaluma to be affixed hereto this 20th day of February, 1963.

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit suitably prepared copies of this resolution to the Honorable Edmund G. Brown, Governor of the State of California, and to the Executive Secretary of the Civil War Centennial Commission of California, and to the Executive Director of the United States Civil War Centennial Commission.

WHEREAS, During these critical years 1861-1867, the neighboring Republic of Mexico was invaded by European powers and a devastating civil war prevailed in that nation; and

WHEREAS, Despite a scarcity of ships and men, under the superior leadership of Admiral John B. Montgomery and later Admiral Charles H. Bell the Pacific Squadron personnel achieved an outstanding record of accomplishment in protecting American interests in the face of great danger and distress, and, as expressed in the language of a contemporary writer:

CHAPTER 62

Assembly Joint Resolution No. 13—Relative to pensions for veterans of World War I.

[Filed with Secretary of State April 8, 1963]

WHEREAS, Congressman Denton has introduced H.R. 2332 which would provide a pension for World War I veterans whose income is under $2,400 annually, if they are single, and $3,600 annually, if they have dependents; and

WHEREAS, One of the principal domestic problems in all areas of the nation is the care of the aged, the importance of which is emphasized by the fact that there are now approximately 16,000,000 men and women over the age of 65 years; and

WHEREAS, Of this number, about 2,000,000 are those who served in the armed forces of the United States during the first World War, and whose present circumstances are below the average for the nation, which fact may be traced in part to the service rendered their country during that war; and

WHEREAS, These veterans have not enjoyed the extensive benefits accorded their younger brethren who served during World War II and who were given the opportunity for training at government expense and assistance in securing home and business loans; and

WHEREAS, The government of the United States has not given any general pension to the veterans of World War I; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Congress of the United States is urged to enact H.R. 2332 to alleviate the dire conditions in which

those who made the sacrifices for this country, in their youth, now find themselves; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to send copies of this resolution to the President of the United States, the President pro Tempore of the Senate, the Speaker of the House of Representatives and each member of the California delegation in the Congress of the United States.

CHAPTER 63

Assembly Joint Resolution No 14—Relating to Red Bluff Diversion Dam boat bypass.

[Filed with Secretary of State April 8, 1963]

WHEREAS, The United States Department of the Army permit to the Bureau of Reclamation authorizing the construction of the Red Bluff Diversion Dam contains a proviso that "If at any time in the future the interests of navigation shall require it, such alteration in the structure, or construction of lockage facilities, as may be required by the Secretary of the Army in the interest of navigation, shall be promptly executed by the permittee at its expense, so as to render means for navigation to pass the damsite"; and

WHEREAS, The recent report of the Bureau of Reclamation entitled "Passage of Small Boats, Red Bluff Diversion Dam, Sacramento Canals Unit, Central Valley Project," contains a study of three alternative plans, two incorporating methods to lift or carry boats over or around the dam at the damsite, and Plan C including a four-mile channel through Paynes Creek Slough to transfer the boats from below the dam to the river above the dam; and

WHEREAS, Plan C would give boaters on the river much better utilization of the river and avoid the hindrance and delay caused by a lift or ramp which would be manually operated; and

WHEREAS, Plan C would provide an excellent means of preserving the existing salmon and steelhead fishery which otherwise would be endangered by the dam even with a fish ladder, since many of such fish will not use a fish ladder, but under Plan C, since the fish could use a natural waterway, these fish would be allowed free migration; and

WHEREAS, The initial cost of Plan C would be higher than the cost of Plans A or B; but in the long run Plan C, which does not require daily maintenance or supervision as do Plans A or B, would cost no more, and in fact may even be less expensive than the other plans; and

WHEREAS, The local interests are heartily in support of Plan C for this project; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Bureau of Reclamation, the Secretary of the Army and all other persons or agencies involved are respectfully requested to approve Plan C for the passage of small boats at the Red Bluff Diversion Dam; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the Bureau of Reclamation, the Secretary of the Army, the President and Vice President of the United States, the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 65

Senate Joint Resolution No. 9—Relative to memorializing Congress to aid the San Francisco Bay Area Rapid Transit District.

[Filed with Secretary of State April 9, 1963.]

WHEREAS, The people in the Counties of Alameda, Contra Costa and San Francisco in November, 1962, approved construction of a three-county rapid transit system and authorized general obligation bonds to cover the cost of such project in the amount of $792,000,000; and

WHEREAS, These bonds and bond service will be supported in part out of a uniform property tax levied throughout the three counties comprising the San Francisco Bay Area Rapid Transit District; and

WHEREAS, Certain financial provisions will make it necessary to extend the construction period over an 8½-year period; and

WHEREAS, The Board of Supervisors of Alameda County and other public agencies have indicated their desire to supplement the property tax base as a means of financing construction of the rapid transit system; and

WHEREAS, The Congress of the United States has recognized the importance of federal participation in the financing of transportation systems in order to provide better balance and has provided certain funds and federal aid for urban mass transportation; and

WHEREAS, Federal financial aid for the Bay area rapid transit system would have the dual beneficial effect of reducing the property tax rate which Bay area property owners would otherwise be required to pay, and would make it possible to reduce the construction period by at least three years, thus bringing the benefit of rapid transit to the Bay area populace many years earlier than otherwise would be possible; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully urges Congress to enact federal legislation to provide federal grants and low-interest loans in sufficient amounts to substantially help construct and develop new transit facilities and to expand existing systems in the national metropolitan areas, and in the San Francisco Bay area in particular; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 66

Assembly Concurrent Resolution No. 38—Relative to a study relating to glass breakage in vehicle accidents.

[Filed with Secretary of State April 11, 1963.]

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Department of the California Highway Patrol is hereby requested to conduct a study, in co-operation with Cornell University, of side window glass breakage in vehicle accidents, compiling statistics as to the damage to persons and property from such glass breakage and comparing the safety of laminated glass and tempered glass used in vehicles, and to submit a report thereon to the Legislature by not later than the fifth calendar day of the 1965 Regular Session; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit a copy of this resolution to the Commissioner of the California Highway Patrol.

CHAPTER 67

Assembly Concurrent Resolution No. 52—Commending Y. Frank Freeman.

[Filed with Secretary of State April 11, 1963.]

WHEREAS, Y. Frank Freeman, board chairman of the Association of Motion Picture Producers and vice president of Paramount Pictures, is being honored on April 28 for his long and distinguished service to the Hollywood motion picture industry; and

WHEREAS, For nearly 25 years Mr. Freeman as a respected and beloved leader of the Hollywood community has been one of the State's leading citizens; and

WHEREAS, For all of this time he has devoted himself to innumerable civic, charitable and worthwhile endeavors for the betterment of his industry, community, State and country; and

WHEREAS, His devotion to the highest principles of Americanism have been an example and inspiration to his fellow men; and

WHEREAS, His industry and his community have chosen to honor him for all of these and many more of his magnificent contributions during the past quarter century; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Members of the Legislature join with his thousands of friends throughout the State and nation in paying tribute to Y. Frank Freeman as one of Hollywood's foremost citizens and statesmen; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a suitably prepared copy of this resolution to Y. Frank Freeman.

CHAPTER 68

Assembly Concurrent Resolution No. 35—Relative to merit awards to state employees.

[Filed with Secretary of State April 16, 1963]

WHEREAS, Section 13926 of the Government Code provides awards may be made to state employees in excess of one hundred fifty dollars ($150) when such awards are approved by concurrent resolution of the Legislature; and

WHEREAS, An award of one hundred fifty dollars ($150) divided equally has already been made to Helen K. Adley and Ronald E. Throp, Department of Public Works and Reclamation Board, respectively, for a suggestion that results in annual savings of four thousand seven hundred forty-four dollars ($4,744) by recommending that real estate descriptions be typed on multilith masters to permit the reproduction of as many copies as are desired without the need of retyping and reproofing each time additional copies are required; and

WHEREAS, An award of one hundred fifty dollars ($150) divided equally has already been made to Dewey C. Alderson and George A. Ornay, Division of Highways, for a suggestion that resulted in a one-time saving of seventeen thousand eight hundred sixty dollars ($17,860) and continuing annual savings of three thousand dollars ($3,000) by recommending that small reflectorized construction signs be fabricated from plywood or plyglass instead of aluminum; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Elliott G. Allen, Department of Insurance, for a suggestion that results in annual savings at three (3) state hospitals of one thousand eight hundred ninety-four dollars ($1,894) by recommending that the typing of each patient's name on the monthly billing to the counties for the care of mentally retarded patients be discontinued and show only each month's admissions by name and deducting those discharged, deaths, or transfers. This resulted in the elimination of typing eleven thousand one hundred thirty-six (11,136) names each month on monthly statements; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Frank M. Allen, Department of Finance, for a suggestion that results in annual savings of three thousand

two hundred one dollars and thirty-seven cents ($3,201.37) by recommending that watermeters be installed on all state buildings that are served by the City of Sacramento. Previously the charges were on a flat rate based upon each one thousand (1,000) square feet of floor space, and this results in the payment of lower water charges and affords the same rates to state buildings as to commercial buildings. Four (4) buildings have had the meters installed and the process is still continuing; and

WHEREAS, An award of one hundred fifty dollars ($150) divided equally has already been made to Roy E. Atwood, Wilbur H. Cox, Walter E. Gramith, Joseph S. Hare, George P. Smith and Melvin Woldstad, Department of Corrections, for a suggestion that results in annual savings of three thousand eight hundred fifty-two dollars ($3,852) by proposing that particle board cores, faced with veneer, be used in place of plywood in the shelves, bottoms and end panel components utilized in bookcases, miscellaneous modular units, and credenzas when a superior panel is desired. The use of the particle board with veneer overlay and hardwood bands eliminates the three-quarter-inch (¾") exterior plywood panels and provides greater construction strength and rigidity; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Dorothy A. Boisa, Department of Motor Vehicles, for a suggestion that results in annual savings of three thousand one hundred thirty dollars ($3,130) by recommending a revision in the procedure that eliminated one complete step in the processing of "holds" on drivers' licenses requiring further information before issuance or suspension; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to John C. Brown, Division of Highways, for a work improvement proposal that resulted in annual savings of two thousand seven hundred dollars ($2,700) by recommending the use of a Remington Rand sorting machine in lieu of an IBM machine for sorting transaction cards on the toll collectors daily reports at the San Francisco-Oakland Bay Bridge Toll Plaza; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Kenneth H. Cash, Department of Social Welfare, for a suggestion that results in additional net interest earnings of ninety-two thousand three hundred eighty-two dollars ($92,382) annually, by suggesting a revision in the method of advancing extended payments for aid to public welfare recipients by the State to the various counties. The amount of savings excludes the interest earnings of those counties which invest welfare funds on a short-term basis or commingle such funds with regular funds, thus making equivalent amounts available for inclusion in their county investment programs; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to H. Ross Clinton, Division of High-

ways, for a suggestion which results in annual savings of twenty-five thousand dollars ($25,000) by proposing that full circle corrugated metal culvert pipe be spot welded instead of riveted. This has resulted in a savings of twenty percent (20%). The Division of Highways states that a study of the proposal indicated the welded pipe to be comparable to or better than riveted pipe in strength and possible corrosion resistance; and

WHEREAS, An award of one hundred fifty dollars ($150) divided equally has already been made to Clare W. Copleman and Paul Howlett, Department of Conservation, for a suggestion that results in annual savings of two thousand seven hundred dollars ($2,700) by recommending that precut redwood box culverts be used on park and fire roads instead of the reinforced concrete culverts or corrugated metal pipe. The department states the material used would come from salvage or "down" timber, and the use of such material would not conflict with private industry or be contrary to the general policy of forest operations in the state forests; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Kenneth G. Corbin, Division of Highways, for a suggestion resulting in annual savings of two thousand four hundred dollars ($2,400) by recommending the development of a basic set of strip maps on a common scale for all state highways. These strip maps are used for project report strip maps, for plotting requests for aerial surveys and index maps, for plotting material sites, for preliminary study maps, and for other purposes; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Lester G. Crouse, Department of Finance, for a suggestion that resulted in annual savings of thirteen thousand six hundred seven dollars ($13,607) by recommending the elimination of the adjustment and changing of automatic transmission fluid on Ford and Studebaker cars equipped with automatic transmissions. Previously these transmission band adjustments and transmission fluid changes were made every twenty thousand (20,000) miles. During the first year the idea was in effect, they made such adjustments and changes every forty thousand (40,000) miles instead of eliminating the adjustment entirely. It is this saving upon which this award recommendation is based. However, effective January 2, 1963, because this first year's experience indicates that it will be possible to eliminate the second forty thousand (40,000) mile adjustment and change and not make any brake band adjustment or oil changes during the entire one hundred thousand (100,000) mile life expectancy in state service, an additional comparable saving is indicated and both the Board of Control and the State Merit Award Board have authorized review at the end of this calendar year to determine if further savings are realized; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to A. Nelson Culver, Department of

Fish and Game, for a suggestion that results in annual savings of five thousand five hundred ninety dollars ($5,590) by designing and having built to his specifications a cylinder-type mechanical dry fish feed dispenser. The savings result through elimination of nine (9) man-months of seasonal aid time and a decrease of two thousand six hundred twenty-nine dollars ($2,629) in fish food costs; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Evelyn J. DeVerter, Board of Equalization, for a suggestion that results in annual savings of four thousand nine hundred ninety-six dollars ($4,996) by recommending the elimination of Form S-52, twelve thousand (12,000) of which were prepared each year in the Delinquency Control Section, and to revise Form S-523 to include those data that were not previously incorporated on the form; also to prepare the new Form S-523 in sufficient copies so that one copy could be sent to the Ledger Unit and then to the Delinquency Control Section. This change eliminated two (2) clerical positions, one of which was absorbed in the Ledger Unit, as well as savings in the Central Files, Electronic Data Processing Section, and the district offices; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to David L. Dewey, Division of Highways, for a suggestion that results in annual savings of one thousand nine hundred dollars ($1,900) by proposing the adoption of a table, compiled by the suggester, for predetermining letter width and spacing for computing sign lengths on highway signs; and

WHEREAS, An award of one hundred fifty dollars ($150) divided equally has already been made to Murray Dosch and Aaron D. Stockton, Department of Conservation, for a suggestion resulting in annual savings of four thousand two hundred thirty-six dollars ($4,236) by designing and building on their own time an optical enlarger-reducer machine utilized daily by the Division of Oil and Gas for rapid and accurate reproduction of graphical material necessary in the preparation of engineering-geologic projects and reports; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Jack DuBois, Department of Corrections, for a suggestion resulting in annual savings of four thousand ninety-five dollars ($4,095) by recommending a change in the feeding procedure for inmates employed at the cannery at Folsom Correctional Industries. Previously they shut down the cannery at approximately four-thirty p.m. (4.30 p m.) for about one and one-half hours so that the "main line" inmates could eat. Now a smaller crew are eating first with the production line still operating, and then, when they have finished their meal they relieve the "main line" so there is no interruption in production. This change enabled the cannery production line to gain one hour's production and resulted in the saving of two (2) man-hours of tower time (two (2)

towers with one (1) man each) plus two (2) hours of supervisory time, for a total of six (6) man-hours per day; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Laura M. Gipson, Department of Motor Vehicles, for a suggestion resulting in annual savings of four thousand sixty-four dollars ($4,064) by recommending that a special form be attached to the driver record with sufficient information noted to enable a person reviewing the application at some future date to determine, without further checking, just what action has been taken; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Martha Grivas, State Compensation Insurance Fund, for a suggestion that results in annual savings of eight thousand nine hundred forty-six dollars ($8,946) by proposing that all medical bills for compensation insurance cases be paid on a weekly basis rather than daily. This reduced the number of medical checks written by twenty-eight percent (28%), or a reduction in typed checks of seventy thousand (70,000), and, as more than one check can be mailed per envelope when necessary, eliminates the use of eighty thousand (80,000) envelopes annually; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Pauline E. Kelley, Department of Alcoholic Beverage Control, for a suggestion that results in annual savings of six thousand nine hundred three dollars ($6,903) by recommending a revision in the procedure in submitting remittances by district offices of the Alcoholic Beverage Control to the headquarters' cashier for deposit. The savings are the result of the elimination of deposit charges, cost of forms, clerical time and, in addition, time required to drive a cashier or clerk to make a bank deposit; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made for a suggestion that resulted in annual savings of one thousand nine hundred dollars ($1,900), Mr. Joseph B. LaClair, Department of Agriculture, participated in developing the procedure that permitted the use of blanket purchase orders for yearly requirements of high use chemicals and reagents. The adoption of this suggestion involved reference to and compliance with the State Industrial Accident Commission, National Board of Fire Underwriters, and State Fire Marshal, and provisions for the storage of flammable solvents The award is to be paid to the estate of the suggester; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to George W. Lunsford, Department of Finance, for a suggestion that results in annual savings of eight thousand eight hundred dollars ($8,800) by proposing that the contracts for the purchase and installation of automobile glass be separated from the regular statewide glass contract used for the purchase of all other types of glass. This resulted in stabilizing the labor costs for the installation

of automobile glass and a new service agreement wherein the State is given a discount of fifty percent (50%) of the retail price instead of the varying discounts previously offered.

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Raymond M. Miller, Department of Fish and Game, for a suggestion resulting in annual savings of one thousand eight hundred eighty-three dollars ($1,883) by recommending the purchase and installation of a folding machine for folding approximately six (6) sheets of 20-pound substance paper of weekly press releases and other material when small enough for self-mailer and the automatic collating of such material instead of performing the whole operation by hand; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Lester M. Minetti and Frank J. Plesko, Division of Highways, for a suggestion which results in annual savings of three thousand dollars ($3,000) by recommending the elimination of hand coloring on exhibit maps and that opaquing be used instead, which will give an accurate and clear symbol of the freeway lanes and the portions of interchange ramps over which it is desirable that the department retain control; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Betty L. Penrose, Department of Motor Vehicles, for a suggestion resulting in net annual savings of three thousand six hundred fifty-two dollars ($3,652) by revising three (3) motor vehicles forms to include an address box and instructions for filing with the department. This eliminates the department having to type this information on the forms and also eliminates typing the cover sheet and does not require hand feeding in the folding and inserting machine used in the mailroom; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Sam J. Rosenfield, Military Department, for a suggestion which results in annual savings of four thousand five hundred eighty dollars and three cents ($4,580.03) for suggesting that the State discontinue the payment of public liability premium on approximately four thousand five hundred thirty (4,530) federal vehicles issued to the California National Guard. This was made possible because the federal government is now responsible for all claims for damage done by federal vehicles in the National Guard service while being operated by National Guard personnel on active duty. Approximately one hundred ninety-eight (198) vehicles in this category being operated by civilian employees still require this liability insurance; and

WHEREAS, An award of one hundred fifty dollars ($150) divided equally has already been made to Dana Seale and Violet Smithson, Franchise Tax Board, for a suggestion resulting in annual savings of two thousand three dollars ($2,003) by recommending that blocks of corporation plates be assessed

without first being identified and processed by alpha file clerks. Inasmuch as these plate blocks bear the taxpayer's correct name, corporate number, address, and accounting period shown by their records (except for recent changes including those shown on returns being processed) the identification of these items is unnecessary; and

WHEREAS, An award of one hundred fifty dollars ($150) divided equally has already been made to Paul Thorgrimson and Francis Watson, Department of Motor Vehicles, for a suggestion resulting in annual savings of eighty thousand eight hundred seventy-eight dollars ($80,878) by recommending a change in the procedures for handling dishonored checks received by the Department of Motor Vehicles. All checks received in the local offices are now being endorsed with the headquarters bank stamp endorsement (bearing the bank number) so that the handling and processing of dishonored checks is concentrated in one spot instead of being handled personally by each local office manager where the checks are first accepted. Previously, when a dishonored check was received in the local office, the manager would teletype the central office for a revolving fund check and he would then have to personally go to the bank, hand in the state check, secure the dishonored checks, and then forward them with the entire files to the headquarters office, which then attempted to collect the amounts due. Now the checks are immediately redeposited by the headquarters office and, if cleared upon redeposit, no further action is necessary. However, those failing to clear the second time are immediately handled by Headquarters Unit 17 and prompt collection enforced. In addition to savings in the headquarters and district offices, this idea has also resulted in an increase in the collection of penalties, as all delinquent renewals are now being penalized for the first time. Although the departmental savings equal the amount of eighty thousand eight hundred seventy-eight dollars ($80,878), fifty-nine thousand one hundred seventy-three dollars ($59,173) accrued to the Division of Registration where these employees work and the savings accruing in their own division have been omitted as a basis for award determination. The award is computed on twenty-one thousand seven hundred five dollars ($21,705) savings that accrued to the Divisions of Field Operations and Administration; and

WHEREAS, The suggestions of these employees have resulted in one-time and recurring savings amounting to three hundred twenty-three thousand eight hundred ninety-six dollars forty cents ($323,896.40) annually; and

WHEREAS, As a result of these savings it is unnecessary to appropriate additional funds for the payment of these awards; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the following additional awards,

which have been approved by the State Board of Control, are hereby authorized to the employees named:

Helen K. Adley, one hundred three dollars ($103);
Dewey C. Alderson, four hundred seventy-six dollars ($476);
Elliott G. Allen, thirty-nine dollars ($39);
Frank M. Allen, one hundred seventy-five dollars ($175);

H. Ross Clinton, two thousand three hundred fifty dollars ($2,350);

Kenneth G. Corbin, ninety dollars ($90);
Wilbur H. Cox, thirty-nine dollars ($39);
Lester G. Crouse, five hundred thirty dollars ($530);

Evelyn J. DeVerter, three hundred fifty dollars ($350);
David L. Dewey, forty dollars ($40);
Murray Dosch, two hundred forty-two dollars ($242);
Jack DuBois, two hundred fifty-nine dollars ($259);
Laura M. Gipson, two hundred fifty-six dollars ($256);
Walter E. Gramith, thirty-nine dollars ($39);
Martha Grivas, seven hundred forty-five dollars ($745);
Joseph S. Hare, thirty-nine dollars ($39);
Paul Howlett, sixty dollars ($60);
Pauline E. Kelley, five hundred forty dollars ($540);
To the estate of Joseph B. LaClair, fifty-seven dollars ($57);
George W. Lunsford, six hundred thirty dollars ($630);
Raymond M. Miller, forty-nine dollars ($49);
Lester M. Minetti, seventy-five dollars ($75);
George A. Ornay, four hundred seventy-six dollars ($476);
Betty L. Penrose, two hundred dollars ($200);
Frank J. Plesko, seventy-five dollars ($75);
Sam J. Rosenfield, three hundred eight dollars ($308);
Dana Seale, twenty-six dollars ($26);

Paul Thorgrimson, one thousand ten dollars ($1,010);
Ronald E. Throp, one hundred three dollars ($103);

and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the State Board of Control and the State Controller.

Resolved, That copies of this publication be mailed to the Members of the Legislature by the Chief Clerk of the Assembly as soon as possible after printing; and be it further

Resolved, That the Chief Clerk of the Assembly shall cause to be printed 2,000 copies of the Summary Digest, the cost thereof to be payable from the legislative printing appropriation.

CHAPTER 70

Senate Concurrent Resolution No. 2—Relative to efficiency and economy in state printing.

[Filed with Secretary of State April 17, 1963]

WHEREAS, The Legislature has undertaken to economize in the cost of its operation as it relates to legislative printing and is currently engaged in a study of this problem through the Joint Committee on Legislative Organization as provided by Assembly Concurrent Resolution No. 60 of the 1961 Regular Session (Res. Ch. 187); and

WHEREAS, The Joint Budget Committee has recommended certain changes in the accounting and cost analysis system of the State Printing Office to improve its efficiency; and

WHEREAS, Such studies as have been made to date indicate that all state printing is interrelated and that legislative printing averages less than one-tenth of the total amount of ten million dollars ($10,000,000) expended annually for state printing; and

WHEREAS, Recent events have indicated that the public interest requires a careful study of the printing of school textbooks in the State Printing Office and the effect thereof on other state printing costs; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Joint Committee on Legislative Organization is hereby directed to continue and expand

its study of state printing to include a study and investigation of all facts relating to state printing and the operation of the State Printing Office, including the printing of school textbooks, and to report to the Legislature thereon not later than the fifth calendar day of the 1965 Regular Session, and to include in its report any recommendations it may have designed to bring about greater economy and efficiency in state printing.

Senate Concurrent Resolution No. 36—Relative to making additional funds available to the Legislative Budget Committee, established by Chapter 1667, Statutes of 1951.

[Filed with Secretary of State April 17, 1963]

Resolved by the Senate of the State of California, the Assembly thereof concurring, That in addition to any money heretofore made available to it, the sum of four hundred fifty thousand dollars ($450,000) or so much thereof as may be necessary is hereby appropriated from the Contingent Funds of the Senate and of the Assembly for the payment of any and all expenses incurred by the Legislative Budget Committee or its members pursuant to and under authority of the provisions of Joint Rule No. 37 to be expended equally from the Contingent Funds of the Senate and of the Assembly.

CHAPTER 72

Senate Joint Resolution No. 5—Relative to itinerant offices for unemployment insurance benefits.

[Filed with Secretary of State April 17, 1963]

WHEREAS, Unemployment is not limited to the heavily concentrated population areas but extends into the suburban areas; and

WHEREAS, Individuals who are unemployed are often required to go great distances in order to negotiate and claim their accrued state unemployment benefits; and

WHEREAS, The burden of the travel expense falls upon those who are in a position least able to shoulder such expense and this added expense tends to vitiate the objectives of the unemployment compensation program; and

WHEREAS, A program conducted in Anderson, California, has indicated that establishment of itinerant offices to handle unemployment benefits is administratively feasible and will result in only a small added cost; and

WHEREAS, This program at Anderson, California, has saved those claimants using the local unemployment insurance benefits office in 1962 a total travel mileage of 39,314 miles; and

WHEREAS, The above 39,314 miles saved represented an approximate 25 percent of those eligible to receive pay in the Anderson area and had the other 75 percent of those eligible received their pay in the Anderson office there would have been a total mileage saving of 167,000 miles at a cost to the unemployment insurance agency of only 600 miles. The other 75 percent of those eligible to receive pay in the Anderson office penalized themselves an additional 127,686 miles of travel in order to receive their pay weekly instead of semimonthly, as the Anderson office is on a semimonthly basis; and

WHEREAS, Additional funds from the United States government are necessary in order for the State of California to implement a regular program of itinerant unemployment insurance offices; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Congress of the United States is urged to enact legislation granting additional funds which will enable the states to establish a system of itinerant unemployment insurance benefit offices, on a weekly payment basis, for suburban areas; and be it further

Resolved, That the Secretary of the Senate be hereby directed to send copies of this resolution to the President of the United States, the President pro Tempore of the Senate, the Speaker of the House of Representatives, and each member of the California delegation in the Congress of the United States.

Senate Concurrent Resolution No. 52—Approving amendments to the Charter of the City of San Buenaventura, a municipal corporation in the County of Ventura, State of California, voted for and ratified by the qualified electors of said city at the general municipal election held therein on the ninth day of April, 1963.

[Filed with Secretary of State April 18, 1963]

WHEREAS, Proceedings have been had and taken for the proposal, adoption and ratification of amendments hereinafter set forth to the charter of the City of San Buenaventura, a municipal corporation, in the County of Ventura, State of California,

as set out in the certificate of the mayor pro tem and the city controller and ex-officio city clerk of said city as follows:

CERTIFICATE OF AMENDMENTS TO THE CHARTER OF THE CITY OF SAN BUENAVENTURA, CALIFORNIA

State of California
County of Ventura } ss.
City of San Buenaventura

We, DAVID R. DRAPEAU, Mayor pro tem of the City of San Buenaventura, California, and SCOTT RUCKMAN, City Controller and Ex-Officio City Clerk of said City, do hereby certify and declare as follows:

That the City of San Buenaventura, a municipal corporation in the County of Ventura, State of California, is now, and was at all times herein mentioned: (a) a city containing a population of more than three thousand five hundred, but less than fifty thousand inhabitants as ascertained by the last preceding census taken under the authority of the Congress of the United States; (b) a city organized and existing under a freeholders' charter, adopted under the provisions of Section 8 of Article XI of the Constitution of the State of California, which charter was heretofore duly ratified by a majority of the qualified electors of said City at an election duly held for that purpose on the 7th day of January, 1932, and approved by the Legislature of the State of California by concurrent resolution filed with the Secretary of State on the 26th day of January, 1933, (Statutes of 1933, p. 2870).

That in accordance with the provisions of Section 8 of Article XI of the Constitution of the State of California, the Council of the City of San Buenaventura, being the legislative body of said City, on its own motion, by Ordinance No. 1243, duly and regularly submitted to the qualified electors of said City certain proposals for the amendment of the charter of said City to be voted on by said qualified electors at the general municipal election called and held for that purpose in said City on the 9th day of April, 1963.

That on the 28th day of February, 1963, the said proposed amendments were published and advertised in accordance with Section 8 of Article XI of the California Constitution and the charter of the City of San Buenaventura, in each and every edition of said day of February 28, 1963, in "The Ventura County Star-Free Press", a daily newspaper of general circulation printed and circulated in said City, and being the official newspaper of said City; all as shown by the affidavit of publication on file in the office of the City Controller and Ex-Officio City Clerk of said City.

Such proposed charter amendments were submitted to the electors of said City for adoption and ratification at a general municipal election held on April 9, 1963, which was not less

than forty, nor more than sixty, days after completion of the advertising in the official newspaper of the proposed charter amendments aforesaid

At said election a majority of the qualified electors voting upon the proposed charter amendments voted in favor thereof and adopted and ratified the same, as appears by the official canvass of the returns thereof by the Council of the City of San Buenaventura, which pursuant to law met on April 15, 1963, and duly declared the result of said canvass of the returns of said election by Resolution No. 5520.

That the said amendments to the charter of the City of San Buenaventura, so adopted and ratified by the qualified electors of said City, and which shall be submitted to the Legislature for approval or rejection, are in words and figures as follows:

AMENDMENT NO. 1: That Section 2 and Subsections 1 and 2 of Section 3 of Article V of the Charter of the City of San Buenaventura be amended to read:

"SECTION 2: CALLING FOR ELECTION: The Council shall by ordinance order the holding of all elections. Such ordinance shall establish precincts for the holding of such election either by adopting or consolidating precincts established for holding general elections or by setting forth their boundaries, and shall specify the objects and time for holding such elections, and the number and the names of the officers of election and the polling place for each voting precinct. The number of election officers at each precinct shall not exceed six; at least three of whom shall be present at all times during the election. Said ordinance shall be published once in the official newspaper, not more than 75 days nor less than 54 days before the time appointed for holding the election, and no other notice thereof need be given. Elections submitting amendments to this Charter shall comply with the provisions of Section 8, Article XI, of the Constitution of the State of California.

(Subsections 1 and 2 of SECTION 3): "1. Not earlier than the 75th day nor later than 12 o'clock noon on the 54th day before any general municipal election, electors of the city may, by written nomination paper present names of candidates for election. Each candidate shall be proposed by not less than five nor more than ten qualified electors, but only one candidate shall be named in any one nomination paper. No elector may sign more than one nomination paper for the same office, but each seat on the Council shall be deemed a separate office. Any person or persons may circulate a nomination paper.

2. The signatures to each nomination paper shall all be appended on the same sheet of paper and each signer shall add thereto the date and his place of residence. All such nomination papers shall be filed with the City Clerk not later than 12 o'clock noon on the 54th day before such election, and shall have annexed thereto an affidavit of the person who circulated

the same to the effect that he saw all the signatures appended thereto and knows that they are the bona fide signatures of the persons whose names they purport to be. Each nomination paper shall be accompanied by a verified statement of the candidate that he will accept the nomination and also accept the office in the event of his election."

AMENDMENT No. 2: That Section 2 of Article VI of the Charter of the City of San Buenaventura be amended to read:

"SECTION 2: COMPENSATION. Each Councilman shall receive $50.00 for each regular Council meeting attended, not to exceed $100.00 per month, effective April 12, 1963. The Library Trustees and the Board of Education shall serve without compensation. The compensation for services rendered of all appointive officers and employees of the City, except officials and members of boards, commissions and committees, serving gratuitously, shall be fixed or changed by the annual appropriation ordinance adopted by four-sevenths vote of the Council, and except the office of Manager, upon the recommendation of the Manager only. No officer or employee shall be allowed any fee, perquisite, emolument or stipend, in addition to, or save as embraced in the salary or compensation fixed for such office by the Council, and all fees received by such officer or employee in connection with his official duties shall be paid by him into the City Treasury."

AMENDMENT No. 3: That Article VIII of the Charter of the City of San Buenaventura be repealed and Section 1 of Article VI and Subsection 5 of Section 5 of Article VII of the Charter of the City of San Buenaventura be amended to read:

"(SECTION 1, ARTICLE VI): OFFICERS. The officers of the City of San Buenaventura shall be seven members of the Council, five members of the Board of Education, five Library Trustees, a City Manager, a City Attorney, a City Controller who shall be Ex-Officio City Clerk, a City Treasurer who shall be Ex-Officio City Tax Collector, a City Assessor, a City Engineer, a Chief of Police, a Fire Chief, a Health Officer, and such other officers or boards under the control of the Manager as the Council may create by ordinance. The members of the Council shall be elected from the City at large, as provided in this Charter; the members of the Board of Education shall be elected from the San Buenaventura School District at large; provided, however, that all qualified electors of the San Buenaventura School District shall have the right to vote for members of the Board of Education. All other officers, assistants, deputies, clerks, and employees appointed as provided in this Charter, shall hold their respective offices or positions at the pleasure of the appointing power. Where the appointment of any of said officers is vested in the Council, such appointment and any removal must be made by a four-sevenths vote of the Council.

"(Subsection 5, Section 5, Article VII): 5. Appoint a City Manager, a City Attorney, and five Library Trustees."

AMENDMENT No. 4 That Article VI of the Charter of the City of San Buenaventura be amended by adding Section 7 thereto, said new section to read:

"SECTION 7: WHAT CONSTITUTES INTEREST. An officer or appointee serving on the Council, a Board, or Commission shall not be deemed to be interested in a contract, business, sale, purchase, or transaction with the City as the term is used in Section 6, Article VI, or Subsection 5, Section 9, Article VII of this Charter if he has only a remote interest therein and if the fact of such interest is disclosed to the body or board of which he is a member and noted in its official records, and thereafter the body or board authorizes, approves or ratifies the contract or transaction in good faith by a vote of its membership sufficient for the purpose without counting the vote or votes of the officer or member with the remote interest. As used herein, "remote interest" includes: 1. That of a nonsalaried officer of a non-profit corporation; 2. That of an employee of the contracting party, if such contracting party has 10 or more employees and if the officer was an employee of said contracting party for at least three years prior to his initially accepting his office; 3. That of a parent in the earnings of his minor child for personal services; 4. That of a landlord or tenant of the contracting party; 5. That of an attorney for the contracting party; or 6. That of a member of a non-profit corporation formed under the Agricultural Code or a non-profit corporation formed under the Corporations Code for the sole purpose of engaging in the merchandising of agricultural products; 7. The ownership of less than 3 percent of the shares of a corporation for profit; 8. That of an officer in being reimbursed for his actual and necessary expenses incurred in the performance of official duty.

Any officer or appointee who influences or attempts to influence another member of the body or board of which he is a member to enter into a contract or transaction shall be considered to be interested in said contract or transaction even though his interest would have otherwise been a remote interest pursuant to this section.

The willful failure of an officer or appointee to disclose the fact of his interest in a contract or transaction shall be punishable as provided in Section 6 of Article VI. Such violation shall not void the contract, however, unless the contracting party had knowledge of the fact of the remote interest of the officer at the time the contract was executed.

Any contract made in violation of this section may be avoided at the instance of any party except the officer interested in the contract, provided that no such contract may be avoided because of the interest of an officer therein unless such contract is made in the official capacity of such officer, or by a board or body of which he is a member."

We further certify that we have compared the text of the foregoing amendments to the charter of the City of San Buenaventura with the original proposals submitting the same to the electors of said City, and find that the foregoing are full, true, correct and exact copies of said amendments. That as to all of said amendments, this certificate shall be taken as a full and complete certification of the regularity of all proceedings had and done in connection therewith.

In witness whereof, we have hereunto set our hands and have caused the seal of the City of San Buenaventura to be affixed hereto this 15th day of April, 1963.

Upon a vacancy occurring leaving an unexpired portion of a term, any appointment to fill such vacancy shall be for the unexpired portion of such term. If a member of a board or commission absents himself from three regular meetings of such board or commission, consecutively, unless by permission of such board or commission expressed in its official minutes, or is convicted of a crime involving moral turpitude, or ceases to be a qualified elector of the City, his office shall become vacant and shall be so declared by the City Council.

The members of such boards and commissions shall serve for a term of four years and until their respective successors are appointed and qualified. The members first appointed to such boards and commissions shall so classify themselves by lot that the term of one of each of their number shall expire each succeeding July 1. Where the total number of the members of a board or commission to be appointed exceeds four, the classifi-

cation by lot shall provide for the pairing of terms to such an extent as is necessary in order that the terms of at least one and not more than two shall expire in each succeeding year. Thereafter, any appointment to fill an unexpired term shall be for such an unexpired period.

Section 907. BOARD OF RECREATION AND PARKS. The members of the Board of Recreation and Parks shall be appointed from the qualified electors of the City. Seven members shall be appointed by the City Council; not more than five of these seven members shall be of the same sex. One additional member shall be appointed by the governing board of each school district operating one or more elementary schools located within the City of Santa Ana, except that there shall not be more than four such additional members. If more than four school districts operate elementary schools within the City, appointment of the additional members shall be made by the governing boards of those districts having the largest assessed value of property lying within the City of Santa Ana. No member of the Board of Recreation and Parks shall hold any paid office or employment in the City government.

Section 1002. COMPETITIVE AND EXCEPTED SERVICE. The Civil Service of the City shall be divided into the Competitive Service and the Excepted Service.

(a) The Excepted Service shall comprise the following offices and positions:

1. The individual offices held by all elective officers;
2. The City Manager and administrative assistants, if any;
3. The City Attorney and his legal assistants, if any;
4. The Director of Finance;
5. The Director of Personnel, if any;
6. One private secretary to the City Manager;
7. All posts as members of boards and commissions;
8. Positions occupied by persons employed to render professional, scientific, technical, or expert service of an occasional and exceptional nature;
9. Positions in any class or grade created for a special or temporary purpose, and which are to exist for a period of not longer than ninety days;
10. Positions of any class or grade exempted from the Competitive Service for a maximum period of six months in any calendar year provided that the Personnel Board, upon application of the City Manager and after public notice and hearings, recommends to the City Council such exemption and the City Council grants such exemption by motion adopted by four of its members. Any such exemption shall not affect the tenure of any person whose appointment has become final under Civil Service;
11. Part-time positions or employments requiring less than twenty regular hours of employment per week;
12. School crossing guards.

(b) The Competitive Service shall comprise all positions not specifically included by this Section in the Excepted Service.

(c) Any person who, on the effective date of this Charter, holds a position or employment included in the Competitive Service as defined in this Section, or who is on an eligible or re-employment list for a position or class of position in such Competitive Service, shall retain all status previously held prior to the effective date of this Charter in such position, employment, eligible list, or re-employment list.

(d) The person holding the position of City Clerk, City Treasurer, or City Marshal, each formerly an elective officer, if he shall have served continuously in such position for the period of six months immediately prior to such effective date, shall assume regular status in the Competitive Service under this Charter—as to the person formerly holding the position of City Clerk, in the position of Clerk of the Council; as to the person formerly holding the position of City Treasurer, in a position having similar duties in the department headed by the Director of Finance; and as to the person formerly holding the position of City Marshal, in a position of Chief of Police, the duties of which position shall be prescribed by the City Council by ordinance.

Section 1007. ELIGIBLE LISTS, CERTIFICATION, AND APPOINTMENT. Upon completion of any examination, the City Manager shall cause to be prepared and shall approve an eligible list with the persons who passed such examination being listed in relative order of the points they received, from highest to lowest. Such eligible list shall remain in effect for two calendar years unless within such period the City Manager, or such person under the City Manager having charge of personnel administration, shall not be able to certify for appointment the number of persons required under the provisions of this Section.

Upon receipt of notice of a vacancy in the Competitive Service, the City Manager, or such person under the City Manager having charge of personnel administration, shall certify to the appointing power the names of the three highest candidates on the eligible list for such position. The appointing power may appoint, of the three thus certified, whichever one in his opinion is best qualified for such position. No candidate may be certified more than three times for any one class or classified position from an eligible list resulting from any one examination.

If no eligible list for the classification exists, or an existing list for the classification contains less than the required three persons who are eligible and available for appointment, the City Manager, or such person under the City Manager having charge of personnel administration, shall so notify the appointing officer who may appoint one of the lesser number of persons or may make a temporary appointment to the vacancy at his discretion. Such temporary appointment may not be for a longer period than one hundred and eighty calendar days

after the first day of such temporary appointment, nor may temporary appointments be made to any positions for a cumulative total of more than one hundred and eighty calendar days in one calendar year following the first day on which the position is filled by a temporary appointment.

Upon appointment to a position in the Competitive Service, other than a temporary appointment, the person so appointed or promoted shall hold probationary status in such position and in the class to which it has been allocated. The duration of the period of probationary status shall be determined by the Civil Service rules and regulations provided for in this Article, but in no instance shall extend over a period of more than one year. During such probationary period the employee may be rejected at any time without right of a hearing before the Personnel Board. When an employee has been retained continuously in probationary status for the required period, he shall achieve permanent status.

An employee rejected during the probationary period from a position to which he has been promoted shall be reinstated to the position from which he was promoted, unless he is dismissed from the service of the City in addition to the rejection, in which event he shall have the right of a hearing before the Personnel Board as to such order of dismissal in the manner prescribed in Section 1008 of this Article.

Section 1400. EMPLOYEES' RETIREMENT SYSTEM. Plenary authority and power are hereby vested in the City, its City Council, and its several officers, agents, and employees to do and perform any act, or exercise any authority granted, permitted, or required under the provisions of the State Employees' Retirement Law, as it now exists or may hereafter be amended, to enable said City to continue as a contracting City participating in the State Retirement System. The City Council is directed to levy all necessary taxes to ensure the continuance of the City as a contracting member of the State Employees' Retirement System in accordance with the provisions of Section 601 of this Charter.

The City Council may not terminate any such contract with the Board of Administration of the State Employees' Retirement System and may not amend any such contract in a manner which would decrease or eliminate any benefit accruing to personnel employed by the City at the time of such contract termination or amendment, unless such amendment shall substitute an equal or greater benefit for said employees, unless the proposition for such contract termination or amendment shall be approved by ordinance adopted by a two-thirds vote of the electors of the City voting on such proposition at a general or special municipal election.

We further declare that the foregoing constitutes a true and correct statement of the proceedings had by the City of Santa Ana and the City Council of said City in the presenta-

organized and existing under a freeholders' charter, adopted under the provisions of Section 8, Article XI of the Constitution of the State of California, which charter was heretofore duly ratified by a majority of the electors of said City at a special election held for that purpose on the 6th day of May, 1924, and approved by the Legislature of the State of California by concurrent resolution filed with the Secretary of State on the 26th day of January, 1925 (Senate Concurrent Resolution No. 2, Chapter No. 5, Statutes 1925, p. 1024).

That in accordance with the provisions of Article XI, Section 8, of the Constitution of the State of California, the Council of The City of Los Angeles, being the legislative body of said City, on its own motion, duly and regularly submitted to the qualified electors of The City of Los Angeles certain proposals for the amendment of the Charter of said City to be voted upon by said qualified electors at a certain general municipal election held on the 2nd day of April, 1963, all as required by law, which said proposals were designated as proposed Charter Amendments 1, 2, 3, 4, 5, 6, 7, 8, and 9, respectively.

Sec. 97. (1) No ordinance, order or resolution shall be adopted by the Council authorizing, ordering or involving any of the following enumerated matters, unless and until such ordinance, order or resolution shall have first been submitted to the City Planning Commission for report and recommendation concerning the relation of the matter involved to and its effect upon any portion of the master plan of the City or any plans being prepared by said department:

Should the City Planning Commission recommend approval or fail to make any recommendation within the time mentioned herein, said Council may adopt such ordinance, order or resolution by a majority vote of the whole Council.

(2) No ordinance, order or resolution shall be adopted by the Council involving (i) the creation or change of any zones or districts for the purpose of regulating the use of land, density of population, the height, bulk, location or use of buildings or structures therein, or the size of yards, open spaces or setbacks adjacent to buildings or structures, or (ii) the establishment, change or repeal of regulations applying within any of said zones, districts, yards, open spaces or setbacks, unless and until it shall have first been submitted to the City Planning Commission for report and recommendation concerning the following:

(a) Its relation to and effect upon any portion of the master plan of the City or any plans being prepared by the Department of City Planning, and

(b) Whether its adoption will be in conformity with public necessity, convenience, general welfare and good zoning practice.

Proceedings for the creation or change of any of said zones or districts or the establishment, change or repeal of any regulations applying therein, may be initiated by the filing of an application with the City Planning Commission as provided for by ordinance, or by the Council or the City Planning Commission.

When a proceeding involving any of the matters mentioned in subsection (2) hereof is initiated by the Council, it shall be the duty of the City Planning Commission to make and file its report and recommendations thereon with the Council within fifty (50) days of receiving same or within such additional time as the Council may specify. Should the Commission recommend approval of the matter involved, in whole or in part, or fail to make any recommendations within the time limit specified herein, an ordinance, order or resolution in conformity therewith shall be prepared and presented to the Council, which may adopt same by majority vote of the whole Council. Should the Commission recommend against the approval thereof, in whole or in part, its action thereon shall be final except that an appeal may be taken to the Council within the time and in the manner prescribed by ordinance. The Council shall review the action of the Commission and may adopt an ordinance, order or resolution effectuating same only upon a two-thirds vote of the whole of the Council.

(3) In complying with the provisions of this section, the City Planning Commission shall hold such hearing or hearings as it may determine, or as may be required by ordinance, or may direct an examiner to conduct such hearings for it. The Director of Planning shall make such investigations relative to all matters mentioned in this section as the City Planning Commission may direct and shall file his reports thereon with the Commission.

(4) Notwithstanding any of the provisions of this Charter to the contrary, any of the powers or duties conferred upon the City Planning Commission by subsections (1), (2) and (3) hereof, except those of reporting and recommending on the creation or change of zones or districts, or the regulations applying within said zones or districts, may be delegated to the Board of Zoning Adjustment by ordinance adopted by two-thirds vote of the whole of the Council, after report thereon by the City Planning Commission and the Board of Zoning Adjustment. (5) The City Planning Commission may authorize the Director of Planning to approve for the City Planning Commission or the Board of Zoning Adjustment, any ordinance, order or resolution which he finds conforms with the latest approved applicable portion of the master plan, or which conforms to the last action of said Commission or Board, within the time limit and with the same effect as if they had acted directly thereon.

Sec. 98½. There is hereby created a Board of Zoning Adjustment consisting of five (5) members, who shall be appointed by the Mayor subject to confirmation of the Council, one of whom may be a member of the City Planning Commis-

sion. The terms of the members of said board shall be for five (5) years, except that the terms of the present members of the Board of Zoning Appeals on the effective date of this section shall continue for the balance of the respective terms for which they were appointed. The members of said Board shall receive such compensation as the Council may from time to time fix and determine, by ordinance, and they shall be exempt from the civil service provisions of this Charter.

Sec. 99. The Board of Zoning Adjustment shall have and exercise the following powers:

(a) To hear and determine appeals where it is alleged there is error or abuse of discretion in any order, requirement, decision or determination by a Zoning Administrator, either initially or in the determination of any appeal from the Department of Building and Safety as provided for in Section 98 this Charter, in the enforcement of the provisions of any ordinance adopted by the Council creating zoning districts or regulating the use of property in the City.

There is hereby established the Airport Revenue Fund, the depository for which shall be the City Treasury. Said fund

shall be exempt from the provisions of Section 382 of this Charter and shall be maintained separate and apart from all other funds and accounts in the City Treasury. The Airport Revenue Fund shall consist of: (a) all funds, moneys, securities, credits and other evidences of indebtedness in the present Airport Revenue Fund and all funds or accounts derived therefrom, including, without limiting the generality thereof, the maintenance and operation reserve fund created under paragraph 1 of Section 239 9 of the Charter and the "airport improvement fund account" established pursuant to said paragraph, but not including any moneys or securities now in the Municipal Airport Bonds, Election 1956, Interest and Sinking Fund; and (b) all moneys received or collected for the use or operation of airports, heliports and related facilities or any portion thereof, owned, operated or controlled by the City of Los Angeles or otherwise arising therefrom, including, (subject to the provisions of subsection M of Section 240 hereof) all rates, charges, rentals, fees, and other compensation collected or received by the Department of Airports; and (c) all investments of the Airport Revenue Fund or of any fund or account derived therefrom (except said Interest and Sinking Fund) in securities and other evidences of indebtedness; and (d) all interest earned and collected after the effective date of this section on said Airport Revenue Fund or on any special fund or account derived therefrom, except as provided in subsection I of Section 240, and except that interest on said Interest and Sinking Fund shall be credited to and become a part of said fund.

The Board of Airport Commissioners shall have control over the Airport Revenue Fund and authority to make all appropriations from and to order all transfers or expenditures therefrom, and such transfers or expenditures shall be drawn from said fund only upon demands authenticated by the signature of the chief accounting employee of the Board except as otherwise authorized under Section 240 of this Charter

None of the money or funds in or belonging to the Airport Revenue Fund shall be appropriated, transferred, expended or used for any purpose except the following purposes pertaining to the financing and maintenance and operation of City owned, operated or controlled airports, heliports and related facilities and then only in accordance with the priorities and discretionary authority hereinafter stated, to wit:

Subsection A. The following enumerated appropriations, transfers and expenditures shall have priority in the order in which they are listed and until such time as all of them shall have been provided for before any expenditures are made for the discretionary expenditures permitted under subsection B below:

1. At the beginning of each fiscal year commencing July 1 next following the effective date of this section there shall be appropriated and transferred from the Airport Revenue Fund

to the Municipal Airport Bonds, Election 1956, Interest and Sinking Fund, a sum sufficient to pay all principal of and interest on the outstanding general obligation bonds designated "Municipal Airport Bonds, Election 1956", including all series thereof, which would otherwise have to be provided for in the tax levy to be made in that fiscal year. This appropriation shall be made annually until either (a) said general obligation bonds are paid in full and retired, or (b) a sum sufficient for the payment of all principal of and interest on all outstanding non-callable bonds of said issue and for the redemption, principal, interest and premiums, if any, of all outstanding callable bonds of said issue have been irrevocably set aside in a special fund or funds for said purpose; provided, however, (c) that whenever a sum sufficient for the payment of all principal of and interest on all outstanding non-callable bonds of a series and for the redemption, principal, interest and premiums, if any, of all outstanding callable bonds of the series have been irrevocably set aside in a special fund or funds for that purpose, the amount of the appropriation shall be only for the payment of principal of and interest on the outstanding bonds of the other series. Any appropriation pursuant to this paragraph 1 shall be used only for the purpose for which appropriated. After all bonds of said issue have been paid or redeemed or funds sufficient for the payment and redemption thereof, including principal, interest and premiums, if any, have been irrevocably set aside therefor, any surplus in said Sinking Fund shall be transferred and returned to the Airport Revenue Fund.

2. At the beginning of the fiscal year commencing July 1 next following the effective date of this Section, after the appropriation and transfer to said Interest and Sinking Fund made pursuant to paragraph 1 above, there shall, in addition, be appropriated and transferred from the Airport Revenue Fund to a special fund which is hereby established and designated "Municipal Airport Bonds, Election 1956, Reserve Fund" a sum which, when added to the amount appropriated and transferred under paragraph 1 above, equals the surplus money which, pursuant to the provisions of paragraph 2 of Section 239.9, would have been appropriated and set aside for the payment of principal and interest on or redemption of said Municipal Airport Bonds, Election 1956, including the repayment to the City of any sums advanced for said purpose, had said Section 239.9 remained in effect; and at the beginning of each succeeding fiscal year thereafter, there shall be appropriated and transferred from the Airport Revenue Fund to said Reserve Fund, after and in addition to the appropriation and transfer made pursuant to paragraph 1 above, a sum which, when added to the amount so appropriated and transferred, equals said surplus money, computed as above provided, until there shall be in said Reserve Fund a sum equal to the amount of all principal of and interest on said Municipal Airport

Bonds, Election 1956, which will come due in the fiscal year next following the fiscal year in which the appropriation and transfer is made Said Reserve Fund shall be used only for appropriations and transfers to the Municipal Airport Bonds, Election 1956, Interest and Sinking Fund, as required by paragraph 1 above, in the event that moneys in the Airport Revenue Fund are insufficient therefor and for said purpose shall be appropriated and transferred to said Interest and Sinking Fund. No appropriations and transfers need be made into said Reserve Fund so long as there shall be in said fund a sum at least equal to the amount of all principal of and interest on said Municipal Airport Bonds, Election 1956, which will become due in the fiscal year next thereafter. Whenever moneys are appropriated and transferred from said Reserve Fund to said Interest and Sinking Fund, as above provided, or whenever the amount in said Reserve Fund on July 1 in any fiscal year is not equal to the amount of principal of and interest on said bonds coming due in the fiscal year next thereafter, then there shall be appropriated and transferred from the Airport Revenue Fund, after and in addition to the appropriation and transfer made pursuant to paragraph 1 above, to said Interest and Sinking Fund, a sum sufficient to increase the amount of such Reserve Fund to said amount of principal and interest. If any amount in said Reserve Fund in any fiscal year exceeds the amount of principal and interest on said Municipal Airport Bonds, Election 1956, coming due in the fiscal year next thereafter, said excess shall be transferred and returned to the Airport Revenue Fund. Any moneys in said Reserve Fund may be used: (i) to make all or any part of the final payment which pays and discharges all remaining outstanding bonds of said Municipal Airport Bonds, Election 1956, including the unpaid principal, interest and premiums, if any, due upon the redemption of any thereof prior to maturity, or (ii) to constitute all or part of a sum which shall be irrevocably set aside in a special fund or funds for the purpose and shall be sufficient for the payment of all principal of and interest on all outstanding non-callable bonds of said Municipal Airport Bonds, Election 1956, and for the principal, interest and premiums, if any, on all outstanding callable bonds of said issue.

3. In any fiscal year after: (i) the appropriation and transfer to said Interest and Sinking Fund required to be made by paragraph 1 above, and (ii) any appropriation and transfer to said Reserve Fund required to be made by paragraph 2 above, have been made, there shall be appropriated and transferred from the Airport Revenue Fund, monthly or otherwise as provided in any proceedings for the incurring of any indebtedness authorized by Section 240 of this Charter, the sum or sums required to be placed in any bond service funds, sinking funds, reserve funds or other funds or accounts or special trust accounts established to insure the payment of principal of, interest on, or redemption of or for the security of such bonds, notes, certificates or other evidences of indebtedness

payable solely from revenues as provided in Section 240 of this Charter.

4. Moneys in the present maintenance and operation reserve fund created under paragraph 1 of Section 239 9 of the Charter shall be transferred to a fund for maintenance and operation which is hereby established and designated "Maintenance and Operation Reserve Fund". At the beginning of each fiscal year, commencing July 1 next following the effective date of this Section, there shall be appropriated to said Maintenance and Operation Reserve Fund out of any surplus remaining in the Airport Revenue Fund at the end of the preceding fiscal year a sum which, when added to any moneys in said Maintenance and Operation Reserve Fund, shall equal not less than 25% nor more than 50% of the budgeted maintenance and operation expenses for the current fiscal year. Moneys in said Maintenance and Operation Reserve Fund may be appropriated by the Board and transferred to the Airport Revenue Fund as provided in paragraph 5 of this subsection A and the amounts withdrawn shall be returned to said Maintenance and Operation Reserve Fund as provided in said paragraph 5

5. In any fiscal year after: (i) the appropriation and transfer to said Interest and Sinking Fund required to be made by paragraph 1 above, and (ii) any appropriation and transfer to said Reserve Fund required to be made by paragraph 2 above, and (iii) the appropriations and transfers required to be made on or before the date by any proceedings for the incurring of any indebtedness authorized by Section 240 of this Charter, and (iv) after any appropriation to said Maintenance and Operation Reserve Fund required to be made by paragraph 4 above, have been made, the maintenance and operation expenses of the Department, including, without limitation, maintenance and operation of airports, heliports and related facilities, or any portion thereof, owned, operated or controlled by the City but operated or controlled by the Department, and any liabilities incurred therefor may be paid monthly. If no moneys remain in said Airport Revenue Fund for the purposes authorized in this paragraph 5 or if the moneys therein are insufficient, then the sum or sums necessary for the payment of said monthly expenses and liabilities shall be transferred to the Airport Revenue Fund from the Maintenance and Operation Reserve Fund; provided, however, that the sum or sums so transferred shall be returned to and placed in said Maintenance and Operation Reserve Fund from the first moneys in the Airport Revenue Fund which, subject to the priorities set forth in paragraphs 1, 2 and 3 above, will be available therefor to the extent necessary to re-establish said Maintenance and Operation Reserve Fund in an amount equal to not less than 25% of the budgeted maintenance and operation expenses for the current fiscal year in which said Maintenance and Operation Reserve Fund is re-established. At the end of each fiscal year any sum remaining in the Airport Revenue Fund in excess of any amount required to be trans-

ferred at the beginning of the next fiscal year by paragraphs 1 and 2 above and by the proceedings for the incurring of any indebtedness authorized by Section 240 of this Charter and in excess of any unpaid expenses or liabilities shall be deemed to be surplus. Out of such surplus any appropriation to the Maintenance and Operation Reserve Fund shall be made as provided in paragraph 4 above.

6 Beginning in the fiscal year commencing July 1 next following the effective date of this section, and continuing annually until all interest on and principal of the issued and outstanding general obligation bonds designated "Municipal Airport Bonds, Election 1945", including all series thereof, are paid or a sum sufficient therefor is set aside in the Municipal Airport Bond, Election 1945, Interest and Sinking Fund maintained for that purpose, if: (i) all appropriations and transfers required to be made by paragraphs 1 and 2 above have been made, and (ii) all appropriations and transfers required to be made on or before said date by any proceedings for the incurring of any indebtedness authorized by Section 240 of this Charter have been made, and (iii) the appropriation required to be made by paragraph 4 above has been made, and (iv) after payment or provision of funds for the payment of the maintenance and operation expenses for the current month has been made, there are funds in the Airport Revenue Fund available therefor, there shall be appropriated and transferred from the Airport Revenue Fund to the Municipal Airport Bond, Election 1945, Interest and Sinking Fund for that purpose, a sum sufficient to pay all principal of and interest on said bonds, that would otherwise have to be provided for in the tax levy to be made in that fiscal year.

Subsection B. In any fiscal year after: (i) all appropriations and transfers required to be made by paragraphs 1 and 2 of subsection A have been made, and (ii) all appropriations and transfers required to be made on or before said date by any proceedings for the incurring of any indebtedness authorized by Section 240 of this Charter have been made, and (iii) the appropriation required to be made by paragraph 4 of subsection A has been made and there is in said Maintenance and Operation Reserve Fund an amount equal to not less than 25% of the budgeted maintenance and operation expenses for the fiscal year, and (iv) after payment or provision of funds for the payment of maintenance and operation expenses for the current month has been made, and (v) the appropriation in that fiscal year provided for in paragraph 6 of subsection A has been made, the Board, in its discretion, may appropriate, pay or expend moneys remaining in said fund in any month for any of the following purposes, to wit:

(1) The acquisition of land, real property or interests in real property for, and the acquisition, construction, enlargement and improvement of new and existing buildings, struc-

(4) For any other lawful purpose of the Department, including without limitation, to pay the costs of performing additional duties imposed upon the Department by ordinance.

(5) The return and payment into the general fund of the City of any sums paid by the City from funds raised by taxation for the payment of the interest on and principal of any general obligation bonds issued by the City for the acquisition, construction and improvement of any airport owned or operated by the City.

Subsection C. No appropriations, payments or expenditures authorized by Subsection B hereof or contracts therefor shall be made in any fiscal year in such amounts as to prevent the accumulation of the sums required by subsection A hereof.

Subsection D The "airport improvement fund account" established by paragraph 1 of Section 239.9 shall be continued under this section and the funds therein expended for the purposes for which the account was established and none of the moneys or funds therein shall be subject to appropriation under any of the provisions of subsections A and B hereof.

Subsection E. Any moneys in the Airport Revenue Fund or in the funds created by or pursuant to paragraphs 2 and 4 of subsection A may, in the discretion of the Board, be invested in direct obligations of the United States or obligations for which the full faith and credit of the United States are pledged for the payment of principal and interest, but any such investment shall be payable in such time or sold in such time that the full amount of moneys required for any payment shall be available in the proper fund at the time such payment is due Moneys in any of the funds or accounts created pursuant to Section 240 of this Charter may be invested as provided in said section Any moneys in the Municipal Airport Bond Interest and Sinking Fund or the special fund mentioned in paragraph 6 of subsection A may, in the discretion of the Treasurer be invested in any securities which are legal investments for funds of the City of Los Angeles.

Subsection G. In the event of any appropriation for the use of the Department from the General Fund or any other fund or funds of the city such moneys shall be placed in any fund or funds designated by the Board and used only for the purpose or purposes for which appropriated.

2. The Department of Airports shall have the power to borrow money from time to time for the purpose of acquiring, constructing, reconstructing, replacing, extending, enlarging or improving airports, heliports, and the facilities thereof, in-

3 The Department of Airports shall also have the power to refund from time to time, whether at or prior to maturity, any outstanding indebtedness evidenced by bonds of the Department payable out of the Airport Revenue Fund or evidenced by bonds of the City serviced out of the Airport Revenue Fund, and to issue, and to sell or exchange bonds so to refund such indebtedness. Refunding bonds may be issued in a principal amount sufficient to pay all or any part of the principal of such outstanding indebtedness, the interest thereon and the premiums, if any, due upon call and redemption thereof prior to maturity, and may be issued and sold at such time in advance of the time at which the bonds to be redeemed or paid out of the proceeds of such refunding bonds are to be so redeemed or paid as the Board of Airport Commissioners may determine.

4. Bonds issued under paragraphs 2 and 3, above, of this subsection A may be issued, sold or exchanged, as the case may be, in separate issues or may be combined into one issue of bonds.

"Refund" shall include "extend" and "renew";

Subsection C. Bonds to be Payable Solely from Airport Revenue Fund.

1. All bonds issued by the Department pursuant to this Section 240 shall be, and shall recite upon their face that they are, payable both as to principal and interest, and as to any premiums upon the redemption thereof prior to maturity, solely out of the Airport Revenue Fund, or such portion of said Fund as the Board may specify, and not out of any other fund or moneys of the Department or the City.

2 The payment of the principal of and interest on such bonds and any premiums upon the redemption of any thereof shall be secured by an exclusive pledge, charge and lien upon the Airport Revenue Fund in the priority of payment set forth in Section 239 8 of this Charter; or such portion of said Fund as the Board may specify, and said revenues so pledged shall constitute a trust fund for the payment of such principal, interest and premiums.

3. The provisions of the preceding paragraphs 1 and 2 shall not preclude:

(a) the payment of any such principal, interest or premiums through appropriate reserve funds or special trust accounts, established as hereinafter in this Section 240 provided;

(b) the payment of interest on or principal of bonds of any such issue out of sums received as premiums or accrued interest on the sale of that issue;

Subsection D. Proceedings for Authorizing Bonds.

1. Whenever the Department shall propose to exercise the power to borrow money or to refund indebtedness pursuant to this Section 240 the Board shall adopt a resolution authorizing the issuance of bonds for such purpose.

2. Certified copies of such resolution shall be transmitted to the offices of the Mayor and of the City Clerk, and the City Clerk shall forthwith present the said resolution to the Council. At any time within such period as may be specified in said resolution, which shall be not less than 30 days from and after the receipt of such certified copies at such offices, respectively, the Mayor, by writing, or the Council, by majority vote, may disapprove such resolution. If neither the Mayor nor the Council shall so disapprove said resolution within the period so specified, said resolution shall thereupon be published once in the same manner as ordinances of the City. If the Mayor shall disapprove said resolution within said period, he shall forthwith advise the Council and the Board, in writing, of such disapproval The Council shall thereupon consider such disapproval in the same manner as upon the reconsideration of an ordinance notwithstanding the veto of the Mayor and, if, upon such consideration, the Council shall by the votes, of two thirds of the whole Council, determine that the Mayor's disapproval should be overruled, such disapproval by the Mayor shall be of no effect, and the said resolution of the Board shall thereupon be published once in the same manner as ordinances of the City.

3. Anything in the preceding subparagraphs of this subsection notwithstanding, in the cases of (a) refunding bonds or (b) notes or other evidences of indebtedness, which are to be issued pursuant to subsection L of this Section 240, the resolution of the Board adopted pursuant to paragraph 1 of this subsection shall upon its adoption by the Board be forthwith published once in the same manner as ordinances of the City and the transmission of such resolution to the offices of the Mayor and City Clerk shall be for information only and it shall not be subject to the disapproval by the mayor or Council; provided, however, that any such resolution may, by its terms, be made subject to disapproval by the Mayor or Council with the effect provided in paragraph 2 of this subsection

4. Every such resolution, adopted by the Board pursuant to any of the preceding paragraphs of this subsection shall, when published, be subject to the right of referendum before the same shall become effective. At any time within 30 days after such publication a referendary petition, demanding the submission of such resolution to a vote of the qualified electors of the City for their assent to the issuance of the therein proposed bonds, may be filed with the City Clerk. Except as in this Section 240 otherwise expressly provided, all of the provisions of this Charter relating to referendum with respect to ordinances shall apply to any referendum under the provisions of this subsection. Upon presentation to the Council by the City Clerk of a referendary petition, the resolution which is the subject thereof shall be of no effect unless and until the same shall have been assented to by the voters.

5. If no such referendary petition is presented within the aforesaid period of 30 days, then upon the expiration of said period, or, if the resolution of the Board adopted pursuant to paragraph 1 of this subsection shall have been assented to by the voters upon referendum pursuant to this subsection, then upon such resolution having been so assented to, the said resolution shall take full and final effect and the Board may proceed in accord with the provisions of this Section 240 and issue bonds as provided for by said resolution; provided, however, that if the resolution shall have been assented to by the voters upon referendum pursuant to this subsection, the resolution may, in the discretion of the Board, be amended to change the date of the bonds and the date or dates of maturity of each issue or series of bonds and all other dates which depend upon the above dates, and when so amended the said resolution shall take full and final effect and the Board may proceed in accordance with the provisions of this Section 240 and issue bonds as provided by said amended resolution.

Subsection E. Resolution for the Issuance of Bonds.

1. The resolution authorizing the issuance of bonds adopted pursuant to paragraph 1 of subsection D of this Section 240 shall:

(b) fix the principal amount of the bonds to be issued thereunder;

(c) fix the date of the bonds;

(d) fix the date or dates of maturity of each issue or series of bonds (which may be serial or term maturities or a combination thereof), provided, however, that no bond shall run more than forty (40) years from its date; and

(e) fix the maximum rate of interest to be payable thereon, not to exceed six per cent (6%) per annum, payable annually or semiannually, or in part annually or in part semiannually

2. In any such resolution providing for the issuance of bonds adopted pursuant to paragraph 1 of subsection D of this Section 240 the Board may fix the terms and conditions thereof (including covenants) and may in any article, section, sentence or clause thereof make such provision (including covenant) as it may deem necessary or desirable to facilitate the issuance and sale of the bonds, or for the protection or security of the holders thereof, including, without affecting the generality of the foregoing, any of the following:

(a) the denomination or denominations of the bonds, the medium of payment thereof, the form of said bonds (including recitals of regularity) and of interest coupons pertaining thereto, the form, denomination and conditions of any temporary bonds or interim certificates, if any, (which temporary bonds or interim certificates may be issued without interest coupons), the manual and facsimile signatures to be affixed to said bonds (definitive or temporary) or interim certificates,

(j) covenants relating to the establishment and maintenance of rates, fees, charges and rentals or other compensation for leases, franchises, permits and licenses and any other compensation collected or received by the Department;

(k) covenants limiting or prohibiting the Department from furnishing or rendering to the City or to any government, department of government, public corporation or body, or private corporation or persons, services, property or commodities free or at lower rates than otherwise charged;

(*l*) the accounts and records to be kept, audits thereof and examination of such audits by bondholders and others;

(m) carrying of insurance against any or all risks and in case of loss the application of the insurance proceeds;

(n) prohibitions against or limitations upon the sale, lease or other disposition or transfer of any or all of the works and properties owned, operated or controlled by the Department and the use of any funds derived from the sale, lease or other disposition or transfer permitted under the terms of such resolution;

(o) limitations upon the issuance of any additional bonds of the Department payable out of the Airport Revenue Fund or any bonds of the City serviced out of the Airport Revenue Fund; provided, however that no bonds shall be issued pursuant to this Section 240 or any other provision of the Charter or any other law having any priority in payment of principal or interest out of the Airport Revenue Fund over any bonds

(p) for restrictions on future transfers out of the Airport Revenue Fund;

(q) provisions whereby the consent or agreement of a stated percentage or number of the holders of the bonds may bind all holders to the repeal, amendment, supplementation or other modification of any of the provisions of such resolution authorizing such bonds and the resolution providing for the sale thereof or to a refunding of said bonds and to calls and exchanges in connection with such refunding;

(r) for the issuance of a duplicate, in the manner and upon such terms and conditions as the Board may determine, in the event any bond, temporary bond, coupon or interim certificate of any such issue is lost, stolen, destroyed or mutilated;

(s) any other provision (including covenant) valid under the Constitution of the State of California and the United States of America.

3. Without limiting in any way the generality of the powers of the Board, it is expressly authorized in its discretion to provide in connection with any issue of bonds:

(a) for the issuance and distribution in such form as the Board may determine of official statements respecting proposed issues of bonds and the properties, operations and finances of the Department for the information of prospective purchasers of such bonds; and, in any case where any resolution is to be submitted to the voters for their assent by referendum, for the issuance, distribution, dissemination and publication of factual statements respecting such proposed issues of bonds, and such properties, operations and finances, for the information of such voters;

(b) for the making of contracts, or the placing of orders, for the engraving or printing of any bonds, whether definitive or temporary, or of interim certificates, authorized by this Section 240, or for any printing incident to the offering or issuance of any such bonds, without advertising for bids, in any case where, because of limitations of time, or requirements as to quality of work, or as to security in the control or custody of plates, or any similar cause, the Board may deem it to be in the public interest so to do, anything in this Charter to the contrary notwithstanding, but in so doing the Board shall, if practicable, obtain or cause to be obtained competitive bids, formal or informal, from bidders who can perform work of the required quality within the required time, and, in the case of engraving, who are of proper responsibility and who have adequate facilities for the control and safekeeping of the engraved plates;

Subsection F. Sale of Revenue Bonds.

Bonds issued under this Section 240 shall be sold by the Board upon such terms and provisions as it shall determine by resolution which shall not be subject to the disapproval of

the Mayor or Council and shall not be subject to referendum. Said bonds shall be offered for sale on competitive bidding pursuant to a notice providing proposals for the purchase of such bonds, published at least twice, the first publication to be at least five (5) days prior to the time fixed for the receipt of proposals in one newspaper published and of general circulation in the City of Los Angeles (and, if the Board, in its discretion, shall determine, said notice may be published elsewhere than in the City in such manner and to such extent as the Board may deem desirable). The Board shall reserve the right to reject any and all bids. If no bid or no satisfactory bid is received pursuant to such notice the Board may reject all bids received, if any, and may thereafter sell such bonds at public or private sale. In the case of refunding bonds the Board, in its discretion, need not offer all or any part of the bonds for sale on competitive bidding as above provided, but may provide for the refunding being made in whole or in part by the exchange of such refunding bonds for the bonds to be refunded. Bonds issued under this Section 240 may be sold at a fixed rate of interest or the bidders may be invited to state the rate or rates at which they will purchase said bonds but no rate for interest on any of the bonds shall exceed the maximum rate as stated in this Section 240 Upon the acceptance of a bid the Board shall by resolution, which shall not be subject to the disapproval of the Mayor or Council and shall not be subject to referendum, fix such interest rate or rates as have been bid by the successful bidder as the rate or rates of interest on bonds sold.

Subsection G. Disposition of Bond Proceeds.

1. All sums received as premiums or accrued interest on the sale of any bonds issued pursuant to this Section 240 shall be applied to the payment of interest on or principal of the bonds of that issue. All sums received as principal on the sale of any issue of the bonds shall be applied to the purposes for which the bonds were issued including, without limitation, fees, expenses and other costs of the authorization, issuance and sale of the bonds.

2 The board is empowered to and may from time to time establish and maintain a separate fund or funds in the City Treasury for the purpose of insuring the application of such proceeds received as principal on the sale of any issue of bonds to the purposes for which the same were issued Money set aside and placed in any such separate fund shall remain therein until from time to time expended for the purposes for which such bonds were issued, including the reimbursement of other funds of the Department for expenditures therefrom for purposes for which such bonds were issued, made after such issuance was authorized, and shall not be used for any other purpose whatsoever, except for temporary investment thereof as provided in subsection I of this Section 240; provided, however, that money may be paid or transferred from any such

separate fund, in furtherance of the purpose of its establishment, to any other such separate fund established for a like purpose in connection with the issuance of said bonds.

3. Money in any such separate fund shall be withdrawn therefrom only upon demands authenticated by the signature of the Chief Accounting Employee of the Department.

4. If the board shall determine by resolution that the expenditure of the whole or any portion of the said principal sum of any issue of bonds for the purpose for which such bonds were issued is impracticable or unwise, the Board may:

(a) apply such money or any part thereof to the purchase of bonds of that issue, or to the payment of any such bonds, at maturity or on redemption, or to the payment of interest thereon, or of premiums due on the redemption thereof; or

(b) apply such money or any part thereof to any new purpose which is within the purposes for which bonds might be issued under the terms of this Section 240; provided, however, that before applying any of such money to such new purpose the Board shall adopt a resolution specifying such new purpose, the amount of such money to be applied thereto, and authorizing the application, which resolution shall be subject to the same procedures, and take final effect only in the same manner, as if it were a resolution adopted pursuant to subsection D of this Section 240 authorizing the issuance of bonds for such new purpose, and such resolution authorizing such application to such new purpose, when it shall have taken final effect under such procedures, shall be sufficient authority for the application of such money to such new purpose.

5. If any excess of the principal sum of the proceeds of any issue of bonds shall remain unexpended after the full accomplishment of the purpose for which such bonds were issued, the Board, by resolution, may direct that the same shall be applied to the purchase of bonds of that issue, or to the payment of any such bonds, at maturity or on redemption, or to the payment of interest thereon or of premiums due on the redemption thereof, or, subject to the procedure set forth in the preceding subparagraph 4(b) of this subsection G, that it shall be transferred to the Airport Revenue Fund and may thereupon be appropriated and used for any of the purposes provided therefor.

Subsection H. Funds and Special Trust Accounts to Insure Payment of Bonds.

1. In connection with the exercise of the power to borrow money, to issue bonds, and to refund indebtedness, pursuant to this Section 240, the Board is empowered to and may, in the resolution authorizing the issuance of bonds adopted pursuant to paragraph 1 of subsection D of this Section 240, or in other resolutions, from time to time, establish and maintain bond service funds, sinking funds, reserve funds or other funds or accounts in the City Treasury, and special trust account or accounts with an agent or agents designated by said

Board pursuant to clause d of paragraph 2 of subsection E of this Section 240, to insure the payment, when due or payable, whether at maturity or upon redemption prior to maturity of the principal of, and interest on, bonds issued as aforesaid, including premiums, if any, due upon the redemption of any thereof prior to maturity, or for any of said purposes. As may be provided in such resolution or resolutions, money in any such funds or accounts may also be used for the purchase of bonds of the issue in connection with which it was established and for cancellation and retirement pursuant to any mandatory requirement for the redemption of sinking fund bonds. Each such fund or account shall be established and maintained out of the Airport Revenue Fund as provided in paragraph 3 of subsection A of Section 239.8 of this Charter or out of any moneys which under the terms of paragraph 3 of subsection C of this Section 240 are applicable to the purpose, through transfers or payments made at such times and in such amounts as the Board may direct.

2. Money set aside and placed in any such funds or accounts shall remain therein until from time to time expended for the purposes thereof, and shall not be used for any other purpose whatsoever, except for temporary investment thereof as provided in subsection I of this Section 240; provided, however:

(a) that money may be paid or transferred from any such fund or account in furtherance of the purpose of its establishment, to any other such fund or account established for a like purpose in connection with the same issue of bonds, to such extent as may be required or permitted under the terms of the resolution authorizing that issue; and

(b) that all money remaining in any such fund or account in excess of the amount required to make provision for the payment in full of the principal of, and interest on, the bonds with respect to which it was established, including premiums, if any, due upon the redemption of any thereof, may be returned and transferred to the Airport Revenue Fund or other fund out of which such fund or account was established.

(c) Money in any such fund or account shall be drawn therefrom only upon demands authenticated by the signature of the chief accounting employee of the Department; provided, however, that the Board may, in its discretion, direct and authorize the payment from such fund or account, by the Treasurer, without such authenticated demand, (i) of bonds of the issue in connection with which such fund or account is so established when due upon maturity or call, or of coupons pertaining to bonds of such issue when due, but only upon presentation and surrender of such bonds or coupons, (ii) of interest upon registered bonds of such issue when due, or (iii) of premiums, if any, due upon the redemption of any such bonds.

(d) Money in any special trust account established with an agent or agents shall be drawn therefrom only in accordance with directions given or authorized by the Board.

Subsection I. Investment of Funds.

1. Pending use for the purposes for which any separate fund established pursuant to subsection G or any fund or special trust account established pursuant to subsection H of this Section 240, money set aside and placed therein may, when and to such extent and in such manner as may be directed by the Board and as may be consistent with the provisions of any resolutions of said Board constituting a part of the proceedings for the issuance of the issue of bonds in connection with which such fund or account was created, be invested in bonds or other evidences of indebtedness of the United States, or obligations for which the full faith and credit of the United States are pledged for the payment of principal and interest or bonds or other evidences of indebtedness of the State of California or any political subdivision thereof, or of the City or any department thereof. Any such bonds or other evidences of indebtedness acquired through such investment may be resold at any time.

2. Any bonds or other securities so purchased shall constitute a part of such fund, special trust account or separate fund, and any interest or any increment received by reason of such investment and the proceeds of any such resale shall be placed in, and constitute a part of such fund or account

Subsection J. Resolutions Constitute Enforceable Contracts.

The provisions of any resolution of the Board constituting a part of the proceedings for the issuance of any bonds under this Section 240 shall constitute a contract between the Department and the holders of such bonds and the provisions thereof shall be enforceable against the City, the Department, or any officer thereof, by mandamus or any other appropriate suit, action or proceeding in law or equity in any court of competent jurisdiction.

Subsection K. Issuance of Additional General Obligation Bonds.

1. Nothing in this Section 240 shall prevent the City from issuing general obligation bonds for any airport purposes, including, without limitation, any purposes enumerated in paragraph 2 of subsection A of this Section. If such general obligation bonds are required to be authorized at an election, the ordinance calling the election shall state whether or not such bonds are to be serviced out of the Airport Revenue Fund, and, if so, said statement shall also provide for the establishment and maintenance of such funds or accounts in the City Treasury as are required therefor and the priority of the payments and appropriations for the service of such bonds; provided, however, that no such general obligation bonds may be serviced out of the Airport Revenue Fund prior to any bonds of the Department payable out of the Airport Revenue Fund theretofore issued; and if such general obligation bonds are not required to be authorized at an election, the ordinance providing

for the issuance of bonds shall contain such statement, and such ordinance shall be subject to referendum in the same manner as other ordinances of the City; provided, however, that such bonds may not be issued or serviced out of the Airport Revenue Fund in contravention of any restrictions duly imposed pursuant to subsection E of this Section 240. The statement above required in this paragraph shall be the exclusive manner of requiring the service of such general obligation bonds for airport purposes out of the Airport Revenue Fund. No such statement in any ordinance or ordinances adopted pursuant to this subsection K shall constitute a contract between the City and the holders of the bonds authorized by such ordinance or ordinances as to the use of the Airport Revenue Fund or any part thereof for the service of the bonds authorized and issued.

2. Bonds of the City serviced out of the Airport Revenue Fund shall not be included as City indebtedness for the purpose of computing the amount of general obligation bonded indebtedness which the City can incur.

Subsection L. Short Term Borrowing.

1. The Department shall also have the power to borrow money from time to time for any or all of the purposes specified in paragraph 2 of subsection A of this Section 240, and to issue and sell notes, or other evidences, to evidence the indebtedness created by such borrowing without the submission to the voters of the proposition of so doing, and without the approval by the Mayor or the Council of the resolution provided for in subsection D of this Section 240, whenever the Board shall find and determine that the public interest and necessity require the exercise of that power.

2. All notes or other evidences of indebtedness issued under the authority of this subsection L shall contain upon their face a recital that they are so issued and shall be payable in not to exceed five years from their date.

3. No amount shall be borrowed under the authority of this subsection L in contravention of any restrictions duly imposed pursuant to subsection E of this Section 240.

4. All of the provisions of this Section 240 not inconsistent with the terms of this subsection L, and not by their terms made inapplicable thereto, shall apply to all notes or other evidences, issued under the authority of this subsection L.

Subsection M. Special Purpose Revenue Bonds.

1. The Department shall also have the power to borrow money from time to time for the acquisition, construction and financing of any special purpose facility, including, without limitation, interest estimated to accrue during the construction period and for not to exceed six months thereafter, and to issue and sell special purpose revenue bonds to evidence the indebtedness created by such borrowing. The proceedings for the authorization of such special purpose revenue bonds shall be as set forth in subsection D of this Section 240. In addition to the

items set forth in paragraph 1 of subsection E of this Section 240, the resolution providing for the issuance of such special purpose revenue bonds shall:

(a) find and determine that the acquisition, construction, financing, maintenance and operation of the special purpose facility will benefit the airports and heliports, or any thereof, owned, operated or controlled by the City and will not adversely affect the Airport Revenue Fund;

(b) find and determine that so long as such special purpose revenue bonds are outstanding the pledged revenues of the special purpose facility will be at least sufficient: (i) to pay the principal of and interest on such special purpose revenue bonds as the same become due, (ii) to make all payments into any bond service funds, sinking funds, reserve funds or other funds or accounts established for or in connection with such special purpose revenue bonds pursuant to subsection H of this Section 240, and (iii) to pay any such portion of the maintenance and operation expenses of such special purpose facility that are not to be paid for by the lessee.

2. No amount shall be borrowed under the authority of this subsection M:

(a) in contravention of any restrictions duly imposed pursuant to subsection E of this Section 240;

(b) unless the Board shall have previously adopted a plan for the leasing of such special purpose facility to be acquired, constructed and financed with the proceeds of such special purpose revenue bonds pursuant to a lease (i) having a term at least equal to the last date of maturity of such special purpose revenue bonds, and (ii) providing for pledged revenues which will be at least sufficient so that the Board can make the finding required by subparagraph 1 (b) of this subsection M.

3. All of the provisions of this Section 240 not inconsistent with the terms of this subsection M, and not by their terms made inapplicable thereto, shall apply to all special purpose revenue bonds issued under the authority of this subsection M.

4. The following terms whenever used in this subsection M shall have the following meanings respectively, unless otherwise clearly indicated by the context:

"Special purpose facility" shall mean a facility included within any or all of the purposes specified in paragraph 2 of subsection A of this Section 240 for the acquisition, construction and financing of which special purpose revenue bonds are to be issued.

"Special purpose revenue bonds" shall mean bonds of the Department issued for the acquisition and construction of a special purpose facility and payable out of a portion of the Airport Revenue Fund, to wit: the "pledged revenues".

"Pledged revenues" shall mean such portion of the Airport Revenue Fund derived from such special purpose facility as the Board may specify (exclusive of ground rentals for the

land on which such facility is located) which secure the payment of such special purpose revenue bonds as provided by subsection C of this Section 240.

Subsection N. Miscellaneous Provisions.

1. Unless otherwise clearly indicated by the context, all of the provisions of this Section 240 shall be understood as relating only to bonds issued under this Section 240.

2. This Section 240 is complete authority for the issuance of bonds thereunder, and no action or proceeding not required by this section shall be necessary for the valid authorization and issuance of such bonds.

3. The validity of bonds reciting that they have been issued pursuant to this Section 240 shall not be affected by any provision or limitation contained in any other section or sections of this Charter.

4. Bonds shall be deemed to be issued, within the meaning of this Section 240 whenever the definitive bonds, or temporary bonds or interim certificates exchangeable therefor, have been delivered to the purchasers thereof and the purchase price thereof received, or in case of bonds to be refunded through exchange, whenever such exchange has been made.

Section 240.1. Economic Survey

The Board of Airport Commissioners, at least once in every five years, shall cause an industrial, economic and administrative survey to be made of the business and property of the Department by an independent qualified organization specializing in such surveys. Such survey shall be made to ascertain if the Department is operating in the most efficient and economical manner. If the Mayor and Council deem such a survey be advisable more often than every five years, they may order the Board to cause such a survey.

In all such surveys, the organization employed to make the survey shall be approved by the Mayor and Council, and the cost of the survey shall be paid for from Department funds.

CHAPTER 82

Senate Joint Resolution No 12—Relative to Morro Bay Rock.

[Filed with Secretary of State May 1, 1963]

WHEREAS, While title to Morro Bay Rock has been conveyed to the State by the federal government, the grant deed reserved to the United States the right to resume ownership, possession, and control, for government purposes, of any of the property, at any time, without the consent of the State; and

WHEREAS, In view of this reservation of interest by the federal government, the State now has little control over Morro Bay Rock; and

WHEREAS, The United States Corps of Engineers is presently removing 80,000 tons of material from Morro Bay Rock for repair to a harbor jetty which is causing the disfiguration of its natural value; and

WHEREAS, In order that Morro Bay Rock can be preserved and protected as a point of scenic interest for all peoples it is imperative that the federal government convey its remaining interest to the State; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Congress of the United States is respectfully requested to enact such legislation as may be necessary to convey the remaining interest of the United States in Morro Bay Rock to the State of California; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 83

Assembly Joint Resolution No. 29—Relative to establishment of a federal water pollution control research facility in California.

[Filed with Secretary of State May 6, 1963.]

WHEREAS, Regional research facilities for the conduct of technical investigations, experiments, field studies and training relative to the prevention and control of water pollution are urgently needed to supplement the activities of the Robert A. Taft Sanitary Engineering Center, Cincinnati, Ohio, in providing technical assistance to the states and local agencies on the mounting problems of water pollution control and water resources management; and

WHEREAS, It is both logical and desirable that the Congress of the United States enact legislation for the establishment of several such regional laboratories and research facilities and that a regional research facility be established in California, not only because of the magnitude of water pollution and water quality problems in this State but also for the reason that California agencies have been conducting a substantial portion of water pollution control research at the state level; and

WHEREAS, California is one of the areas of the United States in which the problems of water quality management are both critical and of great magnitude as evidenced by the fact that the State's present population of over 17 million is expected to almost double in the next 20 years and, to make possible this growth, the people of the State recently voted a $1,750,000,000 water bond proposition initiating the greatest water development project ever conceived in any state of the union; and

WHEREAS, California is ideally located for studying the ground water quality problems that are unique to the southwest, since one-third of the nation's ground water supplies are developed here and since California has been the forerunner in conserving and augmenting water resources by recharging ground water basins; and

WHEREAS, Ground water problems associated with sea water intrusion also can be studied in California for the reason that 13 ground water basins along the State's coastline already have been damaged by the encroachment of saline waters and other basins are now being threatened; and

WHEREAS, California has the added geographical advantage of being situated where studies of marine waste disposal problems can be undertaken since two-thirds of the State's sewage and industrial wastes are discharged into ocean waters; and

WHEREAS, The State has, in its colleges and universities, institutions of higher learning that provide graduate education in the fields of research to be carried out in the proposed regional research facilities; and

WHEREAS, The colleges and universities of California are carrying on very extensive research activities in the field of

water pollution control which engage a large number of resident graduate students and sanitary engineers; and

WHEREAS, A research facility located in the State of California would be able not only to draw upon a large reservoir of academic personnel and graduate students but also benefit from the extensive research being conducted by California's institutions of higher learning in the fields of water pollution control and water resources management; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to enact legislation establishing regional water pollution control research facilities and to locate one of these facilities in the State of California; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the Secretary of Health, Education, and Welfare.

CHAPTER 84

Assembly Joint Resolution No. 31—Relative to equal rights for women.

[Filed with Secretary of State May 6, 1963]

WHEREAS, Since 1920, women of the United States have had only one right under the federal government: suffrage—the right to vote; and

WHEREAS, In all other civil and legal respects women live under state laws which contain more than one thousand legal discriminations including, but not limited to, property and inheritance rights, guardianship rights, and management of earnings; and

WHEREAS, These discriminations against women contrast surprisingly with the rights of men under federal and state laws; and

WHEREAS, In this nation "conceived in liberty and dedicated to the proposition that all men are created equal," legal discrimination on the basis of sex constitutes an intolerable burden upon women solely dependent upon their own efforts for a livelihood, and is a source of irritation to thousands of others who recognize in this discrimination a flat contradiction of the American principle of equality, wholly out of accord with the status of American women reached by achievement in various fields of human endeavor; and

WHEREAS, Before women may achieve full civil rights, an "equal rights" amendment to the Constitution is necessary,

such as that now pending before Congress reading "Equality of Rights Under The Law Shall Not be Denied or Abridged by The United States or by Any State on Account of Sex"; and

WHEREAS, Among the many women's organizations on record in support of this amendment are the National Association of Women Lawyers, National Association of Women Doctors, California Federation of Women's Clubs, Business and Professional Women's Clubs, American Federation of Soroptimists, and hundreds of local groups; and

WHEREAS, Nine states have memorialized Congress to pass the Equal Rights Amendment which was a plank in both political party platforms at the last national election; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the members now join with these legislators of sister states in respectfully urging Congress to pass the Equal Rights Amendment to the United States Constitution; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the President of the United States, the Secretary of the United States Senate, the Clerk of the House of Representatives, and to each Member of Congress elected from the State of California.

CHAPTER 85

CHAPTER 87

Senate Concurrent Resolution No. 43—Relative to the preservation of ancient Indian burial grounds and artifacts and relics of Indian culture in California.

[Filed with Secretary of State May 8, 1963]

WHEREAS, Evidence has been accumulated that American Indians resided in California for many thousands of years prior to the immigration of the first Europeans to this area, and there are indications that California may have been one of the principal routes of migration for the population of the entire Western Hemisphere prior to the relatively recent European exploration; and

WHEREAS, The earliest European explorers of California found a flourishing culture which had existed here for millenia and that the region which now comprises this State was, as a whole, more densely populated than any other part of what is now the United States; and

WHEREAS, These proud California Indians had adapted their living to all of the varied topographic and climatic conditions—mountain, desert, valley and coastal regions—with marked stability of community and tribal organization grouped in at least 23 major tribes who shared the great resources of California in peace among themselves; and

WHEREAS, The principal tribal groups existing here at that time included the Klamath, the Modoc, the Karok, the Hupa, the Yurok, the Shasta, the Wintu, the Wintun, the Maidu, the Patwin, the Pomo, the Washo, the Miwok, the Costanoan, the Mono, the Yokut, the Panamint, the Salinan, the Chemehuevi, the Mohave, the Yuma and the Chumash; and

WHEREAS, The nature and importance of the culture of these stately original inhabitants of this State has not been sufficiently understood by present-day Californians and has not been adequately chronicled for present and future generations of Americans, although the citizens of this State who are of Indian origin have always themselves shown the highest respect and interest in the discovery and preservation of ancient Indian burial grounds and of artifacts, relics and other evidences of this early California culture (and are to be wholeheartedly commended for this interest and action); and

WHEREAS, Modern archaeological techniques can assist in developing a more adequate record of the Indian culture which flourished here in past centuries but this science is hampered materially by the fact that many archaeological sites are uncovered and destroyed without either record or preservation as a result of the activity connected with the current huge program of public and private construction in progress in this State; and

WHEREAS, It is recognized that these evidences of this important predecessor civilization in this area with their indications of the concepts, skills, arts, and institutions of the California Indian, can never be reproduced or replaced; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That all agencies of the State, with their present staff and facilities, and all individuals and organizations, are hereby requested to co-operate in current efforts by state and private agencies by reporting all archaeological discoveries of Indian culture in this State to the Division of Beaches and Parks of the Department of Parks and Recreation, and, when feasible and consistent with the reasonable exercise of powers of such state agencies, to preserve such findings.

CHAPTER 88

Senate Concurrent Resolution No. 26—Relative to requesting the Division of Highways in the Department of Public Works to study the needs and feasibility of adding certain routes to the state highway system in Merced County.

[Filed with Secretary of State May 8, 1963]

WHEREAS, Existing roads in Merced County are heavily used and overburdened, and it would be highly desirable to

establish a shorter route between the county seat of Merced County and the western boundary of the county, which would provide a faster route from the Yosemite area to the Monterey Peninsula than is presently available; and

WHEREAS, It is, therefore, advisable that the Division of Highways in the Department of Public Works, at this time, make a study as to the needs and feasibility of adding a route to the state highway system from Interstate Highway Route 5 near Mercy Springs Road to U.S Route 99 near Turlock via the vicinity of Los Banos and Hilmar; also from a point on said described route near Wolfsen Road northeasterly to a point on State Highway Route 122 west of Merced and Black Rascal Creek; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Division of Highways of the Department of Public Works is requested to make a study as to the needs and feasibility of adding a route to the state highway system from Interstate Highway Route 5 near Mercy Springs Road to U.S. Route 99 near Turlock via the vicinity of Los Banos and Hilmar; also from a point on said described route near Wolfsen Road northeasterly to a point on State Highway Route 122 west of Merced and Black Rascal Creek. The Division of Highways is further requested to report its findings thereon to the Legislature not later than the fifth calendar day of the 1964 Regular Session; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit a copy of this resolution to the Department of Public Works.

CHAPTER 89

Senate Concurrent Resolution No. 41—Relative to the State Board of Equalization.

[Filed with Secretary of State May 9, 1963]

WHEREAS, The State Board of Equalization is directed and authorized by Section 251 of the Revenue and Taxation Code to prescribe all forms required to effect the veterans' exemption; and

WHEREAS, It is the understanding of the Legislature that the board has not interpreted this section to require the use of identical forms in the several counties; and

WHEREAS, The Legislature further understands that, as a result, the various county assessors have each adopted their own forms for establishing a veteran's right to an exemption, subject to review and approval by the board; and

WHEREAS, The forms should be uniform throughout the State, and it was for this reason that Section 251 of the Revenue and Taxation Code was enacted; and

WHEREAS, The Legislature is aware that various county grand juries have concluded that the veterans' exemption is being abused by a small minority of claimants who may not be entitled to such exemption; and

WHEREAS, The Legislature believes that the establishment of a standard form by the State Board of Equalization would lessen the extent of such alleged abuses; and

WHEREAS, The board, in establishing such form, should give due consideration to the suggestions of county grand juries and assessors and other interested persons and groups; and

WHEREAS, The information to be required for tax exemption purposes and the form adopted to elicit such information should be fair and reasonable to the veteran applying for the exemption; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the State Board of Equalization is hereby respectfully requested and directed to prescribe a standard form for the veterans' exemption under the authority of Section 251 of the Revenue and Taxation Code; to report to the Legislature on or before the 30th calendar day of the 1965 Regular Session on the form it has prescribed under that section; and, in case any county assessor refuses or fails to use such form, to report that fact to the Legislature; and be it further

Resolved, That the Secretary of the Senate is directed to transmit a suitably prepared copy of this resolution to the chairman of the State Board of Equalization.

CHAPTER 91

Assembly Joint Resolution No 26—Relative to the necessity of federal aid in eliminating water pollution caused by the sewage disposal practice of Tijuana, Mexico.

[Filed with Secretary of State May 10, 1963]

WHEREAS, There has been a longstanding problem of water pollution in the United States-Mexico border area due to the sewage disposal practices of Tijuana, Mexico, and

WHEREAS, The Mexican government has only partially eliminated the pollution caused by the disposal of untreated sewage by Tijuana, Mexico; and

WHEREAS, There is a continual threat of recurrence of pollution due to the lack of standby emergency facilities in the disposal system of Tijuana, Mexico; and

WHEREAS, The present facilities use a disposal point within five miles of the international boundary which threatens to bring about a recurrence of the pollution; and

WHEREAS, A permanent solution of these problems requires the close co-operation of the governments of the United States and Mexico; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully urges the Secretary of State of the United States, the Secretary of Health, Education, and Welfare of the United States, and the representatives of the United States on the International Boundary and Water Commission to urge the government of Mexico to expedite its program of improving the sewage disposal facilities of Tijuana, Mexico, and to urge the government of Mexico to establish standby facilities for emergency needs; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the Secretary of State of the United States, the Secretary of Health, Education, and Welfare of the United States, each representative of the United States on the International Boundary and Water Commission, and to each Senator and Representative from California in the Congress of the United States

CHAPTER 93

Senate Concurrent Resolution No 38—Relative to Senior Citizens' Month.

[Filed with Secretary of State May 13, 1963.]

WHEREAS, The well-demonstrated greatness of the State of California is due in large measure to the efforts of those people who are now the senior citizens of California; and

WHEREAS, The senior citizens of California have richly contributed to the economic prosperity and social and cultural development of the State of California; and

WHEREAS, The blessings of longer life and better health are being made available to all our citizens at the same time that technological progress is making the task of employment less toilsome physically and bringing arbitrary retirement at an age when most people can and want to continue as productive members of society; and

WHEREAS, There are now over one million and a half Californians age 65 and over and their number will increase in our population as efforts of science continue to increase the human lifespan; and

WHEREAS, The practice of arbitrary retirement tends to minimize the usefulness of older people to their communities and makes it difficult for them to obtain decent housing, adequate medical care, and necessary recreational and educational opportunities because of sharply reduced retirement income; and

WHEREAS, The senior citizens of California have demonstrated their interest and ability to continue to make constructive and creative contributions to the well-being of the economy through either employment or voluntary service efforts; and

WHEREAS, The foregoing factors make it necessary that proper planning be done to meet the needs of California's senior citizens; now, therefore, be it

Resolved, That the people of California are urged to continue in their worldwide recognized leadership in meeting the needs and problems of senior citizens so that the senior citizen can enjoy dignity, self-respect, usefulness, and good citizenship throughout his lifetime as a member of his community; and be it further

Resolved, That every state department and agency is urged to give all the necessary encouragement and assistance to the communities of the State in marking Senior Citizens' Month with fitting observances; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit copies of this resolution to the Honorable Edmund G. Brown, Governor of the State of California, the Citizens' Advisory Committee on Aging, and to the directors of all state agencies.

WHEREAS, The year 1963 marks the 250th anniversary of the birth of Father Junípero Serra; and

WHEREAS, From this humble beginning, Father Serra, with the aid of 16 other men in the Franciscan Order, spread the spark of civilization by blazing the historic and romantic El Camino Real from San Diego to San Francisco; and

WHEREAS, Father Serra labored tirelessly and selflessly in his work in the final 15 years of his life, when waning years, weakening health, and vicissitudes of the outpost of an empire would have led a lesser man to abandon the project; and

WHEREAS, As a tribute of respect to the memory of Father Junípero Serra; now, therefore, be it

CHAPTER 95

Assembly Joint Resolution No. 39—Relative to the Food for Peace Program.

[Filed with Secretary of State May 16, 1963.]

WHEREAS, Fishery products are one of the finest sources of healthful nutritious protein so essential to the growth and well-being of all people; and

WHEREAS, The United States has, through the Food for Peace Program, undertaken to aid in the obtaining of an adequate supply of food for the hundreds of thousands of people throughout the world so vitally in need of such food; and

WHEREAS, The use of domestically produced fishery products for this program would, in addition to making this essential food available to these people, materially aid the United States fishery industry in its program of expanding its markets, which is necessary if the industry is to progress in its battle for survival against foreign competition; and

WHEREAS, The development and progress of our domestic fishing industry is important not only because of its beneficial effect on the economic well-being of a large number of our citizens who are connected with the industry but also because it can substantially aid in the proper conservation and utilization of the fishery resource, for although many foreign fishermen ignore sound conservation practices and are subject to no conservation laws this is not true of our fishermen, who are subject to many restrictive laws enacted to preserve and protect the fisheries involved; and

WHEREAS, There are presently two bills before Congress, S. 702 and H R. 3965, which would authorize the procurement and distribution of domestically produced fishery products under the Food for Peace Program; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Congress of the United States is requested to enact legislation, such as S. 702 or H.R. 3965, to authorize the use of domestically produced fishery products under the Food for Peace Program; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States

[Filed with Secretary of State May 21, 1963.]

WHEREAS, It has come to the attention of the Members of the Legislature of the State of California that the federal government is considering the establishment of a 500-bed veterans hospital in Southern California; and

WHEREAS, San Diego County has a climate suitable to the well-being of convalescent patients, as they are able to be out of doors in healthful sunshine throughout the year to enjoy whatever outdoor activities their health permits; and

WHEREAS, The desirability of San Diego County's climate and the wealth of its available spectator and participating recreational activities are attested to by the high percentage of retired military personnel who have chosen to make their homes in the area; and

WHEREAS, The San Diego area is one of the more progressive communities in the State, is kept at a stable and temperate climate by the bay on its west boundary; and

WHEREAS, San Diegans have lived amicably with the large number of military personnel stationed in the area for many years and would welcome patients and staff from a veterans hospital to the community; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to provide for establishing a veterans hospital in the San Diego area; and be it further

CHAPTER 99

Assembly Concurrent Resolution No. 49—Relative to water quality of the Salton Sea.

[Filed with Secretary of State May 21, 1963]

WHEREAS, It has come to the attention of the members of the Assembly that the Salton Sea State Park and the surrounding region are of significant value to the Southern California counties as a recreational area; and

WHEREAS, The available land for residential use in Southern California is ever-decreasing and the Salton Sea area is an attractive residential region with an ever-increasing number of new homes under construction and a rapidly expanding population; and

WHEREAS, In the past there has been contamination of the waters tributary to the sea by some communities and commercial operations; and

WHEREAS, Many individual communities and commercial operations have co-operated constructively in efforts to minimize the increase of impurities in the water; and

WHEREAS, It appears there will in the future be additional increase of mineral concentration of the Salton Sea in small but potentially increasing quantities, and all of this has caused concern and heightened the worry of residents; and

WHEREAS, The California Legislature recognizes that the State Water Pollution Control Board and the Colorado River Basin Regional Water Pollution Control Board have kept a watchful eye on the problems, and the discharges by communities and the many commercial operations, to control the situation; and

WHEREAS, There exists a feeling among the people owning property around the sea and those enjoying its benefits that even more careful attention should be given to this problem; and

WHEREAS, The California Legislature recognizes that the federal government reserved specific parcels of land for the purpose of creating a reservoir in Salton Sea for storage of waste and seepage water from irrigated lands, that the economic life of the adjacent valleys depends primarily upon agriculture, that the Salton Sea also receives natural drainage waters from its watershed, and that these are the primary beneficial uses of the Salton Sea, and that corollary to such primary beneficial uses, and for the purpose of allowing residential, commercial, and industrial growth of the valley communities, there is the necessity of providing for regulated disposal of treated domestic and commercial wastes from watershed communities: now, therefore, be it

Resolved by the Assembly of California, the Senate thereof concurring, That the Legislature reaffirm public policy against encroaching practices resulting in the contamination of the Salton Sea and its tributaries and urge the State Water Pollution Control Board and the Colorado River Basin Regional Water Pollution Control Board to take extraordinary precautions to prevent all such pollution in order to retain this vital area as an attractive recreational and residential community, giving due regard, however, to the above-listed primary and corollary beneficial uses; and be it further

Resolved, That, since water pollution in these areas can and will have serious international implications, it is the intent of the California Legislature to bring about the necessary international co-operation to correct this situation; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit suitably prepared copies of this resolution to the Governor of the State of California, Edmund G. Brown, and Lieutenant Governor Glenn M. Anderson, the State Water Pollution Control Board, the Colorado River Basin Regional Water Pollution Control Board, the Department of Parks and Recreation, and the Resources Agency.

WHEREAS, Under present systems of control it is both cheaper and easier to obtain these drugs to satisfy this morbid and depraved habit to the great injury of both the addicted user and society as a whole; and

WHEREAS, There is great and urgent need for federal legislation controlling the interstate traffic in these preparations; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Congress of the United States is respectfully requested to amend United States law to protect the health and public welfare of the United States by providing for legislation similar in form to that contained in Senate Bill 1939, 87th Congress, 1st Session, which controls the compounding, processing and distribution of barbiturates and amphetamines; and be it further

WHEREAS, These rules prescribe general standards which apply on a nationwide basis without regard to peculiar local problems; and

WHEREAS, These rules contain a general prohibition against brush, trees, and wild growth on project levees; and

WHEREAS, The network of waterways formed by the Sacramento and San Joaquin Rivers and Deltas has been made possible by a unique system of levees and presents special problems of maintenance peculiar to that system only and which constitutes an important recreation area, as well as flood protection facilities for the people of California; and

[Filed with Secretary of State May 28, 1963.]

WHEREAS, The 81st Congress in recognition of the responsibility of the United States for the impact which certain federal activities have on local educational agencies in the various states and areas in which such activities are carried on, declared it a policy of the United States to provide financial assistance in the form of construction aid and federal payments as payments in lieu of taxes, pursuant to the provisions of Public Laws 815 and 874; and

WHEREAS, Congress in recognition of this continuing burden of federal activities on local educational facilities and the resulting financial drain, has seen fit to continue this program of aid by amendments to Public Laws 815 and 874, and

WHEREAS, These programs assist districts in which local revenues for schools have been reduced due to the acquisition of real property by the United States, districts which provide education for children living on federal property or whose parents are employed on federal property, and districts experiencing a sudden and substantial increase in school attendance because of federal activities; and

WHEREAS, The conditions and problems created by federal activities which constrained Congress to originally grant federal aid to education, have been ameliorated in some degree but have not been eliminated; and

WHEREAS, Because of its strategic geographic location at the gateway to the Pacific Ocean and the Far East, and because of its diverse climate and topography which is desirable to the armed forces, and because of its large and progressive industrial facilities which are able to manufacture any item for national defense, California is particularly affected by federal activities and the resulting impact on educational facilities; and

WHEREAS, This program of aid which originated under Public Laws 874 and 815 of the 81st Congress and continued by subsequent amendments will expire on June 30, 1963, unless renewed by amendment and because this federal aid is imperative to maintenance of educational standards; now, therefore, be it

WHEREAS, This advisory committee does not consider that recommendation as its final expression on the matter, recognizing that Los Angeles or Sacramento might be equally or more appropriate; and

WHEREAS, The administration of the filing will be handled by the Secretary of State; and

WHEREAS, Considerable study and planning is necessary before an effective system of central filing can be established; and

WHEREAS, The Uniform Commercial Code, if enacted as introduced in Senate Bill No. 118 would become operative on January 1, 1965; now, therefore, be it

CHAPTER 122

Senate Joint Resolution No. 16—Relative to federal in-lieu payments.

[Filed with Secretary of State June 4, 1963.]

WHEREAS, The Congress of the United States has recognized that it is the obligation of the government of the United States to make payments to counties in lieu of taxes for lands administered by the Forest Service and Bureau of Land Management; and

WHEREAS, The Forest Service Act of 1908 (16USC500) specified that 25 percent of all moneys received from each national forest during any fiscal year should be paid at the end of the year by the Secretary of the Treasury to the state in which the national forest is situated, to be expended as the state legislature may prescribe for the benefit of the public schools and the public roads of the county or counties in which the national forest is situated; and

WHEREAS, Several laws specify that a certain percentage of the money received from grazing fees on lands administered by the Bureau of Land Management shall be allocated to the counties in which the land is located; and

WHEREAS, Amendment to the laws have allowed the Forest Service and the Bureau of Land Management to deduct many items from the gross income of the land which they administer, and that particularly in the last 10 years the amount of the deductions has increased at an alarming rate; and

WHEREAS, The sale price of timber administered by the United States Forest Service does not include the cost of access road construction, slash disposal, or Knudsen-Vandenberg Act deposits, all of which are part of the actual gross value and income; and

WHEREAS, This has caused a reduction in the amounts paid in lieu of taxes to the point where now many counties with federal lands administered by the Forest Service and Bureau of Land Management are receiving less than one-quarter the amount in lieu of taxes that is received in taxes from private lands; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the President and the Congress of the United States are requested to amend the present laws so that counties will henceforth receive a statutory percentage of the actual gross rather than a statutory percentage of the net income of the moneys received from lands administered by the Forest Service and the Bureau of Land Management; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the President and Vice

President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to the Secretary of Agriculture, and to the Secretary of Interior.

WHEREAS, Construction of the Red Bluff Diversion Dam is currently underway and preconstruction financing has been provided for the Tehama-Colusa Canal commencing at the diversion dam and traversing the west side of the Sacramento Valley through Tehama, Glenn and Colusa Counties and terminating on Bird Creek in the northern portion of Yolo County; and

WHEREAS, The need for additional water supplies on the west side of the Sacramento Valley is acute in many areas and this need is not limited to the presently defined service areas of the Tehama-Colusa Canal and feasible proposals have been made for the extension of this canal system to provide service to Yolo and Solano Counties where a need for supplementary water supplies has been adequately demonstrated to the point that existing sources and all reasonably feasible potential sources are required to meet long-range deficiencies; and

WHEREAS, The extension of this system to service Yolo and Solano Counties would make possible exchanges of water from other developed projects to furnish supplies to Napa and Lake Counties which are seriously in need of such sources of supplementary water; and

WHEREAS, The Honorable Clair Engle, United States Senator, has introduced S. 785 in the current session of the Congress, and companion bills have been introduced in the House of Representatives, which would extend the service area of this project to include Yolo and Solano Counties and envision the increase in capacity of the currently authorized Tehama-Colusa Canal and its extension to Lake Solano and Putah Creek or beyond as may be determined feasible, and the construction of certain supplementary works, and to redesignate the project as the Sacramento Valley Canal; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Honorable Clair Engle is commended

for the leadership which he has shown in seeking solutions to the water problems of the west side of the Sacramento Valley, as well as other parts of this State; and be it further

Resolved, That the Congress of the United States is urged to enact S. 785, or its companion measures in the House of Representatives, introduced at the current session of the Congress, and that the President of the United States is urged to approve such legislation; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

This percentage change shall be applied to adjust the then existing compensation of the officers and members of the Fire and Police Departments, such adjustments to be effective for the fiscal year commencing on July the First next following such computation.

" 'Percentage change' as used herein shall be computed as follows: Annual Average of Average Hourly Earnings of Production and Related Workers in Manufacturing in an area including the City of Santa Barbara for the calendar year next preceding the computation divided by the comparable figure for the next prior preceding calendar year.

" 'Annual Average of Average Hourly Earnings of Production and Related Workers in Manufacturing for the area that includes the City of Santa Barbara' as used herein shall mean that amount of earnings which is the annual average of monthly averages of hourly earnings for such workers in such area, as summarized and reported annually by the division of Labor Statistics and Research of the State of California. The area mentioned herein does not include the entire State, but only that specially designated geographical division of the State selected by the Division of Labor Statistics which in-

Assembly Concurrent Resolution No. 96—Relative to the death of Pope John XXIII.

[Filed with Secretary of State June 17, 1963.]

WHEREAS, The brotherhood of man was to him not only a truth but the bedrock upon which solutions to man's problems would be built, as he demonstrated by his efforts to achieve Christian unity and to promote an atmosphere of tolerance and understanding in which those solutions could be wrought for all men, and to this end he sought new approaches through the Ecumenical Council; and

WHEREAS, He viewed the central world tension within the context of his understanding that man can lose his way not only by the false doctrines of communism but equally by the West's besetting temptation, in his words, "Well-being based exclusively on the comforts of life"; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the members express their sorrow at the death of Pope John XXIII, whose great understanding and warm humanity touched the lives of people of all faiths in all areas of the world during the five years allotted to him to serve as Pope; and be it further

WHEREAS, The industry is faced with increased imports of wine from Europe and South America; and

CHAPTER 152

Assembly Concurrent Resolution No. 67—Relative to construction of the East Branch Aqueduct.

[Filed with Secretary of State June 19, 1963.]

WHEREAS, An action was recently brought by the Orange County Water District to have declared the rights of the defendant Cities of San Bernardino, Redlands, Colton, and Riverside to the surface and underground flows of the Santa Ana River system, and to enjoin the taking of water from such system in excess of their rights as determined by the court. The court has granted an injunction in this case against said agencies which will take effect in the near future. At that time the area involved in San Bernardino County will be without a sufficient supply of water. The Metropolitan Water District of Southern California and the San Bernardino Valley Municipal Water District, which serve the area involved with water, have contracted with the State to receive water which will be transported through the East Branch Aqueduct of the State Water Facilities when these facilities are built sometime in the future. In addition, the Antelope Valley-East Kern Water Agency, the Desert Water Agency, San Gabriel Municipal Water District, San Gorgonio Pass Water Agency, Palmdale Irrigation District, and the Coachella Valley County Water District, which will serve water to another area of critical water shortage, have contracted with the State to receive water which will be transported through said East Branch Aqueduct, and it is expected that other agencies will also contract for water which will be transported through said East Branch Aqueduct. Because of the unique water scarcity problems presented by these areas, and to prevent a catastrophic situation from developing in the San Bernardino County area, it is necessary to construct the East Branch Aqueduct so that water may be served from said aqueduct as soon as water can be made available through the State Water Facilities; and it is presently estimated that water service from said facilities will begin in the East Branch Aqueduct service area in 1972; and

WHEREAS, The water supply contracts between the State and the agencies above named provide that the timing of first deliveries of project water to said agencies from the East

Branch Aqueduct shall be as established by mutual agreement among the State and said agencies; provided that if such agreement is not reached on or before December 31, 1963, the State may then construct said East Branch Aqueduct in accordance with such construction schedules as, in the judgment of the State, will best serve the interests of all those agencies whose service areas are located south of the south portal of the Tehachapi Tunnels and which have executed contracts with the State on or before June 30, 1963; and

WHEREAS, In the event such agreement is not reached by the State and the contracting agencies, it is the desire of the Legislature that said East Branch Aqueduct be constructed at the earliest possible time; and

WHEREAS, The Department of Water Resources has repeatedly declared its intention of exerting every effort to deliver water in the East Branch Aqueduct service area pursuant to its contracts beginning in the year 1972; and

WHEREAS, Article 6(a) of each of the above contracts provides that the year of initial delivery is estimated to be 1972; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Department of Water Resources is hereby directed, in the event the State and the contracting agencies do not reach agreement as provided in their contracts by December 31, 1963, to proceed to construct the said East Branch Aqueduct to the end that water deliveries shall be initiated pursuant to the water supply contracts no later than 1972; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the Governor of the State of California, to the Administrator of the Resources Agency, to the Director of Water Resources, and to the governing bodies of each of the contracting agencies mentioned in this resolution.

WHEREAS, The Legislature is in need of advice, information and recommendations as to the most advantageous and feasible method of establishing and administering a program such as is proposed by Assembly Bill 1273; and

WHEREAS, The State Department of Education is now implementing programs of compensatory education under the McAteer Act, and whereas it seems probable that many of the students involved in compensatory education programs would benefit from a state student loan program; and

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the State Scholarship Commission is hereby requested to include within its present study the general subject matter of Assembly Bill 1273, and to consult with the State Department of Education in specific reference to the college and university loan needs of students in compensatory education programs as set forth in the McAteer Act, and to report its findings to the Legislature not later than the fifth legislative day of the 1965 Regular Session; and be it further

WHEREAS, The problem of gasoline tax refunds has been controversial and uncertain for many years; and

WHEREAS, Such refunds are now made in three fields, namely gasoline used for boats, airplanes and for agriculture; and

WHEREAS, Equity demands that unused taxes on gasoline for boats and airplanes should be returned to those agencies charged with constructing boat or airplane facilities; and

WHEREAS, The amount of such refunds has been studied several times but the results of all such studies have been inadequate due to lack of funds; and

CHAPTER 158

Senate Joint Resolution No 20—Relating to remedial English instruction for non-English-speaking students from immigrant families.

[Filed with Secretary of State June 20, 1963.]

WHEREAS, The presence of large numbers of non-English-speaking children of Mexican immigrants creates instructional and financial problems for the involved school districts; and

WHEREAS, School districts experiencing this problem are widely scattered throughout the State of California although the problem in the schools of Imperial County is especially critical where the percentages of elementary pupils with this language handicap generally vary from 2 to 15 percent of the total enrollment; and

WHEREAS, Experience in schools of Imperial County has shown that the language-handicapped child can be helped by special programs which include bilingual teachers, smaller classes, individual help and language laboratories for teaching English as a foreign language; and

WHEREAS, Low assessed valuation per unit of average daily attendance makes it extremely difficult for many of the school

districts involved to finance special programs for the language-handicapped and under existing law it would be impractical to attempt to collect tuition from any students residing in California away from parents living in Mexico; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Congress of the United States is urged to enact legislation amending Title III of the National Defense Education Act to include English for non-English-speaking pupils in the school foreign language program; and be it further

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Civil Aeronautics Board to take direct positive action to restore the two flights cancelled by United Airlines for service to Merced in the event that service is not restored by the airline; and be it further

Resolved, That the Secretary of the Senate be directed to transmit copies of this resolution to the Civil Aeronautics Board and to each Senator and Representative from California in the Congress of the United States.

[Filed with Secretary of State June 20, 1963.]

WHEREAS, The Budget Act of 1962 and successive budget acts will provide funds for payment of overtime earned by state traffic sergeants and state traffic officers of the California Highway Patrol; and

WHEREAS, The purpose of this overtime compensation is to make available more man-hours for road patrol and traffic law enforcement duties; and

WHEREAS, It is understood that these additional man-hours made available by payment for overtime will reduce the necessity of requesting additional manpower; and

WHEREAS, It is not the desire of this legislative body that these funds be used to pay for overtime earned in duties of an administrative nature; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Commissioner of the California Highway Patrol express departmental policy in a directive to his department embodying the principles set forth above by emphasizing that overtime be authorized by his subordinate commanders to the greatest extent possible for the essential task of traffic law enforcement in those duties performed by members assigned to beat or road patrol in vehicles or motorcycles and that this stated policy should not be construed as reason or justification for disregarding the normal management function of control of authorized overtime by proper scheduling or good judgment; and be it further

Resolved, Such policy directive should state that members of the California Highway Patrol assigned or serving in desk positions, staff positions at whatever level or assigned to duties other than road or beat patrol should not, except under unusual circumstances, and only with the prior approval of their immediate commander, be authorized to earn overtime, and that in such instances a special review of this type of overtime will be provided at Sacramento headquarters level; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit a copy of this resolution to the Commissioner of the California Highway Patrol.

CHAPTER 161

Assembly Concurrent Resolution No. 51—Relative to professional boxing.

[Filed with Secretary of State June 20, 1963]

WHEREAS, Professional boxing is causing an ever-mounting toll of death and permanent injury to the participants; and

WHEREAS, The families of the victims have suffered untold grief and the sensibilities of the public generally have been greatly disturbed and offended; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the California State Athletic Commission is requested to review and revise its rules and regulations governing professional boxing to give all possible protection to the participants to avoid their death or permanent injury and to review the records of all persons licensed to conduct or participate in professional boxing contests and to suspend all licenses and permits to conduct or participate in professional boxing contests of any person who is found, as a promoter, manager, or second, to have failed to take all reasonable precautions to protect the professional boxers involved in his activities from death or permanent injury, and to suspend all licenses of any professional boxer who is, in the judgment of the commission, likely to suffer death or permanent injury if he continues to engage in boxing; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the State Athletic Commission.

CHAPTER 162

Assembly Concurrent Resolution No. 102—Relative to the celebration of the centennial commencement of the University of California.

[Filed with Secretary of State June 20, 1963]

WHEREAS, The University of California celebrated its centennial commencement on June 8, 1963; and

WHEREAS, The extent of the growth of the university in order to meet the educational needs of today is shown by the fact that 6,367 degrees were awarded on June 8, in contrast to the 4 degrees awarded at the first commencement in 1864; and

WHEREAS, The University of California is today recognized as one of the greatest educational institutions in the world; and

WHEREAS, One of the foremost purposes of the University of California as stated by President Emeritus, Robert Gordon Sproul, at the June 8 commencement, is not only to equip students to earn a livelihood but to endow them with a mind-enriching philosophy so that their "reaction to disturbing problems is slanted as little as possible by prejudice"; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Members of the Legislature of the State of California congratulate the University of California upon its centennial commencement and express on behalf of all the people of the State of California their appreciation and sense of pride upon the accomplishments of the University of California during the past century; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit a suitably prepared copy of this resolution to the Regents of the University of California.

CHAPTER 163

Senate Joint Resolution No. 13—Relative to judicial review in public assistance cases.

[Filed with Secretary of State June 24, 1963.]

WHEREAS, It is in the public interest that the administrative interpretation of statutory provisions be subject to judicial review, so that those subject to regulation may have a forum wherein they may obtain an impartial determination as to the meaning of the statutes under which they operate; and

WHEREAS, The law is not clear whether a state or its subdivisions, or a recipient of public assistance, may obtain a speedy and adequate judicial review of decisions made by the United States Department of Health, Education, and Welfare concerning the public assistance sections of the Social Security Act; and

WHEREAS, The result is that the United States Department of Health, Education, and Welfare, for practical purposes, is the final judge as to whether or not a state is in conformity with federal requirements; and

WHEREAS, The apparent unlimited authority conferred on the department prevents the legislatures in the various states, in many instances, from enacting sound legislation in the field of public assistance, due to statements, often unfounded, that the legislation will be declared by the department to be out of conformity with federal requirements; and

WHEREAS, If provision were expressly made for an adequate judicial review of decisions of the department in the federal courts, the problems discussed above would be eliminated, and there would grow a body of judicial precedents that would

enable the states to determine the extent of their discretion under the Social Security Act; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California hereby memorializes the President of the United States, the Congress of the United States, and the Secretary of Health, Education, and Welfare to take such action as may be necessary to clearly enable a state and its political subdivisions, and public assistance recipients, to maintain appropriate actions in the federal courts to obtain a quick and adequate judicial review of administrative determinations made under the Social Security Act; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the President of the United States, the Vice President of the United States, the Speaker of the House of Representatives, the Secretary of the United States Department of Health, Education and Welfare, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 164

Assembly Concurrent Resolution No. 86—
Relative to conservation.

[Filed with Secretary of State June 27, 1963.]

WHEREAS, California is now the most populous state of the United States of America; and

WHEREAS, Accompanying this spectacular growth in population, there has been a drain upon, and a destruction of, resources for which this State is justly world famous; and

WHEREAS, There is increasing pollution of the air, pollution and waste of water, destruction of scenic beauty, damage to the natural environment of fish and wildlife, obliteration of priceless farmland and, in some cases, ill-conceived, unsightly housing developments, disregard for the needs of man's spirit, a threat to the preservation of the matchless beauty of California, threatened damage to the State's tax base by making the State less attractive to tourists and industry, and a less than desirable understanding, because of inadequate conservation education, of the principles and value of conservation practices; and,

WHEREAS, As a result, there is a need for comprehensive planning of the State's future quality and character, and a need for a sustained, vigorous, flourishing California Citizens' Conservation Crusade; and

WHEREAS, There is an awakening among the citizens of California, recognizing more clearly these threats to the State's future, and there is also a determination to preserve

the beauty of the State of California, and this effort calls for leadership both in state government and in federal government; and

WHEREAS, The success of a California Citizens' Conservation Crusade depends upon a leadership in the field of conservation education and a mobilizing of the energy and finances of individuals, private companies, and employees of local, state, and federal agencies in a massive citizens' effort to use wisely our natural environment; and

WHEREAS, This leadership can best be employed by the legislative and executive representatives of the state government primarily concerned with preserving, improving and renewing the quality and usefulness of the State's natural resources; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature of the State of California does hereby reaffirm its dedication to sound conservation practices and their importance to the general welfare of the people of California; and be it further

Resolved, That the Governor of the State of California is requested to appoint a citizens' conservation crusade committee which shall, through the Administrator of the Resources Agency of the state government, encourage on a statewide basis in appropriate areas of the State, conservation education centers utilizing personnel of the various state conservation agencies or federal agency employees, which action shall be the beginning of a sustained effort to promulgate and provide leadership for a sustained California Citizens' Conservation Crusade; and be it further

Resolved, That the Governor of the State of California is requested to submit to the Legislature of California as of December 1, each calendar year, a report on the progress of conservation planning and conservation education in the State of California with any recommendations he may deem advisable for improving and intensifying the California Citizens' Conservation Crusade, giving full weight to the fact that success depends not so much on appropriation of public funds as upon the mobilization of the latent energy and finances of millions of individuals and scores of privately owned companies and corporations which have responsibilities and a substantial interest in improving the quality and the usefulness of the State's natural resources; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to distribute copies of this resolution and declaration of policy to the Governor, the Lieutenant Governor, the Administrator of the Resources Agency, the State Planning Officer, and the State Lands Commission and to distribute it widely among the individuals and groups concerned, including the President and Vice President of the United States, the Secretary of the Interior, the Under Secretary of the Interior, Secretary of Agriculture, the Secretary of Commerce, the Speaker of the

House of Representatives, the chairman of each committee in the Congress of the United States that has responsibilities in the field of natural resources, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 165

Senate Joint Resolution No. 11—Relative to the Trinity River.

[Filed with Secretary of State June 27, 1963.]

WHEREAS, The Upper Trinity River is an area of great natural beauty with fine fishing areas for the people of California; and

WHEREAS, The lack of annual or periodic river flush due to the water regulation by Trinity Dam has caused excessive muddying and sliming of slack water areas and has caused excessive willow, tule, and other aquatic growth; and

WHEREAS, Highway projects on State Route 299 in the Grass Valley Creek area, while not being the original cause of, nor at any time the major contributory factor, have caused some heavy siltation of the Trinity River, and

WHEREAS, Decomposed granite covers more than a mile of the spawning gravel in the Trinity River; and

WHEREAS, The Trinity River salmon and steelhead fishery is of vital economic importance to Trinity County since many of its businesses depend entirely upon the autumn and winter influx of fishermen who are attracted by the excellent fishing; and

WHEREAS, Immediate co-operative action of the state and federal governments is essential to the elimination of this serious threat to the Upper Trinity River fishery; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to take immediate co-operative action with the State of California to eliminate this serious threat to the Trinity River fishery; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 166

Senate Joint Resolution No. 27—Relative to the creation of a national park in the redwood area.

[Filed with Secretary of State June 27, 1963.]

WHEREAS, The Secretary of the Interior, Stewart L. Udall, has announced that he will soon propose a new national park covering a large redwood area in Northern California, which will embrace a whole watershed area; and

WHEREAS, The people of California welcome the nationwide recognition of the scenic splendors of its redwood groves and encourage their dedication to the use and enjoyment of all of the people of the United States; and

WHEREAS, The outstanding manner in which the federal government maintains and operates national parks such as the Yellowstone National Park and Yosemite National Park is a credit to our country and has commanded worldwide admiration and respect; and

WHEREAS, It is appropriate that a national park be established in the redwoods, site of the oldest living things; and

WHEREAS, The only groves of redwoods comprising a whole watershed suitable for the proposed park appear to be located in Humboldt County; and

WHEREAS, More than 20 percent of the land of Humboldt County is now in public ownership and the removal of additional areas from private ownership and the tax rolls would not only preclude further development and growth of the county, and impose an intolerable tax burden on the residents thereof, but also would pose a serious threat to its existing economy; and

WHEREAS, The State of California has in 1962 acquired some 18,000 acres in the Bull Creek area within the watershed of the south fork of Eel River, of the value of over $1,150,000, in addition the 35,000 acres theretofore within existing state parks in said county, and thereby removed the same from the tax rolls of Humboldt County, and increased the tax burden upon the taxpayer of Humboldt County and of the Southern Humboldt Unified School District; and

WHEREAS, The creation of the proposed national park in lands now included within a state park would not only facilitate the dedication of the most desirable redwood groves for this purpose but would also avoid removing more lands from private ownership; and

WHEREAS, The acquisition and transfer of the present state parks by and to the United States for purposes of said national redwood park would relieve the State of California and the taxpayers thereof of the cost and responsibility for the further administration and operation thereof, without any disadvantages from the recreational standpoint; and

WHEREAS, The proposed national park or certain groves thereof could well be named in honor and memory of Dag Hammarskjöld as a fitting memorial, thereby relieving fund-raising organizations including those known as the "Save the Redwoods" league and "Nature's Conservancy" in their efforts to raise money to acquire a redwood grove in Humboldt County in his honor; and

WHEREAS, Pursuant to Section 4433 of the California Public Resources Code, the State pays to each county in which lands have been acquired for state forests an amount equivalent to taxes levied by the county on similar land similarly situated in the county; and

WHEREAS, Section 1504 of the Fish and Game Code also requires that payments be made to counties by the State "in lieu" of taxes when income is derived from real property acquired and operated by the State as wildlife management areas; and

WHEREAS, Other states, including the State of New York, assist their counties in carrying their added burdens incident to the maintenance of tax-free state parks within their boundaries by making payments "in lieu" of taxes; and

WHEREAS, Various federal laws similarly provide for payments to counties including: Payments to counties of 25 percent of funds received from national forests for use in the county or counties in which the forest is located (Sec. 50d, Title 16, United States Code); payments to counties of specified percentage of various grazing fees received under the Taylor Grazing Act (Sec. 315 et seq., Title 43, United States Code); and payment of certain percentage of money received from the sale of public land (Act of June 17, 1902 and other acts) and from the disposal of materials (including timber) on public lands (Sec. 603, Title 30, United States Code); and

WHEREAS, The payment of such payments "in lieu" of taxes is essential to enable the county to meet its obligations and to provide services necessary for its present population and those who would travel through the county to visit the redwoods; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That Congress is urged to secure the lands necessary for the proposed national park by taking over only those present state park lands in the Humboldt County comprising the Humboldt Redwood State Parks in the watershed of the south fork of the Eel River; and be it further

Resolved, That provision be made for payments by the federal government to the County of Humboldt "in lieu" of taxes in order to remove the inequity resulting from present loss of tax base, and assist the county in performing the added county services which will be required incident to the operation of the national park; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives,

to each member of Congress from the State of California, Stewart L. Udall, Secretary of the Interior, to James K. Carr, Under Secretary of the Interior and to Orville Freeman, Secretary of Agriculture.

CHAPTER 167

Assembly Concurrent Resolution No. 34—Relative to State Highway Routes 165 and 167 in San Pedro.

[Filed with Secretary of State June 27, 1963.]

WHEREAS, The vehicular traffic in San Pedro is creating serious problems endangering the lives and safety of both motorists and pedestrians, and with the growth in the economy and population in the harbor area, this problem will increase in its intensity; and

WHEREAS, Other factors will also contribute to the congestion of traffic in San Pedro, namely, the World Fair which will be held in Long Beach in 1967, and the World Trade Center and the United States Custom House which are currently being proposed for construction on Terminal Island; and

WHEREAS, While State Highway Routes 165 and 167 presently provide for a connection between the Harbor Freeway and Pacific Avenue in San Pedro, there are still 0.8 miles of highway to be constructed on Route 165 from Battery Street to Elberon Street and 0.6 miles of highway from Route 165 to Pacific Avenue, which remain to be improved as a state highway; and

WHEREAS, It is estimated that the total cost of rights-of-way for these stretches of highway will be $3,965,000 and that the total cost of construction thereof will be $4,000,000; and

WHEREAS, Under the present time schedule of the California Highway Commission and the Department of Public Works, funds will not be allocated for right-of-way acquisition until 1966 and funds will not be allocated for construction until 1970; and

WHEREAS, In view of the factors mentioned in this resolution, it is apparent that such a delay in the acquisition of rights-of-way for, and the construction of, the stretches of State Highway Routes 165 and 167 involved in San Pedro would be detrimental to public health and safety; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the California Highway Commission and the Department of Public Works be requested to alter their present time schedule with respect to the allocation of funds for right-of-way acquisition for, and construction of, the stretches of State Highway Routes 165 and 167 in San Pedro mentioned in this resolution in order that there may

be an adequate state highway connection between the Harbor Freeway and Pacific Avenue at the earliest possible time; and be it further

Resolved, That the Chief Clerk of the Assembly be directed to transmit a copy of this resolution to the Director of Public Works.

CHAPTER 168

Assembly Concurrent Resolution No. 43—Relative to apprenticeship training in secondary schools.

WHEREAS, There is in this State a great need for skilled craftsmen, and this need can, in large part, be met by an effective program of vocational education and training in California's secondary schools; and

WHEREAS, It is, therefore, advisable at this time that a study be undertaken to determine the courses and the kinds of courses which are appropriate for, and should be contained in, such a program; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Department of Industrial Relations and the Department of Education, Bureau of Industrial Education are hereby requested to study and analyze all facts relating to apprenticeship and other training preparatory courses in California's secondary schools and to take such steps as are necessary to develop methods whereby industry, as represented through the joint apprenticeship committees or other advisory committees, will review subjects offered in secondary schools, and determine which of these are essential or desirable as preparatory to entry into apprenticeship or training on the job programs, and report thereon to the Legislature on or before January 15, 1965; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the Director of Industrial Relations and the Director of Education.

WHEREAS, The State Housing Law was rewritten in the 1961 Regular Session of the Legislature to make the law applicable, for the first time, to dwellings in unincorporated areas; and

WHEREAS, As is often the case when the law moves into new areas of regulation and control, hardships may exist or arise out of unreasonable applications of the law; and

WHEREAS, It is the intent of the Legislature that the application of the new housing law to dwellings in unincorporated areas not cause such hardships; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Department of Industrial Relations, through its Division of Housing, is hereby requested to hold public hearings during the 1963-1965 interim period for the purpose of ascertaining whether, in fact, applications of the State Housing Law, or rules and regulations promulgated thereunder, to dwellings in unincorporated areas have caused such hardships; and be it further

Resolved, That the Department of Industrial Relations is requested to report its findings thereon to the Legislature on or before the fifth legislative day of the 1965 Regular Session; and be it

Resolved, That the Chief Clerk of the Assembly be instructed to transmit a copy of this resolution to the Director of Industrial Relations.

CHAPTER 170

Assembly Concurrent Resolution No. 87—Relative to radioactive waste disposal.

[Filed with Secretary of State June 27, 1963.]

WHEREAS, The disposal of radioactive wastes by burial in the earth can create an extreme hazard to the public health and safety; and

WHEREAS, It is, therefore, imperative that the issuance of permits which authorize the burial of radioactive wastes should be restricted to the permits which are absolutely essential to meet the needs of industry until the Legislature can determine what safeguards are required to adequately protect the public health and safety; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the State Department of Public Health is requested to restrict the issuance of permits which authorize the burial of radioactive waste to the permits which the department determines are absolutely essential to meet the needs of industry until the 91st day after the final adjournment of the 1965 Regular Session of the Legislature in order to afford the Legislature time to determine the safeguards which are required with respect to the burial of radioactive wastes to adequately protect the public health and safety; and be it further

[Filed with Secretary of State June 27, 1963.]

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Department of Water Resources is hereby requested to undertake any necessary negotiations, by way of amendment to existing contracts for water supplies, or otherwise obtain the consent of the contracting parties, to provide for the delivery of surplus water for agricultural use or ground water replenishment on a basis which will provide that the Department of Water Resources is not required to sell such surplus water for such purposes so as to return to the State the largest net revenues practicable, and further that the Department of Water Resources is not limited to sale of such surplus water for such purposes on the basis of contracts which expire within one year without right of renewal; and be it further

Resolved, That the Department of Water Resources is requested to undertake any necessary negotiations, by way of amendment to existing contracts for water supplies, or otherwise obtain the consent of the contracting parties, to provide that the surcharge required to be imposed under the existing contracts may be applied so as to reduce the price of water for agricultural use on other than excess land within the boundaries of the particular contractor by a uniform rate per acre-foot not to exceed two dollars ($2) per acre-foot; and be it further

WHEREAS, This project is endorsed and approved by the Nevada County Board of Supervisors and has widespread local backing; and

CHAPTER 173

Assembly Joint Resolution No. 9—Relative to the exercise of federal power to control illicit drug traffic.

[Filed with Secretary of State June 27, 1963.]

WHEREAS, The Legislature of the State of California, recognizing the seriousness of the problem of illicit narcotics, has, over the years, enacted drastic laws attacking this problem on both the criminal front and the medical front; and

WHEREAS, The power of the State to deal with the problem is limited because nearly all narcotics in the illicit traffic in this country have their origin outside the United States, and it is beyond the power of the State to cause their elimination at their source or to stop the export of such narcotics; and

WHEREAS, In recent years, there has been a growing illicit traffic in nonnarcotic dangerous drugs, such as barbiturates and amphetamines, which generally have their origin in the United States; and

WHEREAS, Such drugs have been shipped in interstate commerce to persons in the United States who are illicit users, rather than legitimate wholesalers or pharmacists or others who may lawfully possess such drugs, and have often been shipped in huge quantities, in foreign commerce, to purchasers outside the United States who resell them to residents of the United States for illicit use in this country, and thus coping with this traffic is, to a considerable extent, beyond the power of this State; now, therefore be it

Resolved by the Assembly and Senate of the State of California, jointly, That the President of the United States and the Congress of the United States are respectfully urged to exercise their respective powers to conduct foreign relations and to regulate foreign and interstate commerce for the purposes of (1) inducing the governments of those countries that are the original or intermediate sources of narcotics and of barbiturates, amphetamines, and similar dangerous drugs that enter the illicit traffic in this country to adopt rigid controls on the production, sale, and export of narcotics and such dangerous drugs, and (2) enactment of legislation which will require persons in the United States who ship dangerous drugs in interstate or foreign commerce (and, to the extent necessary to control such commerce, persons disposing of such drugs in intrastate commerce) to ascertain that the purchaser may lawfully possess such drugs and that the drugs are desired for legitimate purposes and to desist from shipping the drugs if such is not the case, and to keep complete records of manufacture, inventory records, and records of each transaction, which records shall be open to inspection by federal officers; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives, and each Senator and Representative from California in the Congress of the United States.

CHAPTER 174

Assembly Joint Resolution No. 42—Relative to agricultural workers.

[Filed with Secretary of State June 27, 1963]

WHEREAS, The California Legislature deems that the agricultural industry is the most important single industry in the State; and

WHEREAS, Agriculture directly contributes three billion, two hundred million dollars annually to the State's economy; and

WHEREAS, Agriculture and its allied industries contribute a combined total of approximately fourteen billion dollars to the State's economy; and

WHEREAS, Agriculture in all states should be on a fair and equal competitive basis particularly with respect to wages; and

WHEREAS, The Secretary of Labor under his authority to regulate the use of Braceros under Public Law 78 has, in effect, established minimum wages in agriculture in certain areas in California, and the Secretary of Agriculture under the authority of federal acts, such as the Sugar Act, has established wage levels in certain areas which may have the effect of discriminating against California agriculture in its ability to compete both in national and international markets; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the California State Legislature respectfully memorializes the Congress of the United States to prevent such discrimination against California agriculture, in order that California may remain in a fair competitive position; and be it further

Resolved, That the Legislature of the State of California advocates and supports a federal minimum wage for agricultural workers which would be equitable on a national scale; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit suitably prepared copies of this resolution to the President of the United States, to the Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 175

Assembly Joint Resolution No. 43—Relative to pollution of the sea by oil.

[Filed with Secretary of State June 27, 1963]

WHEREAS, Oil dumped on the seas and oceans of the world causes considerable damage to the aquatic life and kills many sea birds which, upon becoming coated with oil, die a most horrible death since they lose their buoyancy and cannot fly and thus either starve to death or are drowned; and

WHEREAS, Oil dumped in the sea off our coastal beaches often renders our beaches useless for swimming and other recreational purposes; and

WHEREAS, Forty nations of the world, at the International Conference on the Prevention of Pollution of the Sea,

which was convened by the Intergovernmental Maritime Consultive Organization, those nations representing over two-thirds of the world's shipping tonnage and well over half the oil tanker tonnage, in an effort to combat the ever-threatening evil of oil pollution of the sea, adopted the International Convention for the Prevention of the Pollution of the Sea by Oil, 1954; and

WHEREAS, The United States, by enactment of the Oil Pollution Act of 1961 (P.L. 87-167; 75 Stat. 402), implemented the provisions of the International Conference for the Prevention of Pollution of the Sea by Oil, 1954; and

WHEREAS, The Oil Pollution Act of 1961 does not, however, apply to all ships nor to all discharges of oil into the sea; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the United States State Department and the Congress of the United States are hereby respectfully memorialized to take all steps necessary to further implement existing laws, treaties, and conventions in order to adequately protect our seas from pollution by oil; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the United States State Department, to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 176

Assembly Joint Resolution No. 23—Relative to the use of federal tax revenues on alcohol for State's alcoholic rehabilitation programs.

[Filed with Secretary of State July 1, 1963]

WHEREAS, The disease of alcoholism has caused great human misery and economic waste in the State of California; and

WHEREAS, The disease of alcoholism ranks fourth among health problems in the United States, behind mental illness, heart disease, and cancer; and

WHEREAS, The disease of alcoholism is a major source of law enforcement problems at the state and local levels; and

WHEREAS, The State of California is attempting to combat the disease of alcoholism by rehabilitation and education programs; and

WHEREAS, The state rehabilitation and education programs suffer from grossly inadequate monetary funds; and

WHEREAS, The federal government receives approximately 90 percent of all tax revenues from alcohol consumed in the State of California; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Congress of the United States be respectfully requested to enact legislation providing for the appropriation of 5 percent of the alcohol tax revenue to the states for the encouragement of the solution to problems created at the state and local levels by the disease of alcoholism, provided that the states which are recipients of this appropriation be limited to those which adopt a program of research, education, treatment and rehabilitation of the alcoholic; and be it further

Resolved, That the Chief Clerk of the Assembly be directed to transmit copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

WHEREAS, Through the business enterprise program for the blind, the Vocational Rehabilitation Service trains and establishes blind and disabled persons in the operation of cafeterias, vending stands and snack bars; and

WHEREAS, Such rehabilitation of the blind and disabled restores hope and dignity to the lives of these stricken citizens and removes a substantial burden from the state welfare program; and

WHEREAS, The State of California currently permits the operation in state buildings of approximately 222 vending stands, snack bars and cafeterias by disabled and blind persons; and

WHEREAS, A savings of approximately one-half million dollars per year in welfare aid is made through the continued gainful employment of these blind and disabled persons in state-operated buildings; and

WHEREAS, The continued employment of the blind and disabled by the State of California is an example to be followed by other public and private employers in the State; and

WHEREAS, State employees and visitors who patronize the snack bars, vending stands and cafeterias are well satisfied with the quality service and economical products offered by the blind and disabled operators; and

WHEREAS, It is desirable that all state agencies plan to make maximum use of trained personnel in the new state buildings to be established in the future; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That in the provision of snack bars, vending stands and cafeterias in state buildings, the several state agencies shall whenever possible permit the operation of such facilities by blind and disabled persons; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the Director of Finance and to the Bureau of Vocational Rehabilitation in the State Department of Education.

CHAPTER 178

[Filed with Secretary of State July 1, 1963]

Resolved by the Assembly of the State of California, the Senate thereof concurring, That in addition to any money heretofore made available to it, the sum of fifty thousand dollars ($50.000) is hereby appropriated from the Contingent Funds of the Senate and Assembly for the payment of any and all expenses of the Joint Committee on Legislative Organization (created by Section 9107 of the Government Code) and its members and for any charges, expenses or claims it may incur, to be paid equally from said contingent funds and disbursed, after certification by the chairman of the committee, upon warrants drawn by the State Controller upon the State Treasurer.

CHAPTER 179

Assembly Concurrent Resolution No. 68—Relative to the deaf and hard of hearing.

[Filed with Secretary of State July 1, 1963.]

WHEREAS, Existing programs for the deaf and hard of hearing are financed out of state and local funds, and are completely inadequate to meet the needs of the deaf and hard of hearing; and

WHEREAS, The existing programs have met with only limited success, due to the failure of persons to use them either because of apprehension or lack of understanding; and

WHEREAS, If provision were made for services for the deaf and hard of hearing under the present medical assistance program for public assistance recipients, the State would qualify for federal funds, and it would be possible to provide more adequate services; and

WHEREAS, The inclusion of a program for the deaf and hard of hearing within the medical assistance program for public assistance recipients would lead to the establishment of adequate procedures to guarantee against the problems which now exist by giving recognition to the need for the appropriate utilization of professional audiologists, otologists, hearing aid dealers, hearing centers, and sociopsychological assistance; and

WHEREAS, Inclusion of such a program within the medical care program would also permit a wider choice of vendors to recipients, since payment under the program is assured vendors and may be made without any undue delay; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the State Department of Social Welfare is hereby requested to establish a hearing aid program in connection with the medical care program for public assistance recipients, to begin at the earliest possible date, and to cover diagnosis, prescriptions, acquisition, fitting, instruction, and repair; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to send copies of this resolution to the Director of Social Welfare and to the Chairman of the State Social Welfare Board

---

CHAPTER 180

Assembly Concurrent Resolution No. 70—Relative to the deaf and hard of hearing.

[Filed with Secretary of State July 1, 1963]

WHEREAS, There are persons presently receiving public assistance, who are deaf or hard of hearing, and who would benefit by surgery designed to eliminate or alleviate their handicap; and

WHEREAS, While there exists a medical care program for public assistance recipients, no provision is made under that program for surgery of such nature; and

WHEREAS, The present law vests complete discretion in the State Social Welfare Board to determine the types of medical care which will be provided under the existing medical care program; and

WHEREAS, If provision were made for surgery for the deaf and hard of hearing, who would benefit by such surgery, it is possible that many persons would be benefited, and would be able to leave the public assistance rolls; and

WHEREAS, In addition, an adequate study has never been conducted with respect to the problems of the deaf and hard of hearing, so that it is not possible at the present time to evaluate those problems and to take effective steps to alleviate them; and

WHEREAS, The State Social Welfare Board is eminently qualified to conduct such a study, due to its experience in the establishment of medical care programs for the aged and for public assistance recipients; and

WHEREAS, If the board conducts the study and submits its findings to the Legislature, the Legislature will then be in a position to enact legislation to assist the deaf and hard of hearing to overcome their handicap; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature of the State of California hereby requests the State Department of Social Welfare to include in its schedule of allowances under the medical care program for public assistance recipients, at the earliest possible date, surgery for deaf or hard of hearing recipients who can be helped by such surgery; and be it further

Resolved, That the Legislature requests the State Social Welfare Board to conduct a study at the earliest possible time into all problems confronting the deaf and hard of hearing, including a review of all programs now providing assistance to the deaf and hard of hearing, and to report its findings to the Legislature at the 1965 Regular Session; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the Director of Social Welfare and to the Chairman of the State Social Welfare Board.

Assembly Concurrent Resolution No. 77—Relative to a study of revision of the State Constitution by the Joint Committee on Legislative Organization.

[Filed with Secretary of State July 1, 1963]

WHEREAS, The Constitution of the State of California through the process of constant amendment has grown to be bad in form, inconsistent in many respects, filled with unnecessary detail, and replete with matter which might more properly be contained in the statutory law of the State; and

WHEREAS, The State Constitution, adopted in 1879, has grown from a document of some 16,000 words to an instrument exceeding 70,000 words in length, as contrasted with the Federal Constitution of about 7,500 words; and

WHEREAS, A constitution should contain only the basic and fundamental law of a state, rather than being filled with detailed and statutory material; and

WHEREAS, The people of the State of California did approve at the 1962 general election Proposition 7, which amended Article XVIII, Section 1 of the State Constitution to permit the Legislature to propose revisions of the Constitution, in addition to its power to propose amendments thereto; and

WHEREAS, These facts point to a very real need for revision of the State Constitution, to make it a truly organic and basic guarantee of rights, and indicate the manner in which such revision may be obtained; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, As follows:

1. The Joint Committee on Legislative Organization, in addition to its other powers, is hereby authorized and directed to study and examine all facts relevant to the subject of this resolution, and to submit to the Legislature recommendations for the revision of Article IV and such other articles of the State Constitution as it may deem proper to revise at the 1965 Regular Session, or at any extraordinary session which may convene in the interim with respect to this subject.

4. In addition to its other powers, the committee shall have power to appoint the members of a Constitutional Revision Commission if one is created by statute and to co-operate with such commission.

5. The sum of forty-five thousand dollars ($45,000) or so much thereof as may be necessary is hereby made available from the Contingent Funds of the Senate and Assembly for the expenses of the committee and its members and for any charges, expenses or claims it may incur under this resolution, to be paid from the said contingent funds equally and disbursed, after certification by the chairman of the committee, upon warrants drawn by the State Controller upon the State Treasurer.

[Filed with Secretary of State July 1, 1963.]

WHEREAS, On May 18, 1963, the Del Norte Rod and Gun Club of Crescent City made an initial plant of several thousand catchable steelhead trout in the Smith River, east of Crescent City; and

WHEREAS, The club raised the money for the project by sponsoring trapshoots at its local club grounds; and

WHEREAS, The purpose of the plant was to provide summer trout fishing for visiting tourists and local anglers; and

WHEREAS, The Smith River system is one of the very few clear-water streams in the State, with year-around ample flow, good cover, and complete accessibility to fishermen, and yet little or no fish planting has been done by the Department of Fish and Game, now, therefore, be it

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its 1963 Regular Session commencing on the seventh day of January, 1963, two-thirds of the members elected to each of the two houses of the Legislature voting therefor, hereby proposes to the people of the State of California that the Constitution of the State be amended by amending subdivision (f) of Section 14⅘ of Article XIII thereof, to read:

(1) Taxes upon their real estate.

(2) That an insurer transacting title insurance in this State which has a trust department or does a trust business under the banking laws of this State is subject to taxation with respect to such trust department or trust business to the same extent and in the same manner as trust companies and the trust departments of banks doing business in this State.

(3) When by or pursuant to the laws of any other state or foreign country any taxes, licenses and other fees, in the aggregate, and any fines, penalties, deposit requirements or other material obligations, prohibitions or restrictions are or would be imposed upon California insurers, or upon the agents or representatives of such insurers, which are in excess of such

taxes, licenses and other fees, in the aggregate, or which are in excess of the fines, penalties, deposit requirements or other obligations, prohibitions, or restrictions directly imposed upon similar insurers, or upon the agents or representatives of such insurers, of such other state or country under the statutes of this State; so long as such laws of such other state or country continue in force or are so applied, the same taxes, licenses and other fees, in the aggregate, or fines, penalties or deposit requirements or other material obligations, prohibitions, or restrictions, of whatever kind shall be imposed upon the insurers, or upon the agents or representatives of such insurers, of such other state or country doing business or seeking to do business in California. Any tax, license or other fee or other obligation imposed by any city, county, or other political subdivision or agency of such other state or country on California insurers or their agents or representatives shall be deemed to be imposed by such state or country within the meaning of this paragraph (3) of subdivision (f).

For the purposes of this paragraph (3) of subdivision (f) the domicile of an alien insurer, other than insurers formed under the laws of Canada, shall be that state in which is located its principal place of business in the United States.

In the case of an insurer formed under the laws of Canada or a province thereof, its domicile shall be deemed to be that province in which its head office is situated.

The provisions of this paragraph (3) of subdivision (f) shall also be applicable to reciprocals or interinsurance exchanges and fraternal benefit societies.

(4) The tax on ocean marine insurance.

(5) Motor vehicle and other vehicle registration license fees and any other tax or license fee imposed by the State upon vehicles, motor vehicles or the operation thereof.

CHAPTER 184

Assembly Joint Resolution No. 38—Relative to representation of defendants financially unable to obtain an adequate defense.

[Filed with Secretary of State July 2, 1963.]

WHEREAS, It has long been evident, as noted by such responsible organizations as the American Bar Association, that inadequate provision has been made for making the means to obtain an adequate defense available to a defendant in a federal criminal case financially unable to obtain such a defense himself; and

WHEREAS, It has been recognized by the courts that a layman almost never can defend himself adequately in a court and it has been further recognized that representation by counsel is only a part of an adequate defense—that such services as investigation are also often necessary to an adequate defense; and

WHEREAS, There is now pending, before the Congress of the United States, legislation known as the Criminal Justice Act of 1963 (S. 1057 and H.R. 4816) which would establish an effective system of providing an adequate defense to persons financially unable to obtain such a defense themselves; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to enact substantially the Criminal Justice Act of 1963; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each senator and representative from California in the Congress of the United States.

SEC. 6. There shall be in each of the organized counties, or cities and counties, of the State, a superior court, for each of which at least one judge shall be elected by the qualified electors of the county, or city and county, at the general state election, except that in any county or city and county containing a population of more than 700,000, as determined by the last preceding federally published decennial census, in which only the incumbent has filed nomination papers for the office of superior court judge, his name shall not appear on the ballot unless there is filed with the county clerk or registrar of voters, within 20 days after the final date for filing nomination papers for the office, a petition indicating that a write-in campaign will be conducted for the office and signed by 100 registered voters qualified to vote with respect to the office.

If a petition indicating that a write-in campaign will be conducted for the office at the general election, signed by 100 registered voters qualified to vote with respect to the office, is filed with the county clerk or registrar of voters not less than 45 days before the general election, the name of the incumbent shall be placed on the general election ballot if it has not appeared on the direct primary election ballot.

There may be as many sessions of a superior court, at the same time, as there are judges elected, appointed or assigned thereto. The judgments, orders, and proceedings of any session of a superior court, held by any one or more of the judges sitting therein, shall be equally effectual as though all the judges of said court presided at such session.

If, in conformity with this section, the name of the incumbent does not appear either on the primary ballot or general election ballot, the county clerk or registrar of voters, on the day of the general election, shall declare the incumbent re-elected.

WHEREAS, The Members of the California Legislature and members of the Capitol press corps, over a period of 14 years, have found a common meeting ground on the greens where neither a tabling motion by the lawmakers nor the force of the public prints by the correspondents can prevail; and

WHEREAS, The biennial press-legislative golf tournament has always been a source of fun, frolic and fellowship for all the participants, and

WHEREAS, The enjoyment of all players, be they statesmen duffers or deadline putters, was outstanding at the 1963 tournament held at the beautiful Valley Hi Country Club; and

WHEREAS, The Civil Aeronautics Board, on a delegated staff basis, without any hearing being afforded the City of Fresno, has granted Trans World Airlines' application for temporary suspension but the said order granting the said application has been stayed by the board pending the disposition by the board of the request of the City of Fresno for improved service from Trans World Airlines in the Southern Rocky Mountain Area Local Service Case; and

WHEREAS, The elimination, even on a temporary basis, of Trans World Airlines' scheduled service to the City of Fresno without affording to the City of Fresno the full hearing procedure available under the Federal Aviation Act of 1958 will unduly prejudice the scheduled air transportation needs of over ten thousand yearly Fresno air passengers; and

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California hereby respectfully memorializes the Civil Aeronautics Board to immediately schedule Trans World Airlines' application for permanent deletion of Docket No. 13429, for prehearing conference and that any further action by the board on Trans World Airlines' application for temporary suspension of Docket No. 13430, be further stayed until the board has ultimately disposed of Docket No. 13429; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to each member of the Civil Aeronautics Board.

WHEREAS, There has been an increasing tendency for school districts and architects to design facilities costing in excess of these allowances; and

WHEREAS, Some school districts have received bids in excess of these cost allowances and have sought approval by the State Allocation Board of the bids conditioned upon a reduction of the cost by deductive change order; and

WHEREAS, The majority of districts do not find this practice necessary and in some counties, such a procedure has been held invalid; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That, effective September 1, 1963, the State Allocation Board is requested not to approve any construction bids conditioned upon reducing the building cost by a deductive change order or similar method; and be it further

[Filed with Secretary of State July 5, 1963]

WHEREAS, The Department of Defense with the approval of the President will shortly award construction contracts for the building of six nuclear-powered, Polaris missile submarines in the program of the United States Navy for the fiscal year 1964; and

WHEREAS, Testimony was presented to the Defense Appropriations Subcommittee of the Committee on Appropriations of the House of Representatives by the Comptroller of the Department of Defense indicating a tentative decision to assign construction of all six of these submarines, the last of the announced current program of Polaris submarines, to East and Gulf Coast shipyards and none of such work to shipyards on the West Coast; and

WHEREAS, The capability of constructing nuclear-powered and Polaris missile submarines has been established on the West Coast in an outstanding manner by construction of the SS(N) Sargo in 1957; the SS(N) Halibut and SSB(N) Theodore Roosevelt in 1959; the SS(N) Scamp in 1960; the SS(N) Permit and SS(N) Plunger in 1961; the SSB(N) Andrew Jackson and SSB(N) Woodrow Wilson in 1963; and with the SSB(N) Daniel Boone, SSB(N) Kamehameha and SSB(N) Stonewall Jackson on the building ways at this time; and

WHEREAS, A decrease in the assignment of similar work to West Coast shipyards will tend to increase levels of unemployment of personnel in these fields and to loss of trained personnel in these vital skills to shipyards on the West Coast and will reduce the level of readiness and capability of West Coast shipyards to meet emergencies in meeting the needs of national defense and the United States Fleet; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the President and Secretary of Defense are urged to review all of the factors affecting the shipyard industry of the West Coast before assigning construction contracts for the nuclear-powered, Polaris missile submarines for the fiscal year 1964 and give every consideration to the assignment of at least one such contract to a West Coast shipyard; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States, and to the Secretary of Defense.
